Medical Assistance — Hospital Health Care Access Trust Fund

Background

2010 Iowa Acts, [chapter 1135](#) (FY 2011 Health Care Access Assessment Act), created the Hospital Health Care Access Assessment Program and imposed a Hospital Health Care Access Assessment on privately owned hospitals paid on a Prospective Payment System (PPS) basis by Medicare and Medicaid. Revenue received from the assessment is deposited in the Hospital Health Care Access Trust Fund (HHCATF) under the authority of the Department of Health and Human Services (HHS). The moneys in the Fund are used to provide a supplemental appropriation to the Medicaid Program, matched with federal financial participation, intended to increase hospital reimbursement for PPS hospitals to the upper payment limit. This payment, to the extent possible, is intended to offset the cost of the assessment.

Assessment Fee

The hospital assessment is based on 1.26% of net patient revenue, as specified by each hospital's FY 2008 Medicare cost report, and is estimated to collect \$33.9 million annually. Those funds are then appropriated to the Medicaid Program to allow the State to draw a federal match on the funds, resulting in a net increase for Medicaid revenue.
