

Percent Change in the Acres of Land in Farms

2007 to 2012

Note: The acreage designated as "land in farms" consists primarily of agricultural land used for crops, pasture, or grazing. It also includes woodland and wasteland not actually under cultivation or used for pasture or grazing provided it was part of the farm operator's total operation. Large acreages of woodland or wasteland held for nonagricultural purposes were deleted from individual reports. Land in farms includes CRP, WRP, FWP, and CREP acres.
