ACE Infrastructure — Skilled Worker and Job Creation Fund

Purpose

The ACE Infrastructure appropriation provides funding for capital projects at the community colleges that benefit the Accelerated Career Education (ACE) Program. The ACE Program is funded in large part through job credits from withholding taxes under agreements between the colleges, the Department of Revenue, and employers. The ACE Infrastructure appropriation supplements that amount and funds only projects that meet the statutory definition of vertical infrastructure.

Funding

Since FY 2014, ACE Infrastructure has received annual appropriations of \$6.0 million from the Skilled Worker and Job Creation Fund. Prior to that, the funding was appropriated from a variety of infrastructure funds, including the Rebuild Iowa Infrastructure Fund (RIIF).

Through intent language, the General Assembly specifies that the appropriation be allocated equally among the 15 community colleges and that qualifying projects must include at least one of the following:

- ACE Program capital projects.
- Major renovations and repairs.
