OCIO Rate Adjustments

Purpose and History

The FY 2020 Administration and Regulation Appropriations Act ([House File 759](#)) provided \$1.3 million for an adjustment to appropriations in FY 2020 for technology-related expenditures. The adjustment was based upon a rolling 12-month average of Office of the Chief Information Officer (OCIO) charges for departments. Agency General Fund and Other Fund appropriations reflect the difference between the 12-month average and the updated OCIO rates, resulting in an increased or decreased appropriation, depending on the agency. However, not all State government agencies received an OCIO rate adjustment. The \$1.3 million was appropriated to the Department of Management to distribute to affected agencies in FY 2020. The rate adjustment is built into each agency's base appropriation for each fiscal year thereafter.
