

ation is how time spent in court should be evaluated within the overall point system. It is anticipated that this subject will be addressed in the 1982 standards.

Since the minimum performance standards system is a management tool, not based in legislation, I believe it would be unwise to rigidly cast part of the system within session laws. Moreover, since the point system is clearly evolving and will be subject to further modifications, it is essential that the Department maintain the maximum amount of flexibility in making periodic adjustments to the work standard. Having part of the system based in the session laws would, in my view, remove from management the flexibility it requires to make needed changes. In passing this section of the bill, the legislature has pointed out a problem that needs to be, and is being, addressed. At the same time, I believe this section deals with the daily management and administration of the Department of Public Safety which is most properly left to the executive branch.

I therefore veto Section 2, paragraph e* of House File 850.

Sincerely,

Robert D. Ray
Governor
