

Average Teacher-to-Student Ratios by State 2013-2014

National Average Teacher-to-Student Ratio: 1:15.3

Note: Figures by State represent the ratio of the average number of teachers to students for all public schools. An asterisk after the state abbreviation means the National Education Association salary data was estimated based on prior years' data using standard statistical techniques. See <http://www.nea.org/rankings-and-estimates> for more information.
