255A.1 State policy.

It is the policy of the state to provide obstetrical and newborn care to medically indigent individuals in this state, at the appropriate and necessary level, at a licensed hospital or health care facility closest and most available to the residence of the indigent individual.

87 Acts, ch 233, §435

255A.2 Obstetrical and newborn indigent patient care program.

A statewide obstetrical and newborn indigent patient care program is established for the purpose of providing obstetrical and newborn care to medically indigent residents of this state. Appropriations by the general assembly for this chapter shall be allocated for the obstetrical and newborn patient care fund within the Iowa department of public health and shall be utilized for the obstetrical and newborn indigent patient care program as specified in this chapter. Indigent patients in need of such care residing in the counties of Cedar, Clinton, Iowa, Johnson, Keokuk, Louisa, Muscatine, Scott, and Washington shall be provided the care at the university hospitals under the nonquota obstetrical program under chapter 255.

87 Acts, ch 233, §436

255A.3 Administration of program.

The Iowa department of public health shall administer the statewide obstetrical and newborn indigent patient care program. The department shall adopt administrative rules to implement the program pursuant to chapter 17A. Administrative costs of the department shall not exceed three percent of the annual funds appropriated for the obstetrical and newborn patient care fund.

87 Acts, ch 233, §437

255A.4 Patient quota formula.

The Iowa department of public health shall establish a patient quota formula for determining the maximum number of obstetrical and newborn patients eligible for the program from each county. The formula shall be based upon the annual appropriation for the program, the average number of live births in each county during the most recent three-year period for which statistics are available, and the per capita income for each county during the most recent one-year period for which statistics are available. In accordance with this formula the department shall allocate a patient quota to each county at the beginning of each fiscal year. The department shall provide for the reassignment of an unused

county quota allotment on April 1 of each year. The reassignment shall be taken only from a county which has an unused quota allotment for the portion of the fiscal year ending March 31. A county may utilize its quota allotment for a patient determined to be eligible before the end of the fiscal year but scheduled to need care after the end of the fiscal year. The reassignment of an unused county allotment shall be made to other counties on the basis of rules adopted by the department pursuant to chapter 17A.

A woman who resides in a county which exceeds the patient quota allocated for the county, and who has been deemed eligible under section 255A.5, shall be served at the University of Iowa hospitals and clinics pursuant to section 255.16.

87 Acts, ch 233, §438

255A.5 Minimum eligibility standards.

The Iowa department of public health, in collaboration with the department of human services and in consultation with the Iowa state association of counties, shall adopt rules, pursuant to chapter 17A, establishing minimum standards for eligibility for obstetrical and newborn care, including physician examination, medical testing, ambulance services, and inpatient transportation costs, for indigent obstetrical and newborn care provided by the University of Iowa hospitals and clinics and by other licensed hospitals and physicians. The minimum standards for eligibility shall provide eligibility for persons with incomes at or below one hundred fifty percent of the annual revision of the poverty income guidelines published by the United States department of health and human services, and shall provide, but shall not be limited to providing, eligibility for uninsured and underinsured persons financially unable to pay for necessary obstetrical and newborn care and orthopedic care. The minimum standards may include a spend-down provision. The resource standards shall be set at or above the resource standards under the federal supplemental security income program. The resource exclusions allowed under the federal supplemental security income program shall be allowed and shall include resources necessary for self-employment.

87 Acts, ch 233, §439

255A.6 Application and certification for care.

A person desiring obstetrical and newborn care, the cost of which is payable from the obstetrical and newborn patient care fund, or the parent or guardian of a minor desiring or in need of such care, may apply to the director of a maternal health center, operated by the Iowa department of public health, to have the cost of such care paid from the fund. In counties not served by such a center, the department shall contract with another agency, institution or organization to receive and process applications for care. The director of the center shall first ascertain from the local office of the department of human services if the applicant would be eligible for medical assistance or for assistance under the medically needy program without any spend-down requirement, pursuant to chapter 249A. If the applicant is eligible for assistance pursuant to chapter 249A, or if the applicant is eligible for maternal and child health care services covered by a maternal and child health program, the obstetrical patient care program shall not provide such assistance, care, or covered services provided under other programs. The Iowa department of public health, with the department of human services, shall jointly develop a standardized application form and shall coordinate the determination of eligibility for medical assistance and the obstetrical patient care program. In counties in which the maternal and child health clinic processes the application, the clinic shall notify the county relief office of the application process.

87 Acts, ch 233, §440

255A.7 Freedom of choice of provider.

A person certified for obstetrical and newborn care under this chapter may choose to receive the appropriate level of care at the University of Iowa hospitals and clinics or any other licensed hospital or health care facility.

87 Acts, ch 233, §441

255A.8 Reimbursable costs of care.

The obstetrical and newborn care costs of a person certified for such care under this chapter at a licensed hospital or health care facility or from licensed physicians shall be paid by the Iowa department of public health from the obstetrical and newborn patient care fund. However, a physician who provides obstetrical or newborn care at the University of Iowa hospitals and clinics to a person certified for care under this chapter is not entitled to receive any compensation for the provision of such care in accordance with section 255.23.

87 Acts, ch 233, §442

255A.9 Allowable reimbursements.

All providers of services to obstetrical and newborn patients under this chapter shall agree to accept as full payment the reimbursements allowable under the medical assistance program established pursuant to chapter 249A, adjusted for intensity of care. However, the total reimbursement from the obstetrical and newborn patient care fund to providers of services for residents of a county is limited to that county's obstetrical and newborn patient quota multiplied by the medical assistance program's average reimbursement for obstetrical and newborn care for the most recent fiscal year except as otherwise provided in this section. The Iowa department of public health shall reserve ten percent of the fund annually for payment of the costs of care of a patient certified for care under this chapter in excess of the medical assistance program's average reimbursements if the nature and extent of the care justifies such additional reimbursement. The department shall adopt rules pursuant to chapter 17A, establishing the requirements for such additional reimbursement.

87 Acts, ch 233, §443

255A.10 Procedures for payment.

The Iowa department of public health shall establish procedures for payment for providers of services to obstetrical and newborn patients under this chapter from the obstetrical and newborn patient care fund. All billings from such providers shall be submitted directly to the department. However, payment shall not be made unless the application and certification for care pursuant to section 255A.6 is performed.

87 Acts, ch 233, §444

255A.11 County responsibility for costs of care.

A county shall not be held responsible for the costs of providing obstetrical and newborn care, including physician examination, medical testing, ambulance services, and transportation costs, to pregnant women and their newborn infants who meet the eligibility requirements adopted by the Iowa department of public health.

87 Acts, ch 233, §445

255A.12 Reversion or transfer of moneys in the obstetrical and newborn patient care fund.

Moneys encumbered prior to June 30 of a fiscal year for a certified eligible pregnant woman scheduled to deliver in the next fiscal year shall not revert from the obstetrical and newborn patient care fund to the general fund of the state. Moneys allocated to the obstetrical and newborn patient care fund shall not be transferred nor voluntarily reverted from the fund within a given fiscal year.

87 Acts, ch 233, §446

255A.13 Data collection.

Beginning July 1, 1987, the University of Iowa hospitals and clinics shall submit, on a quarterly basis, UB-82 claims for all patients discharged after being served under the indigent patient program under chapter 255. The UB-82 claim shall include all data elements which are required by the Iowa health data commission.

87 Acts, ch 233, §447

Health data commission, ch 145

255A.14 Funds — reversion of unencumbered balance.

Notwithstanding section 8.33 or any other provision of law, any unencumbered balance remaining in the obstetrical and newborn patient care fund on June 30 of each year shall be used for the payment of warrants issued pursuant to section 255.25.

PREFACE TO 1991 IOWA CODE

The 1991 Iowa Code is published pursuant to Code chapter 14. Its form is substantially the same as the 1989 Iowa Code, and it covers the permanent enactments of the 1989 and 1990 sessions of the Seventy-third General Assembly. The Code is published in three volumes with a separate Tables and Index volume bound in a different color. A skeleton index printed on colored paper appears at the end of each volume.

EDITORIAL DECISIONS. If there were multiple amendments to a section or part of a section, all changes that were duplicative or otherwise did not appear to conflict were harmonized as required by Code section 4.11. It was generally assumed that a strike or repeal prevailed over an amendment to the same material and did not create an irreconcilable conflict, and that the substitution of the correct title of an officer or department as authorized by law did not create a conflict. Code sections 4.4 through 4.11 provide guidance for codifying conflicting provisions. Code section 14.13 governs the ongoing revision of gender references, authorizes other editorial changes, and provides for the effective date of the changes. At the end of Volume III are Code Editor's Notes which explain the major editorial decisions.

HISTORIES. The bracketed material at the end of most Code sections indicates the history of the subject matter of the sections. However, beginning with the 1985 Code, the histories were not continued, but source notes were added to indicate the location in the Iowa Acts of subsequent amendments and enactments.

CONSTITUTIONS. A codified version of the 1857 Constitution of the State of Iowa, as well as the original version, is included with the introductory material at the beginning of Volume I.

TABLES. The tables do not appear at the end of Volume III in this Code, but are included at the beginning of the index volume, which is entitled "Tables and Index."

The editorial staff of the Iowa Code welcomes your comments and suggestions for improvements.

b. Gifted and talented pupils.

c. Programs for at-risk students. Rules adopted by the state board to implement this paragraph shall be based upon the definition of at-risk student developed by the child coordinating council established in section 256A.2 and the department of education, and the state board shall consider the recommendations of the child coordinating council and the department in developing the rules.

8. Upon request of the board of directors of a public school district or the authorities in charge of a nonpublic school, the director may, for a number of years to be specified by the director, grant the district board or the authorities in charge of the nonpublic school exemption from one or more of the requirements of the educational program specified in subsection 5. The exemption may be renewed. Exemptions shall be granted only if the director deems that the request made is an essential part of a planned innovative curriculum project which the director determines will adequately meet the educational needs and interests of the pupils and be broadly consistent with the intent of the educational program as defined in subsection 5.

The request for exemption shall include all of the following:

a. Rationale of the project to include supportive research evidence.

b. Objectives of the project.

c. Provisions for administration and conduct of the project, including the use of personnel, facilities, time, techniques, and activities.

d. Plans for evaluation of the project by testing and observational measures of pupil progress in reaching the objectives.

e. Plans for revisions of the project based on evaluation measures.

f. Plans for periodic reports to the department.

g. The estimated cost of the project.

9. *a.* Effective July 1, 1989, through June 30, 1992, to facilitate the implementation and economical operation of the educational program defined in subsections 4 and 5, each school offering any of grades seven through twelve, except a school which offers grades one through eight as an elementary school, shall meet the media center requirements specified in section 256.11, subsection 9, paragraph *"a"*, Code Supplement 1987.

b. Effective July 1, 1990, unless a waiver has been obtained under section 256.11A, each school or school district shall have a qualified school media specialist who shall meet the licensing standards prescribed by the board of educational examiners and shall be responsible for supervision of the media centers. Each school or school district shall establish a media center, in each attendance center, which shall be accessible to students throughout the school day. However, in determining the requirements for nonpublic schools, the department shall evaluate the schools on a school system basis rather than on an individual school basis.

9A. Each school or school district shall provide an articulated sequential guidance program for grades kindergarten through twelve. Until July 1, 1992, a school or school district may obtain a waiver from meeting the requirements of this subsection pursuant to section 256.11A. The guidance counselor shall meet the licensing standards of the board of educational examiners. However, in determining the requirements for nonpublic schools, the department shall evaluate the schools on a school system basis rather than on an individual school basis.

10. The state board shall establish an accreditation process for school districts and nonpublic schools seeking accreditation pursuant to this subsection and subsections 11 and 12. As required in section 256.17, by July 1, 1989, all school districts shall meet standards for accreditation. For the school year commencing July 1, 1989 and school years thereafter, the department of education shall use a two-phase process for the continued accreditation of schools and school districts.

Phase I consists of annual monitoring by the de-

partment of education of all accredited schools and school districts for compliance with accreditation standards adopted by the state board of education as provided by section 256.17. The phase I monitoring requires that accredited school districts and schools annually complete accreditation compliance forms adopted by the state board and file them with the department of education. In addition, employees of the department of education shall complete at least one on-site visit each year to each accredited school and school district to review the educational programs and the information included in the compliance forms.

Phase II requires the use of an accreditation committee, appointed by the director of the department of education, to conduct an on-site visit to an accredited school or school district if any of the following conditions exist:

a. When the annual monitoring of phase I indicates that a school or school district may be deficient or fails to be in compliance with accreditation standards.

b. In response to a petition filed with the director requesting such a committee visitation that is signed by twenty percent or more of the registered voters of a school district.

c. In response to a petition filed with the director requesting such a committee visitation that is signed by twenty percent or more of the parents or guardians who have children enrolled in the school or school district.

d. At the direction of the state board of education.

The number and composition of the membership of an accreditation committee shall be determined by the director and may vary due to the specific nature or reason for the visit. In all situations, however, the chairperson and a majority of the committee membership shall be from the instructional and administrative program specialty staff of the department of education. Other members may include instructional and administrative staff from school districts, area education agencies, institutions of higher education, local board members and the general public. An accreditation committee visit to a nonpublic school requires membership on the committee from nonpublic school instructional or administrative staff or board members. A member of a committee shall not have a direct interest in the nonpublic school or school district being visited.

Rules adopted by the state board may include provisions for coordination of the accreditation process under this section with activities of accreditation associations.

Prior to a visit to a school district or nonpublic school, members of the accreditation committee shall have access to all annual accreditation report information filed with the department by that nonpublic school or school district.

After visiting the school district or nonpublic school, the accreditation committee shall determine whether the accreditation standards have been met and shall make a report to the director, together with a recommendation whether the school district or nonpublic school shall remain accredited. The accreditation committee shall report strengths and weaknesses, if any, for each standard and shall advise the school or school district of available resources and technical assistance to further enhance strengths and improve areas of weakness. A school district or nonpublic school may respond to the accreditation committee's report.

11. The director shall review the accreditation committee's report, and the response of the school district or nonpublic school, and provide a report and recommendation to the state board along with copies of the accreditation committee's report, the response to the report, and other pertinent information. The state board shall determine whether the school district or nonpublic school shall remain accredited. If the state board determines that a school district or nonpublic school should not remain accredited, the director, in cooperation with the board of directors of the school district, or authorities in charge of the nonpublic school, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the standards, and shall establish a deadline date for completion of the procedures. The plan is subject to approval of the state board.

12. During the period of time specified in the plan for its implementation by a school district or nonpublic school, the school or school district remains accredited. The accreditation committee shall revisit the school district or nonpublic school and shall determine whether the deficiencies in the standards have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies have been corrected. If the deficiencies have not been corrected, the state board shall merge the territory of the school district with one or more contiguous school districts. Division of assets and liabilities of the school district shall be as provided in sections 275.29 through 275.31. Until the merger is completed, the school district shall pay tuition for its resident students to an accredited school district under section 282.24.

13. Notwithstanding subsections 1 through 12 and as an exception to their requirements, a private high school or private combined junior-senior high school operated for the express purpose of teaching a program designed to qualify its graduates for matriculation at accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities shall be placed on a special accredited list of college preparatory schools, which list shall signify accreditation of the school for that express purpose only, if:

a. The school complies with minimum standards established by the Code other than this section, and rules adopted under the Code, applicable to:

(1) Courses comprising the limited program.
(2) Health requirements for personnel.
(3) Plant facilities.
(4) Other environmental factors affecting the programs.

b. At least eighty percent of those graduating from the school within the four most recent calendar years, other than those graduating who are aliens, graduates entering military or alternative civilian service, or graduates deceased or incapacitated before college acceptance, have been accepted by accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities.

c. A school claiming to be a private college preparatory school which fails to comply with the requirement of paragraph *"b"* of this subsection shall be placed on the special accredited list of college preparatory schools probationally if the school complies with the requirements of paragraph *"a"* of this subsection, but a probational accreditation shall not continue for more than four successive years.

14. Notwithstanding subsections 1 through 13 and as an exception to their requirements, a nonpublic grade school which is reopening is accredited even if it does not have a complete grade one through grade six program. However, the nonpublic grade school must comply with other minimum standards established by law and administrative rules adopted pursuant to the law and the nonpublic grade school must show progress toward reaching a grade one through grade six program.

1. Schools and school districts are not required to meet the standard adopted by the state board under section 256.17, Code Supplement 1987, requiring that ten units of vocational education be offered and taught in grades nine through twelve unless the general assembly enacts legislation relating to the requirements stated in the standard. Until the time schools and school districts are required to meet the standard, the occupational education requirements stated in section 256.11, subsection 5, paragraph *"h"*, apply.

2. Schools and school districts are not required to meet the requirement stated in the standards adopted by the state board under section 256.17, Code Supplement 1987, that prohibits an individual who is employed or contracted as superintendent from also serving as a principal in that school or school district until July 1, 1990, except as otherwise provided in this subsection. Not later than January 1, 1990, for the school year beginning July 1, 1990, the board of directors of a school district or authorities in charge of a nonpublic school, may file a written request with the department of education that the department waive the requirement for that district or school. The procedures specified in subsection 5 apply to the request.

3. Schools and school districts unable to meet the standard adopted by the state board under section 256.17, Code Supplement 1987, and contained in section 256.11, subsection 9A, effective July 1, 1989, requiring that on July 1, 1989, each board operating a kindergarten through grade twelve program provide an articulated sequential elementary-secondary guidance program may, not later than January 1, 1989, for the school year beginning July 1, 1989, file a written request to the department of education that the department waive the requirement for that school or school district. The procedures specified in subsection 5 apply to the request. Not later than January 1, 1990, for the school year beginning July 1, 1990, the board or authorities may request a one-year extension of the waiver. Not later than January 1, 1991, for the school year beginning July 1, 1991, the board or authorities may request an additional one-year extension of the waiver.

If a waiver is approved under subsection 5, the school or school district shall meet the requirements of section 256.11, subsection 9, paragraph *"b"*, Code Supplement 1987, for the period for which the waiver is approved.

4. Schools and school districts are not required to meet the standard adopted by the state board of education under section 256.17, Code Supplement 1987, and contained in section 256.11, subsection 9, paragraph *"b"*, effective July 1, 1990, that requires the board to establish and operate a media services program to support the total curriculum until July 1, 1990, except as otherwise provided in this subsection. Not later than January 1, 1990, for the school year beginning July 1, 1990, the board of directors of a school district, or authorities in charge of a nonpublic school, may file a written request with the department of education that the department waive the requirement for that district or school. The procedures specified in subsection 5 apply to the request. Not later than January 1, 1991, for the school year beginning July 1, 1991, the board of directors of a school district, or authorities in charge of a nonpublic school, may file a request for a one-year extension of the waiver.

If a waiver is approved under subsection 5, the school district or school shall meet the requirements of section 256.11, subsection 9, paragraph *"a"*, Code Supplement 1987, for the period for which the waiver is approved.

5. A request for a waiver filed by the board of directors of a school district or authorities in charge of a nonpublic school shall describe actions being taken by the district or school to meet the requirement for which the district or school has requested a waiver. The state board of education shall adopt rules, by January 1, 1990, under chapter 17A to implement a

256.12 Sharing instructors and services.

1. The director, when necessary to realize the purposes of this chapter, shall approve the enrollment in public schools for specified courses of students who also are enrolled in private schools, when the courses in which they seek enrollment are not available to them in their private schools, provided the students have satisfactorily completed prerequisite courses, if any, or have otherwise shown equivalent competence through testing. Courses made available to students in this manner shall be considered as compliance by the private schools in which the students are enrolled with any standards or laws requiring private schools to offer or teach the courses.

2. This section does not deprive the respective boards of public school districts of any of their legal powers, statutory or otherwise, and in accepting the specially enrolled students, each of the boards shall prescribe the terms of the special enrollment, including but not limited to scheduling of courses and the length of class periods. In addition, the board of the affected public school district shall be given notice by the department of its decision to permit the special enrollment not later than six months prior to the opening of the affected public school district's school year, except that the board of the public school district may waive the notice requirement. School districts and area education agency boards may make public school services, which may include health services; special education services; diagnostic services for speech, hearing, and psychological purposes; services for remedial education programs, guidance services, and school testing services, available to children attending nonpublic schools in the same manner and to the same extent that they are provided to public school students. However, services that are made available shall be provided on neutral sites, or in mobile units located off the nonpublic school premises as determined by the boards of the school districts and area education agencies providing the services, and not on nonpublic school property, except for health services and diagnostic services for speech, hearing, and psychological purposes, which may be provided on nonpublic school premises, with the permission of the lawful custodian.

Courses and grades made available to students in this manner shall be considered as complying with any standards or laws requiring the offering of such courses and grades. 1. The state board of education shall approve pilot projects, not exceeding four per year, for the purpose of sharing licensed instructional personnel between two or more districts, when the participating districts plan to utilize a modified block schedule for offering classes in the districts and sharing the licensed instructional personnel because of the modified block schedule. One-half of the approved pilot projects each year shall be projects of school districts with less than twelve hundred combined certified enrollment. The approved pilot projects shall also be as geographically distributed throughout the state as possible.

2. The boards of directors of two or more school districts may jointly apply to the state board of education for approval of a pilot project to jointly utilize a modified block schedule. The application shall be received by January 1 of the preceding school year. The state board shall review the applications and notify school districts with approved applications not later than February 15 of the preceding school year. The state board may request that a proposal be amended and resubmitted within the specified time period, to permit the proposal to comply with the requirements pursuant to subsection 3.

3. The application, pursuant to subsection 2, shall include the following:

a. Demonstration of a projected minimum of fifteen percent annual combined instructional and support cost savings of the projected costs if the districts would not utilize a modified block schedule, through reduction of employment of licensed instructional and support personnel.

b. Demonstration among the grades participating in the project of the following: greater student-licensed instructional personnel ratio, an increased number of course offerings, and an average reduction of course preparations per licensed teacher.

c. Demonstration of the acceptance of the modified block schedule by the administration personnel, the majority of each board of directors of each school district participating in the pilot project, and the licensed instructional personnel.

d. Transition and implementation plans regarding the in-service plan pursuant to subsection 5 and the changes necessary for a permanent modified block schedule.

e. Sabbatical plan for temporarily displaced teachers, which may include, but not be limited to, in-service, postsecondary enrollment, career advancement, consultant and other teaching positions in another school district.

For purposes of this section *"instructional and support cost"* means the general education costs, including salaries, benefits, contract or purchase services, supplies, capital outlay, miscellaneous expenses, and fund transfers.

4. Licensed instructional personnel notified, after approval of the pilot project by the state board, that the person's position has been temporarily displaced for the period of the pilot project, shall continue to be employed by the school district in a sabbatical capacity as mutually determined by the person and the board. If the determination is made that the person may be employed as a teacher in another school district for the period of the pilot project, the person shall receive the amount of the difference between the compensation which would have been received from the school district participating in the pilot project and the compensation received from the school district not participating in the pilot project, from the school district participating in the pilot project. All other terms of the contract with the school district participating in the pilot project shall remain in effect for the school year affected by the pilot project.

5. The school districts participating in the approved pilot project shall conduct in-service training for all licensed instructional and noninstructional personnel regarding the modified block scheduling, between the date notified by the state board of education regarding approval of the pilot project and September 1. Personnel shall receive compensation for the training, based on the per diem compensation received under the contract of the employing school district. The in-service training shall not be less than ten days.

6. The school district shall submit a quarterly report to the department of education, including but not limited to, test scores, daily attendance rates, and resulting ratio between students and licensed instructional personnel. The teacher's plan must be accompanied by the written approval of the superintendent of the school district and a statement by the superintendent describing the benefits of the sabbatical to the school district.

The state board of education shall adopt rules under chapter 17A relating to submission of sabbatical plans and criteria for awarding the sabbaticals, including both the benefit to the teacher and the benefit to the school district. Sabbaticals shall be awarded by the department not later than January 1 of the preceding school year.

A sabbatical grant to a teacher shall be equal to the costs to the school district of the teacher's regular compensation as defined in section 294A.2 plus the cost to the district of the fringe benefits of the teacher. Teachers and boards of school districts are encouraged to seek funding from other sources to pay the costs of sabbaticals for teachers. Grant moneys are miscellaneous income for purposes of chapter 257.

A sabbatical approved by the department may be for any period of time not exceeding one year.

A teacher granted a sabbatical under this section shall agree either to return to the school district granting the leave for a period of not less than two years or to repay to the department of education the amount of the sabbatical grant received during the leave.

Notwithstanding section 8.33, if moneys are appropriated by the general assembly for the sabbatical program for a fiscal year, the moneys shall not revert at the end of that fiscal year but shall carry over and may be expended during the next fiscal year.

YOUTH 2000 COORDINATING COUNCIL

256.40 Findings.

It is the intent of the general assembly that greater collaboration and coordination are necessary among state agencies in addressing the many challenges faced by Iowa in assuring the full development of the state's youth into the productive work force necessary for the twenty-first century. Public policy attention must be placed upon the needs of at-risk adolescents and adolescents in at-risk communities. Iowa youth are at risk of a variety of personal and social problems including drug abuse and dependency, adult criminal activities, school dropout, juvenile delinquency, adolescent suicide, and adolescent pregnancy, all of which can lead to adult unemployment and welfare dependency. Approaches to such adolescent problems should be dealt with in a comprehensive and coordinated fashion that involves the family, schools, community programs serving youth, and the private sector in providing positive youth alternatives. The state should play a significant role in aiding in such collaborative efforts within local communities.

3. At least biennially, develop an inventory of child development services provided to at-risk three-year- and four-year-old children in this state and identify the number of children receiving and not receiving these services, the types of programs under which the services are received, the degree to which each program meets the council's minimum guidelines for a comprehensive program, and the reasons children not receiving the services are not being served. The council is not required to conduct independent research in developing the inventory, but shall determine information needs necessary to provide a more complete inventory.

4. Make recommendations to the department of education and the general assembly regarding appropriate curricula and staff qualifications and training for early elementary education, coordination of the curricula with child development programs, and the development of an at-risk children definition for use in school-district-sponsored early elementary and before and after school child care programs.

d. A staff-to-children ratio within the guidelines established under subsection 2, but not less than one staff member per eight children.

e. The degree to which the program involves and works with the parents, and includes home visits, instruction for parents on parenting skills, on enhancement of skills in providing for their children's learning and development, and the physical, mental, and emotional development of children, and experiential education.

f. The manner in which health, medical, dental, and nutrition services are incorporated into the program.

g. The degree to which the program complements existing programs and services for at-risk three-year- and four-year-old children available in the area, including other day-care services, services provided through the school district, and services available through area education agencies.

h. The degree to which the program can be monitored and evaluated to determine its ability to meet its goals.

i. The provision of transportation or other auxiliary services that may be necessary for families to participate in the program.

j. The provision of staff training and development, and staff compensation sufficient to assure continuity.

Program grants funded under this subsection may integrate children not meeting at-risk criteria into the program and shall establish a fee for participation in the program in the manner provided in section 279.49, but grant funds shall not be used to pay the costs for those children.

6. Encourage the submission of grant requests from all potential providers of child development services and shall be flexible in evaluating grants, recognizing that different types of programs may be suitable for different locations in the state. However, requests for grants must contain a procedure for evaluating the effectiveness of the program and accounting procedures for monitoring the expenditure of grant moneys.

The council shall seek to use performance-based measures to evaluate programs. Not more than five percent of any state funds appropriated for child development purposes may be used for administration and evaluation.

7. Encourage the establishment of regional councils designed to facilitate the development on a regional basis of programs for at-risk three-year- and four-year-old children.

8. Annually, submit recommendations to the governor and the general assembly on the need for investment in child development services in the state.

257.1 State school foundation program — state aid.

1. *Program established.* A state school foundation program is established for the school year commencing July 1, 1991, and succeeding school years.

2. *State school foundation aid — foundation base.* For a budget year, each school district in the state is entitled to receive foundation aid, in an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the combined foundation base per pupil or the combined district cost per pupil, whichever is less. However, if the amount of foundation aid received by a school district under this chapter is less than three hundred dollars per pupil, the district is entitled to receive three hundred dollars per pupil unless the receipt of three hundred dollars per pupil plus the per pupil amount raised by the foundation property tax exceeds the combined district cost per pupil of the district for the budget year. In that case, the district is entitled to receive an amount per pupil equal to the difference between the per pupil amount raised by the foundation property tax for the budget year and the combined district cost per pupil for the budget year.

For the budget year commencing July 1, 1991, the regular program foundation base per pupil is eighty-three and five-tenths percent of the regular program state cost per pupil. For each succeeding budget year, the regular program foundation base shall increase twenty-five hundredths percent per year until the regular program foundation base reaches eighty-five percent of the regular program state cost per pupil. For the budget year commencing July 1, 1991, the special education support services foundation base is eighty-three and five-tenths percent of the special education support services state cost per pupil. It shall increase at the same rate as the regular program foundation base. The combined foundation base is the sum of the regular program foundation base and the special education support services foundation base.

3. *Computations rounded.* In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services, and educational services provided through the area education agencies, the department of management shall round amounts to the nearest whole dollar.

89 Acts, ch 135, §1

257.3 Foundation property tax.

1. *Amount of tax.* Except as provided in subsection 2, a school district shall cause to be levied each year, for the school general fund, a foundation property tax equal to five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. The county auditor shall spread the foundation levy over all taxable property in the district.

2. *Amount for reorganized and dissolved districts.* Reorganized school districts that met the requirements of section 442.2, subsection 1, Code 1989, prior to July 1, 1989, and had reduced property tax rates shall continue to have the reduced levies that they would have had under section 442.2, subsection 1, Code 1989, and those levies shall continue to increase twenty cents per year as provided in that subsection.

3. *Railway corporations.* For purposes of section 257.1, the *"amount per pupil of foundation property tax"* does not include the tax levied under subsection 1 or 2 on the property of a railway corporation, or on its trustee if the corporation has been declared bankrupt or is in bankruptcy proceedings.

89 Acts, ch 135, §3

257.4 Additional property tax.

1. *Computation of tax.* A school district shall cause an additional property tax to be levied each year. The rate of the additional property tax levy in a school district shall be determined by the department of management and shall be calculated to raise the difference between the combined district cost for the budget year and the sum of the products of the regular program foundation base per pupil times the weighted enrollment in the district and the special education support services foundation base per pupil times the special education support services weighted enrollment in the district.

2. *Application of tax.* No later than May 1 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. A county auditor shall spread the additional property tax levy for each school district in the county over all taxable property in the district.

89 Acts, ch 135, §4

257.5 Continuation of supplemental aid.

For purposes of this section, a reorganized school district is one in which reorganization was approved in an election pursuant to sections 275.18 and 275.20 before July 1, 1989.

A reorganized school district receiving supplemental aid prior to July 1, 1991, under section 442.9A, shall continue to receive supplemental aid in the amount provided under that section for the five-year period specified in that section.

There is appropriated from the general fund of the state to the department of management for each fiscal year an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 257.16.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid under section 257.36, supplemental aid shall be considered property tax.

89 Acts, ch 135, §5

257.6 Enrollment.

1. *Actual enrollment.* Actual enrollment is determined on the third Friday of September in each year and includes all of the following:

a. Resident pupils who were enrolled in public schools within the district in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.

b. Full-time equivalent resident pupils of high school age for which the district pays tuition to attend an Iowa community college.

c. Shared-time and part-time pupils of school age enrolled in public schools within the district, irrespective of the districts in which the pupils reside, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time nonresident pupil shall be reduced by the amount of any increased state aid received by the district by the counting of the pupil.

d. Eleventh and twelfth grade nonresident pupils who were residents of the district during the preceding school year and are enrolled in the district until the pupils graduate. Tuition for those pupils shall not be charged by the district in which the pupils are enrolled and the requirements of section 282.18 do not apply.

Pupils attending a university laboratory school are not counted in the actual enrollment of a school district, but the laboratory school shall report their enrollment directly to the department of education.

A school district shall certify its actual enrollment to the department of education by October 1 of each year, and the department shall promptly forward the information to the department of management. The department of management shall determine whether a district is entitled to an advance for increasing enrollment on the basis of its actual enrollment.

2. *Basic enrollment.* Basic enrollment for a budget year is a district's actual enrollment for the base year. Basic enrollment for the base year is a district's actual enrollment for the year preceding the base year.

3. *Additional enrollment because of special education.* A school district shall determine its additional enrollment because of special education, as defined in this section, on December 1 of each year and shall certify its additional enrollment because of special education to the department of education by December 15 of each year, and the department shall promptly forward the information to the department of management.

For the purposes of this chapter, *"additional enrollment because of special education"* is determined by multiplying the weighting of each category of child under section 281.9 times the number of children in each category totaled for all categories minus the total number of children in all categories.

4. *Budget enrollment.* Budget enrollment for the budget year shall be calculated for each school district by the department of management in the manner provided in this subsection. If the basic enrollment of a school district has declined from one year to the next during any of the five years prior to the base year, the district may be eligible for an enrollment adjustment based upon the percent of the enrollment decline and the number of years that have elapsed since the decline occurred. The budget enrollment for the budget year shall be calculated by adding together the following percents of enrollment decline in the district's basic enrollment from one base year to the preceding base year for each of the five preceding base years, commencing with the percent of change between the basic enrollment for the budget year and the basic enrollment for the base year, adding the sum of the percents to one hundred and multiplying the total by the basic enrollment for the budget year:

	Years between the Base Year and the Year of Decline				
Percent of Decline	1	2	3	4	5
Less than 1	0	0	0	0	0
1.0 through 2.9	2	2	1	1	0
3.0 through 4.9	4	3	2	2	1
5.0 through 6.9	6	5	4	3	2
7.0 and over	8	7	5	4	3

However, if a district's actual enrollment for a budget year is greater than its budget enrollment, the district is eligible for an advance for increasing enrollment as provided in section 257.13.

5. *Weighted enrollment.* Weighted enrollment is the budget enrollment plus the district's additional enrollment because of special education calculated on December 1 of the base year plus additional pupils added due to the application of the supplementary weighting.

Weighted enrollment for special education support services costs is equal to the weighted enrollment minus the additional pupils added due to the application of the supplementary weighting.

89 Acts, ch 135, §6

257.7 Authorized expenditures.

1. *Budgets.* School districts are subject to chapter 24. The authorized expenditures of a school district during a base year shall not exceed the lesser of the budget for that year certified under section 24.17 plus any allowable amendments permitted in this section, or the authorized budget, which is the sum of the combined district cost for that year, the actual

miscellaneous income received for that year, and the actual unspent balance from the preceding year.

2. *Budget amendments.* If actual miscellaneous income for a budget year exceeds the anticipated miscellaneous income in the certified budget for that year, or if an unspent balance has not been previously certified, a school district may amend its certified budget.

1. *Calculation by department of management.* On or before September 15, 1990, the department of management shall compute a state percent of growth for the budget year beginning July 1, 1991, and a state percent of growth for the year next following the budget year.

On or before each September 15 thereafter, the department of management shall compute a state percent of growth for the budget year next following the budget year. The state percents of growth shall be forwarded to the director of the department of education.

2. *Budget year calculation.* For the budget year commencing July 1, 1991, the state percent of growth is an average of the following four percents of growth in paragraphs *"a"* and *"b"* except as otherwise provided in subsection 4:

a. The difference in the percents of change in receipts of state general fund revenues, computed or estimated by the state revenue estimating conference created in section 8.22A as follows:

(1) The percent of change between the revenues received during the second year preceding the base year and the revenues received during the year preceding the base year.

(2) The percent of change between the revenues received during the year preceding the base year and the revenues received during the base year.

For the purpose of this lettered paragraph, receipts of state general fund revenues do not include one-time nonrecurring receipts or receipts that are accounting transactions made to meet the requirements of 1986 Iowa Acts, chapter 1238, section 59.

b. The difference in the gross national product implicit price deflators, based to the extent possible on the latest available values for these deflators, published by the bureau of economic analysis, United States department of commerce, computed or estimated as a percent of change as follows:

(1) From the value for the year ending December 31 eighteen months before the beginning of the base year to the value for the year ending December 31 six months before the beginning of the base year.

(2) From the value for the year ending December 31 six months before the beginning of the base year to the value for the year ending December 31 in the base year.

3. *Calculation for year following budget year.* For the year following the budget year, the state percent of growth is an average of the following four percents of growth in paragraphs *"a"* and *"b"*, except as provided in subsection 4:

a. The difference in the percents of change in receipts of state general fund revenues computed or estimated by the state revenue estimating conference created in section 8.22A as follows:

(1) The percent of change between the revenues received during the year preceding the base year and the revenues received during the base year.

(2) The percent of change between the revenues received during the base year and the revenues received during the budget year.

For the purpose of this lettered paragraph, receipts of state general fund revenues do not include one-time nonrecurring receipts or receipts that are accounting transactions made to meet the requirements of 1986 Iowa Acts, chapter 1238, section 59.

b. The difference in the gross national product implicit price deflators, based to the extent possible on the latest available values for those deflators published by the bureau of economic analysis, United States department of commerce, computed or estimated as a percent of change as follows:

(1) From the value for the year ending December 31 six months before the beginning of the base year to the value for the year ending December 31 six months before the beginning of the budget year.

(2) From the value for the year ending December 31 six months before the beginning of the budget year to the value for the year ending December 31 during the budget year.

4. *Exception.* If the average of the percents computed or estimated under paragraph *"b"* of subsection 2 or 3 exceeds the average of the percents computed or estimated under paragraph *"a"* of the applicable subsection, the state percent of growth for that budget year shall be the average of the two percents of growth computed or estimated under paragraph *"a"* of the applicable subsection.

5. *Negative percent.* If the state percent of growth computed for a budget year is negative, that percent shall not be used and the state percent of growth shall be zero.

6. *Recomputation.* On or before September 15 of the base year the department of management shall recompute the state percent of growth for the previous year using adjusted estimates and the actual figures available. The difference between the recomputed state percent of growth for the previous year and the original computation shall be added to or subtracted from the state percent of growth for the budget year next following the budget year, as applicable. However, on or before September 15, 1990, the department of management shall recompute the state percent of growth for the previous year in the manner provided in section 442.7, Code 1989.

With regard to values of gross national product implicit price deflators, the recomputation of the state percent of growth for the previous year shall be made only with respect to the value of the deflator

for the year which occurred subsequent to the calculation of the state percent of growth for the previous year. If subsection 4 is used in the calculation of the state percent of growth for the previous year, the calculation made in subsection 3, paragraph *"b"*, shall not be used in the recomputation of the state percent of growth for the previous year.

7. *Allowable growth calculation.* The department of management shall calculate the regular program allowable growth for a budget year by multiplying the state percent of growth for the budget year by the regular program state cost per pupil for the base year and shall calculate the special education support services allowable growth for the budget year by multiplying the state percent of growth for the budget year by the special education support services state cost per pupil for the base year.

8. *Combined allowable growth.* The combined allowable growth per pupil for each school district is the sum of the regular program allowable growth per pupil and the special education support services allowable growth per pupil for the budget year, which may be modified as follows:

a. By the school budget review committee under section 257.31.

b. By the department of management under section 257.36.

89 Acts, ch 135, §8

257.9 State cost per pupil.

1. *Regular program state cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, for the regular program state cost per pupil, the department of management shall add together the sum of the products of each district's regular program district cost per pupil for the base year, as regular program district cost per pupil would have been calculated under section 442.9, Code 1989, multiplied by its budget enrollment as budget enrollment would have been calculated under section 442.4, Code 1989, for the base year, plus the sum of the amounts added to the district cost of school districts pursuant to section 442.21, Code 1989.

The total calculated under this subsection shall be divided by the total of the budget enrollments of all school districts for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, if section 257.6, subsection 4, had been in effect for that budget year. The regular program state cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus an allowable growth amount that is equal to the state percent of growth for the budget year multiplied by the amount calculated by the department of management under this subsection.

2. *Regular program state cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the regular program state cost per pupil for a budget year is the regular program state cost per pupil for the base year plus the regular program allowable growth for the budget year.

3. *Special education support services state cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, for the special education support services state cost per pupil, the department of management shall divide the total of the approved budgets of the area education agencies for special education support services for that year approved by the state board of education under section 273.3, subsection 12, by the total of the weighted enrollment for special education support services in the state for the budget year. The special education support services state cost per pupil for the budget year is the amount calculated by the department of management under this subsection.

4. *Special education support services state cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the special education support services state cost per pupil for the budget year is the special education support services state cost per pupil for the base year plus the special education support services allowable growth for the budget year.

5. *Combined state cost per pupil.* The combined state cost per pupil is the sum of the regular program state cost per pupil and the special education support services state cost per pupil.

Subsection 1, unnumbered paragraph 1 amended, and paragraphs a and b stricken

257.10 District cost per pupil —district cost.

1. *Regular program district cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, in order to determine the regular program district cost per pupil for a district, the department of management shall divide the product of the regular program district cost per pupil of the district for the base year, as regular program district cost per pupil would have been calculated under section 442.9, Code 1989, multiplied by its budget enrollment for the base year as budget enrollment would have been calculated under section 442.4, Code 1989, plus the amount added to district cost pursuant to section 442.21, Code 1989, for each school district, by the budget enrollment of the school district for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, as if section 257.6, subsection 4, had been in effect for that budget year. The regular program district cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus the allowable growth amount calculated for regular program state cost per pupil, except that if the regular program district cost per pupil for the budget year calculated under this subsection in any school district exceeds one hundred ten percent of the regular program state cost per pupil for the budget year, the department of management shall reduce the regular program district cost per pupil of that district for the budget year to an

amount equal to one hundred ten percent of the regular program state cost per pupil for the budget year, and if the regular program district cost per pupil for the budget year calculated under this subsection in any school district is less than the regular program state cost per pupil for the budget year, the department of management shall increase the regular program district cost per pupil of that district to an amount equal to the regular program state cost per pupil for the budget year.

2. *Regular program district cost per pupil for 1992-1993 and succeeding years.*

a. For the budget year beginning July 1, 1992, and succeeding budget years, the regular program district cost per pupil for each school district for a budget year is the regular program district cost per pupil for the base year plus the regular program allowable growth for the budget year except as otherwise provided in this subsection.

b. If the regular program district cost per pupil of a school district for the budget year under paragraph *"a"* exceeds one hundred five percent of the regular program state cost per pupil for the budget year and the state percent of growth for the budget year is greater than two percent, the regular program district cost per pupil for the budget year for that district shall be reduced to one hundred five percent of the regular program state cost per pupil for the budget year. However, if the difference between the regular program district cost per pupil for the budget year and the regular program state cost per pupil for the budget year is greater than an amount equal to two percent multiplied by the regular program state cost per pupil for the base year, the regular program district cost per pupil for the budget year shall be reduced by the amount equal to two percent multiplied by the regular program state cost per pupil for the base year.

3. *Special education support services district cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, for the special education support services district cost per pupil, the department of management shall divide the approved budget of each area education agency for special education support services for that year approved by the state board of education, under section 273.3, subsection 12, by the total of the weighted enrollment for special education support services in the area for that budget year.

The special education support services district cost per pupil for each school district in an area for the budget year is the amount calculated by the department of management under this subsection.

4. *Special education support services district cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the special education support services district cost per pupil for the budget year is the special education support services district cost per pupil for the base year plus the special education support services allowable growth for the budget year.

Notwithstanding the special education support services district cost per pupil for the budget year beginning July 1, 1991, calculated under subsection 3, for area education agencies that have fewer than three and five-tenths public school pupils per square mile, the special education support services district cost per pupil for the budget year beginning July 1, 1991, is one hundred forty-seven dollars.

5. *Combined district cost per pupil.* The combined district cost per pupil for a school district is the sum of the regular program district cost per pupil and the special education support services district cost per pupil. Combined district cost per pupil does not include additional allowable growth added for school districts that have a negative balance of funds raised for special education instruction programs, additional allowable growth granted by the school budget review committee for a single school year, or additional allowable growth added for programs for dropout prevention and for programs for gifted and talented children.

6. *Regular program district cost.* Regular program district cost for a school district for a budget year is equal to the regular program district cost per pupil for the budget year multiplied by the budget enrollment for the budget year.

7. *Special education support services district cost.* Special education support services district cost for a school district for a budget year is equal to the special education support services district cost per pupil for the budget year multiplied by the special education support services weighted enrollment for the district for the budget year. If the special education support services district cost for a school district for a budget year is less than the special education support services district cost for that district for the base year, the department of management shall adjust the special education support services district cost for that district for the budget year to equal the special education support services district cost for the base year.

8. *Combined district cost.* Combined district cost is the sum of the regular program district cost per pupil multiplied by the weighted enrollment and the special education support services district cost, plus the additional district cost allocated to the district to fund media services and educational services provided through the area education agency.

A school district may increase its combined district cost for the budget year to the extent that an excess tax levy is authorized by the school budget review committee.

257.11 Supplementary weighting plan.

In order to provide additional funds for school districts which send their resident pupils to another school district or to a community college for classes, which jointly employ and share the services of teach-

ers under section 280.15, which use the services of a teacher employed by another school district, or which jointly employ and share the services of a school superintendent under section 280.15 or 273.7A, a supplementary weighting plan for determining enrollment is adopted as follows:

1. *Regular curriculum.* Pupils in a regular curriculum attending all their classes in the district in which they reside, taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. *Shared classes or teachers.* If the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting, pupils attending classes in another school district or a community college, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district, are assigned a weighting of one plus an additional portion equal to one times the percent of the pupil's school day during which the pupil attends classes in another district or community college, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district.

3. *Whole grade sharing.* For the budget years beginning July 1, 1991, and July 1, 1992, in districts that have executed whole grade sharing agreements under sections 282.10 through 282.12, the school budget review committee shall assign a weighting equal to one plus an additional portion of one times the percent of the pupil's school day in which a pupil attends classes in another district or a community college, attends classes taught by a teacher who is employed jointly under section 280.15, or attends classes taught by a teacher who is employed by another district. The assignment of additional weighting to a school district shall continue for a period of five years. If the school district reorganizes during that five-year period, the assignment of the additional weighting shall be transferred to the reorganized district until the expiration of the five-year period. If a school district was receiving additional weighting for whole grade sharing under section 442.39, subsection 2, Code 1989, the district shall continue to be assigned additional weighting for whole grade sharing by the school budget review committee under this subsection so that the district is assigned the additional weighting for whole grade sharing for a total period of five years.

4. *Pupils ineligible.* A pupil eligible for the weighting plan provided in section 281.9 is not eligible for the weighting plan provided in this section.

5. *Shared superintendents.* For the budget years beginning July 1, 1991, and July 1, 1992, pupils enrolled in a school district in which the superintendent is employed jointly under section 280.15 or under section 273.7A, are assigned a weighting of one plus an additional portion of one for the superintendent who is jointly employed times the percent of the superintendent's time in which the superintendent is employed in the school district. However, the total additional weighting assigned under this subsection for a budget year for a school district shall not exceed seven and one-half and the total additional weighting added cumulatively to the enrollment of school districts sharing a superintendent shall not exceed twelve and one-half. The assignment of additional weighting to a school district shall continue for a period of five years. If the school district reorganizes during that five-year period, the assignment of the additional weighting shall be transferred to the reorganized district until the expiration of the five-year period.

If a district was receiving additional weighting for superintendent sharing or administrator sharing under section 442.39, subsection 4, Code 1989, the district shall continue to be assigned additional weighting for superintendent sharing or administrator sharing by the school budget review committee under this subsection so that the district is assigned the additional weighting for sharing for a total period of five years.

6. *Shared mathematics, science, and language courses.* For the budget years beginning July 1, 1991, and July 1, 1992, a school district receiving additional funds under subsection 2 or 3 for its pupils at the ninth grade level and above that are enrolled in sequential mathematics courses at the advanced algebra level and above; chemistry, advanced chemistry, physics or advanced physics courses; or foreign language courses at the second year level and above shall have an additional weighting of one pupil added to its total.

7. *Calculation of weights.* The school budget review committee shall calculate the weights to be used under subsections 2 and 3 to the nearest one-hundredth of one and under subsection 5 to the next highest one-thousandth of one. To the extent possible, the moneys generated by the weighting shall be equivalent to the moneys generated by the one-tenth, five-tenths, and twenty-five thousandths weighting provided in section 442.39, Code 1989.

257.12 Supplementary weighting and school reorganization.

A reorganized school district in which additional pupils were added under section 442.39A, Code 1989, shall continue to have additional pupils added, subject to changes in weighting made under section 257.11, until the expiration of the five-year period provided in section 442.39A, Code 1989.

89 Acts, ch 135, §12

257.13 Advance for increasing enrollment.

If a district's actual enrollment for the budget year, determined under section 257.6, is greater than its budget enrollment for the budget year, the district is granted an advance from the state of an amount

equal to its regular program district cost per pupil for the budget year multiplied by the difference between the actual enrollment for the budget year and the budget enrollment for the budget year. The advance is miscellaneous income.

If a district receives an advance under this section for a budget year, the department of management shall determine the amount of the advance which would have been generated by local property tax revenues if the actual enrollment for the budget year had been used in determining district cost for that budget year, shall reduce the district's total state school aids otherwise available under this chapter for the next following budget year by the amount so determined, and shall increase the district's additional property tax levy for the next following budget year by the amount necessary to compensate for the reduction in state aid, so that the local property tax for the next following year will be increased only by the amount which it would have been increased in the budget year if the enrollment calculated in this section could have been used to establish the levy.

There is appropriated each fiscal year from the general fund of the state to the department of education the amount required to pay advances authorized under this section, which shall be paid to school districts in the same manner as other state aids are paid under section 257.16.

89 Acts, ch 135, §13

257.14 Budget adjustment.

For the budget years commencing July 1, 1991, and July 1, 1992, if the department of management determines that the regular program district cost of a school district for a budget year is less than the total of the regular program district cost plus any adjustment added under this section for the base year for that school district, the department of management shall provide a budget adjustment for that district for that budget year that is equal to the difference.

For the budget year beginning July 1, 1991 for a school district, the department of management shall use as the district's base year regular program district cost the product of the district's regular program district cost per pupil calculated as regular program district cost per pupil would have been calculated for the budget year under section 442.9, Code 1989, multiplied by the district's budget enrollment as budget enrollment would have been calculated under section 442.4, Code 1989, for the budget year, and shall add to that amount the amount added to district cost pursuant to section 442.21, Code 1989.

Unnumbered paragraph 2 amended

257.15 Property tax adjustment.

1. *Property tax adjustment for 1991-1992.* For the budget year beginning July 1, 1991, the department of management shall calculate for each district the difference between the sum of the revenues generated by the foundation property tax and the additional property tax in the district calculated under this chapter and the revenues that would have been generated by the foundation property tax and the additional property tax in that district for that budget year calculated under chapter 442, Code 1989, if chapter 442 were in effect, except that the revenues that would have been generated by the additional property tax levy under chapter 442 shall not include revenues generated for the school improvement program. If the property tax revenues for a district calculated under this chapter exceed the property tax revenues for that district calculated under chapter 442, Code 1989, the department of management shall reduce the revenues raised by the additional property tax levy in that district under this chapter by that difference and the department of education shall pay property tax adjustment aid to the district equal to that difference from moneys appropriated for property tax adjustment aid.

2. *Property tax adjustment aid for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the department of education shall pay property tax adjustment aid to a school district equal to the amount paid to the district for the base year less an amount equal to the product of the percent by which the taxable valuation in the district increased, if the taxable valuation increased, from January 1 of the year prior to the base year to January 1 of the base year and the property tax adjustment aid. The department of management shall adjust the rate of the additional property tax accordingly and notify the department of education of the amount of aid to be paid to each district from moneys appropriated for property tax adjustment aid.

3. *Property tax adjustment aid appropriation.* There is appropriated from the general fund of the state to the department of education, for each fiscal year, an amount necessary to pay property tax adjustment aid to school districts under this section. Property tax adjustment aid shall be paid to school districts in the manner provided in section 257.16.

89 Acts, ch 135, §15

257.16 Appropriations.

There is appropriated each year from the general fund of the state an amount necessary to pay the foundation aid.

All state aids paid under this chapter, unless otherwise stated, shall be paid in monthly installments beginning on September 15 of a budget year and ending on June 15 of the budget year and the installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state resources. However, the state aid paid to school districts under section 257.13 shall be paid in monthly installments beginning on December 15 and ending on June 15 of a budget year.

All moneys received by a school district from the state under this chapter shall be deposited in the

general fund of the school district, and may be used for any school general fund purpose.

89 Acts, ch 135, §16

257.17 Aid reduction for early school starts.

State aid payments made pursuant to section 257.16 for a fiscal year shall be reduced by one one-hundred-eightieth for each day of that fiscal year for which the school district begins school before the earliest starting date specified in section 279.10, subsection 1. However, this section does not apply to a school district that has received approval from the director of the department of education under section 279.10, subsection 4, to commence classes for regularly established elementary and secondary schools in advance of the starting date established in section 279.10, subsection 1.

89 Acts, ch 135, §17

257.18 Instructional support program.

1. An instructional support program that provides additional funding for school districts is established. A board of directors that wishes to consider participating in the instructional support program shall hold a public hearing on the question of participation. The board shall set forth its proposal, including the method that will be used to fund the program, in a resolution and shall publish the notice of the time and place of a public hearing on the resolution. Notice of the time and place of the public hearing shall be published in one or more newspapers not less than ten nor more than twenty days before the public hearing. For the purpose of establishing and giving assured circulation to the proceedings, only a newspaper which is a newspaper of general circulation issued at a regular frequency, distributed in the school district's area, and regularly delivered or mailed through the post office during the preceding two years may be used for the publication. In addition, the newspaper must have a list of subscribers who have paid, or promised to pay, at more than a nominal rate, for copies to be received during a stated period. At the hearing, the board shall announce a date certain, no later than thirty days after the date of the hearing, that it will take action to adopt a resolution to participate in the instructional support program for a period not exceeding five years or to direct the county commissioner of elections to call an election to submit the question of participation in the program for a period not exceeding ten years to the qualified electors of the school district at the next following regular school election in the base year or a special election held not later than December 1 of the base year. If the board calls an election on the question of participation, if a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and certify the results of the election to the department of management.

2. If the board does not provide for an election and adopts a resolution to participate in the instructional support program, the district shall participate in the instructional support program unless within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the instructional support program. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the qualified electors of the school district at the next following regular school election or a special election held not later than December 1 of the base year. If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not participate in the instructional support program. If a majority of those voting on the question favors approval of the action, the board shall certify the results of the election to the department of management and the district shall participate in the program.

At the expiration of the twenty-eight day period, if no petition is filed, the board shall certify its action to the department of management and the district shall participate in the program.

89 Acts, ch 135, §18

257.19 Instructional support funding.

The additional funding for the instructional support program for a budget year is limited to an amount not exceeding ten percent of the total of regular program district cost for the budget year and moneys received under section 257.14 as a budget adjustment for the budget year. Moneys received by a district for the instructional support program are miscellaneous income and may be used for any general fund purpose.

Certification of a board's intent to participate for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than March 15 of the base year. Funding for the instructional support program shall be obtained from instructional support state aid and from local funding using either an instructional support property tax or a combination of an instructional support property tax and an instructional support income surtax.

The board of directors shall determine whether the instructional support property tax or the combination of the instructional support property tax and instructional support income surtax shall be used for the local funding. Subject to the limitation specified in section 298.14, if the board elects to use the combination of the instructional support property tax and instructional support income surtax, for each budget year the board shall determine the percent of income surtax that will be imposed, expressed as full percentage points, not to exceed twenty percent.

89 Acts, ch 135, §19

257.20 Instructional support state aid appropriation.

In order to determine the amount of instructional support state aid and the amount of local funding for the instructional support program for a district, the department of management shall divide the total assessed valuation in the state by the total budget enrollment for the budget year in the state to determine a state assessed valuation per pupil and shall divide the assessed valuation in each district by the district's budget enrollment for the budget year to determine the district assessed valuation per pupil. The department of management shall multiply the ratio of the state's valuation per pupil to the district's valuation per pupil by twenty-five hundredths and subtract that result from one to determine the portion of the instructional support program budget that is local funding. The remaining portion of the budget shall be funded by instructional support state aid.

There is appropriated for each fiscal year from the general fund of the state to the department of education, an amount necessary to pay instructional support state aid as provided in this section. Instructional support state aid shall be paid at the same time and in the same manner as foundation aid is paid under section 257.16.

89 Acts, ch 135, §20

257.21 Computation of instructional support amount.

The department of management shall establish the amount of instructional support property tax to be levied and the amount of instructional support income surtax to be imposed by a district in accordance with the decision of the board under section 257.19 for each school year for which the instructional support program is authorized. The department of management shall determine these amounts based upon the most recent figures available for the district's valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district's county auditor the amount of instructional support property tax, and to the director of revenue and finance the amount of instructional support income surtax to be imposed if an instructional support income surtax is to be imposed.

The instructional support income surtax shall be imposed on the state individual income tax for the calendar year during which the school's budget year begins, or for a taxpayer's fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, *"state individual income tax"* means the tax computed under section 422.5, less the deductions allowed in sections 422.10 through 422.12.

An educational improvement program is established to provide additional funding for school districts in which the regular program district cost per pupil for a budget year is one hundred ten percent of the regular program state cost per pupil for the budget year and which have approved the use of the instructional support program established in section 257.18. A board of directors that wishes to consider participating in the educational improvement program shall hold a hearing on the question of participation and the maximum percent of the regular program district cost of the district that will be used. The hearing shall be held in the manner provided in section 257.18 for the instructional support program. Following the hearing, the board may direct the county commissioner of elections to submit the question to the qualified electors of the school district at the next following regular school election or a special election held not later than the following February 1. If a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and shall certify the results of the election to the department of management and the district shall participate in the program. If a majority of those voting on the question does not favor participation, the district shall not participate in the program.

The educational improvement program shall provide additional revenues each fiscal year equal to a specified percent of the regular program district cost of the district, as determined by the board but not more than the maximum percent authorized by the electors if an election has been held. Certification of a district's participation for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than March 15 of the base year.

The educational improvement program shall be funded by either an educational improvement property tax or by a combination of an educational improvement property tax and an educational improvement income surtax. The method of raising the educational improvement moneys shall be determined by the board. Subject to the limitation in section 298.14, if the board uses a combination of an educational improvement property tax and an educational improvement income surtax, the board shall determine the percent of income surtax to be imposed, expressed as full percentage points, not to exceed twenty percent.

The department of management shall establish the amount of the educational improvement property tax to be levied or the amount of the combination of the educational improvement property tax to be levied and the amount of the school district income surtax to be imposed for each school year that the educational improvement amount is authorized. Moneys received by a school district under the educational improvement program are miscellaneous income.

Once approved at an election, the authority of the board to use the educational improvement program shall continue until the board votes to rescind the educational improvement program or the voters of the school district by majority vote order the discontinuance of the program. 257.30 School budget review committee.

A school budget review committee is established in the department of education and consists of the director of the department of education, the director of the department of management, and three members who are knowledgeable in the areas of Iowa school finance or public finance issues appointed by the governor to represent the public. At least one of the public members shall possess a master's or doctoral degree in which areas of school finance, economics, or statistics are an integral component, or shall have equivalent experience in an executive administrative or senior research position in the education or public administration field. The members appointed by the governor shall serve staggered three-year terms beginning and ending as provided in section 69.19 and are subject to senate confirma-

tion as provided in section 2.32. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school districts, as provided in section 257.31. It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure under chapter 17A. The director of the department of education shall serve as chairperson, and the director of the department of management shall serve as secretary. The committee members representing the public are entitled to receive their necessary expenses while engaged in their official duties. Members shall be paid a per diem at the rate specified in section 7E.6. Per diem and expense payments shall be made from appropriations to the department of education.

The department of education shall employ a staff member to assist the school budget review committee.

89 Acts, ch 135, §30

257.31 Duties of the committee.

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, information about the amounts of property tax levied by school districts for a cash reserve, and other information the committee deems advisable.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Not later than January 1, 1992, the committee shall adopt recommendations relating to the implementation by school districts and area education agencies of procedures pertaining to the preparation of financial reports in conformity with generally accepted accounting principles and submit those recommendations to the state board of education. The state board shall consider the recommendations and adopt rules under section 256.7 specifying procedures and requiring the school districts and area education agencies to conform to generally accepted accounting principles commencing with the school year beginning July 1, 1996.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for the purposes of this subsection, and such aid shall be miscellaneous income and shall not be included in district cost, or may establish a modified allowable growth for the district by increasing its allowable growth, or both:

a. Any unusual increase or decrease in enrollment.

b. Unusual natural disasters.

c. Unusual initial staffing problems.

d. The closing of a nonpublic school, wholly or in part.

e. Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.

f. Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils.

g. Unusual need for a new course or program which will provide substantial benefit to pupils, if the district establishes the need and the amount of necessary increased cost.

h. Unusual need for additional funds for special education or compensatory education programs.

i. Year-round or substantially year-round attendance programs which apply toward graduation requirements, including but not limited to trimester or four-quarter programs. Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance.

j. Unusual need to continue providing a program or other special assistance to non-English speaking pupils after the expiration of the three-year period specified in section 280.4.

k. Circumstances caused by unusual demographic characteristics.

l. Any unique problems of school districts.

6. The committee may grant transportation assistance aid to a school district from funds appropriated in this subsection for the purpose of providing additional funds for a budget year to school districts that have costs for mandatory school transportation based upon the cost per pupil transported that exceed one hundred ten percent of the state average cost of mandatory school transportation based upon the cost per pupil transported. School districts shall submit to the department of education the cost of providing mandatory school transportation in their transportation report filed by July 15 after each school year. The committee shall prioritize the requests of school districts ranking the districts by their mandatory transportation costs based upon the costs per pupil transported with consideration given to the geographic size of the district. Within the limits of the funds appropriated in this subsec-

tion, the committee shall pay transportation assistance to those districts ranked in the highest priority based upon the criteria listed in this subsection. The committee shall adopt rules under chapter 17A establishing a procedure for prioritizing requests. Transportation assistance payments are equal to the amount that each district's cost of mandatory transportation based upon the cost per pupil transported exceeds one hundred ten percent of the state average cost of transportation based upon the cost per pupil transported multiplied by the number of pupils transported. Payment for a school year shall be made by September 1 after each school year.

School districts shall also submit in their transportation report long-term plans to reduce their transportation costs. The long-term plans may include, but are not limited to, more efficient use of transportation resources, consolidation of transportation systems, or contracting with regional municipal or private transit systems. The school budget review committee shall review the long-range plans and make recommendations concerning reducing transportation costs to the school districts.

There is appropriated from the general fund of the state to the department of education for the use of the school budget review committee, for each fiscal year, the amount of three million five hundred thousand dollars, or as much thereof as may be necessary, to pay the transportation assistance to school districts ranked in the highest priority under this subsection.

7. The committee shall establish a modified allowable growth for a district by increasing its allowable growth when the district submits evidence that it requires additional funding for removal, management, or abatement of environmental hazards due to a state or federal requirement. Environmental hazards shall include but are not limited to the presence of asbestos, radon, or the presence of any other hazardous material dangerous to health and safety.

The district shall include a budget for the actual cost of the project that may include the costs of inspection, reinspection, sampling, analysis, assessment, response actions, operations and maintenance, training, periodic surveillance, developing of management plans, recordkeeping requirements, and encapsulation or removal of the hazardous material.

8. The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for either of the following purposes:

a. Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or the tax levy provided in section 298.2.

b. The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275, if the costs are incurred within three years of the dissolution or reorganization.

Other expenditures, including but not limited to expenditures for salaries or recurring costs, are not authorized under this subsection. Expenditures authorized under this subsection shall not be included in allowable growth or district cost, and the portion of the unexpended cash balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance.

9. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

10. When the committee makes a decision under subsections 3 through 9, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the department of education.

11. A special needs adjustment program is established to be administered by the committee. A school district or area education agency is eligible to request additional funding for a budget year from moneys appropriated in this subsection if it submits evidence to the committee not later than December 15 of the base year that it has special needs that cannot be met through other funding sources available to it. A school district is eligible only if it meets the requirements specified in paragraphs *"a"* and *"b"*. An area education agency is eligible only if it meets the requirements specified in paragraph *"c"*.

a. A school district must meet the following requirements:

(1) If the request for additional funding relates to approved expenditures from the general operating fund, the district must have approved the instructional support program for the maximum amount.

(2) If the request for additional funding relates to expenditures from the schoolhouse fund, the district must have approved the use of the voter-approved physical plant and equipment levy for the maximum amount.

(3) If the request for additional funding relates to a need included in subsection 5, the district must have been denied additional funding under subsection 5 or received inadequate additional funding under subsection 5.

(4) Notwithstanding subparagraph 1, if the request for additional funding relates to expenditures for programs for gifted and talented children, the committee must have approved the maximum amount of additional allowable growth for programs for gifted and talented children.

(5) Notwithstanding subparagraph 1, if the request for additional funding relates to expenditures for programs for dropout prevention, the committee must have approved the maximum amount of additional allowable growth for programs for dropout prevention.

(6) If the expenditures of the school district for executive administration as a percent of the dis-

trict's operating fund for the base year are equal to or less than one hundred ten percent of the average for the base year expenditures for executive administration of all school districts in the state as a percent of their operating funds.

b. A school district must meet at least one of the following criteria:

(1) The district is experiencing significant difficulty in meeting minimum state educational standards.

(2) The district is greater in area than one hundred fifty square miles.

(3) The district is experiencing extraordinary problems demonstrably linked to the demographic characteristics of that district.

(4) The average elementary or secondary pupil-teacher ratio of that district is greater than one hundred fifty percent of the state average pupil-teacher ratio.

c. An area education agency must meet the requirements that there are fewer than three and one-half public school pupils per square mile in the area education agency and the ratio of public school pupils to each professional staff member is substantially fewer than that ratio in other area education agencies. If the request for additional funding relates to a need included in section 257.32, the area education agency must have been denied additional funding under section 257.32 or received inadequate additional funding under section 257.32. Approved payments to area education agencies shall be paid before payments are made to school districts.

d. There is appropriated from the general fund of the state to the department of education for the use of the committee for each fiscal year the sum of five million dollars, or so much thereof as may be necessary, to be used for distribution to area education agencies and school districts under this subsection. Not more than three hundred thousand dollars of the moneys appropriated in this paragraph shall be distributed to area education agencies.

If the moneys appropriated in this paragraph are reduced by the general assembly, the three hundred thousand dollar allocation for area education agencies shall be proportionally reduced.

12. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

13. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

14. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year pursuant to section 281.9, and report the plan to the director of the department of education.

15. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

16. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 281.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

In determining the balance of funds of a school district under this subsection, the committee shall subtract the amount of any reduction in state aid that occurred as a result of a reduction in allotments made by the governor under section 8.31.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeds the amount of state aid that remains to be paid to the district, the school district shall pay the excess on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that came from local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee for each fiscal year an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in all districts that has a positive balance determined under paragraph *"a"* for the

base year, or the state aid portion of all of the positive balances determined under paragraph *"a"* for the base year, whichever is less, to be used for supplemental aid payments to school districts. Except as otherwise provided in this lettered paragraph, supplemental aid paid to a district is equal to the state aid portion of the district's negative balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this lettered paragraph.

A school district is only eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will notify the school budget review committee to instruct the director of the department of management to increase the district's allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid under this subsection. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the additional allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments under this subsection, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

17. Annually the school budget review committee shall review the amount of property tax levied by each school district for the cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 257.4 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

18. The committee shall perform the duties assigned to it under chapter 286A and section 257.32.

89 Acts, ch 135, §31

257.32 Area education budget review.

1. An area education agency budget review procedure is established for the school budget review committee created in section 257.30. The school budget review committee, in addition to its duties under section 257.31, shall meet and hold hearings each year to review unusual circumstances of area education agencies, either upon the committee's motion or upon the request of an area education agency. The committee may grant supplemental aid to the area education agency from funds appropriated to the department of education for area education agency budget review purposes, or an amount may be added to the area education agency special education support services allowable growth for districts in an area or an additional amount may be added to district cost for media services or educational services for all districts in an area for the budget year either on a temporary or permanent basis, or both.

Unusual circumstances shall include but are not limited to the following:

a. An unusual increase or decrease in enrollment of children requiring special education or unusual need for additional moneys for special education support services.

b. Unusual need for additional moneys for media services.

c. Unusual need for additional moneys for educational services.

d. Unusual costs for building repair, building maintenance, or removal of environmental hazards.

e. Participation by the area education agency in telecommunications, electronic, and technological development with school districts, and related staff development programs.

2. When the school budget review committee makes a decision under subsection 1, it shall provide written notice of its decision, including all changes, to the board of directors of the area education agency, and to the department of management and the department of education.

3. All decisions by the school budget review committee under this section shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter.

4. Failure by an area education agency to provide information or appear before the school budget review committee as requested for the accomplishment of review or hearing constitutes justification for the committee to instruct the department of revenue and finance to withhold payments for the area education agency until the committee's inquiries are satisfied completely.

89 Acts, ch 135, §32

257.33 Prior enrichment approval.

If the electors of a school district approved the use of the additional enrichment amount prior to July 1, 1991, under chapter 442, or section 279.43, the approval for use of the enrichment amount shall continue in effect until the expiration of the period for which it was approved and districts may use the additional enrichment amount during that period. However, section 257.28 applies to the use of the additional enrichment amount.

89 Acts, ch 135, §33

257.34 Cash reserve information.

If a school district receives less state school foundation aid under section 257.1 than is due under that section for a base year and the school district uses funds from its cash reserve during the base year to make up for the amount of state aid not paid, the

board of directors of the school district shall include in its general fund budget document information about the amount of the cash reserve used to replace state school foundation aid not paid.

89 Acts, ch 135, §34

257.35 Area education agency payments.

The department of management shall deduct the amounts calculated for special education support services, media services, and educational services for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a monthly basis from September 15 through June 15 during each school year. The department of management shall notify each school district of the amount of state aid deducted for these purposes and the balance of state aid shall be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the department of management, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.

89 Acts, ch 135, §35

257.36 Special education support services balances.

Notwithstanding chapters 273 and 281 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for each school year, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The total amount deducted in an area shall be based upon excess special education support services unreserved and undesignated fund balances in that area education agency for a school year as determined by the department of education. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district's total state school aid available under this chapter for area education agency special education support services and reduce the district's property tax levy for area education agency special education support services by the amount necessary for the property tax portion of the deductions made under this section during the budget year.

The amount deducted from a school district's budget shall not affect the calculation of the state cost per pupil or its district cost per pupil in that school year or a subsequent year.

89 Acts, ch 135, §36

257.37 Reserved.

257.38 Programs for returning dropouts and dropout prevention.

11. Other factors the department requires.

Program plans shall identify the parts of the plan that will be implemented first upon approval of the application. If a district is requesting to use additional allowable growth to finance the program, it shall not identify more than five percent of its budget enrollment for the budget year as returning dropouts and potential dropouts.

89 Acts, ch 135, §38

258A.3 Authority of licensing boards.

1. Notwithstanding any other provision of this chapter, each licensing board shall have the powers to:

a. Administer and enforce the laws and administrative rules provided for in this chapter and any other statute to which the licensing board is subject;

b. Adopt and enforce administrative rules which provide for the partial re-examination of the professional licensing examinations given by each licensing board;

c. Review or investigate, or both, upon written complaint or upon its own motion pursuant to other evidence received by the board, alleged acts or omissions which the board reasonably believes constitute cause under applicable law or administrative rule for licensee discipline;

d. Determine in any case whether an investigation, or further investigation, or a disciplinary proceeding is warranted;

e. Initiate and prosecute disciplinary proceedings;

f. Impose licensee discipline;

g. Petition the district court for enforcement of its authority with respect to licensees or with respect to other persons violating the laws which the board is charged with administering;

h. Register or establish and register peer review committees;

i. Refer to a registered peer review committee for investigation, review, and report to the board, any complaint or other evidence of an act or omission which the board reasonably believes to constitute cause for licensee discipline. However, the referral of any matter shall not relieve the board of any of its duties and shall not divest the board of any authority or jurisdiction;

j. Determine and administer the renewal of licenses for periods not exceeding three years.

2. Each licensing board may impose one or more of the following as licensee discipline:

a. Revoke a license, or suspend a license either until further order of the board or for a specified period, upon any of the grounds specified in section 114.21, 116.21, 117.29, 118.13, 118A.15, 147.55, 148.6, 148B.7, 153.34, 154A.24, 169.13, or 602.3203 or chapter 135E, 151, 507B or 522, as applicable, or upon any other grounds specifically provided for in this chapter for revocation of the license of a licensee subject to the jurisdiction of that board, or upon failure of the licensee to comply with a decision of the board imposing licensee discipline;

b. Revoke, or suspend either until further order of the board or for a specified period, the privilege of a licensee to engage in one or more specified procedures, methods, or acts incident to the practice of the profession, if pursuant to hearing or stipulated or agreed settlement the board finds that because of a lack of education or experience, or because of negligence, or careless acts or omissions, or because of one or more intentional acts or omissions, the licensee has demonstrated a lack of qualifications which are necessary to assure the residents of this state a high standard of professional and occupational care;

c. Impose a period of probation under specified conditions, whether or not in conjunction with other sanctions;

d. Require additional professional education or training, or re-examination, or any combination, as a condition precedent to the reinstatement of a license or of any privilege incident thereto, or as a condition precedent to the termination of any suspension;

e. Impose civil penalties by rule, if the rule specifies which offenses or acts are subject to civil penalties. The amount of civil penalty shall be in the discretion of the board, but shall not exceed one thousand dollars. Failure to comply with the imposition of a civil penalty may be grounds for further license discipline;

f. Issue a citation and warning respecting licensee behavior which is subject to the imposition of other sanctions by the board.

3. The powers conferred by this section upon a licensing board shall be in addition to powers specified elsewhere in the Code. The powers of any other person specified elsewhere in the Code shall not limit the powers of a licensing board conferred by this section, nor shall the powers of such other person be deemed limited by the provisions of this section.

4. Nothing contained in this section shall be construed to prohibit informal stipulation and settlement by a board and a licensee of any matter involving licensee discipline. However, licensee discipline

shall not be agreed to or imposed except pursuant to a written decision which specifies the sanction and which is entered by the board and filed.

All health-care boards shall file written decisions which specify the sanction entered by the board with the Iowa department of public health which shall be available to the public upon request. All nonhealth-care boards shall have on file the written and specified decisions and sanctions entered by the board and shall be available to the public upon request.

i. Require each health care licensing board to file with the Iowa department of public health a copy of each decision of the board imposing licensee discipline. Each nonhealth-care board shall have on file a copy of each decision of the board imposing licensee discipline which copy shall be properly dated and shall be in simple language and in the most concise form consistent with clearness and comprehensiveness of subject matter.

The commissioner of insurance shall by rule in consultation with the licensing boards enumerated in section 258A.1, require insurance carriers which insure professional and occupational licensees for acts or omissions which constitute negligence, careless acts or omissions in the practice of a profession or occupation to file reports with the commissioner of insurance. 258A.6 Hearings — power of subpoena — decisions.

1. Disciplinary hearings held pursuant to this chapter shall be heard by the board sitting as the hearing panel, or by a panel of not less than three board members who are licensed in the profession, or by a panel of not less than three members appointed pursuant to subsection 2. Notwithstanding chapters 17A and 21 a disciplinary hearing shall be open to the public at the discretion of the licensee.

2. When, in the opinion of a majority of the board, it is desirable to obtain specialists within an area of practice of a profession when holding disciplinary hearings, a licensing board may appoint licensees not having a conflict of interest to make findings of fact and to report to the board. Such findings shall not include any recommendation for or against licensee discipline.

3. The presiding officer of a hearing panel may issue subpoenas pursuant to rules of the board on behalf of the board or on behalf of the licensee. A licensee may have subpoenas issued on the licensee's behalf. A subpoena issued under the authority of a licensing board may compel the attendance of witnesses and the production of professional records, books, papers, correspondence and other records, whether or not privileged or confidential under law, which are deemed necessary as evidence in connection with a disciplinary proceeding.

Nothing in this subsection shall be deemed to enable a licensing board to compel an attorney of the licensee, or stenographer or confidential clerk of the attorney, to disclose any information when privileged against disclosure by section 622.10. In the event of a refusal to obey a subpoena, the licensing board may petition the district court for its enforcement. Upon proper showing, the district court shall order the person to obey the subpoena, and if the person fails to obey the order of the court the person may be found guilty of contempt of court. The presiding officer of a hearing panel may also administer oaths and affirmations, take or order that depositions be taken, and pursuant to rules of the board, grant immunity to a witness from disciplinary proceedings initiated either by the board or by other state agencies which might otherwise result from the testimony to be given by the witness to the panel.

4. In order to assure a free flow of information for accomplishing the purposes of this section, and notwithstanding section 622.10, all complaint files, investigation files, other investigation reports, and other investigative information in the possession of a licensing board or peer review committee acting under the authority of a licensing board or its employees or agents which relates to licensee discipline are privileged and confidential, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the licensee and the boards, their employees and agents involved in licensee discipline, and are not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. However, investigative information in the possession of a licensing board or its employees or agents which relates to licensee discipline may be disclosed to appropriate licensing authorities within this state, the appropriate licensing authority in another state, the District of Columbia, or a territory or country in which the licensee is licensed or has applied for a license. If the investigative information in the possession of a licensing board or its employees or agents indicates a crime has been committed, the information shall be reported to the proper law enforcement agency. However, a final written decision and finding of fact of a licensing board in a disciplinary proceeding, including a decision referred to in section 258A.3, subsection 4, is a public record.

Pursuant to the provisions of section 17A.19, subsection 6, a licensing board upon an appeal by the licensee of the decision by the licensing board, shall transmit the entire record of the contested case to the reviewing court.

Notwithstanding the provisions of section 17A.19, subsection 6, if a waiver of privilege has been involuntary and evidence has been received at a disciplinary hearing, the court shall order withheld the identity of the individual whose privilege was waived.

5. Licensee discipline shall not be imposed except upon the affirmative vote of a majority of the licensing board.

Employees of the board shall be employed subject to chapter 19A. The qualifications of the executive secretary shall be determined by the board.

2. All employees of a licensing board shall be reimbursed subject to the rules of the director of revenue and finance for their expenses incurred in the performance of official duties. All reimbursements shall constitute costs of sustaining the board.

3. Licensees appointed to serve on a hearing panel pursuant to section 258A.6, subsection 2, shall be compensated at the rate specified in section 7E.6 for each day of actual duty, and shall be reimbursed for actual expenses reasonably incurred in the performance of duties.

4. Salaries, per diem, and expenses incurred in the performance of official duties of the board or its employees shall be paid from funds appropriated by the general assembly.

258A.8 Immunities.

1. A person shall not be civilly liable as a result of the person's acts, omissions or decisions in good faith as a member of a licensing board or as an employee or agent in connection with the person's duties.

2. A person shall not be civilly liable as a result of filing a report or complaint with a licensing board or peer review committee, or for the disclosure to a licensing board or its agents or employees, whether or not pursuant to a subpoena of records, documents, testimony or other forms of information which constitute privileged matter concerning a recipient of health care services or some other person, in connection with proceedings of a peer review committee, or in connection with duties of a health care board. However, such immunity from civil liability shall not apply if such act is done with malice.

3. A person shall not be dismissed from employment, and shall not be discriminated against by an employer because the person filed a complaint with a licensing board or peer review committee, or because the person participated as a member, agent or employee of a licensing board or peer review committee, or presented testimony or other evidence to a licensing board or peer review committee.

Any employer who violates the terms of this section shall be liable to any person aggrieved for actual and punitive damages plus reasonable attorney fees.

[C79, 81, §258A.8]

258A.9 Duties of licensees.

1. Each licensee of a licensing board, as a condition of licensure, is under a duty to submit to a physical or mental examination when directed in writing by the board for cause. All objections shall be waived as to the admissibility of the examining physician's testimony or reports on the grounds of privileged communications. The medical testimony or report shall not be used against the licensee in any proceeding other than one relating to licensee discipline by the board, or one commenced in district court for revocation of the licensee's privileges. The licensing board, upon probable cause, shall have the authority to order physical or mental examination, and upon refusal of the licensee to submit to the examination the licensing board may order that the allegations pursuant to which the order of physical or mental examination was made shall be taken to be established.

2. A licensee has a continuing duty to report to the licensing board by whom the person is licensed those acts or omissions specified by rule of the board pursuant to section 258A.4, subsection 1, paragraph *"f"*, when committed by another person licensed by the same licensing board. This subsection does not apply to licensees under chapter 116 when the observations are a result of participation in programs of practice review, peer review and quality review conducted by professional organizations of certified public accountants, for educational purposes and approved by the accountancy examining board.

3. A licensee shall have a continuing duty and obligation, as a condition of licensure, to report to the licensing board by which the licensee is licensed every adverse judgment in a professional or occupational malpractice action to which the licensee is a party, and every settlement of a claim against the licensee alleging malpractice.

4. A licensee who willfully fails to comply with subsection 2 or 3 of this section commits a violation of this chapter for which licensee discipline may be imposed.

260.2 Board of examiners created.

The board of educational examiners is created to exercise the exclusive authority to:

1. License practitioners, who do not hold or receive a license from another professional licensing board, and professional development programs, except for programs developed and offered by practitioner preparation institutions or area education agencies and approved by the state board of education. Licensing authority includes the authority to establish criteria for the licenses, including but not limited to, issuance and renewal requirements, creation of application and renewal forms, creation of licenses that authorize different instructional functions or specialties, development of a code of professional rights and responsibilities, practice, and ethics, and the authority to develop any other classifications, distinctions, and procedures which may be necessary to exercise licensing duties. A code of professional rights and responsibilities, practice, and ethics shall address but not be limited to the habitual failure of a practitioner to fulfill contractual obligations under section 279.13.

2. Establish, collect, and refund fees for a license.

3. Enter into reciprocity agreements with other equivalent state boards or a national certification board to provide for licensing of applicants from other states or nations.

260.7 Validity of license.

A license issued under board authority is valid for the period of time for which it is issued, unless the license is suspended or revoked. A license issued by the board is valid until June 30 of the year in which the license expires. No permanent licenses shall be issued. A person employed as a practitioner shall hold a valid license for the type of service for which the person is employed. This section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate practitioners'

contracts. A professional development program, except for a program offered by a practitioner preparation institution or area education agency and approved by the state board of education, must possess a valid license for the types of programs offered.

The executive director of the board may grant or deny license applications, applications for renewal of a license, and suspension or revocation of a license. A denial of an application for a license, the denial of an application for renewal, or a suspension or revocation of a license may be appealed by the practitioner to the board.

The board may issue emergency renewal or temporary, limited-purpose licenses upon petition by a current or former practitioner. An emergency renewal or a temporary, limited-purpose license may be issued for a period not to exceed two years, if a petitioner demonstrates, to the satisfaction of the board, good cause for failure to comply with board requirements for a regular license and provides evidence that the petitioner will comply with board requirements within the period of the emergency or temporary license. Under exceptional circumstances, an emergency license may be renewed by the board for one additional year. A previously unlicensed person is not eligible for an emergency or temporary license, except that a student who is enrolled in a licensed practitioner preparation program may be issued a temporary, limited-purpose license, without payment of a fee, as part of a practicum or internship program.

The board may issue a license to an applicant from another state or country if the applicant files evidence of the possession of the required or equivalent requirements with the board. The executive director of the board may, subject to board approval, enter into reciprocity agreements with another state or country for the licensing of practitioners on an equitable basis of mutual exchange, when the action is in conformity with law.

Practitioner preparation and professional development programs offered in this state by out-of-state institutions must be approved by the board in order to fulfill requirements for licensure or renewal of a license by an applicant.

260.9 Continuity of certificates and licenses.

A certificate which was issued by the board of educational examiners to a practitioner before July 1, 1989, continues to be in force as long as the certificate complies with the rules and statutes in effect on July 1, 1989. Requirements for the renewal of licenses, under this chapter, do not apply retroactively to renewal of certificates. However, this section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate practitioners' contracts.

A practitioner who holds a certificate issued before July 1, 1989, shall, upon application and payment of a fee, be granted a license which will permit the practitioner to perform the same duties and functions as the practitioner was entitled to perform with the certificate held at the time of application. A practitioner shall be permitted to convert a permanent certificate to a term certificate, after July 1, 1989, without payment of a fee.

A professional development program provided by a school district and approved by the state board of education before July 1, 1989, shall be permitted to continue until the term, for which the program was approved, expires.

260A.2 Educational improvement projects.

The board of directors of a school district may make application by November 1 of a school year to the department of education for funding for an educational improvement project to be carried out in the school district during the next following school year. The board of directors may apply for an educational excellence incentive award or for additional allowable growth, or both, to fund the project.

An educational improvement project is a project that has not been implemented, requires additional funding for implementation that the district cannot provide, is designed to achieve academic excellence, and has general application in other school districts throughout the state. The project may relate to curriculum, instructional practices, expansion of educational program or staff development.

The application shall include the goals and objectives of the project, staff utilization plans, evaluation criteria and procedures, the program budget, and other factors the department deems necessary. The

board also shall include in its application the process used in the school district to involve parents, teachers, administrators, and students in the planning and development of the project.

The total cost of a project shall not exceed one percent of the district cost per pupil of the school district for the budget year multiplied by the budget enrollment of the school district for the budget year or five thousand dollars, whichever is greater.

The department of education shall review the project applications and shall prior to February 15 of that school year send written notification of approval to the school district proposing the project and the director of the department of management and school budget review committee. Annually, the director of the department of management shall establish a modified allowable growth for each school district having an approved project for which additional allowable growth is required to fund the project. The modified allowable growth shall be equal to the difference between the approved budget for the project for that district and the sum of the amount funded from the district cost of the district plus funds received from the educational excellence incentive award if an award has been granted to that district.

84 Acts, ch 1315, §3

260A.4 Awards.

Annually, the department of education shall select from among the school districts with approved educational improvement projects and shall approve the distribution of educational excellence incentive awards to school districts. An award is equal to five thousand dollars, and the department shall make payment to school districts from funds appropriated by the general assembly for that purpose.

84 Acts, ch 1315, §4

260A.5 Report required.

Not later than August 15 of the school year following the school year in which an educational improvement project has been carried out, the board of directors of the school district carrying out the project shall file a report with the department of education describing the manner in which the project was carried out, the results of the project, and moneys expended for the project.

If a project was not carried out, or if the cost of carrying out a project was less than the amount approved for the project, the department of education shall notify the director of the department of management. The director of the department of management shall determine for a project the amount not expended that was additional allowable growth and the amount not expended that was from the educational excellence incentive award, and shall reduce the district's tax levy computed under section 442.9 for the next following budget year to reduce the anticipated receipts from the tax levy by the amount of additional allowable growth not expended and the district's total state school aids available under chapter 442 for the next following budget year by the amount of the award not expended.

261.19 Payment of subvention.

A subvention program for the university of osteopathic medicine and health sciences is established. The subvention program shall provide funds to the university for Iowa resident students. The total amount of moneys appropriated to the college student aid commission for the subvention program shall be paid to the university if the university certifies to the college student aid commission not later than September 15 and January 15 of each fiscal year that at least twenty percent of the total students enrolled are Iowa residents. The college student aid commission shall determine a subvention amount per resident student by dividing the funds appropriated for this section by a number equal to the total of twenty-two percent of the total students enrolled. The commission shall compute the amount of moneys to be paid to the university and transmit the funds to the university of osteopathic medicine and health sciences within ten days following receipt of the certification.

Notwithstanding the percentage figure contained in the calculation of the subvention amount per resident student and any corresponding deductions, for each fiscal year during the period commencing with the fiscal year beginning July 1, 1990, and ending with the fiscal year ending June 30, 1993, the percentage of total students enrolled, for purposes of calculating the subvention amount and any corresponding deductions, shall be increased by five-tenths of a percent from twenty percent until the percentage figure reaches twenty-two percent.

For each fiscal year in which funds are appropriat-

1. The commission, with the assistance of the department, shall contract with public or nonprofit entities to provide work opportunities for eligible volunteers. The commission, the department, and the public or nonprofit entities may be allotted up to two percent of the funds appropriated for administrative purposes and expenses of the program. The commission shall adopt rules and forms, as needed, for the administration of the program.
2. The commission shall establish guidelines and procedures for application and acceptance to the program. Guidelines established shall be based on a person's financial need, the person's inability to attend college without acceptance into the program, or the likelihood that the person would incur heavy debt repayment obligations if the person attended college, given the person's anticipated financial assistance alternatives.
3. Program volunteers shall receive stipends equivalent to seven hundred dollars per month for each month of work completed under the program. The state shall contribute five hundred dollars per month and the employer shall either contribute two hundred dollars per month to the volunteer's stipend or provide the volunteer with room and board. The employer shall also contribute one hundred dollars per month to the education trust fund created pursuant to section 261.90. The volunteer may elect to defer receipt of the employer's stipend contribution and receive a single lump sum stipend amount upon completion of the period of service under the program.

4. Upon completion of the service, the volunteer shall receive vouchers entitling the volunteer to educational benefits. Each voucher shall have a value equal to the cost of the volunteer's attendance for one academic semester at an eligible higher education institution. The volunteer participant shall receive four vouchers for each year of service completed. The vouchers may be redeemed at an eligible higher education institution. Only one voucher may be redeemed per semester of attendance by a program participant. Vouchers must be redeemed within ten years of the date of issuance and are not transferable.

5. Volunteers may be assigned work for any public or nonprofit entity for a period of either one or two years. The volunteers shall agree to make a full-time commitment to a work assignment as approved by the commission and the department. The volunteers shall be available to work at least forty hours per week without regard to regular working hours and at all times during their periods of work, except for authorized periods of leave. The work assignments shall not be made to replace regular employees or for participation in religious or political activities.

6. The public or nonprofit entity to which an individual is assigned shall supervise and direct that individual in the same manner as other employees and shall pay for all necessary work materials, supplies, and transportation costs. The state shall provide general liability and workers' compensation coverage for the volunteers, under chapter 25A, as if the volunteers were state employees. The volunteers are exempt from chapter 96, under section 96.19, subsection 6, paragraph *"a"*, subparagraph (6), subdivision (e), and are exempt from chapters 19A, 97A, and 400.

If a student discontinues attendance before the end of a semester, the entire amount of the refund that the student would be eligible to receive if the student had paid the tuition, room, and board, shall be repaid to the commission and shall revert to the trust fund created under section 261.90. The commission shall issue the student a voucher equal in value to the amount of the refund received by the trust fund. The commission shall redeem the value of each voucher from the employer contributions for that student, in accordance with the proportion that the voucher is to total number of vouchers earned by the student, and from the Iowa work for college funds which are appropriated by the general assembly and deposited into the trust fund under section 261.90.

MINORITY ACADEMIC GRANTS
FOR ECONOMIC SUCCESS

261.101 Legislative intent.

The general assembly finds that the failure of many young Iowans to complete their education limits their opportunity for a life of fulfillment and hinders the state's efforts to provide a well-trained work force for business and industry in Iowa. The general assembly also declares that it is the policy of this state to apply positive measures to ensure that equal opportunities exist for minority persons to pursue their educational goals. Therefore, the "Iowa Minority Academic Grants for Economic Success" program is established to provide additional funding to the state board of regents' institutions, community colleges, and accredited private institutions in order to encourage resident minority students to remain in Iowa, to attend community colleges, private colleges, and universities in Iowa, and to assure that a limited family income will not be a barrier for a minority person to pursue a postsecondary education.

261A.1 Short title and citation.

This chapter may be cited as the "Iowa Higher Education Loan Authority Act".

[82 Acts, ch 1031, §1]

261A.2 Declaration of purpose.

It is declared that for the benefit of the people of the state of Iowa, the conduct and increase of their commerce, the protection and enhancement of their welfare, the development of continued prosperity and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the fullest opportunity to learn and to develop their intellectual and mental capacities and skills; that to achieve these ends it is of the utmost importance that students attending institutions of higher education located in Iowa have reasonable financial alternatives to enhance their access to such institutions; that reasonable financial access to institutions of higher education will assist youth in achieving the optimum levels of learning and development of their intellectual and mental capacities and skills; that it is the purpose of this chapter to provide a measure of assistance and an alternative

method to enable students and the families of students attending institutions of higher education located in Iowa to appropriately and prudently finance the cost or a portion of the cost of higher education; and that it is the intent of this chapter to supplement federal guaranteed higher education loan programs, other student loan programs, and grant or scholarship programs to provide the needed additional options for the financing of a student's higher education in execution of the public policy set forth above.

[82 Acts, ch 1031, §2]

261A.3 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa, for the improvement of their education, health and welfare, and for the promotion of the economy, which are public purposes.

2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.

3. There exists a serious problem in this state regarding the ability of students to obtain financing for the cost of education beyond the high school level.

4. Escalating costs of securing such an education have contributed to the difficulties faced by students in attempting to finance an education.

5. Without public action as contemplated by this chapter, many students will be forced to postpone or abandon plans for obtaining additional education.

6. It is in the interests and welfare of the citizens of the state to provide a means for assisting students to continue their education.

7. Without public action as contemplated by this chapter, the inability to obtain educational financing will result in declining enrollments at institutions of higher education.

8. It is necessary to create a higher education loan authority to encourage the investment of private capital in the provision of funds for the financing of student loans.

9. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

7. Establish rules under chapter 17A with respect to authority loans, education loans, and education loan series portfolios.

8. Receive and accept from any source, loans, contributions or grants for or in aid of an authority education loan financing program or any portion of a program and, when required, use the funds, property, or labor only for the purposes for which it was loaned, contributed, or granted.

11. Borrow working capital funds and other funds as necessary for start-up and continuing operations, provided that the funds are borrowed in the name of the authority only. Borrowings are limited obligations of the character described in section 261A.12 and are payable solely from revenues of the

authority or the proceeds of obligations pledged for that purpose.

12. Notwithstanding other provisions in this chapter, commingle and pledge as security for a series or issue of obligations, with the consent of all of the institutions which are participating in the series or issue, the education loan series portfolios and some or all future education loan series portfolios of the institutions, and the loan funding deposits of the institutions. However, the education loan series portfolios and other security and moneys set aside in a fund or funds pledged for a series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from education loan series portfolios and other security and moneys pledged for any other series or issue of obligations. Obligations may be issued in series under one or more resolutions or trust agreements in the discretion of the authority.

13. Examine records and financial reports of participating institutions, and examine records and financial reports of a contractor organization or institution retained by the authority.

14. Require that authority loans be used solely to make education loans. The authority shall require that institutions require that each borrower under an education loan use the proceeds solely for the cost of attendance and that each borrower certify as to the use of the proceeds.

1. Sue and be sued in its own name, plead and be impleaded.

2. Employ consultants, attorneys, accountants, financial experts, loan processors, bankers, managers, and other employees and agents necessary in the authority's judgment, and fix their compensation.

3. When refunding obligations are issued to refund obligations, the proceeds of which were used to make authority loans, reduce the amount it is owed by the institutions which had received authority loans from the proceeds of the refunded obligations. The institutions may use this reduced amount to reduce the amount of interest being paid on education loans which the institutions had made pursuant to the authority loans from the proceeds of the refunded obligations.

[82 Acts, ch 1031, §8]

261A.9 Expenses of authority — limitation of liability.

Expenses incurred in carrying out this chapter are payable solely from funds provided under this chapter and, except as specifically authorized under this chapter, a liability shall not be incurred by the authority beyond the extent to which moneys have been provided under this chapter.

[82 Acts, ch 1031, §9]

261A.10 Acquisition of moneys, endowments, properties and guarantees.

The authority may establish guidelines relating to the deposits of moneys, endowments, or properties by institutions which would provide prudent security for education loan funding programs, authority loans, education loans, or for obligations and may establish guidelines relating to guarantees of or contracts to purchase education loans or obligations by the institutions or by financial institutions or others. A default reserve fund may be established for each series or issue of obligations. The authority may receive moneys, endowments, properties, and guarantees it deems appropriate and, if necessary, may take title in the name of the authority or in the name of a participating institution or a trustee.

[82 Acts, ch 1031, §10]

261A.11 Conveyance of loan funding deposit after payment of principal and interest.

When the principal of and interest on obligations of the authority issued to finance the cost of an education loan financing program or programs, including any refunding obligations issued to refund and refinance the obligations, have been fully paid and retired or when adequate provision has been made to fully pay and retire the obligations of the authority, and all other conditions of the bond resolution have been satisfied and the lien created by the bond resolution has been released in accordance with its provisions, the authority shall promptly perform functions and execute deeds and conveyances necessary and required to convey remaining moneys, properties, and other assets comprising loan funding deposits to the institutions which furnished the loan funding deposits in proportion to the amounts furnished by the respective institutions.

[82 Acts, ch 1031, §11]

1. The authority may from time to time issue obligations for any corporate purpose and the obligations of the authority are declared to be negotiable for all purposes notwithstanding their payment from limited sources and without regard to any other law.

2. The authority shall not have outstanding at any one time obligations in an aggregate principal amount exceeding one hundred million dollars excluding obligations issued to refund the obligations of the authority.

3. Each issue of obligations is payable solely out of revenues of the authority pertaining to the program relating to the issue, including principal and interest on authority loans and education loans; payments by institutions of higher education, banks, insurance companies, or others pursuant to letters of credit or purchase agreements; investment earnings from funds or accounts maintained pursuant to the bond resolution; insurance proceeds; loan funding deposits; proceeds of sales of education loans; pro-

ceeds of refunding obligations; and fees, charges, and other revenues of the authority from the program.

4. Obligations may be issued as serial obligations or as term obligations, or both. Obligations shall be authorized by a bond resolution of the authority and shall bear dates, mature at times not later than the year following the last year in which the final payments in an education loan series portfolio are due, or thirty years, whichever is sooner, from their respective dates of issue, bear interest at rates, be payable at times, be in denominations, be in a form, either coupon or fully registered, carry registration and conversion privileges, be payable in lawful money of the United States of America, and be subject to terms of redemption as the bond resolution provides. Obligations shall be executed by the manual or facsimile signatures of officers of the authority designated by the authority. Obligations shall be sold in a manner and at prices as the authority determines.

5. A bond resolution may contain provisions, which shall be a part of the contract with the holders of the obligations to be authorized, as to all of the following:

a. Pledging or assigning the revenues derived from the authority loans and education loans with respect to which the obligations are to be issued.

b. The fees and other amounts to be charged, and the sums to be raised in each year, and the use, investment, and disposition of the sums.

g. The refunding of outstanding obligations.

h. The procedure, if any, by which the terms of a contract with holders of obligations may be amended or abrogated, the amount of obligations to which the holders must consent to the amendment or abrogation, and the manner in which the consent may be given.

i. Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of obligations and providing the rights or remedies of holders in the event of a default.

j. Providing for guarantees, pledges, endowments, letters of credit, property, or other security for the benefit of the holders of the obligations.

k. Any other matters relating to the obligations which the authority deems desirable.

6. Neither the members of the authority nor a person executing the obligations is liable personally on the obligations or subject to personal liability or accountability by reason of their issuance.

7. The authority may purchase its obligations out of funds available. The authority may hold, pledge, cancel, or resell obligations subject to and in accordance with agreements with holders of obligations.

8. The authority may refund any of its obligations. Refunding obligations shall be issued in the same manner as other obligations of the authority.

[82 Acts, ch 1031, §12]

261A.13 Trust agreement to secure obligations.

In the discretion of the authority, obligations may be secured by a trust agreement by and between the authority and a corporate trustee or trustees, which may be a trust company or bank located in the state of Iowa that has the powers of a trust company. The bond resolution shall pledge the revenues to be received by the authority, may contain provisions for protecting and enforcing the rights and remedies of the holders of obligations as reasonable and proper and not in violation of law, including provisions that have been authorized to be included in any bond resolution of the authority, and may restrict the individual right of action by holders of obligations. A trust agreement may contain other provisions the authority deems reasonable and proper for the security of the holders of obligations. Expenses incurred in carrying out the trust agreement may be treated as a part of the cost of the operation of an education loan program.

[82 Acts, ch 1031, §13]

261A.14 Payment of obligations — nonliability of state.

Obligations are obligations of the authority only, and not of the state of Iowa. Each obligation shall state upon its face that it represents and constitutes a debt of the authority, but not of the state of Iowa within the meaning of any constitutional or statutory limitation, and that it does not constitute a pledge of the full faith and credit of the authority or of the state of Iowa. The obligations shall not grant to the owners or holders of the obligations the right to have the authority or the state levy taxes or appropriate funds for the payment of the principal or interest on the obligations. The obligations are payable, and shall state that they are payable, solely from the revenues pledged for their payment in accordance with the bond resolution.

This chapter does not authorize the authority or any department, board, commission, or other agency to create an obligation of the state within the meaning of the constitution or laws of Iowa.

[82 Acts, ch 1031, §14]

261A.15 Pledge of revenues.

The authority shall fix, revise, charge, and collect fees and may contract with a person to do so. Each agreement entered into by the authority with an in-

stitution shall provide that the fees and other amounts payable by the institution of higher education with respect to a program of the authority are sufficient at all times to meet all of the following:

1. To pay its share of the administrative costs and expenses of the program.

2. To pay the principal of, the premium, if any, and the interest on outstanding obligations of the authority, issued in respect of the program to the extent that other revenues of the authority pledged for the payment of the obligations are insufficient to pay the obligations as they become due and payable.

3. To create and maintain reserves which may but need not be required or provided for in the bond resolution relating to the obligations of the authority.

4. To establish and maintain whatever education loan servicing, control, or audit procedures are deemed by the authority to be necessary to the prudent operation of the authority.

The authority shall pledge the revenues from each program as security for the issue of obligations relating to the program. A pledge is valid and binding from the time when the pledge is made, the revenues pledged by the authority are immediately subject to the lien of the pledge without physical delivery of the pledge or further act, and the lien of the pledge is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority or a participating institution, irrespective of whether the parties have notice of the lien. The bond resolution and a financing statement, continuation statement, or other instrument by which the authority's interest in revenues is assigned need not be filed or recorded in public records in order to perfect the lien against third parties except that a copy of it shall be filed in the records of the authority and with the treasurer of state.

[82 Acts, ch 1031, §15]

261A.16 Funds for sales of obligations as trust funds — application of funds.

Moneys received by or on behalf of the authority under this chapter, whether as proceeds from the sale of obligations or as revenues, are trust funds to be held and applied as provided in this chapter. An officer with whom, or a bank or trust company with which the moneys are deposited shall act as trustee of the moneys and shall hold and apply the moneys for the purposes of this chapter, subject to rules that this chapter and the bond resolution authorizing the obligations of an issue may provide.

[82 Acts, ch 1031, §16]

261A.17 Rights of holders of obligations.

A holder of obligations or a trustee under a trust agreement entered into pursuant to this chapter, except to the extent that their rights are restricted by a bond resolution, may, by any suitable form of legal proceedings, protect and enforce rights under the laws of this state or granted by the bond resolution, may enjoin unlawful activities, and if there is a default on the payment of the principal of, premiums, if any, and interest on an obligation or in the performance of a covenant or agreement on the part of the authority in the bond resolution, may apply to the district court to appoint a receiver to administer and operate the education loan program, the revenues of which are pledged to the payment of principal of, premium, if any, and interest on the obligations, with full power to pay, and to provide for payment of principal of, premium, if any, and interest on the obligations, and with powers, subject to the direction of the court, as permitted by law and accorded to receivers, excluding the power to pledge additional revenues of the authority to the payment of the principal, premium, and interest.

[82 Acts, ch 1031, §17]

261A.18 Refunding bonds — purpose — proceeds — investment of proceeds.

1. The authority may issue its obligations for the purpose of refunding obligations then outstanding, including the payment of a redemption premium on the obligations and interest accrued or to accrue to the earliest or a subsequent date of redemption, purchase, or maturity of the obligations.

2. The proceeds of obligations issued for the purpose of refunding outstanding obligations may, in the discretion of the authority, be applied to the purchase or retirement at maturity or redemption of the outstanding obligations either on their earliest or a subsequent redemption date or upon the purchase or at the maturity of the obligations and may, pending an application, be placed in escrow to be applied to the purchase or retirement at maturity or redemption on a date determined by the authority.

3. Any escrowed proceeds, pending their use, may be invested and reinvested in direct obligations of the United States of America, maturing at times as appropriate to assure the prompt payment of the principal of and interest and redemption premium, if any, on the outstanding obligations to be refunded. The interest, income, and profits, if any, earned or realized on an investment may also be applied to the payment of the outstanding obligations to be refunded. After the terms of the escrow have been fully satisfied and carried out, a balance of the proceeds and interest, income, and profits, if any, earned or realized on the investments shall be returned to the institution of higher education for use by it in any lawful manner.

4. Refunding obligations are subject to this chapter in the same manner and to the same extent as other obligations issued pursuant to this chapter.

[82 Acts, ch 1031, §18]

261A.19 Investment of funds of authority.

Except as otherwise provided in section 261A.18, subsection 3, the authority may invest funds in direct obligations of the United States of America; obligations for which the timely payment of principal and interest is fully guaranteed by the United States of America; obligations of the federal intermediate

credit banks, federal banks for cooperatives, federal land banks, federal home loan banks, federal national mortgage association, government national mortgage association and the student loan marketing association; certificates of deposit or time deposits constituting direct obligations of a bank as defined by chapter 524; and in withdrawable capital accounts or deposits of state or federal chartered savings and loan associations which are insured by the federal savings and loan insurance corporation. However, investments may be made only in certificates of deposit or time deposits in banks which are insured by the federal deposit insurance corporation if then in existence. Securities authorized in this section may be purchased at the offering or market price at the time of the purchase. The securities purchased shall mature or be redeemable on dates prior to the time when, in the judgment of the authority, the funds invested will be required for expenditure. The judgment of the authority as to the time when funds will be required for expenditure or be redeemable is final.

[82 Acts, ch 1031, §19]

4. A report concerning the financial condition of the various education loan series portfolios.
5. Projected activities of the authority for the next fiscal year, including projections of the total amount of financial assistance anticipated and the amount of obligations that will be necessary to provide the projected level of assistance during the next fiscal year.

[82 Acts, ch 1031, §21]

261A.22 Waiver of competitive bidding.

Competitive bidding requirements of the Code or other similar requirements that may be lawfully waived are waived by this section and any requirement of competitive bidding or other restriction imposed on the procedure for award of contracts is not applicable to action taken under this chapter.

[82 Acts, ch 1031, §22]

261A.23 Institution power — interest rates.

Institutions may borrow money from the authority, make education loans and take all other actions and do things necessary or convenient to consummate the transactions contemplated under this chapter. It is lawful for the authority to establish, charge, contract for, and receive any amount or rate of interest or compensation with respect to authority loans and, subject to rules adopted by the authority, for participating institutions to charge, contract for, and receive any amount or rate of interest or compensation with respect to education loans.

[82 Acts, ch 1031, §23]

261A.24 Chapter as alternative method — powers not subject to supervision or regulation.

Sections 261A.1 to 261A.23 provide a complete, additional, and alternative method for the doing of the things authorized by the chapter and the limitations imposed by this chapter do not affect powers or rights conferred by other laws, and the issuance of obligations and refunding obligations under this chapter need not comply with the requirements of any other law applicable to the issuance of obligations. Except as otherwise expressly provided in this chapter, the powers granted to the authority under this chapter are not subject to the supervision or regulation and do not require the approval or consent of a city or political subdivision or department, division, commission, board, body, bureau, official, or agency of a political subdivision or of the state.

[82 Acts, ch 1031, §24]

261A.25 Notice.

The authority shall publish a notice of its intention to issue obligations in a newspaper published in and with general circulation in the state. The notice shall include a statement of the maximum amount of obligations proposed to be issued, and in general terms, what receipts will be pledged to pay bond service charges on the obligations. An action which questions the legality or validity of the obligations or the power of the authority to issue the obligations or the effectiveness or validity of any proceedings adopted for the authorization or issuance of the obligations shall not be brought after sixty days from the date of publication of the notice.

Income of the authority is exempt from all taxation in the state. HIGHER EDUCATION FACILITIES PROGRAM

261A.32 Legislative findings.

The general assembly finds:

1. For the benefit of the people of the state of Iowa, the increase of their commerce, welfare, and prosperity, and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the greatest opportunity to learn and to fully develop their intellectual and mental capacities and skills.

2. To achieve these ends it is of the utmost importance that educational institutions within the state be provided with appropriate additional means of assisting the youth in achieving the required levels of learning and development of their intellectual and mental capacities and skills through new or enhanced physical facilities and equipment at these institutions.

3. The financing and refinancing of educational facilities, through means as described in this division, other than the appropriation of public funds to institutions, is a valid public purpose.

85 Acts, ch 210, §2

261A.33 Purpose of division.

It is the purpose of this division to provide a measure of assistance and an alternative method of enabling institutions in the state to finance the acquisition, construction, and renovation of needed educational facilities, structures and equipment and to refund, refinance, or reimburse outstanding indebtedness incurred by them or advances made by them, including advances from an endowment or any other similar fund, for the construction, acquisition, or renovation of needed educational facilities and structures, whether or not constructed, acquired, or renovated prior to July 1, 1985.

85 Acts, ch 210, §3

1. *"Project"* means any property located within the state, constructed or acquired before or after July 1, 1985 that may be used or will be useful in connection with the instruction, feeding, or recreation of students, the conducting of research, administration, or other work of an institution, or any combination of the foregoing. "Project" also means the refunding or refinancing of outstanding obligations, mortgages, or advances, including advances from an endowment or similar fund, originally issued, made, or given by the institution to finance the cost of a project.

2. *"Property"* means the real estate upon which a project is or will be located, including equipment, machinery, and other similar items necessary or convenient for the operation of the project in the manner for which its use is intended, but not including such items as fuel, supplies, or other items that are customarily deemed to result in a current operation charge. Property does not include property used or to be used primarily for sectarian instruction or study, or as a place for devotional activities or religious worship, or any property which is used or to be used primarily in connection with any part of the program of a school or department of divinity for any religious denomination or the training of ministers, priests, rabbis, or other professional persons in the field of religion.

3. *"Cost"* as applied to a project or any portion of a project financed under this division means all or a part of the cost of construction and acquisition of land, buildings, or structures, including the cost of machinery and equipment; finance charges; interest prior to, during, and after completion of the construction for a reasonable period as determined by the authority; reserves for principal and interest; extensions, enlargements, additions, replacements, renovations, and improvements; improvements, replacements, and renovations for energy conservation and other purposes; engineering, financial, and legal services; plans, specifications, studies, surveys, estimates of cost of revenue, administrative expenses, expenses necessary or incidental to determining the feasibility or practicability of constructing the project; and such other expenses as the authority deter-

mines may be necessary or incidental to the construction and acquisition of the project, the financing of the construction and acquisition, and the placing of the project in operation.

85 Acts, ch 210, §4

261A.35 General power of authority.

The authority is authorized to assist institutions in the constructing, financing, and refinancing of projects, and the authority may take action authorized by this division.

85 Acts, ch 210, §5

261A.36 Issuance of obligations.

The authority may issue obligations of the authority for any of its corporate purposes as provided for in this division, and fund or refund the obligations pursuant to this division.

85 Acts, ch 210, §6

261A.37 Loans authorized.

The authority may make loans to an institution for the cost of a project in accordance with an agreement between the authority and the institution, except that a loan shall not exceed the total cost of the project, as determined by the institution and approved by the authority.

85 Acts, ch 210, §7

261A.38 Issuance of obligations — conditions.

The authority may issue obligations and make loans to an institution and refund, refinance or reimburse outstanding obligations, indebtedness, mortgages, or advances, including advances from an endowment or any similar fund, issued, made, or given by the institution, whether before or after July 1, 1985, for the cost of a project, when the authority finds that the financing prescribed in this section is in the public interest, and either alleviates a financial hardship upon the institution, results in a lesser cost of education, or enables the institution to offer greater security for a loan or loans to finance a new project or projects or to effect savings in interest costs or more favorable amortization terms.

85 Acts, ch 210, §8

261A.39 General powers — apportionment of costs.

The authority may do all things necessary or convenient to carry out the purposes of this division. The authority may charge to and equitably apportion among participating institutions its administrative costs and expenses incurred in the exercise of the powers and duties conferred on the authority by this division.

85 Acts, ch 210, §9

261A.40 Joint and combination projects.

The authority may undertake a project for two or more institutions jointly or for any combination of institutions, and may combine for financing purposes, with the consent of all of the institutions which are involved, the project and some or all future projects of any institution or institutions, and this division applies to and is for the benefit of the authority and the joint participants. However, the money set aside in a fund or funds pledged for any series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from money pledged for another series or issue of obligations of the authority. To facilitate the combining of projects, obligations may be issued in series under one or more resolutions or trust agreements and may be fully open-ended, thus providing for the unlimited issuance of additional series, or partially open-ended, limited as to additional series. The authority may permit an institution to substitute one or more projects of equal value, as determined by an independent appraiser satisfactory to the authority, for a project financed under this division on terms and subject to conditions the authority prescribes.

85 Acts, ch 210, §10

261A.41 Expenses.

Expenses incurred in carrying out this division are payable solely from funds provided under this division and a liability or obligation shall not be incurred by the authority beyond the extent to which money is provided under this division.

85 Acts, ch 210, §11

261A.42 Obligations.

The authority may provide by resolution for the issuance of obligations for the purpose of paying, refinancing, or reimbursing all or part of the cost of a project. The authority shall not have outstanding at any one time obligations issued pursuant to this division in an aggregate principal amount exceeding one hundred fifty million dollars. Except to the extent payable from payments to be made on federally guaranteed securities as provided in section 261A.45, the principal of and the interest on the obligations shall be payable solely out of the revenue of the authority derived from the project to which they relate and from other facilities pledged or made available for this purpose by the institution for whose benefit the obligations were issued. The obligations of each issue shall be dated, shall bear interest at rate or rates, without regard to any limit contained in any other statute or law of the state, and shall mature at times not exceeding forty years from the date of issuance, all as determined by the authority; and may be made redeemable before maturity at the prices and under terms fixed by the authority in the authorizing resolution.

Except as otherwise provided by this division, the

obligations are to be paid solely out of the revenue of the project to which they relate and, in certain instances, out of the revenue of certain other facilities, and subject to section 261A.45 with respect to a pledge of government securities, the obligations may be unsecured or secured in the manner and to the extent determined by the authority. The authority shall determine the form of the obligations, including interest coupons, if any, to be attached, and shall fix the denominations of the obligations and the places of payment of principal and interest which may be at any bank or trust company within or without the state. The obligations and coupons attached, if any, shall be executed by the manual or facsimile signatures of officers of the authority designated by the authority. If an official of the authority whose signature or a facsimile of whose signature appears on any obligations or coupons ceases to be an official before the delivery of the obligations, the signature or facsimile, nevertheless, is valid and sufficient for all purposes the same as if the individual had remained an official of the authority until delivery. Obligations issued under this division have all the qualities and incidents of negotiable instruments, notwithstanding this payment from limited sources and without regard to any other law. The obligations may be issued in coupon or in registered form, or both, and one form may be exchangeable for the other in the manner as the authority may determine. Provision may be made for the registration of any coupon obligations as to principal alone and also as to both principal and interest, and for the reconversion into coupon obligations of any obligations registered as to both principal and interest. The obligations may be sold in the manner, either at public or private sale, as the authority determines.

The proceeds of the obligations of each issue shall be used solely for the payment of the cost of the project for which the obligations have been issued, and shall be disbursed in the manner and under the restrictions, if any, as the authority provides in the resolution authorizing the issuance of the obligations or in the trust agreement provided for in section 261A.44 securing the obligations. If the proceeds of the obligations of an issue, by error of estimates or otherwise, are less than the costs, additional obligations may in like manner be issued to provide the amount of the deficit, and, unless otherwise provided in the resolution authorizing the issuance of the obligations or in the trust agreement securing them, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the obligations first issued. If the proceeds of the obligations of an issue shall exceed the cost of the project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for the obligations. Prior to the preparation of definitive obligations, the authority may, under like restrictions, issue interim receipts or temporary obligations, with or without coupons, exchangeable for definitive obligations when the obligations have been executed and are available for delivery.

The authority may also provide for the replacement of obligations which become mutilated or are destroyed or lost. Obligations may be issued under this division without obtaining the consent of an officer, department, division, commission, board, bureau, or agency of the state, and without other proceedings or conditions other than those which are specifically required by this division. The authority may purchase its bonds out of funds available for that purpose. The authority may hold, pledge, cancel, or resell the obligations, subject to and in accordance with any agreement with the obligation holders. Members of the authority and any person executing the obligations are not liable personally on the obligations or subject to personal liability or accountability by reason of the issuance of the obligations.

85 Acts, ch 210, §12

261A.43 Resolution provisions.

The resolution authorizing obligations or an issue of obligations may contain provisions, which shall be a part of the contract with the holders of the obligations to be authorized, as to:

1. Pledging or assigning the revenue of the project with respect to which the obligations are to be issued or the revenue of other property or facilities.
2. Setting aside reserves or sinking funds, and the regulation, investment, and disposition of them.
3. Limitations on the use of the project.

85 Acts, ch 210, §13

261A.44 Obligations secured by trust agreement.

Obligations issued under this division may be se-

cured by a trust agreement by and between the authority and an incorporated trustee, which may be a trust company or bank having the powers of a trust company within or without the state. The trust agreement or the resolution providing for the issuance of the obligations may pledge or assign the revenue to be received or proceeds of any contract pledged and may convey or mortgage the project or any portion of the project. A pledge or assignment made by the authority pursuant to this section is valid and binding from the time that the pledge or assignment is made, and the revenue pledged and thereafter received by the authority is immediately subject to the lien of the pledge or assignment without physical delivery or any further act. The lien of the pledge or assignment is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority irrespective of whether the parties have notice of the lien. The resolution or trust agreement by which a pledge is created or an assignment made shall be filed or recorded in the records of the authority, with the secretary of state, and in each county in which the project is located. The trust agreement or resolution providing for the issuance of the obligations may contain provisions for protecting and enforcing the rights and remedies of the obligation holders as are reasonable and proper, not in violation of law, or provided for in this division. A bank or trust company incorporated under the laws of this state which acts as depository of proceeds of the obligations, revenue, or other money shall furnish the indemnifying obligations or pledge the securities as required by the authority. The trust agreement may set forth the rights and remedies of the obligation holders and of the trustee, and may restrict the individual right of action by obligation holders. The trust agreement or resolution may contain other provisions the authority deems reasonable and proper for the security of the obligation holders. Expense incurred in carrying out the trust agreement or resolution may be treated as a part of the cost of the operation of a project.

85 Acts, ch 210, §14

261A.45 Obligations issued to acquire federally guaranteed securities.

The authority may finance the cost of a project, refund outstanding indebtedness, or reimburse advances from an endowment or similar fund of an institution as authorized by this division, by issuing its obligations pursuant to a plan of financing involving the acquisition of a federally guaranteed security or the acquisition or entering into of commitments to acquire a federally guaranteed security. For the purposes of this section, "federally guaranteed security" means any direct obligation of, or obligation the principal of and interest on which are fully guaranteed or insured by the United States, or an obligation issued by, or the principal of and interest on which are fully guaranteed or insured by any agency or instrumentality of the United States, including without limitation an obligation that is issued pursuant to the National Housing Act, or any successor provision of law.

The authority may acquire or enter into commitments to acquire a federally guaranteed security and pledge or otherwise use the federally guaranteed security in the manner the authority deems in its best interest to secure or otherwise provide a source of repayment of its obligations issued to finance or refinance a project, or may enter into an appropriate agreement with an institution whereby the authority may make a loan to the institution for the purpose of acquiring or entering into commitments to acquire a federally guaranteed security. An agreement entered into pursuant to this section may contain provisions deemed necessary or desirable by the authority for the security or protection of the authority or the holders of the obligations, except that the authority, prior to making an acquisition, commitment, or loan, shall determine and enter into an agreement with the institution or another appropriate institution to require that the proceeds derived from the acquisition of a federally guaranteed security will be used, directly or indirectly, for the purpose of financing or refinancing a project.

The obligations issued pursuant to this section shall not exceed in principal amount the cost of financing or refinancing the project as determined by the participating institution and approved by the authority, except that the costs may include, without limitation, all costs and expenses necessary or incidental to the acquisition of or commitment to acquire a federally guaranteed security and to the issuance and obtaining of insurance or guarantee of an obligation issued or incurred in connection with a federally guaranteed security. In other respects the bonds are subject to this division, and the trust agreement creating the bonds may contain provisions set forth in this division as the authority deems appropriate.

If a project is financed or refinanced pursuant to this section, the title to the project shall remain in the participating institution owning the project, subject to the lien of a mortgage or security interest securing, directly or indirectly, the federally guaranteed securities being purchased or to be purchased.

85 Acts, ch 210, §15

261A.46 Obligations not liability of state or political subdivision.

Obligations issued pursuant to this division are not debts of the state or of any political subdivision of the state or a pledge of the faith and credit of the state or of any political subdivision, but the obligations are limited obligations of the authority payable solely from the funds or securities, pledged for their payment as authorized in this division, unless the obligations are refunded by refunding obligations issued under this division, which refunding obligations shall be payable solely from funds or securities pledged for their payment as authorized in this division. All revenue obligations shall contain on their

face a statement to the effect that the obligations, as to both principal and interest, are not obligations of the state, or of any political subdivision of the state, but are limited obligations of the authority payable solely from revenue or securities pledged for their payment. Expenses incurred in carrying out this division are payable solely from funds provided under this division, and this division does not authorize the authority to incur indebtedness or liability on behalf of or payable by the state or any political subdivision of the state.

85 Acts, ch 210, §16

261A.47 Money received by authority.

All money received by the authority, whether as proceeds from the sale of obligations, from revenue, or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this division, but prior to the time when needed for use may be invested to the extent and in the manner provided by the authority. The funds shall be deposited, held, and secured as determined by the authority, except to the extent provided otherwise in the resolution authorizing the issuance of the related obligations or in the trust agreement securing the obligations. The resolution authorizing the issuance of the obligations or the trust agreement securing the obligations shall provide that an officer, bank or trust company to which the money is entrusted shall act as trustee of the money and shall hold and apply the money for the purposes of this division, subject to the provisions of this division and of the authorizing resolution or trust agreement.

85 Acts, ch 210, §17

261A.48 Powers of holders and trustees.

A holder of obligations or of the coupons pertaining to obligations and the trustee under a trust agreement, except to the extent the rights given in this division are restricted by the authorizing resolution or trust agreement, may, by suit, mandamus, or other proceedings, protect and enforce any and all rights under the laws of this state, or under the trust agreement or resolution authorizing the issuance of the obligations, and may enforce and compel the performance of all duties required by this division or by the trust agreement or resolution to be performed by the authority or by an officer, employee, or agent of the authority, including the fixing, charging, and collecting of fees and charges authorized in this division and required by the resolution or trust agreement to be fixed and collected.

The rights of holders include the right to compel the performance of all duties of the authority required by this division or the resolution or trust agreement, to enjoin unlawful activities, and in the event of default with respect to the payment of any principal of, premium, if any, and interest on an obligation or in the performance of a covenant or agreement on the part of the authority in the resolution, to apply to a court having jurisdiction of the cause to appoint a receiver to administer and operate the project, the revenue of which is pledged to the payment of the principal of, premium, if any, and interest on the obligations, the receiver to have full power to pay and to provide for payment of the principal of, premium, if any, and interest on the obligations, and to have the powers, subject to the direction of the court, as are permitted by law and are accorded receivers in general equity cases, including the power to foreclose the mortgage on the project in the same manner as the foreclosure of a mortgage on real estate of private corporations, but excluding any power to pledge additional revenue of the authority to the payment of the principal, premium, and interest.

85 Acts, ch 210, §18

261A.49 Bondholders — pledge — agreement of the state.

The state pledges to and agrees with the holders of any obligations issued under this division, and with those parties who enter into contracts with the authority pursuant to this division, that the state will not limit or alter the rights vested in the authority until the obligations, together with the interest on the obligations, are fully met and discharged and the contracts are fully performed on the part of the authority, except that this section does not preclude the limitation or alteration if and when adequate provision is made by law for the protection of the rights of the holders of the obligations of the authority or those entering into contracts with the authority.

85 Acts, ch 210, §19

261A.50 Provisions controlling.

The powers granted the authority under this division are in addition to the powers of the authority contained in other provisions of this chapter. All other provisions of this chapter apply to obligations issued pursuant to and powers granted the authority under this division, except to the extent they are inconsistent with this division.

2. *"Eligible pupil"* means a pupil classified by the board of directors of a school district or the authorities in charge of an accredited nonpublic school as an eleventh or twelfth grade pupil during the period the pupil is participating in the enrollment option provided under this chapter. A pupil attending an accredited nonpublic school shall be counted as a shared-time student in the pupil's school district of residence for state foundation aid purposes.

If an eligible institution accepts an eligible pupil for enrollment under this section, the institution shall send written notice to the pupil, the pupil's school district or accredited nonpublic school, and the department of education. The notice shall list the course, the clock hours the pupil will be attending the course, and the number of hours of postsecondary academic or vocational-technical credit that the eligible pupil will receive from the eligible institution upon successful completion of the course.

No member of the board or any of its committees, offices or agencies nor any officer of any institution, shall be directly or indirectly interested in such purchase or sale.

Purchase payments may be made from appropriated capital funds or from other funds lawfully available for that purpose and allocated therefor by the board, or from any combination of the foregoing, but not from appropriated operating funds. All state appropriated capital funds used for any one purchase contract shall be taken entirely from a single capital appropriation and shall be set aside for that purpose. In event of default, the only remedy of the seller shall be against the property itself and the rents and profits thereof, and in no event shall any deficiency judgment be entered or enforced against the state of Iowa, the board, or the institution for which the purchase was made. Provided, however, that no part of the tuition fees shall be used in the purchase of such real estate.

The board shall give appropriate consideration to those facts and circumstances that the board knows or should know are relevant to the particular investment involved, including the role the investment plays in the total value of the board's funds.

For the purposes of this subsection, appropriate consideration includes, but is not limited to, a determination by the board that the particular investment is reasonably designed to further the purposes prescribed by law to the board, taking into consideration the risk of loss and the opportunity for gain or other return associated with the investment and consideration of the following factors as they relate to the funds of the board:

REGENTS' MINORITY AND WOMEN EDUCATORS ENHANCEMENT

262.81 Legislative intent.

The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the "Regents' Minority and Women Educators Enhancement" program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

89 Acts, ch 319, §61

262.82 Regents' minority and women educators enhancement program.

The board of regents shall establish a program to recruit minority educators to faculty positions in the universities under the board's control. The program shall include, but is not limited to, the creation of faculty positions in all areas of academic pursuit.

The board of regents shall also establish a program to create faculty opportunities for women educators at the universities under the board's control. The program shall include, but is not limited to, the creation of faculty positions in targeted shortage areas. The board of regents shall also develop and implement, in consultation with appropriate faculty representatives, tenure, promotion, and hiring policies that recognize the unique needs of faculty members who are principal caregivers to dependents.

As used in this section, *"minority educator"* means an educator who is a minority person as defined in section 261.102.

COLLEGE-BOUND PROGRAM

262.91 Legislative intent.

The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation, economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa's higher education system. The general assembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the "College-bound" program is established to ensure that the state's universities and students' local communities become involved early in a student's life by promoting and informing students about the opportunities in higher education, so that lack of adequate personal resources is not a barrier to attending college for young Iowans.

89 Acts, ch 319, §63

262.92 College-bound program.

1. The board of regents shall establish or contract to establish college-bound programs to provide Iowa minority students with information and experiences relating to opportunities offered at the regents' universities. Programs developed may include, but are not limited to, the following elements:

a. Reinforcement of efforts to attract undergraduate students from age groups currently served by traditional methods of outreach which use high school and community college services.

b. Extension of traditional student recruitment methods which are designed to encourage minority students in grades seven through twelve to pursue postsecondary academic courses of study.

c. Identification, at each of the regents' universities, of courses of study to be targeted for the recruitment of minority students.

d. Offerings at the regents' universities of innovative programs, which are experience oriented, for families with minority children.

2. The board of regents shall establish a voucher program for students in grades seven through twelve. Vouchers may be obtained by any qualified secondary student at any regents' university upon completion of a college-bound program provided under subsection 1. Students may receive one voucher for each program. One or more vouchers entitle a student to priority over other persons applying for grants under the Iowa minority academic grants for economic success program established in section 261.101. Vouchers shall be submitted with the grant application within one year after a student graduates from high school at any higher education institution which offers grants under the Iowa minority academic grants for economic success program. Vouchers earned can only be used by the person who participated in the college-bound voucher program and are not transferable. Vouchers issued by a university under this program shall be signed by the president of the university.

3. The board of regents shall adopt rules to establish program guidelines for the universities under the board's control and for the administration and coordination of program efforts. Rules adopted shall include methods of recording data relating to voucher recipients and making the data available to the college student aid commission.

89 Acts, ch 319, §64

262.93 Reports to general assembly.

The college student aid commission and the state board of regents each shall submit, by January 1 of

each year, a report on the progress and implementation of the programs which they administer under sections 261.102 through 261.105, 262.82, and 262.92. The reports shall include, but are not limited to, the numbers of students participating in the programs and allocation of funds appropriated for the programs.

Subject to and in accordance with the provisions of this chapter, the state board of regents after authorization by a constitutional majority of the general assembly may undertake and carry out any project as defined in this chapter at the state University of Iowa. The state board of regents is authorized to operate, control, maintain, and manage buildings and facilities and additions to such buildings and facilities at said institution. All contracts for the construction, reconstruction, completion, equipment, improvement, repair, or remodeling of any buildings, additions, or facilities shall be let in accordance with the provisions of section 262.34. The title to all real estate acquired under the provisions of this chapter and the improvements erected thereon shall be taken and held in the name of the state of Iowa.

263A.3 Bonds or notes issued.

The board is authorized to borrow money and to issue and sell negotiable bonds or notes to pay all or any part of the cost of carrying out any project at the institution and to refund and refinance bonds or notes issued for any project or for refunding purposes at the same rate or at a lower rate. Such bonds or notes shall be sold by the board at public sale on the basis of sealed proposals received pursuant to a notice specifying the time and place of sale and the amount of bonds to be sold which shall be published at least once not less than seven days prior to the date of sale in a newspaper published in the state of Iowa and having a general circulation in the state. The provisions of chapter 75 shall not apply to bonds or notes issued under authority contained in this chapter, but such bonds or notes shall be sold upon terms of not less than par plus accrued interest. The refunding bonds or notes may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds or notes may be exchanged in part or sold in parts in installments at different times or at one time. The refunding bonds or notes may be sold or exchanged at any time on, before, or after the maturity of any of the outstanding notes, bonds, or other obligations to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds or notes, except that the principal amount of the refunding bonds or notes may exceed the principal amount of the bonds or notes to be refunded to the extent necessary to pay any premium due on the call of the bonds or notes to be refunded or to fund interest in arrears or about to become due.

All bonds or notes issued under the provisions of this chapter shall be payable solely and only from and shall be secured by an irrevocable pledge of a sufficient portion of the hospital income of the institution. In addition to the estimated cost of construction, including site costs, the cost of the project may include interest upon the bonds or notes during construction and for six months after the estimated completion date, the compensation of a fiscal agent or adviser, engineering, architectural, administrative, and legal expenses and provision for contingencies. Any bonds or notes bearing the signatures of officers in office on the date of the signing thereof

shall be valid and binding for all purposes, notwithstanding that before delivery thereof any or all such persons whose signatures appear thereon shall have ceased to be such officers. Each such bond or note shall state upon its face the name of the institution on behalf of which it is issued, that it is payable solely and only from hospital income received by such institution as provided in this chapter, and that it does not constitute a debt of or charge against the state of Iowa within the meaning or application of any constitutional or statutory limitation or provision. The issuance of such bonds or notes shall be recorded in the office of the treasurer of the institution, and a certificate by such treasurer to this effect shall be printed on the back of each such bond or note.

[C71, 73, 75, 77, 79, 81, §263A.4]

Upon the determination by the state board of regents to undertake and carry out any project or to refund outstanding bonds or notes, said board shall adopt a resolution describing generally the contemplated project and setting forth the estimated cost thereof, or describing the obligations to be refunded, fixing the amount of bonds or notes to be issued, the maturity or maturities, the interest rate or rates, and all details in respect thereof. Such resolution shall contain such covenants as may be determined by the board as to the issuance of additional bonds or notes that may thereafter be issued payable from the hospital income received by the institution, the amendment or modification of the resolution authorizing the issuance of any bonds or notes, the manner, terms, and conditions and the amount or percentage of assenting bonds or notes necessary to effectuate such amendment or modification, and such other covenants as may be deemed necessary or desirable. In the discretion of the board, any bonds or notes issued under the terms of this chapter may be secured by a trust indenture by and between the board and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the boundaries of the state of Iowa, but no such trust indenture shall convey or mortgage the buildings and facilities or any part thereof. The provisions of this chapter and of any resolution or other proceedings authorizing the issuance of bonds or notes and providing for the establishment and maintenance of adequate rates, fees, and charges for services rendered by the hospitals, medical clinics, and medical laboratories of the institution and the application of the proceeds thereof, together with other hospital income, shall constitute a contract with the holders of such bonds or notes.

[C71, 73, 75, 77, 79, 81, §263A.5]

263A.6 Rates, fees and charges for services.

All bonds or notes issued under the terms of this chapter shall be exempt from taxation by the state of Iowa and the interest thereon shall be exempt from the state income tax.

[C71, 73, 75, 77, 79, 81, §263A.6]

263A.7 Accounts of all funds separate.

A certified copy of each resolution providing for the issuance of bonds or notes under this chapter shall be filed with the treasurer of the institution and it shall be the duty of said treasurer to keep and maintain separate accounts for each issue of bonds or notes in accordance with the covenants and directions set out in the resolution providing for the issuance thereof. A sufficient portion of the hospital income received by the institution shall be held in trust by the treasurer thereof, separate and apart from all other funds, to be used solely and only for the purposes specified in this chapter and as may be required and provided for by the proceedings of the board authorizing the issuance of bonds or notes. It shall be the duty of the treasurer of the institution to disburse funds from the proper account for the payment of the principal of and interest on the bonds or notes in accordance with the directions and covenants of the resolution authorizing the issuance thereof.

If the amount of bonds or notes issued under this chapter exceeds the actual costs of the projects for which the bonds or notes were issued, the amount of the difference shall be used to pay the principal and interest due on bonds or notes issued under this chapter.

No taxes, or other funds of the state of Iowa appropriated to the institution may be pledged for or used to pay such bonds or notes or the interest thereon but any such bonds or notes shall be payable solely and only as to both principal and interest from the hospital income received by the institution as hereinbefore provided, and the sole remedy for any breach or default of the terms of any such bonds or notes or proceedings for their issuance shall be a proceeding either in law or in equity by suit, action, or

mandamus to enforce and compel performance of the duties required by this chapter and the terms of the resolution under which such bonds or notes are issued.

[C71, 73, 75, 77, 79, 81, §263A.9]

263A.10 Gifts, loans or grants accepted.

272B.1 Compact for education.
272B.2 Education commission of the states.
272B.3 Filing bylaws.

272B.1 Compact for education.

The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

ARTICLE I — PURPOSE AND POLICY

1. It is the purpose of this compact to:

a. Establish and maintain close co-operation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.

b. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

c. Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

d. Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

2. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

3. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

ARTICLE II — STATE DEFINED

As used in this compact, "state" means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

ARTICLE III — THE COMMISSION

1. The education commission of the states, hereinafter called "the commission", is hereby established. The commission shall consist of seven members representing each party state.* One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations or professional educators or persons concerned with educational administration.

2. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof.

Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to article III, paragraph 10.

3. The commission shall have a seal.

4. The commission shall elect annually, from among its members, a chairperson, who shall be a governor, a vice chairperson and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

5. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

6. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

7. The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph 6 of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

8. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

9. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

10. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

ARTICLE IV — POWERS

In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

3. Develop proposals for adequate financing of education as a whole and at each of its many levels.

4. Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

ARTICLE V — CO-OPERATION WITH FEDERAL GOVERNMENT

1. If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

2. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

ARTICLE VI — COMMITTEES

1. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows:

Sixteen for one year and sixteen for two years. The chairperson, vice chairperson, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regular ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

5. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

ARTICLE IX — CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is

273.2 Area education agency established — powers — services and programs.

There are established throughout the state fifteen area education agencies, each of which is governed by an area education agency board of directors. The boundaries of an area education agency shall not divide a school district. The director of the department of education shall change boundaries of area education agencies to take into account mergers of local school districts and changes in boundaries of local school districts, when necessary to maintain the policy of this chapter that a local school district shall not be a part of more than one area education agency.

An area education agency established under this chapter is a body politic as a school corporation for the purpose of exercising powers granted under this

chapter, and may sue and be sued. An area education agency may hold property and execute lease-purchase agreements pursuant to section 273.3, subsection 7, and if the lease exceeds ten years or the purchase price of the property to be acquired pursuant to a lease-purchase agreement exceeds twenty-five thousand dollars, the area education agency shall conduct a public hearing on the proposed lease-purchase agreement and receive approval from the area education agency board of directors and the director of the department of education before entering into the agreement.

The programs and services provided shall be at least commensurate with programs and services existing on July 1, 1974. The programs and services provided to pupils enrolled in nonpublic schools shall be comparable to programs and services provided to pupils enrolled in public schools within constitutional guidelines.

The area education agency board shall provide for special education services and media services for the local school districts in the area and shall encourage and assist school districts in the area to establish programs for gifted and talented children.

The area education agency board may provide for the following programs and services to local school districts, and at the request of local school districts to providers of child development services who have received grants under chapter 256A from the child development coordinating council, within the limits of funds available:

1. In-service training programs for employees of school districts and area education agencies, provided at the time programs and services are established they do not duplicate programs and services available in that area from the universities under the state board of regents and from other universities and four-year institutions of higher education in Iowa.

2. Educational data processing pursuant to section 256.9, subsection 11.

3. Research, demonstration projects and models, and educational planning for children under five years of age through grade twelve and children requiring special education as defined in section 281.2 as approved by the state board of education.

4. Auxiliary services for nonpublic school pupils as provided in section 256.12. However, if auxiliary services are provided their funding shall be based on the type of service provided.

5. Other educational programs and services for children under five years through grade twelve and children requiring special education as defined in section 281.2 and for employees of school districts and area education agencies as approved by the state board of education.

The board of directors of an area education agency shall not establish programs and services which duplicate programs and services which are or may be provided by the community colleges under the provisions of chapter 280A. An area education agency shall contract, whenever practicable, with other school corporations for the use of personnel, buildings, facilities, supplies, equipment, programs, and services.

2. Be authorized to receive and expend money for providing programs and services as provided in sections 273.1 to 273.9, and chapters 257 and 281. All costs incurred in providing the programs and services, including administrative costs, shall be paid from funds received pursuant to sections 273.1 to 273.9 and chapters 257 and 281.

3. Provide data and prepare reports as directed by the director of the department of education.

4. Provide for advisory committees as deemed necessary.

Rules adopted by the state board of education shall be consistent with rules, adopted by the board of educational examiners, relating to licensing of practitioners.

6. Area education agencies may co-operate and contract between themselves and with other public agencies to provide special education programs and services, media services, and educational services to schools and children residing within their respective areas. Area education agencies may provide print and nonprint materials to public and private colleges and universities that have teacher education programs approved by the state board of education.

7. Be authorized to lease, subject to the approval of the director of the department of education and to receive by gift and operate and maintain facilities and buildings necessary to provide authorized programs and services. However, a lease for less than ten years and with an annual cost of less than twenty-five thousand dollars does not require the approval of the director. If a lease requires approval, the director shall not approve the lease until the director is satisfied by investigation that public school corporations within the area do not have suitable facilities available.

8. Be authorized, subject to the approval of the director of the department of education, to enter into agreements for the joint use of personnel, buildings, facilities, supplies, and equipment with school corporations as deemed necessary to provide authorized programs and services.

The board shall give notice of a public hearing on the proposed budget by publication in an official county newspaper in each county in the territory of the area education agency in which the principal place of business of a school district that is a part of the area education agency is located. The notice shall specify the date, which shall be not later than February 1 of each year, the time, and the location of the public hearing. The proposed budget as approved by the board shall then be submitted to the state board of education, on forms provided by the department, no later than February 15 preceding the next fiscal year for approval. The state board shall review the proposed budget of each area education agency and shall before March 1, either grant approval or return the budget without approval with comments of the state board included. An unapproved budget shall be resubmitted to the state board for final approval.

13. Be authorized to pay, out of funds available to the board reasonable annual dues to an Iowa association of school boards. Membership shall be limited to those duly elected members of the area education agency board.

The deductions shall be made in the manner which will qualify the annuity premiums for the benefits under section 403b of the Internal Revenue Code, as defined in section 422.3. It is the policy of the state to encourage economical and efficient school districts which will ensure an equal educational opportunity to all children of the state. All areas of the state shall be in school districts maintaining kindergarten and twelve grades. If a school district ceases to maintain kindergarten and twelve grades except as otherwise provided in section 28E.9, 256.13, 280.15, 282.7, subsection 1 or subsections 1 and 3, or 282.8, it shall reorganize within six months or the state board shall attach the school district not maintaining kindergarten and twelve grades to one or more adjacent districts. Voluntary reorganizations under this chapter shall be commenced only if the affected school districts are contiguous to one another. A reorganized district shall meet the requirements of section 275.3.

If a district is attached, division of assets and liabilities shall be made as provided in sections 275.29 to 275.31. The area education agency boards shall develop detailed studies and surveys of the school districts within the area education agency and all adjacent territory for the purpose of providing for reorganization of school districts in order to effect more economical operation and the attainment of higher standards of education in the schools. The plans shall be revised periodically to reflect reorganizations which may have taken place in the area education agency and adjacent territory.

Provided, however, that the director of the department of education shall have authority to grant permission to an area education agency board to approve the formation or enlargement of a school district containing a lower school enrollment than required in this section on the written request of such area education agency board if such request is accompanied by evidence tending to show that sparsity of population, natural barriers or other good reason makes it impracticable to meet the school enrollment requirement.

However, the area education agency administrator shall not accept a petition if any of the school districts affected have approved the issuance of general obligation bonds at an election pursuant to section 296.6 during the preceding six-month period. The petition shall be signed by qualified electors in each existing school district or portion affected equal in number to at least twenty percent of the number of qualified electors or four hundred qualified electors, whichever is the smaller number.

2. The boundaries of the director districts and the area and population included within each district shall be such as justice, equity, and the interests of

In such case, all directors shall be elected by the electors of the entire school district. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election.

d. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which director districts shall be represented on the school board by one or more directors who shall be residents of the director district and who shall be elected by the voters of the director district. Place of voting in the director districts shall be designated by the commissioner of elections. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election.

e. In districts having seven directors, election of three directors at large by the electors of the entire district, one at each annual school election, and election of the remaining directors as residents of and by the electors of individual geographic subdistricts established on the basis of population and identified as director districts. Boundaries of the subdistricts shall follow precinct boundaries, insofar as practicable, and shall not be changed less than sixty days prior to the annual school election.

3. If the petition proposes the division of the school district into director districts, the boundaries of such proposed director districts shall be described in the petition.

In the action, the area education agency board shall follow the same procedure as is required by sections 275.15 and 275.16 for other action on the petition by the area education agency board.

5. The petition may also include a provision that the voter-approved physical plant and equipment levy provided in section 298.2, will be voted upon at the election conducted under section 275.18.

The area education agency board, when entering the order fixing the boundaries, shall consider all requests timely filed for boundary line changes. Each objection filed by a property owner shall be considered separately and an individual ruling made.

If the petition is not dismissed and the board determines that additional information is required in order to fix boundary lines of the proposed school corporation, the board may continue the hearing for no more than thirty days. The date of the continued hearing shall be announced at the original meeting. Additional objections in the form required in section 275.14 may be considered if filed with the administrator within five days, not including Saturdays, Sundays, or holidays, after the date of the original board hearing. If the hearing is continued, the area education agency administrator may conduct one or more meetings with the boards of directors of the affected districts. Notice of any such meeting must be given at least forty-eight hours in advance by the area education agency administrator in the manner provided in section 21.4. The area education agency board may request that the administrator make alternative recommendations regarding the boundary lines of the proposed school corporation. The area education agency board shall make a decision on the boundary lines within ten days following the conclusion of the continued hearing.

The administrator shall at once publish the decision in the same newspaper in which the original notice was published. Within twenty days after the publication, the decision rendered by the area education agency board may be appealed to the district court in the county involved by any school district affected. However, if the joint boards cast a tie vote and are unable to agree to a decision fixing the boundaries for the proposed school corporation or to a decision to dismiss the petition, the time during which actions must be taken under section 275.15 shall be extended from ten days to fifteen days after the conclusion of the hearing under section 275.15, and the joint board shall reconvene not less than ten and not more than fifteen days after the conclusion of the hearing. At the hearing the joint board shall reconsider its action and if a tie vote is again cast it is a decision granting the petition and changing the plans of any and all of the agency boards affected by the petition and fixing the boundaries for the proposed school corporation. The agency administrator shall at once publish the decision in the same newspaper in which the original notice was published.

In case a controversy arises from such meeting, the area education agency board or boards or any school district aggrieved may bring the controversy to the department of education, as provided in section 275.8, within twenty days from the publication of this order, and if said controversy is taken to the department of education, a ten-day notice in writing shall be given to all agency boards and school districts affected or portions thereof. The election shall be conducted as provided in section 277.3, and nomination petitions shall be filed pursuant to section 277.4, except as otherwise provided in this subsection. Nomination petitions shall be filed with the secretary of the board of the existing school district in which the candidate resides, signed by not less than ten eligible electors of the newly formed district, and filed not less than thirty days prior to the date set for the special school election.

2. The number of directors of a school district is either five or seven as provided in section 275.12. In school districts that include a city of fifteen thousand or more population as shown by the most recent decennial federal census, the board shall consist of seven members elected in the manner provided in subsection 3. If it becomes necessary to increase the membership of a board, two directors shall be added according to the procedure described in section 277.23.

The county board of supervisors shall canvass the votes and the county commissioner of elections shall report the results to the area education agency ad-

ministrator who shall notify the persons who are elected directors.

3. The directors who are elected and qualify to serve shall serve until their successors are elected and qualify. At the special election, the newly elected director receiving the most votes shall be elected to serve until the director's successor qualifies after the fourth regular school election date occurring after the effective date of the reorganization; the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors' successors qualify after the third regular school election date occurring after the effective date of the reorganization; and the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors' successors qualify after the second regular school election date occurring after the effective date of the reorganization. However, in districts that include all or a part of a city of fifteen thousand or more population and in districts in which the proposition to establish a new corporation provides for the election of seven directors, the three newly elected directors receiving the most votes shall be elected to serve until the directors' successors qualify after the fourth regular school election date occurring after the effective date of the reorganization.

4. The board of the newly formed district shall organize within fifteen days after the special election upon the call of the area education agency administrator. The new board shall have control of the employment of personnel for the newly formed district for the next following school year under section 275.33. Following the first organizational meeting of the board of the newly formed district, the board may establish policy, organize curriculum, enter into contracts, complete planning, and take action as necessary for the efficient management of the newly formed community school district.

5. Section 49.8, subsection 4 does not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director's residence outside the boundaries of the district. Vacancies caused by this occurrence on a board shall be filled in the manner provided in sections 279.6 and 279.7.

6. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provisions of sections 279.20, 279.23, and 279.24.

275.26 Payment of expenses.

If a district is established or changes its boundaries it shall pay all expenses incurred by the area education agency administrator and the area education agency board in connection with the proceedings. The county commissioner of elections shall assess the costs of the election against the district as provided in section 47.3. If the proposition is dismissed or defeated at the election all expenses shall be apportioned among the several districts in proportion to the assessed valuation of property therein.

If the proposed district or boundary change embraces territory in more than one area education agency such expenses shall be certified to and, if necessary, apportioned among the several districts by the joint agency board. If in only one agency the certification shall be made by the agency administrator.

The respective boards to which such expenses are certified shall audit and order the same paid from the general fund. In the event of failure of any board to so audit and pay the expenses certified to it, the area education agency administrator shall certify the expenses to the county auditor in the same manner as is provided for tuition claims in section 282.21 and the funds shall be transferred by the county treasurer from the debtor district to the agency board for payment of said expenses.

275.28 Plan of division of assets and liabilities.

A plan of reorganization in addition to setting up the territory to comprise the reorganized districts may provide for a division of assets and liabilities of the old districts between reorganized districts. If no provision is made in the plan for division of assets and liabilities, such division shall be made under the provisions of sections 275.29 to 275.31, inclusive, hereof.

275.29 Division of assets and liabilities after reorganization.

Between July 1 and July 20, the board of directors of the newly formed school district shall meet with the boards of all the old districts, or parts of districts, affected by the organization of the new school corporation for the purpose of reaching joint agreement on an equitable division of the assets of the several school corporations or parts of school corporations and an equitable distribution of the liabilities of the affected corporations or parts of corporations. In addition, if outstanding bonds are in existence in any district, the boards shall meet together prior to March 15 prior to the school year the reorganization is effective to determine the distribution of the bonded indebtedness between the districts so that the newly formed district may certify its budget under the procedures specified in chapter 24. The boards shall consider the mandatory levy required in section 76.2 and shall assure the satisfaction of outstanding obligations of each affected school corporation.

If the boards cannot agree on such division and distribution, the matters on which they differ shall be decided by disinterested arbitrators, one selected by each board having an interest therein, and if the number thus selected is even, then one shall be added by the area education agency administrator. The decision of the arbitrators shall be made in writing and filed with the secretary of the new corporation, and any party to the proceedings may appeal therefrom to the district court by serving notice thereof on such secretary within twenty days after the decision is filed. Such appeal shall be tried in equity and a decree entered determining the entire matter, including the levy, collection, and distribution of any necessary taxes.

275.31 Taxes and appropriation to effect equalization.

If necessary to equalize the division and distribution, the board or boards may provide for the levy of additional taxes, which shall be sufficient to satisfy the mandatory levy required in section 76.2 or other liabilities of the districts, upon the property of a corporation or part of a corporation and for the distribution of the tax revenues so as to effect equalization. When the board or boards are considering the equalization levy, the division and distribution shall not impair the security for outstanding obligations of each affected corporation. Any owner of bonds of an affected corporation may bring suit in equity for adjustment of the division and distribution in compliance with this section. If the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness for a newly formed community school district is greater than the property tax levy for the amount estimated and certified to apply on principal and interest in the year preceding the reorganization or dissolution for a school district that is a party to the reorganization or dissolution, that had a certified enrollment of less than six hundred for the year prior to the reorganization or dissolution, and that approved the reorganization or dissolution prior to July 1, 1989, the board of the newly formed district shall inform the department of management. The department of management shall pay debt service aid to the newly formed district in an amount that reduces the rate of the property tax levy for lawful bonded indebtedness in the portion of the newly formed district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization or dissolution.

For the school year beginning July 1, 1987 and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the debt service aid under this section. Debt service aid shall be paid in the manner provided in section 442.26.

Not later than May 1 of each year, the department of management shall inform the board of the newly formed school district the amount of debt service aid that the district will receive and the rate of the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness in the portion of the newly formed district where the new rate would have been higher, and for the remainder of the newly formed district. The department of management shall notify the county auditor of each applicable county of the amount, in dollars and cents per thousand dollars of assessed valuation, of the property tax levy in each portion of each applicable newly formed school district in the county for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness, and the boundaries of the portions within the newly formed district for which the levies shall be made. The county auditor shall spread the applicable property tax levy for each portion of a school district over all taxable property in that portion of the district.

275.32 School buildings — tax levy.

The board of any school corporation shall establish attendance centers and provide suitable buildings for each school in the district, and may at the

regular or a special meeting call a special election to submit to the qualified electors of the district the question of voting a tax or authorizing the board to issue bonds, or both, for any or all of the following purposes:

1. To secure sites, build, purchase, or equip school buildings.

2. To build or purchase a superintendent's or teacher's house or houses.

3. To repair or improve any school building or grounds, or superintendent's or teacher's house or houses, when the cost will exceed five thousand dollars.

All moneys received for such purposes shall be placed in the schoolhouse fund of said corporation and shall be used only for the purpose for which voted.

275.33 Contracts of new district.

1. The terms of employment of superintendents, principals, and teachers, for the school year following the effective date of the formation of the new district shall not be affected by the formation of the new district, except in accordance with the provisions of sections 279.15 to 279.18 and 279.24 and the authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to sections 279.12, 279.13, 279.15 to 279.21, 279.23, and 279.24 for the school year beginning with the effective date of the reorganization shall be transferred from the boards of the existing districts to the board of the new district on the third Tuesday of January prior to the school year the reorganization is effective.

2. The collective bargaining agreement of the district with the largest basic enrollment for the year prior to the reorganization, as defined in section 257.6, in the new district shall serve as the base agreement and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the districts which are party to the reorganization, then that agreement shall serve as the base agreement, and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. The board of the newly formed district, using the base agreement as its existing contract, shall bargain with the combined employees of the existing districts for the school year beginning with the effective date of the reorganization. The bargaining shall be completed by March 15 prior to the school year in which the reorganization becomes effective or within one hundred eighty days after the organization of the new board, whichever is later. If a bargaining agreement was already concluded by the board and employees of the existing district with the contract serving as the base agreement for the school year beginning with the effective date of the reorganization, that agreement shall be void. However, if the base agreement contains multiyear provisions affecting school years subsequent to the effective date of the reorganization, the base agreement shall remain in effect as specified in the agreement.

The provisions of the base agreement shall apply to the offering of new contracts, or continuation, modification, or termination of existing contracts as provided in subsection 1 of this section.

275.35 Change of method of elections.

Any existing or hereafter created or enlarged school district may change the number of directors to either five or seven and may also change its method of election of school directors to any method authorized by section 275.12 by submission of a proposal, stating the proposed new method of election and describing the boundaries of the proposed director districts if any, by the school board of such district to the electors at any regular or special school election. The school board shall notify the county commissioner of elections who shall publish notice of the election in the manner provided in section 49.53. The election shall be conducted pursuant to chapters 39 to 53 by the county commissioner of elections. Such proposal shall be adopted if it is approved by a majority of the votes cast on the proposition.

275.36 Submission of change to electors.

If a petition for a change in the number of directors or in the method of election of school directors, describing the boundaries of the proposed director districts, if any, signed by eligible electors of the school district equal in number to at least thirty percent of those who voted in the last previous annual school election in the school district, but not less than twenty-five persons, and accompanied by affidavit as required by section 275.13 be filed with the school board of a school district, not earlier than six months and not later than two months before a regular or special school election, the school board shall submit such proposition to the voters at such election. If a proposition for a change in the number of

directors or in the method of election of school directors submitted to the voters under this section is rejected, it shall not be resubmitted to the voters of the district in substantially the same form within the next three years; if it is approved, no other proposal may be submitted to the voters of the district under this section within the next six years.

275.37 Increase in number of directors.

At the next succeeding annual school election in a district where the number of directors has been increased from five to seven, and directors are elected at large, there shall be elected a director to succeed each incumbent director whose term is expiring in that year, and two additional directors. Upon organizing as required by section 279.1, the newly elected director who received the fewest votes in the election shall be assigned a term of either one year or two years if necessary in order that as nearly as possible one-third of the members of the board shall be elected each year.

275.38 Implementing changed method of election.

If change in the method of election of school directors is approved at a regular or special school election, the directors who were serving unexpired terms or were elected concurrently with approval of the change of method shall serve out the terms for which they were elected. If the plan adopted is that described in section 275.12, subsection 2, paragraph *"b," "c," "d,"* or *"e,"* the board shall at the earliest practicable time designate the districts from which residents are to be elected as school directors at each of the next three succeeding annual school elections, arranging so far as possible for elections of directors as residents of the respective districts to coincide with the expiration of terms of incumbent members residing in those districts. If an increase in the size of the board from five to seven members is approved concurrently with the change in method of election of directors, the board shall make the necessary adjustment in the manner prescribed in section 275.37, as well as providing for implementation of the districting plan under this section.

[C75, 77, 79, 81, §275.38]

275.39 Excluded territory included in new petition.

Territory described in the petition of a proposed reorganization which has been set out of the proposed reorganization by the area education agency board or the joint boards and in the event of an appeal, after the decision of the director of the department of education or the courts, may be included in any new petition for reorganization.

275.41 Alternative method for director elections — temporary appointments.

1. As an alternative to the method specified in section 275.25 for electing directors in a newly formed community school district, the procedure specified in this section may be used.

2. The board of the former school district with the largest population involved in the merger shall designate four directors to be retained as members of the board of the newly formed district. Other school districts involved in the merger shall each be allowed to retain directors in proportion to the ratio that the population of the former school district bears to the most populous district involved in the merger, except that no district involved in the merger shall retain less than one director.

3. If the procedure in subsection 2 results in four members being retained from the largest district involved in the merger and only a single member from the other district involved in the merger, the reorganization petition may specify that the distribution of the board members who are retained from the districts involved in the merger be five to one, five to two, or six to one.

4. If the total number of directors determined under subsection 2 or 3 is an odd number, the board of the district with the largest population shall designate the term of office of one of the members who is retained to commence at the organizational meeting of the board of the newly formed district and to end at the organizational meeting following the fourth regular school election held thereafter in the manner specified in the reorganization petition.

If the total number of directors determined under subsection 2 or 3 is an even number, that number of directors shall function until a special election can be held, at which time an additional director shall be elected to a term from the newly formed district ending at the organizational meeting following the fourth regular school election held thereafter. The procedure for calling the special election shall be the procedure specified in section 275.25.

5. The boards of directors of school districts which are involved in the merger which have three or more directors who are retained, shall each designate two of the directors who are retained to serve terms that expire at the organizational meeting following the second regular school election held thereafter. All other directors who are retained shall serve terms that expire at the organizational meeting following the third regular school election held thereafter. If there is an insufficient number of board members eligible to be retained from a former school district, the board of the former school district may appoint members to fill the vacancies. A vacancy occurs if there is an insufficient number of former board members who reside in the newly formed district or if there is an insufficient number who are willing to serve on the board of the newly formed district.

6. At the second regular school election held after the effective date of the merger, the two vacancies which will occur on the board shall be filled in a manner specified in the reorganization petition.

7. At the third regular school election held after the effective date of merger, if a five-member board is specified in the reorganization petition, two directors shall be elected in the manner specified in the reorganization petition and if a seven-member board is specified in the reorganization petition, four directors shall be elected, two for one-year terms and two for three-year terms, in the manner specified in the reorganization petition.

8. The board of the newly formed district shall organize within forty-five days after the approval of the merger upon the call of the area education agency administrator. The new board shall have control of the employment of all personnel for the newly formed district for the ensuing school year. Following the organization of the new board the board shall have authority to establish policy, organize curriculum, enter into contracts and complete such planning and take such action as is essential for the efficient management of the newly formed community school district.

9. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provision of sections 279.20, 279.23, and 279.24.

Section 49.8, subsection 4, shall not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director's residence outside the boundaries of the district. Vacancies so caused on any board shall be filled in the manner provided in sections 279.6 and 279.7.

DISSOLUTION OF DISTRICTS

275.51 Dissolution commission.

As an alternative to school district reorganization prescribed in this chapter, the board of directors of a school district may establish a school district dissolution commission to prepare a proposal of dissolution of the school district and attachment of all of the school district to one or more contiguous school districts and to include in the proposal a division of the assets and liabilities of the dissolving school district. A school district dissolution commission may also be established by the board of directors of a school district if a dissolution proposal has been prepared by eligible electors who reside within the district. The proposal must contain the names of the proposed members of the commission and be accompanied by a petition which has been signed by at least twenty percent of the eligible electors.

The dissolution commission shall consist of seven members appointed by the board for a term of office ending either with a report to the board that no proposal can be approved or on the date of the election on the proposal. Members of the dissolution commission must be eligible electors who reside in the school district, not more than three of whom may be members of the board of directors of the school district. Members shall be appointed from throughout the school district and should represent the various socioeconomic factors present in the school district.

Members of the dissolution commission shall serve without compensation and may be appointed to a subsequent commission. A vacancy on the commission shall be filled in the same manner as the original appointment was made.

The board of the school district shall certify to the area education agency board that a commission has been formed, the names and addresses of commission members, and that the commission members represent the various geographic areas and socioeconomic factors present in the district.

[C81, §275.51]
88 Acts, ch 1263, §3

275.52 Meetings.

The commission shall hold an organizational meeting not more than fifteen days after its appointment and shall elect a chairperson and vice chairperson from its membership. Thereafter the commission may meet as often as deemed necessary upon the call of the chairperson or a majority of the commission members.

The commission shall request statements from contiguous school districts outlining each district's willingness to accept attachments of the affected school district to the contiguous districts and what conditions, if any, the contiguous school district recommends. The commission shall meet with boards of contiguous school districts and with residents of the affected school district to the extent possible in drawing up the dissolution proposal. The commission may seek assistance from the area education agency and the department of education.

[C81, §275.52]

275.53 Dissolution proposal.

The commission shall send a copy of its dissolution proposal or shall inform the board that it cannot agree upon a dissolution proposal not later than one year following the date of the organizational meeting of the commission. The commission shall also send a copy of the dissolution proposal by registered mail to the boards of directors of all school districts to which area of the affected school district will be attached. If the board of a district to which area of the affected school district will be attached objects to the attachment, within ten days following receipt of the dissolution proposal the board shall send its objections in writing to the commission. The commission may consider the objections and may modify the dis-

solution proposal. If the dissolution proposal is modified, the commission shall notify by registered mail the boards of directors of all school districts to which area of the affected school district will be attached.

If the commission cannot agree upon a dissolution proposal prior to the expiration of its term, the board may appoint a new commission.

[C81, §275.53]

275.54 Hearing.

Within ten days following the filing of the dissolution proposal with the board, the board shall fix a date for a hearing on the proposal which shall not be more than sixty days after the dissolution petition was filed with the board. The board shall publish notice of the date, time, and location of the hearing at least ten days prior to the date of the hearing by one publication in a newspaper in general circulation in the district. The notice shall include the content of the dissolution proposal. A person residing or owning land in the school district may present evidence and arguments at the hearing. The president of the board shall preside at the hearing. The board shall review testimony from the hearing and shall adopt or amend and adopt the dissolution proposal. The board shall notify by registered mail the boards of directors of all school districts to which area of the affected school district will be attached and the director of the department of education of the contents of the dissolution proposal adopted by the board. If the board of a district to which area of the affected school district will be attached objects to the attachment, that portion of the dissolution proposal will not be included in the proposal voted upon under section 275.55 and the director of the department of education shall attach the area to a contiguous school district. If the board of a district to which area of the affected school district will be attached objects to the division of assets and liabilities contained in the dissolution proposal, section 275.30 applies for the division of assets and liabilities to that district.

If a dissolution proposal adopted by a board contains provisions that ninety-five percent or more of the taxable valuation of the dissolving district would be assumed and attached to a single school district, the dissolving school district shall cease further proceedings to dissolve and shall comply with reorganization procedures specified in this chapter.

[C81, §275.54]

86 Acts, ch 1245, §1465

275.55 Election.

The board of the school district shall call a special election to be held not later than forty days following the date of the final hearing on the dissolution proposal. The special election may be held at the same time as the regular school election. The proposition submitted to the voters residing in the school district at the special election shall describe each separate area to be attached to a contiguous school district and shall name the school district to which it will be attached.

The board shall give written notice of the proposed date of the election to the county commissioner of elections. The proposed date shall be pursuant to sections 39.2, subsections 1 and 2 and 47.6, subsections 1 and 2. The county commissioner of elections shall give notice of the election by one publication in the same newspaper in which the previous notice was published about the hearing, which publication shall not be less than four nor more than twenty days prior to the election.

The proposition shall be adopted if a majority of the electors voting on the proposition approve its adoption.

The attachment is effective July 1 following its approval. The contract shall be signed by the president of the board when tendered, and after it is signed by the teacher, the contract shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. The contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods except as modified or terminated by mutual agreement of the board of directors and the teacher or as terminated in accordance with the provisions specified in this chapter. A contract shall not be offered by the employing board to a teacher under its jurisdiction prior to March 15 of any year. A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may resign effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the

employing board for return of the contract, whichever date occurs first. However, a teacher shall not be required to return a contract to the board or to resign less than twenty-one days after the contract has been offered.

3. If the provisions of a contract executed or automatically renewed under this section conflict with a collective bargaining agreement negotiated under chapter 20 and effective when the contract is executed or renewed, the provisions of the collective bargaining agreement shall prevail.

279.15 Notice of termination — request for hearing.

1. The superintendent or the superintendent's designee shall notify the teacher not later than March 15 that the superintendent will recommend in writing to the board at a regular or special meeting of the board held not later than March 31 that the teacher's continuing contract be terminated effective at the end of the current school year. However, if the district is subject to reorganization under chapter 275, the notification shall not occur until after the first organizational meeting of the board of the newly formed district.

2. Notification of recommendation of termination of a teacher's contract shall be in writing and shall be personally delivered to the teacher, or mailed by certified mail. The notification shall be complete when received by the teacher. The notification and the recommendation to terminate shall contain a short and plain statement of the reasons, which shall be for just cause, why the recommendation is being made. The notification shall be given at or before the time the recommendation is given to the board.

As a part of the termination proceedings, the teacher's complete personnel file of employment by that board shall be available to the teacher, which file shall contain a record of all periodic evaluations between the teacher and appropriate supervisors.

Within five days of the receipt of the written notice that the superintendent is recommending termination of the contract, the teacher may request, in writing to the secretary of the board, a private hearing with the board. The private hearing shall not be subject to chapter 21 and shall be held no sooner than ten days and no later than twenty days following the receipt of the request unless the parties otherwise agree. The secretary of the board shall notify the teacher in writing of the date, time, and location of the private hearing, and at least five days before the hearing shall also furnish to the teacher any documentation which may be presented to the board at the private hearing and a list of persons who may address the board in support of the superintendent's recommendation at the private hearing. At least three days before the hearing, the teacher shall provide any documentation the teacher expects to present at the private hearing, along with the names of any persons who may address the board on behalf of the teacher. This exchange of information shall be at the time specified unless otherwise agreed.

279.16 Private hearing — decision — record.

The participants at the private hearing shall be at least a majority of the members of the board, their legal representatives, if any, the superintendent, the superintendent's designated representatives, if any, the teacher's immediate supervisor, the teacher, the teacher's representatives, if any, and the witnesses for the parties. The evidence at the private hearing shall be limited to the specific reasons stated in the superintendent's notice of recommendation of termination. No participant in the hearing shall be liable for any damages to any person if any statement at the hearing is determined to be erroneous as long as the statement was made in good faith. The superintendent shall present evidence and argument on all issues involved and the teacher may cross-examine, respond and present evidence and argument in the teacher's behalf relevant to all issues involved. Evidence may be by stipulation of the parties and informal settlement may be made by stipulation, consent, or default or by any other method agreed upon by the parties in writing. The board shall employ a certified shorthand reporter to keep a record of the private hearing. The proceedings or any part thereof shall be transcribed at the request of either party with the expense of transcription charged to the requesting party.

The presiding officer of the board may administer oaths in the same manner and with like effect and under the same penalties as in the case of magistrates exercising criminal or civil jurisdiction. The board shall cause subpoenas to be issued for such witnesses and the production of such books and papers as either the board or the teacher may designate. The subpoenas shall be signed by the presiding officer of the board.

In case a witness is duly subpoenaed and refuses to attend, or in case a witness appears and refuses to testify or to produce required books or papers, the board shall, in writing, report such refusal to the district court of the county in which the administrative office of the school district is located, and the court shall proceed with the person or witness as though the refusal had occurred in a proceeding legally pending before the court.

The board shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure, but it shall hold the hearing in such manner as is best suited to ascertain and conserve the substantial rights of the parties. Process and procedure under sections 279.13 to 279.19 shall be as summary as reasonably may be.

At the conclusion of the private hearing, the superintendent and the teacher may file written briefs and arguments with the board within three days or such other time as may be agreed upon.

If the teacher fails to timely request a private hearing or does not appear at the private hearing, the board may proceed and make a determination upon the superintendent's recommendation, which determination in that case shall be not later than April 10, or not later than five days after the scheduled date for the private hearing, whichever is applicable. The board shall convene in open session and by roll call vote determine the termination or continuance of the teacher's contract.

Within five days after the private hearing, the board shall, in executive session, meet to make a final decision upon the recommendation and the evidence as herein provided. The board shall also consider any written brief and arguments submitted by the superintendent and the teacher.

The record for a private hearing shall include:

1. All pleadings, motions and intermediate rulings.
2. All evidence received or considered and all other submissions.
3. A statement of all matters officially noticed.
4. All questions and offers of proof, objections and rulings thereon.
5. All findings and exceptions.
6. Any decision, opinion, or conclusion by the board.
7. Findings of fact shall be based solely on the evidence in the record and on matters officially noticed in the record.

The decision of the board shall be in writing and shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts and supporting the findings. Each conclusion of law shall be supported by cited authority or by reasoned opinion.

When the board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the teacher's contract. The record of the private conference and findings of fact and exceptions shall be exempt from the provisions of chapter 22. The secretary of the board shall immediately mail notice of the board's action to the teacher.

[C77, 79, 81, §279.16]

279.17 Appeal by teacher to adjudicator.

If the teacher is no longer a probationary teacher, the teacher may, within ten days, appeal the determination of the board to an adjudicator by filing a notice of appeal with the secretary of the board. The notice of appeal shall contain a concise statement of the action which is the subject of the appeal, the particular board action appealed from, the grounds on which relief is sought and the relief sought.

Within five days following receipt by the secretary of the notice of appeal, the board or the board's legal representative, if any, and the teacher or the teacher's representative, if any, may select an adjudicator who resides within the boundaries of the merged area in which the school district is located. If an adjudicator cannot be mutually agreed upon within the five-day period, the secretary shall notify the chairperson of the public employment relations board by transmitting the notice of appeal, and the chairperson of the public employment relations board shall within five days provide a list of five adjudicators to the parties. Within three days from receipt of the list of adjudicators, the parties shall select an adjudicator by alternately removing a name from the list until only one name remains. The person whose name remains shall be the adjudicator. The parties shall determine by lot which party shall remove the first name from the list submitted by the chairperson of the public employment relations board. The secretary of the board shall inform the chairperson of the public employee relations board of the name of the adjudicator selected.

If the teacher does not timely request an appeal to an adjudicator the decision, opinion, or conclusion of the board shall become final and binding.

Within thirty days after filing the notice of appeal, or within further time allowed by the adjudicator, the board shall transmit to the adjudicator the original or a certified copy of the entire record of the private hearing which may be the subject of the petition. By stipulation of the parties to review the proceedings, the record of the case may be shortened. The adjudicator may require or permit subsequent corrections or additions to the shortened record.

The record certified and filed by the board shall be the record upon which the appeal shall be heard and no additional evidence shall be heard by the adjudicator. In such appeal to the adjudicator, especially when considering the credibility of witnesses, the adjudicator shall give weight to the fact findings of the board; but shall not be bound by them.

Before the date set for hearing a petition for review of board action, which shall be within ten days after receipt of the record unless otherwise agreed or unless the adjudicator orders additional evidence be taken before the board, application may be made to the adjudicator for leave to present evidence in addition to that found in the record of the case. If it is shown to the adjudicator that the additional evidence is material and that there were good reasons for failure to present it in the private hearing before the board, the adjudicator may order that the additional evidence be taken before the board upon conditions determined by the adjudicator. The board

may modify its findings and decision in the case by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions, with the adjudicator and mail copies of the new findings or decisions to the teacher.

The adjudicator may affirm board action or remand to the board for further proceedings. The adjudicator shall reverse, modify, or grant any appropriate relief from the board action if substantial rights of the teacher have been prejudiced because the board action is:

1. In violation of a board rule or policy or contract; or
2. Unsupported by a preponderance of the competent evidence in the record made before the board when that record is viewed as a whole; or
3. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

The adjudicator shall, within fifteen days after the hearing, make a decision and shall give a copy of the decision to the teacher and the secretary of the board. The decision of the adjudicator shall become the final and binding decision of the board unless either party within ten days notifies the secretary of the board that the decision is rejected. The board may reject the decision by majority vote, by roll call, in open meeting and entered into the minutes of the meeting. The board shall immediately notify the teacher of its decision by certified mail. The teacher may reject the adjudicator's decision by notifying the board's secretary in writing within ten days of the filing of such decision.

All costs of the adjudicator shall be shared equally by the teacher and the board.

[C77, 79, 81, §279.17]

279.18 Appeal by either party to court.

If either party rejects the adjudicator's decision, the rejecting party shall, within thirty days of the initial filing of such decision, appeal to the district court of the county in which the administrative office of the school district is located. The notice of appeal shall be immediately mailed by certified mail to the other party. The adjudicator shall transmit to the reviewing court the original or a certified copy of the entire record which may be the subject of the petition. By stipulation of all parties to the review proceedings, the record of such a case may be shortened. A party unreasonably refusing to stipulate to limit the record may be taxed by the court for the additional cost. The court may require or permit subsequent corrections or additions to the shortened record.

In proceedings for judicial review of the adjudicator's decision, the court shall not hear any further evidence but shall hear the case upon the certified record. In such judicial review, especially when considering the credibility of witnesses, the court shall give weight to the fact findings of the board; but shall not be bound by them. The court may affirm the adjudicator's decision or remand to the adjudicator or the board for further proceedings upon conditions determined by the court. The court shall reverse, modify, or grant any other appropriate relief from the board decision or the adjudicator's decision equitable or legal and including declaratory relief if substantial rights of the petitioner have been prejudiced because the action is:

1. In violation of constitutional or statutory provisions; or
2. In excess of the statutory authority of the board or the adjudicator; or
3. In violation of a board rule or policy or contract; or
4. Made upon unlawful procedure; or
5. Affected by other error of law; or
6. Unsupported by a preponderance of the competent evidence in the record made before the board and the adjudicator when that record is viewed as a whole; or
7. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

An aggrieved or adversely affected party to the judicial review proceeding may obtain a review of any final judgment of the district court by appeal to the supreme court. The appeal shall be taken as in other civil cases, although the appeal may be taken regardless of the amount involved.

[C77, 79, 81, §279.18]

279.19 Probationary period.

The first two consecutive years of employment of a teacher in the same school district are a probationary period. However, a board of directors may waive the probationary period for any teacher who previously has served a probationary period in another school district and the board may extend the probationary period for an additional year with the consent of the teacher.

In the case of the termination of a probationary teacher's contract, the provisions of sections 279.15 and 279.16 shall apply.

The board's decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section 20.10.

[C77, 79, 81, §279.19]

279.19A Extracurricular contracts.

1. School districts employing individuals to coach interscholastic athletic sports shall issue a separate extracurricular contract for each of these sports. An extracurricular contract offered under this section shall be separate from the contract issued under section 279.13. Wages for employees who coach these sports shall be paid pursuant to established or negotiated supplemental pay schedules. An extracurricular contract shall be in writing, and shall state the number of contract days for that sport, the annual compensation to be paid, and any other matters as may be mutually agreed upon. The contract shall be for a single school year.

2. An extracurricular contract shall be continued automatically in force and effect for equivalent periods, except as modified or terminated by mutual agreement of the board of directors and the employee, or terminated in accordance with this section. An extracurricular contract shall initially be offered by the employing board to an individual on the same date that contracts are offered to teachers under section 279.13. An extracurricular contract may be terminated at the end of a school year pursuant to sections 279.15 through 279.19. If the school district offers an extracurricular contract for a sport for the subsequent school year to an employee who is currently performing under an extracurricular contract for that sport, and the employee does not wish to accept the extracurricular contract for the subsequent year, the employee may resign from the extracurricular contract within twenty-one days after it has been received.

Section 279.13, subsection 3, applies to this section.

3. The board of directors of a school district may require an employee who has resigned from an extracurricular contract to accept, as a condition of employment under section 279.13, the extracurricular contract for the subsequent school year if all of the following conditions apply:

a. The employee has accepted a teaching contract issued by the board pursuant to section 279.13 for the subsequent school year.

b. The board of directors has made a good faith effort to fill the coaching position with a licensed or authorized replacement.

c. The position has not been filled by June 1 of the year in which the employee resigned the extracurricular contract.

4. As a condition of employment under section 279.13, the board of directors of a school district may require an employee who has been issued a teaching contract pursuant to section 279.13 to accept an extracurricular contract for which the employee is licensed, or may require as a condition of employment that an applicant for a teaching contract under section 279.13 accept an extracurricular contract if all of the following conditions apply:

a. The individual who held the coaching position during the year has not been issued a teaching contract by the board pursuant to section 279.13 for the subsequent school year, or has been terminated from the extracurricular contract.

b. The board of directors has made a good faith effort to fill the coaching position with a licensed or authorized replacement.

c. The position has not been filled by June 1 of the year in which the vacancy occurred for the interscholastic athletic sport.

5. Within seven days following June 1 of that year, the board shall notify the employee in writing if the board intends to require the employee to accept an extracurricular contract for the subsequent school year under subsection 3 or 4. If the employee believes that the board did not make a good faith effort to fill the position the employee may appeal the decision by notifying the board in writing within ten days after receiving the notification.

The appeal shall state why the employee believes that the board did not make a good faith effort to fill the position. If the parties are unable to informally resolve the dispute, the parties shall attempt to agree upon an alternative means of resolving the dispute.

If the dispute is not resolved by mutual agreement, either party may appeal to the district court.

6. Subsections 3, 4, and 5 do not apply if the terms of a collective bargaining agreement provide otherwise.

7. An extracurricular contract may be terminated prior to the expiration of that contract pursuant to section 279.27.

8. A termination proceeding of an extracurricular contract either by the board pursuant to subsection 2 or pursuant to section 279.27 does not affect a contract issued pursuant to section 279.13.

A termination of a contract entered into pursuant to section 279.13, or a resignation from that contract by the teacher, constitutes an automatic termination or resignation of the extracurricular contract in effect between the same teacher and the employing school board.

9. For the purposes of this section, "good faith effort" includes advertising for the position in an appropriate publication, interviewing applicants, and giving serious consideration to those licensed or authorized, and otherwise qualified, applicants who apply.

The board of directors of a school district may employ for head coach of other interscholastic athletic activities or for assistant coach of any interscholastic athletic activity, an individual who possesses a coaching authorization issued by the board of educational examiners. An individual who has been issued a coaching authorization or who possesses a teaching license with a coaching endorsement but is not issued a teaching contract under section 279.13 and who is employed by the board of directors of a school district serves at the pleasure of the board of directors and is not subject to sections 279.13 through 279.19, and 279.27. 279.23 Continuing contract for administrators.

Contracts with administrators shall be in writing and shall contain all of the following:

1. The term of employment.
2. The length of time during the school year services are to be performed.
3. The compensation per week of five consecutive days or month of four consecutive weeks.
4. A statement that the contract is invalid if the administrator is under contract with another board of directors in this state covering the same period of time, until such contract shall have been released or terminated by its provisions.
5. Such other matters as may be agreed upon.

The contract shall be signed by the president and the administrator and shall be filed with the secretary of the board before the administrator enters upon performance of the contract. A contract shall not be tendered by an employing board to an administrator under its jurisdiction prior to March 15. A contract shall not be required to be signed by the administrator and returned to the board in less than twenty-one days after being tendered.

An administrator's contract shall be governed by the provisions of this section and sections 279.23A, 279.24, and 279.25 and not by section 279.13. For purposes of this section and sections 279.23A, 279.24, and 279.25, the term *"administrator"* includes school superintendents, assistant superintendents, educational directors, principals, assistant principals, and other certified school supervisors as defined under section 20.4.

279.24 Contract with administrators — automatic continuation or termination.

An administrator's contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for one year beyond the end of its term, except as modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as hereinafter provided.

An administrator may file a written resignation with the secretary of the school board on or before May 1 of each year or the date specified by the school board for return of the contract, whichever date occurs first.

Administrators employed in a school district for less than two consecutive years are probationary administrators. However, a school board may waive the probationary period for any administrator who has previously served a probationary period in another school district and the school board may extend the probationary period for an additional year with the consent of the administrator. If a school board determines that it should terminate a probationary administrator's contract, the school board shall notify the administrator not later than March 31 that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the

notice, the administrator may request a private conference with the school board to discuss the reasons for termination. The school board's decision to terminate a probationary administrator's contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

The school board may, by majority vote of the membership of the school board, cause the contract of an administrator to be terminated. If the school board determines that it should consider the termination of a nonprobationary administrator's contract, the following procedure shall apply:

On or before March 31, the administrator shall be notified in writing by a letter personally delivered or mailed by certified mail that the school board has voted to consider termination of the contract. The notification shall be complete when received by the administrator.

The notice shall state the specific reasons to be used by the school board for considering termination which for all administrators except superintendents shall be for just cause.

Within five days after receipt of the written notice that the school board has voted to consider termination of the contract, the administrator may request in writing to the secretary of the school board that the notification be forwarded to the board of educational examiners along with a request that the board of educational examiners submit a list of five qualified administrative law judges to the parties. Within three days from receipt of the list the parties shall select an administrative law judge by alternately removing a name from the list until only one name remains. The person whose name remains shall be the administrative law judge. The parties shall determine by lot which party shall remove the first name from the list. The hearing shall be held no sooner than ten days and not later than thirty days following the administrator's request unless the parties otherwise agree. If the administrator does not request a hearing, the school board, not later than April 15, may determine the continuance or discontinuance of the contract. School board action shall be by majority roll call vote entered on the minutes of the meeting. Notice of school board action shall be personally delivered or mailed to the administrator.

The administrative law judge selected shall notify the secretary of the school board and the administrator in writing concerning the date, time, and location of the hearing. The school board may be represented by a legal representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. A transcript or recording shall be made of the proceedings at the hearing. A school board member or administrator is not liable for any damage to an administrator or school board member if a statement made at the hearing is determined to be erroneous as long as the statement was made in good faith.

The administrative law judge shall, within ten days following the date of the hearing, make a proposed decision as to whether or not the administrator should be dismissed, and shall give a copy of the proposed decision to the administrator and the school board. Findings of fact shall be prepared by the administrative law judge. The proposed decision of the administrative law judge shall become the final decision of the school board unless within ten days after the filing of the decision the administrator files a written notice of appeal with the school board, or the school board on its own motion determines to review the decision.

If the administrator appeals to the school board, or if the school board determines on its own motion to review the proposed decision of the administrative law judge, a private hearing shall be held before the school board within five days after the petition for review, or motion for review, has been made or at such other time as the parties agree. The private hearing is not subject to chapter 21. The school board may hear the case de novo upon the record as submitted before the administrative law judge. In cases where there is an appeal from a proposed decision or where a proposed decision is reviewed on motion of the school board, an opportunity shall be afforded to each party to file exceptions, present briefs and present oral arguments to the school board which is to render the final decision. The secretary of the school board shall give the administrator written notice of the time, place, and date of the hearing. The school board shall meet within five days after the hearing to determine the question of continuance or discontinuance of the contract. The school board shall make findings of fact which shall be based solely on the evidence in the record and on matters officially noticed in the record.

The decision of the school board shall be in writing and shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings. Each conclusion of law shall be supported by cited authority or by reasoned opinion.

When the school board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the administrator's contract. The record of the private conference and findings of fact and exceptions shall be exempt from the provisions of chapter 22. The secretary of the school board shall immediately personally deliver or mail notice of the school board's action to the administrator.

The administrator may within thirty days after notification by the school board of discontinuance of the contract appeal to the district court of the county in which the administrative office of the school district is located.

The court may affirm the school board's action. The court shall reverse, modify, or grant any other appropriate relief from the school board's action, eq-

uitable or legal, and including declaratory relief, if substantial rights of the administrator have been prejudiced because the school board's action is any of the following:

1. In violation of constitutional or statutory provisions.
2. In excess of the statutory authority of the school board.
3. In violation of school board policy or rule.
4. Made upon unlawful procedure.
5. Affected by other error of law.
6. Unsupported by a preponderance of the evidence in the record made before the school board when that record is reviewed as a whole.
7. Unreasonable, arbitrary, or capricious, or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

Priority shall be given to schools with student populations characterized by high rates of a number of the following: school dropout and absenteeism; teenage pregnancy; juvenile court involvement; unemployment; teenage suicide; and teenage mental health, substance abuse, and other health problems. The department shall evaluate proposed programs based upon the department's analysis of effectiveness in reducing these rates within the schools.

Additional objectives of the programs shall be: to increase the ability of existing agencies within the community to address the multiple problems of teenagers and to coordinate their activities, to provide an accessible and attractive center for teenagers in or near school that they are most likely to use, and to facilitate joint planning to make the most economic and innovative use of community resources. Programs shall at a minimum provide job training and employment services, mental health and family counseling services, and primary health care services that include but are not limited to physical examinations, immunizations, hearing and vision screening, and preventive and primary health care services, in the context of the educational needs of the students. Programs shall not include abortion counseling or the dispensing of contraceptives. The department shall give additional consideration to program proposals that provide access to the center after school, in the evening and on weekends, and during the summer; that provide a twenty-four hour telephone hotline or similar service; and that provide access to day care or on-site day care.

The plan shall include the appointment by the board of a local advisory board for each proposed program, which at a minimum shall include a representative of the private industry council serving the area, parents of children enrolled in the school, a teacher recommended by the local teachers associa-

tion, a representative from the health and mental health community in the area, teenagers enrolled in the school and recommended by the school student government, a representative from the nonprofit provider community, and a representative from the juvenile court system serving the area. Management of the program shall be by the school or by a nonprofit youth service organization. As used in this subsection, *"youth service"* means recreational services, employment services, civic services, or juvenile treatment services.

Program proposals shall include a written commitment from the school principal and the board of directors that the school will work to coordinate and integrate existing school services and activities with the center and shall include letters of support for the proposal from the local teachers association; parent-teacher organizations; community organizations; nonprofit agencies providing social services, health, or employment services in the area; and the area private industry council.

Grants for the program shall not be used to construct a new facility, but up to ten percent of the grant may be used to renovate an existing structure. In addition, up to ten percent of the grant funds may be used to provide each of the following service categories: day care, transportation, and recreation.

Program proposals shall include a contribution of at least twenty percent of the total costs of the program, which can include "in-kind" services. Partnerships between the public and private sectors to provide employment and training opportunities for youth served by the program are particularly encouraged. The budget for a proposed program shall not exceed two hundred thousand dollars per year.

4. The department shall seek assistance from the first in the nation in education foundation established in chapter 257A and other foundations and public and private agencies in the evaluation of the programs funded under this section, and in the provision of support to school districts in developing and implementing the programs funded under this section.

5. The state board of education shall adopt rules under chapter 17A for the administration of this section.

280.1 Title.

This chapter may be known and shall be cited as the "Uniform School Requirements" chapter.

[C75, 77, 79, 81, §280.1]

280.2 Definitions.

The term "public school" means any school directly supported in whole or in part by taxation. The term "nonpublic school" means any other school.

[C24, 27, 31, 35, 39, §**4251**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §280.2]

280.3 Duties of board.

The board of directors of each public school district and the authorities in charge of each nonpublic school shall prescribe the minimum educational program for the schools under their jurisdictions. The minimum educational program shall be the curriculum set forth in section 256.11, except as otherwise provided by law. The board of directors of a public school district shall not allow discrimination in any educational program on the basis of race, color, creed, sex, marital status or place of national origin.

A nonpublic school which is unable to meet the minimum educational program may request an exemption from the state board of education. The authorities in charge of the nonpublic school shall file with the director of the department of education the names and locations of all schools desiring to be exempted and the names, ages, and post office addresses of all pupils of compulsory school age who are enrolled. The director, subject to the approval of the state board, may exempt the nonpublic school from compliance with the minimum educational program for two school years. When the exemption has once been granted, renewal of the exemption for each succeeding school year may be conditioned by the director, with the approval of the board, upon proof of achievement in the basic skills of arithmetic, the communicative arts of reading, writing, grammar, and spelling, and an understanding of United States history, history of Iowa, and the principles of American government, of the pupils of compulsory school age exempted in the preceding year. Proof of achievement shall be determined on the basis of tests or other means of evaluation prescribed by the direc-

tor of the department of education with the approval of the state board of education. The testing or evaluation, if required, shall be accomplished prior to submission of the request for renewal of the exemption. Renewal requests shall be filed with the director by April 15 of the school year preceding the school year for which the applicants desire exemption. This section shall not apply to schools eligible for exemption under section 299.24.

The board of directors of each public school district and the authorities in charge of each nonpublic school shall establish and maintain attendance centers based upon the needs of the school age pupils enrolled in the school district or nonpublic school. Public school kindergarten programs shall and public and nonpublic school prekindergarten programs may be provided. In addition, the board of directors or governing authority may include in the educational program of any school such additional courses, subjects, or activities which it deems fit the needs of the pupils.

[C75, 77, 79, 81, §280.3]

85 Acts, ch 212, §21, 22; 89 Acts, ch 210, §7

280.4 Medium of instruction — special instruction.

The medium of instruction in all secular subjects taught in both public and nonpublic schools shall be the English language, except when the use of a foreign language is deemed appropriate in the teaching of any subject or when the student is non-English-speaking. When the student is non-English-speaking, both public and nonpublic schools shall provide special instruction, which shall include but need not be limited to either instruction in the English language or a transitional bilingual program, until the student demonstrates a functional ability to speak, write, read and understand the English language. As used in this section, "non-English-speaking student" means a student whose native language is not English and whose inability or limited ability to speak, write or read English significantly impedes educational progress.

1. The board of directors of a school district may submit an application to the school budget review committee for funds provided by 1982 Iowa Acts, chapter 1260, section 47, for instruction in the English language, a transitional bilingual, or other special instruction program when support for the program from other federal, state or local sources is not available or is inadequate. The department of education shall review all applications for funding and provide recommendations to the school budget review committee regarding their disposition. The school budget review committee shall not grant funds to a public school for instruction in the English language, a transitional bilingual or other special instruction program unless the program offered by the public school is available to nonpublic school students in the district.

2. The department of education shall promulgate rules relating to the identification of non-English-speaking students who require special instruction under this section and to application procedures for funds available under this section.

3. Grants made to a school pursuant to this section shall not exceed four hundred dollars for each student in the program. A public school may receive funds for nonpublic school students attending the program offered by the public school. However, the amount granted for each nonpublic school student in a program shall not exceed the amount granted for each public school student in the program.

4. In order to provide funds for the excess costs of instruction of non-English-speaking students above the costs of instruction of pupils in a regular curriculum, students identified as non-English-speaking are assigned an additional weighting that shall be included in the weighted enrollment of the school district of residence for a period not exceeding three years. However, the school budget review committee may grant supplemental aid or modified allowable growth, to a school district to continue funding a program for students after the expiration of the three-year period. The school budget review committee shall calculate the additional amount for the weighting to the nearest one-hundredth of one so that, to the extent possible, the moneys generated by the weighting will be equivalent to the moneys generated by the two-tenths weighting provided prior to July 1, 1991.

[C24, 27, 31, 35, 39, §**4254**; C46, 50, 54, 58, 62, 66, 71, 73, §280.5; C75, 77, 79, 81, §280.4; 82 Acts, ch 1260, §48]

The board of directors of each public school district shall make adequate educational provisions for each resident child requiring special education appropriate to the nature and severity of the child's handicapping condition pursuant to rules promulgated by the department under the provisions of chapters 273 and 281.

[C71, 73, §280.22; C75, 77, 79, 81, §280.8]

280.9 Career education.

The board of directors of each local public school district and the authorities in charge of each nonpublic school shall incorporate into the educational program the total concept of career education to enable students to become familiar with the values of a work-oriented society. Curricular and cocurricular teaching-learning experiences from the prekindergarten level through grade twelve shall be provided for all students currently enrolled in order to develop an understanding that employment may be meaningful and satisfying. However, career education does not mean a separate vocational-technical program is required. A vocational-technical program includes units or partial units in subjects which have as their purpose to equip students with marketable skills.

Essential elements in career education shall include, but not be limited to:

1. Awareness of self in relation to others and the needs of society.
2. Exploration of employment opportunities and experience in personal decision making.
3. Experiences which will help students to integrate work values and work skills into their lives.

The board of directors of each local public school district and the authorities in charge of each nonpublic school shall require that all students in grades nine through twelve complete, as a condition of graduation, instruction in American history and the governments of Iowa and the United States, including instruction in voting statutes and procedures, voter registration requirements, the use of paper ballots and voting machines in the election process, and the method of acquiring and casting an absentee ballot.

2. The board of directors of each local public school district and the authorities in charge of each nonpublic school shall submit a list of currently enrolled full-time and part-time students who have attained the age of eighteen years or will attain the age of eighteen years within six months, twice each calendar year, to the county commissioner of elections in the county or counties in which the public school district or nonpublic school is located. The list shall be submitted on September 30 and March 30 of each school year and shall list the student's name, address, and date of birth. An agreement denied by a governing organization under this section may be appealed to the state board of education under chapter 290.

Sharing agreements that provide for the sharing of personnel shall provide that any person who is not an employee at the time an agreement is signed shall not be employed in any professional position, under the terms of the agreement, for which a current employee of any of the districts involved in the agreement holds an appropriate license, unless the professional position is an administrator position or the professional position is first offered to the current employee.

2. When a special education personnel pooling agreement, which has been entered into between an area education agency and a public school district pursuant to section 273.5, is terminated, the public school district shall assume the contractual obligations for any teachers assigned to the district under the agreement. 280.18 Student achievement goals.

The board of directors of each school district shall adopt goals to improve student achievement and performance. Student achievement and performance can be measured by measuring the improvement of students' skills in reading, writing, speaking, listening, mathematics, reasoning, studying, and technological literacy.

In order to achieve the goal of improving student achievement and performance on a statewide basis, the board of directors of each school district shall adopt goals that will improve student achievement at each grade level in the skills listed in this section

and other skills deemed important by the board. Not later than July 1, 1989, the board of each district shall transmit to the department of education its plans for achieving the goals it has adopted and the periodic assessment that will be used to determine whether its goals have been achieved. The committee appointed by the board under section 280.12 shall advise the board concerning the development of goals, the assessment process to be used, and the measurements to be used.

The periodic assessment used by a school district to determine whether its student achievement goals have been met shall use various measures for determination, of which standardized tests may be one. The board shall ensure that the achievement of goals for a grade level has been assessed at least once during every four-year period.

Members of the board shall be residents of the district from which elected. Successors shall be chosen at the annual school elections for members whose terms expire. 280A.22 Facilities levy by vote — borrowing — temporary cash reserve levy.

1. *a.* In addition to the tax authorized under section 280A.17, the voters in any merged area may at the annual school election vote a tax not exceeding twenty and one-fourth cents per thousand dollars of assessed value in any one year for a period not to exceed ten years for the purchase of grounds, construction of buildings, payment of debts contracted for the construction of buildings, purchase of buildings and equipment for buildings, and the acquisition of libraries, for the purpose of paying costs of utilities, and for the purpose of maintaining, remodeling, improving, or expanding the community college of the merged area. If the tax levy is approved under this section, the costs of utilities shall be paid from the proceeds of the levy. The tax shall be collected by the county treasurers and remitted to the treasurer of the merged area as provided in section 331.552, subsection 29. The proceeds of the tax shall be deposited in a separate and distinct fund to be known as the voted tax fund, to be paid out upon warrants drawn by the president and secretary of the board of directors of the merged area district for the payment of costs incurred in providing the school facilities for which the tax was voted.

b. In order to make immediately available to the merged area the proceeds of the voted tax hereinbefore authorized to be levied, the board of directors of any such merged area is hereby authorized, without the necessity for any further election, to borrow money and enter into loan agreements in anticipation of the collection of such tax, and such board shall, by resolution, provide for the levy of an annual tax, within the limits of the special voted tax hereinbefore authorized, sufficient to pay the amount of any such loan and the interest thereon to maturity as the same becomes due. A certified copy of this resolution shall be filed with the county auditors of the counties in which such merged area is located, and the filing thereof shall make it a duty of such auditors to enter annually this levy for collection until funds are realized to repay the loan and interest thereon in full. Said loan must mature within the number of years for which the tax has been voted and shall bear interest at a rate or rates not exceeding that permitted by chapter 74A. Any loan agree-

ment entered into pursuant to authority herein contained shall be in such form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voted tax hereinbefore authorized, or so much thereof as will be sufficient to pay the loan and interest thereon. In furtherance of the foregoing the board of directors of such merged area may, with or without notice, negotiate and enter into a loan agreement or agreements with any bank, investment banker, trust company, insurance company or group thereof, whereunder the borrowing of the necessary funds may be assured and consummated. The proceeds of such loan shall be deposited in a special fund, to be kept separate and apart from all other funds of the merged area, and shall be paid out upon warrants drawn by the president and secretary of the board of directors to pay the cost of acquiring the school facilities for which the tax was voted.

c. If the boundary lines of a merged area are changed, the levy of the annual tax provided in this section sufficient to pay the amount due for a loan agreement and the interest on the loan agreement to maturity shall continue in any territory severed from the merged area until the loan with interest on the loan has been paid in full.

d. Nothing herein contained shall be construed to limit the authority of the board of directors to levy the full amount of the voted tax, but if and to whatever extent said tax is levied in any year in excess of the amount of principal and interest falling due in such year under any loan agreement, the first available proceeds thereof, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the sinking fund for such loan before any of such taxes are otherwise made available to the merged area for other school purposes, and the amount required to be annually set aside to pay the principal of and interest on the money borrowed under such loan agreement shall constitute a first charge upon all of the proceeds of such annual special voted tax, which tax shall be pledged to pay said loan and the interest thereon.

e. This law shall be construed as supplemental and in addition to existing statutory authority and as providing an independent method of financing the cost of acquiring school facilities for which a tax has been voted under this section and for the borrowing of money and execution of loan agreements in connection therewith and shall not be construed as subject to the provisions of any other law. The fact that a merged area may have previously borrowed money and entered into loan agreements under authority herein contained shall not prevent such merged area from borrowing additional money and entering into further loan agreements provided that the aggregate of the amount payable under all of such loan agreements does not exceed the proceeds of the voted tax. All acts and proceedings heretofore taken by the board of directors or by any official of any merged area for the exercise of any of the powers granted by this section are hereby legalized and validated in all respects.

2. The proceeds of the tax voted under subsection 1, paragraph *"a"*, prior to July 1, 1987 shall be used for the purposes for which it was approved by the voters and may be used for the purpose of paying the costs of utilities.

3. In addition to the tax authorized under section 280A.17, the board of directors of an area school may certify for levy by March 15, 1982 and March 15, 1983, a tax on taxable property in the merged area at rates that will provide total revenues for the two years equal to five percent of the area school's general fund expenditures for the fiscal year ending June 30, 1980 in order to provide a cash reserve for that area school. As nearly as possible, one-half the revenue for the cash reserve fund shall be collected during each year.

The revenues derived from the levies shall be placed in a separate cash reserve fund. Moneys from the cash reserve fund shall only be used to alleviate temporary cash shortages. If moneys from the cash reserve fund are used to alleviate a temporary cash shortage, the cash reserve fund shall be reimbursed immediately from the general fund of the community college as funds in the general fund become available, but in no case later than June 30 of the current fiscal year, to repay the funds taken from the cash reserve fund.

280A.22B Duties of state board.

The state board for community colleges shall:

1. Adopt and establish policies for programs and services of the department which relate to community colleges.

2. Prescribe standards and procedures for the approval of practitioner preparation programs and professional development programs under section 256.7, subsection 3.

NEW section

280A.23 Authority of directors.

The board of directors of each community college shall:

1. Determine the curriculum to be offered in a college subject to approval of the state board. If a community college's curriculum does not include courses in arts and sciences, the board must seek and obtain approval of the state board before the college may expand the curriculum to include those courses. If the community college's curriculum does not include support services to provide educational access to programs for students with special education needs, the board, in compliance with state board policies for providing services to special needs students, shall make an assessment of the need for special support services in the college and develop a plan to meet those identified needs. If an existing private educational or vocational institution within the merged area has facilities and curriculum of adequate size and quality which would duplicate the functions of the community college, the board of directors shall discuss with the institution the possibility of entering into contracts to have the existing institution offer facilities and curriculum to students of the merged area. The board of directors shall consider any proposals submitted by the private institution for providing such facilities and curriculum. The board of directors may enter into such contracts. In approving curriculum, the state board shall ascertain that all courses and programs submitted for approval are needed and that the curriculum being offered by a community college does not duplicate programs provided by existing public or private facilities in the area. In determining whether a course or program is needed, the board of directors shall assess both the needs of the population of the area served and any special needs of the student population of the particular community college. The state board shall monitor the process and outcomes of services for special populations. In determining whether duplication would actually exist, the state board shall consider the needs of the area and consider whether the proposed programs are competitive as to size, quality, tuition, purposes, and area coverage with existing public and private educational or vocational institutions within the merged area.

2. Have authority to determine tuition rates for instruction. Tuition for residents of Iowa shall not exceed the lowest tuition rate per semester, or the equivalent, charged by an institution of higher education under the state board of regents for a full-time resident student. However, except for students enrolled under chapter 261C, if a local school district pays tuition for a resident pupil of high school age, the limitation on tuition for residents of Iowa shall not apply, the amount of tuition shall be determined by the board of directors of the community college with the consent of the local school board, and the pupil shall not be included in the full-time equivalent enrollment of the community college for the purpose of computing general aid to the community college. Tuition for nonresidents of Iowa shall not be less than the marginal cost of instruction of a student attending the college. A lower tuition for nonresidents may be permitted under a reciprocal tuition agreement between a merged area and an educational institution in another state, if the agreement is approved by the state board. The board may designate that a portion of the tuition moneys collected from students be used for student aid purposes.

3. Have the powers and duties with respect to community colleges, not otherwise provided in this chapter, which are prescribed for boards of directors of local school districts by chapter 279 except that the board of directors is not required to prohibit the use of tobacco and the use or possession of alcoholic liquor or beer by any student of legal age under the provisions of section 279.9.

4. Have the power to enter into contracts and take other necessary action to insure a sufficient curriculum and efficient operation and management of the college and maintain and protect the physical plant, equipment, and other property of the college.

5. Establish policy and make rules, not inconsistent with law and administrative rules, regulations, and policies of the state board, for its own government and that of the administrative, teaching, and other personnel, and the students of the college, and aid in the enforcement of such laws, rules, and regulations.

6. Have authority to sell a student-constructed building and the property on which the student-constructed building is located or any article resulting from any vocational program or course offered at a community college by any procedure which may be adopted by the board. Governmental agencies and governmental subdivisions of the state within the merged areas shall be given preference in the purchase of such articles. All revenue received from the sale of any article shall be credited to the funds of the board of the merged area.

7. With the consent of the inventor, and in the discretion of the board, secure letters patent or copyright on inventions of students, instructors, and officials of any community college of the merged area, or take assignment of such letters patent or copyright and make all necessary expenditures in regard thereto. Letters patent or copyright on inventions when so secured shall be the property of the board of the merged area and the royalties and earnings thereon shall be credited to the funds of the board.

8. Set the salary of the area superintendent. In setting the salary, the board shall consider the salaries of administrators of educational institutions in the merged area and the enrollment of the community college.

9. At the request of an employee through contractual agreement the board may arrange for the purchase of group or individual annuity contracts for any of its employees from any company the employee chooses that is authorized to do business in this state and through an Iowa-licensed insurance agent that the employee selects, for retirement or other purposes, and may make payroll deductions in accordance with the arrangements for the purpose of paying the entire premium due and to become due under the contract. The deductions shall be made in the

manner which will qualify the annuity premiums for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. The employee's rights under the annuity contract are nonforfeitable except for the failure to pay premiums. If an existing tax-sheltered annuity contract is to be replaced by a new contract the agent or representative of the company shall submit a letter of intent by registered mail to the company being replaced, to the insurance commissioner of the state of Iowa, and to the agent's or representative's own company at least thirty days prior to any action. This letter of intent shall contain the policy number and description of the contract being replaced and a description of the replacement contract.

10. Make necessary rules to provide for the policing, control, and regulation of traffic and parking of vehicles and bicycles on the property of the community college. The rules may provide for the use of institutional roads, driveways, and grounds; registration of vehicles and bicycles; the designation of parking areas; the erection and maintenance of signs designating prohibitions or restrictions; the installation and maintenance of parking control devices except parking meters; and assessment, enforcement, and collection of reasonable penalties for the violation of the rules.

Rules made under this subsection may be enforced under procedures adopted by the board of directors. Penalties may be imposed upon students, faculty, and staff for violation of the rules, including, but not limited to, a reasonable monetary penalty which may be deducted from student deposits and faculty or staff salaries or other funds in possession of the community college or added to student tuition bills. The rules made under this subsection may also be enforced by the impoundment of vehicles and bicycles parked in violation of the rules, and a reasonable fee may be charged for the cost of impoundment and storage prior to the release of the vehicle or bicycle to the owner. Each community college shall establish procedures for the determination of controversies in connection with the imposition of penalties. The procedures shall require giving notice of the violation and the penalty prescribed and providing the opportunity for an administrative hearing.

11. Be authorized to issue to employees of community colleges school credit cards to use for payment of authorized expenditures incurred in the performance of work-related duties.

12. During the second week of August of each year, publish by one insertion in at least one newspaper published in the merged area a summarized statement verified by affidavit of the secretary of the board showing the receipts and disbursements of all funds of the community college for the preceding fiscal year. The statement of disbursements shall show the names of the persons, firms, or corporations, and the total amount paid to each during the fiscal year. The board is not required to make the publications and notices required under sections 279.34, 279.35, and 279.36.

13. Adopt policies and procedures for the use of telecommunications as an instructional tool at the community college. The policies and procedures shall include but not be limited to policies and procedures relating to programs, educational policy, practices, staff development, use of pilot projects, and the instructional application of the technology.

14. In its discretion, adopt rules relating to the classification of students enrolled in the community college who are residents of Iowa's sister states as residents or nonresidents for tuition and fee purposes.

15. By July 1, 1991, develop a policy which requires oral communication competence of persons who provide instruction to students attending institutions under the control of the board. The policy shall include a student evaluation mechanism which requires student evaluation of persons providing instruction at the end of each academic period.

16. By July 1, 1991, develop a policy relating to the teaching proficiency of teaching assistants which provides a teaching proficiency standard, instructional assistance to, and evaluation of persons who provide instruction to students at the higher education institutions under the control of the board.

17. Commencing July 1, 1994, provide for an alternative retirement benefits system, which is issued by or through a nonprofit corporation issuing retirement annuities exclusively to educational institutions and their employees, for persons employed by the community college who are members of the Iowa public employees' retirement system on July 1, 1994, or who are new employees, and who elect coverage under the alternative retirement benefits system pursuant to section 97B.42, in lieu of continuing or commencing contributions to the Iowa public employees' retirement system. The system for employee and employer contributions under the alternative system shall be substantially the same as provided by the state board of regents under the teachers insurance annuity association-college retirement equities fund, and the employer's contribution shall not exceed the employer's contribution rate established for employees of the state board of regents who are under that system.

18. Provide for an alternative retirement benefits system, which is issued by or through a nonprofit corporation issuing retirement annuities exclusively to educational institutions and their employees, for persons newly employed after July 1, 1990, who are already members of the alternative system and who elect coverage under that system pursuant to section 97B.42, in lieu of coverage under the Iowa public employees' retirement system. The system for employee and employer contributions under the alternative system shall be substantially the same as provided by the state board of regents under the teachers insurance annuity association-college retirement equities fund, and the employer's contribution rate shall not exceed the employer's contribution rate established for employees of the state board of regents who are under that system.

2. Change boundaries of director districts in a merged area when the board fails to change boundaries as required by law.

3. Make changes in boundaries of merged areas with the approval of the board of directors of each merged area affected by the change. When the boundaries of a merged area are changed, the director of the department of education may authorize the board of directors of the merged area to levy additional taxes upon the property within the merged area, or any part of the merged area, and distribute the taxes so that all parts of the merged area are paying their share toward the support of the college.

280A.33 Joint action with board of regents.

1. Approval standards, except as hereinafter provided, for community colleges shall be initiated by the community colleges division of the department and submitted to the state board of education and the state board of regents, through the director of the department of education, for joint consideration and adoption.

2. Approval standards for vocational programs and other programs offered by community colleges shall be initiated by the community colleges division and submitted to the state board of education through the director of the department of education, for consideration and adoption. A proposed approval standard shall not be adopted by the state board until the standard has been submitted to the advisory committee created by chapter 258 and its recommendations obtained.

3. For purposes of this section, *"approval standards"* shall include standards for administration, qualifications and assignment of personnel, curriculum, facilities and sites, requirements for awarding of diplomas and other evidence of educational achievement, guidance and counseling, support services for students with special needs, instruction, instructional materials, maintenance, and library.

4. Approval standards are subject to chapter 17A. In addition, approval standards shall be reported by the director of the department of education to the general assembly within twenty days after the commencement of a regular legislative session. A community college shall not be removed from the approved list for failure to comply with the approval standards until at least one hundred twenty days have elapsed following the reporting of the standards to the general assembly as provided in this section.

5. The department of education shall supervise and evaluate the educational program in the several community colleges of the state for the purpose of the improvement and approval of such institutions.

6. The director of the department of education shall make recommendations and suggestions in writing to each community college if the department determines, after due investigation, that deficiencies exist.

7. The director of the department of education shall maintain a list of approved community colleges, and the director shall remove from the approved list for cause, after due investigation and notice, a community college which fails to comply with the approval standards. A community college which is removed from the approved list pursuant to this section is ineligible to receive state financial aid during the period of removal. The director shall allow a reasonable period of time, which shall be at least one year, for compliance with approval standards if a community college is making a good faith effort and substantial progress toward full compliance or if failure to comply is due to factors beyond the control of the board of directors of the merged area operating the institution. In allowing time for compliance, the director shall follow consistent policies, taking into account the circumstances of each case. The reasonable period of time for compliance may be, but need not be, given prior to the one-year notice requirement that is provided in this section.

8. The director of the department of education shall give a community college which is to be removed from the approved list at least one year's notice. The notice shall be given by registered or certified mail addressed to the superintendent of the community college and shall specify the reasons for removal. The notice shall also be sent by ordinary mail to each member of the board of directors of the community college, and to the news media which serve the merged area where the school is located; but any good faith error or failure to comply with this sentence shall not affect the validity of any action by the director. If, during the year, the community college remedies the reasons for removal and satisfies the director that it will thereafter comply with the laws and approval standards, the director shall continue the community college on the approved list and shall transmit to the community college notice of the action by registered or certified mail.

9. At any time during the year after notice is given, the board of directors of the community college may request a public hearing before the director of the department of education, by mailing a written request to the director by registered or certified mail. The director shall promptly set a time and place for

the public hearing, which shall be either in Des Moines or in the affected merged area. 10. At the hearing the community college may be represented by counsel and may present evidence. The director of the department of education may provide for the hearing to be recorded or reported. If requested by the community college at least ten days before the hearing, the director shall provide for the hearing to be recorded or reported at the expense of the community college, using any reasonable method specified by the community college. Within ten days after the hearing, the director shall render a written decision, and shall affirm, modify, or vacate the action or proposed action to remove the community college from the approved list. The board of directors of the community college may request a review of the decision of the director by the state board. The state board may affirm, modify, or vacate the decision, or may direct a rehearing before the director.

280A.47 Accreditation of community college programs.

1. The state board of education shall establish an accreditation process for community college programs. By July 1, 1993, all community colleges shall meet the standards for accreditation. For the school year commencing July 1, 1994, and in succeeding school years, the department of education shall use a two component process for the continued accreditation of community college programs.

a. The first component consists of annual monitoring by the department of education of all community colleges for compliance with program accreditation standards adopted by the state board. The first component monitoring requires community colleges to submit to an annual audit of college programs by the department of education beginning July 1, 1993.

b. The second component consists of the use of an accreditation team appointed by the director of the department of education, to conduct on-site vis-

its to three different community colleges per year. The number and composition of the accreditation team shall be determined by the director, but the team shall include members of the department of education staff and members of community college staff from community colleges other than the community college which conducts the programs being evaluated for accreditation.

c. Rules adopted by the state board shall include provisions for coordination of the accreditation process under this section with activities of accreditation associations, which are designed to avoid duplication in the accreditation process.

2. Prior to a visit to a community college, members of the accreditation team shall have access to the program audit report filed with the department for that community college. After a visit to a community college, the accreditation team shall determine whether the accreditation standards for a program have been met and shall make a report to the director and the state board, together with a recommendation as to whether the program of the community college should remain accredited. The accreditation team shall report strengths and weaknesses, if any, for each program standard and shall advise the community college of available resources and technical assistance to further enhance strengths and improve areas of weakness. A community college may respond to the accreditation team's report.

3. The state board shall determine whether a program of a community college shall remain accredited. If the state board determines that a program of a community college does not meet accreditation standards, the director of the department of education, in cooperation with the board of directors of the community college, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the program standards, and shall establish a deadline date for correction of the deficiencies. The deadline for correction of deficiencies under a plan shall be no later than June 30 of the year following the on-site visit of the accreditation team. The plan is subject to approval of the state board. Plans shall include components which address meeting program deficiencies, sharing or merger options, discontinuance of specific programs or courses of study, and any other options proposed by the state board or the accreditation team to allow the college to meet the program standards.

4. During the time specified in the plan for its implementation, the community college program remains accredited. The accreditation team shall revisit the community college and shall determine whether the deficiencies in the standards for the program have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies in the program have been corrected.

5. If the deficiencies have not been corrected in a program of a community college, the community college board shall take one of the following actions within sixty days from removal of accreditation:

a. Merge the deficient program or programs with a program or programs from another accredited community college.

b. Contract with another educational institution for purposes of program delivery at the community college.

c. Discontinue the program or programs which have been identified as deficient.

6. The director of the department of education shall give a community college which has a program which fails to meet accreditation standards at least one year's notice prior to removal of accreditation of the program. The notice shall be given by certified mail or restricted certified mail addressed to the superintendent of the community college and shall specify the reasons for removal of accreditation of the program. The notice shall also be sent by ordinary mail to each member of the board of directors of the community college. Any good faith error or failure to comply with the notice requirements shall not affect the validity of any action by the director. If, during the year, the community college remedies the reasons for removal of accreditation of the program and satisfies the director that the community college will comply with the accreditation standards for that program in the future, the director shall continue the accreditation of the program of the community college and shall transmit notice of the action to the community college by certified mail or restricted certified mail.

7. The action of the director to remove a community college's accreditation of the program may be appealed to the state board. At the hearing, the community college may be represented by counsel and may present evidence. The state board may provide for the hearing to be recorded or reported. If requested by the community college at least ten days before the hearing, the state board shall provide for the hearing to be recorded or reported at the expense of the community college, using any reasonable method specified by the community college. Within ten days after the hearing, the state board shall render a written decision, and shall affirm, modify, or vacate the action or proposed action to remove the college's accreditation of the program. Action by the state board is final agency action for purposes of chapter 17A.

b. The institutional outcomes. This may include, but is not limited to, measures of student academic achievement, student development, placement, occupational success, faculty accomplishments, and the results of service initiatives to special constituencies. This shall include an annual report on the number of students with disabilities who apply, who are enrolled, and who complete programs offered at each community college.

c. Standards for administration, qualifications and assignment of faculty and staff, curriculum, requirements for awarding of diplomas, certificates, and associate degrees, guidance and counseling, support services for students with special education needs, instruction, instructional materials, and library.

Standards developed shall include a provision that the standard academic work load for an instructor in arts and science courses shall be fifteen credit hours per school term, and the maximum academic work load for any instructor shall be sixteen credit hours per school term, for classes taught during the normal school day. In addition thereto, any faculty member may teach a course or courses at times other than the regular school week, involving total class instruction time equivalent to not more than a three-credit-hour course. The total work load for such instructors shall not exceed the equivalent of eighteen credit hours per school term.

Standards developed shall include provisions requiring equal access in recruitment, enrollment, and placement activities for students with special education needs. The provisions shall include a requirement that students with special education needs shall receive instruction in the least restrictive environment with access to the full range of program offerings at a college, through, but not limited to, adaptation of curriculum, instruction, equipment, facilities, career guidance, and counseling services.

Moneys appropriated by the general assembly to the department of education

for the purpose of the staff development program shall be paid to community colleges upon approval by the department of education of an application submitted by a community college. 280B.3 Agreement.

A community college may enter into an agreement to establish a project. If an agreement is entered into, the community college and the employer shall notify the department of revenue and finance as soon as possible. An agreement may provide, but is not limited to:

1. Program costs, including deferred costs, may be paid from one or a combination of the following sources:

a. Incremental property taxes to be received or derived from an employer's business property where new jobs are created as a result of the project.

c. Tuition, student fees, or special charges fixed by the board of directors to defray program costs in whole or in part.

d. Guarantee of payments to be received under paragraph *"a," "b,"* or *"c"*.

2. Payment of program costs shall not be deferred for a period longer than ten years from the date of commencement of the project.

3. Costs of on-the-job training for employees shall not exceed fifty percent of the annual gross payroll costs for up to one year of the new jobs. For purposes of this subsection, "gross payroll" can be the gross wages, salaries, and benefits for the jobs in training in the project.

4. A provision which fixes the minimum amount of incremental property taxes, new jobs credit from withholding, or tuition and fee payments which shall be paid for program costs.

5. Any payments required to be made by an employer are a lien upon the employer's business property until paid and have equal precedence with ordinary taxes and shall not be divested by a judicial sale. Property subject to the lien may be sold for sums due and delinquent at a tax sale, with the same forfeitures, penalties, and consequences as for the nonpayment of ordinary taxes. The purchaser at tax sale obtains the property subject to the remaining payments.

Unnumbered paragraph 1 amended

280B.4 Incremental property taxes.

If an agreement provides that all or part of program costs are to be paid for by incremental property taxes, the board of directors shall provide by resolution that taxes levied on the employer's taxable business property, where new jobs are created as a result of a project, each year by or for the benefit of the state, city, county, school district, or other taxing district after the effective date of the resolution shall be divided as provided in section 403.19, subsections 1 and 2, in the same manner as if the employer's business property, where new jobs are created as a result of a project, was taxable property in an urban renewal project and the resolution was an ordinance within the meaning of those subsections. The taxes received by the board of directors shall be allocated to and when collected be paid into a special fund of the community college and may be irrevocably pledged by the community college to pay the principal of and interest on the certificates issued by the community college to finance or refinance, in whole or in part, the project. However, with respect to any urban renewal project as to which an ordinance is in effect under section 403.19, the collection of incremental property taxes authorized by this chapter are suspended in favor of collection of incremental taxes under section 403.19. As used in this section, *"taxes"* includes, but is not limited to, all levies on an ad valorem basis upon land or real property of the employer's business, where new jobs are created as a result of a project.

Section amended

280B.5 New jobs credit from withholding.

If an agreement provides that all or part of program costs are to be met by receipt of new jobs credit from withholding, it shall be done as follows:

1. New jobs credit from withholding shall be based upon the wages paid to the employees in the new jobs.

2. An amount equal to one and one-half percent of the gross wages paid by the employer to each employee participating in a project shall be credited from the payment made by an employer pursuant to section 422.16. If the amount of the withholding by the employer is less than one and one-half percent of the gross wages paid to the employees covered by the agreement, then the employer shall receive a credit against other withholding taxes due by the employer. The employer shall remit the amount of the credit quarterly in the same manner as withholding payments are reported to the department of revenue and finance, to the community college to be allocated to and when collected paid into a special fund of the community college to pay the principal of and interest on certificates issued by the community college to finance or refinance, in whole or in part, the project. When the principal and interest on the certificates have been paid, the employer credits shall cease and any money received after the certificates have been paid shall be remitted to the treasurer of state to be deposited in the general fund of the state.

3. The new jobs credit from withholding and the special fund into which it is paid, may be irrevocably pledged by a community college for the payment of the principal of and interest on the certificate issued by a community college to finance or refinance, in whole or in part, the project.

4. The employer shall certify to the department of revenue and finance that the credit in withholding is in accordance with an agreement and shall provide other information the department may require.

5. A community college shall certify to the department of revenue and finance the amount of new jobs credit from withholding an employer has remitted to the special fund and shall provide other information the department may require.

6. An employee participating in a project will receive full credit for the amount withheld as provided in section 422.16.

280B.6 Certificates.

To provide funds for the present payment of the costs of new jobs training programs, a community college may borrow money and issue and sell certificates payable from a sufficient portion of the future receipts of payments authorized by the agreement. The receipts shall be pledged to the payment of principal of and interest on the certificates.

1. Certificates may be sold at public sale or at private sale at par, premium, or discount at the discretion of the board of directors. Chapter 75 does not apply to the issuance of these certificates.

2. Certificates may be issued with respect to a single project or multiple projects and may contain terms or conditions as the board of directors may provide by resolution authorizing the issuance of the certificates.

3. Certificates issued to refund other certificates may be sold at public sale or at private sale as provided in this section with the proceeds from the sale to be used for the payment of the certificates being refunded. The refunding certificates may be exchanged in payment and discharge of the certificates being refunded, in installments at different times or an entire issue or series at one time. Refunding certificates may be sold or exchanged at any time on, before, or after the maturity of the outstanding certificates to be refunded, may be issued for the purpose of refunding a like, greater, or lesser principal amount of certificates and may bear a higher, lower, or equivalent rate of interest than the certificates being renewed or refunded.

4. To further secure the payment of the certificates, the board of directors shall, by resolution, provide for the assessment of an annual levy of a standby tax upon all taxable property within the merged area. A copy of the resolution shall be sent to the county auditor of each county in which the merged area is located. The revenues from the standby tax shall be deposited in a special fund and shall be expended only for the payment of principal of and interest on the certificates issued as provided in this section, when the receipt of payment for program costs as provided in the agreement is insufficient. If payments are necessary and made from the special fund, the amount of the payments shall be promptly repaid into the special fund from the first available payments received for program costs as provided in the agreement which are not required for the payment of principal of or interest on certificates due. No reserves may be built up in this fund in anticipation of a projected default. The board of directors shall adjust the annual standby tax levy for each year to reflect the amount of revenues in the special fund and the amount of principal and interest which is due in that year.

5. Before certificates are issued, the board of directors shall publish once a notice of its intention to issue the certificates, stating the amount, the purpose, and the project or projects for which the certificates are to be issued. A person may, within fifteen days after the publication of the notice by action in the district court of a county in the area within which the community college is located, appeal the decision of the board of directors in proposing to issue the certificates. The action of the board of directors in determining to issue the certificates is final and conclusive unless the district court finds that the board of directors has exceeded its legal authority. An action shall not be brought which questions the legality of the certificates, the power of the board of directors to issue the certificates, the effectiveness of any proceedings relating to the authorization of the project, or the authorization and issuance of the certificates from and after fifteen days from the publication of the notice of intention to issue.

6. The board of directors shall determine if revenues are sufficient to secure the faithful performance of obligations in the agreement.

280C.3 Agreement.

A community college may enter into an agreement to establish a project. However, before a community college and a small business enter into an agreement to establish a project, the community college shall consult with the local office of the division of job ser-

vice of the department of employment services to determine if there already exists in the community, a skilled or experienced group of unemployed workers, as a result of a plant closing or reduction in force, sufficiently large to supply the needs of the new or expanding small business. If an agreement is entered into, the community college and the employer shall notify the department of revenue and finance as soon as possible. An agreement may provide, but is not limited to:

1. Program costs, including deferred costs, may be paid from one or a combination of the following sources:

If an agreement provides that all or part of program costs are to be paid for by incremental property taxes, the board of directors shall provide by resolution that taxes levied on the employer's taxable business property, where new jobs are created as a result of a project, each year by or for the benefit of the state, city, county, school district, or other taxing district after the effective date of the resolution shall be divided as provided in section 403.19, subsections 1 and 2, in the same manner as if the employer's business property, where new jobs are created as a result of a project, was taxable property in an urban renewal project and the resolution was an ordinance within the meaning of those subsections. To the extent that the taxes received by the board of directors represent repayments of an advance made under section 280C.6 plus interest, the taxes shall be paid to the treasurer of state. However, with respect to any urban renewal project as to which an ordinance is in effect under section 403.19, the collection of incremental property taxes authorized by this chapter are suspended in favor of collection of incremental taxes under section 403.19. As used in this section, "taxes" includes, but is not limited to, all levies on an ad valorem basis upon land or real property of the employer's business, where new jobs are created as a result of a project.

280C.5 New jobs credit from withholding.

If an agreement provides that all or part of program costs are to be met by receipt of new jobs credit from withholding, it shall be done as follows:

1. New jobs credit from withholding shall be based upon the wages paid to the employees in the new jobs.

2. An amount equal to one and one-half percent of the gross wages paid by the employer to each employee participating in a project shall be credited from the payment made by an employer pursuant to section 422.16. If the amount of the withholding by the employer is less than one and one-half percent of the gross wages paid to the employees covered by the agreement, then the employer shall receive a credit against other withholding taxes due by the employer. The employer shall remit the amount of the credit quarterly in the same manner as withholding payments are reported to the department of revenue and finance, to the community college. To the extent this credit represents repayments of an advance made under section 280C.6 plus interest, it shall be paid to the treasurer of state. When the repayments of an advance plus interest have been paid, the employer credits shall cease and any money received after this shall be remitted to the treasurer of state to be deposited in the general fund of the state.

3. The employer shall certify to the department of revenue and finance that the credit in withholding is in accordance with an agreement and shall provide other information the department may require.

4. A community college shall certify to the department of revenue and finance the amount of new jobs credit from withholding an employer has remitted to the community college and shall provide other information the department may require.

5. An employee participating in a project will receive full credit for the amount withheld as provided in section 422.16.

280C.6 Job training fund.

1. There is established for the community colleges a community college job training fund under the supervision of the treasurer of state. The community college job training fund consists of two separate accounts containing moneys as follows:

a. A permanent school fund repayment account to which shall be credited the interest and principal from repayment of loans originating from the permanent school fund appropriation in section 280C.8, made to employers for program costs, and interest earned from moneys in the account. Moneys in this account shall be used to repay the appropriation from the permanent school fund. At the end of each calendar quarter, the treasurer of state shall transfer the moneys in the account to the permanent school fund as repayment of the loan from the permanent school fund. If there are moneys in the permanent school fund repayment account after the permanent school fund loan has been fully repaid, those moneys shall be transferred to the revolving loan account provided in paragraph *"b"*.

b. A revolving loan account to which shall be credited moneys appropriated for the fiscal year beginning July 1, 1987, and for succeeding fiscal years for the purposes of this chapter plus the interest and principal from repayment of advances made to employers for program costs and interest earned from moneys in the revolving loan account. Moneys in this account shall be used to provide advances to employers for program costs upon request of boards of directors of the community colleges. Beginning July 1, 1995, the Iowa department of economic development shall reserve a portion of the moneys in the revolving loan account to pay a portion of the original one million dollar appropriation in section 280C.8 which, based upon projections of the state treasurer, may still be owed to the permanent school fund on June 30, 1996. The department shall reserve a portion of the moneys in the revolving loan account only if the moneys in the permanent school fund repayment account created in paragraph *"a"* are insufficient to repay the loan from the permanent school fund.

2. To provide funds for the present payment of the costs of a new jobs training program by the employer, the community college may provide to the employer an advance of the moneys to be used to pay for the program costs as provided in the agreement. To receive the funds for this advance from the revolving loan account, the community college shall submit an application to the department of economic development. The amount of the advance shall not exceed fifty thousand dollars for any project. The advance shall be repaid with interest from the sources provided in the agreement. The rate of interest to be charged for advances made in a calendar month is equal to one half of the average rate of interest on tax exempt certificates issued by community colleges pursuant to chapter 280B for the previous twelve months. The rate shall be computed by the Iowa department of economic development.

The money appropriated under this section is a loan from the permanent school fund to the community college job training fund. The interest on the loan shall be prepaid for a three-year period from funds appropriated by this section. The rate of interest shall be determined by the treasurer of state.

At the end of each calendar quarter the treasurer of state shall transfer moneys to repay the amount of the loan from the permanent school fund from the moneys in the permanent school fund repayment account created in section 280C.6, subsection 1, paragraph *"a"*.

There is created within the department of education a division of special education for the promotion, direction, and supervision of education for children requiring special education in the schools under the supervision and control of the department. The director of the department of education may organize the division and employ the necessary qualified personnel to implement this chapter.

85 Acts, ch 212, §22; 86 Acts, ch 1245, §1476

281.2 Definitions — policies — funds.

1. *"Children requiring special education"* means persons under twenty-one years of age, including children under five years of age, who are handicapped in obtaining an education because of physical, mental, communication or learning disabilities or who are behaviorally disordered, as defined by the rules of the department of education.

2. *"Special education"* means classroom, home, hospital, institutional, or other instruction designed to meet the needs of children requiring special education as defined in subsection 1; transportation and corrective and supporting services required to assist children requiring special education, as defined in subsection 1, in taking advantage of, or responding to, educational programs and opportunities, as defined by rules of the state board of education.

3. It is the policy of this state to require school districts and state operated educational programs to provide or make provision, as an integral part of public education, for a free and appropriate public education sufficient to meet the needs of all children requiring special education. This chapter is not to be construed as encouraging separate facilities or segregated programs designed to meet the needs of children requiring special education when the children can benefit from all or part of the education program as offered by the local school district. To the maximum extent possible, children requiring special education shall attend regular classes and shall be educated with children who do not require special education. Whenever possible, hindrances to learning and to the normal functioning of children requiring special education within the regular school environment shall be overcome by the provision of special aids and services rather than by separate programs for those in need of special education. Special classes, separate schooling or other removal of children requiring special education from the regular educational environment, shall occur only when, and to the extent that the nature or severity of the educational handicap is such that education in regular classes, even with the use of supplementary aids and services, cannot be accomplished satisfactorily. For those children who cannot adapt to the regular educational or home living conditions, and who are attending facilities under chapters 263, 269 and 270, upon the request of the board of directors of an area education agency, the department of human services shall provide residential or detention facilities and the area education agency shall provide special education programs and services. The area education agencies shall co-operate with the board of regents to provide the services required by this Act.*

Special aids and services shall be provided to children requiring special education who are less than five years of age if the aids and services will reasonably permit the child to enter the educational process or school environment when the child attains school age.

Every child requiring special education shall, if reasonably possible, receive a level of education commensurate with the level provided each child who does not require special education. The cost of providing such an education shall be paid as provided in section 273.9, this chapter and chapter 442.** It shall be the primary responsibility of each school district to provide special education to children who reside

in that district if the children requiring special education are properly identified, the educational program or service has been approved, the teacher or instructor has been licensed, the number of children requiring special education needing that educational program or service is sufficient to make offering the program or service feasible, and the program or service cannot more economically and equably be obtained from the area education agency, another school district, another group of school districts, a qualified private agency, or in co-operation with one or more other districts.

4. Moneys received by the school district of the child's residence for the child's education, derived from moneys received through chapter 257, this chapter, and section 273.9 shall be paid by the school district of the child's residence to the appropriate education agency, private agency, or other school district providing special education for the child pursuant to contractual arrangements as provided in section 273.3, subsections 5 and 7.

7. To initiate the establishment of classes for children requiring special education or home study services in hospitals, nursing, convalescent, juvenile and private homes, in co-operation with the management thereof and local school districts or area education agency boards.

8. 9. To co-operate with existing agencies such as the department of human services, the Iowa department of public health, the state school for the deaf, the Iowa braille and sight saving school, the state tuberculosis sanatorium, the children's hospitals, or other agencies concerned with the welfare and health of children requiring special education in the coordination of their educational activities for such children.

10. To investigate and study the needs, methods and costs of special education for children requiring special education.

281.4 Powers of board of directors.

The board of directors of a school district or area education agency, with the approval of the director of the department of education, may provide special education programs and services as defined in this chapter. If services are provided by the area education agency the board of directors of the area education agency with the co-operation of the local school districts within its jurisdiction may:

1. Establish and operate special education programs and classes for the education of children requiring special education.

2. Acquire, maintain, and construct facilities in which to provide education, corrective services, and supportive services for children requiring special education.

3. Make arrangements with participating school districts for the provision of special education, corrective, and supportive services to the children requiring special education residing in the school districts.

4. Employ special education teachers and personnel required to furnish corrective or supportive services to children requiring special education services.

5. Provide transportation for children requiring special education services that are in need of transportation in connection with any programs, classes or services.

7. Receive, administer and expend the proceeds of any issue of school bonds or other bonds intended wholly or partly for its benefit.

8. Apply for, accept, and utilize grants, gifts or other assistance.

9. Participate in, and make its employees eligible to participate in, any retirement system, group insurance system, or other program of employee benefits, on the same terms as govern school districts and their employees.

10. Do such other things as are necessary and incidental to the execution of any of its powers.

The board of directors of the local district or the area education agency shall employ qualified teachers certified by the authority provided by law as teachers for children requiring such special education. The maximum number of pupils per teacher shall be determined by the board of directors of the local district or the area education agency board in accordance with the rules and regulations of the state board of education.

The board of directors of the local district or the area education agency may establish and operate one or more special education centers to provide diagnostic, therapeutic, corrective, and other services, on a more comprehensive, expert, economical, and efficient basis than can be reasonably provided by a single school district. The services, if offered by the area education agency board, may be provided in the regular schools using personnel and equipment of the area education agency or, if it is impractical or inefficient to provide them on the premises of a regular school, the area education agency may provide services in its own facilities. To the maximum extent feasible, centers shall be established at and in conjunction with, or in close proximity to one or more elementary and secondary schools. Local districts or the area education agencies may accept diagnostic and evaluation studies conducted by other individuals, hospitals, or centers, if determined to be competent. Children requiring special education services may be identified in any way that the department of education determines to be reliable. Centers established pursuant to this section may contain classrooms and other educational facilities and equipment to supplement instruction and other services to handicapped children in the regular schools, and to provide separate instruction to children whose degree or type of educational handicap makes it impractical or inappropriate for them to participate in classes with normal children.

281.6 Parent's or guardian's duties — review.

When the school district or area education agency has provided special education services and programs as provided herein for any child requiring special education, either by admission to a special class or by supportive services, it shall be the duty of the parent or guardian to enroll said child for instruction in such special classes or supportive services as may be established, except in the event a doctor's certificate is filed with the secretary of the school district showing that it is inadvisable for medical reasons for the child requiring special education to receive the special education provided; all the provisions and conditions of chapter 299 and amendments thereto shall be applicable to this section, and any violations shall be punishable as provided in said chapter.

A child, or the parent or guardian of the child, or the school district in which the child resides, may obtain a review of an action or omission of state or local authorities pursuant to the procedures established by the state board of education on the ground that the child has been or is about to be:

1. Denied entry or continuance in a program of special education appropriate to the child's condition and needs.

2. Placed in a special education program which is inappropriate to the child's condition and needs.

3. Denied educational services because no suitable program of education or related services is maintained.

4. Provided with special education which is insufficient in quantity to satisfy the requirements of law.

5. Assigned to a program of special education when the child is not handicapped.

Notwithstanding section 17A.11, the state board

of education shall adopt rules for the appointment of an impartial administrative law judge for special education appeals. The rules shall comply with federal statutes and regulations.

In order to render proper instruction to each child requiring special education, the school districts shall certify children requiring special education for special instruction in accordance with the requirements set up by the division of special education and shall provide examinations for children preliminary to making certification. The examinations necessary for the certification of children requiring special education shall be prescribed by the state division of special education. Final decision in case of disagreement or appeal is the responsibility of the director of the department of education, who may secure the advice of competent medical and educational authorities including the Iowa department of public health, the university hospitals, the department of human services, the superintendent of the state school for the deaf, and the superintendent of the Iowa braille and sight saving school.

281.8 Exceptions.

It is not incumbent upon the school districts to keep a child requiring special education in regular instruction when the child cannot sufficiently profit from the work of the regular classroom, nor to keep a child requiring special education in the special class or instruction for children requiring special education when it is determined by the director of special education of an area education agency that the child can no longer benefit from the instruction or needs more specialized instruction available in special schools. However, the school district shall count the child requiring special education in the enrollment as provided in sections 257.6, 273.9, and 281.9 and shall ensure that appropriate educational provisions are made for the child requiring special education within the limits of moneys available under this chapter and chapters 257 and 273.

An area education agency director of special education may request approval from the department of education to continue the special education program of a person beyond the person's twenty-first birthday if the person had an accident or prolonged illness that resulted in delays in the initiation of or interruptions in that person's special education program. Approval may be granted by the department to continue the special education program of that person for up to three years or until the person's twenty-fourth birthday.

No provision of this chapter shall be construed to require or compel any person who is a member of a well-recognized church or religious denomination and whose religious convictions, in accordance with the tenets or principles of the person's church or religious denomination, are opposed to medical or surgical treatment for disease to take or follow a course of physical therapy, or submit to medical treatment, nor shall any parent or guardian who is a member of such church or religious denomination and who has such religious convictions be required to enroll a child in any course or instruction which utilizes medical or surgical treatment for disease.

281.9 Weighting plan — audits — evaluations — expenditures.

1. In order to provide funds for the excess costs of instruction of children requiring special education, above the costs of instruction of pupils in a regular curriculum, a special education weighting plan for determining enrollment in each school district is adopted as follows:

a. Pupils in a regular curriculum are assigned a weighting of one.

b. Children requiring special education who require special adaptations while assigned to a regular classroom for basic instructional purposes and handicapped pupils placed in a special education class who receive part of their instruction in regular classrooms are assigned a weighting of one and eight-tenths for the school year commencing July 1, 1975.

c. Children requiring special education who require full-time, self-contained special education placement with little integration into a regular classroom are assigned a weighting of two and two-tenths for the school year commencing July 1, 1975.

d. Children requiring special education who are severely handicapped or who have multiple handicaps are assigned a weighting of four and four-tenths for the school year commencing July 1, 1975.

e. Shared-time and part-time pupils of school age who require special education shall be placed in the proper category and counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils, carrying a normal course schedule, in the same school district, for the same school year are enrolled and receive instruction.

2. The weighting for each category of child multiplied by the number of children in each category in the enrollment of a school district, as identified and certified by the director of special education for the area, determines the weighted enrollment to be used in that district for purposes of computations required under the state school foundation plan in chapter 257.

3. The weight that a child is assigned under this section shall be dependent upon the required educa-

tional modifications necessary to meet the special education needs of the child. Enrollment for the purpose of this section, and all payments to be made pursuant thereto, includes all children for whom a special education program or course is to be provided pursuant to sections 273.1 to 273.9 and this chapter, whether or not the children are actually enrolled upon the records of a school district.

4. On December 1, 1987, and no later than December 1 every two years thereafter, for the school year commencing the following July 1, the director of the department of education shall report to the school budget review committee the average costs of providing instruction for children requiring special education in the categories of the weighting plan established under this section, and the director of the department of education shall make recommendations to the school budget review committee for needed alterations to make the weighting plan suitable for subsequent school years. The school budget review committee shall establish the weighting plan for each school year after the school year commencing July 1, 1987, and shall report the plan to the director of the department of education. Commencing December 1, 1990, the school budget review committee may establish weights to the nearest hundredth. The school budget review committee shall not alter the weighting assigned to pupils in a regular curriculum, but it may increase or decrease the weighting assigned to each category of children requiring special education by not more than two-tenths of the weighting assigned to pupils in a regular curriculum. The state board of education shall adopt rules under chapter 17A, to implement the weighting plan for each year and to assist in identification and proper indexing of each child in the state who requires special education.

5. The division of special education shall audit the reports required in section 273.5 to determine that all children in the area who have been identified as requiring special education have received the appropriate special education instructional and support services, and to verify the proper identification of pupils in the area who will require special education instructional services during the school year in which the report is filed. The division shall certify to the director of the department of management the correct total enrollment of each school district in the state, determined by applying the appropriate pupil weighting index to each child requiring special education, as certified by the directors of special education in each area.

6. The division may conduct an evaluation of the special education instructional program or special education support services being provided by an area education agency, school district, or private agency, pursuant to sections 273.1 to 273.9 and this chapter, to determine if the program or service is adequate and proper to meet the needs of the child; if the child is benefiting from the program or service; if the costs are in proportion to the educational benefits being received; and if there are any improvements that can be made in the program or service. A written report of the evaluation shall be sent to the area education agency, school district, or private agency evaluated and to the president of the senate and speaker of the house of representatives of the general assembly.

7. The costs of special education instructional programs include the costs of purchase of transportation equipment to meet the special needs of children requiring special education with the approval of the director of the department of education. The state board of education shall adopt rules under chapter 17A for the purchase of transportation equipment pursuant to this section.

8. Commencing with the school year beginning July 1, 1976, a school district may expend an amount not to exceed two-sevenths of an amount equal to the district cost of a school district for the costs of regular classroom instruction of a child certified under the special education weighting plan in subsection 1, paragraph *"b"*, as a handicapped pupil who is enrolled in a special class, but who receives part of the pupil's instruction in a regular classroom. Unencumbered funds generated for special education instructional programs for the school year beginning July 1, 1975 and for the school year beginning July 1, 1976 shall not be expended for such purpose.

9. Funds generated for special education instructional programs under this chapter and chapter 257 shall not be expended for modifications of school buildings to make them accessible to children requiring special education.

1. That there are sufficient children requiring special education within the area.

2. That the service or program will be provided by the most appropriate educational agency.

3. That the educational agency providing the service or program has employed qualified special educational personnel.

4. That the instruction is a natural and normal progression of a planned course of instruction.

5. That all revenue raised for support of special education instruction and services is expended for actual delivery of special education instruction or services.

281.15 Reimbursement for special education services.

1. The state board of education in conjunction with the department of education shall develop a program to utilize federally funded health care programs, except the federal medically needy program for individuals who have a spend-down, to share in the costs of services which are provided to children requiring special education.

2. The department of education shall designate an area education agency to develop a system for collecting the information necessary to implement procedures for billing and collecting the costs of the services. The area education agency shall begin to develop the system immediately. The area education agency shall consult with and work jointly with state agencies and federal agencies to determine procedures and standards which shall be initiated by all area education agencies to qualify for receipt of benefits under federal programs.

3. The department of education, in conjunction with the area education agency, shall determine those specific services which are covered by federally funded health care programs, which shall include, but not be limited to, physical therapy, audiology, speech language therapy, and psychological evaluations. The department shall also determine which other special services may be subject to reimbursement and the qualifications necessary for personnel providing those services. If it is determined that services are required from other service providers, these providers shall be reimbursed for those services.

4. All services referred to in subsection 1 shall be initially funded by the area education agency and shall be provided regardless of subsequent subrogation collections. The area education agency shall make a claim for reimbursement to federally funded health care programs.

5. Not later than July 1, 1988, the area education agency designated by the department of education shall have developed the program for collecting for the services provided. The program shall be distributed to all of the area education agencies in the state. All area education agencies shall begin collecting the information on July 1, 1988.

6. Effective November 1, 1988, all area education agencies in the state shall participate in the program and begin billing for and collecting for the covered services and shall bill for services provided retroactive to July 1, 1988. Retroactive Title XIX billing is contingent upon state plan approval. Nothing contained in this section shall be construed to allow nonlicensed individuals to perform services which otherwise require licenses under the laws of this state or to allow licensed providers to perform services outside their scope of practice.

7. All reimbursements received by the area education agencies for eligible services shall be paid annually to the treasurer of state. The treasurer of state shall credit all receipts received under this subsection to the general fund of the state.

8. Students or their parents or guardians covered by a federal health care program shall provide health care information to an area education agency or local school district.

9. The department of education and the department of human services shall adopt rules to implement this section to be effective immediately upon filing with the administrative rules coordinator, or at a stated date prior to indexing and publication, or at a stated date less than thirty-five days after filing, indexing, and publication.

282.1 School age — nonresidents.

Persons between five and twenty-one years of age are of school age. A board may establish and maintain evening schools for residents of the corporation regardless of age and for which no tuition need be charged. Nonresident children shall be charged the maximum tuition rate as determined in section 282.24, subsection 1, with the exception that those residing temporarily in a school corporation may attend school in the corporation upon terms prescribed by the board, and boards discontinuing grades under section 282.7, subsection 1 or subsections 1 and 3, shall be charged tuition as provided in section 282.24, subsection 2.

For purposes of this section, *"resident"* means a child who is physically present in a district, whose residence has not been established in another district by operation of law, and who meets any of the following conditions:

1. Is in the district for the purpose of making a home and not solely for school purposes.
2. Meets the definitional requirements of the term *"homeless individual"* under 42 U.S.C. § 11302(a) and (c).

282.3 Admission and exclusion of pupils.

1. The board may exclude from school children under the age of six years when in its judgment such children are not sufficiently mature to be benefited by regular instruction, or any child who is found to be physically or mentally unable to attend school under section 299.5, or whose presence in school has been found to be injurious to the health of other pupils, or is efficiently taught for the scholastic year at a state institution. However, the board shall provide special education programs and services under chapters 257, 273, and 281 for all children requiring special education.

2. The conditions of admission to public schools for work in the year immediately preceding the first grade and in the first grade shall be as follows:

A child under the age of six years on the fifteenth of September of the current school year shall not be admitted to a public school unless the board of directors of the school has adopted and put into effect courses of study for the school year immediately preceding the first grade, approved by the department of education, and has employed a practitioner or practitioners for this work with standards of training approved by the board of educational examiners.

No child shall be admitted to school work for the year immediately preceding the first grade unless the child is five years of age on or before the fifteenth of September of the current school year.

No child shall be admitted to the first grade unless the child is six years of age on or before the fifteenth of September of the current school year; except that a child under six years of age who has been admitted to school work for the year immediately preceding the first grade under conditions approved by the department of education, or who has demonstrated the possession of sufficient ability to profit by first-grade work on the basis of tests or other means of evaluation recommended or approved by the department of education, may be admitted to first grade at any time before December 31.

3. Nothing herein provided shall prohibit a school board from requiring the attainment of a greater age than the age requirements herein set forth.

282.4 Expulsion — dismissal.

The board may, by a majority vote, expel any pupil

from school for a violation of the regulations or rules established by the board, or when the presence of the pupil is detrimental to the best interests of the school; and it may confer upon any teacher, principal, or superintendent the power temporarily to dismiss a pupil, notice of such dismissal being at once given in writing to the president of the board.

282.6 Tuition.

Every school shall be free of tuition to all actual residents between the ages of five and twenty-one years and to resident honorably discharged soldiers, sailors, and marines, as many months after becoming twenty-one years of age as they have spent in the military or naval service of the United States before they became twenty-one, provided, however, fees may be charged covering instructional costs for a summer school program. The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by such person.

This section shall not apply to tuition authorized by chapter 280A.

For purposes of this section, *"resident"* means a person who is physically present in a district, whose residence has not been established in another district by operation of law, and who meets any of the following conditions:

1. Is in the district for the purpose of making a home and not solely for school purposes.
2. Meets the definitional requirements of the term *"homeless individual"* under 42 U.S.C. § 11302(a) and (c).

282.7 Attending in another corporation — payment.

1. The board of directors of a school district by record action may discontinue any or all of grades seven through twelve and negotiate an agreement for attendance of the pupils enrolled in those grades in the schools of one or more contiguous school districts having accredited school systems. If the board designates more than one contiguous district for attendance of its pupils, the board shall draw boundary lines within the school district for determining the school districts of attendance of the pupils. The portion of a district so designated shall be contiguous to the accredited school district designated for attendance. Only entire grades may be discontinued under this subsection and if a grade is discontinued, all higher grades in that district shall also be discontinued. A school district that has discontinued one or more grades under this subsection has complied with the requirements of section 275.1 relating to the maintenance of kindergarten and twelve grades. A pupil who graduates from another school district under this subsection shall receive a diploma from the receiving district. The boards of directors entering into an agreement under this section shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. The agreement shall provide for transportation and authority and liability of the affected boards.

2. A school district which does not have an area vocational technical high school or program, established and approved under chapter 258, may permit a resident child to attend school in another district which has such a school or program. The child shall meet the entrance requirements of the school district which has the area school or program. Tuition at the maximum rate prescribed in section 282.24, subsection 1, but not transportation, for such a child shall be paid by the resident district as required in section 282.20.

3. Notwithstanding sections 28E.9 and 282.8, a school district may negotiate an agreement under subsection 1 for attendance of its pupils in a school district located in a contiguous state subject to a reciprocal agreement by the two state boards in the manner provided in this subsection. Prior to negotiating an agreement with the school district in the contiguous state, the board of directors shall file a written request with the state board of education for a determination whether the school district in the contiguous state meets requirements substantially similar to those required for accredited or approved school districts in this state and the school district receives or has available services equivalent to those that would be provided in this state by an area education agency. The school district shall also obtain approval by the department of education of the sharing proposal, before the agreement becomes effective. Six months before making the request for approval, the district shall request a feasibility study from the department of education. If the state board of this state and the corresponding state board in the contiguous state agree that the school districts of their respective states meet substantially similar requirements and have substantially similar services available to the school district, and if the Iowa de-

partment of education approves the proposed contract, the two state boards may sign a reciprocal agreement for attendance of their pupils in the school district of the other state, subject to the agreement signed between the boards of directors of the two districts. A school district that negotiates an agreement with a school district in a contiguous state under this subsection is not eligible for supplementary weighting under section 257.11 as a result of that agreement.

282.8 Attending school outside state.

The boards of directors of school districts located near the state boundaries may designate schools of equivalent standing across the state line for attendance of both elementary and high school pupils when the public school in the adjoining state is nearer than any appropriate public school in a pupil's district of residence or in Iowa. Distance shall be measured by the nearest traveled public road. Arrangements shall be subject to reciprocal agreements made between the chief state school officers of the respective states. Notwithstanding section 282.1, arrangements between districts pursuant to the reciprocal agreements made under this section shall establish tuition and transportation fees in an amount acceptable to the affected boards, but the tuition and transportation fees shall not be less than the lower average cost per pupil for the previous school year of the two affected school districts. For the purpose of this section average cost per pupil for the previous school year is determined by dividing the district's operating expenditures for the previous school year by the number of children enrolled in the district on the third Friday of September of the previous school year. A person attending school in another state shall continue to be treated as a pupil of the district of residence in the apportionment of the current school fund and the payment of state aid.

282.10 Whole grade sharing.

1. Whole grade sharing is a procedure used by school districts whereby all or a substantial portion of the pupils in any grade in two or more school districts share an educational program for all or a substantial portion of a school day under a written agreement pursuant to section 256.13, 280.15, or 282.7, subsection 1 or subsections 1 and 3. Whole grade sharing may either be one-way or two-way sharing.

2. One-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and does not receive a substantial number of pupils from those districts in return.

3. Two-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and receives a substantial number of pupils from those school districts in return.

4. A whole grade sharing agreement shall be signed by the boards of the districts involved in the agreement not later than February 1 of the school year preceding the school year for which the agreement is to take effect.

87 Acts, ch 224, §60; 88 Acts, ch 1263, §8

Not applicable to sharing agreements signed before July 1, 1987; 87 Acts, ch 224, §79

282.11 Procedure.

Not less than ninety days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is negotiating, extending, or renewing a sharing agreement, shall publicly announce its intent to negotiate a sharing agreement under section 21.4, subsection 1. Within thirty days of the board's public notice, a petition may be filed with the department of education requesting that a feasibility study be completed. The petition shall be signed by twenty percent of the eligible electors in the district. The director of the department of education may determine that a feasibility study conducted by the board satisfies the request, provided that the study conforms with the criteria contained in section 256.9.

Not less than thirty days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is a party to a proposed sharing agreement shall hold a public hearing at which the proposed agreement is described, and at which the parent or guardian of an affected pupil and certificated employees of the school district shall have an opportunity to comment on the proposed agreement. Within the thirty-day period prior to the signing of the agreement, the parent or guardian of an affected pupil may request the board of directors to send the pupil to another contiguous school district. The request shall be based upon one of the following:

1. That the agreement will not meet the educational program needs of the pupil.
2. That adequate consideration was not given to geographical factors.

The board shall allow or disallow the request prior to the signing of the agreement, or the request shall be deemed granted. If the board disallows the request, the board shall indicate the reasons why the request is disallowed and shall notify the parent or guardian that the decision of the board may be appealed as provided in this section.

If the board disallows the request of a parent or guardian of an affected pupil, the parent or guardian, not later than March 1, may appeal the sending of that pupil to the school district specified in the agreement, to the state board of education. The basis for the appeal shall be the same as the basis for the request to the board. An appeal shall specify a contiguous school district to which the parent or guardian wishes to send the affected pupil. If the parent or guardian appeals, the standard of review of the appeal is a preponderance of evidence that the parent's or guardian's hardship outweighs the benefits and integrity of the sharing agreement. The state board may require the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, or may deny the appeal by the parent or guardian. If the state board requires the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, the tuition shall be equal to the tuition established in the sharing agreement. The decision of the state board is binding on the boards of directors of the school districts affected, except that the decision of the state board may be appealed by either party to the district court.

87 Acts, ch 224, §61; 88 Acts, ch 1263, §10

282.12 Funding.

1. An agreement for whole grade sharing shall establish a method for determination of costs, if any, associated with the sharing agreement.
2. For one-way sharing, the sending district shall pay no less than one-half of the district cost per pupil of the sending district.
3. For two-way sharing, the costs shall be determined by mutual agreement of the boards.
4. The number of pupils participating in a whole grade sharing agreement shall be determined on the third Friday of September and third Friday of February of each year.

282.17 High school outside home district.
Repealed by 83 Acts, ch 31, § 8.

282.18 Open enrollment.

1. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.

For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent's or guardian's child in a public school in another school district in the manner provided in this section.

2. By October 30 of the preceding school year, the parent or guardian shall send notification to the district of residence and to the department of education on forms prescribed by the department of education that the parent or guardian intends to enroll the parent's or guardian's child in a public school in another school district. The parent or guardian shall describe the reason for enrollment in the receiving district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent's or guardian's child in a public school in another district by the deadline of October 30 of the previous year, and good cause exists for the failure to meet the deadline or if the request is to enroll a child in kindergarten in a public school in another district, the parent or guardian shall be permitted to enroll the child in the other district in the same manner as if the deadline had been met.

The board of the district of residence shall take action on the request no later than November 30 of the preceding school year and shall transmit any approved request within five days after board action on the request. The parent or guardian may withdraw the request during November of the preceding school year unless the board of the receiving district has acted on the request. The board of the receiving district shall take action to approve or disapprove the request no later than December 31 of the preceding school year. If the request is granted, the board shall transmit a copy of the form to the school district of residence within five days after board action.

3. During the 1990-1991 school year, if the board of the district of residence determines that transmission of the request will result in a loss of greater than five percent of the district's certified enrollment as compared with the district's certified enrollment for the 1988-1989 school year, the board of the district of residence may deny the request for the 1990-1991 school year. During the 1991-1992 school year, if the board of the district of residence determines that transmission of the request will result in a loss of greater than ten percent of the district's certified enrollment as compared to the district's certified enrollment for the 1988-1989 school year, the board of

the district of residence may deny the request for the 1991-1992 school year. If, however, a failure to transmit a request will result in enrollment of pupils from the same nuclear family in different school districts, the request shall be transmitted to the receiving district for enrollment.

4. The board of each school district shall adopt a policy relating to the order in which requests for enrollment in other districts shall be considered.

The board of the receiving school district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district does not have classroom space for the pupil.

In all districts involved with volunteer or court-ordered desegregation, minority and nonminority pupil ratios shall be maintained according to the desegregation plan or order. The superintendent of a district subject to volunteer or court-ordered desegregation may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district's implementation of the desegregation order or plan. If, however, a transfer request would facilitate a voluntary or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

5. A parent or guardian, whose request has been denied because of a desegregation order or plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent's decision. A decision of the board to uphold the denial of the request is subject to appeal under section 290.1.

If, however, a request to enroll a child in another district is denied by the board of the child's district of residence for failure to show good cause for not meeting the request deadline, the parent or guardian shall be permitted to appeal the decision of the board either directly to the director of the department of education or to the state board under chapter 290, but not to both. If the matter is to be heard by the director, or the director's designee, the matter shall be heard de novo in accordance with the procedures contained in chapter 17A. If a designee of the director hears the matter, the findings of the director's designee shall be reviewed by and are subject to the approval of the director.

6. Each district shall provide notification to the parent or guardian relating to the transmission or denial of the request. A district of residence shall provide for notification of transmission or denial to a parent or guardian within three days of board action on the request. A receiving district shall provide notification to a parent or guardian, within fifteen days of board action on the request, of whether the pupil will be enrolled in that district or whether the request is to be denied.

7. A request under this section is for a period of not less than four years unless the pupil will graduate, the pupil's family moves to another school district, or the parent or guardian petitions the receiving district by October 30 of the previous school year for permission to enroll the pupil in a different district, which may include the district of residence, within the four-year period. If the parent or guardian requests permission of the receiving district to enroll the pupil in a different district within the four-year period, the receiving district school board may act on the request to transfer to the other school district within five days of the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect court-ordered or voluntary desegregation orders affecting a district. A denial of a request to change district enrollment within the four-year period is subject to appeal under section 290.1.

8. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil's district of residence. A pupil's residence, for purposes of this section means a residence under section 282.1. The board of directors of the district of residence shall pay to the receiving district the lower district cost per pupil of the two districts, plus any moneys received for the pupil as a result of non-English speaking weighting under section 442.4, subsection 6, for each school year. The district of residence shall also transmit the phase III moneys allocated to the district for the full-time equivalent attendance of the pupil, who is the subject of the request, to the receiving district specified in the request for transfer.

9. If a request filed under this section is for a child requiring special education under chapter 281, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child's educational needs and the enrollment of the child in the receiving district's program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

10. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district's academic year, the child's first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.

If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship proceeding, placement in foster care, adoption, participation in a for-

eign exchange program, or participation in a substance abuse or mental health treatment program, and the child, who is the subject of the request, is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child's original district of residence under open enrollment with no interruption in the child's educational program. If a parent or guardian exercises this option, the child's new district of residence is not required to pay the lower of the two district costs per pupil or other costs to the receiving district until the start of the first full year of enrollment of the child.

Quarterly payments shall be made to the receiving district.

If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district's area education agency. The receiving district shall forward a copy of the request to the receiving district's area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district's area education agency.

A district of residence may apply to the school budget review committee if a student was not included in the resident district's enrollment count during the fall of the year preceding the student's transfer under open enrollment.

11. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. A receiving district shall not send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold from the district cost per pupil amount, that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

12. A pupil, whose parent or guardian has submitted a request to enroll the pupil in a public school in another district, shall, if the request has resulted in the enrollment of the pupil in the other district, attend school in the other district which is the subject of the request. This requirement does not apply, however, if the pupil's family moves out of the district of residence.

13. Every school district shall adopt a policy which defines the term *"insufficient classroom space"* for that district.

14. The board of directors of a school district subject to volunteer or court-ordered desegregation may vote not to participate in open enrollment under this section during the school year commencing July 1, 1990, and ending June 30, 1991. If a district chooses not to participate in open enrollment under this paragraph, the district shall develop a policy for implementation of open enrollment in the district for that following school year. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

15. A pupil who participates in open enrollment for purposes of attending a grade in grades ten through twelve in a school district other than the district of residence is not eligible to participate in interscholastic athletic contests and athletic competitions during the first year of enrollment under this section except for an interscholastic sport in which the district of residence and the other school district jointly participate or unless the sport in which the pupil wishes to participate is not offered in the district of residence. However, a pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil's district of residence for at least one school year prior to March 10, 1989, is eligible to participate in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended.

16. If a pupil, for which a request to transfer has been filed with a district, has been suspended or expelled in the district, the child shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the child has been reinstated, however, the child shall be permitted to transfer in the same manner as if the child had not been suspended by the sending district. If a child, for whom a request to transfer has been filed with a district, is expelled in the district, the child shall be permitted to transfer to a receiving district under this section if the child applies for and is reinstated in the sending district. However, if the child applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The parent or guardian of the child shall be permitted to appeal the decision of the receiving district to the director of the department of education. If the director rules in favor of permitting the

transfer, the child shall be permitted to transfer, but the transfer shall be conditioned upon the expiration of the expulsion period without the student incurring a new violation.

17. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student's district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students' districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents' institution operating the laboratory school and the board of directors of the school district in the community in which the regents' institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents' institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this paragraph is not subject to appeal under section 290.1.

18. For purposes of this section, *"good cause"* means a change in a child's residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, or a similar set of circumstances consistent with the definition of good cause; a change in the status of a child's resident district, such as the failure of negotiations for a whole-grade sharing, reorganization, dissolution agreement or the rejection of a current whole-grade sharing agreement, or reorganization plan, or a similar set of circumstances consistent with the definition of good cause. If the good cause relates to a change in status of a child's school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

19. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

The school corporation in which the student resides shall pay from the general fund to the secretary of the corporation in which the student is permitted to enroll, a tuition fee as prescribed in section 282.24.

It shall be unlawful for any school district to rebate to any pupils or their parents, directly or indirectly, any portion of the tuition collected or to be collected or to authorize or permit such pupils to receive at the expense of the district, directly or indirectly, any special compensation, benefit, privilege, or other thing of value that is not and cannot legally be made available to all other pupils enrolled in its schools. Any superintendent or board members responsible for such unlawful act shall each be personally liable to a fine of not to exceed one hundred dollars. Action to recover such penalty or action to enjoin such unlawful act may be instituted by the board of any school district or by a taxpayer in any school district.

1. The maximum tuition fee that may be charged for elementary and high school students residing within another school district or corporation except students attending school in another district under section 282.7, subsection 1, or subsections 1 and 3, is the district cost per pupil of the receiving district as computed in section 257.10.

A school corporation which owns facilities used as attendance centers for students shall maintain an itemized statement of the appraised value of all buildings owned by the school corporation. Beginning July 1, 1976, the appraisal shall be updated at least one time every five years.

The director of the department of education shall, after July 1 but before September 1 of each year, notify every school in the state, affected by this section, what the computed maximum tuition rate shall be for the ensuing year.

This subsection does not prevent the corporation or district in which the student resides from paying a tuition in excess of the maximum computed tuition rates, if the actual per pupil cost of the preceding year so warrants, but the receiving district or corporation shall not demand more than the maximum rate.

Annually, the area education agency in which the state training school and the Iowa juvenile home are located and the department of human services on behalf of the training school and juvenile home shall submit an annual joint application by January 1 for the next succeeding school year to the department of education describing the proposed special education instructional and support programs and service improvements for the training school and juvenile home. The department of education shall review and approve or modify the program and proposed budget by February 1 and shall notify the department of revenue and finance, the area education agency, and the department of human services of the approved budget amount. The moneys for the approved budget shall supplement and not supplant moneys equal to the moneys expended for education for the fiscal year beginning July 1, 1986 by the department of human services. The moneys for the approved budget shall be used to ensure that the training school and juvenile home comply with appropriate administrative rules relating to special education adopted by the department of education. Beginning with the fiscal year commencing July 1, 1990, and ending June 30, 1991, and in succeeding years, the department of revenue and finance shall pay the approved budget amount for an area education agency in monthly installments beginning on September 15 and ending on

June 15 of the next succeeding school year. The installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state's resources. The department of revenue and finance shall transfer the approved budget amount for an area education agency from the moneys appropriated under section 442.26 or section 257.16 and make the payment to the area education agency.

The area education agency shall submit an accounting to the department of education by August 1 following the school year for the actual costs of the special education programs and services provided at the training school and juvenile home. The department shall review and approve or modify the accounting by September 1 and shall notify the department of revenue and finance of the approved accounting amount. The department of revenue and finance shall adjust the September payment to the area education agency for the next fiscal year by the difference between the amount of the proposed budget paid to the area education agency and the amount of the actual costs as reflected in the area education agency's accounting. Any amount paid by the department of revenue and finance shall be deducted monthly from the state foundation aid paid under section 442.26 or section 257.16 during that fiscal year to all school districts in the state. The portion of the total amount of the approved accounting amount that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year.

282.29 Children placed by district court.

Notwithstanding section 282.31, subsection 1, a child who has been identified as requiring special education, who has been placed in a facility or home by the district court, and for whom parental rights have been terminated by the district court, shall be provided special education programs and services on the same basis as the programs and services are provided for children requiring special education who are residents of the school district in which the child has been placed. The special education instructional costs shall be paid as provided in section 282.31, subsection 2 or 3.

282.30 Special programs.

1. *a.* An area education agency shall provide or make provision for an appropriate educational program for each child living in the following types of facilities located within its boundaries:

(1) An approved or licensed shelter care home, as defined in section 232.2, subsection 31.

(2) An approved juvenile detention home, as defined in section 232.2, subsection 28.

b. The area education agency shall provide the educational program by any one of, but not limited to, the following:

(1) Providing for the enrollment of the child in the district of residence of the child, subject to the approval of the district in which the child is living.

(2) Cooperating with the district of residence of the child and obtaining the course of study and textbooks of the child for use in the special facility into which the child has been placed.

(3) Providing for the enrollment of the child in the district in which the child is living, subject to the approval of the district in which the child is living.

An area education agency shall not provide educational services to a facility specified in paragraph *"a"* unless the facility makes a request for educational services to the area education agency by December 1 of the school year prior to the beginning of the school year for which the services are being requested.

2. The area education agency where the child is living, the school district of residence, the other appropriate area education agency or agencies, and other appropriate agencies involved with the care or placement of the child shall cooperate with the school district where the child is living in sharing educational information, textbooks, curriculum, assignments, and materials in order to plan and to provide for the appropriate education of the child living in such facility specified in subsection 1.

282.31 Funding for special programs.

1. *a.* A child who lives in a facility pursuant to section 282.30, subsection 1, paragraph *"a"*, and who is not enrolled in the educational program of the district of residence of the child, shall receive appropriate educational services. The area education agency shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the department of revenue and finance and the area education agency of its action by February 1. Beginning with the fiscal year commencing July 1, 1990, and ending June 30, 1991, and in succeeding years, the department of revenue and finance shall pay the approved budget amount for an area education agency in monthly installments beginning September 15 and ending June 15 of the next succeeding school year. The installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state's resources. The department of revenue and finance shall transfer the approved budget amount for an area education agency from the moneys appropriated under section 442.26 or section 257.16 and make the payment to the area

education agency. The area education agency shall submit an accounting for the actual cost of the program to the department of education by August 1 of the following school year. The department shall review and approve or modify all expenditures incurred in compliance with the guidelines pursuant to section 256.7, subsection 12, and shall notify the department of revenue and finance of the approved accounting amount. The approved accounting amount shall be compared with any amounts paid by the department of revenue and finance to the area education agency and any differences added to or subtracted from the October payment made under this paragraph for the next school year. Any amount paid by the department of revenue and finance shall be deducted monthly from the state foundation aid paid under section 442.26 or section 257.16 during the remainder of that fiscal year to all school districts in the state. The portion of the total amount of the approved budget that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year.

b. A child who lives in a facility or home pursuant to section 282.19, and who does not require special education and who is not enrolled in the educational program of the district of residence of the child, shall be included in the basic enrollment of the school district in which the facility or home is located.

However, on June 30 of a school year, if the board of directors of a school district determines that the number of children under this paragraph who were counted in the basic enrollment of the school district on the third Friday of September of that school year is fewer than the sum of the number of months all children were enrolled in the school district under this paragraph during the school year divided by nine, the secretary of the school district may submit a claim to the department of education by August 1 following the school year for an amount equal to the district cost per pupil of the district for the previous school year multiplied by the difference between the number of children counted and the number of children calculated by the number of months of enrollment. The amount of the claim shall be paid by the department of revenue and finance to the school district by October 1. The department of revenue and finance shall transfer the total amount of the approved claim of a school district from the moneys appropriated under section 442.26 or under section 257.16 and the amount paid shall be deducted monthly from the state foundation aid paid during the remainder of that fiscal year to all school districts in the state in the manner provided in paragraph *"a"*.

2. *a.* The actual special education instructional costs incurred for a child who lives in a facility pursuant to section 282.19 or for a child who is placed in a facility or home pursuant to section 282.29, who requires special education and who is not enrolled in the educational program of the district of residence of the child but who receives an educational program from the district in which the facility or home is located, shall be paid by the district of residence of the child to the district in which the facility or home is located, and the costs shall include the cost of transportation.

b. A child shall not be denied special education programs and services because of a dispute over the determination of district of residence of the child. The director of the department of education shall determine the district of residence when a dispute arises regarding the determination of the district of residence for a child who requires special education pursuant to this subsection.

3. The actual special education instructional costs, including transportation, for a child who requires special education shall be paid by the department of revenue and finance to the school district in which the facility or home is located, only when a district of residence cannot be determined, and the child was not included in the weighted enrollment of any district pursuant to section 281.9, and the payment pursuant to subsection 2, paragraph *"a"* was not made by any district. The district shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the district by February 1. The district shall submit a claim by August 1 following the school year for the actual cost of the program. The department shall review and approve or modify the claim and shall notify the department of revenue and finance of the approved claim amount by September 1. The total amount of the approved claim shall be paid by the department of revenue and finance to the school district by October 1. The total amount paid by the department of revenue and finance shall be deducted monthly from the state foundation aid paid under section 442.26 during the remainder of that fiscal year to all school districts in the state. The portion of the total amount of the approved claims that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for the budget year. The department of revenue and finance shall transfer the total amount of the approved claims from moneys appropriated under section 442.26 for payment to the school district.

4. For purposes of this section, *"district of residence"* means the school district in which the parent or legal guardian of the child resides or the district in which the district court is located if the district court is the guardian of the child.

5. Programs may be provided during the summer and funded under this section if the school district or area education agency determines a valid educational reason to do so.

CHAPTER 284

INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

284.1 Interstate agreement.
284.2 Designated state official.
284.3 Contracts on file.

284.1 Interstate agreement.

The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

ARTICLE I — PURPOSE, FINDINGS, AND POLICY

1. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interest of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational personnel.

ARTICLE II — DEFINITIONS

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. *"Educational personnel"* means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. *"Designated state official"* means the education official of a state selected by that state to negotiate and enter into, on behalf of that state, contracts pursuant to this agreement.

3. *"Accept"*, or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. *"State"* means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. *"Originating state"* means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article III of this agreement.

6. *"Receiving state"* means a state (and the subdivisions thereof) which accepts educational personnel in accordance with the terms of a contract made pursuant to article III of this agreement.

ARTICLE III — INTERSTATE EDUCATIONAL PERSONNEL CONTRACTS

1. The designated state official of a party state may make one or more contracts on behalf of that state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the official finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in the official's state.

2. Any such contract shall provide for:

a. Its duration.

b. The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

c. Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

d. Any other necessary matters.

3. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The license or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.

6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

ARTICLE IV — APPROVED AND ACCEPTED PROGRAMS

1. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

2. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in applicable contract.

ARTICLE V — INTERSTATE CO-OPERATION

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to article III of this agreement.

2. They will facilitate and strengthen co-operation in interstate certification and other elements of educational personnel qualification and for this purpose shall co-operate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

ARTICLE VI — AGREEMENT EVALUATION

The designated state officials of any party states may meet from time to time as a group to evaluate programs under the agreement, and to formulate recommendations for changes.

ARTICLE VII — OTHER ARRANGEMENTS

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

ARTICLE VIII — EFFECT AND WITHDRAWAL

1. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

2. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

ARTICLE IX — CONSTRUCTION AND SEVERABILITY

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of

this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

The executive director shall enter into contracts pursuant to article III of the agreement only with the approval of the specific text thereof by the board of educational examiners.

285.13 Disagreements between boards.
285.14 Nonstandard buses — penalties.
285.15 Forfeiture of reimbursement rights.
285.16 "Nonpublic school" defined.

285.1 When entitled to state aid.

1. The board of directors in every school district shall provide transportation, either directly or by reimbursement for transportation, for all resident pupils attending public school, kindergarten through twelfth grade, except that:

a. Elementary pupils shall be entitled to transportation only if they live more than two miles from the school designated for attendance.

b. High school pupils shall be entitled to transportation only if they live more than three miles from the school designated for attendance.

For the purposes of this subsection, high school means a school which commences with either grade nine or grade ten, as determined by the board of directors of the school district or by the governing authority of the nonpublic school in the case of nonpublic schools.

Boards in their discretion may provide transportation for some or all resident pupils attending public school or pupils who attend nonpublic schools who are not entitled to transportation. Boards in their discretion may collect from the parent or guardian of the pupil not more than the pro rata cost for such optional transportation, determined as provided in subsection 12.

To the extent that this section as amended requires transportation which was not required before August 15, 1973, the board of directors shall not be required to provide such transportation before July 1, 1978.

2. Any pupil may be required to meet a school bus on the approved route a distance of not to exceed three-fourths of a mile without reimbursement.

3. In a district where transportation by school

bus is impracticable, where necessary to implement a whole grade sharing agreement under section 282.10, or where school bus service is not available, the board may require parents or guardians to furnish transportation for their children to the schools designated for attendance. Except as provided in section 285.3, the parent or guardian shall be reimbursed for such transportation service for public and nonpublic school pupils by the board of the resident district in an amount equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year's statewide average per pupil transportation cost, as determined by the department of education.

However, a parent or guardian shall not receive reimbursement for furnishing transportation for more than three family members who attend elementary school and one family member who attends high school.

4. In all districts where unsatisfactory roads or other conditions make it advisable, the board at its discretion may require the parents or guardians of public and nonpublic school pupils to furnish transportation for their children up to two miles to connect with vehicles of transportation. The parents or guardians shall be reimbursed for such transportation by the boards of the resident districts at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil's residence to the bus route.

5. Where transportation by school bus is impracticable or not available or other existing conditions warrant it, arrangements may be made for use of common carriers according to uniform standards established by the director of the department of education and at a cost based upon the actual cost of service and approved by the board.

6. When the school designated for attendance of pupils is engaged in the transportation of pupils, the sending or designating school shall use these facilities and pay the pro rata cost of transportation except that a district sending pupils to another school may make other arrangements when it can be shown that such arrangements will be more efficient and economical than to use facilities of the receiving school, providing such arrangements are approved by the board of the area education agency.

7. If a local board closes either elementary or high school facilities and is approved by the board of the area education agency to operate its own transportation equipment, the full cost of transportation shall be paid by the board for all pupils living beyond the statutory walking distance from the school designated for attendance.

8. Transportation service may be suspended upon any day or days, due to inclemency of the weather, conditions of roads, or the existence of other conditions, by the board of the school district operating the buses, when in their judgment it is deemed advisable and when the school or schools are closed to all children.

9. Distance to school or to a bus route shall in all cases be measured on the public highway only and over the most passable and safest route as determined by the area education agency board, starting in the roadway opposite the private entrance to the residence of the pupil and ending in the roadway opposite the entrance to the school grounds or designated point on bus route.

10. The board in any district providing transportation for nonresident pupils shall collect the pro rata cost of transportation from the district of pupil's residence for all properly designated pupils so transported.

11. Boards in districts operating buses may transport nonresident pupils who attend public school, kindergarten through junior college, who are not entitled to free transportation provided they collect the pro rata cost of transportation from the parents.

12. The pro rata cost of transportation shall be based upon the actual cost for all the children transported in all school buses. It shall include one-seventh of the original net cost of the bus and other items as determined and approved by the director of the department of education but no part of the capital outlay cost for school buses and transportation equipment for which the school district is reimbursed from state funds or that portion of the cost of the operation of a school bus used in transporting pupils to and from extra-curricular activities shall be included in determining the pro rata cost. In a district where, because of unusual conditions, the cost of transportation is in excess of the actual operating cost of the bus route used to furnish transportation to nonresident pupils, the board of the local district may charge a cost equal to the cost of other schools supplying such service to that area, upon receiving approval of the director of the department of education.

13. When a local board fails to pay transportation costs due to another school for transportation service rendered, the board of the creditor corporation shall file a sworn statement with the area education agency board specifying the amount due. The agency board shall check such claim and if the claim is valid shall certify to the county auditor. The auditor shall transmit to the county treasurer an order directing the county treasurer to transfer the amount of such claim from the funds of the debtor corporation to the creditor corporation and the treasurer shall pay the same accordingly.

14. Resident pupils attending a nonpublic school located either within or without the school district of the pupil's residence shall be entitled to transportation on the same basis as provided for resident public school pupils under this section. The public school district providing transportation to a nonpublic school pupil shall determine the days on which bus service is provided, which shall be based upon the days for which bus service is provided to public school pupils, and the public school district shall determine bus schedules and routes. In the case of nonpublic school pupils the term "school designat-

ed for attendance" means the nonpublic school which is designated for attendance by the parents of the nonpublic school pupil.

15. If the nonpublic school designated for attendance is located within the public school district in which the pupil is a resident, the pupil shall be transported to the nonpublic school designated for attendance as provided in this section.

16. *a.* If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence, the pupil may be transported by the district of residence to a public school or other location within the district of the pupil's residence. A public school district in which a nonpublic school is located may establish school bus collection locations within its district from which nonresident nonpublic school pupils may be transported to and from a nonpublic school located in the district. If a pupil receives such transportation, the district of the pupil's residence shall be relieved of any requirement to provide transportation.

b. As an alternative to paragraph *"a"* of this subsection, subject to section 285.9, subsection 3, where practicable, and at the option of the public school district in which a nonpublic school pupil resides, the school district may transport a nonpublic school pupil to a nonpublic school located outside the boundary lines of the public school district if the nonpublic school is located in a school district contiguous to the school district which is transporting the nonpublic school pupils, or may contract with the contiguous public school district in which a nonpublic school is located for the contiguous school district to transport the nonpublic school pupils to the nonpublic school of attendance within the boundary lines of the contiguous school district.

c. If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence and the district of residence meets the requirements of subsections 14 to 16 of this section by using subsection 17, paragraph *"c"*, of this section and the district in which the nonpublic school is located is contiguous to the district of the pupil's residence and is willing to provide transportation under subsection 17, paragraph *"a"* or *"b"*, of this section, the district in which the nonpublic school is located may provide transportation services, subject to section 285.9, subsection 3, and may make the claim for reimbursement under section 285.2. The district in which the nonpublic school is located shall notify the district of the pupil's residence that it is making the claim for reimbursement, and the district of the pupil's residence shall be relieved of the requirement for providing transportation and shall not make a claim for reimbursement for those nonpublic school pupils for which a claim is filed by the district in which the nonpublic school is located.

17. The public school district may meet the requirements of subsections 14 to 16 by any of the following:

a. Transportation in a school bus operated by a public school district.

b. Contracting with private parties as provided in section 285.5. However, contracts shall not provide payment in excess of the average per pupil transportation costs of the school district for that year.

c. Utilizing the transportation reimbursement provision of subsection 3.

d. Contracting with a contiguous public school district to transport resident nonpublic school pupils the entire distance from the nonpublic pupil's residence to the nonpublic school located in the contiguous public school district or from the boundary line of the public school district to the nonpublic school.

18. The director of the department of education may review all transportation arrangements to see that they meet all legal and established uniform standard requirements.

19. Transportation authorized by this chapter is exempt from all laws of this state regulating common carriers.

20. Transportation for which the pro rata cost or other charge is collected shall not be provided outside the state of Iowa except in accordance with rules adopted by the department of education in accordance with chapter 17A. The rules shall take into account any applicable federal requirements.

21. Boards in districts operating buses may in their discretion transport senior citizens, children, handicapped and other persons and groups, who are not otherwise entitled to free transportation, and shall collect the pro rata cost of transportation. Transportation under this subsection shall not be provided when the school bus is being used to transport pupils to or from school unless the board determines that such transportation is desirable and will not interfere with or delay the transportation of pupils.

22. Notwithstanding subsection 1, paragraph *"a"*, a parent or guardian of an elementary pupil entitled to transportation pursuant to subsection 1, may request that a child day care facility be designated for purposes of subsection 9 rather than the residence of the pupil. The request shall be submitted for a period of time of at least one semester and may not be submitted more than twice during a school year.

285.2 Payment of claims for nonpublic school pupil transportation.

Boards of directors of school districts shall be required to provide transportation services to nonpublic school pupils as provided in section 285.1 when the general assembly appropriates funds to the department of education for the payment of claims for transportation costs submitted by the school district.

There is appropriated from the general fund of the state to the department of education funds sufficient to pay the approved claims of public school districts for transportation services to nonpublic school pupils as provided in this section. The portion of the amount appropriated for approved claims under section 285.1, subsection 3, shall be determined under section 285.3.

The costs of providing transportation to nonpublic school pupils as provided in section 285.1 shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Any transportation reimbursements received by a local school district for transporting nonpublic school pupils shall not affect district cost limitations of chapter 257. The reimbursements provided in this section are miscellaneous income as defined in section 257.2.

Claims for reimbursement shall be made to the department of education by the public school district providing transportation or transportation reimbursement during a school year on a form prescribed by the department, and the claim shall state the services provided and the actual costs incurred. A claim shall not exceed the average transportation costs of the district per pupil transported except as otherwise provided. If transportation is provided under section 285.1, subsection 3, the amount of a claim shall be determined under section 285.3 regardless of the average transportation costs of the district per pupil transported.

Claims shall be accompanied by an affidavit of an officer of the public school district affirming the accuracy of the claim. By February 1 and by July 15 of each year, the department shall certify to the department of revenue and finance the amounts of approved claims to be paid, and the department of revenue and finance shall draw warrants payable to school districts which have established claims. Claims shall be allowed where practical, and at the option of the public school district of the pupil's residence, subject to approval by the area education agency of the pupil's residence, under section 285.9, subsection 3, the public school district of the pupil's residence may transport a pupil to a school located in a contiguous public school district outside the boundary lines of the public school district of the pupil's residence. The public school district of the pupil's residence may contract with the contiguous public school district or with a private contractor under section 285.5 to transport the pupils to the school of attendance within the boundary lines of the contiguous public school district. The public school district of the pupil's residence may utilize the reimbursement provisions of section 285.1, subsection 3.

The portion of the amount appropriated under section 285.2 to pay claims to reimburse parents or guardians of nonpublic school pupils for furnishing transportation for their children is equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year's statewide average per pupil transportation cost as determined by the department of education multiplied by the total number of nonpublic school pupils for which the parent or guardian furnishes transportation, except that all elementary pupils and two members of a family who attend a nonpublic high school shall be included in the total number.

The amount of an approved claim to a parent or guardian for furnishing transportation shall include a base payment, and may include a supplemental payment, determined under this section. The base payment is equal to the amount of the reimbursement determined under section 285.1, subsection 3.

The difference between the amount appropriated under this section for reimbursement of parents and guardians of nonpublic school pupils and the amount paid to parents and guardians of nonpublic school pupils pursuant to section 285.1, subsection 3, shall be used for supplemental payments to the parents and guardians of nonpublic school pupils who transport one or more family members more than four miles to a school of attendance. The department of education shall add together the number of parents and guardians who transport one or more family members more than four miles to their nonpublic schools of attendance and divide that number into the amount available for supplemental payments to determine a supplemental payment amount per parent or guardian. That supplemental payment amount per parent or guardian shall be paid to each eligible parent or guardian transporting nonpublic school pupils in addition to the base payment.

The supplemental payment amount calculated under this section for nonpublic school parents shall be paid by the school district of residence to parents and guardians transporting eligible resident pupils attending public school.

285.4 Pupils sent to another district.

When a board closes its elementary school facilities for lack of pupils or by action of the board, it shall, if there is a school bus service available in the area, designate for attendance the school operating the buses, provided the board of such school is willing to receive them and the facilities and curricular offerings are adequate. All designations must be submitted to the area education agency board on or before July 15, for review and approval. The agency board shall after due investigation alter or change designations to make them conform to legal requirements and established uniform standards for making designations and for locating and establishing bus routes. After designations are made, they will remain the same from year to year except that on or before July 15, of each year, the rural board or parents may petition the agency board for a change of designation to another school. Appeals from the decision of the agency board on designations may be made by either the parents or board to the director of the department of education as provided in section 285.12 and section 285.13.

2. *"Area school allowable growth for an instructional cost center"* is a dollar amount determined by the department of management by multiplying the state average cost per contact hour for that cost center for a base year times the state percent of growth for the budget year.

3. *"Base year"* means base year as defined in section 257.2.

4. *"Budget year"* means budget year as defined in section 257.2.

5. *"Contact hour"* means fifty minutes of contact between an instructor and students in a scheduled course offering for which students are registered.

The total contact hours for an area school in a cost center for a budget year for purposes of determining state general aid under this chapter are the average of the total contact hours offered by the area school in that cost center for the base year and the two fiscal years preceding the base year. However, commencing July 1, 1992, total contact hours in a cost center for a budget year shall be the average of the total contact hours offered by the area school in that cost center for the base year and the fiscal year preceding the base year.

6. *"Contact hour eligible for general aid"* is a contact hour as provided in subsection 1 except for the contact hours of nonresident students; contact hours of students in avocational or recreational programs; and contact hours of students in courses or programs the direct operational costs of which are entirely paid by federal, state, or other governmental agencies, or private subsidy, or both.

7. *"Instructional cost center"* means one of the following areas of course offerings of the area schools:

The state average cost per contact hour does not include expenditures for capital outlay.

10. *"State percent of growth"* is the state percent of growth calculated under section 257.8.

286A.3 Foundation support level.

The department of management shall determine for the base year beginning July 1, 1985, the state average cost per contact hour for each instructional cost center. The state foundation support level per contact hour for each instructional cost center is sixty-five percent of the state average cost per contact hour for that year.

For each of the fiscal years beginning July 1, 1991, and July 1, 1992, the percent multiplier of the state average cost per contact hour shall be increased by an additional one-half of one percent, and on July 1 of each of the next four fiscal years, shall be increased by an additional one percent until the state foundation support level per contact hour for each instructional cost center equals seventy percent of the state average cost per contact hour.

For the budget year commencing July 1, 1986 and succeeding budget years, the department of management shall determine the area school allowable growth for each instructional cost center and shall add those amounts to the foundation support level per contact hour for each instructional cost center for the base year in order to determine the foundation support level per contact hour for the budget year. However, for any budget year for which funds are appropriated by the general assembly for salary improvement for the arts and sciences cost center and for the vocational-technical preparatory cost center, the foundation support level per contact hour for those cost centers for the budget year shall be increased by a salary improvement cost per contact hour. However, the salary improvement cost per contact hour is not included in the foundation support level per contact hour for those cost centers. Funds appropriated for salary improvement for a budget year shall be divided by the total number of contact hours in the arts and sciences cost center and the vocational-technical preparatory cost center in all area schools for the budget year to determine a salary improvement cost per contact hour. Salary improvement moneys received by an area school shall be added to the base salaries of recipients of the moneys, and shall supplement, not supplant, the results of a collective bargaining agreement negotiated under chapter 20, if any.

286A.4 Support per instructional cost center.

Each area school shall multiply the state foundation support level per contact hour for each instructional cost center for a budget year by the number of contact hours eligible for state general aid in the area school in the cost center for the budget year to obtain the support per cost center in that area school. However, in calculating the support per cost center for a budget year in an area school, beginning July 1, 1991, the number of contact hours eligible for state general aid for the vocational-technical preparatory cost center, for programs of twenty-five contact hours or less per week, shall be increased in eight annual equal increments, until the support per cost center equals the number of those contact hours for that cost center multiplied by one and two-tenths. In addition, however, in calculating the support per cost center for vocational-technical preparatory cost centers beginning July 1, 1991, for programs of twenty-six to thirty contact hours per week, the number of contact hours eligible for state general aid shall be increased in eight annual equal increments, until the support per cost center equals the number of contact hours for that cost center multiplied by a number which equals the multiplier used for programs of twenty-five hours per week minus four hundredths for every contact hour per week of the program that exceeds twenty-five hours per week. The total support for an area school for instructional cost centers is the sum of the support per cost center for all five instructional cost centers.

286A.5 General institutional function.

The general institutional function cost for the base year commencing July 1, 1985 for an area school is determined by multiplying the area school's total expenditures for the fiscal year beginning July 1, 1985 by thirteen and ninety-six hundredths percent, which is the average percent of total expenditures of the area schools for general institutional function costs.

The foundation support level for the general institutional function for an area school for the base year beginning July 1, 1985 is sixty-five percent of the

area school's general institutional support function cost for that year.

For each of the fiscal years beginning July 1, 1991, and July 1, 1992, the percent multiplier of the area school's general institutional function cost shall be increased by an additional one-half of one percent, and on July 1 of each of the next four fiscal years shall be increased by an additional one percent until the foundation support level for the general institutional function reaches seventy percent of the area school's general institutional support function cost.

For the budget year beginning July 1, 1986 and succeeding budget years, the foundation support level for the general institutional support function for an area school is the foundation support level for the base year plus a general institutional function allowable growth amount. The allowable growth amount is determined by the department of management by multiplying the state percent of growth for the budget year by the state average general institutional function cost for the base year.

For the base year beginning July 1, 1989, and each four years thereafter, the department shall recalculate the average percent of total expenditures of the area schools for general institutional function costs and shall use that percent for the four next following budget years.

286A.6 Student services function cost.

The state student services function cost for the base year commencing July 1, 1985 is determined by dividing the total of all area schools' expenditures for the student services function for that year by the total number of contact hours eligible for general aid in the state for that year to achieve a state average student services function cost per contact hour for the base year.

The foundation support level per contact hour for the student services function cost for the base year beginning July 1, 1985 is sixty-five percent of the state average student services function cost per contact hour for that year.

The foundation support level per contact hour eligible for state general aid for the student services function cost for an area school is the foundation support level per contact hour for the base year plus a student services support allowable growth amount. The allowable growth amount is determined by the department of management by multiplying the state percent of growth for the budget year by the state average student services function cost per contact hour for the base year. The total is then multiplied by the number of eligible contact hours in the area school to determine the foundation support for the student services function cost for a budget year.

For each of the fiscal years beginning July 1, 1991, and July 1, 1992, the percent multiplier of the state average student services function cost per contact hour shall be increased by an additional one-half of one percent, and on July 1 of each of the next four fiscal years shall be increased by an additional one percent until the foundation support level for the student services function cost equals seventy percent of the state average student services function cost per contact hour.

For the fiscal year commencing July 1, 1991, twenty-five percent of noneligible contact hours shall be added to the eligible contact hours, for purposes of determining the foundation support for the student services function cost. In succeeding fiscal years, the number of noneligible contact hours added to eligible contact hours for purposes of determining the foundation support level for the student services function cost shall be the number of noneligible contact hours used to determine the foundation support level for the fiscal year commencing July 1, 1991.

286A.7 Physical plant function cost.

The physical plant function cost includes physical plant maintenance cost and the physical plant utility cost.

1. The physical plant function cost for the base year commencing July 1, 1985 for all area schools is determined by dividing the total physical plant maintenance cost of all area schools for that year by the total square feet of buildings of the area schools for that year to achieve a state average cost per square foot.

The foundation support level per square foot for the physical plant maintenance costs for the base year beginning July 1, 1985 is sixty-five percent of the state average cost per square foot for that year.

For each of the fiscal years beginning July 1, 1991, and July 1, 1992, the percent multiplier of the state average cost per square foot for the physical plant maintenance cost shall be increased by an additional one-half of one percent, and on July 1 of each of the next four fiscal years shall be increased by an additional one percent until the foundation support level per square foot for the physical plant maintenance cost equals seventy percent of the state average cost per square foot.

For the budget year beginning July 1, 1986 and succeeding budget years, the foundation support level per square foot for the physical plant maintenance costs for an area school is the foundation support level per square foot for the base year plus a physical plant maintenance allowable growth amount. The allowable growth amount is determined by the department of education by multiplying the state percent of growth for the budget year by state average cost per square foot for the base year. The total is then multiplied by the number of square feet in buildings of the area school to determine the foundation support for the physical plant

maintenance costs for a budget year. The department shall notify the department of management.

2. The physical plant utility function cost for the base year commencing July 1, 1985 for all area schools is determined by dividing the total physical plant utility costs, including utility costs paid under section 280A.22, of all area schools for that year by the total cubic feet of buildings of the area schools for that year to achieve a state average cost per cubic foot.

The foundation support level per cubic foot for the physical plant utility cost for the base year beginning July 1, 1985 is sixty-five percent of the state average cost per cubic foot for the base year for that year.

For each of the fiscal years beginning July 1, 1991, and July 1, 1992, the percent multiplier of the state average cost per cubic foot for the physical plant utility cost shall be increased by an additional one-half of one percent and on July 1 of each of the next four fiscal years shall be increased by an additional one percent until the foundation support level per cubic foot for the physical plant utility cost equals seventy percent of the state average cost per cubic foot.

For the budget year beginning July 1, 1986 and succeeding budget years, the foundation support level per cubic foot for the physical plant utility cost for an area school is the foundation support level per cubic foot for the base year plus a physical plant utility allowable growth amount. The allowable growth amount is determined by the department of education by multiplying the state percent of growth for the budget year by the state average cost per cubic foot for the base year. The total is then multiplied by the number of cubic feet in buildings of the area school to determine the foundation support for the physical plant utility cost for a budget year. The department shall notify the department of management.

3. The foundation support for the physical plant maintenance cost added to the foundation support for the physical plant utility cost for a budget year equals the foundation support for the physical plant function for a budget year.

286A.8 Library function cost.

The library function cost for a budget year for an area school is determined by the department of education by multiplying the total of the area school's support for the five instructional cost centers, for the general institutional support function, for the student services function, and for the physical plant function for that year by five percent, which is the average percent of the area schools' support expended for the library function cost. The department shall notify the department of management. Notwithstanding this paragraph, for each year of the four-year fiscal period commencing July 1, 1991, and ending June 30, 1995, the percent multiplier, which is the average percent of the area school's support expended for the library function cost, shall be increased in four equal increments from three and thirty-three hundredths percent to five percent.

The foundation support level for the library services function for an area school for a base year is sixty-five percent of the area school's library function cost for that year.

For each of the fiscal years beginning July 1, 1991, and July 1, 1992, the percent multiplier of the area school's library function cost shall be increased by an additional one-half of one percent and on July 1 of each of the next four fiscal years shall be increased by an additional one percent until the foundation support level for the library function cost equals seventy percent of the area school's library function cost.

286A.8A Equipment purchase function cost.

Commencing July 1, 1991, the equipment purchase function cost for a budget year is determined by the department of education by multiplying the sum of all of the area schools' support for the five instructional cost centers, for the general institutional support function, for the student services function, and for the physical plant function for that year by .194 percent for equipment purchases for the arts and sciences cost center and by .776 percent for equipment purchases for the vocational-technical preparatory cost center. The department shall allocate the equipment purchase function cost among the area schools based upon each area school's proportion of arts and sciences contact hours and vocational-technical preparatory contact hours compared to the total arts and sciences and vocational-technical preparatory contact hours, and shall notify the department of management.

The foundation support level for the equipment purchase function cost for an area school for a base year is sixty-five percent of the area school's equipment purchase function cost for that year.

For each of the fiscal years beginning July 1, 1991, and July 1, 1992, the percent multiplier of the area school's equipment purchase function cost shall be increased by an additional one-half of one percent, and on July 1 of each of the next four fiscal years, shall be increased by an additional one percent until the foundation support level for the equipment purchase function cost reaches seventy percent of the area school's equipment purchase function cost.

286A.10 Expenditures for base year.

When an area school determines its total expenditures, expenditures for the student services function, physical plant maintenance costs, physical plant utility costs, and costs per cost center for the base year beginning July 1, 1985 for purposes of determining state general aid under this chapter, the area school shall use the actual costs and expenditures for the first three quarters of the fiscal year and shall estimate the costs of the fourth quarter. When actual costs and expenditures are known, the department of education shall direct the department of management to adjust the support levels for the cost centers and noninstructional functions and the amount of state general aid to be paid for that budget year on the basis of the actual figures.

86 Acts, ch 1246, §154

286A.11 State general aid amount.

The amount of state general aid to which an area school is entitled for a budget year under this chapter is equal to the sum of the following:

1. An amount equal to the difference between the total of foundation support levels for the five instructional cost centers and the five noninstructional functions, and the amount raised by the tax levy under section 280A.17.

2. An amount for operation of a public radio station if one has been established for the area school and has been funded by the state. The amount is the amount for operation of the radio station for the base year plus an amount equal to the cost of operation for the base year multiplied by the state percent of growth for the budget year.

3. Fifty thousand dollars if the area school has fewer than one million contact hours. The department of education shall calculate the difference between the amount of state general aid each area school that has fewer than one million contact hours would receive if a foundation support level of seventy percent were used in lieu of the sixty-five percent plus any additional percentage amounts added to the sixty-five percent foundation level after July 1, 1991, as specified in this chapter and the amount the area school would receive under this chapter. The area school shall receive that difference in lieu of the fifty thousand dollars granted under this subsection if the difference is greater than fifty thousand dollars.

4. An amount equal to the general allocation of the area school as determined under section 405A.2.

Unusual circumstances shall include but not be limited to the following:

a. An unusual increase or decrease in enrollment.

b. Natural disasters.

c. Unusual staffing problems.

d. Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to students.

294.15 Retirement allowance — teachers who retired before July 4, 1953.

A person attaining the age of sixty-five who was an employee, holding a valid teaching certificate, in the public schools of this state with a record of service of twenty-five years or more, including a maximum of five years' out-of-state service followed by at least ten years' service in this state prior to retirement and who retired prior to July 4, 1953, may receive, effective July 1, 1984, retirement allowance payments from the state of Iowa equal to two hundred twenty dollars per month. An amount necessary to meet this requirement shall be added to the retirement allowance payments, if any, now being received from the state of Iowa by individuals covered under this section. No such person shall receive retirement benefits from the state of more than two hundred twenty dollars per month. The word "employee" as used in this section includes persons who were state superintendents, county superintendents, or deputy county superintendents.

However, a person receiving retirement allowance payments under this section may elect in writing to the department of personnel to continue to receive two hundred dollars per month.

Application for these retirement allowance payments shall be made to the department of personnel under rules prescribed by the director of that department. An eligible person is entitled to receive the retirement allowance payments effective from the date of application to the department, if the application is approved, and the payments shall be continued on the first day of each month thereafter during the lifetime of the person.

For the purpose of paying the teachers' retirement allowance payments granted under this section, effective July 1, 1987, there is appropriated for each fiscal year from the Iowa public employees' retirement fund to the department of personnel, an amount sufficient to make the payments granted under this section.

EDUCATIONAL EXCELLENCE PROGRAM

294A.1 Educational excellence program.

The purpose of this chapter is to promote excellence in education. In order to maintain and advance the educational excellence in the state of Iowa, this chapter establishes the Iowa educational excellence program. The program shall consist of three major phases addressing the following:

1. Phase I — The recruitment of quality teachers.
2. Phase II — The retention of quality teachers.
3. Phase III — The enhancement of the quality and effectiveness of teachers through the utilization of performance pay.

87 Acts, ch 224, §1

294A.2 Definitions.

For the purposes of this chapter:

1. *"Certified enrollment in a school district"* for the school years beginning July 1, 1987, July 1, 1988, and July 1, 1989, means that district's basic enrollment for the budget year beginning July 1, 1987, as defined in section 442.4, Code 1989. For each school year thereafter, certified enrollment in a school district means that district's basic enrollment for the budget year as defined in section 442.4, Code 1989, or section 257.2.
2. *"Enrollment served"* for the fiscal years beginning July 1, 1987, July 1, 1988, and July 1, 1989, means that area education agency's enrollment served for the budget year beginning July 1, 1987. For each school year thereafter, enrollment served means that area education agency's enrollment served for the budget year. Enrollment served shall be determined under section 257.37.*
3. *"General training requirements"* means requirements prescribed by a board of directors that provide for the acquisition of additional semester hours of graduate credit from an institution of higher education approved by the state board of education or the completion of staff development activities licensed by the board of educational examiners, except for programs developed by practitioner preparation institutions and area education agencies, for renewal of licenses issued under chapter 260.
4. *"Specialized training requirements"* means requirements prescribed by a board of directors to meet specific needs of the school district identified by the board of directors that provide for the acquisition of clearly defined skills through formal or informal education that are beyond the requirements necessary for initial licensing under chapter 260.
5. *"Teacher"* means an individual holding a practitioner's license issued under chapter 260, issued by the board of educational examiners, who is employed in a nonadministrative position by a school district or area education agency pursuant to a contract issued by a board of directors under section 279.13. A

teacher may be employed in both an administrative and a nonadministrative position by a board of directors and shall be considered a part-time teacher for the portion of time that the teacher is employed in a nonadministrative position.

Effective July 1, 1988, *"teacher"* includes a licensed individual employed on less than a full-time basis by a school district through a contract between the school district and an institution of higher education with a practitioner preparation program in which the licensed teacher is enrolled in any practitioner preparation program.

6. *"Teacher's regular compensation"* means the annual salary specified in a teacher's contract pursuant to the salary schedule adopted by the board of directors or negotiated under chapter 20. It does not include pay earned by a teacher for performance of additional noninstructional duties and does not include the costs of the employer's share of fringe benefits.

294A.3 Educational excellence fund.

An educational excellence fund is established in the office of treasurer of state to be administered by the department of education. Moneys appropriated by the general assembly for deposit in the fund shall be paid to school districts and area education agencies pursuant to the requirements of this chapter and shall be expended only to pay for increases in the regular compensation of teachers and other salary increases for teachers, to pay the costs of the employer's share of federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, payments on the salary increases, and to pay costs associated with providing specialized or general training. Moneys received by school districts and area education agencies shall not be used for pay earned by a teacher for performance of additional noninstructional duties.

If moneys are appropriated by the general assembly to the fund for distribution under this chapter the moneys shall be allocated by the department so that the allocations of moneys for phases I and II are made prior to the allocation of moneys for phase III.

87 Acts, ch 224, §3

DIVISION II

PHASE I

294A.4 Goal.

The goal of phase I is to provide for establishment of pay plans incorporating sufficient annual compensation to attract quality teachers to Iowa's public school system. This is accomplished by increasing the minimum salary. A beginning salary which is competitive with salaries paid to other professionals will provide incentive for top quality individuals to enter the teaching profession.

87 Acts, ch 224, §4

294A.5 Minimum salary supplement.

For the school year beginning July 1, 1987 and succeeding school years, the minimum annual salary paid to a full-time teacher as regular compensation shall be eighteen thousand dollars.

For the school year beginning July 1, 1987 for phase I, each school district and area education agency shall certify to the department of education by the third Friday in September the names of all teachers employed by the district or area education agency whose regular compensation is less than eighteen thousand dollars per year for that year and the amounts needed as minimum salary supplements. The minimum salary supplement for each eligible teacher is the total of the difference between eighteen thousand dollars and the teacher's regular compensation plus the amount required to pay the employer's share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary moneys.

The board of directors shall report the salaries of teachers employed on less than a full-time equivalent basis, and the amount of minimum salary supplement shall be prorated.

87 Acts, ch 224, §5

294A.6 Payments.

For the school year beginning July 1, 1987, the department of education shall notify the department of revenue and finance of the total minimum salary supplement to be paid to each school district and area education agency under phase I and the department of revenue and finance shall make the payments. For school years after the school year beginning July 1, 1987, if a school district or area education agency reduces the number of its full-time equivalent teachers below the number employed during the school year beginning July 1, 1987, the department of revenue and finance shall reduce the total minimum salary supplement payable to that school district or area education agency so that the amount paid is equal to the ratio of the number of full-time equivalent teachers employed in the school district or area education agency for that school year divided by the number of full-time equivalent teachers employed in the school district or area education agency for the school year beginning July 1, 1987 and multiplying that fraction by the total minimum salary supplement paid to that school district or area education agency for the school year beginning July 1, 1987.

If the moneys allocated for phase I for a school

year exceed the moneys required to pay the total minimum salary supplements to all school districts and area education agencies, the board of directors of a school district that has employed one or more additional teachers as a result of a whole grade sharing agreement completed under section 282.7 may request approval from the department of education for additional funding for its minimum salary supplement for that school year and succeeding school years if the other school district or districts that are parties to the sharing agreement have correspondingly reduced their number of teachers. If the department of education approves the payment of the additional salary supplement to a district, the department shall certify to the department of revenue and finance that the additional payment be made. The payment shall be equal to the amount of the difference between eighteen thousand dollars and the teacher's regular compensation, plus the amount required to make the payments on the additional salary moneys for the employer's share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294. If the phase I moneys remaining are insufficient to pay the entire amount approved by the department of education, the department of revenue and finance shall prorate the payments to school districts.

87 Acts, ch 224, §6; 89 Acts, ch 5, §1

294A.7 Reserved.

DIVISION III

PHASE II

294A.8 Goal.

The goal of phase II is to keep Iowa's best educators in the profession and assist in their development by providing general salary increases.

87 Acts, ch 224, §7

294A.9 Phase II program.

Phase II is established to improve the salaries of teachers. For each fiscal year through the fiscal year beginning July 1, 1990, the department of education shall allocate to each school district for the purpose of implementing phase II a per pupil amount equal to seventy-five dollars and ninety-three cents multiplied by the district's certified enrollment and to each area education agency for the purpose of implementing phase II a per pupil amount equal to three dollars and fifty-five cents multiplied by the enrollment served in the area education agency. Notwithstanding the per pupil amount of the payments specified in this section, for the fiscal year beginning July 1, 1991, and each succeeding fiscal year, the per pupil amounts upon which the phase II moneys are based shall be increased by an amount equal to the product of the state percent of growth calculated under section 257.8 and the per pupil amount for the previous fiscal year.

The department of education shall certify the amounts of the allocations for each school district and area education agency to the department of revenue and finance and the department of revenue and finance shall make the payments to school districts and area education agencies.

If a school district has discontinued grades under section 282.7, subsection 1, or students attend school in another school district, under an agreement with the board of the other school district, the board of directors of the district of residence shall transmit the phase II moneys allocated to the district for those students based upon the full-time equivalent attendance of those students to the board of the school district of attendance of the students.

If a school district uses teachers under a contract between the district and the area education agency in which the district is located, the school district shall transmit to the employing area education agency a portion of its phase II allocation based upon the portion that the salaries of teachers employed by the area education agency and assigned to the school district for a school year bears to the total teacher salaries paid in the district for that school year, including the salaries of the teachers employed by the area education agency.

If the school district or area education agency is organized under chapter 20 for collective bargaining purposes, the board of directors and certified bargaining representative for the licensed employees shall mutually agree upon a formula for distributing the phase II allocation among the teachers. For the school year beginning July 1, 1987 only, the parties shall follow the procedures specified in chapter 20 except that if the parties reach an impasse, neither impasse procedures agreed to by the parties nor sections 20.20 through 20.22 shall apply and the phase II allocation shall be divided as provided in section 294A.10. Negotiations under this section are subject to the scope of negotiations specified in section 20.9. If a board of directors and certified bargaining representative for licensed employees have not reached mutual agreement by July 15, 1987 for the distribution of the phase II payment, section 294A.10 will apply.

If the school district or area education agency is not organized for collective bargaining purposes, the board of directors shall determine the method of distribution.

294A.10 Failure to agree on distribution.

For the school year beginning July 1, 1987 only, if the board of directors and certified bargaining representative for the licensed employees have not reached agreement under section 294A.9, the board of directors shall divide the payment among the

teachers employed by the district or area education agency as follows:

1. All full-time teachers whose regular compensation is equal to or more than the minimum salary for phase I will receive an equal amount from the phase II allocation.

2. A teacher who will receive a minimum salary supplement under section 294A.5 will receive moneys equal to the difference between the amount from the phase II allocation and the minimum salary supplement paid to that teacher.

3. The amount from the phase II allocation will be prorated for a teacher employed on less than a full-time basis.

4. An amount from the phase II allocation includes the amount required to pay the employers' share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary.

294A.11 Reports.

By August 15, 1987, each school district and area education agency shall file a report with the department of education, on forms provided by the department of education, specifying the method used to distribute the phase II allocation.

Reports filed by area education agencies shall include a description of the method used to distribute phase II allocations to teachers employed by the area education agency working under contract in a school district.

DIVISION IV

PHASE III

294A.12 Goal.

The goal of phase III is to enhance the quality, effectiveness, and performance of Iowa's teachers by promoting teacher excellence. This will be accomplished through the development of performance-based pay plans and supplemental pay plans requiring additional instructional work assignments which may include specialized training or differential training, or both.

It is the intent of the general assembly that school districts and area education agencies incorporate into their planning for performance-based pay plans and supplemental pay plans, implementation of recommendations from recently issued national and state reports relating to the requirements of the educational system for meeting future educational needs, especially as they relate to the preparation, working conditions, and responsibilities of teachers, including but not limited to assistance to new teachers, development of teachers as instructional leaders in their schools and school districts, using teachers for evaluation and diagnosis of other teachers' techniques, and the implementation of sabbatical leaves. It is further the intent of the general assembly that real and fundamental change in the educational system must emerge from the school site if the education system is to remain relevant and that plans funded in this program must be an integral part of a comprehensive school district or area education agency effort toward meeting identified district or agency goals or needs.

87 Acts, ch 224, §11; 90 Acts, ch 1141, §1

Unnumbered paragraph 2 amended

294A.13 Phase III program.

For the school year beginning July 1, 1987 and succeeding school years, each school district and area education agency that meets the requirements of this section is eligible to receive moneys for the implementation under phase III of a performance-based pay plan or supplemental pay plan, or a combination of the two.

87 Acts, ch 224, §12

294A.14 Phase III payments.

For each fiscal year, the department shall allocate the remainder of the moneys appropriated by the general assembly to the fund for phase III, subject to section 294A.18. If fifty million dollars is allocated for phase III, the payments for an approved plan for a school district shall be equal to the product of a district's certified enrollment and ninety-eight dollars and sixty-three cents, and for an area education agency shall be equal to the product of an area education agency's enrollment served and four dollars and sixty cents. If the moneys allocated for phase III are either greater than or less than fifty million dollars, the department of education shall adjust the amount for each student in certified enrollment and each student in enrollment served based upon the amount allocated for phase III.

Notwithstanding the amount per pupil of the payments specified in this section, for the fiscal year beginning July 1, 1991, and each succeeding fiscal year, if a school district's or area education agency's approved phase III plan for a fiscal year contains a component that includes a performance-based pay plan which provides for salary increases for teachers who demonstrate superior performance in completing assigned duties or by participating in innovative education programs or comprehensive school transformation programs, the per pupil amount upon which the phase III moneys are based shall be increased by an amount equal to the product of the state percent of growth calculated under section 257.8 and the per pupil amount for the previous fiscal year.

If a school district has discontinued grades under section 282.7, subsection 1, or students attend school in another school district, under an agreement with the board of the other school district, the board of directors of the district of residence shall transmit the phase III moneys allocated to the district for those

students based upon the full-time equivalent attendance of those students to the board of the school district of attendance of the students.

A plan shall be developed using the procedure specified under section 294A.15. The plan shall provide for the establishment of a performance-based pay plan, a supplemental pay plan, a combination of the two pay plans, or comprehensive school transformation programs, and shall include a budget for the cost of implementing the plan. In addition to the costs of providing additional salary for teachers and the amount required to pay the employers' share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, and payments on the additional salary, the budget may include costs associated with providing specialized or general training. Moneys received under phase III shall not be used to employ additional employees of a school district, except that phase III moneys may be used to employ substitute teachers, part-time teachers, and other employees needed to implement plans that provide innovative staffing patterns or that require that a teacher employed on a full-time basis be absent from the classroom for specified periods for fulfilling other instructional duties. However, all teachers employed are eligible to receive additional salary under an approved plan.

For the purpose of this section, a performance-based pay plan shall provide for salary increases for teachers who demonstrate superior performance in completing assigned duties. The plan shall include the method used to determine superior performance of a teacher. For school districts, the plan may include assessments of specific teaching behavior, assessments of student performance, assessments of other characteristics associated with effective teaching, or a combination of these criteria.

For school districts, a performance-based pay plan may provide for additional salary for individual teachers, for teachers assigned to a specific discipline, or for all teachers assigned to an attendance center. For area education agencies, a performance-based pay plan may provide for additional salary for individual teachers, for additional salary for all teachers assigned to a specific discipline within an area education agency, or for additional salary for individual teachers assigned to a multidisciplinary team within an area education agency. If the plan provides additional salary for all teachers assigned to an attendance center, specific discipline, or multidisciplinary team, the receipt of additional salary by those teachers shall be determined on the basis of whether that attendance center, specific discipline, or multidisciplinary team meets specific objectives adopted for that attendance center, specific discipline, or multidisciplinary team. For school districts, the objectives may include, but are not limited to, decreasing the dropout rate, increasing the attendance rate, or accelerating the achievement growth of students enrolled in that attendance center.

If a performance-based pay plan provides additional salary for individual teachers:

1. The plan may provide for salary moneys in addition to the existing salary schedule of the school district or area education agency and may require the participation by the teacher in specialized training requirements.

2. The plan may provide for salary moneys by replacing the existing salary schedule or as an option to the existing salary schedule and may include specialized training requirements, general training requirements, and experience requirements.

A supplemental pay plan may provide for supplementing the costs of vocational agriculture programs as provided in section 294A.17.

For the purpose of this section, a supplemental pay plan in a school district shall provide for the payment of additional salary to teachers who participate in either additional instructional work assignments or specialized training during the regular school day or during an extended school day, school week, or school year. A supplemental pay plan in an area education agency shall provide for the payment of additional salary to teachers who participate in either additional work assignments or improvement of instruction activities with school districts during the regular school day or during an extended school day, school week, or school year.

For school districts, additional instructional work assignments may include but are not limited to general curriculum planning and development, vertical articulation of curriculum, horizontal curriculum coordination, development of educational measurement practices for the school district, attendance at workshops and other programs for service as cooperating teachers for student teachers, development of plans for assisting beginning teachers during their first year of teaching, attendance at summer staff development programs, development of staff development programs for other teachers to be presented during the school year, and other plans locally determined in the manner specified in section 294A.15 and approved by the department of education under section 294A.16 that are of equal importance or more appropriately meet the educational needs of the school district.

For area education agencies, additional instructional work assignments may include but are not limited to providing assistance and support to school districts in general curriculum planning and development, providing assistance to school districts in vertical articulation of curriculum and horizontal curriculum coordination, development of educational measurement practices for school districts in the area education agency, development of plans for assisting beginning teachers during their first year of teaching, attendance or instruction at summer staff development programs, development of staff development programs for school district teachers to be presented during the school year, and other plans determined in the manner specified in section 294A.15 and approved by the department of education under section 294A.16 that are of equal importance or more appropriately meet the educational needs of the area education agency.

Any summer school program, for which the teacher's salary is paid or supplemented under a supplemental pay plan, shall be open to nonpublic school students in the manner provided in section 256.12.

For purposes of this section, a comprehensive school transformation plan shall include, but is not limited to, providing salary increases to teachers who implement site-based decision making, building-based goal-oriented compensation mechanisms, or approved innovative educational programs, who focus on student outcomes, who direct accountability for student achievement, accountability for organizational success, and who work to expand community or business relationships.

294A.15 Development of plan.

The board of directors of a school district desiring to receive moneys under phase III shall appoint a committee consisting of representatives of school administrators, teachers, parents, and other individuals interested in the public schools of the school district to develop a proposal for distribution of phase III moneys to be submitted to the board of directors. The board of directors of an area education agency desiring to receive moneys under phase III shall appoint a committee of similar membership to develop a proposal. If the school district or area education agency is organized under chapter 20 for collective bargaining purposes, the board shall provide that one of the teacher members of the committee is an individual selected by the certified bargaining representative for licensed employees of the district or area education agency. The proposal developed by the committee shall be submitted to the board of directors of the school district or area education agency for consideration by the board in developing a plan. For the school year beginning July 1, 1987, if the school district or area education agency is organized for collective bargaining purposes under chapter 20, the portions of the proposed plan that are within the scope of negotiations specified in section 20.9 require the mutual agreement by January 1, 1988 of both the board of directors of the school district or area education agency and the certified bargaining representative for the licensed employees. In succeeding years, if the school district or area education agency is organized for collective bargaining purposes, the portions of the proposed plan that are within the scope of the negotiations specified in section 20.9 are subject to chapter 20.

Effective July 1, 1989, a plan adopted by the board of directors of a school district or area education agency may include as a part of the plan a proposal that expands a performance-based pay plan or a supplemental pay plan, or a combination of the two pay plans, that meets the criteria listed in section 294A.14 and was in effect in the school district or area education agency prior to July 1, 1987. The budget for the plan submitted to the department of education shall include both the general fund moneys, which must be equal to those used prior to July 1, 1987, and the phase III moneys which expand the activity, and is for programs that would meet the criteria listed in section 294A.14.

Nothing in this chapter shall be construed to expand or restrict the scope of negotiations in section 20.9.

294A.16 Plan — moneys.

A plan adopted by the board of directors of a school district or area education agency shall be submitted to the department of education not later than March 15 of a school year for that school year for a school district and for an area education agency. Amendments to multiple year plans may be submitted annually.

If a school district uses teachers under a contract between the district and the area education agency in which the district is located and both the school district and the area education agency have approved phase III plans, the school district shall transmit to the employing area education agency a portion of its phase III moneys based upon the portion that the salaries of teachers employed by the area education agency and assigned to the school district for the school year bears to the total teacher salaries paid in the district for that school year, including the salaries of the teachers employed by the area education agency. If the area education agency has an approved phase III plan and the school district does not, the department of management shall transmit phase III moneys to the area education agency for those teachers from the phase III money that would have been paid to the school district if the school district had had an approved phase III plan using the formula that would have been used if the school district had had an approved phase III plan.

The department of education shall review each plan and its budget and notify the department of management of the names of school districts and area education agencies with approved plans.

A school district or area education agency, which receives money for a school year for an approved phase III plan, may retain up to fifty percent of the moneys allocated to the district or area education agency for the next succeeding school year, in order to continue the approved plan. 296.7 Indebtedness for insurance authorized — tax levy.

1. A school district or community college corporation may contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district or corporation to make payments beyond its current budget year for one or more of the following mechanisms to protect the school district or corporation from tort liability, loss of property, environmental hazards, or any other risk associated with the operation of the school district or corporation:

a. To procure or provide for a policy of insurance.

b. To provide a self-insurance program.

c. To establish and maintain a local government risk pool.

However, this subsection does not apply to an insurance program described in subsection 3.

2. For purposes of subsection 1, an employee benefit plan which includes a specific or aggregate excess loss coverage or a program that self-insures only a per-employee or per-family deductible for each year and which transfers the risk remaining beyond this deductible is not a self-insurance program, but is instead an insurance program. As used in this section, an *"employee benefit plan"* includes, but is not limited to benefits for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance costs or benefits.

3. A school district, providing an insurance program as described in subsection 2, shall not contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the

school district to make payments beyond its current budget year for that employee benefit plan. A school district may, however, apply to the school budget review committee for relief if necessitated by the expenses in the school district's insurance program as described in subsection 2.

4. Taxes may be levied in excess of any limitation imposed by statute for payment of one or more of the following authorized by subsection 1:

a. Principal, premium, or interest on bonds.

b. Premium on an insurance policy, including a stop loss or reinsurance policy, except as limited by subsection 3.

c. Costs of a self-insurance program.

d. Costs of a local government risk pool.

e. Amounts payable under an insurance agreement.

However, for a school district, a tax levied under this section shall be included in the district management levy under section 298.4.

5. A self-insurance program or local government risk pool authorized by subsection 1 is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

6. Notwithstanding the other provisions of this section or any other statute, the tax levy authorized by this section shall not be used to pay the costs of employee benefits, including, but not limited to costs for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance benefits.

7. If the board by resolution restricts the use of money in a fund as a reserve for uninsured liability or a self-insurance program, the use shall be restricted and unavailable for any other purpose until the board removes the restriction. The removal is not effective until all obligations of the restricted fund have been satisfied, or the next fiscal year, whichever occurs later.

297.22 Power to sell, lease, or dispose of property — tax.

1. The board of directors of a school district may sell, lease, or dispose of, in whole or in part, a schoolhouse, site, or other property belonging to the district. However, if the appraised value exceeds twenty-five thousand dollars, the board shall hold a public hearing before the board takes final action on the property.

Proceeds from the sale, lease or disposition of real property shall be placed in the schoolhouse fund and proceeds from the sale, lease or disposition of property other than real property shall be placed in the general fund.

Before the board of directors may sell, lease or dispose of any property belonging to the school district it shall comply with the requirements set forth in sections 297.15 to 297.20 and sections 297.23 and 297.24. Any real estate proposed to be sold shall be appraised by three disinterested freeholders residing in the school district and appointed by the chief judge of the judicial district of the county in which said real estate is located from the list of compensation commissioners.

The board of directors of a school district may sell, lease, exchange, give, or grant, and accept any interest in real property to, with, or from a county, municipal corporation, school district, or township if the real property is within the jurisdiction of both the grantor and grantee. In this case sections 297.15 to 297.20, sections 297.23 and 297.24, and appraisal requirements of this section do not apply to the transaction.

The board of directors of a school district may lease a portion of an existing school building in which the remaining portion of the building will be used for school purposes for a period of not to exceed five years. The lease may be renewed at the option of the board. Sections 297.15 to 297.20, sections 297.23 and 297.24, and the appraisal requirements of this section do not apply to the lease of a portion of an existing school building. A school district shall pay out of the revenue from a lease to the state of Iowa, and to the city, school district and any other political subdivision authorized to levy taxes, an amount as determined by this section. The amount shall be determined by applying the annual tax rate of the taxing district to the assessed value of the portion of the building leased, prorated for the term of the lease during the appropriate taxing period. The provisions of this section relating to the payment of property tax because of leases shall only apply to leases to private, for-profit entities which lease a portion of a school building for a period of thirty or more consecutive days.

2. The provisions in subsection 1, relating to the sale, lease, or disposition of school district property do not apply to student-constructed buildings and the property on which student-constructed buildings are located. LOAN AGREEMENTS

297.35 Continuation of loan agreement.

A loan agreement between a school district and a bank, investment banker, trust company, insurance company, or insurance group that was made under section 297.36, Code 1989, prior to July 1, 1991, in order to make immediately available proceeds of the schoolhouse tax approved by the voters prior to July 1, 1991, and the levy of taxes to pay principal and interest thereafter, shall continue in effect for the duration of the loan agreement.

89 Acts, ch 135, §104

Effective July 1, 1991; 89 Acts, ch 135, §142
NEW section

297.36 Loan agreements.

In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.

By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.

The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.

The proceeds of a loan must be deposited in a fund which is separate from other district funds. Warrants paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the sinking fund for the loan before the taxes are otherwise made available to the school corporation for other school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements if the aggregate of the amount payable under all of the loan agreements does not exceed the proceeds of the voter-approved physical plant and equipment levy.

298.2 Imposition of physical plant and equipment levy.

1. A physical plant and equipment levy of not exceeding one dollar per thousand dollars of assessed valuation in the district is established except as otherwise provided in this subsection. The physical plant and equipment levy consists of the regular physical plant and equipment levy of not exceeding thirty-three cents per thousand dollars of assessed valuation in the district and a voter-approved physical plant and equipment levy of not exceeding sixty-seven cents per thousand dollars of assessed valuation in the district. However, the voter-approved physical plant and equipment levy may consist of a combination of a physical plant and equipment property tax levy and a physical plant and equipment income surtax as provided in subsection 3 with the maximum amount levied and imposed limited to an amount that could be raised by a sixty-seven cent property tax levy. The levy limitations of this subsection are subject to subsection 5.

2. The board of directors of a school district may certify for levy by March 15 of a school year a tax on all taxable property in the school district for the regular physical plant and equipment levy.

3. The board may, and upon the written request of not less than one hundred eligible electors or thirty percent of the number of eligible electors voting at the last regular school election, whichever is greater, shall, direct the county commissioner of elections to provide for submitting the proposition of levying the voter-approved physical plant and equipment levy for a period of time authorized by the voters in the notice of election, not to exceed ten years, in the notice of the regular school election. The proposition is adopted if a majority of those voting on the proposition at the election approves it. The voter-approved physical plant and equipment levy shall be funded either by a physical plant and equipment property tax or by a combination of a physical plant and equipment property tax and a physical plant and equipment income surtax, as determined by the board. However, if the board intends to enter into a rental or lease arrangement under section 279.26, or intends to enter into a loan agreement under section 297.36, only a property tax shall be levied for those purposes. Subject to the limitations of section 298.14, if the board uses a combination of a physical plant and equipment property tax and a physical plant and equipment surtax, for each fiscal year the board shall determine the percent of income surtax to be imposed expressed as full percentage points, not to exceed twenty percent.

If a combination of a property tax and income surtax is used, by March 15 of the previous school year, the board shall certify the percent of the income surtax to be imposed and the amount to be raised to the department of management and the department of management shall establish the rate of the property tax and income surtax for the school year. The physical plant and equipment property tax and income surtax shall be levied or imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26.

4. The proposition to levy the voter-approved physical plant and equipment levy is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has adopted the voter-approved physical plant and equipment levy and if the voters have not voted upon the proposition to levy the voter-approved physical plant and equipment levy in the reorganized district, the existing voter-approved physical plant and equipment levy is in effect for the reorganized district for the least amount and the shortest time for which it is in effect in any of the districts.

Authorized levies for the period of time approved are not affected as a result of a failure of a proposition proposed to expand the purposes for which the funds may be expended.

5. If the board of directors of a school district in which the voters have authorized the schoolhouse tax prior to July 1, 1991, has entered into a rental or lease arrangement under section 279.26, Code 1989, or has entered into a loan agreement under section 297.36, Code 1989, the levy shall continue for the period authorized and the maximum levy that can be

authorized under the voter-approved physical plant and equipment levy is reduced by the rate of the schoolhouse tax.

298.18 Bond tax — election — leasing buildings.

The board of each school corporation shall, when estimating and certifying the amount of money required for general purposes, estimate and certify to the board of supervisors of the proper county for the schoolhouse fund the amount required to pay interest due or that may become due for the fiscal year beginning July 1, thereafter, upon lawful bonded indebtedness, and in addition thereto such amount as the board may deem necessary to apply on the principal.

The amount estimated and certified to apply on principal and interest for any one year shall not exceed two dollars and seventy cents per thousand dollars of the assessed valuation of the taxable property of the school corporation except as hereinafter provided.

For the sole purpose of computing the amount of bonds which may be issued as a result of the application of any limitation referred to in this section, all interest on the bonds in excess of that accruing in the first twelve months may be excluded from the first annual levy of taxes, so that the need for including more than one year's interest in the first annual levy of taxes to pay the bonds and interest shall not operate to further restrict the amount of bonds which may be issued, and in certifying the annual levies to the county auditor or auditors such first annual levy of taxes shall be sufficient to pay all principal of and interest on said bonds becoming due prior to the next succeeding annual levy and the full amount of such first annual levy shall be entered for collection by said auditor or auditors, as provided in chapter 76.

The amount estimated and certified to apply on principal and interest for any one year may exceed two dollars and seventy cents per thousand dollars of assessed value by the amount approved by the voters of the school corporation, but not exceeding four dollars and five cents per thousand of the assessed value of the taxable property within any school corporation, provided that the qualified voters of such school corporation have first approved such increased amount at a special election, which may be held at the same time as the regular school election. The proposition submitted to the voters at such special election shall be in substantially the following form:

Shall the board of directors of the ..... (insert name of school corporation) in the County of ....., State of Iowa, be authorized to levy annually a tax exceeding two dollars and seventy cents per thousand dollars, but not exceeding ..... dollars and ..... cents per thousand dollars of the assessed value of the taxable property within said school corporation to pay the principal of and interest on bonded indebtedness of said school corporation, it being understood that the approval of this proposition shall not limit the source of payment of the bonds and interest but shall only operate to restrict the amount of bonds which may be issued?

Notice of the election shall be given by the county commissioner of elections according to section 49.53. The election shall be held on a date not less than four nor more than twenty days after the last publication of the notice. At such election the ballot used for the submission of said proposition shall be in substantially the form for submitting special questions at general elections. The county commissioner of elections shall conduct the election pursuant to the provisions of chapters 39 to 53 and certify the results to the board of directors. Such proposition shall not be deemed carried or adopted unless the vote in favor of such proposition is equal to at least sixty percent of the total vote cast for and against said proposition at said election. Whenever such a proposition has been approved by the voters of a school corporation as hereinbefore provided, no further approval of the voters of such school corporation shall be required as a result of any subsequent change in the boundaries of such school corporation.

The voted tax levy referred to herein shall not limit the source of payment of bonds and interest but shall only restrict the amount of bonds which may be issued.

The ability of a school corporation to exceed two dollars and seventy cents per thousand dollars of assessed value to service principal and interest payments on bonded indebtedness is limited and conferred only to those school corporations engaged in the administration of elementary and secondary education.

Provided further that if a school corporation leases a building or property, which has been used as a junior college by such corporation, to a community college, the annual amounts certified as herein provided by such leasing school corporation for payment of interest and principal due on lawful bonded indebtedness incurred by such leasing school corporation for purchasing, building, furnishing, recon-

structing, repairing, improving or remodeling the building leased or acquiring or adding to the site of such property leased, to the extent of the respective annual rent the school corporation will receive under such lease, shall not be considered as a part of the total amount estimated and certified for the purposes of determining if such amount exceeds any limitation contained in this section.

In cases where the commission deems it necessary, it may hold a public hearing concerning the application. The commission shall vote upon any application for a certificate of appropriateness within sixty days after its submission to the commission.

If the commission determines that the proposed construction, reconstruction, alteration, restoration, moving, demolition, or the change in use is appropriate, it shall forthwith approve such application and shall issue to the applicant a certificate of appropriateness.

If the commission determines that the proposed construction, reconstruction, alteration, restoration, moving or demolition of buildings, structures, appurtenant fixtures, outdoor advertising signs or natural features, or the proposed change in use would be incongruous with the historical, architectural, archaeological or cultural aspects of the district, a certificate of appropriateness shall not be issued, and the commission shall place upon its records the reasons for such determination and shall notify the applicant of such determination, furnishing the applicant an attested copy of its reasons and its recommendations, if any, as appearing in the records of the commission.

The commission may approve the application in any case where a person would suffer extreme hardship, not including loss of profit, unless the certificate of appropriateness was issued. [C77, 79, 81, §303.31]

303.32 Ordinary maintenance and repair.

Nothing in this subchapter of this chapter shall be construed to prevent the ordinary maintenance or repair of any exterior feature in a district which does not involve a change in design, material or outer appearance, nor to prevent the construction, reconstruction, alteration, restoration or demolition of any such feature which is required by public safety because of an unsafe or dangerous condition.

[C77, 79, 81, §303.32]

303.33 Termination of district.

Two years after the establishment of a district, a referendum for the termination of the district shall be held if ten percent of the eligible voters in the district so request. If the qualified electors, by a majority of those voting, favor termination, this Act* will no longer have any effect on the property formerly included in the district.

If an election is held to terminate a district under this section and such attempt fails, another referendum for termination of the district in question shall not take place for a period of two years.

[C77, 79, 81, §303.33]

*See 76 Acts, ch 1159, §14

303.34 Areas of historical significance.

The provisions of sections 303.20 to 303.33 do not apply within the limits of a city. However, in order for a city to designate an area which is deemed to merit preservation as an area of historical significance, the following shall apply:

1. An area of historical significance shall be proposed by the governing body of the city on its own motion or upon the receipt by the governing body of a petition signed by residents of the city. The city shall submit a description of the proposed area of historical significance or the petition describing the proposed area, if the proposed area is a result of the receipt of a petition, to the historical division which shall determine if the proposed area meets the criteria in subsection 2 and may make recommendations concerning the proposed area. Any recommendations made by the division shall be made available by the city to the public for viewing during normal working hours at a city government place of public access.

2. A city shall not designate an area as an area of historical significance unless it contains contiguous pieces of property under diverse ownership which meets the criteria specified in section 303.20, subsection 1, paragraphs *"a"* to *"f"*.

3. A city may provide by ordinance for the establishment of a commission to deal with matters involving areas of historical significance but shall provide by ordinance for such commission upon the enactment of the ordinance designating an area as an area of historical significance as required in subsection 4. Upon the establishment of the commission the city shall provide by ordinance for the method of appointment, the number, and terms, of members of the commission and for the duties and powers of the commission. The commission shall contain not less than three members. The members of the commission shall be appointed with due regard to proper representation of residents and property owners of the city and their relevant fields of knowledge including but not limited to history, urban planning, architecture, archaeology, law, and sociology. At least one resident of each designated area of historical significance shall be appointed to the commission. Cities with a population of more than fifty thousand shall not appoint more than one-third of the members to the commission of an area of historical significance that are members of a city zoning commission appointed pursuant to chapter 414. The commission shall have the power to approve or deny applications for proposed alterations to exterior features within an area designated as an area of historical significance. An aggrieved party may appeal the commission's action to the governing body of the city. If not satisfied by the decision of the governing body, the party may appeal within sixty days of the governing body's decision to the district court for the county in which the designated area is located. On appeal the governing body or the district court as the case may be shall consider whether the commission has exercised its powers and followed the guidelines established by the law and ordinance, and whether the commission's action was patently arbitrary or capricious.

4. An area shall be designated an area of historical significance upon enactment of an ordinance of the city. Before the ordinance or an amendment to it is enacted, the governing body of the city shall submit the ordinance or amendment to the historical division for its review and recommendations.

For the purpose of this section, the term *"city"* includes a special land use district established pursuant to subchapter IV of this chapter.

The last publication shall not be less than twenty days prior to the date set for the hearing of the petition. If no such newspaper is published in the proposed district, then notice shall be by posting at least five copies of the notice in the proposed district at least twenty days before the hearing. Proof of giving notice shall be made by affidavit of the publisher or affidavit of the person who posted the notices, and the proof shall be on file with the county auditor at the time the hearing begins. The board of supervisors to whom the petition is addressed shall preside at the hearing provided for in section 303.44 and shall continue the hearing in session, with adjournments from day to day, if necessary, until completed, without being required to give any further notice of it. Proof of the residence and qualification of the petitioners as qualified voters shall be made by affidavit or otherwise as the board may direct. The board shall consider the boundaries of the proposed land use district, whether they shall be as described in the petition or otherwise, and for that purpose may alter and amend the petition and limit or change the boundaries of the proposed district as stated in the petition. The boundaries of a proposed district shall not be changed to include property not included in the original petition and published notice until the owner of that property is given notice as on the original hearing. 2. Hear and decide special exceptions to the terms of the ordinance upon which the board is required to pass under the ordinance.

3. Authorize upon appeal, in specific cases, a variance from the terms of the land use plan which are not contrary to the public interest, where owing to special conditions a literal enforcement of the plan would result in unnecessary hardship, and so that the spirit of the plan shall be observed and substantial justice done.

In exercising its powers the board may, in conformity with this subchapter, reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from and may make the order, requirement, decision, or determination as should be made, and to that end have all the powers of the administrative officer of the board.

The allowance of the writ does not stay proceedings upon the decision appealed from, but the court may, on application, on notice to the board and on due cause shown, grant a restraining order.

83 Acts, ch 108, §22

303.63 Trial to court.

If upon the hearing, which shall be tried de novo, it appears to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a referee to take evidence as it directs and report the evidence to the court with findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

Costs shall not be allowed against the board unless it appears to the court that it acted with gross negligence or in bad faith or with malice in making the decision appealed from.

The library division of the department of cultural affairs is hereby authorized to enter into interstate library compacts on behalf of the state of Iowa with any state bordering on Iowa which legally joins therein in substantially the following form.

The contracting states agree that:

ARTICLE I — PURPOSE

Because the desire for the services provided by public libraries transcends governmental boundaries and can be provided most effectively by giving such services to communities of people regardless of jurisdictional lines, it is the policy of the states who are parties to this compact to co-operate and share their responsibilities in providing joint and co-operative library services in areas where the distribution of population makes the provision of library service on an interstate basis the most effective way to provide adequate and efficient services.

ARTICLE II — PROCEDURE

The appropriate state library officials and agencies having comparable powers with those of the Iowa library commission of the party states or any of their political subdivisions may, on behalf of said states or political subdivisions, enter into agreements for the co-operative or joint conduct of library services when they shall find that the executions of agreements to that end as provided herein will facilitate library services.

ARTICLE III — CONTENT

Any such agreement for the co-operative or joint establishment, operation or use of library services, facilities, personnel, equipment, materials or other items not excluded because of failure to enumerate shall, as among the parties of the agreement:

1. Detail the specific nature of the services, facilities, properties or personnel to which it is applicable;

ARTICLE V — ADMINISTRATOR

Each state shall designate a compact administrator with whom copies of all agreements to which the state or any subdivision thereof is party shall be filed. The administrator shall have such powers as may be conferred by the laws of the administrator's state and may consult and co-operate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact.

ARTICLE VI — EFFECTIVE DATE

This compact shall become operative when entered in by two or more entities having the powers enumerated herein.

ARTICLE VII — RENUNCIATION

This compact shall continue in force and remain binding upon each party state until six months after

any such state has given notice of repeal by the legislature. Such withdrawal shall not be construed to relieve any party to an agreement authorized by Articles II and III of the compact from the obligation of that agreement prior to the end of its stipulated period of duration.

ARTICLE VIII — SEVERABILITY — CONSTRUCTION

The provisions of this compact shall be severable. It is intended that the provisions of this compact be reasonably and liberally construed.

9. *Abandoned mine.* When any underground mine is worked out or is about to be abandoned or indefinitely closed, the operator of the same shall make or cause to be made a completed and extended map of the mine and the result of the same shall be duly extended on all maps of the mine and copies thereof so as to show all excavations and the most advanced workings of the mine, and their exact relation to the boundary or section lines on the surface, and deliver to the state geologist a copy of the completed map.

10. *Copies furnished.* The state geologist shall provide the division of soil conservation within the department of agriculture and land stewardship a copy of each map and map extension received by the geologist under this section.

305B.4 Conservation or disposal of loaned property.

1. Unless there is a written loan agreement to the contrary, a museum may apply conservation measures to or dispose of property on loan to the museum without the lender's or claimant's permission, or formal notice, if immediate action is required to protect the property on loan or other property in the custody of the museum or if the property on loan is a hazard to the health and safety of the public or the museum staff and if any of the following apply:

a. The museum is unable to reach the lender or claimant at the lender's or claimant's last known address or phone number if action is to be taken within more than three days but less than one week from the time the museum determined action was necessary.

(2) Exercised reasonable care in the choice and application of conservation measures.

88 Acts, ch 1117, §4

305B.5 Notice of injury or loss.

A museum shall give a lender or claimant prompt notice of any known injury to or loss of property on loan. The department of cultural affairs shall adopt by rule a form for notice of injury or loss, no later than January 1, 1989, and shall distribute the rule and form to all identified museums in Iowa within sixty days after adoption of the rule. The notice shall be mailed to the lender's or claimant's last known address in event of injury or loss of property on loan to the museum. Published notice of injury or loss of undocumented property shall not be required.

88 Acts, ch 1117, §5

305B.6 Notice of intent to terminate loan — acquiring title to loaned property.

1. A museum may acquire title to loaned property pursuant to this section. A museum may give notice of termination of a loan of property at any time if either of the following apply:

a. The property was loaned to the museum for an indefinite term.

b. The property was loaned to the museum for a specified term, and that term has expired.

2. If the lender or claimant does not respond to the notice of termination provided under subsection 1 within one year by filing a notice of intent to preserve an interest in property on loan, the museum acquires title to the property.

3. A notice of intent to terminate a loan must include a statement containing substantially the following information:

"The records of (name of museum) indicate that you have property on loan to it. The institution wishes to terminate the loan. You must contact the institution, establish your ownership of the property pursuant to section 305B.8, and make arrangements to collect the property. If you fail to do so promptly, you will be considered to have donated the property to the institution."

88 Acts, ch 1117, §6

305B.7 Acquiring title to undocumented property.

1. A museum may acquire title to undocumented property held by a museum for seven years or longer with no valid claim or written contact by any person, all verifiable through the museum's written records,

by giving notice of acquisition of title to undocumented property.

2. If a lender or claimant does not respond to the notice provided in subsection 1 within three years by filing a notice of intent to retain an interest in property on loan, the museum's title to the property becomes uncontestable under section 305B.9.

3. A notice of acquisition of title must include a statement containing substantially the following information:

"The records of (name of museum) fail to indicate the owner of record of certain property in its possession. The museum intends to acquire title to the below described property: (general description of the property). If you claim ownership or other legal interest in this property you must contact the institution, establish your ownership of the property pursuant to section 305B.8, and make arrangements to collect the property. If you fail to do so promptly, you will be considered to have waived any claim you may have had to the property."

88 Acts, ch 1117, §7

305B.8 Notice of intent to preserve an interest in property — requirements — form — disclosure.

1. A notice of intent to preserve an interest in property on loan to a museum filed pursuant to this chapter shall be in writing and contain all of the following information:

a. A description of the property adequate to enable the museum to identify the property.

b. Documentation sufficient to establish the claimant as owner of the property.

c. A statement attesting to the truth, to the best of the signer's knowledge, of all information included in or with the notice.

d. The signature, under penalty of perjury, of the claimant or a person authorized to act on behalf of the claimant.

2. The museum need not retain a notice which does not meet the requirements set forth in subsection 1. If, however, the museum does not intend to retain a notice for this reason, the museum shall promptly notify the claimant at the address given on the notice that the museum believes the notice is ineffective to preserve an interest, and the reasons for the insufficiency. The fact that a museum retains a notice under section 305B.12 does not mean that the museum accepts the sufficiency or accuracy of the notice or that the notice is effective to preserve an interest in property on loan to the museum.

3. The department of cultural affairs shall adopt by rule a form for notice of intent to preserve an interest in property on loan to a museum. The form shall satisfy the requirements of subsection 1 and shall notify the claimant of the rights and procedures to preserve an interest in museum property. The form shall also facilitate recordkeeping and record retrieval by a museum. At a minimum the form shall provide a place for recording evidence of receipt of a notice by a museum, including the date of receipt, signature of the person receiving the notice, and the date on which a copy of the receipt is returned to the claimant.

88 Acts, ch 1117, §8

305B.9 Limitations on actions against museums.

1. An action shall not be brought against a museum for damages because of injury to or loss of property loaned to the museum more than three years from the date the museum gives the lender or claimant notice of the injury or loss or ten years from the date of the injury or loss, whichever occurs earlier.

2. An action shall not be brought against a museum to recover property on loan more than one year from the date the museum gives the lender or claimant notice of its intent to terminate the loan or notice of acquisition of title to undocumented property.

3. An action shall not be brought against a museum to recover property on loan more than seven years from the date of the last written contact between the lender or claimant and the museum as evidenced by the museum's records.

4. A lender or claimant is considered to have donated loaned property to the museum if the lender fails to file an action to recover the property on loan to the museum within the periods specified in subsections 1 through 3.

5. A person who purchases property from a museum acquires good title to the property if the museum represents that it has acquired title to the property pursuant to subsection 4.

6. Notwithstanding subsections 3 and 4, a lender or claimant who was not given notice as provided in this chapter that the museum intended to terminate a loan, as provided in section 305B.6, and who proves that the museum received an adequate notice of intent to preserve an interest in loaned property, which satisfies all of the requirements of section 305B.8, within the seven years immediately preceding the filing of an action to recover the property, may recover the property or, if the property has been disposed of, the reasonable value of the property at the time it was disposed of plus interest at the legal rate.

7. A museum is not liable at any time, in the absence of a court order, for returning property to the original lender, even if a claimant other than the lender has filed a notice of intent to preserve an interest in property. If persons claim competing interests in property in the possession of a museum, the burden is upon the claimants to prove their interest in an action in equity initiated by a claimant. A museum is not liable at any time for returning property to an uncontested claimant who produced reasonable proof of ownership pursuant to section 305B.8.

88 Acts, ch 1117, §9

305B.10 Museum obligations.

In order to take title pursuant to this chapter a museum has the following obligations to a lender or claimant:

1. The museum shall retain all written records regarding the property for at least three years from the date of taking title pursuant to this chapter.

2. The museum shall keep written records on all loaned property acquired pursuant to section 305B.6. Records shall contain the following information:

a. Lender's name, address, and phone number.

b. Claimant's name, address, and phone number.

c. The nature and terms of the loan.

d. The beginning date of the loan period, if known.

3. A museum accepting a loan of property on or after January 1, 1989, shall inform the lender in writing at the time of the loan of the provisions of this chapter. A copy of the form notice prescribed in section 305B.8, or a citation to this chapter, is adequate for this purpose.

4. The museum is responsible for notifying a lender or claimant of the museum's change of address or dissolution.

88 Acts, ch 1117, §10

305B.11 Required museum recordkeeping.

On or after January 1, 1989, a museum shall at minimum maintain and retain the following records, either originals or accurate copies, for a period of not less than twenty-five years:

1. A notice of intent to preserve an interest in property.

2. The loan agreement, if any, and a receipt or ledger for property on loan.

c. Donor's name, address, and phone number.

d. Seller's name, address, and phone number.

e. The nature and terms of the transaction (loan for specified term, loan for unspecified term, donation, purchase, etc.).

f. The beginning date of the loan period or transaction date.

The department of cultural affairs may by rule determine the minimum form and substance of recordkeeping by museums with regard to museum property to implement this chapter.

88 Acts, ch 1117, §11

305B.12 Lender obligations to museum.

1. The lender or claimant of property on loan to a museum shall notify the museum of a change of address or change in ownership of the property. Failure to notify the museum of these changes may result in the lender's or claimant's loss of rights in the property.

2. The lender or claimant of property on loan to a museum may file with the museum a notice of intent to preserve an interest in the property as provided for in section 305B.8. The filing of a notice of intent to preserve an interest in property on loan to a museum does not validate or make enforceable any claim which would be extinguished under the terms of a written agreement, or which would otherwise be invalid or unenforceable.

88 Acts, ch 1117, §12

305B.13 Retroactive applicability.

1. Sections 305B.1 through 305B.8 are retroactively applicable to all property in the possession of a museum within the state on or after January 1, 1988.

2. Section 305B.9 is effective July 1, 1989, and when effective is retroactively applicable to all property in the possession of the museum before July 1, 1989, and is prospectively applicable to all property in the possession of the museum on or after July 1, 1989, for which a claim is filed on or after July 1, 1989.

b. The arterial system.
c. The arterial connector system.
d. The trunk system.
e. The trunk collector system.
f. The area service system.
g. The municipal arterial system.
h. The municipal collector system.
i. The municipal service system.
j. The municipal residential alley system.
k. The state park, state institution and other state land road system.
l. The county conservation parkway system.

2. *Definitions of road and street systems.* For the

purpose of functionally classifying the roads and streets of this state, the following words and phrases relating to roads and streets shall have the following meanings:

a. The *freeway-expressway system* shall consist of those roads connecting and serving the major urban and regional areas of the state with high volume, long-distance traffic movements, and generally connecting with like roads of adjacent states. The national system of interstate and defense highways shall be a part of the freeway-expressway system. The freeway-expressway system, including the national interstate and defense highway mileage, shall not exceed two thousand six hundred sixty miles.

b. The *arterial system* shall consist of those roads which connect the freeway-expressway system with the arterial connector system, or which serve long-distance movements of traffic, or which serve as collectors of long-distance traffic from other systems to the freeway-expressway system. The arterial system shall not exceed three thousand five hundred miles.

c. The *arterial connector system* shall consist of those roads providing service for short-distance intrastate and interstate traffic, or providing connections between highways classified as arterial or freeway-expressway.

d. The *trunk system* shall consist of those intracounty and intercounty roads which serve principal traffic generating areas, and connect such areas to other trunk roads and roads on the arterial or freeway-expressway system. The trunk system shall not exceed fifteen thousand miles and shall include, but not be limited to, the major federal aid secondary roads of the state.

e. The *trunk collector system* shall consist of those roads providing service for short-distance intracounty and intercounty traffic, or providing connections between roads classified as trunk and area service. The trunk collector system shall not exceed twenty thousand miles. The trunk collector system and the trunk system shall constitute the farm-to-market road system of the state.

f. The *area service system* shall include those public roads outside of municipalities not otherwise classified.

g. The *municipal arterial system* shall consist of those streets within municipalities not included in other classifications which connect principal traffic generating areas or connect such areas with other systems. The municipal arterial system shall not exceed fifteen percent of the entire street mileage under the jurisdiction of a municipality, except that municipalities under two thousand population may exceed such limitation.

h. The *municipal collector system* shall consist of those streets within municipalities that collect traffic from the municipal service system and connect to other systems. The municipal collector system shall not exceed twenty percent of the entire street mileage under jurisdiction of the municipality, except that municipalities under two thousand population may exceed such limitation.

i. The *municipal service system* shall consist of those streets and commercial alleys within municipalities which serve primarily as access to commercial and residential property and shall also include streets within municipal parks.

j. The *municipal residential alley system* shall consist of those alleys which serve primarily as secondary access to residential property.

306.4 Jurisdiction of systems.

The jurisdiction and control over the roads and streets of the state are vested as follows:

1. Jurisdiction and control over the primary roads shall be vested in the department.

2. Jurisdiction and control over the secondary roads shall be vested in the county board of supervisors of the respective counties.

3. Jurisdiction and control over the municipal street system shall be vested in the governing bodies of each municipality; except that the department and the municipal governing body shall exercise concurrent jurisdiction over the municipal extensions of primary roads in all municipalities. When concurrent jurisdiction is exercised, the department shall consult with the municipal governing body as to the kind and type of construction, reconstruction, repair, and maintenance and the two parties shall enter into agreements with each other as to the division of costs thereof.

When the two parties cannot initially come to agreement as to the division of costs under this subsection, they shall contract with an organization in this state to provide mediation services. The costs of the mediation services shall be equally allocated between the two parties. If after submitting to mediation the parties still cannot come to agreement as to the division of costs, the mediator shall sign a statement that the parties did not reach an agreement, and the parties shall then submit the matter for binding arbitration to a mutually agreed-upon third party. If the parties cannot agree upon a third-party arbitrator, they shall submit the matter to an arbitrator selected under the rules of the American arbitration association.

4. Jurisdiction and control over the roads and streets in any state park, state institution or other state land shall be vested in the board, commission, or agency in control of such park, institution, or other state land; except that:

a. The department and the controlling agency shall have concurrent jurisdiction over any road which is an extension of a primary road and which both enters and exits from the state land at separate points. The department may expend the moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement the jurisdiction and control of such road shall remain in the department.

b. The board of supervisors of any county and the controlling state agency shall have concurrent jurisdiction over any road which is an extension of a secondary road and which both enters and exits from the state land at separate points. The board of supervisors of any county may expend the moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such road shall remain in the board of supervisors of the county.

5. Jurisdiction and control over parkways within county parks and conservation areas shall be vested in the county conservation boards within their respective counties; except that:

a. The department and the county conservation board shall have concurrent jurisdiction over an extension of a primary road which both enters and exits from a county park or other county conservation area at separate points. The department may expend moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. In the absence of such agreement, the jurisdiction and control of such roads shall remain in the department.

b. The board of supervisors of any county and the county conservation board shall have concurrent jurisdiction over an extension of a secondary road which both enters and exits from a county park or other county conservation area at separate points. The board of supervisors of any county may expend moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and

maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such roads shall remain in the board of supervisors of the county.

306.5 Continuity of systems in municipalities, parks and institutions.

The primary, trunk and trunk collector systems shall be continuous interconnected systems and provision shall be made for the continuity of such systems by the designation of extension within municipalities, state parks, state institutions, other state lands and county parks and conservation areas. The mileage of such extensions of these systems shall be included in the total mileage of a particular primary, trunk or trunk collector system and shall also be listed separately as an extension of such road system.

The department may reallocate mileage within the systems under its jurisdiction. The board of supervisors or the governing body of municipalities may alter the classification of roads under their jurisdiction with the approval of the functional classification board as provided in section 306.6.

[C71, 73, 75, 77, 79, 81, §306.5]

306.6 Functional classification board.

1. A functional classification board shall be appointed for each county and shall operate under procedural rules promulgated by the department under the provisions of chapter 17A. Said board shall consist of three members to be appointed as follows: The department shall appoint one member from the staff of the department, the county board of supervisors shall appoint one member who shall be either the county engineer or one of its own members, and the third member shall be a municipal official from within the county who shall be appointed by a majority of the mayors of the cities of the county. The mayors shall meet at the call of the chairperson of the county board of supervisors who shall act as chairperson of the meeting without vote. In the event the mayors cannot agree to and appoint this member within thirty days after the call of the meeting by the chairperson, the two members previously appointed shall select the third member. The board shall serve without additional compensation and shall:

a. Classify each segment of each rural public road and each municipal street in the county in accordance with the classifications found in section 306.1.

b. Establish continuity between the systems within the county and with the systems of adjacent counties.

c. File a copy of the proposed road classification in the office of county engineer for public information and hold a public hearing before final approval of a road classification action. Notice of the date, the time, and the place of the hearing, and the filing of the proposed road classification for public information shall be published in an official newspaper in general circulation throughout the affected area as provided in section 331.305.

d. Report the selected classifications to the department. The department shall review the reports of the county classification boards and may:

(1) Alter the classification of roads coinciding with or crossing county lines to provide continuity of the various county systems.

(2) Adjust the mileage of roads classified in the trunk and trunk collector systems to assure equitable distribution among the counties of the total mileage of such systems.

(3) Any action authorized under subparagraphs (1) and (2) of this paragraph *"d"* shall not be taken by the department until the proposed action has been thoroughly discussed with the affected county classification boards and their comments heard.

2. A state functional classification review board is created, consisting of one state senator appointed by the president of the senate, after consultation with the majority leader and the minority leader of the senate, one state representative appointed by the speaker of the house of representatives, one supervisor appointed by the Iowa state association of county supervisors, one engineer appointed by the Iowa county engineers' association, two persons appointed by the league of Iowa municipalities, one of whom shall be a licensed professional engineer, and two persons appointed by the department, one of whom shall be a commissioner and the other a staff member. This board shall select a permanent chairperson from among its members by majority vote of the total membership. Except as otherwise provided, the members of the board shall serve without additional compensation to the salary and expenses authorized for the office or position held by the member. The supervisor appointed by the Iowa state association of county supervisors, the engineer appointed by the Iowa county engineers' association, and the two persons appointed by the league of Iowa municipalities shall be reimbursed for their actual and necessary expenses incurred in the performance of their official duties as members of the board from funds allocated under section 312.2, subsection 12. The legislative members shall be paid for their actual and necessary expenses and, when the general assembly is not in session, per diem as provided in sections 2.10 and 2.12. The department's members of the board shall be reimbursed for their actual and necessary expenses from the funds appropriated pursuant to section 313.5.

It shall be the responsibility of the state functional classification review board to hear any and all appeals from classification boards or board members, relative to disputes arising out of the functional classification of any segment of highway or street. It shall also be the responsibility of the board to establish the necessary guidelines, procedures, and the

time limits to be followed in transferring jurisdiction in accordance with section 306.8. The state functional classification review board shall have the authority and the responsibility to make final administrative determinations based on sound functional classification principles for all disputes relative to functional classification including those disputes relative to the transfer of jurisdictions. The review board shall also serve, when requested jointly by state and local jurisdictions, as an advisory committee for review and adjustment of construction and maintenance guidelines used in updating road and street needs studies.

It is the intent of the general assembly that effective July 1, 1979 the functional reclassification of roads shall be implemented as provided by law.

306.7 Functions changed or new roads added.

If the function of any road or street has been altered by new construction or by reconstruction or relocation, or if a new road or street has been constructed, the functional classification board shall reclassify said roads or streets within one year. If the functional classification board does not classify any road or street as provided herein, the department shall make the classification.

[C71, 73, 75, 77, 79, 81, §306.7]

306.8 Transfer of jurisdiction.

When a change of jurisdiction occurs as a result of the classification or reclassification of a road or street, the unit of government having jurisdiction shall, prior to such change of jurisdiction, either place the road or street and any structures on the road in good repair or provide for the transfer of money to the appropriate jurisdiction sufficient for the repairs to the road or street and any structures on the road.

Transfers of the jurisdiction and control of roads and streets may take place if agreements are entered into between the jurisdictions of government involved in the transfer of such roads and streets.

306.9 Diagonal roads — restoring and improving existing roads.

It is the policy of the state of Iowa that relocation of primary highways through cultivated land shall be avoided to the maximum extent possible. When the volume of traffic for which the road is designed or other conditions, including designation as part of the network of commercial and industrial highways, require relocation, diagonal routes shall be avoided if feasible and prudent alternatives consistent with efficient movement of traffic exist.

The improvement of two-lane roads shall utilize the existing right-of-way unless alignment or other conditions, including designation as part of the network of commercial and industrial highways, make changes imperative, and when a two-lane road is expanded to a four-lane road, the normal procedure shall be that the additional right-of-way be contiguous to the existing right-of-way unless relocated for compelling reasons, including the need to provide efficient movement of traffic on the network of commercial and industrial highways. This policy does not apply to a highway project for which the corridor has been approved by the state department of transportation and the corridor has been finalized by September 1, 1977.

It is the policy of the state of Iowa that on construction of roads classified as freeway-expressway and which are designed with four-lane divided roadways, access controls shall be limited to the minimum level necessary as determined by the department to ensure the safe and efficient movement of traffic or to comply with federal aid requirements.

Unless otherwise required by the federal law or regulation, it is also the policy of this state that road use tax fund moneys shall be used to rehabilitate or reconstruct existing roads, streets, and bridges using substantially existing right-of-way. This paragraph does not apply where additional right-of-way is needed for the construction or completion of designated interstate or city routes and highway bypasses or highways designated as part of the network of commercial and industrial highways.

306.10 Power to establish, alter or vacate.

In the construction, improvement, operation or maintenance of any highway, or highway system, the agency which has control and jurisdiction over such highway or highway system, shall have power, on its own motion, to alter or vacate and close any such highway or railroad crossing thereon, and to establish new highways or railroad crossing thereon which are or are intended to become a part of the highway system over which said agency has jurisdiction and control.

or part thereof, or crossing, is located, and if located in more than one county, then in a county wherein any part of such road or crossing is located. If the road to be vacated or changed is a secondary road located in more than one county, the boards of supervisors of such counties, acting jointly, shall fix a date for a hearing thereon in either or any of the counties where such road, or part thereof, is located.

The agency which instituted said proceedings and is holding such hearing, shall notify all adjoining property owners, all utility companies whose facilities adjoin the road right of way, and the department, the agency or boards of supervisors, or agency in control of affected state lands, as the case may be, of the time and place of such hearing, by certified mail addressed to the affected property owners, all utility companies whose facilities are on the road right of way and the department, the county auditor, or the agency in control of affected state lands, as the case may be.

If as to any one or more properties affected by the proposed vacation and closing of a secondary road, it appears to the board of supervisors to be in the interest of economy or public welfare, the board may purchase or condemn, by proceeding as this chapter provides, the entire properties, and make payment for them. After the road has been vacated and closed the board shall sell the properties at the best attainable price.

306.16 Final order.

After the hearing, the agency which instituted the proceedings and conducted the hearing shall enter an order either dismissing the proceedings, or vacating and closing the road, part thereof, or crossing, in which event it shall determine and state in the order the amount of the damages allowed to each claimant. The order thus entered shall be final except as to the amount of the damages unless the order is rescinded as provided in section 306.17. A copy of the order shall be filed with the county auditor of the county or counties in which the road, part thereof, or crossing, is located and with the department and the agency in control of any affected state land.

If, in the opinion of the agency, the damages as finally determined on appeal are excessive, the agency may rescind its order vacating and closing the road, part thereof, or crossing, and the right of way shall remain under the jurisdiction of the agency. If the order is rescinded at any time after an appeal is taken, the agency shall pay reasonable attorney fees incurred by the claimant as taxed by the court.

306.19 Purchase or condemnation of right of way — procedure — closing driveway — alternative access.

1. In the maintenance, relocation, establishment, or improvement of any road, including the extension of such road within cities, the agency having jurisdiction and control of such road shall have authority to purchase or to institute and maintain proceedings for the condemnation of the necessary right of way therefor. Such agency shall likewise have power to purchase or institute and maintain proceedings for the condemnation of land necessary for highway drainage, or land containing gravel or other suitable material for the improvement or maintenance of highways, together with the necessary road access or right of access thereto.

2. Whenever the agency condemns or purchases property access rights or alters by lengthening any existing driveway to a road from abutting property, except during the time required for construction and maintenance of the road or highway, the agency shall:

a. Compensate the owner for any diminution in the market value of the property by the denial or alteration by lengthening the driveway; however, in computing such diminution in value no consideration shall be given to the additional maintenance expense for maintaining the additional length of driveway, but in lieu thereof, both in condemnation proceedings or negotiated purchases, the agency shall pay to the owner the sum of five dollars for every lineal foot of additional length of driveway located on said owner's property. This payment shall represent just compensation to said property owner for the additional driveway maintenance caused by reason of the highway or road project.

b. If in the opinion of the agency it would be more economical to purchase the entire tract of the property owner than to provide and pay the maintenance expense required under the provisions of this section, proceed with the acquisition of the entire tract of land; or

c. If mutually agreeable, move buildings from an existing location to a location requiring an equal or lesser length of driveway and provide an adequate driveway to a public road.

3. None of the foregoing requirements shall prohibit the property owner and the agency from entering into a mutually acceptable agreement for the replacement, relocation, construction, or maintenance of any alternate driveway on the owner's property.

4. Compensation for any property rights taken in the establishment of any alternative temporary or permanent access shall be paid as in any other purchase or condemnation of property. Proceedings for the condemnation of land for any highway shall be under the provisions of chapter 471 and chapter 472. Provided that, in the condemnation of right of way for secondary roads, the board of supervisors may proceed as provided in sections 306.28 to 306.37.

5. For the purposes of this section, the term "driveway" shall mean a way of ingress and egress located entirely on private property, consisting of a lane or passageway leading from a residence to a public roadway or highway.

All road plans, plats and field notes and true and accurate diagrams of water, sewage and electric power lines for rural subdivisions shall be filed with and approved by the board of supervisors and the county engineer before the subdivision is laid out or recorded. Such plans shall be clearly designated as "completed", "partially completed" or "proposed" with a statement of the portion completed and the expected date of full completion. The department may contract for the sale of any tract of land subject to the following terms and conditions:

1. The discounted present market value of the contract offer, including the cash down payment, shall exceed one hundred ten percent of the highest cash offer submitted for the tract if a cash offer is received. The discount rate shall be the rate of interest stated in the contract.

2. The cash down payment shall be equal to or in excess of five percent of the total purchase price.

3. The term of the contract shall not exceed ten years.

For the sale of unused right-of-way notice of intention to sell the tract, parcel, or piece of land, or part thereof, must be sent, not less than ten days prior to the sale, by certified mail, by the agency in control of the land, to the last known address of the present owner of adjacent land from which the tract, parcel, piece of land, or part thereof, was originally bought or condemned for highway purposes, and if located in a city, to the mayor. 1. This section is intended to vest all documents of title in road right of way in the jurisdiction responsible for the road. This section establishes a simple method to transfer road rights of way by quitclaim deed and to authorize the use of available descriptions, plats, maps or engineering drawings to effect such transfers and to provide an orderly method by which such transfers may be filed, indexed and recorded.

2. The department shall transfer by quitclaim deed to the county or to the city having jurisdiction over a road, all of the state's legal or equitable title and interest in right of way for the road or street and may transfer any adjacent unused right of way or land in excess of that needed as right of way. The deed shall be executed by the director of the department. However, if the department owns any adjacent unused right of way in excess of that needed as right of way which is located outside the incorporated limits of a city and is suitable for purposes specified in section 111A.4, subsection 2, the department may, at the request of the county and the county conservation board, transfer the property by quitclaim deed to the county for the use and benefit of the county conservation board.

3. The county or the city shall transfer by quitclaim deed to the state department of transportation when having jurisdiction over a road, all of the county's or the city's legal or equitable title and interest in rights of way for the road and may transfer any adjacent unused right of way or land in excess of that needed as right of way. The deed shall be executed by the chairperson of the board of supervisors by order of the board for county roads and by the mayor or city manager by order of the city council for city streets.

4. Transfers under this section shall be subject to the right of a utility, association, company or corporation to continue in possession of a right of way in use at the time of the transfer. Transfers shall be subject to rights of ingress and egress whether excepted, reserved or granted by the transferring authority to land or to owners of land adjacent to the right of way. Transfers shall include an index of parcels transferred by the character of the instrument or proceeding, the grantor and grantee, and date of the last instrument or proceeding acquiring rights to each parcel. Transfers shall locate the right of way by quarter-quarter section, township and range or if so acquired, by lot, block and subdivision. The transferring jurisdiction shall transmit to the receiving jurisdiction all available original documents of title or a certified true copy if the right of way was acquired by condemnation or the original deed is lost. Transfers shall be recorded and indexed in the county in which the land is located.

5. Notwithstanding chapter 114 and sections 306.22, 364.7, 409A.13, 409A.15 and 471.20, legal descriptions, plats, maps, or engineering drawings used to describe transfers of right of way shall, where available, be descriptions, plats, maps, or engineering drawings of record and shall be incorporated by reference to the title instrument or proceedings. If a part but not all of the land acquired by a single conveyance or condemnation is being transferred, the description of that part to be transferred shall be abstracted from the present legal description, plat, map, or engineering drawing of record.

6. Notwithstanding any other provision of the Code, for transfers of roads and streets made after May 1, 1987, neither the transferring jurisdiction or the receiving jurisdiction shall be held liable for any claim or damage for any act or omission relating to the design, construction, or maintenance of the road or street that occurred prior to the effective date of the transfer. This paragraph shall apply to all transfers pursuant to this chapter or section 313.2.

306A.2 Definition of a controlled-access facility.

For the purposes of this chapter, a controlled-

access facility is defined as a highway or street especially designed for through traffic, and over, from or to which owners or occupants of abutting land or other persons have no right or easement or only a controlled right or easement of access, light, air, or view by reason of the fact that their property abuts upon such controlled-access facility or for any other reason. Such highways or streets may be freeways open to use by all customary forms of street and highway traffic or they may be parkways from which trucks, buses, and other commercial vehicles shall be excluded.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, acting alone or in co-operation with each other or with any federal, state, or local agency or any other state having authority to participate in the construction and maintenance of highways, are hereby authorized to plan, designate, establish, regulate, vacate, alter, improve, maintain, and provide controlled-access facilities for public use wherever such authority or authorities are of the opinion that traffic conditions, present or future, will justify such special facilities; provided, that within cities such authority shall be subject to such municipal consent as may be provided by law. Said cities and highway authorities, in addition to the specific powers granted in this chapter, shall also have and may exercise, relative to controlled-access facilities, any and all additional authority now or hereafter vested in them relative to highways or streets within their respective jurisdictions. No access rights to any highway shall be acquired by any authority having jurisdiction and control over the highways of this state by adverse possession or prescriptive right. No action heretofore or hereafter taken by any such authority shall form the basis for any claim of adverse possession of, or prescriptive right to any access rights by any such authority.

306C.13 Control by department of transportation.

The department shall control the erection and maintenance of advertising devices authorized by section 306C.11, subsection 3, in accord with the following criteria, except that in the case of bonus interstate highways the department shall maintain the controls required under chapter 306B or the controls required by this division, whichever controls are stricter:

1. Advertising devices located within the adjacent area of interstate highways and freeway primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than five hundred feet outside of cities, and within two hundred fifty feet if inside of cities. An advertising device may not be located within two hundred fifty feet of an interchange, or rest area. The measurement shall be from the nearest widening constructed for the purpose of acceleration or deceleration of traffic movement to or from the main-traveled way to the advertising device.

2. Advertising devices located within the adjacent area of primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than one hundred feet if inside the corporate limits of a municipality. No advertising device, other than as excepted or permitted by subsections 4, 5, or 6 of this section, shall be located within the triangular area formed by the line connecting two points each fifty feet back from the point where the street right of way lines of the main-traveled way and the intersecting street meet, or would meet, if extended.

3. Advertising devices located within the adjacent area of primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than three hundred feet if outside the corporate limits of a municipality. No advertising device, other than those excepted or permitted by subsections 4, 5, or 6 of this section, shall be located within the triangular area formed by a line connecting two points each one hundred feet back from the point where the street right-of-way lines of the main-traveled way and the intersecting street meet, or would meet, if extended.

4. The distance spacing measurements fixed by subsections 2 and 3 of this section shall not apply to advertising devices which are separated by a building in such a manner that only one advertising device located within the minimum spacing distance is visible from a highway at any one time.

5. Within a triangular area, as defined by subsections 2 and 3 of this section, occupied by a building or structure, no advertising device shall be erected or maintained closer to the intersection than the building or structure itself, except that a wall advertising device may be attached to said building or structure not to protrude more than twelve inches.

6. Official and directional signs and notices and advertising devices concerning the sale or lease of the property or activities conducted upon the property as specified in Title 23, section 131, subsection "c" of the United States Code, shall not be taken into consideration in determining compliance with spacing requirements.

7. The minimum distance between two advertising devices facing the same direction shall apply without regard to the side of the highway on which the advertising devices may be located and shall be measured along the center line of the highway between points directly opposite the advertising devices.

8. Advertising devices shall not be erected, maintained, or illuminated:

a. In a manner to obscure or otherwise physically interfere with an official traffic sign, signal, or device, or to obstruct or physically interfere with any driver's view of approaching, merging, or intersecting traffic.

b. Unless effectively shielded to prevent light from being directed at any portion of the traveled highway with such intensity or brilliance as to cause glare or to impair the vision of the driver of any motor vehicle.

c. Which contain, include, or are illuminated by any flashing, intermittent, or moving light or lights, except those giving public service information such as, but not limited to time, date, temperature, weather, news and similar information.

d. Which imitate or resemble an official sign or signal or device or which are erected or maintained within or closer than three hundred feet from scenic areas, as defined and determined by the department, or which are located or maintained upon trees, or painted or drawn upon rocks or natural features, or which are structurally unsafe or in substantial disrepair.

e. Which exceed one thousand two hundred square feet in area or in the case of a back-to-back or V-type advertising device, with a maximum of two facings per advertising device, seven hundred fifty square feet in area, including border and trim but ex-

cluding base or apron, support, and other structural members.

f. Which do not comply with all applicable state or local laws, regulations and ordinances, including but not limited to zoning, building, and sign codes as locally interpreted and applied and enforced, or which violate chapter 319; however, nothing in this division shall prevent or restrict county or local zoning authorities from making a determination of customary use concerning size, lighting, and spacing of advertising devices in zoned commercial or industrial adjacent areas, and such determinations will be accepted in lieu of the standards of this division. The provisions of this division shall not prevent or restrict county or local zoning authorities within their respective jurisdictions from establishing standards imposing controls stricter than those required by this division.

g. The standards contained in this section pertaining to size, lighting, and spacing shall not apply to advertising devices erected or maintained within six hundred sixty feet of the right of way of those portions of the interstate highway system exempted from control under chapter 306B by authority of section 306B.2, subsection 5, nor to advertising devices erected and maintained within adjacent areas along primary highways within zoned and unzoned commercial and industrial areas, unless said advertising devices were erected subsequent to July 1, 1972.

[C73, 75, 77, 79, 81, §306C.13]

306C.14 Existing signs — six-year limit.

Any advertising device lawfully in existence in an adjacent area on July 1, 1972, which does not conform with the provisions of this division, shall be required to be brought into conformity or removed within six years after July 1, 1972. Any advertising device lawfully erected after said date which subsequently becomes nonconforming, shall be required to be brought into conformity or removed within five years after the date the nonconformity occurs. However, no advertising device shall be acquired or be required to be removed pursuant to this division unless the department has received notification from the federal government that the federal share of "just compensation" to be paid is immediately available to contribute to the cost of acquisition or removal; this requirement shall not apply to the acquisition or removal of advertising devices for which no federal share is payable.

[C73, 75, 77, 79, 81, §306C.14]

306C.15 Acquisition of signs.

The department shall acquire by purchase, gift, or condemnation, and shall pay "just compensation" upon the removal of any of the following advertising devices which are not in conformity with the provisions of this division:

1. Advertising devices lawfully in existence on July 1, 1972.

2. Advertising devices lawfully in existence on land adjoining any highway made an interstate, freeway primary, or primary highway after July 1, 1972.

3. Advertising devices lawfully erected on or after July 1, 1972, but which subsequently become nonconforming.

4. Any advertising device erected on the mistaken or negligent advice of any official or employee of the state of Iowa as to the interpretation, effect, or operation of this division, chapter 306B, or rules promulgated by the department.

[C73, 75, 77, 79, 81, §306C.15]

306C.16 Compensation.

Compensation required by section 306C.15 or 306C.24 shall be paid for the following:

1. The taking from the owner of such advertising device of all right, title, leasehold, and interest in such advertising device.

2. The taking from the owner of real property on which an advertising device is located, of the right to erect and maintain such advertising devices upon that real property.

[C73, 75, 77, 79, 81, §306C.16]

89 Acts, ch 317, §24

306C.17 Condemnation.

The provisions of chapters 471 and 472 shall be applicable to any such condemnation commenced pursuant to this division, and the department may take immediate possession of and remove such advertising devices under the procedures of section 472.25.

[C73, 75, 77, 79, 81, §306C.17]

306C.18 Permit required.

The owner of every advertising device regulated by the provisions of this chapter, except signs and advertising devices excepted by section 306C.11, subsections 1, 2 and 5, shall be required to make application to the department for a permit.

The application for a permit shall be on a form provided by the department and shall contain the name and address of the owner of the advertising device and the name and address of the owner of the real property on which it is located; the date of its erection; a description of its location; its dimensions; and such other information required by the department, together with a permit fee as provided in this section.

After July 1, 1972, no new advertising device for which an application for a permit is required may be erected without first obtaining a permit from the department, except in the case of advertising devices lawfully in existence in areas adjacent to any highway made an interstate, freeway primary, or primary highway after July 1, 1972. The owner shall be required to make application for a permit as provided for in this section within thirty days after the date the said highway acquired said designation.

Upon receipt of an application containing all the required information in due form and properly executed together with the fee required, the department shall issue a permit to be affixed to the advertising device if the advertising device will not violate any

provision of this division or chapter 306B, or any rule promulgated by the department, provided that in the case of advertising devices to be acquired pursuant to section 306C.15, a provisional permit shall be issued.

The fee for both types of permits shall be twenty-five dollars for the initial fee and five dollars for each annual renewal. The fees collected for the above permits shall be credited to a special account entitled the "highway beautification fund" and all salaries and expenses incurred in administering this chapter shall be paid from this fund or from specific appropriations for this purpose, except that surveillance of, and removal of, advertising devices performed by regular maintenance personnel are not to be charged against the account.

[C73, 75, 77, 79, 81, §306C.18]

306C.19 Removal after notice.

Any advertising device erected or maintained after July 1, 1972, in violation of this division or the rules promulgated by the department, is a public nuisance and may be removed by the department upon thirty days' notice, by certified mail, to the owner of the advertising device and to the owner of the land on which the advertising device is located. The notice shall require such owners to remove the advertising device if it is prohibited, or to cause it to conform to this division or rules promulgated by the department if it is not prohibited.

1. If the owner of the advertising device or the landowner fails to act within thirty days as required in the notice, the advertising device shall be deemed to be forfeited and the department may enter upon the land and remove the advertising device. Such entry after notice, shall not be deemed a trespass and the department may be aided by injunction to abate the nuisance and to insure peaceful entry.

2. The cost of removal, including fees, costs and expenses which arise out of an action brought by the department to insure peaceful entry and removal, may be assessed against the owner of the advertising device. If the owner of the advertising device fails to pay the fees, costs, or expenses within thirty days after assessment, the department may commence an action to collect the fees, costs, or expenses, which when collected shall be paid into the "highway beautification fund".

83 Acts, ch 186, §10068, 10201

306C.20 Bonus funds agreements.

The department shall enter into agreements with the duly constituted federal authorities in order to secure for the state all bonus federal funds allotted and appropriations to the state and to avoid loss or reduction, under Title 23, section 131, of the United States Code, of federal aid funds apportioned or to be apportioned to the state under Title 23, section 104 of the United States Code. The department may accept funds from whatever source, including any allotment of funds by the United States, or any of its departments or agencies, appropriated to carry out the purposes of Title 23, section 131 of the United States Code. The department shall take such steps as may be necessary to obtain from the United States or any of its departments or agencies, funds allotted and appropriated for the purpose of paying the federal share of just compensation to be paid to advertising device owners and owners of the real property under the terms of this chapter and Title 23, section 131, paragraph "g" of the United States Code. All moneys received pursuant to the provisions of this chapter shall be deposited in the "highway beautification fund".

[C73, 75, 77, 79, 81, §306C.20]

306C.21 Information centers.

The department may establish or enter into agreements with private persons, firms, or corporations for the establishment of information centers in rest areas on the interstate, freeway primary, and primary highways, subject to the approval of the appropriate authority of the federal government.

[C73, 75, 77, 79, 81, §306C.21]

306C.22 Political signs.

It shall be lawful to place political signs on private property with permission of the owner or person in charge of the property at any time during the period beginning forty-five days before the date of the election to which the signs pertain and ending on the day of the election, even if such placement would otherwise be a violation of this chapter. This section shall not be construed to authorize placement of any political sign at any location where it may, because of its size, location, content or coloring constitute a traffic hazard or a detriment to traffic safety by obstructing the vision of drivers, by detracting from the visibility of any traffic-control device or by being confused with an authorized traffic-control device. The exemption from provisions of this chapter granted by this section for political signs shall expire on the seventh day following the date of the election to which the signs pertain. A municipal corporation shall adopt no ordinance which prohibits the placement of political signs on private property as permitted by this section during the period beginning twenty-one days before the date of the election to which the signs pertain, nor requires removal of the political signs so placed less than seven days after the date of that election.

[C77, 79, 81, §306C.22]

306C.23 Special event signs.

It is lawful to place a special event sign on private property with permission of the owner or person in charge of the property at any time during the period beginning thirty days prior to the date of the special event to which the sign pertains and ending on the day of the special event. Special event signs shall be removed not later than twenty-four hours following the end of the special event. This section does not authorize placement of a special event sign at a loca-

tion where it may, because of its size, location, content, coloring or lighting, constitute a traffic hazard or a detriment to traffic safety by obstructing the vision of drivers, by detracting from the visibility of a traffic-control device or by being confused with an authorized traffic-control device.

[C81, §306C.23]

306C.24 Compensation for sign removal.

1. *Definition.* As used in this section, *"off-premises advertising device"* means an advertising device which does not qualify as an *"on-premises sign"* under rules adopted by the department pursuant to chapter 17A.

2. *Just compensation required.* Political subdivisions of this state shall not remove, take, alter, or cause to be removed, taken, or altered a lawfully erected off-premises advertising device without paying just compensation in cash to the owner of the advertising device and to the owner of the real property on which the advertising device is located, as provided in section 306C.16. The department shall not remove, take, alter or cause to be removed, taken, or altered a lawfully erected off-premises advertising device subject to control under chapter 306B or 306C without paying just compensation when required under 23 U.S.C. § 131(g) to the owner of the advertising device and to the owner of the real property on which the advertising device is located, as provided in section 306C.16. For the department, the sole intent of this section is to comply with 23 U.S.C. § 131(g) and it is not the intent of this section to, in any manner, relinquish any powers of the department relating to the control and removal of advertising devices under police power.

3. *Exceptions.* This section does not apply to the removal, taking, or altering of an off-premises advertising device under any of the following conditions:

a. The device is unlawfully erected or is being maintained in violation of the provisions of section 306C.13, subsection 8, or section 306C.18.

b. The device has been abandoned or not used for a period of at least six months.

4. *Department authorization.* If required by 23 U.S.C. § 131(g), the department may acquire through purchase or condemnation and shall pay just compensation as provided in section 306C.16 for off-premises advertising devices removed after July 1, 1989, through amortization by an ordinance of a political subdivision enacted prior to July 1, 1989. Notwithstanding the requirements of section 306C.14, the department may first pay just compensation from the highway beautification fund and then claim reimbursement for the federal share of the payment from the federal government.

5. *Savings clause.* If any provision of this section which relates to the department is inconsistent or conflicts with, or is not required by, 23 U.S.C. § 131 to avoid the loss of federal funds, the provision shall be suspended but only to the extent necessary to eliminate the inconsistency, conflict, or requirement. If any part of this section is found to be invalid or unconstitutional, such judgment shall not affect the validity of the section as a whole or any provision or part of the section not found to be invalid or unconstitutional.

SCENIC ROUTES

306D.1 Statement of purpose — intent.
306D.2 Statewide scenic highways program — objectives and agency duties.
306D.3 Plan recommendations and pilot projects.

306D.1 Statement of purpose — intent.

1. The general assembly finds that:

a. The state offers numerous regions through which people can drive for the pleasure of viewing unusually scenic and interesting landscapes; however, routes to and through these areas have not been adequately identified for Iowans and state visitors.

b. Among those things that attract motorists to the state's landscape are agricultural lands, forests, river basins, distinctive landforms, interesting architecture, metropolitan areas, small rural towns, and historic sites.

c. The landscape qualities of unusually scenic routes throughout the state have not been protected from visual and resource deterioration particularly along routes which pass near the state's nationally significant areas such as the bluffs of the Mississippi and Missouri rivers, the Amana colonies, the Her-

bert Hoover national historic site, federal reservoirs, communities surrounding the state's natural lakes, the Des Moines river greenbelt, the great river road, and many others.

d. A principal goal of economic development in this state is to increase the influence which travel and tourism have on the state's economic expansion.

e. Iowans and visitors should be encouraged to travel to and through unusually scenic areas of the state.

f. A program should be established, following a statewide plan, to identify and promote highways and secondary routes which pass through unusually scenic landscapes and to protect and enhance the scenic qualities of the landscape through which these routes pass.

2. In addition to other goals for the program, it is the intention of the general assembly that the scenic highways program be coordinated with the state's open space program.*

*Open space program, ch 111E

306D.2 Statewide scenic highways program — objectives and agency duties.

1. The department of transportation shall prepare a statewide, long-range plan for the protection, enhancement, and identification of highways and secondary roads which pass through unusually scenic areas of the state as identified in section 306D.1. The department of natural resources, department of economic development, and department of cultural affairs, private organizations, county conservation boards, city park and recreation departments, and the federal agencies having jurisdiction over land in the state shall be encouraged to assist in preparing the plan. The plan shall be coordinated with the state's open space plan if a state open space plan has been approved by the general assembly. The plan shall include, but is not limited to, the following elements:

a. Preparation of a statewide inventory of scenic routes and ranking of relative uniqueness for each route. The degree to which these routes suffer from negative visual intrusions shall be documented.

b. Recommended techniques for preserving and enhancing the scenic qualities associated with each route.

c. Forecasts of significant changes in traffic volumes and environmental, social, and economic impacts if scenic routes are publicly identified and promoted as tourism attractions.

d. Recommended techniques for incorporating scenic highway routes in state and local tourism development and marketing programs.

e. Landscape management needs including maintenance, rehabilitation, and improvements to scenic areas.

f. Funding levels needed to accomplish the statewide scenic highway program.

g. Recommendations of how federal and state transportation programs can be modified or developed to assist the state's scenic highway program.

2. The preparation of the plan is subject to an appropriation by the general assembly for that purpose. The plan shall be submitted to the general assembly by January 15, 1988. Prior to submission of the plan to the general assembly, the department shall request comments on the proposed plan from state agencies, federal agencies, and private organizations with interests in scenic highways. The comments shall be submitted to the general assembly.

87 Acts, ch 175, §2

306D.3 Plan recommendations and pilot projects.

1. The department's recommendations to the general assembly shall include proposed legislation for the state to acquire and protect scenic landscapes along public roads and highways.

2. Before January 1, 1989, the department shall identify four pilot scenic highway routes across two or more counties each for trial promotion in the state's tourism marketing program.

10. Order the removal or alteration of any lights or light-reflecting devices, whether on public or private property, located adjacent to a primary road and within three hundred feet of an intersection with another primary road, which in any way interfere with the vision of or may be confusing to a person operating a motor vehicle on such highway in observing the approach of other vehicles or signs erected for the purpose of giving warning of such intersection.

11. Construct, reconstruct, improve and maintain state institutional roads and state park roads as defined in section 306.3 and bridges on such roads,

The commission shall conduct periodic reinspections of the primary roads in order to revise, from time to time, its estimates of future needs to conform to the physical and service conditions of the primary roads. The commission shall annually cause to be published a sufficiency rating report showing the relative conditions of the primary roads. This annual program shall list definite projects in order of urgency and shall include a reasonable year's work with the funds estimated to be available. The annual program shall be final and followed by the commission in the next year except that deviations may be made in case of disaster or other unforeseen emergencies or difficulties. The relative urgency of the proposed improvements shall be determined by a consideration of the physical condition, safety, and service characteristics of the various primary roads.

307B.1 Short title.

This chapter may be referred to and cited as the "Iowa Railway Finance Authority Act."

[C81, §307B.1]

307B.2 Declaration of necessity and purpose.

The purpose of this chapter is to benefit the citizens of Iowa by improving their general health, welfare and prosperity and insuring the economic and commercial development of the state and by promoting agricultural and industrial improvement. Access to adequate railway transportation facilities is essential to the economic welfare of the state. One purpose of this chapter is to preserve or provide for the citizens of Iowa those railway services now in existence or needed in the state which have a viable future but which for a variety of economic and legal reasons may not exist if the state does not provide the financing or other mechanisms referred to in this chapter. It is the intent of the chapter that any public ownership and control of railway facilities provided for in this chapter be transferred to private ownership as promptly as economically practicable subject to financing requirements. It is further intended that the authority created in this chapter be vested with all powers to enable it to accomplish the purposes of this chapter except the power to operate rolling stock.

It is the further intent of this chapter and of the general assembly that, in order to preserve rail competition and to provide for railway service in this state, the authority work primarily with railroad carriers already providing service in this state based upon their willingness and ability to meet these objectives.

[C81, §307B.2; 81 Acts 2d Ex, ch 3, §2]

307B.3 Legislative findings.

The general assembly finds and declares as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa, for the improvement of their health and welfare, for the preservation and creation of employment, and for the promotion of the economy and of agricultural and industrial improvement, which are public purposes.

2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.

3. There will exist a serious shortage of viable rail lines and railway facilities serving the urban, rural, agricultural and industrial communities of the state.

4. There exists a serious problem in this state regarding the ability of agricultural producers to transport economically farm products to traditional

markets because of the abandonment and possible abandonment of railway facilities within the state.

5. These conditions are making it more and more difficult for farmers and farm related businesses to survive in the present state of the economy thus threatening the very heart blood of Iowa.

6. One major cause of this condition has been recurrent shortages of funds in private channels and the high interest cost of borrowing.

7. These shortages have contributed to reductions in construction of new railway facilities, and have made the sale, purchase and repair of existing railway facilities a virtual impossibility in many parts of the state.

8. A stable supply of adequate funds for financing of railway facilities is required to encourage construction of railway facilities, the rehabilitation of existing facilities and to prevent the abandonment of others in an orderly and sustained manner and to reduce the problems described in this section.

9. It is necessary to create a railway finance authority to encourage the investment of private capital and stimulate the construction, rehabilitation and repair of railway facilities and to prevent the abandonment of others through the use of public financing, publicly assisted financing and other forms of public assistance.

10. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned or granted.
