The Engineering and Land Surveying Examining Board was created by the General Assembly in 1919. A person cannot practice professional engineering or land surveying without first being registered with the board. The board meets regularly and conducts examinations of applicants for licensure regularly throughout the year.

The law provides that the membership of the board consists of seven members appointed by the Governor and confirmed by the Senate. The board consists of four members who are licensed professional engineers, one member who is a licensed professional land surveyor or a professional engineer who is also a licensed professional land surveyor, and two members who are not licensed professional engineers or licensed professional land surveyors and who shall represent the general public.
