| 166B.4 | Institution of indemnification. | | |

166B.1 Definitions.

As used in this chapter:

1. "*Classical swine fever*" means the contagious, infectious, and communicable disease of swine commonly known as hog cholera.
2. "*Destroy*" means condemn under state authority and slaughter or otherwise kill as a result of or pursuant to such condemnation.

Further definitions; see §159.1

166B.2 General authority.

The department may destroy or require the destruction of any swine which the state veterinarian knows to be, or suspects is, affected with or exposed to classical swine fever, whenever the department finds such destruction to be necessary to prevent or reduce the danger of the spread of classical swine fever. Disposal of condemned swine shall be under the supervision of a regulatory employee. Salvage of apparently healthy marketable swine is permissible as a minimum provision and may be discontinued in favor of total herd disposition with indemnification as necessary and without such salvage in any case or at any time when it is determined by the department and the United States department of agriculture that the procedure would constitute an undue threat to the eradication program. Before being condemned and ordered to be destroyed, a positive diagnosis of classical swine fever affecting the herd must be confirmed by a state or federal laboratory or personnel approved by the department and the United States department of agriculture.

[C66, 71, 73, 75, 77, 79, 81, §166B.2]

The department shall appraise any swine destroyed or ordered destroyed pursuant to this chapter at not to exceed current market value and shall indemnify the owner of such swine in an amount not to exceed two hundred dollars for purebred, inbred or hybrid or breeding swine; and not to exceed one hundred dollars for all other swine, provided that fifty percent or more of all such indemnities are paid by the United States department of agriculture.

[C66, 71, 73, 75, 77, 79, 81, §166B.3]

166B.4 Institution of indemnification.

It is hereby recognized and declared that indemnification for destruction of swine infected with or exposed to classical swine fever is an expression of the public policy of this state but employed only in the final stages of eradication of the disease, or as a means of preventing or minimizing its recurrence. The department shall not therefore institute an initial program of indemnification pursuant to the chapter until it is mutually agreed between the department and the United States department of agriculture that such action is necessary in order to carry out the classical-swine-fever eradication program.

At least ninety percent of swine in the herd must have been on the premises as a part of the herd for at least sixty days prior to testing, or swine in the herd must have been moved or relocated directly from another qualified negative herd. To remain certified, the herd must be retested and recertified each month as provided by the department. The herd shall be recertified when the greater of five head of swine or at least ten percent of the herd's breeding swine react negatively to a test.
 - b. Before being added to the herd, new swine, including swine returning to the herd after contact with nonherd swine, shall be isolated until the new swine react negatively to a test conducted thirty days or more after the swine has been placed in isolation. Swine from a herd of unknown status must react negatively to a test not more than thirty days prior to movement from the herd of unknown status and retested in isolation at least thirty days after movement onto the premises where the qualified negative herd is located.
 - c. Swine from another qualified negative herd may be added without isolation or testing.
 - d. The owner shall make a request to the department for approval or reapproval of a qualified negative herd when the required tests are completed. Upon satisfactory proof that all requirements have been met, the herd shall be recertified by the department.
2. A monitored herd shall be initially certified, recertified, and maintained as follows:
 - a. The herd shall be certified when a statistical sampling of the herd is determined to be noninfected.
 - b. In order to remain certified the herd must be retested and recertified as provided by the department. The herd must be recertified annually.  - a. The herd shall be certified when one hundred percent of breeding swine have reacted negatively to a test. The herd must have been free from infection for thirty days prior to testing. At least ninety percent of swine in the herd must have been on the premises as a part of the herd for at least sixty days prior to testing, or swine in the herd must have been directly moved or relocated from a qualified negative herd or qualified differentiable negative herd. A differentiable vaccine must be administered at intervals in accordance with the package insert for that vaccine. To remain certified, the herd must be retested and recertified as provided by the department. 1. a. A herd cleanup plan shall apply to a herd if feeder pigs are not moved from the herd. The plan shall provide for one of the following:

(1) The testing of all swine capable of being accurately diagnosed with pseudorabies and the removal of infected swine from the herd.

(2) Depopulation.

b. A herd cleanup plan must be implemented as follows:

(1) If the plan provides for the testing and removal of swine, all breeding swine must be tested with a differentiable test and react negatively to the test within fifteen days after the herd is classified by the department as infected. All breeding swine reacting positively to the test must be removed as provided in this section. At least thirty days after removal of the breeding swine reacting positively, all remaining breeding swine must be tested and react negatively to the test. Subsequent testing and removal must be conducted as provided in this subparagraph until all breeding swine react negatively. When all breeding swine are tested and react negatively to the test, the department shall classify the herd as a noninfected herd.

(2) The herd cleanup plan may provide for the relocation of feeder pigs or cull swine. If the plan provides for the relocation of feeder pigs, the plan must provide for the segregation of feeder pigs and identify in writing the approved premises where feeder pigs or cull swine may be relocated upon approval by the department.

2. a. A feeder pig cooperator herd cleanup plan shall apply to a herd if feeder pigs are moved from the herd. The plan shall include all the requirements for a herd cleanup plan. In order to be subject to a feeder pig cooperator herd cleanup plan all of the following conditions must be satisfied:

(2) The production operation must be capable of segregating offspring at weaning into facilities separate and apart from the remainder of the herd.

b. The feeder pig cooperator herd cleanup plan may provide for the movement or relocation of feeder pigs or cull swine. If the feeder pig cooperator herd cleanup plan provides for the movement or relocation of feeder pigs or cull swine, the plan must identify in writing the approved premises where the feeder pigs or cull swine may be moved or relocated as provided in section 166D.10B.

3. Costs of testing and vaccination may be paid as provided in section 166D.11.

5. Swine which are part of a herd subject to a cleanup plan shall only be moved or relocated as required pursuant to section 166D.10. If the location where the herd is kept is an approved premises as provided in section 166D.10B, the cleanup plan shall include terms and conditions for being certified as an approved premises.

The disinfectant shall be approved by the department or inspection service. The premises must have been maintained free of swine for thirty days. However, the epidemiologist for good cause may determine that premises shall be maintained free of swine for a period greater or less than thirty days.

b. Swine reacting positively to a test have been removed from the premises. Remaining swine, except suckling pigs, must be tested and react negatively to the test thirty days or more after removal of the herd's swine reacting positively to the test.

c. The swine reacting positively to a test have been removed from the premises. At least thirty days after removal of the positive swine, breeding swine remaining plus a random sample equaling twenty-eight of grower-finishing swine more than two months of age must react negatively to the test. While the state is in stage III or IV of the national pseudorabies program pursuant to federal regulations, the grower-finisher swine must react negatively to a test at least thirty days after reacting negatively to the last test.

3. a. While the state is classified in stage I, II, or III of the national pseudorabies program pursuant to federal regulations, the following requirements must be satisfied:

(1) All swine present on the date the quarantine was imposed have been removed.

(2) There must have been no clinical signs of pseudorabies in the herd for at least six months.

board to effectively supervise the practice of veterinary medicine and are to be construed liberally to accomplish this objective.

9. A person who provides veterinary medical services, owns a veterinary clinic, or practices in this state shall obtain a certificate from the board and be subject to the same standards of conduct, as provided in this chapter and rules adopted by the board, as apply to a licensed veterinarian, unless the board determines that the same standards of conduct are inapplicable. The board shall issue, renew, or deny a certificate; adopt rules relating to the standards of conduct; and take disciplinary action against the person, including suspension or revocation of a certificate, in accordance with the procedures established in section 169.14. For the fiscal year beginning July 1, 2001, and ending June 30, 2002, notwithstanding section 8.33, fees which remain unexpended at the end of the fiscal year shall not revert to the general fund of the state but shall be available for use for the following fiscal year to administer the program. For the fiscal year beginning July 1, 2002, and succeeding fiscal years, certification fees shall be deposited in the general fund of the state and are appropriated to the department to administer the certification provisions of this subsection. This subsection shall not apply to an animal shelter, as defined in section 162.2, that provides veterinary medical services to animals in the custody of the shelter.

10. The department shall furnish the board with all articles and supplies required for the public use and necessary to enable the board to perform the duties imposed upon it by law. Such articles and supplies shall be obtained by the department in the same manner in which the regular supplies for the department are obtained, and the department shall assess the costs to the board for such articles and supplies. The board shall also reimburse the department for direct and indirect administrative costs incurred in issuing and renewing the licenses.

1. The board shall hold at least one examination during each year and may hold such additional examinations as it deems necessary. The secretary shall give public notice of the time and place for each examination at least ninety days in advance of the date set for the examination. A person desiring to take an examination shall make application at least thirty days before the date of the examination.

2. The preparation, administration, and grading of examinations shall be governed by rules prescribed by the board. Examinations shall be designed to test the examinee's knowledge of and proficiency in the subjects and techniques commonly taught in veterinary schools. To pass the examination, the examinee must demonstrate scientific and practical knowledge sufficient to establish competency to practice veterinary medicine in the judgment of the board. All examinees shall be tested by a written examination, supplemented by such oral interviews and practical demonstrations as the board may deem necessary. The board may adopt and use the examination prepared by the national board of veterinary examiners as a part of the examination given to examinees.

3. After each examination, the board shall notify each examinee of the examination result, and the board shall issue licenses to the individuals successfully completing the examination. The board shall record the new licenses and issue a certificate of registration to the new licensees. Any individual failing an examination shall be admitted to any subsequent examination on payment of the application fee.

4. In all written examinations the identity of the individual taking the same shall not be disclosed upon the examination papers in such a way as to enable the members of the examining board to know by whom written until after the papers have been passed upon.

1. To a qualified applicant for license pending examination and the temporary permit shall expire the day after the notice of results of the first examination given after the permit is issued. The temporary permit holder should keep the secretary continually advised of the permit holder's current address.

2. To a nonresident veterinarian validly licensed in another state, territory, or district of the United States or a foreign country who pays the fee established and published by the board. Such temporary permit shall be issued for a period of no more than one hundred eighty days and no more than one permit shall be issued to a person during each calendar year.

[C79, 81, §169.11]

169.12 License renewal.

1. All licenses shall expire in multiyear intervals as determined by the board but may be renewed by registration with the board and payment of the registration renewal fee established and published by the board. Prior to expiration the secretary shall mail a notice to each licensed veterinarian that the license will expire and provide the licensee with a form for registration.

2. Any person who shall practice veterinary medicine after license expiration is practicing in violation of this chapter. However, a person may renew an expired license within five years

of the date of its expiration by making written application for renewal and paying the current renewal fee plus all delinquent renewal fees. After five years have elapsed since the date of expiration, a license may not be renewed, and the holder must make application for a new license and take the license examination.

3. The board may by rule waive the payment of the registration renewal fee of a licensed veterinarian during the period when the veterinarian is on active duty with any branch of the armed services of the United States.

4. Any licensee who is desirous of changing residence to another state or territory shall, upon application to the department and payment of the legal fee, receive a certified statement that the licensee is a duly licensed practitioner in this state.

169.13 Discipline of licensees.

1. The board of veterinary medicine, after due notice and hearing, may revoke or suspend a license to practice veterinary medicine if it determines that a veterinarian licensed to practice veterinary medicine is guilty of any of the following acts or offenses:

a. Knowingly making misleading, deceptive, untrue, or fraudulent representation in the practice of the profession.

b. Being convicted of a felony in the courts of this state or another state, territory, or country. Conviction as used in this paragraph includes a conviction of an offense which if committed in this state would be deemed a felony without regard to its designation elsewhere, or a criminal proceeding in which a finding or verdict of guilt is made or returned, but the adjudication or guilt is either withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state is conclusive evidence.

c. Violating a statute or law of this state, another state, or the United States, without regard to its designation as either felony or misdemeanor, which statute or law relates to the practice of veterinary medicine.

d. Having the person's license to practice veterinary medicine revoked or suspended, or having other disciplinary action taken by a licensing authority of another state, territory, or country. A certified copy of the record or order of suspension, revocation, or disciplinary action is conclusive or prima facie evidence.

e. Knowingly aiding, assisting, procuring, or advising a person to unlawfully practice veterinary medicine.

f. Being adjudged mentally incompetent by a court of competent jurisdiction. The adjudication shall automatically suspend a license for the duration of the license unless the board orders otherwise.

g. Being guilty of a willful or repeated departure from, or the failure to conform to, the minimal standard of acceptable and prevailing practice of veterinary medicine as defined in rules adopted by the board, in which proceeding actual injury to an animal need not be established; or the committing by a veterinarian of an act contrary to honesty, justice, or good morals, whether the act is committed in the course of the practice or otherwise, and whether committed within or without this state.

h. Inability to practice veterinary medicine with reasonable skill and safety by reason of illness, drunkenness, excessive use of drugs, narcotics, chemicals, or other type of material or as a result of a mental or physical condition.

i. Willful or repeated violation of lawful rules adopted by the board or violation of a lawful order of the board, previously entered by the board in a disciplinary hearing.

2. a. The board, upon probable cause, may compel a veterinarian to submit to a mental or physical examination by designated physicians. Failure of a veterinarian to submit to an examination constitutes an admission to the allegations made against that veterinarian and the finding of fact and decision of the board may be entered without the taking of testimony or presentation of evidence. At reasonable intervals, a veterinarian shall be afforded an

opportunity to demonstrate that the veterinarian can resume the competent practice of veterinary medicine with reasonable skill and safety to animals.

b. A person licensed to practice veterinary medicine who makes application for the renewal of the person's license as required by section 169.12 gives consent to submit to a mental or physical examination as provided by this paragraph when directed in writing by the board. All objections shall be waived as to the admissibility of the examining physician's testimony or examination reports on the grounds that they constitute privileged communication. The medical testimony or examination reports shall not be used against a veterinarian in another proceeding and are confidential except for other actions filed against a veterinarian to revoke or suspend that person's license.

[S13, §2538-e; C24, 27, 31, 35, 39, §2799; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, §169.36; C79, 81, §169.13]

169.14 Procedure for suspension or revocation.

A proceeding for the revocation or suspension of a license to practice veterinary medicine or to discipline a person licensed to practice veterinary medicine shall be substantially in accord with the following:

1. The board, upon its own motion or upon a verified complaint in writing, may request the department of inspections, appeals, and licensing to conduct an investigation of the charges contained in the complaint. The department of inspections, appeals, and licensing shall report its findings to the board, and the board may issue an order fixing the time and place for hearing if a hearing is deemed warranted. A written notice of the time and place of the hearing, together with a statement of the charges, shall be served upon the licensee at least ten days before the hearing in the manner required for the service of notice of the commencement of an ordinary action.

2. If the licensee has left the state, the notice and statement of the charges shall be so served at least twenty days before the date of the hearing, wherever the licensee may be found. If the whereabouts of the licensee is unknown, service may be had by publication as provided in the rules of civil procedure upon filing the affidavit required by those rules. If the licensee fails to appear either in person or by counsel at the time and place designated in the notice, the board shall proceed with the hearing.

3. The hearing shall be before a member or members designated by the board or before an administrative law judge appointed by the board according to the requirements of section 17A.11, subsection 1. The presiding board member or administrative law judge may issue subpoenas, administer oaths, and take or cause depositions to be taken in connection with the hearing. The member or officer shall issue subpoenas at the request and on behalf of the licensee.

4. A mechanized or stenographic record of the proceedings shall be kept. The licensee shall be given the opportunity to appear personally and by attorney, with the right to produce evidence in one's own behalf, to examine and cross-examine witnesses, and to examine documentary evidence produced against the licensee.

5. If a person refuses to obey a subpoena issued by the presiding member or administrative law judge or to answer a proper question put to that person during the hearing, the presiding member or administrative law judge may invoke the aid of a court of competent jurisdiction in requiring the attendance and testimony of that person and the production of papers. A failure to obey the order of the court may be punished by the court as a civil contempt may be punished.

6. Unless the hearing is before the entire board, a transcript of the proceeding, together with exhibits presented, shall be considered by the entire board at the earliest practicable time. The licensee and attorney shall be given the opportunity to appear personally to present the licensee's position and arguments to the board. The board shall determine the charge upon the merits on the basis of the evidence in the record before it.

7. Upon three members of the board voting in favor of finding the licensee guilty of an act

or offense specified in section 169.13, the board shall prepare written findings of fact and its decision imposing one or more of the following disciplinary measures:

a. Suspend the license to practice veterinary medicine for a period to be determined by the board.

b. Revoke the license to practice veterinary medicine.

c. Suspend imposition of judgment and penalty or impose the judgment and penalty, but suspend enforcement and place the veterinarian on probation. The probation ordered may be vacated upon noncompliance. The board may restore and reissue a license to practice veterinary medicine, and may impose a disciplinary or corrective measure which it might originally have imposed.

8. Judicial review of the board's action may be sought in accordance with chapter 17A.

9. The filing of a petition for review does not in itself stay execution or enforcement of board action. Upon application, the board or the review court, in appropriate cases, may order a stay pending the outcome of the review proceedings.

2. A person who shall practice veterinary medicine without a currently valid license or temporary permit shall not receive any compensation for services so rendered.

3. The county attorney of the county in which any violation of this chapter occurs shall conduct the necessary prosecution for such violation. Notwithstanding this provision, the board of veterinary medicine or any citizen of this state may bring an action to enjoin any

person from practicing veterinary medicine without a currently valid license or temporary permit. The action brought to restrain a person from engaging in the practice of veterinary medicine without possessing a license shall be brought in the name of the state of Iowa. If the court finds that the individual is violating or threatening to violate this chapter it shall enter an injunction restraining the individual from such unlawful acts.

1. a. If livestock trespasses upon a landowner’s land or the landowner takes custody of the livestock, the landowner shall deliver notice of the trespass or custody to the livestock owner within forty-eight hours following discovery of the trespass or taking custody of livestock which has not trespassed. If a local authority takes custody of the livestock, the local authority shall deliver notice of the custody to the livestock owner within forty-eight hours after taking custody of the livestock. A livestock owner shall not be liable for damages incurred by a landowner if the livestock trespassed through a fence that was not maintained by the landowner as required pursuant to chapter 359A.

The aggrieved party or livestock owner must bring the action within thirty days following receipt or publication of the notice as required by section 169C.3. The court may join all other claims arising out of the same facts that are alleged in the claim for damages. The civil action may be heard by a district judge or a district associate judge. The civil action may be heard by the district court sitting in small claims as provided in chapter 631.

c. If the livestock is in the custody of an aggrieved party or livestock care provider, a rebuttable presumption arises that the livestock has trespassed or strayed from the control of the livestock owner. The rebuttable presumption shall not apply if a criminal charge has been filed involving the removal or transfer of the livestock. The burden of proof regarding all other matters of dispute shall be on the aggrieved party.

d. The failure of an aggrieved party to provide notice as required by section 169C.3 shall not bar the aggrieved party from being awarded a judgment, if the court determines that the livestock owner had actual knowledge that the livestock had trespassed or strayed and the name and address of the aggrieved party.

2. If a civil action is brought by the livestock owner or aggrieved party, the matter shall be heard by a court on an expedited basis. The aggrieved party shall provide for the transfer of the livestock to the livestock owner, if the livestock owner posts a bond or other security with the court in the amount of the aggrieved party's claim. 3. If a civil action is not timely brought as provided in this section, title to the livestock shall transfer to the aggrieved party thirty days following receipt of the notice by the livestock

owner or the first date of the notice's publication as required pursuant to section 169C.3, if the parties fail to agree to the amount, terms, or conditions of payment or if the identity of the livestock owner cannot be determined. Title to the livestock shall transfer subject to any applicable security interests or liens.

4. A landowner is liable to the livestock owner for twice the fair market value of livestock that the landowner transfers to a person other than a local authority in violation of section 169C.2.

97 Acts, ch 57, §5

169C.6 Habitual trespass.

A habitual trespass occurs when livestock trespasses from the land where the livestock are kept onto the land of a neighboring landowner or strays from the land where the livestock are kept onto a public road, and on three or more separate occasions within the prior twelve-month period the same or different livestock kept on that land have trespassed onto the land of the same neighboring landowner or strayed from the land where the livestock are kept onto the same public road.

1. The local authority upon its own initiative or upon receipt of a complaint shall determine whether livestock are trespassing or straying from the land where the livestock are kept onto a public road, and make a record of its findings.

2. *a.* Once a habitual trespass occurs, a neighboring landowner may request that the responsible landowner of the land where the trespassing or stray livestock are kept erect or maintain a fence on the land. The neighboring landowner shall make the request to the responsible landowner in writing. The responsible landowner may compel an adjacent landowner to contribute to the erection or maintenance of the fence as provided in chapter 359A.

b. If the responsible landowner does not erect or maintain a fence within thirty days after receiving the request, the neighboring landowner may apply to the fence viewers as provided in chapter 359A as if the matter were a controversy between the responsible landowner and an adjacent landowner, and the matter shall be resolved by an order issued by the fence viewers, subject to appeal, as provided in chapter 359A. The neighboring landowner shall be a party to the controversy as if the neighboring party were an adjacent landowner. The neighboring landowner is not liable for erecting or maintaining the fence, unless the neighboring landowner is an adjacent landowner who is otherwise required to make a contribution under chapter 359A.

3. If the fence is not erected or maintained as required in section 359A.6, and upon the written request of the board of township trustees, the board of supervisors of the county where the fence is to be erected or maintained shall act in the same manner as the board of township trustees under that section, including by erecting or maintaining the fence, ordering payment from a defaulted party, and certifying an amount due to the county treasurer in the same manner as in section 359A.6. The amount due shall include the total costs required to erect or maintain the fence and a penalty equal to five percent of the total costs. The amount shall be placed upon the county system and collected in the same manner as ordinary taxes. Upon certification to the county treasurer, the amount assessed shall be a lien on the parcel until paid.

The application shall state the nature of the business, the municipal corporation, township and county, the post office address at which the business is to be conducted, and such additional information as the department may prescribe.

2. The applicant upon satisfying the department of the applicant’s character and good faith in seeking to engage in such business and upon complying with such other requirements

[C73, 75, 77, 79, 81, §172A.3]

172A.4 Proof of financial responsibility required.

1. A license shall not be issued by the secretary to a dealer or broker until the applicant has furnished proof of financial responsibility as provided in this section. The proof may be in the following forms:

a. (1) A bond of a surety company authorized to do business in the state of Iowa in the form prescribed by and to the satisfaction of the secretary, conditioned for the payment of a judgment against the applicant furnishing the bond because of nonpayment of obligations in connection with the purchase of animals.

(a) The amount of bond for an established dealer or broker who does not maintain a business location in this state shall be not less than the nearest multiple of five thousand dollars above twice the average daily value of purchases of livestock originating in this state, handled by such applicant during the preceding twelve months or such parts thereof as the applicant was purchasing livestock. The bond of a person who does not maintain a business location in this state shall be conditioned for the payment only of those claims which arise from purchases of livestock originating in this state.

(b) The amount of bond for an established dealer or broker who maintains one or more business locations in this state shall be not less than the nearest multiple of five thousand dollars above twice the average daily value of purchases of livestock originating in this state handled by the applicant during the preceding twelve months or such parts thereof as the applicant was purchasing livestock. The bond of a person who maintains one or more business locations in this state shall be conditioned for the payment only of those claims which arise from purchases of livestock originating in this state.

(c) If a new dealer or broker not previously covered by this chapter applies for a license, the amount of bond shall be based on twice the estimated average daily value of purchases of livestock originating in this state.

(d) For the purpose of computing average daily value, two hundred sixty is deemed the number of business days in a year.

(e) Whenever a dealer or broker's weekly purchases exceed one hundred fifty percent of the dealer's or broker's average weekly volume, the department shall require additional bond in an amount determined by the department.

(2) The licensee and surety of the bond shall be held and firmly bound unto the secretary as trustee for all persons who may be damaged because of nonpayment of obligations in connection with the purchase of animals originating in this state. Any person damaged because of such nonpayment may maintain suit in the person's own behalf to recover on the bond, even though not named as a party to the bond.

(3) For purposes of this paragraph "a", "*purchases of livestock originating in this state*" shall not include purchases by dealers or brokers from their subsidiaries.

b. A bond equivalent may be filed in lieu of a bond. The bond equivalent shall be in the form of a trust agreement and the fund of the trust shall be in the form of fully negotiable obligations of the United States or certificates of deposit insured by the federal deposit insurance corporation or the federal savings and loan insurance corporation.

(1) The trust agreement shall be in the form prescribed by the secretary and executed to the satisfaction of the secretary. The trustee of the trust agreement shall be an institution located in this state in which the funds are invested or deposited.

(2) The trust agreement shall provide as beneficiary, the secretary for the benefit of those persons damaged because of nonpayment of obligations in connection with the purchase of animals originating in this state. The fund in trust shall be an amount calculated in the exact manner as provided in paragraph "a". The fund in trust shall not be subject to attachment for any other claim, or to levy of execution upon a judgment based on any other claim.

c. A person who is not a resident of this state and who either maintains no business location in this state or maintains one or more business locations in this state, and a person who is a resident of this state and who maintains more than one business location in this

state, may submit a consolidated proof of financial responsibility. The consolidated proof of financial responsibility shall consist of a bond or a trust agreement meeting all of the requirements of this section, except that the calculation of the amount of the bond or the amount of the trust fund shall be based on the average daily value of all purchases of livestock originating in this state. A person who submits consolidated proof of financial responsibility shall maintain separate records for each business location, and shall maintain such other records respecting purchases of livestock as the secretary by rule shall prescribe.

2. a. Any person damaged by nonpayment of obligations or by any misrepresentation or fraud on the part of a broker or dealer may maintain an action against the broker or dealer, and the sureties on the bonds or the trustee of a trust fund. The aggregate liability of the sureties or the trust for all such damage shall not exceed the amount of the bond or trust. In the event that the aggregate claims exceed the total amount of the bond or trust, the amount payable on account of any claim shall be in the same proportion to the amount of the bond or trust as the individual claim bears to the aggregate claims.

b. Unless the person damaged files claim with the dealer or broker, and with the sureties or trustee, and with the department within ninety days after the date of the transaction on which the claim is based, the claimant shall be barred from maintaining an action on the bond or trust and from receiving any proceeds from the bond or trust.

3. Whenever the secretary determines that the business volume of the applicant or licensee is such as to render the bond or trust inadequate, the amount of the bond or trust shall be, upon notice, adjusted.

4. All bonds and trust agreements shall contain a provision requiring that at least thirty days' prior notice in writing be given to the secretary by the party terminating the bond or trust agreement as a condition precedent to termination.

5. a. Whenever a bond or a trust agreement is to be terminated by a cancellation by the surety or trustee, the secretary shall cause to be published notices of the proposed cancellation not less than ten days prior to the date the cancellation is effective. The notices shall be published as follows:

(1) In the Iowa administrative code.

(2) In a newspaper of general circulation in the county in which the licensee maintains a business location, or if the licensee maintains no business location in this state, then in the county where the licensee transacts a substantial part of the licensee's business.

(3) By general news release to all news media. Failure by the secretary to cause the publication of notice as required by this subparagraph shall not be deemed to prevent or delay the cancellation.

b. The termination of a bond or a trust agreement shall not release the parties from any liability arising out of the facts or transactions occurring prior to the termination date.

c. Trust funds shall not be withdrawn from trust by a licensee until the expiration of ninety days after the date of termination of the trust, and then only if no claims secured by the agreement have been filed with the secretary. If any claims have been filed with the secretary, the withdrawal of funds by the licensee shall not be permitted until the claims have been satisfied or released and evidence of the satisfaction or release filed with the secretary.

For the purpose of this subsection, "wire transfer" means any telephonic, telegraphic, electronic, or similar communication between the bank of the purchaser and the bank of the seller which results in the transfer of funds or credits of the purchaser to an account of the seller.

The officer may require the person to move the vehicle to a place determined by the officer, or the officer may make other provisions for the vehicle and the livestock, as the officer shall determine. If the owner of the livestock is not available, the officer is authorized to incur reasonable expense for the care of the livestock which expense shall be charged to and paid by the owner of the livestock.

174.17 Issuance of revenue bonds — standby tax levy.

1. The governing body of a fair may issue bonds payable from revenue generated by the operations of the fair event and the use or rental of the real and personal property owned or leased by the fair. The governing body of a fair shall comply with all of the following procedures in issuing such bonds:

a. A fair may institute proceedings for the issuance of bonds by causing a notice of the proposal to issue the bonds to be published at least once in a newspaper of general circulation within the county at least ten days prior to the meeting at which the fair proposes to take action for the issuance of the bonds. The notice shall include a statement of the amount and purpose of the bonds, the maximum rate of interest the bonds are to bear, and the right to petition for an election.

b. If at any time before the date fixed for taking action for the issuance of the bonds, a petition signed by three percent of the registered voters of the county is filed with the board of supervisors, asking that the question of issuing the bonds be submitted to the registered voters, the board of supervisors shall either by resolution declare the proposal to issue the bonds to have been abandoned or shall direct the county commissioner of elections to call a special election upon the question of issuing the bonds. The proposition of issuing bonds under this subsection is not approved unless the vote in favor of the proposition is equal to at least sixty percent of the vote cast. If a petition is not filed, or if a petition is filed and the proposition of issuing the bonds is approved at an election, the board of supervisors acting on behalf of the fair may proceed with the authorization and issuance of the bonds. Bonds may be issued for the purpose of refunding outstanding and previously issued bonds under this subsection without otherwise complying with the provisions of this subsection.

c. All bonds issued under this subsection shall be payable solely from and shall be secured by an irrevocable pledge of a sufficient portion of the net rents, profits, and income derived from the operation of the fair event and the use or rental of the real and personal property owned or leased by the fair. Bonds issued pursuant to this section shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction, and shall not be subject to the provisions of any other law or charter relating to the authorization, issuance, or sale of bonds. Bonds issued under this subsection shall not limit or restrict the authority of the fair as otherwise provided by law.

2. To further secure the payment of the bonds, the board of supervisors may, by resolution, provide for the assessment of an annual levy of a standby tax upon all taxable property within the county. A copy of the resolution shall be sent to the county auditor. The revenues from the

standby tax shall be deposited in a special fund and shall be expended only for the payment of principal of and interest on the bonds issued as provided in this section, when the receipt of revenues pursuant to subsection 1 is insufficient to pay the principal and interest. If payments are necessary and made from the special fund, the amount of the payments shall be promptly repaid into the special fund from the first available revenues received which are not required for the payment of principal of or interest on bonds due. Reserves shall not be built up in the special fund in anticipation of a projected default. The board of supervisors shall adjust the annual standby tax levy for each year to reflect the amount of revenues in the special fund and the amount of principal and interest which is due in that year.

3. In order for the governing body of a fair to issue bonds under this section, the governing body must conduct a fair event that has a verifiable annual attendance of at least one hundred fifty thousand persons and annual outside gate admission revenues of at least four hundred thousand dollars.

such plants or plant products have been officially inspected and a certificate issued by an inspector of the state entomologist's office stating that such plants or plant products have been inspected and found to be apparently free from dangerously injurious insect pests and diseases, and giving any other facts provided for in the rules. For the issuance of such certificate, the state entomologist may require the payment of a reasonable fee to cover the expense of such inspection and certification. Provided, that if such plants or plant products were brought into this state in compliance with section 177A.8, the certificate required by that section may be accepted in lieu of the inspection and certificate required by this section, in such cases as shall be provided for in the rules. If it shall be found at any time that a certificate of inspection, issued or accepted under the provisions of this section, is being used in connection with plants and plant products which are infested or infected with dangerously injurious insect pests or diseases or in connection with uninspected plants, its further use may be prohibited, subject to such inspection and disposition of the plants and plant products involved as may be provided for by the state entomologist. All moneys collected under the provisions of this chapter shall be turned over to the secretary who shall deposit them in the state treasury.

1. There is created an Iowa dairy industry commission, referred to in this chapter as the commission. The commission shall be composed of the secretary of agriculture or the secretary’s designee, the dean of agriculture at Iowa state university of science and technology or the dean’s designee, and sixteen members appointed by the secretary of agriculture as provided in this section.

2. Commissioners shall serve until their successors are duly appointed and qualify. Vacancies occurring in the membership of the commission resulting from death, inability or refusal to serve, or failure to meet the definition of a producer, shall be filled within three months of the time the vacancy occurs in the manner provided by the commission. Vacancy appointments shall be only for the remainder of the unexpired term. A commissioner shall not serve more than two consecutive full terms.

tax in section 179.5 shall be suspended for the period in which the national order is in effect. The secretary of agriculture shall stagger the terms of the reactivated commission resulting in as nearly as possible one third of the commissioners serving for one year, one third of the commissioners serving for two years, and one third of the commissioners serving for three years. After the initial staggering of terms by the secretary, commissioners shall be appointed to three-year terms.

7. After the reactivated commission has been formed, nominations for commissioners shall be made by first purchasers in a manner designed to reflect their proportionate contributions to the Iowa dairy industry commission in its most recently completed fiscal year.

3. All taxes levied and imposed under this chapter and other contributions made to the dairy industry commission shall be paid to and collected by the commission within thirty days after the end of the month during which the milk was marketed. The department of administrative services shall transfer moneys from the fund to the commission for deposit into an account established by the commission in a qualified financial institution. 179.13 Referendum.

1. At a time designated by the commission within eighteen months after termination of the national promotional order made pursuant to the Dairy Production Stabilization Act of 1983, 7 U.S.C. §4501 et seq., the commission shall conduct a referendum under administrative procedures prescribed by the department.

2. Upon signing a statement certifying to the department that the person is a bona fide producer as defined in this chapter, each producer is entitled to one vote in each referendum. When the secretary is required to determine the approval or disapproval of producers under this section, the secretary shall consider the approval or disapproval of a cooperative association of producers, engaged in a bona fide manner in marketing milk, as the approval or disapproval of the producers who are members of or contract with the cooperative association of producers. If a cooperative association elects to vote on behalf of its members, the cooperative association shall provide each producer on whose behalf the cooperative association is expressing approval or disapproval with a description of the question presented in the referendum together with a statement of the manner in which the cooperative association intends to cast its vote on behalf of the membership. The information shall inform the producer of procedures to follow to cast an individual ballot if the producer chooses to do so within the period of time established by the secretary for casting ballots. 4. The secretary may conduct a referendum at any time after the Iowa dairy industry commission is reactivated, and shall hold a referendum on request of a representative group comprising ten percent or more of the number of producers eligible to vote, to determine whether the producers favor the termination or suspension of the excise tax. The secretary shall suspend or terminate collection of the excise tax within six months after the secretary

determines that suspension or termination of the excise tax is favored by a majority of the producers voting in the referendum, and shall terminate the excise tax in an orderly manner as soon as practicable after the determination.

189A.1 Title.

This chapter shall be known as the “*Meat and Poultry Inspection Act*”.
[C66, 71, 73, 75, 77, 79, 81, §189A.1]

189A.2 Definitions.

As used in this chapter except as otherwise specified:

1. “*Adulterated*” shall apply to any livestock product or poultry product under any one or more of the following circumstances:

a. If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such article shall not be considered adulterated under this clause if the quantity of such substance in or on such article does not ordinarily render it injurious to health.

b. (1) If it bears or contains, by reason of administration of any substance to the livestock or poultry or otherwise, any added poisonous or deleterious substance, other than one which is a pesticide chemical in or on a raw agricultural commodity; a food additive; or a color additive, which may, in the judgment of the secretary, make such article unfit for human food.

(2) If it is, in whole or in part, a raw agricultural commodity and such commodity bears or contains a pesticide chemical which is unsafe within the meaning of section 408 of the federal Food, Drug, and Cosmetic Act.

(3) If it bears or contains any food additive which is unsafe within the meaning of section 409 of the federal Food, Drug, and Cosmetic Act.

(4) If it bears or contains any color additive which is unsafe within the meaning of section 706 of the federal Food, Drug, and Cosmetic Act; however, an article which is not otherwise deemed adulterated under subparagraph (2), (3), or (4) of this paragraph shall nevertheless be deemed adulterated if use of the pesticide chemical, food additive, or color additive in or on such article is prohibited by regulations of the secretary in official establishments.

c. If it consists in whole or in part of any filthy, putrid, or decomposed substance or is for any other reason unsound, unhealthful, unwholesome, or otherwise unfit for human food.

d. If it has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

e. If it is, in whole or in part, the product of an animal, including poultry, which has died otherwise than by slaughter.

f. If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

g. If it has been intentionally subjected to radiation, unless the use of the radiation was

in conformity with a regulation or exemption in effect pursuant to section 409 of the federal Food, Drug, and Cosmetic Act.

h. If any valuable constituent has been in whole or in part omitted or abstracted therefrom; or if any substance has been substituted, wholly or in part therefor; or if damage or inferiority has been concealed in any manner; or if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is.

i. If it is margarine containing animal fat and any of the raw material used therein consisted in whole or in part of any filthy, putrid, or decomposed substance.

2. “*Animal food manufacturer*” means any person engaged in the business of preparing animal food, including poultry, derived wholly or in part from livestock or poultry carcasses or parts or products of such carcasses.

3. “*Broker*” means any person engaged in the business of buying or selling livestock products or poultry products on commission, or otherwise negotiating purchases or sales of such articles other than for the person’s own account or as an employee of another person.

4. “*Capable of use as human food*” shall apply to any livestock or poultry carcass, or part or product of any such carcass, unless it is denatured or otherwise identified as required by regulations prescribed by the secretary to deter its use as human food, or it is naturally inedible by humans.

5. “*Container*” or “*package*” means any box, can, tin, cloth, plastic or other receptacle, wrapper, or cover.

6. “*Establishment*” means all premises where animals or poultry are slaughtered or otherwise prepared, either for custom, resale, or retail, for food purposes, meat or poultry canneries, sausage factories, smoking or curing operations, restaurants, grocery stores, brokerages, cold storage plants, and similar places.

6A. “*Farm deer*” means the same as defined in section 170.1.

7. “*Federal Food, Drug, and Cosmetic Act*” means the Act so entitled, approved June 25, 1938, 52 Stat. 1040, and Acts amendatory thereof or supplementary thereto.

10. “*Inspector*” means an employee or official of the department authorized by the secretary or any employee or official of the government of any county or other governmental subdivision of this state, authorized by the secretary to perform any inspection functions under this chapter under an agreement between the secretary and such governmental subdivision.

15. “*Livestock product*” means any carcass, part thereof, meat, or meat food product of any livestock.

16. “*Meat food product*” means any product capable of use as human food which is made wholly or in part from any meat or other portion of the carcass of any cattle, sheep, swine, or goats, excepting products which contain meat or other portions of such carcasses only in a relatively small proportion or historically have not been considered by consumers as products of the meat food industry, and which are exempted from definition as a meat food product by the secretary under such conditions as the secretary may prescribe to assure that the meat or other portions of such carcass contained in such product are not adulterated and that such

products are not represented as meat food products. This term as applied to food products of equines or farm deer shall have a meaning comparable to that provided in this paragraph with respect to cattle, sheep, swine, and goats.

17. "Misbranded" shall apply to any livestock product or poultry product under any one or more of the following circumstances:

- a. If its labeling is false or misleading in any particular.
- b. If it is offered for sale under the name of another food.
- c. If it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the word "imitation", and immediately thereafter the name of the food imitated.

- e. Unless it bears a label showing both:
 - (1) The name and place of business of the manufacturer, packer, or distributor.
 - (2) An accurate statement of the quantity of the product in terms of weight, measure, or numerical count; however, under this paragraph, exemptions as to livestock products not in containers may be established by regulations prescribed by the secretary, and under this subparagraph reasonable variations may be permitted, and exemptions as to small packages may be established for livestock products or poultry products by regulations prescribed by the secretary.
- f. If any word, statement, or other information required by or under authority of this chapter to appear on the label or other labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs, or devices in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.
- g. If it purports to be or is represented as a food for which a definition and standard of identity or composition has been prescribed by the regulations of the secretary under section 189A.7, unless it conforms to such definition and standard and its label bears the name of the food specified in the definition and standard and, insofar as may be required by such regulations, the common names of optional ingredients, other than spices, flavoring, and coloring, present in such food.
- h. If it purports to be or is represented as a food for which a standard or standards of fill of container have been prescribed by regulations of the secretary under section 189A.7, and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard.
- i. If it is not subject to the provisions of paragraph "g" of this subsection, unless its label bears both:
 - (1) The common or usual name of the food, if any.
 - (2) In case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavorings, and colorings may, when authorized by the secretary, be designated as spices, flavorings, and colorings without naming each; however, to the extent that compliance with the requirements of this subparagraph is impracticable, or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the secretary.
- j. If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the secretary, after consultation with the secretary of agriculture of the United States, determines to be and by regulations prescribes as necessary in order to fully inform purchasers as to its value for such uses.
- k. If it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; however, to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the secretary.
- l. If it fails to bear, directly thereon and on its containers, as the secretary may by regulations prescribe, the official inspection legend and establishment number of the establishment where the product was prepared and, unrestricted by any of the foregoing, such other information as the secretary may require in such regulations to assure that it will

not have false or misleading labeling and that the public will be informed of the manner of handling required to maintain the article in a wholesome condition.

18. “*Official certificate*” means any certificate prescribed by regulations of the secretary for issuance by an inspector or other person performing official functions under this chapter.

19. “*Official device*” means any device prescribed or authorized by the secretary for use in applying any official mark.

23. “*Person*” includes any individual, partnership, corporation, association, or other business unit, and any officer, agent, or employee thereof.

24. “*Pesticide chemical*”, “*food additive*”, “*color additive*”, and “*raw agricultural commodity*” shall have the same meanings for purposes of this chapter as under the federal Food, Drug, and Cosmetic Act.

26. “*Poultry product*” means any poultry carcass or part thereof, or any product which is made wholly or in part from any poultry carcass or part thereof, excepting products which contain poultry ingredients only in a relatively small proportion or historically have not been considered by consumers as products of the poultry food industry, and which are exempted by the secretary from definition as a poultry product under such conditions as the secretary may prescribe to assure that the poultry ingredients in such products are not adulterated and that such products are not represented as poultry products.

27. “*Prepared*” means slaughtered, canned, salted, stuffed, rendered, boned, cut up, or otherwise manufactured or processed.

28. “*Reinspection*” includes inspection of the preparation of livestock products and poultry products, as well as re-examination of articles previously inspected.

The county attorneys shall prosecute for the recovery of such forfeitures.

1. A person who does not possess a permit issued by the department shall not bring, send, or receive into the state for sale, or sell, offer for sale, or store any milk or milk product as provided in this chapter and in chapters 190 and 191. However, the department may exempt from this requirement grocery stores, restaurants, soda fountains, or similar establishments where milk or a milk product is served or sold at retail, but not processed.

2. Only a person who complies with the requirements of this chapter and chapters 190 and 191 shall be entitled to receive and retain a permit from the department. Permits shall not be transferable with respect to persons or locations.

3. However, where the milk or milk product involved creates, or appears to create, an imminent hazard to the public health, or in any case of a willful refusal to permit authorized inspection, the department shall serve upon the holder a written notice of intent to suspend the permit. The notice shall specify with particularity the violations in question and afford the holder such reasonable opportunity to correct such violations as may be agreed to by the parties, or in the absence of agreement, established by the secretary before making any order of suspension effective. A suspension

of permit shall remain in effect until the violation has been corrected to the satisfaction of the department. As used in this section, the terms "*public health hazard*" and "*imminent hazard*" shall be defined by rules adopted by the department. The rules shall include examples of public health hazards and imminent hazards.

4. Upon written application of any person whose permit has been suspended, or upon application within forty-eight hours of any person who has been served with a notice of intention to suspend, and in the latter case before suspension, the department shall within seventy-two hours proceed to a hearing to ascertain the facts of such violation or interference and upon evidence presented at such hearing shall affirm, modify, or rescind the suspension or intention to suspend.

5. Upon repeated violation, the department may revoke a permit following reasonable notice to the permit holder and an opportunity for a hearing. This section is not intended to preclude the institution of a court action provided in this chapter, chapter 190, or chapter 191.

6. The provisions of this section are intended for the regulation of the production, processing, labeling, and distribution of grade "A" milk and grade "A" milk products under sanitary requirements which are uniform throughout the state.

1. a. If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance, such commercial feed shall not be considered adulterated under this subsection if the quantity of such substance in such commercial feed does not ordinarily render it injurious to health.

b. If it bears or contains any added poisonous, added deleterious, or added nonnutritive substance which is unsafe within the meaning of section 406 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §346, other than one which is a pesticide chemical in or on a raw agricultural commodity or a food additive.

2. If any valuable constituent has been in whole or in part omitted or abstracted therefrom or any less valuable substance substituted therefor.

3. If its composition or quality falls below or differs from that which it is purported or is represented to possess by its labeling.

4. If it contains a drug and the methods used in or the facilities or controls used for its manufacture, processing, or packaging do not conform to current good manufacturing practice rules promulgated by the secretary to assure that the drug meets the requirement of this chapter as to safety and has the identity and strength and meets the quality and purity characteristics which it purports or is represented to possess. In promulgating such rules, the secretary shall adopt the current good manufacturing practice regulations for medicated feed premixes and for medicated feeds established under authority of the federal Food, Drug, and Cosmetic Act, unless the secretary determines that they are not appropriate to the conditions which exist in this state.

5. If it contains viable weed seeds in amounts exceeding the limits which the secretary shall establish by rule.

198.9 Inspection fees and reports.

1. *a.* An inspection fee to be fixed annually by the secretary at a rate of not more than sixteen cents per ton, shall be paid on commercial feed distributed in this state by the person who first distributes the commercial feed, subject to the following:

(1) The inspection fee is not required on the first distribution, if made to a qualified buyer who, with approval from the secretary, shall become responsible for the fee.

(2) A fee shall not be paid on a commercial feed if the payment has been made by a previous distributor.

(3) A fee shall not be paid on customer-formula feeds if the inspection fee is paid on the commercial feeds which are used as components of the customer-formula feeds.

(4) A minimum semiannual fee shall be twenty dollars.

(5) A licensed manufacturer shall pay the inspection fee on commercial feed that is fed to livestock owned by the licensee.

b. In the case of a pet food or specialty pet food, which is distributed in this state in packages of ten pounds or less, each product shall be registered and an annual registration fee of fifty dollars for each product shall be paid by January 1 of each year in lieu of the per ton rate as provided in this subsection. The inspection fee shall apply to those same products distributed in packages of more than ten pounds.

2. *a.* Each person who is liable for the payment of such fee shall:

(1) File, not later than the last day of January and July of each year, a semiannual statement, setting forth the number of net tons of commercial feeds distributed in this state during the preceding six months and upon filing the statement shall pay the inspection fee at the rate stated in subsection 1. Inspection fees which are due and owing and have not been

remitted to the secretary within fifteen days following the due date shall have a delinquency fee of ten percent of the amount due or fifty dollars, whichever is greater, added to the amount due when payment is finally made. The assessment of this delinquency fee does not prevent the department from taking other actions as provided in this chapter.

(2) Keep such records as may be necessary or required by the secretary to indicate accurately the tonnage of commercial feed distributed in this state, and the secretary shall have the right to examine such records to verify statements of tonnage.

b. Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided in this section is sufficient cause for cancellation of the license of the distributor.

3. Fees collected shall be deposited in the general fund of the state and shall be subject to the requirements of section 8.60. Moneys deposited under this section shall be used for the payment of the costs of inspection, sampling, analysis, supportive research, and other expenses necessary for the administration of this chapter.

4. If there is an unencumbered balance of funds from the fees deposited under this section on June 30 of any fiscal year equal to or exceeding one hundred thousand dollars, the secretary of agriculture shall reduce the per ton fee provided for in subsection 1 for the next fiscal year in such amount as will result in an ending estimated balance of the fees deposited less costs paid for from those fees for June 30 of the next fiscal year of one hundred thousand dollars.

1. The secretary may adopt rules for commercial feeds and pet foods as specifically authorized in this chapter and other reasonable rules necessary in order to carry out the purpose and intent of this chapter or to secure the efficient enforcement of this chapter.

2. The secretary may adopt rules to do all of the following:

a. Regulate the movement of cottonseed into this state or within this state, even if the cottonseed would otherwise be exempt as whole seed under section 198.3. The secretary may adopt rules prescribing standards for cottonseed consistent with regulations prescribing the quality and uses of cottonseed as promulgated by the United States food and drug administration.

b. Regulating the advertisement of commercial feed, including but not limited to labeling commercial feed as specifically provided in this chapter.

3. In the interest of uniformity the secretary shall adopt any rule based on regulations promulgated under the authority of the federal Food, Drug, and Cosmetic Act, 21 U.S.C. §301 et seq., provided the secretary has the authority under this chapter to adopt the rule. However, the secretary is not required to adopt such a rule if the secretary determines that the rule would be inconsistent with this chapter or not appropriate to conditions which exist in this state.

4. Before the issuance, amendment, or repeal of a rule authorized by this chapter, the secretary shall publish the proposed rule, amendment, or notice to repeal an existing rule in a manner reasonably calculated to give interested parties, including all current licensees, adequate notice, and shall afford all interested persons an opportunity to be heard, orally or in writing, within a reasonable period of time. After consideration of all views presented by interested persons, the secretary shall take appropriate action to issue the proposed rule or to amend or repeal an existing rule. However, if the secretary adopts rules based on regulations promulgated under the authority of the federal Food, Drug, and Cosmetic Act, any amendment or modification adopted by the United States secretary of health and human services shall be adopted automatically under this chapter without regard to publication of

the notice required by this subsection, unless the secretary by order specifically determines that an amendment or modification shall not be adopted.

198.11 Inspection, sampling, and analysis.

1. For the purpose of enforcement of this chapter, and in order to determine whether its provisions have been complied with, including whether or not any operations may be subject to such provisions, officers or employees duly designated by the secretary, upon presenting appropriate credentials, and a written notice to the owner, operator or agent in charge, are authorized:

a. To enter, during normal business hours, any factory, warehouse or establishment within the state in which commercial feeds are manufactured, processed, packed or held for distribution, or to enter any vehicle being used to transport or hold such feed.

b. To inspect at reasonable times and within reasonable limits and in a reasonable manner, such factory, warehouse, establishment or vehicle and all pertinent equipment, finished and unfinished materials, containers and labeling therein. The inspection may include the verification of only such records, and production and control procedures as may be necessary to determine compliance with the good manufacturing practice regulations established under section 198.7, subsection 4.

2. A separate notice shall be given for each such inspection, but a notice shall not be required for each entry made during the period covered by the inspection. Each such inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified.

3. If the officer or employee making such inspection of a factory, warehouse or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises the officer or employee shall give to the owner, operator or agent in charge a receipt describing the samples obtained.

4. If the owner of any factory, warehouse, or establishment described in subsection 1, or the owner's agent, refuses to admit the secretary or the secretary's agent to inspect in accordance with subsections 1 and 2, the secretary may obtain from any state court a warrant directing such owner or the owner's agent to submit the premises described in such warrant to inspection.

5. For the purpose of the enforcement of this chapter, the secretary or the secretary's duly designated agent is authorized to enter upon any public or private premises including any vehicle of transport during regular business hours to have access to, and to obtain samples, and to examine records relating to distribution of commercial feeds.

6. Sampling and analysis shall be conducted in accordance with methods published by the association of official analytical chemists, or in accordance with other generally recognized methods.

7. The results of all analyses of official samples shall be forwarded by the secretary to the person named on the label. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded and upon request within thirty days following receipt of the analysis the secretary shall furnish to the licensee a portion of the sample concerned.

8. The secretary, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided by the official sample as defined in section 198.3, and obtained and analyzed as provided for in subsections 3, 5, and 6.

198.12 Detained commercial feeds.

1. When the secretary or the secretary's authorized agent has reasonable cause to believe any lot of commercial feed is being distributed in violation of any of the provisions

of this chapter or of any of the rules adopted under this chapter, the secretary or agent may issue and enforce a written or printed “withdrawal from distribution” order, warning the distributor not to dispose of the lot of commercial feed in any manner until written permission is given by the secretary or the court. The secretary shall release the lot of commercial feed so withdrawn when the provisions and rules have been complied with. If compliance is not obtained within thirty days, the secretary may begin, or upon request of the distributor shall begin, proceedings for condemnation.

2. Any lot of commercial feed not in compliance with said provisions and rules shall be subject to seizure on complaint of the secretary to a court of competent jurisdiction in the area in which said commercial feed is located. In the event the court finds the said commercial feed to be in violation of this chapter and order the condemnation of said commercial feed, it shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the state, provided, that in no instance shall the disposition of said commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of said commercial feed or for permission to process or relabel said commercial feed to bring it into compliance with this chapter.

198.13 Penalties.

1. Any person convicted of violating any of the provisions of this chapter or who shall impede, hinder or otherwise prevent, or attempt to prevent, said secretary or the secretary’s authorized agent in performance of that person’s duty in connection with the provisions of this chapter, shall be guilty of a simple misdemeanor.

2. Nothing in this chapter shall be construed as requiring the secretary or the secretary’s representative to:

a. Report for prosecution.

b. Institute seizure proceedings.

c. Issue a withdrawal from distribution order, as a result of minor violations of the chapter, or when the secretary or representative believes the public interest will best be served by suitable notice of warning in writing.

3. It shall be the duty of each county attorney to whom any violation is reported to cause appropriate proceedings to be instituted and prosecuted in a court of competent jurisdiction without delay. Before the secretary reports a violation for such prosecution, an opportunity shall be given the distributor to present the distributor’s view to the secretary.

4. The secretary may apply for and the court may grant a temporary or permanent injunction restraining any person from violating or continuing to violate any of the provisions of this chapter or any rule promulgated under the chapter notwithstanding the existence of other remedies at law. If granted, the injunction shall be issued without bond.

5. Any person adversely affected by an act, order, or ruling made pursuant to the provisions of this chapter may within forty-five days thereafter bring action in the district court for judicial review of such actions. The form of the proceeding shall be any which may be provided by statutes of this state to review decisions of administrative agencies, or in the absence or inadequacy thereof, any applicable form of legal action, including actions for declaratory judgments or writs or prohibitory or mandatory injunctions.

6. Any person who uses to the person’s own advantage, or reveals to other than the secretary, or officers of the department or to the courts when relevant in any judicial proceeding, any information acquired under the authority of this chapter, concerning any method, records, formulations or processes which as a trade secret is entitled to protection, is guilty of a serious misdemeanor. This prohibition shall not be deemed as prohibiting the secretary, or the secretary’s duly authorized agent, from exchanging information of a regulatory nature with appointed officials of the United States government, or of other states, who are similarly prohibited by law from revealing this information.

199.12 Seizure of unlawful seed.

Upon the recommendation of the secretary or the secretary's duly authorized agents, the court of competent jurisdiction in the area in which the seed is located shall cause the seizure and subsequent denaturing, conditioning, or destruction to prevent the use for sowing purposes of any lot of agricultural seed found to be prohibited from sale as set forth in section 199.8, provided that in no instance shall the denaturing, conditioning, or destruction be ordered without first having given the claimant of the seed an opportunity to apply to the court for the release of the seed.

[C35, §3137-g3; C39, §3137.5; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §199.12; 82 Acts, ch 1191, §12]

199.13 Penalty.

A violation of this chapter is a simple misdemeanor. The department may institute criminal or civil proceedings in a court of competent jurisdiction to enforce this chapter. When in the performance of the secretary's duties in enforcing this chapter the secretary applies to a court for a temporary or permanent injunction restraining a person from violating or continuing to violate any of the provisions of this chapter or rules adopted under this chapter, the injunction is to be issued without bond and the person restrained by the injunction shall pay the costs made necessary by the procedure.

[C35, §3137-e2; C39, §3137.2; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §199.13; 82 Acts, ch 1191, §13]

199.13A Local legislation — prohibition.

1. The provisions of this chapter and rules adopted by the department pursuant to this chapter shall preempt local legislation adopted by a local governmental entity relating to the production, use, advertising, sale, distribution, storage, transportation, formulation, packaging, labeling, certification, or registration of an agricultural seed. A local governmental entity shall not adopt or continue in effect such local legislation regardless of whether a statute or a rule adopted by the department specifically preempts the local legislation. Local legislation in violation of this section is void and unenforceable.

2. This section does not apply to any of the following:

a. Local legislation of general applicability to commercial activity.

b. A motion or resolution that provides for any activity relating to agricultural seed which is owned by the local governmental entity and which is kept or used on land held by the local governmental entity.

2005 Acts, ch 21, §3

199.14 Enforcement.

It shall be the duty of the secretary of agriculture, and the secretary's agents, to enforce this chapter and of the county attorneys and of the attorney general of the state to cooperate with the secretary in the enforcement of this chapter.

[C35, §3137-g4; C39, §3137.6; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §199.14]

199.15 Permit — fee — fraud.

1. A person shall not sell, distribute, advertise, solicit orders for, offer or expose for sale, agricultural or vegetable seed without first obtaining from the department a permit to engage in the business. A permit is not required of persons selling seeds which have been packed and distributed by a person holding and having in force a permit. A permit is not required of persons selling or advertising seed of their own production, provided that the seed is stored or delivered to a purchaser only on or from the farm or premises where grown.

2. a. The fee for a new permit is ten dollars and the fee for a renewed permit is based on the gross annual sales of seeds in Iowa during the previous twelve-month period under the permit holder's label and all permits expire on the first day of July following date of issue.

b. Permits shall be issued subject to the following fee schedule:

| Gross sales of seeds | | Fee |
|----------------------------------|-----------|------|
| Not more than | \$ 25,000 | \$30 |
| Over \$25,000 but not exceeding | 50,000 | 60 |
| Over \$50,000 but not exceeding | 100,000 | 90 |
| Over \$100,000 but not exceeding | 200,000 | 120 |

c. For each additional increment of one hundred thousand dollars of sales in Iowa the fee shall increase by thirty dollars. The fee shall not exceed one thousand five hundred dollars for a permit holder.

3. After due notice given at least ten days prior to a date of hearing fixed by the secretary, the department may revoke or refuse to renew a permit issued under this section if a violation of this chapter or if intent to defraud is established. The failure to fulfill a contract to repurchase the seed crop produced from any agricultural seed, if the crop meets the requirements set forth in the contract and the standards specified in this chapter, is prima facie evidence of intent to defraud the purchaser at the time of entering into the contract. However, this does not apply when seed stock is furnished by the contractor to the grower at no cost.

[C54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §199.15; 82 Acts, ch 1191, §14]

Referred to in §199.1, 199.3

199.16 Permit holder's bond.

It is unlawful for the permit holder to enter into a contract with a grower who purchases agricultural seed in which the permit holder agrees to repurchase the seed crop produced from the purchased seed at a price in excess of the current market price, unless the permit holder has on file with the department a bond, in a penal sum of twenty-five thousand dollars running to the state of Iowa, with sureties approved by the secretary, for the use and benefit of a person holding a repurchase contract who might have a cause of action of any nature arising from the purchase or contract. However, the aggregate liability of the surety to all purchasers of seed holding repurchase contracts shall not exceed the sum of the bond.

199.17 Records and seed samples.

A person whose name appears on the label as handling agricultural or vegetable seed subject to this chapter shall keep for a period of two years complete records of each lot of agricultural or vegetable seed handled and shall keep for one year a file sample of each lot of seed after final disposition of the lot. The records and samples pertaining to the shipments involved shall be accessible for inspection by the department during the customary business hours.

1. Any person who manufactures, mixes, blends, mixes to customer’s order, offers for sale, sells, or distributes any fertilizer or soil conditioner in this state must first obtain a license issued by the secretary and pay a twenty dollar license fee for each place of manufacture or distribution from which fertilizer or soil conditioner products are sold or distributed in this state. The license shall expire on July 1 of the even-numbered year following the date the license is issued. A license may be renewed for a two-year period as provided by the department.

2. The licensee shall at all times produce an intimate and uniform mixture of fertilizers or soil conditioners. When two or more fertilizer materials are delivered in the same load, they shall be thoroughly and uniformly mixed unless they are in separate compartments.

1. Each brand and grade of commercial fertilizer and each soil conditioner shall be registered before being offered for sale, sold or otherwise distributed in this state; except that a commercial fertilizer formulated according to special specifications furnished by a consumer to fill the consumer’s order shall not be required to be registered, but shall be labeled as provided in section 200.6, subsection 3. The application for registration shall be submitted to the secretary on forms furnished by the secretary and shall be accompanied by a label setting forth the guaranteed analysis which shall be the same as that appearing on the registered product.

2. All registration will be permanent, provided, however, that the secretary may request a listing of products to be currently manufactured. The application shall include the following information in the following order:

- a. Net weight, if sold in packaged form.
- b. Name and address of the registrant.
- c. Name of product.
- d. Brand.
- e. Grade.
- f. Guaranteed analysis.

3. In addition to the information required in subsection 2 of this section, applications for registration of soil conditioners must include the name or chemical designation and percentage of content of each of the active ingredients.

4. The secretary is authorized, after public hearing, following due notice, to adopt rules regulating the labeling and registration of specialty fertilizers and other fertilizer products, when necessary in the secretary’s opinion. The secretary may require any reasonable information in addition to section 200.3, subsection 14, which is necessary and useful to the purchasers of specialty fertilizers of this state and to promote uniformity among states.

5. The secretary is authorized after public hearing, following due notice, to establish minimum acceptable levels of trace and secondary elements recognized as effective to aid crops produced in Iowa and to require such warning statements as may be deemed necessary to prevent injury to crops.

6. The secretary, whenever the secretary deems it necessary in the administration of this

chapter, may require the submission of additional data about any fertilizer or product to support the claims made for it. If it appears to the secretary that the composition of the article is such as to warrant the claims made for it, and if the article, its labeling and other material required to be submitted, comply with the requirements of this chapter, the secretary shall register the product.

7. If it does not appear to the secretary that the article is such as to warrant the proposed claims for it, or if the article and its labeling and other material required to be submitted does not comply with the provision of this chapter, the secretary shall notify the registrant of the manner in which the article, labeling, or other material required to be submitted fails to comply with this chapter so as to afford the registrant an opportunity to make the necessary corrections before resubmitting the label.

8. It shall be the responsibility of the registrant to submit satisfactory evidence of favorable effects and safety of the product.

9. The secretary shall establish minimum requirements for the registration of fertilizers and soil conditioners by efficacy testing or the substantiation of data relevant to Iowa crops and soils.

10. A distributor shall not be required to register any brand and grade of commercial fertilizer which is already registered under this chapter by another person.

11. The advisory committee created in section 206.23 shall advise and assist the secretary on the registration of a product of commercial fertilizer or soil conditioner under the provisions of this chapter.

200.6 Labeling.

1. Any commercial fertilizer offered for sale or sold or distributed in this state in bags, or other containers, shall have placed on or affixed to the container in legibly written or printed form, the information required by section 200.5, subsection 2; either on tags affixed to the end of the package or directly on the package.

2. If distributed in bulk, the shipment must be accompanied by a written or printed statement giving the purchaser's name and address in addition to the labeling requirement set forth in section 200.5, subsection 2.

3. A commercial fertilizer formulated according to specifications which are furnished by a consumer prior to mixing shall be labeled to show the net weight, guaranteed analysis, and the name and address of the distributor and may show the net weight and guaranteed analysis of each of the fertilizer materials or soil conditioners used. It is the responsibility of the distributor to mix these materials uniformly and intimately so that when sampled in the prescribed manner the resulting analysis would meet the guarantee.

4. All bulk bins or intermediate storage of bulk commercial fertilizer where being offered for sale or distributed direct to the consumer shall be labeled showing brand, name and grade of product.

5. All fertilizers distributed or stored in bulk, unless in the manufacturers authorized containers, shall be labeled as the responsibility of the possessor.

6. Soil conditioners shall be labeled in accordance with subsection 1 of this section and in addition shall show the name or chemical designation and content or the active ingredients.

[S13, §2528-f; C24, 27, 31, 35, 39, §3142; C46, 50, 54, 58, 62, §200.5; C66, 71, 73, 75, 77, 79, 81, §200.6]

200.7 Fertilizer-pesticide mixture.

Only those persons licensed under section 200.4 shall be permitted to add pesticides to commercial fertilizers. These persons shall at all times produce a uniform mixture of fertilizer

and pesticide and shall register and label their product in compliance with both chapter 206 and this chapter.

200.8 Inspection fees.

1. *a.* There shall be paid by the licensee to the secretary for all commercial fertilizers and soil conditioners sold, or distributed in this state, an inspection fee to be fixed annually by the secretary of agriculture at not more than twenty cents per ton. Sales for manufacturing purposes only are hereby exempted from fees but must still be reported showing manufacturer who purchased same. Payment of said inspection fee by any licensee shall exempt all other persons, firms or corporations from the payment thereof.

b. On individual packages of specialty fertilizer containing twenty-five pounds or less, there shall be paid by the manufacturer in lieu of the semiannual inspection fee as set forth in this chapter, an annual registration and inspection fee of one hundred dollars for each brand and grade sold or distributed in the state. In the event that any manufacturer sells specialty fertilizer in packages of twenty-five pounds or less and also in packages of more than twenty-five pounds, this annual registration and inspection fee shall apply only to that portion sold in packages of twenty-five pounds or less, and that portion sold in packages of more than twenty-five pounds shall be subject to the same inspection fee as fixed by the secretary of agriculture as provided in this chapter.

c. Any person other than a manufacturer who annually offers for sale, sells, or distributes specialty fertilizer in the amount of four thousand pounds or more or applies specialty fertilizer for compensation shall pay an annual inspection fee of thirty dollars in lieu of the semiannual inspection fee as set forth in this chapter.

2. Every licensee and any person required to pay an annual registration and inspection fee under this chapter in this state shall:

a. File not later than the last day of January and July of each year, on forms furnished by the secretary, a semiannual statement setting forth the number of net tons of commercial fertilizer or soil conditioners distributed in this state by grade for each county during the preceding six-month period; and upon filing such statement shall pay the inspection fee at the rate stated in subsection 1. However, in lieu of the semiannual statement by grade for each county, on individual packages of specialty fertilizer containing twenty-five pounds or less, the registrant shall file not later than the last day of July of each year, on forms furnished by the secretary, an annual statement setting forth the number of net tons of specialty fertilizer distributed in this state by grade during the preceding twelve-month period.

b. If the tonnage report is not filed or the payment of inspection fees, or both, is not made within ten days after the last day of January and July of each year as required in paragraph “a” of this subsection, a penalty amounting to ten percent of the amount due, if any, shall be assessed against the licensee. In any case, the penalty shall be no less than fifty dollars. The amount of fees due, if any, and penalty shall constitute a debt and become the basis of a judgment against the licensee.

3. If there is an unencumbered balance of funds from the amount of the fees deposited in the general fund pursuant to sections 200.9 and 201A.11 on June 30 of any fiscal year equal to or exceeding three hundred fifty thousand dollars, the secretary of agriculture shall reduce the per ton fee provided for in subsection 1 and the annual license fee established pursuant to section 201A.3 for the next fiscal year in such amount as will result in an ending estimated balance of such funds for June 30 of the next fiscal year of three hundred fifty thousand dollars.

4. In addition to the fees imposed under subsection 1, a groundwater protection fee shall be imposed upon nitrogen-based fertilizer. The fee shall be based upon the percentage of actual nitrogen contained in the product. An eighty-two percent nitrogen solution shall be taxed at a rate of seventy-five cents per ton. Other nitrogen-based product formulations shall be taxed on the percentage of actual nitrogen contained in the formulations with the eighty-two percent nitrogen solution serving as the base. The fee shall be paid by each licensee registering to sell fertilizer to the secretary of agriculture. The fees collected shall

be deposited in the agriculture management account of the groundwater protection fund. The secretary of agriculture shall adopt rules for the payment, filing, and collection of groundwater protection fees from licensees in conjunction with the collection of registration and inspection fees. The secretary shall, by rule, allow an exemption to the payment of this fee for fertilizers which contain trace amounts of nitrogen.

200.9 Fertilizer fees.

Fees collected for licenses and inspection fees under sections 200.4 and 200.8, with the exception of those fees collected for deposit in the agriculture management account of the groundwater protection fund, shall be deposited in the general fund of the state and shall be subject to the requirements of section 8.60. Moneys deposited under this section to the general fund shall be used only by the department for the purpose of inspection, sampling, analysis, preparation, and publishing of reports and other expenses necessary for administration of this chapter. The secretary may assign moneys to the Iowa agricultural experiment station for research, work projects, and investigations as needed for the specific purpose of improving the regulatory functions for enforcement of this chapter.

200.10 Inspection, sampling, and analysis.

1. It shall be the duty of the secretary, who may act through an authorized agent, to sample, inspect, make analysis of, and test commercial fertilizers or soil conditioners distributed within this state at time and place and to such an extent as the secretary may deem necessary, to determine whether such commercial fertilizers and soil conditioners are in compliance with the provisions of this chapter. In the performance of the foregoing duty, the secretary shall counsel with the director of the Iowa agricultural experimental station in respect to the time, place and extent of sampling. The secretary individually or through an agent is authorized to enter upon any public or private premises or conveyances during regular business hours in order to have access to commercial fertilizers or soil conditioners subject to the provisions of this chapter and the rules and regulations pertaining thereto. It shall be the duty of the secretary to maintain a laboratory with the necessary equipment and to employ such employees as may be necessary to aid in the administration and enforcement of this chapter.

2. *a.* The methods of sampling and analysis shall be the official methods of the association of official agricultural chemists in all cases where methods have been adopted by the association.

b. The findings of the state chemist or the state chemist's deputy, as shown by the sworn statement of the results of analysis of official samples of any brand and grade of commercial fertilizer, fertilizer material or soil conditioner, shall constitute prima facie evidence of their correctness in the courts of this state, as to the particular lots sampled and analyzed.

3. The secretary, in determining for administrative purposes whether any commercial fertilizer is deficient in plant food, or soil conditioner deficient in guaranteed active ingredients, shall be guided by the official sample as defined in section 200.3, subsection 18, and obtained and analyzed as provided for in subsection 2 of this section.

4. The results of official analysis of any commercial fertilizer or soil conditioner which has been found to be in violation of any provision of this chapter, shall be forwarded by the secretary to the registrant. Upon request, the secretary shall furnish to the registrant a portion of any sample.

agricultural liming material. The order may require that the owner or custodian hold the agricultural liming material at a place designated in the order. The stop order shall be in writing and served upon the person owning or controlling the manufacture or sale of the agricultural liming material. The department shall provide for the termination of the stop order upon compliance with the provisions of this chapter. The termination of the stop order shall be in writing and served upon the person as provided for in the stop order. The department may place conditions upon the termination of the stop order, including the payment of reasonable expenses incurred by the department in issuing and enforcing the stop order.

2. Obtaining a court order upon petition filed in district court for the county where the agricultural liming material is being manufactured, sold, offered for sale, or exposed for sale. The court may be petitioned by the department, or, upon request by the department, the attorney general or the county attorney. The court shall hear from all parties in the case. The court may issue an order for any of the following:

a. The seizure of the agricultural liming material. The court shall issue an order, if the court finds that the petition is supported by facts that agricultural liming material is being manufactured, sold, offered for sale, or exposed for sale in violation of this chapter, and the agricultural liming material must be condemned because it fails to meet standards required in this chapter. If warranted, the court shall order that the agricultural liming material be disposed of in a manner provided by rules adopted by the department, which may include reprocessing or relabeling the agricultural liming material in order to ensure that it complies with this chapter. The court may provide that any party to the case dispose of the agricultural liming material.

b. A temporary or permanent injunction against a person violating the provisions of this chapter. The court shall issue an order, if the court finds that the petition is supported by facts that agricultural liming material is being manufactured, sold, offered for sale, or exposed for sale in violation of this chapter. In order to obtain injunctive relief, the department shall not be required to post a bond or prove the absence of an adequate remedy at law, unless the court for good cause otherwise orders. The court may order any form of prohibitory or mandatory relief that is appropriate under principles of equity.

96 Acts, ch 1096, §11, 15

201A.10 Violations.

1. A person violating this chapter or rules adopted by the department under this chapter is guilty of a simple misdemeanor.

2. The department shall provide for the prosecution of a violation of this chapter by referring the violation to the county attorney in the county where the violation occurs. The department shall compile evidence of the violation for prosecution. The county attorney shall prosecute any case determined by the county attorney to be meritorious without delay. The department shall not refer a violation to the county attorney until the department provides the person subject to the violation with an opportunity to be heard by the department according to procedures adopted by the department. A right to a hearing is not a contested case proceeding as provided in chapter 17A. The department is not required to refer a minor violation to a county attorney, and may instead issue a warning to the person subject to the minor violation.

96 Acts, ch 1096, §12, 15

201A.11 Fees and appropriation.

Fees collected under this chapter shall be deposited in the general fund of the state and shall be subject to the requirements of section 8.60. SUBCHAPTER I

PURPOSE — DEFINITIONS

202B.101 Purpose.

The purpose of this chapter is to preserve free and private enterprise, prevent monopoly, and also to protect consumers by regulating the balance of competitive forces in beef and swine production, by enhancing the welfare of the farming community, and also by preventing processors from gaining control of beef or swine production.

2003 Acts, ch 115, §4, 16, 19

202B.102 Definitions.

As used in this chapter, unless the context otherwise requires:

1. “*Base price*” means the price paid for swine, delivered to the processor, before application of any premiums or discounts, and expressed in dollars per hundred pounds of hot carcass weight as calculated in the same manner as provided in 7 C.F.R. §59.30.

2. “*Business association*” means a person organized under statute or common law in this state or another jurisdiction for purposes of engaging in a commercial activity on a profit, cooperative, or not-for-profit basis, including but not limited to a corporation or entity taxed as a corporation under the Internal Revenue Code, nonprofit corporation, cooperative

association, partnership, limited partnership, limited liability company, limited liability partnership, investment company, joint stock company, joint stock association, or trust, including but not limited to a business trust.

3. “*Cash or spot market purchase*” means the purchase of swine by a processor from a seller, if the swine are slaughtered not more than fourteen days after the date that the seller and the processor agree on a date of delivery of the swine for slaughter and the base price for purchasing the swine is determined by an oral or written agreement between seller and processor executed on the day the swine are delivered for slaughter.

4. “*Cattle operation*” means a location including but not limited to a building, lot, yard, corral, or other place where cattle for slaughter are fed or otherwise maintained.

5. “*Contract feeder*” means a person owning in the applicable reporting year, as provided in section 202B.301, more than two thousand five hundred swine or five thousand head of poultry, if the swine or poultry are subject to a contract or contracts for care and feeding by a person or persons other than the owner on land which is not owned, leased, or held by the owner.

6. “*Contract for the care and feeding of swine*” means an oral or written agreement executed between a person and the owner of swine, under which the person agrees to care for and feed the owner’s swine on the person’s premises. A contract for the care and feeding of swine does not include an agreement for the sale or purchase of swine.

7. “*Cooperative association*” means the same as defined in section 10.1.

8. “*Indirect*” means to act or attempt to accomplish an act through an interest in a business association, through one or more affiliates or intermediaries, or by any method other than a direct approach, including by any circuitous or oblique method.

9. “*Person*” means an individual, business association, government or governmental subdivision or agency, or any other legal entity.

10. “*Processor*” means a person who alone or in conjunction with others directly or indirectly controls the manufacturing, processing, or preparation for sale of beef or pork products, including the slaughtering of cattle or swine or the manufacturing or preparation of carcasses or goods originating from the carcasses, if the beef or pork products have a total annual wholesale value of eighty million dollars or more for the person’s tax year. A person shall be deemed to be a processor if any of the following apply:

a. The person has a threshold interest in a processor which is a business association. “*Threshold interest*” means a direct or indirect interest in the business association, calculated as follows:

(1) For a processor of beef products, the person’s threshold interest begins at ten percent.

(2) For a processor of pork products, the person’s threshold interest begins at ten percent for a processor of pork products having a total annual wholesale value of at least eighty million dollars and decreases to one percent for a processor of pork products having a total annual wholesale value of at least two hundred sixty million dollars. The amount of the decrease in the amount of the threshold interest shall equal one percent for each increased increment of twenty million dollars in total annual wholesale value.

b. The person holds an executive position in a processor of pork products or owes a processor of pork products a fiduciary duty if the processor directly or indirectly controls the processing of pork products having a total annual wholesale value of two hundred sixty million dollars or more. A person who held such an executive position or owed a fiduciary duty shall be deemed to still hold the position or owe the duty for a two-year period following the date that the person relinquishes the position or duty. An executive position in a processor organized as a business association includes but is not limited to a member of a board of directors or an officer of a corporation or cooperative association, a director or officer of a joint stock company or joint stock association, a manager of a limited liability company, a general partner of a limited partnership, or a trustee of a trust.

11. “*Qualified processor*” means a processor of pork products if all of the following apply:

a. (1) (a) Swine producers exercise a controlling interest in the processor. “*Controlling interest*” means actual control or the possession directly or indirectly of the power to direct or cause the direction of the management and policies of a processor, whether through the ownership of voting securities, by contract, or otherwise.

(b) Of the total interest held by all persons in the processor, swine producers hold at least sixty percent of the interest. In addition, of the total interest held by all persons in the processor, swine producers hold at least sixty percent of interests with voting rights.

(2) Of the total interest held by all persons in the processor, all retailers hold a total of not more than twenty percent of the interest.

b. Another processor does not hold a direct or indirect interest in the processor. However, this paragraph does not apply to a person deemed to be a processor solely because the person holds a threshold interest in the processor.

c. Not less than ten percent of the swine slaughtered by the processor each day are purchased through cash or spot market purchases.

d. The processor makes cash or spot market purchases of swine under the same terms and conditions from both sellers of swine who hold a direct or indirect interest in the processor and sellers of swine who do not hold a direct or indirect interest in the processor. In making such cash or spot market purchases of swine, the processor shall not provide sellers of swine who hold a direct or indirect interest in the processor with a preference over sellers of swine who do not hold a direct or indirect interest in the processor.

12. “Retailer” means a person who is engaged in the business of selling pork products, if all of the following apply:

203.3 License required — financial responsibility.

1. A person shall not engage in the business of a grain dealer in this state without having obtained a license issued by the department.

2. The type of license required shall be determined as follows:

a. A class 1 license is required if the grain dealer purchases any grain by credit-sale contract, or if the value of grain purchased by the grain dealer from producers during the grain dealer's previous fiscal year exceeds five hundred thousand dollars. Any other grain dealer may elect to be licensed as a class 1 grain dealer.

b. A class 2 license is required for any grain dealer not holding a class 1 license. A class 2 licensee whose purchases from producers during a fiscal year exceed a limit of five hundred thousand dollars in value shall file within thirty days of the date the limit is reached a complete application for a class 1 license. If a class 1 license is denied, the person immediately shall cease doing business as a grain dealer.

3. An application for a license to engage in business as a grain dealer shall be filed with the department and shall be in a form prescribed by the department. The application shall include the name of the applicant, its principal officers if the applicant is a corporation or the active members of a partnership if the applicant is a partnership and the location of the principal office or place of business of the applicant. A separate license shall be required for each location at which records are maintained for transactions of the grain dealer. The application shall be accompanied by a complete financial statement of the applicant setting forth the

assets, liabilities and the net worth of the applicant. The financial statement must be prepared according to generally accepted accounting principles. Assets shall be shown at original cost less depreciation. Upon a written request filed with the department, the department or a designated employee may allow asset valuations in accordance with a competent appraisal. Unpriced contracts shall be shown as a liability and valued at the applicable current market price of grain as of the date the financial statement is prepared.

4. In order to receive and retain a class 1 license the following conditions must be satisfied:

a. The grain dealer shall have and maintain a net worth of at least seventy-five thousand dollars, or maintain a deficiency bond or an irrevocable letter of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of net worth deficiency. However, a person shall not be licensed as a class 1 grain dealer if the person has a net worth of less than thirty-seven thousand five hundred dollars.

b. The grain dealer shall submit, as required by the department, a financial statement that is accompanied by an unqualified opinion based upon an audit performed by a certified public accountant licensed in this state. However, the department may accept a qualification in an opinion that is unavoidable by any audit procedure that is permitted under generally accepted accounting principles. An opinion that is qualified because of a limited audit procedure or because the scope of an audit is limited shall not be accepted by the department. The department shall not require that a grain dealer submit more than one such unqualified opinion per year. The grain dealer, except as provided in section 203.15, may elect to submit a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by the certified public accountant in lieu of the audited financial statement specified in this paragraph. However, at any time the department may require a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by a certified public accountant if the department has good cause. A grain dealer shall submit financial statements to the department in addition to those required in this paragraph if the department determines that it is necessary to verify the grain dealer's financial status or compliance with this subsection.

c. A grain dealer shall submit a report to the department according to procedures required by the department, if the grain dealer provides a bond based in part on the number of bushels of unpaid grain purchased by the grain dealer, as provided in rules adopted by the department, in order to satisfy the current assets to current liabilities ratio requirement of this section. The report shall contain information required by the department, including the number of bushels of unpaid grain purchased by the grain dealer. The grain dealer shall submit the report not more than once each month. However, the department may require that a grain dealer submit a report on a more frequent basis, if the department has good cause.

d. The grain dealer shall have and maintain current assets equal to at least one hundred percent of current liabilities or provide a bond under the following conditions:

(1) A grain dealer with current assets equal to at least fifty percent of current liabilities shall provide a bond of two thousand dollars for each one thousand dollars or fraction of one thousand dollars of current assets that the grain dealer is lacking to meet the minimum requirement. After the amount of the bond equals one million dollars, the grain dealer may elect to base the remainder of the amount of the bond on the number of bushels of unpaid grain being purchased by the grain dealer, as provided for by rules which shall be adopted by the department. The remaining amount shall equal two thousand dollars for each one thousand dollars of the highest amount of bushels of unpaid grain purchased by the grain dealer during each month.

(2) A grain dealer with current assets equal to less than fifty percent of current liabilities shall provide a bond of two thousand dollars for each one thousand dollars or fraction of one thousand dollars of current assets that the grain dealer is lacking to meet the minimum requirement. However, the bond shall not be used for longer than thirty consecutive days in a twelve-month period.

5. In order to receive and retain a class 2 license the following conditions must be satisfied:

a. The grain dealer shall have and maintain a net worth of at least thirty-seven thousand five hundred dollars, or maintain a deficiency bond or an irrevocable letter of credit in the

amount of two thousand dollars for each one thousand dollars or fraction thereof of net deficiency. However, a person shall not be licensed as a class 2 grain dealer if the person has a net worth of less than seventeen thousand five hundred dollars.

b. The grain dealer shall submit, as required by the department, a financial statement that is accompanied by an unqualified opinion based upon an audit performed by a certified public accountant licensed in this state. However, the department may accept a qualification in an opinion that is unavoidable by any audit procedure that is permitted under generally accepted accounting principles. An opinion that is qualified because of a limited audit procedure or because the scope of an audit is limited shall not be accepted by the department. The department shall not require that a grain dealer submit more than one such unqualified opinion per year. The grain dealer may elect, however, to submit a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by the certified public accountant in lieu of the audited financial statement specified in this paragraph. However, at any time the department may require a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by a certified public accountant if the department has good cause. A grain dealer shall submit financial statements to the department in addition to those required in this paragraph if the department determines that it is necessary to verify the grain dealer's financial status or compliance with this section.

c. A grain dealer shall submit a report to the department according to procedures required by the department, if the grain dealer provides a bond based in part on the number of bushels of unpaid grain purchased by the grain dealer, as provided in rules adopted by the department, in order to satisfy the current assets to current liabilities ratio requirement of this section. The report shall contain information required by the department, including the number of bushels of unpaid grain purchased by the grain dealer. The grain dealer shall submit the report not more than once each month. However, the department may require that a grain dealer submit a report on a more frequent basis, if the department has good cause.

d. The grain dealer shall have and maintain current assets equal to at least one hundred percent of current liabilities or provide a bond under the following conditions:

(1) A grain dealer with current assets equal to at least fifty percent of current liabilities shall provide a bond of two thousand dollars for each one thousand dollars or fraction of one thousand dollars of current assets that the grain dealer is lacking to meet the minimum requirement. After the amount of the bond equals one million dollars, the grain dealer may elect to base the remainder of the amount of the bond on the number of bushels of unpaid grain being purchased by the grain dealer, as provided for by rules which shall be adopted by the department. The remaining amount shall equal two thousand dollars for each one thousand dollars of the highest amount of bushels of unpaid grain purchased by the grain dealer during each month.

(2) A grain dealer with current assets equal to less than fifty percent of current liabilities shall provide a bond of two thousand dollars for each one thousand dollars or fraction of one thousand dollars of current assets that the grain dealer is lacking to meet the minimum requirement. However, the bond shall not be used for longer than thirty consecutive days in a twelve-month period.

6. The department shall adopt rules relating to the form and time of filing of financial statements. The department may require additional information or verification with respect to the financial resources of the applicant and the applicant's ability to pay producers for grain purchased from them.

7. a. When the net worth or current ratio of a licensee in good standing is less than that required by this section, the grain dealer shall correct the deficiency or file a deficiency bond or an irrevocable letter of credit within thirty days of written notice by the department. Unless the deficiency is corrected or the deficiency bond or irrevocable letter of credit is filed within thirty days, the grain dealer license shall be suspended.

b. If the department finds that the welfare of grain producers requires emergency action, and incorporates a finding to that effect in its order, immediate suspension of a license may be ordered notwithstanding the thirty-day period otherwise allowed by paragraph "a".

8. A deficiency bond or irrevocable letter of credit filed with the department pursuant to

this section shall not be canceled by the issuer on less than ninety days' notice by certified mail to the secretary of agriculture and the principal.

1. The department may inspect the premises used by any grain dealer in the conduct of the dealer's business at any time. The department may inspect a grain dealer's records that pertain to grain transactions during ordinary business hours. The department shall inspect a grain dealer's records at least once each eighteen-month period without justification. 1. The department shall establish, by rule, civil penalties which may be administratively or judicially assessed against a grain dealer for a violation of this chapter.

2. The amount of a civil penalty shall not exceed one thousand five hundred dollars. Each day that a violation continues shall constitute a separate violation. The amount of the civil penalty that may be assessed in a case shall not exceed the amount recommended by the grain industry peer review panel established pursuant to section 203.11B. Moneys collected in civil penalties by the department or the attorney general shall be deposited in the general fund of the state.

3. A civil penalty may be administratively assessed only after an opportunity for a contested case hearing under chapter 17A. The department may be represented in an administrative hearing or judicial proceeding by the attorney general. A civil penalty shall be paid within thirty days from the date that an order or judgment for the penalty becomes final. When a person against whom a civil penalty is administratively assessed under this section seeks timely judicial review of an order imposing the penalty as provided under chapter 17A, the order is not final until all judicial review processes are completed. When a person against whom a civil penalty is judicially assessed under this section seeks a timely appeal of judgment, the judgment is not final until the right of appeal is exhausted.

203.11B Grain industry peer review panel.

1. The department shall establish a grain industry peer review panel to assist the department in assessing civil penalties pursuant to this section and section 203C.36A. The secretary of agriculture shall appoint to the panel the following members:

a. Two natural persons who are grain dealers licensed under this chapter and actively engaged in the grain dealer business.

b. Two natural persons who are warehouse operators licensed pursuant to chapter 203C and actively engaged in the grain warehouse business.

c. One natural person who is a producer actively engaged in grain farming.

2. a. The members appointed pursuant to this section shall serve four-year terms beginning and ending as provided in section 69.19. However, the secretary of agriculture shall appoint initial members to serve for less than four years to ensure that members serve staggered terms. A member is eligible for reappointment. A vacancy on the panel shall be filled for the unexpired portion of the regular term in the same manner as regular appointments are made.

b. The panel shall elect a chairperson who shall serve for a term of one year. The panel shall meet on a regular basis and at the call of the chairperson or upon the written request to the chairperson of three or more members. Three members constitute a quorum and the affirmative vote of a majority of the members present is necessary for any substantive action to be taken by the panel. The majority shall not include any member who has a conflict of interest and a statement by a member that the member has a conflict of interest is conclusive for this purpose. A vacancy in the membership does not impair the duties of the panel.

c. Notwithstanding section 7E.6, the members shall only receive reimbursement for actual expenses for performance of their official duties, as provided by the department.

d. The panel shall be staffed by employees of the department.

3. The panel may propose a schedule of civil penalties for minor and serious violations of this chapter and chapter 203C. The department may adopt rules based on the recommendations of the panel as approved by the secretary of agriculture.

4. a. The panel shall review cases of grain dealers regulated under this chapter and warehouse operators regulated under chapter 203C who are subject to civil penalties as provided in section 203.11A or 203C.36A. A review shall be performed upon the request of the department or the person subject to the civil penalty.

b. The department shall present reports to the panel in regard to investigations of cases under review which may result in the assessment of a civil penalty against a person. The reports may be reviewed by the panel in closed session pursuant to section 21.5, and are confidential records. In presenting the reports, the department shall make available to the panel records of persons which are otherwise confidential under section 22.7, 203.16, or 203C.24. The panel members shall maintain the confidentiality of records made available to the panel. However, a determination to assess a civil penalty against a person shall be made exclusively by the department.

c. The panel may establish procedures for the review and establish a system of prioritizing cases for review, consistent with rules adopted by the department. The department shall adopt rules establishing a period for the review and response by the panel which must be completed prior to a contested case hearing under chapter 17A. A hearing shall not be delayed after the required period for review and response, except as provided in chapter 17A or the Iowa rules of civil procedure. The rules adopted by the department may exclude review of minor violations. The review may also include the manner of assessing and collecting the civil penalty.

d. The findings and recommendations of the panel shall be included in a response delivered to the department and the person subject to the civil penalty. The response may include a recommendation that a proposed civil penalty be modified or suspended, that an alternative method of collection be instituted, or that conditions be placed upon the license of a grain dealer as provided in section 203.3 or the license of a warehouse operator as provided in section 203C.6.

5. This section does not apply to an action by the department for a license suspension or revocation. This section also does not require a review or response if the case is subject to criminal prosecution or involves a petition seeking injunctive relief.

6. A response by the panel may be used as evidence in an administrative hearing or in a civil or criminal case except to the extent that information contained in the response is considered confidential pursuant to section 22.7, 203.16, or 203C.24.

203.12 Claims — cessation of a license and notice of license revocation.

1. Upon the cessation of a grain dealer license by revocation, cancellation, or expiration, any claim for the purchase price of grain against the grain dealer shall be made in writing and filed with the grain dealer and with the issuer of a deficiency bond or of an irrevocable letter of credit and with the department within one hundred twenty days after the date of the cessation. A failure to make this timely claim relieves the issuer and the grain depositors and sellers indemnity fund provided in chapter 203D of all obligations to the claimant.

2. Upon the revocation of a grain dealer license, the department shall cause notice of the revocation to be published once each week for two consecutive weeks in a newspaper of general circulation within the state of Iowa and in a newspaper of general circulation within the county of the grain dealer's principal place of business when that dealer's principal place of business is located in the state of Iowa. The notice shall state the name and address of the grain dealer and the effective date of revocation. The notice shall also state that any claims against the grain dealer shall be made in writing and sent by ordinary mail or delivered personally within one hundred twenty days after revocation to the grain dealer, to the issuer of a deficiency bond or of an irrevocable letter of credit, and to the department, and the notice

shall state that the failure to make a timely claim does not relieve the grain dealer from liability to the claimant.

203.12A Lien on grain dealer assets.

1. a. As used in this section:

(1) “*Grain dealer assets*” includes proceeds received or due a grain dealer upon the sale, including exchange, collection, or other disposition, of grain sold by the grain dealer. “*Grain dealer assets*” also includes any other funds or property of the grain dealer which can be directly traced as being from the sale of grain by the grain dealer, or which were utilized in the business operation of the grain dealer.

(2) “*Proceeds*” means noncash and cash proceeds as defined in section 554.9102.

b. A court, upon petition by an affected party, may order that claimed grain dealer assets are not grain dealer assets as defined in this section. The burden of proof shall be upon the petitioner to establish that the assets are not grain dealer assets as defined in this section.

2. A statutory lien is imposed on all grain dealer assets in favor of sellers who have surrendered warehouse receipts or other written evidence of ownership as part of a grain sale transaction or who possess written evidence of the sale of grain to a grain dealer, without receiving full payment for the grain.

3. The lien shall arise at the time of surrender of warehouse receipts or other written evidence of ownership as part of a grain sale transaction or the time of delivery of the grain for sale, and shall terminate when the liability of the grain dealer to the seller has been discharged. The lien of all sellers is hereby assigned to the Iowa grain indemnity fund board, on behalf of the grain depositors and sellers indemnity fund.

4. To perfect the lien, the Iowa grain indemnity fund board must file a lien statement with the office of the secretary of state. The lien statement is valid only if filed on or after the date of suspension but not later than sixty days after the incurrence date as provided in section 203D.6. The lien statement shall disclose the name of the grain dealer, the address of the dealer’s principal place of business, a description of identifiable grain dealer assets, and the amount of the lien. The lien amount shall be the board’s estimate of the final cost of reimbursing the grain depositors and sellers indemnity fund for the payment of claims against the fund resulting from the breach of the grain dealer’s obligations. The board shall correct the amount not later than one hundred eighty days following the incurrence date. A court, upon petition by an affected person, may correct the amount. The board shall have the burden of proving that the amount is an accurate estimate.

5. The Iowa grain indemnity fund board, upon written demand of the grain dealer, shall file a termination statement with the secretary of state, if after one hundred eighty days from the date that the lien is perfected the grain dealer’s license has not ceased by revocation, cancellation, or expiration. Upon filing the termination statement, the lien becomes unperfected. The board shall also deliver a copy of the termination statement to the grain dealer.

6. The secretary of state shall note the filing of a lien statement under this section in a manner provided by chapter 554, the uniform commercial code. The secretary shall note the filing of a termination statement with the lien statement.

7. A lien statement filed under this section shall be a security interest perfected under chapter 554 and subject to the same priority as provided under section 554.9322.

8. If the grain dealer is also licensed under chapter 203C, and in the event the department is appointed as a receiver under section 203C.3, assets under the authority of the receiver are free from this statutory lien. However, if there are receivership assets in excess of those necessary to fully reimburse depositors, the perfected lien will attach to those excess assets.

9. a. The board may enforce the lien in the manner provided in chapter 554, article 9, part 6, for the enforcement of security interests. If, upon enforcement of the lien, the lien amount

is satisfied in full without exhaustion of the grain dealer assets, the remaining assets shall be returned to the grain dealer or, if there are competing claims to those remaining assets by other creditors, shall place those assets in the custody of the district court and implead the known creditors.

b. For purposes of enforcement of the lien, the board is deemed to be the secured party and the grain dealer is deemed to be the debtor, and each has the respective rights and duties of a secured party and a debtor as provided in chapter 554, article 9, part 6. If a right or duty under chapter 554, article 9, part 6, is contingent upon the existence of express language in a security agreement, or may be waived by express language in a security agreement, the requisite language is deemed not to exist for purposes of enforcement of the lien created by this section.

10. Actions relating to this section shall be brought in the district court in the county in which the grain dealer's primary place of business is located or in Polk county.

203.12B Appointment of department as receiver.

1. As used in this section:

a. "*Grain dealer assets*" means the same as defined in section 203.12A, including any proceeds from a deficiency bond or irrevocable letter of credit, or any insurance policy relating to those assets.

b. "*Interested seller*" means a person who delivers or has delivered grain to a grain dealer who has not been paid as provided in section 203.8 or according to the terms of a credit-sale contract breached by the grain dealer.

c. "*Issuer*" means a person who issues a deficiency bond or an irrevocable letter of credit pursuant to section 203.3, or an issuer of grain assets.

2. a. The department may file a verified petition in district court requesting that the department be appointed as a receiver, and the district court shall appoint the department as receiver, in order to protect interested sellers, if any of the following apply:

(1) The grain dealer's license is revoked or suspended under section 203.10.

(2) There is evidence that the grain dealer has engaged or is engaging in business under this chapter without obtaining a license as required pursuant to section 203.3.

b. Upon being appointed as a receiver, the department shall take custody and provide for the disposition of the grain dealer assets of the grain dealer under the supervision of the court.

(1) The petition shall be filed in the county in which the grain dealer maintains its principal place of business in this state. The court may issue ex parte any temporary order as it determines necessary to preserve or protect the grain dealer assets and the rights of interested sellers.

(2) The petition shall be accompanied by the department's plan for disposition of grain dealer assets which shall provide terms as may be necessary to preserve or protect the grain dealer assets and the rights of interested sellers, less expenses incurred by the department in connection with the receivership. The plan may provide for the delivery or sale of grain as provided in section 203C.4. The plan may provide for the operation of the business of the grain dealer on a temporary basis and any other course of action or procedure which will serve the interests of interested sellers.

(3) The petition shall be filed with the clerk of the district court who shall set a date for a hearing in the same manner as provided in section 203C.3.

(4) Copies of the petition, the notice of hearing, and the department's plan of disposition shall be delivered to the following:

(a) The grain dealer and each issuer who shall receive copies delivered in the manner required for service of an original notice.

(b) Interested sellers as determined by the department who shall receive copies delivered by ordinary mail.

(5) The failure of a person to receive the required notification shall not invalidate the

proceedings on the petition or any part of the petition for the appointment of the department as the receiver.

(6) A person is not a party to the action unless admitted by the court upon application.

3. When appointed as a receiver, the department shall publish notice of the appointment in the same manner provided in section 203C.3.

4. The department may employ or appoint a person to appear on behalf of the department in any proceedings before the court as provided in section 203C.3.

5. An action of the department shall not be subject to the provisions of chapter 17A. A person employed or appointed by the department as receiver shall be deemed to be an employee of the state as defined in section 669.2. Chapter 669 is applicable to any claim as defined in section 669.2 against the person carrying out the duties of the department acting as receiver.

6. When the department is appointed as a receiver, the issuer shall be joined as a party, and may be ordered by the court to pay indemnification proceeds, and shall be discharged from further liability as provided in section 203C.4. The department shall provide notice to interested sellers within one hundred twenty days after the date of appointment. A failure of a person to file a timely claim as provided by the department shall defeat the claim, except to the extent of any excess grain dealer assets remaining after all timely claims are paid in full.

7. If the court approves the sale of grain, the department shall employ or appoint a merchandiser who shall enjoy the same status, exercise the same powers, and receive compensation to the same extent as a merchandiser employed or appointed pursuant to section 203C.4. A person employed or appointed as a merchandiser must meet the following requirements:

a. Be experienced or knowledgeable in the operation of grain dealers as provided in this chapter.

b. Be experienced or knowledgeable in the marketing of grain.

c. Not have had a grain dealer's license issued pursuant to section 203.3 suspended or revoked as provided in section 203.10.

d. Not have any pecuniary interest in the grain dealer assets of the grain dealer and not have a business relationship with the grain dealer.

8. The sale of the grain shall proceed in the same manner as grain sold pursuant to section 203C.4. The department may, with the approval of the court, continue the operation of all or any part of the business of the grain dealer on a temporary basis and take any other course of action or procedure which will serve the interests of interested sellers. The department is entitled to reimbursement out of grain dealer assets for costs directly attributable to the receivership. The department shall be reimbursed from the grain dealer assets in the same manner as provided in section 203C.4. If the approved plan of disposition requires a distribution of cash proceeds, the department shall submit to the court a proposed plan of distribution of those proceeds. The plan shall be approved and executed and the department shall be discharged and the receivership terminated in the same manner as provided in section 203C.4.

203.15 Credit-sale contracts.

A grain dealer shall not purchase grain by a credit-sale contract except as provided in this section.

1. The grain dealer shall be licensed pursuant to section 203.3. All of the following shall

apply to a grain dealer required to be licensed under that section who purchases grain by credit-sale contract:

a. The grain dealer shall give written notice to the department prior to engaging in the purchase of grain by credit-sale contract. The notice shall contain information required by the department.

b. All credit-sale contract forms in the possession of the grain dealer shall have been permanently and consecutively numbered at the time of printing of the forms. The grain dealer shall maintain an accurate record of all credit-sale contract forms and numbers obtained by that dealer. The record shall include the disposition of each numbered form, whether by execution, destruction, or otherwise.

c. The grain dealer who purchases grain by credit-sale contract shall maintain records as required by the department in compliance with this section.

2. In addition to other information as may be required, a credit-sale contract shall contain or provide for all of the following:

a. The seller's name and address.

b. The conditions of delivery.

c. The amount and kind of grain delivered.

d. The price per bushel or basis of value.

e. The date payment is to be made.

f. The duration of the credit-sale contract, which shall not exceed fifteen months from the date the contract is executed.

3. Title to all grain sold by a credit-sale contract is in the purchasing grain dealer as of the time the contract is executed, unless the contract provides otherwise. The contract must be signed and dated by both parties and executed in duplicate. One copy shall be retained by the grain dealer and one copy shall be delivered to the seller. Upon the cessation of the grain dealer's license by revocation, cancellation, or expiration, the payment date for all credit-sale contracts shall be advanced to a date not later than thirty days after the effective date of the cessation, and the purchase price for all unpriced grain shall be determined as of the effective date of the cessation in accordance with all other provisions of the contract. However, if the business of the grain dealer is sold to another licensed grain dealer, credit-sale contracts may be assigned to the purchaser of the business.

4. a. A grain dealer shall not purchase grain on credit-sale contract during any time period in which the grain dealer fails to maintain fifty cents of net worth for each outstanding bushel of grain purchased under credit. The grain dealer may maintain a deficiency bond or an irrevocable letter of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of deficiency in net worth.

b. A grain dealer who is also a warehouse operator licensed by the department under chapter 203C or the United States department of agriculture under the United States Warehouse Act, and who does not have a sufficient quantity or quality of grain to satisfy the warehouse operator's obligations based on an examination by the department or the United States department of agriculture shall not purchase grain on credit-sale contract to correct the shortage of grain.

c. (1) A grain dealer must meet at least either of the following conditions:

(a) The grain dealer's last financial statement required to be submitted to the department pursuant to section 203.3 is accompanied by an unqualified opinion based upon an audit performed by a certified public accountant licensed in this state.

(b) The grain dealer files a bond with the department in the amount of one hundred thousand dollars payable to the department.

(2) (a) The bond filed with the department under this paragraph shall be used to indemnify sellers for losses resulting from a breach of a credit-sale contract as provided by rules adopted by the department. The rules shall include but are not limited to procedures and criteria for providing notice, filing claims, valuing losses, and paying claims. The bond provided in this paragraph shall be in addition to any other bond required in this chapter.

(b) The bond shall not be canceled by the issuer on less than ninety days' notice by certified mail to the department and the principal. However, if an adequate replacement

bond is filed with the department, the department may authorize the cancellation of the original bond before the end of the ninety-day period.

(c) If an adequate replacement bond is not received by the department within sixty days of the issuance of the notice of cancellation, the department shall suspend the grain dealer's license. The department shall cause an inspection of the licensed grain dealer immediately at the end of the sixty-day period. If a replacement bond is not filed within another thirty days following the suspension, the department shall revoke the grain dealer's license .

(3) When a license is revoked, the department shall provide notice of the revocation by ordinary mail to the last known address of each holder of an outstanding credit-sale contract and all known sellers.

5. The department may suspend the right of a grain dealer to purchase grain by credit-sale contract based on any of the following conditions:

a. The grain dealer who is also a warehouse operator licensed by the department under chapter 203C or the United States department of agriculture under the United States Warehouse Act does not have a sufficient quantity or quality of grain to satisfy the warehouse operator's obligations based on an examination by the department or the United States department of agriculture.

b. The grain dealer who is also a warehouse operator licensed by the department under chapter 203C or the United States department of agriculture under the United States Warehouse Act issues back to the grain dealer a warehouse receipt for purposes of providing collateral, if the grain which is the subject of the warehouse receipt was purchased on credit and is unpaid for by the grain dealer.

c. The grain dealer fails to maintain requirements relating to net worth or fails to maintain a ratio of current assets to current liabilities, as required in section 203.3.

d. The grain dealer violates this section.

e. The grain dealer's total liabilities are greater than seventy-five percent of the grain dealer's total assets.

f. The grain dealer has made payment by use of a check or electronic funds transfer, and a financial institution refuses payment because of insufficient funds in a grain dealer's account.

g. The department discovers that a grain dealer has delayed payment for grain purchased since the department last inspected the grain dealer pursuant to section 203.9.

6. A grain dealer who purchases grain by credit-sale contract shall obtain from the seller a signed acknowledgment stating that the seller has received notice that grain purchased by credit-sale contract is not protected by the grain depositors and sellers indemnity fund. The form for the acknowledgment shall be prescribed by the department, and the licensed grain dealer and the seller shall each be provided a copy.

203.20 Shrinkage adjustments — disclosures — penalties.

1. A person who, in connection with the receipt of grain for storage, processing, or sale, adjusts the scale weight of the grain to compensate for the moisture content of the grain shall

compute the amount of the adjustment by multiplying the scale weight of the grain by that factor which results in a rate of adjustment of one and eighteen hundredths percent of weight per one percent of moisture content. The person who uses any rate of weight adjustment for moisture content other than the one prescribed by this subsection commits a fraudulent practice as defined in section 714.8. The person shall post on the business premises in a conspicuous place notice of the rate of adjustment for moisture content as prescribed by this subsection. The person who fails to make this disclosure commits a simple misdemeanor.

2. A person who, in connection with the receipt of grain for storage, processing, or sale, adjusts the quantity of the grain received to compensate for losses to be incurred during the handling, processing, or storage of the grain shall post on the business premises in a conspicuous place notice of the rate of adjustment to be made for this shrinkage. The person who fails to make this disclosure commits a simple misdemeanor.

3. A person who adjusts the scale weight of grain for moisture content and for handling, processing, or storage losses may combine the two adjustment factors into a single factor and may use this resulting factor to compute the amount of weight adjustment in connection with storage, processing, or sale transactions, provided that the person shall post on the business premises in a conspicuous place a notice that discloses the moisture shrinkage factor prescribed by subsection 1, the handling shrinkage factor to be imposed, and the single factor that results from combining these factors. The person who fails to make this disclosure commits a simple misdemeanor.

203.22 Prioritization of inspections of grain dealers.

The department shall develop a system to prioritize the inspections of grain dealers provided in section 203.9. The system of prioritization shall be computed each year based on the risk of loss to the grain depositors and sellers indemnity fund caused by the possible insolvency of the grain dealer. The department shall compute the risk by utilizing an available statistical model to measure the financial condition of grain dealers, and especially grain dealers who execute credit-sale contracts. Procedures for utilizing the statistical model shall be adopted by department rules. The statistical model shall be used to provide risk ratings. A risk rating shall be used as a factor by the department to prioritize its inspection schedule. The department may use a risk rating produced by the statistical model as justification to inspect the grain dealer at any time. A substantial risk of loss to the grain depositors and sellers indemnity fund caused by the possible insolvency of the grain dealer based on the statistical model shall be good cause.

203C.2 Duties and powers of the department — operator recordkeeping.

1. The department shall administer this chapter and may exercise general supervision over the storage, warehousing, classifying according to grade or otherwise, weighing, and certification of agricultural products.

2. The department may inspect or cause to be inspected any warehouse including warehouse records as provided in this section. Inspections may be made at times and for purposes as the department determines. Except as provided in section 203C.6, the department shall inspect every licensed warehouse and its contents once every twelve months. The department shall prioritize inspections based on the system provided in section 203C.40. The department may require the filing of reports relating to a warehouse or its operation.

a. A licensed warehouse operator operating a licensed warehouse shall provide for complete and correct recordkeeping. The records shall account for the storage and withdrawal of all agricultural products handled in each warehouse which the warehouse operator is licensed to operate. The records shall include all original and duplicate receipts issued by, returned to, and canceled by the warehouse operator. A licensed warehouse operator shall keep records for the previous six years. If the licensed warehouse operator’s records are incomplete or inaccurate, the department may reconstruct the warehouse operator’s records in order to determine whether the warehouse operator is in compliance with the provisions of this chapter. The department may charge the licensed warehouse operator the actual cost for reconstructing the warehouse operator’s records.

b. If upon inspection of a warehouse a deficiency is found to exist as to the quantity or quality of agricultural products stored, as indicated on the warehouse operator’s books and records according to official grain standards, the department may require an employee of the department to remain at the licensed warehouse and supervise all operations involving agricultural products stored there under this chapter until the deficiency is corrected. The charge for the cost of maintaining an employee of the department at a warehouse to supervise the correction of a deficiency is one hundred fifty dollars per day.

3. The department may make available to the United States government, or any of its agencies, including the commodity credit corporation, the results of inspections made and inspection reports submitted to it by employees of the department, upon payment to it of charges as determined by the department, but the charges shall not be less than the actual cost of services rendered, as determined by the department. The department may enter into contracts and agreements for such purpose and shall keep a record of all money thus received.

4. The department may classify any warehouse in accordance with its suitability for the storage of agricultural products and shall specify in any license issued for the operation of a warehouse the only type or types and the quantity of agricultural products which may be stored in the warehouse. The department may prescribe, within the limitations of this chapter, the duties of licensed warehouse operators with respect to the care of and

responsibility for the contents of licensed warehouses. Grain grades shall be determined under the official grain standards. The department may from time to time publish data in connection with the administration of this chapter as may be of public interest.

5. Moneys received by the department in administering this section shall be considered repayment receipts as defined in section 8.2.

203C.3 Appointment of department as receiver.

1. The department in its discretion may, following summary suspension of a license under section 203C.10, or following a suspension or revocation of a license as otherwise provided in section 203C.10 or 203C.11, file a verified petition in the district court requesting that the department be appointed as a receiver to take custody of commodities stored in the licensee's warehouse and to provide for the disposition of those assets in the manner provided in this chapter and under the supervision of the court. The petition shall be filed in the county in which the warehouse is located. The district court shall appoint the department as receiver. Upon the filing of the petition the court shall issue ex parte such temporary orders as may be necessary to preserve or protect the assets in receivership, or the value thereof, and the rights of depositors, until a plan of disposition is approved.

2. A petition filed by the department under subsection 1 shall be accompanied by the department's plan for disposition of stored commodities. The plan may provide for the pro rata delivery of part or all of the stored commodities to depositors holding warehouse receipts or unpriced scale weight tickets, or may provide for the sale under the supervision of the department of part or all of the stored commodities for the benefit of those depositors, or may provide for any combination thereof, as the department in its discretion determines to be necessary to minimize losses.

3. When a petition is filed by the department under subsection 1 the clerk of court shall set a date for hearing on the department's proposed plan of disposition at a time not less than ten nor more than fifteen days after the date the petition is filed. Copies of the petition, the notice of hearing, and the department's plan of disposition shall be served upon the licensee and upon the issuer of a deficiency bond or of an irrevocable letter of credit pursuant to section 203C.6 in the manner required for service of an original notice. A delay in effecting service upon the licensee or issuer is not cause for denying the appointment of a receiver and is not grounds for invalidating any action or proceeding in connection with the appointment.

4. The department shall cause a copy of each of the documents served upon the licensee under subsection 3 to be mailed by ordinary mail to every person holding a warehouse receipt or unpriced scale weight ticket issued by the licensee, as determined by the records of the licensee or the records of the department. The failure of any person referred to in this subsection to receive the required notification shall not invalidate the proceedings on the petition for the appointment of a receiver or any portion thereof. Persons referred to in this subsection are not parties to the action unless admitted by the court upon application therefor.

5. When appointed as a receiver under this chapter, the department shall cause notification of the appointment to be published once each week for two consecutive weeks in a newspaper of general circulation in each of the counties in which the licensee maintains a business location, and in a newspaper of general circulation in this state.

6. The department may designate an employee of the department to appear on behalf of the department in any proceedings before the court with respect to the receivership, and to exercise the functions of the department as receiver under this section and section 203C.4, except that the department shall determine whether or not to petition for appointment as receiver, shall approve the proposed plan for disposition of stored commodities, shall approve

the proposed plan for distribution of any cash proceeds, and shall approve the proposed final report.

7. The actions of the department in connection with petitioning for appointment as a receiver, and all actions pursuant to such appointment, shall not be subject to the provisions of the administrative procedure Act, chapter 17A.

8. A person employed or appointed by the department and carrying out the duties of the department acting as receiver under this chapter shall be deemed to be an employee of the state as defined in section 669.2. Chapter 669 is applicable to any claim as defined in section 669.2 against the person carrying out the duties of the department acting as receiver.

203C.4 Powers and duties of receiver.

1. When the department is appointed as receiver under this chapter the issuer of a deficiency bond or of an irrevocable letter of credit pursuant to section 203C.6 shall be joined as a party defendant by the department. If required by the court, the issuer shall pay the indemnification proceeds or so much thereof as the court finds necessary into the court, and when so paid the issuer shall be absolutely discharged from any further liability under the bond or irrevocable letter of credit to the extent of the payment.

2. When appointed as receiver under this chapter the department is authorized to give notice in the manner specified by the court to persons holding warehouse receipts or other evidence of deposit issued by the licensee to file their claims within one hundred twenty days after the date of appointment. Failure to timely file a claim shall defeat the claim with respect to the issuer of a deficiency bond or of an irrevocable letter of credit, grain depositors and sellers indemnity fund created in chapter 203D, and any commodities or proceeds from the sale of commodities, except to the extent of any excess commodities or proceeds of sale remaining after all timely claims are paid in full.

3. When the court approves the sale of commodities, the department shall employ a merchandiser to effect the sale of those commodities. A person employed or appointed as a merchandiser is deemed to be an employee of the state as defined in section 669.2 and chapter 669 is applicable to any claim as defined in section 669.2 against the person acting as a merchandiser. A person employed as a merchandiser must meet the following requirements:

a. The person shall be experienced or knowledgeable in the operation of warehouses licensed under this chapter; and if the person has ever held a license issued under this chapter, the person shall never have had that license suspended or revoked.

b. The person shall be experienced or knowledgeable in the marketing of agricultural products.

c. The person shall not be the holder of a warehouse receipt or scale weight ticket issued by the licensee, and shall not have a claim against the licensee whether as a secured or unsecured creditor, and otherwise shall not have any pecuniary interest in the licensee or the licensee's business. The merchandiser shall be entitled to reasonable compensation as determined by the department, payable out of funds appropriated for operating expenses of the department. A sale of commodities shall be made in a commercially reasonable manner and under the supervision of the warehouse bureau of the department. The department shall provide for the payment out of appropriations to the department of all expenses incurred in handling and disposing of commodities. The department shall have authority to sell the commodities, any provision of chapter 554 to the contrary notwithstanding, and any commodities so sold shall be free of all liens and other encumbrances.

4. The plan of disposition, as approved by the court, shall provide for the distribution of the stored commodities, or the proceeds from the sale of commodities, or the proceeds from any insurance policy, deficiency bond, or irrevocable letter of credit, less expenses incurred by the department in connection with the receivership, to depositors as their interests are

determined. Distribution shall be without regard to any setoff, counterclaim, or storage lien or charge.

5. The department may, with the approval of the court, continue the operation of all or any part of the business of the licensee on a temporary basis and take any other course of action or procedure which will serve the interests of the depositors.

6. The department is entitled to reimbursement out of commodities or proceeds held in receivership for all expenses incurred as court costs or in handling and disposing of stored commodities, and for all other costs directly attributable to the receivership. The right of reimbursement of the department is prior to any claims against the commodities or proceeds of sales of commodities, and constitutes a claim against a deficiency bond or irrevocable letter of credit.

7. If the approved plan of disposition requires a distribution of cash proceeds, the department shall submit to the court a proposed plan of distribution of those proceeds. Upon notice and hearing as required by the court, the court shall accept or modify the proposed plan. When the plan is approved by the court and executed by the department, the department shall be discharged and the receivership terminated.

8. At the termination of the receivership the department shall file a final report containing the details of its actions, together with such additional information as the court may require.

203C.5 Rules — documents and forms.

1. The department shall adopt rules as it deems necessary for the efficient administration of this chapter, and may designate an employee or officer of the department to act for the department in any details connected with administration, including the issuance of licenses and approval of deficiency bonds or irrevocable letters of credit in the name of the department, but not including matters requiring a public hearing or suspension or revocation of licenses.

2. *a.* The department may adopt rules specifying the form, content, and use of documents issued by a warehouse operator under this chapter including but not limited to scale weight tickets, warehouse receipts, settlement sheets, and daily position records. The department may adopt rules for both printed and electronic documents, including rules for the transmission, receipt, authentication, and archiving of electronically generated or stored documents.

b. All scale weight ticket forms and warehouse receipt forms in the possession of a warehouse operator shall have been permanently and consecutively numbered at the time of printing. A warehouse operator shall maintain an accurate record of the numbers of these documents. The record shall include the disposition of each form, whether issued, destroyed, or otherwise disposed of. The department may by rule require this use of prenumbered forms and recording for documents other than scale weight tickets and warehouse receipts.

203C.6 Issuance of license and financial responsibility.

1. The department, upon application to it, may issue to a warehouse operator or to a person about to become a warehouse operator a license for the operation of a warehouse in accordance with this chapter and the rules adopted by the department under section 203C.5. A single license to operate two or more warehouses located anywhere within the state may be issued.

2. The type of license required shall be determined as follows:

a. A class 1 license is required if the storage capacity of a warehouse is more than one hundred thousand bushels.

b. A class 2 license is required for a warehouse that is not required to have a class 1 license.

3. An application for a warehouse license shall be accompanied by a complete financial statement of the applicant setting forth the assets, liabilities and net worth of the applicant. The financial statement must be prepared according to generally accepted accounting principles. Assets shall be shown at original cost less depreciation. Upon written request, the department may allow asset valuations in accordance with a competent appraisal. Unpriced contracts shall be shown as a liability and valued at the applicable current market price of grain as of the date the financial statement is prepared.

4. In order to receive and retain a class 1 license, the following conditions must be satisfied:

a. The warehouse operator shall have and maintain a net worth of at least twenty-five cents per bushel of warehouse capacity, or maintain a deficiency bond or an irrevocable letter of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of net worth deficiency. However, a person shall not be licensed as a class 1 warehouse operator if the person has a net worth of less than twenty-five thousand dollars.

b. The warehouse operator shall submit, as required by the department, a financial statement that is accompanied by an unqualified opinion based upon an audit performed by a certified public accountant licensed in this state. However, the department may accept a qualification in an opinion that is unavoidable by any audit procedure that is permitted under generally accepted accounting principles. An opinion that is qualified because of a limited audit procedure or because the scope of an audit is limited shall not be accepted by the department. The department shall not require that a warehouse operator submit more than one such unqualified opinion per year. The warehouse operator may elect, however, to submit a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by the certified public accountant in lieu of the audited financial statement specified in this paragraph. However, at any time the department may require a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by a certified public accountant if the department has good cause. A warehouse operator shall submit financial statements to the department in addition to those required in this paragraph if the department determines that it is necessary to verify the warehouse operator's financial status or compliance with this subsection.

5. In order to receive and maintain a class 2 license, the following conditions must be satisfied:

a. The warehouse operator shall have and maintain a net worth of at least twenty-five cents per bushel of warehouse capacity, or maintain a deficiency bond or an irrevocable letter of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of net worth deficiency. However, a person shall not be licensed as a class 2 warehouse operator if the person has a net worth of less than ten thousand dollars.

b. The warehouse operator shall submit, as required by the department, a financial statement that is accompanied by an unqualified opinion based upon an audit performed by a certified public accountant licensed in this state. However, the department may accept a qualification in an opinion that is unavoidable by any audit procedure that is permitted under generally accepted accounting principles. An opinion that is qualified because of a limited audit procedure or because the scope of an audit is limited shall not be accepted by the department. The department shall not require that a warehouse operator submit more than one such unqualified opinion per year. The warehouse operator may elect, however, to submit a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by the certified public accountant in lieu of the audited financial statement specified in this paragraph. However, at any time the department may require a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by a certified public accountant if the department has good cause. A warehouse operator shall submit financial statements to the department in addition to those required

in this paragraph if the department determines that it is necessary to verify the warehouse operator's financial status or compliance with this subsection.

6. The department may adopt rules governing the timing and form of financial statements to be submitted to it. The department may require additional information or verification with respect to the financial resources of the applicant or licensee and the applicant's or licensee's ability to maintain the quantity and quality of stored grain.

7. The department may deny a license to an applicant if the applicant has had a license issued under chapter 203 or this chapter revoked within the past three years, the applicant has been convicted of a felony involving violations of chapter 203 or this chapter, or the applicant is owned or controlled by a person who has had a license so revoked or who has been so convicted.

8. The department may deny a license to an applicant if any of the following apply:

a. The applicant has caused liability to the grain depositors and sellers indemnity fund through operations under a license issued under this chapter or chapter 203, and the liability has not been discharged, settled, or satisfied.

b. The applicant is owned or controlled by a person who has caused liability to the fund through operations under a license issued under this chapter or chapter 203, and the liability has not been discharged, settled, or satisfied.

9. A deficiency bond or irrevocable letter of credit filed with the department pursuant to this section shall not be canceled by the issuer on less than one hundred twenty days' notice by certified mail to the department and the principal.

203C.11 Suspension or revocation for insufficient evidence of financial responsibility — notice.

1. The department shall proceed under section 203C.15 if it has cause to believe that a licensed warehouse operator does not provide for and carry an insurance policy as required in that section.

2. If the department determines that the net worth of a licensed warehouse operator is not in compliance with the requirements of section 203C.6, the department shall issue a notice to the warehouse operator and shall suspend the warehouse operator's license if the warehouse operator does not provide evidence of compliance within thirty days of the issuance of the notice. The department shall inspect the warehouse at the end of the thirty-day period. If evidence of compliance is not provided within sixty days of the issuance of the notice, the department shall revoke the warehouse operator's license, and shall again inspect the warehouse. If a license is revoked, the department shall give notice of the revocation to each holder of an outstanding warehouse receipt and to all known persons who have grain retained in open storage. The revocation notice shall state that the grain must be removed from the warehouse not later than the thirtieth day after the issuance of the revocation notice. The revocation notice shall be sent by ordinary mail to the last known address of each person having grain in storage as provided in this subsection. The department shall conduct a final inspection of the warehouse at the end of the thirty-day period following the issuance of the revocation notice.

3. When the department receives notice that a deficiency bond or irrevocable letter of credit is being canceled by the issuer, and determines that upon the cancellation the warehouse operation will not be in compliance with section 203C.6, the department shall suspend the warehouse operator's license if a new deficiency bond or irrevocable letter of credit is not received by the department within sixty days of receipt by the department of the notice of cancellation. If a new deficiency bond or irrevocable letter of credit is not received by the department within thirty days following suspension, the warehouse operator's license shall be revoked. When a license is revoked, the department shall notify each holder of an outstanding warehouse receipt and all known persons who have grain retained in open storage of the revocation, and shall further notify each receipt holder and all known persons who have grain retained in open storage that the grain must be removed from the warehouse not later than the thirtieth day following revocation. The notice shall be sent by ordinary mail to the last known address of each person having grain in storage as provided in this subsection.

203C.12A Lien on warehouse operator assets.

1. A statutory lien is imposed on all warehouse operator assets in favor of depositors possessing warehouse receipts covering grain stored by the warehouse operator and depositors with written evidence of ownership other than warehouse receipts disclosing a storage obligation of a warehouse operator.

2. "Warehouse operator assets" includes proceeds received or due a warehouse operator upon the sale, including exchange, collection, or other disposition, of grain sold by the

warehouse operator. As used in this section, “proceeds” means noncash and cash proceeds as defined in section 554.9102. “Warehouse operator assets” also includes storage payments received or due to a warehouse operator, grain owned by the warehouse operator, and any other funds or property of the warehouse operator which can be directly traced as being from the sale of grain by the warehouse operator, or which were utilized in the business operation of the warehouse operator. A court, upon petition by an affected party, may order that claimed warehouse operator assets are not warehouse operator assets as defined in this section. The burden of proof shall be upon the petitioner to establish that the assets are not warehouse operator assets as defined in this section.

3. The lien shall arise at the commencement of the storage obligation, and shall terminate when the liability of the warehouse operator to the depositor has been discharged. The lien of all depositors is hereby assigned to the Iowa grain indemnity fund board, on behalf of the grain depositors and sellers indemnity fund.

4. To perfect the lien, the Iowa grain indemnity fund board must file a lien statement with the office of the secretary of state. The lien statement is valid only if filed on or after the date of suspension but not later than sixty days after the incurrence date as provided in section 203D.6. The lien statement shall disclose the name of the warehouse operator, the address of the warehouse operator’s principal place of business, a description of identifiable warehouse operator assets, and the amount of the lien. The lien amount shall be the board’s estimate of the final cost of reimbursing the grain depositors and sellers indemnity fund for the payment of claims made against the fund resulting from the breach of the warehouse operator’s obligations. The board shall correct the amount not later than one hundred eighty days following the incurrence date. A court, upon petition by an affected person, may correct the amount. The board shall have the burden of proving that the amount is an accurate estimate.

5. The Iowa grain indemnity fund board shall upon written demand of the warehouse operator file a termination statement with the secretary of state, if after one hundred eighty days from the date that the lien is perfected the warehouse operator’s license has not ceased by revocation, cancellation, or expiration. Upon filing the termination statement, the lien becomes unperfected. The board shall also deliver a copy of the termination statement to the warehouse operator.

6. The secretary of state shall note the filing of a lien statement under this section in a manner provided by chapter 554, the uniform commercial code. The secretary shall note the filing of a termination statement with the lien statement.

7. A lien statement filed under this section shall be a security interest perfected under chapter 554 and subject to the same priority as provided under section 554.9322.

8. In the event the department is appointed as a receiver under section 203C.3, assets under the authority of the receiver are free from this statutory lien. However, if there are receivership assets in excess of those necessary to fully reimburse depositors, the perfected lien will attach to those excess assets.

9. a. The Iowa grain indemnity fund board may enforce the lien in the manner provided in chapter 554, article 9, part 6, for the enforcement of security interests. If, upon enforcement of the lien, the lien amount is satisfied in full without exhaustion of the warehouse operator assets, the remaining assets shall be returned to the warehouse operator or, if there are competing claims to those remaining assets by other creditors, those assets shall be placed in the custody of the district court and the known creditors impleaded.

b. For purposes of enforcement of the lien, the board is deemed to be the secured party and the warehouse operator is deemed to be the debtor, and each has the respective rights and duties of a secured party and a debtor as provided in chapter 554, article 9, part 6. If a right or duty under chapter 554, article 9, part 6, is contingent upon the existence of express language in a security agreement, or may be waived by express language in a security agreement, the requisite language is deemed not to exist for purposes of enforcement of the lien created by this section.

10. Actions relating to this section shall be brought in the district court in the county in which the warehouse operator's primary place of business is located or in Polk county.

203C.13 Form and amount of evidence of financial responsibility.

1. A warehouse operator who stores only agricultural products other than bulk grain shall have and maintain a net worth of at least ten percent of the value of the warehouse capacity, or maintain a deficiency bond or an irrevocable letter of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of net worth deficiency. However, a person shall not be eligible for a license to store only agricultural products other than bulk grain if the person has a net worth of less than ten thousand dollars.

2. If the agricultural product or products intended to be stored by the warehouse operator, as specified in the application for a license or amended license, are other than bulk grain, the quantity of such product intended to be stored shall be valued at the fair market price on the date of filing the application, and the minimum amount of bond shall be determined with reference to such value as follows:

a. For intended storage of such products of a value less than twenty thousand dollars the minimum amount of the bond shall be three thousand dollars, plus one thousand dollars for each two thousand dollars, or fraction thereof, of value in excess of six thousand dollars up to twenty thousand dollars.

b. For intended storage of such products of a value not less than twenty thousand dollars and not more than fifty thousand dollars the minimum amount of the bond shall be ten thousand dollars plus one thousand dollars for each three thousand dollars, or fraction thereof, of value in excess of twenty thousand dollars up to fifty thousand dollars.

c. For intended storage of such products of a value not less than fifty thousand dollars the minimum amount of the bond shall be twenty thousand dollars plus one thousand dollars for each five thousand dollars, or fraction thereof, of value in excess of fifty thousand dollars.

3. A bond, deficiency bond, or irrevocable letter of credit on agricultural products other than bulk grain shall not be canceled by the issuer on less than one hundred twenty days' notice by certified mail to the department and the principal. When the department receives notice from an issuer that it has canceled the bond, deficiency bond, or irrevocable letter of credit on agricultural products other than bulk grain of a warehouse operator, the department shall suspend the warehouse operator's authorization to store or accept for storage agricultural products other than bulk grain if a new bond, deficiency bond, or irrevocable letter of credit is not received by the department within sixty days of the issuance of the notice of cancellation. The department shall conduct an inspection of the licensee's warehouse immediately at the end of the sixty-day period. If a new bond, deficiency bond, or irrevocable letter of credit is not provided within ninety days of the issuance of the notice of cancellation, the department shall revoke the warehouse operator's authorization to store or accept for storage agricultural products other than bulk grain. The department shall conduct a further inspection of the licensee's warehouse after the ninety-day period. When an authorization to store or accept for storage agricultural products other than bulk grain is revoked, the department shall give notice of the revocation to all known persons who have agricultural products other than bulk grain in storage, and shall notify them that the agricultural products other than bulk grain must be removed from the warehouse not later than one hundred twenty days after the issuance of the notice of cancellation. The revocation notice shall be sent by ordinary mail to the last known address of each person having agricultural products other than bulk grain in storage. The department shall cause a final inspection of the licensee's warehouse after the end of the one hundred twenty-day period.

203C.14 Suit — claims — notice of revocation.

1. A person injured by the breach of an obligation of a warehouse operator, for the performance of which a bond on agricultural products other than bulk grain, a deficiency bond, or an irrevocable letter of credit has been given under any of the provisions of this chapter, may sue on the bond on agricultural products other than bulk grain, deficiency bond, or irrevocable letter of credit in the person's own name in a court of competent jurisdiction to recover any damages the person has sustained by reason of the breach.

2. *a.* Upon the cessation of a warehouse operator's license due to revocation, cancellation, or expiration, a claim against the warehouse operator arising under this chapter shall be made in writing with the warehouse operator, with the issuer of a bond on agricultural products other than bulk grain, a deficiency bond, or an irrevocable letter of credit, and, if the claim relates to bulk grain, with the department. The claim must be made within one hundred twenty days after the cessation of the license. The failure to make a timely claim relieves the issuer and, if the claim relates to bulk grain, the grain depositors and sellers indemnity fund provided in chapter 203D of all obligations to the claimant.

b. Upon revocation of a warehouse license, the department shall cause notice of the revocation to be published once each week for two consecutive weeks in a newspaper of general circulation in each of the counties in which the licensee maintains a business location and in a newspaper of general circulation within the state. The notice shall state the name and address of the warehouse operator and the effective date of revocation. The notice shall also state that any claims against the warehouse operator shall be made in writing and sent by ordinary mail to the warehouse operator, to the issuer of a bond on agricultural products other than bulk grain, deficiency bond, or an irrevocable letter of credit, and to the department within one hundred twenty days after revocation, and the notice shall state that the failure to make a timely claim does not relieve the warehouse operator from liability to the claimant.

c. This subsection does not apply if a receiver is appointed as provided in this chapter pursuant to a petition which is filed by the department prior to the expiration of one hundred twenty days after cessation of warehouse operator's license.

203C.15 Insurance required — exception.

1. A warehouse operator shall maintain insurance coverage as provided in this section. In order to maintain insurance coverage, all agricultural products in storage in a licensed warehouse and all agricultural products which have been deposited temporarily in a licensed warehouse pending storage or for purposes other than storage, shall be kept fully insured by the warehouse operator as provided in this section for the current value of the agricultural products against loss by fire, inherent explosion, windstorm, or any other similar catastrophe designated by rules which may be adopted by the department.

2. The insurance coverage required in subsection 1 shall be carried by one or more insurance companies. Such an insurance company must be all of the following:

a. Organized or operating under the laws of this state or authorized by the laws of this state to do business in this state.

b. An insurer of agricultural products in this state as provided in subsection 1.

3. Insurance coverage may be terminated by its expiration without renewal, or canceled by the insurance company on its own volition or as a result of an action or inaction by the insured licensed warehouse operator.

4. A licensed warehouse operator shall be responsible for providing the department with all of the following:

a. Evidence of insurance coverage as required in subsection 2 that is an insurance policy or other document approved by the department which evidences property and casualty insurance.

b. Proof of insurance which verifies that evidence of insurance coverage submitted by a licensed warehouse operator complies with subsection 1.

5. A warehouse operator must submit evidence of insurance coverage with the department as required by the department. The department must approve the evidence of insurance coverage before the department files it. A warehouse operator shall not be issued a license or retain a license unless evidence of insurance coverage is on file with the department.

6. The department may demand proof of insurance coverage by the licensed warehouse operator, regardless of whether the department has previously approved proof of insurance or approved or filed evidence of insurance coverage. The demand must be in writing and must explain the department's enforcement action resulting from the warehouse operator's noncompliance.

a. The licensed warehouse operator may comply with the demand by doing any of the following:

(1) Assuring the department that existing evidence of insurance coverage filed with the department complies with the requirements of this section.

(2) Obtaining additional or new insurance coverage. The licensed warehouse operator must submit and the department must approve and file the supplemental or new evidence of insurance coverage necessary to comply with the requirements of this section.

b. If the licensed warehouse operator fails to comply with the requirements of the demand letter as set out in paragraph "a", the department shall take enforcement action as follows:

(1) Thirty days after delivering the demand letter to the licensed warehouse operator, the department shall suspend the warehouse license.

(2) Forty days after delivering the demand letter to the licensed warehouse operator, the department shall revoke the warehouse license.

c. The department may inspect a licensed warehouse at any time.

d. The department shall terminate an enforcement action as provided in paragraph "b", if the licensed warehouse operator submits any proof of insurance or supplemental or new evidence of insurance which the department approves. However, this paragraph "d" applies only if the licensed warehouse operator submits the proof of insurance or evidence of insurance prior to the effective date of the revocation.

7. An insurance company shall not cancel insurance coverage unless any of the following applies:

a. The insurance company provides the department and the licensed warehouse operator with at least ninety days' notice of cancellation by mail.

b. The insurance coverage is renewed or replaced by the licensed warehouse operator, and the department has approved and filed the evidence of insurance coverage at the time that the department would have received the mailed notice of cancellation.

8. The department shall take enforcement action against a licensed warehouse whose insurance coverage has been terminated by cancellation or expiration.

a. The department shall suspend the warehouse license. The suspension shall take effect on the date that the insurance coverage terminates. However, the department shall terminate the suspension if the licensed warehouse operator submits proof of insurance or any renewed or new evidence of insurance coverage to the department. In addition, all of the following requirements apply:

(1) The department must receive the proof of insurance or evidence of insurance coverage within ten days after the effective date of the suspension.

(2) The department must approve the proof of insurance or evidence of insurance coverage.

b. The department shall revoke the warehouse license. The revocation shall take effect eleven days after the effective date of the suspension, unless the suspension is terminated as provided in paragraph "a".

9. When a license is revoked, the department shall notify each holder of an outstanding warehouse receipt and all known persons who have grain retained in open storage of the revocation. The department shall further notify each receipt holder and all known persons who have grain retained in open storage that the grain must be removed from the warehouse not later than the thirtieth day following the revocation. The notice shall be sent by ordinary mail to the last known address of each person having grain in storage as provided in this subsection.

10. Claimants against the insurance have precedence in the following order:

a. Holders of warehouse receipts other than the warehouse operator and owners of bulk grain other than the warehouse operator.

b. Owners of all other agricultural products as their interests appear.

c. Warehouse operators who have warehouse receipts.

d. Warehouse operators who are the owners of bulk grain.

11. However, notwithstanding the insurance requirements set forth in this section, a licensed warehouse may exclude from the insurance coverage stored grain to which title is fully vested in the United States government or any of its subdivisions or agencies, provided that the licensed warehouse has on file with the United States government or any of its subdivisions or agencies a current and accepted uninsured storage rate under the provisions of their uniform grain storage agreement. The licensed warehouse shall file a copy of the current uninsured tariff rate with the department immediately upon acceptance of the uninsured rate by the United States government or any of its subdivisions or agencies.

1. The acceptance and storage of bulk grain by a person bonded and licensed under the United States Warehouse Act.

2. The storage of bulk grain by a person who owns all the stored bulk grain.

1. Grain deposited with a licensed warehouse operator for which the actual sale price has not been fixed and either proper documentation has not been furnished or payment has not been made shall be considered stored grain and may be retained in open storage or placed under warehouse receipt. The licensed warehouse operator shall issue a warehouse receipt to the depositor upon request by the depositor. The warehouse operator’s tariff shall apply to any grain that is retained in open storage or placed under warehouse receipt as provided in section 203C.18.

2. Bulk grain deposited with a licensed warehouse operator for processing, cleaning, drying, shipping for the account of the depositor, or any other purpose shall be removed within thirty days from the date of deposit or such grain shall be considered stored grain. The warehouse operator's tariff shall apply to the bulk grain as provided in section 203C.28.

3. Grain deposited and subject to a scale weight ticket that fails to have the price fixed and properly documented on the records of the licensed warehouse operator shall be retained in open storage.

4. All bulk grain whether retained in open storage and deposited subject to a scale weight ticket or placed under warehouse receipt is covered by the grain depositors and sellers indemnity fund as provided in chapter 203D.

5. An unlicensed warehouse operator shall not retain deposited bulk grain, if its actual sale price has not been fixed, and payment for the bulk grain has not been made within thirty days from its date of deposit, unless purchased by credit-sale contract. An unlicensed warehouse operator who retains deposited bulk grain under any other circumstance must either return the bulk grain to the depositor, or dispose of the bulk grain by order of the depositor, within thirty days from date of the deposit of the bulk grain.

6. If the depositor of bulk grain in an unlicensed warehouse fails to sell the grain or orders other disposition of the grain, the warehouse operator may purchase the grain, if otherwise allowed by law, on the thirtieth day after deposit at not less than the local market price at the close of business on the thirtieth day or return the grain to the depositor by the thirtieth day.

7. A licensed warehouse operator who does not have a sufficient quantity or quality of grain to satisfy the warehouse operator's obligations based on an examination by the department shall not purchase grain on credit-sale contract to correct the shortage of grain. A licensed warehouse operator shall not issue a warehouse receipt for purposes of providing collateral, if the grain which is the subject of the warehouse receipt was purchased by credit-sale contract and is unpaid for by the warehouse operator.

8. a. At least once each year, a licensed warehouse operator shall send a statement to each holder of a warehouse receipt covering grain stored at the licensed warehouse operator's licensed warehouse for more than one year. The statement shall be delivered in person or mailed to the holder's last known address. The statement shall show the amount of all grain stored pursuant to a warehouse receipt for such warehouse receipt holder and the amount of any storage charges held by the licensed warehouse operator against that grain.

b. The failure to prepare a statement required by this subsection is a simple misdemeanor.

c. A violation of this section shall not constitute grounds for the suspension or revocation of a warehouse operator's license.

1. A person who, in connection with the receipt of grain for storage, processing, or sale, adjusts the scale weight of the grain to compensate for the moisture content of the grain shall compute the amount of the adjustment by multiplying the scale weight of the grain by that factor which results in a rate of adjustment of one and eighteen hundredths percent of weight per one percent of moisture content. The person who uses any rate of weight adjustment for moisture content other than the one prescribed by this subsection commits a fraudulent practice as defined in section 714.8. The person shall post on the business premises in a conspicuous place notice of the rate of adjustment for moisture content as prescribed by this subsection. The person who fails to make this disclosure commits a simple misdemeanor.

2. A person who, in connection with the receipt of grain for storage, processing, or sale, adjusts the quantity of the grain received to compensate for losses to be incurred during the handling, processing, or storage of the grain shall post on the business premises in a conspicuous place notice of the rate of adjustment to be made for this shrinkage. The person who fails to make this disclosure commits a simple misdemeanor.

3. A person who adjusts the scale weight of grain for moisture content and for handling, processing, or storage losses may combine the two adjustment factors into a single factor and may use this resulting factor to compute the amount of weight adjustment in connection with storage, processing, or sale transactions, provided that the person shall post on the business premises in a conspicuous place a notice that discloses the moisture shrinkage factor

prescribed by subsection 1, the handling shrinkage factor to be imposed, and the single factor that results from combining these factors. The person who fails to make this disclosure commits a simple misdemeanor.

Any decrease in storage rates shall be effective immediately and shall be applicable to all grain in store on the effective date of the decrease.

5. A warehouse operator may file with the department and publish the supplemental tariff applicable only to grain meeting special descriptive standards or characteristics as set forth in the supplemental tariff. The department may inspect a warehouse operator at any time based on a risk of loss to the fund according to the risk rating. A substantial risk of loss to the grain depositors and sellers indemnity fund caused by the possible insolvency of the warehouse operator based on the statistical model shall be good cause.

The licensee may notify the department of any overpayment and shall notify the department of any underpayment by the licensee's first installment date in a manner and according to procedures required by the department. The department shall refund any overpayment to the licensee and the licensee shall pay any additional amount resulting from an underpayment.

b. A licensee shall pay a participation fee on four successive installment dates, with each installment date occurring on the last date of the fund's assessment quarter as provided in section 203D.3. The licensee shall pay twenty-five percent of the total participation fee assessed on each installment date. However, nothing in this subsection prevents a licensee from paying the participation fee on an accelerated basis. A licensee shall pay the first installment on the last date of the fund's assessment quarter immediately following the licensee's anniversary date.

(1) For a licensed grain dealer, the anniversary date is the last date to apply for the renewal of the grain dealer's license before the license expires as provided in section 203.5.

(2) For a licensed warehouse operator, the anniversary date is the last date to apply for the renewal of the warehouse operator's license before the license expires as provided in section 203C.37.

c. A licensee is delinquent if the licensee fails to submit the payment when due or if, upon examination, an underpayment of the fee is found by the department.

d. A licensee shall not pass on the cost of a participation fee to sellers. The department may suspend or revoke the license of a grain dealer for passing on the cost, as provided in chapter 203.

2. a. A per-bushel fee shall be assessed on all purchased grain.

b. The grain dealer shall forward the per-bushel fee to the department on a quarterly basis in the manner and using the forms prescribed by the department. A licensee is delinquent if the licensee fails to submit the full fee or quarterly forms when due or if, upon examination, an underpayment of the fee is found by the department. The grain dealer is subject to a penalty of ten dollars for each day the grain dealer is delinquent or an amount equal to the amount of the deficiency, whichever is less. However, a licensee who fails to submit the full fee or quarterly forms when due, is subject to a minimum payment of ten dollars. The department may establish and apply a margin of error in determining whether a grain dealer is delinquent. The per-bushel fee shall be collected only once on each bushel of grain.

c. A grain dealer may choose to pass on the cost of a per-bushel fee to the sellers by an itemized discount noted on the settlement sheet. However, if the per-bushel fee is not in effect, no grain dealer shall make such a discount on the purchase of grain. A discount made nominally for the per-bushel fee while the fee is not in effect is grounds for license suspension or revocation under chapter 203.

203D.4 Indemnity fund board.

1. The Iowa grain indemnity fund board is established to advise the department on matters relating to the fund and to perform the duties provided it in this chapter. The board is composed of the secretary of agriculture or a designee who shall serve as president; the state treasurer or a designee who shall serve as treasurer; a representative of the banking industry appointed by the governor, who shall be selected from a list of three nominations made by the secretary of agriculture; and four representatives of the grain industry appointed by the governor, subject to confirmation by the senate, two of whom shall be representatives of producers and who shall be actively participating producers, and two of whom shall be representatives of licensed grain dealers and licensed warehouse operators and who shall be actively participating licensed grain dealers and licensed warehouse operators, each of whom shall be selected from a list of three nominations made by the secretary of agriculture. The term of membership of the banking industry representative and the grain industry representatives is three years, and the representatives are eligible for reappointment. However, of the grain industry representatives, only actively participating producers, and grain dealers and warehouse operators are eligible for reappointment. The banking industry representative and the grain industry representatives are entitled to a per diem as specified in section 7E.6 for each day spent in the performance of the duties of the board, plus actual expenses incurred in the performance of those duties. Four members of the board constitute a quorum, and the affirmative vote of four members is necessary for any action taken by the

board, except that a lesser number may adjourn a meeting. A vacancy in the membership of the board does not impair the rights of a quorum to exercise all the rights and perform all the duties of the board.

2. The duties of the board include the review and determination of claims, and the review and approval of administrative costs of the fund. To carry out these duties, the board has the power to adopt rules regarding its organization and procedures for determining claims. Further, the board shall approve rules proposed by the department for the administration of the per-bushel fee prior to their adoption by the department. The board may provide comment and advice to the department in regard to the department's administration of chapters 203 and 203C where the department's policies and rules may affect the exposure of the fund to liability. However, the board shall not become actively involved in a determination by the department as to whether disciplinary action is to be taken against a particular licensee. The board is not a forum for review or appeal in regard to any particular action taken by the department against a licensee.

3. The department through the grain warehouse bureau shall perform the administrative functions necessary for the operation of the board and the fund. Administrative costs approved by the board shall be paid from the fund. The rules of the department shall contain the rules of the board adopted for its organization and its procedures. The department shall adopt rules for the administration of the per-bushel fee upon the board's approval of the rules proposed by the department. The secretary of agriculture, as president of the board as well as head of the department of agriculture and land stewardship, shall administer the department so as to minimize the risk of loss to the fund while protecting interests of depositors and sellers of grain. Policies and rules for the administration of chapters 203 and 203C which, as determined by the secretary of agriculture, may affect the exposure of the fund, shall be presented to the board for comment prior to their adoption by the department. The department shall make reports to the board in regard to licensee investigations which may result in disciplinary action against a licensee and exposure of the fund. The reports may be discussed by the board in closed session pursuant to section 21.5, and are confidential. In making the report, the department shall make available to the board records of licensees which are otherwise confidential under section 22.7, 203.16, or 203C.24. However, a determination to take disciplinary action against a particular licensee shall be made exclusively by the department. A report to the board is not a prerequisite to disciplinary action against a licensee. Review of any action against a licensee, whether or not relating to the fund, shall be made exclusively through the department.

203D.5 Fees — imposition, adjustment, or waiver.

1. The board shall annually review the debits of and credits to the grain depositors and sellers indemnity fund created in section 203D.3 and shall determine whether to impose the participation fee and per-bushel fee as provided in section 203D.3A, make adjustments to the fees effective on the previous September 1, or waive the fees as necessary to comply with this section. The board shall make the determination not later than May 1 of each year. The board shall impose the fees or adjust the fees effective on the previous September 1 in accordance with chapter 17A. The imposition or adjustment of the fees shall become effective as follows:

a. For the participation fee, on the following September 1. However, the licensee shall continue to pay the participation fee at the rate in effect on the prior September 1, until the licensee has paid the amount owing.

b. For a per-bushel fee, on the following September 1.

2. a. Except as provided in paragraph "b", the rate of a participation fee owed by a licensee shall be calculated as follows:

(1) For a licensed grain dealer, not more than fourteen thousandths of a cent per bushel assessed on all purchased grain during the grain dealer's last fiscal year at each location at which records are maintained for transactions of the grain dealer, as determined according to information submitted by the grain dealer to the department for the issuance or renewal of a license as provided in section 203.5.

(2) For a licensed warehouse operator, not more than fourteen thousandths of a cent per bushel of bulk grain storage capacity for each warehouse licensed pursuant to section 203C.8 or five hundred dollars, whichever is less. The participation fee shall be determined using information provided to the department by the warehouse operator applying for the issuance or renewal of a license as provided in sections 203C.7 and 203C.37.

b. A licensee shall pay a participation fee of at least fifty dollars.

3. The rate of the per-bushel fee shall not exceed one-quarter cent per bushel assessed on all purchased grain.

4. If on the last date of the fund's assessment year as provided in section 203D.3 the assets of the fund exceed eight million dollars, less any encumbered balances or pending or unsettled claims, all of the following apply:

a. The participation fee shall be waived and shall not be assessable or owing for the following assessment year of the fund. However, the licensee shall continue to pay any owing participation fee that was in effect on the prior September 1.

b. The per-bushel fee shall be waived and shall not be assessable or owing.

5. The board shall reinstate the fees as provided in this section if the assets of the fund, less any unencumbered balances or pending or unsettled claims, are three million dollars or less.

203D.6 Claims against fund.

1. *Persons who may file claims.* A depositor or seller may file a claim with the department for indemnification of a loss from the grain depositors and sellers indemnity fund. A claim shall be filed in the manner prescribed by the board.

2. *Time of filing claim.*

a. As used in this subsection, an incurrence date is when either of the following occurs:

(1) The cessation of the license of the grain dealer as described in section 203.10 or warehouse operator as described in section 203C.10.

(2) The filing of a petition in bankruptcy by a licensed grain dealer or licensed warehouse operator.

b. To be timely, a claim must be filed within a claim period beginning on either incurrence date and ending one hundred twenty days after that incurrence date, regardless of whether a previous claim period has expired.

3. *Notice.* The department shall cause notice of the opening of the claim period to be published once each week for two consecutive weeks in a newspaper of general circulation in each of the counties in which the licensee maintains a business location and in a newspaper of general circulation within the state. The notice shall state the name and address of the licensee and the claim incurrence date. The notice shall also state that any claims against the fund on account of the licensee shall be sent by ordinary mail to the department within

one hundred twenty days after the incurrence date, and that the failure to make a timely claim relieves the fund from liability to the claimant. This notice may be incorporated by the department with a notice required by section 203.12 or 203C.14.

4. *Determination of eligible claims.* The board shall determine a claim to be eligible for payment from the fund if the board finds all of the following:

- a. That the claim was timely filed.
- b. That the incurrence date was on or after May 15, 1986.
- c. That the claimant qualifies as a depositor or seller.
- d. That the claim derives from a covered transaction. For purposes of this paragraph, a claim derives from a covered transaction if the claimant is a seller who transferred title to the grain to a licensed grain dealer other than by credit-sale contract within six months of the incurrence date for a claim period as provided in subsection 2, or if the claimant is a depositor who delivered the grain to a licensed warehouse operator.

e. That there is adequate documentation to establish the existence of a claim and to determine the amount of the loss.

- f. A claim has not been paid for the same loss.

5. *Value of loss — warehouse claims.* The board shall determine the dollar value of a claim incurred by a depositor holding a warehouse receipt or a scale weight ticket for grain that the depositor delivered for storage to the licensed warehouse operator. If the department has been appointed by the court as receiver of the grain assets of the warehouse operator, the value shall be presumed to be as stated in the plan of disposition approved by the court. If the warehouse operator has filed a petition in bankruptcy, the value shall be presumed to be based upon the fair market price, free-on-board from the site of the warehouse operator, being paid to producers for grain by the grain terminal operator nearest the warehouse operator on the date the petition was filed. If there is neither a department receivership nor a bankruptcy filing, the value shall be presumed to be based upon the fair market price, free-on-board from the site of the warehouse operator, being paid to producers for grain by the grain terminal operator nearest the warehouse operator on the date of license revocation or cancellation. If more than one date applies to a claim, the board may choose between the two. However, the board may accept an alternative valuation of a claim upon a showing of just cause by the depositor or department. All depositors filing claims under this section shall be bound by the value determined by the board. The value of the loss is the outstanding balance on the validated claim at time of payment from the fund.

6. *Value of loss — grain dealer claims.* The dollar value of a claim incurred by a seller who has sold grain or delivered grain for sale or exchange and who is a creditor of the licensed grain dealer for all or part of the value of the grain shall be based on the amount stated on the obligation on the date of the sale. If the sold grain was unpriced, the value of a claim shall be presumed to be based upon the fair market price, free-on-board from the site of the grain dealer, being paid to producers for grain by the grain terminal operator nearest the grain dealer on the date of the license revocation or cancellation or the filing of a petition in bankruptcy. If more than one date applies to a claim, the board may choose between the two. However, the board may accept an alternative valuation of a claim upon a showing of just cause by the seller or department. All sellers filing claims under this section shall be bound by the value determined by the board. The value of the loss is the outstanding balance on the validated claim at the time of payment from the fund.

7. *Procedure — appeal.* The board, through the department, shall provide for notice to each depositor and seller upon its determination of eligibility and value of loss. Within twenty days of the notice, the depositor or seller may request a hearing for the review of either determination. The request shall be made in the manner provided by the board. The hearing and any further appeal shall be conducted as a contested case subject to chapter 17A. A depositor or seller whose claim has been refused by the board may appeal the refusal to either the district court of Polk county or the district court of the county in which the depositor or seller resides.

8. *Payment of claims.* Upon a determination that the claim is eligible for payment, the board shall provide for payment of ninety percent of the loss, as determined under subsection 5, but not more than three hundred thousand dollars per claimant. If at any time

the board determines that there are insufficient funds to make payment of all claims, the board may order that payment be deferred on specified claims. The department, upon the board's instruction, shall hold those claims for payment until the board determines that the fund again contains sufficient assets.

9. *Subrogation of fund.* In the event of payment of a loss under this section, the fund is subrogated to the extent of the amount of any payments to all rights, powers, privileges, and remedies of the depositor or seller against any person regarding the loss. The depositor or seller shall render all necessary assistance to aid the department and the board in securing the rights granted in this section. No action or claim initiated by a depositor or seller and pending at the time of payment from the fund shall be compromised or settled without the consent of the board.

10. *Time limitation on claims.*

a. A claim shall expire if five years after the board determines that the claim is eligible, the claimant has failed to do any of the following:

(1) Provide for the fund's subrogation or has failed to render all necessary assistance to aid the department and the board in securing the department's rights of subrogation as required in this section.

(2) Failed to provide necessary documentation or information required by the board in order to process the claim.

b. The fund shall not be liable for the payment of an expired claim.

 - b. The department shall adopt rules to establish hemp fees for conducting inspections and obtaining samples of plants to conduct tests, including but not limited to an annual inspection and official test, pursuant to section 204.8.
 - c. The department shall calculate the rates, or a range of rates, of the hemp fees to be effective for each successive twelve-month period. The total amount of hemp fees collected by the department pursuant to this subsection shall not be more than the department's estimate of the total amount of revenues necessary to administer and enforce the provisions of this chapter based on the expected revenue collected from the hemp fees and the costs to be incurred by the department in administering and enforcing the provisions of this chapter during that period. The department may adjust the rates within the range throughout the period as the department determines necessary to comply with this paragraph.
 - d. The department may establish different rates for any category of hemp fees based on criteria determined relevant by the department, which may include the number of acres of the licensee's crop site and the type of hemp license issued.

b. A licensee convicted in another state of an offense, punishable in that state as a felony, substantially corresponding to an offense described in paragraph “*a*”, before, on, or after the implementation date of this chapter, shall be ineligible to produce hemp under this chapter for a ten-year period following the date of conviction. The department shall recognize the statute of another state which defines such offense substantially equivalent to an offense described in paragraph “*a*” as a corresponding statute.

The department shall adopt rules regulating the production of hemp, including but not limited to inspection and testing requirements under section 204.8 or 204.9, and the issuance of a temporary harvest and transportation permit or certificate of analysis under section 204.8. The department shall adopt rules as necessary to administer the negligent violation program. The department may adopt other rules as necessary or desirable to administer and enforce the provisions of this chapter relating to hemp or hemp products.

5. *a.* A person is not subject to a criminal offense involving hemp as otherwise prohibited in chapter 124 or 453B, if all of the following apply:

(1) If the person is a licensee, the person carries the person’s hemp license when possessing hemp.

(2) The person carries a certificate of analysis, or a temporary harvest and transportation permit, if the person is in possession of harvested hemp. If the person is transporting harvested hemp into or through this state, the person must carry a certificate of analysis or an equivalent document issued to the person by the jurisdiction where the hemp was produced.

(3) The person carries a certificate of analysis, if the person is delivering hemp seed for planting.

(4) The person carries a bill of lading under all of the following circumstances:

b. For purposes of paragraph “*a*”, a criminal offense involving hemp includes but is not limited to production, use, harvest, transportation, delivery, distribution, or sale.

6. A person other than a licensee is not subject to a criminal offense involving hemp as described in subsection 5 if the person is authorized to be on the licensee’s crop site by the licensee.

7. *a.* Except as provided in subsection 8, and section 204.14A, a person may engage in the retail sale of a hemp product if the hemp was produced in this state or another state in compliance with the federal hemp law or other applicable federal law. A person may engage in the retail sale of a hemp product if the hemp was produced in another jurisdiction in compliance with applicable federal law and the laws of the other jurisdiction, if such law is substantially the same as applicable federal law.

b. A person may transport a hemp product within and through this state and may export a hemp product to any foreign nation, in accordance with applicable federal law and the law of the foreign nation.

c. A hemp product complying with this subsection is not a controlled substance under chapter 124 or 453B.

8. *a.* Except as provided in paragraph “*e*”, a consumable hemp product shall not be manufactured, sold, or consumed in this state unless all of the following conditions are met:

(1) The consumable hemp product is manufactured in this state in compliance with this chapter.

(2) The hemp contained in the consumable hemp product was produced exclusively in this state in compliance with this chapter.

(3) The consumable hemp product complies with packaging and labeling requirements, which shall be established by the department of health and human services by rule.

b. A person manufacturing a consumable hemp product in this state shall register with the department of health and human services on a form prescribed by the department of health and human services by rule. The department of health and human services may impose a fee, established by the department of health and human services by rule, on a registrant not to exceed the cost of processing the registration. c. A person selling a consumable hemp product in this state shall register with the department of health and human services on a form prescribed by the department of health and human services by rule and shall keep on the premises of the person's business a copy of the certificate of analysis issued pursuant to section 204.8 for the hemp contained in the consumable hemp products sold by the person. The department of health and human services may impose a fee, established by the department of health and human services by rule, on a registrant not to exceed the cost of processing the registration. The department of health and human services shall adopt rules for the revocation of a registration issued to a person who sells a consumable hemp product not in compliance with this section.

d. Except as otherwise provided in this subsection, a political subdivision of the state shall not adopt any ordinance, rule, or regulation regarding the manufacture, sale, or consumption of a consumable hemp product.

e. A consumable hemp product manufactured in another jurisdiction pursuant to a state or tribal plan approved by the United States department of agriculture pursuant to the federal hemp law may be imported for use by a consumer or sale by a retailer to a consumer if the state has substantially similar testing requirements as those provided in section 204.8.

f. A consumable hemp product manufactured, sold, or consumed in compliance with this subsection is not a controlled substance under chapter 124 or 453B regardless of whether the consumable hemp product has been approved by the United States food and drug administration.

Subsection 8, paragraph a, subparagraph (3) amended

Subsection 8, paragraphs b and c amended

204.8 Inspections and tests — harvest and transportation permit — certificate of analysis.

1. a. The department shall conduct an annual inspection of a licensee's crop site to determine if the crop produced at the site qualifies as hemp under this section. The annual inspection shall include obtaining a sample of plants that are part of the crop and providing for an official test of that sample. The inspection shall be conducted as provided in section 204.9.

b. A licensee shall deliver a notice to the department stating the expected harvest date for the crop produced at the licensee's crop site. The department must receive the notice at least thirty days prior to the expected harvest date. The department shall conduct the annual inspection of the site within thirty days prior to the actual harvest date.

c. The department shall provide the department of public safety any official test results that indicate a sample has a maximum concentration of delta-9 tetrahydrocannabinol in excess of two percent on a dry weight basis.

d. A licensee shall not harvest any portion of a crop produced at the licensee's crop site unless the department has obtained a sample of plants to conduct a test as provided in this section and has issued the licensee a temporary harvest and transportation permit or certificate of analysis. The department may adopt rules that it determines necessary or desirable to administer and enforce the terms and conditions of a permit. The department shall have unrestricted access to a crop site subject to a permit. A licensee subject to a permit shall receive permission from the department prior to moving the hemp, shall not commingle the hemp, and shall not transfer the hemp to another person.

e. The department shall issue a verified copy of the temporary harvest and transportation

permit or certificate of analysis to any other person upon request of the licensee. The permit or certificate shall be published by the department as an official form.

f. To the extent allowed by the federal hemp law, the certificate of analysis shall be proof that the harvested crop described on the form qualifies as hemp pursuant to the results of an official test.

g. A temporary harvest and transportation permit expires when the department issues the licensee a certificate of analysis. A permit or certificate of analysis terminates upon the issuance of an order of disposal of the licensee's crop as provided in section 204.10 or upon the revocation of the licensee's hemp license as provided in section 204.11.

2. The department may conduct official tests for additional varieties of hemp located on the same licensed crop site. The department may conduct additional inspections and tests upon the request of a licensee.

3. The official test shall be a composite test of the plants obtained by the department from a licensee's crop site during the annual inspection and shall be conducted by a laboratory designated by the department. The sample must have an acceptable delta-9 tetrahydrocannabinol concentration, resulting from a post decarboxylation analysis, that does not exceed three-tenths of one percent on a dry weight basis.

a. The laboratory shall report delta-9 tetrahydrocannabinol concentration on a dry weight basis that accounts for a measurement uncertainty associated with the result of a measurement. The measurement uncertainty shall characterize the dispersion of the values that could be reasonably attributed to the particular quantity subject to measurement. The acceptable delta-9 tetrahydrocannabinol concentration occurs when the application of the measurement uncertainty to the reported delta-9 tetrahydrocannabinol concentration on a dry weight basis produces a distribution or range that includes three-tenths of one percent or less.

b. The post decarboxylation value is the result of an analysis determined after the process of decarboxylation that determines the total potential delta-9 tetrahydrocannabinol content derived from the sum of the delta-9 tetrahydrocannabinol concentration and delta-9 tetrahydrocannabinolic acid content and reported on a dry weight basis. The post decarboxylation value may be determined by using a chromatographic technique using heat and gas chromatography, through which the tetrahydrocannabinolic acid content is converted from its acid form to its neutral form. The post decarboxylation value may also be calculated by using a high-performance liquid chromatograph technique, which keeps the tetrahydrocannabinolic acid intact and requires a conversion calculation of that tetrahydrocannabinolic acid to determine the total potential delta-9 tetrahydrocannabinol content in a given sample.

4. The department of public safety or a local law enforcement agency may conduct an inspection of a licensee's crop site in order to determine that the licensee is complying with the criminal provisions of this chapter as well as chapters 124 and 453B. The department of public safety or a local law enforcement agency may conduct a test of the plants obtained by that department or local law enforcement agency from the licensee's crop site during the inspection according to procedures adopted by the department of public safety.

204.9 Right of access.

1. a. The department, including an authorized inspector, employee, or agent of the department, may enter onto a crop site during reasonable hours to determine whether a licensee is acting in compliance with the requirements under this chapter. The department may also enter into any structure if all of the following apply:

(1) The structure is not a dwelling.

(2) The structure is located on or in close proximity to the licensee's crop site, and the use of such structure is directly related to the production of hemp, including but not limited to a barn, machine shed, greenhouse, or storage crib.

b. The department may require the licensee to furnish business records, including books,

accounts, records, files, and any other documents in print or electronic media that the department deems relevant to an inquiry conducted under this chapter.

c. The department may request the department of public safety or a local law enforcement agency accompany the department of agriculture and land stewardship when conducting an inspection.

2. a. The department of public safety or a local law enforcement agency may conduct an inspection of a licensee's crop site or enter into a structure located on or in close proximity to the crop site and may require a licensee to furnish business records, in the same manner and according to the same limitations as the department of agriculture and land stewardship pursuant to subsection 1.

b. The department of public safety or a local law enforcement agency may obtain a sample of plants that are part of the crop and provide for a test of that sample as provided in section 204.8. The department of public safety or a local law enforcement agency shall not impose, assess, or collect a fee for conducting an inspection or test under this section.

3. A person shall not prevent the department, the department of public safety, or a local law enforcement agency from administering and enforcing the provisions of this section by any means, including but not limited to any act, including a refusal to allow entry, misrepresentation, omission, or concealment of facts.

4. A licensee shall not harvest any portion of a crop produced at the licensee's crop site if the department, the department of public safety, or a local law enforcement agency has been prevented from accessing the site under this section.

204.10 Order of disposal.

1. If a crop that is produced at a licensee's crop site does not qualify as hemp according to an official test conducted pursuant to section 204.8, but has a maximum concentration not in excess of two percent delta-9 tetrahydrocannabinol on a dry weight basis, the department, in consultation with the department of public safety, shall order the disposal of the crop by destruction at the site or if necessary require the crop to be removed to another location for destruction.

2. The department may request assistance from the department of public safety or a local law enforcement agency as necessary to carry out the provisions of this section. The department upon request shall deliver any sample of the crop to the department of public safety or a local law enforcement agency.

3. The licensee shall pay the department for all actual and reasonable costs of the destruction of the crop. If the department assumes any amount of the costs, it may charge that amount to the licensee. If the licensee fails to reimburse any of that amount to the department, the department may report the amount to the county treasurer. The amount shall be placed upon the tax books, and collected with interest and penalties after due, in the same manner as other unpaid property taxes. The county shall reimburse the department within thirty days from the collection of the property taxes.

4. To the extent allowed by applicable federal law, the department may provide for the disposal of the mature stalks of the crop confiscated by the department for the licensee's on-farm use and at the licensee's expense.

a. The department would disapprove a new application to that person for good cause as provided in section 204.4, subsection 10.

b. The person submits a materially false application to participate in the negligent violation program.

3. The suspension or revocation of a hemp license is in addition to an order of disposal under section 204.10; the imposition of a civil penalty under section 204.12, subject to the provisions of section 204.15; or the imposition of any other civil or criminal penalty authorized under state law.

b. A type of article that uses a heating element, power source, electronic circuit, or other electronic, chemical, or mechanical process.

c. A device, including but not limited to a cigarette, cigar, cigarillo, or pipe, regardless of whether such device produces smoke or vapor.

b. It is conclusively presumed that a licensee acted with a culpable mental state greater than negligence, if the department obtains a sample of a crop produced on the licensee's crop site and the official test results of the sample conducted pursuant to section 204.8 indicate a maximum concentration of delta-9 tetrahydrocannabinol in excess of two percent on a dry weight basis.

c. If the department determines a licensee violated this chapter with a culpable mental state greater than negligence, the department shall immediately report the licensee's violation to the department of public safety, the county attorney, and the attorney general, who shall take action as the facts and circumstances warrant. The department shall also report the licensee to the United States attorney general to the extent required by the federal hemp law.

6. An employee of a food processing and distribution establishment is exempt from the certification requirements of this section provided that at least one person holding a supervisory position is certified and provided that the employer provides a program, approved by the department, for training, testing, and certification of personnel who apply, as an incidental part of their duties, any pesticide on property owned or rented by the employer. However, an employee exempt from the certification requirements of this section shall not apply restricted use pesticides. The secretary shall adopt rules to administer the provisions of this subsection.

7. a. The secretary shall adopt, by rule, requirements for the examination, reexamination, and certification of applicants.

The registrant, before selling or offering for sale any pesticide for use in this state, shall register each brand and grade of such pesticide with the secretary upon forms furnished by the secretary. The secretary shall set the registration fee annually at three hundred dollars for each and every brand and grade to be offered for sale in this state. The secretary shall adopt by rule exemptions to the fee. Fifty dollars of each fee collected shall be deposited in the general fund of the state, shall be subject to the requirements of section 8.60, and shall be used only for the purpose of enforcing the provisions of this chapter. The remainder of each fee collected shall be deposited in the agriculture management account of the groundwater protection fund created in section 455E.11.

4. The secretary, whenever the secretary deems it necessary in the administration of this chapter, may require the submission of the complete formula of any pesticide. 5. If it does not appear to the secretary that the article is such as to warrant the proposed claims for it or if the article and its labeling and other material required to be submitted do not comply with the provisions of this chapter, the secretary shall notify the registrant of the manner in which the article, labeling, or other material required to be submitted fail to comply with this chapter so as to afford the registrant an opportunity to make the necessary corrections.

The evidence of financial responsibility shall consist of a surety bond, a liability insurance policy, or an irrevocable letter of credit issued by a financial institution. The department may accept a certification of the evidence of financial responsibility. The evidence of financial responsibility shall pay the amount that the beneficiary is legally obligated to pay as damages caused by the pesticide operations of the applicant. However, the evidence of financial responsibility does not apply to damages or an injury which is expected or intended from the standpoint of the beneficiary. A liability insurance policy shall be subject to the insurer's policy provisions filed with and approved by the commissioner of insurance. The evidence of financial responsibility need not apply to damages or injury to agricultural crops, plants, or land being worked upon by the applicant.

2. The amount of the evidence of financial responsibility as provided for in this section shall be not less than one hundred thousand dollars for property damage and public liability insurance, each separately, or liability insurance with limits of one hundred thousand dollars per occurrence and three hundred thousand dollars annual aggregate. The evidence of financial responsibility shall be maintained at not less than that amount at all times during the licensed period. The department shall be notified ten days prior to any reduction in the surety bond or liability insurance made at the request of the applicant or cancellation

The department shall be notified ninety days prior to any reduction of the amount of the irrevocable letter of credit at the request of the applicant or the cancellation of the irrevocable letter of credit by the financial institution. 206.14 Reports of pesticide accidents, incidents or loss.

1. The secretary may by rule require the reporting of significant pesticide accidents or incidents to a designated state agency.

2. Any person claiming damages from a pesticide application shall have filed with the secretary on a form prescribed by the secretary a written statement claiming that the person has been damaged.

a. This report shall have been filed within sixty days after the alleged date that damages occurred. If a growing crop is alleged to have been damaged, the report must be filed prior to the time that twenty-five percent of the crop has been harvested. Such statement shall contain, but shall not be limited to the name of the person allegedly responsible for the application of said pesticide, the name of the owner or lessee of the land on which the crop is grown and for which damage is alleged to have occurred, and the date on which the alleged damage occurred.

b. The secretary shall prepare a form to be furnished to persons to be used in such cases and such form shall contain such other requirements as the secretary may deem proper. The secretary shall, upon receipt of such statement, notify the licensee and the owner or lessee of the land or other person who may be charged with the responsibility of the damages claimed, and furnish copies of such statements as may be requested. The secretary shall inspect damages whenever possible and when the secretary determines that the complaint has sufficient merit the secretary shall make such information available to the person claiming damage and to the person who is alleged to have caused the damage.

3. The filing of such a report or failure to give notice shall not preclude recovery in an action for damages and shall not affect the limitations of actions set forth in chapter 614. Nothing herein shall prohibit an action for damages for bodily injury or death to any person.

a. The filing of such report or the failure to file such a report shall not be a violation of this chapter. However, if the person failing to file such report is the only one injured from such use or application of a pesticide by others, the secretary may, when in the public interest, refuse to hold a hearing for the denial, suspension or revocation of a license or permit issued under this chapter until such report is filed.

b. Where damage is alleged to have occurred, the claimant shall permit the secretary, the licensee and the licensee's representatives, such as surety or insurer, to observe within reasonable hours the lands or nontarget organism alleged to have been damaged in order that such damage may be examined. Failure of the claimant to permit such observation and examination of the damaged lands shall automatically bar the claim against the licensee.

4. The secretary shall require, by rule, that veterinarians licensed and practicing veterinary medicine in the state promptly report to the department a case of domestic livestock poisoning or suspected poisoning by agricultural chemicals.

records refer, and the secretary shall, upon request in writing, be furnished with a copy of such records forthwith.

a. In the case of a pesticide:

- (1) If it is adulterated or misbranded.
- (2) If it has not been registered under the provisions of section 206.12.
- (3) If it fails to bear on its label the information required by this chapter.
- (4) If it is a white powder pesticide and is not colored as required under this chapter.

b. In the case of a device, if it is misbranded.

2. If the article is condemned, it shall, after entry of decree, be disposed of by destruction or sale as the court may direct and the proceeds if such article is sold, less legal costs, shall be paid to the state treasurer; provided, that the article shall not be sold contrary to the provisions of this chapter; and, provided further, that upon payment of costs and execution and delivery of a good and sufficient bond conditioned that the article shall not be disposed of unlawfully, the court may direct that said article be delivered to the owner thereof for relabeling or reprocessing as the case may be.

3. When a decree of condemnation is entered against the article, court costs and fees and storage and other proper expenses shall be awarded against the person, if any, intervening as claimant of the article.

4. When the secretary has reasonable cause to believe a pesticide or device is being distributed, stored, transported, or used in violation of any of the provisions of this chapter, or of any of the prescribed rules under this chapter, the secretary may issue and serve a written "stop sale, use, or removal" order upon the owner or custodian of any such pesticide or device. If the owner or custodian is not available for service of the order, the secretary may attach the order to the pesticide or device and notify the registrant. This section does not require the department to delay the prosecution of a case if immediate action is necessary to reduce the risk of harm to the environment or public health or safety. This section also does not require a review or response if the department refers a violation of this chapter for criminal prosecution, or for an action involving a stop order issued pursuant to section 206.16. The department shall consider any available response by the panel, but is not required to change findings of an investigation, a penalty sought to be assessed, or a manner of collection.

b. The panel shall elect a chairperson who shall serve for a term of one year. The panel shall meet on a regular basis and at the call of the chairperson or upon the written request to the chairperson of two or more members. Three voting members constitute a quorum and the

affirmative vote of a majority of the members present is necessary for any substantive action to be taken by the panel. The majority shall not include any member who has a conflict of interest and a statement by a member that the member has a conflict of interest is conclusive for this purpose. A vacancy in the membership does not impair the duties of the panel.

This section also does not require a review or response if the department refers a violation of this chapter for criminal prosecution, or for an action involving a “stop sale, use, or removal” order issued pursuant to section 206.16. The department shall consider any available response by the panel, but is not required to change findings of an investigation, a penalty sought to be assessed, or a manner of collection.

1. It is the policy of this state to provide for the rehabilitation and conservation of land

affected by coal mining and preserve natural resources, protect and perpetuate the taxable value of property, and protect and promote the health and safety of the people of this state.

2. The general assembly finds and declares that because the federal Surface Mining Control and Reclamation Act of 1977, Pub. L. No. 95-87, codified at 30 U.S.C. ch. 25, subch. IV, provides for a permit system to regulate the mining of coal and reclamation of the mining sites and provides that permits may be issued by states which are authorized to implement the provisions of that Act, it is in the interest of the people of Iowa to enact the provisions of this chapter in order to authorize the state to implement the provisions of the federal Surface Mining Control and Reclamation Act of 1977 and federal regulations and guidelines issued pursuant to that Act.

6. “*Mine*” means an underground mine operation or surface mine operation developed and operated for the purpose of extracting coal.
7. “*Operator*” means a person engaged in coal mining who removes or intends to remove more than fifty tons of coal from the earth by coal mining within twelve consecutive calendar months in one location.

 - a. Activities conducted on the surface of lands in connection with a surface coal mine or surface operations and surface impacts incident to an underground coal mine subject to the requirements of this chapter. However, these activities do not include the extraction of coal incidental to the extraction of other minerals if coal does not exceed sixteen and two-thirds percent of the tonnage of minerals removed for purposes of commercial use or sale or include coal explorations subject to this chapter.
 - b. The areas upon which such activities occur or where such activities disturb the natural land surface.

15. “Unwarranted failure to comply” means the failure of an operator to prevent the occurrence of or abate a violation of a permit or a requirement of this chapter due to indifference, lack of diligence, or lack of reasonable care.

Licenses expire on December 31 following the date of issuance and shall be renewed by the division upon application submitted within thirty days prior to the expiration date and accompanied by a fee of ten dollars.

2. The division may, after notification to the committee, commence proceedings to suspend, revoke, or refuse to renew a license of a licensee for repeated or willful violation of any of the provisions of this chapter or of the federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. §801 et seq.

3. The hearing shall be held pursuant to chapter 17A not less than fifteen nor more than thirty days after the mailing or service of the notice. If the licensee is found to have willfully or repeatedly violated any of the provisions of this chapter or of the federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. §801 et seq., the committee may affirm or modify the proposed suspension, revocation, or refusal to renew the license.

4. Suspension or revocation of a license shall become effective thirty days after the mailing or service of the decision to the licensee. If the committee finds the license should not be renewed, the renewal fee shall be refunded and the license shall expire on the expiration date or thirty days after mailing or service of the decision to the licensee, whichever is later.

207.4 Mine site permit.

1. a. Prior to beginning mining or removal of overburden at mining site, an operator shall obtain a permit from the division for the site. Application for a permit shall be made upon a form provided by the division. The permit fee shall be established by the division in an amount not to exceed the cost of administering the permit provisions of this chapter.

b. The application shall include but not be limited to:

(1) A legal description of the land where the site is located and the estimated number of acres affected.

(2) A statement explaining the authority of the applicant’s legal right to operate a mine on the land.

(3) A reclamation plan meeting the requirements of this chapter.

(4) A determination by an appropriate state or federal agency of the probable hydrologic consequences of the mining and reclamation operations, both on and off the mine site, with respect to the hydrologic regime, quantity, and quality of water in surface and groundwater systems including the dissolved and suspended solids under seasonal flow conditions and the collection of sufficient data for the mine site and surrounding areas so that an assessment can be made by the division of the probable cumulative impacts of all anticipated mining in the area upon the hydrology of the area and particularly upon water availability. If the division finds that the probable total annual production at all locations of a coal mining operator will not exceed one hundred thousand tons, the determination of probable hydrologic consequences and a statement of the result of test borings on core samplings which the division may require shall upon the written request of the operator be performed

by a qualified public or private laboratory designated by the division and the cost of the preparation of the determination and statement shall be assumed by the division.

2. All permits issued pursuant to the requirements of this chapter shall be issued for a term not to exceed five years. If the applicant demonstrates that a specified longer term is reasonably needed to allow the applicant to obtain necessary financing for equipment and the opening of the operation and if the application is full and complete for the longer term, the division may grant a permit for the longer term. A successor in interest to a permittee who applies for a new permit within thirty days of succeeding to the interest and is able to continue the bond coverage may continue coal mining and reclamation operations according to the approved mining and reclamation plan of the original permittee until the successor's application is granted or denied.

3. A permit terminates if the permittee has not commenced the coal mining operations covered by the permit within three years of issuance of the permit. However, the division may grant reasonable extensions of time upon a showing that the extensions are necessary because of litigation precluding the commencement or threatening substantial economic loss to the permittee or because of conditions beyond the control and without the fault or negligence of the permittee. If a coal lease is issued under the federal Mineral Leasing Act, as amended, extensions of time may not extend beyond the period allowed for diligent development in accordance with section 7 of that Act. If coal is to be mined for use in a synthetic fuel facility or specific major electric generating facility, the permittee is deemed to have commenced mining operations when the construction of the synthetic fuel or generating facility is initiated.

4. A valid permit carries the right of successive renewal upon expiration within the boundaries of the existing permit. On application for renewal the burden shall be on the opponents of approval. Upon application the renewal shall be issued unless the division establishes any of the following:

- a. The terms and conditions of the existing permit are not being satisfactorily met.
- b. The present coal mining and reclamation operation is not in compliance with the environmental protection standards of this chapter.
- c. The renewal requested substantially jeopardizes the operator's continuing responsibility on existing permit areas.
- d. The operator has not shown that the performance bond for the operation and any additional bond the division may require will continue in full force and effect for the renewal requested.
- e. Additional revised or updated information required by the division has not been provided.

5. a. A permit renewal shall be for a term not to exceed the period of the original permit.

b. Application for renewal shall be made at least one hundred twenty days prior to the expiration of the permit. Prior to the approval of a renewal of permit the division shall provide notice to the appropriate public authorities.

207.5 Public notice and hearing.

1. An applicant for a coal mining and reclamation permit or its renewal shall file a copy of the application for public inspection with the county recorder of each county where the mining is proposed to occur.

2. An applicant for a coal mining and reclamation permit or its renewal shall submit to the division a copy of the applicant's advertisement of the ownership, precise location, and boundaries of the land to be affected. At the time of submission the advertisement shall be placed by the applicant in a local newspaper of general circulation in the locality of the proposed mine weekly for four consecutive weeks. The division shall notify various local governmental bodies, planning agencies, sewage and water treatment authorities, and water companies where the proposed mining will take place, informing them of the operator's

intention to mine a particularly described tract of land, indicating the application number and where a copy of the proposed mining and reclamation plan may be inspected. They may submit written comments within a reasonable period established by the division on the effect of the proposed operation on the environment within their area of responsibility. The comments shall immediately be transmitted to the applicant and shall be made available to the public at the same locations as the mining permit application.

3. A person having an interest which is or may be adversely affected or a federal, state, or local governmental agency may file written objections to the proposed initial or revised application for a permit for coal mining and reclamation operation with the division within sixty days after the last publication of the advertisement. The objections shall immediately be transmitted to the applicant and shall be made available to the public. If objections are filed and an informal conference requested within a reasonable time, the division shall hold an informal conference in the locality of the proposed mining operations and shall publish the date, time and location in a newspaper of general circulation in the locality at least two weeks prior to the scheduled conference date. Upon request by an interested party, the division may arrange with the applicant access to the proposed mining area for the purpose of gathering information relevant to the proceeding. An electronic or stenographic record shall be made of the conference proceeding, unless waived by all parties. The record shall be maintained and shall be accessible to the parties until final release of the applicant's performance bond. If all parties requesting the informal conference stipulate agreement prior to the conference and withdraw their request, the conference need not be held.

4. An application for a permit shall show a certificate issued by an insurance company authorized to do business in this state certifying that the applicant has a public liability insurance policy in force for that mining and reclamation operation or evidence satisfactory to the division that the applicant has an adequate self-insurance plan. The policy or self-insurance plan shall provide for personal injury and property damage protection adequate to compensate persons entitled to compensation because of damage as a result of coal mining and reclamation operations including use of explosives. The policy or self-insurance plan shall be maintained in full force and effect during the terms of the permit, any renewal and all reclamation operations.

C93, §207.5

207.6 Blasting plan required.

1. An application for a permit shall contain a blasting plan which outlines the procedures and standards by which the operator will meet the requirements of the division.

2. The division may promulgate rules requiring the training, examination, and certification of persons engaging in or directly responsible for blasting or use of explosives in coal mining operations.

207.7 Environmental protection performance standards.

207.8 Determining if land is unsuitable for mining.

1. The division by rule shall designate a site unsuitable for coal mining if the division determines on the basis of an application or petition that reclamation as required by this chapter is not technologically and economically feasible and may designate a site unsuitable for coal mining if such operations will:

- a. Be incompatible with existing state or local land use plans or programs.
- b. Affect fragile or historic lands in which the operations could result in significant damage to important historic, cultural, scientific, or esthetic values or natural systems.
- c. Affect renewable resource lands in which such operations could result in a substantial loss or reduction of long range productivity of water supply or of food or fiber products, and such lands to include aquifers and aquifer recharge areas.
- d. Affect natural hazards lands in which such operations could substantially endanger life and property, such lands to include areas subject to frequent flooding and areas of unstable geology.

2. The requirements of this section do not apply to lands on which coal mining operations are being conducted as of August 3, 1977, or under a permit issued pursuant to this chapter or pursuant to section 83A.12, Code 1979, or where substantial legal and financial commitments in an operation were in existence prior to January 4, 1977.

3. Prior to designating a land area as unsuitable for coal mining operations, the division shall prepare a detailed statement on the potential coal resources of the area, the demand for coal resources, and the impact of the designation on the environment, the economy, and the supply of coal.

4. A person having an interest which is or may be adversely affected may petition the division to have an area designated or to have the designation terminated. The petition shall contain allegations of facts with supporting evidence tending to establish the allegations. Within ten months after receipt of the petition the division shall hold a public hearing in the locality of the affected area, after appropriate notice and publication of the date, time, and location of the hearing. After a person has filed a petition and before the hearing, any person may intervene by filing allegations. Within sixty days after the hearing, the division shall issue and furnish to the petitioner and any other party to the hearing a written decision regarding the petition and the reasons. If all the petitioners stipulate agreement prior to the hearing and withdraw their request, the hearing need not be held.

5. Subject to valid existing rights, coal mining operations, except those which exist on the effective date of this chapter, shall not be permitted on any of the following:

- a. Lands within the boundaries of units of the national park systems, the national system of trails, the national wilderness preservation system, the national wildlife refuge systems, the wild and scenic rivers system, including study rivers designated under section 5(a) of the Wild and Scenic Rivers Act and national recreation areas designated by Act of Congress.

- b. Lands which will adversely affect any publicly owned park or places included in the national register of historic sites unless approved jointly by the division and the federal, state, or local agency with jurisdiction over the park or the historic site.

- c. Within one hundred feet of the outside right-of-way line of a public road, except where mine access roads or haulage roads join the right-of-way line and except that the division may permit such roads to be relocated or the area affected to lie within one hundred feet of such road, if after public notice and opportunity for public hearing in the locality a written finding is made that the interests of the public and the landowners affected thereby will be protected.

- d. Within three hundred feet of an occupied dwelling or a privately owned building, unless waived by the owner, or within three hundred feet of a public building, school, church, community, or institutional building, public park, or within one hundred feet of a cemetery.

207.9 Permit approval or denial.

1. Upon the basis of a complete mining application and reclamation plan or a revision or renewal, the division shall grant, require modification of, or deny the application for a permit in a reasonable time set by the division and notify the applicant in writing. The applicant shall have the burden of establishing that the application is in compliance with all the requirements of this chapter. Within ten days after granting of a permit, the division shall notify the political

subdivision in which the area of land to be affected is located that a permit has been issued and shall describe the location of the land.

2. A permit or revision application shall not be approved unless the application affirmatively demonstrates and the division finds in writing on the basis of the application or other information documented in the approval, and made available to the applicant, the following:

a. The permit application is accurate, complete and in compliance with all the requirements of this chapter.

b. The applicant has demonstrated that reclamation as required by this chapter and the state program can be accomplished under the reclamation plan contained in the permit application.

c. The division has assessed the probable cumulative impact of all anticipated mining in the area on the hydrologic balance and the proposed operation has been designed to prevent material damage to hydrologic balance outside permit area.

d. The area proposed to be mined is not included within an area designated unsuitable for coal mining or is not within an area proposed for such designation.

e. If the private mineral estate has been severed from the private surface estate, the applicant has submitted any of the following:

(1) The written consent of the surface owner to the extraction of coal.

(2) A conveyance that expressly grants or reserves the right to extract the coal by surface mining.

(3) If the conveyance does not expressly grant the right to extract coal by surface mining methods, the surface-subsurface legal relationship as determined in accordance with state law. This chapter does not authorize the division to adjudicate property rights disputes.

3. The applicant shall file with the permit application a schedule listing any and all notices of violations of this chapter and any law or rule of the federal or a state government pertaining to air or water environmental protection incurred by the applicant in connection with a coal mining operation during the three previous years. The schedule shall also indicate the final resolution of the notice of violation. If any information available to the division indicates that a coal mining operation owned or controlled by the applicant is currently in violation of this chapter or the other laws referred to in this subsection, the permit shall not be issued until the applicant submits proof that such violation has been corrected or is in the process of being corrected to the satisfaction of the regulatory authority which has jurisdiction over the violation and the permit shall not be issued to an applicant after a finding by the division after an opportunity for a hearing that the applicant, or the operator specified in the application, controls or has controlled mining operations with a demonstrated pattern of willful violations of this chapter.

4. If the area proposed to be mined contains prime farmland, the division shall, after consultation with the United States secretary of agriculture, and pursuant to regulations issued by the secretary with the concurrence of the secretary of agriculture, grant a permit to mine on prime farmland if the division finds in writing that the operator has the technological capability to restore such mined area, within a reasonable time, to equivalent or higher levels of yield as nonmined prime farmland in the surrounding area under equivalent levels of management and can meet the soil reconstruction standards established by section 207.7. Any operator who mines coal on agricultural land shall restore such mined area, within a reasonable time, to equivalent or higher levels of yield as nonmined agricultural land of similar quality in the surrounding area under equivalent levels of management.

5. Within sixty days a person having an interest which is or may be adversely affected may appeal to the committee the decision of the division granting or denying a permit as a contested case under chapter 17A.

[C81, §83.9]

C93, §207.9

207.10 Performance bond requirement.

1. After a permit application has been approved but before issuance, the applicant shall file with the division, on a form furnished by the division, a bond for performance payable to

the state and conditioned upon faithful performance by the operator of all requirements of this chapter and all rules adopted by the division pursuant to this chapter.

2. The bond shall be signed by the operator as principal and by a corporate surety licensed to do business in Iowa as surety. In lieu of a bond, the operator may deposit cash, or government securities, or certificates of deposit or letters of credit with the division on the same conditions as for filing of bonds.

3. The amount of the bond or other security required to be filed with the division shall be equal to the estimated cost of reclamation of the site if performed by the division. The estimated cost of reclamation of each individual site shall be determined by the division on the basis of relevant factors. The division may require each applicant to furnish information necessary to estimate the cost of reclamation. The amount of the bond or other security may be increased or reduced as the permitted operation changes, or when the cost of future reclamation changes. However, the bond amount shall not be less than ten thousand dollars.

4. Liability under the bond shall be for the duration of the coal mining and reclamation operation and for a period coincident with operator's responsibility for revegetation requirements in the rules promulgated under section 207.7.

5. If the license to do business in Iowa of a surety of a bond filed with the division is suspended or revoked, the operator, within thirty days after receiving notice from the division, shall substitute another surety. If the operator fails to make substitution, the division may suspend the operator's authorization to conduct mining on the site covered by the bond until substitution has been made. The commissioner of insurance shall notify the division whenever the license of any surety providing bond for an operator is suspended or revoked.

6. Notwithstanding sections 12C.7, subsection 2, and 666.3, the interest or earnings on investments or time deposits of the proceeds of a performance bond forfeited to the division, cash deposited under subsection 2, any funds provided for the abandoned mine reclamation program under section 207.21 and any civil penalties collected pursuant to sections 207.14 and 207.15 shall be credited to the payment of costs and administrative expenses associated with the reclamation, restoration or abatement activities of the division. The division may expend funds credited to it under this subsection to conduct reclamation activities on any areas disturbed by coal mining not subject to a presently valid permit to conduct surface mining.

[C81, §83.11]
C93, §207.11

207.12 Revision of permits.

1. a. An operator may apply for a revision or cancellation of a permit. The application shall be submitted by the operator on a form provided by the division, and shall contain information as required by the division.

b. The division shall establish rules for determining the scale or extent of a revision request to which all permit application information requirements and procedures including notice and hearings, shall apply. Revisions which propose significant alterations in the reclamation plan shall be subject to notice and hearing requirements.

2. An application for a revision of a permit shall not be approved unless the division finds that reclamation as required by this chapter can be accomplished under the revised reclamation plan.

3. Extensions to the area covered by the permit except incidental boundary revisions must be made subject to the requirements for an application for new permit.

4. If the application is to cancel the permit as it pertains to any or all of the unmined part of a site, the division shall, after ascertaining that overburden has not been disturbed or deposited on the land, order release of the bond or the security posted on that portion of the land being removed from the permit and cancel or amend the operator's permit to conduct mining on the site. Land where overburden has been disturbed or deposited shall not be removed from a permit or released from bond or security under this section.

5. A transfer, assignment, or sale of the rights granted under a permit shall not be made without the written approval of the division.

6. Fees for revision or cancellation shall be determined by the division but shall not exceed the cost of administering revisions or cancellations of permits as authorized under this section.

7. The division shall review outstanding permits within a time limit prescribed by rule and may require reasonable revision or modification of the permit provisions during the term of the permit. However, the revision or modification shall be based upon a written finding and subject to notice and hearing requirements established by the division.

207.13 Inspections and monitoring.

1. *a.* The division shall make inspections of any mining and reclamation operations as are necessary to evaluate the administration of this chapter and authorized representatives of the division shall have a right to entry at any mining and reclamation operation. If the operator refuses to consent to the inspection, the division shall request the attorney general to immediately obtain a warrant for the inspection.

b. The division shall determine what records and other information shall be maintained and furnished to the division by the operators for the effective administration of this chapter.

2. The inspections by the division shall:

a. Occur at a frequency of one complete inspection per calendar quarter and at least one partial inspection on an irregular basis in those months where a complete inspection is not performed.

b. Occur without prior notice to the permittee, agents or employees except for necessary on-site meetings with the permittee.

c. Include the filing of inspection reports adequate to enforce the requirements of and to carry out the terms and purposes of this chapter.

3. If the division has reason to believe that an operator is in violation of a requirement of this chapter or a permit condition, the division shall immediately order an inspection of the coal mining operation within ten days of receiving notice of the alleged violation.

4. An operator shall conspicuously maintain a clearly visible sign at the entrances to the mining and reclamation operation which sets forth the name, business address, permit number and phone number of the operator.

5. Each inspector shall immediately inform the operator in writing of each violation, and shall report in writing any violation to the division.

6. Copies of any record, reports, inspection materials, or information obtained under this section by the division shall be made immediately available to the public at central and sufficient locations in the area of mining so that they are conveniently available to residents in the areas of mining.

7. An employee of the division performing any function or duty under this chapter shall not have a direct or indirect financial interest in any mining operation.

C93, §207.13

2002 Acts, ch 1050, §20; 2009 Acts, ch 41, §263

207.14 Enforcement.

1. *a.* When on the basis of an inspection, the administrator determines that a condition or practice exists which creates an imminent danger to the health or safety of the public or can reasonably be expected to cause significant, imminent environmental harm to land, air, or water resources, the administrator shall immediately order a cessation of coal mining and reclamation operations to the extent necessary until the administrator determines that the condition, practice, or violation has been abated, or until the order is modified, vacated, or terminated by the division pursuant to procedures set out in this section.

b. If the administrator finds that the ordered cessation will not completely abate the imminent danger to health or safety of the public or the significant imminent environmental harm, the administrator shall require the operator to take whatever steps the administrator deems necessary to abate the imminent danger or the significant environmental harm.

2. *a.* When on the basis of an inspection, the administrator determines that any operator is in violation of any requirement of this chapter or permit condition, but the violation does not create an imminent danger to the health or safety of the public or cannot be reasonably expected to cause significant, imminent environmental harm, the administrator shall issue a notice to the operator fixing a reasonable time but not more than ninety days for the abatement of the violation and providing opportunity for public hearing.

b. If upon expiration of the time as fixed the administrator finds in writing that the violation has not been abated, the administrator, notwithstanding sections 17A.18 and 17A.18A, shall immediately order a cessation of coal mining and reclamation operations relating to the violation until the order is modified, vacated, or terminated by the administrator pursuant to procedures outlined in this section. In the order of cessation issued by the administrator under this subsection, the administrator shall include the steps necessary to abate the violation in the most expeditious manner possible.

3. When on the basis of an inspection the administrator determines that a pattern of violations of the requirements of this chapter or any permit conditions exists or has existed, and if the administrator also finds that the violations are willful or caused by the unwarranted failure of the operator to comply with any requirements of this chapter or any permit conditions, the administrator shall immediately issue an order to the operator to show cause as to why the permit should not be suspended or revoked and the bond or security forfeited, and shall provide opportunity for a hearing as a contested case pursuant to chapter 17A. Upon the operator's failure to show cause, the administrator shall immediately suspend or revoke the permit.

4. *a.* A permittee may request in writing an appeal to the committee of a decision made in a hearing under subsection 3 within thirty days of the decision. The committee shall review the record made in the contested case hearing, and may hear additional evidence upon a showing of good cause for failure to present the evidence in the hearing, or if evidence concerning events occurring after the hearing is deemed relevant to the proceeding. However, the committee shall not review a decision in a proceeding if the division seeks to collect a civil penalty pursuant to section 207.15, and those decisions are final agency actions subject to direct judicial review as provided in chapter 17A.

b. The contested case hearing shall be scheduled within thirty days of receipt of the request by the division. If the decision in the contested case is to revoke the permit, the permittee shall be given a specific period to complete reclamation, or the attorney general shall be requested to institute bond forfeiture proceedings.

5. In any administrative proceeding under this chapter or judicial review, the amount of all reasonable costs and expenses, including reasonable attorney fees incurred by a person in connection with the person's participation in the proceedings or judicial review, may be assessed against either party as the court in judicial review or the committee in administrative proceedings deems proper.

6. Notices and orders issued pursuant to this section shall set forth with reasonable specificity the nature of the violation and the remedial action required, the period of time established for abatement, and a reasonable description of the portion of the coal mining and reclamation operation to which the notice or order applies. Each notice or order issued under this section shall be given promptly to the operator or an agent and all notices and

orders shall be in writing and signed. A notice or order issued pursuant to this section may be modified, vacated, or terminated by the administrator. Any notice or order issued pursuant to this section which requires cessation of mining by the operator expires within thirty days of actual notice to the operator unless a public hearing is held at or near the site so that any viewings of the site can be conducted during the course of the hearing.

7. a. A permittee issued a notice or order under this section or any person having an interest which is or may be adversely affected by the notice or order or by its modification, vacation, or termination may apply to the committee for review within thirty days of receipt of the notice or order or within thirty days of its modification, vacation, or termination. The review shall be treated as a contested case under chapter 17A.

b. Pending completion of any investigation or hearings required by this section, the applicant may file with the division a written request that the administrator grant temporary relief from any notice or order issued under this section together with a detailed statement giving reasons for granting such relief.

c. The administrator shall issue an order or decision granting or denying the request for relief within five days of its receipt. The administrator may grant such relief under such conditions as the administrator may prescribe if all of the following occur:

(1) A hearing has been held in the locality of the permit area in which all parties were given an opportunity to be heard. The hearing need not be held as a contested case under chapter 17A.

(2) The applicant shows that there is substantial likelihood that the findings of the committee will be favorable to the applicant.

(3) Such relief will not adversely affect the health or safety of the public or cause significant, imminent environmental harm to land, air, or water resources.

8. At the request of the division, the attorney general shall institute any legal proceedings, including an action for an injunction or a temporary injunction necessary to enforce the penalty provisions of this chapter or to obtain compliance with this chapter. Injunctive relief may be requested to enforce a cessation order issued by the administrator pending a hearing pursuant to subsection 4.

9. When on the basis of an inspection, or other information available to the division, the administrator has reasonable cause to believe that the operator is unable to complete reclamation of all or a portion of the permit area as required by law, the administrator shall issue an order to the operator to show cause as to why all or a portion of the performance bond required by section 207.10 should not be revoked.

207.15 Penalties.

1. a. (1) A person who violates a permit condition, a provision of this chapter, or a rule or order issued under this chapter is subject to a civil penalty not to exceed five thousand dollars per day for each day of violation.

(2) If a violation results in the issuance of a cessation order, a civil penalty shall be imposed. The penalty shall not exceed five thousand dollars for each day of violation.

b. In determining the amount of the penalty, consideration shall be given to the operator's history of previous violations at the particular mining operation, the seriousness of the violation, including any irreparable harm to the environment and any hazard to the health or safety of the public, whether the operator was negligent, and the demonstrated good faith of the operator charged in attempting to achieve rapid compliance after notification of the violation.

c. An operator who fails to correct a violation for which a notice or order has been issued within the period permitted for its correction shall be required to pay a civil penalty of not less than seven hundred fifty dollars for each day during which the failure or violations continue.

2. a. If a notice or order has been issued, the division may assess a recommended penalty

in accordance with a schedule established by rule. The person to whom the notice or order was issued may submit written information within fifteen days of the notice or order to be considered by the division. The division shall serve the assessment by certified mail, return receipt requested, within thirty days of issuance of the notice or order. The division may reassess any penalty if necessary to account for facts not reasonably available on the date of issuance of the assessment. A person may consent to a penalty assessment by paying the penalty without resort to judicial proceedings.

b. If a violation results in the issuance of a cessation order pursuant to section 207.14 the division shall assess a penalty.

3. A contested case hearing may be requested pursuant to section 207.14, subsection 4, to review a notice, order, or penalty assessment. A person to whom a penalty assessment has been issued may request a contested case hearing solely for review of the amount of the penalty. A penalty assessment is final if a request for review is not made in a timely manner.

4. Judicial review of any action of the division shall be in accordance with chapter 17A. Judicial review of a penalty assessment shall not be permitted unless the petitioner has posted a bond equal to the amount of the assessed penalty in the district court or has placed the proposed amount in an interest-bearing escrow fund approved by the division.

5. If a violation results in a cessation order pursuant to section 207.14, the attorney general, at the request of the division, shall institute a civil action in district court for injunctive relief.

6. Notwithstanding section 17A.20, an appeal bond shall be required for an appeal of a judgment assessing a civil penalty.

7. A person who willfully and knowingly violates a condition of a permit or any other provision of this chapter, or makes a false statement, representation, or certification, or knowingly fails to make a statement, representation, or certification in an application, record, report, plan, or other document filed or required to be maintained pursuant to this chapter or any order or decision of this chapter, shall be guilty of a serious misdemeanor and notwithstanding section 903.1 the maximum fine shall be ten thousand dollars.

8. 207.16 Release of performance bonds or deposits.

1. Each operator upon completion of any reclamation work required by this chapter shall apply to the division in writing for approval of the work. The division shall promulgate rules consistent with Pub. L. No. 95-87, §519, codified at 30 U.S.C. §1269, regarding procedures and requirements to release performance bonds or deposits.

2. The division may release in whole or part the bonds or deposits if the division is satisfied the reclamation covered by the bonds or deposits or portions thereof has been accomplished as required by this chapter according to stages determined by the division by rule. When the operator has completed successfully all surface coal mining and reclamation activities, the remaining portion of the bond shall be released upon the expiration of the period specified for operator responsibility in the rules promulgated pursuant to section 207.7. A bond shall not be fully released until all reclamation requirements of this chapter are fully met.

3. A person with a valid legal interest which might be adversely affected by release of

the bond or a federal, state, or local governmental agency which has jurisdiction by law or special expertise with respect to any environmental, social, or economic impact involved in the operation, or which is authorized to develop and enforce environmental standards with respect to such operations may file written objections to the proposed release from bond to the division within sixty days after the last publication as required by rule of a notice of a request for bond release by the operator. If written objections are filed and a hearing is requested, the division shall inform all the interested parties of the time and place of the hearing, and hold a public hearing as a contested case in the locality of the coal mining operation or at the state capital, at the request of the objectors, within thirty days of the request. The date, time, and location shall be advertised by the division in a newspaper of general circulation in the locality for two consecutive weeks.

207.17 Citizen suits.

1. A person having an interest which is or may be adversely affected may commence a civil action on the person's own behalf to compel compliance with this chapter as follows:

a. Against the division or any other governmental agency or subdivision which is alleged to be in violation of the provisions of this chapter or of any rule, order or permit issued or against any other person who is alleged to be in violation of any rule, order or permit issued pursuant to this chapter.

b. Against the division where there is alleged a failure of the division to perform any act or duty required under this chapter. The suit shall be filed in the county where the mining operation is or, if against the division, in the district court for Polk county or the county of the petitioner's residence.

2. An action shall not be commenced:

a. Under subsection 1, paragraph "a" of this section until sixty days after the plaintiff has given notice in writing of the violation to the division and to any alleged violator, or if the state has commenced and is diligently prosecuting a civil action against that operator for compliance with the provisions of this chapter; however, the person may intervene in the action as a matter of right.

b. Under subsection 1, paragraph "b" of this section until sixty days after the plaintiff has given notice in writing to the division in the manner provided by rule; however, if the violation or order complained of constitutes an imminent threat to the health or safety of the plaintiff or would immediately affect a legal interest of the plaintiff, the action may be brought immediately after giving notice.

3. The division may intervene in any action under this section.

4. The court, in issuing a final order in an action brought pursuant to subsection 1 of this section, may award costs of litigation including attorney and expert witness fees to any party.

5. This section does not restrict a right which any person or class may have under a statute or common law to seek enforcement of any of the provisions of this chapter or to seek any other relief. The availability of judicial review of the actions of the division shall not restrict any rights established by this section.

6. A person whose person or property is injured through the violation by any operator of a rule, order, or permit issued pursuant to this chapter may bring an action for damages including reasonable attorney and expert witness fees only in the county in which the coal mining operation complained of is located. This subsection shall not affect the rights or limits under workers' compensation as provided in chapter 85.

1. A coal exploration operation in this state which substantially disturbs the natural land surface shall be conducted in accordance with exploration rules issued by the division. The rules shall include at a minimum the following:

a. The requirement that prior to conducting an exploration the person must file with the division a notice of intention to explore describing the exploration area and the period of exploration.

b. Provisions for reclamation of the lands disturbed by the exploration in accordance with the environmental performance standards mandated by section 207.7.

2. Information submitted to the division pursuant to this section and determined by the division, following consultation with the person submitting the information, to be confidential concerning trade secrets or privileged commercial or financial information which relates to the competitive rights of the person intending to explore the described area shall not be available for public examination.

207.19 Surface effects of underground coal mining operations.

1. The provisions of this chapter shall be applicable to surface operations and surface impacts incident to an underground coal mine with such modifications to the permit application requirements, permit approval or denial procedures, and bond requirements as are necessary to accommodate the distinct difference between surface and underground coal mining. The division shall promulgate such modifications in its rules to allow for such distinct differences and still fulfill the purposes of this chapter and be consistent with the requirements of Pub. L. No. 95-87, §516, codified at 30 U.S.C. §1266, and the permanent regulations issued pursuant to that Act.

2. In order to protect the stability of the land, the division shall suspend underground coal mining under urbanized areas, cities, and communities and adjacent to industrial or commercial buildings, major impoundments, or permanent streams if the administrator finds imminent danger to inhabitants of the urbanized areas, cities, and communities.

207.21 Abandoned mine reclamation program.

1. The division shall participate in the abandoned mine reclamation program under Pub. L. No. 95-87, Tit. IV, codified at 30 U.S.C. ch. 25, subch. IV. There is established an abandoned mine reclamation fund under the control of the division.

2. a. Lands and water eligible for reclamation or drainage abatement expenditures under this section include the following:

(1) Lands which were mined for coal or affected by such mining, waste banks, coal processing, or other coal mining processes, and abandoned or left in an inadequate reclamation status prior to August 3, 1977, and for which there is no continuing reclamation responsibility under state or federal laws.

(2) Coal lands and water damaged by coal mining processes and abandoned after August

3, 1977, if they were mined for coal or affected by coal mining processes and if either of the following occurred:

(a) The mining occurred and the site was left in either an unreclaimed or inadequately reclaimed condition between August 4, 1977, and April 10, 1981, and any moneys for reclamation or abatement that are available pursuant to a bond or other form of financial guarantee or from any other source are not sufficient to provide for adequate reclamation or abatement at the site.

(b) The mining occurred and the site was left in either an unreclaimed or inadequately reclaimed condition between August 4, 1977, and November 5, 1990, and the surety of the mining operator became insolvent during that period and, as of November 5, 1990, moneys immediately available from proceedings relating to the insolvency or from any financial guarantee or other source are not sufficient to provide for adequate reclamation or abatement at the site.

b. If requested by the governor, the division may fill voids and seal tunnels, shafts, and entryways resulting from any previous noncoal mining operation, and may reclaim surface impacts of any such noncoal underground or surface mines that were mined prior to August 3, 1977, and which constitute an extreme danger to the public health, safety, general welfare, or property. Sites and areas designated for remedial action pursuant to the federal Uranium Mill Tailings Radiation Control Act of 1978, 42 U.S.C. §7901 et seq., or which have been listed for remedial action pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. §9601 et seq., are not eligible for expenditures under this section.

3. Expenditure of moneys from the abandoned mine reclamation fund on eligible lands and water for the purpose of this program shall reflect the following priorities in the order stated:

a. The protection of public health, safety, and property from extreme danger of adverse effects of coal mining practices.

b. The protection of public health and safety from adverse effects of coal mining practices.

c. The restoration of land and water resources and the environment previously degraded by adverse effects of coal mining practices including measures for the conservation and development of soil, water, excluding channelization, woodland, fish and wildlife, recreation resources, and agricultural productivity.

d. The protection, repair, replacement, construction, or enhancement of public facilities such as utilities, roads, recreation, and conservation facilities adversely affected by coal mining practices.

e. The development of publicly owned land adversely affected by coal mining practices including land acquired as provided in this section for recreation and historic purposes, conservation, and reclamation purposes and open space benefits.

4. a. The division shall submit to the secretary a state reclamation plan and annual projects to carry out the purposes of this program. The plan shall generally identify the areas to be reclaimed, the purposes for which the reclamation is proposed, the relationship of the lands to be reclaimed and the proposed reclamation to surrounding areas, the specific criteria for ranking and identifying projects to be funded, and the legal authority and programmatic capability to perform such work in conformance with the provisions of Pub. L. No. 95-87, Tit. IV, codified at 30 U.S.C. ch. 25, subch. IV.

b. The division may annually submit to the secretary an application with such information as determined by the secretary for the support of the state program and implementation of specific reclamation projects.

c. The costs for each proposed project under this program shall include actual construction costs, actual operation and maintenance costs of permanent facilities, planning and engineering costs, construction and inspection costs, and other necessary administrative expenses.

d. The division shall prepare and submit annual and other reports as required by the secretary.

5. The division in participating in the abandoned mine reclamation program under Pub.

L. No. 95-87, Tit. IV, codified at 30 U.S.C. ch. 25, subch. IV, shall have the following additional powers:

a. To engage in any work and to do all things necessary or expedient, including promulgation of rules, to implement and administer the provisions of this program.

b. To engage in cooperative projects with any other governmental unit provided that such cooperative projects shall be under a cooperative agreement conducted according to the provisions of chapter 28E.

c. To request the attorney general to seek injunctive relief to restrain any interference with the exercise of the right to enter or to conduct work under this program.

d. To construct and operate a plant or plants for the control and treatment of water pollution resulting from mine drainage. The extent of this control and treatment may be dependent upon the ultimate use of the water. The construction of a plant or plants may include major interceptors and other facilities appurtenant to the plant.

207.22 Acquisition and reclamation of land.

1. a. The division, pursuant to a state program approved by the secretary, may take action as provided in paragraph “b” of this subsection if it finds all of the following:

(1) Land or water resources have been adversely affected by past coal mining practices.

(2) The adverse effects are at a stage where in the public interest action to restore, reclaim, abate, control, or prevent should be taken.

(3) The owners of the land or water resources where entry must be made to restore, reclaim, abate, control, or prevent the adverse effects of past coal mining practices are not known or readily available, or will not give permission for the United States, this state, political subdivisions, their agents, employees, or contractors to enter upon such property to restore, reclaim, abate, control, or prevent the adverse effects of past coal mining practices.

b. Upon giving notice by mail to the owners if known or by posting notice upon the premises and advertising once in a local newspaper of general circulation if not known, the division may enter upon the property adversely affected by past coal mining practices and any other property to have access to the property to do all things necessary or expedient to restore, reclaim, abate, control, or prevent the adverse effects. The entry shall be construed as an exercise of the police power for the protection of public health, safety, and general welfare and not as an act of condemnation of property or trespass. The moneys expended for the work and the benefits accruing to the property shall be chargeable against such property and shall mitigate or offset any claim on or any action brought by an owner of any interest in the property for any alleged damages because of the entry. This provision does not create new rights of action or eliminate existing immunities.

2. The division may enter upon a property for the purpose of conducting studies or exploratory work to determine the existence of adverse effects of past coal mining practices and to determine the feasibility of restoration, reclamation, abatement, control, or prevention of such adverse effects. The entry shall be construed as an exercise of the police power for the protection of public health, safety, and general welfare and not as an act of condemnation of property or trespass.

3. The division pursuant to an approved state program may acquire any land, by purchase, donation, or condemnation, which is adversely affected by past coal mining practices if the secretary determines that acquisition of the land is necessary to successful reclamation and that:

a. The acquired land, after restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal mining practices, will serve recreation and historic purposes, conservation and reclamation purposes or provide open spaces benefits and that permanent facilities such as a treatment plant or a relocated stream channel will be constructed on the

land for the restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal mining practices; or

b. Acquisition of coal refuse disposal sites and all coal refuse thereon will serve the purposes of Pub. L. No. 95-87, Tit. IV, codified at 30 U.S.C. ch. 25, subch. IV, or that public ownership is desirable to meet emergency situations and prevent recurrences of the adverse effect of past coal mining practices.

4. Title to all lands acquired pursuant to this section shall be in the name of this state. The price paid for land acquired under this section shall reflect the market value of the land as adversely affected by past coal mining practices.

5. If land acquired pursuant to this section is deemed to be suitable for industrial, commercial, agricultural, residential, or recreational development, the division with authorization from the secretary may sell the land by public sale under a system of competitive bidding, at not less than fair market value and under rules promulgated to insure that the lands are put to proper use consistent with local land use plans.

6. The division if requested after appropriate public notice shall hold a public hearing with the appropriate notice, in the county of the lands acquired pursuant to this section. The hearings shall be held at a time that affords local citizens and governments the maximum opportunity to participate in the decision concerning the use or disposition of the lands.

7. The division may cooperate with the secretary in acquiring land by purchase, donation, or condemnation to assist the housing of people disabled as the result of employment in the mines or incidental work, persons displaced by acquisition of land pursuant to this section, or persons dislocated as the result of adverse effects of coal mining practices which constitute an emergency as determined by the secretary. The fund provided under this section shall not be used to pay the actual construction costs of housing.

207.23 Liens.

1. Within six months after the completion of a project to restore, reclaim, abate, control, or prevent adverse effects of past coal mining practices on privately owned land, the division shall itemize the money expended on the project and may file a lien statement in the office of the district court clerk of each county in which a portion of the property affected by the project is located, together with a notarized appraisal by an independent appraiser of the value of the land before the restoration, reclamation, abatement, control, or prevention of adverse effects of past mining practices if the money so expended results in a significant increase in property value. A copy of the lien statement and the appraisal, if required, shall be served upon affected property owners in the manner provided for service of an original notice. The lien shall not exceed the amount determined by the appraiser to be the increase in the market value of the land as a result of the restoration, reclamation, abatement, control, or prevention of adverse effects of past coal mining practices. A lien shall not be filed in accordance with this subsection against the property of a person who neither consented to, participated in, nor exercised control over the mining operation which necessitated the reclamation performed.

2. The owner of property to which the lien attaches may petition the court within sixty days after receipt of service of the lien statement, to determine the increase in the market value of the land as a result of the restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal mining practices. The amount found to be the increase in value of the property shall constitute the amount of the lien and shall be recorded in the office of the district court in each county in which the owner's property is located. A party aggrieved by the decision may appeal as provided by law.

3. The lien provided in this section has priority over all other liens or security interests which have attached to the property, whenever those liens may have arisen, except liens of real estate taxes imposed upon the property.

The division shall, by certified mail or personal service, serve on the operator notice in writing of the charges and grounds upon which the license is to be suspended, revoked, or will not be issued. The notice shall include the time and the place at which a hearing shall be held before the committee, a subcommittee appointed by the committee, or the committee's designee, to determine whether to suspend, revoke, or refuse to issue the license. The hearing shall be not less than fifteen nor more than thirty days after the mailing or service of the notice.

3. An operator whose license the division proposes to suspend, revoke, or refuse to issue has the right to counsel and may produce witnesses and present statements, documents, and other information in the operator's behalf at the hearing.

4. If after full investigation and hearing the operator is found to have willfully or repeatedly violated any of the provisions of this chapter, the committee or subcommittee may affirm or modify the proposed suspension, revocation, or refusal to issue the license.

5. When the committee or subcommittee finds that a license should be suspended or revoked or should not be issued, the division shall so notify the operator in writing by certified mail or by personal service.

a. The suspension or revocation of a license shall become effective thirty days after notice to the operator.

b. If the license or renewal fee has been paid and the committee or subcommittee finds that the license should not be issued, then the license shall expire thirty days after notice to the operator.

208.9 Registering mine site.

1. At least seven days before beginning mining or removal of overburden at a mine site not previously registered, an operator engaging, or preparing to engage, in mining in this state shall register the mine site with the division. Application for registration shall be made upon a form provided by the division and shall be accompanied by a bond or security as provided by section 208.14. A registration renewal shall be filed annually. Application for renewal of registration shall be on a form provided by the division. The registration and registration cancellation fees shall be established by the division in an amount not to exceed the cost of administering the provisions of this chapter. The application shall include a description of the tract or tracts of land where the site is located and the estimated number of acres at the site to be affected by the mine. The description shall include the section, township, range, and county in which the land is located and shall otherwise describe the land with sufficient certainty to determine the location and to distinguish the land to be registered from other lands. The application shall include a statement explaining the authority of the applicant's legal right to operate a mine on the land.

2. A mine site registered pursuant to this chapter shall have a clearly visible sign which

identifies the mining operation. Failure to post and maintain a sign as required by this subsection, within thirty days after notice from the division, invalidates the registration.

b. Administrative penalties may be assessed in lieu of or in conjunction with any action initiated by the attorney general on behalf of the division.

c. All penalties shall be paid within thirty days of the date that the order assessing the penalty becomes final. An operator who fails to pay an administrative penalty assessed by a final order of the division shall pay, in addition, interest at the rate of one and one-half percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid.

d. The attorney general shall, at the request of the division, institute proceedings to recover all penalties assessed.

2. If any person violates a provision of this chapter, or any rule or order adopted by the division pursuant to this chapter, the division may notify the attorney general who shall institute a civil action in district court for injunctive relief and for the assessment of a civil penalty not to exceed ten thousand dollars per violation.

3. Penalties, bond reversions, and bond forfeitures collected under the provisions of this chapter or any rule adopted by the division pursuant to this chapter shall be deposited in an interest-bearing account and may be used for the cost and administrative expenses of

SUBCHAPTER III

E-15 ACCESS STANDARD

214A.31 E-15 access standard — establishment.

In order to ensure consumer access to gasoline containing fifteen percent ethanol by volume, an E-15 access standard is established in accordance with 2013 Iowa Acts, ch. 127, §1, section 159A.1, and this subchapter.

2022 Acts, ch 1067, §1

214A.32 E-15 access standard — retail dealer compliance.

1. Except as provided in sections 214A.33 through 214A.36, a retail dealer owning or operating a retail motor fuel site shall comply with the E-15 access standard as provided in this section.

2. In order to comply with the E-15 access standard, a retail dealer must advertise for sale and sell E-15 gasoline from a minimum number of qualifying gasoline dispensers located at the retail dealer's retail motor fuel site. A qualifying gasoline dispenser must be capable of dispensing gasoline at all times that it is in operation.

a. Except as provided in paragraph "b", a retail dealer shall comply with a general E-15 access standard by dispensing E-15 gasoline from the following:

(1) One qualified gasoline dispenser, if there is only one qualified gasoline dispenser.

(2) At least fifty percent of all qualified gasoline dispensers, if there is more than one qualified gasoline dispenser.

b. (1) A retail dealer complies with an alternative E-15 access standard if all of the following apply:

(a) On and after January 1, 2023, the retail dealer does not install, replace, or convert a gasoline storage tank.

(b) On and after January 1, 2026, the retail dealer advertises for sale and sells E-15 gasoline from at least one qualifying gasoline dispenser.

(2) A retail dealer who no longer complies with the alternative E-15 access standard as provided in subparagraph (1) shall immediately comply with the general E-15 access standard as provided in paragraph "a".

c. The E-15 access standard does not prohibit a retail dealer owning or operating a retail motor fuel site from advertising for sale and selling motor fuel from any number of nonqualifying motor fuel dispensers. A nonqualifying motor fuel dispenser is limited to any of the following:

(1) A dispenser that exclusively dispenses any of the following:

(a) Aviation fuel.

(b) Diesel fuel.

(c) Kerosene.

(2) A dispenser that is part of a tank vehicle as defined in section 321.1 that is not used to dispense gasoline on the premises of the retail motor fuel site.

(3) A dispenser that is part of a commercial marina.

3. a. A retail dealer is not in violation of this section during any period of noncompliance with the E-15 access standard caused by an excusable event. An excusable event is limited to any of the following:

(1) The maintenance, repair, or reconditioning of gasoline storage and dispensing infrastructure.

(2) The installation, expansion, replacement, or conversion of gasoline storage and dispensing infrastructure.

b. The department may require that a retail dealer notify the department that an excusable event as described in paragraph "a" is planned to occur, is occurring, or has occurred. The department may inspect the applicable retail motor fuel site to determine whether the noncompliance is caused by an excusable event.

214A.33 Suspension of E-15 access standard by order issued by governor.

1. The governor may issue or renew an executive order that temporarily suspends the requirement in section 214A.32 that a retail dealer comply with the E-15 access standard at a retail motor fuel site owned or operated by the retail dealer.

2. The E-15 access standard suspension order as described in subsection 1 must be supported by the governor's determination that any of the following apply:

a. There is an inadequate supply of E-15 gasoline.

b. The market price of E-15 gasoline may cause consumers to suffer economic hardship.

c. Existing gasoline storage and dispensing infrastructure is not capable of storing and dispensing E-15 gasoline.

3. The governor may issue or renew an executive order under this section on a statewide or regional basis.

4. The E-15 access standard suspension order shall take effect on its date of publication in the Iowa administrative bulletin, unless the order specifies a later date. The order shall expire one year from its effective date unless a shorter period is stated in the order. 2. A retail dealer may apply for an E-15 unavailability waiver order as described in subsection 1 by submitting an application to the department in a manner and according to procedures required by the department.

a. The application must be supported by credible evidence that the retail dealer has not been able to reasonably obtain E-15 gasoline to be advertised for sale and sold at the retail dealer's retail motor fuel site.

b. The retail dealer must sign the application which shall include a statement that the retail dealer swears and affirms that all information in the application completed by the retail dealer is true and correct.

3. The department shall publish a copy of the E-15 unavailability waiver order on the department's internet site within ten days after the order's issuance.

4. The E-15 unavailability waiver order shall take effect on its date of publication on the department's internet site, unless the order specifies a later date. The order shall expire

214A.35 Waiver of alternative E-15 access standard by order issued by secretary of agriculture — E-15 incompatible infrastructure.

1. The secretary of agriculture shall issue an administrative order that temporarily waives the requirement in section 214A.32 that a retail dealer comply with the alternative E-15 access standard at a retail motor fuel site owned or operated by the retail dealer, if the retail motor fuel site qualifies under this section based on the incompatibility of the motor fuel storage and dispensing infrastructure to store and dispense E-15 gasoline.

2. A retail dealer may apply for an E-15 incompatible infrastructure waiver order as described in subsection 1 by submitting an application to the department in a manner and according to procedures required by the department.

a. The application must be supported by credible evidence that the retail dealer is unable to comply with the alternative E-15 access standard because the gasoline storage and dispensing infrastructure located at the retail motor fuel site is not compatible with the use of E-15 gasoline and that the retail dealer is eligible for a class 1 or class 2 waiver as provided in this section.

b. The application must provide information required to be completed by the retail dealer, which must include an inventory and description of gasoline storage and dispensing infrastructure located at the retail motor fuel site.

c. The department may require a retail dealer to attach any supporting documentation to the application, which may include an inspection report completed by a person certified by the department as a professional retail motor fuel site installer. The certified professional retail motor fuel site installer may be a licensed engineer or other person who the department determines is qualified by education, testing, or experience to oversee a project involving the installation, replacement, or conversion of gasoline storage and dispensing infrastructure, and who is able to provide a reliable estimate of the project's costs.

d. The department shall review and evaluate an application to determine whether it is supported by credible evidence sufficient for the secretary to issue an order granting a waiver under this section. The department shall approve or disapprove a completed application within one hundred twenty days following the date that the application was delivered to the department for filing.

e. The retail dealer must sign the application which shall include a statement that the retail dealer swears and affirms that all information in the application completed by the retail dealer is true and correct. If a certified professional retail motor fuel site installer completes an inspection report to support an application, the installer shall sign a statement that the installer swears and affirms that all information in the inspection report completed by the installer is true and correct.

f. The department may inspect the premises of a retail motor fuel site during normal business hours to administer and enforce the provisions of this section.

g. The department of agriculture and land stewardship may cooperate with the department of natural resources and the department of inspections, appeals, and licensing in administering and enforcing the provisions of this section.

3. The department shall publish a copy of the E-15 incompatible infrastructure waiver order on the department's internet site within ten days after the order's issuance. The order shall take effect on its date of publication, unless the order specifies a later date.

4. a. The secretary of agriculture shall terminate the E-15 incompatible infrastructure waiver order if a terminable event has occurred. A terminable event occurs on the date that any of the following apply:

(1) The failure of a retail dealer to be licensed as required under section 214.2 to use a commercial weighing and measuring device when dispensing gasoline.

(2) The cessation of the retail dealer's business of advertising for sale or selling gasoline at the retail motor fuel site.

(3) The installation, replacement, or conversion of a motor fuel storage tank located at the retail motor fuel site.

b. The department may require that a retail dealer notify the department that a terminable event as described in paragraph "a" is planned to occur, is occurring, or has occurred.

5. a. The secretary of agriculture shall issue an E-15 incompatible infrastructure class 1 waiver order as provided in this subsection. If the department determines an inspection of the retail motor fuel site is necessary, it may either conduct the inspection or accept an inspection report completed by a certified professional retail motor fuel site installer.

b. The order must be supported by credible evidence that all gasoline storage tanks that are located at the retail motor fuel site fall within any number of the following categories:

(1) Each gasoline storage tank not constructed of fiberglass was installed during or prior to 1985.

(2) Each gasoline storage tank constructed of fiberglass was installed during or prior to the following years:

(a) For a double-wall fiberglass underground gasoline storage tank, 1991.

(b) For a single-wall fiberglass underground gasoline storage tank, 1996.

6. The secretary of agriculture shall issue an E-15 incompatible infrastructure class 2 waiver order as provided in this subsection. The order shall be based on an inspection of the retail motor fuel site. The department shall file and analyze a completed inspection report submitted by a certified professional retail motor fuel site installer.

a. The inspection report must be supported by credible evidence and include all of the following:

(1) A completed checklist of items adopted as part of a form used by the department to confirm that the gasoline storage and dispensing infrastructure located at the retail motor fuel site is not compatible with E-15 gasoline.

(2) The total estimated cost of improving the retail motor fuel site to comply with the alternative E-15 access standard by installing, replacing, or converting the gasoline storage and dispensing infrastructure located at the retail motor fuel site.

b. (1) The department shall determine whether to issue an E-15 incompatible infrastructure class 2 waiver order based on an eligibility assessment which shall calculate all of the following:

(a) The total estimated cost of improvement which equals the sum of all of the following:

(i) The reasonable cost of assessing the retail motor fuel site to determine the estimated cost of improving the retail motor fuel site as described in subparagraph subdivision (ii).

(ii) The estimated cost of improving the retail motor fuel site to comply with the alternative E-15 access standard based on the department's analysis of the inspection report described in paragraph "a". The estimated cost of improving the retail motor fuel site shall only include costs used to calculate the amount of standard financial incentives that could be awarded by the renewable fuel infrastructure board to a retail dealer participating in the renewable fuel infrastructure program for retail motor fuel sites as provided in section 159A.14.

(b) The E-15 infrastructure base amount which equals the maximum cost necessary to be incurred by the retail dealer in order to receive the total amount of standard financial incentives that could be awarded to the retail dealer under tier III of the renewable fuel infrastructure program for retail motor fuel sites as provided in section 159A.14 in order to comply with the alternative E-15 access standard. The department's calculation shall not include any of the following:

(i) The amount of any prior financial incentives awarded to the retail dealer under the renewable fuel infrastructure program for retail motor fuel sites.

(ii) Whether the retail dealer may apply for, is applying for, or may be awarded any future financial incentives under the renewable fuel infrastructure program for retail motor fuel sites.

(2) A retail dealer is only eligible to be issued an E-15 incompatible infrastructure class 2 waiver order if the department determines that the total estimated cost of improvement as

described in subparagraph (1), subparagraph division (a), exceeds the E-15 infrastructure base amount as described in subparagraph (1), subparagraph division (b).

214A.36 Exemption from E-15 access standard for small retail motor fuel sites — by order issued by secretary of agriculture.

1. a. The secretary of agriculture shall issue a small retail motor fuel site exemption administrative order to a retail dealer. The administrative order shall exempt the retail dealer from complying with the E-15 access standard, as otherwise required in section 214A.32, at a small retail motor fuel site owned or operated by the retail dealer.

b. To qualify as a small retail motor fuel site under this section, all of the following must apply:

(1) Prior to January 1, 2023, the retail motor fuel site included gasoline storage and dispensing infrastructure.

(2) The retail motor fuel site's average total gasoline gallonage was limited to three hundred thousand gallons or less for the qualifying phase as provided in this section.

2. a. A retail dealer may apply for an administrative order as described in subsection 1 by submitting an application to the department in a manner and according to procedures required by the department.

b. The retail dealer must sign the application which shall include a statement that the retail dealer swears and affirms that all information in the application completed by the retail dealer is true and correct.

3. a. Upon request by the department of agriculture and land stewardship, the department of revenue shall certify the average total gasoline gallonage for the retail motor fuel site computed for the qualifying phase beginning on January 1, 2020, and ending on December 31, 2022.

b. The computation described in paragraph "a" shall be based on site-by-site information for the retail motor fuel site in reports required to be filed for determination periods by the retail dealer with the department of revenue pursuant to chapter 452A, subchapter II. However, if the department of revenue cannot obtain site-by-site information for the retail motor fuel site from such reports, the department of revenue may use other methods, including records maintained by the department of revenue under chapter 422, to compute the retail motor fuel site's gallonage for all or any part of that qualifying phase.

c. A retail dealer who submits an application under this section shall waive the confidentiality of information in the department of revenue's certification identifying the retail dealer or retail motor fuel site otherwise applicable under chapter 422 or 452A. The information maintained by the department of agriculture and land stewardship under this section is a confidential record under section 22.7 and shall be used by the department of agriculture and land stewardship for the limited purposes of evaluating the retail dealer's application for approval and issuing an administrative order described in subsection 1. The certification may be used in a criminal proceeding alleging the retail dealer committed perjury as described in section 214A.11 when completing the application. The application shall include a notice of the waiver. The department of agriculture and land stewardship shall redact such identifying information in any record otherwise requiring disclosure by that department under chapter 22.

d. The department of revenue, in cooperation with the department of agriculture and land stewardship, may adopt rules to administer this subsection.

4. The department shall publish on its internet site for each quarter of a calendar year information aggregated from administrative orders described in subsection 1 that shall be limited to the following:

a. The total number of administrative orders issued.

5. a. The secretary of agriculture shall terminate the administrative order described in

subsection 1 if a terminable event has occurred. A terminable event occurs on the date that any of the following apply:

- (1) The failure of a retail dealer to be licensed as required under section 214.2 to use a commercial weighing and measuring device when dispensing gasoline at the retail motor fuel site.
- (2) The cessation of the retail dealer’s business of advertising for sale or selling gasoline at the retail motor fuel site.
- (3) The installation, replacement, or conversion of a gasoline storage tank located at the retail motor fuel site.
- b. The department may require that a retail dealer notify the department that a terminable event as described in paragraph “a” is planned to occur, is occurring, or has occurred.
