Tax Credit: Biodiesel Production Credit

The Biodiesel Production Credit is available to qualified producers of biodiesel. The credit is equal to \$0.020 per gallon of pure biodiesel produced in the State. A single producer is limited to no more than \$500,000 in production credits each year. The tax credit is paid to the producer by the Department of Revenue through a sales tax refund process. The production credit expires at the end of calendar year (CY) 2024.

Legislative History

As originally enacted in 2011, the Biodiesel Production Credit was available for gallons produced during calendar years 2012 through 2014. The credit equaled \$0.030 for CY 2012, \$0.025 for CY 2013, and \$0.020 for CY 2014. In 2014 legislation, the credit was extended to the end of CY 2018 at a rate of \$0.020 per gallon. In 2016, the \$0.020 per gallon credit was extended to its current sunset date at the end of CY 2024.

The production credit is defined in Iowa Code section [423.4](#)(9) as a sales/use tax refund. However, the biodiesel producer is not required to have had any sales/use tax liability for the year in order to qualify for and redeem the sales/use tax refund. The credit is also allowed to be redeemed through the individual and/or corporate income tax filing process. Claiming the credit requires quarterly filing of form [IA 843](#) with the Department of Revenue.

Tax Credit Review, Usage, and Future Liability

According to the Iowa Biodiesel Board, there are 11 biodiesel plants in Iowa, with a combined annual production capacity of 400.0 million gallons. Actual production in 2021 equaled 340.0 million gallons. For 2021, the credit was allowed on 212.2 million gallons of biodiesel production. Over the 10 calendar years
