SUMMARY OF LEGISLATION APPROVED BY THE
SECOND REGULAR SESSION OF THE SIXTY-NINTH IOWA GENERAL ASSEMBLY
MEETING IN THE YEAR 1982

Prepared by the Iowa Legislative Service Bureau

This summary of legislation has been prepared for the use of legislators and other interested persons. The summary includes a listing of the chapter number in the Session Laws for each legislative enactment and separate tables that may be used to obtain chapter numbers. The classifications of legislative enactments under specific subject headings and the summary descriptions are the work product of legislative staff personnel. It is recognized that the legislative enactments contained in this summary may logically fall under more than one subject heading in certain instances and some enactments have been cross-referenced to several subject headings.

The effective date of the legislative enactments is July 1, 1982 unless otherwise specified in the bill summary. Information listing the specific effective dates of a number of legislative enactments that became law by publication was not available at the time this publication went to press.

It is believed that the purpose of this compilation--that of providing interested persons with quick reference to legislation enacted in specific areas and generally informing them of the contents and effective date of the legislation--will be served by this publication.

The various Legalizing Acts passed by the 1982 Session are not included in this summary.

The compilation also contains a list of the sections of the Code of Iowa amended or repealed during the 1982 Session.

By Committee on Judiciary. Mandates restitution in all criminal cases except simple misdemeanors under chapter 321. Restitution would be for pecuniary damages suffered by the victims of the offender's criminal activities, and to the extent that the offender is reasonably able to do so to the county where conviction was rendered for court costs, court appointed attorney's fees or the expense of a public defender when applicable.

When no victim has suffered pecuniary damages and the offender is not reasonably able to pay all or part of the court costs, court appointed attorney's fees or the expense of a public defender, the court may require the offender to perform community service work.

At the time of sentencing, the court would order the amount of restitution and the persons to whom restitution must be paid. This order is known as the plan of restitution. Restitution is mandatory while the offender is committed to a penal or correctional facility of the state and is also a condition of probation, work release and parole, with the supervising authority at each of these stages preparing a restitution plan of payment to implement the plan of restitution. The plan of payment would reflect the offender's present circumstances (i.e. income, physical and mental health, education, employment, and family circumstances).

In this regard, the Act provides that when the court is satisfied from a motion for a change of venue and the evidence introduced in support of the motion that such degree of prejudice exists in the county in which the trial is to be had, that there is a substantial likelihood that a fair and impartial trial cannot be preserved with a jury selected from that county, the court can either order that the action be transferred to another county or that the trial jury be impaneled and transferred in from another county. The Act makes provision for the details of the transfer. The Act takes effect July 1, 1983.

These would be violations of those chapters that are not simple misdemeanors. The clerks of the juvenile courts are also to forward copies of adjudications that a child refused to submit to chemical testing under the implied consent law contained in section 321B.3. For purposes of sections relating to cancellation, revocation, and suspension of licenses and permits for the operation of motor vehicles, juvenile court adjudications constitute final convictions of the violations of chapter 321 or 321A. The Director of Transportation must revoke the license or permit of a child adjudicated in any juvenile hearing of having refused to submit to chemical testing. The Act allows the taking of tests to determine the alcoholic content of the blood of juveniles who have been taken into custody for the offense of operating a motor vehicle while under the influence of an alcoholic beverage.

Gives discretionary authority to the Supreme Court after consultation with the Legislative Council, to determine which of the various court rules shall be printed in the Code of Iowa. Presently the law mandates that the Rules of Civil Procedure, Rules of Criminal Procedure, Rules of Appellate Procedure and other rules must be printed in the Code and also in loose-leaf form. These publications duplicate each other to a certain extent and many of the rules printed in the Code have been superseded by other rules ordered by the Court by the time the Code is published. Most rules will be published in the Code, however some will now only be printed in the loose-leaf form.

This Act also specifies the manner in which Code or a supplement to the Code and the Acts (Session Laws) will be cited.

Acts of the Sixty-ninth General Assembly, 1981 Session, chapter 1983, allowed a court under certain circumstances to order a fiduciary to pay a bequest not in excess of four thousand dollars to the parents of a minor without the appointment of a conservator. Similarly this Act allows a minor's parent or other person entitled to the custody of the minor to receive money for the child without the appointment of a conservator if the aggregate sum does not exceed four thousand dollars. The court may also terminate a conservatorship and direct the payment of assets if their aggregate value is not in excess of four thousand dollars. H.F. 2349 (1982 Iowa Acts, Chapter 1053)

By Committee on Judiciary and Law Enforcement. The term "adjusted gross estate" is used in wills and trusts and in prior law was defined in the Internal Revenue Code. The Act also strikes a reference to alienation of affection suits which the Supreme Court has abolished and which was an exception to the privileged communication in this statute.

H.F. 2368 (1982 Iowa Acts, Chapter 1197)

By Committee on Judiciary and Law Enforcement. H.F. 2426 (1982 Iowa Acts, Chapter 1212)

By Committee on Human Resources. Repeals the current Code provisions for involuntary commitment and treatment of substance abusers and replaces the provisions with a new division of chapter 125 which is similar to the involuntary hospitalization procedure in chapter 229 for persons who are seriously mentally impaired.

Authorizes three types of involuntary commitment or treatment for substance abusers: (1) The nonemergency commitment of alleged substance abusers upon application of an interested person; (2) the taking into immediate custody of an alleged substance abuser at the time of application, for a maximum of five days, if the substance abuser is likely to injure himself or herself or other persons if allowed to remain at liberty; (3) the emergency detention of intoxicated or incapacitated persons who have threatened, attempted, or inflicted physical self-harm or harm on others on others and who are likely to inflict physical self-harm or harm on others if not immediately detained.

Requires under the nonemergency and immediate custody commitment procedures notice to the alleged substance abuser; the appointment, in certain cases, of an attorney for both the substance abuser and the applicant; the submission by the alleged substance abuser to a physician's examination prior to the commitment hearing; a full evidentiary commitment hearing held and tried as a civil matter; a court finding by clear and convincing evidence that the person is a substance abuser before the court can order placement at a licensed substance abuse facility for a complete evaluation and appropriate treatment; and the completion of a report of the evaluation within fifteen days. Authorizes the court, upon receipt of the report, to commit the substance abuser to a facility or for outpatient treatment, or to release a person who is not found to require substance abuse treatment or is found not to benefit from treatment.

Involves under the emergency detention procedure the delivery of the intoxicated or incapacitated person to a facility by a peace officer or another person; immediate communication by the administrator of the facility with a magistrate; and a visit and order by the magistrate as soon as possible. Authorizes detention for no longer than 48 hours unless an application is filed for a nonemergency involuntary commitment.

Relates also to the status of an alleged substance abuser during appeal of a commitment order to the Supreme Court; delayed commitment due to a lack of a suitable treatment facility; criminal substance abusers or those charged with crimes; use of judicial hospitalization referees in commitment proceedings, including emergency commitments of substance abusers and seriously mentally impaired persons; rights of persons detained, taken into immediate custody, and committed; confidentiality of commitment records; immunity for certain persons acting in conformity with the commitment law; and Supreme Court rules.

Under 1981 revisions to the Iowa inheritance tax such estates are exempt from taxation.

H.F. 2460 (1982 Iowa Acts, Chapter 1209)

By Committee on Judiciary and Law Enforcement. Allows a child who is at least sixteen years of age to waive the right to representation of counsel, when taken into custody, without the written consent of the child's parents, guardian, or custodian, but only if a good faith effort has been made to notify the child's parents, guardian, or custodian and to inform them of their rights to participate in the juvenile proceedings.

Allows the juvenile court to orally order the placement of a child in a shelter care facility for a period in excess of 48 hours or in a detention facility for a period in excess of 24 hours, if the oral order is entered in writing before the end of the next day.

Requires the maintenance of written records of any complaints received which allege the commission of a delinquent act.

Provides that complaints alleging the commission of serious offenses by children fourteen years of age or older are public records.

Includes restitution to a victim or to the state or public as a specific disposition under an informal adjustment or a consent decree.

Eliminates the personal notice requirement and allows notice of a shelter care or detention hearing to be served in a manner calculated to fairly notify the parties of the time, place, and purpose of the hearing.

Clarifies that the shelter care and detention notice and hearing requirements do not apply to temporary and emergency removals of children under child in need of assistance proceedings.

Provides that dispositional orders entered subsequent to the child attaining the age of seventeen years and six months and prior to the child's eighteenth birthday automatically terminate one year after the date of disposition.

Provides, in cases of informal adjustment, for the disclosure by an intake officer of the name and address of a child who committed a delinquent act to the victim of the act, upon the request of the victim.

Allows the termination of child abuse investigations by the Department of Social Services when the Department receives a fourth report which is spurious, unfounded, or frivolous.

Allows the court to order an alleged sexual offender of a child in the same household to vacate the child's residence upon a showing that probably cause exists to believe that the sexual offense has occurred and that the presence of the alleged sexual offender presents a danger to the child's life or physical, emotional, or mental health. Provides for a hearing on the order to vacate and requires the filing of a petition alleging the child to be a child in need of assistance within three days.

Allows, prior to the adjudication, the commitment to a nonsecure facility for the purpose of an inpatient examination not to exceed fifteen days to determine whether a child is a child in need of assistance, if probably cause exists to believe that the child needs physical or mental treatment, if commitment is necessary to determine by clear and convincing evidence that the child is a child in need of assistance, and if the child's attorney agrees to the commitment. Requires, under certain circumstances, the inclusion of the child's parents, guardian, or custodian in counseling sessions.

Allows the taking and filing by law enforcement agencies of fingerprints and photographs of children at least fourteen years of age who are taken into custody for the commission of a public offense which would be a felony if committed by an adult. Requires notice to a child entering into an informal adjustment or consent decree that fingerprint and photograph files will be permanently retained. Requires the destruction of the files if a petition is not filed and the child has not entered into an informal adjustment or if a petition is filed, and dismissed or suspended, and the child has not entered into an informal adjustment and has not been otherwise adjudicated delinquent.

Provides that juvenile court and law enforcement records of a child adjudicated delinquent for an offense which would be an aggravated misdemeanor or a felony if committed by an adult are not to be sealed unless the court finds that the child has a clean juvenile and criminal record for the past two years and the sealing is in the best interest of the child and the public.

Provides that harassment includes knowingly making a false report of child abuse, which is a simple misdemeanor.

By Committee on State Government. Makes a number of changes in the various public retirement systems. For the Peace Officers' Retirement System, the Act provides that taxable meals are included in the earnable compensation of members and nontaxable meals and uniform cleaning allowances are not, defines average final compensation as the average of a member's earnable compensation over a three-year period rather than a five-year period with an increase in the employee contribution rate of .89%, limits the outside income of disability retirees to one and one-half times rather than one time the compensation of an active member at the same rank before the pension is reduced, and continues benefits for surviving children of all deceased members until the children are 22 years of age if they are full-time students and for life if they are disabled before reaching age 18 and while their parent was an active member of the system retroactive to July 1, 1981.

For the Iowa Public Employees' Retirement System, the Act strikes limitations on common stock investments of moneys in the IPERS fund and substitutes language existing for common stock investments of moneys by life insurance companies, increases contribution rates effective January 1, 1985 to 3.8% for employees and 6.25% for employers, increases the covered wages commencing January 1, 1984 from \$20,000 to \$21,000 and to \$22,000 on January 1, 1986, provides that the five highest years used in computing benefits need not be consecutive, increases the percent of the five-year average covered wage used in computing retirement benefits from 47% to 50%, adds police in towns of less than 8,000 population to the special provisions for early retirement for sheriffs and deputy sheriffs and allows years with both groups to count toward the twenty-five year retirement requirement effective July 1, 1983, provides increased benefits of up to \$30 per month based upon the number of years of service for persons retiring before January 1, 1976 to be financed either from an appropriation or from the IPERS fund depending on the amount of money in the state general fund at the end of the preceding fiscal year.

The increase in contribution rates was item vetoed by the Governor and the benefit increases for pre 1976 retirees will be financed from the IPERS fund because the conditional appropriation was item vetoed.

For the local police and fire retirement systems of cities, the Act defines average final compensation as the average of a member's earnable compensation over a three-year period rather than a five-year period with an increase in the employee contribution rate of .89%, removes the city attorney from the boards of trustees and adds a public member, provides that the city attorney may serve as the legal advisor of a board of trustees at the request of the board, provides that a person who has been a member of both a police and fire department in a city is able to count the total years of employment in the city toward the years of service, limits the outside income of disability retirees to one and one-half times rather than one time the compensation of an active member of the same rank before a pension is reduced, continues benefits for surviving children of all deceased members until the children are 22 years of age if they are full-time students and for life if they are disabled before reaching age 18 and while their parent was an active member of the system, provides for a readjustment of pensions in both July and January, allows the city treasurer to invest funds of retirement systems in any investment authorized for IPERS funds, provides for the initial contribution by a city for a fire or police retirement system, provides language for determining the state's payment to fire or police retirement systems and for former municipal court bailiffs who have remained under the city's police retirement system, and provides that a member who withdrew his or her contributions before July 1, 1972 and had at least 15 years of service is eligible for a pension as well as the spouse of the member.

S.F. 2215 (1982 Iowa Acts, Chapter 1184)

By Committee on State Government. Provides that an employee of the Department of Public Safety or State Conservation Commission who has earned benefits of payment of health or life insurance premiums upon retirement under a collective bargaining agreement will not lose the benefits earned if the employee becomes a manager or supervisor and is no longer covered by the agreement. Provides that an employee of the Department of Public Safety or State Conservation Commission who retires during the next fiscal year is eligible for payment of life or health insurance premiums as provided in the collective bargaining agreement if the employee previously served in a position covered by the agreement. The employee is given credit for the prior service as though it was covered by the agreement.

S.F. 2216 (1982 Iowa Acts, Chapter 1210)

By Committee on State Government. Changes the duties of the Office for Planning and Programming. It creates an Iowa Youth Corps to provide employment for youths aged 14 to 19 in public service jobs, assist youth in securing unsubsidized employment, and encourage youth participation in volunteer community service to be administered by the Office for Planning and Programming. The Division of Municipal Affairs is eliminated from the Office for Planning and Programming. The Commissioner of Public Safety replaces the Director of Municipal Affairs as the State Building Code Commissioner. Excess funds from the Commission on the Aging are transferred to the Energy Policy Council rather than to the Office for Planning and Programming to be used to aid low income elderly in the payment of winter utility bills.

S.F. 2264

See Licenses and Permits. Provides that a volunteer ambulance or rescue squad attendant is not classified as a chauffeur when operating an emergency vehicle.

S.F. 2273 (1982 Iowa Acts, Chapter 1126)

By Committee on Labor and Industrial Relations. Requires the Director of Job Service to collect a temporary emergency tax for any calendar quarter of 1983 of no more than one-tenth of one percent of taxable wages for the calendar quarter, if for the calendar quarter the Department has an outstanding balance of interest accrued on loans received from the federal government for the payment of unemployment compensation benefits. The tax applies to all employers other than government entities, nonprofit organizations, and employers with zero contribution rates. The tax is to be deposited in a special fund in the state treasury separate and distinct from the Unemployment Compensation Trust Fund. The special fund can only be used to repay interest on the federal loans.

Allows the Department of Job Service to require advance payments of contributions for the first calendar quarter of 1983 if the Unemployment Compensation Trust Fund falls below ten times the average weekly benefits paid during four consecutive weeks in that calendar quarter.

Repeals the automatic transfer to the Unemployment Compensation Trust Fund of any balance of \$10,000 or more above \$50,000 in the Special Unemployment Security Contingency Fund.

S.F. 2280

See Corrections. Relates to requirements that offenders perform community service work.

H.F. 84 (1982 Iowa Acts, Chapter 1142)

By Johnson of Linn. Amends the definition of surviving spouse under the fire and police pension systems in chapter 410 of the Code to match the definition of surviving spouse in chapter 411 of the Code. The definition provides that surviving spouse includes a former spouse if a dissolution of marriage decree grants the former spouse rights under the chapter and it also includes a surviving spouse of a marriage contracted after the retirement of a member if the marriage was two or more years in duration and there is no surviving spouse of a marriage contracted before the member's retirement. The Act also strikes language that requires a spouse to be of good moral character in order to receive a pension. It states that pensions provided in the Act commence July 1, 1982 and are not retroactive.

H.F. 2347 (1982 Iowa Acts, Chapter 1030)

By Committee on Labor and Industrial Relations. Amends Iowa's unemployment compensation law to comply with the federal Omnibus Budget Reconciliation Act of 1981 and to clarify Iowa's law as requested by the federal Department of Labor.

It requires the Department of Job Service to work with the Child Support Recovery Unit of the Department of Social Services to withhold and deduct child support obligations from an individual's unemployment compensation benefits. Allows the Recovery Unit and the Department of Job Service to garnish and attach the benefits due the individual.

Requires that benefits not be denied to an individual who is in approved training under the federal Trade Act of 1974, and reduces extended benefits to be received beyond the end of an individual's benefit year by the number of weeks for which the individual received trade readjustment allowances under the federal Act.

Deletes language concerning the national trigger for extended benefits which has been repealed by Congress, and changes the state trigger for extended benefits from four percent to five percent of the rate of insured unemployment.

Requires as a condition for the receipt of extended benefits that an individual receive base period wages equaling or exceeding one and one-half times the individual's wages paid in that quarter of the individual's base period in which the individual's wages were highest. Clarifies language relating to the disqualification for extended benefits, depending on whether an individual's job prospects are good or poor, and relating to the maximum two-week

extended benefit eligibility for individuals filing interstate claims.

The Act takes effect July 1, 1982, except for the change in the state trigger for extended benefits and the attachment-to-the-workforce requirement for extended benefits (one and one-half times the base-period, high-quarter wages) which are effective September 26, 1982.

H.F. 2355 (1982 Iowa Acts, Chapter 1221)

By Committee on Labor and Industrial Relations. Exempts an agricultural employer from the workers' compensation law if the employer's total cash payroll to nonexempt employees amounted to less than \$2500 during the preceding calendar year. Family members of farm operators and farm corporation officers and their family members are generally considered exempt employees and their wages are not counted in computing the \$2500 limit.

Provides that named corporate officers, not to exceed four in number, may elect not to be covered by Iowa's workers' compensation law. Before the election is effective, the corporate officer must sign and the corporation must file with the Industrial Commissioner a witnessed acceptance of exemption. The signing of an acceptance of exemption is not a waiver of any civil rights or remedies, and is not enforceable if it is required as a condition of employment. However, if the acceptance is properly signed and filed, the presumption of negligence in section 87.21 applicable to employers which fail to insure does not apply to the corporation and its officers. A corporation may voluntarily cover an officer by the purchase of workers' compensation insurance specifically covering the officer. The Act takes effect January 1, 1983.

S.F. 474 (1982 Iowa Acts, Chapter 1018)

By Committee on Judiciary. Amends the Iowa law concerning tort liability of local government subdivisions. The Act adds a new section to chapter 613A, which provides that municipal officers and employees are not personally liable for tort claims exempted by section 613A.4 from the liability under the chapter. However, the officers and employees would still be liable for claims of punitive damages as permitted in section 85.20 of the Code. The new section also provides that an officer or employee cannot be held liable for punitive damages unless actual malice or recklessness is proved. It limits when a default judgment can be taken against an employee, officer, or agent of a municipality under chapter 613A. It strikes a definition of "scope of employment" from the section outlining liability for officers and employees of municipalities acting within the scope of their employment. Adds language which precludes liability for decisions made within the discretion of the municipality. The language is similar to the exemption in the State Tort Claims Act. Adds to the municipalities' exemptions from liability by including an exemption similar to section 25A.4 for state tort claims, from liability for punitive damages and an exemption from liability under the chapter to clarify that there is no liability for a municipality's failure to discover a latent defect in an inspection. Imposes the duty upon the municipality to

defend and indemnify its officers. However, there is no indemnity for awards of punitive damages. Likewise, there is no indemnity for willful and wanton acts or omissions and the municipality is entitled to restitution from the officer or employee for such conduct. Throughout the Act "agent" of a municipality is deleted from the amended Code sections.

MOTOR FUEL

S.F. 2091 (1982 Iowa Acts, Chapter 1170)

By Committee on Transportation. Phases out the excise tax break given to gasohol. Under current law, motor fuel has a 13 cents per gallon excise tax but if the motor fuel is mixed with alcohol distilled from agricultural products so that the alcohol mix is at least 10 percent or greater, the excise tax on the mixed motor fuel is 6 cents per gallon. The tax break for gasohol was scheduled to be eliminated on June 30, 1983. Under this Act the reduced excise tax on gasohol applies only if the alcohol contained in the mixture was distilled from agricultural products grown in the United States. The tax break for gasohol is extended through June 30, 1986, but the excise tax on gasohol is raised to 8 cents per gallon on the first day of the month following the month in which the Act becomes effective, and the excise tax on gasohol is raised to 10 cents per gallon on July 1, 1983, to 11 cents per gallon on July 1, 1984, to 12 cents per gallon on July 1, 1985, and 13 cents per gallon on July 1, 1986. By Committee on Natural Resources. Provides for the preparation of county land use inventory and land use plans and the establishment of agricultural areas. Creates a county commission in each county with one member appointed by the county agricultural extension council, two by the district soil conservation commissioner, one by the board of supervisors and one by a convention of mayors and

council persons. Certain larger cities may appoint an additional member. Each county commission is to compile a county land use inventory of the unincorporated areas of the county by January 1, 1984. The inventory is to identify the amount of land in or available for certain uses and the changes in land use in the county since 1960. State agencies are to provide pertinent and available information. By September 1, 1984, the county commission is to either propose a land use plan for the unincorporated areas of the county or transmit certain findings to the board of supervisors. The board may require the submission of a plan and may adopt, modify or reject the plan. Upon adoption, the plan becomes the Land Use Policy of the county and is to be enforced by the county. The creation of agricultural areas by petition of land owners to the county board of supervisors is authorized. The area must encompass at least five hundred acres at its creation. The land in agricultural areas is limited to agricultural use with certain exceptions. Landowners may withdraw from the agricultural area with the approval of the board of supervisors after three years and on their own motion after six years. Within agricultural areas the imposition of benefit assessments or special assessments is limited and farms and farm operations receive limited protection from nuisance suits and receive a water priority. Condemnation by the state of prime farm land in an agricultural area requires a statement of its necessity. State agencies are authorized to establish less restrictive standards for farms and farm operations within agricultural areas. The State Interagency Resource Council, created by executive order, is assigned an information clearinghouse responsibility. A county zoning ordinance which contains the same land use restrictions as provided for agricultural areas will qualify farms and farm operations subject to the ordinance for the benefits provided for agricultural areas. Cities and counties are authorized to adopt zoning ordinances designed to preserve the availability of agricultural land, consider the protection of soil from erosion and encourage efficient urban development patterns.

The Act takes effect January 1, 1983.

H.F. 2171 (1982 Iowa Acts, Chapter 1023)

By Committee on Ways and Means. Updates references to the Internal Revenue Code of 1954 through January 1, 1982 incorporating into the state individual and corporate income tax law and the franchise tax law many of the provisions of the Economic Recovery Act of 1981. Incorporated are the significant provisions such as the accelerated cost recovery system, commonly referred to as ACRS and the provisions relating to individual retirement accounts and the self-employed retirement plans. The deduction allowed under the safe harbor lease provisions of the Internal Revenue Code of 1954 is not allowed in computing state net income. The deduction of interest earned on all-saver certificates permitted under federal law is not a deductible item in computing state net income. The Act increases the rate of tax on corporate taxable income by adding an additional bracket and providing a tax rate of ten percent on taxable income exceeding one hundred thousand dollars and up to two hundred fifty thousand dollars and imposes a tax at the rate of twelve percent on all taxable income in excess of two hundred fifty thousand dollars.(1) The Act imposes a minimum tax on tax preference items equal to twenty-five percent of the federal minimum tax where the federal minimum tax is applicable under the individual and corporate income tax laws and the franchise tax law. The dividend exclusion of one hundred dollars allowed under federal law is applicable for state tax purposes. The marriage penalty deduction

allowed under federal law for a married couple where both persons are wage earners is not allowed in computing state net income.(2) State law also allows a net operating loss to be carried forward for fifteen years.(3) The Act provides that for industrial machinery and equipment and computers acquired on or before December 31, 1981, the taxpayer's valuation is limited to thirty percent of the net acquisition cost of the property. The Act provides for local taxing jurisdictions to be reimbursed for revenues not collected due to the assessments and for the reimbursements to be made by the State Comptroller.(4) Previously, federal law required the recapture of estate tax benefits provided under special use valuation when within fifteen years the property was utilized other than for qualified purposes. The Economic Recovery Act of 1981 reduced the period in which the recapture tax would be imposed from fifteen years to ten years. Corresponding changes are made in the Iowa inheritance tax law.(5)

The Act takes effect as follows: (1) Retroactive to January 1, 1981 for tax years beginning on or after that date. (2) Retroactive to January 1, 1982 for tax years beginning on or after that date. (3) Retroactive to January 1, 1976 for tax years beginning on or after that date. (4) Retroactive to December 31, 1981 for property acquired on or after December 31, 1981. By Committee on Ways and Means. Exempts from property taxation land that is certified by the State Conservation Commission as a wildlife habitat or certified by a county conservation board as native prairie or which fulfills the conditions as a forest reservation. However, forest reservations located within a city which are not open to public use are not exempt from the tax and are taxed at market value. Fruit-tree reservations are assessed at twenty dollars per acre unless they are located within a city and are not open to public use, then they are assessed at market value. Previous law assessed forest and fruit-tree reservations at fourteen dollars and eighty-two cents per acre. Boards of supervisors may grant tax exemptions, subject to a limit, for property which is a wetland, recreational lake, forest cover, river and stream, river and stream bank, or open prairie. To obtain the exemption, an application must be filed each year, except for wetlands, and the owner must not use the land for economic gain. If the board of supervisors grants the exemption, it is for one year, except that the exemption for wetlands is for three years. The Act allows organizations whose primary purpose is the

preservation of land in its natural state to be able to exempt up to three hundred twenty acres in each county. Previous law allowed only three hundred twenty acres in the whole state.

H.F. 2469 (1982 Iowa Acts, Chapter 1110)

By Committee on Transportation. Amends certain sections in chapters 309 and 310 which are concerned with secondary and farm-to-market roads and the respective authority of the county and the State Department of Transportation.

With regard to secondary road construction contracts, the Department is to "review" the contracts if the cost of construction is over \$20,000. The prior law made the contracts subject to the approval of the Department. The definition of "bridge" is changed to allow certain culverts and pipes to be considered as bridges.

With regard to farm-to-market roads, the supervision of the county engineers by the State Department of Transportation is no longer required. Each county engineer is responsible for the efficient, economical, and good-faith performance of the work. Also the State Department of Transportation has been relieved of its duty to place all farm-to-market roads into a proper condition of maintenance if any county fails to properly maintain the roads. Instead the Department may withhold the authorization for letting of any farm-to-market construction project until proper maintenance of a farm-to-market road is restored, but this authority is limited only to the restoration of those farm-to-market roads which are part of the federal aid secondary system. As for farm-to-market road construction projects, they are subject to the approval of the

county board of supervisors and must be submitted to the Department for authorization for letting of bids. If the project is using federal funds and has an estimated cost of over \$1,000, the State Department of Transportation must advertise for bids and make a recommendation to award or reject a contract to the board of supervisors. If the construction project does not include federal funds, the procedure may be reversed and the county board may be authorized to advertise for bids and, subject to concurrence by the Department, award a contract for the construction work.

H.F. 2485 (1982 Iowa Acts, Chapter 1200)

By Committee on Transportation. Provides for "exempt" signs to be posted at abandoned railroad crossings where the tracks have been partially removed on either side of the roadway and allows the driver of a motor vehicle carrying passengers for hire, the driver of a school bus, or the driver of a vehicle carrying hazardous materials to proceed through these abandoned railroad crossings without stopping.

By Committee on Transportation. Provides that combinations of vehicles used exclusively for transporting passenger vehicles, light delivery trucks, panel delivery trucks, pickup trucks, recreational vehicle chassis and boats may have an overall length of the vehicle with load not exceeding sixty-five feet. The load is not allowed to extend over the front and rear bumpers. Revises the law on determining the length of a semitrailer. Deletes the total length limitation and provides for the measurement of semitrailers by the distance between the kingpin and the rearmost axle and limits that length to forty feet. A semitrailer which is a 1980 or older model year which has a distance of more than forty feet between the kingpin and the rearmost axle may be operated on the highways of this state under special permit until such time as the semitrailer is inoperable. Also defines "special truck" to include a truck tractor which is modified by removal of a fifth wheel and carries the full load on the motor truck and which by reason of its conversion becomes a motor truck.

S.F. 2157 (1982 Iowa Acts, Chapter 1075)

When a vehicle is sold, traded, or junked within the state, the seller is entitled to a credit for the unexpired portion of the registration fee, and it must be claimed within thirty days. The county treasurer is granted authority to adjust the expiration dates of vehicles to equalize the number of vehicles registered in each registration period. The Act takes effect December 1, 1983.

H.F. 2334 (1982 Iowa Acts, Chapter 1207)

By Committee on Transportation. Before a railroad, its trustees or successor in interest, may abandon or sell property adjacent to a railroad right-of-way, it must make a written offer to sell to the person holding a lease, a license or a permit upon the property. The price asked for may not exceed its fair market value and any disagreements will be settled by the State Transportation Regulation Authority. A railroad that acquires or has acquired property by means of voluntary grants of real property for the purpose of the operation of the railroad will forfeit the property if it is no longer used for the operation of the railroad. The valuation of railroad property which is owned by a bankrupt railroad or one which is in bankruptcy proceedings is not to be included in the tax base of a taxing district for purposes of computing the property tax levy rate and is not to be included in determining the amount of money to be raised by the school foundation property tax for purposes of computing state aid to school districts. However, this railroad property is still subject to the property tax rate computed for each taxing district in which the property is located. Except for the tax provisions, the Act takes effect _____, 1982 by publication. The tax provisions take effect for the July 1, 1983 Fiscal Year and after.
