Butchery Innovation and Revitalization Program

Purpose and History

2021 Iowa Acts, chapter [175](#) (Butchery Innovation and Revitalization Program Act), created the Butchery Innovation and Revitalization Fund and Program within the [Iowa Economic Development Authority](#) (IEDA). The Program awards financial assistance to eligible meat processing businesses, licensed custom lockers, and mobile slaughter units. Businesses must be located in the State, not have been the subject of regulatory enforcement within the last five years, employ individuals legally authorized to work in the State, currently not be in bankruptcy, and employ fewer than 75 individuals.

The Act also created an Artisanal Butchery Program Task Force within the [Iowa Department of Agriculture and Land Stewardship](#) (IDALS) for the purpose of exploring the feasibility of establishing an artisanal butchery program at a community college or at an institution governed by the [Iowa Board of Regents](#).

Funding

The Butchery Innovation and Revitalization Program was first funded with a General Fund appropriation of \$750,000 in FY 2022. Since FY 2023, the Program has been funded with a General Fund appropriation of \$633,325 (63.0%) and a Skilled Worker and Job Creation Fund (SWJCF) appropriation of \$366,675 (37.0%).
