HVAC Improvements — Primary Road Fund

Purpose and History

Since FY 2006, the General Assembly has made appropriations to improve existing heating, ventilation, and air conditioning (HVAC) systems in the Iowa Department of Transportation (DOT) buildings. The DOT manages 218 field facilities statewide, including 102 maintenance garages. This appropriation replaces exhaust and radiant heating systems that are outdated. In FY 2017, 11 garages utilized the appropriation for improvements to their HVAC systems.

Funding History

Since FY 2008, funding for this appropriation has ranged from \$100,000 to \$700,000. Funding has remained static at \$700,000 per fiscal year since FY 2015. These resources are appropriated from the Primary Road Fund in the annual Transportation Appropriations Act.
