2. If it appears that an amount of tax, penalty, or interest has been paid which was not due under division II, III or V of this chapter, then that amount shall be credited against any tax due on the books of the department by the person who made the excessive payment, or that amount shall be refunded to the person or with the person's approval, credited to tax to become due. A claim for refund or credit that has not been filed with the department within three years after the return upon which a refund or credit claimed became due, or within one year after the payment of the tax upon which a refund or credit is claimed was made, whichever time is the later, shall not be allowed by the director. If, as a result of a carryback of a net operating loss or a net capital loss, the amount of tax in a prior period is reduced and an overpayment results, the claim for refund or credit of the overpayment shall be filed with the department within the three years after the return for the taxable year of the net operating loss or net capital loss became due. Notwithstanding the period of limitation specified, the taxpayer shall have six months from the day of final disposition of any income tax matter between the taxpayer and the internal revenue service with respect to the particular tax year to claim an income tax refund or credit, provided the taxpayer has notified the department in writing no later than six months after the expiration of the three-year limitations period of the existence of this income tax matter.

3. A credit, action or claim for refund arising or existing from a carryback of a net operating loss or net capital loss from tax years ending on or before December 31, 1978 is not allowed, unless the action or claim was received by the department prior to July 1, 1984. This subsection prevails over any other statutes authorizing income tax refunds or claims.

4. Notwithstanding subsection 2, a claim for credit or refund of the income tax paid is considered timely if the claim is filed with the department on or before June 30, 1986, if the taxpayer's federal income tax was forgiven under section 692(c) of the Internal Revenue Code of 1954 because the taxpayer died after November 17, 1978 as a result of wounds or in-

jury incurred due to military or terroristic action outside the United States. To the extent the federal income tax was forgiven under section 692(c) of the Internal Revenue Code of 1954 for the tax year, the Iowa income tax is also forgiven.

5. Notwithstanding subsection 2, a claim for credit or refund of the income tax paid for a tax year beginning in the 1983 calendar year is considered timely if the claim is filed with the department on or before April 30, 1988, if the taxpayer's federal income tax was forgiven under section 692 of the Internal Revenue Code of 1986 because the taxpayer died, or was missing in action and determined dead, while serving in a combat zone. To the extent the federal income tax was forgiven under section 692 of the Internal Revenue Code of 1986 for the tax year, the Iowa income tax is also forgiven.

6. Notwithstanding subsection 2, a claim for credit or refund of the state alternative minimum tax paid for any tax year beginning on or after January 1, 1982, and before January 1, 1984, is considered timely if the claim is filed with the department on or before April 30, 1988, if the taxpayer's capital gains preference items for purposes of the federal individual alternative minimum tax were reduced as a result of section 13208 of the Consolidated Omnibus Budget Reconciliation Act of 1985 as amended by section 1896 of the Tax Reform Act of 1986.

7. Notwithstanding subsection 2, a claim for credit or refund of the income tax paid is considered timely if the claim is filed with the department on or before November 10, 1989, if the taxpayer's federal income tax was forgiven under section 170(m) of the Internal Revenue Code because eighty percent of the taxpayer's payment to a college or university was allowed as a charitable contribution since the payment entitled the taxpayer to purchase tickets to an athletic event of the college or university. To the extent the federal income tax was forgiven for the tax year under section 170(m) of the Internal Revenue Code, the Iowa income tax is also forgiven.

422.85 Imposition of estimated tax.

A taxpayer subject to the tax imposed by sections 422.33 and 422.60 shall make payments of estimated tax for the taxable year if the amount of tax payable, less credits, can reasonably be expected to be more than one thousand dollars for the taxable year. For purposes of this division, *"estimated tax"* means the amount which the taxpayer estimates to be the tax due and payable under division III or V of this chapter for the taxable year.

422.86 Payment of estimated tax.

A taxpayer required to pay estimated tax under section 422.85 shall pay the estimated tax in accordance with the following schedule:

1. If it is first determined that the estimated tax will be greater than one thousand dollars on or before the last day of the fourth month of the taxable year, the estimated tax shall be paid in four equal installments. The first installment shall be paid not later than the last day of the fourth month of the taxable year. The second and third installments shall be paid not later than the last day of the sixth and ninth months of the taxable year, and the final installment shall be paid on or before the last day of the taxable year.

2. If it is first determined that the estimated tax will be greater than one thousand dollars after the last day of the fourth month but not later than the last day of the sixth month of the taxable year, the estimated tax shall be paid in three equal installments. The first installment shall be paid not later than the last day of the sixth month of the taxable year. The second installment shall be paid on or before the last day of the ninth month of the taxable year and the third installment shall be paid on or before the last day of the taxable year.

The first installment shall be paid not later than the last day of the ninth month and the second installment shall be paid on or before the last day of the taxable year.

4. If it is first determined that the estimated tax will be greater than one thousand dollars after the last day of the ninth month of the taxable year, the estimated tax shall be paid in full on or before the last day of the taxable year.

5. If, after paying any installment of estimated tax, the taxpayer makes a new estimate, the remaining installments shall be ratably adjusted to reflect the increase or decrease in the estimated tax.

422.88 Failure to pay estimated tax.

1. If the taxpayer submits an underpayment of the estimated tax, the taxpayer is subject to an underpayment penalty at the rate established under section 421.7 upon the amount of the underpayment for the period of the underpayment.

2. The amount of the underpayment shall be the excess of the amount of the installment which would be required to be paid if the estimated tax was equal to eighty percent of the tax shown on the return of the taxpayer for the taxable year over any amount of installments paid on or before the date prescribed for payment.

3. If the taxpayer did not file a return during the taxable year, the amount of the underpayment shall be equal to eighty percent of the taxpayer's tax liability for the taxable year over any amount of installments paid on or before the date prescribed for payment.

4. The period of the underpayment shall run from the date the installment was required to be paid to the last day of the fourth month following the close of the taxable year or the date on which such portion is paid, whichever date first occurs.

5. A payment of estimated tax on any installment date shall be considered a payment of any previous underpayment only to the extent such payment exceeds the amount of the installment determined under subsection 2 or 3 of this section for such installment date.

422.89 Exception to penalty.

The penalty for underpayment of any installment of estimated tax imposed under section 422.88 shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of such installment equals or exceeds the amount which would have been required to be paid on or before such date if the estimated tax amount at least to one of the following:

1. The tax shown on the return of the taxpayer for the preceding taxable year, if a return showing a liability for tax was filed by the taxpayer for the preceding taxable year and such preceding year was a taxable year of twelve months.

2. An amount equal to the tax computed at the rates applicable to the taxable year but otherwise on the basis of the facts shown on the return of the taxpayer for, and the law applicable to, the preceding taxable year.

3. An amount equal to eighty percent of the tax for the taxable year computed by placing on an annualized basis the taxable income:

a. For the first three months of the taxable year if an installment is required to be paid in the fourth month;

b. For the first three months or for the first five months of the taxable year if an installment is required to be paid in the sixth month;

c. For the first six months or for the first eight months of the taxable year if an installment is required to be paid in the ninth month; and

d. For the first nine months or for the first eleven months of the taxable year if an installment is required to be paid in the twelfth month of the taxable year.

The taxable income shall be placed on an annualized basis by multiplying the taxable income as determined under this subsection by twelve and dividing the resulting amount by the number of months in the taxable year (three, five, six, eight, nine, or eleven months, as the case may be) referred to in this subsection.

[C79, 81, §422.89]

422.90 Penalty not subject to waiver.

The penalty imposed under section 422.88 for underpayment of the estimated tax shall not be subject to the waiver provisions relating to reasonable cause.

[C79, 81, §422.90]

422.91 Credit for estimated tax.

Any amount of estimated tax paid is a credit against the amount of tax due on a final, completed return, and any overpayment of five dollars or more shall be refunded to the taxpayer with interest, the interest to begin to accrue on the first day of the second calendar month following the date of payment or the date the return was due to be filed or was filed, whichever is the latest, at the rate established under section 421.7, and the return constitutes a claim for refund for this purpose. Amounts less than five dollars shall be refunded to the taxpayer only upon written application in accordance with section 422.73, and only if the application is filed within twelve months after the due date for the return.

In lieu of claiming a refund, the taxpayer may elect to have the overpayment shown on its final, completed return for the taxable year credited to the tax liability for the following taxable year.

DIVISION IX

FUEL TAX CREDIT

422.110 Income tax credit in lieu of refund.
In lieu of the fuel tax refund provided in sections 324.17 to 324.19, a person or corporation subject to taxation under divisions II or III of this chapter, except persons or corporations licensed under section 324.4 or 324.36, may elect to receive an income tax credit for tax years beginning on or after January 1, 1975. The person or corporation which elects to receive an income tax credit shall cancel its refund permit obtained under section 324.18 within thirty days after the first day of its tax year or the permit becomes invalid at that time. For the purposes of this section, *"person"* includes a person claiming a tax credit based upon the person's pro rata share of the earnings from a partnership or corporation which is not subject to a tax under division II or III of this chapter as a partnership or corporation. If the election to receive an income tax credit has been made, it remains effective for at least one tax year, and for subsequent tax years unless a change is requested and a new refund permit applied for within thirty days after the first day of the person's or corporation's tax year. The income tax credit shall be the amount of the Iowa fuel tax paid on fuel purchased by the person or corporation and used as follows:

1. Motor fuel as defined in section 324.2, subsection 1, used for the purpose of operating or propelling farm tractors, corn shellers, roller mills, truck-mounted feed grinders, stationary engines, for producing denatured alcohol within the state, for cleaning or dyeing, or for any purpose other than in watercraft or aircraft or in motor vehicles operated or intended to be operated upon the public highways.
2. Special fuel as defined in section 324.33, subsection 1, used for the purpose of operation of corn shellers, roller mills and feed grinders mounted on trucks.
3. Motor fuel placed in motor vehicles and used, other than on public highways, in the extraction and processing of natural deposits.
4. Motor fuel or special fuel used by a bona fide

commercial fisher, licensed and operating under an owner's certificate for commercial fishing gear issued pursuant to section 109B.4.

However, no credit shall be given with respect to motor fuel taken out of the state in fuel supply tanks of motor vehicles, motor fuel used in aircraft or watercraft, or motor fuel used in the performance of a contract which is paid out of state funds unless the contract for the work contains a certificate made under penalty for false certificate that the estimate, bid or price to be paid for the work includes no amount representing motor fuel tax subject to a credit. The right to a credit under this section is not assignable and the credit may be claimed only by the person or corporation that purchased the fuel.

422.111 Fuel tax credit as income tax credit.

The fuel tax credit may be applied against the income tax liability of the person or corporation as determined on the tax return filed for the year in which the fuel tax was paid. The department shall provide forms for claiming the fuel tax credit. If the fuel tax credit would result in an overpayment of income tax, the person or corporation may apply for a refund of the amount of overpayment or may have the overpayment credited to income tax due in subsequent years. Each person or corporation that claims a fuel tax credit shall maintain the original invoices showing the purchase of the fuel on which a credit is claimed. No invoice is acceptable in support of a claim for credit unless it is a separate serially numbered invoice covering no more than one purchase of motor fuel or special fuel, prepared by the seller on a form approved by the department, nor unless it is legibly written with no corrections or erasures and shows the date of sale, the name and address of the seller and of the purchaser, the kind of fuel, the gallonage in figures, the per gallon price of the fuel, the total purchase price including the Iowa fuel tax, and that the total purchase price has been paid. However, as to refund invoices made on a billing machine the department may waive these requirements. If an original invoice is lost or destroyed, the department may approve a credit supported by a copy identified and certified by the seller as being a true copy of the original. Each person or corporation that claims a fuel tax credit shall maintain complete records of purchases of motor fuel or special fuel on which Iowa fuel tax was paid, and for which a fuel tax credit is claimed.

In order to verify the validity of a claim for credit the department shall have the right to require the claimant to furnish such additional proof of validity as the department may determine and to examine the books and records of the claimant. Failure of the claimant to furnish the books and records for examination shall constitute a waiver of rights to claim a credit related to that taxpayer's year and the department may disallow the entire credit claimed by the taxpayer for that year.

If in verifying the validity of a claim for a refund of fuel taxes through an income tax credit under this section for tax years beginning on or after January 1, 1975 and ending on or before December 31, 1976, the department discovers that all requirements of the law with respect to a refund of fuel taxes through an income tax credit have been complied with except for the provision of section 422.110 requiring cancellation of the refund permit, the department may allow the income tax credit.

422.112 Aircraft fuel tax transfer.

The department shall certify quarterly to the treasurer of state the amount of credit that has been taken against income tax liability since the time of the last certification, for the Iowa fuel tax paid on motor fuel, special fuel and motor fuel used for the purpose of operating aircraft, and the treasurer of state shall transfer the amount of the total credit from the motor fuel tax fund, or in the case of aircraft motor fuel, from the separate fund established by section 324.82, to the general fund of the state.

CHAPTER 422A

HOTEL AND MOTEL TAX

1986 tax amnesty program; intent not to conduct another prior to January 1, 2000; 86 Acts, ch 1007, § 1-4, 43

422A.1 Hotel and motel tax.
422A.2 Local transient guest tax fund.

422A.1 Hotel and motel tax.

A city or county may impose by ordinance of the city council or by resolution of the board of supervisors a hotel and motel tax, at a rate not to exceed seven percent, which shall be imposed in increments of one or more full percentage points upon the gross receipts from the renting of sleeping rooms, apartments, or sleeping quarters in a hotel, motel, inn, public lodging house, rooming house, mobile home which is tangible personal property, or tourist court, or in any place where sleeping accommodations are furnished to transient guests for rent, whether with or without meals; except the gross receipts from the renting of sleeping rooms in dormitories and in memorial unions at all universities and colleges located in the state of Iowa and the guests of a religious institution if the property is exempt under section 427.1, subsection 9, and the purpose of renting is to provide a place for a religious retreat or function and not a place for transient guests generally. The tax when imposed by a city shall apply only within the corporate boundaries of that city and when imposed by a county shall apply only outside incorporated areas within that county. *"Renting"* and *"rent"* include any kind of direct or indirect charge for such sleeping rooms, apartments, or sleeping quarters, or their use. However, the tax does not apply to the gross receipts from the renting of a sleeping room, apartment, or sleeping quarters while rented by the same person for a period of more than thirty-one consecutive days.

A local hotel and motel tax shall be imposed on January 1, April 1, July 1, or October 1, following the notification of the director of revenue and finance. Once imposed, the tax shall remain in effect at the rate imposed for a minimum of one year. A local hotel and motel tax shall terminate only on March 31, June 30, September 30, or December 31. At least forty-five days prior to the tax being effective or prior to a revision in the tax rate, or prior to the repeal of the tax, a city or county shall provide notice by mail of such action to the director of revenue and finance.

A city or county shall impose a hotel and motel tax or increase the tax rate, only after an election at which a majority of those voting on the question favors imposition or increase. However, a hotel and motel tax shall not be repealed or reduced in rate if obligations are outstanding which are payable as provided in section 422A.2, unless funds sufficient to pay the principal, interest, and premium, if any, on the outstanding obligations at and prior to maturity have been properly set aside and pledged for that purpose. The election shall be held at the time of that city's or county's general election or at the time of a special election.

The director of revenue and finance shall administer a local hotel and motel tax as nearly as possible in conjunction with the administration of the state sales tax law. The director shall provide appropriate forms, or provide on the regular state tax forms, for reporting local hotel and motel tax liability. All moneys received or refunded one hundred eighty days after the date on which a city or county terminates its local hotel and motel tax shall be deposited in or withdrawn from the state general fund.

The director, in consultation with local officials, shall collect and account for a local hotel and motel tax and shall credit all revenues to a "local transient guest tax fund" established by section 422A.2.

No tax permit other than the state tax permit required under section 422.53 may be required by local authorities.

The tax levied shall be in addition to any state sales tax imposed under section 422.43. Sections 422.25, subsection 4, 422.30, 422.48 to 422.52, 422.54 to 422.58, 422.67, 422.68, 422.69, subsection 1, and 422.70 to 422.75, consistent with the provisions of this chapter, apply with respect to the taxes authorized under this chapter, in the same manner and with the same effect as if the hotel and motel taxes were retail sales taxes within the meaning of those statutes. Notwithstanding this paragraph, the director shall provide for quarterly filing of returns as prescribed in section 422.51 and for other than quarterly filing of returns as prescribed in section 422.51, subsection 2. The director may require all persons, as defined in section 422.42, who are engaged in the business of deriving gross receipts subject to tax under this chapter, to register with the department.

422A.2 Local transient guest tax fund.

1. There is created in the office of the treasurer of state a local transient guest tax fund which shall consist of all moneys credited to such fund under section 422A.1.

2. All moneys in the local transient guest tax fund shall be remitted at least quarterly by the treasurer of state, pursuant to rules of the director of revenue and finance, to each city in the amount collected from businesses in that city and to each county in the amount collected from businesses in the unincorporated areas of the county.

3. Moneys received by the city from this fund shall be credited to the general fund of the city, subject to the provisions of subsection 4.

4. The revenue derived from any hotel and motel tax authorized by this chapter shall be used as follows:

a. Each county or city which levies the tax shall spend at least fifty percent of the revenues derived therefrom for the acquisition of sites for, or constructing, improving, enlarging, equipping, repairing, operating, or maintaining of recreation, convention, cultural, or entertainment facilities including but not limited to memorial buildings, halls and monuments, civic center convention buildings, auditoriums, coliseums, and parking areas or facilities located at those recreation, convention, cultural, or entertainment facilities or the payment of principal and interest, when due, on bonds or other evidence of indebtedness issued by the county or city for those recreation, convention, cultural, or entertainment facilities; or for the promotion and encouragement of tourist and convention business in the city or county and surrounding areas.

b. The remaining revenues may be spent by the city or county which levies the tax for any city or county operations authorized by law as a proper purpose for the expenditure within statutory limitations of city or county revenues derived from ad valorem taxes.

c. Any city or county which levies and collects the hotel and motel tax authorized by this chapter may pledge irrevocably an amount of the revenues derived therefrom for each of the years the bonds remain outstanding to the payment of bonds which the city or county may issue for one or more of the purposes set forth in paragraph *"a"* of this subsection. Any revenue pledged to the payment of such bonds may be credited to the spending requirement of paragraph *"a"* of this subsection.

d. The provisions of division III of chapter 384 relating to the issuance of corporate purpose bonds apply to the issuance by a city of bonds payable as provided in this section and the provisions of chapter 331, division IV, part 3, relating to the issuance of county purpose bonds apply to the issuance by a county of bonds payable as provided in this section. The provisions of chapter 76 apply to the bonds payable as provided in this section except that the mandatory levy to be assessed pursuant to section 76.2 shall be at a rate to generate an amount which together with the receipts from the pledged portion of the hotel and motel tax is sufficient to pay the interest and principal on the bonds. All amounts collected as a result of the levy assessed pursuant to section 76.2 and paid out in the first instance for bond principal and interest shall be repaid to the city or county which levied the tax from the first available hotel and motel tax collections received in excess of the requirement for the payment of the principal and interest of the bonds and when repaid shall be applied in reduction of property taxes.

The amount of bonds which may be issued under section 76.3 shall be the amount which could be retired from the actual collections of the hotel and motel tax for the last four calendar quarters, as certified by the director of revenue and finance. The amount of tax revenues pledged jointly by other cities or counties may be considered for the purpose of determining the amount of bonds which may be issued. If the hotel and motel tax has been in effect for less than four calendar quarters, the tax collected within the shorter period may be adjusted to project the collections for the full year for the purpose of determining the amount of the bonds which may be issued.

e. A city or county, jointly with one or more other cities or counties as provided in chapter 28E, may pledge irrevocably any amount derived from the revenues of the hotel and motel tax to the support or payment of bonds issued for a project within the purposes set forth in paragraph *"a"* of this subsection and located within one or more of the participatory cities or counties or may apply the proceeds of its bonds to the support of any such project. Revenue so pledged or applied shall be credited to the spending requirement of paragraph *"a"* of this subsection.

f. If at any time before the date fixed for taking action for the issuance of the bonds, a petition signed by three percent of the qualified electors of the city or unincorporated area, asking that the question of issuing the bonds be submitted to the qualified electors of the city or unincorporated area, the council or board of supervisors acting on behalf of an unincorporated area shall either by resolution declare the proposal to issue the bonds to have been abandoned or shall direct the county commissioner of elections to call a special election upon the question of issuing the bonds.

422B.11 Construction contractor refunds.

422B.1 Authorization — election — imposition and repeal.

1. A county may impose by ordinance of the board of supervisors local option taxes authorized by this chapter, subject to this section.

2. A local option tax shall be imposed only after an election at which a majority of those voting on the question favors imposition and shall then be imposed until repealed as provided in subsection 5, paragraph *"a"*. If the tax is a local vehicle tax imposed by a county, it shall apply to all incorporated and unincorporated areas of the county. If the tax is a local sales and services tax imposed by a county, it shall only apply to those incorporated areas and the unincorporated area of that county in which a majority of those voting in the area on the tax favors its imposition. For purposes of the local sales and services tax, all cities contiguous to each other shall be treated as part of one incorporated area and the tax would be imposed in each of those contiguous cities only if the majority of those voting in the total area covered by the contiguous cities favors its imposition. For purposes of the local sales and services tax, a city is not contiguous to another city if the only road access between the two cities is through another state.

3. *a.* A county board of supervisors shall direct within thirty days the county commissioner of elections to submit the question of imposition of a local vehicle tax or a local sales and services tax to the qualified electors of the incorporated and unincorporated areas of the county upon receipt of a petition, requesting imposition of a local vehicle tax or a local sales and services tax, signed by eligible electors of the whole county equal in number to five percent of the persons in the whole county who voted at the last preceding state general election. In the case of a local vehicle tax, the petition requesting imposition shall specify the rate of tax and the classes, if any, that are to be exempt. If more than one valid petition is received, the earliest received petition shall be used.

b. The question of the imposition of a local sales and services tax shall be submitted to the qualified electors of the incorporated and unincorporated areas of the county upon receipt by the county commissioner of elections of the motion or motions, requesting such submission, adopted by the governing body or bodies of the city or cities located within the county or of the county, for the unincorporated areas of the county, representing at least one half of the population of the county. Upon adoption of such motion, the governing body of the city or county, for the unincorporated areas, shall submit the motion to the county commissioner of elections and in the case of the governing body of the city shall notify the board of supervisors of the adoption of the motion. The county commissioner of elections shall keep a file on all the motions received and, upon reaching the population requirements, shall publish notice of the ballot proposition concerning the imposition of the local sales and services tax. A motion ceases to be valid at the time of the holding of the regular election

for the election of members of the governing body which adopted the motion. The county commissioner of elections shall eliminate from the file any motion that ceases to be valid. The manner provided under this paragraph for the submission of the question of imposition of a local sales and services tax is an alternative to the manner provided in paragraph *"a"*.

4. The county commissioner of elections shall submit the question of imposition of a local option tax at a state general election or at a special election held at any time other than the time of a city regular election. The election shall not be held sooner than sixty days after publication of notice of the ballot proposition. The ballot proposition shall specify the type and rate of tax and in the case of a vehicle tax the classes that will be exempt and in the case of a local sales and services tax the date it will be imposed. The ballot proposition shall also specify the approximate amount of local option tax revenues that will be used for property tax relief and shall contain a statement as to the specific purpose or purposes for which the revenues shall otherwise be expended. If the county board of supervisors decides under subsection 5 to specify a date on which the local option sales and services tax shall automatically be repealed, the date of the repeal shall also be specified on the ballot. The rate of the vehicle tax shall be in increments of one dollar per vehicle as set by the petition seeking to impose the tax. The rate of a local sales and services tax shall not be more than one percent as set by the governing body. The state commissioner of elections shall establish by rule the form for the ballot proposition which form shall be uniform throughout the state.

5. *a.* If a majority of those voting on the question of imposition of a local option tax favor imposition of a local option tax, the governing body of that county shall impose the tax at the rate specified for an unlimited period. However, in the case of a local sales and services tax, the county shall not impose the tax in any incorporated area or the unincorporated area if the majority of those voting on the tax in that area did not favor its imposition. For purposes of the local sales and services tax, all cities contiguous to each other shall be treated as part of one incorporated area and the tax shall be imposed in each of those contiguous cities only if the majority of those voting on the tax in the total area covered by the contiguous cities favored its imposition. The local option tax may be repealed or the rate increased or decreased after an election at which a majority of those voting on the question of repeal or rate change favored the repeal or rate change. The election at which the question of repeal or rate change is offered shall be called and held in the same manner and under the same conditions as provided in subsections 3 and 4 for the election on the imposition of the local option tax. However, in the case of a local sales and services tax where the tax has not been imposed countywide, the question of repeal or imposition shall be voted on only by the qualified electors of the areas of the county where the tax has been imposed or has not been imposed, as appropriate.

When submitting the question of the imposition of a local sales and services tax, the county board of supervisors may direct that the question contain a provision for the repeal, without election, of the local sales and services tax on a specific date, which date shall be the end of a calendar quarter.

b. Within ten days of the election at which a majority of those voting on the question favors the imposition, repeal, or change in the rate of a local option tax, the governing body shall give written notice to the director of revenue and finance or, in the case of a local vehicle tax, to the director of the department of transportation, of the result of the election.

6. More than one of the authorized local option taxes may be submitted at a single election and the different taxes shall be separately implemented as provided in this section.

7. Local option taxes authorized to be imposed as provided in this chapter are a local sales and services tax and a local vehicle tax. The rate of the tax shall be in increments of one dollar per vehicle for a vehicle tax as set on the petition seeking to impose the vehicle tax. The rate of a local sales and services tax shall not be more than one percent as set by the governing body.

8. In a county that has imposed a local option sales and services tax, the board of supervisors shall, notwithstanding any contrary provision of this chapter, repeal the local option sales and services tax in the unincorporated areas or in an incorporated city area in which the tax has been imposed upon adoption of its own motion for repeal in the unincorporated areas or upon receipt of a motion adopted by the governing body of that incorporated city area requesting repeal. The board of supervisors shall repeal the local option sales and services tax effective at the end of the calendar quarter during which it adopted the repeal motion or the motion for the repeal was received. For purposes of this subsection, incorporated city area includes an incorporated city which is contiguous to another incorporated city.

An annual local vehicle tax at the rate per vehicle specified on the ballot proposition may be imposed by a county on every vehicle which is required to be registered by the state and is registered with the county treasurer to a person residing within the county where the tax is imposed at the time of the renewal of the registration of the vehicle. The local vehicle tax shall be imposed only on the renewals of registrations and shall be payable during the registration renewal periods provided under section 321.40.

The county imposing the tax shall provide for the exemption of each class, if any, of vehicles for which an exemption was listed on the ballot proposition.

For the purpose of the tax authorized by this section, "person" and "registration year" mean the same as defined in section 321.1, and "vehicle" means motor vehicle as defined in section 321.1 which is subject to registration under section 321.18, and which is registered with the county treasurer.

A certified copy of the ordinance shall be filed with the director as soon as possible after passage. The director shall inform the appropriate county treasurers and provide assistance to them for the collection of all local vehicle taxes and any penalties, crediting local vehicle tax receipts excluding penalties to a "local vehicle tax fund" established in the office of the county treasurer. From the local vehicle tax fund, the treasurer shall remit monthly, by direct deposit in the same manner as provided in section 384.11, to each city in the county the amount collected from residents of the city during the preceding calendar month and to the county the amount collected from the residents of the unincorporated area during the preceding calendar month. Moneys received by a city or county from this fund shall be credited to the general fund of the city or county to be used solely for public transit or shall be credited to the street construction fund of that city or the secondary road fund of that county to be used for the purposes specified in section 312.6. 5. Gross receipts from sales of vehicles subject to registration or subject only to the issuance of a certificate of title are exempted from the tax imposed by division IV, but, if required by the director, the gross receipts shall be included in the returns made by motor vehicle or trailer dealers under division IV, and proper deductions taken pursuant to this section.

423.9 Collection by retailer.

Every retailer maintaining a place of business in this state and making sales of tangible personal property for use in this state, not exempted under section 423.4 nor collectible under section 423.7, shall at the time of making the sales, whether within or without the state, collect the tax imposed by this chapter from the purchaser, and give to the purchaser a receipt for the tax in the manner and form prescribed by the director, if the director, by rules, requires a receipt. Each such retailer shall list with the department the name and address of all the retailer's agents operating in this state, and the location of all the retailer's distribution or sales houses or offices or other places of business in this state. The department may deny the issuance of a permit to a retailer who is substantially delinquent in paying a tax due, or the interest or penalty on the tax, administered by the department at the time of application. If the applicant is a partnership, a permit may be denied if a partner owes any delinquent tax, penalty or interest. If the applicant is a corporation, a permit may be denied if any officer having a substantial legal or equitable interest in the ownership of the corporation owes any delinquent tax, penalty or interest of the applicant corporation.

Every person rendering, furnishing, or performing services enumerated in section 422.43, maintaining a place of business in this state shall be subject to the provisions of the preceding paragraph.

423.10 Foreign retailers.

The director may, upon application authorize the collection of the tax herein imposed by any retailer not maintaining a place of business within this state, who, to the satisfaction of the director furnishes adequate security to insure collection and payment of the tax. Such retailer shall be issued, without charge, a permit to collect such tax in such manner, and subject to such regulations and agreements as the director shall prescribe. When so authorized, it shall be the duty of such retailer to collect the tax upon all tangible personal property sold to the retailer's knowledge for use within this state, in the same manner and subject to the same requirements as a retailer maintaining a place of business within this state. Such authority and permit may be canceled when, at any time, the director considers the security inadequate, or that such tax can more effectively be collected from the person using such property in this state.

The discretionary power granted therein is extended to apply in the case of persons rendering, furnishing or performing services enumerated in section 422.43.

[C39, §**6943.110**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §423.10]

423.11 Absorbing tax prohibited.

It shall be unlawful for any retailer to advertise or hold out or state to the public or to any purchaser, consumer or user, directly or indirectly, that the tax or any part thereof imposed by this chapter will be assumed or absorbed by the retailer or that it will not be added to the selling price of the property sold, or if added that it or any part thereof will be refunded. The director shall have the power to adopt and promulgate rules for adding such tax, or the average equivalent thereof, by providing different methods applying uniformly to retailers within the same general classification for the purpose of enabling such retailers to add and collect, as far as practicable, the amount of such tax. Any person violating any of the provisions of this section within this state shall be guilty of a simple misdemeanor.

[C39, §**6943.111**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §423.11]

423.12 Tax as debt.

The tax herein required to be collected by any retailer pursuant to section 423.9 or 423.10, and any tax collected by any retailer pursuant to said sections, shall constitute a debt owed by the retailer to this state.

[C39, §**6943.112**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §423.12]

423.13 Payment to department — successor liability.

A permit holder required or authorized, pursuant to section 423.9 or 423.10, to collect or pay the tax imposed, shall remit to the department the amount of tax, on or before the last day of the month following each calendar quarterly period. However, a retailer who collects or owes more than fifteen hundred dollars in use taxes in a month shall deposit with the department or in a depository authorized by law and designated by the director, the amount collected or owed, with a deposit form for the month as prescribed by the director. The deposit form is due on or before the twentieth day of the month following the month of collection, except a deposit is not required for the third month of the calendar quarter, and the total quarterly amount, less the amounts deposited for the first two months of the quarter, is due with the quarterly report on the last day of the month following the month of collection. At that time, the retailer shall file with the department a return for the preceding quarterly period in the form prescribed by the director showing the sales price of the tangible personal property sold by the retailer during the preceding quarterly period, the use of which is subject to the tax imposed by this chapter, and other information the director deems necessary for the proper administration of this chapter. The return shall be accompanied by a remittance of the tax for the period covered by the return. If necessary in order to ensure payment to the state of the tax, the director may in any or all cases require returns and payments to be made for other than quarterly periods. The director may, upon request and a proper showing of necessity, grant an extension of time not to exceed thirty days for making any return and payment. Returns shall be signed, in accordance with forms and rules prescribed by the director, by the retailer or the retailer's authorized agent, and shall be certified by the retailer or agent to be correct.

If it is reasonably expected, as determined by rules prescribed by the director, that a retailer's annual use tax liability will not exceed one hundred twenty dollars for a calendar year, the retailer may request and the director may grant permission to the retailer, in lieu of the quarterly filing and remitting requirements of the first paragraph of this section, to file the return required by and remit the use tax due under this section on a calendar year basis. The return and tax are due and payable no later than January 31 following each calendar year in which the retailer carries on business.

If a retailer sells the retailer's business or stock of goods or quits the business, the retailer shall prepare a final return and pay all tax due within the time required by law. The immediate successor to the retailer, if any, shall withhold sufficient of the purchase price, in money or money's worth, to pay the amount of delinquent tax, interest or penalty due and unpaid. If the immediate successor of the business or stock of goods intentionally fails to withhold the amount due from the purchase price as provided in this paragraph, the immediate successor is personally liable for the payment of delinquent taxes, interest and penalty accrued and unpaid on account of the operation of the business by the immediate former retailer, except when the purchase is made in good faith as provided in section 421.28. However, a per-

son foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an "immediate successor" for purposes of this paragraph. The department may waive the liability of the immediate successor under this paragraph if the immediate successor exercised good faith in establishing the amount of the previous liability.

Any person who uses any property or services enumerated in section 422.43 upon which the tax herein imposed has not been paid, either to the county treasurer or to a retailer or direct to the department as herein provided, shall be liable therefor, and shall on or before the last day of the month next succeeding each quarterly period pay the tax herein imposed upon all such property used by the person during the preceding quarterly period in such manner and accompanied by such returns as the director shall prescribe. All of the provisions of section 423.13 with reference to such returns and payments shall be applicable to the returns and payments herein required.

423.15 Bond to secure payment.

The director may, when necessary and advisable in order to secure the collection of the tax levied under this chapter, authorize any person subject to such tax, and any permit holder required or authorized to collect such tax pursuant to the provisions of sections 423.9 and 423.10, to file with the department a bond, issued by a surety company authorized to transact business in this state and approved by the insurance commissioner as to solvency and responsibility, in such amount as the director may fix, to secure the payment of any tax, amount, or penalties due or which may become due from such person. In lieu of such bond, securities approved by the director, in such amount as the director may prescribe, may be deposited with the department, which securities shall be kept in the custody of the department and may be sold by the director at public or private sale, without notice to the depositor thereof, if it becomes necessary to do so in order to recover any tax or penalties due. Upon any such sale, the surplus, if any, above the amounts due under this chapter shall be returned to the person who deposited the securities.

423.16 Determination by department.

If any return required by this chapter is not filed, or if any return when filed is incorrect or insufficient, and the maker or person from whom it is due fails to file a corrected or sufficient return within twenty days after the same is required by notice from the department, the department shall have the same power to determine the amount due, as is vested in the department by sections 422.54, 422.55, and 422.57, subject to all of the provisions, and restrictions, and rights to seek judicial review provided in said sections. Where a return required by this chapter has been filed, the five-year period of limitation specified in section 422.54, subsection 1, shall apply to the making of a determination by the department of the amount of tax due hereunder and to the giving of notice to the taxpayer of such determination.

423.18 Offenses — penalties — limitations.

1. In addition to the tax or additional tax, the taxpayer shall pay a penalty as provided in section 421.27. The taxpayer shall also pay interest on the tax or additional tax at the rate in effect under section 421.7, for each month counting each fraction of a month as an entire month, computed from the date the monthly deposit form or return was required to be filed. The penalty and interest shall be paid to the department and disposed of in the same manner as other receipts under this chapter. Unpaid penalties and interest may be collected in the same manner as the tax imposed by this chapter.

2. A person who willfully attempts in any manner to evade a tax imposed by this chapter or the payment of ninety percent of the tax, or a person who makes or causes to be made any false or fraudulent monthly deposit form or return with intent to evade the tax imposed by this chapter or the payment of ninety percent of the tax is guilty of a class "D" felony.

1. This chapter is entitled "Environmental Protection Charge on Petroleum Diminution".

2. The director's and the department's authority and power under chapter 421 and other provisions of the tax code relevant to administration apply to this chapter, and the charge imposed under this chapter is imposed as if the charge were a tax within the meaning of that chapter or provision.

3. The director shall enter into a contract or agreement with the board to provide assistance requested by the board. Policy issues arising under this chapter or chapter 455G shall be determined by the board, and the board shall be joined as a real party in interest when a policy issue is raised.

4. The board shall retain rulemaking authority, but may contract with the department for assistance in drafting rules. The board shall retain contested case jurisdiction over any challenge to the diminution rate or cost factor. The department shall conduct all other contested cases and be responsible for other agency action in connection with the environmental protection charge imposed under this chapter.

5. The board shall reimburse the department of revenue and finance by contract for the reasonable cost of administration of the environmental protection charge imposed under this chapter and for other duties delegated to the department or to the director by the board.

89 Acts, ch 131, §14

424.3 Environmental protection charge imposed upon petroleum diminution.

1. An environmental protection charge is imposed upon diminution. A depositor shall collect from the receiver of petroleum deposited into a tank, the environmental protection charge imposed under this section on diminution each time petroleum is deposited into the tank, and pay the charge to the department as directed by this chapter.

2. The environmental protection charge shall be equal to the total volume of petroleum deposited in a tank multiplied by the diminution rate multiplied by the cost factor.

3. The diminution rate is one-tenth of one percent.

4. Diminution equals total volume of petroleum deposited multiplied by the diminution rate established in subsection 3.

5. The cost factor is an amount per gallon of diminution determined by the board pursuant to this subsection. The board, after public hearing, may determine, or may adjust, the cost factor to an amount reasonably calculated to generate an annual average revenue, year to year, of twelve million dollars from the charge, excluding penalties and interest, if any. The board may determine or adjust the cost factor at any time after May 5, 1989, but shall at minimum determine the cost factor at least once each fiscal year.

89 Acts, ch 131, §15; 90 Acts, ch 1235, §9-11

Subsection 5 amended
Subsections 6 and 7 stricken

424.4 Adding of charge.

A depositor shall, as far as practicable, add the charge imposed under this chapter, or the average equivalent of the charge, to the depositor's sales price for the petroleum subject to the charge and when added such charge shall constitute a part of the depositor's price, shall be a debt from the receiver to the depositor until paid, and shall be recoverable at law in the same manner as other debts.

89 Acts, ch 131, §16

424.5 Depositor permits required — applications — revocation.

1. It is unlawful for any person to deposit petroleum into a tank in this state, unless a depositor permit has been issued to that person under this section. A depositor shall file with the department an application for a permit. An application for a permit shall be made upon a form prescribed by the board and shall set forth the name under which the applicant transacts or intends to transact business, the location or locations of the applicant's place of business, and any other information as the board may require. The application shall be signed by the owner if a natural person; in the case of an association or partnership, by a member or partner; in the case of a corporation, by an executive officer or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of the person's authority.

2. The department may deny a permit to an applicant who is substantially delinquent in paying a tax or charge due, or the interest or penalty on the tax or charge, administered by the department at the time of application. If the applicant is a partnership, a permit may be denied if the partner is substantially delinquent in paying any delinquent tax or charge, penalty, or interest.

3. A permit is not assignable and is valid only for the person in whose name it is issued.

4. A permit issued under this chapter is valid and effective until revoked by the department.

5. If the holder of a permit fails to comply with any of the provisions of this chapter or any order or rule of the department, or rule or order of the board pursuant to this chapter, or is substantially delinquent in the payment of a tax or charge administered by the department or the interest or penalty on the tax or charge, the director may revoke the permit.

6. To revoke a permit the director shall serve notice as required by section 17A.18 to the permit holder informing that person of the director's intent to revoke the permit and of the permit holder's right to a hearing on the matter. If the permit holder petitions the director for a hearing on the proposed revocation, after giving ten days' notice of the time and place of the hearing in accordance with section 17A.18, subsection 3, the matter may be heard and a decision rendered. The director may restore permits after revocation. The director shall adopt rules setting forth the period of time a depositor must wait before a permit may be restored or a new permit may be issued. The waiting period shall not exceed ninety days from the date of the revocation of the permit.

89 Acts, ch 131, §17

424.6 Exemption certificates for receivers of petroleum underground storage tanks not subject to financial responsibility rules.

1. The department of natural resources shall issue an exemption certificate in the form prescribed by the director of the department of natural resources to an applicant who is an owner or operator of a petroleum underground storage tank which is exempt, deferred, or excluded from regulation under chapter 455G, for that tank. The director of the department of natural resources shall revoke and require the return of an exemption certificate if the petroleum underground storage tank later becomes subject to chapter 455G pursuant to section 455G.1. A tank is subject to chapter 455G when the federal regulation subjecting that tank to financial responsibility becomes effective and not upon the effective compliance date unless the effective compliance date is the effective date of the regulation.

The department shall permit a credit against the charge due from a person operating an eligible underground bulk storage facility equal to the total volume of petroleum transferred or sold from a tank in bulk quantities and delivered to a person for deposit in a tank which is exempt, deferred, or excluded pursuant to this subsection, multiplied by the diminu-

tion rate multiplied by the cost factor, subject to rules adopted by the board. *"Bulk quantities"* as used in this paragraph means at least a portion of a standard tanker truck load. *"Eligible underground bulk storage facility"* means an underground bulk storage facility in operation on or before January 1, 1990.

2. Liability for the charge is upon the depositor and the receiver unless the depositor takes in good faith from the receiver a valid exemption certificate and records the exemption certificate number and related transaction information required by the director and submits such information as part of the environmental protection charge return. If petroleum is deposited into a tank, pursuant to a valid exemption certificate which is taken in good faith by the depositor, and the receiver is liable for the charge, the receiver is solely liable for the charge and shall remit the charge directly to the department and this chapter applies to that receiver as if the receiver were a depositor.

3. A valid exemption certificate is an exemption certificate which is complete and correct according to the requirements of the director of the department of natural resources.

4. A valid exemption certificate is taken in good faith by the depositor when the depositor has exercised that caution and diligence which honest persons of ordinary prudence would exercise in handling their own business affairs, and includes an honesty of intention and freedom from knowledge of circumstances which ought to put one upon inquiry as to the facts. A depositor has constructive notice of the classes of exempt, deferred, or excluded tanks. In order for a depositor to take a valid exemption certificate in good faith, the depositor must exercise reasonable prudence to determine the facts supporting the valid exemption certificate, and if any facts upon such certificate would lead a reasonable person to further inquiry, then such inquiry must be made with an honest intent to discover the facts.

5. If the circumstances change and the tank becomes subject to financial responsibility regulations, the tank owner or operator is liable solely for the charges and shall remit the charges directly to the department of revenue and finance pursuant to this chapter.

6. The board may waive the requirement for an exemption certificate for one or more classes of exempt, deferred, or excluded tanks, if in the board's judgment an exemption certificate is not required for effective and efficient collection of the charge. If an exemption certificate is not required for a class pursuant to this subsection, the depositor shall maintain and file such records and information as may be required by the director regarding deposits into a tank subject to the waiver.

89 Acts, ch 131, §18; 90 Acts, ch 1235, §12
Subsection 1, NEW unnumbered paragraph 2

424.7 Deposit of moneys — filing of environmental protection charge return.

1. A depositor shall, on or before the last day of the month following the close of each calendar quarter during which the depositor is or has become or ceased being subject to the provisions of section 424.3, make, sign, and file an environmental protection charge return for that calendar quarter in such form as may be required by the director. The return shall show information relating to the volume of petroleum deposited into tanks subject to the charge, and any claimed exemptions or exclusions from the charge, a calculation of charges due, and such other information for the period covered by the return as may be required by the director. The depositor may be granted an extension of time not exceeding thirty days for filing a quarterly return, upon a proper showing of necessity. If an extension is granted, the depositor shall have paid by the thirtieth day of the month following the close of the quarter ninety percent of the estimated charges due.

2. If necessary or advisable in order to ensure the payment of the charge imposed by this chapter, the director may require returns and payment of the charge to be made for other than quarterly periods.

3. Returns shall be signed by the depositor or the depositor's duly authorized agent, and must be duly certified by the depositor to be correct.

4. Upon receipt of a payment pursuant to this chapter, the department shall deposit the moneys into the road use tax fund created in section 312.1.

89 Acts, ch 131, §19; 90 Acts, ch 1235, §13
Subsection 4 amended

424.8 Payment of environmental protection charge.

1. The charge levied under this chapter is due and payable in calendar quarterly installments on or before the last day of the month following each quarterly period except as otherwise provided in this section.

2. Every permit holder at the time of making the return required hereunder, shall compute and pay to the department the charges due for the preceding period.

3. *a.* If a receiver fails to pay charges imposed by this chapter to the depositor required to collect the charge, then in addition to all of the rights, obligations, and remedies provided, the charge is payable by the receiver directly to the department, and this chapter applies to the receiver as if the receiver were a depositor.

b. If a depositor subject to this chapter sells the depositor's business or stock of petroleum or quits the business, the depositor shall prepare a final return and pay all charges due within the time required by law. The immediate successor to the depositor, if any, shall withhold a sufficient amount of the purchase price, in money or money's worth, to pay the amount of delinquent charge, interest, or penalty due and unpaid. If the immediate successor of the business or stock of petroleum intentionally fails to withhold the amount due from the purchase price as provided in this paragraph, the immediate successor is personally liable for the payment of the delinquent

charges, interest, and penalty accrued and unpaid on account of the operation of the business by the immediate predecessor depositor, except when the purchase is made in good faith as provided in section 424.6. However, a person foreclosing on a valid security interest or retaking possession of premises under a valid lease is not an *"immediate successor"* for purposes of this paragraph. The department may waive the liability of the immediate successor under this paragraph if the immediate successor exercised good faith in establishing the amount of the previous liability.

89 Acts, ch 131, §20

424.9 Bond for environmental protection charge collection.

The director, when necessary and advisable in order to secure the collection of the environmental protection charge imposed by section 424.3, may require a depositor to file a bond with the director. The bond shall assure collection by the department of the amount of the charge required to be collected or the amount actually collected by the depositor required to file the bond, whichever is greater. The bond shall be issued by a surety company authorized to conduct business in this state and approved by the commissioner of insurance as to solvency and responsibility, in an amount as the director may fix, to secure the payment of the charge, and penalty due or which may become due. In lieu of the bond, securities or cash shall be kept in the custody of the department and securities may be sold by the director at public or private sale, without notice to the depositor, if it becomes necessary to do so in order to recover any charge and penalty due. Upon a sale, any surplus above the amounts due under this section shall be returned to the person who deposited the securities.

89 Acts, ch 131, §21

424.10 Failure to file return — incorrect return.

1. As soon as practicable after a return is filed and in any event within five years after the return is filed the department shall examine it, assess and determine the charge due if the return is found to be incorrect, and give notice to the depositor of such assessment and determination as provided in subsection 2. The period for the examination and determination of the correct amount of the charge is unlimited in the case of a false or fraudulent return made with the intent to evade the charge or in the case of a failure to file a return. If the determination that a return is incorrect is the result of an audit of the books and records of the depositor, the charge, or additional charge, if any is found due, shall be assessed and determined and the notice to the depositor shall be given by the department within one year after the completion of the examination of the books and records.

2. If a return required by this chapter is not filed, or if a return when filed is incorrect or insufficient and the maker fails to file a corrected or sufficient return within twenty days after the return is required by notice from the department, the department shall determine the amount of charge due from such information as the department may be able to obtain and, if necessary, may estimate the charge on the basis of external indices or factors. The department shall give notice of such determination to the person liable for the charge. Such determination shall finally and irrevocably fix the charge unless the person against whom it is assessed shall, within thirty days after the giving of notice of such determination, apply to the director for a hearing or unless the director on the director's motion shall reduce the charge. At such hearing evidence may be offered to support such determination or to prove that it is incorrect. After such hearing the director shall give notice of the decision to the person liable for the charge.

If a depositor's, receiver's, or other person's challenge relates to the diminution rate, the burden of proof upon the challenger shall only be satisfied by clear and convincing evidence.

3. If the amount paid is greater than the correct charge, penalty, and interest due, the department shall refund the excess, with interest after sixty days from the date of payment at the rate in effect under section 421.7, pursuant to rules prescribed by the director. However, the director shall not allow a claim for refund that has not been filed with the department within five years after the charge payment upon which a refund is claimed became due, or one year after the charge payment was made, whichever time is later. A determination by the department of the amount of charge, penalty, and interest due, or the amount of refund for any excess amount paid, is final unless the person aggrieved by the determination appeals to the director for a revision of the determination within thirty days from the postmark date of the notice of determination of charge, penalty, and interest due or refund owing. The director shall grant a hearing, and upon hearing the director shall determine the correct charge, penalty, and interest due or refund owing, and notify the appellant of the decision by mail. The decision of the director is final unless the appellant seeks judicial review of the director's decision under section 424.13.

89 Acts, ch 131, §22

424.11 Environmental protection charge lien — collection — action authorized.

Whenever a person liable to pay a charge refuses or neglects to pay the charge, the amount, including any interest, penalty, or addition to the charge, together with the costs that may accrue in addition thereto, shall be a lien in favor of the state upon all property and rights to property, whether real or personal, belonging to that person.

The environmental protection charge lien shall attach at the time the charge becomes due and payable and shall continue for ten years from the time the lien attaches unless sooner released or otherwise discharged. The lien may be extended, within ten years from the date the lien attaches, by filing for record

a notice with the appropriate county official of the appropriate county and from the time of such filing, the lien shall be extended to the property in such county for ten years, unless sooner released or otherwise discharged, with no limit on the number of extensions. The director shall charge off any account whose lien is allowed to lapse and may charge off any account and release the corresponding lien before the lien has lapsed if the director determines under uniform rules adopted by the board that the account is uncollectible or collection costs involved would not warrant collection of the amount due.

In order to preserve the lien against subsequent mortgagees, purchasers, or judgment creditors, for value and without notice of the lien, on any property situated in a county,the director shall file with the recorder of the county in which the property is located a notice of the lien.

The county recorder of each county shall record an environmental protection charge lien in the "index of income tax liens".

The recorder shall endorse on each notice of lien the day, hour, and minute when received and preserve the notice, and shall immediately index the notice in the index book and record the lien in the manner provided for recording real estate mortgages, and the lien shall be effective from the time of its indexing.

The department shall pay a recording fee as provided in section 331.604, for the recording of the lien, or for its satisfaction.

Upon the payment of a charge as to which the director has filed notice with a county recorder, the director shall immediately file with the recorder a satisfaction of the charge and the recorder shall enter the satisfaction on the notice on file in the recorder's office and indicate that fact on the index.

The department shall proceed, substantially as provided in this chapter, to collect all charges and penalties as soon as practicable after the same become delinquent, except that no property of the depositor shall be exempt from the payment of the charge. In the event service has not been made on a distress warrant by the officer to whom addressed within five days from the date the distress warrant was received by the officer, the authorized revenue agents of the department are hereby empowered to serve and make return of the warrant to the clerk of the district court of the county named in the distress warrant, and all subsequent procedure shall be in compliance with chapter 626.

The attorney general shall, upon the request of the director, bring an action at law or in equity, as the facts may justify, without bond, to enforce payment of any charges and penalties, and in such action the attorney general shall have the assistance of the county attorney of the county in which the action is pending.

It is expressly provided that the foregoing remedies of the state shall be cumulative and that no action taken by the director or attorney general shall be construed to be an election on the part of the state or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy provided by law.

89 Acts, ch 131, §23

424.12 Records required.

It shall be the duty of every depositor required to make a report and pay any charge under this chapter, to preserve such records as the director may require, and it shall be the duty of every depositor to preserve for a period of five years all invoices and other records; and all such books, invoices, and other records shall be open to examination at any time by the department, and shall be made available within this state for such examination upon reasonable notice when the director shall so order. When requested to do so by any person from whom a charge payer is seeking credit, or with whom the charge payer is negotiating the sale of any personal property, or by any other person having a legitimate interest in such information, the director, upon being satisfied that such a situation exists, shall inform such person as to the amount of unpaid charges due by the charge payer under the provisions of this chapter. The giving of such information under such circumstances shall not be deemed a violation of section 422.72 as applied to this chapter.

Section 422.72 applies to this chapter as if the environmental protection charge were a tax.

89 Acts, ch 131, §24

424.13 Judicial review.

1. Judicial review of contested cases under this chapter may be sought in accordance with chapter 17A.

2. The petitioner shall file with the clerk of the district court a bond for the use of the respondent, with sureties approved by the clerk, in penalty at least double the amount of charge appealed from, and in no case shall the bond be less than fifty dollars, conditioned that the petitioner shall perform the orders of the court.

3. An appeal may be taken by the charge payer or the director to the supreme court of this state irrespective of the amount involved.

89 Acts, ch 131, §25

424.14 Reserved.

424.15 Environmental protection charge refund.

If it appears that, as a result of mistake, an amount of a charge, penalty, or interest has been paid which was not due under the provisions of this chapter, then such amount shall be refunded to such person by the department. A claim for refund that has not been filed with the department within five years after the charge payment upon which a refund is claimed became due, or one year after such charge payment was made, whichever time is the later, shall not be allowed by the director.

Refunds may be made only from the unallocated

or uncommitted moneys in the road use tax fund, and are limited by the total amount budgeted by the board for charge refunds.

89 Acts, ch 131, §26; 90 Acts, ch 1235, §14

An administrative change in the cost factor, pursuant to section 424.3, subsection 5, becomes effective.

b. Notice shall be provided by mailing a notice of the change to the address listed on the person's last return. The mailing of the notice is presumptive evidence of the receipt of the notice by the person to whom addressed. The board shall also publish the same notice at least twice in a paper of general circulation within the state at least thirty days in advance of the first day of the calendar quarter during which a change in paragraph *"a"* becomes effective.

2. A notice authorized or required under this section may be given by mailing the notice to the person for whom it is intended, addressed to that person at the address given in the last return filed by the person pursuant to this chapter, or if no return has been filed, then to any address obtainable. The mailing of the notice is presumptive evidence of the receipt of the notice by the person to whom addressed. Any period of time which is determined according to this chapter by the giving of notice commences to run from the date of mailing of the notice. Neither mailed notice or notice by publication is required for the initial determination and imposition of the charge. The board shall undertake to provide reasonable notice of the environmental protection charge and procedures, as in the board's sole discretion it deems appropriate, provided that the actual charge and procedures are published in the Iowa administrative bulletin prior to the effective date of the charge.

3. The provisions of the Code relative to the limitation of time for the enforcement of a civil remedy shall not apply to any proceeding or action taken to levy, appraise, assess, determine, or enforce the collection of any charge or penalty provided by this chapter.

The charge payer shall also pay interest on the charge or additional charge at the rate in effect under section 421.7 for each month counting each fraction of a month as an entire month, computed from the date the return was required to be filed. The penalty and interest shall be paid to the department and disposed of in the same manner as the charge imposed under this chapter. Unpaid penalties and interest may be enforced in the same manner as the charge imposed by this chapter.

2. A person who willfully attempts to evade a charge imposed by this chapter or the payment of the charge or a person who makes or causes to be made a false or fraudulent return with intent to evade the charge imposed by this chapter or the payment of the charge is guilty of a class "D" felony.

3. The certificate of the director to the effect that a charge has not been paid, that a return has not been filed, or that information has not been supplied pursuant to this chapter, shall be prima facie evidence thereof.

4. For purposes of determining the place of trial, the situs of an offense specified in this section is in the county of the residence of the person charged with the offense, unless the person is a nonresident of this state or the residence of the person cannot be established, in which event the situs of the offense is in Polk county.

5. A prosecution for an offense specified in this section shall be commenced within six years after its commission.

425.1 Ratio and manner of distribution.

1. A homestead credit fund is created. There is appropriated annually from the general fund of the state to the department of revenue and finance to be credited to the homestead credit fund, an amount sufficient to implement this chapter.

The director of revenue and finance shall issue warrants on the homestead credit fund payable to the county treasurers of the several counties of the state under this chapter.

2. The homestead credit fund shall be apportioned each year so as to give a credit against the tax on each eligible homestead in the state in an amount equal to the actual levy on the first four thousand eight hundred fifty dollars of actual value for each homestead.

3. The amount due each county shall be paid by the state comptroller upon requisition of the director of revenue in two payments on November 15 and March 15 of each fiscal year, drawn upon warrants payable to the respective county treasurers. The two payments shall be as nearly equal as possible.

4. Annually the department of revenue and finance shall estimate the credit not to exceed the actual levy on the first four thousand eight hundred fifty dollars of actual value of each eligible homestead, and shall certify to the county auditor of each county the credit and its amount in dollars. Each county auditor shall then enter the credit against the tax levied on each eligible homestead in each county payable during the ensuing year, designating on the tax lists the credit as being from the homestead credit fund, and credit shall then be given to the several taxing districts in which eligible homesteads are located in an amount equal to the credits allowed on the taxes of the homesteads. The amount of credits shall be apportioned by each county treasurer to the several taxing districts as provided by law, in the same manner as though the amount of the credit had been paid by the owners of the homesteads. However, the several taxing districts shall not draw the funds so credited until after the semiannual allocations have been received by the county treasurer, as provided in this chapter. Each county treasurer shall show on each tax receipt the amount of credit received from the homestead credit fund.

5. If the homestead tax credit computed under this section is less than sixty-two dollars and fifty cents, the amount of homestead tax credit on that eligible homestead shall be sixty-two dollars and fifty cents subject to the limitation imposed in this section.

6. The homestead tax credit allowed in this chapter shall not exceed the actual amount of taxes payable on the eligible homestead, exclusive of any special assessments levied against the homestead.

425.2 Qualifying for credit.

A person who wishes to qualify for the credit allowed under this chapter shall obtain the appropriate forms for filing for the credit from the assessor. The person claiming the credit shall file a verified statement and designation of homestead with the assessor for the year for which the person is first claiming the credit. The claim shall be filed not later than July 1 of the year for which the person is claiming the credit. A claim filed after July 1 of the year for which the person is claiming the credit shall be considered as a claim filed for the following year.

Upon the filing and allowance of the claim, the claim shall be allowed on that homestead for successive years without further filing as long as the property is legally or equitably owned and used as a homestead by that person or that person's spouse on July 1 of each of those successive years, and the owner of the property being claimed as a homestead declares residency in Iowa for purposes of income taxation, and the property is occupied by that person or that person's spouse for at least six months in each of those calendar years in which the tax year* begins. When the property is sold or transferred, the buyer or transferee who wishes to qualify shall refile for the credit. However, when the property is transferred as part of a distribution made pursuant to chapter 598, the transferee who is the spouse retaining ownership of the property is not required to refile for the credit. Property divided pursuant to chapter 598 shall not be modified following the division of the property. An owner who ceases to use a property for a homestead or intends not to use it as a homestead for at least six months in a calendar year shall provide written notice to the assessor by July 1 following the date on which the use is changed. A person who sells or transfers a homestead or the personal representative of a deceased person who had a homestead at the time of death, shall provide written notice to the assessor that the property is no longer the homestead of the former claimant.

In case the owner of the homestead is in active service in the armed forces of this state or of the United States, or is sixty-five years of age or older, or is disabled, the statement and designation may be signed and delivered by any member of the owner's family, by the owner's guardian or conservator, or by any other person who may represent the owner under power of attorney. If the owner of the homestead is married, the spouse may sign and deliver the statement and designation. The director of human services or the director's designee may make application for the benefits of this chapter as the agent for and on behalf of persons receiving assistance under chapter 249.

Any person sixty-five years of age or older or any person who is disabled may request, in writing, from the appropriate assessor forms for filing for homestead tax credit. Any person sixty-five years of age or older or who is disabled may complete the form, which shall include a statement of homestead, and mail or return it to the appropriate assessor. The signature of the claimant on the statement shall be considered the claimant's acknowledgment that all statements and facts entered on the form are correct to the best of the claimant's knowledge.

Upon adoption of a resolution by the county board of supervisors, any person may request, in writing, from the appropriate assessor forms for the filing for homestead tax credit. The person may complete the form, which shall include a statement of homestead, and mail or return it to the appropriate assessor. The signature of the claimant on the statement of homestead shall be considered the claimant's acknowledgment that all statements and facts entered on the form are correct to the best of the claimant's knowledge.

The failure of a person to file a claim under this section on or before July 1 of the year for which the person is first claiming the credit or to have the evidence of ownership recorded in the office of the county recorder does not disqualify the claim if the person claiming the credit or through whom the credit is claimed is otherwise qualified. The belated claim shall be filed with the appropriate assessor on or before December 31 of the following calendar year and, if approved by the board of supervisors, the county treasurer shall file an amended certificate of homestead tax credits with the director of revenue and finance pursuant to section 425.4.

425.3 Verification of claims for homestead credit.

The assessor shall retain a permanent file of current homestead claims filed in the assessor's office. The assessor shall file a notice of transfer of property for which a claim is filed when notice is received from the office of the county recorder.

The county recorder shall give notice to the assessor of each transfer of title filed in the recorder's office. The notice shall describe the property transferred, the name of the person transferring the title to the property, and the name of the person to whom title to the property has been transferred.

Not later than July 6 of each year, the assessor shall remit the statements and designation of homesteads to the county auditor with the assessor's rec-

ommendation for allowance or disallowance. If the assessor recommends disallowance of a claim, the assessor shall submit the reasons for the recommendation, in writing, to the county auditor.

The county auditor shall forward the claims to the board of supervisors. The board shall allow or disallow the claims. If the board disallows a claim, it shall send written notice, by mail, to the claimant at the claimant's last known address. The notice shall state the reasons for disallowing the claim for the credit.

425.4 Certification to treasurer.

All claims which have been allowed by the board of supervisors shall be certified on or before August 1, in each year, by the county auditor to the county treasurer, which certificates shall list the total amount of dollars, listed by taxing district in the county, due for homestead tax credits claimed and allowed. The county treasurer shall forthwith certify to the department of revenue and finance the total amount of dollars, listed by taxing district in the county, due for homestead tax credits claimed and allowed.

425.5 Correcting listing.

If the assessor who last listed and valued a claimed eligible homestead did not, in the description and valuation thereof, comply with the provisions of section 428.7, the assessor shall, if still in office, on the written request of such claimant and without expense to the claimant or to the county, correct the listing and valuations of such claimed homestead and contiguous real property originally listed and valued by the assessor, and file such corrected listing and valuations with the county auditor, who forthwith shall certify the same to the county treasurer, and said county treasurer shall so correct the tax books; provided, that if the assessor who last listed and valued such property is not still in office, the assessor in office shall, on such written request and at the expense of the county, so correct such listing and valuations of said homestead and said contiguous real property.

425.6 Waiver by neglect.

If a person fails to file a claim or to have a claim on file with the assessor for the credits provided in this chapter, the person is deemed to have waived the homestead credit for the year in which the person failed to file the claim or to have a claim on file with the assessor.

[C39, §**6943.147**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §425.6; 82 Acts, ch 1246, §3, 11]

425.7 Appeals permitted — disallowed claims and penalty.

1. Any person whose claim is denied under the provisions of this chapter may appeal from the action of the board of supervisors to the district court of the county in which said claimed homestead is situated by giving written notice of such appeal to the county auditor of said county within twenty days from the date of mailing of notice of such action by the board of supervisors.

2. In the event any claim under this chapter is allowed, any owner of an eligible homestead may appeal from the action of the board of supervisors to the district court of the county in which said claimed homestead is situated, by giving written notice of such appeal to the county auditor of said county and such notice to the owner of said claimed homestead as a judge of the district court shall direct.

3. If the director of revenue and finance determines that a claim for homestead credit has been allowed by the board of supervisors which is not justifiable under the law and not substantiated by proper facts, the director may, at any time within thirty-six months from July 1 of the year in which the claim is allowed, set aside the allowance. Notice of the disallowance shall be given to the county auditor of the county in which the claim has been improperly granted and a written notice of the disallowance shall also be addressed to the claimant at the claimant's last known address. The claimant or the board of supervisors may seek judicial review of the action of the director of revenue and finance in accordance with the Iowa administrative procedure Act.

If a claim is disallowed by the director of revenue and finance and a petition for judicial review is not filed with respect to the disallowance, any amounts of credits allowed and paid from the homestead credit fund including the penalty, if any, become a lien upon the property on which credit was originally granted, if still in the hands of the claimant, and not in the hands of a bona fide purchaser, and any amount so erroneously paid including the penalty, if any, shall be collected by the county treasurer in the same manner as other taxes and the collections shall be returned to the department of revenue and finance and credited to the homestead credit fund. The director of revenue and finance may institute legal proceedings against a homestead credit claimant for the collection of payments made on disallowed credits and the penalty, if any. If a homestead credit is disallowed and the claimant failed to give written notice to the assessor as required by section 425.2 when the property ceased to be used as a homestead by the claimant, a civil penalty equal to fifty percent of the amount of the disallowed credit is assessed against the claimant.

425.8 Forms — rules.

The director of revenue and finance shall prescribe the form for the making of verified statement and designation of homestead, the form for the supporting affidavits required herein, and such other forms as may be necessary for the proper administration of this chapter. Whenever necessary, the department of revenue and finance shall forward to the county auditors of the several counties in the state the prescribed sample forms, and the county auditors shall furnish blank forms prepared in accordance therewith with the assessment rolls, books, and supplies delivered to the assessors. The department of revenue and finance shall prescribe and the county auditors shall provide on the forms for claiming the homestead credit a statement to the effect that the owner realizes that the owner must give written notice to the assessor when the owner changes the use of the property.

The director of revenue and finance may prescribe rules, not inconsistent with the provisions of this chapter, necessary to carry out and effectuate its purposes.

[C39, §**6943.149**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §425.8; 82 Acts, ch 1246, §5, 11]

425.9 Credits in excess of tax — appeals — refunds.

If the amount of credit apportioned to any homestead under the provisions of this chapter in any year shall exceed the total tax, exclusive of any special assessments levied against said homestead, then such excess shall be remitted by the county treasurer to the department of revenue and finance to be redeposited in the homestead credit fund and be reallocated the following year by the department as provided hereunder.

If any claim for credit made hereunder has been denied by the board of supervisors, and such action is subsequently reversed on appeal, the credit shall be allowed on the homestead involved in said appeal, and the director of revenue and finance, the county auditor, and the county treasurer shall make such credit and change their books and records accordingly.

In the event the appealing taxpayer has paid one or both of the installments of the tax payable in the year or years in question on such homestead valuation, remittance shall be made to such taxpayer of the amount of such credit.

The amount of such credit shall be allocated and paid from the surplus redeposited in the homestead credit fund provided for in the first paragraph of this section.

425.10 Reversal of allowed claim.

In the event any claim is allowed, and subsequently reversed on appeal, any credit made thereunder shall be void, and the amount of such credit shall be charged against the property in question, and the director of revenue and finance, the county auditor, and the county treasurer are authorized and directed to correct their books and records accordingly. The amount of such erroneous credit, when collected, shall be returned by the county treasurer to the homestead credit fund to be reallocated the following year as provided herein.

425.11 Definitions.

For the purpose of this chapter and wherever used in this chapter:

1. The word *"homestead"* shall have the following meaning:

a. The homestead must include the dwelling house which the owner, in good faith, is occupying as a home on July 1 of the year for which the credit is claimed and occupies as a home for at least six months during the calendar year in which the tax year* begins, except as otherwise provided.

When any person is inducted into active service under the Selective Training and Service Act of the United States or whose voluntary entry into active service results in a credit on the quota of persons required for service under the Selective Training and Service Act, or who, being a member of any component part of the military, naval, or air forces or nurse corps of this state or nation, is called or ordered into active service, such person shall be considered as occupying or living on the homestead during such service and, where equitable or legal title of the homestead is in the spouse of the person who is a member of or is inducted into the armed services of the United States, the spouse shall be considered as occupying or living on the homestead during such service.

When any person is confined in a nursing home, extended-care facility, or hospital, such person shall be considered as occupying or living on a homestead where such person is the owner of such homestead and such person maintains such homestead and does not lease, rent, or otherwise receive profits from other persons for the use thereof.

b. It may contain one or more contiguous lots or tracts of land with the buildings or other appurtenances thereon habitually, and in good faith, used as a part of the homestead.

c. It must not embrace more than one dwelling house, but where a homestead has more than one dwelling house situated thereon, the credit provided for in this chapter shall apply to the home and buildings used by the owner, but shall not apply to any other dwelling house and buildings appurtenant.

d. The words *"dwelling house"* shall embrace any building occupied wholly or in part by the claimant as a home.

2. The word *"owner"* shall mean the person who holds the fee simple title to the homestead, and in addition shall mean the person occupying as a surviving spouse or the person occupying under a contract of purchase which contract has been recorded

in the office of the county recorder of the county in which the property is located, or the person occupying the homestead under devise or by operation of the inheritance laws where the whole interest passes or where the divided interest is shared only by persons related or formerly related to each other by blood, marriage or adoption, or the person occupying the homestead is a shareholder of a family farm corporation that owns the property, or the person occupying the homestead under a deed which conveys a divided interest where the divided interest is shared only by persons related or formerly related to each other by blood, marriage or adoption or where the person occupying the homestead holds a life estate with the reversion interest held by a nonprofit corporation organized under chapter 504A, provided that the holder of the life estate is liable for and pays property tax on the homestead or where the person occupying the homestead holds an interest in a horizontal property regime under chapter 499B, regardless of whether the underlying land committed to the horizontal property regime is in fee or as a leasehold interest, provided that the holder of the interest in the horizontal property regime is liable for and pays property tax on the homestead. For the purpose of this chapter the word *"owner"* shall be construed to mean a bona fide owner and not one for the purpose only of availing the person of the benefits of this chapter. In order to qualify for the homestead tax credit, evidence of ownership shall be on file in the office of the clerk of the district court or recorded in the office of the county recorder at the time the owner files with the assessor a verified statement of the homestead claimed by the owner as provided in section 425.2.

3. The words *"assessed valuation"* shall mean the taxable valuation of the homestead as fixed by the assessor, or by the board of review, under the provisions of section 441.21, without deducting therefrom the exemptions authorized in section 427.3.

Where not in conflict with the terms of the definitions above set out, the provisions of chapter 561 shall control.

425.15 Disabled veteran tax credit.

If the owner of a homestead allowed a credit under this chapter is a veteran of any of the military forces of the United States, who acquired the homestead under 38 U.S.C. § 21.801, 21.802, the credit allowed on the homestead from the homestead credit fund shall be the entire amount of the tax levied on the homestead. The credit allowed shall be continued to the estate of a veteran who is deceased or the surviving spouse and any child, as defined in section 234.1, who are the beneficiaries of a deceased veteran, so long as the surviving spouse remains unmarried. This section is not applicable to the holder of title to any homestead whose annual income, together with that of the titleholder's spouse, if any, for the last preceding twelve-month income tax accounting period exceeds twenty-five thousand dollars. For the purpose of this section *"income"* means taxable income for federal income tax purposes plus income from securities of state and other political subdivisions exempt from federal income tax. A veteran or a beneficiary of a veteran who elects to secure the credit provided in this section is not eligible for any other real property tax exemption provided by law for veterans of military service. If a veteran acquires a different homestead, the credit allowed under this section may be claimed on the new homestead unless the veteran fails to meet the other requirements of this section.

PROPERTY TAX RELIEF FOR CERTAIN ELDERLY, DISABLED, AND OTHER PERSONS

425.16 Additional tax credit.

In addition to the homestead tax credit allowed under section 425.1, subsections 1 to 4, persons who own or rent their homesteads and who meet the qualifications provided in this division are eligible for an extraordinary property tax credit or reimbursement.

[C75, 77, 79, 81, §425.16]

425.17 Definitions.

As used in this division, unless the context otherwise requires:

1. *"Income"* means the sum of Iowa net income as defined in section 422.7, plus all of the following to the extent not already included in Iowa net income: Capital gains, alimony, child support money, cash public assistance and relief, except property tax relief granted under this division, the gross amount of any pension or annuity, including but not limited to railroad retirement benefits, all payments received under the federal social security Act, and all military retirement and veterans' disability pensions, interest received from the state or federal government or any of its instrumentalities, workers' compensation and the gross amount of disability income or "loss of time" insurance. "Income" does not include gifts from nongovernmental sources, or surplus foods or other relief in kind supplied by a governmental agency.

2. *"Household"* means a claimant, spouse, and any person related to the claimant or spouse by blood, marriage, or adoption and living with the claimant at any time during the base year. "Living with" refers to domicile and does not include a temporary visit.

3. *"Household income"* means all income of the claimant and the claimant's spouse in a household and actual monetary contributions received from any other household member during their respective twelve-month income tax accounting periods ending with or during the base year.

4. *"Homestead"* means the dwelling owned or rented and actually used as a home by the claimant during all or part of the base year, and so much of the land surrounding it including one or more contiguous lots or tracts of land, as is reasonably necessary for use of the dwelling as a home, and may consist of a part of a multidwelling or multipurpose building and a part of the land upon which it is built. It does not include personal property except that a mobile home may be a homestead. Any dwelling or a part of a multidwelling or multipurpose building which is exempt from taxation does not qualify as a homestead under this division. However, solely for purposes of claimants living in a property and receiving reimbursement for rent constituting property taxes paid immediately before the property becomes tax exempt, and continuing to live in it after it becomes tax exempt, the property shall continue to be classified as a homestead. A homestead must be located in this state. When a person is confined in a nursing home, extended-care facility, or hospital, the person shall be considered as occupying or living in the person's homestead if the person is the owner of the homestead and the person maintains the homestead and does not lease, rent, or otherwise receive profits from other persons for the use of the homestead.

5. *"Claimant"* means either one of the following:

a. A person filing a claim for credit or reimbursement under this division who has attained the age of sixty-five years on or before December 31 of the base year or who is a surviving spouse having attained the age of fifty-five years on or before December 31, 1988, or who is totally disabled and was totally disabled on or before December 31 of the base year, and was domiciled in this state during the entire base year and is domiciled in this state at the time the claim is filed or at the time of the person's death in the case of a claim filed by the executor or administrator of the claimant's estate.

b. A person filing a claim for credit or reimbursement under this division who has attained the age of eighteen years on or before December 31 of the base year but has not attained the age or disability status described in paragraph *"a"*, and was domiciled in this state during the entire base year and is domiciled in this state at the time the claim is filed or at the time of the person's death in the case of a claim filed by the executor or administrator of the claimant's estate and was not claimed as a dependent on any other person's tax return for the base year.

"Claimant" under paragraph *"a"* or *"b"* includes a vendee in possession under a contract for deed and may include one or more joint tenants or tenants in common. In the case of a claim for rent constituting property taxes paid, the claimant shall have rented the property during any part of the base year. If a homestead is occupied by two or more persons, and more than one person is able to qualify as a claimant, the persons may determine among them who will be the claimant. If they are unable to agree, the matter shall be referred to the director of revenue and finance not later than October 31 of each year and the director's decision is final.

6. *"Totally disabled"* means the inability to engage in any substantial gainful employment by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or is reasonably expected to last for a continuous period of not less than twelve months.

7. *"Rent constituting property taxes paid"* means twenty-seven and one-half percent of the gross rent actually paid in cash or its equivalent during the base year by the claimant or the claimant's household solely for the right of occupancy of their homestead in the base year, and which rent constitutes the basis, in the succeeding year, of a claim for reimbursement under this division by the claimant.

8. *"Gross rent"* means rental paid at arm's length

solely for the right of occupancy of a homestead or mobile home, including rent for space occupied by a mobile home not to exceed one acre, exclusive of charges for any utilities, services, furniture, furnishings, or personal property appliances furnished by the landlord as a part of the rental agreement whether or not expressly set out in the rental agreement. If the director of revenue and finance determines that the landlord and tenant have not dealt with each other at arm's length, and the director of revenue and finance is satisfied that the gross rent charged was excessive, the director shall adjust the gross rent to a reasonable amount as determined by the director. If the landlord does not supply the charges for any utilities, services, furniture, furnishings, or personal property appliances furnished by the landlord, or if the charges appear to be incorrect, the director of revenue and finance may apply a percentage determined from samples of similar gross rents paid solely for the right of occupancy.

9. *"Property taxes due"* means property taxes including any special assessments, but exclusive of delinquent interest and charges for services, due on a claimant's homestead in this state, but includes only property taxes for which the claimant is liable and which will actually be paid by the claimant. However, if the claimant is a person whose property taxes have been suspended under sections 427.8 and 427.9, *"property taxes due"* means property taxes including any special assessments, but exclusive of delinquent interest and charges for services, due on a claimant's homestead in this state, but includes only property taxes for which the claimant is liable and which would have to be paid by the claimant if the payment of the taxes has not been suspended pursuant to sections 427.8 and 427.9. *"Property taxes due"* shall be computed with no deduction for any credit under this division or for any homestead credit allowed under section 425.1. Each claim shall be based upon the taxes due during the fiscal year next following the base year. If a homestead is owned by two or more persons as joint tenants or tenants in common, and one or more persons are not members of claimant's household, *"property taxes due"* is that part of property taxes due on the homestead which equals the ownership percentage of the claimant and the claimant's household. The county treasurer shall include with the tax receipt a statement that if the owner of the property is eighteen years of age or over, the person may be eligible for the credit allowed under this division. If a homestead is an integral part of a farm, the claimant may use the total property taxes due for the larger unit. If a homestead is an integral part of a multidwelling or multipurpose building the property taxes due for the purpose of this subsection shall be prorated to reflect the portion which the value of the property that the household occupies as its homestead is to the value of the entire structure. For purposes of this subsection, *"unit"* refers to that parcel of property covered by a single tax statement of which the homestead is a part.

10. *"Special assessment"* means special assessments made pursuant to sections 384.37 to 384.79. The amount of a special assessment which may be included in the amount of property taxes due for one year shall be an amount equal to one-tenth of the total amount of the special assessment levied against the homestead of the claimant, if the claimant elects to pay the total amount of the special assessment in one payment. If the claimant elects to pay the special assessment in ten annual installments as provided by law, the claimant may include as a portion of the property taxes due during the fiscal year next following the base year an amount equal to the special assessment, including interest, due during that same fiscal year.

11. *"Base year"* means the calendar year last ending before the claim is filed.

The county treasurer shall submit the claim to the director of revenue and finance on or before August 1 of each year.

425.23 Schedule for claims for credit or reimbursement.

The amount of any claim for credit or reimbursement filed under this division shall be determined as provided in this section.

1. *a.* The tentative credit or reimbursement for a claimant described in section 425.17, subsection 5, paragraph *"a"* shall be determined in accordance with the following schedule:

If the household income is:	Percent of property taxes due or rent constituting property taxes paid allowed as a credit or reimbursement:
$ 0 — 5,999.99	100%
6,000 — 6,999.99	85
7,000 — 7,999.99	70
8,000 — 9,999.99	50
10,000 — 11,999.99	35
12,000 — 13,999.99	25

b. The tentative credit or reimbursement for a claimant described in section 425.17, subsection 5, paragraph *"b"*, shall be determined in accordance with the following schedule:

If the household income is:	Percent of property taxes due or rent constituting property taxes paid allowed as a credit or reimbursement:
$ 0 — 5,999.99	50%
6,000 — 6,999.99	42
7,000 — 7,999.99	35
8,000 — 9,999.99	25
10,000 — 11,999.99	17
12,000 — 13,999.99	12

2. The actual credit for property taxes due shall be determined by subtracting from the tentative credit the amount of the homestead credit under section 425.1 which is allowed as a credit against property taxes due in the fiscal year next following the base year by the claimant or any person of the claimant's household. If the subtraction produces a negative amount, there shall be no credit but no refund shall be required. The actual reimbursement for rent constituting property taxes paid shall be equal to the tentative reimbursement.

3. *a.* A person who is eligible to file a claim for credit for property taxes due and who has a household income of six thousand dollars or less and who has a special assessment levied against the homestead may file a claim with the county treasurer that the claimant had a household income of six thousand dollars or less and that a special assessment is pres-

ently levied against the homestead. The department shall provide to the respective county treasurers the forms necessary for the administration of this subsection. The claim shall be filed not later than September 30 of each year. Upon the filing of the claim, a penalty or interest for late payment shall not accrue against the amount of the special assessment due and payable. The claim filed by the claimant constitutes a claim for credit of an amount equal to the actual amount due and payable upon the special assessment payable during the fiscal year against the homestead of the claimant or an amount equal to the annual payment of the special assessment levied against the homestead of the claimant and payable in annual installments through the period of years provided by the governing body of the city, whichever is less. However, where the claimant is an individual described in section 425.17, subsection 5, paragraph *"b"*, the claim filed constitutes a claim for credit of an amount equal to one-half of the actual amount due and payable during the fiscal year or equal to one-half of the annual payment, whichever is less. The department of revenue and finance shall, upon the filing of the claim with the department by the county treasurer, pay that amount of the special assessment during the current fiscal year to the county treasurer. The county treasurer shall submit the claims to the director of revenue and finance not later than October 15 of each year. The director of revenue and finance shall certify the amount of reimbursement due each county for special assessment credits allowed under this subsection. The amount of reimbursement due each county shall be paid by the director of revenue and finance on October 20 of each year, drawn upon warrants payable to the respective county treasurer. There is appropriated annually from the general fund of the state to the department of revenue and finance an amount sufficient to carry out the provisions of this subsection. The county treasurer shall credit any moneys received from the department against the amount of the special assessment due and payable on the homestead of the claimant.

b. For purposes of this subsection, a totally disabled person in computing household income shall deduct all medical and necessary care expenses paid during the twelve-month income tax accounting periods used in computing household income which are attributable to the person's total disability. "Medical and necessary care expenses" are those used in computing the federal income tax deduction under section 213 of the Internal Revenue Code as defined in section 422.3.

The moneys shall be apportioned each year so as to replace all or a portion of the tax which would be due on property eligible for military service tax exemption in the state, if the property were subject to taxation, the amount of the credit to be not more than six dollars and seventy-five cents per thousand dollars of assessed value of property which would be subject to the tax, except for the military service tax exemption.

On or before August 1 of each year the county auditor shall certify to the county treasurer all claims for military service tax exemptions which have been allowed by the board of supervisors. Such certificate shall list the total amount of dollars, listed by taxing district in the county, due for military service tax credits claimed and allowed. The county treasurer shall forthwith certify to the department of revenue and finance the amount of dollars, listed by taxing district in the county, due for military service tax credits claimed and allowed.

426A.5 Proportionate shares to districts.

The amount of credits received under this chapter shall then be apportioned by each county treasurer to the several taxing districts. Each taxing district shall receive its proportionate share of the military service tax credit allowed on each and every tax exemption allowed in such taxing district, in the proportion that the levy made by such taxing district upon general property bears to the total levy upon all property subject to general property taxation by all

taxing districts imposing a general property tax in such taxing district.

[C50, §426A.2, 426A.4; C58, 62, 66, 71, 73, 75, 77, 79, 81, §426A.5]

426A.6 Setting aside allowance.

If the director of revenue and finance determines that a claim for military service tax exemption has been allowed by a board of supervisors which is not justifiable under the law and not substantiated by proper facts, the director may, at any time within thirty-six months from July 1 of the year in which the claim is allowed, set aside the allowance. Notice of the disallowance shall be given to the county auditor of the county in which the claim has been improperly granted and a written notice of the disallowance shall also be addressed to the claimant at the claimant's last known address. The claimant or the board of supervisors may seek judicial review of the action of the director of revenue and finance in accordance with chapter 17A. If a claim is disallowed by the director of revenue and finance and a petition for judicial review is not filed with respect to the disallowance, the credits allowed and paid from the general fund of the state become a lien upon the property on which the credit was originally granted, if still in the hands of the claimant and not in the hands of a bona fide purchaser, the amount so erroneously paid shall be collected by the county treasurer in the same manner as other taxes, and the collections shall be returned to the department of revenue and finance and credited to the general fund of the state. The director of revenue and finance may institute legal proceedings against a military service tax exemption claimant for the collection of payments made on disallowed exemptions.

426A.7 Forms — rules.

The director of revenue and finance shall prescribe the form for the making of a verified statement and designation of property eligible for military service tax exemption, and the form for the supporting affidavits required herein, and such other forms as may be necessary for the proper administration of this chapter. As soon as practicable after the effective date of this chapter, and from time to time thereafter as necessary, the department of revenue and finance shall forward to the county auditors of the several counties of the state, such prescribed sample forms. The director of revenue and finance shall have the power and authority to prescribe rules, not inconsistent with the provisions of this chapter, necessary to carry out and effectuate its purposes.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §426A.7]

426A.8 Excess remitted — appeals.

If the amount of credit apportioned to any property eligible to military service tax exemption under this chapter in any year shall exceed the total tax, exclusive of any special assessments levied against such property eligible for military service tax exemption, then the excess shall be remitted by the county treasurer to the department of revenue and finance to be redeposited in the general fund of the state and reallocated the following year by the department.

If any claim for exemption made has been denied by the board of supervisors, and the action is subsequently reversed on appeal, the same credit shall be allowed on the assessed valuation, not to exceed the amount of the military service tax exemption involved in the appeal, as was allowed on other military service tax exemption valuations for the year or years in question, and the director of revenue and finance, the county auditor, and the county treasurer shall credit and change their books and records accordingly.

If the appealing taxpayer has paid one or both of the installments of the tax payable in the year or years in question on such military service tax exemption valuation, remittance shall be made to the county treasurer in the amount of such credit.

The amount of the credit shall be allocated and paid from the surplus redeposited in the general fund of the state provided for in the first paragraph of this section.

If any claim is allowed, and subsequently reversed on appeal, any credit shall be void, and the amount of the credit shall be charged against the property in question, and the director of revenue and finance, the county auditor and the county treasurer shall correct their books and records. The amount of the erroneous credit, when collected, shall be returned by the county treasurer to the general fund of the state.

24. *Delayed claims.* In any case where no such claim for exemption has been made to the assessor prior to the time the assessor's books are completed, such claims may be filed with the local board of review or with the county auditor not later than July 1 of the year for which such exemption from taxation is claimed, and a proper assessment shall be made either by the board of review or by the county auditor, if said property is all or in part subject to taxation.

The director of revenue and finance shall give notice by mail to the societies or organizations claiming an exemption upon property, exemption of which is questioned before or by the director of revenue and finance, and any order made by the director of revenue and finance revoking or modifying an exemption is subject to judicial review in accordance with the Iowa administrative procedure Act. This exemption shall apply to new installations of pollution-control property beginning on January 1 after the construction or installation of the property is completed. This exemption shall apply beginning on January 1, 1975, to existing pollution-control property if its construction or installation was completed after September 23, 1970.

This exemption shall be limited to the market value, as defined in section 441.21, of the pollution-control property. If the pollution-control property is assessed with other property as a unit, this exemption shall be limited to the net market value added by the pollution-control property, determined as of the assessment date.

Application for this exemption shall be filed with the assessing authority not later than the first of February of the first year for which the exemption is requested, on forms provided by the department of revenue and finance. The application shall describe and locate the specific pollution-control property to be exempted.

The application for a specific pollution-control property shall be accompanied by a certificate of the administrator of the environmental protection division of the department of natural resources certifying that the primary use of the pollution-control property is to control or abate pollution of any air or water of this state or to enhance the quality of any air or water of this state.

A taxpayer may seek judicial review of a determination of the administrator of the environmental protection division or, on appeal, of the environmental protection commission in accordance with the provisions of chapter 17A.

The environmental protection commission of the department of natural resources shall adopt rules relating to certification under this subsection and information to be submitted for evaluating pollution-control property for which a certificate is requested. The department of revenue and finance shall adopt any rules necessary to implement this subsection, including rules on identification and valuation of pollution-control property. All rules adopted shall be subject to the provisions of chapter 17A.

For the purposes of this subsection "pollution-control property" means personal property or improvements to real property, or any portion thereof, used primarily to control or abate pollution of any air or water of this state or used primarily to enhance the quality of any air or water of this state. In the event such property shall also serve other purposes or uses of productive benefit to the owner of the property, only such portion of the assessed valuation thereof as may reasonably be calculated to be necessary for and devoted to the control or abatement of pollution or to the enhancement of the quality of the air or water of this state shall be exempt from taxation under this subsection.

For the purposes of this subsection "pollution" means air pollution as defined in section 455B.131 or water pollution as defined in section 455B.171. "Water of the state" means the water of the state as defined in section 455B.171. "Enhance the quality" means to diminish the level of pollutants below the air or water quality standards established by the environmental protection commission of the department of natural resources.

33. *Impoundment structures.* The impoundment structure and any land underlying an impoundment located outside an incorporated city, which are not developed or used directly or indirectly for nonagricultural income-producing purposes and which are maintained in a condition satisfactory to the soil and water conservation district commissioners of the county in which the impoundment structure and the impoundment are located. A person owning land which qualifies for a property tax exemption under this subsection shall apply to the county assessor each year before the first of July for the exemption. The application shall be made on forms prescribed by the department of revenue and finance. The first application shall be accompanied by a copy of the water storage permit approved by the administrator of the environmental protection division of the department of natural resources and a copy of the plan for the construction of the impoundment structure and the impoundment. The construction plan shall be used to determine the total acre-feet of the impoundment and the amount of land which is eligible for the property tax exemption status. The county assessor shall annually review each application for the property tax exemption under this subsection and submit it, with the recommendation of the soil and water conservation district commissioners, to the board of supervisors for approval or denial. An applicant for a property tax exemption under this subsection may appeal the decision of the board of supervisors to the district court. As used in this subsection, *"impoundment"* means a reservoir or pond which has a storage capacity of at least eighteen acre-feet of water or sediment at the time of construction; *"storage capacity"* means the total area below the crest elevation of the principal spillway including the volume of any excavation in the area; and *"impoundment structure"* means a dam, earthfill, or other structure used to create an impoundment.

34. *Low-rent housing.* The property owned and operated by a nonprofit organization providing low-rent housing for the elderly and the physically and mentally handicapped. The exemption granted under the provisions of this subsection shall apply only until the terms of the original low-rent housing development mortgage is paid in full or expires, subject to the provisions of subsections 23 and 24.

35. Reserved.

36. *Natural conservation or wildlife areas.* Recreational lakes, forest covers, rivers and streams, river and stream banks, and open prairies as designated by the board of supervisors of the county in which located. The board of supervisors shall annually designate the real property, not to exceed in the aggregate for the fiscal year beginning July 1, 1983, the greater of one percent of the acres assessed as agricultural land or three thousand acres in each county, for which this exemption shall apply. For subsequent fiscal years, the limitation on the maximum acreage of real property that may be granted exemptions shall be the limitation for the previous fiscal year, unless the amount of acreage granted exemptions for the previous fiscal year equaled the limitation for that year, then the limitation for the subsequent fiscal year is the limitation for the previous fiscal year plus an increase, not to exceed three hundred acres, of ten percent of that limitation. The procedures of this subsection shall be followed for each assessment year to procure an exemption for the fiscal year beginning in the assessment year. The exemption shall be only for the fiscal year for which it is granted. A parcel of property may be granted subsequent exemptions. The exemption shall only be granted for parcels of property of two acres or more.

Application for this exemption shall be filed with the commissioners of the soil and water conservation district in which the property is located, not later than April 15 of the assessment year, on forms

provided by the department of revenue and finance. The application shall describe and locate the property to be exempted and have attached to it an aerial photo of that property on which is outlined the boundaries of the property to be exempted. In the case of an open prairie which is or includes a gully area susceptible to severe erosion, an approved erosion control plan must accompany the application. Upon receipt of the application, the commissioners shall certify whether the property is eligible to receive the exemption. The commissioners shall not withhold certification of the eligibility of property because of the existence upon the property of an abandoned building or structure which is not used for economic gain. If the commissioners certify that the property is eligible, the application shall be forwarded to the board of supervisors by May 1 of that assessment year with the certification of the eligible acreage. An application must be accompanied by an affidavit signed by the applicant that if an exemption is granted, the property will not be used for economic gain during the assessment year in which the exemption is granted.

Before the board of supervisors may designate real property for the exemption, it shall establish priorities for the types of real property for which an exemption may be granted and the amount of acreage. These priorities may be the same as or different than those for previous years. The board of supervisors shall get the approval of the governing body of the city before an exemption may be granted to real property located within the corporate limits of that city. A public hearing shall be held with notice given as provided in section 23.2 at which the proposed priority list shall be presented. However, no public hearing is required if the proposed priorities are the same as those for the previous year. After the public hearing, the board of supervisors shall adopt by resolution the proposed priority list or another priority list. Property upon which are located abandoned buildings or structures shall have the lowest priority on the list adopted, except where the board of supervisors determines that a structure has historic significance. The board of supervisors shall also provide for a procedure where the amount of acres for which exemptions are sought exceeds the amount the priority list provides for that type or in the aggregate for all types.

After receipt of an application with its accompanying certification and affidavit and the establishment of the priority list, the board of supervisors may grant a tax exemption under this subsection using the established priority list as a mandate. Real property designated for the tax exemption shall be designated by May 15 of the assessment year in which begins the fiscal year for which the exemption is granted. Notification shall be sent to the county auditor and the applicant.

The board of supervisors does not have to grant tax exemptions under this subsection, grant tax exemptions in the aggregate of the maximum acreage which may be granted exemptions, or grant a tax exemption for the total acreage for which the applicant requested the exemption. Only real property in parcels of two acres or more which is recreational lakes, forest cover, river and stream, river and stream banks, or open prairie and which is utilized for the purposes of providing soil erosion control or wildlife habitat or both, and which is subject to property tax for the fiscal year for which the tax exemption is requested, is eligible for the exemption under this subsection. However, in addition to the above, in order for a gully area which is susceptible to severe erosion to be eligible, there must be an erosion control plan for it approved by the commissioners of the soil and water conservation district in which it is located. In the case of an exemption for river and stream or river and stream banks, the exemption shall not be granted unless there is included in the exemption land located at least thirty-three feet from the ordinary high water mark of the river and stream or river and stream banks. Property shall not be denied an exemption because of the existence upon the property of an abandoned building or structure which is not used for economic gain. If the real property is located within a city, the approval of the governing body must be obtained before the real property is eligible for an exemption. For purposes of this subsection:

a. "Open prairies" includes hillsides and gully areas which have a permanent grass cover but does not include native prairies meeting the criteria of the natural resource commission.

b. "Forest cover" means land which is predominantly wooded.

c. "Recreational lake" means a body of water, which is not a river or stream, owned solely by a nonprofit organization and primarily used for boating, fishing, swimming and other recreational purposes.

d. "Used for economic gain" includes, but is not limited to, using property for the storage of equipment, machinery, or crops.

Notwithstanding other requirements under this subsection, the owner of any property lying between a river or stream and a dike which is required to be set back three hundred feet or less from the river or stream shall automatically be granted an exemption for that property upon submission of an application accompanied by an affidavit signed by the applicant that if the exemption is granted the property will not be used for economic gain during the period of exemption. The exemption shall continue from year to year for as long as the property qualifies and is not used for economic gain, without need for filing additional applications or affidavits. Property exempted pursuant to this paragraph is in addition to the maximum acreage applicable to other exemptions under this subsection.

37. *Native prairie and wetland.* Land designated as native prairie or land designated as a protected wetland by the department of natural resources pursuant to section 108.12. Application for the exemption shall be made on forms provided by the department of revenue and finance. Land designated as a protected wetland shall be assessed at a value

equal to the average value of the land where the wetland is located and which is owned by the person granted the exemption. The application forms shall be filed with the assessing authority not later than the first of February of the year for which the exemption is requested. The application must be accompanied by an affidavit signed by the applicant that if the exemption is granted, the property will not be used for economic gain during the assessment year in which the exemption is granted. If the property is used for economic gain during the assessment year in which the exemption is granted, the property shall lose its tax exemption and shall be taxed at the rate levied by the county for the fiscal year beginning in that assessment year. The first annual application shall be accompanied by a certificate from the department of natural resources stating that the land is native prairie or protected wetland. The department of natural resources shall issue a certificate for the native prairie exemption if the board or department finds that the land has never been cultivated, is unimproved, is primarily a mixture of warm season grasses interspersed with flowering plants, and meets the other criteria established by the natural resource commission for native prairie. The department of natural resources shall issue a certificate for the wetland exemption if the department finds the land is a protected wetland, as defined under section 108.1, or if the wetland was previously drained and cropped but has been restored under a nonpermanent restoration agreement with the department or other county, state, or federal agency or private conservation group. A taxpayer may seek judicial review of a decision of the department according to chapter 17A. The natural resource commission shall adopt rules to implement this subsection.

The assessing authority each year may submit to the department a claim for reimbursement of tax revenue lost from the exemption. Upon receipt of the claim, the department shall reimburse the assessing authority an amount equal to the lost tax revenue based on the value of the protected wetland as assessed by the authority, unless the department reimburses the authority based upon a departmental assessment of the protected wetland. The authority may contest the department's assessment as provided in chapter 17A. The department is not required to honor a claim submitted more than sixty days after the authority has assessed land where the protected wetland is located and which is owned by the person granted the exemption.

38. *Land certified as a wildlife habitat.* The owner of agricultural land may designate not more than two acres of the land for use as a wildlife habitat. After inspection, if the land meets the standards established by the natural resource commission for a wildlife habitat under section 110.3, the department of natural resources shall certify the designated land as a wildlife habitat and shall send a copy of the certification to the appropriate assessor. The department of natural resources may subsequently withdraw certification of the designated land if it fails to meet the established standards for a wildlife habitat and the assessor shall be given written notice of the decertification.

39. *Right-of-way.* Railroad right-of-way and improvements on the right-of-way only during that period of time that the Iowa railway finance authority holds an option to purchase the right-of-way under section 307B.24.

40. *Public television station.* All grounds and buildings used or under construction for a public television station and not leased or otherwise used or under construction for pecuniary profit.

41. *Speculative shell buildings of community development organizations.* New construction of shell buildings by community development organizations for speculative purposes or the portion of the value added to buildings being reconstructed or renovated by community development organizations in order to become speculative shell buildings. The exemption or partial exemption shall be allowed only pursuant to ordinance of a city council or board of supervisors and shall be effective for the assessment year in which the building is first assessed for property taxation or the assessment year in which the reconstruction or renovation first adds value and all subsequent years until the property is leased or sold or for a specific time period stated in the ordinance or until the exemption is terminated by ordinance of the city council or board of supervisors which approved the exemption. If the shell building or any portion of the shell building is leased or sold, the portion of the shell building which is leased or sold shall not be entitled to an exemption under this subsection for subsequent years. An application shall be filed pursuant to section 427B.4 for each project for which an exemption is claimed. Upon the sale of the shell building, the shell building shall be considered new construction for purposes of section 427B.1 if used for purposes set forth in section 427B.1.

For purposes of this subsection the following definitions apply:

a. (1) *"Community development organization"* means an organization, which meets the membership requirements of subparagraph (2), formed within a city or county or multicommunity group for one or more of the following purposes:

c. "Speculative shell building" means a building or structure owned and constructed or reconstructed by a community development organization without a tenant or buyer for the purpose of attracting an employer or user which will complete the building to the employer's or user's specification for manufacturing, processing, or warehousing the employer's or user's product line.

427.2 Taxable property acquired through eminent domain.

Real estate occupied as a public road, and rights of way for established public levees and rights of way for established, open, public drainage improvements shall not be taxed.

When land or rights in land are acquired in con-

nection with or for public use or public purposes, the acquiring authority shall assist in the collection of property taxes and special assessments. However, assistance in the collection of the property taxes does not require the payment of property taxes on the property acquired which exceed the amount of just compensation offered as required by section 472.45 for the acquisition of the property.

The property owner shall pay all property taxes which are due and payable when the property owner surrenders possession of the property acquired and also those which become due and payable for the fiscal year the property is acquired in an amount equal to one-twelfth of the taxes due and payable on the property acquired for the preceding fiscal year multiplied by the number of months in the fiscal year in which the property was acquired which elapsed prior to the month in which the property owner surrenders possession, and including that month if the surrender of possession occurs after the fifteenth day of a month. For purposes of computing the payments, the property owner has surrendered possession of property acquired by eminent domain proceedings when the acquiring authority has the right to obtain possession of the acquired property as authorized by law. When all of the property is acquired for public use or public purposes, the property owner shall pay all special assessments in full which have been certified to the county treasurer for collection before the possession date of the acquiring authority. When part but not all of the property is acquired for public use or public purposes, taxing authorities may collect property taxes and special assessments which the property owner is obligated to pay, in accordance with chapter 446, from that part of the property which is not acquired. The county treasurer shall collect and accept the payment received on property acquired for public use or public purposes as full and final payment of all property tax on the property.

For that portion of the prorated year for which the acquiring authority has possession of the property or part of the property acquired in connection with or for public use or public purposes, all taxes shall be canceled by the county treasurer.

From the date of possession by the acquiring authority for land or rights in land acquired in connection with or for public use or public purposes, and for as long as ownership is retained by the acquiring authority, a special assessment shall not be certified to the county treasurer for collection while under public ownership. However, the assessment may be certified for collection to the county treasurer upon the sale of the acquired property by the acquiring authority to a new owner on a prorated basis. Special assessments certified to a county treasurer for collection while under public ownership shall be canceled by the county treasurer.

Upon sale of the acquired property by the acquiring authority to a new owner, the new owner shall pay all property taxes which become due and payable or would have become due and payable but for the acquisition by the acquiring authority for the fiscal year the property is acquired by the new owner in an amount equal to one-twelfth of the taxes multiplied by the number of months in the fiscal year in which the new owner acquired the property which occurred after the month in which the new owner acquired the property.

427.3 Military service — exemptions.

The following exemptions from taxation shall be allowed:

1. The property, not to exceed eleven thousand one hundred eleven dollars in taxable value of an honorably discharged union soldier, sailor, or marine of the Mexican war or the war of the rebellion.

2. The property, not to exceed six thousand six hundred sixty-seven dollars in taxable value of an honorably discharged soldier, sailor, marine or nurse of the war with Spain, Tyler Rangers, Colorado volunteers in the war of the rebellion, 1861 to 1865, Indian wars, Chinese relief expedition or Philippine insurrection.

3. The property, not to exceed two thousand seven hundred seventy-eight dollars in taxable value of any honorably discharged soldier, sailor, marine, or nurse of the first World War.

4. In case any person in the foregoing classifications does not claim any such exemption from taxation, it shall be allowed in the name of such person to the same extent on the property of any one of the following persons in the order named:

1. The spouse, or surviving spouse remaining unmarried, of any such soldier, sailor, marine, or nurse, where they are living together or were living together at the time of the death of such person.

2. The parent whose spouse is deceased and who remains unmarried, of any such soldier, sailor, marine, or nurse, whether living or deceased, where such parent is, or was at the time of death of the soldier, sailor, marine, or nurse, dependent on such person for support.

3. The minor child, or children owning property as tenants in common, of any such deceased soldier, sailor, marine, or nurse.

No more than one tax exemption shall be allowed under this section or section 427.3 in the name of any honorably discharged soldier, sailor, marine, or nurse.

427.5 Claim for military tax exemption — discharge recorded.

A person named in section 427.3, who is a resident of and domiciled in the state of Iowa, shall receive a reduction equal to the exemption, to be made from any property owned by the person and so designated by proceeding as provided in the section. To be eligible to receive the exemption the person claiming it shall have recorded in the office of the county recorder of the county in which is located the property designated for the exemption, evidence of property ownership and the military certificate of satisfactory service, order transferring to inactive status, reserve, retirement, order of separation from service, honorable discharge or a copy of any of these documents of the person claiming or through whom is claimed the exemption.

The person shall file with the appropriate assessor on forms obtained from the assessor the claim for exemption for the year for which the person is first claiming the exemption. The claim shall be filed not later than July 1 of the year for which the person is claiming the exemption. The claim shall set out the fact that the person is a resident of and domiciled in the state of Iowa, and a person within the terms of section 427.3, and shall give the volume and page on which the certificate of satisfactory service, order of separation, retirement, furlough to reserve, inactive status, or honorable discharge or certified copy thereof is recorded in the office of the county recorder, and may include the designation of the property from which the exemption is to be made, and shall further state that the claimant is the equitable or legal owner of the property designated.

Upon the filing and allowance of the claim, the claim shall be allowed to that person for successive years without further filing. Provided, that notwithstanding the filing or having on file a claim for exemption, the person or person's spouse is the legal or equitable owner of the property on July 1 of the year for which the claim is allowed. When the property is sold or transferred or the person wishes to designate different property for the exemption, a person who wishes to receive the exemption shall refile for the exemption. A person who sells or transfers property which is designated for the exemption or the personal representative of a deceased person who owned such property shall provide written notice to the assessor that the property is no longer legally or equitably owned by the former claimant.

In case the owner of the property is in active service in any of the armed forces of the United States or of this state, including the nurses corps of the state or of the United States, or is sixty-five years of age or older, or is disabled, the claim may be filed by any member of the owner's family, by the owner's guardian or conservator, or by any other person who may represent the owner under power of attorney. In all cases where the owner of the property is married, the spouse may file the claim for exemption. A person may not claim an exemption in more than one county of the state, and if a designation is not made the exemption shall apply to the homestead, if any.

The failure of a person to file a claim under this section before July 1 of the year for which the person is first claiming the exemption or to have evidence of property ownership and satisfactory service, separation, retirement, furlough to reserve, inactive status, or honorable discharge recorded in the office of the county recorder does not disqualify the claim if the person claiming the exemption or through whom the exemption is claimed is otherwise qualified. The belated claim shall be filed with the appropriate assessor on or before December 31 of the following calendar year and, if approved by the board of supervisors, the county treasurer shall file an amended certificate of military service tax credits with the director of revenue and finance pursuant to section 426A.3.

427.6 Allowance — continuing effectiveness.

The assessor shall retain a permanent file of current military service tax exemption claims filed in the assessor's office. The assessor shall file a notice of transfer of property for which a claim is filed when notice is received from the office of the county recorder, from the person who sold or transferred the property, or from the personal representative of a deceased claimant.

The county recorder shall give notice to the assessor of each transfer of title filed in the recorder's office. The notice shall describe the property transferred, the name of the person transferring the title to the property, and the name of the person to whom title to the property has been transferred.

Not later than July 6 of each year, the assessor shall remit the claims and designations of property to the county auditor with the assessor's recommendation for allowance or disallowance. If the assessor recommends disallowance of a claim, the assessor shall submit the reasons for the recommendation, in writing, to the county auditor.

The county auditor shall forward the claims to the board of supervisors. The board shall allow or disallow the claims. If the board disallows a claim, it shall send written notice, by mail, to the claimant at the claimant's last known address. The notice shall state the reasons for disallowing the claim for the exemption.

Any person whose claim is denied under the provisions of this chapter may appeal from the action of the board of supervisors in the district court of the county in which said claimed military service tax exemption is situated by giving written notice of such appeal to the county auditor of said county within twenty days from the date of mailing of notice of such action by the board of supervisors.

Upon adoption of a resolution by the county board of supervisors, any person may request, in writing, from the appropriate assessor forms for the filing for a military service tax exemption. The person may complete the form, which shall include a statement claiming the military service tax exemption and designating the property upon which the tax exemption is claimed, and mail or return it to the appropriate assessor. The signature of the claimant on the claim shall be considered the claimant's acknowledgment that all statements and facts entered on the form are correct to the best of the claimant's knowledge.

There is hereby granted a credit of not to exceed ten thousand dollars against the assessed value of tangible personal property as defined in section 427A.1, owned by a person or business enterprise.

For the purposes of this section:

1. *"Person"* means an individual, partnership, joint venture, association, corporation, trust, or estate.

2. *"Business enterprise"* means a person engaged in business.

[C71, 73, 75, 77, 79, 81, §427A.2]

427A.3 Property must be listed.

The personal property tax credit authorized by this chapter does not excuse the taxpayer from listing all personal property as required in chapter 428. However, if the reduced assessment for January 1 of any year is less than the credit allowed under section 427A.2 and the additional credit allowed under section 427A.9, against the previous year's assessment, the assessor is not required to contact the taxpayer in any succeeding year if the assessor determines that the personal property valuation of the taxpayer will not be greater than the amount of the credit and the taxpayer has a claim on file in the assessor's office. The valuation of the personal property shall be determined as prescribed in chapter 441, so that the valuations of all personal property in a taxing district shall be known and shall be made a part of the tax list compiled by the county auditor under chapter 443.

[C71, 73, 75, 77, 79, 81, §427A.3; 82 Acts, ch 1190, §1]

427A.4 Limit of credit.

No person or business enterprise in the state shall be allowed a credit on personal property tax in excess of ten thousand dollars assessed valuation. Any person or business enterprise who owns personal property subject to taxation in more than one county of the state shall designate in reporting such property to the assessor for the purpose of assessment as required in section 427A.1 in which counties of the state the property is located and may claim the entire credit in one county or a proportionate part thereof in each county where the property is situated, and in no case shall the person or enterprise claim more than the ten thousand dollars assessed value for all personal property assessed in all counties.

Each year, on or before July 1, a taxpayer who has not previously filed an application with the assessor shall deliver to the assessor an application for personal property tax credit and state by the affidavit filed in each county where the taxpayer's personal property is situated, that the taxpayer has not claimed a total personal property tax credit in all counties in excess of a total of ten thousand dollars assessed valuation. A claim filed in 1982 and thereafter is applicable for the year in which the claim is filed and the succeeding years.

The assessor shall examine claims for the credit filed in the assessor's office and recommend the disallowance of any claim if it appears that an owner of tangible personal property has attempted to divide the ownership of the property for purpose of obtaining additional credit beyond the amount of ten thousand dollars in a year.

If any person fails to make application for the credits provided for under this chapter, the person is deemed to have waived the personal property tax credit.

Any person making a false affidavit for the purpose of obtaining the credit provided for in this section, or who knowingly receives such credit without being legally entitled thereto, or who makes claim for credit of more than ten thousand dollars in the state shall be guilty of a fraudulent practice.

[C71, 73, 75, 77, 79, 81, S81, §427A.4; 81 Acts, ch 140, §1, 2, 4; 82 Acts, ch 1190, §2-4]

427A.5 Jointly owned property — division of credit.

If personal property is owned separately by a husband and wife, they may divide the credit or one may take the entire credit, but in no case may a husband and wife receive a total credit of more than ten thousand dollars unless husband, wife or minor children own farm units separately. If personal property is owned by separate business enterprises and the business enterprises are controlled or owned by the same person, the separate business enterprises may divide the credit or one may take the entire credit, but in no case may separate business enterprises which are controlled or owned by the same person receive a total exemption of more than ten thousand dollars.

Business enterprises are controlled or owned by the same person if over fifty percent of their assets or shares of stock are controlled or owned by the same person, or if they are in fact controlled and managed by the same person, regardless of how actual title to the assets or shares of stock are held. The assessor shall deliver the sworn affidavits to the county auditor by August 1 of each year.

[C71, 73, 75, 77, 79, 81, §427A.5]

427A.6 Listing by auditor.

On or before July 1 of each year, the auditor of each county shall prepare a statement listing for each taxing district in the county all personal property upon which taxes shall not be collected due to the tax credit granted in this chapter. The statement shall show the tax rates of the various taxing districts and the total amount of taxes which shall not be collected in each district because of the tax credit. The auditor shall certify and forward one copy of the statement to the department of revenue and finance on or before July 15 of each year. The department of revenue and finance shall audit credits allowed in all counties in the state and the assessed values and assessment practices which affect the amounts of credits and the audit shall be completed within twenty-four months from July 1 of the year the claims were filed. A copy of the audit containing disallowed credits shall be sent to the county auditor and the county treasurer and these officers shall be directed to correct their books and records accordingly. A written notice of a disallowance shall be mailed by ordinary mail to the claimant at the claimant's last known address. The amount of any erroneous credit shall be charged to the county. The director of revenue and finance shall disallow any claim if the audit or investigation revealed that the claimant was not entitled to the credit claimed. Claimants may appeal any disallowed personal property credit to the state board of tax review.

PERSONAL PROPERTY TAX PHASEOUT

427A.9 Additional personal property tax credit.

Each taxpayer entitled to the personal property tax credit granted pursuant to sections 427A.1 to 427A.5 of this chapter is granted an additional personal property tax credit against the taxpayer's assessed value of personal property which would otherwise be taxable in the tax year.

The amount of the additional personal property tax credit shall be a fixed amount for each tax year. The amount of the additional personal property tax credit shall be increased for the extended tax year beginning January 1, 1974, and ending June 30, 1975, and shall be increased for each tax year immediately following a tax year in which the growth of state general fund revenues, adjusted for changes in rate or basis, exceeds five and one-half percent, except that the amount of the additional personal property tax credit for taxes payable in each year of the fiscal period beginning July 1, 1977 and ending June 30, 1979 shall not exceed the amount of the additional personal property tax credit allowed for taxes payable in the fiscal year beginning July 1, 1976 and ending June 30, 1977, the amount of the additional personal property tax credit for taxes payable in the fiscal year beginning July 1, 1980 and ending June 30, 1981 shall not exceed the amount of the additional personal property tax credit allowed for taxes payable in the fiscal year beginning July 1, 1979 and ending June 30, 1980, and the amount of the additional personal property tax credit for taxes payable in the fiscal year beginning July 1, 1986 and ending June 30, 1987 shall not exceed the amount of the additional personal property tax credit allowed for taxes payable in the fiscal year beginning July 1, 1985 and ending June 30, 1986. An increase in the additional personal property tax credit, once granted, shall continue for each succeeding tax year. For the purposes of this chapter the director of management may estimate the state percent of growth if necessary to avoid delay in the collection of taxes. All taxes on personal property shall be repealed as provided in the following section. The director of revenue and finance and the director of management, jointly, shall determine the amount of the credit for each such tax year. Such amount shall be the maximum amount, rounded to the nearest ten dollars, which will permit complete funding of the replacement obligation under this division, including the replacement obligation for the tax credit granted pursuant to sections 427A.1 to 427A.5, out of the appropriation provided in this chapter.

Notwithstanding the provisions of this section which require an increase in general fund revenues in excess of five and one-half percent, adjusted for changes in rate or basis, to increase the personal property tax credit, the amount of the personal property tax credit, to be allowed for taxes payable in the fiscal year beginning July 1, 1982 and ending June

30, 1983 and in the fiscal year beginning July 1, 1985 and ending June 30, 1986 shall be increased as provided in this section.

As used in this division "additional personal property tax credit" means the additional personal property tax credit granted pursuant to this section.

As used in this division "tax year" means the year in which taxes are payable.

No application shall be required for the additional personal property tax credit. The assessor and county auditor shall take all necessary action to assure that each taxpayer receives the credit.

427A.10 Phaseout of tax.

Effective on July 1, 1987, all taxes on personal property as defined in section 427A.1 are repealed. For assessment years beginning on or after January 1, 1986 personal property shall not be listed or assessed. This section shall prevail over all inconsistent statutes.

427A.11 Limit on assessment.

For each annual assessment of personal property through the final assessment, the total assessed value of all personal property in each assessing jurisdiction shall not exceed the total actual value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. The assessor shall determine the assessed value of all taxable personal property in accordance with chapter 441. If the total assessed value exceeds the limitation established by this section, the assessor shall reduce the assessed value of each taxpayer's personal property after the board of review adjourns and prior to certifying values to the county auditor, by the same percentage, so that the total assessed value of all personal property in the assessing jurisdiction shall be equal to the total actual value of all personal property in the assessing jurisdiction as of January 1, 1973, excluding livestock. The assessor shall inform taxpayers of any percentage that the value of personal property is reduced in the assessor jurisdiction by publication of notice in a newspaper of general circulation in the city or county. This section shall prevail over all inconsistent statutes.

[C75, 77, 79, 81, §427A.11]

427A.12 Replacement fund.

1. A personal property tax replacement fund is established as a permanent fund in the office of the treasurer of state, for the purpose of reimbursing the taxing districts for their loss of revenue from personal property taxes due to the provisions of this chapter, determined as provided in this section.

2. On or before January 15, 1974, the county auditor of each county shall prepare a statement listing for each taxing district in the county:

a. The total assessed value of all personal property assessed for taxation as of January 1, 1973, excluding livestock but including other personal property eligible for tax credits granted by this chapter.

b. The millage rate of each taxing district levied in 1972 and payable in 1973.

c. The personal property tax replacement base for each taxing district, which shall be equal to the amount determined pursuant to paragraph *"a"* of this subsection multiplied by the millage rate specified in paragraph *"b"*.

3. The county auditor shall certify and forward one copy each of the statement to the state comptroller and to the director of revenue not later than January 15, 1974. The director of revenue shall make any necessary corrections and certify to the state comptroller the amount of the personal property tax replacement base for each taxing district in the state, determined pursuant to subsection 2.

4. The personal property tax replacement base for each taxing district is permanent and shall not be adjusted, except that the department of management shall make any necessary corrections and shall make appropriate adjustments to reflect mergers, annexations, and other changes in taxing districts or their boundaries.

5. For each state fiscal year ending with or before the year in which the ninth increase in the additional personal property tax credit under this division becomes effective, each taxing district shall be reimbursed from the personal property tax replacement fund in an amount equal to its personal property tax replacement base multiplied by a fraction the numerator of which is the total assessed value of all personal property, excluding livestock, in the taxing district, on which taxes are not payable during the fiscal year because of the various tax credits granted by this chapter, and the denominator of which is the total assessed value of all personal property in the taxing district, excluding livestock but including other personal property eligible for tax credits granted by this chapter. For the half year beginning January 1, 1974, and ending June 30, 1974, the amount of reimbursement shall be half the amount determined pursuant to this subsection. The county auditor shall certify and forward to the director of the department of management and the director of revenue and finance, at the times and in the form directed by the director of the department of management, any information needed for the purposes of this subsection. The director of the department of management shall make any necessary corrections and certify the appropriate information to the director of revenue and finance.

6. The amount due each taxing district shall be paid in the form of warrants payable to the respective county treasurers by the director of revenue and finance on May 15 of each fiscal year, taking into consideration the relative budget and cash position of the state resources. For the fiscal year beginning July 1, 1984 and ending June 30, 1985, one-half of the amount due each taxing district shall be paid to the respective county treasurers by the state comp-

troller on May 15, 1985. For the fiscal year beginning July 1, 1985 and ending June 30, 1986, and for each succeeding fiscal year the amount due each taxing district shall be paid in the form of warrants payable to the respective county treasurers by the director of revenue and finance on July 15 and May 15 of that fiscal year, taking into consideration the relative budget and cash position of the state resources. The July 15 payment shall be equal to the amount paid on May 15 of the preceding fiscal year and the payments received shall be an account receivable for each taxing district for the preceding fiscal year. The May 15 payment is equal to one-half of the amount of the additional personal property tax credit payable for the fiscal year. The county treasurer shall pay the proceeds to the various taxing districts in the county.

7. It is the intent of the general assembly that the amounts appropriated by this division shall be sufficient to pay in full the amounts due to all taxing districts. If, for any fiscal year the amount appropriated to the personal property tax replacement fund is insufficient to pay in full the amounts due to all taxing districts, then the amount of each payment shall be reduced by the same percentage, so that the aggregate payments to all taxing districts shall be equal to the amount appropriated for such payments.

427A.13 Appropriation.

There is appropriated from the general fund of the state to the personal property tax replacement fund the following sums, or so much thereof as may be necessary, to carry out the provisions of this chapter as amended by this division. For the fiscal year beginning July 1, 1973, and ending June 30, 1974, there is appropriated the sum of thirty-one million nine hundred thousand dollars. For the fiscal year beginning July 1, 1974, and ending June 30, 1975, and each succeeding fiscal year, there is appropriated the sum of thirty-five million seven hundred thousand dollars. For the fiscal year beginning July 1, 1983, and ending June 30, 1984, the total appropriation shall be forty-six million two hundred thousand dollars. For the fiscal year beginning July 1, 1984, and ending June 30, 1985, the total appropriation shall be twenty-three million one hundred thousand dollars. In each fiscal year for which an increase in the additional personal property tax credit becomes effective as provided in this division, the appropriation under this section shall be increased by three million eight hundred thousand dollars, and this increased appropriation shall continue for each succeeding fiscal year. For the fiscal year beginning July 1, 1987, the total appropriation shall be fifty-seven million five hundred thousand dollars. DIVISION I

INDUSTRIAL PROPERTY AND CATTLE FACILITIES ACTUAL VALUE ADDED EXEMPTION

427B.1 Actual value added exemption from tax — public hearing.

A city council, or a county board of supervisors as authorized by section 427B.2, may provide by ordinance for a partial exemption from property taxation of the actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, distribution centers and the acquisition of or improvement to machinery and equipment assessed as real estate pursuant to section 427A.1, subsection 1, paragraph *"e"*. *"New construction"* means new buildings and structures and includes new buildings and structures which are constructed as additions to existing buildings and structures. *"New construction"* does not include reconstruction of an existing building or structure which does not constitute complete replacement of an existing building or structure or refitting of an existing building or structure, unless the reconstruction of an existing building or structure is required due to economic obsolescence and the reconstruction is necessary to implement recognized industry standards for the manufacturing and processing of specific products and the reconstruction is required for the owner of the building or structure to continue to competitively manufacture or process those products which determination shall receive prior approval from the city council of the city or the board of supervisors of the county upon the recommendation of the Iowa department of economic development. The exemption shall also apply to new machinery and equipment assessed as real estate pursuant to section 427A.1, subsection 1, paragraph *"e"*, unless the machinery or equipment is part of the normal replacement or operating process to maintain or expand the existing operational status. *"Research-service facilities"* means a building or group of buildings devoted primarily to research and development activities, including, but not limited to, the design and production or manufacture of prototype products for experimental use, and corporate-research services which do not have a primary purpose of providing on-site services to the public. *"Warehouse"* means a building or structure used as a public warehouse for the storage of goods pursuant to chapter 554, article 7, except that it does not mean a building or structure used primarily to store raw agricultural products or from which goods are sold at retail. *"Distribution center"* means a building or structure used primarily for the storage of goods which are intended for subsequent shipment to retail outlets. *"Distribution center"* does not mean a building or structure used primarily to store raw agricultural products, used primarily by a manufacturer to

store goods to be used in the manufacturing process, used primarily for the storage of petroleum products, or used for the retail sale of goods.

The ordinance may be enacted not less than thirty days after a public hearing is held in accordance with section 358A.6 in the case of a county, or section 362.3 in the case of a city. The ordinance shall designate the length of time the partial exemption shall be available and may provide for an exemption schedule in lieu of that provided in section 427B.3. However, an alternative exemption schedule adopted shall not provide for a larger tax exemption in a particular year than is provided for that year in the schedule contained in section 427B.3.

427B.2 Zoning under chapter 358A.

1. The board of supervisors of a county which has appointed a county zoning commission and provided for county zoning under chapter 358A may provide for a partial exemption from property taxation of the actual value added to industrial real estate as provided under section 427B.1.

2. The board of supervisors of a county which has not appointed a zoning commission may provide for a partial exemption from property taxation of the actual value added to industrial real estate as provided under section 427B.1 in the following areas:

a. Outside the incorporated limits of a city to which a city has extended its zoning ordinance pursuant to section 414.23 which complies with the city's zoning ordinance.

b. Outside the incorporated limits of a city which has adopted a zoning ordinance but which has not extended the ordinance to the area permitted under section 414.23 if the property would be within the area to which a city may extend a zoning ordinance pursuant to section 414.23.

c. Outside the incorporated limits of a city which has not adopted a zoning ordinance but which would be within the area to which a city may extend a zoning ordinance pursuant to section 414.23.

3. The board of supervisors of a county which has not appointed a zoning commission may provide for a partial exemption from property taxation of the actual value added to industrial real estate as provided under section 427B.1 in an area where the partial exemption could not otherwise be granted under this chapter where the actual value added is to industrial real estate existing on July 1, 1979.

To grant an exemption under the provisions of this section, the county board of supervisors shall comply with all of the requirements imposed by this chapter upon the city council of a city.

[C81, §427B.2; 82 Acts, ch 1104, §21-23]

427B.3 Period of partial exemption.

The actual value added to industrial real estate for the reasons specified in section 427B.1 is eligible to receive a partial exemption from taxation for a period of five years. However, if property ceases to be classified as industrial real estate or ceases to be used as a warehouse or distribution center, the partial exemption for the value added shall not be allowed for subsequent assessment years. "Actual value added" as used in this chapter means the actual value added as of the first year for which the exemption is received, except that actual value added by improvements to machinery and equipment means the actual value as determined by the assessor as of January 1 of each year for which the exemption is received. The amount of actual value added which is eligible to be exempt from taxation shall be as follows:

1. For the first year, seventy-five percent.
2. For the second year, sixty percent.
3. For the third year, forty-five percent.
4. For the fourth year, thirty percent.
5. For the fifth year, fifteen percent.

This schedule shall be followed unless an alternative schedule is adopted by the city council of a city or the board of supervisors of a county in accordance with section 427B.1.

However, the granting of the exemption under this section for new construction constituting complete replacement of an existing building or structure shall not result in the assessed value of the industrial real estate being reduced below the assessed value of the industrial real estate before the start of the new construction added.

[C81, §427B.3]
84 Acts, ch 1232, §3

427B.4 Application for exemption by property owner.

An application shall be filed for each project resulting in actual value added for which an exemption is claimed. The application for exemption shall be filed by the owner of the property with the local assessor by February 1 of the assessment year in which the value added is first assessed for taxation. Applications for exemption shall be made on forms prescribed by the director of revenue and shall contain information pertaining to the nature of the improvement, its cost, and other information deemed necessary by the director of revenue.

A person may submit a proposal to the city council of the city or the board of supervisors of a county to receive prior approval for eligibility for a tax exemption on new construction. The city council or the board of supervisors, by ordinance, may give its prior approval of a tax exemption for new construction if the new construction is in conformance with the zoning plans for the city or county. The prior approval shall also be subject to the hearing requirements of section 427B.1. Prior approval does not entitle the owner to exemption from taxation until the new construction has been completed and found to be qualified real estate. However, if the tax exemption for new construction is not approved, the person may submit an amended proposal to the city council or board of supervisors to approve or reject.

[C81, §427B.4; 82 Acts, ch 1104, §24]

427B.5 Exemption may be repealed.

When in the opinion of the city council or the county board of supervisors continuation of the exemption granted by this chapter ceases to be of benefit to the city or county, the city council or the county board of supervisors may repeal the ordinance authorized by section 427B.1, but all existing exemptions shall continue until their expiration.

[C81, §427B.5]

427B.6 Dual exemptions prohibited.

A property tax exemption under this chapter shall not be granted if the property for which the exemption is claimed has received any other property tax exemption authorized by law.

[C81, §427B.6]

427B.7 Actual value added exemption from tax — cattle facilities.

A city council, or a county board of supervisors as authorized by section 427B.2, may, by ordinance as provided in section 427B.1, establish a partial exemption from property taxation of the actual value added to owner-operated cattle facilities, including small or medium sized feedlots but not including slaughter facilities, either by new construction or by the retrofitting of existing facilities. The application for the exemption shall be filed pursuant to section 427B.4. The actual value added to owner-operated cattle facilities, as specified in section 427B.1, is eligible to receive a partial exemption from taxation for a period of five years. The amount of actual value added which is eligible to be exempt from taxation is the same as provided in the exemption schedule in section 427B.3.

87 Acts, ch 169, §10

DIVISION II

SPECIAL VALUATION FOR MACHINERY AND COMPUTERS ACQUIRED OR LEASED ON OR BEFORE JANUARY 1, 1985

427B.10 Property subject to special valuation.

For property defined in section 427A.1, subsection 1, paragraphs *"e"* and *"j"* acquired or initially leased after December 31, 1981 and on or before January 1, 1985, the taxpayer's valuation shall be limited to thirty percent of the net acquisition cost of the property. For purposes of this section, "net acquisition cost" means the acquired cost of the property including all foundations and installation cost less any excess cost adjustment.

For purposes of this section and sections 427B.11 to 427B.14:

1. Property assessed by the department of revenue and finance pursuant to sections 428.24 to 428.29, or chapters 433, 434 and 436 to 438 shall not receive the benefits of this section and sections 427B.11 to 427B.14.

2. Property acquired on or before December 31, 1981 which was owned or used on or before December 31, 1981 by a related person shall not receive the benefits of this section and sections 427B.11 to 427B.14.

3. Property acquired after December 31, 1981 which was owned and used by a related person shall not receive any additional benefits under this section and sections 427B.11 to 427B.14.

4. Property which was owned or used on or before December 31, 1981 and subsequently acquired by an exchange of like property shall not receive the benefits of this section and sections 427B.11 to 427B.14.

5. Property which was acquired after December 31, 1981 and subsequently exchanged for like property shall not receive any additional benefits under this section and sections 427B.11 to 427B.14.

6. Property acquired on or before December 31, 1981 which is subsequently leased to a taxpayer or related person who previously owned the property shall not receive the benefits of this section and sections 427B.11 to 427B.14.

7. Property acquired after December 31, 1981 which is subsequently leased to a taxpayer or related person who previously owned the property shall not receive any additional benefits under this section and sections 427B.11 to 427B.14.

For purposes of this section, "related person" means a person who owns or controls the taxpayer's business and another business entity from which property is acquired or leased or to which property is sold or leased. Business entities are owned or controlled by the same person if the same person directly or indirectly owns or controls fifty percent or more of the assets or any class of stock or who directly or indirectly has an interest of fifty percent or more in the ownership or profits.

427B.20 Local option remedial action property tax credit — public hearing.

1. In order to further the public interests of protecting the drinking water supply, preserving business and industry within a community, preserving convenient access to gas stations within a community, or other public purposes, a city council or county board of supervisors may provide by ordinance for partial or total property tax credits to owners of small businesses that own or operate an underground storage tank to reduce the amount of property taxes paid over the permitted period in amounts not to exceed the actual portion of costs paid by the business owner in connection with a remedial action for which the Iowa comprehensive petroleum underground storage tank fund shares in the cost of corrective action, and for which the small business owner was not reimbursed from any other source. A county board of supervisors may grant credits only

for property located outside of the corporate limits of a city, and a city council may grant credits only for property located within the corporate limits of the city. The credit shall be taken on the property where the underground storage tank is situated. The credit granted by the council or board shall not exceed the amount of taxes generated by the property for the respective city or county. The credit shall apply to property taxes payable in the fiscal year following the calendar year in which a cost of remedial action was paid by the small business owner.

As used in this division, *"actual portion of the costs paid by the owner or operator of an underground storage tank in connection with a remedial action for which the Iowa comprehensive petroleum underground storage tank fund shares in the cost of corrective action"* means the amount determined by the fund's board, or the board's designee, as the administrator of the Iowa comprehensive petroleum underground storage tank fund, and for which the owner or operator was not reimbursed from any other source.

As used in this division, *"small business"* means a business with gross receipts of less than five hundred thousand dollars per year.

The ordinance shall designate the length of time the partial or total credit shall be available, and shall include a credit schedule and description of the terms and conditions of the credit.

3. A property tax credit provided under this section shall be paid for out of any available funds budgeted for that purpose by the city council or county board of supervisors. Small business owners receiving credits shall file applications for renewal of the credit by September 30 of each year. A credit may be renewed only if title to the credited property remains in the name of the person or entity originally receiving the credit.

In reviewing the applications, the board of supervisors or city council shall consider whether granting the credit would serve a public purpose. Upon approval of the application by the board of supervisors, and after the applicant has paid any property taxes due, the board shall direct the county treasurer to issue a warrant to the small business owner in the amount of the credit granted. Upon approval of the application by the city council, and after the applicant has paid any property taxes due, the council shall direct the city clerk to issue a warrant to the small business owner in the amount of the credit granted.

Applications for credit shall be made on forms prescribed by the director of revenue and finance and shall contain information pertaining to the nature of the release, the total cost of corrective action, the actual portion of the costs paid by the small business owner and for which the owner was not reimbursed from any other source, the small business owner's income tax form from the most recent tax year, and other information deemed necessary by the director.

2. *Tax imposed.* An annual excise tax is hereby levied on such handling of grain in the amount hereinafter provided. All grain so handled shall be exempt from all taxation as property under the laws of this state. The amount of such excise tax shall be a sum equal to one-fourth mill per bushel upon all grain as herein defined so handled.

3. *Statement filing form.* Every person engaged in handling grain shall, on the first day of January of each year and not later than sixty days thereafter, make and file with the assessor a statement of the number of bushels of grain handled by the person in that district during the year immediately preceding, or the part thereof, during which the person was engaged in handling grain; and on demand the assessor shall have the right to inspect all such person's re-

cords thereof. A form for making such statement shall be included in the blanks prescribed by the director of revenue and finance. If such statement is not furnished as herein required, section 441.24, shall be applicable.

4. *Assessment.* The assessor of each such district, from the statement required or from such other information as the assessor may acquire, shall ascertain the number of bushels of grain handled by each person handling grain in the assessor's district during the preceding year, or part thereof, and shall assess the amount herein provided to such person under the provisions of this section.

5. *Computation of tax.* The rate imposed by subsection 2 shall be applied to the number of bushels of grain so handled, and the computed amount thereof shall constitute the tax to be assessed.

6. *Payment of tax.* The tax, when determined, shall be entered in the same manner as general property taxes on the tax list of the taxing district, and the proceeds of the collection of the tax shall be distributed to the same taxing units and in the same proportion as the general property tax on the tax list of each taxing district. All provisions of the law relating to the assessment and collection of property taxes and the powers and duties of the county treasurer, county auditor and all other officers with respect to the assessment, collection, and enforcement of property taxes apply to the assessment, collection, and enforcement of the tax imposed by this section.

b. "Electric power generating plant" means each taxable name plate rated electric power generating plant owned solely or jointly by any person or electric power facility financed under the provisions of chapter 28F in which electrical energy is produced from other forms of energy, including all equipment used in the production of such energy through its step-up transformer.

428A.15 Penal provisions.

428A.1 Amount of tax on transfers — declaration of value.

There is imposed on each deed, instrument, or writing by which any lands, tenements, or other realty in this state shall be granted, assigned, transferred, or otherwise conveyed, a tax determined in the following manner: When there is no consideration or when the deed instrument or writing is executed and tendered for recording as an instrument corrective of title, and so states, there shall be no tax. When there is consideration and the actual market value of the real property transferred is in excess of five hundred dollars, the tax shall be fifty-five cents for each five hundred dollars or fractional part of five hundred dollars in excess of five hundred dollars. The term "consideration" as used in this chapter, means the full amount of the actual sale price of the real property involved, paid or to be paid, including the amount of an incumbrance or lien on the property, whether assumed or not by the grantee. It shall be presumed that the sale price so stated shall include the value of all personal property transferred as part of the sale unless the dollar value of said personal property is stated on the instrument of conveyance. When the dollar value of the personal property included in the sale is so stated, it shall be deducted from the consideration shown on the instrument for the purpose of determining the tax.

When each deed, instrument, or writing by which any real property in this state is granted, assigned, transferred, or otherwise conveyed is presented for recording to the county recorder, a declaration of value signed by at least one of the sellers or one of the buyers or their agents shall be submitted to the county recorder. A declaration of value is not required for those instruments described in section 428A.2, subsections 2 to 5, 7 to 13, and 16 to 20, or described in section 428A.2, subsection 6, except in the case of a federal agency or instrumentality, or if a transfer is the result of acquisition of lands, whether by contract or condemnation, for public purposes through an exercise of the power of eminent domain. The declaration of value shall state the full consideration paid for the real property transferred. If agricultural land, as defined in section 172C.1, is purchased by a corporation, limited partnership, trust, alien or nonresident alien, the declaration of value shall include the name and address of the buyer, the name and address of the seller, a legal description of the agricultural land, and identify the buyer as a corporation, limited partnership, trust, alien, or nonresident alien. The county recorder shall not record the declaration of value, but shall enter on the declaration of value information the director of revenue and finance requires for the production of the sales/assessment ratio study and transmit all

declarations of value to the city or county assessor in whose jurisdiction the property is located. The city or county assessor shall enter on the declaration of value the information the director of revenue and finance requires for the production of the sales/assessment ratio study and transmit one copy of each declaration of value to the director of revenue and finance, at times as directed by the director of revenue and finance. The assessor shall retain one copy of each declaration of value for three years from December 31 of the year in which the transfer of realty for which the declaration was filed took place. The director of revenue and finance shall, upon receipt of the information required to be filed under this chapter by the city or county assessor, send to the office of the secretary of state that part of the declaration of value which identifies a corporation, limited partnership, trust, alien, or nonresident alien as a purchaser of agricultural land as defined in section 172C.1.

7. Deeds for cemetery lots.
8. Deeds which secure a debt or other obligation, except those included in the sale of real property.

11. Deeds between husband and wife, or parent and child, without actual consideration. [C66, 71, 73, 75, 77, 79, 81, §428A.3]

428A.4 Recording refused.

The county recorder shall refuse to record any deed, instrument, or writing, taxable under section 428A.1 for which payment of the tax determined on the full amount of the consideration in the transac-

tion has not been paid. However, if the deed, instrument, or writing, is exempt under section 428A.2, the county recorder shall not refuse to record the document if there is filed with or endorsed on it a statement signed by either the grantor or grantee or an authorized agent, that the instrument or writing is excepted from the tax under section 428A.2. The validity of an instrument as between the parties, and as to any person who would otherwise be bound by the instrument, is not affected by the failure to comply with this section. If an instrument is accepted for recording or filing contrary to this section the failure to comply does not destroy or impair the record as notice.

The county recorder shall refuse to record any deed, instrument, or writing by which any real property in this state shall be granted, assigned, transferred, or otherwise conveyed, except those transfers exempt from tax under section 428A.2, subsections 2 to 5, and 7 to 13, or under section 428A.2, subsection 6, except in the case of a federal agency or instrumentality, until the declaration of value has been submitted to the county recorder. 436.7 Actual value — how ascertained.

The director of revenue and finance shall first ascertain the actual value of the entire property owned by said company, from said statements or otherwise, for that purpose taking the aggregate market value of all shares of capital stock, in case said shares have a market value, and, in case they have none, taking the actual value thereof or of the capital of said company, in whatever manner the same is divided, in case no shares of capital stock have been issued; provided, however, that in case the whole or any portion of the property of said company shall be encumbered by a mortgage or mortgages, the director shall ascertain the actual value of such property by adding to the market value or the aggregate shares of stock or to the value of the capital, in case there shall be no such shares, the aggregate amount of the market or cash value of such mortgage or mortgages, and the result shall be deemed and treated as the actual value of the property of such company. The director shall, for the purpose of ascertaining the actual value of the property within the state, next ascertain from such statements or otherwise the actual value of the property, both real and personal, owned by the company; and which is used exclusively outside the general business of the company, and also the actual value of that part of its property, if any, without the state which cannot lawfully be considered in determining the mileage value of its route; and the aggregate of such values shall be deducted from the entire actual value of the property as above ascertained. The director shall next ascertain and deduct the actual value of the sea or ocean routes of any such company, and in ascertaining the same may take into consideration the earnings, both gross and net per mile, of such sea or ocean routes, as compared with the earnings, gross and net, of the land routes of such company, or may ascertain their value in any other practicable manner, and may require that the reports heretofore provided for shall show such earnings. Thereupon the director shall ascertain the actual value of the property of such company within the state, and for that purpose may take into consideration the proportional value of the company's property without and within the state, and shall take as a basis of valuation of the company's property in this state the proportion of the whole aggregate value of the property of said company, as above ascertained, after making the deductions above provided for which the length of the routes within the state bears to the whole length of the routes of such company other than sea or ocean routes, and such amount so ascertained shall be considered and taken to be the entire actual value of the property of such company within the state. From the entire actual value of the property within the state so ascertained, there shall be deducted by the director the actual value of all the real estate, buildings, machinery, appliances, and personal property not used exclusively in the conduct of the business within the state that are subject to local taxation within the counties, townships, and other assessment districts as hereinbefore described in section 436.3, subsection 6.

[S13, §1346-d; C24, 27, 31, 35, 39, §**7083**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.7]

436.8 Actual value per mile — taxable value.

The director of revenue and finance shall thereupon ascertain the value per mile of the property within the state, by dividing the total value as above ascertained, after deducting the specific properties locally assessed within the state, by the number of miles within the state, and the result shall be deemed and held to be the actual value per mile of the property of such company within the state. The assessed or taxable value shall be determined by taking that percentage of the actual value so ascertained, as is provided by section 441.21, and such valuation and assessment shall be in the same ratio as that of the property of individuals.

[S13, §1346-e; C24, 27, 31, 35, 39, §**7084**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.8]

See §441.21

436.9 Assessment in each county — how certified.

The director of revenue and finance shall thereupon, for the purpose of determining what amount shall be assessed to said company in each county of the state through, across, into, or over which the route of said company extends, multiply the value per mile, as above ascertained, by the number of miles in each of said counties, as reported in said statements, or as otherwise ascertained, and the result thereof, with the mileage and the rate of assessment per mile, shall be by the director certified to the auditors respectively of the several counties through, into, over, and across which the routes of said company extend.

[S13, §1346-f; C24, 27, 31, 35, 39, §**7085**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.9]

436.10 Entry of certificate.

At the first meeting of the board of supervisors held after such certificate is received by the county auditor, it shall cause the same to be entered in its minute book, and make and enter therein an order stating the length of the routes and the assessed value of each in each city, township, or other taxing district in its county, through or into which said routes extend, which shall constitute the taxable value of said property for taxing purposes, and the taxes on said property, when collected by the county treasurer, shall be disposed of as other taxes.

[S13, §1346-g; C24, 27, 31, 35, 39, §**7086**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §436.10]

436.11 Levy of tax — rates.

The county auditor shall immediately thereafter transmit a copy of said order to the councils of cities, and to the trustees of each township in the county, and shall also add to the value so apportioned the assessed value of the real estate, buildings, machinery, fixtures, appliances, and personal property not used exclusively in the conduct of the business situated in any township or taxing district as returned by the assessor thereof, and extend the taxes thereon upon the tax list as in other cases. All such property shall be taxable upon said assessment at the same rates, by the same officers, and for the same purposes as the property of individuals within such counties, townships, or taxing districts. The property so included in said assessment shall not be otherwise taxed.

436.12 Action to collect.

In case any such company shall fail or refuse to pay any taxes assessed against it in any county, township, or assessment district in the state, in addition to other remedies provided by law for the collection of taxes, an action may be prosecuted in the name of the state by the county attorneys of the different counties of the state, on the relation of the auditors of the different counties of the state, and judgment in such action shall include a penalty of fifty percent of the amount of the taxes so assessed and unpaid, together with reasonable attorney's fees for the prosecution of such action, which action may be prosecuted in any county into, through, over, or across which the routes of any such company shall extend, or in any county where such company shall have an officer or agent for the transaction of business.

441.6 Appointment of assessor.

When a vacancy occurs in the office of city or county assessor, the examining board shall, within seven days of the occurrence of the vacancy, request the director of revenue and finance to forward a register containing the names of all individuals eligible for appointment as assessor. The examining board may, at its own expense, conduct a further examination, either written or oral, of any person whose name appears on the register, and shall make written report of the examination and submit the report together with the names of those individuals certified by the director of revenue and finance to the conference board within fifteen days after the receipt of the register from the director of revenue and finance.

Upon receipt of the report of the examining board, the chairperson of the conference board shall by written notice call a meeting of the conference board to appoint an assessor. The meeting shall be held not later than seven days after the receipt of the report of the examining board by the conference board. The physical condition, general reputation of the applicants, and their fitness for the position as determined by the examining board shall be taken into consideration in making the appointment. At the meeting, the conference board shall appoint an assessor from the register of eligible candidates. However, if a special examination has not been conducted previously for the same vacancy, the conference board may request the director of revenue and finance to hold a special examination pursuant to section 441.7. The chairperson of the conference board shall give written notice to the director of revenue and finance of the appointment and its effective date within ten days of the decision of the board.

441.7 Special examination.

If the conference board fails to appoint an assessor from the list of individuals on the register, the conference board shall request permission from the director of revenue and finance to hold a special examination in the particular city or county in which the vacancy has occurred. Permission may be granted by the director of revenue and finance after consideration of factors such as the availability of candidates in that particular city or county. The director of revenue and finance shall conduct no more than one special examination for each vacancy in an assessing jurisdiction. The examination shall be conducted by the director of revenue and finance as provided in section 441.5, except as otherwise provided in this section. The examining board shall give notice of holding the examination for assessor by posting a written notice in a conspicuous place in the county courthouse in the case of county assessors or in the city hall in the case of city assessors, stating that at a specified date, an examination for the position of assessor will be held at a specified place. Similar notice shall be given at the same time by one publication of the notice in three newspapers of general circulation in the case of a county assessor, or in case there are not three such newspapers in a county, then in newspapers which are available, or in one newspaper of general circulation in the city in the case of city assessor. The conference board of the city or county in which a special examination is held shall reimburse the department of revenue and finance for all expenses incurred in the administration of the examination, to be paid for by the respective city or county assessment expense fund. Following the administration of this special examination, the director of revenue and finance shall certify to the examining board a new list of candidates eligible to be appointed as assessor and the examining board and conference board shall proceed in accordance with the provisions of section 441.6.

441.8 Term — continuing education — filling vacancy.

The term of office of an assessor appointed under this chapter shall be for six years. Appointments for each succeeding term shall be made in the same manner as the original appointment except that not less than ninety days before the expiration of the term of the assessor the conference board shall hold a meeting to determine whether or not it desires to reappoint the incumbent assessor to a new term.

Effective January 1, 1980, the conference board

shall have the power to reappoint the incumbent assessor only if the incumbent assessor has satisfactorily completed the continuing education program provided for in this section.

The director of revenue and finance shall develop and administer a program of continuing education which shall emphasize assessment and appraisal procedures, and the assessment laws of this state, and which shall include the subject matter specified in section 441.5.

The director of revenue and finance shall establish, designate, or approve courses, workshops, seminars, or symposiums to be offered as part of the continuing education program, the content of these courses, workshops, seminars, or symposiums and the number of hours of classroom instruction for each. The director of revenue and finance may provide that no more than thirty hours of tested credit may be received for the submission of a narrative appraisal approved by a professional appraisal society designated by the director. At least once each year the director of revenue and finance shall evaluate the continuing education program and make necessary changes in the program.

Upon the successful completion of courses, workshops, seminars, a narrative appraisal or symposiums contained in the program of continuing education, as demonstrated by attendance at sessions of the courses, workshops, seminars or symposiums and, in the case of a course designated by the director of revenue and finance, attaining a grade of at least seventy percent on an examination administered at the conclusion of the course, or the submission of proof that a narrative appraisal has been approved by a professional appraisal society designated by the director of revenue and finance the assessor or deputy assessor shall receive credit equal to the number of hours of classroom instruction contained in those courses, workshops, seminars, or symposiums or the number of hours of credit specified by the director of revenue and finance for a narrative appraisal. An assessor or deputy assessor shall not be allowed to obtain credit for a course, workshop, seminar, or symposium for which the assessor or deputy assessor has previously received credit during the current term or appointment except for those courses, workshops, seminars, or symposiums designated by the director of revenue and finance. Only one narrative appraisal may be approved for credit during the assessor's or deputy assessor's current term or appointment and credit shall not be allowed for a narrative appraisal approved by a professional appraisal society prior to the beginning of the assessor's or deputy assessor's current term or appointment. The examinations shall be confidential, except that the director of revenue and finance and persons designated by the director may have access to the examinations.

Upon receiving credit equal to one hundred fifty hours of classroom instruction during the assessor's current term of office of which at least ninety of the one hundred fifty hours are from courses requiring an examination upon conclusion of the course, the director of revenue and finance shall certify to the assessor's conference board that the assessor is eligible to be reappointed to the position. For assessors whose present terms of office expire before six years from January 1, 1979, or who are appointed to complete an unexpired term, the number of credits required to be certified as eligible for reappointment shall be prorated according to the amount of time remaining in the present term of the assessor.

Within each six-year period following January 1, 1980 or the appointment of a deputy assessor appointed after January 1, 1979, the deputy assessor shall comply with this section except that upon the successful completion of ninety hours of classroom instruction of which at least sixty of the ninety hours are from courses requiring an examination upon conclusion of the course the deputy assessor shall be certified by the director of revenue and finance as being eligible to remain in the position. If a deputy assessor fails to comply with this section, the deputy assessor shall be removed from the position. If a deputy is appointed to the office of assessor, the hours of credit obtained as deputy pursuant to this section shall be credited to that individual as assessor and for the individual to be reappointed at the expiration of the term as assessor, that individual must obtain the credits which are necessary to total the number of hours for reappointment.

Each conference board shall include in the budget for the operation of the assessor's office funds sufficient to enable the assessor and any deputy assessor to obtain certification as provided in this section. The conference board shall also allow the assessor and any deputy assessor sufficient time off from their regular duties to obtain certification. The director of revenue and finance shall adopt rules pursuant to chapter 17A to implement and administer this section.

If the incumbent assessor is not reappointed as above provided, then not less than sixty days before the expiration of the term of said assessor, a new assessor shall be selected as provided in section 441.6.

In the event of the removal, resignation, death, or removal from the county of the said assessor, the conference board shall proceed to fill the vacancy by appointing an assessor to serve the unexpired term in the manner provided in section 441.6. Until the vacancy is filled, the chief deputy shall act as assessor, and in the event there be no deputy, in the case of counties the auditor shall act as assessor and in the case of cities having an assessor the city clerk shall act as assessor.

441.10 Examination and appointment of deputies — incumbents.

Immediately after the appointment of the assessor, and at other times as the conference board directs, one or more deputy assessors may be appointed by the assessor. Each appointment shall be made from either the list of eligible candidates provided by the director of revenue and finance, which shall contain only the names of those persons who achieve a score of seventy percent or greater on the examination administered by the director of revenue and finance, or the list of candidates eligible for appointment as city or county assessor. Examinations for the position of deputy assessor shall be conducted in the same manner as examinations for the position of city or county assessor.

Following the administration of the examination, the director of revenue and finance shall establish a register containing the names, in alphabetical order, of all individuals who are eligible for appointment as a deputy assessor. The test scores of individuals on the register shall be given to a city or county conference board upon request. All eligible individuals shall remain on the register for a period of two years following the date of certification granted by the director.

Incumbent deputy assessors who have served six consecutive years shall be placed on the register of individuals eligible for appointment as deputy assessor. In order to be appointed to the position of deputy assessor, the deputy assessor shall comply with the continuing education requirements. The number of credits required for certification as eligible for appointment as a deputy assessor in a jurisdiction other than where the deputy assessor is currently serving shall be prorated according to the percentage of the deputy assessor's term which is covered by the continuing education requirements of section 441.8. The credit necessary for certification for appointment is the product of ninety multiplied by the quotient of the number of months served of a deputy assessor's term covered by the continuing education requirements of section 441.8 divided by seventy-two. If the number of credits necessary for certification for appointment as determined under this paragraph results in a partial credit hour, the credit hour shall be rounded to the nearest whole number.

The assessor may peremptorily suspend or discharge any deputy assessor under the assessor's direction upon written charges for neglect of duty, disobedience of orders, misconduct, or failure to properly perform the deputy assessor's duties. Within five days after delivery of written charges to the employee, the deputy assessor may appeal by written notice to the secretary or chairperson of the examining board. The board shall grant the deputy assessor a hearing within fifteen days, and a decision by a majority of the examining board is final. The assessor shall designate one of the deputies as chief deputy, and the assessor shall assign to each deputy the duties, responsibilities, and authority as is proper for the efficient conduct of the assessor's office.

441.16 Budget.

All expenditures under this chapter shall be paid as hereinafter provided.

Not later than January 1 of each year the assessor, the examining board, and the board of review, shall each prepare a proposed budget of all expenses for the ensuing fiscal year. The assessor shall include in the proposed budget the probable expenses for defending assessment appeals. Said budgets shall be

combined by the assessor and copies thereof forthwith filed by the assessor in triplicate with the chairperson of the conference board.

Such combined budgets shall contain an itemized list of the proposed salaries of the assessor and each deputy, the amount required for field personnel and other personnel, their number and their compensation; the estimated amount needed for expenses, printing, mileage and other expenses necessary to operate the assessor's office, the estimated expenses of the examining board and the salaries and expenses of the local board of review.

Each fiscal year the chairperson of the conference board shall, by written notice, call a meeting of the conference board to consider the proposed budget and to comply with section 24.9.

At such meeting the conference board shall authorize:

1. The number of deputies, field personnel, and other personnel of the assessor's office.
2. The salaries and compensation of members of the board of review, the assessor, chief deputy, other deputies, field personnel, and other personnel, and determine the time and manner of payment.

Any tax for the maintenance of the office of assessor and other assessment procedure shall be levied only upon the property in the area assessed by said assessor and such tax levy shall not exceed forty and one-half cents per thousand dollars of assessed value in assessing areas where the valuation upon which the tax is levied does not exceed ninety-two million, six hundred thousand dollars; thirty-three and three-fourths cents per thousand dollars of assessed value in assessing areas where the valuation upon which the tax is levied exceeds ninety-two million, six hundred thousand dollars and does not exceed one hundred eleven million, one hundred twenty thousand dollars; twenty-seven cents per thousand dollars of assessed value in assessing areas where the valuation upon which the tax is levied exceeds one hundred eleven million, one hundred twenty thousand dollars. In the case of a county where there is more than one assessor the treasurer shall maintain separate assessment expense funds for each assessor.

The county auditor shall keep a complete record of said funds and shall issue warrants thereon only on requisition of the assessor.

The assessor shall not issue requisitions so as to increase the total expenditures budgeted for the operation of the assessor's office. However, for purposes of promoting operational efficiency, the assessor shall have authority to transfer funds budgeted for specific items for the operation of the assessor's office from one unexpended balance to another; such transfer shall not be made so as to increase the total amount budgeted for the operation of the office of assessor, and no funds shall be used to increase the salary of the assessor or the salaries of permanent deputy assessors. The assessor shall issue requisitions for the examining board and for the board of review on order of the chairperson of each board and for costs and expenses incident to assessment appeals, only on order of the city legal department, in the case of cities and of the county attorney in the case of counties.

2. Cause to be assessed, in accordance with section 441.21, all the property in the assessor's county or city, except property exempt from taxation, or the assessment of which is otherwise provided for by law.
3. Have access to all public records of the county and, so far as practicable, make or cause to be made a careful examination of all such records and files in order to obtain all available information which may contribute to the accurate listing at its taxable value, and to the proper persons, of all property subject to assessment by the assessor.
4. Co-operate with the director of revenue and finance as may be necessary or required, and obey and execute all orders, directions, and instructions of the director of revenue and finance, insofar as the same may be required by law.
5. Have power to apply to the district court of the county for an order to examine witnesses and requiring the production of books and records of any person, firm, association or corporation within the county, whenever the assessor has reason to believe that such person, firm, association or corporation has not listed property as provided by law. The proceeding for the examination of witnesses and examination of the books and records of any such taxpayer, to determine the existence of taxable prop-

erty, shall be instituted and conducted in the manner provided for the discovery of property under the provisions of chapter 630. The court shall make an appropriate finding as to the existence of taxable property not listed. All taxable property discovered thereby shall thereupon be assessed by the assessor in the manner provided by law.

In all cases where the court finds that the taxpayer has not listed the taxpayer's property, as provided by law, and in all hearings where the court decides a matter against the taxpayer, the costs shall be paid by the taxpayer, otherwise they shall be paid out of the assessment expense fund. The fees and mileage to be paid witnesses shall be the same as prescribed by law in proceedings in the district courts of this state in civil cases. Where the costs are taxed to the taxpayer they shall be added to the taxes assessed against said taxpayer and the taxpayer's property and shall be collected in the same manner as are other taxes.

6. Make up all assessor's books and records as prescribed by the director of revenue and finance, turn the completed assessor's books and records required for the preparation of the tax list over to the county auditor each year when the board of review has concluded its hearings and the county auditor shall proceed with the preparation of the current year tax list and the assessor shall co-operate with the auditor in the preparation of the tax lists.

7. Submit on or before May 1 of each year completed assessment rolls to the board of review.

8. Lay before the board of review such information as the assessor may possess which will aid said board in performing its duties in adjusting the assessments to the valuations required by law.

9. Furnish to the director of revenue and finance any information which the assessor may have relative to the ownership of any property that may be assessable within this state, but not assessable or subject to being listed for taxation by the assessor.

10. Measure the exterior length and exterior width of all mobile homes except those for which measurements are contained in the manufacturer's and importer's certificate of origin, and report the information to the county treasurer. Check all mobile homes for inaccuracy of measurements as necessary or upon written request of the county treasurer and report the findings immediately to the county treasurer. If a mobile home has been converted to real estate the title shall be collected and returned to the county treasurer for cancellation. If taxes due for prior years have not been paid, the assessor shall collect the unpaid taxes due as a condition of conversion. The assessor shall make frequent inspections and checks within the assessor jurisdiction of all mobile homes and mobile home parks and make all the required and needed reports to carry out the purposes of this section.

11. Cause to be assessed for taxation property which the assessor believes has been erroneously exempted from taxation. Revocation of a property tax exemption shall commence with the assessment for the current assessment year, and shall not be applied to prior assessment years.

441.19 Owner to assist — provisions for assessment.

The assessor shall list every person in the assessor's county or city as the case may be and assess all the property in the county or city, except property exempted or otherwise assessed. A person who refuses to assist in making out a list of the person's property, or of any property which the person is by law required to assist in listing, is guilty of a simple misdemeanor.

1. Supplemental and optional to the procedure for the assessment of property by the assessor as provided in this chapter, the assessor may require from all persons required to list their property for taxation as provided by sections 428.1 and 428.2, a supplemental return to be prescribed by the director of revenue and finance upon which the person shall list the person's property. The supplemental return shall be in substantially the same form as now prescribed by law for the assessment rolls used in the listing of property by the assessors. Every person required to list property for taxation shall make a complete listing of the property upon supplemental forms and return the listing to the assessor as promptly as possible. The return shall be verified over the signature of the person making the return and section 441.25 applies to any person making such a return. The assessor shall make supplemental return forms available as soon as practicable after the first day of January of each year. The assessor shall make supplemental return forms available to the taxpayer by mail, or at a designated place within the taxing district.

2. Upon receipt of such supplemental return from any person the assessor shall prepare a roll assessing such person as hereinafter provided. In the preparation of such assessment roll the assessor shall be guided not only by the information contained in such supplemental roll, but by any other in-

formation the assessor may have or which may be obtained by the assessor as prescribed by the law relating to the assessment of property. The assessor shall not be bound by any values as listed in such supplemental return, and may include in the assessment roll any property omitted from the supplemental return which in the knowledge and belief of the assessor should be listed as required by law by the person making the supplemental return. Upon completion of such roll the assessor shall deliver to the person submitting such supplemental return a copy of the assessment roll, either personally or by mail.

3. Any taxpayer aggrieved by the action of the assessor in the preparation of an assessment roll upon which a supplemental return has been made shall have the same rights and privileges of appeal as provided by law in connection with the assessment rolls prepared in entirety by the assessor, but no assessment rolls prepared by the assessor after receiving a supplemental return shall be deemed insufficient or invalid because of the fact that such assessment roll does not bear the signature of the person assessed, and the signature of the person listing property upon the supplemental return shall be deemed a signature on the roll as prepared by the assessor.

4. The supplemental returns herein provided for shall be preserved in the same manner as assessment rolls, but shall be confidential to the assessor, board of review, or director of revenue and finance, and shall not be open to public inspection, but any final assessment roll as made out by the assessor shall be a public record, provided that such supplemental return shall be available to counsel of either the person making the return or of the public, in case any appeal is taken to the board of review or to the court.

5. In the event of failure of any person required to list property to make a supplemental return, as required herein, on or before the fifteenth day of February of any year when such listing is required, the assessor shall proceed in the listing and assessment of the person's property as provided by this chapter, and no person subject to taxation shall be relieved of the person's obligation to list the person's property through failure to make a supplemental return as herein provided, and any roll prepared by the assessor after receiving a supplemental return or when prepared in accordance with other provisions of this chapter, shall be a valid assessment.

6. The provisions of this chapter relating to assessment rolls shall be applicable to the preparation of rolls upon which a supplemental return has been received, insofar as they are not in conflict with the provision of this section.

On or before February 15 of each year, each owner of industrial real estate shall submit to the local assessor a report listing by year of acquisition and by acquisition cost the owner's machinery as described in section 427A.1, subsection 1, paragraph *"e"*, and specifying any machinery added or removed during the preceding assessment year. A report containing an itemized list of machinery by year of acquisition and by acquisition cost shall be required only when deemed necessary by the assessor. The reports shall be submitted on forms prescribed by the director of revenue and finance or on forms submitted by the taxpayer and approved by the assessor which forms shall contain the same information as is required to be reported on forms prescribed by the director. 441.21 Actual, assessed and taxable value.

1. *a.* All property subject to taxation shall be valued at its actual value which shall be entered opposite each item, and, except as otherwise provided in this section, shall be assessed at one hundred percent of its actual value, and the value so assessed shall be taken and considered as the assessed value and taxable value of the property upon which the levy shall be made.

b. The actual value of all property subject to assessment and taxation shall be the fair and reasonable market value of such property except as otherwise provided in this section. "Market value" is defined as the fair and reasonable exchange in the year in which the property is listed and valued between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and each being familiar with all the facts relating to the particular property. Sale prices of the property or comparable property in normal transactions reflecting market value, and the probable availability or unavailability of persons interested in purchasing the property, shall be taken into consideration in arriving at its market value. In arriving at market value, sale prices of property in abnormal transactions not reflecting market value shall not be taken into account, or shall be adjusted to eliminate the effect of factors which distort market value, including but not limited to sales to immediate family of the seller, foreclosure or other forced sales, contract sales, discounted purchase transactions or purchase of adjoining land or other land to be operated as a unit.

The actual value of special purpose tooling, which is subject to assessment and taxation as real property under section 427A.1, subsection 1, paragraph *"e"*, but which can be used only to manufacture property which is protected by one or more United States or foreign patents, shall not exceed the fair and reasonable exchange value between a willing buyer and a willing seller, assuming that the willing buyer is pur-

chasing only the special purpose tooling and not the patent covering the property which the special purpose tooling is designed to manufacture nor the rights to manufacture the patented property. For purposes of this paragraph, special purpose tooling includes dies, jigs, fixtures, molds, patterns, and similar property. The assessor shall not take into consideration the special value or use value to the present owner of the special purpose tooling which is designed and intended solely for the manufacture of property protected by a patent in arriving at the actual value of the special purpose tooling.

c. In assessing and determining the actual value of special purpose industrial property having an actual value of five million dollars or more, the assessor shall equalize the values of such property with the actual values of other comparable special purpose industrial property in other counties of the state. Such special purpose industrial property includes, but is not limited to chemical plants. If a variation of ten percent or more exists between the actual values of comparable industrial property having an actual value of five million dollars or more located in separate counties, the assessors of the counties shall consult with each other and with the department of revenue and finance to determine if adequate reasons exist for the variation. If no adequate reasons exist, the assessors shall make adjustments in the actual values to provide for a variation of ten percent or less. For the purposes of this paragraph, special purpose industrial property includes structures which are designed and erected for operation of a unique and special use, are not rentable in existing condition, and are incapable of conversion to ordinary commercial or industrial use except at a substantial cost.

d. Actual value of property in one assessing jurisdiction shall be equalized as compared with actual value of property in an adjoining assessing jurisdiction. If a variation of five percent or more exists between the actual values of similar, closely adjacent property in adjoining assessing jurisdictions in Iowa, the assessors thereof shall determine whether adequate reasons exist for such variation. If no such reasons exist, the assessors shall make adjustments in such actual values to reduce the variation to five percent or less.

e. The actual value of agricultural property shall be determined on the basis of productivity and net earning capacity of the property determined on the basis of its use for agricultural purposes capitalized at a rate of seven percent and applied uniformly among counties and among classes of property. Any formula or method employed to determine productivity and net earning capacity of property shall be adopted in full by rule.

f. In counties or townships in which field work on a modern soil survey has been completed since January 1, 1949, the assessor shall place emphasis upon the results of the survey in spreading the valuation among individual parcels of such agricultural property.

g. Notwithstanding any other provision of this section, the actual value of any property shall not exceed its fair and reasonable market value, except agricultural property which shall be valued exclusively as provided in paragraph *"e"* of this subsection.

2. The market value of an inventory or goods in bulk shall be their market value as such inventory or goods in bulk, not their retail or unit price. Such market value shall be fair and reasonable based on market value of similar classes of property.

In the event market value of the property being assessed cannot be readily established in the foregoing manner, then the assessor may determine the value of the property using the other uniform and recognized appraisal methods including its productive and earning capacity, if any, industrial conditions, its cost, physical and functional depreciation and obsolescence and replacement cost, and all other factors which would assist in determining the fair and reasonable market value of the property but the actual value shall not be determined by use of only one such factor. The following shall not be taken into consideration: Special value or use value of the property to its present owner, and the good will or value of a business which uses the property as distinguished from the value of the property as property. Upon adoption of uniform rules by the revenue department or succeeding authority covering assessments and valuations of such properties, said valuation on such properties shall be determined in accordance therewith for assessment purposes to assure uniformity, but such rules shall not be inconsistent with or change the foregoing means of determining the actual, market, taxable and assessed values.

3. "Actual value", "taxable value", or "assessed value" as used in other sections of the Code in relation to assessment of property for taxation shall mean the valuations as determined by this section; however, other provisions of the Code providing special methods or formulas for assessing or valuing specified property shall remain in effect, but this section shall be applicable to the extent consistent with such provisions. The assessor and department of revenue and finance shall disclose at the written request of the taxpayer all information in any formula or method used to determine the actual value of the taxpayer's property.

The burden of proof shall be upon any complainant attacking such valuation as excessive, inadequate, inequitable or capricious; however, in protest or appeal proceedings when the complainant offers competent evidence by at least two disinterested witnesses that the market value of the property is less than the market value determined by the assessor, the burden of proof thereafter shall be upon the officials or persons seeking to uphold such valuation to be assessed.

4. For valuations established as of January 1, 1978, agricultural and residential property shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of

revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1978, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total equalized value of such property in the state in 1975, adjusted for additions or deletions to said value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment submitted in 1976 and 1977, plus six percent of the 1975 equalized value of such property or the amount of value added by the revaluation of existing properties in 1976, 1977 and 1978 whichever is less. The divisor shall be the total value of such property in the state as reported by the assessors on the abstracts of assessment submitted in 1977, plus the amount of value added in 1978 by the revaluation of existing properties.

5. For valuations established as of January 1, 1979, the percentage of actual value at which agricultural and residential property shall be assessed shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus six percent of the amount so determined. However, if the difference between the dividend so determined for either class of property and the dividend for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is less than six percent, the 1979 dividend for the other class of property shall be the dividend as determined for that class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, plus a percentage of the amount so determined which is equal to the percentage by which the dividend as determined for the other class of property for valuations established as of January 1, 1978, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1978, is increased in arriving at the 1979 dividend for the other class of property. The divisor for each class of property shall be the total actual value of all such property in the state in the preceding year, as reported by the assessors on the abstracts of assessment submitted for 1978, plus the amount of value added to said total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. The director shall utilize information reported on abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, and each year thereafter, the percentage of actual value as equalized by the director of revenue and finance as provided in section 441.49 at which agricultural and residential property shall be assessed shall be calculated in accordance with the methods provided herein including the limitation of increases in agricultural and residential assessed values to the percentage increase of the other class of property if the other class increases less than the allowable limit adjusted to include the applicable and current values as equalized by the director of revenue and finance, except that any references to six percent in this subsection shall be four percent.

6. For valuations established as of January 1, 1979, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed as a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the total actual valuation for each class of property established for 1978, plus six percent of the amount so determined. The divisor for each class of property shall be the valuation for each class of property established for 1978, as reported by the assessors on the abstracts of assessment for 1978, plus the amount of value added to the total actual value by the revaluation of existing properties in 1979 as equalized by the director of revenue pursuant to section 441.49. For valuations established as of January 1, 1979, property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be considered as one class of property and shall be assessed as a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1979, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1978 by the department of revenue, plus ten percent of the amount so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be the valuation established for 1978, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1979. For valuations established as

of January 1, 1980, commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed at a percentage of the actual value of each class of property. The percentage shall be determined for each class of property by the director of revenue for the state in accordance with the provisions of this section. For valuations established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend for each class of property shall be the dividend as determined for each class of property for valuations established as of January 1, 1979, adjusted by the product obtained by multiplying the percentage determined for that year by the amount of any additions or deletions to actual value, excluding those resulting from the revaluation of existing properties, as reported by the assessors on the abstracts of assessment for 1979, plus four percent of the amount so determined. The divisor for each class of property shall be the total actual value of all such property in 1979, as equalized by the director of revenue pursuant to section 441.49, plus the amount of value added to the total actual value by the revaluation of existing properties in 1980. The director shall utilize information reported on the abstracts of assessment submitted pursuant to section 441.45 in determining such percentage. For valuations established as of January 1, 1980, property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be assessed at a percentage of its actual value. The percentage shall be determined by the director of revenue in accordance with the provisions of this section. For valuations established as of January 1, 1980, the percentage shall be the quotient of the dividend and divisor as defined in this section. The dividend shall be the total actual valuation established for 1979 by the department of revenue, plus eight percent of the amount so determined. The divisor for property valued by the department of revenue pursuant to chapters 428, 433, 436, 437, and 438 shall be the valuation established for 1979, plus the amount of value added to the total actual value by the revaluation of the property by the department of revenue as of January 1, 1980. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value as equalized by the director of revenue and finance as provided in section 441.49 at which commercial property and industrial property, excluding properties referred to in section 427A.1, subsection 6, shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to six percent in this subsection shall be four percent. For valuations established as of January 1, 1981, and each year thereafter, the percentage of actual value at which property valued by the department of revenue and finance pursuant to chapters 428, 433, 436, 437, and 438 shall be assessed shall be calculated in accordance with the methods provided herein, except that any references to ten percent in this subsection shall be eight percent. Beginning with valuations established as of January 1, 1979, and each year thereafter, property valued by the department of revenue and finance pursuant to chapter 434 shall also be assessed at a percentage of its actual value which percentage shall be equal to the percentage determined by the director of revenue and finance for commercial property, industrial property, or property valued by the department of revenue and finance pursuant to chapters 428, 433, 436, 437, and 438, whichever is lowest.

7. Beginning with valuations established as of January 1, 1978, the assessors shall report the aggregate taxable values and the number of dwellings located on agricultural land and the aggregate taxable value of all other structures on agricultural land. Beginning with valuations established as of January 1, 1981, the agricultural dwellings located on agricultural land shall be valued at their market value as defined in this section and agricultural dwellings shall be valued as rural residential property and shall be assessed at the same percentage of actual value as is all other residential property.

8. For the purpose of computing the debt limitations for municipalities, political subdivisions and school districts, the term "actual value" means the "actual value" as determined by subsections 1 to 3 of this section without application of any percentage reduction and entered opposite each item, and as listed on the tax list as provided in section 443.2 as "actual value".

Whenever any board of review or other tribunal changes the assessed value of property, all applicable records of assessment shall be adjusted to reflect such change in both assessed value and actual value of such property.

9. *a.* Any normal and necessary repairs to a building, not amounting to structural replacements or modification, shall not increase the taxable value of the building. This paragraph applies only to repairs of two thousand five hundred dollars or less per building per year.

b. Notwithstanding paragraph *"a"* of this subsection, any construction or installation of gas production systems using waste or manure to produce gas completed on property classified as agricultural, residential, commercial, or industrial property shall not increase the actual, assessed and taxable values of the property for assessment years beginning on January 1, 1979 and ending on or before December 31, 1985. In addition, notwithstanding paragraph *"a"* of this subsection, any construction or installation of a solar energy system on property so classified shall not increase the actual, assessed and taxable values of the property for five full assessment years.

c. As used in this subsection "solar energy system" means either of the following:

(1) A system of equipment capable of collecting and converting incident solar radiation or wind energy into thermal, mechanical or electrical energy and transforming these forms of energy by a separate apparatus to storage or to a point of use which is constructed or installed after January 1, 1978.

(2) A system that uses the basic design of the building to maximize solar heat gain during the cold season and to minimize solar heat gain in the hot season and that uses natural means to collect, store and distribute solar energy which is constructed or installed after January 1, 1981.

In assessing and valuing the property for tax purposes, the assessor shall disregard any market value added by a solar energy system to a building. The director of revenue and finance shall adopt rules, after consultation with the department of natural resources, specifying the types of equipment and structural components to be included under the guidelines provided in this subsection.

10. Not later than November 1, 1979 and November 1 of each subsequent year, the director shall certify to the county auditor of each county the percentages of actual value at which residential property, agricultural property, commercial property, industrial property, and property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 in each assessing jurisdiction in the county shall be assessed for taxation. The county auditor shall proceed to determine the assessed values of agricultural property, residential property, commercial property, industrial property, and property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 by applying such percentages to the current actual value of such property, as reported to the county auditor by the assessor, and the assessed values so determined shall be the taxable values of such properties upon which the levy shall be made.

11. The percentage of actual value computed by the director for agricultural property, residential property, commercial property, industrial property and property valued by the department of revenue and finance pursuant to chapters 428, 433, 434, 436, 437, and 438 and used to determine assessed values of those classes of property does not constitute a rule as defined in section 17A.2, subsection 7.

County/City Assessor.

The notice in 1981 and each odd-numbered year thereafter shall contain a statement that the assessments are subject to equalization pursuant to an order issued by the director of revenue and finance, that the county auditor shall give notice on or before October 15 by publication in an official newspaper of general circulation to any class of property affected by the equalization order, and that the board of review shall be in session from October 15 to November 15 to hear protests of affected property owners or taxpayers whose valuations have been adjusted by the equalization order.

The assessment rolls shall be used in listing the property and showing the values affixed to the property of all persons assessed. The rolls shall be made in duplicate. The duplicate roll shall be signed by the assessor, detached from the original and delivered to the person assessed if there has been an increase or decrease in the valuation of the property. If there has been no change in the evaluation, the information on the roll may be printed on computer stock paper and preserved as required by this chapter. If the person assessed requests in writing a copy of the roll, the copy shall be provided to the person. The pages of the assessor's assessment book shall contain columns ruled and headed for the information required by this chapter and that which the director of revenue and finance deems essential in the equalization work of the director. The assessment shall be completed not later than April 15 each year. If the assessor makes any change in an assessment after it has been entered on the assessor's rolls, the assessor shall note on said roll, together with the original assessment, the new assessment and the reason for the change, together with the assessor's signature and the date of the change. Wherever in real property tax administration the legal description of tax parcels is required, such permanent number system may be adopted in addition thereto or in lieu thereof. If established, the permanent real estate index number system shall describe real estate by township, section, quarter section, block series and parcel; and the auditor shall prepare and maintain permanent real estate index number tax maps, which shall carry such numbers and reflect the legal description of each parcel of real estate and delineate it graphically; and the auditor shall prepare and maintain cross indexes of the numbers assigned under said system, with legal description of the real estate to which such numbers relate. Notwithstanding the previous paragraph, the conference board may increase the membership of the board of review by an additional two members if it determines that as a result of the large number of protests filed or estimated to be filed the board of review will be unable to timely resolve the protests with the existing number of members. These two additional emergency members shall be appointed for a term set by the conference board but not for longer than two years. The conference board may extend the terms of the emergency members if it makes a similar determination as required for the initial appointment.

1. To equalize assessments by raising or lowering the individual assessments of real property, including new buildings, made by the assessor.

2. To add to the assessment rolls any taxable property which has been omitted by the assessor.

3. To add to the assessment rolls for taxation property which the board believes has been erroneously exempted from taxation. Revocation of a property tax exemption shall commence with the assessment for the current assessment year, and shall not be applied to prior assessment years.

In any year after the year in which an assessment has been made of all of the real estate in any taxing district, it shall be the duty of the board of review to meet as provided in section 441.33, and where it finds the same has changed in value, to revalue and reassess any part or all of the real estate contained in such taxing district, and in such case, it shall determine the actual value as of January 1 of the year of the revaluation and reassessment and compute the taxable value thereof, and any aggrieved taxpayer may petition for a revaluation of the taxpayer's property, but no reduction or increase shall be made for prior years. If the assessment of any such property is raised, or any property is added to the tax list by the board, the clerk shall give notice in the manner provided in section 441.36, provided, however, that if the assessment of all property in any taxing district is raised the board may instruct the clerk to give immediate notice by one publication in one of the official newspapers located in the taxing district, and such published notice shall take the place of the mailed notice provided for in section 441.36, but all other provisions of said section shall apply. The decision of the board as to the foregoing matters shall be subject to appeal to the district court within the same time and in the same manner as provided in section 441.38.

Said minute book shall be filed with the assessor after the adjournment of the board of review and shall at all times be open to public inspection. In case the value of any specific property or the entire assessment of any person, partnership, or association is increased, or new property is added by the board, the clerk shall give immediate notice thereof by mail to each at the post-office address shown on the assessment rolls, and at the conclusion of the action of the board therein the clerk shall post an alphabetical list of those whose assessments are thus raised and added, in a conspicuous place in the office or place of meeting of the board, and enter upon the records a statement that such posting has been made, which entry shall be conclusive evidence of the giving of the notice required. The board shall hold an adjourned meeting, with at least five days intervening after the posting of said notices, before final action with reference to the raising of assessments or the adding of property to the rolls is taken, and the posted notices shall state the time and place of holding such adjourned meeting, which time and place shall also be stated in the proceedings of the board.

441.37 Protest of assessment — grounds.

1. Any property owner or aggrieved taxpayer who is dissatisfied with the owner's or taxpayer's assessment may file a protest against such assessment with the board of review on or after April 16, to and including May 5, of the year of the assessment. In any county which has been declared to be a disaster

area by proper federal authorities after March 1 and prior to May 20 of said year of assessment, the board of review shall be authorized to remain in session until June 15 and the time for filing a protest shall be extended to and include the period from May 25 to June 5 of such year. Said protest shall be in writing and signed by the one protesting or by the protester's duly authorized agent. The taxpayer may have an oral hearing thereon if request therefor in writing is made at the time of filing the protest. Said protest must be confined to one or more of the following grounds:

a. That said assessment is not equitable as compared with assessments of other like property in the taxing district. When this ground is relied upon as the basis of a protest the legal description and assessments of a representative number of comparable properties, as described by the aggrieved taxpayer shall be listed on the protest, otherwise said protest shall not be considered on this ground.

b. That the property is assessed for more than the value authorized by law, stating the specific amount which the protesting party believes the property to be overassessed, and the amount which the party considers to be its actual value and the amount the party considers a fair assessment.

c. That the property is not assessable, is exempt from taxes, or is misclassified and stating the reasons for the protest.

d. That there is an error in the assessment and state the specific alleged error.

e. That there is fraud in the assessment which shall be specifically stated.

In addition to the above, the property owner may protest annually to the board of review under the provisions of section 441.35, but such protest shall be in the same manner and upon the same terms as heretofore prescribed in this section.

2. A property owner or aggrieved taxpayer who finds that a clerical or mathematical error has been made in the assessment of the owner's or taxpayer's property may file a protest against that assessment in the same manner as provided in this section, except that the protest may be filed for previous years. The board may correct clerical or mathematical errors for any assessment year in which the taxes have not been fully paid or otherwise legally discharged.

Upon the determination of the board that a clerical or mathematical error has been made the board shall take appropriate action to correct the error and notify the county auditor of the change in the assessment as a result of the error and the county auditor shall make the correction in the assessment and the tax list in the same manner as provided in section 443.6.

The board shall not correct an error resulting from a property owner's or taxpayer's inaccuracy in reporting or failure to comply with section 441.19.

3. After the board of review has considered any protest filed by a property owner or aggrieved taxpayer and made final disposition of the protest, the board shall give written notice to the property owner or aggrieved taxpayer who filed the protest of the action taken by the board of review on the protest. The written notice to the property owner or aggrieved taxpayer shall also specify the reasons for the action taken by the board of review on the protest.

441.38 Appeal to district court.

1. Appeals may be taken from the action of the board of review with reference to protests of assessment, to the district court of the county in which the board holds its sessions within twenty days after its adjournment or May 31, whichever date is later. No new grounds in addition to those set out in the protest to the board of review as provided in section 441.37 can be pleaded, but additional evidence to sustain those grounds may be introduced. The assessor shall have the same right to appeal and in the same manner as an individual taxpayer, public body or other public officer as provided in section 441.42. Appeals shall be taken by filing a written notice of appeal with the clerk of district court. Filing of the written notice of appeal shall preserve all rights of appeal of the appellant.

2. Notice of appeal shall be served as an original notice on the chairperson, presiding officer, or clerk of the board of review after the filing of notice under subsection 1 with the clerk of district court.

The county assessor of each county and each city assessor shall, on or before July 1 of each year, make out and transmit to the department of revenue and finance an abstract of the real property in the assessor's county or city, as the case may be, and file a copy of the abstract with the county auditor, in which the assessor shall set forth:

1. The number of acres of land and the aggregate taxable values of the land, exclusive of city lots, returned by the assessors, as corrected by the board of review.

2. The aggregate taxable values of real estate by class in each township and city in the county, returned as corrected by the board of review.

3. Other facts required by the director of revenue and finance.

If a board of review continues in session beyond June 1, under sections 441.33 and 441.37, the abstract of the real property shall be made out and transmitted to the department of revenue and finance within fifteen days after the date of final adjournment by the board.

441.46 Assessment date.

The assessment date of January 1 is the first date of an assessment year period which constitutes a calendar year commencing January 1 and ending December 31. All property tax statutes providing for

tax exemptions or credits and requiring that a claim be filed, shall be construed to require the claims to be filed by July 1 of the assessment year. If no claim is required to be filed to procure an exemption or credit, the status of the property as exempt or taxable on July 1 of the fiscal year which commences during the assessment year determines its eligibility for exemption or credit. Any statute requiring proration of property taxes for any purpose shall be for the fiscal year, and the proration shall be based on the status of the property during the fiscal year.

The assessment date for property taxes for the fiscal period beginning January 1, 1973 and ending June 30, 1974 and which became delinquent during the fiscal period beginning January 1, 1974 and ending June 30, 1975, was January 1, 1973. The assessment date for property taxes for the fiscal year beginning July 1, 1974 and ending June 30, 1975 and which became delinquent during the fiscal year beginning July 1, 1975 and ending June 30, 1976, was January 1, 1974. Thereafter, the assessment date is January 1 for taxes for the fiscal year which commences six months after the assessment date and which become delinquent during the fiscal year commencing eighteen months after the assessment date.

[C77, 79, 81, §441.46]

441.47 Adjusted valuations.

The director of revenue and finance on or about August 15, 1977 and every two years thereafter shall order the equalization of the levels of assessment of each class of property in the several assessing jurisdictions by adding to or deducting from the valuation of each class of property such percentage in each case as may be necessary to bring the same to its taxable value as fixed in this chapter and chapters 427 to 443. The director shall adjust to actual value the valuation of any class of property as set out in the abstract of assessment when the valuation is at least five percent above or below actual value as determined by the director. For purposes of such value adjustments and before such equalization the director shall adopt, in the manner prescribed by chapter 17A, such rules as may be necessary to determine the level of assessment for each class of property in each county. The rules shall cover: (1) The proposed use of the assessment-sales ratio study set out in section 421.17, subsection 6; (2) the proposed use of any statewide income capitalization studies; (3) the proposed use of other methods that would assist the director in arriving at the accurate level of assessment of each class of property in each assessing jurisdiction.

441.48 Notice of adjustment.

Before the director of revenue and finance shall adjust the valuation of any class of property any such percentage, the director shall serve ten days' notice by mail, on the county auditor of the county whose valuation is proposed to be adjusted and the director shall hold an adjourned meeting after such ten days' notice, at which time the county or assessing jurisdiction may appear by its city council or board of supervisors, city or county attorney, and other assessing jurisdiction, city or county officials, and make written or oral protest against such proposed adjustment, which protest shall consist simply of a statement of the error, or errors, complained of with such facts as may lead to their correction, and at such adjourned meeting final action may be taken in reference thereto.

[C24, 27, 31, 35, 39, **§7142;** C46, 50, 54, 58, §405.23, 442.17; C62, 66, 71, 73, 75, 77, 79, 81, §441.48]

441.49 Adjustment by auditor.

The director shall keep a record of the review and adjustment proceedings and finish the proceedings on or before October 1 unless for good cause the proceedings cannot be completed by that date. The director shall notify each county auditor by mail of the final action taken at the proceedings and specify any adjustments in the valuations of any class of property to be made effective for the jurisdiction.

However, an assessing jurisdiction may request the director to permit the use of an alternative method of applying the equalization order to the property values in the assessing jurisdiction, provided that the final valuation shall be equivalent to the director's equalization order. The assessing jurisdiction shall notify the county auditor of the request for the use of an alternative method of applying the equalization order and the director's disposition of the request. The request to use an alternative method of applying the equalization order, including procedures for notifying affected property owners and appealing valuation adjustments, shall be made within ten days from the date the county auditor receives the equalization order and the valuation adjustments, and appeal procedures shall be completed by November 30 of the year of the equalization order. Compliance with the provisions of section 441.21 is sufficient grounds for the director to permit the use of an alternative method of applying the equalization order.

On or before October 15 the county auditor shall cause to be published in official newspapers of general circulation the final equalization order. Failure to publish the equalization order has no effect upon the validity of the orders.

The county auditor shall add to or deduct from the valuation of each class of property in the county the required percentage, rejecting all fractions of fifty cents or less in the result, and counting all fractions over fifty cents as one dollar. For any special charter city that levies and collects its own tax based on current year assessed values, the equalization percentage shall be applied to the following year's values, and shall be considered the equalized values for that year for purposes of this chapter.

The local board of review shall reconvene in spe-

cial session from October 15 to November 15 for the purpose of hearing the protests of affected property owners or taxpayers within the jurisdiction of the board whose valuation of property if adjusted pursuant to the equalization order issued by the director of revenue and finance will result in a greater value than permitted under section 441.21. The board of review shall accept protests only during the first ten days following the date the local board of review reconvenes. The board of review shall limit its review to only the timely filed protests. The board of review may adjust all or a part of the percentage increase ordered by the director of revenue and finance by adjusting the actual value of the property under protest to one hundred percent of actual value. Any adjustment so determined by the board of review shall not exceed the percentage increase provided for in the director's equalization order. The determination of the board of review on filed protests is final, subject to review by the director of revenue and finance for the purpose of determining whether the board's actions substantially altered the equalization order. In making the review, the director has all the powers provided in chapter 421, and in exercising the powers the director is not subject to chapter 17A. Not later than fifteen days following the adjournment of the board, the board of review shall submit to the director of revenue and finance, on forms prescribed by the director, a report of all actions taken by the board of review during this session.

Not later than ten days after the date the final equalization order is issued, the city or county officials of the affected county or assessing jurisdiction may appeal the final equalization order to the state board of tax review. The appeal shall not delay the implementation of the equalization orders.

Tentative and final equalization orders issued by the director of revenue and finance are not rules as defined in section 17A.2, subsection 7.

442.1 State school foundation program.

This chapter establishes a state school foundation program. For each school year, each school district in the state is entitled to receive state school foundation aid, which shall be an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the state foundation base or the district cost per pupil, whichever is less. However, if the amount so determined for any district is less than two hundred dollars per pupil, the district is entitled to receive not less than two hundred dollars per pupil. However, if the receipt of two hundred dollars by a school district plus the money raised by the foundation property tax exceeds the maximum allowed district cost for the budget year, the district shall be entitled to receive in state foundation aid an amount equal to the difference between the money raised by the foundation property tax for the budget year and the district cost for the budget year. In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services and educational services provided through the area education agencies, the department of management shall round amounts to the nearest whole dollar.

[C73, 75, 77, 79, 81, §442.1]

442.2 Foundation property tax.

1. Each school district shall cause to be levied each year, for the school general fund, a foundation property tax of five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. For the purpose of this chapter, a school district is defined as a school corporation organized under chapter 274.

However, commencing with the budget year beginning July 1, 1988, a reorganized school district shall cause a foundation property tax of four dollars and forty cents per thousand dollars of assessed valuation to be levied on all taxable property which, in the year preceding a reorganization, was within a school district affected by the reorganization as defined in section 275.1, or in the year preceding a dissolution was a part of a school district that dissolved if the dissolution proposal has been approved by the director of the department of education pursuant to section 275.55. In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved must have had a certified enrollment of fewer than six hundred in order for the four-dollar-and-forty-cent levy to apply. In succeeding school years, the foundation property tax levy on that portion shall be increased twenty cents per year until it reaches the rate of five dollars and forty cents per thousand dollars of assessed valuation.

For purposes of this section, a reorganized school district is one which absorbed at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which action to bring about a reorganization or dissolution was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization or dissolution takes effect on or after July 1, 1988.

2. For purposes of section 442.1, the "amount per pupil of foundation property tax" and the "money raised by the foundation property tax" do not include the tax levied under subsection 1 on the property of a railway corporation or its trustee which corporation has been declared bankrupt or is in bankruptcy proceedings.

The reduced property tax rates of those reorganized districts that met the requirements of this section prior to November 30, 1990, shall continue to increase as provided in this section until they reach five dollars and forty cents.

442.3 State foundation base.

The state foundation base for the school year beginning July 1, 1986 is eighty percent of the state cost per pupil. The state foundation base for the school year beginning July 1, 1987 is eighty-one and one-half percent of the state cost per pupil. For each succeeding school year, the state foundation base shall be increased by the amount of one-half percent of the state cost per pupil, up to a maximum of eighty-five percent of the state cost per pupil. The district foundation base is the larger of the state foundation base or the amount per pupil which the district will receive from foundation property tax and state school foundation aid.

For school years beginning July 1, 1988, and subsequent school years, the state foundation base shall be increased by the sum of the following amounts:

1. The amount included in the district's budget for the fiscal year beginning July 1, 1986, for the additional portion of the livestock tax credit pursuant to section 442.2, subsection 2 as it appeared in the 1987 Code.

2. The difference between the following amounts:

a. The general allocation of the school district as determined under section 405A.2.

b. The foundation property tax rate multiplied by the total actual value of all personal property assessed for valuation in the school district as of January 1, 1973, excluding livestock.

442.4 Enrollment.

1. Basic enrollment for the budget year beginning July 1, 1987 and each subsequent budget year is determined by adding the resident pupils who were enrolled on the third Friday of September in the base year in public elementary and secondary schools of the district and in public elementary and secondary schools in another district or state for which tuition is paid by the district. For the school year beginning July 1, 1975, and each succeeding school year, pupils enrolled in prekindergarten programs other than special education programs are not included in basic enrollment.

Resident pupils of high school age for which the district pays tuition to attend an Iowa community college are included in basic enrollment on a full-time equivalent basis as of the third Friday of September in the base year.

Shared-time and part-time pupils of school age, irrespective of the districts in which the pupils reside, are included in basic enrollment as of the third Friday of September in the base year for the budget year beginning July 1, 1987 and each subsequent budget year, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal

course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time out-of-district pupil shall be reduced by the amount of any increased state aid occasioned by the counting of the pupil.

Pupils attending a university laboratory school are not counted in any district's basic enrollment, but the laboratory school shall report them directly to the department of education.

An eleventh or twelfth grade pupil who is no longer a resident of a school district, but who was a resident of the district during the preceding school year may enroll in the district and shall be included in the basic enrollment of the district until the pupil graduates. Tuition for that pupil shall not be charged by the district in which the pupil is enrolled.

A school district shall certify its basic enrollment to the department of education by October 1 of each year, and the department shall promptly forward the information to the department of management. For purposes of determining whether a district is entitled to an advance for increasing enrollment a determination of actual enrollment shall be made on the third Friday of September in the budget year by counting the pupils in the same manner and to the same extent that they are counted in determining basic enrollment, but substituting the count in the budget year for the count in the base year. In addition, a school district shall determine its additional enrollment because of special education, as defined in this section, on December 1 of each year and shall certify its additional enrollment because of special education to the department of education by December 15 of each year, and the department shall promptly forward the information to the department of management.

For the purposes of this chapter, *"additional enrollment because of special education"* is determined by multiplying the weighting of each category of child under section 281.9 times the number of children in each category totaled for all categories minus the actual enrollment.

2. An adjusted enrollment for each district shall be computed as follows:

a. For the school year beginning July 1, 1980, and each subsequent school year, the adjusted enrollment for a school district is equal to the larger of the following:

(1) The basic enrollment for the base year.

(2) The basic enrollment for the budget year.

If a school district uses subparagraph (2) of this paragraph for its adjusted enrollment and the district's actual enrollment for the budget year is larger than the adjusted enrollment computed under subparagraph (2) of this paragraph, the district may be eligible to receive an advance for increasing enrollment under section 442.28.

b. For the school year beginning July 1, 1979, if a district has a decrease from the basic enrollment in the base year to the basic enrollment in the budget year the state comptroller shall compute an amount to be added to the basic enrollment for the budget year. The amount to be added is equal to one hundred percent of the basic enrollment decrease to the extent that it does not exceed two and one-half percent of the base year's basic enrollment, and fifty percent of the remaining basic enrollment decrease. If the school district's basic enrollment in the base year is equal to or less than the basic enrollment for budget year the adjusted enrollment shall equal the basic enrollment for the budget year.

3. For the school year beginning July 1, 1980, and each subsequent school year, budget enrollment means the sum of the following:

a. Twenty-five percent of the basic enrollment for the school year beginning July 1, 1979. However, if the basic enrollment of a school district for a budget year is more than fifteen percent higher than the basic enrollment of the district for the base year, the school district's basic enrollment for the budget year shall be used thereafter for the calculation required under this paragraph in lieu of using the basic enrollment for the school year beginning July 1, 1979. However, for the school year beginning July 1, 1989 and each succeeding school year, the twenty-five percent portion shall be reduced to twenty percent.

b. Seventy-five percent of the adjusted enrollment computed under subsection 2, paragraph *"a,"* of this section. However, for the school year beginning July 1, 1989 and each succeeding school year, the seventy-five percent portion shall be increased to eighty percent.

c. Adjustments made by the department of management under subsection 5 of this section.

4. For the school year beginning July 1, 1984 and each subsequent school year, if a school district's basic enrollment for the budget year is larger than its budget enrollment for the budget year, the district shall use its basic enrollment for the budget year in lieu of its budget enrollment for the budget year for computations required in this chapter.

5. For the school year beginning July 1, 1984 and each succeeding school year, if an amount equal to the district cost per pupil for the budget year minus the amount included in the district cost per pupil for the budget year to compensate for the cost of special education support services for a school district for the budget year times the budget enrollment of the school district for the budget year is less than one hundred two percent times an amount equal to the district cost per pupil for the base year minus the amount included in the district cost per pupil for the base year to compensate for the cost of special education support services for a school district for the base year times the budget enrollment for the school district for the base year, the department of management shall increase the budget enrollment for the school district for the budget year to a number which will provide that one hundred two percent amount. For each of the school years beginning July 1, 1988 and July 1, 1989, the one hundred two percent amount shall be reduced by five-tenths of one per-

cent so that for the school year beginning July 1, 1989 and each succeeding school year, the guarantee amount for the budget year is one hundred one percent times an amount equal to the district cost per pupil for the base year minus the amount included in the district cost per pupil for the base year to compensate for the cost of special education support services for a school district for the base year times the budget enrollment for the school district for the base year.

6. For the school year beginning July 1, 1988, and each subsequent school year, weighted enrollment is the budget enrollment as modified by application of the special education weighting plan in section 281.9, the non-English-speaking weighting plan in section 280.4, and the supplementary weighting plan in this chapter.

Commencing with the school year beginning July 1, 1988, and each school year thereafter, the weighted enrollment shall be determined on the basis of a count of a district's additional enrollment because of special education, as defined in subsection 1, on December 1 of the base year.

Weighted enrollment calculated under this subsection shall be used when weighted enrollment is prescribed by law. It shall not be used in calculations pertaining to special education support services costs.

7. For the school year beginning July 1, 1988, and each subsequent school year, weighted enrollment for special education support services costs is the sum of the budget enrollment and the additional enrollment because of special education defined in subsection 1.

8. Notwithstanding the procedure prescribed for the calculation of budget enrollment under subsections 3 and 5, if for the budget year commencing July 1, 1990, a reorganized school district's budget enrollment is less than the combined total of the budget enrollments of the districts involved in the reorganization calculated as if the school districts had not reorganized for that budget year, the budget enrollment of the reorganized district shall be calculated under this subsection for that budget year. The budget enrollment is the total of the budget enrollments of the districts involved in the reorganization calculated as if those districts had not reorganized minus the number of pupils residing in territory not included in the reorganized school district. For the purpose of this section, a reorganized school district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and will take effect on or after July 1, 1988.

442.5 Miscellaneous income — expenditures.

1. As used in this chapter:

a. "Miscellaneous income" means all receipts deposited to the general fund of a school district which are not obtained from state aid provided under section 442.1 or from property tax authorized under section 442.2 or 442.9. Miscellaneous income includes property tax levied under the provisions of section 613A.7, to fund the costs of tort liability insurance for the school district.

b. "Expenditures" means the total amounts paid out of the general fund of a school district, exclusive of amounts paid for the following purposes, for which special levies are authorized:

(1) A contract for the use of a library under section 298.7.

(2) A judgment under sections 298.15 to 298.17.

(3) Tort liability under chapter 613A.

(4) Asbestos removal or encapsulation under section 279.43.

2. The authorized expenditures during a school year may not exceed the lesser of the budget for that year certified under section 24.17 plus any allowable amendments permitted in this section, or the authorized budget, which is the sum of the district cost for that year plus the actual miscellaneous income received for that year plus the actual unspent balance from the preceding year. If actual miscellaneous income for a school year exceeds the anticipated miscellaneous income in the certified budget for that year, or if an unspent balance has not been previously certified, a school district may amend its certified budget.

442.6 Definitions.

As used in this chapter:

1. *"District cost"* and *"district cost per pupil"* mean the amounts computed as provided in section 442.9.

2. *"Base year"* means the school year ending during the calendar year in which a budget is certified.

3. *"Budget year"* means the school year beginning during the calendar year in which a budget is certified.

[C73, 75, 77, 79, 81, §442.6]

442.7 State percent of growth — allowable growth.

1. For school years subsequent to the school year beginning July 1, 1978, a state percent of growth for the budget year shall be computed by the department of management prior to September 15 in the base year and forwarded to the director of the department of education. The state percent of growth shall be an average of the following four percentages of growth except as otherwise provided in paragraph *"c"* of this subsection:

a. The difference in the receipts of state general

fund revenues, adjusted for changes in rates or basis, computed or estimated as follows:

(1) The percentage of change between the revenues received during the second year preceding the base year and the revenues received during the year preceding the base year.

(2) The percentage of change between the revenues received during the year preceding the base year and the revenues received during the base year.

However, for computing the state percent of growth to be used for the school year beginning July 1, 1987, the revenues received as a result of the increase in taxes in 1985 Iowa Acts, chapter 32 or as a result of the inclusion of additional items subject to tax in 1985 Iowa Acts, chapter 32 shall not be considered revenues received for the state general fund for purposes of determining the percentages under subparagraph (1) or (2).

b. The difference in the gross national product implicit price deflator published by the bureau of economic analysis, United States department of commerce, computed or estimated as a percentage of change for the following:

(1) From the value for the quarter ending December 31 eighteen months prior to the beginning of the base year to the value for the quarter ending December 31 six months prior to the beginning of the base year.

(2) From the value for the quarter ending December 31 six months prior to the beginning of the base year to the value for the quarter ending December 31 six months prior to the beginning of the budget year.

The computation of the percentage change in the gross national product implicit price deflator shall be based, to the extent possible, on the latest available values for these deflators published by the bureau of economic analysis.

c. If the average of the percentages computed or estimated under paragraph *"b"* of this subsection exceeds the average of the percentages computed or estimated under paragraph *"a"* of this subsection, the state percent of growth shall be the average of the two percentages of growth computed or estimated under paragraph *"a"* of this subsection.

2. Notwithstanding subsection 1 of this section, for the school year beginning July 1, 1980 only, the state percent of growth is the average of the two percentages of growth computed under subsection 1, paragraph *"b,"* of this section.

3. If the state percent of growth so computed is negative, that percentage shall not be used and the state percent of growth shall be zero.

4. Each year prior to September 15 the department of management shall recompute the state percent of growth for the previous year using adjusted estimates and the actual figures available. The difference between the recomputed state percent of growth for the base year and the original computation shall be added to or subtracted from the state percent of growth for the budget year, as applicable. However, for the budget school year beginning July 1, 1980 only, the state comptroller shall recompute the state percent of growth for the previous year using adjusted estimates and the actual figures available based only upon the consumer price index.

With regard to values of gross national product implicit price deflators, the recomputation of the state percent of growth for the previous year shall be made only with respect to the value of the deflator for the quarter which occurred subsequent to the calculation of the state percent of growth for the previous year. If subsection 1, paragraph *"c,"* of this section is used in the calculation of the state percent of growth for the previous year, the calculation made in subsection 1, paragraph *"b,"* of this subsection shall not be used in the recomputation of the state percent of growth for the previous year.

For the school year beginning July 1, 1981, the recomputation of the state percent of growth for the year beginning July 1, 1980 computed prior to September 15, 1980 and added to or subtracted from the state percent of growth for the school year beginning July 1, 1981 shall also include a percent equal to the difference between the estimate made of the percentage of growth in the receipts of state general fund revenue by the state comptroller prior to September 15, 1978 in computing the state percent of growth for the school year beginning July 1, 1979 and the actual figures of the percentage of growth in the receipts of state general fund revenue.

5. Notwithstanding subsections 1 through 4, for the school year beginning July 1, 1984, if the estimate of the ending fund balance of the state general fund for the fiscal year beginning July 1, 1984 and ending June 30, 1985, as estimated by the state comptroller in January, 1984, is equal to or greater than thirty million dollars and the state foundation base increases to eighty percent pursuant to section 442.3, the state percent of growth, including the recomputations required under subsection 4, is six and two-tenths percent.

6. The basic allowable growth per pupil for the budget year shall be computed by multiplying the state cost per pupil for the base year times the state percent of growth for the budget year.

7. The allowable growth per pupil for each school district is the basic allowable growth per pupil, for the budget year modified as follows:

a. If the state cost per pupil for the budget year exceeds the district cost per pupil for the budget year, the basic allowable growth per pupil for the budget year is modified to equal one hundred ten percent of the product of the state cost per pupil for the base year times the state percent of growth for the budget year. However, the basic allowable growth per pupil for the budget year under this paragraph shall not exceed the difference between the state cost per pupil for the budget year and the district cost per pupil for the budget year. For purposes of this paragraph the state cost per pupil and the district cost per pupil shall not include special education support service costs, and the district cost per pupil for the budget year shall not include that por-

tion of the district cost per pupil created by additions or subtractions to the allowable growth per pupil for the budget year and for prior school years beginning with the school year commencing July 1, 1977, as provided under paragraph *"b"* of this subsection.

b. By the school budget review committee under section 442.13.

c. For the school year beginning July 1, 1975 only, by adding to the basic allowable growth per pupil for the budget year an amount to compensate for the costs of special education support services provided through the area education agency. The total amount for each area shall be based upon the program plans submitted by the special education director of the area education agency as required by section 273.5, which shall be modified as necessary and approved by the department of public instruction according to the criteria and limitations of section 273.5 and chapter 281. The amount of additional allowable growth per pupil for the budget year for each district in an area shall be determined by dividing the total amount for the area so determined by the weighted enrollment of the area for the budget year.

d. For the school year beginning July 1, 1976 and ending with the school year beginning July 1, 1980, by adding to the basic allowable growth an amount to compensate for the additional costs of special education support services provided through the area education agency. For the school years beginning July 1, 1978 and July 1, 1979 only, the total amount for each area shall be equal to the total amount approved for special education support services for the base year times one hundred percent plus the state percent of growth. In addition to the amount provided in this paragraph to each area for the school years beginning July 1, 1978 and July 1, 1979 to compensate for the additional costs of special education support services, each area may be granted by the state board an additional amount to serve children newly identified as requiring the services pursuant to plans submitted by the special education director of the area education agency as required by section 273.5. The total of additional amounts granted throughout the state by the state board for the school year beginning July 1, 1978 shall not exceed the total amount approved for special education support services for the school year beginning July 1, 1977 times four and eighty-seven hundredths percent, and for the school year beginning July 1, 1979 shall not exceed the total amount approved for special education support services for the school year beginning July 1, 1978 times three percent. For the school year beginning July 1, 1980 the total amount for the state for special education support services shall not exceed the total amount approved for special education support services for the base year times one hundred percent plus the state percent of growth, and the total amount for each area shall be determined by the state board of public instruction pursuant to plans submitted by the special education director of the area education agency as required by section 273.5, which shall be modified as necessary and approved by the state board of public instruction according to the criteria and limitations of section 273.5 and chapter 281 and within the total amount for the state provided in this paragraph. The amount of additional allowable growth per pupil for the budget year for each district in an area shall be determined by dividing the total amount for the area so determined by the weighted enrollment of the area for the budget year.

e. For the school years prior to the school year beginning July 1, 1981, for the additional allowable growth computed under paragraphs *"c"* and *"d"* of this subsection, the state board of public instruction, in co-operation with the appropriate personnel of the area education agency, shall determine the amounts for each area education agency, as required and the state comptroller shall calculate the amounts of additional allowable growth for each district necessary to fund the total special education support services costs as increased for the budget year under paragraph *"d"* of this subsection, and shall calculate the amounts due from each district to its area education agency by multiplying the additional allowable growth per pupil necessary to fund the total special education support services costs as increased for the budget year under paragraph *"d"* of this subsection by the weighted enrollment in the district for the budget year. The state comptroller shall deduct the amounts so calculated for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the area education agencies on a quarterly basis during each school year. The state comptroller shall notify each school district of the amount of state aid deducted for this purpose and the balance of state aid will be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the state comptroller, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.

f. By the department of management under section 442.35.

g. For the school year beginning July 1, 1988, and succeeding school years, the amount included in the special education support services district cost per pupil for each district in an area education agency for a budget year is the amount included in the special education support services district cost per pupil in the base year plus the allowable growth added to special education support services state cost per pupil for the budget year, except as provided in paragraph *"h"*. Funds shall be paid to area education agencies as provided in section 442.25.

h. For the school year beginning July 1, 1988, and succeeding school years, the director of the department of education may direct the department of management to increase or reduce the allowable growth included in special education support services district cost per pupil for a budget year for spe-

cial education support services costs in an area education agency in the base year based upon special education support services needs in the area. However, an increase in the allowable growth can only be granted by action of the director of the department of education to restore a previous reduction or portion of a reduction in allowable growth for that year or the previous year.

8. For the school year beginning July 1, 1988, and succeeding school years, the allowable growth added to special education support services state cost per pupil is the amount included in the special education support services state cost per pupil for the base year times the state percent of growth for the budget year.

9. Allowable growth. For the school year beginning July 1, 1981, the state comptroller shall add to the allowable growth of affected school districts, an amount equal to the difference between the amount per pupil in weighted enrollment for the approved budget for the school year beginning July 1, 1980 for special education support services in that area education agency and the amount per pupil in weighted enrollment for the amount certified to generate funds for the school year beginning July 1, 1980 for special education support services in the area education agency and shall adjust the state cost per pupil accordingly.

442.8 State cost per pupil.

The state cost per pupil for the school year beginning July 1, 1972, is nine hundred three dollars. The state cost per pupil for the school year beginning July 1, 1987, is two thousand seven hundred six dollars. Of that amount, two thousand five hundred ninety dollars is regular program state cost per pupil and one hundred sixteen dollars and two cents is special education support services state cost per pupil. The state cost per pupil for the school year beginning on July 1, 1988, and for each succeeding school year is the sum of the base year's regular program state cost per pupil plus the allowable growth for the budget year and the base year's special education support services state cost per pupil plus the allowable growth for the budget year. If the state percent of growth is zero, the budget year's state cost per pupil is the same as the base year's state cost per pupil.

However, for the budget years beginning July 1, 1980, July 1, 1982, July 1, 1983, and July 1, 1984, the state cost per pupil shall equal the base year's state cost per pupil plus the allowable growth for the budget year plus an adjustment to the state cost per pupil. For the budget years beginning July 1, 1980, July 1, 1982, July 1, 1983, and July 1, 1984, the adjustment to the state cost per pupil is twenty dollars per pupil, thirteen dollars per pupil, eight dollars per pupil, and eight dollars per pupil, respectively.

Commencing with the school year beginning July 1, 1976, and ending with the school year beginning July 1, 1979, the allowable growth added to the state cost per pupil as otherwise computed under section 442.7 shall be the basic allowable growth increased by an amount equal to the average of the amounts of allowable growth added for each school district in the state for additional special education support services needed for that year to serve newly identified children who require the services, under sections 273.9, subsection 3 and 442.7, subsection 7, paragraph *"d"*. The state comptroller shall compute the applicable amount of allowable growth to be added to the state cost per pupil for each school year.

442.9 District cost per pupil — district cost — additional school district property tax levy.

1. The department of management shall determine the additional school district property tax levy for each school district, which is in addition to the foundation property tax levy, as follows:

a. As used in this chapter, regular program district cost per pupil for the budget year is equal to the regular program district cost per pupil for the base year plus the allowable growth. However, regular program district cost per pupil does not include additional allowable growth added for programs for gifted and talented children, for programs for returning dropouts, and for educational improvement projects under chapter 260A, for special education support services costs, or for school districts that have a negative balance of funds raised for special education instruction programs under section 442.13, subsection 14, paragraph *"b"*, and does not include additional allowable growth established by the school budget review committee for a single school year only.

As used in this chapter, the special education support services district cost per pupil for the budget year is the special education support services district cost per pupil for the base year plus allowable growth as provided in section 442.7, subsection 7.

District cost per pupil is the sum of the regular program district cost per pupil and the special education support services district cost per pupil.

b. The district cost for the budget year is equal to the sum of the regular program district cost per pupil for the budget year multiplied by the weighted enrollment, plus the special education support services district cost per pupil multiplied by the weighted enrollment for special education support services costs, plus additional district cost added for moneys received by a school district under section 302.3, Code 1981, as provided in section 442.21, and plus the additional district cost allocated to the district under section 442.27 to fund media services and educational services provided through the area education agency. A school district shall not increase its district cost for the budget year except to the extent that an excess tax levy is authorized by the school budget review committee as provided in section 442.13.

c. The amount to be raised by the additional school district property tax levy is equal to the district cost for the budget year, less the total of the products of the state or district foundation base for regular program times the weighted enrollment plus the state or district foundation base for special education support services costs times the weighted enrollment for special education support services costs.

2. No later than May 1 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. Each county auditor shall spread the additional property tax levy for each school district over all taxable property in the district.

442.9A Supplemental aid.

Notwithstanding section 442.9, commencing with the budget year beginning July 1, 1987, if the rate of the additional property tax levy determined under section 442.9 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under section 442.9 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for the five-year period provided in this section. The department of management shall pay to each reorganized school district during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the difference in revenues that would have been collected under the additional property tax levy calculated under section 442.9 and the rate determined under this section.

For the school year beginning July 1, 1987 and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 442.26.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid, supplemental aid shall be considered property tax.

For purposes of this section, a reorganized school district is one in which action to bring about a reorganization was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and will take effect on or after July 1, 1986.

442.10 Special education support services balances.

Notwithstanding chapters 273 and 281 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for the school year commencing July 1, 1983 and succeeding school years, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The total amount deducted in an area shall be based upon excess special education support services unreserved and undesignated fund balances in that area education agency for a school year. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district's total state school aids available under this chapter for area education agency special education support services and reduce the district's property tax levy for area education agency special education support services by the amount necessary for the property tax portion of the deductions made under this section during the budget year.

The amount deducted from a school district's budget shall not affect the calculation of the state cost per pupil or its district cost per pupil in that school year or a subsequent year.

442.12 School budget review committee.

A school budget review committee is established in the department of education and consists of the director of the department of education, the director of the department of management, and three members who are knowledgeable in the areas of Iowa school finance or public finance issues appointed by the governor to represent the public. At least one of the public members shall possess a master's or doctoral degree in which areas of school finance, economics, or statistics are an integral component, or shall have equivalent experience in an executive administrative or senior research position in the education or public administration field. The members appointed by the governor shall serve staggered

three-year terms beginning and ending as provided in section 69.19 and are subject to senate confirmation as provided in section 2.32. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section 257.31.* It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure under chapter 17A. The director of the department of education shall serve as chairperson, and the director of the department of management shall serve as secretary. The committee members representing the public are entitled to receive their necessary expenses while engaged in their official duties. Members shall be paid a per diem at the rate specified in section 7E.6. Per diem and expense payments shall be made from appropriations to the department of education.

The department of education shall employ a staff member to assist the school budget review committee.

442.13 Duties of the committee.

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, information about the amounts of property tax levied by school districts for a cash reserve, and other information the committee deems advisable.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Subject to the minimum for the school years beginning July 1, 1974, and July 1, 1975, as provided in section 442.7, the committee may establish a modified allowable growth by reducing the allowable growth:

a. If the district cost per pupil exceeds the state cost per pupil.

b. If in the committee's judgment the district cost is unreasonably high in relation to the comparative cost factors of similar districts, even if the district cost per pupil does not exceed the state cost per pupil.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for this purpose, and such aid shall be miscellaneous income and shall not be included in district cost; or may establish a modified allowable growth for the district by increasing its allowable growth; or both:

a. Any unusual increase or decrease in enrollment.

b. Unusual natural disasters.

c. Unusual transportation problems and for which the per pupil transportation costs are substantially higher than the state average per pupil transportation costs due to sparsity of the population, topographical factors, and other obstacles which hinder the efficient transportation of pupils.

d. Unusual initial staffing problems.

e. The closing of a nonpublic school, wholly or in part.

f. Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.

g. Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils.

h. Unusual need for a new course or program which will provide substantial benefit to pupils, if the district establishes such need and the amount of necessary increased cost.

i. Unusual need for additional funds for special education or compensatory education programs.

j. Year-round or substantially year-round attendance programs which apply toward graduation requirements, including but not limited to trimester or four-quarter programs. Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance.

k. Severe hardship due to the exclusion of miscellaneous income from computations under this chapter. For the school year beginning July 1, 1973, the committee shall increase the district's allowable growth to the extent necessary to prevent such hardship.

l. Transportation equipment needs which become necessary because of the furnishing of transportation to nonpublic school pupils under chapter 285.

m. Enrollment decrease caused by the availability of transportation to nonpublic school pupils in a district.

n. Costs of special education programs and services for children requiring special education who are living in a state-supported institution, charitable institution, or licensed boarding home which does not maintain a school and the child has not been counted in the weighted enrollment under section 281.9.

o. Any unique problems of districts to include minority problems, vandalism, civil disobedience and other costs incurred by school districts.

6. If a nonpublic school closes wholly or in part, the committee may authorize an increase in the district general fund tax levy, but only to the extent necessary to cover the cost of absorbing the former nonpublic school pupils into the public school system. The school board shall establish the amount of necessary increased cost to the satisfaction of the school budget review committee before an increase in tax levy is authorized.

7. The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for either of the following purposes:

a. Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or a tax as provided in chapter 278 and for major building repairs as defined in section 297.5.

b. The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275 which are incurred within three years of the dissolution or reorganization.

No other expenditure, including but not limited to expenditures for salaries or recurring costs, shall be authorized under this subsection. Expenditures authorized under this subsection shall not be included in allowable growth or district cost, and the portion of the unexpended cash balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance.

8. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

9. When the committee makes a decision under subsections 3 to 8, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the director of the department of management.

10. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year after the school year commencing July 1, 1975, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 281.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

In determining the balance of funds of a school district under this subsection, the committee shall subtract the amount of any reduction in state aid that occurred as a result of a reduction in allotments made by the governor under section 8.31.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeds the amount of state aid that remains to be paid to the district, the school district shall pay the remainder on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that would have been local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 442.9 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to

the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in each district that has a positive balance determined under paragraph *"a"* for the base year, or the state aid portion of the positive balance determined under paragraph *"a"* for the base year, whichever is less, totaled on a statewide basis, to be used for supplemental aid payments to school districts. Except as otherwise provided in this paragraph, supplemental aid paid to a district is equal to the state aid portion of the district's deficit balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this paragraph.

A school district is eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will request the school budget review committee to instruct the director of the department of management to increase the district's allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the additional allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for a cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 442.9 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

16. The committee shall perform the duties assigned to it under chapter 286A.

442.14 Additional enrichment amount.

1. For the budget year beginning July 1, 1980, and each succeeding school year, if a school board wishes to spend more than the amount permitted under sections 442.1 to 442.13, and the school board has not attempted by resolution to raise an additional enrichment amount for that budget year, the school board may raise an additional enrichment amount not to exceed ten percent of the state cost per pupil multiplied by the budget enrollment in the district, as provided in this section. For the budget year beginning July 1, 1988 and each succeeding school year, the additional enrichment amount that may be raised is an amount not to exceed fifteen percent of the state cost per pupil multiplied by the budget enrollment in the district. The additional five percent is to provide additional moneys for districts because of budget reductions incurred beginning July 1, 1988 under sections 442.4, subsections 3 and 5.

2. The board shall determine the additional enrichment amount per pupil needed, within the limits of this section, and shall direct the county commissioner of elections to submit the question of whether to raise that amount under this section and section 442.15, to the qualified electors of the school district at a regular school election held during September of the base year or at a special election held not later than February 15 of the base year. Only one election on the question shall be held during a twelve-month period. If a majority of those voting favors raising the enrichment amount, the board may include the approved amount in its certified budget.

3. The additional enrichment amount needed shall be raised within the limits provided in this section by a combination of an enrichment property tax and a school district income surtax imposed in the proportion of a property tax of twenty-seven cents per thousand dollars of assessed valuation of taxable property in the district for each five percent of income surtax.

4. The additional enrichment amount for a district is limited to the amount which may be raised by a combination tax in the prescribed proportion which does not exceed a property tax of one dollar and sixty-two cents per thousand dollars of assessed valuation and an income surtax of thirty percent.

5. Any additional enrichment amount of a school district, not exceeding five percent of the state cost per pupil, which was approved at a referendum prior to July 1, 1978, shall remain in effect for the period for which it was approved.

442.15 Computation of enrichment amount.

If a majority of those voting in an election approves raising the additional enrichment amount under section 442.14 and this section, the board shall certify to the department of management that the required procedures have been carried out, and the department of management shall establish the amount of additional enrichment property tax to be levied and the amount of school district income surtax to be imposed for each school year for which the additional enrichment amount is authorized. The department of management shall determine these amounts based upon the most recent figures available for the district's valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district's county auditor the amount of enrichment property tax, and to the director of revenue and finance the amount of school district income surtax to be imposed.

The school district income surtax is imposed on the state individual income tax for the calendar year during which the school's budget year begins, or for a taxpayer's fiscal year ending during the second half of that calendar year or the first half of the succeeding calendar year, and is imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, *"state individual income tax"* means the tax computed under section 422.5, less the deductions allowed in sections 422.10 and 422.12.

An additional enrichment amount authorized under section 442.14 or a lesser amount than the amount so authorized may be continued as provided in this section for a period of five school years. If the amount authorized is less than the maximum of fifteen percent of the state cost per pupil and the board wishes to increase the amount, it shall re-establish its authority to do so in the manner provided in section 442.14. If the board wishes to continue any additional enrichment amount beyond the five-year period, it shall re-establish its authority to do so in the manner provided in section 442.14 within the twelve-month period prior to termination of the five-year period.

ment of education the amount of total school district income surtax credited from the taxpayers of each school district. Additional returns in process, if any, at the time of certification shall be completed and the additional amount of school district income surtax reported to the department of management for distribution back to the school district with the first installment of the following school year.

The department of management shall deduct the amounts calculated for special education support services, media services, and educational services for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a quarterly basis during each school year. The department of management shall notify each school district of the amount of state aid deducted for these purposes and the balance of state aid shall be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the department of management, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.

All state aids paid under this chapter, unless otherwise stated, shall be paid in monthly installments beginning on September 15 of a budget year and ending on June 15 of the budget year and the installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state resources. However, an amount of state school foundation aid equal to the general allocation of the school district as determined under section 405A.2 and the amount for the tax credit for livestock pursuant to section 442.2, subsection 2, as it appeared in the 1987 Code, shall be paid to the school district on July 15 of the subsequent fiscal year, and the appropriation for this amount shall be made for the fiscal year during which the payment is made. However, the state aids paid to school districts under section 442.28 shall be paid in monthly installments beginning on December 15 and ending on June 15 of a budget year.

However, this section does not apply to a school district that has received approval from the director of the department of education under section 279.10, subsection 4, to commence classes for regularly established elementary and secondary schools in advance of the starting date established in section 279.10, subsection 1.

88 Acts, ch 1087, §4

442.27 Funding media and educational services.

Media services and educational services provided through the area education agencies shall be funded, to the extent provided, by an addition to the district cost of each school district, determined as follows:

1. For the budget year beginning July 1, 1975, the total amount funded in each area for media services shall be the greater of an amount equal to the costs for media services in the area in the base year times the sum of one hundred percent plus the state percent of growth, or an amount equal to five dollars times the enrollment served in the area in the budget year. The costs for media services in the area in the base year beginning July 1, 1974, shall be a proportionate part of the budgeted expenditures by county school systems and joint county systems formerly serving pupils in the area based upon the enrollment served in that area in the base year by each county school system and joint county system compared to the total enrollment served by that county system or joint county system.

2. For the school year beginning July 1, 1978 and each succeeding budget year through the budget year beginning July 1, 1981, the total amount funded for each area for media services excluding the cost for media resource material shall be the total amount funded in the area for media service in the base year times the sum of one hundred percent plus the state percent of growth plus the costs for media resource material for the budget year.

For the school year beginning July 1, 1981, the total amount to be funded for media services, including the costs for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs *"a"*, *"b"* and *"c"*, shall be equal to the budget in the base year in the area times the sum of one hundred percent plus the state percent of growth.

3. *a.* However, for the budget year beginning July 1, 1978, each area in which the amount funded for media services per pupil without inclusion of the costs for media resource material is less than the maximum media service cost per pupil for the enrollment served during the budget year, that area shall receive additional funding for equalization purposes as provided in this paragraph. Each such area shall be funded, in addition to the amount funded under the provisions of subsection 2, an amount equal to one-third of the difference between the product of the maximum media service cost per pupil times the enrollment served in the budget year in the area and that amount the area is eligible to receive for media services other than for media resource material under subsection 2. For the budget year beginning July 1, 1979, each area in which the amount funded for media services, other than for media resource material, is less than the maximum media service cost per pupil for the enrollment served in the area in the budget year, in addition to the amount funded for media services other than media resource material under the provision of subsection 2, shall be funded at an amount equal to one-half of the difference between the product of the maximum media service cost per pupil times the enrollment served in the budget year in the area and that amount the district is eligible to receive under subsection 2 for media services other than for media resource material. For the budget year beginning July 1, 1980, each area shall be funded at that amount generated by multiplying the maximum media service cost per pupil times the enrollment served in the area for the budget year.

For the purposes of this section "maximum media service cost per pupil" means, for the school year beginning July 1, 1978, one hundred percent plus the state percent of growth times eight dollars without inclusion of the cost for media resource material. For each succeeding school year prior to the school year beginning July 1, 1981, the "maximum media service cost per pupil" without inclusion of the cost of media resource material shall be equal to the one hundred percent plus the state percent of growth for the budget year times the maximum media service cost per pupil for the base year.

b. In addition to the funding provided for media services under subsections 1 and 2 and paragraph *"a"* of this subsection, for the school year beginning July 1, 1978, an amount shall be funded to be added to media service funds for each area for purchase and replacement of media resource material required in section 273.6, subsection 1, paragraphs *"a," "b"* and *"c"*. The amount shall be equal to three dollars times the enrollment served in the area in the budget year. For each succeeding school year subsequent to the school year beginning July 1, 1978, and prior to the school year beginning July 1, 1981, the amount to fund media resource material, which shall only be used for the purchase and replacement of material required in section 273.6, subsection 1, paragraphs *"a," "b"* and *"c,"* shall be equal to the total amount funded in the area for media resource material in the base year times the sum of one hundred percent plus the state percent of growth.

4. For the school year beginning July 1, 1982 and succeeding school years, the total amount funded in each area for media services in the budget year shall be computed as provided in this subsection. For the school year beginning July 1, 1982, the total amount funded in each area for media services in the base year, including the cost for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs *"a"*, *"b"* and *"c"*, shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the state comptroller shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the year beginning July 1, 1982 and succeeding school years, the department of management shall compute the allowable growth for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for

the budget year, and the total amount funded in each area for media services cost in the budget year equals the area media services cost per pupil in the base year plus the allowable growth for media services in the budget year times the enrollment served in the budget year. Funds shall be paid to area education agencies as provided in section 442.25.

5. For the school year beginning July 1, 1986, the department of management shall increase the area media services cost per pupil in each area education agency and the state media services cost per pupil determined under subsection 4 by one dollar and one cent for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs *"a"*, *"b"*, and *"c"*.

6. For the budget year beginning July 1, 1975, the total amount funded in each area for educational services shall be an amount equal to ten dollars times the enrollment served in the area in the budget year.

7. For each succeeding budget year through the budget year beginning July 1, 1980, the total amount funded in each area for educational services shall be the total amount funded in the area for educational services in the base year times the sum of one hundred percent plus the state percent of growth. For the school year beginning July 1, 1981, the total amount funded in each area for educational services is the total amount funded in the area for educational services in the base year.

8. For the school year beginning July 1, 1982 and succeeding school years, the total amount funded in each area for educational services in the budget year shall be computed as provided in this subsection. For the school year beginning July 1, 1982, the total amount funded in each area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the state comptroller shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the year beginning July 1, 1982 and succeeding school years, the department of management shall compute the allowable growth for educational services by multiplying the state educational services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the allowable growth for educational services in the budget year times the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 442.25.

9. For school years prior to the school year beginning July 1, 1982, of the total amounts funded in each area each year for media services and educational services, a portion shall be allocated to each district in the area. The portion to be allocated to each district in an area shall be the same percentage of the total amount that the enrollment served in the budget year in the district is of the enrollment served in the budget year in the area.

10. For school years prior to the school year beginning July 1, 1982, the portion allocated to each district in an area each budget year for media services and educational services shall be added to the district cost of that district for the budget year as provided in section 442.9.

11. For school years prior to the school year beginning July 1, 1982, the state board of public instruction and the state comptroller shall determine the total amounts funded in each area for media services and educational services each year, and the amounts to be allocated to each district. The state comptroller shall deduct the amounts so calculated for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the districts' area education agencies on a quarterly basis during each school year. The state comptroller shall notify each school district the amount of state aid deducted for this purpose and the balance which will be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover the amount due to its area education agency as calculated by the state comptroller, the school district shall pay the deficiency to its area education agency from other moneys received by the district, on a quarterly basis during each school year.

12. *"Enrollment served"* means the basic enrollment plus the number of nonpublic school pupils served with media services or educational services, as applicable, except that if a nonpublic school pupil receives services through an area other than the area of the pupil's residence, the pupil shall be deemed to be served by the area of the pupil's residence, which shall by contractual arrangement reimburse the area through which the pupil actually receives services. For school years subsequent to the school year beginning July 1, 1986, each school district shall include in the third Friday in September enrollment report the number of nonpublic school pupils within each school district for media and educational services served by the area.

13. For the school year beginning July 1, 1978, and for each subsequent school year, if an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for media services in the budget year times the difference between the enrollment served and the basic enrollment recorded for the area for the budget year beginning July 1, 1975. The educational services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for

educational services in the budget year times the difference between the enrollment served and the basic enrollment recorded for the budget year beginning July 1, 1975.

The provisions of this subsection shall apply only to media and educational services which cannot be diverted for religious purposes.

Notwithstanding this subsection, an area education agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to public schools as determined by the director of the department of education.

442.28 Advance for increasing enrollment.

If a district's actual enrollment for the budget year, determined under section 442.4, is higher than its budget enrollment for the budget year, the district is entitled to an advance from the state of an amount equal to its regular program district cost per pupil for the budget year multiplied by the difference between the actual enrollment for the budget year and the budget enrollment for the budget year. However, if a district's actual enrollment for the budget year is more than fifteen percent higher than its basic enrollment for the budget year, the advance shall be calculated using seventy-five percent of the difference between the district's actual enrollment for the budget year and its basic enrollment for the budget year. The advance is miscellaneous income.

If a district receives an advance under this section for a budget year, the department of management shall determine the amount of the advance which would have been met by local property tax revenues if the actual enrollment for the budget year or the budget enrollment for the budget year plus seventy-five percent of the difference between the actual enrollment for the budget year and the basic enrollment for the budget year, had been used in determining district cost for that budget year, shall reduce the district's total state school aids available under this chapter for the next following budget year by the amount so determined, and shall increase the district's tax levy computed under section 442.9, for the next following budget year by the amount necessary to compensate for the reduction in state aid, so that the local property tax for the next following year will be increased only by the amount which it would have been increased in the budget year if the enrollment calculated in this section could have been used to establish the levy.

There is appropriated each year from the general fund of the state the amount required to pay advances authorized under this section, which shall be paid to school districts in the same manner as other state aids are paid under section 442.26.

442.29 Reimbursement restrictions for prior years.

Notwithstanding the provisions of sections 281.9 and 281.11 as those sections are in effect prior to July 1, 1975, reimbursement shall not be made to local school districts for the special education costs for the school year beginning July 1, 1974, incurred for programs provided for the school year beginning July 1, 1971, or prior years, but reimbursement shall be made to local school districts for new and expanded programs for the school year beginning July 1, 1974, beyond those programs provided for the school year beginning July 1, 1971, and reimbursement applied for by county boards of education and joint county boards of education under those sections shall be made.

[C77, 79, 81, §442.29]

442.30 Temporary increase in per pupil cost.

1. For the school year beginning July 1, 1979, the state cost per pupil shall be increased to an amount which would otherwise have resulted for the school year beginning July 1, 1979, if the surplus balances for area education agency support services and for area education inherited funds had not been offset against the total support budgets for the school year beginning July 1, 1978. This adjustment is to compensate for the reductions made to state cost based upon the temporary offset of support budgets by certain area education agency fund balances.

2. Notwithstanding the provisions of chapter 1095 as enacted by the Sixty-seventh General Assembly, 1978 Session, as it pertains to the amount of the reduction to the support service costs to be allocated among the school districts, the amount of the special education support services cost to be reduced for area education agency XIII is equal to ninety-nine thousand eight hundred ninety-nine dollars rather than a reduction of one hundred twenty-one thousand one hundred twenty dollars.

3. To meet the special problems that result from budget reductions due to declining enrollments prior to the modifications in the adjustments for declining enrollments to take effect commencing with the school year beginning July 1, 1979, there is appropriated from the general fund of the state for the fiscal years beginning July 1, 1978 and ending June 30, 1980, to the school budget review committee the sum of two million five hundred thousand dollars, or so much thereof as necessary to be used to minimize the impact of the factor listed in subsection 4. The school budget review committee may also establish a modified allowable growth for the school district by increasing the allowable growth for the school district to provide additional funds to assist the school district with hardships which result from the impact on the school district's budget resulting from declining enrollment.

4. To assess whether a district has hardships resulting from reduced funds because of declining enrollment, the school budget review committee shall

consider whether the school district will be forced to terminate an existing educational program because of insufficient funds and thus diminish the overall quality of the school program for the budget year from that provided in the base year.

[C79, 81, §442.30]

442.31 Gifted and talented children.

For the school year beginning July 1, 1981 and succeeding school years, boards of school districts, individually or jointly with the boards of other school districts, requesting to use additional allowable growth for gifted and talented children programs, may annually submit program plans for gifted and talented children programs and budget costs, including requests for additional allowable growth for funding the programs, to the department of education and to the applicable gifted and talented children advisory council, if an advisory council has been established, as provided in this chapter.

The parent or guardian of a pupil may request that a gifted and talented children program be established for pupils who qualify as gifted and talented children under section 442.33, including demonstrated achievement or potential ability in a single subject area.

The department shall employ a consultant for gifted and talented children programs.

The department of education shall adopt rules under chapter 17A relating to the administration of sections 442.31 to 442.35, 442.40 and 442.41. The rules shall prescribe the format of program plans submitted under section 442.32 and shall require that programs fulfill specified objectives. The department shall encourage and assist school districts to provide programs for gifted and talented children whether or not additional allowable growth is requested under this chapter.

2. Student identification criteria and procedures.

4. Staff utilization plans.
5. Evaluation criteria and procedures and performance measures.
6. Program budget.
7. Qualifications required of personnel administering the program.
8. Other factors the department requires.

[C79, 81, §442.32]

442.33 Defined.

"Gifted and talented children" are those identified as possessing outstanding abilities who are capable of high performance. Gifted and talented children are children who require appropriate instruction and educational services commensurate with their abilities and needs beyond those provided by the regular school program.

Gifted and talented children include those children with demonstrated achievement or potential ability, or both, in any of the following areas or in combination:

1. General intellectual ability.
2. Creative thinking.
3. Leadership ability.
4. Visual and performing arts ability.
5. Specific ability aptitude.

442.34 Submission of program plans.

The board of directors of a school district requesting to use additional allowable growth for gifted and talented children programs shall submit applications for approval for the programs to the department not later than November 1 preceding the fiscal year during which the program will be offered. The board shall also submit a copy of the program plans to the gifted and talented children advisory council, if an advisory council has been established. The department shall review the program plans and shall prior to January 15 either grant approval for the program or return the request for approval with comments of the department included. Any unapproved request for a program may be resubmitted with modifications to the department not later than February 1. Not later than February 15 the department shall notify the department of management and the school budget review committee of the names of the school districts for which gifted and talented children programs using additional allowable growth for funding have been approved and the approved budget of each program listed separately for each school district having an approved program.

[C79, 81, §442.34; 82 Acts, ch 1006, §6]

442.35 Funding.

The budget of an approved gifted and talented children program for a school district, after subtracting funds received from other sources for that purpose, shall be funded annually on a basis of one-fourth or more from the district cost of the school district and up to three-fourths by an increase in allowable growth as defined in section 442.7. The approved budget for a gifted and talented children program shall not exceed an amount equal to one and two-tenths percent of the district cost per pupil of the district multiplied by the budget enrollment of the district. Annually, the department of management shall establish a modified allowable growth for each such district equal to the difference between the approved budget for the gifted and talented children program for that district and the sum of the amount funded from the district cost of the school district plus funds received from other sources.

[C79, 81, §442.36]

442.37 Special education balances reduced.

1. The purpose of this section is to reduce the school district balances for special education instruction programs which were not expended for special education instruction.

2. For the purposes of this section, "unencumbered special education instruction funds" means those funds received by a school district for special education instruction programs for the school years beginning July 1, 1975, July 1, 1976, and July 1, 1977, for special education instruction which were not encumbered prior to January 1, 1978, or which were not an approved expenditure by the department of public instruction based upon applications for approval received by the department prior to January 1, 1978. The unencumbered special education instruction funds shall be those funds received for special education instruction programs based on funds raised for weighted enrollment in excess of the district cost per pupil times the adjusted enrollment in the year of receipt.

3. The state comptroller shall reduce the total state aid to be received by a school district in the school year beginning July 1, 1978, by sixty-five percent of the unencumbered special education instruction funds of the district. The amount shall be certified to the state comptroller by the department of public instruction upon request by the state comptroller.

4. Notwithstanding the provisions of section 442.9, for the school year beginning July 1, 1978, the state comptroller shall reduce for each school district the amount of property tax to be levied for the school year by an amount equal to thirty-five percent of the unencumbered special education instruction funds.

5. Notwithstanding subsections 3 and 4, a school district receiving the minimum state aid under the provisions of section 442.1, shall have the state aid to be received for the budget year beginning July 1, 1978, reduced by the portion of unencumbered special education instruction funds that two hundred dollars per pupil is of the school district's district cost per pupil for the school year beginning July 1, 1977. The property tax to be levied for the school district shall be reduced by the unencumbered special education instruction funds remaining after reduction for the state aid portion of such funds as provided in this subsection.

442.38 Advance for special education. Repealed by 88 Acts, ch 1284, § 82.

442.39 Supplementary weighting plan.

In order to provide additional funds for school districts which send their resident pupils to another school district or to a community college for classes, which jointly employ and share the services of teachers under section 280.15, which use the services of a teacher employed by another school district, or which jointly employ and share the services of school superintendents under section 280.15 or 273.7A, a supplementary weighting plan for determining enrollment is adopted as follows:

1. Pupils in a regular curriculum attending all their classes in the district in which they reside and taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. Pupils attending classes in another school district or a community college, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district, are assigned a weighting of one plus five-tenths, times the percent of the pupil's school day during which the pupil attends classes in another district or community college, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district if the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting. However, in lieu of the additional weighting of five-tenths, the school budget review committee shall assign an additional weighting of one-tenth times the percent of the pupil's school day in which a pupil attends classes in another district or a community college, attends classes taught by a teacher who is employed jointly under section 280.15, or attends classes taught by a teacher who is employed by another district, in districts that have a substantial number of students in any of grades seven through twelve sharing more than one class or teacher under a whole grade sharing agreement. The additional weighting of one-tenth shall be assigned by the school budget review committee to a district for a maximum of five years. If the school district reorganizes during that five-year period, the assignment of the additional weighting shall be transferred to the reorganized district until the expiration of the five-year period.

3. A pupil eligible for the weighting plan provided in section 281.9 is not eligible for the weighting plan provided in this section.

4. Pupils enrolled in a school district which has approved a contract on or after October 1, 1989, for which the superintendent is employed jointly under

section 280.15 or 273.7A, are assigned a weighting of one plus twenty-five thousandths for each superintendent who is jointly employed times the percent of the superintendent's time in which the superintendent is employed in the school district. However, the total additional weighting assigned under this subsection for a budget year for a school district is seven and one-half and the total additional weighting that may be added cumulatively to the enrollment of school districts sharing a superintendent is twelve and one-half.

Effective July 1, 1988, the additional weighting assigned under this subsection shall be assigned to a district for a maximum of five years. Additional weighting assigned under this subsection for contracts approved by a board of directors between July 1, 1988, and September 30, 1989, shall be continued under this subsection for a maximum of five years.

If the school district reorganizes during the five-year period for which weighting is assigned, the assignment of the additional weighting shall be transferred to the reorganized district until the expiration of the five-year period.

For the purposes of this section, *"administrators"* includes the following:

a. Executive administrators, which includes the superintendent and such assistants as deputy, associate, and assistant superintendents who perform activities in the general direction and management of the affairs of the local school districts.

b. School administrators, which includes assistant principals, and other assistants in general supervision of the operations of the school. School administrators does not include principals.

c. Business administrators, which includes personnel associated with activities concerned with purchasing, paying for, transporting, exchanging, and maintaining goods and services for the school district.

Effective July 1, 1988, the additional weighting assigned under this subsection may be assigned to a district for a maximum of five years and, thereafter, the additional weighting shall not be assigned to the same district under this section, but may be assigned under section 442.39A.

5. For the school year beginning July 1, 1983 and succeeding school years, a school district receiving additional funds under subsection 2 for its pupils at the ninth grade level and above that are enrolled in sequential mathematics courses at the advanced algebra level and above; chemistry, advanced chemistry, physics or advanced physics courses; or foreign language courses at the second year level and above shall have an additional weighting of one pupil added to its total.

However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district. For purposes of this section, a reorganized district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and takes effect on or after July 1, 1986.

The terms of office of advisory council members shall commence on July 1 of each year. An advisory council shall consist of seven members including teachers, parents, school administrators, and other persons interested in education in the area. Except as otherwise provided in this section, members shall be eligible electors residing in the merged area. Members shall serve without compensation but shall be reimbursed for actual and necessary expenses and mileage incurred in the performance of their duties from funds available to the area education agency.

If an area education agency has a weighted enrollment of more than thirty-five thousand, the board may appoint additional advisory councils for each thirty-five thousand weighted enrollment or fraction of thirty-five thousand. If more than one advisory council is appointed by the board, the board shall divide the merged area along school district boundary lines for jurisdiction of the advisory councils, and membership of these advisory councils shall be appointed from the designated portion of the merged area.

[C81, §442.40]

442.41 Duties of advisory council.

The gifted and talented children advisory council shall:

1. Elect a chairperson and vice chairperson from the membership of the advisory council.
2. Meet as often as deemed necessary by the advisory council.
3. Advise and assist a local board of directors in the establishment of gifted and talented children programs, when requested by the local board.
4. Review program plans and proposed budgets for a gifted and talented children program, in consultation with a gifted and talented children consultant employed by the area education agency, when requested by a local board.
5. [C81, §442.41]

442.42 Special education additional funds.

For the school year beginning July 1, 1981, an area education agency which requires additional money to provide special education support services to children requiring special education in the area may apply to the school budget review committee for additional funds. The school budget review committee shall review the requests submitted by area education agencies and may allocate additional funds to area education agencies on the basis of need from any funds appropriated to the department of education for the use of the school budget review committee.

[C81, §442.42]

442.43 Supplemental school income surtax.

1. For the budget school year beginning July 1, 1981, if the board of a school district wishes to spend more than the amount permitted under sections 442.1 to 442.13, the board may call a special election to determine whether to impose a supplemental school income surtax on individual state income tax for the calendar year beginning January 1, 1981. The supplemental school income surtax for the school district shall not exceed an amount equal to the difference between the portion of district cost of the district attributable to regular program costs for the school year beginning July 1, 1981 if the state percent of growth had been nine and twenty-six thousandths percent and the portion of the actual district cost of the district attributable to regular program costs for the school year beginning July 1, 1981. Any income derived from the supplemental school income surtax is miscellaneous income.

2. The board shall determine the amount needed, within the limits of this section, and shall set the date of a special election, which shall not be later than July 1, 1981. The board shall direct the county commissioner of elections to submit the question of whether to raise that amount to the qualified electors of the school district. If a majority of those voting on the proposition at the special election favors the imposition of the supplemental school income surtax, the board may amend its certified budget to include the amount imposed.

3. Following approval at the special election, the board shall certify to the department of management that the required procedures have been carried out and the department of management shall establish the amount of supplemental school income surtax to be imposed based upon the most recent figures available for the district's individual state income tax paid. The department of management shall certify to the director of revenue and finance the amount of supplemental school income surtax to be imposed.

The supplemental school income surtax shall be imposed on the state individual income tax for the calendar year beginning January 1, 1981, or for a taxpayer's fiscal year ending during the second half of that calendar year or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, "state individual income tax" means the tax computed under section 422.5, less the deductions allowed in section 422.12.

4. Sections 442.16, 442.17, 442.19, and 442.20 apply to the supplemental school income surtax established in this section. The director of revenue shall deposit all moneys received as supplemental school income surtax to the credit of each district from which the moneys are received, in a "supplemental school income surtax fund" which is established in the office of the treasurer of state.

442A.2 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa and the improvement of the financing procedures for Iowa's schools.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.
3. Iowa schools face a serious and increasing problem with cash flow difficulties caused, among other factors, by increasing reliance on state school foundation aid, delays in the payment of state school foundation aid, and the periodic payment of property taxes for school purposes.
4. As a result of their increasing cash flow difficulties, Iowa schools have had to borrow on a short-term basis larger amounts of funds more often, thus increasing their borrowing costs significantly.
5. The short-term borrowing costs of Iowa schools are a direct burden on the taxpayers of the state.
6. It is necessary to create the authority to provide a means for Iowa schools to reduce substantially or eliminate their short-term borrowing costs and thus reduce costs to the taxpayers.
7. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned or granted.

85 Acts, ch 34, §2

442A.3 Definitions.

3. *"Board"* means the governing board of the authority created in section 442A.5.

3. The executive director shall not have an interest in a bank or other financial institution in which the funds of the authority are deposited or which is acting as trustee or paying agent under a trust indenture to which the authority is a party. The executive director shall not receive, in addition to fixed salary or compensation, any money or valuable thing, either directly or indirectly, or through any substantial interest in any other corporation or business unit, for negotiating, procuring, recommending, or aiding in any loan made by the authority, nor shall the executive director be pecuniarily interested, either as principal, co-principal, agent, or beneficiary, either directly or indirectly or through any substantial interest in any other corporation or business unit, in any loan.

CERTIFICATION OF TAXES

444.1 Basis for amount of tax.

In all taxing districts in the state, including townships, school districts, cities and counties, when by law then existing the people are authorized to determine by vote, or officers are authorized to estimate or determine, a rate of taxation required for any public purpose, such rate shall in all cases be estimated and based upon the adjusted taxable valuation of such taxing district for the preceding calendar year.

[C24, 27, 31, 35, 39, §**7162;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §444.1]

444.2 Amounts certified in dollars.

When an authorized tax rate within a taxing district, including townships, school districts, cities and counties, has been thus determined as provided by law, the officer or officers charged with the duty of certifying the authorized rate to the county auditor or board of supervisors shall, before certifying the rate, compute upon the adjusted taxable valuation of the taxing district for the preceding fiscal year, the amount of tax the rate will raise, stated in dollars, and shall certify the computed amount in dollars and not by rate, to the county auditor and board of supervisors.

[C24, 27, 31, 35, 39, §**7163;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §444.2]

83 Acts, ch 101, §90

444.3 Computation of rate.

When the valuations for the several taxing districts shall have been adjusted by the several boards for the current year, the county auditor shall thereupon apply such a rate, not exceeding the rate authorized by law, as will raise the amount required for such taxing district, and no larger amount. For purposes of computing the rate under this section, the adjusted taxable valuation of the property of a taxing district does not include the valuation of property of a railway corporation or its trustee which corporation has been declared bankrupt or is in bankruptcy proceedings. Nothing in the preceding sentence exempts the property of such railway corporation or its trustee from taxation and the rate computed under this section shall be levied on the taxable property of such railway corporation or its trustee.

[C24, 27, 31, 35, 39, §**7164;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §444.3; 82 Acts, ch 1207, §5, 6]

88 Acts, ch 1250, §19

444.4 Fractional rates disregarded.

If in adjusting the rate to be levied in any taxing district to conform to law, such rates shall make necessary the levying of a fraction of a cent, said fractional excess may be computed as one cent, which latter shall be the smallest required to be spread upon the tax lists for any purpose except rates applicable to a state purpose.

[C24, 27, 31, 35, 39, §**7166;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §444.4]

444.5 Interpretative clause. Repealed by 83 Acts, ch 101, § 129.

444.6 Record of rates.

On the determination by the auditor of the necessary rates as herein directed, it is made the auditor's duty to enter a record of such rates for each taxing district upon the permanent records of the auditor's office in a book to be kept for that purpose.

[C24, 27, 31, 35, 39, §**7168**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §444.6]

444.7 Excessive tax prohibited.

It is a simple misdemeanor for the board of supervisors to authorize, or the county auditor to carry upon the tax lists for any year, an amount of tax for a public purpose in excess of the amount certified or authorized as provided by law. The department of management shall prescribe and furnish the county auditors forms and instructions to aid them in determining the legality and authorized amount of tax levies. The county auditor shall reduce an excessive levy to the maximum amount authorized by law, and not in excess of the amount certified; and the county auditor shall not enter or carry a tax on the tax lists for an illegal levy.

Property of municipal and political subdivisions of the state of Iowa and property held by a city or county agency or the Iowa finance authority for use in an Iowa homesteading project, shall not be offered or sold at tax sale and a tax sale of that property is void from its inception. In the construction of this chapter the word *"person"* shall include plural as well as singular, and artificial as well as natural persons. This chapter shall not be construed to confer upon a county attorney authority to represent the state in any case, and the county attorney shall represent the department of revenue and finance only when especially authorized by it to do so.

For purposes of this chapter, unless the context otherwise requires, *"personal representative"* means an executor, administrator, or trustee as each is defined in section 633.3 and *"Internal Revenue Code"* means the same as defined in section 422.3.

1988 amendment to unnumbered paragraph 2 is effective January 1, 1988, for estates of persons dying on or after that date; 88 Acts, ch 1028, §53

450.2 Estates taxable.

The estates of all deceased persons in any property whether the decedents be inhabitants of this state or not, and whether such estates consist of real, personal, or mixed property, tangible or intangible, and any interest in, or income from, any such estate or property which estate or property is, at the death of the decedent owner within this state, or is subject to the jurisdiction of the courts of this state, or thereafter is brought within this state and becomes subject to the jurisdiction of the courts of this state; or the property of any decedent, domiciled within this state at the time of the death of such decedent, even though the property of such decedent so domiciled was situated outside of the state, except real estate located outside of the state, passing in fee from the decedent owner, which shall pass in any manner herein described shall be subject to tax as herein provided.

[C97, §1467; S13, §1481-a; C24, 27, 31, 35, 39, § **7306;** C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.2]

450.3 Property included.

The tax hereby imposed shall be collected upon the net market value and shall go into the general fund of the state to be determined as herein provided, of any property passing as follows:

1. By will or under the statutes of inheritance of this or any other state or country.

2. By deed, grant, sale, gift or transfer made within three years of the death of the grantor or donor, which is not a bona fide sale for an adequate and full consideration in money or money's worth and which is in excess of the annual gift tax exclusion allowable for each donee under section 2503, subsections b and e of the Internal Revenue Code. If both spouses consent, a gift made by one spouse to a person who is not the other spouse is considered, for the purposes of this subsection, as made one half by each spouse under the same terms and conditions provided for in section 2513 of the Internal Revenue Code.

3. By deed, grant, sale, gift or transfer made or intended to take effect in possession or enjoyment after the death of the grantor or donor. A transfer of property in respect of which the transferor reserves to the transferor a life income or interest shall be deemed to have been intended to take effect in possession or enjoyment at death, provided, that if the transferor reserves to the transferor less than the entire income or interest, the transfer shall be deemed taxable thereunder only to the extent of a like proportion of the value of the property transferred.

4. To the extent of any property with respect to which the decedent has at the time of death a general power of appointment, or with respect to which the decedent has within three years of death exercised or released a general power of appointment by a disposition which is of a nature that if it were a transfer of property owned by the decedent, the property would be includable in the decedent's gross estate under this section whether the general power was created before or after the taking effect of this chapter. A transfer involving creation of a general power of appointment shall be treated as a transfer of a fee or equivalent interest in the property subject thereto to the donee of the power. Any transfer involving creation of any other power of appointment shall be treated, except when an election is made under subsection 7, as the transfer of a life estate or term of years in the property subject thereto to the donee of the power and as the transfer of the remainder interests to those who would take if the power is not exercised.

5. Property which is held in joint tenancy by the decedent and any other person or persons or any deposit in banks, or other institution in their joint names and payable to either or to the survivor, except such part as may be proven to have belonged to the survivor; or any interest of a decedent in property owned by a joint stock or other corporate body whereby the survivor or survivors become beneficially entitled to the decedent's interest upon the death of a shareholder. However, if such property is so held by the decedent and the surviving spouse as the only co-owners, one half of such property is not subject to taxation under the provisions of this chapter, but if the surviving spouse proves that the surviving spouse contributed to acquisition of such property an amount, in money or other property, greater than one half of the cost of the property held in joint tenancy, the portion of such property which is not subject to taxation under the provisions of this chapter shall be the proportion which the actual contribution by the surviving spouse is of the total contribution to acquisition of such property. The tax imposed upon the passing of property under the provisions of this subsection shall apply to property held under all such contracts or agreements whether made before or after the taking effect of this chapter.

6. When the decedent shall have disposed of the decedent's estate in any manner to take effect at the decedent's death with a request secret or otherwise that the beneficiary give, pay to, or share the property or any interest therein received from the decedent, with other person or persons, or to so dispose of beneficial interests conferred by the decedent upon the beneficiaries as that the property so passing would be taxable under the provisions of this chapter if passing directly by will or deed from the decedent owner to those to receive the gift from the beneficiary, compliance with such request shall constitute a transfer taxable under the provisions of this chapter, at the highest rate possible in like cases of transfers by will or deed.

7. Which qualifies as a qualified terminable interest property as defined in section 2056(b)(7)(B) of the Internal Revenue Code, shall, if an election is made, be treated and considered as passing in fee, or its equivalent, to the surviving spouse in the estate of the donor-grantor. Property on which the election is made shall be included in the gross estate of the surviving spouse and shall be deemed to have passed in fee from the surviving spouse to the persons succeeding to the remainder interest, unless the property was sold, distributed, or otherwise disposed of prior to the death of the surviving spouse. A sale, disposition, or disposal of the property prior to the death of the surviving spouse shall void the election, and shall subject the property disposed of, less amounts received or retained by the surviving spouse, to tax in the donor-grantor's estate in the same manner as if the tax had been deferred under sections 450.44 through 450.49.

Unless the will or trust instrument provides otherwise, the estate of the surviving spouse shall have the right to recover from the persons succeeding to the remainder interests, the additional tax imposed, if any, without interest, on the surviving spouse by reason of the election being made. The amount of tax recovered, if any, shall be a credit in the donee's estate against the tax imposed on the qualified terminable interest property.

An election under this subsection can only be made if an election in relation to the qualified terminable interest property is also made for federal estate tax purposes.

The director of revenue and finance shall adopt and promulgate all rules necessary for the enforcement and administration of this subsection including the form and manner of making the election.

450.4 Exemptions.

The tax imposed by this chapter shall not be collected:

1. When the entire estate of the decedent does not exceed the sum of ten thousand dollars after deducting the liabilities, as defined in this chapter.

2. When the property passes in any manner to societies, institutions or associations incorporated or organized under the laws of this state for charitable, educational, or religious purposes, and which are not operated for pecuniary profit, or to cemetery associations, including humane societies or to resident trustees for such uses within this state, or to organizations composed wholly of veterans of any war of the United States of America; provided, however, that this exemption shall also include property passing to any society, institution or association incorporated or organized under the laws of any other state for charitable, educational or religious purposes, and which are not operated for pecuniary profit or to trustees for such uses in such other state if under the laws of such state no tax would be imposed upon the passing of property to such institutions, societies or associations incorporated or organized under the laws of this state or to trustees for such uses in this state or to any organization composed wholly of veterans of any war of the United States of America.

3. When the property passes to public libraries or public art galleries within this state, open to the use of the public and not operated for gain, or to hospitals within this state, or to trustees for such uses within this state, or to municipal corporations for purely public purposes.

4. Bequests for the care and maintenance of the cemetery or burial lot of the decedent or the decedent's family, and bequests not to exceed five hundred dollars in any estate of a decedent for the performance of a religious service or services by some person regularly ordained, authorized, or licensed by some religious society to perform such service, which service or services are to be performed for or in behalf of the testator or some person named in the testator's last will.

5. On the value of that portion of installment payments which will be includable as net income as defined in section 422.7 as received by a beneficiary under an annuity which was purchased under an employees pension or retirement plan.

83 Acts, ch 177, §3, 38

450.5 Liability for tax.

Any person becoming beneficially entitled to any property or interest in property by any method of transfer as specified in this chapter, and all personal representatives and referees of estates or transfers taxable under this chapter, are respectively liable for all taxes to be paid by them respectively.

[C97, §1467; S13, §1481-a; C24, 27, 31, 35, 39, § **7309**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.5]

83 Acts, ch 177, §4, 38

450.6 Accrual of tax — maturity — extension of time.

The tax imposed by this chapter accrues at the death of the decedent owner, and shall be paid to the department of revenue and finance on or before the last day of the ninth month after the death of the decedent owner except if otherwise provided in this chapter. If in the opinion of the director of revenue and finance additional time should be granted for payment to avoid hardship, the director may extend the period to a date not exceeding ten years from the last day of the month in which the death of the decedent occurred. In the case of an extension the tax bears interest at the rate in effect under section 421.7 from the expiration of the last day of the ninth month after the decedent's death. Interest shall be computed on a monthly basis with a fraction of a month counted as a full month.

Upon the approval of the executive council, the tax liability of a beneficiary, heir, surviving joint tenant or other transferee may be paid, in lieu of money, in whole or in part by the transfer of real property or tangible personal property to the state or a political subdivision of the state to be used for public purposes. Before the tax liability may be paid by transfer of property to a political subdivision, the governing body of the political subdivision shall also approve the transfer. The property transferred in payment of tax shall have been included in the decedent's gross estate for inheritance tax purposes and its value for the payment of the tax shall be the same as its value for inheritance tax purposes. The acceptance or rejection of the property in payment of the tax liability and the value of the property shall be certified by the executive council to the director of revenue and finance. The acceptance of the property transferred acts as payment and satisfaction of the inheritance tax liability to the extent of the value of the transferred property, but notwithstanding any other provision, the taxpayer is not entitled to a refund if the transferred property has a value in excess of the tax liability.

450.7 Lien of tax.

1. Except for the share of the estate passing to the surviving spouse, the tax is a charge against and a lien upon the estate subject to tax under this chapter, and all property of the estate or owned by the decedent from the death of the decedent until paid, subject to the following limitations:

a. Inheritance taxes owing with respect to a passing of property of a deceased person whose estate has not been administered in this state are no longer a lien against the property twenty years from the date of death of the decedent owner, except to the extent taxes are attributable to remainder or de-

ferred interests which have not been finally vested in possession for at least ten years.

b. Inheritance taxes owing with respect to a passing of property of a deceased person whose estate has been administered in this state are no longer a lien against the property ten years from the date of death of the decedent owner, except to the extent taxes are attributable to remainder or deferred interests and are deferred in accordance with the provisions of this chapter.

2. Notice of the lien is not required to be recorded. The rights of the state under the lien have priority over all subsequent mortgages, purchases, or judgment creditors; and a conveyance after the decedent's death of the property subject to a lien does not discharge the property except as otherwise provided in this chapter. However, if additional tax is determined to be owing under this chapter or chapter 451 after the lien has been released under paragraph *"a"* or *"b"*, the lien does not have priority over subsequent mortgages, purchases, or judgment creditors unless notice of the lien is recorded in the office of the recorder of the county where the estate is probated, or where the property is located if the estate has not been administered. The department of revenue and finance may release the lien by filing in the office of the clerk of the court in the county where the property is located, the decedent owner died, or the estate is pending or was administered, one of the following:

a. A receipt in full payment of the tax.

b. A certificate of nonliability for the tax as to all property reported in the estate.

c. A release or waiver of the lien as to all or any part of the property reported in the estate, which shall release the lien as to the property designated in the release or waiver.

3. The sale, exchange, mortgage, or pledge of property by the personal representative pursuant to a testamentary direction or power, pursuant to section 633.387, or under order of court, divests the property from the lien of the tax. The proceeds from that sale, exchange, mortgage, or pledge shall be held by the personal representative subject to the same priorities for the payment of the tax as existed with respect to the property before the transaction, and the personal representative is personally liable for payment of the tax to the extent of the proceeds.

450.46 Deferred estate — valuation.

Upon the determination of a prior estate or interest, when the remainder or deferred estate or interest or a part of it is subject to tax and the tax upon the remainder or deferred interest has not been paid, the persons entitled to the remainder or deferred interest shall immediately report to the department of revenue and finance the fact of the determination of the prior estate, and upon receipt of the report, or upon information from any source, of the determination of a prior estate when the remainder interest has not been valued for the purpose of assessing tax, the property shall be valued as provided in like cases in section 450.44 and the tax upon the remainder interest shall be paid by the person who owns the remainder interest on or before the last day of the ninth month after the determination of the prior estate. If the tax is not paid within this time the court shall then order the property, or as much as necessary to pay the tax, penalty, and interest, to be sold.

450.47 Life and term estates in personal property.

If an estate or interest for life or term of years in personal property is given to one or more persons other than those exempt by this chapter and the remainder or deferred estate to others, the property devised or conveyed shall be valued under section 450.37 as provided in ordinary estates and the value of the estates or interests devised or conveyed shall be determined as provided in section 450.51, and the tax upon the estates or interests liable for the tax shall be paid to the department of revenue and finance from the property valued or by the persons entitled to the estate or interest on or before the last day of the ninth month after the death of the testator, grantor, or donor. However, payment of the tax upon a deferred estate or remainder interest may be deferred until the determination of the prior estate by the giving of a good and sufficient bond as provided in section 450.48.

450.48 Payment deferred — bond.

When in case of deferred estates or remainder interests in personal property or in the proceeds of any real estate that may be sold during the time of a life, term, or prior estate, the persons interested who may desire to defer the payment of the tax until the determination of the prior estate, shall file with the clerk of the proper district court a bond as provided herein in other cases, such bond to be renewed every two years until the tax upon such deferred estate is paid. If at the end of any two-year period the bond is not promptly renewed as herein provided and the tax has not been paid, the bond shall be declared forfeited, and the amount thereof forthwith collected. When the estate of a decedent consists in part of real and in part of personal property, and there be an estate for life or for a term of years to one or more persons and a deferred or remainder estate to others, and such deferred or remainder estate is in whole or in part subject to the tax imposed by this chapter, if the deferred or remainder estates or interests are so disposed that good and sufficient security for the payment of the tax for which such deferred or remainder estates may be liable can be had because of the lien imposed by this chapter upon the real property of such estate, then payment of the tax upon such deferred or remainder estates may be postponed until the determination of the prior estate without giving bond as herein required to secure payment of such tax, and the tax shall remain a lien upon such real estate until the tax upon such deferred estate or interest is paid.

450.88 Corporations to report transfers.

Every Iowa corporation organized for pecuniary profit shall, on July 1 of each year, by its proper officers under oath, make a full and correct report to the director of revenue and finance of all transfers of its stocks made during the preceding year by any person who appears on the books of the corporation as the owner of the stock, when the transfer is made to take effect at or after the death of the owner or transferor, and all transfers which are made by a personal representative, referee, or any person other than the owner or person in whose name the stocks appeared of record on the books of the corporation, prior to the transfer. This report shall show the name of the owner of the stocks and the owner's place of residence, the name of the person at whose request the stock was transferred, the person's place of residence and the authority by virtue of which the person acted in making the transfer, the name of the person to whom the transfer was made, and the residence of the person, together with other information the officers reporting have relating to estates of persons deceased who may have been owners of stock in the corporation. If it appears that any stock transferred is subject to tax under this chapter, and the tax has not been paid, the director of revenue and finance shall notify the corporation in writing of its liability for the payment of the tax, and shall bring suit against the corporation as in other cases unless payment of the tax is made within sixty days from the date of notice.

This section does not apply if the lien has been released under section 450.7 or the director has issued a consent to transfer.

450.89 Foreign estates — deduction of debts. Repealed by 83 Acts, ch 177, § 37, 38. See § 450.12(2).

450.90 Property in this state belonging to foreign estate.

When property, real or personal, within this state belongs to a foreign estate and the foreign estate passes in part exempt from the tax imposed by this chapter and in part subject to the tax and there is not a specific devise of the property within this state to exempt persons or if it is within the authority or discretion of the foreign personal representative administering the estate to dispose of the property not specifically devised to exempt persons in the payment of liabilities owing by the decedent at the time of death, or in the satisfaction of legacies, devises, or trusts given to direct or collateral legatees or devi-

sees or in payment of the distributive shares of any direct and collateral heirs, then the property within the jurisdiction of this state belonging to the foreign estate is subject to the tax imposed by this chapter, and the tax due shall be assessed as provided in section 450.12, subsection 2, relating to the deduction of the proportionate share of liabilities. However, if the value of the property so situated exceeds the total amount of the estate passing to other persons than those exempt from the tax imposed by this chapter, the excess is not subject to tax.

[S13, §1481-a40; C24, 27, 31, 35, 39, §**7393**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.90]

450.91 Foreign estates — reciprocity — personal property.

The tax imposed by this chapter in respect to personal property of nonresidents (other than tangible personal property having an actual situs in this state) shall not be payable (1) if the decedent at the time of the decedent's death was a resident of a state or territory of the United States which at the time of the decedent's death did not impose a transfer tax or death tax of any character in respect to personal property of residents of this state (other than tangible personal property having an actual situs in such state or territory), or (2) if the laws of the state or territory of residence of the decedent at the time of the decedent's death contained a reciprocal provision under which nonresidents were exempted from transfer taxes or death taxes of every character in respect of personal property (other than tangible personal property having an actual situs therein) provided the state or territory of residence of such nonresidents allowed a similar exemption to residents of the state or territory of residence of such decedent.

In no case shall the provisions of this section apply to the intangible personal property of nonresident decedents unless such intangible personal property shall have been subjected to a tax or submitted for purposes of taxation in the state of the decedent's residence.

This section shall apply only to estates of decedents dying subsequent to July 4, 1929.

For the purpose of this section the District of Columbia and possessions of the United States shall be considered territories of the United States.

450.92 Compromise settlement.

Whenever an estate charged or sought to be charged with the inheritance tax is of such a nature, or is so disposed, that the liability of the estate is doubtful, or the value thereof cannot with reasonable certainty be ascertained under the provisions of law, the director of revenue and finance may, with the written approval of the attorney general, which approval shall set forth the reasons therefor, compromise with the beneficiaries or representatives of such estates, and compound the tax thereon; but said settlement must be approved by the district court or judge of the proper court, and after such approval the payment of the amount of the taxes so agreed upon shall discharge the lien against the property of the estate.

[S13, §1481-a41; C24, 27, 31, 35, 39, §**7394**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.92]

450.93 Unknown heirs.

Whenever the heirs or persons entitled to any estate or any interest therein are unknown or their place of residence cannot with reasonable certainty be ascertained, a tax of five percent shall be paid to the department of revenue and finance upon all such estates or interests, subject to refund as provided herein in other cases; provided, however, that if it be afterwards determined that any estate or interest passes to aliens, there shall be paid within sixty days after such determination and before delivery of such estate or property, an amount equal to the difference between five percent, the amount paid, and the amount which such person should pay under the provisions of this chapter.

[S13, §1481-a42; C24, 27, 31, 35, 39, §**7395**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §450.93]

450.94 Return — determination — appeal.

1. "Taxpayer" as used in this section means a person liable for the payment of tax as stated in section 450.5.

2. The taxpayer shall file an inheritance tax return on forms to be prescribed by the director of revenue and finance. When an inheritance tax return is filed, the department shall examine it and determine the correct amount of tax. If the amount paid is less than the correct amount due, the department shall notify the taxpayer of the total amount due together with any penalty and interest which shall be a sum certain if paid on or before the last day of the month in which the notice is postmarked, or on or before the last day of the following month if the notice is postmarked after the twentieth day of a month and before the first day of the following month.

3. If the amount paid is greater than the correct tax, penalty, and interest due, the department shall refund the excess, with interest after sixty days from the date of payment at the rate in effect under section 421.7, under the rules prescribed by the director. However, the director shall not allow a claim for refund or credit that has not been filed with the department within three years after the tax payment upon which a refund or credit is claimed became due, or one year after the tax payment was made, whichever time is later. A determination by the department of the amount of tax, penalty, and interest due, or the amount of refund for excess tax paid, is final unless the person aggrieved by the determination appeals to the director for a revision of the determination within thirty days from the postmark date of the notice of determination of tax, penalty, and interest due or refund owing. The director shall grant a hearing, and upon the hearing the director shall determine the

correct tax, penalty and interest or refund due, and notify the appellant of the decision by mail. The decision of the director is final unless the appellant seeks judicial review of the director's decision under section 450.59 within sixty days after the postmark date of the notice of the director's decision.

4. Payments received must be credited first to the penalty and interest accrued and then to the tax due.

5. The amount of tax imposed under this chapter shall be assessed according to one of the following:

a. Within three years after the return is filed with respect to property reported on the final inheritance tax return.

b. At any time after the tax became due with respect to property not reported on the final inheritance tax return, but not later than three years after the omitted property is reported to the department on an amended return or on the final inheritance tax return if one was not previously filed.

In addition to the applicable periods of limitations for examination and determination specified in paragraphs *"a"* and *"b"*, the department may make an examination and determination at any time within six months from the date of receipt by the department of written notice from the taxpayer of the final disposition of any matter between the taxpayer and the internal revenue service with respect to the federal estate, gift, or generation skipping transfer tax. In order to begin the running of the six months assessment period, the notice shall be in writing in form sufficient to inform the department of the final disposition of any matter with respect to the federal estate, gift, or generation skipping transfer tax, and a copy of the federal document showing the final disposition or final federal adjustments shall be attached to the notice.

6. Notwithstanding the periods of limitation for filing a claim for refund in subsection 3, with respect to estates of decedents dying on or after July 1, 1982, a qualified heir who has paid an additional inheritance tax under section 450B.3 by reason of the cessation of the qualified use due to cash rent of the special use property by the surviving spouse, shall have until November 10, 1989, to file a claim for refund of the additional inheritance tax paid.

7. Notwithstanding the periods of limitations for filing a claim for refund in subsection 3, estates of decedents dying on or after July 1, 1985, which have elected to treat qualified terminable interest property as passing to the surviving spouse in fee, shall have until November 10, 1990, to make the election allowed under section 6152(c)(3) of the Technical and Miscellaneous Revenue Act of 1988 for joint and survivor annuities.

450.96 Contingent estates.

Estates in expectancy which are contingent or defeasible and in which proceedings for the determination of the tax have not been taken or where the taxation has been held in abeyance, shall be valued at their full, undiminished value when the persons entitled to the estates come into the beneficial enjoyment or possession of the estates, without diminution for or on account of any valuation previously made. When an estate, devise, or legacy can be divested by the act or omission of the legatee or devisee, it shall be taxed as if there were no possibility of the divesting. When a devise, bequest, or transfer is one in part contingent, and in part vested so that the beneficiary will come into possession and enjoyment of a portion of the inheritance on or before the happening of the event upon which the possible defeating contingency is based, a tax shall be imposed and collected upon the bequest or transfer as upon a vested interest, at the highest rate possible under this chapter if no contingency existed; provided that if the contingency reduces the value of the estate or interest taxed, and the amount of tax paid is in excess of the tax for which the bequest or transfer is liable upon the removal of the contingency, the excess shall be refunded as provided in sections 450.94 and 450.95 in other cases.

450.97 Joint owners of bank accounts — duty to notify department of revenue and finance.

No person, bank, credit union, or savings and loan association shall permit the withdrawal of funds from a joint account by a surviving joint owner without first notifying the department of revenue and finance of the balance in such account at the date of decedent's death and the name and address of the surviving joint owner. Such notification may be accomplished by mailing the required information to the department of revenue and finance and withdrawal or payment of such funds may be made immediately thereafter as long as such mailing is accomplished by ordinary mail no later than the date of withdrawal or earlier if knowledge of the decedent's death is known by the depository. A person, bank, credit union, or savings and loan association shall only be liable for any inheritance tax due by the surviving joint owner for willful failure to report to the department of revenue and finance as herein provided.

Where the transferor is a resident of Iowa and all property included in a generation skipping transfer that is subject to tax under this section has a situs in Iowa, or is subject to the jurisdiction of the courts of Iowa, an amount equal to the total credit as allowed under the Internal Revenue Code shall be paid to the state of Iowa. 450B.2 Alternate election of value for qualified use.

Notwithstanding section 450.37, the value of qualified real property for the purpose of the tax imposed under chapter 450 may, at the election of the taxpayer, be its value for the use under which it qualifies as prescribed by section 2032A of the Internal Revenue Code. A taxpayer may make an election under this section only if all of the following conditions are met:

1. An election for federal estate tax purposes was made with regard to the qualified real property under section 2032A of the Internal Revenue Code.

2. All persons who signed the agreement referred to in section 2032A(d)(2) of the Internal Revenue Code make the election under this section and sign an agreement with the department of revenue and finance consenting to the application of section 450B.3 with respect to the qualified real property.

3. The total decrease in the value of the qualified real property as a result of the election under this section does not exceed the dollar limitation specified in section 2032A(a)(2) of the Internal Revenue Code.

The election under this section shall be made by the taxpayer in the manner as the director of revenue and finance may prescribe by rule. The value for the qualified use under this section shall be the value as determined and accepted for federal estate tax purposes.

The definitions and special rules specified in section 2032A(e) of the Internal Revenue Code shall apply with respect to qualified real property for which an election was made under this section except that rules shall be prescribed by the director of revenue and finance in lieu of the regulations promulgated by the secretary of treasury.

The director shall prescribe regulations setting forth the application of this chapter in the case of an interest in a partnership, corporation, or trust which, with respect to the decedent, is an interest in a closely held business within the meaning of section 6166(b)(1) of the Internal Revenue Code. Such regulations shall conform as nearly as possible with the regulations promulgated by the United States secretary of treasury in respect to such interests.

88 Acts, ch 1028, §40

1988 amendment is effective January 1, 1988, for estates of persons dying on or after that date; 88 Acts, ch 1028, §53

450B.3 Additional inheritance tax applicable.

There is imposed upon the qualified heir an additional inheritance tax if, within ten years after the decedent's death and before the death of the qualified heir, the qualified heir disposes of, other than to a member of the family, any interest in qualified real property for which an election under section 450B.2 was made or ceases to use for the qualified use the qualified real property for which an election under section 450B.2 was made as prescribed in section 2032A(c) of the Internal Revenue Code. The additional inheritance tax shall be the amount computed under section 450B.5 and shall be due six months after the date of the disposition or cessation of qualified use referred to in this section. The amount of the additional inheritance tax shall accrue interest at the rate of ten percent per year from nine months after the decedent's death to the due date of the tax. The tax shall be paid to the department of revenue and finance and shall be deposited into the general fund of the state. Taxes not paid within the time prescribed in this section shall draw interest at the rate of ten percent per annum until paid. There shall not be an additional inheritance tax if the disposition or cessation occurs ten years or more after the decedent's death.

[81 Acts, ch 147, §14, 15; 82 Acts, ch 1023, §26, 27, 34]
88 Acts, ch 1028, §41

1988 amendment is effective January 1, 1988, for estates of persons dying on or after that date; 88 Acts, ch 1028, §53

450B.4 Reserved.

450B.5 Ratio of applicable tax.

The amount of the additional inheritance tax imposed by section 450B.3 is the excess of what the tax imposed by chapter 450 would have been had the election to use the qualified use valuation under section 450B.2 not been made over the tax paid on the real estate based on qualified use valuation. However, if all of the real estate valued under section 450B.2 is not disposed of or does not cease to be used for the qualified use, the amount of the additional inheritance tax is the amount computed by applying the ratio that the real estate subject to the qualified use valuation which has been disposed of or which the qualified use ceases bears to all the real estate subject to the qualified use valuation passing to the taxpayer to the excess of the tax which would have been imposed by chapter 450 had the election under section 450B.2 not been made over the tax paid on the real estate based on qualified use valuation. However, the additional inheritance tax shall not be computed on a value greater than the fair market value of the qualified real estate at the time the disposition or cessation of the qualified use occurs.

[81 Acts, ch 147, §16]

450B.6 Lien of tax.

A lien is created in favor of the state for the additional inheritance tax which may be imposed by section 450B.3 on the qualified real property for which an election has been made under section 450B.2. The lien created by this section shall continue until the tax has been paid or ten years after the tax is due, whichever date occurs first. However, the lien shall expire ten years after the decedent's death if the qualified heir has not disposed of or ceased to use for the qualified use the qualified real property which would impose the tax under section 450B.3. The department of revenue and finance may release the lien prior to the payment of the tax due, if any, if adequate security for payment of the tax is given.

Unless the lien has been perfected by recording in the office of the recorder in the county where the estate is probated, a transfer of the qualified real property to a bona fide purchaser for value shall divest the property of the lien. If the lien is perfected by recording, the rights of the state under the lien have priority over all subsequent mortgagees, purchasers or judgment creditors. The lien may be foreclosed by the director of revenue and finance in the same manner as is now prescribed for the foreclosure of real estate mortgages and upon judgment, execution shall be issued to sell as much of the property necessary to satisfy the tax, interest and costs due.

[81 Acts, ch 147, §17; 82 Acts, ch 1023, §28, 34]

450B.7 Other inheritance tax laws applicable.

All the provisions of chapter 450 with respect to the payment, collection and administration of the inheritance tax imposed under that chapter are applicable to the provisions of this chapter to the extent consistent. The director of revenue and finance shall adopt and promulgate all rules necessary for the enforcement and administration of this chapter.

d. Practices intended to discourage application for types of credit set forth in the Community Reinvestment Act statement.

e. Geographic distribution of credit extensions, credit applications and credit denials.

b. If any committee member, in the member's discretion, finds that the complaint has merit, the member may order the bank, savings and loan association, or savings bank alleged to have failed to meet its community reinvestment responsibility to attend and participate in a meeting with the complainant. The committee member may specify who, at minimum, shall represent the financial institution at the meeting. At the meeting, or at any other time, the financial institution may, but is not required to, enter into an agreement with a complainant to correct alleged failings.

453.16 Security for deposit of public funds.

1. Before a deposit of public funds is made by a public officer with a depository institution in excess of the amount insured by federal deposit insurance or federal savings and loan insurance, and before the investment of public funds in investments authorized in section 452.10 which either are not obligations of or guaranteed by the United States government or any of its agencies, are in excess of

the amount insured by federal deposit insurance or federal savings and loan insurance, or are investments by the treasurer of state specifically authorized by section 452.10 to be made as additional investments under section 97B.7, subsection 2, paragraph *"b"*, the public officer shall obtain security for the deposit or investment by one or more of the following:

a. The depository institution may give to the public officer a corporate surety bond of a surety corporation approved by the treasury department of the United States and authorized to do business in this state, which bond shall be in an amount equal to the public funds on deposit at any time. The bond shall be conditioned that the deposit shall be paid promptly on the order of the public officer making the deposit and shall be approved by the officer making the deposit.

b. The depository institution may deposit, maintain, pledge and assign for the benefit of the public officer in the manner provided in this chapter, securities approved by the public officer, the market value of which is not less than one hundred ten percent of the total deposits of public funds placed by that public officer in the depository institution. The securities shall consist of any of the following:

(1) Direct obligations of, or obligations that are insured or fully guaranteed as to principal and interest by, the United States of America or an agency or instrumentality of the United States of America.

(4) To the extent of the guarantee, loans, obligations, or nontransferable letters of credit upon which the payment of principal and interest is fully secured or guaranteed by the United States of America or an agency or instrumentality of the United States of America.

(5) First lien mortgages which are valued according to practices acceptable to the treasurer of state.

Direct obligations of, or obligations that are insured or fully guaranteed as to principal and interest by, the United States of America, which may be used to secure the deposit of public funds under subparagraph (1), include investments in an investment company or investment trust registered under the federal Investment Company Act of 1940, 15 U.S.C. § 80a, the portfolio of which is limited to the United States government obligations described in subparagraph (1) and to repurchase agreements fully collateralized by the United States government obligations described in subparagraph (1), if the investment company or investment trust takes delivery of the collateral either directly or through an authorized custodian.

2. If public funds are secured by both the assets of a depository institution and a bond of a surety company, the assets and bond shall be held as security for a rateable proportion of the deposit on the basis of the market value of the assets and of the total amount of the surety bonds.

b. The securities shall be deposited pursuant to a bailment agreement with a financial institution having facilities for the safekeeping of securities and doing business in the state. c. The securities shall be deposited with the federal reserve bank of Chicago, Illinois or the federal home loan bank of Des Moines, Iowa pursuant to a bailment agreement or a pledge custody agreement.

d. The securities may be deposited by any combination of methods specified in paragraphs *"a"*, *"b"*, and *"c"*.

2. A deposit of securities shall not be made in a facility owned or controlled directly or indirectly by the financial institution which deposits the securities.

3. All deposits of securities, other than deposits of securities with the appropriate public officer, shall have a joint custody receipt taken for the securities with one copy delivered to the public officer and one copy delivered to the depository institution. A depository institution pledging securities with a public officer may cause the securities to be examined in the officer's office to show the securities are placed with the officer as collateral security and are not transferable except upon the conditions provided in this chapter.

4. Upon written request from the appropriate public officer but not less than quarterly, a depository institution shall report the par value and the market value of any pledged collateral and the total deposits of public funds of that officer in the depository institution.

The depository institution shall replace securities so withdrawn for collection or exchange.

2. In an exchange of deposited securities for new securities, the amount of security on deposit at any time shall not be decreased below that otherwise required by this chapter.

3. In the event of substitution or exchange of securities, the holder or custodian of the securities shall, on the same day, forward by certified mail, return receipt requested, to the public officer and the depository institution, a receipt specifically describing and identifying both the substituted securities and those released and returned to the depository institution.

4. The public officer which deposits public funds with a depository institution shall require, if the market value of the securities deposited with or for the benefit of the officer falls below one hundred ten percent of the deposit liability to the public officer, the deposit of additional security to bring the total market value of the security to one hundred ten percent of the amount of public funds held by the depository.

The depository shall deliver to the treasurer of state a security agreement which provides the treasurer of state with a valid and perfected security interest in the required collateral. The market value of the required collateral shall not be less than one hundred ten percent of the total public funds placed on deposit in the depository.

2. The treasurer of state shall adopt the following rules:

a. Providing for valuation of collateral if the market value of a security is not readily determinable.

b. Establishing reporting requirements.

3. The securities used to secure public deposits shall be acceptable to the treasurer of state and shall be one or more of the following:

a. Direct obligations of, or obligations that are insured or fully guaranteed as to principal and interest by, the United States of America or an agency or instrumentality of the United States of America.

b. Public bonds or obligations of this state or a political subdivision of this state.

c. Public bonds or obligations of another state or a political subdivision of another state whose bonds are rated within the two highest classifications of prime as established by at least one of the standard rating services approved by the superintendent of banking pursuant to chapter 17A.

d. To the extent of the guarantee, loans, obligations, or nontransferable letters of credit upon which the payment of principal and interest is fully secured or guaranteed by the United States of America or an agency or instrumentality of the United States of America.

5. The superintendent of banking shall adopt rules for uniform methods, documentation and forms for pledging required collateral securities by banks under this chapter.

85 Acts, ch 194, §5; 88 Acts, ch 1090, §2

453.23 Payment of losses.

1. The pledging of securities by a depository pursuant to this chapter constitutes consent by the depository to the disposition of the securities in accordance with this section.

2. The depository and the security given for the public funds in its hands are liable for payment if the depository fails to pay a check, draft, or warrant drawn by the public officer or to account for a check, draft, warrant, order or certificates of deposit, or any public funds entrusted to it if in failing to pay the depository acts contrary to the terms of an agreement between the depository and the public body treasurer.

3. If a depository is closed by its primary regulatory officials, the public body with deposits in the depository shall notify the treasurer of state of the amount of any claim within thirty days of the closing. The treasurer of state shall implement the following procedures:

a. In cooperation with the responsible regulatory officials for the depository, the treasurer shall validate the amount of public funds on deposit at the defaulting depository and the amount of deposit insurance applicable to the deposits.

b. The loss to public depositors shall be satisfied, first through any applicable deposit insurance and then through the sale of securities pledged by the defaulting depository, and then the assets of the defaulting depository. The priority of claims are those established pursuant to section 524.1312, subsection 2, section 533.22, subsection 1, paragraph *"b"*, or section 534.517. To the extent permitted by federal law, in the distribution of an insolvent federally chartered depository's assets, the order of payment of liabilities if its assets are insufficient to pay in full all its liabilities for which claims are made shall be in the same order as for the equivalent type of state chartered depository as provided in section 524.1312, subsection 2, section 533.22, subsection 1, paragraph *"b"*, or section 534.517.

c. The claim of a public depositor for purposes of this section shall be the amount of the depositor's deposits plus interest to the date the funds are distributed to the public depositor at the rate the depository institution agreed to pay on the funds reduced by the portion of the funds which is insured by federal deposit insurance.

d. If the loss to public funds is not covered by insurance and the proceeds of the failed depository's assets which are liquidated within thirty days of the closing of the depository and pledged collateral, the treasurer shall provide coverage of the remaining loss as follows:

(1) If the loss was incurred in a bank, then any further payments to cover the loss will come from the state sinking fund for public deposits in banks. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other banks who hold public funds. The assessment shall be determined by multiplying the total amount of the remaining loss to all public depositors by a percentage that represents the average of public funds deposits held by all banks during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each bank shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a bank fails to pay its assessment when due, the treasurer shall satisfy the assessment by selling securities pledged by that bank. Idle balances in the fund are to be invested by the treasurer with earnings credited to the fund. Fees paid by banks for administration of this chapter will be credited to the fund and the treasurer may deduct actual costs of administration from the fund.

(2) If the loss was incurred in a credit union, then any further payments to cover the loss will come from the state sinking fund for public deposits in credit unions. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other credit unions who hold public funds. The assessment shall be determined by multiplying the total amount of the remaining loss to public depositors by a percentage that represents the average of public funds deposits held by all credit unions during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each credit union shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a credit union fails to pay its assessment when due, the treasurer shall satisfy the assessment by selling securities pledged by that credit union. Idle balances in the fund are to be invested by the treasurer with earnings credited to the fund. Fees paid by credit unions for administration of this chapter will be credited to the fund and the treasurer may deduct actual costs of administration from the fund.

(3) If the loss was incurred in a savings and loan or a savings bank, then any further payments to cover the loss will come from the state sinking fund for public deposits in savings and loan associations and savings banks. If the funds are inadequate to cover the entire loss, then the treasurer shall make an assessment against other savings and loans and savings banks who hold public funds. The assessment shall be determined by multiplying the total amount of the remaining loss to public depositors by a percentage that represents the average of public funds deposits held by all savings and loans and savings banks during the preceding twelve month period ending on the last day of the month immediately preceding the month the depository was closed. Each savings and loan and savings bank shall pay its assessment to the treasurer within three business days after it receives notice of assessment. If a savings and loan or savings bank fails to pay its assessment when due, the treasurer shall initiate a lawsuit to collect the assessment. If a savings and loan association or a savings bank is found to have failed to pay the assessment as required by this subparagraph, the court shall order it to pay the assessment, court costs

of the action, reasonable attorney's fees based upon the amount of time the attorney general's office spent preparing and bringing the action, and reasonable expenses incurred by the treasurer of state's office.

e. Any amount realized from the sale of collateral pursuant to paragraph *"d"*, subparagraphs (1) and (2) in excess of the amount of a depository's assessment, shall continue to be held by the treasurer, in the same interest bearing investments available for public funds, as collateral until that depository provides substitute collateral or is otherwise entitled to its release.

f. Following collection of the assessments, the state treasurer shall distribute funds to the public depositors of the failed depository according to their validated claims. If the assets available are less than the total deposits, the treasurer shall prorate the claims. A public depositor receiving payment under this section shall assign to the treasurer any interest the public depositor may have in funds that subsequently become available to depositors of the defaulting depository.

85 Acts, ch 194, §6

453.24 Liability.

When public deposits are made in accordance with this chapter, a public body depositing public funds or its agents, employees, officers, and board members are exempt from liability for any loss resulting from the loss of a depository in the absence of negligence, malfeasance, misfeasance or nonfeasance on the part of the official. If the treasurer of state sells a depository's collateral securities, the depository shall deposit additional collateral to meet required collateral levels.

In making an assessment against depositories holding public funds as a result of a failure, the treasurer of state is exempt from any liability for loss, damage or expense to a depository which has accepted public funds.

85 Acts, ch 194, §7

453.25 State sinking funds created.

RESOURCE ENHANCEMENT AND PROTECTION

455A.15 Legislative findings.

The general assembly finds that:

1. The citizens of Iowa have built and sustained their society on Iowa's air, soils, waters, and rich diversity of life. The well-being and future of Iowa depend on these natural resources.

2. Many human activities have endangered Iowa's natural resources. The state of Iowa has lost ninety-nine and nine-tenths percent of its prairies, ninety-eight percent of its wetlands, eighty percent of its woodlands, fifty percent of its topsoils, and more than one hundred species of wildlife since settlement in the early 1800's. There has been a significant deterioration in the quality of Iowa's surface waters and groundwaters.

3. The long-term effects of Iowa's natural resource losses are not completely known or understood, but detrimental effects are already apparent. Prevention of further loss is therefore imperative.

4. The air, waters, soils, and biota of Iowa are interdependent and form a complex ecosystem. Iowans have the right to inherit this ecosystem in a sustainable condition, without severe or irreparable damage caused by human activities.

89 Acts, ch 236, §2

455A.16 State resource enhancement policy.

It is the policy of the state of Iowa to protect its natural resource heritage of air, soils, waters, and wildlife for the benefit of present and future citizens with the establishment of a resource enhancement program. The program shall be a long-term integrated effort to wisely use and protect Iowa's natural resources through the acquisition and management of public lands; the upgrading of public park and preserve facilities; environmental education, monitoring, and research; and other environmentally sound means. The resource enhancement program shall strongly encourage Iowans to develop a conservation ethic, and to make necessary changes in our activities to develop and preserve a rich and diverse natural environment.

89 Acts, ch 236, §3

455A.17 Iowa congress on resources enhancement and protection.

1. Biennially, during even-numbered years, the director shall schedule and make the necessary arrangements for an Iowa congress on resources enhancement and protection. The congress shall be held within the state capitol complex during the summer months.

2. Prior to each congress, the director shall make arrangements to hold an assembly in each council of

governments area of persons having an interest in resources enhancement and protection. The department shall promote attendance of interested persons at each assembly. The director shall call each assembly and serve as temporary chairperson. The department shall provide those attending with information regarding resource enhancement and protection expenditures. The assemblies shall identify opportunities for regional resource enhancement and protection and review and recommend changes in resource enhancement and protection policies, programs, and funding. The persons meeting at each assembly shall elect five persons as delegates to the congress on resources enhancement and protection.

3. The delegates to the congress on resources enhancement and protection shall organize, discuss, and make recommendations to the governor, the general assembly, and the natural resource commission regarding issues concerning resources enhancement and protection. The director shall call the congress and serve as temporary chairperson. The delegates are entitled to a per diem of forty dollars for expenses of office while attending the congress.

4. The expenses of the department in making the arrangements for and the conducting of the council of governments area assemblies and the congress on resources enhancement and protection and the per diem for expenses of the delegates at the congress shall be paid from the funds appropriated for this purpose.

455A.18 Iowa resources enhancement and protection fund — audits.

1. An Iowa resources enhancement and protection fund is created in the office of the treasurer of state. The fund consists of all revenues and all other moneys lawfully credited or transferred to the fund. The director shall certify monthly the portions of the fund that are allocated to the various accounts as provided under section 455A.19. The director shall certify before the twentieth of each month the portions of the fund resulting from the previous month's receipts to be allocated to the various accounts.

2. The auditor of state or a certified public accountant firm appointed by the auditor of state shall conduct annual audits of all accounts and transactions of the fund.

3. Notwithstanding section 453.7, interest or earnings on investments or time deposits of the funds in the Iowa resources enhancement and protection fund or any of its accounts shall be credited to the fund.

4. For each fiscal year of the fiscal period beginning July 1, 1990, and ending June 30, 2001, there is appropriated from the general fund, to the Iowa resources enhancement and protection fund, the amount of thirty million dollars, except that for the fiscal year beginning July 1, 1990, the amount is twenty million dollars, to be used as provided in this chapter. However, in any fiscal year of the fiscal period, if moneys from the lottery are appropriated by the state to the fund, the amount appropriated under this subsection shall be reduced by the amount appropriated from the lottery.

Section 8.33 does not apply to moneys appropriated under this subsection. Notwithstanding section 453.7, interest or earnings on moneys appropriated under this subsection shall be credited to the Iowa resources enhancement and protection fund.

Subsection 4, unnumbered paragraph 1 amended

455A.19 Allocation of fund proceeds.

1. Upon receipt of any revenue, the director shall deposit the moneys in the Iowa resources enhancement and protection fund created pursuant to section 455A.18. The first three hundred fifty thousand dollars of the funds received for deposit in the fund annually shall be allocated to the conservation education board for the purposes specified in section 256.34. One percent of the revenue receipts shall be deducted and transferred to the administration fund provided for in section 107.17. All of the remaining receipts shall be allocated to the following accounts:

a. Twenty-eight percent shall be allocated to the open spaces account. At least ten percent of the allocations to the account shall be made available to match private funds for open space projects on the cost-share basis of not less than twenty-five percent private funds pursuant to the rules adopted by the natural resources commission. Five percent of the funds allocated to the open spaces account shall be used to fund the protected waters program. This account shall be used by the department to implement the statewide open space acquisition, protection, and development programs. The department shall give priority to acquisition and control of open spaces of statewide significance. The department shall also use these funds for developments on state property. The total cost of an open spaces project funded under this paragraph shall not exceed two million dollars unless a public hearing is held on the project in the area of the state affected by the project. Political subdivisions of the state shall be reimbursed for property tax dollars lost to open space acquisitions based on the reimbursement formula provided for in section 111E.4. There is appropriated from the open spaces account to the department the amount in that account, or so much thereof as is necessary, to carry out the open spaces program as specified in this paragraph. An appropriation made under this paragraph shall continue in force for two fiscal years after the fiscal year in which the appropriation was made or until completion of the project. All unencumbered or unobligated funds remaining at the close of the fiscal year in which the project is completed or at the close of the final fiscal year, whichever date is earlier, shall revert to the open spaces account.

b. Twenty percent shall be allocated to the county conservation account.

(1) Thirty percent of the allocation to the county conservation account annually shall be allocated to each county equally.

(2) Thirty percent of the allocation to the county conservation account annually shall be allocated to each county on a per capita basis.

(3) Forty percent of the allocation to the county conservation account annually shall be held in an account in the state treasury for the natural resource commission to award to counties on a competitive grant basis by a project selection committee established in this subparagraph. Local matching funds are not required for grants awarded under this subparagraph. The project planning and review committee shall be composed of two staff members of the department and two county conservation board directors appointed by the director and a fifth member selected by a majority vote of the director's appointees. The natural resource commission, by rule, shall establish procedures for application, review, and selection of county projects submitted for funding. Upon recommendation of the project planning and review committee, the director shall award the grants.

(4) Funds allocated to the counties under subparagraphs (1), (2), and (3) may be used for land easements or acquisitions, capital improvements, stabilization and protection of resources, repair and upgrading of facilities, environmental education, and equipment. However, expenditures are not allowed for single or multipurpose athletic fields, baseball or softball diamonds, tennis courts, golf courses, and other group or organized sport facilities. Funds may be used for county projects located within the boundaries of a city.

(5) Funds allocated pursuant to subparagraphs (2) and (3) shall only be allocated to counties dedicating property tax revenue at least equal to twenty-two cents per thousand dollars of the assessed value of taxable property in the county to county conservation purposes. State funds received under this paragraph shall not reduce or replace county tax revenues appropriated for county conservation purposes. The county treasurer shall submit documentation annually of the dedication of property tax revenue for county conservation purposes. The annual audit of the financial transactions and condition of a county shall certify compliance with requirements of this subparagraph. Funds not allocated to counties not qualifying for the allocations under subparagraph (2) as a result of this subparagraph shall be held in reserve for each county for two years. Counties qualifying within two years may receive the funds held in reserve. Funds not spent by a county within two years shall revert to the general pool of county funds for reallocation to other counties where needed.

(6) Each board of supervisors shall create a special resource enhancement account in the office of county treasurer and the county treasurer shall credit all resource enhancement funds received from the state in that account. Notwithstanding section 453.7, all interest earned on funds in the county resource enhancement account shall be credited to that account and used for the purposes authorized for that account.

(7) There is appropriated from the county conservation account to the department the amount in that account, or so much thereof as is necessary, to fund the provisions of this paragraph. An appropriation made under this paragraph shall continue in force for two fiscal years after the fiscal year in which the appropriation was made or until completion of the project for which the appropriation was made, whichever date is earlier. All unencumbered or unobligated funds remaining at the close of the fiscal year in which a project funded pursuant to subparagraph (3) is completed or at the close of the third fiscal year, whichever date is earlier, shall revert to the county conservation account.

(8) Any funds received by a county under this paragraph may be used to match other state or federal funds, and multicounty or multiagency projects may be funded under this paragraph.

c. Twenty percent shall be allocated to the soil and water enhancement account. The moneys shall be used to carry out soil and water enhancement programs including, but not limited to, reforestation, woodland protection and enhancement, wildlife habitat preservation and enhancement, protection of highly erodible soils, and clean water programs. The division of soil conservation, by rule, shall establish procedures for eligibility, application, review, and selection of projects and practices to implement the requirements of this paragraph. There is appropriated from the soil and water enhancement account to the soil conservation division the amount in that account, or so much thereof as is necessary, to carry out the programs as specified in this paragraph. Remaining funds of the soil and water conservation account shall be allocated to the accounts of the water protection fund authorized in section 467F.4. Annually, fifty percent of the soil and water enhancement account funds, not to exceed one million dollars, shall be allocated to the water quality protection projects account. The balance of the funds shall be allocated to the water protection practices account. An appropriation made under this paragraph shall continue in force for two fiscal years after the fiscal year in which the appropriation was made or until completion of the project for which the appropriation was made, whichever date is earlier. All unencumbered or unobligated funds remaining at the close of the fiscal year in which the project is completed or at the close of the third fiscal year, whichever date is earlier, shall revert to the soil and water enhancement account.

d. Fifteen percent shall be allocated to a cities' parks and open space account. The moneys allocated in this paragraph may be used to fund competitive grants to cities to acquire, establish, and maintain natural parks, preserves, and open spaces. The grants may include expenditures for multipurpose trails, restroom facilities, shelter houses, and picnic facilities, but expenditures for single or multipurpose athletic fields, baseball or softball diamonds, tennis courts, golf courses, and other group or organized sport facilities requiring specialized equipment

are excluded. The grants may be used for city projects located outside of a city's boundaries. The natural resource commission, by rule, shall establish procedures for application, review, and selection of city projects on a competitive basis. The rules shall provide for three categories of cities based on population within which the cities shall compete for grants. There is appropriated from the cities' parks and open space account to the department the amount in that account, or so much thereof as is necessary, to carry out the competitive grant program as provided in this paragraph.

e. Nine percent shall be allocated to the state land management account. The department shall use the moneys allocated to this account for maintenance and expansion of state lands and related facilities under its jurisdiction. The authority to expand state lands and facilities under this paragraph is limited to expansion of the state lands and facilities already owned by the state. There is appropriated from the state land management account to the department the moneys in that account, or so much thereof as is necessary, to implement a maintenance and expansion program for state lands and related facilities under the jurisdiction of the department.

f. Five percent shall be allocated to the historical resource grant and loan fund established pursuant to section 303.16. The department of cultural affairs shall use the moneys allocated to this fund to implement historical resource development programs as provided under section 303.16.

g. Three percent shall be allocated to the living roadway trust fund established under section 314.21 for the development and implementation of integrated roadside vegetation plans.

2. The moneys appropriated under this section shall remain in the appropriate account of the Iowa resources enhancement and protection fund until such time as the agency, board, commission, or overseer of the fund to which moneys are appropriated has made a request to the treasurer for use of moneys appropriated to it and the amount needed for that use. Notwithstanding section 8.33, moneys remaining of the appropriations made for a fiscal year from any of the accounts within the Iowa resources enhancement and protection fund on June 30 of that fiscal year, shall not revert to any fund but shall remain in that account to be used for the purposes for which they were appropriated and the moneys remaining in that account shall not be considered in making the allotments for the next fiscal year.

The director shall:

1. Recommend to the commission the adoption of rules that are necessary for the effective administration of the department.

2. Recommend to the commission the adoption of rules to implement the programs and services assigned to it.

3. Contract, with the approval of the commission, with public agencies of this state to provide all laboratory, scientific field measurement and environmental quality evaluation services necessary to implement the provisions of this chapter. If the director finds that public agencies of this state cannot provide the laboratory, scientific field measurement and environmental evaluation services required by the department, the director may contract, with the approval of the commission, with any other public or private persons or agencies for such services or for scientific or technical services required to carry out the programs and services assigned to the department.

4. Conduct investigations of complaints received directly or referred by the commission created in section 455A.6 or other investigations deemed necessary. While conducting an investigation, the director may enter at any reasonable time in and upon any private or public property to investigate any actual or possible violation of this chapter or the rules or standards adopted under this chapter. However, the owner or person in charge shall be notified.

a. If the owner or occupant of any property refuses admittance thereto, or if prior to such refusal the director demonstrates the necessity for a warrant, the director may make application under oath or affirmation to the district court of the county in which the property is located for the issuance of a search warrant.

b. In the application the director shall state that an inspection of the premises is mandated by the laws of this state or that a search of certain premises, areas, or things designated in the application may result in evidence tending to reveal the existence of violations of public health, safety, or welfare requirements imposed by statutes, rules or ordinances established by the state or a political subdivision thereof. The application shall describe the area, premises, or thing to be searched, give the date of the last inspection if known, give the date and time of the proposed inspection, declare the need for such inspection, recite that notice of desire to make an inspection has been given to affected persons and that admission was refused if that be the fact, and state that the inspection has no purpose other than to carry out the purpose of the statute, ordinance, or regulation pursuant to which inspection is to be made. If an item of property is sought by the director it shall be identified in the application.

c. If the court is satisfied from the examination of the applicant, and of other witnesses, if any, and of the allegations of the application of the existence of the grounds of the application, or that there is probable cause to believe their existence, the court may issue such search warrant.

d. In making inspections and searches pursuant to the authority of this division, the director must execute the warrant:

(1) Within ten days after its date.

(2) In a reasonable manner, and any property seized shall be treated in accordance with the provisions of chapters 808 and 809.

(3) Subject to any restrictions imposed by the statute, ordinance or regulation pursuant to which inspection is made.

5. Accept, receive and administer grants or other funds or gifts from public or private agencies, including the federal government, for the abatement, prevention, or control of pollution, or other environmental programs, subject to the approval of the commission.

3. Adopt, modify, or repeal rules necessary to implement this chapter and the rules deemed necessary for the effective administration of the department. When the commission proposes or adopts rules to implement a specific federal environmental program and the rules impose requirements more restrictive than the federal program being implemented requires, the commission shall identify in its notice of intended action or adopted rule preamble each rule that is more restrictive than the federal program requires and shall state the reasons for proposing or adopting the more restrictive requirement. In addition, the commission shall include with its reasoning a financial impact statement detailing the general impact upon the affected parties. It is the intent of the general assembly that the commission exercise strict oversight of the operations of the department. The rules shall include departmental policy relating to the disclosure of information on a violation or alleged violation of the rules, standards, permits or orders issued by the department and keeping of confidential information obtained by the department in the administration and enforcement of this chapter. Rules adopted by the executive committee before January 1, 1981 shall remain effective until modified or rescinded by action of the commission.

4. Issue orders and directives necessary to insure integration and co-ordination of the programs administered by the department.

5. Make a concise annual report to the governor and the general assembly, which report shall contain information relating to the accomplishments and status of the programs administered by the department and include recommendations for legislative action which may be required to protect or enhance the environment or to modernize the operation of the department or any of the programs or services assigned to the department and recommendations for the transfer of powers and duties of the department as deemed advisable by the commission. 10. Appoint a water coordinator who shall coordinate requests from the public for information or assistance relating to the administration of water resources laws and programs and the resolution of water-related problems.

11. *a.* Adopt, by rule, procedures and forms necessary to implement the provisions of this chapter relating to permits or conditional permits. The commission may also adopt, by rule, a schedule of fees for permit and conditional permit applications and a schedule of fees which may be periodically assessed for administration of permits and conditional permits. In determining the fee schedules, the commission shall consider:

(1) The state's reasonable cost of reviewing applications, issuing permits and conditional permits, and checking compliance with the terms of the permits.

(2) The relative benefits to the applicant and to the public of permit and conditional permit review, issuance, and monitoring compliance.

It is the intention of the legislature that permit fees shall not cover any costs connected with correcting violation of the terms of any permit and shall not impose unreasonable costs on any municipality.

(3) The typical costs of the particular types of projects or activities for which permits or conditional permits are required, provided that in no circumstances shall fees be in excess of the actual costs to the department.

b. The fees collected by the department under this subsection shall be remitted to the treasurer of state and credited to the general fund of the state.

The schedule shall provide procedures and criteria for the administrative assessment of penalties of not more than one thousand dollars for minor violations of this chapter or rules, permits or orders adopted or issued under this chapter. In adopting a schedule or range of penalties and in proposing or assessing a penalty, the commission and director shall consider among other relevant factors the following:

a. The costs saved or likely to be saved by noncompliance by the violator.

b. The gravity of the violation.

c. The degree of culpability of the violator.

d. The maximum penalty authorized for that violation under this chapter.

Penalties may be administratively assessed only after an opportunity for a contested case hearing which may be combined with a hearing on the merits of the alleged violation. Major violations, violations not fitting within the schedule, or violations which the commission determines should be referred to the attorney general for legal action shall not be governed by the schedule established under this subsection.

2. If the commission establishes a schedule for minor violations, the commission shall provide, by rule, a procedure for the screening of alleged violations to determine which cases may be appropriate for the administrative assessment of penalties. However, the screening procedure shall not limit the discretion of the department to refer any case to the attorney general for legal action.

3. A penalty shall be paid within thirty days of the date the order assessing the penalty becomes final. When a person against whom a civil penalty is assessed under this section seeks timely judicial review of an order imposing the penalty as provided under chapter 17A, the order is not final for the purposes of this section until all judicial review processes are completed. Additional judicial review may not be sought after the order becomes final. A person who fails to timely pay a civil penalty assessed by a final order of the department shall pay, in addition, interest at the rate of one and one-half percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid. The attorney general shall institute, at the request of the department, summary proceedings to recover the penalty and any accrued interest.

4. All civil penalties assessed by the department and interest on the penalties shall be deposited in the general fund of the state.

3. *"Air pollution"* means presence in the outdoor atmosphere of one or more air contaminants in sufficient quantities and of such characteristics and duration as is or may reasonably tend to be injurious to human, plant, or animal life, or to property, or which unreasonably interferes with the enjoyment of life and property.

4. *"Atmosphere"* means all space outside of buildings, stacks or exterior ducts.

5. *"Emission"* means a release of one or more air contaminants into the outside atmosphere.

6. *"Person"* means an individual, partnership, copartnership, co-operative, firm, company, public or private corporation, political subdivision, agency of the state, trust, estate, joint stock company, an agency or department of the federal government or any other legal entity, or a legal representative, agent, officer, employee or assigns of such entities.

7. *"Political subdivision"* means any municipality, township, or county, or district, or authority, or any portion, or combination of two or more thereof.

8. *"Major stationary source"* means a stationary air contaminant source which directly emits, or has the potential to emit, one hundred tons or more of an air pollutant per year including a major source of fugitive emissions of a pollutant as determined by rule by the department or the administrator of the United States environmental protection agency.

9. *"Schedule and timetable of compliance"* means a schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with an emission limitation, other limitation, prohibition, or standard.

10. *"Earthen waste slurry storage basin"* means an uncovered and exclusively earthen cavity which, on a regular basis, receives waste discharges from a confinement animal feeding operation if accumulated wastes from the basin are completely removed at least twice each year.

NEW subsection 10

455B.132 Executive agency.

The department shall be the agency of the state to prevent, abate, or control air pollution.

[C73, 75, 77, 79, 81, §455B.11]

455B.133 Duties.

The commission shall:

1. Develop comprehensive plans and programs for the abatement, control, and prevention of air pollution in this state, recognizing varying requirements for different areas in the state. The plans may include emission limitations, schedules and timetables for compliance with the limitations, measures to prevent the significant deterioration of air quality and other measures as necessary to assure attainment and maintenance of ambient air quality standards.

2. Adopt, amend, or repeal rules pertaining to the evaluation, abatement, control, and prevention of air pollution. The rules may include those that are necessary to obtain approval of the state implementation plan under section 110 of the federal Clean Air Act as amended through January 1, 1979.

3. Adopt, amend, or repeal ambient air quality standards for the atmosphere of this state on the basis of providing air quality necessary to protect the public health and welfare.

4. Adopt, amend or repeal emission limitations or standards relating to the maximum quantities of air contaminants that may be emitted from any air contaminant source. The standards or limitations adopted under this section shall not exceed the standards or limitations promulgated by the administrator of the United States environmental protection agency or the requirements of the federal Clean Air Act as amended to January 1, 1979. This does not prohibit the commission from adopting a standard for a source or class of sources for which the United States environmental protection agency has not promulgated a standard.

a. (1) The commission shall establish standards of performance unless in the judgment of the commission it is not feasible to adopt or enforce a standard of performance. If it is not feasible to adopt or enforce a standard of performance, the commission may adopt a design, equipment, material, work practice or operational standard, or combination of those standards in order to establish reasonably available control technology or the lowest achievable emission rate in nonattainment areas, or in order to establish best available control technology in areas subject to prevention of significant deterioration review, or in order to adopt the emission limitations promulgated by the administrator of the United States environmental protection agency under section 111 or 112 of the federal Clean Air Act as amended to January 1, 1979.

(2) If a person establishes to the satisfaction of the commission that an alternative means of emission limitation will achieve a reduction in emissions of an air pollutant at least equivalent to the reduction in emissions of the air pollutant achieved under the design, equipment, material, work practice or operational standard, the commission shall amend its rules to permit the use of the alternative by the source for purposes of compliance with this paragraph with respect to the pollutant.

(3) A design, equipment, material, work practice or operational standard promulgated under this paragraph shall be promulgated in terms of a standard of performance when it becomes feasible to promulgate and enforce the standard in those terms.

(4) For the purpose of this paragraph, the phrase "not feasible to adopt or enforce a standard of performance" refers to a situation in which the commission determines that the application of measurement methodology to a particular class of sources is not practicable due to technological or economic limitations.

b. If the maximum standards for the emission of sulphur dioxide from solid fuels have to be reduced in an area to meet ambient air quality standards, a contract for coal produced in Iowa and burned by a facility in that area that met the sulphur dioxide emission standards in effect at the time the contract went into effect shall be exempted from the decreased requirement until the expiration of the contract period or December 31, 1983, whichever first occurs, if there is any other reasonable means available to satisfy the ambient air quality standards. To qualify under this subsection, the contract must be recorded with the county recorder of the county where the burning facility is located within thirty days after the signing of the contract.

c. The degree of emission limitation required for control of an air contaminant under an emission standard shall not be affected by that part of the stack height of a source that exceeds good engineering practice, as defined in rules, or any other dispersion technique. This paragraph shall not apply to stack heights in existence before December 30, 1970, or dispersion techniques implemented before that date.

5. Classify air contaminant sources according to levels and types of emissions, and other characteristics which relate to air pollution. The commission may require, by rule, the owner or operator of any air contaminant source to establish and maintain such records, make such reports, install, use and maintain such monitoring equipment or methods, sample such emissions in accordance with such methods at such locations and intervals, and using such procedures as the commission shall prescribe, and provide such other information as the commission may reasonably require. Such classifications may be for application to the state as a whole, or to any designated area of the state, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

6. *a.* Require, by rules, notice of the construction of any air contaminant source which may cause or contribute to air pollution, and the submission of plans and specifications to the department, or other information deemed necessary, for the installation of air contaminant sources and related control equipment. The rules shall allow the owner or operator of a major stationary source to elect to obtain a conditional permit in lieu of a construction permit. The rules relating to a conditional permit for an electric power generating facility subject to chapter 476A and other major stationary sources shall allow the submission of engineering descriptions, flow diagrams and schematics that quantitatively and qualitatively identify emission streams and alternative control equipment that will provide compliance with emission standards. Such rules shall not specify any particular method to be used to reduce undesirable levels of emissions, nor type, design, or method of installation of any equipment to be used to reduce such levels of emissions, nor the type, design, or method of installation or type of construction of any manufacturing processes or kinds of equipment, nor specify the kind or composition of fuels permitted to be sold, stored, or used unless authorized by subsection 4 of this section.

b. The commission may give technical advice pertaining to the construction or installation of the equipment or any other recommendation.

7. Commission rules establishing maximum permissible sulfate content shall not apply to an expansion of an industrial anaerobic lagoon facility which was constructed prior to February 22, 1979.

[C71, §136B.4; C73, 75, 77, 79, 81, §455B.12; 82 Acts, ch 1124, §1]

455B.134 Director — duties — limitations.

The director shall:

1. Publish and administer the rules and standards established by the commission. The department shall furnish a copy of such rules or standards to any person upon request.

2. Provide technical, scientific, and other services required by the commission or for the effective administration of this division II.

3. Grant, modify, or deny permits for the construction of new or modified air contaminant sources and for related control equipment, and conditional permits for electric power generating facilities subject to chapter 476A and other major stationary sources, subject to the rules adopted by the commission. The department shall furnish necessary application forms for such permits.

a. No air contaminant source shall be installed, altered so that it significantly affects emissions, or placed in use unless a construction or conditional permit has been issued for the source.

b. The condition of expected performance shall be reasonably detailed in the construction or conditional permit.

c. All applications for permits other than conditional permits for electric generating facilities shall be subject to such notice and public participation as may be provided by rule by the commission. Upon denial or limitation of a permit other than a conditional permit for an electric generating facility, the applicant shall be notified of such denial and informed of the reason or reasons therefor, and such applicant shall be entitled to a hearing before the commission.

d. All applications for conditional permits for electric power generating facilities shall be subject to

such notice and opportunity for public participation as may be consistent with chapter 476A or any agreement pursuant thereto under chapter 28E. The applicant or intervenor may appeal to the commission from the denial of a conditional permit or any of its conditions. For the purposes of chapter 476A, the issuance or denial of a conditional permit by the director or by the commission upon appeal shall be a determination that the electric power generating facility does or does not meet the permit and licensing requirements of the commission. The issuance of a conditional permit shall not relieve the applicant of the responsibility to submit final and detailed construction plans and drawings and an application for a construction permit for control equipment that will meet the emission limitations established in the conditional permit.

e. (1) Notwithstanding any other provision of division II of this chapter, the following siting requirements shall apply to anaerobic lagoons and earthen waste slurry storage basins:

Anaerobic lagoons or earthen waste slurry storage basins, which are used in connection with animal feeding operations containing less than six hundred twenty-five thousand pounds live animal weight capacity of animal species other than beef cattle or containing less than one million six hundred thousand pounds live animal weight capacity of beef cattle, shall be located at least one thousand two hundred fifty feet from a residence not owned by the owner of the feeding operation or from a public use area other than a public road. Anaerobic lagoons or earthen waste slurry storage basins, which are used in connection with animal feeding operations containing six hundred twenty-five thousand pounds or more live animal weight capacity of animal species other than beef cattle or containing one million six hundred thousand pounds or more live animal weight capacity of beef cattle, shall be located at least one thousand eight hundred seventy-five feet from a residence not owned by the owner of the feeding operation or from a public use area other than a public road. For the purpose of this paragraph the determination of live animal weight capacity shall be based on the average animal weight capacity during a production cycle and the maximum animal capacity of the animal feeding operation. These separation distances apply to the construction of new facilities and the expansion of existing facilities.

Anaerobic lagoons which are used in connection with industrial treatment of wastewater where the average wastewater discharge flow is one hundred thousand gallons per day or less shall be located at least one thousand two hundred fifty feet from a residence not owned by the owner of the lagoon or from a public use area other than a public road. Anaerobic lagoons which are used in connection with industrial treatment of wastewater where the average wastewater discharge flow is greater than one hundred thousand gallons per day shall be located at least one thousand eight hundred seventy-five feet from a residence not owned by the owner of the lagoon or from a public use area other than a public road. These separation distances apply to the construction of new facilities and the expansion of existing facilities.

(2) A person may build or expand an anaerobic lagoon or an earthen waste slurry storage basin closer to a residence not owned by the owner of the anaerobic lagoon or to a public use area than is otherwise permitted by subparagraph (1) of this paragraph, if the affected landowners enter into a written agreement with the anaerobic lagoon owner to waive the separation distances under such terms the parties negotiate. The written agreement becomes effective only upon recording in the office of the recorder of deeds of the county in which the residence is located.

4. Determine by field studies and sampling the quality of atmosphere and the degree of air pollution in this state or any part thereof.

5. Conduct and encourage studies, investigations, and research relating to air pollution and its causes, effects, abatement, control, and prevention.

6. Provide technical assistance to political subdivisions of this state requesting such aid for the furtherance of air pollution control.

7. Collect and disseminate information, and conduct educational and training programs, relating to air pollution and its abatement, prevention, and control.

8. Consider complaints of conditions reported to, or considered likely to, constitute air pollution, and investigate such complaints upon receipt of the written petition of any state agency, the governing body of a political subdivision, a local board of health, or twenty-five affected residents of the state.

9. Issue orders consistent with rules to cause the abatement or control of air pollution. In making the orders, the director shall consider the facts and circumstances bearing upon the reasonableness of the emissions involved, including but not limited to, the character and degree of injury to, or interference with, the protection of health and the physical property of the public, the practicability of reducing or limiting the emissions from the air pollution source, and the suitability or unsuitability of the air pollution source to the area where it is located. An order may include advisory recommendations for the control of emissions from an air contaminant source and the reduction of the emission of air contaminants.

10. Encourage voluntary co-operation by persons or affected groups in restoring and preserving a reasonable quality of air within the state.

11. Encourage political subdivisions to handle air pollution problems within their respective jurisdictions.

12. Review and evaluate air pollution control programs conducted by political subdivisions of the state with respect to whether the programs are consistent with the provisions of division II of this chapter and rules adopted by the commission.

13. Hold public hearings, except when the evidence to be received is confidential pursuant to section 455B.137, necessary to accomplish the purposes

of division II of this chapter. The director may issue subpoenas requiring the attendance of witnesses and the production of evidence pertinent to the hearings. A subpoena shall be issued and enforced in the same manner as in civil actions.

Nothing contained in this division II shall be deemed to grant to the department or the director any authority or jurisdiction with respect to air pollution existing solely within residences; or solely within commercial and industrial plants, works, or shops under the jurisdiction of chapters 88 and 91; or to affect the relations between employers and employees with respect to, or arising out of, any condition of air pollution.

455B.136 Assistance on demand.

The department and the director may request and receive assistance from any other agency, department, or educational institution of the state, or political subdivision thereof, when it is deemed necessary or beneficial by the department or the director. The department may reimburse such agencies for special expense resulting from expenditures not normally a part of the operating expenses of any such agency.

Information received by the department or any employees of the department through filed reports, inspections, or as otherwise authorized in this division II concerning trade secrets, secret industrial processes, or other privileged communications, except emission data, shall not be disclosed or opened to public inspection, except as may be necessary in a proceeding concerning a violation of said division or of any rules promulgated thereunder, or as otherwise authorized or ordered by appropriate court action or proceedings. Nothing herein shall be construed to prevent the director from compiling or publishing analyses or summaries relating to the general condition of the atmosphere; provided that such analyses or summaries do not reveal any information otherwise confidential under this section.

455B.138 Resolution of violations — appeal.

1. When the director has evidence that a violation of any provision of division II of this chapter, or rule, standard or permit established or issued under division II has occurred, the director shall notify the alleged violator and, by informal negotiation, attempt to resolve the problem. If the negotiations fail to resolve the problem within a reasonable period of time, the director shall issue an order directing the violator to prevent, abate or control the emissions or air pollution involved. The order shall prescribe the date by which the violation shall cease and may prescribe timetables for necessary action to prevent, abate or control the emissions of air pollution. The order may be appealed to the commission.

2. After the hearing on appeal, the commission may affirm, modify or rescind the order of the director.

3. The director shall keep a complete record of the hearings and proceeding and the record shall be open to public inspection, subject to section 455B.137. Upon request, a copy of the transcript shall be furnished to the violator or alleged violator at the violator's or alleged violator's expense.

4. An appeal to the commission under this section shall be conducted as a contested case under chapter 17A.

455B.139 Emergency orders.

If the director has evidence that any person is causing air pollution and that such pollution creates an emergency requiring immediate action to protect the public health and safety, or property, the director may, without notice, issue an emergency order requiring such person to reduce or discontinue immediately the emission of air contaminants. A copy of the emergency order shall be served by personal service. An emergency order issued by the director may be appealed to the commission. After hearing on appeal, the commission may affirm, modify or rescind the order of the director.

455B.141 Legal action.

If action to prevent, control, or abate air pollution is not taken in accordance with the rules established, or orders issued by the department, or if the director has evidence that an emergency exists by reason of air pollution which requires immediate action to protect the public health or property, the attorney general, at the request of the director, shall commence legal action, in the name of the state, for an injunction to prevent any further or continued violation of such rule or order.

455B.142 Burden of proof.

In all proceedings with respect to any alleged violation of the provisions of this division II or any rule established by the commission, the burden of proof shall be upon the department except in an action for an injunction as provided in section 455B.141.

455B.143 Variance.

Any person who owns or operates any plant, building, structure, process, or equipment may apply for a variance from the rules or standards adopted by the department by filing an application with the department. The application shall be accompanied by such information and data required by the department.

1. The director shall promptly investigate the application and approve or disapprove the application. The director may grant a variance if the director finds that:

a. The emissions occurring or proposed to occur do not endanger or tend to endanger human health or safety or property; and

b. Compliance with the rules or standards from which the variance is sought will produce serious hardship without equal or greater benefits to the public.

2. The applicant may request a review hearing before the department if the application is denied.

3. In determining under what conditions and to what extent a variance may be granted, the director shall give due recognition to the progress which the applicant has made toward eliminating or preventing air pollution. In such a case, the director shall consider the reasonableness of the request, conditioned upon such applicant effecting a partial abatement of the particular air pollution within a reasonable period of time, or the director may prescribe other requirements with which such applicant shall comply.

4. The director may grant a variance for a specified period of time, not exceeding one year, and the director may further specify that the applicant make periodic reports specifying the progress that has been made toward compliance with any rule for which the variance was granted. A variance may be extended from year to year by affirmative action of the director.

5. The director shall maintain a record of each variance granted specifying the reasons for its issuance or extension.

86 Acts, ch 1245, §1899, 1899B

455B.144 Local control program.

1. Any political subdivision may conduct an air pollution control program within the boundaries of its jurisdiction, or may jointly conduct an air pollution control program with other political subdivisions of this state or of other states, except that every joint program shall be established and administered as provided in chapter 28E. In conducting such programs, political subdivisions may adopt and enforce rules or standards to secure and maintain adequate air quality within their respective jurisdictions.

2. If the board of supervisors in any county establishes an air pollution control program and has obtained a certificate of acceptance, the agency implementing the program may regulate air pollution within the county including any incorporated areas therein until such incorporated areas obtain a certificate of acceptance as a joint or separate agency.

[C71, §136B.14; C73, 75, 77, 79, 81, §455B.23]

455B.145 Acceptance of local program.

When an air pollution control program conducted by a political subdivision, or a combination of them, is deemed upon review as provided in section 455B.134, to be consistent with the provisions of this division II or the rules established under this division, the director shall accept such program in lieu of state administration and regulation of air pollution within the political subdivisions involved. This section shall not be construed to limit the power of the director to issue state permits and to take other actions consistent with this division II or the rules established under this division that the director deems necessary for the continued proper administration of the air pollution programs within the jurisdiction of the local air pollution program.

1. In evaluating an air pollution control program, consideration shall be given to whether such program provides for the following:

a. Ordinances, rules and standards establishing requirements consistent with, or more strict than, those imposed by this division II or rules and standards adopted by the department.

b. Enforcement of such requirements by appropriate administrative and judicial process.

c. Administrative organization, staff, financial and other resources necessary to administer an efficient and effective program.

d. Location of emission monitoring devices in areas of the political subdivision in compliance with uniform state standards adopted by the department. The department shall adopt uniform state standards for the location of emission monitoring devices specifying such intervals and such procedures to provide a reasonably consistent measurement of emissions from air contaminant sources regardless of the political subdivision of the state in which the sources may be located.

2. Upon acceptance of a local air pollution control program, the director shall issue a certificate of acceptance to the appropriate local agency.

a. Any political subdivision desiring a certificate of acceptance shall apply to the department on forms prescribed by the director.

b. The director shall promptly investigate the application and approve or disapprove the applica-

tion. The director may conduct a public hearing before action is taken to approve or disapprove. If the director disapproves issuing a certificate, the political subdivision may appeal the action to the department of inspections and appeals. At the hearing on appeal, the department of inspections and appeals shall decide whether the local program is substantially consistent with the provisions of this division II, or rules adopted thereunder, and whether the local program is being enforced. The burden of proof shall be upon the political subdivision.

c. If the director determines at any time that a local air pollution program is being conducted in a manner inconsistent with the substantive provisions of this division II or the rules adopted thereunder, the director shall notify the political subdivision, citing the deviations from the acceptable standards and the corrective measures to be completed within a reasonable amount of time. If the corrective measures are not implemented as prescribed, the director shall suspend in whole or in part the certificate of acceptance of such political subdivision and shall administer the regulatory provisions of said division in whole or in part within the political subdivision until the appropriate standards are met. Upon receipt of evidence that necessary corrective action has been taken, the director shall reinstate the suspended certificate of acceptance, and the political subdivision shall resume the administration of the local air pollution control program within its jurisdiction. In cases where the certificate of acceptance is suspended, the political subdivision may appeal the suspension to the department of inspections and appeals.

d. Nothing in this division II shall be construed to supersede the jurisdiction of any local air pollution control program in operation on the first of January, 1973, except that any such program shall meet all requirements of said division.

455B.146 Civil action for compliance.

If any order, permit or rule of the department is being violated, the attorney general shall, at the request of the department or the director, institute a civil action in any district court for injunctive relief to prevent any further violation of the order, permit or rule, or for the assessment of a civil penalty as determined by the court, not to exceed five thousand dollars per day for each day such violation continues, or both such injunctive relief and civil penalty.

455B.147 Failure — procedure.

1. If the director fails to take action within sixty days after an application for a variance is made, or if the department fails to enter a final order or determination within sixty days after the final argument in hearing on appeal, the person seeking the action may treat the failure to act as a grant of the requested variance, or of a finding favorable to the respondent in hearing on appeal, as the case may be.

2. If the director fails to take action within one hundred twenty days after a completed application for a construction permit is made, or if the department fails to enter a final order or determination within sixty days after the final argument in a hearing on appeal of the permit, the person seeking the action may treat the failure to act as a grant of the requested permit, or of a finding favorable to the respondent in a hearing on appeal, as the case may be.

3. The section shall not apply to an application for a conditional permit for an electrical power generating facility subject to chapter 476A.

455B.149 Energy or economic emergency.

1. Upon application by the owner or operator of a fuel-burning stationary source, and after notice and opportunity for public hearing, the commission may petition the president, under section 110, subsection "f," paragraph 1 of the federal Clean Air Act as amended to January 1, 1979, for a determination that a national or regional energy emergency exists. If the president determines an emergency exists, the commission may suspend any requirement of this division or a rule or permit issued under this division. A temporary emergency suspension under this subsection shall be issued only if there exists in the vicinity of the source a temporary emergency involving high levels of unemployment or loss of necessary energy supplies for residential buildings and if the unemployment or loss can be totally or partially alleviated by the suspension. Only one suspension may be issued for a source on the basis of the same set of circumstances or on the basis of the same emergency. A suspension shall remain in effect for a maximum of four months. The commission may include in a suspension a provision directing the director to delay for a period identical to the period of the suspension a compliance schedule or increment of progress to which the source is subject under section 455B.138, if the source is unable to comply with the schedule or increment solely because of the conditions on the basis of which the suspension was issued.

2. If a plan revision has been submitted to the administrator of the United States environmental protection agency under section 110 of the federal Clean Air Act as amended to January 1, 1979, and if the commission determines that the revision meets the requirements of that section and the revision is necessary to prevent the closing of an air contaminant source for one year or more and to prevent substantial increases in unemployment which would result from the closing, and if the administrator has not approved or disapproved within the required four-month period, the commission may issue a temporary emergency suspension of the part of the ap-

plicable implementation plan which is proposed to be revised with respect to the source. The determination under this subsection shall not be made with respect to a source which would close without regard to whether or not the proposed plan revision is approved. A temporary emergency suspension issued under this subsection shall remain in effect for a maximum of four months. A temporary emergency suspension under this subsection may include a provision directing the director to delay for a period identical to the period of the suspension a compliance schedule or increment of progress to which the source is subject under section 119 of the federal Clean Air Act as in effect prior to August 7, 1977, or section 113, subsection "d" of the federal Clean Air Act as amended to January 1, 1979, upon a finding that the source is unable to comply with the schedule or increment solely because of the conditions on the basis of which a suspension was issued under this subsection.

DIVISION III

WATER QUALITY

PART 1

GENERAL

Sections 455B.30–455B.49, Code 1981, renumbered as § 455B.171–455B.187 in Code 1983

455B.171 Definitions.

When used in this part 1 of division III, unless the context otherwise requires:

1. *"Sewage"* means the water-carried waste products from residences, public buildings, institutions, or other buildings, including the bodily discharges from human beings or animals together with such ground water infiltration and surface water as may be present.

455B.172 Jurisdiction of department and local boards.

1. The department is the agency of the state to prevent, abate, or control water pollution and to conduct the public water supply program.

2. The department shall carry out the responsibilities of the state related to private water supplies and private sewage disposal systems for the protection of the environment and the public health and safety of the citizens of the state.

3. Each county board of health shall adopt standards for private water supplies and private sewage disposal facilities. These standards shall be at least as stringent but consistent with the standards adopted by the commission. If a county board of health has not adopted standards for private water supplies and private sewage disposal facilities, the standards adopted by the commission shall be applied and enforced within the county by the county board of health.

4. Each county board of health shall regulate the private water supply and private sewage disposal facilities located within the county board's jurisdiction, including the enforcement of standards adopted pursuant to this section.

5. The department shall maintain jurisdiction over and regulate the direct discharge to a water of the state. The department shall retain concurrent authority to enforce state standards for private water supply and private sewage disposal facilities within a county, and exercise departmental authority if the county board of health fails to fulfill board responsibilities pursuant to this section.

The department shall by rule adopt standards for the commercial cleaning of private sewage disposal facilities, including but not limited to septic tanks and pits used to collect waste in livestock confinement structures, and for the disposal of waste from the facilities. The standards shall not be in conflict with the state building code. A person shall not commercially clean such facilities or dispose of waste from such facilities unless the person has been issued a license by the department. The department shall be exclusively responsible for adopting the standards and issuing licenses. However, county boards of health shall enforce the standards and licensing re-

quirements established by the department. Application for the license shall be made in the manner provided by the department. Licenses expire one year from the date of issue unless revoked and may be renewed in the manner provided by the department. The license or license renewal fee is twenty-five dollars. A person violating this section or the rules adopted pursuant to this section, is subject to a civil penalty of not more than twenty-five dollars. Each day that a violation continues constitutes a separate offense. However, the total civil penalty shall not exceed five hundred dollars per year. The penalty shall be assessed for a violation occurring ten days following written notice of the violation delivered to the person by the department or a county board of health. Moneys collected by the department or a county board of health from the imposition of civil penalties shall be deposited in the general fund of the state.

The commission shall make grants to counties for the purpose of conducting programs for the testing of private, rural water supply wells and for the proper closing of abandoned, rural, private water supply wells within the jurisdiction of the county. Grants shall be funded through allocation of the agriculture management account of the groundwater protection fund. Grants awarded, continued, or renewed shall be subject to the following conditions:

a. An application for a grant shall be in a form and shall contain information as prescribed by rule of the commission.

b. Nothing in this section shall be construed to prohibit the department from making grants to one or more counties to carry out the purpose of the grant on a joint, multicounty basis.

c. A grant shall be awarded on an annual basis to cover a fiscal year from July 1 to June 30 of the following calendar year.

d. The continuation or renewal of a grant shall be contingent upon the county's acceptable performance in carrying out its responsibilities, as determined by the director. The director, subject to approval by the commission, may deny the awarding of a grant or withdraw a grant awarded if, by determination of the director, the county has not carried out the responsibilities for which the grant was awarded, or cannot reasonably be expected to carry out the responsibilities for which the grant would be awarded.

6. *a.* The department is the state agency to regulate the construction, reconstruction and abandonment of all of the following water wells:

(1) Those used as part of a public water supply system as defined in section 455B.171.

(2) Those used for the withdrawal of water for which a permit is required pursuant to section 455B.268, subsection 1.

(3) Those used for the purpose of monitoring groundwater quantity and quality required or installed pursuant to directions or regulations of the department.

b. A local board of health is the agency to regulate the construction, reconstruction and abandonment of water wells not otherwise regulated by the department. The local board of health shall not adopt standards relative to the construction, reconstruction and abandonment of wells less stringent than those adopted by the department.

7. The department is the state agency to regulate the registration of water well contractors pursuant to section 455B.187.

8. Pursuant to chapter 28E, the department may delegate its authority for regulation of the construction, reconstruction and abandonment of water wells specified in subsection 6 or the registration of water well contractors specified in subsection 7 to boards of health or other agencies which have adequate authority and ability to administer and enforce the requirements established by law or rule.

Subsection 5, NEW unnumbered paragraph 2

455B.173 Duties.

The commission shall:

1. Develop comprehensive plans and programs for the prevention, control and abatement of water pollution.

2. Establish, modify, or repeal water quality standards, pretreatment standards and effluent standards. The effluent standards may provide for maintaining the existing quality of the water of the state where the quality thereof exceeds the requirements of the water quality standards.

If the federal environmental protection agency has promulgated an effluent standard or pretreatment standard pursuant to section 301, 306 or 307 of the federal Water Pollution Control Act, a pretreatment or effluent standard adopted pursuant to this section shall not be more stringent than the federal effluent or pretreatment standard for such source. This section may not preclude the establishment of a more restrictive effluent limitation in the permit for a particular point source if the more restrictive effluent limitation is necessary to meet water quality standards, the establishment of an effluent standard for a source or class of sources for which the federal environmental protection agency has not promulgated standards pursuant to section 301, 306 or 307 of the federal Water Pollution Control Act. Except as required by federal law or regulation, the commission shall not adopt an effluent standard more stringent with respect to any pollutant than is necessary to reduce the concentration of that pollutant in the effluent to the level due to natural causes, including the mineral and chemical characteristics of the land, existing in the water of the state to which the effluent

is discharged. Notwithstanding any other provision of this part of this division, any new source, the construction of which was commenced after October 18, 1972, and which was constructed as to meet all applicable standards of performance for the new source or any more stringent effluent limitation required to meet water quality standards, shall not be subject to any more stringent effluent limitations during a ten-year period beginning on the date of completion of construction or during the period of depreciation or amortization of the pollution control equipment for the facility for the purposes of section 167 and 169 or both sections of the Internal Revenue Code, whichever period ends first.

3. Establish, modify or repeal rules relating to the location, construction, operation, and maintenance of disposal systems and public water supply systems and specifying the conditions under which the director shall issue, revoke, suspend, modify or deny permits for the operation, installation, construction, addition to or modification of any disposal system or public water supply system, or for the discharge of any pollutant or for the disposal of water wastes resulting from poultry and livestock operations. The rules specifying the conditions under which the director shall issue permits for the construction of an electric power generating facility subject to chapter 476A shall provide for issuing a conditional permit upon the submission of engineering descriptions, flow diagrams and schematics that qualitatively and quantitatively identify effluent streams and alternative disposal systems that will provide compliance with effluent standards or limitations.

No rules shall be adopted which regulate the hiring or firing of operators of disposal systems or public water supply systems except rules which regulate the certification of operators as to their technical competency.

A publicly owned treatment works whose discharge meets the final effluent limitations which were contained in its discharge permit on the date that construction of the publicly owned treatment works was approved by the department shall not be required to meet more stringent effluent limitations for a period of ten years from the date the construction was completed and accepted but not longer than twelve years from the date that construction was approved by the department.

4. Co-operate with other state or interstate water pollution control agencies in establishing standards, objectives, or criteria for the quality of interstate waters originating or flowing through this state.

5. Establish, modify or repeal rules relating to drinking water standards for public water supply systems. Such standards shall specify maximum contaminant levels or treatment techniques necessary to protect the public health and welfare. The drinking water standards must assure compliance with federal drinking water standards adopted pursuant to the federal Safe Drinking Water Act.

6. *a.* Adopt rules relating to inspection, monitoring, recordkeeping, and reporting requirements for the owner or operator of any public water supply or any disposal system or of any source which is an industrial user of a publicly or privately owned disposal system.

b. Adopt rules which require each public water system regulated under chapter 455B to test the source water of that supply for the presence of synthetic organic chemicals and pesticides every three years. The rules shall enumerate the synthetic organic chemicals and pesticides, but not more than ten of each, for which the samples are to be tested; shall specify the approved analytical methods for conducting the analysis of water samples; and shall require the reporting of the analytical test results to the department. Priority for testing in the first year shall be those public water supplies for which none of the specified contaminants have been analyzed within the past five years. All of the laboratory analysis and data management shall be conducted by the center for health effects of environmental contamination. Sample collection shall be conducted using a standard sampling protocol by personnel within the department and the center for health effects of environmental contamination in conjunction with other ongoing field activities. Samples from private wells and samples from privately owned public water supplies shall be allowed to undergo the same analysis. The cost for the analysis provided for samples from private wells and privately owned public water supplies shall not exceed one hundred ninety-five dollars for the first year of testing. The department shall submit a report to the general assembly, by September 1 of each year, of the findings of the tests and the conclusions which may be drawn from the tests.

7. Adopt a statewide plan for the provision of safe drinking water under emergency circumstances. All public agencies, as defined in chapter 28E, shall co-operate in the development and implementation of the plan. The plan shall detail the manner in which the various state and local agencies shall participate in the response to an emergency. The department may enter into any agreement, subject to approval of the commission, with any state agency or unit of local government or with the federal government which may be necessary to establish the role of such agencies in regard to the plan. This plan shall be co-ordinated with disaster emergency plans.

8. Formulate and adopt specific and detailed statewide standards pursuant to chapter 17A for review of plans and specifications and the construction of sewer systems and water supply distribution systems and extensions to such systems not later than October 1, 1977. The standards shall be based on criteria contained in the "Recommended Standards for Sewage Works" and "Recommended Standards for Water Works" (Ten States Standards) as adopted by the Great Lakes-Upper Mississippi River board of state sanitary engineers, design manuals published by the department, applicable federal guidelines and standards, standard textbooks, cur-

rent technical literature and applicable safety standards. The material standards for polyvinyl chloride pipe shall not exceed the specifications for polyvinyl chloride pipe in designations D-1784-69, D-2241-73, D-2564-76, D-2672-76, D-3036-73 and D-3139-73 of the American society of testing and material. The rules adopted which directly pertain to the construction of sewer systems and water supply distribution systems and the review of plans and specifications for such construction shall be known respectively as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems and shall be applicable in each governmental subdivision of the state. Exceptions shall be made to the standards so formulated only upon special request to and receipt of permission from the department. The department shall publish the standards and make copies of such standards available to governmental subdivisions and to the public.

9. Adopt, modify or repeal rules relating to the construction and reconstruction of water wells, the proper abandonment of wells, and the registration of water well contractors. The rules shall include those necessary to protect the public health and welfare, and to protect the waters of the state. The rules may include, but are not limited to, establishing fees for registration of water well contractors, requiring the submission of well driller's logs, formation samples or well cuttings, water samples, information on test pumping and requiring inspections. Fees shall be based upon the reasonable cost of conducting the water well contractor registration program.

10. Adopt, modify, or repeal rules relating to the awarding of grants to counties for the purpose of carrying out responsibilities pursuant to section 455B.172 relative to private water supplies and private sewage disposal facilities.

Subsection 6, paragraph b amended

455B.174 Director's duties.

The director shall:

1. Conduct investigations of alleged water pollution or of alleged violations of this part of this division or any rule adopted or any permit issued pursuant thereto upon written request of any state agency, political subdivision, local board of health, twenty-five residents of the state, as directed by the department, or as may be necessary to accomplish the purposes of this part of this division.

2. Conduct periodic surveys and inspection of the construction, operation, self-monitoring, record keeping and reporting of all public water supply systems and all disposal systems except as provided in section 455B.183.

3. Take any action or actions allowed by law which, in the director's judgment, are necessary to enforce or secure compliance with the provisions of this part of this division or of any rule or standard established or permit issued pursuant thereto.

4. Approve or disapprove the plans and specifications for the construction of disposal systems or public water supply systems except for those sewer extensions and water supply distribution system extensions which are reviewed by a city or county public works department as set forth in section 455B.183. The director shall issue, revoke, suspend, modify or deny permits for the operation, installation, construction, addition to or modification of any disposal system or public water supply system except for sewer extensions and water supply distribution system extensions which are reviewed by a city or county public works department as set forth in section 455B.183. The director shall also issue, revoke, suspend, modify or deny permits for the discharge of any pollutant. The permits shall contain conditions and schedules of compliance as necessary to meet the requirements of this part of this division and the federal Water Pollution Control Act. A permit shall not be issued to operate or discharge from any disposal system unless the conditions of the permit assure that any discharge from the disposal system meets or will meet all applicable state and federal water quality standards and effluent standards and the issuance of the permit is not otherwise prohibited by the federal Water Pollution Control Act. All applications for discharge permits are subject to public notice and opportunity for public participation including public hearing as the department may by rule require. The director shall promptly notify the applicant in writing of the director's action and, if the permit is denied, state the reasons for denial. The applicant may appeal to the department of inspections and appeals from the denial of a permit or from any condition in any permit if the applicant files notice of appeal with the director within thirty days of the notice of denial or issuance of the permit. The director shall notify the applicant within thirty days of the time and place of the hearing.

Copies of all forms or other paper instruments required to be filed during on-site inspections or investigations shall be given to the owner or operator of the disposal system or public water supply system being investigated or inspected before the inspector or investigator leaves the site. Any other report, statement, or instrument shall not be filed with the department unless a copy is sent by ordinary mail to the owner or operator of the disposal system or public water supply system within ten working days of the filing. If an inspection or investigation is done in co-operation with another state department, the department involved and the areas inspected shall be stated.

The director shall also issue or deny conditional permits for the construction of disposal systems for electric power generating facilities subject to chapter 476A. All applications for conditional permits shall be subject to such notice and opportunity for public

participation as may be required by the department and as may be consistent with chapter 476A and any agreement pursuant thereto under chapter 28E. The applicant or an intervenor may appeal to the department from the denial of a conditional permit or any of its conditions. For the purposes of chapter 476A, the issuance or denial of a conditional permit by the director or the department upon appeal shall be a determination that the electric power generating facility does or does not meet the permit and licensing requirements of the department. The issuance of a conditional permit shall not relieve the applicant of the responsibility to submit final and detailed construction plans and drawing and an application for a construction permit for a disposal system that will meet the effluent limitations in the conditional permit.

5. Conduct random inspections of work done by city and county public works departments to ensure such public works departments are complying with this Act.* If a city or county public works department is not complying with section 455B.183 in reviewing plans and specifications or in granting permits or both, the department shall perform these functions in that jurisdiction until the city or county public works department is able to perform them. Performance of these functions in a jurisdiction by a local public works department shall not be suspended or revoked until after notice and opportunity for hearing as provided in chapter 17A.

The department shall give technical assistance to city and county public works departments upon request of such local public works departments.

455B.175 Violations.

If there is substantial evidence that any person has violated or is violating any provision of this part of this division, or of any rule or standard established or permit issued pursuant thereto; then:

1. The director may issue an order directing the person to desist in the practice which constitutes the violation or to take such corrective action as may be necessary to ensure that the violation will cease. The person to whom such order is issued may cause to be commenced a contested case within the meaning of the Iowa administrative procedure Act by filing with the director within thirty days a notice of appeal to the commission. On appeal the commission may affirm, modify or vacate the order of the director; or

2. If it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. Any such order shall be binding and effective immediately and until such order is modified or vacated at a hearing before the commission or by a court; or

3. The director, with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to section 455B.191.

455B.176 Criteria considered.

In establishing, modifying, or repealing water quality standards the commission shall base its decision upon data gathered from sources within the state regarding the following:

1. The protection of the public health;

2. The size, depth, surface area covered, volume, direction and rate of flow, stream gradient, and temperature of the affected water of the state;

3. The character and uses of the land area bordering the affected water of the state;

4. The uses which have been made, are being made, or may be made of the affected water of the state for public, private, or domestic water supplies, irrigation; livestock watering; propagation of wildlife, fish, and other aquatic life; bathing, swimming, boating, or other recreational activity; transportation; and disposal of sewage and wastes;

5. The extent of contamination resulting from natural causes including the mineral and chemical characteristics;

6. The extent to which floatable or settleable solids may be permitted;

7. The extent to which suspended solids, colloids, or a combination of solids with other suspended substances may be permitted;

8. The extent to which bacteria and other biological organisms may be permitted;

9. The amount of dissolved oxygen that is to be present and the extent of the oxygen demanding substances which may be permitted;

10. The extent to which toxic substances, chemicals or deleterious conditions may be permitted.

11. The economic costs and benefits. The goal shall be a reasonable balance between total costs to the people and to the economy, and the resultant benefits to the people of Iowa.

455B.177 Declaration of policy.

1. The general assembly finds and declares that because the federal Water Pollution Control Act, provides for a permit system to regulate the discharge of pollutants into the waters of the United States and provides that permits may be issued by states which are authorized to implement that Act, it is in the interest of the people of Iowa to enact this Act* in order to authorize the state to implement the federal Water Pollution Control Act, and federal regulations and guidelines issued pursuant to that Act.

2. The general assembly further finds and declares that because the federal Safe Drinking Water Act, Public Law 93-523, provides for the implemen-

tation of said Act by states which have adequate authority to do so, it is in the interest of the people of Iowa to implement the provisions of the federal Safe Drinking Water Act and federal regulations and guidelines issued pursuant thereto.

The director may also grant a variance from drinking water standards for public water supply systems when the characteristics of the raw water sources, which are available to a system, cannot meet the requirements with respect to maximum contaminant level of the standards despite application of the best treatment techniques which are generally available and if the director determines that the variance will not result in an unreasonable risk to the public health. A schedule of compliance may be prescribed by the director, at the time the variance or exemption is granted. The director shall also require the interim measures to minimize the contaminant levels of systems subject to the variance or exemption as may reasonably be implemented. The director may also issue variances from other rules of the department if necessary and appropriate. The director shall submit variances granted regarding a wastewater treatment facility to the commission for the commission's review within thirty days of the granting of a variance. The denial of a variance or exemption may be appealed to the commission.

455B.182 Failure constitutes contempt.

Failure to obey any order issued by the department with reference to a violation of this part of this division or any rule promulgated or permit issued pursuant thereto shall constitute prima-facie evidence of contempt. In such event the department may certify to the district court of the county in which such alleged disobedience occurred the fact of such failure. The district court after notice, as prescribed by the court, to the parties in interest shall then proceed to hear the matter and if it finds that the order was lawful and reasonable it shall order the party to comply with the order. If the person fails to comply with the court order, that person shall be guilty of contempt and shall be fined not to exceed five hundred dollars for each day that the person fails to comply with the court order. The penalties provided in this section shall be considered as additional to any penalty which may be imposed under the law relative to nuisances or any other statute relating to the pollution of any waters of the state or related to public water supply systems and a conviction under this section shall not be a bar to prosecution under any other penal statute.

455B.183 Written permits required.

It is unlawful to carry on any of the following activities without first securing a written permit from the director, or from a city or county public works department if the public works department reviews the activity under this section, as required by the department:

1. The construction, installation or modification of any disposal system or public water supply system or part thereof or any extension or addition thereto except those sewer extensions and water supply distribution system extensions that are subject to review and approval by a city or county public works department pursuant to this section and private sewage disposal systems. A permit shall be issued for

the construction, installation or modification of a public water supply system or part of a system if a qualified, registered engineer certifies to the department that the plans for the system or part of the system meet the requirements of state and federal law or regulations. The permit shall state that approval is based only upon the engineer's certification that the system's design meets the requirements of all applicable state and federal laws and regulations and the review of the department shall be advisory.

2. The construction or use of any new point source for the discharge of any pollutant into any water of the state.

3. The operation of any waste disposal system or public water supply system or any part of or extension or addition to the system. This provision does not apply to a pretreatment system the effluent of which is to be discharged directly to another disposal system for final treatment and disposal, a semipublic sewage disposal system, the construction of which has been approved by the department and which does not discharge into water of the state or a private sewage disposal system which does not discharge into a water of the state. The exemption of this paragraph shall not apply to any industrial waste discharges.

Upon adoption of standards by the commission pursuant to section 455B.173, subsections 5 to 8, plans and specifications for sewer extensions and water supply distribution system extensions covered by this section shall be submitted to the city or county public works department for approval if the local public works department employs a qualified, registered engineer who reviews the plans and specifications using the specific state standards known as the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems that have been formulated and adopted by the department pursuant to section 455B.173, subsections 5 to 8. The local agency shall issue a written permit to construct if all of the following apply:

a. The submitted plans and specifications are in substantial compliance with departmental rules and the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems.

b. The extensions primarily serve residential consumers and will not result in an increase greater than five percent of the capacity of the treatment works or serve more than two hundred fifty dwelling units or, in the case of an extension to a water supply distribution system, the extension will have a capacity of less than five percent of the system or will serve fewer than two hundred fifty dwelling units.

c. The proposed sewer extension will not exceed the capacity of any treatment works which received a state or federal monetary grant after 1972.

d. The proposed water supply distribution system extension will not exceed the production capacity of any public water supply system constructed after 1972.

After issuing a permit, the city or county public works department shall notify the director of such issuance by forwarding a copy of the permit to the director. In addition, the local agency shall submit quarterly reports to the director including such information as capacity of local treatment plants and production capacity of public water supply systems as well as other necessary information requested by the director for the purpose of implementing this chapter.

Plans and specifications for all other waste disposal systems and public water supply systems, including sewer extensions and water supply distribution system extensions not reviewed by a city or county public works department under this section, shall be submitted to the department before a written permit may be issued. Plans and specifications for public water supply systems and water supply distribution system extensions must be certified by a registered engineer as provided in subsection 1. The construction of any such waste disposal system or public water supply system shall be in accordance with standards formulated and adopted by the department pursuant to section 455B.173, subsections 5 to 8. If it is necessary or desirable to make material changes in the plans or specifications, revised plans or specifications together with reasons for the proposed changes must be submitted to the department for a supplemental written permit. The revised plans and specifications for a public water supply system must be certified by a registered engineer as provided in subsection 1.

Prior to the adoption of statewide standards, the department may delegate the authority to review plans and specifications to those governmental subdivisions if in addition to compliance with subsection 3 the governmental subdivisions agree to comply with all state and federal regulations and submit plans for the review of plans and specifications including a complete set of local standard specifications for such improvements.

The director may suspend or revoke delegation of review and permit authority after notice and hearing as set forth in chapter 17A if the director determines that a city or county public works department has approved extensions which do not comply with design criteria, which exceed the capacity of waste treatment plants or the production capacity of public water supply systems or which otherwise violate state or federal requirements.

The department shall exempt any public water supply system from any requirement respecting a maximum contaminant level or any treatment technique requirement of an applicable national drinking water regulation if these regulations apply to contaminants which the department determines are harmless or beneficial to the health of consumers and if the owner of a public water supply system determines that funds are not reasonably available to provide for controlling amounts of those contaminants which are harmless or beneficial to the health of consumers.

455B.187 Water well construction.

A contractor shall not engage in well construction or reconstruction without first registering as required in department rules. Water wells shall not be constructed, reconstructed, or abandoned by a person except as provided in this part or rules adopted pursuant to this part. Within thirty days after construction or reconstruction of a well, a contractor shall provide well information required by rule to the department and the Iowa geological survey.

A landowner or the landowner's agent shall not drill for or construct a new water well without first obtaining a permit for this activity from the department. The department shall not issue a permit to any person for this activity unless the person first registers with the department all wells, including abandoned wells, on the property. The department may delegate the authority to issue a permit to a county board of supervisors or the board's designee. In the event of such delegation, the department shall retain concurrent authority. The commission shall adopt rules pursuant to chapter 17A to implement this paragraph.

Notwithstanding the provisions of this section, a county board of supervisors or the board's designee may grant an exemption from the permit requirements to a landowner or the landowner's agent if an emergency drilling is necessary to meet an immediate need for water. The exemption shall be effective immediately upon approval of the county board of supervisors or the board's designee. The board of supervisors or the board's designee shall notify the director within thirty days of the granting of an exemption.

In the case of property owned by a state agency, a person shall not drill for or construct a new water well without first registering with the department the existence of any abandoned wells on the property. The department shall develop a prioritized closure program and time frame for the completion of the program, and shall adopt rules to implement the program.

b. "Class 2 well" means a well more than one hundred feet in depth or less than eighteen inches in diameter or a bedrock well.

c. "Class 3 well" means a sandpoint well or a well fifty feet or less in depth constructed by joining a screened drive point with lengths of pipe and driving the assembly into a shallow sand and gravel aquifer.

d. "Department" means the department of natural resources.

e. "Designated agent" means a person other than the state, designated by a county board of supervisors to review and confirm that a well has been properly plugged.

The schedule established by the department shall provide that to the fullest extent technically and economically feasible, all wells shall be properly plugged not later than July 1, 2000.

3. Wells shall be plugged as follows:

a. Class 1 wells shall be plugged by placing filling materials up to one foot below the static water level. At least one foot of sealing materials shall be placed on top of the filling materials up to the static water level, as a seal. Filling materials shall be added up to four feet below the ground surface. However, sealing materials may be used to fill the entire well up to four feet below the ground surface. 5. An owner may, independent of a contractor, plug a well pursuant to this section subject to review and confirmation by a designated agent of the county or a well driller registered with the department.

6. A person who fails to properly plug a well on property the person owns, in accordance with the program established by the department, or as reported by a designated agent or a registered well driller, is subject to a civil penalty of up to one hundred dollars per every five calendar days that the well remains unplugged or improperly plugged. However, the total civil penalty shall not exceed one thousand dollars. The penalty shall only be assessed after the one thousand dollar limit is reached. If the owner plugs the well in compliance with this section, including applicable departmental rules, before the date that the one thousand dollar limit is reached, the civil penalty shall not be assessed. The penalty shall not be imposed upon a person for improperly plugging a well until the department notifies the person of the improper plugging. The moneys collected shall be deposited in the financial incentive portion of the agriculture management account. The department of agriculture and land stewardship may provide by rule for financial incentive moneys, through expenditure of the moneys allocated to the financial-incentive-program portion of the agriculture management account, to reduce a person's cost in properly plugging wells abandoned prior to July 1, 1987.

455B.262 Declaration of policy and planning requirements.

1. It is recognized that the protection of life and property from floods, the prevention of damage to lands from floods, and the orderly development, wise use, protection, and conservation of the water resources of the state by their considered and proper use is of paramount importance to the welfare and prosperity of the people of the state, and to realize these objectives, it is the policy of the state to correlate and vest the powers of the state in a single agency, the department, with the duty and authority to assess the water needs of all water users at five-year intervals for the twenty years beginning January 1, 1985, and ending December 31, 2004, utilizing a data base developed and managed by the Iowa geological survey, and to prepare a general plan of water allocation in this state considering the quantity and quality of water resources available in this state designed to meet the specific needs of the water users. The department shall also develop and the department shall adopt no later than June 30, 1986, a plan for delineation of flood plain and floodway boundaries for selected stream reaches in the various river basins of the state. Selection of the stream reaches and assignment of priorities for mapping of the selected reaches shall be based on consideration of flooding characteristics, the type and extent of existing and anticipated flood plain development in particular stream reaches, and the needs of local governmental bodies for assistance in delineating flood plain and floodway boundaries. The plan of flood plain mapping shall be for the period from June 30, 1986, to December 31, 2004. After the department adopts a plan of flood plain mapping, the department shall submit a progress report and proposed implementation schedule to the general assembly biennially. The department may modify the flood plain mapping plan as needed in response to changing circumstances.

2. The general welfare of the people of the state requires that the water resources of the state be put to beneficial use which includes ensuring that the waste or unreasonable use, or unreasonable methods of use of water be prevented, and that the conservation and protection of water resources be required with the view to their reasonable and beneficial use in the interest of the people, and that the public and private funds for the promotion and expansion of the beneficial use of water resources be invested to the end that the best interests and welfare of the people are served.

3. Water occurring in a basin or watercourse, or other body of water of the state, is public water and public wealth of the people of the state and subject to use in accordance with this chapter, and the control and development and use of water for all beneficial purposes is vested in the state, which shall take measures to ensure the conservation and protection of the water resources of the state. These measures shall include the protection of specific surface and groundwater sources as necessary to ensure long-term availability in terms of quantity and quality to preserve the public health and welfare.

[C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.2; 82 Acts, ch 1199, §16, 96]

455B.263 Duties.

1. The commission shall deliver to the general assembly by January 15, 1987, a plan embodying a general groundwater protection strategy for this state which considers the effects of potential sources of groundwater contaminations on groundwater quality. The plan shall evaluate the ability of existing laws and programs to protect groundwater quality and recommend any necessary additional or alternative laws and programs. The department shall develop the plan with the assistance of and in consultation with representatives of agriculture, industry, and public and other interests. The commission shall report to the general assembly on the status and implementation of the plan on a biennial basis. This section does not preclude the implementation of existing or new laws or programs which may protect groundwater quality.

2. The commission shall designate the official representative of this state on all comprehensive water resources planning groups for which state participation is provided. The commission shall coordinate state planning with local and national planning and, in safeguarding the interests of the state and its people, shall undertake the resolution of any conflicts that may arise between the water resources policies, plans, and projects of the federal government and the water resources policies, plans, and projects of the state, its agencies, and its people. This section does not limit or supplant the functions, duties, and responsibilities of other state or local agencies or institutions with regard to planning of water-associated projects within the particular area of responsibility of those state or local agencies or institutions.

3. The commission shall enter into negotiations and agreements with the federal government relative to the operation of, or the release of water from, any project that has been authorized or constructed by the federal government when the commission deems the negotiations and agreements to be necessary for the achievement of the policies of this state relative to its water resources.

4. The commission, on behalf of the state, shall enter into negotiations with the federal government relative to the inclusion of conservation storage features for water supply in any project that has been authorized by the federal government when the commission deems the negotiations to be necessary for the achievement of the policies of this state, however, an agreement reached pursuant to these negotiations does not bind the state until enacted into law by the general assembly.

5. A water user who benefits from the development by the federal government of conservation

storage for water supply shall be encouraged to assume the responsibility for repaying to the federal government any reimbursable costs incurred in the development, and a user who accepts benefits from the developments financed in whole or part by the state shall assume by contract the responsibility of repaying to the state the user's reasonable share of the state's obligations in accordance with a basis which will assure payment within the life of the development. An appropriation, diversion, or use shall not be made by a person of any waters of the state that have been stored or released from storage either under the authority of the state or pursuant to an agreement between the state and the federal government until the person has assumed by contract the person's repayment responsibility. However, this subsection does not infringe upon any vested property interests.

6. In its contracts with water users for the payment of state obligations incurred in the development of conservation storage for water supply, the commission shall include the terms deemed reasonable and necessary:

a. To protect the health, safety, and general welfare of the people of the state.

b. To achieve the purposes of this chapter.

c. To provide that the state is not responsible to any person if the waters involved are insufficient for performance.

The commission may designate and describe any such contract, and describe the relationships to which it relates, as a sale of storage capacity, a sale of water release services, a contract for the storage or sale of water, or any similar terms suggestive of the creation of a property interest. The term of the contracts shall be commensurate with the investment and use concerned, but the commission shall not enter into any such contract for a term in excess of the maximum period provided for water use permits.

7. The commission shall procure flood control works and water resources projects from or by cooperation with any agency of the United States. by cooperation with the cities and other subdivisions of the state under the laws of the state relating to flood control and use of water resources, and by cooperation with the action of landowners in areas affected by the works or projects when the commission deems the projects to be necessary for the achievement of the policies of this state.

8. The commission shall promote the policies set forth in this part and shall represent this state in all matters within the scope of this part. The commission shall adopt rules pursuant to chapter 17A as necessary to transact its business and for the administration and exercise of its powers and duties.

9. In carrying out its duties, the commission may accept gifts, contributions, donations and grants, and use them for any purpose within the scope of this part.

1. The department has jurisdiction over the public and private waters in the state and the lands adjacent to the waters necessary for the purposes of carrying out this part. The department may construct flood control works or any part of the works. In the construction of the works, in making surveys and investigations, or in formulating plans and programs relating to the water resources of the state, the department may cooperate with an agency of another state or the United States, or with any other person.

2. Upon application by any person for permission to divert, pump, or otherwise take waters from any watercourse, underground basin or watercourse, drainage ditch, or settling basin within this state for any purpose other than a nonregulated use, the director shall investigate the effect of the use upon the natural flow of the watercourse, the effect of the use upon the owners of any land which might be affected by the use, the effect of the use upon prior users of the water source and contracts made under section 455B.263 and whether the use is consistent with the principles and policies of beneficial use.

3. Upon application by any person for approval of the construction or maintenance of any structure, dam, obstruction, deposit, or excavation to be erected, used, or maintained in or on the flood plains of any river or stream, the department shall investigate the effect of the construction or maintenance project on the efficiency and capacity of the floodway. In determining the effect of the proposal the department shall consider fully its effect on flooding of or flood control for any proposed works and adjacent lands and property, on the wise use and protection of water resources, on the quality of water, on fish, wildlife, and recreational facilities or uses, and on all other public rights and requirements.

455B.265 Permits for diversion, storage, and withdrawal.

1. In its consideration of applications for permits, the department shall give priority in processing to persons in the order that the applications are received, except where the application of this processing priority system prevents the prompt approval of routine applications or where the public health, safety, or welfare will be threatened by delay. If the department determines after investigation that the diversion, storage, or withdrawal is consistent with the principles and policies of beneficial use and ensuring conservation, the department shall grant a permit. An application for a permit shall be approved or denied within ninety days from the date that the department receives the application. A renewal permit shall be approved or denied by the department within thirty days from the date that the department receives an application for renewal. Regardless of the

request in the application, the director or the department on appeal may determine the duration and frequency of withdrawal and the quantity of water to be diverted, stored, or withdrawn pursuant to the permit. Each permit granted after July 1, 1986, shall include conditions requiring routine conservation practices, and requiring implementation of emergency conservation measures after notification by the department.

2. If an application is received by July 1, 1986, the department shall grant a permit for the continuation of a beneficial use of water that was a nonregulated use prior to July 1, 1985, and now requires a permit pursuant to section 455B.268. However, the permit is subject to conditions requiring routine and emergency conservation measures and to modification or cancellation under section 455B.271. Applications received after July 1, 1986 for those uses shall be determined pursuant to subsection 1.

3. Permits shall be granted for a period of ten years; however, permits for withdrawal of water may be granted for less than ten years if geological data on the capacity of the aquifer and the rate of its recharge are indeterminate, and permits for the storage of water may be granted for the life of the structure unless revoked by the department. A permit granted shall remain as an appurtenance of the land described in the permit through the date specified in the permit and any extension of the permit or until an earlier date when the permit or its extension is canceled under section 455B.271. Upon application for a permit prior to the termination date specified in the permit, a permit may be renewed by the department for a period of ten years.

a. Water conveyed across state boundaries.

b. Uses of water primarily for recreational or aesthetic purposes.

c. Uses of water for the irrigation of hay, corn, soybeans, oats, grain sorghum or wheat.

i. Uses of water for human consumption and sanitation supplied by a private water supply as defined in section 455B.171.

3. Unless the governor has issued a proclamation described in subsection 1, paragraph *"c"*, the department shall not impose a suspension of water use or a further restriction, other than conservation, on the uses of water provided in subsection 2, paragraphs *"g"* through *"i"* or on users of water pursuant to a contract with the state as provided in section 455B.263, subsections 5 and 6. If a contract with the state as provided in section 455B.263, subsections 5 and 6 was in effect prior to March 5, 1985, the department shall not impose a suspension of water use or a further restriction, other than conservation, on the users of water pursuant to that contract.

4. Suspension or restrictions of water usage applicable to otherwise nonregulated water users shall be by emergency order of the director which the department shall cause to be published in local newspapers of general circulation and broadcast by local media. The emergency order shall state an effective date of the suspension or restriction and shall be immediately effective on such date unless stayed, modified or vacated at a hearing before the commission or by a court.

455B.271 Modification or cancellation of permits.

Each permit issued under section 455B.265 is irrevocable for its term and for any extension of its term except as follows:

1. A permit may be modified or canceled by the department with the consent of the permittee.

2. Subject to appeal to the department of inspections and appeals, a permit may be modified or canceled by the director if any of the following occur:

a. There is a breach of the terms of the permit.

b. There is a violation of the law pertaining to the permit by the permittee or the permittee's agents.

c. There is a circumstance of nonuse as provided in section 455B.272.

d. The department finds that modification or cancellation is necessary to protect the public health or safety, to protect the public interests in lands or waters, to require conservation measures or to prevent substantial injury to persons or property in any manner. Before the modification or cancellation is effective, the department shall give at least thirty days' written notice mailed to the permittee at the permittee's last known address, stating the grounds of the proposed modification or cancellation and giving the permittee an opportunity to be heard on the proposal.

3. By written emergency order to the permittee, the department may suspend or restrict operations under a permit if the director finds it necessary in an emergency to protect the public health, to protect the public interest in waters against imminent danger of substantial injury in any manner or to an extent not expressly authorized by the permit, to implement the priority allocation system of section 455B.266, or to protect persons or property against imminent danger. The department may require the permittee to take measures necessary to prevent or remedy the injury. The emergency order shall state the effective date of the suspension or restriction and shall be immediately effective on that date unless stayed, modified or vacated at a hearing before the department or by a court.

455B.272 Termination of permit.

The right of the permittee and the permittee's successors to the use of water shall terminate when the permittee or the permittee's successors fail for three consecutive years to use it for the specific beneficial purpose authorized in the permit and, after notification by the department of intent to cancel the permit for nonuse, the permittee or the permittee's successors fail to demonstrate adequate plans to use water

within a reasonable time. However, nonuse of water due to adequate rainfall does not constitute grounds for cancellation of a permit to use water for irrigation.

455B.273 Disposal of permit.

A permittee may sell, transfer, or assign a permit by conveying, leasing, or otherwise transferring the ownership of the land described in the permit, but the permit does not constitute ownership or absolute rights of use of the waters. The waters remain subject to the principle of beneficial use and the orders of the director or commission.

455B.274 Unauthorized depleting uses.

If a person files a complaint with the department that another person is making a depleting use of water not expressly exempted as a nonregulated use under this part and without a permit to do so, the department shall cause an investigation to be made and if the facts stated in the complaint are verified the department shall order the discontinuance of the use.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §455A.32; 82 Acts, ch 1199, §28, 96]

455B.275 Prohibited acts — powers of commission and executive director.

1. A person shall not permit, erect, use, or maintain a structure, dam, obstruction, deposit, or excavation in or on a floodway or flood plains, which will adversely affect the efficiency of or unduly restrict the capacity of the floodway, or adversely affect the control, development, protection, allocation, or utilization of the water resources of the state, and the same are declared to be public nuisances.

2. The department may commence, maintain, and prosecute any appropriate action to enjoin or abate a nuisance, including any of the nuisances specified in subsection 1 and any other nuisance which adversely affects flood control.

3. A person shall file a written application with the department if the person desires to do any of the following:

a. Erect, construct, use, or maintain a structure, dam, obstruction, deposit, or excavation in or on any floodway or flood plains.

b. Erect, construct, maintain, or operate a dam on a navigable or meandered stream.

c. Erect, construct, maintain, or operate a dam on a stream for manufacturing or industrial purposes.

The application shall set forth information as required by rule of the commission. The department, after an investigation, shall approve or deny the application imposing conditions and terms as prescribed by the department.

4. The department may maintain an action in equity to enjoin a person from erecting or making or permitting to be made a structure, dam, obstruction, deposit, or excavation for which a permit has not been granted. The department may also seek judicial abatement of any structure, dam, obstruction, deposit, or excavation erected or made without a permit required under this part. The abatement proceeding may be commenced to enforce an administrative determination of the department in a contested case proceeding that a public nuisance exists and should be abated. The costs of abatement shall be borne by the violator. Notwithstanding section 176B.11, a structure, dam, obstruction, deposit, or excavation on a floodway or flood plain in an agricultural area established under chapter 176B is not exempt from the sections of this part which relate to regulation of flood plains and floodways. As used in this subsection, *"violator"* includes a person contracted to erect or make a structure, dam, obstruction, deposit, or excavation in a floodway including stream straightening unless the project is authorized by a permit required under this part.

5. The department may remove or eliminate a structure, dam, obstruction, deposit, or excavation in a floodway which adversely affects the efficiency of or unduly restricts the capacity of the floodway, by an action in condemnation, and in assessing the damages in the proceeding, the appraisers and the court shall take into consideration whether the structure, dam, obstruction, deposit, or excavation is lawfully in or on the floodway in compliance with this part.

6. The department may require, as a condition of an approval order or permit granted pursuant to this part, the furnishing of a performance bond with good and sufficient surety, conditioned upon full compliance with the order or permit and the rules of the commission. In determining the need for and amount of bond, the department shall give consideration to the hazard posed by the construction and maintenance of the approved works and the protection of the health, safety, and welfare of the people of the state. This subsection does not apply to orders or permits granted to a governmental entity.

7. When approving a request to straighten a stream, the department may establish as a condition of approval a permanent prohibition against tillage of land owned by the person receiving the approval and lying within a minimum distance from the stream sufficient in the judgment of the director or commission to hold soil erosion to reasonable limits. The department shall record the prohibition in the office of the county recorder of the appropriate county and the prohibition shall attach to the land.

8. The commission shall establish, by rule, thresholds for dimensions and effects, and any structure, dam, obstruction, deposit, or excavation having smaller dimensions and effects than those established by the commission is not subject to regulation under this section. The thresholds shall be established so that only those structures, dams, obstruc-

tions, deposits, or excavations posing a significant threat to the well-being of the public and the environment are subject to regulation.

9. The commission or the department shall not initiate any administrative or judicial action to remove or eliminate any structure, dam, obstruction, deposit, or excavation in a floodway, or to remove or eliminate any stream straightening, or to place other restrictions on the use of land or water affected by the structure, dam, obstruction, deposit, excavation, or stream straightening if not initiated within five years after the department becomes aware of the erection or making of the structure, dam, obstruction, deposit, excavation, or stream straightening. After ten years from the completion of the erection or making of the structure, dam, obstruction, deposit, excavation, or stream straightening, the prohibition of this subsection applies to, but is not limited to, any administrative or judicial abatement or action in condemnation that the commission or department may initiate under this section unless action is required to protect the public safety, in which case this section is not intended to limit the department from taking actions otherwise authorized by law.

455B.276 Flood plains — encroachment limits.

The commission may establish and enforce rules for the orderly development and wise use of the flood plains of any river or stream within the state and alter, change, or revoke the rules. The commission shall determine the characteristics of floods which reasonably may be expected to occur and may establish by order encroachment limits, protection methods, and minimum protection levels appropriate to the flooding characteristics of the stream and to reasonable use of the flood plains. The order shall fix the length of flood plains to be regulated at any practical distance, the width of the zone between the encroachment limits so as to include portions of the flood plains adjoining the channel, which with the channel, are required to carry and discharge the flood waters or flood flow of the river or stream, and the design discharge and water surface elevations for which protection shall be provided for projects outside the encroachment limits but within the limits of inundation. Plans for the protection of projects proposed for areas subject to inundation shall be reviewed as plans for flood control works within the purview of section 455B.277. An order establishing encroachment limits shall not be issued until notice of the proposed order is given and opportunity for public hearing given for the presentation of protests against the order. In establishing the limits, the commission shall avoid to the greatest possible degree the evacuation of persons residing in the area of a floodway, the removal of residential structures occupied by the persons in the area of a floodway, and the removal of structures erected or made prior to July 4, 1965, which are located on the flood plains of a river or stream but not within the area of a floodway.

The commission shall cooperate with and assist local units of government in the establishment of encroachment limits, flood plain regulations, and zoning ordinances relating to flood plain areas within their jurisdiction. Encroachment limits, flood plain regulations, or flood plain zoning ordinances proposed by local units of government shall be submitted to the department for review and approval prior to adoption by the local units of government. Changes or variations from an approved regulation or ordinance as it relates to flood plain use are subject to approval by the commission prior to adoption. Individual applications, plans, and specifications and individual approval orders shall not be required for works on the flood plains constructed in conformity with encroachment limits, flood plain regulations, or zoning ordinances adopted by the local units of government and approved by the commission.

455B.277 Flood control works coordinated.

All flood control works in the state, which are established and constructed after April 16, 1949, shall be coordinated in design, construction, and operation according to sound and accepted engineering practice so as to effect the best flood control obtainable throughout the state. A person shall not construct or install works of any nature for flood control until the proposed works and the plans and specifications for the works are approved by the department. The department shall consider all the pertinent facts relating to the proposed works which will affect flood control and water resources in the state and shall determine whether the proposed works in the plans and specifications will be in aid of and acceptable as part of, or will adversely affect and interfere with flood control in the state, adversely affect the control, development, protection, allocation, or utilization of the water resources of the state, or adversely affect or interfere with an approved local water resources plan. In the event of disapproval, the department shall set forth the objectionable features so that the proposed works and the plans and specifications for the proposed works may be corrected or adjusted to obtain approval.

This section applies to drainage districts, soil and water conservation districts, the natural resource commission, political subdivisions of the state, and

private persons undertaking projects relating to flood control.

455B.278 Permit application procedures.

1. The commission shall adopt, modify, or repeal rules establishing procedures by which permits required under this part shall be issued, suspended, revoked, modified, or denied. The rules shall include provisions for application, public notice and opportunity for public hearing, and contested cases. Public notice of a decision by the director to issue a permit shall be given in a manner designed to inform persons who may be adversely affected by the permitted project or activity.

2. Action by the department upon an application for a permit required under this part may be appealed to the commission by the applicant or any affected person within thirty days of the department's action. A hearing before the commission or its designee is a contested case. The hearings and judicial review of decisions of the commission shall be carried out in accordance with chapter 17A. Notwithstanding chapter 17A, petitions for judicial review may be filed in the district court of Polk county or of any county in which the property affected is located. If the commission, the district court, or the supreme court determines that the action of the commission shall be stayed, the petitioner shall file an appropriate bond approved by the court.

455B.279 Violation.

1. The director may issue any order necessary to secure compliance with or prevent a violation of this part or the rules adopted pursuant to this part. Within thirty days of issuance, the order may be appealed to the commission by filing a notice of appeal with the director. The appeal shall be conducted as a contested case pursuant to chapter 17A and the commission may affirm, modify, or revoke the order. The department may request legal services as required from the attorney general, including any legal proceeding necessary to obtain compliance with this part and rules and orders issued under this part.

2. A person who violates a provision of this part or a rule or order adopted or promulgated or the conditions of a permit issued pursuant to this part is subject to a civil penalty not to exceed five hundred dollars for each day that a violation occurs.

455B.281 Compensation for well interference.

If an investigation by the department, using information provided by the applicant or permittee and the complainant, discloses that a proposed or existing permitted use or combination of such uses is causing or will cause the delivery system to fail in a well which supplies water for a nonregulated use, the department may condition issuance or continuation of a permit upon payment by the permittee of compensation for all or a portion of the cost of a replacement water supply system or remedial measures necessitated by the interference. However, such condition may be imposed only after the parties demonstrate to the department that a good faith effort to negotiate a mutually agreeable compensation has been made and has failed.

Determination of the amount of compensation for the well interference shall be made a part of the determination of the department in accordance with section 455B.265 or 455B.271. The department may require the submission of itemized estimates of the cost of remedial repairs or a replacement water supply system. In determining appropriate compensation, the department shall consider the age and condition of the affected well or pumping system and its reasonableness as a method of obtaining groundwater in light of the history of development of groundwater in the surrounding area. When compensation is required for all or part of the cost of construction of a replacement water supply system or reconstruction of an affected well, the construction or reconstruction must comply with applicable well construction standards. A permittee is not required to pay compensation before having an opportunity to do test pumping authorized by the department and supervised by the department or designee.

The determination of the department shall be subject to administrative and judicial review and shall be the exclusive remedy for such interference.

88 Acts, ch 1217, §10; 89 Acts, ch 83, §54

455B.292 Findings.

The general assembly finds that the proper construction, rehabilitation, operation, and maintenance of modern and efficient sewer systems and wastewater treatment works are essential to protecting and improving the state's water quality; that protecting water quality is an issue of concern to the citizens of the state; that in addition to protecting and improving the state's water quality, adequate wastewater treatment works are essential to economic growth and development; that during the last several years the amount of federal grant money available to states and local governments for assistance in constructing and improving wastewater treatment works has sharply diminished and will likely continue to diminish; and that it is proper for the state to encourage local governments to undertake wastewater treatment projects through the establishment of a state mechanism to provide loans at the lowest reasonable rates.

88 Acts, ch 1217, §11

455B.293 Policy.

It is the policy of the general assembly that it is in the public interest to establish a sewage treatment works financing program and a revolving loan fund and administration fund to make loans available from the state to municipalities to acquire, construct, reconstruct, extend, equip, and improve works and facilities useful for the collection, treatment, and disposal of sewage and industrial waste in a sanitary manner.

88 Acts, ch 1217, §12

455B.294 Establishment of the Iowa sewage treatment works financing program.

The Iowa sewage treatment works financing program is established for the purpose of making loans available to municipalities to finance all or part of the costs of projects. The program shall be a joint and cooperative undertaking of the department and the authority. The department and the authority may enter into and provide any agreements, documents, instruments, certificates, data, or information necessary in connection with the operation, administration, and financing of the program consistent with this part, the rules of the department and the commission, the rules of the authority, and state law.

88 Acts, ch 1217, §13

2. The revolving loan fund shall include sums appropriated to the revolving loan fund by the general assembly, sums allocated to the state expressly for the purposes of establishing a revolving loan fund under the Clean Water Act, all receipts by the revolving loan fund, and any other sums designated for deposit to the revolving loan fund from any public or private source. All moneys appropriated to and deposited in the revolving fund are appropriated and shall be used for the sole purpose of making loans to the municipalities to finance all or part of the cost of projects. The moneys appropriated to and deposited in the revolving loan fund shall not be used to pay the nonfederal share of the cost of projects receiving grants under the Clean Water Act. The moneys in the revolving loan fund are not considered as a part of the general fund of the state, are not subject to appropriation for any other purpose by the general assembly, and in determining a general fund balance shall not be included in the general fund of the state but shall remain in the revolving loan fund to be used for its purposes. The revolving loan fund is a dedicated fund under the administration and control of the authority and subject to section 220.31. Moneys on deposit in the revolving loan fund shall be invested by the treasurer of state in cooperation with the authority, and the income from the investments shall be credited to and deposited in the revolving loan fund.

3. The sewage treatment works administration fund shall include sums appropriated to the administration fund by the general assembly, sums allocated to the state for the express purposes of administering the program authorized by the Clean Water Act, and all receipts by the administration fund from any public or private source. All moneys appropriated to and deposited in the administration fund are appropriated for and shall be used and administered by the department to pay the costs and expenses associated with the program, including administration of the program, as may be determined by the department.

4. The department and the authority may establish and maintain other funds or accounts determined to be necessary to carry out the purposes of this part and shall provide for the funding, administration, investment, restrictions, and disposition of the funds and accounts.

88 Acts, ch 1217, §14

455B.296 Intended use plans — capitalization grants — accounting.

1. Each fiscal year beginning July 1, 1988, the department may prepare and deliver intended use plans and enter into capitalization grant agreements with the administrator of the United States environmental protection agency under the terms and conditions set forth in Title VI of the Clean Water Act and federal regulations adopted pursuant to the Act and may accept capitalization grants for the revolving loan fund in accordance with payment schedules established by the administrator. All payments from the administrator shall be deposited in the revolving loan fund.

2. The department and the authority shall establish fiscal controls and accounting procedures during appropriate accounting periods for payments and disbursements received and made by the revolving loan fund, the administration fund, and other funds established pursuant to section 455B.295, subsection 4, and to fund balances at the beginning and end of the accounting periods.

88 Acts, ch 1217, §15

455B.297 Loans to municipalities.

Moneys deposited in the revolving loan fund shall be used for the sole purpose of making loans to municipalities to finance the cost of projects in accordance with the intended use plans developed by the department under section 455B.296. The municipalities to which loans are to be made, the purposes of the loan, the amount of each loan, the interest rate of the loan, and the repayment terms of the loan, shall be determined by the director, in accordance with rules adopted by the commission, in compliance with and subject to the terms and conditions of Title VI of the Clean Water Act and any resolution, agreement, indenture, or other document of the authority, and rules adopted by the authority, relating to any bonds, notes, or other obligations issued for the program which may be applicable to the loan.

2. Approve loan applications of municipalities which satisfy the rules adopted by the commission, and the intended use plan developed by the department under section 455B.296.

3. Process and review all documents relating to projects and the extending of loans.

4. Prepare and process, in coordination with the authority, documents relating to the extending of loans to municipalities, the sale and issuance of bonds, notes, or other obligations of the authority relating to the program, and the administration of the program.

5. Include in the budget prepared pursuant to section 455A.4, subsection 1, paragraph *"c"*, an annual budget for the administration of the program and the use and disposition of amounts on deposit in the administration fund.

6. Charge each municipality receiving a loan from the revolving loan fund a loan origination fee and an annual loan servicing fee. The amount of the loan origination fees and the loan servicing fees established shall be relative to the amount of a loan made from the revolving loan fund. The director shall deposit the receipts from the loan origination fees and the loan servicing fees in the administration fund.

7. Consult with and receive the approval of the authority concerning the terms and conditions of loan agreements with municipalities as to the financial integrity of the loan.

8. Perform other acts and assume other duties and responsibilities necessary for the operation of the program.

88 Acts, ch 1217, §17

455B.299 Adoption of rules.

The commission shall adopt rules pursuant to chapter 17A appropriate for the administration of this part.

15. *"Private agency"* means a private agency as defined in section 28E.2.

16. *"Public agency"* means a public agency as defined in section 28E.2.

17. *"Resource recovery system"* means the recovery and separation of ferrous metals and nonferrous metals and glass and aluminum and the preparation and burning of solid waste as fuel for the production of electricity.

18. *"Sanitary disposal project"* means all facilities and appurtenances including all real and personal property connected with such facilities, which are acquired, purchased, constructed, reconstructed, equipped, improved, extended, maintained, or operated to facilitate the final disposition of solid waste without creating a significant hazard to the public health or safety, and which are approved by the executive director.

19. *"Sanitary landfill"* means a sanitary disposal project where solid waste is buried between layers of earth.

20. *"Solid waste"* means garbage, refuse, rubbish, and other similar discarded solid or semisolid materials, including but not limited to such materials resulting from industrial, commercial, agricultural, and domestic activities. Solid waste may include vehicles, as defined by section 321.1, subsection 1. However, this division does not prohibit the use of dirt, stone, brick, or similar inorganic material for fill, landscaping, excavation or grading at places other than a sanitary disposal project. Solid waste does not include hazardous waste as defined in section 455B.411 or source, special nuclear, or byproduct material as defined in the Atomic Energy Act of 1954, as amended to January 1, 1979.

455B.301A Declaration of policy.

1. The protection of the health, safety, and welfare of Iowans and the protection of the environment require the safe and sanitary disposal of solid wastes. An effective and efficient solid waste disposal program protects the environment and the public, and provides the most practical and beneficial use of the material and energy values of solid waste. While recognizing the continuing necessity for the existence of landfills, alternative methods of managing solid waste and a reduction in the reliance upon land disposal of solid waste are encouraged. In the promotion of these goals, the following waste management hierarchy in descending order of preference, is established as the solid waste management policy of the state:

a. Volume reduction at the source.
b. Recycling and reuse.
c. Combustion with energy recovery and refuse-derived fuel.
d. Combustion for volume reduction.
e. Disposal in sanitary landfills.

2. In the implementation of the solid waste management policy, the state shall:

a. Establish and maintain a cooperative state and local program of project planning, and technical and financial assistance to encourage comprehensive solid waste management.

b. Utilize the capabilities of private enterprise as well as the services of public agencies to accomplish the desired objectives of an effective solid waste management program.

87 Acts, ch 225, §405

455B.302 Duty of cities and counties.

Every city and county of this state shall provide for the establishment and operation of a comprehensive solid waste reduction program consistent with the waste management hierarchy under section 455B.301A, and a sanitary disposal project for final disposal of solid waste by its residents. Comprehensive programs and sanitary disposal projects may be established either separately or through co-operative efforts for the joint use of the participating public agencies as provided by law.

Cities and counties may execute with public and private agencies contracts, leases, or other necessary instruments, purchase land and do all things necessary not prohibited by law for the implementation of waste management programs, collection of solid waste, establishment and operation of sanitary disposal projects, and general administration of the same. Any agreement executed with a private agency for the operation of a sanitary disposal project shall provide for the posting of a sufficient surety bond by the private agency conditioned upon the faithful performance of the agreement. A city or county may at any time during regular working hours enter upon the premises of a sanitary disposal project, including the premises of a sanitary landfill, in order to inspect the premises and monitor the operations and general administration of the project to ensure compliance with the agreement and with state and federal laws. This includes the right of the city or county to enter upon the premises of a former sanitary disposal project which has been closed, including the premises of a former sanitary landfill, owned by a private agency, for the purpose of providing required postclosure care.

455B.303 Administrator's duties.

The director shall administer the provisions of this part 1 of division IV subject to the rules established by the commission.

Local boards of health shall co-operate in the enforcement of the provisions of said part and the director may seek their aid and delegate administrative duties of the department to the local boards of health in matters relating to solid waste, refuse disposal plants, and sanitary disposal projects.

The director may issue, modify, or deny variances from the rules of the commission. The applicant may appeal the decision of the director to the commission.

86 Acts, ch 1245, §1899

455B.304 Rules established.

1. The commission shall establish rules for the proper administration of this part 1 of division IV which shall reflect and accommodate as far as is reasonably possible the current and generally accepted methods and techniques for treatment and disposition of solid waste which will serve the purposes of this part, and which shall take into consideration the factors, including others which it deems proper, such as existing physical conditions, topography, soils and geology, climate, transportation, and land use, and which shall include but are not limited to rules relating to the establishment and location of sanitary disposal projects, sanitary practices, inspection of sanitary disposal projects, collection of solid waste, disposal of solid waste, pollution controls, the issuance of permits, approved methods of private disposition of solid waste, the general operation and maintenance of sanitary disposal projects, and the implementation of this part.

2. The commission shall adopt rules that allow the use of wet or dry sludge from publicly owned treatment works for land application. A sale of wet or dry sludge for the purpose of land application shall be accompanied by a written agreement signed by both parties which contains a general analysis of the contents of the sludge. The heavy metal content of the sludge shall not exceed that allowed by rules of the commission. An owner of a publicly owned treatment works which sells wet or dry sludge is not subject to criminal liability for acts or omissions in connection with a sale, and is not subject to any action by the purchaser to recover damages for harm to person or property caused by sludge that is delivered pursuant to a sale unless it is a result of a violation of the written agreement or if the heavy metal content of the sludge exceeds that allowed by rules of the commission. Nothing in this section shall provide immunity to any person from action by the department pursuant to section 455B.307. The rules promulgated under this subsection shall be generally consistent with those rules of the department existing on January 1, 1982 regarding the land application of municipal sewage sludge except that they may provide for different methods of application for wet sludge and dry sludge.

3. The commission shall adopt rules prohibiting the disposal of uncontained liquid waste in a sanitary landfill. The rules shall prohibit land burial or disposal by land application of wet sewer sludge at a sanitary landfill.

4. The commission shall adopt rules requiring that each sanitary disposal project established pursuant to section 455B.302 and permitted pursuant to section 455B.305 install and maintain a sufficient number of groundwater monitoring wells to adequately determine the quality of the groundwater and the impact the sanitary disposal project, if any, is having on the groundwater adjacent to the sanitary disposal project site.

5. The commission shall adopt rules requiring a schedule of monitoring of the quality of groundwater adjacent to the sanitary disposal project from the groundwater monitoring wells installed in accordance with this section during the period the sanitary disposal project is in use. Schedules of monitoring may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operation characteristics, and volumes and types of wastes handled at the sanitary disposal project site.

6. The commission shall, by rule, require continued monitoring of groundwater pursuant to this section for a period of thirty years after the sanitary disposal project is closed. The commission may prescribe a lesser period of monitoring duration and frequency in consideration of the potential or lack thereof for groundwater contamination from the sanitary disposal project. The commission may extend the thirty-year monitoring period on a site-specific basis by adopting rules specifically addressing additional monitoring requirements for each sanitary disposal project for which the monitoring period is to be extended.

7. The commission shall adopt rules which may require the installation of shafts to relieve the accumulation of gas in a sanitary disposal project.

8. The commission shall adopt rules which establish closure, postclosure, leachate control and treatment, and financial assurance standards and requirements and which establish minimum levels of financial responsibility for sanitary disposal projects.

9. The commission shall adopt rules which establish the minimum distance between tiling lines and a sanitary landfill in order to assure no adverse effect on the groundwater.

10. The commission shall adopt rules for the distribution of grants to cities, counties, central planning agencies, and public or private agencies working in cooperation with cities or counties, for the purpose of solid waste management. The rules shall base the awarding of grants on a project's reflection of the solid waste management policy and hierarchy established in section 455B.301A, the proposed amount of local matching funds, and community need.

11. By July 1, 1990, a sanitary landfill disposal project operating with a permit shall have a trained, tested, and certified operator. A certification program shall be devised or approved by rule of the department.

12. The commission shall adopt rules for the certification of operators of solid waste incinerators. The criteria for certification shall include, but is not limited to, an operator's technical competency and operation and maintenance of solid waste incinerators.

13. Notwithstanding the provisions of this chapter regarding the requirement of the equipping of a sanitary landfill with a leachate control system and the establishment and continuation of a postclosure account, the department shall adopt rules which provide for an exemption from the requirements to equip a publicly owned sanitary landfill with a leachate control system and to establish and maintain a postclosure account if the sanitary landfill operator is a public agency, if the sanitary landfill has closed or will close by July 1, 1992, and will no longer accept waste for disposal after that date, and if at the time of closure of the sanitary landfill monitoring of the groundwater does not reveal the presence of leachate. The department shall require postclosure groundwater monitoring and shall establish the requirements for the implementation of leachate collection and control in cases in which leachate is found during postclosure monitoring. The department shall provide for a closure completion period following the date of closure of a sanitary landfill. Notwithstanding the provisions of this paragraph, the public agency shall retain financial responsibility for closure and postclosure requirements applicable to sanitary disposal projects.

14. The commission shall adopt rules providing for the land application of soils resulting from the remediation of underground storage tank releases in the state.

15. The commission shall adopt rules providing for the issuance of a certificate to the owner of an underground petroleum storage tank evidencing completion of a remediation action by cleaning the site to the then current action standards. The certificate shall be issued upon request of the owner if the department does not order further remediation work to be performed within ninety days of the department's letter acknowledging compliance with current action standards. The certificate may be recorded with the county recorder to evidence completion of a remediation in the chain of title. A person issued a certificate shall not be required to perform further remediation solely because action standards are changed at a later date. The certificate shall not prevent the department from ordering remediation of a new release.

455B.305 Issuance or renewal of permits by director.

1. The director shall issue, revoke, suspend,

modify, or deny permits for the construction and operation of sanitary disposal projects.

A permit shall be issued by the director or at the director's direction, by a local board of health, for each sanitary disposal project operated in this state. The permit shall be issued in the name of the city or county or, where applicable, in the name of the public or private agency operating the project. Each sanitary disposal project shall be inspected annually by the department or a local board of health. The permits issued pursuant to this section are in addition to any other licenses, permits or variances authorized or required by law, including, but not limited to, chapter 358A. A permit may be suspended or revoked by the director if a sanitary disposal project is found not to meet the requirements of part 1 or rules issued under part 1. The suspension or revocation of a permit may be appealed to the department.

2. Beginning July 1, 1988, the director shall not issue a permit for the construction or operation of a new sanitary disposal project unless the permit applicant, in conjunction with all local governments using the sanitary disposal project, has filed a plan as required by section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306.

3. Beginning July 1, 1988, the director shall not renew or reissue a permit which had been initially issued prior to that date for a sanitary disposal project, unless the permit applicant, in conjunction with all local governments using the sanitary disposal project, has filed a plan as required by section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306.

4. Beginning July 1, 1994, the director shall not renew or reissue a permit which had been initially issued or renewed prior to that date for a sanitary disposal project, unless and until the permit applicant, in conjunction with all local governments using the sanitary disposal project, documents that steps are being taken to begin implementing the plan filed pursuant to section 455B.306. For those sections for which the department has not developed rules, the permit shall contain conditions and a schedule for meeting all applicable requirements of section 455B.306. However, a permit may be issued for the construction and operation of a new sanitary disposal project in accordance with subsection 2.

5. Beginning July 1, 1997, the director shall not renew or reissue a permit which had been renewed or reissued prior to that date for a sanitary landfill, unless and until the permit applicant, in conjunction with all local governments using the landfill, documents that alternative methods of solid waste disposal other than use of a sanitary landfill have been implemented as set forth in the plan filed pursuant to section 455B.306. However, the director may issue a permit for the construction and operation of a new sanitary landfill in accordance with subsection 2 and a permit may be renewed or reissued for a sanitary landfill which had received an initial permit but the permit had not been previously renewed or reissued prior to July 1, 1997 in accordance with subsection 3.

After July 1, 1997, however, no new landfill permits shall be issued unless the applicant, in conjunction with all local governments which will use the landfill, certifies that the landfill is needed as a part of an alternative disposal method, or unless the applicant provides documentation which satisfies the director that alternatives have been studied and are not either technically or economically feasible. The decision of the director is subject to review by the commission at its next meeting.

6. Beginning July 1, 1992, the director shall not issue, renew, or reissue a permit for a sanitary landfill unless the sanitary landfill is equipped with a leachate control system. The director may exempt a permit applicant from this requirement if the director determines that certain conditions regarding, but not limited to, existing physical conditions, topography, soil, geology, and climate, are such that a leachate control system is unnecessary.

455B.305A Local approval of sanitary landfill and infectious waste incinerator projects.

1. Prior to the siting of a proposed, new sanitary landfill or infectious waste incinerator, a city, county, or private agency, with the exception of a private agency disposing of waste which the agency generates on property owned by the agency as of January 1, 1990, shall submit a request for local siting approval to the city council or county board of supervisors which governs the city or county in which the proposed site is to be located. The city council or county board of supervisors shall approve or disapprove the site for each sanitary landfill or infectious waste incinerator.

2. An applicant for siting approval shall submit information to the city council or county board of supervisors to demonstrate compliance with the requirements prescribed by this chapter regarding a sanitary landfill or infectious waste incinerator. Siting approval shall be granted only if the proposed project meets all of the following criteria:

a. The project is necessary to accommodate the solid waste management needs of the area which the project is intended to serve.

b. The project is designed, located, and proposed to be operated so that the public health, safety, and welfare will be protected.

c. The project is located so as to minimize incompatibility with the character of the surrounding area and to minimize the effect on the value of the surrounding property. The city council or county board of supervisors shall consider the advice of the

appropriate planning and zoning commission regarding the application.

d. The plan of operations for the project is designed to minimize the danger to the surrounding area from fire, spills, or other operational accidents.

e. The traffic patterns to or from the project are designed in order to minimize the impact on existing traffic flows.

f. Information regarding the previous operating experience of a private agency applicant and its subsidiaries or parent corporation in the area of solid waste management or related activities are made available to the city council or county board of supervisors.

g. The department of natural resources has been consulted by the city council or board of supervisors prior to the approval.

3. No later than fourteen days prior to a request for siting approval, the applicant shall cause written notice of the request to be served either in person or by restricted certified mail on the owners of all property within the proposed local site area not solely owned by the applicant, and on the owners of all property within one thousand feet in each direction of the lot line of the proposed local site property if the proposed local site is within the city limits, or within two miles in each direction of the lot line of the proposed local site property if the proposed local site is outside of the city limits. The owners shall be identified based upon the authentic tax records of the county in which the project is to be located.

Written notice shall be published in the official newspaper of the county in which the site is located. The notice shall state the name and address of the applicant, the location of the proposed site, the nature and size of the development, the nature of the activity proposed, the probable life of the proposed activity, the date when the request for site approval will be submitted, and a description of the right of persons to comment on the request.

4. An applicant shall file a copy of its request with the department and with the city council or the county board of supervisors in which the proposed site is located. The request shall include the substance of the applicant's proposal and all documents, if any, submitted as of that date to the department pertaining to the proposed project. All documents or other materials pertaining to the proposed project on file with the city council or county board of supervisors shall be made available for public inspection at the office of the city council or county board of supervisors and may be copied upon payment of the actual cost of reproduction.

Any person may file written comment with the city council or county board of supervisors concerning the appropriateness of the proposed site for its intended purpose. The city council or county board of supervisors shall consider any comment received or postmarked not later than thirty days after the date of the last public hearing.

5. At least one public hearing shall be held by the city council or county board of supervisors no sooner than ninety days but no later than one hundred twenty days from receipt of the request for siting approval. A hearing shall be preceded by published notice in an official newspaper of the county of the proposed site, including in any official newspaper located in the city of the proposed site. The public hearing shall develop a record sufficient to form the basis of an appeal of the decision.

6. Decisions of the city council or the county board of supervisors shall be in writing, specifying the reasons for the decision. The written decision of the city council or the county board of supervisors shall be available for public inspection at the office of the city council or county board of supervisors and may be copied upon payment of the actual cost of reproduction. Final action shall be taken by the city council or the county board of supervisors within one hundred eighty days after the filing of the request for site approval.

At any time prior to completion by the applicant of the presentation of the applicant's factual evidence and an opportunity for questioning by the city council or the county board of supervisors and members of the public, the applicant may file not more than one amended application upon payment of additional fees pursuant to subsection 9. The time limitation for final action on an amended application shall be extended for an additional ninety days.

7. Construction of a project which is granted local siting approval under this section shall commence within one calendar year from the date upon which it was granted or the permit shall be nullified. If the local siting decision is appealed, the one-year period shall begin on the date upon which the appeal process is concluded.

8. The local siting approval, criteria, and appeal procedures provided for in this section and in section 455B.305B are the exclusive local siting procedures and appeal procedures. Local zoning, ordinances, or other local land use requirements may be considered in such siting decisions.

9. A city council or a county board of supervisors shall charge an applicant for siting approval, under this section, a fee to cover the reasonable and necessary costs incurred by the city or county in the siting approval process.

10. An applicant shall not file a request for local siting approval which is substantially the same as a request which was denied within the preceding two years pursuant to a finding against the applicant under the established criteria.

455B.305B Appeal from decision.

1. If the city council or the county board of supervisors does not approve a siting request under section 455B.305A, the applicant, within sixty days of notice of the decision, may petition for a hearing before the commission or the commission's designee

to contest the decision. The city council or the county board of supervisors shall appear as respondent in the hearing. At the hearing, the burden of proof shall be on the petitioner. In making its orders and determinations under this section, the commission or the commission's designee shall consider the written decision and reasons for the decision of the city council or the county board of supervisors and the transcribed record of the hearing held pursuant to section 455B.305A. The commission or the commission's designee shall transmit a copy of its decision to the office of the city council or the county board of supervisors where it shall be available for public inspection and copied upon payment of the actual cost of reproduction. Final action by the commission or the commission's designee shall be taken within one hundred twenty days.

2. If the city council or the county board of supervisors grants approval under section 455B.305A, a third party other than the applicant who participated in the public hearing conducted by the city council or the county board of supervisors, may petition the commission or the commission's designee within sixty days of filing of the written decision at the office of the city council or county board of supervisors for a hearing to contest the approval. Unless the commission or the commission's designee determines that the petition is duplicitous or frivolous, the commission or the commission's designee shall hear the petition in accordance with the procedures of subsection 1. The burden of proof shall be on the petitioner, and the city council or the county board of supervisors and the applicant shall be named as corespondents.

The commission or the commission's designee shall transmit a copy of its decision to the office of the city council or the county board of supervisors where it shall be available for public inspection and may be copied upon payment of the actual cost of reproduction.

3. Any person who files a petition to contest a decision of the city council or the county board of supervisors shall pay a reasonable filing fee.

4. Judicial review may be sought of actions of the commission or the commission's designee in accordance with chapter 17A.

455B.306 Plans filed.

1. A city, county, and a private agency operating or planning to operate a sanitary disposal project shall file with the director a comprehensive plan detailing the method by which the city, county, or private agency will comply with this part 1. All cities and counties shall also file with the director a comprehensive plan detailing the method by which the city or county will comply with the requirements of section 455B.302 to establish and implement a comprehensive solid waste reduction program for its residents.

For the purposes of this section, a public agency managing the waste stream for cities or counties pursuant to chapter 28E, shall file one comprehensive plan on behalf of its members, which constitutes full compliance by the public agency's members with the filing requirements of this section. If both a public agency managing the waste stream for a city or county pursuant to chapter 28E, and one or more of the public agency's member cities or counties file a comprehensive plan under this subsection, the director shall, following notice to the agency, make a determination that any plan filed by a member city or county is compatible with the comprehensive plan of the chapter 28E public agency. If the director determines that the comprehensive plan of a city or county is not compatible with the comprehensive plan of a chapter 28E public agency, the director shall require the city or county to provide justification for approval of the comprehensive plan based upon the innovative nature of the comprehensive plan, the urgency of implementation, or other unique features of the comprehensive plan of the city or county, and that the plan otherwise complies with the provisions of this chapter.

This subsection does not prevent the director from approving pilot projects which otherwise comply with the provisions of this chapter. The director shall review each comprehensive plan submitted and may reject, suggest modification, or approve the proposed plan. The director shall aid in the development of comprehensive plans for compliance with this part. The director shall make available to a city, county, and private agency appropriate forms for the submission of comprehensive plans and may hold hearings for the purpose of implementing this part. The director and governmental agencies with primary responsibility for the development and conservation of energy resources shall provide research and assistance, when cities and counties operating or planning to operate sanitary disposal projects request aid in planning and implementing resource recovery systems.

A comprehensive plan filed by a private agency operating or planning to operate a sanitary disposal project required pursuant to section 455B.302 shall be developed in cooperation and consultation with the city or county responsible to provide for the establishment and operation of a sanitary disposal project.

2. The plan required by subsection 1 for sanitary disposal projects shall be filed with the department at the time of initial application for the construction and operation of a sanitary disposal project and at a minimum shall be updated and refiled with the department at the time of each subsequent application for renewal or reissuance of a previously issued permit. The department may, consistent with rules of the commission, require filing or updating of a plan at other times.

3. A comprehensive plan filed pursuant to this section shall incorporate and reflect the waste management hierarchy of the state solid waste manage-

ment policy and shall at a minimum address the following general topics:

a. The extent to which solid waste is or can be recycled.

b. The economic and technical feasibility of using other existing sanitary disposal project facilities in lieu of initiating or continuing the sanitary landfill currently used.

c. The expected environmental impact of alternative solid waste disposal methods, including the use of sanitary landfills.

d. A specific plan and schedule for implementing technically and economically feasible solid waste disposal methods that will result in minimal environmental impact.

4. The comprehensive plan shall provide details of a local recycling program which shall contain a methodology for meeting the state volume reduction goal pursuant to section 455D.3, and a methodology for implementing a program of separation of wastes including but not limited to glass, plastic, paper, and metal.

5. In addition to the above requirements, the following specific areas must be addressed in detail in a comprehensive plan filed in conjunction with the issuance, renewal, or reissuance of a permit for a sanitary disposal project:

a. A closure and postclosure plan detailing the schedule for and the methods by which the operator will meet the conditions for proper closure and postclosure adopted by rule by the commission. The plan shall include, but is not limited to, the proposed frequency and types of actions to be implemented prior to and following closure of an operation, the proposed postclosure actions to be taken to return the area to a condition suitable for other uses, and an estimate of the costs of closure and postclosure and the proposed method of meeting these costs. The postclosure plan shall reflect the thirty-year time period requirement for postclosure responsibility.

b. A plan for the control and treatment of leachate, including financial considerations proposed in meeting the costs of control and treatment in order to meet the requirements of section 455B.305, subsection 6.

c. A financial plan detailing the actual cost of the sanitary disposal project and including the funding sources of the project. In addition to the submittal of the financial plan filed pursuant to this subsection, the operator of an existing sanitary landfill shall submit an annual financial statement to the department.

d. An emergency response and remedial action plan including established provisions to minimize the possibility of fire, explosion, or any release to air, land, or water of pollutants that could threaten human health and the environment, and the identification of possible occurrences that may endanger human health and environment.

6. When a proposed plan is subject to review and approval by several state and local agencies, if the plan is substantially modified after approval by an agency, the plan shall be resubmitted as a new proposal to all other agencies to ensure that all agencies have approved the same plan.

7. In addition to the comprehensive plan filed pursuant to subsection 1, a person operating or proposing to operate a sanitary disposal project shall provide a financial assurance instrument to the department prior to the initial approval of a permit or prior to the renewal of a permit for an existing or expanding facility beginning July 1, 1988.

a. The financial assurance instrument shall meet all requirements adopted by rule by the commission, and shall not be canceled, revoked, disbursed, released, or allowed to terminate without the approval of the department. Following the cessation of operation or closure of a sanitary disposal project, neither the guarantor nor the operator shall cancel, revoke, or disburse the financial assurance instrument or allow the instrument to terminate until the operator is released from closure, postclosure, and monitoring responsibilities.

b. The operator shall maintain closure, and postclosure accounts. The commission shall adopt by rule the amounts to be contributed to the accounts based upon the amount of solid waste received by the facility. The accounts established shall be specific to the facility.

(1) Money in the accounts shall not be assigned for the benefit of creditors with the exception of the state.

(2) Money in an account shall not be used to pay any final judgment against a licensee arising out of the ownership or operation of the site during its active life or after closure.

(3) Conditions under which the department may gain access to the accounts and circumstances under which the accounts may be released to the operator after closure and postclosure responsibilities have been met, shall be established by the commission.

c. The commission shall adopt by rule the minimum amounts of financial responsibility for sanitary disposal projects.

d. Financial assurance instruments may include instruments such as cash or surety bond, a letter of credit, a secured trust fund, or a corporate guarantee.

455B.307 Dumping — where prohibited — penalty.

1. A private agency or public agency shall not dump or deposit or permit the dumping or depositing of any solid waste at any place other than a sanitary disposal project approved by the director unless

the agency has been granted a permit by the department which allows the dumping or depositing of solid waste on land owned or leased by the agency. The department shall adopt rules regarding the permitting of this activity which shall provide that the public interest is best served, but which may be based upon criteria less stringent than those regulating a public sanitary disposal project provided that the rules adopted meet the groundwater protection goal specified in section 455E.4. The comprehensive plans for these facilities may be varied in consideration of the types of sanitary disposal practices, hydrologic and geologic conditions, construction and operations characteristics, and volumes and types of waste handled at the disposal site. The director may issue temporary permits for dumping or disposal of solid waste at disposal sites for which an application for a permit to operate a sanitary disposal project has been made and which have not met all of the requirements of part 1 of this division and the rules adopted by the commission if a compliance schedule has been submitted by the applicant specifying how and when the applicant will meet the requirements for an operational sanitary disposal project and the director determines the public interest will be best served by granting such temporary permit.

2. The director may issue any order necessary to secure compliance with or prevent a violation of the provisions of this part 1 of division IV or the rules adopted pursuant to the part. The attorney general shall, on request of the department, institute any legal proceedings necessary in obtaining compliance with an order of the commission or the director or prosecuting any person for a violation of the provisions of the part or rules issued pursuant to the part.

3. Any person who violates any provision of part 1 of this division or any rule or any order adopted or the conditions of any permit or order issued pursuant to part 1 of this division shall be subject to a civil penalty, not to exceed five thousand dollars for each day of such violation.

The director shall schedule a hearing for the purpose of hearing the arguments of the aggrieved person within thirty days of the filing of the notice of appeal. The hearing may be held before the commission or its designee. A complete record shall be made of the proceedings. The director shall issue the findings in writing to the aggrieved person within thirty days of the conclusion of the hearing. Judicial review may be sought of actions of the commission in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding the terms of the Act, petitions for judicial review may be filed in the district court of the county where the acts in issue occurred.

455B.310 Tonnage fee imposed.

1. Except as provided in subsection 3, the operator of a sanitary landfill shall pay to the department a tonnage fee for each ton or equivalent volume of solid waste received and disposed of at the sanitary landfill during the preceding reporting period. The department shall determine by rule the volume which is equivalent to a ton of waste.

2. The tonnage fee is twenty-five cents per ton of solid waste. However, for the year beginning July 1, 1988, the tonnage fee is one dollar and fifty cents per ton of solid waste and shall increase annually in the amount of fifty cents per ton through July 1, 1992. A county in which a privately operated landfill accepts solid waste from outside of the county may charge an additional tonnage fee for the disposal of solid waste at the sanitary landfill which is not more than one hundred percent of the fee otherwise established in this section. The additional fee charged and the moneys collected shall be used exclusively for the development and implementation of alternatives to sanitary landfills or for the costs incurred by the county to abate problems associated with the operation of the sanitary landfill.

3. Solid waste disposal facilities with special provisions which limit the site to the disposal of construction and demolition waste, landscape waste, and coal combustion waste, or foundry sand, or solid waste materials approved by the department for lining or capping or for construction berms, dikes or roads in a sanitary disposal project or sanitary landfill are exempt from the tonnage fees imposed under this section. However, solid waste disposal facilities under this subsection are subject to the fees imposed pursuant to section 455B.105, subsection 11, paragraph *"a"*. Notwithstanding the provisions of section 455B.105, subsection 11, paragraph *"b"*, the fees collected pursuant to this subsection shall be used by the department for the regulation of these solid waste disposal facilities.

4. All tonnage fees received by the department under this section shall be deposited in the solid waste account of the groundwater protection fund created under section 455E.11.

5. Fees imposed by this section prior to July 1, 1988, are due on April 15, 1988, for the previous calendar year and are due on July 30, 1988, for the period January 1, 1988, through June 30, 1988. The fees shall be paid to the department and shall be accompanied by a return in the form prescribed by the department. Fees imposed by this section beginning July 1, 1988, shall be paid to the department on a quarterly basis. The initial payment of fees collected beginning July 1, 1988, shall be paid to the department by January 1, 1989, and on a quarterly basis thereafter. The payment shall be accompanied by a return in the form prescribed by the department.

6. A person required to pay fees by this section who fails or refuses to pay the fees imposed by this section shall be assessed a penalty of two percent of the fee due for each month the fee is overdue. The penalty shall be paid in addition to the fee due.

7. The department shall grant exemptions from the fee requirements of subsection 2 for receipt of solid waste meeting all of the following criteria:

a. Receipt of the solid waste is pursuant to a written contract between the owner or operator of the sanitary landfill and another person.

b. The contract was lawfully executed prior to January 1, 1987.

c. The contract expressly prohibits an increase in the compensation or fee payable to the owner or operator of the landfill and does not allow voluntary cancellation or renegotiation of the compensation or fee during the term of the contract.

d. The contract has not been amended at any time after January 1, 1987.

e. The owner or operator of the sanitary landfill applying for exemption demonstrates to the satisfaction of the department that good faith efforts were made to renegotiate the contract notwithstanding its terms, and has been unable to agree on an amendment allowing the fee provided in subsection 2 to be added to the compensation or fee provisions of the contract.

f. Applications for exemption must be submitted on forms provided by the department with proof of satisfaction of all criteria.

g. Notwithstanding the time specified within the contract, an exemption from payment of the fee increase requirements for a multiyear contract shall terminate by January 1, 1989.

8. In the case of a sanitary disposal project other than a sanitary landfill, no tonnage fee shall apply for five years beginning July 1, 1987 or for five years from the commencement of operation, whichever is later. By July 1, 1992, the department shall provide the general assembly with a recommendation regarding appropriate fees for alternative sanitary disposal projects.

455B.311 Grants.

The director, with the approval of the commission, may make grants to cities, counties, or central planning agencies representing cities and counties or combinations of cities, counties, or central planning agencies from funds reserved under and for the purposes specified in section 455E.11, subsection 2, paragraph *"a"*, subject to all of the following conditions:

1. Application for grants shall be in a form and contain information as prescribed by rule of the department.

2. Grants shall only be awarded to a city or a county; however, a grant may be made to a central planning agency representing more than one city or county or combination of cities or counties for the purpose of planning and implementing regional solid waste management facilities or may be made to private or public agencies working in cooperation with a city or county. The department shall award grants, in accordance with the rules adopted by the commission, based upon a proposal's reflection of the solid waste management policy and hierarchy established in section 455B.301A. Grants shall be awarded only for an amount determined by the department to be reasonable and necessary to conduct the work as set forth in the grant application. Grants may be awarded at a maximum cost-share level of ninety percent with a preference given for regional or shared projects and a preference given to projects involving environmentally fragile areas which are particularly subject to groundwater contamination. Grants shall be awarded in a manner which will distribute the grants geographically throughout the state.

3. Grants shall be awarded only for an amount determined by the department to be reasonable and necessary to conduct the work as set forth in the grant application. Grants for less than a county-wide planning area shall be limited to twenty-five percent state funds, for a single-county planning area the state funds shall be limited to fifty percent, and for a two-county planning area the state funds shall be limited to seventy-five percent. For each additional county above a two-county planning area, the maximum allowable state funds shall be increased by an additional five percent, up to a maximum of ninety percent state funds.

4. A city, county, or central planning agency on behalf of a city or county may not receive more than one grant under this section in any three-year period.

5. The director, with the approval of the commission, may deny a grant application if in the judgment of the director the applicant could not reasonably be expected to adequately and properly complete the plan for which the grant is requested or the applicant could not reasonably be expected to implement a planned sanitary disposal project.

455B.312 Waste abatement program.

1. If the department receives a complaint that certain products or packaging when disposed of are incompatible with an alternative method of managing solid waste and with the solid waste management policy, the director shall investigate the complaint. If the director determines that the complaint is well-founded, the department shall inform the manufacturer of the product or packaging and attempt to resolve the matter by informal negotiations.

2. If informal procedures fail to result in resolution of the matter, the director shall hold a hearing between the affected parties. Following the hearing, if it is determined that removal of the product or packaging is critical to the utilization of the alternative method of disposing of solid waste, the director

shall issue an order setting out the requirements for an abatement plan to be prepared by the manufacturer within the time frame established in the order.

If an acceptable plan is not prepared, the plan is not implemented, or the problem otherwise continues unabated, the attorney general shall take actions authorized by law to secure compliance.

The removed materials shall be recycled, reused, or treated and disposed in a manner approved by the department. Separation of waste includes magnetic separation.

9. *"Release"* means a threatened or real emission, discharge, spillage, leakage, pumping, pouring, emptying, or dumping of a hazardous substance into or onto the land, air, or waters of the state unless one of the following applies:

a. The release is done in compliance with the conditions of a federal or state permit.

If it is determined by the director that an emergency exists respecting any matter affecting or likely to affect the public health, the director may issue any order necessary to terminate the emergency without notice and without hearing. Any such order shall be binding and effective immediately and until such order is modified or vacated at a contested case hearing before the commission or by a court.

2. The director may request that the attorney general institute legal proceedings for a temporary or permanent injunction pursuant to section 455B.391 for purposes of enforcing an emergency order.

455B.390 Jurisdiction limited.

Nothing contained in this part 4 of division IV shall be deemed to grant to the department any authority or jurisdiction under this part 4 with respect to the following:

1. Hazardous conditions existing solely within and which will probably continue to exist solely within commercial and industrial plants, works, or shops under the jurisdiction of chapters 88 and 91.

2. Relations between employers and employees with respect to hazardous conditions except that where such hazardous conditions extend to or affect areas within the scope of the authority granted by this part 4 of division IV, the department may take any action consistent with this part 4 to abate such hazardous condition.

3. The storage, transportation, handling, or use of inflammable liquids, combustibles and explosives control over which is exercised by the state fire marshal under chapter 100.

4. The storage, transportation, handling or use of pesticides over which control is exercised by the state secretary of agriculture under chapter 206, except when spillage of pesticides creates a hazardous condition.

5. The storage, transportation, handling or use of fertilizers over which control is exercised by the state secretary of agriculture under chapter 200, except when spillage of fertilizers creates a hazardous condition.

455B.391 Duties of attorney general.

1. The attorney general shall, at the request of the department, institute any legal proceedings, including an action for an injunction or temporary injunction, necessary to obtain compliance with the provisions of this part 4 of division IV. In any legal proceedings any previous findings of fact of the director or the department after due notice and hearing shall be conclusive if supported by substantial evidence in the record when the record is viewed as a whole.

2. The attorney general shall, at the request of the director, take appropriate action against the person having control over a hazardous substance to recover for the liabilities resulting under section 455B.392.

455B.392 Liability for cleanup costs.

1. A person having control over a hazardous substance is strictly liable to the state for all of the following:

a. The reasonable cleanup costs incurred by the state as a result of the failure of the person to clean up a hazardous substance involved in a hazardous condition caused by that person.

b. The reasonable costs incurred by the state to evacuate people from the area threatened by a hazardous condition caused by the person.

c. The reasonable damages to the state for the injury to, destruction of, or loss of natural resources resulting from a hazardous condition caused by that person including the costs of assessing the injury, destruction, or loss.

d. The excessive and extraordinary cost, excluding salaries, incurred by the department in responding at and to the scene of a hazardous condition caused by that person.

If the failure is willful, the person is liable for punitive damages not to exceed triple the cleanup costs incurred by the state. Prompt and good faith notification to the director by the person having control over a hazardous substance that the person does not have the resources or managerial capability to begin or continue cleanup, or a good faith effort to clean up, relieves the person of liability for punitive damages, but not for actual cleanup costs. The director shall keep a record of all expenses incurred in carrying out a project or activity authorized by this part.

Claims by the state under this subsection may be appealed to the commission by the person filing a written notice of appeal within thirty days after receipt of the bill.

2. Liability under subsection 1 is limited to the following maximum dollar limitations:

a. Five million dollars for any vehicle, boat, aircraft, pipeline, or other manner of conveyance which transports a hazardous substance.

b. Fifty million dollars for any facility generating, storing, or disposing of a hazardous substance.

3. There is no liability under this section for a person otherwise liable if the hazardous condition is solely resulting from one or more of the following:

a. An act of God.

b. An act of war.

c. An act or omission of a third party if the person establishes both of the following:

(1) That taking into consideration the characteristics of the hazardous substance, the person otherwise liable exercised due care with respect to the hazardous substance.

(2) That the person otherwise liable took precautions against the foreseeable acts or omissions of the third party and the foreseeable consequences.

As used in this paragraph, "third party" does not include an employee or agent of the person otherwise liable or a third party whose act or omission occurs directly or indirectly in connection with a contractual relationship with the person otherwise liable.

4. There is no liability under this section for a person otherwise liable if all of the following conditions exist:

a. The liability arises during the transportation of a hazardous substance.

b. The fact that the hazardous substance is a hazardous substance has been misrepresented to the person transporting the hazardous substance.

c. The person transporting the hazardous substance does not know or have reason to know that the misrepresentation has been made.

5. Money collected pursuant to this section shall be deposited in the hazardous waste remedial fund created in section 455B.423 and used in the manner permitted for the fund.

6. This section does not deny any person any legal or equitable rights, remedies or defenses or affect any legal relationship other than the legal relationship between the state and a person having control over a hazardous substance pursuant to subsection 1.

1. A person employed by the state is not liable for damages incurred as a result of actions taken by the person when acting in the person's official capacity pursuant to this part, rules adopted pursuant to this part and the hazardous condition contingency plan.

2. A person who provides assistance at the request of the department or by previous agreement with the department in the event of a hazardous condition is not liable in a civil action for damages as a result of that person's acts or omissions in rendering the assistance. This section does not relieve a person from civil damages in any of the following circumstances:

a. If the person providing assistance is also the person having control over the hazardous substance which created the hazardous condition.

b. If the person rendered assistance for payment beyond reimbursement for out-of-pocket expenses or with the expectation of such payment.

c. For acts or omissions which result from intentional wrongdoing or gross negligence.

455B.394 Right of entry.

A person shall not refuse entry or access to, or harass or obstruct an authorized representative of the department who seeks entry or access for the purpose of investigating or responding to a hazardous condition. The representative shall present appropriate credentials. Upon a showing of probable cause in writing and made under oath, a judge or magistrate having proper jurisdiction shall issue a suitably restricted search warrant to the representative of the department for the purposes of enabling the representative to investigate or respond to a hazardous condition.

84 Acts, ch 1108, §6

455B.395 Public information.

Information obtained under this part or a rule, order or condition adopted or issued under this part, or an investigation authorized thereby, shall be available to the public unless the information constitutes trade secrets or information which is entitled to confidential treatment in order to protect a plan, process, tool, mechanism, or compound which is known only to the person claiming confidential treatment and confidential treatment is necessary to protect the person's trade, business or manufacturing process.

455B.396 Claim of state.

Liability to the state under this part or part 5 of this division is a debt to the state. The debt, together with interest on the debt at the maximum lawful rate of interest permitted pursuant to section 535.2, subsection 3, paragraph *"a"* from the date costs and expenses are incurred by the department is a lien on real property, except single and multi-family residential property, on which the department incurs costs and expenses creating a liability and owned by the persons liable under this part or part 5. To perfect the lien a statement of claim describing the property subject to the lien, signed by the director and approved by the commission must be filed within one hundred twenty days after the incurrence of costs and expenses by the department. The statement shall be filed with, accepted by, and recorded by the county recorder in the county in which the property subject to the lien is located. The statement of claim may be amended to include subsequent liabilities. To be effective the statement of claim shall be amended and filed within one hundred twenty days after the occurrence of the event resulting in the amendment.

The lien may be dissolved by filing with the appropriate recording officials a certificate, signed by the

director, that the debt for which the lien is attached, together with interest and costs on the debt, has been paid or legally abated.

86 Acts, ch 1115, §1

455B.397 Financial disclosure.

Immediately upon the incurrence of any liability to the state under this part, the debtor shall submit to the director a report consisting of documentation of the debtor's liabilities and assets, including if filed, a copy of the annual report submitted to the secretary of state pursuant to chapter 490. A subsequent report pursuant to this section shall be submitted annually on April 15 for the life of the debt. These reports shall be kept confidential and shall not be available to the public.

(1) Causes, or significantly contributes to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness.

(2) Poses a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed. "Hazardous waste" may include but is not limited to wastes that are toxic, corrosive or flammable or irritants, strong sensitizers or explosives.

b. "Hazardous waste" does not include:

455B.412 Duties of the department.

The department shall:

1. Develop comprehensive plans and programs for the state for the management of hazardous waste. In the development of plans and programs, the department shall recognize the need for assuring that suitable facilities and sites for treatment and disposal are available for hazardous wastes generated in Iowa. As part of the hazardous waste management plan, the department shall conduct a study of hazardous waste management in Iowa and shall report its findings to the general assembly not later than eighteen months after July 1, 1979. The study shall include the following:

a. A description of current sources of hazardous waste within the state, including the types and quantities of hazardous wastes.

b. A description of current hazardous waste transportation, storage, treatment and disposal practices and costs within the state.

c. A description of practices and methods that would reduce at the source the amount of hazardous waste generated and an estimate of the cost of these practices.

d. Identification and evaluation of alternatives to land disposal of hazardous wastes.

e. Identification of the general geologic and other criteria for a site for land disposal of hazardous wastes and the areas in Iowa that might meet the general criteria if alternatives to land disposal are not feasible.

f. The proper role and activities of the state in addition to those established in sections 455B.411 to 455B.421 and the federal Solid Waste Disposal Act in facilitating safe and efficient disposal of hazardous waste, including but not limited to a determination of the most appropriate procedures for receiving public comments and approving permits for siting hazardous waste disposal facilities.

g. The estimated private and public capital and annual operating costs of implementing the hazardous waste management plan recommended by the department.

2. Adopt rules establishing criteria for identifying the characteristics of hazardous wastes and listing hazardous wastes that are subject to this part. The department shall consider toxicity, persistence and degradability in nature, potential for accumulation in tissue, and related factors including flammability, corrosiveness, and other hazardous characteristics.

3. Adopt rules, applicable to generators or transporters of or owners or operators of facilities for the treatment, storage, or disposal of hazardous waste listed or identified by the department under subsection 2 of this section, as necessary to protect human health and the environment. The rules shall include establishment of a manifest system.

4. Adopt rules establishing standards and procedures for the certification of supervisory personnel and operators at hazardous waste treatment, storage or disposal facilities required to have a permit under section 455B.415.

5. Notwithstanding section 455B.420, adopt rules regulating the use of recycled oil for the purpose of road oiling, dust control, or weed control necessary to protect public health and the environment. The rules adopted shall be limited to addressing the following:

a. Analysis of oils by those persons supplying the oils prior to their use for road oiling, dust control or weed control. This analysis shall be for polychlorinated biphenyl, flashpoints, and lead.

b. Notification by the person supplying the oils of the results of analysis required to the person to whom the oils are supplied or delivered and the department at the time of delivery or prior to application of oils for road oiling, dust control or weed control.

c. Establishing maximum levels of contaminants allowed in oils used for the purpose of road oiling, dust control or weed control and prohibiting the use of oils containing contaminants in excess of maximum allowable levels for such purposes.

d. Requirements for persons supplying or applying oils for the mitigation and cleanup of contamination posing a threat to public health and the environment resulting from oils applied for road oiling, dust control or weed control.

455B.413 Director's duties.

The director shall:

1. Issue, revoke, suspend, modify or deny permits for persons owning or operating a facility for the treatment, storage or disposal of a hazardous waste identified by the commission under section 455B.412, subsection 2. Permits shall be issued for a period as the commission may by rule prescribe.

2. Administer examinations to determine the competence of operators and supervisory personnel at facilities for the treatment, storage or disposal of hazardous waste that are required to have a permit under section 455B.415. The director shall issue, revoke, suspend, or deny certificates of competency for persons as supervisory or operating personnel at facilities for the treatment, storage or disposal of hazardous waste.

3. Inspect and investigate hazardous waste generators and transporters and treatment, storage and

disposal facilities as may be necessary to determine compliance with sections 455B.411 to 455B.421 and rules adopted and permits and orders issued pursuant to sections 455B.411 to 455B.421. The director shall periodically survey or inspect the construction, operation and monitoring, reporting and record-keeping systems of hazardous waste generators and transporters and treatment, storage and disposal facilities.

455B.414 Hazardous waste notification.

1. A person who on the effective date of a rule adopted under section 455B.412, subsection 2 identifying a hazardous waste as subject to sections 455B.411 to 455B.421 is generating or transporting the identified hazardous waste or owns or is operating a treatment, storage or disposal facility handling the identified hazardous waste shall file with the director a notification stating the waste handled by the person and the location and a general description of the activity involving the waste. The notice shall be given within ninety days after the effective date of the rule identifying the waste.

2. Except as provided in subsection 1, a person shall not commence to transport or generate a hazardous waste identified by rule under section 455B.412, subsection 2 without first notifying the director of the proposed activity. The notice shall state the waste to be handled, and the location and a general description of the activity involving the identified waste.

3. When the commission amends a rule adopted under section 455B.412, subsection 2, identifying additional characteristics of hazardous waste or identifying an additional substance as hazardous waste, the commission may require a person to file the notification required by subsection 1 or 2.

84 Acts, ch 1158, §5; 86 Acts, ch 1245, §1899

455B.415 Permit required.

1. Except as provided in subsections 2 and 4, a person shall not construct or operate a facility for the treatment, storage or disposal of a hazardous waste identified under section 455B.412, subsection 2 unless the owner or operator has obtained a permit for the facility from the director.

2. The owner or operator of a facility for the treatment, storage or disposal of a hazardous waste identified under section 455B.412, subsection 2 existing on the effective date of the rule listing the waste shall obtain a permit for the facility within six months of the effective date of the rule. A person owning or operating a facility for the treatment, storage or disposal of a hazardous waste that existed on the effective date of the rule identifying the waste and that is required to have a permit under sections 455B.411 to 455B.421 is considered to have a permit until a final administrative determination is made if the person meets the following conditions:

a. The person has given notice as required by section 455B.414.

b. The person has applied for a permit.

c. The director has determined that the failure to issue the permit is not the result of the failure of the applicant to furnish information reasonably required or requested to process the application.

3. The commission may by rule specify the information required to be submitted with the application for a permit and the conditions under which the director shall issue, deny, revoke, suspend or modify permits. However, a permit shall not be issued for a treatment, storage or disposal facility unless the applicant presents evidence of financial responsibility and continuity of operation consistent with the degree and duration of risks associated with the treatment, storage or disposal of the hazardous waste as determined by the commission.

4. A permit is not required for the storage of a hazardous waste identified under section 455B.412, subsection 2 when the only purpose of the storage is to accumulate for a period of up to ninety days sufficient quantities of the waste for transportation, treatment or disposal unless a permit for the storage is required under federal law.

5. A permit issued pursuant to this section shall be in addition to other licenses, permits or variances authorized or required by law, including, but not limited to, the requirements of chapter 358A.

6. If the director denies a permit, the director shall inform the applicant in writing of the reasons for the denial. The applicant may appeal to the commission from the denial of a permit or from a condition of a permit if the applicant files a notice of appeal with the director within thirty days of receipt of the denial or issuance of the permit.

455B.416 Inspections.

1. For purposes of developing a rule, conducting a study of hazardous waste management, compiling a site inventory, or enforcing sections 455B.411 to 455B.421, a person who generates, stores, treats, transports, disposes of or otherwise handles or has handled hazardous waste shall, upon request of the director, furnish information relating to the hazardous waste and permit the director at reasonable times to have access to and copy records relating to the waste. For the purpose of developing a rule or enforcing sections 455B.411 to 455B.421, the director may:

a. Enter at reasonable times an establishment or other place where hazardous waste is or has been generated, stored, treated or disposed of, or a vehicle transporting hazardous waste.

b. Inspect and obtain samples from a person of a hazardous waste and of containers or labeling associated with the waste.

c. Install, service and take samples from monitoring equipment on the property.

The inspection shall be completed within a reasonable period of time.

2. If the director obtains a sample, prior to leaving the premises, the director shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion retained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

3. Documents or information obtained from a person under this section shall be available to the public except as provided in this subsection. Upon a showing satisfactory to the director by a person that documents or information, or a particular part of the documents or information to which the director has access under this section if made public would divulge commercial or financial information obtained from a person and privileged or confidential or a trade secret, the director shall consider the documents or information or the particular portion of the documents or information confidential. However the document or information may be disclosed to officers, employees or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this part 5.

4. *a.* If upon receipt of any information, the director determines that the presence of a hazardous waste at a facility or site at which hazardous waste is, or has been, stored, treated, or disposed of, or the release of the waste from the facility or site may present a substantial hazard to human health or the environment, the director may issue an order requiring the owner or operator of the facility or site to conduct reasonable monitoring, testing, analysis, and reporting with respect to the facility or site to determine the nature and extent of the hazard.

b. In the case of a facility or site not in operation at the time a determination is made regarding the facility or site under this subsection, if the director finds that the owner of the facility or site could not reasonably be expected to have actual knowledge of the presence of hazardous waste at the facility or site and of its potential for release, the director may issue an order requiring the most recent previous owner or operator of the facility or site who could reasonably be expected to have actual knowledge to carry out the actions referred to in this subsection.

c. An order under this subsection shall require the person to whom the order is issued to submit to the director within thirty days from the issuance of the order a proposal for carrying out the required monitoring, testing, analysis, and reporting. The director may, after providing the person with an opportunity to confer with the director on the proposal, require the person to carry out the monitoring, testing, analysis, and reporting in accordance with the proposal, which may be modified as the director deems reasonable to determine the nature and extent of the hazard or to remove the hazard.

d. If the director determines that no owner or operator referred to in this subsection is able to conduct monitoring, testing, analysis, or reporting satisfactory to the director, if the director deems any action carried out by an owner or operator to be unsatisfactory, or if the director cannot initially determine that there is an owner or operator referred to in this subsection who is able to conduct monitoring, testing, analysis, or reporting, the director may conduct reasonable monitoring, testing, or analysis to determine the nature and extent of the hazard associated with the site. The director may require the owner or operator referred to in this subsection to reimburse the director or other authority or person for the costs of the monitoring, testing, analysis, or reporting. The director shall not order a person to pay the costs of monitoring, testing, analysis, or reporting carried out by the director which confirms the results of monitoring, testing, or analysis done pursuant to an earlier order of the director.

e. For purposes of carrying out this subsection, the director may exercise the powers set forth in subsection 1.

455B.417 Prohibited acts — penalties.

1. A person shall not knowingly do any of the following acts:

a. Transport a hazardous waste identified under the commission's rules to a hazardous waste storage, treatment or disposal facility that is located in Iowa and that does not have a permit under section 455B.415, subsection 1.

b. Treat, store, or dispose of a hazardous waste identified under sections 455B.411 to 455B.421 either without having obtained a permit for the treatment, storage, or disposal under section 455B.415, subsection 1, or in violation of a material condition or requirement of a permit.

c. Make a false material statement or representation in an application, label, manifest, record, report, permit or other document filed, maintained or used for purposes of compliance with the provisions of sections 455B.411 to 455B.421.

d. Destroy, alter or conceal after July 1, 1981, any record required to be kept under rules adopted by the commission under this part. This paragraph applies to all persons who generated, stored, treated, transported, disposed of, or otherwise handled hazardous waste after November 19, 1980.

2. A person who violates subsection 1 is subject upon conviction to a fine of not more than twenty-five thousand dollars or to imprisonment for not to exceed one year, or both for each day of violation. If the conviction is for a violation committed after a first conviction, punishment shall be by a fine of not more than fifty thousand dollars or by imprisonment for not more than two years, or both for each day of violation.

3. A person who violates a provision of this part or a rule, permit, or order adopted or issued under this part is subject to a civil penalty not to exceed ten thousand dollars for each violation. Each day of violation constitutes a separate violation.

84 Acts, ch 1158, §7, 8

455B.418 Enforcement.

1. If the director has substantial evidence that a person has violated or is violating a provision of sections 455B.411 to 455B.421, or of a rule or standard established or permit issued pursuant to sections 455B.411 to 455B.421:

a. The director may issue an order directing the person to desist in the practice that constitutes the violation or to take corrective action as necessary to ensure that the violation will cease. The person to whom the order is issued may commence a contested case within the meaning of chapter 17A by filing with the director within thirty days of receipt of the order a notice of appeal to the commission. On appeal, the commission may affirm, modify or vacate the order of the director.

b. If it is determined by the director that an emergency exists, the director may issue without notice or hearing an order necessary to terminate the emergency. The order shall be binding and effective immediately and until the order is modified or vacated at a hearing before the commission or by a court. "Emergency" as used in this subsection means a situation where the handling, storage, treatment, transportation or disposal of a hazardous waste is presenting an imminent and substantial threat to human health or the environment.

c. When the director determines that a disposal site contains hazardous waste in an amount and under conditions that cause an imminent threat to human health and that the person responsible for the site will not properly and promptly remove the waste or eliminate the threat, the director may take action as necessary to remove the waste or permanently alleviate or eliminate the threat to human health. The costs of removing the waste or alleviating or eliminating the threat shall be recovered from the person responsible for the disposal site.

d. The director with the approval of the commission, may request the attorney general to institute legal proceedings pursuant to subsection 2 of this section.

2. d. The land uses and the density of population in areas near the facility.

e. The density of population in areas adjacent to probable transportation routes to the facility.

f. The risk and effect of accidents during the transportation of hazardous wastes to the site.

i. The impact of the facility on the operations and responsibilities of the city and county in which the facility is proposed to be located and on cities and counties near the proposed site.

j. Local ordinances, permits, or other requirements and their relationship to the proposed facility.

k. The availability of alternative sites and methods of treatment, disposal, or storage, including cost comparisons. The cost comparisons shall cover short and long-term costs including, but not limited to, liability insurance, postclosure maintenance, monitoring of ground and surface waters, monitoring of air before and after closure, and the potential loss of land or water resources due to contamination.

l. To the maximum extent feasible a site should be located away from all of the following areas:

3. A municipality as defined in section 613A.1, subsection 1, is not liable in an action for damages arising out of the construction, operation, or maintenance of a hazardous waste facility which is licensed by the commission under this part 6 of division IV unless the municipality is responsible for or in control of the facility. However, a municipality may be subject to liability for damages caused by hazardous waste in connection with an act or omission which would otherwise subject the municipality to liability. A municipality shall not be required to pay any portion of the costs associated with the response to a release or threatened release of a hazardous waste from a facility into the land, air, or water that threatens or may threaten human health or the environment unless the municipality is responsible for or in control of the facility or unless the municipality is otherwise subject to liability under this subsection.

455B.449 Issuance of license — effect.

Issuance of a license by the commission authorizes construction of the facility on the site designated in the license according to the terms and conditions stated in the license. A license may be transferred, subject to the rules and approval of the commission, to a person who agrees and is able to comply with the terms of the license.

[81 Acts, ch 152, §9]

455B.450 Cost of proceedings.

The cost of the proceeding for the issuance of a license shall be paid by the applicant for the license until the cost exceeds nine thousand dollars. The director shall notify the applicant upon the issuance or denial of the license or upon termination of the proceeding at any point during the process of the cost of the proceeding to the applicant. These costs include the costs of providing notices, holding the hearing and the per diem of the commissioners in the proceeding for the license. Moneys collected shall be deposited in the general fund of the state.

[81 Acts, ch 152, §10]
86 Acts, ch 1245, §1899

455B.451 Further approvals prohibited — exception.

Upon the issuance of a license under this part 6 of division IV, notwithstanding any provision of law or

ordinance except statutory requirements relating to the protection of employees engaged in the construction of the facility, no further approval, permit, or license for the construction, operation, or maintenance of the facility as stated in the license shall be required. The commission may incorporate in the license the licensing requirements of a regulatory agency to the extent that those requirements are consistent with the construction and operation of the facility according to the requirements of the commission. However, this section does not limit the authority of the director under sections 455B.413 and 455B.415. A local unit of government shall not unduly restrict the transportation of hazardous waste to a facility for which a license has been issued under this part 6 of division IV.

[81 Acts, ch 152, §11]
86 Acts, ch 1245, §1899

455B.452 Single hearing — judicial review.

Notwithstanding chapter 17A:

1. Any proceeding or oral presentation held before the commission on an application for a license shall be held in lieu of any other proceeding or oral presentation required for a license or permit necessary for the construction, maintenance, or operation of a facility.

2. The issuance or denial of the license is a final agency action, and the date for determining whether any person is aggrieved or adversely affected by the action is the date of the issuance or denial of the license.

[81 Acts, ch 152, §12]

455B.453 Rules.

The commission shall adopt rules under chapter 17A necessary to implement this part 6 of division IV including but not limited to the form for an application for a license and the description of information to be furnished by the applicant.

[81 Acts, ch 152, §13]

455B.454 Penalties.

A person required to obtain a site license under this part 6 of division IV who constructs a facility without having first obtained the license is subject to a civil penalty of not more than ten thousand dollars for each violation or for each day of continuing violation. Civil penalties collected pursuant to this subsection shall be forwarded by the clerk of court to the treasurer of state for deposit in the general fund of the state.

[81 Acts, ch 152, §14]

455B.455 Surcharge imposed.

A land burial surcharge tax of two percent is imposed on the fee for land burial of a hazardous waste. The owner of the land burial facility shall remit the tax collected to the director of revenue and finance after consultation with the director according to rules that the director shall adopt. The director shall forward a copy of the site license to the director of revenue and finance which shall be the appropriate license for the collection of the land burial surcharge tax and shall be subject to suspension or revocation if the site license holder fails to collect or remit the tax collected under this section. The provisions of sections 422.25, subsection 4, 422.30, 422.48 to 422.52, 422.54 to 422.58, 422.67, 422.68, 422.69, subsection 1, and 422.70 to 422.75, consistent with the provisions of this part 6 of division IV, shall apply with respect to the taxes authorized under this part, in the same manner and with the same effect as if the land burial surcharge tax were retail sales taxes within the meaning of those statutes. Notwithstanding the provisions of this paragraph, the director shall provide for only quarterly filing of returns as prescribed in section 422.51. Taxes collected by the director of revenue and finance under this section shall be deposited in the general fund of the state.

As used in this part 7 of division IV, unless the context otherwise requires:

1. *"Hazardous waste"* means hazardous waste as defined in section 455B.411, subsection 4, and section 455B.464.

2. *"Land disposal"* means either of the following:

a. Disposal of hazardous wastes on or into the land, including, but not limited to, landfill, surface impoundment, waste piles, land spreading, and co-burial with municipal garbage.

"Land disposal" does not include long-term storage as defined in subsection 3.

3. *"Long-term storage"* means the above-ground containment of stabilized or solidified hazardous waste on a temporary basis or for a period of years in a manner that does not constitute disposal of hazardous waste.

4. *"Storage"* means the containment of a hazardous waste for a period less than one year in a manner consistent with the requirements of 42 U.S.C. § 6921-6934 as amended to January 1, 1981 and the regulations adopted pursuant to those sections.

5. *"Facility"* means facility as defined in section 455B.442, subsection 1.

6. *"Restricted waste"* means a hazardous waste or any other waste which is determined by rule of the commission to be a significant environmental burden if disposed of at a land disposal facility.

85 Acts, ch 202, §2

455B.462 Limitations on land disposal of hazardous waste.

1. A generator, recycler, transporter or other handler of hazardous waste shall not dispose of the wastes by land disposal or store wastes at an aboveground storage facility, unless all of the following conditions exist:

a. The commission determines that the best available technology is being used at the land disposal facility.

b. The handler proves to the satisfaction of the commission that there is no available alternative including above ground storage for the disposal of hazardous waste.

c. The handler utilizes methods of source reduction, recycling and destruction of hazardous waste to the extent feasible, as determined by rule.

d. The handler pretreats the hazardous waste as determined by rule.

2. The commission shall adopt rules including, but not limited to, the following:

a. To determine the criteria that industry must satisfy to show that alternatives to land disposal of hazardous wastes are not technically or economically feasible.

b. To require that all industrial and commercial owners or users of land disposal and storage sites report to the department annually the amount and content of current hazardous waste production, treatment methods used and technological advances made or pursued to implement alternatives to land disposal and source reduction.

85 Acts, ch 202, §3

455B.463 Dilution of hazardous waste.

Any hazardous waste shall be considered a restricted waste for the purposes of this part even though it is diluted to a concentration less than the listed concentration threshold by the addition of other hazardous waste or any other material during waste handling treatment or storage. Dilution which occurs as a normal part of the manufacturing process shall not be considered dilution for purposes of this section.

85 Acts, ch 202, §4

455B.464 Additional hazardous or restricted waste listed.

Notwithstanding the restriction in section 455B.420, the director shall compile, annually, a list of additional hazardous wastes for adoption by the commission pursuant to the rulemaking procedures of chapter 17A. The list shall include wastes which may be a significant environmental burden if disposed of at a land disposal facility.

85 Acts, ch 202, §5; 86 Acts, ch 1245, §1899A

455B.465 Well injection prohibited.

It is unlawful for a person to inject hazardous or restricted wastes into a well.

85 Acts, ch 202, §6

455B.466 Civil penalties.

A person who violates a provision of this part is subject to a civil penalty of not more than ten thousand dollars for each violation and for each day of continuing violation. Civil penalties collected pursuant to this section shall be forwarded by the clerk of the district court to the treasurer of state for deposit in the general fund of the state.

85 Acts, ch 202, §7

455B.467 Emergency variance.

The department may grant a variance to the restrictions or prohibition of land disposal of a hazardous waste in either of the following situations:

1. When the materials sought to be disposed of resulted from the cleanup of a hazardous condition involving a hazardous waste.

2. When the materials sought to be disposed of resulted from remediation or cleanup of abandoned or uncontrolled hazardous waste sites.

85 Acts, ch 202, §8

455B.468 Coordination with existing reporting and permitting requirements.

This part does not require the department to establish a reporting or permitting system if such a system is already established under the federal Resource Conservation and Recovery Act 42 U.S.C. § 6901 et seq. and administered and enforced through the federal environmental protection agency that achieves the objectives set out in this part. Consistent with this part, the department may establish requirements in addition to those established under the Resource Conservation Recovery Act for reporting, permitting, and enforcement. However, in such actions, the department shall avoid any redundancy in reporting, compliance, and enforcement with that provided under the Resource Conservation and Recovery Act.

Notwithstanding section 455B.420, the rules and requirements imposed under this part may be more restrictive than required by federal law or regulation.

85 Acts, ch 202, §9

455B.469 and 455B.470 Reserved.

PART 8

UNDERGROUND STORAGE TANKS

455B.471 Definitions.

As used in this part unless the context otherwise requires:

1. *"Nonoperational storage tank"* means an underground storage tank in which regulated substances will not be deposited or from which regulated substances will not be dispensed after July 1, 1985.

2. *"Operator"* means a person in control of, or having responsibility for, the daily operation of the underground storage tank.

3. *"Owner"* means:

a. In the case of an underground storage tank in

use on or after July 1, 1985, a person who owns the underground storage tank used for the storage, use, or dispensing of regulated substances.

b. In the case of an underground storage tank in use before July 1, 1985, but no longer in use on that date, a person who owned the tank immediately before the discontinuation of its use.

"Owner" does not include a person who, without participating in the management or operation of the underground storage tank or the tank site, holds indicia of ownership primarily to protect that person's security interest in the underground storage tank or the tank site property, prior to obtaining ownership or control through debt enforcement, debt settlement, or otherwise.

4. *"Regulated substance"* means an element, compound, mixture, solution or substance which, when released into the environment, may present substantial danger to the public health or welfare or the environment. Regulated substance includes substances designated in 40 C.F.R., Parts 61 and 116, and section 401.15, and petroleum including crude oil or any fraction of crude oil which is liquid at standard conditions of temperature and pressure (sixty degrees Fahrenheit and fourteen and seven-tenths pounds per square inch absolute). However, regulated substance does not include a substance regulated as a hazardous waste under the Resource Conservation and Recovery Act of 1976. Substances may be added or deleted as regulated substances by rule of the commission pursuant to section 455B.474.

5. *"Release"* means spilling, leaking, emitting, discharging, escaping, leaching, or disposing of a regulated substance, including petroleum, from an underground storage tank into groundwater, surface water, or subsurface soils.

6. *"Underground storage tank"* means one or a combination of tanks, including underground pipes connected to the tanks which are used to contain an accumulation of regulated substances and the volume of which, including the volume of the underground pipes, is ten percent or more beneath the surface of the ground. Underground storage tank does not include:

a. Farm or residential tanks of one thousand one hundred gallons or less capacity used for storing motor fuel for noncommercial purposes.

b. Tanks used for storing heating oil for consumptive use on the premises where stored.

c. Residential septic tanks.

d. Pipeline facilities regulated under the Natural Gas Pipeline Safety Act of 1968, as amended to January 1, 1985 (49 U.S.C. § 1671 et seq.), the Hazardous Liquid Pipeline Safety Act of 1979, as amended to January 1, 1985 (49 U.S.C. § 2001 et seq.), or an intrastate pipeline facility regulated under chapter 479.

e. A surface impoundment, pit, pond, or lagoon.

f. A storm water or wastewater collection system.

g. A flow-through process tank.

h. A liquid trap or associated gathering lines directly related to oil or gas production and gathering operations.

i. A storage tank situated in an underground area including, but not limited to, a basement, cellar, mineworking, drift, shaft, or tunnel if the storage tank is situated upon or above the surface of the floor.

Underground storage tank does not include pipes connected to a tank described in paragraphs *"a"* to *"i"*.

7. *"Tank site"* means a tank or grouping of tanks within close proximity of each other located on the facility for the purpose of storing regulated substances.

8. *"Board"* means the Iowa comprehensive petroleum underground storage tank fund board.

9. *"Corrective action"* means an action taken to minimize, eliminate, or clean up a release to protect the public health and welfare or the environment. Corrective action includes, but is not limited to, excavation of an underground storage tank for the purpose of repairing a leak or removal of a tank, removal of contaminated soil, disposal or processing of contaminated soil, and cleansing of groundwaters or surface waters. Corrective action does not include replacement of an underground storage tank. Corrective action specifically excludes third-party liability.

10. *"Fund"* means the Iowa comprehensive petroleum underground storage tank fund.

11. *"Petroleum"* means petroleum, including crude oil or any fraction of crude oil which is liquid at standard conditions of temperature and pressure (sixty degrees Fahrenheit and fourteen and seven-tenths pounds per square inch absolute).

85 Acts, ch 162, §1; 89 Acts, ch 131, §33-35

Section 455B.471, Code 1985, transferred to §455B.491 in Code Supplement 1985

455B.472 Declaration of policy.

The general assembly finds that the release of regulated substances from underground storage tanks constitutes a threat to the public health and safety and to the natural resources of the state, and that existing regulatory programs of the department and other agencies do not adequately or appropriately address this substantial public concern.

85 Acts, ch 162, §2

455B.473 Report of existing and new tanks — fee.

1. Except as provided in subsection 2, the owner or operator of an underground storage tank existing on or before July 1, 1985, shall notify the department in writing by May 1, 1986, of the existence of each tank and specify the age, size, type, location and uses of the tank.

2. The owner of an underground storage tank taken out of operation between January 1, 1974 and July 1, 1985, shall notify the department in writing by July 1, 1986, of the existence of the tank unless the owner knows the tank has been removed from the ground. The notice shall specify to the extent

known to the owner, the date the tank was taken out of operation, the age of the tank on the date taken out of operation, the size, type and location of the tank, and the type and quantity of substances left stored in the tank on the date that it was taken out of operation.

3. An owner or operator which brings into use an underground storage tank after July 1, 1985, shall notify the department in writing within thirty days of the existence of the tank and specify the age, size, type, location and uses of the tank.

4. An owner or operator of a storage tank described in section 455B.471, subsection 6, paragraph *"a"*, which brings the tank into use after July 1, 1987, shall notify the department of the existence of the tank within thirty days. The registration of the tank shall be accompanied by a fee of ten dollars to be deposited in the storage tank management account. A tank which is existing before July 1, 1987, shall be reported to the department by July 1, 1989. Tanks under this section installed on or following July 1, 1987, shall comply with underground storage tank regulations adopted by rule by the department.

5. The notice of the owner or operator to the department under subsections 1 through 3 shall be accompanied by a fee of ten dollars for each tank included in the notice. All moneys collected shall be deposited in the storage tank management account of the groundwater protection fund created in section 455E.11. All moneys collected pursuant to this section prior to July 1, 1987, which have not been expended, shall be deposited in the storage tank management account.

6. Subsections 1 to 3 do not apply to an underground storage tank for which notice was given pursuant to section 103, subsection c, of the Comprehensive Environmental Response, Compensation and Liabilities Act of 1980.

7. A person who deposits a regulated substance in an underground storage tank shall notify the owner or operator in writing of their notification requirements pursuant to this section.

8. A person who sells a tank intended to be used as an underground storage tank shall notify the purchaser of the tank in writing of the owner's notification requirements pursuant to this section.

9. It shall be unlawful to deposit a regulated substance in an underground storage tank which has not been registered pursuant to subsections 1 through 6.

The department shall furnish the owner or operator of an underground storage tank with a registration tag for each underground storage tank registered with the department. The owner or operator shall affix the tag to the fill pipe of each registered underground storage tank. A person who conveys or deposits a regulated substance shall inspect the underground storage tank to determine the existence or absence of the registration tag. If a registration tag is not affixed to the underground storage tank fill pipe, the person conveying or depositing the regulated substance may deposit the regulated substance in the unregistered tank provided that the deposit is allowed only in the single instance, that the person reports the unregistered tank to the department of natural resources, and that the person provides the owner or operator with an underground storage tank registration form and informs the owner or operator of the underground storage tank registration requirements. The owner or operator is allowed fifteen days following the report to the department of the owner's or operator's unregistered tank to comply with the registration requirements. If an owner or operator fails to register the reported underground storage tank during the fifteen-day period, the owner or operator shall pay a fee of twenty-five dollars upon registration of the tank.

85 Acts, ch 162, §3; 87 Acts, ch 225, §604, 605

455B.473A Petroleum underground storage tank registration amnesty program.

A petroleum underground storage tank required to be registered under section 455B.473, which has not been registered prior to July 1, 1988, may be registered under the following conditions:

1. The tank registration fee under section 455B.473, subsection 5, shall accompany the registration.

2. The storage tank management fee of fifteen dollars per tank under section 455B.479 shall be paid for past years in which the tank should have been registered.

If a tank is registered under this section on or prior to October 1, 1989, penalties under section 455B.477 shall be waived.

88 Acts, ch 1244, §3

455B.474 Duties of commission — rules.

The commission shall adopt rules pursuant to chapter 17A relating to:

1. Release detection, prevention, and correction as may be necessary to protect human health and the environment, applicable to all owners and operators of underground storage tanks. The rules shall include, but are not limited to, requirements for:

a. Maintaining a leak detection system, an inventory control system with a tank testing, or a comparable system or method designed to identify releases in a manner consistent with the protection of human health and the environment.

b. Maintaining records of any monitoring or leak detection system, inventory control system, or tank testing or comparable system.

c. Reporting of any releases and corrective action taken in response to a release from an underground storage tank.

d. Taking corrective action in response to a release or threatened release from an underground storage tank including appropriate testing of drinking water which may be contaminated by the release. The corrective action rules shall enable the director to order an owner or operator to immediately take all corrective actions deemed reasonable and necessary by the director.

e. The closure of tanks to prevent any future re-

lease of a regulated substance into the environment. If consistent with federal environmental protection agency technical standard regulations, state tank closure rules shall include, at the tank owner's election, an option to fill the tank with an inert material. Removal of a tank shall not be required if the tank is filled with an inert material pursuant to department of natural resources rules. A tank closed, or to be closed and which is actually closed, within one year of May 13, 1988, shall be required to complete monitoring or testing as required by the department to ensure that the tank did not leak prior to closure, but shall not be required to have a monitoring system installed.

f. Assessment plans for taking required release corrective action. The department shall mail a copy of the approved release assessment plan to the owner or operator of an underground storage tank; the copy mailed to the owner or operator shall be in addition to any copies provided to a contractor or agent of the owner or operator.

g. Specifying an adequate monitoring system to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources for regulated tanks installed prior to January 14, 1987. The effective date of the rules adopted shall be January 14, 1989. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted. Unless the federal environmental protection agency adopts final rules to the contrary, rules adopted pursuant to this section shall not apply to hydraulic lift reservoirs, such as for automobile hoists and elevators, containing hydraulic oil.

In adopting the rules under this subsection, the commission may distinguish between types, classes, and ages of underground storage tanks. In making the distinctions, the commission may take into consideration factors including, but not limited to, location of the tanks, compatibility of a tank material with the soil and climate conditions, uses of the tanks, history of maintenance, age of the tanks, current industry recommended practices, national consensus codes, hydrogeology, water table, size of the tanks, quantity of regulated substances periodically deposited in or dispensed from the tank, the degree of risk presented by the regulated substance, the technical and managerial capability of the owners and operators, and the compatibility of the regulated substance and the materials of which the underground storage tank is fabricated.

The department may issue a variance, which includes an enforceable compliance schedule, from the mandatory monitoring requirement for an owner or operator who demonstrates plans for tank removal, replacement, or filling with an inert material pursuant to a department approved variance. A variance may be renewed for just cause.

2. The maintenance of evidence of financial responsibility as the director determines to be feasible and necessary for taking corrective action and for compensating third parties for bodily injury and property damage caused by release of a regulated substance from an underground storage tank.

a. Financial responsibility required by this subsection may be established in accordance with rules adopted by the commission by any one, or any combination, of the following methods: insurance, guarantee, surety bond, letter of credit, or qualification as a self-insurer. In adopting requirements under this subsection, the commission may specify policy or other contractual terms, conditions, or defenses which are necessary or are unacceptable in establishing the evidence of financial responsibility.

A person who establishes financial responsibility by self-insurance shall not require or shall not enforce an indemnification agreement with an operator or owner of the tank covered by the self-insurance obligation, unless the owner or operator has committed a substantial breach of a contract between the self-insurer and the owner or operator, and that substantial breach relates directly to the operation of the tank in an environmentally sound manner. This paragraph applies to all contracts between a self-insurer and an owner or operator entered into on or after May 5, 1989.

b. If the owner or operator is in bankruptcy, reorganization, or arrangement pursuant to the federal bankruptcy law or if jurisdiction in any state court or federal court cannot be obtained over an owner or operator likely to be solvent at the time of judgment, any claim arising from conduct for which evidence of financial responsibility must be provided under this subsection may be asserted directly against the guarantor providing the evidence of financial responsibility. In the case of action pursuant to this paragraph, the guarantor is entitled to invoke all rights and defenses which would have been available to the owner or operator if an action had been brought against the owner or operator by the claimant and which would have been available to the guarantor if an action had been brought against the guarantor by the owner or operator.

c. The total liability of a guarantor shall be limited to the aggregate amount which the guarantor has provided as evidence of financial responsibility to the owner or operator under this subsection. This subsection does not limit any other state or federal statutory, contractual, or common law liability of a guarantor to its owner or operator including, but not limited to, the liability of the guarantor for bad faith in negotiating or in failing to negotiate the settlement of any claim. This subsection does not diminish the liability of any person under section 107 or 111 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 or other applicable law.

d. For the purpose of this subsection, the term "guarantor" means any person, other than the owner or operator, who provides evidence of financial responsibility for an owner or operator under this subsection.

e. If an owner or operator is required to uncover or remove an underground storage tank based upon a determination of the department that the underground storage tank presents a hazard to the public health, safety, or the environment, and if upon inspection of the tank the determination is unfounded, the state may reimburse reasonable costs incurred in the inspection of the tank. Claims for reimbursement shall be filed on forms provided by the commission. The commission shall adopt rules pursuant to chapter 17A relating to determinations of reasonableness in approval or rejection of claims in cases of dispute. Claims shall be paid from the general fund of the state. When any one of the tanks or the related pumps and piping at a multiple tank facility are found to be leaking, the state shall not reimburse costs for uncovering or removing any of the other tanks, piping, or pumps that are not found to be leaking.

3. Standards of performance for new underground storage tanks which shall include, but are not limited to, design, construction, installation, release detection, and compatibility standards. Until the effective date of the standards adopted by the commission and after January 1, 1986, a person shall not install an underground storage tank for the purpose of storing regulated substances unless the tank (whether of single or double wall construction) meets all the following conditions:

a. The tank will prevent release due to corrosion or structural failure for the operational life of the tank.

b. The tank is cathodically protected against corrosion, constructed of noncorrosive material, steel clad with a noncorrosive material, or designed in a manner to prevent the release or threatened release of any stored substance.

c. The material used in the construction or lining of the tank is compatible with the substance to be stored. If soil tests conducted in accordance with A.S.T.M., standard G 57-78 or another standard approved by the commission show that soil resistivity in an installation location is twelve thousand ohm/cm or more (unless a more stringent soil resistivity standard is adopted by rule of the commission), a storage tank without corrosion protection may be installed in that location until the effective date of the standards adopted by the commission and after January 1, 1986.

d. Rules adopted by the commission shall specify adequate monitoring systems to detect the presence of a leaking underground storage tank and to provide for protection of the groundwater resources from regulated tanks installed after January 14, 1987. In the event that federal regulations are adopted by the United States environmental protection agency after the commission has adopted state standards pursuant to this subsection, the commission shall immediately proceed to adopt rules consistent with those federal regulations adopted. Tanks installed on or after January 14, 1987, shall continue to be considered new tanks for purposes of this chapter and are subject to state monitoring requirements unless federal requirements are more restrictive.

4. The form and content of the written notices required by section 455B.473.

5. The duties of owners or operators of underground storage tanks to locate and abate the source of release of regulated substances, when in the judgment of the director, the local hydrology, geology and other relevant factors reasonably include a tank as a potential source.

6. Reporting requirements necessary to enable the department to maintain an accurate inventory of underground storage tanks.

7. Designation of regulated substances subject to this part, consistent with section 455B.471, subsection 4. The rules shall be at least as stringent as the regulations of the federal government pursuant to section 311, subsection b, paragraph 2, subparagraph A of the federal Water Pollution Control Act, 33 U.S.C. § 1321(b)(2)(A), pursuant to section 102 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. § 9602, pursuant to section 307, subsection a of the federal Water Pollution Control Act, 33 U.S.C. § 1317(a), pursuant to section 112 of the Clean Air Act, 42 U.S.C. § 7412, or pursuant to section 7 of the Toxic Substances Control Act, 15 U.S.C. § 2606.

The rules adopted by the commission under this section shall be consistent with and shall not exceed the requirements of federal regulations relating to the regulation of underground storage tanks except as provided in subsection 1, paragraph *"f"* and subsection 3, paragraph *"d"*. It is the intent of the general assembly that state rules adopted pursuant to subsection 1, paragraph *"f"* and subsection 3, paragraph *"d"* be consistent with and not more restrictive than federal regulations adopted by the United States environmental protection agency when those rules are adopted.

455B.475 Duties and powers of the director.

The director shall:

1. Inspect and investigate the facilities and records of owners and operators of underground storage tanks as may be necessary to determine compliance with this part and the rules adopted pursuant to this part. An inspection or investigation shall be concluded subject to section 455B.103, subsection 4. For purposes of developing a rule, maintaining an accurate inventory or enforcing this part, the department may:

a. Enter at reasonable times any establishment or other place where an underground storage tank is located.

b. Inspect and obtain samples from any person of a regulated substance and conduct monitoring or testing of the tanks, associated equipment, contents or surrounding soils, air, surface water and groundwater. Each inspection shall be commenced and completed with reasonable promptness.

(1) If the director obtains a sample, prior to leaving the premises, the director shall give the owner, operator, or agent in charge a receipt describing the sample obtained and if requested a portion of each sample equal in volume or weight to the portion retained. If the sample is analyzed, a copy of the results of the analysis shall be furnished promptly to the owner, operator, or agent in charge.

(2) Documents or information obtained from a person under this subsection shall be available to the public except as provided in this subparagraph. Upon a showing satisfactory to the director by a person that public disclosure of documents or information, or a particular part of the documents or information to which the director has access under this subsection would divulge commercial or financial information entitled to protection as a trade secret, the director shall consider the documents or information or the particular portion of the documents or information confidential. However, the document or information may be disclosed to officers, employees or authorized representatives of the United States charged with implementing the federal Solid Waste Disposal Act, to employees of the state of Iowa or of other states when the document or information is relevant to the discharge of their official duties, and when relevant in any proceeding under the federal Solid Waste Disposal Act or this part.

PART 9

WASTE MANAGEMENT AUTHORITY

Legislative findings and purpose; 87 Acts, ch 180, § 2

455B.480 Short title.

This part may be cited as the *"Waste Management Authority Act"*.

87 Acts, ch 180, §1

455B.481 Waste management policy.

The purpose of this part is to promote the proper and safe storage, treatment, and disposal of solid, hazardous, and low-level radioactive wastes in Iowa. The management of these wastes generated within Iowa is the responsibility of Iowans. It is the intent of the general assembly that Iowans assume this responsibility to the extent consistent with the protection of public health, safety, and the environment, and that Iowans insure that waste management practices, as alternatives to land disposal, including source reduction, recycling, compaction, incineration, and other forms of waste reduction, are employed.

It is also the intent of the general assembly that a comprehensive waste management plan be established by the waste management authority which includes: the determination of need and adequate regulatory controls prior to the initiation of site selection; the process for selecting a superior site determined to be necessary; the establishment of a process for a site community to submit or present data, views, or arguments regarding the selection of the operator and the technology that best ensures proper facility operation; the prohibition of shallow land burial of hazardous and low-level radioactive wastes; the establishment of a regulatory framework for a facility; and the establishment of provisions for the safe and orderly development, operation, closure, postclosure, and long-term monitoring and maintenance of the facility.

In order to meet capacity assurance requirements of section 104k of the federal Superfund Amendments and Reauthorization Act of 1986, Pub. L. No. 99-499, and further the objectives of waste minimization, the department, in cooperation with the small business assistance center at the university of northern Iowa, shall work with generators of hazardous wastes in the state to develop and implement aggressive waste minimization programs. The goal of these programs is to reduce the volume of hazardous waste generated in the state as a whole by twenty-five percent of the amount generated as of January 1, 1987, as reported in the biennial reports collected by the United States environmental protection agency. The twenty-five percent reduction goal shall be reached as expeditiously as possible and no later than July 1, 1994. In meeting the reduction goal, elements *"a"* through *"d"* of the hazardous waste management hierarchy shall be utilized. The department, in cooperation with the small business assistance center, shall reassess the twenty-five percent reduction goal in 1994. The department shall promote research and development, provide and promote educational and informational programs, promote and encourage voluntary technical assistance to hazardous waste generators, promote assistance by the small business assistance center, and promote other activities by the public and private sectors that support this goal. In the promotion of the goal, the following hazardous waste management hierarchy, in descending order of preference, is established by the department:

a. Source reduction for waste elimination.
b. On-site recycling.
c. Off-site recycling.
d. Waste treatment.
e. Incineration.
f. Land disposal.

Additionally, the department shall establish and distribute to generators a listing of hazardous waste materials which are currently being recycled. The department shall require that each hazardous waste generator in the state submit, with the biennial report submitted to the United States environmental protection agency, a report of hazardous waste materials currently designated as recyclable by the department which are not being recycled by the generator. The report shall include the reason why the generator is not recycling such products. A small generator which does not submit a biennial report to the United States environmental protection agency, shall provide the information required to be submitted under this paragraph on a form provided by the department, with the submittal of the small generator's hazardous waste permit fee.

The department shall consult with representatives of industries which generate hazardous waste and shall make recommendations to the general assembly by January 1, 1991, concerning the possible application of a front-end fee for substances which will result in the generation of hazardous waste, the role of state government in assisting the private sector in establishing permanent, on-site, internal audit functions, and other measures which state government may initiate to encourage and assist generators of hazardous waste in reducing the hazardous waste generated.

Upon request, the department shall assist in locating suitable sites for the location of a facility. The commission may purchase or condemn land to be leased or used for the operation of a facility subject to chapter 471. Consideration for a contract for purchase of land shall not be in excess of funds appropriated by the general assembly for that purpose. The commission may lease land purchased under this section to any person including the state or a state agency. This section authorizes the state to own or operate hazardous waste facilities and low-level radioactive waste facilities, subject to the approval of the general assembly.

The terms of the lease or contract shall establish responsibility for long-term monitoring and maintenance of the site. The commission shall require that the lessee or operator post bond or provide proof of sufficient insurance coverage, as determined by the commission to be reasonably necessary to protect the state against liabilities arising from the storage of wastes, abandonment of the facility, facility accidents, failure of the facility, or other liabilities which may arise.

Facilities acquired or operated pursuant to this section may be used for regional, statewide or multistate management of wastes.

Facilities acquired or operated pursuant to this section shall not be used for the purpose of shallow land burial of wastes as a means of disposal.

An operator of a facility acquired or operated pursuant to this section shall require that a person, prior to the use of the facility, submit proof that reasonable and good faith measures have been taken to reduce the generation of waste.

A hazardous waste facility acquired or operated pursuant to this section shall be operated in accordance with the following schedule:

1. The initial fee paid by a person depositing hazardous waste at the facility shall be increased by ten percent per ton upon receipt of twenty-five percent of the waste capacity of the facility.

2. The initial fee paid by a person depositing hazardous waste at the facility shall be increased by twenty-five percent per ton upon receipt of fifty percent of the waste capacity of the facility.

3. Upon receipt of fifty percent of the waste capacity of the facility, the receipt of waste shall be limited to hazardous waste generated within the state of Iowa. If an agreement has been established between the owner or operator of the hazardous waste facility and an out-of-state generator of hazardous waste, this limitation is null and void.

A sanitary landfill, other than a designated facility which is a sanitary landfill, shall not accept underground storage tanks for disposal after the date on which at least two facilities have been designated by the waste management authority pursuant to this section. A commercial scrap metal dealer or recycler may accept a tank for processing. The Iowa comprehensive petroleum underground storage tank fund may compensate a designated facility for all or a portion of the costs associated with processing or disposal of a tank delivered to the facility for final disposal pursuant to this section, if the department of natural resources determines that alternative satisfactory disposal options for used storage tanks do not then exist. A commercial scrap metal dealer or recycler may be a designated facility. A designated facility shall not charge a fee to an owner or operator of the underground storage tank as a condition of acceptance. The waste management authority shall adopt rules as necessary to govern the processing and disposal of underground storage tanks by a designated facility.

d. "Cultures and stocks of infectious agents" means specimen cultures collected from medical and pathological laboratories, cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biological agents, discarded live and attenuated vaccines, and culture dishes and devices used to transfer, inoculate, or mix cultures.

e. "Human blood and blood products" means human serum, plasma, other blood components, bulk blood, or containerized blood in quantities greater than twenty milliliters.

f. "Pathological waste" means human tissues and body parts that are removed during surgery or autopsy.

455D.1 Definitions.

As used in this chapter unless the context otherwise requires:

1. *"Commission"* means the environmental protection commission.
2. *"Department"* means the department of natural resources created pursuant to section 455A.2.
3. *"Deposit"* means the amount paid by the consumer to the retailer at the time of initial purchase that is intended to encourage the return of materials or containers and which is returned in full to the consumer when the used material or container is redeemed.
4. *"Director"* means the director of the department.
5. *"Rebate"* means the portion of the amount paid by the consumer to the retailer at the time of initial purchase that is returned to the consumer when the used material or container is returned for disposal.
6. *"Recycling"* means any process by which waste, or materials which would otherwise become waste, are collected, separated, or processed and revised or returned to use in the form of raw materials or products. *"Recycling"* includes but is not limited to the composting of yard waste which has been previously separated from other waste, but does not include any form of energy recovery.
7. *"Waste abatement fee"* means the amount paid by the consumer to the retailer at the time of initial purchase of a product that is intended to support the cost of proper disposal.
8. *"Waste reduction"* means practices which reduce, avoid, or eliminate both the generation of solid waste and the use of toxic materials so as to reduce risks to health and the environment and to avoid, reduce, or eliminate the generation of wastes or environmental pollution at the source and not merely achieved by shifting a waste output or waste stream from one environmental medium to another environmental medium.

89 Acts, ch 272, §1

455D.2 Findings.

The general assembly finds that:

1. Iowa's environment is precious and no person has the right to pollute Iowa's air, water, or soil. The environment is vulnerable and irreplaceable, and all Iowans have an ongoing responsibility to conserve, preserve, and enhance the state's natural resources to guarantee their continued existence and use by the present and future generations.
2. The land itself is the source of Iowa's livelihood not only for the purposes of an agricultural economy, but for the establishment of manufacturing plants, business offices, and residences. While zoning establishes restrictions on the use of land for social order, a similar system has not been established to maintain environmental order below the ground. Protection of the environment includes not only visible but invisible threats as well.
3. The rapidly rising volume of waste deposited by society threatens the capacity of existing and future landfills. The nature of waste disposal today means that unknown quantities of potentially toxic and hazardous materials are being buried and pose a constant threat to the groundwater supply. In addition, the nature of the waste and disposal methods utilized allow the waste to remain basically inert for decades, if not centuries, without decomposition.
4. Wastes filling Iowa's landfills may, at best, represent a potential resource. However, without proper management, wastes are hazards to the environment and life itself.
5. The reduction of solid waste at the source and the recycling of reusable waste materials will reduce the flow of waste to sanitary landfills and increase the supply of reusable materials for the use of the public.

89 Acts, ch 272, §2

455D.3 Goal.

The goal of the state is to reduce the amount of materials in the waste stream, existing as of July 1, 1988, twenty-five percent by July 1, 1994, and fifty percent by July 1, 2000, through the practice of waste volume reduction at the source and through recycling. For the purposes of this section, *"waste stream"* means the disposal of solid waste as *"solid waste"* is defined in section 455B.301. In determination of the reduction level of the waste stream, it shall be considered that each person currently generates three and one-half pounds of waste per day, and that this amount shall be reduced by the percentages indicated in order to preserve the health and safety of all Iowans.

89 Acts, ch 272, §3

455D.4 Waste volume reduction policies.

1. It is the policy of this state to encourage the development of waste volume reduction programs and education at the local government level through incentives, technical assistance, grants, and other practical measures.
2. It is the policy of this state to support and encourage the development of new uses and markets for recycled goods, placing emphasis on the development, in Iowa, of businesses relating to waste reduction and recycling.
3. The provision of education concerning waste volume reduction at the elementary through high school levels and through community organizations will enhance the success of local programs requiring public involvement.
4. This state supports and encourages manufacturing methods which are environmentally sustainable, technologically safe, and ecologically sound. The state shall encourage manufacturing methods which enhance waste reduction by creating products with longer usage life, and by creating products which are adaptable to secondary uses, require less input material, and decrease resource consumption.
5. The people of this state recognize that a variety of benefits result from a comprehensive waste re-

duction policy including the following environmental, economic, governmental, and public benefits:

a. Not producing waste in the first instance is the most certain means for avoiding the widely recognized health and environmental damage associated with waste. Although waste reduction will never eliminate all wastes, to the extent that waste reduction is achieved it results in the most certain form of direct risk reduction.

b. Waste reduction may result in reduced pollution control costs for industry by stimulating and promoting beneficial technological and management reorganization within industry in place of pollution control strategies which channel capital into nonproductive pollution control expenditures.

c. The government is better able to administer programs which offer a variety of benefits to industry and which reduce the overall cost of government involvement than it is to administer programs which offer few benefits to industry and require increasingly extensive, complex, and costly governmental actions.

d. Public confidence in environmental policies of the government is important for the effectiveness of these policies. Waste reduction poses no adverse environmental and public health effects and does not, therefore, lead to increased public concern. Waste reduction also increases the public confidence that the government and industry are doing all that is possible to protect human health and the environment.

89 Acts, ch 272, §4

455D.5 Statewide waste reduction and recycling network — established.

1. The department shall establish a statewide waste reduction and recycling network to promote the waste management policy contained in section 455B.481 and the waste management hierarchy contained in section 455B.301A. Programs established shall encourage waste generators to reduce the volume of waste generated and to recycle or properly dispose of the waste that is generated. The network shall utilize existing recycling companies when possible. The programs may utilize financial and legal incentives, education, technical assistance, regulation, and other methods as appropriate to implement the programs. The programs may involve the development of public and private sector initiatives, the development of markets and other opportunities for waste reduction and recycling, and other related efforts.

2. The elements of the network shall include but are not limited to all of the following:

a. Promotion of efforts to increase the amount of recyclable materials used by the public.

b. Promotion of efforts to recover recyclable materials from the waste stream.

c. Promotion of local efforts to implement recycling collection centers located at disposal sites or other convenient local sites.

d. Promotion of local efforts of curbside collection of separated recyclable waste materials.

e. Provision of public education programs which promote public awareness of waste volume reduction and the use of recyclable materials.

f. Promotion of the creation of markets for recyclable materials.

g. Promotion of research, manufacturing processes, and product development, which provide for waste reduction through decreased material input, and resource consumption.

h. Promotion of the concentration of the efforts of the business and industry resource search service by the small business assistance center for the safe and economic management of solid waste and hazardous substances at the university of northern Iowa, to locate existing waste streams and materials from businesses and industries which generate small amounts of waste and to catalyze the reuse of these materials in the production of goods and services.

3. The department, in cooperation with businesses involved in the manufacturing and use of polystyrene packaging products or food service items, shall establish and implement a recycling demonstration project utilizing these items by July 1, 1991. The department shall submit a report of the results of the project to the general assembly by January 1, 1992.

89 Acts, ch 272, §5

455D.6 Duties of the director.

The director shall:

1. Unless otherwise specified in this chapter, recommend rules to the commission which are necessary to implement this chapter. Initial recommendations shall be made to the commission no later than July 1, 1991.

2. Seek, receive, and accept funds in the form of appropriations, grants, awards, wills, bequests, endowments, and gifts for deposit in the waste reduction and recycling trust fund to be used for programs relating to the duties of the department under this chapter.

3. Administer and coordinate the waste volume reduction and recycling fund created under section 455D.15.

4. Enter into contracts and agreements, with the approval of the commission, for contracts in excess of twenty-five thousand dollars, with local units of government, other state agencies, governments of other states, governmental agencies of the United States, other public and private contractors, and other persons as may be necessary or beneficial in carrying out the department's duties under this chapter.

5. Submit a report to the general assembly on or before July 1, 1990, that characterizes the solid waste stream in Iowa and that contains a strategy for managing each major component of the waste stream. The strategy shall describe the actions necessary to assure that each segment of the waste stream is managed according to the highest appropriate priority of the waste management hierarchy.

6. Develop a strategy and recommend to the

commission the adoption of rules necessary to implement a strategy for white goods and waste oil by January 1, 1990.

7. Provide financial assistance through expenditure of the waste volume reduction and recycling fund to public and private entities to promote and enable the development and implementation of markets and industries in Iowa that will support and complement the state's waste reduction and recycling programs.

8. Study the technology available for the reclamation and recycling of refrigerant, including the findings of nationwide industry surveys, and make recommendations concerning whether or not all persons providing refrigerator or air conditioner repair services should own or have access to refrigerant reclamation or recycling machinery.

9. Identify products made from recycled or recovered materials and provide a list of these products to the department of general services and to all other state agencies to assist in the development and review of procurement specifications. The director shall also develop, in cooperation with the director of the department of general services, a program to promote the procurement of listed products and seek information from state agencies using products containing recycled or recovered materials to evaluate their performance. The program shall also provide that the director seek information from suppliers regarding product performance and recovered material content of products offered for sale. Based on the above evaluation, and information regarding the recyclability of the components of products and their longevity, and, where applicable, the energy efficiency of such products, the department shall publish information on recommended products for procurement. This information shall be provided to all state agencies as well as city and county purchasing agencies.

89 Acts, ch 272, §6

455D.7 Duties of the commission.

The commission shall:

1. Unless otherwise specified in this chapter, adopt rules necessary to implement this chapter pursuant to chapter 17A. Initial rules shall be adopted no later than April 1, 1992.

2. Prohibit land disposal of specific components of the waste stream for which the department has developed and implemented a strategy for alternative disposal according to the waste management hierarchy.

3. Establish by rule standards for the acceptance of recyclable or rebatable products at redemption centers. The standards may address matters of public health and handling by the redemption center.

4. Recommend to the general assembly, annually, the imposition of waste abatement fees, rebates, and deposits.

89 Acts, ch 272, §7

455D.8 Deposits, rebates, and waste abatement fees.

The commission shall recommend to the general assembly, annually, deposits, rebates, and waste abatement fees on elements of the waste stream when necessary to encourage waste reduction, and the recycling and recovery of useful components of that waste stream element, or to encourage proper management and disposal of components that cannot be recycled or recovered. In making these recommendations, the commission shall not recommend the imposition of a deposit, rebate, or waste abatement fee on an element that is being properly managed through a market-driven or publicly supported recycling, recovery, or source separation program. The commission shall recommend to the general assembly that a deposit, rebate, or waste abatement fee is removed from an element of the waste stream when the commission determines that market forces will ensure that the element is recycled, recovered, or properly managed and disposed.

89 Acts, ch 272, §8

455D.9 Land disposal of yard waste — prohibited.

1. Beginning January 1, 1991, land disposal of yard waste as defined by the department is prohibited. However, yard waste which has been separated at its source from other solid waste may be accepted by a sanitary landfill for the purposes of soil conditioning or composting.

2. The department shall assist local communities in the development of collection systems for yard waste generated from residences and shall assist in the establishment of local composting facilities. Within one hundred twenty days of the adoption of rules by the department regarding yard waste, each city and county shall, by ordinance, require persons within the city or county to separate yard waste from other solid waste generated. Municipalities which provide a collection system for solid waste shall provide for a collection system for yard waste which is not composted.

3. The department shall develop rules which define yard waste and provide for the safe and proper method of composting.

4. State and local agencies responsible for the maintenance of public lands in the state shall give preference to the use of composted materials in all land maintenance activities.

5. This section does not prohibit the use of yard waste as land cover or as soil conditioning material.

6. This section prohibits the incineration of yard waste at a sanitary disposal project.

a. The management of solid waste can pose a wide range of hazards to public health and safety and to the environment.

b. Packaging comprises a significant percentage of the overall solid waste stream.

c. The presence of heavy metals in packaging is a concern in light of the likely presence of heavy metals in emissions or ash when packaging is incinerated or in leachate when packaging is landfilled.

d. Lead, mercury, cadmium, and hexavalent chromium, on the basis of available scientific and medical evidence, are of particular concern.

e. It is desirable as a first step in reducing the toxicity of packaging waste to eliminate the addition of heavy metals to packaging.

f. The intent of the general assembly is to achieve reduction in toxicity without impeding or discouraging the expanded use of postconsumer materials in the production of packaging and its components.

2. As used in this section unless the context otherwise requires:

a. *"Distributor"* means a person who takes title to products or packaging purchased for resale.

No later than July 1, 1992, a manufacturer or distributor shall not offer for sale or sell, or offer for promotional purposes a package or packaging component, in this state, which includes, in the package itself, or in any packaging component, inks, dyes, pigments, adhesives, stabilizers, or any other additives, any lead, cadmium, mercury, or hexavalent chromium which has been intentionally introduced as an element during manufacturing or distribution as opposed to the incidental presence of any of these elements and which exceed the concentration level established by the department.

4. No later than July 1, 1992, a manufacturer or distributor shall not offer for sale or sell, or offer for promotional purposes, in this state, a product in a package which includes in the package itself or in any of the packaging components, inks, dyes, pigments, adhesives, stabilizers, or any other additives, any lead, cadmium, mercury, or hexavalent chromium which has been intentionally introduced as an element during manufacturing or distribution as opposed to the incidental presence of any of these elements and which exceed the concentration level established by the department.

5. The concentration levels of lead, cadmium, mercury, and hexavalent chromium present in a package or packaging component shall not exceed the following:

a. Six hundred parts per million by weight by July 1, 1992.

b. Two hundred fifty parts per million by weight by July 1, 1993.

c. One hundred parts per million by weight by July 1, 1994.

The department may grant a two year exemption, if warranted, by the circum-

stances, and an exemption may, upon meeting either criterion of this paragraph be renewed for two years. For purposes of this paragraph, a use for which there is no feasible alternative is one in which the regulated substance is essential to the protection, safe handling, or function of the package's contents.

Packages and packaging components that would not exceed the maximum contaminant levels established but for the addition of postconsumer materials.

7. By July 1, 1992, a manufacturer or distributor of packaging or packaging components shall make available to purchasers, to the department, and to the general public upon request, certificates of compliance which state that the manufacturer's or distributor's packaging or packaging components comply with, or are exempt from, the requirements of this section.

If the manufacturer or distributor of the package or packaging component reformulates or creates a new package or packaging component, the manufacturer or distributor shall provide an amended or new certificate of compliance for the reformulated or new package or packaging component.

8. The commission shall adopt rules to implement this section and report to the general assembly on the effectiveness of this section no later than forty-two months following July 1, 1990, and recommend any other toxic substances contained in packaging to be added to the list in order to further reduce the toxicity of packaging waste.

455E.1 Title.

This chapter shall be known and may be cited as the "Groundwater Protection Act".

87 Acts, ch 225, §101

455E.2 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Active cleanup"* means removal, treatment, or isolation of a contaminant from groundwater through the directed efforts of humans.

2. *"Commission"* means the environmental protection commission created under section 455A.6.

3. *"Contaminant"* means any chemical, ion, radionuclide, synthetic organic compound, microorganism, waste, or other substance which does not occur naturally in groundwater or which naturally occurs at a lower concentration.

4. *"Contamination"* means the direct or indirect introduction into groundwater of any contaminant caused in whole or in part by human activities.

5. *"Department"* means the department of natural resources created under section 455A.2.

6. *"Director"* means the director of the department.

7. *"Groundwater"* means any water of the state, as defined in section 455B.171, which occurs beneath the surface of the earth in a saturated geological formation of rock or soil.

8. *"Passive cleanup"* means the removal or treatment of a contaminant in groundwater through management practices or the construction of barriers, trenches, and other similar facilities for prevention of contamination, as well as the use of natural processes such as groundwater recharge, natural decay, and chemical or biological decomposition.

87 Acts, ch 225, §102

455E.3 Findings.

The general assembly finds that:

1. Groundwater is a precious and vulnerable natural resource. The vast majority of persons in the state depend on groundwater as a drinking water source. Agriculture, commerce, and industry also depend heavily on groundwater. Historically, the majority of Iowa's groundwater has been usable for

these purposes without treatment. Protection of groundwater is essential to the health, welfare, and economic prosperity of all citizens of the state.

2. Many activities of humans, including the manufacturing, storing, handling, and application to land of pesticides and fertilizers; the disposal of solid and hazardous wastes; the storing and handling of hazardous substances; and the improper construction and the abandonment of wells and septic systems have resulted in groundwater contamination throughout the state.

3. Knowledge of the health effects of contaminants varies greatly. The long-term detriment to human health from synthetic organic compounds in particular is largely unknown but is of concern.

4. Any detectable quantity of a synthetic organic compound in groundwater is unnatural and undesirable.

5. The movement of groundwater, and the movement of contaminants in groundwater, are often difficult to ascertain or control. Decontamination is difficult and expensive to accomplish. Therefore, preventing contamination of groundwater is of paramount importance.

87 Acts, ch 225, §103

455E.4 Groundwater protection goal.

The intent of the state is to prevent contamination of groundwater from point and nonpoint sources of contamination to the maximum extent practical, and if necessary to restore the groundwater to a potable state, regardless of present condition, use, or characteristics.

87 Acts, ch 225, §104

455E.5 Groundwater protection policies.

1. It is the policy of the state to prevent further contamination of groundwater from any source to the maximum extent practical.

2. The discovery of any groundwater contamination shall require appropriate actions to prevent further contamination. These actions may consist of investigation and evaluation or enforcement actions if necessary to stop further contamination as required under chapter 455B.

3. All persons in the state have the right to have their lawful use of groundwater unimpaired by the activities of any person which render the water unsafe or unpotable.

4. All persons in the state have the duty to conduct their activities so as to prevent the release of contaminants into groundwater.

5. Documentation of any contaminant which presents a significant risk to human health, the environment, or the quality of life shall result in either passive or active cleanup. In both cases, the best technology available or best management practices shall be utilized. The department shall adopt rules which specify the general guidelines for determining the cleanup actions necessary to meet the goals of the state and the general procedures for determining the parties responsible by July 1, 1989. Until the rules are adopted, the absence of rules shall not be raised as a defense to an order to clean up a source of contamination.

6. Adopting health-related groundwater standards may be of benefit in the overall groundwater protection or other regulatory efforts of the state. However, the existence of such standards, or lack of them, shall not be construed or utilized in derogation of the groundwater protection goal and protection policies of the state.

7. The department shall take actions necessary to promote and assure public confidence and public awareness. In pursuing this goal, the department shall make public the results of groundwater investigations.

8. Education of the people of the state is necessary to preserve and restore groundwater quality. The content of this groundwater protection education must assign obligations, call for sacrifice, and change some current values. Educational efforts should strive to establish a conservation ethic among Iowans and should encourage each Iowan to go beyond enlightened self-interest in the protection of groundwater quality.

87 Acts, ch 225, §105

455E.6 Legal effects — liability.

This chapter supplements other legal authority and shall not enlarge, restrict, or abrogate any remedy which any person or class of persons may have under other statutory or common law and which serves the purpose of groundwater protection. An activity that does not violate chapter 455B does not violate this chapter. In the event of a conflict between this section and another provision of this chapter, it is the intent of the general assembly that this section prevails.

Liability shall not be imposed upon an agricultural producer for the costs of active cleanup, or for any damages associated with or resulting from the detection in the groundwater of any quantity of nitrates provided that application has been in compliance with soil test results and that the applicator has properly complied with label instructions for application of the fertilizer. Compliance with the above provisions may be raised as an affirmative defense by an agricultural producer.

Liability shall not be imposed upon an agricultural producer for costs of active cleanup, or for any damages associated with or resulting from the detection in the groundwater of pesticide provided that the applicator has properly complied with label instructions for application of the pesticide and that the applicator has a valid appropriate applicator's license. Compliance with the above provisions may be raised as an affirmative defense by an agricultural producer.

87 Acts, ch 225, §106

455E.7 Primary administrative agency.

The department is designated as the agency to coordinate and administer groundwater protection programs for the state.

87 Acts, ch 225, §107

455E.8 Powers and duties of the director.

In addition to other groundwater protection duties, the director, in cooperation with soil and water conservation district commissioners and with other state and local agencies, shall:

1. Develop and administer a comprehensive groundwater monitoring network, including point of use, point of contamination, and problem assessment monitoring sites across the state, and the assessment of ambient groundwater quality.

2. Include in the annual report required by section 455A.4, the number and concentration of contaminants detected in groundwater. This information shall also be provided to the director of public health and the secretary of agriculture.

3. Report any data concerning the contamination of groundwater by a contaminant not regulated under the federal Safe Drinking Water Act, 42 U.S.C. § 300(f) et seq. to the United States environmental protection agency along with a request to establish a maximum contaminant level and to conduct a risk assessment for the contaminant.

4. Complete groundwater hazard mapping of the state and make the results available to state and local planning organizations by July 1, 1991.

5. Establish a system or systems within the department for collecting, evaluating, and disseminating groundwater quality data and information.

6. Develop and maintain a natural resource geographic information system and comprehensive water resource data system. The system shall be accessible to the public.

7. Develop and adopt by administrative rule, criteria for evaluating groundwater protection programs by July 1, 1988.

8. Take any action authorized by law, including the investigatory and enforcement actions authorized by chapter 455B, to implement the provisions of this chapter and the rules adopted pursuant to this chapter.

9. Disseminate data and information, relative to this chapter, to the public to the greatest extent practical.

10. Develop a program, in consultation with the department of education and the department of environmental education of the University of Northern Iowa, regarding water quality issues which shall be included in the minimum program required in grades seven and eight pursuant to rules adopted by the state board of education under section 256.11, subsection 4.

87 Acts, ch 225, §108; 88 Acts, ch 1262, §8

455E.9 Powers and duties of the commission.

1. The commission shall adopt rules to implement this chapter.

2. When groundwater standards are proposed by the commission, all available information to develop the standards shall be considered, including federal regulations and all relevant information gathered from other sources. A public hearing shall be held in each congressional district prior to the submittal of a report on standards to the general assembly. This report on how groundwater standards may be a part of a groundwater protection program shall be submitted by the department to the general assembly for its consideration by January 1, 1989.

87 Acts, ch 225, §109

455E.10 Joint duties — local authority.

1. All state agencies shall consider groundwater protection policies in the administration of their programs. Local agencies shall consider groundwater protection policies in their programs. All agencies shall cooperate with the department in disseminating public information and education materials concerning the use and protection of groundwater, in collecting groundwater management data, and in conducting research on technologies to prevent or remedy contamination of groundwater.

2. Political subdivisions are authorized and encouraged to implement groundwater protection policies within their respective jurisdictions, provided that implementation is at least as stringent but consistent with the rules of the department.

87 Acts, ch 225, §110

455E.11 Groundwater protection fund established — appropriations.

1. A groundwater protection fund is created in the state treasury. Moneys received from sources designated for purposes related to groundwater monitoring and groundwater quality standards shall be deposited in the fund. Notwithstanding section 8.33, any unexpended balances in the groundwater protection fund and in any of the accounts within the groundwater protection fund at the end of each fiscal year shall be retained in the fund and the respective accounts within the fund. Notwithstanding section 453.7, subsection 2, interest or earnings on investments or time deposits of the moneys in the groundwater protection fund or in any of the accounts within the groundwater protection fund shall be credited to the groundwater protection fund or the respective accounts within the groundwater protection fund. The fund may be used for the purposes established for each account within the fund.

The director shall include in the departmental budget prepared pursuant to section 455A.4, subsection 1, paragraph *"c"*, a proposal for the use of groundwater protection fund moneys, and a report of the uses of the groundwater protection fund moneys appropriated in the previous fiscal year.

(11) Underground storage tank systems with field-constructed tanks.

c. If and when federal law changes, the department of natural resources shall adopt by rule such additional requirements, exemptions, deferrals, or exclusions as required by federal law. It is expected that certain classes of tanks currently exempted or excluded by federal regulation will be regulated by the United States environmental protection agency in the future. A tank which is not required by federal law to maintain proof of financial responsibility shall not be subject to department of natural resources rules on proof of financial responsibility.

NEW subsection 15

455G.3 Establishment of Iowa comprehensive petroleum underground storage tank fund.

1. The Iowa comprehensive petroleum underground storage tank fund is created as a separate fund in the state treasury, and any funds remaining in the fund at the end of each fiscal year shall not revert to the general fund but shall remain in the Iowa comprehensive petroleum underground storage tank fund. Interest or other income earned by the fund shall be deposited in the fund. The fund shall include moneys credited to the fund under this section and sections 423.24, 455G.8, 455G.9, 455G.10, 455G.11, and 455G.13, and other funds which by law may be credited to the fund. The moneys in the fund are appropriated to and for the purposes of the board as provided in this chapter. Amounts in the fund shall not be subject to appropriation for any other purpose by the general assembly, but shall be used only for the purposes set forth in this chapter. The treasurer of state shall act as custodian of the fund and disburse amounts contained in it as directed by the board including automatic disbursements of funds as received pursuant to the terms of bond indentures and documents and security provisions to trustees and custodians. The treasurer of state is authorized to invest the funds deposited in the fund at the direction of the board and subject to any limitations contained in any applicable bond proceedings. The income from such investment shall be credited to and deposited in the fund. The fund shall be administered by the board which shall make expenditures from the fund consistent with the purposes of the programs set out in this chapter without further appropriation. The fund may be divided into different accounts with different depositories as determined by the board and to fulfill the purposes of this chapter.

2. The board shall assist Iowa's owners and operators of petroleum underground storage tanks in complying with federal environmental protection agency technical and financial responsibility regulations by establishment of the Iowa comprehensive petroleum underground storage tank fund. The authority may issue its bonds, or series of bonds, to assist the board, as provided in this chapter.

3. The purposes of this chapter shall include but are not limited to any of the following:

a. To establish a remedial account to fund corrective action for petroleum releases as provided by section 455G.9.

b. To establish a loan guarantee account, as provided by and to the extent permitted by section 455G.10.

c. To establish an insurance account for insurable underground storage tank risks within the state as provided by section 455G.11.

4. The state, the general fund of the state, or any other fund of the state, other than the Iowa comprehensive petroleum underground storage tank fund, is not liable for a claim or cause of action in connection with a tank not owned or operated by the state, or agency of the state. All expenses incurred by the fund shall be payable solely from the fund and no liability or obligation shall be imposed upon the state. The liability of the fund is limited to the extent of coverage provided by the account under which a claim is submitted, subject to the terms and conditions of that coverage. The liability of the fund is further limited by the moneys made available to the fund, and no remedy shall be ordered which would require the fund to exceed its then current funding limitations to satisfy an award or which would restrict the availability of moneys for higher priority sites. The state is not liable for a claim presented against the fund.

455G.4 Governing board.

1. *Members of the board.* The Iowa comprehensive petroleum underground storage tank fund board is established consisting of the following members:

a. The director of the department of natural resources, or the director's designee.

b. The treasurer of state, or the treasurer's designee.

c. The commissioner of insurance, or the commissioner's designee.

d. Two public members appointed by the governor and confirmed by the senate to staggered four-year terms, except that of the first members appointed, one public member shall be appointed for a term of two years and one for a term of four years. A public member shall have experience, knowledge, and expertise of the subject matter embraced within this chapter. Two public members shall be appointed with experience in either, or both, financial markets or insurance.

A public member shall not have a conflict of interest. For purposes of this section a *"conflict of interest"* means an affiliation, within the twelve months before the member's appointment, with the regulated tank community, or with a person or property and casualty insurer offering competitive insurance or other means of financial assurance or which previously offered environmental hazard insurance for a member of the regulated tank community.

The filling of positions reserved for public representatives, vacancies, membership terms, payment of compensation and expenses, and removal of members are governed by chapter 69. Members of the board are entitled to receive reimbursement of actual expenses incurred in the discharge of their duties within the limits of funds appropriated to the board or made available to the fund. Each member of the board may also be eligible to receive compensation as provided in section 7E.6. The members shall elect a voting chairperson of the board from among the members of the board.

2. *Department cooperation with board.* The director of the department of natural resources shall cooperate with the board in the implementation of this part so as to minimize unnecessary duplication of effort, reporting, or paperwork and maximize environmental protection.

3. *Rules and emergency rules.*

a. The board shall adopt rules regarding its practice and procedures, develop underwriting standards, establish premiums for insurance account coverage and risk factors, procedures for investigating and settling claims made against the fund, determine appropriate deductibles or retentions in coverages or benefits offered, and otherwise implement and administer this chapter.

b. The board may adopt administrative rules under section 17A.4, subsection 2, and section 17A.5, subsection 2, paragraph *"b"*, to implement this subsection for one year after May 5, 1989.

c. Rules necessary for the implementation and collection of the environmental protection charge shall be adopted on or before June 1, 1989.

d. Rules necessary for the implementation and collection of insurance account premiums shall be adopted prior to offering insurance to an owner or operator of a petroleum underground storage tank or other person.

e. Rules related to the establishment of the insurance account and the terms and conditions of coverage shall be adopted as soon as practicable to permit owners and operators to meet their applicable compliance date with federal financial responsibility regulations.

89 Acts, ch 131, §45

455G.5 Independent contractors to be retained by board.

The board shall administer the fund. A contract to retain a person under this section may be individually negotiated, and is not subject to public bidding requirements.

The board may enter into a contract or an agreement authorized under chapter 28E with a private agency or person, the department of natural resources, the Iowa finance authority, the department of revenue and finance, other departments, agencies, or governmental subdivisions of this state, another state, or the United States, in connection with its administration and implementation of this chapter or chapter 424 or 455B.

The board may reimburse a contractor, public or private, retained pursuant to this section for expenses incurred in the execution of a contract or agreement. Reimbursable expenses include, by way of example, but not exclusion, the costs of collecting the environmental protection charge or administering specific delegated duties or powers of the board.

89 Acts, ch 131, §46

455G.6 Iowa comprehensive petroleum underground storage tank fund — general and specific powers.

In administering the fund, the board has all of the general powers reasonably necessary and convenient to carry out its purposes and duties and may do any of the following, subject to express limitations contained in this chapter:

1. Guarantee secured and unsecured loans, and enter into agreements for corrective action, acquisition and construction of tank improvements, and provide for the insurance program. The loan guarantees may be made to a person or entity owning or operating a tank. The board may take any action which is reasonable and lawful to protect its security and to avoid losses from its loan guarantees.

2. Acquire, hold, and mortgage personal property and real estate and interests in real estate to be used.

3. Purchase, construct, improve, furnish, equip, lease, option, sell, exchange, or otherwise dispose of one or more improvements under the terms it determines.

4. Grant a mortgage, lien, pledge, assignment, or other encumbrance on one or more improvements, revenues, asset of right, accounts, or funds established or received in connection with the fund, including revenues derived from the use tax imposed under chapter 423 and deposited in the fund or an account of the fund.

5. Provide that the interest on bonds may vary in accordance with a base or formula.

6. Contract for the acquisition, construction, or both of one or more improvements or parts of one or more improvements and for the leasing, subleasing, sale, or other disposition of one or more improvements in a manner it determines.

7. The board may contract with the authority for the authority to issue bonds and do all things necessary with respect to the purposes of the fund, as set out in the contract between the board and the authority. The board may delegate to the authority and the authority shall then have all of the powers of the board which are necessary to issue and secure bonds and carry out the purposes of the fund, to the extent provided in the contract between the board and the authority. The authority may issue the authority's bonds in principal amounts which, in the opinion of the board, are necessary to provide sufficient funds for the fund, the payment of interest on the bonds, the establishment of reserves to secure the bonds, the costs of issuance of the bonds, other expenditures of the authority incident to and necessary or convenient to carry out the bond issue for the fund, and all other expenditures of the board necessary or convenient to administer the fund. The bonds are investment securities and negotiable instruments within the meaning of and for purposes of the uniform commercial code.

8. Bonds issued under this section are payable solely and only out of the moneys, assets, or revenues of the fund, all of which may be deposited with trustees or depositories in accordance with bond or security documents and pledged by the board to the payment thereof, and are not an indebtedness of this state or the authority, or a charge against the general credit or general fund of the state or the authority, and the state shall not be liable for any financial undertakings with respect to the fund. Bonds issued under this chapter shall contain on their face a statement that the bonds do not constitute an indebtedness of the state or the authority.

9. The proceeds of bonds issued by the authority and not required for immediate disbursement may be deposited with a trustee or depository as provided in the bond documents and invested in any investment approved by the authority and specified in the trust indenture, resolution, or other instrument pursuant to which the bonds are issued without regard to any limitation otherwise provided by law.

10. The bonds shall be:

a. In a form, issued in denominations, executed in a manner, and payable over terms and with rights of redemption, and be subject to such other terms and conditions as prescribed in the trust indenture, resolution, or other instrument authorizing their issuance.

b. Negotiable instruments under the laws of the state and may be sold at prices, at public or private sale, and in a manner, as prescribed by the authority. Chapters 23, 74, 74A and 75 do not apply to their sale or issuance of the bonds.

c. Subject to the terms, conditions, and covenants providing for the payment of the principal, redemption premiums, if any, interest, and other terms, conditions, covenants, and protective provisions safeguarding payment, not inconsistent with this chapter and as determined by the trust indenture, resolution, or other instrument authorizing their issuance.

11. The bonds are securities in which public officers and bodies of this state; political subdivisions of this state; insurance companies and associations and other persons carrying on an insurance business; banks, trust companies, savings associations, savings and loan associations, and investment companies; administrators, guardians, executors, trustees, and other fiduciaries; and other persons authorized to invest in bonds or other obligations of the state, may properly and legally invest funds, including capital, in their control or belonging to them.

12. Bonds must be authorized by a trust indenture, resolution, or other instrument of the authority, approved by the board. However, a trust indenture, resolution, or other instrument authorizing the issuance of bonds may delegate to an officer of the issuer the power to negotiate and fix the details of an issue of bonds.

13. Neither the resolution, trust agreement, nor any other instrument by which a pledge is created needs to be recorded or filed under the Iowa uniform commercial code to be valid, binding, or effective.

14. Bonds issued under the provisions of this section are declared to be issued for an essential public and governmental purpose and all bonds issued under this chapter shall be exempt from taxation by the state of Iowa and the interest on the bonds shall be exempt from the state income tax and the state inheritance and estate tax.

15. Subject to the terms of any bond documents, moneys in the fund or fund accounts may be expended for administration expenses, civil penalties, moneys paid under an agreement, stipulation, or settlement, and for the costs of any other activities as the board may determine are necessary and convenient to facilitate compliance with and to implement the intent of federal laws and regulations and this chapter.

16. The board shall cooperate with the department of natural resources in the implementation and administration of this chapter to assure that in combination with existing state statutes and rules governing underground storage tanks, the state will be, and continue to be, recognized by the federal government as having an *"approved state account"* under the federal Resource Conservation and Recovery Act, especially by compliance with the Act's subtitle I financial responsibility requirements as enacted in the federal Superfund Amendments and Reauthorization Act of 1986 and the financial responsibility regulations adopted by the United States environmental protection agency at 40 C.F.R. pts. 280 and 281. Whenever possible this chapter shall be interpreted to further the purposes of, and to comply, and not to conflict, with such federal requirements.

455G.7 Security for bonds — capital reserve fund — irrevocable contracts.

1. For the purpose of securing one or more issues of bonds for the fund, the authority, with the approval of the board, may authorize the establishment of one or more special funds, called *"capital reserve funds"*. The authority may pay into the capital reserve funds the proceeds of the sale of its bonds and other money which may be made available to the authority from other sources for the purposes of the capital reserve funds. Except as provided in this section, money in a capital reserve fund shall be used only as required for any of the following:

a. The payment of the principal of and interest on bonds or of the sinking fund payments with respect to those bonds.

b. The purchase or redemption of the bonds.

c. The payment of a redemption premium required to be paid when the bonds are redeemed before maturity.

However, money in a capital reserve fund shall not be withdrawn if the withdrawal would reduce the amount in the capital reserve fund to less than the capital reserve fund requirement, except for the purpose of making payment, when due, of principal, interest, redemption premiums on the bonds, and making sinking fund payments when other money pledged to the payment of the bonds is not available for the payments. Income or interest earned by, or increment to, a capital reserve fund from the investment of all or part of the capital reserve fund may be transferred by the authority to other accounts of the fund if the transfer does not reduce the amount of the capital reserve fund below the capital reserve fund requirement.

2. If the authority decides to issue bonds secured by a capital reserve fund, the bonds shall not be issued if the amount in the capital reserve fund is less than the capital reserve fund requirement, unless at the time of issuance of the bonds the authority deposits in the capital reserve fund from the proceeds of the bonds to be issued or from other sources, an amount which, together with the amount then in the capital reserve fund, is not less than the capital reserve fund requirement.

3. In computing the amount of a capital reserve fund for the purpose of this section, securities in which all or a portion of the capital reserve fund is invested shall be valued by a reasonable method established by the authority. Valuation shall include the amount of interest earned or accrued as of the date of valuation.

4. In this section, *"capital reserve fund requirement"* means the amount required to be on deposit in the capital reserve fund as of the date of computation.

5. To assure maintenance of the capital reserve funds, the authority shall, on or before July 1 of each calendar year, make and deliver to the governor the authority's certificate stating the sum, if any, required to restore each capital reserve fund to the capital reserve fund requirement for that fund. Within thirty days after the beginning of the session of the general assembly next following the delivery of the certificate, the governor may submit to both houses printed copies of a budget including the sum, if any, required to restore each capital reserve fund to the capital reserve fund requirement for that fund. Any sums appropriated by the general assembly and paid to the authority pursuant to this section shall be deposited in the applicable capital reserve fund.

6. All amounts paid by the state pursuant to this section shall be considered advances by the state and, subject to the rights of the holders of any bonds of the authority that have previously been issued or will be issued, shall be repaid to the state without interest from all available revenues of the fund in excess of amounts required for the payment of bonds of the authority, the capital reserve fund, and operating expenses.

7. If any amount deposited in a capital reserve fund is withdrawn for payment of principal, premium, or interest on the bonds or sinking fund payments with respect to bonds thus reducing the amount of that fund to less than the capital reserve fund requirement, the authority shall immediately notify the governor and the general assembly of this event and shall take steps to restore the capital reserve fund to the capital reserve fund requirement for that fund from any amounts designated as being available for such purpose.

455G.8 Revenue sources for fund.

Revenue for the fund shall include, but is not limited to, the following, which shall be deposited with the board or its designee as provided by any bond or security documents and credited to the fund:

1. *Bonds issued to capitalize fund.* The proceeds of bonds issued to capitalize and pay the costs of the fund, and investment earnings on the proceeds except as required for the capital reserve funds.

2. *Use tax.* The revenues derived from the use tax imposed under chapter 423. The proceeds of the use tax shall be allocated, consistent with this chapter, among the fund's accounts, for debt service and other fund expenses, according to the fund budget, resolution, trust agreement, or other instrument prepared or entered into by the board or authority under direction of the board.

3. *Storage tank management fee.* That portion of the storage tank management fee proceeds which are deposited into the fund, pursuant to section 455B.479.

4. *Insurance premiums.* Insurance premium income as provided by section 455G.11 shall be credited to the insurance account.

5. *Cost recovery enforcement.* Cost recovery enforcement net proceeds as provided by section 455G.13 shall be allocated among the fund's accounts as directed by the board. When federal cleanup funds are recovered, the funds are to be deposited to the remedial account of the fund and used solely for the purpose of future cleanup activities.

6. *Other sources.* Interest attributable to investment of money in the fund or an account of the fund. Moneys in the form of a devise, gift, bequest, donation, federal or other grant, reimbursement, repayment, judgment, transfer, payment, or appropriation from any source intended to be used for the purposes of the fund.

455G.9 Remedial program.

1. *Limits of remedial account coverage.* Moneys in the remedial account shall only be paid out for the following:

a. (1) Corrective action for an eligible release reported to the department of natural resources on or after July 1, 1987, but prior to May 5, 1989. Third-party liability is specifically excluded from remedial account coverage. For a claim for a release under this subparagraph, the remedial program shall pay no more than the lesser of twenty-five thousand dollars or one-third of the total costs of corrective action for that release, subsection 4 notwithstanding. For a release to be eligible for coverage under this subparagraph the following conditions must be satisfied:

(a) The owner or operator applying for coverage shall not be a person who is maintaining, or has

maintained, proof of financial responsibility for federal regulations through self-insurance.

(b) The owner or operator applying for coverage shall not have claimed bankruptcy any time on or after July 1, 1987.

(c) The claim for coverage pursuant to this subparagraph must have been filed with the board prior to January 31, 1990.

(d) The owner or operator at the time the release was reported to the department of natural resources must have been in compliance with then current monitoring requirements, if any, or must have been in the process of compliance efforts with anticipated requirements, including installation of monitoring devices, a new tank, tank improvements or retrofit, or any combination.

Total payments for claims pursuant to this subparagraph are limited to no more than eight million dollars. Claims for eligible retroactive releases shall be prorated if claims filed in a permitted application period or for a particular priority class of applicants exceed eight million dollars or the then remaining balance of eight million dollars. If claims remain partially or totally unpaid after total payments equal eight million dollars, all remaining claims are void, and no entitlement exists for further payment.

(2) Corrective action, up to one million dollars total, and subject to prioritization rules as established pursuant to section 455G.12A, for a release reported to the department of natural resources after May 5, 1989, and on or before October 26, 1990. Third-party liability is specifically excluded from remedial account coverage. Corrective action coverage provided pursuant to this paragraph may be aggregated with other financial assurance mechanisms as permitted by federal law to satisfy required aggregate and per occurrence limits of financial responsibility for both corrective action and third-party liability, if the owner's or operator's effective financial responsibility compliance date is prior to October 26, 1990.

(3) Corrective action for an eligible release reported to the department of natural resources on or after January 1, 1985, but prior to July 1, 1987. Third-party liability is specifically excluded from remedial account coverage. For a claim for a release under this subparagraph, the remedial program shall pay no more than the lesser of twenty-five thousand dollars or one-third of the total costs of corrective action for that release, subsection 4 notwithstanding. For a release to be eligible for coverage under this subparagraph the following conditions must be satisfied:

(a) The owner or operator applying for coverage must be currently engaged in the business for which the tank connected with the release was used prior to the report of the release.

(b) The owner or operator applying for coverage shall not be a person who is maintaining, or has maintained, proof of financial responsibility for federal regulations through self-insurance.

(c) The owner or operator applying for coverage shall not have claimed bankruptcy any time on or after January 1, 1985.

(d) The claim for coverage pursuant to this subparagraph must have been filed with the board prior to September 1, 1990.

(e) The owner or operator at the time the release was reported to the department of natural resources must have been in compliance with then current monitoring requirements, if any, or must have been in the process of compliance efforts with anticipated requirements, including installation of monitoring devices, a new tank, tank improvements or retrofit, or any combination.

b. Corrective action and third-party liability for a release discovered on or after January 24, 1989, for which a responsible owner or operator able to pay cannot be found and for which the federal underground storage tank trust fund or other federal moneys do not provide coverage. For the purposes of this section property shall not be deeded or quitclaimed to the state or board in lieu of cleanup. Additionally, the ability to pay shall be determined after a claim has been filed. The board is not liable for any cost where either the responsible owner or operator, or both, have a net worth greater than fifteen thousand dollars, or where the responsible party can be determined.

c. Corrective action and third-party liability for a tank owned or operated by a financial institution eligible to participate in the remedial account under section 455G.16 if the prior owner or operator is unable to pay, if so authorized by the board as part of a condition or incentive for financial institution participation in the fund pursuant to section 455G.16.

d. One hundred percent of the costs of corrective action and third party liability for a release situated on property acquired by a county for delinquent taxes pursuant to chapters 445 through 448, for which a responsible owner or operator able to pay, other than the county, cannot be found. A county is not a *"responsible party"* for a release in connection with property which it acquires in connection with delinquent taxes, and does not become a responsible party by sale or transfer of property so acquired.

e. For the costs of any other activities which the board determines are necessary and convenient to facilitate compliance with and to implement the intent of federal laws and regulations and this chapter.

f. Corrective action for a release reported to the department of natural resources after May 5, 1989, and on or before October 26, 1990, in connection with a tank owned or operated by a state agency or department which elects to participate in the remedial account pursuant to this paragraph. A state agency or department which does not receive a standing unlimited appropriation which may be used to pay for the costs of a corrective action may opt, with the approval of the board, to participate in the remedial account. As a condition of opting to participate in the remedial account, the agency or department shall pay all registration fees, storage tank management fees, environmental protection

charges, and all other charges and fees upon all tanks owned or operated by the agency or department in the same manner as if the agency or department were a person required to maintain financial responsibility. Once an agency has opted to participate in the remedial program, it cannot opt out, and shall continue to pay all charges and fees upon all tanks owned or operated by the agency or department so long as the charges or fees are imposed on similarly situated tanks of a person required to maintain financial responsibility. The board shall by rule adopted pursuant to chapter 17A provide the terms and conditions for a state agency or department to opt to participate in the remedial account. A state agency or department which opts to participate in the remedial account shall be subject to the minimum copayment schedule of subsection 4, as if the state agency or department were a person required to maintain financial responsibility.

2. *Remedial account funding.* The remedial account shall be funded by that portion of the proceeds of the use tax imposed under chapter 423 and other moneys and revenues budgeted to the remedial account by the board.

3. *Trust fund to be established.* When the remedial account has accumulated sufficient capital to provide dependable income to cover the expenses of expected future releases or expected future losses for which no responsible owner is available, the excess capital shall be transferred to a trust fund administered by the board and created for that purpose.

4. *Minimum copayment schedule for remedial account benefits.* An owner or operator who reports a release to the department of natural resources on or before October 26, 1990, shall pay the greater of five thousand dollars or twenty-five percent of the total costs of corrective action for that release. The remedial account shall pay the remainder, as required by federal regulations, of the total cost of the corrective action for that release, except that a county shall not be required to pay a copayment in connection with a release situated on property acquired in connection with delinquent taxes, as provided in subsection 1, paragraph *"d"*, unless subsequent to acquisition the county actively operates a tank on the property for purposes other than risk assessment, risk management, or tank closure.

5. *Priority of claims.* The board shall adopt rules to prioritize claims and allocate available money if funds are not available to immediately settle all current claims.

6. *Recovery of gain on sale of property.* If an owner or operator ceases to own or operate a tank site for which remedial account benefits were received within five years of the receipt of any account benefit and sells or transfers a property interest in the tank site for an amount which exceeds one hundred twenty percent of the precorrective action value, the owner or operator shall refund to the remedial account an amount equal to ninety percent of the amount in excess of one hundred twenty percent of the precorrective action value up to a maximum of the expenses incurred by the remedial account associated with the tank site plus interest, equal to the interest for the most recent twelve-month period for the most recent bond issue for the fund, on the expenses incurred, compounded annually. Expenses incurred by the fund are a lien upon the property recordable and collectible in the same manner as the lien provided for in section 424.11 at the time of sale or transfer, subject to the terms of this section.

This subsection shall not apply if the sale or transfer is pursuant to a power of eminent domain, or benefits. When federal cleanup funds are recovered, the funds are to be deposited to the remedial account of the fund and used solely for the purpose of future cleanup activities.

7. *Recurring releases treated as a newly reported release.* A release shall be treated as a release reported on or after May 5, 1989, if prior to May 5, 1989, a release was reported to the department, corrective action was taken pursuant to an assessment plan approved by the department, and the work performed was accepted by the department. For purposes of this subsection, work performed is accepted by the department if the department did not order further action within ninety days of the date on which the department had notice that the work was completed, unless the department clearly indicated in writing to the owner, operator, contractor, or other agent that additional work would be required beyond that specified in the assessment plan or in addition to the work actually performed.

455G.10 Loan guarantee account.

1. The board may create a loan guarantee account to offer loan guarantees to small businesses for the following purposes:

a. All or a portion of the expenses incurred by the applicant small business for its share of corrective action.

b. Tank and monitoring equipment improvements necessary to satisfy federal technical standards to become insurable.

Moneys from the revenues derived from the use tax imposed under chapter 423 may be used to fund the loan guarantee account according to the fund budget as approved by the board. Loan guarantees shall be made on terms and conditions determined by the board to be reasonable, except that in no case may a loan guarantee satisfy more than ninety percent of the outstanding balance of a loan.

2. A separate nonlapsing loan guarantee account is created within the fund. Any funds remaining in the account at the end of each fiscal year shall not

revert to the general fund but shall remain in the account. The loan account shall be maintained by the treasurer of state. All expenses incurred by the loan account shall be payable solely from the loan account and no liability or obligation shall be imposed upon the state beyond this amount.

3. The board shall administer the loan guarantee account. The board may delegate administration of the account, provided that the administrator is subject to the board's direct supervision and direction. The board shall adopt rules regarding the provision of loan guarantees to financially qualified small businesses for the purposes permitted by subsection 1. The board may impose such terms and conditions as it deems reasonable and necessary or appropriate. The board shall take appropriate steps to publicize the existence of the loan account.

4. In calculating the net worth of an applicant for a loan guarantee, the board shall use the fair market value of any property on which a tank is sited, and not the precorrective action value required for recovery of gain upon later sale of the same property under section 455G.9, subsection 6.

5. As a condition of eligibility for financial assistance from the loan guarantee account, a small business shall demonstrate satisfactory attempts to obtain financing from private lending sources. When applying for loan guarantee account assistance, the small business shall demonstrate good faith attempts to obtain financing from at least two financial institutions. The board may first refer a tank owner or operator to a financial institution eligible to participate in the fund under section 455G.16; however, if no such financial institution is currently willing or able to make the required loan, the small business shall determine if any of the previously contacted financial institutions would make the loan in participation with the loan guarantee account. The loan guarantee account may offer to guarantee a loan, or provide other forms of financial assistance to facilitate a private loan.

6. The maturity for each financial assistance package made by the board pursuant to this chapter shall be the shortest feasible term commensurate with the repayment ability of the small business borrower. However, the maturity date of a loan shall not exceed ten years and the guarantee is ineffective beyond the agreed term of the guarantee or ten years from initiation of the guarantee, whichever term is shorter.

7. The source of funds for the loan account shall be from the following:

a. Loan guarantee account income, including loan guarantee service fees, if any, and investment income attributed to the account by the board.

b. Moneys allocated to the account by the board according to the fund budget approved by the board.

c. Moneys appropriated by the federal government or general assembly and made available to the loan account.

8. A loan loss reserve account shall be established within the loan guarantee account. A default on a loan guaranteed under this section shall be paid from such reserve account. In administering the program, the board shall periodically determine the necessary loan loss reserve needed and shall set aside the appropriate moneys in the loan loss reserve account for payment of loan defaults. This reserve shall be determined based on the credit quality of the outstanding guaranteed loans at the time that the reserve requirement is being determined. A default is not eligible for payment until the lender has satisfied all administrative and legal remedies for settlement of the loan and the loan has been reduced to judgment by the lender. After the default has been reduced to judgment and the guarantee paid from the reserve account, the board is entitled to an assignment of the judgment. The board shall take all appropriate action to enforce the judgment or may enter into an agreement with the lender to provide for enforcement. Upon collection of the amount guaranteed, any excess collected shall be deposited into the fund. The general assembly is not obligated to appropriate any moneys to pay for any defaults or to appropriate any moneys to be credited to the reserve account. The loan guarantee program does not obligate the state or the board except to the extent provided in this section, and the board in administering the program shall not give or lend the credit of the state of Iowa.

Subsection 8 amended

455G.11 Insurance account.

1. *Insurance account as a financial assurance mechanism.* The insurance account shall offer financial assurance for a qualified owner or operator under the terms and conditions provided for under this section. Coverage may be provided to the owner or the operator, or to each separately. The board is not required to resolve whether the owner or operator, or both are responsible for a release under the terms of any agreement between the owner and operator.

The source of funds for the insurance account shall be from the following:

a. Moneys allocated to the board or moneys allocated to the account by the board according to the fund budget approved by the board.

b. Moneys collected as an insurance premium including service fees, if any, and investment income attributed to the account by the board.

2. *Limits of coverage available.* An owner or operator required to maintain proof of financial responsibility may purchase coverage up to the federally required levels for that owner or operator subject to the terms and conditions under this section and those adopted by the board.

3. *Eligibility of owners and operators for insurance account coverage.* An owner or operator, subject

to underwriting requirements and such terms and conditions deemed necessary and convenient by the board, may purchase insurance coverage from the insurance account to provide proof of financial responsibility provided that a tank to be insured satisfies one of the following conditions:

a. Satisfies performance standards for new underground storage tank systems as specified by the federal environmental protection agency in 40 C.F.R. § 280.20, as amended through January 1, 1989.

b. Has satisfied on or before the date of the application standards for upgraded underground storage tank systems as specified by the federal environmental protection agency in 40 C.F.R. § 280.21, as amended through January 1, 1989.

c. The applicant certifies in writing to the board that the tank to be insured will be brought into compliance with either paragraph *"a"* or *"b"*, on or before October 26, 1992, provided that prior to the provision of insurance account coverage, the tank site tests release free. For a tank qualifying for insurance coverage pursuant to this paragraph at the time of application or renewal, the owner or operator shall pay a per tank premium equal to two times the normally scheduled premium for a tank satisfying paragraph *"a"* or *"b"*. An owner or operator who fails to comply as certified to the board on or before October 26, 1992, shall not insure that tank through the insurance account unless and until the tank satisfies the requirements of paragraph *"a"* or *"b"*.

d. The applicant either:

(1) Is maintaining financial responsibility pursuant to current or previously applicable federal or state financial responsibility requirements on petroleum underground storage tanks within the state.

(2) Complies with the applicable following date for financial responsibility:

(a) On or before April 26, 1990, for a petroleum marketing firm owning at least thirteen, but no more than ninety-nine petroleum underground storage tanks.

(b) On or before October 26, 1990, for an owner or operator not described in subparagraph subdivision (a), and not currently or previously required to maintain financial responsibility by federal or state law on tanks within the state.

4. *Actuarially sound premiums based on risk factor adjustments after five years.* The annual premium for insurance coverage shall be:

a. For the year July 1, 1989, through June 30, 1990, one hundred dollars per tank.

b. For the year July 1, 1990, through June 30, 1991, one hundred fifty dollars per tank.

c. For the year July 1, 1991, through June 30, 1992, two hundred dollars per tank.

d. For the year July 1, 1992, through June 30, 1993, two hundred fifty dollars per tank.

e. For the year July 1, 1993, through June 30, 1994, three hundred dollars per tank.

f. For subsequent years, an owner or operator applying for coverage shall pay an annually adjusted insurance premium for coverage by the insurance account. The board may only approve fund coverage through the payment of a premium established on an actuarially sound basis. Risk factors shall be taken into account in establishing premiums. It is the intent of the general assembly that an actuarially sound premium reflect the risk to the insurance account presented by the insured. Risk factor adjustments should reflect the range of risk presented by the variety of tank systems, monitoring systems, and risk management practices in the general insurable tank population. Premium adjustments for risk factors should at minimum take into account lifetime costs of a tank and monitoring system and insurance account premiums for that tank system so as to provide a positive economic incentive to the owner or operator to install the more environmentally safe option so as to reduce the exposure of the insurance account to loss. Actuarially sound is not limited in its meaning to fund premium revenue equaling or exceeding fund expenditures for the general tank population.

If coverage is purchased for any part of a year the purchaser shall pay the full annual premium.

g. The insurance account may offer, at the buyer's option, a range of deductibles. A ten thousand dollar deductible policy shall be offered.

5. *Future repeal.* The future repeal of this section shall not terminate the following obligations or authorities necessary to administer the obligations until these obligations are satisfied:

a. The payment of claims filed prior to the effective date of any future repeal, against the insurance account until moneys in the account are exhausted. Upon exhaustion of the moneys in the account, any remaining claims shall be invalid. If following satisfaction of the obligations pursuant to this section, moneys remain in the account, the remaining moneys and moneys due the account shall be prorated and returned to premium payers on an equitable basis as determined by the board.

b. The resolution of a cost recovery action filed prior to the effective date of the repeal.

6. *Installers' inclusion in fund.* The Iowa comprehensive petroleum underground storage tank fund board shall offer insurance coverage under the fund's insurance account to an installer of a certified underground storage tank installation within the state for environmental hazard coverage in connection with the certified installation as provided in this subsection. The board shall perform an actuarial study to determine the actuarially sound premiums, deductibles, terms, and conditions to be offered to installers for certified installations in Iowa. The insurance coverage offered to installers shall provide for no greater deductibles and the same or greater limits of coverage as offered to owners and operators of tanks. Coverage under this subsection shall be limited to environmental hazard coverage for both corrective action and third-party liability for a certified tank installation in Iowa in connection with a release from that tank.

The board shall adopt rules requiring certification of tank installations and require certification of a new tank installation as a precondition to offering insurance to an owner or operator or an installer. The board shall set in the rule the effective date for the certification requirement. Certification rules shall at minimum require that an installation be personally inspected by an independent licensed engineer, local fire marshal, state fire marshal's designee, or other person who is unaffiliated with the tank owner, operator, or installer, who is qualified and authorized by the board to perform the required inspection and that the tank and installation of the tank comply with applicable technical standards and manufacturer's instructions and warranty conditions. An inspector shall not be an owner or operator of a tank, or an employee of an owner, operator, or installer.

The board's actuarial study shall include, but is not limited to, the following topics:

a. Actuarial estimate of the per-tank premium necessary to provide actuarially sound coverage to a tank installer for that certified tank installation. The study may include available loss data on past installations for installers, existing claims against installers for corrective action and third-party liability, and other information deemed relevant by the board.

b. The type of certification standards and procedures or other preconditions to providing coverage to a tank installer.

c. The cost and availability of private insurance for installers.

d. The number of installers doing business in the state.

e. Suggested limits of coverage, deductible levels, and other coverage features, terms, or conditions provided the same are no less favorable than that offered owners and operators under this section.

The results of the study shall be submitted to the division of insurance prior to the extension of coverage to installers under this subsection.

7. *Coverage alternatives.* The board shall provide for insurance coverage to be offered to installers for a tank installation certified pursuant to subsection 6, through at least one of the following methods:

a. Directly through the fund with premiums and deductibles as provided for owners and operators in subsection 4.

b. In cooperation with a private insurance carrier with excess or stop loss coverage provided by the fund to reduce the cost of insurance to such installers, and including such other terms and conditions as the board deems necessary and convenient to provide adequate coverage for a certified tank installation at a reasonable premium.

8. *Account expenditures.* Moneys in the insurance account may be expended for the following purposes:

a. To take corrective action for and to compensate a third party for damages, including but not limited to payment of a judgment for bodily injury or property damage caused by a release from a tank, where coverage has been provided to the owner or operator from the insurance account, up to the limits of coverage extended. A personal injury is not a compensable third-party liability damage.

b. For the costs of any other activities as the board may determine are necessary and convenient to facilitate compliance with and to implement the intent of federal laws and regulations and this chapter.

9. *Conditions to receive premium discount.* A person engaged in the wholesale or retail sale of petroleum shall receive a discount of eight percent on that person's annual insurance premium for all tanks located at a site which meets all of the following conditions:

a. The person maintains a tank for the purpose of storing waste oil.

b. The person accepts waste oil from the general public.

c. The person posts a notice at the site in a form and manner approved by the administrator advertising that the person will accept waste oil from the general public.

455G.12 Board authority for prioritization.

If the board determines that, within the realm of sound business judgment and practice, prioritization of assistance is necessary in light of funds available for loan guarantees or insurance coverage, the board may develop rules for assistance or coverage prioritization based upon adherence or planned adherence of the owner or operator to higher than minimum environmental protection and safety compliance considerations.

Prior to the adoption of prioritization rules, the board shall at minimum review the following issues:

1. The positive environmental impact of assistance prioritization.

2. The economic feasibility, including the availability of private financing, for an owner or operator to obtain priority status.

3. Any negative impact on Iowa's rural petroleum distribution network which could result from prioritization.

4. Any similar prioritization systems in use by the private financing or insurance markets in this state, including terms, conditions, or exclusions.

5. The intent of this chapter that the board shall maximize the availability of reasonably priced, financially sound insurance coverage or loan guarantee assistance.

89 Acts, ch 131, §53

455G.12A Cost containment authority.

1. *Validity of contracts.* A contract in which one of the parties to the contract is an owner or operator of a petroleum underground storage tank, for goods or services which may be payable or reimbursable from the fund, is invalid unless and until the administrator has approved the contract as fair and equitable to the tank owner or operator, and found that the contract terms are within the range of usual and customary rates for similar or equivalent goods or services within the state, and found that the goods or services are necessary for the owner or operator to comply with fund or regulatory standards. An owner or operator may appoint the administrator as an agent for the purposes of negotiating contracts with suppliers of goods or services compensable by the fund. The administrator may select another contractor for goods or services other than the one offered by the owner or operator, if the scope of the proposed work or actual work of the offered contractor does not reflect the quality of workmanship required, or the costs are determined to be excessive.

2. *Contract approval.* In the course of review and approval of a contract pursuant to this section, the administrator may require an owner or operator to obtain and submit three bids, provided that the administrator coordinates bid submission with the department. The administrator may require specific terms and conditions in a contract subject to approval.

3. *Exclusive contracts.* The administrator may enter into a contract or an exclusive contract with the supplier of goods or services required by a class of tank owners or operators in connection with an expense payable or reimbursable from the fund, to supply a specified good or service for a gross maximum price, fixed rate, on an exclusive basis, or subject to another contract term or condition reasonably calculated to obtain goods or services for the fund or for tank owners and operators at a reasonable cost. A contract may provide for direct payment from the fund to a supplier.

The administrator may retain, subject to board approval, an independent person to assist in the review of work required in connection with a release or tank system for which fund benefits are sought, and to establish prevailing cost of goods and services needed. Nothing in this section is intended to preempt the regulatory authority of the department.

90 Acts, ch 1235, §40
NEW section

455G.13 Cost recovery enforcement.

1. *Full recovery sought from owner.* The board shall seek full recovery from the owner or operator of the tank which released the petroleum and which is the subject of a corrective action, for which the fund expends moneys for corrective action or third-party liability, and for all other costs or moneys expended by the fund in connection with the release. When federal cleanup funds are recovered, the funds are to be deposited to the remedial account of the fund and used solely for the purpose of future cleanup activities.

2. *Limitation of liability of owner or operator.* Except as provided in subsection 3:

a. The board or the department of natural resources shall not seek recovery for expenses in connection with corrective action for a release from an owner or operator eligible for assistance under the remedial account except for any unpaid portion of the deductible or copayment. This section does not affect any authorization of the department of natural resources to impose or collect civil or administrative fines or penalties or fees. The remedial account shall not be held liable for any third-party liability.

b. An owner or operator's liability for a release for which coverage is admitted under the insurance account shall not exceed the amount of the deductible.

3. *Owner or operator not in compliance, subject to full and total cost recovery.* Notwithstanding subsection 2, the liability of an owner or operator shall be the full and total costs of corrective action and bodily injury or property damage to third parties, as specified in subsection 1, if the owner or operator has not complied with the financial responsibility or other underground storage tank rules of the department of natural resources or with this chapter and rules adopted under this chapter.

4. *Treble damages for certain violations.* Notwithstanding subsections 2 and 3, the owner or operator, or both, of a tank are liable to the fund for punitive damages in an amount equal to three times the amount of any cost incurred or moneys expended by the fund as a result of a release of petroleum from the tank if the owner or operator did any of the following:

a. Failed, without sufficient cause, to respond to a release of petroleum from the tank upon, or in accordance with, a notice issued by the director of the department of natural resources.

b. After May 5, 1989, failed to perform any of the following:

(1) Failed to register the tank, which was known to exist or reasonably should have been known to exist.

(2) Intentionally failed to report a known release.

The punitive damages imposed under this subsection are in addition to any costs or expenditures recovered from the owner or operator pursuant to this chapter and in addition to any other penalty or relief provided by this chapter or any other law.

However, the state, a city, county, or other political subdivision shall not be liable for punitive damages.

5. *Lien on tank site.* Any amount for which an owner or operator is liable to the fund, if not paid when due, by statute, rule, or contract, or determination of liability by the board or department of natural resources after hearing, shall constitute a lien upon the real property where the tank, which was the subject of corrective action, is situated, and the lia-

bility shall be collected in the same manner as the environmental protection charge pursuant to section 424.11.

6. *Joinder of parties.* The department of natural resources has standing in any case or contested action related to the fund or a tank, and upon motion and sufficient showing by a party, the court or the administrative law judge shall join to the action any person who may be liable for costs and expenditures of the type recoverable pursuant to this section.

7. *Strict liability.* The standard of liability for a release of petroleum or other regulated substance as defined in section 455B.471 is strict liability.

8. *Third-party contracts not binding on board, proceedings against responsible party.* An insurance, indemnification, hold harmless, conveyance, or similar risk-sharing or risk-shifting agreement shall not be effective to transfer any liability for costs recoverable under this section. The fund, board, or department of natural resources may proceed directly against the owner or operator or other allegedly responsible party. This section does not bar any agreement to insure, hold harmless, or indemnify a party to the agreement for any costs or expenditures under this chapter, and does not modify rights between the parties to an agreement.

9. *Later proceedings permitted against other parties.* The entry of judgment against a party to the action does not bar a future action by the board or the department of natural resources against another person who is later alleged to be or discovered to be liable for costs and expenditures paid by the fund. Subsequent successful proceedings against another party shall not modify or reduce the liability of a party against whom judgment has been previously entered.

10. *Subrogation rights.* Payment of a claim by the fund pursuant to this chapter shall be conditioned upon the board's acquiring by subrogation the rights of the claimant to recover those costs and expenditures for corrective action for which the fund has compensated the claimant, from the person responsible or liable for the unauthorized release. A claimant is precluded from receiving double compensation for the same injury.

In an action brought pursuant to this chapter seeking damages for corrective action or third-party liability, the court shall permit evidence and argument as to the replacement or indemnification of actual economic losses incurred or to be incurred in the future by the claimant by reason of insurance benefits, governmental benefits or programs, or from any other source.

11. *Exclusion of punitive damages.* The fund shall not be liable in any case for punitive damages.

89 Acts, ch 131, §54

455G.14 Fund not subject to regulation.

The fund, including but not limited to insurance coverage offered by the insurance account, is not subject to regulation under chapter 502 or title XX, chapters 505 through 523C.

89 Acts, ch 131, §55

455G.15 Fund not part of the Iowa insurance guaranty association.

Notwithstanding any other provisions of law to the contrary, the fund shall not be considered an insurance company or insurer under the laws of this state and shall not be a member of nor be entitled to claim against the Iowa insurance guaranty association created under chapter 515B.

89 Acts, ch 131, §56

455G.16 Financial institution participation in fund.

The board may impose conditions on the participation of a financial institution in the fund. Conditions shall be reasonably intended to increase the quantity of private capital available for loans to tank owners or operators who are small businesses within the meaning of section 455G.2. Additionally, the board may offer incentives to financial institutions meeting conditions imposed by the board. Incentives may include extended fund coverage of corrective action or third-party liability expenses, waiver of copayment or deductible requirements, or other benefits not offered to other participants, if reasonably intended to increase the quantity of private capital available for loans by an amount greater than the increased costs of the incentives to the fund.

89 Acts, ch 131, §57

455G.17 Inspectors — education — registration.

1. The board shall adopt certification procedures and standards for the following classes of persons as underground storage tank installation inspectors:

a. A licensed engineer, except that if underground storage tank installation is within the scope of practice of a particular class of licensed engineer, additional training shall not be required for that class. A licensed engineer for whom underground storage tank installation is within the scope of practice shall be an *"authorized inspector"*, rather than a *"certified inspector"*.

b. A fire marshal, or other person unaffiliated with the tank owner, operator, or installer.

2. The board shall adopt approved curriculum for training both engineers and fire marshals or other unaffiliated persons as a precondition to their certification as underground storage tank installation inspectors.

3. The board shall adopt approved curricula for training persons to install underground storage tanks in such a manner that the resulting installation may be certified under section 455G.11, subsection 6.

4. The department of natural resources shall adopt approved curricula for training persons to conduct corrective actions consistent with the requirements of the department of natural resources.

5. The board shall require by rule that all certified or authorized underground storage tank inspectors register with the board and that all persons trained to perform or performing certified tank in-

stallations register with the board. A person's failure to register shall not affect the person's certification, or the certification of an otherwise eligible installation performed by that person, but rules may provide for a civil penalty of no more than fifty dollars. The board may provide a list of registrants to any interested person. The board may impose a fee for registration to recover the costs of administering the registration account.

467A.4 Soil conservation division — committee.

1. The soil conservation division is established within the department to perform the functions conferred upon it in chapters 83, 83A, and 467A through 467F. The division shall be administered in accordance with the policies of the state soil conservation committee, which shall advise the division and which shall approve administrative rules proposed by the division for the administration of chapters 83, 83A, and 467A through 467F before the rules are adopted pursuant to section 17A.5. If a difference exists between the committee and secretary regarding the content of a proposed rule, the secretary shall notify the chairperson of the committee of the difference within thirty days from the committee's action on the rule. The secretary and the committee shall meet to resolve the difference within thirty days after the secretary provides the committee with notice of the difference.

The state soil conservation committee consists of a chairperson and eight other voting members. The following shall serve as ex officio nonvoting members of the committee: The director of the Iowa cooperative extension service in agriculture and home economics, or the director's designee; and the director of the department of natural resources or the director's designee. Nine voting members shall be appointed by the governor subject to confirmation by the senate. Six of the appointive members shall be persons engaged in actual farming operations, one of whom shall be a resident of each of six geographic regions in the state, including northwest, southwest, north central, south central, northeast, and southeast Iowa, and no more than one of whom shall be a resident of any one county. The boundaries of the geographic regions shall be established by rule. The seventh, eighth, and ninth appointive members shall be chosen by the governor from the state at large with one appointed to be a representative of cities, one appointed to be a representative of the mining industry, and one appointee who is a farmer actively engaged in tree farming. The committee may invite the secretary of agriculture of the United States to appoint one person to serve with the other members, and the president of the Iowa county engineers association may designate a member of the association to serve in the same manner, but these persons have no vote and shall serve in an advisory capacity only. The committee may perform acts, hold public hearings, and propose and approve rules pursuant to chapter 17A as necessary for the execution of its functions.

2. The committee shall recommend three persons to the secretary of agriculture who shall appoint from the persons recommended an administrative director to head the division who shall serve at the pleasure of the secretary. After reviewing the names submitted, the secretary may request the soil conservation committee to submit additional names for consideration. The committee shall recommend to the secretary each year a budget for the division. The secretary, at the earliest opportunity and prior to formulating a budget, shall meet with representatives of the committee to discuss the committee's recommendation. The committee or division may call upon the attorney general of the state for necessary legal services. The committee may delegate to its chairperson, to one or more of its members, or to one or more agents or employees, powers and duties as it deems proper. Upon request of the committee, for the purpose of carrying out any of the functions assigned the committee or the department by law, the supervising officer of any state agency, or of any state institution of learning shall, insofar as possible under available appropriations, and having due regard to the needs of the agency to which the request is directed, assign or detail the request to the staff or personnel of the agency or institution of learning, and make the special reports, surveys, or studies as the committee requests.

3. The committee shall designate its chairperson, and may change the designation. The members appointed by the governor shall serve for a period of six years. Members shall be appointed in each odd-numbered year to succeed members whose terms expire as provided by section 69.19. Appointments may be made at other times and for other periods as necessary to fill vacancies on the committee. Members shall not be appointed to serve more than two complete six-year terms. Members designated to represent the director of the department of natural resources and the director of the Iowa cooperative extension service in agriculture and home economics shall serve at the pleasure of the officer making the designation. A majority of the voting members of the committee constitutes a quorum, and the concurrence of a majority of the voting members of the committee in any matter within their duties is required for its determination. Members are entitled to actual expenses necessarily incurred in the discharge of their duties as members of the committee. The expenses paid to the committee members shall be paid from funds appropriated to the department. Each member of the committee may also be eligible to receive compensation as provided in section 7E.6. The committee shall provide for the execution of surety bonds for all employees and officers who are entrusted with funds or property, shall provide for the keeping of a full and accurate record of all proceedings and of all resolutions and orders issued or adopted, and shall provide for an annual audit of the accounts of receipts and disbursements.

4. In addition to other duties and powers conferred upon the division of soil conservation, the division has the following duties and powers:

a. To offer assistance as appropriate to the commissioners of soil and water conservation districts in carrying out any of their powers and programs.

b. To take notice of each district's long-range resource conservation plan established under section 467A.7, in order to keep the commissioners of each of the several districts informed of the activities and experience of all other districts, and to facilitate an interchange of advice and experience between such districts and co-operation between them.

c. To co-ordinate the programs of the soil and water conservation districts so far as this may be done by advice and consultation.

d. To secure the co-operation and assistance of the United States and any of its agencies, and of agencies of this state, in the work of such districts.

e. To disseminate information throughout the state concerning the activities and program of the soil and water conservation districts.

f. To render financial aid and assistance to soil and water conservation districts for the purpose of carrying out the policy stated in this chapter.

g. To assist each soil and water conservation district in developing a district soil and water resource conservation plan as provided under section 467A.7. The plan shall be developed according to rules adopted by the division to preserve and protect the public interest in the soil and water resources of this state for future generations and for this purpose to encourage, promote, facilitate, and where such public interest requires, to mandate the conservation and proper control of and use of the soil and water resources of this state, by measures including, but not limited to, the control of floods, the control of erosion by water or by wind, the preservation of the quality of water for its optimum use for agricultural, irrigation, recreational, industrial, and domestic purposes, all of which shall be presumed to be conducive to the public health, convenience, and welfare, both present and future.

h. To file the district soil and water resource conservation plans as part of a state soil and water resource conservation plan. The state plan shall contain on a statewide basis the information required for a district plan under this section.

i. To establish a position of state drainage coordinator for drainage districts and drainage and levee districts which will keep the management of those districts informed of the activities and experience of all other such districts and facilitate an interchange of advice, experience and cooperation among the districts, coordinate by advice and consultation the programs of the districts, secure the cooperation and assistance of the United States and its agencies and of the agencies of this state and other states in the work of the districts, disseminate information throughout the state concerning the activities and programs of the districts and provide other appropriate assistance to the districts.

SOIL AND WATER CONSERVATION DISTRICTS

467A.5 Soil and water conservation districts.

1. The one hundred soil and water conservation districts* established in the manner which was prescribed by law prior to July 1, 1975 shall continue in existence with the boundaries and the names* in effect on July 1, 1975. If the existence of a district so established is discontinued pursuant to section 467A.10, a petition for re-establishment of the district or for annexation of the former district's territory to any other abutting district may be submitted to, and shall be acted upon by, the state soil conservation committee in substantially the manner provided by section 467A.5, Code 1975.

2. The governing body of each district shall consist of five commissioners elected on a nonpartisan basis for staggered six-year terms commencing on the first day of January that is not a Sunday or holiday following their election. Any eligible elector residing in the district is eligible to the office of commissioner, except that no more than one commissioner shall at any one time be a resident of any one township. A vacancy is created in the office of any commissioner who changes residence into a township where another commissioner then resides. A vacancy in the office of commissioner shall be filled by appointment of the state soil conservation committee until the next succeeding general election, at which time the balance of the unexpired term shall be filled as provided by section 69.12.

3. At each general election a successor shall be chosen for each commissioner whose term will expire in the succeeding January. Nomination of candidates for the office of commissioner shall be made by petition in accordance with chapter 45, except that each candidate's nominating petition shall be signed by at least twenty-five eligible electors of the district. The petition form shall be furnished by the county commissioner of elections. Every candidate shall file with the nomination papers an affidavit stating the candidate's name, the candidate's residence, that the person is a candidate and is eligible for the office of commissioner, and that if elected the candidate will qualify for the office. The signed petitions shall be filed with the county commissioner of elections not later than five p.m. on the sixty-ninth day before the general election. The votes for the office of district commissioner shall be canvassed in the same manner as the votes for county officers, and the returns shall be certified to the commissioners of the district. A plurality is sufficient to elect commissioners, and a primary election for the office shall not be held. If the canvass shows that the two candidates receiving the highest and the second highest number of votes for the office of district commissioner are both residents of the same township, the board shall certify as elected the candidate who received the highest number of votes for the office and the candidate re-

ceiving the next highest number of votes for the office who is not a resident of the same township as the candidate receiving the highest number of votes.

The commissioners shall furnish to the division of soil conservation, upon request, copies of such ordinances, rules, regulations, orders, contracts, forms, and other documents as they shall adopt or employ, and such other information concerning their activities as it may require in the performance of its duties under this chapter.

The commissioners shall provide for the execution of surety bonds for all employees and officers who shall be entrusted with funds or property; shall provide for the keeping of a full and accurate record of all proceedings and of all resolutions, regulations, and orders issued or adopted; and shall provide for a biennial audit of the accounts of receipts and disbursements.

The commissioners may invite the legislative body of any municipality or county located near the territory comprised within the district to designate a representative to advise and consult with the commissioners of the district on all questions of program and policy which may affect the property, water supply, or other interests of such municipality or county.

467A.7 Powers of districts and commissioners.

A soil and water conservation district organized under this chapter has the following powers, in addition to others granted in other sections of this chapter:

1. To conduct surveys, investigations, and research relating to the character of soil erosion and erosion, floodwater, and sediment damages, and the preventive and control measures needed, to publish the results of such surveys, investigations or research, and to disseminate information concerning such preventive and control measures; provided, however, that in order to avoid duplication of research activities, no district shall initiate any research program except in co-operation with the Iowa agricultural experiment station located at Ames, Iowa, and pursuant to a co-operative agreement entered into between the Iowa agricultural experiment station and such district.

2. To conduct demonstrational projects within the district on lands owned or controlled by this state or any of its agencies, with the consent and co-operation of the agency administering and having jurisdiction thereof, and on any other lands within the district upon obtaining the consent of the owner or occupier of such lands or the necessary rights or interests in such lands, in order to demonstrate by example the means, methods, and measures by which soil and soil resources may be conserved, and soil erosion in the form of soil blowing and soil washing may be prevented and controlled; provided, however, that in order to avoid duplication of agricultural extension activities, no district shall initiate any demonstrational projects, except in co-operation with the Iowa agricultural extension service whose offices are located at Ames, Iowa, and pursuant to a co-operative agreement entered into between the Iowa agricultural extension service and such district.

3. To carry out preventive and control measures within the district, including, but not limited to, crop rotations, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and the measures listed in section 467A.2, on lands owned or controlled by this state or any of its agencies, with the consent and co-operation of the agency administering and having jurisdiction thereof, and on any other lands within the district, upon obtaining the consent of the owner or occupier of such lands or the necessary rights or interests in such lands. Any approval or permits from the council required under other provisions of law shall be obtained by the district prior to initiation of any construction activity.

4. To co-operate, or enter into agreements with, and within the limits of appropriations duly made available to it by law, to furnish financial or other aid to any agency, governmental or otherwise, or any owner or occupier of lands within the district, in the carrying on of erosion-control and watershed protection and flood prevention operations within the district, subject to such conditions as the commission-

ers may deem necessary to advance the purposes of this chapter.

5. To obtain options upon and to acquire, by purchase, exchange, lease, gift, grant, bequest, devise or otherwise, any property, real or personal, or rights or interests therein; to maintain, administer, and improve any properties acquired, to receive income from such properties and to expend such income in carrying out the purposes and provisions of this chapter; and to sell, lease or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this chapter.

6. To make available on such terms as it shall prescribe, to landowners or occupiers within the district, agricultural and engineering machinery and equipment, fertilizer, lime, and such other material or equipment as will assist such landowners or occupiers to carry on operations upon their lands for the conservation of soil resources and for the prevention and control of soil erosion and for the prevention of erosion, floodwater, and sediment damages.

7. To construct, improve, and maintain such structures as may be necessary or convenient for the performance of any of the operations authorized in this chapter. Any approval or permits from the council required under other provisions of law shall be obtained by the district prior to initiation of any construction activity.

8. To develop comprehensive plans for the conservation of soil resources and for the control and prevention of soil erosion and for the prevention of erosion, floodwater, and sediment damages within the district, which plans shall specify in such detail as may be possible, the acts, procedures, performances, and avoidances which are necessary or desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; and to publish such plans and information and bring them to the attention of owners and occupiers of lands within the district.

9. To sue and be sued in the name of the district; to have a seal, which seal shall be judicially noticed; to have perpetual succession unless terminated as hereinafter provided; to make and execute contracts and other instruments, necessary or convenient to the exercise of its powers; to make, and from time to time amend and repeal, rules not inconsistent with this chapter, to carry into effect its purposes and powers.

10. To accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies, or from this state or any of its agencies, and to use or expend such moneys, services, materials, or other contributions in carrying on its operations.

11. As a condition to the extending of any benefits under this chapter to, or the performance of work upon, any lands not owned or controlled by this state or any of its agencies, the commissioners may require contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require landowners or occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion thereon.

12. No provisions with respect to the acquisition, operation, or disposition of property by other public bodies shall be applicable to a district organized hereunder unless the legislature shall specifically so state.

13. After the formation of any district under the provisions of this chapter, all participation hereunder shall be purely voluntary, except as specifically stated herein.

14. Subject to the approval of the state soil conservation committee, to change the name of the soil and water conservation district.

15. Reserved.

16. The commissioners shall, as a condition for the receipt of any state cost-sharing funds for permanent soil conservation practices, require the owner of the land on which the practices are to be established to covenant and file, in the office of the soil and water conservation district of the county in which the land is located, an agreement identifying the particular lands upon which the practices for which state cost-sharing funds are to be received will be established, and providing that the project will not be removed, altered, or modified so as to lessen its effectiveness without the consent of the commissioners, obtained in advance and based on guidelines drawn up by the state soil conservation committee, for a period of twenty years after the date of receiving payment. The commissioners shall assist the division in the enforcement of this subsection. The agreement does not create a lien on the land, but is a charge personally against the owner of the land at the time of removal, alteration, or modification if an administrative order is made under section 467A.61, subsection 3.

17. To enter into special funding agreements which, notwithstanding subsection 4, provide for cost sharing up to sixty percent of the cost of a project including five or more contiguous farm units which have at least five hundred or more acres of farmland and which constitute at least seventy-five percent of the agricultrual land lying within a watershed or subwatershed, where the owners jointly agree to a watershed conservation plan in conjunction with their respective farm unit soil conservation plans.

18. To encourage local school districts to provide instruction in the importance of and in some of the basic methods of soil conservation, as a part of course work relating to conservation of natural resources and environmental awareness required in rules adopted by the state board of education pursuant to section 256.11, subsections 3 and 4, and to offer technical assistance to schools in developing such instructional programs.

19. To make incentive payments to encourage summer construction of permanent soil and water

conservation practices, provided that the commissioners of a soil and water conservation district shall not use state cost-sharing funds to pay such incentives in any fiscal year when requests which seek cost sharing for eligible permanent soil and water conservation practices, but which do not seek incentive payments under this subsection, are sufficient to use all of the state cost-sharing funds made available to the district for that year. Incentive payments made under this subsection may, notwithstanding subsection 4, provide for cost sharing up to sixty percent of the cost of establishing any permanent soil and water conservation practice where the establishment of that practice involves a construction project which begins after June 1 but before August 15 of any calendar year. Incentive payments under this subsection may also include, or may be limited to a pro rata amount, in accordance with rules of the department, to compensate for production loss on the area disturbed for construction of practices.

20. To develop a soil and water resource conservation plan for the district.

a. The district plan shall contain a comprehensive long-range assessment of soil and surface water resources in the district consistent with rules approved by the committee under section 467A.4. In developing the plan the district may receive technical support from the United States department of agriculture's soil conservation service and the county board of supervisors in the county where the district is located. The division and the Iowa cooperative extension service in agriculture and home economics may provide technical support to the district. The support may include, but is not limited to, the following: assessing the condition of soil and surface water in the district, including an evaluation of the type, amount, and quality of soil and water, the threat of soil erosion and erosion, floodwater, and sediment damages, and necessary preventative and control measures; developing methods to maintain or improve soil and water condition; and cooperating with other state and federal agencies to carry out this support.

b. The district plan shall be filed with the recorder in the county in which the district is located and shall be filed with the division as part of the state soil and water resource conservation plan, and amended or updated as necessary, after the committee approves the district plan and after the administrator of the division signs the district plan. The commissioners shall provide notice of the filing and may provide a copy of the approved district plan to the county board of supervisors in the county where the district is located.

21. To enter into agreements pursuant to chapter 467F with the owner or occupier of land within the district or cooperating districts, or any other private entity or public agency, in carrying out water protection practices, including district and multidistrict projects to protect this state's groundwater and surface water from point and nonpoint sources of contamination, including but not limited to agricultural drainage wells, sinkholes, sedimentation, and chemical pollutants.

467A.8 Co-operation between districts.

The commissioners of any two or more districts organized under the provisions of this chapter may co-operate with one another in the exercise of any or all powers conferred in this chapter.

[C39, §**2603.10**; C46, §160.8; C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §467A.8]

467A.9 State agencies to co-operate.

Agencies of this state which shall have jurisdiction over, or be charged with the administration of, any state-owned lands, and of any county, or other governmental subdivision of the state, which shall have jurisdiction over, or be charged with the administration of, any county-owned or other publicly owned lands, lying within the boundaries of any district organized hereunder, may co-operate to the fullest extent with the commissioners of such districts in the effectuation of programs and operations undertaken by the commissioners under the provisions of this chapter.

[C39, §**2603.11**; C46, §160.9; C50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §467A.9]

467A.10 Discontinuance of districts.

At any time after five years after the organization of a district under this chapter, any twenty-five owners of land lying within the boundaries of the district, but in no case less than twenty percent of the owners of land lying within the district, may file a petition with the committee asking that the operations of the district be terminated and the existence of the district discontinued. The committee may conduct public meetings and public hearings upon the petition as necessary to assist in the consideration of the petition. Within sixty days after a petition has been received by the committee, the division shall give due notice of the holding of a referendum, shall supervise the referendum, and shall issue appropriate rules governing the conduct of the referendum. The question is to be submitted by ballots upon which the words "For terminating the existence of the .... (name of the soil and water conservation district to be here inserted)" and "Against terminating the existence of the ..... (name of the soil and water conservation district to be here inserted)" shall be printed, with a square before each proposition and a direction to insert an X mark in the square before one or the other of the propositions as the voter favors or opposes discontinuance of the district. All owners of lands lying within the boundaries of the district are eligible to

vote in the referendum. No informalities in the conduct of the referendum or in any matters relating to the referendum invalidate the referendum or the result of the referendum if notice was given substantially as provided in this section and if the referendum was fairly conducted.

When sixty-five percent of the landowners vote to terminate the existence of the district, the committee shall advise the commissioners to terminate the affairs of the district. The commissioners shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of the sale to be deposited into the state treasury. The commissioners shall then file an application, duly verified, with the secretary of state for the discontinuance of the district, and shall transmit with the application the certificate of the committee setting forth the determination of the committee that the continued operation of the district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as provided in this section, and shall set forth a full accounting of the properties and proceeds of the sale. The secretary of state shall issue to the commissioners a certificate of dissolution and shall record the certificate in an appropriate book of record in the secretary of state's office.

Upon issuance of a certificate of dissolution under this section, all ordinances and regulations previously adopted and in force within the districts are of no further force and effect. All contracts previously entered into, to which the district or commissioners are parties, remain in force and effect for the period provided in the contracts. The committee is substituted for the district or commissioners as party to the contracts. The committee is entitled to all benefits and subject to all liabilities under the contracts and has the same right and liability to perform, to require performance, to sue and be sued, and to modify or terminate the contracts by mutual consent or otherwise, as the commissioners of the district would have had.

The committee shall not entertain petitions for the discontinuance of any district nor conduct referenda upon discontinuance petitions nor make determinations pursuant to the petitions in accordance with this chapter, more often than once in five years.

SUBDISTRICTS

467A.13 Purpose of subdistricts.

Subdistricts of a soil and water conservation district may be formed as provided in this chapter for the purposes of carrying out watershed protection and flood prevention programs within the subdistrict but shall not be formed solely for the purpose of establishing or taking over the operation of an existing drainage district.

467A.14 Petition to form.

When the landowners in a proposed subdistrict desire that a subdistrict be organized, they shall file a petition with the commissioners of the soil and water conservation district. The area must be contiguous and in the same watershed but it shall not include any area located within the boundaries of an incorporated city. The petition shall set forth an intelligible description by congressional subdivision, or otherwise, of the land suggested for inclusion in the subdistrict and shall state whether the special annual tax or special benefit assessments will be used, or whether the use of both is contemplated. The petition shall contain a brief statement giving the reasons for organization, and requesting that the proposed area be organized as a subdistrict, and must be signed by sixty-five percent of the landowners in the proposed subdistrict. Land already in one subdistrict cannot be included in another. The soil and water conservation district commissioners shall review the petition and if it is found adequate shall arrange for a hearing on it.

467A.15 Notice and hearing.

Within thirty days after a petition has been filed with the soil and water district commissioners, they shall fix a date, hour, and place for a hearing and direct the secretary to cause notice to be given to the owners of each tract of land, or lot, within the proposed subdistrict as shown by the transfer books of the auditor's office, and to each lienholder, or encumbrancer, of any such lands as shown by the county records, and to all other persons whom it may concern, and without naming individuals all actual occupants of land in the proposed subdistrict, of the pendency and purpose of the petition and that all objections to establishment of the subdistrict for any reason must be made in writing and filed with the secretary of the soil and water conservation district at, or before, the time set for hearing. The soil and water conservation district commissioners shall consider and determine whether the operation of the subdistrict within the defined boundaries as proposed is desirable, practicable, feasible, and of necessity in the interest of health, safety, and public welfare. All interested parties may attend the hearing and be heard. The soil and water district commissioners may for good cause adjourn the hearing to a day certain which shall be announced at the time of adjournment and made a matter of record. If the soil and water district commissioners determine that the petition meets the requirements set forth in this section and in section 467A.5, they shall declare that the subdistrict is duly organized and shall record such action in their official minutes together with an appropriate official name or designation for the subdistrict.

The notice of hearing on the formation of a subdistrict shall be by publication once each week for two consecutive weeks in some newspaper of general circulation published in the county or district, the last of which shall be not less than ten days prior to the day set for the hearing on the petition. If the proposed subdistrict lies in more than one soil and water conservation district, the petition may be presented to the commissioners of any one of such districts, and the commissioners of all such districts shall act jointly as a board of commissioners with respect to all matters concerning the subdistrict, including its formation. They shall organize as a single board for such purposes and shall designate its chairperson, vice chairperson, and secretary-treasurer to serve for terms of one year. Such a subdistrict shall be formed in the same manner and has the same powers and duties as a subdistrict formed in one soil and water conservation district.

467A.18 Authentication.

Following the entry in the official minutes of the soil and water district commissioners of the creation of the subdistrict, the commissioners shall certify this fact on a separate form, authentic copies of which shall be recorded with the county recorder of each county in which any portion of the subdistrict lies, and with the division of soil conservation.

467A.19 Governing body.

The commissioners of a soil and water conservation district in which the subdistrict is formed are the governing body of the subdistrict. When a subdistrict lies in more than one soil and water conservation district, the combined board of commissioners is the governing body. The governing body of the subdistrict shall appoint three trustees living within the subdistrict to assist with the administration of the subdistrict.

467A.20 Special annual tax.

After obtaining agreements to carry out recommended soil conservation measures and proper farm plans from owners of not less than fifty percent of the lands situated in the subdistrict, a subdistrict shall have the authority to impose a special annual tax, the proceeds of which shall be used for the repayment of actual and necessary expenses incurred to organize the subdistrict, to acquire land or rights or interests therein by purchase or condemnation, repair, alteration, maintenance and operation of the present and future works of improvement within its boundaries.

On or before January 10 of each year its governing body shall make an estimate of the amount it deems necessary to be raised by such special tax for the ensuing year and transmit said estimate in dollars to the board of supervisors of the county in which the subdistrict lies.

If portions of the subdistrict are in more than one county, then the governing body, as hereinbefore designated in such event, after arriving at the estimate in dollars deemed necessary for the entire subdistrict shall ratably apportion such amount between the counties and transmit and certify the prorated portion to the respective boards of supervisors of each of the counties.

The board or boards of supervisors shall upon receipt of certification from the governing body of the

district make the necessary levy on the assessed valuation of all real estate within the boundaries of the subdistrict lying within their respective county to raise said amounts, but in no event to exceed one dollar and eight cents per thousand dollars of assessed value.

The special tax so levied shall be collected in the same manner as other taxes with like penalty for delinquency, with the proceeds therefrom to be kept in a separate account by the appropriate county treasurer or treasurers identified by the official name of the subdistrict and expenditures therefrom shall be made on requisition of the chairperson and secretary of the governing body of the subdistrict.

467A.22 General powers applicable — warrants or bonds.

A subdistrict organized under this chapter has all of the powers of a soil and water conservation district in addition to other powers granted to the subdistrict in other sections of this chapter.

The governing body of the subdistrict, upon determination that benefits from works of improvement as set forth in the watershed work plan to be installed will exceed costs thereof, and that funds needed for purposes of the subdistrict require levy of a special benefit assessment as provided in section 467A.23, in lieu of the special annual tax as provided in section 467A.20, shall record its decision to use its taxing authority and, upon majority vote of the governing body and with the approval of the state soil conservation committee, may issue warrants or bonds payable in not more than forty semiannual installments in connection with the special benefit assessment, and pledge and assign the proceeds of the special benefit assessment and other revenues of the subdistrict as security for the warrants or bonds. The warrants and bonds of indebtedness are general obligations of the subdistrict, exempt from all taxes, state and local, and are not indebtedness of the soil and water conservation district or the state of Iowa.

DIVISION IV

ALTERNATE METHOD OF TAXATION FOR WATERSHED PROTECTION AND FLOOD PREVENTION

467A.23 Agreement by fifty percent of landowners.

After obtaining agreements to carry out recommended soil conservation measures and proper farm plans from owners of not less than fifty percent of the lands situated in the subdistrict, the governing body of the subdistrict shall have the authority to establish a special tax for the purpose of organization, construction, repair, alteration, enlargement, extension and operation of present and future works of improvement within the boundaries of said subdistrict. The governing body shall appoint three appraisers to assess benefits and classify the land affected by such improvements. One of such appraisers shall be a competent registered professional engineer and two of them shall be resident landowners of the county or counties in which the subdistrict is located but not living within nor owning or operating any lands included in said subdistrict.

The appraisers shall take and subscribe an oath of their qualifications and to perform the duties of classification of said lands, fix the percentages, benefits and apportion and assess the costs and expenses of construction of the said improvement according to law and their best judgment, skill, and ability. If said appraisers or any of them fail or neglect to act or perform the duties in the time and as required of them by law, the governing body of the subdistrict shall appoint others with like qualifications to take their places and perform said duties.

467A.24 Assessment for improvements.

At the time of appointing said appraisers, the governing body shall fix the time within which said assessment, classification, and apportionment shall be made, which may be extended for good cause shown. Within twenty days after their appointment, they shall begin to inspect and classify all the lands within said district, or any change, extension, enlargement, or relocation thereof in tracts of forty acres or less according to the legal or recognized subdivisions, in a graduated scale of benefits to be numbered according to the benefit to be received by each of such tracts from such improvement, and pursue said work continuously until completed and, when completed, shall make a full, accurate, and detailed report thereof and file the same with the governing body. The lands receiving the greatest benefit shall be marked on a scale of one hundred, and those benefited in a less degree with such percentage of one hundred as the benefits received bear in proportion thereto.

The amount of benefit appraised to each forty acres of land within the subdistrict shall be determined by the improvements within said subdistrict based upon the work plan as agreed upon by the subdistrict.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.24]

467A.25 Report of appraisers.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.25]

467A.26 Hearing.

The governing body shall fix a time for a hearing within sixty days upon receiving the report of the appraisers, and the governing body shall cause notice to be served upon each person not less than ten days before said hearing whose name appears as owner, naming that person, and also upon the person or persons in actual occupancy of any tract of land without naming them of the day and hour of such hearing, which notice shall be for the same time and served in the same manner as is provided for the establishment of a subdistrict, and shall state the amount of assessment of costs and expenses of organizing and construction apportioned to each owner upon each forty-acre tract or less, and that all objections thereto must be in writing and filed with the governing body at or before the time set for such hearing.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.26]

467A.27 Determination by board.

At the time fixed or at an adjourned hearing, the governing body shall hear and determine all objections filed to said report and shall fully consider the said report, and may affirm, increase, or diminish the percentage of benefits or the apportionment of costs and expenses made in said report against any body or tract of land in said subdistrict as may appear to the board to be just and equitable.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.27]

467A.28 Appeal.

Any person aggrieved may appeal from any final action of the governing body in relation to any matter involving the person's rights, to the district court of the county in which the proceeding was held.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.29]

467A.30 Notice of appeal.

All appeals shall be taken within twenty days after the date of final action or order of the governing body from which such appeal is taken by filing with the auditor a notice of appeal, designating the court to which the appeal is taken, the order or action appealed from, and stating that the appeal will come on for hearing thirty days following perfection of the appeal with allowances of additional time for good cause shown. This notice shall be accompanied by an appeal bond with sureties to be approved by the auditor conditioned to pay all costs adjudged against the appellant and to abide the orders of the court.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.30]

Within twenty days after perfection of notice, the appellant shall file a petition setting forth the order or final action of the governing body appealed from and the grounds of the appellant's objections and the appellant's complaint, with a copy of the appellant's claim for damages or objections filed by the appellant with the auditor. The appellant shall pay to the clerk the filing fee as provided by law in other cases. A failure to pay the filing fee or to file such petition shall be deemed a waiver of the appeal and in such case the court shall dismiss the same.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.31]

467A.32 Assessment certified.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.32]

The governing body upon receiving the reports from three appointed appraisers and after holding the hearings shall transmit and certify the amounts of assessments to the respective boards of supervisors which upon receipt of certification from the governing body of the district, make the necessary levy of such assessments as fixed by the governing body upon the land within such subdistrict and all assessments shall be levied at that time as a tax and shall bear interest at a rate not exceeding that permitted by chapter 74A from that date payable annually except as hereafter provided as to cash payments therefor within a specified time. The assessment so levied shall be kept in a separate account by the appropriate county treasurer or treasurers, identified by the official name of the subdistrict and expenditures therefrom shall be made on requisition of the chairperson and secretary of the governing body of the subdistrict.

At no time will an assessment be made where the benefits accrued to the subdistrict do not exceed the cost of the improvements within the said subdistrict.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.33]

467A.34 Payment to county treasurer.

All assessments for benefits shall be levied at one time against the property benefited and when levied and certified by the board or boards of supervisors shall be paid at the office of the county treasurer. Each person or corporation shall have the right within twenty days after the levy of assessments to pay the person's or corporation's assessment in full without interest.

If any levy of assessments is not sufficient to meet the cost and expenses of organizing and construction

apportioned to each owner upon each forty-acre tract or less, additional assessments may be made on the same classification as the previous ones.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.34]

467A.35 Installments.

If the owner of any premises against which a levy exceeding twenty dollars has been made and certified shall, within thirty days from the date of such levy, agree in writing in a separate agreement, that in consideration of having a right to pay the owner's assessment in installments, the owner will not make any objection as to the legality of the assessment for benefit, or the levy of the taxes against the owner's property, then such owner shall have the following options:

1. To pay one half of the amount of such assessment at the time of filing such agreement and the remaining one half shall become due and payable one year from the date of filing such agreement. All such installments shall be without interest if paid at said times, otherwise said assessments shall bear interest from the date of the levy at a rate fixed by the governing body of the subdistrict, but not exceeding that permitted by chapter 74A, payable annually, and be collected as other taxes on real estate, with like penalty for delinquency.

2. To pay such assessments in not less than ten nor more than forty equal installments, the number to be fixed by the governing body of the subdistrict and interest at the rate fixed by the governing body of the subdistrict, not exceeding that permitted by chapter 74A. The first installment of each assessment shall become due and payable at the October semiannual tax paying date after the date of filing such agreement, unless the agreement is filed with the county auditor less than thirty days prior to such October semiannual tax paying date, in that event, the first installment shall become due and payable at the next succeeding October semiannual tax paying date. The second and each subsequent installment shall become due and payable at the October semiannual tax paying date each year thereafter. All such installments shall be collected with interest accrued on the unpaid balance to the October semiannual tax paying date and as other taxes on real estate, with like penalty for delinquency.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.36]

467A.37 Status of classification.

A classification of land for watershed purposes, when finally adopted, shall remain the basis of all future assessments for the purpose of said subdistrict, except as provided in section 467A.38.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.37]

467A.38 New classification.

After a subdistrict has been established and the improvements thereof constructed and put in operation, if the governing body shall find that the original assessments are not equitable as a basis for the expenses of any enlargement or extension thereof which may have become necessary, they shall order a new classification of all lands in said subdistrict by resolution, and appoint three appraisers, which shall meet the same requirements as set forth in section 467A.23.

Upon the completion of the reclassification, those affected by such reclassification shall have the right to appeal as hereinabove set forth.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.38]

467A.39 Benefit of whole subdistrict.

Assessments for repair, alteration, enlargement, extension, and operation of works of improvement within the watershed district shall be a benefit to the entire subdistrict and levied as such.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.39]

467A.40 Compensation of appraisers.

Persons appointed to appraise and make classifications of lands shall receive such compensation as the governing body may fix and in addition thereto, the necessary expenses of transportation of said persons while engaged in their work; such compensation and expenses shall be construed as part of the cost of the subdistrict which shall be included when considering classifications of lands within a subdistrict.

[C62, 66, 71, 73, 75, 77, 79, 81, §467A.40]

467A.41 Election of taxing methods.

Subdistricts organized under the provisions of this chapter shall designate in the petition which of the taxing methods will be used or may stipulate that both methods are contemplated for use. Should the governing body of the subdistrict find it desirable to change from a special annual tax to special benefit assessments it may elect to do so and shall institute proceedings described in sections 467A.23 through 467A.40 and may divert any moneys already collected under section 467A.20, for the purposes authorized in this chapter.

DIVISION V

SOIL AND WATER CONSERVATION PRACTICES

467A.42 Soil and water conservation practices.

In addition to the definitions established by section 467A.3, as used in sections 467A.43 to 467A.53 and sections 467A.61 to 467A.66, unless the context otherwise requires:

1. *"Soil loss limit"* means the maximum amount of soil loss due to erosion by water or wind, expressed in terms of tons per acre per year, which the commissioners of the respective soil and water conservation districts determine is acceptable in order to meet the objectives expressed in section 467D.1.*

2. *"Soil and water conservation practices"* means any of the practices designated in or pursuant to this subsection which serve to prevent erosion of soil by wind or water, in excess of applicable soil loss limits, from land used for agricultural or horticultural purposes only.

a. "Permanent soil and water conservation practices" means planting of perennial grasses, legumes, shrubs, or trees, the establishment of grassed waterways, and the construction of terraces, or other permanent soil and water practices approved by the committee.

b. "Temporary soil and water conservation practices" means planting of annual or biennial crops, use of strip-cropping, contour planting, or minimum or mulch tillage, and any other cultural practices approved by the committee.

3. *"Erosion control practices"* means:

a. The construction or installation, and maintenance, of such structures or devices as are necessary to carry to a suitable outlet from the site of any building housing four or more residential units, any commercial or industrial development or any publicly or privately owned recreational or service facility of any kind, not served by a central storm sewer system, any water which:

(1) Would otherwise cause erosion in excess of the applicable soil loss limit; and

(2) Does not carry nor constitute sewage, industrial waste, or other waste as defined by section 455B.171.

b. The employment of temporary devices or structures, temporary seeding, fibre mats, plastic, straw, or other measures adequate to prevent erosion in excess of the applicable soil loss limits from the site of, or land directly affected by, the construction of any public or private street, road or highway, any residential, commercial, or industrial building or development, or any publicly or privately owned recreational or service facility of any kind, at all times prior to completion of such construction.

c. The establishment and maintenance of vegetation upon the right of way of any completed portion of any public street, road, or highway, or the construction or installation thereon of structures or devices, or other measures adequate to prevent erosion from the right of way in excess of the applicable soil loss limits.

4. *"Agricultural land"* has the meaning assigned that term by section 172C.1.

5. *"Farm unit"* means a single contiguous tract of agricultural land, or two or more adjacent tracts of agricultural land, located within a single soil and water conservation district, upon which farming operations are being conducted by a person who owns or is purchasing or renting all of the land, or by that person's tenant or tenants. If a landowner has multiple farm tenants, the land on which farming operations are being conducted by each tenant is a separate farm unit. This definition does not prohibit land which is within a single soil and water conservation district and is owned or being purchased by the same person, or is being rented by the same tenant, from being treated as two or more farm units if the commissioners of the soil and water conservation district deem it preferable to do so.

6. *"Conservation folder"* means compiled information concerning the topography, soil composition, natural or artificial drainage characteristics, and other pertinent factors concerning a particular farm unit, which is necessary to the preparation of a sound and equitable conservation agreement for that farm unit. The specific items to be contained in a conservation folder shall be prescribed by administrative rules of the department. The department shall provide by rule that an updated farm plan prepared for a particular farm unit within ten years prior to the effective date of this subsection shall be considered an adequate replacement for the conservation folder for that farm unit.

7. *"Farm unit soil conservation plan"* means a plan jointly developed by the owner and, if appropriate, the operator of a farm unit and the commissioners of the soil and water conservation district within which that farm unit is located, based on the conservation folder for that farm unit and identifying those permanent soil and water conservation practices and temporary soil and water conservation practices the use of which may be expected to prevent soil loss by erosion from that farm unit in excess of the applicable soil loss limit or limits. The plan shall if practicable identify alternative practices by which this objective may be attained.

8. *"Conservation agreement"* means a commitment by the owner or operator of a farm unit to implement a farm unit soil conservation plan or, with the approval of the commissioners of the soil and water conservation district within which the farm unit is located, a portion of a farm unit soil conservation plan. The commitment shall be conditioned on the furnishing by the soil and water conservation district of technical or planning assistance in the establishment of, and cost sharing or other financial assistance for establishment and maintenance of the soil and water conservation practices necessary to implement the plan, or a portion of the plan.

467A.43 Duty of property owners.

To conserve the fertility, general usefulness, and value of the soil and soil resources of this state, and to prevent the injurious effects of soil erosion, it is hereby made the duty of the owners of real property in this state to establish and maintain soil and water conservation practices or erosion control practices, as required by the regulations of the commissioners of the respective soil and water conservation districts. As used in this section, "owners of real property in this state" includes each state government agency, each political subdivision of the state and each agency of such a political subdivision which has under its control publicly owned land, including but not limited to agricultural land, forests, parks, the grounds of state educational, penal and human service institutions, public highways, roads and streets, and other public rights of way.

467A.44 Rules by commissioners — scope.

The commissioners of each soil and water conservation district shall, with approval of and within time limits set by administrative order of the state soil conservation committee, adopt reasonable regulations as are deemed necessary to establish a soil loss limit or limits for the district and provide for the implementation of the limit or limits, and may subsequently amend or repeal their regulations as they deem necessary. The committee shall review the soil loss limit regulations adopted by the soil and water conservation districts at least once every five years, and shall recommend changes in the regulations of a soil and water conservation district which the committee deems necessary to assure that the district's soil loss limits are reasonable and attainable. The commissioners may:

1. Classify land in the district on the basis of topography, soil characteristics, current use, and other factors affecting propensity to soil erosion.

2. Establish different soil loss limits for different classes of land in the district if in their judgment and that of the state soil conservation committee a lower soil loss limit should be applied to some land than can reasonably be applied to other land in the district, it being the intent of the general assembly that no land in the state be assigned a soil loss limit that cannot reasonably be applied to such land.

3. Require the owners of real property in the district to employ either soil and water conservation practices or erosion control practices, and:

a. May not specify the particular practices to be employed so long as such owners voluntarily comply with the applicable soil loss limits established for the district.

b. May specify two or more approved soil and water conservation practices or erosion control practices, one of which shall be employed by the landowner to bring erosion from land under the landowner's control within the applicable soil loss limit of the district when an administrative order is issued to the landowner.

c. In no case may the commissioners require:

(1) The employment of erosion control practices as defined in section 467A.42, subsection 3, on land used in good faith for agricultural or horticultural purposes only.

(2) The employment of soil and water conservation practices or erosion control practices on that portion of any public street, road or highway completed or under construction within the corporate limits of any city, which is or will become the traveled or surfaced portion of such street, road, or highway.

(3) That any owner or operator of agricultural land refrain from fall plowing of land on which the owner or operator intends to raise a crop during the next succeeding growing season, however on those lands which are prone to excessive wind erosion the commissioners may require that reasonable temporary measures be taken to minimize the likelihood of wind erosion so long as such measures do not unduly increase the cost of operation of the farm on which the land is located. However, fall plowing of soil which is commonly known as gumbo shall always be permitted.

d. May require that a person under an order to employ soil and water conservation practices or erosion control practices submit up to three bids to the commissioners for the work and provide an explanation to the commissioners if a bid other than the lowest bid has been selected by that person.

467A.45 Submission of regulations to committee — hearing.

Regulations which the commissioners propose to adopt, amend, or repeal shall be submitted to the committee, in a form prescribed by the committee, for its approval. The committee may approve the regulations as submitted, or with amendments as it deems necessary. The commissioners shall, after approval, publish notice of hearing on the proposed regulations, as approved, in a newspaper of general circulation in the district, setting a date and time not less than ten nor more than thirty days after the publication when a hearing on the proposed regulations will be held at a specified place. The notice shall include the full text of the proposed regulations or shall state that the proposed regulations are on file and available for review at the office of the affected soil and water conservation district.

467A.46 Conduct of hearing.

At the hearing, the commissioners or their designees shall explain, in reasonable detail, the reasons why adoption, amendment, or repeal of the regulations is deemed necessary or advisable. Any landowner, or any occupant of land who would be affect-

ed by the regulations, shall be afforded an opportunity to be heard for or against the proposed regulations. At the conclusion of the hearing, the commissioners shall announce and enter of record their decision whether to adopt or modify the proposed regulations. Any modification must be approved by the committee, which may at its discretion order the commissioners to republish the regulations and hold another hearing in the manner prescribed by this chapter.

467A.47 Inspection of land on complaint.

The commissioners of a soil and water conservation district shall inspect or cause to be inspected any land within the district, upon receipt of a written and signed complaint, from an owner or occupant of land being damaged by sediment, that soil erosion is occurring on the land in excess of the limits established by the district's soil erosion control regulations. If they find that sediment damages are occurring to property owned or occupied by the person filing the complaint and that excess soil erosion is occurring on the land inspected, they shall issue an administrative order to the landowner or landowners of record, and to the occupant of the land if known to the commissioners, describing the land and stating as nearly as possible the extent to which soil erosion on the land exceeds the limits established by the district's regulations. The order shall be delivered either by personal service or by restricted certified mail to each of the persons to whom it is directed, and shall:

1. In the case of erosion occurring on the site of any construction project or similar undertaking involving the removal of all or a major portion of the vegetation or other cover, exposing bare soil directly to water or wind, state a time not more than five days after service or mailing of the notice of the order when work necessary to establish or maintain erosion control practices must be commenced, and a time not more than thirty days after service or mailing of the notice of the order when the work is to be satisfactorily completed.

2. In all other cases, state a time not more than six months after service or mailing of the notice of the order, by which work needed to establish or maintain the necessary soil and water conservation practices or erosion control measures must be commenced, and a time not more than one year after the service or mailing of the notice of the order when the work is to be satisfactorily completed, unless the requirements of the order are superseded by the provisions of section 467A.48.

467A.48 Application for public cost-sharing funds.

1. *a.* An owner or occupant of land in this state is not required to establish any new permanent or temporary soil and water conservation practice unless public or other cost-sharing funds have been specifically approved for that land and actually made available to the owner or occupant.

b. The owner or occupant of land is eligible to receive state cost-sharing funds to establish a permanent grass and buffer zone, including an erosion control structure or an erosion control practice to mitigate the effects of concentrated runoff on surface water quality.

c. The amount of cost-sharing funds made available shall not exceed fifty percent of the estimated cost as established by the commissioners of a permanent soil and water conservation practice, or fifty percent of the actual cost, whichever is less, or an amount set by the committee for a temporary soil and water conservation practice, except as otherwise provided by law with respect to land classified as agricultural land under conservation cover.

The amount of cost-sharing funds made available to establish a permanent grass and buffer zone may be up to one hundred percent of the estimated cost as established by the commissioners or one hundred percent of the actual cost, whichever is less.

The commissioners shall establish the estimated cost of permanent soil and water conservation practices in the district based upon one and two-tenths of the average cost of the practices installed in the district during the previous year. The average costs shall be reviewed and approved by the commissioners each calendar year.

2. The committee shall review these requirements once each year, and may authorize soil and water conservation district commissioners to make the mandatory establishment of any specified soil and water conservation practice in any particular case conditional on a higher proportion of public cost-sharing than is required by this section. When the commissioners have been so authorized, they shall, in determining the amount of cost-sharing for establishment of a specified soil and water conservation practice to comply with an administrative order issued pursuant to section 467A.47, consider the extent to which the practice will contribute benefits to the public in relation to the benefits that will accrue to the individual owner or occupant of the land on which the practice is to be established. Evidence that an application for public or other cost-sharing funds, from a source or sources having authority to pay a portion of the cost of work needed to comply with an administrative order issued pursuant to section 467A.47, has been submitted to the proper officer or agency constitutes commencement of the work within the meaning of sections 467A.43 through 467A.53.

3. Upon receiving evidence of the submission of an application, the commissioners shall forward to the officer or agency to which the application was made a written request to receive notification of the disposition of the application. When notified of the approval of the application, the commissioners shall issue to the same parties who received the original administrative order, or their successors in interest,

a supplementary order, to be delivered in the same manner as provided by sections 467A.43 to 467A.53 for delivery of original administrative orders. The supplementary order shall state a time, not more than six months after approval of the application for public cost-sharing funds, by which the work needed to comply with the original administrative order shall actually be commenced, and a time thereafter when the work is to be satisfactorily completed. If feasible, that time shall be within one year after the date of the supplementary order, but the owner of land on which a soil and water conservation practice is being established under this section is not required to incur a cost for the practice in any one calendar year which exceeds ten dollars per acre for each acre of land belonging to that owner and located in the county containing the land on which the required practice is being established or in counties contiguous to that county.

467A.49 Petition for court order.

The commissioners shall petition the district court for a court order requiring immediate compliance with an administrative order previously issued by the commissioners as provided in section 467A.47, if:

1. The work necessary to comply with the administrative order is not commenced on or before the date specified in such order, or in any supplementary order subsequently issued as provided in section 467A.48, unless in the judgment of the commissioners the failure to commence or complete the work as required by the administrative order is due to factors beyond the control of the person or persons to whom such order is directed and the person or persons can be relied upon to commence and complete the necessary work at the earliest possible time.

2. Such work is not being performed with due diligence, or is not satisfactorily completed by the date specified in the administrative order, or when completed does not reduce soil erosion from such land below the limits established by the soil and water conservation district's regulations.

3. The person or persons to whom the administrative order is directed advise the commissioners that they do not intend to commence or complete such work.

467A.50 Burden — court order.

In any action brought under section 467A.49, the burden of proof shall be upon the commissioners to show that soil erosion is in fact occurring in excess of the applicable soil loss limits and that the defendant has not established or maintained soil and water conservation practices or erosion control practices in compliance with the soil and water conservation district's regulations. With respect to construction, repair, or maintenance of any public street, road, or highway, evidence that soil erosion control standards equivalent to or in excess of those currently imposed by the United States government on the project or like projects involving use of federal funds shall create a presumption of compliance with the applicable soil loss limit. Upon receiving satisfactory proof, the court shall issue an order directing the landowner or landowners to comply with the administrative order previously issued by the commissioners. The court may modify such administrative order if deemed necessary. Notice of the court order shall be given either by personal service or by restricted certified mail to each of the persons to whom the order is directed, who may within thirty days from the date of the court order appeal to the supreme court. Any person who fails to comply with a court order issued pursuant to this section within the time specified in such order, unless the order has been stayed pending an appeal, shall be deemed in contempt of court and may be punished accordingly.

467A.51 Entering on land.

The commissioners and their authorized agents or employees may enter upon any private or public property, except private dwellings, at any reasonable time to classify land by soil sampling or other appropriate methods or to determine whether soil erosion is occurring on the property in violation of the district's regulations.

1. If the owner or occupant of any property refuses admittance, or if prior to such refusal the commissioners demonstrate the need for a warrant, the commissioners may make an application under oath or affirmation to the district court of the county in which the property is located for the issuance of a search warrant.

2. In the application the commissioners shall state that entry on the premises is mandated by the laws of this state or that entry is needed to conduct soil sampling necessary to classify soil in the district as specified in section 467A.44, subsection 1, or to determine whether soil erosion is occurring on the property in violation of the district's regulations. The application shall describe the area or premises, give the date of the last known investigation or sampling, give the date and time of the proposed inspection, declare the need for such inspection, recite that notice of desire to make an inspection has been given to affected persons and that admission was refused if that be the fact, and state that the inspection has no purpose other than to carry out the purpose of the statute, ordinance or regulation pursuant to which the inspection is to be made.

3. The court may issue a search warrant, after examination of the applicant and any witnesses, if the court is satisfied that there is probable cause to believe the existence of the allegations in the application.

4. In soil sampling and making investigations pursuant to a warrant, the commissioners must execute the warrant in a reasonable manner within the time period specified in the warrant.

467A.52 Repealed by 82 Acts, ch 1083, § 4.

467A.53 Co-operation with other agencies.

Soil and water conservation districts may enter into agreements with the federal government or an agency of the federal government, as provided by state law, or with the state of Iowa or an agency of the state, any other soil and water conservation district, or any other political subdivision of this state, for co-operation in preventing, controlling, or attempting to prevent or control soil erosion. Soil and water conservation districts may accept, as provided by state law, money disbursed for soil erosion control purposes by the federal government or an agency of the federal government, and expend the money for the purposes for which it was received.

467A.54 State agency conservation plans — exemptions.

Each state agency shall enter into an agreement with the soil and water conservation district in which the state agency has public land under its control in cultivation. The agreement shall contain a plan of the state agency to prevent soil erosion in excess of soil loss limits by the use of soil and water conservation practices and erosion control practices. This section applies to all public land which is used for horticultural or agricultural purposes. State soil conservation cost-sharing funds shall not be used on these public lands. Conservation plans required by this section shall be completed by July 1, 1986, and implementation shall occur consistent with the schedule contained in the conservation plan. Application for exemption from this section may be submitted to the appropriate soil and water conservation district. The exemption shall be granted for land upon which soil management research for the purposes of the study, evaluation, understanding and control of erosion, sedimentation and run-off water is conducted by or in conjunction with institutions governed by the board of regents.

467A.55 to 467A.60 Reserved.

467A.61 Discretionary inspection by commissioners — actions upon certain findings.

1. In addition to the authority granted by section 467A.47, the commissioners of a soil and water conservation district may inspect or cause to be inspected any land within the district on which they have reasonable grounds to believe that soil erosion is occurring in excess of the limits established by the district's soil erosion control regulations. If the commissioners find from an inspection conducted under authority of either section 467A.47 or this section that soil erosion is occurring on that land in excess of the applicable soil loss limits established by the district's soil erosion control regulations, they shall send notice of that finding to the landowner or landowners of record, and to the occupant of the land if known to the commissioners. The notice shall describe the land affected and shall state as nearly as possible the extent to which soil erosion from that land exceeds the applicable soil loss limits.

a. If the commissioners find that the excessive erosion described in the notice is not causing sediment damage to property owned or occupied by any person other than the owner or occupant of the land on which the excessive soil erosion is occurring, and that the rate of the excessive erosion is less than twice the applicable soil loss limit, the notice required by this subsection shall include or be accompanied by information regarding financial or other assistance which the commissioners are able to make available to the owner or occupant of the land to aid in achieving compliance with the applicable soil loss limits.

b. If the commissioners find that the excessive soil erosion described in the notice is not causing sediment damage to property owned or occupied by any person other than the owner or occupant of the land on which it is occurring, but that the erosion is occurring at a rate equal to or greater than twice the applicable soil loss limit, the notice shall so state, shall include or be accompanied by the information required by paragraph *"a"* of this subsection, and shall be delivered by personal service or by restricted certified mail to each of the persons to whom the notice is directed. A notice given under this paragraph shall also include or be accompanied by information explaining the provisions of subsection 2.

2. Beginning January 1, 1985, or five years after the completion of the conservation folder for a particular farm unit pursuant to this section, whichever date is later, the commissioners of the soil and water conservation district in which that farm unit is located may petition the district court for an appropriate order with respect to that farm unit if its owner or occupant has been sent a notice by the commissioners under subsection 1, paragraph *"b"* for three or more consecutive years. The commissioners' petition shall seek a court order which states a time not more than six months after the date of the order when the owner or occupant must commence, and a time when the owner or occupant must complete the steps necessary to comply with the order. The time allowed to complete the establishment of a temporary soil and water conservation practice employed to comply or advance toward compliance with the court's order shall be not more than one year after the date of that order, and the time allowed to complete the establishment of a permanent soil and water conservation practice employed to comply with the court's order shall be not more than five

years after the date of that order. Section 467A.48 applies to a court order issued under this subsection. The steps required of the farm unit owner or operator by the court order are those which are necessary to do one of the following:

a. Bring the farm unit which is the subject of the order into compliance with its farm unit soil conservation plan, if such a plan had been agreed upon prior to the time the commissioners petitioned for the order.

b. Bring the farm unit which is the subject of the order into compliance with a plan developed for that farm unit by the commissioners, in accordance with guidelines established by the division of soil conservation, and presented to the court as a part of the commissioners' petition, if a farm unit soil conservation plan has not previously been agreed upon for that farm unit. A plan presented to the court by the commissioners under this paragraph shall specify as many alternative approved soil and water conservation practices as feasible, among which the owner or occupant of the farm unit may choose in taking the steps necessary to comply with the court's order.

c. Bring the farm unit which is the subject of the order into compliance with a soil conservation plan developed by the owner or occupant of that farm unit as an alternative to the proposed soil conservation plan developed by the commissioners, if the owner or occupant so petitions the court and the court finds that the owner or occupant's plan will bring the farm unit into conformity with the applicable soil loss limits of the district.

3. The commissioners may also cause an inspection of land within the district on which they have reasonable grounds to believe that a permanent soil and water conservation practice established with public cost-sharing funds is not being properly maintained or is being altered in violation of section 467A.7, subsection 16. If the commissioners find that the practices are not being maintained or have been altered in violation of section 467A.7, subsection 16, the commissioners shall issue an administrative order to the landowner who made the unauthorized removal, alteration or modification to maintain, repair, or reconstruct the permanent soil and water conservation practices. The requirement for maintenance and repair is for the length of life as defined in section 467A.7, subsection 16. Public cost-sharing funds are not available for the work under this order. If the landowner fails to comply with the administrative order, the commissioners may petition the district court for an order compelling compliance with the order. Upon receiving satisfactory proof, the court shall issue an order directing compliance with the administrative order and may modify the administrative order. The provisions of section 467A.50 relating to notice, appeals and contempt of court shall apply to proceedings under this subsection.

467A.62 Duties of commissioners and of owners and occupants of agricultural land — restrictions on use of cost-sharing funds.

The commissioners of each soil and water conservation district shall seek to implement or to assist in implementing the following requirements:

1. Each farm unit shall be furnished a conservation folder complying with the rules of the department by the soil and water conservation district in which the farm unit is located, not later than January 1, 1985, or as soon thereafter as adequate funding is available to permit completion of a conservation folder for every farm unit in the state. Technical assistance in the development of the conservation folder may be provided by the United States department of agriculture soil conservation service through the memorandum of understanding with the district or by the department. The department shall provide by rule that an updated farm plan prepared for a particular farm unit within ten years prior to the effective date of this subsection shall be considered an adequate replacement for the conservation folder for that farm unit. Upon completion of the conservation folder for a particular farm unit, the district shall send the owner of that farm unit, and also the operator of the farm unit if known by the commissioners to be other than the owner, a letter offering that person or those persons a copy of the folder. The district shall keep a record of the date the folder is completed and the letter is sent. The folder shall be updated from time to time by the district as it deems necessary.

2. The commissioners of each soil and water conservation district shall complete preparation of a farm unit soil conservation plan for each farm unit within the district, not later than January 1, 1985, or five years after completion of the conservation folder for that farm unit, whichever date is later, or as soon thereafter as adequate funding is available to permit compliance with this requirement. Technical assistance in the development of the farm unit soil conservation plan may be provided by the United States department of agriculture soil conservation service through the memorandum of understanding with the district or by the department. The commissioners shall make every reasonable effort to consult with the owner and, if appropriate, with the operator of that farm unit, and to prepare the plan in a form which is acceptable to that person or those persons. The plan shall be drawn up and completed without expense to the owner or operator of the farm unit, except that the owner or operator shall not be reimbursed for the value of the owner's or occupant's own time devoted to participation in the preparation of the plan. If the commissioners' plan is unacceptable to the owner or operator of the farm unit, that person or those persons may prepare an alternative farm unit soil conservation plan identifying permanent or temporary soil and water conservation practices which may be expected to achieve compliance

with the soil loss limit or limits applicable to that farm unit, and submit that plan to the soil and water conservation district commissioners for their review.

3. Within one year after completion of a farm unit soil conservation plan for a particular farm unit which is acceptable both to the commissioners of the soil and water conservation district within which the farm unit is located and to the owner and, if appropriate, to the operator of that farm unit, the commissioners shall offer to enter into a soil conservation agreement with the owner, and also with the operator if appropriate, based on the mutually acceptable farm unit soil conservation plan.

467A.63 Right of purchaser of agricultural land to obtain information.

A prospective purchaser of an interest in agricultural land located in this state is entitled to obtain from the seller, or from the office of the soil and water conservation district in which the land is located, a copy of the most recently updated conservation folder and of any farm unit soil conservation plan, developed pursuant to section 467A.62, subsection 2, which are applicable to the agricultural land proposed to be purchased. A prospective purchaser of an interest in agricultural land located in this state is entitled to obtain additional copies of either or both of the documents referred to in this section from the office of the soil and water conservation district in which the land is located, promptly upon request, at a fee not to exceed the cost of reproducing them. All persons who identify themselves to the commissioners or staff of a soil and water conservation district as prospective purchasers of agricultural land in the district shall be given information, prepared in accordance with rules of the department, which clearly explains the provisions of section 467A.65.

467A.64 Erosion control plans required for certain projects.

1. If a political subdivision has adopted a sediment control ordinance which the commissioners and the political subdivision jointly agree is at least as equally effective as the commissioners' rules in preventing erosion from exceeding the established soil loss limits, the commissioners and the political subdivision shall execute an agreement under chapter 28E allowing an agency authorized by the political subdivision to receive and file an affidavit from a person, prior to initiating a land disturbing activity in that subdivision, stating that the proposed activity will not exceed the established soil loss limits. A copy of the affidavit shall be mailed to the district as a part of the terms of the agreement. The affidavit shall be in a form prescribed by the department and made available by the district.

2. Prior to initiating a land disturbing activity in a political subdivision which has not adopted sediment control ordinances as described in subsection 1, a person engaged in the land disturbing activity shall file a signed affidavit with the soil and water conservation district that the project will not exceed the soil loss limits. The affidavit shall be in a form prescribed by the department and made available by the district.

3. For the purposes of this section, "land disturbing activity" means a land change such as the tilling, clearing, grading, excavating, transporting or filling of land which may result in soil erosion from water or wind and the movement of sediment and sediment related pollutants into the waters of the state or onto lands in the state but does not include the following:

a. Tilling, planting or harvesting of agricultural, horticultural or forest crops.

b. Preparation for single-family residences separately built unless in conjunction with multiple construction in subdivision development.

c. Minor activities such as home gardens, landscaping, repairs and maintenance work.

d. Surface or deep mining.

e. Installation of public utility lines and connections, fence posts, sign posts, telephone poles, electric poles and other kinds of posts or poles.

f. Septic tanks and drainage fields unless they are to serve a building whose construction is a land disturbing activity.

g. Construction and repair of the tracks, right of way, bridges, communication facilities and other related structures of a railroad.

h. Emergency work to protect life or property.

i. Disturbed land areas of less than twenty-five thousand square feet unless a political subdivision by ordinance establishes a smaller exception or establishes conditions for this exception.

j. The construction, relocation, alteration or maintenance of public roads by a public body.

4. If the agency authorized under subsection 1 determines that a land disturbing activity is not being conducted in compliance with the soil loss limits, it shall file a written and signed complaint with the soil and water conservation district commissioners. The complaint shall have the same effect and validity as a complaint filed by an owner or occupant of land being damaged by sediment pursuant to section 467A.47. If the affidavit is filed with the district or the political subdivision, the commissioners may proceed on their own complaint. The soil and water conservation district commissioners may issue an administrative order as provided in that section to the person conducting the land disturbing activity.

467A.65 Cost sharing for certain lands restricted.

1. It is the intent of this chapter that, effective January 1, 1981, each tract of agricultural land which

has not been plowed or used for growing row crops at any time within fifteen years prior to that date, shall for purposes of this section be considered classified as agricultural land under conservation cover. If a tract of land so classified is thereafter plowed or used for growing row crops, the commissioners of the soil and water conservation district in which the land is located shall not approve use of state cost-sharing funds for establishing permanent or temporary soil and water conservation practices on that tract of land in an amount greater than one-half the amount of cost-sharing funds which would be available for that land if it were not considered classified as agricultural land under conservation cover. The restriction imposed by this section applies even if an administrative order or court order has been issued requiring establishment of soil and water conservation practices on that land. The commissioners may waive the restriction imposed by this section if they determine in advance that the purpose of plowing or row cropping land classified as land under conservation cover is to revitalize permanent pasture and that the land will revert to permanent pasture within two years after it is plowed.

2. When receiving an application for state cost-sharing funds to pay a part of the cost of establishing a permanent or temporary soil and water conservation practice, the commissioners of the soil and water conservation district to which the application is submitted shall require the applicant to state in writing whether, to the best of the applicant's knowledge, the land on which the proposed practice will be established is land considered to be classified as agricultural land under conservation cover, as defined in subsection 1. An applicant who knowingly makes a false statement of material facts or who falsely denies knowledge of material facts in completing the written statement required by this subsection commits a simple misdemeanor and, in addition to the penalty prescribed therefor by law, shall be required to repay to the department any cost-sharing funds made available to the applicant in reliance on the false statement or false denial.

467A.71 Conservation practices revolving loan fund.

1. The division may establish a conservation practices revolving loan fund composed of any money appropriated by the general assembly for that purpose, and of any other moneys available to and obtained or accepted by the committee from the federal government or private sources for placement in that fund. Except as otherwise provided by subsection 3, the assets of the conservation practices revolving loan fund shall be used only to make loans directly to owners of land in this state for the purpose of establishing on that land any new permanent soil and water conservation practice which the commissioners of the soil and water conservation district in which the land is located have found is necessary or advisable to meet the soil loss limits established for that land. A loan shall not be made for establishing a permanent soil and water conservation practice on land that is subject to the restriction on state cost-sharing funds of section 467A.65. Revolving loan funds and public cost-sharing funds shall not be used in combination for funding a particular soil and water conservation practice. Each loan made under this section shall be for a period not to exceed ten years, shall bear no interest, and shall be repayable to the conservation practices revolving loan fund in equal yearly installments due March 1 of each year the loan is in effect. The interest rate upon loans for which payment is delinquent shall accelerate immediately to the current legal usury limit. Applicants are eligible for no more than ten thousand dollars in loans outstanding at any time under this program. *"Permanent soil and water conservation practices"* has the same meaning as defined in section 467A.42 and those established under this program are subject to the requirements of section 467A.7, subsection 16. Loans made under this program shall come due for payment upon sale of the land on which those practices are established.

2. The general assembly finds and declares the following:

a. The erosion of topsoil on agricultural land by wind and water is a serious problem within the state and one which threatens to destroy the natural resource most responsible for Iowa's prosperity.

b. It is necessary to the preservation of the economy and well-being of the state to encourage soil conservation practices by providing loans for permanent soil and water conservation practices on agricultural land within the state.

c. The use of state funds for the conservation practices revolving loan fund established under subsection 1 is in the public interest, and the purposes of this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

3. The division may:

a. Contract, sue and be sued, and promulgate administrative rules necessary to carry out the provisions of this section, but the committee shall not in any manner directly or indirectly pledge the credit of the state of Iowa.

b. Authorize payment from the conservation practices revolving loan fund, from fees and from any income received by investments of money in the fund for costs, commissions, attorney fees and other reasonable expenses related to and necessary for making and protecting direct loans under this section, and for the recovery of moneys loaned or the management of property acquired in connection with such loans.

4. This section does not negate the provisions of section 467A.48 that an owner or occupant of land in this state shall not be required to establish any new soil and water conservation practice unless public cost-sharing funds have been approved and are available for the land affected. However, the owner of land with respect to which an administrative order to establish soil and water conservation practices has been issued under section 467A.47 but not complied with for lack of public cost-sharing funds, may waive the right to await availability of such funds and instead apply for a loan under this section to establish any permanent soil and water conservation practices necessary to comply with the order. If a landowner does so, that loan application shall be given reasonable preference by the state soil conservation committee if there are applications for more loans under this section than can be made from the money available in the conservation practices revolving loan fund. If it is found necessary to deny an application for a soil and water conservation practices loan to a landowner who has waived the right to availability of public cost-sharing funds before complying with an administrative order issued under section 467A.47, the landowner's waiver is void.

467A.75 Financial incentive for soil conservation on forest lands.

1. As used in this section, unless the context otherwise requires:

a. "Forest" means stands of native or introduced trees containing at least two hundred trees per acre on privately owned land. However, fruit trees are not forest.

b. "Professional forester" means a forestry graduate of an institution of higher learning and having a minimum of two years forest management experience.

c. "State forester" means the person employed by the department of natural resources as required by section 107.13.

2. The department may reimburse private landowners for a portion of the cost of fencing materials and installation for permanent fence used to protect forest land from domestic livestock grazing from state cost-sharing funds if the grazing has been determined to cause excessive soil loss. Total department expenditure shall not exceed fifty percent of total landowner expenditures. Expenditures for boundary and road fence construction and for repair and replacement of existing fence are not eligible for reimbursement unless the complete fence is replaced.

3. As a condition for receiving reimbursement, landowners shall sign an agreement to maintain the fence for a minimum of ten years and shall follow written professional forester recommendations approved by the state forester or that person's designee on the tract to be protected by fencing.

4. Recipient landowners found to be in noncompliance with the maintenance agreement shall maintain, repair, or reconstruct damaged fence, or shall pay the department an amount equal to that reimbursed.

5. The department shall adopt, by rule, the form and informational requirements for reimbursement, the minimum forest acreage, and any limitation on the maximum reimbursement an individual landowner may receive. For the purposes of this section, forests shall be considered as agricultural land eligible for public cost-sharing funds.

The county auditor shall certify to the executive council of the state the amounts allocated to each school district in the previous year, on January 2 of each year. The remaining ten percent of a payment received by the county treasurer from the federal government, or as much thereof as is deemed necessary by the board of supervisors, shall be allocated to the local fire departments of the unincorporated villages, townships, and cities of the county which are principally affected by the federal flood control project involved, to be paid and prorated among them as determined by the board of supervisors. If the funds prorated to local fire departments in a county are less than ten percent of the total county

share of such federal payments for a year, the amount which exceeds the prorations shall revert back to and be divided equally between the secondary road fund and the local school district fund.

Such board shall also have jurisdiction, power and authority at any regular, special or adjourned session to establish, in the same manner that the districts hereinabove referred to are established, districts having for their purpose soil conservation in mining areas within the county, and provide that anyone engaged in removing the surface soil over any bed or strata of coal in such district for the purpose of obtaining such coal shall replace the surface soil as nearly as practicable to its original position, and provide that, upon abandonment of such removal operation, all surface soil shall be so replaced. This section shall apply only to surface soil so removed after July 4, 1949, and then only if it is essential for the accomplishment of the purpose of soil conservation and flood control within the purview of this chapter.

2. *"Department"* means the department of agriculture and land stewardship.
3. *"Division"* means the division of soil conservation created within the department.
4. *"Committee"* or *"state soil conservation committee"* means the committee established by section 467A.4.

6. *"Landowner"* includes any person, including a federal agency, this state or any of its political subdivisions, who holds title to land lying within a proposed district.

88 Acts, ch 1189, §2

467F.2 Water protection projects and practices.

1. Each soil and water conservation district, alone and whenever practical in conjunction with other districts, shall carry out district-wide and multiple-district projects to support water protection practices in the district or districts, including projects to protect this state's groundwater and surface water from point and nonpoint sources of contamination, including but not limited to contamination by agricultural drainage wells, sinkholes, sedimentation, or chemical pollutants.

2. An owner of or occupant of land within a district may establish a water protection practice under this chapter by entering into an agreement with the district in which the owner or occupant receives financial assistance to establish water protection practices in consideration for promising to maintain the practices according to rules adopted by the division. The financial assistance may be in the form of grants, loans, or cost-sharing arrangements. An agreement shall not be binding until the assistance is specifically approved for that land and made available to the owner or occupant.

3. The division shall approve an award of financial assistance based on an application submitted by the owner or occupant of the land. The division may require a copy of the application with an evaluation of the application by the district. Each application for financial assistance shall be considered under a priority system adopted by the district for disbursement of unallocated funds. The district, under the supervision of a district technician, shall design proposed clean water practices for which financial assistance has been obligated. The district shall determine compliance with applicable design standards and specifications. The landowner shall construct and is liable for the performance of the water protection practices on the land.

4. The division shall adopt rules necessary for the administration of this chapter, including rules relating to the approval of programs and projects,

designing a project or water protection practices, the estimation of costs of a project or program, and the inspection of projects or practices being placed or maintained on the land.

88 Acts, ch 1189, §3

467F.3 Cooperation with other agencies.

Soil and water conservation districts may enter into agreements with the United States, as provided by state law, or with the state of Iowa or any agency of the state, any other soil and water conservation district, or other political subdivision of this state, for cooperation in preventing, controlling, or attempting to prevent or control contamination of groundwater or surface water by point and nonpoint sources of pollution. Soil and water conservation districts may accept, as provided by state law, any money disbursed for water quality preservation purposes by the federal government or any agency of the federal government, and expend the money for the purposes for which it was received.

88 Acts, ch 1189, §4

467F.4 Water protection fund.

The fund is composed of money appropriated by the general assembly for that purpose, and moneys available to and obtained or accepted by the state soil conservation committee from the United States or private sources for placement in the fund. The fund shall be divided into two accounts, the water quality protection account and the water protection practices account. The first account shall be used to carry out water quality protection projects to protect the state's surface and groundwater from point and nonpoint sources of contamination. The second account shall be used to establish water protection practices with individual landowners including but not limited to woodland establishment and protection, establishment of native grasses and forbs, sinkhole management, agricultural drainage well management, streambank stabilization, grass waterway establishment, stream buffer strip establishment, and erosion control structure construction. Twenty-five percent of funds appropriated to the water protection practices account shall be used for woodland establishment and protection, and establishment of native grasses and forbs. Soil and water conservation district commissioners shall give priority to applications for practices that implement their soil and water resource conservation plan. The fund shall be a revolving fund from which moneys may be used for loans, grants, administrative costs, and cost-sharing.

In administering the fund the division may:

1. Contract, sue and be sued, and adopt rules necessary to carry out the provisions of this section, but the division or committee shall not in any manner directly or indirectly pledge the credit of this state.

2. Authorize payment from the water protection fund, from fees and from any income received by investments of money in the fund for costs, commissions, and other reasonable expenses.

Following its establishment, the drainage district is deemed to have acquired by permanent easement all right-of-way for drainage district ditches, tile lines, settling basins and other improvements, unless they are acquired by fee simple, in the dimensions shown on the survey and report made in compliance with sections 468.11 and 468.12 or as shown on the permanent survey, plat and profile, if one is made. 1. The board shall award contract or contracts for each section of the work to the lowest responsible bidder or bidders therefor, bids to be submitted, received and acted upon separately as to the main drain and each of the laterals, and each settling basin, if any, exercising their own discretion as to letting such work as to the main drain as a whole, or as to each lateral as a whole, or by sections as to both main drain and laterals, and reserving the right to reject any and all bids and readvertise the letting of the work.

The bid shall be accompanied with a deposit of cash, or a certified check on and certified by a bank in Iowa or a certified share draft drawn on a credit union in Iowa, payable to the auditor or the auditor's order at the auditor's office in a sum equal to ten percent of the amount of the bid, but not to exceed ten thousand dollars. However, if the maximum limit on bid deposits would cause a denial of funds or services from the federal government which would otherwise be available, or if the maximum limit would otherwise be inconsistent with the requirements of federal law, the maximum limit may be suspended to the extent necessary to prevent denial of federal funds or services or to eliminate the inconsistency with federal requirements. The checks or share drafts of unsuccessful bidders shall be returned to them, but the checks of successful bidders shall be held as a guarantee that they will enter into contract in accordance with their bids.

One of such commissioners shall be a competent civil engineer and two of them shall be resident freeholders of the county in which the district is located, but not living within, nor interested in any lands included in said district, nor related to any party whose land is affected thereby. The commissioners shall take and subscribe an oath of their qualifications and to perform the duties of classification of said lands, fix the percentages of benefits and apportion and assess the costs and expenses of constructing the said improvement according to law and their best judgment, skill, and ability. If said commissioners or any of them fail or neglect to act or perform the duties in the time and as required of them by law, the board shall appoint others with like qualifications to take their places and perform said duties.

At the time of appointing said commissioners, the board shall fix the time within which said assessment, classification, and apportionment shall be made, which may be extended for good cause shown. Within twenty days after their appointment, they shall begin to inspect and classify all the lands within said district, or any change, extension, enlargement, or relocation thereof in tracts of forty acres or less according to the legal or recognized subdivisions, in a graduated scale of benefits to be numbered according to the benefit to be received by each of such tracts from such improvement, and pursue said work continuously until completed and, when completed, shall make a full, accurate, and detailed report thereof and file the same with the auditor. The lands receiving the greatest benefit shall be marked on a scale of one hundred, and those benefited in a less degree with such percentage of one hundred as the benefits received bear in proportion thereto. They shall also make an equitable apportionment of the costs, expenses, fees, and damages computed on the basis of the percentages fixed.

In the report of the appraisers so appointed they shall specify each tract of land by proper description, and the ownership thereof, as the same appears on the transfer books in the auditor's office.

In estimating the benefits as to the lands not traversed by said improvement, they shall not consider what benefits such land shall receive after some other improvements shall have been constructed, but only the benefits which will be received by reason of the construction of the improvement in question as it affords an outlet to the drainage of such lands, or brings an outlet nearer to said lands or relieves the same from overflow and relieves and protects the same from damage by erosion.

468.41 Assessment for lateral ditches — reclassification of benefited lands.

1. In fixing the percentages and assessments of benefits and apportionment of costs of construction to lands benefited by lateral ditches and drains as a part of the entire improvement to be made in a drainage district, the commissioners shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited by such lateral ditches on the same basis and in the same manner as if said lateral was, with its sublaterals, being constructed as a subdistrict as provided in this subchapter, parts 1 through 5, reporting separately:

a. The percentage of benefits and amount accruing to each forty-acre tract or less on account of the construction of the main ditch, drain, or watercourse including pumping plant, if any.

b. The percentage of benefits and amount accru-

ing to each forty-acre tract or less on account of the construction of such lateral improvement.

2. When there has been a repair or improvement to a lateral ditch or drain as provided in section 468.126 and the lands benefited by the lateral have not been classified as provided in this section, the board may order a classification of the lands and the commission shall ascertain and fix the percentage of benefits and apportionment of costs to the lands benefited by such lateral ditches or drains on the same basis and in the same manner as if the lateral was with its sublaterals being constructed as a subdistrict as provided in this subchapter, parts 1 through 5. When this procedure is followed for the classification of any lateral ditch or drain in a given district, the board shall follow the same procedure for all other lateral ditches or drains in the district which have not been classified as prescribed in this section.

Such assessment when finally fixed by the board shall constitute a debt due from the railroad company to the district, and unless paid it may be collected by ordinary proceedings for the district in the name of the county in any court having jurisdiction. Such assessments against primary highways and other state-owned lands under the jurisdiction of the state department of transportation shall be paid by the state department from the primary road fund on due certification of the amount by the county treasurer to the department, and against all secondary roads and other county owned lands under the jurisdiction of the board of supervisors, from county funds.

When any state-owned lands under the jurisdiction of the department of natural resources are situated within a levee or drainage district, the commissioners to assess benefits shall ascertain and return in their report the amount of benefits and the apportionment of costs and expenses to such lands and the board of supervisors shall assess the same against such lands. However, the commissioners shall not assess benefits to property below the ordinary high water mark in a sovereign state-owned lake, marsh or stream under the jurisdiction of the department of natural resources.

The assessments against lands under the jurisdiction of the department of natural resources shall be paid by the executive council upon certification of the amount by the county treasurer. 468.49 Classification as basis for future assessments.

A classification of land for drainage, erosion or flood control purposes, when finally adopted, shall remain the basis of all future assessments for the purpose of said district unless revised by the board in the manner provided for reclassification, except that where land included in said classification has been destroyed, in whole or in part, by the erosion of a river, or where additional right of way has been subsequently taken for drainage purposes, said land which has been so eroded and carried away by the action of a river or which has been taken for additional right of way, may be removed by said board from said district as classified, without any reclassification, and no assessment shall thereafter be made on the land so removed. Any deficiency in assessment existing as the result of said action of the board shall be spread by it over the balance of lands remaining in said district in the same ratio as was fixed in the classification of the lands, payable at the next tax-paying period.

Except districts established by mutual agreement in accordance with section 468.142 in the event any forty-acre tract or less, or any lot, tract, or parcel, as set forth in the existing classification or reclassification of any drainage district now or hereafter established, is divided into two or more tracts, whether such division is by sale or condemnation or platted as a subdivision, the classification of the original tract shall be apportioned to the resulting parcels, regardless of use, except for land taken for additional drainage right of way. The classification of the original tract may be apportioned between the resulting parcels by agreement between the parties to such division. The parties shall file with the county auditor a written agreement setting forth the original description and the description of the tracts as subdivided and the percentage of the original classification apportioned to each. This agreement shall bear the signature of all of the parties to such subdivision. The agreement contemplated herein may be contained in the deed or other instrument effecting the division of the land, which agreement shall be binding upon the grantee or grantees by their acceptance of such instrument and their signatures shall not be necessary. The auditor shall enter this agreement in the drainage record and amend the current classification of the district in accordance with such agreement.

In the event the parties to such subdivision cannot agree as to the apportionment of the percentage classification, the board of supervisors shall, upon application of either party, appoint a commission having the qualifications of commissioners, in accordance with section 468.38. The commissioners shall inspect the lands involved and apportion the existing classification of the original tract equitably and fairly to each of the several tracts as subdivided and shall make a full, accurate and detailed report thereof and file the same with the county auditor within the time set by the board. The report of the commis-

sioners shall set forth the names of the owners thereof, the description of each of the tracts and the percentage of the original classification that each such tract shall bear (1) for main ditches and settling basins, (2) for laterals, (3) for levees and pumping station. If the owner of any land against which a levy exceeding one hundred dollars has been made and certified shall, within thirty days from the date of such levy, agree in writing endorsed upon any improvement certificate referred to in section 468.70, or in a separate agreement, that in consideration of having a right to pay the owner's assessment in installments, the owner will not make any objection as to the legality of the assessment for benefit, or the levy of the taxes against the property, then such owner shall have the following options:

1. To pay one-third of the amount of such assessment at the time of filing such agreement; one-third within twenty days after the engineer in charge shall certify to the auditor that the improvement is one-half completed; and the remaining one-third within twenty days after the improvement has been completed and accepted by the board. All such installments shall be without interest if paid at said times, otherwise said assessments shall bear interest from the date of the levy at a rate not exceeding that permitted by chapter 74A, payable annually, and be collected as other taxes on real estate, with like penalty for delinquency.

2. To pay such assessments in not less than ten nor more than twenty equal installments, the number to be fixed by the board, and interest at the rate fixed by the board, not exceeding that permitted by chapter 74A. The first installment of each assessment, or the total amount if less than one hundred dollars, is due and payable on July 1 next succeeding the date of the levy, unless the assessment is filed with the county treasurer after May 31 in any year. The first installment shall bear interest on the whole unpaid assessment from the date of the levy as set by the board to the first day of December following the due date. The succeeding annual installments, with interest on the whole unpaid amount, to the first day of December following the due date, are respectively due on July 1 annually, and must be paid at the same time and in the same manner as the first semiannual payment of ordinary taxes. All future installments of an assessment may be paid on any date by payment of the then outstanding balance plus interest accrued to the date of payment. Each installment of an assessment with interest on the unpaid balance is delinquent after the thirtieth day of September next after its due date, and bears the same delinquent interest with the same penalties as ordinary taxes. When collected, the interest and penalties must be credited to the same drainage fund as the drainage special assessment.

The provisions of this section and of sections 468.58 through 468.61 may within the discretion of the board, also be made applicable to repairs and improvements made under the provisions of section 468.126.

468.65 Reclassification.
When, after a drainage or levee district has been established, except districts established by mutual agreement in accordance with section 468.142, and the improvements thereof constructed and put in operation, there has been a material change as to lands occupied by highway or railroad right of way or in the character of the lands benefited by the improvement, or when a repair, improvement, or extension has become necessary, the board may consider whether the existing assessments are equitable as a basis for payment of the expense of maintaining the district and of making the repair, improvement

or extension. If they find the same to be inequitable in any particular, they shall by resolution express such finding, appoint three commissioners possessing the qualifications prescribed in section 468.38 and order a reclassification as follows:

1. If they find the assessments to be generally inequitable they shall order a reclassification of all property subject to assessment, such as lands, highways, and railroads in said district.

2. If the inequity ascertained by the board is limited to the proportion paid by highways or railroads, a general reclassification of all lands shall not be necessary but the commissioners may evaluate and determine the fair proportion to be paid by such highways or railroads or both as provided in sections 468.42 and 468.43.

3. Any benefits of a character for which levee or drainage districts may be established and which are attributable to or enhanced by the improvement or by the repair, improvement, or extension thereof, shall be a proper subject of consideration in a reclassification notwithstanding the district may have been originally established for a limited purpose.

4. If after a district has been reclassified, the board in its judgment concludes there were errors in the reclassification or there is an inequitable assessment of benefits, the board may on its own motion, after notice to the landowners involved as provided in sections 468.14 through 468.18 and by resolution, order the district or any portion of the district to again be reclassified as prescribed in this section and in section 468.67.

Such reclassification when finally adopted shall remain the basis for all future assessments unless revised as provided in this subchapter, parts 1 through 5.

The commissioners shall fix the percentage of actual benefits and make an equitable apportionment of the costs and expenses of such repairs, improvements or extensions and file a report thereof with the auditor in the same form and manner as for original classification. Thereafter, all the proceedings in relation thereto as to notice, hearing, and fixing of percentage of benefits and amount of assessments shall be as in this subchapter, parts 1 through 5, provided in relation to original classification and assessments, and at such hearing the board may affirm, increase, or diminish the percentage and assessment of benefits and apportionment of costs and expenses so as to make them just and equitable, and cause the record of the original classification, percentage of benefits, and assessments to be modified accordingly.

468.103 Final settlement — claims for damages.

If it finds the work under any contract has been completed and accepted, the board shall compute the balance due, and if there are no liens on file against such balance, it shall enter of record an order directing the auditor to draw a warrant in favor of said contractor upon the levee or drainage fund of said district or give the contractor an order directing the county treasurer to deliver to the contractor improvement certificates or drainage bonds, as the case may be, for such balance found to be due, but such warrants, improvement certificates or bonds shall not be delivered to the contractor until the expiration of thirty days after the acceptance of the work.

If any claims for damages have been filed as provided in section 468.102, the board shall review said claims and determine said claims. If the determination by the board on any claim for damages results in a finding by the board that the damages resulting to the claimant were due to the negligence of the contractor, then the board shall provide for payment of said claim out of the remaining funds owing to the contractor. If the determination by the board results in a finding that the damages resulting to the claimant were not due to the negligence of the contractor but resulted from unavoidable necessity in the performance of the contract, then the board shall allow for payment of said claim in the amount fixed by the board out of the funds in said drainage district.

Provided, further, that the railway company shall have the right to designate the day and hours thereof within said period of thirty days above mentioned when such crossing shall be made.

468.118 Abandoned right-of-way.

If a railroad or other utility has abandoned the use of its right-of-way for the purpose it was originally acquired or has sold its right-of-way to a person who will use it for a purpose other than for which it was originally acquired, the prior right or privilege of the drainage district to pass through the right-of-way of the railroad or utility shall become a permanent easement in favor of the drainage district for drainage purposes including the right of ingress and egress through adjacent property and the right of access for maintenance, repair, improvement and inspection. The permanent easement has the same dimensions as originally specified in the engineer's report and survey, or as acquired by use or as subsequently acquired.

If a railroad or other utility has abandoned the use of its right-of-way for the purpose it was originally acquired or has sold its right-of-way to a person who will use it for a purpose other than for which it was originally acquired in segments, each segment shall be assessed for benefits in the same proportion as the area of the segment bears to the area of the right-of-way through the forty-acre tract.

468.119 Annexation of additional lands.

After the establishment of a levee or drainage district, if the board becomes convinced that additional lands contiguous to the district, and without regard to county boundaries, are benefited by the improvement or that the same are then receiving benefit or will be benefited by a repair or improvement to said district as contemplated in section 468.126, it may

adopt, with or without a petition from owners of the proposed annexed lands, a resolution of necessity for the annexation of such additional land and appoint an engineer with the qualifications provided in this subchapter, parts 1 through 5, to examine such additional lands, to make a survey and plat thereof showing their relation, elevation, and condition of drainage with reference to such established district, and to make and file with the auditor a report as in this subchapter, parts 1 through 5, provided for the original establishment of such district, said report to specify the character of the benefits received.

In the event the additional lands are a part of an existing drainage district, as an alternative procedure to that established by the foregoing provisions of this section, the lands may be annexed in either of the following methods:

1. A petition, proposing that the lands be included in a contiguous drainage district and signed by at least twenty percent of the landowners of those lands to be annexed, shall be filed with the governing board of each affected district.

The board of the district in which the lands are presently included may, at its next regular meeting or at a special meeting called for that purpose, adopt a resolution approving and consenting to the annexation; or

2. Whenever the owners of all of the land proposed to be annexed file a petition with the governing boards of the affected districts, the consent of the board in which the lands are then located shall not be required to consent to the annexation, and the board of the annexing district may proceed as provided in this section.

3. If either method of annexation provided for in subsections 1 and 2 of this section is completed, the board of the district to which the lands are to be annexed may adopt a resolution of necessity for the annexation of the additional lands, as provided in this section.

The right of remonstrance, as provided under section 468.28, does not apply to the owners of lands being involuntarily annexed to an established district.

468.120 Proceedings on report.

If the report recommends the annexation of the lands or any portion of them, the board shall consider the report, plats, and profiles and if satisfied that any of the lands are materially benefited by the district and that annexation is feasible, expedient, and for the public good, it shall proceed in all respects as to notice, hearing, appointment of appraisers to fix damages and as to hearing on the annexation; and if the annexation is finally made, as to classification and assessment of benefits to the annexed lands only, to the same extent and in the same manner as provided in the establishment of an original district. However, the annexation and classification of the annexed lands for benefits may be determined at one hearing. Those parties having an interest in the lands proposed to be annexed have the right to receive notice, to make objections, to file claims for damages, to have hearing, to take appeals and to do all other things to the same extent and in the same manner as provided in the establishment of an original district.

468.121 Levy on annexed lands.

After annexation is made the board may levy upon the annexed lands an assessment sufficient to equal the assessments for benefit originally paid by the lands of equal classification if the finding by the board as provided by section 468.119 was that the lands should have been included in the district when originally established, plus their proportionate share of the costs of any enlargement or extension of drains required to serve the annexed lands. If the finding of the board as provided in section 468.119 was based on the fact that additional lands are now benefited by virtue of the repair, improvement, or the change of the topographical conditions made to the district and were not benefited by the district as originally established, then the board shall levy upon the annexed lands an assessment sufficient to pay their proportionate share of the costs of the repair or improvement which was the basis for the lands being annexed. If the board finds that the lands are presently receiving benefits from the district but that some were reasonably omitted from the original establishment because of the change of the topographical conditions, the assessments levied upon the annexed lands shall be limited to a proportionate share of the costs of current and future maintenance, repairs and improvements.

468.122 Use of former and abandoned surveys.

In cases where proceedings have been taken for the establishment of a levee or drainage district and an engineer has been appointed who has made a survey, return, and plat thereof and for any reason the improvement has been abandoned and the proceedings dismissed, and afterward proceedings are instituted for the establishment of a levee or drainage district which will benefit any territory surveyed in said former proceedings, the engineer shall use so much of the return, levels, surveys, plat, and profile made in the former proceedings as may be applicable. The

engineer shall specify in the engineer's reports the parts thereof so used, and in case the cost of said returns, levels, surveys, plat, and profile made in said former proceedings has been paid by the former petitioners or their sureties, then a reasonable amount shall be allowed said petitioners or sureties for the use of the same.

468.123 Unsuccessful procedure — re-establishment.

When proceedings have been instituted for the establishment of a drainage district or for any change or repair thereof, or the change of a natural watercourse, and the establishment thereof has failed for any reason either before or after the improvement is completed, the board shall have power to re-establish such district or improvement and any new improvement in connection therewith as recommended by the report of the engineer. As to all lands benefited by such re-establishment, repair, or improvement, the board shall proceed in the same manner as in the establishment of an original district, using as a basis for assessment the entire cost of the proceedings, improvement, and maintenance from the beginning; but in awarding damages and in the assessment of benefits account shall be taken of the amount of damages and taxes, if any, theretofore paid by those benefited, and credit therefor given accordingly. All other proceedings shall be the same as for the original establishment of the district, making of improvements, and assessment of benefits.

468.124 New district including old district.

If any levee or drainage district or improvement established either by legal proceedings or by private parties shall be insufficient to properly drain all of the lands tributary thereto, the board upon petition as for the establishment of an original levee or drainage district, shall have power to establish a new district covering and including such old district or improvement together with any additional lands deemed necessary. All outstanding indebtedness of the old levee or drainage district shall be assessed only against the lands included therein.

When such district as contemplated in section 468.124 and the new improvement therein shall include the whole or any part of the former improvement, the commissioners, for classification of lands for assessment of benefits and apportionment of costs and expenses of such new improvement, shall take into consideration the value of such old improvement in the construction of the new one and allow proper credit therefor to the parties owning the old improvement as their interests may appear. In all other respects the same proceedings shall obtain as are provided for the original establishment of levee and drainage districts.

468.126 Repair.

1. When any levee or drainage district has been established and the improvement constructed, the improvement shall be at all times under the supervision of the board of supervisors except as otherwise provided for control and management by a board of trustees and the board shall keep the improvement in repair as provided in this section.

a. The board at any time on its own motion, without notice, may order done whatever is necessary to restore or maintain a drainage or levee improvement in its original efficiency or capacity, and for that purpose may remove silt and debris, repair any damaged structures, remove weeds and other vegetable growth, and whatever else may be needed to restore or maintain such efficiency or capacity or to prolong its useful life.

b. The board may at any time obtain an engineer's report regarding the most feasible means of repairing a drainage or levee improvement and the probable cost of making the repair. If the engineer advises, or the board otherwise concludes that permanent restoration of a damaged structure is not feasible at the time, the board may order temporary construction it deems necessary to the continued functioning of the improvement. If in maintaining and repairing tile lines the board finds from an engineer's report it is more economical to construct a new line than to repair the existing line, the new line may be considered to be a repair.

c. If the estimated cost of a repair exceeds ten thousand dollars, or seventy-five percent of the original total cost of the district and subsequent improvements, whichever is the greater amount, the board shall set a date for a hearing on the matter of making the proposed repairs, and shall give notice as provided in sections 468.14 through 468.18. If a hearing is required and the estimated cost of the repair exceeds twenty-five thousand dollars, an engineer's report or a report from the soil and water conservation district conservationist shall be presented at the hearing. The requirement of a report may be waived by the board if a prior report on the repair exists and that report is less than ten years old. The board shall not divide proposed repairs into separate programs in

order to avoid the notice and hearing requirements of this paragraph. At the hearing the board shall hear objections to the feasibility of the proposed repairs, and following the hearing the board shall order that the repairs it deems desirable and feasible be made. Any interested party has the right of appeal from such orders in the manner provided in this subchapter, parts 1 through 5.

d. The right of remonstrance does not apply to repairs as defined in this section.

2. In the case of minor repairs, or in the eradication of brush and weeds along the open ditches, not in excess of five thousand dollars where the board finds that a saving to the district will result it may cause the repairs or eradication to be done by secondary road equipment, or weed fund equipment, and labor of the county and then reimburse the secondary road fund or the weed fund from the fund of the drainage district thus benefited.

3. When the board deems it necessary it may repair or reconstruct the outlet of any private tile line which empties into a drainage ditch of any district and assess the costs in each case against the land served by the private tile line.

4. For the purpose of this subsection, an "improvement" in a drainage or levee district in which any ditch, tile drain or other facility has previously been constructed is a project intended to expand, enlarge or otherwise increase the capacity of any existing ditch, drain or other facility above that for which it was designed.

a. When the board determines that improvements are necessary or desirable, it shall appoint an engineer to make surveys as seem appropriate to determine the nature and extent of the needed improvements, and to file a report showing what improvements are recommended and their estimated costs, which report may be amended before final action. If the estimated cost of the improvements does not exceed five thousand dollars, or twenty-five percent of the original cost of the district and subsequent improvements, whichever is the greater amount, the board may order the work done without notice. If the estimated cost of the improvements does not exceed ten thousand dollars or twenty-five percent of the original cost of the district and subsequent improvements, whichever is the greater amount, the board may order the work done after holding a hearing and publishing notice of that hearing in a newspaper of general circulation published in the county not less than twenty days before the day set for the hearing. The board shall also mail a copy of the notice to any state agency which is a landowner in the district. The board shall not divide proposed improvements into separate programs in order to avoid the limitation for making improvements without notice. If the board deems it desirable to make improvements where the estimated cost exceeds the ten thousand dollar or twenty-five percent limit, it shall set a date for a hearing on the matter of constructing the proposed improvements and also on the matter of whether there shall be a reclassification of benefits for the cost of the proposed improvements, and shall give notice as provided in sections 468.14 through 468.18. At the hearing the board shall hear objections to the feasibility of the proposed improvements and arguments for or against a reclassification presented by or for any taxpayer of the district. Following the hearing the board shall order that the improvements it deems desirable and feasible be made, and shall also determine whether there should be a reclassification of benefits for the cost of improvements. If it is determined that a reclassification of benefits should be made the board shall proceed as provided in section 468.38. In lieu of publishing the notice of a hearing as provided by this subsection the board may mail a copy of the notice to each address where a landowner in the district resides by first class mail if the cost of mailing is less than publication of the notice. The mailing shall be made during the time the notice would otherwise be required to be published.

b. If the estimated cost of the improvements as defined in this subsection exceeds twenty thousand dollars, or the original cost of the district plus the cost of subsequent improvements in the district, whichever is the greater amount, a majority of the landowners, owning in the aggregate more than seventy percent of the total land in the district, may file a written remonstrance against the proposed improvements, at or before the time fixed for hearing on the proposed improvements, with the county auditor, or auditors in case the district extends into more than one county. If a remonstrance is filed, the board shall discontinue and dismiss all further proceedings on the proposed improvements and charge the costs incurred to date for the proposed improvements to the district. Any interested party may appeal from such orders in the manner provided in this subchapter, parts 1 through 5. However, this section does not affect the procedures of section 468.132 covering the common outlet.

5. Where under the laws in force prior to 1904, drainage ditches and levees were established and constructed without fixing at the time of establishment a definite boundary line for the body of land to be assessed for the cost thereof, the body of land which was last assessed to pay for the repair thereof shall also be considered as the established district for the purpose of this section.

6. The governing body of the district may, by contract or conveyance, acquire, within or without the district, the necessary lands or easements for making repairs or improvements under this section, including easements for borrow and easements for meander, and in addition thereto, the same may be obtained in the manner provided in the original establishment of the district, or by exercise of the power of eminent domain as provided for in chapter 472. If additional right of way is required for any repair or improvement under this section, the same may be acquired in the same manner as provided for the acquisition of right of way in the original establishment of a district, except that where notice and

hearing are not otherwise required under this section notice as provided in this subchapter, parts 1 through 5, to owners, lienholder of record, and occupants of the land from which right of way is to be acquired shall suffice.

7. In existing districts where the stream has by erosion appropriated lands beyond its original right of way and it is more economical and feasible to acquire an easement for such erosion and meander than to undertake containment of the stream in its existing right of way, the board may, in the discharge of the duties enjoined upon it by this section, effect such acquisition as to the whole or part of the course. Right of way so taken shall be classed an improvement for the purpose of procedure under this section.

8. If the drainage records on file in the auditor's office for a particular district do not define specifically the land taken for right-of-way for drainage purposes, the board may at any time upon its own motion employ a land surveyor to make a survey and report of the district and to actually define the right-of-way taken for drainage purposes. After the land surveyor has filed the survey and report with the board, the board shall fix a date for hearing on the report and shall serve notice of the hearing upon all landowners and lienholder of record and occupants of the lands traversed by the right-of-way in the manner and for the time required for service of original notices in the district court. At the hearing the board shall specifically define the land taken for the right-of-way. Once established, the right-of-way constitutes a permanent easement in favor of the drainage district for drainage purposes including the right of ingress and egress across adjoining land and the right of access for maintenance, repair, improvement and inspection. A person aggrieved by the action or failure to act of the board under this subsection may appeal only in compliance with sections 468.83 through 468.98.

468.127 Payment.

The costs of the repair or improvements provided for in section 468.126 shall be paid for out of the funds of the levee or drainage district. If the funds on hand are not sufficient to pay such expenses, the board within two years shall levy an assessment sufficient to pay the outstanding indebtedness and leave the balance which the board determines is desirable as a sinking fund to pay maintenance and repair expenses. Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

If the board deems that the costs of the repairs or improvements will create assessments against the lands in the district greater than should be borne in one year, it may levy the same at one time and provide for the payment of said costs and assessments in the manner provided in sections 468.57 through 468.61; provided that assessments may be collected in less than ten installments as the board may determine.

468.128 Impounding areas and erosion control devices.

Levee and drainage districts are empowered to construct impounding areas and other flood and erosion control devices to protect lands of the district and drainage structures and may provide ways for access to improvements for the operation or protection thereof, where the cost is not excessive in consideration of the value to the district. Necessary lands or easements may be acquired within or without the district by purchase, lease or agreement, or by exercise of the right of eminent domain and may be procured and construction undertaken either independently or in co-operation with other districts, individuals, or any federal or state agency or political subdivision.

Revenues derived therefrom may be expended for operating, maintenance or construction costs of the district as its governing body may elect.

When an assessment for improvements as provided in section 468.126, exceeds twenty-five percent of the original assessment and the original or subsequent assessment or report of the benefit commission as confirmed did not designate separately the amount each tract should pay for the main ditch and tile lateral drains then the board shall order a reclassification in accordance with the principles and rules set forth in section 468.41.

468.132 Improvement of common outlet — notice of hearing.

When two or more drainage districts outlet into the same ditch, drain, or natural watercourse and the board determines that it is necessary to clean out, deepen, enlarge, extend, or straighten said ditch, drain, or natural watercourse in order to expeditiously carry off the combined waters of such districts, the board may proceed as provided in section 468.126. After said board has decided that such work should be done, it shall fix a date for hearing on its decision, and it shall give two weeks' notice thereof by certified mail to the auditor of the county wherein the land to be assessed for such work is located, and said county auditor shall thereupon immediately notify by certified mail the board or boards of trustees of the districts having supervision thereof, as to said hearing on said contemplated work. In those instances where two or more districts involved are under the supervision of the same board, or joint board if the district is intercounty, the notice shall be given to all landowners affected as prescribed for in sections 468.14 through 468.18. Each district shall be assessed for the cost of such work in proportion to the benefits derived. Common outlet for the purpose of this section shall mean an outlet where two adjacent districts have an outlet common to both of said districts and which districts are also contiguous, one to the other.

For the purpose of ascertaining the proportionate benefits, the board shall appoint commissioners having the qualifications of benefit commissioners, one of whom shall be an engineer. Such commissioners appointed shall not be residents of any of the districts affected, nor shall any member thereof have any interest in land in any districts affected by the contemplated work. Such commission shall determine the percentage of benefits and the sum total to be assessed to each district for the improvement.

In the event that one of the districts to be assessed under this statute shall have any improvement such as a settling basin which reduces the quality and quantity of flow or sediment, such commission may give consideration to the existence of such an improvement when they determine the percentage of benefits and the sum total to be assessed to each district for the improvement.

468.134 Time of report — notice of hearing.

When said commissioners are appointed, the board shall, by proper order, fix the time when the commissioners shall report their findings, but a report filed within thirty days of the time so fixed shall be deemed a compliance with said order. On the filing of said report, the board shall fix a time for hearing thereon, and it shall give notice thereof to the auditor of the county in which the land to be assessed for such work is located by certified mail; said county auditor shall thereupon immediately notify by certified mail the board of supervisors, and board or boards of trustees of the districts having supervision thereof, as to said hearing on said commissioner's report. In those instances where two or more districts are under the supervision of the same board, or joint board if the district is intercounty, the notice shall be given to all landowners affected as prescribed in sections 468.14 through 468.18.

468.135 Report and review — appeal.

The commissioners shall file with the board a detailed report of their findings. Said board shall review said report and may, by proper order, increase or decrease the amount which shall be charged to each district. After the final order of the board herein has been made, said board shall notify the county auditor, in the time and manner as provided in sections 468.133 and 468.134, of said order, and said county auditor shall notify by certified mail the board of supervisors, and said board or boards of trustees, of said final order. Said board of supervisors and said board or boards of trustees, if aggrieved by said final order, may appeal therefrom to the district court of the county in which any of the improvement proposed or done is located.

Any assessment made under this section on any tract, parcel or lot within the district which is computed at less than two dollars shall be fixed at the sum of two dollars.

468.146 Outlet in adjoining county or in another state.

1. When a drainage district is established and a satisfactory outlet cannot be obtained except through lands in an adjoining county, or when an improved outlet cannot be obtained except through lands downstream from the district boundary, the board shall have the power to purchase a right of way, to construct and maintain such outlets, and to pay all necessary costs and expenses out of the district funds. The board shall have similar authority relative to the construction and maintenance of silt basins upstream from the district boundary. In case the board and the owners of the land required for such outlet or silt basin cannot agree upon the price to be paid as compensation for the land taken or used, the board is hereby empowered to exercise the right of eminent domain in order to procure such necessary right of way.
2. When a district is, or has been established in this state and no practicable outlet therefor can be obtained except through lands in an adjoining state, the board of supervisors of the county where said district is situated shall, as drainage commissioners, have power to purchase a right of way and to construct a ditch for such outlet in an adjoining state or to contribute to the construction of such a ditch, in an adjoining state and to pay for the same out of the funds of such district. Provided, however, that no drainage district or districts shall be charged or assessed any of the cost for land or work done unless previously agreed to by the board of supervisors or trustees of all of the drainage districts which will be assessed.

468.184 Land classification and assessment in district.

1. *a.* When a levee district shall have been located and finally established; or

b. When the required proceedings have been taken to enlarge, extend, strengthen, raise, relocate, reconstruct, or improve any existing levee; or

c. When the required proceedings have been held to annex additional lands to said levee district or to exclude or eliminate lands from said levee district; or

d. When a plan of the United States government for the construction of any levee, or a portion of a levee, in said levee district, or for the enlarging, extending, strengthening, raising, relocating, reconstructing, or improving any existing levee, or a portion thereof, in accordance with any such plan in said levee district, has been heretofore or hereafter adopted by such levee district under the provisions of sections 468.201 through 468.216; or

e. When the board shall, as authorized by section 468.65, determine that the assessments of benefits of said levee district against the lands in said levee district are generally inequitable the board may by resolution, or if a petition is filed by more than one-third of the owners, including corporations, of land within said levee district and who in the aggregate own more than one-third of the value of the land and land improvements in said levee district as the value thereof is then shown by the general tax records of the county or counties in which such land and land improvements are located, requesting the board to do so, the board shall order the lands in said levee district and the improvements on the land in said levee district classified or reclassified in accordance with the assessed taxable value of said land and land improvements as the same are then shown and as the same may be thereafter shown by the assessment roll of the county or counties in which said land and land improvements are located.

The assessed taxable value of any land, including land improvements exempt from general taxation but subject to assessment for levee purposes, shall be determined by the county assessor who shall make such determination in accordance with the rules of assessment applicable to adjacent lands and without any additional compensation therefor.

2. If the board orders classification or reclassification of lands as authorized in subsection 1 of this section, the board shall fix a time and place for a hearing to be held upon the action of the board in ordering such classification or reclassification, which hearing shall be held at the county seat of the county having the largest acreage in said levee district. The board shall cause notice of the time and place of such hearing to be served by the county auditor or auditors upon each person whose name appears as owner of lands or land improvements within the levee district in the transfer books of the auditor's office in the county or counties in which said levee district is located, naming that person, and also upon the person or persons in actual occupancy of any tract of land or land improvements located in said levee district, without naming that person or persons. Such notice shall be for the same time and served in the same manner as is provided for the establishment of a levee district, and such notice shall state:

a. The aggregate estimated costs and expenses which the board proposes to assess under such classification or reclassification;

b. The total aggregate assessed taxable value of all lands and land improvements in said levee district;

c. That the said classification or reclassification of benefits will be based on the assessed taxable value of all lands and improvements to lands located in said levee district;

d. That each tract of land and each land improvement in said levee district will be assessed for its pro rata share of said costs and expenses based upon the ratio that the assessed value of each tract of land and the assessed value of each land improvement bears to the total assessed taxable value of all lands and all land improvements in said district; and

e. That all objections to said method of classification or reclassification shall be in writing and filed with the auditor of the county in which said land or land improvements are located before the time set for said hearing or with the board of trustees of said district at or before the time set for such hearing.

The notice need not show the amount of such costs and expenses to be apportioned to each such owner or to any particular tract of land or land improvement within such levee district.

3. If at or before the time set for said hearing as to such classification or reclassification, there shall

have been filed with the county auditor, or auditors in case the district extends into more than one county, or with said board, a remonstrance or remonstrances or objections to such method of classification or reclassification signed by owners of land and land improvements in the levee district aggregating sixty percent of the total assessed value of the lands plus land improvements in said district as shown by the taxing records in said county or counties in which said district is located, the board shall abandon the alternative method of classification or reclassification herein authorized. The board may then proceed to classify the lands in said levee district as authorized under sections 468.38 through 468.44 or may proceed to reclassify the same as authorized under section 468.65 unless said remonstrances and objections filed as above provided are filed by a majority of the landowners in the levee district and these remonstrants and objectors in the aggregate own seventy percent or more of the acreage of lands in the levee district and, in writing, object to any reclassification of any kind, then the board shall not reclassify the lands within the district under the provision of this section nor shall the same be reclassified under the provisions of section 468.65.

4. At the time fixed or at any adjourned hearing if the remonstrances and objections filed at or before the hearing are not signed by sufficient number of owners, or the owners signing such remonstrances and objections do not meet the requirements hereinabove provided, then the board shall fully consider all objections and remonstrances and shall make a determination as to whether or not the costs and expenses shall be assessed:

a. By the alternative method hereinabove set forth; or

b. As provided by sections 468.38 through 468.44; or

c. That the land should be reclassified as provided in section 468.65; or

d. On the basis of a then existing classification of lands.

5. If the board shall determine that the cost and expenses shall be assessed on the basis of assessed taxable value as hereinabove provided, then such basis shall be used for all future assessments made for the purposes of said levee district except if said assessed taxable value of lands and land improvements in said levee district may be changed or revised by the county assessor in the county or counties in which the same are located for general tax purposes, then any such revision made in the assessed taxable value by any such county assessor shall automatically constitute a revision of the classification of such land or land improvements for future assessments made by the board for the purpose of said levee district.

6. In lieu of the hearing provided for in the preceding subsections, the board may, and if the petition of owners provided for in the preceding subsections so asks, the board shall call for an election for the purpose of determining the question of classification on the basis of assessed value of lands and land improvements. The question may be submitted at a regular election of the district or at a special election called for that purpose. It shall not be mandatory for the county commissioner of elections to conduct the elections, however provisions of sections 49.43 through 49.47 and of subchapter III of this chapter, insofar as the same are applicable, shall govern all such elections, and the question to be submitted shall be set forth in the notice of election. If sixty percent of the votes cast be in favor of the proposed change in assessment, it shall become effective for all future assessments as heretofore provided in this section. If the question should fail, no new election on the subject may be called for a period of one year.

7. When a levee district has been established and constructed, as an alternative to the other methods prescribed by law, upon reclassification, the levee district may adopt a method of classification and assessment uniform as to all land in the district, including railroad land, public highways and other public land and land exempt from general taxation, based on the total amount to be assessed divided by the total acres within the district. This method of classification and assessment may be adopted either by hearing or by election and shall become effective as heretofore provided in this section.

8. When a drainage district or drainage and levee district has been established and constructed, and after the lands therein have been classified in accordance with the provisions of sections 468.39, 468.40, and 468.41 or reclassified in accordance with section 468.65, the district may adopt methods of assessment for maintenance, repair, and operation of said district uniform as to all land in the district in the same manner and by the same procedures as prescribed in subsections 1 through 7 of this section. Provided, however, that only those lands drained by respective mains and laterals shall be assessed for maintenance, repair, and operation of said mains and laterals, and provided further that this alternate method of assessment shall not be applied to making improvements in the drainage system.

9. Following the adoption of any alternative method of classification or assessment as provided in this section, the same shall continue in effect until such time as the method is changed pursuant to this section or to section 468.65.

10. All proceedings taken prior to July 1, 1968, purporting to establish or re-establish a drainage or levee district or districts, or to enlarge or change the boundaries of any drainage or levee district, and any assessments not heretofore declared invalid by any court, are hereby legalized, validated, and confirmed.
