Legislative History

The EITC became effective January 1, 1990, in the amount of 5.0% of the federal Earned Income Tax Credit and was initially nonrefundable. Effective January 1, 2007, the amount of the credit was increased to 7.0% and the credit was made refundable.

The EITC was coupled with the federal Earned Income Tax Credit for tax years 2010 through 2012 during the 2011 Legislative Session. For tax years beginning on or after January 1, 2014, the credit was coupled with the increases in the federal Earned Income Tax Credit through tax year 2017. Effective January 1, 2013, the EITC rate was increased to 14.0% of the federal Earned Income Tax Credit and was increased to 15.0% for tax years beginning January 1, 2014. Increases in the federal Earned Income Tax Credit for married households and households with three or more children were made permanent in 2015 for tax years 2018 and later. During the 2018 Legislative Session, the Iowa EITC was coupled with those federal changes.
