State Children's Health Insurance Program

Background

The federal Children's Health Insurance Program (CHIP) was established by the federal Balanced Budget Act of 1997 to provide health care coverage to uninsured low-income children, under age 19, living in families with incomes up to 200.0% of the federal poverty level (FPL). Iowa implemented the CHIP through a combination of Medicaid expansion and a new program entitled Healthy and Well Kids in Iowa (Hawki). Medicaid expansion was mandated in HF 2517 (1998 Hawki Program Act), and expanded coverage for children with family income up to 133.0% of the FPL, effective July 1, 1998.

[House File 2517](#) expanded Hawki program coverage to children living in families with incomes between 133.0% and 185.0% of the FPL, effective January 1, 1999. [House File 2555](#) (FY 2001 Tobacco Settlement Fund Appropriations Act) further expanded the Hawki program to provide coverage to children with family incomes ranging from 185.0% to 200.0% of the FPL, effective July 1, 2000.

[House File 2539](#) (FY 2009 Health Care Reform Act) created a Hawki expansion program to cover children with family income up to 300.0% of the FPL beginning in FY 2010, with cost sharing for families with incomes between 200.0% and 300.0% of the FPL.

[Senate File 389](#) (FY 2010 Health Care Omnibus II Act) created a dental-only option to cover children who have private health insurance but limited or no dental coverage. Dental-only coverage is available to children with family income up to 300.0% of the FPL. Medically necessary orthodontia coverage has also been added to the dental coverage, as required by the federal government.

Iowa receives an enhanced Federal Medical Assistance Percentage (FMAP) matching rate for the CHIP of approximately 70.0% annually.
