Fiscal Services Division

November 27, 2017

Ground Floor, State Capitol Building

Des Moines, Iowa 50319

515.281.3566

Radio Communication Upgrades — TRF

Purpose

This appropriation will support the replacement of radios for 130 uniformed officers in the Department of Public Safety (DPS). Current radios are 15 years old and will not work with the new interoperable communications systems. The DPS anticipates that new radios will standardize radio communication across the Department and allow operational and interoperable radio communications.

Funding

In estimated FY 2018, \$1.1 million was appropriated from the Technology Reinvestment Fund for this purpose.
