REPORT OF THE COMMITTEE

MR. SPEAKER: We, your committee on credentials, respectfully report that we find the following named persons duly elected to and entitled to seats in the House of Representatives of the Forty-seventh General Assembly as shown by the duplicate copies of the certificates of election on file in the office of Secretary of State.

Subject only to such change as may be later necessitated as a result of certain election contests now on file as shown by the said certificates of the Secretary of State as a part of this resolution.

To the Honorable, the Speaker of the House of Representatives:

I, MRS. ALEX MILLER, Secretary of State of the State of Iowa, custodian of the files and records pertaining to elections in this state,

DO HEREBY CERTIFY, That the attached instrument contains a true and correct list of State Representatives, declared by the State Canvassing Board to have been elected in the General Election of November 3, 1936.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the official seal of the Secretary of State at the Capitol, in Des Moines, this eleventh day of January, A. D. nineteen hundred and thirty-seven.

(SEAL)

COMMITTEE SENT TO THE SUPREME COURT

The chair appointed Blue of Wright, Reilly of Dubuque and Peisen of Hardin as a committee to invite a Justice of the Supreme Court to administer the oath of office to the members of the House.

MEMBERS' OATH OF OFFICE

Supreme Court Justice J. M. Parsons appeared in the House Chamber and administered the following oath of office to the members of the House:

I do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of Iowa, and that I will faithfully discharge the duties of Representative according to the best of my ability.

ELECTION OF SPEAKER

Dancer of Decatur presented the name of Hon. Floyd J. Sours of Floyd county as candidate for Speaker of the House of Representatives, preceding such nomination with the following remarks:

MR. SPEAKER AND MEMBERS OF THE HOUSE: I feel that one of the greatest responsibilities, which rests upon us as members of the Forty-seventh General Assembly, is to now select who will be the speaker of this House. I wish to present to you the name of one of our members who is particularly fitted to fill this position. He has been chosen by the voters of his county to represent them for four consecutive terms. I am sure that you will recognize that he is qualified by reason of his experience, by his past record as an exponent of legislation which is constructive and beneficial to the people of Iowa. Those of you who have served with him and know him will agree with me when I say that he has an open mind. He possesses good judgment and can be depended upon to be fair and honest. It is with a sincere appreciation of these excellent qualities that I present to you the name of Representative Roy J. Sours of Floyd county.

Curtis of Cherokee presented the name of Hon. Leroy S. Mercer of Johnson county, as candidate for Speaker of the House of Representatives, preceding such nomination with the following remarks:

MR. SPEAKER AND MEMBERS OF THE HOUSE: This body is about to select its business manager or Speaker. On the whole our minds and pursuits are perhaps as nearly alike as any group of people of like number that has occasion to assemble in an agricultural state.

The man whose name I am about to propose may be likened to this group. In association with his brother he operates a farm on the stock share lease plan, taking profits only when profits are to be had. He is an officer and director of the Economy Printing Co. He is a director of a country bank and is connected with other minor enterprises in his home county. I had occasion to learn these things first hand from those

Digitized by Google

who have seen fit to elect him three successive terms to the Iowa House of Representatives. He is fair with his neighbors, he will be fair with each of us.

As a legislator he has served on most of the standing committees of the House and has accepted the duties of chairman on many of them. If you will check his legislative record you will find that he has been an asset to good legislation. The older members know that his fairness, his qualifications, his ethics and fellowship among the members are beyond reproach.

I consider it an honor and a pleasure to place in nomination for Speaker of the House the Hon. Leroy S. Mercer.

Knudson of Marshall moved that nominations for permanent Speaker be closed. Roll call was demanded.

JOURNAL OF THE HOUSE

HALL OF THE HOUSE OF REPRESENTATIVES,
DES MOINES, IOWA, JANUARY 12, 1937.

The House met pursuant to adjournment, temporary Speaker Brown in the chair.

Prayer was offered by Dr. James Brett Kenna, pastor of First M. E. Church, Des Moines, Iowa.

Moore of Harrison moved that the Acting Chief Clerk be instructed to have the Code, Session Laws and Journals of the 46th General Assembly placed on the desks of the House members not later than the intermission during the noon hour this day.

Blue of Wright moved that the House recess until the fall of the gavel and that a committee be appointed to investigate the question as to whether a majority or a plurality of the votes for the Speaker shall determine the election.

A roll call was demanded.

Speaker pro tempore Brown appointed Judd of Clinton, Fuelling of Clayton, Keeney of Palo Alto and Gardner of Linn as tellers.

On the question, "Shall a committee be appointed to investigate the vote required to elect a Speaker?"

Senator Mason moved that a committee of three, consisting of one member from the Senate and two members from the House, be appointed to notify the Governor that the Convention was ready to receive him. Motion prevailed and the President appointed Senator Mason on the part of the Senate, and Representatives Copeland of Dallas and Strickler of Polk, on the part of the House.

The committee waited upon the Governor and escorted him to the Speaker's station.

President pro tem Byers then presented Governor Clyde L. Herring, who delivered the following message:

Mr. President, Mr. Speaker, Members of the Senate and House of the Forty-seventh General Assembly of Iowa:

It is provided by the Constitution of the State of Iowa that the Governor shall communicate by message to the General Assembly, at every regular session, the condition of the state, and recommend such matters as he shall deem expedient. It is again my privilege as Governor to comply with that provision.

By statute of the state, it is further provided that after the oath of office has been administered to the Governor and Lieutenant Governor elected for the new term, the Governor shall deliver to the Joint Assembly "any message he may deem expedient." Therefore, my successor may be expected, in accordance with law and custom, later to deliver his message pertaining to those matters he deems of vital importance to the state. I shall leave it to him to make recommendations for such specific and definite action of this body as he shall consider fitting and proper, and confine myself to the duty imposed upon me, to impart my official views upon the condition of the state. To do so must necessarily call for a brief review of my administration.

FINANCE

When I assumed office in Januray, 1933, there was an actual cash balance in the hands of the Treasurer of State of $472,000. Unpaid bills, both current and long accumulated, were outstanding in an amount far in excess of the cash on hand for payment thereof, and sufficient funds were not available to meet the necessary cost of the legislative session. It became necessary to borrow $80,000.00 from a bank to pay the second installment of legislative salaries.

Upon my recommendation, the Legislature took steps to prevent a recurrence of this condition by prompt passage of the Budget and Finance Control Act, and thereby made impossible so long as that Act remains law, an unbalanced budget through expenditures in excess of state revenues.

As of December 31, 1936, there are no outstanding warrants. The

budget is balanced; only immediate current obligations in small amounts are outstanding; the cash balance on hand is $4,698,689.83.

During the past few months many conflicting statements have been made concerning the amount of taxes collected during each of the past four years. I have had prepared by the Comptroller, but shall omit the reading of, a detailed statement of such tax collections for each of these years. It will be found in your printed copy of this message. In this connection I am considering only taxes from the payment of which no Iowa citizen of the respective taxable groups is exempt. I do not refer to fees, cigaret, gasoline, insurance premium, and like taxes, the collection of which, and the amounts thereof, are controlled by and dependent upon voluntary purchases, and the volume of which rises and falls as business and economic conditions generally, rise and fall; thus in a good business year such fees and so-called taxes will increase in amount, in a bad year they will decrease. I am referring to property taxes, tangible and intangible, and revenues from the three-point tax measure.

STATE BUDGET AND FINANCIAL CONTROL

For the past several weeks, the State Comptroller, under authority given him by the Budget and Financial Control Act, has been holding hearings with representatives of all departments of state government, for the purpose of presenting to this Legislature estimates of financial requirements for the conduct of state business during the next biennium.

Due to the watchful eye of the Comptroller and the splendid cooperation of the various departments of state government, a balanced budget has been maintained, and, as has been reported elsewhere, a cash balance is available in the state general fund at all times.

We have been operating on a rapidly rising market and prices apparently have not yet reached their peak. Due to this situation and other necessary demands, it is the judgment of the Comptroller that approximately eighteen millions of dollars for each year of the next biennium will be required to keep the budget in balance. It is estimated that revenue other than direct taxes going to the general fund of the state will approximate seven million dollars per year. This will make necessary an amount of about eleven millions of dollars, to be raised from some source by the Forty-seventh General Assembly.

The Comptroller's office is prepared to present to the General Assembly, its committees, and its individual members, full and complete details of all financial transactions of the state government during the past four years, and its judgment as to the needs for the next biennium.

STATE HIGHWAY FINANCE PROGRAM

During the past two years $7,839,000 was expended for highway maintenance, and $22,809,000 for highway construction, of which the federal government provided $15,210,000.

There was paid off during this period $9,027,000 of primary road bonds. In accordance with authority granted by the Forty-sixth General Assembly, there was refunded during this period $67,491,000 of primary

road bonds then outstanding, and in this refunding operation not only were $624,734 in premiums collected, but a total annual saving of $1,440,000 was effected by obtaining an average reduction in the interest rate from 4.65% to 2.83%. The balance of the outstanding bonds would, likewise, have been refunded had it been possible under their terms to call them for payment.

During the past year, ten counties have voted $8,835,000 of primary road bonds for paving and improving primary roads. From the time the first law authorizing the voting of primary road bonds was passed in 1919, up to and including 1936, a total of $118,171,000 of county primary road bonds were voted by ninety-six counties, and up to November 30, 1936, ninety-five of these counties had actually issued and sold primary road bonds to an amount of $111,544,000. Up until November 30, 1936, a total of $25,148,000 of these primary road bonds had been paid off and retired leaving upon that date outstanding $86,396,000 of county primary road bonds.

A serious situation presented itself in May, 1933, when six millions of highway bonds and interest matured without sufficient reserve to meet them. To avoid default in many counties, it was necessary for the Comptroller to issue warrants which were stamped "Not Paid for Lack of Funds" in an amount in excess of four millions of dollars, and under the statute these warrants drew 5 per cent interest. They were retired within the year and since that day not a single warrant drawing interest has been issued, and under the above referred to refunding plan, ample reserves have been provided to meet maturities so that a situation such as occurred in May, 1933, cannot recur.

EMERGENCY RELIEF ADMINISTRATION

The Iowa Emergency Relief Administration, established for the purpose of administering funds granted by the federal government for relief purposes and continued for this purpose, and, continued also, for the administration of appropriations made by the Forty-fifth and Forty-sixth General Assemblies, has continued through 1935 and 1936.

Federal funds granted to Iowa and administered through this agency during 1935 and 1936 totaled $13,862,471. State funds received and administered during this same period amounted to $5,344,417, and local funds administered by this agency during this same period totaled $7,108,744. This money was all expended for direct relief of persons in need because of unemployment, and to help pay the cost of such relief in those counties in which local funds were not sufficient to meet the need.

In November of 1935, the Federal Works Progress Administration took over the responsibility for employable relief cases. Several thousand projects throughout the state, of considerable value to the state and communities, were carried on under this administration, and during 1935 and 1936, $23,793,418 was expended by the Federal Works Progress Administration in Iowa for work upon such projects. This work cared for many thousands in Iowa willing and able to work rather than accept direct relief. Approximately one-half of the employable persons in Iowa receiving relief were given an opportunity to work in exchange therefor.

Wages were paid at the rate prevailing in the community for the type of work performed.

A full and detailed account of activities in the drought area, the supply of surplus commodities distributed, the educational program and student aid program, the supplying for seed purposes of corn and soy beans purchased late in 1934, the distribution of some forty thousand hogs turned over by the Agricultural Adjustment Administration to this agency, the medical program, the certification of young men for employment in the Civilian Conservation Corps, the treatment of tuberculosis patients in state and county institutions, and many other worthy activities, are fully set forth in a detailed report by the administrator, Mr. J. C. Pryor.

OLD AGE ASSISTANCE

The problem of assistance to the aged in need has not been completely solved. No program so new in our legislative field, so vast in its scope, is solved in the first attempt, but a definite and constructive beginning has been made.

Iowa was the first state in the Union to have its old age assistance statute approved by the federal government, and Iowa was the first state to receive an allocation in cash from the federal government to match state funds. Up until December 31, 1936, the state had supplied $6,587,038 to this fund and had received in grants from the federal government $2,482,967. From these funds 29,900 aged and needy Iowa citizens have received assistance and every dollar thus expended has passed back through the channels of Iowa trade.

The incoming Governor will present a plan to provide sufficient funds to care for all of those qualified for this assistance. It has my endorsement without reservation.

SALES TAX

In 1934 the legislature passed what is commonly known as the "three-point tax law." That law has carried out the promises of its sponsors. The Board of Assessment and Review has created the necessary divisions and administered the law efficiently and economically well within the limitations as to cost imposed by the statute.

As the tax on retail sales expires automatically on April first, 1937, the question of its re-enactment will be before this General Assembly. Coupled as it is with a tax upon personal net income and a business tax on corporations, it is an effective revenue measure, raising large sums at small collection cost. It should be made a permanent part of our tax system.

BANKING

During the period from January, 1933, to June 30, 1934, the Banking Department was mainly occupied in administering the emergency legislation passed by the Forty-fifth General Assembly. The program for reorganization and re-establishment of banks on a safe and sound basis progressed steadily for eighteen months.

Digitized by Google

The soundness of the program and policy followed is evidenced by the splendid growth of our system of state banks. On June 30, 1934, we had 487 banks with total deposits of $225.496,000. On June 30, 1935, we had 535 banks with deposits of $300,000,000, and on June 30, 1936, we had 543 state banks with total deposits of $346,713,000, a deposit increase of more than $121,000,000, or approximately a 55 per cent growth.

UNEMPLOYMENT SERVICE BUREAU

Under authority granted by the Forty-fifth Extraordinary Session of the General Assembly, the establishment of additional unemployment offices in Iowa as continued in cooperation with the United States Department of Labor, and with additional funds provided by the state and federal government this bureau has been enlarged and made much more effective.

As you are aware, the Extraordinary Session of the Forty-sixth General Assembly, recently adjourned, transferred this service to the Unemployment Compensation Commission created by Act of that session.

INSURANCE

Iowa is known throughout the nation as a great insurance state, and the condition of insurance is an excellent index of general business and financial conditions. At this time, 779 insurance companies, of the several kinds, are licensed in this state, of which 236 are Iowa institutions, including 12 Life companies, 5 Fraternals, 11 Fire companies, 16 Casualty, 32 State Mutuals, 1 Reciprocal Exchange, and 159 County Mutuals.

$1,741,000,000.00 of life insurance is in force in Iowa. Reserve deposits of Iowa companies in custody of the Commissioner of Insurance total $478,000,000.00, an increase of $57,000,000.00 in the past year.

Premium taxes and fees collected for the last biennium amounted to $3,304,000.00, with a total departmental expense for the biennium of $86,000.00.

STATE PLANNING

The Iowa State Planning Board, created in 1934, has demonstrated beyond question its value as a fact-finding, advisory, and program planning agency.

In my opinion it should be continued as a permanent unit of state government.

FARM DEBT ADJUSTMENT ACTIVITIES

In my message two years ago I reported upon the formation of and results obtained by the Iowa Farm Debt Advisory Council, established in 1934. The Farm Debt Advisory Council continued as originally organized up until July 1, 1935, at which time the Federal Resettlement Administration took over the administration of farm debt adjustment work in Iowa.

The work has been carried on by the Resettlement Administration under the same plan used by the Farm Debt Advisory Council. The state has provided office space for the Farm Debt Adjustment Super-

visor in the offices of the Department of Agriculture. All other expense, including district supervisors and county committee councils, has been paid since the inception of the work by the federal government.

Many millions of farm indebtedness in addition to those formerly reported, have been adjudicated by this council, thousands of farmers refinanced and millions of dollars of debts scaled down.

IOWA LIQUOR CONTROL COMMISSION

Since March 8, 1934, the Iowa Liquor Control Commission has operated in accordance with the Act passed by the Forty-fifth General Assembly upon March fifth of that year. Accomplishments from a social point of view during this time, approximately two and one-half years, have exceeded the most hopeful anticipation.

Month by month there has been evidence of a constantly growing public support from the citizens of Iowa. This system is based on the philosophy that liquor should be available to every citizen qualified to purchase it, but withheld from those undeserving of the privilege. The Iowa Liquor Control Commission has always stressed the promotion of temperance and the control of the liquor problem in the state. Profit from its operation of state-owned liquor stores has been a secondary consideration.

It has been a fundamental principle since the inception of this Liquor Control Commission, that the cost of its operation should be borne by those whom it serves, and without sacrificing the principles of temperance and control; this object has been accomplished.

A loan of $110,000, repaid in ninety days, and made out of an appropriation of $500,000, $390,000 of which was never used, is all of the taxpayers' money as such which has ever been invested in the development of the Iowa Liquor Control Commission. Since the inception of its business to December 31, 1936, net earnings of the Iowa Liquor Control Commission have exceeded $3,200,000. In addition to transferring to the general fund of the state $1,100,000 during the current year, 1936, the Commission has an investment and assets of approximately two and three-quarter million dollars, with no liability other than current expenses.

During the past two years, ending December thirty-first, the Iowa Liquor Control Commission paid to the Board of Assessment and Review in sales tax collected, $275,000; 601 persons are employed, and wages paid these employees during the calendar year 1935 and 1936 amounted to $1,150,000, or about 68 per cent of the total operating cost of the Commission.

EDUCATIONAL INSTITUTIONS

During the past four strenuous years, it has been necessary for the administration to require unusual curtailment in the expenditures of our educational institutions. The needs for the coming two years will be fully presented through the Comptroller's office.

However, I feel this observation should be made. We can continue for the next biennium without substantial increase in appropriations for

physical equipment of our state educational institutions, but if we are to maintain the high standards which have been set by our state institutions of education, increases in salaries must be made to retain in our employment the many splendid men and women who have made personal sacrifices during the past four years in order that they might remain with us. Already we have lost too many who are most difficult to replace.

Our educational institutions are recognized throughout the United States as outstanding among the states, and they must not be permitted to drop back to become just other universities and colleges.

Today I come to the close of the happiest four years of my life, happy because I have been able to accomplish something for those of my neighbors and friends of Iowa who were in need.

When I took the oath as Governor four years ago there was no happiness among the people of Iowa, only distress and black despair. The sheriff, with his warrant for the sale of farms and homes was hurrying from place to place in the performance of his unwelcome duty. Neighbor met neighbor to resist with force, if need be, the effort to deprive the unfortunate of home and shelter.

We have had some pretty trying situations during these four years. Farm mortgages were being foreclosed and farmers driven upon the highway; banks were closed at the rate of two or three a day, and dropped from 1,800 down to less than 600; bank receiverships were liquidating bank securities upon a demoralized market, with the result that stockholders and depositors alike were suffering great losses. Nearly 70,000 families in Iowa were unable to provide themselves with food or shelter. Two-cent hogs and ten-cent corn had made impossible the payment of taxes, or interest, upon thousands of farms, and thousands of farmers faced actual want. We had never recognized our obligation to those of our citizens who, through no fault of their own, were not able longer, because of age, to care for themselves. The state budget was unbalanced because millions more had been spent in 1932 than had been collected in taxes, and due to these abnormal conditions, thousands of other problems presented themselves.

In the face of these conditions it was necessary that immediate and definite action be taken. Resistance to law could not be permitted, but it was against human nature to stand by while even children were being forced from the warm protection of their homes into the streets and highways. Some other way of meeting that situation was imperative. Without authority in law, but supported by every human instinct, I issued an executive order prohibiting farm foreclosures. The courts almost without exception recognized the vital importance of that order if human rights and human liberties were to be preserved, and foreclosures came to an immediate stop. The legislature, as soon as possible, sustained that order, and the first moratorium became law.

With similar promptness a law was enacted for the protection of bank depositors, and almost over night the most dangerous of our terrible heritage from former days was under control.

I do not for one moment take the credit for what was then accom-

plished. I am only grateful that fortune placed me in a position to be among those who saved the people of Iowa from dangers more engulfing than was ever dreamed.

You know that the variety and the complexity of the problems exceeded those of any other like period in our history.

But you may not realize—you cannot realize—as fully as I do that this great record of accomplishment—and it was a great record—was made possible only through the whole-hearted and loyal cooperation of the people of this state.

The citizens of the various communities helped with the banking problems.

Organized farm groups aided by creditors and debtors alike cooperated in the problem of farm mortgages.

Corn-hog committees and farm groups cooperated with state officials not alone in handling corn loans but in dealing with the problems of drought and chinch bug infestation.

Voluntary committees of citizens worked to solve relief problems quickly and effectively.

The women's clubs and other organized women's groups were ready and willing to aid in every movement to relieve distress.

And so I repeat—what we have accomplished in solving all these problems was done by cooperation.

We fought and worked together to make the homes and farms of Iowa secure, to relieve distress, to see that no family suffered for lack of the necessities of life.

The measure of our results is found in the security that exists today in Iowa.

Our homes are secure.

Our farms are secure.

Our banks are secure.

As I look back over the legislative enactment and administrative acts of the past four years, I detect running through it all the fundamental thought of more security.

The first proclamation forbidding foreclosures was issued that our farmers might be secure in their homes until refinancing was accomplished.

Our Banking Act was passed that both depositors and stockholders might be more secure.

Our Old Age Assistance Act was enacted that security might be given to our older people.

Our Liquor Control Act was based largely upon the desire to make our young folks secure from the bootlegger and his poisoned alcohol.

The refunding of our highway bonds was provided that we might be secure against the threat of default.

Our three-point tax measure was passed to transfer from the backs of thirty per cent of our people to one hundred per cent the cost of government, and, thereby make this thirty per cent more secure from injustice.

Digitized by Google

Our relief program for those in distress, our federal cooperation, and in fact, every act has running through it a silver thread of security.

Now that we have started, through state legislation, a broader program for the several phases of social security may I not express the hope that the general aims which the past four years' records so clearly reveal be continued through the future?

Today we face another danger, not in this state alone, but nation wide, which can be met only by broad-minded action of our courts or by a change in the fundamental laws of our land. I refer to the just demands of the farmer for protection against the ravages of nature in one season and the munificence of nature in another, alike disastrous. Through federal cooperation a plan must be devised that will balance the good year against the evil year. Likewise, the just demands of labor that hours of work and the compensation therefor shall be placed upon a basis fair both to the employer and the employee; likewise that those to whom the declining sun is a symbol shall not be forced to face old age with the threat of want ever before them.

These most important things now unsolved must be worked out by men and women who have in their hearts a real and abiding love for humanity, who will consider with fairness and good faith the rights of the farmer and with him the consumer, the laborer and with him the employer, the aged and with them the young, who must bear the burdens for those upon whom have fallen the heavy hand of devastating time. They must be done by those who are determined to find ways and means to do them; they will never be done by those who are dismayed by obstacles and deterred by detail.

Here in our beloved state we have, in so far as may be done by a state alone, given protection to the aged. We have provided for social security within the limitations of previous laws, and we have given all the aid to farm and labor possible as a state.

In the past four years the clouds that were low upon the horizon have been driven away, work has been provided for those who needed work, relief has been given to those in need, business has taken on new life. The future holds much of promise to those who four years ago wore only the mantle of discouragement.

Of all of these things we could have accomplished but little save with the aid of strong hands at our nation's capitol. From our great President came leadership not exceeded in our nation's history, and today he plans things as far-reaching as those already accomplished.

In a few days I leave you to join him in carrying out the program that means so much to all our people. I go with deepest regret, for I have enjoyed the work here as your Governor.

Monday when I take the oath as Senator in the Congress of the United States I shall be away from the places I have so long enjoyed, the people who have been so kind to me, but not one of you will be forgotten. Your needs, your wishes, will always be foremost in my thoughts. I will not, I could not if I would, forget that here upon the prairies of Iowa, in every hamlet and in every crossroads are friends, men and women, who have stood loyally by me, and whose friendship I prize more than office. With

such memories I go. Inspired by such friendships I shall do the best that within me lies.

To these things I pledge myself in this my last message as your Governor.

Good-by and good luck.

SUPPLEMENTARY MESSAGE

January 14, 1937.

To the Senators and Representatives of the Forty-seventh General Assembly:

GENTLEMEN: In conformity to the assurances given in the message delivered at the joint session of the Legislature January fourteenth, I am submitting reports from the various departments as indicated below:

Agricultural
Farm Debt Advisory Council
Secretary of State
Insurance Department
State Planning Board
Emergency Relief
State Comptroller
Highways
Auditor of State
Treasurer of State
Bureau of Labor
Board of Assessment and Review
Banking Department

I shall be glad to obtain and supply to you any additional information which you may desire.

Respectfully submitted,
CLYDE L. HERRING, *Governor.*

AGRICULTURAL

Agriculture is in a more favorable position today than it has been for several years. Farmers are enjoying a greater measure of prosperity than they have for years; and prospects are better than they have been for more than a decade.

The cash income to Iowa farmers from the sale of crops and livestock, including benefit payments in 1935 was $466,849,000. According to estimates, the 1936 farm income will reach $510,000,000, making a total of $976,849,000 for the last two years. This is a gain of more than $200,000,000 over the income for the years 1933 and 1934, which was but $728,794,000.

This is almost unbelievable when we consider that all records for drouth, heat and crop pest damage were broken in 1936. Much of the farmers' income was saved, however, through the use of 4,463 tons of poison bran grasshopper bait which was issued almost without expense to the 21,550 farmers in southern and western sections of Iowa.

Digitized by Google

Improved business conditions were reflected in the amount of fees collected by the department of agriculture. For example, the amount of money collected for each of the past four years is as follows: 1933, $283,354.70; 1934. $321,340.99; 1935, $485,606.23; 1936, $551,314.75. The department has been showing a gain of approximately $100,000 per year in revenue collected.

This is significant when we stop to consider that the appropriations to the State Department of Agriculture proper have averaged about $125,000 each year. In other words, the department is collecting approximately three dollars for each one dollar received in appropriation from the State Legislature.

FARM DEBT ADVISORY COMMITTEE

The Farm Debt Adjustment activities were carried on under the direction of the Iowa Farm Debt Advisory Council, established in 1934, up to July 1, 1935, at which time the Resettlement Administration took over the administration of farm debt adjustment work in the state. The work has been carried on under the same set-up as it was during the time it was under the direction of the Farm Debt Advisory Council. The state has provided office space for the State Farm Debt Adjustment Supervisor in the offices of the Department of Agriculture, and work out over the state has been carried on in the same manner as it was under the original set-up.

The past two years have shown very marked success on the part of the County Farm Debt Adjustment Committees who have spent a great deal of time and effort in assisting many distressed debtors who have come before them. The state is divided into eight districts with a District Farm Debt Adjustment Supervisor in charge of the work in each district.

During the period from January 1, 1935, to December 31, 1936, 8,969 farmers have come to the local committees for assistance. Of this number, the local committees were able to assist 3,475 in the adjustment of their debts to a point where they could continue to operate. In the settlement of the 3,475 cases, the indebtedness involved was $73,924,736. The committees were able to prevail upon the creditors to reduce this indebtedness to $65,418,816, which is a debt reduction of $8,505,920.

In settling cases, which involves refinancing of farm mortgages to a large extent, it was necessary to pay delinquent taxes amounting to $155,269. The 3,475 farmers who received assistance from the County Farm Debt Adjustment Committees were operating a total of 391,509 acres of land.

SECRETARY OF STATE

The Department of the Secretary of State is to be credited with a noteworthy record of economy and achievement.

For the third successive biennium, this Department voluntarily proposes a material reduction of budget for its general fund divisions, the budget reduction proposed for the coming biennium representing a cut

in operating expenses of nearly thirty per cent compared to the budget in force when the present Secretary of State, Mrs. Alex Miller, took office; this exclusive of the Iowa Highway Safety Patrol, which operates from the Motor Vehicle Department maintenance fund and Drivers' License fees.

The services of the Department have been maintained at a high standard—even expanded. The Securities Department has been very active in protecting the Iowa public in matters under its jurisdiction, as has the Real Estate Division in its particular field. The principal new project was the organization and placing on Iowa roads its first Highway Safety Patrol, which was created by the last General Assembly.

INSURANCE DEPARTMENT

During the year 1936, this Department had under its supervision 779 insurance companies, of which 236 are Iowa institutions, including 159 county mutual associations, and 77 companies operating over the entire state and many in other states as well. These companies are divided as to type as follows:

98 Life Insurance Companies including 12 Iowa companies.
44 Fraternal Beneficiary Associations including 5 Iowa.
270 Fire Insurance Companies including 11 Iowa.
154 Casualty Insurance Companies including 16 Iowa.
32 State Mutual Associations all in Iowa.
22 Reciprocal Exchanges including 1 Iowa.

Three Iowa companies, two life and one casualty, have discontinued independent business since July 1, 1935. All have been reinsured under the direction of the Department, with the complete protection of policyholders.

The total amount of life insurance in force in Iowa at the beginning of 1936 was $1,740,649,947.62.

The reserve deposit of the Iowa life companies in the custody of the Securities Division of the Department, as required by law, totaled $477,672,772.32 on December 30, 1936. This amount is $56,613,868.80 more than the amount of these deposits on July 1, 1935.

During the biennial period ending June 30, 1936, the total income of the Insurance Department from taxes and fees amounted to $3,304,428.98. During this same period there was expended as Department expense a total of $86,363.16. The net income of the Department for the two-year period was, therefore, $3,218,065.82.

STATE PLANNING BOARD

The Iowa State Planning Board, a nonpartisan body created in 1934, has demonstrated beyond question its great value as a fact finding, advisory, coordinating, program planning agency, and its right to continued existence as a permanent unit of state government.

The Planning Board's careful determination of facts, impartial analysis of problems, and unquestioned public spirit have made it an accepted agency for the coordination of broad programs of land use, public works

Digitized by Google

and general welfare. The national government, in recognition of the high qualifications of this group of Iowa citizens, has imposed responsibilities of trust in the planning of programs for public construction, the analysis of population movements and trends, the study of urban growth, and the review of present land and water use policies. During the recent drouth it requested and received recommendations for long time proposals leading to better soil conservation and water utilization.

Development under the 25-year plan for conservation in Iowa has been greatly advanced by lake and stream improvement and other work sponsored by the State Planning Board in cooperation with the Conservation Commission. Nearly a hundred community parks developed under recent work programs have been based on plans prepared by the State Planning Board to demonstrate the value of planning before construction.

The pasture demonstration program in southern Iowa is a result of recommendations by the Iowa State Planning Board. The rural electrification program in Iowa has been expedited by preliminary studies and maps made by this agency.

Programs for reforestation, national park development and low cost housing have been started by the Planning Board and promised to produce more employment, greater security and more attractive environment for thousands of Iowans.

Taking advantage of the opportunity afforded by emergency work programs, the Iowa State Planning Board has cooperated with a number of state agencies in furthering their programs by studies of education facilities, public health programs, recreation and historic sites, and highway accidents. It has cooperated with municipal officials in studies of traffic, parking and other urban problems. It has cooperated further with town and county groups in the establishment of local planning committees, and is looked upon by them as a source of unbiased assistance.

Among the many valuable fact-finding studies of the Planning Board are tax analyses from which the effects of any proposed homestead tax relief measure may be determined, population studies which will be a great aid in future social legislation, and land use studies which have already proved their worth to the Soil Conservation Service and other public agencies.

New activities and relationships in modern government, greater cooperation between community, county, state and nation, have made necessary a continuous advisory, coordinating state agency. In this respect, the Iowa State Planning Board has provided a valuable service by bringing together for cooperative action various technical departments and agencies. For example, representatives of public health, conservation, transportation and other public interests recently collaborated with the State Planning Board in the analysis of Iowa water resources and in recommending measures for their future conservation and best use.

Iowa is one of 47 states having state planning boards. Although the Iowa Board is not one of the 34 which have been legalized by their legislators, it is outstanding in the scope of its program and the quality of its results. The work it has started should be continued in order to insure

Digitized by Google

for the people of Iowa a permanent, coordinated consideration of Iowa's resources and problems by a nonpartisan group of highly qualified Iowa citizens.

EMERGENCY RELIEF

The Iowa Emergency Relief Administration was established for the purpose of administering funds granted by the Federal Government to be used for relief purposes. The Extraordinary Session of the Forty-fifth General Assembly and the Regular Session of the Forty-sixth General Assembly also made appropriations to be administered through this agency. Grants of funds are made to the counties in the States in which local funds available are not sufficient to provide adequate relief, and special programs inaugurated to provide certain types or forms of relief are carried on through the Administration. No grants of Federal funds for general relief purposes have been made since November, 1935, although $100,000 was granted during 1936.

During the early part of 1935, the Relief Program was very extensive, the high point for the four-year period in the number of families in need of relief because of unemployment having been reached in January of that year. With the establishment of the Works Progress Administration during the latter part of 1935, many of the activities and functions of this Administration were transferred to that agency. Many of the cases formerly receiving relief through this Administration are now employed under the Federal Work Program, and many special programs have now been transferred to those agencies with the result that this Administration provides funds only to supplement the money available locally for the care of persons who can not be given employment or relief through other agencies, and in addition thereto, acts as a service organization to coordinate the investigations necessary to determine the need for employment or relief which will be provided through other Administrations.

Federal funds granted to Iowa and administered through this agency totaled $13,862,471 during the two years ending December 31, 1936. State funds were received in the amount of $5,344,417, and local funds were provided to the amount of $7,108,744 during the same period.

The Work Relief Program was continued until the Works Progress Administration was ready to carry on that phase of the Relief Program. Work was in operation under several thousand projects throughout the State, all of considerable value to the State or to the community. Through these projects a wide variety of work was available, including common and semi-skilled labor, highly skilled labor and clerical and professional work of many different types. Throughout the period when the Work Relief Program was in operation, approximately half of the employable persons receiving relief were given the opportunity to work in exchange thereof. Wages were paid at the rate prevailing in the community for the type of work performed and the persons assigned thereto worked the number of days necessary to earn the amount of the relief which was needed and which could be paid with funds available.

The Rural Rehabilitation Department of the Administration was especially active during the first half of 1935. Loans were made to approximately 900 families to assist them to become self-supporting. Through this department, also, money was loaned to approximately 4,000 farmers with which to purchase seed oats during the spring of 1935. The Iowa Farm Debt Advisory Council, a division of the Rural Rehabilitation Department, continued to function as effectively as previously, considering during the year, 7,722 cases and securing satisfactory adjustment in 1,980 of these. Reductions of debts in a total amount of more than seven million dollars were secured during the year. With the establishment of the Resettlement Administration under the Federal Relief Act of 1935, the work of the Rural Rehabilitation Department was transferred to the new Resettlement Administration as of July 1, 1935, and the Rural Rehabilitation Department of the I. E. R. A. was terminated.

A number of special programs inaugurated during the previous period were continued or brought to completion during 1935 and 1936. Cattle purchased in the Emergency Drought Area during 1934 were slaughtered and the meat canned for distribution to relief families.

The Emergency Education Program and the Student Aid Program were carried on by this Administration through 1935 providing worthwhile employment for nearly 1,000 teachers and more than 2,500 students, respectively. These phases of the employment program were transferred to the Works Progress Administration late in 1935.

This Administration continued to provide Federal Funds for the administration expense of the Iowa State Planning Board. The projects in operation under the Planning Board were carried on under the Work Program with all funds being provided through this Administration until November, 1935. Thereafter, these projects were in operation under the Works Progress Administration with the administrative cost of the Board paid through the I. E. R. A.

The Transient Relief Program was carried on until November, 1935, providing shelter and subsistence for persons in need thereof in those counties in which they did not have settlement rights. Suitable employment was provided for most of these persons and their minimum maintenance needs were cared for. This program, too, was transferred to W. P. A. toward the end of 1935.

A supply of corn and soy beans purchased late in 1934 were distributed for seed in the spring of 1935 to those persons in need thereof who were without funds to supply their own needs. The corn and soy beans remaining after these needs were supplied were sold to the highest bidder and the funds derived therefrom were used for the general relief program.

The Agricultural Adjustment Administration transferred to this agency during the latter part of 1934 nearly 40,000 hogs which were secured from persons who had hogs in excess of the number permitted by the A. A. A. agreement. Many of these hogs were slaughtered and disposed of to relief families during 1934 but nearly 10,000 were processed and distributed as fresh or smoked meat in 1935. The meat distributed totaled more than 700,000 pounds.

Other activities of the Administration and their present status are as follows:

The Medical Program, whereby proper medical care is assured to persons in need of relief at an expense which will be fair to the physicians and dentists and to the tax payer, is still in operation through this Administration. A child case consultant was provided by this Administration to assist with the numerous problems concerning children in relief families throughout the State until arrangements were made for the assumption of this service by the State Board of Control. Advisory nursing service was supplied until the latter part of 1935, and this service is now provided through the Works Progress Administration.

Insurance advisory service is provided to relief clients throughout the State through this Administration. Through this service persons in need of relief are assisted with their insurance problems and benefits are secured.

Through the Community Garden Program during the two years approximately three million dollars worth of vegetables were produced to aid in providing a more adequate living for relief families. The total cost of this program was approximately $210,000.00 for the two-year period to contrast with the $3.000,000 of benefit secured.

Through the Canning Program approximately $610,000 worth of foods were preserved for later use while the total expense of this program including the purchase of fruit jars and canning equipment did not exceed $65,000.00.

Grants of funds were secured for three self-help cooperatives in operation in this State, two of which are in active and successful operation. Advisory assistance is being given to these organizations at the present time.

Funds provided through this Administration made possible an investigation of individuals who had received treatment for tuberculosis in State or county institutions in previous years and to study also those persons who had been closely associated with persons who had received such treatment. This study has been completed to the extent of the funds available which were approximately $35,000.

This Administration directs the selection of young men for employment in the Civilian Conservation Corps. During the past two years nearly 10,100 such selections have been made from more than double that number of applicants.

Since the establishment of the Works Progress Administration, the Iowa Emergency Relief Administration has been designated as the official agency to investigate families in need of relief and to certify those employable persons found to be in need, as eligible for employment under W. P. A. or other agencies carrying on the Federal Work Program. These investigations and certifications have constituted a large part of the administrative work of the State and County Relief offices during the fifteen months ending December 31, 1936. More than 65,000 of these certifications have been made during that period.

This Administration provided money and grain and forage to assist

cases in need because of drought in the early months of 1935, until the crops for that year became available. When drought conditions again prevailed in the State, beginning in July of 1936, this Administration was called on to act as the coordinating agency in determining the need for relief caused by the drought. The County Emergency Relief Administrators served as Chairmen of the County Drought Committees, which certified those in need thereof for grants, for loans, or for employment, so that funds could be provided for human subsistence and for stock feed. This work was carried on in connection with the Works Progress Administration and the Resettlement Administration, those agencies providing the funds necessary for actual relief with this Administration determining the need therefor.

The Federal Surplus Commodities Corporation granted to the State of Iowa approximately 65,000 dry-cured sheep pelts and 75,000 pounds of cotton during the summer of 1936. The Federal Emergency Relief Administration granted $100,000 in cash to help pay the cost of processing this raw material into cloth, the cloth to be distributed to those in need of relief. Ninety-seven thousand six hundred sixty-five yards of wool and cotton material were produced. This cloth is being made into garments in the County Sewing Rooms, and these garments are distributed to families in need of relief.

STATE COMPTROLLER

At the close of business June 30, 1936, there was actual cash in the state treasury of $692,282.83 belonging to the General Fund of the State, and in the hands of the various county treasurers $3,626,841.21 subject to draft by the State Treasurer, making the total cash available for the State General Fund $4,319,124.04.

This balance may appear large to some, but with the State operating on a $15,000,000.00 budget, the expenditures used up most of the balance before the September tax payments could be received by the State. The severe drought seriously curtailed the September tax collections in many counties, making the balancing of the State budget more difficult than was anticipated on June 30, 1936.

We have been operating on a rapidly rising market and prices do not appear to have reached the peak. However, the Iowa Liquor Control Commission has helped materially in keeping the budget balanced by turning over to the General Fund of the State $100,000.00 (profits from sale of liquor) each month beginning February, 1936.

Due to rising market and the necessity of repair and construction of buildings that were not taken care of during the depression years, it would appear to this office that approximately $18,000,000 for each year of the biennium will be required to keep the budget in balance.

The indirect revenue that goes to the General Fund of the State should amount to $7,000,000.00 (including liquor profits) each year, making necessary an additional amount of $11,000,000.00 to be raised by taxation, or from some other source to be designated by the Forty-seventh General Assembly.

In providing revenue for the general operations of the State, the General Assembly should make provision to maintain at all times a reasonable cash balance in the state treasury.

HIGHWAYS

During the past biennium, the primary road system, which includes a total of 8,300 miles, has been maintained at a total cost of $7,889,472.45. The cost of maintaining this road system for the year 1936 was $835,000 in excess of the cost of maintaining said road system during 1935. This increased maintenance cost in 1936 is due principally to the exceedingly bad snow conditions during the months of January, February and part of March, 1936. During the same two years a total of $22,809,975.22 was expended by the State Highway Commission for construction work on both the primary and secondary road system. The primary road construction expenditure was $18,826,730.18. The secondary road construction expenditure by the State Highway Commission was $3,983,245.04. The Federal Government paid about two-thirds of this construction expenditure; the State of Iowa paid the remainder. More exactly stated, the Federal Government paid $15,210,253.87 of this total construction expenditure. The remaining $7,599,721.35 was paid by the State of Iowa from primary road funds.

For this total construction expenditure the State received on both primary and secondary roads, a total of 27,956 lineal feet of tile drain, 62,706 lineal feet of guardrail, 630.5 miles of grading to finished grade, 747.1 miles of gravel, 143.1 miles of bituminous surface, 313.4 miles of pavement, and 3,508 bridges, culverts and railroad crossings.

During the biennium, $9,027,500 of primary road bonds which were issued by the counties a number of years ago, have been paid. Pursuant to the provisions of Chapter 48 of the Laws of the Extra Session of the Forty-fifth General Assembly, $31,306,000 of primary road bonds which had been previously issued, were refunded in 1935. The average annual interest rate on these bonds was thereby reduced from 4.63 per cent to 2.41 per cent, and premiums aggregating $287,260.00 were received. In 1936 an additional $21,148,000 of primary road bonds were refunded. The average annual interest rate on these bonds was reduced from 4.50 per cent to 1.78 per cent, and premiums aggregating $96,636.00 were received. Said Chapter 48 of the Acts of the Extra Session of the Forty-fifth General Assembly was adopted in January of 1934. At that time there was a total of $95,000,500.00 of county primary road bonds outstanding. A total of $67,491,000 of these primary road bonds have been refunded in the three years since said law was enacted. The net result of these refunding operations is that the average annual interest rate on all outstanding primary road bonds has been reduced from 4.65 per cent to 2.83 per cent. The total annual primary road bond interest payment has thereby been reduced about $1,444,000, and a total of $624,734.00 has been received in premiums, on these refunded bonds. The remainder of these primary road bonds which were outstanding three years ago would have been refunded in this period of time, had it been possible to call these remaining bonds and refund them.

That the people of the state still desire highway improvements is evidenced by the fact that during the past year ten counties have voted $8,835,000 of primary road bonds for paving and improving the primary roads of their respective counties.

AUDITOR OF STATE

Prior to the enactment of the present audit law by the Forty-fifth General Assembly, the Auditor of State was only required to audit the ninety-nine counties of the state annually, and one hundred and five cities and towns of 2,000 population or over, biennially.

The revised law added to the duties of the Auditor of State, the annual auditing of all State Institutions and Educational Units, all State Departments, Bureaus and Commissions, a daily audit of the office of the Treasurer of State, an annual audit of all School Districts in the State, and changed the period of audit on cities and towns from every two years to at least once every year.

These annual audits now include the auditing of 99 counties, 105 cities and towns, 4,871 school districts, 15 state institutions under the State Board of Control, five state education units under the State Board of Education, the Iowa State Highway Commission, the State Liquor Control Commission with 136 retail stores, the State Income Tax Division, the State Sales Tax Division, the Old Age Assistance Commission, the Iowa State Emergency Relief Administration, and 65 State departments.

In addition thereto, the Auditor of State is required to supervise all state Building and Loan Associations, and examine or require them to be examined annually. At the present time, fifty of the seventy associations are being examined by the Auditor of State, the remainder being audited by private accounting firms under his supervision. Also, the Auditor of State supervises and examines all Morris Plan banks and all partial payment investment houses operating within the boundaries of the state.

Before the enactment of the present audit law, the Auditor of State made aproximately two hundred audits annually. Under the present statute, approximately 5,300 annual audits are required, or an increase of approximately 5,100 annually.

These audits have brought to light many shortages, embezzlements, irregularities and improper practices in the various units audited, and have resulted in the recovery of thousands of dollars annually. Many of these irregularities and improper practices have been corrected, and many needless expenditures have been eliminated because of the audits, thus resulting in large savings to the taxpayers of Iowa.

STATE TREASURER

The folowing is a comparative statement as to the condition of the treasury at the close of business January 3, 1935, and January 3, 1937:

In reviewing the above statement as a whole, a decided increase is noted. While there has been no such radical change during the last two years, as during the two-year period from January, 1933, to January, 1935, a more steady growth has taken place by the constructive enactment of both federal and state laws. The healthy condition of the treasury is the result of consistent and careful attention to the receipts of all funds coming into that department, as well as good judgment exercised by the Treasurer of State in the disbursements of all funds. A substantial increase in the balance of the General Revenue Fund on January 3,

Digitized by Google

1937, over that on January 3, 1935, is noted and in addition there is $1,591,239.34 in the hands of the county treasurers subject to the draft of the Treasurer of State. In this fund alone, the trend towards better condition in business is reflected and the period of depression soon will be only an unhappy memory.

Then again in the item of the Board of Assessment and Review Special Tax Fund, better known as the three-point tax law, is a sizable balance shown, practically all of which will be set aside for the application of refunds on taxes to the taxpayers of this State.

The Treasurer of State is by law the collecting agency for beer taxes, cigarette taxes and gasoline taxes. In line with the general betterment of conditions, it may be noted that increased revenues have taken place from all three of these sources. The amount collected under these laws for the last three calendar years is set out below:

	Beer	Cigarette	Gasoline
1934	$ 936,118.62	$ 1,259,969.71	$11,898,587.22
1935	1,079,928.92	1,402,625.32	12,687,170.74
1936	1,238,511.10	1,582,171.69	13,695,875.35

Under the jurisdiction of the Treasurer of State the law pertaining to the State Sinking Fund for Public Deposits is administered. On November 1, 1934, anticipatory warrants in the amount of $3,500,000 were issued for the purpose of paying public fund claims on deposit in closed banks. This issue of anticipatory warrants carried maturity dates as late as July 1, 1938, but due to the increased revenue to this fund, the entire issue was retired on July 1, 1936—exactly two years prior to the date anticipated at the time of the issue of these warrants and from this date, payment of claims against the State Sinking Fund have been paid directly out of the receipts to this fund, which consists of beer taxes, interest on public funds and dividends from closed banks in the process of liquidation. The receipts of all sources due this fund have been approximately $1,700,000 during the past six months and thus it has been possible to make payment to some 540 claimants representing counties, municipalities, school districts and townships located in sixty of the ninety-nine counties of this state. The liability of this fund has been reduced from approximately $20,000,000 to $9,000,000 and it would appear, in the event the revenue to this fund continues, that the balance of the claims against this fund may be paid out in full within the next two or three years. In line with the provisions of this law, it is of value to note that the amount of funds in closed banks in this office on January 3, 1933, of $2,806,958.73 has been reduced to $344,427.49 on January 3, 1937.

At this time there are no outstanding warrants drawn against the General Revenue Fund on which interest is accruing, and the only bonded indebtedness of the State of Iowa is the unpaid amount of Soldiers Bonus Bonds issued in 1923, in the amount of $6,600,000.00.

BUREAU OF LABOR

During this period the Bureau has been the chief source of information for the laborer, with many hundreds seeking advice and guidance.

Digitized by Google

During the two-year period ending June 30, 1936, there were 6,546 factory inspections made of establishments in the state. In addition to factory inspections, many investigations were made relative to child labor and the operation of private employment agencies during the period.

The employment of children in industry has, in recent years, declined until it no longer presents a problem of any magnitude. Specialization of occupations, efficiency and experience, ratification of the National Child Labor Amendment, exclusion of children under 16 years of age in N. R. A. industrial codes have all shown a strong tendency toward eliminating children from the industrial field. The surplus of adult labor on the market during this biennial period has also shown a marked influence in keeping the child from industrial occupational pursuits.

The Iowa State Employment Service, affiliated with the United States Employment Service during the biennial period July 1, 1934, to June 30, 1936, placed 74,342 persons into jobs, of this number 15,418 were women and 11,375 were veterans. During this period 70,733 new applications were received, of this number 24,944 were applications of women and 3,182 were applications of veterans. Also during this period the employment service officers cooperated with the relief agencies and various governmental programs to make referrals to public works employment and other governmental activities.

A statistical section was established in the Bureau of Labor for the gathering and compilation of data about which the state has hitherto had inadequate information. Factual information was gathered for the biennial period on the basis of occupational qualifications, educational attainments, and wages earned by workers and classified according to their abilities to perform certain specified duties.

On July 1, 1935, the Labor Commissioner became Director of the National Reemployment Service operating in Iowa. This service placed during the fiscal year ending June 30, 1936, a total of 53,808 persons into jobs, of this number 1,951 were women and 5,424 were veterans. For the biennial period, the Iowa State Employment Service and the National Reemployment Service, placed 128,150 persons; of this number, 17,360 were women and 16,799 were veterans.

BOARD OF ASSESSMENT AND REVIEW

Additional duties and responsibilities were added to this Board in 1934 when the Legislature passed what is commonly known as a "Three-Point Tax Law" which embodies the Personal Net Income Tax, Business Tax on Corporations, and a tax on gross receipts from Retail Sales.

That the law has carried out every promise made by its sponsors cannot be denied. The Board has also administered the Chain Store Tax which has been declared unconstitutional insofar as the gross receipts tax is concerned. As the law now stands it leaves only the unit tax, and that to date has yielded $84,883.00, with about $320,000 more claimed but not paid by reason of certain disputes still undetermined. No doubt this Legislature will re-enact some form of a Chain Store Tax which will meet constitutional objections made to the present Chain Store Tax Law.

The tax on Retail Sales under the present law expires automatically on April 1, 1937, unless re-enacted.

The best way probably to have a clear understanding of the Sales Tax and Income Tax laws is to summarize the total receipts and disbursements as of December 31, 1936, which discloses the following facts and figures:

The summary of the administration costs for the two fiscal years ending June 30, 1935, and 1936, is as follows:

	Sales Tax		Income Tax	
	June 30, 1935	June 30, 1936	June 30, 1935	June 30, 1936

BANKS AND BANKING

During the period of January, 1933, to June 30, 1934, the Banking Department was mainly occupied in administering the emergency legislation passed by the Forty-fifth General Assembly. The program of reorganization and reestablishment of banks on a safe and sound basis progressed steadily for eighteen months.

During the biennium covered by this report, our Banking Department has continued this work, but has worked mainly to consolidate the improvements and advancements previously accomplished. The soundness of the program and policy is evidenced by the splendid growth of our system of State banks.

In June 30, 1934, we had 487 banks with deposits aggregating $225,496,141.00. On June 30, 1935, there were 535 banks with deposits of $300,701,633.00, and on June 30, 1936, there were 543 banks with deposits of $346,713,047.00—an increase of $121,216,906.00, or approximately fifty-five per cent.

On June 30, 1934, these banks had loans aggregating $100,348,776.00; on June 30, 1935, $111,215,061.00; and on June 30, 1936, $139,769,128.00—an increase of $39,420,352.00, or 40 per cent.

On June 30, 1934, cash reserves aggregated $75,552,030.00, or 33.5 per cent; on June 30, 1935, $105,825,730.00, or 35.19 per cent; and on June 30, 1936, $113,701,509.00, or 32.79 per cent.

During the period, 29 new charters have been issued; 4 National banks have been converted to State, 12 banks have been moved to larger and more promising locations, and 29 small banks have either voluntarily liquidated 100 per cent, or consolidated with a neighboring bank. It is the program of the Department to encourage the organization of a new bank or the transfer of an existing bank for every community that can and will support a sound and profitable institution. With proper distribution, reasonable banking service can be rendered to all points without again creating an over-banked condition within the State. For furthering this idea, the Superintendent of Banking has issued 78 new bank office licenses, thereby assuring daily banking service to that number of bankless towns, and increasing the number of such offices to 142.

In the reorganization of banks under the provisions of Senate File 483, there were issued to depositors, trust certificates aggregating $38,630,000.00, and from June 30, 1934, to June 30, 1936, cash dividends aggregating $10,118,074.00, were paid upon these certificates.

During the year of 1935, there was paid to depositors in closed banks the sum of $10,088,038.50, and 101 receiverships were finally closed, and during the year of 1936, there were dividends paid to depositors in closed banks of $6,722,805.78, and 113 of these were final dividends, and 214 receiverships were fully completed leaving only 207 banks now in receivership.

The banks of Iowa are today in sounder condition, more efficiently managed, and in a better position to meet the demands of business than they have been at any time in the past.

IOWA LIQUOR CONTROL COMMISSION

Under date of March 5, 1934, the Forty-fifth General Assembly passed the Iowa Liquor Control Act.

On March 8th the Governor appointed, after approval by the Senate, three Commissioners, charged with the administration of the act. The Commissioners promptly undertook the formation of an organization to carry out the provisions of the act.

Notwithstanding the mistakes made in embarking on a new and untried social experiment, without precedent to serve as a guide and handicapped by untrained personnel the Iowa Liquor Control Commission has perfected an organization that is indeed a credit to the State.

Accomplishments from a social point of view during the approximately two and one-half years the state-owned liquor system has been in operation have exceeded the most hopeful anticipation. Month by month a growing public support has indicated that the citizens of Iowa appreciate the fine system available to them in the purchase of liquor. It is a system that has promoted true temperance. It is a system based on the philosophy that liquor should be available to every citizen qualified to purchase it but not available to those undeserving of the privilege. The system, of course, has not met with the approval of extremists. There are some who believe that the system is too stringent, too restrictive; there are others who believe that sale of liquor in any form should be prohibited by law. It is realized that no law of man is acceptable to all men.

The Iowa Liquor Control Commission has always stressed the promo-

tion of temperance and the control of the liquor problem in the state; profit from operation of state-owned liquor stores has been a minor consideration. Without sacrificing the primary principles of temperance and control the Iowa Liquor Control Commission out of its earnings has contributed to the General Fund of the state since February 1, 1936, to and including December 31, 1936, a total of one million one hundred thousand dollars ($1,100,000.00) or an average of one hundred thousand dollars ($100,000.00) every month.

A loan of one hundred ten thousand dollars ($110,000.00) for a period of ninety days has been the only cost to the citizens of Iowa in the development of the Iowa Liquor Control Commission. With repayment of that loan the Commission has a record of not having cost the citizens of Iowa one cent.

In addition to earnings transferred to the General Fund the Iowa Liquor Control Commission has an investment in assets of approximately two and three-quarter million dollars against which there are no liabilities other than current obligations. As reported in the Governor's message to the Forty-sixth General Assembly, net income of the Iowa Liquor Control Commission from its inception to December 31, 1934, amounted to $656,-782.12. Earnings for the biennium to December 31, 1936, are approximately two million six hundred thousand dollars ($2,600,000.00).

The two per cent state sales tax collections from liquor sales which are remitted to the Board of Assessment and Review, during the two years ended December 31, 1936, amounted to approximately $275,000.00.

On December 31, 1936, the Iowa Liquor Control Commission provided employment for six hundred one employees. Wages paid employees during the calendar years 1935 and 1936 amounted to approximately $1,150,-000.00 and represented about sixty-eight per cent of the total operating expense of the Commission.

According to the provisions of the Iowa Liquor Control Act and a ruling of the Supreme Court, the enforcement of liquor laws is wholly a problem for local law enforcement officers. Local officials, however, have been somewhat lax in the performance of this duty and, therefore, it is recommended that the legislature make a study of this problem with a view to granting the Attorney General's office a somewhat larger appropriation for the use of its law enforcement unit so that this unit can be available to assist local officers in the performance of their duty.

The Iowa Liquor Control Commission sells alcohol only to doctors, dentists, druggists, clinics and manufacturers holding a special permit to buy alcohol. Large quantities of high-proof alcohol for beverage purposes, largely used in connection with "spiked beer," are smuggled into Iowa without payment of any state tax. The enlargement of the law enforcement unit of the Attorney General's office will undoubtedly help to reduce this illegitimate traffic in alcohol.

Section 21, sub-section "A" of the Iowa Liquor Control Act provides for the issuance of individual permits at a fee of $1.00 per year. It was the intention of the legislature, we believe, at the time the $1.00 fee was specified that the income from the sale of individual permits would provide for the initial financing of the activities of the Commission until such time as the Commission would be on a liquid cash basis. It is now recom-

Digitized by Google

mended to the legislature that this section be amended to reduce the individual permit fee to twenty-five cents per year.

The Attorney General of the State has ruled that there is no provision under present laws whereby the Iowa Liquor Control Commission may provide insurance coverage for its general warehouse and office building and contents therein. Approximately one million dollars of liquor stocks are carried in the Commission's warehouse in Des Moines at all times and business prudence would suggest that the state secure protection to safeguard it from large monetary loss occasioned by fire or tornado. Liquor is a highly inflammable commodity and constitutes, therefore, a greater fire hazard than ordinary state property.

It is recommended that the legislature initiate an amendment to the Iowa Liquor Control Act whereby insurance coverage may be purchased for the Commission's warehouse and office building in Des Moines.

President Pro Tempore Byers appointed the following committee to escort Governor Herring to the Executive Chamber: Senators Moore and Breen on the part of the Senate and Representatives Elliott of Woodbury and Johnson of Buena Vista on the part of the House.

Senator Shaw moved that the Joint Convention recess until 1:00 o'clock this afternoon. Motion prevailed.

AFTERNOON SESSION

Joint Convention reconvened, Speaker Foster in the chair.

CANVASS OF VOTES

The Speaker announced that the time had arrived for the canvass of the votes cast for the offices of Governor and Lieutenant Governor at the general election held on November 3, 1936, and announced the election by the Senate as teller on the part of the Senate, Stevens of Wapello and the election by the House as teller on the part of the House, Mercer of Johnson.

The Speaker further announced that, in accordance with statute, Stevens of Wapello and Mercer of Johnson would constitute the judges of said canvass.

The Speaker then opened the returns in the presence of the Joint Convention, and the teller and the judge proceeded to canvass the vote for the Governor and Lieutenant Governor of the State of Iowa cast at the general election held on November 3, 1936.

Senator Shaw moved that the Joint Convention now recess until 1:45 o'clock p. m., Thursday, January 14, 1937. Motion prevailed.

Report adopted.

Yager of Dickinson moved that a committee of three be appointed to notify the Senate that the House was ready to receive it in Joint Convention. Motion prevailed and the Speaker appointed as such committee: Yager of Dickinson, Engel of Scott and Benz of Chickasaw.

The committee appointed to notify the Senate that the House was ready to receive it in Joint Convention reported that its duty had been performed. The report was accepted and the committee was discharged.

The Sergeant-at-Arms announced the arrival of the President Pro Tempore of the Senate, the Secretary of the Senate and the Honorable body of the Senate.

The President Pro Tempore of the Senate was escorted to the Speaker's station, the Secretary to the Chief Clerk's desk and the members of the Senate took seats in the west side of the chamber.

And the total vote cast for Lieutenant Governor is as follows:

For John K. Valentine	515,141
For W. C. Edson	488,485
For Arthur Houver	19,400
For L. J. Smay	1,300
For A. W. Saarman	1,137
For Frank Nedved	1
For J. Sinek	1

All of which is respectfully submitted.

LAMAR FOSTER,
Speaker of the House of Representatives.

We the duly elected Judges and Tellers of the canvass above published do hereby certify the same to be correct.

ROY E. STEVENS,
Judge and Teller on the part of the Senate.
LEROY S. MERCER,
Judge and Teller on the part of the House of Representatives.

Senator Stevens moved that the report be adopted. Motion prevailed and the report was adopted.

President pro tempore Byers, of the Joint Convention, announced that Nelson G. Kraschel, having received the highest number of votes cast for Governor, was duly elected to the office of Governor of the State of Iowa for the ensuing term, or until his successor is elected and qualified, and that John K. Valentine was duly elected to the office of Lieutenant Governor for the ensuing term or until his successor is duly elected and qualified.

The following certificates were signed in the presence of the Joint Convention:

Lieutenant Governor John K. Valentine, President of the Joint Convention, presiding, then presented Governor Nelson G. Kraschel, who delivered the following message:

Mr. President, Mr. Speaker, Members of the Forty-seventh General Assembly:

Today we pass the forty-seventh biennial milepost in Iowa's governmental history. As we slowly turn the pages of the record, we are conscious of the fact that the last four years is destined to constitute an important page in the history of our commonwealth. The period began and ended with emergency legislation. Those of us who took part in formulating that legislation will long remember farm debt moratorium, Senate File 111, moratorium on insurance companies' cash payments, postponement of tax paying dates, direct relief, old age pension, tax reduction measures, the revamping of our antiquated taxing laws, all of which was climaxed with the social securities act of three weeks ago.

The far-reaching influence of that legislation upon the public's attitude toward government is definite. Like a thread of gold, we find woven through the tapestry of it all, the brilliance of Christian tolerance and a greater consideration for the unfortunate members of society. Temporarily, the exercise of financial and legal power over the weak was suspended. Fair trade legislation of all kinds was a part of the program. Our experience during those hectic days has left a profound impression upon us. Today we stand humbly in the presence of God, a grateful people, closer united, in a common cause.

The crisis of the depression has passed and only the effects of the devastating drouth retards our recovery. We confidently expert better crops. We are, therefore, justified in turning our attention from the emergency legislation to a long time program for the future. Your state government is eager to, and capable of, assuming leadership. Our experience has taught us to lean more heavily upon the power of well directed government. Too often, value of government has been rated by its cost. We have learned that real economy is the economical operation of all needed functions and not the elimination of any needed service solely for the purpose of reducing the total tax bill.

If we are to preserve the profit system in business and protect the interests of all citizens, we must use the power of government wisely. Constructive legislation does not emanate from the mind of one man alone. It develops in answer to public need and is drafted from the composite opinions of many. In addressing myself on this occasion to the duty imposed, it is my purpose to call your attention only to the problems that exist. The state confidently relies upon you for their solution.

AGRICULTURE

The happiness and prosperity of our people definitely depends upon agriculture. It is our chief industry, and Iowa is the most important

Digitized by Google

agricultural state of the nation. It is my duty on this occasion to be specific in referring to this important question.

Iowa possesses more "Class A" farm land than any other state. Our seventy-five year crop record is unequaled. We are, therefore, an important fact in the production of the nation's food supply. Our concern is to protect our valuable lands from further deterioration from excessive farming and help rehabilitate the agricultural industry in America to the end that farming will again be profitable in this commonwealth.

We cannot continue destruction of our farms, nor refrain from taking active part in the formulation of an agricultural policy for the nation. We are grateful to the federal government which, as never before, recognized its responsibility to the nation's basic industry. In 1922, the late Henry C. Wallace, one of Iowa's greatest citizens, while Secretary of Agriculture, said:

> "If the business of farming is not given greater respect by the people, and more adequate protection by the government, we will see peasantry on the farms of Iowa within ten years."

The lack of respect and governmental protection to which he referred continued and his prophecy came true. The nation is now aroused to the importance of this problem, and the federal government is making a courageous effort to correct the mistakes of the past and place the agricultural industry on a sound basis. Iowa is honored and fortunate that her illustrious son, the Honorable Henry A. Wallace, son of the late Henry C. Wallace, is chief director of that program.

Agricultural history is being made. Tariff laws are being modified. National legislation of all kinds is being proposed and enacted, and out of it all will come a national agricultural policy and program that will affect the fortunes of Iowa people for the next fifty years. The importance of this program requires the attention of your state government.

The farm organizations, the agricultural press, our great Iowa agricultural college at Ames, together with the extension service, voluntary farm committees for administrative purposes and many other constructive forces have rendered valuable service to agriculture. They have not always agreed. Often our congressional delegation was divided. The time has arrived when the State of Iowa should direct its government to bring about a coordination of all the constructive forces within the state, to end that Iowa's policy on agriculture will be clear and definite. Such action will permit those of our citizens who speak for the state in the halls of congress, in national conferences on agriculture, from the platform, or in the press, to know the policy of the people and be guided by it. We can take a lesson from the record of our sister industrial states of the East who, without respect to politics or other internal dissension, have always been united in the support of their state's program in congress and elsewhere.

What is Iowa's position on farm tenancy, soil conservation, crop reduction program, farm financing, western reclamation projects, resettlement administration, tariffs, reciprocal trade treaties? Many of these questions are still to be debated and argued. It is out duty to provide

Digitized by Google

the machinery that will enable us to intelligently answer these, and other questions, and enable Iowa to present a united front wherever its influence can be used to the advantage of all our people. I cannot conscientiously assume the duties of chief executive of this state without making proper provision to protect Iowa's interests in the formulating of a national agricultural program that may affect our state for generations to come. I shall solicit your advice and assistance on this question before the legislature adjourns.

We have perplexing internal farm problems that deserve attention. The State Planning Board, Greater Iowa Committee and the Farm Debt Advisory Committee have rendered valuable service in pointing the way to the solution of some. The practical experience of farmers, together with scientific surveys now available, teach us that a proper land use program is necessary. Many millions of acres which have been intensely farmed for many years are so badly eroded and infested with obnoxious weeds, that the operating farmers can no longer make a living from the land.

This land, at present value, represents a sound investment if seeded to blue grass and devoted to beef-cattle grazing. Iowa purchases approximately a million feeder cattle from the ranges of the Rocky Mountain district annually. The freight bill on these cattle is nearly four million dollars ($4,000,000.00). If our eroded lands were returned to blue grass pasture, we could raise every one of those cattle within the confines of this state. Such a move would necessarily mean ownership in larger units, which would ultimately mean some readjustment of population. State leadership is required for the permanent solution of such problems.

FEDERAL COOPERATION

A few weeks ago in special session, we adopted social security legislation which was necessary to cooperate with the federal government to the end that our people would reap the benefit of the national social security act. By common consent, further review of this act is planned in this session.

Other enabling legislation will be necessary to give Iowa people the benefit of federal aid to the blind, dependent children and vocational rehabilitation. Your duty is to investigate carefully the need for legislation to enable Iowa farmers to participate in the national farm program. We should be grateful for the opportunity to cooperate with the federal government to strengthen these programs.

SALES TAX

The present two per cent (2%) sales tax automatically expires April 1st, this year. Since its enactment in 1934, it has served our state well; $32,314,116.59 has been raised from this source that would otherwise have been paid by the real estate and property tax payers. It is generally conceded that property tax payers were entitled to some relief from their excessive burden. I, therefore, recommend that this legisla-

Digitized by Google

ture extend indefinitely the sales tax at its present rate, and that the annual revenues from the sales tax, the personal net income tax and the corporation income tax be pooled and allocated as follows:

1. A sufficient amount should be set aside which, together with federal funds available, will pay in full every eligible qualified applicant for old age pension under the Iowa Old Age Assistance Act. It is estimated that approximately six million dollars ($6,000,000.00) will be required for this purpose. The two dollar ($2.00) head tax and the million dollar ($1,000,000.00) annual property levy now in force for its support should be terminated.

2. After making proper allocation for relief, I urge that the remainder of these revenues, which this year would approximate ten million dollars ($10,000,000.00), be allocated exclusively to homestead tax relief. Legislation to obtain this objective fairly, will be both complicated and difficult, but justice demands its accomplishment insofar as legally possible.

It will insure the allocation of sales and income tax revenues exclusively to Iowa property owners. It will help to solve our farm tenancy problem. It will provide tax preference to all those who live in their own homes and on their own farms, thereby increasing the attractiveness of home ownership, which will contribute more than anything else that we can do to insure the stability of our society and perpetuity of our institutions.

RELIEF

The State of Iowa, in conjunction with the federal government, has been liberal with its citizens who were unable to find employment. It should never be said that government, state or national, failed to respond when citizens were in need. Save for the drouth of last year, Iowa would today be able to discontinue relief. A recent survey indicates that three million dollars will be required to continue the assistance now in force. Frankly, I am hopeful that with returning prosperity, the full payment of old age pensions and good crops will soon terminate the need of relief, but I cannot fail to recommend that you make appropriations in keeping with the apparent need.

MORATORIUM AND FARM TENANCY

The financial distress in the drouth counties of the state has created a situation which requires, in the public interest, that the farm debt moratorium law be extended. The ownership of approximately thirteen thousand (13,000) farms is being protected for their owners by the present moratorium law which expires March 1, 1937. If the law should not be extended, thousands of practical and dependable farmers would lose their farm homes. Such a wholesale loss of ownership would be a major disaster, not alone to the farmers who lose title to the land, but to the communities in which they live, because of the tremendous

Digitized by Google

increase in the number of farms that will be added to the already menacing problem of farm tenancy. It is estimated that more than fifty per cent (50%) of Iowa farms are now operated by tenants. The problem has created great concern throughout the nation. Interested citizens are conducting a national survey throughout the nation this week. No single business reform can correct the situation, but Iowa will have made a practical approach to the problem if you extend our moratorium law and grant tax preference to farm and city homestead owners.

HIGHWAY AND MOTOR TRAFFIC

Improved highways have led the march of civilization throughout world history. Today, all weather roads are necessary for proper transportation of mail, passenger and freight traffic. Iowa enjoys a most enviable record in the rapid construction of permanent roads. A network of all weather roads within our primary system now connects all of our principal cities and towns by carefully planned routes. The development of this system now presents us three new problems:

1. The tremendous toll of lives and personal injury from highway accidents constitutes a menace to every highway traveler.

2. The increasing freight traffic by heavy unregulated trucks adds not only to the danger of the highway, but it is felt that they are not paying their full share toward maintenance and construction of highways.

3. A well planned system of farm-to-market roads of cheaper construction than our primary system should be immediately devised and constructed to carry the benefits of modern transportation into every community of Iowa.

In order to construct a carefully planned farm-to-market road system throughout the state, two important requirements must be met at the out-set: One is the funds with which to do the work, and the other is proper supervision.

Under the present Iowa law, there is approximately five million dollars ($5,000,000.00) from the gasoline tax funds allocated to the counties for farm to market road construction and their maintenance.

The Iowa State Highway Commission is this year receiving six hundred and fifty thousand dollars ($650,000.00) from the federal government for secondary road construction. These funds must be matched with a like amount of funds under the control of the Iowa State Highway Commission. We are led to believe that these federal appropriations will increase in future years. If the state would levy a proper highway usage tax upon trucks using our highways and the increased revenues thus produced be allocated to the Iowa State Highway Commission for the purpose of constructing secondary roads, it would place in their hands a substantial sum of money.

Digitized by Google

If these combined state and federal secondary road funds were used to match a like amount of the gasoline tax funds now allocated to the counties, a secondary road construction fund, at least four times the federal allotment, would thus be built up. Supervision of such construction should be under the direction of the Iowa State Highway Commission. It is not unreasonable to expect that eventually such a plan would provide as much as ten million dollars ($10,000,000) annually for this program and insure a coordinated system of well constructed farm-to-market roads.

This proposal does not contemplate a neglect either of the primary system or the expansion thereof. It does not contemplate interference with other Iowa State Highway Commission finances or duties. It merely contemplates taking full advantage of the opportunity afforded by the new policy of the federal government in providing federal aid for the construction of secondary roads.

The enforcement of road law involves not only regulation of passenger car traffic, but the enforcement of truck usage tax, license laws and overload. Enforcement of truck regulations that would positively limit the size and weight of trucks to the accommodation of our highways is a needed function of this department. All of this enforcement can be more efficiently and economically administered by centralizing all road, truck and motor vehicle law enforcement in a single department. In 1935, the legislature set up a small road patrol. It has proven effective insofar as its authority extended. Highway deaths have been reduced from five hundred seventy-five (575) in 1935, to five hundred twenty-five (525) in 1936. This program was financed from a driver's license fee of twenty-five cents (25c) for two years. An increase of the driver license fee would not only make it possible to exercise more caution in the issuance of drivers' licenses, but to finance an adequate motor patrol whose authority would extend to the enforcement of all laws pertaining to highway traffic.

BOARD OF CONTROL

The State of Iowa maintains fifteen institutions under the Board of Control. They consist of juvenile homes, hospitals, penitentiaries and reformatories for the care of our unfortunate citizens. Most of these institutions operate large farms in an attempt to produce food requirements at the lowest possible cost. There are approximately fifteen thousand (15,000) people in these institutions. The increasing cost of living will necessitate an increased budget for operating expenses. Iowa owes proper and considerate care to the unfortunate citizens whose lives must be spent in these institutions.

For many years prior to the depression most of these institutions were badly in need of repair, replacement, or enlargement. Many of them are not only unsanitary but veritable fire-traps. It would seem desirable now to start a carefully planned building program that would in a few years completely rehabilitate these buildings and bring them to the high standard where they belong.

Digitized by Google

The trend of government today is to extend assistance to those in need. If that philosophy of government is correct, it is proper that those who are able should pay for the service of government. There are many people treated in certain state institutions capable of paying and who are paying for their care. Others just as capable are not and should be required to do so. Law violators committed to our penitentiaries and reformatories, if able, should also be required to pay the cost heretofore borne by the state. There are many cases in which proper action accompanying the arrest and prosecution would produce revenue sufficient to pay for their stay in our institutions without injustice to their families. If a law violator possesses wealth there is no sound reason why Iowa should bear the expense.

PUBLIC HEALTH

It is the recognized duty of state government to protect the public health by insisting upon proper sanitation and preventing the spread of contagious and infectious diseases. In no field has the world progressed as rapidly in the past fifty years as in medicine, surgery and other branches of the healing arts. Public benefits from this progress can be accomplished only by a greater distribution of information designed to prevent disease and its effects. If all people possessed the information known to health scientists, life would be happier and more extended. The mothers of Iowa are entitled to all information available that will enable them to rear more healthy children, thereby contributing to a stronger, more virile race. Gradually the restraint and sensitiveness of free discussion of diseases and ailments is being broken down. It is being recognized as a practical problem confronted by all human beings. Particularly is this true in the field of so-called social diseases, which affect ten per cent of the people in this nation. The secrecy which has surrounded this menace in the past has prevented proper medical treatment and is, in great part, responsible for its rapid advance. The Iowa Department of Health should be adequately equipped to meet its responsibility and should be encouraged by adequate support to attack the problem which contagious and infectious diseases present, in a courageous public manner.

REORGANIZATION AND CONSOLIDATION OF DEPARTMENTS OF GOVERNMENT

Four years ago the legislature authorized a comprehensive survey of state government, looking forward to consolidation and revision of methods for the purpose of more economy and efficiency. The budget and financial control act and the revision of taxing methods are among the notable results of that survey. There is much more to be accomplished and I recommend that a committee of this legislature review this survey and such other proposals as may be made, and make such recommendations as they regard as helpful in achieving greater efficiency and economy.

HOUSING OF STATE DEPARTMENTS

More than fifty years ago the state of Iowa constructed this beautiful State Capitol building. Architecturally, it stands out among the most beautiful in the entire country, but any casual observer will note that it possesses but little practical office space. The state has outgrown the facilities of this building. Today, we are paying nearly seventy thousand dollars ($70,000.00) a year rental for office space in downtown Des Moines. The Board of Control is located in a remodeled school building; the Board of Health and the Board of Education in frame buildings more than a block from the Capitol; the Labor Department is located in an old school building long ago abandoned for school purposes and long since condemned; the Insurance Department is located in a downtown office building entirely removed from all other departments; the Board of Assessment and Review is in another office building; the State Relief office in another; the Old Age Assistance office is now operating temporarily in quarters in downtown Des Moines; the new Social Security Act will soon require an office for more than one hundred employees, and there are no provisions of a permanent nature for them. Every inch of available space here in the State House has been utilized, even to the corridors.

These conditions jeopardize the lives of many employees, threaten the loss of valuable and irreplaceable public records, books and documents, decrease efficiency of operation, and would not long be tolerated by any private business.

The annual expenditure for rent which the state is now making, would finance, over a relatively short period, the erection of a new building adequate to house all these departments under one roof. Consideration might well be given to the question as to whether economy as well as efficiency would not be promoted by adopting that course.

INDUSTRY AND LABOR

In our effort to develop greater opportunities for our people, we are brought face to face with the necessity of expanding industry and protecting labor. Iowa is truly an inland empire, bounded on the east and west by rivers that are some day destined to be navigable, which together with our railroads and highways simplify the problem of transportation. Living costs are lower and living conditions more pleasant in Iowa than in the industrial centers of the east. Therefore, it appears that Iowa offers splendid inducement to new industry or to those who seek a better location.

Iowa farmers should welcome an increase in the population of this state. Transportation costs on products for local consumption would be saved. The fine highways radiating from our cities and towns afford ideal home sites for factory workers. In the packing industry, Iowa presents marvelous opportunities. We are the largest producers of finished livestock in America. Every animal fatted on our farms should be processed in Iowa packing houses. We lead the world in hog production. Forty-two cents (42c) out of each Iowa farm dollar comes from hogs. We can and should raise, finish and pack the world's finest

Digitized by Google

corn fed ham and bacon. If we would treat this opportunity as California has promoted "Sun-Kist" oranges, it would greatly increase our income.

Iowa possesses valuable coal fields. More than ten thousand (10,000) people work in our mines. We owe this industry our protection in order that operator and miner alike might profit. We are finally approaching the happy day when industry and labor will exist for each other and common problems will be solved by conference and arbitration, rather than the hostile methods of the past. Labor prospers when industry can meet the payrolls. Industry prospers when labor possesses a buying power. We are committed to the belief that the public should pay to industry a proper price in order that it can employ labor at good wages. The farmer prospers when industry and labor prospers, and, somehow it seems that the entire structure depends upon the farmer's buying power. The philosophy of government should be a square deal to all people and all interests.

The state owes to labor a minimum wage scale. When the state contracts for construction, it is perfectly apparent that material dealers can protect their prices by refusing to sell it at a loss but labor is left to the cruel price slashing of competition that ofttimes imposes an unfair hardship.

Iowa has always prospered, excepting when affected from damaging forces over which we have no control. The ruthless competition of out-of-state corporations which enjoy privileges unavailable to Iowa business men is a case in point. This condition has led Iowa to support the principle of chain store taxation, which is designed to protect Iowa merchants and the system known as independent distribution. I believe that Iowa has a greater obligation to her business men than to merely constitute a source of profit for foreign corporations. Certainly, legislation for the protection of our people is within the realm of proper action on the part of this or any other legislature. I urge your careful consideration of this problem.

EDUCATION

No activity of local and state government is more important than the education of our youth. Iowa enjoys an enviable reputation in this field. Our State University is recognized as one of the best in the country. Education is the department upon which we spend the largest part of our tax dollar and it produces the greatest returns. The elementary school system in Iowa presents an unusual problem. Because of our even distribution of population, we have from the beginning adhered to the policy of local support and local financing of our schools. Throughout the more prosperous years of the past, this system has been successful. In recent years, we have found that the need for school service is frequently out of proportion to the local ability to pay, and, as a result, there are many districts in the state improperly served and improperly financed. Refinancing alone will not insure success. Educators are not agreed upon the service and the system necessary to insure efficiency and economy. The taxpayer is quite willing to pay

Digitized by Google

for adequate school service if he is convinced that the system employed is the proper one and that every reasonable economy is being practiced. It is quite generally agreed that we should greatly increase the standards of the teaching force in our elementary system. This will necessitate higher salaries. It will, also, involve increasing the facilities of the Iowa Teachers' College, which trains the greater part of our teaching staff. To solve the problem may involve consolidation of districts, redistricting, transportation of pupils or financial aid from sources outside the community. Fortunately the majority of districts are not confronted with these problems, and it seems that a careful survey by a proper tribunal that represents the views of educators, the interests of the pupils and the taxpayer is a regular prelude to any drastic change in our taxing system for the support of schools.

One of the important questions that should be settled for the duration of this era, at least, is to determine the exact obligation that the people of Iowa want to assume for the educating of their youth. How much education are we willing to pay for, out of the public chest? How much education shall our children obtain free from the state? Shall it be twelve years? Should it be more or should it be less? When this question is definitely decided, we should then take steps to permanently finance an efficient administration.

One of the unfortunate results of the depression was the salary reduction of faculty members and teachers everywhere. Inability to restore these reductions has resulted in the loss of many valuable instructors and educational leaders throughout the entire school system. The solution of these many problems is our challenge today.

The state should never be meddlesome in local affairs, but it should always be helpful and respond to calls for assistance. Our entire educational system should be entirely divorced from politics. If the Superintendent of Public Instruction is to continue as the one coordinating influence between state and the public school system and the public school system with the rest of the educational system, it seems desirable that the selection of the incumbent should the responsibility of the Board of Education or some other non-partisan body created for the express purpose of dealing with educational problems. We believe in the same principle for selecting the judiciary. If the Board of Education is to exert a greater influence over the problem of educating our youth, it should take cognizance of the question from kindergarten to the university.

In recent years, much progress has been made by way of adopting a uniform course of study for our elementary system. Further progress in that field is desirable. We cannot countenance any program that restricts educational service or the revenues for its support. If we are to expect competent persons to devote their life to teaching, we should look toward the completion of a retirement annuity that would assure them security at the end of their career.

Public officials can profit by the attitude of cooperation practiced by the public in the channel of trade. School, town, county, and state government could establish more voluntary cooperation in the discharge of their duties with a saving to the taxpayers and no reduction in efficiency. Tax levies already made in the local taxing districts show an increase of

several million dollars for the ensuing year. These increases are unavoidable because of returning prosperity and a higher level of prices for services and the commodities of life. It would be much more pleasant to us as officials if we could look forward to the operation of necessary government at a lower cost, but we must choose between two alternatives:

(1) Necessary governmental service and pay the cost, or (2) inadequate service at an apparent lower cost.

I plead for friendly cooperation between citizens and officials and between officials, themselves.

Great paintings have been made but the world's best has not yet been put on canvass. Great sculptors are proud of their handiwork, but the best has not yet been produced. The best song has not been sung, nor have the best results in government yet been obtained. It is our duty to plan with all our talents to the end that this generation will be adequately served, and that we may pave the way for greater opportunities for our children. It is your duty and mine to approach our problem with a full sense of our great responsibilities, with a firm determination to solve the problems in a spirit of cooperation for the public's good. Differences of opinion may well arise among honorable and enlightened men, but let us trust they will in this body be finally resolved in legislative enactment designed to accomplish the fine purposes to which we, as public servants, are committed.

With your cooperation, with my cooperation, with the benediction of the God who rules our actions, we may look forward to a session of constructive accomplishments.

The minutes of the Joint Convention were read.

Dreessen of Crawford moved that the minutes as read be approved. Motion prevailed and the minutes were approved.

Senator Dewey moved that the Joint Convention be now dissolved. Motion prevailed.

House reconvened, Speaker Foster in the Chair.

MESSAGES FROM THE SENATE

The following messages were received from the Senate:

MR. SPEAKER: I am directed to inform your honorable body that the Senate has adopted the following resolution in which the concurrence of the Senate was asked: House Concurrent Resolution 2, providing for the appointment of a joint committee on extra help. The President has appointed as members of such committee on the part of the Senate, Senators Berg, Shaw, and Mason.

Hoegh of Lucas offered the following resolution:

HOUSE CONCURRENT RESOLUTION 8

Whereas, The welfare of the great commonwealth of Iowa depends upon the stabilization of agriculture, and

Whereas, The emergency farm loan interest rate of 3½ per cent made possible by special act of the National Congress to the farmer borrowers having Federal Land Bank loans expires July 1, 1937, and

Whereas, Thousands of farmers throughout the State of Iowa have Land Bank Commissioner loans which call for 5 per cent interest and which require principal payments commencing September 1, 1936, of 5 per cent or 10 per cent in addition to interest payments, and

Whereas, It appears to be possible to extend lower interest rates to the farmers without an excessive burden to the taxpayer and with almost no administrative costs, and

Digitized by Google

Whereas, Agricultural recovery has been delayed by droughts and pests, thereby causing hundreds of farmers throughout the State of Iowa to become delinquent in the payment of interest and taxes, and

Whereas, It is our opinion that low interest rates accorded to the farmers of Iowa through the Federal Land Bank system contributes much to the stabilization of agriculture,

Therefore, Be It Resolved by the House, the Senate Concurring: That the Legislature of Iowa respectfully petitions the members of the National Congress to use every possible effort to secure the passage of a law making the 3½ per cent interest rate permanent to the farmer borrowers of the Federal Land Bank or at least extend the same for a period of not less than two years and that this Legislature respectfully urges the members of the National Congress to use every possible effort to secure the passage of a law making 4 per cent interest rate permanent to the farmer borrowers of the Land Bank Commissioner and to extend the principal payments on Land Bank Commissioner loans over a period of thirty-four years as provided for Federal Land Bank loans and that a copy of this Resolution be sent to each United States Senator and Representative from the State of Iowa, to the Speaker of the National House of Representatives, to the President of the United States Senate and to the President of the United States.

Laid over under rule 34.

REPORT OF CONTEST COMMITTEES

Alesch of Plymouth, chairman of the contest committee in the contest of Harnagel vs. Brown submitted the following report and asked unanimous consent for its immediate consideration:

MR. SPEAKER: We, the special committee to whom was referred the matter of the contest between Ed R. Brown, incumbent, and Mrs. George Harnagel, contestant; wish to report that the committee convened on Friday, January 15, 1937, at nine (9) A. M. at the Polk county courthouse. The contestant appeared by counsel, Mr. Gibson C. Holliday, and the incumbent appeared by counsel, Stephens & Wisdom.

That upon convening, the incumbent filed a Special Appearance for the purpose of contesting the legality of the proceedings, and in all fairness to the contestant, she was given time in order to prepare herself to resist such an appearance, and the same was later presented and taken under advisement. After due consideration of this Special Appearance by the committee, we deemed it advisable, through the written and oral allegations made, that at least a few of the voting machines be examined. We allowed the parties to this contest to examine the machines used in three precincts, and the result was that they checked out per the official canvass report,

That the contestant became ill and we allowed her counsel another day to prepare further testimonial grounds for the carrying on of this contest.

Digitized by Google

That when the committee again convened on January 19, 1937, at 9:00 o'clock A. M., the counsel for the contestant, on behalf of his client, dismissed the Statement of Contest and asked the committee to declare Ed R. Brown elected to the House of Representatives from and for Polk County, State of Iowa, in the Forty-seventh General Assembly of Iowa, which was done; and we so report.

Respectfully submitted,
GUSTAVE ALESCH, *Chairman.*
EARL C. FISHBAUGH, JR.
WALTER DIETZ.
MATT B. RIDDLE.
E. W. SCOTT.
Members of the Committee.

Unanimous consent having been obtained, Alesch of Plymouth moved the adoption of the report.

Motion prevailed and the report was adopted.

The Speaker announced that Hon. Ed R. Brown of Des Moines was duly elected Representative from the Thirty-seventh District to the Forty-seventh General Assembly of the State of Iowa.

Johnson of Buena Vista, chairman of the contest committee in the contest of Hadley vs. Peisen, submitted the following report and asked unanimous consent for its immediate consideration:

MR. SPEAKER: We, your duly appointed contest committee, to which was referred the contest election case of Wilson H. Hadley, contestant, vs. Dean W. Peisen, incumbent, from the 64th Representative District of Iowa, beg leave to report that we checked the vote recorded for State Representative on all the voting machines in that district, investigated the pleadings filed and heard the evidence adduced, and, being now fully advised in the premises, report as follows:

1. We find that at the General Election on November 3, 1936, the Honorable Dean W. Peisen obtained a clear majority of all the legal ballots cast for State Representative at said election.

2. Also, that at the time of said election the said Dean W. Peisen was duly eligible under the constitution and laws of the State of Iowa to hold the office of State Representative from said District and that said eligibility still continues.

We therefore recommend that Dean W. Peisen be declared to be the duly elected Representative to the House of Representatives of Iowa from the 64th District for the current term, and that he be granted a permanent seat in this body from said 64th Representative District.

REPORT OF CONTEST COMMITTEES

Treimer of O'Brien, chairman of the contest committee in the contest of Campbell vs. Woods, in the Fifteenth District, submitted the following report and moved its adoption:

MR. SPEAKER: We, the contest committee to whom was referred the matter of the contest between Lloyd Woods, incumbent, and J. R. Campbell, contestant, for a seat in the House of Representatives from Clarke County report as follows:

The committee met pursuant to the call of William Treimer, Chairman, at ten o'clock a. m., Monday, January 18, 1937, at the Hotel Fort Des Moines, Des Moines, Iowa.

The Auditor of Clarke County testified before your committee that he had in his possession all of the ballots cast in the said election. The incumbent, through his attorney, filed a motion questioning the jurisdiction

Digitized by Google

of the committee to hear the contest for the reason that the contestant had not filed a bond, which motion was taken under advisement by the contest committee. Your committee then proceeded to count all of the ballots cast for the office of State Representative from Clarke County, Iowa, in the general election held in said county on November 3, 1936.

After a complete canvass of the ballots cast in all of the 15 precincts of Clarke County, 5,055 votes were shown to have been cast for the office of State Representative, of which the incumbent, Lloyd Woods, received 2,529, and the contestant, J. R. Campbell, received 2,526. It was moved and unanimously adopted that the vote last referred to be considered the findings of the contest committee for Clarke County. It was further moved and adopted that the motion of the incumbent questioning the jurisdiction of the contest committee, because of the failure of the contestant to file a bond be overruled.

We, therefore, recommend that Lloyd Woods be declared to be duly elected as a member of the House of Representatives from the Fifteenth District for the period of the 47th General Assembly and that he be granted a permanent seat in this body as a member from Clarke County.

WM. TREIMER, *Chairman.*
FRED J. KEEFE.
JOE FLYNN.
HENRY L. DAVIS.
S. A. RANDELL.

Motion prevailed and the report was adopted.

The Speaker announced that Hon. Lloyd Woods of Osceola was duly elected Representative from the Fifteenth District to the Forty-seventh General Assembly of the State of Iowa.

Gallagher of Iowa, chairman of the contest committee in the contest of Peel vs. O'Neill, submitted the following report and moved its adoption:

MR. SPEAKER: We, the special committee to whom was referred the matter of the contest between J. K. O'Neill, incumbent, and Loren I. Peel, contestant, for a seat in the House of Representatives from Van Buren County, Iowa, after the general election November 3, 1936, showed that O'Neill was elected by a majority of sixty-two votes. This contest was brought by Loren I. Peel, Republican candidate for said office against J. K. O'Neill, Democratic candidate and incumbent. The contestant filed a statement of contest setting forth the several grounds upon which he chose to predicate his contest, and upon which he seeks to obtain a finding by the House of Representatives that he received a majority of the legal ballots cast for the office of representative from Van Buren County, Iowa, and that he is entitled to be seated as representative from said county. In several counts he alleges that errors and mistakes occurred in passing upon the validity of ballots cast and in counting the same; that there was misconduct on the part of certain judges of election

Digitized by Google

in certain voting precincts within his county; that they failed to keep a proper tally list, that illegal votes were received and illegal votes rejected at the polls sufficient to change the vote; errors by the Board of Supervisors in counting the votes and declaring the votes; misakes on the part of judges of election in reading the ballots, and that a large number of votes for this office were not counted.

This committee met and proceeded to count the ballots cast and offered to be cast at the said election, the identity and integrity of the ballots having been established by the testimony of the present county auditor, F. D. Moreland, of said county. The contestant and incumbent were present in person and duly represented by their attorneys, John N. Calhoun and A. L. Doud, Jr., and Joseph S. Stong respectively. It was decided by the committee that the intent of the voter should control the decision of the committee in passing upon each ballot. After a complete canvass of seven of the nineteen precincts of the said county had been made, twenty-five hundred and two (2502) ballots having been counted, the contestant lost three votes and had wholly failed to sustain any of the allegations set out in his statements of contest. He and his attorney thereupon withdrew his request for any further canvass of the votes in the remaining precincts of said county, and now it appears to this committee that the allegations and contestant's statement of contest are not sustained by the facts and are without merit and that a complete recount of all the ballots cast in Van Buren County, Iowa, at the general election held on November 3, 1936, would not result in establishing that a majority of the legal votes were cast for the contestant, but it would establish that they were cast for the incumbent, and it further appears to the committee by the statements and admissions of the contestant that he so concedes and that he does not demand a further and complete count of the said ballots, and it is the recommendation of your committee that J. K. O'Neill, the incumbent, be seated as a member of the House of Representatives as the duly elected representative from Van Buren County, Iowa.

Dated this 16th day of January, 1937.

Respectfully submitted,

J. P. GALLAGHER, *Chairman.*
MORGAN J. MCENANEY.
W. H. CRAMER.
ROY J. SOURS.
JENS THOMPSON.

Motion prevailed and the report was adopted.

The Speaker announced that Hon. J. K. O'Neill was duly elected Representative from the Second District to the Forty-seventh General Assembly of the State of Iowa.

MR. SPEAKER: We, the special committee to whom was referred the matter of the contest between F. A. Latchaw, incumbent, and Gale McLean, contestant for a seat in the House of Representatives from Muscatine County, beg leave to report that a canvass by the Board of Supervisors of Muscatine County, after the general election held on November 3, 1936, showed that Latchaw was elected by a majority of eighty-three (83) votes. Contestant, Gale McLean, Democratic candidate, filed a petition of contest for said office, against F. A. Latchaw, the Republican candidate and incumbent. The contestant set forth in such filed statement several grounds upon which he based his contention of election to the House of Representatives:

That since voting machines have been in regular use in Muscatine County it seemed necessary and advisable for your committee to go to Muscatine, county seat of Muscatine County, for such hearing of contest.

That your committee followed this procedure and the hearing was held beginning at two-thirty (2:30) p. m. on January 18, 1937.

Immediately a statement of allegations was made by the contestant's attorney, N. W. Stapleton, and a statement of defense by the incumbent's attorney, C. R. Stafford. Whereupon, each party to the contest was informed that authorization of subpoena would be provided by the committee for any persons, records, or materials relative to the election in question.

Election board officials, present Deputy Auditor, former Auditor, former Deputy Auditor, and others were heard, all making statements under oath.

In the last analysis the contestant narrowed his allegations down to one issue, having asked that all other counts be dismissed.

The sole contention of the contestant being that said machines in question were not in proper mechanical condition to be operated, thereby asking that the entire electorate of the precincts in question be disfranchised and the entire count for both contestant and incumbent be cast aside and not counted.

This charge was not proven to the satisfaction of a single member of your committee.

After such finding your committee unanimously recommends that F. A. Latchaw, the incumbent, be permanently seated in the Forty-seventh (47th) General Assembly of Iowa.

Dated this 21st day of January, 1937.

GLENN CURTIS, *Chairman.*
GEO. L. SCOTT.
S. E. PRALL.
W. J. DREESSEN.
A. H. BAUMHOVER.
Members of the Committee.

Motion prevailed and the report was adopted.

The Speaker announced that Hon. F. A. Latchaw was duly elected Representative from the Forty-second District to the Forty-seventh General Assembly of the State of Iowa.

ADOPTION OF HOUSE CONCURRENT RESOLUTION 3

Hoegh of Lucas called up House Concurrent Resolution 3, found on pages 87 and 88 of the House Journal of January 19, 1937, and moved its adoption.

Motion prevailed and House Concurrent Resolution 3 was adopted.

CONSIDERATION OF BILLS

The hour having arrived for Special Order No. 1, House File 1, a bill for an act creating an Emergency Feed Loan Fund for drought areas, was taken up for consideration.

Sours of Floyd, Burma of Butler and Kuester of Cass offered the following amendments and moved their adoption:

1. Amend House File 1, section four (4), line six (6), by inserting after the word "a" the word "one".
2. Amend section seven (7), line two (2), by inserting after the word "forth" the following: "under oath".
3. Amend section nine (9), line two (2), by inserting after the word "note" the following: ", bearing three and a half (3½) per cent interest,".
4. Further amend section nine (9) by adding thereto the following paragraph:

"That said note shall be secured by a chattel mortgage, said chattel mortgage shall be a prior lien upon all crops grown upon the premises occupied by the applicant and upon all personal property belonging to said applicant."

A division of the amendments was ordered.

Amendment No. one (1) was adopted.

Action on Amendment No. two (2) was deferred by unanimous consent.

Lookingbill of Story moved to amend Amendment No. three (3) by striking all after the word "bearing" in line 2 and inserting in lieu thereof the following "interest not to exceed three and a half (3½) per cent per annum." The amendment to the amendment was adopted.

Amendment No. three (3), as amended, was adopted.

Fishbaugh of Page moved to strike all of Amendment No. four (4), after the word "mortgage", appearing in lines one and two, and change the comma to a period.

The amendment to the amendment was lost.

MR. SPEAKER: I am directed to inform your honorable body that the Senate has amended and passed the following bill in which the concurrence of the Senate was asked:

House File 1, a bill for an act creating an Emergency Feed Loan Fund for drought areas, and providing for the levying of taxes therefor.

WALTER H. BEAM, *Secretary*.

CONSIDERATION OF SENATE AMENDMENTS

On request of Alesch of Plymouth, unanimous consent having been given, House File 1, a bill for an act creating an Emergency Feed Loan Fund for drought areas, with Senate amendments, was taken up and the amendments read and considered.

SENATE AMENDMENT TO HOUSE FILE 1

Amend by striking out all after the enacting clause and substituting in lieu thereof the following:

Section 1. Counties of the State of Iowa, through their boards of supervisors, in addition to the powers already possessed by them, are hereby authorized by resolution of their boards of supervisors, to immediately establish what shall be known as the "Emergency Feed Loan Fund".

Sec. 2. That the fund for said Emergency Feed Loan Fund shall be created as hereinafter set out.

Sec. 3. Said Emergency Feed Loan Fund shall be under the supervision of the county treasurer, and no funds shall be drawn therefrom except upon an order drawn against the same as hereinafter provided.

Sec. 4. For the purpose of creating said fund to make the loans herein provided, the Board of Supervisors is hereby authorized to provide a

fund not in excess of $75,000 for such purpose, and shall provide by resolution for the issuance of anticipatory warrants by the county auditor and the sale thereof by the county treasurer, said warrans to be drawn against the fund in denominations of $100, $500, and $1,000, as hereinafter set out, and for such purpose said Board shall make a millage levy accordingly to provide for said fund. Said levy shall be pledged exclusively to the payment of the warrants herein provided. When the purposes of this act have been accomplished, and the warrants paid, said fund so created and all accumulations thereto shall revert to the general fund of the county.

Sec. 5. Said anticipatory warrants of the denominations herein above referred to shall be sold to the highest bidder as the need of said fund demands in the office of the county treasurer at public sale, after giving notice of the time and place of said sale by publishing a notice thereof once in an official newspaper of said county at least three days before the date of sale.

Sec. 6. Said anticipatory warrants shall be signed by the chairman of the board of supervisors and attested by the county auditor with his official seal thereto attached, and be dated as of the date of sale, and shall draw interest at the rate of not to exceed three (3) per cent per annum, and shall not be sold at less than their par value.

Sec. 7. All persons desiring to procure a feed loan from said fund shall make a written application therefor, under oath, setting forth that the applicant is a bona fide resident of the county, the amount and kind of property owned by said applicant, the amount and kind of feed owned by him at the time of making said application. The board of supervisors is authorized to make a loan or loans to any farm operator who is without feed and without funds with which to purchase feed for his livestock. The board of supervisors, in its discretion, may inquire of the prospective applicant as to whether or not he has made application for a loan from either private or governmental agencies.

Sec. 8. The board of supervisors shall inspect said application and make such investigation as it deems advisable, and after such inspection and investigation, approve or reject said application, as in its judgment seems expedient, and if said application is approved the board of supervisors shall indorse thereon its approval, stating the amount and duration of said loan. The action of the board of supervisors in passing upon any and all applications shall be final, except the rights of said applicant to at a later date reapply for a loan.

Sec. 9. The board of supervisors may approve the application or applications and, in its discretion prescribe such terms and conditions as may be deemed advisable to secure repayment of the said loan, and the borrower shall execute an obligation for the amount of the loan approved, which shall bear interest at not less than three (3) per cent per annum, in which the spouse, if any, of the said borrower shall join, payable to the county auditor of said county for the use and benefit of the said fund.

Sec. 10. All anticipatory warrants, issued under the provisions of this act shall be numbered consecutively and be registered in the office of the

Digitized by Google

county treasurer, and shall be subject to call in numerical order at any time when sufficient money is in the hands of the county treasurer to retire any of said warrants, together with the accrued interest thereon.

Sec. 11. Counties authorized to accept from the general government any sums of money made available for feed purposes, shall place said sums of money in the fund herein created, and the same shall become a part of said fund the same as the proceeds provided for herein, and may be used for the purpose of retiring existing warrants or for making loans under the provisions hereof.

Sec. 12. All acts or parts of acts in conflict with this act are suspended so far as they affect this act, while this act is in effect.

Sec. 13. All loans made under the provisions of this act shall be made for a period of not to exceed twelve months, payable on or before due date.

Sec. 14. From and after the first day of July, 1938, this act shall cease to be in force, except for the purpose of collecting the tax and loans, and retiring the warrants.

Sec. 15. This act being brought forth to meet an emergency through the police power of the state, and being deemed of immediate importance, shall be in full force and effect after its publication in the Le Mars Globe-Post, a newspaper published at Le Mars, Iowa, and in the Battle Creek Times, a newspaper published at Battle Creek, Iowa.

Randall of Worth offered the following amendment and moved its adoption:

Amend Senate amendments to House File 1 by adding the following as a new section immediately after section 13:

"Sec. 14. The provisions of this act shall apply only to counties designated by the United States Department of Agriculture as being in the drought area."

Also further amend by renumbering the remaining sections.

MESSAGE FROM THE SENATE

The following message was received from the Senate:

MR. SPEAKER: I am directed to inform your honorable body that the Senate has adopted the following concurrent resolution in which the concurrence of the House is asked:

Senate Concurrent Resolution 4, relating to the death of Mrs. Alex Miller, Secretary of State, and providing for the appointment of a committee to attend the funeral services.

WALTER H. BEAM, *Secretary.*

SENATE CONCURRENT RESOLUTION 4

Whereas, It has pleased a Divine Providence to call to her Eternal Home a most valued and highly respected officer of the State of Iowa, the Honorable Mrs. Alex Miller, Secretary of State, and,

Whereas, In the death of Mrs. Miller the State of Iowa has lost a faithful and devoted servant whose deep and unfailing interests were always dedicated to the welfare of all the people of Iowa, now, therefore,

Be It Resolved by the Senate, the House Concurring: That we, the members of the General Assembly of the State of Iowa do hereby publicly express our profound regret in her passing and extend to the bereaved family and relatives our deepest sympathy in this their great sorrow;

That as a mark of respect the General Assembly shall stand adjourned on Tuesday, January 26, 1937;

That a joint committee of six be appointed, three by the President of the Senate and three by the Speaker of the House, to represent the General Assembly at the final services for Mrs. Miller to be held at Washington, Iowa, January 26, 1937, at three o'clock.

CONSIDERATION OF SENATE CONCURRENT RESOLUTION 4

Elliott of Woodbury asked and obtained unanimous consent for the immediate consideration of the resolution.

Stewart of Washington asked and obtained unanimous consent to have the remarks by Elliott of Woodbury, Gallagher of Iowa and Lookingbill of Story printed in the Journal.

TRIBUTES TO MRS. ALEX MILLER

MR. SPEAKER: I feel that being the only woman representative, it is fitting for me to pay a tribute to Mrs. Alex Miller, our beloved Secretary of State, whom God in His wisdom has called to her eternal home.

Born in Washington county of splendid parentage and carefully reared in a home known for its refinement and culture, she early in life revealed the possession of qualities that were later to attract state and national attention. She was a woman with great foresight, kindness and understanding. A woman whom the women of this state may remember with pride. Men and women respected her fine character, her womanly virtues, and her keen mind. The organization of the Highway Patrol and its continuance will remain a living memorial to her. Our thoughts and sympathy are with her family in their great loss which is our loss.

ISABEL M. ELLIOTT.

An attempt at this point to say a few words in tribute to Mrs. Miller might well be likened to an attempt to paint the lily, to add another hue to the violet, or to show the brightness of the sun with a candle. The suddenness of the visitation left all of us with a readiness of speech numb, and how I am reminded here of the great tribute that Ruskin imparted to women, when writing of the age of chivalry, he said, "The buckling on of the knight's armor by his lady's hand was not a mere caprice of romantic fashion; 'tis a type of the eternal truth that the soul's armor is never so firmly set against the heart as when a woman's hand hath braced it—and it is only when she braces it loosely that the honor of manhood falls." In Iowa Mrs. Miller might be truthfully represented as filling the feminine position to which Ruskin added an immortality by the truthfulness of his figure.

Mrs. Miller was called away in the early days of her entrance to her third term as Secretary of State and the shock was sufficient to stun all sections of Iowa's population. She was born in Washington township and in her early young womanhood found engagement as a teacher in the rural schools, later finishing her collegiate courses. She was a wonderful woman, occupying an outstanding position among all of the women of Iowa. Her tastes and disposition were of the type that made her a leader in the advancement of the best programs ever arranged for the betterment of the state. She was always thoughtful, always serious minded, always more than willing to take a leading part in any assignment, and it was this disposition that led her on and on, always mounting from the lower

Digitized by Google

to the higher levels and always lending a glory to her accomplishments. In the State of Iowa she will be best remembered as the original planner, promoter and sponsor of the Iowa Patrol System. Into this work she put all of her heart and energy and it is this work that will from now on be her monument, more lasting than marble or granite. The entire State of Iowa recognized her ability, her graciousness, and the sting of sorrow it experiences today will long remain in every heart that throbbed responsive to the breaking of the news that challenged a tear from every eye on Sunday evening when the radio carried the dolorous news of her passing.

To the stricken family the State extends its tenderest and sincerest commiserations and members of the House in large numbers could subserve their fidelity to their office by being present on Tuesday at her funeral, whether they are on the official committee or not. I knew Mrs. Miller for long years, being intimately acquainted with the family, and I have never met a woman who increased in the appreciation of the general public in the same extent that Mrs. Miller grew in the hearts of all who knew her.

J. P. GALLAGHER.

MR. SPEAKER, GENTLEMEN OF THE ASSEMBLY:

In behalf of the Republican party I stand before you unprepared to pay the respect that we owe to the departed life of the Secretary of the State of Iowa, Mrs. Alex Miller.

Speaking for myself and those who knew her it was also a pleasure to meet her in her office, to transact business relating to the State of Iowa. As we entered the door of her office it was her life's makeup to greet us with a smile and a reception with her hand that always made you feel welcome. Unbiased, unselfish, she always gave her service for the good of all in whatever subject that we discussed. No time did she ever, in my calling at her office, show any distinction between party affiliation. I am safe in challenging anyone in this assembly or in the State of Iowa to dispute the statement which I have just made in behalf of her services while performing her mission as Secretary of State. Meeting her in my own town no other spirit was manifested than that of a humble life, a high character, a wonderful disposition which we were all proud of when we met her in public.

Not delivering you a message from the pulpit, I am somewhat reluctant to speak of many of the wonderful characteristics of her life. If I were to eulogize upon her life I could stand here at least an hour's time speaking of her acts of kindness.

I was speaking to Mr. Hattery, head of the Highway Patrolmen of my county, of which he was represented. He was saying it was a pleasure for himself as well as his fellow officers to talk to her about the duties of the Iowa Patrolmen. In regard to her spiritual life, it brings to my mind that work of the Great Creator as he created Heaven and Earth and all therein. He made the flowers of the forest and the beasts of the earth and pronounced it perfect, and that power of his creation has performed her part in life that God intended His creation to bring to man.

Digitized by Google

He created man in His own image that he might accomplish that great mission that he had here on earth. God breathed His own breath into the nostrils of man that he might become a living soul to perform his mission upon earth. So Mrs. Miller's life was so endowed with this spirit here upon earth. All those who came in contact with her as she performed her duties as Secretary of State of Iowa came to love her more and more because of the wonderful spirit given to her by God who is waiting to receive that same spirit which she manifested here upon earth, which was not only her blessing but ours as well.

C. E. LOOKINGBILL.

JOURNAL OF THE HOUSE

HALL OF THE HOUSE OF REPRESENTATIVES,
DES MOINES, IOWA, JANUARY 28, 1937.

The House met pursuant to adjournment, Speaker Foster in the chair.

Prayer was offered by Rev. C. L. Ducksburg, Pastor, Federated Church, Jewell, Hamilton county, Iowa.

Journal of January 27th corrected and approved.

PETITIONS

Christoffersen of Black Hawk presented a petition from citizens of Black Hawk county favoring increased state aid for education, revenue therefor to be derived from taxes other than property levies.

Referred to the committee on schools and textbooks.

Kerr of Fremont presented a petition from citizens of Fremont county protesting against any legislation deleterious to Bank Nights or similar enterprises.

Referred to the judiciary committee.

Johnson of Buena Vista submitted the following report:

REPORT OF COMMITTEE ON RULES

MR. SPEAKER: Your committee on rules begs leave to report that they have had the House rules under consideration and recommended that the rules of the House of the Forty-sixth General Assembly in regular session as printed be adopted as the rules of the House of the Forty-seventh General Assembly when amended as follows:

Substitute for House rule 17 the following: "Manner of voting" as heading, also, "Upon any vote of the House on any question only those members at their desks and voting shall be counted."

Amend House rule 75 by striking the word "two-thirds" in the first line of the last sentence of that rule.

That the following paragraph be added to rule 75: "The Sifting Committee or any committee of similar title or duty, but otherwise named, shall report out only those bills which have been referred to it under the regular procedure of the House."

The Committee directs me to make this report.

Laid over.

REPORT OF CONTEST COMMITTEES

Johnson of Hancock, chairman of the contest committee in the contest of Oehmke vs. Dykhouse, submitted the following report and asked unanimous consent for its immediate consideration:

MR. SPEAKER: We, the contest committee to whom was referred the matter of contest between Dykhouse and Oehmke for a seat in the House of Representatives from Lyon County report as follows:

The committee met pursuant to the call of Oscar E. Johnson, chairman, at 10:00 o'clock, January 15th, and for the subsequent days up and including January 26th.

The contest was brought by Oehmke, Democrat candidate for said office, against Dykhouse, Republican candidate and incumbent. The contestant filed a statement of contests setting forth the several grounds on which he shows to predicate his contest and upon which he seeks to attain findings by the House of Representatives that he received a majority of the legal ballots cast for the office of Representative from Lyon County, Iowa, and that he is entitled to be seated as Representative from said county.

In several counts, he alleges that errors and mistakes occurred, to wit:

1. That illegal votes have been received or legal votes rejected at th polls sufficient to change the result.

2. That errors have been made by the county board of canvassers in counting the votes, and in declaring the result of the election, which would affect the result.

3. That the election board of Sioux Township, Lyon County, made an error in recording the tallies of votes for the incumbent, J. T. Dykhouse, which resulted in J. T. Dykhouse being credited with 72 votes in said township, whereas the actual number of votes received by J. T. Dykhouse was only 62; that a correction of this error alone would change the result of the election.

That the poll book of Sioux Township shows that 218 voters registered to vote, and that 221 votes were counted.

4. That the election board in Richland Township set out the vote of W. F. Oehmke in said township as 181 votes, and the Board of Supervisors

Digitized by Google

of Lyon County, Iowa, acting as a board of canvassers, certified the vote of W. F. Oehmke in Richland Township as 181 votes. That the actual vote received by the said contestant, W. F. Oehmke, in Richland Township as evidenced by the tallies in the poll book in said township and prepared by the election board in Richland Township was 186 votes for W. F. Oehmke, which error and difference would change the result of the election.

This committee met and proceeded to count the ballots cast and offered to be cast at said election, the identity and integrity of the ballots having been established by the testimony of the present County Auditor, T. H. McGuire. The contestant and incumbent were present in person and duly represented by their attorneys, F. T. McGill and O. J. Reimers, attorneys for contestant, and L. A. Riter, attorney for incumbent. It was decided by the committee that the intent of the voters should control the decision of the committee in passing upon each ballot.

After a complete canvass of the 21 precincts in said county had been made, the incumbent had 2,795 votes, and the contestant had 2,786 votes. This count shows Mr. J. T. Dykhouse, incumbent, having a majority of 8 votes and after such findings your committee unanimously recommends that Mr. J. T. Dykhouse be permanently seated in the Forty-seventh General Assembly of Iowa.

Dated this 27th day of January, 1937.

OSCAR E. JOHNSON, *Chairman.*
EUGENE REILLY.
DAVID A. DANCER.
PHIL ROAN.
HENRY FOX.

Johnson of Hancock moved the adoption of the report.

Report adopted.

The Speaker announced that Hon. J. T. Dykhouse of Rock Rapids was duly elected Representative from the Ninety-ninth District to the Forty-seventh General Assembly of the State of Iowa.

Moore of Shelby, chariman of the contest committee in the contest of Aldrich vs. Blue, submitted the following report and asked unanimous consent for its immediate consideration:

MR. SPEAKER: We, the contest committee to whom was referred the matter of the contest between Robert D. Blue, incumbent, and R. E. Lee Aldrich, contestant, for a seat in the House of Representatives from Wright County, Iowa, beg leave to report as follows:

The committee met pursuant to the call of E. A. Moore, chairman, at 10:00 o'clock a. m., January 18, 1937, at the Savery Hotel, Des Moines, Iowa. The Auditor of Wright County testified before the committee that he had in his possession all of the ballots cast in said election.

Digitized by Google

The contestant alleged that the judges and clerks of said election in Wright County erred in counting the votes cast in their respective precincts for the office of State Representative, and that such errors in counting said votes are sufficient to change the result of said election as to the office of State Representative from Wright County.

And alleged, particularly, that the judges and clerks of said election in the third and fourth wards of the city of Eagle Grove, Wright County, Iowa, erred in counting votes cast in their respective precincts for the office of State Representative and that such errors made by the said judges and clerks are sufficient to change the result of said election as to the office of State Representative from Wright County.

Your committee then proceeded to count all of the ballots cast for the office of State Representative from Wright County, Iowa, in the general election held in said county on November 3, 1936. After a complete canvass of the ballots cast in all twenty-five precincts of Wright County, Iowa, thirty-eight hundred and thirty-one (3,831) votes were shown to have been cast for Robert D. Blue, the incumbent, for the office of State Representative from Wright County, and thirty-eight hundred and ten (3,810) were shown to have been cast for R. E. Lee Aldrich, contestant, for the office of State Representative from Wright County. It was moved and unanimously adopted that this vote be considered the findings of the contest committee for Wright County.

We, therefore, recommend that Robert D. Blue be declared to be duly elected as a member of the House of Representatives from Wright County, Iowa, and that he be seated as a member of the House of Representatives as the duly elected Representative from Wright County, Iowa.

Dated this 27th day of January, 1937.

Respectfully submitted,

E. A. MOORE, *Chairman.*
E. J. MANIECE.
MORGAN J. MCENANEY.
GRANT A. SHIFFLETT.
LEO. A. HOEGH.

Moore of Shelby moved the adoption of the report.

Report adopted.

The Speaker announced that Hon. Robert D. Blue of Eagle Grove, Wright county, was duly elected Representative from the Seventy-fifth District to the Forty-seventh General Assembly of the State of Iowa.

WALTER H. BEAM, *Secretary.*

SENATE CONCURRENT RESOLUTION 5

Resolved by the Senate, the House concurring: That two thousand copies of the committee books and five hundred copies of the rule books be ordered printed; all to be bound in paper covers.

SENATE CONCURRENT RESOLUTION 6

Concurrent resolution memorializing the President and the Congress of the United States to name one of the battleships now under construction "Iowa".

Whereas, Battleships of the United States Navy are named after the several states of the Union; and

Whereas, At the present time there is no battleship of the United States Navy, named after the State of Iowa; and

Whereas, There have been two battleships and a third battleship under construction, named after the State of Iowa, the first being a frigate, 3,850 tons displacement, carrying twenty-five guns, built at the Naval Yards at Boston, Massachusetts, 1862-1866, and ceased to be a part of the United States Navy in 1883. The second, a coast battleship with 11,346 tons displacement, authorized by Act of Congress July 19, 1892,

named for the State of Iowa, launched March 28, 1896, commissioned June 16, 1897, as one of the ships composing the squadron commanded by Admiral Sampson during the Spanish-American War and participated in the battle of Santiago Bay against the Spanish fleet, July 3, 1898. On March 29, 1919, the name was changed, the ship was put out of commission and sunk by gun fire for experimental purposes March 22, 1923. The third vessel named "IOWA" was under construction on February 8, 1922. Upon the signing of the treaty limiting naval armament, construction was halted. Upon the ratification of the treaty, the contract for construction was cancelled, the vessel broken up and scrapped according to the terms of the said treaty.

Therefore, Be It Resolved by the Senate, the House concurring: That we petition and pray the President and the Congress of the United States to name and designate one of the battleships now under construction, for and after the State of Iowa:

That on the passage of this resolution, the Secretary of State shall certify a copy hereof to the President of the United States, the President of the Senate, Speaker of the House of Representatives of the Congress of the United States, Secretary of Navy, and to each Senator and Representative of the State of Iowa at Washington, D. C.

SENATE CONCURRENT RESOLUTION 7

Whereas, The city of Des Moines and the State of Iowa are honored at this time to have as their guest the Right Reverend John A. Ryan, Director of Social Action Department, National Catholic Welfare Conference, Washington, D. C., and,

Whereas, Dr. Ryan is internationally known and recognized as an authority on social problems and is here at the present time to address the Regional Meeting of the Catholic Conference on Industrial Problems, and,

Whereas, It has long been the custom to invite speakers of prominence to address the General Assembly, State of Iowa, when opportunity is offered, now, therefore,

Be It Resolved by the Senate, the House concurring: That we, the members of the General Assembly, State of Iowa, do hereby extend an invitation to Right Reverend John A. Ryan to be our guest during his stay in Des Moines and to address the General Assembly in a joint meeting in the House on the morning of February 1st at 11:00 o'clock, A. M.

Be It Further Resolved, That the President of the Senate and the Speaker of the House appoint a committee of six to wait on Dr. Ryan and to extend this invitation to him.

HOUSE FILE 15 REREFERRED

Curtis of Plymouth asked and obtained unanimous consent to have House File 15 rereferred to the committee on emergency legislation.

MESSAGE FROM THE SENATE

The following message was received from the Senate:

MR. SPEAKER: I am directed to inform your honorable body that the Senate has adopted the following concurrent resolution, in which the concurrence of the House is asked:

Senate Concurrent Resolution 8, memorializing Congress relative to amending the "Banking Act of 1935". WALTER H. BEAM, *Secretary.*

SENATE CONCURRENT RESOLUTION 8

Whereas, The Federal "Banking Act of 1935" effective as law August 23, 1935, provides that on and after two years from that date, namely August 23, 1937, no bank, a member of the Federal Reserve System, or a bank, member of the Federal Deposit Insurance Corporation, "shall directly or indirectly by any device whatsoever pay any interest on any deposit which is payable on demand" which prohibition shall likewise apply "to any deposit of public funds made by or on behalf of any State, County, School District, or other subdivision or municipality" if they are public funds that are payable on demand, and

Whereas, All such public funds in Iowa are payable on demand or in other words are withdrawable by any such political subdivision from its bank depositories at any time without notice, and that Iowa's Public Funds law provides that such public funds "shall" be deposited in banks and "shall draw interest at the rate of not less than 2 per cent per annum on 90 per cent of the collected daily balances payable by the bank at the end of each month" with the provision that the rate may be lowered by the State Treasurer with the approval of the Executive Council but not below 1 per cent on 90 per cent of the collected daily balances payable by the bank at the end of each month, and that the interest payable by bank depositories goes directly into the Iowa State Sinking Fund to be used in paying those claims that are held against that fund by municipalities for their public funds that were in banks which went into receivership, and

Whereas, The Iowa State Sinking Fund today is approximately $9,000,000 in arrears and that it is estimated it will take from 4 to 5 years or more to pay off that deficit if Iowa's Public Funds can continue to earn the usual interest from its bank depositories during that period, which approximates even at the low 1 per cent interest rate prevailing today about $850,000.00 per year or twice that amount if and when the rate is doubled which will occur when it is economically sound to do so; that the sum of money yet recoverable from assets of those former depository banks still in receivership will in the future it is estimated be of no sub-

Digitized by Google

stantial amount owing to the fact that such receiverships are approaching their end, and that it is unfair to continue to divert the beer tax to the State Sinking Fund when it is badly needed for other tax purposes; that the beer tax amounting to approximately $1,500,000.00 annually will be the only substantial sum left to pay off the deficit in Iowa's State Sinking Fund if depository banks in Iowa are prohibited from paying interest on public funds as before herein mentioned; and that it is only fair to Iowa's taxpayers that their funds should have the opportunity to earn a reasonable rate of interest pending the time when such funds shall be disbursed, now, therefore,

Be It Resolved by the Senate of the State of Iowa, the House of Representatives concurring therein: That we call upon the Congress of the United States to amend the Federal "Banking Act of 1935" so that all bank members of the Federal Reserve System and bank members of the Federal Deposit Insurance Corporation may continue to accept public deposits and pay interest on them regardless of the fact that such deposits may be withdrawable on demand; that we respectfully request the Iowa Congressional delegation whose assistance is herewith respectfully requested, to ask Congress at this session to enact the needed amendment as foregoingly explained, and that everything be done that can be done within the power and influence of the Iowa Congressional delegation to prevail upon Congress to strike from the Federal "Banking Act of 1935" that prohibition against the payment of interest on public funds payable on demand or to at least postpone its effective date for not less than five years further from August 23, 1937, to enable State Sinking Funds such as we have in Iowa to be fully paid off.

Be It Further Resolved by the Senate of the State of Iowa, the House of Representatives concurring therein: That a copy of this Resolution be forwarded to the President of the United States Senate and to the Speaker of the United States House of Representatives.

ADOPTION OF SENATE CONCURRENT RESOLUTION 8

Unanimous consent having been obtained, Sours of Floyd moved the adoption of Senate Concurrent Resolution 8.

Motion prevailed and the resolution was adopted.

REPORT OF JOINT COMMITTEE ON ENROLLED BILLS

Irwin of Lee, from the joint committee on enrolled bills, submitted the following report, and moved its adoption:

Foster of Cedar offered the following resolution:

HOUSE MEMORIAL RESOLUTION

Whereas, The Honorable William T. Gilmore, who was a member of the Thirty-ninth, Fortieth, Fortieth Extra, Forty-second, Forty-second Extra, and Forty-third General Assemblies, died on May 5, 1935, therefore

Be It Resolved by the House of Representatives of the Forty-seventh

General Assembly, That a committee of three be appointed to draft suitable resolutions commemorating his life, character, and service to the state.

Unanimous consent having been obtained for its immediate consideration, Foster of Cedar moved the adoption of the resolution.

Motion prevailed, the resolution was adopted and the Speaker pro tempore appointed the following as such committee: Foster of Cedar, Gallagher of Iowa, and Stimpson of Jones.

Speaker Foster returned to the chair.

Strickler of Polk and Baumhover of Carroll offered the following resolution:

HOUSE RESOLUTION 5

Memorializing Congress to enact a federal law to eliminate competitive bidding on star mail routes and to provide for the retention in the service of the star route contractors giving satisfactory service and authorizing the Postmaster General to grant additional compensation where rates of pay are unreasonably low.

Whereas, The present system of competitive bidding tends to bring into the service inexperienced carriers which results in inferior service; and

Whereas, The fear of losing the contract every four years causes the contractor to refrain from purchasing proper equipment; and

Whereas, The present economic stress has forced contractors to bid below cost of operation rather than apply for Federal Relief; and

Whereas, Patrons on star mail routes are entitled to the same class of service as is given to patrons on routes where tenure and pay are fixed; therefore

Be It Resolved by the House of Representatives of the State of Iowa: That the 75th Congress of the United States be memorialized to enact such legislation as is necessary to retain in the star mail service experienced, satisfactory contractors and authorize the Postmaster General to grant pay adjustments at his discretion.

Be It Further Resolved, That a copy of this resolution be forwarded to Clerk of the House of Representatives, Washington, D. C.

Laid over under rule 34.

STATEMENT BY BROWN OF POLK

Long prior to the present, apparent, solicitude on the part of Mr. A. Claire Dewey, the Senator from Washington county, I was interested in Old Age Security.

After I was nominated for representative from Polk county I began a study of the subject, and procured from the Department of Social Welfare, division of Old Age Security in the State of New York, the complete files, including a copy of the law and the complete file of forms used in that state.

In the 45th General Assembly I used my influence as a private citizen to procure the adoption of the Old Age Commission Law as we have it in Iowa.

Since that date I have cooperated with the commission in its attempts to procure added legislation to simplify, clarify and strengthen that law.

I am at this time deeply concerned that the 18,000 or more aged persons who are eligible to pension should receive it, and that those now on pension should be more adequately provided for.

At the very time the Senator from Washington was giving his cock-eyed interview to the press, in which he falsely and unjustifiably attempted to state my position, I was at my office preparing a speech in the support of the School State Aid Bill, in which I used the following language:

"But from my viewpoint there are two outstanding and vital problems which must be solved by the members of the Forty-seventh General Assembly. These are, first: that the aged people of Iowa should, in so far as money is obtainable or available, be given that financial security which will relieve them, in a measure, from the fear, as well as the distresses, of old age. Second: that we should give to every child in Iowa such opportunity as equal educational opportunities will afford, for the largest mental development which is possible."

The statement attributed to the Senator from Washington, Iowa, that there has been no one that he knows of in the State of Iowa that has more bitterly fought old age relief than me is vicious in its intent—a gross misrepresentation in its import—and is asinine in its implications.

Some people become so obsessed with either their importance or of securing success in what they undertake, that they might be willing to injure an innocent by-stander in order to gain an end. I hope this is

Digitized by Google

not the case with the Senator from Washington, Iowa, who has been so very careless in his use of the English language. He should publicly apologize for his misrepresentation of my attitude toward Old Age Security.

COMMITTEE TO NOTIFY THE SENATE

O'Neill of Van Buren moved that a committee of three be appointed to notify the Senate that the House was ready to receive it in joint convention.

The motion prevailed and the Speaker appointed as such committee: O'Neill of Van Buren, Engel of Scott and Baumhover of Carroll.

The committee returned and reported it had performed its duty. The committee was discharged.

The Sergeant-at-Arms announced the arrival of the President of the Senate, the Secretary of the Senate and the Honorable Body of the Senate.

The President of the Senate was escorted to the Speaker's station, the Secretary to the Chief Clerk's desk, and the members of the Senate to the west side of the chamber.

JOINT CONVENTION

In accordance with Senate Concurrent Resolution 7, duly adopted, the joint convention was called to order, President Valentine of the Senate presiding.

Gallagher of Iowa moved that a committee of two be named to notify the Right Reverend John A. Ryan, director of the Social Action Department, National Catholic Welfare Conference, Washington, D. C., and escort him to the President's station.

Motion prevailed and the President appointed as such committee: Gallagher of Iowa and Senator Gillespie of Polk.

The committee returned with the Right Reverend John A. Ryan and escorted him to the President's station.

President Valentine introduced the Right Reverend John A. Ryan, who addressed the joint convention.

Brown of Polk moved that the joint convention be dissolved.

Motion prevailed and the joint convention was dissolved.

House reconvened, Speaker Foster in the chair.

CODES ORDERED

Unanimous consent was given the Chief Clerk to order six codes, annotations and session laws for the use of the officers of the House.

Rice of Keokuk moved that the House recess until 3:00 o'clock this afternoon.

Motion prevailed.

AFTERNOON SESSION

The House reconvened, Speaker Foster in the chair.

REPORTS OF COMMITTEE

Riddle of Monona, from the committee on interstate bridges, submitted the following report:

MR. SPEAKER: Your committee on interstate bridges, to whom was referred House File 6, begs leave to report they have had the same under consideration and have instructed me to report the same back to the House with the recommendation that the same be amended as follows, and when so amended the bill do pass:

Strike all after the enacting clause and substitute in lieu thereof the following:

Section 1. Chapter three hundred two-C one (302-C1) of the Code, 1935, is hereby amended by adding the following new section:

Revenue refunding bonds. Any city which has heretofore or shall hereafter issue revenue bonds under the provisions of this act, is hereby authorized to provide for the issuance of revenue refunding bonds of the city for the purpose of refunding any such revenue bonds then outstanding. It shall not be necessary to submit the proposition of issuing such revenue refunding bonds to the electors of the city. In all other respects, the issuance of such revenue refunding bonds, the maturities and other details thereof, the rights of the holders thereof, and the duties of the city and of the bridge commission, if any, in respect to the same, shall be governed by the provisions of this act in so far as the same may be applicable, and by the following provisions:

Digitized by Google

(a) No revenue refunding bonds shall be issued, unless issued to refund bonds which have matured or will mature within three months, or unless the interest rate of the revenue refunding bonds shall be at least one-fourth of one per centum less than the interest rate borne by the revenue bonds to be refunded, in which event the entire bond issue may be refunded.

(b) No revenue refunding bonds shall be delivered, unless delivered in exchange for revenue bonds to be refunded thereby, except in the amount necessary to provide for the payment of matured or redeemable revenue bonds or revenue bonds maturing or redeemable within three months, including any redemption premium thereon, or all revenue bonds refunded for a lower interest rate as provided in sub-section (a).

(c) The rates of tolls to be charged for the use of the bridge acquired or constructed from the proceeds of the revenue bonds to be refunded, shall be so fixed and adjusted as to provide a fund sufficient to pay the interest on and the principal of such revenue refunding bonds as the same shall become due, and to provide an additional fund to pay the cost of maintaining, repairing and operating the bridge. And such tolls shall be continued until such revenue refunding bonds and the interest thereon shall be paid or provision made for their payment.

(d) Notice of refunding of said bonds shall be given to the public for at least three consecutive weeks prior thereto in at least one local newspaper of general circulation in one of the communities or cities adjacent to and served by said bridge.

Sec. 2. The provisions of this act shall be applicable to cities acting under special charter.

Sec. 3. This act being deemed of immediate importance shall be in force and effect from and after its publication in the Davenport Democrat, a newspaper published in Davenport, Iowa, and the Tri-City Star, a newspaper published in Davenport, Iowa. Such publication shall be at no cost to the State of Iowa. MATT B. RIDDLE, *Chairman.*

Report adopted.

Amend Senate File 15, Section 2, line 7, by inserting after the word "real estate" the words "owner or owners of an undivided interest therein".

Amendment adopted.

Yager of Dickinson and Blue of Wright offered the following amendments and moved their adoption:

Amend Senate File 15 by striking from Sec. 2 commencing in line 12 following the word "contrary" the following:

(1) ", however a showing of present insolvency of the mortgagor or mortgagors and/or present inadequacy of the security shall not be sufficient to constitute good cause within the meaning of this act."

And by changing the capital letter "U" in the "Upon" to a small "u", and by adding following the comma after the word "contrary", the word "and".

Further amend by adding the following section following Sec. 2:

(2) "Sec. 3. A showing of present insolvency of the mortgagor or mortgagors and/or present inadequacy of the security shall not be sufficient to constitute good cause for refusal to grant a continuance within the meaning of Section 2 of this act."

Further amend by renumbering the remaining sections.

Amendments adopted.

Rice of Keokuk moved to amend Senate File 15, Section 4, line 3 by striking the figures "1934" and inserting in lieu thereof the figures "1936".

Mercer of Johnson offered the following amendment as a substitute for the Rice amendment:

Amend Senate File 15, Section 4, line 5, by striking the figures "1936" and inserting in lieu thereof the figures "1934".

Blue of Wright moved the previous question.

Motion prevailed.

On the question, "Shall the Mercer amendment be substituted for the Rice amendment?"

Roll call was demanded.

Rule 18 invoked.

Further amend by renumbering the remaining sections.

EXPLANATION

Due to the fact that I was absent from the House on February 3rd, at the time that the vote on Senate File 15 was taken, because of the fact that I was on the contest committee of R. G. Moore, incumbant, and

JOURNAL OF THE HOUSE

HALL OF THE HOUSE OF REPRESENTATIVES,
DES MOINES, IOWA, FEBRUARY 4, 1937.

The House met pursuant to adjournment, Speaker Foster in the chair.

Prayer was offered by Rev. G. W. Griffin, pastor First C. M. E. church, Des Moines, Iowa.

Journal of February 3rd corrected and approved.

LEAVE OF ABSENCE

Leave of absence was granted as follows: Pine of Louisa, for the day, on request of Latchaw of Muscatine; Strickler of Polk, for remainder of day, on request of Roan of Lee.

PETITIONS

Johnson of Buena Vista presented a petition from sportsmen and fishermen of northern Iowa protesting against "present fish and game laws which delegate power and authority to the State Conservation commission to promulgate and establish fish and game laws and regulations," contending that the power to enforce violations of its rulings and regulations is beyond the power of such board, bureau or commission and that the fish and game laws of Iowa should be made by the legislature of Iowa and by no other body, protesting especially against tackle restrictions issued by the Iowa Conservation commission effective April 1, 1936, for the season of 1936-1937 wherein it is made unlawful for citizens of northern Iowa to use 15 hooks on a trot line while such use is permitted in southern Iowa and asking repeal of present game laws delegating "such broad powers to the Iowa Conservation commission". Referred to fish and game.

Dodds of Des Moines presented a petition from the employees of Des Moines county favoring the County Civil Service act. Referred to compensation of public officers.

Copeland of Dallas presented a petition from members of the Retail Beverage Merchants Association of Iowa, Inc., and other

Digitized by Google

citizens of the state stating (1) opposition to local option, county option, or municipal option in any part of Iowa, (2) belief that the beer laws of Iowa should be all-embracing and require uniform license, regulations and closing hours throughout the state, (3) conviction that the class "B" retailer should be assured a fair profit from the returns on his business, (4) conviction that the "C" permittee should be required to pay the same license fee as the class "B" permittee, and (5) going on record as opposed to the state liquor monopoly insofar as they believe the people of Iowa desire the sale of liquor by the drink. Referred to liquor control.

LEAVE OF ABSENCE GRANTED

Bulow of Clinton moved that Johannes of Osceola, Christoffersen of Black Hawk, Rasmussen of Pottawattamie, Hultman of Montgomery and Benz of Chickasaw, of the contest committee in the contest of Peyton vs. Moore of Harrison, be excused for the day.

Motion prevailed.

report its findings to the Forty-seventh General Assembly of the State of Iowa.

Whereas, There is a state-wide demand for a revision of the present law and the method of administering the old age assistance laws of the State of Iowa; and

Whereas, There are thousands of applicants for the old age pension who are worthy of receiving the same whose pensions have not been granted because of insufficient funds with which to pay the same or other causes, and

Whereas, There is wide-spread criticism because of the failure of the old age assistance act as it is now written and administered to adequately provide for the aged persons in the State of Iowa who are entitled to old age pensions and also wide-spread criticism of some of the provisions of the present act for the administration of pensions, and

Whereas, The question of the revision of the Iowa old age assistance act and the providing of an adequate old age pension for the aged in the State of Iowa is one of the most important problems confronting the Forty-seventh General Assembly of the State of Iowa, now, therefore,

Be It Resolved by the House of Representatives, the Senate concurring, That a committee of members of the House of Representatives shall be appointed by the Speaker of the House, which committee shall consist of six members, and a committee composed of members of the Senate who shall be appointed by the Senate consisting of six members, whose duty it shall be to consider all proposed legislation now introduced or which may hereafter be introduced relative to old age assistance laws and to investigate the administration of the Iowa old age assistance act to the end and for the purpose that any defects in the present old age assistance act be corrected or defects in its administration be remedied and that the present Iowa old age assistance act be so amended so as to adequately provide for the aged persons in the State of Iowa who are in need of such assistance.

Laid over under rule 34.

Weichman of Benton asked and obtained unanimous consent to have the following statement printed in the Journal:

STATEMENT BY WEICHMAN OF BENTON

After the announcement from the desk Wednesday that in reply to the numerous requests by House members for an extra copy of the Code to use in homes at night, they were informed there were 3,500 or 4,000 extra copies in storage, which would not be sold, and same might be had by making requisition for one.

I verified this statement and was assured by the Chief Clerk there would be no additional expense to the State of Iowa, as they were already printed and were in storage. I then made request for one of these extra copies of the Code to use in my room to enable me to study bills introduced and those on the calendar the following morning.

CONSIDERATION OF BILLS

HOUSE CONCURRENT RESOLUTION 5

Whereas, There are at present many departments of state government housed in buildings outside the capitol building with a rental in excess of $70,000 per year; and,

Whereas, The Forty-seventh General Assembly is faced with demands for additional office space to house a steady increase and expansion of departments; and,

Whereas, The present capitol site is one of the many beauty spots of Des Moines and Iowa; and a building program might mar it; and,

Whereas, There is a group of buildings not far removed from the present capitol and situated on a state highway and easily accessible by road from all directions into Des Moines, a portion of which buildings are fireproof, have trackage available and other advantages which justify consideration; and,

Whereas, Said buildings known as Des Moines University are now in the hands of a receiver; now, therefore,

Be It Resolved by the House, the Senate Concurring: That a committee to be composed of three members from the House, to be designated by the Speaker of the House, and three members from the Senate, to be designated by the President of the Senate, be impowered to investigate the availability and desirability of such buildings for state use, to seek the advice of the City Planning Commission and any other agency at state service, which would be helpful in making a report to the Assembly.

Laid over under rule 34.

Blue of Wright asked and obtained unanimous consent to withdraw the amendment filed by him and found on page 218 of the Journal of February 2.

Blue of Wright called up the amendment filed by him and found on page 232 of the Journal of February 3, and moved its adoption.

Rice of Keokuk moved to amend the Blue of Wright amendment as follows:

Strike all after the word "mortgagee" in line 3 of Section 3 and insert in lieu thereof the words "unless otherwise agreed".

Also, strike all of Sec. 4.

Amendment to the amendment adopted.

Amendment as amended adopted.

Rice of Keokuk moved that Senate File 16 be substituted for House File 14. Motion prevailed.

Senate File 16, a bill for an emergency act relating to the extension of the redemption period from the sale under foreclosure of real estate where deeds of conveyance have not already passed; declaring that the emergency still exists; providing for the making of application for extensions of the period of redemption and for the kind and manner of notices to be given; making the provisions of this act applicable to all cases where the courts have granted such extension; and providing for applications now on file, for payment and distribution of rents and for suspension of all acts or parts of acts in conflict with this act, was taken up for consideration.

Rice of Keokuk moved to amend Senate File 16 by striking all after the enacting clause and substituting the following in lieu thereof:

"Section 1. The Forty-seventh General Assembly hereby declares and determines that an emergency existed when Chapter one hundred seventy-nine (179), acts of the Forty-fifth General Assembly was enacted and that an emergency did exist when Chapter one hundred ten (110), acts of the Forty-sixth General Assembly was enacted and that an emergency does exist at this time and is general throughout the state of Iowa, and that the safety and future welfare of the state as a whole is endangered thereby. The General Assembly acting under the power reserved by the people of Iowa does hereby enact the following:

Sec. 2. In any action, for the foreclosure of a real estate mortgage or a deed of trust, which has been commenced prior to March 1, 1937, in any of the courts, and in which a decree has been or may hereafter be

entered, but the redemption period, as now provided, has not expired, upon application of the owner or owners of such real estate, the court shall, unless upon hearing upon said application good cause is shown to the contrary, order that no sheriff's deed shall be issued until March 1, 1939, and in the meantime said owner or owners may redeem such property, and are entitled to possession thereof.

Provided, the court having jurisdiction of such foreclosure action shall order and direct, that there shall be applied from the income of said real estate so much thereof as is just and equitable, toward the payment of taxes accruing thereon during the period of redemption extension as provided by this act, and any balance distributed as the court may direct, and shall make such provision for the preservation of said property as will be just and equitable during the redemption period, and to this end the court may, in his discretion, in order to carry out the foregoing powers, appoint a receiver of said real estate, and invest said receiver with such powers as the court may find will be just and equitable to all parties to the proceeding.

'Providing, that in the event the said owner or owners do not comply with the orders of the court, the order for extension of redemption period as authorized by this act shall, on proper hearing, be set aside by order of the court.'

Sec. 3. The court shall not appoint as a receiver of said real estate a field agent of any insurance company or loan company or any other person in the employment of the mortgagor or mortgagee, unless otherwise agreed.

Sec. 4. During the period of extension of redemption as herein provided, the owner or owners of said real estate shall have the exclusive right to redeem and the rights of redemption of subsequent mortgagees, junior lienholders and creditors shall terminate within the period as by law now provided, the provisions of this act notwithstanding.

Sec. 5. During the period of extension of redemption, as herein provided, the clerk of the district court of the county in which such foreclosure action is brought, shall receive and disburse the income from said real estate, as the court shall order as just and equitable.

Sec. 6. Immediately upon this act going into effect the clerk of the district court shall notify by registered mail in properly addressed and stamped envelopes at their last known addresses all defendant mortgagors or grantors of deeds of trust who have been granted extension of the period of redemption, and which have not been revoked, and also their attorney or attorneys of record, that unless an application for a further extension under this chapter is made before March 1, 1937, that the extension theretofore granted shall automatically expire.

Sec. 7. Immediately upon filing of the application for the further extension of a period of redemption, the court shall set the time and place of hearing and prescribe the kind of notice to be given to all parties plaintiff, and no sheriff's deed shall issue until the hearing is had upon such application and the extension of the period of redemption denied, and unless good cause is shown why said extension should not be granted until March 1, 1939, the court shall grant the extension.

Sec. 8. The provisions of this act shall not apply to any mortgages or

deeds of trust executed subsequent to March 1, 1936, nor shall it apply to mortgagors or mortgagors under deeds of trust who acquired the real estate subsequent to March 1, 1936, except only in cases where the period of redemption has already been extended by court order.

Sec. 9. The provisions of this act shall not apply to any mortgages or deeds of trust executed prior to March 1, 1936, and subsequently renewed.

Sec. 10. All applications which have been filed for extension of redemption and upon which no hearings have been held shall be in full force and effect.

Sec. 11. Every original notice covering the foreclosure of a real estate mortgage, or deed of trust, or the note or notes secured thereby, served after the taking effect of this act, shall, during the time this act is in effect, contain a notice to the defendant or defendants that he or they may appear at the time and place stipulated in said notice and file application for continuance of said cause of action until March 1, 1939.

Sec. 12. The words "owner or owners" as used in this act, shall include any person holding rights in real estate as joint tenant, tenant in common, life tenant, devisee or heir at law or any person holding the legal title to real estate. The application for extension by one or more owners, when made as provided in this act, shall inure to the benefit of all of the owners, if there be more than one.

Sec. 13. All acts or parts of acts in conflict with this act are hereby suspended.

Sec. 14. If any section, subsection, clause, sentence, or phrase of this act is for any reason held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portions of this act. The legislature hereby declares that it would have passed this act and each section, subsection, clause, sentence, or phrase hereof, irrespective of whether any one or more of the sections, subsections, clauses, sentences, or phrases be declared unconstitutional.

Sec. 15. This act being deemed of immediate importance shall be in full force and effect after its passage and publication in the Delta Press, a newspaper published at Delta, Iowa, and in the Oskaloosa Tribune, a newspaper published at Oskaloosa, Iowa."

Rice of Keokuk moved that the bill be read a third time now and placed upon its passage, which motion prevailed and the bill was read a third time.

The motion prevailed and the House reconsidered.

Sours of Floyd moved to reconsider the vote by which House File 4 went to its third reading. Motion prevailed.

Moore of Woodbury offered the following amendment and moved its adoption:

Amend House File 4 by striking all after the enacting clause and inserting in lieu thereof the following:

Section 1. There shall be imposed the following tax:

$100 to $500 on five, ten and twenty-five cent jack pot slot machines.

$75 to $300 on pin ball machines, with jack pot.

$5 to $25 on pin ball machines, with no jack pot.

75c to $3 on pin ball machines, with score board pay-off.

$5 to $25 on pin ball machines for amusement.

50c on penny merchandise vendors.

75c to $3 on cigarette pay-off machines.

50c on scale machines.

50c to $1 on punchboards, 15 per cent.

50c to $1 on number jars, 5 per cent.

$1 on shooting gallery, 5 per cent.

75c to $3 on mechanical vendor.

$1 on merchandise vendor.

Any machine of chance, slot machine or gambling machine of any kind found by any officer of law, or any citizen without paid tax attached to machine, must take immediate possession and destroy said machine on the premises where found, leaving the destroyed machine in place where found.

Further amend House File 4 by inserting after the word "devices" in the title thereof the words: "and imposing a tax thereon".

Sours of Floyd raised the point of order that the Moore of Woodbury amendment was not germane to the subject matter and

COMMUNICATION FROM THE GOVERNOR

February 8, 1937.

MR. PRESIDENT, MR. SPEAKER, MEMBERS OF THE FORTY-SEVENTH GENERAL ASSEMBLY:

I desire to call your attention to a legislative matter which, in my opinion, requires immediate attention.

The Forty-sixth General Assembly in Extraordinary Session passed the Unemployment Compensation Act, under the terms of which I am required, on or before March 1st, 1937, to appoint a board of five members

Digitized by Google

for permanent administration. By common consent, since this legislation was hurriedly passed, we agreed that it be reviewed during the present legislative session.

The Executive Council has set up a temporary organization to administer this act, and, at the present time, tax receipts thereunder are being paid at the rate of one hundred thousand dollars ($100,000.00) per day.

I, therefore, consider it highly important that your review of this legislation be completed well before March 1st, 1937, to the end that a permanent board can be appointed, and, if any additional legislation on this subject is necessary, it should be enacted immediately.

Respectfully submitted,
(Signed) N. G. KRASCHEL, *Governor.*

Referred to committee on social security.

COMMUNICATION FROM THE GOVERNOR

The following communication was received from Governor Nelson G. Kraschel, declaring that an emergency exists now in Iowa as a result of severe drought and insect pestilence and imploring the legislature to enact suitable legislation to relieve distressed farmers, "properly protect the interests of unfortunate citizens from forces over which they have had no control", and so cope with this emergency. Governor Kraschel's message, in the form of a proclamation, follows:

STATE OF IOWA
EXECUTIVE DEPARTMENT

PROCLAMATION

Whereas, The emergency which made necessary the enactment of Chapter No. 179 of the laws of the Forty-fifth General Assembly; Chapter No. 182 of the laws of the Forty-fifth General Assembly; Chapter No. 115 of the Forty-sixth General Assembly, and Chapter No. 110 of the laws of the Forty-sixth General Assembly, relating to the Moratorium on Farm and Home Mortgage Foreclosures and to the extension of the period of redemption on mortgages which were already foreclosed, still exists, and

Whereas, Since the effective date of this legislation, Iowa has been afflicted with a severe drouth, visited by destructive insect pests, and stricken with other devastation which impaired the welfare of the State as a whole, making it increasingly difficult for the legislation referred to, to properly protect the interests of unfortunate citizens from forces over which they had no control, and has seriously jeopardized the stability of thousands of Iowa citizens not now, or heretofore, protected by this legislation, all of which has imperiled the present and future welfare of the State as a whole.

Now, therefore, I, Nelson G. Kraschel, Governor of the State of Iowa, by and with the authority vested in me, as Chief Executive of the State of Iowa, do hereby declare that the original emergency still exists, aggravated by new and distressing conditions which, in themselves, constitute a new emergency, and I recommend that the Forty-seventh General Assembly now in session do recognize this emergency by such legislation as will protect the interests of all the people of the State of Iowa.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great Seal of the State to be affixed, at Des Moines, this twelfth day of February, in the year of Our Lord One Thousand Nine Hundred Thirty-seven, and in the One Hundred Sixty-first year of the Independence of the United States of America.

N. G. KRASCHEL, *Governor.*

MESSAGE FROM THE SENATE

The following message was received from the Senate:

MR. SPEAKER: I am directed to inform your honorable body that the Senate has adopted the report of the conference committee and concurred in the amendments proposed therein on Senate File 15, relating to the foreclosure of real estate mortgages and deeds of trust.

WALTER H. BEAM, *Secretary.*

REPORT OF CONFERENCE COMMITTEE ON SENATE FILE 15

MR. PRESIDENT AND MR. SPEAKER: We, the undersigned members of the conference committee appointed to consider the differences between the Senate and House on Senate File 15, being a bill relating to the foreclosure of real estate mortgages and deeds of trust and providing for the continuance of such actions, beg leave to report that we have had the same under consideration and recommend that the House recede from its amendments and that the bill as passed by the Senate be amended as follows; and when so amended the bill do pass:

Amend said bill by striking the word "that" from the first line of the second paragraph of the Preamble; by striking the word "therefore," from the last line of the third paragraph of the Preamble; and by adding to said Preamble the following paragraph:

"*Whereas,* Since the enactment of said chapters, Iowa has been afflicted with a severe drouth, visited by destructive insect pests, and stricken by other devastating circumstances which greatly imperil the present and future welfare of the state as a whole, so that the Forty-seventh General Assembly has now determined that a new and additional emergency has arisen, and the Governor has by proclamation so declared, therefore,".

Amend Section 1 by inserting between the comma and the word "and" in line 6 of said section the following: "aggravated by new and distressing conditions, which of themselves constitute a new emergency,".

Digitized by Google

Amend Section 2 by inserting between the words "application" and "of" in line 7 of said section the following: "in good faith".

Amend Section 2 by striking the word "and" from line 9 of said section.

Amend Section 2 of said bill by striking from said section commencing in line 12 following the word "contrary" the following: ", however a showing of present insolvency of the mortgagor or mortgagors and/or present inadequacy of the security shall not be sufficient to constitute good cause within the meaning of this act."

Also amend by changing the capital letter "U" in the word "upon" to a small "u", and by adding the word "and" following the comma after the word "contrary" in line 12.

Further amend by adding the following section following Section 2:

"Sec. 3. A showing of present insolvency of the mortgagor or mortgagors and/or present inadequacy of the security shall in themselves not be sufficient to constitute good cause for refusal to grant a continuance within the meaning of Section 2 of this act."

Further amend by renumbering the remaining sections of said bill.

Amend Section 4, being Section 5 as renumbered, by striking from line 3 of said section the figures "1934" and inserting in lieu thereof the figures "1936".

Further amend Section 4 by striking from line 3 of said section the first word "mortgagors" and inserting in lieu thereof the words "a mortgagor".

Amend Section 5, being Section 6 as renumbered, by striking from line 2 of said section the figures "1934" and inserting in lieu thereof the figures "1936".

REPORT OF CONTEST COMMITTEE

Johannes of Osceola, chairman of the contest committee in the contest of Peyton vs. Moore of Harrison county, submitted the following report:

MR. SPEAKER: We, the contest committee to whom was referred the matter of the contest between R. G. Moore, incumbent, and H. L. Peyton, contestant, for a seat in the House of Representatives from Harrison county, Iowa, beg leave to report as follows:

The committee met pursuant to the call of W. J. Johannes, chairman, 10:30 o'clock a. m., January 18, 1937, at the Hotel Fort Des Moines, Des Moines, Iowa.

The ballots of Harrison county were brought to Des Moines, Iowa, and delivered to the committee by Fred C. Behm, auditor of said county, and that said auditor under oath disclosed to the committee that ten (10) bags of the twenty-six (26) bags containing ballots from the voting precincts in said county had been delivered to his office unsealed and untied in violation of statute.

The judges and clerks in six (6) of the voting precincts of said county had failed to make a certificate of return, within the time specified by law, although the same was subsequently done.

The ballots from ten (10) precincts, were involved in a contest for the office of supervisor of Harrison county, Iowa, and that during one noon hour the ballots of one precinct were left open in a room to which he was not certain there were no other keys.

In some of the precincts the judges of election failed to return the envelopes in which the absent voters' ballots were cast and thus there was no way to make a check of the absent voters' ballots in these precincts. The poll book from Cass township in said County, which contained the names of the voters who appeared at said election, was not in his hands, and he did not know what had become of same. Said book, however, was subsequently delivered on February 11, 1937, to the committee.

It was further disclosed to the committee on sworn testimony by three (3) clerks and two (2) judges of election from the Logan precinct, Harrison County, that at one time during the counting of the ballots in said precinct, and while in possession of the counting board, only one count-

Digitized by Google

ing judge, and one clerk were in possession and observation of said ballots and that said judge and clerk were of the same political affiliation, and that at another time only one judge and two clerks were in possession and observation of said ballots.

Section eight hundred ninety-eight (898) of the Iowa Code, 1935, provides in speaking of ballots, among other things as follows: "and at all times when they are in possession of the counting board, they shall be under constant observation of at least two (2) counting judges."

It is the opinion of the committee, after much deliberation, that said section is mandatory and that failure to comply with same shall render the ballots of the precinct wherein there was a failure to observe the requirements of said section, incompetent evidence, and that said ballots cannot be considered in the tabulation of votes.

It is the opinion of the committee that there was a violation of said statute in the Logan Precinct, Harrison County, Iowa, and that therefore the votes cast in said precinct cannot be considered in determining who was elected as State Representative of Harrison County.

Your committee has proceeded to count the balance of the ballots cast in Harrison County, Iowa, for State Representative and such count discloses five thousand eighty (5,080) votes cast for R. G. Moore, incumbent, and four thousand eight hundred eleven (4,811) votes cast for H. L. Peyton, which are undisputed; that there are one hundred seventy-five (175) ballots which are disputed, which have been cast for R. G. Moore, incumbent, and two hundred six (206) disputed ballots, which have been cast for H. L. Peyton, that by conceding to H. L. Peyton all of his disputed ballots, and rejecting all of R. G. Moore's disputed ballots, R. G. Moore would have a majority of sixty-three (63) votes and for that reason your committee has made no further disposition of said disputed ballots.

We, therefore, recommend that R. G. Moore be declared to be duly elected as a member of the House of Representatives from Harrison County, Iowa, and that he be seated as a member of the House of Representatives as the duly elected Representative from Harrison County, Iowa.

Dated this 12th day of February, 1937.

Respectfully submitted,

W. J. JOHANNES, *Chairman.*
P. C. RASMUSSEN.
I. H. CHRISTOFFERSEN.

Hultman of Montgomery and Benz of Chickasaw, members of the contest committee in the contest of Peyton vs. Moore of Harrison county, submitted the following minority report:

MINORITY REPORT OF CONTEST COMMITTEE

MR. SPEAKER: We, the undersigned members of the Contest Committee to whom was referred the matter of contest of R. G. Moore, incumbent, and H. L. Peyton, contestant, for a seat in the House of Representatives

from Harrison County, being unable to agree with the majority members of the Committee, beg leave to make the following minority report.

The committee met, pursuant to the call of W. J. Johannes, chairman, at about ten o'clock A. M., January 18, 1937, and for subsequent days up to and including February 11, 1937.

The contest was brought by H. L. Peyton, Republican candidate for said office, against R. G. Moore, Democratic candidate and incumbent.

The specifications of contest were:

1. That the boards of canvassers in each of the voting precincts in Harrison County, Iowa, made errors in counting the ballots and votes cast in said election for said office, and such errors affect the result of said election for said office.

2. That the judges of election in each and every voting precinct in Harrison County, Iowa, in said election failed to count legal votes cast for the contestant and counted illegal votes cast for the incumbent, and that through error and mistake in the counting of the ballots in each and every precinct in Harrison County, Iowa, in said election the judges of election failed to count votes cast for the contestant and counted votes erroneously for the incumbent, and that the contestant was in fact elected by reason of the fact that there was cast for him at said election a majority of the total votes cast, and that the errors and mistakes of the judges above enumerated were such to change the result of said election as to said office as announced by the canvassers.

The Auditor of Harrison County, Iowa, testified before the Committee that the poll books and the ballots from each and all of the voting precincts in Harrison County were delivered to him by the judges of election on November 4, 1936, and that from the time of the delivery of such ballots to him by the judges of election of the several precincts he has carefully preserved the same to the time of the delivery of said ballots and returns to this Committee.

The Committee proceeded to recount the ballots from Harrison County and after counting all but 381 of said votes found that the contestant had received 5,429 votes and the incumbent 5,412 votes, and the contestant was leading the incumbent by 17 votes. Of the remaining 381 votes not counted it is the opinion of the minority members that 175 of these should be counted for the incumbent and 206 thereof should be counted for the contestant, in which event the contestant would have a majority of 48. It seems to be the unanimous opinion of all the members of the committee that in any event the contestant, Peyton, has received more votes than the incumbent, Moore.

The majority of the committee, however, seem to feel that there were certain irregularities on the part of the election officials in the Logan precinct, on the ground that there was a short period of time, a few minutes only, and after the polls had closed, when the ballots of the Logan precinct were not under the observation of two counting judges and rely upon Section 898 of the Code, which is as follows:

Sec. 898. Counting quarters—guarding ballots. Boards of supervisors shall provide suitable places for the counting of ballots, but when it becomes necessary to remove the ballot box from one room to another or

Digitized by Google

from one building to another, and at all times when they are in possession of the counting board, they shall be under constant observation of at least two counting judges. (C24, 27, 31, Sec. 898).

Code of Iowa, 1935, Chapter 42.

However, the evidence as shown by the personal testimony of certain of the election officials proved that the ballots were at all times under the observation of two election officials, and that there were at the most but a few minutes of time throughout the entire proceeding when two judges were not present, but that even during this short period there was a judge and a clerk present. The evidence further shows, without dispute, by the testimony of one of the officials present that there was no tampering with or manipulation of the ballots during this period.

The minority members of the committee submit that there was no evidence whatsoever of any fraud in connection with the Logan vote or its tabulation and that any attempt to throw out or disregard the vote of the Logan precinct would wrongfully and unlawfully disfranchise 1,013 voters and would be contrary to law and justice.

That further Section 898 above referred to is only a directory statute; that the law seems to be clear that a violation of duty or a failure to perform a duty on the part of election officials is not sufficient to warrant a disregard of the vote unless there is positive evidence of fraud or irregularity that would change the result. There is no such evidence.

Therefore, the undersigned minority members of this committee report to the House that H. L. Peyton, the contestant, having clearly received a majority of the votes counted in this contest or cast in the election, and there being no evidence of fraud of any kind in this election, should as a matter of law and common justice, be declared to be the duly elected Representative to the House of Representatives from Harrison County, Iowa.

Respectfully submitted,

O. N. HULTMAN,
M. E. BENZ,
Members of the Committee.

Johannes of Osceola moved that the majority report be adopted.

Benz of Chickasaw moved that the minority report be substituted for the majority report and adopted.

Brown of Polk moved that the House resolve itself into a committee of the whole to consider both reports of the contest committee.

MESSAGE FROM THE SENATE

The following message was received from the Senate:

MR. SPEAKER: I am directed to inform your honorable body that the Senate has adopted the report of the conference committee and concurred in the amendments proposed therein and passed as amended thereby Senate File 16, a bill for an act relating to the extension of the redemption period under mortgage foreclosure. WALTER H. BEAM, *Secretary.*

REPORT OF CONFERENCE COMMITTEE ON SENATE FILE 16

MR. PRESIDENT AND MR. SPEAKER: We, the undersigned members of the Conference Committee appointed to consider the differences between the Senate and House on Senate File 16, being a bill relating to the extension of the redemption period from the sale under foreclosure of real estate, beg leave to report that we have had the same under consideration and recommend that the House recede from its amendments and that the bill as passed by the Senate be amended as follows; and when so amended the bill do pass:

Amend said bill by striking the word "that" from the first line of the second paragraph of the preamble; by striking the word "therefore," from the last line of the third paragraph of the preamble, inserting the word "and" in lieu thereof, and by adding to said preamble the following paragraph:

"*Whereas*, since the enactment of said chapters, Iowa has been afflicted with a severe drouth, visited by destructive insect pests, and stricken by other devastating circumstances which greatly imperil the present and future welfare of the state as a whole, so that the Forty-seventh General Assembly has now determined that a new and additional emergency has arisen, and the Governor has by proclamation so declared, therefore,".

Amend Section 1 of Senate File 16 by inserting between the comma and the word "and" in line 6 of said section the following: "aggravated by new and distressing conditions, which of themselves constitute a new emergency,".

Amend Section 2 of said bill by inserting between the comma and the word "order" in line 6 of said section the following: "or said application is found not to have been made in good faith,".

Further amend Section 2 of said bill by inserting between the words "not" and "be" in line 11 of said section the following: "in themselves".

Further amend Section 2 of said bill by inserting between the first comma and the word "the" in line 4 of said section the following: "and in all foreclosure actions on mortgages and deeds of trust executed prior to January 1, 1936, in which decrees have been entered but the period of redemption has not expired,".

Amend said bill by striking all of Sections 7 and 8 therefrom, and by renumbering the remaining sections.

Amend Section 12 of said bill, being Section 10 as renumbered, by striking the last letter "s" from the words "sections" and "subsections" in line 1 of said section.

PLACING OF PICTURE OF WASHINGTON

Brown of Polk made the following motion and moved its adoption:

In the present apparent anxiety to remove ourselves as far as possible, both in act and deed, from what is now flippantly called the horse and buggy age, are we not forgetting some of the fundamentals of not only patriotism but good government?

I am willing to admit that we must progess or perish; there is no standing still. This applies to government, as well as to individuals. But in the progress, there are certain landmarks and traditions which should be perpetuated and cherished.

In our apparent haste for a speedier recovery from one of the greatest depressions the world has known, it would appear that some are willing to disregard every precedent established by lawful authority, and to knock down and run over the traditions of a free and independent people. We appear to be willing to discount the patriotic sacrifice which has been made in the building of this great country, and obliterate from mind and history the outstanding deeds of heroism and patriotism of our forefathers.

This is not as it should be. From the past, we should take that which leads to high ideals and purposes, and we should maintain our progress upon an even keel; that is this, there is no place for partisanship and no warrant for vicious reprisal.

We are now approaching the anniversary of the great patriot to whom we are all proud to refer as the father of our great country. As we come to that celebration which should renew our vows of allegiance as a free and independent people to the great democracy which we love, we find that the picture of this great champion of the peoples' rights has either been removed or is at least not present on the walls of this House chamber.

I move, Mr. Speaker, that the custodian be directed to place on the north wall of the House chamber and in the place and stead of that of the Vice President of the United States, an appropriate picture of General George Washington, the first president of the United States.

Motion prevailed.

SPECIAL ORDER 6

Rice of Keokuk moved that the consideration of the reports of the contest committee in the contest of Peyton vs. Moore of Harrison be made a special order for Wednesday, February 17, 1937, at 10:00 o'clock a. m. Motion prevailed.

ADOPTION OF HOUSE CONCURRENT RESOLUTION 9

Johnson of Buena Vista called up House Concurrent Resolution 9 as found on page 356 of the Journal of February 15th and moved its adoption.

Motion prevailed and House Concurrent Resolution 9 was adopted.

INTRODUCTION OF BILLS

House File 196, by Pine of Louisa, Latchaw of Muscatine and Dodds of Des Moines (Corwin and Bell), a bill for an act to authorize levee and/or drainge districts to maintain actions to collect damages resulting from the construction of locks, dams and pools; to make settlements and adjustments of said damages, and to employ legal engineering counsel; and to become members of drainage associations.

Read first and second times and referred to committee on drainage.

House File 197, by Hathaway of Buchanan, a bill for an act to restrict the period of service of certain employees of the state to eight (8) hours in any one day and forty-eight (48) hours in any one week except in the case of extraordinary emergency, or public necessity in certain cases, and to provide for the administration and enforcement thereof.

Read first and second times and referred to committee on labor.

Stimpson of Jones, chairman of the contest committee in the contest of Peaco vs. Judd of Clinton county, submitted the following report:

REPORT OF CONTEST COMMITTEE

We, the contest committee to whom was referred the matter of the contest between Milton Peaco, contestant, and Wm. N. Judd, incumbent, for a seat in the House of Representatives from Clinton county, reports as follows:

That the committee met pursuant to the call of Thomas Stimpson, chairman, on January 14, 1937, at the State House in Des Moines; that the committee counted the votes in Clinton county, cast at the general election, November 3, 1936, and found that Milton Peaco received 10,653 votes, Wm. Judd received 10,650 and that Milton Peaco had a plurality of three votes.

We, therefore, recommend that Milton Peaco be declared to be duly elected to the House of Representatives from the Forty-fifth District, Clinton county, and that he be granted a seat as a member of the House of Representatives from Clinton county.

committee in the contest of Peaco vs. Judd of Clinton county, submitted the following minority report:

MINORITY COMMITTEE REPORT

In the matter of the Legislative contest of Milton Peaco vs. William N. Judd, et al.

MR. SPEAKER: The following members, Milton W. Strickler and J. C. Moore, Jr., members of the committee appointed to conduct a contest between Milton Peaco, contestant, and William N. Judd, incumbent, to the House of Representatives of the Forty-seventh General Assembly of the State of Iowa, beg leave in this minority report to recommend that the said House of Representatives declare the said incumbent, William N. Judd, to be the regular and duly elected member of the Forty-seventh General Assembly, and that the petition of contest of the said Milton Peaco filed herein be dismissed and held for naught, and that the election of the incumbent, William N. Judd be confirmed.

The minority members of this committee substantiate this report upon the following grounds:

DIVISION I

The ballots are inadmissible and even if admitted are not sufficient to change the official results because of the discrepancy between the poll books examined and the ballots counted in 21 of the 37 precincts.

1. The statement of contest filed by said Peaco does not allege fraud but in substance merely alleges, that a proper recount of all the ballots cast November 3rd, 1936, for the office of State Representative from Clinton county would show said contestant to have been elected.

2. That it appears from the poll books that 23,295 voters cast their ballots at said election. The poll books are the best evidence of who and how many voted at such election. (See State of Iowa v. Pressman, 103 Iowa 449).

3. That it appears without dispute in the record that but 23,262 ballots were made available by the county auditor for a recount by the parties hereto, (See Stipulation, pages 10 to 12, Brandenburg Transcript), and that the county auditor is unable and the contestant fails to try to explain the net discrepancy of 33 between the number of voters shown by the poll books and the ballots produced for recount.

4. That it appears without dispute (pages 10 to 12, Brandenburg Transcript) that there were 16 precincts where the ballots produced tallied with the number of names in the poll books, 6 precincts in which there were 7 more ballots produced for the recount than were shown by the poll books and 15 precincts where there were produced 40 less ballots than were shown by the poll books.

5. It appears without dispute that if the recount of ballots in the 21 precincts where said discrepancies occur, were substituted for the official count of the judges, incumbent Judd would suffer a net loss of 49 votes in said 21 precincts (See Memorandum A hereto attached), although it appears without dispute that he would have a net gain of 7 votes in the

Digitized by Google

16 precincts where there was no such discrepancy. (See Memorandum B hereto attached.)

6. That the discrepancy which appears in the 15 precincts where there was a shortage (as shown by Memorandum A hereto attached) under the law discredits the recount and makes the ballots from those precincts inadmissible to change the result of the election as declared by the judges. (See Conley v. Rice, Ky. 67 S. W. (2nd) 480.)

7. That the discrepancy occurring in the 6 precincts where there was an excess, was not noted by the judges in their returns as provided in Code Section 845. It must be presumed as a matter of law that judges did their duty (until shown otherwise by competent evidence) and that the failure to note such excess was because there was no such excess at the time the judges counted them.

8. Assuming but not conceding that the ballots from the 21 precincts where there was a discrepancy, are inadmissible, still they are insufficient to change the result of the judges' count for until the missing 33 ballots are produced this committee does not have all of the evidence before it. The result of the official count and canvass cannot be upset by counting only a part of the votes.

9. Assuming that the unofficial recount shows contestant to have 3 votes more than incumbent Judd, this fact cannot be decisive until 33 ballots are accounted for. Judd was officially declared elected by 39 votes. The presumption of the correctness of such declaration by the canvassing board cannot be overturned until such 33 ballots are accounted for and the contestant shown to have sufficient portion of said 33 ballots to still put him in the lead.

The ballots are not admissible to change the result of the election as declared by the official canvassing board because the contestant has failed to sustain the burden placed upon him by law to affirmatively establish that after having been counted by the judges the ballots were not exposed to the public and unauthorized persons in such a way as to preclude the suspicion of tampering therewith. (See Matzdorf v. Thompson, 217 Iowa 961; Traeger v. Meskel, 217 Iowa 970.)

1. It is shown without dispute that 14 sacks of used ballots were still unsealed 4 days after the election (Incumbents Ex. 2 Brandenburg Trans. p. 18) and that the auditor does not know whether they were unsealed when delivered to his office or not, and that it is not known whether said sacks were ever sealed by the judges, or whether they were sealed and later unsealed by some unauthorized person either before or after they were delivered to the judges. (Snell Trans. pp. 38-39.)

2. It is shown without dispute that the sacks of used ballots from all precincts were delivered to the auditor over a period extending from 8:00 P. M. November 3rd, 1936, to "about noon" November 4th and no effort is made by the contestant to account for the custody of the ballots from the time the judges of election counted them until they were delivered to the auditor. No showing is attempted by the contestant as to why he did not subpoena the various persons who had the custody of the ballots during this interim, or to show that they were safeguarded properly before delivery to the auditor.

Digitized by Google

3. It appears without dispute that after the ballots were delivered to the auditor they were retained in a vault opening from the general office of the auditor in which the records of his office were kept until about 2:00 P. M., November 4th. The public generally does and did on the forenoon of November 4th, have access to said vault while the ballots were there. The auditor is unable to state who, or how many persons were in the vault that forenoon. (Snell Transcript, p. 44.)

4. It appears without dispute that commencing about 2:00 P. M., November 4th, the sacks including unsealed sacks were transported from the auditor's office on the second floor of the court house to a vault on the first floor by the janitor and that in the process at least a part of the sacks were rolled down the stairway. The auditor does not know whether any of the sacks were unsealed then or not. (Snell Trans., p. 42.)

5. It appears without dispute that the vault on the first floor, in which the ballots were kept since November 4, 1936, has not had the combination changed since 1932; that during the greater part of the time it is used principally by the county treasurer; that at least six persons including the county treasurer and his deputies, have had knowledge of the combination of said vault since 1932 and that at least three written copies of said combination were in existence at the time of the recount. (Brandenburg Trans., p. 26 to 28.)

6. The contestant has not only failed to assume the burden of precluding the suspicion of tampering but the undisputed facts lead affirmatively to a legal inference of tampering, to-wit:

a. Fourteen precincts where sacks were unaccountably unsealed 4 days after election.

b. Twenty-one precincts in which there was a discrepancy between the poll books and the ballots.

c. A net gain of 49 votes for contestant Peaco in the 21 precincts where the discrepancy appears. (See Conley v. Rice (Ky.), 67 S. W. (2) 478, and Stafford v. Board of Canvassers, 50 S. E. 1016 W. Va.)

Division II.

Incumbent William N. Judd, subject to the ruling on the motion contained in Division I hereof and in the event that said motion is not sustained, moves the committee and the House of Representatives to require by proper procedure the production before the contest committee as a whole, the ballots cast at the November 3rd, 1936, election in the Third Precinct of First Ward, in the City of Clinton, Iowa, and that the said committee as a whole examine said ballots for the purpose of ascertaining the number of legal votes cast for contestant Peaco and incumbent Judd respectively.

1. As reason why this motion should be sustained, incumbent Judd makes reference to the transcript of the record, certain extracts of which are as follows: (Extract commencing bottom page 6, Brandenburg Transcript) "The ballots having been recounted, counsel for incumbent William Judd, now formally requests the Chair to make available to said counsel all of the ballots that were cast in the general election of 1936

Digitized by Google

in the Third Precinct of the First Ward of the City of Clinton in order that said counsel may be permitted to re-examine said ballots. As a foundation for such request. counsel for incumbent, Judd, Volney Diltz, in the presence of the chairman and counsel for the contestant, states that on Tuesday, February 2nd, in the afternoon in counting the ballots which were made available for the Fifth Ward in the City of Clinton, it was discovered that 53 ballots, of which 52 were straight Republican ballots, insofar as all parties to this contest are concerned, had been inadvertently placed upon that stack of ballots which was being counted as straight Democratic ballots, for the parties concerned in this controversy; that the 53rd ballot was a "no" vote for any of the parties. That had such error been undiscovered it would have resulted in a net mistake of 105 votes in favor of the contestant and against the incumbent, William N. Judd. But after said mistake had been discovered, counsel for the incumbent, Judd, realized that the change in the comparative position of the incumbent, Judd, and the contestant, amounting to 79 votes in the Third Precinct of the First Ward. could have been explained by such inadvertent error on the part of the counters and also realized that in spite of such a large error or discrepancy between the count arrived at by counters and as reported by the judges of election in that precinct, the ballots in said precinct were not re-examined at that time and it is now the belief of counsel for the incumbent Judd that if we were permitted to re-examine said ballots, a material error amounting to 23 votes would be discovered among said ballots in favor of incumbent Judd and against contestant Peaco, which, in the opinion of counsel for Judd would make a net error of 46 votes in the tabulation as arrived at by the counters, and that the net result of that would be that instead of a net loss of 79 votes in that precinct between incumbent Judd, and the contestant Peaco, the net loss would not exceed 33 votes."

Objected to by counsel for Peaco.

Ruling by chairman.

(Extract commencing bottom p. 8, Brandenburg Transcript):

"Chairman Stimson: Mr. Diltz, attorney for the incumbent Judd has requested the Chair for permission to re-examine all ballots of the Third Precinct of the First Ward. It is the opinion of the Chair in commenting on this request that the count of all the ballots of all the precincts has been fairly and impartially conducted, and that in the original count of this precinct, attorneys for the contestant and incumbents were present and had every access to the ballots and every opportunity to discover any errors that might have been made and as a result of this the Chair sees fit to deny any further examination of the ballots, and so rules.

Mr. Diltz: I made no re-examination of the individual ballots but did participate in the recount of the various piles. "That having been ruled upon, upon that objection, I want to request that the Chairman, at the conclusion of our endeavors here and before he returns to Des Moines, subpoena the ballots of the Third Precinct of the First Ward and the auditor of Clinton county for the purpose of permitting the ballots in that precinct to be recounted by the entire Contest Committee in the

Digitized by Google

City of Des Moines because of the disagreement as to the question of fact and because of the further reason that the only authority under which we are working under here is to present a finding of fact and if we cannot agree upon the facts, that the only way to determine the fact in this case is to permit the Contest Committee itself to make such re-examination."

(Extract commencing 2nd paragraph page 15 Brandenburg Transcript)

"Comes now the Incumbent Judd and in view of the Chairman's ruling of the first request we made to have the ballots of the Third Precinct of the First Ward made available for re-examination and in view of the second request to have the said ballots taken to Des Moines for examination by the committee as a whole not having been ruled upon, the incumbent Judd now requests that the Chairman of this committee, Mr. Stimpson, and Mr. E. C. Halbach and Mr. Molloy, counsel for the Contestant Peaco, re-examine the ballots in the precinct referred to herein, and the ballots contained in sack therefor, in the number of 591, which were designated by the counters and appear in this record as straight Democratic ballots in said precinct, which, under the record adopted were to be counted as one vote each for the Contestant Peaco; that said ballots so designated as straight Democratic ballots for the contestant in said precinct, be then submitted or made available for Incumbent Judd's counsel for re-examination as to whether they were in fact ballots in which the votes thereon were to be counted one each for Peaco and none for Incumbent Judd. As reasons for said request, we incorporate all the reasons made to support the previous two requests and further state that if this were a Court of law, those ballots would still be in evidence and any item of evidence which could be available at any time during the trial for re-examination and in view of the fact that it would be the practice of Courts, as well as a rule of law, that any witness could be recalled for further examination, and we think this request is reasonable, especially in view of the fact that after this precinct was counted, we actually found one instance where 52 Republican ballots had apparently inadvertently been placed on the Democratic pile and further reason we understood it to be the duty of this delegation, the representatives of the incumbent and contestant as well as the Chairman, to finally arrive at justice as between the parties and not to in any way leave a feeling to be carried back to the committee that one side or the other attempted to cloud any issue or to interfere, even though unintentionally with the actual ascertainment of the true facts here."

2. The request of the incumbent is based upon a desire to place all facts accurately before the committee which might be helpful in the ascertainment of the true facts and feels that no member should be upset by a recount wherein there is doubt as to what the actual ballots show where the possibility of honest mistake is accounted for by another experience in the same recount.

3. It is a rule of the courts that under similar circumstances in a trial in a court of law, the request would be granted. (See Evarts, vs. Weise 168 Pac. 122 (Calif.).

4. The objection of contestant Peaco to such re-examination is un-

reasonable and not calculated to assist this committee or the House of Representatives in arriving at the true facts as to the status of the ballots in the precinct in question.

5. Incumbent Judd has no objection to the re-examination of the ballots in any other precinct about which doubt may arise in the minds of the committee.

DIVISION III

The transcript of the record of the proceedings in Clinton shows that the attorney for William N. Judd, before the said contest closed and immediately at the conclusion of the counting of ballots, requested and demanded the right to re-examine the Third Precinct of the First Ward in the City of Clinton, this being the precinct in which there was a large variation in the vote of Peaco vs. Judd. The demand was denied. The undersigned minority members of this committee believe that out of justice and fair play no stone should have been left unturned in ascertaining the correctness of the contest, and offers in support of this contention, Evarts vs. Weise, 168 Pac. 122, a California case in which the court decreed in substance that the ballots might be examined at any time or re-examined if there were any questions as to the correctness. We believe that the failure to permit this re-examination was prejudicial to the incumbent, Judd.

The minority members of this committee further state to you and this House that following the law that the burden of proof was upon the contestant, he has failed to carry that burden and that the unseating of the incumbent, Judd, would be a miscarriage of justice on the narrow margin of three votes.

The minority members of this committee believe that this election in Clinton could only be determined by throwing out the 21 precincts that did not tally with the poll books in which more or less ballots were found than persons shown to have voted according to the books, and support this finding by the ruling of the Iowa Supreme Court in the State of Iowa vs. Pressman, 103 Ia. 449, in which the Court said:

> "* * * The registration lists and the poll books, prepared with such care, when duly authenticated, and coming from the proper custodian, are the best evidence of who cast the ballots at the election."

And further, by the case of Conley vs. Rice, 67 S. W. (2), 478, in which the Court said:

> "The evidence establishes beyond question that 32 ballots belonging to this precinct were missing. This fact discredits the ballots of that precinct without regard to who participated in the counting of them."

In this case the Court decreed that when the ballots did not tally with the poll books, that precinct should be disregarded and the count certified by the election judges in that precinct would stand as the official vote of the precinct.

We do hereby make a part of this report the transcript of record known

as the Brandenburg Transcript, which original is now on file with the Chief Clerk of this House.

In conclusion, we wish to state that it is the finding of the minority members of this committee that if the 21 precincts which showed irregularities and discrepancies were discredited and the tabulation of the judges taken from those precincts, as the law says must be done, that William N. Judd then won the election by 46 votes, and unless this House of Representatives desires to go on record among the states of the Union as not following the law as laid down by the Supreme Court of our state, this House of Representatives must approve and adopt this minority report.

Dated this 16th day of February, A. D., 1937.

Respectfully submitted,

MILTON W. STRICKLER,
J. C. MOORE, JR.,
Members of the Contest Committee of Milton Peaco vs. Wm. N. Judd, et al.

HOUSE MEMORIAL RESOLUTION

Whereas, The Honorable Allen J. Kane, who was a member of the House of Representatives in the Thirty-fifth General Assembly and the Thirty-sixth General Assembly from Dubuque county, died at his home in Dubuque, Iowa, on December 26, 1935, therefore,

Be It Resolved, By the House of Representatives of the Forty-seventh General Assembly that the Speaker of the House appoint a committee of three to draft suitable resolutions in commemoration of his life, character and service to the County of Dubuque and State of Iowa.

Unanimous consent having been obtained for its immediate consideration, Reilly of Dubuque moved the adoption of the resolution. Motion prevailed, the resolution was adopted and the Speaker appointed as such committee: Reilly of Dubuque, Craven of Jasper, and Stimpson of Jones.

Moore of Taylor and Hickenlooper of Linn offered the following resolution:

HOUSE CONCURRENT RESOLUTION 10

Be It Resolved By the House, the Senate Concurring: That Harry W. Colmery, National Commander of the American Legion, who comes to Des Moines as a guest of the American Legion of this state to attend the Adjutant-Commanders' conference on February 22nd, be invited to address the members of the 47th General Assembly in joint convention in the House Chamber at 11:00 o'clock A. M., February 22nd.

That the President of the Senate and the Speaker of the House appoint a committee of five Service Men from the House and five Service Men from the Senate to extend said invitation to National Commander Harry W. Colmery, and to receive and welcome him to the joint session of the General Assembly of Iowa.

That a special invitation be extended to G. M. Brown, State Commander of the American Legion, and the other state and district officers of the American Legion be invited to attend the address.

Unanimous consent having been obtained for its immediate consideration, Moore of Wayne moved the adoption of the resolution. Motion prevailed and the resolution was adopted.

Dancer of Decatur offered the following resolution:

HOUSE RESOLUTION 7

Whereas, the Argentine Sanitary Treaty now pending before the Senate of the United States would, if ratified, permit the importation into this country of livestock products infested with foot-and-mouth disease; and

Whereas, Millions of dollars have been spent and thousands of animals have been killed in the United States to free this country from the ravages of this dreaded disease and laws in the interest of public health have been enacted by Federal and State governments to require farmers to eliminate such disease from their farms and prevent its spread; and

Whereas, This dreaded contagious disease can be transmitted by fresh and frozen meats as well as by live animals, and strictest regulations and restrictions should be maintained to prevent infections of our domestic herds and flocks with such contagious disease now present in foreign countries; and

Whereas, Inasmuch as rigid inspection of slaughtering and sale of meats for human consumption is required of our citizens, such conditions should also apply to any meat or meat products brought into this country from foreign lands; therefore,

Be It Resolved by the House of Representatives of the Forty-seventh General Assembly of the State of Iowa: That for the reasons stated in the preamble of this resolution, the membership of the United States Senate be respectfully requested to oppose the ratification of the proposed agreement with the Government of Argentine and to continue the embargo against foreign countries now in force until such countries are free from, and have established, and have in force adequate sanitary conditions to prevent the spread of the foot-and-mouth disease; and

Be It Further Resolved, That a copy of this preamble and resolution be forwarded to the President of the United States Senate, to the United States Senate Committee on Foreign Relations and to the Honorable Clyde L. Herring and Honorable Guy M. Gillette, United States Senators from Iowa.

Laid over under Rule 34.

EXTRA COPIES ORDERED

Moore of Taylor asked and obtained unanimous consent to have 500 copies of House File 59 printed.

SPECIAL ORDER 7

COMMUNICATION FROM THE EXECUTIVE COUNCIL

The following communication was received from the executive council:

State of Iowa.
Executive Council Resolution.

Whereas, under the provisions of Sections 295 and 296 of the 1935 Code of Iowa, the Executive Council of the State of Iowa is charged with the duty of making assignments of rooms to the various state de-

partments and of keeping in repair all buildings and grounds of the state at the seat of government; and

Whereas, there is insufficient space in the State House to house all state departments and several departments are located in offices in West Des Moines at a cost to the state of approximately $67,000.00 per annum, which system makes for inefficiency in transactions between the various departments; and

Whereas, many state departments are housed in buildings which are not fireproof, thus exposing to the ravages of fire and the elements many invaluable state records, the loss of which would be irreparable; that among such departments, the records of which are thus unprotected, are the Old Age Assistance Commission, the Unemployment Compensation Commission, the Board of Control, the Railroad Commission, the State Department of Health, the Board of Education, the Industrial Commission, the Bureau of Labor and the State Fire Marshal; and

Whereas, the Bryant building, in which are housed four departments of the State Government, has been condemned and is being occupied at this time against the advice of the State Architect, the State Labor Commissioner and the State Fire Marshal; and

Whereas, the departments now housed in the Bryant building should be removed therefrom without delay, which removal will cause added expenditures to be made for rental for outside quarters; now, therefore,

Be It Resolved, that the Executive Council of Iowa does hereby respectfully petition the General Assembly of the State of Iowa to take some action to relieve the overcrowded condition which now exists; and

Be It Further Resolved, that a copy of this resolution be transmitted to the Senate and to the House of Representatives of the Forty-seventh General Assembly.

Approved this 15th day of February, A. D. 1937.

CONSENT TO CHANGE VOTE GRANTED

Schlatter of Jackson asked and obtained unanimous consent to have the record of his vote on the adoption of the majority report in the contest of Peyton vs. Moore as found on page 405 of the Journal of February 17th changed from "No" to "Aye."

EXPLANATION OF VOTE

In explanation of my vote on the "Peyton vs. Moore" of Harrison contest found on page 405 of House Journal, Wednesday, February 17, 1937.

"After examining the report of the Contest Committee and evidence submitted, I was firmly convinced that the Minority Report should be adopted, and so voted. However, after the Minority Report failed to pass the House, I, desirous that this Assembly should not prolong this contest at the expense of the State of Iowa, by throwing it into a deadlock, therefor voted for the Majority Report." H. E. WEICHMAN.

REPORTS OF COMMITTEES

Sours of Floyd, from the committee on schools and textbooks, submitted the following report:

Hoegh of Lucas offered the following resolution:

HOUSE MEMORIAL RESOLUTION

Whereas, The Honorable C. D. Smith, who was a member of the Fortieth and Fortieth Extraordinary General Assemblies, died on September 10, 1936, therefore,

Be It Resolved by the House of Representatives of the Forty-seventh General Assembly: That a committee of three be appointed to draft suitable resolutions commemorating his life, character and service to the state.

Unanimous consent having been obtained for its immediate consideration, Hoegh of Lucas moved the adoption of the resolution.

The resolution was adopted and the Speaker appointed as a committee to draft a resolution commemorating the life of Hon. C. D. Smith: Hoegh of Lucas, Lookingbill of Story and Gallagher of Iowa.

The following communication was received from the Governor:

COMMUNICATION FROM THE GOVERNOR

State of Iowa
Executive Office, Des Moines
February 18, 1937.

NELSON G. KRASCHEL, *Governor*

TO THE HONORABLE MEMBERS OF THE HOUSE OF REPRESENTATIVES:

Under the terms of the State Unemployment Compensation Commission Act, passed in the Forty-sixth General Assembly in Extraordinary Session, it becomes necessary for me to appoint a permanent board of management to take charge of administration, on or before March 1, 1937. In view of the time element, it becomes necessary that these nominations should be made this week in order that the Senate will have full time to consider and act upon confirmation within the specified time.

Personally, I am of the opinion that a full time board of three would insure better service over a period of years than a policy board of five on a per diem basis, leaving the administration greatly to a single executive officer, as incorporated in the present act. This view I know to be shared by many members of the Legislature. Therefore, I suggest that your honorable body consider a short amendment to the existing law, changing the board from a membership of five to a membership of three, and, upon the fate of that amendment, I can then with security proceed to appoint the board in the form that the Legislature directs.

This amendment will not only definitely settle the size of the board, but it will not interfere with the complete consideration of the bill by the Legislature, which has been agreed to by all interested parties. In fact, I suggest that, at an early date, perhaps immediately following your recess, that the entire act be brought before the Legislature for

Digitized by Google

deliberate consideration, in order to consider all proposed changes. It, furthermore, appears to me that when the changes are made that this Legislature propose that the entire act in that form be reenacted in order to safeguard the legality of the legislation insofar as it is possible.

Respectfully submitted,

N. G. KRASCHEL.

The following communication was received from the Iowa Commission on Uniform State Laws:

REPORT OF COMMISSIONERS ON UNIFORM STATE LAWS TO THE FORTY-SEVENTH GENERAL ASSEMBLY OF THE STATE OF IOWA

To Honorable Nels G. Kraschel, Governor; Honorable John K. Valentine, Lieutenant-Governor, and the presiding officer of the Senate; and the Honorable Lamar Foster, Speaker of the House of Representatives, and the Forty-seventh General Assembly of the State of Iowa.

GENTLEMEN: Pursuant to Chapter 5, Code of Iowa, 1935, the Iowa Commissioners on Uniform State Laws, submit the following report:

The present Commissioners, each appointed July 1, 1933, are:

Eugene A. Gilmore, President, University of Iowa, Iowa City, Iowa, Chairman; John C. Pryor, Burlington, Iowa, Secretary; Jesse E. Marshall, Sioux City, Iowa.

Each of the Commissioners attended and participated in the Forty-sixth annual meeting of the National Conference at Boston, Massachusetts, held August 17 to 22, 1936, inclusive. At this meeting, forty states were represented with eighty-five Commissioners in attendance. The conference approved an enlargement of the scope and purposes through amendment to its constitution, so that its work may cover the subject matter on interstate compacts and the attempt to secure uniform judicial interpretation of uniform acts and to include co-operation with the American Law Institute in its work concerning the restatement of the law.

During the meeting of the conference, many proposed uniform acts were discussed and tentative drafts of the following acts were considered:

1. Trusts Act.
2. Trustees Accounting Act.
3. Absentees Property Act.
4. Death in Common Disaster Act.
5. Acknowledgment Act.
6. Criminal Extradition Act.
7. Act to Secure the Attendance of Witnesses from Without the State in Criminal Cases.
8. Model State Department of Justice Act.
9. Business Records as Evidence Act.
10. Composite Reports as Evidence Act.
11. Judicial Notice of Foreign Laws Act.
12. Official Reports as Evidence Act.

13. Criminal Statistics Act.
14. Aeronautical Code.
15. Liquidation of Insurance Companies Act.
16. Rehabilitation, Reorganization of Liquidation of Insurers Doing Business in More Than One State.
17. Agricultural Co-operative Association Act.
18. Expert Testimony Act.
19. Act to Establish Wills Before Death of Testator.

Final drafts of the following Acts were approved and their adoption recommended to the several States:

1. Uniform Trustees Accounting Act.
2. Uniform Extradition Act for Criminals.
3. Uniform Act for Securing the Attendance of Foreign Witnesses.
4. Uniform Agricultural Co-operative Marketing Act.
5. Uniform Evidence Act providing for Introduction of Business Records.
6. Uniform Composite Reports Act providing for Their Introduction in Evidence.
7. Uniform Officials Record Act providing for Their Introduction in Evidence.
8. Uniform Act covering the Judicial Notice to be Taken of Foreign Law.

The State of Iowa has enacted ten uniform acts drafted by the National Conference of Commissioners on Uniform State Laws, as follows:

1. Acknowledgments Act. (1911)
2. Bills of Lading Act. (1911)
3. Illegitimacy Act. (1925)
4. Limited Partnership Act. (1924)
5. Motor Vehicle Operators' and Chauffeurs' License Act. (1931)
6. Negotiable Instruments Act. (1902)
7. Reciprocal Transfer Tax Act. (1929)
8. Sales Act. (1919)
9. Veterans' Guardianship Act. (1929)
10. Warehouse Receipts Act. (1909)

Your Commissioners urged upon the Forty-sixth General Assembly the enactment of the Uniform Criminal Procedure Acts, Uniform Firearms Act and the Declaratory Judgments Act adopted by the conference. The Uniform Declaratory Judgments Act was reported favorably by the House Judiciary Committee, as House File 367. The Criminal Procedure Acts were reported favorably by the House Judiciary Committee as House Files 417 and 299. The Uniform Firearms Act was introduced as Senate Bill 179.

We enclose herewith copies of the Uniform Declaratory Judgments Act as drafted by the National Conference. This is identical with House File 367, Forty-sixth General Assembly. We also enclose drafts and preliminary statements of Uniform Criminal Procedure Acts. These have been changed slightly from the Acts introduced at the last General Assembly, House Files 417 and 299. These drafts were prepared by the

Interstate Commission on Crime in co-operation with the National Conference of Uniform Law Commissioners.

With reference to the Uniform Declaratory Judgments Act, the Committee on Law Reform of the State Bar Association has agreed to assist in sponsorship. We attached copies of these drafted acts for your information. Your Commissioners are prepared to furnish any possible assistance and any information available to secure the passage of these acts.

We respectfully call your attention to the fact that your Commissioners serve without compensation but that their actual expenses are paid from an appropriation by the Legislature. The expenses of the Commissioners in the performance of their duties amount to approximately $600 annually.

prevailed, the resolution was adopted and the Speaker appointed as members of such committee: Pine of Louisa, Stewart of Washington and Latchaw of Muscatine.

Kephart of Clay, Johnson of Buena Vista and Stimpson of Jones offered the following resolution:

HOUSE CONCURRENT RESOLUTION 11

Memorializing Congress to amend the Federal Social Security Act to include full time teachers and employees in the Public School Systems in the United States.

Whereas, full time teachers and employees of the Public School Systems of the United States are not included in the Federal Social Security Act, and

Whereas, they constitute a great class of employees who are not provided for under the aforesaid act or any other Social Security law, and

Whereas, their inclusion under this act would tend to keep the better type of teacher and employee in the Public Schools of the United States and efficiency would be greatly increased, therefore

Be It Resolved by the House of Representatives, the Senate Concurring:

That the Forty-seventh General Assembly of the State of Iowa be memorialized to amend said Federal Social Security Act, to include all full time teachers and employees of the Public School Systems of the United States.

Be It Further Resolved by the House of Representatives, the Senate Concurring:

That a copy of this resolution be sent to the two United States Senators from Iowa and to the nine Congressmen from Iowa.

Laid over under Rule 34.

Rice of Keokuk, Alesch of Plymouth, Dreessen of Crawford, Judd of Clinton and Scott of Sac offered the following resolution:

HOUSE CONCURRENT RESOLUTION 12

Whereas, it is the common opinion that the agriculture industry is a matter of general welfare and

Whereas, the efforts toward the solution of the agricultural problem have been directed toward existing emergencies due to immediate economic and climatic conditions and

Whereas, we feel that the time is at hand for the enactment of legislation which will point toward the permanent solution of the agricultural problem in an effort to bring parity prices to the agricultural industry as compared with other industries.

Therefore, Be It Resolved by the House of Representatives of the Forty-seventh General Assembly, the Senate Concurring: That the 75th Con-

MESSAGES FROM THE SENATE

The following messages were received from the Senate:

MR. SPEAKER: I am directed to inform your honorable body that the Senate has passed the following bill in which the concurrence of the Senate was asked:

House File No. 7, a bill for an act relating to the printing of ballots, and to provide for the printing of separate ballots where all names can not be placed on the voting machines.

Also: That the Senate has passed the following bill in which the concurrence of the Senate was asked:

House File 21, a bill for an act to empower school boards to provide textbooks for children in the public schools on a rental or on a free loan basis.

Also: That the Senate has passed the following bill in which the concurrence of the House is asked:

Senate File 86, a bill for an act relating to the unlawful wearing, displaying or use of military badges, buttons, emblems or insignia and providing a penalty for violation thereof.

Also: That the Senate has passed the following bill in which the concurrence of the House is asked:

Senate File 118, a bill for an act legalizing transfer of funds in Boone County.

Also: That the Senate has adopted the following Concurrent Resolution in which the concurrence of the House is asked:

Senate Concurrent Resolution 11, regarding federal legislation on sales tax.

WALTER H. BEAM, *Secretary.*

SENATE CONCURRENT RESOLUTION 11

Whereas, the cost of maintaining and financing the various state governments and their subdivisions and the institutions thereunder, has greatly increased in the past few years; and

Whereas, experience has shown that it is necessary that revenue be obtained from sources other than general taxation on property holdings; and

Whereas, experience and the result of experiments in the provision of the needed revenue has demonstrated that a retail sales tax is the most effective and equitable means of obtaining necessary revenue and distributing this growing tax burden; and

Whereas, a very considerable number of the States of the Union, among

Digitized by Google

which is the state of Iowa, have enacted retail sales tax legislation for the purpose of providing needed revenue; and

Whereas, no little difficulty has been encountered in the practical application of such tax acts because of the tendencies of the consumers to do considerable buying in adjoining states where there is no retail sales tax, for the purpose of evading the state retail sales tax law in the state of their residences; and

Whereas, such widespread practice by the citizens of states having a retail sales tax law has and is working a hardship on such states and the business concerns operating therein because of the volume of business done in adjoining states by persons interested in evading such retail sales tax; and

Whereas, legislation to curb such practices is difficult for the states to provide because of the provision of the Federal constitution prohibiting the levying and collection of duties or taxes on interstate commerce; and

Whereas, the only practical means of curbing the conditions herein complained of would be the enactment of Federal legislation permitting states to impose a non-discriminatory tax on transactions in interstate commerce. Now, therefore,

Be It Resolved by the Senate, the House Concurring: That the Congress of the United States, the Department of Commerce, the Interstate Commerce Commission and the executive department of the Federal Government have this important subject brought to their attention and to the end that adequate Federal legislation be provided to prevent the hardships herein enumerated on the respective states, that have found it necessary to employ a retail sales tax for revenue purposes and that Federal legislation delegating to the states the power to impose a non-discriminatory tax upon trasactions in interstate commerce be provided to eliminate, insofar as possible, the evils herein set forth.

Laid over under Rule 34.

House Joint Resolution 9, by committee on constitutional amendments, a joint resolution proposing to so amend article three (III) and article ten (X) of the constitution of the state of Iowa as to reserve in the people of the state of Iowa the right and power to enact laws, to propose and adopt amendments to the constitution of Iowa, and to repeal any law or part thereof enacted by the General Assembly.

Be It Enacted by the General Assembly of the State of Iowa:

That the constitution of the state of Iowa be amended as follows:

Digitized by Google

Section 1. After the word "state" in line 2 of Section one (1) of article three (III) of the constitution of the state of Iowa relating to the legislative department, add the following:

"except as reserved to the people".

Sec. 2. That article three (III) of the constitution of the state of Iowa be further amended by adding thereto the following:

"Sec. 39. In addition to the legislative authority vested in the General Assembly consisting of a Senate and House of Representatives, the people reserve to themselves the power to propose laws and to enact or reject them at the polls, independent of the General Assembly, and also reserve power at their own option, to approve or reject at the polls any act, item, section or part of any act, passed by the General Assembly. The style of any law or amendment shall be: 'Be It Enacted by the People of the State of Iowa'."

(a) Initiative is First Power. The first power reserved by the people is the initiative whereby laws may be enacted by the people independently of the General Assembly. This power may be invoked by petition wherein the proposed measure shall be set forth at length. If the petition be for the enactment of a law, it shall be signed by not less than ten (10) per cent of the electors of the state. In all cases the electors signing such petition shall be so distributed as to include not less than ten (10) per cent of the electors of each Congressional District of the state and when thus signed the petition shall be addressed to and filed with the secretary of state, who shall submit the measure thus proposed to the electors of the state at the first general or special election held not less than four (4) months after such petition shall have been filed. The same measure, either in form or in essential substance, shall not be submitted to the people by initiative petition, either affirmatively or negatively, oftener than once in three years. If conflicting measures submitted to the people at the same election be approved, the one receiving the highest number of affirmative votes shall thereby become law as to all conflicting provisions. The constitutional limitations as to the scope and subject matter of statutes enacted by the General Assembly shall apply to those enacted by the initiative.

(b) Referendum is Second Power. The second power reserved is the referendum which may be invoked by petition against any act or part of an act of the General Assembly, except those acts making appropriations for the support of the government and its various public agencies and acts for the preservation of the public health, safety and security.

When the referendum is invoked, as to any act or part of act, other than appropriation acts or emergency acts or those for the immediate preservation of the public peace, health or safety, by petition signed by not less than eight (8) per cent of the electors of the state, it shall suspend the taking effect of such act or part of act until the same has been approved by the electors of the state. In all cases the electors signing such petition shall be so distributed as to include not less than eight (8) per cent of the electors of each Congressional District of the state.

Referendum petitions shall be addressed to and filed with the Secretary of State not more than ninety (90) days after the final adjournment of

Digitized by Google

the session of the General Assembly that passed the bill on which the referendum is demanded. All elections on measures referred to the people of the state shall be held at the next general or special election.

(c) Basis of Votes for Initiative or Referendum, Veto by Governor, Returns of Election, Non-partisan Manner of Ballot. The whole number of votes cast for governor at the general election next preceding the filing of an initiative or referendum petition shall be the basis on which the number of signatures to such petition shall be computed. The veto power of the governor shall not extend to measures initiated by or referred to the people. A measure initiated shall become a law or part of the constitution, as the case may be, when a majority of the votes cast thereon are cast in favor thereof, and shall take effect upon proclamation by the governor which shall be made within ten (10) days after the official canvass of such votes. The vote upon Initiative and Referendum Measures shall be canvassed and returned in the manner which shall be prescribed by the General Assembly. The provisions with respect to the initiative and referendum shall be self-executing but legislation may be enacted to facilitate their operaton. All propositions submitted in pursuance hereof shall be submitted in a non-partisan manner and without any indication or suggestion on the ballot that they have been approved or endorsed by any political party or organization. When such proposed laws or measures are submitted to the people for enactment or rejection by them the entire text of said proposed law or measure shall appear on the ballot, and when two or more measures have the same title, they shall be numbered consecutively in the order of filing with the secretary of state and the number shall be followed by the name of the first petitioner on the corresponding petition.

Sec. 3. That article ten (X) of the constitution of the state of Iowa be amended by adding thereto the following:

"Sec. 4. The people of the state of Iowa, without limiting the right and power of the General Assembly and constitutional conventions to propose amendments to the constitution and to revise and amend the same as hereinabove provided, reserve to themselves the right and power also to initiate and propose amendments to the constitution of the state of Iowa; that such constitutional amendments may be initiated and proposed by the people by securing the signatures of duly qualified electors of the state of Iowa, the total number of which shall not be less than fifteen (15) per cent of all the votes cast for governor of the state at the last preceding general election. In all cases the electors signing such petition shall be so distributed as to include not less than fifteen (15) per cent of the electors of each Congressional District of the state; that said petition, when signed by the above required number of electors and in the manner set forth, shall be addressed to and filed with the secretary of the state of Iowa and when so filed it shall be the duty of the secretary of state to prepare the ballots for the people to vote thereon at the first general or special election held thereafter, but not less than four months after such petition shall have been filed; that when such a proposed amendment to the constitution is submitted to the people for enactment by them the entire text of said proposed amendment shall appear upon the ballot; if

the majority of qualified electors voting thereon at any such election, vote in favor of such proposed amendment, then the same shall become a part of the constitution of the state of Iowa upon the official declaration of the result of the election; that elections held for the purposes hereinabove set forth shall be called and conducted in accordance with all the laws of the state of Iowa relating to the holding of elections; the style of such proposed amendments shall be: 'Be It Enacted by the People of the state of Iowa:'"

Sec. 4. Be it further resolved that the foregoing proposed amendment be and the same is hereby referred to the legislature to be chosen at the next general election for members of the next General Assembly in accordance with article ten (X) of the constitution of the state of Iowa and that the secretary of the state of Iowa cause the same to be published for three months previous to the date of the said next election as provided by law.

J. E. CRAVEN, of Jasper, *Chairman.*

The House resumed consideration of Senate File 191.

Irwin of Lee offered the following amendment and moved its adoption:

Amend Senate File 191 as follows:

"Section 10-c. Employees of said Commission shall be appointed equally from the two major political parties of this State."

Kephart of Clay offered the following amendment as a substitute for the amendment by Irwin of Lee:

Amend Senate File 191 by inserting as Section 3 following Section 2, the following:

Sec. 3. Amend Senate File No. 1, Acts of the 46th Extra Session of the General Assembly of Iowa, Section 11 (d), page 18, line 6, by adding after the word "filled", the following: "The commission shall provide for the holding of examinations to determine the qualification of applicants for the positions so classified and except for temporary appointments of not to exceed six months in duration, such personnel shall be appointed on a non-partisan basis of efficiency and fitness as determined in such examinations."

And further amend Senate File 191 by renumbering the publication clause to read, "Sec. 4."

Substitution failed.

Fishbaugh of Page offered the following amendment as a substitute for the Irwin of Lee amendment:

Amend Senate File 191, by adding to Section 1 the following:

"Not more than fifty per cent of the employees of said commission shall be members of one political party".

HOUSE RULE 64 INVOKED

Fishbaugh of Page invoked House Rule 64 and the House was cleared of all persons except those entitled to remain in the chamber.

Rice of Keokuk moved to amend the Fishbaugh amendment by striking the word "fifty" and inserting in lieu thereof the word "sixty". The amendment was adopted.

The Fishbaugh of Page amendment was substituted for the Irwin of Lee amendment.

The substitute amendment, as amended, was adopted.

Rice of Keokuk offered the following amendment and moved its adoption:

Amend Senate File 191 by striking all after the enacting clause and inserting in lieu thereof the following:

"Section 1. That Section 10 (a) and 10 (b), Senate File 1, Acts of the Forty-sixth General Assembly in extraordinary session are hereby repealed and that there be enacted as a substitute therefor the following:

"Sec. 10 (a). Unemployment Compensation Commission. There is hereby created a Commission to be known as the Iowa Unemployment Compensation commission. The Commission shall consist of three (3) members who shall devote their entire time to the duties of their office; one of whom shall be a representative of labor, one of whom shall be a representative of employers, and one of whom shall be impartial and shall represent the public generally. During his term of membership on the Commission no member shall serve as an office or committee member of any political party organization, and not more than two members of the Commission shall be members of the same political party. Each of the three (3) members of the Commission shall be appointed by the Governor immediately after the effective date of this Act, subject to approval by a two-thirds vote of the members of the Senate in executive session, and shall serve for a term of six (6) years, or until his successor is appointed and qualifies, except that

(1) Any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed shall be appointed for the remainder of such term, and

(2) The terms of the members first appointed after the date of enactment of this Act shall expire, as designated by the Governor at the time of appointment, one member on June 30, 1939, and one member on June 30, 1941, and one member on June 30, 1943, or in each of the foregoing instances until his successor is appointed and qualified.

The Governor may at any time, after notice and hearing, remove any commissioner for gross inefficiency, neglect of duty, malfeasance, misfeasance, or nonfeasance in the performance of his duties as a member of the Commission. Before entering upon the discharge of his official duties, each member of the Commission shall take and subscribe to an oath of office, which shall be filed in the office of the Secretary of State. Any vacancy occurring for any cause in the membership of this Commission shall be filled for the unexpired term by appointment by the Governor subject to approval by a two-thirds vote of the members of

Digitized by Google

the Senate in Executive Session at the next regular session of the Legislature. Each member of the Commission shall be entitled to receive as compensation for his services the sum of $4000.00 per year, payable monthly. In addition to the compensation hereinbefore prescribed, each member of the Commission shall be entitled to receive the amount of his traveling and other necessary expenses actually incurred while engaged in the performance of his official duties. For the purposes of this Act the first meeting in January shall be designated the annual meeting. Two members of the Commission shall constitute a quorum for the transaction of business. At its first meeting, and at each annual meeting held thereafter, the Commission shall organize by the election of a chairman and vice-chairman from its own number, each of whom, except those first elected, shall serve for a term of one year and until his successor is elected. The Commission shall adopt and use an official seal for the authentication of its orders and records. The Commission shall establish and maintain its principal place of business in the city of Des Moines.

Sec. 10 (b). Secretary. The Commission shall select and appoint a secretary of the Commission. He shall serve at the pleasure of the Commission and shall perform such duties and receive a salary not to exceed $2400.00 per year. Before entering upon the discharge of his official duties the secretary shall execute a bond, payable to the State of Iowa in such amount and with such sureties as shall be approved by the Commission, conditioned upon the faithful discharge of his official duties, and he shall likewise take and subscribe an oath, which shall be endorsed upon his official bond, and the bond and oath when so executed shall be filed in the office of the Secretary of State."

Sec. 2. Effective Date. This Act being deemed of immediate importance, shall be in force and effect from and after its passage and publication in the Ottumwa Courier, a newspaper published at Ottumwa, Iowa, and in the Charles City Press, a newspaper published in Charles City, Iowa.

The Speaker ruled the amendment out of order.

Goode of Davis moved the previous question. Motion prevailed.

AMENDMENTS FILED

Kephart of Clay, Johnson of Buena Vista and Stimpson of Jones filed the following amendment:

That House Concurrent Resolution 11 be amended by striking from line 16 thereof, the words "be memorialized" and insert in lieu thereof, the following:

"memorialize the Congress of the United States."

Mercer of Johnson filed the following amendment:

Amend Senate File 184 by adding thereto following the period in line forty-nine (49), the following:

"Sec. 4a. In any County in which is located a special charter city, which levies and collects its own taxes separately from the County, all millage credits and the amount in dollars thereof on eligible homesteads situated in said city in excess of the aggregate levy by said County for the taxing district in which said city is located, but not in excess of the aggregate levy by said city, shall be certified by the County Auditor to

the Treasurer of said city who shall in turn credit on said city tax lists against the taxes levied by said city on each eligible homestead in said city, said excess millage credits so certified to him in the same manner as herein required to be done by the County Auditor on the county tax lists. The County Treasurer shall pay to the City Treasurer out of the funds apportioned to said County from the Homestead Credit Fund, the amount of said funds so apportioned in excess of the county levy, which shall be applied upon the taxes on eligible homesteads in said city as herein provided. All funds so apportioned in excess of the combined city and aggregate county levies for said taxing district exclusive of special assessments shall be remitted to the State Board of Assessment and Review to be re-deposited in the Homestead Credit Fund for re-allocation as provided in this act. The intention and purpose of this provision shall be to allot to each eligible homestead located in such city the same proportionate tax credits received by eligible homesteads in other cities and towns, but this provision shall not be construed in any way to allot to eligible homesteads in such city any greater benefits or credits than eligible homesteads in other cities and towns.

Johnson of Buena Vista filed the following amendment:

Amend Senate File No. 117 as follows:

In line 7 of Section 1, insert immediately after the word "weather" the words "and phenological".

Also amend line 8 by inserting a comma (,) after the word "meteorology" and adding the word "phenology".

Also amend line 18 by inserting immediately after the word "weather" the words "and crop".

Also amend line 21 by striking the words "of public interest" and inserting in lieu thereof the following: "in its relationship to agriculture, transportation, commerce and the general public."

Further amend Senate File 117 by striking all of Section 2.

Blue of Wright filed the following amendments:

Amend House File 74 by inserting after the comma following the word "State" in line seven (7) of Section 1 the following: "must have successfully completed prior to beginning the study of law at least sixty-six weeks of study in a recognized college or junior college,".

Further amend by striking the word "and" following the comma after the word "character" in line six (6) of Section 1.

Further amend by striking the period following the word "years" in line thirteen (13) of Section 1 and adding thereto the following: ", provided that fractional parts of a year of such law study may be applied toward such three years, and provided further that any such applicant, who has, prior to the date this act becomes effective, either registered under Rule 5-a of the Board of Law Examiners or begun the study of law in a reputable law school, may be admitted to the bar examination upon presentation of satisfactory evidence showing that he has the qualifications for admission as set out in section ten thousand nine hundred eight (10908), Code of Iowa, 1935."

Brown of Polk filed the following amendment:

Amend Senate File 184 (substituted for Senate File 1) as follows:

Insert between lines two (2) and three (3) Section three (3) the following as paragraph four (4): "On July 1, 1937, and quarterly thereafter, up to and including April 1, 1939, the board shall, from the revenue collected, under Chapter three hundred twenty-nine-f one (329-f1), Code, 1935, set aside and cause to be paid into the fund to be known as the Public Welfare Fund of the State Department of Public Welfare, the sum of three hundred seventy-five thousand (375,000) dollars; said sum to be held by the State Treasurer for the purpose of aid to dependent children, in accordance with the provisions of the Federal Social Security Law, and to be paid out upon such basis as may be provided by law."

Further amend by renumbering the paragraphs in said section.

On motion by Brown of Polk the House adjourned until Wednesday, February 24, 1937, at 9:30 o'clock a. m.

IOWA PIONEER LAWMAKERS' ASSOCIATION

The time having arrived for the meeting arranged for the reception of the Iowa Pioneer Lawmakers' Association convention, under Senate Concurrent Resolution 11, and the Senate having adjourned out of respect for the death of Senator T. F. Driscoll, the House proceeded in accordance with the provisions of said resolution.

The members of the Senate appeared and joined in the meeting.

Senator H. D. Miller of the Cedar-Jones district moved that a committee of three, one from the Senate and two from the House, be appointed to notify the Iowa Pioneer Lawmakers' Association that the convention was ready to receive them.

The motion prevailed and the Speaker appointed as such committee: Senator Miller and Representatives Peisen of Hardin and Keeney of Palo Alto.

The committee escorted the members of the association to the seats at the Speaker's station.

Senator William S. Beardsley gave the following address of welcome on the part of the Senate:

MR. SPEAKER, PIONEER LAW MAKERS, MEMBERS OF THE HOUSE AND SENATE AND ASSEMBLED GUESTS: I am pleased at this time to appear in behalf of the Senate and extend to the Pioneer Law Makers a welcome in behalf of that body. I sincerely regret that the members of the Senate are unable to attend this meeting in a body this afternoon because the grim specter of death has entered our Chamber within the last twenty-four hours and taken from our midst one of our most distinguished and esteemed members. The Senate is in adjournment today out of respect to the memory of our colleague.

It occurs to me that this is a most splendid and happy occasion and it is quite timely that the Pioneer Law Makers can assembly in this Chamber which was the scene of many of your great achievements and accomplishments to renew friendships and enjoy the fine spirit of fellowship which prevails.

The Pioneer Law Makers have contributed a great deal to the institution of representative government and progress. It is my opinion that this is borne out by the fact that down through the years our State has been one of the best governed States in the Union. This in itself is a tribute to the Pioneers and indicates that they did their work well and most splendidly.

We are living in a peculiar time. There are those among us who say that everything that harkens of the past is useless. On the other hand there are those who contend that everything new and looking to the future is sublime. In my humble opinion both of these schools of thought are wrong. It seems to me that Sir Richard Steele some hundred years ago gave us the key to the solution of the quandary which we find ourselves in at this time.

He said, "Tradition is not a fetish to be prayed to but a useful record of experience. Time should bring improvement but not all old things are useless. We are served by both the ancients and the moderns. The useful man is he who clings to the best of the old and appropriates the best of the new." I think that if we will embrace this wholesome philosophy of Sir Richard Steele we will find in it the essence of wisdom which will give us a solution to our present day problems. It is necessary in changed conditions to change our approach to the solution of some problems. However, if we would be worthy of our vocation we can not ignore the traditional land marks which have charted our course thus far.

May I assure you gentlemen that we members of the Forty-seventh General Assembly rejoice with you in your accomplishments. We sincerely hope that in the succeeding years that fate and fortune may deal

most kindly with you and that we may have many more happy occasions of this kind and in conclusion may I again say that we salute you and tender you a most hearty and cordial welcome.

Representative J. P. Gallagher of Iowa delivered the address of welcome on the part of the House.

The Speaker then introduced Hon. F. A. O'Connor who delivered the following address:

WHAT ABOUT REPRESENTATIVE GOVERNMENT?

It is a privilege duly appreciated to speak to this joint session of the Iowa General Assembly and honored guests, on behalf of the Pioneer Law Makers' Association.

My presence in this chamber and on my feet is rich in memories of the many happy days I spent amidst these surroundings, but richer still in friendships that have endured and constitute a part of that golden chain of friends without which a man would be poor indeed.

The speaker on this occasion at each recurring biennial session has usually dwelt upon incidents affecting individuals or events in his experience within the General Assembly or other state office in which he served. I might well follow this precedent and review some of the stirring and interesting events which I experienced and in some of which I played a very modest part. For instance, during my service in the General Assembly, the titanic battle over the Woman Suffrage amendment; the Oregon plan for the election of United States senators; the important contest over the creation of a public utilities commission; the adoption of the law which provides for the present State Board of Education; and the historic deadlock for the selection of a United States senator to succeed the temporary appointee, Hon. Lafe Young, named in the interim to succeed the lamented and distinguished Jonathan P. Dolliver. In that contest the Senate and House met in joint session at noon throughout the entire session, but the deadlock was not broken until three p. m. on the day of final adjournment.

Each of these, and other events, were sufficiently colorful and striking to merit my time and your patience, had I the power to depict and recount them in correct perspective. Likewise, in the 34th General Assembly the story of the divided groups within the majority party and the many strategic plays for position and power would be interesting and refreshing, and what a tale could be told had I the gift of words with respect to that little band of patriots who inhabited the northeasterly section of the Indian country, known as the Cherokee Strip; those valiant homeless souls, who surely left partisanship and party behind them and, like all true Jeffersonians, devoted their efforts unselfishly to the public welfare. I need not comment on how this nomadic tribe has left the strip and now overrun the mainland. Too, what an inspiration it would be to dwell upon the lives and services of some of my contemporaries, many of who made history in those eventful days. Of dear old George Koontz, elected by the voters of Johnson

County, but by common consent the uncrowned King of the State University of Iowa; of Charlie Miller of Bremer, the sworn foe of the American Medical Association; of the lovable speaker of the House, Paul Stillman of Jefferson; of Bill Harding, late Governor, Bill Larrabee, Ernie Moore, John Jacobs, Garritt Clay, and others in the lower house. And, across the hall in the Senate, the colorful Shirley Gillilland of Mills, the competent Jim Smith of Mitchell, the brilliant and rakish Cady Chase of Hamilton, the finished orator J. U. Sammies of Plymouth, the serious but able John Clarkson of Monroe, and the waggish Billy Haskell of Linn, besides many others whose services and antics are recorded indelibly in the memories of those who served with them, and recorded imperishably in the statutes which have brought comfort and privileges to untold thousands who knew them not.

And no reference to that period during which I served would be complete did it not include the capable chief executives, Governors Carroll and Clark.

All these men at heart were honorable men, and in their days served their state and districts with honor and distinction.

I have elected, however, to forego the happy task of speaking of particular men or particular measures, or either, as such, but nevertheless of men and measures as instruments of government, and to that end I crave your patience for a brief spell.

I hope it will not be regarded as presumptious on my part if I devote my time today to what I might denote "a homily on government", or "What about representative government?"

I need not tell an intelligent group such as I address on this occasion of the continuing complexity of government, from the day we set up the instrumentalities which were to serve us in both nation and state. Life, and all its incidents, in a governmental sense, were portentious then, but infinitely more complex in the succeeding years. To trace the development of laws and the principles which give rise to them would indeed be an interesting study. In the early years, as a people we were concerned largely in the enactment of laws which affect the natural impulses and aspirations of men, the right of representation in government; of freedom of the press and of speech; the untrammeled right of religious worship; the establishment of legal tribunals and principles affecting them as they involve our personal and property rights; the foundation of these inherent rights which men crave were firmly engrafted into our governmental system and have been strengthened through the passage of years.

In the course of events we settled as a result of a cruel and bloody war the momentous question of human slavery and as a result thereof banished it from the sacred soil of this Republic. In the course of events again the principle of sound representative government became a problem in a new and different sense. The development of industry and the growth of powerful industrial organizations and the selfish interests of those who control said instrumentalities in the affairs of government, gave rise to new issues. These may be appropriately referred to as an attack on the principles of equal opportunity, as they affect the daily lives of men.

Digitized by Google

These issues arose out of the claim that selfish interests undertook to place in positions of power, in the enactment of legislation, representatives who would serve a particular interest as distinguished from the public welfare. That struggle in our own state became the paramount issue in the days which marked the turn of the century. The result in our own commonwealth was the enactment of the primary, anti-pass and kindred laws. The march of time has left many of these modern problems with us, and in addition has multiplied the problems many fold. Government today is a complex skein of involved intricate and difficult problems, which confound even the best students of the science of government.

It might naturally be assumed that with our 150 years of experience in education, freedom of speech and the press, and the widest possible diffusion of knowledge, we would have simplified and refined the processes of government, and that we should, in the truest sense, be the masters of it. A survey of our accomplishments and of the problems immediately before us may well cause us to pause and inquire: How successful have we really been in mastering the principles of self-government? Who knows if the mighty machine we have built us will stand the test which time and circumstances will inevitably lay upon it? Events and changes have come upon us so quickly that the answer is perhaps not yet ready. The tremendous moment of the problem may be indicated in a series of questions:

First: What is to be the government's permanent place in the economic and social problems which affect the national welfare?

Second: Is there a complete answer to what are to be the relations between business and labor? If so, what is it?

Third: Where is the true line beyond which we may not safely pass if we are to preserve our Republic from socialism and related isms?

Fourth: What is to be the final answer of the true relationship between the Federal government and the several states?

Fifth: How far may the government go in safety in insuring security in prices and otherwise to selected groups without incurring dangerous reprisals from other groups, thereby affecting the solidarity of the nation?

Sixth: What is to be the final answer of government to the millions of men and women who day and night are haunted by the spectre of insecurity?

I might continue on ad infinitum in marshalling problems of government as they affect humankind in this Republic, but I need not do so. I enumerate the few stated only to emphasize the great responsibility which rests upon us, as a self-governing nation, and to point out the gravity of the responsibility which rests upon men and women called to the service of the state and nation in a representative capacity.

I might conceivably denote an equal or greater list of social, economic, fiscal, and other problems which concern those who, like you, are called upon to serve the people of a great commonwealth.

It is evident to you that we have not found an acceptable solution of the problems which inhere in taxation, education, transportation, utili-

ties, social security, etc., because the issues are constantly before us in new forms and new phases.

I am not one childish enough to believe there is a specific as to any one or all of these perplexing queries. I can, however, as one deeply concerned in the welfare of representative government, bring home to you the assurance that the solution of the problems is becoming constantly more difficult and is to be a never-ending task. The cosmopolitan quality of our citizenship, the diversity of interests, the swiftly changing phases of modern civilization, at home and abroad, the unrest of millions of human beings in all the countries of the world, those who speak to one another through the invisible meshes of the air and convey the burdens of life in tragic messages,—all these are factors in the drama of life and government in this modern age. You ask, Why do I paint this picture of seeming doubt to the legislators of a great state? Is it a signal of distress, a call to arms to meet a stranger who would charge upon us whilst we are in a maze of bewilderment and doubt? Indeed no! I sketch the picture only as a warning to you, as symbols of legislative authority, and for myself and others like me outside the realm of such responsibility, to the end that we may all gather vision and courage to meet the problems of a new era and solve them through formulas of acknowledged statesmanship.

This new era of legislation is upon us. Restless men are seeking new laws and new methods of creating them, as they challenge the accepted forms of one hundred years. There are unmistakable signs that many men are dissatisfied with government as is and an undoubted declaration of belief that old forms and principles are no longer sacred. I think that we in America and we who live in the great commonwealth of Iowa can not ignore the universal unrest in the world around us. It certainly behooves every lover of his country to study and understand something of the character of the men and the circumstances through which they have risen to power and have transformed, figuratively, overnight, the governments of many European countries. Countries from whence have sprung a large majority of the citizenship of our own country.

Let me enumerate and comment briefly:

Joseph Stalin, the highest living example of an absolute dictatorship; the acme and essence of communism in its deepest hue. He has brought under his dominion more than 160 million human souls in Russia and Siberia; this stolid, dogged character who decrees that every human thought and act is wrapped in the magic wrapper of impenetrability and indestructibility called the state; a dictator who defies the ordained concepts of Christianity, who reduces God to the level of the brute, who wipes out the foundations of society as related to religion, and with a single stroke sweeps away the foundations upon which governments and society have builded and flourished for 2000 years. His philosophy has found root not alone in Russia, but in almost every country of the world. Even in our own Republic the Red Flag of cummunism has been unfurled and thousands of men who live under the protection of the Stars and Stripes pay tribute to the devastating principles of the Red emblem.

John Gunther, in his graphic chapter on Stalin says: "He is the most powerful single human being in the world: and one of the very greatest. He is different from other dictators because he is not only the undisputed leader of a National State but of a movement, the Communist International, which has roots in all countries."

Let us turn from Russia to Germany, and the Nazis, under the leadership of the strange and mysterious dictator, Hitler. True, he recognizes the principle of private property, but in most other respects he glorifies the state and reduces to the level of non-essentials the principles of government which have been universally regarded as the supreme attributes of an enlightened civilization.

His sustained attack upon the forces of religion within his country; his deification of the state as the supreme arbiter and director under his absolute dictatorship; his cruel designing inhuman schemes whereby the enemies of his theories have been shot and murdered at home and away, (witness the planned death by the Nazi of Dollfus of Austria); his ambition to rule beyond the borders of his present dominion, all give proof of the danger he presents to a civilized world.

Turn to Italy, and the dynamic conquering Mussolini, who demotes a King to the stature of a common man, and grabbing the scepter of authority flounts it over the heads of forty millions of human beings and to the huzzas and hosannas of a united people proclaims himself in name and in fact the dictator of all. With more finesse and acumen than Hitler, but moved by the same instincts, he extoles the majesty of the state. Together they exalt the spirit of nationalism and march to the pinnacle of dictatorship, followed by the maddening mob of unthinking but loyal subjects.

I might dwell on the Spanish revolt and the Austrian debacle, but I need not do so to stress the point I urge.

That point, as I view it, is a warning to mankind everywhere. As I read the story of these movements there is more than a thread of similarity in each. The primary ultimate of Stalin philosophy is embodied in the "ABC of Communism", official publication of the Soviet government. I quote from it as follows:

"The Soviet power must exert the most fervent propaganda against religion. All religions are one and the same poison, intoxicating and deadening the mind, the will, and the conscience; a fight to the death must be declared against them. Our task is not to reform but to destroy all kinds of religion, all kinds of morality."

In a speech at Moscow the Communist Minister of Public Education declared:

"We hate Christianity and Christians; even the best of them must be looked upon as our worst enemies. They preach the love of our neighbors and mercy, which is contrary to our principles. Christian love is an obstacle to the development of a revolution. Down with the love of our neighbors. What we want is hatred. We must learn how to hate and it is only then that we shall conquer the world."

Those who have followed the activities of Adolph Hitler may justly conclude his mind is surely not antagonistic, at least in some degree, to these diabolical principles. Mussolini is presently devoted to prayer and

religion, but the basic philosophy of Fascism, as exemplified in the dictatorship of a nation, is not in keeping with such devotion. The same strain of anti-religion is manifest in the present Communist-Socialist ruling party in Spain, and in the Socialist group of Austria, and we have a manifestation of it in the western hemisphere in the Republic of Mexico.

In the light of this situation I think we may prudently enquire—Is our own country surely immune from the danger and the terrifying consequences of similar forces?

If the philosophy of Stalinism and Hitlerism is what it appears to be, namely, the driving out of God and the principles of Christianity in the life of the world, and if that philosophy is accepted as sound, then there is reason why the state should be exalted. If man is the creature only of his years; if eternity and the eternal life are a myth; if man. created in the image of his Creator, provided with an intellect and a will, dies as the brute dies, and the chapter thereby closes forever, then indeed there is little need for the principles of morality which a christian civilization proclaims, and every reason why man should lift high the banner of Stalin, with the deadening motto thereon, "Our duty is to destroy all kinds of morality."

After all, the mystery of life and death is perplexing and in a world in which a man has had naught himself to say as to his existence, the teachings of these malefactors of morals may find easy acceptance in the minds of those countless millions who are pressed and hardened in the economic and social struggle for an uncertain existence.

Little thought is given to the ultimate chaos if those principles were to supercede the acknowledged concepts of Christianity which have given to mankind the accepted standards of human conduct.

Pursuing this thought I come to our own beloved Republic. An analysis of our own fidelity to the Christian religion does not present a hopeful picture. A large majority of the people in these United States profess no attachment to or membership in any of our religious groups. This means that more than sixty-five million of our people know little or rather hear little officially of the concepts of Christianity. I do not mean they do not lead moral lives, but I do urge that a person deeply grounded in the faith of religion and belief in an eternal creator and eternal life cannot and will not become a follower of the dictators who proclaim "The State is all"—"Long live the State". I point this fact out, not as a reformer or preacher, but as indicating what might form a common bond of understanding and theoretically constitute a base for the development of these foreign and dangerous isms in this country.

My idea is that we do the things in this Republic which will make impossible the acceptance of the destructive theories of foreign dictators by any substantial number of our own citizenship.

Another factor which lends support to the bond between our people and those abroad is that from time to time policies and practices of Old World countries are held up to us by statesmen and economists as superior to our own. No doubt these claims in many respects are true. I mention it only insofar as such reference and approval of policies builds up a sentiment of respect in this country for the forms and leaders of such countries. Unrest among the body politic gives rise to all the troubles

of Europe. Unrest is the point of danger in this Republic. This unrest at home and abroad arises largely because of inequalities in life. The inevitable conflict between the rich and the poor. Social and economic unrest is the food upon which dictators sweep to power. It is not difficult to understand how and why a strong and persuasive man may lead a distressed people to the heights of disaster and destruction itself, as has already been done in Russia, Germany, Italy, Austria, and Spain. And what a price the poor are paying. Whatever their portion before it is infinitely worse under the scepter of the destroyer of men's natural rights under accepted forms of organized government.

The wreck of Europe as we look upon it today should not be lost upon the statesmanship of America. We have evidences of unrest all around us, and our supreme duty is to rise to the necessities of the hour and vindicate the worth of representative government. The very essence of representative government is that those entrusted with legislative responsibility truly represent the will of a free people, fairly expressed. In this Republic our chief executive is the acknowledged leader of all the people. He is the only executive whose credentials come from the voters of all the states. In the very nature of things he is the one in authority most likely to have a national viewpoint,—and generally our presidents have expressed the public will as decreed in the quadrennial national referendums. Governors and members of Congress, obviously act primarily for a restricted political unit. This is correspondingly true of our legislatures of the several states. Hence, my friends, let us not be too quick to criticise a chief executive who undertakes to give expression in laws to the unquestioned will of a free people, because the will of a people, in the light of history, cannot be denied.

I mentioned earlier in this paper certain problems of government, both state and national, that press on for solution. Let me remind you that in a Republic with as many conflicting selfish groups as we have the task is not simple and no matter what the remedy certain groups will howl in horror. This cannot, however, give pause to a leader of legislators, who, giving thought to all forces and interests, approximate justice notwithstanding acknowledged inequalities.

In this mighty political warfare of equal rights and opportunities within the law, there likely must be in this country a giving up by certain groups of the things they have heretofore looked upon as their own. We must, in some way, provide a more salutary distribution of our earnings, to the end that men may labor and live free from the terrible nightmare of dependence and insecurity. The Captain of Industry who does not see this looks not into the heavens, for it is written in the stars. Likewise, men who labor must be moved by an understanding that we must accept either the capitalistic system or surrender it for some ism foreign to the soil of this Republic,—"That we have the genius in this country to fight our way to victory" I believe. The forces of capital and labor must be brought together, in mutual undertakings, not after strikes but before. Application of sound principles of social and economic justice must be accepted and enforced if we are to surmount the evidences of unrest around us. This is peculiarly within the control

of legislators in state and nation. To it you, as members of the General Assembly, owe a prime and supreme duty.

Furthermore, in the field of government, local, state and national, there must be devotion from individuals to the principles of integrity and honor. The Public must not lose faith and confidence in the men who represent it in legislative bodies, but that faith will disappear if corruption shows its ugly form. Integrity in public office must be the Shibboleth which as a slogan symbolizes representative government.

The channel through which laws pass must be kept clean and pure, to the end the governed may not lose faith in those who govern. I appreciate what I say has some measure of idealism—easy of statement but not easy of accomplisment. The currents of greed and selfishness run deeply and the price of good government is eternal vigilance.

Representative government is always on trial. We are all a part of it. The test is the ultimate measure of justice or otherwise which flows from the results of the deliberations of law makers. The Body Politic is in large degree fickle. We denounce today what we approve tomorrow. So the duty of men and women chosen to act for others under our system is to weigh in the scales of conscience the rights of all, and then fearlessly, regardless of self or present consequences, do the thing they decide is right.

Wood of Monroe offered the following resolution:

HOUSE MEMORIAL RESOLUTION

Whereas, The Honorable Nate E. Kendall, who was representative from Monroe county, Iowa, in the twenty-eighth, twenty-ninth, thirtieth, thirty-first, thirty-second and thirty-second Extra General Assemblies; Named Speaker of the thirty-second General Assembly; representative in Congress from the Sixth Iowa District from 1909 to 1913; Governor of Iowa from 1920 to 1924, and died at his home in Des Moines, Iowa, on November 4, 1936, therefore,

Be It Resolved by the House of the Forty-seventh General Assembly: That a committee of three be appointed to draft suitable resolutions commemorating his life, character and service to the state and nation.

Unanimous consent having been obtained for its immediate consideration, Wood of Monroe moved its adoption. The resolution was adopted and the Speaker appointed as such committee: Wood of Monroe, McFatridge of Appanoose and Hoegh of Lucas.

Yager of Dickinson, on behalf of forty-seven members of the House, offered the following resolution:

HOUSE RESOLUTION 9

A resolution providing for the purchase of jackets for the pages of the House of the Forty-seventh General Assembly.

Whereas, There are eight regular pages, one page for the Speaker, one page for the Chief Clerk, one page for the Sergeant-at-Arms, and two telephone pages, and

Whereas, It has been the custom and tradition of the House of the state of Iowa, that pages employed by the House wear jackets, and

Whereas, The House of the Forty-seventh General Assembly desires that its pages wear such jackets, therefore,

Be It Resolved by the House of the Forty-seventh General Assembly: That the Chief Clerk of the House be authorized and directed to order jackets for the use of the pages employed by the House of the Forty-seventh General Assembly, at an expense to said Forty-seventh General Assembly of not more than seven (7) dollars per jacket.

Laid over under Rule 34.

EXPRESSION OF THANKS

MR. SPEAKER: I desire to express to the members of the House my sincere and deepest thoughts of appreciation for your kind remembrances and floral offering during my recent sorrow. JENS THOMPSON.

COMMUNICATION FROM THE WISCONSIN LEGISLATURE

Feb. 26, 1937
Clerk of the State Legislature
State of Iowa
Des Moines, Iowa

DEAR SIR: We are enclosing herewith an enrolled copy of Joint Resolution No. 29, A., relating to a proposed conference of Wisconsin and neighboring states to consider a uniform gasoline tax for said states.

This joint resolution was adopted by both houses of the Wisconsin Legislature, and I was instructed to forward a copy of the same to you.

Very truly yours,
LESTER R. JOHNSON,
Chief Clerk, Assembly.

STATE OF WISCONSIN

(Jt. Res. No. 29, A.)

JOINT RESOLUTION

Relating to proposed conference of Wisconsin and neighboring states to consider a uniform gasoline tax for said states.

Whereas, The State of Wisconsin imposes a four cent tax on gasoline and the neighboring states of Illinois, Iowa, Minnesota and Michigan levy a three cent gasoline tax; and

Whereas, This tax differential creates a hardship on all jobbers of gasoline and oils who operate near the state boundary with consequential losses of business volume to all other types of retailers by reason of the changed place of markets; and

Whereas, The borderline districts constitute a considerable portion thereof so that there is a significant loss of tax revenue because of such diminished purchases; and

Whereas, The motor vehicle carriers of this state are placed at a competitive disadvantage with out-of-state carriers because of lower operating cost; and

Referred to committee on federal coordination.

The bill having received a constitutional majority was declared to have passed the House and the title agreed to.

Unanimous consent having been obtained for its immediate consideration, Senate File 127, a bill for an act to amend Section seven thousand two hundred eighty-six (7286), Code, 1935, to protect restrictions affecting real estate arising out of a deed or deeds in a chain of title to real estate and running with the land, limiting the use of property, the type, character and location of buildings or restrictions against nuisances, and other similar restrictions and providing that such restrictions shall be unaffected by the issuance of tax deeds, and that persons holding under such tax deeds shall take the property subject to said restrictions in force at date of such tax deed, was taken up for consideration.

Brown of Polk moved that the bill be read a third time now and placed upon its passage, which motion prevailed and the bill was read a third time.

On the question, "Shall the bill pass?"

Amend Section 11, line 13, Senate File 184, by inserting after the word "same" the following: "and establish the assessed value of the homestead where the same has been assessed with other real estate."

Amendment adopted.

The amendment offered by Hoegh of Lucas as found on page 518 of the Journal of February 24th, which failed to be adopted, was taken up for consideration under a motion to reconsider which prevailed and the amendment was adopted.

Davis of Madison moved to substitute House File 229 for Senate File 184.

POINT OF ORDER RAISED

Blue of Wright raised the point of order that the subject matter in the substitute offered was not germane to the bill.

The Speaker ruled the point of order not well taken, for the reason that the substitute covered the subject matter contained in Senate File 184 as well as other matter.

Baumhover of Carroll moved the previous question on the substitution. Motion prevailed.

band or wife whose gross income is more than one thousand ($1000) dollars a year plus one hundred twenty ($120) dollars for each dependent child, or whose gross income, together with that of said husband or wife is eighteen hundred ($1800) dollars plus one hundred twenty ($120) dollars for each dependent child."

Rice of Keokuk filed the following amendments:

Amend House File 255, Section fourteen (14), line ten (10) immediately following the period (.) by inserting as a new sentence the following:

"No contract shall be let to any state official, elective or appointive, nor to any relative within the third degree, or a member of the state highway commission, nor to any partnership or corporation in which a member of the state highway commission is financially interested. The letting of a contract in violation of the foregoing provisions shall invalidate the contract, and such violation shall be a complete defense to any action to recover any consideration due or earned under the contract, at the time of its termination".

Also amend House File 282 by striking all of Section three (3) and inserting in lieu thereof the following: "Sec. 3. That Section fifty-eight seventy-six (5876), Code, 1935, be amended by striking all of said section and inserting in lieu thereof the following as Section fifty-eight seventy-six (5876)."

"When the whole or any part of the cost of the building or reconstruction of any bridge, viaduct, grade crossing separation and approaches thereto by such city, except viaducts constructed or reconstructed under the provisions of Chapter three hundred five (305), Code, 1935, shall be ordered paid from the city bridge fund, it may, by resolution levy at one time the whole or any part of the cost of such improvement upon all the taxable property within the city and determine the whole percentage of tax necessary to pay the same and the percentage to be paid each year, not exceeding two-thirds of the maximum annual limit of the tax such city may levy for a bridge fund; and the number of years, not exceeding twenty-five, given for the maturity of each installment thereof."

On motion of Johannes of Osceola, the House adjourned until Friday, March 5, 1937, at 9:00 o'clock a. m.

HOUSE FILE 227 PLACED ON THE CALENDAR

Groves of Hamilton asked that House File 227, having been in the committee on elections for more than ten days, be withdrawn and placed on the calendar in accordance with Rule 61. So ordered.

REPORT OF JOINT COMMITTEE ON ENROLLED BILLS

Irwin of Lee, from the joint committee on enrolled bills, submitted the following report, and moved its adoption:

MR. SPEAKER: Your joint committee on enrolled bills respectfully reports that it has examined and finds correctly enrolled: Senate Files 49 and 127.

JOHN R. IRWIN, *Chairman House Committee.*
FRANK PELZER, *Chairman Senate Committee.*

Report adopted.

BILLS SIGNED BY THE SPEAKER

The Speaker of the House announced that, as Speaker of the House, he had signed in the presence of the House, the following bills: Senate Files 49 and 127.

Johannes of Osceola and Randall of Worth offered the following resolution and moved its adoption:

HOUSE RESOLUTION 10

Whereas, The Forty-fifth General Assembly in Extraordinary Session enacted into law the "Property Relief Act", now Chapter three hundred

twenty-nine-F1 (329-F1) of the Code, 1935, incorporationg within its provisions the income tax, the corporation tax, and the sales tax, and

Whereas, Said law is now approximately three (3) years old, and

Whereas, Now as under pending bills before the House no major changes will be anticipated in the continuance of these measures.

Whereas, The time and experience of these measures show that some proposed changes could remedy the present law to serve the chief interests of all the citizens of Iowa.

Whereas, There are some proposed changes anticipated.

Be It Resolved by the House: That the Speaker of the House appoint a committee of three (3) members to investigate the operation of the law. Said committee, therefore, be empowered to communicate with the members of the Board of Assessment and Review, and employees of said Board, or any other persons who are interested in drafting a fair enactable measure for the operation of this law, and as the result of such investigation would show that such remedial legislation could be secured. That such bills or amendments to such proposed bills be placed on the calendar as committee bills.

Laid over under Rule 34.

EXPLANATION OF VOTE

MR. SPEAKER: I rise in explanation of my vote in favor of the Homestead Tax Exemption Bill. I promised the voters of my county in the last campaign that I would support such a bill and I have not gone back on my promise. However, I do feel that the bill as finally voted on, is discriminatory and unfair to certain classes of taxpayers of the State of Iowa.

FRED J. KEEFE.

MR. SPEAKER: In accordance with our constittuional rights we desire to record in the House Journal the following reasons for voting against the so-called Homestead Bill, Senate File 184:

First, the Homestead Bill fails to retain more than half of the benefits of the retail sales tax to the residents of Iowa.

Second, House File 148 would have protected the rural areas against excessive state levies, but this bill was voted down by the House.

Third, the present Homestead Bill will transfer the major benefits of the retail sales tax from the rural areas to the large urban centers.

Fouth, the present Homestead Bill prevents the tenant and the non-home owner from receiving any benefits from the retail sales tax, which sales tax they pay.

JOHNSON of Buena Vista.
HENRY FOX.

AMENDMENTS FILED

Moore of Taylor filed the following amendments:

Amend House File 225 Section one (1) by adding a sub-section:

"(c) Net sum of tolls. The net sum of tolls shall be deemed to mean the gross receipts from tolls less the cost of collecting same."

Digitized by Google

Further to amend Section five (5) by adding thereto the following sub-section:

"5a. The state of Iowa shall participate in the net tolls in the same proportion as its portion of the initial cost of purchase or construction bears to the total of such costs. The supervision and maintenance shall be under the control of the Iowa state highway commission and the agency designated by the other state or states, or subdivisions thereof to such agreements."

Amend Section six (6) by striking the words "to be paid" from line five (5).

Also amend House File 254 Section one (1), line five (5) by inserting a comma following the word "secretary" and

Further amend Section two (2), line nine (9) by inserting a comma after the word "secretary".

HOUSE FILE 209 PLACED ON CALENDAR

Scott of Fayette asked that House File 209, having been in the committee on labor for more than ten days, be withdrawn from the committee and placed on the calendar in accordance with Rule 61. So ordered.

Engel of Scott and Dietz of Scott offered the following resolution:

HOUSE MEMORIAL RESOLUTION

Whereas, The Honorable Louis H. Wiese, who was a member of the 46th General Assembly died at Davenport, Iowa, February 22nd, 1936, now, therefore,

Be It Resolved, by the House of Representatives of the Forty Seventh General Assembly: That a committee of three be appointed to draft suitable resolutions commemorating his life, character and service to the state.

Unanimous consent having been obtained for its immediate consideration, Engel of Scott moved the adoption of the resolution. The resolution was adopted and the Speaker appointed as such committee: Engel of Scott, Dietz of Scott, and Stimpson of Jones.

The following communication was received from Congressman Edward C. Eicher of Washington, Iowa, United States Representative from the First Iowa Congressional district:

COMMUNICATION FROM CONGRESSMAN EICHER

To the General Assembly of the State of Iowa:

May I presume to contribute to your permanent record a brief memorial to Mrs. Alex Miller who served our Commonwealth so well as its Secretary of State during the last four fateful years. Her entire life

was a preparation for the opportunity when it came. Efficient student, educator, Home-maker, club and sisterhood executive, she brought to the task of State administration the practical house-keeping instinct and capacity that explains the generous acclaim twice accorded by her fellow citizens.

The mainspring of Mrs. Miller's great contribution to good government in our State was her sincerity of purpose-motivation by considerations of political expediency were words not found in her lexicon of public duty. She fought for highway safety, inspired by humanitarian impulses and well-nigh supernatural energy. The sly humor in the illustration, every auditor sensed as only emphasizing her deadly earnestness, when in a campaign speech last Fall I heard her disclaim sharing the opposition's alarm over the possible burden of public debt on our grandchildren, but admit that she was genuinely fearful there might be no grandchildren left to pay the debt if the statistical trend of highway fatalities was not soon reversed.

All who knew her in our state and nation grieve not only for the loss of an understanding and companionable friend, but also for the loss to the work to which she had dedicated her life and that had received "her last full measure of devotion".

Respectfully submitted,
EDWARD C. EICHER, M. C.
First District, Iowa.

Sec. 2. All sale barns, sale pavilions where the property of two or more persons is assembled, kept, or offered for sale, either by public auction, private sale, or on a commission basis, shall comply with the requirements set forth in this act.

Sec. 3. (a) Managers of such community sales and sales pavilions as designated above shall make application to the County Auditor of county in which said sales barns are located for a license to conduct such sales, stating the place at which such community sales are to be held by the applicant, the full name of person or persons applying for such license, and if applicant be a partnership, the full name of each member of the firm, and if applicant be an association, or corporation, the full name of each officer thereof, and such other information as the County Auditor prescribes from time to time. Form for said applications shall be furnished by the County Auditor upon request.

(b) Before any license is issued to any dealer, the applicant therefor shall execute and deliver to the County Auditor a surety bond, executed by applicant as principal and by solvent surety company which is licensed to do business in this state as a surety. Said bond shall be for the term of one year and the amount thereof shall be not less than the nearest multiple of $1000 above the average amount per sale during the previous six months, provided, however, that the amount of such bond shall never be less than $2000. Said bond shall be conditioned upon the compliance with the provisions of this act and upon the prompt, faithful and honest handling of livestock and of the proceeds from the sale, purchase or exchange thereof in accordance with the terms and provisions of this act. Said bonds shall be to the county and in favor of each producer and consignor of livestock who has any dealings with the applicant as a dealer. Any producer or consignor of livestock claiming to be injured by the breach of any dealer of any of the terms and provisions of said bond may bring action thereon against both principal and surety in any court of competent jurisdiction within their respective county, to receive the damages caused by such breach.

(c) When said bond shall have been given and the County Auditor shall have determined that applicant is entitled to a license, he shall thereupon issue to such applicant a license entitling the applicant to conduct the business described in the application at the place named therein for a period of one year from the date thereof, or until such license shall have been revoked for cause.

(d) For filing such application herein described the applicant must pay an application fee of $2.00 for each year."

The House refused to reconsider.

Unanimous consent having been obtained, Senate File 143, a bill for an act to designate a farm-to-market road system, to provide a comprehensive plan for the improvement of farm-to-market roads, to authorize the board of supervisors of any county to cooperate with the Federal Government and the State Highway Commission in the improvement of farm-to-market roads, to secure for the State of Iowa and the several counties thereof the benefit of all funds allotted or to be allotted to this state by the Federal Government in the aid of such secondary roads, to create a farm-to-market road fund, and to provide for the disbursement of said fund in the improvement of farm-to-market roads, with report of committee recommending passage, was taken up for consideration, in lieu of House File 255.

Rice of Keokuk moved to strike all after the enacting clause and insert in lieu thereof the following:

Section 1. As used in this act, the following words, terms or phrases shall be construed or defined as follows:

(a) "Secondary road" shall mean any public highway except primary roads, state roads, and highways within cities and towns.

(b) "Farm-to-market roads" shall mean any secondary road designated for improvement under this act.

(c) "County's allotment of motor vehicle fuel license fees" or "allotment of motor vehicle fuel license fees" shall mean that part or portion of the motor vehicle fuel license fees which are or may be allotted to any county under the provisions of Section five thousand ninety-three f-35

Digitized by Google

(5093-f35), Code of 1935, or as said section may be amended, to be credited to the secondary road fund of said county.

(d) "Federal aid" or "federal aid secondary road fund" shall mean funds allotted to the state of Iowa by the federal government to aid in the construction of secondary roads and which funds must be matched with funds under the control of the state highway commission.

Sec. 2. The county board of supervisors of any county is empowered, on behalf of the county, to enter into any arrangement or agreement with or required by the duly constituted federal or state authorities in order to secure the full cooperation of the government of the United States and of the state of Iowa, and the benefit of all present and future federal or state allotments in aid of secondary road construction, reconstruction or improvement.

Sec. 3. There is hereby created a fund which shall be known as the farm-to-market road fund which shall be made up as follows:

1. All federal aid secondary road fund received by the state.
2. Four per cent (4%) of all primary road funds of the state.
3. All other funds which may, under the provisions of this act or any other law, be credited or appropriated for the use of the farm-to-market road fund.

Sec. 4. Said farm-to-market road fund is hereby appropriated for and shall be used in the establishment, construction, reconstruction or improvement of the farm-to-market road system, including the drainage, grading, surfacing, construction of bridges and culverts, the elimination, protection, or improvement of railroad crossings the acquiring of additional right of way and all other expenses incurred in the construction, reconstruction or improvement of said farm-to-market road system under this act.

Sec 5. The state highway commission shall allot among all the counties of the state that portion of the farm-to-market road fund which comes from any source except the counties' portion of the motor vehicle fuel license fees. Said allotment to each county shall be in the ratio that the area of the county bears to the total area of the state. Each county's allotment of the farm-to-market road fund shall be used, as in this act provided, for the construction, reconstruction and improvement of the farm-to-market roads of that county.

Sec. 6. The state highway commission shall keep accounts in relation to the farm-to-market road fund and each county's allotment thereof, crediting each fund with all amounts by law creditable thereto, and charging each with all duly and finally approved vouchers for claims properly chargeable thereto.

Sec. 7. The account of the farm-to-market road fund, kept by the state comptroller and the state treasurer, shall deal with said fund as a single fund and shall show the amount of the farm-to-market road fund with all credits thereto and disbursements therefrom. The treasurer of state shall, each month, certify to the state highway commission the amount or amounts which he has received and credited to the farm-to-market road fund from (a) the federal government as federal secondary road aid, (b) the motor vehicle fuel tax fund allotted to any county, and (c) any other source.

Sec. 8 The state highway commission shall, quarterly, advise each county engineer of the condition of said county's allotment of the farm-to-market road fund. Said statement shall show the balance in said county's allotment at the beginning of said period, the amount or amounts allotted to said county during said period, the amount disbursed from said county's allotment during said period, and the balance in said county's allotment at the end of said period. Said statement shall also show the estimated outstanding obligations against the said county's allotment at the date of said statement.

Sec. 9. Before any project shall be approved by the state highway commission for farm-to-market road construction in any county under this act, the commission shall satisfy itself that said county is financially able and suitably equipped and organized to properly maintain said road, and that the county engineer's office in said county is suitably organized, equipped and financed to discharge to the satisfaction of the commission, the duties herein required; and said county, through its board of supervisors, shall recommend a system of secondary roads (not exceeding fifteen per cent (15%) of the total secondary road mileage of the county) on which projects constructed under this act shall be located. Provided, that if in any county more than fifteen per cent (15%) of the secondary road mileage has already been built to finished grade, bridged and surfaced with gravel or other suitable surfacing, then the board may recommend a secondary road mileage which includes any or all the secondary roads of said county which have been built to finished grade, bridged and surfaced with gravel or other suitable surfacing, plus an additional mileage which is not more than fifteen per cent (15%) of the secondary road mileage of the county.

Sec. 10. The state highway commission shall have authority to approve in whole or in part or to modify the system of secondary roads recommended by the board of supervisors of any county. In considering said system the commission shall take into account the relative amount of the present traffic on the various secondary roads of the county, and the probable future traffic on such roads.

The system of roads as finally designated shall be known as the farm-to-market road system.

Said road system may, subject to the consent of the board of supervisors, be changed or modified by the state highway commission from time to time to meet unforeseen or better understood conditions. Whenever it may appear that all the roads included in said farm-to-market road system in any county have been built to proper grade, drained, bridged and surfaced in a manner suited to the traffic on said roads, additional roads may be added to said system in the manner herein provided for the original designation of said road system.

Sec. 11. Any county having complied with the provisions of this act and desiring to avail itself of the benefits thereof, may, by its board of supervisors, submit to the state highway commission project statements for the construction, reconstruction or improvement of farm-to-market roads in said county. Should the board of supervisors of any county elect to submit no project statement to the state highway com-

mission under this act, then none of said county's allotment of gasoline tax funds shall be taken or used under the provision of this act.

Sec. 12. The state highway commission may approve projects submitted by the board of supervisors prior to the approval of the farm-to-market road system herein provided for, if it may reasonably anticipate that the roads on which such projects are located, will become a part of such system.

Sec. 13. If the state highway commission approves a project submitted by the board of supervisors, the county engineer shall proceed to make or cause to be made, the surveys, plans, estimates for said project, and submit the same to the board of supervisors and the highway commission for approval. The construction work on said project shall be done in accordance with said approved plans, except insofar as the same may be modified to meet unforeseen or better understood conditions, and no such modification shall be deemed an invalidating matter.

Sec. 14. When the approved plans and specifications for any farm-to-market road project are filed with the state highway commission, it shall, if the estimated cost exceeds one thousand dollars, proceed to advertise for bids and make recommended award of contract. Said recommended award of contract shall be submitted to the board of supervisors of the county in which said project is located for its concurrence. Upon receiving the concurrence of the county board on said recommended contract award, the state highway commission shall take final action awarding said contract. No contract shall be let to any state official, elective or appointive, nor to any relative within the third degree of consanguinity or affinity, nor a member of the state highway commission, nor to any partnership or corporation in which a member of the state highway commission, or any other state officer or employee, is financially interested. The letting of a contract in violation of the foregoing provisions shall invalidate the contract, and such violation shall be a complete defense to any action to recover any consideration due or earned under the contract, at the time of its termination.

Sec. 15. In the award of contracts, due consideration shall be given not only to prices bid, but also the mechanical or other equipment and the financial responsibility of the bidder, and his ability and experience in the performance of like or similar contracts. The commission may reject any or all bids and may readvertise for bids, or may let a private contract, at a cost not to exceed the lowest bid received, or if the estimated cost of the work does not exceed the sum of five thousand dollars, may proceed to the construction of the work by day labor. All contracts shall be in writing and shall be secured by a bond for the faithful performance thereof as provided by law.

Sec 16. All claims for improving farm-to-market roads hereunder shall be paid from the farm-to-market road fund and charged to the allotment of said fund for the county in which said project is located.

Sec. 17. All claims shall be itemized on voucher forms prepared for that purpose, sworn to by the claimants, certified to by the engineer in charge, approved by the board of supervisors and then forwarded to the state highway commission for final audit and approval. Upon approval

by the state highway commission, of vouchers which are payable from the farm-to-market road fund, such vouchers shall be forwarded to the state comptroller, who shall draw warrants therefor, and said warrants shall be paid by the treasurer of state from the farm-to-market road fund.

Sec. 18. Partial payments may be made on the work during the progress thereof, but no such partial payment shall be deemed final acceptance of the work nor a waiver of any defect therein. The approval of any claims by the board of supervisors or by the state highway commission may be evidenced by the signature of the chairman of said board or commission, or a majority of the members of the board or commission, on the individual claims or on the abstract of a number of claims with the individual claims attached to said abstract.

Sec. 19. The county engineer is charged with the duty of supervision, inspection and direction of the work of construction of farm-to-market road projects under this act. In such capacity, the county engineer shall be under the supervision of the commission. The highway commission shall make general inspection of the work during the progress thereof and may refuse to approve claims for any work which does not conform to the plans and specifications.

Sec. 20. Any county may, in any year, by resolution of its board of supervisors, make available for improvement, construction and maintenance of farm-to-market roads within the county an amount of not to exceed twenty-five per cent (25%) of its allotment of motor fuel license fees. Upon certification of such a resolution, the state treasurer shall place in the county's allotment of the farm-to-market road fund the amount authorized by such resolution.

Sec. 21. A farm-to-market road project under this act may, subject to the approval of the council, include the purchase or condemnation of right-of-way therefor, and grading, draining, bridging, elimination of danger at railroad crossings, the graveling or hard surfacing of any road or street which is a continuation of the farm-to-market road system and which is (1) within any town, or (2) within any city, including cities under special charter having a population of less than twenty-five hundred, or (3) within that part of any city including cities acting under special charter, where the houses or business house average not less than two hundred feet apart.

The phrase "subject to the approval of the council" as it appears in this section, shall be construed as authorizing the council to consider said proposed improvement only in its relationship to municipal improvements such as sewers, water lines, establishing grades, change of established street grades, sidewalks and other public improvements. The locations of such farm-to-market road extensions shall be determined by the board of supervisors.

Sec. 22. Right-of-way for farm-to-market road projects under this act shall be acquired by the county. Provided, that the county board may request the state highway commission to acquire such right-of-way. In either event such right-of-way may be paid for out of the said county's allotment of the farm-to-market road fund.

Sec. 23. In the maintenance, relocation, establishment or improvement of secondary roads, including extension of secondary roads within cities and towns, the state highway commission shall have authority to purchase or to institute and maintain proceedings for the condemnation of the necessary right-of-way therefor and for the condemnation of land, including a sufficient roadway to such land by the most reasonable route for the purpose of obtaining gravel or other suitable material with which to improve such roads.

All the provisions of the law relating to the condemnation of land for public state purposes, shall apply to the provisions hereof.

The provisions of chapter two hundred thirty-seven (237), of the Code of 1935, shall not apply to the establishment, vacation, alteration or improvement of secondary roads under this section.

No such roads shall be established through any cemetery or burying ground without the consent of all the parties affected by the same.

Sec. 24. Upon the completion of a farm-to-market road project under this act, the county engineer shall file with the auditor and with the recorder of the county a complete right-of-way map of said project. Said right-of-way maps shall be filed by the auditor and recorder and shall become a part of the permanent record of such offices.

Sec. 25. Whenever any public highway located along the corporate line of any town or any city, including cities under special charter, is an extension of the farm-to-market road system, it may be included in said farm-to-market road system and may be improved as a part of the said road system under this act.

Sec. 26. Should the completed cost of any farm-to-market road project under this act be greater than the estimate on which the county's contribution to said project was based, the state treasurer shall, on certificate of such excess cost by the state highway commission, credit one-half of excess amount to the farm-to-market road fund from the said county's allotment of the motor vehicle fuel license fees.

Should the completed cost of any farm-to-market road project under this act be less than the estimate on which the county's contribution to the said project was based, the state highway commission shall take said fact into account when computing the county's contribution to the next project approved under this act for construction in said county. Said county's contribution to the said succeeding project shall be reduced in an amount equal to the unexpended portion of said county's contribution to the former project.

Sec. 27. The farm-to-market road fund allotted to any county as provided in this act, shall remain available for expenditure in said county for one year after the close of the calendar year during which said sums respectively were allocated. Any sum remaining unexpended at the end of the period during which it is available for expenditure, shall be reapportioned among all the counties as provided in section five (5) of this act for original allocations.

For the purposes of this section, any sums of the farm-to-market road fund allotted to any county shall be presumed to have been "expended"

when a contract shall have been let by the state highway commission obligating said sums.

Sec. 28. Engineering, inspection and administration expense in connection with any farm-to-market road project may be paid from said county's allotment of the farm-to-market road fund. Any such expense incurred by the state highway commission may in the first instance be advanced out of the commission's support fund or out of the primary road fund, said amounts later being reimbursed to said funds out of the farm-to-market road fund.

Provided, that no part of the salary or expense of the county engineer, any member of the county board of supervisors, any member of the state highway commission, the chief engineer, or any department head or district engineer of the commission shall be paid out of the farm-to-market road fund.

Sec. 29. Any farm-to-market road constructed under the provisions of this act shall be maintained by the county in a manner satisfactory to the federal authorities and to the state highway commission. Should any county fail to so maintain any such road, the state highway commission shall give the board of supervisors notice of that fact. If within sixty days after receipt of such notice the said highway has not been placed in proper condition of maintenance the commission shall proceed immediately to have such highway placed in proper condition of maintenance and charge the cost thereof against said county's allotment of the farm-to-market road fund.

Sec. 30. The use of any county's allotment of the motor vehicle fuel license fees, or any portion thereof, for the purpose of this act, shall, subject to the approval of the county board of supervisors, take precedence over any other use of said funds specified by law.

The bill having received a constitutional majority was declared to have passed the House and the title agreed to.

Goode of Davis moved that the vote by which Senate File 143 passed the House be reconsidered, and the motion to reconsider be laid on the table.

MOTION TO RECONSIDER

I move to reconsider the vote by which Senate File 143 passed the House. C. L. RICE.

Hickenlooper of Linn raised the point of order that the motion to reconsider by Goode of Davis was made before the filing of the motion to reconsider by Rice of Keokuk and superseded the motion filed.

The Speaker held the point of order well taken.

Mercer of Johnson moved that the House adjourn until Wednesday, March 10, 1937, at 9:30 o'clock a. m.

COMMUNICATION FROM THE GOVERNOR

TO THE HONORABLE MEMBERS OF THE HOUSE OF REPRESENTATIVES:

I feel compelled to call your attention to the present beer law, because there is danger during the closing days of this session of old legislation being neglected where corrections should be made.

I do not presume to dictate definite corrections, but may I suggest that consideration be given to limiting the number of licensees on a per capita basis to the point that all licensees will be able to operate a profitable business without resorting to many practices that are frowned upon by all good citizens, confining the issuance of licenses to more restricted districts of cities and towns, the elimination of dancing from taverns, and the establishment of uniform licenses for towns of the same population.

A reasonable adjustment of the foregoing items would undoubtedly improve the method now in force. Conditions surrounding some of our beer taverns are intolerable, and the people of the state expect this legislature to make necessary corrections in the law.

Respectfully submitted,

NELSON G. KRASCHEL.

EXPLANATION OF VOTE

MR. SPEAKER: I desire to record in the House Journal my reason for voting against the Goode amendment to House File 255.

A few weeks ago in the City of Des Moines a group of Iowa Boards of County Supervisors met with the Highway Commission for the purpose of discussing Senate File 143 (House File 255). At this meeting all differences of this bill between these two groups were eliminated. Thereupon, these two groups in turn met with the Roads and Highways Committee, at which meeting they stated that all differences had been eliminated.

On March 2 the members of the Southwestern Iowa Association of Supervisors, Auditors and Engineers, composed of eighteen counties, met in Atlantic, at which meeting they endorsed House File 255 and instructed those present to notify their Representatives and Senators in their district of the action taken.

In my opinion, it was the intention and desire of these Boards of Supervisors that the bill be enacted into law without amendments and without jeopardizing or at least retarding its final passage.

L. C. BOWERS.

SENATE CONCURRENT RESOLUTION 13

Whereas, Iowa has now arrived at that point in its history where it is entering the era of centennial anniversaries; and

Whereas, The year 1938 will mark the one hundredth anniversary of Iowa's establishment as a separate territory; and

Whereas, By a well formulated program Iowa will:

1. Attain nationwide publicity for the benefit of Iowa.

2. Impress our citizens and prospective citizens with the growth and progress of Iowa, making Iowa people more Iowa conscious, thus selling Iowa to Iowans, and

3. Cause Iowa people to travel over the state to see what Iowa has to offer, giving towns and cities the opportunity to build celebrations to attract visitors and to promote business, and

Whereas, The foregoing program may be achieved

1. By developing an historical celebration in every community in the state, marking historical spots in all sections of the state and by devoting books, maps, and other publications of the state in 1938 to historical information.

2. By developing a special course of study on Iowa history for the schools of Iowa and by inviting newspapers of the state to join in a statewide program by giving special emphasis to historical subjects relating to Iowa's first one hundred years.

3. By appealing to groups of various nationalities in the state to portray their particular role in the development of Iowa.

4. By adopting the slogan, "See Iowa this year".

5. By listing Iowa's contributions to science, invention, literature, music, art, industry, exploration, education, and statesmanship, and by showing Iowa's important part in the growth of our nation.

6. By emphasizing the importance of the products grown, mined and manufactured in Iowa, and by requesting state, county and regional fairs to build their 1938 programs around the centennial theme, and

7. By staging pageants and plays, historical essay contests, family reunions and religious observances featuring Iowa history.

Be It Therefore Resolved by the Senate, the House Concurring:

1. That the Forty-seventh General Assembly authorize the Governor to

Digitized by Google

appoint a statewide, non-salaried committee of at least twenty-five persons to be known as the Iowa Centennial Committee, which shall be charged with planning and promoting of statewide, regional and local observances in 1938 of the one hundredth anniversary of the Iowa territory;

2. That state and local organizations and institutions (such as local historical societies, old settlers associations, Daughters of the American Revolution, American Legion, women's clubs, Parent-Teacher Associations, chambers of commerce, county fair associations, schools and colleges, lodges and service clubs and others) be requested to cooperate with the Iowa Centennial Committee;

3. That the State Historical Society of Iowa and other state agencies be requested to cooperate with the Iowa Centennial Committee and with all state and local organizations and institutions contemplating the celebration of centennial anniversaries.

Laid over under Rule 34.

SENATE CONCURRENT RESOLUTION 14

Whereas, the noxious weed is one of the major menaces which in time will destroy a large part of the farming lands of the United States, which noxious weed is a perennial plant, propogated for the most part by an underground root system which, if left unchecked, literally takes possession of the soil in which it grows and chokes out the farmers' crops, and

Whereas, an exhaustive investigation was made of this problem in 1930 and it was concluded that noxious weeds were costing the United States three billion dollars every year and that this amount has been increasing ever since the foregoing figure was arrived at, and will double within the next few years, and

Whereas, Iowa, being a great agricultural state has realized the growing menace of the noxious weed and is in sympathy with any organized effort to control it, and

Whereas, there has been introduced in the Congress of the United States, certain legislation to aid the various states in their fight on the noxious weed, now therefore

Be It Resolved by the Senate, the House Concurring: That the Congress of the United States and the Secretary of the Department of Agriculture have this important subject brought to their attention to the end that adequate federal legislation be provided to assist in eradicating the noxious weed in the several states so as to save the farms for the farmers of America and that a copy of this Resolution be sent to the Secretary of the Department of Agriculture, to each United States Senator and Representative from the State of Iowa, to the Speaker of the National House of Representatives, and to the President of the United States Senate.

Laid over under Rule 34.

AMENDMENT FILED

Brown of Polk filed the following amendment:

Amend Rule 54 of the rules of procedure of the House of Representatives by striking the word "constitutional" in the next to the last line thereof and inserting in lieu thereof the word "two-thirds".

Digitized by Google

Laid over under Rule 34.

Randall of Worth offered the following resolution:

HOUSE RESOLUTION 11

Whereas, The State of Iowa has experienced an unexpected drouth and a resultant reduction in income both in rural communities and urban centers and

Whereas, There is widespread justified opposition in regard to any increase in taxes and

Whereas, The different state institutions all demand increased appropriations which must be met to properly care for the dependent inmates, and further believing that economy in state expenses should be practiced in this forty-seventh (47th) General Assembly therefore:

Be It Resolved by This House of Representatives, That we favor not to exceed five hundred ($500.00) dollars as an appropriation to pay for any contested election in this session.

And further that a copy of this resolution be presented to each member of the appropriation committee in the House and the Senate.

Laid over under Rule 34.

CONSIDERATION OF SENATE AMENDMENTS

On request of Hickenlooper of Linn, unanimous consent having been given, House Joint Resolution 8, a joint resolution providing for the appointment of a committee composed of five (5) members from the Senate and five (5) members from the House for the purpose of investigating the situation in regard to the housing of state departments, and making an appropriation to defray the expenses thereof, with Senate amendments, was taken up and the amendments read and considered.

SENATE AMENDMENTS

Amend the title by striking from line 2 the word and figure "five (5)" in both places where it appears and inserting in lieu thereof the word and figure "three (3)".

Amend House Joint Resolution 8 as follows:

1. By inserting, after the third paragraph of the preamble, the following: "Whereas, the institutional buildings under the board of control are in dire need of repair, rebuilding, and enlarging; and".

2. By striking all of Section 1, and inserting in lieu thereof the following:

"Section 1. A committee is hereby created to be composed of three members of the Senate, not more than two of whom shall be of the same

political party, and three members of the House, not more than two of whom shall be of the same political party. Said committee shall organize and select a chairman and a secretary from its members and perfect such other organization as the members shall determine. The said committee shall have the authority to inquire into the conditions surrounding the housing of state departments, boards, bureaus, commissions, institutions and other state offices, and the possible future need for additional space and to inquire into the advisability of providing a permanent housing, repair and building program and make such preliminary report and recommendations to the Forty-seventh General Assembly relative thereto as it may deem advisable.

The committee shall further investigate the possibilities of the state of Iowa availing itself of Federal funds now available and to become available to PWA and other Federal agencies in financing a building program. The committee shall also investigate the possibility of using building material such as stone, brick, cement, and other building materials produced and manufactured in Iowa."

3. By striking from Sec. 2, line three (3), the words and figures "five hundred ($500.00) dollars", and inserting in lieu thereof the words and figures "one thousand ($1,000.00) dollars,".

Hickenlooper of Linn moved that the House refuse to concur in the Senate amendments.

HOUSE RESOLUTION 18

Whereas, Nearly five hundred (500) bills have been introduced in the House and a similar number in the Senate, most of which have not as yet been disposed of by the House, and

Whereas, Many of said bills are valuable measures designed for the furthering of the welfare of the people of Iowa and are deserving of the consideration of the House, and

Whereas, Due to the shortness of the time remaining in this session of the 47th General Assembly, many of these proposals may, unless proper measures are adopted, be referred to a sifting committee and never come to the consideration of the House, and

Whereas, Many of such beneficial measures are of a non-controversial nature and need only to be considered to show the wisdom of their passage; therefore,

Be It Resolved by the House of the Forty-seventh General Assembly, That beginning March 15th, 1937, the House meet twice weekly in evening sessions on dates to be determined by the Speaker.

Laid over under Rule 34.

Johannes of Osceola offered the following resolution:

HOUSE MEMORIAL RESOLUTION

Whereas, The Honorable Fred W. Year, who was a member of the House of Representatives in the Thirty-ninth General Assembly from Osceola county, died at his home in Melvin, Iowa, during the summer of 1935, therefore,

Be It Resolved by the House of Representatives of the Forty-seventh General Assembly, That the Speaker of the House appoint a committee of three to draft suitable resolutions in commemoration of his life, character and service to the county of Osceola, state of Iowa.

Unanimous consent having been obtained for its immediate consideration, Johannes of Osceola moved the adoption of the resolution. The resolution was adopted and the Speaker appointed

Also: That the Senate has adopted the report of the Conference Committee and concurred in the amendments proposed therein to Senate File 184, a bill for an act to encourage acquiring and ownership of homesteads.

WALTER H. BEAM, *Secretary.*

SENATE AMENDMENTS TO HOUSE FILE 61

Amend House File 61 as follows:

By striking out all after the enacting clause and inserting in lieu thereof the following:

"Section 1. Section fifty-nine hundred four-c one (5904-c1), Code of 1935, is amended by striking lines 30 to 36 inclusive of said section of the Code, being the second paragraph of said section, and inserting in lieu thereof the following:

'No such franchise shall be granted, extended or renewed unless a majority of the legal electors voting thereon vote in favor of the same at a general, city or town, or special election called for that purpose.

'The provisions of this Act shall be applicable to cities acting under special charter.'

"Sec. 2. This Act being deemed of immediate importance shall be in full force and effect after its passage and publication in The Anchor, a newspaper published at Northwood, Iowa, and in the Cedar Rapids Tribune, a newspaper published at Cedar Rapids, Iowa."

Further amend House File 61 by amending the title as follows:

By striking from line 6 of the title the following words: "a renewal or extension of" and inserting in lieu thereof the words "renewing or extending"; also, by striking all of line 9 after the word "election" and all of line 10, and by inserting a period after the word "election" in line 9 of the title.

REPORT OF CONFERENCE COMMITTEE ON SENATE FILE 184

MR. PRESIDENT AND MR. SPEAKER: We, the undersigned members of the Conference Committee appointed to consider the differences between the Senate and House on Senate File 184, being a bill relating to homestead tax relief, beg leave to report that we have had the same under consideration and recommend that the House recede from its amendments and that the bill as passed by the Senate be amended as follows, and when so amended the bill do pass:

Amend by adding immediately preceding the enacting clause the following:

"*Whereas*, in the past few years there has developed in the state of Iowa a decided change from owner occupied homes to tenancies; and

"*Whereas*, such change is taking place at a rapid and alarming rate; and

"*Whereas*, the farms especially, as a result of tenant occupancy, have in the past, and will continue in the future, to deteriorate in that sufficient fertilizers and the like have not been put back into the soil to properly preserve it and insure its productivity in the future; and

Digitized by Google

"*Whereas*, this condition is alleviated when the owner occupies said property; and,

"*Whereas*, a healthier and more prosperous condition exists in the state when the owner occupies his own farm or dwelling, and it is for the best interests of the people as a whole when such a condition exists; and,

"*Whereas*, it is the intention of the legislature, and the purpose of this act to encourage and foster home ownership and occupancy; and,

"*Whereas*, this legislature feels that a proper method of encouraging home ownership and occupancy is by granting benefits to those within that class; and

"*Whereas*, it is necessary to appropriate funds for the purpose of emergency relief within the State of Iowa and also for the purpose of old age pensions, both of which are for the general welfare of the people of the State of Iowa, now, therefore,

"This Forty-seventh General Assembly of the State of Iowa does hereby declare that appropriating money for emergency relief and for old age pensions is the expenditure of public funds for a public purpose. Therefore,".

Amend Section 2, line 9, by striking the word "apportioned" and substituting the word "appropriated".

Further amend Section 2, line 20, by striking the word "to" and substituting the word "throughout".

Amend Section 4, sub-section 3, line 2 by inserting immediately following the word "credit" the words "not to exceed twenty-five mills".

Amend Section 4 by adding thereto as sub-section 4, the following: "In any county in which is located a special charter city, which levies and collects its own taxes separately from the county, all millage credits and the amount in dollars thereof on eligible homesteads situated in said city in excess of the consolidated state and county levy by the state and said county for the taxing district in which said city is located, but not in excess of the aggregate levy by said city, shall be certified by the county auditor to the treasurer of said city who shall in turn credit on said city tax lists against the taxes levied by said city on each eligible homestead in said city, said excess millage credits so certified to him in the same manner as herein required to be done by the county auditor on the county tax lists. The county treasurer shall pay to the city treasurer out of the funds apportioned to said county from the Homestead Credit Fund, the amount of said funds so apportioned in excess of the state and county consolidated levy, which shall be applied upon the taxes on eligible homesteads in said city as herein provided. All funds so apportioned in excess of the combined city and consolidated state and county levies for said taxing district exclusive of special assessments shall be remitted to the State Board of Assessment and Review to be re-deposited in the Homestead Credit Fund for re-allocation as provided in this act. The intention and purpose of this provision shall be to allot to each eligible homestead located in such city the same proportionate tax credits received by eligible homesteads in other cities and towns, but this provision shall not be construed in any way to allot to eligible homesteads in such city any greater benefits or credits than eligible homesteads in other cities and towns."

COMMUNICATION FROM THE GOVERNOR

The following communication was received from the Governor:

State of Iowa, Executive Office, Des Moines.
March 19, 1937.

TO THE HONORABLE MEMBERS OF THE HOUSE OF REPRESENTATIVES:

Upon the all important question of Conservation, I wish to convey my conclusions, after much study and research. The President of the United States has forwarded to the Governors of the various states plans for a permanent conservation program and has asked that we consider enabling legislation. I have concluded that the requirements in the original draft

Digitized by Google

are too drastic and ill-advised at this time, and have further been assured by members of the federal departments that Iowa's interests will not be jeopardized by failure to enact such legislation at this session, providing that the state inaugurate a coordinating force to guide the program, when, and if, such state legislation is required. This can be done either by the Interim Committee, or by the limited personnel operating from my office, which has been included in my budget askings for that purpose.

At the present time, Iowa has thirty-seven (37) CCC camps located within its borders, each representing an annual payroll and expenditure by the federal government of two hundred thousand dollars ($200,000.00) per year. Sponsorship money must be provided if we are to retain them. I am advised by Robert Fechner, director of emergency conservation work, and by representatives of the National Park Service, that, while there is to be a reduction in these camps after July first and more drastic restrictions, the program in Iowa is looked upon with favor, and, if we continue the support of this program, we will be enabled to maintain a program quite similar to the one of the last two years.

If the legislature will make an emergency appropriation similar to that made in the Forty-sixth General Assembly and in a similar amount, we can continue the sponsorship of camps and WPA work for the improvement of our parks, lakes and streams. I do not look with favor upon the purchase of many more park areas. But from the fund thus created, we could acquire a substantial acreage of land that has come to county tax bidder sale, which would enable the counties to return the tax money to their treasury.

The acquiring of this land by the state, when in suitable tracts, would afford an ideal location for forestation camps, not only for planting trees where needed, but for treating the land for soil erosion and seeding to permanent grass. A very worthwhile wild game and bird refuge program could be developed on the same land. It would be the objective of this program, finally, to possess land at such price and of such grazing value that it would ultimately return a profit to the state from that use. I consider it highly desirable, in the interests of conservation, sportsmen and the many beneficial effects of retaining C. C. C. camps and according labor for W. P. A. projects, that the legislature consider favorably the renewal of this emergency conservation appropriation.

The recent Supreme Court decision, nullifying the Conservation Board's rules and regulations, creates serious doubts in the minds of sportsmen whether or not the entire state is now open for fishing or permanently closed. The legislature should reenact into law such permanent rules and regulations governing fishing and hunting as in your judgment constitute good law, and I suggest that as a temporary measure you immediately pass an act opening the state for the legalized fishing of trout on April first; the southern half of Iowa for cat fish on April first, and the north half of Iowa on April fifteenth, limiting the size and number as, heretofore, has been the rule. This Act should, also, include definite closing of the state to all other game fish and to all hunting until a permanent law is enacted.

Respectfully submitted,

NELSON G. KRASCHEL.

COMMUNICATION FROM THE DEPARTMENT OF BANKING

The following communication was received from the superintendent of banking:

REPORT OF FINDINGS OF THE STATE BANKING BOARD COVERING SMALL LOAN INDUSTRY 1936

LICENSED SMALL LOAN COMPANIES IN IOWA

In accordance with the provisions of Chapter 419, F-1 of the Code of Iowa, we have through sworn statements made on blanks supplied by our office, conferences, and examinations by our representatives, investigated the "Small Loan" business in Iowa, and respectfully submit the following facts and comments as our Report to the Forty-seventh General Assembly.

* * * * * *

On December 31, 1936, there were 120 licensees—39 licenses issued to individuals and partnerships, 58 licenses issued to Iowa corporations, and 23 licenses issued to out-of-state corporations.

DISTRIBUTION

The offices are distributed as the following tables show:

TABLE NO. I

Cities served by	1 office	2 offices	3 offices	4 offices	5 or more offices
Number of cities	24	6	5	2	7

TABLE NO. II

Offices located in cities with population of	Under 3,000	3,000 to 5,000	5,000 to 10,000	10,000 to 25,000	Over 25,000
Number of offices	4	13	15	24	64

INVESTMENT IN SMALL LOAN BUSINESS

It is recognized that the making of loans under our Small Loan Law is a definite part of our commercial and economic system, and that efficiently managed capital should be attracted to meet the needs of our state.

On December 31, 1936, the total assets employed in the business were $7,883,268.55, which represented $6,890,060.58 unpaid balance on 70,539 loans and $499,681.27 cash on hand and in banks.

The full extent of capital available or the source of all capital can not be definitely determined as many of our licensees operate as individuals and have investments not used in their small loan business, and other licensees are corporations having similar investments or using some of their capital in the business in other states.

The total of assets reported by all licensees as of December 31, 1936, amounted to $16,780,619.89, and represents a distribution of capital as shown by:

TABLE NO. III

Type of Licensee	Number	Total Assets
Individuals & Partnerships	35	$ 988,147.88
Out-of-State Corporations	23	2,236,846.85
Iowa Corporations	44	4,426,708.91
Misc. Companies (whose reports were either incomplete or covered a period of less than one year)	18	231,564.91
Total Assets Used & Useful in Small Loan Business		$ 7,883,268.55
Assets Not Used in Small Loan Businesses		8,897,351.34
Total Assets		$16,780,619.89

The record for 1936 is really the first to fairly and truly represent operation under the provisions of the present law. The law originally passed by the 45th Extra General Assembly was effective March 28, 1934, but was rendered inoperative by Court Injunction until November 1, 1934, and consequently the figures for 1935 included a large volume of business that originated under the former law. The three annual surveys now completed constitute the only authentic and reliable data upon which to base a scientific study of the costs and risks of this industry, as well as the returns that may be anticipated.

CLASSIFICATION OF LOANS

On December 31, 1936, reports 102 licensees used in the 1936 Small Loan Survey and representing 97.1% of the total dollars used in the small loan business showed that there were 69,634 loans with unpaid balances aggregating $6,699,920.69, which makes $96.22 average balance per loan.

TABLE NO. IV

Number of various size loan balances outstanding on December 31, 1936, and per cent of each group to total.

Loan Balance	Number of Loans	Per Cent of Total Group	Per Cent of Total Cumulative
$ 50.00 or less	23,581	44.70	44.70
$ 50.01 to $100.00	20,689	26.75	71.45
$100.01 to $150.00	11,330	14.66	86.11
$150.01 to $200.00	6,646	8.03	94.14
$200.01 to $300.00	7,388	5.86	100.00
	69,634	100.00	

It will be noted that small loans account for a large percentage of loans in numbers, but this does not hold true in dollars as shown by the following table:

TABLE NO. V

Dollar value of various size loan balances outstanding on December 31, 1936, and per cent of each group to total.

Loan Balance	Dollar Value	Per Cent of Total Group	Per Cent of Total Cumulative
$ 50.00 or less	$ 692,264.74	10.33	10.33
$ 50.01 to $100.00	1,558,576.68	23.26	33.59
$100.01 to $150.00	1,413,357.41	21.10	54.69
$150.01 to $200.00	1,165,797.41	17.40	73.09
$200.01 to $300.00	1,869,924.45	27.91	100.00
	$6,699,920.69	100.00	

Digitized by Google

Loans of $50.00 or less constitute 44.7% of the total number, but represent only 10.33% of dollar value, whereas, loans of $200.01 to $300.00 are only 5.85% of the number but represent 27.91% of dollar value. It is also interesting to note that loans of $150.00 or less constitute 86.11% of the number of loans, but employ only 54.69% of the loaned capital.

ANALYSIS OF LOANS

The credit represented by 96.078 loans made during 1936 was extended on the following basis:

TABLE NO. VI

Type of Security Taken	Number	%	Amount Dollars	%
Chattel Mortgages on Household Goods	57,349	59.69	$ 7,443,213.58	62.97
Automobiles	17,745	18.47	2,030,735.34	17.18
Other Chattels	2,417	2.54	295,257.04	2.50
Unsecured Notes	6,996	7.28	818,074.25	6.92
Endorsed and/or Co-maker Notes	3,453	3.59	459,061.98	3.88
Wage Assignments	6,872	7.15	686,418.46	5.81
Other Considerations	1,246	1.30	87,366.46	.74
Totals	96,078	100.00	$11,820,147.11	100.00

With 82.65% of the loans secured by chattel mortgages, it is rather remarkable that in only 652 cases did the companies require possession to enforce payment, and in nearly half of these cases, the property was not in use and was either abandoned or released. In only 26 cases was the property taken when in use without the borrower's consent, and 24 of these were automobiles.

TABLE NO. VII

SUITS AND FORECLOSURES

Suits and Foreclosures	Number of Accounts	Amount Due
Suits for recovery pending at close of previous year	14	$ 881.88
Suits instituted during year	108	12,715.89
Suits on which judgment was secured during year	39	4,268.12
Suits settled before judgment during year	22	1,991.76
Suits pending at close of current year	61	4,586.94

Considering the unusual conditions existing, it is apparent that the extension of small loan credit has been developed scientifically and has reached a point of efficiency that deserves commendation. That the licensees work carefully with the borrowers to avoid foreclosures or suits is shown by the reports of delinquencies:

TABLE NO. VIII

Delinquent Accounts	Number of Accounts	Principal Balance Unpaid

The schedules submitted herewith show the condition of the Small Loan Licensees as of December 31, 1936, and the gross and net of their income, disbursements and earnings for the year of 1936. Schedule "A" indicates that Iowa individuals, partnerships or corporations handle 71.63% and outside corporations account for 28.37% of the total volume and that Iowans hold 80% of the total number of licenses.

The annual reports submitted by licensees indicate progress and advancement during the year. Assets increased $500,000.00 and loans increased $453,000.00. The average size of new loans was $123.03 in comparison with $118.72 in 1935, and the average loan balance due was $96.22 in comparison with $93.14 in 1935, which shows that an increasing percentage of loans made are for larger amounts and consequently come within the lower interest bracket. The average net profit for the year was 6.69% excluding recoveries on loans charged-off as losses in former years and allowing for the payment of interest on borrowed money.

During the year 98,208 new loans were made for a total of $12,049,-267.28, and at the end of the year, the licensees held 71, 675 loans for a total of $6,890,060.58, which indicates a good percentage of liquidation of loan contracts by regular monthly payments. Of the 71,675 loans only 2,790 were delinquent more than 60 days, and only 3,702 borrowers failed to make a principal payment in the month of December. This number was undoubtedly increased by Christmas spending, as our examinations throughout the year show a smaller number of loans upon which interest only is being paid.

One outstanding point is the fact that in connection with all the loans handled during the year only 113 suits were commenced and 22 of these were settled before any court action was had. Only 14 of these cases involved household goods and of these only in one case was the property in use. 54 of the cases were upon loans secured by automobiles and in 30 instances the car was not in use.

In keeping with the statutory provisions the Department is making an annual survey and study of all the items of cost and other phases of the business effecting the interest rate and the classification of loans. These statistical records are becoming increasingly valuable and informative as each year's tabulations are added. The record for 1936 is really the first to fairly and truly represent operation under the provisions of the present law. The law originally passed by the 45th Extra General Assembly was effective March 23, 1934, but was rendered inoperative by Court Injunction until November 1, 1934, and consequently the figures for 1935 included a large volume of business that originated under the former law. The three annual surveys now completed constitute the only authentic and reliable data upon which to base a scientific study of the costs and risks of this industry, as well as the returns that may be anticipated.

Generally speaking the licensees have evidenced a sincere willingness to respect not only the letter of the law but the spirit as well, and with one exception, have promptly complied with every request of the Depart-

Digitized by Google

ment. The one exception is the basis for an action now pending in the District Court and depends upon a legal interpretation of one clause contained in the present Small Loan Act.

During the year only four or five complaints have come to the Department from any borrower, and in each instance a careful investigation disclosed no legal or moral reason for a complaint. No approach would have been made to the Department if the borrower had first given consideration to the provisions of the law and to recognized and established good business practices.

Licensed offices are not required to maintain any permanent record of the occupations of borrowers or the purposes for which money is borrowed, but many offices do keep such records. A compilation of these figures representing more than 50% of all loans made in 1936 follows:

OCCUPATION

Skilled and Semi-skilled Workers	26.42%
Office and Non-manual Workers	11.29
Owners, Managers, Superintendents and Foremen	15,08
Unskilled Workers	20.86
Farmers	5.15
Salesmen	6.80
School Teachers	5.34
Other Professional Persons	3.50
Miscellaneous	1.48
Not Reported	4.08
	100.00%

PURPOSE

Rent	2.78%
Medical, Dental and Hospital Bills	8.75
Business Needs	6.94
Taxes	5.30
Clothing	4.54
Fuel	4.50
Food	3.06
Vacations	3.01
Furnishings	3.29
Repairs and Insurance	6.24
Assist Relatives	2.59
Sundry Overdue Bills	15.22
Real Estate Mortgages and Interest	2.22
Education	1.56
Moving	1.56
Miscellaneous	5.36
Pay Off Other Loans	2.57
Not Reported	8.55
Autos	11.96
	100.00%

Consideration of these tables together with the total number of loans as shown in the third paragraph indicates a distinct field for the Special Credit Agency created under the Small Loan Act. Apparently the need still exists for licensed and supervised lenders and the figures gathered show that this need is being recognized and satisfied.

Therefore, from the examinations and investigations made and the analyzation compiled in the foregoing report, it is the conclusion and

opinion of the Banking Board that the rates of interest permitted to be charged by licensees as provided for in Chapter 419-F 1 of the Code of 1935, should continue for another period, and we recommend such continuation.

Respectfully submitted,

1935, by striking all of Section fifty-two hundred ninety-six-f eighteen (5296-f18) and substituting in lieu thereof the following:

"5296-f18. Procedure with Application. Whenever an application is made for old age assistance, the board shall make an investigation within sixty days through an investigator, and make, in addition, such direct investigation as it deems advisable. After hearing the applicant, if he so requests, if it approves the application, the board shall make a recommendation of the amount of assistance to be allowed; or, if it disapprove, make a recommendation that no assistance be allowed. The board shall promptly send the application to the commission, and, within ninety days from the date of application, shall send its recommendation, and the reason for its decision to the commission with such supporting papers as the commission may require, unless for reasons beyond the board's control which reasons shall be reported.

"Upon receipt of the application and supporting papers, the commission may make such additional investigation as it deems necessary. Should the commission disagree with the board in the latter's recommendation, it shall neither approve nor disapprove said application without a further review to clarify the points of disagreement between the board and commission. In any event, the commission shall make its decision within sixty days of the receipt of the supporting papers, properly prepared and executed, and either aprove and fix an amount of assistance or reject the claim of the applicant; and shall give written notice to the applicant as to the action taken.

"Any applicant or recipient aggrieved by any order or determination of the commission may make application for a review by the commission upon a prescribed form furnished by the county board. Such application shall be sent by registered mail to the superintendent within thirty days of the notice of such rejection or order. Upon receipt of such application for review, the commission shall give at least ten days' notice to said applicant by registered mail of the time and place of a hearing to be held within the county of residence of the applicant. A hearing and full review of said claim shall then be had before said commission or such person or persons designated by the chairman from the membership of the commission or its staff. Following such hearing the commission shall take its final action and notify the applicant in writing.

"An applicant whose application for assistance has been rejected, or a recipient whose certificate for assistance has been canceled, after a review hearing hereinabove provided, within thirty days after notice of such action is given, may appeal from the decision of the commission to the district court of the county in which the applicant or recipient resides, by serving a ten days' notice of such appeal upon the superintendent or upon any member of the commission, in the manner required for the service of an original notice in any civil action. Upon the service of such notice, the commission shall furnish the applicant with a copy of the application and all supporting papers, a transcript of the testimony taken in a hearing, if any, and a copy of its decision.

"The court shall hear said application on its merits and determine whether or not the decision of the commission was in conformity with

"5296-f26. Resident in Institution. While any person receiving assistance is a resident in any charitable, benevolent or fraternal institution, not tax supported, all warrants issued for assistance shall be made payable to the recipient, unless said person has a legally appointed guardian.

"When any such resident is granted assistance, the commission shall notify the governing authority of the institution.

"Any recipient may be privileged to expend a part of the assistance paid him under the provisions of this chapter toward defraying the actual expenses of his residence in a charitable, benevolent or fraternal institution, not tax supported, provided that the commission has approved and that it and its agents are permitted freely to visit and inspect such institution and provided, the charge shall not be so much as to deprive said recipient and resident of such cash as he needs for necessities and incidentals not furnished by said institution."

Sec. 26. Amend Section fifty-two hundred ninety-six-f twenty-seven (5296-f27), Code, 1935, by inserting in line four (4) following the word "for" the words and punctuation "fuel, dental, nursing,".

Sec. 27. Amend Chapter two hundred sixty-six-F one (266-F1), Code, 1935, by striking all of Section fifty-two hundred ninety-six-f twenty-eight (5296-f28) and inserting in lieu thereof the following:

"5296-f28. Incapacity of Applicant or Recipient. If the person applying for or receiving assistance, on the testimony of reputable witnesses, is thought to be incapable of taking care of himself or his money, the board shall complete the investigation as provided elsewhere in this chapter and send such application, investigation, and supporting papers to the commission. When notified by the commission of the conditional approval of said application or the renewal or continuance of a certificate, contingent upon the appointment of a legal guardian, the board shall petition the court for such appointment and shall forward the court record to the commission as notice of the person to whom assistance payments shall be made.

"The application of a person who has been adjudged an incompetent shall be honored only when made by a legally appointed guardian as provided for under the provisions of Section twelve thousand six hundred fourteen (12614), Code, 1935. Upon subsequent investigation all affidavits shall be affirmed by said legal guardian and the person or persons supplying the required information in behalf of said incompetent person.

"All guardianship proceedings in the case of an applicant or recipient shall be carried out without fee or other expense when, in the opinion of

the court, the aged person is unable to assume said expense. At the discretion of the court, such a guardian may serve without bond."

Sec. 28. Amend Chapter two hundred sixty-six-F one (266-F1), Code, 1935, by adding thereto, as Section fifty-two hundred ninety-six-i three (5296-i3), following Section fifty-two hundred ninety-six-f twenty-nine (5296-f29) a new section:

"5296-i3. Confidential Records. All application and records shall be confidential and shall be open to inspection only by persons authorized by the state or the United States in connection with their official duties, or when produced in response to a subpoena issued by a court of competent jurisdiction."

Sec. 29. Amend Section fifty-two hundred ninety-six-f thirty (5296-f30), Code, 1935, by striking the period after the word "suspension" in line seven (7) and adding thereto the following: "and it shall also promptly notify the recipient in writing of such suspension stating in such notice the reason of such suspension and such recipient shall be entitled to a hearing before the board to show cause why such suspension should not be made permanent."

Sec. 30. Amend Chapter two hundred sixty-six-F one (266-F1), Code, 1935, by adding as Section fifty-two hundred ninety-six-i four (5296-i4) and following Section fifty-two hundred ninety-six-f thirty (5296-f30), the following:

"5296-i4. Recovery from Responsible Relatives. If at any time under this act the commission or board finds that any person, municipality, association, society or corporation, as specified under subsection nine (9) of Section fifty-two hundred ninety-six-f twelve (5296-f12) of this chapter, is or was at the time any assistance was paid reasonably able to contribute to the necessary care and support of any recipient without undue hardship, during the continuance of any certificate of assistance, and such person, municipality, association, society or corporation fails or has failed or refused to do so, then, after notice to such person, municipality, association, society or corporation, there shall exist a cause of action for the recovery by the commission, for the state, of double such amount of assistance furnished as was or is in excess of the amount allowed by this chapter."

Sec. 31. Amend Section fifty-two hundred ninety-six-f thirty-one (5296-f31), Code, 1935, by striking all of lines ten (10) to eighteen (18), inclusive, and inserting in lieu thereof the following:

"3. Payment of any forfeited installment grant; or

"4. Aids or abets in the selling or buying, or in any way disposing of the property of any recipient, or his spouse, or both, without the consent of the commission; or

"5. Aids or abets in the selling or buying, or in any way disposing of or concealing the property of any person or his spouse, or both, for the purpose of qualifying or attempting to qualify such person or persons for old age assistance, shall be guilty of a midemeanor and the person guilty thereof, in addition to the punishment for his misdemeanor shall be liable for double that part of the assistance paid which is in excess of the amount allowed by this chapter."

AMENDMENTS FILED

Moore of Woodbury filed the following amendment:

Amend House File 175 by striking all after the enacting clause and insert the following:

Section 1. Chapter five hundred ninety-three (593), Code, 1935, is hereby amended by inserting immediately after Section thirteen thousand two hundred three (13203) the following sections:

"13203-g1. The devices and machines named in Section thirteen thousand two hundred three-g1 (13203-g1), whether used for gambling or not are hereby legalized and shall not be considered illegal under any of the provisions of this Chapter or of the law of the state of Iowa.

13203-g2. The following tax is hereby imposed upon the following machines and devices:

1. Jack pot machines and slot machines without a jack pot, receiving more than one cent a play, which pay in merchandise or cash a larger sum than the sum deposited in such machine to the person who secures a winning combination in any manner in which the machine operates, a tax of one hundred (100) to five hundred (500) dollars, to be determined as hereinafter provided.

2. Pin bill machines with a jack pot, seventy-five (75) to three hundred (300) dollars, to be determined as hereinafter provided.

3. Pin ball machines with no jack pot, five (5) to twenty-five (25) dollars, to be determined as hereinafter provided.

4. Pin ball machines with a score board payoff or without a score board when the house or store in which such machines are located, pays money or merchandise to a person making a high score, a tax of seventy-five (75) cents to three (3) dollars to be determined as hereinafter provided.

5. Pin ball machines used solely for amusement, five (5) dollars to twenty-five dollars.

6. One cent slot machines, paying off to the lucky person in cigarettes or other merchandise, seventy-five cents to three (3) dollars, to be determined as hereinafter provided.

7. All weighing machines a tax of (50) cents.

8. Punch boards, a tax of fifty (50) cents to one (1) dollar to be determined as hereinafter provided.

9. Number jars, a tax of fifty (50) cents to one (1) dollar, to be determined as hereinafter provided.

10. Ticking machines and the telegraph lines leading to said machines, a tax of one hundred (100) to six hundred (600) dollars, to be determined as hereinafter provided.

11. Any machine or devise in which money is deposited in exchange for merchandise or service of any kind, a tax of fifty (50) cents to three (3) dollars, to be determined as hereinafter provided.

13203-g3. When any machine or device described in Section 13203 is used or operated within the city limits of any town or city, such tax as is there provided shall be collected by the city or town treasurer and placed in such fund and used for such purpose as the city or town council shall provide. When any such machine or device is used or operated outside the corporate limits of any city or town, the tax herein provided shall be collected by the county treasurer in the county in which such machine is used and operated, and shall be placed in such fund and used for such purpose as the county board of supervisors shall provide.

13207. In all cases in which the tax imposed by Section thirteen thousand two hundred three-g three (13203-g3) is in a variable amount, the city council and the board of supervisors, as the case may be, shall fix and determine the scale of tax to be imposed upon such device or machine within the minimum and maximum limits fixed in Section thirteen thousand two hundred three-g two (18203-g2), and such tax may be in the flat amount for all such machines, or may vary upon a fixed scale as determined by such board or council, depending upon the location and/or earning power of the machine and/or the type of such machine or device. In no case, however, shall less than the minimum amount prescribed in Section thirteen thousand and two hundred three-g two (13203-g2) be collected.

13203-g5. The tax imposed under the foregoing sections shall be collected by the county or city treasurer, as the case may be, who upon payment of such tax, shall issue a permit authorizing the operation of any such machine or device, which permit shall be issued to the owner or operator of the machine and shall contain on such permit the name of the operator, the type of machine, the name of the manufacturer of the machine, and the serial number of the machine. Such permit shall be in such form as is prescribed by the city council or board of supervisors, as the case may be, and shall be firmly affixed to the machine or device for which the permit is issued. The treasurer shall keep a copy of the permit so issued.

13203-g6. Any person who shall operate any device or machine described in Section thirteen thousand two hundred three-g two (13203-g2),

SENATE AMENDMENTS

Strike all after the enacting clause and insert in lieu thereof the following:

"Section 1. That Section six thousand seven hundred ninety-one (6791), Code, 1935, is amended by striking all of said section following the word 'authorized' in line eleven (11), and substituting in lieu thereof the following: 'unless a majority of the electors voting thereon shall vote in favor of same at a general or special election.'"

Further amend by striking all after the word "act" in line one (1) of the title and inserting in lieu thereof the following: "to amend Section six thousand seven hundred ninety-one (6791), Code, 1935, relating to the granting of franchises in cities acting under special charter, and to require the approval of the electors therefor."

Engel of Scott moved that the House concur in the Senate amendments.

On the question, "Shall the House concur?"
