ICN Part III Leases and Maintenance — TRF

Purpose and History

Appropriations for the maintenance and leases of the Part III data circuits of the Iowa Communications Network (ICN) are made to the Department of Education in the infrastructure budget.

Authorization for the construction of the ICN was provided by the 73rd General Assembly in the 1989 Legislative Session. Authorized users of the ICN include higher education entities, K-12 schools, Area Education Agencies (AEAs), State agencies, the National Guard, judicial districts, libraries, hospitals, and agencies of the federal government.

The ICN was built in three phases: Parts I, II, and III. Parts I and II consisted of the installation of State-owned fiberoptic endpoints in each county, the three Regents universities, Iowa Public Television, and the State Capitol Complex, for a total of 104 endpoints. In the 1995 Legislative Session, HF [578](#) (Iowa Communications Network Part III Appropriations Act) proposed connections to a minimum of 474 users to provide communications to public and private school districts, AEAs, and public libraries in the State. The Part III data circuits provide high-speed Internet access and capacity for other data and video services.

Funding for the initial build-out of Part III was provided from the Rebuild Iowa Infrastructure Fund (RIIF), totaling \$81.5 million between FY 1996 and FY 1999. Unlike Part II sites, the Part III circuits are leased by the ICN from private sector providers and require lease payments. As a result, the General Assembly appropriates funds to support the maintenance and lease costs of the Part III connections.

State Funding

Beginning in FY 2000, funding for maintenance and leases of the Part III circuits has been provided from the infrastructure budget, either from the RIIF or the Technology Reinvestment Fund (TRF). Generally, the appropriation for maintenance and leases is \$2.7 million annually. However, the annual costs of the maintenance and leases exceed the amount of the appropriation. To fund the difference, the Department of Education applies to the E-rate Program of the federal Universal Service Fund and uses the State appropriation to draw down federal funding to pay the remaining costs.
