Definitions:

- 1) State Appropriation: General Fund resources provided to address the needs of salary adjustment.
- 2) Identified Need: Department of Management determination of the need prior to the General Assembly appropriating the funds, based on a comparison of budget and projection per each employee's position.
- 3) Difference: The total surplus or deficit after matching the need to the resources provided.
- 4) Prorate: If this equals 100.0%, resources met or exceeded the need, and the balance reverted. If it is less than 100.0%, resources were less than the total need.
