SUMMARY OF LEGISLATION APPROVED BY THE
FIRST REGULAR SESSION OF THE SIXTY-SEVENTH IOWA GENERAL ASSEMBLY
AND THE SPECIAL SESSION MEETING IN THE YEAR 1977

ISSUED BY THE IOWA LEGISLATIVE SERVICE BUREAU

This summary of legislation has been prepared for the use of legislators and other interested persons. The classifications of legislative enactments under specific subject headings and the summary descriptions are the work product of legislative staff personnel. It is recognized that the legislative enactments contained herein may logically fall under more than one subject heading in certain instances and perhaps differences of opinion may arise as to the summary descriptions. However, it is believed that the purpose of this compilation--that of providing interested persons with a quick reference to legislation enacted in specific areas and generally informing them of the contents of the legislation--will be served by this publication.

The various Legalizing Acts passed by the 1977 Session are not included in this summary.

The compilation also contains a list of the sections of the Code of Iowa amended or repealed during the 1977 Session and the special session.

Funding for alcoholism programs is also the same as at present with the state contributing 75 percent of the cost of local programs. However, funding for drug abuse programs is changed from the present unstructured state grant to the 75-25 state and local formula. It also makes procedures for the commitment of alcoholics applicable to drug abusers. One-half of the revenue is distributed quarterly to the Department of Substance Abuse, and one-half is distributed to counties on the basis of population. The Act also repeals the special 15% tax imposed upon the purchases of liquor control licenses, and mandates that the Director of the Beer and Liquor Control Department cause a general price increase effective January 1, 1978 to offset the loss of revenues resulting from the repeal of the special tax. (The Act is effective July 1, 1977, except that the provision mandating the price increase on alcoholic beverages sold in state liquor stores is effective January 1, 1978.) VETOED BY GOVERNOR.
- S.F. 259 By Hutchins. Authorizes state liquor store vendors to accept payment by check from "retail liquor control" licensees for alcoholic liquor purchased from the state

LABOR AND EMPLOYMENT

- H.F. 64 See State Government. Relates to flexible full-time employment for state employees.
- H.F. 595 By Committee on Labor and Industrial Relations. Makes changes in the state unemployment compensation law to conform the state law to the recently enacted federal requirements of Public Law 94-566, 1976. The Act includes in unemployment compensation coverage certain agricultural employees, domestic employees, political subdivision employees, and employees of nonprofit educational institutions other than institutions of higher education. It provides an exclusion from eligibility for unemployment compensation benefits for certain personnel at educational institutions for periods between terms and over vacation periods when there is a reasonable assurance of reemployment following the period. Athletes between seasons with a reasonable assurance of reemployment are denied unemployment compensation benefits, and benefits for services performed by an alien are denied. Government entities may finance benefits as a contributory employer at one percent for the 1978 calendar year and a percentage determined by the Department of Job Service for the 1979 calendar year. A government entity may elect to be a reimbursable employer. After January 1, 1979, government entities will be required to pay all of the extended benefits rather than one-half of the extended benefits as with private employers. The Act extends the definition of employment to cover nonpublic schools after January 1, 1978. This Act extends unemployment compensation to all employees of government entities with limited exclusions for elected officials, members of the judiciary or political subdivisions, members of the national guard and employees in certain policy-making positions. It allows political subdivisions to raise an additional amount to pay for unemployment compensation benefits. The Department of Job Service is encouraged to employ full-time claims investigators if federal funds are available for such personnel. The Department of Job Service is directed to study the unemployment compensation programs for political subdivisions and report to the General Assembly prior to February 1, 1979.

- S.F. 337 By Committee on Labor and Industrial Relations. Provides a funding system for unemployment compensation benefits. The computation date is changed from October 1 to July 1 to allow more time to notify employers of new rates. Voluntary contributions may be made by an employer to lower the employer's contribution rate but voluntary contributions cannot be made to lower a contribution rate to a zero rate. New nonconstruction employers are assigned the contribution rate in the ninth percentage of excess rank but not less than 1.8 percent. Employers' rates are assigned based upon rate tables which are effective depending upon the overall trust fund balance. Employers are notified of new rates on or before September 5. Rate table 2 is effective for calendar years 1978 and 1979. Employers with ten years of experience without benefit payments and a percentage of excess greater than 7.5 percent may be eligible for a zero contribution rate. Annual payroll is computed for the four quarters ending on June 30. The taxable wage base is changed to equal $66 \frac{2}{3}$ percent of the average annual wage. Advance payments, if the unemployment compensation trust fund is less than \$20 million, are established and an annual status report on the unemployment compensation fund is required to be filed with the General Assembly by the Department of Job Service. (Effective: January 1, 1978.)

NATURAL RESOURCES

- H.F. 158 By Connors, Hansen, Doyle, Harper, Koogler and Brunow. Requires the State Fire Marshal to issue a written order mandating the emptying and removal or repair of a flammable or combustible liquid storage tank and distribution systems when the State Fire Marshal has reasonable grounds for believing that a leak exists in the storage tank or its distribution system. The Act also provides that when the State Fire Marshal has reasonable grounds for believing that a leak constitutes a hazardous condition which threatens the public health and safety, the Fire Marshal may request the assistance of the Department of Environmental Quality which Department shall be empowered to eliminate the hazardous condition. It requires that the Transportation Regulation Board prescribe distinctive markings or tags to tank vehicles used for the intrastate transportation of any flammable liquid. (Effective: January 1, 1978.)
- H.F. 210 By Committee on Natural Resources. Provides for the development of a land preservation policy recommendation. Temporary commissions are established in each county composed of three soil district commissioners, three county supervisors and three mayors and councilpersons. The representation scheme is altered for counties exceeding fifty thousand population where one city has half or more of the population. The county commission is to address several land use issues and recommend a county land preservation policy and a state land preservation policy within one year of the effective date of the Act. Within nine months of the effective date, the county commissions hold three public hearings and appoint a third of its members to attend conventions in each congressional district for the purpose of electing the state commission. Each of the six conventions elects three of its members to serve on the state commission. One member is elected by each representation group (i.e., district soil commissioners, county supervisors, and mayors and councilperson). The state commission receives the recommendations of the county commission's recommendations, conducts its own studies, and, within twenty months of the effective date of the act, makes its land preservation policy recommendation to the legislature. The county commissions expire January 1, 1979 and the state commission expires upon the adjournment of the session of the Legislature to which it submits its recommendation or upon final action of the legislature upon its recommendation, whichever occurs first. The state agricultural extension service is to assist the county commissions and make arrangements for the congressional

district conventions. The Legislative Council appoints the executive secretary of the state commission. The state commission is administratively attached to and receives support services from the Department of Soil Conservation.

H.F. 251 By Committee on Natural Resources. Amends various sections of the fish and game laws of the Code. The Act strikes language which prohibits the use of artificial light to catch fish on or in the waters of the states, prohibits the taking of small fish commonly used for bait that only have one dorsal fin, and provides a corrective amendment to resolve the conflict between the Conservation Commission's expanded trout stocking program and the bait regulations. The Act repeals language in the Code which requires a special permit tag to sell furs out of state, and the use of box traps in the taking of furbearing animals and limits the use of large humane traps to water sets only. The Act further strikes language which requires that all licenses have a facsimile signature of the Director and the signature of the county recorder by whom the license was issued, and further requires all hunting, fishing and trapping licenses to contain a general description of the license. The Act also provides for administrative changes regarding the duties of the Conservation Commission. (Effective: January 1, 1978.)

H.F. 277 By Committee on Natural Resources. Provides that until a state water plan is adopted by the Iowa Natural Resources Council (INRC) all new water permits for irrigation purposes shall only be issued for a period of one year. The Act allows the INRC and the Iowa Geological Survey to establish special permits for irrigation withdrawals from the alluvial aquifers of the border streams of the state. The Act provides that the INRC may attach conditions to the duration and frequency as well as the quantity of withdrawals of those persons who withdrew or diverted water prior to May 16, 1957. It establishes a procedure for the INRC to apply and execute search warrants. The Act authorizes the INRC to allow the minor, nonrecurring use of water by registration rather than through the permit system and to issue permits for the storage of water which would run beyond the ten-year period presently provided. The bill also authorizes the INRC to require a performance bond as a condition of a permit or approval order. (Emergency: Effective May 6, 1977.)

H.F. 408 By Committee on Natural Resources. Eliminates the requirement that the county conservation board acquire the approval of the State Conservation Commission for its improvements and maintenance programs. (Effective: January 1, 1978.)

H.F. 445 By Committee on Natural Resources. Allows the state and state agencies to purchase coal on contracts of up to ten years in duration. Presently contracts by public agencies cannot be made if they contemplate an expenditure of funds in excess of that authorized by law, which limits the length of contracts through fiscal year budgeting. It also prohibits the Air Quality Commission of the Department of Environmental Quality from decreasing sulfur dioxide emission standards for a facility for which a contract for the purchase and delivery of Iowa coal is in effect unless there is no other reasonable means to meet ambient air standards. The exemption would last the duration of the contract or until 1984, whichever occurs first.

H.F. 490 By Committee on Natural Resources. Provides the Department of Environmental Quality with the authority to abate and regulate hazardous conditions. A hazardous condition is defined as the actual or imminent spillage, leakage, or release of those hazardous substances which are toxic, corrosive, or flammable or which otherwise endanger the public health or safety. Any person handling a hazardous substance is required to notify the Department, a police department, or sheriff's office of the occurrence of a hazardous condition. The Executive Director of the Department is authorized to issue executive orders and to eliminate the hazardous condition if the person handling the hazardous substance is unable to do so. The cost to the state of eliminating the hazardous condition can be recovered by the state in an action brought by the Attorney General. All state agencies are to cooperate with the Department in eliminating hazardous conditions and in preparing a state hazardous condition contingency plan.

H.F. 569 By Committee on Natural Resources. Allows the Department of Environmental Quality to issue conditional air quality and water quality permits to electric power generating facilities which have a capacity of one hundred or more megawatts of electricity. Such facilities are required to obtain a siting certificate from the Iowa State Commerce Commission. The conditional permit would be issued by the Department of Environmental Quality prior to and to meet the requirements of the issuance of the siting certificate. The submission of engineering data identifying quantitatively and qualitatively the emission and effluent streams and the equipment that will provide compliance with air and water quality standards is required for the issuance of the conditional permit. The conditional permit does not relieve the generating facility from the requirement of obtaining a construction permit after the siting certificate has been approved.

S.F. 311 By Tieden. Authorizes the State Conservation Commission to provide fire protection to any property under its jurisdiction. (Effective: January 1, 1978.)

S.F. 395 By Committee on Natural Resources. SPECIAL SESSION

H.F. 634 By Committee on Budget. Appropriates funds to provide for salary adjustments and increased fringe benefits contained in the collective bargaining agreements negotiated between the state and the blue collar bargaining unit, the professional social service unit, the public security unit and the public safety unit.

It also appropriates funds for cost-of-living adjustments, regular merit step increases and nonmerit equivalents and fringe benefits for nonorganized state employees for the 1977-78 and 1978-79 fiscal years. It further funds increases in statutory salaries and in the salaries of elected state officials, the judiciary and members of the public employment relations board authorized by the general assembly. It funds increases of five percent in salaries of regional librarians and staffs of regional libraries.

This Act removes Washington's birthday as a state holiday and gives each employee two days of paid leave.

It reduces the days of sick leave accrued by an employee from 2 1/2 days per month to 1 1/2 days per month. It establishes an active sick leave account for accrued sick leave of up to 90 days and a banked sick leave account for accrued sick leave in excess of ninety days. It requires the legislative council in cooperation with the state comptroller to employ actuaries to conduct an actuarial study of the costs of providing alternative benefit programs for employees retiring on or after July 1, 1978 based on the current value of accrued active and banked sick leave. Recommendations to the 1978 Session based on the study are required.

The Act provides that when a provision of a collective bargaining agreement, which has been signed by the governor, conflicts with present law, the provisions of the present law shall prevail unless otherwise provided by the general assembly. Collective bargaining agreements made final after July 1, 1977 shall not adopt by reference merit pay adjustments or step increases included in a merit pay plan developed pursuant to chapter 19A of the Code or provided under any other merit system or pay plan or longevity pay provided by law for certain employees of the department of transportation. It then specifically provides that the provisions of the agreements for which funds are appropriated shall prevail over cited sections of the Code for employees covered by the agreement for the fiscal period July 1, 1977 to June 30, 1979.

It requires that the public employment relations board establish rules to insure that the completion date for the negotiation of the state collective bargaining agreement shall be not later than March fifteenth of the year the agreement is to become effective.

It also provides that collective bargaining agreements except agreements tentatively agreed to prior to July 1, 1977 shall not provide for renegotiations which would require refinancing salaries and fringe benefits for the second year of the contract except as permitted by law.

It also appropriates \$50,000 to the Attorney General for salary adjustments for assistant attorneys general whose annual salaries are less than \$15,000. It further requires the Attorney General to develop a position classification plan and a pay plan to be approved by the Executive Council. (Emergency: Effective July 10, 1977.)
