3. The department may transfer funds in accordance with section 8.39, either federal or state, to or from the child care appropriations made for the fiscal year beginning July 1, 2003, if the department deems this would be a more effective method of paying for JOBS program child care, to maximize federal funding, or to meet federal maintenance of effort requirements.

4. Moneys appropriated in this Act and credited to the family investment program account for the fiscal year beginning July 1, 2003, and ending June 30, 2004, are allocated as follows:

A FIP participant family may receive diversion assistance to overcome barriers to obtaining employment and to assist in stabilizing employment in order to increase the likelihood of the family leaving FIP more quickly. The department shall assess and screen individuals who would most likely benefit from the assistance. In addition to the full-time equivalent positions authorized in this Act, 1.00 FTE is authorized for purposes of diversion. The department may adopt additional eligibility criteria as necessary for compliance with federal law and for screening those families who would be most likely to become eligible for FIP if diversion incentives would not be provided.

6. For the fiscal year beginning July 1, 2003, the department shall continue the process for the state to receive refunds of utility and rent deposits, including any accrued interest, for emergency assistance program recipients which were paid by persons other than the state. The department shall also receive refunds, including any accrued interest, of assistance paid with funding available under this program. The refunds received by the department shall be credited to the family investment program (FIP) account to offset FIP cash grants expended in the same year. Notwithstanding section 8.33, moneys received by the department under this subsection which remain after the emergency assistance program is terminated and state or federal moneys in the emergency assistance account which remain unobligated or unexpended at the close of the fiscal year beginning July 1, 2003, shall not revert to any other fund but shall be credited to the family investment program account.

7. The department may adopt emergency administrative rules for the family investment, food stamp, and medical assistance programs, if necessary, to comply with federal requirements.

8. The department may continue the initiative to streamline and simplify the employer verification process for applicants, participants, and employers in the administration of the department's programs. However, the director must also determine that the resulting increase in the state share of child support recovery incentives exceeds the cost of the positions or contract, the positions or contract are necessary to ensure continued federal funding of the program, or the new positions or contract can reasonably be expected to recover at least twice the amount of money necessary to pay the salaries and support for the new positions or the contract will generate at least 200 percent of the cost of the contract.

e. Unless a county has paid or is paying for the nonfederal share of the cost of a person's home and community-based waiver services or ICFMR placement under the county's mental health, mental retardation, and developmental disabilities services fund, or unless a county of legal settlement would become liable for the costs of services at the ICFMR level of care for a person due to the person reaching the age of majority, the state shall pay the nonfederal share of the costs of an eligible person's services under the home and community-based waiver for persons with brain injury.

4. The department shall utilize not more than \$60,000 of the funds appropriated in this section to continue the AIDS/HIV health insurance premium payment program as established in 1992 Iowa Acts, Second Extraordinary Session, chapter 1001, section 409, subsection 6. The state resource centers shall not be operated under the net appropriation in a manner which results in a cost increase to the state or cost shifting between the state, the medical assistance program, counties, or other sources of funding for the state resource centers. THOMAS J. VILSACK, *Governor*

Dear Mr. Secretary:

I hereby transmit House File 667, an Act relating to and making appropriations for health and human services to the Department of Elder Affairs, the Iowa Department of Public Health, the Department of Inspections and Appeals, the Department of Human Services, and Commission of Veterans Affairs, and providing effective dates.

There were cooperative efforts to resolve issues in areas addressed by this bill that will allow Iowa to continue to provide services to children and families, even in these challenging times. The Legislature was thoughtful and receptive and this bill reflects a very collaborative process between the stakeholders. Strong efforts were made to protect vulnerable Iowans, including seniors, the disabled, dependent children and families. This bill reflects joint efforts to address Medicaid and child welfare issues.

However, this bill continues to demand more services and reporting requirements at the same time funding levels have been reduced. With a goal of working to provide needed services and reducing process requirements, this bill has several provisions that I cannot support.

I am unable to approve the designated portion of Section 2, subsection 1, paragraph c. This section would require the department of health to produce a report of all the organizations that applied for substance abuse treatment funds, the amounts awarded, and the basis for refusal to award funds to any of the organizations that applied. In accordance with the Accountable Government Act all substance abuse treatment and prevention grants are awarded on a competitive basis. This item is an un-funded mandate that takes time away from customers and communities for unnecessary reporting.

I am unable to approve the item designated as Section 7, subsection 15, paragraphs a through k in their entirety. This language creates a new Iowa marriage grant initiative. The language involved adds new bureaucratic rules and regulations that require extensive staff time that could otherwise be spent providing services to families. Furthermore, language already exists in statute for this program.

I am unable to approve the item designated as Section 11, subsection 8 in its entirety. This language directs the Department of Human Services to work with counties to implement services to people with chronic mental illness. This effort has already been accomplished and is, therefore, redundant.

I am unable to approve the item designated as Section 16, subsection 5 in its entirety. This

language requires additional notice to legislators if additional federal child-care funds are received. This is an unnecessary reporting requirement at a time when funding for staff has been reduced.

I am unable to approve the item designated as Section 16, subsection 7, paragraphs b and c in their entirety. This language directs the Department of Human Services to develop consumer information to assist parents in selecting a child care provider. The department currently provides consumer information to customers and will continue to do so. Staff and funding of the department have been severely reduced leaving the department ill-equipped to provide the support necessary to complete this effort.

I am unable to approve the item designated as Section 18, subsection 12 in its entirety. This language requires the Department of Human Services and juvenile court officers to develop criteria for intensive tracking and supervision of delinquent youth. These criteria were developed three years ago in response to this language; thus, this language is no longer needed.

I am unable to approve the item designated as Section 18, subsection 21. This directs the Department of Human Services to develop a plan to privatize the administration of foster care and adoption programs. Given the fact that no additional funds were provided for this purpose, staffing has been severely reduced, and the child welfare redesign effort is included in SF 453, implementation of this section is counter-productive.

I am unable to approve the item designated as a portion of Section 28, subsection 2. This item requires the Department of Human Services to submit proposed legislation to correct Code references related to service areas. This appears to be the realm of the Legislative Service Bureau or Code Editor rather than the Department of Human Services, especially at a time when the department's resources have been severely reduced.

I am unable to approve the item designated as Section 35. This language exempts the Department of Human Services from making payments to the Vehicle Dispatcher for fiscal year 2004. This would hamper the state's efforts to purchase vehicles when needed and at the best price.

I am unable to approve the item designated as Section 36, subsection 2, in its entirety. This language creates a new initiative on parental involvement. The language involved is very prescriptive, time intensive and can be accomplished without directing the effort.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 667 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*

THOMAS J. VILSACK, *Governor*

Dear Mr. Secretary:

I hereby transmit Senate File 433, an Act relating to and making appropriations to the Department of Economic Development, certain Board of Regents Institutions, Department of Workforce Development and the Public Employment Relations Board for the fiscal year beginning July 1, 2003.

Senate File 433 continues current levels of funding for the World Food Prize and the workforce development fund account. It maintains funding for immigration service centers and provides a small increase to fund operations of the Public Employment Relations Board.

This Administration has made clear from the first day of the 2003 Session that our top priority is transforming Iowa's economy. This goal, which we share with a majority of legislators from both parties, can only be accomplished with a significant investment in Iowa's future — an investment that is provided through the Iowa Values Fund. While Senate File 433 funds some important services Iowans rely on everyday, it is completely inadequate and does not provide the commitment this state needs to retain our current employers, attract new businesses, incent business expansion, and create the high-paying jobs needed to keep our children and grandchildren living here.

It is vital the Legislature take action immediately to approve an Iowa Values Fund to send a strong message that Iowa is open for business. In the meantime, we must continue to provide the services that are funded through this bill. Senate File 433 is, therefore, signed on this date with the following exceptions, which I hereby disapprove:

I am unable to approve the item designated as Section 1, subsection 3. As I indicated last year, the Accountable Government Act establishes a comprehensive, enterprise-wide process for setting program goals and establishing results measures. These measures have been developed with data currently being compiled. This section would create redundancies in the development and reporting of goals and results measurements for the Department of Economic Development.

I am unable to approve the designated portion of Section 10, subsection 2. This would require that small business development centers be located equally throughout the different regions of the state. This bill contains no instruction as to the legislative meaning or intent of "located equally throughout the different regions of the state." As such, the bill is terminally vague making compliance impossible.

I am unable to approve the items designated as Section 10, subsection 3, paragraph b, Section 11, subsection 2, paragraph b, and Section 12, subsection 2, paragraph b. These sections would require any business or individual receiving benefits from specified Regent programs to have a commercially viable service or product. This legislative mandate would have an unacceptable dulling effect on innovation. Iowa should be encouraging entrepreneurship. These paragraphs of Senate File 433 would have the opposite impact.

I am unable to approve the designated portion of Section 15, subsection 2. This would restrict the expenditure of additional penalty and interest revenues to accomplish the mission of the department to provide safe workplaces and steady employment. The director of the Department of Workforce Development currently has the authority to reassign unused penalty and interest funds. We must maintain that flexibility to reallocate dollars when needed to ensure the safety and employment security of working Iowans.

I am unable to approve the item designated as Section 20. Expenditure information for executive branch agencies of state government is currently available to the economic development appropriations subcommittees and the Legislative Fiscal Bureau on a daily basis through the Iowa Financial and Accounting System. The Legislative Fiscal Bureau also has the authority to request expenditure information from Regent universities. The reporting requirement in this section would duplicate existing data and place an unneeded and unprecedented requirement on limited staff resources.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 433 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, Governor

THOMAS J. VILSACK, Governor

Dear Mr. Secretary:

I hereby transmit Senate File 452, an Act relating to and making appropriations to state departments and agencies from the Rebuild Iowa Infrastructure Fund, Environment First Fund, and Tobacco Settlement Trust Fund, relating to the Capitol complex parking structure, and authorizing fees.

Senate File 452 is, approved on this date, with the following exceptions, which I hereby disapprove.

I am unable to approve the items designated as Division IV, Sections 28, 29, and 30 in their entirety. These sections would require the establishment of a parking fee for the Capitol complex parking structure located at Pennsylvania and Grand avenues. Iowans should be encouraged to participate in their democracy by parking free to visit their State Capitol and the state office buildings surrounding their State Capitol. Charging parking fees for the newly constructed parking structure located at Pennsylvania and Grand Avenues operates as a hidden tax for the visiting public and would discourage some from exercising their fundamental rights as citizens. Such a fee should not have been and will not be sanctioned or approved.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 452 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, Governor

(3) The administrative rules review committee shall review the proposed waiver or suspension at the committee's next scheduled meeting following submission of the proposal and may either take no action or affirmatively approve the waiver or suspension, or delay the effective date of the waiver or suspension in the same manner as for rules as provided in section 17A.4, subsection 5, and section 17A.8, subsection 9. If the administrative rules review committee either approves or takes no action concerning the proposed waiver or suspension, the waiver or suspension may become effective no earlier than the day following the meeting. (4) Copies of the grant or denial of a waiver or suspension under this subsection shall be filed and made available to the public by the applicable charter agency.

2. The redesign plan shall include measures such as providing state funding for health care spending accounts for families in the medical assistance program in order to provide incentives for effective health care cost management, providing an insurance-like benefit package for those individuals with extensive medical needs that emphasizes flexible and preventive care through case management, moving to an acuity-based reimbursement system for dually eligible seniors, and developing an evidence-based pharmaceutical program.

3. Notwithstanding any other provision of law, any purchase of real property and any borrowing of more than one million dollars by the authority shall require written notice from the authority to the legislative government oversight committees and the prior approval of the executive council.

4. The powers enumerated in this section are cumulative of and in addition to those powers enumerated elsewhere in this chapter and no such powers limit or restrict any other powers of the authority.

5. Departments, boards, commissions, or other agencies of this state shall provide reasonable assistance and services to the authority upon the request of the chief executive officer.

Sec. 75. NEW SECTION. 99G.22 VENDOR BACKGROUND REVIEW.

1. The authority shall investigate the financial responsibility, security, and integrity of any lottery system vendor who is a finalist in submitting a bid, proposal, or offer as part of a major procurement contract. Before a major procurement contract is awarded, the division of criminal investigation of the department of public safety shall conduct a background investigation of the vendor to whom the contract is to be awarded. The chief executive officer and board shall consult with the division of criminal investigation and shall provide for the scope of the background investigation and due diligence to be conducted in connection with major procurement contracts. At the time of submitting a bid, proposal, or offer to the authority on a major procurement contract, the authority shall require that each vendor submit to the division of criminal investigation appropriate investigation authorization to facilitate this investigation, together with an advance of funds to meet the anticipated investigation costs. If the division of criminal investigation determines that additional funds are required to complete an investigation, the vendor will be so advised. The background investigation by the division of criminal investigation may include a national criminal history record check through the federal bureau of investigation. The screening of vendors or their employees through the federal bureau of investigation shall be conducted by submission of fingerprints through the state criminal history record repository to the federal bureau of investigation.²⁵

2. If at least twenty-five percent of the cost of a vendor's contract is subcontracted, the vendor shall disclose all of the information required by this section for the subcontractor as if the subcontractor were itself a vendor.

3. A major procurement contract shall not be entered into with any lottery system vendor who has not complied with the disclosure requirements described in this section, and any contract with such a vendor is voidable at the option of the authority. Any contract with a vendor that does not comply with the requirements for periodically updating such disclosures during the tenure of the contract as may be specified in such contract may be terminated by the authority. The provisions of this section shall be construed broadly and liberally to achieve the ends of full disclosure of all information necessary to allow for a full and complete evaluation

²⁵ See chapter 179, §61 herein

by the authority of the competence, integrity, background, and character of vendors for major procurements.

4. A major procurement contract shall not be entered into with any vendor who has been found guilty of a felony related to the security or integrity of the lottery in this or any other jurisdiction.

5. A major procurement contract shall not be entered into with any vendor if such vendor has an ownership interest in an entity that had supplied consultation services under contract to the authority regarding the request for proposals pertaining to those particular goods or services.

6. If, based on the results of a background investigation, the board determines that the best interests of the authority, including but not limited to the authority's reputation for integrity, would be served thereby, the board may disqualify a potential vendor from contracting with the authority for a major procurement contract or from acting as a subcontractor in connection with a contract for a major procurement contract.

Sec. 76. NEW SECTION. 99G.23 VENDOR BONDING, TAX FILING, AND COMPETITIVE BIDDING.

1. The authority may purchase, lease, or lease-purchase such goods or services as are necessary for effectuating the purposes of this chapter. The authority may make procurements that integrate functions such as lottery game design, lottery ticket distribution to retailers, supply of goods and services, and advertising. In all procurement decisions, the authority shall take into account the particularly sensitive nature of the lottery and shall act to promote and ensure security, honesty, fairness, and integrity in the operation and administration of the lottery and the objectives of raising net proceeds for state programs.

2. Each vendor shall, at the execution of the contract with the authority, post a performance bond or letter of credit from a bank or credit provider acceptable to the authority in an amount as deemed necessary by the authority for that particular bid or contract.

3. Each vendor shall be qualified to do business in this state and shall file appropriate tax returns as provided by the laws of this state.

4. All major procurement contracts must be competitively bid pursuant to policies and procedures approved by the board unless there is only one qualified vendor and that vendor has an exclusive right to offer the service or product.

Sec. 77. NEW SECTION. 99G.24 RETAILER COMPENSATION — LICENSING.

1. The general assembly recognizes that to conduct a successful lottery, the authority must develop and maintain a statewide network of lottery retailers that will serve the public convenience and promote the sale of tickets or shares and the playing of lottery games while ensuring the integrity of the lottery operations, games, and activities.

2. The board shall determine the compensation to be paid to licensed retailers. Compensation may include provision for variable payments based on sales volume or incentive considerations.

3. The authority shall issue a license certificate to each person with whom it contracts as a retailer for purposes of display as provided in this section. Every lottery retailer shall post its license certificate, or a facsimile thereof, and keep it conspicuously displayed in a location on the premises accessible to the public. No license shall be assignable or transferable. Once issued, a license shall remain in effect until canceled, suspended, or terminated by the authority.

4. A licensee shall cooperate with the authority by using point-of-purchase materials, posters, and other marketing material when requested to do so by the authority. Lack of cooperation is sufficient cause for revocation of a retailer's license.

5. The board shall develop a list of objective criteria upon which the qualification of lottery retailers shall be based. Separate criteria shall be developed to govern the selection of retailers of instant tickets and online retailers. In developing these criteria, the board shall consider such factors as the applicant's financial responsibility, security of the applicant's place of business or activity, accessibility to the public, integrity, and reputation. The criteria shall include

but not be limited to the volume of expected sales and the sufficiency of existing licensees to serve the public convenience.

6. The applicant shall be current in filing all applicable tax returns to the state of Iowa and in payment of all taxes, interest, and penalties owed to the state of Iowa, excluding items under formal appeal pursuant to applicable statutes. The department of revenue and finance is authorized and directed to provide this information to the authority.

7. A person, partnership, unincorporated association, authority, or other business entity shall not be selected as a lottery retailer if the person or entity meets any of the following conditions:

- a. Has been convicted of a criminal offense related to the security or integrity of the lottery in this or any other jurisdiction.
- b. Has been convicted of any illegal gambling activity, false statements, perjury, fraud, or a felony in this or any other jurisdiction.
- c. Has been found to have violated the provisions of this chapter or any regulation, policy, or procedure of the authority or of the lottery division unless either ten years have passed since the violation or the board finds the violation both minor and unintentional in nature.
- d. Is a vendor or any employee or agent of any vendor doing business with the authority.
- e. Resides in the same household as an officer of the authority.
- f. Is less than eighteen years of age.
- g. Does not demonstrate financial responsibility sufficient to adequately meet the requirements of the proposed enterprise.
- h. Has not demonstrated that the applicant is the true owner of the business proposed to be licensed and that all persons holding at least a ten percent ownership interest in the applicant's business have been disclosed.
- i. Has knowingly made a false statement of material fact to the authority.

8. Persons applying to become lottery retailers may be charged a uniform application fee for each lottery outlet.

9. Any lottery retailer contract executed pursuant to this section may, for good cause, be suspended, revoked, or terminated by the chief executive officer or the chief executive officer's designee if the retailer is found to have violated any provision of this chapter or objective criteria established by the board. Cause for suspension, revocation, or termination may include, but is not limited to, sale of tickets or shares to a person under the age of twenty-one and failure to pay for lottery products in a timely manner.

Sec. 78. NEW SECTION. 99G.25 LICENSE NOT ASSIGNABLE.

Any lottery retailer license certificate or contract shall not be transferable or assignable. The authority may issue a temporary license when deemed in the best interests of the state. A lottery retailer shall not contract with any person for lottery goods or services, except with the approval of the board.

Sec. 79. NEW SECTION. 99G.26 RETAILER BONDING.

The authority may require any retailer to post an appropriate bond, as determined by the authority, using a cash bond or an insurance company acceptable to the authority.

Sec. 80. NEW SECTION. 99G.27 LOTTERY RETAIL LICENSES — CANCELLATION, SUSPENSION, REVOCATION, OR TERMINATION.

1. A lottery retail license issued by the authority pursuant to this chapter may be canceled, suspended, revoked, or terminated by the authority, for reasons including, but not limited to, any of the following:

- a. A violation of this chapter, a regulation, or a policy or procedure of the authority.
- b. Failure to accurately or timely account or pay for lottery products, lottery games, revenues, or prizes as required by the authority.
- c. Commission of any fraud, deceit, or misrepresentation.
- d. Insufficient sales.

 - f. The retailer filing for or being placed in bankruptcy or receivership.
 - g. Any material change as determined in the sole discretion of the authority in any matter considered by the authority in executing the contract with the retailer.
 - h. Failure to meet any of the objective criteria established by the authority pursuant to this chapter.
 - i. Other conduct likely to result in injury to the property, revenue, or reputation of the authority.
2. A lottery retailer license may be temporarily suspended by the authority without prior notice if the chief executive officer or designee determines that further sales by the licensed retailer are likely to result in immediate injury to the property, revenue, or reputation of the authority.
 3. The board shall adopt administrative rules governing appeals of lottery retailer licensing disputes.

Sec. 81. NEW SECTION. 99G.28 PROCEEDS HELD IN TRUST.

All proceeds from the sale of the lottery tickets or shares shall constitute a trust fund until paid to the authority directly, through electronic funds transfer to the authority, or through the authority's authorized collection representative. A lottery retailer and officers of a lottery retailer's business shall have a fiduciary duty to preserve and account for lottery proceeds and lottery retailers shall be personally liable for all proceeds. Proceeds shall include unsold products received but not paid for by a lottery retailer and cash proceeds of the sale of any lottery products net of allowable sales commissions and credit for lottery prizes paid to winners by lottery retailers. Sales proceeds of pull-tab tickets shall include the sales price of the lottery product net of allowable sales commission and prizes contained in the product. Sales proceeds and unused instant tickets shall be delivered to the authority or its authorized collection representative upon demand.

Sec. 82. NEW SECTION. 99G.29 RETAILER RENTAL CALCULATIONS — LOTTERY TICKET SALES TREATMENT.

If a lottery retailer's rental payments for the business premises are contractually computed, in whole or in part, on the basis of a percentage of retail sales and such computation of retail sales is not explicitly defined to include sales of tickets or shares in a state-operated or state-managed lottery, only the compensation received by the lottery retailer from the authority may be considered the amount of the lottery retail sale for purposes of computing the rental payment.

Sec. 83. NEW SECTION. 99G.30 TICKET SALES REQUIREMENTS — PENALTIES.

1. Lottery tickets or shares may be distributed by the authority for promotional purposes.
2. A ticket or share shall not be sold at a price other than that fixed by the authority and a sale shall not be made other than by a retailer or an employee of the retailer who is authorized by the retailer to sell tickets or shares. A person who violates a provision of this subsection is guilty of a simple misdemeanor.
3. A ticket or share shall not be sold to a person who has not reached the age of twenty-one. Any person who knowingly sells a lottery ticket or share to a person under the age of twenty-one shall be guilty of a simple misdemeanor. It shall be an affirmative defense to a charge of a violation under this section that the retailer reasonably and in good faith relied upon presentation of proof of age in making the sale. A prize won by a person who has not reached the age of twenty-one but who purchases a winning ticket or share in violation of this subsection shall be forfeited. This section does not prohibit the lawful purchase of a ticket or share for the purpose of making a gift to a person who has not reached the age of twenty-one. The board shall adopt administrative rules governing the payment of prizes to persons who have not reached the age of twenty-one.
4. Except for the authority, a retailer shall only sell lottery products on the licensed premises

and not through the mail or by technological means except as the authority may provide or authorize.

5. The retailer may accept payment by cash, check, money order, debit card, or electronic funds transfer. The retailer shall not extend or arrange credit for the purchase of a ticket or share. As used in this subsection, "cash" means United States currency.

6. Nothing in this chapter shall be construed to prohibit the authority from designating certain of its agents and employees to sell or give lottery tickets or shares directly to the public.

7. No elected official's name shall be printed on tickets.

Sec. 84. NEW SECTION. 99G.31 PRIZES.

1. The chief executive officer shall award the designated prize to the ticket or shareholder upon presentation of the winning ticket or confirmation of a winning share. The prize shall be given to only one person; however, a prize shall be divided between holders of winning tickets if there is more than one winning ticket.

2. The authority shall adopt administrative rules, policies, and procedures to establish a system of verifying the validity of tickets or shares claimed to win prizes and to effect payment of such prizes, subject to the following requirements:

a. The prize shall be given to the person who presents a winning ticket. A prize may be given to only one person per winning ticket. However, a prize shall be divided between holders of winning tickets if there is more than one winning ticket. Payment of a prize may be made to the estate of a deceased prize winner or to another person pursuant to an appropriate judicial order issued by an Iowa court of competent jurisdiction.

b. A prize shall not be paid arising from claimed tickets that are stolen, counterfeit, altered, fraudulent, unissued, produced or issued in error, unreadable, not received, or not recorded by the authority within applicable deadlines; lacking in captions that conform and agree with the play symbols as appropriate to the particular lottery game involved; or not in compliance with such additional specific administrative rules, policies, and public or confidential validation and security tests of the authority appropriate to the particular lottery game involved.

c. No particular prize in any lottery game shall be paid more than once, and in the event of a determination that more than one claimant is entitled to a particular prize, the sole remedy of such claimants is the award to each of them of an equal share in the prize.

d. Unclaimed prize money for the prize on a winning ticket or share shall be retained for a period deemed appropriate by the chief executive officer, subject to approval by the board. If a valid claim is not made for the money within the applicable period, the unclaimed prize money shall be added to the pool from which future prizes are to be awarded or used for special prize promotions. Notwithstanding this subsection, the disposition of unclaimed prize money from multijurisdictional games shall be made in accordance with the rules of the multijurisdictional game.

e. No prize shall be paid upon a ticket or share purchased or sold in violation of this chapter. Any such prize shall constitute an unclaimed prize for purposes of this section.

f. The authority is discharged of all liability upon payment of a prize pursuant to this section.

g. No ticket or share issued by the authority shall be purchased by and no prize shall be paid to any member of the board of directors; any officer or employee of the authority; or to any spouse, child, brother, sister, or parent residing as a member of the same household in the principal place of residence of any such person.

h. No ticket or share issued by the authority shall be purchased by and no prize shall be paid to any officer, employee, agent, or subcontractor of any vendor or to any spouse, child, brother, sister, or parent residing as a member of the same household in the principal place of residence of any such person if such officer, employee, agent, or subcontractor has access to confidential information which may compromise the integrity of the lottery.

i. The proceeds of any lottery prize shall be subject to state and federal income tax laws. An amount deducted from the prize for payment of a state tax, pursuant to section 422.16, subsection 1, shall be transferred by the authority to the department of revenue and finance on behalf of the prize winner.

Sec. 85. NEW SECTION. 99G.32 AUTHORITY LEGAL REPRESENTATION.

The authority shall retain the services of legal counsel to advise the authority and the board and to provide representation in legal proceedings. The authority may retain the attorney general or a full-time assistant attorney general in that capacity and provide reimbursement for the cost of advising and representing the board and the authority.

Sec. 86. NEW SECTION. 99G.33 LAW ENFORCEMENT INVESTIGATIONS.

The department of public safety, division of criminal investigation, shall be the primary state agency responsible for investigating criminal violations under this chapter. The chief executive officer shall contract with the department of public safety for investigative services, including the employment of special agents and support personnel, and procurement of necessary equipment to carry out the responsibilities of the division of criminal investigation under the terms of the agreement and this chapter.

5. Player name and address lists, provided that the names and addresses of prize winners shall not be withheld.
6. Operational security measures, systems, or procedures and building plans.

8. Information that is otherwise confidential obtained pursuant to investigations.

Sec. 88. NEW SECTION. 99G.35 SECURITY.

1. The authority's chief security officer and investigators shall be qualified by training and experience in law enforcement to perform their respective duties in support of the activities of the security office. The chief security officer and investigators shall not have sworn peace officer status. The lottery security office shall perform all of the following activities in support of the authority mission:

 3. Records, documents, and information in the possession of the authority received pursuant to an intelligence-sharing, reciprocal use, or restricted use agreement entered into by the authority with a federal department or agency, any law enforcement agency, or the lottery regulation or gaming enforcement agency of any jurisdiction shall be considered investigative records of a law enforcement agency and are not subject to chapter 22 and shall not be released under any condition without the permission of the person or agency providing the record or information.

Sec. 89. NEW SECTION. 99G.36 FORGERY — FRAUD — PENALTIES.

Sec. 90. NEW SECTION. 99G.37 COMPETITIVE BIDDING.

1. The authority shall enter into a major procurement contract pursuant to competitive bidding. The requirement for competitive bidding does not apply in the case of a single vendor having exclusive rights to offer a particular service or product. The board shall adopt procedures for competitive bidding. Procedures adopted by the board shall be designed to allow the selection of proposals that provide the greatest long-term benefit to the state, the greatest integrity for the authority, and the best service and products for the public.
2. In any bidding process, the authority may administer its own bidding and procurement or may utilize the services of the department of general services, or its successor,²⁶ or other state agency.

1. The authority may borrow, or accept and expend, in accordance with the provisions of this chapter, such moneys as may be received from any source, including income from the authority's operations, for effectuating its business purposes, including the payment of the initial expenses of initiation, administration, and operation of the authority and the lottery.
2. The authority shall be self-sustaining and self-funded. Moneys in the general fund of the state shall not be used or obligated to pay the expenses of the authority or prizes of the lottery,

1. Upon receipt of any revenue, the chief executive officer shall deposit the moneys in the lottery fund created pursuant to section 99G.40. At least fifty percent of the projected annual revenue accruing from the sale of tickets or shares shall be allocated for payment of prizes to the holders of winning tickets. After the payment of prizes, the following shall be deducted from the authority's revenue prior to disbursement:

a. An amount equal to three-tenths of one percent of the gross lottery revenue for the year shall be deposited in a gambling treatment fund in the office of the treasurer of state.

b. The expenses of conducting the lottery. Expenses for advertising production and media purchases shall not exceed four percent of the authority's gross revenue for the year.

2. The director of management shall not include lottery revenues in the director's fiscal year revenue estimates.

3. a. Notwithstanding subsection 1, if gaming revenues under sections 99D.17 and 99F.11 are insufficient in a fiscal year to meet the total amount of such revenues directed to be deposited in the vision Iowa fund and the school infrastructure fund during the fiscal year pursuant to section 8.57, subsection 5, paragraph "e", the difference shall be paid from lottery revenues prior to deposit of the lottery revenues in the general fund. If lottery revenues are insufficient during the fiscal year to pay the difference, the remaining difference shall be paid from lottery revenues in subsequent fiscal years as such revenues become available.

b. The treasurer of state shall, each quarter, prepare an estimate of the gaming revenues and lottery revenues that will become available during the remainder of the appropriate fiscal year for the purposes described in paragraph "a". The department of management and the department of revenue and finance shall take appropriate actions to provide that the amount of gaming revenues and lottery revenues that will be available during the remainder of the appropriate fiscal year is sufficient to cover any anticipated deficiencies.

1. To ensure the financial integrity of the lottery, the authority shall do all of the following:

a. The fourth quarter report shall be included in the annual report made pursuant to this section. The annual report shall include a complete statement of lottery revenues, prize disbursements, and other expenses, and recommendations for changes in the law that the chief executive officer deems necessary or desirable. The annual report shall be submitted within one hundred twenty days after the close of the fiscal year. The chief executive officer shall report immediately to the governor, the treasurer of state, and the general assembly any matters that require immediate changes in the law in order to prevent abuses or evasions of this chapter or rules adopted or to rectify undesirable conditions in connection with the administration or operation of the lottery.

b. Maintain weekly or more frequent records of lottery transactions, including the distribution of tickets or shares to retailers, revenues received, claims for prizes, prizes paid, prizes forfeited, and other financial transactions of the authority.

c. The authority shall deposit in the lottery fund created in subsection 2 any moneys received by retailers from the sale of tickets or shares less the amount of any compensation due the retailers. The chief executive officer shall certify quarterly that portion of the fund that has been transferred to the general fund of the state under this chapter and shall cause that portion to be transferred to the general fund of the state. However, upon the request of the chief executive officer and subject to the approval by the treasurer of state, an amount sufficient to cover the foreseeable administrative expenses of the lottery for a period of twenty-one days may be retained from the lottery fund. Prior to the quarterly transfer to the general fund of the state, the chief executive officer may direct that lottery revenue shall be deposited in the lottery fund and in interest-bearing accounts designated by the treasurer of state. Interest or earnings paid on the deposits or investments is considered lottery revenue and shall be transferred to the general fund of the state in the same manner as other lottery revenue.

3. The chief executive officer shall certify before the last day of the month following each quarter that portion of the lottery fund resulting from the previous quarter's sales to be transferred to the general fund of the state.

4. For informational purposes only, the chief executive officer shall submit to the department of management by October 1 of each year a proposed operating budget for the authority for the succeeding fiscal year. This budget proposal shall also be accompanied by an estimate of the net proceeds to be deposited into the general fund during the succeeding fiscal year. This budget shall be on forms prescribed by the department of management.

5. The authority shall adopt the same fiscal year as that used by state government and shall be audited annually.²⁸

The full amount of the debt shall be collectable from any lottery winnings due the debtor without regard to limitations on the amounts that may be collectable in increments through garnishment or other proceedings. Such list shall constitute a valid lien upon and claim of lien against the lottery winnings of any debtor named in such list. The list shall contain the names of the debtors, their social security numbers if available, and any other information that assists the authority in identifying the debtors named in the list.

2. The authority is authorized and directed to withhold any winnings paid out directly by the authority subject to the lien created by this section and send notice to the winner. However, if the winner appears and claims winnings in person, the authority shall notify the winner at that time by hand delivery of such action. The authority shall pay the funds over to the agency administering the offset program.

3. Notwithstanding the provisions of section 99G.34 which prohibit disclosure by the authority of certain portions of the contents of prize winner records or information, and notwithstanding any other confidentiality statute, the authority may provide to a claimant agency all information necessary to accomplish and effectuate the intent of this section.

4. The information obtained by a claimant agency from the authority in accordance with this section shall retain its confidentiality and shall only be used by a claimant agency in the pursuit of its debt collection duties and practices. Any employee or prior employee of any claimant agency who unlawfully discloses any such information for any other purpose, except as otherwise specifically authorized by law, shall be subject to the same penalties specified by law for unauthorized disclosure of confidential information by an agent or employee of the authority.

5. Except as otherwise provided in this chapter, attachments, garnishments, or executions authorized and issued pursuant to law shall be withheld if timely served upon the authority.

6. The provisions of this section shall only apply to prizes paid directly by the authority and shall not apply to any retailers authorized by the board to pay prizes of up to six hundred dollars after deducting the price of the ticket or share.

Sec. 120. IOWA LOTTERY AUTHORITY — TRANSITION PROVISIONS.

1. For purposes of this section, unless the context otherwise requires:

a. "Iowa lottery authority" means the Iowa lottery authority as created in this Act pursuant to chapter 99G.

b. "Iowa lottery board" means the five-member board established pursuant to 1985 Iowa Acts, chapter 33, section 105.

c. "Lottery division" means the lottery division of the department of revenue and finance established pursuant to 1985 Iowa Acts, chapter 33, section 103.

2. The Iowa lottery authority shall be the legal successor to the lottery division and, as such, shall assume all rights, privileges, obligations, and responsibilities of the lottery division. The promulgated rules of the lottery division shall remain in full force and effect as the rules of the authority until amended or repealed by the authority. In addition, the Iowa lottery authority may continue the security practices and procedures utilized by the lottery division until amended or repealed by the authority.

3. The Iowa lottery authority is created effective at 12:01 a.m. on September 1, 2003, upon which date and time the authority shall become the legal successor to the lottery division. Until the aforesaid date and time, no business shall be conducted by the authority on behalf of the lottery, provided, however, that the Iowa lottery commissioner and Iowa lottery board shall implement such measures as are appropriate to ensure a smooth transition from the agency to the Iowa lottery authority as of the effective date of succession.

4. Notwithstanding any provision of chapter 99G, as created by this Act, to the contrary, the commissioner of the Iowa lottery established pursuant to 1985 Iowa Acts, chapter 33, section 103, as amended by 1986 Iowa Acts, chapter 1245, section 404, shall serve as the initial chief executive officer of the Iowa lottery authority. The Iowa lottery authority shall function as the legal successor to the lottery division and shall assume all of the assets and obligations of the lottery division, and funds of the state shall not be used or obligated to pay the expenses or prizes of the authority or its predecessor, the lottery division.

8. In order to effect an immediate and efficient transition of the lottery from the lottery

division to the Iowa lottery authority, as soon as practicable, the Iowa lottery authority shall do all of the following:

Approved May 30, 2003, with exceptions noted.

THOMAS J. VILSACK, *Governor*

Dear Mr. Secretary:

I hereby transmit Senate File 453, an Act relating to state and local government financial and regulatory matters, making and reducing appropriations, providing a fee, increasing civil penalties, and providing applicability and effective dates.

I hereby approve Senate File 453 on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portions of Section 31, subsection 1. These items deal with the allocation of the reduction in appropriations to the three Regent universities. It is important that the Board of Regents have complete flexibility in making these reductions across their appropriations.

I am unable to approve the item designated as Section 31, subsection 2. This subsection sets up a legislative interim committee study on a policy option of levying charges for capital assets

³⁰ See chapter 179, §142 herein

against all state agencies. I have previously stated that I do not support this idea and, therefore, do not support the study.

I am unable to approve the item designated as Section 38 in its entirety. This section requires the Department of Education to establish a task force to conduct several studies regarding the structure, funding of area education agencies and the delivery of media services, educational services, and special education services. The section also requires a study of special education, including identification and remediation procedures, the early intervention block grant program, intensive instruction and tutoring, and reading instruction.

These studies would duplicate work already completed and are unnecessary. Thanks to the cooperative efforts of area education agencies, school districts, and the department of education, studies have already been undertaken and recommendations for improvement have been implemented. In addition an accreditation process has been established improving accountability and the efficient and quality services. One-third of the AEAs are in the process of merging next year and this will create additional efficiencies. I agree that resources needed for special education requires special attention and thus I am recommending that the department of education establish a task force to review special education finance.

At the beginning of this legislative session, it was clear that although our fiscal difficulties were not as severe as many other states, Iowa was facing a budget shortfall. Given that the budget must be balanced, we know that those tasked with the responsibility of balancing the budget would inevitably reduce aid to local government. We worked with legislative leaders to make sure that the reforms included in Senate File 453 would give real hope to Iowans that some services can be improved even as less money is spent.

Additionally, my office worked hard to ensure that the federal stimulus package included direct fiscal relief for states and cities to help lessen the burden imposed by Senate File 453. While the federal stimulus package passed last week included \$189 million in aid to Iowa, the Legislature has indicated it will not direct any of those vital dollars to cities and counties.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 453 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*

..... \$ 17,727,890

4. After applying the applicable statutory distribution formulas to the amounts indicated in subsection 2 for purposes to produce preliminary distribution totals, the department of human services shall apply a withholding factor to adjust an eligible individual county's preliminary distribution total. An ending balance percentage for each county shall be determined by expressing the county's ending balance on a modified accrual basis under generally accepted accounting principles for the fiscal year beginning July 1, 2002, in the county's mental health, mental retardation, and developmental disabilities services fund created under section 331.424A, as a percentage of the county's gross expenditures from that fund for that fiscal year. The withholding factor for a county shall be the following applicable percent:

In addition to the county's adjusted distribution total, a county that is subject to this paragraph "a" shall receive an inflation adjustment equal to 2.6 percent of the gross expenditures reported for the county's services fund for that fiscal year.

b. For an ending balance percentage of 10 through 24 percent, a withholding factor of 25 percent.

However, in making such adjustments to the withholding factors, the department shall strive to minimize changes to the withholding factors for those ending balance percentage ranges that are lower than others and shall not adjust the zero withholding factor or the inflation adjustment percentage specified in subsection 4, paragraph "a".

The health care facility shall also assist the Iowa commission of veterans affairs in determining such eligibility for residents residing in the facility on July 1, 2003. The department of inspections and appeals, in cooperation with the department of human services, shall adopt rules to administer this section, including a provision that ensures that if a resident is eligible for benefits through the federal department of veterans affairs or other third-party payor, the payor of last resort for reimbursement to the health care facility is the medical assistance program. 1. The general assembly finds that the existing case management program for frail elders administered by the department of elder affairs is an important component of the long-term care system in this state. The program emphasizes the independence and dignity of the individual while providing services in a cost-effective manner.

2. The purposes of the case management program for frail elders include all of the following:

- a. To provide planning, policy development, coordination, and administrative oversight.
- b. To provide assistance in the form of assessment and care coordination under circumstances in which an elder or the elder's caregiver is experiencing diminished functional capacity or other conditions that require the provision of services by professional service providers.
- c. To maintain a system that focuses on the delivery of home and community-based services that emphasize individual independence, individual needs and desires, and consumer-driven quality of services.

3. It is the intent of the general assembly that the department of elder affairs in collaboration with the department of human services, area agencies on aging, advocacy groups, industry representatives, and consumers submit recommendations to the general assembly by October 1, 2003, regarding the redesigning of the case management program for the frail elderly including preadmission screening methodologies, level of care determinations and ongoing methodologies for the coordination, provision, and delivery of home and community-based services.

b. Pharmacies and providers that are enrolled in the medical assistance program shall make available drug acquisition cost information, product availability information, and other information deemed necessary by the department for the determination of reimbursement rates and the efficient operation of the pharmacy benefit. Pharmacies and providers shall produce and submit the requested information in the manner and format requested by the department or its designee at no cost to the department or designee. Pharmacies and providers shall submit information to the department or its designee within thirty days following receipt of a

request for information unless the department or its designee grants an extension upon written request of the pharmacy or provider. Notwithstanding the required provision of information by pharmacies and providers under this paragraph, if the department is able to obtain any of the information required to be provided under this paragraph in an alternative manner, through which the department is ensured of the validity and accuracy of the information and of the timely submission of the information, the department may instead obtain the information in the alternative manner. Chapter 550 shall apply to the information provided by pharmacies and providers under this paragraph.

Sec. 165. 2003 Iowa Acts, House File 619,⁸⁴ section 9, if enacted, is amended to read as follows:

SEC. 9. NURSING FACILITY REIMBURSEMENT. Notwithstanding 2001 Iowa Acts, chapter 192, section 4, subsection 2, paragraph "c", and subsection 3, paragraph "a", subparagraph (2), if projected state fund expenditures for reimbursement of nursing facilities for the fiscal year beginning July 1, 2003, in accordance with the reimbursement rate specified in 2001 Iowa Acts, chapter 192, section 4, subsection 2, paragraph "c", ~~exceeds~~ exceeds \$147,252,856, the department shall adjust the inflation factor of the reimbursement rate calculation to provide reimbursement within the amount ~~projected~~ specified in this section. The department, in consultation with nursing facility representatives, shall review the projections on a quarterly basis to determine if an interim adjustment is necessary in order to provide reimbursement within the amount specified in this section. In reviewing the projections, the department shall consider the savings from the reduction in bed hold payments, elimination of crossover claims, and increases in Medicare part A utilization.

Sec. 166. 2003 Iowa Acts, House File 619,⁸⁵ section 12, subsections 2 and 3, if enacted, are amended to read as follows:

2. The department of human services, in cooperation with the department's fiscal agent and in consultation with a chronic care ~~management resource group~~ consortium, shall profile medical assistance recipients within a select number of disease diagnosis categories. The assessment shall focus on those diagnosis areas that present the greatest opportunity for impact to improved care and cost reduction.

3. The department of human services, in consultation with a chronic care ~~management resource group~~ consortium, shall conduct a chronic disease management pilot project for a select number of individuals who are participants in the medical assistance program. The project shall focus on a select number of chronic diseases which may include congestive heart failure, diabetes, and asthma. The initial pilot project shall be implemented by October 1, 2003.

Sec. 167. 2003 Iowa Acts, House File 619,⁸⁶ section 12, subsection 4, if enacted, is amended by striking the subsection and inserting in lieu thereof the following:

4. The department of human services may procure a sole source contract with a vendor to manage individuals with select chronic diseases following the conclusion of the profiling of medical assistance recipients. The management of chronic diseases for individuals under this subsection may be coordinated with the pilot project established in subsection 3.

DIVISION IX

**Sec. 171. PURPOSE AND DEFINITIONS.*

1. *PURPOSE.* The general assembly finds that the Iowa communications network is a valuable state asset that has served the people of the state well, but which requires significant ongoing financial support from the state in the form of annual appropriations. The operation of a telecommunications network is a function that can be and generally is conducted by private enterprise. It is in the public interest to sell the Iowa communications network to a qualified private business enterprise that will commit to provide the same secure low-cost high-quality service to state and federal agencies and military installations now provided by the network. Through such a sale, the state would eliminate the need for ongoing annual appropriations while preserving the key benefits enjoyed by the state under the present state ownership of the network. The state also expects to obtain sufficient proceeds from such a sale to cover existing obligations and to realize additional proceeds above the level of such obligations. Given the current depressed state of the telecommunications industry, the state can reasonably be expected to maximize sales proceeds by allowing a purchaser a period of time in which to assemble financing for its purchase. During the interim between enactment of this division of this Act and completion of a sale, the services of a private-enterprise manager with experience operating telecommunications networks can reasonably be expected to reduce the costs of operating the Iowa communications network, thereby lowering annual appropriations.

2. *DEFINITIONS.* As used in this division of this Act, unless the context otherwise requires:

- a. "Board" means the state network privatization board.
- b. "Commission" means the Iowa telecommunications and technology commission established in section 8D.3 to oversee the operations of the network.
- c. "Management contract" means an agreement between the board and the manager for services to oversee and operate the network on behalf of the state.
- d. "Manager" means the private entity selected by the board to oversee and operate the network on behalf of the state.
- e. "Network" means the Iowa or state communications network as defined in section 8D.2.
- f. "Out-of-pocket expenses" means moneys paid to an unaffiliated third party for engineering, legal, consulting, or other services or goods by a manager or purchaser.
- g. "Purchaser" means the entity that is selected by the board to purchase the network from the state.
- h. "Required third-party approval" means any consent, conveyance, approval, or waiver that must be granted by a private, governmental, or quasi-governmental third party in order for the purchaser to receive clear title to all network assets and the right to use the network assets free of adverse claims. Required third-party approvals include but are not limited to all of the following:
 - (1) Approvals of assignments to the purchaser of the state's rights under leases or contracts between the state and the third party.
 - (2) Conveyance to the purchaser of property that the third party currently leases to the state on a term with less than fifteen years remaining.
 - (3) Release of restrictions in contracts that require that the state operate the network.

⁸⁷ Chapter 112, §2 herein

* Item veto; see message at end of the Act

i. "Sales contract" means the contract between the state as seller, represented by the board, and the purchaser, for sale of the network to the purchaser.*

**Sec. 172. STATE NETWORK PRIVATIZATION BOARD CREATED — DUTIES.*

1. A state network privatization board is created. The board shall consist of the following members:

a. A chairperson member appointed by the legislative council, subject to confirmation by the senate.

b. A member, who shall not be of the same political party as the chairperson, appointed by the governor subject to confirmation by the senate.

c. The adjutant general or the adjutant general's designee.

2. The board shall do all of the following:

a. Issue a request for proposals from qualified entities interested in serving as the manager of the network. This request for proposals shall be issued by July 1, 2004, and responses to the request for proposals shall be due by August 1, 2004.

b. Select a manager and enter into a management contract with the manager by October 1, 2004. The management contract shall provide for the continuation of all services currently being provided to state and federal agencies and military installations pursuant to chapter 8D, at the rates specified therein, for the duration of the contract. The contract shall also specify the manager's authority in relation to the duties of the commission during the period between execution of the management contract and closing of the sale of the network. The commission shall establish a dispute resolution process regarding rate increases, quality of service issues, and other areas of dispute involving network subscribers. The commission shall also make recommendations regarding imposition of an ongoing dispute resolution and appeals process commencing with the closing of the sale of the network.

c. Issue a request for proposals from qualified entities for the purchase of the network. This request for proposals shall be issued by January 1, 2005, and responses to the request for proposals shall be due by May 1, 2005.

d. Utilizing the criteria set forth in sections 173 and 174 of this Act, select a purchaser and enter into a sales contract with the purchaser by October 1, 2005.

e. Immediately upon execution of the management contract and the sales contract by the majority of the board, transmit the executed contract to the general assembly and to the governor. The board shall have full authority to enter into the management contract and the sales contract on behalf of the state, provided that the general assembly by legislation enacted regarding the specific purchase and approved by the governor, within thirty days after transmittal to the general assembly and the governor in the case of the management contract, and within sixty days after transmittal to the general assembly and the governor in the case of the sales contract, may disapprove the board's action, in which case the disapproved contract shall have no force and effect. In the event of such disapproval, the state shall pay the manager or the purchaser, as the case may be, reasonable out-of-pocket expenses incurred in preparing a proposal and performing prior to disapproval, but such expenses shall not exceed two hundred thousand dollars in the case of disapproval of the management contract and five hundred thousand dollars in the case of disapproval of the sales contract.

f. Cause the sales contract to require closing by October 1, 2007, allowing time for the state to obtain third-party approvals as required by section 176 of this Act, including the filing of any necessary eminent domain actions, and for the purchaser to secure financing.

g. Execute all necessary documents relating to the closing of the sale of the network. The board may direct any other applicable official to assist in the execution of necessary documents relating to the closing.

h. Require by written directive that all state officials provide information and records concerning the network to the board, to the manager, or to a person submitting a proposal to purchase the network, whenever the board requires such provision of such records and other information.

* Item veto; see message at end of the Act

i. Take all other steps necessary and proper as needed to carry out its responsibilities enumerated in this subsection. The board may adopt necessary rules pursuant to chapter 17A to administer this division of this Act.*

**Sec. 173. MINIMUM QUALIFICATIONS OF PURCHASER. The purchaser shall meet the following requirements:*

1. The principal place of business of the purchaser and any parent of the purchaser shall be located in the state of Iowa.
2. For national security reasons, and because of the extensive military use of the network, the purchaser shall possess national security approval.*

**Sec. 174. CRITERIA FOR SELECTION OF PURCHASER. After issuing a request for proposals for the purchase of the network and considering the proposals received, the board shall select the highest and best offer for purchase of the network from those persons submitting proposals which meet all of the following criteria:*

1. Satisfy the minimum qualifications of this division of this Act.
2. Submit a proposal in compliance with the request for proposals.
3. Demonstrate a likelihood of being able to obtain any financing necessary to close the transaction. However, the board shall not require that the purchaser have a commitment for financing to award the contract, but shall allow the purchaser at least one year to obtain any necessary financing. The board may also in its discretion consider proposals involving financing of the sale by the state.
4. Agree to continue all services currently being provided to state and federal agencies and military installations for the next ten years, with any annual rate increase not to exceed five percent per year, provided that the purchaser shall not be required to supply at such restricted prices a quantity or quality of service greater than that provided by the network as of execution of the contract for sale of the network.*

Sec. 175. CLOSING OF SALE. Any debt of the state related to the network or other liens against network assets shall be discharged out of the state's proceeds of closing, so that the purchaser receives marketable title to the network. The purchaser shall receive bills of sale, in the case of personal property, and deeds, in the case of real property, transferring all network assets to the purchaser. The state shall also transfer its interest in right-of-way and leases and easements for uses of rights-of-way.

**Sec. 176. THIRD-PARTY APPROVALS.*

1. The state shall exercise all reasonable efforts to obtain each required third-party approval, including where necessary by use of eminent domain proceedings. To the extent feasible, the state may pay the costs of obtaining required third-party approvals out of the proceeds of sale rather than from the general fund of the state. In the event the state fails to obtain a required third-party approval, the purchaser may terminate the sales contract without penalty and shall be reimbursed by the state for reasonable out-of-pocket expenses incurred in preparing its proposal and fulfilling its obligations under the sales contract, not to exceed two million dollars.
2. The board and the purchaser shall develop a list of required third-party approvals and persons who may have claims that would constitute required third-party approvals if valid. The board shall mail to each person on the list at their last known address a notice that provides a description of the sale and invites the recipient to submit a claim on a form developed by the board by a deadline set by the board. The claim or interest of any person who fails to timely file a claim shall be deemed discharged and forfeited, and such person shall be forever barred and estopped from taking any action against the state or purchaser that would in any way interfere with the purchaser's use of the network. In addition, the board shall publish the notice in newspapers of general circulation in the state of Iowa, and failure to file a timely claim shall bar all persons whose rights could constitutionally be affected by such notice, just as if such person had been mailed notice.

* Item veto; see message at end of the Act

3. Any eminent domain or other proceeding to obtain a required third-party approval shall be promptly filed by the attorney general at the request of the board and shall be added to the calendar of any trial or appellate court of this state so that the deadline in section 172 of this Act for closing the sale can be met.*

Sec. 177. REMOVAL OF RESTRICTIONS — REPEAL OF CHAPTER 8D. Chapter 8D is repealed, effective as of the date of the closing of the sale of the network under this division of this Act, as certified by the chairperson of the board to the governor.

*Sec. 178. ASSISTANCE OF OTHER STATE AGENCIES.

1. The attorney general shall provide legal advice to the board.
2. All other state agencies shall provide whatever assistance may reasonably be required by the board in carrying out its duties under this division of this Act.*

The member appointed by each state legislator shall be a person who is not holding elected office and who is a resident of the legislative district of the state legislator. ~~If any portion~~ more than one-half of the population of a legislative district is in the unincorporated area of the county, the member appointed by that legislator shall be a resident of the unincorporated area of the county.*

Sec. 180. EFFECTIVE DATE. This division of this Act, being deemed of immediate importance, takes effect upon enactment.

Approved May 30, 2003, with exceptions noted.

THOMAS J. VILSACK, Governor

Dear Mr. Secretary:

I hereby transmit Senate File 458, an Act relating to public expenditure and regulatory matters, compensating public employees, making and reducing appropriations, modifying sales and use taxes, modifying the investment tax credits and premium taxes on mutual insurance associations, providing for related matters, making penalties applicable, and providing effective dates.

* Item veto; see message at end of the Act

Senate File 458 is approved on this date with the following exceptions, which I hereby disapprove:

I am unable to approve the item designated as Section 13 in its entirety. This section prohibits local governments from prorating state funded property tax credits to taxpayers based upon the amount of the appropriations available in relation to total credit claims. I am concerned that this provision would further reduce funding for local governments, beyond the significant reductions that have already been made.

I am unable to approve the item designated as Section 23 in its entirety. This language creates a new funding stream for a single county hospital. I am sympathetic to the struggle of a hospital providing services to the poor and needy. However, creating an inequity is no way to properly help a struggling hospital. Appropriate Medicare reimbursement is a more appropriate remedy for the ills of a struggling hospital.

I am unable to approve the item designated as Section 103 in its entirety. This section places sanctions based on the performance, or lack of performance, on outcomes for young children. This appears to set the stage for increased pressure of inappropriate assessment of young children as well as unrealistic expectations on Community Empowerment Areas to show a percent of improvement. In addition, the language regarding penalties by a reduction in funds for not meeting an established percent improvement does not support the purpose or intent of Community Empowerment.

I am unable to approve the items designated as Sections 106, 107, and 153 in their entirety. This language would change the merit status of the Iowa Law Enforcement Academy's director. This change is punitive and unnecessarily would destabilize the position and the work of the director.

I am unable to approve the item designated as Section 110 in its entirety. American justice requires that those wrongly injured by the negligence of others have the right to fully recover any damages for their injuries. No system of justice can reverse the physical effects of an injury, but justice can be served when an injured party is made financially whole. Section 110 creates a privileged class of wrongdoers — those who hurt and injure attendees at a county fair. Efforts to create such a special class of wrongdoers that is immune from suit in a budget bill adds insult to injury.

I am unable to approve the item designated as Section 133 in its entirety, which will allow the sanitary landfills with an active methane collection system to accept yard waste. This action will be a major step backwards for integrated solid waste management creating a need for communities to expand existing facilities or find new property for landfills. Yard waste is best managed at a composting facility and is one of the keys in improving Iowa's water quality. Collecting methane from landfills is still relatively inefficient. As urged by numerous recycling groups who support integrated solid waste management, pollution is best prevented by not disposing of yard waste at a landfill.

I am unable to approve the item designated as Section 145 in its entirety. This proposed language undermines the existing process that already exists in Code of Iowa (904.317), authority to sell land. This process can be utilized for any possible land purchases and must be maintained to ensure the security needs and future long-term needs of the department that may arise.

I am unable to approve the item designated as Section 146 in its entirety. This language directs the Department of Revenue and Finance to pay a claim that has been denied. An appeal was heard and a decision rendered denying the claim. The integrity of the State Appeal Board must not and will not be compromised.

I am unable to approve the item designated as Section 147 in its entirety. This language directs the State Appeal Board to pay a claim that had been denied. The Department of Education previously denied the claim. No appeal was filed and the time expired to do so. The integrity of the State claims process must not and will not be compromised. This section appears to infringe on the authority of the executive branch and State Appeal Board.

I am unable to approve the item designated as Section 151. This section provides funding from team-based variable pay moneys for a reading instruction pilot program. This proposed program would duplicate current efforts under the federally funded reading program, Reading First, and take critical funding away from the team-based variable pay program.

I am unable to approve the item designated as Division VII, Section 156, subsections 4, 7, and 8 in their entirety. These subsections deal with smallpox vaccinations. Subsection 4 would require a set aside of Homeland Security federal funds for an unauthorized purpose. Subsection 7 requires vaccinations to be administered by a specific process which at this time is not approved by the FDA. Subsection 8 gives inappropriate duties and responsibilities for the coordination of vaccines and pharmaceuticals to the Emergency Management Division. Such supplies should emanate from the Center for Disease Control to the Health Department.

I am unable to approve the item designated as Division IX of Senate File 458, Sections 171 through 178, which provides a process for the privatization of the Iowa Communications Network (ICN), in its entirety. The design and implementation of the ICN does not easily support privatization. Careful study of a plan to privatize the network should be done with consideration of the network architecture, critical facilities, as well as the impact to education and homeland security.

Education has been and continues to be one of the highest priorities of this administration. I do not believe that potential adverse impacts on our State's education system were given adequate, if any, consideration. All levels of education depend upon the ICN for provision of education throughout Iowa. The ICN also plays a vital role in our state's homeland security. All homeland security functions would need to be maintained. In some cases, this would require new federal waivers and new agreements involving federal departments. These may not be easily forthcoming.

An issue of the magnitude of the State's fiber optic network should be worked through the legislative process as a separate bill, receiving full consideration by committees and adequate information for full debate. This amendment was attached during the final hours of the legislative session and left inadequate time for the public including authorized users, the Commission or ICN staff to provide information to policy makers in order for them to make a fully informed decision.

I am unable to approve the item designated as Section 179 in its entirety. This section limits the creation of a local government organization review committee to only counties with a population in excess of 100,000. Creating one process for large urban counties and not allowing small rural counties unnecessarily discriminates between local governments located in urban and rural areas. We are and should always be one Iowa. This important value is compromised in Section 179.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 458 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*

THOMAS J. VILSACK, *Governor*

Dear Mr. Secretary:

I hereby transmit House File 549, an Act relating to the duties and operations of the department of education, the board of educational examiners, the state board of regents and its universities, and school boards, and to property tax school reorganization incentives; requiring the establishment of a reading instruction pilot program; and including effective and retroactive applicability date provisions.

House File 549 is vitally important for education in Iowa. This bill expands the current data management system to meet the federal requirements of the No Child Left Behind initiative. It also extends the K-3 Class Size reduction program for an additional fiscal year. While this falls short of my recommendation, it allows us to continue working toward the goal of reducing K-3 class sizes to 17 students per teacher. House File 549 expands reorganization incentives for K-12 school districts and makes several changes to clarify the reorganization process for AEAs. It also makes necessary Code changes to the teacher quality program.

House File 549 is approved on this date, with the following exceptions, which I hereby disapprove.

I am unable to approve the item designated as Section 5. This section requires the Department of Education to develop and implement a statewide program for educational assessment reporting and to use this information for a statewide report card. The text of paragraph "c" which describes the "single value-added system" requires the use of a proprietary system. I do not believe that it is in the best interest of school districts and the Department of Education to mandate a reporting system that is redundant to the requirement of the No Child Left Behind Act. I also do not support the mandate that all districts and the Department of Education must use a single proprietary system for analysis and reporting of assessment results.

I am unable to approve the item designated as Section 51 which removes the contract requirement for part-time and substitute bus drivers. The current law provides for a standard uniform contract for all drivers of school-owned equipment. This language eliminates secure employment relationships for bus drivers who are often responsible for the safety of our children.

I am unable to approve the items designated as Section 69 and Section 71, subsection 3. Section 69 requires the Department of Education to establish and administer a reading instruction pilot program beginning in the fall of 2003. A considerable effort is currently underway in the

Department of Education given the requirements of the federally funded reading program, Reading First. The Reading First program will in the 2003-2004 school year involve 30 school districts across the state to improve reading skills. The federal program guidelines and evaluation requirements are very similar to the requirements in Section 69. The proposed reading program would duplicate current efforts and it is also very late for a district to plan to participate in a new program this fall.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 549 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, Governor

Sec. 10. MEDICAL ASSISTANCE — SUPPLEMENTAL AMOUNTS. For the fiscal year beginning July 1, 2003, and ending June 30, 2004, the department of human services shall continue the supplemental disproportionate share and a supplemental indirect medical education adjustment applicable to state-owned acute care hospitals with more than 500 beds and shall reimburse qualifying hospitals pursuant to that adjustment with a supplemental amount for services provided medical assistance recipients. The adjustment shall generate supplemental payments intended to equal the state appropriation made to a qualifying hospital for treatment of indigent patients as provided in chapter 255. To the extent of the supplemental payments, a qualifying hospital shall, after receipt of the funds, transfer to the department of human services an amount equal to the actual supplemental payments that were made in that month. The aggregate amounts for the fiscal year shall not exceed the state appropriation made to the qualifying hospital for treatment of indigent patients as provided in chapter 255. The department of human services shall deposit these funds in the department's medical assistance account. To the extent that state funds appropriated to a qualifying hospital for the treatment of indigent patients as provided in chapter 255 have been transferred to the department of human services as a result of these supplemental payments made to the qualifying hospital, the department shall not, directly or indirectly, recoup the supplemental payments made to a qualifying hospital for any reason, unless an equivalent amount of the funds transferred to the department of human services by a qualifying hospital pursuant to this provision is transferred to the qualifying hospital by the department.

education fund and allocated to the university for the college of medicine. The state university of Iowa shall transfer from the allocation for the college of medicine to the department of human services, on a monthly basis, an amount equal to the additional supplemental payments made during the previous month pursuant to this paragraph. A qualifying hospital receiving supplemental payments pursuant to this paragraph that are greater than the state appropriation made to the qualifying hospital for treatment of indigent patients as provided in chapter 255 shall be obligated as a condition of its participation in the medical assistance program to transfer to the state university of Iowa general education fund on a monthly basis an amount equal to the funds transferred by the state university of Iowa to the department of human services. To the extent that state funds appropriated to the state university of Iowa and allocated to the college of medicine have been transferred to the department of human services as a result of these supplemental payments made to the qualifying hospital, the department shall not, directly or indirectly, recoup these supplemental payments made to a qualifying hospital for any reason, unless an equivalent amount of the funds transferred to the department of human services by the state university of Iowa pursuant to this paragraph is transferred to the qualifying hospital by the department.

Continuation of the supplemental disproportionate share and supplemental indirect medical education adjustment shall preserve the funds available to the university hospital for medical and surgical treatment of indigent patients as provided in chapter 255 and to the state university of Iowa for educational purposes at the same level as provided by the state funds initially appropriated for that purpose.

The department of human services shall, in any compilation of data or other report distributed to the public concerning payments to providers under the medical assistance program, set forth reimbursements to a qualifying hospital through the supplemental disproportionate share and supplemental indirect medical education adjustment as a separate item and shall not include such payments in the amounts otherwise reported as the reimbursement to a qualifying hospital for services to medical assistance recipients.

For purposes of this section, "supplemental payment" means a supplemental payment amount paid for medical assistance to a hospital qualifying for that payment under this section.

For the fiscal year beginning July 1, 2003, and ending June 30, 2004, the state board of regents may use notes, bonds, or other evidences of indebtedness issued under section 262.48 to finance projects that will result in energy cost savings in an amount that will cause the state board to recover the cost of the projects within an average of six years.

Sec. 12. Notwithstanding section 270.7, the department of revenue and finance shall pay the state school for the deaf and the Iowa braille and sight saving school the moneys collected from the counties during the fiscal year beginning July 1, 2003, for expenses relating to prescription drug costs for students attending the state school for the deaf and the Iowa braille and sight saving school.

THOMAS J. VILSACK, *Governor*

Dear Mr. Secretary:

I hereby transmit House File 662, an Act relating to the funding of, the operation of, and appropriation of moneys to the College Student Aid Commission, the Department of the Blind, the Department of Cultural Affairs, the Department of Education, and the State Board of Regents and including an effective date and retroactive applicability date provision.

House File 662 provides funding to help achieve the ambitious goals we have set for education in Iowa. I am particularly pleased with the continued commitment to reduce class sizes, redesign teacher compensation strategies, increase Iowa Tuition Grant funding, maintain quality faculty and staff at our state’s Regents institutions, and provide support for community colleges.

There are, however, shortcomings in this legislation. I am disappointed that the college work-study program was not reinstated. The Iowa Work Study program is a great tool to help disad-

* Item veto; see message at end of the Act

vantaged students work their way through our public universities, community colleges, and independent colleges. In addition, no funding was provided to start the Iowa Virtual Academy. I hope the Legislature will address these areas in the future.

House File 662 is approved on this date, with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portion of Section 9, subsection 1. This sentence specifies that the Board of Regents, the Department of Management and the Fiscal Bureau shall cooperate to determine the amount to be appropriated for tuition replacement. This language is outdated and unnecessary as the Board of Regents now relies on a financial advisor to calculate figures for tuition replacement.

I am unable to approve the designated portion of Section 9, subsection 2. This paragraph restricts spending on the School of Public Health and the Public Health Initiative at the University of Iowa. If we face a growing need for workers trained in these health professions and for the services provided by this program, then it is appropriate to allow reallocations of funds to the school of public health from other areas, rather than single this out as the one area at the University of Iowa to have its budget capped at its previous level.

I am unable to approve the designated portion of Section 9, subsection 3. This language restricts spending on the Center for Excellence in Fundamental Plant Sciences at Iowa State University and does not permit this program to receive either its share of dollars for salary increases or internal reallocations of funds from other university programs. If we are committed to making Iowa a leader in plant sciences technologies then it is unreasonable to single this out as the one center at Iowa State University to have its budget frozen.

I am unable to approve the designated portion of Section 9, subsection 4. This language restricts spending on the masters in social work program, the roadside vegetation project, and the Iowa office for staff development at the University of Northern Iowa. There is no reason to single these three areas out to be treated differently from all the other programs and activities at the University of Northern Iowa.

I am unable to approve Section 18 in its entirety. This veto is a technical correction. This section conflicts with Senate File 458, Section 117, which also changes the paragraph lettering in Iowa Code section 284.13, subsection 1, paragraph g.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 662 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*

H.F. 692

AN ACT concerning regulatory, taxation, and statutory requirements affecting individuals and business relating to taxation of property, income and utilities, liability reform, workers' compensation, financial services, unemployment compensation employer surcharges, economic development, and including effective date, applicability, and retroactive applicability provisions.

Be It Enacted by the General Assembly of the State of Iowa:

DIVISION I
PROPERTY TAXATION

Section 1. Section 441.19, subsections 1 and 2, Code 2003, are amended to read as follows:

1. Supplemental and optional to the procedure for the assessment of property by the assessor as provided in this chapter, the assessor may require from all persons required to list their property for taxation as provided by sections 428.1 and 428.2, a supplemental return to be prescribed by the director of revenue and finance upon which the person shall list the person's property and any additions or modifications completed in the prior year to a structure located on the property. The supplemental return shall be in substantially the same form as now prescribed by law for the assessment rolls used in the listing of property by the assessors. Every person required to list property for taxation shall make a complete listing of the property upon

supplemental forms and return the listing to the assessor as promptly as possible within thirty days of receiving the assessment notice in section 441.23. The return shall be verified over the signature of the person making the return and section 441.25 applies to any person making such a return. The assessor shall make supplemental return forms available as soon as practicable after the first day of January of each year. The assessor shall make supplemental return forms available to the taxpayer by mail, or at a designated place within the taxing district.

2. Upon receipt of such supplemental return from any person the assessor shall prepare a roll assessing such person as hereinafter provided. In the preparation of such assessment roll the assessor shall be guided not only by the information contained in such supplemental roll, but by any other information the assessor may have or which may be obtained by the assessor as prescribed by the law relating to the assessment of property. The assessor shall not be bound by any values or square footage determinations or purchase prices as listed in such supplemental return, and may include in the assessment roll any property omitted from the supplemental return which in the knowledge and belief of the assessor should be listed as required by law by the person making the supplemental return. Upon completion of such roll the assessor shall deliver to the person submitting such supplemental return a copy of the assessment roll, either personally or by mail.

Sec. 2. NEW SECTION. 441.20 LEGISLATIVE INTENT.

It is the intent of the general assembly that there be transparency in the property tax system. It is further the intent of the general assembly that property assessments for purposes of property taxation be equal and uniform within classes of property. It is further the intent of the general assembly to minimize the impact that maintenance and upkeep by the owner of property has on the assessment of that property and that there be predictability in increases of property assessments and that such predictability be based primarily on the actions of the property owner. It is further the intent of the general assembly to minimize the impact that increases in assessed value of property will have on property taxes paid and that any increases will be primarily the result of direct action taken by the local taxing authority in setting budget amounts rather than by increases in market value of property.

Sec. 3. Section 441.21, Code 2003, is amended by striking the section and inserting in lieu thereof the following:

441.21 ASSESSMENT OF STRUCTURES.

1. All real property, except land, subject to taxation shall be assessed on a value per square foot basis according to the provisions of this section.

2. a. Subject to paragraph "b", for valuations established as of January 1, 2006, and for subsequent assessment years, the assessed value per square foot of a residential structure shall be an amount equal to the valuation of the structure as determined for the assessment year beginning January 1, 2005, prior to application of the assessment limitation for that year, divided by the total number of square feet of the structure as of January 1, 2005.

b. (1) The assessed value per square foot of an existing residential structure purchased after January 1, 2005, shall be the purchase price of the structure divided by the cumulative inflation factor established for the assessment year following the year of purchase, divided by the total number of square feet of the structure as of January 1 of the assessment year. The assessed value per square foot of a residential structure newly constructed after January 1, 2005, shall be the market value of the structure, as determined by the assessor, divided by the cumulative inflation factor established for the assessment year following the year construction was completed, divided by the total number of square feet of the structure as of January 1 of the assessment year. However, when valuing an addition that substantially increases the square footage of a structure, only that portion of the structure comprising the addition shall be valued by the assessor under this subparagraph.

(2) If additions or modifications to an existing structure do not constitute a newly constructed structure, the valuation of the structure shall only increase if the square footage of the structure increases. The increased valuation, if any, equals the amount of increased square feet times the value per square foot of the structure prior to the additions or modifications.

3. a. Subject to paragraph "b" for valuations established as of January 1, 2006, and for subsequent assessment years, the assessed value per square foot of a commercial or industrial structure shall be an amount equal to the valuation of the structure as determined for the assessment year beginning January 1, 2005, prior to application of the assessment limitation for that year, divided by the total number of square feet of the structure as of January 1, 2005.

b. (1) The assessed value per square foot of an existing commercial or industrial structure purchased after January 1, 2005, shall be the purchase price of the structure divided by the cumulative inflation factor established for the assessment year following the year of purchase, divided by the total number of square feet of the structure as of January 1 of the assessment year. The assessed value per square foot of a commercial or industrial structure newly constructed after January 1, 2005, shall be the market value of the structure, as determined by the assessor, divided by the cumulative inflation factor established for the assessment year following the year construction was completed, divided by the total number of square feet of the structure as of January 1 of the assessment year. However, when valuing an addition that substantially increases the square footage of a structure, only that portion of the structure comprising the addition shall be valued by the assessor under this subparagraph.

(2) If additions or modifications to an existing structure do not constitute a newly constructed structure, the valuation of the structure shall only increase if the square footage of the structure increases. The increased valuation, if any, equals the amount of increased square feet times the value per square foot of the structure prior to the additions or modifications.

4. a. Subject to paragraph "b" for valuations established as of January 1, 2006, and for subsequent assessment years, the assessed value per square foot of an agricultural structure that is not an agricultural dwelling shall be an amount equal to the valuation of the structure as determined for the assessment year beginning January 1, 2005, prior to application of the assessment limitation for that year, divided by the total number of square feet of the structure as of January 1, 2005.

b. (1) The assessed value per square foot of an existing agricultural structure purchased after January 1, 2005, shall be the productivity value of the structure divided by the cumulative inflation factor established for the assessment year following the year of purchase, divided by the total number of square feet of the structure as of January 1 of the assessment year. The assessed value per square foot of an agricultural structure newly constructed after January 1, 2005, shall be the productivity value of the structure for the assessment year following the year construction was completed, as determined by the assessor, divided by the cumulative inflation factor established for the assessment year following the year construction was completed, divided by the total number of square feet of the structure as of January 1 of the assessment year. However, when valuing an addition that substantially increases the square footage of a structure, only that portion of the structure comprising the addition shall be valued by the assessor under this subparagraph.

(2) If additions or modifications to an existing structure do not constitute a newly constructed structure, the valuation of the structure shall only increase if the square footage of the structure increases. The increased valuation, if any, equals the amount of increased square feet times the value per square foot of the structure prior to the additions or modifications.

5. a. In determining the market value of newly constructed property, except agricultural structures, the assessor may determine the value of the property using uniform and recognized appraisal methods including its productive and earning capacity, if any, industrial conditions, its cost, physical and functional depreciation and obsolescence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor. The following shall not be taken into consideration: special value or use value of the property to its present owner, and the goodwill or value of a business that uses the property as distinguished from the value of the property as property. However, in assessing property that is rented or leased to low-income individuals and families as authorized by section 42 of the Internal Revenue Code, as amended, and which section limits the amount that the individual or family pays for the rental or lease of units in the property, the assessor shall use the productive and earning capacity from the actual rents received as a method of appraisal and shall take into account

the extent to which that use and limitation reduces the market value of the property. The assessor shall not consider any tax credit equity or other subsidized financing as income provided to the property in determining the market value. Upon adoption of uniform rules by the department of revenue and finance covering assessments and valuations of such properties, the valuation on such properties shall be determined in accordance with such values for assessment purposes to assure uniformity, but such rules shall not be inconsistent with or change the foregoing means of determining the market value.

b. The actual value of special purpose tooling, which is subject to assessment and taxation as real property under section 427A.1, subsection 1, paragraph "e", but which can be used only to manufacture property which is protected by one or more United States or foreign patents, shall not exceed the fair and reasonable exchange value between a willing buyer and a willing seller, assuming that the willing buyer is purchasing only the special purpose tooling and not the patent covering the property which the special purpose tooling is designed to manufacture nor the rights to manufacture the patented property. For purposes of this paragraph, special purpose tooling includes dies, jigs, fixtures, molds, patterns, and similar property. The assessor shall not take into consideration the special value or use value to the present owner of the special purpose tooling which is designed and intended solely for the manufacture of property protected by a patent in arriving at the actual value of the special purpose tooling.

c. In determining the purchase price of a structure, the assessor shall consider whether the sale was a fair and reasonable exchange in the year in which the property was listed and valued between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and each being familiar with all the facts relating to the particular property. Sale prices of the property or comparable property in normal transactions reflecting market value, and the probable availability or unavailability of persons interested in purchasing the property, shall be taken into consideration in determining purchase price. In determining purchase price, sale prices of property in abnormal transactions not reflecting market value shall not be taken into account, or shall be adjusted to eliminate the effect of factors which distort market value, including but not limited to sales to immediate family of the seller, foreclosure or other forced sales, contract sales, or discounted purchase transactions.

d. If a county enters into a contract before May 1, 2003, for a comprehensive revaluation by a private appraiser and such revaluation is for the assessment year beginning January 1, 2006, the valuations determined under the comprehensive revaluation for that assessment year shall be divided by the cumulative inflation factor for the assessment year beginning January 1, 2006, and that quotient shall be considered the valuation of the property for the assessment year beginning January 1, 2005.

6. Notwithstanding any other provision of this section, the assessed value per square foot of a structure times the total number of square feet of the structure shall not exceed its fair and reasonable market value for the assessment year, except for agricultural structures which shall be valued exclusively as provided in subsection 4.

7. For purposes of this section:

a. "Annual inflation factor" means an index, expressed as a percentage, determined by the department by January 15 of the assessment year for which the factor is determined, which reflects the purchasing power of the dollar as a result of inflation during the twelve-month period ending September 30 of the calendar year preceding the assessment year for which the factor is determined. In determining the annual inflation factor, the department shall use the annual percent change, but not less than zero percent, in the gross domestic product price deflator computed for the calendar year by the bureau of economic analysis of the United States department of commerce and shall add all of that percent change to one hundred percent. The annual inflation factor and the cumulative inflation factor shall each be expressed as a percentage rounded to the nearest one-tenth of one percent. The annual inflation factor shall not be less than one hundred percent. The annual inflation factor for the 2005 calendar year is one hundred percent.

b. "Cumulative inflation factor" means the product of the annual inflation factor for the 2005

calendar year and all annual inflation factors for subsequent calendar years as determined pursuant to this subsection. The cumulative inflation factor applies to the assessment year beginning on January 1 of the calendar year for which the latest annual inflation factor has been determined.

c. "Newly constructed" includes, but is not limited to, structural replacement, additions that substantially increase the square footage, conversion into another class of property, and conversion from exempt property under section 427.1 to taxable property. For commercial and industrial property, "newly constructed" also includes an addition or removal to a structure of personal property taxed as real estate under chapter 427A.

d. "Structure" means any part of that which is built or constructed, an edifice or building of any kind, or any piece of work artificially built up or composed of parts joined together in some definite manner. For residential structures, structure includes only those parts of the structure, including basements and attics, that are or could be used as living space. "Structure" does not include the land beneath, or horizontal improvements relating to the structure, such as sidewalks, sewers, or retaining walls.

8. For the purpose of computing the debt limitations for municipalities, political subdivisions, and school districts, the term "actual value" means the "actual value" as determined under this section without application of any percentage reduction and entered opposite each item, and as listed on the tax list as provided in section 443.2, as "actual value".

Whenever any board of review or other tribunal changes the assessed value of property, all applicable records of assessment shall be adjusted to reflect such change in both assessed value and actual value of such property.

9. The provisions of this chapter and chapters 443, 443A, and 444 shall be subject to legislative review at least once every five years. The review shall be based upon a property tax status report containing the recommendations of a property tax implementation committee appointed to conduct a review of the land tax, square footage tax, the baseline assessment for the square footage tax, and other related provisions, to be prepared with the assistance of the departments of management and revenue and finance. The report shall include recommendations for changes or revisions based upon demographic changes and property tax valuation fluctuations observed during the preceding five-year interval, and a summary of issues that have arisen since the previous review and potential approaches for their resolution. The first such report shall be submitted to the general assembly no later than January 1, 2010, with subsequent reports developed and submitted by January 1 at least every fifth year thereafter.

Sec. 4. NEW SECTION. 441.21A PROPERTY CLASSIFICATIONS.

1. a. Agricultural land shall be valued at its productivity value. The productivity value of agricultural land shall be determined on the basis of productivity and net earning capacity of the land determined on the basis of its use for agricultural purposes capitalized at a rate of seven percent and applied uniformly among counties and among classes of property. Any formula or method employed to determine productivity and net earning capacity of land shall be adopted in full by rule.

b. In counties or townships in which field work on a modern soil survey has been completed since January 1, 1949, the assessor shall place emphasis upon the results of the survey in spreading the valuation among individual parcels of such agricultural land.

c. "Agricultural land" includes the land of a vineyard.

2. a. "Residential property" includes all lands and buildings which are primarily used or intended for human habitation, including those buildings located on agricultural land. Buildings used primarily or intended for human habitation shall include the dwelling as well as structures and improvements used primarily as a part of, or in conjunction with, the dwelling. This includes but is not limited to garages, whether attached or detached, tennis courts, swimming pools, guest cottages, and storage sheds for household goods. Residential property located on agricultural land shall include only buildings.

b. "Residential property" includes all land and buildings of multiple housing cooperatives

organized under chapter 499A and includes land and buildings used primarily for human habitation which land and buildings are owned and operated by organizations that have received tax-exempt status under section 501(c)(3) of the Internal Revenue Code and rental income from the property is not taxed as unrelated business income under section 422.33, subsection 1A.

c. "Residential property" includes an apartment in a horizontal property regime referred to in chapter 499B which is used or intended for use for human habitation regardless of who occupies the apartment. Existing structures shall not be converted to a horizontal property regime unless applicable building code requirements have been met.

d. Buildings for human habitation that are used as commercial ventures, including but not limited to hotels, motels, rest homes, and structures containing three or more separate living quarters shall not be considered residential property.

Sec. 5. Section 441.23, Code 2003, is amended to read as follows:

441.23 NOTICE OF VALUATION.

If there has been an increase or decrease in the valuation of the property, or upon the written request of the person assessed, the assessor shall, at the time of making the assessment, inform the person assessed, in writing, of the valuation put upon the taxpayer's property, and notify the person, if the person feels aggrieved, to appear before the board of review and show why the assessment should be changed. However, if the valuation of a class of agricultural property is uniformly decreased, the assessor may notify the affected property owners by publication in the official newspapers of the county. The owners of real property shall be notified not later than April 15 of any adjustment of the real property assessment. The notification shall include a supplemental return form for the person to list the person's property and any additions or modifications completed in the prior year to a structure located on the property, as required in section 441.19.

Sec. 6. Section 441.24, Code 2003, is amended to read as follows:

441.24 REFUSAL TO FURNISH STATEMENT.

1. If a person refuses to furnish the verified statements required in connection with the assessment of property by the assessor, or to list the corporation's or person's property, the director of revenue and finance, or assessor, as the case may be, shall proceed to list and assess the property according to the best information obtainable, and shall add to the taxable agricultural land and square footage valuation one hundred percent thereof, which valuation and penalty shall be separately shown, and shall constitute the assessment; and if the agricultural land or square footage valuation of the property is changed by a board of review, or on appeal from a board of review, a like penalty shall be added to the valuation thus fixed.

2. However, all or part of the penalty imposed under this section may be waived by the board of review upon application to the board by the assessor or the property owner. The waiver or reduction in the penalty shall be allowed only on the agricultural land or the square footage valuation of real property the structure against which the penalty has been imposed.

Sec. 7. Section 441.26, unnumbered paragraph 3, Code 2003, is amended to read as follows:

The notice in 1981 2007 and each odd-numbered year thereafter shall contain a statement that the agricultural property assessments and property assessed pursuant to section 441.21, subsection 2, paragraph "b", subparagraph (1), and subsection 3, paragraph "b", subparagraph (1), are subject to equalization pursuant to an order issued by the director of revenue and finance, that the county auditor shall give notice on or before October 15 by publication in an official newspaper of general circulation to any class of agricultural property affected by the equalization order, and that the board of review shall be in session from October 15 to November 15 to hear protests of affected property owners or taxpayers whose valuations have been adjusted by the equalization order.

Sec. 8. Section 441.26, unnumbered paragraphs 4 and 5, Code 2003, are amended to read as follows:

The assessment rolls shall be used in listing the property, the number of structures, and the total square footage of the structures by class of property, and showing the values affixed to agricultural land and the assessed value per square foot affixed to the property the structures by class of property of all persons assessed. The rolls shall be made in duplicate. The duplicate roll shall be signed by the assessor, detached from the original and delivered to the person assessed if there has been an increase or decrease in the valuation of the property. If there has been no change in the evaluation, the information on the roll may be printed on computer stock paper and preserved as required by this chapter. If the person assessed requests in writing a copy of the roll, the copy shall be provided to the person. The pages of the assessor's assessment book shall contain columns ruled and headed for the information required by this chapter and that which the director of revenue and finance deems essential in the equalization work of the director. The assessor shall return all assessment rolls and schedules to the county auditor, along with the completed assessment book, as provided in this chapter, and the county auditor shall carefully keep and preserve the rolls, schedules and book for a period of five years from the time of its filing in the county auditor's office.

Beginning with valuations for January 1, ~~1977~~ 2006, and each succeeding year, for each parcel of agricultural property and for each structure entered in the assessment book, the assessor shall list the classification of the property.

Sec. 9. Section 441.35, subsection 1, Code 2003, is amended by striking the subsection.

Sec. 10. Section 441.35, unnumbered paragraph 2, Code 2003, is amended by striking the unnumbered paragraph.

Sec. 11. Section 441.36, Code 2003, is amended to read as follows:

441.36 CHANGE OF ASSESSMENT — NOTICE.

All changes in assessments authorized by the board of review, and reasons therefor, shall be entered in the minute book kept by ~~said~~ the board and on the assessment roll. ~~Said~~ The minute book shall be filed with the assessor after the adjournment of the board of review and shall at all times be open to public inspection. In case the value of any specific property or structure or the entire assessment of any person, partnership, or association is increased, or new property or a new structure is added by the board, the clerk shall give immediate notice thereof by mail to each at the post-office address shown on the assessment rolls, and at the conclusion of the action of the board therein the clerk shall post an alphabetical list of those whose assessments are thus raised and added, in a conspicuous place in the office or place of meeting of the board, and enter upon the records a statement that such posting has been made, which entry shall be conclusive evidence of the giving of the notice required. 1. The adjusted gross income is adjusted by adding the sum of the following:
 - a. Add the amount of federal income tax refunds received in a tax year beginning on or after January 1, 2007, but before January 1, 2010, to the extent that the federal income tax was deducted on an Iowa individual income tax return for a tax year beginning prior to January 1, 2007.
 - b. Add interest and dividends from foreign securities and from securities of state and other political subdivisions exempt from federal income tax under the Internal Revenue Code.
 - c. Add interest and dividends from regulated investment companies exempt from federal income tax under the Internal Revenue Code.
 - d. Add, to the extent not already included, income from the sale of obligations of the state and its political subdivisions.  - e. Add the amount resulting from the cancellation of a participation agreement refunded to the taxpayer as a participant in the Iowa educational savings plan trust under chapter 12D to the extent previously deducted as a contribution to the trust.
2. The adjusted gross income is adjusted by subtracting the sum of the following:
 - a. Subtract the amount of federal income taxes paid or accrued, as the case may be, in a tax year beginning on or after January 1, 2007, but before January 1, 2010, to the extent the federal tax payment is for a tax year beginning prior to January 1, 2007.

A taxpayer affected by this paragraph shall make adjustments in the adjusted gross income pursuant to rules adopted by the director.

The adjustment to net income provided in this paragraph "f" is repealed for tax years beginning on or after January 1, 2002. However, to the extent that a taxpayer using the accrual method of accounting reported the entire capital gain from the sale or exchange of property on the Iowa return for the tax year beginning in the 2001 calendar year and the capital gain was reported on the installment method on the federal income tax return, any additional installment from the capital gain reported for federal income tax purposes is not to be included in net income in tax years beginning on or after January 1, 2002.

g. Subtract, if the taxpayer is the owner of an individual development account certified under chapter 541A at any time during the tax year, all of the following:

L. No. 107-16, and the advanced refund of such credit shall not be subject to taxation under this division.

b. In determining the amount of federal income tax refunds or taxes paid or accrued under subsection 1 or 2, for tax years beginning in the 2002 calendar year, the amount shall not be adjusted by the amount of the rate reduction credit received during the tax year to the extent that the credit is attributable to the rate reduction credit provided pursuant to the federal Economic Growth and Tax Relief Reconciliation Act of 2001, Pub. DIVISION XXI EFFECTIVE DATE

Sec. 133. EFFECTIVE DATE. Unless otherwise provided in this Act, this Act takes effect July 1, 2003.

Approved June 19, 2003, with exceptions noted.

THOMAS J. VILSACK, Governor

Dear Mr. Secretary:

I hereby transmit House File 692, an Act concerning regulatory, taxation, and statutory requirements affecting individuals and business relating to taxation of property, income and utilities, liability reform, workers' compensation, financial services, unemployment compensation, employer surcharges, economic development, and including effective date, applicability, and retroactive applicability provisions.

House File 692 is approved on this date with the following exceptions, which I hereby disapprove:

I am unable to approve the items designated as Divisions II, III, and IV that consist of Sections 44 through 72, in their entirety. These sections would provide for a reduction in personal income taxes. I have repeatedly called on legislative leaders to reform and simplify the Iowa personal income tax code in a manner that would be revenue neutral. I laid out very clear parameters. I specifically told the Legislature I would not sign any personal income tax reduction that jeopardizes our ability to educate our children, provide health care to our senior citizens and families, protect our natural resources, and maintain the public safety.

Instead of reforming our tax system, which is still needed, the Legislature's plan would ultimately cost an estimated \$310 million with no reliable and fair source of state revenue to replace the lost dollars at a time when all sectors of our state, like other states, are adversely af-

* Item veto; see message at end of the Act

fectured by the national economic downturn. This would jeopardize the delivery of state services and would severely hinder budget planning in the future. It does not even provide any meaningful tax relief to lower-income Iowans who would receive refunds of between only 3 cents and 50 cents per week under this plan. The cuts in personal income taxes are really nothing more than cuts in services to all Iowans.

I am unable to approve the item designated as Section 99 in its entirety. This section directs the creation of two technology transfer advisors in the office of the governor. The governor's office performs many functions in a variety of different areas. The present staff is assigned to duties and receives administrative support in a manner that assures the efficient functioning of this office. Section 99 would disrupt the administration of this office and affect the delivery of services to the state. Furthermore, I believe the office of the governor should be able to control the administration of its funds and decide how best to staff its office. Section 99 would diminish this control by imposing on the governor's staffing and administrative decisions.

I am unable to approve the item designated as Section 108, which requires the Department of Economic Development to collect data about companies that considered locating in Iowa but decided to locate elsewhere, in its entirety. Requiring collection of such data would impose an additional burden on the Department of Economic Development and its resources and adversely impact the department's efficient delivery of services to the public.

I am unable to approve the items designated as Sections 116-120 in their entirety. The Sections will make it much harder to hold those who hurt others with unsafe products, on particularly egregious conduct, accountable for the harm they cause. I am not persuaded by the argument that Iowa has a poor business climate. Those who advance such an argument discount the work of highly productive Iowa workers and the study prepared by the U.S. Chamber of Commerce ranking Iowa the third best liability climate.

I am unable to approve the item designated as Section 121 in its entirety. While I appreciate the need for continued improvement to our workers' compensation system to maintain a just and balanced approach, Section 121 overreaches. A worker injured multiple times could be significantly under compensated for his or her injuries under Section 121. Section 121 in its current form destroys the just and balanced approach, which should be our goal.

I am unable to approve the item designated as Division XX that consists of Section 132, in its entirety. Section 132 postpones the phase out of the sales tax on residential utilities passed by the Iowa Legislature in 2001. The utility sales tax cut, as promised in current law, reflected recognition by the Legislature that escalating energy costs hit all consumers hard. Postponing the phase out of the utility tax will unnecessarily increase the utility bills of low- and middle-income Iowans, at a time when heating prices are expected to rise dramatically next winter.

I invite the Legislature to work in a bipartisan way to reform our income tax system and work for common sense improvements to our civil justice system and workers' compensation system.

For the above reasons, I respectfully disapprove these items in accordance with Article 3, Section 16 of the Constitution of the State of Iowa. All other items in House File 692 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*

1. There is imposed a tax of five percent upon the sales price of all sales of tangible personal property, consisting of goods, wares, or merchandise, sold at retail in the state to consumers or users except as otherwise provided in this subchapter.

a. For the purposes of this subchapter, sales of the following services are treated as if they were sales of tangible personal property:

(1) Sales of engraving, photography, retouching, printing, and binding services.

(2) Sales of vulcanizing, recapping, and retreading services.

(3) Sales of prepaid telephone calling cards and prepaid authorization numbers.

(4) Sales of optional service or warranty contracts, except residential service contracts regulated under chapter 523C, which provide for the furnishing of labor and materials and require the furnishing of any taxable service enumerated under this section. The sales price is subject to tax even if some of the services furnished are not enumerated under this section. Additional sales, services, or use taxes shall not be levied on services, parts, or labor provided under optional service or warranty contracts which are subject to tax under this subsection.

If the optional service or warranty contract is a computer software maintenance or support service contract and there is no separately stated fee for the taxable personal property or for the nontaxable service, the tax imposed by this subsection shall be imposed on fifty percent of the sales price from the sale of such contract. If the contract provides for technical support services only, no tax shall be imposed under this subsection. The provisions of this subparagraph (4) also apply to the use tax.

(5) Renting of rooms, apartments, or sleeping quarters in a hotel, motel, inn, public lodging house, rooming house, mobile home which is tangible personal property, or tourist court, or in any place where sleeping accommodations are furnished to transient guests for rent, whether with or without meals. "Renting" and "rent" include any kind of direct or indirect charge for such rooms, apartments, or sleeping quarters, or their use. However, the tax does not apply to the sales price from the renting of a room, apartment, or sleeping quarters while rented by the same person for a period of more than thirty-one consecutive days.

b. Sales of building materials, supplies, and equipment to owners, contractors, subcontractors, or builders for the erection of buildings or the alteration, repair, or improvement of real property are retail sales of tangible personal property in whatever quantity sold. Where the owner, contractor, subcontractor, or builder is also a retailer holding a retail sales tax permit and transacting retail sales of building materials, supplies, and equipment, the person shall purchase such items of tangible personal property without liability for the tax if such property will be subject to the tax at the time of resale or at the time it is withdrawn from inventory for construction purposes. The sales tax shall be due in the reporting period when the materials,

supplies, and equipment are withdrawn from inventory for construction purposes or when sold at retail. The tax shall not be due when materials are withdrawn from inventory for use in construction outside of Iowa and the tax shall not apply to tangible personal property purchased and consumed by the manufacturer as building materials in the performance by the manufacturer or its subcontractor of construction outside of Iowa. The sale of carpeting is not a sale of building materials. The sale of carpeting to owners, contractors, subcontractors, or builders shall be treated as the sale of ordinary tangible personal property and subject to the tax imposed under this subsection and the use tax.

c. The use within this state of tangible personal property by the manufacturer thereof, as building materials, supplies, or equipment, in the performance of construction contracts in Iowa, shall, for the purpose of this subchapter, be construed as a sale at retail of tangible personal property by the manufacturer who shall be deemed to be the consumer of such tangible personal property. The tax shall be computed upon the cost to the manufacturer of the fabrication or production of the tangible personal property.

2. A tax of five percent is imposed upon the sales price of the sale or furnishing of gas, electricity, water, heat, pay television service, and communication service, including the sales price from such sales by any municipal corporation or joint water utility furnishing gas, electricity, water, heat, pay television service, and communication service to the public in its proprietary capacity, except as otherwise provided in this subchapter, when sold at retail in the state to consumers or users.

3. A tax of five percent is imposed upon the sales price of all sales of tickets or admissions to places of amusement, fairs, and athletic events except those of elementary and secondary educational institutions. A tax of five percent is imposed upon that part of private club membership fees or charges paid for the privilege of participating in any athletic sports provided club members.

4. A tax of five percent is imposed upon the sales price derived from the operation of all forms of amusement devices and games of skill, games of chance, raffles, and bingo games as defined in chapter 99B, operated or conducted within the state, the tax to be collected from the operator in the same manner as for the collection of taxes upon the sales price of tickets or admission as provided in this section. Every person receiving any sales price from the sources described in this section is subject to all provisions of this subchapter relating to retail sales tax and other provisions of this chapter as applicable.

5. There is imposed a tax of five percent upon the sales price from the furnishing of services as defined in section 423.1.

b. A person who transports solid waste generated by that person or another person without compensation shall pay the tax imposed by this subsection at the collection or disposal facility based on the disposal charge or tipping fee. However, the costs of a service or portion of a service to collect and manage recyclable materials separated from solid waste by the waste generator are exempt from the tax imposed by this subsection.

SUBCHAPTER IV
UNIFORM SALES AND USE TAX ADMINISTRATION ACT

Sec. 100. NEW SECTION. 423.7 TITLE.

This subchapter shall be known and may be cited as the "Uniform Sales and Use Tax Administration Act".

Sec. 101. NEW SECTION. 423.8 LEGISLATIVE FINDING AND INTENT.

The general assembly finds that Iowa should enter into an agreement with one or more states to simplify and modernize sales and use tax administration in order to substantially reduce the burden of tax compliance for all sellers and for all types of commerce. It is the intent of the general assembly that entering into this agreement will lead to simplification and modernization of the sales and use tax law and not to the imposition of new taxes or an increase or decrease in the existing number of exemptions, unless such a result is unavoidable under the terms of the agreement.

Sec. 102. NEW SECTION. 423.9 AUTHORITY TO ENTER AGREEMENT AND TO REPRESENT THE STATE.

The director is authorized and directed to enter into the streamlined sales and use tax agreement with one or more states to simplify and modernize sales and use tax administration in order to substantially reduce the burden of tax compliance for all sellers and for all types of commerce.

The director is further authorized to take other actions reasonably required to implement the provisions set forth in this chapter. Other actions authorized by this section include, but are not limited to, the adoption of rules and the joint procurement, with other member states, of goods and services in furtherance of the cooperative agreement.

The director or the director's designee is authorized to be a member of the governing board established pursuant to the agreement and to represent Iowa before that body.

Sec. 103. NEW SECTION. 423.10 RELATIONSHIP TO STATE LAW.

Entry into the agreement by the director does not amend or modify any law of this state. Implementation of any condition of the agreement in this state, whether adopted before, at, or after membership of this state in the agreement, shall be by action of the general assembly.

Sec. 104. NEW SECTION. 423.11 AGREEMENT REQUIREMENTS.

The director shall not enter into the agreement unless the agreement requires each state to abide by the following requirements:

1. UNIFORM STATE RATE. The agreement must set restrictions to achieve more uniform state rates through the following:
 - a. Limiting the number of state rates.
 - b. Limiting the application of maximums on the amount of state tax that is due on a transaction.
 - c. Limiting the application of thresholds on the application of state tax.
2. UNIFORM STANDARDS. The agreement must establish uniform standards for the following:
 - a. The sourcing of transactions to taxing jurisdictions.
 - b. The administration of exempt sales.
 - c. The allowances a seller can take for bad debts.
 - d. Sales and use tax returns and remittances.
3. UNIFORM DEFINITIONS. The agreement must require states to develop and adopt uniform definitions of sales and use tax terms. The definitions must enable a state to preserve its ability to make policy choices not inconsistent with the uniform definitions.
4. CENTRAL REGISTRATION. The agreement must provide a central, electronic registration system that allows a seller to register to collect and remit sales and use taxes for all member states.
5. NO NEXUS ATTRIBUTION. The agreement must provide that registration with the central registration system and the collection of sales and use taxes in the member states must not be used as a factor in determining whether the seller has nexus with a state for any tax.
6. LOCAL SALES AND USE TAXES. The agreement must provide for reduction of the burdens of complying with local sales and use taxes through the following:
 - a. Restricting variances between the state and local tax bases.
 - b. Requiring states to administer any sales and use taxes levied by local jurisdictions within the state so that sellers collecting and remitting these taxes must not have to register or file returns with, remit funds to, or be subject to independent audits from local taxing jurisdictions.
 - c. Restricting the frequency of changes in the local sales and use tax rates and setting effective dates for the application of local jurisdictional boundary changes to local sales and use taxes.
 - d. Providing notice of changes in local sales and use tax rates and of changes in the boundaries of local taxing jurisdictions.
7. MONETARY ALLOWANCES. The agreement must outline any monetary allowances that are to be provided by the states to sellers or certified service providers.
8. STATE COMPLIANCE. The agreement must require each state to certify compliance with the terms of the agreement prior to joining and to maintain compliance, under the laws of the member state, with all provisions of the agreement while a member.
9. CONSUMER PRIVACY. The agreement must require each state to adopt a uniform policy for certified service providers that protects the privacy of consumers and maintains the confidentiality of tax information.
10. ADVISORY COUNCILS. The agreement must provide for the appointment of an advisory council of private sector representatives and an advisory council of nonmember state representatives to consult with in the administration of the agreement.

Sec. 105. NEW SECTION. 423.12 LIMITED BINDING AND BENEFICIAL EFFECT.

1. The agreement binds and inures only to the benefit of Iowa and the other member states. A person, other than a member state, is not an intended beneficiary of the agreement. Any benefit to a person other than a member state is established by the law of Iowa and not by the terms of the agreement.
2. A person shall not have any cause of action or defense under the agreement or by virtue of this state's entry into the agreement. A person may not challenge, in any action brought under any provision of law, any action or inaction by any department, agency, or other instrumentality of this state, or any political subdivision of this state on the ground that the action or inaction is inconsistent with the agreement.

3. A law of this state, or the application of it, shall not be declared invalid as to any such person or circumstance on the ground that the provision or application is inconsistent with the agreement.

SUBCHAPTER V
SALES AND USE TAX ACT — ADMINISTRATION OF
RETAILERS NOT REGISTERED UNDER THE AGREEMENT AND OF
CONSUMERS OBLIGATED TO PAY USE TAX DIRECTLY

Sec. 106. NEW SECTION. 423.13 PURPOSE OF THIS SUBCHAPTER.

The purpose of this subchapter is to provide for the administration and collection of sales or use tax on the part of retailers who are not registered under the agreement and for the collection of use tax on the part of consumers who are obligated to pay that tax directly. Any application of the sections of this subchapter to retailers registered under the agreement is only by way of incorporation by reference into subchapter VI of this chapter.

Sec. 107. NEW SECTION. 423.14 SALES AND USE TAX COLLECTION.

1. a. Sales tax, other than that described in paragraph "c", shall be collected by sellers who are retailers or by their agents. Sellers or their agents shall, as far as practicable, add the sales tax, or the average equivalent thereof, to the sales price or charge, less trade-ins allowed and taken and when added such tax shall constitute a part of the sales price or charge, shall be a debt from consumer or user to seller or agent until paid, and shall be recoverable at law in the same manner as other debts.

b. In computing the tax to be collected as the result of any transaction, the tax computation must be carried to the third decimal place. Whenever the third decimal place is greater than four, the tax must be rounded up to the next whole cent; whenever the third decimal place is four or less, the tax must be rounded downward to a whole cent. Sellers may elect to compute the tax due on transactions on an item or invoice basis. Sellers are not required to use a bracket system.

c. The tax imposed upon those sales of motor vehicle fuel which are subject to tax and refund under chapter 452A shall be collected by the state treasurer by way of deduction from refunds otherwise allowable under that chapter. The treasurer shall transfer the amount of such deductions from the motor vehicle fuel tax fund to the special tax fund.

2. Use tax shall be collected in the following manner:

a. The tax upon the use of all vehicles subject to registration or subject only to the issuance of a certificate of title or the tax upon the use of manufactured housing shall be collected by the county treasurer or the state department of transportation pursuant to sections 423.26 and 423.27. The county treasurer shall retain one dollar from each tax payment collected, to be credited to the county general fund.

b. The tax upon the use of all tangible personal property other than that enumerated in paragraph "a", which is sold by a seller who is a retailer maintaining a place of business in this state, or by such other retailer or agent as the director shall authorize pursuant to section 423.30, shall be collected by the retailer or agent and remitted to the department, pursuant to the provisions of paragraph "e", and sections 423.24, 423.29, 423.30, 423.32, and 423.33.

c. The tax upon the use of all tangible personal property not paid pursuant to paragraphs "a" and "b" shall be paid to the department directly by any person using the property within this state, pursuant to the provisions of section 423.34.

d. The tax imposed on the use of services enumerated in section 423.5 shall be collected, remitted, and paid to the department of revenue and finance in the same manner as use tax on tangible personal property is collected, remitted, and paid under this subchapter.

e. All persons obligated by paragraph "a", "b", or "d", to collect use tax shall, as far as practicable, add that tax, or the average equivalent thereof, to the purchase price, less trade-ins allowed and taken, and when added the tax shall constitute a part of the purchase price. Use tax which this section requires to be collected by a retailer and any tax collected pursuant to

this section by a retailer shall constitute a debt owed by the retailer to this state. Tax which must be paid directly to the department, pursuant to paragraph "c" or "d", is to be computed and added by the consumer or user to the purchase price in the same manner as this paragraph requires a seller to compute and add the tax. The tax shall be a debt from the consumer or user to the department until paid, and shall be recoverable at law in the same manner as other debts.

Sec. 108. NEW SECTION. 423.15 GENERAL SOURCING RULES.

All sellers obligated to collect Iowa sales or use tax shall use the standards set out in this section to determine where sales of products occur, excluding sales enumerated in section 423.16. These provisions apply regardless of the characterization of a product as tangible personal property, a digital good, or a service, excluding telecommunications services. This section only applies to determine a seller's obligation to pay or collect and remit a sales or use tax with respect to the seller's sale of a product. This section does not affect the obligation of a purchaser or lessee to remit tax on the use of the product to the taxing jurisdictions in which the use occurs. A seller's obligation to collect Iowa sales tax or Iowa use tax only occurs if the sale is sourced to this state. The application of whether Iowa sales tax applies to sales sourced to Iowa depends upon where the sale is consummated by delivery.

1. Sales, excluding leases or rentals other than leases or rentals set out in subsection 2, of products shall be sourced as follows:

a. When the product is received by the purchaser at a business location of the seller, the sale is sourced to that business location.

b. When the product is not received by the purchaser at a business location of the seller, the sale is sourced to the location where receipt by the purchaser or the purchaser's donee, designated as such by the purchaser, occurs, including the location indicated by instructions for delivery to the purchaser or donee, known to the seller.

c. When paragraphs "a" and "b" do not apply, the sale is sourced to the location indicated by an address for the purchaser that is available from the business records of the seller that are maintained in the ordinary course of the seller's business when use of this address does not constitute bad faith.

d. When paragraphs "a", "b", and "c" do not apply, the sale is sourced to the location indicated by an address for the purchaser obtained during the consummation of the sale, including the address of a purchaser's payment instrument, if no other address is available, when use of this address does not constitute bad faith.

e. When paragraphs "a", "b", "c", and "d" do not apply, including the circumstance where the seller is without sufficient information to apply the previous rules, then the location will be determined by the address from which tangible personal property was shipped, from which the digital good or the computer software delivered electronically was first available for transmission by the seller, or from which the service was provided disregarding for these purposes any location that merely provided the digital transfer of the product sold.

2. The lease or rental of tangible personal property, other than property identified in subsection 3 or section 423.16, shall be sourced as follows:

a. For a lease or rental that requires recurring periodic payments, the first periodic payment is sourced the same as a retail sale in accordance with the provisions of subsection 1. Periodic payments made subsequent to the first payment are sourced to the primary property location for each period covered by the payment. The primary property location shall be as indicated by an address for the property provided by the lessee that is available to the lessor from its records maintained in the ordinary course of business, when use of this address does not constitute bad faith. The property location shall not be altered by intermittent use at different locations, such as use of business property that accompanies employees on business trips and service calls.

b. For a lease or rental that does not require recurring periodic payments, the payment is sourced the same as a retail sale in accordance with the provisions of subsection 1.

c. This subsection does not affect the imposition or computation of sales or use tax on leases or rentals based on a lump sum or accelerated basis, or on the acquisition of property for lease.

3. The retail sale, including lease or rental, of transportation equipment shall be sourced the same as a retail sale in accordance with the provisions of subsection 1, notwithstanding the exclusion of lease or rental in that subsection. "Transportation equipment" means any of the following:

a. Locomotives or railcars that are utilized for the carriage of persons or property in interstate commerce.

b. Trucks and truck-tractors with a gross vehicle weight rating of ten thousand one pounds or greater, trailers, semitrailers, or passenger buses that meet both of the following requirements:

(1) Are registered through the international registration plan.

(2) Are operated under authority of a carrier authorized and certificated by the United States department of transportation or another federal authority to engage in the carriage of persons or property in interstate commerce.

c. Aircraft that are operated by air carriers authorized and certificated by the United States department of transportation or another federal or a foreign authority to engage in the carriage of persons or property in interstate or foreign commerce.

d. Containers designed for use on and component parts attached or secured on the items set forth in paragraphs "a" through "c".

Sec. 109. NEW SECTION. 423.16 TRANSACTIONS TO WHICH THE GENERAL SOURCING RULES DO NOT APPLY.

Section 423.15 does not apply to sales or use taxes levied on the following:

1. The retail sale or transfer of watercraft, modular homes, manufactured housing, or mobile homes, and the retail sale, excluding lease or rental, of motor vehicles, trailers, semitrailers, or aircraft that do not qualify as transportation equipment, as defined in section 423.15, subsection 3.

2. The lease or rental of motor vehicles, trailers, semitrailers, or aircraft that do not qualify as transportation equipment, as defined in section 423.15, subsection 3, which shall be sourced in accordance with section 423.17.

3. Transactions to which the multiple points use exemption is applicable, which shall be sourced in accordance with section 423.18.

4. Transactions to which direct mail sourcing is applicable, which shall be sourced in accordance with section 423.19.

5. Telecommunications services, as set out in section 423.20, which shall be sourced in accordance with section 423.20, subsection 2.

Sec. 110. NEW SECTION. 423.17 SOURCING RULES FOR VARIOUS TYPES OF LEASED OR RENTED EQUIPMENT WHICH IS NOT TRANSPORTATION EQUIPMENT.

The lease or rental of motor vehicles, trailers, semitrailers, or aircraft that do not qualify as transportation equipment, as defined in section 423.15, subsection 3, shall be sourced as follows:

1. For a lease or rental that requires recurring periodic payments, each periodic payment is sourced to the primary property location. The primary property location shall be as indicated by an address for the property provided by the lessee that is available to the lessor from its records maintained in the ordinary course of business, when use of this address does not constitute bad faith. This location shall not be altered by intermittent use at different locations.

2. For a lease or rental that does not require recurring periodic payments, the payment is sourced the same as a retail sale in accordance with the provisions of section 423.15, subsection 1.

3. This section does not affect the imposition or computation of sales or use tax on leases or rentals based on a lump sum or accelerated basis, or on the acquisition of property for lease.

Sec. 111. NEW SECTION. 423.18 MULTIPLE POINTS OF USE EXEMPTION FORMS.

A business purchaser that is not a holder of a direct pay tax permit pursuant to section 423.36

that knows at the time of its purchase of a digital good, computer software delivered electronically, or a service that the digital good, computer software delivered electronically, or service will be concurrently available for use in more than one jurisdiction shall deliver to the seller in conjunction with its purchase a "multiple points of use" or "MPU" exemption form disclosing this fact.

1. Upon receipt of the MPU exemption form, the seller is relieved of all obligation to collect, pay, or remit the applicable tax and the purchaser shall be obligated to collect, pay, or remit the applicable tax on a direct pay basis.

2. A purchaser delivering the MPU exemption form may use any reasonable, but consistent and uniform, method of apportionment that is supported by the purchaser's business records as they exist at the time of the consummation of the sale.

3. The MPU exemption form will remain in effect for all future sales by the seller to the purchaser except as to the subsequent sale's specific apportionment that is governed by the principle of subsection 2 and the facts existing at the time of the sale until it is revoked in writing.

4. A holder of a direct pay tax permit under section 423.36 shall not be required to deliver an MPU exemption form to the seller. A direct pay tax permit holder shall follow the provisions of subsection 2 in apportioning the tax due on a digital good, computer software delivered electronically, or service that will be concurrently available for use in more than one jurisdiction.

Sec. 112. NEW SECTION. 423.19 DIRECT MAIL SOURCING.

1. Notwithstanding section 423.15, a purchaser of direct mail that is not a holder of a direct pay tax permit pursuant to section 423.36 shall provide to the seller in conjunction with the purchase either a direct mail form or information to show the jurisdictions to which the direct mail is delivered to recipients.

a. Upon receipt of the direct mail form, the seller is relieved of all obligations to collect, pay, or remit the applicable tax and the purchaser is obligated to pay or remit the applicable tax on a direct pay basis. A direct mail form shall remain in effect for all future sales of direct mail by the seller to the purchaser until it is revoked in writing.

b. Upon receipt of information from the purchaser showing the jurisdictions to which the direct mail is delivered to recipients, the seller shall collect the tax according to the delivery information provided by the purchaser. In the absence of bad faith, the seller is relieved of any further obligation to collect tax on any transaction where the seller has collected tax pursuant to the delivery information provided by the purchaser.

2. If the purchaser of direct mail does not have a direct pay tax permit and does not provide the seller with either a direct mail form or delivery information, as required by subsection 1, the seller shall collect the tax according to section 423.15, subsection 1, paragraph "e". Nothing in this subsection shall limit a purchaser's obligation for sales or use tax to any state to which the direct mail is delivered.

3. If a purchaser of direct mail provides the seller with documentation of direct pay authority, the purchaser shall not be required to provide a direct mail form or delivery information to the seller.

Sec. 113. NEW SECTION. 423.20 TELECOMMUNICATIONS SERVICE SOURCING.

1. As used in this section:

a. "Air-to-ground radiotelephone service" means a radio service, as that term is used in 47 C.F.R. § 22.99, in which common carriers are authorized to offer and provide radio telecommunications service for hire to subscribers in aircraft.

b. "Call-by-call basis" means any method of charging for the telecommunications service where the price is measured by individual calls.

c. "Communications channel" means a physical or virtual path of communications over which signals are transmitted between or among customer channel termination points.

d. "Customer" means the person or entity that contracts with the seller of the telecommunications service. If the end user of the telecommunications service is not the contracting party, the end user of the telecommunications service is the customer of the telecommunica-

tions service, but this sentence only applies for the purpose of sourcing sales of the telecommunications service under this section. "Customer" does not include a reseller of a telecommunications service or for mobile telecommunications service of a serving carrier under an agreement to serve the customer outside the home service provider's licensed service area.

e. "Customer channel termination point" means the location where the customer either inputs or receives the communications.

f. "End user" means the person who utilizes the telecommunications service. In the case of an entity, "end user" means the individual who utilizes the service on behalf of the entity.

g. "Home service provider" means the same as that term is defined in the federal Mobile Telecommunications Sourcing Act, Pub. L. No. 106-252, 4 U.S.C. § 124(5).

h. "Mobile telecommunications service" means the same as that term is defined in federal Mobile Telecommunications Sourcing Act, Pub. L. No. 106-252, 4 U.S.C. § 124(7).

i. "Place of primary use" means the street address representative of where the customer's use of the telecommunications service primarily occurs, which must be the residential street address or the primary business street address of the customer. In the case of mobile telecommunications service, "place of primary use" must be within the licensed service area of the home service provider.

j. "Postpaid calling service" means the telecommunications service obtained by making a payment on a call-by-call basis either through the use of a credit card or payment mechanism such as a bank card, travel card, credit card, or debit card, or by charge made to a telephone number which is not associated with the origination or termination of the telecommunications service. A "postpaid calling service" includes a telecommunications service that would be a prepaid calling service except it is not exclusively a telecommunications service.

k. "Prepaid calling service" means the right to access exclusively telecommunications services, which must be paid for in advance and which enables the origination of calls using an access number or authorization code, whether manually or electronically dialed, and that is sold in predetermined units or dollars of which the amount declines with use in a known amount.

l. "Private communication service" means a telecommunications service that entitles the customer to exclusive or priority use of a communications channel or group of channels between or among termination points, regardless of the manner in which such channel or channels are connected, and includes switching capacity, extension lines, stations, and any other associated services that are provided in connection with the use of such channel or channels.

m. "Service address" means one of the following:

(1) The location of the telecommunications equipment to which a customer's call is charged and from which the call originates or terminates, regardless of where the call is billed or paid.

(2) If the location in subparagraph (1) is not known, "service address" means the origination point of the signal of the telecommunications service first identified by either the seller's telecommunications system or in information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.

(3) If the locations in subparagraphs (1) and (2) are not known, the "service address" means the location of the customer's place of primary use.

2. Sales of telecommunications services shall be sourced in the following manner:

a. Except for the defined telecommunications services in paragraph "c", the sale of telecommunications services sold on a call-by-call basis shall be sourced to one of the following:

(1) Each level of taxing jurisdiction where the call originates and terminates in that jurisdiction.

(2) Each level of taxing jurisdiction where the call either originates or terminates and in which the service address is also located.

b. Except for the defined telecommunications services in paragraph "c", a sale of telecommunications services sold on a basis other than a call-by-call basis is sourced to the customer's place of primary use.

c. Sale of the following telecommunications services shall be sourced to each level of taxing jurisdiction as follows:

(1) A sale of mobile telecommunications services other than air-to-ground radiotelephone service or prepaid calling service is sourced to the customer's place of primary use as required by the federal Mobile Telecommunications Sourcing Act.

(2) A sale of postpaid calling service is sourced to the origination point of the telecommunications signal as first identified by either of the following:

(a) The seller's telecommunications system.

(b) Information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.

(3) A sale of prepaid calling service is sourced in accordance with section 423.15. However, in the case of a sale of mobile telecommunications services that is a prepaid telecommunications service, the rule provided in section 423.15, subsection 1, paragraph "e", shall include as an option the location associated with the mobile telephone number.

(4) A sale of a private telecommunications service is sourced as follows:

(a) Service for a separate charge related to a customer channel termination point is sourced to each level of jurisdiction in which such customer channel termination point is located.

(b) Service where all customer termination points are located entirely within one jurisdiction or level of jurisdiction is sourced in such jurisdiction in which the customer channel termination points are located.

(c) Service for segments of a channel between two customer channel termination points located in different jurisdictions and which segments of a channel are separately charged is sourced fifty percent in each level of jurisdiction in which the customer channel termination points are located.

(d) Service for segments of a channel located in more than one jurisdiction or levels of jurisdiction and which segments are not separately billed is sourced in each jurisdiction based on the percentage determined by dividing the number of customer channel termination points in such jurisdiction by the total number of customer channel termination points.

Sec. 114. NEW SECTION. 423.21 BAD DEBT DEDUCTIONS.

1. For the purposes of this section, "bad debt" means an amount properly calculated pursuant to section 166 of the Internal Revenue Code then adjusted to exclude financing charges or interest, sales or use taxes charged on the purchase price, uncollectible amounts on property that remain in the possession of the seller until the full purchase price is paid, expenses incurred in attempting to collect any debt, and repossessed property.

2. In computing the amount of tax due, a seller may deduct bad debts from the total amount upon which the tax is calculated for any return. Any deduction taken or refund paid which is attributed to bad debts shall not include interest.

3. A seller may deduct bad debts on the return for the period during which the bad debt is written off as uncollectible in the seller's books and records and is eligible to be deducted for federal income tax purposes. For purposes of this subsection, a seller who is not required to file federal income tax returns may deduct a bad debt on a return filed for the period in which the bad debt is written off as uncollectible in the seller's books and records and would be eligible for a bad debt deduction for federal income tax purposes if the seller were required to file a federal income tax return.

4. If a deduction is taken for a bad debt and the seller subsequently collects the debt in whole or in part, the tax on the amount so collected must be paid and reported on the return filed for the period in which the collection is made.

5. A seller may obtain a refund of tax on any amount of bad debt that exceeds the amount of taxable sales within the period allowed for refund claims by section 423.47. However, the period allowed for refund claims shall be measured from the due date of the return on which the bad debt could first be claimed.

6. For the purposes of computing a bad debt deduction or reporting a payment received on a previously claimed bad debt, any payments made on a debt or account shall be applied first to the price of the property or service and tax thereon, proportionally, and secondly to interest, service charges, and any other charges.

Sec. 115. NEW SECTION. 423.22 TAXATION IN ANOTHER STATE.

If any person who causes tangible personal property to be brought into this state or who uses in this state services enumerated in section 423.2 has already paid a tax in another state in respect to the sale or use of the property or the performance of the service, or an occupation tax in respect to the property or service, in an amount less than the tax imposed by subchapter II or III, the provisions of those subchapters shall apply, but at a rate measured by the difference only between the rate fixed by subchapter II or III and the rate by which the previous tax on the sale or use, or the occupation tax, was computed. If the tax imposed and paid in the other state is equal to or more than the tax imposed by those subchapters, then a tax is not due in this state on the personal property or service.

Sec. 116. NEW SECTION. 423.23 SELLERS' AGREEMENTS.

Agreements between competing sellers, or the adoption of appropriate rules and regulations by organizations or associations of sellers to provide uniform methods for adding sales or use tax or the average equivalent thereof, and which do not involve price-fixing agreements otherwise unlawful, are expressly authorized and shall be held not in violation of chapter 553 or other antitrust laws of this state. The director shall cooperate with sellers, organizations, or associations in formulating agreements and rules.

Sec. 117. NEW SECTION. 423.24 ABSORBING TAX PROHIBITED.

A seller shall not advertise or hold out or state to the public or to any purchaser, consumer, or user, directly or indirectly, that the taxes or any parts thereof imposed by subchapter II or III will be assumed or absorbed by the seller or the taxes will not be added to the sales price of the property sold, or if added that the taxes or any part thereof will be refunded. Any person violating any of the provisions of this section within this state is guilty of a simple misdemeanor.

Sec. 118. NEW SECTION. 423.25 DIRECTOR'S POWER TO ADOPT RULES.

The director shall have the power to adopt rules for adding the taxes imposed by subchapters II and III, or the average equivalents thereof, by providing different methods applying uniformly to retailers within the same general classification for the purpose of enabling the retailers to add and collect, as far as practicable, the amounts of those taxes.

Sec. 119. NEW SECTION. 423.26 VEHICLES SUBJECT TO REGISTRATION OR ONLY TO THE ISSUANCE OF TITLE — MANUFACTURED HOUSING.

The use tax imposed upon the use of vehicles subject to registration or subject only to the issuance of a certificate of title or imposed upon the use of manufactured housing shall be paid by the owner of the vehicle or of the manufactured housing to the county treasurer or the state department of transportation from whom the registration receipt or certificate of title is obtained. A registration receipt for a vehicle subject to registration or certificate of title shall not be issued until the tax has been paid. The county treasurer or the state department of transportation shall require every applicant for a registration receipt for a vehicle subject to registration or certificate of title to supply information as the county treasurer or the director deems necessary as to the time of purchase, the purchase price, installed purchase price, and other information relative to the purchase of the vehicle or manufactured housing. On or before the tenth day of each month, the county treasurer or the state department of transportation shall remit to the department the amount of the taxes collected during the preceding month.

A person who willfully makes a false statement in regard to the purchase price of a vehicle subject to taxation under this section is guilty of a fraudulent practice. A person who willfully makes a false statement in regard to the purchase price of such a vehicle with the intent to evade the payment of tax shall be assessed a penalty of seventy-five percent of the amount of tax unpaid and required to be paid on the actual purchase price less trade-in allowance.

Sec. 120. NEW SECTION. 423.27 MOTOR VEHICLE LEASE TAX.

1. The use tax imposed upon the use of leased vehicles subject to registration under chapter

321, with gross vehicle weight ratings of less than sixteen thousand pounds, excluding motorcycles and motorized bicycles, which are leased by a lessor licensed pursuant to chapter 321F for a period of twelve months or more shall be paid by the owner of the vehicle to the county treasurer or state department of transportation from whom the registration receipt or certificate of title is obtained. A registration receipt for a vehicle subject to registration or issuance of a certificate of title shall not be issued until the tax is paid in the initial instance. Tax on the lease transaction that does not require titling or registration of the vehicle shall be remitted to the department. Tax and the reporting of tax due to the department shall be remitted on or before fifteen days from the last day of the month that the vehicle lease tax becomes due. Failure to timely report or remit any of the tax when due shall result in a penalty and interest being imposed on the tax due pursuant to section 423.40, subsection 1, and section 423.42, subsection 1.

2. The amount subject to tax shall be computed on each separate lease transaction by taking the total of the lease payments, plus the down payment, and excluding all of the following:

- a. Title fee.
- b. Registration fees.
- c. Vehicle lease tax pursuant to this section.
- d. Federal excise taxes attributable to the sale of the vehicle to the owner or to the lease of the vehicle by the owner.
- e. Optional service or warranty contracts subject to tax pursuant to section 423.2, subsection 1.
- f. Insurance.
- g. Manufacturer's rebate.
- h. Refundable deposit.
- i. Finance charges, if any, on items listed in paragraphs "a" through "h".

If any or all of the items in paragraphs "a" through "i" are excluded from the taxable lease price, the owner shall maintain adequate records of the amounts of those items. If the parties to a lease enter into an agreement providing that the tax imposed under this statute is to be paid by the lessee or included in the monthly lease payments to be paid by the lessee, the total cost of the tax shall not be included in the computation of lease price for the purpose of taxation under this section. The county treasurer, the state department of transportation, or the department of revenue and finance shall require every applicant for a registration receipt for a vehicle subject to tax under this section to supply information as the county treasurer or director deems necessary as to the date of the lease transaction, the lease price, and other information relative to the lease of the vehicle.

3. On or before the tenth day of each month, the county treasurer or the state department of transportation shall remit to the department the amount of the taxes collected during the preceding month.

4. If the lease is terminated prior to the termination date contained in the lease agreement, no refund shall be allowed for tax previously paid under this section, except as provided in section 322G.4.

Sec. 121. NEW SECTION. 423.28 SALES TAX REPORT — DEDUCTION.

Motor vehicle or trailer dealers, in making their reports and returns to the department for the purpose of paying the sales tax, shall be permitted to deduct all sales prices from retail sales of vehicles subject to registration or subject only to the issuance of a certificate of title. Sales prices from sales of vehicles subject to registration or subject only to the issuance of a certificate of title are exempted from the sales tax, but, if required by the director, the sales prices shall be included in the returns made by motor vehicle or trailer dealers under subchapter II, and proper deductions taken pursuant to this section.

Sec. 122. NEW SECTION. 423.29 COLLECTIONS BY SELLERS.

Every seller who is a retailer and who is making taxable sales of tangible personal property in Iowa shall, at the time of selling the property, collect the sales tax. Every seller who is a

retailer maintaining a place of business in this state and selling tangible personal property for use in Iowa shall, at the time of making the sale, whether within or without the state, collect the use tax. Sellers required to collect sales or use tax shall give to any purchaser a receipt for the tax collected in the manner and form prescribed by the director.

Every seller who is a retailer furnishing taxable services in Iowa and every seller who is a retailer maintaining a place of business in this state and furnishing taxable services in Iowa or services outside Iowa if the product or result of the service is used in Iowa shall be subject to the provisions of the preceding paragraph.

Sec. 123. NEW SECTION. 423.30 FOREIGN SELLERS NOT REGISTERED UNDER THE AGREEMENT.

The director may, upon application, authorize the collection of the use tax by any seller who is a retailer not maintaining a place of business within this state and not registered under the agreement, who, to the satisfaction of the director, furnishes adequate security to ensure collection and payment of the tax. Such sellers shall be issued, without charge, permits to collect tax subject to any regulations which the director shall prescribe. When so authorized, it shall be the duty of foreign sellers to collect the tax upon all tangible personal property sold, to the retailer's knowledge, for use within this state, in the same manner and subject to the same requirements as a retailer maintaining a place of business within this state. The authority and permit may be canceled when, at any time, the director considers the security inadequate, or that tax can more effectively be collected from the person using property in this state.

The discretionary power granted in this section is extended to apply in the case of foreign retailers furnishing services enumerated in section 423.2.

Sec. 124. NEW SECTION. 423.31 FILING OF SALES TAX RETURNS AND PAYMENT OF SALES TAX.

1. Each person subject to this section and section 423.36 and in accordance with the provisions of this section and section 423.36 shall, on or before the last day of the month following the close of each calendar quarter during which such person is or has become or ceased being subject to the provisions of this section and section 423.36, make, sign, and file a return for the calendar quarter in the form as may be required. Returns shall show information relating to sales prices including goods, wares, and services converted to the use of such person, the amounts of sales prices excluded and exempt from the tax, the amounts of sales prices subject to tax, a calculation of tax due, and any other information for the period covered by the return as may be required. Returns shall be signed by the retailer or the retailer's authorized agent and must be certified by the retailer to be correct in accordance with forms and rules prescribed by the director.

2. Persons required to file, or committed to file by reason of voluntary action or by order of the department, deposits of taxes due under this subchapter shall be entitled to take credit against the total quarterly amount of tax due such amount as shall have been deposited by such persons during that calendar quarter. The balance remaining due after such credit for deposits shall be entered on the return. However, such person may be granted an extension of time not exceeding thirty days for filing the quarterly return, upon a proper showing of necessity. If an extension is granted, such person shall have paid by the twentieth day of the month following the close of such quarter ninety percent of the estimated tax due.

3. The sales tax forms prescribed by the director shall be referred to as "retailers tax deposit". Deposit forms shall be signed by the retailer or the retailer's duly authorized agent, and shall be duly certified by the retailer or agent to be correct. The director may authorize incorporated banks and trust companies or other depositories authorized by law which are depositories or financial agents of the United States, or of this state, to receive any sales tax imposed under this chapter, in the manner, at the times, and under the conditions the director prescribes. The director shall prescribe the manner, times, and conditions under which the receipt of the tax by those depositories is to be treated as payment of the tax to the department.

4. Every retailer at the time of making any return required by this section shall compute and

pay to the department the tax due for the preceding period. The tax on sales prices from the sale or rental of tangible personal property under a consumer rental purchase agreement as defined in section 537.3604, subsection 8, is payable in the tax period of receipt.

5. Upon making application and receiving approval from the director, a parent corporation and its affiliated corporations that make retail sales of tangible personal property or taxable enumerated services may make deposits and file a consolidated sales tax return for the affiliated group, pursuant to rules adopted by the director. A parent corporation and each affiliate corporation that files a consolidated return are jointly and severally liable for all tax, penalty, and interest found due for the tax period for which a consolidated return is filed or required to be filed.

A business required to file a consolidated sales tax return shall file a form entitled "schedule of consolidated business locations" with its quarterly sales tax return that shows the taxpayer's consolidated permit number, the permit number for each Iowa business location, the state sales tax amount by business location, and the amount of state sales tax due on goods consumed that are not assigned to a specific business location. Consolidated quarterly sales tax returns that are not accompanied by the schedule of consolidated business locations form are considered incomplete and are subject to penalty under section 421.27.

6. If necessary or advisable in order to insure the payment of the tax, the director may require returns and payment of the tax to be made for other than quarterly periods, the provisions of this section, or other provision to the contrary notwithstanding.

Sec. 125. NEW SECTION. 423.32 FILING OF USE TAX RETURNS AND PAYMENT OF USE TAX.

1. A retailer maintaining a place of business in this state who is required to collect or a user who is required to pay the use tax or a foreign retailer authorized, pursuant to section 423.30, to collect the use tax, shall remit to the department the amount of tax on or before the last day of the month following each calendar quarterly period. However, a retailer who collects or owes more than fifteen hundred dollars in use taxes in a month shall deposit with the department or in a depository authorized by law and designated by the director, the amount collected or owed, with a deposit form for the month as prescribed by the director.

a. The deposit form is due on or before the twentieth day of the month following the month of collection, except a deposit is not required for the third month of the calendar quarter, and the total quarterly amount, less the amounts deposited for the first two months of the quarter, is due with the quarterly report on the last day of the month following the month of collection. At that time, the retailer shall file with the department a return for the preceding quarterly period in the form prescribed by the director showing the purchase price of the tangible personal property sold by the retailer during the preceding quarterly period, the use of which is subject to the use tax imposed by this chapter, and other information the director deems necessary for the proper administration of the use tax.

b. The return shall be accompanied by a remittance of the use tax for the period covered by the return. If necessary in order to ensure payment to the state of the tax, the director may in any or all cases require returns and payments to be made for other than quarterly periods. The director, upon request and a proper showing of necessity, may grant an extension of time not to exceed thirty days for making any return and payment. Returns shall be signed, in accordance with forms and rules prescribed by the director, by the retailer or the retailer's authorized agent, and shall be certified by the retailer or agent to be correct.

2. If it is reasonably expected, as determined by rules prescribed by the director, that a retailer's annual sales or use tax liability will not exceed one hundred twenty dollars for a calendar year, the retailer may request and the director may grant permission to the retailer, in lieu of the quarterly filing and remitting requirements set out elsewhere in this section, to file the return required by and remit the sales or use tax due under this section on a calendar-year basis. The return and tax are due and payable no later than January 31 following each calendar year in which the retailer carries on business.

3. The director, in cooperation with the department of management, may periodically

change the filing and remittance thresholds by administrative rule if in the best interests of the state and taxpayer to do so.

Sec. 126. NEW SECTION. 423.33 LIABILITY OF PERSONS OTHER THAN RETAILERS FOR PAYMENT OF SALES OR USE TAX.

1. LIABILITY OF PURCHASER FOR SALES TAX. If a purchaser fails to pay sales tax to the retailer required to collect the tax, then in addition to all of the rights, obligations, and remedies provided, the tax is payable by the purchaser directly to the department, and sections 423.31, 423.32, 423.37, 423.38, 423.39, 423.40, 423.41, and 423.42 apply to the purchaser. For failure to pay, the retailer and purchaser are liable, unless the circumstances described in section 421.60, subsection 2, paragraph "m", or section 423.45, subsection 4, paragraph "b" or "e", or subsection 5, paragraph "c" or "e", are applicable.

2. IMMEDIATE SUCCESSOR LIABILITY FOR SALES OR USE TAX. If a retailer sells the retailer's business or stock of goods or quits the business, the retailer shall prepare a final return and pay all sales or use tax due within the time required by law. The immediate successor to the retailer, if any, shall withhold a sufficient portion of the purchase price, in money or money's worth, to pay the amount of delinquent tax, interest, or penalty due and unpaid. If the immediate successor of the business or stock of goods intentionally fails to withhold the amount due from the purchase price as provided in this subsection, the immediate successor is personally liable for the payment of delinquent taxes, interest, and penalty accrued and unpaid on account of the operation of the business by the immediate former retailer, except when the purchase is made in good faith as provided in section 421.28. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an "immediate successor" for purposes of this section. The department may waive the liability of the immediate successor under this subsection if the immediate successor exercised good faith in establishing the amount of the previous liability.

3. EVENT SPONSOR'S LIABILITY FOR SALES TAX. A person sponsoring a flea market or a craft, antique, coin, or stamp show or similar event shall obtain from every retailer selling tangible personal property or taxable services at the event proof that the retailer possesses a valid sales tax permit or secure from the retailer a statement, taken in good faith, that property or services offered for sale are not subject to sales tax. Failure to do so renders a sponsor of the event liable for payment of any sales tax, interest, and penalty due and owing from any retailer selling property or services at the event. Sections 423.31, 423.32, 423.37, 423.38, 423.39, 423.40, 423.41, and 423.42 apply to the sponsors. For purposes of this subsection, a person sponsoring a flea market or a craft, antique, coin, or stamp show or similar event does not include an organization which sponsors an event less than three times a year or a state, county, or district agricultural fair.

Sec. 127. NEW SECTION. 423.34 LIABILITY OF USER.

Any person who uses any property or services enumerated in section 423.2 upon which the use tax has not been paid, either to the county treasurer or to a retailer or direct to the department as required by this subchapter, shall be liable for the payment of tax, and shall on or before the last day of the month next succeeding each quarterly period pay the use tax upon all property or services used by the person during the preceding quarterly period in the manner and accompanied by such returns as the director shall prescribe. All of the provisions of sections 423.32 and 423.33 with reference to the returns and payments shall be applicable to the returns and payments required by this section.

Sec. 128. NEW SECTION. 423.35 POSTING OF BOND TO SECURE PAYMENT.

The director may, when necessary and advisable in order to secure the collection of the sales or use tax, authorize any person subject to either tax, and any retailer required or authorized to collect those taxes pursuant to the provisions of section 423.14, to file with the department a bond, issued by a surety company authorized to transact business in this state and approved by the insurance commissioner as to solvency and responsibility, in an amount as the director

may fix, to secure the payment of any tax, interest, or penalties due or which may become due from such person. In lieu of a bond, securities approved by the director, in an amount which the director may prescribe, may be deposited with the department, which securities shall be kept in the custody of the department and may be sold by the director at public or private sale, without notice to the depositor, if it becomes necessary to do so in order to recover any tax, interest, or penalties due. Upon the sale, the surplus, if any, above the amounts due under this chapter shall be returned to the person who deposited the securities.

Sec. 129. NEW SECTION. 423.36 PERMITS REQUIRED TO COLLECT SALES OR USE TAX — APPLICATIONS — REVOCATION.

1. A person shall not engage in or transact business as a retailer making taxable sales of tangible personal property or furnishing services within this state or as a retailer making taxable sales of tangible personal property or furnishing services for use within this state, unless a permit has been issued to the retailer under this section, except as provided in subsection 6. Every person desiring to engage in or transact business as a retailer shall file with the department an application for a permit to collect sales or use tax. Every application for a sales or use tax permit shall be made upon a form prescribed by the director and shall set forth any information the director may require. The application shall be signed by an owner of the business if a natural person; in the case of a retailer which is an association or partnership, by a member or partner; and in the case of a retailer which is a corporation, by an executive officer or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of the person's authority.

2. To collect sales or use tax, the applicant must have a permit for each place of business in the state of Iowa. The department may deny a permit to an applicant who is substantially delinquent in paying a tax due, or the interest or penalty on the tax, administered by the department at the time of application. If the applicant is a partnership, a permit may be denied if a partner is substantially delinquent in paying any delinquent tax, penalty, or interest. If the applicant is a corporation, a permit may be denied if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax, penalty, or interest.

3. The department shall grant and issue to each applicant a permit for each place of business in this state where sales or use tax is collected. A permit is not assignable and is valid only for the person in whose name it is issued and for the transaction of business at the place designated or at a place of relocation within the state if the ownership remains the same.

If an applicant is making sales outside Iowa for use in this state or furnishing services outside Iowa, the product or result of which will be used in this state, that applicant shall be issued one use tax permit by the department applicable to these out-of-state sales or services.

4. Permits issued under this section are valid and effective until revoked by the department.

5. If the holder of a permit fails to comply with any of the provisions of this subchapter or of subchapter II or III or any order or rule of the department adopted under those subchapters or is substantially delinquent in the payment of a tax administered by the department or the interest or penalty on the tax, or if the person is a corporation and if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax of the permit-holding corporation, or interest or penalty on the tax, administered by the department, the director may revoke the permit. The director shall send notice by mail to a permit holder informing that person of the director's intent to revoke the permit and of the permit holder's right to a hearing on the matter. If the permit holder petitions the director for a hearing on the proposed revocation, after giving ten days' notice of the time and place of the hearing in accordance with section 17A.18, subsection 3, the matter may be heard and a decision rendered. The director may restore permits after revocation. The director shall adopt rules setting forth the period of time a retailer must wait before a permit may be restored or a new permit may be issued. The waiting period shall not exceed ninety days from the date of the revocation of the permit.

6. Sellers who are not regularly engaged in selling at retail and do not have a permanent

place of business, but who are temporarily engaged in selling from trucks, portable roadside stands, concessionaires at state, county, district, or local fairs, carnivals, or the like, shall report and remit the sales tax on a temporary basis, under rules the director shall provide for the efficient collection of the sales tax. This subsection applies to sellers who are temporarily engaged in furnishing services.

Persons engaged in selling tangible personal property or furnishing services shall not be required to obtain or retain a sales tax permit for a place of business at which taxable sales of tangible personal property or taxable performance of services will not occur.

7. The provisions of subsection 1, dealing with the lawful right of a retailer to transact business, as applicable, apply to persons having receipts from furnishing services enumerated in section 423.2, except that a person holding a permit pursuant to subsection 1 shall not be required to obtain any separate sales tax permit for the purpose of engaging in business involving the services.

8. a. Except as provided in paragraph "b", purchasers, users, and consumers of tangible personal property or enumerated services taxed pursuant to subchapter II or III of this chapter or chapters 423B and 423E may be authorized, pursuant to rules adopted by the director, to remit tax owed directly to the department instead of the tax being collected and paid by the seller. To qualify for a direct pay tax permit, the purchaser, user, or consumer must accrue a tax liability of more than four thousand dollars in tax under subchapters II and III in a semi-monthly period and make deposits and file returns pursuant to section 423.31. This authority shall not be granted or exercised except upon application to the director and then only after issuance by the director of a direct pay tax permit.

b. The granting of a direct pay tax permit is not authorized for any of the following:

- (1) Taxes imposed on the sales, furnishing, or service of gas, electricity, water, heat, pay television service, and communication service.
- (2) Taxes imposed under sections 423.26 and 423.27 and chapter 423C.

Sec. 130. NEW SECTION. 423.37 FAILURE TO FILE SALES OR USE TAX RETURNS — INCORRECT RETURNS.

1. As soon as practicable after a return is filed and in any event within three years after the return is filed, the department shall examine it, assess and determine the tax due if the return is found to be incorrect, and give notice to the person liable for the tax of the assessment and determination as provided in subsection 2. The period for the examination and determination of the correct amount of tax is unlimited in the case of a false or fraudulent return made with the intent to evade tax or in the case of a failure to file a return.

2. If a return required by this subchapter is not filed, or if a return when filed is incorrect or insufficient and the maker fails to file a corrected or sufficient return within twenty days after the same is required by notice from the department, the department shall determine the amount of tax due from information as the department may be able to obtain and, if necessary, may estimate the tax on the basis of external indices, such as number of employees of the person concerned, rentals paid by the person, stock on hand, or other factors. The department shall give notice of the determination to the person liable for the tax. The determination shall fix the tax unless the person against whom it is assessed shall, within sixty days after the giving of notice of the determination, apply to the director for a hearing or unless the taxpayer contests the determination by paying the tax, interest, and penalty and timely filing a claim for refund. At the hearing evidence may be offered to support the determination or to prove that it is incorrect. After the hearing the director shall give notice of the decision to the person liable for the tax.

3. The three-year period of limitation provided in subsection 1 may be extended by a taxpayer by signing a waiver agreement form to be provided by the department. The agreement shall stipulate the period of extension and the tax period to which the extension applies. The agreement shall also provide that a claim for refund may be filed by the taxpayer at any time during the period of extension.

Sec. 131. NEW SECTION. 423.38 JUDICIAL REVIEW.

1. Judicial review of actions of the director may be sought in accordance with the terms of the Iowa administrative procedure Act.
2. For cause and upon a showing by the director that collection of the tax in dispute is in doubt, the court may order the petitioner to file with the clerk a bond for the use of the respondent, with sureties approved by the clerk, in the amount of tax appealed from, conditioned that the petitioner shall perform the orders of the court.
3. An appeal may be taken by the taxpayer or the director to the supreme court of this state irrespective of the amount involved.

Sec. 132. NEW SECTION. 423.39 SERVICE OF NOTICES.

1. A notice authorized or required under this subchapter may be given by mailing the notice to the person for whom it is intended, addressed to that person at the address given in the last return filed by the person pursuant to this subchapter, or if no return has been filed, then to any address obtainable. The mailing of the notice is presumptive evidence of the receipt of the notice by the person to whom addressed. Any period of time which is determined according to this subchapter by the giving of notice commences to run from the date of mailing of the notice.
2. The provisions of the Code relative to the limitation of time for the enforcement of a civil remedy shall not apply to any proceeding or action taken to levy, appraise, assess, determine, or enforce the collection of any tax or penalty provided by this chapter.

Sec. 133. NEW SECTION. 423.40 PENALTIES — OFFENSES — LIMITATION.

1. In addition to the sales or use tax or additional sales or use tax, the taxpayer shall pay a penalty as provided in section 421.27. The taxpayer shall also pay interest on the sales or use tax or additional sales or use tax at the rate in effect under section 421.7 for each month counting each fraction of a month as an entire month, computed from the date the semimonthly or monthly tax deposit form or return was required to be filed. The penalty and interest shall be paid to the department and disposed of in the same manner as other receipts under this subchapter. Unpaid penalties and interest may be enforced in the same manner as the taxes imposed by this chapter.
 - a. Any person who knowingly sells tangible personal property, tickets or admissions to places of amusement and athletic events, or gas, water, electricity, or communication service at retail, or engages in the furnishing of services enumerated in section 423.2, in this state without procuring a permit to collect tax, as provided in section 423.36, or who violates section 423.24 and the officers of any corporation who so act are guilty of a serious misdemeanor.
 - b. A person who knowingly sells tangible personal property, tickets or admissions to places of amusement and athletic events, or gas, water, electricity, or communication service at retail, or engages in the furnishing of services enumerated in section 423.2, in this state after the person's sales tax permit has been revoked and before it has been restored as provided in section 423.36, subsection 5, and the officers of any corporation who so act are guilty of an aggravated misdemeanor.
3. A person who willfully attempts in any manner to evade any tax imposed by this chapter or the payment of the tax or a person who makes or causes to be made a false or fraudulent semimonthly or monthly tax deposit form or return with intent to evade any tax imposed by subchapter II or III or the payment of the tax is guilty of a class "D" felony.
4. The certificate of the director to the effect that a tax has not been paid, that a return has not been filed, or that information has not been supplied pursuant to the provisions of this subchapter shall be prima facie evidence thereof.
5. A person required to pay sales or use tax, or to make, sign, or file a tax deposit form or return or supplemental return, who willfully makes a false or fraudulent tax deposit form or return, or willfully fails to pay at least ninety percent of the tax or willfully fails to make, sign, or file the tax deposit form or return, at the time required by law, is guilty of a fraudulent practice.

6. A prosecution for an offense specified in this section shall be commenced within six years after its commission.

Sec. 134. NEW SECTION. 423.41 BOOKS — EXAMINATION.

Every retailer required or authorized to collect taxes imposed by this chapter and every person using in this state tangible personal property, services, or the product of services shall keep records, receipts, invoices, and other pertinent papers as the director shall require, in the form that the director shall require, for as long as the director has the authority to examine and determine tax due. The director or any duly authorized agent of the department may examine the books, papers, records, and equipment of any person either selling tangible personal property or services or liable for the tax imposed by this chapter, and investigate the character of the business of any person in order to verify the accuracy of any return made, or if a return was not made by the person, ascertain and determine the amount due under this chapter. These books, papers, and records shall be made available within this state for examination upon reasonable notice when the director deems it advisable and so orders. The preceding requirements shall likewise apply to users and persons furnishing services enumerated in section 423.2.

Sec. 135. NEW SECTION. 423.42 STATUTES APPLICABLE.

1. The director shall administer the taxes imposed by subchapters II and III in the same manner and subject to all the provisions of, and all of the powers, duties, authority, and restrictions contained in, section 422.25, subsection 4, section 422.30, and sections 422.67 through 422.75.

2. All the provisions of section 422.26 shall apply in respect to the taxes and penalties imposed by subchapters II and III and this subchapter, except that, as applied to any tax imposed by subchapters II and III, the lien provided in section 422.26 shall be prior and paramount over all subsequent liens upon any personal property within this state, or right to such personal property, belonging to the taxpayer without the necessity of recording as provided in section 422.26. The requirements for recording shall, as applied to the taxes imposed by subchapters II and III, apply only to the liens upon real property. When requested to do so by any person from whom a taxpayer is seeking credit, or with whom the taxpayer is negotiating the sale of any personal property, or by any other person having a legitimate interest in such information, the director shall, upon being satisfied that such a situation exists, inform that person as to the amount of unpaid taxes due by such taxpayer under the provisions of subchapters II and III. The giving of this information under these circumstances shall not be deemed a violation of section 422.72 as applied to subchapters II and III.

Sec. 136. NEW SECTION. 423.43 DEPOSIT OF REVENUE — APPROPRIATIONS.

Except as otherwise provided in section 312.2, subsection 14, all revenues derived from the use tax on motor vehicles, trailers, and motor vehicle accessories and equipment as collected pursuant to sections 423.26 and 423.27 shall be deposited and credited to the road use tax fund and shall be used exclusively for the construction, maintenance, and supervision of public highways.

1. Notwithstanding any provision of this section which provides that all revenues derived from the use tax on motor vehicles, trailers, and motor vehicle accessories and equipment as collected pursuant to sections 423.26 and 423.27 shall be deposited and credited to the road use tax fund, eighty percent of the revenues shall be deposited and credited as follows:

a. Twenty-five percent of all such revenue, up to a maximum of four million two hundred fifty thousand dollars per quarter, shall be deposited into and credited to the Iowa comprehensive petroleum underground storage tank fund created in section 455G.3, and the moneys so deposited are a continuing appropriation for expenditure under chapter 455G, and moneys so appropriated shall not be used for other purposes.

b. Any such revenues remaining shall be credited to the road use tax fund.

2. Notwithstanding any other provision of this section that provides that all revenue derived from the use tax on motor vehicles, trailers, and motor vehicle accessories and equipment as

collected pursuant to section 423.26 shall be deposited and credited to the road use tax fund, twenty percent of the revenues shall be credited and deposited as follows: one-half to the road use tax fund and one-half to the primary road fund to be used for the commercial and industrial highway network.

3. All other revenue arising under the operation of this chapter shall be credited to the general fund of the state.

Sec. 137. NEW SECTION. 423.44 REIMBURSEMENT FOR PRIMARY ROAD FUND.

From moneys deposited into the road use tax fund, the department may credit to the primary road fund any amount of revenues derived from the use tax on motor vehicles, trailers, and motor vehicle accessories and equipment as collected pursuant to sections 423.26 and 423.27 to the extent necessary to reimburse that fund for the expenditures not otherwise eligible to be made from the primary road fund, which are made for repairing, improving, and maintaining bridges over the rivers bordering the state. Expenditures for those portions of bridges within adjacent states may be included when they are made pursuant to an agreement entered into under section 313.63, 313A.34, or 314.10.

Sec. 138. NEW SECTION. 423.45 REFUNDS — EXEMPTION CERTIFICATES.

1. If an amount of tax represented by a retailer to a consumer or user as constituting tax due is computed upon a sales price that is not taxable or the amount represented is in excess of the actual taxable amount and the amount represented is actually paid by the consumer or user to the retailer, the excess amount of tax paid shall be returned to the consumer or user upon notification to the retailer by the department that an excess payment exists.

2. If an amount of tax represented by a retailer to a consumer or user as constituting tax due is computed upon a sales price that is not taxable or the amount represented is in excess of the actual taxable amount and the amount represented is actually paid by the consumer or user to the retailer, the excess amount of tax paid shall be returned to the consumer or user upon proper notification to the retailer by the consumer or user that an excess payment exists. "Proper" notification is written notification which allows a retailer at least sixty days to respond and which contains enough information to allow a retailer to determine the validity of a consumer's or user's claim that an excess amount of tax has been paid. No cause of action shall accrue against a retailer for excess tax paid until sixty days after proper notice has been given the retailer by the consumer or user.

3. In the circumstances described in subsections 1 and 2, a retailer has the option to either return any excess amount of tax paid to a consumer or user, or to remit the amount which a consumer or user has paid to the retailer to the department.

4. a. The department shall issue or the seller may separately provide exemption certificates in the form prescribed by the director, including certificates not made of paper, which conform to the requirements of paragraph "c", to assist retailers in properly accounting for nontaxable sales of tangible personal property or services to purchasers for a nontaxable purpose. The department shall also allow the use of exemption certificates for those circumstances in which a sale is taxable but the seller is not obligated to collect tax from the buyer.

b. The sales tax liability for all sales of tangible personal property and all sales of services is upon the seller and the purchaser unless the seller takes in good faith from the purchaser a valid exemption certificate stating under penalty of perjury that the purchase is for a nontaxable purpose and is not a retail sale as defined in section 423.1, or the seller is not obligated to collect tax due, or unless the seller takes a fuel exemption certificate pursuant to subsection 5. If the tangible personal property or services are purchased tax free pursuant to a valid exemption certificate which is taken in good faith by the seller, and the tangible personal property or services are used or disposed of by the purchaser in a nonexempt manner, the purchaser is solely liable for the taxes and shall remit the taxes directly to the department and sections 423.31, 423.32, 423.37, 423.38, 423.39, 423.40, 423.41, and 423.42 shall apply to the purchaser.

c. A valid exemption certificate is an exemption certificate which is complete and correct according to the requirements of the director.

d. A valid exemption certificate is taken in good faith by the seller when the seller has exercised that caution and diligence which honest persons of ordinary prudence would exercise in handling their own business affairs, and includes an honesty of intention and freedom from knowledge of circumstances which ought to put one upon inquiry as to the facts. In order for a seller to take a valid exemption certificate in good faith, the seller must exercise reasonable prudence to determine the facts supporting the valid exemption certificate, and if any facts upon such certificate would lead a reasonable person to further inquiry, such inquiry must be made with an honest intent to discover the facts.

e. If the circumstances change and as a result the tangible personal property or services are used or disposed of by the purchaser in a nonexempt manner or the purchaser becomes obligated to pay the tax, the purchaser is liable solely for the taxes and shall remit the taxes directly to the department in accordance with this subsection.

5. a. The department shall issue or the seller may separately provide fuel exemption certificates in the form prescribed by the director.

b. For purposes of this subsection:

(1) "Fuel" includes gas, electricity, water, heat, steam, and any other tangible personal property consumed in creating heat, power, or steam.

(2) "Fuel consumed in processing" means fuel used or consumed for processing including grain drying, for providing heat or cooling for livestock buildings or for greenhouses or buildings or parts of buildings dedicated to the production of flowering, ornamental, or vegetable plants intended for sale in the ordinary course of business, for use in aquaculture production, or for generating electric current, or in implements of husbandry engaged in agricultural production.

(3) "Fuel exemption certificate" means an exemption certificate given by the purchaser under penalty of perjury to assist retailers in properly accounting for nontaxable sales of fuel consumed in processing.

(4) "Substantial change" means a change in the use or disposition of tangible personal property and services by the purchaser such that the purchaser pays less than ninety percent of the purchaser's actual sales tax liability. A change includes a misstatement of facts in an application made pursuant to paragraph "d" or in a fuel exemption certificate.

c. The seller may accept a completed fuel exemption certificate, as prepared by the purchaser, for three years unless the purchaser files a new completed exemption certificate. If the fuel is purchased tax free pursuant to a fuel exemption certificate which is taken by the seller, and the fuel is used or disposed of by the purchaser in a nonexempt manner, the purchaser is solely liable for the taxes, and shall remit the taxes directly to the department and sections 423.31, 423.32, 423.37, 423.38, 423.39, 423.40, 423.41, and 423.42 shall apply to the purchaser.

d. The purchaser may apply to the department for its review of the fuel exemption certificate. In this event, the department shall review the fuel exemption certificate within twelve months from the date of application and determine the correct amount of the exemption. If the amount determined by the department is different than the amount that the purchaser claims is exempt, the department shall promptly notify the purchaser of the determination. Failure of the department to make a determination within twelve months from the date of application shall constitute a determination that the fuel exemption certificate is correct as submitted. A determination of exemption by the department is final unless the purchaser appeals to the director for a revision of the determination within sixty days after the date of the notice of determination. The director shall grant a hearing, and upon the hearing, the director shall determine the correct exemption and notify the purchaser of the decision by mail. The decision of the director is final unless the purchaser seeks judicial review of the director's decision under section 423.38 within sixty days after the date of the notice of the director's decision. Unless there is a substantial change, the department shall not impose penalties pursuant to section 423.40 both retroactively to purchases made after the date of application and prospectively until the department gives notice to the purchaser that a tax or additional tax is due, for failure to remit any tax due which is in excess of a determination made under this section. A determination made by the department pursuant to this subsection does not constitute an audit for purposes of section 423.37.

e. If the circumstances change and the fuel is used or disposed of by the purchaser in a non-exempt manner, the purchaser is solely liable for the taxes and shall remit the taxes directly to the department in accordance with paragraph “c”.

f. The purchaser shall attach documentation to the fuel exemption certificate which is reasonably necessary to support the exemption for fuel consumed in processing. If the purchaser files a new exemption certificate with the seller, documentation shall not be required if the purchaser previously furnished the seller with this documentation and substantial change has not occurred since that documentation was furnished or if fuel consumed in processing is separately metered and billed by the seller.

6. Nothing in this section authorizes any cause of action by any person to recover sales or use taxes directly from the state or extends any person’s time to seek a refund of sales or use taxes which have been collected and remitted to the state.

Sec. 139. NEW SECTION. 423.46 RATE AND BASE CHANGES.

The department shall make a reasonable effort to provide sellers with as much advance notice as practicable of a rate change and to notify sellers of legislative changes in the tax base and amendments to sales and use tax rules. Failure of a seller to receive notice or failure of this state to provide notice or limit the effective date of a rate change shall not relieve the seller of its obligation to collect sales or use taxes for this state.

Sec. 140. NEW SECTION. 423.47 REFUNDS AND CREDITS.

If it shall appear that, as a result of mistake, an amount of tax, penalty, or interest has been paid which was not due under the provisions of this chapter, such amount shall be credited against any tax due, or to become due, on the books of the department from the person who made the erroneous payment, or such amount shall be refunded to such person by the department. A claim for refund or credit that has not been filed with the department within three years after the tax payment for which a refund or credit is claimed became due, or one year after such tax payment was made, whichever time is the later, shall not be allowed by the director.

SUBCHAPTER VI
SALES AND USE TAX ACT — ADMINISTRATION OF
RETAILERS REGISTERED VOLUNTARILY UNDER THE
AGREEMENT

Sec. 141. NEW SECTION. 423.48 RESPONSIBILITIES AND RIGHTS OF SELLERS REGISTERED UNDER THE AGREEMENT.

1. By registering under the agreement, the seller agrees to collect and remit sales and use taxes for all its taxable Iowa sales. Iowa’s withdrawal from the agreement or revocation of its membership in the agreement shall not relieve a seller from its responsibility to remit taxes previously collected on behalf of this state.

2. The following provisions apply to any seller who registers under the agreement:

a. The seller may register on-line.

b. Registration under the agreement and the collection of Iowa sales and use taxes shall not be used as factors in determining whether the seller has nexus with Iowa for any tax.

c. If registered under the agreement with any other member state, the seller is considered to be registered in Iowa.

d. The seller is not required to pay registration fees or other charges.

e. A written signature from the seller is not required.

f. The seller may register by way of an agent. The agent’s appointment shall be in writing and submitted to the department if requested by the department.

g. The seller may cancel its registration at any time under procedures adopted by the governing board established pursuant to the agreement. Cancellation does not relieve the seller of its liability for remitting any Iowa taxes collected.

3. The following additional responsibilities and rights apply to model sellers:
 - a. A model 1 seller's obligation to calculate, collect, and remit sales and use taxes shall be performed by its certified service provider, except for the seller's obligation to remit tax on its own purchases. As the seller's agent, the certified service provider is liable for its model 1 seller's sales and use tax due Iowa on all sales transactions it processes for the seller except as set out in this section. A seller that contracts with a certified service provider is not liable to the state for sales or use tax due on transactions processed by the certified service provider unless the seller misrepresents the types of items or services it sells or commits fraud. In the absence of probable cause to believe that the seller has committed fraud or made a material misrepresentation, the seller is not subject to audit on the transactions processed by the certified service provider. A model 1 seller is subject to audit for transactions not processed by the certified service provider. The director is authorized to perform a system check of the model 1 seller and review the seller's procedures to determine if the certified service provider's system is functioning properly and the extent to which the seller's transactions are being processed by the certified service provider.
 - b. A model 2 seller shall calculate the amount of tax due on a transaction by the use of a certified automated system, but shall collect and remit tax on its own sales. A person that provides a certified automated system is responsible for the proper functioning of that system and is liable to this state for underpayments of tax attributable to errors in the functioning of the certified automated system. A seller that uses a certified automated system remains responsible and is liable to the state for reporting and remitting tax.
 - c. A model 3 seller shall use its own proprietary automated system to calculate tax due and collect and remit tax on its own sales. A model 3 seller is liable for the failure of its proprietary automated system to meet the applicable performance standard.

Sec. 142. NEW SECTION. 423.49 RETURNS.

1. All model 1, 2, or 3 sellers are subject to all of the following return requirements:
 - a. The seller is required to file only one return per month for this state and for all taxing jurisdictions within this state.
 - b. The date for filing returns shall be determined under rules adopted by the director. However, in no case shall the return be due earlier than the twentieth day of the following month.
 - c. The director shall request additional information returns. These returns shall not be required more frequently than every six months.
2. Any registered seller which does not have a legal obligation to register in this state and is not a model 1, 2, or 3 seller is subject to all of the following return requirements:
 - a. The seller is required to file a return within one year of the month of initial registration and shall file a return on an annual basis in succeeding years.
 - b. In addition to the return required in paragraph "a", if the seller accumulates more than one thousand dollars in total state and local tax, the seller is required to file a return in the following month.
 - c. The format of the return and the due date of the initial return and the annual return shall be determined under rules adopted by the department.

Sec. 143. NEW SECTION. 423.50 REMITTANCE OF FUNDS.

1. Only one remittance of tax per return is required except as provided in this subsection. Sellers that collect more than thirty thousand dollars in sales and use taxes for this state during the preceding calendar year shall be required to make additional remittances as required under rules adopted by the director. The filing of a return is not required with an additional remittance.
2. All remittances shall be remitted electronically.
3. Electronic payments may be made either by automated clearinghouse credit or automated clearinghouse debit. Any data accompanying a remittance must be formatted using uniform tax type and payment codes approved by the governing board established pursuant

to the agreement. An alternative method for making same-day payments shall be determined under rules adopted by the director.

4. If a due date falls on a legal banking holiday in this state, the taxes are due on the succeeding business day.

Sec. 144. NEW SECTION. 423.51 ADMINISTRATION OF EXEMPTIONS.

1. The following provisions shall apply when a purchaser claims an exemption:

a. The seller shall obtain identifying information of the purchaser and the reason for claiming a tax exemption at the time of the purchase as determined by the member states acting jointly.

b. A purchaser is not required to provide a signature to claim an exemption from tax unless a paper certificate is used.

c. The seller shall use the standard form for claiming an exemption electronically as adopted jointly by the member states.

d. The seller shall obtain the same information for proof of a claimed exemption regardless of the medium in which the transaction occurred.

e. The department may authorize a system wherein the purchaser exempt from the payment of the tax is issued an identification number which shall be presented to the seller at the time of the sale.

f. The seller shall maintain proper records of exempt transactions and provide them to the department when requested.

g. The department shall administer entity-based and use-based exemptions when practicable through a direct pay tax permit, an exemption certificate, or another means that does not burden sellers. For the purposes of this paragraph:

(1) An "entity-based exemption" is an exemption based on who purchases the product or who sells the product.

(2) A "use-based exemption" is an exemption based on the purchaser's use of the product.

2. Sellers that follow the requirements of this section are relieved from any tax otherwise applicable if it is determined that the purchaser improperly claimed an exemption and that the purchaser is liable for the nonpayment of tax. This relief from liability does not apply to a seller who fraudulently fails to collect the tax or solicits purchasers to participate in the unlawful claim of an exemption.

Sec. 145. NEW SECTION. 423.52 RELIEF FROM LIABILITY FOR SELLERS AND CERTIFIED SERVICE PROVIDERS.

Sellers and certified service providers are relieved from liability to this state or its local taxing jurisdictions for having charged and collected the incorrect amount of sales or use tax resulting from the seller or certified service provider relying on erroneous data provided by this state on tax rates, boundaries, or taxing jurisdiction assignments. If this state provides an address-based system for assigning taxing jurisdictions whether or not pursuant to the federal Mobile Telecommunications Sourcing Act, the director is not required to provide liability relief for errors resulting from reliance on the information provided by this state.

Sec. 146. NEW SECTION. 423.53 BAD DEBTS AND MODEL 1 SELLERS.

A certified service provider may claim, on behalf of a model 1 seller, any bad debt deduction as provided in section 423.21. The certified service provider must credit or refund the full amount of any bad debt deduction or refund received to the seller.

Sec. 147. NEW SECTION. 423.54 AMNESTY FOR REGISTERED SELLERS.

1. Subject to the limitations in subsections 2 through 6, the following provisions apply:

a. Amnesty is provided for uncollected or unpaid sales or use tax to a seller who registers to pay or to collect and remit applicable sales or use tax on sales made to purchasers in this state in accordance with the terms of the agreement, provided the seller was not so registered in this state in the twelve-month period preceding the commencement of Iowa's participation in the agreement.

b. Amnesty precludes assessment of the seller for uncollected or unpaid sales or use tax together with penalty or interest for sales made during the period the seller was not registered in this state, provided registration occurs within twelve months of the commencement of Iowa's participation in the agreement.

c. Amnesty shall be provided to any seller lawfully registered under the agreement by any other member state prior to the date of the commencement of Iowa's participation in the agreement.

2. Amnesty is not available to a seller with respect to any matter or matters for which the seller received notice of the commencement of an audit and which audit is not yet finally resolved, including any related administrative and judicial processes.

3. Amnesty is not available for sales or use taxes already paid or remitted or to taxes collected by the seller.

4. Amnesty is fully effective absent the seller's fraud or intentional misrepresentation of a material fact as long as the seller continues registration and continues payment or collection and remittance of applicable sales or use taxes for a period of at least thirty-six months. The statute of limitations applicable to asserting a tax liability is tolled during this thirty-six month period.

5. Amnesty is applicable only to sales or use taxes due from a seller in its capacity as a seller and not to sales or use taxes due from a seller in its capacity as a buyer.

6. The director may allow amnesty on terms and conditions more favorable to a seller than the terms required by this section.

Sec. 148. NEW SECTION. 423.55 DATABASES.

The department shall provide and maintain databases required by the agreement for the benefit of sellers registered under the agreement.

Sec. 149. NEW SECTION. 423.56 CONFIDENTIALITY AND PRIVACY PROTECTIONS UNDER MODEL 1.

1. As used in this section:

a. "Anonymous data" means information that does not identify a person.

b. "Confidential taxpayer information" means all information that is protected under this state's laws, rules, and privileges.

c. "Personally identifiable information" means information that identifies a person.

2. With very limited exceptions, a certified service provider shall perform its tax calculation, remittance, and reporting functions without retaining the personally identifiable information of consumers.

3. A certified service provider may perform its services in this state only if the certified service provider certifies that:

a. Its system has been designed and tested to ensure that the fundamental precept of anonymity is respected.

b. Personally identifiable information is only used and retained to the extent necessary for the administration of model 1 sellers with respect to exempt purchasers.

c. It provides consumers clear and conspicuous notice of its information practices, including what information it collects, how it collects the information, how it uses the information, how long, if at all, it retains the information, and whether it discloses the information to member states. This notice shall be satisfied by a written privacy policy statement accessible by the public on the official web site of the certified service provider.

d. Its collection, use, and retention of personally identifiable information is limited to that required by the member states to ensure the validity of exemptions from taxation that are claimed by reason of a consumer's status or the intended use of the goods or services purchased.

e. It provides adequate technical, physical, and administrative safeguards so as to protect personally identifiable information from unauthorized access and disclosure.

4. The department shall provide public notification of its practices relating to the collection, use, and retention of personally identifiable information.

5. When any personally identifiable information that has been collected and retained by the department or certified service provider is no longer required for the purposes set forth in subsection 3, paragraph “d”, that information shall no longer be retained by the department or certified service provider.

6. When personally identifiable information regarding an individual is retained by or on behalf of this state, this state shall provide reasonable access by such individual to his or her own information in the state’s possession and a right to correct any inaccurately recorded information.

7. This privacy policy is subject to enforcement by the department and the attorney general.

8. This state’s laws and rules regarding the collection, use, and maintenance of confidential taxpayer information remain fully applicable and binding. Without limitation, the agreement does not enlarge or limit the state’s or department’s authority to:

- a. Conduct audits or other review as provided under the agreement and state law.
- b. Provide records pursuant to its examination of public records law, disclosure laws of individual governmental agencies, or other regulations.
- c. Prevent, consistent with state law, disclosures of confidential taxpayer information.
- d. Prevent, consistent with federal law, disclosures or misuse of federal return information obtained under a disclosure agreement with the internal revenue service.
- e. Collect, disclose, disseminate, or otherwise use anonymous data for governmental purposes.

9. This privacy policy does not preclude the certification of a certified service provider whose privacy policy is more protective of confidential taxpayer information or personally identifiable information than is required by the agreement.

Sec. 150. NEW SECTION. 423.57 STATUTES APPLICABLE.

The director shall administer this subchapter as it relates to the taxes imposed in this chapter in the same manner and subject to all the provisions of, and all of the powers, duties, authority, and restrictions contained in sections 423.14, 423.15, 423.16, 423.17, 423.18, 423.19, 423.20, 423.21, 423.22, 423.23, 423.24, 423.25, 423.28, 423.29, 423.31, 423.32, 423.33, 423.34, 423.35, 423.37, 423.38, 423.39, 423.40, 423.41, and 423.42, section 423.43, subsection 3, and sections 423.45, 423.46, and 423.47.

DIVISION XVI
EFFECTIVE DATE

Sec. 209. EFFECTIVE DATE. Unless otherwise provided in this Act, this Act takes effect July 1, 2003.

Approved June 19, 2003, with exceptions noted.

THOMAS J. VILSACK, *Governor*

Dear Mr. Secretary:

I hereby transmit House File 683, an Act relating to economic development, financial, taxation, and regulatory matters, making and revising appropriations, modifying penalties, providing a fee, and including effective, applicability, and retroactive applicability provisions.

House File 683 is approved on this date with the following exceptions, which I hereby disapprove:

I am unable to approve the item designated as Section 96, subsection 68, in its entirety. These paragraphs conform the postponement of the phase-out of the sales tax on residential utilities with the streamlined sales tax initiative. I have item vetoed the postponing of this tax cut, so this language is unnecessary. I will recommend language to the next legislature in January 2004 to bring our continued reduction in the sales tax on residential utilities into alignment with the streamlined sales tax initiative.

I am unable to approve the items designated as Division 15 that consists of Sections 206–208 in their entirety. These sections would require the establishment of a parking fee for the State Capitol Complex Parking Structure located at Pennsylvania and Grand Avenues in Des Moines for only those citizens who work for the State of Iowa. I had earlier vetoed similar language in SF 452 because I do not think it is appropriate to charge such fees to citizens who would use this facility to visit the State Capitol. My earlier concern still exists because we should not discriminate against our state employees, who are Iowa citizens. Additionally, since we make free parking available to state employees elsewhere around the State Capitol Complex, creating a system where some state employees are charged a parking fee and other state employees can park for free is not equitable. Therefore, such a fee should not be approved.

For the above reasons, I respectfully disapprove these items in accordance with Article 3, Section 16 of the Constitution of the State of Iowa. All other items in House File 683 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*

* Item veto; see message at end of the Act
