

CHAPTER 1094
SATELLITE TERMINALS
S.F. 2353

AN ACT relating to satellite terminals and establishing certain requirements for such terminals of a financial institution with a principal place of business in another state.

Be It Enacted by the General Assembly of the State of Iowa:

Section 1. Section 527.5, subsection 2, paragraph d, Code Supplement 1995, is amended to read as follows:

d. Paragraph "a" applies to a financial institution whose licensed or principal place of business is located in a state other than Iowa, whether or not the financial institution has a business location in this state, if all satellite terminals or other similar type terminals owned, controlled, operated, or maintained by the financial institution, wherever located, are available on a reciprocal basis to any each financial institution ~~whose licensed or~~ with a principal place of business ~~is located~~ in this state and to each financial institution with a business location in this state which complies with this paragraph, and to all customers who have been designated by a any such financial institution using the satellite terminal and who have been provided with an access device.

Sec. 2. Section 527.5, subsection 8, Code Supplement 1995, is amended by striking the subsection.

Approved April 15, 1996

CHAPTER 1095
REGULATION OF TOXICS IN PACKAGING
S.F. 2287

AN ACT relating to the limitations on the use of toxic materials in packaging and providing additional exemptions.

Be It Enacted by the General Assembly of the State of Iowa:

Section 1. Section 455D.19, Code 1995, is amended to read as follows:
455D.19 PACKAGING - HEAVY METAL CONTENT.

1. The general assembly finds and declares all of the following:

a. The management of solid waste can pose a wide range of hazards to public health and safety and to the environment.

b. Packaging comprises a significant percentage of the overall solid waste stream.

c. The presence of heavy metals in packaging is a concern in light of the likely presence of heavy metals in emissions or ash when packaging is incinerated or in leachate when packaging is landfilled.

d. Lead, mercury, cadmium, and hexavalent chromium, on the basis of available scientific and medical evidence, are of particular concern.

e. It is desirable as a first step in reducing the toxicity of packaging waste to eliminate the addition of heavy metals to packaging.

f. The intent of the general assembly is to achieve reduction in toxicity without impeding or discouraging the expanded use of postconsumer materials in the production of packaging and its components.
