Upon the filing and allowance of the claim, the claim shall be allowed on the property for successive years without further filing as long as the property is used for the purposes specified in the original claim for exemption. When the property is sold or transferred, the county recorder shall provide notice of the transfer to the assessor. The notice shall describe the property transferred and the name of the person to whom title to the property is transferred.

The assessor, in arriving at the valuation of any property of the society or organization, shall take into consideration any uses of the property not for the appropriate objects of the organization and shall assess in the same manner as other property, all or any portion of the property involved which is leased or rented and is used regularly for commercial purposes for a profit to a party or individual. If a portion of the property is used regularly for commercial purposes an exemption shall not be allowed upon property so used and the exemption granted shall be in the proportion of the value of the property used solely for the appropriate objects of the organization, to the entire value of the property. However, the board of trustees or the board of directors of a hospital, as defined in section 135B 1, subsection 1, may permit use of a portion of the hospital for commercial purposes, and the hospital is entitled to full exemption for that portion used for nonprofit health-related purposes, upon compliance with the filing requirements of this subsection.

The director of revenue and finance shall give notice by mail to the societies or organizations claiming an exemption upon property, exemption of which is questioned before or by the director of revenue and finance, and any order made by the director of revenue and finance revoking or modifying an exemption is subject to judicial review in accordance with the Iowa administrative procedure Act. 29 *Personal property* All personal property in transit.

30 *Rural water sales* The real and personal property of a nonprofit corporation engaged in the distribution and sale of water to rural areas when devoted to public use and not held for pecuniary profit.

31 *Assessed value of exempt property* Each county and city assessor shall determine the assessment value that would be assigned to the property if it were taxable and value all tax exempt property within the assessor's jurisdiction. A summary report of tax exempt property shall be filed with the director of revenue and finance and the local board of review on or before April 16 of each year on forms prescribed by the director of revenue and finance.

32 *Pollution control* Pollution-control property as defined in this subsection shall be exempt from taxation to the extent provided in this subsection, upon compliance with the provisions of this subsection.

This exemption shall apply to new installations of pollution-control property beginning on January 1 after the construction or installation of the property is completed. This exemption shall apply beginning on

January 1, 1975, to existing pollution control property if its construction or installation was completed after September 23, 1970.

This exemption shall be limited to the market value, as defined in section 441 21, of the pollution control property. If the pollution-control property is assessed with other property as a unit, this exemption shall be limited to the net market value added by the pollution-control property, determined as of the assessment date.

Application for this exemption shall be filed with the assessing authority not later than the first of February of the first year for which the exemption is requested, on forms provided by the department of revenue and finance. The application shall describe and locate the specific pollution-control property to be exempted.

The application for a specific pollution-control property shall be accompanied by a certificate of the administrator of the environmental protection division of the department of natural resources certifying that the primary use of the pollution-control property is to control or abate pollution of any air or water of this state or to enhance the quality of any air or water of this state.

A taxpayer may seek judicial review of a determination of the administrator of the environmental protection division or, on appeal, of the environmental protection commission in accordance with the provisions of chapter 17A.

The environmental protection commission of the department of natural resources shall adopt rules relating to certification under this subsection and information to be submitted for evaluating pollution-control property for which a certificate is requested. The department of revenue and finance shall adopt any rules necessary to implement this subsection, including rules on identification and valuation of pollution-control property. All rules adopted shall be subject to the provisions of chapter 17A.

For the purposes of this subsection "pollution-control property" means personal property or improvements to real property, or any portion thereof, used primarily to control or abate pollution of any air or water of this state or used primarily to enhance the quality of any air or water of this state. In the event such property shall also serve other purposes or uses of productive benefit to the owner of the property, only such portion of the assessed valuation thereof as may reasonably be calculated to be necessary for and devoted to the control or abatement of pollution or to the enhancement of the quality of the air or water of this state shall be exempt from taxation under this subsection.

For the purposes of this subsection "pollution" means air pollution as defined in section 455B 131 or water pollution as defined in section 455B 171. "Water of the state" means the water of the state as defined in section 455B 171. "Enhance the quality" means to diminish the level of pollutants below the air or water quality standards established by the environmental protection commission of the department of natural resources.

33 *Impoundment structures* The impoundment structure and any land underlying an impoundment located outside any incorporated city, which are not

developed or used directly or indirectly for nonagricultural income producing purposes and which are maintained in a condition satisfactory to the soil conservation district commissioners of the county in which the impoundment structure and the impoundment are located. Any person owning land which qualifies for a property tax exemption under this subsection shall apply to the county assessor each year before the first of July for the exemption. The application shall be made on forms prescribed by the department of revenue and finance. The first application shall be accompanied by a copy of the water storage permit approved by the administrator of the environmental protection division of the department of natural resources and a copy of the plan for the construction of the impoundment structure and the impoundment. The construction plan shall be used to determine the total acre-feet of the impoundment and the amount of land which is eligible for the property tax exemption status. The county assessor shall annually review each application for the property tax exemption under this subsection and submit it, with the recommendation of the soil conservation district commissioners, to the board of supervisors for approval or denial. Any applicant for a property tax exemption under this subsection may appeal the decision of the board of supervisors to the district court. As used in this subsection, "impoundment" means any reservoir or pond which has a storage capacity of at least eighteen acre feet of water or sediment at the time of construction, "storage capacity" means the total area below the crest elevation of the principal spillway including the volume of any excavation in such area, and "impoundment structure" means any dam, earthfill or other structure used to create an impoundment.

34 *Low rent housing* The property owned and operated by a nonprofit organization providing low-rent housing for the elderly and the physically and mentally handicapped. The exemption granted under the provisions of this subsection shall apply only until the terms of the original low-rent housing development mortgage is paid in full or expires, subject to the provisions of subsections 23 and 24.

35 *Coal* Coal which is held in inventory to be used for methane gas production or other purposes by a person, corporation, partnership, or other business entity, except coal held in inventory which is owned by a person, corporation, partnership, or other business entity whose property is assessed by the department of revenue and finance pursuant to sections 428 24 to 428 29 or chapters 433 to 438.

36 *Natural conservation or wildlife areas* Wetlands, recreational lakes, forest covers, rivers and streams, river and stream banks, and open prairies as designated by the board of supervisors of the county in which located. The board of supervisors shall annually designate the real property, not to exceed in the aggregate for the fiscal year beginning July 1, 1983 the greater of one percent of the acres assessed as agricultural land or three thousand acres in each county, for which this exemption shall apply. For subsequent fiscal years, the limitation on the maximum acreage of real property that may be granted exemptions shall be the limitation for the previous fiscal year, unless the amount of acreage granted exemptions for the previous fiscal year equaled the limitation for that year,

then the limitation for the subsequent fiscal year is the limitation for the previous fiscal year plus an increase, not to exceed three hundred acres, of ten percent of that limitation. The procedures of this subsection shall be followed for each assessment year to procure an exemption for the fiscal year beginning in the assessment year. The exemption shall be only for the fiscal year for which it is granted, except that an exemption granted for wetlands shall be for three fiscal years. A parcel of property may be granted subsequent exemptions. The exemption shall only be granted for parcels of property of two acres or more.

Application for this exemption shall be filed with the commissioners of the soil conservation district in which the property is located, or if not located in a district, to the board of supervisors, not later than April 15 of the assessment year, on forms provided by the department of revenue and finance. However, in the case of an exemption granted for wetlands an application does not have to be filed for the second and third years of the three-year exemption period. The application shall describe and locate the property to be exempted and have attached to it an aerial photo of that property on which is outlined the boundaries of the property to be exempted. In the case of an open prairie which is or includes a gully area susceptible to severe erosion, an approved erosion control plan must accompany the application. Upon receipt of the application, the commissioners or the board of supervisors, if the property is not located in a soil conservation district, shall certify whether the property is eligible to receive the exemption. The commissioners or board shall not withhold certification of the eligibility of property because of the existence upon the property of an abandoned building or structure which is not used for economic gain. If the commissioners certify that the property is eligible, the application shall be forwarded to the board of supervisors by May 1 of that assessment year with the certification of the eligible acreage. An application must be accompanied by an affidavit signed by the applicant that if an exemption is granted, the property will not be used for economic gain during the assessment year in which the exemption is granted.

Before the board of supervisors may designate real property for the exemption, it shall establish priorities for the types of real property for which an exemption may be granted and the amount of acreage. These priorities may be the same as or different than those for previous years. The board of supervisors shall get the approval of the governing body of the city before an exemption may be granted to real property located within the corporate limits of that city. A public hearing shall be held with notice given as provided in section 23 2 at which the proposed priority list shall be presented. However, no public hearing is required if the proposed priorities are the same as those for the previous year. After the public hearing, the board of supervisors shall adopt by resolution the proposed priority list or another priority list. Property upon which are located abandoned buildings or structures shall have the lowest priority on the list adopted, except where the board of supervisors determines that a structure has historic significance. The board of supervisors shall also provide for a procedure where the amount of acres for which exemptions are sought ex-

ceeds the amount the priority list provides for that type or in the aggregate for all types

After receipt of an application with its accompanying certification and affidavit and the establishment of the priority list, the board of supervisors may grant a tax exemption under this subsection using the established priority list as a mandate. Real property designated for the tax exemption shall be designated by May 15 of the assessment year in which begins the fiscal year for which the exemption is granted. Notification shall be sent to the county auditor and the applicant.

The board of supervisors does not have to grant tax exemptions under this subsection, grant tax exemptions in the aggregate of the maximum acreage which may be granted exemptions, or grant a tax exemption for the total acreage for which the applicant requested the exemption. Only real property in parcels of two acres or more which is wetlands, recreational lakes, forest cover, river and stream, river and stream banks or open prairie and which is utilized for the purposes of providing soil erosion control or wildlife habitat or both, and which is subject to property tax for the fiscal year for which the tax exemption is requested is eligible for the exemption under this subsection. However, in addition to the above, in order for a gully area which is susceptible to severe erosion to be eligible, there must be an erosion control plan for it approved by the commissioners of the soil conservation district in which it is located or the state soil conservation committee if not located in a district. In the case of an exemption for river and stream or river and stream banks, the exemption shall not be granted unless there is included in the exemption land located at least thirty-three feet from the ordinary high water mark of the river and stream or river and stream banks. Property shall not be denied an exemption because of the existence upon the property of an abandoned building or structure which is not used for economic gain. If the real property is located within a city, the approval of the governing body must be obtained before the real property may be eligible for an exemption. For purposes of this subsection:

a "Wetlands" means land preserved in its natural condition which is mostly under water, which produces little economic gain, which has no practical use except for wildlife or water conservation purposes, and the drainage of which would be lawful, feasible and practical and would provide land suitable for the production of livestock, dairy animals, poultry, fruit, vegetables, forage and grains. "Wetlands" includes adjacent land which is not suitable for agricultural purposes due to the presence of the land which is under water.

b "Open prairies" includes hillsides and gully areas which have a permanent grass cover but does not include native prairies meeting the criteria of the state conservation commission.

c "Forest cover" means land which is predominantly wooded.

d "Recreational lake" means a body of water, which is not a river or stream, owned solely by a non-profit organization and primarily used for boating, fishing, swimming and other recreational purposes.

e "Used for economic gain" includes, but is not limited to, using property for the storage of equipment, machinery, or crops.

Notwithstanding other requirements under this subsection, the owner of any property lying between a river or stream and a dike which is required to be set back three hundred feet or less from the river or stream shall automatically be granted an exemption for that property upon submission of an application accompanied by an affidavit signed by the applicant that if the exemption is granted the property will not be used for economic gain during the period of exemption. The exemption shall continue from year to year for as long as the property qualifies and is not used for economic gain, without need for filing additional applications or affidavits. Property exempted pursuant to this paragraph is in addition to the maximum acreage applicable to other exemptions under this subsection.

37 Native prairie Land designated as native prairie by a county conservation board or by the department of natural resources in an area not served by a county conservation board. Application for the exemption shall be made on forms provided by the department of revenue and finance. The application forms shall be filed with the assessing authority not later than the first of February of the year for which the exemption is requested. The application must be accompanied by an affidavit signed by the applicant that if the exemption is granted, the property will not be used for economic gain during the assessment year in which the exemption is granted. If the property is used for economic gain during the assessment year in which the exemption is granted, the property shall lose its tax exemption and shall be taxed at the rate levied by the county for the fiscal year beginning in that assessment year. The first annual application shall be accompanied by a certificate from the county conservation board serving the area in which the property is located or if none exists, the department of natural resources stating that the land is native prairie. The county conservation board or the department of natural resources shall issue the certificate if the board or department finds that the land has never been cultivated, is unimproved, is primarily a mixture of warm grasses interspersed with flowering plants, and meets the other criteria established by the natural resource commission for native prairie. A taxpayer may seek judicial review of a decision of a board or the department according to chapter 17A. The natural resource commission shall adopt rules to implement this subsection.

38 Land certified as a wildlife habitat The owner of agricultural land may designate not more than two acres of the land for use as a wildlife habitat. After inspection, if the land meets the standards established by the natural resource commission for a wildlife habitat under section 110.3, the department of natural resources shall certify the designated land as a wildlife habitat and shall send a copy of the certification to the appropriate assessor. The department of natural resources may subsequently withdraw certification of the designated land if it fails to meet the established standards for a wildlife habitat and the assessor shall be given written notice of the decertification.

427.2 Taxable property acquired through eminent domain.

Real estate occupied as a public road, and rights of way for established public levees and rights of way for established, open, public drainage improvements shall not be taxed.

When land or rights in land are acquired in connection with or for public use or public purposes, the acquiring authority shall assist in the collection of property taxes and special assessments. However, assistance in the collection of the property taxes and special assessments does not require the payment of property taxes and special assessments on the property acquired which exceed the amount of just compensation offered as required by section 472.45 for the acquisition of the property.

The property owner shall pay all property taxes and special assessments which are due and payable when the property owner surrenders possession of the property acquired and also those which become due and payable for the fiscal year the property is acquired in an amount equal to one-twelfth of the taxes and assessments due and payable on the property acquired for the preceding fiscal year multiplied by the number of months in the fiscal year in which the property was acquired which elapsed prior to the month in which the property owner surrenders possession, and including that month if the surrender of possession occurs after the fifteenth day of a month. For purposes of computing the payments, the property owner has surrendered possession of property acquired by eminent domain proceedings when the acquiring authority has the right to obtain possession of the acquired property as authorized by law. When part but not all of the property is acquired for public use or public purposes, taxing authorities may collect property taxes and special assessments which the property owner is obligated to pay, in accordance with chapter 446, from that part of the property which is not acquired. The county treasurer shall collect and accept the payment received on property acquired for public use or public purposes as full and final payment of all property tax and special assessments on the property and apportion the payment on the basis of the levy in effect in the fiscal year in which the property is acquired.

For that portion of the prorated year for which the acquiring authority has possession of the property or part of the property acquired in connection with or for public use or public purposes, all taxes and special assessments shall be canceled.

Upon sale of the acquired property by the acquiring authority to a new owner, the new owner shall pay all special assessments and property taxes which become due and payable or would have become due and payable but for the acquisition by the acquiring authority for the fiscal year the property is acquired by the new owner in an amount equal to one-twelfth of such taxes

Thereafter, special assessments or installments of them which would have become due and payable after the date of the acquisition of the property by the new owner but for the acquisition of the property by the acquiring authority and this section, shall be reinstated by the county treasurer and shall be collectible as provided by law.

3 The minor child, or children owning property as tenants in common, of any such deceased soldier, sailor, marine, or nurse

No more than one tax exemption shall be allowed under this section or section 427 3 in the name of any honorably discharged soldier, sailor, marine, or nurse

427.5 Claim for military tax exemption — discharge recorded.

A person named in section 427 3, who is a resident of and domiciled in the state of Iowa, shall receive a reduction equal to the exemption, to be made from any property owned by the person and so designated by proceeding as hereafter provided. In order to be eligible to receive the exemption the person claiming it shall have had recorded in the office of the county recorder of the county in which is located the property designated for the exemption, the military certificate of satisfactory service, order transferring to inactive status, reserve, retirement, or order of separation from service, or honorable discharge of the person claiming or through whom is claimed the exemption. If the evidence of satisfactory service, separation, retirement, furlough to reserve, inactive status, or honorable discharge is lost the claimant may record in lieu thereof a certified copy

The person shall file with the appropriate assessor on forms obtained from the assessor the claim for exemption for the year for which the person is first claiming the exemption. The claim shall be filed not later than July 1 of the year for which the person is claiming the exemption. The claim shall set out the fact that the person is a resident of and domiciled in the state of Iowa, and a person within the terms of section 427 3, and shall give the volume and page on which the certificate of satisfactory service, order of separation, retirement, furlough to reserve, inactive status, or honorable discharge or certified copy thereof is recorded in the office of the county recorder, and may include the designation of the property from which the exemption is to be made, and shall further

state that the claimant is the equitable and legal owner of the property designated.

Upon the filing and allowance of the claim, the claim shall be allowed to that person for successive years without further filing. Provided, that notwithstanding the filing or having on file a claim for exemption, the person or person's spouse is the legal or equitable owner of the property on July 1 of the year for which the claim is allowed. When the property is sold or transferred or the person wishes to designate different property for the exemption, a person who wishes to receive the exemption shall refile for the exemption. A person who sells or transfers property which is designated for the exemption or the personal representative of a deceased person who owned such property shall provide written notice to the assessor that the property is no longer legally or equitably owned by the former claimant.

In case the owner of the property is in active service in any of the armed forces of the United States or of this state, including the nurses corps of the state or of the United States, or is sixty-five years of age or older, or is disabled, the claim may be filed by any member of the owner's family, by the owner's guardian or conservator, or by any other person who may represent the owner under power of attorney. In all cases where the owner of the property is married, the spouse may file the claim for exemption. A person may not claim an exemption in more than one county of the state, and if a designation is not made the exemption shall apply to the homestead, if any.

The failure of a person to file a claim under this section before July 1 of the year for which the person is first claiming the exemption or to have the evidence of satisfactory service, separation, retirement, furlough to reserve, inactive status, or honorable discharge recorded in the office of the county recorder does not disqualify the claim if the person claiming or through whom the exemption is claimed is otherwise qualified. The belated claim shall be filed with the appropriate assessor before the succeeding July 1 and, if approved by the board of supervisors, the county treasurer shall file an amended certificate of military service tax credits with the director of revenue before the director certifies the total credits claimed by each county to the state comptroller as provided in section 426A.4.

The assessor shall retain a permanent file of current military service tax exemption claims filed in the assessor's office. The assessor shall file a notice of transfer of property for which a claim is filed when notice is received from the office of the county recorder, from the person who sold or transferred the property, or from the personal representative of a deceased claimant.

The county recorder shall give notice to the assessor of each transfer of title filed in the recorder's office. The notice shall describe the property transferred, the name of the person transferring the title to the property, and the name of the person to whom title to the property has been transferred.

Not later than July 6 of each year, the assessor shall remit the claims and designations of property to the county auditor with the assessor's recommendation for allowance or disallowance. If the assessor recommends disallowance of a claim, the assessor shall submit the reasons for the recommendation, in writing, to the county auditor.

The county auditor shall forward the claims to the board of supervisors. The board shall allow or disallow the claims. If the board disallows a claim, it shall send written notice, by mail, to the claimant at the claimant's last known address. The notice shall state the reasons for disallowing the claim for the exemption.

Any person whose claim is denied under the provisions of this chapter may appeal from the action of the board of supervisors in the district court of the county in which said claimed military service tax exemption is situated by giving written notice of such appeal to the county auditor of said county within twenty days from the date of mailing of notice of such action by the board of supervisors.

Upon adoption of a resolution by the county board of supervisors, any person may request, in writing, from the appropriate assessor forms for the filing for a military service tax exemption. The person may complete the form, which shall include a statement claiming the military service tax exemption and designating the property upon which the tax exemption is claimed, and mail or return it to the appropriate assessor. The signature of the claimant on the claim shall be considered the claimant's acknowledgment that all statements and facts entered on the form are correct to the best of the claimant's knowledge.

The commissioner of human services shall notify the board of supervisors, of the county in which the assisted person owns property, of the fact, giving a statement of property, owned, possessed, or upon which the person is paying taxes as a purchaser under contract. The board of supervisors so notified, without the filing of a petition and statement as specified in section 427.8, shall order the county treasurer to suspend the collection of all the taxes assessed against the property and remaining unpaid by the person or contractually payable by the person, for such time as the person remains the owner or contractually prospective owner of the property, and during the period the person receives assistance as described in this section. The suspended tax list is the only official record of suspended taxes in the county. When a suspension ordered by the board of supervisors for any reason provided by law, has been entered in the suspended tax list, the entry, on and after its date is a lien and notice of a lien in accordance with section 445.10 and is not required to be entered in or carried forward to any other book or tax list.

b The books and records of the warehouse shall be of such nature as to show a description of the property, the quantity, value and source of each shipment received and a description of the property, the quantity, value and destination of all goods taken from the warehouse, with each such receipt or release of such goods dated and described. The annual date of such transmittal of such records shall be not later than February 1 of each year and shall cover the annual accounting period of the warehouse as established on its books and records for all purposes which period has concluded prior to January 1 of each year. Such other reports as may be required by assessors on a periodic basis may be transmitted in form of a written report or in form of copies of bills of lading countersigned by the consignee or the consignee's agent containing the factors first enumerated above, as mutually agreed upon by the assessor, or assessors, and operator of the warehouse

427A.1 Personal property tax credit.

1 All tangible property except that which is assessed and taxed as real property is subject to the personal property tax credits provided in this chapter, unless the property is taxed, licensed, or exempt from taxation under other provisions of law. For the purposes of property taxation only, the following shall be assessed and taxed, unless otherwise qualified for exemption, as real property:

- a Land and water rights

- d Buildings, structures, equipment, machinery or improvements, any of which are attached to the buildings, structures, or improvements defined in paragraph "c" of this subsection
- e Machinery used in manufacturing establishments. The scope of property taxable under this paragraph is intended to be the same as, and neither broader nor narrower than, the scope of property taxable under section 428.22* prior to July 1, 1974
- f Property taxed under chapter 499B
- g Rights to space above the land
- h Property assessed by the department of revenue and finance pursuant to sections 428.24 to 428.29, or chapters 433, 434 and 436 to 438

However, this paragraph does not change the manner of assessment or the authority entitled to make the assessment
- j (1) Computers. As used in this paragraph, "computer" means stored program processing equipment and all devices fastened to the computer by means of signal cables or communication media that serve the function of signal cables but does not include point of sales equipment
 - (2) Computer output microfilming equipment

 - a Connected by an adhesive preparation
 - b Connected in a manner so that disconnecting requires the removal of one or more fastening devices, other than electric plugs
 - c Connected in a manner so that removal requires substantial modification or alteration of the property removed or the property from which it is removed

3 Notwithstanding the definition of "attached" in subsection 2, property is not "attached" if it is a kind of property which would ordinarily be removed when the owner of the property moves to another location. In making this determination the assessing authority shall not take into account the intent of the particular owner.

4 Notwithstanding the other provisions of this section, property described in this section, if held solely for sale, lease or rent as part of a business regularly engaged in selling, leasing or renting such property, and if the property is not yet sold, leased, rented or used by any person, shall not be assessed and taxed as real property. This subsection does not apply to any land or building.

5 Nothing in this section shall be construed to permit an item of property to be assessed and taxed in this state more than once in any one year.

6 The assessing authority shall annually reassess property which is assessed and taxed as real property, but which would be regarded as personal property except for this section. This section shall not be construed to limit the assessing authority's powers to assess or reassess under other provisions of law.

7 The director of revenue and finance shall promulgate rules subject to chapter 17A to carry out the intent of this section.

427A.2 In addition to military exemption — personal property tax credit.

Persons entitled to exemption from personal property tax under provisions of section 427.3, shall be granted such exemption, in addition to the credits provided by this chapter. There is hereby granted a credit of not to exceed ten thousand dollars against the assessed value of tangible personal property as defined in section 427A.1, owned by a person or business enterprise.

For the purposes of this section:

- 1 "Person" means an individual, partnership, joint venture, association, corporation, trust, or estate
- 2 "Business enterprise" means a person engaged in business

[C71, 73, 75, 77, 79, 81, §427A.2]

427A.3 Property must be listed.

The personal property tax credit authorized by this chapter does not excuse the taxpayer from listing all personal property as required in chapter 428. However, if the reduced assessment for January 1 of any year is less than the credit allowed under section 427A.2 and the additional credit allowed under section 427A.9, against the previous year's assessment, the assessor is not required to contact the taxpayer in any succeeding year if the assessor determines that the personal property valuation of the taxpayer will not be greater than the amount of the credit and the taxpayer has a claim on file in the assessor's office. The valuation of the personal property shall be determined as prescribed in chapter 441, so that the valuations of all personal property in a taxing district shall be known and shall be made a part of the tax list compiled by the county auditor under chapter 443.

[C71, 73, 75, 77, 79, 81, §427A.3, 82 Acts, ch 1190, §1]

427A.4 Limit of credit.

No person or business enterprise in the state shall be allowed a credit on personal property tax in excess of ten thousand dollars assessed valuation. Any person or business enterprise who owns personal property subject to taxation in more than one county of the state shall designate in reporting such property to the assessor for the purpose of assessment as required in section 427A.1 in which counties of the state the property is located and may claim the entire credit in one county or a proportionate part thereof in each county where the property is situated, and in no case shall the person or enterprise claim more than the ten thousand dollars assessed value for all personal property assessed in all counties.

Each year, on or before July 1, a taxpayer who has not previously filed an application with the assessor shall deliver to the assessor an application for personal property tax credit and state by the affidavit filed in each county where the taxpayer's personal property is situated, that the taxpayer has not claimed a total personal property tax credit in all counties in excess of a total of ten thousand dollars assessed valuation. A claim filed in 1982 and thereafter is applicable for the year in which the claim is filed and the succeeding years.

The assessor shall examine claims for the credit filed in the assessor's office and recommend the disallowance of any claim if it appears that an owner of tangible personal property has attempted to divide the ownership of the property for purpose of obtaining additional credit beyond the amount of ten thousand dollars in a year.

If any person fails to make application for the credits provided for under this chapter, the person is deemed to have waived the personal property tax credit.

Any person making a false affidavit for the purpose of obtaining the credit provided for in this section, or who knowingly receives such credit without being legally entitled thereto, or who makes claim for credit of more than ten thousand dollars in the state shall be guilty of a fraudulent practice.

[C71, 73, 75, 77, 79, 81, S81, §427A.4; 81 Acts, ch 140, §1, 2, 4; 82 Acts, ch 1190, §2-4]

427A.5 Jointly owned property — division of credit.

If personal property is owned separately by a husband and wife, they may divide the credit or one may take the entire credit, but in no case may a husband and wife receive a total credit of more than ten thousand dollars unless husband, wife or minor children own farm units separately. If personal property is owned by separate business enterprises and the business enterprises are controlled or owned by the same person, the separate business enterprises may divide the credit or one may take the entire credit, but in no case may separate business enterprises which are controlled or owned by the same person receive a total exemption of more than ten thousand dollars.

Business enterprises are controlled or owned by the same person if over fifty percent of their assets or shares of stock are controlled or owned by the same person, or if they are in fact controlled and managed by the same person, regardless of how actual title to the assets or shares of stock are held. The assessor

shall deliver the sworn affidavits to the county auditor by August 1 of each year.

[C71, 73, 75, 77, 79, 81, §427A.5]

427A.6 Listing by auditor.

On or before July 1 of each year, the auditor of each county shall prepare a statement listing for each taxing district in the county all personal property upon which taxes shall not be collected due to the tax credit granted in this chapter. The statement shall show the tax rates of the various taxing districts and the total amount of taxes which shall not be collected in each district because of the tax credit. The auditor shall certify and forward one copy of the statement to the department of revenue and finance on or before July 15 of each year. The department of revenue and finance shall audit credits allowed in all counties in the state and the assessed values and assessment practices which affect the amounts of credits and the audit shall be completed within twenty-four months from July 1 of the year the claims were filed. A copy of the audit containing disallowed credits shall be sent to the county auditor and the county treasurer and these officers shall be directed to correct their books and records accordingly. A written notice of a disallowance shall be mailed by ordinary mail to the claimant at the claimant's last known address. The amount of any erroneous credit shall be charged to the county. The director of revenue and finance shall disallow any claim if the audit or investigation revealed that the claimant was not entitled to the credit claimed. Claimants may appeal any disallowed personal property credit to the state board of tax review.

PERSONAL PROPERTY TAX PHASEOUT**427A.9 Additional personal property tax credit.**

Each taxpayer entitled to the personal property tax credit granted pursuant to sections 427A.1 to 427A.5 of this chapter is granted an additional personal property tax credit against the taxpayer's assessed value of personal property which would otherwise be taxable in the tax year.

The amount of the additional personal property tax credit shall be a fixed amount for each tax year. The amount of the additional personal property tax credit shall be increased for the extended tax year beginning January 1, 1974, and ending June 30, 1975, and shall be increased for each tax year immediately following a tax year in which the growth of state general fund revenues, adjusted for changes in rate or basis, exceeds five and one-half percent, except that the amount of the additional personal property tax credit for taxes payable in each year of the fiscal period beginning July 1, 1977 and ending June 30, 1979 shall not exceed the amount of the additional personal property tax credit allowed for taxes payable in the fiscal year beginning July 1, 1976 and ending June 30, 1977, the amount of the additional personal property tax credit for taxes payable in the fiscal year beginning July 1, 1980 and

ending June 30, 1981 shall not exceed the amount of the additional personal property tax credit allowed for taxes payable in the fiscal year beginning July 1, 1979 and ending June 30, 1980, and the amount of the additional personal property tax credit for taxes payable in the fiscal year beginning July 1, 1986 and ending June 30, 1987 shall not exceed the amount of the additional personal property tax credit allowed for taxes payable in the fiscal year beginning July 1, 1985 and ending June 30, 1986. An increase in the additional personal property tax credit, once granted, shall continue for each succeeding tax year. For the purposes of this chapter the director of management may estimate the state percent of growth if necessary to avoid delay in the collection of taxes. All taxes on personal property shall be repealed as provided in the following section. The director of revenue and finance and the director of management, jointly, shall determine the amount of the credit for each such tax year. Such amount shall be the maximum amount, rounded to the nearest ten dollars, which will permit complete funding of the replacement obligation under this division, including the replacement obligation for the tax credit granted pursuant to sections 427A 1 to 427A 5, out of the appropriation provided in this chapter.

Notwithstanding the provisions of this section which require an increase in general fund revenues in excess of five and one-half percent, adjusted for changes in rate or basis, to increase the personal property tax credit, the amount of the personal property tax credit, to be allowed for taxes payable in the fiscal year beginning July 1, 1982 and ending June 30, 1983 and in the fiscal year beginning July 1, 1985 and ending June 30, 1986 shall be increased as provided in this section.

As used in this division "additional personal property tax credit" means the additional personal property tax credit granted pursuant to this section.

As used in this division "tax year" means the year in which taxes are payable.

No application shall be required for the additional personal property tax credit. The assessor and county auditor shall take all necessary action to assure that each taxpayer receives the credit.

Effective on July 1, 1987, all taxes on personal property as defined in section 427A 1 are repealed. For assessment years beginning on or after January 1, 1986 personal property shall not be listed or assessed. This section shall prevail over all inconsistent statutes.

427A.11 Limit on assessment.

For each annual assessment of personal property through the final assessment, the total assessed value of all personal property in each assessing jurisdiction shall not exceed the total actual value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. The assessor shall determine the assessed value of all taxable personal property in accordance with chapter 441. If the total assessed value exceeds the limitation established by this sec-

tion, the assessor shall reduce the assessed value of each taxpayer's personal property after the board of review adjourns and prior to certifying values to the county auditor, by the same percentage, so that the total assessed value of all personal property in the assessing jurisdiction shall be equal to the total actual value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. The assessor shall inform taxpayers of any percentage that the value of personal property is reduced in the assessor jurisdiction by publication of notice in a newspaper of general circulation in the city or county. This section shall prevail over all inconsistent statutes.

[C75, 77, 79, 81, §427A 11]

427A.12 Replacement fund.

1 A personal property tax replacement fund is established as a permanent fund in the office of the treasurer of state, for the purpose of reimbursing the taxing districts for their loss of revenue from personal property taxes due to the provisions of this chapter, determined as provided in this section.

2 On or before January 15, 1974, the county auditor of each county shall prepare a statement listing for each taxing district in the county:

a The total assessed value of all personal property assessed for taxation as of January 1, 1973, excluding livestock but including other personal property eligible for tax credits granted by this chapter.

b The millage rate of each taxing district levied in 1972 and payable in 1973.

c The personal property tax replacement base for each taxing district, which shall be equal to the amount determined pursuant to paragraph "a" of this subsection multiplied by the millage rate specified in paragraph "b."

3 The county auditor shall certify and forward one copy each of the statement to the state comptroller and to the director of revenue not later than January 15, 1974. The director of revenue shall make any necessary corrections and certify to the state comptroller the amount of the personal property tax replacement base for each taxing district in the state, determined pursuant to subsection 2.

4 The personal property tax replacement base for each taxing district shall be permanent and shall not be adjusted, except that the state comptroller shall make any necessary corrections and shall make appropriate adjustments to reflect mergers, annexations and other changes in taxing districts or their boundaries.

5 For each state fiscal year ending with or before the year in which the ninth increase in the additional personal property tax credit under this division becomes effective, each taxing district shall be reimbursed from the personal property tax replacement fund in an amount equal to its personal property tax replacement base multiplied by a fraction the numerator of which is the total assessed value of all personal property, excluding livestock, in the taxing district on which taxes are not payable during such fiscal year because of the various tax credits granted by this chapter, and the denominator of which is the total assessed value of all personal property in the taxing district, excluding livestock but including other personal property eligible for tax credits granted by this chapter. For the half year beginning January 1, 1974, and ending

June 30, 1974, the amount of reimbursement shall be half the amount determined pursuant to this subsection. The county auditor shall certify and forward to the director of management and the director of revenue and finance, at the times and in the form directed by the director of revenue and finance, any information needed for the purposes of this subsection. The director of revenue and finance shall make any necessary corrections and certify the appropriate information to the director of management.

6 For each state fiscal year beginning on or after July 1, 1987, each taxing district shall be reimbursed from the personal property tax replacement fund in an amount equal to its personal property tax replacement base.

7 The amount due each taxing district shall be paid in the form of warrants payable to the respective county treasurers by the director of revenue and finance on May 15 of each fiscal year, taking into consideration the relative budget and cash position of the state resources. For the fiscal year beginning July 1, 1984 and ending June 30, 1985, one-half of the amount due each taxing district shall be paid to the respective county treasurers by the state comptroller on May 15, 1985. For the fiscal year beginning July 1, 1985 and ending June 30, 1986, and for each succeeding fiscal year the amount due each taxing district shall be paid in the form of warrants payable to the respective county treasurers by the director of revenue and finance on July 15 and May 15 of that fiscal year, taking into consideration the relative budget and cash position of the state resources. The July 15 payment shall be equal to the amount paid on May 15 of the preceding fiscal year and the payments received shall be an account receivable for each taxing district for the preceding fiscal year. The May 15 payment is equal to one-half of the amount of the additional personal property tax credit payable for the fiscal year. The county treasurer shall pay the proceeds to the various taxing districts in the county.

8 It is the intent of the general assembly that the amounts appropriated by this division shall be sufficient to pay in full the amounts due to all taxing districts. If, for any fiscal year the amount appropriated to the personal property tax replacement fund is insufficient to pay in full the amounts due to all taxing districts, then the amount of each payment shall be reduced by the same percentage, so that the aggregate payments to all taxing districts shall be equal to the amount appropriated for such payments.

For the fiscal year beginning July 1, 1973, and ending June 30, 1974, there is appropriated the sum of thirty one million nine hundred thousand dollars. For the fiscal year beginning July 1, 1974, and ending June 30, 1975, and each succeeding fiscal year, there is appropriated the sum of thirty-five million seven hundred thousand dollars. 428.4 Personal property — real estate — buildings.

Property shall be assessed for taxation each year. Personal property shall be listed and assessed in 1980 and every two years thereafter in the name of the owner of the personal property on the first day of January and the assessment made shall be the value of the personal property as of January 1 of the year of the assessment. Real estate shall be listed and assessed in 1981 and every two years thereafter. The assessment of real estate shall be the value of the real estate as of January 1 of the year of the assessment. The year 1981 and each odd-numbered year thereafter shall be a reassessment year. In any year, after the year in which an assessment has been made of all the real estate or personal property in any assessing jurisdiction, it shall be the duty of the assessor to value and assess or revalue and reassess, as the case may require, any real estate and personal property that the assessor finds was incorrectly valued or assessed, or was not listed, valued and assessed, in the assessment year immediately preceding, also any real estate or personal property the assessor finds has changed in value subsequent to January 1 of the preceding real estate or personal property assessment year. However, a percentage increase on a class of property shall not be made in a year not subject to an equalization order unless ordered by the department of revenue and finance. The assessor shall determine the actual value and compute the taxable value thereof as of January 1 of the year of the revaluation and reassessment. This notification shall be contained in a report to be attached to the abstract of assessment for the year in which the new valuations become effective.

Any buildings erected, improvements made, or buildings removed in a year after the assessment of the class of real estate to which they belong shall be valued, listed and assessed and reported by the assessor to the county auditor after approval of the valuations by the local board of review, and said auditor shall thereupon enter the taxable value of such building or taxable improvement on the tax list as a part of real estate to be taxed. If such buildings are erected by any person other than the owner of the land, they shall be listed and assessed to the owner of the buildings or improvements as real estate.

An assessor is not required to contact a taxpayer in any year for the purpose of listing personal property but each taxpayer shall file a revised listing of personal property with the assessor itemizing any additions or deletions to the listing if the valuation of the taxpayer's personal property will affect the taxpayer's exemption. 428A.1 Amount of tax on transfers.

There is imposed on each deed, instrument, or writing by which any lands, tenements, or other realty in this state shall be granted, assigned, transferred, or otherwise conveyed, a tax determined in the following manner: When there is no consideration or when the deed instrument or writing is executed and tendered for recording as an instrument corrective of title, and so states, there shall be no tax. When there is consideration and the actual market value of the real property transferred is in excess of five hundred dollars, the tax shall be fifty-five cents for each five hundred dollars or fractional part of five hundred dollars in excess of five hundred dollars. The term "consideration" as used in this chapter, means the full amount of the actual sale price of the real property involved, paid or to be paid, including the amount of an incumbrance or lien on the property, whether assumed or not by the grantee. It shall be presumed that the sale price so stated shall include the value of all personal property transferred as part of the sale unless the dollar value of said personal property is stated on the instrument of conveyance. When the dollar value of the personal property included in the sale is so stated, it shall be deducted from the consideration shown on the instrument for the purpose of determining the tax.

At the time each deed, instrument, or writing by which any real property in this state is granted, assigned, transferred, or otherwise conveyed is presented for recording to the county recorder, a declaration of value signed by at least one of the sellers or one of the buyers or their agents shall be submitted to the county recorder. A declaration of value is not required for those instruments described in section 428A.2, subsections 2 to 13 and 16 to 18, or if a transfer is the result of acquisition of lands, whether by contract or condemnation, for public purposes through an exercise of the power of eminent domain. The declaration of value shall state the full consideration paid for the real property transferred. If agricultural land, as defined in section 172C.1, is purchased by a corporation, limited partnership, trust, alien or nonresident alien, the declaration of value shall include the name and address of the buyer, the name and address of the seller, a legal description of the agricultural land, and identify the buyer as a corporation, limited partnership, trust, alien, or nonresident alien. The county recorder shall not record the declaration of value, but shall enter on the declaration of value information the director of revenue and finance requires for the production of the sales/assessment ratio study and transmit all declarations of value to the city or county assessor in whose jurisdiction the property is located. The city or county assessor shall enter on the declaration of value the information the director of revenue and finance requires for the production of the sales/assessment ratio study and transmit one copy of each declaration of

value to the director of revenue and finance, at times as directed by the director of revenue and finance. The assessor shall retain one copy of each declaration of value for three years from December 31 of the year in which the transfer of realty for which the declaration was filed took place. The director of revenue and finance shall, upon receipt of the information required to be filed under this chapter by the city or county assessor, send to the office of the secretary of state that part of the declaration of value which identifies a corporation, limited partnership, trust, alien, or non-resident alien as a purchaser of agricultural land as defined in section 172C.1.

The validity of an instrument as between the parties, and as to any person who would otherwise be bound by the instrument, is not affected by the failure to comply with this section. If an instrument is accepted for recording or filing contrary to this section the failure to comply does not destroy or impair the record as notice.

The county recorder shall refuse to record any deed,

436.7 Actual value — how ascertained.

The director of revenue and finance shall first ascertain the actual value of the entire property owned by said company, from said statements or otherwise, for that purpose taking the aggregate market value of all shares of capital stock, in case said shares have a market value, and, in case they have none, taking the actual value thereof or of the capital of said company, in whatever manner the same is divided, in case no shares of capital stock have been issued; provided, however, that in case the whole or any portion of the property of said company shall be encumbered by a mortgage or mortgages, the director shall ascertain the actual value of such property by adding to the market value or the aggregate shares of stock or to the value of the capital, in case there shall be no such shares, the aggregate amount of the market or cash value of such mortgage or mortgages, and the result shall be deemed and treated as the actual value of the property of such company. The director shall, for the purpose of ascertaining the actual value of the property within the state, next ascertain from such statements or otherwise the actual value of the property, both real and personal, owned by the company; and which is used exclusively outside the general business of the company, and also the actual value of that part of its property, if any, without the state which cannot lawfully be considered in determining the mileage value of its route; and the aggregate of such values shall be deducted from the entire actual value of the property as above ascertained. The director shall next ascertain and deduct the actual value of the sea or ocean routes of any such company, and in ascertaining the same may take into consideration the earnings, both gross and net per mile, of such sea or ocean routes, as compared with the earnings, gross and net, of the land routes of such company, or may ascertain their value in any other practicable manner, and may require that the reports heretofore provided for shall show such earnings. Thereupon the director shall ascertain the actual value of the property of such company within the state, and for that purpose may take into consideration the proportional value of the company's property without and within the state, and shall take as a basis of valuation of the company's property in this state the proportion of the whole aggregate value of the property of said company, as above ascertained, after making the deductions above provided for which the length of the routes within the state bears to the whole length of the routes of such company other than sea or ocean routes, and such amount so ascertained shall be considered and taken to be the entire actual value of the property of such company within the state. From the entire actual value of the property within the state so ascertained, there shall be deducted by the director the actual value of all the real estate, buildings, machinery, appliances, and personal property not used exclusively in the conduct of the business within the state that are subject to local taxation within the counties, townships, and other assessment districts as hereinbefore described in section 436.3, subsection 6.

[S13, §1346-d; C24, 27, 31, 35, 39, §7083; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.7]

436.8 Actual value per mile — taxable value.

The director of revenue and finance shall thereupon

ascertain the value per mile of the property within the state, by dividing the total value as above ascertained, after deducting the specific properties locally assessed within the state, by the number of miles within the state, and the result shall be deemed and held to be the actual value per mile of the property of such company within the state. The assessed or taxable value shall be determined by taking that percentage of the actual value so ascertained, as is provided by section 441.21, and such valuation and assessment shall be in the same ratio as that of the property of individuals.

[S13, §1346-e; C24, 27, 31, 35, 39, §7084; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.8]

See §441.21

436.9 Assessment in each county — how certified.

The director of revenue and finance shall thereupon, for the purpose of determining what amount shall be assessed to said company in each county of the state through, across, into, or over which the route of said company extends, multiply the value per mile, as above ascertained, by the number of miles in each of said counties, as reported in said statements, or as otherwise ascertained, and the result thereof, with the mileage and the rate of assessment per mile, shall be by the director certified to the auditors respectively of the several counties through, into, over, and across which the routes of said company extend.

[S13, §1346-f; C24, 27, 31, 35, 39, §7085; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.9]

436.10 Entry of certificate.

At the first meeting of the board of supervisors held after such certificate is received by the county auditor, it shall cause the same to be entered in its minute book, and make and enter therein an order stating the length of the routes and the assessed value of each in each city, township, or other taxing district in its county, through or into which said routes extend, which shall constitute the taxable value of said property for taxing purposes, and the taxes on said property, when collected by the county treasurer, shall be disposed of as other taxes.

[S13, §1346-g; C24, 27, 31, 35, 39, §7086; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.10]

436.11 Levy of tax — rates.

The county auditor shall immediately thereafter transmit a copy of said order to the councils of cities, and to the trustees of each township in the county, and shall also add to the value so apportioned the assessed value of the real estate, buildings, machinery, fixtures, appliances, and personal property not used exclusively in the conduct of the business situated in any township or taxing district as returned by the assessor thereof, and extend the taxes thereon upon the tax list as in other cases. All such property shall be taxable upon said assessment at the same rates, by the same officers, and for the same purposes as the property of individuals within such counties, townships, or taxing districts. The property so included in said assessment shall not be otherwise taxed.

[S13, §1346-g; C24, 27, 31, 35, 39, §7087; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.11]

436.12 Action to collect.

In case any such company shall fail or refuse to pay any taxes assessed against it in any county, township, or assessment district in the state, in addition to other remedies provided by law for the collection of taxes, an action may be prosecuted in the name of the state by the county attorneys of the different counties of the state, on the relation of the auditors of the different counties of the state, and judgment in such action shall include a penalty of fifty percent of the amount of the

taxes so assessed and unpaid, together with reasonable attorney's fees for the prosecution of such action, which action may be prosecuted in any county into, through, over, or across which the routes of any such company shall extend, or in any county where such company shall have an officer or agent for the transaction of business.

director of revenue and finance as being eligible to remain in the position. If a deputy assessor fails to comply with this section, the deputy assessor shall be removed from the position. If a deputy is appointed to the office of assessor, the hours of credit obtained as deputy pursuant to this section shall be credited to that individual as assessor and for the individual to be reappointed at the expiration of the term as assessor, that individual must obtain the credits which are necessary to total the number of hours for reappointment.

The conference board shall also allow the assessor and any deputy assessor sufficient time off from their regular duties to obtain certification. The director of revenue and finance shall adopt rules pursuant to chapter 17A to implement and administer this section.

If the incumbent assessor is not reappointed as above provided, then not less than sixty days before the expiration of the term of said assessor, a new assessor shall be selected as provided in section 441.6.

6. Make up all assessor's books and records as prescribed by the director of revenue and finance, turn the completed assessor's books and records required for the preparation of the tax list over to the county auditor each year when the board of review has concluded its hearings and the county auditor shall proceed with the preparation of the current year tax list and the assessor shall co-operate with the auditor in the preparation of the tax lists.

7. Submit on or before May 1 of each year completed assessment rolls to the board of review.

8. Lay before the board of review such information as the assessor may possess which will aid said board in performing its duties in adjusting the assessments to the valuations required by law.

9. Furnish to the director of revenue and finance any information which the assessor may have relative to the ownership of any property that may be assessable within this state, but not assessable or subject to being listed for taxation by the assessor.

Check all mobile homes and travel trailers for inaccuracy of measurements as necessary or upon written request of the county treasurer and check travel trailers for violations of registration and report the findings immediately to the county treasurer. If a mobile home has been converted to real estate the title shall be collected and returned to the county treasurer for cancellation. 2 Upon receipt of such supplemental return from any person the assessor shall prepare a roll assessing such person as hereinafter provided In the preparation of such assessment roll the assessor shall be guided not only by the information contained in such supplemental roll, but by any other information the assessor may have or which may be obtained by the assessor as prescribed by the law relating to the assessment of property The assessor shall not be bound by any values as listed in such supplemental return, and may include in the assessment roll any property omitted from the supplemental return which in the knowledge and belief of the assessor should be listed as required by law by the person making the supplemental return Upon completion of such roll the assessor shall deliver to the person submitting such supplemental return a copy of the assessment roll, either personally or by mail

4 The supplemental returns herein provided for shall be preserved in the same manner as assessment

rolls, but shall be confidential to the assessor, board of review, or director of revenue and finance, and shall not be open to public inspection, but any final assessment roll as made out by the assessor shall be a public record, provided that such supplemental return shall be available to counsel of either the person making the return or of the public, in case any appeal is taken to the board of review or to the court

441.21 Actual, assessed and taxable value.

1 a All real and tangible personal property subject to taxation shall be valued at its actual value which

shall be entered opposite each item, and, except as otherwise provided in this section, shall be assessed at one hundred percent of its actual value, and the value so assessed shall be taken and considered as the assessed value and taxable value of the property upon which the levy shall be made

b The actual value of all property subject to assessment and taxation shall be the fair and reasonable market value of such property except as otherwise provided in this section "Market value" is defined as the fair and reasonable exchange in the year in which the property is listed and valued between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and each being familiar with all the facts relating to the particular property Sale prices of the property or comparable property in normal transactions reflecting market value, and the probable availability or unavailability of persons interested in purchasing the property, shall be taken into consideration in arriving at its market value In arriving at market value, sale prices of property in abnormal transactions not reflecting market value shall not be taken into account, or shall be adjusted to eliminate the effect of factors which distort market value, including but not limited to sales to immediate family of the seller, foreclosure or other forced sales, contract sales, discounted purchase transactions or purchase of adjoining land or other land to be operated as a unit

c In assessing and determining the actual value of special purpose industrial real and tangible personal property having an actual value of five million dollars or more, the assessor shall equalize the values of such property with the actual values of other comparable special purpose industrial property in other counties of the state Such special purpose industrial property includes, but is not limited to chemical plants If a variation of ten percent or more exists between the actual values of comparable industrial property having an actual value of five million dollars or more located in separate counties, the assessors of such counties shall consult with each other and with the department of revenue and finance to determine if adequate reasons exist for such variation If no such reasons exist, the assessors shall make adjustments in such actual values to provide for a variation of ten percent or less For the purposes of this paragraph, special purpose industrial property includes structures which are designed and erected for operation of a unique and special use, are not rentable in existing condition and are incapable of conversion to ordinary commercial or industrial use except at a substantial cost

d Actual value of property in one assessing jurisdiction shall be equalized as compared with actual value of property in an adjoining assessing jurisdiction If a variation of five percent or more exists between the actual values of similar, closely adjacent property in adjoining assessing jurisdictions in Iowa, the assessors thereof shall determine whether adequate reasons exist for such variation If no such reasons exist, the assessors shall make adjustments in such actual values to reduce the variation to five percent or less

e The actual value of agricultural property shall be determined on the basis of productivity and net earning capacity of the property determined on the basis of its use for agricultural purposes capitalized at a rate

of seven percent and applied uniformly among counties and among classes of property Any formula or method employed to determine productivity and net earning capacity of property shall be adopted in full by rule

f In counties or townships in which field work on a modern soil survey has been completed since January 1, 1949, the assessor and the department of revenue and finance shall place emphasis upon the results of such survey in determining the productive and earning capacity of such agricultural property

g Notwithstanding any other provision of this section, the actual value of any property shall not exceed its fair and reasonable market value, except agricultural property which shall be valued exclusively as provided in paragraph "e" of this subsection

2 The market value of an inventory or goods in bulk shall be their market value as such inventory or goods in bulk, not their retail or unit price Such market value shall be fair and reasonable based on market value of similar classes of property

In the event market value of the property being assessed cannot be readily established in the foregoing manner, then the assessor may determine the value of the property using the other uniform and recognized appraisal methods including its productive and earning capacity, if any, industrial conditions, its cost, physical and functional depreciation and obsolescence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor The following shall not be taken into consideration Special value or use value of the property to its present owner, and the good will or value of a business which uses the property as distinguished from the value of the property as property Upon adoption of uniform rules by the revenue department or succeeding authority covering assessments and valuations of such properties, said valuation on such properties shall be determined in accordance therewith for assessment purposes to assure uniformity, but such rules shall not be inconsistent with or change the foregoing means of determining the actual, market, taxable and assessed values

3 "Actual value", "taxable value", or "assessed value" as used in other sections of the Code in relation to assessment of property for taxation shall mean the valuations as determined by this section, however, other provisions of the Code providing special methods or formulas for assessing or valuing specified property shall remain in effect, but this section shall be applicable to the extent consistent with such provisions The assessor and department of revenue and finance shall disclose at the written request of the taxpayer all information in any formula or method used to determine the actual value of the taxpayer's property

The burden of proof shall be upon any complainant attacking such valuation as excessive, inadequate, inequitable or capricious, however, in protest or appeal proceedings when the complainant offers competent evidence by at least two disinterested witnesses that the market value of the property is less than the market value determined by the assessor, the burden of proof thereafter shall be upon the officials or persons seeking to uphold such valuation to be assessed

4. For valuations established as of January 1, 1978, agricultural and residential property shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1978, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total equalized value of such property in the state in 1975, adjusted for additions or deletions to said value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment submitted in 1976 and 1977, plus six percent of the 1975 equalized value of such property or the amount of value added by the revaluation of existing properties in 1976, 1977 and 1978 whichever is less. The divisor shall be the total value of such property in the state as reported by the assessors on the abstracts of assessment submitted in 1977, plus the amount of value added in 1978 by the revaluation of existing properties.

5. For valuations established as of January 1, 1979, the percentage of actual value at which agricultural and residential property shall be assessed shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus six percent of the amount so determined. However, if the difference between the dividend so determined for either class of property and the dividend for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is less than six percent, the 1979 dividend for the other class of property shall be the dividend as determined for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus a percentage of the amount so determined which is equal to the percentage by which the dividend as determined for the other class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is increased in arriving at the 1979 dividend for the other class of property. The divisor for each class of property shall be the total actual value of all such property in the state in the preceding year, as reported

by the assessors on the abstracts of assessment submitted for 1978, plus the amount of value added to said total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. The director shall utilize information reported on abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, and each year thereafter, the percentage of actual value as equalized by the director of revenue and finance as provided in section 441.49 at which agricultural and residential property shall be assessed shall be calculated in accordance with the methods provided herein including the limitation of increases in agricultural and residential assessed values to the percentage increase of the other class of property if the other class increases less than the allowable limit adjusted to include the applicable and current values as equalized by the director of revenue and finance, except that any references to six percent in this subsection shall be four percent.

6. For valuations established as of January 1, 1979, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed as a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the total actual valuation for each class of property established for 1978, plus six percent of the amount so determined. The divisor for each class of property shall be the valuation for each class of property established for 1978, as reported by the assessors on the abstracts of assessment for 1978, plus the amount of value added to the total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. For valuations established as of January 1, 1979, property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be considered as one class of property and shall be assessed as a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1978 by the department of revenue, plus ten percent of the amount so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be the valuation established for 1978, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1979. For valuations established as of January 1, 1980, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations es-

established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1979, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1979, plus four percent of the amount so determined. The divisor for each class of property shall be the total actual value of all such property in 1979, as equalized by the director of revenue pursuant to section 441.49, plus the amount of value added to the total actual value by the revaluation of existing properties in 1980. The director shall utilize information reported on the abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be assessed at a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1979 by the department of revenue, plus eight percent of the amount so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be the valuation established for 1979, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1980. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value as equalized by the director of revenue and finance as provided in section 441.49 at which commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to six percent in this subsection shall be four percent. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value at which property valued by the department of revenue and finance pursuant to chapters 428, 433, 436, 437, and 438 shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to ten percent in this subsection shall be eight percent. Beginning with valuations established as of January 1, 1979, and each year thereafter, property valued by the department of revenue and finance pursuant to chapter 434 shall also be assessed at a percentage of its actual value which percentage shall be equal to the percentage determined by the director of revenue and finance for commercial property, industrial property, or property valued by the department of revenue and finance pursuant to chapters 428, 433, 436, 437, and 438, whichever is lowest.

7. Beginning with valuations established as of January 1, 1978, the assessors shall report the aggregate taxable values and the number of dwellings located on

agricultural land and the aggregate taxable value of all other structures on agricultural land. Beginning with valuations established as of January 1, 1981, the agricultural dwellings located on agricultural land shall be valued at their market value as defined in this section and agricultural dwellings shall be valued as rural residential property and shall be assessed at the same percentage of actual value as is all other residential property.

8. For the purpose of computing the debt limitations for municipalities, political subdivisions and school districts, the term "actual value" means the "actual value" as determined by subsections 1 to 3 of this section without application of any percentage reduction and entered opposite each item, and as listed on the tax list as provided in section 443.2 as "actual value".

Whenever any board of review or other tribunal changes the assessed value of property, all applicable records of assessment shall be adjusted to reflect such change in both assessed value and actual value of such property.

9. *a.* Any normal and necessary repairs to a building, not amounting to structural replacements or modification, shall not increase the taxable value of the building. This paragraph applies only to repairs of two thousand five hundred dollars or less per building per year.

b. Notwithstanding paragraph "a" of this subsection, any construction or installation of gas production systems using waste or manure to produce gas completed on property classified as agricultural, residential, commercial, or industrial property shall not increase the actual, assessed and taxable values of the property for assessment years beginning on January 1, 1979 and ending on or before December 31, 1985. In addition, notwithstanding paragraph "a" of this subsection, any construction or installation of a solar energy system on property so classified shall not increase the actual, assessed and taxable values of the property for five full assessment years.

c. As used in this subsection "solar energy system" means either of the following:

(1) A system of equipment capable of collecting and converting incident solar radiation or wind energy into thermal, mechanical or electrical energy and transforming these forms of energy by a separate apparatus to storage or to a point of use which is constructed or installed after January 1, 1978.

(2) A system that uses the basic design of the building to maximize solar heat gain during the cold season and to minimize solar heat gain in the hot season and that uses natural means to collect, store and distribute solar energy which is constructed or installed after January 1, 1981.

In assessing and valuing the property for tax purposes, the assessor shall disregard any market value added by a solar energy system to a building. The director of revenue and finance shall adopt rules, after consultation with the department of natural resources, specifying the types of equipment and structural components to be included under the guidelines provided in this subsection.

10. Not later than November 1, 1979 and November 1 of each subsequent year, the director shall certify to the county auditor of each county the percentages

of actual value at which residential property, agricultural property, commercial property, industrial property, and property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 in each assessing jurisdiction in the county shall be assessed for taxation. The county auditor shall proceed to determine the assessed values of agricultural property, residential property, commercial property, industrial property, and property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 by applying such percentages to the current actual value of such property, as reported to the county auditor by the assessor, and the assessed values so determined shall be the taxable values of such properties upon which the levy shall be made.

11. The percentage of actual value computed by the director for agricultural property, residential property, commercial property, industrial property and property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 and used to determine assessed values of those classes of property does not constitute a rule as defined in section 17A.2, subsection 7.

to list and assess such property according to the best information obtainable, and shall add to the taxable valuation one hundred percent thereof, which valuation and penalty shall be separately shown, and shall constitute the assessment; and if the valuation of such property shall be changed by any board of review, or on appeal therefrom, a like penalty shall be added to the valuation thus fixed.

441.26 Assessment rolls and books.

The director of revenue and finance shall each year prescribe the form of assessment roll to be used by all assessors in assessing real and personal property, including moneys and credits, in this state, also the form of pages of the assessor's assessment book. Such assessment rolls shall be in such form as will permit entering thereon, separately, the names of all persons, partnerships, corporations, or associations assessed; shall contain a form of oath or affirmation to be administered to each person assessed, and shall also contain a notice in substantially the following form:

"If you are not satisfied that the foregoing assessment is correct, you may file a protest against such assessment with the board of review on or after April 16, to and including May 5, of the year of the assessment, such protest to be confined to the grounds specified in section 441.37. Dated day of 19....., County/City Assessor."

The notice in 1981 and each odd-numbered year thereafter shall contain a statement that the assessments are subject to equalization pursuant to an order issued by the director of revenue and finance, that the county auditor shall give notice on or before October 15 by publication in an official newspaper of general circulation to any class of property affected by the equalization order, and that the board of review shall be in session from October 15 to November 15 to hear protests of affected property owners or taxpayers whose valuations have been adjusted by the equalization order.

The assessment rolls shall be used in listing the property and showing the values affixed to the property of all persons, partnerships, corporations, or associations assessed. The rolls shall be made in duplicate. The duplicate roll shall be signed by the assessor, detached from the original and delivered to the person assessed if there has been an increase or decrease in

the valuation of the property. If there has been no change in the evaluation, the information on the roll may be printed on computer stock paper and preserved as required by this chapter. If the person assessed requests in writing a copy of the roll, the copy shall be provided to the person. It is lawful to combine the affidavit or form of oath or affirmation as to real and personal property, and the affidavit or form of oath or affirmation as to moneys and credits, into one affidavit or form of oath or affirmation, and only the one such affidavit or form of oath or affirmation is sufficient on the assessment roll. The pages of the assessor's assessment book shall contain columns ruled and headed for the information required by this chapter and that which the director of revenue and finance deems essential in the equalization work of the director. The assessor shall return all assessment rolls and schedules to the county auditor, along with the completed assessment book, as provided in this chapter, and the county auditor shall carefully keep and preserve the rolls, schedules and book for a period of five years from the time of its filing in the county auditor's office.

Beginning with valuations for January 1, 1977 and each succeeding year, for each parcel of property entered in the assessment book, the assessor shall list the classification of the property.

Any property owner or aggrieved taxpayer who is dissatisfied with the owner's or taxpayer's assessment may file a protest against such assessment with the board of review on or after April 16, to and including May 5, of the year of the assessment. In any county which has been declared to be a disaster area by proper federal authorities after March 1 and prior to May 20 of said year of assessment, the board of review shall be authorized to remain in session until June 15 and the time for filing a protest shall be extended to and include the period from May 25 to June 5 of such year. Said protest shall be in writing and signed by the one protesting or by the protester's duly authorized agent. The taxpayer may have an oral hearing thereon if request therefor in writing is made at the time of filing the protest. Said protest must be confined to one or more of the following grounds:

a. That said assessment is not equitable as compared with assessments of other like property in the taxing district. When this ground is relied upon as the basis of a protest the legal description and assessments of a representative number of comparable properties, as described by the aggrieved taxpayer shall be listed on the protest, otherwise said protest shall not be considered on this ground.

b. That the property is assessed for more than the value authorized by law, stating the specific amount which the protesting party believes the property to be overassessed, and the amount which the party considers to be its actual value and the amount the party considers a fair assessment.

c. That the property is not assessable and stating the reasons therefor.

d. That there is an error in the assessment and state the specific alleged error.

e. That there is fraud in the assessment which shall be specifically stated.

In addition to the above, the property owner may protest annually to the board of review under the provisions of section 441.35, but such protest shall be in the same manner and upon the same terms as heretofore prescribed in this section.

2. A property owner or aggrieved taxpayer who finds that a clerical or mathematical error has been made in the assessment of the owner's or taxpayer's property may file a protest against that assessment in the same manner as provided in this section, except that the protest may be filed for previous years. The board may correct clerical or mathematical errors for any assessment year in which the taxes have not been fully paid or otherwise legally discharged.

Upon the determination of the board that a clerical or mathematical error has been made the board shall take appropriate action to correct the error and notify the county auditor of the change in the assessment as a result of the error and the county auditor shall make the correction in the assessment and the tax list in the same manner as provided in section 443.6.

The board shall not correct an error resulting from a property owner's or taxpayer's inaccuracy in reporting or failure to comply with section 441.19.

3. After the board of review has considered any protest filed by a property owner or aggrieved taxpayer and made final disposition of the protest, the board shall give written notice to the property owner or ag-

grieved taxpayer who filed the protest of the action taken by the board of review on the protest. The written notice to the property owner or aggrieved taxpayer shall also specify the reasons for the action taken by the board of review on the protest.

No new grounds in addition to those set out in the protest to the board of review as provided in section 441.37 can be pleaded, but additional evidence to sustain said grounds may be introduced. The assessor shall have the same right to appeal and in the same manner as an individual taxpayer, public body or other public officer as provided in section 441.42. The county assessor of each county and each city assessor shall, on or before July 1 of each year, make out and transmit to the department of revenue and finance an abstract of the real and personal property in the assessor's county or city, as the case may be, and file a copy thereof with the county auditor, in which the assessor shall set forth:

441.46 Assessment year.

The assessment date of January 1 is the first date of an assessment year period which constitutes a calendar year commencing January 1 and ending December 31. All property tax statutes providing for tax exemptions or credits and requiring that a claim be filed, shall be construed to require the claims to be filed by July 1 of the assessment year. If no claim is required to be filed to procure an exemption or credit, the status of the property as exempt or taxable on July 1 of the fiscal year which commences during the assessment year determines its eligibility for exemption or credit. Any statute requiring proration of property taxes for any purpose shall be for the fiscal year, and the proration shall be based on the status of the property during the fiscal year.

The assessment date for property taxes for the fiscal period beginning January 1, 1973 and ending June 30, 1974 and which became delinquent during the fiscal period beginning January 1, 1974 and ending June 30, 1975, was January 1, 1973. The assessment date for property taxes for the fiscal year beginning July 1, 1974 and ending June 30, 1975 and which became delinquent during the fiscal year beginning July 1, 1975 and ending June 30, 1976, was January 1, 1974. Thereafter, the assessment date is January 1 for taxes for the fiscal year which commences six months after the assessment date and which become delinquent during the fiscal year commencing eighteen months after the assessment date.

441.47 Adjusted valuations.

The director of revenue and finance on or about August 15, 1977 and every two years thereafter shall order the equalization of the levels of assessment of each class of property in the several assessing jurisdictions by adding to or deducting from the valuation of each class of property such percentage in each case as may be necessary to bring the same to its taxable value as fixed in this chapter and chapters 427 to 443. The director shall adjust to actual value the valuation of any class of property as set out in the abstract of assessment when the valuation is at least five percent above or below actual value as determined by the director. For purposes of such value adjustments and before such equalization the director shall adopt, in the manner prescribed by chapter 17A, such rules as may be necessary to determine the level of assessment for each class of property in each county. The rules shall cover: (1) The proposed use of the assessment-sales ratio study set out in section 421.17, subsection 6; (2) the proposed use of any statewide income capitalization studies; (3) the proposed use of other methods that would assist the director in arriving at the accurate level of assessment of each class of property in each assessing jurisdiction.

441.48 Notice of adjustment.

Before the director of revenue and finance shall adjust the valuation of any class of property any such percentage, the director shall serve ten days' notice by mail, on the county auditor of the county whose valuation is proposed to be adjusted and the director shall hold an adjourned meeting after such ten days' notice, at which time the county or assessing jurisdiction may appear by its city council or board of supervisors, city or county attorney, and other assessing jurisdiction, city or county officials, and make written or oral protest against such proposed adjustment, which protest shall consist simply of a statement of the error, or errors, complained of with such facts as may lead to their correction, and at such adjourned meeting final action may be taken in reference thereto.

[C24, 27, 31, 35, 39, §7142; C46, 50, 54, 58, §405.23, 442.17; C62, 66, 71, 73, 75, 77, 79, 81, §441.48]

441.49 Adjustment by auditor.

The director shall keep a record of the review and adjustment proceedings and finish the proceedings on or before October 1 unless for good cause the proceedings cannot be completed by that date. The director shall notify each county auditor by mail of the final action taken at the proceedings and specify any adjustments in the valuations of any class of property to be made effective for the jurisdiction.

However, an assessing jurisdiction may request the director to permit the use of an alternative method of applying the equalization order to the property values in the assessing jurisdiction, provided that the final valuation shall be equivalent to the director's equalization order. The assessing jurisdiction shall notify the county auditor of the request for the use of an alternative method of applying the equalization order and the director's disposition of the request. The request to

use an alternative method of applying the equalization order, including procedures for notifying affected property owners and appealing valuation adjustments, shall be made within ten days from the date the county auditor receives the equalization order and the valuation adjustments, and appeal procedures shall be completed by November 30 of the year of the equalization order. Compliance with the provisions of section 441.21 is sufficient grounds for the director to permit the use of an alternative method of applying the equalization order.

On or before October 15 the county auditor shall cause to be published in official newspapers of general circulation the final equalization order. Failure to publish the equalization order has no effect upon the validity of the orders.

The county auditor shall add to or deduct from the valuation of each class of property in the county the required percentage, rejecting all fractions of fifty cents or less in the result, and counting all fractions over fifty cents as one dollar. For any special charter city that levies and collects its own tax based on current year assessed values, the equalization percentage shall be applied to the following year's values, and shall be considered the equalized values for that year for purposes of this chapter.

The local board of review shall reconvene in special session from October 15 to November 15 for the purpose of hearing the protests of affected property owners or taxpayers within the jurisdiction of the board whose valuation of property if adjusted pursuant to the equalization order issued by the director of revenue and finance will result in a greater value than permitted under section 441.21. The board of review shall accept protests only during the first ten days following the date the local board of review reconvenes. The board of review shall limit its review to only the timely filed protests. The board of review may adjust all or a part of the percentage increase ordered by the director of revenue and finance by adjusting the actual value of the property under protest to one hundred percent of actual value. Any adjustment so determined by the board of review shall not exceed the percentage increase provided for in the director's equalization order. The determination of the board of review on filed protests is final, subject to review by the director of revenue and finance for the purpose of determining whether the board's actions substantially altered the equalization order. In making the review, the director has all the powers provided in chapter 421, and in exercising the powers the director is not subject to chapter 17A. Not later than fifteen days following the adjournment of the board, the board of review shall submit to the director of revenue and finance, on forms prescribed by the director, a report of all actions taken by the board of review during this session.

Not later than ten days after the date the final equalization order is issued, the city or county officials of the affected county or assessing jurisdiction may appeal the final equalization order to the state board of tax review. The appeal shall not delay the implementation of the equalization orders.

Tentative and final equalization orders issued by the director of revenue and finance are not rules as defined in section 17A.2, subsection 7.

442.1 State school foundation program.

This chapter establishes a state school foundation program For each school year, each school district in the state is entitled to receive state school foundation aid, which shall be an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the state foundation base or the district cost per pupil, whichever is less However, if the amount so determined for any district is less than two hundred dollars per pupil, the district is entitled to receive not less than two hundred dollars per pupil However, if the receipt of two hundred dollars by a school district plus the money raised by the foundation property tax exceeds the maximum allowed district cost for the budget year, the district shall be entitled to receive in state foundation aid an amount equal to the difference between the money raised by the foundation property tax for the budget year and the district cost for the budget year In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services

and educational services provided through the area education agencies, the department of management shall round amounts to the nearest whole dollar [C73, 75, 77, 79, 81, §442 1]

442.2 Foundation property tax — livestock credit.

1 Each school district shall cause to be levied each year, for the school general fund, a foundation property tax of five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district For the purpose of this chapter, a school district is defined as a school corporation organized under chapter 274

However, commencing with the budget year beginning July 1, 1987, a reorganized school district shall cause a foundation property tax of four dollars and forty cents per thousand dollars of assessed valuation to be levied on all taxable property which, in the year preceding the reorganization, was within a school district affected by the reorganization as defined in section 275 1 and which had a certified enrollment of less than six hundred In succeeding school years, the four

dation property tax levy on that portion shall be increased twenty cents per year until it reaches the rate of five dollars and forty cents per thousand dollars of assessed valuation.

For purposes of this section, a reorganized school district is one in which reorganization was approved in an election pursuant to sections 275.18 and 275.20 and will take effect on or after July 1, 1986.

2. The amount paid to each school district for the tax credit for livestock under section 427.17 shall be regarded as property tax. The portion of the payment which is foundation property tax shall be determined by applying the foundation property tax rate to the taxable value of livestock assessed for taxation in the district as of January 1, 1973, determined pursuant to section 427.17, and adjusted to actual value as provided in Acts of the Sixty-fifth General Assembly, chapter 1231, section 174. A school district is hereby authorized to levy a tax on all of the taxable property within the district in an amount equal to the difference between the amount due to a school district from the personal property tax replacement fund for the preceding year and the amount actually received during the preceding fiscal year from the personal property tax replacement fund.

3. The amount paid to each school district from the personal property tax replacement fund established by sections 427A.9 to 427A.14 shall be regarded as property tax. For budget years beginning after the year in which the ninth increase in the additional personal property tax credit becomes effective as provided in said sections, the portion of the payment which is foundation property tax shall be determined by applying the foundation property tax rate to the total actual value of all personal property assessed for taxation in the district as of January 1, 1973, excluding livestock, but including other personal property eligible for tax credits granted by sections 427A.9 to 427A.14. For budget years to and including the year in which the ninth increase in the additional personal property tax credit becomes effective as provided in said sections, the portion of the payment which is foundation property tax shall be determined by the department of management pursuant to uniform methods established by the department.

4. For purposes of section 442.1, the "amount per pupil of foundation property tax" and the "money raised by the foundation property tax" do not include the tax levied under subsection 1 on the property of a railway corporation or its trustee which corporation has been declared bankrupt or is in bankruptcy proceedings.

442.3 State foundation base.

The state foundation base for the school year beginning July 1, 1986 is eighty percent of the state cost per pupil. The state foundation base for the school year beginning July 1, 1987 is eighty-one and one-half percent of the state cost per pupil. For each succeeding school year, the state foundation base shall be increased by the amount of one-half percent of the state cost per pupil, up to a maximum of eighty-five percent of the state cost per pupil. The district foundation base is the larger of the state foundation base or the amount

per pupil which the district will receive from foundation property tax and state school foundation aid.

442.4 Enrollment.

1. Basic enrollment for the budget year beginning July 1, 1979 and each subsequent budget year is determined by adding the resident pupils who were enrolled on the second Friday of September in the base year in public elementary and secondary schools of the district and in public elementary and secondary schools in another district or state for which tuition is paid by the district. For the school year beginning July 1, 1975, and each succeeding school year, pupils enrolled in prekindergarten programs other than special education programs are not included in basic enrollment.

Resident pupils of high school age for which the district pays tuition to attend an Iowa area school are included in basic enrollment on a full-time equivalent basis as of the second Friday of September in the base year for the budget year beginning July 1, 1979 and each subsequent budget year.

Shared-time and part-time pupils of school age, irrespective of the districts in which the pupils reside, are included in basic enrollment as of the second Friday of September in the base year for the budget year beginning July 1, 1979 and each subsequent budget year, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time out-of-district pupil shall be reduced by the amount of any increased state aid occasioned by the counting of the pupil.

Pupils attending a university laboratory school are not counted in any district's basic enrollment, but the laboratory school shall report them directly to the department of education.

A school district shall certify its basic enrollment to the department of education by September 25 of each year, and the department shall promptly forward the information to the department of management. For purposes of determining whether a district is entitled to an advance for increasing enrollment a determination of actual enrollment shall be made on the second Friday of September in the budget year by counting the pupils in the same manner and to the same extent that they are counted in determining basic enrollment, but substituting the count in the budget year for the count in the base year. In addition, a school district shall determine its additional enrollment because of special education defined in section 442.38, on December 1 of each year and if the district is entitled to an advance for special education, it shall certify its additional enrollment because of special education to the department of education by December 15 of each year, and the department shall promptly forward the information to the department of management.

2. An adjusted enrollment for each district shall be computed as follows:

a. For the school year beginning July 1, 1980, and each subsequent school year, the adjusted enrollment for a school district is equal to the larger of the following:

- (1) The basic enrollment for the base year.
- (2) The basic enrollment for the budget year.

If a school district uses subparagraph (2) of this paragraph for its adjusted enrollment and the district's actual enrollment for the budget year is larger than the adjusted enrollment computed under subparagraph (2) of this paragraph, the district may be eligible to receive an advance for increasing enrollment under section 442.28.

b. For the school year beginning July 1, 1979, if a district has a decrease from the basic enrollment in the base year to the basic enrollment in the budget year the state comptroller shall compute an amount to be added to the basic enrollment for the budget year. The amount to be added is equal to one hundred percent of the basic enrollment decrease to the extent that it does not exceed two and one-half percent of the base year's basic enrollment, and fifty percent of the remaining basic enrollment decrease. If the school district's basic enrollment in the base year is equal to or less than the basic enrollment for budget year the adjusted enrollment shall equal the basic enrollment for the budget year.

3. For the school year beginning July 1, 1980, and each subsequent school year, budget enrollment means the sum of the following:

a. Twenty-five percent of the basic enrollment for the school year beginning July 1, 1979. However, if the basic enrollment of a school district for a budget year is more than fifteen percent higher than the basic enrollment of the district for the base year, the school district's basic enrollment for the budget year shall be used thereafter for the calculation required under this paragraph in lieu of using the basic enrollment for the school year beginning July 1, 1979.

b. Seventy-five percent of the adjusted enrollment computed under subsection 2, paragraph "a," of this section.

c. Adjustments made by the department of management under subsection 5 of this section.

4. For the school year beginning July 1, 1984 and each subsequent school year, if a school district's basic enrollment for the budget year is larger than its budget enrollment for the budget year, the district shall use its basic enrollment for the budget year in lieu of its budget enrollment for the budget year for computations required in this chapter.

5. For the school year beginning July 1, 1984 and each succeeding school year, if an amount equal to the district cost per pupil for the budget year minus the amount included in the district cost per pupil for the budget year to compensate for the cost of special education support services for a school district for the budget year times the budget enrollment of the school district for the budget year is less than one hundred two percent times an amount equal to the district cost per pupil for the base year minus the amount included in the district cost per pupil for the base year to compensate for the cost of special education support services for a school district for the base year times the budget enrollment for the school district for the base year, the department of management shall increase the budget enrollment for the school district for the budget year to a number which will provide that one hundred two percent amount.

6. For the school year beginning July 1, 1980, and

each subsequent school year, weighted enrollment is the budget enrollment as modified by application of the special education weighting plan in section 281.9 and the supplementary weighting plan in this chapter.

Commencing with the school year beginning July 1, 1981 and each school year thereafter, the weighted enrollment shall be determined on the basis of a count of a district's additional enrollment because of special education, as defined in section 442.38, on December 1 of the base year.

442.5 Miscellaneous income — expenditures.

1. As used in this chapter:

a. "Miscellaneous income" means all receipts deposited to the general fund of a school district which are not obtained from state aid provided under section 442.1 or from property tax authorized under section 442.2 or 442.9. Miscellaneous income includes property tax levied under the provisions of section 613A.7, to fund the costs of tort liability insurance for the school district.

b. "Expenditures" means the total amounts paid out of the general fund of a school district, exclusive of amounts paid for the following purposes, for which special levies are authorized:

- (1) A contract for the use of a library under section 298.7.
- (2) A judgment under sections 298.15 to 298.17.
- (3) Tort liability under chapter 613A.
- (4) Asbestos removal or encapsulation under section 279.43.

2. The authorized expenditures during a school year may not exceed the lesser of the budget for that year certified under section 24.17 plus any allowable amendments permitted in this section, or the authorized budget, which is the sum of the district cost for that year plus the actual miscellaneous income received for that year plus the actual unspent balance from the preceding year. If actual miscellaneous income for a school year exceeds the anticipated miscellaneous income in the certified budget for that year, or if an unspent balance has not been previously certified, a school district may amend its certified budget.

442.6 Definitions.

As used in this chapter:

- 1. "District cost" and "district cost per pupil" mean the amounts computed as provided in section 442.9.
 - 2. "Base year" means the school year ending during the calendar year in which a budget is certified.
 - 3. "Budget year" means the school year beginning during the calendar year in which a budget is certified.

442.7 State percent of growth — allowable growth.

1. For school years subsequent to the school year beginning July 1, 1978, a state percent of growth for the budget year shall be computed by the department of management prior to September 15 in the base year and forwarded to the director of the department of education. The state percent of growth shall be an

average of the following four percentages of growth except as otherwise provided in paragraph "c" of this subsection:

a. The difference in the receipts of state general fund revenues computed or estimated as follows:

(1) The percentage of change between the revenues received during the second year preceding the base year and the revenues received during the year preceding the base year.

(2) The percentage of change between the revenues received during the year preceding the base year and the revenues received during the base year.

However, for computing the state percent of growth to be used for the school year beginning July 1, 1987, the revenues received as a result of the increase in taxes in 1985 Iowa Acts, chapter 32 or as a result of the inclusion of additional items subject to tax in 1985 Iowa Acts, chapter 32 shall not be considered revenues received for the state general fund for purposes of determining the percentages under subparagraph (1) or (2).

b. The difference in the gross national product implicit price deflator published by the bureau of economic analysis, United States department of commerce, computed or estimated as a percentage of change for the following:

(1) From the value for the quarter ending December 31 eighteen months prior to the beginning of the base year to the value for the quarter ending December 31 six months prior to the beginning of the base year.

(2) From the value for the quarter ending December 31 six months prior to the beginning of the base year to the value for the quarter ending December 31 six months prior to the beginning of the budget year.

The computation of the percentage change in the gross national product implicit price deflator shall be based, to the extent possible, on the latest available values for these deflators published by the bureau of economic analysis.

c. If the average of the percentages computed or estimated under paragraph "b" of this subsection exceeds the average of the percentages computed or estimated under paragraph "a" of this subsection, the state percent of growth shall be the average of the two percentages of growth computed or estimated under paragraph "a" of this subsection.

2. Notwithstanding subsection 1 of this section, for the school year beginning July 1, 1980 only, the state percent of growth is the average of the two percentages of growth computed under subsection 1, paragraph "b," of this section.

3. If the state percent of growth so computed is negative, that percentage shall not be used and the state percent of growth shall be zero.

4. Each year prior to September 15 the department of management shall recompute the state percent of growth for the previous year using adjusted estimates and the actual figures available. The difference between the recomputed state percent of growth for the base year and the original computation shall be added to or subtracted from the state percent of growth for the budget year, as applicable. However, for the budget school year beginning July 1, 1980 only, the state comptroller shall recompute the state percent of growth for the previous year using adjusted estimates and the actual figures available based only upon the consumer price index.

With regard to values of gross national product implicit price deflators, the recomputation of the state percent of growth for the previous year shall be made only with respect to the value of the deflator for the quarter which occurred subsequent to the calculation of the state percent of growth for the previous year. If subsection 1, paragraph "c," of this section is used in the calculation of the state percent of growth for the previous year, the calculation made in subsection 1, paragraph "b," of this subsection shall not be used in the recomputation of the state percent of growth for the previous year.

For the school year beginning July 1, 1981, the recomputation of the state percent of growth for the year beginning July 1, 1980 computed prior to September 15, 1980 and added to or subtracted from the state percent of growth for the school year beginning July 1, 1981 shall also include a percent equal to the difference between the estimate made of the percentage of growth in the receipts of state general fund revenue by the state comptroller prior to September 15, 1978 in computing the state percent of growth for the school year beginning July 1, 1979 and the actual figures of the percentage of growth in the receipts of state general fund revenue.

5. Notwithstanding subsections 1 through 4, for the school year beginning July 1, 1984, if the estimate of the ending fund balance of the state general fund for the fiscal year beginning July 1, 1984 and ending June 30, 1985, as estimated by the state comptroller in January, 1984, is equal to or greater than thirty million dollars and the state foundation base increases to eighty percent pursuant to section 442.3, the state percent of growth, including the recomputations required under subsection 4, is six and two-tenths percent.

6. The basic allowable growth per pupil for the budget year shall be computed by multiplying the state cost per pupil for the base year times the state percent of growth for the budget year.

7. The allowable growth per pupil for each school district is the basic allowable growth per pupil, for the budget year modified as follows:

a. If the state cost per pupil for the budget year exceeds the district cost per pupil for the budget year, the basic allowable growth per pupil for the budget year is modified to equal one hundred ten percent of the product of the state cost per pupil for the base year times the state percent of growth for the budget year. However, the basic allowable growth per pupil for the budget year under this paragraph shall not exceed the difference between the state cost per pupil for the budget year and the district cost per pupil for the budget year. For purposes of this paragraph the state cost per pupil and the district cost per pupil shall not include special education support service costs, and the district cost per pupil for the budget year shall not include that portion of the district cost per pupil created by additions or subtractions to the allowable growth per pupil for the budget year and for prior school years beginning with the school year commencing July 1, 1977, as provided under paragraph "b" of this subsection.

b. By the school budget review committee under section 442.13.

c. For the school year beginning July 1, 1975 only, by adding to the basic allowable growth per pupil for

the budget year an amount to compensate for the costs of special education support services provided through the area education agency. The total amount for each area shall be based upon the program plans submitted by the special education director of the area education agency as required by section 273.5, which shall be modified as necessary and approved by the department of public instruction according to the criteria and limitations of section 273.5 and chapter 281. The amount of additional allowable growth per pupil for the budget year for each district in an area shall be determined by dividing the total amount for the area so determined by the weighted enrollment of the area for the budget year.

d. For the school year beginning July 1, 1976 and ending with the school year beginning July 1, 1980, by adding to the basic allowable growth an amount to compensate for the additional costs of special education support services provided through the area education agency. For the school years beginning July 1, 1978 and July 1, 1979 only, the total amount for each area shall be equal to the total amount approved for special education support services for the base year times one hundred percent plus the state percent of growth. In addition to the amount provided in this paragraph to each area for the school years beginning July 1, 1978 and July 1, 1979 to compensate for the additional costs of special education support services, each area may be granted by the state board an additional amount to serve children newly identified as requiring the services pursuant to plans submitted by the special education director of the area education agency as required by section 273.5. The total of additional amounts granted throughout the state by the state board for the school year beginning July 1, 1978 shall not exceed the total amount approved for special education support services for the school year beginning July 1, 1977 times four and eighty-seven hundredths percent, and for the school year beginning July 1, 1979 shall not exceed the total amount approved for special education support services for the school year beginning July 1, 1978 times three percent. For the school year beginning July 1, 1980 the total amount for the state for special education support services shall not exceed the total amount approved for special education support services for the base year times one hundred percent plus the state percent of growth, and the total amount for each area shall be determined by the state board of public instruction pursuant to plans submitted by the special education director of the area education agency as required by section 273.5, which shall be modified as necessary and approved by the state board of public instruction according to the criteria and limitations of section 273.5 and chapter 281 and within the total amount for the state provided in this paragraph. The amount of additional allowable growth per pupil for the budget year for each district in an area shall be determined by dividing the total amount for the area so determined by the weighted enrollment of the area for the budget year.

e. For the school years prior to the school year beginning July 1, 1981, for the additional allowable growth computed under paragraphs "c" and "d" of this subsection, the state board of public instruction, in co-operation with the appropriate personnel of the area education agency, shall determine the amounts

for each area education agency, as required and the state comptroller shall calculate the amounts of additional allowable growth for each district necessary to fund the total special education support services costs as increased for the budget year under paragraph "d" of this subsection, and shall calculate the amounts due from each district to its area education agency by multiplying the additional allowable growth per pupil necessary to fund the total special education support services costs as increased for the budget year under paragraph "d" of this subsection by the weighted enrollment in the district for the budget year. The state comptroller shall deduct the amounts so calculated for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the area education agencies on a quarterly basis during each school year. The state comptroller shall notify each school district of the amount of state aid deducted for this purpose and the balance of state aid will be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the state comptroller, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.

f. By the department of management under section 442.35.

g. For the school year beginning July 1, 1981 and succeeding school years, the amount included in the district cost per pupil in weighted enrollment for special education support services costs for each district in an area education agency for a budget year is the amount included in the district cost per pupil in weighted enrollment for special education support services costs in the base year plus the allowable growth added to state cost per pupil for special education support services costs for the budget year, except as provided in paragraph "h". Funds shall be paid to area education agencies as provided in section 442.25.

h. For the school year beginning July 1, 1986 and succeeding school years, the director of the department of education may direct the department of management to increase or reduce the allowable growth added to district cost per pupil in weighted enrollment for a budget year for special education support services costs in an area education agency in the base year based upon special education support services needs in the area. However, an increase in the allowable growth can only be granted by action of the director of the department of education to restore a previous reduction or portion of a reduction in allowable growth for that year or the previous year.

8. For the school year beginning July 1, 1981 and succeeding school years, the allowable growth added to state cost per pupil for special education support services costs is the amount included in state cost per pupil for special education support services costs for the base year times the state percent of growth for the budget year. However, for the school year beginning July 1, 1981, no allowable growth shall be added, except as provided under subsection 9.

9. Allowable growth. For the school year beginning July 1, 1981, the state comptroller shall add to the allowable growth of affected school districts, an amount equal to the difference between the amount

per pupil in weighted enrollment for the approved budget for the school year beginning July 1, 1980 for special education support services in that area education agency and the amount per pupil in weighted enrollment for the amount certified to generate funds for the school year beginning July 1, 1980 for special education support services in the area education agency and shall adjust the state cost per pupil accordingly

442.8 State cost per pupil.

As used in this chapter, "state cost per pupil" for the school year beginning July 1, 1975, and subsequent school years means state cost per pupil in weighted enrollment. The state cost per pupil for the school year beginning July 1, 1972, is nine hundred three dollars. The state cost per pupil for the school year beginning on July 1, 1973, and for each succeeding school year is the base year's state cost per pupil plus the allowable growth for the budget year. If the state percent of growth is zero, the state cost per pupil shall be the same as the base year's state cost per pupil.

However, for the budget years beginning July 1, 1980, July 1, 1982, July 1, 1983, and July 1, 1984, the state cost per pupil shall equal the base year's state cost per pupil plus the allowable growth for the budget year plus an adjustment to the state cost per pupil. For the budget years beginning July 1, 1980, July 1, 1982, July 1, 1983, and July 1, 1984, the adjustment to the state cost per pupil is twenty dollars per pupil, thirteen dollars per pupil, eight dollars per pupil, and eight dollars per pupil, respectively.

Commencing with the school year beginning July 1, 1976, and ending with the school year beginning July 1, 1979, the allowable growth added to the state cost per pupil as otherwise computed under section 442 7 shall be the basic allowable growth increased by an amount equal to the average of the amounts of allowable growth added for each school district in the state for additional special education support services needed for that year to serve newly identified children who require the services, under sections 273 9, subsection 3 and 442 7, subsection 7, paragraph "d". The state comptroller shall compute the applicable amount of allowable growth to be added to the state cost per pupil for each school year.

442.9 District cost per pupil — district cost — additional school district property tax levy

1 The department of management shall determine the additional school district property tax levy for each school district, which is in addition to the foundation property tax levy, as follows:

a As used in this chapter, "district cost per pupil" for the school year beginning July 1, 1975, and subsequent school years means district cost per pupil in weighted enrollment. The district cost per pupil for the budget year is equal to the district cost per pupil for the base year plus the allowable growth. However, district cost per pupil does not include additional allowable growth added for programs for gifted and talented

children, for programs for returning dropouts, and for educational improvement projects under chapter 260A or for school districts that have a negative balance of funds raised for special education instruction programs under section 442 13, subsection 14, paragraph "b", and does not include additional allowable growth established by the school budget review committee for a single school year only.

b The district cost for the budget year is equal to the district cost per pupil for the budget year multiplied by the weighted enrollment, plus commencing with the budget year beginning July 1, 1985 additional district cost added for moneys received by a school district under section 302 3, Code 1981, as provided in section 442 21, and plus the additional district cost allocated to the district under section 442 27 to fund media services and educational services provided through the area education agency. A school district may not increase its district cost for the budget year except to the extent that an excess tax levy is authorized by the school budget review committee as provided in section 442 13.

c The amount to be raised by the additional school district property tax levy is equal to the district cost for the budget year, less the product of the state or district foundation base and the weighted enrollment.

2 No later than May 1 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. Each county auditor shall spread the additional property tax levy for each school district over all taxable property in the district.

442.9A Supplemental aid

Notwithstanding section 442 9, commencing with the budget year beginning July 1, 1987, if the rate of the additional property tax levy determined under section 442 9 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under section 442 9 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275 1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for the five-year period provided in this section. The department of management shall pay to each reorganized school district during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the difference in revenues that would have been collected under the additional property tax levy calculated under section 442 9 and the rate determined under this section.

For the school year beginning July 1, 1987 and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the supplemental aid

to school districts under this section. Supplemental aid shall be paid in the manner provided in section 442.26.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid, supplemental aid shall be considered property tax.

For purposes of this section, a reorganized school district is one in which reorganization was approved in an election pursuant to sections 275.18 and 275.20 and will take effect on or after July 1, 1986.

86 Acts, ch 1226, §7

442.10 Special education support services balances.

Notwithstanding chapters 273 and 281 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for the school year commencing July 1, 1983 and succeeding school years, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The total amount deducted in an area shall be based upon excess special education support services unreserved and undesignated fund balances in that area education agency for a school year. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district's total state school aids available under this chapter for area education agency special education support services and reduce the district's property tax levy for area education agency special education support services by the amount necessary for the property tax portion of the deductions made under this section during the budget year.

The amount deducted from a school district's budget shall not affect the calculation of the state cost per pupil or its district cost per pupil in that school year or a subsequent year.

442.12 School budget review committee.

A school budget review committee is established in the department of education and consists of the director of the department of education, the director of the department of management, and three members appointed by the governor to represent the public and to serve three-year staggered terms. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section 442.13. It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure. The director of the department of education

shall serve as chairperson, and the director of the department of management shall serve as secretary. The committee members representing the public are entitled to receive their necessary expenses while engaged in their official duties. Members may also be eligible to receive compensation as provided in section 7E.6. Expense payments shall be made from appropriations to the department of education.

442.13 Duties of the committee.

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, information about the amounts of property tax levied by school districts for a cash reserve, and other information the committee deems advisable.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Subject to the minimum for the school years beginning July 1, 1974, and July 1, 1975, as provided in section 442.7, the committee may establish a modified allowable growth by reducing the allowable growth:

a. If the district cost per pupil exceeds the state cost per pupil.

b. If in the committee's judgment the district cost is unreasonably high in relation to the comparative cost factors of similar districts, even if the district cost per pupil does not exceed the state cost per pupil.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for this purpose, and such aid shall be miscellaneous income and shall not be included in district cost; or may establish a modified allowable growth for the district by increasing its allowable growth; or both:

a. Any unusual increase or decrease in enrollment.

b. Unusual natural disasters.

c. Unusual transportation problems and for which the per pupil transportation costs are substantially higher than the state average per pupil transportation costs due to sparsity of the population, topographical factors, and other obstacles which hinder the efficient transportation of pupils.

d. Unusual initial staffing problems.

e The closing of a nonpublic school, wholly or in part

f Substantial reduction in miscellaneous income due to circumstances beyond the control of the district

g Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils

h Unusual need for a new course or program which will provide substantial benefit to pupils, if the district establishes such need and the amount of necessary increased cost

i Unusual need for additional funds for special education or compensatory education programs

j Year round or substantially year round attendance programs which apply toward graduation requirements, including but not limited to trimester or four quarter programs Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance

k Severe hardship due to the exclusion of miscellaneous income from computations under this chapter For the school year beginning July 1, 1973, the committee shall increase the district's allowable growth to the extent necessary to prevent such hardship

l Transportation equipment needs which become necessary because of the furnishing of transportation to nonpublic school pupils under chapter 285

m Enrollment decrease caused by the availability of transportation to nonpublic school pupils in a district

n Costs of special education programs and services for children requiring special education who are living in a state-supported institution, charitable institution, or licensed boarding home which does not maintain a school and the child has not been counted in the weighted enrollment under section 281 9

o Any unique problems of districts to include minority problems, vandalism, civil disobedience and other costs incurred by school districts

6 If a nonpublic school closes wholly or in part, the committee may authorize an increase in the district general fund tax levy, but only to the extent necessary to cover the cost of absorbing the former nonpublic school pupils into the public school system The school board shall establish the amount of necessary increased cost to the satisfaction of the school budget review committee before an increase in tax levy is authorized

7 The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for the purpose or purposes of furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or a tax as provided in chapter 278 and for major building repairs as defined in section 297 5 No other expenditure, including but not limited to expenditures for salaries or recurring costs, shall be authorized under this subsection Expenditures authorized under this subsection shall not be included in allowable growth or district cost, and the portion of the unexpended cash balance which is authorized to be spent shall be regarded as if it were miscellaneous income Any part of such amount which is not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance

8 The committee may approve or modify the initial base year district cost of any district which changes accounting procedures

9 When the committee makes a decision under subsections 3 to 8, it shall make all necessary changes in the district cost, budget, and tax levy It shall give written notice of its decision, including all such changes to the school board through the director of the department of management

10 All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter All such policies of general application shall be stated in rules adopted in accordance with chapter 17A The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs The committee shall also take into account the amount of funds available

11 Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely

12 The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year after the school year commencing July 1, 1975, and report the plan to the director of the department of education

13 The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280 15

14 As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 281 9 The committee shall certify the balance of funds for each school district to the director of the department of management

In determining the balance of funds of a school district under this subsection, the committee shall subtract the amount of any reduction in state aid that occurred as a result of a reduction in allotments made by the governor with the concurrence of the executive council under section 8 31 *

a If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance from the amount of state aid remaining to be paid to the district during the budget year If the positive amount exceeds the amount of state aid that remains to be paid to the district, the school district shall pay the remainder on a quarterly basis prior to June 30 of the budget year

to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that would have been local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 442.9 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in each district that has a positive balance determined under paragraph "a" for the base year, or the state aid portion of the positive balance determined under paragraph "a" for the base year, whichever is less, totaled on a statewide basis, to be used for supplemental aid payments to school districts. Except as otherwise provided in this paragraph, supplemental aid paid to a district is equal to the state aid portion of the district's deficit balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this paragraph.

A school district is eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will request the school budget review committee to instruct the director of the department of management to increase the district's allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the additional allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this paragraph is insufficient to make the supplemental aid payments, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for a cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 442.9 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy

for a budget year under this subsection does not affect the district's authorized budget.

16. The committee shall perform the duties assigned to it under chapter 286A.

442.14 Additional enrichment amount.

1. For the budget year beginning July 1, 1980, and each succeeding school year, if a school board wishes to spend more than the amount permitted under sections 442.1 to 442.13, and the school board has not attempted by resolution to raise an additional enrichment amount for that budget year, the school board may raise an additional enrichment amount not to exceed ten percent of the state cost per pupil multiplied by the budget enrollment in the district, as provided in this section.

2. The board shall determine the additional enrichment amount per pupil needed, within the limits of this section, and shall direct the county commissioner of elections to submit the question of whether to raise that amount under this section and section 442.15, to the qualified electors of the school district at a regular school election held during September of the base year or at a special election held not later than February 15 of the base year. Only one election on the question shall be held during a twelve-month period. If a majority of those voting favors raising the enrichment amount, the board may include the approved amount in its certified budget.

3. The additional enrichment amount needed shall be raised within the limits provided in this section by a combination of an enrichment property tax and a school district income surtax imposed in the proportion of a property tax of twenty-seven cents per thousand dollars of assessed valuation of taxable property in the district for each five percent of income surtax.

4. The additional enrichment amount for a district is limited to the amount which may be raised by a combination tax in the prescribed proportion which does not exceed a property tax of one dollar and eight cents per thousand dollars of assessed valuation and an income surtax of twenty percent.

5. Any additional enrichment amount of a school district, not exceeding five percent of the state cost per pupil, which was approved at a referendum prior to July 1, 1978, shall remain in effect for the period for which it was approved.

442.15 Computation of enrichment amount.

If a majority of those voting in an election approves raising the additional enrichment amount under section 442.14 and this section, the board shall certify to the department of management that the required procedures have been carried out, and the department of management shall establish the amount of additional enrichment property tax to be levied and the amount of school district income surtax to be imposed for each school year for which the additional enrichment

amount is authorized. The department of management shall determine these amounts based upon the most recent figures available for the district's valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district's county auditor the amount of enrichment property tax, and to the director of revenue and finance the amount of school district income surtax to be imposed.

The school district income surtax shall be imposed on the state individual income tax for the calendar year during which the school's budget year begins, or for a taxpayer's fiscal year ending during the second half of that calendar year or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, "state individual income tax" means the tax computed under section 422.5, less the deductions allowed in sections 422.10, 422.11 and 422.12.

An additional enrichment amount authorized under section 442.14 or a lesser amount than the amount so authorized may be continued as provided in this section for a period of five school years. If the amount authorized is less than the maximum of ten percent of the state cost per pupil and the board wishes to increase the amount, it shall re-establish its authority to do so in the manner provided in section 442.14. If the board wishes to continue any additional enrichment amount beyond the five-year period, it shall re-establish its authority to do so in the manner provided in section 442.14 within the twelve-month period prior to termination of the five-year period.

442.27 Funding media and educational services.

Media services and educational services provided through the area education agencies shall be funded, to the extent provided, by an addition to the district cost of each school district, determined as follows:

1. For the budget year beginning July 1, 1975, the total amount funded in each area for media services shall be the greater of an amount equal to the costs for media services in the area in the base year times the sum of one hundred percent plus the state percent of growth, or an amount equal to five dollars times the enrollment served in the area in the budget year. The costs for media services in the area in the base year beginning July 1, 1974, shall be a proportionate part of the budgeted expenditures by county school systems and joint county systems formerly serving pupils in the area based upon the enrollment served in that area in the base year by each county school system and joint county system compared to the total enrollment served by that county system or joint county system.

2. For the school year beginning July 1, 1978 and each succeeding budget year through the budget year beginning July 1, 1981, the total amount funded for each area for media services excluding the cost for media resource material shall be the total amount funded in the area for media service in the base year times the sum of one hundred percent plus the state percent of growth plus the costs for media resource material for the budget year.

For the school year beginning July 1, 1981, the total amount to be funded for media services, including the costs for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs "a", "b" and "c", shall be equal to the budget in the base year in the area times the sum of one hundred percent plus the state percent of growth.

3. a. However, for the budget year beginning July 1, 1978, each area in which the amount funded for media services per pupil without inclusion of the costs for media resource material is less than the maximum media service cost per pupil for the enrollment served during the budget year, that area shall receive additional funding for equalization purposes as provided in this paragraph. Each such area shall be funded, in addition to the amount funded under the provisions of subsection 2, an amount equal to one-third of the difference between the product of the maximum media service cost per pupil times the enrollment served in the budget year in the area and that amount the area is eligible to receive for media services other than for media resource material under subsection 2. For the budget year beginning July 1, 1979, each area in which the amount funded for media services, other than for media resource material, is less than the maximum media service cost per pupil for the enrollment served in the area in the budget year, in addition to the

amount funded for media services other than media resource material under the provision of subsection 2, shall be funded at an amount equal to one-half of the difference between the product of the maximum media service cost per pupil times the enrollment served in the budget year in the area and that amount the district is eligible to receive under subsection 2 for media services other than for media resource material. For the budget year beginning July 1, 1980, each area shall be funded at that amount generated by multiplying the maximum media service cost per pupil times the enrollment served in the area for the budget year.

For the purposes of this section "maximum media service cost per pupil" means, for the school year beginning July 1, 1978, one hundred percent plus the state percent of growth times eight dollars without inclusion of the cost for media resource material. For each succeeding school year prior to the school year beginning July 1, 1981, the "maximum media service cost per pupil" without inclusion of the cost of media resource material shall be equal to the one hundred percent plus the state percent of growth for the budget year times the maximum media service cost per pupil for the base year.

b. In addition to the funding provided for media services under subsections 1 and 2 and paragraph "a" of this subsection, for the school year beginning July 1, 1978, an amount shall be funded to be added to media service funds for each area for purchase and replacement of media resource material required in section 273.6, subsection 1, paragraphs "a," "b" and "c". The amount shall be equal to three dollars times the enrollment served in the area in the budget year. For each succeeding school year subsequent to the school year beginning July 1, 1978, and prior to the school year beginning July 1, 1981, the amount to fund media resource material, which shall only be used for the purchase and replacement of material required in section 273.6, subsection 1, paragraphs "a," "b" and "c," shall be equal to the total amount funded in the area for media resource material in the base year times the sum of one hundred percent plus the state percent of growth.

4. For the school year beginning July 1, 1982 and succeeding school years, the total amount funded in each area for media services in the budget year shall be computed as provided in this subsection. For the school year beginning July 1, 1982, the total amount funded in each area for media services in the base year, including the cost for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs "a," "b" and "c," shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the state comptroller shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the year beginning July 1, 1982 and succeeding school years, the department of management shall compute the allowable growth for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for media services cost in the budget year equals the area media services

cost per pupil in the base year plus the allowable growth for media services in the budget year times the enrollment served in the budget year. Funds shall be paid to area education agencies as provided in section 442.25.

5. For the school year beginning July 1, 1986, the department of management shall increase the area media services cost per pupil in each area education agency and the state media services cost per pupil determined under subsection 4 by one dollar and one cent for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs "a," "b", and "c".

6. For the budget year beginning July 1, 1975, the total amount funded in each area for educational services shall be an amount equal to ten dollars times the enrollment served in the area in the budget year.

7. For each succeeding budget year through the budget year beginning July 1, 1980, the total amount funded in each area for educational services shall be the total amount funded in the area for educational services in the base year times the sum of one hundred percent plus the state percent of growth. For the school year beginning July 1, 1981, the total amount funded in each area for educational services is the total amount funded in the area for educational services in the base year.

8. For the school year beginning July 1, 1982 and succeeding school years, the total amount funded in each area for educational services in the budget year shall be computed as provided in this subsection. For the school year beginning July 1, 1982, the total amount funded in each area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the state comptroller shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the year beginning July 1, 1982 and succeeding school years, the department of management shall compute the allowable growth for educational services by multiplying the state educational services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the allowable growth for educational services in the budget year times the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 442.25.

9. For school years prior to the school year beginning July 1, 1982, of the total amounts funded in each area each year for media services and educational services, a portion shall be allocated to each district in the area. The portion to be allocated to each district in an area shall be the same percentage of the total amount that the enrollment served in the budget year in the district is of the enrollment served in the budget year in the area.

10. For school years prior to the school year beginning July 1, 1982, the portion allocated to each district in an area each budget year for media services and educational services shall be added to the district cost of that district for the budget year as provided in section 442.9.

11. For school years prior to the school year beginning July 1, 1982, the state board of public instruction and the state comptroller shall determine the total amounts funded in each area for media services and educational services each year, and the amounts to be allocated to each district. The state comptroller shall deduct the amounts so calculated for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the districts' area education agencies on a quarterly basis during each school year. The state comptroller shall notify each school district the amount of state aid deducted for this purpose and the balance which will be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover the amount due to its area education agency as calculated by the state comptroller, the school district shall pay the deficiency to its area education agency from other moneys received by the district, on a quarterly basis during each school year.

12. "Enrollment served" means the basic enrollment plus the number of nonpublic school pupils served with media services or educational services, as applicable, except that if a nonpublic school pupil receives services through an area other than the area of the pupil's residence, the pupil shall be deemed to be served by the area of the pupil's residence, which shall by contractual arrangement reimburse the area through which the pupil actually receives services. For the budget year beginning July 1, 1975, the total number of nonpublic pupils served by each area education agency and the number of nonpublic school pupils residing within each school district in the area to be served by the area education agency for media and educational services shall be submitted by the department of public instruction as approved by the state board to the state comptroller within one week after June 10, 1975. For school years subsequent to the school year beginning July 1, 1979, each school district shall include in the second Friday in September enrollment report the number of nonpublic school pupils within each school district for media and educational services served by the area.

13. For the school year beginning July 1, 1978, and for each subsequent school year, if an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for media services in the budget year times the difference between the enrollment served and the basic enrollment recorded for the area for the budget year beginning July 1, 1975. The educational services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for educational services in the budget year times the difference between the enrollment served and the basic enrollment recorded for the budget year beginning July 1, 1975.

The provisions of this subsection shall apply only to media and educational services which cannot be diverted for religious purposes.

Notwithstanding this subsection, an area education agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to public schools as determined by the director of the department of education.

Subsection 5 retroactive to April 30, 1986, 86 Acts, ch 1246, §778

442.28 Advance for increasing enrollment.

If a district's actual enrollment for the budget year, determined under section 442.4, is higher than its budget enrollment for the budget year, the district is entitled to an advance from the state of an amount equal to its district cost per pupil less the amount per pupil for special education support services, computed as a part of district cost under the provisions of section 442.7 for the budget year multiplied by the difference between the actual enrollment for the budget year and the budget enrollment for the budget year. However, if a district's actual enrollment for the budget year is more than fifteen percent higher than its basic enrollment for the budget year, the advance shall be calculated using seventy-five percent of the difference between the district's actual enrollment for the budget year and its basic enrollment for the budget year. The advance shall be miscellaneous income.

If a district receives an advance under this section for a budget year, the department of management shall determine the amount of the advance which would have been met by local property tax revenues if the actual enrollment for the budget year or the budget enrollment for the budget year plus seventy-five percent of the difference between the actual enrollment for the budget year and the basic enrollment for the budget year, had been used in determining district cost for that budget year, shall reduce the district's total state school aids available under this chapter for the next following budget year by the amount so determined, and shall increase the district's tax levy computed under section 442.9, for the next following budget year by the amount necessary to compensate for the reduction in state aid, so that the local property tax for the next following year will be increased only by the amount which it would have been increased in the budget year if the enrollment calculated in this section could have been used to establish the levy.

There is appropriated each year from the general fund of the state the amount required to pay advances authorized under this section, which shall be paid to school districts in the same manner as other state aids are paid under section 442.26.

442.29 Reimbursement restrictions for prior years.

Notwithstanding the provisions of sections 281.9 and 281.11 as those sections are in effect prior to July 1, 1975, reimbursement shall not be made to local school districts for the special education costs for the school year beginning July 1, 1974, incurred for programs provided for the school year beginning July 1, 1971, or prior years, but reimbursement shall be made to local school districts for new and expanded programs for the school year beginning July 1, 1974, be-

[C77, 79, 81, §442.29]

442.30 Temporary increase in per pupil cost.

1. For the school year beginning July 1, 1979, the state cost per pupil shall be increased to an amount which would otherwise have resulted for the school year beginning July 1, 1979, if the surplus balances for area education agency support services and for area education inherited funds had not been offset against the total support budgets for the school year beginning July 1, 1978. This adjustment is to compensate for the reductions made to state cost based upon the temporary offset of support budgets by certain area education agency fund balances.

2. Notwithstanding the provisions of chapter 1095 as enacted by the Sixty-seventh General Assembly, 1978 Session, as it pertains to the amount of the reduction to the support service costs to be allocated among the school districts, the amount of the special education support services cost to be reduced for area education agency XIII is equal to ninety-nine thousand eight hundred ninety-nine dollars rather than a reduction of one hundred twenty-one thousand one hundred twenty dollars.

3. To meet the special problems that result from budget reductions due to declining enrollments prior to the modifications in the adjustments for declining enrollments to take effect commencing with the school year beginning July 1, 1979, there is appropriated from the general fund of the state for the fiscal years beginning July 1, 1978 and ending June 30, 1980, to the school budget review committee the sum of two million five hundred thousand dollars, or so much thereof as necessary to be used to minimize the impact of the factor listed in subsection 4. The school budget review committee may also establish a modified allowable growth for the school district by increasing the allowable growth for the school district to provide additional funds to assist the school district with hardships which result from the impact on the school district's budget resulting from declining enrollment.

4. To assess whether a district has hardships resulting from reduced funds because of declining enrollment, the school budget review committee shall consider whether the school district will be forced to terminate an existing educational program because of insufficient funds and thus diminish the overall quality of the school program for the budget year from that provided in the base year.

[C79, 81, §442.30]

442.31 Gifted and talented children.

For the school year beginning July 1, 1981 and succeeding school years, boards of school districts, individually or jointly with the boards of other school districts, requesting to use additional allowable growth for gifted and talented children programs, may annually submit program plans for gifted and talented children programs and budget costs, including requests for additional allowable growth for funding the programs, to the department of education and to the applicable gifted and talented children advisory council, if an ad-

visory council has been established, as provided in this chapter. A district shall not identify more than three percent of its budget enrollment for the budget year as gifted and talented if the district is requesting to use additional allowable growth to finance the program.

The parent or guardian of a pupil may request that a gifted and talented children program be established for pupils who qualify as gifted and talented children under section 442.33, including demonstrated achievement or potential ability in a single subject area.

The department shall employ a consultant for gifted and talented children programs.

The department of education shall adopt rules under chapter 17A relating to the administration of sections 442.31 to 442.35, 442.40 and 442.41. The rules shall prescribe the format of program plans submitted under section 442.32 and shall require that programs fulfill specified objectives. The department shall encourage and assist school districts to provide programs for gifted and talented children whether or not additional allowable growth is requested under this chapter.

4. Staff utilization plans.
5. Evaluation criteria and procedures and performance measures.

442.33 Defined.

"Gifted and talented children" are those identified as possessing outstanding abilities who are capable of high performance. Gifted and talented children are children who require appropriate instruction and educational services commensurate with their abilities and needs beyond those provided by the regular school program.

Gifted and talented children include those children with demonstrated achievement or potential ability, or both, in any of the following areas or in combination:

1. General intellectual ability.
2. Creative thinking.
3. Leadership ability.
4. Visual and performing arts ability.
5. Specific ability aptitude.

[C79, 81, §442.33]

442.34 Submission of program plans.

The board of directors of a school district requesting to use additional allowable growth for gifted and talented children programs shall submit applications for approval for the programs to the department not later than November 1 preceding the fiscal year during which the program will be offered. The board shall also

submit a copy of the program plans to the gifted and talented children advisory council, if an advisory council has been established. The department shall review the program plans and shall prior to January 15 either grant approval for the program or return the request for approval with comments of the department included. Any unapproved request for a program may be resubmitted with modifications to the department not later than February 1. Not later than February 15 the department shall notify the department of management and the school budget review committee of the names of the school districts for which gifted and talented children programs using additional allowable growth for funding have been approved and the approved budget of each program listed separately for each school district having an approved program.

[C79, 81, §442.34; 82 Acts, ch 1006, §6]

442.35 Funding.

The budget of an approved gifted and talented children program for a school district, after subtracting funds received from other sources for that purpose, shall be funded annually on a basis of one-fourth or more from the district cost of the school district and up to three-fourths by an increase in allowable growth as defined in section 442.7. Annually, the department of management shall establish a modified allowable growth for each such district equal to the difference between the approved budget for the gifted and talented children program for that district and the sum of the amount funded from the district cost of the school district plus funds received from other sources.

[C79, 81, §442.35]

442.36 Co-operation by area education agencies.

The area education agencies in which the school districts having approved gifted and talented children programs are located shall co-operate with the school district in the identification and placement of gifted and talented children and may assist school districts in the establishment of such programs.

[C79, 81, §442.36]

442.37 Special education balances reduced.

1. The purpose of this section is to reduce the school district balances for special education instruction programs which were not expended for special education instruction.

2. For the purposes of this section, "unencumbered special education instruction funds" means those funds received by a school district for special education instruction programs for the school years beginning July 1, 1975, July 1, 1976, and July 1, 1977, for special education instruction which were not encumbered prior to January 1, 1978, or which were not an approved expenditure by the department of public instruction based upon applications for approval received by the department prior to January 1, 1978. The unencumbered special education instruction funds shall be those funds received for special education instruction programs based on funds raised for weighted enrollment in excess of the district cost per pupil times the adjusted enrollment in the year of receipt.

3. The state comptroller shall reduce the total state aid to be received by a school district in the school year beginning July 1, 1978, by sixty-five per-

cent of the unencumbered special education instruction funds of the district. The amount shall be certified to the state comptroller by the department of public instruction upon request by the state comptroller.

4. Notwithstanding the provisions of section 442.9, for the school year beginning July 1, 1978, the state comptroller shall reduce for each school district the amount of property tax to be levied for the school year by an amount equal to thirty-five percent of the unencumbered special education instruction funds.

5. Notwithstanding subsections 3 and 4, a school district receiving the minimum state aid under the provisions of section 442.1, shall have the state aid to be received for the budget year beginning July 1, 1978, reduced by the portion of unencumbered special education instruction funds that two hundred dollars per pupil is of the school district's district cost per pupil for the school year beginning July 1, 1977. The property tax to be levied for the school district shall be reduced by the unencumbered special education instruction funds remaining after reduction for the state aid portion of such funds as provided in this subsection.

[C79, 81, §442.37]

442.38 Advance for special education.

If a school district's additional enrollment because of special education determined by the district on December 1 in the budget year is greater than its additional enrollment because of special education determined by the district on December 1 in the base year, the school district is entitled to an advance from the state of an amount equal to its district cost per pupil for the budget year less the amount per pupil for special education support services, computed as a part of district cost under section 442.7 for the budget year multiplied by the district's increase in additional enrollment because of special education. The advance shall be miscellaneous income.

For the purpose of this section, a school district's additional enrollment because of special education is determined by multiplying the weighting for each category of child under section 281.9 times the number of children in each category totaled for all categories minus the actual enrollment.

If a district receives an advance under this section for a budget year, the department of management shall determine the amount of the advance which would have been met by local property tax revenues if the additional enrollment because of special education in the budget year had been used for that budget year in determining district cost, shall reduce the district's total state school aids available under this chapter for the next following budget year by the amount so determined, and shall increase the district's tax levy computed under section 442.9, for the next following budget year by the amount necessary to compensate for the reduction in state aid, so that the local property tax for the next following year will be increased only by the amount which it would have been increased in the budget year if the additional enrollment because of special education in the budget year could have been used to establish the levy.

There is appropriated each year from the general fund of the state the amount required to pay advances

authorized under this section, which shall be paid to school districts in the same manner as other state aids are paid under section 442.26.

[C81, §442.38]

442.39 Supplementary weighting plan.

In order to provide additional funds for school districts which send their resident pupils to another school district or to an area school for classes, which jointly employ and share the services of teachers under section 280.15, or which use the services of a teacher employed by another school district, or which jointly employ and share the services of school administrators under section 280.15, a supplementary weighting plan for determining enrollment is adopted as follows:

1. Pupils in a regular curriculum attending all their classes in the district in which they reside and taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. Pupils attending classes in another school district or an area school, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district, are assigned a weighting of one plus five-tenths times the percent of the pupil's school day during which the pupil attends classes in another district or area school, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district if the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting. However, in lieu of the additional weighting of five-tenths, the school budget review committee shall assign an additional weighting of one-tenth times the percent of the pupil's school day in which a pupil attends classes in another district or an area school, attends classes taught by a teacher who is employed jointly under section 280.15, or attends classes taught by a teacher who is employed by another district, in districts that have a substantial number of students in any of grades seven through twelve sharing more than one class or teacher. Effective July 1, 1986, the additional weighting of one-tenth may be assigned by the school budget review committee for a maximum of five years, and thereafter, the additional weighting shall not be assigned under this section, but may be assigned under section 442.39A.

3. A pupil eligible for the weighting plan provided in section 281.9 is not eligible for the weighting plan provided in this section.

4. Pupils enrolled in a school district in which one or more administrators are employed jointly under section 280.15 are assigned a weighting of one plus five-hundredths for each administrator who is jointly employed times the percent of the administrator's time in which the administrator is employed in the school district. However, the total additional weighting assigned under this subsection for a budget year for a school district is fifteen.

For the purposes of this section, "administrators" includes the following:

a. Executive administrators, which includes the

superintendent and such assistants as deputy, associate, and assistant superintendents who perform activities in the general direction and management of the affairs of the local school districts.

b. School administrators, which includes assistant principals, and other assistants in general supervision of the operations of the school. School administrators does not include principals.

c. Business administrators, which includes personnel associated with activities concerned with purchasing, paying for, transporting, exchanging, and maintaining goods and services for the school district.

5. For the school year beginning July 1, 1983 and succeeding school years, a school district receiving additional funds under subsection 2 for its pupils at the ninth grade level and above that are enrolled in sequential mathematics courses at the advanced algebra level and above; chemistry, advanced chemistry, physics or advanced physics courses; or foreign language courses at the second year level and above shall have an additional weighting of one pupil added to its total.

442.39A Supplementary weighting and school reorganization.

For the school year beginning July 1, 1986 and succeeding school years, in determining weighted enrollment under section 442.4, a reorganized school district shall include, for a period of five years following the effective date of the reorganization, additional pupils added by the application of the supplementary weighting plan, as determined under section 442.39, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization. However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district. For purposes of this section, a reorganized district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and takes effect on or after July 1, 1986.

86 Acts, ch 1226, §11

442.40 Advisory council.

At the written request of one or more boards of school districts, in an area education agency, the area education agency board shall establish one or more gifted and talented children advisory councils and shall appoint members for four-year staggered terms. The terms of office of advisory council members shall commence on July 1 of each year. An advisory council shall consist of seven members including teachers, parents, school administrators, and other persons interested in education in the area. Except as otherwise provided in this section, members shall be eligible electors residing in the merged area. Members shall serve without compensation but shall be reimbursed for actual and necessary expenses and mileage incurred in the performance of their duties from funds available to the area education agency.

If an area education agency has a weighted enrollment of more than thirty-five thousand, the board may appoint additional advisory councils for each

Ch 224, §72-87 Acts

thirty-five thousand weighted enrollment or fraction of thirty-five thousand. If more than one advisory council is appointed by the board, the board shall divide the merged area along school district boundary lines for jurisdiction of the advisory councils, and membership of these advisory councils shall be appointed from the designated portion of the merged area.

[C81, §442 40]

442.41 Duties of advisory council.

The gifted and talented children advisory council shall

1 Elect a chairperson and vice chairperson from the membership of the advisory council

2 Meet as often as deemed necessary by the advisory council

3 Advise and assist a local board of directors in the establishment of gifted and talented children programs, when requested by the local board

4 Review program plans and proposed budgets for a gifted and talented children program, in consultation with a gifted and talented children consultant employed by the area education agency, when requested by a local board

5 When requested by a local board, evaluate the results of a gifted and talented children program and file a written report together with recommendations for improvement or change with the board of directors of the applicable school district, the area education agency and the department of education. The evaluation shall be conducted by three or more members of the advisory council

[C81, §442 41]

442.42 Special education additional funds.

For the school year beginning July 1, 1981, an area education agency which requires additional money to provide special education support services to children requiring special education in the area may apply to the school budget review committee for additional funds. The school budget review committee shall review the requests submitted by area education agencies and may allocate additional funds to area education agencies on the basis of need from any funds appropriated to the department of education for the use of the school budget review committee

[C81, §442 42]

442.43 Supplemental school income surtax.

1 For the budget school year beginning July 1, 1981, if the board of a school district wishes to spend more than the amount permitted under sections 442 1 to 442 13, the board may call a special election to determine whether to impose a supplemental school income surtax on individual state income tax for the calendar year beginning January 1, 1981. The supplemental school income surtax for the school district shall not exceed an amount equal to the difference between the portion of district cost of the district attributable to regular program costs for the school year beginning July 1, 1981 if the state percent of growth had been nine and twenty six thousandths percent and the portion of the actual district cost of the district attributable to regular program costs for the school year beginning July 1, 1981. Any income derived from

the supplemental school income surtax is miscellaneous income

2 The board shall determine the amount needed, within the limits of this section, and shall set the date of a special election, which shall not be later than July 1, 1981. The board shall direct the county commissioner of elections to submit the question of whether to raise that amount to the qualified electors of the school district. If a majority of those voting on the proposition at the special election favors the imposition of the supplemental school income surtax, the board may amend its certified budget to include the amount imposed

3 Following approval at the special election, the board shall certify to the department of management that the required procedures have been carried out and the department of management shall establish the amount of supplemental school income surtax to be imposed based upon the most recent figures available for the district's individual state income tax paid. The department of management shall certify to the director of revenue and finance the amount of supplemental school income surtax to be imposed

The supplemental school income surtax shall be imposed on the state individual income tax for the calendar year beginning January 1, 1981, or for a taxpayer's fiscal year ending during the second half of that calendar year or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, "state individual income tax" means the tax computed under section 422 5, less the deductions allowed in section 422 12

4 Sections 442 16, 442 17, 442 19, and 442 20 apply to the supplemental school income surtax established in this section. The director of revenue shall deposit all moneys received as supplemental school income surtax to the credit of each district from which the moneys are received, in a "supplemental school income surtax fund" which is established in the office of the treasurer of state

The department shall review the program plans and shall prior to January 15 either grant approval for the program or return the request for approval with comments of the department included. An unapproved request for a program may be resubmitted with modifications to the department not later than February 1. This chapter may be cited as the “Iowa Advance Funding Authority Act.”

85 Acts, ch 34, §1

442A.2 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa and the improvement of the financing procedures for Iowa’s schools.

2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.

3. Iowa schools face a serious and increasing problem with cash flow difficulties caused, among other factors, by increasing reliance on state school foundation aid, delays in the payment of state school foundation aid, and the periodic payment of property taxes for school purposes.

4. As a result of their increasing cash flow difficulties, Iowa schools have had to borrow on a short-term basis larger amounts of funds more often, thus increasing their borrowing costs significantly.

5. The short-term borrowing costs of Iowa schools are a direct burden on the taxpayers of the state.

6. It is necessary to create the authority to provide a means for Iowa schools to reduce substantially or eliminate their short-term borrowing costs and thus reduce costs to the taxpayers.

7. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned or granted.

85 Acts, ch 34, §2

442A.3 Definitions.

As used in this chapter, unless the context otherwise requires:

1. “*School*” includes each public school district as defined in chapter 274, area education agency as defined in chapter 273 and merged area school as defined in chapter 280A.

2. “*Authority*” means the Iowa advance funding authority created by this chapter.

3. “*Board*” means the governing board of the authority created in section 442A.5.

4. “*Notes*” means notes, warrants, loan agreements, and all other forms of evidence of indebtedness now or hereafter authorized for schools. “Purchase of notes” includes lending money to schools or any other forms of financing of schools by the authority.

5. “*Bonds*” means bonds, notes and other obligations issued by the authority pursuant to this chapter.

85 Acts, ch 34, §3

442A.4 Iowa advance funding authority.

The Iowa advance funding authority is created. It is a public instrumentality and agency of the state exercising public and essential governmental functions, established for the purposes of reducing the cash flow difficulties faced by Iowa schools, improving the financial procedures of Iowa schools, and reducing the short-term borrowing costs of Iowa schools.

85 Acts, ch 34, §4

442A.5 Governing board.

1. The powers of the authority are vested in and exercised by a board consisting of five members, including the treasurer of state, the commissioner of public instruction, and the state comptroller, and two members appointed by the governor, subject to confirmation by the senate. The state officials may designate representatives to serve on the board for them. As far as possible, the governor shall appoint members who are knowledgeable or experienced in the school systems of this state or finance.

2. The governor shall appoint the members of the authority for terms of six years, beginning and ending as provided in section 69.19. An appointed member of the authority may be removed from office by the governor for misfeasance, malfeasance, or willful neglect of duty or other just cause, after notice and hearing, unless the notice and hearing are expressly waived in writing by the member.

3. Three members of the board constitute a quorum.

4. The appointed members of the authority receive forty dollars per diem for each day spent in performance of duties as members, and shall be reimbursed for all actual and necessary expenses incurred in the performance of duties as members.

5. The appointed members of the authority shall give bond as required for public officers in chapter 64.

6. Meetings of the authority shall be held at the call of the chairperson or when a majority of the members so request.

1. Issue its negotiable bonds as provided in this chapter in order to finance its programs.

2. Have perpetual succession as a public authority.

3. Sue and be sued in its own name.

4. Make and execute agreements, contracts, and other instruments, with any public or private entity.

CERTIFICATION OF TAXES

444.1 Basis for amount of tax.

In all taxing districts in the state, including townships, school districts, cities and counties, when by law then existing the people are authorized to determine by vote, or officers are authorized to estimate or determine, a rate of taxation required for any public pur-

pose, such rate shall in all cases be estimated and based upon the adjusted taxable valuation of such taxing district for the preceding calendar year.

[C24, 27, 31, 35, 39, §7162; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §444.1]

444.2 Amounts certified in dollars.

When an authorized tax rate within a taxing district, including townships, school districts, cities and coun-

ties, has been thus determined as provided by law, the officer or officers charged with the duty of certifying the authorized rate to the county auditor or board of supervisors shall, before certifying the rate, compute upon the adjusted taxable valuation of the taxing district for the preceding fiscal year, the amount of tax the rate will raise, stated in dollars, and shall certify the computed amount in dollars and not by rate, to the county auditor and board of supervisors

[C24, 27, 31, 35, 39, §7163; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §444 2]
83 Acts, ch 101, §90

444.3 Computation of rate — moneys and credits tax replacement fund.

When the valuations for the several taxing districts shall have been adjusted by the several boards for the current year, the county auditor shall thereupon apply such a rate, not exceeding the rate authorized by law, as will raise the amount required for such taxing district, and no larger amount. For purposes of computing the rate under this section, the adjusted taxable valuation of the property of a taxing district does not include the valuation of property of a railway corporation or its trustee which corporation has been declared bankrupt or is in bankruptcy proceedings. Nothing in the preceding sentence exempts the property of such railway corporation or its trustee from taxation and the rate computed under this section shall be levied on the taxable property of such railway corporation or its trustee

Provided that the county auditor shall, in computing the tax rate for any taxing district, deduct from the total budget requirements certified by any such district all of the tax to be derived from the moneys and credits and other moneyed capital taxed at a flat rate as provided in section 429 2* and for years commencing with the year 1966 from the moneys and credits tax replacement fund and shall then apply such rate to the adjusted taxable value of the property in the district, necessary to raise the amount required after the deductions herein provided have been made

450.1 “Person” and “personal representative” defined — authority of county attorney.

In the construction of this chapter the word “person” shall include plural as well as singular, and artificial as well as natural persons. This chapter shall not be construed to confer upon a county attorney authority to represent the state in any case, and the county attorney shall represent the department of revenue and finance only when especially authorized by it to do so.

For purposes of this chapter, unless the context otherwise requires, “personal representative” means an executor, administrator, or trustee as each is defined in section 633 3

[S13, §1481-a45, C24, 27, 31, 35, 39, §7305; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450 1]
83 Acts, ch 177, §2, 38

450.2 Estates taxable.

The estates of all deceased persons in any property whether the decedents be inhabitants of this state or not, and whether such estates consist of real, personal, or mixed property, tangible or intangible, and any interest in, or income from, any such estate or property which estate or property is, at the death of the decedent owner within this state, or is subject to the jurisdiction of the courts of this state, or thereafter is brought within this state and becomes subject to the jurisdiction of the courts of this state, or the property of any decedent, domiciled within this state at the time of the death of such decedent, even though the property of such decedent so domiciled was situated outside of the state, except real estate located outside of the state, passing in fee from the decedent owner, which shall pass in any manner herein described shall be subject to tax as herein provided

[C97, §1467, S13, §1481 a, C24, 27, 31, 35, 39, §7306; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450 2]

450.3 Property included.

The tax hereby imposed shall be collected upon the net market value and shall go into the general fund of the state to be determined as herein provided, of any property passing as follows

1 By will or under the statutes of inheritance of this or any other state or country

2 By deed, grant, sale, gift or transfer made within three years of the death of the grantor or donor, which is not a bona fide sale for an adequate and full consideration in money or money’s worth and which is in excess of the annual gift tax exclusion allowable for each donee under section 2503, subsections b and e of the Internal Revenue Code of 1954 as defined in section 422 3. If both spouses consent, a gift made by one spouse to a person who is not the other spouse is

considered, for the purposes of this subsection, as made one half by each spouse under the same terms and conditions provided for in section 2513 of the Internal Revenue Code of 1954 as defined in section 422 3

3 By deed, grant, sale, gift or transfer made or intended to take effect in possession or enjoyment after the death of the grantor or donor. A transfer of property in respect of which the transferor reserves to the transferor a life income or interest shall be deemed to have been intended to take effect in possession or enjoyment at death, provided, that if the transferor reserves to the transferor less than the entire income or interest, the transfer shall be deemed taxable thereunder only to the extent of a like proportion of the value of the property transferred

4 To the extent of any property with respect to which the decedent has at the time of death a general power of appointment, or with respect to which the decedent has within three years of death exercised or released a general power of appointment by a disposition which is of a nature that if it were a transfer of property owned by the decedent, the property would be includable in the decedent’s gross estate under this section whether the general power was created before or after the taking effect of this chapter. A transfer involving creation of a general power of appointment shall be treated as a transfer of a fee or equivalent interest in the property subject thereto to the donee of the power. Any transfer involving creation of any other power of appointment shall be treated, except when an election is made under subsection 7, as the transfer of a life estate or term of years in the property subject thereto to the donee of the power and as the transfer of the remainder interests to those who would take if the power is not exercised

5 Property which is held in joint tenancy by the decedent and any other person or persons or any deposit in banks, or other institution in their joint names and payable to either or to the survivor, except such part as may be proven to have belonged to the survivor, or any interest of a decedent in property owned by a joint stock or other corporate body whereby the survivor or survivors become beneficially entitled to the decedent’s interest upon the death of a shareholder. However, if such property is so held by the decedent and the surviving spouse as the only co owners, one half of such property is not subject to taxation under the provisions of this chapter, but if the surviving spouse proves that the surviving spouse contributed to acquisition of such property an amount, in money or other property, greater than one half of the cost of the property held in joint tenancy, the portion of such property which is not subject to taxation under the provisions of this chapter shall be the proportion

which the actual contribution by the surviving spouse is of the total contribution to acquisition of such property. The tax imposed upon the passing of property under the provisions of this subsection shall apply to property held under all such contracts or agreements whether made before or after the taking effect of this chapter.

6. When the decedent shall have disposed of the decedent's estate in any manner to take effect at the decedent's death with a request secret or otherwise that the beneficiary give, pay to, or share the property or any interest therein received from the decedent, with other person or persons, or to so dispose of beneficial interests conferred by the decedent upon the beneficiaries as that the property so passing would be taxable under the provisions of this chapter if passing directly by will or deed from the decedent owner to those to receive the gift from the beneficiary, compliance with such request shall constitute a transfer taxable under the provisions of this chapter, at the highest rate possible in like cases of transfers by will or deed.

7. Which qualifies as a qualified terminable interest property as defined in section 2056(b)(7)(B) of the Internal Revenue Code of 1954 as defined in section 422.3, shall, if an election is made, be treated and considered as passing in fee, or its equivalent, to the surviving spouse in the estate of the donor-grantor. Property on which the election is made shall be included in the gross estate of the surviving spouse and shall be deemed to have passed in fee from the surviving spouse to the persons succeeding to the remainder interest, unless the property was sold, distributed, or otherwise disposed of prior to the death of the surviving spouse. A sale, disposition, or disposal of the property prior to the death of the surviving spouse shall void the election, and shall subject the property disposed of, less amounts received or retained by the surviving spouse, to tax in the donor-grantor's estate in the same manner as if the tax had been deferred under sections 450.44 through 450.49.

Unless the will or trust instrument provides otherwise, the estate of the surviving spouse shall have the right to recover from the persons succeeding to the remainder interests, the additional tax imposed, if any, without interest, on the surviving spouse by reason of the election being made. The amount of tax recovered, if any, shall be a credit in the donee's estate against the tax imposed on the qualified terminable interest property.

An election under this subsection can only be made if an election in relation to the qualified terminable interest property is also made for federal estate tax purposes.

The director of revenue and finance shall adopt and promulgate all rules necessary for the enforcement and administration of this subsection including the form and manner of making the election.

1. When the entire estate of the decedent does not exceed the sum of ten thousand dollars after deducting the liabilities, as defined in this chapter.

3. When the property passes to public libraries or public art galleries within this state, open to the use of the public and not operated for gain, or to hospitals within this state, or to trustees for such uses within this state, or to municipal corporations for purely public purposes.

4. 450.6 Accrual of tax — maturity — extension of time.

The tax imposed by this chapter accrues at the death of the decedent owner, and shall be paid to the

department of revenue and finance on or before the last day of the ninth month after the death of the decedent owner except if otherwise provided in this chapter. If in the opinion of the director of revenue and finance additional time should be granted for payment to avoid hardship, the director may extend the period to a date not exceeding ten years from the last day of the month in which the death of the decedent occurred. In the case of an extension the tax bears interest at the rate in effect under section 421.7 from the expiration of the last day of the ninth month after the decedent's death. Interest shall be computed on a monthly basis with a fraction of a month counted as a full month.

Upon the approval of the executive council, the tax liability of a beneficiary, heir, surviving joint tenant or other transferee may be paid, in lieu of money, in whole or in part by the transfer of real property or tangible personal property to the state or a political subdivision of the state to be used for public purposes. Before the tax liability may be paid by transfer of property to a political subdivision, the governing body of the political subdivision shall also approve the transfer. The property transferred in payment of tax shall have been included in the decedent's gross estate for inheritance tax purposes and its value for the payment of the tax shall be the same as its value for inheritance tax purposes. The acceptance or rejection of the property in payment of the tax liability and the value of the property shall be certified by the executive council to the director of revenue and finance. The acceptance of the property transferred acts as payment and satisfaction of the inheritance tax liability to the extent of the value of the transferred property, but notwithstanding any other provision, the taxpayer is not entitled to a refund if the transferred property has a value in excess of the tax liability.

450.7 Lien of tax.

1. The tax is a charge against and a lien upon the estate subject to tax under this chapter, and all property of the estate or owned by the decedent from the death of the decedent until paid, subject to the following limitations:

a. Inheritance taxes owing with respect to a passing of property of a deceased person whose estate has not been administered in this state are no longer a lien against the property twenty years from the date of death of the decedent owner, except to the extent taxes are attributable to remainder or deferred interests which have not been finally vested in possession for at least ten years.

b. Inheritance taxes owing with respect to a passing of property of a deceased person whose estate has been administered in this state are no longer a lien against the property ten years from the date of death of the decedent owner, except to the extent taxes are attributable to remainder or deferred interests and are deferred in accordance with the provisions of this chapter.

2. Notice of the lien is not required to be recorded. The rights of the state under the lien have priority over all subsequent mortgages, purchases, or judgment creditors; and a conveyance after the decedent's death of the property subject to a lien does not discharge the property except as otherwise provided in this chapter. However, if additional tax is determined to be owing under this chapter or chapter 451 after the lien has been released under paragraph "a" or "b", the lien does not have priority over subsequent mortgages, purchases, or judgment creditors unless notice of the lien is recorded in the office of the recorder of the county where the estate is probated, or where the property is located if the estate has not been administered. The department of revenue and finance may release the lien by filing in the office of the clerk of the court in the county where the property is located, the decedent owner died, or the estate is pending or was administered, one of the following:

a. A receipt in full payment of the tax.

b. A certificate of nonliability for the tax as to all property reported in the estate.

c. A release or waiver of the lien as to all or any part of the property reported in the estate, which shall release the lien as to the property designated in the release or waiver.

3. The sale, exchange, mortgage, or pledge of property by the personal representative pursuant to a testamentary direction or power, pursuant to section 633.387, or under order of court, divests the property from the lien of the tax. The proceeds from that sale, exchange, mortgage, or pledge shall be held by the personal representative subject to the same priorities for the payment of the tax as existed with respect to the property before the transaction, and the personal representative is personally liable for payment of the tax to the extent of the proceeds.

450.8 Transfers and trusts.

If the decedent makes transfer of, or creates a trust with respect to, property passing under section 450.3, subsection 2, or intended to take effect after death, except in the case of a bona fide sale for a fair consideration in money or money's worth, and if the tax in respect to the transfer is not paid when due, the transferee or trustee is personally liable for the tax, and the property, to the extent of the decedent's interest in the property at the time of death, is subject to a lien for the payment of the tax.

In computing the tax on the net estate passing to the surviving spouse, heirs or beneficiaries of the deceased the following exemptions shall be allowed:

1. Surviving spouse, one hundred twenty thousand dollars.

2. Each son and daughter, including legally

adopted sons and daughters, or illegitimate sons and daughters entitled to inherit under the law of this state, fifty thousand dollars.

3. Father or mother, fifteen thousand dollars.

4. Any other lineal descendant of the deceased, fifteen thousand dollars.

However, for net estates passing from persons dying on or after January 1, 1983 but before January 1, 1984, the exemption provided in subsection 1 is one hundred fifty thousand dollars and for net estates passing from persons dying on or after January 1, 1984, the exemption provided in subsection 1 is one hundred eighty thousand dollars.

6. When the property or any interest therein, or income therefrom, taxable under the provisions of this chapter passes to any person included under subsection 1 or 2 hereof, there shall be credited to the tax imposed on the individual share so passing an amount equal to the tax imposed in this state on the decedent on any property, real, personal or mixed, or the proportionate share thereof on property passing to the person taxed hereunder, which can be identified as having been received by the decedent as a share in the estate of any person who died within two years prior to the death of the decedent, or which can be identified as having been acquired by the decedent in exchange for property so received. The credit shall not be applicable to taxes on property of the decedent which was not acquired from the prior estate.

7. There shall be deducted from the tax computed under subsection 1 on property, interest in property, or income passing to the surviving spouse a credit equal to the following:

In all cases where an estate or interest therein so passes as to be liable to taxation under this chapter, all costs of the proceedings had for the assessment of such tax shall be chargeable to such estate as other costs in probate proceedings and, to discharge the lien, all costs as well as the taxes must be paid. In all other cases the costs are to be paid as ordered by the court. When a decision adverse to the state has been rendered, with an order that the state pay the costs, it shall be the duty of the clerk of the court in which such action was pending to certify the amount of such costs to the director of revenue and finance, who shall, if said costs be correctly certified and the case has been finally terminated and the tax if any due has been paid, present the claim to the state comptroller to audit and, said claim being allowed by said comptroller, the comptroller is directed to issue a warrant on the treasurer of state in payment of such costs.

450.85 Appropriation.

There is hereby appropriated out of any funds in the state treasury not otherwise appropriated a sum sufficient to carry out the provisions of section 450.84.

450.86 Securities and assets held by bank, etc.

A safe deposit company, trust company, bank, or other institution or person holding securities or assets, exclusive of life insurance policies payable to named beneficiaries, which securities or other assets are located in a safety deposit box or other security enclosure of the decedent, after receiving knowledge of the death shall not deliver or transfer them to the transferee, joint owner, or beneficiary of the decedent unless the tax for which the securities or assets are liable under this chapter is first paid, or the payment is secured by bond as provided in this chapter. However, all the contents shall be reported in writing to the department of revenue and finance, and thereafter may be delivered to the personal representative. The director of revenue and finance, personally or by any person duly authorized by the director, shall examine the securities or assets at the time of a proposed delivery or transfer. Failure to give written notice of the contents of the safety deposit box or other security enclosure to the department of revenue and finance at the time of or prior to the delivery of the securities or assets to the personal representative or transferee, joint owner, or beneficiary renders the safe deposit company, trust company, bank, or other institution or person liable for the payment of the tax upon the securities or assets as provided in this chapter.

450.87 Transfer of corporation stock.

If a foreign personal representative assigns or transfers any corporate stock or obligations in this state standing in the name of a decedent or in trust for a decedent liable to tax, the tax shall be paid to the department of revenue and finance on or before the transfer; otherwise the corporation permitting its stock to be transferred is liable to pay the tax, interest, and costs, and the director of revenue and finance shall enforce the payment of the tax, interest, and costs.

450.88 Corporations to report transfers.

Every Iowa corporation organized for pecuniary profit shall, on July 1 of each year, by its proper officers under oath, make a full and correct report to the director of revenue and finance of all transfers of its stocks made during the preceding year by any person who appears on the books of the corporation as the owner of the stock, when the transfer is made to take effect at or after the death of the owner or transferor, and all transfers which are made by a personal representative, referee, or any person other than the owner or person in whose name the stocks appeared of record on the books of the corporation, prior to the transfer. This report shall show the name of the owner of the

stocks and the owner's place of residence, the name of the person at whose request the stock was transferred, the person's place of residence and the authority by virtue of which the person acted in making the transfer, the name of the person to whom the transfer was made, and the residence of the person, together with other information the officers reporting have relating to estates of persons deceased who may have been owners of stock in the corporation. If it appears that any stock transferred is subject to tax under this chapter, and the tax has not been paid, the director of revenue and finance shall notify the corporation in writing of its liability for the payment of the tax, and shall bring suit against the corporation as in other cases unless payment of the tax is made within sixty days from the date of notice.

This section does not apply if the lien has been released under section 450.7 or the director has issued a consent to transfer.

450.89 Foreign estates — deduction of debts. Repealed by 83 Acts, ch 177, §37, 38. See §450.12(2).

450.90 Property in this state belonging to foreign estate.

When property, real or personal, within this state belongs to a foreign estate and the foreign estate passes in part exempt from the tax imposed by this chapter and in part subject to the tax and there is not a specific devise of the property within this state to exempt persons or if it is within the authority or discretion of the foreign personal representative administering the estate to dispose of the property not specifically devised to exempt persons in the payment of liabilities owing by the decedent at the time of death, or in the satisfaction of legacies, devises, or trusts given to direct or collateral legatees or devisees or in payment of the distributive shares of any direct and collateral heirs, then the property within the jurisdiction of this state belonging to the foreign estate is subject to the tax imposed by this chapter, and the tax due shall be assessed as provided in section 450.12, subsection 2, relating to the deduction of the proportionate share of liabilities. However, if the value of the property so situated exceeds the total amount of the estate passing to other persons than those exempt from the tax imposed by this chapter, the excess is not subject to tax.

[S13, §1481-a40; C24, 27, 31, 35, 39, §7393; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.90]

450.91 Foreign estates — reciprocity — personal property.

The tax imposed by this chapter in respect to personal property of nonresidents (other than tangible personal property having an actual situs in this state) shall not be payable (1) if the decedent at the time of the decedent's death was a resident of a state or territory of the United States which at the time of the decedent's death did not impose a transfer tax or death tax of any character in respect to personal property of residents of this state (other than tangible personal property having an actual situs in such state or territo-

ry), or (2) if the laws of the state or territory of residence of the decedent at the time of the decedent's death contained a reciprocal provision under which nonresidents were exempted from transfer taxes or death taxes of every character in respect of personal property (other than tangible personal property having an actual situs therein) provided the state or territory of residence of such nonresidents allowed a similar exemption to residents of the state or territory of residence of such decedent.

In no case shall the provisions of this section apply to the intangible personal property of nonresident decedents unless such intangible personal property shall have been subjected to a tax or submitted for purposes of taxation in the state of the decedent's residence.

This section shall apply only to estates of decedents dying subsequent to July 4, 1929.

For the purpose of this section the District of Columbia and possessions of the United States shall be considered territories of the United States.

[C31, 35, §7393-c1; C39, §7393.1; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.91]

450.92 Compromise settlement.

Whenever an estate charged or sought to be charged with the inheritance tax is of such a nature, or is so disposed, that the liability of the estate is doubtful, or the value thereof cannot with reasonable certainty be ascertained under the provisions of law, the director of revenue and finance may, with the written approval of the attorney general, which approval shall set forth the reasons therefor, compromise with the beneficiaries or representatives of such estates, and compound the tax thereon; but said settlement must be approved by the district court or judge of the proper court, and after such approval the payment of the amount of the taxes so agreed upon shall discharge the lien against the property of the estate.

[S13, §1481-a41; C24, 27, 31, 35, 39, §7394; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.92]

450.93 Unknown heirs.

Whenever the heirs or persons entitled to any estate or any interest therein are unknown or their place of residence cannot with reasonable certainty be ascertained, a tax of five percent shall be paid to the department of revenue and finance upon all such estates or interests, subject to refund as provided herein in other cases; provided, however, that if it be afterwards determined that any estate or interest passes to aliens, there shall be paid within sixty days after such determination and before delivery of such estate or property, an amount equal to the difference between five percent, the amount paid, and the amount which such person should pay under the provisions of this chapter.

[S13, §1481-a42; C24, 27, 31, 35, 39, §7395; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.93]

450.94 Return — determination — appeal.

1. "Taxpayer" as used in this section means a person liable for the payment of tax as stated in section 450.5.

2. The taxpayer shall file an inheritance tax return on forms to be prescribed by the director of revenue and finance. When an inheritance tax return is filed, the department shall examine it and determine the

correct amount of tax. If the amount paid is less than the correct amount due, the department shall notify the taxpayer of the total amount due together with any penalty and interest which shall be a sum certain if paid on or before the last day of the month in which the notice is postmarked, or on or before the last day of the following month if the notice is postmarked after the twentieth day of a month and before the first day of the following month.

3. If the amount paid is greater than the correct tax, penalty, and interest due, the department shall refund the excess, with interest after sixty days from the date of payment at the rate in effect under section 421.7, under the rules prescribed by the director. However, the director shall not allow a claim for refund or credit that has not been filed with the department within three years after the tax payment upon which a refund or credit is claimed became due, or one year after the tax payment was made, whichever time is later. A determination by the department of the amount of tax, penalty, and interest due, or the amount of refund for excess tax paid, is final unless the person aggrieved by the determination appeals to the director for a revision of the determination within thirty days from the postmark date of the notice of determination of tax, penalty, and interest due or refund owing. The director shall grant a hearing, and upon the hearing the director shall determine the correct tax, penalty and interest or refund due, and notify the appellant of the decision by mail. The decision of the director is final unless the appellant seeks judicial review of the director's decision under section 450.59 within sixty days after the postmark date of the notice of the director's decision.

4. Payments received must be credited first to the penalty and interest accrued and then to the tax due.

5. The amount of tax imposed under this chapter shall be assessed according to one of the following:

a. Within three years after the return is filed with respect to property reported on the final inheritance tax return.

b. At any time after the tax became due with respect to property not reported on the final inheritance tax return, but not later than three years after the omitted property is reported to the department on an amended return or on the final inheritance tax return if one was not previously filed.

In addition to the applicable periods of limitations for examination and determination specified in paragraphs "a" and "b", the department may make an examination and determination at any time within six months from the date of receipt by the department of written notice from the taxpayer of the final disposition of any matter between the taxpayer and the internal revenue service with respect to the federal estate, gift, or generation skipping transfer tax. In order to begin the running of the six months assessment period, the notice shall be in writing in form sufficient to inform the department of the final disposition of any matter with respect to the federal estate, gift, or generation skipping transfer tax, and a copy of the federal document showing the final disposition or final federal adjustments shall be attached to the notice.

450.96 Contingent estates.

Estates in expectancy which are contingent or defensible and in which proceedings for the determination of the tax have not been taken or where the taxation has been held in abeyance, shall be valued at their full, undiminished value when the persons entitled to the estates come into the beneficial enjoyment or possession of the estates, without diminution for or on account of any valuation previously made. When an estate, devise, or legacy can be divested by the act or omission of the legatee or devisee, it shall be taxed as if there were no possibility of the divesting. When a devise, bequest, or transfer is one in part contingent, and in part vested so that the beneficiary will come into possession and enjoyment of a portion of the inheritance on or before the happening of the event upon which the possible defeating contingency is based, a tax shall be imposed and collected upon the bequest or transfer as upon a vested interest, at the highest rate possible under this chapter if no contingency existed; provided that if the contingency reduces the value of the estate or interest taxed, and the amount of tax paid is in excess of the tax for which the bequest or transfer is liable upon the removal of the contingency, the excess shall be refunded as provided in sections 450.94 and 450.95 in other cases.

450.97 Joint owners of bank accounts — duty to notify department of revenue and finance.

No person, bank, credit union, or savings and loan association shall permit the withdrawal of funds from a joint account by a surviving joint owner without first notifying the department of revenue and finance of the balance in such account at the date of decedent's death and the name and address of the surviving joint owner. Such notification may be accomplished by mailing the required information to the department of revenue and finance and withdrawal or payment of such funds may be made immediately thereafter as long as such mailing is accomplished by ordinary mail no later than the date of withdrawal or earlier if knowledge of the decedent's death is known by the depository. A person, bank, credit union, or savings and loan association shall only be liable for any inheritance tax due by the surviving joint owner for willful failure to report to the department of revenue and finance as herein provided.

450A.2 Imposition of tax.

A tax is imposed on the transfer of any property, included in a generation skipping transfer occurring at the same time as, or after, the death of the deemed transferor, equal to the amount of the maximum federal credit allowable under section 2602(c)(5)(B) of the Internal Revenue Code of 1954, for that portion of state estate, inheritance, legacy, or succession tax paid in respect of any property included in the generation skipping transfer.

Where the deemed transferor is a resident of Iowa and all property included in a generation skipping transfer has a situs in Iowa, or is subject to the jurisdiction of the courts of Iowa, an amount equal to the total credit as allowed under the Internal Revenue Code of 1954 shall be paid to the state of Iowa. Where the deemed transferor is a nonresident or where prop-

erty included in a generation skipping transfer has a situs outside the state of Iowa and not subject to the jurisdiction of Iowa courts, the tax shall be prorated on the basis that the value of Iowa property included in the generation skipping transfer bears to the total value of property included in the generation skipping transfer.

See also Code editor's note at the end of Vol III concerning effective date, 86 Acts, ch 1245, §52

450A.3 Value of property.

The value of property, included in a generation skipping transfer, shall be the same as determined for federal generation skipping transfer tax purposes under the Internal Revenue Code of 1954.

[C79, 81, §450A.3]

450A.4 Payment of the tax.

The tax imposed by this chapter shall be paid within twelve months after the death of the deemed transferor or if the transfer occurs at that time, or if later, the day which is twelve months after the day on which such generation skipping transfer occurred. For purposes of this chapter, any property transferred during the three year period ending on the date of the deemed transferor's death and which is included in a generation skipping transfer under the Internal Revenue Code of 1954 shall be considered as transferred on the deemed transferor's death.

[C79, 81, §450A.4]

450A.5 Liability for the tax.

The distributee of the property shall be personally liable for the tax to the extent of the fair market value, determined as of the time of the distribution, of the property received in the distribution. If the tax is attributable to a taxable termination, as defined in section 2613 of the Internal Revenue Code of 1954, the trustee shall be personally liable for the tax to the

extent of the property subject to tax under the trustee's control.

[C79, 81, §450A.5]

450A.6 Lien of the tax.

The tax imposed by this chapter shall be a lien on the property subject to the tax for a period of ten years from the time the generation skipping transfer occurs. Full payment of the tax due and interest, if any, shall release the lien and discharge the distributee and trustee of personal liability. Unless the lien has been perfected by recording, a transfer by the distributee or the trustee to a bona fide purchaser for value shall divest the property of the lien. If the lien is perfected by recording, the rights of the state under the lien have priority over all subsequent mortgages, purchases or judgment creditors. The department may release the lien prior to the payment of the tax due if adequate security for payment of the tax is given.

[C79, 81, §450A.6]

450A.7 Disposal of tax.

The proceeds of the tax shall be credited to the general fund of the state.

[C79, 81, §450A.7]

450A.8 Returns.

It shall be the duty of the persons liable for the payment of the tax to file a return with the department, in such form as the director may prescribe, containing sufficient information to enable the department to determine the maximum federal credit allowable for the payment of the tax imposed by this chapter. A copy of the federal return filed for the purpose of paying the generation skipping transfer tax shall be submitted to the department at the time the Iowa return is filed. Copies of all amended or supplemental returns shall be submitted to the department at the time such returns are filed with the internal revenue service.

[C79, 81, §450A.8]

450A.9 Delinquent returns.

If the tax imposed by this chapter is not paid within the time prescribed by law, the tax is delinquent and shall draw interest thereafter at the rate in effect under section 421.7 until paid.

[C79, 81, §450A.9; 81 Acts, ch 131, §18]

450A.10 Director to enforce collection.

It shall be the duty of the director to enforce collection of the tax imposed by this chapter and shall with all the rights of a party in interest, represent the state in any proceedings to collect the tax. The director shall have the power to bring suit against any person liable for the payment of the tax, interest and costs and may foreclose the lien of the tax in the same manner as is now prescribed for the foreclosure of real estate mort-

gages and upon judgment may cause execution to be issued to sell so much of the property necessary to satisfy the tax, interest and costs due.

[C79, 81, §450A.10]

450A.11 Duty to claim maximum credit.

It shall be the duty of any person liable for the payment of the tax to claim the maximum federal credit allowable for that portion of state estate, inheritance, legacy or succession tax paid in respect of any property included in a generation skipping transfer. Claiming on a federal return a sum less than the maximum federal credit allowable shall not relieve any person liable for the tax of the duty to pay the tax imposed under this chapter.

If an amended or supplemental return is filed with the internal revenue service which results in a change in the amount of tax owing under this chapter, the persons liable for the payment of the tax shall submit an amended return, on forms prescribed by the director, indicating the amount of the tax then owing as a result of such change.

If any federal generation skipping transfer tax has been paid before the enactment of this chapter, the persons liable for the payment of the tax under this chapter shall file an amended federal return claiming the maximum federal credit allowable and file the Iowa returns specified in section 450A.8 within six months after the enactment of this chapter or within the time limit provided in section 450A.4 whichever is the later.

[C79, 81, §450A.11]

450A.12 Applicable statutes.

All of the provisions of chapter 450 with respect to the payment and collection of the tax imposed under that chapter, including penalty and interest upon delinquent taxes, are applicable to the provisions of this chapter, except as they are in conflict with this chapter. The director shall adopt and promulgate rules necessary for the enforcement of this chapter.

[C79, 81, §450A.12]

Nonassessment of penalty under certain conditions, see §421.27

450A.13 Retroactive.

The provisions of this chapter are retroactive to April 30, 1976, for any generation skipping transfer made after April 30, 1976, except for those generation skipping transfers excepted under section 2006(c) of the federal Tax Reform Act of 1976 and to this extent the provisions of this chapter are retroactive.

[C79, 81, §450A.13]

450A.14 Limitation.

The tax imposed under section 450A.2 shall not be construed to impose a federal and state generation skipping tax obligation greater than the tax payable had this chapter not been enacted.

83 Acts, ch 179, §18, 23, 84 Acts, ch 1305, §39

450B.2 Alternate election of value for qualified use.

Notwithstanding section 450 37, the value of qualified real property for the purpose of the tax imposed under chapter 450 may, at the election of the taxpayer, be its value for the use under which it qualifies as prescribed by section 2032A of the Internal Revenue Code of 1954 A taxpayer may make an election under this section only if all of the following conditions are met

1 An election for federal estate tax purposes was made with regard to the qualified real property under section 2032A of the Internal Revenue Code of 1954

2 All persons who signed the agreement referred to in section 2032A(d)(2) of the Internal Revenue Code of 1954 make the election under this section and sign an agreement with the department of revenue and finance consenting to the application of section 450B 3 with respect to the qualified real property

3 The total decrease in the value of the qualified real property as a result of the election under this section does not exceed the dollar limitation specified in section 2032A(a)(2) of the Internal Revenue Code of 1954

The election under this section shall be made by the taxpayer in the manner as the director of revenue and finance may prescribe by rule The value for the qualified use under this section shall be the value as determined and accepted for federal estate tax purposes

The definitions and special rules specified in section 2032A(e) of the Internal Revenue Code of 1954 shall apply with respect to qualified real property for which an election was made under this section except that rules shall be prescribed by the director of revenue and finance in lieu of the regulations promulgated by the secretary of treasury

The director shall prescribe regulations setting forth the application of this chapter in the case of an interest in a partnership, corporation, or trust which, with respect to the decedent, is an interest in a closely held business within the meaning of section 6166(b)(1) of the Internal Revenue Code of 1954 Such regulations shall conform as nearly as possible with the regulations promulgated by the United States secretary of treasury in respect to such interests

[81 Acts, ch 147, §13]

450B.3 Additional inheritance tax applicable.

There is imposed upon the qualified heir an additional inheritance tax if, within ten years after the decedent's death and before the death of the qualified heir, the qualified heir disposes of, other than to a member of the family, any interest in qualified real property for which an election under section 450B 2 was made or ceases to use for the qualified use the qualified real property for which an election under section 450B 2 was made as prescribed in section 2032A(c) of the Internal Revenue Code of 1954 The additional inheritance tax shall be the amount computed under section 450B 5 and shall be due six months after the date of the disposition or cessation of qualified use referred to in this section The amount of the additional inheritance tax shall accrue interest at the rate of ten percent per year from nine months after the decedent's death to the due date of the tax The tax shall be paid to the department of revenue and finance and shall be deposited into the general fund of the state Taxes not paid within the time prescribed in this section shall draw interest at the rate of ten percent per annum until paid There shall not be an additional inheritance tax if the disposition or cessation occurs ten years or more after the decedent's death

[81 Acts, ch 147, §14, 15, 82 Acts, ch 1023, §26, 27, 34]

450B.4 Reserved.

450B.5 Ratio of applicable tax.

The amount of the additional inheritance tax imposed by section 450B.3 is the excess of what the tax imposed by chapter 450 would have been had the election to use the qualified use valuation under section 450B.2 not been made over the tax paid on the real estate based on qualified use valuation. However, if all of the real estate valued under section 450B.2 is not disposed of or does not cease to be used for the qualified use, the amount of the additional inheritance tax is the amount computed by applying the ratio that the real estate subject to the qualified use valuation which has been disposed of or which the qualified use ceases bears to all the real estate subject to the qualified use valuation passing to the taxpayer to the excess of the tax which would have been imposed by chapter 450 had the election under section 450B.2 not been made over the tax paid on the real estate based on qualified use valuation. However, the additional inheritance tax shall not be computed on a value greater than the fair market value of the qualified real estate at the time the disposition or cessation of the qualified use occurs.

[81 Acts, ch 147, §16]

450B.6 Lien of tax.

A lien is created in favor of the state for the additional inheritance tax which may be imposed by section 450B.3 on the qualified real property for which an election has been made under section 450B.2. The lien created by this section shall continue until the tax has been paid or ten years after the tax is due, whichever

date occurs first. However, the lien shall expire ten years after the decedent's death if the qualified heir has not disposed of or ceased to use for the qualified use the qualified real property which would impose the tax under section 450B.3. The department of revenue and finance may release the lien prior to the payment of the tax due, if any, if adequate security for payment of the tax is given.

Unless the lien has been perfected by recording in the office of the recorder in the county where the estate is probated, a transfer of the qualified real property to a bona fide purchaser for value shall divest the property of the lien. If the lien is perfected by recording, the rights of the state under the lien have priority over all subsequent mortgagees, purchasers or judgment creditors. The lien may be foreclosed by the director of revenue and finance in the same manner as is now prescribed for the foreclosure of real estate mortgages and upon judgment, execution shall be issued to sell as much of the property necessary to satisfy the tax, interest and costs due.

[81 Acts, ch 147, §17; 82 Acts, ch 1023, §28, 34]

450B.7 Other inheritance tax laws applicable.

All the provisions of chapter 450 with respect to the payment, collection and administration of the inheritance tax imposed under that chapter are applicable to the provisions of this chapter to the extent consistent. The director of revenue and finance shall adopt and promulgate all rules necessary for the enforcement and administration of this chapter.

2 The depository and the security given for the public funds in its hands are liable for payment if the depository fails to pay a check, draft, or warrant drawn by the public officer or to account for a check, draft, warrant, order or certificates of deposit, or any public funds entrusted to it if in failing to pay the depository acts contrary to the terms of an agreement between the depository and the public body treasurer

3 If a depository is closed by its primary regulatory officials, the public body with deposits in the depository shall notify the treasurer of state of the amount of any claim within thirty days of the closing. The treasurer of state shall implement the following procedures

a In cooperation with the responsible regulatory officials for the depository, the treasurer shall validate the amount of public funds on deposit at the defaulting depository and the amount of deposit insurance applicable to the deposits

b The loss to public depositors shall be satisfied, first through any applicable deposit insurance and then through the sale of securities pledged by the defaulting depository, and then the assets of the defaulting depository. The priority of claims are those established pursuant to section 524 1312, subsection 2, section 533 22, subsection 1, paragraph "b", or section 534 517. To the extent permitted by federal law, in the distribution of an insolvent federally chartered depository's assets, the order of payment of liabilities if its assets are insufficient to pay in full all its liabilities for which claims are made shall be in the same order as for the equivalent type of state chartered depository as provided in section 524 1312, subsection 2, section 533 22, subsection 1, paragraph "b", or section 534 517

c The claim of a public depositor for purposes of this section shall be the amount of the depositor's deposits plus interest to the date the funds are distributed to the public depositor at the rate the depository institution agreed to pay on the funds reduced by the portion of the funds which is insured by federal deposit insurance

d If the loss to public funds is not covered by insurance and the proceeds of the failed depository's assets which are liquidated within thirty days of the closing of the depository and pledged collateral, the treasurer shall provide coverage of the remaining loss as follows

(1) If the loss was incurred in a bank, then any further payments to cover the loss will come from the state sinking fund for public deposits in banks. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other banks who hold public funds. The assessment shall be determined by multiplying the total amount of the remaining loss to all public depositors by a percentage that represents the average of public funds deposits held by all banks during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each bank shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a bank fails to pay its assessment when due, the treasurer shall satisfy the assessment by selling securities pledged by that bank. Idle balances in the fund are to be invested by the treasurer with earnings credited to the fund. Fees paid by banks for administration of this chapter will be credited to the fund and the treasurer may deduct actual costs of administration from the fund

(2) If the loss was incurred in a credit union, then any further payments to cover the loss will come from the state sinking fund for public deposits in credit unions. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other credit unions who hold public funds. The assessment shall be determined by multiplying the total amount of the remaining loss to public depositors by a percentage that represents the average of public funds deposits held by all credit unions during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each credit union shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a credit union fails to pay its assessment when due, the treasurer shall satisfy the assessment by selling securities pledged by that credit union. Idle balances in the fund are to be invested by the treasurer with earnings credited to the fund. Fees paid by credit unions for administration of this chapter will be credited to the fund and the treasurer may deduct actual costs of administration from the fund

(3) If the loss was incurred in a savings and loan or a savings bank, then any further payments to cover the loss will come from the state sinking fund for public deposits in savings and loan associations and savings banks. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other savings and loans and savings banks who hold public funds. The assessment shall be determined by multiplying the total amount of the remaining loss to public depositors by a percentage that represents the average of public funds deposits held by all savings and loans and savings banks during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each savings and loan and savings bank shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a savings and loan or savings bank fails to pay its assessment when due, the treasurer shall initiate a lawsuit to collect the assessment. If a savings and loan association or a savings bank is found to have

failed to pay the assessment as required by this subparagraph, the court shall order it to pay the assessment, court costs of the action, reasonable attorney's fees based upon the amount of time the attorney general's office spent preparing and bringing the action, and reasonable expenses incurred by the treasurer of state's office.

e Any amount realized from the sale of collateral pursuant to paragraph "d", subparagraphs (1) and (2) in excess of the amount of a depository's assessment, shall continue to be held by the treasurer, in the same interest bearing investments available for public funds, as collateral until that depository provides substitute collateral or is otherwise entitled to its release.

f Following collection of the assessments, the state treasurer shall distribute funds to the public depositors of the failed depository according to their validated claims. If the assets available are less than the total deposits, the treasurer shall prorate the claims. A public depositor receiving payment under this section shall assign to the treasurer any interest the public depositor may have in funds that subsequently become available to depositors of the defaulting depository.

85 Acts, ch 194, §6

453.24 Liability.

this chapter, a public body depositing public funds or its agents, employees, officers, and board members are exempt from liability for any loss resulting from the loss of a depository in the absence of negligence, malfeasance, misfeasance or nonfeasance on the part of the official. If the treasurer of state sells a depository's collateral securities, the depository shall deposit additional collateral to meet required collateral levels.

In making an assessment against depositories holding public funds as a result of a failure, the treasurer of state is exempt from any liability for loss, damage or expense to a depository which has accepted public funds.

At any time prior to the final adoption of the plans they may be amended, and as finally adopted by the board shall be conclusive unless the action of the board in finally adopting them shall be appealed from as hereinafter provided.

If the petition or other landowners requested a classification of the district prior to establishment, the board shall order a classification as provided by sections 455.45 to 455.51 after they have approved the report of the engineer as a tentative plan. If the board shall find that such petition complies with the requirements of law in form and substance, and that such improvement would be conducive to the public health, convenience, welfare, benefit, or utility, and that the cost thereof is not excessive, and no claim shall have been filed for damages, it may locate and establish the said district in accordance with the recommendation of the engineer and the report and plans on file; or it may refuse to establish the proposed district if it deem best, or it may direct the engineer or another one employed for that purpose to make further examinations, surveys, plats, profiles, and reports for the modification of said plans, or for new plans in accordance with sections 455.17 and 455.18, and continue further hearing to a fixed date. 455.33 Dismissal or establishment — permanent easement.

The board shall at said meeting, or at an adjourned session thereof, consider the costs of construction of said improvement as shown by the reports of the engineer and the amount of damages and compensation awarded to all claimants, and if, in its opinion, such costs of construction and amount of damages awarded create a greater burden than should justly be borne by the lands benefited by the improvement, it shall then dismiss the petition and assess the costs and expenses to the petitioners and their sureties, but if it finds that such cost and expense is not a greater burden than should be justly borne by the land benefited by the improvement, it shall finally and permanently locate and establish said district and improvement

Following its establishment, the drainage district is

deemed to have acquired by permanent easement all right of way for drainage district ditches, tile lines, settling basins and other improvements, unless they are acquired by fee simple, in the dimensions shown on the survey and report made in compliance with sections 455 17 and 455 18 or as shown on the permanent survey, plat and profile, if one is made The permanent easement includes the right of ingress and egress across adjoining land and the right of access for maintenance, repair, improvement and inspection The owner or lessee shall be reimbursed for any crop damages incurred in the maintenance, repair, improvement and inspection

[C24, 27, 31, 35, 39, §7453; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455 34]

455.35 Dissolution.

When for a period of two years from and after the date of the establishment of a drainage district, or when an appeal is taken or litigation brought against said district within two years from the date such appeal or litigation is finally determined, no contract shall have been let or work done or drainage certificates or bonds issued for the construction of the improvements in such district, a petition may be filed in the office of the auditor, addressed to the board of supervisors, signed by a majority of the persons owning land in such district and who, in the aggregate, own sixty percent or more of all the land embraced in said district, setting forth the above facts and reciting that provision has been made by the petitioners for the payment of all costs and expenses incurred on account of such district The board shall examine such petition at its next meeting after the filing thereof, and if found to comply with the above requirements, shall dissolve and vacate said district by resolution entered upon its records, to become effective upon the payment of all the costs and expenses incurred in relation to said district In case of such vacation and dissolution and upon payment of all costs as herein provided, the auditor shall note the same on the drainage record, show-

455.36 Permanent survey, plat and profile.

When the improvement has been finally located and established, the board may if necessary appoint the said engineer or a new one to make a permanent survey of said improvement as so located, showing the levels and elevations of each forty-acre tract of land and file a report of the same with the county auditor together with a plat and profile thereof.

percent of the bid, in no case to exceed ten thousand dollars. If the estimated cost of the improvement exceeds fifteen thousand dollars, the board may make additional publication for two consecutive weeks in a contractors' journal of general circulation, giving only the type of proposed construction or repairs, estimated amount, date of letting, amount of bidder's bond, and name and address of the county auditor. All notices shall fix the date to which bids will be received and upon which the work will be let. However, when the estimated cost of the improvement is less than five thousand dollars, the board may let the contract for the construction without taking bids and without publishing notice.

A bid shall be in writing, specifying the portion of the work upon which the bid is made, and filed with the auditor. The bid shall be accompanied with a deposit of cash, or a certified check on and certified by a bank in Iowa or a certified share draft drawn on a credit union in Iowa, payable to the auditor or the auditor's order at the auditor's office in a sum equal to ten percent of the amount of the bid, but not to exceed ten thousand dollars. However, if the maximum limit on bid deposits would cause a denial of funds or services from the federal government which would otherwise be available, or if the maximum limit would otherwise be inconsistent with the requirements of federal law, the maximum limit may be suspended to the extent necessary to prevent denial of federal funds or services or to eliminate the inconsistency with federal requirements. The checks or share drafts of unsuccessful bidders shall be returned to them, but the checks of successful bidders shall be held as a guarantee that they will enter into contract in accordance with their bids.

cent of the contract price of the work to be done, conditioned for the timely, efficient, and complete performance of the contract, and the payment, as they become due, of all just claims for labor performed and material used in carrying out the contract. When a contract is executed and bond approved by the board, the certified check or certified share draft deposited with the bid shall be returned to the bidder.

455.45 Commissioners to classify and assess.

When a levee or drainage district shall have been located and finally established or, unless otherwise provided by law, when the required proceedings have been taken to enlarge, deepen, widen, change, or extend any of the ditches, laterals, settling basins, or drains of such district, or the required proceedings have been had to annex additional lands to such district, or a plan of the United States government for original construction of the improvements in such district has been heretofore or hereafter adopted by such district under the provisions of sections 455.202 to 455.217, the board shall appoint three commissioners to assess benefits and classify the lands affected by such improvement. One of such commissioners shall be a competent civil engineer and two of them shall be resident freeholders of the county in which the district is located, but not living within, nor interested in any lands included in said district, nor related to any party whose land is affected thereby. The commissioners shall take and subscribe an oath of their qualifications and to perform the duties of classification of said lands, fix the percentages of benefits and apportion and assess the costs and expenses of constructing the said improvement according to law and their best judgment, skill, and ability. If said commissioners or any of them fail or neglect to act or perform the duties in the time and as required of them by law, the board shall appoint others with like qualifications to take their places and perform said duties.

[SS15, §1989-a12; C24, 27, 31, 35, 39, §7464; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.45]

See §455.74

455.46 Duties — time for performance — scale of benefits.

At the time of appointing said commissioners, the board shall fix the time within which said assessment, classification, and apportionment shall be made,

which may be extended for good cause shown. Within twenty days after their appointment, they shall begin to inspect and classify all the lands within said district, or any change, extension, enlargement, or relocation thereof in tracts of forty acres or less according to the legal or recognized subdivisions, in a graduated scale of benefits to be numbered according to the benefit to be received by each of such tracts from such improvement, and pursue said work continuously until completed and, when completed, shall make a full, accurate, and detailed report thereof and file the same with the auditor. The lands receiving the greatest benefit shall be marked on a scale of one hundred, and those benefited in a less degree with such percentage of one hundred as the benefits received bear in proportion thereto. They shall also make an equitable apportionment of the costs, expenses, fees, and damages computed on the basis of the percentages fixed.

[SS15, §1989-a12; C24, 27, 31, 35, 39, §7465; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.46]

455.47 Rules of classification.

In the report of the appraisers so appointed they shall specify each tract of land by proper description, and the ownership thereof, as the same appears on the transfer books in the auditor's office.

In estimating the benefits as to the lands not traversed by said improvement, they shall not consider what benefits such land shall receive after some other improvements shall have been constructed, but only the benefits which will be received by reason of the construction of the improvement in question as it affords an outlet to the drainage of such lands, or brings an outlet nearer to said lands or relieves the same from overflow and relieves and protects the same from damage by erosion.

455.48 Assessment for lateral ditches — reclassification of benefited lands.

1. In fixing the percentages and assessments of benefits and apportionment of costs of construction to lands benefited by lateral ditches and drains as a part of the entire improvement to be made in a drainage district, the commissioners shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited by such lateral ditches on the same basis and in the same manner as if said lateral was, with its sublaterals, being constructed as a subdistrict as provided in this chapter, reporting separately:

a. The percentage of benefits and amount accruing to each forty-acre tract or less on account of the construction of the main ditch, drain, or watercourse including pumping plant, if any.

b. The percentage of benefits and amount accruing to each forty-acre tract or less on account of the construction of such lateral improvement.

2. When there has been a repair or improvement to a lateral ditch or drain as provided in section 455.135 and the lands benefited by the lateral have not been classified as provided in this section, the board may order a classification of the lands and the commission shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited

by such lateral ditches or drains on the same basis and in the same manner as if the lateral was with its sublaterals being constructed as a subdistrict as provided in this chapter. When this procedure is followed for the classification of any lateral ditch or drain in a given district, the board shall follow the same procedure for all other lateral ditches or drains in the district which have not been classified as prescribed in this section.

[S13, §1989-a23; SS15, §1989-a12; C24, 27, 31, 35, 39, §7468; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.48]

455.49 Railroad property — collection.

The commissioners to assess benefits and make apportionment of costs and expenses shall determine and assess the benefits to the property of any railroad company extending into or through the levee or drainage district, and make return thereof showing the benefit and the apportionment of costs and expenses of construction. Such assessment when finally fixed by the board shall constitute a debt due from the railroad company to the district, and unless paid it may be collected by ordinary proceedings for the district in the name of the county in any court having jurisdiction. All other proceedings in relation to railroads, except as otherwise provided, shall be the same as provided for individual property owners within the levee or drainage district.

[S13, §1989-a18; C24, 27, 31, 35, 39, §7469; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.49]

455.50 Public highways and state-owned lands.

When any public highway or other public land extends into or through a levee or drainage district, the commissioners to assess benefits shall ascertain and return in their report the amount of benefits and the apportionment of costs and expenses to such highway or other public land, and the board of supervisors shall assess the same against such highway and land.

Such assessments against primary highways and other state-owned lands under the jurisdiction of the state department of transportation shall be paid by the state department from the primary road fund on due certification of the amount by the county treasurer to the department, and against all secondary roads and other county owned lands under the jurisdiction of the board of supervisors, from county funds.

When any state-owned lands under the jurisdiction of the department of natural resources are situated within a levee or drainage district, the commissioners to assess benefits shall ascertain and return in their report the amount of benefits and the apportionment of costs and expenses to such lands and the board of supervisors shall assess the same against such lands. However, the commissioners shall not assess benefits to property below the ordinary high water mark in a sovereign state-owned lake, marsh or stream under the jurisdiction of the department of natural resources.

The assessments against lands under the jurisdiction of the department of natural resources shall be paid by the executive council upon certification of the amount by the county treasurer. There is appropriated from any funds in the general fund of the state not otherwise appropriated amounts sufficient to pay the certified assessments.

The commissioners, within the time fixed or as extended, shall make and file in the auditor's office a written verified report in tabulated form as to each forty-acre tract, and each tract of less than forty acres, setting forth:

1. The names of the owners thereof as shown by the transfer books of the auditor's office or the reports of the engineer on file, showing said entire classification of lands in said district.

2. The amount of benefits to highway and railroad property and the percentage of benefits to each of said other tracts and the apportionment and amount of assessment of cost and expense, or estimated costs or expense, against each:

- a. For main ditches, and settling basins.
- b. For laterals.
- c. For levees and pumping station.
- d. For erosion protection and control or flood control.

3. The aggregate amount of all assessments.

4. Any specific benefits other than those derived from the drainage of agricultural lands shall be separately stated.

455.52 Notice of hearing.

The board shall fix a time for a hearing upon the report of the commissioners, and the auditor shall cause notice to be served upon each person whose name appears as owner, naming the person, and also upon the person or persons in actual occupancy of any tract of land without naming the person or persons, of the day and hour of such hearing, which notice shall be for the same time and served in the same manner as is provided for the establishment of a levee or drainage district, and shall state the amount of assessment of costs and expenses of construction apportioned to each owner upon each forty-acre tract or less, and that all objections thereto must be in writing and filed with the auditor at or before the time set for such hearing.

[SS15, §1989-a12; C24, 27, 31, 35, 39, §7472; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.52]

455.53 Hearing and determination.

At the time fixed or at an adjourned hearing, the board shall hear and determine all objections filed to said report and shall fully consider the said report, and may affirm, increase, or diminish the percentage of benefits or the apportionment of costs and expenses made in said report against any body or tract of land in said district as may appear to the board to be just and equitable.

[SS15, §1989-a12; C24, 27, 31, 35, 39, §7473; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.53]

455.54 Evidence — conclusive presumption.

At such hearing, the board may hear evidence both for and against the approval of said report or any portion thereof, but it shall not be competent to show that any of the lands in said district assessed for benefits or against which an apportionment of costs and expenses has been made will not be benefited by such improvement in some degree. Any interested party may be heard in argument in person or by counsel.

455.55 Notice of increased assessment.

The board shall cause notice to be served upon the owner of any tract of land or easement against which it is proposed to increase the assessment, requiring the owner to appear at a fixed date and show cause why such assessment should not be so increased. Such notice shall be served for the time and in the manner prescribed in section 455.21 or section 455.22, as the case may be, except that personal service in the same manner as an original notice may be made in lieu of the other methods.

455.56 Classification as basis for future assessments.

A classification of land for drainage, erosion or flood control purposes, when finally adopted, shall remain the basis of all future assessments for the purpose of said district unless revised by the board in the manner provided for reclassification, except that where land included in said classification has been destroyed, in whole or in part, by the erosion of a river, or where additional right of way has been subsequently taken for drainage purposes, said land which has been so eroded and carried away by the action of a river or which has been taken for additional right of way, may be removed by said board from said district as classified, without any reclassification, and no assessment shall thereafter be made on the land so removed. Any deficiency in assessment existing as the result of said action of the board shall be spread by it over the balance of lands remaining in said district in the same ratio as was fixed in the classification of the lands, payable at the next taxpaying period.

Except districts established by mutual agreement in accordance with section 455.152 in the event any forty-acre tract or less, or any lot, tract, or parcel, as set forth in the existing classification or reclassification of any drainage district now or hereafter established, is divided into two or more tracts, whether such division is by sale or condemnation or platted as a subdivision, the classification of the original tract shall be apportioned to the resulting parcels, regardless of use, except for land taken for additional drainage right of way. The classification of the original tract may be apportioned between the resulting parcels by agreement between the parties to such division. The parties shall file with the county auditor a written agreement setting forth the original description and the description of the tracts as subdivided and the percentage of the original classification apportioned to each. This agreement shall bear the signature of all of the parties to such subdivision. The agreement contemplated herein may be contained in the deed or other instrument effecting the division of the land, which agreement shall be binding upon the grantee or grantees by their acceptance of such instrument and their signatures shall not be necessary. The auditor shall enter this agreement in the drainage record and amend the current classification of the district in accordance with such agreement.

In the event the parties to such subdivision cannot agree as to the apportionment of the percentage classification, the board of supervisors shall, upon application of either party, appoint a commission having the qualifications of commissioners, in accordance with

section 455.45. The commissioners shall inspect the lands involved and apportion the existing classification of the original tract equitably and fairly to each of the several tracts as subdivided and shall make a full, accurate and detailed report thereof and file the same with the county auditor within the time set by the board. The report of the commissioners shall set forth the names of the owners thereof, the description of each of the tracts and the percentage of the original classification that each such tract shall bear (1) for main ditches and settling basins, (2) for laterals, (3) for levees and pumping station. Thereafter all the proceedings in relation thereto as to notice of hearing and fixing of percentage benefits shall be as in this chapter provided in relation to original classification and assessments, and at such hearing, the board may affirm, increase or diminish the percentage of benefits so as to make them just and equitable, and cause the record of the existing classification, percentage of benefits or assessments, or both, to be modified accordingly. In the event the parties neither agree as to the apportionment of classification nor make application for the appointment of commissioners, then the auditor of the county in which the land is situated shall make such apportionment upon an equitable basis and enter the same of record as herein provided. No tract of land included within the boundary of any drainage district shall be exempt from drainage assessments or reassessments, except as herein provided.

[SS15, §1989-a12; C24, 27, §7466, 7476; C31, 35, 39, §7476; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.56]

455.57 Levy — interest.

When the board has finally determined the matter of assessments of benefits and apportionment, it shall levy the assessments as fixed by it upon the lands within the district, but an assessment on a tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars. All assessments shall be levied at that time as a tax and shall bear interest at not to exceed the rate permitted by chapter 74A from that date, payable annually, except as provided as to cash payments within a specified time.

If the first assessment made by the board for the original cost or for repairs of any improvement is insufficient, the board shall make an additional assessment and levy in the same ratio as the first for either purpose, payable at the next taxpaying period after such indebtedness is incurred subject, however, to the provisions of section 455.64. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars

The treasurer, on order of the board of supervisors, shall invest such funds not immediately needed for current operating expenses in United States government bonds, in time certificates of deposit, in savings accounts in such banks as the board shall approve, in the interest bearing obligations of the drainage and levee districts of the county, or as provided by chapter 453. Interest collected by the treasurer on the funds so invested shall be deposited in the county drainage or levee fund, and on July 1 of each year the auditor shall apportion and credit such interest to each drainage or levee district account in the proportion which the average credit balance of each district bears to the average balance of the county drainage or levee fund. The averages to be ascertained shall be the averages of the balances existing on the first of each month during the fiscal year immediately preceding. Interest and penalties collected on drainage or levee district taxes shall be credited to the district for which the taxes are being collected. This section shall not be construed so as to permit expenditures in behalf of any district in excess of its share of the county drainage or levee fund. The provisions of this section shall not apply to drainage and levee districts under trustee management unless the trustees consent thereto, and in the absence of such consent, section 462.29 shall apply.

455.64 Installment payments — waiver.

If the owner of any land against which a levy exceeding one hundred dollars has been made and certified shall, within thirty days from the date of such levy, agree in writing endorsed upon any improvement certificate referred to in section 455.77, or in a separate agreement, that in consideration of having a right to pay the owner's assessment in installments, the owner will not make any objection as to the legality of the assessment for benefit, or the levy of the taxes against the property, then such owner shall have the following options:

1. To pay one-third of the amount of such assessment at the time of filing such agreement; one-third within twenty days after the engineer in charge shall certify to the auditor that the improvement is one-half completed; and the remaining one-third within twenty days after the improvement has been completed and accepted by the board. All such installments shall be without interest if paid at said times, otherwise said assessments shall bear interest from the date of the levy at a rate not exceeding that permitted by chapter 74A, payable annually, and be collected as other taxes on real estate, with like penalty for delinquency.

2. To pay such assessments in not less than ten nor more than twenty equal installments, the number to be fixed by the board, and interest at the rate fixed by the board, not exceeding that permitted by chapter 74A. The first installment of each assessment, or the total amount if less than one hundred dollars, is due and payable on July 1 next succeeding the date of the levy, unless the assessment is filed with the county treasurer after May 31 in any year. The first installment shall bear interest on the whole unpaid assessment from the date of the levy as set by the board to the first day of December following the due date. The succeeding annual installments, with interest on the whole unpaid amount, to the first day of December following the due date, are respectively due on July 1 annually, and must be paid at the same time and in the same manner as the first semiannual payment of ordinary taxes. All future installments of an assessment may be paid on any date by payment of the then outstanding balance plus interest accrued to the date of payment. Each installment of an assessment with interest on the unpaid balance is delinquent after the thirtieth day of September next after its due date, and bears the same delinquent interest with the same penalties as ordinary taxes. When collected, the interest and penalties must be credited to the same drainage fund as the drainage special assessment.

The provisions of this section and of sections 455.65 to 455.68 may within the discretion of the board, also be made applicable to repairs and improvements made under the provisions of section 455.135.

When all construction work has been completed and all cost paid, and all assessments have been paid in full, the board may refund, to the owner of each tract of land, the owner's proportionate part of any surplus funds except such portion of the surplus as the board considers should be retained for a sinking fund to pay future maintenance and repair costs.

modifications of the plan of improvement as may be necessary to meet the change of conditions. Upon the filing of such report, the board shall have jurisdiction to adopt said modified or amended plan of improvement or may further modify or amend and adopt the same by following the procedure provided in sections 455.202, 455.206 to 455.210 so far as same are applicable, except that awards for damages shall not be canceled where there has been no change made in the improvement which would increase or decrease the damages awarded. However, modifications and changes may be made in the plan on which hearing was held without further notice or hearing, provided the same do not increase or decrease the estimated cost to the district by more than twenty-five percent.

455.70 Subdrainage district.

After the establishment of a drainage district, any person owning land within the district which has been assessed for benefits, but which is separated from the main ditch, drain, or watercourse for which it has been so assessed, by the land of others, who desires a ditch or drain constructed from the person's land across the land of such others in order to connect with the main ditch, drain, or watercourse, and is unable to agree with the intervening owners on the terms and conditions on which the person may enter upon their lands and cause to be constructed such connecting drain or ditch, may file a petition for the establishment of a subdistrict and shall give notice of the filing of the petition in the manner provided by sections 455.20 through 455.24 for the notice of the hearing and have proofs on file before the appointment of the engineer. Thereafter the proceedings shall be the same as provided for the establishment of an original district.

455.71 Presumption — jurisdiction.

Such connecting ditch or drain which a person shall cause to be constructed shall be presumed conducive to the public health, welfare, convenience, and utility the same as if it had been so constructed as a part of the original improvement of said district. When such subdistrict has been established and constructed it shall become and be a part of the improvement of such drainage district as a whole and be under the control and supervision of the board to the same extent and in every way as if it had been a part of the original improvement of such district.

455.72 Reclassification.

When, after a drainage or levee district has been established, except districts established by mutual agreement in accordance with section 455.152, and the improvements thereof constructed and put in operation, there has been a material change as to lands occupied by highway or railroad right of way or in the character of the lands benefited by the improvement, or when a repair, improvement, or extension has become necessary, the board may consider whether the existing assessments are equitable as a basis for pay-

ment of the expense of maintaining the district and of making the repair, improvement or extension. If they find the same to be inequitable in any particular, they shall by resolution express such finding, appoint three commissioners possessing the qualifications prescribed in section 455 45 and order a reclassification as follows

1 If they find the assessments to be generally inequitable they shall order a reclassification of all property subject to assessment, such as lands, highways, and railroads in said district

2 If the inequity ascertained by the board is limited to the proportion paid by highways or railroads, a general reclassification of all lands shall not be necessary but the commissioners may evaluate and determine the fair proportion to be paid by such highways or railroads or both as provided in sections 455 49 and 455 50

3 Any benefits of a character for which levee or drainage districts may be established and which are attributable to or enhanced by the improvement or by the repair, improvement, or extension thereof, shall be a proper subject of consideration in a reclassification notwithstanding the district may have been originally established for a limited purpose

4 If after a district has been reclassified, the board in its judgment concludes there were errors in the reclassification or there is an inequitable assessment of benefits, the board may on its own motion, after notice to the landowners involved as provided in sections 455 20 to 455 24 and by resolution, order the district or any portion of the district to again be reclassified as prescribed in this section and in section 455 74

Such reclassification when finally adopted shall remain the basis for all future assessments unless revised as provided in this chapter

455.74 Procedure governing reclassification.

The proceedings for such reclassification shall in all particulars be governed by the same rules as for original classification. The commissioners shall fix the percentage of actual benefits and make an equitable apportionment of the costs and expenses of such repairs, improvements or extensions and file a report thereof with the auditor in the same form and manner as for original classification. Thereafter, all the proceedings in relation thereto as to notice hearing, and fixing of percentage of benefits and amount of assessments shall be as in this chapter provided in relation to original classification and assessments, and at such hearing the board may affirm, increase, or diminish the percentage and assessment of benefits and apportionment of costs and expenses so as to make them

just and equitable, and cause the record of the original classification, percentage of benefits, and assessments to be modified accordingly

455.127 Expenses attending passage.

The work necessary to afford such passage shall be deemed to be covered by and included in the contract with the district under which the contractor is operating, and if the work is done by the owner or operator of such utility the reasonable expense thereof shall be paid out of the drainage funds of the district and charged to the account of the contractor.

455.127A Abandoned right-of-way.

If a railroad or other utility has abandoned the use of its right-of-way for the purpose it was originally acquired or has sold its right-of-way to a person who will use it for a purpose other than for which it was originally acquired, the prior right or privilege of the drainage district to pass through the right-of-way of the railroad or utility shall become a permanent easement in favor of the drainage district for drainage purposes including the right of ingress and egress through adjacent property and the right of access for maintenance, repair, improvement and inspection. The permanent easement has the same dimensions as originally specified in the engineer's report and survey, or as acquired by use or as subsequently acquired.

If a railroad or other utility has abandoned the use of its right-of-way for the purpose it was originally acquired or has sold its right-of-way to a person who will use it for a purpose other than for which it was originally acquired in segments, each segment shall be assessed for benefits in the same proportion as the area of the segment bears to the area of the right-of-way through the forty-acre tract.

455.128 Annexation of additional lands.

After the establishment of a levee or drainage district, if the board becomes convinced that additional lands contiguous to the district, and without regard to county boundaries, are benefited by the improvement or that the same are then receiving benefit or will be benefited by a repair or improvement to said district as contemplated in section 455.135, it may adopt, with or without a petition from owners of the proposed annexed lands, a resolution of necessity for the annexation of such additional land and appoint an engineer with the qualifications provided in this chapter to examine such additional lands, to make a survey and plat thereof showing their relation, elevation, and condition of drainage with reference to such established district, and to make and file with the auditor a report as in this chapter provided for the original establishment of such district, said report to specify the character of the benefits received.

In the event the additional lands are a part of an existing drainage district, as an alternative procedure to that established by the foregoing provisions of this section, the lands may be annexed in either of the following methods:

1. A petition, proposing that the lands be included in a contiguous drainage district and signed by at least

twenty percent of the landowners of those lands to be annexed, shall be filed with the governing board of each affected district.

The board of the district in which the lands are presently included may, at its next regular meeting or at a special meeting called for that purpose, adopt a resolution approving and consenting to the annexation; or

2. Whenever the owners of all of the land proposed to be annexed file a petition with the governing boards of the affected districts, the consent of the board in which the lands are then located shall not be required to consent to the annexation, and the board of the annexing district may proceed as provided in this section.

3. If either method of annexation provided for in subsections 1 and 2 of this section is completed, the board of the district to which the lands are to be annexed may adopt a resolution of necessity for the annexation of the additional lands, as provided in this section.

The right of remonstrance, as provided under section 455.34, does not apply to the owners of lands being involuntarily annexed to an established district.

85 Acts, ch 163, §5

455.129 Proceedings on report.

If the report recommends the annexation of the lands or any portion of them, the board shall consider the report, plats, and profiles and if satisfied that any of the lands are materially benefited by the district and that annexation is feasible, expedient, and for the public good, it shall proceed in all respects as to notice, hearing, appointment of appraisers to fix damages and as to hearing on the annexation; and if the annexation is finally made, as to classification and assessment of benefits to the annexed lands only, to the same extent and in the same manner as provided in the establishment of an original district. However, the annexation and classification of the annexed lands for benefits may be determined at one hearing. Those parties having an interest in the lands proposed to be annexed have the right to receive notice, to make objections, to file claims for damages, to have hearing, to take appeals and to do all other things to the same extent and in the same manner as provided in the establishment of an original district.

[S13, §1989-a54; C24, 27, 31, 35, 39, §7550; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.129]

85 Acts, ch 163, §6

455.130 Levy on annexed lands.

After annexation is made the board may levy upon the annexed lands an assessment sufficient to equal the assessments for benefit originally paid by the lands of equal classification if the finding by the board as provided by section 455.128 was that the lands should have been included in the district when originally established, plus their proportionate share of the costs of any enlargement or extension of drains required to serve the annexed lands. If the finding of the board as provided in section 455.128 was based on the fact that additional lands are now benefited by virtue of the repair, improvement, or the change of the topographi-

cal conditions made to the district and were not benefited by the district as originally established, then the board shall levy upon the annexed lands an assessment sufficient to pay their proportionate share of the costs of the repair or improvement which was the basis for the lands being annexed. If the board finds that the lands are presently receiving benefits from the district but that some were reasonably omitted from the original establishment because of the change of the topographical conditions, the assessments levied upon the annexed lands shall be limited to a proportionate share of the costs of current and future maintenance, repairs and improvements.

455.131 Use of former and abandoned surveys.

In cases where proceedings have been taken for the establishment of a levee or drainage district and an engineer has been appointed who has made a survey, return, and plat thereof and for any reason the improvement has been abandoned and the proceedings dismissed, and afterward proceedings are instituted for the establishment of a levee or drainage district which will benefit any territory surveyed in said former proceedings, the engineer shall use so much of the return, levels, surveys, plat, and profile made in the former proceedings as may be applicable. The engineer shall specify in the engineer's reports the parts thereof so used, and in case the cost of said returns, levels, surveys, plat, and profile made in said former proceedings has been paid by the former petitioners or their sureties, then a reasonable amount shall be allowed said petitioners or sureties for the use of the same.

[S13, §1989-a16; C24, 27, 31, 35, 39, §7552; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.131]

455.132 Unsuccessful procedure — re-establishment.

When proceedings have been instituted for the establishment of a drainage district or for any change or repair thereof, or the change of a natural watercourse, and the establishment thereof has failed for any reason either before or after the improvement is completed, the board shall have power to re-establish such district or improvement and any new improvement in connection therewith as recommended by the report of the engineer. As to all lands benefited by such re-establishment, repair, or improvement, the board shall proceed in the same manner as in the establishment of an original district, using as a basis for assessment the entire cost of the proceedings, improvement, and maintenance from the beginning; but in awarding damages and in the assessment of benefits account shall be taken of the amount of damages and taxes, if any, theretofore paid by those benefited, and credit therefor given accordingly. All other proceedings shall be the same as for the original establishment of the district, making of improvements, and assessment of benefits.

[S13, §1989-a17, -a50; C24, 27, 31, 35, 39, §7553; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.132]

455.133 New district including old district.

If any levee or drainage district or improvement established either by legal proceedings or by private par-

ties shall be insufficient to properly drain all of the lands tributary thereto, the board upon petition as for the establishment of an original levee or drainage district, shall have power to establish a new district covering and including such old district or improvement together with any additional lands deemed necessary. All outstanding indebtedness of the old levee or drainage district shall be assessed only against the lands included therein.

[S13, §1989-a25; C24, 27, 31, 35, 39, §7554; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.133]

455.134 Credit for old improvement.

When such district as contemplated in section 455.133 and the new improvement therein shall include the whole or any part of the former improvement, the commissioners, for classification of lands for assessment of benefits and apportionment of costs and expenses of such new improvement, shall take into consideration the value of such old improvement in the construction of the new one and allow proper credit therefor to the parties owning the old improvement as their interests may appear. In all other respects the same proceedings shall obtain as are provided for the original establishment of levee and drainage districts.

[S13, §1989-a25; C24, 27, 31, 35, 39, §7555; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.134]

455.135 Repair.

1. When any levee or drainage district has been established and the improvement constructed, the improvement shall be at all times under the supervision of the board of supervisors except as otherwise provided for control and management by a board of trustees and the board shall keep the improvement in repair as provided in this section.

a. The board at any time on its own motion, without notice, may order done whatever is necessary to restore or maintain a drainage or levee improvement in its original efficiency or capacity, and for that purpose may remove silt and debris, repair any damaged structures, remove weeds and other vegetable growth, and whatever else may be needed to restore or maintain such efficiency or capacity or to prolong its useful life.

b. The board may at any time obtain an engineer's report regarding the most feasible means of repairing a drainage or levee improvement and the probable cost of making the repair. If the engineer advises, or the board otherwise concludes that permanent restoration of a damaged structure is not feasible at the time, the board may order temporary construction it deems necessary to the continued functioning of the improvement. If in maintaining and repairing tile lines the board finds from an engineer's report it is more economical to construct a new line than to repair the existing line, the new line may be considered to be a repair.

c. If the estimated cost of any repair exceeds ten thousand dollars, or seventy-five percent of the original total cost of the district and subsequent improvements, whichever is the greater amount, the board shall set a date for a hearing on the matter of making the proposed repairs, and shall give notice as provided in sections 455.20 to 455.24. If a hearing is required and the estimated cost of the repair exceeds twenty-

five thousand dollars, an engineer's report or a report from the soil conservation district conservationist shall be presented at the hearing. The requirement of a report may be waived by the board if a prior report on the repair exists and that report is less than ten years old. The board shall not divide proposed repairs into separate programs in order to avoid the notice and hearing requirements of this paragraph. At the hearing the board shall hear objections to the feasibility of the proposed repairs, and following the hearing the board shall order that the repairs it deems desirable and feasible be made. Any interested party has the right of appeal from such orders in the manner provided in this chapter.

d The right of remonstrance does not apply to repairs as defined in this section.

2 In the case of minor repairs, or in the eradication of brush and weeds along the open ditches, not in excess of five thousand dollars where the board finds that a saving to the district will result it may cause the repairs or eradication to be done by secondary road equipment, or weed fund equipment, and labor of the county and then reimburse the secondary road fund or the weed fund from the fund of the drainage district thus benefited.

3 When the board deems it necessary it may repair or reconstruct the outlet of any private tile line which empties into a drainage ditch of any district and assess the costs in each case against the land served by the private tile line.

4 For the purpose of this subsection, an "improvement" in a drainage or levee district in which any ditch, tile drain or other facility has previously been constructed is a project intended to expand, enlarge or otherwise increase the capacity of any existing ditch, drain or other facility above that for which it was designed.

a When the board determines that improvements are necessary or desirable, it shall appoint an engineer to make surveys as seem appropriate to determine the nature and extent of the needed improvements, and to file a report showing what improvements are recommended and their estimated costs, which report may be amended before final action. If the estimated cost of the improvements does not exceed five thousand dollars, or twenty five percent of the original cost of the district and subsequent improvements, whichever is the greater amount, the board may order the work done without notice. The board shall not divide proposed improvements into separate programs in order to avoid the limitation for making improvements with out notice. If the board deems it desirable to make improvements where the estimated cost exceeds that limit, it shall set a date for a hearing on the matter of constructing the proposed improvements and also on the matter of whether there shall be a reclassification of benefits for the cost of the proposed improvements, and shall give notice as provided in sections 455 20 to 455 24. At the hearing the board shall hear objections to the feasibility of the proposed improvements and arguments for or against a reclassification presented by or for any taxpayer of the district. Following the hearing the board shall order that the improvements it deems desirable and feasible be made, and shall also determine whether there should be a reclassification of benefits for the cost of improvements. If it is deter-

mined that a reclassification of benefits should be made the board shall proceed as provided in section 455 45.

b If the estimated cost of the improvements as defined in this subsection exceeds twenty thousand dollars, or the original cost of the district plus the cost of subsequent improvements in the district, whichever is the greater amount, a majority of the landowners, owning in the aggregate more than seventy percent of the total land in the district, may file a written remonstrance against the proposed improvements, at or before the time fixed for hearing on the proposed improvements, with the county auditor, or auditors in case the district extends into more than one county. If a remonstrance is filed, the board shall discontinue and dismiss all further proceedings on the proposed improvements and charge the costs incurred to date for the proposed improvements to the district. Any interested party may appeal from such orders in the manner provided in this chapter. However, this section does not affect the procedures of section 455 142 covering the common outlet.

5 Where under the laws in force prior to 1904, drainage ditches and levees were established and constructed without fixing at the time of establishment a definite boundary line for the body of land to be assessed for the cost thereof, the body of land which was last assessed to pay for the repair thereof shall also be considered as the established district for the purpose of this section.

6 The governing body of the district may, by contract or conveyance, acquire, within or without the district, the necessary lands or easements for making repairs or improvements under this section, including easements for borrow and easements for meander, and in addition thereto, the same may be obtained in the manner provided in the original establishment of the district, or by exercise of the power of eminent domain as provided for in chapter 472. If additional right of way is required for any repair or improvement under this section, the same may be acquired in the same manner as provided for the acquisition of right of way in the original establishment of a district, except that where notice and hearing are not otherwise required under this section notice as provided in this chapter to owners, lienholder of record, and occupants of the land from which right of way is to be acquired shall suffice.

7 In existing districts where the stream has by erosion appropriated lands beyond its original right of way and it is more economical and feasible to acquire an easement for such erosion and meander than to undertake containment of the stream in its existing right of way, the board may in the discharge of the duties enjoined upon it by this section, effect such acquisition as to the whole or part of the course. Right of way so taken shall be classed an improvement for the purpose of procedure under this section.

8 If the drainage records on file in the auditor's office for a particular district do not define specifically the land taken for right of way for drainage purposes, the board may at any time upon its own motion employ a land surveyor to make a survey and report of the district and to actually define the right of way taken for drainage purposes. After the land surveyor has filed the survey and report with the board, the board shall fix a date for hearing on the report and shall serve

notice of the hearing upon all landowners and lienholders of record and occupants of the lands traversed by the right of way in the manner and for the time required for service of original notices in the district court. At the hearing the board shall specifically define the land taken for the right-of-way. Once established, the right-of-way constitutes a permanent easement in favor of the drainage district for drainage purposes including the right of ingress and egress across adjoining land and the right of access for maintenance, repair, improvement and inspection. A person aggrieved by the action or failure to act of the board under this subsection may appeal only in compliance with sections 455.92 through 455.108.

455.136 Payment.

The costs of the repair or improvements provided for in section 455.135 shall be paid for out of the funds of the levee or drainage district. If the funds on hand are not sufficient to pay such expenses, the board within two years shall levy an assessment sufficient to pay the outstanding indebtedness and leave the balance which the board determines is desirable as a sinking fund to pay maintenance and repair expenses. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

If the board deems that the costs of the repairs or improvements will create assessments against the lands in the district greater than should be borne in one year, it may levy the same at one time and provide for the payment of said costs and assessments in the manner provided in sections 455.64 to 455.68; provided that assessments may be collected in less than ten installments as the board may determine.

[S13, §1989-a21; C24, 27, 31, 35, 39, §7557; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.136]

455.137 Impounding areas and erosion control devices.

Levee and drainage districts are empowered to construct impounding areas and other flood and erosion control devices to protect lands of the district and drainage structures and may provide ways for access to improvements for the operation or protection thereof, where the cost is not excessive in consideration of the value to the district. Necessary lands or easements may be acquired within or without the district by purchase, lease or agreement, or by exercise of the right of eminent domain and may be procured and construction undertaken either independently or in co-operation with other districts, individuals, or any federal or state agency or political subdivision.

455.138 Revenues used for operation, maintenance and construction.

Levee and drainage districts may realize income from incidental uses of their improvements and rights of way which are not injurious to same or incompatible with the purposes of the district. Revenues derived therefrom may be expended for operating, mainte-

nance or construction costs of the district as its governing body may elect.

[C54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.138]

455.139 City may discharge treated sewage.

Any board, as defined in section 455.4, may by contract permit any city to discharge adequately treated sewage into drainage ditches. The contract shall fix the rental, make provision for termination, and shall provide that no nuisance shall be created.

455.140 Repealed by 53GA, ch 202, §23-26.

455.141 Reclassification required.

When an assessment for improvements as provided in section 455.135, exceeds twenty-five percent of the original assessment and the original or subsequent assessment or report of the benefit commission as confirmed did not designate separately the amount each tract should pay for the main ditch and tile lateral drains then the board shall order a reclassification in accordance with the principles and rules set forth in section 455.48.

[C24, 27, 31, 35, 39, §7562; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.141]

455.142 Improvement of common outlet — notice of hearing.

When two or more drainage districts outlet into the same ditch, drain, or natural watercourse and the board determines that it is necessary to clean out, deepen, enlarge, extend, or straighten said ditch, drain, or natural watercourse in order to expeditiously carry off the combined waters of such districts, the board may proceed as provided in section 455.135. After said board has decided that such work should be done, it shall fix a date for hearing on its decision, and it shall give two weeks' notice thereof by certified mail to the auditor of the county wherein the land to be assessed for such work is located, and said county auditor shall thereupon immediately notify by certified mail the board or boards of trustees of the districts having supervision thereof, as to said hearing on said contemplated work. In those instances where two or more districts involved are under the supervision of the same board, or joint board if the district is intercounty, the notice shall be given to all landowners affected as prescribed for in sections 455.20 to 455.24. Each district shall be assessed for the cost of such work in proportion to the benefits derived. Common outlet for the purpose of this section shall mean an outlet where two adjacent districts have an outlet common to both of said districts and which districts are also contiguous, one to the other.

[S13, §1989-a24; C24, 27, 31, 35, 39, §7563; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455.142]

455.143 Commissioners to apportion benefits — interest prohibited.

For the purpose of ascertaining the proportionate benefits, the board shall appoint commissioners having the qualifications of benefit commissioners, one of whom shall be an engineer. Such commissioners appointed shall not be residents of any of the districts

affected, nor shall any member thereof have any interest in land in any districts affected by the contemplated work. Such commission shall determine the percentage of benefits and the sum total to be assessed to each district for the improvement.

In the event that one of the districts to be assessed under this statute shall have any improvement such as a settling basin which reduces the quality and quantity of flow or sediment, such commission may give consideration to the existence of such an improvement when they determine the percentage of benefits and the sum total to be assessed to each district for the improvement.

[C24, 27, 31, 35, 39, §7564; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455 143]

455.144 Time of report — notice of hearing.

When said commissioners are appointed, the board shall, by proper order, fix the time when the commissioners shall report their findings, but a report filed within thirty days of the time so fixed shall be deemed a compliance with said order. On the filing of said report, the board shall fix a time for hearing thereon, and it shall give notice thereof to the auditor of the county in which the land to be assessed for such work is located by certified mail, said county auditor shall thereupon immediately notify by certified mail the board of supervisors, and board or boards of trustees of the districts having supervision thereof, as to said hearing on said commissioner's report. In those instances where two or more districts are under the supervision of the same board, or joint board if the district is intercounty, the notice shall be given to all landowners affected as prescribed in sections 455 20 to 455 24.

[C24, 27, 31, 35, 39, §7565; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455 144]

455.145 Report and review — appeal.

The commissioners shall file with the board a detailed report of their findings. Said board shall review said report and may, by proper order, increase or decrease the amount which shall be charged to each district. After the final order of the board herein has been made, said board shall notify the county auditor, in the time and manner as provided in sections 455 143 and 455 144, of said order, and said county auditor shall notify by certified mail the board of supervisors, and said board or boards of trustees, of said final order. Said board of supervisors and said board or boards of trustees, if aggrieved by said final order, may appeal therefrom to the district court of the county in which any of the improvement proposed or done is located.

Any such appeal shall be taken, perfected and conducted in the time and manner provided in sections 455 92, 455 94 to 455 98, for appeals contemplated by said sections.

455.146 Levy under original classification.

If the amount finally charged against a district does not exceed twenty-five percent of the original cost of the improvement in said district, the board shall proceed to levy said amount against all lands, highways, and railway rights of way and property within the dis-

trict, in accordance with the original classification and apportionment. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

[C24, 27, 31, 35, 39, §7567; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455 146]

455.147 Levy under reclassification.

If the amount finally charged against a district exceeds twenty five percent of the original cost of the improvement, the board may order a reclassification as provided for the original classification of a district and upon the final adoption of the new classification and apportionment shall proceed to levy that amount upon all lands, highways, and railway rights of way and property within the district, in accordance with the new classification and apportionment. An assessment made under this section on a tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

455.148 Removal of obstructions.

The board shall cause to be removed from the ditches, drains, and laterals of any district any obstructions which interfere with the flow of the water, including trees, hedges, or shrubbery and the roots thereof, and may cause any tile drain so obstructed to be relaid in concrete or any other adequate protection, such work to be paid for from the drainage funds of the district.

455.149 Trees and hedges.

When it becomes necessary to destroy any trees or hedges outside the right of way of any ditch, lateral, or drain in order to prevent obstruction by the roots thereof, if the board and the owners of such trees or hedges cannot agree upon the damage for the destruction thereof, the board may proceed to acquire the right to destroy and remove such trees or hedges by the same proceedings provided for acquiring right of way for said drainage improvement in the first instance.

455.150 Outlet for lateral drains — specifications.

The owner of any premises assessed for the payment of the costs of location and construction of any ditch, drain, or watercourse as in this chapter provided, shall have the right to use the same as an outlet for lateral drains from the premises. The board of supervisors shall make specifications covering the manner in which such lateral drains shall be connected with the main ditches or other laterals and be maintained, and the owner shall follow such specifications in making and maintaining any such connection.

The board shall have similar authority relative to the construction and maintenance of silt basins upstream from the district boundary. In case the board and the owners of the land required for such outlet or silt basin cannot agree upon the price to be paid as compensation for the land taken or used, the board is hereby empowered to exercise the right of eminent domain in order to procure such necessary right of way.

This amendment in 1978 shall not be construed to affect any litigation involving the lease, sale or conveyance of property by the board of supervisors or board of trustees, as the case may be, of a drainage or levee district, which litigation is pending on July 1, 1978.

Should there not be a sufficient amount in the fund of said district, or subdistrict, to pay said warrant then the board of supervisors, or the trustees of the district, as the case may be, are authorized to borrow a sum of money sufficient for that purpose on a warrant for that amount on the fund of the district, or subdistrict, which warrant shall bear interest from date at a rate not exceeding that permitted by chapter 74A and shall have preference in payment over all other unpaid warrants on said fund, and the county treasurer shall so enter the same on the list of warrants in the treasurer's office and call the same for payment as soon as there is sufficient money in said fund.

Said application shall be heard by the court, at the time and place so designated, and after hearing thereon the court may appoint one of the members of the governing board of said drainage or levee district as receiver for said real estate, on the grounds that the said real estate is producing returns, and that the general and special taxes against the same are not being paid, and direct the receiver to forthwith take possession of the same and to collect the rents, issues and profits therefrom.

455.194 Avoidance of receivership.

The owner of any such tract of real estate may avoid the appointment of such receiver, either before or after

455.197 Land classification and assessment in district.

1 *a* When a levee district shall have been located and finally established, or

b When the required proceedings have been taken to enlarge, extend, strengthen, raise, relocate, reconstruct, or improve any existing levee, or

c When the required proceedings have been held to annex additional lands to said levee district or to exclude or eliminate lands from said levee district, or

d When a plan of the United States government for the construction of any levee, or a portion of a levee, in said levee district, or for the enlarging, extending, strengthening, raising, relocating, reconstructing, or improving any existing levee, or a portion thereof, in accordance with any such plan in said levee district, has been heretofore or hereafter adopted by such levee district under the provisions of sections 455 202 to 455 217, or

e When the board shall, as authorized by section 455 72, determine that the assessments of benefits of said levee district against the lands in said levee district are generally inequitable the board may by resolution, or if a petition is filed by more than one-third of the owners, including corporations, of land within said levee district and who in the aggregate own more than one third of the value of the land and land improvements in said levee district as the value thereof is then shown by the general tax records of the county or counties in which such land and land improvements are located, requesting the board to do so, the board shall order the lands in said levee district and the improvements on the land in said levee district classified or reclassified in accordance with the assessed taxable value of said land and land improvements as the same are then shown and as the same may be thereafter shown by the assessment roll of the county or counties in which said land and land improvements are located

The assessed taxable value of any land, including land improvements exempt from general taxation but subject to assessment for levee purposes, shall be determined by the county assessor who shall make such determination in accordance with the rules of assessment applicable to adjacent lands and without any additional compensation therefor

2 If the board orders classification or reclassification of lands as authorized in subsection 1 of this section, the board shall fix a time and place for a hearing to be held upon the action of the board in ordering such classification or reclassification, which hearing shall be held at the county seat of the county having the largest acreage in said levee district. The board shall cause notice of the time and place of such hearing to be served by the county auditor or auditors upon each person whose name appears as owner of lands or land improvements within the levee district in the transfer books of the auditor's office in the county or counties in which said levee district is located, naming that person, and also upon the person or persons in actual occupancy of any tract of land or land improvements located in said levee district, without naming that person or persons. Such notice shall be for the same time and served in the same manner as is provided for the establishment of a levee district, and such notice shall state

a The aggregate estimated costs and expenses which the board proposes to assess under such classification or reclassification,

b The total aggregate assessed taxable value of all lands and land improvements in said levee district,

c That the said classification or reclassification of benefits will be based on the assessed taxable value of all lands and improvements to lands located in said levee district,

d That each tract of land and each land improvement in said levee district will be assessed for its pro rata share of said costs and expenses based upon the ratio that the assessed value of each tract of land and the assessed value of each land improvement bears to the total assessed taxable value of all lands and all land improvements in said district, and

e That all objections to said method of classification or reclassification shall be in writing and filed with the auditor of the county in which said land or land improvements are located before the time set for said hearing or with the board of trustees of said district at or before the time set for such hearing

The notice need not show the amount of such costs and expenses to be apportioned to each such owner or to any particular tract of land or land improvement within such levee district

3 If at or before the time set for said hearing as to such classification or reclassification, there shall have been filed with the county auditor, or auditors in case the district extends into more than one county, or with said board, a remonstrance or remonstrances or objections to such method of classification or reclassification signed by owners of land and land improvements in the levee district aggregating sixty percent of the total assessed value of the lands plus land improvements in said district as shown by the taxing records in said county or counties in which said district is located, the board shall abandon the alternative method of classification or reclassification herein autho-

rized The board may then proceed to classify the lands in said levee district as authorized under sections 455 45 to 455 51 or may proceed to reclassify the same as authorized under section 455 72 unless said remonstrances and objections filed as above provided are filed by a majority of the landowners in the levee district and these remonstrants and objectors in the aggregate own seventy percent or more of the acreage of lands in the levee district and, in writing, object to any reclassification of any kind, then the board shall not reclassify the lands within the district under the provision of this section nor shall the same be reclassified under the provisions of section 455 72

4 At the time fixed or at any adjourned hearing if the remonstrances and objections filed at or before the hearing are not signed by sufficient number of owners, or the owners signing such remonstrances and objections do not meet the requirements hereinabove provided, then the board shall fully consider all objections and remonstrances and shall make a determination as to whether or not the costs and expenses shall be assessed

a By the alternative method hereinabove set forth, or

b As provided by sections 455 45 to 455 51, or

c That the land should be reclassified as provided in section 455 72, or

d On the basis of a then existing classification of lands

5 If the board shall determine that the cost and expenses shall be assessed on the basis of assessed taxable value as hereinabove provided, then such basis shall be used for all future assessments made for the purposes of said levee district except if said assessed taxable value of lands and land improvements in said levee district may be changed or revised by the county assessor in the county or counties in which the same are located for general tax purposes, then any such revision made in the assessed taxable value by any such county assessor shall automatically constitute a revision of the classification of such land or land improvements for future assessments made by the board for the purpose of said levee district

6 In lieu of the hearing provided for in the preceding subsections, the board may, and if the petition of owners provided for in the preceding subsections so asks, the board shall call for an election for the purpose of determining the question of classification on the basis of assessed value of lands and land improvements The question may be submitted at a regular election of the district or at a special election called for that purpose It shall not be mandatory for the county commissioner of elections to conduct the elections, however provisions of sections 49 43 through 49 47 and of chapter 462, insofar as the same are applicable, shall govern all such elections, and the question to be submitted shall be set forth in the notice of election If sixty percent of the votes cast be in favor of the proposed change in assessment, it shall become effective for all future assessments as heretofore provided in this section If the question should fail, no new election on the subject may be called for a period of one year

7 When a levee district has been established and constructed, as an alternative to the other methods prescribed by law, upon reclassification, the levee dis-

trict may adopt a method of classification and assessment uniform as to all land in the district, including railroad land, public highways and other public land and land exempt from general taxation, based on the total amount to be assessed divided by the total acres within the district This method of classification and assessment may be adopted either by hearing or by election and shall become effective as heretofore provided in this section

8 When a drainage district or drainage and levee district has been established and constructed, and after the lands therein have been classified in accordance with the provisions of sections 455 46, 455 47, and 455 48 or reclassified in accordance with section 455 72, the district may adopt methods of assessment for maintenance, repair, and operation of said district uniform as to all land in the district in the same manner and by the same procedures as prescribed in subsections 1 through 7 of this section Provided, however, that only those lands drained by respective mains and laterals shall be assessed for maintenance, repair, and operation of said mains and laterals, and provided further that this alternate method of assessment shall not be applied to making improvements in the drainage system

9 Following the adoption of any alternative method of classification or assessment as provided in this section, the same shall continue in effect until such time as the method is changed pursuant to this section or to section 455 72

10 All proceedings taken prior to July 1, 1968, purporting to establish or re-establish a drainage or levee district or districts, or to enlarge or change the boundaries of any drainage or levee district, and any assessments not heretofore declared invalid by any court, are hereby legalized, validated, and confirmed

The foregoing shall not be construed to affect any litigation that may be pending at the time this section becomes effective involving the establishment, re establishment, enlargement, or change in boundaries or any assessments of drainage or levee districts

[C71, 73, 75, 77, 79, 81, §455 197]

455.198 Warrants not paid for want of funds.

Chapter 74 shall be applicable to all warrants which are legally drawn on levee and drainage district funds and are not paid for want of funds

[C71, 73, 75, 77, 79, 81, §455 198]

455.199 Easements through a drainage district.

As used in this section, "person" shall mean any individual or group of individuals, corporation, firm, company, or association, except a railroad company

1 When any person proposes to construct a pipe line, electric transmission line, communication line, underground service line, or other similar installations on, over, across, or beneath the right of way of any drainage or levee district, such person shall, before beginning construction, obtain from the drainage or levee district an easement to cross the district's right of way The governing body of the district shall require such person to agree to comply with subsection 3 of this section and may, as a condition of granting such easement, attach thereto such additional conditions as they deem necessary When the necessary easement has been obtained, such person shall construct the

installation at the person's own expense and shall pay all costs of any reconstruction, relocation, modification, or reinstallation of the drainage or levee district's facility which may be necessary as a result of construction of the installation for which the easement was granted

2 After construction of the installation has been completed in accordance with all conditions under which the easement is granted, the drainage or levee district shall maintain its facility at its own expense, and the person who constructed the installation, or the person's successors in interest, shall maintain the installation at the person's or successor's own expense. If the drainage or levee district subsequently undertakes any maintenance improvement or reconstruction of its facility which requires the modification, relocation, or reconstruction of the installation, the expense of such modification, relocation, or reconstruction shall be borne by the person who constructed the installation or the person's successors in interest.

3 When the construction of a public highway, or any installation for which an easement has been obtained under subsection 1 of this section, on, over, across, or beneath the right of way of any drainage or levee district disturbs or requires replacement of any portion of a tile drain less than twenty inches in diameter, and a portion of such drain will remain wholly or partially exposed after the construction project has been completed, the portion which is to remain exposed and not less than three feet of such drain immediately on either side of the portion which is to remain exposed, shall be replaced either with steel pipe of not less than sixteen gauge or polyvinyl chloride pipe conforming to current industry standards regarding diameter and wall thickness.

[C71, 73, 75, 77, 79, 81, §455 199]

455.200 Agreements with outside owners or other districts.

Levee and drainage districts are empowered to enter into agreements with the owners of lands lying outside of said districts, or with other levee and drainage districts or municipalities, to provide levee protection or drainage for such lands on such terms as the board may agree and subject to the following terms and conditions:

1 The facilities of the district furnishing the service shall not be overburdened.

2 There shall be no additional cost to the district furnishing the service.

3 The agreement shall be in writing, be made a part of the drainage records and shall include the following:

- a The description of the lands to be served,
- b The location of tile lines constructed or to be constructed,
- c The consideration to be paid to the district furnishing the service and the classification of the lands to be served, and
- d Such other provisions as the board deems necessary.

[C71, 73, 75, 77, 79, 81, §455 200]

455.201 Public improvements which divide a district — procedure.

If it should develop that any type of public improve-

ment, other than the forces of nature, has caused such a change in the district as to effectively sever and cut off some of the land in the district from other lands in the district and from the improvements in the district in such a way as to deprive the land of any further benefits from the improvement, or in some manner to divide the benefits that may be derived from two separated portions of the improvement, then the board of supervisors or the board of trustees in charge may upon notice to interested parties and hearing as provided by this chapter for the original establishment of a district make an order to remove lands so deprived of benefits from the district without any reclassification, or may subdivide the district into two separate entities if the public improvement splits the district into two separate units, each of which may still derive some separate benefits from the separated portions of the district.

If the public improvement is such as to leave two separate portions of the improvement that are still operable and of benefit to the land on each side of the division made by the public improvement, then the board may divide the district into two separate units so that each may perform further work on the improvements in their respective parts, but neither shall be charged for work completed on the opposite side of the new improvement that divides them and may only be charged for the work done in that portion of the district remaining on their side of the division.

The same authority provided in this section shall vest in the board of supervisors or the board of trustees in the event a drainage district in any manner relinquishes its control over any portion of its improvements or its obligation to maintain same to another district and lands may be removed from the district or the district may be divided as provided in this section.

The board may further in dividing the district award to each of the separated portions of the district the improvement remaining in each portion, determine the value of the improvement so remaining on each side and secondly determine the contributions of the lands in the separated portions to the improvements and the upkeep of the earlier district, and if the contribution is proportionate neither side shall owe the other portion of the district any money, but if contribution is disproportionate, the board shall determine an equitable adjustment and the amount of payment required for one portion to pay to the other to buy the existing improvement.

If land is eliminated from any further benefits, there need not be any reclassification and the board may remove the same from the district in the same manner as if the land has been destroyed in whole by the erosion of a river and spread any deficiency in assessment among the remaining lands as provided by section 455 56.

"Type of public improvement" for the purpose of this section includes drainage or levee improvements or new highways.

FEDERAL FLOOD CONTROL CO OPERATION

455 202 Plan of improvement.

- 1 Whenever the government of the United States

acting through its proper agencies or instrumentalities will undertake the original construction of improvements or the repair or alteration of existing improvements which will accomplish the purposes for which the district was established or aid in the accomplishment thereof and shall cause to be filed in the office of the auditor of the county in which said district is located a plan of such improvement or for the repair or alteration of existing improvements, the board shall have jurisdiction, power and authority, upon the notice, hearing and determination hereinafter provided, to adopt such plan of improvement or of repair or alteration of existing improvements and to provide necessary right of way therefor; and to pay such portion of all costs and damages incident to the adoption of such plan, the construction thereunder and the maintenance and operation of the works as will not be discharged by the federal government under legislation existing at the time of adoption; also to enter into such agreements with the United States government as may be necessary to meet federal requirements including the taking over, repair and maintenance of the works and to perform under such agreements.

2. If the cost to the district of the repair or alteration of existing improvements contemplated by this section does not exceed twenty-five percent of the sum of the original cost to the district and the cost of subsequent improvements, including all federal contributions, the board may proceed under the provisions of section 455.135, without notice and hearing, and without appraisal as contemplated by section 455.211, but the remaining provisions of section 455.202 through section 455.217 that are not in conflict with section 455.135 shall remain applicable.

If the federal program divides a project into separate phases, each phase shall be considered a separate program as described in section 455.135, subsection 4, and shall in no event be construed as an unauthorized division into separate programs to avoid the twenty-five percent limitation prescribed for making improvements under said section 455.135, subsection 4, without notice and hearing.

[C50, 54, 58, 62, 66, §455.201; C71, 73, 75, 77, 79, 81, §455.202]

455.203 Agreement in advance.

The agreement with the federal government contemplated in section 455.202 may be entered into by the board in advance of the filing of the plan — such agreement to be effective if the plan is finally adopted. If the plan is approved the board shall make a record of any such co-operative agreement.

After the filing of the plan contemplated in section 455.202 the board shall, at its first session thereafter, regular, special or adjourned, appoint a disinterested and competent civil or drainage engineer who shall give bond in an amount to be fixed by the board conditioned for the faithful and competent performance of the engineer's duties.

[C50, 54, 58, 62, 66, §455.203; C71, 73, 75, 77, 79, 81, §455.204]

455.205 Engineer's report.

The engineer shall examine the plan filed by the federal agency and the lands affected thereby and shall make and file with the county auditor a full written report which, together with the federal plan, will show the following:

1. The character and location of all contemplated improvements, and the plats, profiles and specifications thereof.

2. The particular description and acreage of land required from each forty-acre tract or fraction thereof for right of way, borrow pits or other purposes together with congressional or other description of each tract and the names of the owners thereof as shown by the transfer books in the office of the auditor.

3. A particular description of each forty-acre tract or fraction thereof that will be excluded from benefit by adoption of the plan as filed, together with the name of the owners thereof as shown by the transfer books in the office of the auditor.

4. A particular description of each forty-acre tract or fraction thereof outside the district which will benefit from adoption of the plan as filed and the name of the owner thereof as shown by the transfer books in the office of the auditor.

5. Such rights of way or portions thereof previously established or acquired as will be rendered unnecessary by adoption of the federal plan and any unpaid damages awarded therefor.

6. Such other damages previously awarded as will be affected by adoption of the federal plan.

7. The recommendation of the engineer with respect to the adoption of the plan.

455.206 Supplemental reports.

Upon the filing of such report the board shall examine and consider the same together with the plan and the commitments involved in its adoption and may require supplemental reports of the engineer or of another disinterested engineer with such data as they may deem necessary or desirable including recommendations for any change or modification, negotiate with the federal agency involved and amend the plan in such manner as may be mutually agreed upon. The engineer shall make such supplemental reports as may be required by the board or necessitated by amendment of plan.

[C50, 54, 58, 62, 66, §455.205; C71, 73, 75, 77, 79, 81, §455.206]

455.207 Notice and hearing.

If upon consideration of the plan or amended plan and the report or reports of the engineer and the commitments involved in the adoption of the plan the board finds that the district will benefit therefrom or the purposes for which the district was established will be promoted thereby, the board shall adopt the same as a tentative plan, entering order to that effect and fixing a date for hearing thereon not less than thirty days thereafter and directing the auditor to cause notice to be given of such hearing as hereinafter provided.

[C50, 54, 58, 62, 66, §455.206; C71, 73, 75, 77, 79, 81, §455.207]

455.208 Form of notice.

Such notice shall be captioned in the name of the district and shall be directed to the owners of each tract or lot within said levee or drainage district, including railroad companies having rights of way, lienholders and encumbrances, and to all owners, lienholders or encumbrancers of lands which an adoption of the plan would exclude from benefits and of lands outside the district which will benefit therefrom and to all other persons whom it may concern and, without naming them, to the occupants of all lands affected and shall set forth that there is on file in the office of the auditor a plan of construction of the federal agency (naming it), together with reports of an engineer thereon, which the board has tentatively approved, and that such plan may be amended before final action; also the day and hour set for hearing on the adoption of said plan, and that all claims for damages, except claims for land required for right of way or construction, and all objections to the adoption of said plan for any reason must be made in writing and filed in the office of the auditor at or before the time set for hearing. Provisions of this chapter for giving notice, waiver of notice, waiver of objection and damages and adjournment for service contained in sections 455.21 to 455.26 shall apply.

[C50, 54, 58, 62, 66, §455.207; C71, 73, 75, 77, 79, 81, §455.208]

455.209 Amendment — new parties.

The board may continue the hearing pending decision and may amend the plan but in the event of amendment the board shall continue further hearing to a fixed date. All parties over whom the board then has jurisdiction shall take notice of such further hearing but any new parties rendered necessary by the modification or change of plans shall be served with notice as for the original hearing.

Such order shall have the effect of:

2. Canceling all existing awards for damages for property not appropriated for right of way or construction and rendered unnecessary by the plan so adopted.

3. Canceling all awards previously made for damages other than for right of way or construction but reinstating the claims for such damages which said claims may be amended by the claimants within ten days thereafter.

2 Recommend to the commission the adoption of rules to implement the programs and services assigned to it

3 Contract, with the approval of the commission, with public agencies of this state to provide all laboratory, scientific field measurement and environmental quality evaluation services necessary to implement the provisions of this chapter If the director finds that public agencies of this state cannot provide the laboratory, scientific field measurement and environmental evaluation services required by the department, the director may contract, with the approval of the commission, with any other public or private persons or agencies for such services or for scientific or technical services required to carry out the programs and services assigned to the department

4 Conduct investigations of complaints received directly or referred by the commission created in section 455A 6 or other investigations deemed necessary While conducting an investigation, the director may enter at any reasonable time in and upon any private or public property to investigate any actual or possible violation of this chapter or the rules or standards adopted under this chapter However, the owner or person in charge shall be notified

a If the owner or occupant of any property refuses admittance thereto, or if prior to such refusal the director demonstrates the necessity for a warrant, the director may make application under oath or affirmation to the district court of the county in which the property is located for the issuance of a search warrant

b In the application the director shall state that an inspection of the premises is mandated by the laws of this state or that a search of certain premises, areas, or things designated in the application may result in evidence tending to reveal the existence of violations of public health, safety, or welfare requirements imposed by statutes, rules or ordinances established by the state or a political subdivision thereof The application shall describe the area, premises, or thing to be searched, give the date of the last inspection if known, give the date and time of the proposed inspection, declare the need for such inspection, recite that notice of desire to make an inspection has been given to affected persons and that admission was refused if that be the fact, and state that the inspection has no purpose other than to carry out the purpose of the statute, ordinance, or regulation pursuant to which inspection is to be made If an item of property is sought by the director it shall be identified in the application

3 Adopt, modify, or repeal rules necessary to implement this chapter and the rules deemed necessary for the effective administration of the department When the commission proposes or adopts rules to implement a specific federal environmental program and the rules impose requirements more restrictive than the federal program being implemented requires, the commission shall identify in its notice of intended action or adopted rule preamble each rule that is more restrictive than the federal program requires and shall state the reasons for proposing or adopting the more restrictive requirement In addition, the commission shall include with its reasoning a financial impact statement detailing the general impact upon the affected parties It is the intent of the general assembly that the commission exercise strict oversight of the operations of the department The rules shall include departmental policy relating to the

disclosure of information on a violation or alleged violation of the rules, standards, permits or orders issued by the department and keeping of confidential information obtained by the department in the administration and enforcement of this chapter Rules adopted by the executive committee before January 1, 1981 shall remain effective until modified or rescinded by action of the commission

12 *a* Adopt, by rule, procedures and forms necessary to implement the provisions of this chapter relating to permits or conditional permits The commission may also adopt, by rule, a schedule of fees for permit and conditional permit applications and a schedule of fees which may be periodically assessed for administration of permits and conditional permits In determining the fee schedules, the commission shall consider

(1) The state's reasonable cost of reviewing applications, issuing permits and conditional permits, and checking compliance with the terms of the permits

(2) The relative benefits to the applicant and to the public of permit and conditional permit review, issuance, and monitoring compliance

455B.109 Schedule of fines — minor violations.

1 The commission may establish, by rule, a schedule or range of civil penalties which may be administratively assessed The schedule shall provide procedures and criteria for the administrative assessment of penalties of not more than one thousand dollars for minor violations of this chapter or rules, permits or orders adopted or issued under this chapter In adopting a schedule or range of penalties and in proposing or assessing a penalty, the commission and director shall consider among other relevant factors the following

a The costs saved or likely to be saved by noncompliance by the violator

b The gravity of the violation

c The degree of culpability of the violator

d The maximum penalty authorized for that violation under this chapter Penalties may be administratively assessed only after an opportunity for a contested case hearing which may be combined with a hearing on the merits of the alleged violation Major violations, violations not fitting within the schedule, or violations which the commission determines should be referred to the attorney general for legal action shall not be governed by the schedule established under this subsection

2. If the commission establishes a schedule for minor violations, the commission shall provide, by rule, a procedure for the screening of alleged violations to determine which cases may be appropriate for the administrative assessment of penalties. However, the screening procedure shall not limit the discretion of the department to refer any case to the attorney general for legal action.

3. A penalty shall be paid within thirty days of the date the order assessing the penalty becomes final. When a person against whom a civil penalty is assessed under this section seeks timely judicial review of an order imposing the penalty as provided under chapter 17A, the order is not final for the purposes of this section until all judicial review processes are completed. Additional judicial review may not be sought after the order becomes final. A person who fails to timely pay a civil penalty assessed by a final order of the department shall pay, in addition, interest at the rate of one and one-half percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid. a. A person, including the state of Iowa, for violating any provision of this chapter or a rule adopted pursuant to this chapter.

b. The director, the commission, or any official or employee of the department where there is an alleged failure to perform any act or duty under this chapter or a rule adopted pursuant to this chapter which is not a discretionary act or duty.

2. An action shall not be commenced pursuant to subsection 1, paragraph "a", unless the person commencing the action has provided the director and the alleged violator with a written notice at least sixty days prior to commencing the action. The written notice shall specify the nature of the violation and that legal action is contemplated under this section if the violation is not abated and, if necessary, remedial action is not taken. The state may intervene in such an action as a matter of right. In addition, an action shall not be commenced pursuant to subsection 1, paragraph "a", if the department or the state has commenced and is actively prosecuting a civil action or is actively negotiating an out-of-court settlement to require abatement of the violation and, if necessary, remediation of damages. However, any person may intervene as a matter of right in such an action.

3. A person shall have standing to commence an

action pursuant to subsection 1 or to intervene in an action pursuant to subsection 2 if the person is adversely affected by the alleged violation or the alleged failure to perform a duty or act.

4. In an action commenced pursuant to subsection 1, the court may award costs of litigation, including reasonable attorney and expert witness fees, to any party.

5. This section does not restrict any right under statutory or common law of a person or class of person to seek enforcement of provisions of this chapter or a rule adopted pursuant to this chapter or seek other relief permitted under the law.

DIVISION II

AIR QUALITY

Sections 455B 10 455B 29, Code 1981, renumbered as §455B 131 455B 149 in Code 1983

455B.131 Definitions.

When used in this division II, unless the context otherwise requires:

1. "Air contaminant" means dust, fume, mist, smoke, other particulate matter, gas, vapor (except water vapor), odorous substance, radioactive substance, or any combination thereof.

2. "Air contaminant source" means any and all sources of emission of air contaminants whether privately or publicly owned or operated.

Air contaminant source includes, but is not limited to, all types of businesses, commercial and industrial plants, works, shops, and stores, heating and power plants and stations, buildings and other structures of all types including single and multiple family residences, office buildings, hotels, restaurants, schools, hospitals, churches and other institutional buildings, automobiles, trucks, tractors, buses, aircraft, and other motor vehicles, garages, vending and service locations and stations, railroad locomotives, ships, boats, and other water-borne craft, portable fuel-burning equipment, indoor and outdoor incinerators of all types, refuse dumps and piles, and all stack and other chimney outlets from any of the foregoing.

An air contaminant source does not include a fire truck or other fire apparatus operated by an organized fire department.

3. "Air pollution" means presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities and of such characteristics and dura-

tion as is or may reasonably tend to be injurious to human, plant, or animal life, or to property, or which unreasonably interferes with the enjoyment of life and property

4 "*Atmosphere*" means all space outside of buildings, stacks or exterior ducts

5 "*Emission*" means a release of one or more air contaminants into the outside atmosphere

6 "*Person*" means an individual, partnership, co-partnership, co-operative, firm, company, public or private corporation, political subdivision, agency of the state, trust, estate, joint stock company, an agency or department of the federal government or any other legal entity, or a legal representative, agent, officer, employee or assigns of such entities

7 "*Political subdivision*" means any municipality, township, or county, or district, or authority, or any portion, or combination of two or more thereof

8 "*Major stationary source*" means a stationary air contaminant source which directly emits, or has the potential to emit, one hundred tons or more of an air pollutant per year including a major source of fugitive emissions of a pollutant as determined by rule by the department or the administrator of the United States environmental protection agency

9 "*Schedule and timetable of compliance*" means a schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with an emission limitation, other limitation, prohibition, or standard

[C71, §136B 2, C73, 75, 77, 79, 81, §455B 10]
85 Acts, ch 44, §1, 86 Acts, ch 1245, §1899B

455B.132 Executive agency.

The department shall be the agency of the state to prevent, abate, or control air pollution

[C73, 75, 77, 79, 81, §455B 11]

455B.133 Duties.

The commission shall

1 Develop comprehensive plans and programs for the abatement, control, and prevention of air pollution in this state, recognizing varying requirements for different areas in the state. The plans may include emission limitations, schedules and timetables for compliance with the limitations, measures to prevent the significant deterioration of air quality and other measures as necessary to assure attainment and maintenance of ambient air quality standards

2 Adopt, amend, or repeal rules pertaining to the evaluation, abatement, control, and prevention of air pollution. The rules may include those that are necessary to obtain approval of the state implementation plan under section 110 of the federal Clean Air Act as amended through January 1, 1979

3 Adopt, amend, or repeal ambient air quality standards for the atmosphere of this state on the basis of providing air quality necessary to protect the public health and welfare

4 Adopt, amend or repeal emission limitations or standards relating to the maximum quantities of air contaminants that may be emitted from any air contaminant source. The standards or limitations adopted under this section shall not exceed the standards or limitations promulgated by the administrator of the United States environmental protection agency

or the requirements of the federal Clean Air Act as amended to January 1, 1979. This does not prohibit the commission from adopting a standard for a source or class of sources for which the United States environmental protection agency has not promulgated a standard

a (1) The commission shall establish standards of performance unless in the judgment of the commission it is not feasible to adopt or enforce a standard of performance. If it is not feasible to adopt or enforce a standard of performance, the commission may adopt a design, equipment, material, work practice or operational standard, or combination of those standards in order to establish reasonably available control technology or the lowest achievable emission rate in nonattainment areas, or in order to establish best available control technology in areas subject to prevention of significant deterioration review, or in order to adopt the emission limitations promulgated by the administrator of the United States environmental protection agency under section 111 or 112 of the federal Clean Air Act as amended to January 1, 1979

(2) If a person establishes to the satisfaction of the commission that an alternative means of emission limitation will achieve a reduction in emissions of an air pollutant at least equivalent to the reduction in emissions of the air pollutant achieved under the design, equipment, material, work practice or operational standard, the commission shall amend its rules to permit the use of the alternative by the source for purposes of compliance with this paragraph with respect to the pollutant

(3) A design, equipment, material, work practice or operational standard promulgated under this paragraph shall be promulgated in terms of a standard of performance when it becomes feasible to promulgate and enforce the standard in those terms

(4) For the purpose of this paragraph, the phrase "not feasible to adopt or enforce a standard of performance" refers to a situation in which the commission determines that the application of measurement methodology to a particular class of sources is not practicable due to technological or economic limitations

b If the maximum standards for the emission of sulphur dioxide from solid fuels have to be reduced in an area to meet ambient air quality standards, a contract for coal produced in Iowa and burned by a facility in that area that met the sulphur dioxide emission standards in effect at the time the contract went into effect shall be exempted from the decreased requirement until the expiration of the contract period or December 31, 1983, whichever first occurs, if there is any other reasonable means available to satisfy the ambient air quality standards. To qualify under this subsection, the contract must be recorded with the county recorder of the county where the burning facility is located within thirty days after the signing of the contract

c The degree of emission limitation required for control of an air contaminant under an emission standard shall not be affected by that part of the stack height of a source that exceeds good engineering practice, as defined in rules, or any other dispersion technique. This paragraph shall not apply to stack heights in existence before December 30, 1970, or dispersion techniques implemented before that date

5 Classify air contaminant sources according to levels and types of emissions, and other characteristics which relate to air pollution. The commission may require, by rule, the owner or operator of any air contaminant source to establish and maintain such records, make such reports, install, use and maintain such monitoring equipment or methods, sample such emissions in accordance with such methods at such locations and intervals, and using such procedures as the commission shall prescribe, and provide such other information as the commission may reasonably require. Such classifications may be for application to the state as a whole, or to any designated area of the state, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

6 *a* Require, by rules, notice of the construction of any air contaminant source which may cause or contribute to air pollution, and the submission of plans and specifications to the department, or other information deemed necessary, for the installation of air contaminant sources and related control equipment. The rules shall allow the owner or operator of a major stationary source to elect to obtain a conditional permit in lieu of a construction permit. The rules relating to a conditional permit for an electric power generating facility subject to chapter 476A and other major stationary sources shall allow the submission of engineering descriptions, flow diagrams and schematics that quantitatively and qualitatively identify emission streams and alternative control equipment that will provide compliance with emission standards. Such rules shall not specify any particular method to be used to reduce undesirable levels of emissions, nor type, design, or method of installation of any equipment to be used to reduce such levels of emissions, nor the type, design, or method of installation or type of construction of any manufacturing processes or kinds of equipment, nor specify the kind or composition of fuels permitted to be sold, stored, or used unless authorized by subsection 4 of this section.

b The commission may give technical advice pertaining to the construction or installation of the equipment or any other recommendation.

7 Commission rules establishing maximum permissible sulfate content shall not apply to an expansion of an industrial anaerobic lagoon facility which was constructed prior to February 22, 1979.

[C71, §136B 4, C73, 75, 77, 79, 81, §455B 12, 82 Acts, ch 1124, §1]

455B.134 Director — duties — limitations.

The director shall

1 Publish and administer the rules and standards established by the commission. The department shall furnish a copy of such rules or standards to any person upon request.

2 Provide technical, scientific, and other services required by the commission or for the effective administration of this division II.

3 Grant, modify, or deny permits for the construction of new or modified air contaminant sources and for related control equipment, and conditional permits for electric power generating facilities subject to chapter 476A and other major stationary sources, subject to the rules adopted by the commission. The depart-

ment shall furnish necessary application forms for such permits.

a No air contaminant source shall be installed, altered so that it significantly affects emissions, or placed in use unless a construction or conditional permit has been issued for the source.

b The condition of expected performance shall be reasonably detailed in the construction or conditional permit.

c All applications for permits other than conditional permits for electric generating facilities shall be subject to such notice and public participation as may be provided by rule by the commission. Upon denial or limitation of a permit other than a conditional permit for an electric generating facility, the applicant shall be notified of such denial and informed of the reason or reasons therefor, and such applicant shall be entitled to a hearing before the commission.

d All applications for conditional permits for electric power generating facilities shall be subject to such notice and opportunity for public participation as may be consistent with chapter 476A or any agreement pursuant thereto under chapter 28E. The applicant or intervenor may appeal to the commission from the denial of a conditional permit or any of its conditions. For the purposes of chapter 476A, the issuance or denial of a conditional permit by the director or by the commission upon appeal shall be a determination that the electric power generating facility does or does not meet the permit and licensing requirements of the commission. The issuance of a conditional permit shall not relieve the applicant of the responsibility to submit final and detailed construction plans and drawings and an application for a construction permit for control equipment that will meet the emission limitations established in the conditional permit.

e (1) Notwithstanding any other provision of division II of this chapter, the following siting requirements shall apply to anaerobic lagoons:

Anaerobic lagoons which are used in connection with animal feeding operations containing less than six hundred twenty-five thousand pounds live animal weight capacity of animal species other than beef cattle or containing less than one million six hundred thousand pounds live animal weight capacity of beef cattle, shall be located at least one thousand two hundred fifty feet from a residence not owned by the owner of the feeding operation or from a public use area other than a public road. Anaerobic lagoons, which are used in connection with animal feeding operations containing six hundred twenty-five thousand pounds or more live animal weight capacity of animal species other than beef cattle or containing one million six hundred thousand pounds or more live animal weight capacity of beef cattle, shall be located at least one thousand eight hundred seventy-five feet from a residence not owned by the owner of the feeding operation or from a public use area other than a public road. For the purpose of this paragraph the determination of live animal weight capacity shall be based on the average animal weight capacity during a production cycle and the maximum animal capacity of the animal feeding operation. These separation distances apply to the construction of new facilities and the expansion of existing facilities.

Anaerobic lagoons which are used in connection

with industrial treatment of wastewater where the average wastewater discharge flow is one hundred thousand gallons per day or less shall be located at least one thousand two hundred fifty feet from a residence not owned by the owner of the lagoon or from a public use area other than a public road. Anaerobic lagoons which are used in connection with industrial treatment of wastewater where the average wastewater discharge flow is greater than one hundred thousand gallons per day shall be located at least one thousand eight hundred seventy five feet from a residence not owned by the owner of the lagoon or from a public use area other than a public road. These separation distances apply to the construction of new facilities and the expansion of existing facilities.

(2) A person may build or expand an anaerobic lagoon closer to a residence not owned by the owner of the anaerobic lagoon or to a public use area than is otherwise permitted by subparagraph (1) of this paragraph if the affected landowners enter into a written agreement with the anaerobic lagoon owner to waive the separation distances under such terms the parties negotiate. The written agreement becomes effective only upon recording in the office of the recorder of deeds of the county in which the residence is located.

4 Determine by field studies and sampling the quality of atmosphere and the degree of air pollution in this state or any part thereof.

5 Conduct and encourage studies, investigations, and research relating to air pollution and its causes, effects, abatement, control, and prevention.

6 Provide technical assistance to political subdivisions of this state requesting such aid for the furtherance of air pollution control.

7 Collect and disseminate information, and conduct educational and training programs, relating to air pollution and its abatement, prevention, and control.

8 Consider complaints of conditions reported to, or considered likely to, constitute air pollution, and investigate such complaints upon receipt of the written petition of any state agency, the governing body of a political subdivision, a local board of health, or twenty-five affected residents of the state.

9 Issue orders consistent with rules to cause the abatement or control of air pollution. In making the orders, the director shall consider the facts and circumstances bearing upon the reasonableness of the emissions involved, including but not limited to, the character and degree of injury to, or interference with, the protection of health and the physical property of the public, the practicability of reducing or limiting the emissions from the air pollution source, and the suitability or unsuitability of the air pollution source to the area where it is located. An order may include advisory recommendations for the control of emissions from an air contaminant source and the reduction of the emission of air contaminants.

10 Encourage voluntary cooperation by persons or affected groups in restoring and preserving a reasonable quality of air within the state.

11 Encourage political subdivisions to handle air pollution problems within their respective jurisdictions.

12 Review and evaluate air pollution control programs conducted by political subdivisions of the state

with respect to whether the programs are consistent with the provisions of division II of this chapter and rules adopted by the commission.

13 Hold public hearings, except when the evidence to be received is confidential pursuant to section 455B.137, necessary to accomplish the purposes of division II of this chapter. The director may issue subpoenas requiring the attendance of witnesses and the production of evidence pertinent to the hearings. A subpoena shall be issued and enforced in the same manner as in civil actions.

455B.135 Limit on authority.

Nothing contained in this division II shall be deemed to grant to the department or the director any authority or jurisdiction with respect to air pollution existing solely within residences, or solely within commercial and industrial plants, works, or shops under the jurisdiction of chapters 88 and 91, or to affect the relations between employers and employees with respect to, or arising out of, any condition of air pollution.

455B.136 Assistance on demand.

The department and the director may request and receive assistance from any other agency, department, or educational institution of the state, or political subdivision thereof, when it is deemed necessary or beneficial by the department or the director. The department may reimburse such agencies for special expense resulting from expenditures not normally a part of the operating expenses of any such agency.

455B.137 Privileged information.

Information received by the department or any employees of the department through filed reports, inspections, or as otherwise authorized in this division II concerning trade secrets, secret industrial processes, or other privileged communications, except emission data, shall not be disclosed or opened to public inspection, except as may be necessary in a proceeding concerning a violation of said division or of any rules promulgated thereunder, or as otherwise authorized or ordered by appropriate court action or proceedings. Nothing herein shall be construed to prevent the director from compiling or publishing analyses or summaries relating to the general condition of the atmosphere, provided that such analyses or summaries do not reveal any information otherwise confidential under this section.

455B.138 Resolution of violations — appeal.

1 When the director has evidence that a violation of any provision of division II of this chapter, or rule, standard or permit established or issued under division II has occurred, the director shall notify the alleged violator and, by informal negotiation, attempt to

resolve the problem. If the negotiations fail to resolve the problem within a reasonable period of time, the director shall issue an order directing the violator to prevent, abate or control the emissions or air pollution involved. The order shall prescribe the date by which the violation shall cease and may prescribe timetables for necessary action to prevent, abate or control the emissions of air pollution. The order may be appealed to the commission.

2. After the hearing on appeal, the commission may affirm, modify or rescind the order of the director.

3. The director shall keep a complete record of the hearings and proceeding and the record shall be open to public inspection, subject to section 455B.137. Upon request, a copy of the transcript shall be furnished to the violator or alleged violator at the violator's or alleged violator's expense.

4. An appeal to the commission under this section shall be conducted as a contested case under chapter 17A.

455B.139 Emergency orders.

If the director has evidence that any person is causing air pollution and that such pollution creates an emergency requiring immediate action to protect the public health and safety, or property, the director may, without notice, issue an emergency order requiring such person to reduce or discontinue immediately the emission of air contaminants. A copy of the emergency order shall be served by personal service. An emergency order issued by the director may be appealed to the commission. After hearing on appeal, the commission may affirm, modify or rescind the order of the director.

455B.141 Legal action.

If action to prevent, control, or abate air pollution is not taken in accordance with the rules established, or orders issued by the department, or if the director has evidence that an emergency exists by reason of air pollution which requires immediate action to protect the public health or property, the attorney general, at the request of the director, shall commence legal action, in the name of the state, for an injunction to prevent any further or continued violation of such rule or order.

455B.142 Burden of proof.

shall be upon the department except in an action for an injunction as provided in section 455B.141.

455B.143 Variance.

Any person who owns or operates any plant, building, structure, process, or equipment may apply for a variance from the rules or standards adopted by the department by filing an application with the department. The application shall be accompanied by such information and data required by the department.

1. The director shall promptly investigate the application and approve or disapprove the application. The director may grant a variance if the director finds that:

a. The emissions occurring or proposed to occur do not endanger or tend to endanger human health or safety or property; and

b. Compliance with the rules or standards from which the variance is sought will produce serious hardship without equal or greater benefits to the public.

2. The applicant may request a review hearing before the department if the application is denied.

3. In determining under what conditions and to what extent a variance may be granted, the director shall give due recognition to the progress which the applicant has made toward eliminating or preventing air pollution. In such a case, the director shall consider the reasonableness of the request, conditioned upon such applicant effecting a partial abatement of the particular air pollution within a reasonable period of time, or the director may prescribe other requirements with which such applicant shall comply.

4. The director may grant a variance for a specified period of time, not exceeding one year, and the director may further specify that the applicant make periodic reports specifying the progress that has been made toward compliance with any rule for which the variance was granted. A variance may be extended from year to year by affirmative action of the director.

5. The director shall maintain a record of each variance granted specifying the reasons for its issuance or extension.

455B.144 Local control program.

1. Any political subdivision may conduct an air pollution control program within the boundaries of its jurisdiction, or may jointly conduct an air pollution control program with other political subdivisions of this state or of other states, except that every joint program shall be established and administered as provided in chapter 28E. In conducting such programs, political subdivisions may adopt and enforce rules or standards to secure and maintain adequate air quality within their respective jurisdictions.

2. If the board of supervisors in any county establishes an air pollution control program and has obtained a certificate of acceptance, the agency implementing the program may regulate air pollution within the county including any incorporated areas therein until such incorporated areas obtain a certificate of acceptance as a joint or separate agency.

[C71, §136B.14; C73, 75, 77, 79, 81, §455B.23]

455B.145 Acceptance of local program.

When an air pollution control program conducted by a political subdivision, or a combination thereof, is deemed upon review as provided in section 455B.134, to be consistent with the provisions of this division II or the rules established thereunder, the director shall accept such program in lieu of state administration and regulation of air pollution within the political subdivisions involved. Nothing contained in this section shall be construed to limit the power of the director to take emergency action under the provisions of sections 455B.139 and 455B.141 or to administer a part of the local program that has been suspended.

1. In evaluating an air pollution control program, consideration shall be given to whether such program provides for the following:

a. Ordinances, rules and standards establishing requirements consistent with, or more strict than, those imposed by this division II or rules and standards adopted by the department.

b. Enforcement of such requirements by appropriate administrative and judicial process.

c. Administrative organization, staff, financial and other resources necessary to administer an efficient and effective program.

d. Location of emission monitoring devices in areas of the political subdivision in compliance with uniform state standards adopted by the department. The department shall adopt uniform state standards for the location of emission monitoring devices specifying such intervals and such procedures to provide a reasonably consistent measurement of emissions from air contaminant sources regardless of the political subdivision of the state in which the sources may be located.

2. Upon acceptance of a local air pollution control program, the director shall issue a certificate of acceptance to the appropriate local agency.

a. Any political subdivision desiring a certificate of acceptance shall apply to the department on forms prescribed by the director.

b. The director shall promptly investigate the application and approve or disapprove the application. The director may conduct a public hearing before action is taken to approve or disapprove. If the director disapproves issuing a certificate, the political subdivision may appeal the action to the department of inspections and appeals. At the hearing on appeal, the department of inspections and appeals shall decide whether the local program is substantially consistent with the provisions of this division II, or rules adopted thereunder, and whether the local program is being enforced. The burden of proof shall be upon the political subdivision.

c. If the director determines at any time that a local air pollution program is being conducted in a manner inconsistent with the substantive provisions of this division II or the rules adopted thereunder, the director shall notify the political subdivision, citing the deviations from the acceptable standards and the corrective measures to be completed within a reasonable amount of time. If the corrective measures are not implemented as prescribed, the director shall suspend in whole or in part the certificate of acceptance of such political subdivision and shall administer the regulatory provisions of said division in whole or in part within

the political subdivision until the appropriate standards are met. Upon receipt of evidence that necessary corrective action has been taken, the director shall reinstate the suspended certificate of acceptance, and the political subdivision shall resume the administration of the local air pollution control program within its jurisdiction. In cases where the certificate of acceptance is suspended, the political subdivision may appeal the suspension to the department of inspections and appeals.

d. Nothing in this division II shall be construed to supersede the jurisdiction of any local air pollution control program in operation on the first of January, 1973, except that any such program shall meet all requirements of said division.

455B.147 Failure — procedure.

1. If the director fails to take action within sixty days after an application for a variance is made, or if the department fails to enter a final order or determination within sixty days after the final argument in hearing on appeal, the person seeking the action may treat the failure to act as a grant of the requested variance, or of a finding favorable to the respondent in hearing on appeal, as the case may be.

2. If the director fails to take action within one hundred twenty days after a completed application for a construction permit is made, or if the department fails to enter a final order or determination within sixty days after the final argument in a hearing on appeal of the permit, the person seeking the action may treat the failure to act as a grant of the requested permit, or of a finding favorable to the respondent in a hearing on appeal, as the case may be.

3. The section shall not apply to an application for a conditional permit for an electrical power generating facility subject to chapter 476A.

455B.149 Energy or economic emergency.

1. Upon application by the owner or operator of a fuel-burning stationary source, and after notice and opportunity for public hearing, the commission may petition the president, under section 110, subsection "f," paragraph 1 of the federal Clean Air Act as amended to January 1, 1979, for a determination that a national or regional energy emergency exists. If the

president determines an emergency exists, the commission may suspend any requirement of this division or a rule or permit issued under this division. A temporary emergency suspension under this subsection shall be issued only if there exists in the vicinity of the source a temporary emergency involving high levels of unemployment or loss of necessary energy supplies for residential buildings and if the unemployment or loss can be totally or partially alleviated by the suspension. Only one suspension may be issued for a source on the basis of the same set of circumstances or on the basis of the same emergency. A suspension shall remain in effect for a maximum of four months. The commission may include in a suspension a provision directing the director to delay for a period identical to the period of the suspension a compliance schedule or increment of progress to which the source is subject under section 455B.138, if the source is unable to comply with the schedule or increment solely because of the conditions on the basis of which the suspension was issued.

2. If a plan revision has been submitted to the administrator of the United States environmental protection agency under section 110 of the federal Clean Air Act as amended to January 1, 1979, and if the commission determines that the revision meets the requirements of that section and the revision is necessary to prevent the closing of an air contaminant source for one year or more and to prevent substantial increases in unemployment which would result from the closing, and if the administrator has not approved or disapproved within the required four-month period, the commission may issue a temporary emergency suspension of the part of the applicable implementation plan which is proposed to be revised with respect to the source. The determination under this subsection shall not be made with respect to a source which would close without regard to whether or not the proposed plan revision is approved. A temporary emergency suspension issued under this subsection shall remain in effect for a maximum of four months. A temporary emergency suspension under this subsection may include a provision directing the director to delay for a period identical to the period of the suspension a compliance schedule or increment of progress to which the source is subject under section 119 of the federal Clean Air Act as in effect prior to August 7, 1977, or section 113, subsection "d" of the federal Clean Air Act as amended to January 1, 1979, upon a finding that the source is unable to comply with the schedule or increment solely because of the conditions on the basis of which a suspension was issued under this subsection.

455B.172 Jurisdiction of department and local boards.

1 The department is the agency of the state to prevent, abate, or control water pollution and to conduct the public water supply program

2 The department is the state agency designated to carry out the state responsibilities related to private water supplies and private sewage disposal systems for the protection of the health of the citizens of this state. The commission shall adopt minimum standards and provide model standards for private water supplies and private sewage disposal facilities for use of the local boards of health. Each local board of health is the agency to regulate private water supplies and private sewage disposal systems, but the department shall maintain jurisdiction over discharges to a water of the state. Each local board of health shall adopt standards relating to the design and construction of private water supplies and private sewage disposal facilities, which standards shall not be lower than the minimum standards adopted by the commission

3 a The department is the state agency to regulate the construction, reconstruction and abandonment of all of the following water wells

(1) Those used as part of a public water supply system as defined in section 455B 171

(2) Those used for the withdrawal of water for which a permit is required pursuant to section 455B 268, subsection 1

(3) Those used for the purpose of monitoring groundwater quantity and quality required or installed pursuant to directions or regulations of the department

b A local board of health is the agency to regulate the construction, reconstruction and abandonment of water wells not otherwise regulated by the department. The local board of health shall not adopt standards

relative to the construction, reconstruction and abandonment of wells less stringent than those adopted by the department.

4. The department is the state agency to regulate the registration of water well contractors pursuant to section 455B.187.

5. Pursuant to chapter 28E, the department may delegate its authority for regulation of the construction, reconstruction and abandonment of water wells specified in subsection 3 or the registration of water well contractors specified in subsection 4 to boards of health or other agencies which have adequate authority and ability to administer and enforce the requirements established by law or rule.

[C66, 71, §455B.3; C73, §455B.31; C75, 77, 79, 81, §135.20, 455B.31; 82 Acts, ch 1199, §9]

83 Acts, ch 137, §3; 84 Acts, ch 1121, §3; 85 Acts, ch 176, §2

455B.173 Duties.

The commission shall:

1. Develop comprehensive plans and programs for the prevention, control and abatement of water pollution.

2. Establish, modify, or repeal water quality standards, pretreatment standards and effluent standards. The effluent standards may provide for maintaining the existing quality of the water of the state where the quality thereof exceeds the requirements of the water quality standards.

If the federal environmental protection agency has promulgated an effluent standard or pretreatment standard pursuant to section 301, 306 or 307 of the federal Water Pollution Control Act, a pretreatment or effluent standard adopted pursuant to this section shall not be more stringent than the federal effluent or pretreatment standard for such source. This section may not preclude the establishment of a more restrictive effluent limitation in the permit for a particular point source if the more restrictive effluent limitation is necessary to meet water quality standards, the establishment of an effluent standard for a source or class of sources for which the federal environmental protection agency has not promulgated standards pursuant to section 301, 306 or 307 of the federal Water Pollution Control Act. Except as required by federal law or regulation, the commission shall not adopt an effluent standard more stringent with respect to any pollutant than is necessary to reduce the concentration of that pollutant in the effluent to the level due to natural causes, including the mineral and chemical characteristics of the land, existing in the water of the state to which the effluent is discharged. Notwithstanding any other provision of this part of this division, any new source, the construction of which was commenced after October 18, 1972, and which was constructed as to meet all applicable standards of performance for the new source or any more stringent effluent limitation required to meet water quality standards, shall not be subject to any more stringent effluent limitations during a ten-year period beginning on the date of completion of construction or during the period of depreciation or amortization of the pollution control equipment for the facility for the purposes of section 167 and 169 or both sections of the Internal Revenue Code of 1954, whichever period ends first.

3. Establish, modify or repeal rules relating to the location, construction, operation, and maintenance of disposal systems and public water supply systems and specifying the conditions under which the director shall issue, revoke, suspend, modify or deny permits for the operation, installation, construction, addition to or modification of any disposal system or public water supply system, or for the discharge of any pollutant or for the disposal of water wastes resulting from poultry and livestock operations. The rules specifying the conditions under which the director shall issue permits for the construction of an electric power generating facility subject to chapter 476A shall provide for issuing a conditional permit upon the submission of engineering descriptions, flow diagrams and schematics that qualitatively and quantitatively identify effluent streams and alternative disposal systems that will provide compliance with effluent standards or limitations.

No rules shall be adopted which regulate the hiring or firing of operators of disposal systems or public water supply systems except rules which regulate the certification of operators as to their technical competency.

A publicly owned treatment works whose discharge meets the final effluent limitations which were contained in its discharge permit on the date that construction of the publicly owned treatment works was approved by the department shall not be required to meet more stringent effluent limitations for a period of ten years from the date the construction was completed and accepted but not longer than twelve years from the date that construction was approved by the department.

4. Co-operate with other state or interstate water pollution control agencies in establishing standards, objectives, or criteria for the quality of interstate waters originating or flowing through this state.

5. Establish, modify or repeal rules relating to drinking water standards for public water supply systems. Such standards shall specify maximum contaminant levels or treatment techniques necessary to protect the public health and welfare. The drinking water standards must assure compliance with federal drinking water standards adopted pursuant to the federal Safe Drinking Water Act.

6. Establish, modify or repeal rules relating to inspection, monitoring, record keeping and reporting requirements for the owner or operator of any public water supply or any disposal system or of any source which is an industrial user of a publicly or privately owned disposal system.

7. Adopt a statewide plan for the provision of safe drinking water under emergency circumstances. All public agencies, as defined in chapter 28E, shall co-operate in the development and implementation of the plan. The plan shall detail the manner in which the various state and local agencies shall participate in the response to an emergency. The department may enter into any agreement, subject to approval of the commission, with any state agency or unit of local government or with the federal government which may be necessary to establish the role of such agencies in regard to the plan. This plan shall be co-ordinated with disaster emergency plans.

8. Formulate and adopt specific and detailed state-

wide standards pursuant to chapter 17A for review of plans and specifications and the construction of sewer systems and water supply distribution systems and extensions to such systems not later than October 1, 1977. The standards shall be based on criteria contained in the "Recommended Standards for Sewage Works" and "Recommended Standards for Water Works" (Ten States Standards) as adopted by the Great Lakes-Upper Mississippi River board of state sanitary engineers, design manuals published by the department, applicable federal guidelines and standards, standard textbooks, current technical literature and applicable safety standards. The material standards for polyvinyl chloride pipe shall not exceed the specifications for polyvinyl chloride pipe in designations D-1784-69, D-2241-73, D-2564-76, D-2672-76, D-3036-73 and D-3139-73 of the American society of testing and material. The rules adopted which directly pertain to the construction of sewer systems and water supply distribution systems and the review of plans and specifications for such construction shall be known respectively as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems and shall be applicable in each governmental subdivision of the state. Exceptions shall be made to the standards so formulated only upon special request to and receipt of permission from the department. The department shall publish the standards and make copies of such standards available to governmental subdivisions and to the public.

9. Adopt, modify or repeal rules relating to the construction and reconstruction of water wells, the proper abandonment of wells, and the registration of water well contractors. The rules shall include those necessary to protect the public health and welfare, and to protect the waters of the state. The rules may include, but are not limited to, establishing fees for registration of water well contractors, requiring the submission of well driller's logs, formation samples or well cuttings, water samples, information on test pumping and requiring inspections. Fees shall be based upon the reasonable cost of conducting the water well contractor registration program.

455B.174 Director's duties.

The director shall:

1. Conduct investigations of alleged water pollution or of alleged violations of this part of this division or any rule adopted or any permit issued pursuant thereto upon written request of any state agency, political subdivision, local board of health, twenty-five residents of the state, as directed by the department, or as may be necessary to accomplish the purposes of this part of this division.

2. Conduct periodic surveys and inspection of the construction, operation, self-monitoring, record keeping and reporting of all public water supply systems and all disposal systems except as provided in section 455B.183.

3. Take any action or actions allowed by law

which, in the director's judgment, are necessary to enforce or secure compliance with the provisions of this part of this division or of any rule or standard established or permit issued pursuant thereto.

4. Approve or disapprove the plans and specifications for the construction of disposal systems or public water supply systems except for those sewer extensions and water supply distribution system extensions which are reviewed by a city or county public works department as set forth in section 455B.183. The director shall issue, revoke, suspend, modify or deny permits for the operation, installation, construction, addition to or modification of any disposal system or public water supply system except for sewer extensions and water supply distribution system extensions which are reviewed by a city or county public works department as set forth in section 455B.183. The director shall also issue, revoke, suspend, modify or deny permits for the discharge of any pollutant. The permits shall contain conditions and schedules of compliance as necessary to meet the requirements of this part of this division and the federal Water Pollution Control Act. A permit shall not be issued to operate or discharge from any disposal system unless the conditions of the permit assure that any discharge from the disposal system meets or will meet all applicable state and federal water quality standards and effluent standards and the issuance of the permit is not otherwise prohibited by the federal Water Pollution Control Act. All applications for discharge permits are subject to public notice and opportunity for public participation including public hearing as the department may by rule require. The director shall promptly notify the applicant in writing of the director's action and, if the permit is denied, state the reasons for denial. The applicant may appeal to the department of inspections and appeals from the denial of a permit or from any condition in any permit if the applicant files notice of appeal with the director within thirty days of the notice of denial or issuance of the permit. The director shall notify the applicant within thirty days of the time and place of the hearing.

Copies of all forms or other paper instruments required to be filed during on-site inspections or investigations shall be given to the owner or operator of the disposal system or public water supply system being investigated or inspected before the inspector or investigator leaves the site. Any other report, statement, or instrument shall not be filed with the department unless a copy is sent by ordinary mail to the owner or operator of the disposal system or public water supply system within ten working days of the filing. If an inspection or investigation is done in co-operation with another state department, the department involved and the areas inspected shall be stated.

The director shall also issue or deny conditional permits for the construction of disposal systems for electric power generating facilities subject to chapter 476A. All applications for conditional permits shall be subject to such notice and opportunity for public participation as may be required by the department and as may be consistent with chapter 476A and any agreement pursuant thereto under chapter 28E. The applicant or an intervenor may appeal to the department from the denial of a conditional permit or any of its conditions. For the purposes of chapter 476A, the issu-

ance or denial of a conditional permit by the director or the department upon appeal shall be a determination that the electric power generating facility does or does not meet the permit and licensing requirements of the department. The issuance of a conditional permit shall not relieve the applicant of the responsibility to submit final and detailed construction plans and drawing and an application for a construction permit for a disposal system that will meet the effluent limitations in the conditional permit.

5. Conduct random inspections of work done by city and county public works departments to ensure such public works departments are complying with this Act*. If a city or county public works department is not complying with section 455B.183 in reviewing plans and specifications or in granting permits or both, the department shall perform these functions in that jurisdiction until the city or county public works department is able to perform them. Performance of these functions in a jurisdiction by a local public works department shall not be suspended or revoked until after notice and opportunity for hearing as provided in chapter 17A.

The department shall give technical assistance to city and county public works departments upon request of such local public works departments.

455B.175 Violations.

If there is substantial evidence that any person has violated or is violating any provision of this part of this division, or of any rule or standard established or permit issued pursuant thereto; then:

1. The director may issue an order directing the person to desist in the practice which constitutes the violation or to take such corrective action as may be necessary to ensure that the violation will cease. The person to whom such order is issued may cause to be commenced a contested case within the meaning of the Iowa administrative procedure Act by filing with the director within thirty days a notice of appeal to the commission. On appeal the commission may affirm, modify or vacate the order of the director; or

2. If it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. Any such order shall be binding and effective immediately and until such order is modified or vacated at a hearing before the commission or by a court; or

3. The director, with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to section 455B.191.

455B.176 Criteria considered.

In establishing, modifying, or repealing water quality standards the commission shall base its decision

upon data gathered from sources within the state regarding the following:

1. The protection of the public health;
2. The size, depth, surface area covered, volume, direction and rate of flow, stream gradient, and temperature of the affected water of the state;
3. The character and uses of the land area bordering the affected water of the state;
4. The uses which have been made, are being made, or may be made of the affected water of the state for public, private, or domestic water supplies, irrigation; livestock watering; propagation of wildlife, fish, and other aquatic life; bathing, swimming, boating, or other recreational activity; transportation; and disposal of sewage and wastes;
5. The extent of contamination resulting from natural causes including the mineral and chemical characteristics;
6. The extent to which floatable or settleable solids may be permitted;
7. The extent to which suspended solids, colloids, or a combination of solids with other suspended substances may be permitted;
8. The extent to which bacteria and other biological organisms may be permitted;
9. The amount of dissolved oxygen that is to be present and the extent of the oxygen demanding substances which may be permitted;
10. The extent to which toxic substances, chemicals or deleterious conditions may be permitted.
11. The economic costs and benefits. The goal shall be a reasonable balance between total costs to the people and to the economy, and the resultant benefits to the people of Iowa.

455B.177 Declaration of policy.

1. The general assembly finds and declares that because the federal Water Pollution Control Act, provides for a permit system to regulate the discharge of pollutants into the waters of the United States and provides that permits may be issued by states which are authorized to implement that Act, it is in the interest of the people of Iowa to enact this Act* in order to authorize the state to implement the federal Water Pollution Control Act, and federal regulations and guidelines issued pursuant to that Act.

2. The general assembly further finds and declares that because the federal Safe Drinking Water Act, Public Law 93-523, provides for the implementation of said Act by states which have adequate authority to do so, it is in the interest of the people of Iowa to implement the provisions of the federal Safe Drinking Water Act and federal regulations and guidelines issued pursuant thereto.

455B.178 Judicial review.

Except as provided in section 455B.191, subsection 6, judicial review of any order or other action of the commission or of the director may be sought in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding the terms of said Act, petitions for judicial review may be filed in the district court of the county in which the alleged offense was committed or such final order was entered.

Upon a satisfactory showing by any person to the director that public disclosure of any record, report, permit, permit application or other document or information or part thereof would divulge methods or processes entitled to protection as a trade secret, any such record, report, permit, permit application or other document or part thereof other than effluent data and analytical results of monitoring or public water supply systems, shall be accorded confidential treatment. Notwithstanding the provisions of chapter 22, a person in connection with duties or employment by the department shall not make public any information accorded confidential status, however any such record or other information accorded confidential status may be disclosed or transmitted to other officers, employees or authorized representatives of this state or the United States concerned with carrying out this part of this division or when relevant in any proceeding under this Act*.

455B.181 Variances and exemptions.

The director may, after public notice and hearing, grant exemptions from a maximum contaminant level or treatment technique, or both. The director may also grant a variance from drinking water standards for public water supply systems when the characteristics of the raw water sources, which are available to a system, cannot meet the requirements with respect to maximum contaminant level of the standards despite application of the best treatment techniques which are generally available and if the director determines that the variance will not result in an unreasonable risk to the public health. A schedule of compliance may be prescribed by the director, at the time the variance or exemption is granted. The director shall also require the interim measures to minimize the contaminant levels of systems subject to the variance or exemption as may reasonably be implemented. The director may also issue variances from other rules of the department if necessary and appropriate. The denial of a variance or exemption may be appealed to the department.

455B.182 Failure constitutes contempt.

Failure to obey any order issued by the department with reference to a violation of this part of this division or any rule promulgated or permit issued pursuant thereto shall constitute prima-facie evidence of contempt. In such event the department may certify to the district court of the county in which such alleged disobedience occurred the fact of such failure. The district court after notice, as prescribed by the court, to the parties in interest shall then proceed to hear the

matter and if it finds that the order was lawful and reasonable it shall order the party to comply with the order. If the person fails to comply with the court order, that person shall be guilty of contempt and shall be fined not to exceed five hundred dollars for each day that the person fails to comply with the court order. The penalties provided in this section shall be considered as additional to any penalty which may be imposed under the law relative to nuisances or any other statute relating to the pollution of any waters of the state or related to public water supply systems and a conviction under this section shall not be a bar to prosecution under any other penal statute.

455B.183 Written permits required.

It is unlawful to carry on any of the following activities without first securing a written permit from the director, or from a city or county public works department if the public works department reviews the activity under this section, as required by the department:

1. The construction, installation or modification of any disposal system or public water supply system or part thereof or any extension or addition thereto except those sewer extensions and water supply distribution system extensions that are subject to review and approval by a city or county public works department pursuant to this section and private sewage disposal systems. A permit shall be issued for the construction, installation or modification of a public water supply system or part of a system if a qualified, registered engineer certifies to the department that the plans for the system or part of the system meet the requirements of state and federal law or regulations. The permit shall state that approval is based only upon the engineer's certification that the system's design meets the requirements of all applicable state and federal laws and regulations and the review of the department shall be advisory.

2. The construction or use of any new point source for the discharge of any pollutant into any water of the state.

3. The operation of any waste disposal system or public water supply system or any part of or extension or addition to the system. This provision does not apply to a pretreatment system the effluent of which is to be discharged directly to another disposal system for final treatment and disposal, a semi-public sewage disposal system, the construction of which has been approved by the department and which does not discharge into water of the state or a private sewage disposal system which does not discharge into a water of the state. The exemption of this paragraph shall not apply to any industrial waste discharges.

Upon adoption of standards by the commission pursuant to section 455B.173, subsections 5 to 8, plans and specifications for sewer extensions and water supply distribution system extensions covered by this section shall be submitted to the city or county public works department for approval if the local public works department employs a qualified, registered engineer who reviews the plans and specifications using the specific state standards known as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems that have been formulated and adopted by the department pursuant

to section 455B.173, subsections 5 to 8. The local agency shall issue a written permit to construct if all of the following apply:

a. The submitted plans and specifications are in substantial compliance with departmental rules and the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems.

b. The extensions primarily serve residential consumers and will not result in an increase greater than five percent of the capacity of the treatment works or serve more than two hundred fifty dwelling units or, in the case of an extension to a water supply distribution system, the extension will have a capacity of less than five percent of the system or will serve fewer than two hundred fifty dwelling units.

c. The proposed sewer extension will not exceed the capacity of any treatment works which received a state or federal monetary grant after 1972.

d. The proposed water supply distribution system extension will not exceed the production capacity of any public water supply system constructed after 1972.

After issuing a permit, the city or county public works department shall notify the director of such issuance by forwarding a copy of the permit to the director. In addition, the local agency shall submit quarterly reports to the director including such information as capacity of local treatment plants and production capacity of public water supply systems as well as other necessary information requested by the director for the purpose of implementing this chapter.

Plans and specifications for all other waste disposal systems and public water supply systems, including sewer extensions and water supply distribution system extensions not reviewed by a city or county public works department under this section, shall be submitted to the department before a written permit may be issued. Plans and specifications for public water supply systems and water supply distribution system extensions must be certified by a registered engineer as provided in subsection 1. The construction of any such waste disposal system or public water supply system shall be in accordance with standards formulated and adopted by the department pursuant to section 455B.173, subsections 5 to 8. If it is necessary or desirable to make material changes in the plans or specifications, revised plans or specifications together with reasons for the proposed changes must be submitted to the department for a supplemental written permit. The revised plans and specifications for a public water supply system must be certified by a registered engineer as provided in subsection 1.

Prior to the adoption of statewide standards, the department may delegate the authority to review plans and specifications to those governmental subdivisions if in addition to compliance with subsection 3 the governmental subdivisions agree to comply with all state and federal regulations and submit plans for the review of plans and specifications including a complete set of local standard specifications for such improvements.

The director may suspend or revoke delegation of review and permit authority after notice and hearing as set forth in chapter 17A if the director determines that a city or county public works department has approved extensions which do not comply with design criteria, which exceed the capacity of waste treatment

plants or the production capacity of public water supply systems or which otherwise violate state or federal requirements.

The department shall exempt any public water supply system from any requirement respecting a maximum contaminant level or any treatment technique requirement of an applicable national drinking water regulation if these regulations apply to contaminants which the department determines are harmless or beneficial to the health of consumers and if the owner of a public water supply system determines that funds are not reasonably available to provide for controlling amounts of those contaminants which are harmless or beneficial to the health of consumers.

2 The general welfare of the people of the state requires that the water resources of the state be put to beneficial use which includes ensuring that the waste or unreasonable use, or unreasonable methods of use of water be prevented, and that the conservation and protection of water resources be required with the view to their reasonable and beneficial use in the interest of the people, and that the public and private funds for the promotion and expansion of the beneficial use of water resources be invested to the end that the best interests and welfare of the people are served

3 Water occurring in a basin or watercourse, or other body of water of the state, is public water and public wealth of the people of the state and subject to use in accordance with this chapter, and the control and development and use of water for all beneficial purposes is vested in the state, which shall take measures to ensure the conservation and protection of the water resources of the state. These measures shall include the protection of specific surface and groundwater sources as necessary to ensure long-term availability in terms of quantity and quality to preserve the public health and welfare

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455A 2, 82 Acts, ch 1199, §16, 96]

2 Upon application by any person for permission to divert, pump, or otherwise take waters from any watercourse, underground basin or watercourse, drainage ditch, or settling basin within this state for any purpose other than a nonregulated use, the director shall investigate the effect of the use upon the natural flow of the watercourse, the effect of the use upon the owners of any land which might be affected by the use, the effect of the use upon prior users of the water source and contracts made under section 455B 263 and whether the use is consistent with the principles and policies of beneficial use.

3 Upon application by any person for approval of the construction or maintenance of any structure, dam, obstruction, deposit, or excavation to be erected, used, or maintained in or on the flood plains of any river or stream, the department shall investigate the effect of the construction or maintenance project on the efficiency and capacity of the floodway. In determining the effect of the proposal the department shall consider fully its effect on flooding of or flood control for any proposed works and adjacent lands and property, on the wise use and protection of water resources, on the quality of water, on fish, wildlife, and recreational facilities or uses, and on all other public rights and requirements.

If the department determines after investigation that the diversion, storage or withdrawal is consistent with the principles and policies of beneficial use and ensuring conservation, the department shall grant a permit. Regardless of the

request in the application, the director or the department on appeal may determine the duration and frequency of withdrawal and the quantity of water to be diverted, stored or withdrawn pursuant to the permit. Each permit granted after July 1, 1986, shall include conditions requiring routine conservation practices, and requiring implementation of emergency conservation measures after notification by the department.

2 If an application is received by July 1, 1986, the department shall grant a permit for the continuation of a beneficial use of water that was a nonregulated use prior to July 1, 1985, and now requires a permit pursuant to section 455B 268. However, the permit is subject to conditions requiring routine and emergency conservation measures and to modification or cancellation under section 455B 271. Applications received after July 1, 1986 for those uses shall be determined pursuant to subsection 1.

3 Permits shall be granted for a period of ten years, however, permits for withdrawal of water may be granted for less than ten years if geological data on the capacity of the aquifer and the rate of its recharge are indeterminate, and permits for the storage of water may be granted for the life of the structure unless revoked by the department. A permit granted shall remain as an appurtenance of the land described in the permit through the date specified in the permit and any extension of the permit or until an earlier date when the permit or its extension is canceled under section 455B 271. Upon application for a permit prior to the termination date specified in the permit, a permit may be renewed by the department for a period of ten years.

455B.266 Priority allocation.

1 After any event described in paragraphs "a" through "d" of this subsection has occurred, the department shall investigate and, if appropriate, may implement the priority allocation plan provided in subsection 2. The department shall require existing permittees to implement appropriate emergency conservation measures. The pertinent public notice and hearing requirements of subsection 4 of this section and sections 455B 271 and 455B 278 shall apply to the implementation of the plan.

a Receipt of a petition by twenty five affected persons or a governmental subdivision requesting that the priority allocation plan be implemented due to a substantial local water shortage.

b Receipt of information from a state or federal natural resource, research or climatological agency indicating that a drought of local or state magnitude is imminent.

c Issuance by the governor of a proclamation of a disaster emergency due to a drought or other event affecting water resources of the state.

d Determination by the department in conjunction with the disaster services division of the department of public defense of a local crisis which affects availability of water.

2 Notwithstanding a person's possession of a per

mit or the person's use of water being a nonregulated use, the department may suspend or restrict usage of water by category of use on a local or statewide basis in the following order

- a Water conveyed across state boundaries
- b Uses of water primarily for recreational or aesthetic purposes
- c Uses of water for the irrigation of hay, corn, soybeans, oats, grain sorghum or wheat
- d Uses of water for the irrigation of crops other than hay, corn, soybeans, oats, grain sorghum or wheat
- e Uses of water for manufacturing or other industrial processes
- f Uses of water for generation of electrical power for public consumption
- g Uses of water for livestock production
- h Uses of water for human consumption and sanitation supplied by rural water districts, municipal water systems, or other public water supplies as defined in section 455B 171
- i Uses of water for human consumption and sanitation supplied by a private water supply as defined in section 455B 171

3 Unless the governor has issued a proclamation described in subsection 1, paragraph "c", the department shall not impose a suspension of water use or a further restriction, other than conservation, on the uses of water provided in subsection 2, paragraphs "g" through "i" or on users of water pursuant to a contract with the state as provided in section 455B 263, subsections 5 and 6. If a contract with the state as provided in section 455B 263, subsections 5 and 6 was in effect prior to March 5, 1985, the department shall not impose a suspension of water use or a further restriction, other than conservation, on the users of water pursuant to that contract

4 Suspension or restrictions of water usage applicable to otherwise nonregulated water users shall be by emergency order of the director which the department shall cause to be published in local newspapers of general circulation and broadcast by local media. The emergency order shall state an effective date of the suspension or restriction and shall be immediately effective on such date unless stayed, modified or vacated at a hearing before the commission or by a court

455B.267 Permits for beneficial use — prohibitions.

1 The director or the commission may issue a permit for beneficial use of water in a watercourse if the established average minimum water flow is preserved

2 A use of water shall not be authorized if it will impair the effect of this chapter or any other pollution control law of this state

3 A permit shall not be issued or continued if it will impair the navigability of any navigable watercourse

4 A permit to divert, store or withdraw water shall not be issued or continued if it will unreasonably impair the long-term availability of water from a surface or groundwater source in terms of quantity or quality, or otherwise adversely affect the public health or wel

fare

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A 22, 455A 24, 82 Acts, ch 1199, §21, 96] 85 Acts, ch 7, §7, 86 Acts, ch 1245, §1899A

455B.268 When permit required.

1 A permit shall be required for the following

a Except for a nonregulated use, a person diverting, storing or withdrawing water from any surface or groundwater source

b A person who diverts water or any material from the surface directly into an underground watercourse or basin

2 The commission may adopt, modify, or repeal rules pursuant to chapter 17A specifying the conditions under which the director may authorize specific nonrecurring minor uses of water for periods not to exceed one year through registration

3 Notwithstanding any exemptions from permit requirements, nothing in this part exempts water users from requirements for reporting which the commission adopts by rule

455B.269 Taking water prohibited

A person shall not take water from a natural watercourse, underground basin or watercourse, drainage ditch, or settling basin within this state for any purpose other than a nonregulated use except in compliance with the sections of this part which relate to the withdrawal, diversion, or storage of water. However, existing uses may be continued during the period of the pendency of an application for a permit

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A 26, 82 Acts, ch 1199, §23, 96]

83 Acts, ch 137, §14

455B.270 Rights preserved.

The sections of this part which relate to the withdrawal, diversion, or storage of water do not deprive any person of the right to use diffused waters, to drain land by use of tile, open ditch, or surface drainage, or to construct an impoundment on the person's property or across a stream that originates on the person's property if provision is made for safe construction and for a continued established average minimum flow when the flow is required to protect the rights of water users below

83 Acts, ch 137, §15

455B.271 Modification or cancellation of permits.

Each permit issued under section 455B 265 is irrevocable for its term and for any extension of its term except as follows

1 A permit may be modified or canceled by the department with the consent of the permittee

2 Subject to appeal to the department of inspections and appeals, a permit may be modified or canceled by the director if any of the following occur

a There is a breach of the terms of the permit

b There is a violation of the law pertaining to the permit by the permittee or the permittee's agents

c. There is a circumstance of nonuse as provided in section 455B.272.

d. The department finds that modification or cancellation is necessary to protect the public health or safety, to protect the public interests in lands or waters, to require conservation measures or to prevent substantial injury to persons or property in any manner. Before the modification or cancellation is effective, the department shall give at least thirty days' written notice mailed to the permittee at the permittee's last known address, stating the grounds of the proposed modification or cancellation and giving the permittee an opportunity to be heard on the proposal.

3. By written emergency order to the permittee, the department may suspend or restrict operations under a permit if the director finds it necessary in an emergency to protect the public health, to protect the public interest in waters against imminent danger of substantial injury in any manner or to an extent not expressly authorized by the permit, to implement the priority allocation system of section 455B.266, or to protect persons or property against imminent danger. The department may require the permittee to take measures necessary to prevent or remedy the injury. The emergency order shall state the effective date of the suspension or restriction and shall be immediately effective on that date unless stayed, modified or vacated at a hearing before the department or by a court.

455B.272 Termination of permit.

The right of the permittee and the permittee's successors to the use of water shall terminate when the permittee or the permittee's successors fail for three consecutive years to use it for the specific beneficial purpose authorized in the permit and, after notification by the department of intent to cancel the permit for nonuse, the permittee or the permittee's successors fail to demonstrate adequate plans to use water within a reasonable time. However, nonuse of water due to adequate rainfall does not constitute grounds for cancellation of a permit to use water for irrigation.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.29; 82 Acts, ch 1199, §26, 96]

83 Acts, ch 137, §17

455B.273 Disposal of permit.

A permittee may sell, transfer, or assign a permit by conveying, leasing, or otherwise transferring the ownership of the land described in the permit, but the permit does not constitute ownership or absolute rights of use of the waters. The waters remain subject to the principle of beneficial use and the orders of the director or commission.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.30; 82 Acts, ch 1199, §27, 96]

86 Acts, ch 1245, §1899

455B.274 Unauthorized depleting uses.

If a person files a complaint with the department that another person is making a depleting use of water not expressly exempted as a nonregulated use under this part and without a permit to do so, the depart-

ment shall cause an investigation to be made and if the facts stated in the complaint are verified the department shall order the discontinuance of the use.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.32; 82 Acts, ch 1199, §28, 96]

455B.275 Prohibited acts — powers of commission and executive director.

1. A person shall not permit, erect, use or maintain a structure, dam, obstruction, deposit, or excavation in or on a floodway or flood plains, which will adversely affect the efficiency of or unduly restrict the capacity of the floodway, or adversely affect the control, development, protection, allocation, or utilization of the water resources of the state, and the same are declared to be public nuisances. However, this subsection does not apply to dams constructed and operated under the authority of chapter 469.

2. The department may commence, maintain, and prosecute any appropriate action to enjoin or abate a nuisance, including any of the nuisances specified in subsection 1 and any other nuisance which adversely affects flood control.

3. If a person desires to erect or make or to permit a structure, dam, obstruction, deposit, or excavation, other than a dam constructed and operated under chapter 469, to be erected, made, used, or maintained in or on any floodway or flood plains, the person shall file a written application with the department, setting forth information as required by rule of the commission. The department, after an investigation, shall approve or deny the application imposing conditions and terms as prescribed by the department.

4. The department may maintain an action in equity to enjoin a person from erecting or making or permitting to be made a structure, dam, obstruction, deposit, or excavation other than a dam constructed and operated under the authority of chapter 469, for which a permit has not been granted. The department may also seek judicial abatement of any structure, dam, obstruction, deposit, or excavation erected or made without a permit required under this part. The abatement proceeding may be commenced to enforce an administrative determination of the department in a contested case proceeding that a public nuisance exists and should be abated. The costs of abatement shall be borne by the violator. Notwithstanding section 176B.11, a structure, dam, obstruction, deposit, or excavation on a floodway or flood plain in an agricultural area established under chapter 176B is not exempt from the sections of this part which relate to regulation of flood plains and floodways.

5. The department may remove or eliminate a structure, dam, obstruction, deposit, or excavation in a floodway which adversely affects the efficiency of or unduly restricts the capacity of the floodway, by an action in condemnation, and in assessing the damages in the proceeding, the appraisers and the court shall take into consideration whether the structure, dam, obstruction, deposit, or excavation is lawfully in or on the floodway in compliance with this part.

6. The department may require, as a condition of an approval order or permit granted pursuant to this part or chapter 469, the furnishing of a performance bond with good and sufficient surety, conditioned upon full compliance with the order or permit and the

rules of the commission. In determining the need for and amount of bond, the department shall give consideration to the hazard posed by the construction and maintenance of the approved works and the protection of the health, safety, and welfare of the people of the state. This subsection does not apply to orders or permits granted to a governmental entity.

7. When approving a request to straighten a stream, the department may establish as a condition of approval a permanent prohibition against tillage of land owned by the person receiving the approval and lying within a minimum distance from the stream sufficient in the judgment of the director or commission to hold soil erosion to reasonable limits. The department shall record the prohibition in the office of the county recorder of the appropriate county and the prohibition shall attach to the land.

8. The commission shall establish, by rule, thresholds for dimensions and effects, and any structure, dam, obstruction, deposit, or excavation having smaller dimensions and effects than those established by the commission is not subject to regulation under this section. The thresholds shall be established so that only those structures, dams, obstructions, deposits, or excavations posing a significant threat to the well-being of the public and the environment are subject to regulation.

455B.276 Flood plains — encroachment limits.

The commission may establish and enforce rules for the orderly development and wise use of the flood plains of any river or stream within the state and alter, change, or revoke the rules. The commission shall determine the characteristics of floods which reasonably may be expected to occur and may establish by order encroachment limits, protection methods, and minimum protection levels appropriate to the flooding characteristics of the stream and to reasonable use of the flood plains. The order shall fix the length of flood plains to be regulated at any practical distance, the width of the zone between the encroachment limits so as to include portions of the flood plains adjoining the channel, which with the channel, are required to carry and discharge the flood waters or flood flow of the river or stream, and the design discharge and water surface elevations for which protection shall be provided for projects outside the encroachment limits but within the limits of inundation. Plans for the protection of projects proposed for areas subject to inundation shall be reviewed as plans for flood control works within the purview of section 455B.277. An order establishing encroachment limits shall not be issued until notice of the proposed order is given and opportunity for public hearing given for the presentation of protests against the order. In establishing the limits, the commission shall avoid to the greatest possible degree the evacuation of persons residing in the area of a floodway, the removal of residential structures occupied by the persons in the area of a floodway, and the removal of structures erected or made prior to July 4, 1965, which are located on the flood plains of a river or stream but not within the area of a floodway.

The commission shall cooperate with and assist

local units of government in the establishment of encroachment limits, flood plain regulations, and zoning ordinances relating to flood plain areas within their jurisdiction. Encroachment limits, flood plain regulations, or flood plain zoning ordinances proposed by local units of government shall be submitted to the department for review and approval prior to adoption by the local units of government. Changes or variations from an approved regulation or ordinance as it relates to flood plain use are subject to approval by the commission prior to adoption. Individual applications, plans, and specifications and individual approval orders shall not be required for works on the flood plains constructed in conformity with encroachment limits, flood plain regulations, or zoning ordinances adopted by the local units of government and approved by the commission.

455B.277 Flood control works coordinated.

All flood control works in the state, which are established and constructed after April 16, 1949, shall be coordinated in design, construction, and operation according to sound and accepted engineering practice so as to effect the best flood control obtainable throughout the state. A person shall not construct or install works of any nature for flood control until the proposed works and the plans and specifications for the works are approved by the department. The department shall consider all the pertinent facts relating to the proposed works which will affect flood control and water resources in the state and shall determine whether the proposed works in the plans and specifications will be in aid of and acceptable as part of, or will adversely affect and interfere with flood control in the state, adversely affect the control, development, protection, allocation, or utilization of the water resources of the state, or adversely affect or interfere with an approved local water resources plan. In the event of disapproval, the department shall set forth the objectionable features so that the proposed works and the plans and specifications for the proposed works may be corrected or adjusted to obtain approval.

This section applies to drainage districts, soil conservation districts, the state conservation commission, political subdivisions of the state, and private persons undertaking projects relating to flood control.

455B.278 Permit application procedures.

1. The commission shall adopt, modify, or repeal rules establishing procedures by which permits required under this part shall be issued, suspended, revoked, modified, or denied. The rules shall include provisions for application, public notice and opportunity for public hearing, and contested cases. Public notice of a decision by the director to issue a permit shall be given in a manner designed to inform persons who may be adversely affected by the permitted project or activity.

2. Action by the department upon an application for a permit required under this part may be appealed

to the commission by the applicant or any affected person within thirty days of the department's action. A hearing before the commission or its designee is a contested case. The hearings and judicial review of decisions of the commission shall be carried out in accordance with chapter 17A. Notwithstanding chapter 17A, petitions for judicial review may be filed in the district court of Polk county or of any county in which the property affected is located. If the commission, the district court, or the supreme court determines that the action of the commission shall be stayed, the petitioner shall file an appropriate bond approved by the court.

455B.279 Violation.

1. The director may issue any order necessary to secure compliance with or prevent a violation of this part or the rules adopted pursuant to this part. Within thirty days of issuance, the order may be appealed to the commission by filing a notice of appeal with the director. The appeal shall be conducted as a contested case pursuant to chapter 17A and the commission may affirm, modify, or revoke the order. The department may request legal services as required from the attorney general, including any legal proceeding necessary to obtain compliance with this part and rules and orders issued under this part.

2. A person who violates a provision of this part or a rule or order adopted or promulgated or the conditions of a permit issued pursuant to this part is subject to a civil penalty not to exceed five hundred dollars for each day that a violation occurs.

455B.280 Coordination with water resource districts.

The commission and the boards of the water resource districts established by chapter 467D shall coordinate their efforts in carrying out the purposes of this chapter and chapter 467D. In addition to other powers and duties conferred by law, the department shall:

1. Offer advice and assistance as appropriate to the boards of the several water resource districts in the state in discharging their powers and duties.

2. Review and make recommendations as necessary to bring the plan of each of the water resource districts, and any subsequent changes in the plan, into conformity with the statewide water resources plan established by the commission pursuant to section 455B.263.

3. Inform the board of any water resource district of any of the following:

a The receipt of each application for a permit to divert, store, or withdraw either surface or underground waters at any place within the district, filed with the director pursuant to this part.

b The receipt of each application for approval of a proposed dam, obstruction, deposit, or excavation in or on any floodway or flood plain in the district, filed with the director pursuant to section 455B.275.

c. Any proposed order which would establish encroachment limits and zoning regulations on any flood plain in the district, filed with the director pursuant to section 455B.276.

d The receipt of each application for approval of a proposed flood control structure or works, filed with the director pursuant to section 455B.277.

455B.281 Compensation for well interference.

If an investigation by the department, using information provided by the applicant or permittee and the complainant, discloses that a proposed or existing permitted use or combination of such uses is causing or will cause the delivery system to fail in a well which supplies water for a nonregulated use, the department may condition issuance or continuation of a permit upon payment by the permittee of compensation for all or a portion of the cost of a replacement water supply system or remedial measures necessitated by the interference. However, such condition may be imposed only after the parties demonstrate to the department that a good faith effort to negotiate a mutually agreeable compensation has been made and has failed.

Determination of the amount of compensation for the well interference shall be made a part of the determination of the department in accordance with section 455B.265 or 455B.271. The department may require the submission of itemized estimates of the cost of remedial repairs or a replacement water supply system. In determining appropriate compensation, the department shall consider the age and condition of the affected well or pumping system and its reasonableness as a method of obtaining groundwater in light of the history of development of groundwater in the surrounding area. When compensation is required for all or part of the cost of construction of a replacement water supply system or reconstruction of an affected well, the construction or reconstruction must comply with applicable well construction standards. A permittee is not required to pay compensation before having an opportunity to do test pumping authorized by the department and supervised by the department or designee.

The determination of the department shall be subject to administrative and judicial review and shall be the exclusive remedy for such interference.

The commission shall adopt rules that allow the use of wet or dry sludge from publicly owned treatment works for land application. A sale of wet or dry sludge for the purpose of land application shall be accompanied by a written agreement signed by both parties which contains a general analysis of the contents of the sludge. The heavy metal content of the sludge shall not exceed that allowed by rules of the commission. An owner of a publicly owned treatment works which sells wet or dry sludge is not subject to criminal liability for acts or omissions in connection with a sale, and is not subject to any action by the purchaser to recover damages for harm to person or property caused by sludge that is delivered pursuant to a sale unless it is a result of a violation of the written agreement or if the heavy metal content of the sludge exceeds that allowed by rules of the commission. Nothing in this section shall provide immunity to any person from action by the department pursuant to section 455B.307. The rules promulgated under this paragraph shall be generally consistent with those rules of the department existing on January 1, 1982 regarding the land application of municipal sewage sludge except that they may provide for different methods of application for wet sludge and dry sludge.

The commission shall adopt rules prohibiting the disposal of uncontained liquid waste in a sanitary landfill.

The commission shall adopt rules requiring that each sanitary disposal project established pursuant to section 455B.302 and permitted pursuant to section 455B.305 install and maintain a sufficient number of groundwater monitoring wells to adequately determine the quality of the groundwater and the impact

the sanitary disposal project, if any, is having on the groundwater adjacent to the sanitary disposal project site.

The commission shall adopt rules requiring a schedule of monitoring of the quality of groundwater adjacent to the sanitary disposal project from the groundwater monitoring wells installed in accordance with this section during the period the sanitary disposal project is in use. Schedules of monitoring may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operation characteristics, and volumes and types of wastes handled at the sanitary disposal project site.

The commission shall, by rule, require continued monitoring of groundwater pursuant to this section for a period of twenty years after the sanitary disposal project is closed. The commission may prescribe a lesser period of monitoring duration and frequency in consideration of the potential or lack thereof for groundwater contamination from the sanitary disposal project. The commission may extend the twenty-year monitoring period on a site-specific basis by adopting rules specifically addressing additional monitoring requirements for each sanitary disposal project for which the monitoring period is to be extended.

The commission shall adopt rules which may require the installation of shafts to relieve the accumulation of gas in a sanitary disposal project.

1. The director shall issue, revoke, suspend, modify, or deny permits for the construction and operation of sanitary disposal projects.

A permit shall be issued by the director or at the director's direction, by a local board of health, for each sanitary disposal project operated in this state. The permit shall be issued in the name of the city or county or, where applicable, in the name of the public or private agency operating the project. Each sanitary disposal project shall be inspected annually by the department or a local board of health. The permits issued pursuant to this section are in addition to any other licenses, permits or variances authorized or required by law, including, but not limited to, chapter 358A. A permit may be suspended or revoked by the director if a sanitary disposal project is found not to meet the requirements of part 1 or rules issued under part 1. The suspension or revocation of a permit may be appealed to the department.

2. Beginning July 1, 1988, the director shall not issue a permit for the construction or operation of a new sanitary landfill unless the permit applicant has filed a plan as required by section 455B.306.

3. Beginning July 1, 1988, the director shall not renew or reissue a permit which had been initially issued prior to that date for a sanitary landfill, unless the permit applicant has filed a plan as required by section 455B.306.

4. Beginning July 1, 1994, the director shall not renew or reissue a permit which had been initially issued or renewed prior to that date for a sanitary

landfill, unless and until the permit applicant documents that steps are being taken to begin implementing the plan filed pursuant to section 455B.306. However, a permit may be issued for the construction and operation of a new sanitary landfill in accordance with subsection 2.

5. Beginning July 1, 1997, the director shall not renew or reissue a permit which had been renewed or reissued prior to that date for a sanitary landfill, unless and until the permit applicant documents that alternative methods of solid waste disposal other than use of a sanitary landfill have been implemented as set forth in the plan filed pursuant to section 455B.306. However, the director may issue a permit for the construction and operation of a new sanitary landfill in accordance with subsection 2 and a permit may be renewed or reissued for a sanitary landfill which had received an initial permit but the permit had not been previously renewed or reissued prior to July 1, 1997 in accordance with subsection 3.

The director shall review each plan submitted and may reject, suggest modification, or approve the proposed plan. The director shall aid in the development of plans for compliance with this part. The director shall make available to a city, county and private agency appropriate forms for the submission of plans and may hold hearings for the purpose of implementing this part. The director and governmental agencies with primary responsibility for the development and conservation of energy resources shall provide research and assistance, when cities and counties operating or planning to operate sanitary disposal projects request aid in planning and implementing resource recovery systems.

2. The plan required by subsection 1 shall be filed with the department at the time of initial application for the construction and operation of a sanitary landfill and shall be updated and refiled with the department at the time of each subsequent application for renewal or reissuance of a previously issued permit.

3. A plan filed pursuant to this section in conjunction with an application for issuance, renewal, or reissuance of a permit for a sanitary landfill shall address all of the following:

a. The extent to which solid waste is or can be recycled.

b. The economic and technical feasibility of using other existing sanitary disposal project facilities in lieu of initiating or continuing the sanitary landfill for which the permit is being sought.

c. The expected environmental impact of alternative solid waste disposal methods, including the use of sanitary landfills.

This section shall not prohibit a private agency or public agency from dumping or depositing solid waste resulting from its own residential, farming, manufacturing, mining or commercial activities on land owned or leased by it if the action does not violate any statute of this state or rules promulgated by the commission or local boards of health, or local ordinances. The director may issue temporary permits for dumping or disposal of solid waste at disposal sites for which an application for a permit to operate a sanitary disposal project has been made and which have not met all of the requirements of part 1 of this division and the rules adopted by the commission if a compliance schedule has been submitted by the applicant specifying how and when the applicant will meet the requirements for an operational sanitary disposal project and the director determines the public interest will be best served by granting such temporary permit.

2. The director may issue any order necessary to secure compliance with or prevent a violation of the provisions of this part 1 of division IV or the rules promulgated pursuant thereto. The attorney general shall, on request of the department, institute any legal proceedings necessary in obtaining compliance with an order of the commission or the director or prosecuting any person for a violation of the provisions of said part or rules issued pursuant thereto.

However, not more than ten percent of the fund may be used for this purpose in any given year without legislative authorization for that purpose.

e. Grants to public water supply systems to abate or eliminate threats to public health and safety resulting from contamination of the water supply source.

3. An amount equal to twenty-five percent of the moneys received from the tonnage fee imposed under section 455B.310 in each fiscal year shall be reserved for the purpose of providing grants to public water supply systems to abate or eliminate threats to public health and safety resulting from contamination of the water supply source. However, a public water supply shall not receive a grant for more than ten percent of the moneys available for those purposes in any given year. Any moneys not expended under this subsection at the end of each fiscal year shall be available for any of the uses authorized in subsection 2.

4. An amount equal to fifty percent of the annual receipts to the groundwater fund derived from the landfill tonnage fee imposed pursuant to section 455B.310 shall be reserved for the purpose of providing grants to cities and counties required to provide for sanitary disposal projects under section 455B.302 for the purpose of developing or updating plans required to be filed under section 455B.306. 1. Hazardous conditions existing solely within and which will probably continue to exist solely within commercial and industrial plants, works, or shops under the jurisdiction of chapters 88 and 91.

2. Relations between employers and employees with respect to hazardous conditions except that where such hazardous conditions extend to or affect areas within the scope of the authority granted by this part 4 of division IV, the department may take any

action consistent with this part 4 to abate such hazardous condition

4 The storage, transportation, handling or use of pesticides over which control is exercised by the state secretary of agriculture under chapter 206, except when spillage of pesticides creates a hazardous condition

5 The storage, transportation, handling or use of fertilizers over which control is exercised by the state secretary of agriculture under chapter 200, except when spillage of fertilizers creates a hazardous condition

[C79, 81, §455B 119]

455B.391 Duties of attorney general.

1 The attorney general shall, at the request of the department, institute any legal proceedings, including an action for an injunction or temporary injunction, necessary to obtain compliance with the provisions of this part 4 of division IV. For the purpose of developing a rule or enforcing sections 455B 411 to 455B 421, the director may

a Enter at reasonable times an establishment or other place where hazardous waste is or has been generated, stored, treated or disposed of, or a vehicle transporting hazardous waste

b Inspect and obtain samples from a person of a hazardous waste and of containers or labeling associated with the waste

c Install, service and take samples from monitoring equipment on the property

The inspection shall be completed within a reasonable period of time

2 If the director obtains a sample, prior to leaving the premises, the director shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion retained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge

3 Documents or information obtained from a person under this section shall be available to the public except as provided in this subsection. Upon a showing satisfactory to the director by a person that documents or information, or a particular part of the documents or information to which the director has access under this section if made public would divulge commercial or financial information obtained from a person and privileged or confidential or a trade secret, the director shall consider the documents or information or the particular portion of the documents or information confidential. However the document or information may be disclosed to officers, employees or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this part 5

4 a If upon receipt of any information, the director determines that the presence of a hazardous waste at a facility or site at which hazardous waste is, or has been, stored, treated, or disposed of, or the release of the waste from the facility or site may present a substantial hazard to human health or the environment, the director may issue an order requiring the owner or operator of the facility or site to conduct reasonable monitoring, testing, analysis, and reporting with respect to the facility or site to determine the nature and extent of the hazard

b In the case of a facility or site not in operation at the time a determination is made regarding the facility or site under this subsection, if the director finds that the owner of the facility or site could not

reasonably be expected to have actual knowledge of the presence of hazardous waste at the facility or site and of its potential for release, the director may issue an order requiring the most recent previous owner or operator of the facility or site who could reasonably be expected to have actual knowledge to carry out the actions referred to in this subsection

c An order under this subsection shall require the person to whom the order is issued to submit to the director within thirty days from the issuance of the order a proposal for carrying out the required monitoring, testing, analysis, and reporting. The director may, after providing the person with an opportunity to confer with the director on the proposal, require the person to carry out the monitoring, testing, analysis, and reporting in accordance with the proposal, which may be modified as the director deems reasonable to determine the nature and extent of the hazard or to remove the hazard

d If the director determines that no owner or operator referred to in this subsection is able to conduct monitoring, testing, analysis, or reporting satisfactory to the director, if the director deems any action carried out by an owner or operator to be unsatisfactory, or if the director cannot initially determine that there is an owner or operator referred to in this subsection who is able to conduct monitoring, testing, analysis, or reporting, the director may conduct reasonable monitoring, testing, or analysis to determine the nature and extent of the hazard associated with the site. The director may require the owner or operator referred to in this subsection to reimburse the director or other authority or person for the costs of the monitoring, testing, analysis, or reporting. The director shall not order a person to pay the costs of monitoring, testing, analysis, or reporting carried out by the director which confirms the results of monitoring, testing, or analysis done pursuant to an earlier order of the director

e For purposes of carrying out this subsection, the director may exercise the powers set forth in subsection 1

m Other criteria adopted by rule which the commission finds relevant to the siting of a facility which are consistent with this part 6 of division IV

2 The commission shall grant the license if it finds that the facility will meet the requirements imposed by rules adopted by the commission under section 455B 412, subsection 3, and the permit requirement of section 455B 415, that operation of the facility at the proposed location will be in the public interest and that the public health and welfare and the environment will be adequately protected. The failure of the proposed facility to meet zoning requirements established under chapters 329, 358A, and 414, and the licensing requirements of regulatory agencies except the requirements imposed by sections 455B 412, subsection 3 and 455B 415 shall not preclude the commission from issuing the license and to that extent this subsection supersedes the licensing requirements of regulatory agencies and the requirements of chapters 329, 358A and 414

3 A municipality as defined in section 613A 1, subsection 1, is not liable in an action for damages arising out of the construction, operation, or maintenance of a hazardous waste facility which is licensed by the commission under this part 6 of division IV unless the municipality is responsible for or in control of the facility. However, a municipality may be subject to liability for damages caused by hazardous waste in connection with an act or omission which would otherwise subject the municipality to liability. A municipality shall not be required to pay any portion of the costs associated with the response to a release or threatened release of a hazardous waste from a facility into the land, air, or water that threatens or may threaten human health or the environment unless the municipality is responsible for or in control of the facility or unless the municipality is otherwise subject to liability under this subsection

86 Acts, ch 1149, §2

455B 449 Issuance of license — effect.

Issuance of a license by the commission authorizes construction of the facility on the site designated in the license according to the terms and conditions stated in the license. A license may be transferred, subject to the rules and approval of the commission, to a person who agrees and is able to comply with the terms of the license

[81 Acts, ch 152, §9]

455B.450 Cost of proceedings

The cost of the proceeding for the issuance of a license shall be paid by the applicant for the license until the cost exceeds nine thousand dollars. The director shall notify the applicant upon the issuance or denial of the license or upon termination of the proceeding at any point during the process of the cost of

the proceeding to the applicant. These costs include the costs of providing notices, holding the hearing and the per diem of the commissioners in the proceeding for the license. Moneys collected shall be deposited in the general fund of the state

[81 Acts, ch 152, §10]
86 Acts, ch 1245, §1899

455B.451 Further approvals prohibited — exception.

Upon the issuance of a license under this part 6 of division IV, notwithstanding any provision of law or ordinance except statutory requirements relating to the protection of employees engaged in the construction of the facility, no further approval, permit, or license for the construction, operation, or maintenance of the facility as stated in the license shall be required. The commission may incorporate in the license the licensing requirements of a regulatory agency to the extent that those requirements are consistent with the construction and operation of the facility according to the requirements of the commission. However, this section does not limit the authority of the director under sections 455B 413 and 455B 415. A local unit of government shall not unduly restrict the transportation of hazardous waste to a facility for which a license has been issued under this part 6 of division IV

[81 Acts, ch 152, §11]
86 Acts, ch 1245, §1899

455B.452 Single hearing — judicial review.

Notwithstanding chapter 17A

1 Any proceeding or oral presentation held before the commission on an application for a license shall be held in lieu of any other proceeding or oral presentation required for a license or permit necessary for the construction, maintenance, or operation of a facility

2 The issuance or denial of the license is a final agency action, and the date for determining whether any person is aggrieved or adversely affected by the action is the date of the issuance or denial of the license

[81 Acts, ch 152, §12]

455B.453 Rules.

The commission shall adopt rules under chapter 17A necessary to implement this part 6 of division IV including but not limited to the form for an application for a license and the description of information to be furnished by the applicant

[81 Acts, ch 152, §13]

455B.454 Penalties.

A person required to obtain a site license under this part 6 of division IV who constructs a facility without having first obtained the license is subject to a civil penalty of not more than ten thousand dollars for each violation or for each day of continuing violation. Civil penalties collected pursuant to this subsection shall be forwarded by the clerk of court to the treasurer of state for deposit in the general fund of the state

[81 Acts, ch 152, §14]

455B.455 Surcharge imposed.

A land burial surcharge tax of two percent is imposed on the fee for land burial of a hazardous waste

The owner of the land burial facility shall remit the tax collected to the director of revenue and finance after consultation with the director according to rules that the director shall adopt. The director shall forward a copy of the site license to the director of revenue and finance which shall be the appropriate license for the collection of the land burial surcharge tax and shall be subject to suspension or revocation if the site license holder fails to collect or remit the tax collected under this section. The provisions of sections 422 25, subsection 4, 422 30, 422 48 to 422 52, 422 54 to 422 58, 422 67, 422 68, 422 69, subsection 1, and 422 70 to 422 75, consistent with the provisions of this part 6 of division IV, shall apply with respect to the taxes authorized under this part, in the same manner and with the same effect as if the land burial surcharge tax were retail sales taxes within the meaning of those statutes. Notwithstanding the provisions of this paragraph, the director shall provide for only quarterly filing of returns as prescribed in section 422 51. Taxes collected by the director of revenue and finance under this section shall be deposited in the general fund of the state.

455B.461 Definitions.

As used in this part 7 of division IV, unless the context otherwise requires:

1 "Hazardous waste" means hazardous waste as defined in section 455B 411, subsection 4, and section 455B 464.

2 "Land disposal" means either of the following:

a Disposal of hazardous wastes on or into the land, including, but not limited to, landfill, surface impoundment, waste piles, land spreading, and coburial with municipal garbage.

b Treatment of hazardous wastes on or in the land, such as neutralization and evaporation ponds and land farming, where the treatment residues are hazardous wastes and are not removed for subsequent processing or disposal within one year.

"Land disposal" does not include long-term storage as defined in subsection 3.

3 "Long term storage" means the above-ground containment of stabilized or solidified hazardous waste on a temporary basis or for a period of years in a manner that does not constitute disposal of hazardous waste.

4 "Storage" means the containment of a hazardous waste for a period less than one year in a manner consistent with the requirements of 42 U.S.C. §6921-6934 as amended to January 1, 1981 and the regulations adopted pursuant to those sections.

5 "Facility" means facility as defined in section 455B 442, subsection 1.

6 "Restricted waste" means a hazardous waste or any other waste which is determined by rule of the commission to be a significant environmental burden if disposed of at a land disposal facility.

85 Acts, ch 202, §2

455B.462 Limitations on land disposal of hazardous waste.

1 A generator, recycler, transporter or other handler of hazardous waste shall not dispose of the wastes by land disposal or store wastes at an above ground storage facility, unless all of the following conditions exist:

a The commission determines that the best available technology is being used at the land disposal facility.

b The handler proves to the satisfaction of the commission that there is no available alternative including above ground storage for the disposal of hazardous waste.

c The handler utilizes methods of source reduction, recycling and destruction of hazardous waste to the extent feasible, as determined by rule.

d The handler pretreats the hazardous waste as determined by rule.

2 The commission shall adopt rules including, but not limited to, the following:

a To determine the criteria that industry must satisfy to show that alternatives to land disposal of hazardous wastes are not technically or economically feasible.

b To require that all industrial and commercial owners or users of land disposal and storage sites report to the department annually the amount and content of current hazardous waste production, treatment methods used and technological advances made or pursued to implement alternatives to land disposal and source reduction.

85 Acts, ch 202, §3

455B.463 Dilution of hazardous waste.

Any hazardous waste shall be considered a restricted waste for the purposes of this part even though it is diluted to a concentration less than the listed concentration threshold by the addition of other hazardous waste or any other material during waste handling, treatment or storage. Dilution which occurs as a normal part of the manufacturing process shall not be considered dilution for purposes of this section.

85 Acts, ch 202, §4

455B.464 Additional hazardous or restricted waste listed.

Notwithstanding the restriction in section 455B 420, the director shall compile, annually, a list of additional hazardous wastes for adoption by the commission pursuant to the rulemaking procedures of chapter 17A. The list shall include wastes which may be a significant environmental burden if disposed of at a land disposal facility.

85 Acts, ch 202, §5, 86 Acts, ch 1245, §1899A

455B.465 Well injection prohibited.

It is unlawful for a person to inject hazardous or restricted wastes into a well.

85 Acts, ch 202, §6

455B.466 Civil penalties.

A person who violates a provision of this part is subject to a civil penalty of not more than ten thousand dollars for each violation and for each day of continuing violation. Civil penalties collected pursuant to this section shall be forwarded by the clerk of the district court to the treasurer of state for deposit in the general fund of the state.

85 Acts, ch 202, §7

455B.467 Emergency variance.

The department may grant a variance to the restrictions or prohibition of land disposal of a hazardous waste in either of the following situations:

1 When the materials sought to be disposed of resulted from the cleanup of a hazardous condition involving a hazardous waste.

2 When the materials sought to be disposed of resulted from remediation or cleanup of abandoned or uncontrolled hazardous waste sites.

85 Acts, ch 202, §8

455B.468 Coordination with existing reporting and permitting requirements.

This part does not require the department to establish a reporting or permitting system if such a system is already established under the federal Resource Conservation and Recovery Act 42 U.S.C. §6901 et seq. and administered and enforced through the federal environmental protection agency that achieves the objectives set out in this part. Consistent with this part, the department may establish requirements in addition to those established under the Resource Conservation and Recovery Act for reporting, permitting, and enforcement. However, in such actions, the department shall avoid any redundancy in reporting, compliance, and enforcement with that provided under the Resource Conservation and Recovery Act.

Notwithstanding section 455B.420, the rules and requirements imposed under this part may be more restrictive than required by federal law or regulation.

PART 8

UNDERGROUND STORAGE TANKS

455B.471 Definitions.

As used in this part unless the context otherwise requires:

1 "Nonoperational storage tank" means an underground storage tank in which regulated substances will not be deposited or from which regulated substances will not be dispensed after July 1, 1985.

2 "Operator" means a person in control of, or having responsibility for, the daily operation of the underground storage tank.

3 "Owner" means:

a In the case of an underground storage tank in use on or after July 1, 1985, a person who owns the underground storage tank used for the storage, use, or dispensing of regulated substances.

b In the case of an underground storage tank in use before July 1, 1985, but no longer in use on that date, a person who owned the tank immediately before the discontinuation of its use.

4 "Regulated substance" means an element, compound, mixture, solution or substance which, when released into the environment, may present substantial danger to the public health or welfare or the environment. Regulated substance includes substances designated in 40 C.F.R., Parts 61 and 116, and section 401.15, and petroleum including crude oil or any fraction of crude oil which is liquid at standard conditions of temperature and pressure (sixty degrees Fahrenheit and fourteen and seven-tenths pounds per square inch absolute). However, regulated substance does not include a substance regulated as a hazardous waste under the Resource Conservation and Recovery Act of 1976. Substances may be added or deleted as regulated substances by rule of the commission pursuant to section 455B.474.

5 "Release" means spilling, leaking, emitting, discharging, escaping, leaching, or disposing from an underground storage tank into groundwater, surface water, or subsurface soils.

6 "Underground storage tank" means one or a combination of tanks, including underground pipes connected to the tanks which are used to contain an accumulation of regulated substances and the volume of which, including the volume of the underground pipes, is ten percent or more beneath the surface of the ground. Underground storage tank does not include:

a Farm or residential tanks of one thousand one hundred gallons or less capacity used for storing motor fuel for noncommercial purposes.

b Tanks used for storing heating oil for consumptive use on the premises where stored.

c Residential septic tanks.

d Pipeline facilities regulated under the Natural Gas Pipeline Safety Act of 1968, as amended to January 1, 1985 (49 U.S.C. §1671 et seq.), the Hazardous Liquid Pipeline Safety Act of 1979, as amended to January 1, 1985 (49 U.S.C. §2001 et seq.), or an intrastate pipeline facility regulated under chapter 479.

e A surface impoundment, pit, pond, or lagoon.

f A storm water or wastewater collection system.

g A flow through process tank.

h A liquid trap or associated gathering lines directly related to oil or gas production and gathering operations.

i A storage tank situated in an underground area including, but not limited to, a basement, cellar, mine working, drift, shaft, or tunnel if the storage tank is situated upon or above the surface of the floor.

Underground storage tank does not include pipes connected to a tank described in paragraphs "a" to "i."

7 "Tank site" means a tank or grouping of tanks within close proximity of each other located on the facility for the purpose of storing regulated substances.

Section 455B.471 Code 1985 transferred to §455B.491 in Code Supplement 1985

455B.472 Declaration of policy.

The general assembly finds that the release of regulated substances from underground storage tanks constitutes a threat to the public health and safety and

to the natural resources of the state, and that existing regulatory programs of the department and other agencies do not adequately or appropriately address this substantial public concern.

85 Acts, ch 162, §2

455B.473 Report of existing tanks — fee.

1. Except as provided in subsection 2, the owner or operator of an underground storage tank existing on or before July 1, 1985, shall notify the department in writing by May 1, 1986, of the existence of each tank and specify the age, size, type, location and uses of the tank.

2. The owner of an underground storage tank taken out of operation between January 1, 1974 and July 1, 1985, shall notify the department in writing by July 1, 1986, of the existence of the tank unless the owner knows the tank has been removed from the ground. The notice shall specify to the extent known to the owner, the date the tank was taken out of operation, the age of the tank on the date taken out of operation, the size, type and location of the tank, and the type and quantity of substances left stored in the tank on the date that it was taken out of operation.

3. An owner or operator which brings into use an underground storage tank after July 1, 1985, shall notify the department in writing within thirty days of the existence of the tank and specify the age, size, type, location and uses of the tank.

4. The notice of the owner or operator to the department under subsections 1 through 3 shall be accompanied by a fee of five dollars for each tank included in the notice. A separate fund is created in the state treasury, the receipts of which are appropriated to pay the administrative expenses of the department incurred under this part. All fees collected by the department under this subsection shall be credited to the fund. The unobligated or unencumbered balance in the fund as of June 30 of each year shall be transferred to the hazardous waste remedial fund.

5. Subsections 1 to 3 do not apply to an underground storage tank for which notice was given pursuant to section 103, subsection c, of the Comprehensive Environmental Response, Compensation and Liabilities Act of 1980.

6. A person who deposits a regulated substance in an underground storage tank shall notify the owner or operator in writing of their notification requirements pursuant to this section.

7. A person who sells a tank intended to be used as an underground storage tank shall notify the purchaser of the tank in writing of the owner's notification requirements pursuant to this section.

Ch 225, §604-87 Acts

455B.474 Duties of commission — rules.

The commission shall adopt rules pursuant to chapter 17A relating to:

1. Release detection, prevention, and correction as may be necessary to protect human health and the environment, applicable to all owners and operators of underground storage tanks. The rules shall include, but are not limited to, requirements for:

a. Maintaining a leak detection system, an inventory control system with a tank testing, or a comparable system or method designed to identify releases in

a manner consistent with the protection of human health and the environment.

b. Maintaining records of any monitoring or leak detection system, inventory control system, or tank testing or comparable system.

c. Reporting of any releases and corrective action taken in response to a release from an underground storage tank.

d. Taking corrective action in response to a release or threatened release from an underground storage tank including appropriate testing of drinking water which may be contaminated by the release.

e. The closure of tanks to prevent any future release of a regulated substance into the environment.

f. Specifying an adequate monitoring system to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources for regulated tanks installed prior to May 1, 1986. The commission shall adopt these rules not later than April 1, 1986; however, the effective date of the rules adopted shall be May 1, 1988. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted.

In adopting the rules under this subsection, the commission may distinguish between types, classes, and ages of underground storage tanks. In making the distinctions, the commission may take into consideration factors including, but not limited to, location of the tanks, compatibility of a tank material with the soil and climate conditions, uses of the tanks, history of maintenance, age of the tanks, current industry recommended practices, national consensus codes, hydrogeology, water table, size of the tanks, quantity of regulated substances periodically deposited in or dispensed from the tank, the degree of risk presented by the regulated substance, the technical and managerial capability of the owners and operators, and the compatibility of the regulated substance and the materials of which the underground storage tank is fabricated.

2. The maintenance of evidence of financial responsibility as the director determines to be feasible and necessary for taking corrective action and for compensating third parties for bodily injury and property damage caused by release of a regulated substance from an underground storage tank.

a. Financial responsibility required by this subsection may be established in accordance with rules adopted by the commission by any one, or any combination, of the following methods: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In adopting requirements under this subsection, the commission may specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing the evidence of financial responsibility.

b. If the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the federal bankruptcy law or if jurisdiction in any state court or federal court cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for which evidence of

financial responsibility must be provided under this subsection may be asserted directly against the guarantor providing the evidence of financial responsibility. In the case of action pursuant to this paragraph, the guarantor is entitled to invoke all rights and defenses which would have been available to the owner or operator if an action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

c The total liability of a guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this subsection. This subsection does not limit any other state or federal statutory, contractual, or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of the guarantor for bad faith in negotiating or in failing to negotiate the settlement of any claim. This subsection does not diminish the liability of any person under section 107 or 111 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 or other applicable law.

d For the purpose of this subsection, the term "guarantor" means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this subsection.

3 Standards of performance for new underground storage tanks which shall include, but are not limited to, design, construction, installation, release detection, and compatibility standards. Until the effective date of the standards adopted by the commission and after January 1, 1986, a person shall not install an underground storage tank for the purpose of storing regulated substances unless the tank (whether of single or double wall construction) meets all the following conditions:

a The tank will prevent release due to corrosion or structural failure for the operational life of the tank.

b The tank is cathodically protected against corrosion, constructed of noncorrosive material, steel clad with a noncorrosive material, or designed in a manner to prevent the release or threatened release of any stored substance.

c The material used in the construction or lining of the tank is compatible with the substance to be stored. If soil tests conducted in accordance with ASTM, standard G 57-78 or another standard approved by the commission show that soil resistivity in an installation location is twelve thousand ohm/cm or more (unless a more stringent soil resistivity standard is adopted by rule of the commission), a storage tank without corrosion protection may be installed in that location until the effective date of the standards adopted by the commission and after January 1, 1986.

d Rules adopted by the commission shall specify adequate monitoring systems to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources from regulated tanks installed after May 1, 1986. The commission shall adopt these rules not later than January 1, 1986, however, the effective date of the rules adopted shall be May 1, 1986. In the event that federal regulations are adopted by the United States environmental

protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted.

4 The form and content of the written notices required by section 455B 473.

5 The duties of owners or operators of underground storage tanks to locate and abate the source of release of regulated substances, when in the judgment of the director, the local hydrology, geology and other relevant factors reasonably include a tank as a potential source.

6 Reporting requirements necessary to enable the department to maintain an accurate inventory of underground storage tanks.

7 Designation of regulated substances subject to this part, consistent with section 455B 471, subsection 4. The rules shall be at least as stringent as the regulations of the federal government pursuant to section 311, subsection b, paragraph 2, subparagraph A of the Federal Water Pollution Control Act, 33 U.S.C. §1321(b)(2)(A), pursuant to section 102 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. §9602, pursuant to section 307, subsection a of the federal Water Pollution Control Act, 33 U.S.C. §1317(a), pursuant to section 112 of the Clean Air Act, 42 U.S.C. §7412, or pursuant to section 7 of the Toxic Substances Control Act, 15 U.S.C. §2606.

The rules adopted by the commission under this section shall be consistent with and shall not exceed the requirements of federal regulations relating to the regulation of underground storage tanks except as provided in subsection 1, paragraph "f" and subsection 3, paragraph "d". It is the intent of the general assembly that state rules adopted pursuant to subsection 1, paragraph "f" and subsection 3, paragraph "d" be consistent with and not more restrictive than federal regulations adopted by the United States environmental protection agency when those rules are adopted.

85 Acts, ch 162, §4, 86 Acts, ch 1245, §1899A

455B.475 Duties and powers of the director.

The director shall

1 Inspect and investigate the facilities and records of owners and operators of underground storage tanks as may be necessary to determine compliance with this part and the rules adopted pursuant to this part. An inspection or investigation shall be concluded subject to section 455B 103, subsection 4. For purposes of developing a rule, maintaining an accurate inventory or enforcing this part, the department may

a Enter at reasonable times any establishment or other place where an underground storage tank is located.

b Inspect and obtain samples from any person of a regulated substance and conduct monitoring or testing of the tanks, associated equipment, contents or surrounding soils, air, surface water and groundwater. Each inspection shall be commenced and completed with reasonable promptness.

(1) If the director obtains a sample, prior to leaving the premises, the director shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion re-

tained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

(2) Documents or information obtained from a person under this subsection shall be available to the public except as provided in this subparagraph. Upon a showing satisfactory to the director by a person that public disclosure of documents or information, or a particular part of the documents or information to which the director has access under this subsection would divulge commercial or financial information entitled to protection as a trade secret, the director shall consider the documents or information or the particular portion of the documents or information confidential. However, the document or information may be disclosed to officers, employees or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this part.

2. Maintain an accurate inventory of underground storage tanks.

3. Take any action allowed by law which, in the director's judgment, is necessary to enforce or secure compliance with this part or any rule adopted under this part.

455B.476 Violations — orders.

1. If there is substantial evidence that a person has violated or is violating a provision of this part or a rule adopted under this part the director may issue an order directing the person to desist in the practice which constitutes the violation, and to take corrective action as necessary to ensure that the violation will cease, and may impose appropriate administrative penalties pursuant to section 455B.109. The person to whom the order is issued may appeal the order to the commission as provided in chapter 17A. On appeal, the commission may affirm, modify or vacate the order of the director.

2. However, if it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. The order is binding and effective immediately and until the order is modified or vacated at a hearing before the commission or by a district court.

3. The director, with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to section 455B.477.

85 Acts, ch 162, §6; 86 Acts, ch 1245, §1899A

455B.477 Penalties — burden of proof.

1. A person who violates a provision of this part or a rule or order issued under this part is subject to a civil penalty not to exceed five thousand dollars for each day during which the violation continues. The civil penalty is an alternative to a criminal penalty provided under this part.

2. A person who knowingly fails to notify or makes a false statement, representation, or certification in a

record, report, plan or other document filed or required to be maintained under this part or who falsifies, tampers with or knowingly renders inaccurate a monitoring device or method required to be maintained under this part or by a rule or order issued under this part, is guilty of an aggravated misdemeanor.

3. The attorney general, at the request of the director with approval of the commission, shall institute any legal proceedings, including an action for an injunction, necessary to enforce the penalty provisions of this part or rules adopted or order issued under this part. In any action, previous findings of fact of the director or the commission after notice and hearing are conclusive if supported by substantial evidence in the record when the record is viewed as a whole.

4. In all proceedings with respect to an alleged violation of a provision of this part or a rule adopted or order issued by the commission, the burden of proof is upon the commission or the department.

5. If the attorney general has instituted legal proceedings in accordance with this section, all related issues which could otherwise be raised by the alleged violator in a proceeding for judicial review under section 455B.478 shall be raised in the legal proceedings instituted in accordance with this section.

85 Acts, ch 162, §7; 86 Acts, ch 1245, §1899A

455B.478 Judicial review.

Except as provided in section 455B.477, subsection 5, judicial review of an order or other action of the commission or the director may be sought in accordance with chapter 17A. Notwithstanding chapter 17A, the Iowa administrative procedure Act, petitions for judicial review may be filed in the district court of the county in which the alleged offense was committed or the final order was entered.

455B.491 Restrictions on use of agricultural chemicals.

1. If the commission determines that an agricultural chemical causes an unreasonable, adverse effect on humans or the environment, the commission shall submit to the secretary of agriculture its findings and recommended actions. The secretary of agriculture shall propose rules implementing the recommended actions and shall hold a public hearing to determine the effects of the proposed rules as provided in chapter 206 after review and consideration of the findings as provided in subsection 2 of this section. A rule of the secretary shall be adopted pursuant to chapter 17A.

2. The commission shall submit to the secretary of agriculture its findings on the unreasonable, adverse effect that the agricultural chemical causes to humans or the environment. The department of agriculture and land stewardship shall prepare an estimate of the

economic impact of restricting the use of the agricultural chemical. The economic impact statement, the commission's findings and the report of the advisory committee created under section 206.23 shall be available at the time of publication of the intended rule action by the secretary. The secretary and the committee shall consider any official reports, academic studies, expert opinions or testimony, or other matters deemed to have probative value and shall consider the toxicity, hazard, effec-

tiveness, public need for the agricultural chemical or other means of control other than the chemical in question, and the economic impact on the members of the public and agencies affected by it.

3. As used in this section, "agricultural chemical" means a pesticide as defined in section 206.2 and also means any feed or soil additive, other than a pesticide, which is designed for and used to promote the growth of plants or animals.

455C.6 Redemption centers.

1. To facilitate the return of empty beverage containers and to serve dealers of beverages, any person may establish a redemption center, subject to the approval of the department, at which consumers may return empty beverage containers and receive payment of the refund value of such beverage containers.

2. An application for approval of a redemption center shall be filed with the department. The order

may contain such other provisions to insure that the redemption center will provide a convenient service to the public as the director may determine.

4. The department may review the approval of any redemption center at any time. After written notice to the person responsible for the establishment and operation of the redemption center, and to the dealers served by the redemption center, the commission may, after hearing, withdraw approval of a redemption center if the commission finds there has not been compliance with the department's order approving the redemption center, or if the redemption center no longer provides a convenient service to the public.

[C79, 81, §455C.7]

455C.8 Snap-top cans prohibited.

A person shall not sell or offer for sale at retail in this state any metal beverage container so designed and constructed that a part of the container is detachable in opening the container.

For the fiscal year commencing July 1, 1979, and each fiscal year thereafter, there is appropriated from the beer and liquor control fund to the Iowa department of public health the sum of one hundred thousand dollars, or so much thereof as may be available, which appropriation shall be made only from the difference between the funds collected from the deposit required on beverage containers containing alcoholic liquor and the funds dispersed in the payment of the refund value on such beverage containers. The Iowa department of public health shall use the appropriated funds only for the care, maintenance and treatment of alcoholics under chapter 125.

[C79, 81, §455C.11]

2. A distributor who collects or attempts to collect a refund value on an empty beverage container when the distributor has paid the refund value on the container to a dealer, redemption center, or consumer is guilty of a fraudulent practice.

3. Any person who does any of the following acts is guilty of a fraudulent practice:

a. Collects or attempts to collect the refund value on the container a second time, with the knowledge that the refund value has once been paid by the distributor to a dealer, redemption center or consumer.

b. Manufactures, sells, possesses or applies a false or counterfeit label or indication which shows or purports to show a refund value for a beverage container, with intent to use the false or counterfeit label or indication.

c. Collects or attempts to collect a refund value on a container with the use of a false or counterfeit label or indication showing a refund value, knowing the label or indication to be false or counterfeit.

4. As used in this section, a false or counterfeit label or indication means a label or indication purporting to show a valid refund value which has not been initially applied as authorized by a distributor.

5. Subsection 2 and subsection 3, paragraph "a" of this section have no application to empty beverage containers which are intended to be refillable and are in a standard of condition except for sanitization to be refillable by the manufacturer.

455C.14 Redemption of refused nonrefillable metal beverage containers.

1. If the refund value indication required under section 455C.5 on an empty nonrefillable metal beverage container is readable but the redemption of the container is lawfully refused by a dealer or person operating a redemption center under other sections of this chapter or rules adopted pursuant to these sections, the container shall be accepted and the refund value paid to a consumer as provided in this section. Each beer distributor selling nonrefillable metal beverage containers in this state shall provide individually or collectively by contract or agreement with a dealer, person operating a redemption center or another person, at least one facility in the county seat of each county where refused empty nonrefillable metal beverage containers having a readable refund value indication as required by this chapter are accepted and redeemed. DISSOLUTION OF DRAINAGE DISTRICTS

456.1	Jurisdiction to dissolve districts and abandon or transfer improvements.	456.7	to 456.10 Reserved.
456.2	Notice of hearing.	456.11	Initiating dissolution of contained district.
456.3	Hearing on petition.	456.12	Procedure for notice of hearing.
456.4	Appeal.	456.13	Procedure at hearing.

		456.16	Costs borne by overlying district.

456.1 Jurisdiction to dissolve districts and abandon or transfer improvements.

Drainage or levee districts may be dissolved and abandoned or assimilated by the procedures prescribed by this chapter.

1. When any drainage or levee district is free from indebtedness and it shall appear that the necessity therefor no longer exists or that the expense of the continued maintenance of the ditch or levee is in excess of the benefits to be derived therefrom, the board

of supervisors or board of trustees, as the case may be, shall have power and jurisdiction, upon petition of a majority of the landowners, who, in the aggregate, own sixty percent of all land in such district, to abandon the same and dissolve and discontinue such districts in the manner prescribed by sections 456.2 to 456.6. Nothing in this subsection shall prevent the board from eliminating land from a drainage district as permitted under section 455.201.

2. When one drainage or levee district, either in-

tracounty or intercounty, includes within its territory all of the territory of one or more other drainage or levee districts, and it appears that one assessment and one governing body would be to the benefit of the owners and occupants of the land within the mutual jurisdiction of the overlying and the contained districts, the board of supervisors or board of trustees may effect the dissolution of a contained district and the transfer of jurisdiction and control over that contained district's improvements to the overlying district, in the manner prescribed by sections 456.11 to 456.16.

[C35, §7598-g1; C39, §7598.11; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456.1]

456.2 Notice of hearing.

Upon the filing of such petition the board shall enter an order fixing the date for hearing thereon not less than forty days from the date of the filing thereof and shall enter an order directing the county auditor, if such district is under the control of the board of supervisors, or the clerk of the board, if under the control of a board of trustees, to immediately cause notice of hearing thereon to be served on the owners of lands in such district as may then be provided by law in proceedings for the establishment of a drainage or levee district.

[C35, §7598-g2; C39, §7598.12; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456.2]

456.3 Hearing on petition.

At the time set for hearing on said petition the board shall hear and determine the sufficiency of the petition as to form and substance (which petition may be amended at any time before final action thereon), and all objections filed against the abandonment and dissolution of such district. If it shall find that such district is free from indebtedness and that the necessity for the continued maintenance thereof no longer exists or that the expense of the continued maintenance of such district is not commensurate with the benefits derived therefrom, it shall enter an order abandoning and dissolving such district, which order shall be filed with the county auditor of the county or counties in which such district is situated and noted on the drainage record.

[C35, §7598-g3; C39, §7598.13; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456.3]

456.4 Appeal.

Appeal may be taken from the order of the board to the district court of the county in which such district or a part thereof is situated, in the same time and manner as appeal may be taken from an order of the board of supervisors establishing a district.

[C35, §7598-g4; C39, §7598.14; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456.4]

Appeals, §455.92 et seq.

456.5 Expense — refund.

In case there are sufficient funds on hand in such district, or there are unpaid assessments outstanding or other property belonging to such district in an amount sufficient to pay such expense, the expense of abandonment and dissolution shall be paid out of such funds or out of funds realized by the sale of such property. Where such district is free of indebtedness but

there are not sufficient funds on hand or unpaid assessments outstanding or other assets to pay such expense the board shall assess such expense against the property in the district in the same proportions as the last preceding assessments of benefits. Any excess remaining to the credit of such district after sale of its assets and after payment of such expenses shall be prorated back to the property owners in the district in the proportions according to class and benefits as last assessed. If the petition is denied, the costs of said proceedings shall be paid by the petitioning owners.

[C35, §7598-g5; C39, §7598.15; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456.5]

456.6 Abandonment of rights of way.

If a dissolution is effected pursuant to section 456.1, subsection 1, and sections 456.2 to 456.5, the rights of way of the district for all purposes of the district shall be deemed abandoned.

[C35, §7598-g6; C39, §7598.16; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §456.6]

456.7 to 456.10 Reserved.

456.11 Initiating dissolution of contained district.

To initiate the dissolution of a contained district under the circumstances described in section 456.1, subsection 2:

1. The board of supervisors or board of trustees of the district proposed to be dissolved shall enter an order for the proposed dissolution of that district and the surrender of its improvements and rights of way to the overlying district.

2. The board of supervisors or board of trustees of the overlying district shall enter an order approving the proposed acceptance of those improvements and rights of way.

[C81, §456.11]

456.12 Procedure for notice of hearing.

1. The board of the overlying district shall enter an order fixing a place and a time, not less than forty days after the date of the later of the two orders required by section 456.11, for a hearing on the proposals described in the two orders.

2. The auditor, or auditors if the overlying district includes land lying in two or more counties, shall cause notice of the proposals and of the hearing to be given immediately upon the entry of an order under subsection 1. The notice must:

- a. Include the texts of the orders entered pursuant to section 456.11, the date, time and place of the hearing, and a statement that all objections to the proposals embodied in the orders must be made in writing and filed in the office of the auditor at or before the time set for the hearing.

- b. Be directed to all of the following:

- (1) The owner of each tract of land or lot within the overlying district, as shown by the transfer books of the auditor's office, including railway companies having right of way in the district.

- (2) All lienholders or encumbrancers of land within the overlying district, without naming them.

- (3) All actual occupants of land in the overlying district, without naming individuals.

- (4) All other persons whom it may concern.

3 Except as otherwise required by section 455 22, the notice required by this section shall be served by publication once in a newspaper of general circulation in each county in which the overlying district's land is situated. The publication shall be made not less than twenty days prior to the day set for the hearing. Proof of service shall be made by affidavit of the publisher [C81, §456 12]

456.13 Procedure at hearing.

The hearing shall be convened at the time and place fixed in accordance with section 456 12, subsection 1, and the procedure at the hearing shall be as prescribed by this section.

1 The board of the contained district shall first hear all objections filed against the dissolution of the district and the surrender of its improvements to the overlying district. If, at the conclusion of that portion of the hearing, that board finds that the contained district is free of debt, that the economic benefits of the continued maintenance of that district would not be commensurate with its cost, and that it would be advantageous to dissolve and discontinue the contained district and surrender its improvements and rights of way to the overlying district, it shall enter an order dissolving the contained district and directing the surrender of its improvements and rights of way, conditioned on acceptance by the overlying district.

2 Immediately thereafter, the board of the overlying district shall hear all objections filed against the acceptance of the contained district's improvements and their maintenance. If it finds that the improvements are conducive to the drainage of surface waters from agricultural lands and all other lands in the overlying district or the protection of the lands from overflow, it shall enter an order accepting the improvements and rights of way of the contained district.

3 Orders issued pursuant to subsections 1 and 2 shall be filed with the county auditor of the county or counties in which the affected districts are situated and noted on the drainage record.

4 If at or before the time set for the hearing there have been filed with the county auditor or auditors, if either the contained or overlying district extends into more than one county, or with the board of either district, one or more remonstrances or objections to the dissolution of the contained district, or to the acceptance of that district's improvements and rights of way by the overlying district, signed by owners of land and land improvements in either district aggregating sixty percent of the total assessed value of the land in that district as shown by the taxing records in the county or counties in which that district is located, the board to which the remonstrances or objections have been made shall abandon its proposed action.

[C81, §456 13]

456.14 Election in lieu of hearings.

In lieu of the hearings provided for in section 456 13, the board of either district may call an election for the purpose of determining the dissolution of the contained district or the acceptance of that district's improvements and rights of way by the overlying district. The questions may be submitted at a regular election

of the district or at a special election called for that purpose. It is not mandatory for the county commissioner of elections to conduct the elections, however the provisions of sections 49 43 to 49 47, and of chapter 462, as they are applicable, shall govern the elections, and the question to be submitted shall be set forth in the notice of election.

1 If sixty percent or more of the votes cast are in favor of the proposed dissolution of the contained district involved, the board of that district shall enter an order dissolving the contained district and directing the surrender of its improvements and rights of way, conditioned on acceptance by the overlying district.

2 If sixty percent or more of the votes cast in the overlying district are in favor of the proposed acceptance by that district of the contained district's improvements and rights of way, the board of the overlying district shall enter an order accepting the improvements and rights of way of the contained district.

3 Orders issued pursuant to subsections 1 and 2 shall be filed with the county auditor of the county or counties in which the affected districts are situated and noted on the drainage record.

[C81, §456 14]

456.15 Effect of dissolution, surrender and acceptance.

When a contained district dissolves and surrenders its improvements and rights of way to the jurisdiction and control of an overlying district, and the overlying district accepts those improvements and rights of way, in accordance with sections 456 11 to 456 14.

1 It is presumed that the classification of the lands which were included in the dissolved district, as previously determined by the commissioners in the classification of those lands as a part of the overlying district, remains equitable and no reclassification of the overlying district or any part of it is necessary.

2 The improvements surrendered and accepted are at all times under the supervision of the board of the overlying district, and it is the duty of that board to keep the improvements in repair as provided in section 455 135 as fully and completely as though the improvements were a part of the original construction or improvements in the overlying district.

3 It is presumed that

a The improvements surrendered and accepted are an integral part of the overlying district's improvements, and are a public benefit and conducive to the public health, convenience and welfare.

b No value is taken into consideration for the existing improvements nor is credit given to the parties owning them, and they shall not be considered an asset of the district that is dissolved.

4 The original cost and the subsequent cost of improvements in the district that has been dissolved are added to and become a part of the original cost and the subsequent cost of improvements in the overlying district.

[C81, §456 15]

456.16 Costs borne by overlying district.

The overlying district shall pay all costs of the proceedings held pursuant to sections 456 11 to 456 14.

A district under the control of a city council as provided in chapter 459 may be placed under the control and management of a board of trustees by the city council following the procedures provided in this chapter for the county board of supervisors.

If the district extends into two or more counties, a duplicate of the petition shall be filed in the office of the auditor of each county. The boards of supervisors shall, within thirty days after the filing of such petition, meet in joint session and canvass the same, and if found to be signed by a majority of the owners of land in the district assessed for benefits, they shall by joint action order such election and appoint judges and clerks of election as provided in section 462.3.

purpose of securing a proper distribution of trustees in such district, and such division shall be so made that each election district will have substantially equal voting power and acreage, as nearly as may be. After such division is made there shall be elected one trustee for each of said election districts, but at such election all the qualified voters for the entire district shall be entitled to vote for each trustee. The division here provided for shall be for the purposes only of a proper distribution of trustees in the district and shall not otherwise affect said district or its management and control.

the amount necessary to pay for the improvement exceeds said sum, it shall be levied and collected in annual installments of twenty or less. As a condition to the extending of any benefits under this chapter to, or the performance of work upon, any lands not owned or controlled by this state or any of its agencies, the commissioners may require contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require landowners or occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion thereon.

12. No provisions with respect to the acquisition, operation, or disposition of property by other public bodies shall be applicable to a district organized hereunder unless the legislature shall specifically so state.

13. After the formation of any district under the provisions of this chapter, all participation hereunder shall be purely voluntary, except as specifically stated herein.

14. Subject to the approval of the state soil conservation committee, to change the name of such soil conservation district.

15. To take notice of the water resource district plan, and conform to the duly promulgated rules of the water resource district or water resource districts in which the soil conservation district is located; provided that this subsection does not grant any authority not otherwise granted by law to the commissioners of soil conservation districts.

16. The commissioners shall, as a condition for the receipt of any state cost-sharing funds for permanent soil conservation practices, require the owner of the land on which the practices are to be established to covenant and file, in the office of the soil conservation district of the county in which the land is located, an agreement identifying the particular lands upon which the practices for which state cost-sharing funds are to

be received will be established, and providing that the project will not be removed, altered, or modified so as to lessen its effectiveness without the consent of the commissioners, obtained in advance and based on guidelines drawn up by the state soil conservation committee, for a period of twenty years after the date of receiving payment. The commissioners shall assist the division in the enforcement of this subsection. The agreement does not create a lien on the land, but is a charge personally against the owner of the land at the time of removal, alteration, or modification if an administrative order is made under section 467A.61, subsection 3.

17. To enter into special funding agreements which, notwithstanding subsection 4, provide for cost sharing up to sixty percent of the cost of a project including five or more contiguous farm units which have at least five hundred or more acres of farmland and which constitute at least seventy-five percent of the agricultural land lying within a watershed or sub-watershed, where the owners jointly agree to a watershed conservation plan in conjunction with their respective farm unit soil conservation plans.

18. To encourage local school districts to provide instruction in the importance of and in some of the basic methods of soil conservation, as a part of the course work relating to conservation of natural resources and environmental awareness required pursuant to section 256.11, subsections 3 and 4, and to offer technical assistance to schools in developing such instructional programs.

19. To make incentive payments to encourage summer construction of permanent soil and water conservation practices, provided that the commissioners of a soil conservation district shall not use state cost-sharing funds to pay such incentives in any fiscal year when requests which seek cost sharing for eligible permanent soil and water conservation practices, but which do not seek incentive payments under this subsection, are sufficient to use all of the state cost-sharing funds made available to the district for that year. Incentive payments made under this subsection may, notwithstanding subsection 4, provide for cost sharing up to sixty percent of the cost of establishing any permanent soil and water conservation practice where the establishment of that practice involves a construction project which begins after June 1 but before August 15 of any calendar year. Incentive payments under this subsection may also include, or may be limited to a pro rata amount, in accordance with rules of the department, to compensate for production loss on the area disturbed for construction of practices.

Agencies of this state which shall have jurisdiction over, or be charged with the administration of, any state-owned lands, and of any county, or other governmental subdivision of the state, which shall have jurisdiction over, or be charged with the administration of, any county-owned or other publicly owned lands, lying within the boundaries of any district organized hereunder, may co-operate to the fullest extent with the commissioners of such districts in the effectuation of programs and operations undertaken by the commissioners under the provisions of this chapter.

467A.10 Discontinuance of districts.

At any time after five years after the organization of a district under this chapter, any twenty-five owners of land lying within the boundaries of the district, but in no case less than twenty percent of the owners of land lying within the district, may file a petition with the division asking that the operations of the district be terminated and the existence of the district discontinued. The committee may conduct public meetings and public hearings upon the petition as necessary to assist in the consideration of the petition. Within sixty days after a petition has been received by the division, the division shall give due notice of the holding of a referendum, shall supervise the referendum, and shall issue appropriate rules governing the conduct of the referendum, the question to be submitted by ballots upon which the words "For terminating the existence of the (name of the soil conservation district to be here inserted)" and "Against terminating the existence of the (name of the soil conservation district to be here inserted)" shall be printed, with a square before each proposition and a direction to insert an X mark in the square before one or the other of the propositions as the voter favors or opposes discontinuance of the district. All owners of lands lying within the boundaries of the district are eligible to vote in the referendum. No informalities in the conduct of the referendum or in any matters relating to the referendum invalidate the referendum or the result of the referendum if notice was given substantially as provided in this section and if the referendum was fairly conducted.

When sixty-five percent of the landowners vote to terminate the existence of the district, the division shall advise the commissioners to terminate the affairs of the district. The commissioners shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of the sale to be deposited into the state treasury. The commissioners shall then file an application, duly verified, with the secretary of state for the discontinuance of the district, and shall transmit with the application the certificate of the division setting forth the determination of the division that the continued operation of the district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as provided in this section, and shall set forth a full accounting of the properties and proceeds of the sale. The secretary of state shall issue to the commissioners a certificate of dissolution and shall record the certificate in an

appropriate book of record in the secretary of state's office.

Upon issuance of a certificate of dissolution under this section, all ordinances and regulations previously adopted and in force within the districts are of no further force and effect. All contracts previously entered into, to which the district or commissioners are parties, remain in force and effect for the period provided in the contracts. The division is substituted for the district or commissioners as party to the contracts. The division is entitled to all benefits and subject to all liabilities under the contracts and has the same right and liability to perform, to require performance, to sue and be sued, and to modify or terminate the contracts by mutual consent or otherwise, as the commissioners of the district would have had.

The division shall not entertain petitions for the discontinuance of any district nor conduct referenda upon discontinuance petitions nor make determinations pursuant to the petitions in accordance with this chapter, more often than once in five years.

Persons appointed to appraise and make classifications of lands shall receive such compensation as the governing body may fix and in addition thereto, the necessary expenses of transportation of said persons while engaged in their work; such compensation and expenses shall be construed as part of the cost of the subdistrict which shall be included when considering classifications of lands within a subdistrict.

DIVISION V

SOIL AND WATER CONSERVATION PRACTICES

467A.42 Soil and water conservation practices.

In addition to the definitions established by section 467A.3, as used in sections 467A.43 to 467A.53 and sections 467A.61 to 467A.66, unless the context otherwise requires:

1. "Soil loss limit" means the maximum amount of soil loss due to erosion by water or wind, expressed in terms of tons per acre per year, which the commissioners of the respective soil conservation districts shall determine is acceptable in order to meet the objectives expressed in section 467D.1.

2. "Soil and water conservation practices" means any of the practices designated in or pursuant to this subsection which serve to prevent erosion of soil by wind or water, in excess of applicable soil loss limits, from land used for agricultural or horticultural purposes only.

a. "Permanent soil and water conservation practices" means planting of perennial grasses, legumes, shrubs, or trees, the establishment of grassed waterways, and the construction of terraces, or other permanent soil and water practices approved by the division.

b. "Temporary soil and water conservation practices" means planting of annual or biennial crops, use of strip-cropping, contour planting, or minimum or mulch tillage, and any other cultural practices approved by the division.

3. "Erosion control practices" means:

a. The construction or installation, and maintenance, of such structures or devices as are necessary to carry to a suitable outlet from the site of any building housing four or more residential units, any commercial or industrial development or any publicly or privately owned recreational or service facility of any kind, not served by a central storm sewer system, any water which:

Ch 23, 330-87 Acts

(1) Would otherwise cause erosion in excess of the applicable soil loss limit, and

(2) Does not carry nor constitute sewage, industrial waste, or other waste as defined by section 455B 171

b The employment of temporary devices or structures, temporary seeding, fibre mats, plastic, straw, or other measures adequate to prevent erosion in excess of the applicable soil loss limits from the site of, or land directly affected by, the construction of any public or private street, road or highway, any residential, commercial, or industrial building or development, or any publicly or privately owned recreational or service facility of any kind, at all times prior to completion of such construction

c The establishment and maintenance of vegetation upon the right of way of any completed portion of any public street, road, or highway, or the construction or installation thereon of structures or devices, or other measures adequate to prevent erosion from the right of way in excess of the applicable soil loss limits

4 "Agricultural land" has the meaning assigned that term by section 172C 1

5 "Farm unit" means a single contiguous tract of agricultural land, or two or more adjacent tracts of agricultural land, located within a single soil conservation district, upon which farming operations are being conducted by a person who owns or is purchasing or renting all of such land, or by that person's tenant or tenants If a landowner has multiple farm tenants, the land on which farming operations are being conducted by each tenant shall constitute a separate farm unit This definition does not prohibit land which is within a single soil conservation district and is owned or being purchased by the same person, or is being rented by the same tenant, from being treated as two or more farm units if the commissioners of the soil conservation district deem it preferable to do so

6 "Conservation folder" means compiled information concerning the topography, soil composition, natural or artificial drainage characteristics and other pertinent factors concerning a particular farm unit, which are necessary to the preparation of a sound and equitable conservation agreement for that farm unit The specific items to be contained in a conservation folder shall be prescribed by administrative rules of the department of soil conservation The department shall provide by rule that an updated farm plan prepared for a particular farm unit within ten years prior to the effective date of this subsection shall be considered an adequate replacement for the conservation folder for that farm unit

7 "Farm unit soil conservation plan" means a plan jointly developed by the owner and, if appropriate, the operator of a farm unit and the commissioners of the soil conservation district within which that farm unit is located, based on the conservation folder for that farm unit and identifying those permanent soil and water conservation practices and temporary soil and water conservation practices the use of which may be expected to prevent soil loss by erosion from that farm unit in excess of the applicable soil loss limit or limits The plan shall if practicable identify alternative practices by which this objective may be attained

8 "Conservation agreement" means a commitment by the owner or operator of a farm unit to imple-

ment a farm unit soil conservation plan or, with the approval of the commissioners of the soil conservation district within which the farm unit is located, a portion of a farm unit soil conservation plan The commitment shall be conditioned on the furnishing by the soil conservation district of such technical or planning assistance in the establishment of, and cost sharing or other financial assistance for establishment and maintenance of the soil and water conservation practices necessary to implement the plan, or a portion of the plan [C73, 75, 77, 79, 81, §467A 42]

467A.43 Duty of property owners.

To conserve the fertility, general usefulness, and value of the soil and soil resources of this state, and to prevent the injurious effects of soil erosion, it is hereby made the duty of the owners of real property in this state to establish and maintain soil and water conservation practices or erosion control practices, as required by the regulations of the commissioners of the respective soil conservation districts As used in this section, "owners of real property in this state" includes each state government agency, each political subdivision of the state and each agency of such a political subdivision which has under its control publicly owned land, including but not limited to agricultural land, forests, parks, the grounds of state educational, penal and human service institutions, public highways, roads and streets, and other public rights of way [C73, 75, 77, 79, 81, §467A 43]

467A.44 Rules by commissioners — scope.

The commissioners of each soil conservation district shall, with approval of and within time limits set by administrative order of the division, adopt reasonable regulations as are deemed necessary to establish a soil loss limit or limits for the district and provide for the implementation of the limit or limits, and may subsequently amend or repeal their regulations as they deem necessary The division shall review the soil loss limit regulations adopted by the soil conservation districts at least once every five years, and shall recommend changes in the regulations of a soil conservation district which the division deems necessary to assure that the district's soil loss limits are reasonable and attainable The commissioners may

1 Classify land in the district on the basis of topography, soil characteristics, current use, and other factors affecting propensity to soil erosion

2 Establish different soil loss limits for different classes of land in the district if in their judgment and that of the state soil conservation committee a lower soil loss limit should be applied to some land than can reasonably be applied to other land in the district, it being the intent of the general assembly that no land in the state be assigned a soil loss limit that cannot reasonably be applied to such land

3 Require the owners of real property in the district to employ either soil and water conservation practices or erosion control practices, and

a May not specify the particular practices to be employed so long as such owners voluntarily comply with the applicable soil loss limits established for the district

b May specify two or more approved soil and

467A.44 Amend Ch 23, §31-87 Acts

water conservation practices or erosion control practices, one of which shall be employed by the landowner to bring erosion from land under the landowner's control within the applicable soil loss limit of the district when an administrative order is issued to the landowner.

c. In no case may the commissioners require:

(1) The employment of erosion control practices as defined in section 467A.42, subsection 3, on land used in good faith for agricultural or horticultural purposes only.

(2) The employment of soil and water conservation practices or erosion control practices on that portion of any public street, road or highway completed or under construction within the corporate limits of any city, which is or will become the traveled or surfaced portion of such street, road, or highway.

(3) That any owner or operator of agricultural land refrain from fall plowing of land on which the owner or operator intends to raise a crop during the next succeeding growing season, however on those lands which are prone to excessive wind erosion the commissioners may require that reasonable temporary measures be taken to minimize the likelihood of wind erosion so long as such measures do not unduly increase the cost of operation of the farm on which the land is located. However, fall plowing of soil which is commonly known as gumbo shall always be permitted.

d. May require that a person under an order to employ soil and water conservation practices or erosion control practices submit up to three bids to the commissioners for the work and provide an explanation to the commissioners if a bid other than the lowest bid has been selected by that person.

467A.45 Submission of regulations to division — hearing.

Regulations which the commissioners propose to adopt, amend, or repeal shall be submitted to the division, in a form prescribed by the division, for its approval. The division may approve the regulations as submitted, or with amendments as it deems necessary. The commissioners shall, after approval, publish notice of hearing on the proposed regulations, as approved, in a newspaper of general circulation in the district, setting a date and time not less than ten nor more than thirty days after the publication when a hearing on the proposed regulations will be held at a specified place. The notice shall include the full text of the proposed regulations or shall state that the proposed regulations are on file and available for review at the office of the affected soil conservation district.

Any landowner, or any occupant of land who would be affected by the regulations, shall be afforded an opportunity to be heard for or against the proposed regulations. At the conclusion of the hearing, the commissioners shall announce and

enter of record their decision whether to adopt or modify the proposed regulations. Any modification must be approved by the division, which may at its discretion order the commissioners to republish the regulations and hold another hearing in the manner prescribed by this chapter.

467A.47 Inspection of land on complaint.

The commissioners of any soil conservation district shall inspect or cause to be inspected any land within the district, upon receipt of a written and signed complaint, from an owner or occupant of land being damaged by sediment, that soil erosion is occurring thereon in excess of the limits established by the district's soil erosion control regulations. If they find that sediment damages are occurring to property owned or occupied by the person filing the complaint and that such excess soil erosion is so occurring on the land inspected, they shall issue an administrative order to the landowner or landowners of record, and to the occupant of the land if known to the commissioners, describing said land and stating as nearly as possible the extent to which soil erosion thereon exceeds the limits established by the district's regulations. The order shall be delivered either by personal service or by restricted certified mail to each of the persons to whom it is directed, and shall:

1. In the case of erosion occurring on the site of any construction project or similar undertaking involving the removal of all or a major portion of the vegetation or other cover, exposing bare soil directly to water or wind, state a time not more than five days after service or mailing of the notice of the order when work necessary to establish or maintain erosion control practices must be commenced, and a time not more than thirty days after service or mailing of the notice of the order when the work is to be satisfactorily completed.

2. In all other cases, state a time not more than six months after service or mailing of the notice of the order, by which work needed to establish or maintain the necessary soil and water conservation practices or erosion control measures must be commenced, and a time not more than one year after the service or mailing of the notice of the order when the work is to be satisfactorily completed, unless the requirements of the order are superseded by the provisions of section 467A.48.

467A.48 Application for public cost-sharing funds.

1. An owner or occupant of land in this state is not required to establish any new permanent or temporary soil and water conservation practice unless public or other cost-sharing funds have been specifically approved for that land and actually made available to the owner or occupant. The amount of cost-sharing funds made available shall not exceed seventy-five percent of the estimated cost as established by the commissioners of a permanent soil and water conservation practice, or seventy-five percent of the actual cost, whichever is less, or an amount set by the division for a temporary soil and water conservation practice, except as otherwise provided by law with respect to land

467A.47 Amend
Ch 23, §33-87 Acts

classified as agricultural land under conservation cover. The commissioners shall establish the estimated cost of permanent soil and water conservation practices in the district based upon one and two-tenths of the average cost of the practices installed in the district during the previous year. The average costs shall be reviewed and approved by the commissioners each calendar year.

2. The division shall review these requirements once each year, and may authorize soil conservation district commissioners to make the mandatory establishment of any specified soil and water conservation practice in any particular case conditional on a higher proportion of public cost-sharing than is required by this section. When the commissioners have been so authorized, they shall, in determining the amount of cost-sharing for establishment of a specified soil and water conservation practice to comply with an administrative order issued pursuant to section 467A.47, consider the extent to which the practice will contribute benefits to the public in relation to the benefits that will accrue to the individual owner or occupant of the land on which the practice is to be established. Evidence that an application for public or other cost-sharing funds, from a source or sources having authority to pay a portion of the cost of work needed to comply with an administrative order issued pursuant to section 467A.47, has been submitted to the proper officer or agency constitutes commencement of the work within the meaning of sections 467A.43 through 467A.53.

3. Upon receiving evidence of the submission of an application, the commissioners shall forward to the officer or agency to which the application was made a written request to receive notification of the disposition of the application. When notified of the approval of the application, the commissioners shall issue to the same parties who received the original administrative order, or their successors in interest, a supplementary order, to be delivered in the same manner as provided by sections 467A.43 to 467A.53 for delivery of original administrative orders. The supplementary order shall state a time, not more than six months after approval of the application for public cost-sharing funds, by which the work needed to comply with the original administrative order shall actually be commenced, and a time thereafter when the work is to be satisfactorily completed. If feasible, that time shall be within one year after the date of the supplementary order, but the owner of land on which a soil and water conservation practice is being established under this section is not required to incur a cost for the practice in any one calendar year which exceeds ten dollars per acre for each acre of land belonging to that owner and located in the county containing the land on which the required practice is being established or in counties contiguous to that county.

467A.49 Petition for court order.

The commissioners shall petition the district court for a court order requiring immediate compliance with an administrative order previously issued by the commissioners as provided in section 467A.47, if:

1. The work necessary to comply with the admin-

istrative order is not commenced on or before the date specified in such order, or in any supplementary order subsequently issued as provided in section 467A.48, unless in the judgment of the commissioners the failure to commence or complete the work as required by the administrative order is due to factors beyond the control of the person or persons to whom such order is directed and the person or persons can be relied upon to commence and complete the necessary work at the earliest possible time.

2. Such work is not being performed with due diligence, or is not satisfactorily completed by the date specified in the administrative order, or when completed does not reduce soil erosion from such land below the limits established by the soil conservation district's regulations.

3. The person or persons to whom the administrative order is directed advise the commissioners that they do not intend to commence or complete such work.

[C73, 75, 77, 79, 81, §467A.49]

467A.50 Burden — court order.

In any action brought under section 467A.49, the burden of proof shall be upon the commissioners to show that soil erosion is in fact occurring in excess of the applicable soil loss limits and that the defendant has not established or maintained soil and water conservation practices or erosion control practices in compliance with the soil conservation district's regulations. With respect to construction, repair, or maintenance of any public street, road, or highway, evidence that soil erosion control standards equivalent to or in excess of those currently imposed by the United States government on the project or like projects involving use of federal funds shall create a presumption of compliance with the applicable soil loss limit. Upon receiving satisfactory proof, the court shall issue an order directing the landowner or landowners to comply with the administrative order previously issued by the commissioners. The court may modify such administrative order if deemed necessary. Notice of the court order shall be given either by personal service or by restricted certified mail to each of the persons to whom the order is directed, who may within thirty days from the date of the court order appeal to the supreme court. Any person who fails to comply with a court order issued pursuant to this section within the time specified in such order, unless the order has been stayed pending an appeal, shall be deemed in contempt of court and may be punished accordingly.

467A.51 Entering on land.

The commissioners and their authorized agents or employees may enter upon any private or public property, except private dwellings, at any reasonable time to classify land by soil sampling or other appropriate methods or to determine whether soil erosion is occurring on the property in violation of the district's regulations.

1. If the owner or occupant of any property refuses admittance, or if prior to such refusal the commissioners demonstrate the need for a warrant, the commissioners may make an application under oath or affirmation to the district court of the county in which

the property is located for the issuance of a search warrant.

2. In the application the commissioners shall state that entry on the premises is mandated by the laws of this state or that entry is needed to conduct soil sampling necessary to classify soil in the district as specified in section 467A.44, subsection 1, or to determine whether soil erosion is occurring on the property in violation of the district's regulations. The application shall describe the area or premises, give the date of the last known investigation or sampling, give the date and time of the proposed inspection, declare the need for such inspection, recite that notice of desire to make an inspection has been given to affected persons and that admission was refused if that be the fact, and state that the inspection has no purpose other than to carry out the purpose of the statute, ordinance or regulation pursuant to which the inspection is to be made.

3. The court may issue a search warrant, after examination of the applicant and any witnesses, if the court is satisfied that there is probable cause to believe the existence of the allegations in the application.

4. In soil sampling and making investigations pursuant to a warrant, the commissioners must execute the warrant in a reasonable manner within the time period specified in the warrant.

467A.54 State agency conservation plans — exemptions.

Each state agency shall enter into an agreement with the soil conservation district in which the state agency has public land under its control in cultivation. The agreement shall contain a plan of the state agency to prevent soil erosion in excess of soil loss limits by the use of soil and water conservation practices and erosion control practices. This section applies to all public land which is used for horticultural or agricultural purposes. State soil conservation cost-sharing funds shall not be used on these public lands. Conservation plans required by this section shall be completed by July 1, 1986, and implementation shall occur consistent with the schedule contained in the conservation plan. Application for exemption from this section may be submitted to the appropriate soil conservation district. The exemption shall be granted for land upon which soil management research for the purposes of the study, evaluation, understanding and

control of erosion, sedimentation and run-off water is conducted by or in conjunction with institutions governed by the board of regents.

467A.55 to 467A.60 Reserved.

467A.61 Discretionary inspection by commissioners — actions upon certain findings.

1. In addition to the authority granted by section 467A.47, the commissioners of any soil conservation district may inspect or cause to be inspected any land within the district on which they have reasonable grounds to believe that soil erosion is occurring in excess of the limits established by the district's soil erosion control regulations. If the commissioners find from an inspection conducted under authority of either section 467A.47 or this section that soil erosion is occurring on that land in excess of the applicable soil loss limits established by the district's soil erosion control regulations, they shall send notice of that finding to the landowner or landowners of record, and to the occupant of the land if known to the commissioners. The notice shall describe the land affected and shall state as nearly as possible the extent to which soil erosion from that land exceeds the applicable soil loss limits.

a. If the commissioners find that the excessive erosion described in the notice is not causing sediment damage to property owned or occupied by any person other than the owner or occupant of the land on which the excessive soil erosion is occurring, and that the rate of the excessive erosion is less than twice the applicable soil loss limit, the notice required by this subsection shall include or be accompanied by information regarding financial or other assistance which the commissioners are able to make available to the owner or occupant of the land to aid in achieving compliance with the applicable soil loss limits.

b. If the commissioners find that the excessive soil erosion described in the notice is not causing sediment damage to property owned or occupied by any person other than the owner or occupant of the land on which it is occurring, but that the erosion is occurring at a rate equal to or greater than twice the applicable soil loss limit, the notice shall so state, shall include or be accompanied by the information required by paragraph "a" of this subsection, and shall be delivered by personal service or by restricted certified mail to each of the persons to whom the notice is directed. A notice given under this paragraph shall also include or be accompanied by information explaining the provisions of subsection 2.

2. Beginning January 1, 1985, or five years after the completion of the conservation folder for a particular farm unit pursuant to this section, whichever date is later, the commissioners of the soil conservation district in which that farm unit is located may petition the district court for an appropriate order with respect to that farm unit if its owner or occupant has been sent a notice by the commissioners under subsection 1, paragraph "b" for three or more consecutive years. The commissioners' petition shall seek a court order which states a time not more than six months after the date

467A.61(2) Amend
Ch 23, §37, 38-87 Acts

of the order when the owner or occupant must commence, and a time when the owner or occupant must complete the steps necessary to comply with the order. The time allowed to complete the establishment of any temporary soil and water conservation practice employed to comply or advance toward compliance with the court's order shall be not more than one year after the date of that order, and the time allowed to complete the establishment of any permanent soil and water conservation practice employed to comply with the court's order shall be not more than five years after the date of that order. The provisions of section 467A.48 shall apply to a court order issued under this subsection. The steps required of the farm unit owner or operator by the court order shall be those which are necessary to do one of the following:

a. Bring the farm unit which is the subject of the order into compliance with its farm unit soil conservation plan, if such a plan had been agreed upon prior to the time the commissioners petitioned for the order.

b. Bring the farm unit which is the subject of the order into compliance with a plan developed for that farm unit by the commissioners, in accordance with guidelines established by the division of soil conservation, and presented to the court as a part of the commissioners' petition, if a farm unit soil conservation plan has not previously been agreed upon for that farm unit. A plan presented to the court by the commissioners under this paragraph shall specify as many alternative approved soil and water conservation practices as feasible, among which the owner or occupant of the farm unit may choose in taking the steps necessary to comply with the court's order.

c. Bring the farm unit which is the subject of the order into compliance with a soil conservation plan developed by the owner or occupant of that farm unit as an alternative to the proposed soil conservation plan developed by the commissioners, if the owner or occupant so petitions the court and the court finds that the owner or occupant's plan will bring the farm unit into conformity with the applicable soil loss limits of the district.

3. The commissioners may also cause an inspection of land within the district on which they have reasonable grounds to believe that a permanent soil and water conservation practice established with public cost-sharing funds is not being properly maintained or is being altered in violation of section 467A.7, subsection 16. If the commissioners find that the practices are not being maintained or have been altered in violation of section 467A.7, subsection 16, the commissioners shall issue an administrative order to the landowner who made the unauthorized removal, alteration or modification to maintain, repair, or reconstruct the permanent soil and water conservation practices. The requirement for maintenance and repair is for the length of life as defined in section 467A.7, subsection 16. Public cost-sharing funds are not available for the work under this order. If the landowner fails to comply with the administrative order, the commissioners may petition the district court for an order compelling compliance with the order. Upon receiving satisfactory proof, the court shall issue an order directing compliance with the administrative order and may modify the administrative order. The provisions of section 467A.50 relating to notice, ap-

peals and contempt of court shall apply to proceedings under this subsection.

467A.62 Duties of commissioners and of owners and occupants of agricultural land — restrictions on use of cost-sharing funds.

The commissioners of each soil conservation district shall seek to implement or to assist in implementing the following requirements:

1. Each farm unit shall be furnished a conservation folder complying with the rules of the department by the soil conservation district in which the farm unit is located, not later than January 1, 1985, or as soon thereafter as adequate funding is available to permit completion of a conservation folder for every farm unit in the state. Technical assistance in the development of the conservation folder may be provided by the United States department of agriculture soil conservation service through the memorandum of understanding with the district or by the department. The department shall provide by rule that an updated farm plan prepared for a particular farm unit within ten years prior to the effective date of this subsection shall be considered an adequate replacement for the conservation folder for that farm unit. Upon completion of the conservation folder for a particular farm unit, the district shall send the owner of that farm unit, and also the operator of the farm unit if known by the commissioners to be other than the owner, a letter offering that person or those persons a copy of the folder. The district shall keep a record of the date the folder is completed and the letter is sent. The folder shall be updated from time to time by the district as it deems necessary.

2. The commissioners of each soil conservation district shall complete preparation of a farm unit soil conservation plan for each farm unit within the district, not later than January 1, 1985 or five years after completion of the conservation folder for that farm unit, whichever date is later, or as soon thereafter as adequate funding is available to permit compliance with this requirement. Technical assistance in the development of the farm unit soil conservation plan may be provided by the United States department of agriculture soil conservation service through the memorandum of understanding with the district or by the department. The commissioners shall make every reasonable effort to consult with the owner and, if appropriate, with the operator of that farm unit, and to prepare the plan in a form which is acceptable to that person or those persons. The plan shall be drawn up and completed without expense to the owner or operator of the farm unit, except that the owner or operator shall not be reimbursed for the value of the owner's or occupant's own time devoted to participation in the preparation of the plan. If the commissioners' plan is unacceptable to the owner or operator of the farm unit, that person or those persons may prepare an alternative farm unit soil conservation plan identifying permanent or temporary soil and water conservation practices which may be expected to achieve compliance with the soil loss limit or limits applicable to that farm unit, and submit that plan to the soil conservation district commissioners for their review.

3. Within one year after completion of a farm unit

A prospective purchaser of an interest in agricultural land located in this state shall be entitled to obtain additional copies of either or both of the documents referred to in this subsection from the office of the soil conservation district in which the land is located, promptly upon request, at a fee not to exceed the cost of reproducing them. All persons who identify themselves to the commissioners or staff of a soil conservation district as prospective purchasers of agricultural land in the district shall be given information, prepared in accordance with rules of the department, which clearly explains the provisions of section 467A.65.

467A.64 Erosion control plans required for certain projects.

1. If a political subdivision has adopted a sediment control ordinance which the commissioners and the political subdivision jointly agree is at least as equally effective as the commissioners' rules in preventing erosion from exceeding the established soil loss limits, the commissioners and the political subdivision shall execute an agreement under chapter 28E allowing an agency authorized by the political subdivision to receive and file an affidavit from a person, prior to initiating a land disturbing activity in that subdivision, stating that the proposed activity will not exceed the established soil loss limits. A copy of the affidavit shall be mailed to the district as a part of the terms of the agreement. The affidavit shall be in a form prescribed by the department and made available by the district.

2. Prior to initiating a land disturbing activity in a political subdivision which has not adopted sediment control ordinances as described in subsection 1, a person engaged in the land disturbing activity shall file a signed affidavit with the soil conservation district that the project will not exceed the soil loss limits. The affidavit shall be in a form prescribed by the department and made available by the district.

3. For the purposes of this section, "land disturbing activity" means a land change such as the tilling, clearing, grading, excavating, transporting or filling of land which may result in soil erosion from water or

wind and the movement of sediment and sediment related pollutants into the waters of the state or onto lands in the state but does not include the following:

- a. Tilling, planting or harvesting of agricultural, horticultural or forest crops.
- b. Preparation for single-family residences separately built unless in conjunction with multiple construction in subdivision development.
- c. Minor activities such as home gardens, landscaping, repairs and maintenance work.
- d. Surface or deep mining.
- e. Installation of public utility lines and connections, fence posts, sign posts, telephone poles, electric poles and other kinds of posts or poles.
- f. Septic tanks and drainage fields unless they are to serve a building whose construction is a land disturbing activity.
- g. Construction and repair of the tracks, right of way, bridges, communication facilities and other related structures of a railroad.
- h. Emergency work to protect life or property.
- i. Disturbed land areas of less than twenty-five thousand square feet unless a political subdivision by ordinance establishes a smaller exception or establishes conditions for this exception.
- j. The construction, relocation, alteration or maintenance of public roads by a public body.

4. If the agency authorized under subsection 1 determines that a land disturbing activity is not being conducted in compliance with the soil loss limits, it shall file a written and signed complaint with the soil conservation district commissioners. The complaint shall have the same effect and validity as a complaint filed by an owner or occupant of land being damaged by sediment pursuant to section 467A.47. If the affidavit is filed with the district or the political subdivision, the commissioners may proceed on their own complaint. The soil conservation district commissioners may issue an administrative order as provided in that section to the person conducting the land disturbing activity.

467A.65 Cost sharing for certain lands restricted.

1. It is the intent of this Act* that, effective January 1, 1981, each tract of agricultural land which has not been plowed or used for growing row crops at any time within fifteen years prior to that date, shall for purposes of this section be considered classified as agricultural land under conservation cover. If any tract of land so classified is thereafter plowed or used for growing row crops, the commissioners of the soil conservation district in which the land is located shall not approve use of state cost-sharing funds for establishing permanent or temporary soil and water conservation practices on that tract of land in an amount greater than one-half the amount of cost-sharing funds which would be available for that land if it were not considered classified as agricultural land under conservation cover. The restriction imposed by this section shall apply even if an administrative order or court order has been issued requiring establishment of soil and water conservation practices on that land. The commissioners may waive the restriction imposed by this section if they determine in advance that the purpose of plowing or row cropping land classified as land

467A.65 Amend
Ch 23, §42-87 Acts

under conservation cover is to revitalize permanent pasture and that the land will revert to permanent pasture within two years after it is plowed

2 When receiving an application for state cost-sharing funds to pay a part of the cost of establishing a permanent or temporary soil and water conservation practice, the commissioners of the soil conservation district to which the application is submitted shall require the applicant to state in writing whether, to the best of the applicant's knowledge, the land on which the proposed practice will be established is land considered to be classified as agricultural land under conservation cover, as defined in subsection 1. An applicant who knowingly makes a false statement of material facts or who falsely denies knowledge of material facts in completing the written statement required by this subsection commits a simple misdemeanor and, in addition to the penalty prescribed therefor by law, shall be required to repay to the department any cost-sharing funds made available to the applicant in reliance on the false statement or false denial

[C81, §467A 65]

* See 68GA ch 1153

467A.66 Procedure when commissioner is complainant.

A soil conservation district commissioner who is an owner or occupant of land being damaged by sediment has the same right as any other person in like circumstances to file a complaint under section 467A 47, however a commissioner who is the complainant shall not vote on the question whether, on the basis of the inspection made pursuant to the complaint, the commissioners shall issue an administrative order under section 467A 47

467A.71 Conservation practices revolving loan fund.

1 The division may establish a conservation practices revolving loan fund composed of any money appropriated by the general assembly for that purpose, and of any other moneys available to and obtained or accepted by the committee from the federal government or private sources for placement in that fund. Except as otherwise provided by subsection 3, the assets of the conservation practices revolving loan fund shall be used only to make loans directly to owners of land in this state for the purpose of establishing on that land any new permanent soil and water conservation practice which the commissioners of the soil conservation district in which the land is located have found is necessary or advisable to meet the soil loss limits established for that land. A loan shall not be made for establishing a permanent soil and water conservation practice on land that is subject to the restriction on state cost-sharing funds of section 467A 65. Revolving loan funds and public cost-sharing funds shall not be used in combination for funding a particular soil and water conservation practice. Each loan made under this section shall be for a period not to exceed ten years, shall bear no interest, and shall be repayable to the conservation practices revolving loan

fund in equal yearly installments due March 1 of each year the loan is in effect. The interest rate upon loans for which payment is delinquent shall accelerate immediately to the current legal usury limit. Applicants are eligible for no more than ten thousand dollars in loans outstanding at any time under this program. "Permanent soil and water conservation practices" has the same meaning as defined in section 467A 42 and those established under this program are subject to the requirements of section 467A 7, subsection 16. Loans made under this program shall come due for payment upon sale of the land on which those practices are established

2 The general assembly finds and declares the following

a The erosion of topsoil on agricultural land by wind and water is a serious problem within the state and one which threatens to destroy the natural resource most responsible for Iowa's prosperity

b It is necessary to the preservation of the economy and well being of the state to encourage soil conservation practices by providing loans for permanent soil and water conservation practices on agricultural land within the state

c The use of state funds for the conservation practices revolving loan fund established under subsection 1 is in the public interest, and the purposes of this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted

3 The division may

a Contract, sue and be sued, and promulgate administrative rules necessary to carry out the provisions of this section, but the committee shall not in any manner directly or indirectly pledge the credit of the state of Iowa

b Authorize payment from the conservation practices revolving loan fund, from fees and from any income received by investments of money in the fund for costs, commissions, attorney fees and other reasonable expenses related to and necessary for making and protecting direct loans under this section, and for the recovery of moneys loaned or the management of property acquired in connection with such loans

4 This section does not negate the provisions of section 467A 48 that an owner or occupant of land in this state shall not be required to establish any new soil and water conservation practice unless public cost sharing funds have been approved and are available for the land affected. However, the owner of land with respect to which an administrative order to establish soil and water conservation practices has been issued under section 467A 47 but not complied with for lack of public cost-sharing funds, may waive the right to await availability of such funds and instead apply for a loan under this section to establish any permanent soil and water conservation practices necessary to comply with the order. If a landowner does so, that loan application shall be given reasonable preference by the state soil conservation committee if there are applications for more loans under this section than can be made from the money available in the conservation practices revolving loan fund. If it is found necessary to deny an application for a soil and water conservation practices loan to a landowner who has waived the right to availability of public cost-sharing

467A.75 Financial incentive for soil conservation on forest lands.

1. As used in this section, unless the context otherwise requires:

a. "Forest" means stands of native or introduced trees containing at least two hundred trees per acre on privately owned land. However, fruit trees are not forest.

b. "Professional forester" means a forestry graduate of an institution of higher learning and having a minimum of two years forest management experience.

c. "State forester" means the person employed by the department of natural resources as required by section 107.13.

2. The department may reimburse private landowners for a portion of the cost of fencing materials and installation for permanent fence used to protect forest land from domestic livestock grazing from state

cost-sharing funds if the grazing has been determined to cause excessive soil loss. Total department expenditure shall not exceed fifty percent of total landowner expenditures. Expenditures for boundary and road fence construction and for repair and replacement of existing fence are not eligible for reimbursement unless the complete fence is replaced.

3. As a condition for receiving reimbursement, landowners shall sign an agreement to maintain the fence for a minimum of ten years and shall follow written professional forester recommendations approved by the state forester or that person's designee on the tract to be protected by fencing.

4. Recipient landowners found to be in noncompliance with the maintenance agreement shall maintain, repair, or reconstruct damaged fence, or shall pay the department an amount equal to that reimbursed.

5. The department shall adopt, by rule, the form and informational requirements for reimbursement, the minimum forest acreage, and any limitation on the maximum reimbursement an individual landowner may receive. For the purposes of this section, forests shall be considered as agricultural land eligible for public cost-sharing funds.

The remaining ten percent of any such payment received by the county treasurer from the federal government, or so much thereof as may be deemed necessary by the board of supervisors, shall be allocated to the local fire departments of the unincorporated villages, townships and cities of the county which are principally affected by the federal flood control project involved, to be paid and prorated among them as determined by the board of supervisors. 467C.1 Presumption of benefit.

The conservation of the soil resources of the state of Iowa, the proper control of water resources of the state and the prevention of damage to property and lands through the control of floods, the drainage of surface waters or the protection of lands from overflow shall be presumed to be a public benefit and conducive to the public health, convenience and welfare and essential to the economic well-being of the state.

467C.2 Board of supervisors to establish districts — strip coal mining.

The board of supervisors of any county shall have jurisdiction, power and authority at any regular, special or adjourned session to establish, subject to the provisions of this chapter, districts having for their purpose soil conservation and the control of flood waters and to cause to be constructed as hereinafter provided, such improvements and facilities as shall be deemed essential for the accomplishment of the purpose of soil conservation and flood control. Such board shall also have jurisdiction, power and authority at any regular, special or adjourned session to establish, in the same manner that the districts hereinabove referred to are established, districts having for their pur-

pose soil conservation in mining areas within the county, and provide that anyone engaged in removing the surface soil over any bed or strata of coal in such district for the purpose of obtaining such coal shall replace the surface soil as nearly as practicable to its original position, and provide that, upon abandonment of such removal operation, all surface soil shall be so replaced. This section shall apply only to surface soil so removed after July 4, 1949, and then only if it is essential for the accomplishment of the purpose of soil conservation and flood control within the purview of this chapter.

If any levee or drainage district or improvement established either by legal proceedings or by private parties shall desire to include in the activities of such district soil conservation or flood control projects, the board upon petition, as for the establishment of an original levee or drainage district, shall establish a new district covering and including such old district and improvement together with any additional lands deemed necessary. All outstanding indebtedness of the old levee or drainage district shall be assessed only against the lands included therein.

Wherever any of the provisions of said chapters refer to the word "drainage", the word shall be deemed to include in its meaning soil erosion and flood control or any combination of drainage, flood control and soil erosion control. The term "drainage district" shall be considered to include districts having as their purpose soil conservancy or flood control or any combination thereof, and the words "drainage certificates" or "drainage bonds" shall be deemed to include certificates or bonds issued in behalf of any district organized under the provisions of this chapter; and any procedure provided by these chapters in connection with the organization, financing and operation of any drainage district shall be applicable to the organization, financing and operation of districts organized under this chapter.

467D.4 Governing body.

The governing body of each water resource district shall be one of the following

1 The state soil conservation committee established by section 467A 4

2 A board of not less than five nor more than nine members elected from water resource district wards established under section 467D 5 Water resource district board members so elected shall be reimbursed for travel and other actual and necessary expenses incurred in performing their duties The member of the state soil conservation committee appointed from that water resource district is an ex officio nonvoting mem-

ber of the district board of directors

86 Acts, ch 1238, §61

467D.5 Election of water resource district board.

1 The state soil conservation committee acting in its capacity as a water resource district board may propose division of a water resource district, currently being governed by the state soil conservation committee under subsection 1 of section 467D 4, into not less than five nor more than nine wards Ward boundaries shall coincide with county boundaries, except that each ward shall lie entirely within the water resource district of which it is a part Each ward shall be com-

posed of contiguous territory and shall be drawn with equality of population as an objective, insofar as that objective can reasonably be implemented while meeting the other requirements of this subsection. The division of a water resource district into wards shall not become effective until it is approved by the soil conservation districts located entirely or partially within the water resource district casting a majority of the total votes of the soil conservation districts in the water resource district. For the purpose of this subsection each soil conservation district that is entirely within the water resource district shall cast one vote and each soil conservation district that is partially within the water resource district shall cast a fractional vote that is equal to the percentage of the soil conservation district's area that is in the water resource district.

2 The board of directors of a water resource district which has been divided into wards under subsection 1 shall consist of one director from each ward so established, who shall be elected as provided by subsection 3. Each director shall serve a term of three years beginning on the first day of January, following that director's election, which is not a Sunday or a holiday. When a proposal for establishment of wards in a water resource district has been approved by the state soil conservation committee, the members of the first elected board shall be chosen as provided by subsection 3 except that the election shall be held not more than one hundred eighty days after the date of approval of the proposal for establishment of wards. The first elected board of directors shall take office on a day specified by the state soil conservation committee, which shall be not more than thirty days after election of the directors is completed. Upon taking office, the first elected board shall divide itself by lot into three classes as nearly equal in size as possible. Thereafter, successors to members of the first class shall be elected in the first succeeding calendar year, successors to members of the second class shall be elected in the second succeeding calendar year, and successors to members of the third class shall be elected in the third succeeding calendar year after the year in which the first elected board takes office.

3 Each member of a water resource district board of directors shall be elected at a ward convention attended by delegates chosen by and from among the commissioners of the respective soil conservation districts located entirely or partially within that ward.

a A convention shall be held for each ward not earlier than October 1 nor later than November 30 of each year in which a director is to be elected from that ward. Each ward convention shall be called and its location shall be determined by the board of directors of the water resource district of which the ward is a part. The conventions shall be held within the boundaries of the respective wards, and may be held in conjunction with other meetings attended by soil conservation district commissioners where doing so will avoid or reduce expense for travel and for use of convention sites. Notice of the time, date and place of a ward convention shall be published by the water resource district board of directors, at least thirty days prior to the convention date, in at least one newspaper of general circulation in the ward. The cost of publication shall be paid by the water resource district.

b The commissioners of each separate soil conser-

vation district located entirely or partially within a water resource district ward shall jointly cast a single, weighted vote for director of the water resource district from that ward. The weight of the vote cast by the commissioners of each soil conservation district shall be based upon the ratio that the population of the soil conservation district, or portion of the district, bears to that of the entire ward. The population of each soil conservation district, or portion of a district, shall be certified by the division of soil conservation.

c A candidate for election to the water resource district board from a ward may file a statement of candidacy with the secretary of the water resource district board at least ten days before the date of that ward's convention. The statement of candidacy shall state the candidate's name and address and shall indicate the soil conservation district within which the candidate resides. The list of candidates in each ward where an election is to occur shall be sent by ordinary mail to the commissioners of each soil conservation district located entirely or partially within the ward, immediately after the last day for filing. The filing of a statement of candidacy shall not be a prerequisite for election as a water resource district director. A delegate to a ward convention shall not be bound by the soil conservation district commissioners to pledge the delegate's vote to any candidate prior to the date of the convention.

4 Any eligible elector as defined in section 39.3 residing in a water resource district ward is eligible to be elected to represent that ward on the board. A water resource district board member need not be a soil conservation district commissioner, but the same individual may hold both offices concurrently. A person shall be elected to the board for no more than two consecutive terms. A vacancy is created when a member of the board removes the member's residence from the ward the member was elected to represent. A vacancy shall be filled by appointment of the state soil conservation committee from a list of nominees submitted by the remaining members of the board, for the period until the next regular election under subsection 3. At that election, a board member shall be elected for the remaining balance of the unexpired term.

For this purpose the board may request and shall obtain from any state agency or political subdivision information which the agency or subdivision has already collected which is pertinent to preparation of the plan, shall consult with soil conservation district commissioners, and may conduct hearings it deems necessary. The plan shall establish an order of priorities for carrying out projects necessary to accomplish the objectives of this chapter, shall conform as nearly as practicable to the comprehensive water allocation plan established by the department of natural resources pursuant to section 455B.263 and shall reflect the following general policies:

1. First consideration shall be given to work needed at or near the source of the streams in the district, and on or along the tributaries thereto, to the greatest extent practicable.

2. Water resource district funds shall not be expended for functions or improvements which are:

a. The responsibility of other political subdivisions and are within their abilities, reasonable consideration being given to their other duties and obligations.

The plan and the order of priorities established thereby shall constitute the working program of the water resource district. The plan shall be reviewed from time to time and shall be changed as deemed necessary as the result of experience gained in construction and maintenance of internal improvements by the water resource district, and in operation of the water resource district, or as the result of changed conditions. When implementation of the plan involves construction or improvement of any internal improvement by the water resource district, the board may order the preparation of detailed plans and specifications, and a refined cost estimate. Upon completion of the plans, specifications and cost estimate to its satisfaction, the board shall adopt them, subject to the approval of the department, and shall let contracts in accordance with section 467D.20. Any approval or permits from the department of natural resources required under other law shall be obtained by the water resource district prior to initiation of any construction activity.

When the estimated total cost of construction, enlargement, alteration or repair of an internal improvement exceeds five thousand dollars, the water resource district shall advertise for bids on the proposed improvement by two publications in at least one newspaper of general circulation in the water resource district.

The first advertisement shall be not less than fifteen days prior to the date set for receiving bids and the district shall let the work to the lowest responsible bidder submitting a sealed proposal. However, if in the judgment of the board the bids received are not acceptable, all bids may be rejected and new bids requested. All bids shall be accompanied, in a separate envelope, by a deposit of money, credit union certified share draft or certified check, in an amount to be named in the advertisement for bids, as security that the bidder will enter into a contract in accordance with the terms of the bid. The board shall fix the bid security in an amount equal to at least five percent, but not more than ten percent of the estimated total cost of the work. The checks or deposits of money of the unsuccessful bidders shall be returned as soon as the successful bidder is determined, and the share draft, check or deposit of money of the successful bidder shall be returned upon execution of the contract documents.

When the water resource district's plan calls for an internal improvement which cannot be undertaken due to a finding that the internal improvement would not be adequately protected against siltation, the board shall undertake to effect the development of the needed soil and water conservation practices in the watershed of the proposed internal improvement by:

1. Consultation and co-operation with, and appropriate assistance to, the commissioners of any soil conservation district in the state.

2. Securing the establishment of, or repair or maintenance within, a subdistrict of a soil conservation district, a soil conservation and flood control district, a drainage district, a levee district, a sanitary district, or other appropriate special district, in the manner prescribed by law.

Soil erosion resulting in or contributing to damage by siltation to any internal improvement of a water resource district, or resulting in or contributing to damage to property not owned by the owner or occupant of the land on which such erosion is occurring, is hereby declared to be a nuisance. The board of the

water resource district whose internal improvement is so damaged, the commissioners of the soil conservation district within which such erosion is occurring, or the owner or owners of any property so damaged, may bring action to enjoin and abate any such nuisance as provided by chapter 657. It shall be an adequate defense to such an action that any defendant, prior to the time the cause of action arose, had submitted application for public cost sharing funds pursuant to section 467A.48, or had established or maintained soil and water conservation practices or erosion control practices approved by the commissioners of the soil conservation district in which the erosion complained of occurred, or had taken other reasonable and prudent measures to prevent excessive soil erosion, and that the erosion complained of was an isolated occurrence caused by a single prolonged or unusually heavy rain fall, unusually rapid melting of accumulated snow, severe windstorm, or other similar event beyond the control of the defendant. The remedy for any soil erosion which constitutes a nuisance under this section shall be limited to requiring that the owner or occupant of the land on which the erosion is occurring take such measures as are necessary to comply with the regulations of the soil conservation district in which the land is located, and the fine and jail sentence provided by section 657.3 shall not apply in any action arising under this section.

The board, the commissioners of a soil conservation district, or an engineer or any other authorized person employed by the board or commissioners, may after thirty days' written notice by restricted certified mail addressed to the owner and also to the occupant, enter upon private land for the purpose of making surveys, soundings, drillings, appraisals, and examinations as deemed appropriate or necessary to determine the advisability or practicability of locating an internal improvement on said land or part thereof, or to determine whether soil erosion is occurring thereon which constitutes a nuisance under section 467D.23 or is in violation of the soil conservation district's regulations, provided, no soundings or drillings shall be made within twenty rods of the dwelling house or buildings on said land without the written consent of the owner. Such entry, after notice, shall not be deemed a trespass, and the board or commissioners may be aided by injunction to insure peaceful entry. The board shall pay actual damages caused by such entry, surveys, soundings, drillings, appraisals, or examinations. The amount of such damages, if any, shall be determined by agreement or in the manner provided for the award of damages in condemnation of land for water resource district purposes.

1 The agricultural energy management fund is created within the department of agriculture and land stewardship. The fund shall be used to finance education and demonstration projects regarding tillage practices and the management of fertilizer and pesticide use which result in management practices that reduce energy inputs in agriculture and reduce potential for groundwater contamination.

2 An agricultural energy management advisory council is established which shall consist of the secretary of agriculture and the chief administrator of each of the following organizations or the administrator's designee:

- a The energy and geological resources division of the department of natural resources
- b The environmental protection division of the department of natural resources

- e Iowa state water resource research institute
- f State university of Iowa department of preventive medicine and environmental health
- g Division of soil conservation of the department of agriculture and land stewardship
- h Iowa cooperative extension service in agriculture and home economics

The secretary of agriculture shall be the chairperson of the council. The presiding officers of the senate and house shall each appoint two nonvoting members, not more than one of any one political party, to serve on the advisory council for a term of two years. LIFE CYCLE COST ANALYSIS OF PUBLIC FACILITIES

470 1	Definitions	470 4	Analysis approved
470 2	Policy — analysis required	470 5	Exceptions
470 3	Elements of analysis	470 6	Restriction on use of public funds

470.1 Definitions.

As used in this chapter unless the context otherwise requires

1 "Public agency" means a county, city, school district, school corporation or combination thereof or an executive board, commission, bureau, division, office or department of the state

2 "Facility" means a building having twenty thousand square feet or more of usable floor space that is heated or cooled by a mechanical or electrical system

3 "Initial cost" means the moneys required for the capital construction or renovation of a facility

4 "Renovation" means a project where additions or alterations exceed fifty percent of the value of a facility and will affect an energy system

5 "Economic life" means the projected or anticipated useful life of a facility as expressed by a term of years

6 "Life cycle cost analysis" means an analytical technique that considers certain costs of owning, using and operating a facility over its economic life including but not limited to the following

- a Initial costs
- b System repair and replacement costs
- c Maintenance costs
- d Operating costs, including energy costs
- e Salvage value

7 "Energy system" includes but is not limited to the following equipment or measures

- a Equipment used to heat or cool the facility
- b Equipment used to heat water in the facility
- c On site equipment used to generate electricity for the major facility
- d On site equipment that uses the sun, wind, oil, natural gas, coal or electricity as a power source
- e Energy conservation measures in the facility design and construction that decrease the energy requirements of the facility

[C81, §470 1]

470.2 Policy — analysis required.

The general assembly declares that energy management is of primary importance in the design of publicly owned facilities. Commencing January 1, 1980, a public agency responsible for the construction or renovation of a facility shall, in a design begun after that date, include as a design criterion the requirement that a life cycle cost analysis be conducted for the facility. The objectives of the life cycle cost analysis are to optimize

energy efficiency at an acceptable life cycle cost. The life cycle cost analysis shall meet the requirements of section 470 3

[C81, §470 2]

470.3 Elements of analysis.

1 A life cycle cost analysis shall include but is not limited to the following elements

a Specification of energy management objectives and health, safety and functional constraints. The facility design shall comply with applicable state or local building code requirements

b Identification of the energy needs of the facility and energy system alternatives to meet those needs

c Cost of the energy system alternatives identified in paragraph "b" of this subsection

d Determination of amounts and timing of cash flow

e Calculation of life cycle cost using an economic model such as but not limited to rate of return, annual equivalent cost or present equivalent cost

f Evaluation of design and system alternatives using a method such as, but not limited to design matrices, ranking tables or network analysis

2 A public agency or a person preparing a life cycle cost analysis for a public agency shall consider the methods and analytical models in section 6 of the Manual of Procedures for authorized class "A" energy auditors as amended to March 31, 1979 by the engineering research institute at Iowa State University of Science and Technology in preparing a life cycle cost analysis

[C81, §470 3]

470.4 Analysis approved.

The life cycle cost analysis shall be approved by the public agency before contracts for the construction or renovation are let. A public agency may accept a facility design and shall meet the requirements of this chapter if the design meets the operational requirements of the agency and provides the optimum life cycle cost. The public agency shall retain a copy of the life cycle cost analysis and a statement justifying a design decision both of which shall be available for public inspection at reasonable hours

[C81, §470 4]

470.5 Exceptions.

This chapter does not apply to buildings used on January 1, 1980 by the division of adult corrections of the department of human services as maximum security detention facilities or to the renovation of property nominated to, or entered in the national register of historic places, designated by statute, or included in an established list of historic places compiled by the historical division of the department of cultural affairs.

[C81, §470.5; 82 Acts, ch 1238, §22]
83 Acts, ch 96, §157, 159

470.6 Restriction on use of public funds.

Public funds shall not be used for the construction or renovation of a facility unless the design for the work is prepared in accordance with this chapter and the actual construction or renovation meets the requirements of the design.

472.1 Procedure provided.

The procedure for the condemnation of private property for works of internal improvement, and for other public uses and purposes, unless and except as otherwise provided by law, shall be in accordance with the provisions of this chapter

[C24, 27, 31, 35, 39, §7822; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §472 1]

472.2 By whom conducted.

Such proceedings shall be conducted

1 By the attorney general when the damages are payable from the state treasury

2 By the county attorney, when the damages are payable from funds disbursed by the county, or by any township, or school corporation

3 By the city attorney, when the damages are payable from funds disbursed by the city

This section shall not be construed as prohibiting any other authorized representative from conducting such proceedings

[C73, §1271, C97, §2024, S13, §2024 a, d, f, C24, 27, 31, 35, 39, §7823; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §472 2]

472.3 Application — recording — notice — time for appraisal — new proceedings

Such proceedings shall be instituted by a written application filed with the chief judge of the judicial district of the county in which the land sought to be condemned is located. Said application shall set forth

1 A description of all the property in the county, affected or sought to be condemned, by its congressional numbers, in tracts not exceeding one sixteenth of a section, or, if the land consists of lots, by the numbers of the lot and block, and plat designation

2 A plat showing the location of the right of way or other property sought to be condemned with reference to such description

3 The names of all record owners of the different tracts of land sought to be condemned, or otherwise affected by such proceedings, and of all record holders of liens and encumbrances on such lands, also the place of residence of all such persons so far as known to the applicant

4 The purpose for which condemnation is sought

5 A request for the appointment of a commission to appraise the damages

6 If the damages are to be paid by the state and the land to be condemned is within an agricultural area as provided in chapter 176B, a statement disclosing

whether any of that land is classified as class I or class II land under the United States department of agriculture soil conservation service land capability classification system contained in the agriculture handbook number 210, 1961 edition and, if so classified, stating that the class I or class II land is reasonably necessary for the work of internal improvement for which condemnation is sought.

7. The applicant shall promptly certify that its application for condemnation has been approved by the chief judge and shall file the original approved application with the county recorder in the manner required under section 472.37. The county recorder shall file and index the application in the record of deeds and preserve the application as required by sections 472.38 and 558.55. The filing and indexing constitute constructive notice to all parties that a proceeding to condemn the property is pending and that the applicant has the right to acquire the property from all owners, lienholders, and encumbrancers whose interests are of record at the time of the filing. When indexed, the proceeding is considered pending so as to charge all persons not having an interest in the property with notice of its pendency, and while pending no interest can be acquired by the third parties in the property against the rights of the applicant. If the appraisalment of damages is not made within one hundred twenty days, the proceedings instituted under this section are terminated and all rights and interests of the applicant arising out of the application for condemnation terminate. The applicant may reinstitute a new condemnation proceeding at any time. The reinstated proceedings are entirely new proceedings and not a revival of the terminated proceeding.

If the sheriff, after delivery of notice of appeal, fails or is unable to serve the notice of appeal upon such designated person within the statutory period required under section 472.18, such inability or failure shall not deprive the court of jurisdiction of the appeal if the property owner shall, within twenty days after delivery of notice of appeal to the sheriff, make application for further direction as to service to the proper district court as provided by this section.

Upon the filing of the commissioners' report with the sheriff, the applicant may deposit with the sheriff the amount assessed in favor of a claimant, and the applicant, except as otherwise provided, may take possession of the land condemned and proceed with the improvement. An appeal from the assessment does not affect the right, except as otherwise provided. Upon appeal from the commissioners' award of damages the district court may direct that the part of the amount of damages deposited with the sheriff, as it finds just and proper, be paid to the claimant. If upon trial of the appeal a lesser amount is awarded the difference between the amount so awarded and the amount paid shall be repaid by the person to whom it was paid and upon failure to make the repayment the party shall have judgment entered against the person who received the excess payment. Title to the property or the interests in property passes to the applicant when damages have been finally determined and paid.

Copies of the plan or plans and amendments or revisions of a plan or plans prepared by a commission may be transmitted by the commission to the chief administrative officers, the legislative bodies, the planning commissions, boards or agencies of the counties and cities, within its area, and to regional or metropolitan planning commissions established for adjoining areas. A commission may make copies of its plan or plans or parts of plans available for general distribution or sale, and may advise and supply information, as far as available, to persons and organizations who may request such advice and information and who are concerned with the area's development problems. It may also provide information to state and local agencies and to the public at large, in order to foster public awareness and understanding of the objectives of regional or metropolitan planning, and in order to stimulate public interest and participation in the orderly, integrated development of the area served by the commission.

All legislative power with respect to zoning and other planning legislation shall remain with the governing body of the co-operative cities and counties. Each participating city or county may continue to have its own planning commission or board but may under the joint agreement and in the

interest of economy and efficiency and in the interest of uniform standards and procedures, request the metropolitan or regional planning commission to assume duties and functions of local planning agencies in whole or in part. The metropolitan or regional planning commission shall have the duty and function of promoting public interest and understanding of the economic and social necessity for long-term co-ordinated planning for the metropolitan or regional area, but its official recommendations shall be made to the governing bodies of the co-operating cities, counties, school districts, benefited water districts, benefited fire districts, sanitary districts, or similar districts.

REGULATION AUTHORITY

476.1 Applicability of authority.

The utilities board within the utilities division of the department of commerce shall regulate the rates and services of public utilities to the extent and in the manner hereinafter provided

As used in this chapter, "board" or "utilities board" means the utilities board within the utilities division of the department of commerce

As used in this chapter, "public utility" shall include any person, partnership, business association, or corporation, domestic or foreign, owning or operating any facilities for

- 1 Furnishing gas by piped distribution system or electricity to the public for compensation
- 2 Furnishing communications services to the public for compensation
- 3 Furnishing water by piped distribution system to the public for compensation

Mutual telephone companies in which at least fifty percent of the users are owners, co-operative telephone corporations or associations, telephone companies having less than fifteen thousand customers and less than fifteen thousand access lines, municipally owned utilities, and unincorporated villages which own their own distribution systems are not subject to the rate regulation provided for in this chapter

This chapter does not apply to water works having less than two thousand customers, municipally owned water works, or rural water districts incorporated and organized pursuant to chapters 357A and 504A, or to a person furnishing electricity to five or fewer customers from electricity that is produced primarily for the person's own use

A telephone company otherwise exempt from rate regulation and having telephone exchange facilities which cross state lines may elect, in a writing filed with the board, to have its rates regulated by the board. When a written election has been filed with the board, the board shall assume rate regulation jurisdiction over the company

The jurisdiction of the board under this chapter shall include programs designed to promote the use of energy conservation strategies by rate or service-regulated gas and electric utilities. These programs shall be cost effective. The board may initiate these programs as pilot projects to accumulate sufficient data to determine if the programs meet the requirements of this paragraph

The jurisdiction of the board as to the regulation of communications services is not applicable to a service or facility provided by a telephone utility that is or becomes subject to competition, as determined by the board. In determining whether a service or facility is or becomes subject to competition, the board shall consider whether a comparable service or facility is available from a supplier other than the telephone utility. When a service or facility provided by a telephone utility becomes subject to competition, the board shall, within a reasonable period of time, deregulate that service or facility. Upon deregulation, all investment, revenues, and expenses associated with the service or facility shall be removed from the telephone utility's regulated operations and shall not be considered by the board in setting rates for the telephone utility unless they continue to affect the company's regulated operations. In the event that the board considers investment, revenues, and expenses associated with unregulated services or facilities in setting rates for the telephone utility, the board shall not use any profits or costs from such unregulated services or facilities to determine the rates for regulated services or facilities. Nothing in this section shall preclude the board from considering the investment, revenues and expenses associated with the sale of classified directory advertising by a telephone utility in determining rates for the telephone utility

[C66, 71, 73, 75, §490A 1, C77, 79, 81, §476 1, 81 Acts, ch 156, §4]

476.1A Applicability of authority — certain electric utilities.

Electric public utilities having less than ten thou

sand customers and electric cooperative corporations and associations are not subject to the rate regulation authority of the board. Such utilities are subject to all other regulation and enforcement activities of the board, including

- 1 Assessment of fees for the support of the division
- 2 Safety and engineering standards for equipment, operations, and procedures
- 3 Assigned area of service
- 4 Pilot projects of the board

However, sections 476 20, 476 21, 476 41 through 476 44, 476 51 and 476 61 and chapters 476A and 478, to the extent applicable, apply to such electric utilities.

Electric cooperative corporations and associations and electric public utilities exempt from rate regulation under this section shall not make or grant any unreasonable preferences or advantages as to rates or services to any person or subject any person to any unreasonable prejudice or disadvantage.

The board of directors or the membership of an electric cooperative corporation or association otherwise exempt from rate regulation may elect to have the cooperative's rates regulated by the board. The board shall adopt rules prescribing the manner in which the board of directors or the membership of an electric cooperative may so elect. If the board of directors or the membership of an electric cooperative has elected to have the cooperative's rates regulated by the board, after two years have elapsed from the effective date of such election the membership of the electric cooperative may elect to exempt the cooperative from the rate regulation authority of the board.

476.1B Applicability of authority — municipally owned utilities.

1 Unless otherwise specifically provided by statute, a municipally owned utility is not subject to regulation by the board under this chapter, except for regulatory action pertaining to

- a Assessment of fees for the support of the division and the office of consumer advocate, as set forth in section 476 10
- b Safety standards
- c Assigned areas of service, as set forth in sections 476 22 through 476 26
- d Enforcement of civil penalties pursuant to section 476 51

- f Discrimination against users of renewable energy resources, as set forth in section 476 21

g Encouragement of alternate energy production facilities, as set forth in sections 476 41 through 476 45

2 Municipally owned utilities shall be required to adhere to the requirements of the following sections of the Code but all rules and regulations to enforce these sections shall lie with each local municipal utility's governing board. The board has no authority concerning these sections as they apply to municipal utilities.

a Peak-load management techniques, as set forth in section 476 17

b Promulgation of rules concerning the use of energy conservation strategies, as set forth in section 476 2

86 Acts, ch 1162, §1

476.2 Powers — rules.

The board shall have broad general powers to effect the purposes of this chapter notwithstanding the fact that certain specific powers are hereinafter set forth. The board shall have authority to issue subpoenas and to pay the same fees and mileage as are payable to witnesses in the courts of record of general jurisdiction and shall establish all needful, just and reasonable rules, not inconsistent with law, to govern the exercise of its powers and duties, the practice and procedure before it, and to govern the form, contents and filing of reports, documents and other papers provided for in this chapter or in the board's rules. In the establishment, amendment, alteration or repeal of any of such rules, the board shall be subject to the provisions of chapter 17A.

The board shall employ at rates of compensation consistent with current standards in industry such professionally trained engineers, accountants, attorneys, and skilled examiners and inspectors, secretaries, clerks, and other employees as it may find necessary for the full and efficient discharge of its duties and responsibilities as required by this chapter.

The board is hereby authorized and empowered to intervene in any proceedings before the federal power commission or any other federal or state regulatory body when it finds that any decision of such tribunal would adversely affect the costs of any public utility service within the state of Iowa.

The board shall have authority to inquire into the management of the business of all public utilities, and shall keep itself informed as to the manner and method in which the same is conducted, and may obtain from any public utility all necessary information to enable the board to perform its duties.

The board shall promulgate rules concerning the use of energy conservation strategies by rate or service-regulated gas and electric utilities by July 1, 1981. The board may prescribe appropriate rates for any approved energy conservation program. Nothing in this paragraph subjects the rates of municipal utilities to the regulatory authority of the board.

476.3 Complaints — investigation.

1 A public utility shall furnish reasonably adequate service at rates and charges in accordance with tariffs filed with the board. When there is filed with the board by any person or body politic, or filed by the board upon its own motion, a written complaint requesting the board to determine the reasonableness of the rates, charges, schedules, service, regulations, or anything done or omitted to be done by a public utility subject to this chapter in contravention of this chapter, the written complaint shall be forwarded by the board to the public utility, which shall be called upon to satisfy the complaint or to answer it in writing within a reasonable time to be specified by the board. Copies of the written complaint forwarded by the board to the public utility and copies of all correspondence from the public utility in response to the complaint shall be provided by the board in an expeditious manner to the consumer advocate. If the board determines the public utility's response is inadequate and there appears to be any reasonable ground for investigating the complaint, the board shall promptly initiate a formal proceeding.

If the consumer advocate determines the public utility's response to the complaint is inadequate, the consumer advocate may file a petition with the board which shall promptly initiate a formal proceeding if the board determines that there is any reasonable ground for investigating the complaint. The formal proceeding may be initiated at any time by the board on its own motion. If a proceeding is initiated upon petition filed by the consumer advocate or upon the board's own motion, the board shall set the case for hearing and give notice as it deems appropriate. When the board, after a hearing held after reasonable notice, finds a public utility's rates, charges, schedules, service, or regulations are unjust, unreasonable, discriminatory, or otherwise in violation of any provision of law, the board shall determine just, reasonable, and nondiscriminatory rates, charges, schedules, service, or regulations to be observed and enforced.

2. If, as a result of a review procedure conducted under section 476.31, a review conducted under section 476.32, a special audit, an investigation by division staff, or an investigation by the consumer advocate, a complaint is filed by division staff, or a petition is filed with the board by the consumer advocate, alleging that a utility's rates are excessive, the disputed amount shall be specified in the complaint or petition. The public utility shall, within the time prescribed by the board, file a bond or undertaking approved by the board conditioned upon the refund in a manner prescribed by the board of amounts collected after the date of filing of the complaint or petition in excess of rates or charges finally determined by the board to be lawful. If upon hearing the board finds that the utility's rates are unlawful, the board shall order a refund, with interest, of amounts collected after the date of filing of the complaint or petition that are determined to be in excess of the amounts which would have been collected under the rates finally approved. However, the board shall not order a refund that is greater than the amount specified in the complaint or petition, plus interest, and provided that if the board fails to render a decision within ten months following the date of filing of the complaint or petition, the board shall not order a refund of any excess amounts that are collected after the expiration of that ten-month period and prior to the date the decision is rendered.

3. A determination of utility rates by the board pursuant to this section that is based upon a departure from previously established regulatory principles shall apply prospectively from the date of the decision.

476.4 Tariffs filed.

Every public utility shall file with the board tariffs showing the rates and charges for its public utility services and the rules and regulations under which such services were furnished, on April 1, 1963, which rates and charges shall be subject to investigation by the board as provided in section 476.3, and upon such investigation the burden of establishing the reasonableness of such rates and charges shall be upon the public utility filing the same. These filings shall be made under such rules as the board may prescribe within such time and in such form as the board may

designate. In prescribing rules and regulations with respect to the form of tariffs, the board shall, in the case of public utilities subject to regulation by any federal agency, give due regard to any corresponding rules and regulations of such federal agency, to the end that unnecessary duplication of effort and expense may be avoided so far as reasonably possible. Each public utility shall keep copies of its tariffs open to public inspection under such rules as the board may prescribe.

Every rate, charge, rule and regulation contained in any filing made with the commission on or prior to July 4, 1963, shall be effective as of such date, subject, however, to investigation as herein provided. If any such filing is made prior to the time the commission prescribes rules as aforesaid, and if such filing does not comply as to form or substance with such rules, then the public utility which filed the same shall within a reasonable time after the adoption of such rules make a new filing or filings complying with such rules, which new filing or filings shall be deemed effective as of July 4, 1963.

476.4A Exemption from tariff filings for telephone utilities.

Notwithstanding contrary provisions of this chapter, a telephone utility may offer centron, centrex, intraexchange private line, or multiline variety package service without filing a tariff unless the board determines such a procedure is not in the public interest. The telephone utility shall offer each service which is exempt from a tariff filing at a rate which exceeds the cost of the service. A telephone utility offering its services without filing a tariff shall not discriminate in an unreasonable manner for or against any customer.

A telephone utility shall provide the board with at least thirty days notice prior to a request to offer service without filing a tariff. The board may require the telephone utility to file its price lists, contracts, or cost allocations for services offered without a tariff. Any such price lists, contracts, or cost allocations so filed shall be afforded rebuttable presumptions that they meet the requirements of section 22.7, subsection 6.

The board shall consider the revenues, expenses and investment related to telephone utility services offered without a filed tariff in proceedings under section 476.3, 476.6 and 476.7.

84 Acts, ch 1267, §1

476.5 Adherence to schedules — discounts.

No public utility subject to rate regulation shall directly or indirectly charge a greater or less compensation for its services than that prescribed in its tariffs, and no such public utility shall make or grant any unreasonable preferences or advantages as to rates or services to any person or subject any person to any unreasonable prejudice or disadvantage.

Nothing in this section shall be construed to prohibit any public utility furnishing communications services from providing any service rendered by it without charge or at reduced rate to any of its active or retired officers, directors, or employees, or such officers, directors or employees of other public utilities furnishing communications services. Provided, however, said service is for personal use, and not for engaging in a business for profit.

476.6 Changes in rates, charges, schedules and regulations — supply and cost review.

1 *Filing with board* A public utility subject to rate regulation shall not make effective a new or changed rate, charge, schedule or regulation until the rate, charge, schedule, or regulation has been approved by the board, except as provided in subsections 11 and 13

A subscriber of a telephone exchange or service, who is declared to be legally blind under section 422 12, subsection 1, paragraph "e", is exempt from any charges for telephone directory assistance that may be approved by the board

2 *Telephone directory assistance charges — record provided* The board shall not approve a schedule of directory assistance charges unless the schedule provides that residential customers be provided a record of the date and time of each directory assistance call made from their residence

3 *Telephone directory assistance charges — approval by board* Notwithstanding contrary provisions of this section, a public utility shall not implement a charge for telephone directory assistance or implement a new or changed rate for telephone directory assistance except pursuant to a tariff that has been filed with the board and finally approved by the board

4 *First seven calls exempted* A telephone directory assistance tariff that is approved by the board on or after July 1, 1981, shall be subject to the limitation that a subscriber shall not be charged for the first seven directory assistance calls made from the subscriber's station during each of the first twelve months in which the tariff is in effect, and a charge made in violation of this limitation is an unlawful charge within the meaning of this chapter

5 *Written notice of increase* All public utilities, except those exempted from rate regulation by section 476 1, shall give written notice of a proposed increase of any rate or charge to all affected customers served by the public utility no more than sixty-two days prior to and prior to the time the application for the increase is filed with the board Public utilities exempted from rate regulation by section 476 1 shall give written notice of a proposed increase of any rate or charge to all affected customers served by the public utility at least thirty days prior to the effective date of the increase If the public utility is subject to rate regulation, the notice to affected customers shall also state that the customer has a right to file a written objection to the rate increase and that the affected customers may request the board to hold a public hearing to determine if the rate increase should be allowed The board shall prescribe the manner and method that the written notice to each affected customer of the public utility shall be served

6 *Facts and arguments submitted* At the time a public utility subject to rate regulation files with the board an application for any new or changed rates, charges, schedules, or regulations, the public utility also shall submit factual evidence and written argument offered in support of the filing If the filing is an application for a general rate increase, the utility shall also file affidavits containing testimonial evidence to be offered in support of the filing, although this requirement does not apply if the public utility is a rural electric cooperative

7 *Hearing set* After the filing of an application for

new or changed rates, charges, schedules, or regulations by a public utility subject to rate regulation, the board, prior to the expiration of thirty days after the filing date, shall docket the case as a formal proceeding and set the case for hearing unless the new or changed rates, charges, schedules, or regulations are approved by the board In the case of a rural electric cooperative, the board may docket the case as a formal proceeding and set the case for hearing prior to the proposed effective date of the tariff The board shall give notice of formal proceedings as it deems appropriate The docketing of a case as a formal proceeding suspends the effective date of the new or changed rates, charges, schedules, or regulations until the rates, charges, schedules, or regulations are approved by the board, except as provided in subsection 13

8 *Utility hearing expenses reported* When a case has been docketed as a formal proceeding under subsection 7, the public utility, within a reasonable time thereafter, shall file with the board a report outlining the utility's expected expenses for litigating the case through the time period allowed by the board in rendering a decision At the conclusion of the utility's presentation of comments, testimony, exhibits, or briefs the utility shall submit to the board a listing of the utility's actual litigation expenses in the proceeding As part of the findings of the board under subsection 9, the board shall allow recovery of costs of the litigation expenses over a reasonable period of time to the extent the board deems the expenses reasonable and just

9 *Finding by board* If, after hearing and decision on all issues presented for determination in the rate proceeding, the board finds the proposed rates, charges, schedules, or regulations of the utility to be unlawful, the board shall by order authorize and direct the utility to file new or changed rates, charges, schedules, or regulations which, when approved by the board and placed in effect, will satisfy the requirements of this chapter The rates, charges, schedules, or regulations so approved are lawful and effective upon their approval

10 *Limitation on filings* A public utility shall not make a subsequent filing of an application for a new or changed rate, charge, schedule, or regulation which relates to services for which a rate filing is pending within twelve months following the date the prior application was filed or until the board has issued a final order on the prior application, whichever date is earlier, unless the public utility applies to the board for authority and receives authority to make a subsequent filing at an earlier date

11 *Automatic adjustments permitted* This chapter does not prohibit a public utility from making provision for the automatic adjustment of rates and charges for public utility service provided that a schedule showing the automatic adjustment of rates and charges is first filed with the board

If an automatic adjustment is used, the adjustment must be reduced to zero at least once in every twelve month period, and all appropriate charges collected by the automatic adjustment shall be incorporated in the utility's other rates at that time

12 *Rate levels for telephone utilities* The board may approve a schedule of rate levels for any regulated service provided by a utility providing communication services

476.6(7) Amend Enact
Ch 21, §2-87 Acts

13. *Temporary authority.* Upon the request of a public utility, the board shall, when required by this subsection, grant the public utility temporary authority to place in effect any or all of the suspended rates, charges, schedules or regulations by filing with the board a bond or other undertaking approved by the board conditioned upon the refund in a manner to be prescribed by the board of any amounts collected in excess of the amounts which would have been collected under rates, charges, schedules or regulations finally approved by the board. In determining that portion of the new or changed rates, charges, schedules or regulations to be placed in effect prior to a final decision, the board shall apply previously established regulatory principles and shall, at a minimum, permit rates and charges which will allow the utility the opportunity to earn a return on common stock equity equal to that which the board held reasonable and just in the most recent rate case involving the same utility or the same type of utility service, provided that if the most recent final decision of the board in an applicable rate case was rendered more than twelve months prior to the date of filing of the request for temporary rates, the board shall in addition consider financial market data that is filed or that is otherwise available to the board and shall adjust the rate of return on common stock equity that was approved in that decision upward or downward as necessary to reflect current conditions. The board shall render a decision on a request for temporary authority within ninety days after the date of filing of the request. The decision shall be effective immediately. If the board has not rendered a final decision with respect to suspended rates, charges, schedules or regulations upon the expiration of ten months after the filing date, plus the length of any delay that necessarily results either from the failure of the public utility to exercise due diligence in connection with the proceedings or from intervening judicial proceedings, plus the length of any extension permitted by section 476.33, subsection 3, then those portions that were approved by the board on a temporary basis shall be deemed finally approved by the board and the utility may place them into effect on a permanent basis, and the utility also may place into effect subject to refund and until the final decision of the board any portion of the suspended rates, charges, schedules or regulations not previously approved on a temporary basis by filing with the board a bond or other undertaking approved by the board.

If the board finds that an extension of the ten-month period is necessary to permit the accumulation of necessary data with respect to the operation of a newly constructed electric generating facility that has a capacity of one hundred megawatts or more of electricity and that is proposed to be included in the rate base for the first time, the board may extend the ten-month period up to a maximum extension of six months, but only with respect to that portion of the suspended rates, charges, schedules or regulations that are necessarily connected with the inclusion of the generating facility in the rate base. If a utility is proposing to include in its rate base for the first time a newly constructed electric generating facility that has a capacity of one hundred megawatts or more of electricity, the filing date of new or changed rates, charges, schedules or regulations shall, for purposes of

computing the ninety-day and ten-month limitations stated above, be the date as determined by the board that the new plant went into service, but only with respect to that portion of the suspended rates, charges, schedules or regulations that are necessarily connected with the inclusion of the generating facility in the rate base.

The board shall determine the rate of interest to be paid by a public utility to persons receiving refunds. The interest rate to be applied to refunds of moneys collected subject to refund under this subsection is two percent per annum plus the average quarterly interest rate at commercial banks for twenty-four-month loans for personal expenditures, as determined by the board, compounded annually. The board shall consider federal reserve statistical release G.19 or its equivalent when determining interest to be paid under this subsection.

14. *Refunds passed on to customers.* If pursuant to federal law or rule a rate-regulated public utility furnishing gas to customers in the state receives a refund or credit for past gas purchases, the savings shall be passed on to the customers in a manner approved by the board. Similarly, if pursuant to federal law or rule a rate-regulated public utility furnishing gas to customers in the state receives a rate for future gas purchases which is lower than the price included in the public utility's approved rate application, the savings shall be passed on to the customers in a manner approved by the board.

15. *Natural gas supply and cost review.* The board shall periodically, but not less than annually, conduct a proceeding for the purpose of evaluating the reasonableness and prudence of a rate-regulated public utility's natural gas procurement and contracting practices. The natural gas supply and cost review shall be conducted as a contested case pursuant to chapter 17A.

Under procedures established by the board, each rate-regulated public utility furnishing gas shall periodically file a complete natural gas procurement plan describing the expected sources and volumes of its gas supply and changes in the cost of gas anticipated over a future twelve-month period specified by the board. The plan shall describe all major contracts and gas supply arrangements entered into by the utility for obtaining gas during the specified twelve-month period. The description of the major contracts and arrangements shall include the price of gas, the duration of the contract or arrangement, and an explanation or description of any other term or provision as required by the board. The plan shall also include the utility's evaluation of the reasonableness and prudence of its decisions to obtain gas in the manner described in the plan, an explanation of the legal and regulatory actions taken by the utility to minimize the cost of gas purchased by the utility, and such other information as the board may require.

Contemporaneously with the natural gas procurement plan, the public utility shall file with the board a five-year forecast of the gas requirement of its customers, its anticipated sources of supply, and projections of gas costs. The forecast shall include a description of all relevant major contracts and gas supply arrangements entered into or contemplated between the gas utility and its suppliers, a description of

all major gas supply arrangements which the gas utility knows have been, or expects will be, entered into between the utility's principal pipeline suppliers and their major sources of gas, and such other information as the board may require.

During the natural gas supply and cost review, the board shall evaluate the reasonableness and prudence of the gas procurement plan. In evaluating the gas procurement plan, the board shall consider the volume, cost, and reliability of the major alternative gas supplies available to the utility; the cost of alternative fuels available to the utility's customers; the availability of gas in storage; the appropriate legal and regulatory actions which the utility could take to minimize the cost of purchased gas; the gas procurement practices of the utility; and other relevant factors. If a utility is not taking all reasonable actions to minimize its purchase gas costs, consistent with assuring an adequate long-term supply of natural gas, the board shall not allow the utility to recover from its customers purchase gas costs in excess of those costs that would be incurred under reasonable and prudent policies and practices.

The board shall also evaluate the five-year forecast filed by the public utility. The board may indicate any cost items in the five-year forecast that on the basis of present evidence in the record the board would be unlikely to permit the utility to recover from its customers in rates, charges or purchased gas clauses established in the future. Nothing in this section prohibits the board from disallowing the recovery of other related or unrelated costs on the basis of evidence received in a later contested case proceeding.

The board shall adopt rules pursuant to chapter 17A to implement the provisions of this section prior to January 1, 1984.

16. *Annual electric energy supply and cost review.* The board shall conduct an annual proceeding for the purpose of evaluating the reasonableness and prudence of a rate-regulated public utility's procurement and contracting practices related to the acquisition of fuel for use in generating electricity. The proceeding shall be conducted as a contested case pursuant to chapter 17A. Under procedures established by the board, the utility shall file information as the board deems appropriate. If a utility is not taking all reasonable actions to minimize its fuel costs, the board shall not allow the utility to recover from its customers fuel costs in excess of those costs that would be incurred under reasonable and prudent policies and practices.

Contemporaneously with the annual review proceeding, the board shall analyze the electric generating capacity needs for the next decade by the public utility's customers, under procedures established by the board. The utility shall file information regarding future capacity needs of its customers as deemed appropriate by the board.

476.7 Application by utility for review.

If there shall be filed with the board by any public utility an application requesting the board to determine the reasonableness of the utility's rates, charges, schedules, service or regulations, the board shall

promptly initiate a formal proceeding. Such a formal proceeding may be initiated at any time by the board on its own motion. Whenever such a proceeding has been initiated upon application or motion, the board shall set the case for hearing and give such notice thereof as it deems appropriate. Whenever the board, after a hearing held after reasonable notice, finds any public utility's rates, charges, schedules, service or regulations are unjust, unreasonable, insufficient, discriminatory or otherwise in violation of any provision of law, the board shall determine just, reasonable, sufficient and nondiscriminatory rates, charges, schedules, service or regulations to be thereafter observed and enforced.

[C66, 71, 73, 75, §490A.7; C77, 79, 81, §476.7]

476.8 Utility charges and service.

Every public utility is required to furnish reasonably adequate service and facilities. "Reasonably adequate service and facilities" for public utilities furnishing gas or electricity includes programs for customers to encourage the use of energy conservation and renewable energy sources. The charge made by any public utility for any heat, light, gas, energy conservation and renewable energy programs, water or power produced, transmitted, delivered or furnished, or communications services, or for any service rendered or to be rendered in connection therewith shall be reasonable and just, and every unjust or unreasonable charge for such service is prohibited and declared unlawful. In determining reasonable and just rates, the board shall consider all factors relating to value and shall not be bound by rate base decisions or rulings made prior to the adoption of this chapter.

The board, in determining the value of materials or services to be included in valuations or costs of operations for rate-making purposes, may disallow any unreasonable profit made in the sale of materials to or services supplied for any public utility by any firm or corporation owned or controlled directly or indirectly by such utility or any affiliate, subsidiary, parent company, associate or any corporation whose controlling stockholders are also controlling stockholders of such utility. The burden of proof shall be on the public utility to prove that no unreasonable profit is made.

476.9 Accounts rendered to board.

1. Every public utility shall keep and render to the board in the manner and form prescribed by the board uniform accounts of all business transacted.

2. Every public utility engaged directly or indirectly in any other business than that of the production, transmission or furnishing of heat, light, water or power or furnishing communications services to the public shall, if required by the board, keep and render separately to the board in like manner and form the accounts of all such other business, in which case all the provisions of this chapter shall apply to the books, accounts, papers and records of such other business and all profits and losses may be taken into consideration by the board if deemed relevant to the general fiscal condition of the public utility.

3. Every public utility is required to keep and render its books, accounts, papers and records accurately

and faithfully in the manner and form prescribed by the board, and to comply with all directions of the board relating to such books, accounts, papers and records

4 The board shall consult with other state and federal regulatory bodies for the purpose of eliminating accounting discrepancies with regard to the keeping of public utility accounts before prescribing any system of accounts to be kept by the public utility

[C66, 71, 73, 75, §490A 9, C77, 79, 81, §476 9]

476.10 Investigations — expense — appropriation.

When the board deems it necessary in order to carry out the duties imposed upon it by this chapter for the purpose of determining rate matters to investigate the books, accounts, practices, and activities of, or make appraisals of the property of any public utility, or to render any engineering or accounting services to any public utility, or to review the operations or annual reports of the public utility under section 476 31 or 476 32, the public utility shall pay the expense reasonably attributable to the investigation, appraisal, service, or review. The board shall ascertain the expenses including certified expenses incurred by the consumer advocate division of the department of justice directly chargeable to the public utility under section 475A 6, and shall render a bill, by certified mail, to the public utility, either at the conclusion of the investigation, appraisal, services, or review, or from time to time during its progress, which bill is notice of the assessment and shall demand payment. The total amount of such expense in any one calendar year, for which any public utility shall become liable, shall not exceed two tenths of one percent of its gross operating revenues derived from intrastate public utility operations in the last preceding calendar year.

The board shall ascertain the total of the division's expenditures during each year which are reasonably attributable to the performance of its duties under this chapter. The board shall add to this total the certified expenses of the consumer advocate as provided under section 475A 6 and shall deduct all amounts chargeable directly to any specific utility under any law. The remainder shall be assessed by the board to the public utilities in proportion to their respective gross operating revenues during the last calendar year derived from intrastate public utility operations and may be assessed by the board on a quarterly basis. Assessments may be made quarterly based upon estimates of the utilities division's and the consumer advocate's expenditures for the fiscal year. Beginning with the fiscal year beginning July 1, 1987, the first assessment for any fiscal year may be made by the utilities division by May 15 of the preceding fiscal year and shall be paid by the utility on or before the following July 1. Not more than ninety days following the close of the fiscal year, the utilities division shall conform the amount of the prior fiscal year's assessments to the requirements of this section. Public utilities exempt from rate regulation under this chapter shall not be assessed for remainder expenses incurred during review of rate regulated public utilities under section 476 31 or 476 32, but such remainder expenses shall be assessed proportionally as provided in this section among only the rate-regulated public utilities. The total amount which may be assessed to the public utilities under

authority of this paragraph shall not exceed two tenths of one percent of the total gross operating revenues of the public utilities during the calendar year derived from intrastate public utility operations. However, the total amount which may be assessed in any one calendar year to a public utility under this section shall not exceed three-tenths of one percent of the utility's total gross operating revenues derived from intrastate public utility operation in the last preceding year. For public utilities exempted from rate regulation under this chapter, the assessments under this paragraph shall be computed at one half the rate used in computing the assessment for other utilities.

Each utility shall pay the division the amount assessed against it within thirty days from the time the division mails notice to it of the amount due unless it shall file with the board objections in writing setting out the grounds upon which it claims that such assessment is excessive, erroneous, unlawful, or invalid. Upon the filing of such objections the board shall set the matter down for hearing and issue its order in accordance with its findings in such proceeding, which order shall be subject to review in the manner provided in this chapter. All amounts collected by the division pursuant to the provisions of this section shall be deposited with the state treasurer and credited to the general fund of the state. Such amounts shall be spent in accordance with the provisions of chapter 8.

Whenever the board shall deem it necessary in order to carry out the duties imposed upon it in connection with rate regulation under section 476 6, investigations under section 476 3, or review proceedings under section 476 31, the board may employ additional temporary or permanent staff, or may contract with persons who are not state employees for engineering, accounting, or other professional services, or both. The costs of these additional employees and contract services shall be paid by the public utility whose rates are being reviewed in the same manner as other expenses are paid under this section. There is hereby appropriated out of any funds in the state treasury not otherwise appropriated, such sums as may be necessary to enable the board to hire additional staff and contract for services under this section. The authority to hire additional temporary or permanent staff that is granted to the board by this section shall not be subject to limitation by any administrative or executive order or decision that restricts the number of state employees or the filling of employee vacancies, and shall not be subject to limitation by any law of this state that restricts the number of state employees or the filling of employee vacancies unless that law is made applicable to this section by express reference to this section.

Fees paid to the utilities division shall be deposited in a utilities trust fund. The treasurer of state shall hold these funds in an account that shall be established in the names of the administrator of the utilities division and the consumer advocate for the payment, upon appropriation by the general assembly, of the expenses of the utilities division and the consumer advocate division of the department of justice. This fund is subject at all times to the warrant of the director of revenue and finance, drawn upon written requisition of the administrator of the utilities division, the administrator's designated representative, the con-

sumer advocate, or the consumer advocate's designated representative for the payment of all salaries and other expenses necessary to carry out the duties of the utilities division or the consumer advocate division. Subject to this section, the utilities division or the consumer advocate division may keep on hand with the treasurer of state funds in excess of the current needs of the utilities division or the consumer advocate division. Transfers shall not be made from the general fund of the state or any other fund for the payment of the expenses of the divisions. No part of the funds held by the treasurer of state for the account shall be transferred to the general fund of the state or any other fund. The funds held by the treasurer of state for the account shall be invested by the treasurer of state and the income derived from these investments shall be credited to the general fund of the state. The authority to modify allotments provided in section 8 31 shall not apply to funds appropriated from the fund created in this section.

The administrator and consumer advocate shall account for receipts and disbursements according to the separate duties imposed upon the utilities and consumer advocate divisions by the laws of this state and each separate duty shall be fiscally self-sustaining.

476.11 Telephone tolls determined.

Whenever toll connection between the lines or facilities of two or more telephone companies has been made, or is demanded under the statutes of this state and the companies concerned cannot agree as to the terms and procedures under which toll communications shall be interchanged, the board upon complaint in writing, after hearing had upon reasonable notice, shall determine such terms and procedures.

476.12 Rehearings before board.

Any party, as defined in the rules and regulations promulgated by the board as provided in section 476 2 hereof, to a proceeding before the board may within twenty days after the entry of the order apply for a rehearing. The board shall either grant or refuse an application for rehearing within twenty days after the filing of the application, or may after giving the interested parties notice and opportunity to be heard and after consideration of all the facts, including those arising since the making of the order, abrogate or modify its order. A failure by the board to act upon such application for rehearing within the above period shall be deemed a refusal thereof. Neither the filing of an application for rehearing nor the granting thereof shall stay the effectiveness of an order unless the board so directs.

[C66, 71, 73, 75, §490A 12, C77, 79, 81, §476 12]

476.13 Judicial review.

1 Notwithstanding the Iowa administrative procedure Act, the district court for Polk county or for the county in which a public utility maintains its principal place of business has exclusive venue for the judicial review under chapter 17A of actions of the board pursuant to rate regulatory powers over that public utility.

2 Upon the filing of a petition for judicial review in an action referred to in subsection 1, the clerk of the district court shall notify the chief justice of the supreme court for purposes of assignment of a district judge under section 602 1212. The judicial review proceeding shall be heard by the district judge appointed by the supreme court under section 602 1212, but in the county of venue under subsection 1.

3 Notwithstanding the Iowa administrative procedure Act, if a public utility seeks judicial review of an order approving rates for the public utility, the level of rates that may be collected, under bond and subject to refund, while the appeal is pending shall be limited to the level of the temporary rates set by the board, or the level of the final rates set by the board, whichever is greater. During the period the judicial review proceeding is pending, the board shall retain jurisdiction to determine the rate of interest to be paid on any refunds eventually required on rates collected during judicial review.

2 Rules of the board shall relate to reducing or limiting the peak load period consumption.

3 In promulgating rules under this section, the board is not bound by decisions, rulings or orders which relate to the definitions of types or classes of customers and which were issued by the Iowa state commerce commission prior to July 1, 1980.

476.18 Impermissible charges.

1 Public utilities subject to rate regulation are prohibited from including either directly or indirectly in their charges or rates to customers the costs of lobbying

2 Legal costs and attorney fees incurred by a public utility subject to rate regulation in an appeal in state or federal court involving the validity of any action of the board shall not be included either directly or indirectly in the public utility's charges or rates to customers except to the extent that recovery of legal costs and attorney fees is allowed by the board. The board shall allow a public utility to recover reasonable legal costs and attorney fees incurred in the appeal. The board may consider the degree of success of the legal arguments of the public utility in determining the reasonable legal costs and attorney fees to be allowed.

3 Public utilities subject to rate regulation are prohibited from including either directly or indirectly in their charges or rates to customers the costs of advertising other than advertising which is required by the board or by other state or federal regulation. However, this subsection does not apply to a utility's advertising which is deemed by the board to be necessary for the utility's customers and which is approved by the board.

Every ad which is published, broadcast, or otherwise displayed or disseminated to the public by a public utility which is to be charged to the customers of the public utility and which is not required by the board or by other state or federal regulation shall include a statement in the ad that the costs of the ad are being charged to the customers of the public utility. This paragraph does not apply to a utility's product or service that is or becomes subject to competition as determined by the board.

476.20 Disconnection limited — notice — moratorium — deposits.

1 A utility shall not, except in cases of emergency, discontinue, reduce, or impair service to a community, or a part of a community, except for nonpayment of account or violation of rules and regulations, unless and until permission to do so is obtained from the board.

2 The board shall establish rules requiring a regulated public utility furnishing gas or electricity to include in the utility's notice of pending disconnection of service a written statement advising the customer that the customer may be eligible to participate in the low income home energy assistance program or weatherization assistance program administered by the division of community action agencies of the department of human rights. The written statement shall list the address and telephone number of the local agency

which is administering the customer's low income home energy assistance program and the weatherization assistance program. The written statement shall also state that the customer is advised to contact the public utility to settle any of the customer's complaints with the public utility, but if a complaint is not settled to the customer's satisfaction, the customer may file the complaint with the board. The written statement shall include the address and phone number of the board. If the notice of pending disconnection of service applies to a residence, the written statement shall advise that the disconnection does not apply from November 1 through April 1 for a resident who is a "head of household", as defined by law, and who has been certified to the public utility by the local agency which is administering the low income home energy assistance program and weatherization assistance program as being eligible for either the low income home energy assistance program or weatherization assistance program, and that if such a resident resides within the serviced residence, the customer should promptly have the qualifying resident notify the local agency which is administering the low income home energy assistance program and weatherization assistance program. The board shall establish rules requiring that the written notice contain additional information as it deems necessary and appropriate.

3 The board shall establish rules which shall be uniform with respect to all public utilities furnishing gas or electricity relating to disconnection of service. This subsection applies both to regulated utilities and to municipally owned utilities and unincorporated villages which own their own distribution systems, and violations of this subsection subject the utilities to civil penalties under section 476 51.

A qualified applicant for the low income home energy assistance program or the weatherization assistance program who is also a "head of household", as defined in section 422 4, subsection 11, shall be promptly certified by the local agency administering the applicant's program to the applicant's public utility that the resident is a "head of household" as defined in section 422 4, subsection 11, and is qualified for the low income home energy assistance program or weatherization assistance program. Notwithstanding subsection 1, a public utility furnishing gas or electricity shall not disconnect service from November 1 through April 1 to a residence which has a resident that has been certified under this paragraph.

4 A public utility which violates a provision of this section relating to the disconnection of service or which violates a rule of the board relating to disconnection of service is subject to civil penalties imposed by the board under section 476 51.

5 The board shall establish rules which shall be uniform with respect to all public utilities furnishing gas or electricity relating to deposits which may be required by the public utility for the initiation or reinstatement of service.

a The deposit for a residential or commercial customer for a place which has previously received service shall not be greater than the highest billing of service for one month for the place in the previous twelve month period.

b The deposit for a residential or a commercial customer for a place which has not previously received

service or for an industrial customer shall be the customer's projected one month's usage for the place to be serviced as determined by the public utility according to rules established by the board.

This subsection does not prohibit a public utility from requiring payment of a customer's past due account with the utility prior to reinstatement of service.

The rules shall allow a person other than the customer to pay the customer's deposit. Upon termination of service to such a customer, the deposit plus accumulated interest less any unpaid utility bill of the customer, shall be reimbursed to the person who made the deposit.

A municipality, corporation or co-operative association providing electrical or gas service shall not consider the use of renewable energy sources by a customer as a basis for establishing discriminatory rates or charges for any service or commodity sold to the customer or discontinue services or subject the customer to any other prejudice or disadvantage based on the customer's use or intended use of renewable energy sources. As used in this section, "renewable energy sources" includes but is not limited to, solar heating, wind power and the conversion of urban and agricultural organic wastes into methane gas and liquid fuels.

ASSIGNED AREA OF SERVICE

476.22 Definition.

As used in sections 476.23 to 476.26, unless the context otherwise requires, "electric utility" includes a public utility furnishing electricity as defined in section 476.1 and a city utility as defined in section 390.1.

[C77, 79, 81, §476.22]

476.23 Electric service conflicts — certificates of authority.

1. An electric utility shall not construct or extend facilities or furnish or offer to furnish electric service to the existing point of delivery of any customer already receiving electric service from another electric utility without having first filed with the board the express written agreement of the electric utility presently serving this customer, except as otherwise provided in this section. Any municipal corporation, after being authorized by a vote of the people, or any electric utility may file a petition with the board requesting a certificate of authority to furnish electric service to the existing point of delivery of any customer already receiving electric service from another electric utility. If, after notice by the board to the electric utility currently serving the customer, objection to the petition is not filed and investigation is not deemed necessary, the board shall issue a certificate within thirty days of the filing of the petition. When an objection is filed, if the board, after notice and opportunity for hearing, determines that service to the customer by the petitioner is in the public interest, including consideration of any unnecessary duplication of facilities, it shall

grant this certificate in whole or in part, upon such terms, conditions, and restrictions as may be justified. Whether or not an objection is filed, any certificate issued shall require that the petitioner pay to the electric utility presently serving the customer, the reasonable price for facilities serving the customer. This price determination by the board shall include due consideration of the cost of the facilities being acquired, any necessary generating capacity and transmission capacity dedicated to the customer, depreciation, loss of revenue, and the cost of facilities necessary to reintegrate the system of the utility after detaching the portion sold.

2. An electric utility shall not construct or extend facilities or furnish electric service to a prospective customer not presently being served, unless its existing service facilities are nearer the proposed point of delivery than the service facilities of any other utility. However, an electric utility may extend electric service and transmission lines if the electric utility closest to the delivery point consents to this extension in writing and a copy of the agreement is filed with the board or, if the board, after notice and opportunity for hearing and after giving due consideration to the prevention of unnecessary duplication of facilities, finds that service from an electric utility, other than the closest utility, is in the public interest. This subsection shall not apply if the prospective customers are within an exclusive service area assigned to an electric utility as provided in this division.

3. Notwithstanding subsections 1 and 2 of this section, any electric utility may extend electric service and transmission lines to its own utility property and facilities.

4. If not inconsistent with the provisions of this division:

a. All rights of municipal corporations under chapter 364 to grant a person a franchise to erect, maintain, and operate plants and systems for electric light and power within the corporate boundaries, and rights acquired by franchise or agreement shall be preserved in these municipal corporations;

b. All rights of city utilities under the city code shall be preserved in these city utilities;

c. All rights of city utilities and joint electric utilities under chapter 390 shall be preserved in these city utilities and joint electric utilities; and

d. All rights of cities under chapter 472 are preserved. However, prior to the institution of condemnation proceedings, the city shall obtain a certificate of authority from the board in accordance with this division and the board's determination of price under this division shall be conclusive evidence of damages in these condemnation proceedings.

476.24 Electric utility service area maps.

1. On or before July 1, 1977, and subsequently whenever requested by the board, electric utilities furnishing electricity to the public for compensation in this state shall file, jointly or severally, with the board detailed maps of their service area drawn to a scale of not less than one inch per mile or drawn to a larger scale if required for clarity showing all of the following:

a. The locations of an electric utility's generation,

franchised transmission lines, distribution lines, and related facilities as of January 1, 1976

b All state and federal highways and other public roads within the electric utility's service area

c All section lines and numbers and township and range numbers within the electric utility's service area

d The corporate boundaries of all cities within the electric utility's service area

e All lakes and rivers within the electric utility's service area

f All railroads within the electric utility's service area

g Any additional information requested by the board

2 On or before July 1, 1978, and subsequently when deemed by the board to be necessary, the board shall prepare or cause to have prepared a composite map of this state showing the service areas of electric utilities as submitted by the electric utilities. The form and detail of all maps shall be determined by the board

[C77, 79, 81, §476.24]

476.25 Assigned service areas — electric utilities — legislative policy.

It is declared to be in the public interest to encourage the development of co-ordinated statewide electric service at retail, to eliminate or avoid unnecessary duplication of electric utility facilities, and to promote economical, efficient, and adequate electric service to the public. In order to effect that public interest, the board may establish service areas within which specified electric utilities shall provide electric service to customers on an exclusive basis. Except for good cause expressed through formal public statement, the board shall establish these exclusive service areas on or before July 1, 1979. These exclusive service area boundaries shall be established by the board upon the following basis:

1 The service area boundaries shall be in a line approximately equidistant between the electric distribution lines of adjacent electric utilities as they existed on January 1, 1976, and as shown by the maps filed in accordance with this division. However, those boundaries may be modified by the board to promote the public interest, to preserve existing service areas and electric utilities' rights to serve existing customers, and to prevent unnecessary duplication of facilities, to take account of natural and physical barriers which would make electric service beyond these barriers uneconomic and impractical and those boundaries shall be modified by the board to take account of the contracts between electric utilities which have been approved by the board pursuant to subsection 2 of this section. When an electric utility's exclusive service area is established by the board to include existing customers presently served by the facilities of another electric utility, unless a voluntary exchange of facilities is agreed upon by the electric utilities involved and approved by the board, the board after notice and opportunity for hearing, shall require the purchase of those facilities presently serving these customers at a reasonable price to be determined by the board. The board, on its own motion or at the request of an electric utility or municipal corporation, after notice and opportunity for hearing, may modify the boundaries of

an electric utility exclusive service area which it has previously established if this modification, including consideration of the factors noted in this subsection, is found to be in the public interest

2 Contracts between electric utilities to designate service areas and customers to be served by the electric utilities or for the exchange of customers between electric utilities, when approved by the board, shall be valid and enforceable and shall be incorporated into the appropriate exclusive service areas established pursuant to subsection 1 of this section. The board shall approve a contract if it finds that the contract will eliminate or avoid unnecessary duplication of facilities, will provide adequate electric service to all areas and customers affected, will promote the efficient and economical use and development of the electric systems of the contracting electric utilities, and is in the public interest

3 An electric utility shall not serve or offer to serve electric customers in an exclusive service area assigned to another electric utility, nor shall an electric utility construct facilities to serve electric customers in an exclusive service area assigned to another electric utility. The state, an electric utility, or any other person who is injured or threatened with injury by conduct prohibited by this section may initiate a contested case proceeding with the board under chapter 17A. Upon finding a violation of this section the board shall order appropriate corrective action including discontinuance of the unlawful service to electric customers, removal of the unlawful facility, or other disposition the board deems just and reasonable

476.26 Effect of incorporation, annexation or consolidation.

The inclusion by incorporation, consolidation, or annexation of any facilities or service area of an electric utility within the boundaries of any city shall not by such inclusion impair or affect in any respect the rights of the electric utility to continue to provide electric utility service and to extend service to prospective customers in accordance with the provisions of this division

RULES

476.31 Continuing audit of operation.

The board shall adopt not later than July 1, 1983, rules and policies to implement a program for the continuous review of operations of rate regulated public utilities with respect to all matters that affect rates or charges for utility service

[81 Acts, ch 156, §1]

476.32 Review of annual reports.

The board shall review annual reports submitted by rate-regulated public utilities. The board shall commence rate-review proceedings under this chapter if an annual report indicates that the earnings of the public utility are excessive

[81 Acts, ch 156, §2]

476.33 Rules governing hearings.

1 The board shall adopt rules pursuant to chapter 17A to provide for the completion of proceedings under section 476.3 within ten months after the date of the filing of a complaint or petition under section 476.3, subsection 2, and to provide for the completion of proceedings under section 476.6 within ten months after the date of filing of the new or changed rates, charges, schedules or regulations under that section. These rules shall include reasonable time limitations for the submission or completion of comments and testimony, and exhibits, briefs and hearings, and may provide for the granting of additional time upon the request of a party to the proceeding or division staff for good cause shown.

2 Additional time granted to a party or to division staff under subsection 1 shall not extend the amount of time for which a utility is required to file a bond or other undertaking conditioned upon refund under section 476.3, subsection 2.

3 If in a proceeding under section 476.6 additional time is granted to a party or division staff under subsection 1, the board may extend the ten month period during which a utility is prohibited from placing its entire rate increase request into effect under section 476.6, but an extension shall not exceed the aggregate amount of all additional time granted under subsection 1.

4 The board shall adopt rules that require the board, in rate regulatory proceedings under sections 476.3 and 476.6, to consider the use of the most current test period possible in determining reasonable and just rates, subject only to the availability of existing and verifiable data respecting costs and revenues, and in addition to consider verifiable data that exists as of the date of commencement of the proceedings respecting known and measurable changes in costs not associated with a different level of revenue, and known and measurable revenues not associated with a different level of costs, that are to occur at any time within twelve months after the date of commencement of the proceedings. For purposes of this subsection, a proceeding commences under section 476.6 upon the filing date of new or changed rates, charges, schedules or regulations. This subsection does not limit the authority of the board to consider other evidence in proceedings under sections 476.3 and 476.6.

ALTERNATE ENERGY PRODUCTION FACILITIES

476.41 Purpose.

It is the policy of this state to encourage the development of alternate energy production facilities and small hydro facilities in order to conserve our finite and expensive energy resources and to provide for their most efficient use.

83 Acts, ch 182, §2

476.42 Definitions.

As used in this division, unless the context otherwise requires

1 "Alternate energy production facility" means any or all of the following

a A solar, wind turbine, waste management, resource recovery, refuse-derived fuel, or woodburning facility

b Land, systems, buildings, or improvements that are located at the project site and are necessary or convenient to the construction, completion, or operation of the facility

c Transmission or distribution facilities necessary to conduct the energy produced by the facility to users located at or near the project site

2 "Electric utility" means a public utility that furnishes electricity to the public for compensation

3 "Small hydro facility" means any or all of the following

a A hydroelectric facility at a dam

b Land, systems, buildings, or improvements that are located at the project site and are necessary or convenient to the construction, completion, or operation of the facility

c Transmission or distribution facilities necessary to conduct the energy produced by the facility to users located at or near the project site

83 Acts, ch 182, §3

476.43 Rates for alternate energy production facilities.

1 Subject to section 476.44, the board shall require electric utilities to enter into long term contracts to do the following

a Purchase or wheel electricity from alternate energy production facilities or small hydro facilities located in the utility's service area under the terms and conditions that the board finds are just and economically reasonable to the electric utilities' ratepayers, are nondiscriminatory to alternate energy producers and small hydro producers and will further the policy stated in section 476.41

b Provide for the availability of supplemental or backup power to alternate energy production facilities or small hydro facilities on a nondiscriminatory basis and at just and reasonable rates

2 Upon application by the owner or operator of an alternate energy production facility or small hydro facility or any interested party, the board shall establish for the affected public utility just and economically reasonable rates for electricity purchased under subsection 1, paragraph "a". The rates shall be established at levels sufficient to stimulate the development of alternate energy production and small hydro facilities in Iowa and to encourage the continuation of existing capacity from those facilities

3 The board shall base the rates for new facilities or new capacity from existing facilities on the following factors

a The estimated capital cost of the next generating plant, including related transmission facilities, to be placed in service by the electric utility serving the area

b The term of the contract between the electric utility and the seller

c A levelized annual carrying charge based upon the term of the contract and determined in a manner

consistent with both the methods and the current interest or return requirements associated with the electric utility's new construction program.

d. The electric utility's annual energy costs, including current fuel costs, related operation and maintenance costs, and other energy-related costs considered appropriate by the board.

4. The board shall consider the factors listed in subsection 3 in setting rates for existing facilities. However, the board may consider other factors and may establish a rate for existing facilities that is less than the rate established for new facilities if the board determines that a lower rate is sufficient to encourage small power production.

5. In the case of a utility that purchases all or substantially all of its electricity requirements, the rates established under this section must be equal to the current cost to the electric utility of similar types and quantities of electrical service.

6. In lieu of the other procedures provided by this section, an electric utility and an owner or operator of an alternate energy production facility or small hydro facility may enter into a long-term contract in accordance with subsection 1 and may agree to rates for purchase and sale transactions. A contract entered into under this subsection must be filed with the board in the manner provided for tariffs under section 476.4.

7. This section does not require an electric utility to construct additional facilities unless those facilities are paid for by the owner or operator of the affected alternate energy production facility or small hydro facility.

83 Acts, ch 182, §4, 7

476.44 Exceptions.

1. The board shall not require an electric utility to purchase or wheel electricity from an alternate energy production facility or small hydro facility unless the facility meets all of the following conditions:

a. Has an electric generating capacity of not more than eighty megawatts.

b. Is owned or operated by an individual, firm, co-partnership, corporation, company, association, joint stock association, city, town, or county that:

(1) Is not primarily engaged in the business of producing or selling electricity, gas, or useful thermal energy other than electricity, gas, or useful thermal energy sold solely from alternate energy production facilities or small hydro facilities.

(2) Does not sell electricity, gas, or useful thermal energy to residential users other than the tenants or the owner or operator of the facility.

2. The board shall not require an electric utility to purchase or wheel electricity from a small hydro facility unless the facility has an electric generating capacity of not more than eighty megawatts.

83 Acts, ch 182, §5

476.45 Exemption from excess capacity.

Capacity purchased from an alternate energy production facility or small hydro facility shall not be included in a calculation of an electric utility's excess generating capacity for rate-making purposes.

83 Acts, ch 182, §6

476.46 to 476.50 Reserved.

PENALTY

476.51 Civil penalty.

A public utility which willfully violates a provision of this chapter, a rule adopted by the board, or a provision of an order lawfully issued by the board, is subject to a civil penalty, which may be levied by the board, of not more than one hundred dollars per violation or one thousand dollars per day of a continuing violation, whichever is greater. Civil penalties collected pursuant to this section shall be forwarded by the executive secretary of the board to the treasurer of state to be credited to the energy research and development fund and to be used only for the low income home energy assistance program and the weatherization assistance program administered by the energy policy council. Penalties paid by a rate-regulated public utility pursuant to this section shall be excluded from the utility's costs when determining the utility's revenue requirement, and shall not be included either directly or indirectly in the utility's rates or charges to customers.

83 Acts, ch 127, §34

POLICIES

476.52 Management efficiency.

It is the policy of this state that a public utility shall operate in an efficient manner. If the board determines in the course of a proceeding conducted under section 476.3 or 476.6 that a utility is operating in an inefficient manner, or is not exercising ordinary, prudent management, or in comparison with other utilities in the state the board determines that the utility is performing in a less beneficial manner than other utilities, the board may reduce the level of profit or adjust the revenue requirement for the utility to the extent the board believes appropriate to provide incentives to the utility to correct its inefficient operation. If the board determines in the course of a proceeding conducted under section 476.3 or 476.6 that a utility is operating in such an extraordinarily efficient manner that tangible financial benefits result to the ratepayer, the board may increase the level of profit or adjust the revenue requirement for the utility. The board shall adopt rules for determining the level of profit or the revenue requirement adjustment that would be appropriate.

The board shall also adopt rules establishing a methodology for an analysis of a utility's management efficiency.

83 Acts, ch 127, §35

476.53 Excess capacity.

It is the intent of the general assembly of the state of Iowa to provide for the development of a fair resolution concerning the allocation of costs associated with excess electric generating capacity. It is the policy of this state that it is in the public interest that public utilities subject to rate regulation, at a minimum, be prohibited from including either directly or indirectly in their charges or rates to customers the return on

common equity associated with excess electric generating capacity, however this shall not apply to rural electric cooperatives. The board shall not allow a return on common equity on that portion of a public utility's electric generating capacity which is determined to be excess electric generating capacity. Excess electric generating capacity is that portion of the public utility's electric generating capacity which exceeds the amount reasonably necessary to provide adequate and reliable service as determined by the board.

Electric generating capacity sold pursuant to the terms of contracts entered into between June 28, 1978 and June 30, 1978 for power delivered on or before May 1, 1983 to May 1, 1993, shall not be included in the determination of excess electric generating capacity.

Electric generating capacity purchased from qualifying cogeneration and small power production facilities shall not be included in the determination of excess electric generating capacity.

83 Acts, ch 127, §36, 50

476.54 Delayed payment charges.

A public utility shall not apply delayed payment charges on a customer's account if the scheduled payment was made by the customer within twenty days from the date the billing was sent to the customer. Delayed payment charges on a customer's account shall not exceed one and one half percent per month of the past due amount.

83 Acts, ch 127, §37

476.55 Complaint of antitrust activities.

An application for new or changed rates, charges, schedules or regulations filed under this chapter, or an application for a certificate or an amendment to a certificate submitted under chapter 476A, by an electric transmission line utility or a gas pipeline utility or a subsidiary of either shall not be approved by the board if, upon complaint by an Iowa electric or gas utility, the board finds activities which create or maintain a situation inconsistent with antitrust laws and the policies which underlie them. The board may grant the rate or facility certification request once it determines that those activities which led to the antitrust complaint have been eliminated. However, this subsection does not apply to an application for new or

changed rates, charges, schedules or regulations after the expiration of the ten month limitation and applicable extensions.

a That the results of the audit shall not be disclosed to any other person, except as permitted in subsection 2.

b That the results of the audit are available to any person engaged in the business of making or providing energy conservation improvements or services who requests the information whether the request is made for the customer individually or the request is made for the customer as a class.

2 The results of an audit conducted under the I-SAVE program or the CACS program shall be made available, upon request, to a person who states in writing that the person is a prospective purchaser of the facility audited.

3 The public utility shall make results of the energy audits available consistent with this section.

Transmission lines subject to the provisions of this chapter shall not require a franchise under chapter 478.

2 *“Certificate”* means a certificate of public convenience, use and necessity issued pursuant to section 476A 6.

3 *“Commence to construct”* means significant alteration of a site to install permanent equipment or structures but does not include activities incident to preliminary engineering, environmental studies or acquisition of a site for a facility.

4 *“Agency”* means an agency as defined in section 17A 2, subsection 1.

5 *“Regulatory agency”* means an agency which issues licenses or permits required for the construction, operation or maintenance of a facility pursuant to statutes or rules in effect on the date on which an application for a certificate is accepted by the utilities board.

6 *“Board”* means the utilities board within the utilities division of the department of commerce.
 [C77, 79, 81, §476A 1]

476A.2 Certificate required.

1 Commencing January 1, 1977, a person shall not commence to construct a facility except as provided in section 476A 9 unless a certificate for the facility has been issued by the board. This chapter shall not apply to persons who prior to July 1, 1976

- a Have acquired a site for a facility, and,
- b Have publicly announced the intention to construct a facility, and,
- c Have let contracts for major components of a facility.

2 Any significant alteration, as determined by the board, in the location, construction, maintenance, or operation of a facility whether constructed before or after July 1, 1976 shall require an application for an amendment to a certificate or a certificate, whichever is appropriate. *“Significant alteration”* shall include but shall not be limited to a change in the type of fuel used by the major electric generating facility.

3 Any person required to obtain a certificate or an amendment to a certificate shall construct, operate and maintain the facility according to the terms of the certificate and any amendments to the certificate. A certificate shall only be issued pursuant to this chapter.

[C77, 79, 81, §476A 2]

476A.3 Application submitted — review.

An application for a certificate or an amendment to a certificate shall be submitted to the board on such forms as the board may prescribe. Copies of the application shall be forwarded to regulatory agencies. Regulatory agencies receiving a copy of the application shall conduct a preliminary review of the contents and shall evaluate the application for completeness and compliance with the regulatory agency's permit and licensing requirements within a reasonable amount of time.

[C77, 79, 81, §476A 3]

476A.4 Hearing scheduled — notice.

1 The proceeding for the issuance of a certificate or an amendment to a certificate shall be treated in the same manner as a contested case pursuant to the provisions of chapter 17A. Upon acceptance of an application by the board, a public hearing shall be scheduled.

2 The board shall serve notice of the proceeding on the following:

- a Interested agencies, as determined by the board, and regulatory agencies.
- b County and city zoning authorities from the area in which the proposed site is located.
- c Owners of record of real property located within one thousand linear feet of the proposed site.

3 Notice of the proceeding in the form provided in section 17A 12, subsection 2, shall be published in a newspaper of general circulation in each county in which the proposed site is located once a week for two consecutive weeks with the second publication being at least twenty days prior to the date of the hearing. The board shall be responsible for publication and delivery of notices required by this section.

4 The board shall conduct the hearing, as described in subsection 1, in the county in which the construction of the greater portion of the facility is being proposed.

[C77, 79, 81, §476A 4]

476A.5 Proceeding — role of regulatory agencies and local authorities.

1 The board shall conduct the contested case proceeding. Regulatory agencies which appear on record at the proceeding shall state whether the application meets their permit and licensing requirements. If the application does not meet such requirements, the regulatory agency shall recommend amendments to the application which outline actions necessary to bring the applicant in compliance with the regulatory agency's permit and licensing requirements. The board shall not issue a certificate for a facility which does not meet the permit and licensing requirements of a regulatory agency.

2 If a regulatory agency which received notice pursuant to section 476A 4 fails to appear on record in the contested case proceeding, the board shall conclusively presume that the facility meets the regulatory agency's permit and licensing requirements and the regulatory agency shall immediately issue any license.

or permit required for the construction, operation or maintenance of the facility

3 City and county zoning authorities designated as parties to the proceeding may appear on record and may state whether the facility meets city, county and airport zoning requirements. The failure of a facility to meet zoning requirements established pursuant to chapters 329, 358A and 414 shall not preclude the board from issuing the certificate and to that extent the provisions of this subsection shall supersede the provisions of chapters 329, 358A and 414

[C77, 79, 81, §476A 5]

476A.6 Decision — criteria.

The board shall render a decision on the application in an expeditious manner. A certificate shall be issued to the applicant if the board finds all of the following

1 The services and operations resulting from the construction of the facility are required by the present or future public convenience, use and necessity

2 The applicant is willing to perform such services and construct, maintain, and operate the facility pursuant to the provisions of the certificate and this chapter

3 The construction, maintenance, and operation of the facility will cause minimum adverse land use, environmental, and aesthetic impact and are consonant with reasonable utilization of air, land and water resources for beneficial purposes considering available technology and the economics of available alternatives

4 The applicant has in effect a comprehensive energy management program designed to reduce peak loads and to increase efficiency of use of energy by all classes of customers of the utility, and the facility in the application is necessary notwithstanding the existence of the comprehensive energy management program. As used in this subsection, a “comprehensive energy management program” includes at a minimum the following

a Establishment of load management and interruptible service programs, where cost effective

b Development of wheeling agreements and other energy sharing agreements, where cost effective with utilities that have available capacity

c Establishment of cost-effective energy conservation and renewable energy services and programs

d Compliance with board rules on energy management procedures

5 The applicant has considered all feasible alternatives to the proposed facility including nongeneration alternatives, has ranked those alternatives by cost, has implemented the least-cost alternatives first, and the facility in the application is necessary notwithstanding the implementation of these alternatives

[C77, 79, 81, §476A 6]

83 Acts, ch 127, §39

476A.7 Issuance of certificate — effect.

1 Issuance of a certificate by the board

a Authorizes construction of the facility on the site designated in the certificate according to the terms and conditions stated in the certificate and licenses and permits issued by regulatory agencies during the proceeding, and,

b Gives the applicant the power of eminent domain to the extent and under such conditions as the board may approve, prescribe and find necessary for the public convenience, use and necessity, proceeding in the manner of works of internal improvement under chapter 472. The burden of proving the necessity for the exercise of the power of eminent domain shall be on the person issued the certificate

2 A certificate may be transferred, subject to the approval of the board, to a person who agrees to comply with the terms of the certificate including any amendments to the certificate. Certificates shall be transferable by operation of law to any receiver, trustee or similar assignee under a mortgage, deed of trust or similar instrument

[C77, 79, 81, §476A 8]

476A.9 Advance site preparation.

Subsequent to the hearing held pursuant to section 476A 5 and in the event of extensive delay in the issuance of a certificate, the board may permit an applicant having an application docketed for hearing to begin work to prepare the site for construction of the facility. Any activities conducted pursuant to this section shall have no probative value in the board’s decision concerning the actual issuance of a certificate

[C77, 79, 81, §476A 9]

476A.10 Costs of proceeding.

The applicant for a certificate, or an amendment to certificate, shall pay all the costs and expenses incurred by the division in reaching a decision on the application including the costs of examinations of the site, the hearing, publishing of notice, division staff salaries, the cost of consultants employed by the division, and other expenses reasonably attributable to the proceeding

[C77, 79, 81, §476A 10]

Notwithstanding the provisions of chapter 17A

1 Any proceeding or oral presentation held on an application for a certificate or an amendment to a certificate shall be held in lieu of any other proceeding or oral presentation required for a license or permit necessary for the construction, maintenance or operation of a facility

2 The decision of the board shall be considered a single agency action. The agency action shall be subject to judicial review in the manner provided in chapter 17A

3 Only parties to the proceeding before the board may seek judicial review of the final order of the board

[C77, 79, 81, §476A 11]

476A.12 Rules.

The board shall adopt rules pursuant to chapter 17A

necessary to implement the provisions of this chapter including but not limited to the promulgation of facility siting criteria, the form for an application for a certificate and an amendment to a certificate, the description of information to be furnished by the applicant, the determination of what constitutes a significant alteration to a facility, and the establishment of minimum guidelines for public participation in the proceeding

[C77, 79, 81, §476A 12]

476A.13 Staff assistance — federal pre-emption.

1 The board may request staff assistance from other federal, state and local agencies, pursuant to chapter 28D, to assist in discharging the responsibilities assigned to the board pursuant to this chapter. The board may exercise the powers and responsibilities assigned to the board under this chapter jointly with other governmental agencies pursuant to chapter 28E

When concurrent jurisdiction exists with certain powers reserved to the state, the state shall exercise those powers with respect to facilities operating within this state to the full extent permitted by the Constitution and the laws of the United States

[C77, 79, 81, §476A 13]

476A.14 Penalties.

478.1 Franchise.

A person shall not construct, erect, maintain, or operate a transmission line, wire, or cable which operates at an electric voltage of thirty-four and one-half kilovolts or more along, over, or across any public highway or grounds outside of cities for the transmission, distribution, or sale of electric current, without first procuring from the utilities board within the utilities division of the department of commerce a franchise granting authority as provided in this chapter.

If the transmission line, wire, or cable operates at an electric voltage of less than thirty-four and one-half kilovolts, no franchise is required. However, the utilities

board shall retain jurisdiction over all such lines, wires or cables and shall prescribe the contents of a written notice and map to be timely provided to the board and affected parties including owners of electric supply lines located within six-tenths of one mile of proposed construction of such lines, wires or cables. A person who seeks to construct, erect, maintain or operate a transmission line, wire or cable which will operate at an electric voltage of less than thirty-four and one-half kilovolts outside of cities and which cannot secure the necessary voluntary easements to do so may petition the board pursuant to section 478.3, subsection 1 for a franchise granting authority for such con-

struction, erection, maintenance or operation, and for the use of the right of eminent domain

[S13, §1527-c, 2120 n, C24, 27, 31, 35, 39, §8309; C46, 50, 54, 58, 62, 66, 71, 73, 75, §489 1, C77, 79, 81, §478 1]

478.2 Petition for franchise — informational meetings held.

Any person, corporation, or company authorized to transact business in the state including cities may file a verified petition asking for a franchise to erect, maintain, and operate a line or lines for the transmission, distribution, use, and sale of electric current outside cities and for such purpose to erect, use, and maintain poles, wires, guy wires, towers, cables, conduits, and other fixtures and appliances necessary for conducting electric current for light, heat, or power over, along, and across any public lands, highways, streams, or the lands of any person, company, or corporation, and to acquire necessary interests in real estate for such purposes

As conditions precedent to the filing of a petition with the utilities board requesting a franchise for a new transmission line, and not less than thirty days prior to the filing of such petition, the person, company, or corporation shall hold informational meetings in each county in which real property or rights therein will be affected. A member of the board, the counsel of the board, or a hearing examiner designated by the board shall serve as the presiding officer at each meeting and present an agenda for such meeting which shall include a summary of the legal rights of the affected landowners. No formal record of the meeting shall be required

The meeting shall be held at a location reasonably accessible to all persons, companies, or corporations which may be affected by the granting of the franchise

The person, company, or corporation seeking the franchise for a new transmission line shall give notice of the informational meeting to each person, company, or corporation determined to be the landowner affected by the proposed project and any person, company or corporation in possession of or residing on the property. For the purposes of this section, "landowner" means a person, company, or corporation listed on the tax assessment rolls as responsible for the payment of real estate taxes imposed on the property and "transmission line" means any line carrying thirty-four point five kilovolts or more and extending a distance of not less than one mile across privately owned real estate

The notice shall set forth the name of the applicant, state the applicant's principal place of business, state the general description and purpose of the proposed project, state the general nature of the right of way desired, provide a map showing the route of the proposed project, advise that the landowner has the right to be present at such meetings and to file objections with the utilities board, designate the place and time of the meeting, be served not less than thirty days prior to the time set for the meeting by certified mail with return receipt requested, and be published once in a newspaper of general circulation in the county at least one week and not more than three weeks before the time of the meeting and such publication shall be considered notice to landowners whose residence is not known

No person, company, or corporation seeking rights under this chapter shall negotiate or purchase any easements or other interests in land in any county known to be affected by the proposed project prior to the informational meeting

[S13, §2120 n, C24, 27, 31, 35, 39, §8310; C46, 50, 54, 58, 62, 66, 71, 73, 75, §489 2, C77, 79, 81, §478 2]

478.3 Petition — requirements.

1 All petitions shall set forth

- a The name of the individual, company, or corporation asking for the franchise
- b The principal office or place of business
- c The starting points, routes, and termini of the proposed lines, accompanied with a map or plat showing such details
- d A general description of the public or private lands, highways, and streams over, across, or along which any proposed line will pass
- e General specifications as to materials and manner of construction
- f The maximum voltage to be carried over each line

g Whether or not the exercise of the right of eminent domain will be used and, if so, a specific reference to the lands described in paragraph "d" which are sought to be subject thereto

h An allegation that the proposed construction is necessary to serve a public use

2 Petitions for transmission lines carrying thirty four point five kilovolts or more and extending a distance of not less than one mile across privately owned real estate shall also set forth an allegation that the proposed construction represents a reasonable relationship to an overall plan of transmitting electricity in the public interest and substantiation of such allegations, including but not limited to, a showing of the following

- a The relationship of the proposed project to present and future economic development of the area
- b The relationship of the proposed project to comprehensive electric utility planning
- c The relationship of the proposed project to the needs of the public presently served and future projections based on population trends
- d The relationship of the proposed project to the existing electric utility system and parallel existing utility routes
- e The relationship of the proposed project to any other power system planned for the future
- f The possible use of alternative routes and methods of supply
- g The relationship of the proposed project to the present and future land use and zoning ordinances
- h The inconvenience or undue injury which may result to property owners as a result of the proposed project

The utilities board may waive the proof required for such allegations which are not applicable to a particular proposed project

The petition shall contain an affidavit stating that informational meetings were held in each county which the proposed project will affect and the time and place of each meeting

[S13, §2120-n, C24, 27, 31, 35, 39, §8311; C46, 50, 54, 58, 62, 66, 71, 73, 75, §489 3, C77, 79, 81, §478 3]

478.4 Franchise — hearing.

The utilities board shall consider said petition and any objections filed thereto in the manner hereinafter provided. It shall examine the proposed route or cause any engineer selected by it to do so. If a hearing is held on the petition it may hear such testimony as may aid it in determining the propriety of granting such franchise. It may grant such franchise in whole or in part upon such terms, conditions, and restrictions, and with such modifications as to location and route as may seem to it just and proper. Before granting such franchise, the utilities board shall make a finding that the proposed line or lines are necessary to serve a public use and represents a reasonable relationship to an overall plan of transmitting electricity in the public interest. No franchise shall become effective until the petitioners shall pay, or file an agreement to pay, all costs and expenses of the franchise proceeding, whether or not objections are filed, including costs of inspections or examinations of the route, hearing, salaries, publishing of notice, and any other expenses reasonably attributable thereto. The funds received for the costs and the expenses of the franchise proceeding shall be remitted to the treasurer of state for deposit in the general fund of the state.

478.5 Notice — objections filed.

Upon the filing of such petition, the utilities board shall cause a notice, addressed to the citizens of each county through which the proposed line or lines will extend, to be published in a newspaper located in each such county for two consecutive weeks. Said notice shall contain a general statement of the contents and purpose of the petition, a general description of the lands and highways to be traversed by the proposed line or lines, and shall state that any objections thereto must be filed in writing with the board not later than twenty days after the date of last publication of the notice. Any person, company, city or corporation whose rights may be affected, shall have the right to file written objections to the proposed improvement or to the granting of such franchise; such objections shall be filed with the board not later than twenty days after the date of last publication and shall state the grounds therefor. The board may allow objections to be filed later in which event the applicant must be given reasonable time to meet such late objections.

[S13, §2120-n; C24, 27, 31, 35, 39, §8312, 8313; C46, 50, 54, 58, 62, §489.4, 489.5; C66, 71, 73, 75, §489.5; C77, 79, 81, §478.5]

478.6 Taking under eminent domain.

Upon the filing of objections or when a petition involves the taking of property under the right of eminent domain the utilities board shall set the matter for hearing and fix a time and place for the hearing. The hearing shall be not less than thirty days from the date of last publication and where a new proposed transmission line exceeds one mile in length, shall be held in the county seat of the county located at the midpoint of the proposed electric transmission line. Written notice of the time and place of the hearing shall be served by the board, by ordinary mail, on the appli-

cant, and those having filed objections. If no objections are filed and the petition does not involve the taking of property under the right of eminent domain the board may grant a franchise without a hearing; however, the board may conduct a hearing if the board deems it necessary.

Where a petition seeks the use of the right of eminent domain over specific parcels of real property, the board shall prescribe the notice to be served upon the owners of record and parties in possession of said property over which the use of the right of eminent domain is sought.

When the board grants a franchise to any person, company, or corporation for the construction, erection, maintenance, and operation of transmission lines, wires, and cables for the transmission of electricity, such person, company, or corporation shall be vested with the power of condemnation to such extent as the board may approve and find necessary for public use.

478.7 Form of franchise.

The general counsel for the utilities board shall prepare a blank form of franchise, which shall provide space for a general description of the improvement authorized, the name and address of the person or corporation to whom granted, the general terms and conditions upon which the franchise is granted, and other things as necessary. This blank form shall be filled out and signed by the chairperson of the utilities board which grants the franchise, and the official seal shall be attached. The franchise is subject to regulations and restrictions as the general assembly prescribes, and to rules, not inconsistent with statutes, as the utilities board may establish.

478.8 Valuation of franchise.

No financial consideration shall be charged for such franchise. In fixing the value for rate-making purposes of the property of any person, company, or corporation owning it or operating under it no account shall be taken of, and no increased value shall be allowed for, any such franchise, except that the reasonable cost to the petitioners of obtaining said franchise may be included in the cost of constructing said line.

478.9 Exclusive rights — duration of franchise.

No exclusive right shall ever be given by franchise or otherwise to any person, company, corporation or city to conduct electrical energy, or to place electric wires, along or over or across any public highway or public place or ground; and no franchise or privilege shall ever be granted for any such purpose for a longer period than twenty-five years.

[C24, 27, 31, 35, 39, §8316; C46, 50, 54, 58, 62, §489.8; C66, 71, 73, 75, §489.9; C77, 79, 81, §478.9]

478.10 Franchise transferable — notice.

When any such electric transmission line or lines are sold and transferred either by voluntary or judicial sale, such transfer shall carry with it the franchise under which the said improvement is owned, maintained, or operated. If a transfer of such franchise is made before the improvement for which it was issued is constructed, in whole or in part, such transfer shall not be effective till the person, company, or corporation to whom it was issued shall file in the office of the utilities board granting the franchise a notice in writing stating the date of such transfer and the name and address of the transferee

[C24, 27, 31, 35, 39, §8317; C46, 50, 54, 58, 62, §489 9, C66, 71, 73, 75, §489 10, C77, 79, 81, §478 10]

478.11 Record of franchises.

The utilities board shall keep a record of all such franchises granted and issued by it, when and to whom issued, with a general statement of the location, route, and term of the transmission line or lines covered thereby. When any transfer of such franchise has been made as provided in this chapter, the board shall also make note upon its record of the date of such transfer and the name and address of the transferee

[C24, 27, 31, 35, 39, §8318; C46, 50, 54, 58, 62, §489 10, C66, 71, 73, 75, §489 11, C77, 79, 81, §478 11]

478.12 Acceptance of franchise.

Any person, company, or corporation obtaining a franchise as in this chapter provided, or owning or operating under one, shall be conclusively held to an acceptance of the provisions thereof and of all laws relating to the regulation, supervision, or control thereof which are now in force or which may be hereafter enacted, and to have consented to such reasonable regulation as the utilities board may, from time to time, prescribe. The provisions of this chapter shall apply equally to assignees as well as to original owners

[S13, §2120-p, C24, 27, 31, 35, 39, §8319; C46, 50, 54, 58, 62, §489 11, C66, 71, 73, 75, §489 12, C77, 79, 81, §478 12]

478.13 Extension of franchise — public notice.

Any person, firm, or corporation owning a franchise granted under this chapter or previously existing law, desiring to acquire extensions of such franchise, may petition the utilities board in the manner provided for the granting of a franchise and the same proceeding shall be had as on an original application, including the assessing of costs provided by section 478 4 except that in the event the extension of franchise is sought for all lines in a given county or counties the published notice need not contain a general description of the lands and highways traversed by the lines, but in lieu thereof the petitioner may have on file at its offices in the county or counties affected a current, accurate map showing the location of the lines for which the franchise extension is sought, said map to be available for examination by any interested party, and the public notice shall advise the citizens of the county or counties affected of the location and availability of such map. If this alternate procedure is not followed then the publication of the description of the lands and highways traversed by the lines shall be done in the manner as in an original application for franchise. In

any event an extension under this section will be granted only for a valid, existing franchise and the lands, roads or streams covered thereby over, through or upon which electric transmission lines have in fact been erected or constructed and are in use or operation at the time of the application for extension of franchise. Such petition shall be accompanied by the written consent of the applicant that the provisions of all laws relating to public utilities, franchises, and transmission lines, or to the regulation, supervision, or control thereof which are then in force or which may be hereafter enacted shall apply to its existing line or lines, franchises, and rights with the same force and effect as if such franchise had been granted or such lines had been constructed or rights had been obtained under the provisions of this chapter

[S13, §2120-o, C24, 27, 31, 35, 39, §8320; C46, 50, 54, 58, 62, §489 12, C66, 71, 73, 75, §489 13, C77, 79, 81, §478 13]

478 14 Service furnished.

Any city which owns or operates a system for the distribution of electric light or power, and which has obtained electric energy for such distribution from any person or firm or corporation owning or operating an electric light and power plant or transmission line, shall be entitled to have the service reasonably needed by such municipality and its patrons continued at and for a reasonable rate and charge and under reasonable rules of service

It shall be unlawful for the owner or operator of such light and power plant or transmission line to disconnect or discontinue such service (except during non payment of reasonable charges) so long as such operator holds or enjoys any franchise to go upon or use any public streets, highways, or grounds

Until the municipality and the operator shall agree upon a rate or charge for such service the municipality shall pay and the operator shall accept the rate provided in the expired contract if any existed, and if none existed then the rate before paid. This shall be without prejudice, however, to the right of either party to test in court or before any lawfully constituted rate making tribunal the reasonableness of such rate

This section shall not apply if the original service to the municipality was given in case of emergency or for any other temporary purpose

[C24, 27, 31, 35, 39, §8321; C46, 50, 54, 58, 62, §489 13, C66, 71, 73, 75, §489 14, C77, 79, 81, §478 14]

478.15 Eminent domain — procedure — entering on land — reversion on nonuse.

Any person, company, or corporation having secured a franchise as provided in this chapter, shall thereupon be vested with the right of eminent domain to such extent as the utilities board may approve, prescribe and find to be necessary for public use, not exceeding one hundred feet in width for right of way and not exceeding one hundred sixty acres in any one location, in addition to right of way, for the location of electric substations to carry out the purposes of said franchise, provided however, that where two hundred K V lines or higher voltage lines are to be constructed, the person, company, or corporation may apply to the board for a wider right of way not to exceed two hundred feet, and the board may for good cause extend

the width of such right of way for such lines to the person, company, or corporation applying for the same. The burden of proving the necessity for public use shall be on the person, company or corporation seeking the franchise. A homestead site, cemetery, or church or schoolhouse location shall not be condemned for the purpose of erecting an electric substation. If agreement cannot be made with the private owner of lands as to damages caused by the construction of said transmission line, or electric substations, the same proceedings shall be taken as provided for taking private property for works of internal improvement.

Any person, company or corporation proposing to construct a transmission line or other facility which involves the taking of property under the right of eminent domain and desiring to enter upon the land, which it proposes to appropriate, for the purpose of examining or surveying the same, shall first file with the utilities board, a written statement under oath setting forth the proposed routing of the line or facility including a description of the lands to be crossed, the names and addresses of owners, together with request that a permit be issued by said board authorizing said person, company or corporation or its duly appointed representative to enter upon the land for the purpose of examining and surveying and to take and use thereon any vehicle and surveying equipment necessary in making the survey. Said board shall within ten days after said request issue a permit, accompanied by such bond in such amount as the board shall approve, to the person, company or corporation making said application, if in its opinion the application is made in good faith and not for the purpose of harassing the owner of the land. If the board is of the opinion that the application is not made in good faith or made for the purpose of harassment to the owner of said land it shall set the matter for hearing and it shall be heard not more than twenty days after filing said application. Notice of the time and place of hearing shall be given by said board, to the owner of said land by registered mail with a return receipt requested, not less than ten days preceding date of hearing.

Any person, company or corporation that has obtained a permit in the manner herein prescribed may enter upon said land or lands, as above provided, and shall be liable for actual damages sustained in connection with such entry. An action in damages shall be the exclusive remedy.

If an electric transmission line right of way, or any part thereof, is wholly abandoned for public utility purposes by the relocation of the transmission lines, is not used or operated for a period of five years, or if its construction has been commenced and work has ceased and has not in good faith been resumed for five years, the right of way shall revert to the person or persons who, at the time of the abandonment or reversion, are the owners of the tract from which such right of way was taken. Following such abandonment of right of way, the owner or holder of purported fee title to such real estate may serve notice upon the owner of such right of way easement, or the owner's successor in interest, and upon any party in possession of said real estate, a written notice which shall (1) accurately describe the real estate in question, (2) set out the facts concerning ownership of the fee, ownership of the right of way easement, and the period of abandon-

ment, and (3) notify said parties that such reversion shall be complete and final, and that the easement or other right shall be forfeited, unless said parties shall, within one hundred twenty days after the completed service of notice, file an affidavit with the county recorder of the county in which the real estate is located disputing the facts contained in said notice.

Said notice shall be served in the same manner as an original notice under the Iowa rules of civil procedure, except that when notice is served by publication no affidavit therefor shall be required before publication. If no affidavit disputing the facts contained in the notice is filed within one hundred twenty days, the party serving the notice may file for record in the office of the county recorder a copy of the notice with proofs of service attached thereto or endorsed thereon, and when so recorded, the record shall be constructive notice to all persons of the abandonment, reversion, and forfeiture of such right of way.

478 17 Access to lines — damages.

Individuals or corporations operating such transmission lines shall have reasonable access to the same for the purpose of constructing, reconstructing, enlarging, repairing, or locating the poles, wires, or construction and other devices used in or upon such line, but shall pay to the owner of such lands and of crops thereon all damages to said lands or crops caused by entering, using, and occupying said lands for said purposes. Nothing herein contained shall prevent the execution of an agreement between the person or company owning or operating such line and the owner of said land or crops with reference to the use thereof.

478 18 Supervision of construction — location.

The utilities board shall have power of supervision over the construction of said transmission line and over its future operation and maintenance. Said transmission line shall be constructed near and parallel to the right of way of the railways of the state or along the division lines of the lands, according to the government survey thereof, wherever the same is practicable and reasonable, and so as not to interfere with the use by the public of the highways or streams of the state, nor unnecessarily interfere with the use of any lands by the occupant thereof.

478.19 Manner of construction.

Such lines shall be built of strong and proper wires attached to strong and sufficient supports properly insulated at all points of attachment, all wires, poles, and other devices which by ordinary wear or other causes are no longer safe shall be removed and re-

placed by new wires, poles, or other devices, as the case may be, and all abandoned wires, poles, or other devices shall be at once removed. Where wires carrying current are carried across, either above or below wires used for other service, the said transmission line shall be constructed in such manner as to eliminate, so far as practicable, damages to persons or property by reason of said crossing. There shall also be installed sufficient devices to automatically shut off electric current through said transmission line whenever connection is made whereby current is transmitted from the wires of said transmission line to the ground, and there shall also be provided a safe and modern improved device for the protection of said line against lightning. The utilities board shall have power to make and enforce such further and additional rules relating to location, construction, operation and maintenance of said transmission line as may be reasonable.

All transmission lines, wires or cables outside of cities for the transmission, distribution or sale of electric current at any voltage shall be constructed and maintained in accordance with standards adopted by rule by the utilities board.

478.20 Distance from buildings.

No transmission line shall be constructed, except by agreement, within one hundred feet of any dwelling house or other building, except where said line crosses or passes along a public highway or is located alongside or parallel with the right of way of any railway company. In addition to the foregoing, each person, company, or corporation shall conform to any other rules, regulations, or specifications established by the utilities board, in the construction, operation, or maintenance of such lines.
