PREFACE TO 1991 IOWA CODE SUPPLEMENT

This 1991 Iowa Code Supplement shows sections of the laws of Iowa enacted, amended, repealed, or otherwise affected by the 1991 regular session of the Iowa General Assembly, arranged in the numerical sequence followed by the 1991 Iowa Code. However, it does not show temporary sections, such as appropriation sections, which are not to be codified.

EFFECTIVE DATES. Except as otherwise indicated in the text or in a footnote, the new sections, amendments, and repeals were effective on or before July 1, 1991. See the 1991 Iowa Acts to determine specific effective dates not shown.

NOTES. A source note following each new or amended section refers to the bill file number and the appropriate chapter and section number in the Iowa Acts where the new section or amendment can be found in the form it had upon passage. Repeals are indicated in the form used in the 1991 Code. Following the source note or repeal may be a footnote. A footnote to an amended section usually refers only to the amended part and not necessarily to the entire section as printed. Many of the footnotes from the 1991 Code are not included but will be corrected as necessary and appear in the 1993 Code. Following the source note or footnote for a new or amended section is an explanatory note to indicate whether the section or a part of it is new, or was amended, stricken, stricken and rewritten, or renumbered.

EDITORIAL DECISIONS. If there were multiple amendments to a section or part of a section, all changes that were duplicative or otherwise did not appear to conflict were harmonized as required under section 4.11 of the Code. It was generally assumed that a strike or repeal prevailed over an amendment to the same material and did not create an irreconcilable conflict, and that the substitution of the correct title of an officer or department as authorized by law did not create a conflict. At the end of this Supplement are Code editor's notes which explain the major editorial decisions. Section 14.13 of the 1991 Code governs the ongoing revision of gender references, authorizes other editorial changes, and provides for the effective date of the changes.

INDEX AND TABLES. A subject matter index to new or amended sections, a table of the disposition of the 1991 Acts, and a table of corresponding sections from the 1991 Code to the 1991 Code Supplement also appear at the end of this Supplement.

RETENTION OF CODE SUPPLEMENT VOLUMES. Users who maintain libraries of previous years' biennial hardbound Codes of Iowa should also retain the Iowa Code Supplement volumes, as the Code Supplements contain Code editor's notes, footnotes, and other aids which are not included in the subsequent hardbound Code.

Because the Iowa General Assembly meets annually, the Supplement also serves as the only record of the original codification of statutes enacted in the odd-numbered year if those statutes are amended or repealed in the next even-numbered year.

However, any increase from time to time in the mileage rate established by section 18.117 shall not become effective for members of the general assembly until the convening of the next general assembly following the session in which the increase is adopted; and this provision shall prevail over any inconsistent provision of any present or future statute.

The presiding officers of the two houses of the general assembly shall jointly certify to the director of revenue and finance the names of the members, officers, and employees of their respective houses and the salaries and mileage to which each is entitled. Travel and expense allowances shall be paid upon the submission of vouchers to the director of revenue and finance indicating a claim for the same.

6. In addition to the salaries and expenses authorized by this section, members of the general assembly shall be paid fifty dollars per day, and necessary

travel and actual expenses incurred in attending meetings for which per diem or expenses are authorized by law for members of the general assembly who serve on statutory boards, commissions, or councils, and for standing or interim committee or subcommittee meetings subject to the provisions of section 2.14, or when on authorized legislative business when the general assembly is not in session. However, if a member of the general assembly is engaged in authorized legislative business at a location other than at the seat of government during the time the general assembly is in session, payment may be made for the actual transportation and lodging costs incurred because of the business. Such per diem or expenses shall be paid promptly from funds appropriated pursuant to section 2.12.

7. If a special session of the general assembly is convened, members of the general assembly shall receive, in addition to their annual salaries, the sum of fifty dollars per day for each day the general assembly is actually in special session, and the same travel allowances and expenses as authorized by this section. The notice shall include a statement of either the terms or substance of the intended action or a description of the subjects and issues involved, and the time when, the place where, and the manner in which interested persons may present their views.

b. Afford all interested persons not less than twenty days to submit data, views or arguments in writing. If timely requested in writing by twenty-five interested persons, by a governmental subdivision, by the administrative rules review committee, by an agency, or by an association having not less than twenty-five members, the agency must give interested persons an opportunity to make oral presentation. The opportunity for oral presentation must be held at least twenty days after publication of the notice of its time and place in the Iowa administrative bulletin. The agency shall consider fully all written and oral submissions respecting the proposed rule. Within one hundred eighty days following either the notice published according to the provisions of subsection 1, paragraph "a" or within one hundred eighty days after the last date of the oral presentations on the proposed rule, whichever is later, the agency shall adopt a rule pursuant to the rulemaking proceeding or shall terminate the proceeding by publishing notice of termination in the Iowa administrative bulletin. If requested to do so by an interested person, either prior to adoption or within thirty days thereafter, the agency shall issue a concise statement of the principal reasons for and against the rule it adopted, incorporating therein the reasons for overruling considerations urged against the rule.

c. Upon the request of at least two members of the administrative rules review committee publish in the Iowa administrative bulletin an estimate of the economic impact of a proposed rule upon all persons affected by it and upon the agency itself. If the agency determines that such an estimate cannot be formulated the reasons for impossibility of formulation shall be published instead of the estimate. An estimate shall be published at least fifteen days in advance of the adoption, amendment or repeal of the rule. In the case of a rule issued under subsection 2 or made effective under the provisions of section 17A.5, subsection 2, paragraph "b", an estimate, or the reasons for the impossibility of formulating an estimate shall be published within forty-five days of the request.

d. Mail the number of copies of the proposed rule as requested to the state office of a trade or occupational association which has registered its name and address with the agency. The trade or occupational association shall reimburse the agency for the actual cost incurred in providing the copies of the proposed rule under this paragraph. Failure to provide copies as provided in this paragraph shall not be grounds for the invalidation of a rule, unless that failure was deliberate on the part of that agency or the result of gross negligence.

2. When an agency for good cause finds that notice and public participation would be unnecessary, impracticable, or contrary to the public interest, the provisions of subsection 1 shall be inapplicable. The agency shall incorporate in each rule issued in reliance upon this provision either the finding and a brief statement of the reasons for the finding, or a statement that the rule is within a very narrowly tailored category of rules whose issuance has previously been exempted from subsection 1 by a special rule relying on this provision and including such a finding and statement of reasons for the entire category. If the administrative rules review committee by a two-thirds vote, the governor, or the attorney general files with the administrative code editor an objection to the adoption of any rule pursuant to this subsection, that rule shall cease to be effective one hundred

eighty days after the date the objection was filed. A copy of the objection, properly dated, shall be forwarded to the agency at the time of filing the objection. In any action contesting a rule adopted pursuant to this subsection, the burden of proof shall be on the agency to show that the procedures of subsection 1 were impracticable, unnecessary, or contrary to the public interest and that, if a category of rules was involved, the category was very narrowly tailored.

3. No rule adopted after July 1, 1975, is valid unless adopted in substantial compliance with the above requirements of this section. However, a rule shall be conclusively presumed to have been made in compliance with all of the above procedural requirements of this section if it has not been invalidated on the grounds of noncompliance in a proceeding commenced within two years after its effective date.

4. a. If the administrative rules review committee created by section 17A.8, the governor, or the attorney general finds objection to all or some portion of a proposed or adopted rule because that rule is deemed to be unreasonable, arbitrary, capricious, or otherwise beyond the authority delegated to the agency, the committee, governor, or attorney general may, in writing, notify the agency of the objection. In the case of a rule issued under subsection 2, or a rule made effective under section 17A.5, subsection 2, paragraph "b", the committee, governor, or attorney general may notify the agency of such an objection. The committee, governor, or attorney general shall also file a certified copy of such an objection in the office of the administrative code editor and a notice to the effect that an objection has been filed shall be published in the next issue of the Iowa administrative bulletin and in the Iowa administrative code when that rule is printed in it. The burden of proof shall then be on the agency in any proceeding for judicial review or for enforcement of the rule heard subsequent to the filing to establish that the rule or portion of the rule timely objected to according to the above procedure is not unreasonable, arbitrary, capricious, or otherwise beyond the authority delegated to it.

b. If the agency fails to meet the burden of proof prescribed for a rule objected to according to the provisions of paragraph "a" of this subsection, the court shall declare the rule or portion of the rule objected to invalid and judgment shall be rendered against the agency for court costs. Such court costs shall include a reasonable attorney fee and shall be payable by the director of revenue and finance from the support appropriations of the agency which issued the rule in question.

5. Upon the vote of two-thirds of its members the administrative rules review committee may delay the effective date of a rule seventy days beyond that permitted in section 17A.5, unless the rule was promulgated under section 17A.5, subsection 2, paragraph "b". This provision shall be utilized by the committee only if further time is necessary to study and examine the rule. Notice of an effective date that

was delayed under this provision shall be published in the Iowa administrative code and bulletin.

6. The governor may rescind an adopted rule by executive order within seventy days of the rule becoming effective. The governor shall provide a copy of the executive order to the administrative code editor who shall include it in the next publication of the Iowa administrative bulletin.

17A.5 Filing and taking effect of rules.

1. Each agency shall file in the office of the administrative rules coordinator three certified copies of each rule adopted by it. The administrative rules coordinator shall assign an ARC number to each rulemaking document and forward two copies to the administrative code editor. The administrative rules coordinator shall keep a permanent register of the rules open to public inspection.

2. A rule adopted after July 1, 1975, is effective thirty-five days after filing, as required in this section, and indexing and publication in the Iowa administrative bulletin except that:

a. If a later date is required by statute or specified in the rule, the later date is the effective date.

b. Subject to applicable constitutional or statutory provisions, a rule becomes effective immediately upon filing with the administrative rules coordinator, or at a subsequent stated date prior to indexing and publication, or at a stated date less than thirty-five days after filing, indexing and publication, if the agency finds:

(1) That a statute so provides;

(2) That the rule confers a benefit or removes a restriction on the public or some segment thereof; or

(3) That this effective date is necessary because of imminent peril to the public health, safety or welfare. In any subsequent action contesting the effective date of a rule promulgated under this paragraph, the burden of proof shall be on the agency to justify its finding. The agency's finding and a brief statement of the reasons therefor shall be filed with and made a part of the rule. Prior to indexing and publication, the agency shall make reasonable efforts to make known to the persons who may be affected by it a rule made effective under the terms of this paragraph.

17A.6 Publications.

1. The administrative code editor shall cause the "Iowa Administrative Bulletin" to be published in pamphlet form at least every other week containing the following:

a. Notices of intended action and adopted rules prepared in such a manner so that the text of a proposed or adopted rule shows the text of any existing rule being changed and the change being made.

b. All proclamations and executive orders of the governor which are general and permanent in nature.

c. Resolutions nullifying administrative rules passed by the general assembly pursuant to Article III, section 40 of the Constitution of the State of Iowa.

d. Other materials deemed fitting and proper by the administrative rules review committee.

2. Subject to the direction of the administrative rules coordinator, the administrative code editor shall cause the "Iowa Administrative Code" to be compiled, indexed, and published in loose-leaf form containing all rules adopted and filed by each agency. The administrative code editor further shall cause loose-leaf supplements to the Iowa administrative code to be published as determined by the administrative rules coordinator and the administrative rules review committee, containing all rules filed for publication in the prior time period. The supplements shall be in such form that they may be inserted in the appropriate places in the permanent compilation. The administrative rules coordinator shall devise a uniform numbering system for rules and may renumber rules before publication to conform with the system.

3. The administrative code editor may omit or cause to be omitted from the Iowa administrative code or bulletin any rule the publication of which would be unduly cumbersome, expensive or otherwise inexpedient, if the rule in printed or processed form is made available on application to the adopting agency at no more than its cost of reproduction, and if the Iowa administrative code or bulletin contains a notice stating the specific subject matter of the omitted rule and stating how a copy of the omitted rule may be obtained.

The administrative code editor shall omit or cause to be omitted from the Iowa administrative code any rule or portion of a rule nullified by the general assembly pursuant to Article III, section 40 of the Constitution of the State of Iowa.

4. The Iowa administrative code, its supplements, and the Iowa administrative bulletin shall be made available upon request to all persons who subscribe to any of them through the state printing division. Copies of this code so made available shall be kept current by the division.

5. All expenses incurred by the administrative code editor under this section shall be defrayed under section 14.22.

6. The administrative code editor, with the approval of the administrative rules review committee and the administrative rules coordinator, may delete a rule from the Iowa administrative code if the agency that adopted the rule has ceased to exist, no successor agency has jurisdiction over the rule, and no statutory authority exists supporting the rule.

7. The Iowa administrative code shall be cited as (agency identification number) IAC, (chapter, rule, subrule, lettered paragraph, or numbered subparagraph).

8. The Iowa administrative bulletin shall be cited as IAB (volume), (number), (publication date), (page number), (ARC number).

17A.8 Administrative rules review committee.

1. There is created the "Administrative Rules Review Committee." The committee shall be bipartisan and shall be composed of the following members:

a. Five senators appointed by the majority leader of the senate.

b. Five representatives appointed by the speaker of the house.

2. A committee member shall be appointed prior to the adjournment of a regular session convened in an odd-numbered year. The term of office shall be for four years beginning May 1 of the year of appointment. However, a member shall serve until a successor is appointed. A vacancy on the committee shall be filled by the original appointing authority for the remainder of the term. A vacancy shall exist whenever a committee member ceases to be a member of the houses from which the member was appointed.

3. A committee member shall be paid the per diem specified in section 2.10, subsection 6, for each day in attendance and shall be reimbursed for actual and necessary expenses. There is appropriated from money in the general fund not otherwise appropriated an amount sufficient to pay costs incurred under this section.

4. The committee shall choose a chairperson from its membership and prescribe its rules of procedure. The committee may employ a secretary or may appoint the administrative code editor or a designee to act as secretary.

5. A regular committee meeting shall be held at the seat of government on the second Tuesday of each month. Unless impracticable in advance of each such meeting the subject matter to be considered shall be published in the Iowa administrative bulletin. A special committee meeting may be called by the chairperson at any place in the state and at any time. Unless impracticable, in advance of each special meeting notice of the time and place of such meeting and the subject matter to be considered shall be published in the Iowa administrative bulletin.

6. The committee shall meet for the purpose of selectively reviewing rules, whether proposed or in effect. A regular or special committee meeting shall be open to the public and an interested person may be heard and present evidence. The committee may require a representative of an agency whose rule or proposed rule is under consideration to attend a committee meeting.

7. The committee may refer a rule to the speaker

of the house and the president of the senate at the next regular session of the general assembly. The speaker and the president shall refer such a rule to the appropriate standing committee of the general assembly.

8. If the committee finds objection to a rule, it may utilize the procedure provided in section 17A.4, subsection 4. In addition or in the alternative, the committee may include in the referral, under subsection 7, a recommendation that this rule be overcome by statute. If the committee of the general assembly to which a rule is referred finds objection to the referred rule, it may recommend to the general assembly that this rule be overcome by statute. This section shall not be construed to prevent a committee of the general assembly from reviewing a rule on its own motion.

9. Upon a vote of two-thirds of its members, the administrative rules review committee may delay the

effective date of a rule until the adjournment of the next regular session of the general assembly. The committee shall refer a rule whose effective date has been delayed to the speaker of the house of representatives and the president of the senate who shall refer the rule to the appropriate standing committees of the general assembly. If the general assembly has not disapproved of the rule by a joint resolution, the rule shall become effective. If a rule is disapproved, it shall not become effective and the agency shall withdraw the rule. This section shall not apply to rules made effective under section 17A.5, subsection 2, paragraph "b".

10. Notwithstanding section 13.7, the committee may employ necessary legal and technical staff.

CHAPTER 18

GENERAL SERVICES DEPARTMENT

18.12 Duties — state property — employees — reports — lease-purchase — appropriation.

In addition to other duties the director shall:

1. See that all visitors, at proper hours, are properly escorted over capitol grounds and capitol buildings, free of expense.

2. Have at all times, charge of and supervision over the janitors, and other employees of the department in and about the capitol and other state buildings, except the buildings and grounds referred to in section 601L.3, subsection 6, at the seat of government.

3. Institute, in the name of the state, and with the advice and consent of the attorney general, civil and criminal proceedings against any person for injury or threatened injury to any public property under the person's control.

4. Keep in the director's office a complete record containing an itemized account of all state property, including furniture and equipment, under the director's care and control, and plans and surveys of the public grounds, buildings, and underground constructions at the seat of government.

5. Under the direction of the governor, provide, furnish, and pay for public utilities service, heat, maintenance, minor repairs, and equipment in operating and maintaining the official residence of the governor of Iowa.

6. At the time provided by law, make a verified report which shall cover all transactions for the pre-

ceding annual, fiscal or calendar period and show in detail:

a. All expenditures made on account of the department for public buildings and property.

b. The condition of all real and personal property of the state under the director's care and control, together with a report of any loss or destruction, or injury to any such property, with the causes thereof.

c. The measures necessary for the care and preservation of the property under the director's control.

d. Any recommendations as to methods which would tend to render the public service more efficient and economical.

e. Any other matter ordered by the governor.

7. Contract, with the approval of the executive council, for the repair, remodeling or, if the condition warrants, demolition of all buildings and grounds of the state at the seat of government and the institutions of the department of human services and the department of corrections for which no specific appropriation has been made, if the cost of repair, remodeling or demolition will not exceed one hundred thousand dollars when completed. The cost of repair projects for which no specific appropriation has been made shall be paid from the fund provided in section 19.29.

8. Dispose of all personal property of the state under the director's control when it becomes unnecessary or unfit for further use by the state. Proceeds from the sale of personal property shall be deposited in the state general fund.

9. Lease all buildings and office space necessary to carry out the provisions of this chapter or necessary for the proper functioning of any state agency at the seat of government, with the approval of the executive council if no specific appropriation has been made. The cost of any lease for which no specific appropriation has been made shall be paid from the fund provided in section 19.29.

When the general assembly is not in session, the director of general services may request funds from the executive council for moving state agencies located at the seat of government from one location to another. The request may include moving costs, telephone costs, repair costs, or any other costs relating to the move. The executive council may approve and shall pay the costs from funds provided in section 19.29 if it determines the agency or department has no available funds for these expenses.

10. On behalf of the department, enter into lease-purchase contracts for real or personal property, wherever located within the state, to be used for buildings, facilities, and structures, or for additions or improvements to existing buildings, facilities, and structures, to carry out the provisions of this section or for the proper use and benefit of the state and its state agencies on the following terms and conditions:

a. The director shall coordinate the location, design, plans and specifications, construction, and ultimate use of the real or personal property lease-purchased with the state agency for whose benefit and use the property is being obtained and the terms and conditions of the lease-purchase contract with both the state agency for whose benefit and use the property is being obtained and the treasurer of state. Upon awarding the contract for construction of a building or for site development, the director shall have sole authority to administer the contract.

b. The lease-purchase contract may provide for ultimate ownership of the property by the state. Title to all property acquired in this manner shall be taken and held in the name of the state. The state shall be the lessee or contracting party under all lease-purchase contracts entered into pursuant to this section. The lease-purchase contract may contain provisions similar to provisions customarily found in lease-purchase contracts between private persons, including, but not limited to, provisions prohibiting the acquisition or use by the lessee of competing property or property in substitution for the lease-purchased property, obligating the lessee to pay costs of operation, maintenance, insurance, and taxes relating to the property, and permitting the lessor to retain a security interest in the property lease-purchased, until title passes to the state, which may be assigned or pledged by the lessor. The director may contract for additional security or liquidity for a lease-purchase contract and may enter into agreements for letters of credit, lines of credit, insurance, or other forms of security with respect to rental and other payments due under a lease-purchase contract. Fees for the costs of additional security or liquidity are a cost of entering into the lease-purchase

contract and may be paid from funds annually appropriated by the general assembly to the state agency for which the property is being obtained or from other funds legally available. The lease-purchase contract may include the costs of entering into the lease-purchase contract as a cost of the lease-purchased property. The provision of a lease-purchase contract which provides that a portion of the periodic rental payment be applied as interest is subject to chapter 74A. Other laws relating to interest rates do not apply. Chapter 75 does not apply to lease-purchase contracts entered into pursuant to this section. Rental and other costs due under lease-purchase contracts entered into pursuant to this section shall be payable from funds annually appropriated by the general assembly to the state agency for which the property is being obtained or from other funds legally available.

c. A lease-purchase contract to which the state is a party is an obligation of a state for purposes of chapters 502 and 682, and is a lawful investment for banks, trust companies, building and loan associations, savings and loan associations, investment companies, insurance companies, insurance associations, executors, guardians, trustees, and other fiduciaries responsible for the investment of funds.

d. The director shall not enter into lease-purchase contracts pursuant to this section without prior authorization by a constitutional majority of each house of the general assembly and approval by the governor of the use, location, and maximum cost, not including interest expense, of the real or personal property to be lease-purchased. However, the director shall not enter into a lease-purchase contract for real or personal property which is to be constructed for use as a prison or prison-related facility without prior authorization by a constitutional majority of each house of the general assembly and approval by the governor of the use, location, and maximum cost, not including interest expense, of the real or personal property to be lease-purchased and with the construction in accordance with space needs as established by an independent study of space needs authorized by the general assembly.

e. A contract for acquisition, construction, erection, demolition, alteration, or repair by a private person of real or personal property to be lease-purchased by the director pursuant to this section is exempt from section 18.6, subsections 1 and 9, unless the lease-purchase contract is funded in advance by a deposit of the lessor's moneys to be administered by the director under a lease-purchase contract which requires rent payments to commence upon delivery of the lessor's moneys to the lessee.

This subsection provides an alternative and independent method for carrying out projects under this chapter and for entering into lease-purchase contracts in connection with the projects, without reference to any other statute, and is not an amendment of or subject to the provision of any other law. No publication of any notice, whether under section 23.12 or otherwise, and no other or further proceed-

ings with respect to the lease-purchase contracts referred to in this section are required except as set forth in this section, any provisions of other statutes of the state to the contrary notwithstanding.

For purposes of this subsection and subsection 12, “state agency” means a board, commission, bureau, division, office, department, or branch of state government.

11. Establish rental fees for space owned by the state and provided by the department to a state agency to which the general assembly has specifically appropriated funds to pay the rental fees.

The director shall notify each state agency provided space by the department to which an appropriation for the rental of that space has been made of the rental fee for the space. The fee shall be based on the cost of the space, services provided to the agency by the division of buildings and grounds, maintenance, utilities, administration, and other property management costs. The state agency shall pay the fee to the department in the same manner as other expenses of the state agency are paid. Fees collected shall be deposited in the general fund of the state.

12. Coordinate the leasing of buildings and office space by state agencies throughout the state and develop cooperative relationships with the state board of regents to promote the collocation of state agencies.

13. With the authorization of a constitutional majority of each house of the general assembly and approval by the governor, dispose of real property belonging to the state and its state agencies upon terms, conditions, and consideration as the director may recommend. If real estate subject to sale under this subsection has been purchased or acquired from appropriated funds, the proceeds of the sale shall be deposited with the treasurer of state and credited to the general fund of the state or other fund from which appropriated. There is appropriated from that same fund, with the prior approval of the executive council and in cooperation with the director, a sum equal to the proceeds so deposited and credited to the state agency to which the disposed property belonged or by which it was used, for purposes of the state agency.

14. Subject to the selection procedures of section 12.30, employ financial consultants, banks, insurers, underwriters, accountants, attorneys, and other advisors or consultants necessary to implement the provisions of subsection 10.

15. Prepare semiannual status reports for all ongoing capital projects of all state agencies, as defined in section 8.3A, and submit the status reports to the legislative capital projects committee.

16. Call upon any state agency, as defined in section 8.3A, for assistance the director may require in performing the director’s duties under subsection 15 regarding capital project status reports. All state agencies, upon the request of the director and with the approval of the director of the department of management, shall assist the director and are authorized to make available to the director any existing

studies, surveys, plans, data, and other materials in the possession of the state agencies which are relevant to the director’s duties.

17. In carrying out the requirements of section 64.6, the state may purchase an individual or a blanket surety bond insuring the fidelity of state officers. The department may self-assume or self-insure fidelity exposures for state officials and employees. A state official is deemed to have furnished surety if the official has been covered by a program of insurance or self-insurance established by the department. To the extent possible, all bonded state employees shall be covered under one or more blanket bonds or position schedule bonds.

18. The management of state property loss exposures and state liability risk exposures shall be reviewed by the director for the capitol complex. Insurance coverage may include self-insurance or any type of insurance protection sold by insurers, including but not limited to, full coverage, partial coverage, coinsurance, reinsurance, and deductible insurance coverage.

19. Perform all other duties required by law.

1. When purchasing paper products, the department of general services shall, when the price is reasonably competitive and the quality as intended, purchase the recycled product. The department of general services shall also purchase, when the price is reasonably competitive and the quality as intended, and in keeping with the schedule established in this subsection, soybean-based inks and starch-based plastics, including but not limited to starch-based plastic garbage can liners.

a. By July 1, 1989, a minimum of fifty percent of the purchases of inks which are used for newsprint printing services performed internally or contracted for by the department of general services shall be soybean-based. The percentage of purchases by the department of soybean-based inks used for newsprint printing services shall increase by July 1, 1991, to one hundred percent of the total purchases of inks used for newsprint printing services.

b. By July 1, 1991, a minimum of twenty-five percent of the purchases of inks, other than inks which are used for newsprint printing services, and which are used internally or contracted for by the department of general services, shall be soybean-based to the extent formulations for such inks are available. The percentage of purchases by the department of the soybean-based inks, to the extent formulations for such inks are available, shall increase by July 1, 1992, to fifty percent of the total purchases of the inks, and shall increase by July 1, 1993, to one hundred percent of the total purchases of the inks.

c. By July 1, 1989, a minimum of fifteen percent of the purchases of garbage can liners made by the

department of general services shall be starch-based plastic garbage can liners. The percentage purchased shall increase by five percent annually until fifty percent of the purchases of garbage can liners are purchases of starch-based plastic garbage can liners.

d. The department of general services shall report to the general assembly on February 1 of each year the following:

(1) Plastic products which are regularly purchased by the department of general services and other state agencies for which starch-based product alternatives are available. The report shall also include the cost of the plastic products purchased and the cost of the starch-based product alternatives.

(2) Information relating to soybean-based inks and starch-based garbage can liners regularly purchased by the department and other state agencies. The report shall include the cost of purchasing soybean-based inks and starch-based garbage can liners, the percentage of inks purchased which are soybean-based and the percentage of liners purchased which are starch-based.

2. a. As used in this subsection, unless the context otherwise requires:

(1) "*Recycled paper*" means a paper product with not less than forty percent of its total weight consisting of postconsumer material and recovered paper material. At least ten percent of the total weight of recycled paper shall be postconsumer materials.

(2) "*Postconsumer material*" means only those products generated by a business or consumer which have served their intended end uses, and which have been separated or diverted from solid waste for the purposes of collection, recycling, and disposition.

(3) "*Recovered paper material*" means paper waste generated after the completion of the paper-making process, such as postconsumer material, envelope cuttings, bindery trimmings, printing waste, cutting and other converting waste, butt rolls and mill wrappers, obsolete inventories, and rejected unused stock. "*Recovered paper material*" does not mean fibrous waste generated during the manufacturing process such as fibers recovered from waste water, or trimmings of paper machine rolls; or fibrous by-products of harvesting, extractive, or woodcutting processes; or forest residue such as bark.

b. The department, in conjunction with recommendations made by the department of natural resources, shall purchase and use recycled printing and writing paper so that twenty-five percent by January 1, 1990, fifty percent by January 1, 1992, seventy-five percent by January 1, 1996, and ninety percent by January 1, 2000, of the volume of printing and writing paper purchased is recycled paper.

3. The department of general services, in conjunction with the department of natural resources, shall review the procurement specifications currently used by the state to eliminate, wherever possible, discrimination against the procurement of products manufactured with recovered materials, starch-based plastics, and soybean-based inks.

4. The department of natural resources shall assist the department of general services in locating suppliers of recycled products, starch-based plastics, and soybean-based inks and collecting data on recycled content, starch-based plastic, and soybean-based ink purchases.

5. Information on recycled content shall be requested on all bids for paper products issued by the state and on other bids for products which could have recycled content such as oil, plastic products, including but not limited to starch-based plastic products, compost materials, aggregate, solvents, soybean-based inks, and rubber products.

6. The department of general services, in conjunction with the department of natural resources, shall adopt rules and regulations to carry out the provisions of this section.

7. All state agencies shall fully cooperate with the departments of general services and natural resources in all phases of implementing this section.

18.115 Vehicle dispatcher — employees — powers and duties — fuel economy requirements.

The director of the department of general services shall appoint a state vehicle dispatcher and other employees as necessary to administer this division. The state vehicle dispatcher shall serve at the pleasure of the director and is not governed by the merit system provisions of chapter 19A. Subject to the approval of the director, the state vehicle dispatcher has the following duties:

1. The dispatcher shall assign to a state officer or employee or to a state office, department, bureau, or commission, one or more motor vehicles which may be required by the officer or department, after the officer or department has shown the necessity for such transportation. The state vehicle dispatcher shall have the power to assign a motor vehicle either for

part time or full time. The dispatcher shall have the right to revoke the assignment at any time.

2. The state vehicle dispatcher may cause all state-owned motor vehicles to be inspected periodically. Whenever the inspection reveals that repairs have been improperly made on the motor vehicle or that the operator is not giving it the proper care, the dispatcher shall report this fact to the head of the department to which the motor vehicle has been assigned, together with recommendation for improvement.

3. The state vehicle dispatcher shall install a record system for the keeping of records of the total number of miles state-owned motor vehicles are driven and the per-mile cost of operation of each motor vehicle. Every state officer or employee shall keep a record book to be furnished by the state vehicle dispatcher in which the officer or employee shall enter all purchases of gasoline, lubricating oil, grease, and other incidental expense in the operation of the motor vehicle assigned to the officer or employee, giving the quantity and price of each purchase, including the cost and nature of all repairs on the motor vehicle. Each operator of a state-owned motor vehicle shall promptly prepare a report at the end of each month on forms furnished by the state vehicle dispatcher and forward the same to the dispatcher at the statehouse, giving the information the state vehicle dispatcher may request in the report. The state vehicle dispatcher shall each month compile the costs and mileage of state-owned motor vehicles from the reports and keep a cost history card on each motor vehicle and the costs shall be reduced to a cost-per-mile basis for each motor vehicle. It shall be the duty of the state vehicle dispatcher to call to the attention of the head of any department to which a motor vehicle has been assigned any evidence of the mishandling or misuse of any state-owned motor vehicle which is called to the dispatcher's attention. A motor vehicle operated under this subsection shall not operate on gasoline other than gasoline blended with at least ten percent ethanol, unless under emergency circumstances. A state-issued credit card used to purchase gasoline shall not be valid to purchase gasoline other than gasoline blended with at least ten percent ethanol, if commercially available. The motor vehicle shall also be affixed with a brightly visible sticker which notifies the traveling public that the motor vehicle is being operated on gasoline blended with ethanol.

4. The state vehicle dispatcher shall purchase all new motor vehicles for all branches of the state government, except the state department of transportation, institutions under the control of the state board of regents, the department for the blind, and any other agencies exempted by law. Before purchasing any motor vehicle the dispatcher shall make requests for public bids by advertisement and shall purchase the vehicles from the lowest responsible bidder for the type and make of motor vehicle designated.

In conjunction with the requirements of section 18.3, subsection 1, effective January 1, 1991, the

state vehicle dispatcher, and any other state agency or local governmental political subdivision purchasing new motor vehicles for other than law enforcement purposes, shall purchase new passenger vehicles and light trucks such that the average fuel efficiency for the fleet of new passenger vehicles and light trucks purchased in that year by the state vehicle dispatcher or other state agency or local governmental political subdivision equals or exceeds the average fuel economy standard for the vehicles' model year as established by the United States secretary of transportation under 15 U.S.C. § 2002. This paragraph does not apply to vehicles purchased for any of the following: law enforcement purposes, school buses, off-road maintenance work, or work vehicles used to pull loaded trailers. The group of comparable vehicles within the total fleet purchased by the state vehicle dispatcher, or any other state agency or local governmental political subdivision purchasing motor vehicles for other than law enforcement purposes, shall have an average fuel efficiency rating equal to or exceeding the average fuel economy rating for that model year for that class of comparable vehicles as defined in 40 C.F.R. § 315-82. As used in this paragraph, "fuel economy" means the average number of miles traveled by an automobile per gallon of gasoline consumed as determined by the United States environmental protection agency administrator in accordance with 26 U.S.C. § 4064(c). For purposes of this paragraph, "state agency" includes, but is not limited to, a community college or an institution under the control of the state board of regents.

The state vehicle dispatcher shall annually report the average combined fuel economy for all new motor vehicles purchased by classification (passenger automobiles, enforcement automobiles, vans, and light trucks) no later than January 31 of each year to the department of management and the energy and geological resources division of the department of natural resources. As used in this paragraph, "combined fuel economy" means the combined fuel economy as defined in 40 C.F.R. § 600.002.

a. Effective January 1, 1993, the state vehicle dispatcher, after consultation with the department of management and the various state agencies exempted from obtaining vehicles for use through the state vehicle dispatcher, shall adopt by rule pursuant to chapter 17A, a system of uniform standards for assigning vehicles available for use to maximize the average passenger miles per gallon of motor vehicle fuel consumed. The standards should consider the number of passengers traveling to a destination, the fuel economy of and passenger capacity of vehicles available for assignment, and any other relevant information, to assure assignment of the most energy efficient vehicle or combination of vehicles for a trip from those vehicles available for assignment. The standards adopted by the state vehicle dispatcher shall not apply to special work vehicles, and law enforcement vehicles. The rules when adopted shall apply to the following agencies:

- (1) State vehicle dispatcher.

(2) State department of transportation.

(3) Institutions under the control of the state board of regents.

(4) The department for the blind.

(5) Any other state agency exempted from obtaining vehicles for use through the state vehicle dispatcher.

b. As used in paragraph "a", "*fuel economy*" means the average number of miles traveled by an automobile per gallon of gasoline consumed as determined by the United States environmental protection agency administrator in accordance with 26 U.S.C. § 4064(c).

5. Of all new passenger vehicles and light pickup trucks purchased by the state vehicle dispatcher, institutions under the control of the state board of regents, community colleges, and any other state agency purchasing such new vehicles and trucks, beginning July 1, 1992, a minimum of five percent, and beginning July 1, 1994, a minimum of ten percent of all such vehicles and trucks purchased shall be equipped with engines which utilize alternative methods of propulsion including but not limited to those propelled by flexible fuels, compressed natural gas, propane, solar energy, or electricity. For the purpose of this subsection, "*flexible fuels*" means fuels which are blended with eighty-five percent ethanol and fifteen percent gasoline. The provisions of this subsection do not apply to such vehicles and trucks purchased for the following purposes: law enforcement, off-road maintenance work, or work vehicles used to pull loaded trailers. This subsection also does not apply to school corporations, with the exceptions of those designated above. It is the intent of the general assembly that the members of the midwest energy compact promote the development and purchase of motor vehicles equipped with engines which utilize alternative methods of propulsion.

6. All used motor vehicles turned in to the state vehicle dispatcher shall be disposed of by public auction, and the sales shall be advertised in a newspaper of general circulation one week in advance of sale, and the receipts from the sale shall be deposited in the depreciation fund to the credit of that department or agency turning in the vehicle; except that, in the case of a used motor vehicle of special design, the state vehicle dispatcher may, with the approval of the executive council, instead of selling it at public auction, authorize the motor vehicle to be traded for another vehicle of similar design.

7. The state vehicle dispatcher may authorize the establishment of motor pools consisting of a number of state-owned motor vehicles under the dispatcher's supervision and which the dispatcher may cause to be stored in a public or private garage. If a pool is established by the state vehicle dispatcher, any state officer or employee desiring the use of a state-owned motor vehicle on state business shall notify the state vehicle dispatcher of the need for a vehicle within a reasonable time prior to actual use of the motor vehicle. The state vehicle dispatcher may assign a motor vehicle from the motor pool to

the state officer or employee. If two or more state officers or employees desire the use of a state-owned motor vehicle for a trip to the same destination for the same length of time, the state vehicle dispatcher may assign one vehicle to make the trip.

8. The state vehicle dispatcher shall cause to be marked on every state-owned motor vehicle a sign in a conspicuous place which indicates its ownership by the state except cars requested to be exempt by the commissioner of public safety or the director of the department of general services. All state-owned motor vehicles shall display registration plates bearing the word "official" except cars requested to be furnished with ordinary plates by the commissioner of public safety or the director of the department of general services pursuant to section 321.19. The state vehicle dispatcher shall keep an accurate record of the registration plates used on all state cars.

9. The state vehicle dispatcher shall have the authority to make such other rules regarding the operation of state-owned motor vehicles, with the approval of the director of the department of general services, as may be necessary to carry out the purpose of this chapter. All rules adopted by the vehicle dispatcher shall be approved by the director before becoming effective.

10. All gasoline used in state-owned automobiles shall be purchased at cost from the various installations or garages of the state department of transportation, state board of regents, department of human services, or state car pools throughout the state, unless such purchases are exempted by the vehicle dispatcher. The vehicle dispatcher shall study and determine the reasonable accessibility of these state-owned sources for the purchase of gasoline. If these state-owned sources for the purchase of gasoline are not reasonably accessible, the vehicle dispatcher shall authorize the purchase of gasoline from other sources. The vehicle dispatcher may prescribe a manner, other than the use of the revolving fund, in which the purchase of gasoline from state-owned sources shall be charged to the department or agency responsible for the use of the automobile. The vehicle dispatcher shall prescribe the manner in which oil and other normal automobile maintenance for state-owned automobiles may be purchased from private sources, if they cannot be reasonably obtained from a state car pool. The state vehicle dispatcher may advertise for bids and award contracts for the furnishing of gasoline, oil, grease, and vehicle replacement parts for all state-owned vehicles. The state vehicle dispatcher and other state agencies, when advertising for bids for gasoline, shall also seek bids for ethanol-blended gasoline.

11. The state vehicle dispatcher is responsible for insuring motor vehicles owned by the state. Insurance coverage may be through a self-insurance program administered by the division or purchased from an insurer. If the determination is made to utilize a self-insurance program the vehicle dispatcher shall maintain loss and exposure data for the vehicles under the dispatcher's jurisdiction. Each agency

shall provide to the division all requested motor vehicle loss and loss exposure information.

18.117 Private use prohibited — rate for state business.

A state officer or employee shall not use a state-owned motor vehicle for personal private use, nor shall the officer or employee be compensated for driving a privately owned motor vehicle unless it is done on state business with the approval of the state vehicle dispatcher, and in that case the officer or employee shall receive an amount to be determined by the state which may be the maximum allowable under the federal internal revenue service rules per mile, notwithstanding established mileage requirements or depreciation allowances. A statutory provision stipulating necessary mileage, travel, or actual expenses reimbursement to a state officer falls under the mileage reimbursement limitation provided in this section unless specifically provided otherwise. Any peace officer employed by the state as defined in section 801.4 who is required to use a private vehicle in the performance of official duties shall receive reimbursement for mileage expense at the rate specified in this section. However, the state vehicle dispatcher may delegate authority to officials of the state, and department heads, for the use of private vehicles on state business up to a yearly mileage figure established by the director of general services. If a state motor vehicle has been assigned to a state officer or employee, the officer or employee shall not collect mileage for the use of a privately owned vehicle unless the state vehicle assigned is not usable.

This section does not apply to officials and employees of the state whose mileage is paid by other than state agencies and this section does not apply to elected officers of the state, judicial officers, or court employees.

20.17 Procedures.

1. The employee organization certified as the bargaining representative shall be the exclusive representative of all public employees in the bargaining unit and shall represent all public employees fairly. However, any public employee may meet and adjust individual complaints with a public employer. To sustain a claim that a certified employee organization has committed a prohibited practice by breaching its duty of fair representation, a public employee

must establish by a preponderance of the evidence action or inaction by the organization which was arbitrary, discriminatory, or in bad faith.

2. The employee organization and the public employer may designate any individual as its representative to engage in collective bargaining negotiations.

3. Negotiating sessions, strategy meetings of public employers or employee organizations, mediation and the deliberative process of arbitrators shall be exempt from the provisions of chapter 21. However, the employee organization shall present its initial bargaining position to the public employer at the first bargaining session. The public employer shall present its initial bargaining position to the employee organization at the second bargaining session, which shall be held no later than two weeks following the first bargaining session. Both sessions shall be open to the public and subject to the provisions of chapter 21. Hearings conducted by arbitrators shall be open to the public.

4. The terms of a proposed collective bargaining agreement shall be made available to the public by the public employer and reasonable notice shall be given to the public employees by the employee organization prior to a ratification election. The collective bargaining agreement shall become effective only if ratified by a majority of those voting by secret ballot.

5. Terms of any collective bargaining agreement may be enforced by a civil action in the district court of the county in which the agreement was made upon the initiative of either party.

6. No collective bargaining agreement or arbitrators' decision shall be valid or enforceable if its implementation would be inconsistent with any statutory limitation on the public employer's funds, spending or budget or would substantially impair or limit the performance of any statutory duty by the public employer. A collective bargaining agreement or arbitrators' award may provide for benefits conditional upon specified funds to be obtained by the public employer, but the agreement shall provide either for automatic reduction of such conditional benefits or for additional bargaining if the funds are not obtained or if a lesser amount is obtained.

7. If agreed to by the parties nothing in this chapter shall be construed to prohibit supplementary bargaining on behalf of public employees in a part of the bargaining unit concerning matters uniquely affecting those public employees or co-operation and co-ordination of bargaining between two or more bargaining units.

8. The salaries of all public employees of the state under a merit system and all other fringe benefits which are granted to all public employees of the state shall be negotiated with the governor or the governor's designee on a state-wide basis, except those benefits which are not subject to negotiations pursuant to the provisions of section 20.9.

9. A public employee or any employee organization shall not negotiate or attempt to negotiate di-

rectly with a member of the governing board of a public employer if the public employer has appointed or authorized a bargaining representative for the purpose of bargaining with the public employees or their representative, unless the member of the governing board is the designated bargaining representative of the public employer.

10. The negotiation of a proposed collective bargaining agreement by representatives of a state public employer and a state employee organization shall be complete not later than March 15 of the year when the agreement is to become effective. The board shall provide, by rule, a date on which any impasse item must be submitted to binding arbitration and for such other procedures as deemed necessary to provide for the completion of negotiations of proposed state collective bargaining agreements not later than March 15. The date selected for the mandatory submission of impasse items to binding arbitration shall be sufficiently in advance of March 15 to insure that the arbitrators' decision can be reasonably made before March 15.

11. If the public employees in a certified employee organization are teachers licensed under chapter 260, and the public employer is a school district, community college, or area education agency, the negotiation of a proposed collective bargaining agreement shall be complete not later than April 15 of the year when the agreement is to become effective. The board shall provide, by rule, a date on which any impasse item must be submitted to binding arbitration and for such other procedures as deemed necessary to provide for the completion of negotiations of proposed collective bargaining agreements not later than April 15. The date selected for the mandatory submission of impasse items to binding arbitration shall be sufficiently in advance of April 15 to insure that the arbitrators' decision can be reasonably made before April 15.

20.19 Impasse procedures — agreement of parties.

As the first step in the performance of their duty to bargain, the public employer and the employee organization shall endeavor to agree upon impasse procedures. Such agreement shall provide for implementation of these impasse procedures not later than one hundred twenty days prior to the certified budget submission date of the public employer. However, if the public employees represented by the employee organization are teachers licensed under chapter 260, and the public employer is a school district, community college, or area education agency, the agreement shall provide for implementation of impasse procedures not later than ninety days prior to the certified budget submission date of the public employer. If the parties fail to agree upon impasse procedures under the provisions of this section, the impasse procedures provided in sections 20.20 to 20.22 shall apply.

In the absence of an impasse agreement between the parties or the failure of either party to utilize its procedures, one hundred twenty days prior to the certified budget submission date, or ninety days prior to the certified budget submission date if the public employees represented by the employee organization are teachers licensed under chapter 260 and the public employer is a school district, community college, or area education agency, the board shall, upon the request of either party, appoint an impartial and disinterested person to act as mediator. It shall be the function of the mediator to bring the parties together to effectuate a settlement of the dispute, but the mediator may not compel the parties to agree.

20.21 Fact-finding.

If the impasse persists ten days after the mediator has been appointed, the board shall appoint a fact-finder representative of the public, from a list of qualified persons maintained by the board. The fact-finder shall conduct a hearing, may administer

oaths, and may request the board to issue subpoenas. The fact-finder shall make written findings of facts and recommendations for resolution of the dispute and, not later than fifteen days from the day of appointment, shall serve such findings on the public employer and the certified employee organization.

The public employer and the certified employee organization shall immediately accept the fact-finder's recommendation or shall within five days submit the fact-finder's recommendations to the governing body and members of the certified employee organization for acceptance or rejection. If the dispute continues ten days after the report is submitted, the report shall be made public by the board.

However, the board shall not appoint a fact-finder representative of the public if the public employees represented by a certified employee organization are teachers licensed under chapter 260 and the public employer is a school district, community college, or area education agency. The board shall adopt rules regarding the time period after mediation when binding arbitration procedures must begin for teachers exempt from this section.

2. The commissioner shall prepare a list of the election precincts of the county, by arranging the various townships and cities in the county in alphabetical order, and the wards or precincts in each city or township in numerical order under the name of such city or township. The commissioner shall then arrange the surnames of each political party's candidates for each office to which two or more persons are to be elected at large alphabetically for the respective offices for the first precinct on the list; thereafter, for each political party and for each succeeding precinct, the names appearing first for the respective offices in the last preceding precinct shall be placed last, so that the names that were second before the change shall be first after the change. The commissioner may also rotate the names of candidates of a political party in the reverse order of that provided in this subsection or alternate the rotation so that the candidates of different parties shall not be paired as they proceed through the rotation. The procedure for arrangement of names on ballots provided in this section shall likewise be substantially followed in elections in political subdivisions of less than a county.

3. The ballots for any city elections, school elections, special election, or any other election at which any office is to be filled on a nonpartisan basis and the statutes governing the office to be filled are silent as to the arrangement of names on the ballot, shall contain the names of all nominees or candidates arranged in alphabetical order by surname under the heading of the office to be filled. When a city election, school election, special election, or any other election at which an office is to be filled on a nonpartisan basis, is held in more than one precinct, the candidates' names shall be rotated on the ballot from precinct to precinct in the manner prescribed by subsection 2 unless there are no more candidates for an office than the number of persons to be elected to that office.

4. If electors in any precinct are entitled to vote for more than one nominee or candidate for a particular office, the heading for that office on the precinct

ballot shall be immediately followed by a notation of the maximum number of nominees or candidates for that office for whom each elector may vote. Provision shall be made on the ballot to allow the elector to write in the name of any person for whom the elector desires to vote for any office or nomination on the ballot.

5. The name of a candidate printed on the ballot shall not include parentheses, quotation marks, or any personal or professional title.

The notice shall state the office for which the person wishes to appear on the ballot. If the required notice is not filed, the candidate's name shall not be certified by the state commissioner for any office for which nomination papers are filed with the state commissioner and the county commissioner of elections shall not include the candidate's name on the ballot for any office in any county.

If a person is a candidate for one or more offices for which nomination papers are required to be filed with the state commissioner and one or more offices for which nomination papers are required to be filed with the county commissioner, the candidate shall notify the state commissioner and the county commissioner in writing. The notice shall state the office for which the person chooses to remain a candidate. The notice shall be filed no later than the last day to file nomination papers with the commissioner. If the required notice is not filed, the candidate's name shall not appear on the ballot for any office in any county.

If necessary, the county commissioner shall certify to the state commissioner the name of any person who is a candidate for more than one office which will appear on the ballot for the election. The certifi-

cation of dual candidacy shall be made no later than five p.m. on the day following the final day to file nomination papers in the office of the commissioner.

When the state commissioner receives notice from the county commissioner that a candidate for a state or federal office has also been nominated for a county or township office, the state commissioner shall amend the certificate issued pursuant to section 43.73 and notify the commissioners of any other

counties to whom the candidate's name was originally certified and instruct them to remove the candidate's name from the ballot in those counties.

ABSENT VOTERS LAW

Any qualified elector, under the circumstances specified in section 53.1, may on any day, except election day, and not more than seventy days prior to the date of the election, apply in person for an absentee ballot at the commissioner's office or at any location designated by the commissioner, or make written application to the commissioner for an absentee ballot. The state commissioner shall prescribe a form for absentee ballot applications. However, if an elector submits an application that includes all of the information required in this section, the prescribed form is not required.

This section does not require that a written communication mailed to the commissioner's office to request an absentee ballot, or any other document be notarized as a prerequisite to receiving or marking an absentee ballot or returning to the commissioner an absentee ballot which has been voted.

Each application shall contain the name and signature of the qualified elector, the address at which the elector is qualified to vote, and the name or date of the election for which the absentee ballot is requested, and such other information as may be necessary to determine the correct absentee ballot for the qualified elector. If insufficient information has been provided, the commissioner shall, by the best means available, obtain the additional necessary information.

If the application is for a primary election ballot and the request is for a ballot of a party different from that recorded on the qualified elector's voter registration record, the requested ballot shall be mailed or given to the applicant together with a "Change or Declaration of Party Affiliation" form as prescribed in section 43.42, to be completed by the qualified elector at the time of voting. Upon receipt of the properly completed form, the commissioner shall approve the change or declaration and enter a notation of the change on the registration records.

If an application for an absentee ballot is received from an eligible elector who is not a qualified elector the commissioner shall send a registration form under section 48.3 and an absentee ballot to the eligible elector. If the application is received so late that it is unlikely that the registration form can be returned in time to be effective on election day, the commissioner shall enclose with the absentee ballot a notice to that effect, informing the voter of the registration time limits in sections 48.3 and 48.11. The commissioner shall record on the elector's application that the elector is not currently registered to vote. If the registration form is properly returned by

the time provided by section 48.3, the commissioner shall record on the elector's application the date of receipt of the registration form and enter a notation of the registration on the registration records.

A qualified elector who has not moved from the county in which the elector is registered to vote may submit a change of name, telephone number, or address on the form prescribed in section 48.3 when casting an absentee ballot. Upon receipt of a properly completed form, the commissioner shall enter a notation of the change on the registration records.

56.6 Disclosure reports.

1. *a* Each treasurer of a committee shall file with the commission or commissioner disclosure reports of contributions received and disbursed on forms prescribed by rules as provided by chapter 17A. The reports from all committees, except those committees for municipal and school elective offices and for local ballot issues, shall be filed on the twentieth day or mailed bearing a United States postal service postmark dated on or before the nineteenth day of January, May, July, and October of each year. The May, July, and October reports shall be current as of five days prior to the filing deadline. The January report shall be the annual report covering activity through December 31. However, a state or county statutory political committee is not required to file the May and July reports for a year in which no primary or general election is held. A candidate's committee, other than for municipal and school elective offices, for a year in which the candidate is not standing for election, is not required to file the May, July, and October reports. Reports for committees for a ballot issue placed before the voters of the entire state shall be filed at the January, May, July, and October deadlines.

b A candidate's committee of a candidate for statewide office or the general assembly shall file a supplementary report in a year in which a primary, general or special election for that office is held if the committee of a candidate for governor receives ten thousand dollars or more, a committee of a candidate for any other statewide office receives five thousand dollars or more, or the committee of a candidate for the general assembly receives one thousand dollars or more after the close of the period covered by the last report filed prior to that primary, general or special election. The amounts of contributions causing a supplementary report under this paragraph shall include the estimated fair market value of in-kind contributions. The report shall be filed by the Friday immediately preceding the election and be current through the Tuesday immediately preceding the election.

c A candidate's committee of a state officeholder shall file a letter report to be received within fourteen days of the receipt of any contribution from a political committee or from a lobbyist registered under the rules adopted by either house of the general assembly while the general assembly is in session. The committee may request, in writing, a fourteen-day extension on a letter report which shall be granted if received on or before the date the report is due. The letter report shall notify the commission of the following:

- (2) The name and complete address of the political committee or registered lobbyist making the contribution.
- (3) The amount of the contribution.
- (4) The date the contribution was received.

The provisions of this paragraph are in addition to any other reporting requirements of this chapter and any reporting rules adopted by either house of the general assembly.

d. A candidate's committee for a candidate for the general assembly at a special election shall file a report by the fourteenth day prior to the special election which is current through the nineteenth day prior to the special election.

e. Committees for municipal and school elective offices and local ballot issues shall file their first reports five days prior to any election in which the name of the candidate or the local ballot issue which they support or oppose appears on the printed ballot and shall file their next report on the first day of the month following the final election in a calendar year in which the candidate's name or the ballot issue appears on the ballot. A committee supporting or opposing a candidate for a municipal or school elective office or a local ballot issue shall also file disclosure reports on the twentieth day of January and October of each year in which the candidate or ballot issue does not appear on the ballot and on the twentieth day of January, May, and July of each year in which the candidate or ballot issue appears on the ballot, until the committee dissolves. These reports shall be current to five days prior to the filing deadline and are considered timely filed if mailed bearing a United States postal service postmark one or more calendar days preceding the due date.

f. A state statutory political committee and congressional district committees as authorized by the constitution of the state statutory political committee are not subject to this subsection if the state statutory political committee and congressional district political committees file copies of campaign disclosure reports as required by federal law with the commission at the times the reports are required to be filed under federal law, provided that the federal reports contain all information required by this chapter. A committee of a national political party is not required to file a disclosure report with the commission if it is required by federal law to file a campaign disclosure report with a federal agency.

2. If any committee, after having filed a statement of organization or one or more disclosure reports, dissolves or determines that it shall no longer receive contributions or make disbursements, the treasurer of the committee shall notify the commission or the commissioner within thirty days following such dissolution by filing a dissolution report on forms prescribed by the commission. Moneys refunded in accordance with a dissolution statement

shall be considered a disbursement or expense but the names of persons receiving refunds need not be released or reported unless the contributors' names were required to be reported when the contribution was received.

3. Each report under this section shall disclose:

a. The amount of cash on hand at the beginning of the reporting period.

b. c. The total amount of contributions made to the political committee during the reporting period and not reported under paragraph "b" of this subsection.

d. The name and mailing address of each person who has made one or more in-kind contributions to the committee when the aggregate market value of the in-kind contribution in a calendar year exceeds the amount specified in subsection 3, paragraph "b," of this section. In-kind contributions shall be designated on a separate schedule from schedules showing contributions of money and shall identify the nature of the contribution and provide its estimated fair market value.

e. Each loan to any person or committee within the calendar year in an aggregate amount in excess of those amounts enumerated in the schedule in paragraph "b" of this subsection, together with the name and mailing address of the lender and endorsers, the date and amount of each loan received, and the date and amount of each loan repayment. Loans received and loan repayments shall be reported on a separate schedule.

f. The total amount of proceeds from any fund-raising event. Contributions and sales at fund-raising events which involve the sale of a product acquired at less than market value and sold for an amount of money in excess of the amount specified in paragraph "b" of this subsection shall be designat-

ed separately from in-kind and monetary contributions and the report shall include the name and address of the donor, a description of the product, the market value of the product, the sales price of the product, and the name and address of the purchaser.

g. The name and mailing address of each person to whom disbursements or loan repayments have been made by the committee from contributions during the reporting period and the amount, purpose, and date of each disbursement except that disbursements of less than five dollars may be shown as miscellaneous disbursements so long as the aggregate miscellaneous disbursements to any one person during a calendar year do not exceed one hundred dollars. If disbursements are made to a consultant, the consultant shall provide the committee with a statement of disbursements made by the consultant during the reporting period showing the name and address of the recipient, amount, purpose, and date to the same extent as if made by the candidate, which shall be included in the report by the committee.

h. The amount and nature of debts and obligations owed in excess of those amounts stated in the schedule in paragraph "b" of this section by the committee. Loans made to a committee and reported under paragraph "b" of this subsection shall not be considered a debt or obligation under this paragraph. A loan made by a committee to any person shall be considered a disbursement.

i. If a person listed under paragraph "b", "d", "e", or "f" as making a contribution or loan to or purchase from a candidate's committee is related to the candidate within the third degree of consanguinity or affinity, the existence of that person's family relationship shall be indicated on the report.

j. The name and mailing address of each person with whom a candidate's committee has entered into a contract during the reporting period for future or continuing performance and the nature of the performance, period of performance and total, anticipated compensation for performance. For a report filed under subsection 1, paragraph "b", this paragraph also requires the reporting of estimates of performance which the candidate's committee reasonably expects to contract for during the balance of the period running until thirty days after the election.

k. Other pertinent information required by this chapter, by rules adopted pursuant to this chapter, or forms approved by the commission.

4. If no contributions have been accepted nor any disbursements made or indebtedness incurred during that reporting period, the treasurer of the committee shall file a disclosure statement which shows only the amount of cash on hand at the beginning of the reporting period.

5. A committee shall not dissolve until all loans, debts and obligations are paid, forgiven or transferred and the remaining money in the account is distributed according to the organization statement. If a loan is transferred or forgiven, the amount of the transferred or forgiven loan must be reported as an

in-kind contribution and deducted from the loans payable balance on the disclosure form. A statutory political committee is prohibited from dissolving, but may be placed in an inactive status upon the approval of the commission. Inactive status may be requested for a statutory political committee when no officers exist and the statutory political committee has ceased to function. The request shall be made by the previous treasurer or chairperson of the committee and by the appropriate state statutory political committee. A statutory political committee granted inactive status shall not solicit or expend funds in its name until the committee reorganizes and fulfills the requirements of a political committee under this chapter.

6. A permanent organization temporarily engaging in activity which would qualify it as a political committee shall organize a political committee and shall keep the funds relating to that political activity segregated from its operating funds. The political committee shall file reports in accordance with this chapter. When the permanent organization ceases to be involved in the political activity, it shall dissolve the political committee.

A communication regarding any subject by a permanent organization, which is a nonprofit organization, to its dues-paying members is not political activity requiring the organization of a political committee, reporting, or disclosure pursuant to this chapter.

As used in this subsection, "*permanent organization*" means an organization which is continuing, stable, and enduring, and which was originally organized for purposes other than engaging in election activities.

73.7 Bids and contracts for coal.

Before any user of coal designated in section 73.6, whose annual consumption of coal exceeds, in delivered value, the sum of three hundred dollars, purchases any coal, it shall make request for bids for the coal by advertising in a newspaper published in the county in which the purchaser has its principal office. The advertisement shall state the date, time and place the bids shall be received, which shall not be less than fifteen days after publication, and the advertisement shall contain the approximate quantity and description of coal to be purchased. The bids for the coal shall be opened in public at the time, date and place indicated in the advertisement and, unless the purchasing body determines that the general good of the state, including the best interests of the taxpayer and the employment of labor, the adaptability of the coal offered, or the efficiency and cost of operation of the purchaser's plant makes it advisable to do otherwise, the contract shall be let to the lowest responsible bidder. However, coal mined or produced in this state may be granted up to a five percent preference over coal mined or produced outside this state on the delivered cost per unit of heat produced. Any and all bids may be rejected; however, if all bids are rejected, then an advertisement for bids shall again be made. After a bid is accepted, a written contract shall be entered into and the successful bidder shall furnish a good and sufficient bond with qualified sureties for the faithful performance of the contract. Any contract for purchase of coal provided for in sections 73.6 to 73.9 may contain the provision that the purchaser may, in the event of an emergency, purchase coal elsewhere without advertising for bids in any year, for not more than ten percent of the purchaser's annual coal requirements.

Notwithstanding the provisions of this chapter or other statutes, a governing body of the state, in its sole discretion, is permitted to enter into negotiations with a supplier of coal produced within the state of Iowa in order to modify an existing contract for the purchase of coal. The governing body and the supplier may modify the contract in any manner mutually agreed upon.

b. An amount equal to the amount which would be withheld pursuant to withholding tables in effect on July 1 preceding the injury under chapter 422, and any rules pursuant thereto, as though the employee had elected to claim the maximum number of exemptions for actual dependency, blindness and old age to which the employee is entitled on the date on which the employee was injured.

12. *Collection of penalties.* Civil penalties owed under this chapter shall be paid to the commissioner for deposit with the treasurer of state and shall accrue to the state and may be recovered in a civil action in the name of the state brought in the district court of the county where the violation is alleged to have occurred or where the employer has its principal office.

The special inspector shall notify the user and the commissioner of any equipment or appurtenance found to be unsafe or unfit for operation in writing, setting forth the nature and extent of such defects and condition. The commissioner shall indicate to the user whether or not the equipment may be used without making repair or replacement of defective parts, or whether or how the equipment may be used in a limited capacity before repairs or replacements are made, and the commissioner may permit the user a reasonable time to make such repairs or replacements. The failure of a special inspector to inform the commissioner of violations shall not subject the commissioner to liability for any damages incurred.

3. To issue from time to time bulletins containing information of importance to the industries of the state and to the safety of wage earners.

4. To conduct and to co-operate with other interested persons and organizations in conducting educational programs and projects on employment safety.

5. The director of the department of employment services, in consultation with the labor commissioner, shall, at the time provided by law, make an annual report to the governor setting forth in appropriate form the business and expense of the division of labor services for the preceding year, the

number of disputes or violations processed by the division and the disposition of the disputes or violations, and other matters pertaining to the division which are of public interest, together with recommendations for change or amendment of the laws in this chapter and chapters 88, 88A, 88B, 89, 89A, 89B, 90A, 91A, 91B, 92, 94, and 95, and in section 327F.37, and the recommendations, if any, shall be transmitted by the governor to the first general assembly in session after the report is filed.

CHAPTER 91C

REGISTRATION OF CONSTRUCTION CONTRACTORS

91C.1 Definition — exemption.

1. As used in this chapter, unless the context otherwise requires, “contractor” means a person who engages in the business of construction, as the term “construction” is defined in section 345-3.82 (96), Iowa Administrative Code, for purposes of the Iowa employment security law. However, a person who earns less than one thousand dollars annually or who performs work or has work performed on the person’s own property is not a contractor for purposes of this chapter. The state, its boards, commissions, agencies, departments, and its political subdivisions including school districts and other special purpose districts, are not contractors for purposes of this chapter.

2. If a contractor’s registration application shows that the contractor is self-employed, does not pay more than one thousand dollars annually to employ other persons in the business, and does not work with or for other contractors in the same phases of construction, the contractor is exempt from the fee requirements under this chapter.

91 Acts, ch 136, §4 SF 503
Subsection 1 amended

91C.7 Contracts — contractor’s bond.

1. A contractor who is not registered with the labor commissioner as required by this chapter shall not be awarded a contract to perform work for the state or an agency of the state.

2. An out-of-state contractor, before commencing a contract in excess of five thousand dollars in value in Iowa, shall file a bond with the division of labor services of the department of employment services. The surety bond shall be executed by a surety company authorized to do business in this state, and the bond shall be continuous in nature until canceled by the surety with not less than thirty days’ written notice to the contractor and to the division of labor services of the department of employment services indicating the surety’s desire to cancel the bond. The surety company shall not be liable under the bond for any contract commenced after the cancellation of the bond. The bond shall be in the sum of the greater of the following:

- a. One thousand dollars.
- b. Five percent of the contract price.

An out-of-state contractor may file a blanket bond in an amount at least equal to fifty thousand dollars for the registration period established under section 91C.4 in lieu of filing an individual bond for each contract. The division of labor services of the department of employment services may increase the bond amount after a hearing.

3. Release of the bond shall be conditioned upon the payment of all taxes, including contributions due under the unemployment compensation insurance system, penalties, interest, and related fees, which may accrue to the state of Iowa. If at any time during the term of the bond, the department of revenue and finance or the department of employment services determines that the amount of the bond is not sufficient to cover the tax liabilities accruing to the state of Iowa, the labor commissioner shall require the bond to be increased by an amount the labor commissioner deems sufficient to cover the tax liabilities accrued and accruing.

4. The department of revenue and finance and the division of job service of the department of employment services shall adopt rules for the collection of the forfeiture. Notice shall be provided to the surety and to the contractor. Notice to the contractor shall be mailed to the contractor’s last known address and to the contractor’s registered agent for service of process, if any, within the state. The contractor or surety shall have the opportunity to apply to the director of revenue and finance for a hearing within thirty days after the giving of such notice. Upon the failure to timely request a hearing, the bond shall be forfeited. If, after the hearing upon timely request, the department of revenue and finance or the division of job service of the department of employment services finds that the contractor has failed to pay the total of all taxes payable, the department of revenue and finance or the department of employment services shall order the bond forfeited. The amount of the forfeiture shall be the amount of taxes payable or the amount of the bond, whichever is less. For purposes of this section “taxes payable” means all tax, penalties, interest, and fees that the department of revenue and finance has previously determined to be due to the state by assessment or in an appeal of an assessment, including contributions to the unemployment compensation insurance system.

5. If it is determined that this section may cause denial of federal funds which would otherwise be available, or would otherwise be inconsistent with requirements of federal law, this subsection shall be suspended, but only to the extent necessary to prevent denial of the funds or to eliminate the inconsistency with federal requirements.

6. The bond required by this section may be attached by the commissioner for collection of fees and penalties due to the division.

CHAPTER 93

ENERGY DEVELOPMENT AND CONSERVATION

93.11 Energy conservation trust established — receipts and disbursements.

1. *a.* The energy conservation trust is created within the state treasury. This state on behalf of itself, its citizens, and its political subdivisions accepts any moneys awarded or allocated to the state, its citizens, and its political subdivisions as a result of the federal court decisions and federal department of en-

ergy settlements resulting from alleged violations of federal petroleum pricing regulations and deposits the moneys in the energy conservation trust.

b. The energy conservation trust is established to provide for an orderly, efficient, and effective mechanism to make maximum use of moneys available to the state, in order to increase energy conservation efforts and thereby to save the citizens of this

state energy expenditures. The moneys in the funds in the trust shall be expended only upon appropriation by the general assembly and only for programs which will benefit citizens who may have suffered economic penalties resulting from the alleged petroleum overcharges.

c The moneys awarded or allocated from each court decision or settlement shall be placed in a separate fund in the energy conservation trust. Notwithstanding section 453.7, interest and earnings on investments from moneys in the trust shall be credited proportionately to the funds in the trust.

d Unless prohibited by the conditions applying to a settlement, the petroleum overcharge moneys in the energy conservation trust may be used for the payment of attorney fees and expenses incurred by the state to obtain the moneys and shall be paid by the director of revenue and finance from the available moneys in the trust subject to the approval of the attorney general.

e However, petroleum overcharge moneys received pursuant to claims filed on behalf of the state, its institutions, departments, agencies, or political subdivisions shall be deposited in the general fund of the state to be disbursed directly to the appropriate claimants in accordance with federal guidelines and subject to the approval of the attorney general.

f The moneys deposited in the energy research and development fund shall be used for research and development of selected projects to improve Iowa's energy independence by developing improved methods of energy efficiency, or by increased development and use of Iowa's renewable nonresource-depleting energy resources. The moneys credited to the fund under section 556.18 shall be used for energy conservation and alternative energy resource projects. The projects shall be selected by the director and administered by the department. Selection criteria for funded projects shall include consideration of indirect restitution to those persons in the state in the utility customer classes and the utility service territories affected by unclaimed utility refunds or deposits.

Notwithstanding the provisions of this section directing that moneys be deposited into the energy research and development fund, for the fiscal period beginning July 1, 1991, and ending June 30, 1993, all moneys shall be deposited into the general fund of the state. There is appropriated annually from the general fund of the state the sum of one hundred fifty thousand dollars to be used for the purposes of this section.

2 The treasurer of state shall be the custodian of the energy conservation trust and shall invest the moneys in the trust, in consultation with the energy fund disbursement council established in subsection 3 and the investment board of the Iowa public employees' retirement system, in accordance with the following guidelines:

a To maximize the rate of return on moneys in the trust while providing sufficient liquidity to make fund disbursements, including contingency disbursements

b To absolutely insure the trust against loss

c To use such investment tools as are necessary to achieve these purposes

3 An energy fund disbursement council is established. The council shall be composed of the governor or the governor's designee, the director of the department of management, who shall serve as the council's chairperson, the administrator of the division of community action agencies of the department of human rights, the administrator of the energy and geological resources division of the department of natural resources, and a designee of the director of the department of transportation, who is knowledgeable in the field of energy conservation. The council shall include as nonvoting members two members of the senate appointed by the president of the senate, after consultation with the majority leader and the minority leader of the senate, and two members of the house of representatives appointed by the speaker of the house. The legislative members shall be appointed upon the convening and for the period of each general assembly. Not more than one member from each house shall be of the same political party. The council shall be staffed by the energy and geological resources division of the department of natural resources. The attorney general shall provide legal assistance to the council.

The council shall

a Oversee the investment of moneys deposited in the energy conservation trust

b Make recommendations to the governor and the general assembly regarding annual appropriations from the energy conservation trust

c Work with the energy and geological resources division in adopting administrative rules necessary to administer expenditures from the trust, encourage applications for grants and loans, review and select proposals for the funding of competitive grants and loans from the energy conservation trust, and evaluate their comparative effectiveness

d Monitor expenditures from the trust

e Approve any grants or contracts awarded from the energy conservation trust in excess of five thousand dollars

f Prepare, in conjunction with the energy and geological resources division, an annual report to the governor and the general assembly regarding earnings of and expenditures from the energy conservation trust

4 The administrator of the energy and geological resources division of the department of natural resources shall be the administrator of the energy conservation trust. The administrator shall disburse moneys appropriated by the general assembly from the funds in the trust in accordance with the federal court orders, law and regulation, or settlement conditions applying to the moneys in that fund, and subject to the approval of the energy fund disbursement council if such approval is required. The council, after consultation with the attorney general, shall immediately approve the disbursement of moneys from the funds in the trust for projects which meet

the federal court orders, law and regulations, or settlement conditions which apply to that fund.

5. The following funds are established in the energy conservation trust:

- a. The Warner/Imperial fund.
- b. The Exxon fund.
- c. The Stripper Well fund.
- d. The Diamond Shamrock fund.
- e. The office of hearings and appeals second-stage settlement fund.
- f. The energy research and development fund.

6. The moneys in the fund in the energy conservation trust distributed to the state as a result of the 1985 federal court decision finding Exxon corporation in violation of federal petroleum pricing regulations shall be expended, to the extent possible, over a period of no more than six years and shall be disbursed for projects which meet the strict guidelines of the five existing federal energy conservation programs specified in Pub. L. No. 97-377, § 155, 96 Stat. 1830, 1919 (1982). The council shall approve the disbursement of petroleum overcharge moneys from the fund in the trust for other projects only if the project meets one or more of the following conditions:

- a. The projects meet the guidelines for allowable projects under a modification order entered by the federal court in the case involving Exxon corporation.
- b. The projects meet the guidelines for allowable projects under a directive order entered by the federal court in the case involving Exxon corporation.
- c. The projects meet the guidelines for allowable projects under the regulations adopted or written clarifications issued by the United States department of energy.

The energy conservation measure financings shall be supported through payments from energy savings.

The department shall not require a school district, community college, area education agency, city, or county to perform an engineering analysis if the school district, community college, area education agency, city, or county demonstrates to the department that the facility which is the subject of the proposed engineering analysis at issue is unlikely to be in use or operation in six years by the governmental entity currently using or occupying the facility.

93.19 Energy bank program.

The energy bank program is established by the department. The energy bank program consists of the following forms of assistance for the state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, and nonprofit organizations:

1. Providing moneys from the petroleum overcharge fund for conducting energy audits for school districts under section 279.44, for conducting comprehensive engineering analyses for school districts and for conducting energy audits and comprehensive engineering analyses for state agencies, and political subdivisions of the state.

2. Providing loans, leases, and other methods of alternative financing from the energy loan fund established in section 93.20 and section 93.20A for the state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, and nonprofit organizations to implement energy conservation measures.

3. Serving as a source of technical support for energy conservation management.

4. Providing assistance for obtaining insurance on the energy savings expected to be realized from the implementation of energy conservation measures.

5. Providing self-liquidating financing for the state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, and nonprofit organizations pursuant to section 93.20A.

For the purpose of this section, section 93.20, and section 93.20A, "energy conservation measure" means construction, rehabilitation, acquisition, or modification of an installation in a facility or vehicle

which is intended to reduce energy consumption, or energy costs, or both, or allow the use of an alternative energy source, which may contain integral control and measurement devices. “*Nonprofit organization*” means an organization exempt from federal income taxation under section 501(c)(3) of the Internal Revenue Code.

93.20 Energy loan fund.

An energy loan fund is established in the office of the treasurer of state to be administered by the department.

1. The department may make loans to the state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, and nonprofit organizations for implementation of energy conservation measures identified in a comprehensive engineering analysis. Loans shall not be made for energy conservation measures that require more than an average of six years for the state, state agency, political subdivision of the state, school district, area education agency, community college, or nonprofit organization as an entity to recoup the actual or projected cost of construction and acquisition of the improvements; and cost of the engineering plans and specifications. For the state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, and nonprofit organizations to receive a loan from the fund, the department shall require completion of an energy management plan including an energy audit and a comprehensive engineering analysis. The department shall approve loans made under this section.

2. Cities and counties shall repay the loans from moneys in their debt service funds. Area education agencies shall repay the loans from any moneys available to them.

School districts and community colleges may enter into financing arrangements with the department or its duly authorized agents or representatives obligating the school district or community college to make payments on the loans beyond the current budget year of the school district or community college. Chapter 75 shall not be applicable. School districts shall repay the loans from moneys in either their general fund or schoolhouse fund. Community colleges shall repay the loans from their general fund. Other entities receiving loans under this section shall repay the loans from any moneys available to them.

3. The department may accept gifts, federal funds, state appropriations, and other moneys for deposit in the energy loan fund or may fund the energy loan fund in accordance with section 93.20A.

4. For the purpose of this section, “*loans*” means loans, leases, or alternative financing arrangements.

5. The state, state agencies, political subdivisions of the state, school districts, area education agencies, and community colleges shall design and

construct the most energy cost-effective facilities feasible and shall use the financing made available by the department to cover the incremental costs above minimum building code energy efficiency standards of purchasing energy efficient devices and materials unless other lower cost financing is available. As used in this section, “*facility*” means a structure that is heated or cooled by a mechanical or electrical system, or any system of physical operation that consumes energy to carry out a process.

6. The department shall not require the state, state agencies, political subdivisions of the state, school districts, area education agencies, and community colleges to implement a specific energy conservation measure identified in a comprehensive engineering analysis if the entity which prepared the analysis demonstrates to the department that the facility which is the subject of the energy conservation measure is unlikely to be used or operated for the full period of the expected payback of the energy conservation measure.

93.20A Self-liquidating financing.

1. The department of natural resources may enter into financing agreements with the state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, or nonprofit organizations in order to provide the financing to pay the costs of furnishing energy conservation measures. The provisions of section 93.20 defining eligible energy conservation measures and the method of repayment of the loans apply to financings under this section.

The financing agreement may contain provisions, including interest, term, and obligations to make payments on the financing agreement beyond the current budget year, as may be agreed upon between the department of natural resources and the state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, or nonprofit organizations.

2. For the purpose of funding its obligation to furnish moneys under the financing agreements, or to fund the energy loan fund created in section 93.20, the treasurer of state, with the assistance of the department of natural resources, or the treasurer of state’s duly authorized agents or representatives, may incur indebtedness or enter into master lease agreements or other financing arrangements to borrow to accomplish energy conservation measures, or the department of natural resources may enter into master lease agreements or other financing arrangements to permit the state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, or nonprofit organizations to borrow sufficient funds to accomplish the energy conservation measure. The obligations may be in such form, for such term, bearing such interest and containing such provisions as the department of natural resources, with the assistance of the

treasurer of state, deems necessary or appropriate. Funds remaining after the payment of all obligations have been redeemed shall be paid into the energy loan fund.

3. The state, state agencies, political subdivisions of the state, school districts, area education agencies, community colleges, and nonprofit organizations may enter into financing agreements and issue obligations necessary to carry out the provisions of the chapter. Chapter 75 shall not be applicable.

93.40 Statewide building energy efficiency rating system.

1. The director shall adopt rules, pursuant to chapter 17A, establishing a statewide building energy efficiency rating system. The rating system shall apply to all new and existing public, commercial, industrial, and residential buildings in the state and shall be established subject to the following schedule:

- a. Ratings for new residential buildings by July 1, 1992.
- b. Ratings for existing residential buildings by July 1, 1993.
- c. Ratings for new public buildings by July 1, 1994.
- d. Ratings for existing public buildings by July 1, 1995.
- e. Ratings for new commercial and industrial buildings by July 1, 1995.
- f. Ratings for existing commercial and industrial buildings by July 1, 1995.

The director shall adopt a minimum acceptable energy efficiency standard for each class of new buildings.

2. a. The energy efficiency rating shall be disclosed at the request of the prospective purchaser according to the terms of the offer to purchase.

b. The energy efficiency rating shall be disclosed to a prospective lessee whose rent does not include energy cost upon request.

c. The designer of a new residential or commercial building shall state in writing to the department that to the best of the person's knowledge, information, and belief, the new building design is in substantial compliance with the minimum energy efficiency standards established by rule of the department.

d. Concurrent with the disclosure of an energy efficiency rating pursuant to paragraphs "a" through "c", the prospective purchaser or lessee shall be provided with a copy of an information brochure prepared by the department which includes information relevant to that class of building, including, but not limited to:

- (1) How to analyze the building's energy efficiency rating.
- (2) Comparisons to statewide averages for new and existing construction of that class.
- (3) Notice to the prospective purchaser that the

seller must disclose a building's energy efficiency rating upon the prospective purchaser's request.

(4) Information concerning methods to improve a building's energy efficiency rating.

(5) A notice for residential buyers that qualifying income for mortgage loan purposes may be affected by the energy efficiency rating.

e. A new residential, commercial, or industrial building shall not be hooked up or connected to any provider of electricity, whether a regulated utility, rural electric cooperative, municipal utility, or otherwise; or natural gas, except liquid petroleum, unless the builder states in writing to the utility that to the best of the builder's knowledge, information, and belief, the building was built in accordance with the construction documents.

f. Each public building proposed for construction, renovation, or acquisition shall be rated pursuant to the energy efficiency rating system provided in subsection 1 prior to contracting for the construction, renovation, or acquisition. The public body proposing to contract for construction, renovation, or acquisition for a public building shall consider the energy efficiency ratings of alternatives when contracting.

3. The energy efficiency rating system adopted by the department shall provide a means of analyzing and comparing the relative energy efficiency of buildings upon sale or lease of new or existing residential, commercial, or industrial buildings. The system shall provide for rating each public building in existence to assist public officials in decision making with regard to capital improvements and public energy costs.

4. The director shall establish a voluntary working group of persons and interest groups interested in the energy efficiency rating system or energy efficiency, including, but not limited to such persons as electrical engineers, mechanical engineers, architects, and builders. The interest group shall advise the department in the development of the energy efficiency rating system and shall assist the department in implementation of the rating system by coordinating education programs for designers, builders, businesses, and other interested persons to assist compliance and to facilitate incorporation of the rating system into existing practices. The intent of the general assembly is to encourage the consideration of the energy efficiency rating system in the market, so as to provide market rewards for energy efficient buildings and those designing, building, or selling energy efficient buildings.

5. All public buildings shall be analyzed for energy efficiency using this rating system by July 1, 1996. The results of that analysis shall be submitted to the department by August 1, 1996. The department shall submit a report to the governor and general assembly by January 15, 1997, that analyzes the results of this evaluation of public buildings and includes recommendations. The results of the analysis of each building shall be submitted to the public agency or governmental subdivision which owns or operates that building as well.

6. The director shall make available energy efficiency practices information to be used by individuals involved in the design, construction, retrofitting, and maintenance of buildings for state and local governments.

7. For purposes of this section:

a. *“Builder”* means the prime contractor that hires and coordinates building subcontractors or if there is no prime, the contractor that completes more than fifty percent of the total construction work performed on the building. Construction work includes, but is not limited to, foundation, framing, wiring, plumbing, and finishing work.

b. *“Designer”* means the architect, engineer, landscape architect, builder, interior designer or other person who performs the actual design work or under whose direct supervision and responsible charge the construction documents are prepared.

8. The director may report an architect, professional engineer, or landscape architect to the appropriate examining board if the director believes the person has engaged in fraudulent conduct in connection with an energy efficiency rating for a building. The director may report a builder to the division of labor, bureau of contractor registration, if the director believes the builder has engaged in fraudulent conduct in connection with an energy efficiency rating for a building.

MIDWEST ENERGY COMPACT

93A.1 Midwest energy compact.

The midwest energy compact is enacted into law and entered into with all other states which legally join in the compact in substantially the following form:

INTERSTATE COMPACT ON ENERGY
ARTICLE I — PURPOSE

It is the purpose of this compact to protect, preserve, and enhance:

a. The economic and general welfare of citizens

of the joining states by increasing energy efficiency and energy independence.

b. The economies and very existence of local communities in such states, the economies of which are dependent upon imported energy sources.

ARTICLE II — COMMISSION

a. Organization and management

1. There is hereby created an agency of the member states to be known as the interstate midwest en-

ergy commission, hereinafter called the commission. The commission shall consist of three residents of each member state who shall have a background in energy efficiency and who shall be appointed as follows. One member appointed by the governor, who shall serve at the pleasure of the governor, one senator appointed in the manner prescribed by the senate of the state, except that in Iowa the appointment shall be made by the president of the senate, after consultation with the majority leader and the minority leader of the senate, and except that two senators may be appointed by the governor of the state of Nebraska from the unicameral legislature of the state of Nebraska, and one member of the house of representatives appointed in the manner prescribed by the house of representatives of the state. The member first appointed by the governor shall serve for a term of one year and the senator and representative first appointed shall each serve for a term of two years. Thereafter all members appointed shall serve for two-year terms. The attorneys general of member states or assistants designated by the attorneys general shall be nonvoting members of the commission.

2 Each member shall be entitled to one vote. A member must be present to vote and no voting by proxy shall be permitted. The commission shall not act unless a majority of the voting members are present, and no action shall be binding unless approved by a majority of the total number of voting members present.

3 The commission shall be a body corporate of each member state and shall adopt an official seal to be used as it may provide.

4 The commission shall hold an annual meeting and other regular meetings as its bylaws may provide and special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings, and shall provide for the giving of notice of annual, regular, and special meetings. Notices of special meetings shall include the reasons therefor and an agenda of the items to be considered.

5 The commission shall elect annually, from among its voting members, a chairperson, a vice chairperson, and a treasurer. The commission shall appoint an executive director who shall serve at its pleasure, and shall fix the duties and compensation of the director. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of those of its officers and employees as it may deem appropriate.

6 Irrespective of the civil service, personnel, or other merit system laws of any member state, the executive director shall appoint or discharge personnel as may be necessary for the performance of the functions of the commission and shall fix, with the approval of the commission, their duties and compensation. The commission bylaws shall provide for personnel policies and programs. The commission may establish and maintain, independently of or in conjunction with any one or more of the member

states, a suitable retirement system for its full time employees. Employees of the commission shall be eligible for social security coverage in respect of old age and survivors insurance provided that the commission takes steps as may be necessary pursuant to federal law to participate in the program of insurance as a governmental agency or unit. The commission may establish and maintain or participate in additional programs of employee benefits as may be appropriate. The commission may borrow, accept, or contract for the services of personnel from any state, the United States, or any other governmental entity.

7 The commission may accept for any of its purposes and functions any and all donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any governmental entity, and may utilize and dispose of the same.

8 The commission may establish one or more offices for the transacting of its business.

9 The commission shall adopt bylaws for the conduct of its business. The commission shall publish its bylaws in convenient form, and shall file a copy of the bylaws and any amendments thereto with the appropriate agency or officer in each of the member states.

10 The commission annually shall make to the governor and legislature of each member state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission, and shall include the nature, amount, and conditions, if any, of the donation, gift, grant, or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

b Committees

1 The commission may establish committees from its membership as its bylaws may provide for the carrying out of its functions.

ARTICLE III — POWERS AND DUTIES OF COMMISSION

a The commission shall conduct comprehensive and continuing studies and investigations of energy efficiency measures and their relationship to and effect upon the citizens and economies of the member states.

b The commission shall make recommendations for the correction of weaknesses and solutions to problems in present energy efficiency measures or the development of alternatives thereto, including the development, drafting, and recommendation of proposed state or federal legislation.

c The commission is hereby authorized to do all things necessary and incidental to the administration of its functions under this compact.

ARTICLE IV — FINANCE

a. The commission shall submit to the governor of each member state a budget of its estimated expenditures for the period required by the laws of that state for presentation to the legislature of that state.

b. The moneys necessary to finance the general operations of the commission not otherwise provided for in carrying forth its duties, responsibilities, and powers as stated herein shall be appropriated to the commission by the member states, when authorized by the respective legislatures. Appropriations by member states for the financing of the operations of the commission in the initial biennium of the compact shall be in the amount of fifty thousand dollars for each member state. Thereafter the total amount of appropriations requested shall be apportioned among the member states in the manner determined by the commission. Failure of a member state to provide its share of financing is cause for the state to lose its membership in the compact.

c. The commission shall not incur any obligations of any kind prior to the making of appropriations adequate to meet the same, nor shall the commission pledge the credit of any of the member states, except by and with the authority of the member state.

d. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public ac-

countant and the report of the audit shall be included in and become part of the annual report of the commission.

e. The accounts of the commission shall be open for inspection at any reasonable time.

ARTICLE V — ELIGIBLE PARTIES,
ENTRY INTO FORCE,
WITHDRAWAL, AND TERMINATION

a. Any state contiguous to Iowa may become a member of this compact.

b. This compact shall become effective initially when enacted into law by any five states and in additional states upon their enactment of the same into law.

c. Any member state may withdraw from this compact by enacting a statute repealing the compact, but such withdrawal shall not become effective until one year after the enactment of the repealing statute and the notification of the commission thereof by the governor of the withdrawing state. A withdrawing state shall be liable for any obligations which it incurred on account of its membership up to the effective date of withdrawal, and if the withdrawing state has specifically undertaken or committed itself to any performance of an obligation extending beyond the effective date of withdrawal, it shall remain liable to the extent of that obligation.

d. This compact shall terminate one year after the notification of withdrawal by the governor of any member state which reduces the total membership in the compact to less than five states.

CHAPTER 96

EMPLOYMENT SECURITY — JOB SERVICE DIVISION — UNEMPLOYMENT COMPENSATION

96.4 Required findings.

An unemployed individual shall be eligible to receive benefits with respect to any week only if the division of job service finds that:

1. The individual has registered for work at and thereafter has continued to report at an employment office in accordance with such regulations as the division may prescribe. The provisions of this subsection shall be waived if the individual is deemed temporarily unemployed as defined in section 96.19, subsection 9, paragraph "c".

2. The individual has made a claim for benefits in accordance with the provisions of section 96.6, subsection 1.

3. The individual is able to work, is available for work, and is earnestly and actively seeking work. This subsection is waived if the individual is deemed partially unemployed, while employed at the individual's regular job, as defined in section 96.19, subsection 9, paragraph "b", unnumbered paragraph 1, or temporarily unemployed as defined in section 96.19, subsection 9, paragraph "c". The work search requirements of this subsection and the disqualification requirement for failure to apply for, or to accept suitable work of section 96.5, subsection 3 are waived if the individual is not disqualified for benefits under section 96.5, subsection 1, paragraph "i".

4. The individual has been paid wages for in-

sured work during the individual's base period in an amount at least one and one-quarter times the wages paid to the individual during that quarter of the individual's base period in which the individual's wages were highest; provided that the individual has been paid wages for insured work totaling at least three and five-tenths percent of the statewide average annual wage for insured work, computed for the preceding calendar year if the individual's benefit year begins on or after the first full week in July and computed for the second preceding calendar year if the individual's benefit year begins before the first full week in July, in that calendar quarter in the individual's base period in which the individual's wages were highest, and the individual has been paid wages for insured work totaling at least one-half of the amount of wages required under this subsection in the calendar quarter of the base period in which the individual's wages were highest, in a calendar quarter in the individual's base period other than the calendar quarter in which the individual's wages were highest. The calendar quarter wage requirements shall be rounded to the nearest multiple of ten dollars.

If the individual has drawn benefits in any benefit year, the individual must during or subsequent to that year, work in and be paid wages for insured work totaling at least two hundred fifty dollars, as a condition to receive benefits in the next benefit year.

5. Benefits based on service in employment in a nonprofit organization or government entity, defined in section 96.19, subsection 6, are payable in the same amount, on the same terms and subject to the same conditions as compensation payable on the same basis of other service subject to this chapter, except that:

a. Benefits based on service in an instructional, research, or principal administrative capacity in an educational institution including service in or provided to or on behalf of an educational institution while in the employ of an educational service agency, a government entity, or a nonprofit organization shall not be paid to an individual for any week of unemployment which begins during the period between two successive academic years or during a similar period between two regular terms, whether or not successive, or during a period of paid sabbatical leave provided for in the individual's contract, if the individual has a contract or reasonable assurance that the individual will perform services in any such capacity for any educational institution for both such academic years or both such terms.

b. Benefits based on service in any other capacity for an educational institution including service in or provided to or on behalf of an educational institution while in the employ of an educational service agency, a government entity, or a nonprofit organization, shall not be paid to an individual for any week of unemployment which begins during the period between two successive academic years or terms, if the individual performs the services in the first of such academic years or terms and has reasonable assurance

that the individual will perform services for the second of such academic years or terms. If benefits are denied to an individual for any week as a result of this paragraph and the individual is not offered an opportunity to perform the services for an educational institution for the second of such academic years or terms, the individual is entitled to retroactive payments of benefits for each week for which the individual filed a timely claim for benefits and for which benefits were denied solely by reason of this paragraph.

c. With respect to services for an educational institution in any capacity under paragraph "a" or "b", benefits shall not be paid to an individual for any week of unemployment which begins during an established and customary vacation period or holiday recess if the individual performs the services in the period immediately before such vacation period or holiday recess, and the individual has reasonable assurance that the individual will perform the services in the period immediately following such vacation period or holiday recess.

d. For purposes of this subsection, "educational service agency" means a governmental agency or government entity which is established and operated exclusively for the purpose of providing educational services to one or more educational institutions.

6. a. An otherwise eligible individual shall not be denied benefits for any week because the individual is in training with the approval of the commissioner, nor shall the individual be denied benefits with respect to any week in which the individual is in training with the approval of the commissioner by reason of the application of the provision in subsection 3 of this section relating to availability for work, and an active search for work or the provision of section 96.5, subsection 3, relating to failure to apply for or a refusal to accept suitable work. However, an employer's account shall not be charged with benefits so paid.

b. An otherwise eligible individual shall not be denied benefits for a week because the individual is in training approved under 19 U.S.C. sec. 2296(a), as amended by section 2506 of the federal Omnibus Budget Reconciliation Act of 1981, because the individual leaves work which is not suitable employment to enter the approved training, or because of the application of subsection 3 of this section or section 96.5, subsection 3, or a federal unemployment insurance law administered by the division of job service relating to availability for work, active search for work, or refusal to accept work.

For purposes of this paragraph, "suitable employment" means work of a substantially equal or higher skill level than an individual's past adversely affected employment, as defined in 19 U.S.C. § 2319(l), if weekly wages for the work are not less than eighty percent of the individual's average weekly wage.

Subsection 3 amended

Subsection 6, paragraph b, unnumbered paragraph 2 amended

96.5 Causes for disqualification.

An individual shall be disqualified for benefits

1 *Voluntary quitting* If the individual has left work voluntarily without good cause attributable to the individual's employer, if so found by the division of job service. But the individual shall not be disqualified if the division finds that

a The individual left employment in good faith for the sole purpose of accepting other employment, which the individual did accept, and that the individual remained continuously in said new employment for not less than six weeks. Wages earned with the employer that the individual has left shall, for the purpose of computing and charging benefits, be deemed wages earned from the employer with whom the individual accepted other employment. The division shall advise the chargeable employer of the name and address of the former employer, the period covered, and the extent of benefits which may be charged to the account of the chargeable employer. In those cases where the new employment is in another state, no employer's account shall be charged with benefits so paid except that employers who are required by law or by their election to reimburse the fund for benefits paid shall be charged with benefits under this paragraph. In those cases where the individual left employment in good faith for the sole purpose of accepting better employment, which the individual did accept and such employment is terminated by the employer, or the individual is laid off after one week but prior to the expiration of six weeks, the individual, provided the individual is otherwise eligible under this chapter, shall be eligible for benefits and such benefits shall not be charged to any employer's account.

b Reserved

c The individual left employment for the necessary and sole purpose of taking care of a member of the individual's immediate family who was then injured or ill, and if after said member of the family sufficiently recovered, the individual immediately returned to and offered the individual's services to the individual's employer, provided, however, that during such period the individual did not accept any other employment.

d The individual left employment because of illness, injury or pregnancy upon the advice of a licensed and practicing physician, and upon knowledge of the necessity for absence immediately notified the employer, or the employer consented to the absence, and after recovering from the illness, injury or pregnancy, when recovery was certified by a licensed and practicing physician, the individual returned to the employer and offered to perform services and the individual's regular work or comparable suitable work was not available, if so found by the division, provided the individual is otherwise eligible.

e The individual left employment upon the advice of a licensed and practicing physician, for the

sole purpose of taking a member of the individual's family to a place having a different climate, during which time the individual shall be deemed unavailable for work, and notwithstanding during such absence the individual secures temporary employment, and returned to the individual's regular employer and offered the individual's services and the individual's regular work or comparable work was not available, provided the individual is otherwise eligible.

f The individual left the employing unit for not to exceed ten working days, or such additional time as may be allowed by the individual's employer, for compelling personal reasons, if so found by the division, and prior to such leaving had informed the individual's employer of such compelling personal reasons, and immediately after such compelling personal reasons ceased to exist the individual returned to the individual's employer and offered the individual's services and the individual's regular or comparable work was not available, provided the individual is otherwise eligible, except that during the time the individual is away from the individual's work because of the continuance of such compelling personal reasons, the individual shall not be eligible for benefits.

g The individual left work voluntarily without good cause attributable to the employer under circumstances which did or would disqualify the individual for benefits, except as provided in paragraph "a" of this subsection but, subsequent to the leaving, the individual worked in and was paid wages for insured work equal to ten times the individual's weekly benefit amount, provided the individual is otherwise eligible.

h "*Principal support*" shall mean exclusive of the earnings of any child of the wage earner.

i The individual has left employment in lieu of exercising a right to bump or oust a fellow employee with less seniority or priority from the fellow employee's job.

j The individual is unemployed as a result of the individual's employer selling or otherwise transferring a clearly segregable and identifiable part of the employer's business or enterprise to another employer which does not make an offer of suitable work to the individual as provided under subsection 3, however, if the individual does accept, and works in and is paid wages for, suitable work with the acquiring employer, the acquiring employer immediately becomes chargeable for the benefits paid which are based on the wages paid by the transferring employer.

2 *Discharge for misconduct* If the division of job service finds that the individual has been discharged for misconduct in connection with the individual's employment.

a The individual shall be disqualified for benefits until the individual has worked in and has been paid wages for insured work equal to ten times the individual's weekly benefit amount, provided the individual is otherwise eligible.

b Provided further, if gross misconduct is estab-

lished, the division shall cancel the individual's wage credits earned, prior to the date of discharge, from all employers

c Gross misconduct is deemed to have occurred after a claimant loses employment as a result of an act constituting an indictable offense in connection with the claimant's employment, provided the claimant is duly convicted thereof or has signed a statement admitting the commission of such an act. Determinations regarding a benefit claim may be redetermined within five years from the effective date of the claim. Any benefits paid to a claimant prior to a determination that the claimant has lost employment as a result of such act shall not be considered to have been accepted by the claimant in good faith

3. *Failure to accept work* If the division of job service finds that an individual has failed, without good cause, either to apply for available, suitable work when directed by the employment office or the division or to accept suitable work when offered that individual, or to return to customary self-employment, if any. The division in co-operation with the employment office shall, if possible, furnish the individual with the names of employers which are seeking employees. The individual shall apply to and obtain the signatures of the employers designated by the division on forms provided by the division, unless the employers refuse to sign the forms. The individual's failure to obtain the signatures of designated employers, which have not refused to sign the forms, shall disqualify the individual from further benefits until requalified. To requalify for benefits after disqualification under this subsection, the individual shall work in and be paid wages for insured work equal to ten times the individual's weekly benefit amount, provided the individual is otherwise eligible

a In determining whether or not any work is suitable for an individual, the division shall consider the degree of risk involved to the individual's health, safety, and morals, the individual's physical fitness, prior training, length of unemployment, and prospects for securing local work in the individual's customary occupation, the distance of the available work from the individual's residence, and any other factor which the division finds bears a reasonable relation to the purposes of this paragraph. Work is suitable if the work meets all the other criteria of this paragraph and if the gross weekly wages for the work equal or exceed the following percentages of the individual's average weekly wage for insured work paid to the individual during that quarter of the individual's base period in which the individual's wages were highest

(1) One hundred percent, if the work is offered during the first five weeks of unemployment

(2) Seventy-five percent, if the work is offered during the sixth through the twelfth week of unemployment

(3) Seventy percent, if the work is offered during the thirteenth through the eighteenth week of unemployment

(4) Sixty five percent, if the work is offered after the eighteenth week of unemployment

However, the provisions of this paragraph shall not require an individual to accept employment below the federal minimum wage

b Notwithstanding any other provision of this chapter, no work shall be deemed suitable and benefits shall not be denied under this chapter to any otherwise eligible individual for refusing to accept new work under any of the following conditions

(1) If the position offered is vacant due directly to a strike, lockout, or other labor dispute,

(2) If the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality,

(3) If as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization

4 *Labor disputes* For any week with respect to which the division of job service finds that the individual's total or partial unemployment is due to a stoppage of work which exists because of a labor dispute at the factory, establishment, or other premises at which the individual is or was last employed, provided that this subsection shall not apply if it is shown to the satisfaction of the division that

a The individual is not participating in or financing or directly interested in the labor dispute which caused the stoppage of work, and

b The individual does not belong to a grade or class of workers of which, immediately before the commencement of the stoppage, there were members employed at the premises at which the stoppage occurs, any of whom are participating in or financing or directly interested in the dispute

Provided, that if in any case separate branches of work which are commonly conducted as separate businesses in separate premises are conducted in separate departments of the same premises, each such department shall, for the purposes of this subsection, be deemed to be a separate factory, establishment, or other premises

5 *Other compensation* For any week with respect to which the individual is receiving or has received payment in the form of any of the following

a Wages in lieu of notice, separation allowance, severance pay, or dismissal pay

b Compensation for temporary disability under the workers' compensation law of any state or under a similar law of the United States

c A governmental or other pension, retirement or retired pay, annuity, or any other similar periodic payment made under a plan maintained or contributed to by a base period or chargeable employer where, except for benefits under the federal Social Security Act or the federal Railroad Retirement Act of 1974 or the corresponding provisions of prior law, the plan's eligibility requirements or benefit payments are affected by the base period employment or the remuneration for the base period employment

However, if an individual's benefits are reduced due to the receipt of a payment under this paragraph, the reduction shall be decreased by the same percentage as the percentage contribution of the individual to the plan under which the payment is made.

Provided, that if the remuneration is less than the benefits which would otherwise be due under this chapter, the individual is entitled to receive for the week, if otherwise eligible, benefits reduced by the amount of the remuneration. Provided further, if benefits were paid for any week under this chapter for a period when benefits, remuneration or compensation under paragraphs "a", "b", or "c", were paid on a retroactive basis for the same period, or any part thereof, the division of job service shall recover the excess amount of benefits paid by the division for the period, and no employer's account shall be charged with benefits so paid. However, compensation for service-connected disabilities or compensation for accrued leave based on military service, by the beneficiary, with the armed forces of the United States, irrespective of the amount of the benefit, does not disqualify any individual, otherwise qualified, from any of the benefits contemplated herein.

6. *Benefits from other state.* For any week with respect to which or a part of which an individual has received or is seeking unemployment benefits under an unemployment compensation law of another state or of the United States, provided that if the appropriate agency of such other state or of the United States finally determines that the individual is not entitled to such unemployment benefits, this disqualification shall not apply.

7. *Vacation pay.*

a. When an employer makes a payment or becomes obligated to make a payment to an individual for vacation pay, or for vacation pay allowance, or as pay in lieu of vacation, such payment or amount shall be deemed "wages" as defined in section 96.19, subsection 12, and shall be applied as provided in paragraph "c" hereof.

b. When, in connection with a separation or lay-off of an individual, the individual's employer makes a payment or payments to the individual, or becomes obligated to make a payment to the individual as, or in the nature of, vacation pay, or vacation pay allowance, or as pay in lieu of vacation, and within ten calendar days after notification of the filing of the individual's claim, designates by notice in writing to the division of job service the period to which the payment shall be allocated; provided, that if such designated period is extended by the employer, the individual may again similarly designate an extended period, by giving notice in writing to the division not later than the beginning of the extension of the period, with the same effect as if the period of extension were included in the original designation. The amount of a payment or obligation to make payment, is deemed "wages" as defined in section 96.19, subsection 12, and shall be applied as provided in paragraph "c" of this subsection 7.

c. Of the wages described in paragraph "a"

(whether or not the employer has designated the period therein described), or of the wages described in paragraph "b", if the period therein described has been designated by the employer as therein provided, a sum equal to the wages of such individual for a normal workday shall be attributed to, or deemed to be payable to the individual with respect to, the first and each subsequent workday in such period until such amount so paid or owing is exhausted. Any individual receiving or entitled to receive wages as provided herein shall be ineligible for benefits for any week in which the sums, so designated or attributed to such normal workdays, equal or exceed the individual's weekly benefit amount. If the amount so designated or attributed as wages is less than the weekly benefit amount of such individual, the individual's benefits shall be reduced by such amount.

d. Notwithstanding contrary provisions in paragraphs "a", "b" and "c", if an individual is separated from employment and is scheduled to receive vacation payments during the period of unemployment attributable to the employer and if the employer does not designate the vacation period pursuant to paragraph "b", then payments made by the employer to the individual or an obligation to make a payment by the employer to the individual for vacation pay, vacation pay allowance or pay in lieu of vacation shall not be deemed wages as defined in section 96.19, subsection 12, for any period in excess of one week and such payments or the value of such obligations shall not be deducted for any period in excess of one week from the unemployment benefits the individual is otherwise entitled to receive under this chapter. However, if the employer designates more than one week as the vacation period pursuant to paragraph "b", the vacation pay, vacation pay allowance, or pay in lieu of vacation shall be considered wages and shall be deducted from benefits.

e. If an employer pays or is obligated to pay a bonus to an individual at the same time the employer pays or is obligated to pay vacation pay, a vacation pay allowance, or pay in lieu of vacation, the bonus shall not be deemed wages for purposes of determining benefit eligibility and amount, and the bonus shall not be deducted from unemployment benefits the individual is otherwise entitled to receive under this chapter.

8. *Administrative penalty.* If the division of job service finds that, with respect to any week of an insured worker's unemployment for which such person claims credit or benefits, such person has, within the thirty-six calendar months immediately preceding such week, with intent to defraud by obtaining any benefits not due under this chapter, willfully and knowingly made a false statement or misrepresentation, or willfully and knowingly failed to disclose a material fact; such person shall be disqualified for the week in which the division makes such determination, and forfeit all benefit rights under the unemployment compensation law for a period of not more than the remaining benefit period as determined by the division according to the circumstances of each

case. Any penalties imposed by this subsection shall be in addition to those otherwise prescribed in this chapter.

9. *Athletes — disqualified.* Services performed by an individual, substantially all of which consist of participating in sports or athletic events or training or preparing to so participate, for any week which commences during the period between two successive sport seasons or similar periods, if such individual performs such services in the first of such seasons or similar periods and there is a reasonable assurance that such individual will perform such services in the later of such season or similar periods.

10. *Aliens — disqualified.* For services performed by an alien unless such alien is an individual who was lawfully admitted for permanent residence at the time such services were performed, was lawfully present for the purpose of performing such services, or was permanently residing in the United States under color of law at the time such services were performed, including an alien who is lawfully present in the United States as a result of the application of the provisions of section 212(d)(5) of the Immigration and Nationality Act. Any data or information required of individuals applying for benefits to determine whether benefits are not payable to them because of their alien status shall be uniformly required from all applicants for benefits. In the case of an individual whose application for benefits would otherwise be approved, no determination that benefits to such individual are not payable because of the individual's alien status shall be made except upon a preponderance of the evidence.

96.6 Filing — determination — appeal.

1. *Filing.* Claims for benefits shall be made in accordance with such regulations as the division of job service may prescribe.

2. *Initial determination.* A representative designated by the commissioner shall promptly notify all interested parties to the claim of its filing, and the parties have ten days from the date of mailing the notice of the filing of the claim by ordinary mail to the last known address to protest payment of benefits to the claimant. The representative shall promptly examine the claim and any protest, take the initiative to ascertain relevant information concerning the claim, and, on the basis of the facts found by the representative, shall determine whether or not the claim is valid, the week with respect to which benefits shall commence, the weekly benefit amount payable and its maximum duration, and whether any disqualification shall be imposed. The claimant has the burden of proving that the claimant meets the basic eligibility conditions of section 96.4. The employer has the burden of proving that the claimant is disqualified for benefits pursuant to section 96.5. However, the claimant has the initial burden to pro-

duce evidence showing that the claimant is not disqualified for benefits in cases involving section 96.5, subsection 1, paragraphs "a" through "i", and subsection 10. Unless the claimant or other interested party, after notification or within ten calendar days after notification was mailed to the claimant's last known address, files an appeal from the decision, the decision is final and benefits shall be paid or denied in accordance with it. If an administrative law judge affirms a decision of the representative, or the appeal board affirms a decision of the administrative law judge allowing benefits, the benefits shall be paid regardless of any appeal which is thereafter taken, but if the decision is finally reversed, no employer's account shall be charged with benefits so paid.

3. *Appeals.* Unless the appeal is withdrawn, an administrative law judge, after affording the parties reasonable opportunity for fair hearing, shall affirm or modify the findings of fact and decision of the representative. The hearing shall be conducted pursuant to the provisions of chapter 17A relating to hearings for contested cases. Before the hearing is scheduled, the parties shall be afforded the opportunity to choose either a telephone hearing or an in-person hearing. A request for an in-person hearing shall be approved unless the in-person hearing would be impractical because of the distance between the parties to the hearing. A telephone or in-person hearing shall not be scheduled before the seventh calendar day after the parties receive notice of the hearing. Reasonable requests for the postponement of a hearing shall be granted. The parties shall be duly notified of the administrative law judge's decision, together with the administrative law judge's reasons for the decision, which is the final decision of the division, unless within fifteen days after the date of notification or mailing of the decision, further appeal is initiated pursuant to this section.

Appeals from the initial determination shall be heard by an administrative law judge employed by the division of job service. An administrative law judge's decision may be appealed by any party to the employment appeal board created in section 10A.601. The decision of the appeal board is final agency action and an appeal of the decision shall be made directly to the district court.

4. *Effect of determination.* A finding of fact or law, judgment, conclusion, or final order made pursuant to this section by an employee or representative of the division, administrative law judge, or the employment appeal board, is binding only upon the parties to proceedings brought under this chapter, and is not binding upon any other proceedings or action involving the same facts brought by the same or related parties before the division of labor services, division of industrial services, other state agency, arbitrator, court, or judge of this state or the United States.

NEW subsection 4

96.7 Employer contributions and reimbursements.

1. *Payment.* Contributions accrue and are payable, in accordance with rules adopted by the division, on all taxable wages paid by an employer for insured work.

2. *Contribution rates based on benefit experience.*

a. (1) The division shall maintain a separate account for each employer and shall credit each employer's account with all contributions which the employer has paid or which have been paid on the employer's behalf.

(2) The amount of regular benefits plus fifty percent of the amount of extended benefits paid to an eligible individual shall be charged against the account of the employers in the base period in the inverse chronological order in which the employment of the individual occurred.

However, if the individual to whom the benefits are paid is in the employ of a base period employer at the time the individual is receiving the benefits, and the individual is receiving the same employment from the employer that the individual received during the individual's base period, benefits paid to the individual shall not be charged against the account of the employer. This provision applies to both contributory and reimbursable employers, notwithstanding subparagraph (3) and section 96.8, subsection 5.

An employer's account shall not be charged with benefits paid to an individual who left the work of the employer voluntarily without good cause attributable to the employer or to an individual who was discharged for misconduct in connection with the individual's employment, but shall be charged to the account of the next succeeding employer with whom the individual requalified for benefits as determined respectively under section 96.5, subsection 1, paragraph "g" and section 96.5, subsection 2, paragraph "a". However, the succeeding employer's account shall first be charged with benefits paid to the individual due to wage credits earned by the individual while employed by the succeeding employer. After exhausting those wage credits, the succeeding employer's account shall not be charged with ten weeks of benefits paid to the individual due to wage credits earned by the individual from a previous employer, but rather the unemployment compensation fund shall be charged. After exhausting the ten weeks of noncharging, the succeeding employer's account shall again be charged with the benefits paid.

An employer's account shall not be charged with benefits paid to an individual who failed without good cause, either to apply for available, suitable work or to accept suitable work, but shall be charged to the account of the next succeeding employer with whom the individual requalified for benefits as determined under section 96.5, subsection 3.

The amount of benefits paid to an individual, which is solely due to wage credits considered to be in an individual's base period due to the exclusion

and substitution of calendar quarters from the individual's base period under section 96.23, shall be charged against the account of the employer responsible for paying the workers' compensation benefits for temporary total disability or during a healing period under section 85.33, section 85.34, subsection 1, or section 85A.17, or responsible for paying indemnity insurance benefits.

(3) The amount of regular benefits charged against the account of an employer for a calendar quarter of the base period shall not exceed the amount of the individual's wage credits based on employment with the employer during that quarter. The amount of extended benefits charged against the account of an employer for a calendar quarter of the base period shall not exceed an additional fifty percent of the amount of the individual's wage credits based on employment with the employer during that quarter. However, the amount of extended benefits charged against the account of a governmental entity which is either a reimbursable or contributory employer, for a calendar quarter of the base period shall not exceed an additional one hundred percent of the amount of the individual's wage credits based on employment with the governmental entity during that quarter.

(4) The division shall adopt rules prescribing the manner in which benefits shall be charged against the accounts of several employers for which an individual performed employment during the same calendar quarter.

(5) This chapter shall not be construed to grant an employer or an individual in the employer's service, prior claim or right to the amount paid by the employer into the unemployment compensation fund either on the employer's own behalf or on behalf of the individual.

(6) Within forty days after the close of each calendar quarter, the division shall notify each employer of the amount of benefits charged to the employer's account during that quarter. The notification shall show the name of each individual to whom benefits were paid, the individual's social security number, and the amount of benefits paid to the individual. An employer which has not been notified as provided in section 96.6, subsection 2, of the allowance of benefits to an individual, may within thirty days after the date of mailing of the notification appeal to the division for a hearing to determine the eligibility of the individual to receive benefits. The appeal shall be referred to an administrative law judge for hearing and the employer and the individual shall receive notice of the time and place of the hearing.

b. If an enterprise or business, or a clearly segregable and identifiable part of an enterprise or business, for which contributions have been paid is sold or transferred to a subsequent employing unit, or if one or more employing units have been reorganized or merged into a single employing unit, and the successor employer, having qualified as an employer as defined in section 96.19, subsection 5, paragraph "b", continues to operate the enterprise or business, the

successor employer shall assume the position of the predecessor employer or employers with respect to the predecessors' payrolls, contributions, accounts, and contribution rates to the same extent as if no change had taken place in the ownership or control of the enterprise or business. However, the successor employer shall not assume the position of the predecessor employer or employers with respect to the predecessor employer's or employers' payrolls, contributions, accounts, and contribution rates which are attributable to that part of the enterprise or business transferred, unless the successor employer applies to the division within sixty days from the date of the partial transfer, and the succession is approved by the predecessor employer or employers and the division.

The predecessor employer, prior to entering into a contract with a successor employer relating to the sale or transfer of the enterprise or business, or a clearly segregable and identifiable part of the enterprise or business, shall disclose to the successor employer the predecessor employer's record of charges of benefits payments and any layoffs or incidences since the last record that would affect the experience record. A predecessor employer who fails to disclose or willfully discloses incorrect information to a successor employer regarding the predecessor employer's record of charges of benefits payments is liable to the successor employer for any actual damages and attorney fees incurred by the successor employer as a result of the predecessor employer's failure to disclose or disclosure of incorrect information. The division shall include notice of the requirement of disclosure in the division's quarterly notification given to each employer pursuant to paragraph "a", subparagraph (6).

The contribution rate to be assigned to the successor employer for the period beginning not earlier than the date of the succession and ending not later than the beginning of the next following rate year, shall be the contribution rate of the predecessor employer with respect to the period immediately preceding the date of the succession, provided the successor employer was not, prior to the succession, a subject employer, and only one predecessor employer, or only predecessor employers with identical rates, are involved. If the predecessor employers' rates are not identical and the successor employer is not a subject employer prior to the succession, the division shall assign the successor employer a rate for the remainder of the rate year by combining the experience of the predecessor employers. If the successor employer is a subject employer prior to the succession, the successor employer may elect to retain the employer's own rate for the remainder of the rate year, or the successor employer may apply to the division to have the employer's rate redetermined by combining the employer's experience with the experience of the predecessor employer or employers. However, if the successor employer is a subject employer prior to the succession and has had a partial transfer of the experience of the predecessor employer or employers approved, then the division shall recompute the successor employer's rate for the remainder of the rate year.

c. (1) A nonconstruction contributory employer newly subject to this chapter shall pay contributions at the rate specified in the twelfth benefit ratio rank but not less than one percent until the end of the calendar year in which the employer's account has been chargeable with benefits for twelve consecutive calendar quarters immediately preceding the computation date.

(2) A construction contributory employer, as defined under rules adopted by the division, which is newly subject to this chapter shall pay contributions at the rate specified in the twenty-first benefit ratio rank until the end of the calendar year in which the employer's account has been chargeable with benefits for twelve consecutive calendar quarters.

(3) Thereafter, the employer's contribution rate shall be determined in accordance with paragraph "d", except that the employer's average annual taxable payroll and benefit ratio may be computed, as determined by the division, for less than five periods of four consecutive calendar quarters immediately preceding the computation date.

d. The division shall determine the contribution rate table to be in effect for the rate year following the computation date, by determining the ratio of the current reserve fund ratio to the highest benefit cost ratio on the computation date. On or before the fifth day of September the division shall make available to employers the contribution rate table to be in effect for the next rate year.

(1) The current reserve fund ratio is computed by dividing the total funds available for payment of benefits, on the computation date, by the total wages paid in covered employment excluding reimbursable employment wages during the first four calendar quarters of the five calendar quarters immediately preceding the computation date.

(2) The highest benefit cost ratio is the highest of the resulting ratios computed by dividing the total benefits paid, excluding reimbursable benefits paid, during each consecutive twelve-month period, during the ten-year period ending on the computation date, by the total wages, excluding reimbursable employment wages, paid in the four calendar quarters ending nearest and prior to the last day of such twelve-month period.

If the current reserve fund ratio, divided by the highest benefit cost ratio:

“Benefit ratio” means a number computed to six decimal places on July 1 of each year obtained by dividing the average of all benefits charged to an employer during the five periods of four consecutive calendar quarters immediately preceding the computation date by the employer’s average annual taxable payroll.

Each employer qualified for an experience rating shall be assigned a contribution rate for each rate year that corresponds to the employer’s benefit ratio rank in the contribution rate table effective for the rate year from the following contribution rate tables. Each employer’s benefit ratio rank shall be computed by listing all the employers by increasing benefit

ratios, from the lowest benefit ratio to the highest benefit ratio and grouping the employers so listed into twenty-one separate ranks containing as nearly as possible four and seventy-six hundredths percent of the total taxable wages, excluding reimbursable employment wages, paid in covered employment during the four completed calendar quarters immediately preceding the computation date. If an employer’s taxable wages qualify the employer for two separate benefit ratio ranks the employer shall be afforded the benefit ratio rank assigned the lower contribution rate. Employers with identical benefit ratios shall be assigned to the same benefit ratio rank.

e. The division shall fix the contribution rate for each employer and notify the employer of the rate. An employer may appeal to the division for a revision of the contribution rate within thirty days from the date of the notice to the employer. After providing an opportunity for a hearing, the division may affirm, set aside, or modify its former determination and may grant the employer a new contribution rate. The division shall notify the employer of its decision by regular mail. Judicial review of action of the division may be sought pursuant to chapter 17A.

If an employer’s account has been charged with benefits as the result of a decision allowing benefits and the decision is reversed, the employer may ap-

peal, within thirty days from the date of the next contribution rate notice, for a recomputation of the rate. If a base period employer’s account has been charged with benefits paid to an employee at a time when the employee was employed by the base period employer in the same employment as in the base period, the employer may appeal, within thirty days from the date of the first notice of the employer’s contribution rate which is based on the charges, for a recomputation of the rate.

f. If an employer has not filed a contribution and payroll quarterly report, as required pursuant to section 96.11, subsection 7, for a calendar quarter which precedes the computation date and upon which the

employer's rate of contribution is computed, the employer's average annual taxable payroll shall be computed by considering the delinquent quarterly reports as containing zero taxable wages.

If a delinquent quarterly report is received by September 30 following the computation date the contribution rate shall be recomputed by using the taxable wages in all the appropriate quarterly reports on file to determine the average annual taxable payroll.

If a delinquent quarterly report is received after September 30 following the computation date the contribution rate shall not be recomputed, unless the rate is appealed in writing to the division under paragraph "e" and the delinquent quarterly report is also submitted not later than thirty days after the division notifies the employer of the rate under paragraph "e".

3. *Determination and assessment of contributions.*

a. As soon as practicable and in any event within two years after an employer has filed reports, as required pursuant to section 96.11, subsection 7, the division shall examine the reports and determine the correct amount of contributions due, and the amount so determined by the division shall be the contributions payable. If the contributions found due are greater than the amount paid, the division shall send a notice by certified mail to the employer with respect to the additional contributions and interest assessed. A lien shall attach as provided in section 96.14, subsection 3, if the assessment is not paid or appealed within thirty days of the date of the notice of assessment.

b. If the division discovers from the examination of the reports required pursuant to section 96.11, subsection 7 or in some other manner that wages, or any portion of wages, payable for employment, have not been listed in the reports, or that reports were not filed when due, or that reports have been filed showing contributions due but contributions in fact have not been paid, the division shall at any time within five years after the time the reports were due, determine the correct amount of contributions payable, together with interest and any applicable penalty as provided in this chapter. The division shall send a notice by certified mail to the employer of the amount assessed and a lien shall attach as provided in paragraph "a".

c. The certificate of the division to the effect that contributions have not been paid, that reports have not been filed, or that information has not been furnished as required under the provisions of this chapter, is prima facie evidence of the failure to pay contributions, file reports, or furnish information.

4. *Employer liability determination.* The division shall initially determine all questions relating to the liability of an employing unit or employer, including the amount of contribution, the contribution rate, and successorship. A copy of the initial determination shall be sent by regular mail to the last address, according to the records of the division, of each affected employing unit or employer.

The affected employing unit or employer may appeal in writing to the division from the initial determination. An appeal shall not be entertained for any reason by the division unless the appeal is filed with the division within thirty days from the date on which the initial determination is mailed. If an appeal is not so filed, the initial determination shall with the expiration of the appeal period become final and conclusive in all respects and for all purposes.

A hearing on an appeal shall be conducted according to rules adopted by the division. A copy of the decision of the administrative law judge shall be sent by regular mail to the last address, according to the records of the division, of each affected employing unit or employer.

The division's decision on the appeal shall be final and conclusive as to the liability of the employing unit or employer unless the employing unit or employer files an appeal for judicial review within thirty days after the date of mailing of the decision as provided in subsection 5.

5. *Judicial review.* Notwithstanding chapter 17A, petitions for judicial review may be filed in the district court of the county in which the employer resides, or in which the employer's principal place of business is located, or in the case of a nonresident not maintaining a place of business in this state either in a county in which the wages payable for employment were earned or paid or in Polk county, within thirty days after the date of the notice to the employer of the division's final determination as provided for in subsection 2, 3, or 4.

The petitioner shall file with the clerk of the district court a bond for the use of the respondent, with sureties approved by the clerk, with any penalty to be fixed and approved by the clerk. The bond shall not be less than fifty dollars and shall be conditioned on the petitioner's performance of the orders of the court. In all other respects, the judicial review shall be in accordance with chapter 17A.

6. *Jeopardy assessments.* If the division believes that the collection of contributions payable or benefits reimbursable will be jeopardized by delay, the division may immediately make an assessment of the estimated amount of contributions due or benefits reimbursable, together with interest and applicable penalty, and demand payment from the employer. If the payment is not made, the division may immediately file a lien against the employer which may be followed by the issuance of a distress warrant.

The division shall be permitted to accept a bond from the employer to satisfy collection until the amount of contributions due is determined. The bond shall be in an amount deemed necessary, but not more than double the amount of the contributions involved, with securities satisfactory to the division.

7. *Financing benefits paid to employees of governmental entities.*

a. A governmental entity which is an employer under this chapter shall pay benefits in a manner

provided for a reimbursable employer unless the governmental entity elects to make contributions as a contributory employer. The election shall be effective for a minimum of one calendar year and may be changed if an election is made to become a reimbursable employer prior to December 1 for a minimum of the following calendar year.

However, if on the effective date of the election the governmental entity has a negative balance in its contributory account, the governmental entity shall pay to the fund within a time period determined by the division the amount of the negative balance and shall immediately become liable to reimburse the unemployment compensation fund for benefits paid in lieu of contributions. Regular or extended benefits paid after the effective date of the election, including those based on wages paid while the governmental entity was a contributory employer, shall be billed to the governmental entity as a reimbursable employer.

b. A governmental entity electing to make contributions as a contributory employer, with at least eight consecutive calendar quarters immediately preceding the computation date throughout which the employer's account has been chargeable with benefits, shall be assigned a contribution rate under this paragraph. Contribution rates shall be assigned by listing all governmental contributory employers by decreasing percentages of excess from the highest positive percentage of excess to the highest negative percentage of excess. The employers so listed shall be grouped into seven separate percentage of excess ranks each containing as nearly as possible one-seventh of the total taxable wages of governmental entities eligible to be assigned a rate under this paragraph.

As used in this subsection, "percentage of excess" means a number computed to six decimal places on July 1 of each year obtained by dividing the excess of all contributions attributable to an employer over the sum of all benefits charged to an employer by the employer's average annual payroll. An employer's percentage of excess is a positive number when the total of all contributions paid to an employer's account for all past periods to and including those for the quarter immediately preceding the rate computation date exceeds the total benefits charged to such account for the same period. An employer's percentage of excess is a negative number when the total of all contributions paid to an employer's account for all past periods to and including those for the quarter immediately preceding the rate computation date is less than the total benefits charged to such account for the same period.

As used in this subsection, "average annual taxable payroll" means the average of the total amount of taxable wages paid by an employer for insured work during the three periods of four consecutive calendar quarters immediately preceding the computation date. However, for an employer which qualifies on any computation date for a computed rate on the basis of less than twelve consecutive calendar quarters of chargeability immediately preceding the

computation date, "average annual taxable payroll" means the average of the employer's total amount of taxable wages for the two periods of four consecutive calendar quarters immediately preceding the computation date.

The division shall annually calculate a base rate for each calendar year. The base rate is equal to the sum of the benefits charged to governmental contributory employers in the calendar year immediately preceding the computation date plus or minus the difference between the total benefits and contributions paid by governmental contributory employers since January 1, 1980, which sum is divided by the total taxable wages reported by governmental contributory employers during the calendar year immediately preceding the computation date, rounded to the next highest one-tenth of one percent. Excess contributions from the years 1978 and 1979 shall be used to offset benefits paid in any calendar year where total benefits exceed total contributions of governmental contributory employers. The contribution rate as a percentage of taxable wages of the employer shall be assigned as follows:

If the percentage of excess rank is:	The contribution rate shall be:	Approximate cumulative taxable payroll
1	Base Rate - 0.9	14.3
2	Base Rate - 0.6	28.6
3	Base Rate - 0.3	42.9
4	Base Rate	57.2
5	Base Rate + 0.3	71.5
6	Base Rate + 0.6	85.8
7	Base Rate + 0.9	100.0

If a governmental contributory employer is grouped into two separate percentage of excess ranks, the employer shall be assigned the lower contribution rate of the two percentage of excess ranks. Notwithstanding the provisions of this paragraph, a governmental contributory employer shall not be assigned a contribution rate less than one-tenth of one percent of taxable wages unless the employer has a positive percentage of excess greater than five percent.

Governmental entities electing to be contributory employers which are not eligible to be assigned a contribution rate under this paragraph shall be assigned the base rate as a contribution rate for the calendar year.

c. For the purposes of this subsection, "governmental reimbursable employer" means an employer which makes payments to the division for the unemployment compensation fund in an amount equal to the regular and extended benefits paid, which are based on wages paid for service in the employ of the employer. Benefits paid to an eligible individual shall be charged against the base period employers in the inverse chronological order in which the employment of the individual occurred. However, the amount of benefits charged against an employer for

a calendar quarter of the base period shall not exceed the amount of the individual's wage credits based upon employment with that employer during that quarter. At the end of each calendar quarter, the division shall bill each governmental reimbursable employer for benefits paid during that quarter. Payments by a governmental reimbursable employer shall be made in accordance with subsection 8, paragraph "b", subparagraphs (2) through (5).

d. A state agency, board, commission, or department, except a state board of regents' institution, shall, after approval of the billing for a governmental reimbursable employer as provided in subsection 8, paragraph "b", submit the billing to the director of revenue and finance. The director of revenue and finance shall pay the approved billing out of any funds in the state treasury not otherwise appropriated. A state agency, board, commission, or department shall reimburse the director of revenue and finance out of any revolving, special, trust, or federal fund from which all or a portion of the billing can be paid, for payments made by the director of revenue and finance on behalf of the agency, board, commission, or department.

e. If an enterprise or business of a reimbursable government entity is sold or otherwise transferred to a subsequent employing unit and the successor employing unit continues to operate the enterprise or business, the successor employing unit shall assume the position of the reimbursable government entity with respect to the reimbursable government entity's payroll and reimbursable benefits to the same extent as if no change in the ownership or control of the enterprise or business had occurred, whether or not the successor employer elected or elects, or was or is eligible to elect, to become a reimbursable employer with respect to the employer's payroll prior to the sale or transfer of the enterprise or business.

f. If a reimbursable instrumentality of the state or of a political subdivision is discontinued other than by sale or transfer to a subsequent employing unit as described in paragraph "e", the state or the political subdivision, respectively, shall reimburse the division of job service for benefits paid to former employees of the instrumentality after the instrumentality is discontinued.

8. *Financing benefits paid to employees of nonprofit organizations.*

a. A nonprofit organization which is, or becomes, subject to this chapter, shall pay contributions under subsections 1 and 2, unless the nonprofit organization elects, in accordance with this paragraph, to reimburse the unemployment compensation fund for benefits paid in an amount equal to the amount of regular benefits and of one-half of the extended benefits paid, which are based on wages paid for service in the employ of the nonprofit organization during the effective period of the election.

(1) A nonprofit organization may elect to become a reimbursable employer for a period of not less than two calendar years by filing with the division a written notice of its election not later than

thirty days prior to the beginning of the calendar year for which the election is to be effective.

(2) A nonprofit organization which makes an election in accordance with subparagraph (1) shall continue to be a reimbursable employer until the nonprofit organization files with the division a written notice terminating its election not later than thirty days prior to the beginning of the calendar year for which the termination is to be effective.

(3) The division may for good cause extend the period within which a notice of election or termination of election must be filed and may permit an election or termination of election to be retroactive.

(4) The division, in accordance with rules, shall notify each nonprofit organization of any determination made by the division of the status of the nonprofit organization as an employer and of the effective date of any election or termination of election. A determination is subject to appeal and review in accordance with subsections 4 and 5.

b. Reimbursements for benefits paid in lieu of contributions shall be made in accordance with the following:

(1) At the end of each calendar quarter, the division shall bill each nonprofit organization which has elected to reimburse the unemployment compensation fund for benefits paid in an amount equal to the full amount of regular benefits and one-half of the amount of extended benefits paid during the quarter which are based on wages paid for service in the employ of the organization. Benefits paid to an individual shall be charged against the base period employers in the inverse chronological order in which the employment of the individual occurred. However, the amount of benefits charged against an employer for a calendar quarter of the base period shall not exceed the amount of the individual's wage credits based upon employment with that employer during that quarter.

(2) The nonprofit organization shall pay the bill not later than thirty days after the bill was mailed or otherwise delivered to the last known address of the nonprofit organization, unless the nonprofit organization has filed an application for redetermination in accordance with subparagraph (4).

(3) Reimbursements made by a nonprofit organization shall not be deducted, in whole or in part, from the wages of individuals in the employ of the nonprofit organization.

(4) The amount due specified in a bill from the division is conclusive unless, not later than fifteen days following the date the bill was mailed or otherwise delivered to the last known address of the nonprofit organization, the nonprofit organization files an application for redetermination with the division setting forth the grounds for the application. The division shall promptly review the amount due specified in the bill and shall issue a redetermination. The redetermination is conclusive on the nonprofit organization unless, not later than thirty days after the redetermination was mailed or otherwise delivered to the last known address of the nonprofit organiza-

tion, the nonprofit organization files an appeal to the district court pursuant to subsection 5.

(5) The provisions for collection of contributions under section 96.14 are applicable to reimbursements for benefits paid in lieu of contributions.

(6) If an enterprise or business of a reimbursable nonprofit organization is sold or otherwise transferred to a subsequent employing unit and the successor employing unit continues to operate the enterprise or business, the successor employing unit shall assume the position of the reimbursable nonprofit organization with respect to the nonprofit organization's payroll and reimbursable benefits to the same extent as if no change in the ownership or control of the enterprise or business had occurred, whether or not the successor employer elected or elects, or was or is eligible to elect, to become a reimbursable employer with respect to the employer's payroll prior to the sale or transfer of the enterprise or business.

9. Reserved.

10. *Group accounts.* Two or more nonprofit organizations or two or more governmental entities which have become reimbursable employers in accordance with subsection 7 or subsection 8, paragraph "a", may file a joint application to the division for the establishment of a group account for the purpose of sharing the cost of benefits paid which are attributable to service in the employ of the employers. The application shall identify and authorize a group representative to act as the group's agent for the purposes of this subsection. Upon approval of the application, the division shall establish a group account for the employers effective as of the beginning of the calendar quarter in which the division receives the application and shall notify the group's agent of the effective date of the account. The account shall remain in effect for not less than one year until terminated at the discretion of the division or upon application by the group. Upon establishment of the account, each employer member of the group shall be liable for benefit reimbursements in lieu of contributions with respect to each calendar quarter in an amount which bears the same ratio to the total benefits paid in the quarter which are attributable to service performed in the employ of all members of the group, as the total wages paid for service performed in the employ of the member in the quarter bear to the total wages paid for service performed in the employ of all members of the group in the quarter. The division shall adopt rules with respect to applications for establishment, maintenance, and termination of group accounts, for addition of new members to, and withdrawal of active members from group accounts, and for the determination of the amounts which are payable by members of the group and the time and manner of the payments.

11. *Temporary emergency surcharge.* If on the first day of the third month in any calendar quarter, the division has an outstanding balance of interest accrued on advance moneys received from the federal government for the payment of unemployment

compensation benefits, or is projected to have an outstanding balance of accruing federal interest for that calendar quarter, the division shall collect a uniform temporary emergency surcharge for that calendar quarter, retroactive to the beginning of that calendar quarter. The surcharge shall be a percentage of employer contribution rates and shall be set at a uniform percentage, for all employers subject to the surcharge, necessary to pay the interest accrued on the moneys advanced to the division by the federal government, and to pay any additional federal interest which will accrue for the remainder of that calendar quarter. The surcharge shall apply to all employers except governmental entities, nonprofit organizations, and employers assigned a zero contribution rate. The division shall adopt rules prescribing the manner in which the surcharge will be collected. Interest shall accrue on all unpaid surcharges under this subsection at the same rate as on regular contributions and shall be collectible in the same manner. The surcharge shall not affect the computation of regular contributions under this chapter.

A special fund to be known as the temporary emergency surcharge fund is created in the state treasury. The special fund is separate and distinct from the unemployment compensation fund. All contributions collected from the temporary emergency surcharge shall be deposited in the special fund. The special fund shall be used only to pay interest accruing on advance moneys received from the federal government for the payment of unemployment compensation benefits. Interest earned upon moneys in the special fund shall be deposited in and credited to the special fund.

If the division determines on June 1 that no outstanding balance of interest due has accrued on advanced moneys received from the federal government for the payment of unemployment compensation benefits, and that no outstanding balance is projected to accrue for the remainder of the calendar year, the division shall notify the treasurer of state of its determination. The treasurer of state shall immediately transfer all moneys, including accrued interest, in the temporary emergency surcharge fund to the unemployment compensation fund for the payment of benefits.

12. *Administrative contribution surcharge — fund.*

a. An employer other than a governmental entity or a nonprofit organization, subject to this chapter, shall pay an administrative contribution surcharge equal in amount to one-tenth of one percent of federal taxable wages, as defined in section 96.19, subsection 20, paragraph "b". The division shall recompute the amount as a percentage of taxable wages, as defined in section 96.19, subsection 20, and shall add the percentage surcharge to the employer's contribution rate determined under this section. The division shall adopt rules prescribing the manner in which the surcharge will be collected. Interest shall accrue on all unpaid surcharges under this subsection at the same rate as on regular contributions and shall be collectible in the same manner.

b. A special fund to be known as the administrative contribution surcharge fund is created in the state treasury. The fund is separate and distinct from the unemployment compensation fund. All contributions collected from the administrative contribution surcharge shall be deposited in the fund. Interest earned upon moneys in the fund shall be deposited in and credited to the fund.

c. Moneys in the fund shall be used by the division only upon appropriation by the general assembly and only for personnel and nonpersonnel costs of rural and satellite job service offices in population centers of less than twenty thousand or for the division-approved training fund funded in section 8, subsection 2, of 1988 Iowa Acts, chapter 1274.

d. This subsection is repealed July 1, 1994, and the repeal is applicable to contribution rates for calendar year 1995 and subsequent calendar years.

96.8 Conditions and requirements.

1. *Period of coverage.* Any employing unit which is or becomes an employer subject to this chapter within any calendar year shall be subject to this chapter during the whole of such calendar year.

2. *Voluntary termination.* Except as otherwise provided in subsection 3 of this section, an employing unit ceases to be an employer subject to this chapter, as of the first day of January of any year, if it files with the division of job service, prior to the fifteenth day of February of that year, a written application for termination of coverage, and the division finds that the employing unit did not meet any of the qualifying liability requirements as provided under section 96.19, subsection 5, in the preceding calendar year.

3. *Election by employer.*

a. An employing unit, not otherwise subject to this chapter, which files with the division of job service its written election to become an employer subject hereto for not less than two calendar years, shall with the written approval of such election by the division, become an employer subject hereto to the same extent as all other employers, as of the date stated in such approval, and shall cease to be subject hereto as of January 1 of any calendar year subsequent to such two calendar years, only if prior to the fifteenth day of February of such year, it has filed with the division a written notice to that effect.

b. Any employing unit for which services that do not constitute employment as defined in this chapter are performed, may file with the division a written election that all such services performed by individuals in its employ in one or more distinct establishments or places of business shall be deemed to constitute employment for all the purposes of this chapter for not less than two calendar years. Upon the written approval of such election by the division, such services shall be deemed to constitute employment subject to this chapter from and after the date

stated in such approval. Such services shall cease to be deemed employment subject hereto as of January 1 of any calendar year subsequent to such two calendar years, only if prior to the fifteenth day of February of such year such employing unit has filed with the division a written notice to that effect.

4. *Transfer or discontinuance of business.*

a. In any case in which the enterprise or business of a subject employer has been sold or otherwise transferred to a subsequent employing unit or reorganized or merged into a single employing unit under the provisions of section 96.7, subsection 2, paragraph "b", the account of the transferring employer shall terminate as of the date on which such transfer, reorganization or merger was completed.

b. In any case in which the enterprise or business of a subject employer has been discontinued otherwise than by sale or transfer to a subsequent employing unit and such employer has had no employment for a period of one year, the division of job service may, on its own motion, terminate said account.

5. *Liability of certain employers.* Employers who by election or determination of the division of job service are liable for payments in lieu of contributions shall not be relieved of any regular benefit charges or extended benefit charges, except for those charges which are determined to be incorrect because of an error by the division of job service.

96.9 Control, management, and use.

1. *Establishment and control.* There is hereby established as a special fund, separate and apart from all public moneys or funds of this state, an unemployment compensation fund, which shall be administered by the division of job service exclusively for the purposes of this chapter. This fund shall consist of:

- a. All contributions collected under this chapter,
- b. Interest earned upon any moneys in the fund,
- c. Any property or securities acquired through the use of moneys belonging to the fund,
- d. All earnings of such property or securities, and
- e. All money credited to this state's account in the unemployment trust fund pursuant to section 903 of the Social Security Act [42 USC § 501 to 503, 1103 to 1105, 1321 to 1324]. All moneys in the unemployment compensation fund shall be mingled and undivided.

2. *Accounts and deposits.* The state treasurer shall be ex officio treasurer and custodian of the fund and shall administer such fund in accordance with the directions of the division of job service. The director of revenue and finance shall issue warrants upon the fund pursuant to the order of the division of job service and such warrants shall be paid from the fund by the treasurer. The treasurer shall maintain within the fund three separate accounts:

- a. A clearing account.
- b. An unemployment trust fund account.
- c. A benefit account. All moneys payable to the

unemployment compensation fund and all interest and penalties on delinquent contributions and reports shall, upon receipt thereof by the division, be forwarded to the treasurer who shall immediately deposit them in the clearing account, but the interest and penalties on delinquent contributions and reports shall not be deemed to be a part of the fund. Refunds of contributions payable pursuant to section 96.14 shall be paid by the treasurer from the clearing account upon warrants issued by the director of revenue and finance under the direction of the division of job service. After clearance thereof, all other moneys in the clearing account, except interest and penalties on delinquent contributions and reports, shall be immediately deposited with the secretary of the treasury of the United States to the credit of the account of this state in the unemployment trust fund, established and maintained pursuant to section 904 of the Social Security Act as amended, any provisions of law in this state relating to the deposit, administration, release or disbursement of moneys in the possession or custody of this state to the contrary notwithstanding. Interest and penalties on delinquent contributions and reports collected from employers shall be transferred from the clearing account to the special employment security contingency fund. The benefit account shall consist of all moneys requisitioned from this state's account in the unemployment trust fund for the payment of benefits. Except as herein otherwise provided moneys in the clearing and benefit account may be deposited by the treasurer, under the direction of the division, in any bank or public depository in which general funds of the state may be deposited, but no public deposit insurance charge or premium shall be paid out of the fund. The treasurer shall give a separate bond conditioned upon the faithful performance of the treasurer's duties as custodian of the fund in an amount fixed by the governor and in form and manner prescribed by law. Premiums for said bond shall be paid from the administration fund.

Interest paid upon the moneys deposited with the secretary of the treasury of the United States shall be credited to the unemployment compensation fund.

3. *Withdrawals.* Moneys shall be requisitioned from this state's account in the unemployment trust fund solely for the payment of benefits and in accordance with regulations prescribed by the division of job service, except that money credited to this state's account pursuant to section 903 of the Social Security Act may, subject to the conditions prescribed in subsection 4 of this section, be used for the payment of expenses incurred for the administration of this chapter. The division shall from time to time requisition from the unemployment trust fund such amounts, not exceeding the amounts standing to the account of this state therein, as the division deems necessary for the payment of benefits for a reasonable future period. Upon receipt thereof the treasurer shall deposit such moneys in the benefit account, and shall disburse such moneys upon warrants

drawn by the director of revenue and finance pursuant to the order of the division of job service for the payment of benefits solely from such benefit account. Expenditures of such moneys from the benefit account and refunds from the clearing account shall not be subject to any provisions of law requiring specific appropriations or other formal release by state officers of money in their custody. All warrants issued by the director of revenue and finance for the payment of benefits and refunds shall bear the signature of the director of revenue and finance. Any balance of moneys requisitioned from the unemployment trust fund which remains unclaimed or unpaid in the benefit account after the expiration of the period for which such sums were requisitioned shall either be deducted from estimates for, and may be utilized for the payment of, benefits during succeeding periods, or, in the discretion of the division of job service, shall be redeposited with the secretary of the treasury of the United States, to the credit of this state's account in the unemployment trust fund, as provided in subsection 2 of this section.

4. *Money credited under section 903 of the Social Security Act.*

a. Money credited to the account of this state in the unemployment trust fund by the secretary of the treasury of the United States pursuant to section 903 of the Social Security Act may not be requisitioned from this state's account or used except for the payment of benefits and for the payment of expenses incurred for the administration of this chapter. Such money may be requisitioned pursuant to subsection 3 of this section for the payment of benefits. Such money may also be requisitioned and used for the payment of expenses incurred for the administration of this chapter but only pursuant to a specific appropriation by the legislature and only if the expenses are incurred and the money is requisitioned after the enactment of an appropriation law which (1) specifies the purposes for which such money is appropriated and the amounts appropriated therefor, (2) limits the period within which such money may be obligated to a period ending not more than two years after the date of the enactment of the appropriation law, and (3) limits the amount which may be obligated during a twelve-month period beginning on July 1 and ending on the next June 30 to an amount which does not exceed the amount by which the aggregate of the amounts transferred to the account of this state pursuant to section 903 of the Social Security Act exceeds the aggregate of the amounts used by this state pursuant to this chapter and charged against the amounts transferred to the account of this state during the same twelve-month period. For purposes of this subsection, amounts used by this state for administration shall be chargeable against transferred amounts at the exact time the obligation is entered into. The use of money appropriated under this subsection shall be accounted for in accordance with standards established by the United States secretary of labor.

b. Money requisitioned as provided herein for

the payment of expenses of administration shall be deposited in the employment security administration fund, but, until expended, shall remain a part of the unemployment compensation fund. The treasurer of state shall maintain a separate record of the deposit, obligation, expenditure and return of funds so deposited. Any money so deposited which either will not be obligated within the period specified by the appropriation law or remains unobligated at the end of the period, and any money which has been obligated within the period but will not be expended, shall be returned promptly to the account of this state in the unemployment trust fund.

5. *Administration expenses excluded.* Any amount credited to this state's account in the unemployment trust fund under section 903 of the Social Security Act which has been appropriated for expenses of administration pursuant to subsection 4 of this section, whether or not withdrawn from such account, shall not be deemed assets of the unemployment compensation fund for the purpose of computing contribution rates under section 96.7, subsection 3, of this chapter.

6. *Management of funds in the event of discontinuance of unemployment trust fund.* The provisions of subsections 1, 2, and 3 to the extent that they relate to the unemployment trust fund shall be operative only so long as such unemployment trust fund continues to exist and so long as the secretary of the treasury of the United States continues to maintain for this state a separate book account of all funds deposited therein by this state for benefit purposes, together with this state's proportionate share of the earnings of such unemployment trust fund, from which no other state is permitted to make withdrawals. If and when such unemployment trust fund ceases to exist, or such separate book account is no longer maintained, all moneys, properties, or securities therein, belonging to the unemployment compensation fund of this state shall be transferred to the treasurer of the unemployment compensation fund, who shall hold, invest, transfer, sell, deposit, and release such moneys, properties, or securities in a manner approved by the commissioner, treasurer of state and governor, in accordance with the provisions of this chapter: Provided, that such moneys shall be invested in the following readily marketable classes of securities; such securities as are authorized by the laws of the state of Iowa for the investment of trust funds. The treasurer shall dispose of securities and other properties belonging to the unemployment compensation fund only under the direction of the commissioner, treasurer of state and governor.

7. *Transfer to railroad account.* Notwithstanding any requirements of the foregoing subsections of this section, the commission shall, prior to July 1, 1939, authorize and direct the secretary of the treasury of the United States to transfer from this state's account in the unemployment trust fund, established and maintained pursuant to section 904 of the Social Security Act as amended, to the railroad unemployment insurance account, established and maintained

pursuant to section 10 of the Railroad Unemployment Insurance Act*, an amount hereinafter referred to as the preliminary amount; and shall, prior to January 1, 1940, authorize and direct the secretary of the treasury of the United States to transfer from this state's account in said unemployment trust fund to said railroad unemployment insurance account an additional amount, hereinafter referred to as the liquidating amount. The social security board shall determine both such amounts after consultation with the commission and the railroad retirement board. The preliminary amount shall consist of that proportion of the balance in the unemployment compensation fund as of June 30, 1939, as the total amount of contributions collected from "employers" as the term "employer" is defined in section 1 "a" of the Railroad Unemployment Insurance Act, and credited to the unemployment compensation fund bears to all contributions theretofore collected under this chapter and credited to the unemployment compensation fund. The liquidating amount shall consist of the total amount of contributions collected from "employers" as the term "employer" is defined in section 1 "a" of the Railroad Unemployment Insurance Act pursuant to the provisions of this chapter during the period July 1, 1939, to December 31, 1939.

8. *Cancellation of warrants.* The director of revenue and finance, as of January 1, April 1, July 1, and October 1 of each year, shall stop payment on all warrants for the payment of benefits which have been outstanding and unredeemed by the state treasurer for six months or longer. Should the original warrants subsequently be presented for payment, warrants in lieu thereof shall be issued by the director of revenue and finance at the discretion of and certification by the division of job service.

96.11 Duties, powers, rules — advisory council — privilege.

1. *Duties and powers of commissioner.* It shall be the duty of the commissioner to administer this chapter; and the commissioner shall have power and authority to adopt, amend, or rescind pursuant to chapter 17A such rules, to employ such persons, make such expenditures, require such reports, make such investigations, and take such other action as the commissioner deems necessary or suitable to that end. Not later than the fifteenth day of December of each year, the commissioner shall submit to the governor a report covering the administration and operation of this chapter during the preceding fiscal year and shall make such recommendations for amendments to this chapter as the commissioner deems proper. Such report shall include a balance sheet of the moneys in the fund. Whenever the commissioner believes that a change in contribution or benefits rates will become necessary to protect the

solvency of the fund, the commissioner shall promptly so inform the governor and the legislature, and make recommendations with respect thereto.

2. *General and special rules.* Each employer shall post and maintain printed statements of all rules of the division of job service in places readily accessible to individuals in the employer's service, and shall make available to each such individual at the time the individual becomes unemployed a printed statement of such rules relating to the filing of claims for benefits. Such printed statements shall be supplied by the division to each employer without cost to the employer.

3. *Publications.* The commissioner shall cause to be printed for distribution to the public the text of this chapter, the division of job service's general rules, its annual reports to the governor, and any other material the commissioner deems relevant and suitable and shall furnish the same to any person upon application therefor.

The department shall prepare and distribute to the public as labor force data, only that data adjusted according to the current population survey and other nonlabor force statistics which the department determines are of interest to the public.

4. *Bonds.* The commissioner may bond any employee handling moneys or signing checks.

5. *Advisory council.*

a. There is established a job service advisory council composed of nine members appointed by the governor subject to confirmation by the senate. Three members shall be appointed to represent employees; three members shall be appointed to represent employers; and three members shall be appointed to represent the general public. Not more than five members of the advisory council shall be members of the same political party. The members shall serve six-year staggered terms beginning and ending as provided in section 69.19. Members shall serve without compensation, but shall be reimbursed for actual and necessary expenses, including travel, incurred for official meetings of the advisory council from funds appropriated to the division of job service.

Vacancies shall be filled for the unexpired term in the same manner as the original appointment was made.

b. The advisory council shall meet with the commissioner at least quarterly to discuss problems relating to the administration of this chapter and may meet more often upon the call of the commissioner.

The advisory council annually shall elect a chairperson.

6. *Employment stabilization.* The commissioner with the advice and aid of the advisory council, and through the appropriate bureaus of the division, shall take all appropriate steps to reduce and prevent unemployment; to encourage and assist in the adoption of practical methods of vocational training, retraining and vocational guidance; to investigate, recommend, advise, and assist in the establishment and operation, by municipalities, counties, school dis-

tricts, and the state, of reserves for public works to be used in times of business depression and unemployment; to promote the re-employment of unemployed workers throughout the state in every other way that may be feasible; and to these ends to carry on and publish the results of investigations and research studies.

7. *Records, reports, and confidentiality.*

a. An employing unit shall keep true and accurate work records, containing information required by the division. The records shall be open to inspection and copying by an authorized representative of the division at any reasonable time and as often as necessary. An authorized representative of the division may require from an employing unit a sworn or unsworn report, with respect to individuals employed by the employing unit, which the division deems necessary for the effective administration of this chapter.

b. (1) The division shall hold confidential the information obtained from an employing unit or individual in the course of administering this chapter and the initial determination made by a representative of the division under section 96.6, subsection 2, as to the benefit rights of an individual. The division shall not disclose or open this information for public inspection in a manner that reveals the identity of the employing unit or the individual, except as provided in subparagraph (3) or paragraph "c".

(2) A report or statement, whether written or verbal, made by a person to a representative of the division or to another person administering this law is a privileged communication. A person is not liable for slander or libel on account of the report or statement unless the report or statement is made with malice.

(3) Information obtained from an employing unit or individual in the course of administering this chapter and an initial determination made by a representative of the division under section 96.6, subsection 2, as to benefit rights of an individual shall not be used in any action or proceeding, except in a contested case proceeding or judicial review under chapter 17A. However, the division shall make information, which is obtained from an employing unit or individual in the course of administering this chapter and which relates to the employment and wage history of the individual, available to a county attorney for the county attorney's use in the performance of duties under section 331.756, subsection 5. Information in the division's possession which may affect a claim for benefits or a change in an employer's rating account shall be made available to the interested parties. The information may be used by the interested parties in a proceeding under this chapter to the extent necessary for the proper presentation or defense of a claim.

c. Subject to conditions as the division by rule prescribes, information obtained from an employing unit or individual in the course of administering this chapter and an initial determination made by a representative of the division under section 96.6, sub-

section 2, as to benefit rights of an individual may be made available for purposes consistent with the purposes of this chapter to any of the following:

(7) An employee of the department, a member of the general assembly, or a member of the United States congress in connection with the employee's or member's official duties.

(8) A political subdivision, governmental entity, or nonprofit organization having an interest in the administration of job training programs established pursuant to the federal Job Training Partnership Act.

(9) The United States department of housing and urban development and representatives of a public housing agency.

d. Upon request of an agency of this or another state or of the federal government which administers or operates a program of public assistance or child support enforcement under either the law of this or another state or federal law, or which is charged with a duty or responsibility under the program, and if the agency is required by law to impose safeguards for the confidentiality of information at least as effective as required under this subsection, then the division shall provide to the requesting agency, with respect to any named individual without regard to paragraph "g", any of the following information:

(1) Whether the individual is receiving or has received benefits, or has made an application for benefits under this chapter.

(2) The period, if any, for which benefits were payable and the weekly benefit amount.

(3) The individual's most recent address.

(4) Whether the individual has refused an offer of employment, and, if so, the date of the refusal and a description of the employment refused, including duties, conditions of employment, and the rate of pay.

(5) The individual's wage information.

e. The division may require an agency which is provided information under this subsection to reimburse the division for the costs of furnishing the information.

f. An employee of the division, an administrative law judge, or a member of the appeal board who violates this subsection is guilty, upon conviction, of a serious misdemeanor.

g. Information subject to the confidentiality of this subsection shall not be directly released to any authorized agency unless an attempt is made to provide written notification to the individual involved. Information released in accordance with criminal investigations by a law enforcement agency of this state, another state, or the federal government is exempt from this requirement.

8. Oaths and witnesses. In the discharge of the duties imposed by this chapter, the chairperson of the appeal board and any duly authorized representative of the division of job service shall have power to administer oaths and affirmations, take depositions, certify to official acts, and issue subpoenas to compel the attendance of witnesses and the production of books, papers, correspondence, memoranda, and other records deemed necessary as evidence in connection with a disputed claim or the administration of this chapter.

9. Subpoenas. In case of contumacy by, or refusal to obey a subpoena issued to any person, any court of this state within the jurisdiction of which the inquiry is carried on or within the jurisdiction of which said person guilty of contumacy or refusal to obey is found or resides or transacts business, upon application by the division of job service, or any member or duly authorized representative thereof, shall have jurisdiction to issue to such person an order requiring such person to appear before the division or any member or duly authorized representative thereof to produce evidence if so ordered or to give testimony touching the matter under investigation or in question; any failure to obey such order of the court may be punished by said court as a contempt thereof.

10. Protection against self-incrimination. No person shall be excused from attending and testifying or from producing books, papers, correspondence, memoranda, and other records before the division of job service, or the appeal board, or in obedience to a subpoena in any cause or proceeding provided for in this chapter, on the ground that the testimony or evidence, documentary or otherwise, required of the person may tend to incriminate the person or subject the person to a penalty for forfeiture; but no individual shall be prosecuted or subjected to any penalty of forfeiture for or on account of any transaction, matter, or thing concerning which the individual is compelled, after having claimed privilege against self-incrimination, to testify or produce evidence, documentary or otherwise, except that such individual so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

11. State-federal co-operation. In the administration of this chapter, the division of job service shall co-operate with the United States department of labor to the fullest extent consistent with the pro-

visions of this chapter, and shall take such action, through the adoption of appropriate rules, regulations, administrative methods and standards, as may be necessary to secure to this state and its citizens all advantages available under the provisions of the Social Security Act that relate to unemployment compensation, the federal Unemployment Tax Act, the Wagner-Peyser Act, and the Federal-State Extended Unemployment Compensation Act of 1970.

In the administration of the provisions of section 96.29 which are enacted to conform with the requirements of the Federal-State Extended Unemployment Compensation Act of 1970, the division shall take such action as may be necessary to insure that the provisions are so interpreted and applied as to meet the requirements of such federal Act as interpreted by the United States department of labor, and to secure to this state the full reimbursement of the federal share of extended benefits paid under this chapter that are reimbursable under the federal Act.

The division shall make such reports, in such form and containing such information as the United States department of labor may from time to time require, and shall comply with such provisions as the United States department of labor may from time to time find necessary to assure the correctness and verification of such reports; and shall comply with the regulations prescribed by the United States department of labor governing the expenditures of such sums as may be allotted and paid to this state under Title III of the Social Security Act for the purpose of assisting in administration of this chapter.

The division may make its records relating to the administration of this chapter available to the railroad retirement board, and may furnish the railroad retirement board such copies thereof as the railroad retirement board deems necessary for its purposes. The division may afford reasonable co-operation with every agency of the United States charged with the administration of any unemployment insurance law. The railroad retirement board or any other agency requiring such services and reports from the division shall pay the division such compensation therefor as the division determines to be fair and reasonable.

12. *Destruction of records.* The division of job service may destroy or dispose of such original reports or records as have been properly recorded or summarized in the permanent records of the division and are deemed by the commissioner and the state records commission to be no longer necessary to the proper administration of this chapter. Wage records of the individual worker or transcripts therefrom may be destroyed or disposed of, if approved by the state records commission, two years after the expiration of the period covered by such wage records or upon proof of the death of the worker. Such destruction or disposition shall be made only by order of the commissioner in consultation with the state records commission. Any moneys received from the disposition of such records shall be deposited to the credit of the employment security administration fund, subject to rules promulgated by the division.

13. *Purging uncollectible overpayments.* Notwithstanding any other provision of this chapter, the division of job service shall review all outstanding overpayments of benefit payments annually. The division may determine as uncollectible and purge from its records any remaining unpaid balances of outstanding overpayments which are ten years or older from the date of the overpayment decision.

14. *Access to available jobs list.* The division of job service shall make available for consultation by the public, at each of the division's offices, a list of current job openings listed with the division, provided that the list shall comply with the confidentiality requirements of subsection 7, or those mandated by the federal government.

15. *Special contractor numbers.* For purposes of contractor registration under chapter 91C, the division of job service shall provide for the issuance of special contractor numbers to contractors for whom employer accounts are not required under this chapter. A contractor who is not in compliance with the requirements of this chapter shall not be issued a special contractor number.

16. *Reimbursement of setoff costs.* The division shall include in the amount set off in accordance with section 421.17, subsection 29 for the collection of an overpayment created pursuant to section 96.3, subsection 7, or section 96.16, subsection 4, an additional amount for the reimbursement of setoff costs incurred by the department of revenue and finance.

96.13 Control and use.

1. *Special fund.* There is hereby created in the state treasury a special fund to be known as the "Employment Security Administration Fund". All moneys which are deposited or paid into this fund are hereby appropriated and made available to the division of job service. All moneys in this fund, except money received pursuant to section 96.9, subsection 4, which are received from the federal government or any agency thereof or which are appropriated by the state for the purposes described in section 96.12 shall be expended solely for the purposes and in the amounts found necessary by the secretary of labor for the proper and efficient administration of this chapter. This fund shall consist of all moneys appropriated by this state, and all moneys received from the United States, or any agency thereof, including the department of labor, the railroad retirement board, the United States employment service, established under the Wagner-Peyser Act, or from any other source for such purpose. Moneys received from the railroad retirement board, or any other agency, as compensation for services or facilities supplied to said board or agency shall be paid to the division, and the division shall allocate said moneys to the employment security administration fund. All moneys in this fund shall be deposited, administered, and disbursed, in the same manner and under the same conditions and requirements as is provided by law

for special funds in the state treasury. Any balances in this fund shall not lapse at any time, but shall be continuously available to the division for expenditure consistent with this chapter. The state treasurer shall give a separate and additional bond conditioned upon the faithful performance of the treasurer's duties in connection with the employment security administration fund in an amount and with such sureties as shall be fixed and approved by the governor. The premiums for such bond and the premiums for the bond given by the treasurer of the unemployment compensation fund under section 96.9, shall be paid from the moneys in the employment security administration fund. Notwithstanding any provision of this section, all money requisitioned and deposited in this fund pursuant to section 96.9, subsection 4, paragraph "b", shall remain part of the unemployment compensation fund and shall be used only in accordance with the conditions specified in section 96.9, subsection 4.

2. *Replenishment of lost funds.* If any moneys received after June 30, 1941, from the social security board under Title III of the Social Security Act, or any unencumbered balances in the unemployment compensation administration fund as of that date, or any moneys granted after that date to this state pursuant to the provisions of the Wagner-Peyser Act, or any moneys made available by this state or its political subdivisions and matched by such moneys granted to this state pursuant to the provisions of the Wagner-Peyser Act, are found by the social security board, because of any action or contingency, to have been lost or been expended for purposes other than or in amounts in excess of, those found necessary by the social security board for the proper administration of this chapter, it is the policy of this state that such moneys shall be replaced by moneys appropriated for such purpose from the general funds of this state to the unemployment compensation administration fund for expenditure as provided in subsection 1 of this section. Upon receipt of notice of such a finding by the social security board, the department shall promptly report the amount required for such replacement to the governor and the governor shall at the earliest opportunity, submit to the legislature a request for the appropriation of such amount. This subsection shall not be construed to relieve this state of its obligation with respect to funds received prior to July 1, 1941, pursuant to the provisions of Title III of the Social Security Act.

3. *Special employment security contingency fund.*

a. There is created in the state treasury a special fund to be known as the special employment security contingency fund. All interest, fines, and penalties, regardless of when they become payable, collected from employers under section 96.14 shall be paid into the fund. The moneys shall not be expended or available for expenditure in any manner which would permit their substitution for federal funds which would in the absence of the moneys be available to finance expenditures for the administration

of the employment security law. However, the moneys may be used as a revolving fund to cover expenditures for which federal funds have been duly requested but not yet received, subject to the charging of the expenditures against the funds when received. The moneys may be used for the payment of costs of administration which are found not to have been properly and validly chargeable against federal grants or other funds, received for or in the employment security administration fund. The moneys in the fund are specifically made available to replace, within a reasonable time, any moneys received by this state in the form of grants from the federal government for administrative expenses which because of any action or contingency have been expended for purposes other than, or in excess of, those necessary for the proper administration of the employment security law. All moneys in the fund shall be deposited, administered, and disbursed in the same manner and under the same conditions and requirements as are provided by law for other special funds in the state treasury. Interest earned upon moneys in the fund shall be deposited in and credited to the fund.

The treasurer of state shall be the custodian of the fund and shall give a separate and additional bond conditioned upon the faithful performance of the treasurer's duties in connection with the fund in an amount and with sureties as shall be fixed and approved by the governor. The premium for the bond shall be paid from the moneys in the fund. All sums recovered on the bond for losses sustained by the fund shall be deposited in the fund. Refunds of interest and penalties shall be paid only from the fund.

Balances to the credit of the fund shall not lapse at any time but shall continuously be available to the division of job service for expenditures consistent with this subsection. Moneys remaining in the fund at the end of each fiscal year shall not revert to any fund and shall remain in the fund.

b. The division shall annually report to the joint regulatory and finance appropriations subcommittee on its plans for expenditures during the next state fiscal year from the special employment security contingency fund. The report shall describe the specific expenditures and explain why the expenditures are to be made from the fund and not from federal administrative funds.

c. The division may appear before the executive council and request funds to meet unanticipated emergencies.

96.14 Priority — refunds.

1. *Interest.* Any employer who shall fail to pay any contribution and at the time required by this chapter and the rules of the division of job service shall pay to the division in addition to such contribution, interest thereon at the rate of one percent per month and one-thirtieth of one percent for each day

or fraction thereof computed from the date upon which said contribution should have been paid.

2. *Penalties.* Any employer who shall fail to file a report of wages paid to each of the employer's employees for any period in the manner and within the time required by this chapter and the rules of the division of job service or any employer who the commission finds has filed an insufficient report and fails to file a sufficient report within thirty days after a written request from the division to do so shall pay a penalty to the division.

The penalty shall become effective with the first day the report is delinquent or, where a report is insufficient, with the thirty-first day following the written request for a sufficient report.

Penalty for failing to file a sufficient report shall be in addition to any penalty incurred for a delinquent report where the delinquent report is also insufficient.

The amount of the penalty for delinquent and insufficient reports shall be computed based on total wages in the period for which the report was due and shall be computed as follows:

Days Delinquent or Insufficient	Penalty Rate
1-60	0.1%
61-120	0.2%
121-180	0.3%
181-240	0.4%
241 or over	0.5%

A penalty shall not be less than ten dollars for the first delinquent report or the first insufficient report not made sufficient within thirty days after a request to do so. The penalty shall not be less than twenty-five dollars for the second delinquent or insufficient report, and not less than fifty dollars for each delinquent or insufficient report thereafter, until four consecutive calendar quarters of reports are timely and sufficiently filed. Interest, penalties, and cost shall be collected by the division in the same manner as provided by this chapter for contributions.

If the division finds that any employer has willfully failed to pay any contribution or part thereof when required by this chapter and the rules of the division, with intent to defraud the division, then such employer shall in addition to such contribution or part thereof, pay a contribution equal to fifty percent of the amount of such contribution or part thereof, as the case may be.

The division may cancel any interest or penalties if it is shown to the satisfaction of the division that the failure to pay a required contribution or to file a required report was not the result of negligence, fraud, or intentional disregard of the law or the rules of the division.

3. *Lien of contributions — collection.* Whenever any employer liable to pay contributions refuses or neglects to pay the same, the amount, including any interest, together with the costs that may accrue in addition thereto, shall be a lien in favor of the

state upon all property and rights to property, whether real or personal, belonging to said employer. An assessment of the unpaid contributions, interest and penalty shall be applied as provided in section 96.7, subsection 4, paragraphs "a" and "b" and the lien shall attach as of the date the assessment is mailed or personally served upon the employer. However, the division of job service may release any lien, when after diligent investigation and effort it determines that the amount due is not collectible.

In order to preserve the aforesaid lien against subsequent mortgagees, purchasers or judgment creditors, for value and without notice of the lien, on any property situated in a county, the division shall file with the recorder of the county, in which said property is located, a notice of said lien.

The county recorder of each county shall prepare and keep in the recorder's office a book to be known as "*index of unemployment contribution liens*", so ruled as to show in appropriate columns the following data, under the names of employers, arranged alphabetically:

- a. The name of the employer.
- b. The name "State of Iowa" as claimant.
- c. Time notice of lien was received.
- d. Date of notice.
- e. Amount of lien then due.
- f. When satisfied.

The recorder shall endorse on each notice of lien the day, hour, and minute when received and shall forthwith index said notice in said index book and shall forthwith record said lien in the manner provided for recording real estate mortgages, and the said lien shall be effective from the time of the indexing thereof.

The division shall pay a recording fee as provided in section 331.604, for the recording of the lien, or for its satisfaction.

Upon the payment of contributions as to which the division has filed notice with a county recorder, the division shall forthwith file with said recorder a satisfaction of said contributions and the recorder shall enter said satisfaction on the notice on file in the recorder's office and indicate said fact on the index aforesaid.

The division shall, substantially as provided in this chapter and chapter 626, proceed to collect all contributions as soon as practicable after they become delinquent, except that no property of the employer is exempt from payment of the contributions.

If, after due notice, any employer defaults in any payment of contributions or interest thereon, the amount due may be collected by civil action in the name of the division and the employer adjudged in default shall pay the costs of such action. Civil actions brought under this section to collect contributions or interest thereon from an employer shall be heard by the court at the earliest possible date and shall be entitled to preference upon the calendar of the court over all other civil actions except petitions for judicial review under this chapter and cases arising under the workers' compensation law of this state.

It is expressly provided that the foregoing remedies of the state shall be cumulative and that no action taken by the division shall be construed to be an election on the part of the state or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy provided by law.

The courts of this state shall recognize and enforce liabilities for unemployment contributions, penalties, interest and benefit overpayments imposed by other states which extend a like comity to this state. The division may sue in the courts of any other jurisdiction which extends such comity to collect unemployment contributions, penalties, interest and benefit overpayments due this state. The officials of other states which, by statute or otherwise, extend a like comity to this state may sue in the district court to collect for such contributions, penalties, interest and benefit overpayments. In any such case the commissioner, as agent for and on behalf of any other state, may institute and conduct such suit for such other state. Venue of such proceedings shall be the same as for actions to collect delinquent contributions, penalties, interest and benefit overpayments due under this chapter. A certificate by the secretary of any such state attesting the authority of such official to collect the contributions, penalties, interest and benefit overpayments, is conclusive evidence of such authority. The requesting state shall pay the court costs.

If a political subdivision or a political subdivision instrumentality becomes delinquent in the payment of contributions, any payments owed as a government employer, penalty, interest and costs for more than two calendar quarters, the amount of such delinquency shall be deducted from any further moneys due the employer by the state. Such deduction shall be made by the director of revenue and finance upon certification of the amount due. A copy of the certification will be mailed to the employer.

If an amount due from a governmental entity of this state remains due and unpaid for a period of one hundred twenty days after the due date, the commissioner shall take action as necessary to collect the amount and shall levy against any funds due the governmental entity from the state treasurer, director of revenue and finance, or any other official or agency of this state or against an account established by the entity in any bank. The official, agency or bank shall deduct the amount certified by the commissioner from any accounts or deposits or any funds due the delinquent governmental entity without regard to any prior claim and shall promptly forward the amount to the commissioner for the fund. However, the commissioner shall notify the delinquent entity of the commissioner's intent to file a levy by certified mail at least ten days prior to filing the levy on any funds due the entity from any state official or agency.

4. *Priorities under legal dissolutions or distributions.* In the event of any distribution of an employer's assets pursuant to an order of any court under the laws of this state, including any receivership, assignment for benefit of creditors, adjudicated

insolvency, composition, or similar proceeding, contributions then or thereafter due shall be paid in full prior to all other claims except taxes and claims for wages preferred as provided by statute. In the event of an employer's adjudication in bankruptcy, judicially confirmed extension proposal, or composition, under the federal Bankruptcy Act of 1898, as amended, contributions then or thereafter due shall be entitled to such priority as is provided in section 64 "a" of that Act [11 U.S.C., § 104, "b", as amended].

5. *Refunds, compromises and settlements.* If the division of job service finds that an employer has paid contributions or interest on contributions, which have been erroneously paid or which have been paid solely due to benefits initially charged against but later removed from an employer's account, and the employer has filed an application for adjustment, the division shall make an adjustment, compromise, or settlement, and, at the employer's option, shall either refund the payments or treat the payments as voluntary contributions with no limitation on the payments' effects on the employer's contribution rate. Refunds so made shall be charged to the fund to which the collections have been credited, and shall be paid to the claimant without interest. A claim for refund shall be made within three years from the date of payment. For like cause, adjustments, compromises or refunds may be made by the division on its own initiative. If the division finds that the contribution that has been assessed against an employer is of doubtful collectibility or may not be collected in full, the division may institute a proceeding in the district court in the county in which the employer against which the tax is levied is located, requesting authority to compromise the contribution. Notice of the filing of an application shall be given to the interested parties as the court may prescribe. The court upon hearing may authorize the division to compromise and settle its claim for the contribution and shall fix the amount to be received by the division in full settlement of the claim and shall authorize the release of the division's lien for the contribution.

6. *Nonresident employing units.* Any employing unit which is a nonresident of the state of Iowa and for which services are performed in insured work within the state of Iowa and any resident employer for which such services are performed and who thereafter leaves the state of Iowa by having such services performed within the state of Iowa shall be deemed:

a. To agree that such employing unit shall be subject to the jurisdiction of the district court of the state of Iowa over all civil actions and proceedings against such employing unit for all purposes of this chapter, and

b. To appoint the secretary of state of this state as its lawful attorney upon whom may be served all original notices of suit and other legal processes pertaining to such actions and proceedings, and

c. To agree that any original notice of suit or any other legal process so served upon such nonresident

employing unit shall be of the same legal force and validity as if personally served on it in this state.

7. *Original notice — form.* The original notice of suit filed with the secretary of state shall be in form and substance the same as now provided in suits against residents of this state, except that the part of the notice pertaining to the return day shall be in substantially the following form:

And unless you appear and defend in the district court of Iowa in and for county at the courthouse in, Iowa, before noon of the sixtieth day following the filing of this notice with the secretary of state of this state, you will be adjudged in default, your default entered of record, and judgment rendered against you for the relief sought in plaintiff's petition.

8. *Manner of service.* Plaintiff in any such action shall cause the original notice of suit to be served as follows:

a. By filing a copy of said original notice of suit with said secretary of state, together with a fee of four dollars, and

b. By mailing to the defendant, and to each of the defendants if more than one, within ten days after said filing with the secretary of state, by restricted certified mail addressed to the defendant at the defendant's last known residence or place of abode, a notification of the said filing with the secretary of state.

9. *Notification to nonresident — form.* The notification, provided for in subsection 7, shall be in substantially the following form, to wit:

To (Here insert the name of each defendant and the defendant's residence or last known place of abode as definitely as known.)

You will take notice that an original notice of suit against you, a copy of which is hereto attached, was duly served upon you at Des Moines, Iowa, by filing a copy of said notice on the day of, 19....., with the secretary of state of the state of Iowa.

Dated at, Iowa, this day of, 19.....

.....
Plaintiff.
By
Attorney for Plaintiff.

10. *Optional notification.* In lieu of mailing said notification to the defendant in a foreign state, plaintiff may cause said notification to be personally served in the foreign state on the defendant by any adult person not a party to the suit, by delivering said notification to the defendant or by offering to make such delivery in case defendant refuses to accept delivery.

11. *Proof of service.* Proof of the filing of a copy of said original notice of suit with the secretary of state, and proof of the mailing or personal delivery of said notification to said nonresident shall be made

by affidavit of the party doing said acts. All affidavits of service shall be endorsed upon or attached to the originals of the papers to which they relate. All proofs of service, including the restricted certified mail return receipt, shall be forthwith filed with the clerk of the district court.

12. *Actual service within this state.* The foregoing provisions relative to service of original notice of suit on nonresidents shall not be deemed to prevent actual personal service in this state upon the nonresident in the time, manner, form, and under the conditions provided for service on residents.

13. *Venue of actions.* Actions against nonresidents as contemplated by this law may be brought in Polk county, or in the county in which such services were performed.

14. *Continuances.* The court in which such action is pending shall grant such continuances to a nonresident defendant as may be necessary to afford the defendant reasonable opportunity to defend said action.

15. *Duty of secretary of state.* The secretary of state shall keep a record of all notices of suit filed with the secretary, shall not permit said filed notices to be taken from the secretary's office except on an order of court, and shall, on request, and without fee, furnish any defendant with a certified copy of the notice in which the person is a defendant.

16. *Injunction upon nonpayment.* Any employer or employing unit refusing or failing to make and file required reports or to pay any contributions, interest or penalty under the provisions of this chapter, after ten days' written notice sent by the division of job service to the employer's or employing unit's last known address by certified mail, may be enjoined from operating any business in the state while in violation of this chapter upon the complaint of the division in the district court of a county in which the employer or employing unit has or had a place of business within the state, and any temporary injunction enjoining the continuance of such business may be granted without notice and without a bond being required from the division. Such injunction may enjoin any employer or employing unit from operating a business unit until the delinquent contributions, interest or penalties shall have been made and filed or paid; or the employer shall have furnished a good and sufficient bond conditioned upon the payment of such delinquencies in such an amount and containing such terms as may be determined by the court; or the employer has entered into a plan for the liquidation of such delinquencies as the court may approve, provided that such injunction may be reinstated upon the employer's failure to comply with the terms of said plan.

96.40 Voluntary shared work program.

1. An employer who wishes to participate in the shared work unemployment compensation program established under this section shall submit a written shared work plan in a form acceptable to the division for approval.

As a condition for approval by the division, a participating employer shall agree to furnish the division with reports relating to the operation of the shared work plan as requested by the division. The employer shall monitor and evaluate the operation of the established shared work plan as requested by the division and shall report the findings to the division.

2. The division may approve a shared work plan if all of the following conditions are met:

a. The employer has filed all reports required to be filed under this chapter for all past and current periods and has paid all contributions due for all past and current periods.

b. The plan certifies that the aggregate reduction in work hours is in lieu of temporary layoffs which would have affected at least ten percent of the employees in the affected unit or units to which the plan applies and which would have resulted in an equivalent reduction in work hours. "Affected unit" means a specified plant, department, shift, or other definable unit.

c. The employees in the affected unit are identified by name and social security number and consist of at least five individuals.

d. The shared work plan reduces the normal weekly hours of work for an employee in the affected unit by not less than twenty percent and not more than fifty percent with a corresponding reduction in wages. Only full-time employees who normally work between thirty-five and forty hours per week are eligible to participate.

e. The reduction in hours and corresponding reduction in wages must be applied equally to all of the full-time employees in the affected unit.

f. The plan provides that fringe benefits will continue to be provided to employees in affected units as though their workweeks had not been reduced.

g. The plan will not serve as a subsidy of seasonal employment during the off season, nor as a subsidy of temporary part-time or intermittent employment.

h. The employer certifies that the employer will not hire additional part-time or full-time employees for the affected work force while the program is in operation.

i. The duration of the shared work plan will not exceed twenty-six weeks. An employing unit is eligible for approval of only one plan during a twenty-four-month period.

j. The plan is approved in writing by the collective bargaining representative for each employee organization or union which has members in the affected unit.

3. The employer shall submit a shared work plan to the division for approval at least thirty days prior to the proposed implementation date.

4. The division may revoke approval of a shared work plan and terminate the plan if the division determines that the shared work plan is not being executed according to the terms and intent of the shared work unemployment compensation program, or if it is determined by the division that the approval of the shared work plan was based, in whole or in part, upon information contained in the plan which was either false or substantially misleading.

5. An individual who is otherwise entitled to receive regular unemployment compensation benefits under this chapter shall be eligible to receive shared work benefits with respect to any week in which the division finds all of the following:

a. The individual is employed as a member of an affected unit subject to a shared work plan that was approved before the week in question and is in effect for that week.

b. The individual is able to work, available for work, and works all available hours with the participating employer.

c. The individual's normal weekly hours of work have been reduced by at least twenty percent but not more than fifty percent, with a corresponding reduction in wages.

6. The division shall not deny shared work benefits for any week to an otherwise eligible individual by reason of the application of any provision of this chapter which relates to availability for work, active search for work, or refusal to apply for or accept work with an employer other than the participating employer under the plan.

7. The division shall pay an individual who is eligible for shared work benefits under this section a weekly shared work benefit amount equal to the individual's regular weekly benefit amount for a period of total unemployment, less any deductible amounts under this chapter except wages received from any employer, multiplied by the full percentage of reduction in the individual's hours as set forth in the employer's shared work plan. If the shared work benefit amount calculated under this subsection is not a multiple of one dollar, the division shall round the amount so calculated to the next lowest multiple of one dollar. An individual shall be ineligible for shared work benefits for any week in which the individual performs paid work for the participating employer in excess of the reduced hours established under the shared work plan.

8. An individual shall not be entitled to receive shared work benefits and regular unemployment compensation benefits in an aggregate amount which exceeds the maximum total amount of benefits payable to that individual in a benefit year as provided under section 96.3, subsection 5. Notwithstanding any other provisions of this chapter, an individual shall not be eligible to receive shared work benefits for more than twenty-six calendar weeks during the individual's benefit year.

9. Notwithstanding any other provisions of this chapter, all benefits paid under a shared work plan, which are chargeable to the participating employer

or any other base period employer of a participating employee, shall be charged to the account of the participating employer under the plan.

10. An individual who has received all of the shared work benefits and regular unemployment compensation benefits available in a benefit year shall be considered an exhaustee, as defined in sec-

tion 96.19, subsection 34, for purposes of the extended benefit program administered pursuant to section 96.29.

11. This section is repealed on February 28, 1995.

CHAPTER 97A

PUBLIC SAFETY PEACE OFFICERS' RETIREMENT, ACCIDENT AND DISABILITY SYSTEM

97A.4 Service creditable.

Service for fewer than six months of a year is not creditable as service. Service of six months or more of a year is equivalent to one year of service, but in no case shall more than one year of service be creditable for all service in one calendar year, nor shall the board of trustees allow credit as service for any period of more than one month duration during which the member was absent without pay.

Any member of the system who has been employed continuously prior to the passage of this chapter in the division of highway safety and uniformed force or the division of criminal investigation and bureau of identification in the department of public safety, or as a member of the Iowa highway safety patrol, or as a peace officer or a member of the uniformed force in any department or division whose functions were transferred to, merged, or consolidated in the department of public safety at the time such department was created, shall receive credit for such service in determining retirement and disability benefits provided for in this chapter. Arson investigators who have contributed to this system prior to July 1, 1978 shall receive credit for such service in determining retirement and disability benefits.

The board of trustees shall credit as service for a member of the system a previous period of service for which the member had withdrawn the member's accumulated contributions, as defined in section 97A.15.

97A.6 Benefits.

1. *Service retirement benefit.* Retirement of a member on a service retirement allowance shall be made by the board of trustees as follows:

a. Any member in service may retire upon the member's written application to the board of trustees, setting forth at what time, not less than thirty

nor more than ninety days subsequent to the execution and filing therefor, the member desires to be retired, provided, that the said member at the time so specified for retirement shall have attained the age of fifty-five and shall have completed twenty-two years or more of creditable service, and notwithstanding that, during such period of notification, the member may have separated from the service.

b. Any member in service who has been a member of the retirement system four or more years and whose employment is terminated prior to the member's retirement, other than by death or disability, shall upon attaining retirement age, receive a service retirement allowance of four twenty-seconds of the retirement allowance the member would receive at retirement if the member's employment had not been terminated, and an additional one twenty-second of such retirement allowance for each additional year of service not exceeding twenty-two years of service. The amount of the retirement allowance shall be calculated in the manner provided in this paragraph using the average final compensation at the time of termination of employment.

2. *Allowance on service retirement.*

a. Upon retirement from service prior to July 1, 1990, a member shall receive a service retirement allowance which shall consist of a pension which equals fifty percent of the member's average final compensation.

b. Upon retirement from service on or after July 1, 1990, but before July 1, 1992, a member shall receive a service retirement allowance which shall consist of a pension which equals fifty-four percent of the member's average final compensation.

c. Commencing July 1, 1992, the board of trustees shall increase the percentage multiplier of the member's average final compensation by an additional two percent each July 1 until reaching sixty percent of the member's average final compensation.

d. Commencing July 1, 1990, if the member has completed more than twenty-two years of creditable

service, the service retirement allowance shall consist of a pension which equals the amount provided in paragraphs "b" and "c", plus an additional percentage as set forth below:

(1) For a member who terminates service, other than by death or disability, on or after July 1, 1990, but before July 1, 1991, and who does not withdraw the member's contributions pursuant to section 97A.16, upon the member's retirement there shall be added three-tenths percent of the member's average final compensation for each year of service over twenty-two years, excluding years of service after the member's fifty-fifth birthday. However, this subparagraph does not apply to more than eight additional years of service.

(2) For a member who terminates service, other than by death or disability, on or after July 1, 1991, and who does not withdraw the member's contributions pursuant to section 97A.16, upon the member's retirement there shall be added six-tenths percent of the member's average final compensation for each year of service over twenty-two years, excluding years of service after the member's fifty-fifth birthday. However, this subparagraph does not apply to more than eight additional years of service.

3. *Ordinary disability retirement benefit.* Upon the application of a member in service or of the commissioner of public safety, any member shall be retired by the board of trustees, not less than thirty and not more than ninety days next following the date of filing such application, on an ordinary disability retirement allowance, provided, that the medical board after a medical examination of such member shall certify that said member is mentally or physically incapacitated for further performance of duty, that such incapacity is likely to be permanent and that such member should be retired.

4. *Allowance on ordinary disability retirement.* Upon retirement for ordinary disability a member shall receive an ordinary disability retirement allowance which shall consist of a pension which shall equal fifty percent of the member's average final compensation except if the member has not had five or more years of membership service, the member shall receive a pension equal to one-fourth of the member's average final compensation.

5. *Accidental disability benefit.* Upon application of a member in service or of the commissioner of public safety, any member who has become totally and permanently incapacitated for duty as the natural and proximate result of an injury, disease or exposure occurring or aggravated while in the actual performance of duty at some definite time and place shall be retired by the board of trustees, provided, that the medical board shall certify that such member is mentally or physically incapacitated for further performance of duty, that such incapacity is likely to be permanent and that such member should be retired. Should a member in service become incapacitated for duty as a natural and proximate result of an injury, disease, or exposure incurred or aggravated while in the actual performance of duty at

some definite time or place, the member shall, upon being found to be temporarily incapacitated following an examination by the board of trustees, be entitled to receive the member's fixed pay and allowances until re-examined by the board and found to be fully recovered or permanently disabled. Disease under this section shall mean heart disease or any disease of the lungs or respiratory tract and shall be presumed to have been contracted while on active duty as a result of strain, exposure, or the inhalation of noxious fumes, poison, or gases.

6. *Retirement after accident.*

a. Upon retirement for accidental disability prior to July 1, 1990, a member shall receive an accidental disability retirement allowance which shall consist of a pension equal to sixty-six and two-thirds percent of the member's average final compensation.

b. Upon retirement for accidental disability on or after July 1, 1990, a member shall receive an accidental disability retirement allowance which shall consist of a pension equal to sixty percent of the member's average final compensation.

7. *Re-examination of beneficiaries retired on account of disability.* Once each year during the first five years following the retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the board of trustees may, and upon the member's application shall, require any disability beneficiary who has not yet attained age fifty-five to undergo a medical examination at a place designated by the medical board. Such examination shall be made by the medical board or in special cases, by an additional physician or physicians designated by such board. Should any disability beneficiary who has not attained the age of fifty-five refuse to submit to such medical examination, the beneficiary's allowance may be discontinued until the beneficiary's withdrawal of such refusal, and should the beneficiary's refusal continue for one year all rights in and to the beneficiary's pension may be revoked by the board of trustees.

a. Should any beneficiary for either ordinary or accidental disability, except a beneficiary who is fifty-five years of age or over and would have completed twenty-two years of service if the beneficiary had remained in active service, be engaged in a gainful occupation paying more than the difference between the member's retirement allowance and one and one-half times the current earnable compensation of an active member at the same position on the salary scale within the member's rank as the member held at retirement, then the amount of the retirement allowance shall be reduced to an amount which together with the amount earned by the member shall equal one and one-half times the amount of the current earnable compensation of an active member at the same position on the salary scale within the member's rank as the member held at retirement. Should the member's earning capacity be later changed, the amount of the retirement allowance may be further modified, provided, that the new retirement allowance shall not exceed the amount of

the retirement allowance originally granted adjusted by annual readjustments of pensions pursuant to subsection 15 of this section nor an amount which, when added to the amount earned by the beneficiary, equals one and one-half times the amount of the current earnable compensation of an active member at the same position on the salary scale within the member's rank as the member held at retirement. A beneficiary restored to active service at a salary less than the average final compensation upon the basis of which the member was retired at age fifty-five or greater, shall not again become a member of the retirement system and shall have the member's retirement allowance suspended while in active service. If the rank or position held by the retired member is subsequently abolished, adjustments to the allowable limit on the amount of income which can be earned in a gainful occupation shall be computed in the same manner as provided in subsection 15, paragraph "d," of this section for readjustment of pensions when a rank or position has been abolished.

A beneficiary retired under the provisions of this paragraph in order to be eligible for continued receipt of retirement benefits shall no later than May 15 of each year submit to the board of trustees a copy of the beneficiary's state income tax return for the preceding year.

Retroactive to July 1, 1976, the limitations on pay of a member engaged in a gainful occupation who is retired under accidental disability prescribed in this paragraph shall not apply to a member who retired before July 1, 1976.

b. Should a disability beneficiary under age fifty-five be restored to active service at a compensation not less than the disability beneficiary's average final compensation, the disability beneficiary's retirement allowance shall cease, the disability beneficiary shall again become a member and shall contribute thereafter at the same rate paid prior to disability, and former service on the basis of which the disability beneficiary's service was computed at the time of retirement shall be restored to full force and effect and upon subsequent retirement the disability beneficiary shall be credited with all service as a member, and also with the period of disability retirement.

c. The commissioner of public safety may, subject to approval of the medical board, assign any former member of the division of highway safety and uniformed force or the division of criminal investigation and bureau of identification or an arson investigator who is retired and drawing a pension for disability under the provisions of this chapter, to the performance of light duties in such division.

8. *Ordinary death benefit.*

a. Upon the receipt of proof of the death of a member in service, or a member not in service who has completed four or more years of service as provided in subsection 1, paragraph "b", there shall be paid to the person designated by the member to the board of trustees as the member's beneficiary if the member has had one or more years of membership service and no pension is payable under subsection

9, an amount equal to fifty percent of the compensation earned by the member during the year immediately preceding the member's death if the member is in service, or an amount equal to fifty percent of the compensation earned by the member during the member's last year of service if the member is not in service.

b. In lieu of the payment specified in paragraph "a," a beneficiary meeting the qualifications of paragraph "c" may elect to receive a monthly pension equal to one-twelfth of forty percent of the average final compensation of the member, but not less than an amount equal to twenty percent of the monthly earnable compensation paid to an active member having the rank of senior patrol officer of the Iowa highway safety patrol if the member was in service at the time of death. For a member not in service at the time of death, the pension shall be reduced as provided in subsection 1, paragraph "b".

For a member not in service at the time of death, the pension shall be paid commencing when the member would have attained the age of fifty-five except that if there is a child of the member, the pension shall be paid commencing with the member's death until the children reach the age of eighteen, or twenty-two if applicable. The pension shall resume commencing when the member would have attained the age of fifty-five.

For a member in service at the time of death, the pension shall be paid commencing with the member's death. In addition to the pension, there shall also be paid for each child of a member, a monthly pension equal to six percent of the monthly earnable compensation payable to an active member having the rank of senior patrol officer of the Iowa highway safety patrol.

For the purpose of this chapter, a senior patrol officer is a person who has completed ten years of service in the Iowa highway safety patrol.

Notwithstanding section 97A.6, subsection 8, Code 1985, effective July 1, 1990, for a member's surviving spouse who, prior to July 1, 1986, elected to receive pension benefits under this paragraph, the monthly pension benefit shall be equal to the higher of one-twelfth of forty percent of the average final compensation of the member, or the amount the surviving spouse was receiving on July 1, 1990.

c. The pension under paragraph "b" may be selected only by the following beneficiaries:

- (1) The spouse.
- (2) If there is no spouse, or if the spouse dies and there is a child of a member, then the guardian of the member's child or children, divided as the board of trustees determines, to continue as a joint and survivor pension until every child of the member dies or attains the age of eighteen, or twenty-two if applicable.
- (3) If there is no surviving spouse or child, then the member's dependent father or mother, or both, as the board of trustees determines, to continue until remarriage or death.

d. If there is no nomination of beneficiary, the

benefits provided in this subsection shall be paid to the member's estate

9 *Accidental death benefit* If, upon the receipt of evidence and proof that the death of a member was the natural and proximate result of an accident or exposure occurring at some definite time and place while the member was in the actual performance of duty, the board of trustees shall decide that death was so caused in the performance of duty there shall be paid, in lieu of the ordinary death benefit provided in subsection 8 of this section, to the member's estate or to such person having an insurable interest in the member's life as the member shall have nominated by written designation duly executed and filed with the board of trustees

a A pension equal to one half of the average final compensation of such member shall be paid to the surviving spouse, children or dependent parents as provided in paragraphs "c", "d", and "e" of subsection 8 of this section

b If there is no surviving spouse, child, or dependent parent surviving a deceased member, the death shall be treated as an ordinary death case and the benefit payable under subsection 8, paragraph "a" of this section, in lieu of the pension provided in paragraph "a" of this subsection, shall be paid to the member's estate

c In addition to the benefits for the surviving spouse enumerated in this subsection, there shall also be paid for each child of a member a monthly pension equal to six percent of the monthly earnable compensation payable to an active member having the rank of senior patrol officer of the Iowa highway safety patrol

10 *Optional allowance* With the provision that no optional selection shall be effective in case a beneficiary dies within thirty days after retirement, in which event such a beneficiary shall be considered as an active member at the time of death, until the first payment on account of any benefit becomes normally due, any beneficiary may elect to receive the beneficiary's benefit in a retirement allowance payable throughout life, or may elect to receive the actuarial equivalent at that time of the beneficiary's retirement allowance in a lesser retirement allowance payable throughout life with the provision that an amount in money not exceeding the amount of the beneficiary's accumulated contributions shall be immediately paid in cash to such member or some other benefit or benefits shall be paid either to the member or to such person or persons as the member shall nominate, provided such cash payment or other benefit or benefits, together with the lesser retirement allowance, shall be certified by the state commissioner of insurance to be of equivalent actuarial value to the member's retirement allowance and shall be approved by the board of trustees, provided, that a cash payment to such member or beneficiary at the time of retirement of an amount not exceeding fifty percent of the member's or beneficiary's accumulated contributions shall be made by the board of trustees upon said member's or beneficiary's election

11 *Pensions offset by compensation benefits* Any amounts which may be paid or payable by the state under the provisions of any workers' compensation or similar law to a member or to the dependents of a member on account of any disability or death, shall be offset against and payable in lieu of any benefits payable out of funds provided by the state under the provisions of this chapter on account of the same disability or death. In case the present value of the total commuted benefits under said workers' compensation or similar law is less than the pension reserve on the benefits otherwise payable from funds provided by the state under this chapter, then the present value of the commuted payments shall be deducted from the pension reserve and such benefits as may be provided by the pension reserve so reduced shall be payable under the provisions of this chapter

12 *Pension to surviving spouse and children of deceased pensioned members* In the event of the death of any member receiving a retirement allowance under the provisions of subsections 2, 4 or 6 of this section there shall be paid a pension

a To the member's surviving spouse, equal to one-half the amount received by the deceased beneficiary, but in no instance less than an amount equal to twenty percent of the monthly earnable compensation paid to an active member having the rank of senior patrol officer of the Iowa highway safety patrol, and in addition a monthly pension equal to the monthly pension payable under subsection 9, paragraph "c," of this section for each child under eighteen years of age or twenty-two years of age if applicable, or

b If the spouse dies either prior or subsequent to the death of the member, to the guardian of each surviving child, a monthly pension equal to the monthly pension payable under subsection 9, paragraph "c," of this section for the support of the child

13 *Judicial review of action of the board of trustees* Judicial review of any action of the board of trustees may be sought in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding the terms of the Iowa administrative procedure Act, the petition for judicial review must be filed within thirty days after the member receives written notice of the trustees' action. The board of trustees shall be represented by the attorney general. An appeal may be taken by the petitioner or the board of trustees to the supreme court of this state irrespective of the amount involved

14 *Pensions payable* Pensions payable under this section shall be adjusted as follows

a Effective July 1, 1980, and on each July 1 thereafter, the monthly pensions authorized in this section payable to retired members and to beneficiaries, except children of a deceased member, shall be adjusted as provided in this paragraph. An amount equal to the following percentages of the difference between the monthly earnable compensation payable to an active member of the department, of the same rank and position on the salary scale as was

held by the retired or deceased member at the time of the member's retirement or death, for July of the preceding year and the monthly earnable compensation payable to an active member of the department of the same rank and position on the salary scale for July of the year just beginning shall be added to the monthly pension of each retired member and each beneficiary as follows:

(1) Twenty-five percent for members receiving a service retirement allowance and for beneficiaries receiving a pension under subsection 9 of this section. However, effective July 1, 1990, for members who retired before that date, thirty percent shall be the applicable percentage for members and beneficiaries under this subparagraph.

(2) Twenty-five percent for members with five or more years of membership service who are receiving an ordinary disability retirement allowance. However, effective July 1, 1990, for members who retired before that date, thirty percent shall be the applicable percentage for members under this subparagraph.

(3) Twelve and one-half percent for members with less than five years of membership service who are receiving an ordinary disability retirement allowance, and for beneficiaries receiving a pension under subsection 8 of this section. However, effective July 1, 1990, for members who retired before that date, fifteen percent shall be the applicable percentage for members and beneficiaries under this subparagraph.

(4) Thirty-three and one-third percent for members receiving an accidental disability allowance.

The adjusted monthly pension shall not be less than the amount which was paid at the time of the member's retirement or death.

The amount added to the monthly pension of a surviving spouse receiving a pension under subsection 12, paragraph "a" of this section shall be equal to one-half the amount that would have been added to the monthly pension of the retired member.

As of the first of July of each year, the monthly pension payable to each surviving child under the

provisions of subsections 8, 9 and 12 of this section shall be adjusted to equal six percent of the monthly earnable compensation payable on that July 1 to an active member having the rank of senior patrol officer of the Iowa highway safety patrol.

b. All monthly pensions adjusted as provided in this subsection shall be payable beginning on July 1 of the year in which the adjustment is made and shall continue in effect until the next following July 1 at which time the monthly pensions shall again be adjusted in accordance with paragraph "a" of this subsection.

c. The adjustment of pensions required by this subsection shall recognize the retired or deceased member's position on the salary scale within the member's rank at the time of the member's retirement or death. In the event that the rank or position held by the retired or deceased member at the time of retirement or death is subsequently abolished, adjustments in the pensions of the member or of the member's spouse or children shall be computed by the board of trustees as though such rank or position had not been abolished and salary increases had been granted to such rank or position on the same basis as increases granted to other ranks and positions in the department.

d. A retired member eligible for benefits under the provisions of subsection 1 is not eligible for the annual readjustment of pensions provided in this subsection unless the member served twenty-two years and attained the age of fifty-five years prior to the member's termination of employment.

15. *Remarriage of surviving spouse.* Effective July 1, 1990, for a member who died prior to July 1, 1988, if the member's surviving spouse remarried prior to July 1, 1988, the remarriage does not make the spouse ineligible under subsection 8, paragraph "c", subparagraphs (1) and (2), to receive benefits under subsections 8, 9, 12, and 14.

The hearing before the department may be held at a site in the state as the department may direct. The notice shall be given by mailing a copy to the permit holder's place of business as it appears on the application for a permit. 2. If a retailer or employee of a retailer has violated section 98.2, 98.36, subsection 6, or 98.39, the department or local authority, in addition to the other penalties fixed for such violations in this section, shall assess a penalty upon the same hearing and notice as prescribed in subsection 1 as follows:

98.36 Unlawful acts.

1. Except as otherwise provided in this division, it is unlawful for any person to have in the person's possession for sale, distribution, or use, or for any other purpose, in excess of forty cigarettes, or to sell, distribute, use, or present as a gift or prize cigarettes upon which a tax is required to be paid by this division, without having affixed to each individual package of cigarettes, the proper stamp evidencing the payment of the tax and the absence of the stamp on the individual package of cigarettes is notice to all

persons that the tax has not been paid and is prima-facie evidence of the nonpayment of the tax.

2. No person, other than a common carrier and a distributor's truck bearing the distributor's name and permit number in plain view on the outside of such truck, shall transport within this state cigarettes upon which a tax is required to be paid, without having stamps affixed to each individual package of said cigarettes; and no person shall fail or refuse, upon demand of agent of the department, or any peace officer to stop any vehicle transporting cigarettes for a full and complete inspection of the cargo carried.

3. No person shall use, sell, offer for sale, or possess for the purpose of use or sale, within this state, any previously used stamp or stamps, or attach any such previously used stamps to an individual package of cigarettes, nor shall any person purchase stamps from any person other than the department or sell stamps purchased from the department.

4. No person shall knowingly use, consume, or smoke, within this state, cigarettes upon which a tax is required to be paid, without said tax having been paid.

5. No person, unless the person be the holder of a permit, or the holder's representative, shall solicit the sale of cigarettes, provided that this section shall not prevent solicitation by a nonpermitholder for the sale of cigarettes to any state permitholder.

6. Any sales of cigarettes or tobacco products made through a cigarette vending machine are subject to rules and penalties relative to retail sales of cigarettes and tobacco products provided for in this chapter. No cigarettes shall be sold through any cigarette vending machine unless the cigarettes have been properly stamped or metered as provided by this division, and in case of violation of this provision, the permit of the dealer authorizing retail sales of cigarettes shall be canceled. Payment of the license fee as provided in section 98.13 authorizes a cigarette vendor to sell cigarettes or tobacco products through vending machines, provided that the following conditions are met: the machines are located in places where the machines are under the supervision of a person of legal age who is responsible for prevention of purchase by minors from the machines; the machines are equipped with a lock-out device under the control of a person of legal age who shall directly regulate the sale of items through the machines, and which shall include a mechanism to prevent the machines from functioning if the power source for the lock-out device fails or if the lock-out device is disabled, and a mechanism to ensure that only one pack of cigarettes or one tobacco product is dispensed at a time; and the location where the machines are placed is covered by a local retail permit. However, a lock-out device is not required for machines operated in the following locations, if the machines are not to be placed in a doorway or other area readily accessible to minors: a commercial establishment holding a class "C" liquor license or a class "B" beer permit under chapter 123, if the establish-

ment is not also licensed as a food service establishment under chapter 137B; a private facility not open to the public; or a workplace not open to the public. This section does not require a retail licensee to buy a cigarette vendor's permit if the retail licensee is in fact the owner of the cigarette vending machines and the machines are operated in the location described in the retail permit.

7. It shall be unlawful for a person other than a holder of a retail permit to sell cigarettes at retail. No state permit holder shall sell or distribute cigarettes at wholesale to any person in the state of Iowa who does not hold a permit authorizing the retail sale of cigarettes or who does not hold a state permit as a manufacturer, distributing agent, wholesaler, or distributor.

Violation of this section by the holder of a distributor's, wholesaler's or manufacturer's permit shall be grounds for the revocation of such permit.

e. All cigarette samples shall be shipped to a distributor that has a permit to stamp cigarettes or little cigars with Iowa tax. The manufacturer shipping samples under this section shall send an affidavit to the director stating the quantity and to whom the samples were shipped. The distributor receiving the shipment shall send an affidavit to the director stat-

CHAPTER 99B

GAMES OF SKILL OR CHANCE, AND RAFFLES

99B.7 Games conducted by qualified organizations — penalties.

1. Except as otherwise provided in section 99B.8, games of skill, games of chance and raffles lawfully may be conducted at a specified location meeting the requirements of subsection 2 of this section, but only if all of the following are complied with:

- a. The person conducting the game or raffle has been issued a license pursuant to subsection 3 of this section and prominently displays that license in the playing area of the games.
- b. No person receives or has any fixed or contin-

gent right to receive, directly or indirectly, any profit, remuneration, or compensation from or related to a game of skill, game of chance, or raffle, except any amount which the person may win as a participant on the same basis as the other participants. A person conducting a game or raffle shall not be a participant in the game or raffle.

- c. Cash or merchandise prizes may be awarded in the game of bingo and, except as otherwise provided in this paragraph, shall not exceed one hundred dollars. Merchandise prizes may be awarded in the game of bingo, but the actual retail value of the prize,

or if the prize consists of more than one item, unit or part, the aggregate retail value of all items, units or parts, shall not exceed the maximum provided by this paragraph. A jackpot bingo game may be conducted once during any twenty-four hour period in which the prize may begin at not more than three hundred dollars in cash or actual retail value of merchandise prizes and may be increased by not more than one hundred dollars after each bingo occasion. However, the cost of play in a jackpot bingo game shall not be increased and the jackpot shall not amount to more than eight hundred dollars in cash or actual retail value of merchandise prizes. A jackpot bingo game is not prohibited by paragraph "h". A bingo occasion shall not last for longer than four consecutive hours. A qualified organization shall not hold more than fourteen bingo occasions per month. Bingo occasions held under a limited license shall not be counted in determining whether a qualified organization has conducted more than fourteen bingo occasions per month, nor shall bingo occasions held under a limited license be limited to four consecutive hours. With the exception of a limited license bingo, no more than three bingo occasions per week shall be held within a structure or building and only one person licensed to conduct games under this section may hold bingo occasions within a structure or building.

However, a qualified organization, which is a senior citizens' center or a residents' council at a senior citizen housing project or a group home, may hold more than fourteen bingo occasions per month and more than three bingo occasions per week within the same structure or building, and bingo occasions conducted by such a qualified organization may last for longer than four consecutive hours, if the majority of the patrons of the qualified organization's bingo occasions also participate in other activities of the senior citizens' center or are residents of the housing project. At the conclusion of each bingo occasion, the person conducting the game shall announce both the gross receipts received from the bingo occasion and the use permitted under subsection 3, paragraph "b", to which the net receipts of the bingo occasion will be dedicated and distributed.

d. Cash prizes shall not be awarded in games other than bingo and raffles. The value of a prize shall not exceed fifty dollars and merchandise prizes shall not be repurchased. If a prize consists of more than one item, unit, or part, the aggregate value of all items, units, or parts shall not exceed fifty dollars. However, one raffle may be conducted per calendar year at which prizes having a combined value not greater than twenty thousand dollars may be awarded. If the prize is merchandise, its value shall be determined by purchase price paid by the organization or donor.

e. Except as provided in paragraph "d" of this subsection with respect to an annual raffle, the cost to a participant for each game shall not exceed one dollar.

f. No prize is displayed which cannot be won.

g. Merchandise prizes are not repurchased.

h. A game or raffle shall not be operated on a build-up or pyramid basis.

i. Concealed numbers or conversion charts shall not be used to play any game and a game or raffle shall not be adapted with any control device to permit manipulation of the game by the operator in order to prevent a player from winning or to predetermine who the winner will be, and the object of the game must be attainable and possible to perform under the rules stated from the playing position of the player.

j. The game must be conducted in a fair and honest manner.

k. Each game or raffle shall be posted.

l. During the entire time that games permitted by this section are being engaged in, both of the following are observed:

(1) No other gambling is engaged in at the same location, except that lottery tickets or shares issued by the lottery division of the department of revenue and finance may be sold pursuant to chapter 99E.

(2) No free prize or other gift is given to a participant. However, one or more door prizes of a value not to exceed ten dollars each may be given by random drawing.

m. The person or organization conducting the game can show to the satisfaction of the department that the person or organization is eligible for exemption from federal income taxation under either section 501(c)(3), 501(c)(4), 501(c)(5), 501(c)(6), 501(c)(7), 501(c)(8), 501(c)(10) or 501(c)(19) of the Internal Revenue Code, as defined in section 422.3. However, this paragraph does not apply to a political party as defined in section 43.2, to a nonparty political organization that has qualified to place a candidate as its nominee for statewide office pursuant to chapter 44, or to a candidate's committee as defined in section 56.2.

n. The person conducting the game does none of the following:

(1) Hold, currently, another license issued under this section.

(2) Own or control, directly or indirectly, any class of stock of another person who has been issued a license to conduct games under this section.

(3) Have, directly or indirectly, an interest in the ownership or profits of another person who has been issued a license to conduct games under this section.

o. Except as provided in subsection 6, paragraph "a", a person shall not conduct, promote, administer, or assist in the conducting, promoting or administering of a bingo occasion, unless the person regularly participates in activities of the qualified organization other than conducting bingo occasions or participates in an educational, civic, public, charitable, patriotic, or religious organization to which the net receipts are dedicated by the qualified organization.

p. A licensee shall keep records of all persons who serve as manager or cashier, or who are responsible for carrying out duties with respect to a bingo account. A licensee is subject to license revocation if

it knowingly permits a person to serve in one of these capacities if the person was a manager, cashier, or responsible for carrying out duties with respect to a bingo account for another licensee at the time of one or more violations leading to revocation of the other licensee's license, and if the license is still revoked at the time of the subsequent service.

2. Games of skill, games of chance, and raffles may be conducted on premises owned or leased by the licensee, but shall not be conducted on rented premises unless the premises are rented from a person licensed under this section, and unless the net rent received is dedicated to one or more of the uses permitted under subsection 3 for dedication of net receipts. This subsection shall not apply where the rented premises are those upon which a qualified organization usually carries out a lawful business other than operating games of skill, games of chance or raffles. However, a qualified organization may rent premises other than from a licensed qualified organization to be used for the conduct of games of skill, games of chance and raffles, and the person from whom the premises are rented may impose and collect rent for such use of those premises, but only if all of the following are complied with:

a. The rent imposed and collected shall not be a percentage of or otherwise related to the amount of the receipts of the game or raffle.

b. The qualified organization shall have the right to terminate any rental agreement at any time without penalty and without forfeiture of any sum.

c. Except for purposes of bingo, the person from whom the premises are rented shall not be a liquor control licensee or beer permittee with respect to those premises or with respect to adjacent premises.

The board of directors of a school district may authorize that public schools within that district, and the policymaking body of a nonpublic school, may authorize that games of skill, games of chance, bingo and raffles may be held at bona fide school functions, such as carnivals, fall festivals, bazaars and similar events. Each school shall obtain a license pursuant to this section prior to permitting the games or activities on the premises. However, the board of directors of a public school district may also be issued a license under this section. However, a board of directors of a public school shall not spend or authorize the expenditure of public funds for the purpose of purchasing a license. The department of inspections and appeals shall provide by rule a short form application for a license issued to a board of directors. Upon written approval by the board of directors, the license may be used by any school group or parent support group in the district to conduct activities authorized by this section. The board of directors shall not authorize a school group or parent support group to use the license more than twice in twelve months.

3. a. A person wishing to conduct games and raffles pursuant to this section as a qualified organization shall submit an application and a license fee of one hundred fifty dollars. However, upon submission of an application accompanied by a license fee of fif-

teen dollars, a person may be issued a limited license to conduct all games and raffles pursuant to this section at a specified location and during a specified period of fourteen consecutive calendar days. In addition, a qualified organization may be issued a limited license to conduct raffles pursuant to this section for a period of ninety days for a license fee of forty dollars or for a period of one hundred eighty days for a license fee of seventy-five dollars. A limited license shall not be issued more than once during any calendar year to the same person, or for the same location. For the purposes of this paragraph, a limited license is deemed to be issued on the first day of the period for which the license is issued.

b. A person or the agent of a person submitting application to conduct games pursuant to this section as a qualified organization shall certify that the receipts of all games, less reasonable expenses, charges, fees, taxes, and deductions allowed by this chapter, either will be distributed as prizes to participants or will be dedicated and distributed to educational, civic, public, charitable, patriotic or religious uses in this state and that the amount dedicated and distributed will equal at least seventy-five percent of the net receipts. "*Educational, civic, public, charitable, patriotic, or religious uses*" means uses benefiting a society for the prevention of cruelty to animals or animal rescue league, or uses benefiting an indefinite number of persons either by bringing them under the influence of education or religion or relieving them from disease, suffering, or constraint, or by erecting or maintaining public buildings or works, or otherwise lessening the burden of government, or uses benefiting any bona fide nationally chartered fraternal or military veterans' corporation or organization which operates in Iowa a clubroom, post, dining room, or dance hall, but does not include the erection, acquisition, improvement, maintenance, or repair of real, personal or mixed property unless it is used for one or more of the uses stated. "*Public uses*" specifically includes dedication of net receipts to political parties as defined in section 43.2. "*Charitable uses*" includes uses benefiting a definite number of persons who are the victims of loss of home or household possessions through explosion, fire, flood, or storm when the loss is uncompensated by insurance, and uses benefiting a definite number of persons suffering from a seriously disabling disease or injury, causing severe loss of income or incurring extraordinary medical expense when the loss is uncompensated by insurance.

Proceeds given to another charitable organization to satisfy the seventy-five percent dedication requirement shall not be used by the donee to pay any expenses in connection with the conducting of bingo by the donor organization, or for any cause, deed, or activity that would not constitute a valid dedication under this section.

c. A qualified organization shall distribute amounts awarded as prizes on the day they are won. A qualified organization shall dedicate and distribute the balance of the net receipts received within a

quarter and remaining after deduction of reasonable expenses, charges, fees, taxes, and deductions allowed by this chapter, before the quarterly report required for that quarter under section 99B.2, subsection 4, is due. The amount dedicated and distributed must equal at least seventy-five percent of the net receipts. A person desiring to hold the net receipts for a period longer than permitted under this paragraph shall apply to the department for special permission and upon good cause shown the department may grant the request.

If permission is granted to hold the net receipts, the person shall, as a part of the quarterly report required by section 99B.2, report the amount of money currently being held and all expenditures of the funds. This report shall be filed even if the person no longer holds a gambling license.

4. It is lawful for an individual other than a person conducting games or raffles to participate in games or raffles conducted by a qualified organization, whether or not there is compliance with subsections 2 and 3: However, it is unlawful for the individual to participate where the individual has knowledge of or reason to know facts which constitute a failure to comply with subsection 1.

5. A political party or a political party organization is a qualified organization within the meaning of this chapter. Political parties or party organizations may contract with other qualified organizations to conduct the games of skill, games of chance, and raffles which may lawfully be conducted by the political party or party organization. A licensed qualified organization may promote the games of skill, games of chance, and raffles which it may lawfully conduct.

6. Proceeds coming into the possession of a per-

son under this section are deemed to be held in trust for payment of expenses and dedication to charitable purposes as required by this section.

a Except as provided in this paragraph, a person shall not be compensated for services rendered in connection with a game of skill, game of chance, or raffle conducted under this section. This section forbids payment of compensation to persons including, but not limited to, managers, callers, cashiers, floor workers, janitorial personnel, accountants and bookkeepers. The privilege of selling merchandise on the premises during a bingo occasion is deemed to be compensation. However, not more than four persons per one hundred players, participating in the bingo occasion may be employed. An employee under this paragraph need not be a member of the qualified organization or a regular participant in the activities of the qualified organization or in an educational, civic, public, charitable, patriotic, or religious organization to which the net receipts are dedicated by the qualified organization. The wages of an employee shall not exceed the federal minimum wage. This section does not prohibit the employment of one or more individuals to serve as security officers. A person who knowingly pays or receives compensation in violation of this section commits a fraudulent practice.

b A licensee or agent who willfully fails to dedicate the required amount of proceeds to charitable purposes as required by this section commits a fraudulent practice.

c Violations of paragraphs "*a*" and "*b*" may be considered as a single fraudulent practice and the value may be the total value of all money, property and services involved.

1. Except as permitted in this section, the licensee shall permit no form of wagering on the results of the races.

2. Licensees shall only permit the pari-mutuel or certificate method of wagering as defined in this section.

3. The licensee may receive wagers of money only from a person present in a licensed racing enclosure on a horse or dog in the race selected by the person making the wager to finish first in the race. The person wagering shall acquire an interest in the total money wagered on all horses or dogs in the race as first winners in proportion to the amount of money wagered by the person.

4. The licensee shall issue to each person wagering a certificate on which shall be shown the number of the race, the amount wagered, and the number or name of the horse or dog selected as first winner.

5. As each race is run the licensee shall deduct sixteen percent from the total sum wagered on all horses or dogs as first winners. The balance, after deducting breakage, shall be paid to the holders of certificates on the winning horse or dog in the proportion that the amount wagered by each certificate holder bears to the total amount wagered on all horses or dogs in the race as first winners. The licensee may pay a larger amount if approved by the commission. The licensee shall likewise receive other wagers on horses or dogs in places or combinations the commission may authorize. The method, procedure, and the authority and right of the licensee, as

It is the responsibility of each licensee to obtain the consent of appropriate racing officials in other states as required by the federal Interstate Horseracing Act of 1978, 15 U.S.C. § 3001-3007, to televise races for the purpose of conducting pari-mutuel wagering. A licensee may also obtain the permission of a person licensed by the commission to conduct horse or dog races in this state to televise races conducted by that person for the purpose of conducting pari-mutuel racing. However, arrangements made by a licensee to televise any race for the purpose of conducting pari-mutuel wagering are subject to the approval of the commission, and the commission shall select the races to be televised. The races selected by the commission shall be the same for all licensees approved by the commission to televise races for the purpose of conducting pari-mutuel wagering. The commission shall not authorize the simultaneous telecast or televising of and a licensee shall not simultaneously telecast or televise any horse or dog race for the purpose of conducting pari-mutuel wagering unless the simultaneous telecast or televising is done at the racetrack of a licensee that schedules no less than one hundred five performances of eight live races each day of the season. For purposes of the taxes imposed under this chapter, races televised by a licensee for purposes of pari-mutuel wagering shall be treated as if the races were held at the racetrack of the licensee.

To the extent the remainder paid to the commission, less the cost of drug testing, is from unclaimed winnings from licensed dog tracks, the commission shall remit annually five thousand dollars, or an equal portion of that amount, to each licensed dog track to carry out the racing dog adoption program pursuant to

section 99D.27. b. Twenty percent of the amount appropriated shall be allocated to qualified harness racing tracks, to be used by the tracks for maintenance of and improvements to the tracks. Races held at the tracks must be under the control or jurisdiction of the Iowa state fair board, established under section 173.1, or of a society, as defined under section 174.1.

For purposes of this subsection, "*qualified harness racing track*" means a harness racing track that has either held at least one harness race meet between July 1, 1985, and July 1, 1989, or after July 1, 1989, has applied to and been approved by the racing commission for the allocation of funds under this subsection. The racing commission shall approve an application if the harness racing track has held at least one harness race meet during the year preceding the year for which the track seeks funds under this subsection.

(8) For the fiscal years beginning on July 1, 1986 and July 1, 1987 the department shall establish a pilot program entitled the new business opportunity program to provide financial and technical assistance to emerging businesses and industries that expand and diversify the state's economic base. Assistance may be in any form authorized under the community economic betterment account and the department may allocate for each of those fiscal years up to one million dollars of the account's funds for the pilot program.

(9) Notwithstanding any other provision, the moneys allocated to the community economic betterment account beginning July 1, 1988, are appropriated to the department of economic development to be used only for the purposes of providing financial assistance for small business gap financing, new business opportunities, new product and entrepreneurial development, and comprehensive management assistance in the amounts, or so much thereof as may be necessary, as provided in section 99E.33. The department shall document the actual job creation and retention effects of all businesses receiving financial assistance from the account in the context of the businesses' employer contribution and payroll reports.

The department shall require businesses which receive assistance from the account to submit historical copies of the reports with the application for funds, require businesses to submit the reports after the award on a timely basis, and require businesses to estimate the expected job creation and retention effects for the twelve-month and twenty-four month period after the award in terms of the number of employees and total wages as displayed in the payroll reports. The department shall develop definitions

for the terms "job creation" and "job retention" to measure and identify the actual number of permanent, full-time positions which the businesses actually created or retained and can be documented by comparison of the payroll reports during the twenty-four month period after the award.

b. The conditions, criteria, and limitations specified in section 99E.31, subsection 2, apply to the providing of moneys under this subsection. In addition to such conditions, criteria, and limitations, for applications submitted after July 1, 1988, the following factors and requirements shall be considered or applied:

(1) The impact of the proposed project on other businesses in competition with the business being considered for assistance. The department shall make a good faith effort to identify existing Iowa businesses within an industry in competition with the business being considered for assistance. The department shall make a good faith effort to determine the probability that the proposed financial assistance will displace employees of the existing businesses. (3) The quality of jobs to be provided. Jobs that have a higher wage scale, have a lower turnover rate, are full-time, or are career-type positions are considered higher in quality. Businesses that have wage scales substantially below that of existing Iowa businesses in that area should be rated as providing the lowest quality of jobs and should therefore be given the lowest ranking for providing such assistance.

(4) If the business has a record of violations of the law over a period of time that tends to show a consistent pattern, the business shall be given the lowest ranking for providing assistance. The department shall make a good faith effort to compile this information.

(5) If a business has, within three years of application for assistance, acquired or merged with an Iowa corporation or company, the business shall make a good faith effort to hire the workers of the merged or acquired company.

(6) To be eligible for assistance a business shall

provide for a preference for hiring residents of the state or the economic development area, except for out-of-state employees offered a transfer to Iowa or the economic development area.

(7) All known required environmental permits must be granted and regulations met before moneys are released.

a. If tickets are issued which are good for more than one excursion, the admission fee shall be paid for each person using the ticket on each excursion that the ticket is used.

b. If free passes or complimentary admission tickets are issued, the licensee shall pay the same fee upon these passes or complimentary tickets as if they were sold at the regular and usual admission rate.

c. However, the excursion boat licensee may issue fee-free passes to actual and necessary officials and employees of the licensee or other persons actually working on the excursion gambling boat.

d. The issuance of fee-free passes is subject to the rules of the commission, and a list of all persons to whom the fee-free passes are issued shall be filed with the commission.

3. The admission revenue received by a city or a county shall be credited to the city general fund or county general fund as applicable.

4. In determining the license fees and state admission fees to be charged as provided under section 99F.4 and this section, the commission shall use the amount appropriated to the commission plus the cost of auditing excursion gambling boat activities as the basis for determining the amount of revenue to be raised from the license fees and admission fees.

STATE FIRE MARSHAL

100.18 Smoke detectors.

1. As used in this section:

a. "Dormitory" means a residential building or portion of a building at an educational institution which houses students in rooms not individually equipped with cooking facilities.

b. "Multiple-unit residential building" means a residential building, an apartment house, or a portion of a building or an apartment house with two or more units, hotel, motel, dormitory, or rooming house.

c. "Smoke detector" means a device which detects visible or invisible particles of combustion and which incorporates control equipment and an alarm-sounding unit operated from a power supply either in the unit or obtained at the point of installation.

2. *a.* Except as provided in subsection 3, multiple-unit residential buildings and single-family dwellings the construction of which is begun on or after July 1, 1991, shall include the installation of smoke detectors in compliance with the rules established by the state fire marshal under subsection 4.

b. The rules shall require the installation of smoke detectors in existing single-family rental units and multiple-unit residential buildings. Existing single-family dwelling units shall be equipped with approved smoke detectors. A person who files for a homestead credit pursuant to chapter 425 shall certify that the single-family dwelling unit for which the credit is filed has a smoke detector installed in compliance with this section, or that one will be installed within thirty days of the date the filing for the credit is made. The state fire marshal shall adopt rules and establish appropriate procedures for the distribution and filing of such certificates with the state fire marshal.

c. An owner or an owner's agent of a multiple-

unit residential building or single-family dwelling shall supply light-emitting smoke detectors, upon request, for a tenant with a hearing impairment.

3. This section does not require the installation of smoke detectors in multiple-unit residential buildings which, on July 1, 1981, are equipped with heat detection devices or a sprinkler system with alarms approved by the state fire marshal.

This section does not require the installation of smoke detectors in hotels, motels, and dormitories equipped with an automatic smoke detection system approved by the state fire marshal.

4. The state fire marshal shall enforce the requirements of subsection 2 and may implement a program of inspections to monitor compliance with the provisions of that subsection. Upon inspection, the state fire marshal shall issue a written notice to the owner or manager of a multiple-unit residential building or single-family dwelling informing the owner or manager of compliance or noncompliance with this section. The state fire marshal may contract with any political subdivision without fee assessed to either the state fire marshal or the political subdivision, for the performance of the inspection and notification responsibilities. The inspections authorized under this section are limited to the placement, repair, and operability of smoke detectors. Any broader inspection authority is not derived from this section. The state fire marshal shall adopt rules under chapter 17A as necessary to enforce this section including rules concerning the placement of smoke detectors and the use of acceptable smoke detectors. The smoke detectors shall display a label or other identification issued by an approved testing agency or another label specifically approved by the state fire marshal.

5. The inspection of a building or notification of

compliance or noncompliance under this section is not the basis for a legal cause of action against the political subdivision, state fire marshal, the fire marshal's subordinates, chiefs of local fire departments, building inspectors, or other fire, building, or safety officials due to a failure to discover a latent defect in the course of the inspection.

6. If a smoke detector is found to be inoperable the owner or manager of the multiple-unit residential building or single-family dwelling shall correct the situation within fourteen days after written notification to the owner or manager by the tenant, guest, roomer, state fire marshal, fire marshal's subordinates, chiefs of local fire departments, building inspectors, or other fire, building, or safety officials. If the owner or manager of a multiple-unit residential building fails to correct the situation within the fourteen days the tenant, guest, or roomer may cause the smoke detector to be repaired or purchase and install a smoke detector required under this section

and may deduct the repair cost or purchase price from the next rental payment or payments made by the tenant, guest, or roomer. However, a lessor or owner may require a lessee, tenant, guest, or roomer who has a residency of longer than thirty days to provide the battery for a battery operated smoke detector.

7. No person may render inoperable a smoke detector, which is required to be installed by this section, by tampering.

8. A person who violates a provision of this section or a rule adopted pursuant to this section is guilty of a simple misdemeanor.

MISSOURI RIVER PRESERVATION AND LAND USE AUTHORITY

108B.1 Legislative findings.

The general assembly finds that the Missouri river is an important natural resource to the state of Iowa and that the creation of comprehensive plans which lead to the purchase, development, and preservation of land adjacent to the Missouri river will provide recreational and economic benefits to the state and to the counties and cities which border on the river. The general assembly further finds that current planning and purchase efforts relating to development of Missouri riverfront property have fallen short of the goal of developing a comprehensive plan for the recreational development of the Missouri river and that the creation of an authority which has the mission of engaging in these efforts will have a greater likelihood of reaching the desired goal.

91 Acts, ch 246, §1 HF 610
NEW section

108B.2 Missouri river preservation and land use authority created — duties.

1. A Missouri river preservation and land use authority is created to engage in comprehensive planning for and the development and implementation of strategies designed to preserve and restore the natural beauty of the land adjacent to and the water of the Missouri river through state land acquisition. Planning and implementation activities shall be coordinated with plans and implementation activities of the department of natural resources for lands owned or acquired by the department. The authority shall be composed of a representative from each of the county conservation boards of the counties which border on the Missouri river, an elected official selected by the county board of supervisors of each of the counties which border on the Missouri river, six at-large public members, and four ex officio members. The board of supervisors of the counties which border on the Missouri river shall each appoint one of the at-large public members, who shall possess a demonstrated interest in or knowledge about natural resource conservation and protection and one of whom shall also be actively engaged in the business of farming. Interest or knowledge of an at-large member may be demonstrated by membership in an association or other organization which is involved in conservation, environmental protection, or related activities. The ex officio members of the authority shall be composed of a representative from the natural resource commission of the department of natural resources, a representative from the state department of transportation, a representative from the department of cultural affairs, and a representa-

tive from the office of attorney general. Members of the authority shall serve two-year terms. Members who are also members of a county conservation board or board of supervisors shall be reimbursed only for actual expenses incurred while performing duties of the authority. At-large members shall be reimbursed for actual expenses and shall receive a per diem as specified in section 7E.6 for their performance of duties for the authority.

2. The mission of the authority is to research, develop comprehensive plans, and implement strategies which emphasize the creation of multipurpose recreational areas that foster and accent the natural characteristics of the Missouri river and which provide for environmentally sound land and water use practices for land adjacent to the Missouri river; to designate and prioritize for purchase parcels of land which are located in areas critical for the environmental health of the Missouri river waterway; to develop plans for and to acquire parcels of land to establish a public greenbelt along the banks of the Missouri river; to develop plans for public recreational use of lands adjacent to the Missouri river, including but not limited to a public bicycle trail; and to cooperate with county and city authorities, and federal and state authorities in order to fulfill the mission of the authority.

3. The authority shall develop plans and proposals and conduct public hearings relating to the conservation, preservation, and acquisition of land adjacent to the Missouri river. In developing plans and proposals the authority shall consult with any person or organization which has interests that would be affected by the acquisition and development of Missouri river property in accordance with the mission of the authority, including but not limited to utility companies, municipalities, agricultural organizations, the corps of engineers, rural water districts, soil and water conservation districts, private water suppliers, business and industry organizations, drainage and levee district associations, benefited recreational lake districts, and any soil conservation organizations. The authority shall include a copy of any plans and proposals and shall document the results and findings of those hearings in a report or series of reports. The authority shall submit an initial report, including an outline for a proposed ten-year plan and strategies for the attainment of the goals of this section, to the general assembly by the first day of the legislative session which commences in 1993. As part of the authority's planning and coordinating effort, the authority shall consult, at least annually, with the Iowa boundary commis-

sion and shall send copies of the minutes of all meetings of the authority to the commission. Within one year of July 1, 1991, the authority shall meet with the Iowa boundary commission. Meetings with the Iowa boundary commission shall be held at a time and a place agreed to between the commission and the authority.

4. The authority shall administer the Missouri river preservation and land use fund, under section 108B.3, and shall deposit and expend moneys in the fund for the development of plans for, development of, and purchase of lands adjacent to the Missouri river and for annual payment of property taxes on any land purchased. The county treasurer shall certify the amount of taxes due to the authority. The assessed value of the property held by the authority shall be that value determined under section 427.1, subsection 31, and the authority may protest the assessed value in the manner provided by law for any property owner to protest an assessment. For purposes of chapter 257, the assessed value of any property which was acquired by the authority shall be included in the valuation base of the school district and the payments made by the authority shall be considered as property tax revenues and not as miscellaneous income. The expenditure of funds may include, but is not limited to, use of moneys from the Missouri river preservation and land use fund to match funds from state, federal, and private resources.

5. The title to all property purchased by the authority shall be taken in the name of the state, but no land shall be acquired through condemnation proceedings and all purchases shall be from willing sellers. The authority may transfer jurisdiction over any lands the authority acquires to the department of natural resources, or may enter into agreements with the department or the appropriate county conservation board, for the management of the lands. All lands purchased shall be for public use, and not for private commercial purposes, but the authority may permit the expenditure of private funds for the

improvement of land or water adjacent to or purchased by the authority. All surveys and plats of lands purchased by the authority shall be filed in the manner provided in section 111.22. Land purchased by the authority shall be managed and policed in the manner provided under agreements between the authority and the agency responsible for management of the property, except that, subject to the restrictions contained in chapter 455B, the authority shall not be required to obtain the prior permission of the natural resource commission when using private funds to establish land or water recreational areas, and any property purchased by the authority shall not be sold without the prior notification and consent of the authority.

A liquor control license may be issued to any person who, or whose officers in the case of a club or corporation, or whose partners in the case of a partnership, are of good moral character as defined by this chapter. As a condition for issuance of a liquor control license or wine or beer permit, the applicant must give consent to members of the fire, police, and

health departments and the building inspector of cities; the county sheriff, deputy sheriff, members of the department of public safety, representatives of the department of inspections and appeals, certified police officers, and any official county health officer to enter upon areas of the premises where alcoholic beverages are stored, served, or sold, without a warrant during business hours of the licensee or permit-

However, a subpoena issued under section 421.17 or a warrant is required for inspection of private records, a private business office, or attached living quarters. Persons who are not certified peace officers shall limit the scope of their inspections of licensed premises to the regulatory authority under which the inspection is conducted. As a further condition for the issuance of a class "E" liquor control license, the applicant shall post a bond in a sum of not less than five thousand nor more than fifteen thousand dollars as determined on a sliding scale established by the division; however, a bond shall not be required if all purchases of alcoholic liquor from the division by the licensee are made by cash payment or by means that ensure that the division will receive full payment in advance of delivery of the alcoholic liquor.

A class "E" liquor control license may be issued to a city council for premises located within the limits of the city if there are no class "E" liquor control licenses operating within the limits of the city and no other applications for a class "E" license for premises located within the limits of the city at the time the city council's application is filed. If a class "E" liquor control license is subsequently issued to a private person for premises located within the limits of the city, the city council shall surrender its license to the division within one year of the date that the class "E" liquor control licensee begins operating, liquidate any remaining assets connected with the liquor store, and cease operating the liquor store.

2. No liquor control license shall be issued for premises which do not conform to all applicable laws, ordinances, resolutions, and health and fire regulations. Nor shall any licensee have or maintain any interior access to residential or sleeping quarters unless permission is granted by the administrator in the form of a living quarters permit.

3. Liquor control licenses issued under this chapter shall be of the following classes:

a. *Class "A"*. A class "A" liquor control license may be issued to a club and shall authorize the holder to purchase alcoholic liquors from class "E" liquor control licensees only, wine from class "A" wine permittees or class "B" wine permittees who also hold class "E" liquor control licenses only, and native wines from native wine manufacturers, and to sell liquors, wine, and beer, to bona fide members and their guests by the individual drink for consumption on the premises only.

b. *Class "B"*. A class "B" liquor control license may be issued to a hotel or motel and shall authorize the holder to purchase alcoholic liquors from class

"E" liquor control licensees only, wine from class "A" wine permittees or class "B" wine permittees who also hold class "E" liquor control licenses only, and native wines from native wine manufacturers, and to sell liquors, wine, and beer, to patrons by the individual drink for consumption on the premises only. However, beer may also be sold for consumption off the premises. Each license shall be effective throughout the premises described in the application.

c. *Class "C"*. A class "C" liquor control license may be issued to a commercial establishment but must be issued in the name of the individuals who actually own the entire business and shall authorize the holder to purchase alcoholic liquors from class "E" liquor control licensees only, wine from class "A" wine permittees or class "B" wine permittees who also hold class "E" liquor control licenses only, and native wines from native wine manufacturers, and to sell liquors, wine, and beer to patrons by the individual drink for consumption on the premises only. However, beer may also be sold for consumption off the premises.

A special class "C" liquor control license may be issued and shall authorize the holder to purchase wine from class "A" wine permittees or class "B" wine permittees who also hold class "E" liquor control licenses only, and to sell wine and beer to patrons by the individual drink for consumption on the premises only. However, beer may also be sold for consumption off the premises. The license issued to holders of a special class "C" license shall clearly state on its face that the license is limited.

d. *Class "D"*. A class "D" liquor control license may be issued to a railway corporation, to an air common carrier, and to passenger-carrying boats or ships for hire with a capacity of twenty-five persons or more operating in inland or boundary waters, and shall authorize the holder to sell or furnish alcoholic beverages, wine, and beer to passengers for consumption only on trains, watercraft as described in this section, or aircraft, respectively. Each license is valid throughout the state. Only one license is required for all trains, watercraft, or aircraft operated in the state by the licensee. However, if a watercraft is an excursion gambling boat licensed under chapter 99F, the owner shall obtain a separate class "D" liquor control license for each excursion gambling boat operating in the waters of this state.

e. *Class "E"*. A class "E" liquor control license may be issued and shall authorize the holder to purchase alcoholic liquor from the division only and to sell the alcoholic liquor to patrons for consumption off the licensed premises and to other liquor control licensees. A class "E" license shall not be issued to premises at which gasoline is sold. A holder of a class "E" liquor control license may hold other retail liquor control licenses or retail wine or beer permits, but the premises licensed under a class "E" liquor control license shall be separate from other licensed premises, though the separate premises may have a common entrance. However, the holder of a class "E" liquor control license may also hold a class "B" wine

or class "C" beer permit or both for the premises licensed under a class "E" liquor control license

The division may issue a class "E" liquor control license for premises covered by a liquor control license or wine or beer permit for on premise consumption, if the premises are in a county having a population under nine thousand five hundred in which no other class "E" liquor control license has been issued by the division, and no other application for a class "E" license has been made within the previous twelve consecutive months

123.32 Action by local authorities and division on applications for liquor control licenses and wine and beer permits.

1 *Filing of application* An application for a class "A", class "B", class "C", or class "E" liquor control license, for a retail beer permit as provided in sections 123 128 and 123 129, or for a class "B" retail wine permit as provided in section 123 176, accompanied by the necessary fee and bond, if required, shall be filed with the appropriate city council if the premises for which the license or permit is sought are located within the corporate limits of a city, or with the board of supervisors if the premises for which the license or permit is sought are located outside the corporate limits of a city. An application for a class "D" liquor control license and for a class "A" beer or class "A" wine permit, accompanied by the necessary fee and bond, if required, shall be filed with the division, which shall proceed in the same manner as in the case of an application approved by local authorities

2 *Action by local authorities* The local authority shall either approve or disapprove the issuance of a liquor control license, retail wine permit, or retail beer permit, shall endorse its approval or disapproval on the application and shall forward the application along with the necessary fee and bond, if required, to the division. Upon the initial application for a liquor control license, retail wine permit, or retail beer permit, the fact that the local authority determines that no liquor control license, retail wine permit, or retail beer permit shall be issued shall not be held to be arbitrary, capricious, or without reasonable cause. There is no limit upon the number of liquor control licenses, retail wine permits, or retail beer permits which may be approved for issuance by local authorities

3 *Licensed premises for local events* A local authority may define, by motion of the local authority, licensed premises which shall be used by holders of liquor control licenses, beer permits, and wine permits at festivals, fairs, or celebrations which are sponsored or authorized by the local authority. The licensed premises defined by motion of the local authority shall be used by the holders of five day or fourteen-day liquor control licenses, or five-day or fourteen-day beer permits only

4 *Action by administrator* Upon receipt of an

application having been disapproved by the local authority, the administrator shall disapprove the application, so notify the applicant by certified mail, and return the fee and any bond to the applicant. Upon receipt of an application having been approved by the local authority, the division shall make such investigation as the administrator deems necessary and may require the applicant to appear to be examined under oath regarding any matters pertinent to the application, in which case a record shall be made of all testimony or evidence and the same shall become a part of the application. The administrator may appoint a member of the division or may request the department of inspections and appeals to receive the testimony under oath and evidence. If the application is approved by the administrator, the license or permit applied for shall be issued. If the application is disapproved by the administrator, the applicant and the appropriate local authority shall be so notified by certified mail, and the fee and any bond returned to the applicant.

5 *Appeal to hearing board* Any applicant for a liquor control license, wine permit, or beer permit may appeal from the administrator's disapproval of an application for a license or permit to the division hearing board, established pursuant to section 123 15. If upon appeal the hearing board determines that the local authority acted arbitrarily, capriciously, or without reasonable cause in disapproving the application, or that, where the local authority approved the application, the administrator's own disapproval should be reversed, it shall order issuance of a license or permit. The same right of appeal to the hearing board shall be afforded a liquor control licensee, wine permittee, or beer permittee, whose license or permit has been suspended or revoked under this chapter, and the hearing board shall reduce the period of suspension or order reinstatement of the license or permit for good cause shown.

6 *Judicial review* Judicial review of the action of the division hearing board may be sought in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding the terms of said Act, petitions for judicial review may be filed in the district court of the county wherein the premises covered by the application are situated.

Where the hearing board on an appeal by an applicant finds that the local authority acted arbitrarily, capriciously, or without reasonable cause in disapproving an application and the administrator issues a license or permit, the local authority may seek judicial review of such decision according to the terms of the Iowa administrative procedure Act within thirty days.

trator shall give sixty days' written notice of the expiration to each licensee or permittee. However, the administrator may issue six-month or eight-month seasonal licenses, class "B" wine permits, or class "B" beer permits for a proportionate part of the license or permit fee or may issue fourteen-day liquor licenses or beer permits as provided in subsection 2. No refund shall be made for seasonal licenses or permits or for fourteen-day liquor licenses or beer permits. No seasonal license or permit shall be renewed except after a period of two months.

2. The administrator may issue fourteen-day class "A", class "B", class "C", and class "D" liquor control licenses and fourteen-day class "B" beer permits. A fourteen-day license or permit, if granted, is valid for fourteen consecutive days, but the holder shall not sell on the two Sundays in the fourteen-day period unless the holder qualifies for and obtains the privilege to sell on Sundays contained in sections 123.36, subsection 6 and 123.134, subsection 5.

3. The fee for a fourteen-day liquor license or beer permit is one quarter of the annual fee for that class of liquor license or beer permit. The fee for the privilege to sell on the two Sundays in the fourteen-day period is twenty percent of the price of the fourteen-day liquor license or beer permit.

4. The administrator may issue five-day class "A", class "B", class "C", and class "D" liquor control licenses and five-day class "B" beer permits. A five-day license or permit is valid for five consecutive days, but the holder shall not sell alcoholic beverages on Sunday in the five-day period unless the holder qualifies for and obtains the privilege to sell on Sunday pursuant to sections 123.36 and 123.134.

However, this provision does not prohibit any member or employee from lawfully purchasing and keeping alcoholic liquor, wine, or beer in the member’s or employee’s possession for personal use.

A person engaged in the business of manufacturing, bottling, or wholesaling alcoholic beverages, wine, or beer, or any jobber, representative, broker, employee, or agent of such a person, shall not directly or indirectly supply, furnish, give, or pay for any furnishings, fixtures, or equipment used in the storage, handling, serving, or dispensing of alcoholic beverages, wine, beer, or food within the place of business of a licensee or permittee authorized under this chapter to sell at retail; nor shall the person directly or indirectly extend any credit for alcoholic beverages or beer or pay for any such license or permit, nor directly or indirectly be interested in the ownership, conduct, or operation of the business of another licensee or permittee authorized under this chapter to sell at retail, nor hold a retail liquor control license or retail wine or beer permit. b. The general assembly declares that this subsection shall be interpreted so that the holding of *Clark v. Mincks*, 364 N.W.2d. 226 (Iowa 1985) is abrogated in favor of prior judicial interpretation finding the consumption of alcoholic beverages, wine, or beer rather than the serving of alcoholic beverages, wine, or beer as the proximate cause of injury inflicted upon another by an intoxicated person.

3. No person under legal age shall misrepresent the person's age for the purpose of purchasing or attempting to purchase any alcoholic beverage, wine, or beer from any licensee or permittee. If any person under legal age misrepresents the person's age, and the licensee or permittee establishes that the licensee or permittee made reasonable inquiry to determine whether the prospective purchaser was over legal age, the licensee or permittee is not guilty of selling alcoholic liquor, wine, or beer to minors.

The evaluation shall be performed in accordance with procedures adopted for this purpose by the department of human services.

2. If the department of human services determines that a person has committed a crime or has a record of founded child abuse and is licensed, employed by a program licensed under this chapter, or resides in a licensed facility the department shall notify the program that an evaluation will be conducted to determine whether prohibition of the person's licensure, employment, or residence is warranted.

3. In an evaluation, the department of human services and the program for an employee of the program shall consider the nature and seriousness of the

crime or founded child abuse in relation to the position sought or held, the time elapsed since the commission of the crime or founded child abuse, the circumstances under which the crime or founded child abuse was committed, the degree of rehabilitation, the likelihood that the person will commit the crime or founded child abuse again, and the number of crimes or founded child abuses committed by the person involved. The department of human services may permit a person who is evaluated to be licensed, employed, or to reside, or to continue to be licensed, employed, or to reside in a program, if the person complies with the department's conditions relating to the person's licensure, employment, or residence, which may include completion of additional training. For an employee of a licensee, these conditional requirements shall be developed with the licensee. The department of human services has final authority in determining whether prohibition of the person's licensure, employment, or residence is warranted and in developing any conditional requirements under this subsection.

4. If the department of human services determines that the person has committed a crime or has a record of founded child abuse which warrants prohibition of licensure, employment, or residence, the person shall not be licensed under this chapter to operate a program admitting juveniles and shall not be employed by a program or reside in a facility admitting juveniles licensed under this chapter.

125.77 Service of notice.

Upon the filing of an application for involuntary commitment, the clerk shall docket the case and immediately notify a district court judge, a district associate judge, or magistrate who is admitted to the practice of law in this state, who shall review the application and accompanying documentation. The clerk shall send copies of the application and supporting documentation, together with the notice informing the respondent of the procedures required by this division, to the sheriff, for immediate service upon the respondent. If the respondent is taken into custody under section 125.81, service of the application, documentation, and notice upon the respondent shall be made at the time the respondent is taken into custody.

91 Acts, ch 108, §1 SF 453
Section amended

125.81 Immediate custody.

If a person filing an application requests that a respondent be taken into immediate custody, and the court upon reviewing the application and accompanying documentation, finds probable cause to believe that the respondent is a chronic substance abuser who is likely to injure the person or other persons if allowed to remain at liberty, the court may enter a written order directing that the respondent be taken into immediate custody by the sheriff, and be detained until the commitment hearing, which shall be held no more than five days after the date of the order, except that if the fifth day after the date of the order is a Saturday, Sunday, or a holiday, the hearing may be held on the next business day. The court may order the respondent detained for the period of time until the hearing is held, and no longer except as provided in section 125.88, in accordance with subsection 1 if possible, and if not, then in accordance with subsection 2 or, only if neither of these alternatives is available in accordance with subsection 3. Detention may be:

1. In the custody of a relative, friend, or other suitable person who is willing and able to accept responsibility for supervision of the respondent, with reasonable restrictions as the court may order including but not limited to restrictions on or a prohibition of any expenditure, encumbrance, or disposition of the respondent's funds or property.

2. In a suitable hospital, the chief medical officer of which shall be informed of the reasons why immediate custody has been ordered. The hospital may provide treatment which is necessary to preserve the respondent's life, or to appropriately control the respondent's behavior which is likely to result in physical injury to the person or to others if allowed to continue, and other treatment as deemed appropriate by the chief medical officer.

3. In a facility in the community which is suitably equipped and staffed for the purpose, provided that detention in a jail or other facility intended for confinement of those accused or convicted of a crime shall not be ordered, except in cases of actual emer-

gency if no other secure resource is accessible, and then only for a period of not more than twenty-four hours and under close supervision.

The respondent's attorney may be allowed by the court to present evidence and arguments before the court's determination under this section. If such an opportunity is not provided at that time, respondent's attorney shall be allowed to present evidence and arguments after the issuance of the court's order of confinement and while the respondent is confined.

91 Acts, ch 108, §2 SF 453
Unnumbered paragraph 1, and subsection 1 amended

125.82 Commitment hearing.

1. At a commitment hearing, evidence in support of the contentions made in the application shall be presented by the applicant, or by an attorney for the applicant, or by the county attorney if the county attorney is the applicant. During the hearing the applicant and the respondent shall be afforded an opportunity to testify and to present and cross-examine witnesses, and the court may receive the testimony of other interested persons. If the respondent is present at the hearing, as provided in subsection 3, and has been medicated within twelve hours, or a longer period of time as the court may designate, prior to the beginning of the hearing or a session of the hearing, the court shall be informed of that fact and of the probable effects of the medication upon convening of the hearing.

2. A person not necessary for the conduct of the hearing shall be excluded, except that the court may admit a person having a legitimate interest in the hearing. Upon motion of the applicant, the court may exclude the respondent from the hearing during the testimony of a witness if the court determines that the witness' testimony is likely to cause the respondent severe emotional trauma.

3. The person who filed the application and a physician or professional who has examined the respondent in connection with the commitment hearing shall be present at the hearing, unless prior to the hearing the court for good cause finds that their presence is not necessary. The respondent shall be present at the hearing unless prior to the hearing the respondent's attorney stipulates in writing that the attorney has conversed with the respondent, and that in the attorney's judgment the respondent cannot make a meaningful contribution to the hearing, or that the respondent has waived the right to be present, and the basis for the attorney's conclusions. A stipulation to the respondent's absence shall be reviewed by the court before the hearing, and may be rejected if it appears that insufficient grounds are stated or that the respondent's interests would not be served by the respondent's absence.

4. The respondent's welfare is paramount, and the hearing shall be tried as a civil matter and conducted in as informal a manner as is consistent with orderly procedure. Discovery as permitted under the Iowa rules of civil procedure is available to the respondent. The court shall receive all relevant and

material evidence, but the court is not bound by the rules of evidence. A presumption in favor of the respondent exists, and the burden of evidence and support of the contentions made in the application shall be upon the person who filed the application. If upon completion of the hearing the court finds that the contention that the respondent is a chronic substance abuser has not been sustained by clear and convincing evidence, the court shall deny the application and terminate the proceeding.

5. If the respondent is not taken into custody

under section 125.81, but the court finds good cause to believe that the respondent is about to depart from the jurisdiction of the court, the court may order limited detention of the respondent as authorized in section 125.81, as is necessary to ensure that the respondent will not depart from the jurisdiction of the court without the court's approval until the proceeding relative to the respondent has been concluded.

2 In addition to the findings required with respect to any of the criteria listed in subsection 1 of this section, the council shall grant a certificate of need for a new institutional health service or changed institutional health service only if it finds in writing, on the basis of data submitted to it by the department, that

a Less costly, more efficient or more appropriate alternatives to the proposed institutional health service are not available and the development of such alternatives is not practicable,

2 Upon request of the sponsor of the proposed new or changed service, the department shall make a preliminary review of the letter for the purpose of informing the sponsor of the project of any factors which may appear likely to result in denial of a certificate of need, based on the criteria for evaluation of applications in section 135.64. However, a rule adopted under this subsection shall not permit a deferral of more than sixty days beyond the time when a decision is required under section 135.69, unless both the applicant and the department agree to a longer deferment.

2. A party violating this division shall be subject to penalties in accordance with this section. The department shall adopt rules setting forth the violations by classification, the criteria for the classification of any violation not listed, and procedures for implementing this subsection.

a. A class I violation is one in which a party offers a new institutional health service or changed institutional health service modernization or acquisition without review and approval by the council. A party in violation is subject to a penalty of three hundred dollars for each day of a class I violation. Notice and opportunity to be heard shall be provided to a party pursuant to Iowa rule of civil procedure 326 and contested case procedures in accordance with chapter 17A. The department may reduce, alter, or waive a penalty upon the party showing good faith compliance with the department's request to immediately cease and desist from conduct in violation of this section. A class II violation shall be abated or eliminated within a stated period of time determined by the department and specified by the department in writing. The period of time may be modified by the department for good cause shown. A party in violation may be subject to a penalty of five hundred dollars for each day of a class II violation.

3. Notwithstanding any other sanction imposed pursuant to this section, a party offering or developing any new institutional health service or changed institutional health service without first obtaining a certificate of need as required by this division may be temporarily or permanently restrained from doing so by any court of competent jurisdiction in

any action brought by the state, any of its political subdivisions, or any other interested person.

The department, with the advice and approval of the hospital licensing board and approval of the state board of health, shall adopt rules setting out the standards for the different types of hospitals to be licensed under this chapter. The department shall enforce the rules. Rules or standards shall not be adopted or enforced which would have the effect of denying a license to a hospital or other institution required to be licensed, solely by reason of the school or system of practice employed or permitted to be employed by physicians in the hospital, if the school or system of practice is recognized by the laws of this state.

The rules shall state that a hospital shall not deny clinical privileges to physicians and surgeons, podiatrists, osteopaths, osteopathic surgeons, or dentists licensed under chapter 148, 149, 150, 150A, or 153,

solely by reason of the license held by the practitioner or solely by reason of the school or institution in which the practitioner received medical schooling or postgraduate training if the medical schooling or postgraduate training was accredited by an organization recognized by the council on postsecondary accreditation or an accrediting group recognized by the United States department of education.

CHAPTER 135C

HEALTH CARE FACILITIES

135C.2 Purpose — rules — special classifications — protection and advocacy agency.

1. The purpose of this chapter is to promote and encourage adequate and safe care and housing for individuals who are aged or who, regardless of age, are infirm, convalescent, or mentally or physically dependent, by both public and private agencies by providing for the adoption and enforcement of rules and standards:

a. For the housing, care and treatment of individuals in health care facilities, and

b. For the location, construction, maintenance, renovation, and sanitary operation of such health care facilities which will promote safe and adequate care of individuals in such homes so as to further the health, welfare and safety of such individuals.

2. Rules and standards prescribed, promulgated and enforced under this chapter shall not be arbitrary, unreasonable or confiscatory and the department or agency prescribing, promulgating or enforcing such rules or standards shall have the burden of proof to establish that such rules or standards meet such requirements and are consistent with the economic problems and conditions involved in the care and housing of persons in health care facilities.

3. The department shall establish by administrative rule, within the residential care facility category, a special classification for residential facilities intended to serve mentally ill individuals. The department may also establish by administrative rule special classifications within the residential care facility, intermediate care facility for the mentally ill, intermediate care facility for the mentally retarded, or nursing facility categories, for facilities intended to serve individuals who have special health care problems or conditions in common. Rules establishing a special classification shall define the problem or condition to which the special classification is relevant and establish requirements for an approved

program of care commensurate with the problem or condition, and may grant special variances or considerations to facilities licensed within the special classification.

The rules adopted for intermediate care facilities for the mentally retarded shall be consistent with, but no more restrictive than, the federal standards for intermediate care facilities for the mentally retarded established pursuant to the federal Social Security Act, § 1905(c)(d), as codified in 42 U.S.C. § 1396d, in effect on January 1, 1989. However, in order to be licensed the state fire marshal must certify to the department an intermediate care facility for the mentally retarded as meeting the applicable provisions of either the health care occupancies chapter or the residential board and care chapter of the life safety code of the national fire protection association, 1985 edition. The department shall adopt additional rules for intermediate care facilities for the mentally retarded pursuant to section 135C.14, subsection 8.

Notwithstanding the limitations set out in this subsection regarding rules for intermediate care facilities for the mentally retarded, the department shall consider the federal interpretive guidelines issued by the federal health care financing administration when interpreting the department's rules for intermediate care facilities for the mentally retarded. This use of the guidelines is not subject to the rule-making provisions of sections 17A.4 and 17A.5, but the guidelines shall be published in the Iowa administrative bulletin and the Iowa administrative code.

4. The protection and advocacy agency designated in the state, under Pub. L. No. 98-527, the Developmental Disabilities Act of 1984, Pub. L. No. 99-319, the Protection and Advocacy for Mentally Ill Individuals Act of 1986, and Pub. L. No. 100-146, the federal Developmental Disabilities Assistance and Bill of Rights Act Amendments of 1987, is recog-

nized as an agency legally authorized and constituted to ensure the implementation of the purposes of this chapter for populations under its authority and in the manner designated by Pub. L. No. 98-527, Pub. L. No. 99-319, and Pub. L. No. 100-146 and in the assurances of the governor of the state.

5. The department shall establish a special classification within the residential care facility category in order to foster the development of residential care facilities which serve persons with mental retardation, chronic mental illness, or a developmental disability, as defined under section 225C.26, and which contain five or fewer residents. A facility within the special classification established pursuant to this subsection is exempt from the requirements of section 135.63. The department shall adopt rules which are consistent with rules previously developed for the waiver demonstration project pursuant to 1986 Iowa Acts, chapter 1246, section 206, and which include all of the following provisions:

a. A facility provider under the special classification must comply with rules adopted by the department for the special classification. However, a facility provider which has been accredited by the accreditation council for services to persons with mental retardation and other developmental disabilities shall be deemed to be in compliance with the rules adopted by the department.

b. A facility must be located in an area zoned for single or multiple-family housing or in an unincorporated area and must be constructed in compliance with applicable local housing codes and the rules adopted for the special classification by the state fire marshal in accordance with the concept of the least restrictive environment for the facility residents. The rules adopted by the state fire marshal for the special classification shall be no more restrictive than the rules adopted by the state fire marshal for demonstration waiver project facilities pursuant to 1986 Iowa Acts, chapter 1246, section 206, subsection 2. Local housing codes shall not be more restrictive than the rules adopted for the special classification by the state fire marshal and the state building code requirements for single or multiple-family housing.

c. Facility provider plans for the facility's accessibility to residents must be in place.

d. A written plan must be in place which documents that a facility meets the needs of the facility's residents pursuant to individual program plans developed according to age appropriate and least restrictive program requirements.

e. A written plan must be in place which documents that a facility's residents have reasonable access to employment or employment-related training, education, generic community resources, and integrated opportunities to promote interaction with the community.

f. A committee of not more than nine members must be established to provide monitoring of the special classification and the rules and procedures adopted regarding the special classification. The rec-

ommendations of the committee are subject to the approval of the director. The committee shall include but is not limited to representatives designated by each of the following:

(1) The association for retarded citizens of Iowa.
(2) The Iowa association of rehabilitation and residential facilities.

(3) The governor's planning council for developmental disabilities.

(4) The mental health and mental retardation commission.

(5) The alliance for the mentally ill of Iowa.

(6) The Iowa state association of counties.

(7) The state fire marshal.

g. The facilities licensed under this subsection shall be eligible for funding utilized by other licensed residential care facilities for the mentally retarded, or licensed residential care facilities for the mentally ill, including but not limited to funding under or from the federal social services block grant, the state supplementary assistance program, state mental health and mental retardation services funds, and county funding provisions.

135C.5 Limitations on use.

Another business or activity shall not be carried on in a health care facility, or in the same physical structure with a health care facility, unless such business or activity is under the control of and is directly related to and incidental to the operation of the health care facility or unless the business or activity is approved by the department and the state fire marshal. A business or activity which is operated within the limitations of this section shall not interfere in any manner with the use of the facility by the residents or the services provided to the residents, and shall not be disturbing to them. The department and the state fire marshal, in accordance with chapter 17A, shall adopt rules which establish criteria for approval of a business or activity to be carried on in a health care facility or in the same physical structure with a health care facility.

135C.30 Operation of facility under receivership.

When so authorized by section 135C.11, subsection 2, or section 135C.12, subsection 1, the director may file a verified application in the district court of the county where a health care facility licensed under this chapter is located, requesting that an individual nominated by the director be appointed as receiver for the facility with responsibility to bring the operation and condition of the facility into conformity with this chapter and the rules or minimum standards promulgated under this chapter.

1. The court shall expeditiously hold a hearing on the application, at which the director shall present evidence in support of the application. The li-

censee against whose facility the petition is filed may also present evidence, and both parties may subpoena witnesses. The court may appoint a receiver for the health care facility in advance of the hearing if the director's verified application states that an emergency exists which presents an imminent danger of resultant death or physical harm to the residents of the facility. If the licensee against whose facility the receivership petition is filed informs the court at or before the time set for the hearing that the licensee does not object to the application, the court shall waive the hearing and at once appoint a receiver for the facility.

2. The court, on the basis of the verified application and evidence presented at the hearing, may order the facility placed under receivership, and if so ordered, the court shall direct either that the receiver assume the duties of administrator of the health care facility or that the receiver supervise the facility's administrator in conducting the day-to-day business of the facility. The receiver shall be empowered to control the facility's financial resources and to apply its revenues as the receiver deems necessary to the operation of the facility in compliance with this chapter and the rules or minimum standards promulgated under this chapter, but shall be accountable to the court for management of the facility's financial resources.

3. A receivership established under this section may be terminated by the district court which established it, after a hearing upon an application for termination. The application may be filed:

a Jointly by the receiver and the current licensee of the health care facility which is in receivership, stating that the deficiencies in the operation, maintenance or other circumstances which were the grounds for establishment of the receivership have been corrected and that there are reasonable grounds to believe that the facility will be operated in compliance with this chapter and the rules or minimum standards promulgated under this chapter.

b By the current licensee of the facility, alleging that termination of the receivership is merited for the reasons set forth in paragraph "a" of this subsection, but that the receiver has declined to join in the petition for termination of the receivership.

c By the receiver, stating that all residents of the facility have been relocated elsewhere and that there are reasonable grounds to believe it will not be feasible to again operate the facility on a sound financial basis and in compliance with this chapter and the rules or minimum standards promulgated under this chapter, and asking that the court approve surrender of the facility's license to the department and subsequent return of control of the facility's premises to the owners of the premises.

4. Payment of the expenses of a receivership established under this section is the responsibility of the facility for which the receiver is appointed, unless the court directs otherwise. The expenses include, but are not limited to:

a Salary of the receiver.

b Expenses incurred by the facility for the continuing care of the residents of the facility.

c Expenses incurred by the facility for the maintenance of buildings and grounds of the facility.

d Expenses incurred by the facility in the ordinary course of business, such as employees' salaries and accounts payable.

The receiver is not personally liable for the expenses of the facility during the receivership. The receiver is an employee of the state as defined in section 25A.2, subsection 3, only for the purpose of defending a claim filed against the receiver. Chapter 25A applies to all suits filed against the receiver.

5. This section does not:

a Preclude the sale or lease of a health care facility, and the transfer or assignment of the facility's license in the manner prescribed by section 135C.8, while the facility is in receivership, provided these actions are not taken without approval of the receiver.

b Affect the civil or criminal liability of the licensee of the facility placed in receivership, for any acts or omissions of the licensee which occurred before the receiver was appointed.

135C.37 Complaints alleging violations — confidentiality.

A person may request an inspection of a health care facility by filing with the department, care review committee of the facility, or the long-term care resident's advocate as defined in section 249D.4, subsection 15, a complaint of an alleged violation of applicable requirements of this chapter or the rules adopted pursuant to this chapter. A person alleging abuse or neglect of a resident with a developmental disability or with mental illness may also file a complaint with the protection and advocacy agency designated pursuant to section 135B.9 or section 135C.2. A copy of a complaint filed with the care review committee or the long-term care resident's advocate shall be forwarded to the department. The complaint shall state in a reasonably specific manner the basis of the complaint, and a statement of the nature of the complaint shall be delivered to the facility involved at the time of the inspection. The name of the person who files a complaint with the department, care review committee, or the long-term care resident's advocate shall be kept confidential and shall not be subject to discovery, subpoena, or other means of legal compulsion for its release to a person other than department employees involved in the investigation of the complaint.

135C.38 Inspections upon complaints.

1. *a* Upon receipt of a complaint made in accordance with section 135C.37, the department or care review committee shall make a preliminary review of the complaint. Unless the department or committee

concludes that the complaint is intended to harass a facility or a licensee or is without reasonable basis, it shall within twenty working days of receipt of the complaint make or cause to be made an on-site inspection of the health care facility which is the subject of the complaint.

b. The complaint investigation shall include, at a minimum, an interview with the complainant, the alleged perpetrator, and the victim of the alleged violation, if the victim is able to communicate, if the complainant, alleged perpetrator, or victim is identifiable, and if the complainant, alleged perpetrator, or victim is available. Additionally, witnesses who have knowledge of facts related to the complaint shall be interviewed, if identifiable and available. The names of witnesses may be obtained from the complainant or the victim. The files of the facility may be reviewed to ascertain the names of staff persons on duty at the time relevant to the complaint. The department shall apply a preponderance of the evidence standard in determining whether or not a complaint is substantiated. For the purposes of this subsection, “*a preponderance of the evidence standard*” means that the evidence, considered and compared with the evidence opposed to it, produces the belief in a reasonable mind that the allegations are more likely true than not true. “*A preponderance of the evidence standard*” does not require that the investigator personally witnessed the alleged violation.

c. The department may refer to the care review committee of a facility any complaint received by the department regarding that facility, for initial evaluation and appropriate action by the committee.

2. a. The complainant shall be promptly informed of the result of any action taken by the department or committee in the matter. The complainant shall also be notified of the name, address, and telephone number of the designated protection and advocacy agency if the alleged violation involves a facility with one or more residents with developmental disabilities or mental illness.

b. Upon conclusion of the investigation, the department shall notify the complainant of the results. The notification shall include a statement of the factual findings as determined by the investigator, the statutory or regulatory provisions alleged to have been violated, and a summary of the reasons for which the complaint was or was not substantiated.

c. The department shall mail the notification to the complainant without charge. Upon the request of the complainant, the department shall mail to the

complainant, without charge, a copy of the most recent final findings regarding compliance with licensing requirements by the facility against which the complaint was filed.

d. A person who is dissatisfied with any aspect of the department’s handling of the complaint may contact the long-term care resident’s advocate, established pursuant to section 249D.42, or may contact the protection and advocacy agency designated pursuant to section 135C.2 if the complaint relates to a resident with a developmental disability or a mental illness.

3. An inspection made pursuant to a complaint filed under section 135C.37 need not be limited to the matter or matters complained of; however, the inspection shall not be a general inspection unless the complaint inspection coincides with a scheduled general inspection. Upon arrival at the facility to be inspected, the inspector shall show identification to the person in charge of the facility and state that an inspection is to be made, before beginning the inspection. Upon request of either the complainant or the department or committee, the complainant or the complainant’s representative or both may be allowed the privilege of accompanying the inspector during any on-site inspection made pursuant to this section. The inspector may cancel the privilege at any time if the inspector determines that the privacy of any resident of the facility to be inspected would otherwise be violated. The dignity of the resident shall be given first priority by the inspector and others.

4. If upon an inspection of a facility by its care review committee, pursuant to this section, the committee advises the department of any circumstance believed to constitute a violation of this chapter or of any rule adopted pursuant to it, the committee shall similarly advise the facility at the same time. If the facility’s licensee or administrator disagrees with the conclusion of the committee regarding the supposed violation, an informal conference may be requested and if requested shall be arranged by the department as provided in section 135C.42 before a citation is issued. If the department thereafter issues a citation pursuant to the committee’s finding, the facility shall not be entitled to a second informal conference on the same violation and the citation shall be considered affirmed. The facility cited may proceed under section 135C.43 if it so desires.

MOBILE HOMES AND PARKS

135D.22 Annual tax — credit.

The owner of each mobile home shall pay to the county treasurer an annual tax. However, when the owner is any educational institution and the mobile home is used solely for student housing or when the owner is the state of Iowa or a subdivision thereof, the owner shall be exempt from the tax. The annual tax shall be computed as follows:

1. Multiply the number of square feet of floor space each mobile home contains when parked and in use by twenty cents. In computing floor space, the exterior measurements of the mobile home shall be used as shown on the certificate of registration and title, but not including any area occupied by a hitching device.

2. *a.* If the owner of the mobile home is an Iowa resident, was totally disabled, as defined in section 425.17, subsection 11 on or before December 31 of the base year, is a surviving spouse having attained the age of fifty-five years on or before December 31, 1988 or has attained the age of sixty-five years on or before December 31 of the base year and has an income when included with that of a spouse which is less than six thousand dollars per year, the annual tax shall not be imposed on the mobile home. If the income is six thousand dollars or more but less than fourteen thousand dollars, the annual tax shall be computed as follows:

If the Household Income is:	Annual Tax Per Square Foot:
\$ 6,000 — 6,999.99	3.0 cents
7,000 — 7,999.99	6.0
8,000 — 9,999.99	10.0
10,000 — 11,999.99	13.0
12,000 — 13,999.99	15.0

b. If the owner of the mobile home is an Iowa resident, has attained the age of eighteen years on or before December 31 of the base year but has not attained the age or disability status described in paragraph “*a*”, and has an income when included with that of a spouse which is less than fourteen thousand dollars, the annual tax shall be computed as follows:

If the Household Income is:	Annual Tax Per Square Foot:
\$ 0 — 5,999.99	10.0 cents
6,000 — 6,999.99	11.6
7,000 — 7,999.99	13.0
8,000 — 9,999.99	15.0
10,000 — 11,999.99	16.7
12,000 — 13,999.99	17.6

Notwithstanding the effective date provision in 1990 Iowa Acts, chapter 1250, section 21, this lettered paragraph is effective for mobile home tax claims filed on or after January 1, 1993, and any claims filed under this lettered paragraph before that date shall not be allowed.

For purposes of this subsection “*income*” means income as defined in section 425.17, subsection 7, and “*base year*” means the calendar year preceding the year in which the claim for a reduced rate of tax is filed. The mobile home reduced rate of tax shall only be allowed on the mobile home in which the claimant is residing at the time in which the claim for a reduced rate of tax is filed.

3. The amount thus computed shall be the annual tax for all mobile homes, except as follows:

a. For the sixth through ninth years after the year of manufacture the annual tax is ninety percent of the tax computed according to subsection 1 or 2 of this section, whichever is applicable.

b. For all mobile homes ten or more years after the year of manufacture the annual tax is eighty percent of the tax computed according to subsection 1 or 2 of this section, whichever is applicable.

4. The tax shall be figured to the nearest even whole dollar.

5. A claim for credit for mobile home tax due shall not be paid or allowed unless the claim is actually filed with the county treasurer between January 1 and June 1, both dates inclusive, immediately preceding the fiscal year during which the mobile home taxes are due and, with the exception of a claim filed on behalf of a deceased claimant by the claimant’s legal guardian, spouse, or attorney, or by the executor or administrator of the claimant’s estate, contains an affidavit of the claimant’s intent to occupy the mobile home for six months or more during the fiscal year beginning in the calendar year in which the claim is filed. The county treasurer shall submit the claim to the director of revenue and finance on or before August 1 each year.

The forms for filing the claim shall be provided by the department of revenue and finance. The forms shall require information as determined by the department.

In case of sickness, absence, or other disability of the claimant or if, in the judgment of the director of revenue and finance, good cause exists and the claimant requests an extension, the director may extend the time for filing a claim for credit or reimbursement. However, any further time granted shall not extend beyond December 31 of the year in which the claim was required to be filed. Claims filed as a

result of this paragraph shall be filed with the director who shall provide for the reimbursement of the claim to the claimant.

The director of revenue and finance shall certify the amount due to each county, which amount shall be the dollar amount which will not be collected due to the granting of the reduced tax rate under subsection 2.

The amounts due each county shall be paid by the department of revenue and finance on December 15 of each year, drawn upon warrants payable to the respective county treasurers. The county treasurer in each county shall apportion the payment in accordance with section 135D.25.

There is appropriated annually from the general fund of the state to the department of revenue and finance an amount sufficient to carry out this subsection.

135D.24 Collection of tax.

1. The annual tax is due and payable to the county treasurer on or after July 1 in each fiscal year and is collectible in the same manner and at the same time as ordinary taxes as provided in sections 445.36, 445.37, and 445.39. Interest at the rate prescribed by law shall accrue on unpaid taxes. Both installments of taxes may be paid at one time. The September installment represents a tax period beginning July 1 and ending December 31. The March installment represents a tax period beginning January 1 and ending June 30. A mobile home, coming into this state from outside the state, put in use from a dealer's inventory, or put in use at any time after July 1 or January 1, is subject to the taxes prorated for the remaining unexpired months of the tax period, but the purchaser is not required to pay the tax at the time of purchase. Interest attaches the following April 1 for taxes prorated on or after October 1. Interest attaches the following October 1 for taxes prorated on or after April 1. If the taxes are not paid, the county treasurer shall send a statement of delinquent taxes as part of the notice of tax sale as provided in section 446.9. The owner of a mobile home who sells the mobile home between July 1 and December 31 and obtains a tax clearance statement is responsible only for the September tax payment and is not required to pay taxes for subsequent tax periods. If the owner of a mobile home sells the mobile home, obtains a tax clearance statement, and obtains a replacement mobile home, the owner shall not pay taxes under this chapter for the newly acquired mobile home for the same tax period that the owner has paid taxes on the mobile home sold. Interest for delinquent taxes shall be calculated to the nearest whole dollar. In calculating interest each fraction of a month shall be counted as an entire month.

2. Mobile home owners upon issuance of a certificate of title or upon transporting to a new site shall

file the address, township, and school district, of the location where the mobile home is parked with the county treasurer's office. Failure to comply is punishable as set out in section 135D.18.

3. Each mobile home park owner shall notify monthly the county treasurer concerning any mobile home or manufactured home arriving in or departing from the park without a tax clearance statement. The records of the owner shall be open to inspection by a duly authorized representative of any law enforcement agency. Any property owner, manager or tenant shall report to the county treasurer mobile homes parked upon any property owned, managed, or rented by that person.

4. The tax is a lien on the vehicle senior to any other lien upon it except a judgment obtained in an action to dispose of an abandoned mobile home under section 562C.8. The mobile home bearing a current registration issued by any other state and remaining within this state for an accumulated period not to exceed ninety days in any twelve-month period is not subject to Iowa tax. However, when one or more persons occupying a mobile home bearing a foreign registration are employed in this state, there is no exemption from the Iowa tax. This tax is in lieu of all other taxes general or local on a mobile home.

5. A modular home as defined by this chapter is not subject to or assessed the annual tax pursuant to this section, but shall be assessed and taxed as real estate pursuant to chapter 427.

6. Before a mobile home may be moved from its present site by the owner or the owner's assignee, a tax clearance statement in the name of the owner must be obtained from the county treasurer of the county where the present site is located certifying that taxes are not owing under this section for previous years and that the taxes have been paid for the current tax period. However, a tax clearance statement is not required for a mobile home in a manufacturer's or dealer's stock which is not used as a place for human habitation. A tax clearance form is not required to move an abandoned mobile home. A tax clearance form is not required in eviction cases provided the mobile home park owner or manager advises the county treasurer that the tenant is being evicted. If a dealer acquires a mobile home from a person other than a manufacturer, the person shall provide a tax clearance statement in the name of the owner of record to the dealer. The tax clearance statement shall be provided by the county treasurer in a method prescribed by the department of transportation.

7. a. As an alternative to the semiannual or annual payment of taxes, the county treasurer may accept partial payments of current year mobile home taxes. A minimum payment amount shall be established by the treasurer. The treasurer shall transfer amounts from each taxpayer's account to be applied to each semiannual tax installment prior to the delinquency dates specified in section 445.37 and the amounts collected shall be apportioned by the tenth of the month following transfer. If, prior to the due

date of each semiannual installment, the account balance is insufficient to fully satisfy the installment, the treasurer shall transfer and apply the entire account balance, leaving an unpaid balance of the installment. Interest shall attach on the unpaid balance in accordance with section 445.39. Unless funds sufficient to fully satisfy the delinquency are received, the treasurer shall collect the unpaid balance as provided in chapter 446. Any remaining balance in a taxpayer's account in excess of the amount needed to fully satisfy an installment shall remain in the account to be applied toward the next semiannual installment. Any interest income derived from the account shall be deposited in the county's general fund to cover administrative costs. The county treasurer shall send a notice with the tax statement or by separate mail to each taxpayer stating that, upon request to the treasurer, the taxpayer may make partial payments of current year mobile home taxes.

b. Partial payment of taxes which are delinquent may be made to the county treasurer. A minimum payment amount shall be established by the treasurer. The minimum payment must be equal to or exceed the interest, fees, and costs attributed to the oldest delinquent installment of the tax and shall be apportioned in accordance with section 445.57. If the payment does not include the whole of any installment of the delinquent tax, the unpaid tax shall continue to accrue interest pursuant to section 445.39. Partial payment shall not be permitted if the property has been sold for taxes under chapter 446 and under any circumstances shall not constitute an extension of the time period for a sale under chapter 446.

8. Current year taxes may be paid at any time regardless of any outstanding prior year delinquent taxes.

135D.26 Conversion to real property.

No mobile home shall be assessed for property tax nor be eligible for homestead tax credit or military service tax credit unless:

1. The mobile home owner intends to convert the mobile home to real estate and does so by:

a. Attaching the mobile home to a permanent foundation.

b. Modification of the vehicular frame for placement on a permanent foundation.

c. If a security interest is noted on the certificate of title, tendering to the secured party a mortgage on the real estate upon which the mobile home is to be located in the unpaid amount of the secured debt, and with the same priority as or a higher priority than the secured party's security interest, or obtaining written consent of the secured party to the conversion, in which latter case the lien notation on the certificate of title shall suffice to preserve the lienholder's security in the mobile home separate from any interest in the land.

2. After complying with subsection 1, the owner shall notify the assessor who shall inspect the new premises for compliance. If a security interest is noted on the certificate of title, the assessor shall require an affidavit, as defined in section 622.85, from the mobile home owner, declaring that the owner has complied with subsection 1, paragraph "c", and setting forth the method of compliance.

a. If compliance with subsection 1, paragraph "c", has been accomplished by the secured party accepting the tender of a mortgage, the assessor shall collect the mobile home vehicle title and enter the property upon the tax rolls.

b. If compliance with subsection 1, paragraph "c", has been accomplished by the secured party consenting to the conversion without accepting a mortgage, the secured party shall retain the mobile home vehicle title and the assessor shall note the conversion on the assessor's records and enter the property upon the tax rolls. So long as a security interest is noted on the certificate of title, the title to the mobile home will not be merged with title to the land, and the sale or foreclosure of an interest in the land shall not affect title to the mobile home or any security interest in the mobile home.

CHAPTER 135G

BIRTH CENTERS

135G.4 Licensure — issuance, renewal, denial, suspension, revocation — fees.

1. *a.* The department shall not issue a birth center license to any applicant until:

(1) The department has ascertained that the staff and equipment of the birth center are adequate to provide the care and services required of a birth center.

(2) The birth center has been inspected by the state fire marshal or a deputy appointed by the fire marshal for that purpose, who may be a member of a municipal fire department, and the department has received either a certificate of compliance or a provisional certificate of compliance by the birth center with the fire hazard and fire safety rules and standards of the department as promulgated by the fire marshal. The state fire marshal shall adopt rules relating to fire hazard and fire safety standards pursuant to chapter 17A which shall not exceed the provision of smoke alarms, fire extinguishers, sprinkler systems, and fire escape routes and necessary rules which parallel state or local building code rules.

The rules and standards promulgated by the fire marshal shall be substantially in keeping with the latest generally recognized safety criteria for the birth centers covered, of which the applicable criteria recommended and published from time to time by the national fire protection association shall be *prima facie* evidence.

The state fire marshal or the fire marshal's deputy may issue successive provisional certificates of compliance for periods of one year each to a birth center which is in substantial compliance with the applicable fire-hazard and fire-safety rules and standards, upon satisfactory evidence of an intent, in good faith, by the owner or operator of the birth center to correct the deficiencies noted upon inspection within a reasonable period of time as determined by the state fire marshal or the fire marshal's deputy. Renewal of a provisional certificate shall be based on a showing of substantial progress in eliminating deficiencies noted upon the last previous inspection of the birth center without the appearance of additional deficiencies other than those arising from changes in the fire hazard and fire safety rules, regulations and standards which have occurred since the last previous inspection, except that substantial progress toward achievement of a good faith intent by the

owner or operator to replace the entire facility within a reasonable period of time, as determined by the state fire marshal or the fire marshal's deputy, may be accepted as a showing of substantial progress in eliminating deficiencies, for the purposes of this section.

b. A provisional license may be issued to any birth center that is in substantial compliance with this chapter and with the rules adopted by the department. A provisional license may be granted for a period of no more than one year from the effective date of rules adopted by the department, shall expire automatically at the end of its term, and shall not be renewed.

c. A license, unless sooner suspended or revoked, automatically expires one year from its date of issuance and is renewable upon application for renewal and payment of the fee prescribed, provided the applicant and the birth center meet the requirements established under this chapter and by rules adopted by the department. A complete application for renewal of a license shall be made ninety days prior to expiration of the license on forms provided by the department.

2. An application for a license, or renewal thereof, shall be made to the department upon forms provided by the department and shall contain information the department may require.

3. Each application for a birth center license or renewal of a license shall be accompanied by a license fee. The fee amount shall be equivalent to the fee amount established for a hospital in accordance with section 135B.4. The fees shall be deposited in the general fund of the state.

4. Each license is valid only for the person or governmental unit to whom or which the license is issued and is not subject to sale, assignment, or other transfer, voluntary, or involuntary; and is not valid for any premises other than those for which the license was originally issued.

5. Each license shall be posted in a conspicuous place on the licensed premises.

6. The department may deny, suspend, or revoke a license when the department finds that there has been a substantial failure to comply with the requirements established under this chapter or by administrative rule.

CHAPTER 135H

PSYCHIATRIC MEDICAL INSTITUTIONS FOR CHILDREN

135H.7 Personnel.

1. A person shall not be allowed to provide services in a psychiatric institution if the person has a disease which is transmissible to other persons through required contact in the workplace, which presents a significant risk of infecting other persons, which presents a substantial possibility of harming other persons, or for which no reasonable accommodation can eliminate the risk of infecting other persons.

2. *a.* If a person is being considered for licensure under this chapter, or for employment involving direct responsibility for a child or with access to a child when the child is alone, by a licensed psychiatric institution, or if a person will reside in a facility utilized by a licensee, and if the person has been convicted of a crime or has a record of founded child abuse, the department of human services and the licensee for an employee of the licensee shall perform an evaluation to determine whether the crime or founded child abuse warrants prohibition of licensure, employment, or residence in the facility. The department shall conduct criminal and child abuse record checks in this state and may conduct these checks in other states. The evaluation shall be performed in accordance with procedures adopted for this purpose by the department of human services.

b. If the department of human services determines that a person has committed a crime or has a record of founded child abuse and is licensed, employed by a psychiatric institution licensed under this chapter, or resides in a licensed facility the department shall notify the program that an evaluation will be conducted to determine whether prohibition of the person's licensure, employment, or residence is warranted.

c. In an evaluation, the department of human services and the licensee for an employee of the licensee shall consider the nature and seriousness of the crime or founded child abuse in relation to the position sought or held, the time elapsed since the commission of the crime or founded child abuse, the circumstances under which the crime or founded child abuse was committed, the degree of rehabilitation, the likelihood that the person will commit the crime or founded child abuse again, and the number of crimes or founded child abuses committed by the person involved. The department may permit a person who is evaluated to be licensed, employed, or to reside, or to continue to be licensed, employed, or to reside in a licensed facility, if the person complies with the department's conditions relating to the person's licensure, employment, or residence, which may include completion of additional training. For an employee of a licensee, these conditional requirements shall be developed with the licensee. The department of human services has final authority in determining whether prohibition of the person's licensure, employment, or residence is warranted and in developing any conditional requirements under this paragraph.

3. If the department of human services determines that the person has committed a crime or has a record of founded child abuse which warrants prohibition of licensure, employment, or residence, the person shall not be licensed under this chapter to operate a psychiatric institution and shall not be employed by a psychiatric institution or reside in a facility licensed under this chapter.

NEW subsection 7

137B.6 Authority to enforce.

The director shall regulate, license, and inspect food service establishments and enforce the Iowa food service sanitation code in Iowa. Municipal corporations shall not regulate, license, inspect, or collect license fees from food service establishments except as provided for in the Iowa food service sanitation code.

If a municipal corporation wants its local board of health to license, inspect, and otherwise enforce the Iowa food service sanitation code within its jurisdiction, the municipal corporation may enter into an agreement to do so with the director. The director may enter into such an agreement if the director finds that the local board of health has adequate resources to perform the required functions. A municipal corporation may only enter into an agreement to enforce the Iowa food service sanitation code if it also agrees to enforce the Iowa hotel sanitation code pursuant to section 137C.6 and the food and beverage vending machine laws pursuant to section 137E.3. To avoid duplication of inspection, the department, not a local board of health, shall inspect a food service establishment located within a food establishment, unless a local board of health has contracted with the department for inspections of food establishments and food service establishments.

If the director enters into an agreement with a municipal corporation as provided by this section, the director shall cause the inspection practices of a municipal corporation to be spot checked on a regular basis.

A local board of health that is responsible for enforcing the Iowa food service sanitation code within its jurisdiction pursuant to an agreement shall make an annual report to the director providing the following information:

1. The total number of food service establishment licenses granted or renewed during the year.
2. The number of food service establishment licenses granted or renewed during the year broken down into the following categories:
 - a. Mobile food units and pushcarts.
 - b. Temporary food service establishments.

c. Transient food service establishments.

d. Food service establishments with annual gross sales of under fifty thousand dollars other than mobile food units, pushcarts, or temporary food service establishments.

e. Food service establishments with annual gross sales of between fifty thousand and one hundred thousand dollars other than mobile food units, pushcarts, or temporary food service establishments.

f. Food service establishments with annual gross sales of more than one hundred thousand but less than two hundred fifty thousand dollars other than mobile food units, pushcarts, or temporary food service establishments.

g. Food service establishments with annual gross sales of two hundred fifty thousand dollars or more other than mobile food units, pushcarts, or temporary food service establishments.

3. The amount of money collected in license fees during the year.

4. Other information the director requests.

The director shall monitor local boards of health to determine if they are enforcing the Iowa food service sanitation code within their respective jurisdictions. If the director determines that the Iowa food service sanitation code is enforced by a local board of health, such enforcement shall be accepted in lieu of enforcement by the department in that jurisdiction. If the director determines that the Iowa food service sanitation code is not enforced by a local board of health, the director may rescind the agreement after reasonable notice and an opportunity for a hearing. If the agreement is rescinded, the director shall assume responsibility for enforcement in the jurisdiction involved.

A food service establishment under section 137B.2 which is also considered a food establishment under section 137A.6 shall be inspected by the department for both purposes at the same time.

144B.5 Durable power of attorney for health care — form.

1. A durable power of attorney for health care executed pursuant to this chapter may, but need not, be in the following form:

I hereby designate as my attorney in fact (my agent) and give to my agent the power to make health care decisions for me. This power exists only when I am unable, in the judgment of my attending physician, to make those health care decisions. The attorney in fact must act consistently with my desires as stated in this document or otherwise made known.

Except as otherwise specified in this document, this document gives my agent the power, where otherwise consistent with the law of this state, to consent to my physician not giving health care or stopping health care which is necessary to keep me alive.

This document gives my agent power to make health care decisions on my behalf, including to consent, to refuse to consent, or to withdraw consent to the provision of any care, treatment, service, or procedure to maintain, diagnose, or treat a physical or mental condition. This power is subject to any statement of my desires and any limitations included in this document.

My agent has the right to examine my medical records and to consent to disclosure of such records.

144B.6 Attorney in fact — priority to make decisions.

1. Unless the district court sitting in equity specifically finds that the attorney in fact is acting in a manner contrary to the wishes of the principal or the durable power of attorney for health care provides otherwise, an attorney in fact who is known to the health care provider to be available and willing to make health care decisions has priority over any other person, including a guardian appointed pursuant to chapter 633, to act for the principal in all matters of health care decisions. The attorney in fact has authority to make a particular health care decision only if the principal is unable, in the judgment of the attending physician, to make the health care decision. If the principal objects to a decision to withhold or withdraw health care, the principal shall be presumed to be able to make a decision.

2. In exercising the authority under the durable power of attorney for health care, the attorney in fact has a duty to act in accordance with the desires of the principal as expressed in the durable power of attorney for health care or otherwise made known to the attorney in fact at any time. A declaration executed by the principal pursuant to the life-sustaining

procedures Act, chapter 144A, shall not be interpreted as expressing an intent to prohibit the withdrawal of hydration or nutrition when required to be provided parenterally or through intubation and shall not otherwise restrict the authority of the attorney in fact unless either the declaration or the durable power of attorney for health care expressly provides otherwise. 144B.8 Revocation of durable power of attorney.

1. A durable power of attorney for health care may be revoked at any time and in any manner by which the principal is able to communicate the intent to revoke, without regard to mental or physical condition. Revocation may be by notifying the attorney in fact orally or in writing. Revocation may also be made by notifying a health care provider orally or in writing while that provider is engaged in providing health care to the principal. A revocation is only effective as to a health care provider upon its communication to the provider by the principal or by another to whom the principal has communicated revocation. The health care provider shall document the revocation in the treatment records of the principal.

2. The principal is presumed to have the capacity to revoke a durable power of attorney for health care.

3. Unless it provides otherwise, a valid durable power of attorney for health care revokes any prior durable power of attorney for health care.

4. If authority granted by a durable power of attorney for health care is revoked under this section, an individual is not subject to criminal prosecution or civil liability for acting in good faith reliance upon the durable power of attorney for health care unless the individual has actual knowledge of the revocation.

5. The fact of execution and subsequent revocation of a durable power of attorney shall have no effect upon subsequent health care decisions made in accordance with accepted principles of law and standards of medical care governing those decisions.

b. The health care provider believes in good faith that the decision is not inconsistent with the desires of the principal as expressed in the durable power of attorney for health care or otherwise made known to the health care provider, and, if the decision is to withhold or withdraw health care necessary to keep the principal alive, the health care provider has provided an opportunity for the principal to object to the decision.

2. Notwithstanding a contrary health care decision of the attorney in fact, the health care provider is not subject to criminal prosecution, civil liability, or professional disciplinary action for failing to withhold or withdraw health care necessary to keep the principal alive. However, the attorney in fact may make provisions to transfer the responsibility for the care of the principal to another health care provider.

3. An attorney in fact is not subject to criminal prosecution or civil liability for any health care decision made in good faith pursuant to a durable power of attorney for health care.

4. It shall be presumed that an attorney in fact, and a health care provider acting pursuant to the direction of an attorney in fact, are acting in good faith and in the best interests of the principal absent clear and convincing evidence to the contrary.

5. For purposes of this section, acting in “good faith” means acting consistent with the desires of the principal as expressed in the durable power of attorney for health care or otherwise made known to the attorney in fact, or where those desires are unknown, acting in the best interests of the principal, taking into account the principal’s overall medical condition and prognosis.

Notwithstanding subsection 3, a physician assistant shall not dispense prescription drugs as an incident to the practice of the supervising physician or the physician assistant, but may supply, when pharmacist services are not reasonably available, or when it is in the best interests of the patient, a quantity of properly packaged and labeled prescription drugs, controlled substances, or medical devices necessary to complete a course of therapy. However, a remote clinic, staffed by a physician assistant, where pharmacy services are not reasonably available, shall secure the regular advice and consultation of a pharmacist regarding the distribution, storage, and appropriate use of such drugs, substances, and devices. Prescription drugs supplied under the provisions of this subsection shall be supplied for the purpose of accommodating the patient and shall not be sold for more than the cost of the drug and reasonable over-

If prescription drug supplying authority is delegated by a supervising physician to a physician assistant, a nurse or staff assistant may assist the physician assistant in providing that service. Rules shall be adopted by the board of physician assistant examiners, after consultation with the board of pharmacy examiners, to implement this subsection.

5. Notwithstanding subsection 1 and any other provision of this section to the contrary, a physician may delegate the function of prescribing drugs, controlled substances, and medical devices to a physician assistant licensed pursuant to chapter 148C. When delegated prescribing occurs, the supervising physician's name shall be used, recorded, or otherwise indicated in connection with each individual prescription so that the individual who dispenses or administers the prescription knows under whose delegated authority the physician assistant is prescribing. Rules relating to the authority of physician assistants to prescribe drugs, controlled substances, and medical devices pursuant to this subsection shall be adopted by the board of physician assistant examiners, after consultation with the board of medical examiners and the board of pharmacy examiners, as soon as possible after July 1, 1991. The rules shall be reviewed and approved by the physician assistant rules review group created under subsection 7 and shall be adopted in final form by January 1, 1993. However, the rules shall prohibit the prescribing of schedule II controlled substances which are listed as stimulants or depressants pursuant to chapter 204. If rules are not reviewed and approved by the physician assistant rules review group created under subsection 7 and adopted in final form by January 1, 1993, a physician assistant may prescribe drugs as a delegated act of a supervising physician under rules adopted by the physician assistant board of examiners and subject to the rules review process established in section 148C.7. The board of physician assistant examiners shall be the only board to regulate the practice of physician assistants relating to prescribing and supplying prescription drugs, controlled substances and medical devices, notwithstanding section 148C.6A.

6. Health care providers shall consider the instructions of the physician assistant to be instruc-

tions of the supervising physician if the instructions concern duties delegated to the physician assistant by a supervising physician.

7. A physician assistant rules review group is established consisting of two physician assistants selected by the board of physician assistants, two physicians selected by the board of medical examiners, and one physician currently practicing as a supervising physician of physician assistants selected by the four other members of the rules review group no later than August 1, 1991. The rules review group shall select its own chairperson.

The rules review group shall review and approve or disapprove rules proposed for adoption relating to the authority of physician assistants to supply or prescribe drugs, controlled substances, and medical devices pursuant to subsection 5. Approval shall be by a simple majority of the members of the rules review group. A rule shall not become effective without the approval of the rules review group unless otherwise specified under this section.

8. Notwithstanding subsection 1, a family planning clinic may dispense birth control drugs and devices upon the order of a physician. Subsections 2 and 3 do not apply to a family planning clinic under this subsection.

9. Notwithstanding subsection 1, but subject to the limitations contained in subsections 2 and 3, a registered nurse who is licensed and registered as an advanced registered nurse practitioner and who qualifies for and is registered in a recognized nursing specialty, other than the specialty of nurse anesthetist, may prescribe substances or devices that are not controlled substances or devices, if the nurse is engaged in the practice of a nursing specialty, other than that of nurse anesthetist, for which the use of prescription medications and devices is recognized by the board of medical examiners and the board of nursing and the use of the medications and devices is regulated under rules accepted by the board of medical examiners and adopted by the board of nursing in consultation with the board of pharmacy examiners.

10. Notwithstanding section 147.86, a person, including a pharmacist, who violates this section is guilty of a simple misdemeanor.

163.30 Swine imported or native — pig dealers.

1 This section shall apply to all swine moved interstate and intrastate, except swine moved directly to slaughter or to a livestock market for sale directly to a slaughtering establishment for immediate slaughter

2 When used in this chapter

a "*Dealer*" means any person who is engaged in the business of buying for resale, or selling, or exchanging swine as a principal or agent or who claims to be so engaged, but does not include the owner or operator of a farm who does not claim to be so engaged, and who sells or exchanges only those swine which have been kept by the person solely for feeding or breeding purposes

b "*Separate and apart*" means a manner of holding swine so as not to have physical contact with other swine on the premises

c "*Swine moved*" means any physical relocation of swine to different premises, except that it does not include movement of swine when their ownership does not change, and both their prior and new locations, and the movement between such locations, are within the state of Iowa

3 No person shall act as a dealer without first securing a dealer's license from the department. The fee for a dealer's license shall be five dollars per annum and all licenses shall expire on the first day of July following date of issue. Licenses shall be numbered and the dealer shall retain the number from year to year. To secure a license, the applicant must file with the department a bond in the sum of ten thousand dollars with the secretary named as trustee, for the use and benefit of anyone damaged by a violation of this section, except that the bond shall not be required for dealers who are bonded in the same or a greater amount than required pursuant to the federal Packers and Stockyards Act

Each employee or agent doing business by buying for resale, selling or exchanging feeder swine in the name of a licensed dealer, shall be required to secure a permit and identification card issued by the department showing the person is employed by or represents a licensed dealer. All such permits and identification cards shall be issued upon application forms furnished by the department at a cost of three dollars per annum, and shall expire on the first day of July following the date of issue

A permittee shall not represent more than one dealer. Failure of a licensee or permittee to comply with this chapter or a rule made pursuant to this chapter is cause for revocation by the secretary of the permit or license after notice to the alleged offender and the holding of a hearing by the secretary. Rules shall be made in accordance with chapter 17A. A rule, the violation of which is made the basis for revocation, except temporary emergency rules, shall first have been approved after public hearing as provided in section 17A.4 after giving twenty days' notice of the hearing as follows

By mailing notice, by ordinary mail, to every person filing a request for notice accompanied by an addressed envelope with prepaid postage. Any person may file such a request to be listed with any agency for notice for the time and place for all hearings on proposed rules, which request shall be accompanied by a remittance of five dollars. Such fee shall be added to the operating fund of the department. The listing shall expire semiannually on January 1 and July 1.

4. All swine moved shall be individually identified with a distinctive and easily discernible ear tag affixed in either ear of the animal or other identification acceptable to the department, which has been specified by rule promulgated under the department's rulemaking authority. The department shall make ear tags available at convenient locations within each county and shall sell such tags at a price not exceeding the cost to producers and others to comply with this section.

Every seller, dealer and market operator shall keep a record of the ear tag numbers, or other approved identification, and the farm of origin of swine moved by or through that person, which records shall be made available by that person to any appropriate representative of the department or the United States department of agriculture.

5. All swine moved shall be accompanied by an official health certificate or veterinarian inspection certificate issued by the state of origin and prepared and signed by a veterinarian. The health certificate or veterinarian inspection certificate shall show the point of origin, the point of destination, individual identification, immunization status, and, when required, any movement permit number assigned to the shipment by the department. All such movement of swine shall be completed within seventy-two hours unless an extension of time for movement is granted by the department.

However, swine may be moved intrastate directly to an approved state, federal or auction market without such identification or certification, there to be identified and certificated.

However, registered swine for exhibition or breeding purposes which can be individually identified by an ear notch or tattoo or other method approved by the department are excepted from this identification requirement. In addition, native Iowa swine moved from farm to farm may be excepted from the identification requirement if the seller and purchaser sign a statement providing that feeder pigs will not be commingled for a period of thirty days and such fact is stated on the health certificate.

The department may combine an official health certificate or a veterinarian inspection certificate with a certificate of inspection required under chapter 166D.

6. The department may require issuance of movement permits on certain categories of swine moved, prior to their movement, pursuant to departmental rule. The rule shall be promulgated when in the judgment of the secretary, such movements would otherwise threaten or imperil the eradication of hog cholera in Iowa.

7. All swine moved shall be quarantined separate and apart from other swine located at the Iowa farm of destination for thirty days beginning with their arrival at such premises, or if such incoming swine are not held separate and apart, all swine on such premises shall be thus quarantined, except animals moving from such premises directly to slaughter.

There can only be one transfer by a dealer, involving not more than two markets, prior to quarantine.

8. The use of anti-hog-cholera serum or antibody concentrate shall be in accordance with rules issued by the department.

9. All swine found by a registered veterinarian to have any infectious, contagious, or communicable swine disease after delivery to any livestock sale barn or auction market for resale other than for slaughter, shall be immediately returned to the consignor's premises to be quarantined separate and apart for fifteen days. Such swine may not be moved from such premises for any purpose unless an official health certificate or veterinarian inspection certificate accompanies the movement or unless they are sent to slaughter. This subsection shall in no way supersede the requirements of sections 163A.2 and 163A.3.

However, a person who falsifies a certificate of inspection issued pursuant to chapter 166D shall be subject to a civil penalty as provided in section 166D.16. PERMITS — INSPECTIONS

192.107 Milk or milk products permit.

A person who does not possess a permit issued by the department shall not bring, send, or receive into the state for sale, or sell, offer for sale, or store any milk or milk product as provided in this chapter and in chapters 190 and 191. However, the department may exempt from this requirement grocery stores, restaurants, soda fountains, or similar establishments where milk or a milk product is served or sold at retail, but not processed.

Only a person who complies with the requirements of this chapter and chapters 190 and 191 shall be entitled to receive and retain a permit from the department. Permits shall not be transferable with respect to persons or locations.

The department shall suspend a permit whenever there is reason to believe that a public health hazard exists, whenever the permit holder has violated any of the requirements of this chapter, chapter 190, or chapter 191, or whenever the permit holder has interfered with the department in the performance of its duties. However, where the milk or milk product involved creates, or appears to create, an imminent hazard to the public health, or in any case of a willful refusal to permit authorized inspection, the department shall serve upon the holder a written notice of intent to suspend the permit. The notice shall specify with particularity the violations in question and afford the holder such reasonable opportunity to correct such violations as may be agreed to by the parties, or in the absence of agreement, established by the secretary before making any order of suspension effective. A suspension of permit shall remain in effect until the violation has been corrected to the satisfaction of the department. As used in this section, the terms “public health hazard” and “imminent hazard” shall be defined by rules adopted by the department. The rules shall include examples of public health hazards and imminent hazards.

Upon written application of any person whose permit has been suspended, or upon application within forty-eight hours of any person who has been served with a notice of intention to suspend, and in the latter case before suspension, the department shall within seventy-two hours proceed to a hearing to ascertain the facts of such violation or interference and upon evidence presented at such hearing shall affirm, modify, or rescind the suspension or intention to suspend.

Upon repeated violation, the department may revoke a permit following reasonable notice to the permit holder and an opportunity for a hearing. This section is not intended to preclude the institution of a court action provided in this chapter, chapter 190, or chapter 191.

The provisions of this section are intended for the regulation of the production, processing, labeling, and distribution of grade “A” milk and grade “A” milk products under sanitary requirements which are uniform throughout the state.

The department is responsible for the inspection of a dairy farm, milk plant, transfer station, or receiving station to ensure compliance with this chapter and chapters 190 and 191. Whenever practical, the department shall enter into an inspection contract with a person qualified to perform inspection services if the agreement for the services is cost-effective and the quality of inspection ensures compliance with state and federal law. A person entering into an inspection contract with the department for the purpose of inspecting premises, taking samples, or testing samples, shall be deemed to be an agent of the department, and shall have the same authority under this chapter provided to the department, unless the contract specifies otherwise. The department shall review inspection services performed by a person under an inspection contract to ensure quality cost-effective inspections. If a person is acting in a manner which is inconsistent with the provisions of the applicable chapter or contract, the department may revoke the inspection contract after notice and hearing, in the manner described for permit revocation in section 192.107 and perform such acts as are necessary to enforce this chapter. Except as provided in this chapter or chapter 194, a person shall not charge a milk plant, receiving station, or transfer station a fee for inspection relating to milk or milk products.

198.5 Labeling.

A commercial feed shall be labeled as follows:

1. In case of a commercial feed, except a customer-formula feed, it shall be accompanied by a label bearing the following information:

a. The net weight.

b. The product name and the brand name, if any, under which the commercial feed is distributed.

c. The guaranteed analysis stated in such terms as the secretary by rule determines is required to advise the user of the composition of the feed or to support claims made in the labeling. In all cases the substances or elements must be determinable by laboratory methods such as the methods published by the association of official analytical chemists.

d An ingredient statement containing the common or usual name of each ingredient used in the manufacture of the commercial feed. However, the secretary by rule may permit the use of a collective term for a group of ingredients which perform a similar function, or the secretary may exempt such commercial feeds, or any group of them, from this requirement if the secretary finds that a statement is not required in the interest of consumers.

e The name and principal mailing address of the manufacturer or the person responsible for distributing the commercial feed.

f Adequate directions for use for all commercial feeds containing drugs and for such other feeds as the secretary may require by rule as necessary for their safe and effective use.

g Such precautionary statements as the secretary by rule determines are necessary for the safe and effective use of the commercial feed.

2. In the case of a customer-formula feed, it shall be accompanied by a label, invoice, delivery slip or other shipping document, bearing the following information:

a Name and address of the manufacturer.

b Name and address of the purchaser.

c Date of delivery.

d The product name and brand name, if any, and the net weight of each commercial feed used in the mixture, and the net weight of each other ingredient used.

e Adequate directions for use for all customer-formula feeds containing drugs and for such other feeds as the secretary may require by rule as necessary for their safe and effective use.

f Such precautionary statements as the secretary by rule determines are necessary for the safe and effective use of the customer-formula feed.

198.9 Inspection fees and reports.

1. An inspection fee to be fixed annually by the secretary at a rate of not more than sixteen cents per ton, shall be paid on commercial feed distributed in this state by the person who first distributes the commercial feed, subject to the following:

a The inspection fee is not required on the first distribution, if made to a qualified buyer who, with approval from the secretary, shall become responsible for the fee.

b A fee shall not be paid on a commercial feed if the payment has been made by a previous distributor.

c A fee shall not be paid on customer-formula feeds if the inspection fee is paid on the commercial feeds which are used as components of the customer-formula feeds.

d A minimum semiannual fee shall be twenty dollars.

e A licensed manufacturer shall pay the inspection fee on commercial feed that is fed to livestock owned by the licensee.

In the case of a pet food or specialty pet food, which is distributed in this state in packages of ten pounds or less, each product shall be registered and an annual registration fee of fifty dollars for each product shall be paid by January 1 of each year in lieu of the per ton rate as provided in this subsection. The inspection fee shall apply to those same products distributed in packages of more than ten pounds.

2. Each person who is liable for the payment of such fee shall:

a File, not later than the last day of January and July of each year, a semiannual statement, setting forth the number of net tons of commercial feeds distributed in this state during the preceding six months and upon filing the statement shall pay the inspection fee at the rate stated in subsection 1. Inspection fees which are due and owing and have not been remitted to the secretary within fifteen days following the due date shall have a delinquency fee of ten percent of the amount due or fifty dollars, whichever is greater, added to the amount due when payment is finally made. The assessment of this delinquency fee does not prevent the department from taking other actions as provided in this chapter.

b Keep such records as may be necessary or required by the secretary to indicate accurately the tonnage of commercial feed distributed in this state, and the secretary shall have the right to examine such records to verify statements of tonnage.

Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided in this section is sufficient cause for cancellation of the license of the distributor.

3. Fees collected shall constitute a fund for the payment of the costs of inspection, sampling, analysis, supportive research and other expenses necessary for the administration of this chapter.

If there is an unencumbered balance of funds in the commercial feed fund on June 30 of any fiscal year equal to or exceeding one hundred thousand dollars, the secretary of agriculture shall reduce the per ton fee provided for in subsection 1 for the next fiscal year in such amount as will result in an ending estimated balance for June 30 of the next fiscal year of one hundred thousand dollars.

The secretary shall publish a report not later than September 1 of each year. The report shall provide a detailed accounting of all sources of revenue and all dispositions of funds utilized by the commercial feed trust fund. The report shall detail full-time equivalent positions used in fulfilling the requirements of this chapter. The report shall also indicate to what extent any full-time equivalent positions are shared with other programs. Copies of the report issued by the secretary pursuant to this subsection shall be delivered each year to the members of the house of rep-

representatives and senate standing committees on agriculture.

Notwithstanding the provisions of this subsection directing that fees collected be deposited into the commercial feed fund, for the fiscal period beginning on July 1, 1991, and ending June 30, 1993, all fees collected shall be deposited into the general fund of the state.

The secretary may adopt rules for commercial feeds and pet foods as specifically authorized in this chapter and other reasonable rules necessary in order to carry out the purpose and intent of this chapter or to secure the efficient enforcement of this chapter. In the interest of uniformity the secretary shall by rule adopt, unless the secretary determines that they are inconsistent with this chapter or are not appropriate to conditions which exist in this state, the following:

a. The official definitions of feed ingredients and official feed terms adopted by the Association of American Feed Control Officials and published in the official publication of that organization, and

b. Any rule adopted pursuant to the authority of the federal Food, Drug, and Cosmetic Act, 21 U.S.C. § 301 et seq., provided the secretary has the authority under this chapter to adopt such rules.

2. Before the issuance, amendment, or repeal of a rule authorized by this chapter, the secretary shall publish the proposed rule, amendment, or notice to repeal an existing rule in a manner reasonably calculated to give interested parties, including all current licensees, adequate notice, and shall afford all interested persons an opportunity to be heard, orally or in writing, within a reasonable period of time. After consideration of all views presented by interested persons, the secretary shall take appropriate action to issue the proposed rule or to amend or repeal an existing rule. However, if the secretary, pursuant to this chapter, adopts the official definitions of feed ingredients or official feed terms as adopted by the association of American feed control officials, or regulations promulgated pursuant to the authority of the federal Food, Drug, and Cosmetic Act, any amendment or modification adopted by that association, or by the secretary of health and human services in the case of regulations promulgated pursuant to the federal Food, Drug, and Cosmetic Act, shall be adopted

automatically under this chapter without regard to publication of the notice required by this subsection, unless the secretary by order specifically determines that an amendment or modification shall not be adopted.

Subsection 2 amended

198.12 Detained commercial feeds.

1. When the secretary or the secretary's authorized agent has reasonable cause to believe any lot of commercial feed is being distributed in violation of any of the provisions of this chapter or of any of the rules adopted under this chapter, the secretary or agent may issue and enforce a written or printed "withdrawal from distribution" order, warning the distributor not to dispose of the lot of commercial feed in any manner until written permission is given by the secretary or the court. The secretary shall release the lot of commercial feed so withdrawn when the provisions and rules have been complied with. If compliance is not obtained within thirty days, the secretary may begin, or upon request of the distributor shall begin, proceedings for condemnation.

2. Any lot of commercial feed not in compliance with said provisions and rules shall be subject to seizure on complaint of the secretary to a court of competent jurisdiction in the area in which said commercial feed is located. In the event the court finds the said commercial feed to be in violation of this chapter and order the condemnation of said commercial feed, it shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the state, provided, that in no instance shall the disposition of said commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of said commercial feed or for permission to process or relabel said commercial feed to bring it into compliance with this chapter.

Subsection 1 amended

198.15 Publication.

The secretary shall publish at least annually, in forms the secretary deems proper, information concerning the sales of commercial feeds, together with data on their production and use as the secretary considers advisable, and a report of the results of the analyses of official samples of commercial feeds sold within the state as compared with the analyses guaranteed on the label. However, the information concerning production and use of commercial feed shall not disclose the operations of any person.

b. The name of the pesticide.

c. An ingredient statement in which the accepted common name and percentage by weight of each active ingredient is listed as well as the percentage of inert ingredients in the pesticides. A separate inert ingredient statement containing the common name of each inert ingredient listed in rank order according to weight of each inert ingredient in the pesticide shall also be submitted to the secretary. Except as required by subsection 4, the registrant is not required to state the percentage composition or specific weight of any inert ingredient within a pesticide. The information required by this paragraph shall be submitted in a manner and according to procedures specified by the secretary.

Upon written request by the director of the department of natural resources, the secretary shall provide a copy of the ingredient statement and inert ingredient statement to the department. Upon written request by the director of the center for health effects of environmental contamination, the secretary shall provide a copy of the ingredient statement and inert ingredient statement to the center.

From on and after July 1, 1990, to December 31, 1991, the identity of an inert ingredient in a specific pesticide shall be treated as a confidential trade secret which is not subject to release under chapter 22.

On and after January 1, 1992, the identity of an inert ingredient in a specific pesticide shall be treated as a confidential trade secret if the following two conditions are met: the registrant states, at the time of registration, that the inert ingredient is a confidential trade secret; and the registrant certifies one of the following:

(1) The registrant has provided to any data base system used by a poison control center operating in this state the information required by an attending physician to treat a patient for exposure or adverse reaction to the registrant's product, including the identification of all ingredients which are toxic to humans.

(2) The registrant operates an emergency information system as provided in section 139.35 that is available to poison control centers twenty-four hours a day every day of the year. The emergency information system must provide information to medical professionals required for the sole purpose of treating a specific patient for exposure or adverse reaction to the registrant's product, including the identification of all ingredients which are toxic to humans, and toxicological and medical management information.

Poison control centers may share the information provided by the registrant with an attending physi-

cian for the purpose of treating a specific patient exposed to the registrant's product. The secretary, the director of the department of natural resources, and the director of the center for health effects of environmental contamination shall treat the presence of any inert ingredient in a particular pesticide that meets the two conditions as a confidential trade secret which is not subject to release under chapter 22. This section does not prohibit research or monitoring of any aspect of any inert ingredient. This section does not prohibit the public disclosure of research, monitoring, published or summary data relative to any inert ingredient so long as such disclosure does not link an inert ingredient to a particular brand of pesticide registered in this state.

This section shall not be construed to prohibit the release of information independently obtained from a source other than registrations filed under this chapter which links an inert ingredient to a pesticide registered in this state.

d. A complete copy of the labeling accompanying the pesticide and a statement of all claims made and to be made for it including directions for use.

e. A full description of the tests made and results thereof upon which the claims are based, if requested by the secretary. In the case of renewal or reregistration, a statement may be required only with respect to information which is different from that furnished when the pesticide was registered or last reregistered.

3. The registrant, before selling or offering for sale any pesticide for use in this state, shall register each brand and grade of such pesticide with the secretary upon forms furnished by the secretary, and the secretary shall set the registration fee annually at one-fifth of one percent of gross sales within this state with a minimum fee of two hundred fifty dollars and a maximum fee of three thousand dollars for each and every brand and grade to be offered for sale in this state except as otherwise provided. The annual registration fee for products with gross annual sales in this state of less than one million five hundred thousand dollars shall be the greater of two hundred fifty dollars or one-fifth of one percent of the gross annual sales as established by affidavit of the registrant. The secretary shall adopt by rule exemptions to the minimum fee. Fifty dollars of each fee collected shall be deposited in the treasury to the credit of the pesticide fund to be used only for the purpose of enforcing the provisions of this chapter and the remainder of each fee collected shall be placed in the agriculture management account of the groundwater protection fund.

Notwithstanding the provisions of this subsection directing that fifty dollars of each fee collected be deposited into the pesticide fund, for the fiscal period beginning on July 1, 1991, and ending June 30, 1993, fifty dollars of each fee collected shall be deposited into the general fund of the state.

4. The secretary, whenever the secretary deems it necessary in the administration of this chapter, may require the submission of the complete formula

of any pesticide. If it appears to the secretary that the composition of the article is such as to warrant the proposed claims for it and if the article and its labeling and other material required to be submitted comply with the requirements of this chapter, the secretary shall register the article.

5. If it does not appear to the secretary that the article is such as to warrant the proposed claims for it or if the article and its labeling and other material required to be submitted do not comply with the provisions of this chapter, the secretary shall notify the registrant of the manner in which the article, labeling, or other material required to be submitted fail to comply with this chapter so as to afford the registrant an opportunity to make the necessary corrections.

6. Notwithstanding any other provisions of this chapter, registration is not required in the case of a pesticide shipped from one plant within this state to another plant within this state operated by the same person.

7. a. Each licensee under section 206.8 shall file an annual report at the time of application for licensure with the secretary of agriculture in a form specified by the secretary of agriculture and which includes the following information:

(1) The gross retail sales of all pesticides sold at retail for use in this state by a licensee with one hundred thousand dollars or more in gross retail sales of the pesticides sold for use in this state.

(2) The individual label name and dollar amount of each pesticide sold at retail for which gross retail sales of the individual pesticide are three thousand dollars or more.

b. A person who is subject to the household hazardous materials permit requirements, and whose gross annual retail sales of pesticides are less than ten thousand dollars for each business location

owned or operated by the person, shall report annually, the individual label name of an individual pesticide for which annual gross retail sales are three thousand dollars or more. The information shall be submitted on a form provided to household hazardous materials permittees by the department of natural resources, and the department of natural resources shall remit the forms to the department of agriculture and land stewardship.

c. Notwithstanding the reporting requirements of this section, the secretary of agriculture may, upon recommendation of the advisory committee created pursuant to section 206.23, and if the committee declares a pesticide to be a pesticide of special concern, require the reporting of annual gross retail sales of a pesticide.

d. A person who sells feed which contains a pesticide as an integral part of the feed mixture, shall not be subject to the reporting requirements of this section. However, a person who manufactures feed which contains a pesticide as an integral part of the feed mixture shall be subject to the licensing requirements of section 206.8.

e. The information collected and included in the report required under this section shall remain confidential. Public reporting concerning the information collected shall be performed in a manner which does not identify a specific brand name in the report.

CHAPTER 225B

PREVENTION OF DISABILITIES

Chapter repealed effective June 30, 1996. 91 Acts ch 169 § 9 SF 342.

225B.1 Findings and intent.

1 The general assembly finds that

a Thousands of Iowans are affected by a developmental disability which is a disability that arises before age twenty-two and is of sufficient severity to affect an individual's ability to participate as an independent, productive member of the community. Many other Iowans experience less severe mental or physical disabilities or disabilities which occur in their adult years which require specialized services. Many disabilities are due to conditions that are preventable or could be minimized if recognized or

treated early. Preventing disabilities would result in a substantial savings to the state both in terms of human potential and public funds.

b There is a need for a coordinated and comprehensive prevention of disabilities effort in the state. Many state departments and private organizations are involved in prevention activities but there is no unified prevention strategy or ongoing coordination in the planning, implementation, and evaluation of prevention of disabilities activities in the state.

2 It is the intent of the general assembly to establish a system to coordinate prevention of disabili-

ty activities among the state departments and to assist the governor and the general assembly in determining priorities and establishing policies for the prevention of disabilities.

HOSPITALIZATION OF MENTALLY ILL PERSONS

229.7 Service of notice upon respondent.

Upon the filing of an application for involuntary hospitalization, the clerk shall docket the case and immediately notify a district court judge, district associate judge, or magistrate who is admitted to the practice of law in this state, who shall review the application and accompanying documentation. If the application is adequate as to form, the court may set a time and place for a hearing on the application, if feasible, but the hearing shall not be held less than forty-eight hours after notice to the respondent unless the respondent waives such minimum prior no-

tice requirement. The court shall direct the clerk to send copies of the application and supporting documentation, together with a notice informing the respondent of the procedures required by this chapter, to the sheriff or the sheriff's deputy for immediate service upon the respondent. If the respondent is taken into custody under section 229.11, service of the application, documentation and notice upon the respondent shall be made at the time the respondent is taken into custody.

229.13 Hospitalization for evaluation — unauthorized departure.

If upon completion of the hearing the court finds that the contention that the respondent is seriously mentally impaired has been sustained by clear and convincing evidence, it shall order the respondent placed in a hospital or other suitable facility as expeditiously as possible for a complete psychiatric evaluation and appropriate treatment. The court shall furnish to the hospital or facility at the time the respondent arrives there a written finding of fact setting forth the evidence on which the finding is based. The chief medical officer of the hospital or facility shall report to the court no more than fifteen days after the individual is admitted to the hospital or facility, making a recommendation for disposition of the matter. An extension of time may be granted for not to exceed seven days upon a showing of cause. A copy of the report shall be sent to the respondent's attorney, who may contest the need for an extension of time if one is requested. Extension of time shall be granted upon request unless the request is contested, in which case the court shall make such inquiry as it deems appropriate and may either order the respondent's release from the hospital or facility or grant extension of time for psychiatric evaluation. If the chief medical officer fails to report to the court within fifteen days after the individual is admitted to the hospital or facility, and no extension of time has been requested, the chief medical officer is guilty of contempt and shall be punished under chapter 665. The court shall order a rehearing on the application to determine whether the respondent should continue to be held at the facility.

If, after placement and admission of a respondent in a hospital or other suitable facility, the respondent departs from the hospital or facility without prior proper authorization from the chief medical officer, upon receipt of notification of the respondent's departure by the chief medical officer, a peace officer of the state shall without further order of the court exercise all due diligence to take the respondent into protective custody and return the respondent to the hospital or facility.

NEW unnumbered paragraph 2

229.14 Chief medical officer's report.

The chief medical officer's report to the court on the psychiatric evaluation of the respondent shall be made not later than the expiration of the time specified in section 229.13. At least two copies of the report shall be filed with the clerk, who shall dispose of them in the manner prescribed by section 229.10, subsection 2. The report shall state one of the four following alternative findings:

1. That the respondent does not, as of the date of the report, require further treatment for serious mental impairment. If the report so states, the court shall order the respondent's immediate release from involuntary hospitalization and terminate the proceedings.

2. That the respondent is seriously mentally impaired and in need of full-time custody, care and treatment in a hospital, and is considered likely to benefit from treatment. If the report so states, the court shall enter an order which may require the respondent's continued hospitalization for appropriate treatment.

3. That the respondent is seriously mentally impaired and in need of treatment, but does not require full-time hospitalization. If the report so states it shall include the chief medical officer's recommendation for treatment of the respondent on an outpatient or other appropriate basis, and the court shall enter an order which may direct the respondent to submit to the recommended treatment. The order shall provide that if the respondent fails or refuses to submit to treatment as directed by the court's order, the court may order that the respondent be taken into immediate custody as provided by section 229.11 and, following notice and hearing held in accordance with the procedures of section 229.12, may order the respondent treated as a patient requiring full-time custody, care and treatment in a hospital until such time as the chief medical officer reports that the respondent does not require further treatment for serious mental impairment or has indicated the respondent is willing to submit to treatment on another basis as ordered by the court.

4. The respondent is seriously mentally impaired and in need of full-time custody and care, but is unlikely to benefit from further treatment in a hospital. If the report so states, the chief medical officer shall recommend an alternative placement for the respondent and the court shall enter an order which may direct the respondent's transfer to the recommended placement. A respondent who is an inmate in the custody of the department of corrections may, as a court-ordered alternative placement, receive mental health services in a correctional program. If the court or the respondent's attorney considers the placement inappropriate, an alternative placement may be arranged upon consultation with the chief medical officer and approval of the court.

229.21 Judicial hospitalization referee.

1. The chief judge of each judicial district may appoint at least one judicial hospitalization referee for each county within the district. The judicial hospitalization referee shall be an attorney, licensed to practice law in this state, who shall be chosen with consideration to any training, experience, interest, or combination of those factors, which are pertinent to the duties of the office. The referee shall hold office at the pleasure of the chief judge of the judicial district and receive compensation at a rate fixed by the supreme court. If the referee expects to be absent for any significant length of time, the referee shall inform the chief judge who may appoint a temporary substitute judicial hospitalization referee having the qualifications set forth in this subsection.

2. When an application for involuntary hospitalization under this chapter or an application for involuntary commitment or treatment of chronic substance abusers under sections 125.75 to 125.94 is filed with the clerk of the district court in any county for which a judicial hospitalization referee has been appointed, and no district judge, district associate judge, or magistrate who is admitted to the practice of law in this state is accessible, the clerk shall immediately notify the referee in the manner required by section 229.7 or section 125.77. The referee shall discharge all of the duties imposed upon the court by sections 229.7 to 229.22 or sections 125.75 to 125.94 in the proceeding so initiated. However, any commitment to a facility regulated and operated under chapter 135C, shall be in accordance with section 135C.23.

3. Any respondent with respect to whom the judicial hospitalization referee has found the contention that the respondent is seriously mentally impaired or a chronic substance abuser sustained by clear and convincing evidence presented at a hearing held under section 229.12 or section 125.82, may appeal from the referee's finding to a judge of the district court by giving the clerk notice in writing, within seven days after the referee's finding is made, that an appeal therefrom is taken. The appeal may be signed by the respondent or by the respondent's next friend, guardian or attorney. When so appealed, the matter shall stand for trial *de novo*. Upon appeal, the court shall schedule a hospitalization or commitment hearing before a district judge at the earliest practicable time.

4. If the appellant is in custody under the jurisdiction of the district court at the time of service of the notice of appeal, the appellant shall be discharged from custody unless an order that the appellant be taken into immediate custody has previously been issued under section 229.11 or section 125.81, in which case the appellant shall be detained as provided in that section until the hospitalization or commitment hearing before the district judge. If the appellant is in the custody of a hospital or facility at the time of service of the notice of appeal, the appellant shall be discharged from custody pending disposition of the appeal unless the chief medical officer, not later than the end of the next secular day on which the office of the clerk is open and which follows service of the notice of appeal, files with the clerk a certification that in the chief medical officer's opinion the appellant is seriously mentally ill or a substance abuser. In that case, the appellant shall remain in custody of the hospital or facility until the hospitalization or commitment hearing before the district court.

5. The hospitalization or commitment hearing before the district judge shall be held, and the judge's finding shall be made and an appropriate order entered, as prescribed by sections 229.12 and 229.13 or sections 125.82 and 125.83. If the judge orders the appellant hospitalized or committed for a complete psychiatric or substance abuse evaluation, jurisdic-

tion of the matter shall revert to the judicial hospitalization referee.

229.27 Hospitalization not to equate with incompetency — procedure for finding incompetency due to mental illness.

1. Hospitalization of a person under this chapter, either voluntarily or involuntarily, does not constitute a finding of nor equate with nor raise a presumption of incompetency, nor cause the person so hospitalized to be deemed a person of unsound mind nor a person under legal disability for any purpose including but not limited to any circumstances to which sections 447.7, 472.15, 545.402, subsection 5, paragraph "b", 545.705, 597.6, 614.8, 614.19, 614.22, 614.24, 614.27, 622.6, 633.244, and 675.21 are applicable.

2. The applicant may, in initiating a petition for involuntary hospitalization of a person under section 229.6 or at any subsequent time prior to conclusion of the involuntary hospitalization proceeding, also petition the court for a finding that the person is incompetent by reason of mental illness. The test of competence for the purpose of this section shall be whether the person possesses sufficient mind to understand in a reasonable manner the nature and effect of the act in which the person is engaged; the fact that a person is mentally ill and in need of treatment for that illness but because of the illness lacks sufficient judgment to make responsible decisions with respect to the person's hospitalization or treatment does not necessarily mean that that person is incapable of transacting business on any subject.

3. A hearing limited to the question of the person's competence and conducted in substantially the manner prescribed in sections 633.552 to 633.556 shall be held when:

a. The court is petitioned or proposes upon its own motion to find incompetent by reason of mental illness a person whose involuntary hospitalization has been ordered under section 229.13 or 229.14, and who contends that the person is not incompetent; or

b. A person previously found incompetent by reason of mental illness under subsection 2 petitions the court for a finding that the person is no longer incompetent and, after notice to the applicant who initiated the petition for hospitalization of the person and to any other party as directed by the court, an objection is filed with the court. The court may order a hearing on its own motion before acting on a petition filed under this paragraph. A petition by a person for a finding that the person is no longer incompetent may be filed at any time without regard to whether the person is at that time hospitalized for treatment of mental illness.

4. Upon petitioning the court for a finding that a respondent is incompetent by reason of mental illness, the applicant may also request the court to appoint a conservator for the respondent. The court may appoint a temporary conservator as provided by

section 633.573, or may defer a decision on the appointment of a conservator until a report is received under section 229.13 if the respondent is hospitalized for evaluation pursuant to that section.

5. Nothing in this chapter shall preclude use of any other procedure authorized by law for declaring

any person legally incompetent for reasons which may include mental illness, without regard to whether that person is or has been hospitalized for treatment of mental illness.

SUPPORT OF THE MENTALLY ILL

230.12 Action to determine legal settlement.

1. When a dispute arises between different counties or between the administrator and a county as to the legal settlement of a person admitted or committed to a state hospital for the mentally ill, the attorney general, at the request of the administrator, shall, without the advancement of fees, cause an action to be brought in the district court of any county where such dispute exists, to determine the legal settlement. This action may be brought at any time when it appears that the dispute cannot be amicably settled. All counties which may be the place of the legal settlement, so far as known, shall be made defendants and the allegation of the settlement may be in the alternative. The action shall be tried as in equity.

2. If the action involves a dispute between counties, the county determined to be the county of legal settlement shall reimburse a county for the amount of costs paid by that county on behalf of the person and for interest on this amount in accordance with section 535.3. In addition, the court may order the county determined to be the county of legal settlement to reimburse any other county involved in the dispute for the other county's reasonable legal costs related to the dispute and may tax the reasonable legal costs as court costs. The court may order the county determined to be the county of legal settlement to pay a penalty to the other county, in an amount which does not exceed twenty percent of the total amount of reimbursement and interest.

The petition form shall be furnished by the county commissioner of elections, signed by eligible electors of the county or affiliated counties equal in number to one percent of

the vote cast therein for president of the United States or governor, as the case may be, in the last previous general election, and shall be filed with the county commissioner of elections. 8 An agency, facility, institution, or person to whom custody of the child has been transferred pursuant to this section shall file a written report with the court at least every six months concerning the status and progress of the child The court shall hold a periodic dispositional review hearing for each child in placement pursuant to this section in order to determine whether the child should be returned home, an extension of the placement should be made, a permanency hearing should be held, or a termination of the parent-child relationship proceeding should be instituted The placement shall be terminated and the child returned to the child's home if the court finds by a preponderance of the evidence that the child will not suffer harm in the manner specified in section 232 2, subsection 6 If the placement is extended, the court shall determine whether additional services are necessary to facilitate the return of the child to the child's home, and if the court determines such services are needed, the court shall order the provision of such services When the child is not returned to the child's home and if the child has been previously placed in a licensed foster care facility, the department or agency responsible for the placement of the child shall consider placing the child in the same licensed foster care facility

ment, or other disciplines relative to dependent adults. Members of a team shall include, but are not limited to, persons representing the area agencies on aging, county attorneys, health care providers, and other persons involved in advocating or providing services to dependent adults.

DEPENDENT ADULT ABUSE INFORMATION REGISTRY

235B.4 Legislative findings and purposes.

The general assembly finds and declares that a central registry is required to provide a single source for the statewide collection, maintenance, and dissemination of dependent adult abuse information. Such a registry is imperative for increased effectiveness in dealing with the problem of dependent adult abuse. The general assembly also finds that vigorous protection of rights of individual privacy is an indispensable element of a fair and effective system of collecting, maintaining, and disseminating dependent adult abuse information.

The purposes of this section and sections 235B.5 to 235B.13 are to facilitate the identification of victims or potential victims of dependent adult abuse by making available a single, statewide source of dependent adult abuse data; to facilitate research on dependent adult abuse by making available a single, statewide source of dependent adult abuse data; and to provide maximum safeguards against the unwar-

ranted invasions of privacy which such a registry might otherwise entail.

If a peace officer has reason to believe that domestic abuse has occurred, the peace officer shall ask the abused person if any prior orders exist, and shall contact the twenty-four hour dispatcher to inquire if any prior orders exist. If a peace officer has probable cause to believe that a person has violated an order or approved consent agreement entered under this chapter, a temporary or permanent protective order or order to vacate the homestead under chapter 598, or any order establishing conditions of release or a protective or sentencing order in a criminal prosecution arising from a domestic abuse assault, the peace officer shall take the person into custody and shall take the person without unnecessary delay before the nearest or most accessible magistrate in the judicial district in which the person was taken into custody. If the magistrate finds probable cause, the magistrate shall order the person to appear before the court which issued the original order or approved the consent agreement, whichever was allegedly violated, at a specified time not less than three days nor more than ten days after the initial appearance under this section. The magistrate shall cause the original court to be notified of the contents of the magistrate's order.

236.12 Prevention of further abuse — notification of rights — arrest — liability.

1. If a peace officer has reason to believe that domestic abuse has occurred, the officer shall use all reasonable means to prevent further abuse including but not limited to the following:

a. If requested, remaining on the scene as long as there is a danger to an abused person's physical safety without the presence of a peace officer, including but not limited to staying in the dwelling unit, or if unable to remain on the scene, assisting the person in leaving the residence.

b. Assisting an abused person in obtaining medical treatment necessitated by an assault, including providing assistance to the abused person in obtaining transportation to the emergency room of the nearest hospital.

(1) Keeping your attacker away from you, your home and your place of work.

(2) The right to stay at your home without interference from your attacker.

(3) Getting custody of children and obtaining support for yourself and your minor children if your attacker is legally required to provide such support.

(4) Professional counseling for you, the children who are members of the household, and the defendant.

You have the right to seek help from the court to seek a protective order with or without the assistance of legal representation. You have the right to seek help from the courts without the payment of court costs if you do not have sufficient funds to pay the costs.

You have the right to file criminal charges for threats, assaults, or other related crimes.

You have the right to seek restitution against your attacker for harm to yourself or your property.

If you are in need of medical treatment, you have the right to request that the officer present assist you in obtaining transportation to the nearest hospital or otherwise assist you.

If you believe that police protection is needed for your physical safety, you have the right to request that the officer present remain at the scene until you and other affected parties can leave or until safety is otherwise ensured."

The notice shall also contain the telephone numbers of safe shelters, support groups, or crisis lines operating in the area.

2. a. A peace officer may, with or without a warrant, arrest a person under section 708.2, subsection 4, if, upon investigation, including a reasonable inquiry of the alleged victim and other witnesses, if any, the officer has probable cause to believe that a domestic abuse assault has been committed which did not result in any injury to the alleged victim.

b. Except as otherwise provided in subsection 3, a peace officer shall, with or without a warrant, arrest a person under section 708.2, subsection 2, if, upon investigation, including a reasonable inquiry of the alleged victim and other witnesses, if any, the officer has probable cause to believe that a domestic abuse assault has been committed which resulted in the alleged victim's suffering a bodily injury.

c. Except as otherwise provided in subsection 3, a peace officer shall, with or without a warrant, arrest a person under section 708.2, subsection 1, if, upon investigation, including a reasonable inquiry of the alleged victim and other witnesses, if any, the officer has probable cause to believe that a domestic abuse assault has been committed with the intent to inflict a serious injury.

leged abuser used or displayed a dangerous weapon in connection with the assault.

3. As described in subsection 2, paragraph “b”, “c”, or “d”, the peace officer shall arrest the person whom the peace officer believes to be the primary physical aggressor. The duty of the officer to arrest extends only to those persons involved who are believed to have committed an assault. Persons acting with justification, as defined in section 704.3, are not subject to mandatory arrest. In identifying the primary physical aggressor, a peace officer shall consider the need to protect victims of domestic abuse, the relative degree of injury or fear inflicted on the persons involved, and any history of domestic abuse between the persons involved. A peace officer’s identification of the primary physical aggressor shall not be based on the consent of the victim to any subsequent prosecution or on the relationship of the persons involved in the incident, and shall not be based solely upon the absence of visible indications of injury or impairment.

4. A peace officer is not civilly or criminally liable for actions pursuant to this section taken in good faith.

2. When a person arrested for a domestic abuse assault, or taken into custody for contempt proceedings pursuant to section 236.11, is brought before a magistrate and the magistrate finds probable cause to believe that domestic abuse or a violation of an order or consent agreement has occurred and that the presence of the alleged abuser in the victim’s residence poses a threat to the safety of the alleged victim, persons residing with the alleged victim, or members of the alleged victim’s immediate family, the magistrate shall enter an order which shall require the alleged abuser to have no contact with the alleged victim, persons residing with the alleged victim, or members of the alleged victim’s immediate family, and to refrain from harassing the alleged victim, persons residing with the alleged victim, or members of the alleged victim’s immediate family, in addition to any other conditions of release determined and imposed by the magistrate under section 811.2. If the department determines that a person has committed a crime or has a record of founded child abuse and is licensed, employed by a licensee, or resides in a licensed facility the department shall notify the licensee that an evaluation will be conducted to determine whether prohibition of the person's licensure, employment, or residence is warranted.

237A.2 Licensing of child care centers.

A person shall not establish or operate a child care center without obtaining a license under the provisions of this chapter. A center may operate for a specified period of time, to be established by rule of the department, if application for a license has been made. The department shall issue a license if it determines that the following conditions have been met:

1. An application for a license or a renewal has been filed with the administrator on forms provided by the department.
2. The center is maintained to comply with state health and fire laws.
3. The center is maintained to comply with rules promulgated under section 237A.12.

A person denied a license under the provisions of this section shall receive written notice of the denial stating the reasons for denial and shall be provided with an opportunity for an evidentiary hearing. Licenses granted under this chapter shall be valid for one year from the date of issuance unless revoked or suspended in accordance with the provisions of section 237A.8. A record of the license shall be kept by the department. The license shall be posted in a conspicuous place in the center and shall state the particular premises in which child day care may be offered and the number of individuals who may be received for care at any one time. No greater number of children than is authorized by the license shall be kept in the center at any one time.

The administrator may issue a provisional license for a period of time not to exceed one year if the center does not meet standards required under this section. A provisional license shall be posted in a conspicuous place in the center as provided in this section. If written plans to bring the center up to standards, giving specific dates for completion of work, are submitted to and approved by the department promulgating the regulations, the provisional license shall be renewable.

A program which is not a child care center by reason of the definition of child day care in section 237A.1, subsection 4, but which provides care, supervision, or guidance to a child may be issued a license if the program complies with all the provisions of this chapter.

to this chapter, the person shall not own or operate a child care center for a period of six months from the date the license is denied or revoked. The department shall not act on an application for a license submitted by the applicant or person during the six-month period.

Notwithstanding any requirement established under this chapter, an exception is provided for the period beginning on June 4, 1991, and ending December 31, 1991, in accordance with the provisions of this paragraph, to permit a center to care for one more child than the amount of children authorized for the center. The exception applies to any limit on the number of children and to requirements for numerical ratios of staff persons to children. The exception applies only to a child who meets both of the following circumstances: the child has a parent serving in the United States armed services who is stationed outside the state of Iowa due to the Persian Gulf conflict and there is no charge for the care provided to the child.

237A.3 Registration of family and group day care homes.

1. A person who operates or establishes a family day care home may apply to the department for registration under this chapter. The department shall issue a certificate of registration upon receipt of a statement from the family day care home that the home complies with rules adopted by the department. The registration certificate shall be posted in a conspicuous place in the family day care home, shall state the name of the registrant, the number of individuals who may be received for care at any one time, and the address of the home, and shall include a check list of registration compliances. No greater number of children than is authorized by the certificate shall be kept in the family day care home at any one time. However, a registered or unregistered family day care home may provide care for more than six but less than twelve children at any one time for a period of less than two hours, provided that each child in excess of six children is attending school full-time on a regular basis. In determining the number of children cared for at any one time in a registered or unregistered family day care home, if the person who operates or establishes the home is a child's parent, guardian, relative, or custodian and the child is not attending school full-time on a regular basis or is not receiving child day care full-time on a regular basis from another person, the child shall be considered to be receiving child day care from the person and shall be counted as one of the children cared for in the home. The registration process may be repeated on an annual basis. A child day care provider or program which is not a family day care home by reason of the definition of child day care in section 237A.1, subsection 4, but which provides care, supervision or guidance to a child may be issued a certificate of registration under this chapter.

2. A person shall not operate or establish a group day care home unless the person obtains a certificate of registration under this chapter. In order to be registered, the group day care home shall have at least one responsible individual, age fourteen or older, on duty to assist the group day care home provider when there are more than six children present for more than a two-hour period. All other requirements of this chapter for registered family day care homes and the rules adopted under this chapter for registered family day care homes apply to group day care homes. In addition, the department shall adopt rules relating to the provision in group day care homes for a separate area for sick children. In consultation with the state fire marshal, the department shall adopt rules relating to the provision of fire extinguishers, smoke detectors, and two exits accessible to children.

3. A person who operates or establishes a family day care home or a group day care home and who is a child foster care licensee under chapter 237 shall register with the department under this chapter. For purposes of registration and determination of the maximum number of children who can be provided child day care by the family day care home or group day care home, the children receiving child foster care shall be considered the children of the person operating the family day care home or group day care home.

4. If the department has denied or revoked a registration because the applicant or person has continually or repeatedly failed to operate a registered child day care facility in compliance with this chapter and rules adopted pursuant to this chapter, the person shall not own or operate a registered facility for a period of six months from the date the registration is denied or revoked. The department shall not act on an application for registration submitted by the applicant or person during the six-month period.

5. Notwithstanding any requirement established under this chapter, an exception is provided for the period beginning on June 4, 1991, and ending December 31, 1991, in accordance with the provisions of this subsection, to permit a family day care home or group day care home to care for one more child than the amount of children authorized for the home. The exception applies to any limit on the number of children and to requirements for numerical ratios of staff persons to children. The exception applies only to a child who meets both of the following circumstances: the child has a parent serving in the United States armed services who is stationed outside the state of Iowa due to the Persian Gulf conflict and there is no charge for the care provided to the child.

237A.5 Personnel.

1. All personnel in licensed or registered facilities shall have good health as evidenced by a report following a preemployment physical examination taken within six months prior to beginning employment. The examination shall include communicable disease tests by a licensed physician as defined in section 135C.1 and shall be repeated every three years after initial employment. Controlled medical conditions which would not affect the performance of the employee in the capacity employed shall not prohibit employment.

2. a. If a person is being considered for licensure or registration under this chapter, or for employment involving direct responsibility for a child or with access to a child when the child is alone, by a child day care facility subject to licensure or registration under this chapter, or if a person will reside in a facility, and if the person has been convicted of a crime or has a record of founded child abuse, the department and the licensee or registrant for an employee of the licensee or registrant shall perform an evaluation to determine whether the crime or founded child abuse warrants prohibition of licensure, registration, employment, or residence in the facility. The department shall conduct criminal and child abuse record checks in this state and may conduct these checks in other states. The evaluation shall be performed in accordance with procedures adopted for this purpose by the department.

b. If the department determines that a person has committed a crime or has a record of founded child abuse and is licensed, employed by a licensee or registrant or registered under this chapter, or resides in a licensed or registered facility the department shall notify the licensee or registrant that an evaluation will be conducted to determine whether prohibition of the person's licensure, registration, employment, or residence is warranted.

c. In an evaluation, the department and the licensee or registrant for an employee of the licensee or registrant shall consider the nature and seriousness of the crime or founded child abuse in relation to the position sought or held, the time elapsed since the commission of the crime or founded child abuse, the circumstances under which the crime or founded child abuse was committed, the degree of rehabilitation, the likelihood that the person will commit the crime or founded child abuse again, and the number of crimes or founded child abuses committed by the person involved. The department may permit a person who is evaluated to be licensed, registered, employed, or to reside, or to continue to be licensed, registered, employed, or to reside in a licensed facility, if the person complies with the department's conditions relating to the person's licensure, registration, employment, or residence, which may include completion of additional training. For an employee of a

licensee or registrant, these conditional requirements shall be developed with the licensee or registrant. The department has final authority in determining whether prohibition of the person's licensure, registration, employment, or residence is warranted and in developing any conditional requirements under this paragraph.

d. If the department determines that the person has committed a crime or has a record of founded child abuse which warrants prohibition of licensure, registration, employment, or residence, the person shall not be licensed or registered under this chapter to operate a child day care facility and shall not be employed by a licensee or registrant or reside in a facility licensed or registered under this chapter.

5. Programs for education and in-service training of staff.

7. Administration.

8. Health, safety and medical policies for children.

Rules promulgated by the state fire marshal for buildings used as child care centers as an adjunct to the primary purpose of the building shall take into consideration that children are received for temporary care only and shall not differ from rules promulgated for these buildings when they are used by groups of persons congregating from time to time in

the primary use and occupancy of the buildings. However, the rules may require a fire-rated separation from the remaining portion of the building if the fire marshal determines that the separation is necessary for the protection of children from a specific flammable hazard.

Rules relating to fire safety shall be adopted under this chapter by the state fire marshal in consultation with the department. Rules relating to sanitation shall be adopted by the department in consultation with the director of public health. All rules shall be developed in consultation with the state day care advisory committee. The state fire marshal shall inspect the facilities.

If a school district or accredited nonpublic school building complies with standards adopted by the state fire marshal for school buildings under chapter 100, the building is considered appropriate for use by a child day care facility caring for school age children. The rules adopted by the administrator under this section shall not require the facility to comply with building requirements which differ from requirements for use of the building as a school.

Standards and requirements set by a city or county for a school building used as a child day care facility as an adjunct to the primary purpose of the building shall take into consideration that children are received for temporary care only and shall not differ from standards and requirements set for the primary purpose of the building.

249A.4 Duties of director.

The director shall be responsible for the effective and impartial administration of this chapter and shall, in accordance with the standards and priorities established by this chapter, by applicable federal law, by the regulations and directives issued pursuant to federal law, and by the state plan approved in accordance with federal law, make rules, establish policies, and prescribe procedures to implement this chapter. Without limiting the generality of the foregoing delegation of authority, the director is hereby specifically empowered and directed to:

1. Determine the greatest amount, duration, and scope of assistance which may be provided, and the broadest range of eligible individuals to whom assistance may effectively be provided, under this chapter within the limitations of available funds. In so doing, the director shall at least every six months evaluate the scope of the program currently being provided under this chapter, project the probable cost of continuing a like program, compare such probable cost with the remaining balance of the state appropriation made for payment of assistance under this chapter during the current appropriation period, and expand or curtail the program accordingly; provided that reimbursement for medical and health services shall be made in accordance with subsection 9. After each evaluation of the scope of the program, the director shall report to the general assembly through the legislative council or in another manner as the general assembly may by resolution direct.

2. Have authority to determine, when available funds permit expansion of the program provided under this chapter beyond the minimum scope required by subsection 1 of this section, whether priority shall be given to providing additional medical assistance to the individuals and families described in section 249A.3, subsection 1, or to providing medical

assistance to some or all of the individuals and families described in section 249A.3, subsection 2, unless the general assembly has by law made such determination.

3. Have authority to provide for payment under this chapter of assistance rendered to any applicant prior to the date the application is filed.

4. Have authority to contract with any corporation authorized to engage in this state in insuring groups or individuals for all or part of the cost of medical, hospital, or other health care or with any corporation maintaining and operating a medical, hospital, or health service prepayment plan under the provisions of chapter 514 or with any health maintenance organization authorized to operate in this state, for any or all of the benefits to which any recipients are entitled under this chapter to be provided by such corporation or health maintenance organization on a prepaid individual or group basis.

5. May, to the extent possible, contract with a private organization or organizations whereby such organization will handle the processing of and the payment of claims for services rendered under the provisions of this chapter and under such rules and regulations as shall be promulgated by such department. The state department may give due consideration to the advantages of contracting with any organization which may be serving in Iowa as "intermediary" or "carrier" under Title XVIII of the federal Social Security Act, as amended.

6. Shall co-operate with any agency of the state or federal government in any manner as may be necessary to qualify for federal aid and assistance for medical assistance in conformity with the provisions of chapter 249, this chapter and Titles XVI and XIX of the federal Social Security Act, as amended.

7. Shall provide for the professional freedom of those licensed practitioners who determine the need for or provide medical care and services, and shall provide freedom of choice to recipients to select the provider of care and services, except when the recipient is eligible for participation in a health maintenance organization or prepaid health plan which limits provider selection and which is approved by the department. However, this shall not limit the freedom of choice to recipients to select providers in instances where such provider services are eligible for reimbursement under the medical assistance program but are not provided under the health maintenance organization or under the prepaid health plan, or where the recipient has an already established program of specialized medical care with a particular provider. The department may also restrict the recipient's selection of providers to control the individual recipient's overuse of care and services, provided the department can document this overuse. The department shall promulgate rules for determining the overuse of services, including rights of appeal by the recipient.

8. Shall advise and consult at least semiannually with a council composed of the president, or the president's representative who is a member of the

MEDICAL AND SURGICAL TREATMENT OF INDIGENT PERSONS

255.1 Complaint — determination of medical assistance eligibility.

Any adult resident of the state may file a complaint in the office of the clerk of any juvenile court, charging that any legal resident of Iowa residing in the county where the complaint is filed is pregnant or is suffering from some malady or deformity that can probably be improved or cured or advantageously treated by medical or surgical treatment or hospital care, and that neither such person nor persons legally chargeable with the person's support are able to pay therefor.

255.16 County quotas.

Subject to subsequent qualifications in this section, there shall be treated at the university hospital during each fiscal year a number of committed indigent patients from each county which bears the same relation to the total number of committed indigent patients admitted during the year as the population of the county bears to the total population of the state according to the last preceding official census. This standard applies to indigent patients, the expenses of whose commitment, transportation, care, and treatment are borne by appropriated funds, and does not govern the admission of obstetrical patients under chapter 255A or obstetrical or orthopedic patients under this chapter in accordance with eligibility standards pursuant to section 255A.5. If the number of patients admitted from any county exceeds by more than ten percent the county quota as fixed under the first sentence of this section, the charges and expenses of the care and treatment of the patients in excess of ten percent of the quota shall be paid from the funds of the county at actual cost; but if the number of excess patients from any county does not exceed ten percent, all costs, expenses, and charges incurred in their behalf shall be paid from the appropriation for the support of the hospital. Notwithstanding the quota established for a county under this section, the governor, upon a finding of necessity due to a regional or statewide economic

emergency, may increase a county's quota of the number of committed indigent patients admitted to the university hospital.

The county treasurer shall include the amount transferred in the next remittance of state taxes to the treasurer of state, to accrue to the credit of the university hospital fund.

The state auditor shall certify the total cost of commitment and caring for each indigent patient

under the terms of this statute to the county auditor of such patient's legal residence, and such certificate shall be preserved by the county auditor and shall be a debt due from the patient or the persons legally responsible for the patient's care, maintenance or support; and whenever in the judgment of the board of supervisors the same or any part thereof shall be collectible, the said board may in its own name collect the same and is hereby authorized to institute suits for such purpose; and after deducting the county's share of such cost shall cause the balance to be paid into the state treasury to reimburse the university hospital fund. Transportation shall be provided at no charge to a patient who is certified for medical assistance under chapter 249A, and shall be reimbursed from the university hospital fund.

Should any county fail to pay these bills within sixty days from the date of certificate from the superintendent, the director of revenue and finance shall charge the delinquent county the penalty of one

percent per month on and after sixty days from date of certificate until paid. Such penalties shall be credited to the general fund of the state.

40. Provide educational resources and technical assistance to schools relating to the implementation of the nutritional guidelines for food and beverages sold on public school grounds or on the grounds of nonpublic schools receiving funds under section 283A.10.

41. Develop by September 1, 1990, an application and review process for the identification of quality instructional centers at the community colleges. The process developed shall include but is not limited to the development of criteria for the identification of a quality instructional center as well as for the enhancement of other program offerings in order to upgrade programs to quality instructional center status. Criteria established shall be designed to increase student access to programs, establish high quality occupational and vocational education programs, and to enhance interinstitutional cooperation in program offerings.

42. Explore, in conjunction with the state board of regents, the need for coordination between school districts, area education agencies, regents' institutions, and community colleges for purposes of delivery of courses, use of telecommunications, transportation, and other similar issues. Coordination may include, but is not limited to, coordination of calendars, programs, schedules, or telecommunications emissions. The department shall develop recommendations which shall be submitted in a report to the general assembly by February 15, 1991.

43. Develop by September 1, 1990, an application and review process for approval of administrative and program sharing agreements between two or more community colleges or a community college and an institution of higher education under the board of regents entered into pursuant to section 280A.46.

44. Prepare a plan and a report for ensuring that all Iowa children will be able to satisfy the requirements for high school graduation. The plan and report shall include a statement of the dimensions of the dropout problem in Iowa; a survey of existing programs geared to dropout prevention; a plan for use of competency-based outcome methods and measures; proposals for alternative means for satisfying graduation requirements including alternative high school settings, supervised vocational experiences, education experiences within the correctional system, screening and assessment mechanisms for identifying students who are at risk of dropping out and the development of an individualized education plan for identified students; a requirement that schools provide information to students who drop out of school on options for pursuing education at a later date; the development of basic materials and information for schools to present to students leaving school; a requirement that students notify their school districts of residence when the student discontinues school, including the reasons for leaving school and future plans for career development; a requirement that, unless a student chooses to make the information relating to the student leaving school confidential, schools make the information available to community colleges, area education agencies, and other educational institutions upon request; and recommendations for the establishment of pilot projects for the development of model alternative options education programs; a plan for implementation of any recommended courses of action to attain a zero dropout rate by the year 2000; and other requirements necessary to achieve the goals of this subsection. Alternative means for satisfying graduation requirements which relate to the development of individualized education plans for students who have dropped out of the regular school program shall include, but are not limited to, a tracking component that requires a school district to maintain periodic contact with a student, assistance to a dropout in curing any of the student's academic deficiencies, an assessment of the student's employability skills and plans to improve those skills, and treatment or coun-

seling for a student's social needs. The department shall also prepare a cost estimate associated with implementation of proposals to attain a zero dropout rate, including but not limited to evaluation of existing funding sources and a recommended allocation of the financial burden among federal, state, local, and family resources. The report and plan shall be submitted to the general assembly by January 15, 1993.

Subsection 24 amended
NEW subsection 45

256.11 Educational standards.

The state board shall adopt rules under chapter 17A and a procedure for accrediting all public and nonpublic schools in Iowa offering instruction at any or all levels from the prekindergarten level through grade twelve. The rules of the state board shall require that a multicultural, nonsexist approach is used by schools and school districts. The educational program shall be taught from a multicultural, nonsexist approach. Global perspectives shall be incorporated into all levels of the educational program.

The rules adopted by the state board pursuant to section 256.17, Code Supplement 1987, to establish new standards shall satisfy the requirements of this section to adopt rules to implement the educational program contained in this section.

The educational program shall be as follows:

1. If a school offers a prekindergarten program, the program shall be designed to help children to work and play with others, to express themselves, to learn to use and manage their bodies, and to extend their interests and understanding of the world about them. The prekindergarten program shall relate the role of the family to the child's developing sense of self and perception of others. Planning and carrying out prekindergarten activities designed to encourage cooperative efforts between home and school shall focus on community resources. Except as otherwise provided in this subsection, a prekindergarten teacher shall hold a license certifying that the holder is qualified to teach in prekindergarten. A nonpublic school which offers only a prekindergarten may, but is not required to, seek and obtain accreditation.

If the board of directors of a school district contracts for the operation of a prekindergarten program, the program shall be under the oversight of an appropriately licensed teacher. If the program contracted with was in existence on July 1, 1989, oversight of the program shall be provided by the district. If the program contracted with was not in existence on July 1, 1989, the director of the program shall be a licensed teacher and the director shall provide program oversight. Any director of a program contract-

ed with by a school district under this section who is not a licensed teacher is required to register with the department of education.

2. The kindergarten program shall include experiences designed to develop healthy emotional and social habits and growth in the language arts and communication skills, as well as a capacity for the completion of individual tasks, and protect and increase physical well-being with attention given to experiences relating to the development of life skills and human growth and development. A kindergarten teacher shall be licensed to teach in kindergarten. An accredited nonpublic school must meet the requirements of this subsection only if the nonpublic school offers a kindergarten program.

3. The following areas shall be taught in grades one through six: English-language arts, social studies, mathematics, science, health, human growth and development, physical education, traffic safety, music, and visual art. The health curriculum shall include the characteristics of communicable diseases including acquired immune deficiency syndrome. The state board as part of accreditation standards shall adopt curriculum definitions for implementing the elementary program.

4. The following shall be taught in grades seven and eight: English-language arts; social studies; mathematics; science; health; human growth and development, family, consumer, career, and technology education; physical education; music; and visual art. The health curriculum shall include the characteristics of sexually transmitted diseases and acquired immune deficiency syndrome. The state board as part of accreditation standards shall adopt curriculum definitions for implementing the program in grades seven and eight. However, family, consumer, career, and technology education are not required to be taught in nonpublic schools which do not offer vocational education programs.

5. In grades nine through twelve, a unit of credit consists of a course or equivalent related components or partial units taught throughout the academic year. The minimum program to be offered and taught for grades nine through twelve is:

a. Five units of science including physics and chemistry; the units of physics and chemistry may be taught in alternate years.

b. Five units of the social studies including instruction in voting statutes and procedures, voter registration requirements, the use of paper ballots and voting machines in the election process, and the method of acquiring and casting an absentee ballot.

The county auditor, upon request and at a site chosen by the county auditor, shall make available to schools within the county voting machines or sample ballots that are generally used within the county, at times when these machines or sample ballots are not in use for their recognized purpose.

c. Six units of English-language arts.

d. Four units of a sequential program in mathematics.

e. Two units of general mathematics.

f. Four sequential units of one foreign language other than American sign language. Provision of instruction in American sign language shall be in addition to and not in lieu of provision of instruction in other foreign languages. The department may waive the third and fourth years of the foreign language requirement on an annual basis upon the request of the board of directors of a school district or the authorities in charge of a nonpublic school if the board or authorities are able to prove that a licensed teacher was employed and assigned a schedule that would have allowed students to enroll in a foreign language class, the foreign language class was properly scheduled, students were aware that a foreign language class was scheduled, and no students enrolled in the class.

g. All students physically able shall be required to participate in physical education activities during each semester they are enrolled in school except as otherwise provided in this paragraph. A minimum of one-eighth unit each semester is required. A twelfth grade student who meets the requirements of this paragraph may be excused from the physical education requirement by the principal of the school in which the student is enrolled if the parent or guardian of the student requests in writing that the student be excused from the physical education requirement. A student who wishes to be excused from the physical education requirement must be enrolled in a cooperative or work-study program or other educational program authorized by the school which requires the student to leave the school premises for specified periods of time during the school day or be seeking to be excused in order to enroll in academic courses not otherwise available to the student.

Students in grades nine through eleven may be excused from the physical education requirement in order to enroll in academic courses not otherwise available to the student if the board of directors of the school district in which the school is located, or the authorities in charge of the school, if the school is a nonpublic school, determine that students from the school may be permitted to be excused from the physical education requirement. A student may be excused by the principal of the school in which the student is enrolled, in consultation with the student's counselor, for up to one semester, trimester, or the equivalent of a semester or trimester, per year if the parent or guardian of the student requests in writing that the student be excused from the physical education requirement. The student seeking to be excused from the physical education requirement must, at some time during the period for which the excuse is sought, be a participant in an organized and supervised athletic program which requires at least as much time of participation per week as one-eighth unit of physical education.

The principal of the school shall inform the superintendent of the school district or nonpublic school that the student has been excused. Physical education activities shall emphasize leisure time activities which will benefit the student outside the school environment and after graduation from high school.

h. A minimum of three sequential units in at least four of the following six vocational service areas: agriculture, business or office occupations, health occupations, consumer and family sciences or home economics occupations, industrial technology or trade and industrial education, and marketing education. Instruction shall be competency-based, articulated with postsecondary programs of study, and include field, laboratory, or on-the-job training. Each sequential unit shall include instruction in a minimum set of competencies established by the department of education that relate to the following: new and emerging technologies; job-seeking, job-adaptability, and other employment, self-employment and entrepreneurial skills that reflect current industry standards and labor-market needs; and reinforcement of basic academic skills. The instructional programs shall also comply with the provisions of chapter 258 relating to vocational education. However, this subsection does not apply to nonpublic schools which do not offer vocational education programs.

The department of education shall permit school districts, in meeting the requirements of this section, to use vocational core courses in more than one vocational service area and to use multi-occupational courses to complete a sequence in more than one vocational service area.

i. Three units in the fine arts which shall include at least two of the following: dance, music, theatre, and visual art.

j. One unit of health education which shall include personal health; food and nutrition; environmental health; safety and survival skills; consumer health; family life; human growth and development; substance abuse and nonuse; emotional and social health; health resources; and prevention and control of disease, including sexually transmitted diseases and acquired immune deficiency syndrome.

The state board as part of accreditation standards shall adopt curriculum standards for implementing the program in grades nine through twelve.

6. A pupil is not required to enroll in either physical education or health courses if the pupil's parent or guardian files a written statement with the school principal that the course conflicts with the pupil's religious belief.

7. Programs that meet the needs of each of the following:

a. Pupils requiring special education.

b. Gifted and talented pupils.

c. Programs for at-risk students. Rules adopted by the state board to implement this paragraph shall be based upon the definition of at-risk student developed by the child coordinating council established in section 256A.2 and the department of education, and the state board shall consider the recommendations of the child coordinating council and the department in developing the rules.

8. Upon request of the board of directors of a public school district or the authorities in charge of a nonpublic school, the director may, for a number

of years to be specified by the director, grant the district board or the authorities in charge of the nonpublic school exemption from one or more of the requirements of the educational program specified in subsection 5. The exemption may be renewed. Exemptions shall be granted only if the director deems that the request made is an essential part of a planned innovative curriculum project which the director determines will adequately meet the educational needs and interests of the pupils and be broadly consistent with the intent of the educational program as defined in subsection 5.

The request for exemption shall include all of the following:

- a. Rationale of the project to include supportive research evidence.
- b. Objectives of the project.
- c. Provisions for administration and conduct of the project, including the use of personnel, facilities, time, techniques, and activities.
- d. Plans for evaluation of the project by testing and observational measures of pupil progress in reaching the objectives.
- e. Plans for revisions of the project based on evaluation measures.
- f. Plans for periodic reports to the department.
- g. The estimated cost of the project.

9. a. Effective July 1, 1989, through June 30, 1992, to facilitate the implementation and economical operation of the educational program defined in subsections 4 and 5, each school offering any of grades seven through twelve, except a school which offers grades one through eight as an elementary school, shall meet the media center requirements specified in section 256.11, subsection 9, paragraph "a", Code Supplement 1987.

b. Effective July 1, 1990, unless a waiver has been obtained under section 256.11A, each school or school district shall have a qualified school media specialist who shall meet the licensing standards prescribed by the board of educational examiners and shall be responsible for supervision of the media centers. Each school or school district shall establish a media center, in each attendance center, which shall be accessible to students throughout the school day. However, in determining the requirements for nonpublic schools, the department shall evaluate the schools on a school system basis rather than on an individual school basis.

9A. Each school or school district shall provide an articulated sequential guidance program for grades kindergarten through twelve. Until July 1, 1992, a school or school district may obtain a waiver from meeting the requirements of this subsection pursuant to section 256.11A. The guidance counselor shall meet the licensing standards of the board of educational examiners. However, in determining the requirements for nonpublic schools, the department shall evaluate the schools on a school system basis rather than on an individual school basis.

10. The state board shall establish an accreditation process for school districts and nonpublic

schools seeking accreditation pursuant to this subsection and subsections 11 and 12. As required in section 256.17,* by July 1, 1989, all school districts shall meet standards for accreditation. For the school year commencing July 1, 1989 and school years thereafter, the department of education shall use a two-phase process for the continued accreditation of schools and school districts.

Phase I consists of annual monitoring by the department of education of all accredited schools and school districts for compliance with accreditation standards adopted by the state board of education as provided by section 256.17.* The phase I monitoring requires that accredited school districts and schools annually complete accreditation compliance forms adopted by the state board and file them with the department of education. In addition, employees of the department of education shall complete at least biennial on-site visits to each accredited school and school district to review the educational programs and the information included in the compliance forms.

Phase II requires the use of an accreditation committee, appointed by the director of the department of education, to conduct an on-site visit to an accredited school or school district if any of the following conditions exist:

- a. When either the annual monitoring or the biennial on-site visit of phase I indicates that a school or school district is deficient and fails to be in compliance with accreditation standards.
- b. In response to a petition filed with the director requesting such a committee visitation that is signed by twenty percent or more of the registered voters of a school district.
- c. In response to a petition filed with the director requesting such a committee visitation that is signed by twenty percent or more of the parents or guardians who have children enrolled in the school or school district.
- d. At the direction of the state board of education.

The number and composition of the membership of an accreditation committee shall be determined by the director and may vary due to the specific nature or reason for the visit. In all situations, however, the chairperson and a majority of the committee membership shall be from the instructional and administrative program specialty staff of the department of education. Other members may include instructional and administrative staff from school districts, area education agencies, institutions of higher education, local board members and the general public. An accreditation committee visit to a nonpublic school requires membership on the committee from nonpublic school instructional or administrative staff or board members. A member of a committee shall not have a direct interest in the nonpublic school or school district being visited.

Rules adopted by the state board may include provisions for coordination of the accreditation process under this section with activities of accreditation associations.

Prior to a visit to a school district or nonpublic school, members of the accreditation committee shall have access to all annual accreditation report information filed with the department by that nonpublic school or school district.

After visiting the school district or nonpublic school, the accreditation committee shall determine whether the accreditation standards have been met and shall make a report to the director, together with a recommendation whether the school district or nonpublic school shall remain accredited. The accreditation committee shall report strengths and weaknesses, if any, for each standard and shall advise the school or school district of available resources and technical assistance to further enhance strengths and improve areas of weakness. A school district or nonpublic school shall be provided with the opportunity to respond to the accreditation committee's report.

11. The director shall review the accreditation committee's report, and the response of the school district or nonpublic school, and provide a report and recommendation to the state board along with copies of the accreditation committee's report, the response to the report, and other pertinent information. The state board shall determine whether the school district or nonpublic school shall remain accredited. If the state board determines that a school district or nonpublic school should not remain accredited, the director, in cooperation with the board of directors of the school district, or authorities in charge of the nonpublic school, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the standards, and shall establish a deadline date for completion of the procedures. The plan is subject to approval of the state board.

12. During the period of time specified in the plan for its implementation by a school district or nonpublic school, the school or school district remains accredited. The accreditation committee shall revisit the school district or nonpublic school and shall determine whether the deficiencies in the standards have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies have been corrected. If the deficiencies have not been corrected, the state board shall merge the territory of the school district with one or more contiguous school districts. Division of assets and liabilities of the school district shall be as provided in sections 275.29 through 275.31. Until the merger is completed, the school district shall pay tuition for its resident students to an accredited school district under section 282.24.

13. Notwithstanding subsections 1 through 12 and as an exception to their requirements, a private high school or private combined junior-senior high school operated for the express purpose of teaching a program designed to qualify its graduates for ma-

triculation at accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities shall be placed on a special accredited list of college preparatory schools, which list shall signify accreditation of the school for that express purpose only, if:

a. The school complies with minimum standards established by the Code other than this section, and rules adopted under the Code, applicable to:

- (1) Courses comprising the limited program.
- (2) Health requirements for personnel.
- (3) Plant facilities.

(4) Other environmental factors affecting the programs.

b. At least eighty percent of those graduating from the school within the four most recent calendar years, other than those graduating who are aliens, graduates entering military or alternative civilian service, or graduates deceased or incapacitated before college acceptance, have been accepted by accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities.

c. A school claiming to be a private college preparatory school which fails to comply with the requirement of paragraph "b" of this subsection shall be placed on the special accredited list of college preparatory schools probationally if the school complies with the requirements of paragraph "a" of this subsection, but a probational accreditation shall not continue for more than four successive years.

14. Notwithstanding subsections 1 through 13 and as an exception to their requirements, a nonpublic grade school which is reopening is accredited even if it does not have a complete grade one through grade six program. However, the nonpublic grade school must comply with other minimum standards established by law and administrative rules adopted pursuant to the law and the nonpublic grade school must show progress toward reaching a grade one through grade six program.

A public school corporation desiring to receive grant moneys under the program may submit plans and a proposed budget to the department for approval. The department shall review each plan and its proposed budget and award grants, which may be matching funds grants, for approved plans by July 1 of the calendar year in which the approved plans were submitted. Provision of matching funds from institutional private sources shall be considered by the department in reviewing plans and proposed budgets and awarding grant moneys.

However, for the first school year for which program funds are appropriated, a board of directors of a public school corporation may submit a proposed plan and budget not later than January 1 of that school year and the department shall notify public school corporations by February 15 of that same school year that their plans have been approved or disapproved by the department.

In addition to awarding grants, and if the activity does not violate federal matching funds requirements for an Iowa math and science grant program, the department may expend funds to contract with

a public or private nonprofit education organization, association, or laboratory for the development of models or recommendations with statewide applications to further the goals of this section.

CHAPTER 257

FINANCING SCHOOL PROGRAMS

257.1 State school foundation program — state aid.

1. *Program established.* A state school foundation program is established for the school year commencing July 1, 1991, and succeeding school years.

2. *State school foundation aid — foundation base.* For a budget year, each school district in the state is entitled to receive foundation aid, in an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the combined foundation base per pupil or the combined district cost per pupil, whichever is less. However, if the amount of foundation aid received by a school district under this chapter is less than three hundred dollars per pupil, the district is entitled to receive three hundred dollars per pupil unless the receipt of three hundred dollars per pupil plus the per pupil amount raised by the foundation property tax exceeds the combined district cost per pupil of the district for the budget year. In that case, the district is entitled to receive an amount per pupil equal to the difference between the per pupil amount raised by the foundation property tax for the budget year and the combined district cost per pupil for the budget year.

For the budget year commencing July 1, 1991, and for each succeeding budget year the regular program foundation base per pupil is eighty-three percent of the regular program state cost per pupil, except that the regular program foundation base per pupil for the portion of weighted enrollment that is additional enrollment because of special education is seventy-nine percent of the regular program state cost per pupil. For the budget year commencing July 1, 1991, and for each succeeding budget year the special education support services foundation base is seventy-nine percent of the special education support services state cost per pupil. The combined foundation base is the sum of the regular program foundation base and the special education support services foundation base.

3. *Computations rounded.* In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services, and educational services provided through the area education agencies, the department of management shall round amounts to the nearest whole dollar.

91 Acts, ch 267, §517 HF 479
Subsection 2, unnumbered paragraph 2 amended

1. *“Allowable growth”* means the amount by which state cost per pupil and district cost per pupil will increase from one budget year to the next.

2. *“Base year”* means the school year ending during the calendar year in which a budget is certified.

3. *“Budget adjustment”* means an adjustment to the regular program district cost of a school district for school districts in which the regular program district cost for a year would be less than the regular program district cost for the previous year.

4. *“Budget year”* means the school year beginning during the calendar year in which a budget is certified.

5. *“Combined district cost per pupil”* is an amount determined by adding together the regular program district cost per pupil for a year and the special education support services district cost per pupil for that year as calculated under section 257.10.

6. *“Combined state cost per pupil”* is a per pupil amount determined by adding together the regular program state cost per pupil for a year and the special education support services state cost per pupil for that year as calculated under section 257.9.

7. *“Committee”* means the school budget review committee.

257.2 Definitions.

As used in this chapter:

257.3 Foundation property tax.

1. *Amount of tax.* Except as provided in sub-

section 2, a school district shall cause to be levied each year, for the school general fund, a foundation property tax equal to five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. The county auditor shall spread the foundation levy over all taxable property in the district.

2. *Tax for reorganized and dissolved districts.*

Notwithstanding subsection 1, a reorganized school district shall cause a foundation property tax of four dollars and forty cents per thousand dollars of assessed valuation to be levied on all taxable property which, in the year preceding a reorganization, was within a school district affected by the reorganization as defined in section 275.1, or in the year preceding a dissolution was a part of a school district that dissolved if the dissolution proposal has been approved by the director of the department of education pursuant to section 275.55. In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved must have had a certified enrollment of fewer than six hundred in order for the four-dollar-and-forty-cent levy to apply. In succeeding school years, the foundation property tax levy on that portion shall be increased twenty cents per year until it reaches the rate of five dollars and forty cents per thousand dollars of assessed valuation.

For purposes of this section, a reorganized school district is one which absorbed at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which action to bring about a reorganization or dissolution was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization or dissolution takes effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

The reduced property tax rates of reorganized school districts that met the requirements of section 442.2, Code 1991, prior to July 1, 1991, shall continue to increase as provided in that section until they reach five dollars and forty cents.

3. *Railway corporations.* For purposes of section 257.1, the "amount per pupil of foundation property tax" does not include the tax levied under subsection 1 or 2 on the property of a railway corporation, or on its trustee if the corporation has been declared bankrupt or is in bankruptcy proceedings.

257.4 Additional property tax.

1. *Computation of tax.* A school district shall cause an additional property tax to be levied each year. The rate of the additional property tax levy in

a school district shall be determined by the department of management and shall be calculated to raise the difference between the combined district cost for the budget year and the sum of the products of the regular program foundation base per pupil times the weighted enrollment in the district and the special education support services foundation base per pupil times the special education support services weighted enrollment in the district.

2. *Supplemental aid.* However, if the rate of the additional property tax levy determined under subsection 1 with the application of section 257.15 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under subsection 1 with the application of section 257.15 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for a five-year period. The department of management shall include in the state aid payments made to each reorganized school district under section 256.16 during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the reduction in property tax revenues made under this subsection. For the budget year beginning July 1, 1991, the base year calculation shall be made using chapter 442, Code 1991.

For purposes of this section, a reorganized school district is one in which action to bring about a reorganization was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization will take effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

3. *Application of tax.* No later than May 1 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. A county auditor shall spread the additional property tax levy for each school district in the county over all taxable property in the district.

257.5 Continuation of supplemental aid.

A reorganized school district, as defined in section 257.4, subsection 2, receiving supplemental aid prior to July 1, 1991, under section 442.9A, Code 1991,

shall continue to receive supplemental aid as provided in that section for the five-year period specified in that section.

There is appropriated from the general fund of the state to the department of management for each fiscal year an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 257.16.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid under section 257.36, supplemental aid shall be considered property tax.

257.12 Supplementary weighting and school reorganization.

In determining weighted enrollment under section 257.6, if the board of directors of a school district has approved a contract for sharing under section 442.39, subsection 2 or 4, Code 1991, or section 257.11 and the school district has initiated an action prior to November 30, 1990, to bring about a reorganization, the reorganized school district shall include, for a period of five years following the effective date of the reorganization, additional pupils added by the application of the supplementary weighting plan, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization. However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district. For purposes of this section, a reorganized district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and takes effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

A reorganized school district in which eligible pupils were added under section 442.39A, Code 1991, shall continue to have pupils added, subject to the changes in weighting made under section 257.11, until the expiration of the five-year period provided in section 442.39A, Code 1991.

257.15 Property tax adjustment.

1. *Property tax adjustment for 1991-1992.* For the budget year beginning July 1, 1991, the department of management shall calculate for each district the difference between the sum of the revenues generated by the foundation property tax and the additional property tax in the district calculated under this chapter and the revenues that would have been

generated by the foundation property tax and the additional property tax in that district for that budget year calculated under chapter 442, Code 1989, if chapter 442 were in effect, except that the revenues that would have been generated by the additional property tax levy under chapter 442 shall not include revenues generated for the school improvement program. However in making the calculation of the difference in revenues under this subsection, the department shall not include the revenues generated under section 257.37 and under chapter 442, Code 1989, for funding media and educational services through the area education agencies. If the property tax revenues for a district calculated under this chapter exceed the property tax revenues for that district calculated under chapter 442, Code 1989, the department of management shall reduce the revenues raised by the additional property tax levy in that district under this chapter by that difference and the department of education shall pay property tax adjustment aid to the district equal to that difference from moneys appropriated for property tax adjustment aid.

For purposes of this subsection, in computing the amount of revenues generated by the foundation property tax and the additional property tax under chapter 442, Code 1989, the computation shall be based on a regular program foundation base per pupil of eighty-three percent of the regular program state cost per pupil except that for the portion of weighted enrollment that is additional enrollment because of special education the regular program foundation base per pupil shall be seventy-nine percent of the regular program state cost per pupil. The special education support services foundation base shall be seventy-nine percent of the special education support services state cost per pupil.

2. *Property tax adjustment aid for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the department of education shall pay property tax adjustment aid to a school district equal to the amount paid to the district for the base year less an amount equal to the product of the percent by which the taxable valuation in the district increased, if the taxable valuation increased, from January 1 of the year prior to the base year to January 1 of the base year and the property tax adjustment aid. The department of management shall adjust the rate of the additional property tax accordingly and notify the department of education of the amount of aid to be paid to each district from moneys appropriated for property tax adjustment aid.

3. *Property tax adjustment aid appropriation.* There is appropriated from the general fund of the state to the department of education, for each fiscal year, an amount necessary to pay property tax adjustment aid to school districts under this section. Property tax adjustment aid shall be paid to school districts in the manner provided in section 257.16.

257.16 Appropriations.

There is appropriated each year from the general fund of the state an amount necessary to pay the foundation aid and supplementary aid under section 257.4, subsection 2.

All state aids paid under this chapter, unless otherwise stated, shall be paid in monthly installments beginning on September 15 of a budget year and ending on June 15 of the budget year and the installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state resources. However, the state aid paid to school districts under section 257.13 shall be paid in monthly installments beginning on December 15 and ending on June 15 of a budget year.

All moneys received by a school district from the state under this chapter shall be deposited in the general fund of the school district, and may be used for any school general fund purpose.

257.19 Instructional support funding.

The additional funding for the instructional support program for a budget year is limited to an amount not exceeding ten percent of the total of regular program district cost for the budget year and moneys received under section 257.14 as a budget adjustment for the budget year. Moneys received by a district for the instructional support program are miscellaneous income and may be used for any general fund purpose. However, moneys received by a district for the instructional support program shall not be used as, or in a manner which has the effect of, supplanting funds authorized to be received under sections 257.41, 257.46, 298.2, and 298.4, or to cover any deficiencies in funding for special education instructional services resulting from the application of the special education weighting plan under section 281.9.

Certification of a board's intent to participate for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than March 15 of the base year. Funding for the instructional support program shall be obtained from instructional support state aid and from local funding using either an instructional support property tax or a combination of an instructional support property tax and an instructional support income surtax.

The board of directors shall determine whether the instructional support property tax or the combination of the instructional support property tax and instructional support income surtax shall be used for the local funding. Subject to the limitation specified in section 298.14, if the board elects to use the combination of the instructional support property tax and instructional support income surtax, for each budget year the board shall determine the percent of income surtax that will be imposed, expressed as full percentage points, not to exceed twenty percent.

257.20 Instructional support state aid appropriation.

In order to determine the amount of instructional support state aid and the amount of local funding for the instructional support program for a district, the department of management shall divide the total assessed valuation in the state by the total budget enrollment for the budget year in the state to determine a state assessed valuation per pupil and shall divide the assessed valuation in each district by the district's budget enrollment for the budget year to determine the district assessed valuation per pupil. The department of management shall multiply the ratio of the state's valuation per pupil to the district's valuation per pupil by twenty-five hundredths and subtract that result from one to determine the portion of the instructional support program budget that is local funding. The remaining portion of the budget shall be funded by instructional support state aid.

There is appropriated for each fiscal year from the general fund of the state to the department of education, an amount necessary to pay instructional support state aid as provided in this section. Instructional support state aid shall be paid at the same time and in the same manner as foundation aid is paid under section 257.16.

257.21 Computation of instructional support amount.

The department of management shall establish the amount of instructional support property tax to be levied and the amount of instructional support income surtax to be imposed by a district in accordance with the decision of the board under section 257.19 for each school year for which the instructional support program is authorized. The department of management shall determine these amounts based upon the most recent figures available for the district's valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district's county auditor the amount of instructional support property tax, and to the director of revenue and finance the amount of instructional support income surtax to be imposed if an instructional support income surtax is to be imposed.

The instructional support income surtax shall be imposed on the state individual income tax for the calendar year during which the school's budget year begins, or for a taxpayer's fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the ap-

pliable tax year. As used in this section, "state individual income tax" means the taxes computed under section 422.5, less the credits allowed in sections 422.11A, 422.11B, 422.11C, 422.12, and 422.12B.

257.31 Duties of the committee.

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, information about the amounts of property tax levied by school districts for a cash reserve, and other information the committee deems advisable.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Not later than January 1, 1992, the committee shall adopt recommendations relating to the implementation by school districts and area education agencies of procedures pertaining to the preparation of financial reports in conformity with generally accepted accounting principles and submit those recommendations to the state board of education. The state board shall consider the recommendations and adopt rules under section 256.7 specifying procedures and requiring the school districts and area education agencies to conform to generally accepted accounting principles commencing with the school year beginning July 1, 1996.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for the purposes of this subsection, and such aid shall be miscellaneous income and shall not be included in district cost, or may establish a modified allowable growth for the district by increasing its allowable growth, or both:

a Any unusual increase or decrease in enrollment.

b Unusual natural disasters.

c Unusual initial staffing problems.

d The closing of a nonpublic school, wholly or in part.

e Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.

f Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils.

g Unusual need for a new course or program which will provide substantial benefit to pupils, if the district establishes the need and the amount of necessary increased cost.

h Unusual need for additional funds for special education or compensatory education programs.

i Year-round or substantially year-round attendance programs which apply toward graduation requirements, including but not limited to trimester or four-quarter programs. Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance.

j Unusual need to continue providing a program or other special assistance to non-English speaking pupils after the expiration of the three-year period specified in section 280.4.

k Circumstances caused by unusual demographic characteristics.

l Any unique problems of school districts.

6 The committee shall establish a modified allowable growth for a district by increasing its allowable growth when the district submits evidence that it requires additional funding for removal, management, or abatement of environmental hazards due to a state or federal requirement. Environmental hazards shall include but are not limited to the presence of asbestos, radon, or the presence of any other hazardous material dangerous to health and safety.

The district shall include a budget for the actual cost of the project that may include the costs of inspection, reinspection, sampling, analysis, assessment, response actions, operations and maintenance, training, periodic surveillance, developing of management plans, recordkeeping requirements, and encapsulation or removal of the hazardous material.

7. The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for either of the following purposes:

a Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or the tax levy provided in section 298.2.

b The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275, if the costs are incurred within three years of the dissolution or reorganization.

Other expenditures, including but not limited to

expenditures for salaries or recurring costs, are not authorized under this subsection. Expenditures authorized under this subsection shall not be included in allowable growth or district cost, and the portion of the unexpended cash balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance.

8. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

9. When the committee makes a decision under subsections 3 through 8, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the department of education.

10. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year pursuant to section 281.9, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 281.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

In determining the balance of funds of a school district under this subsection, the committee shall subtract the amount of any reduction in state aid

that occurred as a result of a reduction in allotments made by the governor under section 8.31.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeds the amount of state aid that remains to be paid to the district, the school district shall pay the excess on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that came from local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee for each fiscal year an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in all districts that has a positive balance determined under paragraph "a" for the base year, or the state aid portion of all of the positive balances determined under paragraph "a" for the base year, whichever is less, to be used for supplemental aid payments to school districts. Except as otherwise provided in this lettered paragraph, supplemental aid paid to a district is equal to the state aid portion of the district's negative balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this lettered paragraph.

A school district is only eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will notify the school budget review committee to instruct the director of the department of management to increase the district's allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid under this subsection. The director of the department of management shall

make the necessary adjustments to the school district's budget to provide the additional allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments under this subsection, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for the cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 257.4 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

16. The committee shall perform the duties assigned to it under chapter 286A and section 257.32.

257.37 Funding media and educational services.

Media services and educational services provided through the area education agencies shall be funded, to the extent provided, by an addition to the combined district cost of each school district, determined as follows:

1. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for media services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for media services in the base year, including the cost for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs "a", "b", and "c", shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the department of management shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the allowable growth for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for media services cost in the budget year equals the area media services cost per pupil in the base year plus the allowable growth for media services in the budget year times the enrollment served in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

2. Thirty percent of the budget of an area for media services shall be expended for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1. Funds shall be paid to area education agencies as provided in section 257.35.

3. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for educational services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the department of management shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the allowable growth for educational services by multiplying the state educational services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the allowable growth for educational services in the budget year times the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

4. "Enrollment served" means the basic enrollment plus the number of nonpublic school pupils served with media services or educational services, as applicable, except that if a nonpublic school pupil or a pupil attending another district under a whole-grade sharing agreement or open enrollment receives services through an area other than the area of the pupil's residence, the pupil shall be deemed to be served by the area of the pupil's residence, which shall by contractual arrangement reimburse the area through which the pupil actually receives services. Each school district shall include in the third Friday in September enrollment report the number of nonpublic school pupils within each school district for media and educational services served by the area.

5. If an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for media services times the difference between the enrollment served and the basic enrollment recorded for the area. The educational services budget shall be reduced by an amount equal to the product of the cost

per pupil in basic enrollment for the budget year for educational services times the difference between the enrollment served and the basic enrollment recorded for the area.

This subsection applies only to media and educational services which cannot be diverted for religious purposes.

Notwithstanding this subsection, an area educa-

tion agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to public schools as determined by the director of the department of education.

3. Program volunteers shall receive monthly stipends equivalent to full-time employment at a rate which is at least equal to the minimum wage stated in section 91D.1, subsection 1, paragraph "a", for each month of work completed under the program. The employer shall also contribute one hundred dollars per month to the education trust fund created pursuant to section 261.90. 4. Upon completion of the service, the volunteer shall receive vouchers entitling the volunteer to educational benefits. Each voucher shall have a value equal to the cost of the volunteer's attendance for one academic semester at an eligible higher education institution. The volunteers shall be available to work at least forty hours per week without regard to regular working hours and at all times during their periods of work, except for authorized periods of leave. The work assignments shall not be made to replace regular employees or for participation in religious or political activities.

6. The public or nonprofit entity to which an individual is assigned shall supervise and direct that individual in the same manner as other employees and shall pay for all necessary work materials, supplies, and transportation costs. 279.51 Programs for at-risk children.

1. There is appropriated from the general fund of the state to the department of education for the fiscal year beginning July 1, 1990, the sum of eight million seven hundred thousand dollars. For the fiscal year beginning July 1, 1991, and each succeeding fiscal year, there is appropriated the sum of eleven million two hundred thousand dollars plus an additional amount equal to the state percent of growth as calculated in section 257.8 multiplied by the amount appropriated the previous fiscal year.

The moneys shall be allocated as follows:

a. Two hundred seventy-five thousand dollars of the funds appropriated shall be allocated to the area education agencies to assist school districts in developing program plans and budgets under this section and to assist school districts in meeting other responsibilities in early childhood education.

b. For the fiscal year beginning July 1, 1990, four million six hundred twenty-five thousand dollars, and for each fiscal year thereafter, six million one hundred twenty-five thousand dollars of the funds appropriated shall be allocated to the child development coordinating council established in chapter 256A for the purposes set out in subsection 2 of this section and section 256A.3.

c. For each of the fiscal years during the fiscal period beginning July 1, 1990, and ending June 30, 1994, eight hundred thousand dollars of the funds appropriated shall be allocated for the school-based youth services education program established in subsection 3. Subject to the approval of the state board of education, the allocation made in this paragraph may be renewed for additional four-year periods of time.

d. For the fiscal year beginning July 1, 1990, three million dollars, and for each fiscal year thereafter, four million dollars of the funds appropriated shall be allocated as grants to school districts that have elementary schools that demonstrate the greatest need for programs for at-risk students with preference given to innovative programs for the early elementary school years. The grant allocations made in this paragraph may be renewed for additional periods of time. Of the amount allocated under this paragraph for each fiscal year, seventy-five thousand dollars shall be allocated to school districts which have an actual student population of ten thousand or less and have an actual non-English speaking student population which represents greater than five percent of the total actual student population for grants to elementary schools in those districts.

e. Additional funds available under this subsection as a result of additional growth provided to the appropriation in subsection 1 shall be distributed equally between paragraphs "b" and "d".

f. Not later than January 15, 1991, the department of education shall submit a report to the general assembly listing the moneys allocated under each of the paragraphs of this section and anticipated funding needed for the remainder of the fiscal year for each of those paragraphs. If the moneys appropriated under this section are insufficient to fund the grants under paragraphs "b" and "d", the department of education shall certify that information in the report and it is the intent of the general assembly that moneys shall be appropriated for the fiscal year beginning July 1, 1990, to supplement the appropriation in this section in an amount sufficient to fund grants under paragraphs "b" and "d", but not greater than two million five hundred thousand dollars.

Notwithstanding section 256A.3, subsection 6, of the amount appropriated for the fiscal year beginning July 1, 1990, less the amount allocated under paragraph "a", three and thirty-three hundredths percent may be used for administrative costs.

In succeeding fiscal years, notwithstanding section 256A.3, subsection 6, of the amount appropriated for a fiscal year, less the amount allocated under paragraph "a", three and thirty-three hundredths percent may be used for administrative costs. However, if the amount appropriated for the fiscal year, less the amount allocated under paragraph "a", times three and thirty-three hundredths percent is greater than the amount received for use for administrative costs during the fiscal year beginning July 1, 1990, then the amount to be used for administrative costs shall be reduced to equal the amount received during the fiscal year beginning July 1, 1990.

2. Funds allocated under subsection 1, paragraph "b", shall be used by the child development coordinating council for the following:

a. To continue funding for programs previously funded by grants awarded under section 256A.3 and to provide additional grants under section 256A.3. The council shall seek to provide grants on the basis of the location within the state of children meeting at-risk definitions.

b. At the discretion of the child development coordinating council, award grants for the following:

(1) To school districts to establish programs for three-year, four-year, and five-year old at-risk children which are a combination of preschool and full-day kindergarten.

(2) To provide grants to provide educational support services to parents of at-risk children age birth through three years.

3. A school-based youth services education program is established. The department of education, in consultation with the department of human services, the department of employment services, the Iowa department of public health, and the division of job training and entrepreneurship assistance of the department of economic development, shall develop a four-year demonstration grant program that commences in the fiscal year beginning July 1, 1990. The department shall provide grants to individual middle schools or high schools to establish school-based

youth services programs based upon program plans filed by the board of directors of the school district. Priority shall be given to schools with student populations characterized by high rates of a number of the following: school dropout and absenteeism; teenage pregnancy; juvenile court involvement; unemployment; teenage suicide; and teenage mental health, substance abuse, and other health problems. The department shall evaluate proposed programs based upon the department's analysis of effectiveness in reducing these rates within the schools.

Additional objectives of the programs shall be: to increase the ability of existing agencies within the community to address the multiple problems of teenagers and to coordinate their activities, to provide an accessible and attractive center for teenagers in or near school that they are most likely to use, and to facilitate joint planning to make the most economic and innovative use of community resources. Programs shall at a minimum provide job training and employment services, mental health and family counseling services, and primary health care services that include but are not limited to physical examinations, immunizations, hearing and vision screening, and preventive and primary health care services, in the context of the educational needs of the students. Programs shall not include abortion counseling or the dispensing of contraceptives. The department shall give additional consideration to program proposals that provide access to the center after school, in the evening and on weekends, and during the summer; that provide a twenty-four hour telephone hotline or similar service; and that provide access to day care or on-site day care.

The plan shall include the appointment by the board of a local advisory board for each proposed program, which at a minimum shall include a representative of the private industry council serving the area, parents of children enrolled in the school, a teacher recommended by the local teachers association, a representative from the health and mental health community in the area, teenagers enrolled in the school and recommended by the school student government, a representative from the nonprofit provider community, and a representative from the juvenile court system serving the area. Management of the program shall be by the school or by a nonprofit youth service organization. As used in this subsection, "youth service" means recreational services, employment services, civic services, or juvenile treatment services.

Program proposals shall include a written commitment from the school principal and the board of directors that the school will work to coordinate and integrate existing school services and activities with the center and shall include letters of support for the proposal from the local teachers association; parent-teacher organizations; community organizations; nonprofit agencies providing social services, health, or employment services in the area; and the area private industry council.

Grants for the program shall not be used to con-

struct a new facility, but up to ten percent of the grant may be used to renovate an existing structure. In addition, up to ten percent of the grant funds may be used to provide each of the following service categories: day care, transportation, and recreation.

Program proposals shall include a contribution of at least twenty percent of the total costs of the program, which can include “*in-kind*” services. Partnerships between the public and private sectors to provide employment and training opportunities for youth served by the program are particularly encouraged. The budget for a proposed program shall not exceed two hundred thousand dollars per year.

4. The department shall seek assistance from the first in the nation in education foundation established in chapter 257A and other foundations and public and private agencies in the evaluation of the programs funded under this section, and in the provision of support to school districts in developing and implementing the programs funded under this section.

5. The state board of education shall adopt rules under chapter 17A for the administration of this section.

Section amended

280.3 Duties of board.

The board of directors of each public school district and the authorities in charge of each nonpublic school shall prescribe the minimum educational program and an attendance policy which shall require each child to attend school for at least one hundred forty-eight days, to be met by attendance for at least thirty-seven days each school quarter, for the schools under their jurisdictions. The minimum educational program shall be the curriculum set forth in section 256.11, except as otherwise provided by law. The board of directors of a public school district shall not allow discrimination in any educational program on the basis of race, color, creed, sex, marital status or place of national origin.

A nonpublic school which is unable to meet the minimum educational program may request an exemption from the state board of education. The authorities in charge of the nonpublic school shall file with the director of the department of education the names and locations of all schools desiring to be exempted and the names, ages, and post office addresses of all pupils of compulsory school age who are enrolled. The director, subject to the approval of the state board, may exempt the nonpublic school from compliance with the minimum educational program for two school years. When the exemption has once been granted, renewal of the exemption for each succeeding school year may be conditioned by the director, with the approval of the board, upon proof of achievement in the basic skills of arithmetic, the communicative arts of reading, writing, grammar, and spelling, and an understanding of United States history, history of Iowa, and the principles of American government, of the pupils of compulsory school age exempted in the preceding year. Proof of achievement shall be determined on the basis of tests or other means of evaluation prescribed by the director of the department of education with the approval of the state board of education. The testing or evaluation, if required, shall be accomplished prior to sub-

mission of the request for renewal of the exemption. Renewal requests shall be filed with the director by April 15 of the school year preceding the school year for which the applicants desire exemption. This section shall not apply to schools eligible for exemption under section 299.24.

The board of directors of each public school district and the authorities in charge of each nonpublic school shall establish and maintain attendance centers based upon the needs of the school age pupils enrolled in the school district or nonpublic school. Public school kindergarten programs shall and public and nonpublic school prekindergarten programs may be provided. In addition, the board of directors or governing authority may include in the educational program of any school such additional courses, subjects, or activities which it deems fit the needs of the pupils.

91 Acts, ch 200, §2 HF 455
Unnumbered paragraph 1 amended

280.4 Medium of instruction — special instruction.

The medium of instruction in all secular subjects taught in both public and nonpublic schools shall be the English language, except when the use of a foreign language is deemed appropriate in the teaching of any subject or when the student is non-English-speaking. When the student is non-English-speaking, both public and nonpublic schools shall provide special instruction, which shall include but need not be limited to either instruction in the English language or a transitional bilingual program, until the student demonstrates a functional ability to speak, write, read and understand the English language. As used in this section, “non-English-speaking student” means a student whose native language is not English and whose inability or limited ability to speak, write or read English significantly impedes educational progress. As used in this section, “foreign language” means spoken and written languages other than the English language, and includes American sign language.

1. The board of directors of a school district may submit an application to the school budget review committee for funds provided by 1982 Iowa Acts, chapter 1260, section 47, for instruction in the English language, a transitional bilingual, or other special instruction program when support for the program from other federal, state or local sources is not

available or is inadequate. The department of education shall review all applications for funding and provide recommendations to the school budget review committee regarding their disposition. The school budget review committee shall not grant funds to a public school for instruction in the English language, a transitional bilingual or other special instruction program unless the program offered by the public school is available to nonpublic school students in the district.

2. The department of education shall promulgate rules relating to the identification of non-English-speaking students who require special instruction under this section and to application procedures for funds available under this section.

3. Grants made to a school pursuant to this section shall not exceed four hundred dollars for each student in the program. A public school may receive funds for nonpublic school students attending the program offered by the public school. However, the amount granted for each nonpublic school student in a program shall not exceed the amount granted for each public school student in the program.

4. In order to provide funds for the excess costs of instruction of non-English-speaking students above the costs of instruction of pupils in a regular curriculum, students identified as non-English-speaking are assigned an additional weighting that shall be included in the weighted enrollment of the school district of residence for a period not exceeding three years. However, the school budget review committee may grant supplemental aid or modified allowable growth, to a school district to continue funding a program for students after the expiration of the three-year period. The school budget review committee shall calculate the additional amount for the weighting to the nearest one-hundredth of one so that, to the extent possible, the moneys generated by the weighting will be equivalent to the moneys generated by the two-tenths weighting provided prior to July 1, 1991.

91 Acts, ch 193, §2 SF 23
Unnumbered paragraph 1 amended

280.15 Joint employment and sharing.

1. Two or more public school districts may jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment and facilities. Classes made available to students in the manner provided in this section shall be considered as complying with the re-

quirements of section 275.1 relating to the maintenance of kindergarten and twelve grades by a school district. If students attend classes in another school district under this section under an agreement that provides for whole grade sharing, the boards of directors of districts entering into these agreements shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. Sharing agreements shall provide that any person who is not an employee at the time an agreement is signed shall not be employed in any professional position, under the terms of the agreement, for which a current employee of any of the districts involved in the agreement holds an appropriate license, unless the professional position is an administrator position or the professional position is first offered to the current employee.

2. When a special education personnel pooling agreement, which has been entered into between an area education agency and a public school district pursuant to section 273.5, is terminated, the public school district shall assume the contractual obligations for any teachers assigned to the district under the agreement. Teachers, for whom the contractual obligations are assumed by a district, shall be given credit for completion of any probationary status under section 279.19, be placed on the salary schedule and retain all leaves, benefits, and seniority rights accumulated as if the teacher had been originally employed under the agreement which exists between the public school district and the district's collective bargaining unit, consistent with the teacher's education and experience.

A teacher who is employed under a pooling agreement and assigned to special education facilities that are separate from and not part of local school district facilities shall, if the teacher's employment terminates upon termination of the pooling agreement, be offered any teaching position that is similar to the position previously held by the teacher under the pooling agreement, which is vacant in any of the local school districts which participated in the pooling agreement, provided that the teacher possesses the appropriate license for the position. Teachers employed by a local school district under this paragraph shall have the same rights, privileges, and protection as teachers whose contractual obligations are assumed by a district to which the teacher previously had been assigned under a special education personnel pooling agreement.

A motor vehicle purchased by or used under the direction of the board of directors to provide services to a merged area shall not, on or after January 1, 1993, operate on gasoline other than gasoline blended with at least ten percent ethanol. NEW section

280A.23 Authority of directors.

The board of directors of each community college shall:

1. Determine the curriculum to be offered in such school or college subject to approval of the state board and ensure that all vocational offerings are competency-based, provide any minimum competencies required by the department of education, comply with any applicable requirements in chapter 258, and are articulated with local school district vocational education programs. If an existing private educational or vocational institution within the merged area has facilities and curriculum of adequate size and quality which would duplicate the functions of the area school, the board of directors shall discuss with the institution the possibility of entering into contracts to have the existing institution offer facilities and curriculum to students of the merged area. The board of directors shall consider any proposals submitted by the private institution for providing such facilities and curriculum. The board of directors may enter into such contracts. In approving curriculum, the state board shall ascertain that all courses and programs submitted for approval are needed and that the curriculum being offered by an area school does not duplicate programs provided by existing public or private facilities in the area. In determining whether duplication would actually exist, the state board shall consider the needs of the area and consider whether the proposed programs are competitive as to size, quality, tuition, purposes, and area coverage with existing public and private educational or vocational institutions within the merged area. If the board of directors of the merged area chooses not to enter into contracts with private institutions under this subsection, the board shall submit a list of reasons why contracts to avoid

duplication were not entered into and an economic impact statement relating to the board's decision.

2. Have authority to determine tuition rates for instruction. Tuition for residents of Iowa shall not exceed the lowest tuition rate per semester, or the equivalent, charged by an institution of higher education under the state board of regents for a full-time resident student. However, except for students enrolled under chapter 261C, if a local school district pays tuition for a resident pupil of high school age, the limitation on tuition for residents of Iowa shall not apply, the amount of tuition shall be determined by the board of directors of the community college with the consent of the local school board, and the pupil shall not be included in the full-time equivalent enrollment of the community college for the purpose of computing general aid to the community college. Tuition for nonresidents of Iowa shall not be less than the marginal cost of instruction of a student attending the college. A lower tuition for nonresidents may be permitted under a reciprocal tuition agreement between a merged area and an educational institution in another state, if the agreement is approved by the state board. The board may designate that a portion of the tuition moneys collected from students be used for student aid purposes.

3. Have the powers and duties with respect to community colleges, not otherwise provided in this chapter, which are prescribed for boards of directors of local school districts by chapter 279 except that the board of directors is not required to prohibit the use of tobacco and the use or possession of alcoholic liquor or beer by any student of legal age under the provisions of section 279.9.

4. Have the power to enter into contracts and take other necessary action to insure a sufficient curriculum and efficient operation and management of the college and maintain and protect the physical plant, equipment, and other property of the college.

5. Establish policy and make rules, not inconsistent with law and administrative rules, regulations, and policies of the state board, for its own government and that of the administrative, teaching, and other personnel, and the students of the college, and aid in the enforcement of such laws, rules, and regulations.

6. Have authority to sell a student-constructed building and the property on which the student-constructed building is located or any article resulting from any vocational program or course offered at

a community college by any procedure which may be adopted by the board. Governmental agencies and governmental subdivisions of the state within the merged areas shall be given preference in the purchase of such articles. All revenue received from the sale of any article shall be credited to the funds of the board of the merged area.

7. With the consent of the inventor, and in the discretion of the board, secure letters patent or copyright on inventions of students, instructors, and officials of any community college of the merged area, or take assignment of such letters patent or copyright and make all necessary expenditures in regard thereto. Letters patent or copyright on inventions when so secured shall be the property of the board of the merged area and the royalties and earnings thereon shall be credited to the funds of the board.

8. Set the salary of the area superintendent. In setting the salary, the board shall consider the salaries of administrators of educational institutions in the merged area and the enrollment of the community college.

9. At the request of an employee through contractual agreement the board may arrange for the purchase of group or individual annuity contracts for any of its employees from any company the employee chooses that is authorized to do business in this state and through an Iowa-licensed insurance agent that the employee selects, for retirement or other purposes, and may make payroll deductions in accordance with the arrangements for the purpose of paying the entire premium due and to become due under the contract. The deductions shall be made in the manner which will qualify the annuity premiums for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. The employee's rights under the annuity contract are non-forfeitable except for the failure to pay premiums. If an existing tax-sheltered annuity contract is to be replaced by a new contract the agent or representative of the company shall submit a letter of intent by registered mail to the company being replaced, to the insurance commissioner of the state of Iowa, and to the agent's or representative's own company at least thirty days prior to any action. This letter of intent shall contain the policy number and description of the contract being replaced and a description of the replacement contract.

10. Make necessary rules to provide for the policing, control, and regulation of traffic and parking of vehicles and bicycles on the property of the community college. The rules may provide for the use of institutional roads, driveways, and grounds; registration of vehicles and bicycles; the designation of parking areas; the erection and maintenance of signs designating prohibitions or restrictions; the installation and maintenance of parking control devices except parking meters; and assessment, enforcement, and collection of reasonable penalties for the violation of the rules.
