

# Road Use Tax Fund County Distributions — FY 2021

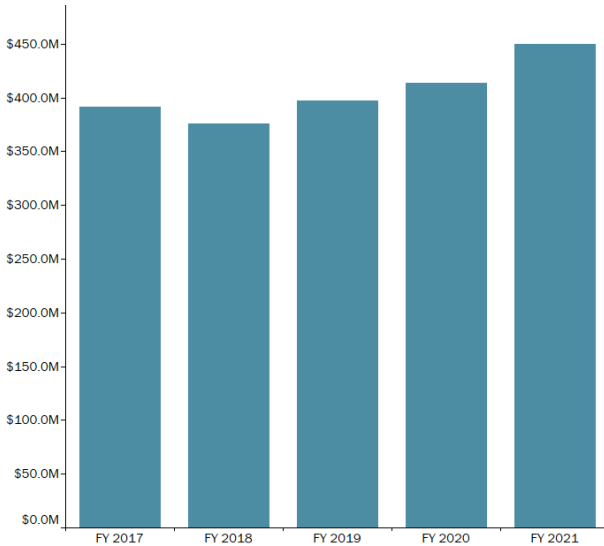

The Secondary Road Fund receives 24.5% of available funding in the Road Use Tax Fund (RUTF) after certain appropriations and statutory allocations are made. Counties also receive funding from the Farm-to-Market Road Fund, which receives 8.0% of RUTF receipts after appropriations and allocations. The Farm-to-Market Road funding is not reflected in this map.

Counties receive distributions from the Secondary Road Fund based upon a formula that considers the area served in the county, rural population, vehicle miles travelled, road surfacing, and the linear feet of bridge deck of all structures.

## Secondary Road Fund Distributions by County

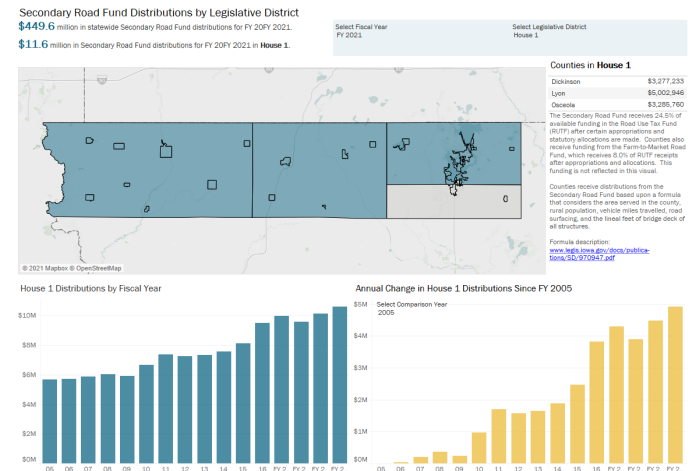

Total Secondary Road Fund Distributions by Fiscal Year

For more detailed information on county and city distributions of the Road Use Tax Fund, see the LSA interactive dashboard:
