

Sec. 3. Section 455B.265, Code 1997, is amended by adding the following new subsection:

**NEW SUBSECTION.** 4. Permits for aquifer storage and recovery shall be granted for a period of twenty years or the life of the project, whichever is less, unless revoked by the department. The department shall adopt rules pursuant to chapter 17A relating to information an applicant for a permit shall submit to the department. At a minimum, the information shall include engineering, investigation, and evaluation information requisite to assure protection of the groundwater resource, and assurances that an aquifer storage and recovery site shall not unreasonably restrict other uses of the aquifer. Upon application and prior to the termination date specified in the original permit or a subsequent renewal permit, a renewal permit may be issued by the department for an additional period of twenty years. The department shall not authorize withdrawals of treated water from an aquifer storage and recovery site by anyone other than the permittee during the period of the original permit and each subsequent renewal permit. Treated water injected into an aquifer covered by a permit issued pursuant to this subsection is the property of the permittee.

Sec. 4. Section 455B.269, Code 1997, is amended to read as follows:  
455B.269 TAKING WATER PROHIBITED.

1. A person shall not take water from a natural watercourse, underground basin or watercourse, drainage ditch, or settling basin within this state for any purpose other than a nonregulated use except in compliance with the sections of this part which relate to the withdrawal, diversion, or storage of water. However, existing uses may be continued during the period of the pendency of an application for a permit.

2. A person, other than the aquifer storage and recovery permittee, shall not take treated water from a permitted aquifer storage and recovery site within this state.
