UI — Pharmacy Building Renovation — RIF

Purpose

This appropriation is for the planning, design, and renovation of the Pharmacy Building on the campus of the University of Iowa (UI). This project will replace a wing of the building that was built in 1961. The new building will feature a number of new learning spaces, classrooms, lecture halls, and meeting rooms. Additional laboratory space will also be included after the renovation.

Funding

The General Assembly initially appropriated a total of \$66.3 million from the Rebuild Iowa Infrastructure Fund. Funding for this project has been amended twice, once in the 2016 Session and again in the 2017 Session. In both cases, funding was shifted to the next fiscal year, but the total funding remained unchanged. A full history of the changes to appropriations and the currently enacted appropriations is below:
