THE NATIVITY OF THE PIONEERS OF IOWA

BY F. I. HERRIOTT.

Professor of Economics and Political Science, Drake University.

The habits and manners of the primeval inhabitants of any country, generally give to it a distinctive character, which marks it throughout after ages.—*Wither's Chronicle*.

The lineage of a people, like the genealogy of a family, is not commonly looked upon as a matter of general importance. The wayfaring man is wont to regard it as interesting and worth while only to antiquarians and scholastics.

But states or societies, no less than individuals, are the outgrowth of heredity and environment. Life, be it manifest in individual organisms or in social organisms, is a complex or resultant of those two variables. We certainly cannot understand the nature or significance of the customs and institutions of a people or a state unless we know the character of the environment of that people. But no less true is it that we can neither comprehend the character of a people or the peculiarities of their social development, nor measure the forces that determine public life and action in the present, unless we understand the sources of the streams of influence that unite to make them what they are. A people cannot break with its past nor discard inherited political and social ideas, any more than a man can put away his youth and its influences. Social or political life may be greatly modified by the necessities of a new environment but heredity and ancestral traditions continue to exert a potent influence.

I. THE NEW ENGLAND TRADITION.

For years the declaration—"Emigrants from New England" settled Iowa—has been made by the *N. Y. Tribune Almanac*, a popular standard book of reference, whose compilers have always maintained a fair reputation for accuracy in historical matters. The assertion—enlarged often so as to include the descendants of New Englanders who earlier swarmed and pushed out into the valley of the Mohawk and into the petty lake region of New York, thence southwesterly around the Great Lakes down into Pennsylvania and thither into the lands out of which were carved the states of the old Northwest Territory—reflects probably the common belief or tradition of the generality.

Justice Samuel F. Miller, a Kentuckian by birth, was a practicing lawyer in Keokuk from 1850 to 1862, when he was appointed by President Lincoln a member of the Federal supreme court. In 1884, in a post-prandial speech before the Tri-State Old Settlers' Association, he said: "The people [of Iowa] were brought from New England, interspersed with the vigor of the people of Kentucky and Missouri."¹ In 1896 in an address at the Semi-Centennial of the founding of the State, the late Theodore S. Parvin, who came from Ohio in 1838 as private secretary to Robert Lucas, the first territorial governor of Iowa, and who was ever after an industrious chronicler of the doings of the first settlers, declared that the pioneers of Iowa "came from New England States, the younger generation directly, the older having migrated at an earlier day, and located for a time in the middle states of that period and there remained

long enough to become somewhat westernized. They were from New York, New Jersey, Pennsylvania, Ohio, Indiana, and Illinois. There was an element of chivalry, descendants of the old cavaliers of Virginia, some of whom had come through the bloody ground experience of Kentucky and Tennessee; these were found mostly in the southern portion of the territory."

Here and there we find contrary or divergent opinions. Occasionally we encounter assertions that original New Yorkers or natives of Pennsylvania or emigrants from southern states constituted the important elements in the tides of the western popular movement between 1830 and 1860 that flowed over into and through Iowa. But even when speakers and writers recognize that the immigration into Iowa was not entirely from the states of New England they almost always regard such other streams as of secondary importance or as subsequent to the inflow of the New Englanders or their westernized descendants. Issuing from this common belief we have the general opinion that the predominant influences determining the character of the social and political life and institutions of Iowa have been Puritan in their origin.

In what follows I shall examine briefly the grounds on which this tradition rests. I shall first consider the premises of the belief; second, the social conditions and political developments persistent throughout the history of Iowa that are inexplicable upon the New England hypothesis; and third, facts that clearly suggest if they do not compel a contrary conclusion respecting the region whence came our predominant pioneer stock.

The New Englander has always been in evidence in Iowa and his influence manifest. George Catlin on his journey down the Mississippi in 1835, found that "Jonathan is already here from 'down East.'" In 1834 the name of Iowa's capital city was changed from "Flint Hills" to Burlington, at the behest of John Gray, a son of Vermont. Father Asa Turner, a son of Yale, while on a missionary expedition in 1836 found a settlement of New Englanders at Crow Creek in Scott county. Stephen Whicher, himself from the Green Mountains, found "some families of high polish from the city of New York," in Bloomington (Muscatine), in October, 1838. In all missionary and educational endeavors in Iowa, New Englanders have from the first days played conspicuous parts and have been potent factors in the development of the State. Father Turner preached Congregationalism in "Rat Row," Keokuk, two years before Rev. Samuel Clarke exhorted the pioneers to embrace Methodism in the "Grove." In 1843 came the "Iowa Band," a little brotherhood of Andover missionaries and preachers, graduates of Amherst, Bowdoin, Dartmouth, Harvard, New York City University, Union College, the Universities of Vermont and Yale. It may be doubted if any other group of men has exerted a tithe of the beneficial influence upon the life of the State that was exerted by those earnest workers. The two oldest educational institutions in the State owe their inception and establishment to the far-sighted plans and persistent self-sacrifice and promotion of Asa Turner and the Iowa Band.¹ It is not extravagant to presume that it was the emulation aroused by those apostles from New England that created the "passion for education" among the pioneers of Iowa, that resulted in the establishment of the fifty academies, colleges and universities between 1838 and 1852. From this fact doubtless Iowa came to be known as the "Massachusetts of the West."

The election of James W. Grimes governor of Iowa in 1854, and the revolution in the political control of the State which that event signified, first attracted the attention of the nation to Iowa. Prior to that date Iowa was regarded with but little interest by the people of the northern states. She was looked upon as a solid democratic state and was grouped with Illinois and Indiana in the alignment of political parties in the contest over the extension of slavery.

Suddenly the horizon changed. The Kansas-Nebraska bill produced a complete overturn. Grimes, a pronounced opponent of slavery, a son of New Hampshire, representing the ideas and traditions of the Puritans, was elected chief magistrate of Iowa and James Harlan was sent to the United States senate.

¹Denmark Academy, and Iowa College founded at Davenport in 1846, and in 1858, moved to Grinnell. L. F. Parker's *Higher Education in Iowa*, p. 137, and Adams' *The Iowa Band*, pp. 103-125.

At the conclusion of that critical contest Governor-elect Grimes wrote: "Our southern friends have regarded Iowa as their northern stronghold. I thank God it is conquered." In the accomplishment of this political revolution New Englanders energized and led largely by members of the Iowa Band, were conspicuous, if not the preponderant factors. The immigration of population from New England was then approaching flood tide. "Day by day the endless procession moves on," declared *The Dubuque Reporter*. ". . . They come by hundreds and thousands from the hills and valleys of New England, bringing with them that same untiring energy and perseverance that made their native states the admiration of the world."¹ The prompt, firm stand of those pioneers when shocked into consciousness by the aggressions of the southern leaders, the brilliant leadership of Grimes and Harlan for years thereafter and the long continued supremacy of the political party they first led to victory, probably afford us no small part of the explanation of the theory of the supremacy of New England in the settlement of Iowa.

Not the least important premise of this view, it may be suspected, is the observation so frequently made by students of western history in the past three decades that "migration from the Atlantic states to the interior and western states has always followed along the parallels of latitude. Illinois is a remarkable illustration of this tendency. . . . Southern Illinois received its population from Virginia and other southern states, while northern Illinois was chiefly settled from Massachusetts and other New England states."² Historians Fiske and Schouler make similar observations about the lines of western popular movements. Now if we extend eastward the line of the northern boundary of Iowa it will pass through or above Glen Falls near the lower end of Lake George, New York, through White Hall, Vermont, Lacona, New Hampshire, striking the coast near Portland, Maine. Extending a similar line eastward from the southern boundary (disregarding the southeastern deflection made by the Des Moines River) we should pass just north of Pittsburg, Pennsylvania, and come to the coast not far from Sandy Hook. If the general conclusion respecting western migration is universally and precisely true, Iowa, it will be observed, would naturally have been settled by New Englanders or their westernized descendants in New York, Michigan and Wisconsin, and by those in Indiana, Ohio and Illinois. We have been told recently by Mr. George Moore, that under the "Ordinance of 1787, New England men and ideas became the dominating forces from the Ohio to Lake Erie" in the settlement of the old Northwest Territory.³ A necessary consequence of this fact, if true as alleged, would be that the large emigration to Iowa from Ohio, Indiana and Illinois prior to 1860 was predominantly New England stock, or subject to Puritan ideas and institutions.

The theory that Iowa's pioneers were of Puritan origin, while resting on these strong premises, and others that may be mentioned, breaks down when viewed in the light of common and notorious developments in the political and social life and institutions of the pioneers, many of which are manifest and potent in the life of the State today. New Englanders were conspicuous, energetic and vocal prior to 1840; they were disputatious and vigorous promoters of their ideals of government, law and morals and religion prior to 1860; but neither they nor their kith and kin from New York and Ohio were supreme in Iowa in those days. If they were supreme in numbers, how are we to account for the absence of so much that is distinctly characteristic of the customs and institutions of New England in the life of this first free state of the Louisiana Purchase?

In the local government of Michigan and Wisconsin the impress of New England's democratic ideals, her forms and methods of procedure, are to be observed in striking fashion. In Minnesota and the Dakotas the same is largely true. In Illinois the "intense vitality" of the town meeting system of government so possessed the minds of immigrants from New England that it overcame the prevalent county form of government, and now controls nearly four-fifths of

the area of Illinois, although it was not given the right of way until 1848. Here in Iowa, it is not untrue to say, that the town meeting and all that it stands for in New England has been conspicuous chiefly by its absence. Governor Robert Lucas urged the adoption of the township as the unit for school purposes. An annual mass meeting was adopted in the scheme therefor. But neither became a vigorous institutional growth.¹ Prof. Jesse Macy has shown us that there is strong warrant for doubting the vitality of many of the laws first adopted for the regulation of local affairs in the territory.² Not a few of those statutes were enacted *pro forma*, not especially in response to insistent local demand. Conditions did not compel compact town or communal life. The pioneers depended upon township trustees and school directors. They relied upon county commissioners. Finally it is almost impossible to conceive of New Englanders deliberately or even unwittingly adopting the autocratic county judge system of government that prevailed in Iowa from 1851 to 1860. It struck full in the face every tradition of democracy cherished by the people of New England.

If New Englanders settled Iowa, why did the people of the east experience a shock of surprise when the report reached them that the Whigs in 1846 had captured the first general assembly under the new State government.³ "What gain had freedom from the admission of Iowa into the Union," exclaimed Horace Greeley, in the New York Tribune of March 29, 1854. "Are Alabama and Mississippi more devoted to the despotic ideas of American pan-slavism . . . ?" Was not his opinion justified when one of our senators could boldly declare in congress that "Iowa is the only free State which never for a moment gave way to the Wilmot Proviso. My colleague voted for every one of the compromise measures, including the fugitive slave law, the late Senator Sturgeon, of Pennsylvania, and ourselves, being the only three senators from the entire non-slaveholding section of this Union who voted for it."⁴ Von Holst ranks Iowa as "a veritable hot bed of dough faces."⁵ These current assumptions and conditions do not suggest that the State was originally or predominantly settled by emigrants from the bleak shores and granite hills of New England where love of liberty was ingrained.

The people of New England from the beginning of their history were alert and progressive in the furtherance of schools, both common and collegiate. Among our pioneers there was, as we have seen, great activity in the promotion of "Higher" institutions of learning, but the movement was largely the result of missionary zeal and work. It was not corporate and communal as was the case in New England. In 1843 Governor John Chambers expressed to the territorial legislature his mortification on realizing "how little interest the important subject of education excited among us."⁶ Notwithstanding the great legal educa-

¹Henry Sabin, Iowa's distinguished Superintendent of Public Instruction, a New Englander by birth and education, has the following pertinent observations in his last biennial report (1897).

"It is worthy of note that the first of these governors [Robert Lucas] in his message urged the adoption of the township as a basis of school organization. It never can be sufficiently regretted that we ever departed from his recommendation," p. 20.

"There is no question that the commission [viz. of 1856] favored the township system. . . . Governor after governor, the state superintendents in unbroken line, prominent educational men, have remonstrated in vain, and in vain have attempted to secure a simpler organization. It will remain rooted in the prejudices until better ideas of school economy render it odious," p. 22.

³Niles Register, Nov. 14, 1846, p. 176, and Nov. 21, p. 178.

⁴Salter's *Life of Grimes*, p. 114. Congressman John Wentworth of Chicago, in 1853 (?) introduced Grimes to President Pierce who knew the Whig relatives of Grimes in New Hampshire. Wentworth conceived it to be a "great joke" to introduce him "as the next Governor of Iowa, as he was. Pierce thought he would have to change his politics first." Memorandum of Wentworth quoted in Salter's *Grimes*, p. 7.

⁵Von Holst, *Constitutional History*, vol. V, p. 278.

⁶The following from Dr. Salter's *Life of Grimes* strikingly illustrates the contention above: "He (Grimes) presided at an educational convention held in Burlington, June 7, 1847, in which the duty of the State to provide for the edu-

tional reforms secured by the legislatures of 1856 and 1858, the backward condition of Iowa's rural schools in contrast with those in states west, north and east of us, has been a matter of constant complaint and wonderment.¹

If one thing more than another characterizes the New Englander it is his respect for law and his resort to the processes of law for the suppression of disorder and violence. Coupled with, if not underlying this marked trait, are his sobriety, his love of peaceful pleasures and his reserve in social life. In the early history of Iowa we find much of boisterous carousal in country and town. In 1835, Lieut. Albert Lea was refused shelter late on a cold night, at the only house near the mouth of the Iowa river which was "occupied by a drinking crowd of men and women." A correspondent in *The New York Journal*, writing from Dubuque in 1839, declared that "the principal amusement of the people seems to be playing cards, Sundays and all;" while another observer speaks of the "wide and unenviable notoriety" of Dubuque. One may come upon sundry such accounts of pioneer life in various cities along the river and inland. Along with this sort of hilarity and reckless pleasures alien to Puritan character we find gross disregard of law and order frequent in election contests, flagrant corruption and considerable popular practice in Judge Lynch's court. Brutal murders, cattle and horse stealing, and counterfeiting appear frequently in the calendars in the early days. Outbursts of mob fury and hanging bees, the institution of societies of Regulators and Vigilantes form considerable chapters in the careers of many counties in the State.² This lawlessness can hardly be

caution of all children by equitable taxation was earnestly advocated and the profound regret expressed that the first general assembly of Iowa had made no provision for building school houses by law, but had left the whole matter to voluntary subscription." p. 26.

¹In his report in 1887 State Superintendent J. W. Akers, in some perplexity pointed out the striking similarity of the conditions of education in Iowa to those prevalent in the southern states, pp. 57-58. Dr. W. T. Harris, National Commissioner of Education, showed that while Iowa spent large sums for schools, the schedules of salaries for teachers were the lowest of all the north central states. (Report, 1895-96, p. LXVIII). In his presidential address before the State Teachers' Association in 1902, President Charles E. Shelton of Simpson College said apropos of the rural schools:

"Something must be done for our country schools. I want to say to you tonight my friends, that I believe that three-fourths of the teaching in the rural schools of Iowa is absolutely worthless, and that an equal proportion of the money spent is absolutely thrown away. I do not say this upon simple speculation and conjecture, but it is the experience of every man and woman here. . . ." (Proceedings, p. 17.)

The Association by formal vote commended the "entire address of President Shelton for its common sense treatment in every particular and its clear statement of the various important phases of the real education of the boys and girls who go to make up the citizenship of our State and nation." p. 12.

²The following ringing letter of Grimes to the sheriff of Clinton county, written in the last year of his term as Governor, affords both instructive reading and interesting evidence of the character and extent of lawlessness in eastern Iowa in the fifties:

EXECUTIVE OFFICE, IOWA, BURLINGTON, July 8, 1857.

Your letter of the 29th, June, in which you state that you have warrants in your hands for the arrest of persons who seized and hanged Bennet Warren in your county on the 25th inst.; that you are "informed that a very large combination has been formed, banded together by agreement or oath to execute similar outrages upon other persons, and protect and defend any of their members who may be attempted to be dealt with according to law," and that this combination is supposed to number "about two thousand persons in Jackson and the adjoining counties," has been duly received.

You ask me "what course shall be pursued?" I answer unhesitatingly, serve the warrants in your hands and enforce the laws of the State. You have authority to summon to your aid the entire force of your county. If you deem it to be necessary to do so, call for that force, and prosecute every man who refuses to obey your summons.

If the power of your county is not sufficient to execute the laws, a sufficient force from other counties shall be placed at your disposal.

I am resolved that, so far as in me lies, this lawless violence, which, under the plea of administering justice to horse thieves, sets at defiance the authorities of

made to square with the traditions that New Englanders brought with them to Iowa, traditions that universally govern their conduct as citizens wherever we find them.

Finally we may note a complex or miscellany of facts that have always given more or less color to the history of the State, the significance of which is not commonly discerned. These facts consist of sundry intangible psychic or "spiritual" traits of the pioneers and of their descendants, characteristics often vague and varying and difficult to visualize, but which close observers may clearly perceive.

Iowa, by reason of the marked fertility of her soil and favorable climate, has become the garden spot of the continent. Her citizens have attained distinguished success in the accumulation of wealth. The high level of general contentment and prosperity of the citizen body has long been a matter of comment and admiration among peoples in neighboring states. The high degree of popular intelligence and education, and the prevalence of high standards of private and civic righteousness are no less marked. All these things admirable and more are incontestible. They no doubt suggest the preponderance of Puritan or northern influences in the life of Iowans. Nevertheless one does not long study the history of Iowa, or converse with those familiar with the early days of the State, or scrutinize our life in recent years, before he becomes dimly conscious of something in the character of large portions of the population, that clearly distinguishes them from the New England type of citizen. About the time the writer became interested in the make-up of Iowa's pioneer population he asked an early lawmaker of the State, (the late Charles Aldrich, founder and curator of the Aldrich Collection and the Historical Department) if, in his opinion, Iowa was first peopled by emigrants from New England, and his reply was:

"That is a common opinion but I have long doubted the truth of the assertion. Iowa has been very slow in making progress in education, in the promotion of libraries, in the improvement of our city governments, in the beautifying of our cities and towns, and in the public provision of facilities for art and culture. In New England, cities promote general culture as a matter of course. In 1856 Governor Grimes, himself a New Englander, urged public provision for libraries in country and town. But nothing came of it. Our people did not become aroused to the importance of libraries until late in the nineties, and then you know it was probably the munificence of the Ironmaster of Pittsburg, and the conditions of his gifts that stirred our people into active promotion of libraries.

"Take the long struggle of the friends of the State University before they got that institution of learning on a firm foundation. It was not until after 1880 that the vigorous opposition to its enlargement and expansion ceased. From the fifties right on to the eighties the advocates of university education found it hard to overcome, not only active opposition, but the inertia and indifference of legislators and public towards public expenditures for education. This same characteristic was observable in many other directions. We have made marked progress in Iowa to be sure. But it has been hard sledding, I can tell you. I don't understand the reasons for such an attitude of constant hostility and bush-whacking opposition to forward movements that prevailed so generally in Iowa before 1880. It was hardly in harmony with the known liberalism of New Englanders."

This attitude towards "forward" movements in Iowa, this "unprogressiveness" many would not regard in such an adverse fashion. In their estimation it represents not indifference to the finer arts and culture of civilization but rather a strenuous individualism, a sturdy independence and self-dependence instead of an inclination to resort constantly to the agencies of government. New Englanders

the State, and destroys all respect for the laws, both human and divine, shall be checked. I shall have no hesitation, therefor, when officially advised of the exigency, to call out the entire military power of the State, if necessary, to crush out this spirit of rebellion, which has shown itself in your county.

I shall direct all the military companies in the State to hold themselves in readiness for duty.—*Salter's Grimes*, pp. 93-94.

See G. W. Ellis' *In By-Gone Days*, in which is described at great length the numerous mobs and lynchings in Jackson county, reprinted from the *Record of Maquoketa, Iowa*. See, also, Porter's *History of Polk County*, pp. 505-507, 525-529, 531-543.

from the very beginning of their colonial history have been much given to socialism. They turn naturally to the state and communal authorities to secure civic or social improvements and popular culture. The people of Iowa, on the contrary, have certainly been normally inclined to improve things chiefly via the individualistic route. They have been, and now are, instinctively opposed to the enlargement of governmental power that entails increased taxation and greater interference with what the people are prone to regard as the peculiar domain of personal freedom and selection.

All of a piece with the traits just referred to is the "placidity" of so much of our life. One often hears the comment that there is little that is interesting or picturesque either in our history or in the character of the population. We are pronounced "prosaic." There is much that is old-fashioned, out of date; but it is not quaint or romantic. Travelers have noted that while there is much of commendable success and wealth throughout the commonwealth there is a monotony in the local life, a lack of ambition, and general contentment with things as they are. Land and lots, corn and cattle, "hog and hominy," these things, we are told constitute our *summum bonum*.¹ The hasty and promiscuous observations of travelers, who sojourn briefly among us, are not always to be accepted without salt. Yet the fact is obvious that there is in the Iowan's character and in his life a noticeable trait that we may designate Languor, a certain inclination to take things easy, not to worry or to fuss even if things do not satisfy. We may observe it in commercial and mercantile pursuits, in city and town governments, in rural and urban life. This is clearly not a characteristic of the New Englander. The Yankee, whether found in Maine, or Connecticut, or New York, is alert, aggressive, eager in the furtherance of any business or culture in which he is interested. In all matters of public concern, especially if they comprehend considerations involving right and wrong, the New Englander is ardent, disputatious, relentless. He agitates, educates and preaches reformation. But this is not the characteristic disposition of the Iowan.

II. FROM WHAT REGIONS SHOULD WE EXPECT IOWA'S PIONEERS?

There is a subtle attraction about exclusive explanations of political events or institutional developments that is wont to lure us into erroneous conclusions—conclusions that are too extensive or sweeping. It is untrue to say that the population of Iowa prior to 1850 was made up entirely of emigrants from any one section of the country. The pioneer population, no less than the present population, we shall find, was an infusion of peoples hailing from various regions. The representatives of the several race elements each and all played parts more or less important in the life of the State. But in the coalescence or collision of the peoples from the various sections in their new habitat some one race or group of immigrants predominated and determined the character of the government and the general drift of political opinion. In what follows I am concerned to ascertain and to make clear what the dominant elements or streams were among the pioneers of Iowa.

We have seen that while there are many facts in the history of Iowa that tend strongly to substantiate the tradition that New Englanders first settled the State the absence of the distinctive local institutions of New England and in their stead political conditions, institutions and social habits of radically unlike types, suggest, if they do not enforce the conclusion that peoples from other regions dominated by different habits and ideals constituted the major portions of the streams of pioneer immigration prior to 1850. Our question now is—Whither shall we proceed from New England to discover the ancestral seats of the pioneers whose habits, notions and traditions of government and society so powerfully affected the currents of politics and the development of forms of government in Iowa during the formative period of the State when its fundamental institutions were given their "set" and the civic and social traits of the people were so largely determined? Into the lands of the tall pines and the deep

snows north of the Great Lakes and the St. Lawrence; or into the middle states; or into the vast regions south of Mason and Dixon's line and the Ohio river?

The nativity of the pioneers of Iowa, those settling in the State prior to 1850, unfortunately cannot be determined precisely by a resort to census enumerations. We are compelled to have recourse to inductive proofs gathered from sundry sources and to various deductive or general considerations governing the movements of population westward from the Atlantic seaboard from colonial times up to the outbreak of the Civil war. Such evidence is circumstantial and often variable in character; nevertheless it affords us bases for definite conclusions.

The character of a state's immigration is determined, of course, by many and various conditions and factors. But in the last analysis the nature of the immigration and the rate of influx are determined by two sets of conditions and causes, both being in the long run, of equal force and importance. The first set is the character of the economic advantages which a state offers and the expense of travel thereto. The second complex of causes is the conditions, economic, political and social, in the countries or states whence the population may or does emigrate. In brief, we shall discover the character of Iowa's pioneer population in sundry fundamental facts or laws that control the conduct of peoples in their migrations. We must appreciate Iowa's geographical location, the chief features of her topography, her natural products having commercial value, the routes and modes of travel to her borders. We must likewise realize the character of the predominant industries in the regions whence the state may have received its immigration and the economic, political, and social consequences with respect to the redundant population in those regions. Space limits obviously prevent satisfactory treatment of all these antecedent conditions and factors, and I shall consider chiefly the first set of considerations mentioned.

Furs, metals, wooded streams and beautiful prairies, with highly fertile acres and favorable climate, have been Iowa's chief economic advantages throughout her history. Prior to 1830 furs and metals were the attractions that lured frontiersmen within the State's borders. The one mineral found, viz: lead, while of consequence was not a very important factor so far as concerned its immediate effect upon pioneer immigration. Furs, on the other hand, was an important factor. Buffalo and deer flourished on our prairies and beaver and otter thrived in our rivers and streams. Since 1840, however, neither our metals nor our fur bearing animals have constituted the predominant or persistent attractions of Iowa. The attraction has been her beautiful and bountiful lands.

The routes of travel by which the pioneers gained access to the haunts of our beavers and to our fertile acres were mainly three: First, via the Great Lakes to Green Bay, thence up the Fox river to Lake Winnebago, thence across to the Portage, and down the Wisconsin river; second, via the Ohio river, thence up the Mississippi and Missouri rivers; third, overland by wagon. The degree of use of these routes before the advent of the railroad can only be surmised. Prior to 1845 certainly the river routes were the highways chiefly used by the westward bound emigrants. From 1845 overland travel by wagon became increasingly common until the railroad became a practicable mode of travel, round about 1860.

With such commercial and industrial attractions and such routes of travel thereto we should naturally presume that Iowa's pioneer population in the main hailed from the land of the pines and from south of Mason and Dixon's line. Indeed, when we consider the nature of the industries of the people to the northeast and southeast prior to 1840, and the economic effects upon redundant population such a conclusion seems to be enjoined.

The first people to penetrate and frequent Iowa in any numbers were the French and Canadian hunters, traders and *voyageurs*. No large or durable French settlements, however, were found when the immigrants began to come into the State after 1830. From this fact it is perhaps commonly assumed that people of French extraction or of Canadian lineage formed no considerable proportion of the State's early population. This conclusion, however, is hardly warranted. But as our special concern here is the major factor in the pioneer population, I shall pass over this interesting element and turn immediately to

the population that came into Iowa via the Mississippi river and overland by wagon. From what section did the major or predominant number come?

We may determine this in various ways; first, by noting the nativity of the men chiefly in control in the State's prenatal period; second, by ascertaining the nativity of the first residents in numerous sections; third, by the nativity of the men in power in the territorial and State governments in the pioneer days prior to 1850; fourth, by comparison of the returns of the national census of 1850; fifth, by a study of the industrial, political, religious and social habits and institutions of the pioneers; sixth, by a study of contemporary opinion; seventh, by a similar study of the pioneer immigration into and emigration from the states of the Ohio valley, namely, Pennsylvania, the Virginias, Kentucky and Tennessee, Ohio, Indiana and Illinois, Wisconsin and Missouri. I shall undertake here but a brief consideration of some of these modes of approach to the subject.

The nativity of the officers in charge of the governmental agencies in a region often, if not usually, indicates the nativity of the pioneer population—at least it points to the origin of the major political and social influences that prevail when the political habits and institutions of the people are being established. In the first settlements of the upper Ohio valley the hardy pioneers usually pushed ahead of the army and the assessor and justice of the peace; but in the Louisiana Purchase the military authority always, and often the civil jurisdiction of the national government were "extended" over its vast unsettled regions previous to or coincident with the influx of settlers. The reports and correspondence of such officers would naturally have a pronounced influence upon relatives, old friends and neighbors "back in the states" that would induce emigration to the region where "splendid opportunities" awaited those who would but take them.

III. SOUTHERNERS IN CONTROL OF THE GOVERNMENT.

When France released her authority over the Louisiana Purchase in 1804, the region embracing Iowa was for a short time attached to the territory of Indiana, over which William Henry Harrison, a son of old Virginia, was governor. At St. Louis, in 1804, he negotiated the treaty by which the United States gained the right of access to most of the lands of the Sacs and Foxes. It was a Marylander, Gen. James Wilkinson, stationed then at St. Louis, who ordered Lieut. Zebulon M. Pike forth on his exploring trip up the Mississippi. Col. George Davenport, a one time partner in the American Fur Company, and influential in the history of Scott county and Davenport, served under Wilkinson, being with him on the Sabine during the trouble with Aaron Burr.¹ Among the officers stationed at Ft. Madison in the winter of 1808-9 was a Kentuckian, Lieut. Nathaniel Pryor, a member of the Lewis and Clark Expedition.²

The first governor having intimate relations with the region embracing Iowa was Capt. Meriwether Lewis, a son of Virginia, the leader of the Lewis and Clark Expedition. The Brigadier General and Indian Agent for the territory was his distinguished companion, Capt. William Clark, another son of Virginia. Upon the organization of Missouri Territory (that included Iowa) in 1812, Gen. Clark was made governor, holding the office until 1821, when Missouri entered the Union. Governor Clark's voice, however, continued potent in the region as Indian Agent until his death in 1838; one noteworthy instance being the treaty of 1824, whereby the Half Breed tract was established. It was at the instance of Gen. Clark that Antoine LeClaire, afterward so prominent in the history of Scott county, was taken into the American service and given an English schooling to enable him to serve as an interpreter. Among the first "white" women in Clayton county, it is claimed, was a former slave or house servant of Gen. Clark. She was a mulatto.

¹ANNALS OF IOWA (1st ser.), vol. I, p. 99. After his discharge from the army Col. Davenport was employed in the service of Col. William Morrison of Kentucky, a government contractor.

²ANNALS OF IOWA (3d ser.) vol. III, pp. 98-99. Tuttle in his *History of Iowa* (p. 60) credits Zachary Taylor with constructing Ft. Madison but without warrant.

During the period from 1821 to 1834, when Iowa was merely a part of the unorganized territory of the United States, its affairs were looked after by officers of the army and Indian Agents, whose work consisted mainly of protecting the Indians against aggressions of the whites. Among them were many southerners who later acquired great fame in national affairs. The first officer sent to look after the Galena miners was Col. Willoughby Morgan, a Virginian. Col. Zachary Taylor was another Virginian with whom the miners in Dubuque came into direct collision on July 4, 1830. Col. Taylor ordered them to disperse and on their refusal sent troops from Ft. Crawford to arrest them. Years after he declared to Mr. Langworthy that "those miners at Dubuque were worse to manage than the Seminoles or even the Mexicans." Associated somewhat intimately with Taylor, especially during the Black Hawk war, was a Kentuckian of note, Lieut. Jefferson Davis. He is declared to have acted with and for Taylor when the Mission School for the Winnebago Indians was established in Allamakee county in 1854. Davis was also assigned to the adjutantship of the First U. S. Dragoons, of which Henry Dodge was colonel. In that regiment Davis, we are told by the late Gen. James C. Parrott of Keokuk, himself a Marylander, was a "great crony of my (Parrott's) Capt. Browne." The captain referred to was Jesse B. Browne, afterwards one of the first merchants of Keokuk and the speaker of Iowa's first territorial house of representatives that convened in Burlington in December, 1838. With another Iowan, G. W. Jones, later of Dubuque, Jefferson Davis formed in those early days a fast friendship that endured until death severed the ties—a friendship that had a momentous influence upon the political views and conduct of one, if not both of Iowa's first senators, a friendship that eventually caused the imprisonment of Gen. Jones on the charge of treasonable conduct during the Civil war. With that same regiment was Lieut. Albert M. Lea, a North Carolinian, whose report on explorations throughout Iowa determined the site of the second Ft. Des Moines, and the publication of his little book of "Notes," in Philadelphia in 1836. Another southerner of note in the same regiment was Capt. Nathan Boone, the youngest son of the great Daniel Boone, of Kentucky. He aided Lieut. Lea greatly in furnishing data for the latter's map of Iowa.

Another distinguished southerner intimately associated with the preterritorial days of Iowa was Robert E. Lee. With respect to Lee, Mr. Langworthy suggests that it was probably largely due to his report to congress in 1838 that Iowa received her name. There are some who claim that Lee county was named in honor of the efficient and genial officer who studied the region of the Rapids so thoroughly. One of the classmates of Davis and Lee at West Point was afterwards a notable figure in Iowa's history, Charles Mason, for many years Judge of the Supreme Court and subsequently the author of the Iowa Code of 1851. In the service with these men, especially in connection with the Black Hawk war, were Generals E. P. Gaines, a Virginian and Henry Atkinson, a North Carolinian, after whom Ft. Atkinson, located on Turkey river in Winneshie county, was named. At this fort was stationed Capt. J. J. Abercrombie, a Tennessean, and Lieut. Alfred Pleasanton, a Washingtonian, both of whom rose to high rank in the Union army, and Lieutenants Simon B. Buckner, Henry Heth, Abraham Buford and Alex. W. Reynolds, all of whom became general officers in the Confederate army. Another conspicuous figure in the negotiations with the Sacs and Foxes following the Black Hawk war was also a Virginian, Gen. Winfield Scott.

Next to Gen. William Clark, of Missouri, the most noteworthy Indian Agent of the national government immediately charged with the supervision of the interests of the Indians in Iowa and Wisconsin, was "a grand old Virginian," Gen. Joseph M. Street. It was he who strove so vigorously to initiate the policy of mission schools among the Indians. His services for the nation's wards won for him honorable distinction in the Indian annals of the middle west. He lies buried in the graveyard at Agency City, Iowa, near by the grave of the chief Wapello, of the Sacs and Foxes. Gen. Street's son-in-law, Capt. George Wilson, was in the same company with Jefferson Davis at Ft. Crawford. Both were in the company that expelled the Dubuque miners. Capt. Wilson later

became the first adjutant of the militia of the territory of Iowa. Gen. Street's son, Joseph H. D. Street, was the first register of the land office in Council Bluffs.

Another prominent if not dominant figure in the Black Hawk war was Henry Dodge.¹ He soon thereafter became governor of Wisconsin territory and thereby of Iowa. He was a native of Indiana, but he spent his youth in Kentucky and began his public career in Missouri in 1805. He gained distinction in the latter state, holding many offices from sheriff and marshal up to the major general of Missouri's militia and member of the constitutional convention of Missouri in 1820. He was one of the positive factors in the first legislative enactments passed by the legislature of Wisconsin that first met at Belmont, Wis., and later at Burlington, Iowa.

If the general associations of men constitute any considerable factor in determining their conduct, in creating their attitude or state of mind with respect to life and its affairs, then enough has been shown to indicate that southern rather than New England ideas and traditions dominated the men who controlled Iowa, when it was in the initial processes of beginning, when it was inchoate, as the lawyers would put it. Their presence in and about Iowa was unquestionably a potent fact in determining the character of the inflow of immigrants that began in 1830. Let us ascertain, as far as may be, the nativity of the first settlers.

The first frontiersmen, other than the Canadian traders and trappers and *voyageurs*, to frequent Iowa were doubtless Kentuckians. With Lewis and Clark, besides Nathaniel Pryor already mentioned, were Sergeant Charles Floyd and nine other young men, all Kentuckians. Floyd's remains now lie on the bluffs of the Missouri river near Sioux City. When William Hunt was fitting out his Astorian party at St. Louis in 1810 he was anxious to secure and did enlist the services of several Kentuckian hunters and river men.² On their way up the river both the scientist, Bradbury, and Hunt separately encountered three Kentuckians returning, who for three years preceding had been hunting and trapping at the headwaters of the Missouri and Columbia.³ That many of these "men of the western waters" had frequently penetrated Iowa far inland is surely not a violent presumption.

Col. John Smith of Missouri, some time after the death of Julien Dubuque and the sale of the latter's "Mines of Spain" at St. Louis, went up the river in a keel boat with sixty men, bent on mining and smelting lead in the region round about Dubuque. The belligerent attitude of the Indians, however, effectually interfered with his plans.⁴ The inhabitants of the mining region of Galena were mainly people from Kentucky, Tennessee and southern Illinois, a region inhabited largely by people from the former states. It was Col. James Johnson, of Kentucky, brother of the celebrated Col. R. M. Johnson, who in 1823 inaugurated the lead mining in northwestern Illinois and southwestern Wisconsin. With him were Col. James Simrall, of Kentucky, the commander of Kentucky dragoons in the campaign in the northwest between 1812 and 1813; and John S. Miller, of Hannibal, Mo.⁵ Among that mining population was a notorious mining character, "Kentuck Anderson," who had a widespread reputation as a bruiser in fist fights, who later went over to Dubuque and in a feud six miles southwest of Dubuque was killed in 1836.⁶

All of southwestern Wisconsin was settled chiefly by southerners. It was their presence and predilections that secured the adoption of the county commissioner system of local government in Wisconsin, and maintained it

until the state was admitted into the Union in 1848, despite the wishes and protests of the New Englanders and New Yorkers who had gained control in Michigan and who were rapidly coming into Wisconsin.¹ Col. Arthur Cunyng-hame traveling across Illinois in 1850 encountered numerous caravans or wagon trains of the Kentuckians and Tennesseans returning from the Galena mines for the winter to their homes south of the Ohio.² We shall see later that the Dodges and Governors Clark and Hempstead, were among those interested in lead mining around Galena. Iowa, no doubt received prior to 1850, no inconsiderable number of the southern people from southern Wisconsin and northern Illinois. It is clear that the people who first began to look with covetous eyes across the Mississippi to the attractive lands in Iowa in the main hailed from the south.

We find southern men, or men of southern extraction, or of southern affiliation no less conspicuous and prominent in the government of the territory and State prior to 1850 and even well up to the outbreak of the Civil war. Governor Robert Lucas, the first chief executive of the territory, was a native of Virginia, a descendant of that sturdy Scotch-Irish stock that so early pushed westward through the gaps of the Alleghanies into the valleys converging on the Ohio. His successor, John Chambers, although born in New Jersey in 1789, spent his life mainly in Kentucky from 1792 to 1844. In his old age he returned to Kentucky where he died. Governor James Clark was born in Westmoreland county, Pennsylvania. In 1836 he went to Missouri, thence to Belmont, and finally to Burlington. He married a daughter of Governor Henry Dodge, and thereby probably resulted his appointment. The first governor of the new State was Ansel Briggs, a Vermonter, a whig in Ohio, who became a democrat when he settled in Jackson county, Iowa, in 1836. His successor, Stephen Hempstead, although born in Connecticut, spent his youth in St. Louis, gained business experience in the lead mining region of Galena and settled in Dubuque in 1836. Governors James W. Grimes and Ralph P. Lowe were northern men by birth and affiliation. Governor Samuel J. Kirkwood was a Marylander, moulded as was Governor Lucas by a subsequent residence in Ohio.

In the relations of the territory and State to the national government, southerners and men of southern predilections were likewise dominant in most of the important positions. The first federal judge was John James Dyer, a native of Pendleton county, Virginia, now West Virginia. But for his refusal to consider the democratic nomination he probably would have been the first governor of the State of Iowa. The United States marshal was Dr. Gideon S. Bailey of Van Buren, a native of Kentucky. Judge Dyer's successor in 1855 was another Virginian, James M. Love. Iowa's first territorial delegate to congress was W. W. Chapman, who was born and educated in Virginia under the tutelage of the noted lawyer St. George Tucker. His successor in 1841 was Augustus Caesar Dodge, a son of Governor Henry Dodge, born during the latter's residence in St. Genevieve, Mo., and he was Iowa's national representative until the State was admitted into the Union in 1846. When the first legislature broke the senatorial deadlock of 1846, the first senators elected were A. C. Dodge and George W. Jones. The latter was born at Vincennes, Indiana, spent his youth in Missouri, and was educated at Transylvania University, Kentucky. One could without doing violence to language claim one and perhaps both of Missouri's distinguished senators as Iowa's guardians and representatives in congress. Thomas H. Benton had, as is well known, a direct family interest in Iowa through his nephew who early attained distinction in Dubuque and later in State affairs in Iowa, and Senator Lewis F. Linn was a half-brother of Governor Henry Dodge. So industrious was Senator Linn on behalf of the interests of this State that he was known as the "Iowa Senator."

Iowa's first representative in the lower house of congress was Shepherd Leffler, of Burlington; William Thompson of Mt. Pleasant, was our second; both sons of the Keystone state. Daniel F. Miller, our third representative, was born in

¹Wis. His. Coll., vol. VI, pp. 502, 506, 507, Spencer's *Local Government in Wisconsin*.

Maryland, and our fourth, Lincoln Clark of Dubuque, was born in Massachusetts, but he had been a resident of Alabama from 1830 to 1848. Of the six other representatives in congress prior to 1860 one, James Thorington of Davenport was a North Carolinian, and Timothy Davis of Dubuque was a New Jerseyan who lived in Kentucky from 1817 to 1847.

Striking evidence of the domination of men of southern affiliations and antecedents in Iowa's political affairs prior to 1850, and even beyond, is afforded in the membership rolls of the early legislatures and constitutional conventions. The delegation from this side of the Mississippi in the Wisconsin legislatures that met first at Belmont and later at Burlington, numbered 18 out of the 39 members. Of Iowa's quota there was only one representative of New England, and one from New York, whereas there were four from Pennsylvania (three being from Washington county). The south had eight representatives; one each from Virginia and Georgia, and three each from Kentucky and Tennessee. There was one each from Ohio and Illinois. In the first legislature of the Iowa territory in 1838, there were twenty southerners, five New Englanders, eight from the middle states, and five from Ohio and Illinois. Virginia, North Carolina, Kentucky and Tennessee were the southern states represented. Disregarding the southern stock among the people of Pennsylvania, Ohio and Illinois, sons of the south constituted more than half of the membership. The records of nativity are not complete for subsequent sessions and the states of origin cannot be given except for the State senate in 1851, and the fifth general assembly that met in 1854. In the senate of the third general assembly (1851) southerners continued the most numerous, seven as against two from New England. In 1854, however, we note an increase in the relative proportions of the representatives from the middle and northwest states. Nevertheless there were in the Senate ten southerners and only four New Englanders, and in the lower house sixteen from the south and but nine from northeast of the Narrows.

In the constitutional conventions that convened in 1844, 1846 and 1857, we find men hailing from south of Mason and Dixon's line greatly outnumbering the New Englanders. In the first convention there were eleven Virginians, six North Carolinians, eight Kentuckians and one Tennessean, twenty-six in all; while New England was represented by ten; the middle states by twenty-three, of whom thirteen came from Pennsylvania; Ohio had eight, and Indiana and Illinois each one. In the second the numbers were fifteen from the south, eight from New England, four from the middle states and five from the northwest states. In the convention of 1857 the south had ten, New England six, the middle states eleven and the Northwest states nine representatives.

IV. SOME OF THE SOUTHERN STOCK AMONG THE FIRST SETTLERS.

The declarations of local chroniclers respecting the "first" events in pioneer times, such as the "first white child" born, or marriage solemnized, or the first house built, or the first church dedicated, are often born of misty memories or hasty surmises indulged in by ardent patriotic temperaments. Nevertheless, while subject to suspicion, and often heavy deductions, taken altogether they may afford us considerable data from which substantial conclusions may be drawn. A cursory examination of the histories of the counties of Iowa, of the few memoirs, journals and letters relating to the first years of the State will soon convince one that New Englanders were not always the first settlers in all of the counties, and contemporary opinion often indicates that their presence was rare in various communities.

In Lee county, excluding the French Canadians and Creoles, the first American settlers are said to have been Richard Chaney, a native of Prince Georges county in Maryland, and Peter Williams, of Kentucky or Tennessee. The first merchant of Ft. Madison, it is asserted, was one Walsh, a Baltimorean. Hawkins Taylor, himself one of the first settlers, states that Lewis Pitman, a Kentuckian, was the first settler "in all the section round about" West Point; and in Charleston, he informs us, there was a man by the name of Allen who "prided himself on being a Yankee—an article scarce in that section." Of the five members of the legislature from Lee in 1838 four were from southern states: Capt. Jesse B. Browne, Kentucky, William Patterson, Virginia, Hawkins Taylor, Kentucky, C. J. Price, North Carolina, and James Brierly, Ohio. Among the immigrants to Ft. Madison in 1837 was a family of North Carolinians whose head was John A. Drake, afterwards the founder of Drakesville in Davis county. One member of that family, Francis Marion Drake, became governor of Iowa in 1896. When Gen. Joseph M. Street was ordered to drive back the squatters from the second Purchase he appointed a Virginian as the first licensed ferryman over the Des Moines, a man who afterward exercised a marked influence upon his fellows in territorial days, Mr. Van Caldwell, the father of Henry Clay Caldwell, a prominent state senator in 1860 and '62, and later a judge of the Federal Circuit Court for the District of Arkansas, and still in active service.

Southerners were not an inconsiderable number in Des Moines county. The first county clerk and city postmaster of Burlington was a Scotchman, Dr. Wm. Ross, who had lived many years in the south, in Kentucky and Missouri. In 1836, Lieut. Albert M. Lea bought in the "raw village" of Burlington from "one David, a shrewd Kentuckian," four lots fronting the court house "in expectancy," and the next year sold them to John Pemberton, the father of the celebrated officer who years after surrendered Vicksburg to Gen. U. S. Grant. In 1838 Gen. William Thompson, Iowa's second representative in congress, a Pennsylvanian whose parents moved into the Keystone state from Virginia, registered at the "Wisconsin House, the largest hotel" in Burlington, whose hostess and assistants were "all West Virginians from the flats of Graves Creek." One of the most influential of the first pioneers was Isaac Leffler, a Pennsylvanian, who had served eight years in the legislature of Virginia and represented that state in congress. He was one of the representatives of Des Moines county in the Wisconsin legislature at Belmont. In the first territorial legislature four of Des Moines representatives were from Kentucky and Virginia, one each from Ohio and Pennsylvania, and two from New Hampshire. Another notable early settler of Burlington was no less than John C. Breckenridge, of Kentucky, who became vice president in 1857. Here it is interesting to note that in the case of the fugitive slave "Dick," whose owner sought by suit to recover him in order to take him back to Missouri, not only were both the leading attorneys southerners, but so was the mayor of the city. Mr. M. D. Browning, for the plaintiff, was a Kentuckian, and Judge David Rorer, for the defendant, a Virginian, and the mayor, S. A. Hudson, who was expected to maintain peace and order, was a Kentuckian.

In Scott county we find men from south of the Ohio river much in evidence in the early settlements. Mr. Barrows, one of the first surveyors and cartographers of Iowa, writing in 1863, says that "probably the first settler in Scott

county" was Capt. Benj. W. Clark, a native of Virginia, who had commanded a company of mounted rangers in the Black Hawk war. He was given the first ferry franchise between Rock Island and Davenport. He founded the town of Buffalo. Bowling Creek in Scott county derives its name from James M. Bowling, another Virginian. The town of Princeton was settled first by a Kentuckian, Thomas Hubbard, Sr. The names of Col. George Davenport and Antoine LeClaire have already been mentioned.

The first settler in Clinton county, it is said, was one Elisha Buell, a New Yorker who had been "a pilot on the Ohio and lower Mississippi," coming up from St. Louis in 1836. Perhaps the most notable and forceful character among the first settlers of Jackson county was Col. Thomas Cox, a Kentuckian who had been a member of the senate of the first state legislature of Illinois and had served in the Black Hawk war before coming to Iowa.

The population that came across to Dubuque between 1830 and 1840 from the Fever River or Galena mining region was a variegated mixture of Canadian French and Scotch, Irish, Yankees and Southerners. Excepting the Canadian infusion the majority of the "down easters" had been previously "westernized" either in southern Ohio or southern Illinois, or in Kentucky and Missouri, e. g. the Hempsteads and the Langworthys. The southerners were influential. Among them were Thomas S. Nairn and General Wm. Vandever, Marylanders, Wm. Carter, Iowa's first manufacturer of shot, and General John G. Shields, Kentuckians, and the Emersons, John King, General Warner Lewis, Major Richard Moberly and William G. Stewart, Virginians. John King had the distinction of being the founder and editor of *The Dubuque Visitor*, the first newspaper printed in Iowa (1836). His associate, Andrew Keersecker, who was the printer or compositor of the firm, was likewise a Virginian.

Concerning Cedar Rapids, we are told that "it should be remembered that in the settlement of our city and its vicinity a strong and important element was from the south. That element brought a rich strain of blood, and means, and intelligence into the raw community. And with this element the force of tradition and pride of race and early education held to accepted ideas of their section." Another writer only recently declares that those "influential pioneers" came "from Maryland, Tennessee, Virginia and from South Carolina, and from a number of southern states," and they "left a social impress upon the community which, even to this day, has not been entirely obliterated." Among the number that came from South Carolina were the three Bryan brothers, Michael, B. S. and Hugh L., Mr. and Mrs. E. G. Stoney, Mrs. Rutledge and two sisters, and Donald M. McIntosh, a "brilliant lawyer." But the chief star of them all was Mary Swinton Legare, a sister of Hugh S. Legare of South Carolina, who became attorney general in President Tyler's cabinet and later succeeded Webster as secretary of state. Miss Legare was her brother's constant companion until his death and later the editor of his literary works. She married Lowell Bullen, of North Brookfield, Mass., in the "old muddy church" in Cedar Rapids, and lived in Marion for some time, but she exerted her great social influence chiefly in Cedar Rapids.

A census taker in Cedar and Johnson counties in 1836, and the first sheriff of Johnson county appointed by Gov. Henry Dodge, was Col. S. C. Trowbridge, a Virginian. In Walter Terrell, one of the early millers of the State, Iowa City had another "fine old Virginia gentleman," highly educated in the classics and mathematics, widely travelled and influential among his fellows. Rev. John Todd, on his arrival at Percival, Fremont county, in October, 1848, found that most of the Methodists thereabouts were "from Virginia, Kentucky and Missouri." In 1854 James W. Grimes spoke at Glenwood, some thirty miles north of Percival in Mills county, in behalf of his candidacy for governor, and in a letter to Mrs. Grimes describing his reception he said: "When I came here I found that the population is entirely southern."

Following up the Des Moines river valley we find numerous sons of the Old Dominion, Kentucky and Missouri among the first settlers. In Jefferson county the "first white settler" was John Ruff, a Virginian. In Mahaska the De Lashmutts, Edmundsons, Phillips and Seevers families brought with them the traditions of the Cavaliers and of the proud gentry of the Blue Grass region.

The man who was the occasion of the "Tally War" during the rebellion was a Tennessean. In Monroe county one John Massey surveyed Albia. One naturally conjectures whether he was a lineal descendant or relative of Nathaniel Massie of Kentucky, who surveyed Virginia's lands in south central Ohio in 1789-92. A large proportion of the Mormons who stopped in Monroe county came "from Pennsylvania, North Carolina, Virginia and other mountainous regions." Claiborne Hall, a Virginian, was the first settler in Red Rock, Marion county, coming up from Missouri in 1833, and the two following him were from Kentucky. George Gillaspay, likewise from Kentucky, settled first in Louisa county (1840), going to Marion in 1843. He became assessor, sheriff, treasurer of board of public works, member of the constitutional convention of 1857, and the first democratic nominee for lieutenant governor in Iowa in 1858. A fugitive from justice in Missouri is alleged to have been the first settler in Madison county, but soon there followed him a "colony of newcomers" from Missouri, among the party was a McCrary, "an old Tennessee mountaineer."

The first white settlers in Polk county came in when the second Fort Des Moines, at the "Raccoon Forks" was garrisoned in 1843. Among the troops and the attaches of the garrison were a number who remained permanently in the region, and one finds southern blood common, coming in directly or indirectly through Ohio, Indiana and Illinois. The government contractors, the brothers John B. and W. A. Scott, came via Indiana from North Carolina stock. The tailor of the fort, J. M. Thrift, was the son of a Virginia slave owner and Baptist preacher who took his slaves to Ohio and gave them their freedom, whose grandson is now (1906) adjutant general of Iowa's militia. Peter Newcomer, who was granted permission to take a claim at Agency Prairie on condition that he would build a bridge over Four Mile creek, was a Marylander. One of the first trappers along the Des Moines was Landon Hamilton, a Virginian, who a few years since left his estate to the city of Des Moines and to the State of Iowa. Among the southern stock that came in later was James C. Jordan, a Virginian, afterwards state senator, whose home just west of Des Moines became a noted station on the Underground railway. Another Virginian was John H. Given, father of Mrs. Pauline Given Swalm, and another was Thos. N. Napier, a county judge under the law of 1851. M. D. McHenry, an attorney and later State senator, and Jas. A. Williamson were prominent Kentuckians. In the development of the transportation facilities of Des Moines were Dr. M. P. Turner, a Missourian, who became interested first in the ferry franchises and later inaugurated the first street car system, and Jefferson S. Polk, a Kentuckian, who upon graduation from Georgetown College entered upon the practice of law in Des Moines in 1856—since the early nineties he has been the manager and chief owner of the electric railways of Des Moines. Des Moines and Polk county was settled by great numbers of Indianians and Ohioans whose ancestors came from south of Mason and Dixon's line and the Ohio river. Many names of men of note might be mentioned; a few may be cited—Thomas J. Saylor and Alexander C. Bondurant, after whom Saylorville and Bondurant were named, Senators P. M. Casady and Col. C. H. Gatch, Col. Isaac W. Griffith and Gen. Ed. Wright, Judge Wm. H. McHenry, Sr., and Tacitus Hussey.

Southern stock predominated in the first settlement of Boone county. It was named after Captain Nathan Boone who first surveyed the region; William Boone, a relative, early settled near Boonesboro that commemorated the old home of their great namesake in Kentucky; many of his descendants are found in Worth and Des Moines townships in Boone county today. In the same townships are also many relatives of the Virginian who became a noted circuit rider in Illinois, Peter Cartright. A South Carolinian has his name preserved in the town of Luther, and a Virginian in Zenorville. The common practice of western emigration preceding by "families" and "neighborhoods" is excellently illustrated in the career of the Hull family. Three brothers, James, George and Uriah, of Virginia Scotch-German stock, settled in and about Boone between 1847 and 1850, and their numerous families and relations almost immediately made them the most potent political factors in the county, an influence which they maintained until the war and after. Two other brothers, John and C. J. McFarland, representatives of southern stock and views, early attained positions of marked

influence, the former in banking and business and the latter on the bench. Judge McFarland was an exceedingly picturesque character in the annals of the county judge system.

One may find some interesting evidence of the make-up of the population in various sections of the northwestern counties of Iowa in the muster rolls of the Northern Border Brigade, raised in the fall of 1862 to guard our frontier against the threatened forays of the blood-thirsty Sioux. The five companies, comprising 16 officers and 254 men, were recruited from an extensive region including Harrison, Shelby, Woodbury in the southwest, Hamilton and Hardin in the southeast, and Emmet and Kossuth on the north. The lieutenant-colonel, James A. Savage, of Sioux City, was a Tennessean. Of the 270 there were 24 from New England, 55 from New York and Pennsylvania, 34 from the southern states, 84 from the northwest states, and 7 from Iowa. The first mentioned were chiefly in the northern counties. In the southern and western counties the southern states and Ohio and Indiana claimed the major number. In company B, for instance, recruited chiefly in and about Ft. Dodge, 18 out of the 42 native born were southerners, mostly North Carolinians and Tennesseans.¹

This somewhat drearish recital of particulars may be closed by one other reference.

During the high waters in the Missouri and Floyd rivers in March, 1857, it was discovered that the floods were encroaching dangerously near to the grave of Sergeant Floyd, the young Kentuckian of Lewis and Clark's party who died and was buried on the river bluffs in 1804. His remains were taken up for reinterment. On May 28, 1857, under directions of Capt. James B. Todd, late of the United States army, they were taken to the steamer for transfer to their present resting place. The pall bearers whose names are preserved, were W. Craft, of Virginia, T. Griffy, of Kentucky, L. Kennerly, of Missouri, W. H. Levering, of Indiana, N. Levering, of Ohio, and D. W. Scott of the army. In Woodbury it appears that southerners seem to form a goodly proportion of the population if the suggestions of those names are worth consideration.

If we examine into the nativity of the pioneers among the professions we find many noteworthy southerners.

Iowa's first preacher probably was a Kentuckian, Rev. David Lowry, a Cumberland Presbyterian, who assisted Gen. Street in his work with the Winnebago Indians at the Mission school in Allamakee county. In Mahaska county in 1844, Mrs. Phillips tells us, "Cumberland Presbyterians seem to predominate." "Rev. Launcelot Graham Bell, a Virginian, organized the first Presbyterian church" at West Point, Lee county, at Muscatine, at Iowa City, and in cities and towns along the southern part of the State to the Missouri. It was Rev. John Hancock, of Kentucky, assisted by Mr. Bell, who started the first Presbyterian church in Council Bluffs. The first Presbyterian preacher in Red Rock, Marlon county, and the first resident pastor in Des Moines was a North Carolinian, Rev. Thompson Bird. The first preacher of the Christian church in Iowa was David R. Chance, a Kentuckian. He was one of the seven representatives of Des Moines county in the legislature at Belmont in 1836. His experiences with legislative virtue in the location of the territorial capital did not enhance his faith in human nature. It was Elder D. S. Burnet, of Baltimore, who established the Christian church in Iowa City. One of the forceful and constructive men in the Methodist church was Rev. Samuel Clark. He was born in Virginia, and was chaplain of Virginia's constitutional convention in 1829-30, in which sat ex-presidents Madison and Monroe. He was one of the founders of the Wesleyan University at Mt. Pleasant and the father of the brilliant editor of *The Keokuk Gate City*, Sam M. Clark. Bishop Loras of the Catholic church, who came to Dubuque in 1838, was stationed in Mobile, Alabama, from 1829 to 1836.

Among the doctors of the State were Dr. Enos Lowe, of Burlington, a native of North Carolina. He was made chairman of the constitutional convention that met in Iowa City in 1846 that framed the constitution finally adopted. Dr. John D. Elbert of Keosauqua, Dr. John W. Finley of Dubuque, Dr. John F.

¹Capt. Wm. H. Ingham's article, *The Iowa Northern Brigade of 1862-3*, ANNALS, (3d ser.), vol. V, pp. 513-523.

Henry, of Burlington, were Kentuckians. Dr. W. Patton of Council Bluffs was from Virginia. Dr. G. L. Brown of Marion county was a Tennessean. There were two physicians in the first territorial legislature and both hailed from the south, Dr. Gideon S. Bailey of Van Buren county, from Kentucky, in the house of representatives, and Dr. Jesse B. Payne of Henry county, from Tennessee, in the council. In the constitutional convention of 1844, four out of the five doctors who were members were from the south. In the convention of 1846 honors were even, one was from Alabama, one from North Carolina, and two from Vermont.

In the military service several distinguished names are met with: Gen. James C. Parrott of Keokuk, Gen. J. G. Lauman of Burlington, Gen. William Vandever of Dubuque, all Marylanders; and Gen. John Edwards of Chariton, and Gen. James A. Williamson of Des Moines, were both Kentuckians.

Southerners loom up prominently in the early annals of Iowa's legal profession. Besides Judge Caldwell already mentioned, and Judges Dyer and Lovv referred to, Judge James Grant, a North Carolinian who settled in Davenport was a man of remarkable force of character if one-half that hosts of admirers relate of him be true. He was a member of the first constitutional convention of 1844, and he called the second convention to order in 1846, and was a potent factor in their deliberations. Other southern lawyers in those conventions were W. W. Chapman of Virginia, our territorial delegate to congress, Wm. R. Harrison, Washington county, from North Carolina, H. P. Haun of Clinton county from Kentucky, and G. W. Bowler, of Des Moines county, from Maryland. Judge Dyer's brother-in-law, Ben M. Samuels, a Virginian, was one of the forceful lawyers of Dubuque. In Mahaska county we have the name of William H. SeEVERS, who gained fame both as a codifier and as a judge of the State supreme court. A vigorous lawyer in the pioneer days of Council Bluffs was Judge R. L. Douglass, a native of Maryland. One of the leaders in the constitutional convention of 1857 was William Penn Clarke, a Marylander. Another Marylander then rising into prominence was C. C. Nourse of Keosauqua, who later became attorney general of Iowa. The name of one Iowa lawyer, however, stands above all Samuel F. Miller of Keokuk, a Kentuckian, who practiced law in the Gate City from 1850 to 1862, when President Lincoln made him associate justice of our great supreme court at Washington.

In the development of the public schools of Iowa men from the southern states were not a little in evidence. A young Kentuckian, Berryman Jennings was the first school teacher in Iowa, conducting a school in Lee county from October to December, 1830. W. W. Jamison, a Virginian, a graduate of Washington college, was among the first teachers of Keokuk. The first school house was built three years later at Burlington by Dr. Ross, a long resident Kentuckian already mentioned. It was Gideon S. Bailey of Van Buren, also a Kentuckian who introduced the first school laws in the territorial legislature in 1838. The schools of Council Bluffs were started by Mr. and Mrs. James B. Rue from Kentucky. In 1838 a nephew of the author of "Thirty Years View," Thomas H. Benton, Jr., a Tennessean, educated in Missouri and Tennessee, founded a classical school in Dubuque. Ten years later he entered upon an influential career as State superintendent of public instruction that did not cease until his death in 1867. The influence of Rev. Samuel Clarke in the founding of the Iowa Wesleyan University at Mt. Pleasant has been noted. The founder of Cornell college at Mt. Vernon was Rev. Geo. E. Bowman, a North Carolinian. The first instructors in Oskaloosa college, in 1861, were two brothers, Rev. Geo. T. and W. A. Carpenter, both sons of Kentucky. The former was made president and held the office until 1880 when he with the assistance of his brother-in-law, Gen. F. M. Drake, founded Drake University in Des Moines.

V. SOME OPINIONS.

Among the pioneers opinions were now and then expressed concerning the nativity of the population. As we might anticipate the subject was not one that, amidst the press of efforts to subdue forest, prairie and stream, would seriously engage attention or elicit seasoned opinion. Personal associations especially political and religious affiliations, usually narrowed vision and inter-

ferred with impartial judgment. A few recorded opinions are found that are of interest although they are somewhat divergent; some were expressed early in the history of the State, some in memoirs and recollections published in recent years.

Writing to Peter Cooper in 1868, Governor Samuel Merrill, a native of Maine, who came to Iowa in 1856, declared that the State was "settled mainly from Ohio, Indiana and Pennsylvania, with a large admixture from New England." Judge Francis Springer, also a son of Maine, who represented Louisa and Washington counties in the territorial council in 1840-41, and in 1857 became president of the third constitutional convention, stated in his "Recollections," published in 1897, that "the first settlers of Iowa, it has been said, were, from southern Ohio, Indiana and Illinois." Professor L. F. Parker, one of Iowa's pioneer teachers and historians, writing in 1893, said that "the earliest settlers came largely from southern Ohio, Indiana, Illinois and the most northerly of the southern states; Pennsylvania soon furnished a large contingent. . . . About 1854 large additions were made to the population from New England and from its earlier overflows into New York and northern Ohio." Mr. George Duffield of Keosauqua, a pioneer of 1837, has recently told us that when his father, James Duffield, started west in 1837, there were thousands of settlers "on the move" towards Iowa, leaving Pennsylvania and Ohio. "They (the Duffields) were joined on their way down the Ohio by movers from the Carolinas, Kentucky and other states, and all were afloat in keel boats, 'broads' and steamboats." The observation of the late Theodore Parvin respecting the settlement of sons of the Old Dominion in southern Iowa has already been quoted. According to Hawkins Taylor "Yankees were a scarce article" in Lee county in the first years of the territory. During the winter of 1841 the late Mr. James Hilton of Monroe county made "a pedestrian tour of the counties of Lee, Des Moines, Henry, Jefferson and Van Buren" and he found that "by far the greater part of the settlers in that part of Iowa were from Virginia, Kentucky and Indiana. . . ."

Three opinions are especially noteworthy. They were expressed by men whose experience with and knowledge of the pioneers were both extensive and official. Each opinion was expressed in connection with or relative to a critical event in the life of the territory or the State. The nativity of the people was consciously considered in the first and third and evidently in the mind in the second: hence their significance.

When the first proposals for the organization of the territory of Iowa were being urged upon congress, the lynx-eyed, far-seeing guardian of slavery, Calhoun, was stoutly opposed. George W. Jones, the delegate of Wisconsin who urged our case "told him that the inhabitants were mainly from Missouri, Kentucky and Illinois; that the institutions of the south had nothing to fear from them. Mr. Calhoun replied that this state of things would not last long; that

istration, and often flagrant misuse of their autocratic powers in many districts outraged the dearest traditions of the New Englanders and New Yorkers who came into Iowa in such numbers between 1850 and 1860. Mr. Julius H. Powers was elected to the senate in 1859 from a district in north central Iowa comprising nine counties. He was chairman of the senate committee on county and township organization. In describing the contest in the legislature over the attempt to revolutionize the system of local government, Mr. Powers explains the animus of the struggle, and so far as I can discover he is the only observer or writer who has perceived the profound, social and political consequences of the different streams of pioneer immigration into Iowa in the *ante bellum* period:

"Two tides had flowed into Iowa in populating the State, one from the east, bringing the New England element and habits, with its memory of town meetings and individual rights, and one from the south, bringing with it the southern element with its thoughts and polity.

"In the early settlement of the State the southerner had largely predominated, and the State's early organization was fashioned and moulded by that influence, and the old baronial system had been perpetuated through the slave power where necessity required a centralizing. To abolish this one man power and disburse it among the many was looked upon by the southern element as dangerous in the extreme, and considerable bitterness was engendered when a change was demanded.

"Party lines were thrown down, and former influences and surroundings controlled the vote."

VI. THE SHOWINGS OF THE CENSUS RETURNS.

All these things may be so; and still the numerical preponderance of southern stock in Iowa prior to the civil war is by no means demonstrated. The predominance of southerners among the men charged with the supervision of this region in the preterritorial days may have been a mere chance occurrence. The preference of the national government for men of southern blood or views in the territorial appointments was due, some may contend, to political conditions affecting the entire nation. Again the large number of southerners in our early legislative and constitutional assemblies, while very suggestive is not in and of itself proof of the numerical preponderance of southern stock. And as to opinions they usually are based on promiscuous and vagrant impressions. The facts may be far different.

We have three census enumerations, the federal counts of 1850 and 1860 and the state census of 1856, that enable us to determine, with precision, the nativity of Iowa's pioneers at the close of the period here under consideration. A comparative study of their returns enables us clearly to discern the predominant elements in the previous decades.

According to the federal census of 1850 the number of native born New Englanders in Iowa was only 5,535; of which 813 were natives of Maine, 580 of New Hampshire, 1,645 of Vermont, 1,251 of Massachusetts, 256 of Rhode Island, and 1,090 of Connecticut. The pioneers hailing from the middle states aggregated 24,516; Pennsylvania was credited with 14,714, and New York with 8,134. The total number born in the southern states amounted to 30,954. Virginia gave us 7,861, Maryland 1,888, North Carolina 2,589, Tennessee 4,274, Kentucky 8,994, and Missouri 3,897. From the states of the old Northwest territory we received 59,098; Ohio sending us 30,713, Indiana 19,925, and Illinois 7,247. The native born Iowans numbered 50,380.

There are some striking exhibits in the foregoing. In the first place the inhabitants of Iowa who claimed New England as their place of birth did not number four in the hundred of the population of 1850. Second, the number hailing from the southern states was nearly six times the number coming from east of the Hudson. Third, there were more native born Virginians than there were native born New Englanders altogether. Fourth, the number of Kentuckians likewise outnumbered the total number coming from New England.

The enumerations of 1856 and 1860 show some increases, both absolutely and relatively, in the numbers hailing from New England and the middle states. Nevertheless the people of the south continued to outnumber the natives of New England three and two to one, as may be seen from the following summary. Even in 1860 the Virginians in Iowa alone exceeded the total number coming from Connecticut, Massachusetts and Vermont:

NATIVITY OF NATIVE BORN PIONEERS OF IOWA.

	1850	1856 ¹	1860	Percentages		
				1850	1856	1860
New England -----	5,535	13,389	25,040	3.2	4.3	4.4
Middle States -----	24,516	86,196	103,173	14.3	20.0	18.1
Southern States -----	30,954	54,942	54,006	18.1	12.9	9.4
Northwest States -----	59,008	172,803	198,005	34.5	40.6	33.9
Iowa -----	50,380	96,302	191,148	29.6	21.9	33.7
Other States -----	138	122	2,460	.8	.3	.5
Total natives -----	170,621	424,254	568,822			

The significance of these figures cannot be appreciated, however, until we realize that the peoples coming to Iowa from Delaware, from southern and western Pennsylvania and from Ohio, Indiana, Illinois and southern Wisconsin were likewise predominantly southern in their ancestry, affiliations and traditions. This fact, I believe, is no less demonstrable than the preponderance of southerners in Iowa in *ante bellum* days.

The New England tradition must be adversely considered, and presumptuous though it may seem, Justice Miller's judgment must be reversed; the decision must be Iowa was settled first by sons of the Old Dominion interspersed with the vigor of New England. Upon such a holding much that is inexplicable in Iowa's history becomes easily understandable. We can readily appreciate why Senator Dodge could so confidently proclaim in the senate in 1854 that he and his colleague, General Jones, with the senator from Pennsylvania were the only senators from the north who had voted against the Wilmot Proviso and for the fugitive slave law; and why Governor Grimes found the south half of Iowa so strongly pro-slavery.

This predominance of southern stock among Iowa's pioneers, the prevalence of southern traditions among the dominant political forces of the State prior to the civil war had ineradicable effects upon the life and institutions of Iowans. Throughout the entire history of the State one may discern a sharp cleavage among the people of Iowa that in general typifies the traditional conflict between the Cavalier and the Puritan. It is manifest not only in the political life of the State, but in the social life of the people, in industry and commerce, in church and religion, in education and modes of recreation--sundry phases of which the writer hopes some time to set forth.

DECLARATION OF INDEPENDENCE

In Congress, July 4, 1776.

THE UNANIMOUS DECLARATION OF THE THIRTEEN UNITED STATES OF AMERICA.

(Adopted by the Continental Congress July 2, and authenticated and proclaimed July 4, 1776.)

When in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident; that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of happiness; that, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these states. To prove this, let facts be submitted to a candid world:

He has refused his assent to laws the most wholesome and necessary for the public good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained, and, when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of representation in the legislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly for opposing, with manly firmness, his invasions on the rights of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the state remaining, in the meantime, exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these states; for that purpose obstructing the laws for naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone for the tenure of their offices and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people and eat out their substance.

He has kept among us, in times of peace, standing armies, without the consent of our legislatures.

He has affected to render the military independent of, and superior to, the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution and unacknowledged by our laws, giving his assent to their acts of pretended legislation—

For quartering large bodies of armed troops among us;

For protecting them, by a mock trial, from punishment for any murders which they should commit on the inhabitants of these states;

For cutting off our trade with all parts of the world;

For imposing taxes on us without our consent;

For depriving us, in many cases, of the benefits of trial by jury;

For transporting us beyond seas, to be tried for pretended offenses;

For abolishing the free system of English laws in a neighboring province; establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments;

For suspending our own legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here by declaring us out of his protection and waging war against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, desolation and tyranny, already begun, with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow-citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these oppressions we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant is unfit to be the ruler of a free people.

Nor have we been wanting in attentions to our British brethren. We have warned them, from time to time, of attempts, by their legislature, to extend an unwarrantable jurisdiction over us. We have reminded them of

the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity; and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace friends.

We, therefore, the representatives of the United States of America, in general congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these united colonies are, and of right ought to be, free and independent states; that they are absolved from all allegiance to the British crown, and that all political connection between them and the state of Great Britain is, and ought to be, totally dissolved; and that, as free and independent states, they have full power to levy war, conclude peace, contract alliances, establish commerce, and do all other acts and things which independent states may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes and our sacred honor.

ARTICLE I.

Section 1. All legislative powers herein granted shall be vested in a congress of the United States, which shall consist of a senate and house of representatives.

Sec. 2. (1)* The house of representatives shall be composed of members chosen every second year by the people of the several states; and the electors in each state shall have the qualifications requisite for electors of the most numerous branch of the state legislature.

(2) No person shall be a representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state in which he shall be chosen.

(3) [Representatives and direct taxes shall be apportioned among the several states which may be included within this union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons.]** The actual enumeration shall be made within three years after the first meeting of the congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every thirty thousand, but

*The figures in brackets are inserted for convenience of reference; they are not in the original.

**The foregoing clause included in brackets is amended by Sec. 2 of the 14th amendment, post.

each state shall have at least one representative, and, until such enumeration shall be made, the state of New Hampshire shall be entitled to choose three, Massachusetts eight, Rhode Island and Providence Plantations one, Connecticut five, New York six, New Jersey four, Pennsylvania eight, Delaware one, Maryland six, Virginia ten, North Carolina five, South Carolina five, and Georgia three.

(4) When vacancies happen in the representation from any state, the executive authority thereof shall issue writs of election to fill such vacancies.

(5) The house of representatives shall choose their speaker and other officers, and shall have the sole power of impeachment.

Sec. 3. (1) The senate of the United States shall be composed of two senators from each state, chosen by the legislature thereof for six years; and each senator shall have one vote.

(2) Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen, by resignation or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies.

(3) No person shall be a senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state for which he shall be chosen.

(4) The vice-president of the United States shall be president of the senate, but shall have no vote, unless they be equally divided.

(5) The senate shall choose their other officers, and also a president pro tempore, in the absence of the vice-president, or when he shall exercise the office of president of the United States.

(6) The senate shall have the sole power to try all impeachments. When sitting for that purpose they shall be on oath or affirmation. When the president of the United States is tried, the chief justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

(7) Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment and punishment, according to law.

Sec. 4. (1) The times, places and manner of holding elections for senators and representatives shall be prescribed in each state by the legislature thereof, but the congress may at any time by law make or alter such regulations, except as to the places of choosing senators.

(2) The congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

Sec. 5. (1) Each house shall be the judge of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may provide.

(2) Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member.

(3) Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either house on any question shall, at the desire of one-fifth of those present, be entered on the journal.

(4) Neither house, during the session of congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

Sec. 6. (1) The senators and representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the treasury of the United States. They shall in all cases, except treason, felony and breach of the peace, be privileged from arrest during their attendance at the sessions of their respective houses, and in going to and returning from the same; and for any speech or debate in either house they shall not be questioned in any other place.

(2) No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States, which shall have been created, or the emoluments whereof shall have been increased, during such time; and no person holding any office under the United States shall be a member of either house during his continuance in office.

Sec. 7. (1) All bills for raising revenue shall originate in the house of representatives, but the senate may propose or concur with amendments, as on other bills.

(2) Every bill which shall have passed the house of representatives and the senate, shall, before it becomes a law, be presented to the president of the United States; if he approve he shall sign it, but if not he shall return it, with his objections, to that house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and, if approved by two-thirds of that house, it shall become a law. But in all such cases the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house, respectively. If any bill shall not be returned by the president within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if he had signed it, unless the congress by their adjournment prevent its return, in which case it shall not be a law.

(3) Every order, resolution or vote to which the concurrence of the senate and house of representatives may be necessary (except on a question of adjournment) shall be presented to the president of the United States, and, before the same shall take effect, shall be approved by him, or, being disapproved by him, shall be repassed by two-thirds of the senate and house of representatives, according to the rules and limitations prescribed in the case of a bill.

Sec. 8. The congress shall have power:—

(1) To lay and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defense and general welfare of the United States; but all duties, imposts and excises shall be uniform throughout the United States;

(2) To borrow money on the credit of the United States;

(3) To regulate commerce with foreign nations, and among the several states, and with the Indian tribes;

(4) To establish a uniform rule of naturalization, and uniform laws on the subject of bankruptcies throughout the United States;

(5) To coin money, regulate the value thereof and of foreign coin, and fix the standard of weights and measures;

(6) To provide for the punishment of counterfeiting the securities and current coin of the United States;

(7) To establish post offices and post roads;

(8) To promote the progress of science and useful arts, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries;

(9) To constitute tribunals inferior to the supreme court;

(10) To define and punish piracies and felonies committed on the high seas, and offenses against the law of nations;

(11) To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water;

(12) To raise and support armies; but no appropriation of money to that use shall be for a longer term than two years;

(13) To provide and maintain a navy;

(14) To make rules for the government and regulation of the land and naval forces;

(15) To provide for calling forth the militia to execute the laws of the union, suppress insurrections and repel invasions;

(16) To provide for organizing, arming and disciplining the militia, and for governing such part of them as may be employed in the service of the United States; reserving to the states, respectively, the appointment of the officers and the authority of training the militia according to the discipline prescribed by congress;

(17) To exercise exclusive legislation, in all cases whatsoever, over such district (not exceeding ten miles square) as may, by cession of particular states and the acceptance of congress, become the seat of the government of the United States, and to exercise like authority over all places purchased by the consent of the legislature of the state in which the same shall be, for the erection of forts, magazines, arsenals, dock yards and other needful buildings; and—

(18) To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this constitution in the government of the United States, or in any department or officer thereof.

Sec. 9. (1) The migration or importation of such persons as any of the states now existing shall think proper to admit shall not be prohibited by the congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

(2) The privilege of the writ of habeas corpus shall not be suspended, unless when, in cases of rebellion or invasion, the public safety may require it.

(3) No bill of attainder or ex post facto law shall be passed.

(4) No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

(5) No tax or duty shall be laid on articles exported from any state.

(6) No preference shall be given by any regulation of commerce or revenue to the ports of one state over those of another; nor shall vessels bound to or from one state be obliged to enter, clear or pay duties in another.

(7) No money shall be drawn from the treasury but in consequence of appropriations made by law, and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

(8) No title of nobility shall be granted by the United States; and no person holding any office of profit or trust under them shall, without the consent of the congress, accept of any present, emolument, office or title, of any kind whatever, from any king, prince or foreign state.

Sec. 10. (1) No state shall enter into any treaty, alliance or confederation; grant letters of marque and reprisal; coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts; pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

(2) No state shall, without the consent of the congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts, laid by any state on imports or exports, shall be for

the use of the treasury of the United States; and all such laws shall be subject to the revision and control of the congress.

(3) No state shall, without the consent of congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another state, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

ARTICLE II.

Section 1. (1) The executive power shall be vested in a president of the United States of America. He shall hold his office during the term of four years, and, together with the vice-president chosen for the same term, be elected as follows:

(2) Each state shall appoint, in such manner as the legislature thereof may direct, a number of electors, equal to the whole number of senators and representatives to which the state may be entitled in the congress; but no senator or representative, or person holding an office of trust or profit under the United States, shall be appointed an elector.

The electors shall meet in their respective states and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same state with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each; which list they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the president of the senate. The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the president, if such number be a majority of the whole number of electors appointed; and if there be more than one who have such majority, and have an equal number of votes, then the house of representatives shall immediately choose, by ballot, one of them for president; and if no person have a majority, then, from the five highest on the list, the said house shall, in like manner, choose the president. But in choosing the president the votes shall be taken by states, the representation for each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. In every case, after the choice of the president, the person having the greatest number of votes of the electors shall be the vice-president. But if there should remain two or more who have equal votes, the senate shall choose from them, by ballot, the vice-president.

[The foregoing clause has been superseded and annulled by the twelfth amendment, post.]

(3) The congress may determine the time of choosing the electors, and the day on which they shall give their votes; which day shall be the same throughout the United States.

(4) No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this constitution, shall be eligible to the office of president; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years, and been fourteen years a resident within the United States.

(5) In case of the removal of the president from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the vice-president, and the congress may by law provide for the case of removal, death, resignation or inability, both of the president and vice-president, declaring what officer shall then act as president, and such officer shall act accordingly until the disability be removed or a president shall be elected.

(6) The president shall, at stated times, receive for his services a compensation, which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States or any of them.

(7) Before he enter on the execution of his office, he shall take the following oath or affirmation:

"I do solemnly swear (or affirm) that I will faithfully execute the office of president of the United States, and will, to the best of my ability, preserve, protect, and defend the constitution of the United States."

Sec. 2. (1) The president shall be commander-in-chief of the army and navy of the United States, and of the militia of the several states when called into the actual service of the United States; he may require the opinion in writing of the principal officer in each of the executive departments, upon any subject relating to the duties of their respective offices; and he shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment.

(2) He shall have power, by and with the advice and consent of the senate, to make treaties, provided two-thirds of the senators present concur; and he shall nominate, and by and with the advice and consent of the senate shall appoint, ambassadors, other public ministers and consuls, judges of the supreme court, and all other officers of the United States, whose appointments are not herein otherwise provided for and which shall be established by law. But the congress may, by law, vest the appointment of such inferior officers as they think proper in the president alone, in the courts of law, or in the heads of departments.

(3) The president shall have power to fill up all vacancies that may happen during the recess of the senate, by granting commissions, which shall expire at the end of their next session.

Sec. 3. He shall from time to time give to the congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient. He may, on extraordinary occasions, convene both houses, or either of them; and, in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper. He shall receive ambassadors and other public ministers. He shall take care that the laws be faithfully executed; and shall commission all the officers of the United States.

Sec. 4. The president, vice-president, and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

Section 1. The judicial power of the United States shall be vested in one supreme court, and in such inferior courts as the congress may, from time to time, ordain and establish. The judges, both of the supreme and inferior courts, shall hold their offices during good behavior; and shall, at stated times, receive for their services a compensation, which shall not be diminished during their continuance in office.

Sec. 2. (2) In all cases affecting ambassadors, other public ministers and consuls, and those in which a state shall be a party, the supreme court shall have original jurisdiction. In all the other cases, before mentioned, the supreme court shall have appellate jurisdiction, both as to law and fact, with such exceptions and under such regulations as the congress shall make.

(3) The trial of all crimes, except in cases of impeachment, shall be by jury; and such trial shall be held in the state where the said crimes shall have been committed; but when not committed within any state, the trial shall be at such place or places as the congress may by law have directed.

Sec. 3. (1) Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

(2) The congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood, or forfeiture, except during the life of the person attainted.

Sec. 2. (1) The citizens of each state shall be entitled to all privileges and immunities of citizens in the several states.

(2) A person charged in any state with treason, felony or other crime, who shall flee from justice and be found in another state, shall, on demand of the executive authority of the state from which he fled, be delivered up, to be removed to the state having jurisdiction of the crime.

(3) No person held to service or labor in one state, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

Sec. 3. (1) New states may be admitted by the congress into this Union; but no new state shall be formed or erected within the jurisdiction of any other state, nor any state be formed by the junction of two or more states, or parts of states, without the consent of the legislatures of the states concerned, as well as of the congress.

(2) The congress shall have power to dispose of, and make all needful rules and regulations respecting, the territory or other property belonging to the United States; and nothing in this constitution shall be so construed as to prejudice any claims of the United States or of any particular state.

Sec. 4. The United States shall guarantee to every state in this Union a republican form of government, and shall protect each of them against invasion; and, on application of the legislature, or of the executive (when the legislature cannot be convened), against domestic violence.

ARTICLE V.

The congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this constitution, or, on the application of the legislatures of two-thirds of the several states, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this constitution, when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the congress: provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article; and that no state, without its consent, shall be deprived of its equal suffrage in the senate.

ARTICLE VI.

(1) All debts contracted and engagements entered into before the adoption of this constitution shall be as valid against the United States under this constitution as under the confederation.

(2) This constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby, anything in the constitution or laws of any state to the contrary notwithstanding.

(3) The senators and representatives before mentioned and the members of the several state legislatures, and all executive and judicial officers, both of the United States and of the several states, shall be bound by oath or affirmation to support this constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII.

The ratification of the conventions of nine states shall be sufficient for the establishment of this constitution between the states so ratifying the same.

Done in convention, by the unanimous consent of the states present, the seventeenth day of September, in the year of our Lord one thousand seven hundred and eighty-seven, and of the independence of the United States of America the twelfth. In witness whereof, we have hereunto subscribed our names.

ARTICLE I.—BILL OF RIGHTS.

Rights of persons. Section 1. All men are, by nature, free and equal, and have certain inalienable rights, among which are those of enjoying and defending life and liberty, acquiring, possessing, and protecting property, and pursuing and obtaining safety and happiness.

Political power. Sec. 2. All political power is inherent in the people. Government is instituted for the protection, security, and benefit of the people, and they have the right, at all times, to alter or reform the same, whenever the public good may require it.

Religion. Sec. 3. The general assembly shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; nor shall any person be compelled to attend any place of worship, pay tithes, taxes, or other rates, for building or repairing places of worship, or the maintenance of any minister or ministry.

No religious test shall be required as a qualification for any office of public trust, and no person shall be deprived of any of his rights, privileges, or capacities, or disqualified from the performance of any of his public or private duties, or rendered incompetent to give evidence in any court of law or equity, in consequence of his opinions on the subject of religion; and any party to any judicial proceeding shall have the right to use as a witness, or take the testimony of, any other person, not disqualified on account of interest, who may be cognizant of any fact material to the case; and parties to suits may be witnesses, as provided by law.

Dueling. Sec. 5. Any citizen of this state who may hereafter be engaged, either directly or indirectly, in a duel, either as principal or accessory before the fact, shall forever be disqualified from holding any office under the constitution and laws of this state.

Laws uniform. Sec. 6. All laws of a general nature shall have a uniform operation; the general assembly shall not grant to any citizen or class of citizens, privileges or immunities, which upon the same terms shall not equally belong to all citizens.

Liberty of speech and the press. Sec. 7. Every person may speak, write and publish his sentiments on all subjects, being responsible for the abuse of that right. No law shall be passed to restrain or abridge the liberty of speech, or of the press. In all prosecutions or indictments for libel, the truth may be given in evidence to the jury, and if it appear to the jury that the matter charged as libelous was true, and was published with good motives and for justifiable ends, the party shall be acquitted.

Personal security. Sec. 8. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable seizures and searches, shall not be violated; and no warrant shall issue but on probable cause, supported by oath or affirmation, particularly describing the place to be searched, and the persons and things to be seized.

In all criminal prosecutions, and in cases involving the life or liberty of an individual, the accused shall have a right to a speedy and public trial by an impartial jury; to be informed of the accusation against him; to have a copy of the same when demanded; to be confronted with the witnesses against him; to have compulsory process for his witnesses; and to have the assistance of counsel.

When indictment necessary. Sec. 11. All offenses less than felony, and in which the punishment does not exceed a fine of one hundred dollars, or imprisonment for thirty days, shall be tried summarily before a justice of the peace, or other officer authorized by law, on information under oath, without indictment, or the intervention of a grand jury, saving to the defendant the right of appeal; and no person shall be held to answer for any higher criminal offense, unless on presentment or indictment by a grand jury, except in cases arising in the army or navy, or in the militia, when in actual service, in time of war or public danger.

Bail; punishments. Sec. 17. Excessive bail shall not be required; excessive fines shall not be imposed, and cruel and unusual punishment shall not be inflicted.

Eminent domain. Sec. 18. Private property shall not be taken for public use without just compensation first being made, or secured to be made, to the owner thereof, as soon as the damages shall be assessed by a jury, who shall not take into consideration any advantages that may result to said owner on account of the improvement for which it is taken.

The general assembly, however, may pass laws permitting the owners of lands to construct drains, ditches, and levees for agricultural, sanitary or mining purposes across the lands of others, and provide for the organization of drainage districts, vest the proper authorities with power to construct and maintain levees, drains, and ditches and to keep in repair all drains, ditches and levees heretofore constructed under the laws of the state, by special assessments upon the property benefited thereby. The general assembly may provide by law for the condemnation of such real estate as shall be necessary for the construction and maintenance of such drains, ditches and levees, and prescribe the method of making such condemnation.

[By proper action of the legislature (31 G. A., joint resolution No. 1, and 32 G. A., joint resolution No. 2) the foregoing paragraph was submitted to vote of the electors at the general election of 1908, and was by them adopted.]

Imprisonment for debt. Sec. 19. No persons shall be imprisoned for debt in any civil action, on mesne or final process, unless in case of fraud; and no person shall be imprisoned for a military fine in time of peace.

Reservation of rents. Sec. 24. No lease or grant of agricultural lands, reserving any rent or service of any kind, shall be valid for a longer period than twenty years.

Rights retained. Sec. 25. This enumeration of rights shall not be construed to impair or deny others, retained by the people.

Intoxicating liquors. (Sec. 26. No person shall manufacture for sale, or sell, or keep for sale, as a beverage any intoxicating liquors whatever, including ale, wine and beer. The general assembly shall by law prescribe regulations for the enforcement of the prohibition herein contained, and shall thereby provide suitable penalties for the violation of the provisions hereof.)

[The foregoing amendment was adopted at a special election held on June 27, 1882. The supreme court, April 21, 1883, in the case of Koehler and Lange v. Hill, and reported in 60th Iowa, page 543, held that owing to certain irregularities the same was not legally submitted to the electors, and did not become a part of the constitution.]

ARTICLE II.—RIGHT OF SUFFRAGE.

Electors. Section 1. Every male citizen of the United States, of the age of twenty-one years, who shall have been a resident of this state six months next preceding the election, and of the county in which he claims his vote, sixty days, shall be entitled to vote at all elections which are now or hereafter may be authorized by law.

[By proper legislative action (11 G. A., chap. 98, and 12 G. A., joint res. No. XI) a proposed amendment striking the word "white" from this section, as it originally stood, was submitted to the electors at the general election in 1868 and adopted.]

Privileged from arrest. Sec. 2. Electors shall, in all cases except treason, felony, or breach of the peace, be privileged from arrest on the days of election, during their attendance at such elections, going to and returning therefrom.

From military duty. Sec. 3. No elector shall be obliged to perform military duty on the day of election, except in time of war or public danger.

Persons in military service. Sec. 4. No person in the military, naval, or marine service of the United States shall be considered a resident of this state by being stationed in any garrison, barrack, or military or naval place or station within this state.

Insane. Sec. 5. No idiot or insane person, or person convicted of any infamous crime, shall be entitled to the privilege of an elector.

Ballot. Sec. 6. All elections by the people shall be by ballot.

General election. (Sec. 7.) The general election for state, district, county and township officers shall be held on the Tuesday next after the first Monday in November.

[By proper action of the legislature (19 G. A., joint res. No. 12, and 20 G. A., joint res. No. 13) the foregoing section was submitted to vote of the electors at the general election in 1884, and by them adopted.]

ARTICLE III.—OF THE DISTRIBUTION OF POWERS.

Departments of government. Section 1. The powers of the government of Iowa shall be divided into three separate departments: the legislative, the executive and the judicial; and no person charged with the exercise of powers properly belonging to one of these departments shall exercise any function appertaining to either of the others, except in cases hereinafter expressly directed or permitted.

LEGISLATIVE DEPARTMENT.

General assembly. Section 1. The legislative authority of this state shall be vested in a general assembly, which shall consist of a senate and house of representatives; and the style of every law shall be—"Be it enacted by the General Assembly of the State of Iowa."

Sessions. Sec. 2. The sessions of the general assembly shall be biennial, and shall commence on the second Monday in January next ensuing the election of its members; unless the governor of the state shall, in the meantime, convene the general assembly by proclamation.

Representatives. Sec. 3. The members of the house of representatives shall be chosen every second year, by the qualified electors of their respective districts, on the second Tuesday in October, except the years of the presidential election, when the election shall be on the Tuesday next after the first Monday in November, and their term of office shall commence on the first day of January next after their election, and continue two years, and until their successors are elected and qualified.

[By the amendment (Sec. 7) inserted at the end of Article II, the election now occurs uniformly in November.]

Eligibility. Sec. 4. No person shall be member of the house of representatives who shall not have attained the age of twenty-one years; be a male citizen of the United States, and shall have been an inhabitant of this state one year next preceding his election, and at the time of his election shall have had an actual residence of sixty days in the county or district he may have been chosen to represent.

[By an amendment to the constitution properly proposed (17 G. A., joint res. No. 5; 18 G. A., joint res. No. 6), and adopted by vote of the electors at the general election in 1880, the words "free white" were stricken from the second line of this section.]

Senators. Sec. 5. Senators shall be chosen for the term of four years, at the same time and place as representatives; they shall be twenty-five years of age, and possess the qualifications of representatives as to residence and citizenship.

Number and classification. Sec. 6. The number of senators shall not be less than one-third nor more than one-half the representative body; and shall be so classified by lot that one class, being as nearly one-half as possible, shall be elected every two years. When the number of senators is increased, they shall be annexed by lot to one or the other of the two classes, so as to keep them as nearly equal in numbers as practicable.

Elections determined. Sec. 7. Each house shall choose its own officers, and judge of the qualification, election, and return of its own members. A contested election shall be determined in such manner as shall be directed by law.

Quorum. Sec. 8. A majority of each house shall constitute a quorum to transact business; but a smaller number may adjourn from day to day, and may compel the attendance of absent members in such manner and under such penalties as each house may provide.

Authority of the houses. Sec. 9. Each house shall sit upon its own adjournments, keep a journal of its proceedings, and publish the same; determine its rules of proceedings, punish members for disorderly behavior, and with the consent of two-thirds, expel a member, but not a second time for the same offense; and shall have all other powers necessary for a branch of the general assembly of a free and independent state.

Protest. Sec. 10. Every member of the general assembly shall have the liberty to dissent from or protest against any act or resolution which he may think injurious to the public or an individual, and have the reasons for his dissent entered on the journals; and the yeas and nays of the members of either house, on any question, shall, at the desire of any two members present, be entered on the journals.

Privilege. Sec. 11. Senators and representatives, in all cases except treason, felony, or breach of the peace, shall be privileged from arrest during the session of the general assembly, and in going to or returning from the same.

Vacancies. Sec. 12. When vacancies occur in either house, the governor, or the person exercising the functions of governor, shall issue writs of election to fill such vacancies.

Doors open. Sec. 13. The doors of each house shall be open, except on such occasions as, in the opinion of the house, may require secrecy.

Adjournments. Sec. 14. Neither house shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which they may be sitting.

Bills. Sec. 15. Bills may originate in either house, and may be amended, altered, or rejected by the other; and every bill having passed both houses, shall be signed by the speaker and president of their respective houses.

Approval. Sec. 16. Every bill which shall have passed the general assembly, shall, before it becomes a law, be presented to the governor. If he approve, he shall sign it; but if not, he shall return it, with his objections, to the house in which it originated, which shall enter the same upon their journal, and proceed to reconsider it; if, after such reconsideration, it again pass both houses, by yeas and nays, by a majority of two-thirds of the members of each house, it shall become a law, notwithstanding the governor's objections. The terms of offices of senators whose successors would otherwise be chosen in the year one thousand nine hundred and seven are hereby extended one year and until their successors are elected and qualified. The general assembly shall make such changes in the law governing the time of election and terms of office of all other elective officers as shall be necessary to make the time of their election and terms of office conform to this amendment, and shall provide which of the judges of the supreme court shall serve as chief justice. The general assembly shall meet in regular session on the second Monday in January, in the year one thousand nine hundred and six, and also on the second Monday in January in the year one thousand nine hundred and seven, and biennially thereafter.

[The supreme court, April 21, 1883, in the case of Koehler & Lange vs. Hill, reported in 60th Iowa, page 543, held that the amendment, section 26, as submitted to the electors did not become a part of the constitution.]

Amendment 2. At any regular session of the general assembly, the state may be divided into the necessary judicial districts for district court purposes, or the said districts may be reorganized and the number of the districts and the judges of said courts increased or diminished; but no reorganization of the districts or diminution of the judges shall have the effect of removing a judge from office.

Amendment 3. The grand jury may consist of any number of members not less than five, nor more than fifteen, as the general assembly may by law provide, or the general assembly may provide for holding persons to answer for any criminal offense without the intervention of the grand jury.

*Resigned March 7, 1911, to take effect March 15, 1911. Vacancy will be filled at a special election to be held June 5, 1911.

THE LEGISLATIVE DEPARTMENT

The legislative department of the state of Iowa is vested in a general assembly, which consists of a senate and house of representatives.

The senate consists of fifty members. Senators are elected for terms of four years; twenty-one senators being elected at one general election and twenty-nine at the next.

The house of representatives consists at present of one hundred and eight members, who are elected for terms of two years.

Sessions of the general assembly are held biennially in the odd numbered years, and they commence on the second Monday of January.

The compensation of the members of the thirty-fourth general assembly was \$550 for the session. They were also allowed five cents a mile from their homes to the capital and return for traveling expenses. Members are permitted to draw such stationery as they need during the session, the cost to the state for the supplies varying from \$1.50 to \$14.00 per member. No allowance is permitted for postage.

The compensation of the members of the thirty-fifth general assembly will be \$1,000 for the session. This is in accordance with an act of the thirty-fourth general assembly which goes into effect July 4, 1911.

The lieutenant governor is the presiding officer of the senate. His pay is twice that of a member, being \$1,100 for the session of the thirty-fourth general assembly. The lieutenant-governor presiding over the senate in the thirty-fifth general assembly will receive two thousand dollars for the session.

The speaker of the house is chosen by the members from among their own membership. His pay is twice that of a member, being \$1,100 for the thirty-fourth general assembly. The speaker of the house of the thirty-fifth general assembly will receive two thousand dollars for the session.

The lieutenant-governor appoints all committees in the senate and the speaker of the house all committees in the house.

In the regular proceedings of the senate motions made by members are not seconded but are put directly by the presiding officer, the formality of a second being waived. In the house all motions are seconded before being placed before the house by the speaker.

Sessions in both branches of the general assembly are opened by prayer. No regular chaplains are employed, but ministers from Des Moines and elsewhere over the state are assigned dates for these services and are allowed \$5 for each opening prayer.

Bills passed are re-written (enrolled) by the enrolling clerk of the branch of the general assembly where the bill originates; they are then signed by the president of the senate and speaker of the house in presence of these respective bodies, in open session; then by the governor, if meeting with his approval, and then are filed with the secretary of state and by him bound in book form, after the close of a session.

THE THIRTY-FOURTH GENERAL ASSEMBLY

Convened January 9, 1911. Adjourned April 12, 1911.

RULES OF THE THIRTY-FOURTH GENERAL ASSEMBLY

SENATE RULES.

REGULAR ORDER OF DAILY BUSINESS.

1. The following order shall govern:
 1. Presentation of petitions and memorials, addressed to the Senate or the General Assembly.
 2. Introduction of bills.
 3. Resolutions.
 4. Communications on the President's table, including House messages.
 5. Reports of standing committees, in order in which they stand in the rules, except the Committee on Engrossed and Enrolled Bills, Rules and Printing.
 6. Reports of select committees.
 7. Unfinished business before the Senate.
 8. Third reading of bills.
 9. General order of the day.
2. The President shall take the Chair at the hour to which the Senate is adjourned, and call the Senate to order; and if a quorum be present, he shall proceed with the regular order of daily business, unless otherwise ordered by the Senate, or unless a special order for the day shall interfere therewith. He shall preserve order and decorum, and decide all questions of order, subject to an appeal to the Senate. He shall appoint all committees, unless otherwise especially ordered. Immediately preceding the adjournment of each morning session, or, in case it can not be done during that session, then as soon after the convening of the next following session as he may find most convenient, the President shall call for corrections of the Journal of the last day's proceedings. He shall then cause any mistakes therein to be corrected by the Secretary, and the Journal shall then be approved.
3. The Senate shall, at its pleasure, elect a President pro tem., who shall hold his office during the remaining portion of the time for which the President was elected; and when the President shall from any cause be absent, the President pro tem. shall preside, except when the Chair is filled by appointment by the President.
4. There shall be appointed by the Lieutenant Governor, at each session of the Senate, to hold their positions during such session, but subject to be discharged by the President of the Senate for inefficiency or misbehavior, or other reasons in his judgment justifying such discharge, six messengers for the Senate. And the President may appoint other messengers in the place of any discharged.
5. One-fourth of the members may have a call of the Senate, and absent members sent for and their attendance enforced.
6. When a member is about to speak in debate, or deliver any matter to the Senate, he shall rise from his seat and respectfully address himself to "Mr. President," and shall confine himself to the question under debate, avoid personalities, and the imputation of improper motives.
7. When the vote is taken viva voce, questions shall be distinctly put in this form, viz.: "As many as are of the opinion (as the case may be) say 'aye.'" And after the affirmative voice is expressed: "As many as are of the

contrary opinion say 'no.' If the President doubt, or a division be called for, the Senate shall divide—those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative.

8. Every member present when a question is put shall vote, unless he shall, for special cause, be excused by a vote of the Senate; but no member shall vote on any question in the event of which he is directly and personally interested, or, except by consent of the Senate, in any case where he was not present when his name was called in the taking of the vote. Provided, that any member who was absent by leave of the Senate may vote at any time before the result is announced.

9. All motions (except to adjourn, postpone, or commit) shall be reduced to writing, if required by any member of the Senate. Any motion or resolution may be withdrawn by the mover, provided the same has not been amended by the Senate, and that no amendment is pending thereto.

10. When a question is under debate, no motion shall be received but to adjourn, to lay on the table, for the previous question, to postpone to a day certain, to commit or amend, to postpone indefinitely, which several motions shall have precedence in the order in which they are named; and no motion to postpone to a day certain, to commit or postpone indefinitely, being decided, shall be again allowed on the same day, and at the same stage of the bill or proposition. A motion to strike out the enacting clause of a bill shall have the precedence of a motion to amend; and, if carried, shall be considered equivalent to the rejection of the bill.

11. A motion to adjourn, to lay on the table, and for the previous question, shall be decided without debate, and all incidental questions of order arising after a motion is made for the previous question, and pending such motion, shall be decided—whether an appeal or otherwise—without debate.

12. The previous question shall be in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be to put an end to all debate, and bring the Senate to a direct vote upon pending amendments and then upon the main question unless otherwise indicated by the motion and ordered by the Senate, except that the member in charge of the measure under consideration shall have ten minutes in which to close the discussion, immediately before the vote is taken upon the main question. If the previous question is decided in the negative, the Senate shall proceed with the matter before it, the same as though the previous question had not been moved.

13. Any member may call for a division of a question, which shall be divided, if it comprehends propositions in substance so distinct that one being taken away substantive propositions shall remain for the decision of the Senate. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost, shall preclude neither amendments to the matter attempted to be stricken out, nor a motion to strike out and insert.

14. When a motion or question has been decided, any member having voted on the prevailing side may move a reconsideration, on the same or next legislative day.

15. A motion to print any paper presented to the Senate may, on motion, be referred to the Committee on Printing, whose duty it shall be to report at the earliest time practicable, on the propriety of printing.

16. Every bill shall be introduced on the report of a committee, or by leave, and shall at once be given its first reading. Every bill and joint resolution shall have received three several readings previous to its passage; but no bill or joint resolution shall have its second and third readings on the same day, without a suspension of this rule; and every bill and joint resolution shall express in its title the object thereof. All rules of the Senate applicable to bills shall apply with equal force to joint resolutions. Each bill and proposed joint resolution, when introduced, shall be typewritten double-space, and accompanied by two copies thereof.

17. Before the same is presented, there shall be endorsed on each petition a brief statement of the subject matter thereof, and on each bill and joint resolu-

tion the title thereof, and in either case the name of the Senator presenting the same. In presenting a petition, the Senator shall briefly state from his place in the Senate Chamber the subject matter to which the petition relates.

18. The first reading of a bill or joint resolution shall be for information, and, if objection be made to it, the question shall be: "Shall the bill (or joint resolution, as the case may be) be rejected?" If no objection be made, or the question to reject be lost, the bill or joint resolution shall go to its second reading without further questioning.

19. Upon the second reading of a bill or joint resolution, the President shall state that it is ready for commitment, and, unless the Senate otherwise orders, the President shall refer the bill to an appropriate standing committee. If ordered by the Senate to be considered by the committee of the whole, the Senate shall fix the day for its consideration. If the bill or joint resolution be ordered to be engrossed, it shall be in order for its third reading any session after that day. No bill or joint resolution shall be committed or amended until it shall have been twice read.

20. (a) All bills carrying appropriations shall be referred to the Committee on Appropriations, which the committee shall report back to the Senate not later than the first Monday after March 15th. After the third legislative day prior to said Monday, House bills shall be reported back by said committee within three days from the reference thereof.

(b) No bill carrying an appropriation shall be introduced after March 15th except by the Committee on Appropriations.

(c) On or before the first Monday after March 15th the Committee on Appropriations shall prepare an itemized schedule of all appropriations recommended by the Committee on Appropriations and have the same printed and laid upon the desks of members, and no appropriation bill shall be taken up for consideration and passage until the third legislative day thereafter.

21. When a question is lost on engrossing a bill or joint resolution for a third reading on a particular day, it shall not preclude a question to engross it for a third reading on a different day. After a third reading of a bill or a joint resolution, no amendment (except to fill blanks) shall be received, except by unanimous consent of the members present; and the vote on its final passage shall be immediately taken without debate.

22. A bill or joint resolution may be committed at any time previous to its third reading.

23. In filling blanks, the largest sum and longest time shall be first put.

24. On the return of a bill or joint resolution from the House, with an amendment, it shall be placed with the third reading of bills, unless the Senate shall otherwise order. On the question of adopting the amendment the vote shall be taken on the final passage of the bill, and if the amendment be adopted by a constitutional majority, no further vote is necessary.

25. All bills and joint resolutions introduced, except local or legalizing bills, shall be printed, unless otherwise ordered by the Senate, and committees may order to be printed any bills under consideration by them, and any substitutes for bills or resolutions reported by them.

26. It shall be in order for the Committee on Engrossed and Enrolled Bills, on Rules, and on Printing, to report at any time, when no member is addressing the Senate.

27. When any special order of the day is not proceeded with on the day assigned, it shall stand as a general order on each succeeding day until disposed of, unless otherwise ordered, but its consideration can not be moved until that order of business is reached, when it shall be taken up in order of its file, and shall be taken up in the order of precedence.

28. When the pending question is interrupted by a "Special Order," it shall upon the disposal of the special order, be before the Senate in the same stage as if it had not been so interrupted.

29. Committees are permitted to employ clerks by the majority vote of the whole committee. The clerk shall be selected by such vote, and in like manner may be discharged for inefficiency, or when the services of the clerk become

unnecessary. All committee clerks shall be competent stenographers and of good moral character. Any clerk may be discharged for inefficiency, immorality or indecent or unbecoming conduct, whether in or out of the Senate Chamber; and, upon the request of any Senator or the President of the Senate, made to the chairman of a committee, a meeting of the committee shall be called for the purpose of considering the question of the discharge of such clerk upon any of the grounds above specified.

30. Clerks of Senate committees, when not engaged in duties pertaining to such committees, or work assigned them by the committee chairman, shall be subject to the discretion of the Secretary of the Senate for any labor connected with the duties of his position or his assistants. The Secretary shall, from time to time, make detail from said clerks to assist in preparing copy or correcting proof for the daily Journal.

31. All reports of committees on bills or resolutions shall be made in duplicate and be accompanied with the original bill or resolution to which the report relates. Provided, that this rule shall not apply to the reports of Committees on Enrolled and Engrossed Bills.

32. When a vote is taken in any committee upon any bill or resolution before it, or any motion relating to the merits thereof, the chairman shall see that no person is present except the members and clerk of said committee, unless otherwise ordered by the committee.

33. Smoking in the Senate Chamber is hereby prohibited while the Senate is in session. And any officer or employe who shall indulge in smoking while on duty in the Senate Chamber, or doorways leading thereto, shall thereby subject himself to liability of discharge.

34. Admission to the floor of the Senate Chamber shall be granted by the doorkeeper to the Governor and his private secretary, members of the House of Representatives, the State officers and their deputies, judges of the several courts, ex-members of the Legislature, ex-State officers, and the regular reporters of the Senate, and clerks of committees. No persons, except those herein specified, shall be admitted, except upon special permission of the President of the Senate, or of a member of the Senate. And no person shall be permitted, by members or otherwise, to come upon the floor of the Senate, or into the cloak rooms, to solicit or influence Senators in their official action, or to sell any article or to solicit subscriptions. No officer, or employe, elected or appointed by the Senate or any of its committees, shall solicit or endeavor to influence members of the Legislature in their official action. Any person violating this rule shall be summarily dismissed by the Senate.

35. In case of disturbance or disorderly conduct in the lobby or gallery, the presiding officer shall have the power to order the same cleared.

36. Before acting on executive business, the Senate Chamber shall be cleared by direction of the President, of all persons except members, the Secretary, the Sergeant-at-Arms, members enjoined and the Secretary and Sergeant-at-Arms sworn to observe secrecy.

37. When an adjournment has been ordered by a vote of the Senate, and before adjournment is declared by the President of the Senate, it shall be in order for the chairman of the several committees to announce in open Senate the time and place of meeting of their respective committees.

38. No standing rule or order of the Senate shall be rescinded or suspended, nor shall any matter, tabled upon motion, be taken up, unless by a vote of two-thirds of the members present, except an order fixing the hour to which the Senate shall stand adjourned.

39. Resolutions, including concurrent resolutions, shall not be acted upon by the Senate upon the day the same are introduced or received by the Senate, but shall lie upon the table for one legislative day if any member object to the immediate consideration thereof. But if no member object, the same may have immediate consideration. Nothing in this rule shall abridge or prevent the usual right to reference to committee.

40. The rules of parliamentary practice comprised in Cushing's Manual shall govern the Senate in all cases to which they are applicable, and in which

they are not inconsistent with the standing rules or orders of the Senate, and joint rules of the Senate and House of Representatives.

41. The hours to which the Senate shall stand adjourned from day to day shall be 9 o'clock A. M. and 2 o'clock P. M., unless otherwise ordered by the Senate.

42. The duties of the officers and employes of the Senate are as stated in the paragraphs relating thereto, and appended to these rules.

The Secretary of the Senate shall have charge of the Secretary's desk, and shall see that no one is permitted therein except himself and those assisting him. He shall be responsible for the custody and safekeeping of all bills, resolutions and other matters laid before or introduced into the Senate, except while the same are in the possession of the committee to whom the same shall have been referred, and when delivering the same to said committee he shall take a proper receipt therefor. He shall see that the Journal of each day's proceedings is correctly and fully kept, and fully made up before the next day's session, and be responsible for its safekeeping. He shall have control of Room 25, which is assigned to said Secretary for the use of himself and his assistants. He shall endorse on every bill or joint or concurrent resolution the date of its introduction, and by what Senator, or of its receipt from the House, and also what action relating thereto is taken by the Senate. The assistant secretaries shall be under his direction, and he shall assign to them their several duties in connection with the duties of the Secretary's desk.

The Sergeant-at-Arms shall wear the appropriate badge of his office; shall attend the Senate during its sessions; shall aid in the enforcement of order under the direction of the President of the Senate; shall execute the commands of the Senate from time to time, together with such process, issued by the authority thereof, as shall be directed to him by the presiding officers; shall see that the rule prohibiting smoking in the Senate Chamber is strictly enforced; shall, upon the request of any five members, have the Senate Chamber lighted up during any evening within the session, except Sunday, to an hour not later than 10 P. M.; shall see that no person, except one authorized to do so, disturbs or interferes with desks of the members, or with the books, papers, etc., thereof; shall see that the printed bills and daily Journals are, at the earliest practicable period, properly distributed and filed upon the desks of Senators; shall have charge of the files in the Senate bill room, and shall see that no copy of a bill is given out except to or upon the order of the President, a Senator, or State officers; shall see that an additional doorkeeper is detailed for duty at the Senate Chamber upon each day within the session, except Sunday, from 8:30 A. M. to 10 P. M., but should not five members of the Senate desire to occupy the Chamber to that hour, the detail may be relieved at 9 P. M.; shall have charge of the messengers of the Senate and see that they severally perform their duties, and shall promptly report to the President of the Senate any inefficiency or violation of duty on the part of said messengers. He shall direct the File Clerk, and Bill Clerk, if any employed, in the discharge of their duties.

The Doorkeeper of the Senate shall wear his appropriate badge of office; shall have special charge of the main door of the Chamber during the sittings of the Senate, and shall see that the other doors of the Senate are properly attended to; shall have general charge and oversight of the additional doorkeepers of the Senate; shall detail such of the additional doorkeepers for such general or special duties as the Sergeant-at-Arms may deem proper and necessary for the efficiency of the Senate and the protection of property within the Chamber; shall see that the rule relating to the admission to the floor of the Chamber is strictly enforced; shall, ten minutes before the opening of each session of the Senate, see that the floor is cleared of all persons not entitled to occupy the same during the session; shall attend to seating visitors, and shall announce all committees and messengers from the Governor or House.

The Janitor of the Senate shall have charge, under the direction of the Sergeant-at-Arms, of the cloak and retiring rooms adjoining the Chamber, and shall see that the same are kept in proper order.

The messengers of the Senate shall attend the Senate during its sittings and perform the duties generally devolving on like employes. While the Senate is sitting, two of their number shall be detailed for service in front of the Secretary's desk. The messengers shall be under the direction of the Sergeant-at-Arms, while the Senate is not sitting, and shall attend to such duties as he may assign them.

At least four messengers shall be on duty in the Senate Chamber upon every day of the session, except Sundays, from 8:30 A. M. until 6 P. M., whether the Senate is in session or not.

RULES OF THE HOUSE.

DUTIES OF THE SPEAKER.

1. He shall take the chair every day precisely at the hour to which the House shall have adjourned; shall immediately call the members to order, and on appearance of a quorum shall cause the Journal of the preceding day to be read.

2. He shall preserve order and decorum, and speak to points of order in preference to other members, rising from his seat for that purpose; and he shall decide questions of order, subject to an appeal to the House by any two members.

3. He shall rise to put a question, but may state it sitting.

4. Questions shall be distinctly put in this form, to-wit: "As many as are of the opinion that (as the question may be) say 'aye';" and after the affirmative voice is expressed: "As many as are of a contrary opinion, say 'no.'" If the Speaker doubts, or a division is called for, the House shall be divided. Those in the affirmative of the question shall first rise from their seats, and afterward those in the negative.

5. The House shall at its pleasure elect a Speaker pro tempore. When the Speaker shall from any cause be absent, the Speaker pro tempore shall preside, except when the chair is filled by appointment by either the Speaker or the Speaker pro tempore. The Speaker or the Speaker pro tempore shall have the right to name any member to perform the duties of Speaker, but such substitution shall not extend beyond an adjournment. The acts of the Speaker pro tempore shall have the same validity as those of the Speaker. In the absence of both the Speaker and the Speaker pro tempore, the House shall name a Speaker, who shall preside over it and perform all the duties of Speaker until such time as the Speaker or Speaker pro tempore shall be present, and his acts shall have the same force and validity as those of the regularly elected Speaker.

6. All committees shall be appointed by the Speaker, unless otherwise especially directed by the House.

7. In all cases of a call of the yeas and nays, the Speaker shall vote; in other cases he shall not be required to vote unless the House is equally divided, or unless his vote, if given to the minority, will make the division equal, and in case of such equal division the question shall be lost.

8. All acts, addresses and joint resolutions shall be signed by the speaker, and all writs, warrants, subpoenas, issued by order of the House, shall be under his hand and attested by the Clerk.

9. In case of any disturbance or disorderly conduct in the lobby, the Speaker or Chairman of the Committee, of the Whole House shall have power to have the same cleared.

10. After the Journal is read the following order shall govern:

1. Business pending at last previous adjournment.
2. Petitions or remonstrances to be offered.

3. Reports of committees:
 - Ways and Means.
 - Judiciary.
 - Appropriations.
 - Railroads and Transportation.
 - Commerce and Trade.

 - Claims.
 - Compensation of Public Officers.
 - Insurance.
 - Banks and Banking.
 - Animal Industry.

7. Messages and communications on the Speaker's table.
8. Bills and resolutions read a second time.
9. Bills on their passage.
10. Reports in the possession of the House shall be taken up in their order.
11. On and after the 10th day of February of each regular session, bills and joint resolutions which have been read the second time and engrossed shall be taken up in their proper order at three o'clock in the afternoon of each session and put upon their passage.

OF DECORUM AND DEBATE.

11. When any member is about to speak in debate, or deliver any matter to the House, he shall rise from his seat and respectfully address himself to the presiding officer by his title, saying, "Mr. Speaker," and shall not proceed until he shall be recognized by the Chair, and shall confine himself to the question under debate and shall avoid personalities.

12. When any member, in speaking or otherwise, transgresses the rules of the House, the Speaker shall, or any member may, call him to order; in which case the member so called to order shall immediately sit down, but may be permitted with leave of the House to explain; and the House shall, if appealed to, decide the case, but without debate. If there be no appeal, the decision of the Chair shall be submitted to; if the decision be in favor of the member so called to order, he is at liberty to proceed. If the case requires it, he shall be liable to the censure of the House.

13. Should two or more members rise at the same time, the Speaker shall designate the member entitled to speak.

14. No member shall speak more than once on the same question without leave of the House, nor more than twice until every member choosing to speak shall have spoken, except as provided in Section 26; provided further, when bills are being considered on their second reading debate thereon shall be limited to fifteen minutes to each member desiring to speak thereon, which may be extended by consent of the House.

15. While the Speaker is putting a question or addressing the House, no one shall walk out of or across the House; and when a member is speaking, no one shall engage in conversation or pass between him and the Speaker.

16. No member shall vote on any question in the event of which he is personally interested.

17. Upon a division and count of the House on any question, only those members standing in their places shall be counted.

18. Every member who shall be in the House when the question is put shall give his vote, unless the House for special reasons shall excuse him; but such a member must ask to be excused before commencing to take the vote on the main question.

19. When a motion is made and seconded, it shall be stated by the Speaker; or, being in writing, it shall be passed to the desk and read aloud by the Clerk before debated.

20. Every motion, except subsidiary or incidental motions, shall be reduced to writing if the Speaker or any member desires it, but this exception shall not apply to motions to amend.

21. All bills, resolutions, petitions, memorials or other papers shall be accompanied by the name of the member presenting the same, and also the name of the county.

22. After a motion is stated by the Speaker, or read by the Clerk, it shall be deemed to be in possession of the House, but may be withdrawn by leave of the House.

23. When a question is under debate no motion shall be received but to adjourn; to lay on the table; for the previous question; to postpone to a certain day; to commit or amend; to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged, and no motion to postpone to a day certain, to commit or postpone indefinitely being decided, shall again be allowed on the same day, and at the same stage of the bill or proposition. A motion to strike out the enacting words of a bill shall have precedence of a motion to amend; and, if carried, shall be considered equivalent to its rejection.

24. When a resolution shall be offered or a motion made to refer any subject, and different committees shall be proposed, question shall be taken in the following order: The Committee of the Whole House; a Standing Committee; a Select Committee.

25. A motion to adjourn shall always be in order, except when a member is speaking, or the House voting.

26. The previous question shall always be put in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be to put an end to all debate, and to bring the House to a direct vote upon amendments and then upon the main question, unless otherwise indicated by the motion and ordered by the House, except that the member in charge of the measure under consideration, shall have ten minutes in which to close the discussion before the vote is taken. On a motion for the previous question and prior to seconding the same a call of the House shall be in order; but after such motion shall have been adopted no call shall be in order prior to the decision of the main question. If the previous question is decided in the negative, the House shall proceed with the matter before it the same as though the previous question had not been moved.

27. Motions to lay on the table, to adjourn, and for the previous question shall be decided without debate.

28. When a question is postponed indefinitely, it shall not be again acted upon during the session.

29. Any member may call for a division of the question, which shall be divided if it comprehends questions so distinct that one being taken away, the rest may stand entire for the discussion of the House. A motion to strike out being lost shall preclude neither an amendment nor a motion to strike out and insert. A motion to strike out and insert shall be deemed indivisible.

30. Motions and reports may be committed at the pleasure of the House.

31. No motion or proposition on a subject different from that under consideration shall be admitted under color of amendment.

32. When a motion has been made and carried or lost, it shall be in order for any member of the majority, on the same or succeeding day, to move for

a reconsideration thereof, and such motion shall take precedence of all other questions except the consideration of a conference report, a motion to fix the day to which the house shall adjourn, to adjourn, or to take a recess, and shall not be withdrawn after the said succeeding day without the consent of the House; and thereafter any member may call it up for consideration provided that such motion, if made during the last six days of the session, shall be disposed of when made.

33. Petitions, memorials, and other papers addressed to the House, shall be presented by the Speaker or a member in his place; a brief statement of the contents thereof shall verbally be made by the introducer, and shall be referred to the committee of his selection, unless otherwise ordered by the House.

34. A proposition requesting information from the Governor, Secretary or any other State officer, and all resolutions shall lie on the table one day for consideration, and all such propositions shall be taken up for consideration in the order they were presented, immediately after the reports are called for from the Select Committee, and when adopted, the Clerk shall cause the same to be delivered.

35. Any five members, if the Speaker be in the Chair, shall be authorized to compel the attendance of absent members.

36. Upon calls of the House, or in taking the yeas and nays on any question, the names of the members shall be called alphabetically, except that "Mr. Speaker" shall be called last.

37. No member shall absent himself from the service of the House without leave unless he be sick or unable to attend.

38. Upon the call of the House, the names of the members shall be called by the Clerk, and the absentees noted, after which the names of the absentees shall again be called over and the Sergeant-at-Arms be directed by the Speaker to compel their attendance. 39. No committee shall sit during the sitting of the House without special leave.

40. A majority of the members shall constitute a quorum, and upon demand of any two members the yeas and nays shall be ordered; the members demanding the yeas and nays shall arise for that purpose, and their names shall be entered in the Journal.

It shall be the duty of the committee to arrange all pairs between members, and to announce such pairs and the time for which they shall continue, to the House, which announcement shall be entered on the Journal. Thereafter neither member so paired shall vote (upon any question of a political or partisan nature) until the time of pairing has expired, unless such pair is sooner dissolved by the mutual agreement of the persons so paired. When pairs are dissolved such dissolution shall be entered on the Journal of the House.

52. No amendment, unless by way of correcting an error or omission, shall be received to any bill on its third reading, and no debate shall be allowed on the same.

In case a motion to insist on the amendment be decided in the negative, such action shall be deemed a receding from the amendment and so entered upon the Journal of the House. In case the amendment is insisted upon, the House so insisting shall request a Committee of Confer-

Unless another number is specified in said request such Conference Committee shall consist of four members from each House. They shall meet at a convenient time to be agreed upon by their chairman and having conferred freely, each shall report to their respective House the result of their conference. 5. When the bills are enrolled they shall be examined by a Joint Committee of two from the Senate and two from the House of Representatives, who shall be a standing Committee for that purpose, and who shall carefully compare the enrollment with the engrossed bills, as passed in the House, correct any errors therein, and make report thereof forthwith to their respective Houses.

6. After the report, each bill shall be signed, first by the Speaker of the House of Representatives, and then by the President of Senate, in the presence of their respective Houses.

7. After a bill shall have been thus signed in each House, it shall be forthwith presented, by Committee of the House in which the bill originated, to the Governor, for his approval, and they shall forthwith report the date of presentation, which shall be entered upon the Journal of the House in which the bill originated.

8. All orders, resolutions, memorials or other votes, which are to be presented to the Governor for his approval shall be enrolled, examined, signed and presented in the same manner as bills.

9. When any bill, resolution or memorial, which shall have passed in one House, is rejected or adopted in the other, notice of such action shall be given to the House which passed the same. And each bill, resolution or memorial shall have properly endorsed thereon, at the time of its transmission, a statement signed by the Secretary or Clerk of the action which has been taken thereon by the House transmitting the same, with the dates thereof.

10. When a bill, resolution or memorial which shall have passed one House is rejected in the other, it shall not be again introduced during the session without five days' notice and leave of a majority of the members of the House in which the same is sought to be introduced.

12. When any report, bill or resolution shall be ordered printed by either House, without stating the number, three hundred copies shall be printed for the use of both Houses, but when any bill or resolution which may have passed one House is ordered printed by the other, a greater number of copies shall not be printed than the House making the order shall determine.

13. It shall be the duty of the Chief Clerk of the House of Representatives and the Secretary of the Senate, when any document, except bills and resolutions, is ordered to be printed in their respective Houses, forthwith to communicate such order to the other House.

14. In all elections in Joint convention of the two Houses, the names of all members shall be arranged in alphabetical order, and they shall be called upon to vote in the order in which they stand arranged.

15. It shall be the duty of the Committee on Claims in each House to keep a book of record, in which shall be entered each claim for money against the State referred to them, whether presented in favor of private persons, or municipal or other corporations, entering therein the name of the claimant, the amount of the claim, the grounds therefor, with note of the evidence offered in support of the same, and the final conclusion of the Committee thereon. At the close of the session said book of record shall be deposited with the Auditor of State, to be kept by him, and he shall provide an index, showing the names of the claimants recorded therein. REQUIREMENTS AS TO REQUISITIONS.

1. The application should be made by the county attorney.
2. The following must be made to appear in the application:
 - (a) The full name of the person whose rendition is asked; for example, John Doe, or a showing given that the same is unknown.
 - (b) The name of the state or territory upon which the requisition is desired, and also, if known, the name of the nearest postoffice to the point where the alleged fugitive is supposed to be.
 - (c) The full name of the person proposed for agent, who should preferably be the sheriff of the county or other peace officer.
 - (d) That the person named as agent has no private interest in the arrest of the fugitive.

3. The application should be accompanied by
 - (a) Original sworn evidence that the accused has, since the commission of the offense with which he is charged, actually fled from the state of Iowa (giving the date of fleeing as near as may be), and is a fugitive from the justice thereof.
 - (b) A duly attested copy of the indictment, or of an information and warrant made before the magistrate in the county in which the offense is alleged to have been committed.
 - (c) In case the application is based upon a preliminary information, affidavits should accompany the same, from persons familiar with the facts, stating the details of the crime. In all cases where the offense is one of fraud, false pretenses, seduction, or other statutory crime, this requirement is especially to be observed.
 - (d) In case the offense charged is not of recent occurrence and an indictment has not been found, a showing should be made as to the cause for delay in procuring indictment.
4. An information must be sworn to before a magistrate. One sworn to before a notary public will not be accepted as a basis for a requisition.

Upon approval thereof by the governor and a majority of the members of the executive council, the auditor of state will issue a warrant for the amount allowed. The state will be at no expense on account of returning a fugitive, if such fugitive is not indicted and tried by a jury, or does not plead guilty, unless it be shown to the satisfaction of the governor that the want of trial was not due to any fault or neglect on the part of the person or persons interested in the prosecution.

Receipts in duplicate are issued for each item received, and the duplicate is filed with the state auditor. When remittance of state dues is made by bank draft, check or certificate of deposit, such draft, check or certificate must be deposited for collection in some bank in the city of Des Moines which has been previously designated as a depository for state funds, and no receipts for any sum remitted by check or draft is issued by the treasury department until the depository receiving the deposit notifies the department of the collection thereof. Work of the Department of Public Instruction. The duties of the superintendent of public instruction are numerous and varied. They may be classified as educational, quasi judicial and ex officio.

Educational. Among the duties of an educational nature may be named his general supervision over the county superintendents and the public schools of the state which necessitates his meeting with these officers at least twice each year and the publication of numerous circulars of instruction and suggestion. He also appoints institutes and approves institute faculties, visits them and addresses the teachers in attendance; attends educational meetings and delivers educational addresses. It is also his duty to collect statistics and report on education and educational questions and the condition of the public schools of the state and to publish them in reports and pamphlets. Among the pamphlets that have become a part of the educational needs of the state and are of national note may be named the Hand-Book for Iowa Schools, the Institute Manual, Special Day Book, Educational Directory, and the Proceedings of the Iowa State Teachers' Association. Many other of minor importance on various subjects are published.

For the purpose of increasing the facilities for training teachers for the rural schools, by requiring a review of such common branches as may be deemed essential by the Superintendent of Public Instruction and for instruction in elementary pedagogy and the art of teaching elementary agriculture and home economics, provision is made for normal courses of study and training in the eleventh and twelfth grades in such accredited four year high schools as the Superintendent of Public Instruction may designate.

Judicial. The quasi judicial duties of the superintendent of public instruction include the hearing of appeals from the decisions of county superintendents, the rendering of opinions in writing when requested by school officers (but in fact opinions are rendered to all who request them), and the publication of the school laws and notes on the same, and pamphlets containing session laws.

Ex Officio. Duties. The superintendent of public instruction is ex officio member Iowa Library Commission, President of the Educational Council Iowa State Teachers' Association, President State Teachers' Reading Circle Board, and President of the Educational Board of Examiners.

As the executive of the board of examiners, a great amount of labor and responsibility is incurred, since all licenses are issued under authority of this board, and the work is conducted under his personal supervision.

Miscellaneous. In addition to the duties enumerated above he reports biennially to the governor on the condition of the public schools of the state and makes such suggestions and recommendations as investigation and experience dictate. He must keep a complete account of the expenditures on account of his department and the educational board of examiners and report the same to the executive council. He also accepts many calls from rural communities to meet with them and discuss such rural school questions as may confront them.

The powers and duties of this board are: To generally supervise all railroads in the state, both steam and electric, except street railroads; to inquire into any neglect or violation of the laws of the state by any railroad corporation doing business therein; to make examinations and inspections of the physical conditions, conduct and management of such railroads and report their condition to said companies; to stop and prevent railroad companies, under certain circumstances, from running or passing their trains over unsafe bridges; to adjudge changes in station houses, rolling stock and rates of fare; to make report on the first Monday in December in each year to the governor of its doings for the preceding year, accompanied with appropriate suggestions and recommendations; to receive, tabulate, and report upon the annual reports filed with it by railroad companies; to examine any of the books, papers or documents of any such corporation; to examine under oath employes of such corporations; to issue subpoenas, administer oaths and compel the attendance of witnesses; to make and fix maximum schedules of freight rates for such corporations, such schedules to be deemed reasonable until disproved; to examine into rates in force, upon complaint that the rate charged by a railroad company, or that the maximum rates fixed by the commission are unreasonably high or discriminating, and to fix the rate again, which must not be higher than any rate established by law, such decision of the commission is prima facie evidence that the rate so made is a reasonable maximum rate; to bring suits to enforce its orders; to inquire into the management of the business of such carriers and to obtain from them full and complete information necessary to enable the commissioners to carry out the objects of the law; to hear, investi-

gate and determine all complaints alleging unreasonable rates; unjust discrimination, undue preference, violation of the long and short haul clause; or other infractions of the commission law, and make proper orders thereupon; to establish joint through rates, upon application, over two or more connecting lines; and to have the same authority over express companies as the act confers concerning railroads.

Before any railway company may condemn lands for additional depot grounds, or for straightening or relocating track, the permission of the board must be obtained. Interlocking switches may be placed at grade railroad crossings or draw bridges, thus obviating the necessity of stopping trains before passing over such grade crossings or draw bridges, but before the interlocking switch may be used, consent of the board must be obtained.

The Thirty-fourth General Assembly created the office of Commerce Counsel, to be appointed by the Board of Railroad Commissioners for a term of four years, subject to confirmation by Senate. The law provides that the counsel may appoint assistants, subject to the approval of the Board of Railroad Commissioners. The duties of the office briefly are as follows:

To investigate and present matters with reference to intrastate rates to the Board of Railroad Commissioners; to investigate on his own motion, or at the request of the board, cases involving interstate rates in which Iowa is interested, and present the same to the Interstate Commerce Commission if the board so directs.

The Attorney General in an opinion holds that the Railroad Commission may, by resolution, direct the Commerce Counsel and his assistants to assist the Department of Justice in the state and federal courts, in cases involving orders made by the Railroad Commission.

The staff of the commander-in-chief consists of an adjutant-general, with rank of brigadier-general, who is chief of staff and acting quartermaster-general, an assistant adjutant-general, with rank of colonel, and twelve aids who have the rank of lieutenant-colonel, except that any person so appointed, who has held a higher rank for a period of one year or more in the guard may be

appointed with the rank of the highest rank so held by him, or the twelve aids may be detailed for such service from the active membership of the guard, but if so detailed they hold their rank in the guard and shall perform the duties of aid in addition to their regular duties.

The adjutant-general issues and transmits all orders of the commander-in-chief and keeps a record of all appointments of officers commissioned by the governor, of all the general and special orders and regulations, and of such matters as pertain to the organization of the military force and his duties. He holds office at the pleasure of the governor and performs the duty of quartermaster-general in addition to his duties as adjutant-general. He has charge of the state arsenal and grounds and all other property of the state kept or used for military purposes and receives and issues all quartermaster and ordnance stores and camp equipage upon the order of the commander-in-chief. He furnishes at the expense of the state such blanks and forms as are approved by the commander-in-chief. In each year, preceding a regular session of the general assembly, or at any other time the governor may direct, he makes out a detailed report of the transactions of his office, the expenses thereof and such other matters as shall be required by the commander-in-chief for the period since the last preceding report.

All muster rolls, reports, returns, enlistments, discharges and complete records of the organized militia are filed and made a matter of record in his office. The records of Iowa soldiers of the Civil and Spanish-American wars are on file in his office and all information desired from such records is furnished by him. Certificates of military service of Iowa soldiers of the late wars or past service in the organized militia are given by him under the seal of the state. He is the disbursing officer of all state appropriations for the use and support of the organized militia and as acting quartermaster-general all military property is committed to his custody which he is required to issue for the use of the militia, keeping an account of the same. He is required to furnish such reports of the organized militia of the state as the secretary of war may from time to time require. Carroll, Governor, Chairman; George Cosson, Attorney-General; Guy E. Logan, Adjutant-General; Edgar R. Harlan, Curator Historical Department; George W. Crosley, Iowa Department G. A. R.

The work, when fully completed, will constitute an accurate compendium of the military history of the State from the date of its admission into the Union, down to the close of hostilities in the Philippine Islands. It will include a historical sketch of the military organizations of Iowa, which rendered active service in the early Indian Wars, the War with Mexico, the great War of the Rebellion, and the Spanish American and Philippine Wars. Following the history of each organization is a complete roster giving the names of each officer and enlisted man, together with such account of his personal service as is contained in the official records. The completed work will consist of six large volumes, four of which have been published and the material for the fifth volume completed and now in the hands of the State Printer. A large amount of the material for the sixth—the concluding volume of the series—is in an advanced state of preparation, and the work is therefore approaching completion.

The names of those employed in the compilation of the work with residence, etc., are given below.

Chapter 132, Laws of the Twentieth General Assembly of 1884, provided for the creation of the Bureau of Labor statistics, the appointment of a commissioner, defining his duties, and his tenure of office.

The work as outlined in the above act was purely statistical, and was designed for the purpose of making inquiry into the conditions surrounding the employment of labor, its connection with the development of industries both mechanical and those arising from the natural resources of the state, the advantages and inducements offered in various localities for the establishment of desirable industries, the extent and productive value of industries already established and information relative to the home life and general welfare of the workers.

The work was carried on with success by the different commissioners and assistants and proved its value to the commercial and manufacturing interests of the state, also to the workers who were given an opportunity from time to time to express their views on the surrounding conditions, their desires for more favorable legislation, for better sanitation, ventilation, and more efficient means of protection in the operation of dangerous machinery. These reports from the working people, strengthened by actual personal investigation made by the commissioners and exemplified in their reports, proved the necessity for periodical and systematic inspection of the factories and workshops by competent persons whose time could be devoted to that work. The frequent appeals thus made, backed by a desire on the part of our legislators that Iowa should not be relegated to the rear in the general march for improvement, resulted in the passage, in 1902, of a law providing for such inspection and the enforcements of requirements made, together with means for the support of men assigned to the work. A great step in advance was thus made and the work has progressed by using up-to-date methods, similar to those in vogue in the older manufacturing states, thus establishing the most important feature of the work of the department. All classes of establishments where labor is employed have been visited, a long list of improvements have been made tending toward both safety and comfort, and proof is evident that the money provided was well expended.

Up to the close of 1905 no efficient means of restricting the employment of children had been provided. The existing law required that children under 14 should attend school 16 consecutive weeks in each year, but children of any age could be put to work all the remainder of the year, many children of tender age were found in the factories and stores. To remedy this evil the Thirty-first General Assembly in 1906 enacted a law prohibiting the employment of children under 14 in factories, workshops, stores and some other places specified, at any time, under penalty. The work of enforcement was placed in the hands of the commissioner of the Bureau of Labor Statistics and his assistants. The law has been partly self-enforcing. A number of employers who had been employing children under the age limit dismissed them voluntarily. Only a few employers have shown a disposition to oppose the enforcement of the law, and when proof was given them by inspectors that they were violating it, they dismissed all under the age limit at once, thus giving no immediate cause for prosecution. A better condition prevails in Iowa now than heretofore

and by persistent effort on the part of members of the department conditions will continue to improve and a nearer approach to the ideal condition will be attained.

Summing up, it may be said that considering the limited appropriation and general expense of this department there has been steady advancement made in the progress of the work this bureau is intended to perform, and it is confidently expected that the future will show gratifying progress.

The indeterminate sentence law marks a long step forward in dealing with criminals. The reformatory method had its origin in the statute establishing the New York State Reformatory at Elmira in 1869, and in the establishing of the Auburn and Pennsylvania system. It may properly be called the American system of penology. We are beginning to recognize the three fundamental elements in the states' relation to the criminal; it is the function of the legislature to determine what acts shall be considered criminal; it is the function of the court to ascertain whether a crime has been committed, and to decide whether the offender should be imprisoned; releasing a prisoner is an administrative function, and is in no sense a judicial one. The court in pronouncing sentence deals almost wholly with one illegal act. What he has done may be proved by evidence, but no trial will show what he really is. The state has a greater interest in what our offenders will be in the years to come than in what they have been. Under the indeterminate system, emphasis is placed on character and the final discharge of the individual depends upon it. The definite sentence looks backward and asks only what he did. The reformatory method looks forward, and inquires what he will be and do, and after subjecting him to proper environment leaves him to answer for himself, before his final release. Release under the definite sentence does not mean that the prisoner is fit for liberty but that he has served his term. Release under the indeterminate sentence means that the authorities believe, after having tested him, that he is safe to be at large. The law now provides that petitions for pardons or paroles by prisoners serving life sentences for murder are referred to this board for investigation and recommendations, instead of to the General Assembly.

The office of Dairy Commissioner was established May 1, 1886. On July 4, 1906, the office became that of the Food and Dairy Commissioner. On July 4th, 1907, the Food Law became effective and the work of the Department was also increased by the passage of the commercial Feeding-Stuffs and Pure Seed Law. The Law relating to the sale of paints and linseed oil is also enforced by the Dairy and Food Commissioner.

The Department maintains a well appointed chemical laboratory and analyzes all products, the sale of which is regulated or controlled by the Laws enforced by the Department.

The total annual expenditures amount to approximately \$50,000. The term "food" is defined as including all articles used as food, drink, confectionery or condiment by man or beast. The Inspectors employed by the Dairy and Food Department are given authority to enter all places of business where food products are sold and all wagons used in the transportation of such products and authority is given for taking samples of any goods offered or exposed for sale within the State. The department issues licenses to all users for commercial purposes of the Babcock test. The fee for the license is \$2.50 per year for each operator. Milk inspection is extended to all incorporated cities and towns and a license fee of \$1.00 a year is required of all persons selling milk from stores or vehicles.

STATE PRINTER AND BINDER.

Elected by Legislature. Term, two years; Expires December 31, 1912.

Office	Name	Legal Residence	Birthplace	Compensation
State printer	Emory H. English	Mason City	Iowa	Profits
State binder	Edward D. Chassell	LeMars	New York	Profits

The state printer and the state binder are elected by the general assembly at regular sessions biennially.

THE STATE PRINTER.

The state printer is required to maintain his office at the seat of government and provide a printing plant of sufficient capacity and equipment to print the laws, journals, reports and do all other printing required for the state officers, boards or commissioners having their offices at the capitol, or by or for the general assembly, under a schedule of prices for composition and presswork and provisions for measurement established by the general assembly and set forth in detail in the code and the session laws.

The statutes make specific provision for the various reports to be printed and the number of each, and all printing which is not specifically provided for by statute is authorized and ordered by a system of requisitions, bills for same to be audited and checked by the secretary of state and duly approved before ordered paid.

All paper stock used by the state printer is purchased by the state through the executive council, and the stock is in charge of the secretary of the executive council, who issues same to the state printer upon the requisition of the latter, charging same against him, items of credit being obtained by the state printer to offset the debit charges by measurement and computation of amount of paper stock used by the printer and returned to the state in printed documents, blanks and stationery.

There is no fixed salary for this office, the state printer receiving as his entire compensation the amounts named in the schedules of prices fixed by the statutes for printing actually done and delivered to and accepted by the state. He is required to furnish a bond to be approved by the governor for faithful performance of duty, and is liable also under same for any shortage that might occur in paper stock when an accounting of same is made.

THE STATE-BINDER.

The state binder is required to maintain an office at the state capital equipped with machinery and appliances sufficient to do the state work. He is required to give a bond for the faithful performance of his duty and for state property which comes into his hands. He furnishes his own building, light, heat and power, as well as machinery.

He binds all books and publications printed by the state printer. The printed sheets of laws, journals and other publications, which are to be folded, stitched or bound, are delivered to the state binder by the state printer and a receipt is given therefor. The state binder furnishes all material except paper required in book binding. All leather, cloth, thread, gold leaf, glue, paste, and other materials are purchased and furnished by the state binder without expense to the state.

The state binder receives no salary, but is paid for his work by the piece on a schedule of prices specified by law. His compensation comes from the profit on the work performed and delivered. He is held responsible for loss or damage by fire or other cause to state work which is in his possession.

On the completion of a job of binding, the books or pamphlets are delivered to the document room, the supply department, or to other departments, as the case may be, and he receives a receipt therefor for every article, book or pamphlet delivered.

The style of binding, whether to be sewed or stitched, with paper, board, cloth, or leather covers, or without covers, is all specified by law and the number or copies in each style of binding is named in the statute. Some discretion, however, is allowed the executive council in regard to the number of copies of reports and documents to be printed and bound, as the demand for them may vary from year to year.

The state printer and the state binder submit their bills for work done to the secretary of state. He is required by law to audit the bills, and to certify to the auditor of state the amount which each of said officers is entitled to receive for the work specified. The auditor of state thereupon draws his warrants for the amounts so certified.

The duties of the fish and game warden, as defined by chapter 15 of the code, are as follows:

He shall make biennially a report to the governor of his doings, together with such information for the protection of fish and game as he may think proper. He shall make monthly an itemized statement to the executive council under oath of all moneys expended and for what purpose, and the number and varieties of fish distributed and in what waters; also all prosecutions made under the law. He shall have charge of the re-stocking and distribution of fish to the public waters of the state, and shall impartially and equitably distribute the same. He shall faithfully and impartially enforce obedience to the provisions of the fish and game laws. He may suspend for a specified period specified portions of the fish and game laws and issue permits authorizing the person to whom said permit is issued, to take from certain designated lakes of the state, having an area of not less than two square miles, certain fish designated in said permit in any quantities and for all purposes. He shall not permit seining in said lakes between the first day of December and the fifteenth day of June.

He may grant certificates to proper parties to collect birds, their nests or eggs for scientific purposes. He shall seize and take possession, without warrant, any fish, birds or animals which have been caught, taken or killed, at any time, in a manner or for a purpose or had in possession or under control, or have been shipped contrary to law, and shall sell the same for the purpose of paying any costs, and balance of proceeds, if any, shall be turned into the school fund of the county in which the seizure is made. He shall seize and destroy, without warrant or process, any net, seine, trap, contrivance, material, and substance whatever while in use or had and maintained for the purpose of catching, taking, killing, trapping or deceiving any fish, birds or animals contrary to the provisions of the fish and game laws. He may appoint such number of deputies as he may deem necessary, and their duties are to report all violations of the law, to make arrests where crime is committed in their province, and to aid the warden in the enforcement of the law. The provisions of the law make the state fish and game warden a state marshal, and it is his duty to ferret out offenders and bring them to justice.

By an act of the Thirty-third General Assembly, "no person shall hunt, kill or take any wild animal, bird or game in this state with a gun without first procuring a license." The fee for such license is one dollar a year for each resident of the state and ten dollars a year for each non-resident. The county auditors of the state issue the licenses. All licenses expire on the first of July of each year. Owners of land, their children and tenants are not required to procure a license to hunt on their own premises. Provision is made in the law for the amount of game that a non-resident may take from the state. Penalties are provided for the enforcement of the law. Another law of the Thirty-third General Assembly provides for an annual license under certain restrictions for the use of seines and nets in the Mississippi, Missouri, Big Sioux and Des Moines rivers where they form part of the boundary line of the state.

The department of agriculture for the state of Iowa was created by legislative enactment of the Twenty-eighth General Assembly in the year, 1900. The office of the department is in the northeast wing of the state capitol building. In the rooms formerly occupied by the Iowa state agricultural society (said society ceased to exist when the department of agriculture was created). The department is managed by a board, styled the state board of agriculture, of which the governor, president of the State College of Agriculture and Mechanic Arts, state dairy and food commissioner, and state veterinarian are ex officio members; other members are a president, vice president, secretary, treasurer, and one member from each of the eleven congressional districts of the state. The president, vice president, and district members are chosen at the annual agricultural convention, which is composed of delegates from each of the county and district fairs, county farmers' institutes, state dairy association, horticultural society, improved stock breeders' association, and members of the state board of agriculture. The president and vice president are elected for a term of one year, and the district members for a term of two years. The secretary and treasurer are elected by the board.

It is the duty of the department to look after and promote the interests of agriculture, agricultural education, animal and other industries of the state; to investigate all subjects relating to the improvement of methods, appliances and machinery, and the diversification of crops and other products; also to investigate reports of the prevalence of contagious diseases among domestic animals, and the destruction of insects and fungus grasses, grains and other plants; the adulteration of foods, seeds and other products, and to report the results of such investigation, together with recommendations of remedial measures for the prevention of dangers resulting therefrom. It is made the duty of the agricultural experiment station to co-operate with the department of agriculture in carrying on these investigations.

The passage of the pure food bill by the Thirty-first General Assembly, the bill for the regulation and prevention of frauds in the sale of agricultural seeds, and concentrated commercial feeding stuffs, passed by the Thirty-second General Assembly, the bills offered in the Thirty-third General Assembly for the destruction of noxious weeds, and the bill for the establishment of a live stock sani-

tary board, and the control and suppression of dangerous or infectious diseases of domestic animals, were all the result of careful investigations made by the department.

The department annually compiles and publishes the "Iowa Year Book of Agriculture." This book contains useful information upon various topics relating to agriculture, live stock, a review of the weather and crops for the preceding year, a synopsis of the work and proceedings of the state dairy and food department, state swine breeders' and state dairy associations, and such other matter as will be of interest to the farmer. It is also the duty of the secretary to carry out the provisions of the state law with reference to issuing state certificates to pure bred stallions kept for public service. After January 1, 1912, the secretary will also issue state certificate of jacks kept for public service. It is also the duty of the secretary to prepare and send out the blanks, and receive the reports of the county and district fairs entitled to receive state aid, and the county farmers' institutes.

The Thirty-third General Assembly makes it the duty of the department to prepare and furnish blanks annually to the assessors for the purpose of listing the acreage and yield of farm crops, the number and value of live stock, and poultry and egg production.

By statute the state board of agriculture is made the custodian for the state fair and exposition grounds. It is also made the board of managers for the annual state fair and exposition. The state does not provide any support fund for the maintenance of the state fair, nor pay any of the yearly expenses or premiums of same, the statute providing that all expenditures connected with the holding of the fair must be paid out of the fair receipts. The title to the fair grounds is in the name of the state of Iowa, all deeds and abstracts being on file in the state auditor's office. The total cost of the fair ground property to the state has been approximately \$400,000.00, and is now conservatively estimated worth \$750,000.00 to \$800,000.00. Within the past nine years \$539,000.00 has been expended for permanent improvements and betterments upon the state fair grounds; of this amount \$259,000.00 was paid for by direct appropriation and \$280,000.00 out of fair receipts. During the same period cash prizes paid each year have been increased from \$20,000.00 to \$50,000.00. The exhibits have increased enormously until the live stock and machinery exhibit is second to none on this continent.

The Thirty-fourth General Assembly created the commission of animal health, the members of which are to be appointed by the governor and are to consist of the state veterinary surgeon, who is to be chairman and executive officer thereof, two veterinarians and two stockmen. The terms of one of the veterinarians and one of the stockmen are to expire June 30, 1912, and of the other veterinarian and stockman, June 30, 1913. When the terms of the members of the present board expire their successors are to be appointed for three years.

The commission is to hold at least two meetings a year and it has power and authority to make such rules and regulations as may be necessary for the prevention, suppression and quarantine of diseases among animals in the state and

those being driven or transported through or into Iowa. Such rules and regulations are to be effective when approved by the executive council.

The state veterinary surgeon and the two veterinarians on the board constitute a board for the examination of applicants to practice veterinary medicine, surgery and dentistry. The board of veterinary medical examiners which has heretofore conducted these examinations is abolished after July 4, 1911, and their records, books, and property are to be turned over to the state veterinary surgeon.

The members of the Animal Health Commission, other than the state veterinary surgeon, are to receive \$100 a year for their services and in addition thereto the veterinaries, other than the state veterinary surgeon, are to receive \$100 for their services as members of the examining board.

The accession list of the state library on the first day of July, 1910, included 112,165 volumes. The total accessions of the biennial period ending June 30, 1910, were 9,848 volumes.

The librarian notes with satisfaction the steadily growing utilization of the State Library by advanced students of literature, philosophy, science and social problems, by debaters in the high schools and colleges of the state; also by state legislators and those interested in state legislation. This satisfaction is enhanced by the steadily increasing ability of the library to satisfy the wants of those who visit it with serious purpose. In fact the mission of the general library as a reference library—a final resort for information in science, the mechanic arts, the fine arts, biography, general history, literature and philosophy, is finding generous recognition with students, scholars, educators, legis-

lators, clubs devoted to research work and the school, college and public libraries of the state. Without extra appropriation and with a single additional assistant, a Legislative Reference Bureau has been developed during the past few years, and the use made of the new bureau by legislators, legislative committee clerks and persons interested in legislation, has steadily increased to such an extent that legislative reference work must be extended and its efficiency increased in anticipation of the increasing demands certain to be made upon its resources. The Thirty-fourth General Assembly added greatly to the future efficiency of the state library, and contributed largely to the relief of the Library Board, by increasing the appropriation of the several departments as follows: The General Library, from \$5,000 to \$6,000; the Historical Department, from \$5,000 to \$6,000, and the Law Department and Legislative Reference Bureau, from \$4,000 to \$6,000. The inclusion of the Legislative Reference Bureau is the first legislative recognition of that increasingly efficient area of the service beyond the appointment of an assistant for legislative reference work. The good work done without an appropriation, through aid rendered by the law and general libraries, gives much promise for the immediate future now that means are provided for its maintenance.

The Law Department of the state library has been materially strengthened by recent purchases bringing down to date several high-priced sets, and in other ways adding materially to the efficiency of that important department.

The completion of the valuable sets of standard periodicals, legal, scientific and miscellaneous, is one of the gratifying results of recent years, making the periodical feature of the library one of the strongest in the country.

As now organized this department dates from the first day of July, 1892. Its chief purpose is the collection of historical data relating to our own state and the territory of the middle west of which it originally formed a part. Special efforts are made to collect Iowa newspapers from the earliest dates to the present time; works of state and general western history, biography and genealogy; works on the histories of all our wars from the earliest times; works relating to the North American Indians; county histories, maps, Iowa pamphlets, biographies of our noted men and women, printed or in manuscript;

written or printed documents relating to early settlers and settlements; reports, catalogues and broadsides relating to the churches, educational and benevolent institutions of the state; in short, every species of data which can throw light upon local, state or western history. Two hundred ninety-two Iowa newspapers are currently received, and thirty-two from other states, making a total of three hundred twenty-four. The library is especially strong in genealogy, local history and the history of the civil war.

The department publishes *The Annals of Iowa*, an illustrated quarterly historical magazine of eighty pages, which has now completed its ninth volume. This is made up of original contributions in history and biography. By direction of the trustees it is sent free to every organized library in our state. Its price to subscribers is \$1 per year.

In addition to *The Annals*, the historical department is to be credited with the following publications, viz., ten biennial reports: "John Brown Among the Quakers and Other Sketches," by Hon. Irving B. Richman; "First Census of the Original Counties of Dubuque and Des Moines," edited by Dr. Benj. F. Shambaugh; "History of the Constitution of Iowa," by Dr. Shambaugh; reprints of the laws of Iowa, 1838-39 and of 1839-40, and the hitherto unpublished journals of the council and house of representatives of the extra session of 1840; "Early Settlement and Growth of Western Iowa," by Rev. John Todd.

The department has secured one hundred and twenty fine oil portraits of distinguished Iowans, which are now on exhibition in the art gallery of the historical building, and has thousands of photographs and other black and white portraits and exhibits. More are promised in the near future.

The library of the historical department on January 1, 1911, consisted of the following:

Bound volumes of newspapers.....	6,162
Books and pamphlets in the library.....	17,848

The museum includes seven large cases for autograph letters, manuscripts and portraits; a collection of recent, aboriginal and prehistoric pottery—some of the most interesting specimens of which were found in our own state; a large collection of stone implements, among which is an Iowa axe weighing 31¼ pounds—one of the largest ever discovered—with hundreds of flints; many teeth, tusks, and other bones of the mammoth and mastodon, all of which were found in Iowa; two large cases of birds—mostly specimens found within our state; many Iowa mammals; four large aquariums stocked with a collection of Iowa fishes; a case of Indian baskets, bead work, implements and weapons, the most of which were manufactured by the Musquakie Indians of Tama county; a collection of arms—cannon, mortars, swivel guns, rifles, muskets, carbines, swords and pistols, in use during the Civil, Spanish and Philippine wars; and duplicates in bronze of most of the historic medals issued by the United States government.

Besides the historical department and hall of archives, the state library and the Iowa library commission are accommodated in the magnificent historical building which is now completed.

STATE MINE INSPECTORS.

Appointed by the Governor. Term three years. Expires July 1, 1914.

Office	District	Name	Legal Residence	Birthplace	Compensation
Inspector	First	John E. Jeffreys	Albia	Ohio	\$ 1,800
Inspector	Second	Rhys T. Rhys	Ottumwa	So. Wales	1,800
Inspector	Third	Edward Sweeney	Des Moines	England	1,800
Secretary		Edwin J. Linde	Des Moines	Iowa	1,000

The office of state mine inspector was created by the eighteenth general assembly in the year 1880. At that time the mining of coal in this state was in its infancy. But few large mines were in operation and the tonnage of coal was small as compared to that of the present time. Then but one inspector was needed. Owing to the growth of the coal industry the twenty-first general assembly amended the mining laws and provided for three inspectors, and gave the governor power to divide the state into three inspection districts. Today the entire time of the three inspectors is taken up with the work of inspecting the mines of the state and seeing that they are worked in conformity with the mining laws of the state as regards safety to the employes therein, proper ventilation, condition of the shafts, escape ways in times of danger, safety catches on cages, condition of the cables for hoisting men and coal, and everything that would tend to guard against accidents to men employed in the mines.

A general office for the inspectors is maintained in the state house and a complete record is kept therein of all inspections, accidents, etc., in record books for that purpose. A monthly report is made to the governor and a general report of the conditions of the mines of the state, tonnage, accidents, number of employes, and other information relative to the coal industry, is published every two years. Copies of the state mining laws are also published and circulated. A secretary, elected by the inspectors, has charge of the general correspondence and books in the office, as the duties of the three inspectors keep them almost constantly in the field.

In 1900 Iowa produced 5,117,285 tons of coal and employed 13,041 men, and in 1910 the coal production amounted to 7,222,480 tons, and 18,005 men were employed.

The coal producing counties of the state are divided into three inspection districts. The first district includes the counties of Appanoose, Lucas, Taylor, Monroe (part), Wayne and Page. Mr. John E. Jeffreys, of Albia, is the inspector in this district. This district had last year 131 mines in operation and for the biennial period ending June 30, 1910, produced 5,153,836 tons of coal.

The second district comprises the counties of Mahaska, Marion, Monroe (part), Jasper, Keokuk, Van Buren, Davis, Jefferson, Wapello and Warren. Mr. Rhys T. Rhys, of Ottumwa, is inspector in this district. For the two years ending June 30, 1910, this district produced 4,233,050 tons of coal. The district has over one hundred mines in operation.

The third district comprises the counties of Polk, Webster, Boone, Greene, Guthrie, Scott and Dallas. Mr. Edward Sweeney, of Des Moines, is the inspector in this district. For the two years ending June 30, 1910, this district produced 5,181,847 tons of coal. There are 76 mines in operation in this district.

The secretary receives \$2,400 per annum, the chief clerk, \$1,020 per annum; the director of the bacteriological laboratory, \$1,200 per annum, in addition to salary as professor in State University; assistant bacteriologist, \$1,400 per annum; chemist, fees; state engineer, fees.

THE FUNCTIONS OF THE STATE BOARD OF HEALTH.

Few have any conception of the varied functions of the state board of health. Chapter 16 of the code gives the board a general supervision of the lives and health of the people of the state and authorizes it to make rules and regulations respecting the public health and declares that such rules and regulations when made shall have the force of legislative enactments.

Under this general provision the board through local boards establishes, maintains and releases quarantine; requires the disinfection of persons and premises exposed to contagion.

The board also supervises the examination and registration of licensed embalmers. Over thirteen hundred undertakers have been thus examined and granted embalmers' permits. The result has been that the science and skill as well as the technique of the funeral director has been greatly improved and the public health has been better protected thereby. In connection with this work the board has adopted rules and regulations for the transportation of the dead so that bodies, dead of infectious diseases, may be so prepared as to be shipped without interference or danger to any point in the United States, Canada, Mexico, or Cuba. The rules for the shipment of corpses are the same in the countries just mentioned—the benefits of which can hardly be appreciated unless one is unfortunate enough to require such services.

Under the provisions of Chapter 139, Acts of the Thirty-second General Assembly, the board supervises the examination and licenses those who desire to practice nursing as registered nurses.

Under Chapter 87, Acts of the Thirtieth General Assembly, the board is required to make rules and regulations for the inspection of petroleum products; to determine the number of oil inspectors that shall be appointed, to examine lamps and apparatus to be used for burning gasoline for illuminating purposes and to determine their safety; and to make rules and regulations for testing miner's oil and linseed oil.

Chapter 129, Laws of the Twenty-eighth General Assembly, makes it the duty of this board to dispose of unclaimed bodies by directing to what medical college of the state such bodies shall be sent for anatomical purposes. It provides a penalty for any "coroner, undertaker, superintendent or managing officer of any public asylum, hospital, poorhouse or penitentiary within this state into whose hands the body of a deceased person shall come, which should be delivered to a medical college or school" to refuse or fail to notify the secretary of the state board of health as to its disposition. The object of this law was not only to supply medical colleges of the state with much needed and required material in a legal way, but also to relieve counties of the expense of burial.

Chapter 14, title 12, makes it the duty of this board with the executive council, to review and approve such rules and regulations of the state veterinary surgeon as may be deemed "necessary for the prevention and suppression, and against the spread of all contagious and infectious diseases among domestic animals in the state."

In addition to the above specified duties the board supervises the disinterment, burial and transportation of all dead bodies within the state and keeps a record of such disinterments and burials.

The board also has, under the provisions of chapter 101, laws of the Thirtieth General Assembly, a thoroughly equipped and up-to-date bacteriological laboratory at Iowa City in connection with the State University where upon short notice tests are made to determine the presence of tuberculosis, typhoid fever, diphtheria, rabies, etc., and where the best methods of disinfection are determined.

In addition to these functions, now required of the board and those in contemplation, the board prints and distributes a large amount of literature—circulars, blanks, etc. It publishes a quarterly Health Bulletin as an official organ. The edition thereof is 14,000 copies. It is an agent by which the board can gain access to every state, county and township officer and to all physicians, embalmers, nurses and superintendents and principals in our public schools as well as to every mayor and city clerk. The publication not only gives the official transactions of the board, but furnishes a large amount of information relative to the causes of diseases, the means of prevention and other matters pertaining to sanitation and hygiene.

Under chapter 17, of the code and chapter 153, Acts Twenty-ninth General Assembly, the physicians of the board of health and its secretary are constituted the members and secretary of the board of medical examiners and as such, determine the standing of medical colleges, examine their graduates, and license those who pass satisfactory examinations as physicians and osteopaths,

with authority to refuse to issue certificates and to revoke those issued under certain specified conditions and the board also issues certificates on reciprocity with other states and is authorized to grant itinerant licenses.

STATE BOARD OF HEALTH LABORATORY.

The Thirty-second General Assembly, in providing for the state hygienic laboratory, made an appropriation of six thousand dollars (\$6,000) annually, or so much thereof as may be necessary for the salary of the director, assistants and the running expenses of the laboratory.

At the first meeting of the State Board of Health following the passage of Chapter 101, Acts of the Thirtieth General Assembly, it was decided at that time, on account of limited funds, a great deal of work which the laboratory should do in the interests of the public health must be postponed, and that the work of the laboratory must be limited to the routine diagnostic work in connection with diphtheria, typhoid fever, tuberculosis and rables. Because of the action of the Thirty-second General Assembly, in appropriating six thousand dollars (\$6,000) annually, the laboratory is able to do more and better work than formerly. The bacteriological and chemical analyses of public water supplies are problems of great importance and the State Board of Health feels that these should receive more attention in the future than in the past, hence it would recommend that the state bacteriologist and chemist be consulted freely when the public health is eminently concerned as in epidemics of typhoid fever. On such occasions the director of the laboratory shall make a personal investigation of the epidemic and have such bacteriological and chemical analyses of water and other substances made as are necessary to the finding and the removal of the causes of such epidemics. The rapid diagnosis of a certain infectious disease like diphtheria, being of such great importance in order that proper treatment may be begun as soon as possible, the board has devised a method (which places the diagnosis outfits for the collection of material, in the hands of every physician) by establishing one or more culture stations in every city and town in the state where the diagnosis outfits are kept constantly on hand and given free of charge to all physicians.

STATE BOARD OF MEDICAL EXAMINERS.

President, GEORGE E. DECKER, M. D., Davenport.

Secretary and Treasurer, GUILFORD H. SUMNER, M. D., Des Moines.

Members. The physicians of the state board of health.

The secretary receives an annual salary of \$300.

Correspondence relating to practice of medicine or osteopathy should be sent to the secretary of this board.

Every person practicing medicine or osteopathy in the state is required to secure a certificate from this board.

Every physician or osteopath itinerating within the state is required to procure a special license.

The board is authorized to issue two classes of certificates:

First, to *physicians*, under sections 2576 and 2582 of the code, and *second* to *osteopaths*, under chapter 158, laws Twenty-ninth General Assembly.

There is no provision in the law for issuing permits to practice midwifery.

DEPARTMENT OF VITAL STATISTICS.

Chapter 100, Acts of Thirty-first General Assembly.

State Registrar of Vital Statistics, GUILFORD H. SUMNER, M. D., Des Moines.

Assistant, ISABEL SUMNER, Des Moines.

Undertakers and coroners are required on the 5th day of each month to return to the state registrar certificates of deaths that have come under their professional or official notice for the month preceding. Clerks of district court report, on forms prescribed by the registrar, all marriages and divorces recorded in their respective offices, and the city, town and township assessors

collect the record of all births which they file with the clerk of the district court and he reports the same to the registrar. All these reports are for the fiscal year ending June 30th. The registrar furnishes to the clerks of the district court transcripts of all deaths reported to him.

HOTEL INSPECTOR.

The civil engineer member of the state board of health is made inspector of hotels by an act of the Thirty-third General Assembly, effective July 4, 1909. He has power, with the consent of the board of health, to appoint deputies. His salary is fixed at \$1,500.00 a year and it is made his duty to inspect every hotel once each year, or oftener on complaint of three or more patrons, and to require that the law relative to proper construction, fire escapes and cleanliness is enforced. Each hotel inspected is required to pay a fee to the inspector, which is to be turned into the state treasury. The office of the inspector is to be at the offices of the state board of health in the capitol building.

STATE BOARD OF OPTOMETRY EXAMINERS.

Created by Chapter 167, Acts of the Thirty-third General Assembly (1909)—The board consists of three optometrists appointed by the Governor from a list of registered optometrists recommended by the Iowa State Association of Optometrists and one physician member of the State Board of Health appointed by the Governor. The Secretary of the State Board of Health acts as Secretary of this Board.

GEORGE S. DUNLAP, Optometrist, *President*.....Sioux City
 MACK A. HURLBUT, OptometristFort Dodge
 GEORGE J. FEIGE, Optometrist.....Des Moines
 THOMAS U. MCMANUS, M. D.....Waterloo

The term of all the members of the board is for one year and present terms expire June 30, 1911. The members of the board receive five dollars a day for time actually employed. They also receive necessary traveling expenses. The fee for examination is fifteen dollars. Provision is made for the board upon the payment of a fee of ten dollars, to license without examination those who have practiced optometry continuously in the state for more than five years, provided application was made within six months prior to the passage of this act. Applicants are required to possess certain qualifications before they are admitted to examination. The board meets in the offices of the State Board of Health in the Capitol Building. The act creating the board does not apply to merchants or dealers who sell glasses as merchandise and who do not profess to be optometrists.

The law which provides for the organization of the Iowa Geological Survey outlined its work to be that of making "a complete survey of the natural resources of the state in their economic and scientific aspects, including the determination of the characteristics of the various formations and the investigation of the different ores, coals, clays, building stones and other useful materials."

The present Geological Survey was organized in 1892 and ever since that time has been engaged in two lines of research. The first of these is the detailed study of the geology of the state by counties. In this work all the natural features of interest and value are studied and described, such as the general character of the surface, its soils, water resources, deposits of valuable minerals and other like topics. At present the work has been carried on in ninety-one counties of the state, including an area of 51,587 square miles. As fast as a sufficient number of counties are studied the reports on them are gathered together and published as one of the annual reports of the Survey, together with maps of the counties included, showing roads, streams, towns and the various geological formations.

The second line of work has been the carrying on of special investigation of the various mineral resources of the state. Immediately upon the organization of the Survey the coal deposits were made the object of study and what was known of their structure, character and the modes of their exploitation was published as volume II of the Survey reports. More recently a fuller account, made possible by the greater development of the coal fields, together with papers on related subjects, has been issued in volume XIX. In the same volume are given the results of an extensive study of the peat deposits of northern Iowa. The gypsum beds of Fort Dodge also received early attention as did the lead and zinc deposits of northeastern Iowa and the deep waters of the state. The preliminary report on gypsum is given in volume III and a more comprehensive report is found in volume XII, in connection with the report on the geology of Webster county. A report on lead and zinc appeared in volume VI and the result of a later and more detailed study of the Dubuque county deposits was incorporated in the report on the geology of that county, as found in volume X.

What was learned of the deep wells of the state in the early studies was issued in volume VI, and the subject has been studied continuously ever since. A report embodying all known data will be published in the near future. The clays of the state received attention and are described in volume XIV, the quarry products in volume XVII, and at present studies of the limestone, sand and gravel deposits of the state, with special reference to their value for road building and concrete purposes, are being carried on. A subject which will be of increasing importance as Iowa becomes more of an industrial center is that of water power. This is being made the object of close study and it is hoped to issue a report shortly. A large amount of work remains yet to be done before our knowledge of the geology of the state is complete as much of the earlier study was of necessity largely reconnaissance work and needs to be

supplemented by the results of later work done under more favorable conditions. Reports on the geology and physical geography of the entire state are now in process of preparation.

For several years past the state Survey has co-operated with the National Survey in the making of topographic maps of the Des Moines valley. These maps show the character of the surface, the elevations above sea-level as well as cultural features. They are of especial value in coal prospecting, engineering and drainage projects. Parts of Dallas, Polk, Warren, Marion and Mahaska counties have been covered and preliminary work begun on portions of Story and Boone counties. These maps are issued by the federal government and may be purchased at a cost of five cents each. They are bounded not by county lines but by meridians of longitude and parallels of latitude and each map covers about 230 square miles.

The Iowa library commission was created by an act of the Twenty-eighth General Assembly in March, 1900. The growing interest in library matters and the many gifts for the erection of library buildings have made the demands on the commission heavy and constant.

The secretary is designated by the commission as the Director of Library Extension and her activities cover a wide range of interests, among which are the following: Assisting any community desiring aid in planning for the submission of a library tax to a popular vote; aiding boards of trustees and librarians in organizing libraries; for a business-like administration; assisting in the selection, classifying and cataloging of books; addressing women's clubs, teachers' meetings, public meetings, etc.; conferring with library trustees and city councils in the consideration of plans for new library buildings, with special reference to best working interior arrangement, etc. By correspondence also much information is given to librarians and library boards as to details of library economy, the selection and classification of books, etc.

The principal activities of the commission are as follows: (1) The traveling library 20,000 volumes, which consists of (a) miscellaneous collections of

The law establishing a Highway Commission for the State of Iowa and defining the duties of the same was passed by the 30th General Assembly and approved April, 1904. In this act, the Iowa State College was constituted State Highway Commission. The duties of the Commission were defined as follows:

Since July, 1904, the Commission has been actively engaged in carrying out the provisions of the law as outlined above. During the succeeding years, the Commission has been represented at over four hundred different meetings called for the purpose of promoting road and bridge construction in the state. It has designed plans and prepared specifications for over fifty structures, not including the standard plans which have been sent out to the various counties from time to time.

A large amount of general and detailed information has been collected in various ways. In the 1905 census a supplementary card called the Agriculture Road Schedule was added, and in this way, complete detail figures secured of the amount of traffic over the country roads from each farm. A number of tests of both stone and gravel for road material have been made in the road materials laboratory from time to time and tests of Iowa gravels, sands, and stone more comprehensive and wider in scope than any which have been made heretofore are now being conducted in this laboratory under the joint direction of the Engineering Experiment Station, the State Geological Survey, and this Commission. From time to time, in various parts of the state, there have been constructed stretches of experimental and model roads under the plans and supervision of the Highway Commission.

STATE OIL INSPECTORS.

Appointed by the Governor. Term two years. Terms expire June, 1911. Compensation Chief Inspector, fees not to exceed \$150 per month; other Inspectors, fees not to exceed \$100 per month.

MELVIN H. BYERS, Des Moines, Chief Inspector.

JOHN P. RISLEY, Davenport.	JOHN L. RICHARDSON, Denison.
REDDING, M. GARRISON, Cedar Rapids	CZAR W. KENT, Sioux City.
WILLIAM B. COWAN, Waukon.	THEODORE GUITTAR, Council Bluffs.
SOLOMON B. HUMBERT, Cedar Falls.	JOHN W. HALL, Osceola.
HENRY V. SPEERS, Marshalltown.	JOHN P. EARLY, Albia.
THOMAS DUFF, Garner.	

The state is divided into fourteen inspection districts which may be changed as the exigencies of the service may require.

An inspector is appointed for each inspection district, one of which is designated as chief inspector, who exercises supervision over the entire inspection service of the state, except in the matter of monthly reports and payment of fees, which are forwarded direct to the secretary of state.

Inspectors are furnished by the state with suitable apparatus for making inspection of all illuminating oils sold within the state, which includes miners' oil and oils used for illuminating boats, railway cars and street cars. A sample is taken by the inspector from each tank or barrel and subjected to a test. For petroleum oil (kerosene) the Elliott cup, closed test, is used. If the vapor arising from the heating process ignites at a temperature of 100 degrees or less, the entire lot from which the sample is taken is rejected and cannot be sold or used for illuminating purposes within the state. If the "flash" does not take place until after 100 degrees is reached it is approved. Miners' oil is subjected to a gravity test of 22 degrees, Taglibue hydrometer, at a temperature of sixty degrees Fahrenheit. Oils used for illuminating boats, street or railway cars are tested to an igniting or burning point of 300 degrees Fahrenheit.

On or before the 15th day of each month, each inspector is required to make a report to the secretary of state of all inspections made during the previous month, showing each inspection made, for whom and where made,

kind of oil, number of tank, degree of test, whether rejected or approved, amount of fees collected, total of oil or gasoline inspected during the month, and an itemized report of all expenses incurred, amount of fees due inspectors, deputies and branders, all of which must be verified under oath and mailed, together with all fees collected, to the secretary of state, who is required to approve same before inspector's fees and expenses can be allowed by the executive council and a warrant ordered drawn by the auditor of state in payment therefor. Deputies and branders may be appointed by inspectors when necessary, but must be approved by the executive council. No person interested in the manufacture or sale, either directly or indirectly, in petroleum products can serve as inspector, or act as surety on his official bond, which is fixed by statute at \$5,000.00. Inspectors may be removed for neglect or failure in the performance of their official duties.

All persons for whom inspections are made must report directly to the secretary of state all inspections made for them for each month.

This is compared with the inspector's report for the same month, and if any discrepancies are found, corrections are required until a complete check is secured.

Rules and regulations for making inspections are formulated and adopted by the state board of health and become effective and a part of the law when approved by the governor.

The superintendent must give bond in the sum of \$5,000. He has charge of the standards adopted by the state and must keep them in a building furnished by the state, from which they shall in no case be removed. The code provides further that "he shall provide the several counties with such standards, balances and other means of adjustment, as may be ordered by them, and as often as once in ten years compare the same with those in his possession and have general supervision of the weights and measures of the state. He shall procure, and keep for the state a complete set of copies of the original standards of weights and measures, which shall be used for adjusting the county standards, and in no case shall the original standards be used for any other purpose than the adjustment of this set of copies. He shall also procure such apparatus and fixtures as are necessary in the comparison and adjustment of county and town standards. He shall cause to be impressed upon all standards of weights and measures furnished by him the word "Iowa," and such other devices as he shall direct for the particular county, city or town, and the county sealers shall see that, in addition to the above device, there is impressed on the town and city standards such other devices as the board of supervisors shall direct for them."

The law provides that "any inspector, on the request of owner, agent or master of any boat other than a row boat, upon the inland waters of the state having a carrying capacity of five or more passengers, shall carefully and thoroughly inspect such boat, its appliances and machinery, and, if found in proper condition and safe for the carriage of persons or passengers, give his certificate thereof including therein the number of persons or passengers that may be carried, and on what waters; which certificate, or a copy thereof, shall be posted in a conspicuous place on the boat, and any boat so inspected and certified shall be entitled to run for the season following the date thereof. In like manner, upon the request of any pilot or engineer for a license as such, the inspector shall forthwith investigate the competency of the applicant, his acquaintance with and experience in his business, his habits as to sobriety, and other qualifications, and, if found capable of performing well his duties, and of good habits, he shall issue his certificate authorizing him to act as pilot or engineer, as the case may be, for five years from the date thereof, unless sooner revoked for cause, which revocation when made shall take effect upon the approval of the governor. The inspector may charge and require advance payment for inspection, for each sailboat, one dollar, each boat propelled by other power with a capacity of not more than twenty persons, five dollars; those of greater capacity, ten dollars, and for each applicant for license as pilot or engineer, three dollars."

The penalty for hiring or offering to hire such boat for the carriage of passengers, without first securing the certificate above mentioned, or for permitting or receiving for carriage a greater number of persons than authorized in the said certificate, is a fine of not to exceed one thousand dollars or imprisonment in the county jail not to exceed one year, or both fine and imprisonment. The same penalty applies to anybody acting as a pilot or engineer without first having obtained a license, or having obtained such license, continuing to follow such avocation after his certificate has been revoked.

BOARD OF VOTING MACHINE COMMISSIONERS.

Appointed by the Governor. Term five years. Compensation not to exceed \$1,500.

J. B. CLASSEN, *President*, Green Mountain.
 FRANK A. MATHIS, *Treasurer*, Des Moines.
 GEORGE A. NICHOLS, *Secretary*, Estherville.

The voting machine commission was created by an act of the Twenty-eighth General Assembly, providing for the use of voting machines at all state, county, city, town, and township elections. By this act the governor was authorized to appoint three commissioners, not more than two of whom should be from the same political party. The commissioners are appointed for the term of five years, subject to removal at the pleasure of the governor.

Individuals or corporations owning or interested in any voting machine may call upon the commissioners to examine the said voting machine. After such examination the commissioners are to report the results to the secretary of state, giving the capacity of such machine to register the vote of the people, its accuracy and efficiency, and its mechanical perfections or imperfections. This report is to be filed in the office of the secretary of state, and it must state the opinion of the commissioners, whether the kind of machine so examined can be safely used by the voters. Should the report state that the machine can be so used, it shall be deemed approved by the commissioners, and machines of its kind may be adopted and used at the various elections held in the state. For making such examination and report, each commis-

sioner is to receive the sum of \$150 for his compensation and expenses, but no commissioner is to receive an amount in excess of \$1,500 and reasonable expenses in any one year. The fees for examination are to be paid by the individual or corporation owning or interested in the voting machine examined.

Ten voting machines made by as many different companies have been examined and approved by the commission. These are: The John Blocty, examined at Chicago, Ill., July 31, 1900; the Climax, examined at Cedar Rapids, September 15, 1900; the National, examined at Sioux City, December 22, 1903; the Universal, examined at Bloomington, Ill., December 26, 1903; the U. S. Standard, examined at Des Moines, May 31, 1904; the Iowa, examined at Cedar Rapids, July 11, 1905; the Abbott, made by the Abbott V. M. Co., Hudson, Mich., the Universal was re-examined at Moline, Ill., October 29, 1906, and the Glenn Voting Machine, examined at Cedar Rapids, November 5, 1906. The Glenn V. Machine at Cedar Rapids, January 6, 1910 for improvements and attachment for use at primaries. The Empire Voting Machine submitted by Empire Voting Machine Co., Jamestown, N. Y., at Chicago, Ill., May 24, 1910, and a re-examination of same at Des Moines, Ia., October 31, 1910. Each of these machines was found to comply with the provisions of the law, above mentioned, and was so reported by the commission to the secretary of state.

The commission in making examinations has not taken into account the manner in which results, required by law, are accomplished by the various machines, the examination having been conducted only along the line of determining whether the machines would or would not comply with the law. The matter of expensiveness of construction is not investigated, this being a matter to be determined between the companies manufacturing the machines and the purchasers, the boards of supervisors and city councils. The machines so far examined vary greatly in construction, some being quite complicated and intricate, and yet each has been shown to perform perfectly the requirements of the law in every respect.

Composition—Three members of the board are members by reason of their official position, and two, one of whom shall be a woman, are appointed by the governor for a term of four years.

Meetings—The board meets for the transaction of business at such times and places as the president directs. Applications of colleges for accreditation are considered once a year at a meeting held in June.

Examinations—All examinations for licenses to teach are under the supervision of the educational board of examiners. There are two classes of examinations, those for uniform county certificates and those for state certificates and diplomas.

For uniform county certificates four regular examinations are held each year on the last Friday and the Wednesday and Thursday preceding in the months of January, June, July and October. Special examinations for provisional certificates are appointed by the president of the board upon the request of the county superintendent of any county in which there is a scarcity of teachers. Uniform county certificate examinations are conducted by the county superintendents.

For state certificates and state diplomas the board holds annually three regular examinations at Des Moines, one at the close of the college year in June, one at the close of the summer session, one while the state teachers' association is in session. Examination for state certificates may be written under the county superintendent at any regular uniform county certificate examination if the county superintendent calls for questions twenty days before.

Licenses—All licenses to teach are issued by the educational board of examiners. There are two general classes of licenses, uniform county and state.

Uniform county licenses consist of first grade and special certificates issued for three years and subject to renewal, second grade issued for two years subject to renewal and third grade certificates issued for one year subject to one renewal, provisional certificates issued for six months, not renewable, but subject to extension by the county superintendent to the first day of the July following the date of issue.

State licenses consist of state certificates, general and special, all of which are issued for five years and subject to renewal and state diplomas valid for life of holder.

All state certificates, first and second grade uniform county certificates are renewed for life upon proofs of at least five years successful teaching, three of which shall have been during the time said certificate (with renewals) has been in force.

Fees—The examination fee for uniform county certificates is \$1; for state certificates general and special, \$2; for life validation of uniform county and state certificates, \$5; for state diplomas, \$5.

Registration—To be valid in any county a certificate must be registered in the office of the county superintendent.

Accredited Schools—The educational board of examiners makes regulations for the granting of certificates to graduates of the regular and collegiate courses of the State University of Iowa, the State Teachers College, and the State College of Agriculture and Mechanic Arts, and determines what other colleges and normal schools of the state are entitled to like recognition.

Library List—The board is required to prepare and publish a list of books suitable for rural school libraries, from which list the library committee of all rural schools must make selection when purchasing books for their libraries.

The real work of the association began with its second session which convened at Iowa City, December 27 and 28 of the same year. After a very important meeting this session adjourned to meet at Davenport, September 4, 1855. When the time came for this meeting, so few were present it was abandoned.

An educational convention was called to meet at Iowa City June 16 to 18, 1856. At this meeting a permanent organization was effected and the constitution of the association of 1854, somewhat modified, was adopted. Since that time a session has been held each year.

At the session in December, 1905, the semi-centennial anniversary of the association was celebrated by a special campfire program, which was participated in, either in person or by letter, by many of the veterans in education in Iowa.

SUPREME COURT OF IOWA.

ORGANIZATION.

The supreme court consists of six judges, four of whom constitute a quorum for the transaction of business, but one alone may adjourn from day to day, or to a particular day, or until the next term.

The judge whose term first expires is the chief justice, and so on in rotation, except when the term of two of the justices expire at the same time the senior in age serves first as chief justice.

JURISDICTION.

The supreme court has appellate jurisdiction only in cases in chancery and constitutes a court for the correction of errors at law. It has appellate jurisdiction over all judgments and decisions of all courts of record, except as otherwise provided by law.

*Mr. Justice McClain will serve as chief justice during the year 1912.

An appeal may also be taken to the supreme court from:

1. An order made affecting a substantial right in an action, when such order, in effect, determines the action and prevents a judgment from which an appeal might be taken;

2. A final order made in special actions affecting a substantial right therein, or made on a summary application in an action after judgment;

3. An order which grants or refuses, continues or modifies a provisional remedy; grants or refuses, dissolves or refuses to dissolve an injunction or attachment; or grants or refuses a new trial; or sustains or overrules a demurrer;

4. An intermediate order involving the merits or materially affecting the final decision;

5. An order or judgment on habeas corpus.

If any of the above orders or judgments are made or rendered by a judge, the same are reviewable, the same as if made by a court.

The supreme court has power to issue all writs and processes necessary to secure justice to parties, and to enforce its appellate jurisdiction, and it may exercise supervisory control over all inferior judicial tribunals.

It may enforce its mandates upon inferior courts and officers by fine and imprisonment, which imprisonment may continue until its mandates are obeyed.

TERMS.

There are three regular terms in each year, held as follows, to-wit: The first term beginning with the second Tuesday in January and ending with the first Monday of May; the second beginning with the first Tuesday after the first Monday of May and ending with the third Monday of September, and the third beginning with the first Tuesday after the third Monday of September and ending with the third Saturday of December.

The time allotted to each term is divided as nearly as practicable into periods of four weeks each, the first part of each period is devoted to the argument and submission of cases, and the second to consultation and the preparation of opinions. Cases assigned for each period are called in their order as shown on the term docket but no more submissions are taken for one period than in the judgment of the court can be properly considered and determined before the next succeeding session. All causes on the docket are heard at each term unless continued or otherwise disposed of by order of court.

The regular public sessions of the court are held in the supreme court room at the capitol, commencing at 9 o'clock A. M., standard time. On Tuesday and Friday of the first and second week of each four weeks' period submission of motions are taken before calling the calendar. Motions noticed for a day when the court is not sitting are taken on the next motion day on which the court sits.

Judgments of affirmance, rulings and orders in causes submitted and orders authorized by law may be made and entered by the court at any time regardless of the term of court.

APPEALS IN CIVIL CASES.

Appeals from the superior and district courts may be taken to the supreme court at any time within six months from the rendition of the judgment or order appealed from, and not afterwards. No appeal shall be taken in any cause in which the amount in controversy between the parties, as shown by the pleadings does not exceed one hundred dollars, unless the trial judge shall, during the term in which judgment is entered, certify that the cause is one in which the appeal should be allowed, and upon such certificate being filed the same shall be appealable regardless of the amount in controversy, but this limitation shall not affect the right of appeal in any action in which an interest in real estate is involved, nor shall the right of appeal be affected by the remission of any part of the verdict or judgment returned or rendered.

APPEALS IN CRIMINAL CASES.

Appeals from the final judgment of the district court may be taken in all criminal cases within six months after the judgment is rendered; and either the defendant or the state may appeal. Upon appeal the supreme court may affirm, reverse or modify the judgment or render such judgment as the district court should have done. It may order a new trial or reduce the punishment, but cannot increase it. If the state appeals, the court cannot reverse or modify the judgment so as to increase the punishment, but may affirm it and shall point out any error in the proceedings and its decision shall be obligatory as law.

SALARY.

The salary of each justice is six thousand dollars (\$6,000) a year. Each general assembly also appropriates sufficient funds for the payment of stenographers, bailiff and such other incidental expenses as may be incurred by the court.

THE DISTRICT COURTS OF IOWA.

There are at the present time fifty-six judges of the district court of the state of Iowa. The state is divided into twenty judicial districts and each district is entitled to from one to five judges, the number being fixed by statute. The judges are elected for terms of four years and receive an annual salary of \$3,500. Each judge appoints a short hand reporter, who receives \$8 per day for each day's attendance upon said court, and in case the per diem does not equal \$1,600, then the county or counties composing the district make up the deficiency in proportion to the number of days of court held in such county or counties.

The terms of all district judges commenced January 1, 1911, and will expire December 31, 1914, except Jefferson F. Clyde of the twelfth; Arthur D. Bailie, of the fourteenth; Eugene B. Woodruff, of the fifteenth, and Winfield S. Withrow of the twentieth districts, whose terms began January 1, 1909, and will expire December 31, 1912.

The following is the section of the code governing the jurisdiction of the district court:

SECTION 225. *Jurisdiction—civil, criminal, probate—successor of circuit court.* The district court shall have general original and exclusive jurisdiction of all actions, proceedings and remedies, both civil and criminal, except in cases where exclusive or concurrent jurisdiction is or may hereafter be conferred upon some other court or tribunal by the constitution and laws of the state, and shall have and exercise all the powers usually possessed and exercised by courts of record. It shall also possess and exercise jurisdiction in all appeals and writs of error taken in civil and criminal actions and special proceedings authorized to be taken from all inferior courts, tribunals, boards or officers, under any provisions of the laws of this state, and shall have a general supervision thereof, in all matters, to prevent and correct abuses, where no other remedy is provided.

First. The district court of each county shall have original and exclusive jurisdiction to probate the wills of, and to grant administration upon the estates of, all persons who at the time of their death were residents of the county and of non-residents of the state who die leaving property within the county subject to administration, or whose property is afterwards brought into the county.

Second. To appoint guardians of the persons and property of all persons resident in the county subject to guardianship.

Third. To appoint guardians of the property of all such persons non-residents of the state who have property within the county subject to guardianship, or whose property is afterwards brought into the county.

Fourth. It shall have jurisdiction in all matters in relation to the appointment of executors and trustees, and the management and disposition of the property of and settlement of such estates; *provided*, that where jurisdiction has heretofore been acquired, the same shall be retained until such estate is closed.

The district court shall succeed to and exercise full authority and jurisdiction over the records of the circuit court, and may enforce all judgments, decrees and orders thereof in the same manner and to the same extent as it may exercise like jurisdiction and authority over its own records, and for the purpose of the issuance of process, and of any and all other acts necessary to the due and efficient enforcement of the orders, judgments and decrees of the circuit courts the records thereof shall be deemed records of the district court. Transcripts and process from the judgments, decrees and records of the circuit court shall be issued by the clerk of the district court and under the seal of his office.

SUPERIOR COURTS.

The statutes provide that any city containing four thousand inhabitants, whether organized under a special charter or under the general law for incorporation of cities and towns, may establish a superior court. There are at present seven of such courts, located respectively in the cities of Council Bluffs, Cedar Rapids, Grinnell, Keokuk, Oelwein, Perry and Shenandoah. The judges are elected for terms of four years and receive an annual salary of \$2,000, which is paid quarterly, the first two quarters being paid from the city treasury and the last two quarters from the county treasury of the county in which said court is located.

The judges of the superior courts appoint a shorthand reporter, who receives five dollars per day for each day's attendance upon said court.

The following is a copy of the section of the code, as amended, governing the jurisdiction of the superior court:

SEC. 260. *Jurisdiction—attachments of real estate—city prisons used.* Said court shall have jurisdiction concurrent with the district court in all civil matters, except in probate matters and actions for divorce, alimony and separate maintenance. It shall have exclusive original jurisdiction to try and determine all actions, civil and criminal, for the violation of city ordinances, and all jurisdiction conferred on police courts as now or as may hereafter be provided by law, and concurrent jurisdiction with justices of the peace. Writs of errors and appeals may be taken thereto from justices' courts in the township in which the court is held, and, by consent of parties, from any other township in the county. For the trial of criminal actions on information and complaint, the court shall be open at such times and under such rules as it shall prescribe. In actions by attachment, where real property is levied on by writ of attachment, the officer levying the writ shall make entry thereof in the incumbrance book in the office of the clerk of the district court, in like manner and with like effect as of levies made in the district court. Parties may be committed to the city prison for confinement or punishment, instead of the county jail, at the option of the judge. In the absence of the judge, or in case of his inability to act, then, during such time, proceedings for the violation of city ordinances may be had before a justice of the peace, residing in such city.

Superior courts shall have original concurrent jurisdiction with the district courts of the state of Iowa in all matters pertaining to the detention and treatment of dtpsomaniacs, inebriates and those addicted to the excessive use of narcotics, as provided in title XII, chapter 2-a of the supplement to the code, 1907, and the same proceeding shall be held so far as applicable. Wherever the words "district judge," "district court" or "judge of the district court" appear in title XII, chapter 2-a the same shall be construed to apply to the superior courts or the judge thereof to the same extent that the same applies to the district court or the judge thereof.

The Board of Control of State Institutions was created under the provisions of Chapter 118, laws of the Twenty-seventh General Assembly, which, with the amendments thereto, clothes the board with full power to manage, control and govern, subject only to the limitations contained in the act, the following named institutions:

- Iowa Soldiers' Home at Marshalltown.
- Iowa Soldiers' Orphans' Home at Davenport.
- School for the Deaf at Council Bluffs.
- Institution for Feeble-minded Children at Glenwood.
- State Sanatorium for the Treatment of Tuberculosis at Oakdale.
- Industrial School for Boys at Eldora.
- Industrial School for Girls at Mitchelville.
- Mt. Pleasant State Hospital at Mt. Pleasant.
- Independence State Hospital at Independence.
- Clarinda State Hospital at Clarinda.
- Cherokee State Hospital at Cherokee.
- State Hospital for Inebriates at Knoxville.
- Hospital for Female Inebriates at Mt. Pleasant.
- Penitentiary at Ft. Madison.
- Reformatory at Anamosa.
- Industrial Reformatory for Females at Anamosa.

The board is required to inspect county and private institutions in which insane persons are kept, associations and societies receiving friendless children and detention homes provided for juvenile offenders.

Prior to July 1, 1898, the foregoing state institutions, except the reformatory and penitentiary, were in charge of separate boards, each of which had its officers and each had a secretary and treasurer.

The Board of Control was organized on April 6, 1898, and took full control, as provided by statute, on July 1, 1898, of the institutions subject to its control. At that time the various boards of trustees and commissioners ceased to exist.

The board publishes quarterly a bulletin of over one hundred pages, devoted to the scientific investigation of the treatment of insanity and epilepsy and the feeble-minded, and information embodying the experiences of soldiers' homes, charitable, reformatory and penal institutions in this and other countries.

As provided by law, under the direction of the board the state institutions under its control are supplied with goods for their support on competitive bids, thus procuring proper supplies at the lowest market prices. An opportunity to bid is afforded anyone who asks for it.

The board is required to investigate the management and financial condition of the state institutions under its control, to determine questions as to the sanity of patients in state hospitals, and to determine when persons shall be admitted to them as state charges, and is required to divide the state into hospital districts. It is required to make biennial reports to the governor and legislature showing the cost of operating the institutions for the preceding two years and to visit all institutions twice each year. Some member of the board or its agent is also required to visit each hospital once each month. It is required to meet the superintendents and other heads of institutions in quarterly conferences, to gather statistics, to publish a bulletin, to require official bonds of certain institution officers, to make a semiannual invoice of all the stores of the institutions, to fix annually the salaries of officers and employes not fixed by law, and to appoint a state architect and perform other duties provided by law.

Persons who have property or means for their support, or who draw pensions sufficient therefor, are not admitted to the home; and if after admission an inmate of the home shall receive a pension or other means sufficient for his support, or shall recover his health so as to enable him to support himself, he will be discharged from the home.

The regular appropriation by the state is \$15 per month for each member, and \$10 per month for each officer and employe not a member of the home.

IOWA SOLDIERS' ORPHANS' HOME—DAVENPORT.

Superintendent—FRANK J. SESSIONS.
Physician—WILLIAM L. ALLEN; M. D.
Steward—URLAS D. RUNKLE.
Head Matron—HARRIET R. ROWLES.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of a high standard. A kindergarten is operated for the very young pupils.

The age limit beyond which children are not kept in the home is sixteen years. Fewer than 20 per cent. remain to the age limit.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children, as from necessity their pastimes and pleasures are somewhat circumscribed.

It is the aim to provide the children with plenty of good comfortable clothing, and to have them taught to take good care of the same. All their clothing is manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food and a reasonable amount of luxuries.

The home is supported by a regular appropriation of \$12 per month for each inmate and the actual transportation charges of inmates to and from the institution. Each county is liable to the state for the support of its children to the extent of \$6 per month, except soldiers' orphans, who are cared for at the expense of the state.

Assistant Physician—LAWRENCE T. SIDWELL, M. D.

There is a regular appropriation for this institution of \$12 per month for each inmate.

The purposes or objects of this institution are to provide special methods of training for the class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as nearly as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their simple wants.

There is appropriated for the support of these schools the sum of \$13 monthly for each boy and \$16 monthly for each girl inmate.

The object of the institution is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence

of Christian instructors and taught by example, as well as precept, the better ways of life. It is a training school where the moral, intellectual and industrial education of the child is carried on at one and the same time.

With a few exceptions any boy or girl over seven and under sixteen years of age, who has become habitually vagrant, disorderly or incorrigible, or over the age of nine and under the age of sixteen, found guilty of a crime in a court of record may be committed to this school by any court of record. Any boy or girl may be discharged, or paroled from the school, at any time after one year's training, upon satisfactory evidence of reformation. The management and control of the *State University*, the *State College of Agriculture and Mechanic Arts*, and the *State Teachers' College* was assumed July 1, 1909, by the state board of education consisting of nine members who were appointed by the governor and confirmed by the senate under the provisions of an act of the Thirty-third General Assembly approved by the governor March 29, 1909, and which went into effect on publication. Under the provisions of the law not more than five members of the board may be members of the same political party, and not more than three alumni of the above named institutions and but one alumnus from each of the institutions, may be members of the board. Three of the members of the board, as required in the act, were appointed for two years, three for four years and three for six years. Subsequent appointments to the board, except to fill vacancies, are to be for terms of six years. Offices at the seat of the state government are to be furnished the board by the executive

council and the board will also maintain offices at each of the three institutions. Members of the board are not required to give bond and they are to receive a compensation of seven dollars per day for time actually employed in the performance of their duties, not exceeding sixty days in any one year, and are also allowed necessary mileage at the rate of two cents a mile. The board is required to have four regular meetings each year and may hold additional ones on the call of the president or secretary. The duties of the board as set out in the act are as follows:

Sec. 4. The state board of education shall have power to elect a president from their number; a president and treasurer for each of said educational institutions, and professors, instructors, officers, and employes; to fix the compensation to be paid to such officers and employes; to make rules and regulations for the government of said schools, not inconsistent with the laws of the state; to manage and control the property, both real and personal, belonging to said educational institutions; to execute trusts or other obligations now or hereafter committed to the institutions; to direct the expenditure of all appropriations the general assembly shall, from time to time, make to said institutions, and the expenditure of any other moneys, and to do such other acts as are necessary and proper for the execution of the powers and duties conferred upon them by law. * * *

Members of the board of education choose, from outside their own membership, a finance committee of three members, not more than two of whom shall be members of the same political party, each of whom receives a compensation of thirty-five hundred dollars a year and serves for three years unless sooner removed by the board. The board designates one of the finance committee as chairman and one as secretary, and the secretary of this committee also serves as secretary of the board and has charge of the general offices and of all books and papers of the board at the seat of government. The members of the committee in addition to their salaries are also entitled to mileage and necessary expenses. Each member of the finance committee is required to file a bond in the sum of \$25,000, which is to be approved by the governor. They are required to visit once a month each of the institutions and familiarize themselves with the work there being done.

All official correspondence with the Board should be addressed to the Secretary of the Finance Committee, Capitol Building, Des Moines, Iowa.

THE STATE UNIVERSITY—IOWA CITY

President—GEORGE E. MACLEAN,* Ph. D., LL. D., Iowa City.

Secretary—WILLIAM J. MCCHESENEY, Iowa City.

Treasurer—LOVELL SWISHER, Iowa City.

Superintendent of Grounds and Buildings—J. M. FISK, Iowa City.

The State University of Iowa, established February 25, 1847, is an integral part of the public school system of the State. As required by law, the work of the university is based upon the preparations afforded by the duly accredited high schools of the State, whose graduates are admitted to the undergraduate and professional courses upon presentation of the proper certificates.

A sense of this vital connection with the public schools determines, in a large measure, the requirements for admission to the University, its spirit, and its courses of study. The State through the University undertakes to furnish instruction in the various branches requisite for a liberal education in the liberal arts, law, medicine, dentistry, pharmacy, music, nursing, and in applied science—the various branches of engineering. It also aims to encourage research work in all departments, to produce creative scholars, and thus to do its part in the enlargement of the domain of knowledge. Thus it is the general policy of the institution to foster the higher educational interests of the state broadly and generously interpreted.

*Resigned to take effect August 1, 1911. Mr. John G. Bowman will become President on that date.

IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS—
AMES.

Acting President—EDGAR WILLIAMS STANTON, LL. D., Ames.

Treasurer and Registrar—HERMAN KNAPP, Ames.

Superintendent Buildings and Grounds—THOMAS SLOSS, Ames.

The general scope of the college work as provided by law is as follows:

"There shall be adopted and taught practical courses of study, embracing in their leading branches such as relate to agriculture and the mechanic arts, and such other branches as are best calculated to thoroughly educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics, and, as a separate department, a school of mines, in which a complete course in theoretical and practical mining in its different branches shall be taught."

On March 22, 1858, the legislature of Iowa passed an act providing for the establishment of a State College of Agriculture.

On July 2nd, 1862, Congress passed what became known as the "First Morrill Endowment Act." This act provided for the donation of public lands to the several States which might found colleges for instruction in the branches of learning relating to agriculture and mechanic arts. The quantity of land to be donated under the provisions of this Act was 30,000 acres for each Senator and Representative in Congress under the census of 1860. Under this grant, land to the amount of 204,309.30 acres was selected and certified to the State by the Secretary of the Interior. On March 29th, 1864, there was approved an act of the legislature turning over to the Iowa State Agricultural College all the land above described.

In addition to this the College of Agriculture received 3,200 acres of land in Jasper County, under what was known as the "Five Section Grant." All this land has been sold, and the proceeds constitute a permanent endowment fund amounting at the present time to \$686,777.97. The interest only on the fund can be used for the support of the college.

The College has been further aided by the general government by an act of Congress approved August 30, 1890, known as the "Second Morrill Act", which gives the sum of \$25,000.00 per annum for the support of the College, and the Hatch Act of March 2, 1837, which carries \$15,000.00 per annum for agricultural experimentation.

For the past ten years the legislature has made a special levy of 1-5 of a mill for the erection of buildings. This is commonly known as the "Millage Tax," and it has resulted in the erection of a number of the finest and most useful buildings on the College Campus.

In addition to this, the various legislatures have made liberal appropriations for the general support of the College.

 AGRICULTURAL EXPERIMENT STATION.

CHARLES FRANKLIN CURTISS, B. Sc., M. S. A., *Director*, Ames.

The Iowa Experiment Station was established in accordance with an act of congress, approved March 2, 1887, for the purpose of aiding "in acquiring and diffusing among the people of the United States useful and practical information on subjects connected with agriculture, and to promote scientific investigation and experiments respecting the principles and applications of agricultural science" under the direction of the land grant colleges in each state and territory established by the act of 1862, creating such colleges. This act appropriated to each state and territory, for the purpose of agricultural investigation, the sum of \$15,000 annually, and the experiment stations were thus established as a department of the land grant colleges. They are subject to the regulations of the United States department of agriculture, and are regularly inspected by officers of that department. The results of these investigations and experiments in agriculture, including live stock and all related branches, are published in bulletins issued by the experiment stations quarterly or oftener, and distributed free to all residents of the respective states who apply for them. The work of the Iowa Experiment Station along these lines has proved extremely popular and met with favor in all parts of the State and Nation, and in many foreign countries as well. The reports of some of its experiments have been published entire by foreign governments, and the demand for bulletins is so large that applications outside of the state can no longer be supplied. These bulletins are free to farmers and citizens of Iowa.

 ENGINEERING EXPERIMENT STATION.

ANSON MARSTON, C. E., *Director and Civil Engineer*, Ames.

The Iowa Engineering Experiment Station was established in accordance with an act of the State legislature in 1904 for the purpose of carrying on investigations and disseminating information helpful to the industrial interests of the State, outside of agriculture, in the same way that the Agricultural Experiment Station carries on work helpful to the agricultural interests of the State.

Five thousand dollars (\$5,000.00) annually is appropriated for the work. Immediately upon the passage of the act there became available considerable technical information which had accumulated during the work of the Engineering Division of the State College for several years past.

The bulletins of the Engineering Experiment Station are furnished free to residents of Iowa on request. The demand for those already published has been so great that the edition of many of the earlier bulletins is exhausted.

NATIONAL PLATFORM.

Once more the Republican party, in national convention assembled, submits its cause to the people. This great historic organization, that destroyed slavery, preserved the Union, restored credit, expanded the national domain, established a sound financial system, developed the industries and resources of the country, and gave to the nation her seat of honor in the councils of the world, now meets the new problems of government with the same courage and capacity with which it solved the old.

REPUBLICANISM UNDER ROOSEVELT.

In this greatest era of American advancement the Republican party has reached its highest service under the leadership of Theodore Roosevelt. His administration is an epoch in American history. In no other period since national sovereignty was won under Washington, or preserved under Lincoln,

has there been such mighty progress in those ideals of government which make for justice, equality, and fair dealing among men. The highest aspirations of the American people have found a voice. Their most exalted servant represents the best aims and worthiest purposes of all his countrymen. American manhood has been lifted to a nobler sense of duty and obligation. Conscience and courage in public station and higher standards of right and wrong in private life have become cardinal principles of political faith; capital and labor have been brought into closer relations of confidence and interdependence; and the abuse of wealth, the tyranny of power, and all the evils of privilege and favoritism have been put to scorn by the simple, manly virtues of justice and fair play.

The great accomplishments of President Roosevelt have been, first and foremost, a brave and impartial enforcement of the law: the prosecution of illegal trusts and monopolies; the exposure and punishment of evil-doers in the public service; the more effective regulation of the rates and service of the great transportation lines; the complete overthrow of preferences, rebates and discriminations; the arbitration of labor disputes; the amelioration of the condition of wage-workers everywhere; the conservation of the natural resources of the country; the forward step in the improvement of the inland waterways, and always the earnest support and defense of every wholesome safeguard which has made more secure the guarantees of life, liberty and property.

These are the achievements that will make Theodore Roosevelt his place in history, but more than all else the great things he has done will be an inspiration to those who have yet greater things to do. We declare our unfaltering adherence to the policies thus inaugurated, and pledge their continuance under a Republican administration of the Government.

EQUALITY OF OPPORTUNITY.

Under the guidance of Republican principles the American people have become the richest nation in the world. Our wealth today exceeds that of England and all her colonies, and that of France and Germany combined. When the Republican party was born the total wealth of the country was \$18,000,000,000. It has leaped to \$110,000,000,000 in a generation, while Great Britain has gathered but \$60,000,000,000 in five hundred years. The United States now owns one-fourth of the world's wealth and makes one-third of all modern manufactured products. In the great necessities of civilization such as coal, the motive power of all activity; iron, the chief basis of all industry; cotton, the staple foundation of all fabrics; wheat, corn and all the agricultural products that feed mankind, America's supremacy is undisputed. And yet her great natural wealth has been scarcely touched. We have a vast domain of three million square miles, literally bursting with latent treasure, still waiting the magic of capital and industry to be converted to the practical uses of mankind; a country rich in soil and climate, in the unharnessed energy of its rivers and in all the varied products of the field, the forest and the factory. With gratitude for God's bounty, with pride in the splendid productiveness of the past and with confidence in the plenty and prosperity of the future, the Republican party declares for the principle that in the development and enjoyment of wealth so great and blessings so benign there shall be equal opportunity for all.

THE REVIVAL OF BUSINESS.

Nothing so clearly demonstrates the sound basis upon which our commercial, industrial and agricultural interests are founded, and the necessity of promoting their continued welfare through the operation of Republican policies, as the recent safe passage of the American people through a financial disturbance which, if appearing in the midst of Democratic rule or the menace of it, might have equaled the familiar Democratic panics of the past. We congratulate the people upon this renewed evidence of American supremacy and hail with confidence the signs now manifest of a complete restoration of business, prosperity in all lines of trade, commerce and manufacturing.

RECENT REPUBLICAN LEGISLATION.

Since the election of William McKinley in 1896 the people of this country have felt anew the wisdom of entrusting to the Republican party through decisive majorities the control and direction of national legislation.

The many wise and progressive measures adopted at recent sessions of Congress have demonstrated the patriotic resolve of Republican leadership in the legislative department to keep step in the forward march toward better government.

Notwithstanding the indefensible filibustering of a Democratic minority in the House of Representatives during the last session many wholesome and progressive laws were enacted, and we especially commend the passage of the emergency currency bill, the appointment of the National Monetary Commission, the Employers' and Government liability laws, the measures for the greater efficiency of the army and navy, the widows' pension bill, the child labor law for the District of Columbia, the new statute for the safety of railroad engineers and firemen, and many other acts conserving the public welfare.

REPUBLICAN PLEDGES FOR THE FUTURE.

TARIFF.

The Republican party declares unequivocally for the revision of the tariff by a special session of Congress immediately following the inauguration of the next President, and commends the steps already taken to this end in the work assigned to the appropriate committees of Congress which are now investigating the operation and effect of existing schedules. In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries. We favor the establishment of maximum and minimum rates to be administered by the President under limitations fixed in the law, the maximum to be available to meet discriminations by foreign countries against American goods entering their markets, and the minimum to represent the normal measure of protection at home, the aim and purpose of the Republican policy being not only to preserve, without excessive duties, that security against foreign competition to which the American manufacturers, farmers and producers are entitled, but also to maintain the high standard of living of the wage-earners of this country, who are the most direct beneficiaries of the protective system. Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will afford adequate protection to domestic interests.

CURRENCY.

We approve the emergency measures adopted by the Government during the recent financial disturbance, and especially commend the passage by Congress at the last session of the law designed to protect the country from a repetition of such stringency. The Republican party is committed to the development of a permanent currency system, responding to our great needs; and the appointment of the National Monetary Commission by the present Congress, which will impartially investigate all proposed methods, insures the early realization of this purpose. The present currency laws have fully justified their adoption, but an expanding commerce, a marvelous growth in wealth and population, multiplying the centers of distribution, increasing the demand for the movement of crops in the West and South, and entailing periodic changes in monetary conditions, disclose the need of a more elastic and adaptable system. Such a system must meet the requirements of agriculturists, manufacturers, merchants and business men generally, must be automatic in operation, minimizing the fluctuations in interest rates, and, above all, must be in harmony with that Republican doctrine which insists that every dollar shall be based upon and as good as gold.

POSTAL SAVINGS.

We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift.

TRUSTS.

The Republican Party passed the Sherman Anti-Trust law over Democratic opposition, and enforced it after Democratic dereliction. It has been a wholesome instrument for good in the hands of a wise and fearless administration. But experience has shown that its effectiveness can be strengthened and its real objects better attained by such amendments as will give to the Federal Government greater supervision and control over, and secure greater publicity in, the management of that class of corporations engaged in interstate commerce having power and opportunity to effect monopolies.

RAILROADS.

We approve the enactment of the railroad rate law and the vigorous enforcement by the present administration of the statutes against rebates and discriminations, as a result of which the advantages formerly possessed by the large shipper over the small shipper have substantially disappeared; and in this connection we commend the appropriation by the present Congress to enable the Interstate Commerce Commission to thoroughly investigate and give publicity to the accounts of interstate railroads. We believe, however, that the interstate commerce law should be further amended so as to give railroads the right to make and publish traffic agreements subject to the approval of the Commission, but maintaining always the principle of competition between naturally competing lines and avoiding the common control of such lines by any means whatsoever. We favor such national legislation and supervision as will prevent the future overissue of stocks and bonds by interstate carriers.

RAILROAD AND GOVERNMENT EMPLOYEES.

The enactment in constitutional form at the present session of Congress of the Employers' Liability law, the passage and enforcement of the safety appliance statutes, as well as the additional protection secured for engineers and firemen, the reduction in the hours of labor of trainmen and railroad telegraphers the successful exercise of the powers of mediation and arbitration between interstate railroads and their employes, and the law making a beginning in the policy of compensation for injured employes of the Government, are among the most commendable accomplishments of the present administration. But there is further work in this direction yet to be done, and the Republican Party pledges its continued devotion to every cause that makes for safety and the betterment of conditions among those whose labor contributes so much to the progress and welfare of the country.

WAGE EARNERS GENERALLY.

The same wise policy which has induced the Republican Party to maintain protection to American labor, to establish an eight-hour day in the construction of all public works, to increase the list of employes who shall have preferred claims for wages under the bankruptcy laws, to adopt a child labor statute for the District of Columbia, to direct an investigation into the condition of working women and children, and later, of employes of telephone and telegraph companies engaged in interstate business to appropriate \$150,000 at the recent session of Congress in order to secure a thorough inquiry into the causes of catastrophes and loss of life in the mines and to amend and strengthen the law prohibiting the importation of contract labor, will be pursued in every legitimate direction within Federal authority to lighten the burdens and increase the opportunity for happiness and advancement of all who toil. The Republican Party recognizes the special needs of wage-workers generally, for their well being means the well being of all. But more important than all other considerations is that of good citizenship, and we especially stand for the needs of every American, whatever his occupation, in his capacity as a self-respecting citizen.

COURT PROCEDURE.

The Republican Party will uphold at all times the authority and integrity of the courts, State and Federal, and will ever insist that their powers to en-

force their process and to protect life, liberty and property shall be preserved inviolate. We believe, however, that the rules of procedure in the Federal Courts with respect to the issuance of the writ of injunction should be more accurately defined by statute, and that no injunction or temporary restraining order should be issued without notice, except where irreparable injury would result from delay, in which case a speedy hearing thereafter should be granted.

THE AMERICAN FARMER.

Among those whose welfare is as vital to the welfare of the whole country as that of the wage-earner is the American farmer. The prosperity of the country rests peculiarly upon the prosperity of agriculture. The Republican Party during the last twelve years has accomplished extraordinary work in bringing the resources of the National Government to the aid of the farmer, not only in advancing agriculture itself, but in increasing the conveniences of rural life. Free rural mail delivery has been established; it now reaches millions of our citizens, and we favor its extension until every community in the land receives the full benefits of the postal service. We recognize the social and economical advantages of good country roads, maintained more and more largely at public expense, and less and less at the expense of the abutting owner. In this work we commend the growing practice of the State aid, and we approve the efforts of the National Agricultural Department by experiments and otherwise to make clear to the public the best methods of road construction.

RIGHTS OF THE NEGRO.

The Republican Party has been for more than fifty years the consistent friend of the American negro. It gave him freedom and citizenship. It wrote into the organic law the declarations that proclaim his civil and political rights, and it believes today that his noteworthy progress in intelligence, industry and good citizenship has earned the respect and encouragement of the nation. We demand equal justice for all men, without regard to race or color; we declare once more, and without reservation, for the enforcement in letter and spirit of the Thirteenth, Fourteenth and Fifteenth Amendments to the Constitution, which were designed for the protection and advancement of the negro, and we condemn all devices that have for their real aim his disfranchisement for reasons of color alone as unfair, un-American and repugnant to the supreme law of the land.

NATURAL RESOURCES AND WATERWAYS.

We indorse the movement inaugurated by the administration for the conservation of natural resources; we approve all measures to prevent the waste of timber; we commend the work now going on for the reclamation of arid lands, and reaffirm the Republican policy of the free distribution of the available areas of the public domain to the landless settler. No obligation of the future is more insistent and none will result in greater blessings to posterity. In line with this splendid undertaking is the further duty, equally imperative, to enter upon a systematic improvement upon a large and comprehensive plan, just to all portions of the country, of the waterways, harbors, and great lakes, whose natural adaptability to the increasing traffic of the land is one of the greatest gifts of a benign Providence.

THE ARMY AND NAVY.

The Sixtieth Congress passed many commendable acts increasing the efficiency of the Army and Navy, making the militia of the States an integral part of the national establishment, authorizing joint maneuvers of army and militia, fortifying new naval bases and completing the construction of coaling stations, instituting a female nurse corps for naval hospitals and ships, and adding two new battleships, ten torpedo-boat destroyers, three steam colliers, and eight submarines to the strength of the Navy. Although at peace with all the world, and secure in the consciousness that the American people do not desire and will not provoke a war with any other country, we nevertheless declare our unalterable devotion to a policy that will keep this Republic ready at all times to defend her traditional doctrines, and assure her appropriate part in promoting permanent tranquility among the nations.

PROTECTION OF AMERICAN CITIZENS ABROAD.

We commend the vigorous efforts made by the Administration to protect American citizens in foreign lands, and pledge ourselves to insist upon the just and equal protection of all our citizens abroad. It is the unquestioned duty of the Government to procure for all our citizens, without distinction, the rights to travel and sojourn in friendly countries, and we declare ourselves in favor of all proper efforts tending to that end.

EXTENSION OF FOREIGN COMMERCE.

Under the administration of the Republican Party the foreign commerce of the United States has experienced a remarkable growth until it has a present annual valuation of approximately three billions of dollars, and gives employment to a vast amount of labor and capital which would otherwise be idle. It has inaugurated, through the recent visit of the Secretary of State to South America and Mexico, a new era of Pan-American commerce and comity, which is bringing us into closer touch with our twenty sister American republics, having a common historical heritage, a Republican form of government, and offering us a limitless field of legitimate commercial expansion.

ARBITRATION AND THE HAGUE TREATIES.

The conspicuous contributions of American statesmanship to the great cause of international peace, so signally advanced in The Hague conferences, are an occasion for just pride and gratification. At the last session of the Senate of the United States, eleven Hague conventions were ratified, establishing the rights of neutrals, laws of war on land, restriction of submarine mines, limiting the use of force for the collection of contractual debts, governing the opening of hostilities, extending the application of Geneva principles, and, in many ways lessening the evils of war and promoting the peaceful settlement of international controversies. At the same session twelve arbitration conventions with great nations were confirmed, and extradition, boundary and naturalization treaties of superme importance were ratified. We indorse such achievements as the highest duty a people can perform and proclaim the obligation of further strengthening the bonds of friendship and good will with all nations of the world.

MERCHANT MARINE.

We adhere to the Republican doctrine of encouragement to American shipping and urge such legislation as will revive the merchant marine prestige of the country, so essential to national defense, the enlargement of foreign trade and the industrial prosperity of our own people.

VETERANS OF THE WARS.

Another Republican policy which must ever be maintained is that of generous provision for those who have fought the country's battles and for the widows and orphans of those who have fallen. We commend the increase in the widows' pensions made by the present Congress, and declare for a liberal administration of all pension laws, to the end that the people's gratitude may grow deeper as the memories of heroic sacrifice grow more sacred with the passing years.

CIVIL SERVICE.

We reaffirm our former declaration that the civil service laws, enacted, extended and enforced by the Republican Party, shall continue to be maintained and obeyed.

PUBLIC HEALTH.

We commend the efforts designed to secure greater efficiency in National public health agencies, and favor such legislation as will effect this purpose.

BUREAU OF MINES AND MINING.

In the interest of the great mineral industries of our country, we earnestly favor the establishment of a Bureau of Mines and Mining.

CUBA, PORTO RICO, PHILIPPINES AND PANAMA.

The American Government, in Republican hands, has freed Cuba, given peace and protection to Porto Rico and the Philippines under our flag, and begun the construction of the Panama canal. The present conditions in Cuba vindicate the wisdom of maintaining between that Republic and this imperishable bonds of mutual interest, and the hope is now expressed that the Cuban people will soon again be ready to assume complete sovereignty over their land.

In Porto Rico the Government of the United States is meeting loyal and patriotic support; order and prosperity prevail, and the well being of the people is in every respect promoted and conserved.

We believe that the native inhabitants of Porto Rico should be at once collectively made citizens of the United States, and that all others properly qualified under existing laws residing in said island should have the privilege of becoming naturalized.

In the Philippines, insurrection has been suppressed, law established and life and property made secure. Education and practical experience are there advancing the capacity of the people for government, and the policies of McKinley and Roosevelt are leading the inhabitants step by step to an ever-increasing measure of home rule.

Time has justified the selection of the Panama route for the great Isthmian Canal, and the events have shown the wisdom of securing authority over the zone through which it is to be built. The work is now progressing with a rapidity far beyond expectation, and already the realization of the hopes of centuries has come within the vision of the near future.

NEW MEXICO AND ARIZONA.

We favor the immediate admission of the Territories of New Mexico and Arizona as separate States in the Union.

CENTENARY OF THE BIRTH OF LINCOLN.

February 12, 1908, will be the one hundredth anniversary of the birth of Abraham Lincoln, an immortal spirit whose fame has brightened with the receding years, and whose name stands among the first of those given to the world by the great Republic. We recommend that this centennial anniversary be celebrated throughout the confines of the nation by all the people thereof, and especially by the public schools, as an exercise to stir the patriotism of the youth of the land.

DEMOCRATIC INCAPACITY FOR GOVERNMENT.

We call the attention of the American people to the fact that none of the great measures here advocated by the Republican Party could be enacted, and none of the steps forward here proposed could be taken, under a Democratic administration or under one in which party responsibility is divided. The continuance of present policies, therefore, absolutely requires the continuance in power of that party which believes in them and which possesses the capacity to put them into operation.

FUNDAMENTAL DIFFERENCES BETWEEN DEMOCRACY AND REPUBLICANISM.

Beyond all platform declarations there are fundamental differences between the Republican Party and its chief opponent which makes the one worthy and the other unworthy of public trust.

In history the difference between Democracy and Republicanism is that the one stood for debased currency, the other for honest currency; the one for free silver, the other for sound money; the one for free trade, the other for protection; the one for the contraction of American influence, the other for its expansion; the one has been forced to abandon every position taken on the great issues before the people, the other has held and vindicated all.

In experience, the difference between Democracy and Republicanism is that the one means adversity, while the other means prosperity; one means low wages, the other means high; one means doubt and debt, the other means confidence and thrift.

In principle, the difference between Democracy and Republicanism is that one stands for vacillation and timidity in government, the other for strength and purpose; one promises, the other performs; one finds fault, the other finds work.

The present tendencies of the two parties are even more marked by inherent differences. The trend of Democracy is toward socialism, while the Republican party stands for a wise and regulated individualism. Socialism would destroy wealth. Republicanism would prevent its abuse. Socialism would give to each an equal right to take; Republicanism would give to each an equal right to earn. Socialism would offer an equality of possession which would soon leave no one anything to possess; Republicanism would give equality of opportunity which would assure to each his share of a constantly increasing sum of possessions. In line with this tendency, the Democratic Party of today believes in Government ownership, while the Republican Party believes in Government regulation. Ultimately Democracy would have the nation own the people, while Republicanism would have the people own the nation.

Upon this platform of principles and purposes, reaffirming our adherence to every Republican doctrine proclaimed since the birth of the party, we go before the country asking the support not only of those who have acted with us heretofore, but of all our fellow citizens who, regardless of past political difference, unite in the desire to maintain the policies, perpetuate the blessings and make secure the achievements of a greater America.

NATIONAL PLATFORM.

We, the representatives of the Democracy of the United States, in national convention assembled, reaffirm our belief in, and pledge our loyalty to the principles of the party.

We rejoice at the increasing signs of an awakening throughout the country. The various investigations have traced graft and political corruption to the representatives of predatory wealth and laid bare the unscrupulous methods by which they have debauched elections and preyed upon a defenseless public through the subservient officials whom they have raised to place and power. The conscience of the nation is now aroused and will free the government from the grip of those who have made it a business asset of the favor seeking corporations; it must become again a people's government, and be administered in all its departments according to the Jeffersonian maxim, "equal rights to all, special privileges to none."

"Shall the people rule?" is the overshadowing issue which manifests itself in all the questions now under discussion.

ECONOMY IN ADMINISTRATION.

The Republican Congress in the session just ended made appropriations amounting to \$1,008,000,000, exceeding the total expenditures of the past fiscal year by \$90,000,000, and leaving a deficit of more than \$60,000,000 for the fiscal year just ended. We denounce the heedless waste of the people's money which has resulted in this appalling increase as a shameful violation of all prudent considerations of government and as no less than a crime against the millions of working men and women from whose earnings the great proportion of these colossal sums must be extorted through excessive tariff exactions and other indirect methods. It is not surprising that in the fact of this shocking record the republican platform contains no reference to economical administration or promise thereof in the future. We demand that a stop be put to this frightful extravagance and insist upon the strictest economy in every department compatible with frugal and efficient administration.

INCREASE OF OFFICEHOLDERS.

Coincident with the enormous increase in expenditures is a like addition to the number of officeholders. During the past year 23,784 were added, costing \$16,166,000, and in the past six years of Republican administration the total number of new offices created aside from many commissions has been 99,319, entailing an additional expenditure of nearly \$70,000,000, as against only 10,279 new offices created under the Cleveland and McKinley administrations, which involved an expenditure of only \$6,000,000. We denounce this great and growing increase in the number of officeholders as not only unnecessary and wasteful, but also as clearly indicating a deliberate purpose on the part of the administration to keep the Republican party in power at public expense by thus increasing the number of its retainers and dependents. Such procedure we declare to be no less dangerous and corrupt than the open purchase of votes at the polls.

ARBITRARY POWER—THE SPEAKER.

The house of representatives was designed by the fathers of the constitution to be the popular branch of our government responsive to the public will.

The house of representatives, as controlled in recent years by the Republican party, has ceased to be a deliberative and legislative body, responsive to the will of a majority of its members, but has come under the absolute domination of the speaker, who has entire control of its deliberations and powers of legislation.

We have observed with amazement the popular branch of our federal government helpless to obtain either the consideration or enactment of measures desired by a majority of its members.

Legislative control becomes a failure when one member in the person of the speaker is more powerful than the entire body.

We demand that the house of representatives shall again become a deliberative body, controlled by a majority of the people's representatives and not by the speaker, and we pledge ourselves to adopt such rules and regulations to govern the house of representatives as will enable a majority of its members to direct its deliberations and control legislation.

MISUSE OF PATRONAGE.

We condemn as a violation of the spirit of our institutions the action of the present chief executive in using the patronage of his high office to secure the nomination for the presidency of one of his cabinet officers. A forced succession in the presidency is scarcely less repugnant to public sentiment than is life tenure in that office. No good intention on the part of the executive and no virtue in the one selected can justify the establishment of a dynasty.

The right of the people to freely select their officials is inalienable and cannot be delegated.

PUBLICITY OF CAMPAIGN CONTRIBUTIONS.

We demand federal legislation, forever terminating the partnership which has existed between corporations of the country and the republican party

under the expressed or implied agreement that in return for the contribution of great sums of money wherewith to purchase elections they should be allowed to continue substantially unmolested in their efforts to encroach upon the rights of the people.

Any reasonable doubt as to the existence of this relation has been dispelled by the sworn testimony of witnesses examined in the insurance investigations in New York and the open admission of a single individual—unchallenged by the Republican national committee—that he himself at the personal request of the then Republican candidate for the presidency raised over a quarter of a million dollars to be used in a single state during the closing hours of the last campaign. In order that this practice shall be stopped for all time, we demand the passage of a statute punishing by imprisonment any officer of a corporation who shall either contribute on behalf of or consent to the contribution by a corporation of any money or thing of value to be used in furthering the election of a president or vice-president of the United States or of any member of the congress thereof. We denounce the Republican party, having complete control of the federal government, for its failure to pass the bill, introduced in the last congress, to compel the publication of the names of contributors and the amounts contributed toward campaign funds and point to the evidence of the insincerity of Republican leaders when they sought by an absolutely irrelevant and impossible amendment to defeat the passage of the bill, as a further evidence of their intention to conduct their campaign in the coming contest with vast sums of money wrested from favor-seeking corporations. We call attention to the fact that the recent Republican national convention at Chicago refused, when the issue was presented to it, to declare against such practices.

We pledge the democratic party to the enactment of a law prohibiting any corporation from contributing to a campaign fund and any individual from contributing an amount above a reasonable maximum, and providing for the publication before election of all such contributions above a reasonable minimum.

THE RIGHTS OF THE STATES.

Believing with Jefferson, in "the support of the state governments in all their rights as the most competent administrations for our domestic concerns, and the surest bulwarks against anti-republican tendencies," and in "the preservation of the general government in its whole constitutional vigor, as the sheet anchor of our peace at home and safety abroad," we are opposed to the centralization implied in the suggestion, now frequently made, that the powers of the general government should be extended by judicial construction. There is no twilight zone between the nation and the state in which exploiting interests can take refuge from both; and it is as necessary that the federal government shall exercise the powers delegated to it as it is that the state governments shall use the authority reserved to them; but we insist that federal remedies for the regulation of interstate commerce and for the prevention of private monopoly shall be added to, not substituted for state remedies.

POPULAR ELECTION OF SENATORS.

We favor the election of United States senators by direct vote of the people and regard this reform as the gateway to other national reforms.

TARIFF.

We welcome the belated promise of tariff reform now offered by the Republican party as a tardy recognition of the righteousness of the Democratic position on this question. But the people cannot safely entrust the execution of this important work to a party which is so deeply obligated to the highly protected interests as is the Republican party. We call attention to the significant fact that the promised relief is postponed until after the coming election—an election to succeed in which the Republican party must have that same support from the beneficiaries of the high protective tariff as it has always heretofore received from them; and to the further fact that during the years of uninterrupted power no action whatever has been taken by the Republican congress to correct the admittedly existing tariff iniquities.

We favor immediate revision of the tariff by the reduction of import duties. Articles entering into competition with trust controlled products should be placed upon the free list; material reductions should be made in the tariff upon the necessities of life, especially upon articles competing with such American manufacturers as are sold abroad more cheaply than at home, and gradual reductions should be made in such other schedules as may be necessary to restore the tariff to a revenue basis.

Existing duties have given the manufacturers of paper a shelter behind which they have organized combinations to raise the price of pulp and of paper, thus imposing a tax upon the spread of knowledge. We demand the immediate repeal of the tariff on wood pulp, print paper, lumber, timber and logs, and that these articles be placed upon the free list.

INCOME TAX.

We favor an income tax as part of our revenue system and we urge the submission of a constitutional amendment specifically authorizing congress to levy and collect a tax upon individual and corporate incomes to the end that wealth may bear its proportionate share of the burdens of the federal government.

TRUSTS.

A private monopoly is indefensible and intolerable; we therefore favor the vigorous enforcement of the criminal law against guilty trust magnates and officials and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States. Among the additional remedies, we specify three: First, a law preventing a duplication of directors among competing corporations; second, a license system which will, without abridging the right of each state to create corporations, or its rights to regulate as it will foreign corporations doing business within its limits make it necessary for a manufacturing or trading corporation engaged in interstate commerce to take out a federal license before it shall be permitted to control as much as twenty-five per cent of the product in which it deals, the license to protect the public from watered stock and to prohibit the control by such corporation of more than fifty per cent of the total amount of any product consumed in the United States; and third, a law compelling such licensed corporation to sell to all purchasers in all parts of the country on the same terms, after making due allowance for cost of transportation.

RAILROAD LEGISLATION.

We assert the right of congress to exercise complete control over interstate commerce and the right of each state to exercise like control over commerce within its borders.

We demand such enlargement of the powers of the interstate commerce commission as may be necessary to enable it to compel railroads to perform their duties as common carriers and prevent discrimination and extortion.

We favor the efficient supervision and rate regulation of railroads engaged in interstate commerce. To this end we recommend the valuation of railroads by the interstate commerce commission, such valuation to take into consideration the physical value of the property, the original cost, the cost of production, and all elements of value that will render the valuation fair and just.

We favor such legislation as will prohibit the railroads from engaging in business which brings them into competition with their shippers; also legislation preventing the over-issue of stocks and bonds by interstate railroads, and legislation which will assure such reduction in transportation rates as conditions will permit, care being taken to avoid reduction that would compel a reduction of wages, prevent adequate service or do injustice to legitimate investments.

We heartily approve the laws prohibiting the pass and the rebate and we favor any further necessary legislation to restrain, correct and prevent such abuses.

We favor such legislation as will increase the power of the interstate commerce commission, giving to it the initiative with reference to rates and transportation charges put into effect by the railroad companies, and permitting the

interstate commerce commission on its own initiative to declare a rate illegal and as being more than should be charged for such service. The present law relating thereto is inadequate by reason of the fact that the interstate commerce commission is without power to fix or investigate a rate until complaint has been made to it by the shipper.

We further declare in favor of a law providing that all agreements of traffic or other associations of rail ay agents affecting interstate rates, service or classification shall be unlawful unless filed with and approved by the interstate commerce commission.

We favor the enactment of a law giving to the interstate commerce commission the power to inspect proposed railroad tariff rates or schedules before they shall take effect, and if they be found to be unreasonable to initiate an adjustment thereof.

TELEGRAPH AND TELEPHONE.

We pledge the Democratic party to the enactment of a law to regulate under the jurisdiction of the interstate commerce commission, the rates and services of telegraph and telephone companies engaged in the transmission of messages between the states.

BANKING.

The panic of 1907, coming without any legitimate excuse when the Republican party had for a decade been in complete control of the federal government, furnishes additional proof that it is either unwilling or incompetent to protect the interests of the general public. It has so linked the country to Wall street that the sins of the speculators are visited upon the whole people. While refusing to rescue the wealth producers from spoliation at the hands of the stock gamblers and speculators in farm products, it has deposited treasury funds, without interest and without competition, in favorite banks. It has used an emergency for which it is largely responsible to force through congress a bill changing the basis of bank currency and inviting market manipulation, and has failed to give to the fifteen million depositors of the country protection in their savings.

We believe that insofar as the needs of commerce require an emergency currency, such currency should be issued and controlled by the federal government and loaned on adequate security to national and state banks. We pledge ourselves to legislation under which the national banks shall be required to establish a guarantee fund for the prompt payment of the depositors of any insolvent national bank, under an equitable system which shall be available to all state banking institutions wishing to use it.

We favor a postal savings bank if the guaranteed bank cannot be secured, and believe that it should be so constituted as to keep the deposited money in the communities where the depositors live. But we condemn the policy of the Republican party in proposing postal savings banks under a plan of conduct by which they will aggregate the deposits of the rural communities and redeposit the same while under government charge in the banks of Wall street, thus depleting the circulating medium of the producing regions and unjustly favoring the speculative markets.

LABOR AND INJUNCTIONS.

The courts of justice are the bulwarks of our liberties and we yield to none in our purpose to maintain their dignity. Our party has given to the bench a long line of distinguished judges who have added to the respect and confidence in which this department must be jealously maintained. We resent the attempt of the Republican party to raise a false issue respecting the judiciary. It is an unjust reflection upon a great body of our citizens to assume that they lack respect for the courts. It is the function of the courts to interpret the laws which the people create, and if the laws appear to work economic, social or political injustice, it is our duty to change them. The only basis upon which the integrity of our courts can stand is that of unswerving justice and protection of life, personal liberty and property. If judicial processes may be abused, we should guard them against abuse.

Experience has proven the necessity of a modification of the present law relating to injunctions, and we reiterate the pledge of our national platforms of

1896 and 1904 in favor of the measure which passed the United States senate in 1896, but which a Republican congress has ever since refused to enact, relating to contempts in federal courts and providing for trial by jury in cases of indirect contempt.

Questions of judicial practice have arisen especially in connection with industrial disputes. We believe that the parties to all judicial proceedings should be treated with rigid impartiality and that injunctions should not be issued in any cases in which injunctions would not issue if no industrial dispute were involved.

The expanding organization of industry makes it essential that there should be no abridgment of the right of wage earners and producers to organize for the protection of wages and the improvement of labor conditions, to the end that such labor organizations and their members should not be regarded as illegal combinations in restraint of trade.

We favor the eight-hour day on all government work.

We pledge the Democratic party to the enactment of a law by congress as far as the federal jurisdiction extends, for a general employers' liability act covering injury to body or loss of life of employes.

We pledge the Democratic party to the enactment of a law creating a department of labor, represented separately in the president's cabinet, in which department shall be included the subject of mines and mining.

THE PHILIPPINES.

We condemn the experiment in imperialism as an inexcusable blunder which has involved us in enormous expense, brought us weakness instead of strength, and laid our nation open to the charge of abandoning a fundamental doctrine of self government. We favor an immediate declaration of the nation's purpose to recognize the independence of the Philippine islands as soon as a stable government can be established, such independence to be guaranteed by us as we guaranteed the independence of Cuba, until the neutralization of the islands can be secured by treaty with other powers. In recognizing the independence of the Philippines our government should retain such land as may be necessary for coaling stations and naval bases.

WATERWAYS.

Water furnishes the cheaper means of transportation and the national government having the control of navigable waters should improve them to their fullest capacity. We earnestly favor the immediate adoption of a liberal and comprehensive plan for improving every water course in the union which is justified by the needs of commerce, and to secure that end we favor, when practicable, the connection of the Great Lakes with the navigable rivers and with the Gulf through the Mississippi river, and the navigable rivers with each other by artificial canals, with a view to perfecting a system of inland waterways to be navigated by vessels of standard draught.

We favor the co-ordination of the various services of the government connected with waterways in one service for the purpose of aiding in the completion of such a system of inland waterways; and we favor the creation of a fund ample for continuous work which shall be conducted under the direction of a commission of experts to be authorized by law.

MERCHANT MARINE.

We believe in the upbuilding of the American merchant marine without new or additional burdens upon the people and without bounties from the public treasury.

THE NAVY.

The constitutional provision that a navy shall be provided and maintained means an adequate navy, and we believe that the interests of this country would be best served by having a navy sufficient to defend the coasts of this country and protect American citizens wherever their rights may be in jeopardy.

NATIONAL ELECTION OF 1908

PROTECTION OF AMERICAN CITIZENS.

We pledge ourselves to insist upon the just and lawful protection of our citizens at home and abroad and to us all proper methods to secure for them, whether native born or naturalized, and without distinction of race or creed, the equal protection of the law and the enjoyment of all rights and privileges open to them under our treaties; and if, under existing treaties, the right of travel and sojourn is denied to American citizens or recognition is withheld from American passports by any countries on the ground of race or creed, we favor prompt negotiations with the government of such countries to secure the removal of these unjust discriminations.

We demand that all over the world a duly authenticated passport issued by the government of the United States to an American citizen shall be proof of the fact that he is an American citizen and shall entitle him to the treatment due him as such.

FOREIGN PATENTS.

We believe that where an American citizen holding a patent in a foreign country is compelled to manufacture under his patent within a certain time, similar restriction should be applied in this country, to the citizens or subjects of such a country.

CIVIL SERVICE.

The law pertaining to the civil service should be honestly and rigidly enforced, to the end that merit and ability shall be the standard of appointment and promotion, rather than services rendered to a political party.

PENSIONS.

We favor a generous pension policy, both as a matter of justice to the surviving veterans and their dependents, and because it tends to relieve the country of the necessity of maintaining a large standing army.

HEALTH BUREAU.

We advocate the organization of all existing national public health agencies into a national bureau of public health, with such power over sanitary conditions connected with factories, mines, tenements, child labor, and such other subjects as are properly within the jurisdiction of the federal government, and do not interfere with the power of the states controlling public health agencies.

AGRICULTURAL AND MECHANICAL EDUCATION.

The Democratic party favors the extension of agricultural, mechanical and industrial education. We therefore favor the establishment of district agricultural experiment stations and secondary agricultural and mechanical colleges in the several states.

OKLAHOMA.

We welcome Oklahoma to the sisterhood of states and heartily congratulate her upon the auspicious beginning of a great career.

ARIZONA AND NEW MEXICO.

The national Democratic party has for the last sixteen years labored for the admission of Arizona and New Mexico as separate states of the federal union, and recognizing that each possesses every qualification successfully to maintain separate state governments, we favor the immediate admission of these territories as separate states.

ALASKA AND PORTO RICO.

We demand for the people of Alaska and Porto Rico the full enjoyment of the rights and privileges of a territorial form of government, and that the officials appointed to administer the government of all our territories and the District of Columbia should be thoroughly qualified by previous bona fide residence.

HAWAII.

We favor the application of the principles of the land laws of the United States to our newly acquired territory, Hawaii, to the end that the public lands of that territory may be held and utilized for the benefit of bona fide homesteaders.

POST ROADS.

We favor federal aid to state and local authorities in the construction and maintenance of post roads.

NATURAL RESOURCES.

We repeat the demand for internal development, and for the conservation of our natural resources, contained in previous platforms, the enforcement of which Mr. Roosevelt has vainly sought from a reluctant party; and to that end we insist upon the preservation, protection and replacement of needed forests, the preservation of the public domain for homeseekers, the protection of the nation's natural resources, in timber, coal, iron and oil, against monopolistic control, the development of our waterways for navigation and every other useful purpose, including the irrigation of arid lands, the reclamation of swamp lands, the clarification of streams, the development of water power, and the preservation of electric power generated by this natural force from the control of monopoly, and to such end we urge the exercise of all powers, national, state and municipal, both separately and in co-operation.

We insist upon a policy of administration of our forest reserves, which shall relieve it of the abuses which have arisen thereunder and which shall, as far as practicable, conform to the police regulations of the several states wherein the reserves are located, which shall enable homesteaders as of right to occupy and acquire title to all portions thereof which are especially adapted to agriculture, and which shall furnish a system of timber sales available as well to the private citizen as to the large manufacturer and consumer.

GRAZING LANDS.

The establishment of rules and regulations, if any such are necessary in relation to free grazing upon the public lands outside of forest or other reservations until the same shall eventually be disposed of should be left to the people of the states respectively in which such lands may be situated.

PAN-AMERICAN RELATIONS.

The Democratic party recognizes the importance and advantage of developing closer ties of Pan-American friendship and commerce between the United States and her sister nations of Latin America, and favors the taking of such steps, consistent with Democratic policies, for better acquaintance, greater mutual confidence and larger exchange of trade as will bring lasting benefit not only to the United States, but to this group of American republics having constitutions, forms of government, ambitions and interests akin to our own.

PANAMA CANAL.

We believe that the Panama canal will prove of great value to our country and favor its speedy completion.

ASIATIC IMMIGRATION.

We favor full protection by both national and state governments within their respective spheres, of all foreigners residing in the United States under treaty, but we are opposed to the admission of Asiatic immigrants who cannot be amalgamated with our population or whose presence among us would raise a race issue and involve us in diplomatic controversies with oriental powers.

CONCLUSION.

The Democratic party stands for democracy; the Republican party has drawn to itself all that is aristocratic and plutocratic.

The Democratic party is the champion of equal rights and opportunities to all; the Republican party is the party of privilege and private monopoly.

The Democratic party listens to the voice of the whole people and gauges progress by the prosperity and advancement of the average man; the Republican party is subservant to the comparatively few who are the beneficiaries of governmental favoritism. We invite the co-operation of all, regardless of previous political affiliation or past differences, who desire to preserve a government of the people, by the people and for the people, and who favor such an administration of the government as will insure, as far as human wisdom can, that each citizen shall draw from society a reward commensurate with his contribution to the welfare of society.

National Convention, Columbus, Ohio, July 15-16, 1908.

Temporary Chairman—ROBERT H. PATON, of Illinois.

Permanent Chairman—CHARLES SCANLON, of Pennsylvania.

Secretary—W. G. CALDERWOOD, of Minnesota.

NATIONAL PLATFORM.

The Prohibition party of the United States assembled in convention at Columbus, Ohio, July 15, 16, 1908, expressing gratitude to Almighty God for the victories of our principles in the past, for encouragement at present and for the confidence of early and triumphant success in the future, makes the following declaration of principles and pledges their enactment into law when placed in power:

1. The submission by Congress to the several states of an amendment to the federal constitution prohibiting the manufacture, sale, importation or transportation of alcoholic liquors for beverage purposes.

2. The immediate prohibition of the liquor traffic for beverage purposes in the District of Columbia, in the territories and all places over which the national government has jurisdiction, the repeal of the internal revenue tax on alcoholic liquors and the prohibition of the interstate traffic therein.

3. The election of United States Senators by direct vote of the people.

4. Equitable, graduated income and inheritance taxes.

5. The establishment of postal savings banks and the guaranty of deposits in banks.

6. The regulation of all corporations doing an interstate commerce business.
7. The creation of a permanent tariff commission.
8. The strict enforcement of law, instead of the official tolerance and practical license of the social evil which prevails in many of our cities, with its unspeakable traffic in girls.
9. Uniform marriage and divorce laws.
10. An equitable and constitutional employers' liability act.
11. Court review of postoffice department decisions.
12. The prohibition of child labor in mines, workshops and factories.
13. Legislation basing suffrage only upon intelligence and ability to read and write the English language.
14. The preservation of the mineral and forest resources of the country and the improvement of the highways and water-ways.

Believing in the righteousness of our cause and in the final triumph of our principles and convinced of the unwillingness of the Republican and Democratic parties to deal with these issues, we invite to full party fellowship all citizens who are agreed with us.

NATIONAL PLATFORM.

The Socialist party, in National convention assembled, again declares itself as the party of the working class, and appeals for the support of all workers of the United States and of all citizens who sympathize with the great and just cause of labor.

We are at this moment in the midst of one of those industrial breakdowns that periodically paralyze the life of the nation. The much-boasted era of our national prosperity has been followed by one of general misery. Factories, mills and mines are closed. Millions of men, ready, willing and able to provide the nation with all the necessaries and comforts of life are forced into idleness and starvation.

Within recent times the trusts and monopolies have attained an enormous and menacing development. They have acquired the power to dictate the terms upon which we shall be allowed to live. The trusts fix the prices of our bread, meat and sugar, of our coal, oil and clothing, of our raw material and machinery, of all the necessities of life.

The present desperate condition of the workers has been made the opportunity for a renewed onslaught on organized labor. The highest courts of the country have within the last year rendered decision after decision depriving the workers of rights which they had won by generations of struggle.

The attempt to destroy the Western Federation of Miners, although defeated by the solidarity of organized labor and the Socialist movement, revealed the existence of a far-reaching and unscrupulous conspiracy by the ruling class against the organizations of labor.

In their efforts to take the lives of the leaders of the miners the conspirators violated state laws and the federal constitution in a manner seldom equaled even in a country so completely dominated by the profit-seeking class as is the United States.

The congress of the United States has shown its contempt for the interests of labor as plainly and unmistakably as have the other branches of government. The laws for which the labor organizations have continually petitioned have failed to pass. Laws ostensibly enacted for the benefit of labor have been distorted against labor.

The working class of the United States cannot expect any remedy for its wrongs from the present ruling class or from the dominant parties. So long as a small number of individuals are permitted to control the sources of the nation's wealth for their private profit in competition with each other and for the exploitation of their fellowmen, industrial depressions are bound to occur at certain intervals. No currency reforms or other legislative measures proposed by capitalist reformers can avail against these fatal results of utter anarchy in production.

Individual competition leads inevitably to combinations and trusts. No amount of government regulation, or of publicity, or of restrictive legislation will arrest the natural course of modern industrial development.

While our courts, legislatures and executive offices remain in the hands of the ruling classes and their agents, the government will be used in the interest of these classes as against the toilers.

Political parties are but the expression of economic class interests. The Republican, the Democratic, and the so-called "Independence" parties and all parties other than the Socialist party, are financed, directed and controlled by the representatives of different groups of the ruling class.

In the maintenance of class government both the Democratic and Republican parties have been equally guilty. The Republican party has had control of the national government and has been directly and actively responsible for these wrongs. The Democratic party, while saved from direct responsibility by its political impotence, has shown itself equally subservient to the aims of the capitalist class whenever and wherever it has been in power. The old chattel slave owning aristocracy of the south, which was the backbone of the Democratic party, has been supplanted by a child slave plutocracy. In the great cities of our country the Democratic party is allied with the criminal elements of the slums as the Republican party is allied with the predatory criminals of the palace in maintaining the interest of the possessing class.

The various "reform" movements and parties which have sprang up within recent years are but the clumsy expression of widespread popular discontent. They are not based on an intelligent understanding of the historical development of civilization and of the economic and political needs of our time. They are bound to perish as the numerous middle class reform movements of the past have perished.

PROGRAM.

As measures calculated to strengthen the working class in its fight for the realization of this ultimate aim, and to increase its power of resistance against capitalist oppression, we advocate and pledge ourselves and our elected officers to the following program:

GENERAL DEMANDS.

1. The immediate government relief for the unemployed workers by building schools, by reforesting of cut-over and waste lands, by reclamation of arid tracts, and the building of canals, and by extending all other useful public

works. All persons employed on such works shall be employed directly by the government under an eight-hour work day and at the prevailing union wages. The government shall also loan money to states and municipalities without interest for the purpose of carrying on public works. It shall contribute to the funds of labor organizations for the purpose of assisting their unemployed members, and shall take such other measures within its power as will lessen the widespread misery of the workers caused by the misrule of the capitalist class.

2. The collective ownership of railroads, telegraphs, telephones, steamship lines and all other means of social transportation and communication and all land.

3. The collective ownership of all industries which are organized on a national scale and in which competition has virtually ceased to exist.

4. The extension of the public domain to include mines, quarries, oil wells, forests and water power.

5. That occupancy and use of land be the sole title to possession. The scientific reforestation of timber lands, and the reclamation of swamp lands. The land so reforested or reclaimed to be permanently retained as a part of the public domain.

6. The absolute freedom of press, speech and assemblage.

INDUSTRIAL DEMANDS.

7. The improvement of the industrial condition of the workers.

(a) By shortening the work day in keeping with the increased productivity of machinery.

(b) By securing to every worker a rest period of not less than a day and a half in each week.

(c) By securing a more effective inspection of workshops and factories.

(d) By forbidding the employment of children under sixteen years of age.

(e) By forbidding the interstate transportation of the products of child labor, of convict labor and of all uninspected factories.

(f) By abolishing official charity and substituting in its place compulsory insurance against unemployment, illness, accidents, invalidism, old age and death.

POLITICAL DEMANDS.

8. The extension of inheritance taxes, graduated in proportion to the amount of the bequests and to the nearness of kin.

9. A graduated income tax.

10. Unrestricted and equal suffrage for men and women, and we pledge ourselves to engage in an active campaign in that direction.

11. The initiative and referendum, proportional representation and the right of recall.

12. The abolition of the senate.

13. The abolition of the power usurped by the supreme court of the United States to pass upon the constitutionality of legislation enacted by Congress. National laws to be repealed or abrogated only by act of Congress or by a referendum of the whole people.

14. That the constitution be made amendable by majority vote.

15. The enactment of further measures for general education and for the conservation of health. The bureau of education to be made a department. The creation of a department of public health.

16. The separation of the present bureau of labor from the department of commerce and labor, and the establishment of a department of labor.

17. That all judges be elected by the people for short terms, and that the power to issue injunctions shall be curbed by immediate legislation.

18. The free administration of justice.

Such measures of relief as we may be able to force from capitalism are but a preparation of the workers to seize the whole powers of government, in order that they may thereby lay hold of the whole system of industry and thus come to their rightful inheritance.

NATIONAL PLATFORM.

PREAMBLE

The People's party of the United States in convention assembled at St. Louis, Missouri, this 2d day of April, 1908, with increased confidence in its contentions, reaffirms the declarations made by its national convention at Omaha.

The admonition of Washington's farewell; the state papers of Jefferson and the words of Lincoln are the teachings of our greatest apostles of human rights and political liberty. There has been a departure from the teachings of these great patriots during recent administrations. The government has been controlled so as to place the rights of property above the rights of humanity and has brought the country to a condition that is full of danger for our national well-being. Financial combinations have had too much power over Congress and too much influence with the administrative departments of the government.

Prerogatives of government have been unwisely and often corruptly surrendered to corporate monopoly and aggregations of predatory wealth. The supreme duty of the hour is for the people to insist that these functions of

government be exercised in their own interest. Not the giver of the "thirty pieces" of silver has been condemned, but the "Judas" that received them, execrated through the ages; the sycophants of monopoly deserve no better fate.

MONEY.

The issuance of money is a function of government and should not be delegated to corporations or individuals. The constitution gives Congress alone the power to issue money and regulate the value thereof. We therefore demand that all money shall be issued by the government direct to the people without the intervention of banks and shall be a full legal tender for all debts, public and private, and in quantity sufficient to supply the needs of the country.

The issue and distribution of full legal tender money from the treasury shall not be through private banks, preferred or otherwise, but direct to the people without interest for the construction and purchase of federal and internal improvements, utilities and employment of labor.

LAND.

The public domain is the sacred heritage of all the people, and should be held for homesteads for actual settlers only. Alien ownership should be forbidden and lands now held by aliens or by corporations who have violated the conditions of their grants should be restored to the public domain.

TRUSTS AND MONOPOLIES.

To prevent unjust discriminations and monopoly the government should own and control the railroads and those public utilities which in their nature are monopolies. To perfect the postal service the government should own and operate the general telegraph and telephone systems and provide a parcels post.

As to those trusts and monopolies which are not public utilities or natural monopolies we demand that those special privileges which they now enjoy and which alone enable them to exist should be immediately withdrawn.

Corporations being the creatures of government should be subjected to such governmental regulation and control as will adequately protect the public.

We demand the taxation of monopoly privileges while they remain in private hands to the extent of the value of the privilege granted.

We demand that Congress shall enact a general law uniformly regulating the powers and duties of all incorporated companies doing interstate business.

INITIATIVE AND REFERENDUM.

As a means of placing all public questions directly under the control of the people we demand that legal provision be made under which the people may exercise the initiative, referendum and proportional representation, and direct vote for all public officers with the right of recall.

We recommend a federal statute that will recognize the principle of the initiative and referendum, and thereby restore to the voters the right to instruct their national representatives.

LABOR.

We believe in the right of those who labor to organize for their mutual protection and benefit, and pledge the efforts of the People's party to preserve this right inviolate.

We condemn the recent attempt to destroy the power of trades unions through the unjust use of federal injunction, substituting government by injunction for free government.

We favor the enactment of legislation looking to the improvement of conditions for wage-earners.

We demand the abolition of child labor in factories and mines, and the suppression of sweatshops.

We oppose the use of convict labor in competition with free labor.

We demand the exclusion from American shores of foreign pauper labor imported to beat down the wages of intelligent American workmen.

We favor the eight-hour work day, and legislation protecting the lives and limbs of workmen through the use of safety appliances.

We demand the enactment of an employers' liability act within constitutional bounds.

We declare against the continuation of the criminal carelessness of the operation of mines through which thousands of miners have lost their lives to increase the dividends of stockholders and demand the immediate adoption of precautionary measures to prevent a repetition of such horrible catastrophes.

We declare that in times of depression when workmen are thrown into enforced idleness that works of public improvement should be at once inaugurated and work provided for those who cannot otherwise secure employment.

We especially emphasize the declaration of the Omaha platform that "Wealth belongs to him who creates it and every dollar taken from labor without a just equivalent is robbery."

We congratulate the farmers of the country upon the enormous growth of their splendid organizations and the good already accomplished through them, bringing higher prices for farm products and better conditions generally for those engaged in agricultural pursuits. We urge the importance of maintaining these organizations and extending their power and influence.

COURTS.

We condemn all unwarranted assumption of authority by inferior federal courts in annulling, by injunction, the laws of the states, and demand legislative action by Congress which will inhibit such usurpation and will restrict to the supreme court of the United States the exercise of such power in cases involving state legislation.

We are opposed to gambling in futures.

We present to all people the foregoing declaration of principles and policies as our deep, earnest abiding convictions; and now, before the country and in the name of the great moral but eternal power in the universe that makes for right thinking and right living, and determine the destiny of nations, this convention pledges that the People's party will stand by these principles and policies in success and in defeat; that never again will the party by the siren songs and false promises of designing politicians be tempted to change its course or be again drawn upon the treacherous rocks of fusion.

National convention, Chicago, July 27-28, 1908.

Temporary Chairman—WILLIAM R. HEARST, of New York.

Permanent Chairman—CHARLES A. WALSH, of Iowa.

Secretary—WILLIAM A. DEFORD, of New York.

NATIONAL PLATFORM.

We, independent American citizens, representing the Independence party in forty-four states and two territories, have met in national convention to nominate, absolutely independent of all other political parties, candidates for President and Vice-President of the United States.

Our action is based upon a determination to wrest the conduct of public affairs from the hands of selfish interests, political tricksters and corrupt bosses, and make the government, as the founders intended, an agency for the common good.

At a period of unexampled national prosperity and promise, a staggering blow was dealt to legitimate business by the unmolested practice of stock watering and dishonest financiering. Multitudes of defenseless investors, thousands of honest business men and an army of idle workmen are paying the penalty. Year by year, fostered by wasteful and reckless governmental extravagance, by the manipulation of trusts and by a privilege creating tariff, the cost of living mounts higher and higher. Day by day the control of the government drifts further away from the people and more firmly into the grip of machine politicians and party bosses.

RELIEF FOR VOTERS.

The Republican and Democrat parties are not only responsible for these conditions, but are committed to their indefinite continuance. Prodigal of promises, they are so barren of performance that to a new party of independent voters the country must look for the establishment of a new policy and a return to genuine popular government.

Our object is not to introduce violent innovations or startling new theories. We of the Independence party look back, as Lincoln did, to the Declaration of Independence as the fountainhead of all political inspiration. It is not our purpose to attempt to revolutionize the American system of government, but to restore the action of the government to the principles of Washington and Jefferson and Lincoln. It is not our purpose either to effect a radical change in the American system of government, but to conserve for the citizens of the United States their privileges and liberties won for them by the founders of this government and to perpetuate the principles and policies upon which the nation's greatness has been built.

The Independence party is, therefore, a conservative force in American politics, devoted to the preservation of American liberty and independence, to honesty in elections, to opportunity in business and to equality before the law. Those who believe in the Independence party and work with it are convinced that a genuine democracy should exist; that a true republican form of government should continue; that the power of government should rest with the majority of the people, and that the government should be conducted for the benefit of the whole citizenship, rather than for special advantage of any particular class.

DIRECT NOMINATION.

As of first importance, in order to restore the power of government to the people, to make their will supreme in the primaries, in the election and in the control of public officials after they have been elected, we declare for direct nominations, the initiative and referendum and the right of recall.

It is idle to cry out against the evil of bossism while we perpetuate a system under which the boss is inevitable. The destruction of an individual boss is of little value. The people in their politics must establish a system which will eliminate, not only an objectionable boss, but the system of bossism. Representative government is made a mockery by the system of modern party conventions dominated by bosses and controlled by cliques. We demand the natural remedy of direct nominations by which the people not only elect, but, which is far more important, select their representatives.

THE REFERENDUM.

We believe in the principles of the initiative and referendum and we particularly demand that no franchise grant go into operation until the terms and conditions have been approved by popular vote in the locality interested.

THE RECALL.

We demand for the people the right to recall public officials from public service. The power to make officials resides in the people, and in them also should reside the power to unmake and remove from office any official who demonstrates his unfitness or betrays the public trust.

CORRUPTION FUNDS.

Of next importance in destroying the power of selfish special interests and the corrupt political bosses whom they control is to wrest from their hands their main weapon, the corruption fund. We demand severe and effective legislation against all forms of corrupt practices at elections and advocate prohibiting the use of any money at elections except for meetings, literature and the necessary traveling expenses of candidates. Bidding for votes, the Republican and Democratic candidates are making an outcry about publicity of contributions, although both the Republican and Democratic parties have for years consistently blocked every effort to pass a corrupt practices act. Publicity of contributions is desirable and should be required, but the main matter of importance is the use to which contributions are put. We believe that the dishonest use of money in the past, whether contributed by individuals or by corporations, has been chiefly responsible for the corruption which has undermined our system of popular government.

ECONOMIC ADMINISTRATION.

We demand honest conduct of public office and businesslike and economical administration of public affairs, and we condemn the gross extravagance of federal administration and its appalling annual increase in appropriations. Unnecessary appropriations mean unnecessary taxes, and unnecessary taxes whether direct or indirect, are paid by the people and add to the everincreasing cost of living.

OVER-CAPITALIZATION.

We condemn the evil of overcapitalization. Modern industrial conditions make the corporation and stock company a necessity, but overcapitalization in corporations is as harmful and criminal as is personal dishonesty in an individual. Compelling the payment of dividends upon great sums that have never been invested, upon masses of watered stock not justified by the property, overcapitalization prevents the better wages, the better public services and the lower cost that should result from American inventive genius and that wide organization which is replacing costly individual competition. The collapse of dishonestly inflated enterprises robs investors, closes banks, destroys confidence and engenders panics. The Independence party advocates as a primary necessity for sounder business conditions and improved public service the enactment of laws, state and national, to prevent watering of stock, dishonest issues of bonds and other forms of corporation frauds.

LABOR.

We denounce the so-called labor planks of the Republican and Democratic platforms as political buncombe and contemptible clap-trap unworthy of national parties claiming to be serious and sincere.

The Republican declaration that "no injunction or temporary restraining order should be issued without notice, except where irreparable injury would result from delay" is empty verbiage, for a showing of irreparable injury can always be made and is always made in *ex parte* affidavits.

The Democratic declaration that "injunctions should not be issued in any case in which injunctions should not issue if no industrial dispute were involved" is meaningless and worthless.

Such insincere and meaningless declarations place a low estimate upon the intelligence of the average American workingman and exhibit either ignorance of or indifference to the real interests of labor.

The Independence party condemns the arbitrary use of the writ of injunction and contempt proceedings as a violation of the fundamental American right of trial by jury.

From the foundation of our government down to 1872 the federal judiciary act prohibited the issue of any injunction without reasonable notice until after a hearing. We assert that in all actions growing out of a dispute between employers and employes concerning terms or conditions of employment, no injunction should issue until after a trial upon the merits, that such trial should be had before a jury and that in no case of alleged contempt should any person be deprived of liberty without a trial by jury.

The Independence party believes that the distribution of wealth is as important as the creation of wealth, and indorses those organizations among farmers and workers which tend to bring about a just discrimination of wealth through good wages for workers and good prices for farmers, and which protect the employer and the consumer through equality of price for labor and for product, and we favor such legislation as will remove them from the operation of the Sherman anti-trust law.

EIGHT-HOUR DAY.

We indorse the eight-hour day, favor its application to all government employes and demand the enactment of laws requiring that all work done for the government, whether federal or state, and whether done directly or indirectly through contractors or sub-contractors, shall be done on an eight-hour basis.

We favor the enactment of a law condemning as illegal any combination or conspiracy to blacklist employes.

We demand protection for workmen through enforced use of standard safety appliances and provisions of hygienic conditions in the operation of factories, railways, mills, mines and all industrial undertakings.

We advocate state and federal inspection of railways to secure a greater safety for railway employes and for the traveling public.

We call for the enactment of stringent laws fixing employers' liabilities and a rigid prohibition of child labor through co-operation between the state governments and the national government.

We condemn the manufacture and sale of prison-made goods in the open market in competition with free labor manufactured goods. We demand that convicts be employed direct by different states in the manufacture of products for use in state institutions and in making good roads and in no case shall convicts be hired out to contractors or sub-contractors.

We favor the creation of a department of labor including mines and mining, the head of which shall be a member of the president's cabinet.

The great abuses of grain inspection by which the producers are plundered, demand immediate and vigorous correction. To that end we favor federal inspection under a strict civil service law.

CURRENCY.

The Independence party declares that the right to issue money is inherent in the government and it favors the establishment of a central governmental bank through which the money so issued shall be put into general circulation.

THE TARIFF.

We demand a revision of the tariff, not by the friends of the tariff, but by the friends of the people, and declare for a gradual reduction of tariff duties, with just consideration for the rights of the consuming public, and of established industry. There should be no protection for oppressive trusts which sell cheaply abroad and take advantage of the tariff at home to crush competition, raise prices, control production and limit work and wages.

THE RAILROADS.

The railroads must be kept open to all upon exactly equal terms. Every form of rebate and discrimination in railroad rates is a crime against business and must be stamped out. We demand adequate railroad facilities and advocate a bill empowering shippers in time of need to compel railroads to provide sufficient cars for freight and passenger traffic and other railroad facilities through summary appeal to the courts. We favor the creation of an

Interstate Commerce Court, whose sole function it shall be to review speedily and enforce summarily the orders of the Interstate Commerce Commission. The Interstate Commerce Commission should have the power to initiate investigation into the reasonableness of rates and practices, and no increase in rates should be put into effect until opportunity for such investigation is afforded. The Interstate Commerce Commission should proceed at once with a physical valuation of railroads engaged in interstate commerce.

COMMERCIAL MONOPOLIES.

We believe that legitimate organizations in business, designed to secure an economy of operation and increased production, are beneficial wherever the public participates in the advantages which result.

We denounce all combinations for restraint of trade and for the establishment of monopoly in all products of labor and declare that such combinations are not combinations for production, but for extortion, and that activity in this direction is not industry, but robbery.

In cases of infractions of the anti-trust law or of the Interstate commerce act, we believe in the enforcement of a prison penalty against the guilty and responsible individuals controlling the management of the offending corporations, rather than a fine imposed upon stockholders.

PUBLIC OWNERSHIP.

We advocate the extension of the principle of public ownership of public utilities, including railroads, as rapidly as municipal, state or national governments shall demonstrate ability to conduct public utilities for the public benefit. We favor specifically government ownership of the telegraphs, such as prevails in every other civilized country in the world, and demand as an immediate measure that the government shall purchase and operate the telegraphs in connection with the postal service.

PARCELS POST.

The parcels post system should be rapidly and widely extended and government postal savings banks should be established where the people's deposits will be secure, the money to be loaned to the people in the locality of the several banks and at a rate of interest to be fixed by the government.

GOOD ROADS.

We favor the immediate development of a national system of good roads connecting all states and national aid to states in the construction and maintenance of post roads.

POSTAL CENSORSHIP.

We favor a court of review of the censorship and arbitrary rulings of the postoffice department.

STATEHOOD.

We favor the admission of Arizona and New Mexico to separate statehood.

BUCKET SHOPS.

We advocate such legislation, both state and national, as will suppress the bucket shop and prohibit the fictitious selling of farm products for future delivery.

NATIONAL HEALTH BUREAU.

We favor the creation of a national department of public health to be presided over by a member of the medical profession, this department to exercise such authority over matters of public health, hygiene and sanitation which come properly within the jurisdiction of the national government and does not interfere with the right of states or municipalities.

ASIATIC EXCLUSION.

We oppose Asiatic immigration, which does not amalgamate with our population, creates race issues and un-American conditions and which reduces wages and tends to lower the high standard of living and the high standard of morality which American civilization has established.

We demand the passage of an exclusion act which shall protect American workingmen from competition with Asiatic cheap labor and which shall protect American civilization from the contamination of Asiatic conditions.

THE NAVY.

The Independence party declares for peace and against aggression and will promote the movement for the settlement of international disputes by arbitration.

We believe, however, that a small navy is poor economy, and that a strong navy is the best protection in time of war and the best preventive of war. We therefore favor the speedy building of a navy sufficiently strong to protect at the same time both the Atlantic and Pacific coasts of the United States.

INLAND WATERWAYS.

We rejoice in the adoption by both the Democratic and Republican platforms of the demand of the Independence party for improved national waterways and the Mississippi Inland Deep Waterways project, to complete a ship canal from the gulf to the great lakes. We favor the extension of this system to the tributaries of the Mississippi, by means of which thirty states shall be served and twenty thousand miles added to the coast line of the United States. The reclamation of arid lands should be continued and the irrigation program now contemplated by the government extended and steps taken for the conservation of the country's natural resources, which should be guarded not only against devastation and waste, but against falling into the control of monopoly.

The abuses growing out of the administration of our forest reserves must be corrected and provision should be made for free grazing from public lands outside of forest or other reservation. In behalf of the people residing in arid portions of our western states we protest vigorously against the policy of the federal government in selling the exclusive use of water and electric power derived from public works to private corporations, thus creating a monopoly and subjecting citizens living in those sections to exorbitant charges for light and power and diverting enterprises originally started for public benefit into channels for corporate greed and oppression, and we demand that no more exclusive contracts be made.

PROTECTION OF CITIZENS.

American citizens abroad, whether native born or naturalized, and of whatever race or creed, must be secured in the enjoyment of all rights and privileges under our treaties, and wherever such rights are withheld by any country on the ground of race or religious faith, steps should be taken to secure the removal of such unjust discrimination.

SENATE ELECTION—INCOME TAX.

We advocate the popular election of United States senators and judges, both state and federal, and favor a graduated income tax and any constitutional amendments necessary to these ends.

Equality of opportunity, the largest measure of individual liberty consistent with equal rights; the overthrow of the rule of special interest and the restoration of government by the majority exercised for the benefit of the whole community—these are the purposes to which the Independence party is pledged, and we invite the co-operation of all patriotic and progressive citizens, irrespective of party, who are in sympathy with these principles and in favor of their practical enforcement.

Permanent Chairman—HON. JONATHAN P. DOLLIVER, of Fort Dodge, Webster county.

Secretary—MR. W. F. HUNTER, of Webster City.

The convention nominated two candidates for Judge of Supreme Court, a candidate for Superintendent of Public Instruction and adopted a state platform.

STATE PLATFORM.

The Republicans of Iowa, through their delegates selected according to the law of the state, make the following declaration of their views upon public affairs:

They declare that to deserve the continued support of the people the party should oppose by every means in its power any political encroachments or legislative interference by those who seek to reap extortionate profits through the acquisition of unjust privileges.

REAFFIRM NATIONAL PLATFORM.

They reaffirm their loyalty to the Republican National Platform of 1903, and pledge themselves to do whatsoever they can to carry every part of it into full effect. They especially emphasize their long and well settled faith in the Republican doctrine of protection. Its soundness and wisdom are beyond controversy, and it ought to be accepted as the established policy of the nation. The last Republican national platform announced with clearness and precision the rules for its application to imports, and when so applied it safeguards equally the interests of labor and capital, and promotes equally the welfare of the producer and the consumer. They do not recognize the revision of 1909 as a satisfactory fulfillment of the party promise. In order to bring the tariff law into a complete compliance with the rule of the platform it is necessary that the difference between the cost of producing dutiable commodities at home and abroad should be correctly known. Therefore they favor the creation of an independent, non-partisan tariff commission, which shall be the instrumentality of congress to ascertain the difference between the cost of production here and in other countries, and publish the facts so that not only congress but the people, shall be advised of the results of its investigation. Until such a commission is authorized they approve the effort of the president to secure the desired information through a board of experts employed for that purpose. They profoundly believe that when the tariff is again revised its schedules should be considered separately, so that each subject can be dealt with upon its own merits, and thus secure fair and impartial action upon the part of congress.

They indorse such efforts as President Taft and his advisors have made to fulfill the promises of the national platform.

STATE ELECTION OF 1910

DOLLIVER AND CUMMINS.

They commend to the nation the type of statesmanship exhibited by Senators Dolliver and Cummins, and they heartily indorse their work upon the tariff bill, the railroad bill and the postal savings bill. The patriotic efforts of our senators to protect the public rights from the greed of special interests in national legislation has excited the admiration of the country; their attempt to secure the largest measure of equitable revision in the tariff law was a Republican defense of the people's welfare; their insistence determined largely the beneficial features of the railroad law, and it is with pride that the Republicans of Iowa recognize the contribution of their chosen representatives to the welfare of the nation.

REVISION OF THE HOUSE RULES.

They commend the action of the House of Representatives in revising its rules giving to the individual member a greater freedom of expression and initiative in the discharge of his duty, and they indorse the contributions of Iowa's representatives to this most important reform.

The Republicans of Iowa are the best judges of the Republicanism of the senators and representatives whom they send to congress and they resent any attempt to exclude any of them from the honors and privileges which properly attach to membership in the Republican party.

STATE ADMINISTRATION.

In the administration of state affairs a high degree of efficiency on the part of Governor Carroll and of all of his official associates justifies the continued confidence of the people in Republican control. Functions of government have been enlarged in scope and improved in character and usefulness, while the levy for state support is being reduced. All the Republican nominees have to their credit such excellent public service and promise that we call upon all Republicans to rally to their support and to see that every man on the ticket is triumphantly elected.

ANTI-TRUST LAWS.

The Republicans of the United States long ago determined it was essential in a free country to preserve substantial competition in business, and therefore they proposed, and through their influence was enacted, the anti-trust law, the sole object of which was to forbid agreements and conspiracies in restraint of trade, and to prevent monopoly in production and commerce. The Republicans of Iowa favor not only the strict enforcement of the law but they believe it should be given additional strength and scope in order to meet the devices of modern industry. Competition must be restored where it has been overcome by unjust or unlawful combination, and it must be maintained where it still exists. They are not opposed to the mere magnitude of enterprise, and they insist that there shall be such competition as will protect the people against the exactions of unrestrained avarice and greed.

RAILROAD REGULATION.

They congratulate the country upon the success obtained in the regulation of our common carriers, but they feel that there is yet much to be done to secure reasonable rates and charges for the service rendered, and to secure for each community the relative rates and charges to which it is entitled. It is also manifest that much is yet to be done to insure to passengers and employes that measure of safety which the sanctity of human life demands. All common carriers should have fair compensation, but not more. It is clear that to enable the railway commissions, both national and state, to discharge the duties imposed on them by law, a valuation should be made of the physical properties of railway companies in order to secure an effective control of rates and a complete system of accounting.

POSTAL SAVINGS BANK.

They favor every policy which will encourage habits of thrift and saving among the people, but they believe that the postal savings law recently passed ought to be amended in at least two respects: a definite rule for the designation of postoffices as depositories should be established, and the money gathered at the postoffices in the various communities in which they are established should be kept in the banks of such communities until withdrawn for the purpose of paying depositors, or diverted by the ordinary laws of trade and commerce.

CONSERVATION.

They believe that the conservation of our natural resources is one of the most important duties of the government. The policy is best understood by reference to the often repeated declarations of Theodore Roosevelt, and the Republicans of Iowa are in favor of the policy as he has expounded it, and they insist that it shall be carried out by public officers in complete sympathy with his views.

PRIMARY ELECTIONS.

They regard with gratification and pride the operation of the primary law in this state. It has brought into actual participation in the selection of candidates thousands where before there were hundreds. The law, in some respects, may be properly amended, but such amendments ought to strengthen the law and not weaken it. They ought to enlarge the power of the individual voter, and not diminish it. The tendency of the times is to give the voter a more potential part in the management of the affairs of the country, and they are in hearty sympathy with this tendency.

TEMPERANCE.

Under the operation of Republican laws in Iowa temperance sentiment has been promoted, temperance territory extended, and saloon influence minimized. While Republican control is continued no backward step shall in any degree imperil the moral welfare of the state.

They reiterate their demands for the election of senators of the United States by direct vote, and until the constitution of the United States can be so amended they favor such laws as will most nearly approach that end.

NATIONAL CONVENTIONS.

They believe that the present basis of representation in the Republican national convention is unfair and illogical. They insist that there should be equality of influence in the selection of candidates for president and vice-president, and they urge upon congress such enactments as will either nominate candidates for president and vice-president by direct vote, or for such regulation of national party conventions as will insure representation according to party strength and not according to the representation of the states in congress.

INCOME TAX.

They believe that the United States should have unquestioned power to levy and collect a tax upon incomes, and therefore they urge the next general assembly of the state of Iowa to ratify the amendment to the constitution now proposed upon that subject.

They believe that the strength and permanence of the nation depends upon the quality of its citizens. Every boy and girl should have the best opportunity possible for education and training, and therefore they favor the prohibition of such child labor as impairs either the mental or physical vigor of children, or which precludes the chance of proper education.

They favor the co-operation of the national government in enlarging the usefulness of the system of public education in the several states by extending the work of the agricultural experiment stations, the establishment of secondary schools, which shall include the study of agriculture, domestic science and the mechanic arts, and by aiding the normal schools of the country in the preparation of teachers for such schools.

GOOD ROADS.

At a time when interest in improved highways is moving every state to action, Iowa should not be slow to recognize that bad roads put a heavy tax on agriculture, tend to lessen the attractions to rural life and inevitably in the end work to lower the values of all forms of property. We urge upon the coming legislature that it take the road problem into comprehensive consideration and order such beginnings as will, as speedily as possible, give to Iowa the system of roads best adapted to our needs and conditions.

ALLISON MONUMENT.

Be it resolved that it is a privilege and duty of every citizen of Iowa to assist in and forward the movement to erect a fitting monument to the life, character and public service of Senator Allison.

Temporary Chairman—MR. JERRY B. SULLIVAN, of Des Moines, Polk county.

Permanent Chairman—HON. WILLIAM D. JAMIESON, of Shenandoah, Page county.

Secretary—MR. W. T. OAKES, of Clinton, Clinton county.

The convention nominated two candidates for Judge of the Supreme Court and adopted a State Platform.

STATE PLATFORM.

The Democratic party of Iowa in convention assembled reaffirms its faith and devotion to those essential principles of democracy which have ever held the party together in victory and defeat.

Democracy is a conservator of property and the champion of human rights. It defies alike both paternalism and communism. Its theory of government is that the government is best which governs least. It is the friend of both labor and capital. It adds to the reward of human endeavor by giving equal opportunities to all and special privileges to none. Democracy fixes no limit to honest accumulation of capital but it denies that wealth and cunning leagued together may lawfully concentrate into a few hands the fruits of the productive energy of the world.

We denounce the republican tariff act as a masterpiece of injustice, involving remorseless exactions from the many to enrich the few, through the trusts and monopolies which it fosters. Tariff taxation like other taxation should be for public purposes only and not for private profit, and should be so levied as not to discriminate against any section, class, industry or occupation and it should be limited to the actual necessities of the government, economically administered.

Illegal trusts and combinations are intolerable. They are fostered by republican tariff legislation. We favor the vigorous enforcement of the criminal law against guilty trust magnates and officials. We believe the true method of enforcing the criminal statutes of the United States is by the prosecution of the individual, guilty of the wrong. The assessment of a fine against a corporation is inoperative and inspires only contempt for the law.

We favor a law providing for fair and just regulation of the rates and service of railways, telephones, telegraph and express companies and other public

utilities. We believe that franchises should be granted only upon consent of the voters and we are opposed to the unjust discriminations in service and the excessive rates which are such a serious detriment to many of the cities and towns of Iowa.

We charge the Republican party with the reckless expenditure of public funds. The creation of new offices and the increase of salaries is out of all proportion to the public need. It is admitted by the leader of the Republican party in the senate of the United States that there is a needless waste of over \$300,000,000 per annum. The government of the United States is a business institution and should be conducted upon business principles and we believe that the people should interest themselves in public affairs to the extent of calling to account a party reckless in its expenditures of public funds and unworthy of continued power.

We favor an amendment to the constitution of the United States providing for the election of United States senators by a direct vote of the people. And until such amendment can be adopted we favor a law similar to the law now in force in Oregon, giving to the people the largest possible power in the selection of their representatives in the senate of the United States.

We favor an income tax and we most heartily favor the ratification of the proposed amendment to the constitution of the United States authorizing the levy of such tax.

We are opposed to any legislation under which there may be established a central bank and we condemn the Republican party for permitting the establishment of the postal savings bank, the funds to be withdrawn from the local community and sent to the large financial institutions of the east, and we recommend such legislation as shall prevent this discrimination against the people of the great west.

We favor the conservation of our natural resources. The Democratic party has always opposed gifts of public property to private individuals. We demand the withdrawal from entry of our remaining timber, oil, coal, and iron lands, and water sites. The Republican course of favoritism and the countenancing of fraud in relation thereto have become a national scandal. The remnants of our resources should be preserved in the government for the benefit of the people. We favor the improvement of interior waterways and urge appropriation for such purposes.

We believe in strict enforcement of all laws and in the immediate removal of inefficient, corrupt or immoral officials, but we favor a revision of existing laws so as to provide for the recall of such officials by the voters of the locality which elected them.

We believe in such amendment of the primary law as will reduce the enormous expense thereof and as will more effectually enable the people to actually control a nomination of their candidates for office.

The Democratic party is in favor of as large a degree of individual liberty as is compatible with the rights of organized society, and therefore, with the reference to the use and sale of intoxicating liquor, we are in favor of a strict local option law with high license, and the minimum to be fixed by the legislature under which the municipality shall declare by vote of the people thereof, whether or not intoxicants shall be sold therein.

We believe in such legislation as will result in the betterment of the roads of Iowa and we favor a law providing for the return to the several counties of the state of a fair proportion of the hunters' license tax and the automobile tax the same to be used for the extension of good roads.

In order that our judges may not owe their places on the bench to the favor of party machines, we favor the nomination of candidates for judicial places and the election of judges as nearly as may be following the plan of nomination and election of commissioners in commissioned governed cities of the state.

We believe in the principle of the initiative, referendum and recall and we favor legislation putting the same into force.

Assured that the people of Iowa in common with those of other states, possess the intelligence to supervise their own internal affairs, including those

STATE ELECTION OF 1910

relating to the public health, we oppose the extension of federal power in health matters in a way or with such effect as would encroach upon the rights or functions of state government.

In the support of these principles we ask the support of all patriotic citizens, regardless of party affiliations.

We favor the immediate enactment of the dollar a day pension bill introduced and championed in both the Sixtieth and Sixty-first congresses by that Democratic veteran general, Isaac R. Sherwood of Ohio, and we condemn the arbitrary action of the speaker of the house and the administration in refusing to allow this beneficent and patriotic measure to come to a vote in the house of representatives.

We demand of the coming state legislature that cities be granted the right to assess and tax the railroad properties within their limits the same as other properties, all alike enjoying the same protection and advantages.

MR. C. DURANT JONES,
State Chairman.

Temporary and Permanent Chairman—MR. MALCOLM SMITH, of Cedar Rapids.
Secretary—MR. L. J. U. SMAY, of Lorimor.

The convention selected candidates for state offices and adopted a state platform.

STATE PLATFORM.

The Prohibition party of Iowa in convention assembled, April 26-27, 1910, express gratitude to Almighty God for the overwhelming sentiment in our state against the liquor traffic; for the clamorous demand for cleaner and more efficient government, both state and municipal; and for the condemnation, by the great masses of our citizenship, of those official acts which encourage, ignore or tolerate, the violation of law; all of which indicates the speedy and permanent overthrow of the liquor traffic and all of its evil progeny.

1. We demand an amendment to the federal constitution, prohibiting the manufacture, sale, and importation of intoxicating liquors, for beverage purposes, in the United States and its territories.

2. We demand the immediate repeal of the internal revenue tax on intoxicating liquors.

3. We favor a graduated income tax to provide for any deficiency that may result from the elimination of the liquor revenue.

4. We favor a law basing the franchise on intelligence instead of sex.

5. We recommend an interstate commerce law, prohibiting any person, company or corporation from transporting or delivering intoxicating liquors into any state, or section of any state, where the sale of such liquor is prohibited, and providing an official record, showing the states and sections of states in which such sales are prohibited, for the benefit of all persons, companies and corporations, interested or engaged in interstate commerce or transportation.

6. We congratulate the Thirty-third General Assembly and the State of Iowa for having enacted into law three of the principles of our state platform of 1908, viz.: The "Red Light Injunction and Abatement," the "Summary removal by court of officers refusing or neglecting to perform the duties of their offices" and the "Punishment by fine and imprisonment of individual members of companies or corporations who combine to control the prices of commodities."

7. We demand that the General Assembly of Iowa, submit to the voters at the earliest possible time, a constitutional amendment prohibiting the manufacture and sale of intoxicating liquors as a beverage.

8. We demand the immediate and unconditional repeal of the mulct law.

9. We demand an amendment to the law, specifying the duties of the county attorney, commanding him to institute injunction suits against all nuisances where the evidence is within his knowledge and available.

10. We recognize the efficiency and practicability of the injunction and abatement law as applied to liquor and social evil nuisances, and demand that this principle of law be extended to include gambling and the sale of cigarettes, as nuisances.

11. We favor the repeal of that part of the law which prevents the name of any candidate from appearing on the ballot more than once.

OFFICIAL CALL FOR THE STATE CONVENTION TO BE HELD AT DES
MOINES, JULY 4, 1910.

*To the Officers and Members of the Locals and Members-at-Large of the Socialist
Party of Iowa:*

Greeting: By authority of the constitution the State Central Committee has called a convention of the Socialist party of Iowa, to meet in Des Moines at 10:30 A. M., July 4, 1910. The basis of representation has been fixed by the State Central Committee as follows: "One delegate from each local and community at large, and one additional delegate for every five members or major fraction thereof in good standing, the average membership for the first four months of the current year to be the basis for computing; also each member at large not belonging to a community at large to be a delegate. Delegates' credentials from locals to be signed by chairman and secretary, from community at large by the secretary and the paid up red card to be the accepted credential from the member at large."

PURPOSE.

The purpose of the convention will be to nominate a complete set of state officers, and the adoption of platform and declarations of the party, as well as such other actions as may be deemed for the welfare of the party and party organization generally.

CREDENTIALS.

Credential blanks are enclosed herewith for the delegates from the locals and communities at large. These should be made out in duplicate. One copy should be presented by the delegate to the committee on credentials, and another copy should be forwarded to the state secretary not later than July 1st.

CONCLUSION.

Comrades, let us make this convention the beginning of the campaign that will place the State of Iowa in the front rank for Socialism. The time was never riper for propaganda. A growing interest in Socialism is apparent all over the state. New locals are organizing, and the old locals are showing renewed activity.

Hoping for a full attendance at the state convention, that every local will be represented, and that renewed activity will be the result, we are

Yours for the Revolution,

STATE CENTRAL COMMITTEE,

J. J. JACOBSEN, State Secretary.

Temporary and Permanent Chairman—MR. JAMES BAXTER, of Hiteinan.

Secretary—MR. J. J. JACOBSEN, of Des Moines.

The convention nominated candidates for state offices and adopted a state platform.

STATE PLATFORM.

The Socialist party of Iowa in convention assembled this 4th day of July, 1910; hereby reaffirm our adherence to the principles of the International Socialist movement and the national platform of the Socialist party of the United States.

All other parties get their support from and are run in the interest of the capitalist class. The tariff question, the freight rate question, income and inheritance tax, and other middle class reforms as presented by these parties are merely quarrels between different sets of the capitalist class.

The two dominant political parties pretend to stand for all the people. The so-called reform parties claim to speak for the good people; the Socialist party frankly acknowledges that it is concerned chiefly with the working people.

The primary object of Socialism is to secure to the men and women who do the necessary and useful mental and manual work of the world the full economic value of their labor. The great industries of the country are now concentrated in the hands of a few private capitalists. The fact that these few capitalists own the industries enables them to appropriate to themselves most of the product of the wage worker and farmer. In the nature of things this must continue just as long as the industries are owned by private capitalists. The only way in which the wage worker and farmer can secure the full value of their labor is by the collective ownership and democratic management of such industries as under private ownership are used to exploit labor. The institution of this system of collective ownership is the object of the Socialist party.

The course industrial evolution will take in the field of agriculture is still somewhat in doubt; whether the present conditions indicate that the farm unit is tending to be smaller or the consolidation of farms means a larger unit is uncertain, but whatever the course the evolution in this field may take, the fact is brought out clearly that agriculture has already become a part of the great industrial whole. The farmer is more dependent on the modern means of transportation and manufacture than these industries are upon the farmer. The farmer no longer completes the process of agricultural production. This is completed off the farm and those who control the means by which this is accomplished dominate the situation.

The farmer, whether he be a farm hand, a tenant farmer, a mortgaged farmer or a free holding farmer is subject to an exploitation he cannot escape.

The aim of the Socialist movement is to abolish all exploitation of the workers. The farmer can therefore have nothing to lose and everything to gain by accepting Socialism.

In the meantime the Socialist party and all its representatives who may be elected to public office in this state will support and work for every measure which will tend to better the material conditions of the workers, protect their lives and health and increase their power, as a class, as well as all measures tending to secure to the people a fuller measure of true democracy in government and justice in social relations.

The Socialist party specifically demands the enactment of the following measures:

INDUSTRIAL DEMANDS.

1. We demand an employers' liability act, abolishing the doctrines of fellow servant, assumed risk, waiver and contributory negligence, and providing that full actual damages resulting from the injury or death of an employe may be recovered from the employer.

2. A lawful proper safeguard and sanitary regulation in all occupations with ample provisions for frequent and effective inspection of the places of employment, machinery, and appliances.

3. State insurance of all workers against sickness, invalidity, and old age.

4. An amendment to the state constitution declaring the right of the state to engage in any industry and in this way provide employment for the unemployed.

5. A gradual shortening of the legal workday in keeping with the increased productiveness of modern machinery, and a rest period of at least a day and a half in each week for workers in all industries.

6. Prohibition of the employment of children under the age of 16 years in gainful occupations.

7. Prohibition of the use of state militia, the police force and court injunctions in labor disputes.

8. Statutory recognition of the unrestricted right of workers to strike and boycott and to employ all peaceable means in furtherance of such struggles without subjecting the union funds to liability for damages to the employers.

POLITICAL DEMANDS.

9. Equal suffrage for all adult men and women.

10. Equal pay for equal work to men and women employed by the state or any of its sub-divisions.

11. The initiative, referendum, proportional representation, and right of recall, without the percentage of the petition's signers being so large as to prevent its use by the people.

12. Home rule for municipalities, and express statutory power to own and operate all public service utilities.

13. We demand the use of the union label on all documents.

14. Free text books for schools, same to be printed by the public.

15. A state law fixing a minimum wage for school teachers at \$60.00 per month.

16. Provision for proper and sanitary housing of the people.

17. Free feeding of needy school children without semblance of charity.

18. Free and speedy administration of justice. The retention and extension of our jury system and the jurymen to be selected mechanically from all classes and parties.

19. Abolition of capital punishment.

20. The abrogation of the power of courts and judges to nullify laws on the ground of unconstitutionality or any other ground.

21. The absolute freedom of press, speech and assemblance, including the right of civil service employes to express opinions on political questions.

PRESIDENTIAL ELECTIONS FROM 1789 TO 1908

(From World Almanac, 1909.)

AGGREGATE POPULAR VOTE AND ELECTORAL VOTE FOR CANDIDATES FOR PRESIDENT AND VICE-PRESIDENT AT EACH ELECTION.

NOTE—There is, properly speaking, no popular vote for President and Vice-President; the people vote for electors, and those, chosen in each State meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1824 is so meager and imperfect that a compilation would be useless. In most of the States, for more than a quarter century following the establishment of the Government, the State Legislatures "appointed" the Presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the Legislature. In this tabulation only the aggregate electoral votes for candidates for President and Vice-President in the first nine quadrennial elections appear.

REFERENCE NOTES TO THE FIVE SUCCEEDING PAGES.

*The candidates starred were elected. (a) The first Republican party is claimed by the present Democratic party as its progenitor. (b) No candidate having a majority of the electoral vote, the House of Representatives elected Adams. (c) Candidate of the Anti-Masonic party. (d) There being no choice, the Senate elected Johnson. (e) Eleven Southern States, being within the belligerent territory, did not vote. (f) Three Southern States disfranchised. (g) Horace Greeley died after election, and Democratic electors scattered their votes. (h) There being a dispute over the electoral vote of Florida, Louisiana, Oregon and South Carolina, they were referred by Congress to an electoral commission composed of eight Republicans and seven Democrats, which, by a strict party vote, awarded 185 electoral votes to Hayes and 184 to Tilden. (i) Free Democrat. (j) Free Silver Prohibition party. (k) In Massachusetts. There was also a Native American ticket in that State, which received 184 votes. (m) Middle of the Road or Anti-Fusion People's party. (n) United Christian party. (o) Union Reform party.

For popular and electoral vote by States in 1908 and 1904, see pages 488-490.

ELECTORAL VOTES.

1789. Previous to 1804 each elector voted for two candidates for President. The one who received the largest number of votes was declared President, and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were: George Washington, 69; John Adams, of Massachusetts, 34; John Jay, of New York, 9; R. H. Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntington, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

1792. George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican (a), 50; Thomas Jefferson,

of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote. Vacancies, 3. George Washington was chosen President and John Adams Vice-President.

1796. John Adams, Federalist, 71; Thomas Jefferson, Republican, 68; Thomas Pinckney, of South Carolina, Federalist, 59; Aaron Burr, of New York, Republican, 30; Samuel Adams, of Massachusetts, Republican, 15; Oliver Ellsworth, of Connecticut, Independent, 11; George Clinton, of New York, Republican, 7; John Jay, of New York, Federalist, 5; James Iredell, of North Carolina, Federalist, 3; George Washington, of Virginia; John Henry, of Maryland, and S. 1800. Thomas Jefferson, Republican, 73; Aaron Burr, Republican, 73; John Adams, Federalist, 65; Charles C. Pickney, Federalist, 64; John Jay, Federalist, 1 vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten States, which, being the largest vote cast for a candidate, elected him President. Burr received the votes of four States, which, being the next largest vote, elected him Vice-President. There were 2 blank votes.

1804. The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows: For President, Thomas Jefferson, Republican, 162; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 162; Rufus King of New York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

Monroe was chosen President and Tompkins Vice-President.

1820. For President, James Monroe, of Virginia, Republican, 231; John Q. Adams, of Massachusetts, Republican, 1. For Vice-President, Daniel D. The Prohibition and Socialist parties not having cast two per cent of the total vote cast at the last general election were not entitled to participate in the Primary Election to choose their candidates for state offices. The Attorney General held however, that they were entitled to choose their candidates for District offices if they had in any given district of the state cast two per cent of the vote cast in that district at the last general election. Under this ruling the Socialist party was entitled to choose its candidates for member of congress in the second, sixth and seventh congressional districts and the Prohibition party was entitled to choose its candidates for member of congress in the fifth, sixth, seventh, eighth and tenth congressional districts.

THOMAS D. FOSTER,

Member of Board of Education, is a native of England. He was born in Bradford, Yorkshire, November 25, 1847. This was his home until he was eleven years old, when his parents removed to Ireland, and made their home in County Kilkenny. In this interesting region his boyhood and school days were passed, and there the foundations were laid upon which his later success has been built.

His father was engaged in the bacon business, preparing Irish bacon for the English market; and importing American bacon for distribution in Ireland. When he was only sixteen years old his father's health failed and it became necessary for him to leave school and enter the business at that time. His early education was therefore limited to such training as an Irish district school supplies.

At the age of eighteen he went to Liverpool to enter the employ of the company of which he is now the head. He entered the business at the bottom, gradually working up through the various departments, until 1868, when he was sent by his employers to assist in the management of the New York branch and of the firm's pork packing plants in Canada and Chicago. He arrived in Chicago only a few days before the great fire of 1871, where he had some interesting experiences, with difficulty saving part of his personal effects when the hotel in which he was staying was burned.

Chicago continued to be his place of residence until 1878, in which year he removed with his family to Ottumwa, Iowa, and erected the first building of the present packing plant. Ottumwa has since been his home, and he has been identified with all the interests and welfare of that city up to the present time.

Mr. Foster, like most Englishmen, had a great love and admiration for the late Queen Victoria, and was unwilling to sever his allegiance as long as she was Queen, only taking out his citizenship papers at the time of her death. While he has never sought a political office he has always been one of the most earnest workers in reform movements and in every good cause in the place of his residence, and has used his influence in the support of the men who seemed to him to represent the true American principles.

He has been identified with educational affairs for nearly thirty years, serving on the board of trustees of Parsons College, Fairfield, Iowa, being chairman of the executive committee and for three years president of the board.

STATISTICS RELATING TO THE OPERATION OF THE MULCT LAW.

The last two volumes of the Official Register have contained statistics collected by the secretary of state relating to the operation of the mulct law. The material thus collected and published has been so generally received as giving complete and authentic information relative to the operation of the mulct law in the state that it was deemed best to again collect the information and publish it in this issue of the Register. Accordingly a request was made of the county treasurers of the state to supply the following information; the names of all cities, towns and townships in their counties in which saloons were in operation under the provisions of the mulct law on September 30, 1910, the number of saloons in each of said cities, towns and townships, and the total amount of mulct tax collected during the year beginning October 1, 1909, and ending September 30, 1910. Reports were received from all the county treasurers.

The city treasurer of each city or town which had been reported by the county treasurer, was then asked to report the total amount of tax paid by each saloon in such city or town and also to report the total amount collected from all the saloons in such city or town during the year ending September 30, 1910, not including in such total any of the tax the city or town received from the county treasurer as its share of the six hundred dollar tax collected by the county. Replies were received from practically all of the city and town treasurers.

Table No. 1 shows concisely the statistics collected in 1906, 1908, and 1910, while tables Nos. 2 and 3 give the detailed information collected from the county, city and town treasurers in 1910.

TABLE NO. 1.

Showing the extent of the operation of the mulct law in the State September 30, 1906, September 30, 1908, and September 30, 1910. The amount collected by the county and city and town treasurers is in each instance for the year ending September 30th.

TRANSACTIONS OF THE EXECUTIVE COUNCIL**CONDENSED REPORT BY THE SECRETARY FOR THE CALENDAR YEARS
1909 AND 1910.**

A. H. DAVISON, *Secretary.*

The executive council is composed of the governor, secretary, auditor and treasurer of state. The duties of the council are varied and important and of steadily increasing volume.

The law requires the secretary of the council to prepare a report of the transactions of the council, which, when approved by the council, is to be published in the Official Register. Inasmuch as many of its transactions, while of importance in individual cases, are not considered of general interest; and inasmuch as many of its transactions are published in other public documents, and in tables elsewhere in this volume, the council has deemed it best to publish in this report only a brief synopsis of some of its proceedings, and a brief reference only to others.

Among various subjects and matters considered may be mentioned the following:

Consideration of applications for consent to issue corporate stock in exchange for property and fixing the value on the property to be thus exchanged. During the two year period applications were received to the number of 294 and consent granted for the issuing of shares of stock in exchange for property valued at \$11,152,840.06.

A portion of the securities deposited with the auditor of state by insurance companies are required to be approved by the council. The total amount of securities in the hands of the state auditor amounted on April 1, 1911, to \$43,101,974.63.

Bonds deposited by the banks to secure deposits of state funds are approved by the council. The total amount of such bonds on May 1, 1911, was practically \$1,900,000.

Articles of Incorporation by building and loan associations are approved by the Attorney General and by the council before they become effective.

Bonds are approved covering various contracts for state work and state supplies.

The value of all steam railways, interurban railways, sleeping cars, equipment cars, express, telegraph and telephone lines operating in Iowa are fixed by the council for taxation purposes. Prior to fixing values public hearings are given to officers and attorneys for interested companies. A list of values thus fixed in detail, is published in separate reports prepared by the secretary of the council.

The council at various times fixes the number of documents to be published by the various departments, boards and commissions.

The council examines competitive samples and bids for office furniture and supplies for all the departments of state; also all paper used by the state printer, which amounts to a good many carloads.

All bills under contracts and expense accounts incurred for departments and various officers, employes, boards and commissions are audited by the executive council before warrants are drawn for same by the auditor of state.

The council takes such action as the law may require and its combined judgment may dictate in regard to the drainage of meandered lakes and the sale of lake beds.

The council acts as an equalizing board for the equalization of assessments of real and personal farm property, as between the various counties of the state.

The council canvasses the primary election returns and determines who are the nominees of the various parties for state and district offices; it also canvasses the returns of the general election and determines who are elected to state and district offices,—except as to governor and lieutenant governor, the returns for those two offices being canvassed by the general assembly. Tables showing the results of these elections, both primary and general, are given elsewhere in this volume.

Miscellaneous matters acted upon by the council, as shown by minutes of proceedings, are in part as follows:

January 4, 1909—Governor Garst announced that he had approved the bonds of auditor of state elect, John L. Bleakly, who took the oath of office and assumed the duties as auditor of state and member of the executive council.

Treasurer of State Morrow recommended and the executive council ordered that state depository banks be required to pay the treasurer of state interest as required by law, at the rate of two per cent per annum upon all moneys remaining upon deposit, under the provisions of Section 1, Chapter 3, Acts of the Thirtieth General Assembly.

January 5, 1909—C. C. Heer, accountant, made report of his examination and of the transfer of the insurance securities in the department of the auditor of state from Auditor of State Carroll to Auditor of State Elect John L. Bleakly.

January 13, 1909—Secretary of State W. C. Hayward submitted a report under the provisions of Chapter 5, Acts of the Thirtieth General Assembly, of laws and codes in his hands not required for use. His report was referred to the committee provided for in Chapter 6, Acts of the Thirtieth General Assembly.

January 22, 1909—Executive council had a conference with the board of trustees of the State College at Ames and Manager J. L. Blake of the Ft. Dodge, Des Moines & Southern Railway, to consider certain complaints on behalf of the college, in regard to interurban service.

January 30, 1909—Lands in the bed of Wapello Lake, Louisa county, were sold under the provisions of Chapter 186, Acts of the Thirtieth General Assembly, to the abutting land owners at the appraised values.

February 23, 1909—Henry Baker, mechanical engineer, and Prof. W. H. Meeker of the engineering department of the Iowa State Agricultural College at Ames, filed report of the examination of elevators in the State House, finding same safe for use.

*Jackson called himself a South Carolinian and his biographer, Kendall, recorded his birthplace in Lancaster county, South Carolina, but Parton has published documentary evidence to show that Jackson was born in Union county, North Carolina, less than a quarter-mile from the South Carolina line. †The Democrat party of today claims lineal descent from the first Republican party, and President Jefferson as its founder. ‡Political parties were also organized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his administration took the name of Democrats and elected Jackson, President.

ELLSWORTH COLLEGE—IOWA FALLS.

The beginning of the institution was as an Academy in 1890; in 1899 a Junior College was added; in 1906 it was made a full College with the additional departments of the College Preparatory School, the School of Commerce, the School of Music and the School of Education. It is an independent college and non-sectarian. The College might be said to be interdenominational, since students of all the various church relationships are equally welcome. The spirit of the school is distinctly Christian without being sectarian in any sense. In the College of Liberal Arts there are courses for the degrees A. B., B. S., and Ph. B. The College is standard and the graduates receive the state teachers' certificates without examination. The total attendance for 1909 and 1910 was 402 students, divided as follows: Collegiate, 75; Academic, 114; Normal, 52; Commercial, 82; Art, 55; School of Music, 142; Summer Session, 52. Graduates for the class of 1910 were divided as follows: College, 10; School of Music, 4; Academy, 11; School of Commerce, 9. The endowment of the College is chiefly in the form of land. The College has 5,000 acres of improved Iowa land conservatively estimated to be worth \$350,000.00. It has five buildings and a campus with an estimated value of \$160,00.00.

*This footing, it will be observed, is 61 less than the amount given at the top of the table. This is accounted for thus: the latter undoubtedly gives the correct area of the state according to government surveys, while the footing shows the sum of the square miles in the several counties according to the records in the State land-office, as closely as can be ascertained without computing the precise areas of the townships, and in some cases the sections. The United States Census Bureau has issued a pamphlet showing the areas of the several counties in the United States, but the figures for Iowa are evidently not prepared with the accuracy which characterizes most of the work of the bureau, as there are several quite manifest errors in them. They have consequently been discarded in the preparation of this work. *P. 201, Historical and Comparative Census, Iowa.*
