The child development coordinating council shall:

2. Establish minimum guidelines for comprehensive early child development services for at-risk three-year- and four-year-old children. The guidelines shall reflect current research findings on the necessary components for cost-effective child development services.

3. At least biennially, develop an inventory of child development services provided to at-risk three-year- and four-year-old children in this state and identify the number of children receiving and not receiving these services, the types of programs under which the services are received, the degree to which each program meets the council's minimum guidelines for a comprehensive program, and the reasons children not receiving the services are not being served. The council is not required to conduct independent research in developing the inventory, but shall determine information needs necessary to provide a more complete inventory.

4. Make recommendations to the department of education and the general assembly regarding appropriate curricula and staff qualifications and training for early elementary education, coordination of the curricula with child development programs, and the development of an at-risk children definition for use in school-district-sponsored early elementary and before and after school child care programs.

f. The manner in which health, medical, dental, and nutrition services are incorporated into the program.

g. The degree to which the program complements existing programs and services for at-risk three-year- and four-year-old children available in the area, including other child care services, services provided through the school district, and services available through area education agencies.

h. The degree to which the program can be monitored and evaluated to determine its ability to meet its goals.

6. Encourage the submission of grant requests from all potential providers of child development services and shall be flexible in evaluating grants, recognizing that different types of programs may be suitable for different locations in the state. However, requests for grants must contain a procedure for evaluating the effectiveness of the program and accounting procedures for monitoring the expenditure of grant moneys.

The council shall seek to use performance-based measures to evaluate programs. Not more than five percent of any state funds appropriated for

child development purposes may be used for administration and evaluation.

7. Encourage the establishment of regional councils designed to facilitate the development on a regional basis of programs for at-risk three-year and four-year-old children.

C93, §256B.1

256B.2 Definitions — policies — funds.

1. "*Children requiring special education*" means persons under twenty-one years of age, including children under five years of age, who have a disability in obtaining an education because of a head injury, autism, behavioral disorder, or physical, mental, communication, or learning disability, as defined by the rules of the department of education.

2. "*Special education*" means classroom, home, hospital, institutional, or other instruction designed to meet the needs of children requiring special education as defined in subsection 1; transportation and corrective and supporting services required to assist children requiring special

education, as defined in subsection 1, in taking advantage of, or responding to, educational programs and opportunities, as defined by rules of the state board of education.

3. It is the policy of this state to require school districts and state operated educational programs to provide or make provision, as an integral part of public education, for a free and appropriate public education sufficient to meet the needs of all children requiring special education. This chapter is not to be construed as encouraging separate facilities or segregated programs designed to meet the needs of children requiring special education when the children can benefit from all or part of the education program as offered by the local school district. To the maximum extent possible, children requiring special education shall attend regular classes and shall be educated with children who do not require special education. Whenever possible, hindrances to learning and to the normal functioning of children requiring special education within the regular school environment shall be overcome by the provision of special aids and services rather than by separate programs for those in need of special education. Special classes, separate schooling, or other removal of children requiring special education from the regular educational environment, shall occur only when, and to the extent that the nature or severity of the educational disability is such, that education in regular classes, even with the use of supplementary aids and services, cannot be accomplished satisfactorily. For those children who cannot adapt to the regular educational or home living conditions, and who are attending facilities under chapters 263, 269, and 270, upon the request of the board of directors of an area education agency, the department of human services shall provide residential or detention facilities and the area education agency shall provide special education programs and services. The area education agencies shall cooperate with the board of regents to provide the services required by this chapter.

Special aids and services shall be provided to children requiring special education who are less than five years of age if the aids and services will reasonably permit the child to enter the educational process or school environment when the child attains school age.

Every child requiring special education shall, if reasonably possible, receive a level of education commensurate with the level provided each child who does not require special education. The cost of providing such an education shall be paid as provided in section 273.9, this chapter, and chapter 257. It shall be the primary responsibility of each school district to provide special education to children who reside in that district if the children requiring special education are properly identified, the educational program or service has been approved, the teacher or instructor has been licensed, the number of children requiring special

education needing that educational program or service is sufficient to make offering the program or service feasible, and the program or service cannot more economically and equably be obtained from the area education agency, another school district, another group of school districts, a qualified private agency, or in cooperation with one or more other districts.

4. Moneys received by the school district of the child's residence for the child's education, derived from moneys received through chapter 257, this chapter, and section 273.9 shall be paid by the school district of the child's residence to the appropriate education agency, private agency, or other school district providing special education for the child pursuant to contractual arrangements as provided in section 273.3, subsections 5 and 7.

The division of special education has the following duties and powers:

1. To aid in the organization of special schools, classes and instructional facilities for children requiring special education, and to supervise the system of special education for children requiring special education.

2. To administer rules adopted by the state board that are consistent with this chapter for the approval of plans for special education programs and services submitted by the director of special education of the area education agency.

3. To adopt plans for the establishment and maintenance of day classes, schools, home instruction, and other methods of special education for children requiring special education.

4. To purchase and otherwise acquire special equipment, appliances and other aids for use in special education, and to loan or lease same under such rules and regulations as the department may prescribe.

5. To prescribe courses of study, and curricula for special schools, special classes and special instruction of children requiring special education, including physical and psychological examinations, and to prescribe minimum requirements for children requiring special education to be admitted to any such special schools, classes or instruction.

6. To provide for certification by the director of special education of the eligibility of children requiring special education for admission to, or discharge from, special schools, classes or instruction.

7. To initiate the establishment of classes for children requiring special education or home study services in hospitals, nursing, convalescent, juvenile and private homes, in co-operation with the management thereof and local school districts or area education agency boards.

8. To co-operate with school districts or area education agency boards in arranging for any child requiring special education to attend school in a district other than the one in which the child resides when there is no available special school, class, or instruction in the districts in which the child resides.

9. To co-operate with existing agencies such as the department of human services, the Iowa department of public health, the state school for the deaf, the Iowa braille and sight saving school, the state tuberculosis sanatorium, the children's hospitals, or other agencies concerned with the welfare and health of children requiring special education in the co-ordination of their educational activities for such children.

10. To investigate and study the needs, methods and costs of special education for children requiring special education.

11. To provide for the employment and establish standards for the performance of special education support personnel required to assist in the identification of and educational programs for children requiring special education.

12. To provide for the establishment of special education research and demonstration projects and models for special education program development.

14. To approve the acquisition and use of special facilities designed for the purpose of providing educational services to children requiring special education.

15. To make rules to carry out the powers and duties provided for in this section.

The board of directors of a school district or area education agency, with the approval of the director of the department of education, may provide special education programs and services as defined in this chapter. If services are provided by the area education agency the board of directors of the area education agency with the cooperation of the local school districts within its jurisdiction may:

2. Acquire, maintain, and construct facilities in which to provide education, corrective services, and supportive services for children requiring special education.

10. Do such other things as are necessary and incidental to the execution of any of its powers.

The board of directors of the local district or the area education agency shall employ qualified teachers certified by the authority provided by law as teachers for children requiring such special education. The maximum number of pupils per teacher shall be determined by the board of directors of the local district or the area education agency board in accordance with the rules and regulations of the state board of education.

The board of directors of the local district or the area education agency may establish and operate one or more special education centers to provide diagnostic, therapeutic, corrective, and other services, on a more comprehensive, expert, economical, and efficient basis than can be reasonably provided by a single school district. The services, if offered by the area education agency board, may be provided in the regular schools using personnel and equipment of the area education agency or, if it is impractical or inefficient to provide them on the premises of a regular school, the area education agency may provide services in its own facilities. To the maximum extent feasible, centers shall be established at and in conjunction with, or in close proximity to, one or more elementary and secondary schools. In order to render proper instruction to each child requiring special education, the school districts shall certify children requiring special education for special instruction in accordance with the requirements set up by the division of special education and shall provide examinations for children preliminary to making certification. The examinations necessary for the certification of children requiring special education shall be prescribed by the state division of special education. Final decision in case of disagreement or appeal is the responsibility of the director of the department of education, who may secure the advice of competent medical and educational authorities including the Iowa department of public health, the university hospitals, the department of human services, the superintendent of the state school for the deaf, and the superintendent of the Iowa braille and sight saving school.

256B.8 Exceptions.

It is not incumbent upon the school districts to keep a child requiring special education in regular instruction when the child cannot sufficiently profit from the work of the regular classroom, nor to keep a child requiring special education in the special class or instruction for children requiring special education when it is determined by the diagnostic educational team that the child can no longer benefit from the instruction or needs more specialized instruction available in special

schools. However, the school district shall count the child requiring special education in the enrollment as provided in sections 256B.9, 257.6, and 273.9 and shall ensure that appropriate educational provisions are made for the child requiring special education.

An area education agency director of special education may request approval from the department of education to continue the special education program of a person beyond the person's twenty-first birthday if the person had an accident or prolonged illness that resulted in delays in the initiation of or interruptions in that person's special education program. Approval may be granted by the department to continue the special education program of that person for up to three years or until the person's twenty-fourth birthday.

No provision of this chapter shall be construed to require or compel any person who is a member of a well-recognized church or religious denomination and whose religious convictions, in accordance with the tenets or principles of the person's church or religious denomination, are opposed to medical or surgical treatment for disease to take or follow a course of physical therapy, or submit to medical treatment, nor shall any parent or guardian who is a member of such church or religious denomination and who has such religious convictions be required to enroll a child in any course or instruction which utilizes medical or surgical treatment for disease.

256B.9 Weighting plan — audits — evaluations — expenditures.

1. In order to provide funds for the excess costs of instruction of children requiring special education, above the costs of instruction of pupils in a regular curriculum, a special education weighting plan for determining enrollment in each school district is adopted as follows:

a. Pupils in a regular curriculum are assigned a weighting of one.

b. Children requiring special education who require special adaptations while assigned to a regular classroom for basic instructional purposes and pupils with disabilities placed in a special education class who receive part of their instruction in regular classrooms are assigned a weighting of one and eight-tenths for the school year commencing July 1, 1975.

Effective July 1, 1991, this paragraph also applies to children requiring special education who require specially designed instruction while assigned to a regular classroom for basic instructional purposes.

c. Children requiring special education who require full-time, self-contained special education placement with little integration into a regular classroom are assigned a weighting of two and two-tenths for the school year commencing July 1, 1975.

Effective July 1, 1991, this paragraph also applies to children requiring special education who require substantial modifications, adaptations, or special education accommodations in order to benefit from instruction in an integrated classroom.

d. Children requiring special education who have severe disabilities or who have multiple disabilities are assigned a weighting of four and four-tenths for the school year commencing July 1, 1975.

Effective July 1, 1991, this paragraph also applies to children requiring special education who have severe and profound disabilities.

e. Shared-time and part-time pupils of school age who require special education shall be placed in the proper category and counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils, carrying a normal course schedule, in the same school district, for the same school year are enrolled and receive instruction.

2. The weighting for each category of child multiplied by the number of children in each category in the enrollment of a school district, as identified and certified by the director of special education for the area, determines the weighted enrollment to be used in that district for purposes of computations required under the state school foundation plan in chapter 257.

3. The weight that a child is assigned under this section shall be dependent upon the required educational modifications necessary to meet the special education needs of the child. Enrollment for the purpose of this section, and all payments to be made pursuant thereto, includes all children for whom a special education program or course is to be provided pursuant to section 256.12, subsection 2, sections 273.1 to 273.9, and this chapter, whether or not the children are actually enrolled upon the records of a school district.

4. On December 1, 1987, and no later than December 1 every two years thereafter, for the school year commencing the following July 1, the director of the department of education shall report to the school budget review committee the average costs of providing instruction for children requiring special education in the categories of the weighting plan established under this section, and for providing services to nonpublic school students pursuant to section 256.12, subsection 2, and the director of the department of education shall make recommendations to the school budget review committee for needed alterations to make the weighting plan suitable for subsequent school

years. The school budget review committee shall establish the weighting plan for each school year and shall report the plan to the director of the department of education. The school budget review committee may establish weights to the nearest hundredth. The school budget review committee shall not alter the weighting assigned to pupils in a regular curriculum, but it may increase or decrease the weighting assigned to each category of children requiring special education by not more than two-tenths of the weighting assigned to pupils in a regular curriculum. The state board of education shall adopt rules under chapter 17A to implement the weighting plan for each year and to assist in identification and proper indexing of each child in the state who requires special education.

5. The division of special education shall audit the reports required in section 273.5 to determine that all children in the area who have been identified as requiring special education have received the appropriate special education instructional and support services, and to verify the proper identification of pupils in the area who will require special education instructional services during the school year in which the report is filed. The division shall certify to the director of the department of management the correct total enrollment of each school district in the state, determined by applying the appropriate pupil weighting index to each child requiring special education, as certified by the directors of special education in each area.

6. The division may conduct an evaluation of the special education instructional program or special education support services being provided by an area education agency, school district, or private agency, pursuant to sections 273.1 to 273.9 and this chapter, to determine if the program or service is adequate and proper to meet the needs of the child; if the child is benefiting from the program or service; if the costs are in proportion to the educational benefits being received; and if there are any improvements that can be made in the program or service. A written report of the evaluation shall be sent to the area education agency, school district, or private agency evaluated and to the president of the senate and speaker of the house of representatives of the general assembly.

7. The costs of special education instructional programs include the costs of purchase of transportation equipment to meet the special needs of children requiring special education with the approval of the director of the department of education. The state board of education shall adopt rules under chapter 17A for the purchase of transportation equipment pursuant to this section.

8. Commencing with the school year beginning July 1, 1976, a school district may expend an amount not to exceed two-sevenths of an amount equal to the district cost of a school district for the costs of regular classroom instruction of a child

certified under the special education weighting plan in subsection 1, paragraph "b", as a pupil with disabilities who is enrolled in a special class, but who receives part of the pupil's instruction in a regular classroom. Unencumbered funds generated for special education instructional programs for the school year beginning July 1, 1975, and for the school year beginning July 1, 1976, shall not be expended for such purpose.

9. Funds generated for special education instructional programs under this chapter and chapter 257 shall not be expended for modifications of school buildings to make them accessible to children requiring special education.

2. That the service or program will be provided by the most appropriate educational agency.
3. That the educational agency providing the service or program has employed qualified special educational personnel.

256B.15 Reimbursement for special education services.

1. The state board of education in conjunction with the department of education shall develop a program to utilize federally funded health care programs, except the federal medically needy program for individuals who have a spend-down, to share in the costs of services which are provided to children requiring special education.

2. The department of education shall designate an area education agency to develop a system for collecting the information necessary to implement procedures for billing and collecting the costs of the services. The area education agency shall begin to develop the system immediately. The area education agency shall consult with and work jointly with state agencies and federal agencies to determine procedures and standards which shall be initiated by all area education agencies to qualify for receipt of benefits under federal programs.

3. The department of education, in conjunction with the area education agency, shall determine those specific services which are covered by federally funded health care programs, which shall include, but not be limited to, physical therapy, audiology, speech language therapy, and psychological evaluations. The department shall also determine which other special services may be subject to reimbursement and the qualifications necessary for personnel providing those services. If it is determined that services are required from other service providers, these providers shall be reimbursed for those services.

4. All services referred to in subsection 1 shall be initially funded by the area education agency and shall be provided regardless of subsequent subrogation collections. The area education agency shall make a claim for reimbursement to federally funded health care programs.

5. Not later than July 1, 1988, the area education agency designated by the department of education shall have developed the program for collecting for the services provided. The program shall be distributed to all of the area education agencies in the state. All area education agencies shall begin collecting the information on July 1, 1988.

6. Effective November 1, 1988, all area education agencies in the state shall participate in the program and begin billing for and collecting for the covered services and shall bill for services provided retroactive to July 1, 1988. Retroactive Title XIX billing is contingent upon state plan approval. Nothing contained in this section shall be construed to allow nonlicensed individuals to per-

form services which otherwise require licenses under the laws of this state or to allow licensed providers to perform services outside their scope of practice.

7. *a.* The treasurer of the state shall credit receipts received under this section to the department of human services to pay contractual fees incurred by the department to maximize federal funding for special education services. All remaining receipts in excess of the amount necessary to pay contractual fees shall be credited to the department of human services medical assistance account.

b. The area education agencies shall, after determining the administrative costs associated with the implementation of medical assistance reimbursement for the eligible services, be permitted to retain up to twenty-five percent of the federal portion of the total amount reimbursed to pay for the administrative costs. Funds received under this section shall not be considered or included as part of the area education agencies' budgets when calculating funds that are to be received by area education agencies during a fiscal year.

8. Students or their parents or guardians covered by a federal health care program shall provide health care information to an area education agency or local school district.

9. The department of education and the department of human services shall adopt rules to implement this section to be effective immediately upon filing with the administrative rules coordinator, or at a stated date prior to indexing and publication, or at a stated date less than thirty-five days after filing, indexing, and publication.

10. The department of human services shall offer assistance to the area education agencies in the identification of children eligible for reimbursement for services under this section.

256C.1 Family resource center demonstration program established.

If the general assembly appropriates moneys for the establishment of family resource centers, the department of education, in conjunction with the child development coordinating council, shall establish and coordinate a family resource center demonstration program to provide comprehensive child development and child care services, remedial educational and literacy services, and supportive services to parents who are recipients of assistance under the family investment program and other parents in need of services. The program shall provide for the establishment of family resource centers by the school year commencing July 1, 1994, which shall be located in at least three public schools, one located in a large school district, one located in a medium-sized school district, and one located in a small school district. For purposes of this section a large school district is a district with an actual enrollment of five thousand or more pupils; a medium-sized school district is a district with an actual enrollment that is greater than one thousand one hundred ninety-nine pupils, but less than five thousand pupils; and a small school district is a district with an actual enrollment of one thousand one hundred ninety-nine or fewer pupils.

256C.2 Grant criteria — advisory committees.

The child development coordinating council shall develop a four-year grant program and the criteria and process to be used in selecting school district grant recipients. Criteria for the selection shall include the service requirements contained in section 256C.3 and a method for prioritizing grant applications based on illustrated efforts to meet the critical social welfare needs of the children and families in the surrounding community. Criteria for the selection shall also include a requirement that the program administrator, whose primary responsibility is to administer the family resource center, have at least two years of experience in early childhood education or development, demonstrated skills in community development, and a master's degree in a related field such as community service, health, human services, child development, parent support, or home economics, or at least five years of experience as an administrator of a licensed early childhood education or development program. Critical social welfare needs that may entitle a grant application to priority, if the application includes methods of amelioration of an identified community problem, shall include, but are not limited to, a significant infant mortality rate in the community, a significant rate of incidence of teenage pregnancy in the community, a significant number of single-parent families in the community that are living below the federal

poverty guidelines, a lack of available affordable child care within the community, a significant number of children qualifying for free or reduced price lunches within the district, and a significant illiteracy rate within the community. The department shall assist the council in creating a grant application process and shall provide technical assistance to districts chosen to establish a family resource center.

A district applying for a grant under this section shall agree, for each dollar of grant funds, to provide twenty cents in matching cash or in-kind resources. Grants may be awarded for four years, beginning July 1, 1994, and ending June 30, 1998. Notwithstanding section 8.33, unencumbered or unobligated funds remaining on June 30 of the fiscal year for which the funds were appropriated shall not revert but shall be available for expenditure for the following fiscal year for the purposes of this section.

Each school district that receives a grant and establishes a family resource center, as part of the district program, shall also establish an advisory committee to the center that shall advise the center on program and services planning and development. The advisory committee shall also establish service goals for the center and create an evaluation process to permit the committee to assess the center's progress toward achieving the goals. A majority of the members of each advisory committee shall consist of parents who participate in programs or receive services at the center. Other members of the committee may include, but are not limited to, school officials, home economists, child care providers, public or private child and family service agency providers, recreational service providers, health care professionals, and other members of the community.

1. Child development and education services that meet the requirements established for early childhood programs under chapter 256A.
2. All-day child care for children ages three and older who are not enrolled in school, before and after school child care for children ages twelve and younger who are enrolled in school during the time school is in session, and full-day child care for children ages twelve and younger who are enrolled in school during the time when school is not in session. All child care shall comply with federal and state child care requirements.

3. Support services to parents of newborn infants to ascertain the parents' and infants' needs, provide the parents and infants with referrals to other services and organizations, and, if necessary, provide education in parenting skills to parents of newborn infants.

4. Support and educational services to parents whose children are participants in the child care services portion of the family resource center demonstration program and who are interested in obtaining a high school diploma or a high school equivalency diploma under chapter 259A. Parents and their preschool age children may attend classes in parenting and child learning skills together so as to promote the mutual pursuit of education and to enhance interaction between parent and child.

5. Training, technical assistance, and other support by the family resource center staff to child care home providers in the community. The center may serve as an information and referral clearinghouse for other child care needs and services in the community and shall coordinate the center's information and efforts with any child care delivery systems that may already exist in the community. The center may also provide an adolescent preg-

nancy prevention program, and other programs as the community determines, for adolescents emphasizing responsible decision making and communication skills.

6. Coordinated health and nutrition services for young children.

7. Other services deemed necessary or appropriate by the advisory committee.

8. A sliding scale for payment of child care expenses provided at the family resource center based on an individual's ability to pay for services.

A family resource center shall coordinate services provided with existing federal, state, and local programs both to avoid duplication and to provide continuity of services. A family resource center shall, if possible, be located in a school building or in an existing community facility. Regardless of where the center is located, the school district shall be the primary decision-making body in any partnership established to create a family resource center. 256D.1 Iowa early intervention block grant program established — goals.

1. An Iowa early intervention block grant program is established within the department of education. The program's goals for kindergarten through grade three are to provide the resources needed to reduce class sizes in basic skills instruction to the state goal of seventeen students for every one teacher; provide direction and resources for early intervention efforts by school districts to achieve a higher level of student success in the basic skills, especially reading skills; and increase communication and accountability regarding student performance. The Iowa early intervention block grant program shall consist of the following:

a. Class size management. School districts shall develop a class size management strategy to work toward, or to maintain, class sizes in basic skills instruction for kindergarten through grade three that are at the state goal of seventeen students for every one teacher.

b. Improving instruction in the basics. The department of education shall identify diagnostic assessment tools that can be used to assist teachers in measuring reading accuracy and fluency skills, including but not limited to, phonemic awareness, oral reading ability, and comprehensive skills, to improve student achievement in kindergarten through grade three. The department, in collaboration with the area education agencies,

school districts, and institutions with approved practitioner preparation programs, shall identify and serve as a clearinghouse on intensive, research-based strategies and programs for training teachers in both diagnosis and appropriate instruction interventions.

(1) A school district shall at a minimum biannually inform parents of their individual child's performance on the diagnostic assessments in kindergarten through grade three. If intervention is appropriate, the school district shall inform the parents of the actions the school district intends to take to improve the child's reading skills and provide the parents with strategies to enable the parents to improve their child's skills. The board of directors of each school district shall adopt a policy indicating the methods the school district will use to inform parents of their individual child's performance.

(2) The department shall also identify for school districts programs and materials by which parents may support classroom reading instruction.

2. A school district shall integrate its specific early intervention block grant program goals and activities into the comprehensive school improvement plan required under section 256.7, subsection 21, paragraph "a".

3. For purposes of this chapter, unless the context otherwise requires, "parent" means a biological or adoptive parent, a stepparent, or a legal guardian or custodian of a student.

256D.2 Program expenditures.

A school district shall expend funds received pursuant to section 256D.4 at the kindergarten through grade three levels to reduce class sizes to the state goal of seventeen students for every one teacher and to achieve a higher level of student success in the basic skills, especially reading. In order to support these efforts, school districts may expend funds received pursuant to section 256D.4 at the kindergarten through grade three level on programs, instructional support, and materials that include, but are not limited to, the following: additional licensed instructional staff; additional support for students, such as before and after school programs, tutoring, and intensive summer programs; the acquisition and administration of diagnostic reading assessments; the implementation of research-based instructional intervention programs for students needing additional support; the implementation of all-day, everyday kindergarten programs; and the provision of classroom teachers with intensive training programs to improve reading instruction and professional development in best practices, including but not limited to training programs related to instruction to

increase students' phonemic awareness, reading abilities, and comprehension skills.

99 Acts, ch 18, §2

256D.3 Annual reports.

1. A school district shall report annually to its school community the proportion of fourth grade students who are proficient in reading in accordance with section 256.7, subsection 21, paragraph "c". School districts are encouraged to submit to their communities composite information concerning the reading proficiency of their kindergarten through grade three enrollments, by grade level.

2. The annual report submitted to the department of education in accordance with section 256.7, subsection 21, paragraph "c", shall include the district's current class sizes for kindergarten through grade three.

3. Beginning January 15, 2001, the department shall submit an annual report to the chairpersons and ranking members of the senate and house education committees that includes the statewide average school district class size in basic skills instruction in kindergarten through grade three, by grade level and by district size, and describes school district progress toward achieving early intervention block grant program goals and the ways in which school districts are using moneys received pursuant to section 256D.4.

99 Acts, ch 18, §3

256D.4 Program allocation.

1. For each fiscal year in the fiscal period beginning July 1, 1999, and ending June 30, 2001, moneys appropriated pursuant to section 256D.5, subsection 1, paragraph "a" or "b", shall be allocated to school districts in accordance with the following formula:

a. Fifty percent of the allocation shall be based upon the proportion that the kindergarten through grade three enrollment of a district bears to the sum of the kindergarten through grade three enrollments of all school districts in the state as reported for the base year.

b. Fifty percent of the allocation shall be based upon the proportion that the number of children who are eligible for free or reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, in grades one through three of a school district bears to the sum of the number of children who are eligible for free or reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, in grades one through three in all school districts in the state for the base year.

2. For each fiscal year in the fiscal period beginning July 1, 2001, and ending June 30, 2003, moneys appropriated pursuant to section 256D.5,

subsection 1, paragraph “c”, shall be allocated to school districts as follows:

a. Allocation of the sum of twenty million dollars shall be based upon the proportion that the kindergarten through grade three enrollment of a district bears to the sum of the kindergarten through grade three enrollments of all school districts in the state as reported for the base year.

b. Allocation of the sum of ten million dollars shall be based upon the proportion that the number of children who are eligible for free or reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, in grades one through three of a school district bears to the sum of the number of children who are eligible for free or reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, in grades one through three in all school districts in the state for the base year.

3. For each year in which an appropriation is made to the Iowa early intervention block grant program, the department of education shall notify the department of revenue and finance of the amount of the allocation to be paid to each school district as provided in subsections 1 and 2. The allocation to each school district shall be made in one payment on or about October 15 of the fiscal year for which the appropriation is made, taking into consideration the relative budget and cash position of the state resources. Moneys received under this section shall not be commingled with state aid payments made under section 257.16 to a school district and shall be accounted for by the local school district separately from state aid payments. Payments made to school districts under this section are miscellaneous income for purposes of chapter 257. A school district shall maintain a separate listing within its budget for payments received and expenditures made pursuant to this section. A school district shall certify to the department of education that moneys received under this section were used to supplement, not supplant, moneys otherwise received and used by the school district.

4. For purposes of this section, unless the context otherwise requires, “*kindergarten through grade three enrollment*” means the enrollment as reported in the basic educational data survey for the base year.

1. From the moneys appropriated in section 256D.5, subsection 2, other than the moneys allocated in subsection 2 of this section, for each fiscal year in which moneys are appropriated, the amount of moneys allocated to school districts shall be in the proportion that the basic enrollment of a district bears to the sum of the basic enrollments of all school districts in the state for the budget year. However, except as provided in subsection 6, a district shall not receive less than ten thousand dollars in a fiscal year. The Iowa braille and sight saving school, the state school for the deaf, and the Price laboratory school at the university of northern Iowa shall annually certify their basic enrollments to the department of education by October 1. The department of human services shall certify the average student yearly enrollments of the institutions under department of human services control as provided in section 218.1, subsections 1 through 3, 5, 7, and 8, to the department of education by October 1.

2. From the moneys appropriated in section 256D.5, subsection 2, for each fiscal year in which moneys are appropriated, the sum of one hundred fifty thousand dollars shall be divided among the area education agencies based upon each area education agency's percentage of the total full-time equivalent elementary and secondary teachers employed in the school districts in this state. An area education agency may contract with an appropriate accredited institution of higher education in Iowa to provide staff development and training in accordance with section 256D.7.

3. For each year in which an appropriation is made to the school improvement technology block grant program, the department of education shall notify the department of revenue and finance of the amount to be paid to each school district and area education agency based upon the distribution plan set forth for the appropriation made pursuant to this section. The allocation to each school district and area education agency under this section shall be made in one payment on or about October 15 of the fiscal year in which the appropriation is made, taking into consideration the rela-

tive budget and cash position of the state resources.

4. Payments made to school districts and area education agencies under this section are miscellaneous income for purposes of chapter 257. Moneys received under this section shall not be commingled with state aid payments made under sections 257.16 and 257.35 to a school district or area education agency and shall be accounted for by the local school district or area education agency separately from state aid payments.

5. Moneys received under this section shall not be used for payment of any collective bargaining agreement or arbitrator's decision negotiated or awarded under chapter 20.

6. For purposes of this section and section 256D.8, "school district" means a school district, the Iowa braille and sight saving school, the state school for the deaf, the Price laboratory school at the university of northern Iowa, and the institutions under the control of the department of human services as provided in section 218.1, subsections 1 through 3, 5, 7, and 8. However, notwithstanding subsection 1, the amount of moneys allocated to the institutions under the control of the department of human services as provided in section 218.1, subsections 1, 2, 3, and 5, shall be a total of not more than twenty thousand dollars for each fiscal year, to be distributed proportionately between the four institutions by the department of education.

1. Commencing with the fiscal year beginning July 1, 2001, each school district shall include a technology plan as a component of the annual report submitted to the department of education in accordance with section 256.7, subsection 21, paragraphs "a" and "c". The plan shall be developed by licensed professional staff of the district, including both teachers and administrators. The plan shall, at a minimum, focus on the attainment of student achievement goals on academic and other core indicators, consider the district's interconnectivity with the Iowa communications network, and demonstrate how the board will utilize technology to improve student achievement. The technology plan shall be kept on file in the district and a copy of the plan, and any subsequent amendments to the plan, shall be sent to the appropriate area education agency.

2. Prior to receiving funds under this chapter, each area education agency shall develop a plan to assist school districts in the development of a technology planning process to meet the purposes of the school improvement technology block grant program. The plan shall describe how the area education agency intends to support school districts with instructional technology staff develop-

ment and training. The department shall approve each plan prior to the disbursement of funds. An area education agency needs to develop only one plan and send it to the department of education while this chapter is effective. An area education agency may submit a plan that meets the requirements of chapter 295, Code 2001. An annual progress report shall be submitted to the department of education.

3. Prior to receiving funds pursuant to section 256D.5, subsection 2, the Iowa braille and sight saving school, the state school for the deaf, and the Price laboratory school at the university of northern Iowa shall each submit to the state board of regents and the department of education a technology plan that supports and improves student achievement, demonstrates how technology will be utilized to improve student achievement, and includes an evaluation component. The schools listed in this subsection need to develop only one plan each to send to the state board of regents and the department of education while this chapter is effective. An annual progress report shall be submitted to the state board of regents and the department of education.

4. Prior to receiving funds pursuant to section 256D.5, subsection 2, the institutions under the control of the department of human services as provided in section 218.1, subsections 1 through 3, 5, 7, and 8, shall each submit to the departments of education and human services a technology plan that supports and improves student achievement, demonstrates the manner in which technology will be utilized to improve student achievement, and includes an evaluation component. Each institution developing a plan under this subsection needs to develop only one plan to send to the departments of education and human services while this chapter is effective. Each institution shall submit an annual progress report to the departments of education and human services.

Except as provided in subsection 2, a school district shall expend funds received pursuant to section 256D.5, subsection 2, for the acquisition, lease, lease-purchase, installation, and maintenance of instructional technology equipment, including hardware and software, materials and supplies related to instructional technology, and staff development and training related to instructional technology, and shall establish priorities for the use of the funds. However, funds received by a school district pursuant to section 256D.5, subsection 2, shall not be expended to add a full-time equivalent position or otherwise increase staffing, unless the school district expends not more than ten percent of the funds received to employ or enter into a contract with information technology specialists to provide technical consulting and in-

tegration of technology in curriculum and instruction to advance student achievement.

2. A school district may expend up to two-thirds of the funds received annually pursuant to section 256D.5, subsection 2, for any of the purposes described in section 256D.2, including for the employment of additional licensed instructional staff.

3. Funds received by an area education agency pursuant to section 256D.6, subsection 2, shall be expended for the costs related to supporting school districts within the area served with technology planning and equipment, including hardware and

software, materials and supplies related to instructional technology, employment of or contracting with information technology specialists to provide technical consulting and integration of technology in curriculum and instruction, and staff development and training related to instructional technology.

257.1 State school foundation program — state aid.

1. *Program established.* A state school foundation program is established for the school year commencing July 1, 1991, and succeeding school years.

2. *State school foundation aid — foundation base.* For a budget year, each school district in the state is entitled to receive foundation aid, in an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the combined foundation base per pupil or the combined district cost per pupil, whichever is less. However, if the amount of foundation aid received by a school district under this chapter is less than three hundred dollars per pupil, the district is entitled to receive three hundred dollars per pupil unless the receipt of three hundred dollars per pupil plus the per pupil amount raised by the foundation property tax exceeds the combined district cost per pupil of the district for the budget year. In that case, the district is entitled to receive an amount per pupil equal to the difference between the per pupil amount raised by the foundation property tax for the budget year and the combined district cost per pupil for the budget year.

For the budget year commencing July 1, 1999, and for each succeeding budget year the regular program foundation base per pupil is eighty-seven and five-tenths percent of the regular program state cost per pupil. For the budget year commencing

July 1, 1991, and for each succeeding budget year the special education support services foundation base is seventy-nine percent of the special education support services state cost per pupil. The combined foundation base is the sum of the regular program foundation base and the special education support services foundation base.

For the budget year commencing July 1, 1999, the department of management shall add the amount of the additional budget adjustment computed in section 257.14, subsection 1, to the combined foundation base.

3. *Computations rounded.* In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services, and educational services provided through the area education agencies, the department of management shall round amounts to the nearest whole dollar.

4. *Legislative review.* The provisions of this chapter shall be subject to legislative review at least every five years. The review shall be based upon a school finance formula status report containing the recommendations of a legislative interim committee appointed to conduct a review of the school finance formula, to be prepared with the assistance of the department of education, in association with the departments of management and revenue and finance. The report shall include recommendations for school finance formula changes or revisions based upon demographic changes, en-

rollment trends, and property tax valuation fluctuations observed during the preceding five-year interval; an analysis of the operation of the school finance formula during the preceding five-year interval; and a summary of issues that have arisen since the previous review and potential approaches for their resolution. The first such report shall be submitted to the general assembly no later than January 1, 2005, with subsequent reports developed and submitted by January 1 at least every fifth year thereafter.

4. *“Budget year”* means the school year beginning during the calendar year in which a budget is certified.
5. *“Combined district cost per pupil”* is an amount determined by adding together the regular program district cost per pupil for a year and the special education support services district cost per pupil for that year as calculated under section 257.10.
6. *“Combined state cost per pupil”* is a per pupil amount determined by adding together the regular program state cost per pupil for a year and the special education support services state cost per pupil for that year as calculated under section 257.9.
7. *“Committee”* means the school budget review committee.
8. *“Expenditures”* means the total amounts paid from the general fund of a school district.

257.3 Foundation property tax.

1. *Amount of tax.* Except as provided in subsections 2 and 3, a school district shall cause to be levied each year, for the school general fund, a foundation property tax equal to five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. The county auditor shall spread the foundation levy over all taxable property in the district.

The amount paid to each school district for the tax replacement claim for industrial machinery, equipment and computers under section 427B.19A shall be regarded as property tax. The portion of the payment which is foundation property tax shall be determined by applying the foundation property tax rate to the amount computed under section 427B.19, subsection 3, paragraph “a”, as adjusted by paragraph “d”, if any adjustment was made.

Replacement taxes under chapter 437A shall be regarded as property taxes for purposes of this chapter.

2. *Tax for reorganized and dissolved districts.* Notwithstanding subsection 1, a reorganized school district shall cause a foundation property tax of four dollars and forty cents per thousand dollars of assessed valuation to be levied on all taxable property which, in the year preceding a reorganization, was within a school district affected by the reorganization as defined in section 275.1, or in the year preceding a dissolution was a part of a school district that dissolved if the dissolution proposal has been approved by the director of the department of education pursuant to section 275.55. In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved must have had a certified enrollment of fewer than six hundred in order for the four-dollar-and-forty-cent levy to apply. In succeeding school years, the foundation property tax levy on that portion shall be increased twenty cents per year until it reaches the rate of five dollars and forty cents per thousand dollars of assessed valuation.

For purposes of this section, a reorganized school district is one which absorbed at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which action to bring about a re-

organization or dissolution was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization or dissolution takes effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

A reorganized school district which meets the requirements of this section for reduced property tax rates, but failed to vote on reorganization or dissolution prior to November 30, 1990, and failed to certify such action to the department of education by September 1, 1991, shall cause to be levied a foundation property tax of four dollars and sixty cents per thousand dollars of assessed valuation on all eligible taxable property pursuant to this section. In succeeding school years, the foundation property tax levy on that portion shall be increased twenty cents per year until it reaches the rate of five dollars and forty cents per thousand dollars of assessed valuation.

The reduced property tax rates of reorganized school districts that met the requirements of section 442.2, Code 1991, prior to July 1, 1991, shall continue to increase as provided in that section until they reach five dollars and forty cents.

3. *Subsequent reorganization.* If a reorganized school district, whose foundation property tax is reduced under subsection 2, reorganizes within five school years from the time of its original reorganization to which subsection 2 applies, the resulting reorganized school district shall cause to be levied a foundation property tax on the taxable property in that portion of the new reorganized district which, in the year preceding the latest reorganization, was within the original reorganized school district to which subsection 2 applies equal to one dollar per thousand dollars of assessed value less than the rate the original reorganized district would have levied under subsection 2 for the same school year if there had been no new reorganization. In succeeding school years, the foundation property tax on that portion of the new reorganized school district shall be increased by forty cents for the first succeeding year and by twenty cents per year thereafter until it reaches the rate of five dollars and forty cents per thousand dollars of assessed valuation.

4. *Railway corporations.* For purposes of section 257.1, the "amount per pupil of foundation property tax" does not include the tax levied under subsection 1, 2, or 3 on the property of a railway corporation, or on its trustee if the corporation has been declared bankrupt or is in bankruptcy proceedings.

89 Acts, ch 135, §3; 91 Acts, ch 178, §1; 93 Acts, ch 180, §92-95; 95 Acts, ch 206, §34; 98 Acts, ch 1194, §27, 40

Subsection 1, unnumbered paragraph 3 is effective January 1, 1999, and applies to property tax assessment years and replacement tax years beginning on or after that date; 98 Acts, ch 1194, §40

257.4 Additional property tax.

1. *Computation of tax.* A school district shall cause an additional property tax to be levied each year. The rate of the additional property tax levy in a school district shall be determined by the department of management and shall be calculated to raise the difference between the combined district cost for the budget year and the sum of the products of the regular program foundation base per pupil times the weighted enrollment in the district and the special education support services foundation base per pupil times the special education support services weighted enrollment in the district.

2. *Supplemental aid.* However, if the rate of the additional property tax levy determined under subsection 1 with the application of section 257.15 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under subsection 1 with the application of section 257.15 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for a five-year period. The department of management shall include in the state aid payments made to each reorganized school district under section 257.16 during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the reduction in property tax revenues made under this subsection. For the budget year beginning July 1, 1991, the base year calculation shall be made using chapter 442, Code 1991.

For purposes of this section, a reorganized school district is one in which action to bring about a reorganization was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization will take effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

3. *Application of tax.* No later than June 1 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. A county auditor shall spread the additional property tax levy for each school district in the county over all taxable property in the district.

257.5 Continuation of supplemental aid.

A reorganized school district, as defined in section 257.4, subsection 2, receiving supplemental aid prior to July 1, 1991, under section 442.9A, Code 1991, shall continue to receive supplemental aid as provided in that section for the five-year period specified in that section.

There is appropriated from the general fund of the state to the department of management for each fiscal year an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 257.16.

For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid under section 257.36, supplemental aid shall be considered property tax.

89 Acts, ch 135, §5; 91 Acts, ch 178, §3

257.6 Enrollment.

1. *Actual enrollment.* Actual enrollment is determined on the third Friday of September in each year and includes all of the following:

a. Resident pupils who were enrolled in public schools within the district in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.

b. Full-time equivalent resident pupils of high school age for which the district pays tuition to attend an Iowa community college.

c. Shared-time and part-time pupils of school age enrolled in public schools within the district, irrespective of the districts in which the pupils reside, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time nonresident pupil shall be reduced by the amount of any increased state aid received by the district by the counting of the pupil.

d. Eleventh and twelfth grade nonresident pupils who were residents of the district during the preceding school year and are enrolled in the district until the pupils graduate. Tuition for those pupils shall not be charged by the district in which

the pupils are enrolled and the requirements of section 282.18 do not apply.

e. Resident pupils receiving competent private instruction from a licensed practitioner provided through a public school district pursuant to chapter 299A shall be counted as six-tenths of one pupil.

f. Resident pupils receiving competent private instruction under dual enrollment pursuant to chapter 299A shall be counted as one-tenth of one pupil.

Pupils attending a university laboratory school are not counted in the actual enrollment of a school district, but the laboratory school shall report their enrollment directly to the department of education.

A school district shall certify its actual enrollment to the department of education by October 1 of each year, and the department shall promptly forward the information to the department of management.

The department of management shall adjust the enrollment of the school district for the audit year based upon reports filed under section 11.6, and shall further adjust the budget of the second year succeeding the audit year for the property tax and state aid portions of the reported differences in enrollments for the year succeeding the audit year.

2. *Basic enrollment.* Basic enrollment for a budget year is a district's actual enrollment for the base year. Basic enrollment for the base year is a district's actual enrollment for the year preceding the base year.

3. *Additional enrollment because of special education.* A school district shall determine its additional enrollment because of special education, as defined in this section, on December 1 of each year and shall certify its additional enrollment because of special education to the department of education by December 15 of each year, and the department shall promptly forward the information to the department of management.

For the purposes of this chapter, "additional enrollment because of special education" is determined by multiplying the weighting of each category of child under section 256B.9 times the number of children in each category totaled for all categories minus the total number of children in all categories.

4. *Budget enrollment.* Budget enrollment for the budget year is the basic enrollment for the budget year.

5. *Weighted enrollment.* Weighted enrollment is the budget enrollment plus the district's additional enrollment because of special education calculated on December 1 of the base year plus additional pupils added due to the application of the supplementary weighting.

Weighted enrollment for special education support services costs is equal to the weighted enroll-

ment minus the additional pupils added due to the application of the supplementary weighting.

257.7 Authorized expenditures.

1. *Budgets.* School districts are subject to chapter 24. The authorized expenditures of a school district during a base year shall not exceed the lesser of the budget for that year certified under section 24.17 plus any allowable amendments permitted in this section, or the authorized budget, which is the sum of the combined district cost for that year, the actual miscellaneous income received for that year, and the actual unspent balance from the preceding year.

2. *Budget amendments.* If actual miscellaneous income for a budget year exceeds the anticipated miscellaneous income in the certified budget for that year, or if an unspent balance has not been previously certified, a school district may amend its certified budget.

257.8 State percent of growth — allowable growth.

1. *State percent of growth.* The state percent of growth for the budget year beginning July 1, 2000, is four percent. The state percent of growth for the budget year beginning July 1, 2001, is four percent. The state percent of growth for each subsequent budget year shall be established by statute which shall be enacted within thirty days of the submission in the year preceding the base year of the governor's budget under section 8.21. The establishment of the state percent of growth for a budget year shall be the only subject matter of the bill which enacts the state percent of growth for a budget year.

2. *Allowable growth calculation.* The department of management shall calculate the regular program allowable growth for a budget year by multiplying the state percent of growth for the budget year by the regular program state cost per pupil for the base year and shall calculate the special education support services allowable growth for the budget year by multiplying the state percent of growth for the budget year by the special education support services state cost per pupil for the base year.

3. *Alternate allowable growth — gifted and talented programs.* Notwithstanding the calculation in subsection 2, the department of management shall calculate the regular program allowable growth for the budget year beginning July 1, 1999, by multiplying the state percent of growth for the budget year by the regular program state cost per pupil for the base year, and add to the resulting product thirty-eight dollars. For purposes of determining the amount of a budget adjustment as defined in section 257.14, for a school district

which calculated allowable growth for the budget year beginning July 1, 1999, pursuant to this subsection, thirty-eight dollars shall be subtracted from the school district's regular program cost per pupil for the budget year beginning July 1, 1999, prior to determining the amount of the adjustment.

4. *Alternate allowable growth — regular program state cost.* A school district which calculated allowable growth for the budget year beginning July 1, 1999, pursuant to the provisions of subsection 3, shall calculate allowable growth pursuant to the provisions of subsection 2 for the school budget year beginning July 1, 2000, and succeeding budget years, utilizing a regular program state cost per pupil figure which incorporates the thirty-eight dollar increase in regular program allowable growth calculated for the budget year beginning July 1, 1999.

5. *Combined allowable growth.* The combined allowable growth per pupil for each school district is the sum of the regular program allowable growth per pupil and the special education support services allowable growth per pupil for the budget year, which may be modified as follows:

a. By the school budget review committee under section 257.31.

b. By the department of management under section 257.36.

6. *Alternate allowable growth — definitions.* For budget years beginning July 1, 2000, and subsequent budget years, references to the terms "allowable growth", "regular program state cost per pupil", and "regular program district cost per pupil" shall mean those terms as calculated for those school districts that calculated regular program allowable growth for the school budget year beginning July 1, 1999, with the additional thirty-eight dollars.

257.9 State cost per pupil.

1. *Regular program state cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, for the regular program state cost per pupil, the department of management shall add together the sum of the products of each district's regular program district cost per pupil for the base year, as regular program district cost per pupil would have been calculated under section 442.9, Code 1989, multiplied by its budget enrollment as budget enrollment would have been calculated under section 442.4, Code 1989, for the base year, plus the sum of the amounts added to the district cost of school districts pursuant to section 442.21, Code 1989.

The total calculated under this subsection shall be divided by the total of the budget enrollments of all school districts for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, if section 257.6, subsection 4, had been in effect for that budget year. The regular program state cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus an allowable growth amount that is equal to the state percent of growth for the budget year multiplied by the amount calculated by the department of management under this subsection.

2. *Regular program state cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the regular program state cost per pupil for a budget year is the regular program state cost per pupil for the base year plus the regular program allowable growth for the budget year.

3. *Special education support services state cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, for the special education support services state cost per pupil, the department of management shall divide the total of the approved budgets of the area education agencies for special education support services for that year approved by the state board of education under section 273.3, subsection 12, by the total of the weighted enrollment for special education support services in the state for the budget year. The special education support services state cost per pupil for the budget year is the amount calculated by the department of management under this subsection.

4. *Special education support services state cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the special education support services state cost per pupil for the budget year is the special education support services state cost per pupil for the base year plus the special education support services allowable growth for the budget year.

5. *Combined state cost per pupil.* The combined state cost per pupil is the sum of the regular program state cost per pupil and the special education support services state cost per pupil.

257.10 District cost per pupil — district cost.

1. *Regular program district cost per pupil for 1991-1992.* For the budget year beginning July 1, 1991, in order to determine the regular program district cost per pupil for a district, the department of management shall divide the product of the regular program district cost per pupil of the district for the base year, as regular program district cost per pupil would have been calculated under section 442.9, Code 1989, multiplied by its

budget enrollment for the base year as budget enrollment would have been calculated under section 442.4, Code 1989, plus the amount added to district cost pursuant to section 442.21, Code 1989, for each school district, by the budget enrollment of the school district for the budget year beginning July 1, 1990, calculated under section 257.6, subsection 4, as if section 257.6, subsection 4, had been in effect for that budget year. The regular program district cost per pupil for the budget year beginning July 1, 1991, is the amount calculated by the department of management under this subsection plus the allowable growth amount calculated for regular program state cost per pupil, except that if the regular program district cost per pupil for the budget year calculated under this subsection in any school district exceeds one hundred ten percent of the regular program state cost per pupil for the budget year, the department of management shall reduce the regular program district cost per pupil of that district for the budget year to an amount equal to one hundred ten percent of the regular program state cost per pupil for the budget year, and if the regular program district cost per pupil for the budget year calculated under this subsection in any school district is less than the regular program state cost per pupil for the budget year, the department of management shall increase the regular program district cost per pupil of that district to an amount equal to the regular program state cost per pupil for the budget year.

2. *Regular program district cost per pupil for 1992-1993 and succeeding years.*

a. For the budget year beginning July 1, 1992, and succeeding budget years, the regular program district cost per pupil for each school district for a budget year is the regular program district cost per pupil for the base year plus the regular program allowable growth for the budget year except as otherwise provided in this subsection.

b. If the regular program district cost per pupil of a school district for the budget year under paragraph "a" exceeds one hundred five percent of the regular program state cost per pupil for the budget year and the state percent of growth for the budget year is greater than two percent, the regular program district cost per pupil for the budget year for that district shall be reduced to one hundred five percent of the regular program state cost per pupil for the budget year. However, if the difference between the regular program district cost per pupil for the budget year and the regular program state cost per pupil for the budget year is greater than an amount equal to two percent multiplied by the regular program state cost per pupil for the base year, the regular program district cost per pupil for the budget year shall be reduced by the amount equal to two percent multiplied by the regular program state cost per pupil for the base year.

3. *Special education support services district cost per pupil for 1991-1992.* For the budget year

beginning July 1, 1991, for the special education support services district cost per pupil, the department of management shall divide the approved budget of each area education agency for special education support services for that year approved by the state board of education, under section 273.3, subsection 12, by the total of the weighted enrollment for special education support services in the area for that budget year.

The special education support services district cost per pupil for each school district in an area for the budget year is the amount calculated by the department of management under this subsection.

4. *Special education support services district cost per pupil for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the special education support services district cost per pupil for the budget year is the special education support services district cost per pupil for the base year plus the special education support services allowable growth for the budget year.

Notwithstanding the special education support services district cost per pupil for the budget year beginning July 1, 1991, calculated under subsection 3, for area education agencies that have fewer than three and five-tenths public school pupils per square mile, the special education support services district cost per pupil for the budget year beginning July 1, 1991, is one hundred forty-seven dollars.

5. *Combined district cost per pupil.* The combined district cost per pupil for a school district is the sum of the regular program district cost per pupil and the special education support services district cost per pupil. Combined district cost per pupil does not include additional allowable growth added for school districts that have a negative balance of funds raised for special education instruction programs, additional allowable growth granted by the school budget review committee for a single school year, or additional allowable growth added for programs for dropout prevention.

6. *Regular program district cost.* Regular program district cost for a school district for a budget year is equal to the regular program district cost per pupil for the budget year multiplied by the budget enrollment for the budget year.

7. *Special education support services district cost.* Special education support services district cost for a school district for a budget year is equal to the special education support services district cost per pupil for the budget year multiplied by the special education support services weighted enrollment for the district for the budget year. If the special education support services district cost for a school district for a budget year is less than the special education support services district cost for that district for the base year, the department of management shall adjust the special education

support services district cost for that district for the budget year to equal the special education support services district cost for the base year.

8. *Combined district cost.* Combined district cost is the sum of the regular program district cost per pupil multiplied by the weighted enrollment and the special education support services district cost, plus the additional district cost allocated to the district to fund media services and educational services provided through the area education agency.

A school district may increase its combined district cost for the budget year to the extent that an excess tax levy is authorized by the school budget review committee.

257.11 Supplementary weighting plan.

1. *Regular curriculum.* Pupils in a regular curriculum attending all their classes in the district in which they reside, taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. *District-to-district sharing.*

a. In order to provide additional funds for school districts which send their resident pupils to another school district, which jointly employ and share the services of teachers under section 280.15, or which use the services of a teacher employed by another school district, a supplementary weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting, pupils attending classes in another school district, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district are assigned a weighting of forty-eight hundredths of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district.

c. Pupils attending class for all or a substantial portion of a school day pursuant to a whole grade sharing agreement executed under sections 282.10 through 282.12 shall not be eligible for supplementary weighting pursuant to this subsection.

3. *District-to-community college sharing.*

a. In order to provide additional funds for school districts which send their resident pupils to a community college for classes, a supplementary

weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that the class would not otherwise be implemented without the assignment of additional weighting, pupils attending a community college-offered class or attending a class taught by a community college-employed teacher are assigned a weighting of forty-eight hundredths of the percentage of the pupil's school day during which the pupil attends class in the community college or attends a class taught by a community college-employed teacher. The following requirements shall be met for the purposes of assigning an additional weighting for classes offered through a sharing agreement between a school district and community college. The class must be:

- (1) Supplementing, not supplanting, high school courses.
- (2) Included in the community college catalog or an amendment or addendum to the catalog.
- (3) Open to all registered community college students, not just high school students.
- (4) For college credit and the credit must apply toward an associate of arts or associate of science degree, or toward an associate of applied arts or associate of applied science degree, or toward completion of a college diploma program.
- (5) Taught by a teacher meeting community college licensing requirements.
- (6) Taught utilizing the community college course syllabus.
- (7) Of the same quality as a course offered on a community college campus.

4. *At-risk programs and alternative schools.*

a. In order to provide additional funding to school districts for programs serving at-risk pupils and alternative school pupils in secondary schools, a supplementary weighting plan for at-risk pupils is adopted. A supplementary weighting of forty-eight ten-thousandths per pupil shall be assigned to the percentage of pupils in a school district enrolled in grades one through six, as reported by the school district on the basic educational data survey for the base year, who are eligible for free and reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. § 1751-1785, multiplied by the budget enrollment in the school district; and a supplementary weighting of one hundred fifty-six one-hundred-thousandths per pupil shall be assigned to pupils included in the budget enrollment of the school district. Amounts received as supplementary weighting for at-risk pupils shall be utilized by a school district to develop or maintain at-risk pupils' programs, which may include alternative school programs.

b. Notwithstanding paragraph "a", a school district which received supplementary weighting for an alternative high school program for the school budget year beginning July 1, 1999, shall

receive an amount of supplementary weighting for the next three school budget years as follows:

(1) For the budget year beginning July 1, 2000, the greater of the amount of supplementary weighting determined pursuant to paragraph "a", or sixty-five percent of the amount received for the budget year beginning July 1, 1999.

(2) For the budget year beginning July 1, 2001, the greater of the amount of supplementary weighting determined pursuant to paragraph "a", or forty percent of the amount received for the budget year beginning July 1, 1999.

(3) For the budget year beginning July 1, 2002, and succeeding budget years, the amount of supplementary weighting determined pursuant to paragraph "a".

If a school district receives an amount pursuant to this paragraph "b" which exceeds the amount the district would otherwise have received pursuant to paragraph "a", the department of management shall annually determine the amount of the excess that would have been state aid and the amount that would have been property tax if the school district had generated that amount pursuant to paragraph "a", and shall include the amounts in the state aid payments and property tax levies of school districts. The department of management shall recalculate the supplementary weighting amount received each year to reflect the amount of the reduction in funding from one budget year to the next pursuant to subparagraphs (1) through (3). It is the intent of the general assembly that when weights are recalculated under this subsection, the total amounts generated by each weight shall be approximately equal.

c. If the amount to be received under paragraph "a" or "b" by a school district or a consortium of school districts is less than fifty thousand dollars and the school district or consortium received funds under section 279.51, subsection 1, paragraph "c" or "e", Code 1999, for school-based youth services during the budget year beginning July 1, 1999, such school district or consortium shall receive a total amount under this subsection of fifty thousand dollars for each of the budget years beginning July 1, 2000, and July 1, 2001. The department of management shall adjust the supplementary weighting of a school district or the school district acting as the fiscal agent for a consortium eligible under this paragraph in a manner to assure that the district or the consortium receives the total sum of fifty thousand dollars as guaranteed in this paragraph. If the consortium elects not to continue a school-based youth service program, the funds shall be distributed equally to the school districts in the consortium. This paragraph is repealed effective July 1, 2002, for budget years beginning on or after that date. To the extent possible, the total amount of moneys generated by the enactment of this subsection, including this paragraph, shall be equivalent to the amount generated under this subsection without the inclusion of

this paragraph. The department of management shall adjust the weighting assigned in this subsection to reflect this intent.

5. *Shared classes delivered over the Iowa communications network.* A pupil attending a class in which students from one or more other school districts are enrolled and which is taught via the Iowa communications network is not deemed to be attending a class in another school district or in a community college for the purposes of this section and the school district is not eligible for supplementary weighting for that class under this section.

6. *Pupils ineligible.* A pupil eligible for the weighting plan provided in section 256B.9 is not eligible for supplementary weighting pursuant to this section. A pupil attending an alternative program or an at-risk pupils' program, including alternative high school programs, is not eligible for supplementary weighting under subsection 2.

7. *School finance appropriations report.* The department of education shall annually prepare a report regarding school finance provisions or programs receiving a standing appropriation, including supplementary weighting programs. The report shall provide information regarding amounts received or accessed by school districts pursuant to the provisions or programs, whether the amounts received represent an increase or decrease over amounts received during the previous budget year and the percentage increase or decrease, conclusions regarding the adequacy of amounts received by school districts and whether the amounts received are equitable between school districts based upon input from the school districts and analysis by the department, and the rationale for current trends being observed by the department and projections regarding possible trends in the future. The report shall be submitted to the general assembly by January 1 each year, and copies of the report shall be forwarded to the chairpersons and members of the committee on education in the senate and in the house of representatives.

257.13 On-time funding budget adjustment.

1. For the school budget year beginning July 1, 2000, if a district's actual enrollment for the budget year, determined under section 257.6, is greater than its budget enrollment for the budget year, the district shall be eligible to receive an on-time

funding budget adjustment. The adjustment shall be in an amount equal to fifty percent of the difference between the actual enrollment for the budget year and the budget enrollment for the budget year, multiplied by the district cost per pupil.

2. The board of directors of a school district that wishes to receive an on-time funding budget adjustment shall adopt a resolution to receive the adjustment and notify the school budget review committee by November 1, 2000. The school budget review committee shall establish a modified allowable growth in an amount determined pursuant to subsection 1.

3. If the board of directors of a school district determines that a need exists for additional funds exceeding the authorized budget adjustment for on-time funding pursuant to this section, a request for modified allowable growth based upon increased enrollment may be submitted to the school budget review committee as provided in section 257.31.

257.14 Budget adjustment.

1. For the budget year commencing July 1, 2000, if the department of management determines that the regular program district cost of a school district for a budget year is less than the total of the regular program district cost plus any adjustment added under this section for the base year for that school district, the school district shall be eligible to receive a budget adjustment for that district for that budget year up to an amount equal to the difference. The board of directors of a school district that wishes to receive a budget adjustment pursuant to this subsection shall, notwithstanding the public notice and hearing provisions of chapter 24 or any other provision to the contrary, within thirty days following April 6, 2000, adopt a resolution to receive the budget adjustment and immediately notify the department of management of the adoption of the resolution and the amount of the budget adjustment to be received.

2. For the budget year beginning July 1, 1995, if the department of management determines that the regular program district cost plus the budget adjustment computed under subsection 1 of a school district is less than one hundred one percent of the total of the regular program district cost plus any adjustment added under this section for the base year for that school district, the department of management shall provide an additional budget adjustment for that budget year that is equal to the difference.

Subsection 1 amended

257.15 Property tax adjustment.

1. *Property tax adjustment for 1991-1992.* For the budget year beginning July 1, 1991, the department of management shall calculate for each district the difference between the sum of the revenues generated by the foundation property tax and the additional property tax in the district calculated under this chapter and the revenues that would have been generated by the foundation property tax and the additional property tax in that district for that budget year calculated under chapter 442, Code 1989, if chapter 442 were in effect, except that the revenues that would have been generated by the additional property tax levy under chapter 442 shall not include revenues generated for the school improvement program. However in making the calculation of the difference in revenues under this subsection, the department shall not include the revenues generated under section 257.37 and under chapter 442, Code 1989, for funding media and educational services through the area education agencies. If the property tax revenues for a district calculated under this chapter exceed the property tax revenues for that district calculated under chapter 442, Code 1989, the department of management shall reduce the revenues raised by the additional property tax levy in that district under this chapter by that difference and the department of education shall pay property tax adjustment aid to the district equal to that difference from moneys appropriated for property tax adjustment aid.

For purposes of this subsection, in computing the amount of revenues generated by the foundation property tax and the additional property tax under chapter 442, Code 1989, the computation shall be based on a regular program foundation base per pupil of eighty-three percent of the regular program state cost per pupil except that for the portion of weighted enrollment that is additional enrollment because of special education the regular program foundation base per pupil shall be seventy-nine percent of the regular program state cost per pupil. The special education support services foundation base shall be seventy-nine percent of the special education support services state cost per pupil.

2. *Property tax adjustment aid for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the department of education shall pay property tax adjustment aid to a school district equal to the amount paid to the district for the base year less an amount equal to the product of the percent by which the taxable valuation in the district increased, if the taxable valuation increased, from January 1 of the year prior to the base year to January 1 of the base year and the property tax adjustment aid. The department of management shall adjust the rate of the additional property tax accordingly and notify the department of education

of the amount of aid to be paid to each district from moneys appropriated for property tax adjustment aid.

3. *Property tax adjustment aid appropriation.* There is appropriated from the general fund of the state to the department of education, for each fiscal year, an amount necessary to pay property tax adjustment aid to school districts under this section. Property tax adjustment aid shall be paid to school districts in the manner provided in section 257.16.

All state aids paid under this chapter, unless otherwise stated, shall be paid in monthly installments beginning on September 15 of a budget year and ending on or about June 15 of the budget year as determined by the department of management, taking into consideration the relative budget and cash position of the state resources.

All moneys received by a school district from the state under this chapter shall be deposited in the general fund of the school district, and may be used for any school general fund purpose.

However, this section does not apply to a school district that has received approval from the director of the department of education under section 279.10, subsection 4, to commence classes for regularly established elementary and secondary schools in advance of the starting date established in section 279.10, subsection 1.

257.18 Instructional support program.

1. An instructional support program that provides additional funding for school districts is established. A board of directors that wishes to consider participating in the instructional support program shall hold a public hearing on the question of participation. The board shall set forth its proposal, including the method that will be used to

fund the program, in a resolution and shall publish the notice of the time and place of a public hearing on the resolution. Notice of the time and place of the public hearing shall be published not less than ten nor more than twenty days before the public hearing in a newspaper which is a newspaper of general circulation in the school district. At the hearing, or no later than thirty days after the date of the hearing, the board shall take action to adopt a resolution to participate in the instructional support program for a period not exceeding five years or to direct the county commissioner of elections to submit the question of participation in the program for a period not exceeding ten years to the registered voters of the school district at the next regular school election or at a special election. If the board submits the question at an election and a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and certify the results of the election to the department of management.

2. If the board does not provide for an election and adopts a resolution to participate in the instructional support program, the district shall participate in the instructional support program unless within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the instructional support program. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at the next following regular school election or a special election. If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not participate in the instructional support program. If a majority of those voting on the question favors approval of the action, the board shall certify the results of the election to the department of management and the district shall participate in the program.

At the expiration of the twenty-eight day period, if no petition is filed, the board shall certify its action to the department of management and the district shall participate in the program.

3. Participation in an instructional support program is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has approved an instructional support program, and if the voters have not voted upon the question of participation in the program in the reorganized district, the instructional support pro-

gram shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

257.19 Instructional support funding.

The additional funding for the instructional support program for a budget year is limited to an amount not exceeding ten percent of the total of regular program district cost for the budget year and moneys received under section 257.14 as a budget adjustment for the budget year. Moneys received by a district for the instructional support program are miscellaneous income and may be used for any general fund purpose. However, moneys received by a district for the instructional support program shall not be used as, or in a manner which has the effect of, supplanting funds authorized to be received under sections 257.41, 257.46, 298.2, and 298.4, or to cover any deficiencies in funding for special education instructional services resulting from the application of the special education weighting plan under section 256B.9.

Certification of a board's intent to participate for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than April 15 of the base year. Funding for the instructional support program shall be obtained from instructional support state aid and from local funding using either an instructional support property tax or a combination of an instructional support property tax and an instructional support income surtax.

The board of directors shall determine whether the instructional support property tax or the combination of the instructional support property tax and instructional support income surtax shall be used for the local funding. Subject to the limitation specified in section 298.14, if the board elects to use the combination of the instructional support property tax and instructional support income surtax, for each budget year the board shall determine the percent of income surtax that will be imposed, expressed as full percentage points, not to exceed twenty percent.

257.20 Instructional support state aid appropriation.

1. In order to determine the amount of instructional support state aid and the amount of local funding for the instructional support program for a district, the department of management shall divide the total assessed valuation in the state by the total budget enrollment for the budget year in the state to determine a state assessed valuation per pupil and shall divide the assessed valuation in each district by the district's budget enrollment for the budget year to determine the district assessed valuation per pupil. The department of

management shall multiply the ratio of the state's valuation per pupil to the district's valuation per pupil by twenty-five hundredths and subtract that result from one to determine the portion of the instructional support program budget that is local funding. The remaining portion of the budget shall be funded by instructional support state aid. However, for the budget year beginning July 1, 1992, only, the amount of state aid is three and one-quarter percent less than the amount computed under this paragraph for that budget year.

2. There is appropriated for each fiscal year from the general fund of the state to the department of education, an amount necessary to pay instructional support state aid as determined under subsection 1.

a. However, moneys appropriated under this subsection shall not exceed the amount of moneys appropriated as instructional support state aid for the budget year which commenced on July 1, 1992.

b. If the amount appropriated under this subsection is insufficient to pay the amount of instructional support state aid determined under subsection 1, the department of education shall prorate the amount of the instructional support state aid provided to each district.

3. If the general assembly makes an appropriation for instructional support state aid in lieu of the standing appropriation provided under subsection 2, the appropriation for instructional support state aid shall include in the appropriation the allocation of the instructional support state aid to the school districts applicable for that appropriation and subsections 1 and 2 do not apply to the appropriation.

4. Instructional support state aid shall be paid at the same time and in the same manner as foundation aid is paid under section 257.16.

257.21 Computation of instructional support amount.

The department of management shall establish the amount of instructional support property tax to be levied and the amount of instructional support income surtax to be imposed by a district in accordance with the decision of the board under section 257.19 for each school year for which the instructional support program is authorized. The department of management shall determine these amounts based upon the most recent figures available for the district's valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district's county auditor the amount of instructional support property tax, and to the director of revenue and finance the amount of instructional support income surtax to be imposed if an instructional support income surtax is to be imposed.

The instructional support income surtax shall be imposed on the state individual income tax for the calendar year during which the school's budget year begins, or for a taxpayer's fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the applicable tax year. As used in this section, "state individual income tax" means the taxes computed under section 422.5, less the credits allowed in sections 422.11A, 422.11B, 422.12, and 422.12B.

257.24 Deposit of instructional support income surtax.

The director of revenue and finance shall deposit all moneys received as instructional support income surtax to the credit of each district from which the moneys are received, in the school district income surtax fund which is established in section 298.14.

The director of revenue and finance shall deposit instructional support income surtax moneys received on or before November 1 of the year following the close of the school budget year for which the surtax is imposed to the credit of each district from which the moneys are received in the school district income surtax fund.

Instructional support income surtax moneys received or refunded after November 1 of the year following the close of the school budget year for which the surtax is imposed shall be deposited in or withdrawn from the general fund of the state and shall be considered part of the cost of administering the instructional support income surtax.

89 Acts, ch 135, §24

257.25 Instructional support income surtax certification.

On or before October 20 each year, the director of revenue and finance shall make an accounting

of the instructional support income surtax collected under this chapter applicable to tax returns for the last preceding calendar year, or for a taxpayer's fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program, or the first half of the succeeding calendar year, from taxpayers in each school district in the state which has approved the instructional support program, and shall certify to the department of management and the department of education the amount of total instructional support income surtax credited from the taxpayers of each school district.

89 Acts, ch 135, §25

257.26 Instructional support income surtax distribution.

The director of revenue and finance shall draw warrants in payment of the amount of instructional support surtax in the manner provided in section 298.14.

At the expiration of the period for which the instructional support program was adopted, the program may be extended for a period of not exceeding five or ten years in the manner provided in section 257.18.

If the voters do not approve adoption of the instructional support program, the board shall wait at least one hundred twenty days following the election before taking action to adopt the program or resubmit the proposition.

89 Acts, ch 135, §27

257.28 Enrichment levy.

If a school district has approved the use of the instructional support program for a budget year, the district shall not also collect moneys under the additional enrichment amount approved by the voters under chapter 442, as it appeared in Code 1991, for the budget year.

89 Acts, ch 135, §28; 92 Acts, ch 1163, §60

257.29 Educational improvement program.

An educational improvement program is established to provide additional funding for school districts in which the regular program district cost per pupil for a budget year is one hundred ten percent of the regular program state cost per pupil for the budget year and which have approved the use of the instructional support program established in section 257.18. A board of directors that wishes to consider participating in the educational improvement program shall hold a hearing on the question of participation and the maximum per-

cent of the regular program district cost of the district that will be used. The hearing shall be held in the manner provided in section 257.18 for the instructional support program. Following the hearing, the board may direct the county commissioner of elections to submit the question to the registered voters of the school district at the next following regular school election or a special election held not later than the following February 1. If a majority of those voting on the question favors participation in the program, the board shall adopt a resolution to participate and shall certify the results of the election to the department of management and the district shall participate in the program. If a majority of those voting on the question does not favor participation, the district shall not participate in the program.

The educational improvement program shall provide additional revenues each fiscal year equal to a specified percent of the regular program district cost of the district, as determined by the board but not more than the maximum percent authorized by the electors if an election has been held. Certification of a district's participation for a budget year, the method of funding, and the amount to be raised shall be made to the department of management not later than April 15 of the base year.

The educational improvement program shall be funded by either an educational improvement property tax or by a combination of an educational improvement property tax and an educational improvement income surtax. The method of raising the educational improvement moneys shall be determined by the board. Subject to the limitation in section 298.14, if the board uses a combination of an educational improvement property tax and an educational improvement income surtax, the board shall determine the percent of income surtax to be imposed, expressed as full percentage points, not to exceed twenty percent.

The department of management shall establish the amount of the educational improvement property tax to be levied or the amount of the combination of the educational improvement property tax to be levied and the amount of the school district income surtax to be imposed for each school year that the educational improvement amount is authorized. The educational improvement property tax and income surtax, if an income surtax is imposed, shall be levied and imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26. Moneys received by a school district under the educational improvement program are miscellaneous income.

Once approved at an election, the authority of the board to use the educational improvement program shall continue until the board votes to rescind the educational improvement program or the voters of the school district by majority vote order the discontinuance of the program. The board

shall call an election to vote on the proposition whether to discontinue the program upon the receipt of a petition signed by not less than one hundred eligible electors or thirty percent of the number of electors voting at the last preceding school election, whichever is greater.

Participation in an educational improvement program is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in school reorganization under chapter 275 has approved an educational improvement program, and if the voters have not voted upon the question of participation in the program in the reorganized district, the educational improvement program shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

Notwithstanding the requirement in the first unnumbered paragraph of this section that the regular program district cost per pupil for a budget year is one hundred ten percent of the regular state cost per pupil, the board of directors may participate in the educational improvement program as provided in this section if the school district had adopted an enrichment levy of fifteen percent of the state cost per pupil multiplied by the budget enrollment in the district prior to July 1, 1992, and upon expiration of the period for which the enrichment levy was adopted, adopts a resolution for the use of the instructional support program established in section 257.18. The maximum percent of the regular district cost of the district that may be used under this paragraph shall not exceed five percent.

257.30 School budget review committee.

A school budget review committee is established in the department of education and consists of the director of the department of education, the director of the department of management, and three members who are knowledgeable in the areas of Iowa school finance or public finance issues appointed by the governor to represent the public. At least one of the public members shall possess a master's or doctoral degree in which areas of school finance, economics, or statistics are an integral component, or shall have equivalent experience in an executive administrative or senior research position in the education or public administration field. The members appointed by the governor shall serve staggered three-year terms beginning and ending as provided in section 69.19 and are subject to senate confirmation as provided in section 2.32. The committee shall meet and hold hearings each year and shall continue in session until it has reviewed budgets of school dis-

tricts, as provided in section 257.31. It may call in school board members and employees as necessary for the hearings. Legislators shall be notified of hearings concerning school districts in their constituencies.

The committee shall adopt its own rules of procedure under chapter 17A. The director of the department of education shall serve as chairperson, and the director of the department of management shall serve as secretary. The committee members representing the public are entitled to receive their necessary expenses while engaged in their official duties. Members shall be paid a per diem at the rate specified in section 7E.6. Per diem and expense payments shall be made from appropriations to the department of education.

The department of education shall employ a staff member to assist the school budget review committee.

89 Acts, ch 135, §30

257.31 Duties of the committee.

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

2. The committee shall report to each session of the general assembly, which report shall include any recommended changes in laws relating to school districts, and shall specify the number of hearings held annually, the reasons for the committee's recommendations, information about the amounts of property tax levied by school districts for a cash reserve, and other information the committee deems advisable.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Not later than January 1, 1992, the committee shall adopt recommendations relating to the implementation by school districts and area education agencies of procedures pertaining to the preparation of financial reports in conformity with generally accepted accounting principles and submit those recommendations to the state board of education. The state board shall consider the recommendations and adopt rules under section 256.7 specifying procedures and requiring the school districts and area education agencies to conform to generally accepted accounting prin-

ciples commencing with the school year beginning July 1, 1996.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the following circumstances, the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for the purposes of this subsection, and such aid shall be miscellaneous income and shall not be included in district cost, or may establish a modified allowable growth for the district by increasing its allowable growth, or both:

- a. Any unusual increase or decrease in enrollment.
- b. Unusual natural disasters.
- c. Unusual initial staffing problems.
- d. The closing of a nonpublic school, wholly or in part.
- e. Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.
- f. Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils.
- g. Unusual need for a new course or program which will provide substantial benefit to pupils, if the district establishes the need and the amount of necessary increased cost.
- h. Unusual need for additional funds for special education or compensatory education programs.
- i. Year-round or substantially year-round attendance programs which apply toward graduation requirements, including but not limited to trimester or four-quarter programs. Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance.
- j. Unusual need to continue providing a program or other special assistance to non-English speaking pupils after the expiration of the three-year period specified in section 280.4.
- k. Circumstances caused by unusual demographic characteristics.

l. Any unique problems of school districts.

6. The committee shall establish a modified allowable growth for a district by increasing its allowable growth when the district submits evidence that it requires additional funding for removal, management, or abatement of environmental hazards due to a state or federal requirement. Environmental hazards shall include but are not limited to the presence of asbestos, radon, or the presence of any other hazardous material dangerous to health and safety.

The district shall include a budget for the actual cost of the project that may include the costs of inspection, reinspection, sampling, analysis, assessment, response actions, operations and maintenance, training, periodic surveillance, developing of management plans, recordkeeping require-

ments, and encapsulation or removal of the hazardous material.

7. The committee may authorize a district to spend a reasonable and specified amount from its unexpended cash balance for either of the following purposes:

a. Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or the tax levy provided in section 298.2.

b. The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275, if the costs are incurred within three years of the dissolution or reorganization.

Other expenditures, including but not limited to expenditures for salaries or recurring costs, are not authorized under this subsection. Expenditures authorized under this subsection shall not be included in allowable growth or district cost, and the portion of the unexpended cash balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended cash balance.

8. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

9. When the committee makes a decision under subsections 3 through 8, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the department of education.

10. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education

weighting plan, and shall establish a weighting plan for each school year pursuant to section 256B.9, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 256B.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance exceeding ten percent of the additional funds generated for special education, not to include any previous carryover, from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeding the ten percent amount exceeds the amount of state aid that remains to be paid to the district, not including any previous carryover, the school district shall pay the excess on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that exceeds the ten percent amount that came from local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

There is appropriated from the general fund of the state to the school budget review committee for each fiscal year an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in all districts that has a positive balance determined under paragraph "a" for the base year, or the state aid portion of all of the positive balances determined

under paragraph "a" for the base year, whichever is less, to be used for supplemental aid payments to school districts. Except as otherwise provided in this lettered paragraph, supplemental aid paid to a district is equal to the state aid portion of the district's negative balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this lettered paragraph.

A school district is only eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will notify the school budget review committee to instruct the director of the department of management to increase the district's allowable growth and will fund the allowable growth increase either by using moneys from its unexpended cash balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid under this subsection. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the additional allowable growth and shall make the supplemental aid payments.

If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments under this subsection, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for the cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 257.4 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

16. The committee shall perform the duties assigned to it under sections 257.32 and 260C.18B.

17. *a.* If a district's average transportation costs per pupil exceed the state average transportation costs per pupil determined under paragraph "c" by one hundred fifty percent, the committee may grant transportation assistance aid to the district. Such aid shall be miscellaneous income and shall not be included in district cost.

b. To be eligible for transportation assistance aid, a school district shall annually certify its actual cost for all children transported in all school buses not later than July 31 after each school year on forms prescribed by the committee.

c. A district's average transportation costs per pupil shall be determined by dividing the district's actual cost for all children transported in all school buses for a school year pursuant to section 285.1, subsection 12, less the amount received for transporting nonpublic school pupils under section 285.1, by the district's actual enrollment for the school year excluding the shared-time enrollment for the school year as defined in section 257.6. The state average transportation costs per pupil shall be determined by dividing the total actual costs for all children transported in all districts for a school year, by the total of all districts' actual enrollments for the school year.

d. Funds transferred to the committee in accordance with section 321.34, subsection 22, are appropriated to and may be expended for the purposes of the committee, as described in this section. However, highest priority shall be given to districts that meet the conditions described in this subsection. Notwithstanding any other provision of the Code, unencumbered or unobligated funds transferred to the committee pursuant to section 321.34, subsection 22, remaining on June 30 of the fiscal year for which the funds were transferred, shall not revert but shall be available for expenditure for the purposes of this subsection in subsequent fiscal years.

257.32 Area education budget review.

1. An area education agency budget review procedure is established for the school budget review committee created in section 257.30. The school budget review committee, in addition to its duties under section 257.31, shall meet and hold hearings each year to review unusual circumstances of area education agencies, either upon the committee's motion or upon the request of an area education agency. The committee may grant supplemental aid to the area education agency from funds appropriated to the department of education for area education agency budget review purposes, or an amount may be added to the area education agency special education support services allowable growth for districts in an area or an additional amount may be added to district cost for media services or educational services for all districts in an area for the budget year either on a temporary or permanent basis, or both.

Unusual circumstances shall include but are not limited to the following:

a. An unusual increase or decrease in enrollment of children requiring special education or unusual need for additional moneys for special education support services.

b. Unusual need for additional moneys for media services.

c. Unusual need for additional moneys for educational services.

d. Unusual costs for building repair, building maintenance, or removal of environmental hazards.

e. Participation by the area education agency in telecommunications, electronic, and technological development with school districts, and related staff development programs.

2. When the school budget review committee makes a decision under subsection 1, it shall provide written notice of its decision, including all changes, to the board of directors of the area education agency, and to the department of management and the department of education.

3. All decisions by the school budget review committee under this section shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter.

4. Failure by an area education agency to provide information or appear before the school budget review committee as requested for the accomplishment of review or hearing constitutes justification for the committee to instruct the department of revenue and finance to withhold payments for the area education agency until the committee's inquiries are satisfied completely.

89 Acts, ch 135, §32

257.33 Prior enrichment approval.

If the electors of a school district approved the use of the additional enrichment amount prior to July 1, 1991, under chapter 442 or section 279.43, as they appeared in Code 1991, the approval for use of the enrichment amount shall continue in effect until the expiration of the period for which it was approved and districts may use the additional enrichment amount during that period. However, section 257.28 applies to the use of the additional enrichment amount.

Use of the additional enrichment amounts approved under chapter 442, Code 1991, is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has approved the use of the additional enrichment amount, and if the voters have not voted upon the question of participation in the instructional support program in the reorganized district, the use of the additional enrichment amount shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

89 Acts, ch 135, §33; 92 Acts, ch 1163, §61; 93 Acts, ch 8, §1

257.34 Cash reserve information.

If a school district receives less state school foundation aid under section 257.1 than is due under that section for a base year and the school district uses funds from its cash reserve during the

base year to make up for the amount of state aid not paid, the board of directors of the school district shall include in its general fund budget document information about the amount of the cash reserve used to replace state school foundation aid not paid.

89 Acts, ch 135, §34

257.35 Area education agency payments.

The department of management shall deduct the amounts calculated for special education support services, media services, and educational services for each school district from the state aid due to the district pursuant to this chapter and shall pay the amounts to the respective area education agencies on a monthly basis from September 15 through June 15 during each school year. The department of management shall notify each school district of the amount of state aid deducted for these purposes and the balance of state aid shall be paid to the district. If a district does not qualify for state aid under this chapter in an amount sufficient to cover its amount due to the area education agency as calculated by the department of management, the school district shall pay the deficiency to the area education agency from other moneys received by the district, on a quarterly basis during each school year.

89 Acts, ch 135, §35

257.36 Special education support services balances.

Notwithstanding chapters 256B and 273 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for each school year, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The total amount deducted in an area shall be based upon excess special education support services unreserved and undesignated fund balances in that area education agency for a school year as determined by the department of education. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district's total state school aid available under this chapter for area education agency special education support services and reduce the district's property tax levy for area education agency special education support services by the amount necessary for the property tax portion

of the deductions made under this section during the budget year.

The amount deducted from a school district's budget shall not affect the calculation of the state cost per pupil or its district cost per pupil in that school year or a subsequent year.

89 Acts, ch 135, §36

257.37 Funding media and educational services.

Media services and educational services provided through the area education agencies shall be funded, to the extent provided, by an addition to the combined district cost of each school district, determined as follows:

1. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for media services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for media services in the base year, including the cost for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1, paragraphs "a", "b", and "c", shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the department of management shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the allowable growth for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for media services cost in the budget year equals the area media services cost per pupil in the base year plus the allowable growth for media services in the budget year times the enrollment served in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

2. Thirty percent of the budget of an area for media services shall be expended for media resource material which shall only be used for the purchase or replacement of material required in section 273.6, subsection 1. Funds shall be paid to area education agencies as provided in section 257.35.

3. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for educational services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the department of management

shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the allowable growth for educational services by multiplying the state educational services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the allowable growth for educational services in the budget year times the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

4. "Enrollment served" means the basic enrollment plus the number of nonpublic school pupils served with media services or educational services, as applicable, except that if a nonpublic school pupil or a pupil attending another district under a whole-grade sharing agreement or open enrollment receives services through an area other than the area of the pupil's residence, the pupil shall be deemed to be served by the area of the pupil's residence, which shall by contractual arrangement reimburse the area through which the pupil actually receives services. Each school district shall include in the third Friday in September enrollment report the number of nonpublic school pupils within each school district for media and educational services served by the area.

5. If an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for media services times the difference between the enrollment served and the basic enrollment recorded for the area. The educational services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for educational services times the difference between the enrollment served and the basic enrollment recorded for the area.

This subsection applies only to media and educational services which cannot be diverted for religious purposes.

Notwithstanding this subsection, an area education agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to pub-

lic schools as determined by the director of the department of education.

When the county board of supervisors has once offered for sale school lands held under section 257B.1A in compliance with the requirements of this chapter, and they remain unsold, and it is unable to obtain the appraised value of the lands and, in the opinion of the board, it is for the best interests of the permanent school fund that the lands be sold for a less price, it may instruct the auditor to transmit to the secretary of state a certified copy of its proceedings in relation to the order of sale of the land and subsequent proceedings in relation to the sale, including the action of the township trustees, and the price per acre at which the land had been appraised. The secretary of state shall submit the transcript of the proceedings to the executive council; and if it approves of a sale at a less sum, it shall certify the approval to the auditor of the county from which the transcript came. 257B.7 Sale on credit — taxation — waste.

When lands are sold upon a partial credit, the contract therefor shall be at once reduced to writing, signed by the proper parties, recorded in the county where the land is situated, and immediately thereafter filed in the office of the county auditor. Any purchaser or the purchaser's assigns may

at any time pay the full amount for lands with accrued interest, and receive from the county auditor a certificate of purchase, which shall be at once transmitted to the secretary of state and will entitle the holder to a patent for the lands, to be issued by the secretary of state and the governor. All school lands sold in pursuance of law shall be subject to taxation from and after the execution and delivery of a contract of purchase. All sales made, where the full price is not paid, shall be subject to the law relative to the prevention or punishment of waste, and in all such cases the township trustees in each township are charged with the duty of preventing the commission of waste upon any school lands lying in their township, and, if attempted, they shall apply by petition for an injunction to stay the same, and if granted the writ shall issue without bond, and the court issuing it may make such order in the premises as shall be equitable and best calculated to prevent threatened injury, and may adjudge damages for any injury done, the costs to abide the event of the action, and the damages adjudged shall be paid to the county treasurer and the county treasurer shall forthwith pay the same to the state treasurer which shall become a part of the permanent school fund.

257C.2 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa and the improvement of the financing procedures for Iowa's schools.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.

3. Iowa schools face a serious and increasing problem with cash flow difficulties caused, among other factors, by increasing reliance on state school foundation aid, delays in the payment of state school foundation aid, and the periodic payment of property taxes for school purposes.

4. As a result of their increasing cash flow difficulties, Iowa schools have had to borrow on a short-term basis larger amounts of funds more often, thus increasing their borrowing costs significantly.

5. The short-term borrowing costs of Iowa schools are a direct burden on the taxpayers of the state.

6. It is necessary to create the authority to provide a means for Iowa schools to reduce substantially or eliminate their short-term borrowing costs and thus reduce costs to the taxpayers.

7. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned or granted.

The director of the department of education shall appoint and direct the work of personnel as necessary to carry out this chapter.

[C24, 27, 31, 35, 39, §3839; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §258.3]

7. Annually review at least twenty percent of the approved vocational programs as a basis for continuing approval to ensure that the programs are compatible with educational reform efforts, are capable of responding to technological change and innovation, and meet the educational needs of students and the employment community. The review shall include an assessment of the extent to which the competencies in the program are being mastered by the students enrolled, the costs are proportionate to educational benefits received, the vocational curriculum is articulated and integrated with other curricular offerings required of all students, the programs would permit students with vocational education backgrounds to pursue other educational interests in a postsecondary institutional setting, and the programs remove barriers for both traditional and nontraditional students to access educational and employment opportunities.

8. Establish a minimum set of competencies and core curriculum for approval of a vocational program sequence that addresses the following: new and emerging technologies; job-seeking, job-keeping, and other employment skills, including self-employment and entrepreneurial skills, that

12. Notwithstanding the accreditation standard and process contained in section 256.11 for vocational education for students in grades nine through twelve, provide a process that permits school districts to establish community-based workplace learning programs, called "workstart" programs, that provide students with competency-based learning experiences that reinforce basic academic skills and include, but are not limited to, new and emerging technologies; job-seeking, job-adaptability, and other employment; and self-employment and entrepreneurial skills that reflect current industry standards and labor-market needs. An approved workstart program may consist of two of the required sequential units in one of the six occupational service areas in grades nine through twelve, and shall be a priority for receipt of vocational education secondary funds.

If federal and state funds are not sufficient to make the reimbursement to the extent provided in this section, the director shall prorate the respective amounts available to the corporations entitled to reimbursement.

The director may use federal funds to reimburse approved practitioner preparation schools, departments, or classes for the training of teachers of agriculture, home economics, trades and industrial education, distributive education, and for the training of guidance counselors.

A community-based workplace learning program, called "workstart", is established as a voluntary collaborative educational program between business and Iowa's secondary and postsecondary education system designed to provide the means by which students can be better prepared to enter the workforce. The program is to provide all participating high school students with aca-

ademic skills and appropriate competency-based job-specific skills needed to enter high performance workplace employment through a jointly planned and supervised instructional and work-site-based training program that is articulated with postsecondary advanced programs of preparation, United States department of labor-approved apprenticeship programs, and other appropriate job training programs. Schools and school districts are encouraged to work with current employers of students attending instruction in the schools or school districts in order to articulate educational programming with the work experiences of the students. The workstart program is designed to prepare students for employment in occupations which not only require high skill levels but which also offer students opportunities within those occupations for career and personal advancement.

2. Each school or school district that desires to establish a workstart program shall appoint a local employment and training council, the members of which shall serve at the pleasure of the board of directors of the district or the authorities in charge of the nonpublic school. The majority of the council members shall be local secondary and postsecondary educators. Other council members shall include, but are not limited to, members of the business community and chamber of commerce, appropriate labor representatives, parents, and representatives from any local municipal, county, state, or federal job placement or training agencies. The council shall identify and assess all of the following:

a. The types of high performance workplace employment opportunities for individuals who live in the community.

b. The skills, knowledge, and attitudes required by employers for placement in entry level and advanced positions.

c. The private and institutional resources necessary and available to provide the appropriate high school training and advanced educational offerings for persons seeking to acquire job skills for the positions.

The council, in identifying and assessing high performance workplace employment opportunities, shall consult with local and regional job placement organizations and take into consideration possible job placement trends and opportunities that may become available to program participants. The council shall consult with the vocational regional planning board or consortia to determine what educational resources are available within the merged area and to ascertain the occupational needs of local students. The council shall summarize those jobs, skills, and resources identified and assessed and develop a proposed plan for utilization of available resources to permit the acquisition of those skills in a workstart program. In addition to any agreements with local businesses, the proposed plan for a workstart program shall

include an articulated, sequential plan that coordinates and complements the curricula and training available in a secondary education setting with the curricula and training available at the community or private college or other postsecondary training program level. The council shall forward the proposed plan for a workstart program to the board of directors of the school district, or the authorities in charge of the nonpublic school, for review, modification, and approval.

3. Each workstart program shall consist of two phases, each of which shall be supervised by an appropriately licensed education practitioner: the preparation phase and the workplace phase.

a. The preparation phase of a workstart program is a school-based program that provides students with basic and advanced academic skills that will be necessary to perform in a vocational service area chosen by the student. The preparation phase shall also include instruction in skills that are necessary to succeed in high performance workplace employment. The preparation phase of a workstart program shall be directed by education practitioners possessing the appropriate licensing and endorsements for the vocational service area.

b. The workplace phase of a workstart program shall consist of an intensive workplace-specific training program that may be conducted at a worksite or both at a worksite and in the school setting. The workplace phase of a workstart program shall be coordinated by an education practitioner possessing the appropriate license and endorsements for the vocational service area, and may be directed at the worksite by persons employed in the occupational training area which has been selected by the student.

Both the preparation and workplace phases shall be articulated with United States department of labor-approved apprenticeship programs and other postsecondary educational and training offerings that permit participating students to obtain advanced training and education that may be necessary upon graduation from the workstart secondary education program or to obtain an advancement in an occupational field chosen by the student during the student's participation in a workstart secondary education program.

4. Each workstart program shall include a written agreement by the school or school district with one or more businesses from the surrounding community to provide workplace-specific training and learning programs which are related to the skills needed to succeed in those occupational areas. The proposed plan for implementation of the workstart program shall include a copy of the written agreement between the school or school district and the business or businesses and a business support component, which shall consist of financial or in-kind support, or both financial and in-kind support, from the businesses that have entered into the agreement with the school or school

district. The plan may provide for the utilization of phase III and other available school funds in the establishment of the program. A workstart program is a comprehensive school transformation program under section 294A.14.

5. The state board of education shall adopt rules pursuant to chapter 17A to provide for the implementation of this section.

6. The department of education shall adopt guidelines for the establishment of workstart programs. Guidelines may include, but are not limited to, acceptable levels of business financial participation in a workstart program, maximum hour and workload guidelines for education practitioners working in or supervising a workstart program, and maximum and minimum class size guidelines for the preparation and workplace

phases of a workstart program.

7. A school or local school district that implements a workstart program shall annually conduct a survey which counts the number of students who participate in, or graduate from, the program that are actually employed in an occupational area for which they received training. The school or school district shall disseminate the results of the surveys to the local employment and training councils for the school or school district and the department of education.

The governing board of a merged area is a board of directors composed of one member elected from each director district in the area by the electors of the respective district. Members of the board shall be residents of the district from which elected. Successors shall be chosen at the annual school elections for members whose terms expire. The term of a member of the board of directors is three years and commences at the organization meeting. Vacancies on the board shall be filled at the next regular meeting of the board by appointment by the remaining members of the board. A member so chosen shall be a resident of the district in which the vacancy occurred and shall serve until a member is elected pursuant to section 69.12 to fill the vacancy for the balance of the unexpired term. A vacancy is defined in section 277.29. A

member shall not serve on the board of directors who is a member of a board of directors of a local school district or a member of an area education agency board.

Commencing with the regular school election in 1981, the governing board of a merged area shall consist of not less than five nor more than nine members.

Director districts shall be of approximately equal population within each merged area.

The board of directors of the merged area shall organize at the first regular meeting in October of each year. Organization of the board shall be effected by the election of a president and other officers from the board membership as board members determine. The secretary and treasurer shall perform duties under chapter 291 and additional duties the board of directors deems necessary. However, the board may appoint one person to serve as the secretary and treasurer. If one person serves as the secretary and treasurer, only one bond is necessary for that person. The frequency of meetings other than organizational meetings shall be as determined by the board of directors but the president or a majority of the members may call a special meeting at any time.

Members of the board, other than the secretary and the treasurer, shall be allowed their actual expenses incurred in the performance of their duties and may be eligible to receive per diem compensation.

1. The board of a merged area may change the number of directors on the board and shall make corresponding changes in the boundaries of director districts. Changes shall be completed not later than June 1 for the regular school election to be held the next following September. As soon as possible after adoption of the boundary changes, notice of changes in the director district boundaries shall be submitted by the merged area to the county commissioner of elections in all counties included in whole or in part in the merged area.

2. The board of the merged area shall redraw boundary lines of director districts in the merged area after each census to compensate for changes in population if changes in population have taken place.

3. Boundary lines of director districts shall be drawn according to the following standards:

a. All boundaries shall follow precinct boundaries or school director district boundaries unless a merged area director district boundary follows the boundary of a school district which divides one or more election precincts.

b. To the extent possible in order to comply with paragraph "a", all districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the merged area.

c. All districts shall be composed of contiguous territory as compact as practicable.

d. Consideration shall not be given to the addresses of incumbent officeholders, political affiliations of registered voters, previous election results, or demographic information other than population head counts, except as required by the Constitution and the laws of the United States.

e. Cities shall not be divided into two or more districts unless the population of the city is greater than the ideal size of a district. Cities shall be divided into the smallest number of districts possible.

260C.14 Authority of directors.

The board of directors of each community college shall:

1. Determine the curriculum to be offered in such school or college subject to approval of the state board and ensure that all vocational offerings are competency-based, provide any minimum competencies required by the department of education, comply with any applicable requirements in chapter 258, and are articulated with local school district vocational education programs. If an existing private educational or vocational institution within the merged area has facilities and curriculum of adequate size and quality which would duplicate the functions of the area school, the board of directors shall discuss with the institution the possibility of entering into contracts to have the existing institution offer facilities and

curriculum to students of the merged area. The board of directors shall consider any proposals submitted by the private institution for providing such facilities and curriculum. The board of directors may enter into such contracts. In approving curriculum, the state board shall ascertain that all courses and programs submitted for approval are needed and that the curriculum being offered by an area school does not duplicate programs provided by existing public or private facilities in the area. In determining whether duplication would actually exist, the state board shall consider the needs of the area and consider whether the proposed programs are competitive as to size, quality, tuition, purposes, and area coverage with existing public and private educational or vocational institutions within the merged area. If the board of directors of the merged area chooses not to enter into contracts with private institutions under this subsection, the board shall submit a list of reasons why contracts to avoid duplication were not entered into and an economic impact statement relating to the board's decision.

2. Have authority to determine tuition rates for instruction. Tuition for residents of Iowa shall not exceed the lowest tuition rate per semester, or the equivalent, charged by an institution of higher education under the state board of regents for a full-time resident student. However, except for students enrolled under chapter 261C, if a local school district pays tuition for a resident pupil of high school age, the limitation on tuition for residents of Iowa shall not apply, the amount of tuition shall be determined by the board of directors of the community college with the consent of the local school board, and the pupil shall not be included in the full-time equivalent enrollment of the community college for the purpose of computing general aid to the community college. Tuition for nonresidents of Iowa shall not be less than the marginal cost of instruction of a student attending the college. A lower tuition for nonresidents may be permitted under a reciprocal tuition agreement between a merged area and an educational institution in another state, if the agreement is approved by the state board. The board may designate that a portion of the tuition moneys collected from students be used for student aid purposes.

3. Have the powers and duties with respect to community colleges, not otherwise provided in this chapter, which are prescribed for boards of directors of local school districts by chapter 279 except that the board of directors is not required to prohibit the use of tobacco and the use or possession of alcoholic liquor or beer by any student of legal age under the provisions of section 279.9.

4. Have the power to enter into contracts and take other necessary action to insure a sufficient curriculum and efficient operation and management of the college and maintain and protect the

physical plant, equipment, and other property of the college.

5. Establish policy and make rules, not inconsistent with law and administrative rules, regulations, and policies of the state board, for its own government and that of the administrative, teaching, and other personnel, and the students of the college, and aid in the enforcement of such laws, rules, and regulations.

6. Have authority to sell a student-constructed building and the property on which the student-constructed building is located or any article resulting from any vocational program or course offered at a community college by any procedure which may be adopted by the board. Governmental agencies and governmental subdivisions of the state within the merged areas shall be given preference in the purchase of such articles. All revenue received from the sale of any article shall be credited to the funds of the board of the merged area.

7. With the consent of the inventor, and in the discretion of the board, secure letters patent or copyright on inventions of students, instructors, and officials of any community college of the merged area, or take assignment of such letters patent or copyright and make all necessary expenditures in regard thereto. Letters patent or copyright on inventions when so secured shall be the property of the board of the merged area and the royalties and earnings thereon shall be credited to the funds of the board.

8. Set the salary of the area superintendent. In setting the salary, the board shall consider the salaries of administrators of educational institutions in the merged area and the enrollment of the community college.

9. At the request of an employee through contractual agreement the board may arrange for the purchase of group or individual annuity contracts for any of its employees, which annuity contracts are issued by a nonprofit corporation issuing retirement annuities exclusively for educational institutions and their employees or are purchased from any company the employee chooses that is authorized to do business in this state or through an Iowa-licensed salesperson that the employee selects, on a group or individual basis, for retirement or other purposes, and may make payroll deductions in accordance with the arrangements for the purpose of paying the entire premium due and to become due under the contract. The deductions shall be made in the manner which will qualify the annuity premiums for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. The employee's rights under the annuity contract are nonforfeitable except for the failure to pay premiums. If an existing tax-sheltered annuity contract is to be replaced by a new contract, the agent or representative of the company shall submit a letter of intent by registered mail to the company being replaced, to the insurance

commissioner of the state of Iowa, and to the agent's or representative's own company at least thirty days prior to any action. This letter of intent shall contain the policy number and description of the contract being replaced and a description of the replacement contract. As used in this section, unless the context otherwise requires, "*annuity contract*" includes any custodial account which meets the requirements of section 403(b)(7) of the Internal Revenue Code, as defined in section 422.3.

10. Make necessary rules to provide for the policing, control, and regulation of traffic and parking of vehicles and bicycles on the property of the community college. The rules may provide for the use of institutional roads, driveways, and grounds; registration of vehicles and bicycles; the designation of parking areas; the erection and maintenance of signs designating prohibitions or restrictions; the installation and maintenance of parking control devices except parking meters; and assessment, enforcement, and collection of reasonable penalties for the violation of the rules.

Rules made under this subsection may be enforced under procedures adopted by the board of directors. Penalties may be imposed upon students, faculty, and staff for violation of the rules, including, but not limited to, a reasonable monetary penalty which may be deducted from student deposits and faculty or staff salaries or other funds in possession of the community college or added to student tuition bills. The rules made under this subsection may also be enforced by the impoundment of vehicles and bicycles parked in violation of the rules, and a reasonable fee may be charged for the cost of impoundment and storage prior to the release of the vehicle or bicycle to the owner. Each community college shall establish procedures for the determination of controversies in connection with the imposition of penalties. The procedures shall require giving notice of the violation and the penalty prescribed and providing the opportunity for an administrative hearing.

11. Be authorized to issue to employees of community colleges school credit cards to use for payment of authorized expenditures incurred in the performance of work-related duties.

12. During the second week of August of each year, publish by one insertion in at least one newspaper published in the merged area a summarized statement verified by affidavit of the secretary of the board showing the receipts and disbursements of all funds of the community college for the preceding fiscal year. The statement of disbursements shall show the names of the persons, firms, or corporations, and the total amount paid to each during the fiscal year. The board is not required to make the publications and notices required under sections 279.35 and 279.36.

13. Adopt policies and procedures for the use of telecommunications as an instructional tool at the community college. The policies and proce-

dures shall include but not be limited to policies and procedures relating to programs, educational policy, practices, staff development, use of pilot projects, and the instructional application of the technology.

14. In its discretion, adopt rules relating to the classification of students enrolled in the community college who are residents of Iowa's sister states as residents or nonresidents for tuition and fee purposes.

15. By July 1, 1991, develop a policy which requires oral communication competence of persons who provide instruction to students attending institutions under the control of the board. The policy shall include a student evaluation mechanism which requires student evaluation of persons providing instruction on at least an annual basis.

16. By July 1, 1991, develop a policy relating to the teaching proficiency of teaching assistants which provides a teaching proficiency standard, instructional assistance to, and evaluation of persons who provide instruction to students at the higher education institutions under the control of the board.

17. Provide for eligible alternative retirement benefits systems which shall be limited to the following:

a. An alternative retirement benefits system which is issued by or through a nonprofit corporation issuing retirement annuities exclusively to educational institutions and their employees for persons newly employed after July 1, 1990, and for persons employed by the community college who are members of the Iowa public employees' retirement system on July 1, 1994, and who elect coverage under that system pursuant to section 97B.42, in lieu of coverage under the Iowa public employees' retirement system.

b. An alternative retirement benefits system which is issued by or through an insurance company authorized to issue annuity contracts in this state, for persons newly employed on or after July 1, 1997, who are already members of the alternative retirement benefits system and who elect coverage under that system pursuant to section 97B.42, in lieu of coverage under the Iowa public employees' retirement system.

c. An alternative retirement benefits system offered through the community college, at the discretion of the board of directors of the community college, pursuant to this lettered paragraph which is issued by or through an insurance company authorized to issue annuity contracts in this state, for persons newly employed by that community college on or after July 1, 1998, who are not members of the alternative retirement benefits system and who elect coverage under that system pursuant to section 97B.42, in lieu of coverage under the Iowa public employees' retirement system. The board of directors of a community college may limit the number of providers of alternative retire-

ment benefits systems offered pursuant to this lettered paragraph to no more than six. The selection by the board of directors of a community college of a provider of an alternative retirement benefits system pursuant to this lettered paragraph shall not constitute an endorsement of that provider by the community college.

However, the employer's annual contribution in dollars under an eligible alternative retirement benefits system described in this subsection shall not exceed the annual contribution in dollars which the employer would contribute if the employee had elected to remain an active member pursuant to the Iowa public employees' retirement system, as set forth in section 97B.11. For purposes of this subsection, "*alternative retirement benefits system*" means an employer-sponsored primary pension plan requiring mandatory employer contributions that meets the requirements of section 401(a), 403(a), or 403(b) of the Internal Revenue Code.

18. Develop and implement a written policy, which is disseminated during student registration or orientation, addressing the following four areas relating to sexual abuse:

a. Counseling.

b. Campus security.

c. Education, including prevention, protection, and the rights and duties of students and employees of the community college.

d. Facilitating the accurate and prompt reporting of sexual abuse to the duly constituted law enforcement authorities.

19. File a copy of the annual report required by the federal Student Right-To-Know and Campus Security Act, Pub. L. No. 101-542, with the division of criminal and juvenile justice planning of the department of human rights, along with a copy of the written policy developed pursuant to subsection 18.

Signers of the petition, in addition to signing their names, shall show their residence, including street and number if any, the school district in which they reside, and the date they signed the petition. A person may sign nomination petitions for more than one candidate for the same office, and the signature is not invalid solely because the person signed nomination petitions for one or more other candidates for the office. The commissioner

shall at once issue certificates of election to each person declared elected, and shall certify to the merged area board in substantially the manner prescribed by section 50.27 the result of the voting on any public question submitted to the voters of the merged area. Members elected to the board of directors of a merged area shall qualify by taking the oath of office prescribed in section 277.28.

260C.22 Facilities levy by vote — borrowing — temporary cash reserve levy.

1. a. In addition to the tax authorized under section 260C.17, the voters in any merged area may at the annual school election vote a tax not exceeding twenty and one-fourth cents per thousand dollars of assessed value in any one year for a period not to exceed ten years for the purchase of grounds, construction of buildings, payment of debts contracted for the construction of buildings, purchase of buildings and equipment for buildings, and the acquisition of libraries, for the purpose of paying costs of utilities, and for the purpose of maintaining, remodeling, improving, or expanding the community college of the merged area. If the tax levy is approved under this section, the costs of utilities shall be paid from the proceeds of the levy. The tax shall be collected by the county treasurers and remitted to the treasurer of the merged area as provided in section 331.552, subsection 29. The proceeds of the tax shall be deposited in a separate and distinct fund to be known as the voted tax fund, to be paid out upon warrants drawn by the president and secretary of the board of directors of the merged area district for the payment of costs incurred in providing the school facilities for which the tax was voted.

b. In order to make immediately available to the merged area the proceeds of the voted tax hereinbefore authorized to be levied, the board of directors of any such merged area is hereby authorized, without the necessity for any further election, to borrow money and enter into loan agreements in anticipation of the collection of such tax,

and such board shall, by resolution, provide for the levy of an annual tax, within the limits of the special voted tax hereinbefore authorized, sufficient to pay the amount of any such loan and the interest thereon to maturity as the same becomes due. A certified copy of this resolution shall be filed with the county auditors of the counties in which such merged area is located, and the filing thereof shall make it a duty of such auditors to enter annually this levy for collection until funds are realized to repay the loan and interest thereon in full. Said loan must mature within the number of years for which the tax has been voted and shall bear interest at a rate or rates not exceeding that permitted by chapter 74A. Any loan agreement entered into pursuant to authority herein contained shall be in such form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voted tax hereinbefore authorized, or so much thereof as will be sufficient to pay the loan and interest thereon. In furtherance of the foregoing the board of directors of such merged area may, with or without notice, negotiate and enter into a loan agreement or agreements with any bank, investment banker, trust company, insurance company or group thereof, whereunder the borrowing of the necessary funds may be assured and consummated. The proceeds of such loan shall be deposited in a special fund, to be kept separate and apart from all other funds of the merged area, and shall be paid out upon warrants drawn by the president and secretary of the board of directors to pay the cost of acquiring the school facilities for which the tax was voted.

c. If the boundary lines of a merged area are changed, the levy of the annual tax provided in this section sufficient to pay the amount due for a loan agreement and the interest on the loan agreement to maturity shall continue in any territory severed from the merged area until the loan with interest on the loan has been paid in full.

d. Nothing herein contained shall be construed to limit the authority of the board of directors to levy the full amount of the voted tax, but if and to whatever extent said tax is levied in any year in excess of the amount of principal and interest falling due in such year under any loan agreement, the first available proceeds thereof, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the sinking fund for such loan before any of such taxes are otherwise made available to the merged area for other school purposes, and the amount required to be annually set aside to pay the principal of and interest on the money borrowed under such loan agreement shall constitute a first charge upon all of the proceeds of such annual special voted tax, which tax shall be pledged to pay said loan and the interest thereon.

e. This law shall be construed as supplemental and in addition to existing statutory authority and

as providing an independent method of financing the cost of acquiring school facilities for which a tax has been voted under this section and for the borrowing of money and execution of loan agreements in connection therewith and shall not be construed as subject to the provisions of any other law. The fact that a merged area may have previously borrowed money and entered into loan agreements under authority herein contained shall not prevent such merged area from borrowing additional money and entering into further loan agreements provided that the aggregate of the amount payable under all of such loan agreements does not exceed the proceeds of the voted tax. All acts and proceedings heretofore taken by the board of directors or by any official of any merged area for the exercise of any of the powers granted by this section are hereby legalized and validated in all respects.

2. The proceeds of the tax voted under subsection 1, paragraph "a", prior to July 1, 1987 shall be used for the purposes for which it was approved by the voters and may be used for the purpose of paying the costs of utilities.

3. In addition to the tax authorized under section 260C.17, the board of directors of an area school may certify for levy by March 15, 1982 and March 15, 1983, a tax on taxable property in the merged area at rates that will provide total revenues for the two years equal to five percent of the area school's general fund expenditures for the fiscal year ending June 30, 1980 in order to provide a cash reserve for that area school. As nearly as possible, one-half the revenue for the cash reserve fund shall be collected during each year.

The revenues derived from the levies shall be placed in a separate cash reserve fund. Moneys from the cash reserve fund shall only be used to alleviate temporary cash shortages. If moneys from the cash reserve fund are used to alleviate a temporary cash shortage, the cash reserve fund shall be reimbursed immediately from the general fund of the community college as funds in the general fund become available, but in no case later than June 30 of the current fiscal year, to repay the funds taken from the cash reserve fund.

4. The board of directors of any merged area that failed to certify for levy under subsection 3 by March 15, 1982, and March 15, 1983, may certify for levy by April 15, 1997, and April 15, 1998, a tax on taxable property in the merged area at rates that will provide total revenues for the two years equal to five percent of the area school's general fund expenditures for the fiscal year ending June 30, 1995, in order to provide a cash reserve for that area school. As nearly as possible, one-half the revenue for the cash reserve fund shall be collected during each year.

The revenues derived from the levies shall be placed in a separate cash reserve fund. Notwithstanding subsection 3, moneys from the cash reserve fund established by a merged area under

subsection 3 or this subsection shall be used only to alleviate temporary cash shortages. If moneys from the cash reserve fund are used to alleviate a temporary cash shortage, the cash reserve fund shall be reimbursed immediately from the general fund of the community college as funds in the general fund become available, but in no case later than June 30 of the current fiscal year, to repay the funds taken from the cash reserve fund.

2. However, the board of directors may annually certify for levy a tax on taxable property in the merged area at a rate in excess of the three cents per thousand dollars of assessed valuation specified under subsection 1 if the excess tax levied does not cause the total rate certified to exceed a rate of

nine cents per thousand dollars of assessed valuation, and the excess revenue generated is used for purposes of program sharing between community colleges or for the purchase of instructional equipment. Programs that are shared shall be designed to increase student access to community college programs and to achieve efficiencies in program delivery at the community colleges, including, but not limited to, the programs described under sections 260C.45 and 260C.46. Prior to expenditure of the excess revenues generated under this subsection, the board of directors shall obtain the approval of the director of the department of education.

3. If the board of directors wishes to certify for a levy under subsection 2, the board shall direct the county commissioner of elections to call an election to submit the question of such authorization for the board at a regular or special election. If a majority of those voting on the question at the election favors authorization of the board to make such a levy, the board may certify for a levy as provided under subsection 2 during each of the ten years following the election. If a majority of those voting on the question at the election does not favor authorization of the board to make a levy under subsection 2, the board shall not submit the question to the voters again until three hundred fifty-five days have elapsed from the election.

260C.39 Combining merged areas — election.

Any merged area may combine with any adjacent merged area after a favorable vote by the electors of each of the areas involved. If the boards of directors of two or more merged areas agree to a combination, the question shall be submitted to the electors of each area at a special election to be held on the same day in each area. The special election shall not be held within thirty days of any general election. Prior to the special election, the board of each merged area shall notify the county commissioner of elections of the county in which the greatest proportion of the merged area's taxable base is located who shall publish notice of the election according to section 49.53. The two respective county commissioners of elections shall conduct the election pursuant to the provisions of chapters 39 to 53. The votes cast in the election shall be canvassed by the county board of supervisors and the county commissioners of elections who conducted the election shall certify the results to the board of directors of each merged area.

If the vote is favorable in each merged area, the boards of each area shall proceed to transfer the assets, liabilities, and facilities of the areas to the combined merged area, and shall serve as the acting board of the combined merged area until a new board of directors is elected. The acting board shall submit to the director of the department of education a plan for redistricting the combined merged area, and upon receiving approval from the director, shall provide for the election of a director from each new district at the next regular school election. The directors elected from each new district shall determine their terms by lot so

that the terms of one-third of the members, as nearly as may be, expire each year. Election of directors for the combined merged area shall follow the procedures established for election of directors of a merged area. A combined merged area is subject to all provisions of law and rules governing merged areas.

The terms of employment of personnel, for the academic year following the effective date of the agreement to combine the merged areas shall not be affected by the combination of the merged areas, except in accordance with the procedures under sections 279.15 to 279.18 and section 279.24, to the extent those procedures are applicable, or under the terms of the base bargaining agreement. The authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to any applicable procedures under chapter 279, shall be transferred to the acting, and then to the new, board of the combined merged area upon certification of a favorable vote to each of the merged areas affected by the agreement. The collective bargaining agreement of the merged area receiving the greatest amount of general state aid shall serve as the base agreement for the combined merged area and the employees of the merged areas which combined to form the new combined merged area shall automatically be accreted to the bargaining unit from that former merged area for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the merged areas which are combining under this section, then that agreement shall serve as the base agreement, and the employees of the merged areas which are combining to form the new combined merged area shall automatically be accreted to the bargaining unit of that former merged area for purposes of negotiating the contracts for the following years without further action by the public employment relations board. The board of the combined merged area, using the base agreement as its existing contract, shall bargain with the combined employees of the merged areas that have agreed to combine for the academic year beginning with the effective date of the agreement to combine merged areas. The bargaining shall be completed by March 15 prior to the academic year in which the agreement to combine merged areas becomes effective or within one hundred eighty days after the organization of the acting board of the new combined merged area, whichever is later. If a bargaining agreement was already concluded in the former merged area which has the collective bargaining agreement that is serving as the base agreement for the new combined merged area, between the former merged area board and the employees of the former merged area, that agreement is void, unless the agreement contained multiyear provisions affecting academic years subsequent to

the effective date of the agreement to form a combined merged area. If the base collective bargaining agreement contains multiyear provisions, the duration and effect of the agreement shall be controlled by the terms of the agreement. The provisions of the base agreement shall apply to the offering of new contracts, or the continuation, modification, or termination of existing contracts between the acting or new board of the combined merged area and the combined employees of the new combined merged area.

260C.45 Quality instructional centers.

A quality instructional centers program is established for the community colleges to promote the creation or enhancement of high quality, unique, high cost, capital intensive, or highly specialized vocational-technical and occupational programs, which cannot be practically or economically offered at more than a few community colleges. The department of education shall establish criteria for the identification, approval, and review of programs for which an application for identification as a quality instructional center has been submitted.

A community college seeking to have a program identified as a quality instructional center shall submit an application to the department, describing the program, costs associated with program delivery, and current and projected student participation in the program. The department shall review each application, either accept or reject the application, and inform the applicant of the department’s action on the application. Rejection of an application shall not preclude a community college from resubmitting the same or a different program for consideration as a candidate for identification as a quality instructional center.

The department shall provide assistance to community colleges to ensure that each community college is able to offer at least one program which meets the standards adopted for quality instructional centers.

A community college with an approved quality instructional center shall annually submit a report indicating how funds received during the past year were spent and the projections of the next year’s funding needs. 260C.47 Accreditation of community college programs.

1. The state board of education shall establish an accreditation process for community college programs by July 1, 1997. The process shall be jointly developed and agreed upon by the department of education and the community colleges. The state accreditation process shall be integrated with the accreditation process of the north central association of colleges and schools, including the evaluation cycle, the self-study process, and the criteria for evaluation, which shall incorporate the standards for community colleges developed under section 260C.48; and shall identify and make provision for the needs of the state that are not met by the association's accreditation process. For the academic year commencing July 1, 1998, and in succeeding school years, the department of education shall use a two-component process for the continued accreditation of community college programs.

a. The first component consists of submission of required data by the community colleges and annual monitoring by the department of education of all community colleges for compliance with state program evaluation requirements adopted by the state board.

b. The second component consists of the use of an accreditation team appointed by the director of the department of education, to conduct an evaluation, including an on-site visit of each community college, with a comprehensive evaluation to occur during the same year as the evaluation by the north central association of colleges and schools, and an interim evaluation midway between comprehensive evaluations. The number and composition of the accreditation team shall be determined by the director, but the team shall include members of the department of education staff and community college staff members from community colleges other than the community college that conducts the programs being evaluated for accreditation.

c. Rules adopted by the state board shall include provisions for coordination of the accreditation process under this section with activities of accreditation associations, which are designed to avoid duplication in the accreditation process.

2. Prior to a visit to a community college, members of the accreditation team shall have access to the program audit report filed with the department for that community college. After a visit to a community college, the accreditation team shall

determine whether the accreditation standards for a program have been met and shall make a report to the director and the state board, together with a recommendation as to whether the program of the community college should remain accredited. The accreditation team shall report strengths and weaknesses, if any, for each program standard and shall advise the community college of available resources and technical assistance to further enhance strengths and improve areas of weakness. A community college may respond to the accreditation team's report.

3. The state board shall determine whether a program of a community college shall remain accredited. If the state board determines that a program of a community college does not meet accreditation standards, the director of the department of education, in cooperation with the board of directors of the community college, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the program standards, and shall establish a deadline date for correction of the deficiencies. The deadline for correction of deficiencies under a plan shall be no later than June 30 of the year following the on-site visit of the accreditation team. The plan is subject to approval of the state board. Plans shall include components which address meeting program deficiencies, sharing or merger options, discontinuance of specific programs or courses of study, and any other options proposed by the state board or the accreditation team to allow the college to meet the program standards.

4. During the time specified in the plan for its implementation, the community college program remains accredited. The accreditation team shall revisit the community college and shall determine whether the deficiencies in the standards for the program have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies in the program have been corrected.

5. If the deficiencies have not been corrected in a program of a community college, the community college board shall take one of the following actions within sixty days from removal of accreditation:

a. Merge the deficient program or programs with a program or programs from another accredited community college.

b. Contract with another educational institution for purposes of program delivery at the community college.

c. Discontinue the program or programs which have been identified as deficient.

6. The director of the department of education shall give a community college which has a program which fails to meet accreditation standards at least one year's notice prior to removal of accreditation of the program. The notice shall be giv-

en by certified mail or restricted certified mail addressed to the superintendent of the community college and shall specify the reasons for removal of accreditation of the program. The notice shall also be sent by ordinary mail to each member of the board of directors of the community college. Any good faith error or failure to comply with the notice requirements shall not affect the validity of any action by the director. If, during the year, the community college remedies the reasons for removal of accreditation of the program and satisfies the director that the community college will comply with the accreditation standards for that program in the future, the director shall continue the accreditation of the program of the community college and shall transmit notice of the action to the community college by certified mail or restricted certified mail.

7. The action of the director to remove a community college's accreditation of the program may be appealed to the state board. At the hearing, the community college may be represented by counsel and may present evidence. The state board may provide for the hearing to be recorded or reported. If requested by the community college at least ten days before the hearing, the state board shall provide for the hearing to be recorded or reported at the expense of the community college, using any reasonable method specified by the community college. Within ten days after the hearing, the state board shall render a written decision, and shall affirm, modify, or vacate the action or proposed action to remove the college's accreditation of the program. Action by the state board is final agency action for purposes of chapter 17A.

1. The state board shall develop standards and rules for the accreditation of community college programs. Standards developed shall be general in nature so as to apply to more than one specific program of instruction.

2. Standards developed shall include a provision that the standard academic work load for an instructor in arts and science courses shall be fifteen credit hours per school term, and the maximum academic work load for any instructor shall be sixteen credit hours per school term, for classes taught during the normal school day. In addition thereto, any faculty member may teach a course or courses at times other than the regular school week, involving total class instruction time equivalent to not more than a three-credit-hour course. The total work load for such instructors shall not

exceed the equivalent of eighteen credit hours per school term.

3. Standards developed shall include provisions requiring equal access in recruitment, enrollment, and placement activities for students with special education needs. The provisions shall include a requirement that students with special education needs shall receive instruction in the least restrictive environment with access to the full range of program offerings at a college, through, but not limited to, adaptation of curriculum, instruction, equipment, facilities, career guidance, and counseling services.

260C.57 Authorization — contracts — title.

Subject to and in accordance with the provisions of this division, the board of directors of each community college is hereby authorized to undertake and carry out any project at a community college under the board's control and to operate, control, maintain, and manage student residence halls and dormitories, including dining and other incidental facilities, and additions to such buildings at each of said institutions. All contracts for the construction, reconstruction, completion, equipment, improvement, repair or remodeling of any buildings, additions or facilities shall be let in accordance with the provisions of section 260C.19. The title to all real estate acquired under the provisions of this division and the improvements erected on the real estate shall be taken and held in the name of the merged area. The board is authorized to rent the rooms in such residence halls and dormitories to the students, officers, guests and employees of the institutions at such rates, fees or rentals as will provide a reasonable return upon the investment, but which will in any event produce net rents, profits and income sufficient to insure the payment of the principal of and interest on all bonds or notes issued to pay any part of the cost of any project and refunding bonds or notes issued pursuant to the provisions of this division and to insure that no property tax revenues will be needed to retire the bonds or notes.

260C.58 Bonds or notes.

To pay all or any part of the cost of carrying out any project at any institution the board is authorized to borrow money and to issue and sell negotiable bonds or notes and to refund and refinance bonds or notes issued for any project or for refunding purposes at a lower rate, the same rate, or a higher rate or rates of interest and from time to time as often as the board shall find it to be advisable and necessary so to do. Bonds or notes issued by the board for residence hall or dormitory purposes at any institution, including dining or other facilities and additions, or issued for refunding purposes, may either be sold in the manner specified for the selling of certificates under section 260E.6 and the proceeds applied to the payment of the obligations being refunded, or the refunding bonds or notes may be exchanged for and in payment and discharge of the obligations being refunded. A finding by the board in the resolution authorizing the issuance of the refunding bonds or notes, that the bonds or notes being refunded were issued for a purpose specified in this division and constitute binding obligations of the board, shall be conclusive and may be relied upon by any hold-

er of any refunding bond or note issued under the provisions of this division. The refunding bonds or notes may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds or notes may be exchanged in part or sold in parts in installments at different times or at one time. The refunding bonds or notes may be sold or exchanged at any time on, before, or after the maturity of any of the outstanding notes, bonds or other obligations to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds or notes, except that the principal amount of the refunding bonds or notes may exceed the principal amount of the bonds or notes to be refunded to the extent necessary to pay any premium due on the call of the bonds or notes to be refunded, to fund interest in arrears or about to become due, or to allow for sufficient funding of the escrow account on the bonds to be refunded.

All bonds or notes issued under the provisions of this division shall be payable from and shall be secured by an irrevocable first lien pledge of a sufficient portion of the following: the net rents, profits and income derived from the operation of residence halls, dormitories, dining or other incidental facilities and additions, including necessary real and personal property, acquired or improved in whole or in part with the proceeds of such bonds or notes, regardless of the manner of such acquisition or improvement; and the net rents, profits and income not pledged for other purposes derived from the operation of any other residence halls or dormitories, including dining or other incidental facilities and additions, at the particular institution. In addition, the board may secure any bonds or notes issued by borrowing money, by mortgaging any real estate or improvements erected on real estate, or by pledging rents, profits, and income received from property for the discharge of mortgages. All bonds or notes issued under the provisions of this division shall have all the qualities of negotiable instruments under the laws of this state.

The authority may provide in the resolution, trust agreement, or other instrument authorizing the issuance of its bonds or notes pursuant to section 260C.71 that the principal of, premium, and interest on the bonds or notes are payable from any of the following and may pledge the same to its bonds and notes:

a. From the net rents, profits, and income arising from the project or property pledged or mortgaged.

b. From the net rents, profits, and income which has not been pledged for other purposes arising from any similar housing facility under the control and management of the community college or state board for community colleges.

c. From the fees or charges established by the community college or state board for community colleges for students attending the institution who are living in the housing facility for which the obligation was incurred.

d. From the income derived from gifts and bequests made to the institutions under the control of the community college or state board for community colleges for such purposes.

g. From the other funds or accounts established by the authority in connection with the program or the sale and issuance of its bonds or notes.

No obligation created hereunder shall ever become a charge against the state of Iowa but all such obligations, including principal and interest, shall be payable solely as provided in this section and section 260C.71.

2. The authority may establish reserve funds to secure one or more issues of its bonds or notes. The authority may deposit in a reserve fund established under this subsection, the proceeds of the sale of its bonds or notes and other money which is made available from any other source.

3. A pledge made in respect of bonds or notes is valid and binding from the time the pledge is made. The money or property so pledged and received after the pledge by the authority is immediately subject to the lien of the pledge without physical delivery or further act. 4. The members of the authority or persons executing the bonds or notes are not personally liable on the bonds or notes and are not subject to personal liability or accountability by reason of the issuance of the bonds or notes.

5. The bonds or notes issued by the authority are not an indebtedness or other liability of the state or of a political subdivision of the state within the meaning of any constitutional or statutory debt limitations, but are special obligations of the authority and are payable solely from the income and receipts or other funds or property of the community college or private developer, and the amounts on deposit in a community college bond fund, and the amounts payable to the authority under its loan agreements with a community college or private developer to the extent that the amounts are designated in the resolution, trust agreement, or other instrument of the authority

authorizing the issuance of the bonds or notes as being available as security for the bonds or notes. The authority shall not pledge the faith or credit of the state or of a political subdivision of the state to the payment of any bonds or notes. The issuance of any bonds or notes by the authority does not directly, indirectly, or contingently obligate the state or a political subdivision of the state to apply money from, or levy, or pledge any form of taxation whatever to the payment of the bonds or notes.

1. A community college may enter into an agreement to establish a project. If an agreement is entered into, the community college and the employer shall notify the department of revenue and finance as soon as possible. An agreement shall provide for program costs, including deferred costs, which may be paid from one or a combination of the following sources:

If an agreement provides that all or part of program costs are to be paid for by incremental property taxes, the board of directors shall provide by resolution that taxes levied on the employer's taxable business property, where new jobs are created as a result of a project, each year by or for the benefit of the state, city, county, school district, or other taxing district after the effective date of the resolution shall be divided as provided in section 403.19, subsections 1 and 2, in the same manner as if the employer's business property, where new jobs are created as a result of a project, was taxable property in an urban renewal project and the resolution was an ordinance within the meaning of those subsections. The taxes received by the board of directors shall be allocated to and when collected be paid into a special fund of the community college and may be irrevocably pledged by the community college to pay the principal of and interest on the certificates issued by the community college to finance or refinance, in whole or in part, the project. However, with respect to any urban renewal project as to which an ordinance is in effect under section 403.19, the collection of incremental property taxes authorized by this chapter are suspended in favor of collection of incremental taxes under section 403.19. As used in this section, "taxes" includes, but is not limited to, all levies on an ad valorem basis upon land or real property of

the employer's business, where new jobs are created as a result of a project.

260E.5 New jobs credit from withholding.

If an agreement provides that all or part of program costs are to be met by receipt of new jobs credit from withholding, it shall be done as follows:

1. New jobs credit from withholding shall be based upon the wages paid to the employees in the new jobs.

2. An amount equal to one and one-half percent of the gross wages paid by the employer to each employee participating in a project shall be credited from the payment made by an employer pursuant to section 422.16. If the amount of the withholding by the employer is less than one and one-half percent of the gross wages paid to the employees covered by the agreement, then the employer shall receive a credit against other withholding taxes due by the employer. The employer shall remit the amount of the credit quarterly in the same manner as withholding payments are reported to the department of revenue and finance, to the community college to be allocated to and when collected paid into a special fund of the community college to pay the principal of and interest on certificates issued by the community college to finance or refinance, in whole or in part, the project. When the principal and interest on the certificates have been paid, the employer credits shall cease and any money received after the certificates have been paid shall be remitted to the treasurer of state to be deposited in the general fund of the state.

3. The new jobs credit from withholding and the special fund into which it is paid, may be irrevocably pledged by a community college for the payment of the principal of and interest on the certificate issued by a community college to finance or refinance, in whole or in part, the project.

4. The employer shall certify to the department of revenue and finance that the credit in withholding is in accordance with an agreement and shall provide other information the department may require.

5. A community college shall certify to the department of revenue and finance the amount of new jobs credit from withholding an employer has remitted to the special fund and shall provide other information the department may require.

6. An employee participating in a project will receive full credit for the amount withheld as provided in section 422.16.

260E.6 Certificates.

To provide funds for the present payment of the costs of new jobs training programs, a community college may borrow money and issue and sell certificates payable from a sufficient portion of the future receipts of payments authorized by the agreement. The receipts shall be pledged to the payment of principal of and interest on the certificates.

1. Certificates may be sold at public sale or at private sale at par, premium, or discount at the discretion of the board of directors. Chapter 75 does not apply to the issuance of these certificates.

2. Certificates may be issued with respect to a single project or multiple projects and may contain terms or conditions as the board of directors may provide by resolution authorizing the issuance of the certificates.

3. Certificates issued to refund other certificates may be sold at public sale or at private sale as provided in this section with the proceeds from the sale to be used for the payment of the certificates being refunded. The refunding certificates may be exchanged in payment and discharge of the certificates being refunded, in installments at different times or an entire issue or series at one time. Refunding certificates may be sold or exchanged at any time on, before, or after the maturity of the outstanding certificates to be refunded, may be issued for the purpose of refunding a like, greater, or lesser principal amount of certificates and may bear a higher, lower, or equivalent rate of interest than the certificates being renewed or refunded.

4. To further secure the payment of the certificates, the board of directors shall, by resolution, provide for the assessment of an annual levy of a standby tax upon all taxable property within the merged area. A copy of the resolution shall be sent to the county auditor of each county in which the merged area is located. The revenues from the standby tax shall be deposited in a special fund and shall be expended only for the payment of principal of and interest on the certificates issued as provided in this section, when the receipt of payment for program costs as provided in the agreement is insufficient. If payments are neces-

sary and made from the special fund, the amount of the payments shall be promptly repaid into the special fund from the first available payments received for program costs as provided in the agreement which are not required for the payment of principal of or interest on certificates due. No reserves may be built up in this fund in anticipation of a projected default. The board of directors shall adjust the annual standby tax levy for each year to reflect the amount of revenues in the special fund and the amount of principal and interest which is due in that year.

5. Before certificates are issued, the board of directors shall publish once a notice of its intention to issue the certificates, stating the amount, the purpose, and the project or projects for which the certificates are to be issued. A person may, within fifteen days after the publication of the notice by action in the district court of a county in the area within which the community college is located, appeal the decision of the board of directors in proposing to issue the certificates. The action of the board of directors in determining to issue the certificates is final and conclusive unless the district court finds that the board of directors has exceeded its legal authority. An action shall not be brought which questions the legality of the certificates, the power of the board of directors to issue the certificates, the effectiveness of any proceedings relating to the authorization of the project, or the authorization and issuance of the certificates from and after fifteen days from the publication of the notice of intention to issue.

6. The board of directors shall determine if revenues are sufficient to secure the faithful performance of obligations in the agreement.

The department is authorized to make any rule that is adopted, amended, or repealed effective immediately upon filing with the administrative rules coordinator or at a subsequent stated date prior to indexing and publication, or at a stated date less than thirty-five days after filing, indexing, and publication. DIVISION XII

MINORITY ACADEMIC GRANTS
FOR ECONOMIC SUCCESS

261.101 Legislative intent.

The general assembly finds that the failure of many young Iowans to complete their education limits their opportunity for a life of fulfillment and hinders the state's efforts to provide a well-trained work force for business and industry in Iowa. The general assembly also declares that it is the policy of this state to apply positive measures to ensure that equal opportunities exist for minority persons to pursue their educational goals. Therefore, the "Iowa Minority Academic Grants for Economic Success" program is established to provide additional funding to the state board of regents' institutions, community colleges, and accredited private institutions in order to encourage resident minority students to remain in Iowa, to attend community colleges, private colleges, and universities in Iowa, and to assure that a limited family income will not be a barrier for a minority person to pursue a postsecondary education.

An individual is eligible for the forgivable loan program if the individual is a resident of this state who is enrolled as a sophomore, junior, senior, or graduate student in an approved practitioner preparation program in a designated area in which teacher shortages are anticipated at an institution of higher learning under the control of the state board of regents or an accredited private institution as defined in section 261.9.

2. The director of the department of education shall annually designate the areas in which teacher shortages are anticipated. The director shall periodically conduct a survey of school districts, accredited nonpublic schools, and approved practitioner preparation programs to determine current shortage areas and predict future shortage areas.

a. Complete and file an application for a teacher shortage forgivable loan. The individual shall be responsible for the prompt submission of any information required by the commission.

If the commission determines that the person does not meet the criteria for forgiveness of the principal and interest payments, the commission shall establish a plan for repayment of the principal and interest over a ten-year period. If a person required to make the repayment does not make the required payments, the commission shall provide for payment collection.

5. The amount of a teacher shortage forgivable loan shall not exceed three thousand dollars annually, or the amount of the student's established financial need, whichever is less.

6. The commission shall prescribe by rule the interest rate for the forgivable loan.

7. A teacher shortage forgivable loan repayment fund is created for deposit of payments made by forgivable loan recipients who do not fulfill the conditions of the forgivable loan program and any other moneys appropriated to or received by the commission for deposit in the fund. Notwithstanding section 8.33, moneys deposited in the fund shall not revert to the general fund of the state at the end of any fiscal year but shall remain in the forgivable loan repayment fund and be continuously available to make additional loans under the program. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the fund shall be credited to the fund.

DIVISION I

GENERAL PROVISIONS

261A.1 Short title and citation.

This chapter may be cited as the “*Iowa Higher Education Loan Authority Act*”.

[82 Acts, ch 1031, §1]

261A.2 Declaration of purpose.

It is declared that for the benefit of the people of the state of Iowa, the conduct and increase of their commerce, the protection and enhancement of their welfare, the development of continued prosperity and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the fullest op-

portunity to learn and to develop their intellectual and mental capacities and skills; that to achieve these ends it is of the utmost importance that students attending institutions of higher education located in Iowa have reasonable financial alternatives to enhance their access to such institutions; that reasonable financial access to institutions of higher education will assist youth in achieving the optimum levels of learning and development of their intellectual and mental capacities and skills; that it is the purpose of this chapter to provide a measure of assistance and an alternative method to enable students and the families of students attending institutions of higher education located in Iowa to appropriately and prudently finance the cost or a portion of the cost of higher education; and that it is the intent of this chapter to supplement federal guaranteed higher education loan

programs, other student loan programs, and grant or scholarship programs to provide the needed additional options for the financing of a student's higher education in execution of the public policy set forth above.

[82 Acts, ch 1031, §2]

261A.3 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa, for the improvement of their education, health and welfare, and for the promotion of the economy, which are public purposes.

2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.

3. There exists a serious problem in this state regarding the ability of students to obtain financing for the cost of education beyond the high school level.

4. Escalating costs of securing such an education have contributed to the difficulties faced by students in attempting to finance an education.

5. Without public action as contemplated by this chapter, many students will be forced to postpone or abandon plans for obtaining additional education.

6. It is in the interests and welfare of the citizens of the state to provide a means for assisting students to continue their education.

7. Without public action as contemplated by this chapter, the inability to obtain educational financing will result in declining enrollments at institutions of higher education.

8. It is necessary to create a higher education loan authority to encourage the investment of private capital in the provision of funds for the financing of student loans.

9. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

[82 Acts, ch 1031, §3]

261A.6 Membership of authority.

1. The authority consists of five members to be appointed by the governor subject to confirmation by the senate. The powers of the authority are vested in and exercised by the members of the authority. Each member of the authority shall be a resident of the state and not more than three members shall be members of the same political party.

2. The members of the authority shall be appointed by the governor for terms of six years beginning and ending as provided in section 69.19. A member of the authority is eligible for reappointment. The governor shall fill a vacancy for the remainder of the unexpired term. A member of the authority may be removed by the governor for misfeasance, malfeasance, or willful neglect of duty or other cause after notice and a public hearing unless the notice and hearing are waived by the member in writing.

3. The members of the authority shall annually elect one of the members as chairperson and one as vice chairperson. The members of the authority may appoint an executive director, an assistant executive director, and other officers as the members of the authority determine. The officers shall not be members of the authority, shall serve at the pleasure of the authority, and shall receive compensation as fixed by the authority.

A vacancy in the membership of the authority does not impair the right of a quorum to exercise the rights and perform the duties of the authority. An action taken by the authority under this chapter may be authorized by resolution at a regular or special meeting, and each resolution shall take effect immediately and need not be published or posted, except as provided in section 261A.25. Meetings of the authority shall be held at the call of the chairperson or at the request of two members.

2. Adopt an official seal and alter the seal at pleasure.
3. Maintain an office at a place or places it designates.

4. Establish criteria for and guidelines encompassing the types of and qualifications for education loan financing programs. The authority may issue obligations for the purpose of making authority loans to institutions participating in a program of the authority for the purpose of providing education loans. The criteria and guidelines established by the authority for its education loan financing programs include eligibility standards for borrowers the authority determines are necessary or desirable in order to effectuate the purposes of this chapter, including the following:

a. Each student shall have a certificate of admission or enrollment at a specific participating institution.

b. Each student or the student's parents shall satisfy financial qualifications the authority establishes to effectuate the purposes of this chapter.

c. Each student and the student's parents shall submit information required by the authority to the applicable institution.

The authority may contract with financial institutions and other qualified loan origination and servicing organizations, which shall assist in pre-qualifying borrowers for education loans and which shall service and administer each education loan and each institution's respective loan series portfolio. Each education loan's fees shall include a portion, if necessary, to cover the applicable pro rata cost of a servicing organization.

The authority may establish criteria governing the eligibility of institutions to participate in its programs, the making of authority loans and education loans, provisions for default, the establishment of default reserve funds, the purchase of default insurance, the provision of prudent debt service reserves, and the furnishing by participating institutions of higher education of additional guarantees of the education loans, authority loans, or obligations that the authority determines necessary. Criteria shall be established to assure the marketability of the obligations and the adequacy of the security for the obligations.

The authority shall establish limitations upon the principal amounts and the terms of education loans, criteria regarding the qualifications and characteristics of borrowers and procedures for allocating authority loans among institutions eligible for its program in order to effectuate the purposes of this chapter.

5. Issue obligations for its corporate purposes and fund or refund the obligations as provided in this chapter.

6. Fix and revise from time to time and charge and collect rates, fees, and charges for the services furnished or to be furnished by the authority, and contract with persons in respect to the services, including financial institutions, loan originators, servicers, administrators, issuers of letters of credit, and insurers.

7. Establish rules under chapter 17A with respect to authority loans, education loans, and education loan series portfolios.

8. Receive and accept from any source, loans, contributions or grants for or in aid of an authority education loan financing program or any portion of a program and, when required, use the funds, property, or labor only for the purposes for which it was loaned, contributed, or granted.

9. Make authority loans to institutions and require that the proceeds of the authority loans be used for making education loans and paying costs and fees in connection with the education loans.

10. Charge to and apportion among participating institutions its administrative and operating costs and expenses incurred in the exercise of its powers and duties.

11. Borrow working capital funds and other funds as necessary for start-up and continuing operations, provided that the funds are borrowed in the name of the authority only. Borrowings are limited obligations of the character described in section 261A.12 and are payable solely from revenues of the authority or the proceeds of obligations pledged for that purpose.

12. Notwithstanding other provisions in this chapter, commingle and pledge as security for a series or issue of obligations, with the consent of all of the institutions which are participating in the series or issue, the education loan series portfolios and some or all future education loan series portfolios of the institutions, and the loan funding deposits of the institutions. However, the education loan series portfolios and other security and moneys set aside in a fund or funds pledged for a series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from education loan series portfolios and other security and moneys pledged for any other series or issue of obligations. Obligations may be issued in series under one or more resolutions or trust agreements in the discretion of the authority.

13. Examine records and financial reports of participating institutions, and examine records and financial reports of a contractor organization or institution retained by the authority.

14. Require that authority loans be used solely to make education loans. The authority shall require that institutions require that each borrower under an education loan use the proceeds solely for the cost of attendance and that each borrower certify as to the use of the proceeds.

15. Authorize its officers, agents, and employees to take any other action and do all things necessary or desirable in order to carry out the purposes of this chapter.

[82 Acts, ch 1031, §7]

1. Sue and be sued in its own name, plead and be impleaded.

2. Employ consultants, attorneys, accountants, financial experts, loan processors, bankers, managers, and other employees and agents necessary in the authority's judgment, and fix their compensation.

3. When refunding obligations are issued to refund obligations, the proceeds of which were used to make authority loans, reduce the amount it is owed by the institutions which had received authority loans from the proceeds of the refunded obligations. The institutions may use this reduced amount to reduce the amount of interest being paid on education loans which the institutions had made pursuant to the authority loans from the proceeds of the refunded obligations.

[82 Acts, ch 1031, §8]

261A.9 Expenses of authority — limitation of liability.

Expenses incurred in carrying out this chapter are payable solely from funds provided under this chapter and, except as specifically authorized under this chapter, a liability shall not be incurred by the authority beyond the extent to which moneys have been provided under this chapter.

[82 Acts, ch 1031, §9]

261A.10 Acquisition of moneys, endowments, properties and guarantees.

The authority may establish guidelines relating to the deposits of moneys, endowments, or properties by institutions which would provide prudent security for education loan funding programs, authority loans, education loans, or for obligations and may establish guidelines relating to guarantees of or contracts to purchase education loans or obligations by the institutions or by financial institutions or others. A default reserve fund may be established for each series or issue of obligations. The authority may receive moneys, endowments, properties, and guarantees it deems appropriate and, if necessary, may take title in the name of the authority or in the name of a participating institution or a trustee.

[82 Acts, ch 1031, §10]

261A.11 Conveyance of loan funding deposit after payment of principal and interest.

When the principal of and interest on obligations of the authority issued to finance the cost of an education loan financing program or programs, including any refunding obligations issued to refund and refinance the obligations, have been fully paid and retired or when adequate provision has been made to fully pay and retire the obligations of the authority, and all other conditions of the bond resolution have been satisfied and the lien created by the bond resolution has been released in accordance with its provisions, the authority shall promptly perform functions and execute deeds and conveyances necessary and required to

2. The authority shall not have outstanding at any one time obligations in an aggregate principal amount exceeding one hundred million dollars excluding obligations issued to refund the obligations of the authority.

3. Each issue of obligations is payable solely out of revenues of the authority pertaining to the program relating to the issue, including principal and interest on authority loans and education loans; payments by institutions of higher education, banks, insurance companies, or others pursuant to letters of credit or purchase agreements; investment earnings from funds or accounts maintained pursuant to the bond resolution; insurance proceeds; loan funding deposits; proceeds of sales of education loans; proceeds of refunding obligations; and fees, charges, and other revenues of the authority from the program.

4. Obligations may be issued as serial obligations or as term obligations, or both. Obligations shall be authorized by a bond resolution of the authority and shall bear dates, mature at times not later than the year following the last year in which the final payments in an education loan series portfolio are due, or thirty years, whichever is sooner, from their respective dates of issue, bear interest at rates, be payable at times, be in denominations, be in a form, either coupon or fully registered, carry registration and conversion privileges, be payable in lawful money of the United States of America, and be subject to terms of redemption as the bond resolution provides. Obligations shall be executed by the manual or facsimile signatures of officers of the authority designated by the authority. Obligations shall be sold in a manner and at prices as the authority determines.

5. A bond resolution may contain provisions, which shall be a part of the contract with the holders of the obligations to be authorized, as to all of the following:

a. Pledging or assigning the revenues derived from the authority loans and education loans with respect to which the obligations are to be issued.

b. The fees and other amounts to be charged, and the sums to be raised in each year, and the use, investment, and disposition of the sums.

g. The refunding of outstanding obligations.

h. The procedure, if any, by which the terms of a contract with holders of obligations may be amended or abrogated, the amount of obligations to which the holders must consent to the amendment or abrogation, and the manner in which the consent may be given.

i. Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of obligations and providing the rights or remedies of holders in the event of a default.

j. Providing for guarantees, pledges, endowments, letters of credit, property, or other security for the benefit of the holders of the obligations.

[82 Acts, ch 1031, §12]

261A.13 Trust agreement to secure obligations.

In the discretion of the authority, obligations may be secured by a trust agreement by and between the authority and a corporate trustee or trustees, which may be a trust company or bank located in the state of Iowa that has the powers of a trust company. The bond resolution shall pledge the revenues to be received by the authority, may contain provisions for protecting and enforcing the rights and remedies of the holders of obligations as reasonable and proper and not in violation of law, including provisions that have been authorized to be included in any bond resolution of the authority, and may restrict the individual right of action by

holders of obligations. A trust agreement may contain other provisions the authority deems reasonable and proper for the security of the holders of obligations. Expenses incurred in carrying out the trust agreement may be treated as a part of the cost of the operation of an education loan program.

[82 Acts, ch 1031, §13]

261A.14 Payment of obligations — nonliability of state.

Obligations are obligations of the authority only, and not of the state of Iowa. Each obligation shall state upon its face that it represents and constitutes a debt of the authority, but not of the state of Iowa within the meaning of any constitutional or statutory limitation, and that it does not constitute a pledge of the full faith and credit of the authority or of the state of Iowa. The obligations shall not grant to the owners or holders of the obligations the right to have the authority or the state levy taxes or appropriate funds for the payment of the principal or interest on the obligations. The obligations are payable, and shall state that they are payable, solely from the revenues pledged for their payment in accordance with the bond resolution.

This chapter does not authorize the authority or any department, board, commission, or other agency to create an obligation of the state within the meaning of the constitution or laws of Iowa.

[82 Acts, ch 1031, §14]

261A.15 Pledge of revenues.

The authority shall fix, revise, charge, and collect fees and may contract with a person to do so. Each agreement entered into by the authority with an institution shall provide that the fees and other amounts payable by the institution of higher education with respect to a program of the authority are sufficient at all times to meet all of the following:

1. To pay its share of the administrative costs and expenses of the program.
2. To pay the principal of, the premium, if any, and the interest on outstanding obligations of the authority, issued in respect of the program to the extent that other revenues of the authority pledged for the payment of the obligations are insufficient to pay the obligations as they become due and payable.
3. To create and maintain reserves which may but need not be required or provided for in the bond resolution relating to the obligations of the authority.
4. To establish and maintain whatever education loan servicing, control, or audit procedures are deemed by the authority to be necessary to the prudent operation of the authority.

The authority shall pledge the revenues from each program as security for the issue of obliga-

tions relating to the program. A pledge is valid and binding from the time when the pledge is made, the revenues pledged by the authority are immediately subject to the lien of the pledge without physical delivery of the pledge or further act, and the lien of the pledge is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority or a participating institution, irrespective of whether the parties have notice of the lien. The bond resolution and a financing statement, continuation statement, or other instrument by which the authority's interest in revenues is assigned need not be filed or recorded in public records in order to perfect the lien against third parties except that a copy of it shall be filed in the records of the authority and with the treasurer of state.

[82 Acts, ch 1031, §15]

261A.16 Funds for sales of obligations as trust funds — application of funds.

[82 Acts, ch 1031, §17]

261A.18 Refunding bonds — purpose — proceeds — investment of proceeds.

1. The authority may issue its obligations for the purpose of refunding obligations then outstanding, including the payment of a redemption premium on the obligations and interest accrued or to accrue to the earliest or a subsequent date of redemption, purchase, or maturity of the obligations.

2. The proceeds of obligations issued for the purpose of refunding outstanding obligations may, in the discretion of the authority, be applied to the purchase or retirement at maturity or redemption of the outstanding obligations either on their earliest or a subsequent redemption date or upon the purchase or at the maturity of the obligations and may, pending an application, be placed in escrow to be applied to the purchase or retirement at maturity or redemption on a date determined by the authority.

3. Any escrowed proceeds, pending their use, may be invested and reinvested in direct obligations of the United States of America, maturing at times as appropriate to assure the prompt payment of the principal of and interest and redemption premium, if any, on the outstanding obligations to be refunded. The interest, income, and profits, if any, earned or realized on an investment may also be applied to the payment of the outstanding obligations to be refunded. After the terms of the escrow have been fully satisfied and carried out, a balance of the proceeds and interest, income, and profits, if any, earned or realized on the investments shall be returned to the institution of higher education for use by it in any lawful manner.

4. Refunding obligations are subject to this chapter in the same manner and to the same extent as other obligations issued pursuant to this chapter.

[82 Acts, ch 1031, §18]

261A.19 Investment of funds of authority.

Except as otherwise provided in section 261A.18, subsection 3, the authority may invest funds in direct obligations of the United States of America; obligations for which the timely payment of principal and interest is fully guaranteed by the United States of America; obligations of the federal intermediate credit banks, federal banks for cooperatives, federal land banks, federal home loan banks, federal national mortgage association, government national mortgage association and the student loan marketing association; certificates of deposit or time deposits constituting direct obligations of a bank as defined by chapter 524; and in withdrawable capital accounts or deposits of state or federal chartered savings and loan associations which are insured by the federal savings and loan insurance corporation. However, investments may be made only in certificates of

deposit or time deposits in banks which are insured by the federal deposit insurance corporation if then in existence. Securities authorized in this section may be purchased at the offering or market price at the time of the purchase. The securities purchased shall mature or be redeemable on dates prior to the time when, in the judgment of the authority, the funds invested will be required for expenditure. [82 Acts, ch 1031, §24]

261A.25 Notice.

DIVISION II

HIGHER EDUCATION FACILITIES PROGRAM

261A.32 Legislative findings.

The general assembly finds:

1. For the benefit of the people of the state of Iowa, the increase of their commerce, welfare, and prosperity, and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the greatest opportunity to learn and to fully develop their intellectual and mental capacities and skills.

2. To achieve these ends it is of the utmost importance that educational institutions within the state be provided with appropriate additional means of assisting the youth in achieving the required levels of learning and development of their intellectual and mental capacities and skills through new or enhanced physical facilities and equipment at these institutions.

3. The financing and refinancing of educational facilities, through means as described in this division, other than the appropriation of public funds to institutions, is a valid public purpose.

85 Acts, ch 210, §2

261A.40 Joint and combination projects.

The authority may undertake a project for two or more institutions jointly or for any combination of institutions, and may combine for financing purposes, with the consent of all of the institutions which are involved, the project and some or all future projects of any institution or institutions, and this division applies to and is for the benefit of the authority and the joint participants. However, the money set aside in a fund or funds pledged for any series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from money pledged for another series or issue of obligations of the authority. To facilitate the combining of projects, obligations may be issued in series under one or more resolutions or trust agreements and may be fully open-ended, thus

providing for the unlimited issuance of additional series, or partially open-ended, limited as to additional series. The authority may permit an institution to substitute one or more projects of equal value, as determined by an independent appraiser satisfactory to the authority, for a project financed under this division on terms and subject to conditions the authority prescribes.

85 Acts, ch 210, §10

261A.41 Expenses.

Expenses incurred in carrying out this division are payable solely from funds provided under this division and a liability or obligation shall not be incurred by the authority beyond the extent to which money is provided under this division.

85 Acts, ch 210, §11

261A.42 Obligations.

The authority may provide by resolution for the issuance of obligations for the purpose of paying, refinancing, or reimbursing all or part of the cost of a project. Except to the extent payable from payments to be made on federally guaranteed securities as provided in section 261A.45, the principal of and the interest on the obligations shall be payable solely out of the revenue of the authority derived from the project to which they relate and from other facilities pledged or made available for this purpose by the institution for whose benefit the obligations were issued. The obligations of each issue shall be dated, shall bear interest at rate or rates, without regard to any limit contained in any other statute or law of the state, and shall mature at times not exceeding forty years from the date of issuance, all as determined by the authority; and may be made redeemable before maturity at the prices and under terms fixed by the authority in the authorizing resolution.

Except as otherwise provided by this division, the obligations are to be paid solely out of the revenue of the project to which they relate and, in certain instances, out of the revenue of certain other facilities, and subject to section 261A.45 with respect to a pledge of government securities, the obligations may be unsecured or secured in the manner and to the extent determined by the authority. The authority shall determine the form of the obligations, including interest coupons, if any, to be attached, and shall fix the denominations of the obligations and the places of payment of principal and interest which may be at any bank or trust company within or without the state. The obligations and coupons attached, if any, shall be executed by the manual or facsimile signatures of officers of the authority designated by the authority. If an official of the authority whose signature or a facsimile of whose signature appears on any obligations or coupons ceases to be an official before the delivery of the obligations, the signature or facsimile, nevertheless, is valid and sufficient for all purposes the same as if the individual had re-

mained an official of the authority until delivery. Obligations issued under this division have all the qualities and incidents of negotiable instruments, notwithstanding this payment from limited sources and without regard to any other law. The obligations may be issued in coupon or in registered form, or both, and one form may be exchangeable for the other in the manner as the authority may determine. Provision may be made for the registration of any coupon obligations as to principal alone and also as to both principal and interest, and for the reconversion into coupon obligations of any obligations registered as to both principal and interest. The obligations may be sold in the manner, either at public or private sale, as the authority determines.

The proceeds of the obligations of each issue shall be used solely for the payment of the cost of the project for which the obligations have been issued, and shall be disbursed in the manner and under the restrictions, if any, as the authority provides in the resolution authorizing the issuance of the obligations or in the trust agreement provided for in section 261A.44 securing the obligations. If the proceeds of the obligations of an issue, by error of estimates or otherwise, are less than the costs, additional obligations may in like manner be issued to provide the amount of the deficit, and, unless otherwise provided in the resolution authorizing the issuance of the obligations or in the trust agreement securing them, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the obligations first issued. If the proceeds of the obligations of an issue shall exceed the cost of the project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for the obligations. Prior to the preparation of definitive obligations, the authority may, under like restrictions, issue interim receipts or temporary obligations, with or without coupons, exchangeable for definitive obligations when the obligations have been executed and are available for delivery.

The authority may also provide for the replacement of obligations which become mutilated or are destroyed or lost. Obligations may be issued under this division without obtaining the consent of an officer, department, division, commission, board, bureau, or agency of the state, and without other proceedings or conditions other than those which are specifically required by this division. The authority may purchase its bonds out of funds available for that purpose. The authority may hold, pledge, cancel, or resell the obligations, subject to and in accordance with any agreement with the obligation holders. Members of the authority and any person executing the obligations are not liable personally on the obligations or subject to person-

al liability or accountability by reason of the issuance of the obligations.

85 Acts, ch 210, §12; 97 Acts, ch 181, §5

261A.43 Resolution provisions.

The resolution authorizing obligations or an issue of obligations may contain provisions, which shall be a part of the contract with the holders of the obligations to be authorized, as to:

1. Pledging or assigning the revenue of the project with respect to which the obligations are to be issued or the revenue of other property or facilities.

2. Setting aside reserves or sinking funds, and the regulation, investment, and disposition of them.

3. Limitations on the use of the project.

4. Limitations on the purpose to which or the investments in which the proceeds of sale of an issue of obligations then or thereafter to be issued may be applied and pledging the proceeds to secure the payment of the obligations or an issue of the obligations.

5. Limitations on the issuance of additional obligations, the terms upon which additional obligations may be issued and secured, and the refunding of outstanding obligations.

6. The procedure, if any, by which the terms of any contract with obligation holders may be amended or abrogated, the amount of obligations the holders of which must consent to the amendment or abrogation, and the manner in which the consent may be given.

7. Limitations on the amount of money derived from the project to be expended for operating, administrative, or other expenses of the authority.

8. Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of the holders in the event of a default.

9. Mortgaging a project and the project site or other property for the purpose of securing the obligation holders.

10. Other matters relating to the obligations which the authority deems desirable.

85 Acts, ch 210, §13

261A.44 Obligations secured by trust agreement.

Obligations issued under this division may be secured by a trust agreement by and between the authority and an incorporated trustee, which may be a trust company or bank having the powers of a trust company within or without the state. The trust agreement or the resolution providing for the issuance of the obligations may pledge or assign the revenue to be received or proceeds of any con-

tract pledged and may convey or mortgage the project or any portion of the project. A pledge or assignment made by the authority pursuant to this section is valid and binding from the time that the pledge or assignment is made, and the revenue pledged and thereafter received by the authority is immediately subject to the lien of the pledge or assignment without physical delivery or any further act. The lien of the pledge or assignment is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority irrespective of whether the parties have notice of the lien. The resolution or trust agreement by which a pledge is created or an assignment made shall be filed or recorded in the records of the authority, with the secretary of state, and in each county in which the project is located. The trust agreement or resolution providing for the issuance of the obligations may contain provisions for protecting and enforcing the rights and remedies of the obligation holders as are reasonable and proper, not in violation of law, or provided for in this division. A bank or trust company incorporated under the laws of this state which acts as depository of proceeds of the obligations, revenue, or other money shall furnish the indemnifying obligations or pledge the securities as required by the authority. The trust agreement may set forth the rights and remedies of the obligation holders and of the trustee, and may restrict the individual right of action by obligation holders. The trust agreement or resolution may contain other provisions the authority deems reasonable and proper for the security of the obligation holders. Expense incurred in carrying out the trust agreement or resolution may be treated as a part of the cost of the operation of a project.

85 Acts, ch 210, §14

261A.45 Obligations issued to acquire federally guaranteed securities.

The authority may finance the cost of a project, refund outstanding indebtedness, or reimburse advances from an endowment or similar fund of an institution as authorized by this division, by issuing its obligations pursuant to a plan of financing involving the acquisition of a federally guaranteed security or the acquisition or entering into of commitments to acquire a federally guaranteed security. For the purposes of this section, "*federally guaranteed security*" means any direct obligation of, or obligation the principal of and interest on which are fully guaranteed or insured by the United States, or an obligation issued by, or the principal of and interest on which are fully guaranteed or insured by any agency or instrumentality of the United States, including without limitation an obligation that is issued pursuant to the National Housing Act, or any successor provision of law.

The authority may acquire or enter into commitments to acquire a federally guaranteed security and pledge or otherwise use the federally guaranteed security in the manner the authority deems in its best interest to secure or otherwise provide a source of repayment of its obligations issued to finance or refinance a project, or may enter into an appropriate agreement with an institution whereby the authority may make a loan to the institution for the purpose of acquiring or entering into commitments to acquire a federally guaranteed security. An agreement entered into pursuant to this section may contain provisions deemed necessary or desirable by the authority for the security or protection of the authority or the holders of the obligations, except that the authority, prior to making an acquisition, commitment, or loan, shall determine and enter into an agreement with the institution or another appropriate institution to require that the proceeds derived from the acquisition of a federally guaranteed security will be used, directly or indirectly, for the purpose of financing or refinancing a project.

The obligations issued pursuant to this section shall not exceed in principal amount the cost of financing or refinancing the project as determined by the participating institution and approved by the authority, except that the costs may include, without limitation, all costs and expenses necessary or incidental to the acquisition of or commitment to acquire a federally guaranteed security and to the issuance and obtaining of insurance or guarantee of an obligation issued or incurred in connection with a federally guaranteed security. In other respects the bonds are subject to this division, and the trust agreement creating the bonds may contain provisions set forth in this division as the authority deems appropriate.

If a project is financed or refinanced pursuant to this section, the title to the project shall remain in the participating institution owning the project, subject to the lien of a mortgage or security interest securing, directly or indirectly, the federally guaranteed securities being purchased or to be purchased.

85 Acts, ch 210, §15

261A.46 Obligations not liability of state or political subdivision.

Obligations issued pursuant to this division are not debts of the state or of any political subdivision of the state or a pledge of the faith and credit of the state or of any political subdivision, but the obligations are limited obligations of the authority payable solely from the funds or securities, pledged for their payment as authorized in this division, unless the obligations are refunded by refunding obligations issued under this division, which refunding obligations shall be payable solely from funds or securities pledged for their payment as authorized in this division. All revenue obligations shall contain on their face a statement to the effect that

the obligations, as to both principal and interest, are not obligations of the state, or of any political subdivision of the state, but are limited obligations of the authority payable solely from revenue or securities pledged for their payment. Expenses incurred in carrying out this division are payable solely from funds provided under this division, and this division does not authorize the authority to incur indebtedness or liability on behalf of or payable by the state or any political subdivision of the state.

85 Acts, ch 210, §16

261A.47 Money received by authority.

All money received by the authority, whether as proceeds from the sale of obligations, from revenue, or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this division, but prior to the time when needed for use may be invested to the extent and in the manner provided by the authority. The funds shall be deposited, held, and secured as determined by the authority, except to the extent provided otherwise in the resolution authorizing the issuance of the related obligations or in the trust agreement securing the obligations. The resolution authorizing the issuance of the obligations or the trust agreement securing the obligations shall provide that an officer, bank or trust company to which the money is entrusted shall act as trustee of the money and shall hold and apply the money for the purposes of this division, subject to the provisions of this division and of the authorizing resolution or trust agreement.

85 Acts, ch 210, §17

261A.48 Powers of holders and trustees.

A holder of obligations or of the coupons pertaining to obligations and the trustee under a trust agreement, except to the extent the rights given in this division are restricted by the authorizing resolution or trust agreement, may, by suit, mandamus, or other proceedings, protect and enforce any and all rights under the laws of this state, or under the trust agreement or resolution authorizing the issuance of the obligations, and may enforce and compel the performance of all duties required by this division or by the trust agreement or resolution to be performed by the authority or by an officer, employee, or agent of the authority, including the fixing, charging, and collecting of fees and charges authorized in this division and required by the resolution or trust agreement to be fixed and collected.

The rights of holders include the right to compel the performance of all duties of the authority required by this division or the resolution or trust agreement, to enjoin unlawful activities, and in the event of default with respect to the payment of any principal of, premium, if any, and interest on an obligation or in the performance of a covenant or agreement on the part of the authority in the resolution, to apply to a court having jurisdiction of the cause to appoint a receiver to administer and operate the project, the revenue of which is pledged to the payment of the principal of, premium, if any, and interest on the obligations, the receiver to have full power to pay and to provide for payment of the principal of, premium, if any, and interest on the obligations, and to have the powers, subject to the direction of the court, as are permitted by law and are accorded receivers in general equity cases, including the power to foreclose the mortgage on the project in the same manner as the foreclosure of a mortgage on real estate of private corporations, but excluding any power to pledge additional revenue of the authority to the payment of the principal, premium, and interest.

85 Acts, ch 210, §18

261A.49 Bondholders — pledge — agreement of the state.

The state pledges to and agrees with the holders of any obligations issued under this division, and with those parties who enter into contracts with the authority pursuant to this division, that the state will not limit or alter the rights vested in the authority until the obligations, together with the interest on the obligations, are fully met and discharged and the contracts are fully performed on the part of the authority, except that this section does not preclude the limitation or alteration if and when adequate provision is made by law for the protection of the rights of the holders of the obligations of the authority or those entering into contracts with the authority.

85 Acts, ch 210, §19

261A.50 Provisions controlling.

The powers granted the authority under this division are in addition to the powers of the authority contained in other provisions of this chapter. All other provisions of this chapter apply to obligations issued pursuant to and powers granted the authority under this division, except to the extent they are inconsistent with this division.

261C.1 Title.

This chapter may be cited as the "*Postsecondary Enrollment Options Act*".

87 Acts, ch 224, §35

261C.2 Policy.

It is the policy of this state to promote rigorous academic or vocational-technical pursuits and to provide a wider variety of options to high school

pupils by enabling ninth and tenth grade pupils who have been identified as gifted and talented, and eleventh and twelfth grade pupils, to enroll part-time in nonsectarian courses in eligible postsecondary institutions of higher learning in this state.

87 Acts, ch 224, §36; 90 Acts, ch 1253, §18; 92 Acts, ch 1110, §1

261C.3 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *“Eligible postsecondary institution”* means an institution of higher learning under the control of the state board of regents, a community college established under chapter 260C, or an accredited private institution as defined in section 261.9, subsection 1.

2. *“Eligible pupil”* means a pupil classified by the board of directors of a school district, by the state board of regents for pupils of the school for the deaf and the Iowa braille and sight saving school, or by the authorities in charge of an accredited nonpublic school as a ninth or tenth grade pupil who is identified according to the school district’s gifted and talented criteria and procedures, pursuant to section 257.43, as a gifted and talented child, or an eleventh or twelfth grade pupil, during the period the pupil is participating in the enrollment option provided under this chapter. A pupil attending an accredited nonpublic school shall be counted as a shared-time student in the school district in which the nonpublic school of attendance is located for state foundation aid purposes.

87 Acts, ch 224, §37; 90 Acts, ch 1253, §19; 91 Acts, ch 126, §4; 92 Acts, ch 1110, §2; 93 Acts, ch 69, §1

261C.4 Authorization.

An eligible pupil may make application to an eligible institution to allow the eligible pupil to enroll for academic or vocational-technical credit in a nonsectarian course offered at that eligible institution. A comparable course, as defined in rules made by the board of directors of the public school district, must not be offered by the school district or accredited nonpublic school which the pupil attends. If an eligible institution accepts an eligible pupil for enrollment under this section, the institution shall send written notice to the pupil, the pupil’s school district or accredited nonpublic school or the school for the deaf or the Iowa braille and sight saving school, and the department of education. The notice shall list the course, the clock hours the pupil will be attending the course, and the number of hours of postsecondary academic or vocational-technical credit that the eligible pupil will receive from the eligible institution upon successful completion of the course.

87 Acts, ch 224, §38; 90 Acts, ch 1253, §20; 91 Acts, ch 123, §1; 92 Acts, ch 1110, §3; 93 Acts, ch 69, §2

261C.5 High school credits.

A school district, the school for the deaf, the Iowa braille and sight saving school, or accredited nonpublic school shall grant high school academic or vocational-technical credit to an eligible pupil enrolled in a course under this chapter if the eligible pupil successfully completes the course as determined by the eligible institution. Eligible pupils, who have completed the eleventh grade but who have not yet completed the requirements for graduation, may take up to seven semester hours of credit during the summer months when school is not in session and receive credit for that attendance, if the pupil pays the cost of attendance of those summer credit hours. The board of directors of the school district, the state board of regents for the school for the deaf and the Iowa braille and sight saving school, or authorities in charge of an accredited nonpublic school shall determine the number of high school credits that shall be granted to an eligible pupil who successfully completes a course.

The high school credits granted to an eligible pupil under this section shall count toward the graduation requirements and subject area requirements of the school district of residence, the school for the deaf, the Iowa braille and sight saving school, or accredited nonpublic school of the eligible pupil. Evidence of successful completion of each course and high school credits and postsecondary academic or vocational-technical credits received shall be included in the pupil’s high school transcript.

261C.6 School district payments.

Not later than June 30 of each year, a school district shall pay a tuition reimbursement amount to an eligible postsecondary institution that has enrolled its resident eligible pupils under this chapter. For pupils enrolled at the school for the deaf and the Iowa braille and sight saving school, the state board of regents shall pay a tuition reimbursement amount by June 30 of each year. The amount of tuition reimbursement for each separate course shall equal the lesser of:

1. The actual and customary costs of tuition, textbooks, materials, and fees directly related to the course taken by the eligible student.
2. Two hundred fifty dollars.

A pupil is not eligible to enroll on a full-time basis in an eligible postsecondary institution and receive payment for all courses in which a student is enrolled.

87 Acts, ch 224, §40; 90 Acts, ch 1253, §22; 93 Acts, ch 69, §4; 96 Acts, ch 1215, §40

261C.7 Transportation.

The parent or guardian of an eligible pupil who has enrolled in and is attending an eligible postsecondary institution under this chapter shall furnish transportation to and from the eligible postsecondary institution for the pupil.

87 Acts, ch 224, §41

261C.8 Prohibition on charges.

An eligible postsecondary institution that enrolls an eligible pupil under this chapter shall not charge that pupil for tuition, textbooks, materials, or fees directly related to the course in which the pupil is enrolled except that the pupil may be required to purchase equipment that becomes the property of the pupil. However, if the pupil fails to complete and receive credit for the course, the pupil is responsible for all costs directly related to the course as provided in section 261C.6 and shall reimburse the school district for its costs. If the pupil is under eighteen years of age, the pupil's parent, guardian, or custodian shall sign the student

registration form indicating that the parent, guardian, or custodian is responsible for all costs directly related to the course, if the pupil fails to complete and receive credit for the course.

If the local area education agency verifies that the pupil was unable to complete the course for reasons including but not limited to the pupil's physical incapacity, death in the family, or the pupil's move to another school district, a verification by the area education agency shall constitute a waiver to the requirement that the pupil, pupil's parent, guardian, or legal custodian pay the costs of the course to the school district.

87 Acts, ch 224, §42; 93 Acts, ch 117, §1

261C.9 Tuition refund.

An eligible postsecondary institution shall make pro rata adjustments to tuition reimbursement amounts based upon federal guidelines established pursuant to 20 U.S.C. § 1091b.

The board shall give appropriate consideration to those facts and circumstances that the board knows or should know are relevant to the particular investment involved, including the role the investment plays in the total value of the board's funds.

For the purposes of this subsection, appropriate consideration includes, but is not limited to, a determination by the board that the particular investment is reasonably designed to further the purposes prescribed by law to the board, taking into consideration the risk of loss and the opportunity for gain or other return associated with the in-

The investment policy shall cover investments of endowment and nonendowment funds.

Consistent with this subsection, investments made under this subsection shall be made in a manner that will enhance the economy of this state, and in particular, will result in increased employment of the residents of this state.

4. Any gift accepted by the Iowa state board of regents for the use and benefit of any institution under its control may be invested in securities designated by the donor, but whenever such gifts are accepted and the money invested according to the request of the said donor, neither the state, the Iowa state board of regents, nor any member thereof, shall be liable therefor or on account thereof.

Any rules made pursuant to this section may be enforced under procedures adopted by the board for each institution under its control. Sanctions may be imposed upon students, faculty and staff for violation of the rules, including, but not limited to, a reasonable monetary sanction which may be deducted from student deposits and faculty or

staff salaries or other funds in the possession of the institution, or added to student tuition bills. The rules made pursuant to this section may also be enforced by the impoundment of vehicles and bicycles parked in violation of the rules, and a reasonable fee may be charged for the cost of impoundment and storage, prior to the release of the vehicles and bicycles to their owners. Each institution under the control of the board shall establish procedures for the determination of controversies in connection with imposition of sanctions. The procedures shall require giving notice of the violation and the sanction involved and provide an opportunity for an administrative hearing. Judicial review of the administrative ruling may be sought in accordance with the terms of the Iowa administrative procedure Act.

262.75 Incentives for cooperating teachers.

A cooperating teacher incentive program is established to encourage experienced teachers to serve as cooperating teachers for student teachers enrolled in the institutions of higher education under the control of the board. An individual who submits evidence to an institution that the individual has satisfactorily served as a cooperating teacher for a student teacher from any of the institutions of higher education under the control of the board for the duration of the student teaching experience shall receive from the institution either a monetary recompense or a reduction in tuition for graduate hours of coursework equivalent to the value of the monetary recompense, rounded to the nearest whole credit hour. If, because of a policy adopted by the board of directors employing the teacher, the amount of the monetary recompense is not made available to the teacher for the teacher's own personal use or the salary paid to the cooperating teacher by the employing board is correspondingly reduced, the institution shall grant the teacher the reduction in tuition pursuant to this section in lieu of the monetary recompense.

In lieu of the payment of monetary recompense to a cooperating teacher, the cooperating teacher may direct that the monetary recompense be paid by the institution directly into a scholarship fund which has been established jointly by the board of directors of the school district that employs the teacher and the local teachers' association. In such cases, the cooperating teacher shall receive neither monetary recompense nor any reduction in tuition at the institution.

REGENTS' MINORITY AND WOMEN
EDUCATORS ENHANCEMENT

262.81 Legislative intent.

The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the "Regents' Minority and Women Educators Enhancement" program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

89 Acts, ch 319, §61

262.82 Regents' minority and women educators enhancement program.

The board of regents shall establish a program to recruit minority educators to faculty positions in the universities under the board's control. The program shall include, but is not limited to, the creation of faculty positions in all areas of academic pursuit.

The board of regents shall also establish a program to create faculty opportunities for women educators at the universities under the board's control. The program shall include, but is not limited to, the creation of faculty positions in targeted shortage areas. The board of regents shall also develop and implement, in consultation with appropriate faculty representatives, tenure, promotion, and hiring policies that recognize the unique needs of faculty members who are principal caregivers to dependents.

As used in this section, "minority educator" means an educator who is a minority person as defined in section 261.102.

262.83 through 262.90 Reserved.

COLLEGE-BOUND PROGRAM

262.91 Legislative intent.

The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation, economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa's higher education system. The general as-

sembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the "College-bound" program is established to ensure that the state's universities and students' local communities become involved early in a student's life by promoting and informing students about the opportunities in higher education, so that lack of adequate personal resources is not a barrier to attending college for young Iowans.

89 Acts, ch 319, §63

262.92 College-bound program.

1. The board of regents shall establish or contract to establish college-bound programs to provide Iowa minority students with information and experiences relating to opportunities offered at the regents' universities. Programs developed may include, but are not limited to, the following elements:

a. Reinforcement of efforts to attract undergraduate students from age groups currently served by traditional methods of outreach which use high school and community college services.

b. Extension of traditional student recruitment methods which are designed to encourage minority students in grades seven through twelve to pursue postsecondary academic courses of study.

c. Identification, at each of the regents' universities, of courses of study to be targeted for the recruitment of minority students.

d. Offerings at the regents' universities of innovative programs, which are experience oriented, for families with minority children.

2. The board of regents shall establish a voucher program for students in grades seven through twelve. Vouchers may be obtained by any qualified secondary student at any regents' university upon completion of a college-bound program provided under subsection 1. Students may receive one voucher for each program. One or more vouchers entitle a student to priority over other persons applying for grants under the Iowa minority academic grants for economic success program established in section 261.101. Vouchers shall be submitted with the grant application within one year after a student graduates from high school at any higher education institution which offers grants under the Iowa minority academic grants for economic success program. Vouchers earned can only be used by the person who participated in the college-bound voucher program and are not transferable. Vouchers issued by a university under this program shall be signed by the president of the university.

3. The board of regents shall adopt rules to establish program guidelines for the universities under the board's control and for the administration and coordination of program efforts. Rules

adopted shall include methods of recording data relating to voucher recipients and making the data available to the college student aid commission.

89 Acts, ch 319, §64

262.93 Reports to general assembly.

The college student aid commission and the

state board of regents each shall submit, by January 1 of each year, a report on the progress and implementation of the programs which they administer under sections 261.102 through 261.105, 262.82, and 262.92. The reports shall include, but are not limited to, the numbers of students participating in the programs and allocation of funds appropriated for the programs.

Subject to and in accordance with the provisions of this chapter, the state board of regents after authorization by a constitutional majority of the general assembly may undertake and carry out any project as defined in this chapter at the state university of Iowa. The state board of regents is authorized to operate, control, maintain, and manage buildings and facilities and additions to such buildings and facilities at said institution. All contracts for the construction, reconstruction, completion, equipment, improvement, repair, or remodeling of any buildings, additions, or facilities shall be let in accordance with the provisions of section 262.34. The title to all real estate acquired under the provisions of this chapter and the

[C71, 73, 75, 77, 79, 81, §263A.2]

263A.3 Bonds or notes issued.

The board is authorized to borrow money and to issue and sell negotiable bonds or notes to pay all or any part of the cost of carrying out any project at the institution and to refund and refinance bonds or notes issued for any project or for refunding purposes at the same rate or at a lower rate. Such bonds or notes shall be sold by the board at public sale on the basis of sealed proposals received pursuant to a notice specifying the time and place of sale and the amount of bonds to be sold which shall be published at least once not less than seven days prior to the date of sale in a newspaper published in the state of Iowa and having a general circulation in the state. The provisions of chapter 75 shall not apply to bonds or notes issued under authority contained in this chapter, but such bonds or notes shall be sold upon terms of not less than par plus accrued interest. Bonds or notes issued to refund other bonds or notes issued under the provisions of this chapter may either be sold in the manner specified in this chapter and the proceeds thereof applied to the payment of the obligations being refunded, or the refunding bonds or notes may be exchanged for and in payment and discharge of the obligations being refunded. The refunding bonds or notes may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds or notes may be exchanged in part or sold in parts in installments at different times or at one time. The refunding bonds or notes may be sold or exchanged at any time on, before, or after the maturity of any of the outstanding notes, bonds, or other obligations to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds or notes, except that the principal amount of the refunding bonds or notes may exceed the principal amount of the bonds or notes to be refunded to the extent necessary to pay any premium due on the call of the bonds or notes to be refunded or to fund interest in arrears or about to become due.

All bonds or notes issued under the provisions of this chapter shall be payable solely and only from and shall be secured by an irrevocable pledge of a sufficient portion of the hospital income of the institution. All bonds or notes issued under the provisions of this chapter shall have all the qualities of negotiable instruments under the laws of this state.

In addition to the estimated cost of construction, including site costs, the cost of the project may include interest upon the bonds or notes during construction and for six months after the estimated completion date, the compensation of a fiscal agent or adviser, engineering, architectural, administrative, and legal expenses and provision for contingencies. Such bonds or notes shall be executed by the president of the state board of regents and attested by the executive secretary, secretary, or other official thereof performing the duties of secretary, and the coupons thereto attached shall be executed with the original or facsimile signatures of said president, executive secretary, secretary, or other official; provided, however, that the facsimile signature of either of such officers executing such bonds may be imprinted on the face of the bonds in lieu of the manual signature of such officer, but at least one of the signatures appearing on the face of each bond shall be a manual signature. Any bonds or notes bearing the signatures of officers in office on the date of the signing thereof shall be valid and binding for all purposes, notwithstanding that before delivery thereof any or all such persons whose signatures appear thereon shall have ceased to be such officers. Each such bond or note shall state upon its face the name of the institution on behalf of which it is issued, that it is payable solely and only from hospital income received by such institution as provided in this chapter, and that it does not constitute a debt of or charge against the state of Iowa within the meaning or application of any constitutional or statutory limitation or provision. The issuance of such bonds or notes shall be recorded in the office of the treasurer of the institution, and a certificate by such treasurer to this effect shall be printed on the back of each such bond or note.

[C71, 73, 75, 77, 79, 81, §263A.4]

Upon the determination by the state board of regents to undertake and carry out any project or to refund outstanding bonds or notes, said board shall adopt a resolution describing generally the contemplated project and setting forth the estimated cost thereof, or describing the obligations to be refunded, fixing the amount of bonds or notes to be issued, the maturity or maturities, the interest rate or rates, and all details in respect thereof. Such resolution shall contain such covenants as

may be determined by the board as to the issuance of additional bonds or notes that may thereafter be issued payable from the hospital income received by the institution, the amendment or modification of the resolution authorizing the issuance of any bonds or notes, the manner, terms, and conditions and the amount or percentage of assenting bonds or notes necessary to effectuate such amendment or modification, and such other covenants as may be deemed necessary or desirable. In the discretion of the board, any bonds or notes issued under the terms of this chapter may be secured by a trust indenture by and between the board and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the boundaries of the state of Iowa, but no such trust indenture shall convey or mortgage the buildings and facilities or any part thereof. The provisions of this chapter and of any resolution or other proceedings authorizing the issuance of bonds or notes and providing for the establishment and maintenance of adequate rates, fees, and charges for services rendered by the hospitals, medical clinics, and medical laboratories of the institution and the application of the proceeds thereof, together with other hospital income, shall constitute a contract with the holders of such bonds or notes.

[C71, 73, 75, 77, 79, 81, §263A.5]

263A.6 Rates, fees and charges for services.

All bonds or notes issued under the terms of this chapter shall be exempt from taxation by the state of Iowa and the interest thereon shall be exempt from the state income tax.

[C71, 73, 75, 77, 79, 81, §263A.6]

A certified copy of each resolution providing for the issuance of bonds or notes under this chapter shall be filed with the treasurer of the institution and it shall be the duty of said treasurer to keep and maintain separate accounts for each issue of bonds or notes in accordance with the covenants and directions set out in the resolution providing

for the issuance thereof. A sufficient portion of the hospital income received by the institution shall be held in trust by the treasurer thereof, separate and apart from all other funds, to be used solely and only for the purposes specified in this chapter and as may be required and provided for by the proceedings of the board authorizing the issuance of bonds or notes. It shall be the duty of the treasurer of the institution to disburse funds from the proper account for the payment of the principal of and interest on the bonds or notes in accordance with the directions and covenants of the resolution authorizing the issuance thereof.

If the amount of bonds or notes issued under this chapter exceeds the actual costs of the projects for which the bonds or notes were issued, the amount of the difference shall be used to pay the principal and interest due on bonds or notes issued under this chapter.

No taxes, or other funds of the state of Iowa appropriated to the institution may be pledged for or used to pay such bonds or notes or the interest thereon but any such bonds or notes shall be payable solely and only as to both principal and interest from the hospital income received by the institution as hereinbefore provided, and the sole remedy for any breach or default of the terms of any such bonds or notes or proceedings for their issuance shall be a proceeding either in law or in equity by suit, action, or mandamus to enforce and compel performance of the duties required by this chapter and the terms of the resolution under which such bonds or notes are issued.

272.7 Validity of license.

A license issued under board authority is valid for the period of time for which it is issued, unless the license is suspended or revoked. A license issued by the board is valid until the last day of the practitioner's birth month in the year in which the license expires. No permanent licenses shall be issued. A person employed as a practitioner shall hold a valid license with an endorsement for the type of service for which the person is employed. This section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate practitioners' contracts. A professional development program, except for a program offered by a practitioner preparation institution or area education agency and approved by the state board of education, must possess a valid license for the types of programs offered.

The executive director of the board may grant or deny license applications, applications for renewal of a license, and suspension or revocation of a license. A denial of an application for a license, the denial of an application for renewal, or a suspension or revocation of a license may be appealed by the practitioner to the board.

The board may issue emergency renewal or temporary, limited-purpose licenses upon petition by a current or former practitioner. An emergency renewal or a temporary, limited-purpose license may be issued for a period not to exceed two years, if a petitioner demonstrates, to the satisfaction of the board, good cause for failure to comply with board requirements for a regular license and provides evidence that the petitioner will comply with board requirements within the period of the emer-

gency or temporary license. Under exceptional circumstances, an emergency license may be renewed by the board for one additional year. A previously unlicensed person is not eligible for an emergency or temporary license, except that a student who is enrolled in a licensed practitioner preparation program may be issued a temporary, limited-purpose license, without payment of a fee, as part of a practicum or internship program.

Requirements for the renewal of licenses, under this chapter, do not apply retroactively to renewal of certificates. However, this section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate practitioners' contracts.

A practitioner who holds a certificate issued before July 1, 1989, shall, upon application and payment of a fee, be granted a license which will permit the practitioner to perform the same duties and functions as the practitioner was entitled to perform with the certificate held at the time of application. A practitioner shall be permitted to convert a permanent certificate to a term certificate, after July 1, 1989, without payment of a fee.

A professional development program provided by a school district and approved by the state board of education before July 1, 1989, shall be permitted to continue until the term, for which the program was approved, expires.

272.13 Hearing procedures — confidentiality.

Hearings before the board shall be conducted in the same manner as contested cases under chapter 17A. The board may subpoena books, papers, records, and any other real evidence necessary for the board to decide whether it should institute a contested case hearing. At the hearing the board may administer oaths and issue subpoenas to compel the attendance of witnesses and the production of other evidence. Service of process and subpoenas for board hearings shall be conducted in accordance with the law applicable to the service of process and subpoenas in civil actions.

Witnesses subpoenaed to appear before the board shall be reimbursed for mileage and necessary expenses and shall receive per diem compensation by the board, unless the witness is an employee of the state or a political subdivision, in which case the witness shall receive reimbursement only for mileage and necessary expenses.

All complaint files, investigation files, other investigation reports, and other investigative information in the possession of the board or its employees or agents, which relate to licensee discipline, are privileged and confidential, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the respondent and the board and its employees and agents involved in licensee discipline, and are not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. However, investigative information in the possession of the board or its employees or agents which relates to licensee discipline may be disclosed to appropriate li-

censing authorities within this state, the appropriate licensing authority in another state, the District of Columbia, or a territory or country in which the licensee is licensed or has applied for a license. CHAPTER 272A

INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

272A.1 Interstate agreement.

272A.2 Designated state official.

272A.3 Contracts on file.

272A.1 Interstate agreement.

The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

ARTICLE I — PURPOSE, FINDINGS, AND POLICY

1. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of co-operation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interest of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of co-operation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational per-

sonnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational personnel.

ARTICLE II — DEFINITIONS

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "*Educational personnel*" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. "*Designated state official*" means the education official of a state selected by that state to ne-

gotiate and enter into, on behalf of that state, contracts pursuant to this agreement.

3. "Accept", or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. "Originating state" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article III of this agreement.

6. "Receiving state" means a state (and the subdivisions thereof) which accepts educational personnel in accordance with the terms of a contract made pursuant to article III of this agreement.

ARTICLE III — INTERSTATE EDUCATIONAL PERSONNEL CONTRACTS

1. The designated state official of a party state may make one or more contracts on behalf of that state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the official finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in the official's state.

2. Any such contract shall provide for:

a. Its duration.

b. The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

c. Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

d. Any other necessary matters.

3. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify

the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The license or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.

6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

ARTICLE IV — APPROVED AND ACCEPTED PROGRAMS

1. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

2. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in applicable contract.

ARTICLE V — INTERSTATE CO-OPERATION

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to article III of this agreement.

2. They will facilitate and strengthen co-operation in interstate certification and other elements of educational personnel qualification and for this purpose shall co-operate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

ARTICLE VI — AGREEMENT EVALUATION

The designated state officials of any party states may meet from time to time as a group to evaluate programs under the agreement, and to formulate recommendations for changes.

ARTICLE VII — OTHER ARRANGEMENTS

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

ARTICLE VIII — EFFECT AND WITHDRAWAL

1. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

2. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

ARTICLE IX — CONSTRUCTION AND SEVERABILITY

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the ap-

plicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

CHAPTER 272B

EDUCATION COMPACT

272B.1 Compact for education.

272B.2 Education commission of the states.

272B.3 Filing bylaws.

272B.1 Compact for education.

The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

ARTICLE I — PURPOSE AND POLICY

1. It is the purpose of this compact to:
a. Establish and maintain close co-operation and understanding among executive, legislative,

professional educational and lay leadership on a nationwide basis at the state and local levels.

b. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

c. Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and

record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

d. Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

2. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

3. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

ARTICLE II — STATE DEFINED

As used in this compact, “state” means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

ARTICLE III — THE COMMISSION

1. The education commission of the states, hereinafter called “*the commission*”, is hereby established. The commission shall consist of seven members representing each party state.* One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional,

public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations or professional educators or persons concerned with educational administration.

2. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to article III, paragraph 10.

3. The commission shall have a seal.

4. The commission shall elect annually, from among its members, a chairperson, who shall be a governor, a vice chairperson and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

5. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

6. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

7. The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States,

or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph 6 of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

8. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

9. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

10. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

ARTICLE IV — POWERS

In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

3. Develop proposals for adequate financing of education as a whole and at each of its many levels.

4. Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

ARTICLE V — CO-OPERATION WITH FEDERAL GOVERNMENT

1. If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

2. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

ARTICLE VI — COMMITTEES

1. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows:

Sixteen for one year and sixteen for two years. The chairperson, vice chairperson, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regular ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

2. The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.

3. The commission may establish such additional committees as its bylaws may provide.

ARTICLE VII — FINANCE

1. The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

2. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

3. The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to article III, paragraph 7, of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to article III, paragraph 7 thereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

4. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

5. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

6. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

ARTICLE VIII — ELIGIBLE PARTIES — ENTRY INTO AND WITHDRAWAL

1. This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term "governor", as used in this compact, shall mean the closest equivalent official of such jurisdiction.

2. Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: Provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

3. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

ARTICLE IX — CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

2. Each licensing board may impose one or more of the following as licensee discipline:

a. Revoke a license, or suspend a license either until further order of the board or for a specified period, upon any of the grounds specified in section 147.55, 148.6, 148B.7, 152.10, 153.34, 154A.24, 169.13, 542B.21, 542C.21, 543B.29, 544A.13, 544B.15, or 602.3203 or chapter 151, 155, 507B or 522, as applicable, or upon any other grounds specifically provided for in this chapter for revocation of the license of a licensee subject to the jurisdiction of that board, or upon failure of the licensee to comply with a decision of the board imposing licensee discipline;

b. Revoke, or suspend either until further order of the board or for a specified period, the privilege of a licensee to engage in one or more specified procedures, methods, or acts incident to the practice of the profession, if pursuant to hearing or stipulated or agreed settlement the board finds that because of a lack of education or experience, or because of negligence, or careless acts or omissions, or because of one or more intentional acts or omissions, the licensee has demonstrated a lack of qualifications which are necessary to assure the residents of this state a high standard of professional and occupational care;

c. Impose a period of probation under specified conditions, whether or not in conjunction with other sanctions;

d. Require additional professional education or training, or re-examination, or any combination, as a condition precedent to the reinstatement of a license or of any privilege incident thereto, or as a condition precedent to the termination of any suspension;

e. Impose civil penalties by rule, if the rule specifies which offenses or acts are subject to civil penalties. The amount of civil penalty shall be in the discretion of the board, but shall not exceed one thousand dollars. Failure to comply with the imposition of a civil penalty may be grounds for further license discipline;

f. Issue a citation and warning respecting licensee behavior which is subject to the imposition of other sanctions by the board.

3. The powers conferred by this section upon a licensing board shall be in addition to powers specified elsewhere in the Code. The powers of any other person specified elsewhere in the Code shall not limit the powers of a licensing board conferred by this section, nor shall the powers of such other person be deemed limited by the provisions of this section.

4. Nothing contained in this section shall be construed to prohibit informal stipulation and settlement by a board and a licensee of any matter involving licensee discipline. However, licensee discipline shall not be agreed to or imposed except pursuant to a written decision which specifies the sanction and which is entered by the board and filed.

All health care boards shall file written decisions which specify the sanction entered by the board with the Iowa department of public health which shall be available to the public upon request. All nonhealth-care boards shall have on file the written and specified decisions and sanctions entered by the board and shall be available to the public upon request.

7. Establish the procedures by which licensees shall report those acts or omissions specified by the board pursuant to subsection 6;

Each nonhealth-care board shall have on file a copy of each decision of the board imposing licensee discipline which copy shall be properly dated and shall be in simple language and in the most concise form consistent with clearness and comprehensiveness of subject matter.

272C.6 Hearings — power of subpoena — decisions.

1. Disciplinary hearings held pursuant to this chapter shall be heard by the board sitting as the hearing panel, or by a panel of not less than three board members who are licensed in the profession, or by a panel of not less than three members appointed pursuant to subsection 2. Notwithstanding chapters 17A and 21 a disciplinary hearing shall be open to the public at the discretion of the licensee.

2. When, in the opinion of a majority of the board, it is desirable to obtain specialists within an area of practice of a profession when holding disciplinary hearings, a licensing board may appoint licensees not having a conflict of interest to make findings of fact and to report to the board. Such findings shall not include any recommendation for or against licensee discipline.

3. The presiding officer of a hearing panel may issue subpoenas pursuant to rules of the board on behalf of the board or on behalf of the licensee. A licensee may have subpoenas issued on the licensee's behalf. A subpoena issued under the authority

of a licensing board may compel the attendance of witnesses and the production of professional records, books, papers, correspondence and other records, whether or not privileged or confidential under law, which are deemed necessary as evidence in connection with a disciplinary proceeding.

Nothing in this subsection shall be deemed to enable a licensing board to compel an attorney of the licensee, or stenographer or confidential clerk of the attorney, to disclose any information when privileged against disclosure by section 622.10. In the event of a refusal to obey a subpoena, the licensing board may petition the district court for its enforcement. Upon proper showing, the district court shall order the person to obey the subpoena, and if the person fails to obey the order of the court the person may be found guilty of contempt of court. The presiding officer of a hearing panel may also administer oaths and affirmations, take or order that depositions be taken, and pursuant to rules of the board, grant immunity to a witness from disciplinary proceedings initiated either by the board or by other state agencies which might otherwise result from the testimony to be given by the witness to the panel.

4. In order to assure a free flow of information for accomplishing the purposes of this section, and notwithstanding section 622.10, all complaint files, investigation files, other investigation reports, and other investigative information in the possession of a licensing board or peer review committee acting under the authority of a licensing board or its employees or agents which relates to licensee discipline are privileged and confidential, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the licensee and the boards, their employees and agents involved in licensee discipline, and are not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. However, investigative information in the possession of a licensing board or its employees or agents which relates to licensee discipline may be disclosed to appropriate licensing authorities within this state, the appropriate licensing authority in another state, the coordinated licensure information system provided for in the nurse licensure compact contained in section 152E.1, the District of Columbia, or a territory or country in which the licensee is licensed or has applied for a license. If the investigative information in the possession of a licensing board or its employees or agents indicates a crime has been committed, the information shall be reported to the proper law enforcement agency. However, a final written decision and finding of fact of a licensing board in a disciplinary proceeding, including a decision referred to in section 272C.3, subsection 4, is a public record.

Pursuant to the provisions of section 17A.19, subsection 6, a licensing board upon an appeal by the licensee of the decision by the licensing board,

shall transmit the entire record of the contested case to the reviewing court.

Notwithstanding the provisions of section 17A.19, subsection 6, if a waiver of privilege has been involuntary and evidence has been received at a disciplinary hearing, the court shall order withheld the identity of the individual whose privilege was waived.

5. Licensee discipline shall not be imposed except upon the affirmative vote of a majority of the licensing board.

6. A board created pursuant to chapter 147, 154A, 155, 169, 542B, 542C, 543B, 543D, 544A, or 544B may charge a fee not to exceed seventy-five dollars for conducting a disciplinary hearing pursuant to this chapter which results in disciplinary action taken against the licensee by the board, and in addition to the fee, may recover from a licensee the costs for the following procedures and associated personnel:

- a. Transcript.
- b. Witness fees and expenses.
- c. Depositions.
- d. Medical examination fees incurred relating to a person licensed under chapter 147, 154A, 155, or 169.

The department of agriculture and land stewardship, the department of commerce, and the Iowa department of public health shall each adopt rules pursuant to chapter 17A which provide for the allocation of fees and costs collected pursuant to this section to the board under its jurisdiction collecting the fees and costs. The fees and costs shall be considered repayment receipts as defined in section 8.2.

272C.7 Executive secretary and personnel.

1. As an alternative to authority contained elsewhere in this chapter, a licensing board may employ within the limits of available funds an executive secretary, one or more inspectors, and such clerical personnel as may be necessary for the administration of the duties of the board. Employees of the board shall be employed subject to chapter 19A. The qualifications of the executive secretary shall be determined by the board.

2. All employees of a licensing board shall be reimbursed subject to the rules of the director of revenue and finance for their expenses incurred in the performance of official duties. All reimbursements shall constitute costs of sustaining the board.

3. Licensees appointed to serve on a hearing panel pursuant to section 272C.6, subsection 2, shall be compensated at the rate specified in section 7E.6 for each day of actual duty, and shall be

reimbursed for actual expenses reasonably incurred in the performance of duties.

272C.8 Immunities.

1. A person shall not be civilly liable as a result of the person's acts, omissions or decisions in good faith as a member of a licensing board or as an employee or agent in connection with the person's duties.

2. A person shall not be civilly liable as a result of filing a report or complaint with a licensing board or peer review committee, or for the disclosure to a licensing board or its agents or employees, whether or not pursuant to a subpoena of records, documents, testimony or other forms of information which constitute privileged matter concerning a recipient of health care services or some other person, in connection with proceedings of a peer review committee, or in connection with duties of a health care board. However, such immunity from civil liability shall not apply if such act is done with malice.

3. A person shall not be dismissed from employment, and shall not be discriminated against by an employer because the person filed a complaint with a licensing board or peer review committee, or because the person participated as a member, agent or employee of a licensing board or peer review committee, or presented testimony or other evidence to a licensing board or peer review committee.

Any employer who violates the terms of this section shall be liable to any person aggrieved for actual and punitive damages plus reasonable attorney fees.

272C.9 Duties of licensees.

1. Each licensee of a licensing board, as a condition of licensure, is under a duty to submit to a physical or mental examination when directed in writing by the board for cause. All objections shall be waived as to the admissibility of the examining physician's testimony or reports on the grounds of privileged communications. The medical testimony or report shall not be used against the licensee in any proceeding other than one relating to licensee discipline by the board, or one commenced in district court for revocation of the licensee's privileges. The licensing board, upon probable cause, shall have the authority to order physical or mental examination, and upon refusal of the licensee to submit to the examination the licensing board may order that the allegations pursuant to

which the order of physical or mental examination was made shall be taken to be established.

2. A licensee has a continuing duty to report to the licensing board by whom the person is licensed those acts or omissions specified by rule of the board pursuant to section 272C.4, subsection 6, when committed by another person licensed by the same licensing board. This subsection does not apply to licensees under chapter 542C when the observations are a result of participation in programs of practice review, peer review and quality review conducted by professional organizations of certified public accountants, for educational purposes and approved by the accountancy examining board.

3. A licensee shall have a continuing duty and obligation, as a condition of licensure, to report to the licensing board by which the licensee is licensed every adverse judgment in a professional or occupational malpractice action to which the licensee is a party, and every settlement of a claim against the licensee alleging malpractice.

4. A licensee who willfully fails to comply with subsection 2 or 3 of this section commits a violation of this chapter for which licensee discipline may be imposed.

273.1 Intent.

It is the intent of the general assembly to provide an effective, efficient, and economical means of identifying and serving children from under five years of age through grade twelve who require special education and any other children requiring special education as defined in section 256B.2; to provide for media services and other programs and services for pupils in grades kindergarten through twelve and children requiring special education as defined in section 256B.2; to provide a method of financing the programs and services; and to avoid a duplication of programs and services provided by any other school corporation in the state; and to provide services to school districts under a contract with those school districts.

[C75, 77, 79, 81, §273.1]

87 Acts, ch 224, §44

273.2 Area education agencies established — powers — services and programs.

1. There are established throughout the state fifteen area education agencies, each of which is governed by an area education agency board of directors. The boundaries of an area education agency shall not divide a school district. The director of the department of education shall change boundaries of area education agencies to take into account mergers of local school districts and changes in boundaries of local school districts, when necessary to maintain the policy of this chapter that a local school district shall not be a part of more than one area education agency.

2. An area education agency established under this chapter is a body politic as a school corporation for the purpose of exercising powers granted under this chapter, and may sue and be

sued. An area education agency may hold property and execute lease-purchase agreements pursuant to section 273.3, subsection 7, and if the lease exceeds ten years or the purchase price of the property to be acquired pursuant to a lease-purchase agreement exceeds twenty-five thousand dollars, the area education agency shall conduct a public hearing on the proposed lease-purchase agreement and receive approval from the area education agency board of directors and the director of the department of education before entering into the agreement.

3. The area education agency board shall furnish educational services and programs as provided in sections 273.1 to 273.9 and chapter 256B to the pupils enrolled in public or nonpublic schools located within its boundaries which are on the list of accredited schools pursuant to section 256.11. The programs and services provided shall be at least commensurate with programs and services existing on July 1, 1974. The programs and services provided to pupils enrolled in nonpublic schools shall be comparable to programs and services provided to pupils enrolled in public schools within constitutional guidelines.

4. The area education agency board shall provide for special education services and media services for the local school districts in the area and shall encourage and assist school districts in the area to establish programs for gifted and talented children.

5. The area education agency board may provide for the following programs and services to local school districts, and at the request of local school districts to providers of child development services who have received grants under chapter 256A from the child development coordinating council, within the limits of funds available:

a. In-service training programs for employees of school districts and area education agencies, provided at the time programs and services are established they do not duplicate programs and services available in that area from the universities under the state board of regents and from other universities and four-year institutions of higher education in Iowa. The in-service training programs shall include but are not limited to regular training concerning mental or emotional disorders which may afflict children and the impact children with such disorders have upon their families.

b. Educational data processing pursuant to section 256.9, subsection 11.

c. Research, demonstration projects and models, and educational planning for children under five years of age through grade twelve and children requiring special education as defined in section 256B.2 as approved by the state board of education.

d. Auxiliary services for nonpublic school pupils as provided in section 256.12. However, if auxiliary services are provided their funding shall be based on the type of service provided.

e. Other educational programs and services for children under five years through grade twelve and children requiring special education as defined in section 256B.2 and for employees of school districts and area education agencies as approved by the state board of education.

6. The board of directors of an area education agency shall not establish programs and services which duplicate programs and services which are or may be provided by the community colleges under the provisions of chapter 260C. An area education agency shall contract, whenever practicable, with other school corporations for the use of personnel, buildings, facilities, supplies, equipment, programs, and services.

273.3 Duties and powers of area education agency board.

The board in carrying out the provisions of section 273.2 shall:

1. Determine the policies of the area education agency for providing programs and services.

2. Be authorized to receive and expend money for providing programs and services as provided in sections 273.1 to 273.9, and chapters 256B and 257. All costs incurred in providing the programs and services, including administrative costs, shall be paid from funds received pursuant to sections 273.1 to 273.9 and chapters 256B and 257.

3. Provide data and prepare reports as directed by the director of the department of education.

4. Provide for advisory committees as deemed necessary.

5. Be authorized, subject to rules of the state board of education, to provide directly or by contractual arrangement with public or private agencies for special education programs and services, media services, and educational programs and services requested by the local boards of education as provided in this chapter, including but not limited to contracts for the area education agency to provide programs or services to the local school districts and contracts for local school districts, other educational agencies, and public and private agencies to provide programs and services to the local school districts in the area education agency in lieu of the area education agency providing the services. Contracts may be made with public or private agencies located outside the state if the programs and services comply with the rules of the state board. Rules adopted by the state board of education shall be consistent with rules, adopted by the board of educational examiners, relating to licensing of practitioners.

6. Area education agencies may cooperate and contract between themselves and with other public agencies to provide special education programs and services, media services, and educational services to schools and children residing within their respective areas. Area education agencies may provide print and nonprint materials to public and private colleges and universities that have teacher education programs approved by the state board of education.

7. Be authorized to lease, subject to the approval of the director of the department of education and to receive by gift and operate and maintain facilities and buildings necessary to provide authorized programs and services. However, a lease for less than ten years and with an annual cost of less than twenty-five thousand dollars does not require the approval of the director. If a lease requires approval, the director shall not approve the lease until the director is satisfied by investigation that public school corporations within the area do not have suitable facilities available.

8. Be authorized, subject to the approval of the director of the department of education, to enter into agreements for the joint use of personnel, buildings, facilities, supplies, and equipment with school corporations as deemed necessary to provide authorized programs and services.

9. Be authorized to make application for, accept, and expend state and federal funds that are available for programs of educational benefit approved by the director of the department of education, and cooperate with the department in the manner provided in federal-state plans or department rules in the effectuation and administration of programs approved by the director, or approved

by other educational agencies, which agencies have been approved as state educational authorities.

10. Be authorized to perform all other acts necessary to carry out the provisions and intent of this chapter.

11. Employ personnel to carry out the functions of the area education agency which shall include the employment of an administrator who shall possess a license issued under chapter 272. The administrator shall be employed pursuant to section 279.20 and sections 279.23, 279.24 and 279.25. The salary for an area education agency administrator shall be established by the board based upon the previous experience and education of the administrator. Section 279.13 applies to the area education agency board and to all teachers employed by the area education agency. Sections 279.23, 279.24 and 279.25 apply to the area education board and to all administrators employed by the area education agency.

12. Prepare an annual budget estimating income and expenditures for programs and services as provided in sections 273.1 to 273.9 and chapter 256B within the limits of funds provided under section 256B.9 and chapter 257. The board shall give notice of a public hearing on the proposed budget by publication in an official county newspaper in each county in the territory of the area education agency in which the principal place of business of a school district that is a part of the area education agency is located. The notice shall specify the date, which shall be not later than March 1 of each year, the time, and the location of the public hearing. The proposed budget as approved by the board shall then be submitted to the state board of education, on forms provided by the department, no later than March 15 preceding the next fiscal year for approval. The state board shall review the proposed budget of each area education agency and shall before April 1, either grant approval or return the budget without approval with comments of the state board included. An unapproved budget shall be resubmitted to the state board for final approval not later than April 15. For the fiscal year beginning July 1, 1999, and each succeeding fiscal year, the state board shall give final approval only to budgets submitted by area education agencies accredited by the state board or that have been given conditional accreditation by the state board.

13. Be authorized to pay, out of funds available to the board reasonable annual dues to an Iowa association of school boards. Membership shall be limited to those duly elected members of the area education agency board.

14. At the request of an employee through contractual agreement the board may purchase group or individual annuity contracts for employees, which annuity contracts are issued by a nonprofit corporation issuing retirement annuities exclu-

sively for educational institutions and their employees or are purchased from any company the employee chooses that is authorized to do business in this state or through an Iowa-licensed salesperson that the employee selects, on a group or individual basis, for retirement or other purposes. The board may make payroll deductions for the purpose of paying the entire premium due, and to become due, in accordance with the terms of the contract. The deductions shall be made in the manner which will qualify the annuity premiums for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. The employee's rights under the annuity contract are nonforfeitable except for the failure to pay premiums. As used in this section, unless the context otherwise requires, "annuity contract" includes any custodial account which meets the requirements of section 403(b)(7) of the Internal Revenue Code, as defined in section 422.3.

15. Be authorized to establish and pay all or any part of the cost of group health insurance plans, nonprofit group medical service plans and group life insurance plans adopted by the board for the benefit of employees of the area education agency, from funds available to the board.

16. Meet at least annually with the members of the boards of directors of the merged areas in which the area education agency is located to discuss co-ordination of programs and services and other matters of mutual interest to the boards.

17. Be authorized to issue warrants and anticipatory warrants pursuant to chapter 74. The applicable rate of interest shall be determined pursuant to sections 74A.2, 74A.3, and 74A.7. This subsection shall not be construed to authorize a board to levy a tax.

18. Be authorized to issue school credit cards allowing area education agency employees to pay for the actual and necessary expenses incurred in the performance of work-related duties.

19. Pursuant to rules adopted by the state board of education, be authorized to charge user fees for certain materials and services that are not required by law or by rules of the state board of education and are specifically requested by a school district or accredited nonpublic school.

20. Be authorized to purchase equipment as provided in section 279.48.

21. Be authorized to sell, lease, or dispose of, in whole or in part, property belonging to the area education agency. However, the area education agency administrator shall not accept a petition if any of the school districts affected have approved the issuance of general obligation bonds at an election pursuant to section 296.6 during the preceding six-month period. The petition shall be signed by registered voters in each existing school district or portion affected equal in number to at least twenty percent of the number of registered voters or four hundred registered voters, whichever is the smaller number.

2. The petition filed under subsection 1 shall also state the name of the proposed school district and the number of directors which may be either five or seven and the method of election of the school directors of the proposed district. The method of election of the directors shall be one of the following optional plans:

a. Election at large from the entire district by the electors of the entire district.

b. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which director districts shall be represented on the school board by one or more directors who shall be residents of the director district but

who shall be elected by the vote of the electors of the entire school district. The boundaries of the director districts and the area and population included within each district shall be such as justice, equity, and the interests of the people may require. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election. Insofar as may be practicable, the boundaries of the districts shall follow established political or natural geographical divisions.

c. Election of not more than one-half of the total number of school directors at large from the entire district and the remaining directors from and as residents of designated single-member or multi-member director districts into which the entire school district shall be divided on the basis of population for each director. In such case, all directors shall be elected by the electors of the entire school district. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election.

d. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which director districts shall be represented on the school board by one or more directors who shall be residents of the director district and who shall be elected by the voters of the director district. Place of voting in the director districts shall be designated by the commissioner of elections. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the annual school election.

e. In districts having seven directors, election of three directors at large by the electors of the entire district, one at each annual school election, and election of the remaining directors as residents of and by the electors of individual geographic subdistricts established on the basis of population and identified as director districts. Boundaries of the subdistricts shall follow precinct boundaries, insofar as practicable, and shall not be changed less than sixty days prior to the annual school election.

3. If the petition proposes the division of the school district into director districts, the boundaries of the proposed director districts shall be described in the petition and shall be drawn according to the standards described in section 275.23A, subsection 1.

4. The area education agency board in reviewing the petition as provided in sections 275.15 and 275.16 shall review the proposed method of election of school directors and may change or amend the plan in any manner, including the changing of boundaries of director districts if proposed, or to specify a different method of electing school directors as may be required by law, justice, equity, and

the interest of the people. In the action, the area education agency board shall follow the same procedure as is required by sections 275.15 and 275.16 for other action on the petition by the area education agency board. The area education agency shall ascertain that director district boundary lines comply with the provisions of section 275.23A, subsection 1, and shall make adjustments as necessary.

5. The petition may also include a provision that the voter-approved physical plant and equipment levy provided in section 298.2 will be voted upon at the election conducted under section 275.18.

Within ten days after the petition is filed, the area education agency administrator shall fix a final date for filing objections to the petition which shall be not more than sixty days after the petition is filed and shall fix the date for a hearing on the objections to the petition. Objections shall be filed in the office of the administrator who shall give notice at least ten days prior to the final day for filing objections, by one publication in a newspaper published within the territory described in the petition, or if none is published in the territory, in a newspaper published in the county where the petition is filed, and of general circulation in the territory described. The notice shall also list the date, time, and location for the hearing on the petition as provided in section 275.15. The cost of publica-

The area education agency board, when entering the order fixing the boundaries, shall consider all available evidence including, but not limited to, information presented by the petitioners, all objections requesting territory exclusion, reorganization studies and plans, geographical patterns evidenced by students using open enrollment to attend school in another district pursuant to section 282.18, potential travel distances required of students, and geographic configuration of the proposed district. The exclusion of territory shall represent a balance between the rights of the objectors and the welfare of the reorganized district.

If the petition is not dismissed and the board determines that additional information is required in order to fix boundary lines of the proposed school corporation, the board may continue the hearing for no more than thirty days. The date of the continued hearing shall be announced at the original meeting. Additional objections in the form required in section 275.14 may be considered if filed with the administrator within five days, not including Saturdays, Sundays, or holidays, after the date of the original board hearing. If the territory described in the petition for the proposed corporation lies in more than one area education agency, the agency administrator with whom the petition is filed shall fix the time and place for a hearing and call a joint meeting of the members of all the agency boards in which territory of the proposed school corporation lies, to act as a single board for the hearing of the objections, and a majority of members of each of the agency boards of the different agencies in which any part of the proposed corporation lies, constitutes a quorum. The president of the board of directors of the area education agency in which the petition has been filed, or a member of the board designated by the president, shall preside at the joint meeting. The joint boards acting as a single board shall determine whether the petition conforms to plans or, if the petition requests a change in plans, whether a change should be made, and may change the plans of any or all the area education agency boards affected by the petition. The joint board shall determine and fix boundaries for the proposed corporation as provided in section 275.15 or dismiss the petition. The joint board may continue the hearing as provided in section 275.15.

Votes of each member of an area education agency board in attendance shall be weighted so that the total number of votes eligible to be cast by members of each board in attendance shall be equal. However, if the joint boards cast a tie vote and are unable to agree to a decision fixing the boundaries for the proposed school corporation or to a decision to dismiss the petition, the time during which actions must be taken under section 275.15 shall be extended from ten days to fifteen days after the conclusion of the hearing under section 275.15, and the joint board shall reconvene not less than ten and not more than fifteen days after the conclusion of the hearing. At the hearing the joint board shall reconsider its action and if a tie vote is again cast it is a decision granting the petition and changing the plans of any and all of the agency boards affected by the petition and fixing the boundaries for the proposed school corporation. The agency administrator shall at once publish the decision in the same newspaper in which the original notice was published.

In case a controversy arises from such meeting, the area education agency board or boards or any school district aggrieved may bring the controversy to the department of education, as provided in section 275.8, within twenty days from the publication of this order, and if said controversy is taken to the department of education, a ten-day notice in writing shall be given to all agency boards and school districts affected or portions thereof. The department shall have the authority to affirm the action of the joint boards, to vacate, to dismiss all proceedings or to make such modification of the action of the joint boards as in their judgment would serve the best interest of all the agencies. Judicial review of the actions of the department may be sought in accordance with the terms of the Iowa administrative procedure Act. Notwithstanding the terms of said Act, petitions for judicial review must be filed within thirty days after the decision of the department of education.

275.18 Special election called — time.

When the boundaries of the territory to be included in a proposed school corporation and the number and method of the election of the school di-

rectors of the proposed school corporation have been determined as provided in this chapter, the area education agency administrator with whom the petition is filed shall give written notice of the proposed date of the election to the county commissioner of elections of the county in the proposed school corporation which has the greatest taxable base. The publication shall be not less than four nor more than twenty days prior to the election. If the decision published pursuant to section 275.15 or 275.16 includes a description of the proposed school corporation and a description of the director districts, if any, the notice for election and the ballot do not need to include these descriptions. Notice for an election shall not be published until the expiration of time for appeal, which shall be the same as that provided in section 275.15 or 275.16, whichever is applicable; and if there is an appeal, not until the appeal has been disposed of.

The area education agency administrator shall furnish to the commissioner a map of the proposed reorganized area which must be approved by the commissioner as suitable for posting. The map shall be displayed prominently in at least four places within the voting precinct, and inside each voting booth, or on the left-hand side inside the curtain of each voting machine.

275.23A Redistricting following federal decennial census.

1. School districts which have directors who represent director districts as provided in section 275.12, subsection 2, paragraphs "b", "c", "d", and

“e”, shall be divided into director districts according to the following standards:

a. All director district boundaries shall follow the boundaries of areas for which official population figures are available from the most recent federal decennial census and, wherever possible, shall follow precinct boundaries.

b. To the extent possible in order to comply with paragraph “a”, all director districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the school district.

c. All districts shall be composed of contiguous territory as compact as practicable unless the school district is composed of marginally adjacent territory. A school district which is composed of marginally adjacent territory shall have director districts composed of contiguous territory to the extent practicable.

d. Consideration shall not be given to the addresses of incumbent officeholders, political affiliations of registered voters, previous election results, or demographic information other than population head counts, except as required by the Constitution and the laws of the United States.

e. Cities shall not be divided into two or more districts unless the population of the city is greater than the ideal size of a director district. Cities shall be divided into the smallest number of director districts possible.

2. Following each federal decennial census the school board shall determine whether the existing director district boundaries meet the standards in subsection 1 according to the most recent federal decennial census. If necessary, the board of directors shall redraw the director district boundaries. The director district boundaries shall be described in a resolution adopted by the school board. The resolution shall be adopted no earlier than November 15 of the year immediately following the year in which the federal decennial census is taken nor later than April 30 of the second year immediately following the year in which the federal decennial census is taken. A copy of the plan shall be filed with the area education agency administrator of the area education agency in which the school’s electors reside.

3. The school board shall notify the state commissioner of elections and the county commissioner of elections of each county in which a portion of the school district is located when the boundaries of director districts are changed. The notices of changes submitted to the state commissioner shall be postmarked no later than the deadline for adoption of the resolution under subsection 2. The board shall provide the commissioners with maps showing the new boundaries and shall also certify to the state commissioner the populations of the new director districts as determined under the latest federal decennial census. If, following a federal decennial census a school district elects not to

redraw director districts under this section, the school board shall so certify to the state commissioner of elections, and the school board shall also certify to the state commissioner the populations of the retained director districts as determined under the latest federal decennial census. If the state commissioner determines that a district board has failed to make the required changes by the dates specified by this section, the state commissioner of elections shall make or cause to be made the necessary changes as soon as possible. The state commissioner shall assess any expenses incurred to the school district. The state commissioner of elections may request the services of personnel of and materials available to the legislative service bureau to assist the state commissioner in making any required boundary changes.

4. If more than one incumbent director resides in a redrawn director district, the terms of office of the affected directors expire at the organizational meeting of the board of directors following the next regular school election following the adoption of the redrawn districts.

5. The boundary changes under this section take effect July 1 following their adoption for the next regular school election.

When a school district is enlarged, reorganized, or changes its boundary pursuant to sections 275.12 to 275.22, the change shall take effect on July 1 following the date of the reorganization election held pursuant to section 275.18 if the election was held by the prior November 30. Otherwise the change shall take effect on July 1 one year later.

275.25 Election of directors.

1. If the proposition to establish a new school district carries under the method provided in this chapter, the area education agency administrator with whom the petition was filed shall give written notice of a proposed date for a special election for directors of the newly formed school district to the commissioner of elections of the county in the district involved in the reorganization which has the greatest taxable base. The proposed date shall be as soon as possible pursuant to section 39.2, subsections 1 and 2, and section 47.6, subsections 1 and 2, but not later than the third Tuesday in January of the calendar year in which the reorganization takes effect. The election shall be conducted as provided in section 277.3, and nomination petitions shall be filed pursuant to section 277.4, ex-

cept as otherwise provided in this subsection. Nomination petitions shall be filed with the secretary of the board of the existing school district in which the candidate resides, signed by not less than ten eligible electors of the newly formed district, and filed not less than twenty-eight days before the date set for the special school election. The school secretary, or the secretary's designee, shall be present in the secretary's office until five p.m. on the final day to file the nomination papers. The nomination papers shall be delivered to the commissioner no later than five p.m. on the twenty-seventh day before the election.

If the special election is held in conjunction with the regular school election, the filing deadlines for the regular school election apply.

2. The number of directors of a school district is either five or seven as provided in section 275.12. In school districts that include a city of fifteen thousand or more population as shown by the most recent decennial federal census, the board shall consist of seven members elected in the manner provided in subsection 3. If it becomes necessary to increase the membership of a board, two directors shall be added according to the procedure described in section 277.23.

The county board of supervisors shall canvass the votes and the county commissioner of elections shall report the results to the area education agency administrator who shall notify the persons who are elected directors.

3. The directors who are elected and qualify to serve shall serve until their successors are elected and qualify. At the special election, the newly elected director receiving the most votes shall be elected to serve until the director's successor qualifies after the fourth regular school election date occurring after the effective date of the reorganization; the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors' successors qualify after the third regular school election date occurring after the effective date of the reorganization; and the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors' successors qualify after the second regular school election date occurring after the effective date of the reorganization. However, in districts that include all or a part of a city of fifteen thousand or more population and in districts in which the proposition to establish a new corporation provides for the election of seven directors, the three newly elected directors receiving the most votes shall be elected to serve until the directors' successors qualify after the fourth regular school election date occurring after the effective date of the reorganization.

4. The board of the newly formed district shall organize within fifteen days after the special election upon the call of the area education agency administrator. The new board shall have control of

the employment of personnel for the newly formed district for the next following school year under section 275.33. Following the first organizational meeting of the board of the newly formed district, the board may establish policy, organize curriculum, enter into contracts, complete planning, and take action as necessary for the efficient management of the newly formed community school district.

5. Section 49.8, subsection 4 does not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director's residence outside the boundaries of the district. Vacancies caused by this occurrence on a board shall be filled in the manner provided in sections 279.6 and 279.7.

6. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provisions of sections 279.20, 279.23, and 279.24.

If a district is established or changes its boundaries it shall pay all expenses incurred by the area education agency administrator and the area education agency board in connection with the proceedings. The county commissioner of elections shall assess the costs of the election against the district as provided in section 47.3. If the proposition is dismissed or defeated at the election all expenses shall be apportioned among the several districts in proportion to the assessed valuation of property therein.

If the proposed district or boundary change embraces territory in more than one area education agency such expenses shall be certified to and, if necessary, apportioned among the several districts by the joint agency board. If in only one agency the certification shall be made by the agency administrator.

The respective boards to which such expenses are certified shall audit and order the same paid from the general fund. In the event of failure of any board to so audit and pay the expenses certified to it, the area education agency administrator shall certify the expenses to the county auditor in the same manner as is provided for tuition claims in section 282.21 and the funds shall be transferred by the county treasurer from the debtor dis-

trict to the agency board for payment of said expenses.

275.27 Community school districts — part of area education agency.

School districts created or enlarged under this chapter are community school districts and are part of the area education agency in which the greatest number of registered voters of the district reside at the time of the special election called for in section 275.18, and sections of the Code applicable to the common schools generally are applicable to these districts in addition to the powers and privileges conferred by this chapter. If a school district, created or enlarged under this chapter and assigned to an area education agency under this section, can demonstrate that students in the district were utilizing a service or program prior to the formation of the new or enlarged district that is unavailable from the area education agency to which the new or enlarged district is assigned, the district may be reassigned to the area education agency which formerly provided the service or program, upon an affirmative majority vote of the boards of the affected area education agencies to permit the change.

Between July 1 and July 20, the board of directors of the newly formed school district shall meet with the boards of the school districts affected by the organization of the new school corporation, including the boards of districts receiving territory of the school districts affected, for the purpose of reaching joint agreement on an equitable division of the assets of the several school corporations or

parts of school corporations and an equitable distribution of the liabilities of the affected corporations or parts of corporations. In addition, if outstanding bonds are in existence in any district, the initial board of directors of the newly formed school district shall meet with the boards of all school districts affected prior to April 15 prior to the school year the reorganization is effective to determine the distribution of the bonded indebtedness between the districts so that the newly formed district may certify its budget under the procedures specified in chapter 24. The boards shall consider the mandatory levy required in section 76.2 and shall assure the satisfaction of outstanding obligations of each affected school corporation. If the petition includes plans for the distribution of the bonded indebtedness, the exclusion of territory from the reorganized district does not require action pursuant to this section.

If the boards cannot agree on such division and distribution, the matters on which they differ shall be decided by disinterested arbitrators, one selected by the initial board of directors of the newly formed district, one by each of the boards of directors of the school districts affected, and one selected jointly by the boards of directors of contiguous districts receiving territory of the school district affected. If the number of arbitrators selected is even, a disinterested arbitrator shall be added by the area education agency administrator. The decision of the arbitrators shall be made in writing and filed with the secretary of the new corporation, and a party to the proceedings may appeal the decision to the district court by serving notice on the secretary of the new corporation within twenty days after the decision is filed. The appeal shall be tried in equity and a decree entered determining the entire matter, including the levy, collection, and distribution of any necessary taxes.

275.31 Taxes and appropriation to effect equalization.

If necessary to equalize the division and distribution, the board or boards may provide for the levy of additional taxes, which shall be sufficient to satisfy the mandatory levy required in section 76.2 or other liabilities of the districts, upon the property of a corporation or part of a corporation and for the distribution of the tax revenues so as to effect equalization. When the board or boards are considering the equalization levy, the division

and distribution shall not impair the security for outstanding obligations of each affected corporation. Any owner of bonds of an affected corporation may bring suit in equity for adjustment of the division and distribution in compliance with this section. If the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness for a newly formed community school district is greater than the property tax levy for the amount estimated and certified to apply on principal and interest in the year preceding the reorganization or dissolution for a school district that is a party to the reorganization or dissolution, that had a certified enrollment of less than six hundred for the year prior to the reorganization or dissolution, and that approved the reorganization or dissolution prior to July 1, 1989, the board of the newly formed district shall inform the department of management. The department of management shall pay debt service aid to the newly formed district in an amount that reduces the rate of the property tax levy for lawful bonded indebtedness in the portion of the newly formed district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization or dissolution.

For the school year beginning July 1, 1987, and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the debt service aid under this section. Debt service aid shall be paid in the manner provided in section 257.16.

Not later than May 1 of each year, the department of management shall inform the board of the newly formed school district the amount of debt service aid that the district will receive and the rate of the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness in the portion of the newly formed district where the new rate would have been higher, and for the remainder of the newly formed district. The department of management shall notify the county auditor of each applicable county of the amount, in dollars and cents per thousand dollars of assessed valuation, of the property tax levy in each portion of each applicable newly formed school district in the county for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness, and the boundaries of the portions within the newly formed district for which the levies shall be made. The county auditor shall spread the applicable property tax levy for each portion of a school district over all taxable property in that portion of the district.

275.33 Contracts of new district.

1. The terms of employment of superintendents, principals, and teachers, for the school year following the effective date of the formation of the new district shall not be affected by the formation of the new district, except in accordance with the provisions of sections 279.15 to 279.18 and 279.24 and the authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to sections 279.12, 279.13, 279.15 to 279.21, 279.23, and 279.24 for the school year beginning with the effective date of the reorganization shall be transferred from the boards of the existing districts to the board of the new district on the third Tuesday of January prior to the school year the reorganization is effective.

2. The collective bargaining agreement of the district with the largest basic enrollment for the year prior to the reorganization, as defined in section 257.6, in the new district shall serve as the base agreement and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the districts which are party to the reorganization, then that agreement shall serve as the base agreement, and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. The board of the newly formed district, using the base agreement as its existing contract, shall bargain with the combined employees of the existing districts for the school year beginning with the effective date of the reorganization. The bargaining shall be completed by the dates specified in section 20.17 prior to the school year in which the reorganization becomes effective or within one hundred eighty days after the organization of the new board, whichever is later. If a bargaining agreement was already concluded by the board and employees of the existing district with the contract serving as the base agreement for the school year beginning with the effective date of the reorganization, that agreement shall be void. However, if the base agreement contains multiyear provisions affecting school years subsequent to the effective date of the reorganization,

If the plan adopted is that described in section 275.12, subsection 2, paragraph "b," "c," "d," or "e," the board shall at the earliest practicable time designate the districts from which residents are to be elected as school directors at each of the next three succeeding annual school elections, arranging so far as possible for elections of directors as residents of the respective districts to coincide with the expiration of terms of incumbent members residing in those districts. If an increase in the size of the board from five to seven members is approved concurrently with the change in method of election of directors, the board shall make the necessary adjustment in the manner prescribed in section 275.37, as well as providing for implementation of the districting plan under this section.

275.41 Alternative method for director elections — temporary appointments.

1. As an alternative to the method specified in section 275.25 for electing directors in a newly formed community school district, the procedure

specified in this section may be used and if used, the petition filed under section 275.12 shall state the number of directors on the initial board. If two districts are named in the petition, either five or seven directors shall serve on the initial board. If three or more districts are named in the petition, either seven or nine directors shall serve on the initial board. The petition shall specify the number of directors to be retained from each district, and those numbers shall be proportionate to the populations of the districts. If the exclusion of territory from a reorganization affects the proportionate balance of directors among the affected districts specified in the petition, or if the proposal specified in the petition does not comply with the requirement for proportionate representation, the area education board shall modify the proposal. However, all districts affected shall retain at least one member.

2. Prior to the organization meeting of the newly formed district, the boards of the former districts shall designate directors to be retained as members to serve on the initial board, and if the total number of directors determined under subsection 1 is an even number, that number of directors shall function and may within five days of the organizational meeting appoint one additional director by unanimous vote with all directors voting. Otherwise, the board shall function until a special election can be held to elect an additional director. The procedure for calling the special election shall be the procedure specified in section 275.25. If there is an insufficient number of board members eligible to be retained from a former school district, the board of the former school district may appoint members to fill the vacancies. A vacancy occurs if there is an insufficient number of former board members who reside in the newly formed district or if there is an insufficient number who are willing to serve on the board of the newly formed district.

3. Prior to the effective date of the reorganization, the initial board shall approve a plan that commences at the second regular school election held after the effective date of the merger and is completed at the fourth regular school election held after the effective date of the merger, to replace the initial board with the regular board. If the petition specifies a number of directors on the regular board to be different from the number of directors on the initial board, the plan shall provide that the number specified in the petition for the regular board is in place by the time the regular board is formed. The plan shall provide that as nearly as possible one-third of the members of the board shall be elected each year, and if a special election was held to elect a member to create an odd number of members on the board, the term of that member shall end at the organizational meeting following the fourth regular school election held after the effective date.

4. The board of the newly formed district shall organize within forty-five days after the approval of the merger upon the call of the area education agency administrator. The new board shall have control of the employment of all personnel for the newly formed district for the ensuing school year. Following the organization of the new board the board shall have authority to establish policy, organize curriculum, enter into contracts and complete such planning and take such action as is essential for the efficient management of the newly formed community school district.

5. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provision of sections 279.20, 279.23, and 279.24.

Section 49.8, subsection 4, shall not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director's residence outside the boundaries of the district. Vacancies so caused on any board shall be filled in the manner provided in sections 279.6 and 279.7.

DISSOLUTION OF DISTRICTS

275.51 Dissolution commission.

As an alternative to school district reorganization prescribed in this chapter, the board of directors of a school district may establish a school district dissolution commission to prepare a proposal of dissolution of the school district and attachment of all of the school district to one or more contiguous school districts and to include in the proposal a division of the assets and liabilities of the dissolving school district. A school district dissolution commission shall be established by the board of directors of a school district if a dissolution proposal has been prepared by registered voters who reside within the district. The proposal must contain the names of the proposed members of the commission and be accompanied by a petition which has been signed by at least twenty percent of the registered voters.

The dissolution commission shall consist of seven members appointed by the board for a term of office ending either with a report to the board that no proposal can be approved or on the date of the election on the proposal. Members of the dissolution commission must be eligible electors who reside in the school district, not more than three of whom may be members of the board of directors of the school district. Members shall be appointed

from throughout the school district and should represent the various socioeconomic factors present in the school district.

Members of the dissolution commission shall serve without compensation and may be appointed to a subsequent commission. A vacancy on the commission shall be filled in the same manner as the original appointment was made.

The board of the school district shall certify to the area education agency board that a commission has been formed, the names and addresses of commission members, and that the commission members represent the various geographic areas and socioeconomic factors present in the district.

275.52 Meetings.

The commission shall hold an organizational meeting not more than fifteen days after its appointment and shall elect a chairperson and vice chairperson from its membership. Thereafter the commission may meet as often as deemed necessary upon the call of the chairperson or a majority of the commission members.

The commission shall request statements from contiguous school districts outlining each district's willingness to accept attachments of the affected school district to the contiguous districts and what conditions, if any, the contiguous school district recommends. The commission shall meet with boards of contiguous school districts and with residents of the affected school district to the extent possible in drawing up the dissolution proposal. The commission may seek assistance from the area education agency and the department of education.

[C81, §275.52]

275.53 Dissolution proposal.

The commission shall send a copy of its dissolution proposal or shall inform the board that it cannot agree upon a dissolution proposal not later than one year following the date of the organizational meeting of the commission. The commission shall also send a copy of the dissolution proposal by registered mail to the boards of directors of all school districts to which area of the affected school district will be attached. If the board of a district to which area of the affected school district will be attached objects to the attachment, within ten days following receipt of the dissolution proposal the board shall send its objections in writing to the commission. The commission may consider the objections and may modify the dissolution proposal. If the dissolution proposal is modified, the commission shall notify by registered mail the boards of directors of all school districts to which area of the affected school district will be attached.

If the commission cannot agree upon a dissolution proposal prior to the expiration of its term, the board may appoint a new commission.

[C81, §275.53]

275.54 Hearing.

Within ten days following the filing of the dissolution proposal with the board, the board shall fix a date for a hearing on the proposal which shall not be more than sixty days after the dissolution petition was filed with the board. The board shall publish notice of the date, time, and location of the hearing at least ten days prior to the date of the hearing by one publication in a newspaper in general circulation in the district. The notice shall include the content of the dissolution proposal. A person residing or owning land in the school district may present evidence and arguments at the hearing. The president of the board shall preside at the hearing. The board shall review testimony from the hearing and shall adopt or amend and adopt the dissolution proposal. The board shall notify by registered mail the boards of directors of all school districts to which area of the affected school district will be attached and the director of the department of education of the contents of the dissolution proposal adopted by the board. If the board of a district to which area of the affected school district will be attached objects to the attachment, that portion of the dissolution proposal will not be included in the proposal voted upon under section 275.55 and the director of the department of education shall attach the area to a contiguous school district. If the board of a district to which area of the affected school district will be attached objects to the division of assets and liabilities contained in the dissolution proposal, section 275.30 applies for the division of assets and liabilities to that district.

If a dissolution proposal adopted by a board contains provisions that ninety-five percent or more of the taxable valuation of the dissolving district would be assumed and attached to a single school district, the dissolving school district shall cease further proceedings to dissolve and shall comply with reorganization procedures specified in this chapter.

[C81, §275.54]

86 Acts, ch 1245, §1465

275.55 Election.

The board of the school district shall call a special election to be held not later than forty days following the date of the final hearing on the dissolution proposal. The special election may be held at the same time as the regular school election. The proposition submitted to the voters residing in the school district at the special election shall describe each separate area to be attached to a contiguous school district and shall name the school district to which it will be attached.

The board shall give written notice of the proposed date of the election to the county commissioner of elections. The proposed date shall be pursuant to section 39.2, subsections 1 and 2 and section 47.6, subsections 1 and 2. The county commissioner of elections shall give notice of the election by one publication in the same newspaper in which the previous notice was published about the hearing, which publication shall not be less than four nor more than twenty days prior to the election.

The proposition shall be adopted if a majority of the electors voting on the proposition approve its adoption.

The attachment is effective July 1 following its approval. If the dissolution proposal is for the dissolution of a school district with a certified enrollment of fewer than six hundred, the territory located in the school district that dissolved is eligible, if approved by the director of the department of education, for a reduction in the foundation property tax levy under section 257.3, subsection 1. If the director approves a reduction in the foundation property tax levy as provided in this section, the director shall notify the director of the department of management of the reduction.

The student under expulsion or suspension shall not be enrolled until the board of directors of the school district to which territory of the dissolved school district was attached approves, by majority vote, the enrollment of the student. Notwithstanding section 282.24, the district of residence of the student, determined in the dis-

If the board of directors determines that there is a need to hire additional employees, the board shall determine the nature and number of the necessary new positions. Individuals who were employees of the dissolved district may apply for the new positions. The board shall hire those applicants who were employees of the dissolved district whenever the applicant is licensed for the new position or, in the case of unlicensed personnel, is otherwise qualified. If two employees of the dissolved district apply for a single licensed position, the applicant who is best qualified in the opinion of the board shall be hired. The board is not required to hire applicants who were employees of the dissolved district if the district has been dissolved for one or more school years. Applicants who are re-employed under this section shall maintain in the re-employing district vacation, salary or alternatively placement on a salary schedule based on the employee's years of experience, sick leave, and completion of probationary status as defined by section 279.19.

277.4 Nominations required.

Nomination papers for all candidates for election to office in each school district shall be filed with the secretary of the school board not more than sixty-four days, nor less than forty days before the election. Nomination petitions shall be filed not later than five p.m. on the last day for filing. If the school board secretary is not readily

available during normal office hours, the secretary may designate a full-time employee of the school district who is ordinarily available to accept nomination papers under this section. On the final date for filing nomination papers the office of the school secretary shall remain open until five p.m.

Each candidate shall be nominated by petition. If the candidate is running for a seat in the district which is voted for at-large, the petition must be signed by at least ten eligible electors, or a number of eligible electors equal in number to not less than one percent of the registered voters of the school district, whichever is more. If the candidate is running for a seat which is voted for only by the voters of a director district, the petition must be signed by at least ten eligible electors of the director district or a number of eligible electors equal in number to not less than one percent of the registered voters in the director district, whichever is more. A petition filed under this section shall not be required to have more than one hundred signatures.

Signers of nomination petitions shall include their addresses and the date of signing, and must reside in the same director district as the candidate if directors are elected by the voters of a director district, rather than at-large. A person may sign nomination petitions for more than one candidate for the same office, and the signature is not invalid solely because the person signed nomination petitions for one or more other candidates for the office. The petition shall be filed with the affidavit of the candidate being nominated, stating the candidate's name, place of residence, that such person is a candidate and is eligible for the office the candidate seeks, and that if elected the candidate will qualify for the office. The affidavit shall also state that the candidate is aware that the candidate is disqualified from holding office if the candidate has been convicted of a felony or other infamous crime and the candidate's rights have not been restored by the governor or by the president of the United States.

The secretary of the school board shall accept the petition for filing if on its face it appears to have the requisite number of signatures and if it is timely filed. The secretary of the school board shall note upon each petition and affidavit accepted for filing the date and time that the petition was filed. The secretary of the school board shall deliver all nomination petitions, together with the complete text of any public measure being submitted by the board to the electorate, to the county commissioner of elections not later than five o'clock p.m. on the day following the last day on which nomination petitions can be filed.

Any person on whose behalf nomination petitions have been filed under this section may withdraw as a candidate by filing a signed statement to that effect with the secretary at any time prior

to five o'clock p.m. on the thirty-fifth day before the election.

The objection must be filed with the secretary of the school board at least thirty-five days before the day of the school election. When objections are filed notice shall forthwith be given to the candidate affected, addressed to the candidate's place of residence as given on the candidate's affidavit, stating that objections have been made to the legal sufficiency of the petition or to the eligibility of the candidate, and also stating the time and place the objections will be considered.

Objections shall be considered not later than two working days following the receipt of the objections by the president of the school board, the secretary of the school board, and one additional member of the school board chosen by ballot. 1. Direct a change of textbooks regularly adopted.
2. Direct the sale, lease, or other disposition of any schoolhouse or site or other property belonging to the corporation, and the application to be made of the proceeds thereof, provided, however, that nothing herein shall be construed to prevent the sale, lease, exchange, gift or grant and acceptance of any interest in real or other property by the board of directors without an election to the extent authorized in section 297.22.
3. Determine upon additional branches that shall be taught.
4. Instruct the board that school buildings may or may not be used for meetings of public interest.
5. Direct the transfer of any surplus in the debt service fund, physical plant and equipment levy fund, capital projects funds, or public education and recreation levy fund to the general fund.
6. Authorize the board to obtain, at the expense of the corporation, roads for proper access to its schoolhouses.

Before entering into a rental or lease-purchase

The board shall then invite bids thereon, by advertisement published once each week for two consecutive weeks, in a newspaper published in the county in which the building or buildings are to be located, and the rental or lease-purchase option contract shall be awarded to the lowest responsible bidder, but the board may reject any and all bids and advertise for new bids.

The board shall file a request for approval with the department not later than November 1 of the preceding school year. The request shall include a listing of the savings and goals to be attained under the innovative school year subject to rules adopted by the department under chapter 17A. The board may enter into an agreement pursuant to chapter 28E with another school district or an area education agency for the purpose of jointly procuring a group health insurance plan, nonprofit group hospital service plan, nonprofit

Within three days from receipt of the list of adjudicators, the parties shall select an adjudicator by alternately removing a name from the list until only one name remains. The person whose name remains shall be the adjudicator. The parties shall determine by lot which party shall remove the first name from the list submitted by the chairperson of the public employment relations board. The secretary of the board shall inform the chairperson of the public employee relations board of the name of the adjudicator selected.

If the teacher does not timely request an appeal to an adjudicator the decision, opinion, or conclusion of the board shall become final and binding.

Within thirty days after filing the notice of appeal, or within further time allowed by the adjudicator, the board shall transmit to the adjudicator the original or a certified copy of the entire record of the private hearing which may be the subject of the petition. By stipulation of the parties to review the proceedings, the record of the case may be shortened. The adjudicator may require or permit subsequent corrections or additions to the shortened record.

The record certified and filed by the board shall be the record upon which the appeal shall be heard and no additional evidence shall be heard by the adjudicator. In such appeal to the adjudicator, especially when considering the credibility of witnesses, the adjudicator shall give weight to the fact findings of the board; but shall not be bound by them.

Before the date set for hearing a petition for review of board action, which shall be within ten days after receipt of the record unless otherwise agreed or unless the adjudicator orders additional evidence be taken before the board, application may be made to the adjudicator for leave to present evidence in addition to that found in the record of the case. If it is shown to the adjudicator that the additional evidence is material and that there were good reasons for failure to present it in the private hearing before the board, the adjudicator may order that the additional evidence be taken before the board upon conditions determined by the adjudicator. The board may modify its findings and decision in the case by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions, with the adjudicator and mail copies of the new findings or decisions to the teacher.

The adjudicator may affirm board action or remand to the board for further proceedings. The adjudicator shall reverse, modify, or grant any appropriate relief from the board action if substantial rights of the teacher have been prejudiced because the board action is:

1. In violation of a board rule or policy or contract; or
2. Unsupported by a preponderance of the competent evidence in the record made before the board when that record is viewed as a whole; or
3. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

The adjudicator shall, within fifteen days after the hearing, make a decision and shall give a copy of the decision to the teacher and the secretary of the board. The decision of the adjudicator shall become the final and binding decision of the board unless either party within ten days notifies the secretary of the board that the decision is rejected. The board may reject the decision by majority vote, by roll call, in open meeting and entered into the minutes of the meeting. The board shall immediately notify the teacher of its decision by certified mail. The teacher may reject the adjudicator's decision by notifying the board's secretary in writing within ten days of the filing of such decision.

All costs of the adjudicator shall be shared equally by the teacher and the board.

[C77, 79, 81, §279.17]

279.18 Appeal by either party to court.

If either party rejects the adjudicator's decision, the rejecting party shall, within thirty days of the initial filing of such decision, appeal to the district court of the county in which the administrative office of the school district is located. The notice of appeal shall be immediately mailed by certified mail to the other party. The adjudicator shall transmit to the reviewing court the original or a certified copy of the entire record which may be the

subject of the petition. By stipulation of all parties to the review proceedings, the record of such a case may be shortened. A party unreasonably refusing to stipulate to limit the record may be taxed by the court for the additional cost. The court may require or permit subsequent corrections or additions to the shortened record.

In proceedings for judicial review of the adjudicator's decision, the court shall not hear any further evidence but shall hear the case upon the certified record. In such judicial review, especially when considering the credibility of witnesses, the court shall give weight to the fact findings of the board; but shall not be bound by them. The court may affirm the adjudicator's decision or remand to the adjudicator or the board for further proceedings upon conditions determined by the court. The court shall reverse, modify, or grant any other appropriate relief from the board decision or the adjudicator's decision equitable or legal and including declaratory relief if substantial rights of the petitioner have been prejudiced because the action is:

1. In violation of constitutional or statutory provisions; or
2. In excess of the statutory authority of the board or the adjudicator; or
3. In violation of a board rule or policy or contract; or
4. Made upon unlawful procedure; or
5. Affected by other error of law; or
6. Unsupported by a preponderance of the competent evidence in the record made before the board and the adjudicator when that record is viewed as a whole; or
7. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

An aggrieved or adversely affected party to the judicial review proceeding may obtain a review of any final judgment of the district court by appeal to the supreme court. The appeal shall be taken as in other civil cases, although the appeal may be taken regardless of the amount involved.

279.19 Probationary period.

The first three consecutive years of employment of a teacher in the same school district are a probationary period. However, if the teacher has successfully completed a probationary period of employment for another school district located in Iowa, the probationary period in the current district of employment shall not exceed one year. A board of directors may waive the probationary period for any teacher who previously has served a probationary period in another school district and the board may extend the probationary period for an additional year with the consent of the teacher.

In the case of the termination of a probationary teacher's contract, the provisions of sections 279.15 and 279.16 shall apply.

The board's decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section 20.10.

Notwithstanding any provision to the contrary, the grievance procedures of section 20.18 relating to job performance or job retention shall not apply to a teacher during the first two years of the teacher's probationary period. However, this paragraph shall not apply to a teacher who has successfully completed a probationary period in a school district in Iowa.

279.19A Extracurricular contracts.

1. School districts employing individuals to coach interscholastic athletic sports shall issue a separate extracurricular contract for each of these sports. An extracurricular contract offered under this section shall be separate from the contract issued under section 279.13. Wages for employees who coach these sports shall be paid pursuant to established or negotiated supplemental pay schedules. An extracurricular contract shall be in writing, and shall state the number of contract days for that sport, the annual compensation to be paid, and any other matters as may be mutually agreed upon. The contract shall be for a single school year.

2. An extracurricular contract shall be continued automatically in force and effect for equivalent periods, except as modified or terminated by mutual agreement of the board of directors and the employee, or terminated in accordance with this section. An extracurricular contract shall initially be offered by the employing board to an individual on the same date that contracts are offered to teachers under section 279.13. An extracurricular contract may be terminated at the end of a school year pursuant to sections 279.15 through 279.19. If the school district offers an extracurricular contract for a sport for the subsequent school year to an employee who is currently performing under an extracurricular contract for that sport, and the employee does not wish to accept the extracurricular contract for the subsequent year, the employee may resign from the extracurricular contract within twenty-one days after it has been received.

Section 279.13, subsection 3, applies to this section.

3. The board of directors of a school district may require an employee who has resigned from an extracurricular contract to accept, as a condition of employment under section 279.13, the extracurricular contract for no longer than one addi-

tional school year if all the following conditions apply:

a. The employee has accepted a teaching contract issued by the board pursuant to section 279.13 for the subsequent school year.

b. The board of directors has made a good faith effort to fill the coaching position with a licensed or authorized replacement.

c. The position has not been filled by June 1 of the year in which the employee resigned the extracurricular contract.

4. As a condition of employment under section 279.13, the board of directors of a school district may require an employee who has been issued a teaching contract pursuant to section 279.13 to accept an extracurricular contract for which the employee is licensed, or may require as a condition of employment that an applicant for a teaching contract under section 279.13 accept an extracurricular contract if all of the following conditions apply:

a. The individual who held the coaching position during the year has not been issued a teaching contract by the board pursuant to section 279.13 for the subsequent school year, or has been terminated from the extracurricular contract.

b. The board of directors has made a good faith effort to fill the coaching position with a licensed or authorized replacement.

c. The position has not been filled by June 1 of the year in which the vacancy occurred for the interscholastic athletic sport.

5. Within seven days following June 1 of that year, the board shall notify the employee in writing if the board intends to require the employee to accept an extracurricular contract for the subsequent school year under subsection 3 or 4. If the employee believes that the board did not make a good faith effort to fill the position the employee may appeal the decision by notifying the board in writing within ten days after receiving the notification.

The appeal shall state why the employee believes that the board did not make a good faith effort to fill the position. If the parties are unable to informally resolve the dispute, the parties shall attempt to agree upon an alternative means of resolving the dispute.

If the dispute is not resolved by mutual agreement, either party may appeal to the district court.

6. Subsections 3, 4, and 5 do not apply if the terms of a collective bargaining agreement provide otherwise.

7. An extracurricular contract may be terminated prior to the expiration of that contract pursuant to section 279.27.

8. A termination proceeding of an extracurricular contract either by the board pursuant to subsection 2 or pursuant to section 279.27 does not affect a contract issued pursuant to section 279.13.

A termination of a contract entered into pursuant to section 279.13, or a resignation from that

contract by the teacher, constitutes an automatic termination or resignation of the extracurricular contract in effect between the same teacher and the employing school board.

9. For the purposes of this section, “*good faith effort*” includes advertising for the position in an appropriate publication, interviewing applicants, and giving serious consideration to those licensed or authorized, and otherwise qualified, applicants who apply.

However, a board of directors of a school district shall consider applicants with qualifications described below, in the following order of priority:

1. A qualified individual who possesses a valid teaching license with a proper coaching endorsement.

2. A qualified individual who possesses a coaching authorization issued by the board of educational examiners.

Qualifications are to be determined by the board of directors or their designee on a case-by-case basis.

An individual who has been issued a coaching authorization or who possesses a teaching license with a coaching endorsement but is not issued a teaching contract under section 279.13 and who is employed by the board of directors of a school district serves at the pleasure of the board of directors and is not subject to sections 279.13 through 279.19, and 279.27. However, the board’s initial contract with a superintendent shall not exceed one year if the board is obligated to pay a former superintendent under an unexpired contract. The principal, under the supervision of the superintendent of the school district and pursuant to rules and policies of the board of directors of the school district, shall be responsible for administration and operation of the attendance center to which the principal is assigned.

The principal shall, pursuant to the policies adopted by the board of directors of the school district, be responsible for the planning, management, operation, and evaluation of the educational program offered at the attendance center to which the principal is assigned and shall submit recommendations to the superintendent regarding the appointment, assignment, promotion, transfer and dismissal of all personnel assigned to the attendance center. 279.23 Continuing contract for administrators.

Contracts with administrators shall be in writing and shall contain all of the following:

1. The term of employment which for all administrators except for superintendents may be a term of up to two years. Superintendents may be employed under section 279.20 for a term not to exceed three years.

2. The length of time during the school year services are to be performed.

3. The compensation per week of five consecutive days or month of four consecutive weeks.

4. A statement that the contract is invalid if the administrator is under contract with another board of directors in this state covering the same period of time, until such contract shall have been released or terminated by its provisions.

5. Such other matters as may be agreed upon.

The contract shall be signed by the president and the administrator and shall be filed with the secretary of the board before the administrator enters upon performance of the contract. A contract shall not be tendered by an employing board to an administrator under its jurisdiction prior to March 15. A contract shall not be required to be signed by the administrator and returned to the board in less than twenty-one days after being tendered.

Except as otherwise specifically provided, an administrator's contract shall be governed by the provisions of this section and sections 279.23A, 279.24, and 279.25 and not by section 279.13. For purposes of this section and sections 279.23A, 279.24, and 279.25, the term "administrator" includes school superintendents, assistant superintendents, educational directors employed by school districts for grades kindergarten through twelve, educational directors employed by area education agencies under chapter 273, principals, assistant principals, other certified school supervisors employed by school districts for grades kindergarten through twelve as defined under section 20.4, and other certified school supervisors employed by area education agencies under chapter 273.

279.24 Contract with administrators — automatic continuation or termination.

An administrator's contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for additional one-year periods beyond the end of its original term, except and until the contract is modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as provided by this section.

If the board of directors is considering termination of an administrator's contract, prior to any formal action, the board may arrange to meet in closed session, in accordance with the provisions of section 21.5, with the administrator and the administrator's representative. The board shall review the administrator's evaluation, review the reasons for nonrenewal, and give the administrator an opportunity to respond. If, following the closed session, the board of directors and the ad-

ministrator are unable to mutually agree to a modification or termination of the administrator's contract, or the board of directors and the administrator are unable to mutually agree to enter into a one-year nonrenewable contract, the board of directors shall follow the procedures in this section.

An administrator may file a written resignation with the secretary of the school board on or before May 1 of each year or the date specified by the school board for return of the contract, whichever date occurs first.

Administrators employed in a school district for less than two consecutive years are probationary administrators. However, a school board may waive the probationary period for any administrator who has previously served a probationary period in another school district and the school board may extend the probationary period for an additional year with the consent of the administrator. If a school board determines that it should terminate a probationary administrator's contract, the school board shall notify the administrator not later than May 15 that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the notice, the administrator may request a private conference with the school board to discuss the reasons for termination. The school board's decision to terminate a probationary administrator's contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

The school board may, by majority vote of the membership of the school board, cause the contract of an administrator to be terminated. If the school board determines that it should consider the termination of a nonprobationary administrator's contract, the following procedure shall apply:

On or before May 15, the administrator shall be notified in writing by a letter personally delivered or mailed by certified mail that the school board has voted to consider termination of the contract. The notification shall be complete when received by the administrator.

The notice shall state the specific reasons to be used by the school board for considering termination which for all administrators except superintendents shall be for just cause.

Within five days after receipt of the written notice that the school board has voted to consider termination of the contract, the administrator may request in writing to the secretary of the school board that the notification be forwarded to the board of educational examiners along with a request that the board of educational examiners submit a list of five qualified administrative law judges to the parties. Within three days from receipt of the list the parties shall select an administrative law judge by alternately removing a name

from the list until only one name remains. The person whose name remains shall be the administrative law judge. The parties shall determine by lot which party shall remove the first name from the list. The hearing shall be held no sooner than ten days and not later than thirty days following the administrator's request unless the parties otherwise agree. If the administrator does not request a hearing, the school board, not later than May 31, may determine the continuance or discontinuance of the contract. School board action shall be by majority roll call vote entered on the minutes of the meeting. Notice of school board action shall be personally delivered or mailed to the administrator.

The administrative law judge selected shall notify the secretary of the school board and the administrator in writing concerning the date, time, and location of the hearing. The school board may be represented by a legal representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. A transcript or recording shall be made of the proceedings at the hearing. A school board member or administrator is not liable for any damage to an administrator or school board member if a statement made at the hearing is determined to be erroneous as long as the statement was made in good faith.

The administrative law judge shall, within ten days following the date of the hearing, make a proposed decision as to whether or not the administrator should be dismissed, and shall give a copy of the proposed decision to the administrator and the school board. Findings of fact shall be prepared by the administrative law judge. The proposed decision of the administrative law judge shall become the final decision of the school board unless within ten days after the filing of the decision the administrator files a written notice of appeal with the school board, or the school board on its own motion determines to review the decision.

If the administrator appeals to the school board, or if the school board determines on its own motion to review the proposed decision of the administrative law judge, a private hearing shall be held before the school board within five days after the petition for review, or motion for review, has been made or at such other time as the parties agree. The private hearing is not subject to chapter 21. The school board may hear the case de novo upon the record as submitted before the administrative law judge. In cases where there is an appeal from a proposed decision or where a proposed decision is reviewed on motion of the school board, an opportunity shall be afforded to each party to file exceptions, present briefs and present oral arguments to the school board which is to render the final decision. The secretary of the school board shall give the administrator written notice of the time, place, and date of the hearing. The school board shall meet within five days after the hearing

to determine the question of continuance or discontinuance of the contract. The school board shall make findings of fact which shall be based solely on the evidence in the record and on matters officially noticed in the record.

The decision of the school board shall be in writing and shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings. Each conclusion of law shall be supported by cited authority or by reasoned opinion.

When the school board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the administrator's contract. The record of the private conference and findings of fact and exceptions shall be exempt from the provisions of chapter 22. The secretary of the school board shall immediately personally deliver or mail notice of the school board's action to the administrator.

The administrator may within thirty days after notification by the school board of discontinuance of the contract appeal to the district court of the county in which the administrative office of the school district is located.

The court may affirm the school board's action. The court shall reverse, modify, or grant any other appropriate relief from the school board's action, equitable or legal, and including declaratory relief, if substantial rights of the administrator have been prejudiced because the school board's action is any of the following:

1. In violation of constitutional or statutory provisions.
2. In excess of the statutory authority of the school board.
3. In violation of school board policy or rule.
4. Made upon unlawful procedure.
5. Affected by other error of law.
6. Unsupported by a preponderance of the evidence in the record made before the school board when that record is reviewed as a whole.
7. Unreasonable, arbitrary, or capricious, or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

The authorities in charge of the nonpublic school shall file with the director of the department of education the names and locations of all schools desiring to be exempted and the names, ages, and post office addresses of all pupils of compulsory school age who are enrolled. The director, subject to the approval of the state board, may exempt the nonpublic school from compliance with the minimum educational program for two school years. When the exemption has once been granted, renewal of the exemption for each succeeding school year may be conditioned by the director, with the approval of the board, upon proof of achievement in the basic skills of arithmetic, the communicative arts of reading, writing, grammar, and spelling, and an understanding of United States history, history of Iowa, and the principles of American government, of the pupils of compulsory school age exempted in the preceding year. Proof of achievement shall be determined on the basis of tests or other means of evaluation prescribed by the director of the department of education with the approval of the state board of education. The testing or evaluation, if required, shall be accomplished prior to submission of the request for renewal of the exemption. Renewal requests shall be filed with the director by April 15 of the school year preceding the school year for which the applicants desire exemption. This section shall not apply to schools eligible for exemption under section 299.24.

2. The department of education shall adopt rules relating to the identification of limited English proficient students who require special instruction under this section and to application procedures for funds available under this section.

3. In order to provide funds for the excess costs of instruction of limited English proficient students above the costs of instruction of pupils in a regular curriculum, students identified as limited English proficient shall be assigned an additional

weighting that shall be included in the weighted enrollment of the school district of residence for a period not exceeding three years. However, the school budget review committee may grant supplemental aid or modified allowable growth to a school district to continue funding a program for students after the expiration of the three-year period. The school budget review committee shall calculate the additional amount for the weighting to the nearest one-hundredth of one percent so that to the extent possible the moneys generated by the weighting will be equivalent to the moneys generated by the two-tenths weighting provided prior to July 2, 1991.

2. When a special education personnel pooling agreement, which has been entered into between an area education agency and a public school district pursuant to section 273.5, is terminated, the public school district shall assume the contractual obligations for any teachers assigned to the district under the agreement. Teachers, for whom the contractual obligations are assumed by a district, shall be given credit for completion of any probationary status under section 279.19, be placed on the salary schedule and retain all leaves, benefits, and seniority rights accumulated as if the teacher had been originally employed under the agreement which exists between the public school district and the district's collective bargaining unit, consistent with the teacher's education and experience.

A teacher who is employed under a pooling agreement and assigned to special education facilities that are separate from and not part of local school district facilities shall, if the teacher's employment terminates upon termination of the pooling agreement, be offered any teaching position that is similar to the position previously held by the teacher under the pooling agreement, which is vacant in any of the local school districts which participated in the pooling agreement, provided that the teacher possesses the appropriate license for the position. During the period described in paragraph "a" or "b", the school employee shall not be required to use accumulated sick leave or vacation.

2. The school district may require the employee, as a condition of receiving benefits under this section, to provide a signed statement that justifies the use of this leave and, if medical attention is required, a certificate from a licensed physician that states the nature and duration of the leave.

3. For purposes of this section, “*school employee*” means a person employed by a nonpublic school or school district, or any area education agency staff member who provides services to a school or school district.

94 Acts, ch 1131, §6

280.21B Expulsion — weapons in school.

The board of directors of a school district and the authorities in charge of a nonpublic school which receives services supported by federal funds shall expel from school for a period of not less than one year a student who is determined to have brought a weapon to a school or knowingly possessed a weapon at a school under the jurisdiction of the board or the authorities. However, the superintendent or chief administering officer of a school or school district may modify expulsion requirements on a case-by-case basis. This section shall not be construed to prevent the board of directors of a school district or the authorities in charge of a nonpublic school that have expelled a student from the student’s regular school setting from providing educational services to the student in an alternative setting. If both this section and section 282.4 apply, this section takes precedence over section 282.4. For purposes of this section, “*weapon*” means a firearm as defined in 18 U.S.C. § 921. This section shall be construed in a manner consistent with the federal Individuals with Disabilities Education Act, 20 U.S.C. § 1400 et seq.

95 Acts, ch 191, §23

280.22 Student exercise of free expression.

1. Except as limited by this section, students of the public schools have the right to exercise freedom of speech, including the right of expression in official school publications.

2. Students shall not express, publish, or distribute any of the following:

a. Materials which are obscene.

b. Materials which are libelous or slanderous under chapter 659.

c. Materials which encourage students to do any of the following:

(1) Commit unlawful acts.

(2) Violate lawful school regulations.

(3) Cause the material and substantial disruption of the orderly operation of the school.

3. There shall be no prior restraint of material prepared for official school publications except when the material violates this section.

4. Each board of directors of a public school shall adopt rules in the form of a written publications code, which shall include reasonable provisions for the time, place, and manner of conducting such activities within its jurisdiction. The board shall make the code available to the students and their parents.

5. Student editors of official school publications shall assign and edit the news, editorial, and feature content of their publications subject to the limitations of this section. Journalism advisers of students producing official school publications shall supervise the production of the student staff, to maintain professional standards of English and journalism, and to comply with this section.

6. Any expression made by students in the exercise of free speech, including student expression in official school publications, shall not be deemed to be an expression of school policy, and the public school district and school employees or officials shall not be liable in any civil or criminal action for any student expression made or published by students, unless the school employees or officials have interfered with or altered the content of the student speech or expression, and then only to the extent of the interference or alteration of the speech or expression.

7. “*Official school publications*” means material produced by students in the journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee.

8. This section does not prohibit a board of directors of a public school from adopting otherwise valid rules relating to oral communications by students upon the premises of each school.

89 Acts, ch 155, §1

280.23 Student health services.

The board of directors of each public school district and the authorities in charge of each nonpublic school shall not require nonadministrative personnel to perform any special health services or intrusive nonemergency medical services for students unless the nonadministrative personnel are licensed or otherwise qualified and have consented to perform the services.

92 Acts, ch 1033, §1

280.24 Procedures for reporting drug or alcohol possession or use.

The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall prescribe procedures to report any use or possession of alcoholic liquor, wine, or beer or any controlled substance on school premises to local law enforcement agencies, if the use or possession is in violation of school policy or state law. The procedures may include a provision which does not require a report when the school officials have determined that a school at-risk or

other student assistance program would be jeopardized if a student self reports.

97 Acts, ch 126, §38

280.25 Information sharing — interagency agreements.

1. The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall adopt a policy and the superintendent of each public school shall adopt rules which provide that the school district or school may share information contained within a student's permanent record pursuant to an interagency agreement with state and local agencies that are part of the juvenile justice system. These agencies include, but are not limited to, juvenile court services, the department of human services, and local law enforcement authorities. The disclosure of information shall be directly related to the juvenile justice system's ability to effectively serve, prior to adjudication, the student whose records are being released.

2. The purpose of the agreement shall be to reduce juvenile crime by promoting cooperation and collaboration and the sharing of appropriate information among the parties in a joint effort to improve school safety, reduce alcohol and illegal drug use, reduce truancy, reduce in-school and out-of-school suspensions, and to support alternatives to in-school and out-of-school suspensions and expulsions which provide structured and well-supervised educational programs supplemented by coordinated and appropriate services designed to correct behaviors that lead to truancy, suspension, and expulsions and to support students in successfully completing their education.

3. Information shared under the agreement shall be used solely for determining the programs and services appropriate to the needs of the juvenile or the juvenile's family, or coordinating the delivery of programs and services to the juvenile or the juvenile's family.

4. Information shared by the school district or school under the agreement is not admissible in any court proceedings which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian.

5. Information shared by another party to the agreement with a school district or school pursuant to an interagency agreement shall not be used as a basis for a school disciplinary action against a student.

6. The interagency agreement shall provide, and each signatory agency to the agreement shall certify in the agreement, that confidential information shared among the parties to the agreement shall remain confidential and shall not be shared with any other person, school, school district, or agency, unless otherwise provided by law.

7. Juvenile court social records may be disclosed in accordance with section 232.147, subsection 6.

8. A school or school district entering into an interagency agreement under this section shall adopt a policy implementing the provisions of the interagency agreement. The policy shall include, but not be limited to, the provisions of the interagency agreement and the procedures to be used by the school or school district to share information from the student's permanent record with participating agencies. The policy shall be published in the student handbook.

The degree and force of the intervention may be as reasonably necessary, in the opinion of the school employee, to restore order and protect the safety of the individuals involved in the altercation and others in the vicinity of the altercation.

2. A person who is not an employee of an accredited public school district, accredited nonpublic school, or area education agency may intervene in a fight or physical struggle occurring among students, or between students and nonstudents, that takes place in the presence of the nonemployee in a school building, on school premises, or at any school function or school-sponsored activity regardless of its location. The intervention may occur in the absence of an employee of an accredited public school district, accredited nonpublic school, or area education agency, or at the request of such an employee, utilizing the degree and force of intervention reasonably necessary to restore order and protect the safety of the individuals involved in the altercation and others in the vicinity of the altercation. However, a person who intervenes in the absence of an employee of an accredited public school district, accredited nonpublic school, or area education agency shall report the intervention and all relevant information regarding the situation as soon as reasonably possible to such an employee.

3. An employee of an accredited public school district, accredited nonpublic school, or area education agency who intervenes in a fight or physical struggle pursuant to subsection 1 shall be awarded reasonable monetary damages against a party bringing a civil action alleging a violation of this section, if it is determined in the action that the employee has been wrongfully accused. A non-

employee of an accredited public school district, accredited nonpublic school, or area education agency who intervenes in a fight or physical struggle pursuant to subsection 2 shall be limited to the recovery of reasonable attorney fees and court costs, if it is determined in a civil action alleging a violation of this section that the nonemployee has been wrongfully accused.

98 Acts, ch 1195, §2

280.27 Reporting violence — immunity.

An employee of a school district, an accredited nonpublic school, or an area education agency who

participates in good faith and acts reasonably in the making of a report to, or investigation by, an appropriate person or agency regarding violence, threats of violence, or other inappropriate activity against a school employee or student in a school building, on school grounds, or at a school-sponsored function shall be immune from civil or criminal liability relating to such action, as well as for participating in any administrative or judicial proceeding resulting from or relating to the report or investigation.

282.1 School age — nonresidents.

Persons between five and twenty-one years of age are of school age. A board may establish and maintain evening schools or an educational program under section 282.1A for residents of the corporation regardless of age and for which no tuition need be charged. Nonresident children shall be charged the maximum tuition rate as determined in section 282.24, subsection 1, with the exception that those residing temporarily in a school corporation may attend school in the corporation upon terms prescribed by the board, and boards discontinuing grades under section 282.7, subsection 1 or subsections 1 and 3, shall be charged tuition as provided in section 282.24, subsection 2.

For purposes of this section, “resident” means a child who is physically present in a district, whose residence has not been established in another district by operation of law, and who meets any of the following conditions:

1. Is in the district for the purpose of making a home and not solely for school purposes.

2. Meets the definitional requirements of the term “homeless individual” under 42 U.S.C. § 11302(a) and (c).

282.1A Extended school programs.

1. A board of directors of a public school district may, subject to the approval of the department of education, provide an extended school program for residents of the district who are over the maximum school age established in section 282.1, who do not possess a high school diploma or a high school equivalency diploma under chapter 259A, and who are currently enrolled in an education program in the district. The educational program may be separate from or integrated into the regular school program. Residents attending the program shall be included in the district’s basic enrollment and shall attend on a tuition-free basis. A district may also provide services to nonresidents under this section, and those persons shall be charged a sufficient tuition fee to cover the cost of the instruction received by the person as provided in section 282.6.

2. A district which wishes to provide an extended school program, in addition to meeting any requirements set by the department, shall establish all of the following prior to obtaining approval for the program:

a. There is an identified presence of resident persons who are over the maximum established school age, who do not possess a high school diploma

or a high school equivalency diploma under chapter 259A.

b. The provision of services to these additional persons will not substantially interfere with the educational programming provided to students of school age.

c. The provision of services will not require additional or new facilities to meet the needs of the identified populations.

3. The department shall make recommendations for, and the state board of education shall adopt, rules which provide for the administration of extended school programs.

282.3 Admission and exclusion of pupils.

1. The board may exclude from school children under the age of six years when in its judgment such children are not sufficiently mature to be benefited by regular instruction, or any child who is found to be physically or mentally unable to attend school under section 299.5, or whose presence in school has been found to be injurious to the health of other pupils, or is inefficiently taught for the scholastic year at a state institution. However, the board shall provide special education programs and services under chapters 256B, 257, and 273 for all children requiring special education.

2. The conditions of admission to public schools for work in the year immediately preceding the first grade and in the first grade shall be as follows:

A child under the age of six years on the fifteenth of September of the current school year shall not be admitted to a public school unless the board of directors of the school has adopted and put into effect courses of study for the school year immediately preceding the first grade, approved by the department of education, and has employed a practitioner or practitioners for this work with standards of training approved by the board of educational examiners.

No child shall be admitted to school work for the year immediately preceding the first grade unless the child is five years of age on or before the fifteenth of September of the current school year.

No child shall be admitted to the first grade unless the child is six years of age on or before the fifteenth of September of the current school year; except that a child under six years of age who has

been admitted to school work for the year immediately preceding the first grade under conditions approved by the department of education, or who has demonstrated the possession of sufficient ability to profit by first-grade work on the basis of tests or other means of evaluation recommended or approved by the department of education, may be admitted to first grade at any time before December 31.

282.4 Suspension — expulsion.

1. The board may, by a majority vote, expel any student from school for a violation of the regulations or rules established by the board, or when the presence of the student is detrimental to the best interests of the school. The board may confer upon any teacher, principal, or superintendent the power temporarily to suspend a student, notice of the suspension being at once given in writing to the president of the board.

2. A student who commits an assault, as defined under section 708.1, against a school employee in a school building, on school grounds, or at a school-sponsored function shall be suspended for a time to be determined by the principal. Notice of the suspension shall be immediately sent to the president of the board. By special meeting or at the next regularly scheduled board meeting, the board shall review the suspension and decide whether to hold a disciplinary hearing to determine whether or not to order further sanctions against the student, which may include expelling the student. In making its decision, the board shall consider the best interests of the school district, which shall include what is best to protect and ensure the safety of the school employees and students from the student committing the assault.

A student shall not be suspended or expelled pursuant to this section if the suspension or expulsion would violate the federal Individuals with Disabilities Education Act.

3. Notwithstanding section 282.6, if a student has been expelled or suspended from school and has not met the conditions of the expulsion or suspension, the student shall not be permitted to enroll in a school district until the board of directors of the school district approves, by a majority vote, the enrollment of the student.

282.6 Tuition.

Every school shall be free of tuition to all actual residents between the ages of five and twenty-one years and to resident veterans as defined in section 35.1, as many months after becoming twenty-one years of age as they have spent in the armed forces of the United States before they became twenty-one, provided, however, fees may be charged covering instructional costs for a summer school or drivers education program. The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by the person.

This section shall not apply to tuition authorized by chapter 260C.

For purposes of this section, “resident” means a person who is physically present in a district, whose residence has not been established in another district by operation of law, and who meets any of the following conditions:

1. Is in the district for the purpose of making a home and not solely for school purposes.

2. Meets the definitional requirements of the term “homeless individual” under 42 U.S.C. § 11302(a) and (c).

282.7 Attending in another corporation — payment.

1. The board of directors of a school district by record action may discontinue any or all of grades seven through twelve and negotiate an agreement

for attendance of the pupils enrolled in those grades in the schools of one or more contiguous school districts having accredited school systems. If the board designates more than one contiguous district for attendance of its pupils, the board shall draw boundary lines within the school district for determining the school districts of attendance of the pupils. The portion of a district so designated shall be contiguous to the accredited school district designated for attendance. Only entire grades may be discontinued under this subsection and if a grade is discontinued, all higher grades in that district shall also be discontinued. A school district that has discontinued one or more grades under this subsection has complied with the requirements of section 275.1 relating to the maintenance of kindergarten and twelve grades. A pupil who graduates from another school district under this subsection shall receive a diploma from the receiving district. The boards of directors entering into an agreement under this section shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. The agreement shall provide for transportation and authority and liability of the affected boards.

2. If the vocational program offered by a school district does not meet the state board of vocational education's standards for program approval, the district shall be granted one year to meet the standards for approval. If a district chooses to waive the one-year grace period, or the district fails to meet the approval standards after one year, the director of the board of vocational education shall delegate the authority to the regional planning board established pursuant to section 258.16 to direct the district to contract with another school district or a merged area school which has an approved program, for the provision of vocational education for students of the district. The district that has waived the one-year grace period or has failed to meet the approval standards shall pay to the district or merged area school that has an approved program an amount equal to the percent of the school day in which a pupil is receiving vocational education in the approved program times the district cost per pupil of the district of residence of the pupil. The regional planning board established pursuant to section 258.16 shall contract with an approved program for delivery of vocational education in the district which has failed to meet the approval standards or has waived the one-year grace period. Transportation to and from the approved program shall be provided by the school district that has waived the one-year grace period or has failed to meet approval standards. Reasonable effort shall be made to conduct the approved program at an attendance center in the district that has failed to meet the approval standards or has waived the one-year grace period.

3. Notwithstanding sections 28E.9 and 282.8, a school district may negotiate an agreement un-

der subsection 1 for attendance of its pupils in a school district located in a contiguous state subject to a reciprocal agreement by the two state boards in the manner provided in this subsection. Prior to negotiating an agreement with the school district in the contiguous state, the board of directors shall file a written request with the state board of education for a determination whether the school district in the contiguous state meets requirements substantially similar to those required for accredited or approved school districts in this state and the school district receives or has available services equivalent to those that would be provided in this state by an area education agency. The school district shall also obtain approval by the department of education of the sharing proposal, before the agreement becomes effective. Six months before making the request for approval, the district shall request a feasibility study from the department of education. If the state board of this state and the corresponding state board in the contiguous state agree that the school districts of their respective states meet substantially similar requirements and have substantially similar services available to the school district, and if the Iowa department of education approves the proposed contract, the two state boards may sign a reciprocal agreement for attendance of their pupils in the school district of the other state, subject to the agreement signed between the boards of directors of the two districts. A school district that negotiates an agreement with a school district in a contiguous state under this subsection is not eligible for supplementary weighting under section 257.11 as a result of that agreement.

282.8 Attending school outside state.

The boards of directors of school districts located near the state boundaries may designate schools of equivalent standing across the state line for attendance of both elementary and high school pupils when the public school in the adjoining state is nearer than any appropriate public school in a pupil's district of residence or in Iowa. Distance shall be measured by the nearest traveled public road. Arrangements shall be subject to reciprocal agreements made between the chief state school officers of the respective states. Notwithstanding section 282.1, arrangements between districts pursuant to the reciprocal agreements made under this section shall establish tuition and transportation fees in an amount acceptable to the affected boards, but the tuition and transportation fees shall not be less than the lower average cost per pupil for the previous school year of the two affected school districts. For the purpose

of this section average cost per pupil for the previous school year is determined by dividing the district's operating expenditures for the previous school year by the number of children enrolled in the district on the third Friday of September of the previous school year. A person attending school in another state shall continue to be treated as a pupil of the district of residence in the apportionment of the current school fund and the payment of state aid.

282.10 Whole grade sharing.

1. Whole grade sharing is a procedure used by school districts whereby all or a substantial portion of the pupils in any grade in two or more school districts share an educational program for all or a substantial portion of a school day under a written agreement pursuant to section 256.13, 280.15, or 282.7, subsection 1 or subsections 1 and 3. Whole grade sharing may either be one-way or two-way sharing.

2. One-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and does not receive a substantial number of pupils from those districts in return.

3. Two-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and receives a substantial number of pupils from those school districts in return.

4. A whole grade sharing agreement shall be signed by the boards of the districts involved in the agreement not later than February 1 of the school year preceding the school year for which the agreement is to take effect.

282.11 Procedure.

Not less than ninety days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is negotiating, extending, or renewing a sharing agreement, shall publicly announce its intent to negotiate a sharing agreement under section 21.4, subsection 1. Within thirty days of the board's public notice, a petition may be filed with the department of education requesting that a feasibility study be completed. The petition shall be signed by twenty percent of the eligible electors in the district. The director of the department of education may deter-

mine that a feasibility study conducted by the board satisfies the request, provided that the study conforms with the criteria contained in section 256.9.

Not less than thirty days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is a party to a proposed sharing agreement shall hold a public hearing at which the proposed agreement is described, and at which the parent or guardian of an affected pupil and certificated employees of the school district shall have an opportunity to comment on the proposed agreement. Within the thirty-day period prior to the signing of the agreement, the parent or guardian of an affected pupil may request the board of directors to send the pupil to another contiguous school district. For the purposes of this section, "affected pupils" are those who under the whole grade sharing agreement are attending or scheduled to attend the school district specified in the agreement, other than the district of residence, during the term of the agreement. The request shall be based upon one of the following:

1. That the agreement will not meet the educational program needs of the pupil.

2. That adequate consideration was not given to geographical factors.

The board shall allow or disallow the request prior to the signing of the agreement, or the request shall be deemed granted. If the board disallows the request, the board shall indicate the reasons why the request is disallowed and shall notify the parent or guardian that the decision of the board may be appealed as provided in this section.

If the board disallows the request of a parent or guardian of an affected pupil, the parent or guardian, not later than March 1, may appeal the sending of that pupil to the school district specified in the agreement, to the state board of education. The basis for the appeal shall be the same as the basis for the request to the board. An appeal shall specify a contiguous school district to which the parent or guardian wishes to send the affected pupil. If the parent or guardian appeals, the standard of review of the appeal is a preponderance of evidence that the parent's or guardian's hardship outweighs the benefits and integrity of the sharing agreement. The state board may require the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, or may deny the appeal by the parent or guardian. If the state board requires the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, the tuition shall be equal to the tuition established in the sharing agreement. The decision of the state board is binding on the boards of directors of the school districts affected, except that the decision of the state board

may be appealed by either party to the district court.

282.12 Funding.

1. An agreement for whole grade sharing shall establish a method for determination of costs, if any, associated with the sharing agreement.

2. For one-way sharing, the sending district shall pay no less than one-half of the district cost per pupil of the sending district.

3. For two-way sharing, the costs shall be determined by mutual agreement of the boards.

4. The number of pupils participating in a whole grade sharing agreement shall be determined on the third Friday of September and third Friday of February of each year.

282.17 High school outside home district. Repealed by 83 Acts, ch 31, § 8.

282.18 Open enrollment.

1. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.

For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent's or guardian's child in a public school in another school district in the manner provided in this section.

2. By January 1 of the preceding school year, the parent or guardian shall send notification to the district of residence, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent's or guardian's child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent's or guardian's child in a public school in another district by the deadline of January 1 of the previous year, and one of the criteria defined in subsection 16 exists for the failure to meet the deadline or if the request is to enroll a child in kindergarten in a public school in another district, the parent or guardian shall be permitted to enroll the child in the other district in the same manner as if the deadline had been met.

The board of directors of a school district may adopt a policy granting the superintendent of the district authority to approve open enrollment ap-

plications that are timely filed. However, the board of directors shall not grant the superintendent authority to deny open enrollment applications, except as provided in subsection 3. The board of the district of residence, or the superintendent with the board's authority to only approve applications, shall take action on the request no later than February 1 of the preceding school year and shall transmit any approved request within five days after board action on the request. The parent or guardian may withdraw the request at any time prior to the start of the school year. The board of the receiving district, or the superintendent with the board's authority to approve applications only, shall take action to approve or disapprove the request no later than March 1 of the preceding school year. The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district does not have classroom space for the pupil. If the request is granted, the board shall transmit a copy of the form to the school district of residence within five days after board action.

3. In all districts involved with voluntary or court-ordered desegregation, minority and nonminority pupil ratios shall be maintained according to the desegregation plan or order. The superintendent of a district subject to voluntary or court-ordered desegregation may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district's implementation of the desegregation order or plan. If, however, a transfer request would facilitate a voluntary or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

A parent or guardian, whose request has been denied because of a desegregation order or plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent's decision. A decision of the board to uphold the denial of the request is subject to appeal under section 290.1.

4. If, however, a request to enroll a child in another district is denied by the board of the child's district of residence for failure to show good cause for not meeting the request deadline, the parent or guardian shall be permitted to appeal the decision of the board either directly to the director of the department of education or to the state board under chapter 290, but not to both. Notwithstanding chapter 17A, in an appeal arising from the denial of a parent's or guardian's request for open enrollment, where the denial was for failure to show good cause for not meeting the request deadline, the director or designee assigned to hear the appeal on behalf of the director or state board may, with the agreement of the parties to the appeal, issue an oral decision at the con-

clusion of the hearing on the appeal. The oral decision shall comport with previously established decisions of the director and state board. However, any party to the appeal may request a written decision and the director or state board shall issue a written decision. The department shall recommend, and the state board shall adopt, rules to implement this subsection.

5. Each district shall provide notification to the parent or guardian relating to the transmission or denial of the request. A district of residence shall provide for notification of transmission or denial to a parent or guardian within three days of board action on the request. A receiving district shall provide notification to a parent or guardian, within fifteen days of board action on the request, of whether the pupil will be enrolled in that district or whether the request is to be denied.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by January 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect the court-ordered or voluntary desegregation plan of the district. A denial of a request to change district enrollment within the approved period is subject to appeal under section 290.1. However, a pupil who has been in attendance in another district under this section may return to the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil's district of residence. A pupil's residence, for purposes of this section, means a residence under section 282.1. The board of directors of the district of residence shall pay to the receiving district the state cost per pupil for the previous school year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. The district of residence shall also transmit the phase III moneys allocated to the district for the previous year for the full-time equivalent attendance of the pupil, who is the subject of the request, to the receiving district specified in the request for transfer.

8. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child's educational needs and the enrollment of the child in the receiving district's program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

9. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district's academic year, the child's first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.

If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child, who is the subject of the request, is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child's original district of residence under open enrollment with no interruption in the child's educational program. If a parent or guardian exercises this option, the child's new district of residence is not required to pay the amount calculated in subsection 7, until the start of the first full year of enrollment of the child.

Quarterly payments shall be made to the receiving district.

If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district's area education agency. The receiving district shall forward a copy of the request to the receiving district's area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district's area education agency.

A district of residence may apply to the school budget review committee if a student was not included in the resident district's enrollment count

during the fall of the year preceding the student's transfer under open enrollment.

10. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. However, a receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold from the district cost per pupil amount, that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11. Every school district shall adopt a policy which defines the term "*insufficient classroom space*" for that district.

12. The board of directors of a school district subject to voluntary or court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

13. A pupil who participates in open enrollment for purposes of attending a grade in grades ten through twelve in a school district other than the district of residence is ineligible to participate in interscholastic athletic contests and athletic competitions during the pupil's first ninety school days of enrollment in the district except that the pupil may participate immediately in an interscholastic sport if the district of residence and the other school district jointly participate in the sport, if the sport in which the pupil wishes to participate is not offered in the district of residence, if the pupil chooses to use open enrollment to attend school in another school district because the

district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12, if the pupil participates in open enrollment because the pupil's district of residence has entered into a whole grade sharing agreement with another district for the pupil's grade, or if the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil's district of residence for at least one school year prior to March 10, 1989, is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended. For purposes of this subsection, "*school days of enrollment*" do not include enrollment in summer school.

14. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The parent or guardian of the pupil shall be permitted to appeal the decision of the receiving district to the director of the department of education. If the director rules in favor of permitting the transfer, the pupil shall be permitted to transfer, but the transfer shall be conditioned upon the expiration of the expulsion period without the pupil incurring a new violation.

15. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student's district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of stu-

dents enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students' districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this paragraph is not subject to appeal under section 290.1.

16. For purposes of this section, "good cause" means a change in a child's residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, or a similar set of circumstances consistent with the definition of good cause; a change in the status of a child's resident district, such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, the failure of negotiations for a whole-grade sharing, reorganization, dissolution agreement or the rejection of a current whole-grade sharing agreement, or reorganization plan, or a similar set of circumstances consistent with the definition of good cause. If the good cause relates to a change in status of a child's school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

17. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

18. Notwithstanding the general limitations contained in this section, in appeals to the state board from decisions of school boards relating to student transfers under open enrollment, the state board shall exercise broad discretion to

achieve just and equitable results which are in the best interest of the affected child or children.

A child who is living in a licensed child foster care facility as defined in section 237.1, or in a facility that provides residential treatment as "facility" is defined in section 125.2, which is located in a school district other than the school district in which the child resided before receiving foster care may enroll in and attend an accredited school in the school district in which the child is living. The instructional costs for students who do not require special education shall be paid as provided in section 282.31, subsection 1, paragraph "b" or for students who require special education shall be paid as provided in section 282.31, subsections 2 or 3.

282.20 Tuition fees — payment.

The school corporation in which the student resides shall pay from the general fund to the secretary of the corporation in which the student is permitted to enroll, a tuition fee as prescribed in section 282.24.

It shall be unlawful for any school district to rebate to any pupils or their parents, directly or indirectly, any portion of the tuition collected or to be collected or to authorize or permit such pupils to receive at the expense of the district, directly or indirectly, any special compensation, benefit, privilege, or other thing of value that is not and cannot legally be made available to all other pupils enrolled in its schools. Any superintendent or board members responsible for such unlawful act shall each be personally liable to a fine of not to exceed one hundred dollars. Action to recover such penalty or action to enjoin such unlawful act may be instituted by the board of any school district or by a taxpayer in any school district.

On or before February 15 and June 15 of each year the secretary of the creditor district shall deliver to the secretary of the debtor district an itemized statement of such tuition fees.

282.24 Tuition fees established.

1. The maximum tuition fee that may be charged for elementary and high school students residing within another school district or corporation except students attending school in another district under section 282.7, subsection 1, or subsections 1 and 3, is the district cost per pupil of the receiving district as computed in section 257.10.

A school corporation which owns facilities used as attendance centers for students shall maintain an itemized statement of the appraised value of all buildings owned by the school corporation. Beginning July 1, 1976, the appraisal shall be updated at least one time every five years.

The director of the department of education shall, after July 1 but before September 1 of each year, notify every school in the state, affected by this section, what the computed maximum tuition rate shall be for the ensuing year.

This subsection does not prevent the corporation or district in which the student resides from paying a tuition in excess of the maximum computed tuition rates, if the actual per pupil cost of the preceding year so warrants, but the receiving district or corporation shall not demand more than the maximum rate.

2. For the purpose of this section, high school means a school which commences with either grade nine or grade ten as determined by the board of directors of the district, and junior high school means the remaining grades commencing with grade seven.

282.26 High school students attending advanced courses.

The board of any community college may, by mutual agreement with any college or university, permit any specially qualified high school student to attend advanced courses of academic instruction at the college or university.

The state board of regents and the state board of education may by rule permit such students to attend any institution of higher learning under their jurisdiction. Credit earned in any such course at a college or university may be applied toward credit for high school graduation. Public school funds shall not be expended for payment of tuition or other costs for such attendance at a college or university, unless the payment is expressly permitted or required by law.

The foregoing provisions shall also apply to colleges and universities in adjacent states when the institutions are located nearer to the homes or schools of the school district than the closest college or university within the state.

282.27 Children living in psychiatric hospitals or institutions — payment.

The public school district in which is located a psychiatric unit of a hospital licensed under chapter 135B or a psychiatric medical institution for children licensed under chapter 135H, which is not operated by the state, shall be responsible for the provision of educational services to children residing in the unit or institution. Children residing in the unit or institution shall be included in the basic enrollment of their districts of residence, as defined in section 282.31, subsection 4.

The board of directors of each district of residence shall pay to the school district in which is located such psychiatric unit or institution, for the provision of educational services to the child, a portion of the district of residence's district cost per pupil for each of such children based upon the proportion that the time each child is provided educational services while in such unit or institution is to the total time for which the child is provided educational services during a normal school year.

282.28 Children at Eldora and Toledo.

Annually, the area education agency in which the state training school and the Iowa juvenile home are located and the department of human services on behalf of the training school and juvenile home shall submit an annual joint application by January 1 for the next succeeding school year to the department of education describing the proposed special education instructional and support programs and service improvements for the training school and juvenile home. The department of education shall review and approve or modify the program and proposed budget by February 1 and

shall notify the department of revenue and finance, the area education agency, and the department of human services of the approved budget amount. The moneys for the approved budget shall supplement and not supplant moneys equal to the moneys expended for education for the fiscal year beginning July 1, 1986, by the department of human services. The moneys for the approved budget shall be used to ensure that the training school and juvenile home comply with appropriate administrative rules relating to special education adopted by the department of education. Beginning with the fiscal year commencing July 1, 1990, and ending June 30, 1991, and in succeeding years, the department of revenue and finance shall pay the approved budget amount for an area education agency in monthly installments beginning on September 15 and ending on June 15 of the next succeeding school year. The installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state's resources. The department of revenue and finance shall transfer the approved budget amount for an area education agency from the moneys appropriated under section 257.16 and make the payment to the area education agency.

The area education agency shall submit an accounting to the department of education by August 1 following the school year for the actual costs of the special education programs and services provided at the training school and juvenile home. The department shall review and approve or modify the accounting by September 1 and shall notify the department of revenue and finance of the approved accounting amount. The department of revenue and finance shall adjust the September payment to the area education agency for the next fiscal year by the difference between the amount of the proposed budget paid to the area education agency and the amount of the actual costs as reflected in the area education agency's accounting. Any amount paid by the department of revenue and finance shall be deducted monthly from the state foundation aid paid under section 257.16 during that fiscal year to all school districts in the state. The portion of the total amount of the approved accounting amount that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year.

education, who has been placed in a facility or home by the district court, and for whom parental rights have been terminated by the district court, shall be provided special education programs and services on the same basis as the programs and services are provided for children requiring special education who are residents of the school district in which the child has been placed. The special education instructional costs shall be paid as provided in section 282.31, subsection 2 or 3.

282.30 Special programs.

1. *a.* An area education agency shall provide or make provision for an appropriate educational program for each child living in the following types of facilities located within its boundaries:

(1) An approved or licensed shelter care home, as defined in section 232.2, subsection 34.

(2) An approved juvenile detention home, as defined in section 232.2, subsection 32.

b. The area education agency shall provide the educational program by any one of, but not limited to, the following:

(1) Providing for the enrollment of the child in the district of residence of the child, subject to the approval of the district in which the child is living.

(2) Cooperating with the district of residence of the child and obtaining the course of study and textbooks of the child for use in the special facility into which the child has been placed.

(3) Providing for the enrollment of the child in the district in which the child is living, subject to the approval of the district in which the child is living.

c. An area education agency shall not provide educational services to a facility specified in paragraph "a" unless the facility makes a request for educational services to the area education agency by either of the following dates:

(1) December 1 of the school year prior to the beginning of the school year for which the services are being requested.

(2) Ninety days prior to the beginning of the time for which the services are being requested if the facility is a newly established facility.

2. The area education agency where the child is living, the school district of residence, the other appropriate area education agency or agencies, and other appropriate agencies involved with the care or placement of the child shall cooperate with the school district where the child is living in sharing educational information, textbooks, curriculum, assignments, and materials in order to plan and to provide for the appropriate education of the child living in such facility specified in subsection 1.

Subsection 1, paragraph b, unnumbered paragraph 2 amended and designated as paragraph c

282.31 Funding for special programs.

1. *a.* A child who lives in a facility pursuant to section 282.30, subsection 1, paragraph “a”, and who is not enrolled in the educational program of the district of residence of the child, shall receive appropriate educational services. The area education agency shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the department of revenue and finance and the area education agency of its action by February 1. The department of revenue and finance shall pay the approved budget amount for an area education agency in monthly installments beginning September 15 and ending June 15 of the next succeeding school year. The installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state’s resources. The department of revenue and finance shall transfer the approved budget amount for an area education agency from the moneys appropriated under section 257.16 and make the payment to the area education agency. The area education agency shall submit an accounting for the actual cost of the program to the department of education by August 1 of the following school year. The department shall review and approve or modify all expenditures incurred in compliance with the guidelines pursuant to section 256.7, subsection 10, and shall notify the department of revenue and finance of the approved accounting amount. The approved accounting amount shall be compared with any amounts paid by the department of revenue and finance to the area education agency and any differences added to or subtracted from the October payment made under this paragraph for the next school year. Any amount paid by the department of revenue and finance shall be deducted monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved budget that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year in which the deduction is made.

b. A child who lives in a facility or home pursuant to section 282.19, and who does not require special education and who is not enrolled in the educational program of the district of residence of the child, shall be included in the basic enrollment of the school district in which the facility or home is located.

However, on June 30 of a school year, if the board of directors of a school district determines that the number of children under this paragraph who

were counted in the basic enrollment of the school district on the third Friday of September of that school year is fewer than the sum of the number of months all children were enrolled in the school district under this paragraph during the school year divided by nine, the secretary of the school district may submit a claim to the department of education by August 1 following the school year for an amount equal to the district cost per pupil of the district for the previous school year multiplied by the difference between the number of children counted and the number of children calculated by the number of months of enrollment. The amount of the claim shall be paid by the department of revenue and finance to the school district by October 1. The department of revenue and finance shall transfer the total amount of the approved claim of a school district from the moneys appropriated under section 257.16 and the amount paid shall be deducted monthly from the state foundation aid paid to all school districts in the state during the remainder of the subsequent fiscal year in the manner provided in paragraph “a”.

2. *a.* The actual special education instructional costs incurred for a child who lives in a facility pursuant to section 282.19 or for a child who is placed in a facility or home pursuant to section 282.29, who requires special education and who is not enrolled in the educational program of the district of residence of the child but who receives an educational program from the district in which the facility or home is located, shall be paid by the district of residence of the child to the district in which the facility or home is located, and the costs shall include the cost of transportation.

b. A child shall not be denied special education programs and services because of a dispute over the determination of district of residence of the child. The director of the department of education shall determine the district of residence when a dispute arises regarding the determination of the district of residence for a child who requires special education pursuant to this subsection.

3. The actual special education instructional costs, including transportation, for a child who requires special education shall be paid by the department of revenue and finance to the school district in which the facility or home is located, only when a district of residence cannot be determined, and the child was not included in the weighted enrollment of any district pursuant to section 256B.9, and the payment pursuant to subsection 2, paragraph “a”, was not made by any district. The district shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the district by February 1. The district shall submit a claim by August 1 following the school year for the actual cost of the program. The

department shall review and approve or modify the claim and shall notify the department of revenue and finance of the approved claim amount by September 1. The total amount of the approved claim shall be paid by the department of revenue and finance to the school district by October 1. The total amount paid by the department of revenue and finance shall be deducted monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved claims that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for the budget year in which the deduction is made. The department of revenue and finance shall transfer the total amount of the approved claims from moneys appropriated under section 257.16 for payment to the school district.

4. For purposes of this section, “*district of residence*” means the school district in which the parent or legal guardian of the child resides or the district in which the district court is located if the district court is the guardian of the child.

5. Programs may be provided during the summer and funded under this section if the school district or area education agency determines a valid educational reason to do so.

2. *a.* A school district shall operate or provide for the operation of school breakfast and lunch programs at all attendance centers in the district. However, with the approval of the department of education as provided in paragraph “*b*”, a school district may provide access to a school breakfast program at an alternative site to students who wish to participate in a school breakfast program. The programs shall provide students with nutritionally adequate meals and shall be operated in compliance with the rules of the state board of education and pertinent federal law and regulation, for all students in each district who attend public school four or more hours each school day and wish to participate in a school breakfast or lunch program. 		285.15	Forfeiture of reimbursement rights.
		285.16	“Nonpublic school” defined.

285.1 When entitled to state aid.

1. The board of directors in every school district shall provide transportation, either directly or by reimbursement for transportation, for all resident pupils attending public school, kindergarten through twelfth grade, except that:

a. Elementary pupils shall be entitled to transportation only if they live more than two miles from the school designated for attendance.

b. High school pupils shall be entitled to transportation only if they live more than three miles from the school designated for attendance.

c. Children attending prekindergarten programs offered or sponsored by the district or nonpublic school and approved by the department of education or department of human services may be provided transportation services. However, transportation services provided nonpublic school children are not eligible for reimbursement under this chapter.

d. Districts are not required to maintain seating space on school buses for students who are otherwise to be provided transportation under this subsection if the students do not or will not regularly utilize the district's transportation service for extended periods during the school year. The student, or the student's parent or legal guardian if the student is less than eighteen years of age, shall be notified by the district before transportation services may be suspended, and the suspension may continue until the student, or the student's parent or legal guardian, notifies the district that regular student ridership will continue.

For the purposes of this subsection, high school means a school which commences with either grade nine or grade ten, as determined by the board of directors of the school district or by the governing authority of the nonpublic school in the case of nonpublic schools.

Boards in their discretion may provide transportation for some or all resident pupils attending public school or pupils who attend nonpublic schools who are not entitled to transportation. Boards in their discretion may collect from the

parent or guardian of the pupil not more than the pro rata cost for such optional transportation, determined as provided in subsection 12.

2. Any pupil may be required to meet a school bus on the approved route a distance of not to exceed three-fourths of a mile without reimbursement.

3. In a district where transportation by school bus is impracticable, where necessary to implement a whole grade sharing agreement under section 282.10, or where school bus service is not available, the board may require parents or guardians to furnish transportation for their children to the schools designated for attendance. Except as provided in section 285.3, the parent or guardian shall be reimbursed for such transportation service for public and nonpublic school pupils by the board of the resident district in an amount equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year's statewide average per pupil transportation cost, as determined by the department of education.

However, a parent or guardian shall not receive reimbursement for furnishing transportation for more than three family members who attend elementary school and one family member who attends high school.

4. In all districts where unsatisfactory roads or other conditions make it advisable, the board at its discretion may require the parents or guardians of public and nonpublic school pupils to furnish transportation for their children up to two miles to connect with vehicles of transportation. The parents or guardians shall be reimbursed for such transportation by the boards of the resident districts at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil's residence to the bus route.

5. Where transportation by school bus is impracticable or not available or other existing conditions warrant it, arrangements may be made for use of common carriers according to uniform standards established by the director of the depart-

ment of education and at a cost based upon the actual cost of service and approved by the board.

6. When the school designated for attendance of pupils is engaged in the transportation of pupils, the sending or designating school shall use these facilities and pay the pro rata cost of transportation except that a district sending pupils to another school may make other arrangements when it can be shown that such arrangements will be more efficient and economical than to use facilities of the receiving school, providing such arrangements are approved by the board of the area education agency.

7. If a local board closes either elementary or high school facilities and is approved by the board of the area education agency to operate its own transportation equipment, the full cost of transportation shall be paid by the board for all pupils living beyond the statutory walking distance from the school designated for attendance.

8. Transportation service may be suspended upon any day or days, due to inclemency of the weather, conditions of roads, or the existence of other conditions, by the board of the school district operating the buses, when in their judgment it is deemed advisable and when the school or schools are closed to all children.

9. Distance to school or to a bus route shall in all cases be measured on the public highway only and over the most passable and safest route as determined by the area education agency board, starting in the roadway opposite the private entrance to the residence of the pupil and ending in the roadway opposite the entrance to the school grounds or designated point on bus route.

10. The board in any district providing transportation for nonresident pupils shall collect the pro rata cost of transportation from the district of pupil's residence for all properly designated pupils so transported.

11. Boards in districts operating buses may transport nonresident pupils who attend public school, kindergarten through junior college, who are not entitled to free transportation provided they collect the pro rata cost of transportation from the parents.

12. The pro rata cost of transportation shall be based upon the actual cost for all the children transported in all school buses. It shall include one-seventh of the original net cost of the bus and other items as determined and approved by the director of the department of education but no part of the capital outlay cost for school buses and transportation equipment for which the school district is reimbursed from state funds or that portion of the cost of the operation of a school bus used in transporting pupils to and from extra-curricular activities shall be included in determining the pro rata cost. In a district where, because of unusual conditions, the cost of transportation is in excess of the actual operating cost of the bus route used to furnish transportation to nonresident pu-

pils, the board of the local district may charge a cost equal to the cost of other schools supplying such service to that area, upon receiving approval of the director of the department of education.

13. When a local board fails to pay transportation costs due to another school for transportation service rendered, the board of the creditor corporation shall file a sworn statement with the area education agency board specifying the amount due. The agency board shall check such claim and if the claim is valid shall certify to the county auditor. The auditor shall transmit to the county treasurer an order directing the county treasurer to transfer the amount of such claim from the funds of the debtor corporation to the creditor corporation and the treasurer shall pay the same accordingly.

14. Resident pupils attending a nonpublic school located either within or without the school district of the pupil's residence shall be entitled to transportation on the same basis as provided for resident public school pupils under this section. The public school district providing transportation to a nonpublic school pupil shall determine the days on which bus service is provided, which shall be based upon the days for which bus service is provided to public school pupils, and the public school district shall determine bus schedules and routes. In the case of nonpublic school pupils the term "*school designated for attendance*" means the nonpublic school which is designated for attendance by the parents of the nonpublic school pupil.

15. If the nonpublic school designated for attendance is located within the public school district in which the pupil is a resident, the pupil shall be transported to the nonpublic school designated for attendance as provided in this section.

16. *a.* If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence, the pupil may be transported by the district of residence to a public school or other location within the district of the pupil's residence. A public school district in which a nonpublic school is located may establish school bus collection locations within its district from which nonresident nonpublic school pupils may be transported to and from a nonpublic school located in the district. If a pupil receives such transportation, the district of the pupil's residence shall be relieved of any requirement to provide transportation.

b. As an alternative to paragraph "*a*" of this subsection, subject to section 285.9, subsection 3, where practicable, and at the option of the public school district in which a nonpublic school pupil resides, the school district may transport a nonpublic school pupil to a nonpublic school located outside the boundary lines of the public school district if the nonpublic school is located in a school district contiguous to the school district which is transporting the nonpublic school pupils, or may contract with the contiguous public school district

in which a nonpublic school is located for the contiguous school district to transport the nonpublic school pupils to the nonpublic school of attendance within the boundary lines of the contiguous school district.

c. If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence and the district of residence meets the requirements of subsections 14 to 16 of this section by using subsection 17, paragraph "c", of this section and the district in which the nonpublic school is located is contiguous to the district of the pupil's residence and is willing to provide transportation under subsection 17, paragraph "a" or "b", of this section, the district in which the nonpublic school is located may provide transportation services, subject to section 285.9, subsection 3, and may make the claim for reimbursement under section 285.2. The district in which the nonpublic school is located shall notify the district of the pupil's residence that it is making the claim for reimbursement, and the district of the pupil's residence shall be relieved of the requirement for providing transportation and shall not make a claim for reimbursement for those nonpublic school pupils for which a claim is filed by the district in which the nonpublic school is located.

17. The public school district may meet the requirements of subsections 14 to 16 by any of the following:

a. Transportation in a school bus operated by a public school district.

b. Contracting with private parties as provided in section 285.5. However, contracts shall not provide payment in excess of the average per pupil transportation costs of the school district for that year.

c. Utilizing the transportation reimbursement provision of subsection 3.

d. Contracting with a contiguous public school district to transport resident nonpublic school pupils the entire distance from the nonpublic pupil's residence to the nonpublic school located in the contiguous public school district or from the boundary line of the public school district to the nonpublic school.

18. The director of the department of education may review all transportation arrangements to see that they meet all legal and established uniform standard requirements.

19. Transportation authorized by this chapter is exempt from all laws of this state regulating common carriers.

20. Transportation for which the pro rata cost or other charge is collected shall not be provided outside the state of Iowa except in accordance with rules adopted by the department of education in accordance with chapter 17A. The rules shall take into account any applicable federal requirements.

21. Boards in districts operating buses may in their discretion transport senior citizens, chil-

dren, persons with disabilities, and other persons and groups, who are not otherwise entitled to free transportation, and shall collect the pro rata cost of transportation. Transportation under this subsection shall not be provided when the school bus is being used to transport pupils to or from school unless the board determines that such transportation is desirable and will not interfere with or delay the transportation of pupils.

22. Notwithstanding subsection 1, paragraph "a", a parent or guardian of an elementary pupil entitled to transportation pursuant to subsection 1, may request that a child care facility be designated for purposes of subsection 9 rather than the residence of the pupil. The request shall be submitted for a period of time of at least one semester and may not be submitted more than twice during a school year.

285.2 Payment of claims for nonpublic school pupil transportation.

Boards of directors of school districts shall be required to provide transportation services to nonpublic school pupils as provided in section 285.1 when the general assembly appropriates funds to the department of education for the payment of claims for transportation costs submitted by the school district.

There is appropriated from the general fund of the state to the department of education funds sufficient to pay the approved claims of public school districts for transportation services to nonpublic school pupils as provided in this section. The portion of the amount appropriated for approved claims under section 285.1, subsection 3, shall be determined under section 285.3.

The costs of providing transportation to nonpublic school pupils as provided in section 285.1 shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. The reimbursements provided in this section are miscellaneous income as defined in section 257.2.

Claims for reimbursement shall be made to the department of education by the public school dis-

A claim shall not exceed the average transportation costs of the district per pupil transported except as otherwise provided. 285.3 Parental reimbursement for nonpublic school pupil transportation.

The portion of the amount appropriated under section 285.2 to pay claims to reimburse parents or guardians of nonpublic school pupils for furnishing transportation for their children is equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year's statewide average per pupil transportation cost as determined by the department of

education multiplied by the total number of nonpublic school pupils for which the parent or guardian furnishes transportation, except that all elementary pupils and two members of a family who attend a nonpublic high school shall be included in the total number.

The amount of an approved claim to a parent or guardian for furnishing transportation shall include a base payment, and may include a supplemental payment, determined under this section. The base payment is equal to the amount of the reimbursement determined under section 285.1, subsection 3.

294.12 Pension fund held for survivors upon termination.

In the event of such termination, all assessments of teachers shall cease upon such date of termination, or upon such earlier date as may be prescribed in such resolution, and no additional taxes shall be levied or assessed for the operation of such system, save as in section 294.13. All undisposed of funds and accumulations derived from the operation of said system, including the proceeds, when collected, of any annual tax heretofore levied for the operation of said system, and including the proceeds of any annual tax levied hereafter pursuant to the provisions of section 294.13, shall constitute a retirement liquidation fund. Such liquidation fund shall be held for the benefit

of those surviving beneficiaries under such system as of said date of termination, and of members of such system as of date of termination. There shall be set aside from such retirement liquidation fund an amount sufficient to provide for the payment of all surviving beneficiaries who shall be entitled to receive benefits under such system as of said date of termination, providing an actuarial computation has been made of the amount required to meet such benefit payments, providing the amount in the retirement liquidation fund is sufficient for this purpose, and the amount set aside shall be used for no other purpose than for the payment of claims to such beneficiaries. Any amount in excess of the actuarial equivalent of the sum required to pay such benefit payments shall be apportioned to persons who were as of the effective date of the termination of the system, members of such system, in proportion to the amount which the accumulated contribution of each such person bears to the total funds of such retirement system subject to such apportionment. In any case where the board of directors of a school district including a teachers retirement system established under the provisions of section 294.8, whose members were not under coverage of the Iowa old-age and survivors' insurance system prior to May 1, 1953, the board of directors may authorize the payment from funds in excess of the actuarial amount estimated as required for the payment of benefits to persons entitled to them, and for the purpose of obtaining retroactive social security coverage from January 1, 1951, until the effective date of federal coverage of Iowa public employees as provided by chapter 97C. Each surviving beneficiary entitled to receive retirement benefits of the date of termination of the system will be entitled to receive retirement benefits at the time and in the amount in effect with respect to such beneficiary immediately prior to the date of termination.

In any school district which has pursuant to section 294.11 terminated a previously existing pension and annuity retirement system and has after actuarial computation established a retirement reserve fund pursuant to this section in order to pay to surviving beneficiaries entitled to receive retirement benefits at date of termination of said system in the amount in effect with respect to such beneficiaries immediately prior to the date of ter-

mination, the board of directors may authorize each and every payment to each surviving beneficiary falling due subsequent to June 30, 1971, to be increased by an amount to be determined by the board such increased payments to be paid from the retirement reserve fund according to an actuarial computation thereof plus such additional amounts transferred from the general fund as may be required. In order to provide the additional amounts required from the general fund for such increased payments, the board of directors may annually at the meeting at which it estimates the amount required for the general fund in accordance with section 298.1 estimate such additional amount as an actuarial computation shall show is necessary from the general fund for the payment of such increased benefits for the current school year; provided the amount estimated and certified to be transferred from the general fund to the retirement reserve fund shall not exceed one and four-tenths cents per thousand dollars of the assessed valuation of the taxable property of the school corporation. The board of supervisors shall in accordance with the provisions of section 298.8 levy the taxes necessary to raise the amount estimated by the board of directors as above provided and certified to the board of supervisors. Upon the death of the last beneficiary to survive, any balance remaining in said retirement reserve fund shall be transferred to the general fund of said school district.

Notwithstanding the provisions of this section, the plan provisions of a pension and annuity retirement system of a school district established under this chapter regarding the determination and distribution of benefits upon termination of the retirement system shall be effective if the school district has received a favorable determination letter from the federal internal revenue service as to the qualified status of such retirement system under applicable provisions of the Internal Revenue Code.

The deductions shall be made in the manner which will qualify the annuity premiums for the benefits under section 403(b) of the

Internal Revenue Code, as defined in section 422.3. The employee's rights under the annuity contract are nonforfeitable except for the failure to pay premiums. As used in this section, unless the context otherwise requires, "annuity contract" includes any custodial account which meets the re-

DIVISION I

EDUCATIONAL EXCELLENCE PROGRAM

294A.1 Educational excellence program.

The purpose of this chapter is to promote excellence in education. In order to maintain and advance the educational excellence in the state of Iowa, this chapter establishes the Iowa educational excellence program. The program shall consist of three major phases addressing the following:

1. Phase I — The recruitment of quality teachers.
2. Phase II — The retention of quality teachers.
3. Phase III — The enhancement of the quality and effectiveness of teachers through the utilization of performance pay.

87 Acts, ch 224, §1

294A.2 Definitions.

For the purposes of this chapter:

1. "Certified enrollment in a school district" for the school years beginning July 1, 1987, July 1, 1988, and July 1, 1989, means that district's basic enrollment for the budget year beginning July 1, 1987, as defined in section 442.4, Code 1989. For each school year thereafter, certified enrollment in a school district means that district's basic enrollment for the budget year as defined in section 442.4, Code 1989, or section 257.2.

2. "Enrollment served" for the fiscal years beginning July 1, 1987, July 1, 1988, and July 1, 1989, means that area education agency's enrollment served for the budget year beginning July 1, 1987. For each school year thereafter, enrollment served means that area education agency's enrollment served for the budget year. Enrollment served shall be determined under section 257.37.

3. "General training requirements" means requirements prescribed by a board of directors that

provide for the acquisition of additional semester hours of graduate credit from an institution of higher education approved by the state board of education or the completion of staff development activities licensed by the board of educational examiners, except for programs developed by practitioner preparation institutions and area education agencies, for renewal of licenses issued under chapter 272.

4. “*Specialized training requirements*” means requirements prescribed by a board of directors to meet specific needs of the school district identified by the board of directors that provide for the acquisition of clearly defined skills through formal or informal education that are beyond the requirements necessary for initial licensing under chapter 272.

5. “*Teacher*” means an individual holding a practitioner’s license issued under chapter 272, or a letter of authorization or statement of professional recognition issued by the board of educational examiners, who is employed in a nonadministrative position by a school district or area education agency pursuant to a contract issued by a board of directors under section 279.13. A teacher may be employed in both an administrative and a nonadministrative position by a board of directors and shall be considered a part-time teacher for the portion of time that the teacher is employed in a nonadministrative position.

“*Teacher*” includes a licensed individual employed on less than a full-time basis by a school district through a contract between the school district and an institution of higher education with a practitioner preparation program in which the licensed teacher is enrolled in any practitioner preparation program.

6. “*Teacher’s regular compensation*” means the annual salary specified in a teacher’s contract pursuant to the salary schedule adopted by the board of directors or negotiated under chapter 20. It does not include pay earned by a teacher for performance of additional noninstructional duties and does not include the costs of the employer’s share of fringe benefits.

294A.3 Educational excellence fund.

An educational excellence fund is established in the office of treasurer of state to be administered by the department of education. Moneys appropriated by the general assembly for deposit in the fund shall be paid to school districts and area education agencies pursuant to the requirements of this chapter and shall be expended only to pay for increases in the regular compensation of teachers and other salary increases for teachers, to pay the costs of the employer’s share of federal social security and Iowa public employees’ retirement

system, or a pension and annuity retirement system established under chapter 294, payments on the salary increases, and to pay costs associated with providing specialized or general training. Moneys received by school districts and area education agencies shall not be used for pay earned by a teacher for performance of additional noninstructional duties.

If moneys are appropriated by the general assembly to the fund for distribution under this chapter the moneys shall be allocated by the department so that the allocations of moneys for phases I and II are made prior to the allocation of moneys for phase III.

87 Acts, ch 224, §3

DIVISION II

PHASE I

294A.4 Goal.

The goal of phase I is to provide for establishment of pay plans incorporating sufficient annual compensation to attract quality teachers to Iowa’s public school system. This is accomplished by increasing the minimum salary. A beginning salary which is competitive with salaries paid to other professionals will provide incentive for top quality individuals to enter the teaching profession.

87 Acts, ch 224, §4

294A.5 Minimum salary supplement.

1. For the school year beginning July 1, 1998, and succeeding school years, the minimum annual salary paid to a full-time teacher as regular compensation shall be twenty-three thousand dollars.

2. The minimum salary supplement shall be the sum of the following, as applicable:

a. For the school year beginning July 1, 1998, for phase I, each school district and area education agency shall certify to the department of education by the third Friday in September the names of all teachers employed by the district or area education agency whose regular compensation is less than twenty-three thousand dollars per year for that year and the amounts needed as minimum salary supplements. The minimum salary supplement for each eligible teacher is the total of the difference between twenty-three thousand dollars and the teacher’s regular compensation plus the amount required to pay the employer’s share of the federal social security and Iowa public employees’ retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary moneys. However, for purposes of this paragraph, a teacher’s regular compensation for the school year beginning July 1, 1998, shall not be lower than eighteen thousand dollars.

b. The total minimum salary supplement paid to a school district under phase I for the school year beginning July 1, 1997.

3. The board of directors shall report the salaries of teachers employed on less than a full-time equivalent basis, and the amount of minimum salary supplement shall be prorated.

87 Acts, ch 224, §5; 98 Acts, ch 1216, §33

294A.6 Payments.

For the school year beginning July 1, 1998, the department of education shall notify the department of revenue and finance of the total minimum salary supplement, as described in section 294A.5, subsection 2, paragraphs "a" and "b", to be paid to each school district and area education agency under phase I and the department of revenue and finance shall make the payments. For school years after the school year beginning July 1, 1998, if a school district or area education agency reduces the number of its full-time equivalent teachers below the number employed during the school year beginning July 1, 1998, the department of revenue and finance shall reduce the total minimum salary supplement payable to that school district or area education agency so that the amount paid is equal to the ratio of the number of full-time equivalent teachers employed in the school district or area education agency for that school year divided by the number of full-time equivalent teachers employed in the school district or area education agency for the school year beginning July 1, 1998, and multiplying that fraction by the total minimum salary supplement paid to that school district or area education agency for the school year beginning July 1, 1998.

If the moneys allocated for phase I for a school year exceed the moneys required to pay the total minimum salary supplements to all school districts and area education agencies, the board of directors of a school district that has employed one or more additional teachers as a result of a whole grade sharing agreement completed under section 282.7 may request approval from the department of education for additional funding for its minimum salary supplement for that school year and succeeding school years if the other school district or districts that are parties to the sharing agreement have correspondingly reduced their number of teachers. If the department of education approves the payment of the additional salary supplement to a district, the department shall certify to the department of revenue and finance that the additional payment be made. The payment shall be equal to the amount of the difference between eighteen thousand dollars and the teacher's regular compensation, plus the amount required to make the payments on the additional salary moneys for the employer's share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294. If the phase I moneys remaining are insufficient to pay the entire amount approved by the department of educa-

tion, the department of revenue and finance shall prorate the payments to school districts.

DIVISION III

PHASE II

294A.8 Goal.

The goal of phase II is to keep Iowa's best educators in the profession and assist in their development by providing general salary increases.

87 Acts, ch 224, §7

294A.9 Phase II program.

Phase II is established to improve the salaries of teachers. For each fiscal year beginning on or after July 1, 1992, the per pupil amount upon which the phase II moneys are based is equal to the per pupil allocation plus supplemental allocations for the immediately preceding fiscal year.

The department of education shall certify the amounts of the allocations for each school district and area education agency to the department of revenue and finance and the department of revenue and finance shall make the payments to school districts and area education agencies.

If a school district has discontinued grades under section 282.7, subsection 1, or students attend school in another school district, under an agreement with the board of the other school district, the board of directors of the district of residence either shall transmit the phase II moneys allocated to the district for those students based upon the full-time equivalent attendance of those students to the board of the school district of attendance of the students or shall transmit to the board of the school district of attendance of the students a portion of the phase II moneys allocated to the district of residence based upon an agreement between the board of the resident district and the board of the district of attendance.

If a school district uses teachers under a contract between the district and the area education agency in which the district is located, the school district shall transmit to the employing area education agency a portion of its phase II allocation based upon the portion that the salaries of teachers employed by the area education agency and assigned to the school district for a school year bears to the total teacher salaries paid in the district for that school year, including the salaries of the teachers employed by the area education agency.

If the school district or area education agency is organized under chapter 20 for collective bargaining purposes, the board of directors and certified bargaining representative for the licensed employees shall mutually agree upon a formula for

distributing the phase II allocation among the teachers. For the school year beginning July 1, 1987 only, the parties shall follow the procedures specified in chapter 20 except that if the parties reach an impasse, neither impasse procedures agreed to by the parties nor sections 20.20 through 20.22 shall apply and the phase II allocation shall be divided as provided in section 294A.10. Negotiations under this section are subject to the scope of negotiations specified in section 20.9. If a board of directors and certified bargaining representative for licensed employees have not reached mutual agreement by July 15, 1987 for the distribution of the phase II payment, section 294A.10 will apply.

If the school district or area education agency is not organized for collective bargaining purposes, the board of directors shall determine the method of distribution.

294A.10 Failure to agree on distribution.

For the school year beginning July 1, 1987 only, if the board of directors and certified bargaining representative for the licensed employees have not reached agreement under section 294A.9, the board of directors shall divide the payment among the teachers employed by the district or area education agency as follows:

1. All full-time teachers whose regular compensation is equal to or more than the minimum salary for phase I will receive an equal amount from the phase II allocation.

2. A teacher who will receive a minimum salary supplement under section 294A.5 will receive moneys equal to the difference between the amount from the phase II allocation and the minimum salary supplement paid to that teacher.

3. The amount from the phase II allocation will be prorated for a teacher employed on less than a full-time basis.

4. An amount from the phase II allocation includes the amount required to pay the employers' share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, payments on the additional salary.

DIVISION IV

PHASE III

294A.12 Goal.

The goal of phase III is to enhance the quality, effectiveness, and performance of Iowa's teachers

by promoting teacher excellence. This will be accomplished through the development of performance-based pay plans and supplemental pay plans requiring additional instructional work assignments which may include specialized training or differential training, or both.

It is the intent of the general assembly that school districts and area education agencies incorporate into their planning for performance-based pay plans and supplemental pay plans, implementation of recommendations from recently issued national and state reports relating to the requirements of the educational system for meeting future educational needs, especially as they relate to the preparation, working conditions, and responsibilities of teachers, including but not limited to assistance to new teachers, development of teachers as instructional leaders in their schools and school districts, using teachers for evaluation and diagnosis of other teachers' techniques, and the implementation of sabbatical leaves. It is also the intent of the general assembly that a performance-based pay plan and supplemental pay plan submitted by a district include a parent involvement policy designed to increase student achievement and self-esteem by bringing home and school into closer relationship and that provides methods by which parents and teachers may cooperate intelligently in the education of children. It is further the intent of the general assembly that real and fundamental change in the educational system must emerge from the school site if the education system is to remain relevant and that plans funded in this program must be an integral part of a comprehensive school district or area education agency effort toward meeting identified district or agency goals or needs.

87 Acts, ch 224, §11; 90 Acts, ch 1141, §1; 93 Acts, ch 105, §1

294A.13 Phase III program.

For the school year beginning July 1, 1987, and succeeding school years, each school district and area education agency that meets the requirements of this division is eligible to receive moneys for the implementation under phase III of a performance-based pay plan or supplemental pay plan, or a combination of the two.

87 Acts, ch 224, §12; 96 Acts, ch 1034, §17

294A.14 Phase III payments.

For each fiscal year, the department shall allocate the remainder of the moneys appropriated by the general assembly to the fund for phase III, subject to section 294A.18. If fifty million dollars is allocated for phase III, the payments for an approved plan for a school district shall be equal to the product of a district's certified enrollment and ninety-eight dollars and sixty-three cents, and for an area education agency shall be equal to the product of an area education agency's enrollment served and four dollars and sixty cents. If the mon-

neys allocated for phase III are either greater than or less than fifty million dollars, the department of education shall adjust the amount for each student in certified enrollment and each student in enrollment served based upon the amount allocated for phase III.

If a school district has discontinued grades under section 282.7, subsection 1, or students attend school in another school district, under an agreement with the board of the other school district, the board of directors of the district of residence either shall transmit the phase III moneys allocated to the district for those students based upon the full-time equivalent attendance of those students to the board of the school district of attendance of the students or shall transmit to the board of the school district of attendance of the students a portion of the phase III moneys allocated to the district of residence based upon an agreement between the board of the resident district and the board of the district of attendance.

A plan shall be developed using the procedure specified under section 294A.15. The plan shall provide for the establishment of a performance-based pay plan, a supplemental pay plan, a combination of the two pay plans, or comprehensive school transformation programs, and shall include a budget for the cost of implementing the plan. In addition to the costs of providing additional salary for teachers and the amount required to pay the employers' share of the federal social security and Iowa public employees' retirement system, or a pension and annuity retirement system established under chapter 294, and payments on the additional salary, the budget may include costs associated with providing specialized or general training. Moneys received under phase III shall not be used to employ additional employees of a school district, except that phase III moneys may be used to employ substitute teachers, part-time teachers, and other employees needed to implement plans that provide innovative staffing patterns or that require that a teacher employed on a full-time basis be absent from the classroom for specified periods for fulfilling other instructional duties. However, all teachers employed are eligible to receive additional salary under an approved plan.

For the purpose of this section, a performance-based pay plan shall provide for salary increases for teachers who demonstrate superior performance in completing assigned duties. The plan shall include the method used to determine superior performance of a teacher. For school districts, the plan may include assessments of specific teaching behavior, assessments of student performance, assessments of other characteristics associated with effective teaching, or a combination of these criteria.

For school districts, a performance-based pay plan may provide for additional salary for individual teachers, for teachers assigned to a specific

discipline, or for all teachers assigned to an attendance center. For area education agencies, a performance-based pay plan may provide for additional salary for individual teachers, for additional salary for all teachers assigned to a specific discipline within an area education agency, or for additional salary for individual teachers assigned to a multidisciplinary team within an area education agency. If the plan provides additional salary for all teachers assigned to an attendance center, specific discipline, or multidisciplinary team, the receipt of additional salary by those teachers shall be determined on the basis of whether that attendance center, specific discipline, or multidisciplinary team meets specific objectives adopted for that attendance center, specific discipline, or multidisciplinary team. For school districts, the objectives may include, but are not limited to, decreasing the dropout rate, increasing the attendance rate, or accelerating the achievement growth of students enrolled in that attendance center through the use of learning techniques that may include, but are not limited to, reading instruction in phonics or whole language techniques.

If a performance-based pay plan provides additional salary for individual teachers:

1. The plan may provide for salary moneys in addition to the existing salary schedule of the school district or area education agency and may require the participation by the teacher in specialized training requirements.

2. The plan may provide for salary moneys by replacing the existing salary schedule or as an option to the existing salary schedule and may include specialized training requirements, general training requirements, and experience requirements.

A supplemental pay plan may provide for supplementing the costs of vocational agriculture programs as provided in section 294A.17.

For the purpose of this section, a supplemental pay plan in a school district shall provide for the payment of additional salary to teachers who participate in either additional instructional work assignments or specialized training during the regular school day or during an extended school day, school week, or school year. A supplemental pay plan in an area education agency shall provide for the payment of additional salary to teachers who participate in either additional work assignments or improvement of instruction activities with school districts during the regular school day or during an extended school day, school week, or school year.

For school districts, additional instructional work assignments may include but are not limited to general curriculum planning and development, vertical articulation of curriculum, horizontal curriculum coordination, development of educational measurement practices for the school district, participation in assessment activities leading to certification by the national board for professional

teaching standards, attendance at workshops and other programs for service as cooperating teachers for student teachers, development of plans for assisting beginning teachers during their first year of teaching, attendance at summer staff development programs, development of staff development programs for other teachers to be presented during the school year, participation in family support programs, development of programs which provide instruction in conflict resolution and mediation techniques for staff and students, development of anger management instructional programs for students, and other plans locally determined in the manner specified in section 294A.15 and approved by the department of education under section 294A.16 that are of equal importance or more appropriately meet the educational needs of the school district.

For area education agencies, additional instructional work assignments may include but are not limited to providing assistance and support to school districts in general curriculum planning and development, providing assistance to school districts in vertical articulation of curriculum and horizontal curriculum coordination, development of educational measurement practices for school districts in the area education agency, development of plans for assisting beginning teachers during their first year of teaching, attendance or instruction at summer staff development programs, development of staff development programs for school district teachers to be presented during the school year, participation in family support programs, development of staff development programs which provide instruction in conflict resolution and mediation techniques, assisting school district teachers in the development of anger management instructional programs for students, and other plans determined in the manner specified in section 294A.15 and approved by the department of education under section 294A.16 that are of equal importance or more appropriately meet the educational needs of the area education agency.

Any summer school program, for which the teacher's salary is paid or supplemented under a supplemental pay plan, shall be open to nonpublic school students in the manner provided in section 256.12.

For purposes of this section, "*comprehensive school transformation*" means activities which focus on the improvement of student achievement and the attainment of student achievement goals under sections 280.12 and 280.18. A comprehensive school transformation plan submitted by a school district shall demonstrate the manner in which the components of the plan are integrated with a school's student achievement goals. Components of the plan may include, but are not limited to, providing salary increases to teachers who implement site-based shared decision making, building-based goal-oriented compensation mech-

anism, or approved innovative educational programs; who focus on student outcomes; who direct accountability for student achievement or accountability for organizational success; and who work to foster relationships between a school and businesses or public agencies which provide health and social services.

294A.15 Development of plan.

The board of directors of a school district desiring to receive moneys under phase III shall appoint a committee consisting of representatives of school administrators, teachers, parents, and other individuals interested in the public schools of the school district to develop a proposal for distribution of phase III moneys to be submitted to the board of directors. The board of directors of an area education agency desiring to receive moneys under phase III shall appoint a committee of similar membership to develop a proposal. If the school district or area education agency is organized under chapter 20 for collective bargaining purposes, the board shall provide that one of the teacher members of the committee is an individual selected by the certified bargaining representative for licensed employees of the district or area education agency. The proposal developed by the committee shall be submitted to the board of directors of the school district or area education agency for consideration by the board in developing a plan. For the school year beginning July 1, 1987, if the school district or area education agency is organized for collective bargaining purposes under chapter 20, the portions of the proposed plan that are within the scope of negotiations specified in section 20.9 require the mutual agreement by January 1, 1988 of both the board of directors of the school district or area education agency and the certified bargaining representative for the licensed employees. In succeeding years, if the school district or area education agency is organized for collective bargaining purposes, the portions of the proposed plan that are within the scope of the negotiations specified in section 20.9 are subject to chapter 20.

Effective July 1, 1989, a plan adopted by the board of directors of a school district or area education agency may include as a part of the plan a proposal that expands a performance-based pay plan or a supplemental pay plan, or a combination of the two pay plans, that meets the criteria listed in section 294A.14 and was in effect in the school district or area education agency prior to July 1, 1987. The budget for the plan submitted to the department of education shall include both the general fund moneys, which must be equal to those used

prior to July 1, 1987, and the phase III moneys which expand the activity, and is for programs that would meet the criteria listed in section 294A.14.

Nothing in this chapter shall be construed to expand or restrict the scope of negotiations in section 20.9.

294A.16 Plan — moneys.

A plan adopted by the board of directors of a school district or area education agency shall be submitted to the department of education not later than May 31 of a school year for that school year for a school district, and not later than June 15 of a school year for that school year for an area education agency. Amendments to multiple year plans may be submitted annually.

If a school district uses teachers under a contract between the district and the area education agency in which the district is located and both the school district and the area education agency have approved phase III plans, the school district shall transmit to the employing area education agency a portion of its phase III moneys based upon the portion that the salaries of teachers employed by the area education agency and assigned to the school district for the school year bears to the total teacher salaries paid in the district for that school year, including the salaries of the teachers employed by the area education agency. If the area education agency has an approved phase III plan and the school district does not, the department of management shall transmit phase III moneys to the area education agency for those teachers from the phase III money that would have been paid to the school district if the school district had had an approved phase III plan using the formula that would have been used if the school district had had an approved phase III plan.

The department of education shall review each plan and its budget and notify the department of management of the names of school districts and area education agencies with approved plans. In considering the approval of a plan submitted by a school district, the department shall give emphasis to plans which include a comprehensive school transformation plan or which include a component which is part of a statewide systemic school transformation initiative. In considering the approval of a plan submitted by an area education agency, the department shall give emphasis to plans which are integrated with and supportive of the comprehensive school transformation plans submitted by the school districts within the area education agency.

A school district or area education agency, which receives money for a school year for an approved phase III plan, may retain up to fifty percent of the moneys allocated to the district or area education

agency for the next succeeding school year, in order to continue the approved plan. Any of the retained phase III moneys remaining in the district or area education agency account after the second year of the plan shall revert to the general fund of the state as provided in section 8.33.

Any moneys allocated or retained for an approved phase III plan, and any interest accrued on the moneys, shall not be commingled with state aid payments made, under sections 257.16 and 257.35, to a school district or area education agency and shall be accounted for by the school district or area education agency separately from state aid payment accounts.

The report shall describe the plan, its objectives, its implementation, the expenditures made under the plan including the salary increases paid to each eligible employee, and the extent to which its objectives were attained. The report may include any proposed amendments to the plan for the next following school year.

Annually, by November 1, the department shall summarize the information contained in the phase III reports filed by the school districts and area education agencies. The summary shall con-

tain information including the numbers of districts and area education agencies that have implemented a performance-based pay plan, a supplemental pay plan, a combination of a performance-based and supplemental pay plan, and the number of districts and area education agencies that have established comprehensive school transformation programs. The summary shall highlight and briefly describe innovative and successful uses of phase III funds that have had a positive effect on student achievement within the district as measured by means of a widely recognized educational assessment tool or test. The department, in conjunction with the legislative fiscal bureau, shall identify additional items to be reported. Copies of the annual summary shall be submitted to each school district, the general assembly, and the legislative fiscal bureau by December 1.

295.2 School improvement technology appropriation.

1. *a.* There is appropriated from the general fund of the state to the department of education for the fiscal year beginning July 1, 1996, and ending June 30, 1997, the sum of fifteen million dollars for the school improvement technology program.

b. There is appropriated from the rebuild Iowa infrastructure account of the state to the department of education for the fiscal year beginning July 1, 1996, and ending June 30, 1997, the sum of fifteen million dollars for the school improvement technology program.

2. From the moneys appropriated in subsection 1 other than the moneys allocated in subsection 3, for each fiscal year in which moneys are appropriated, the amount of moneys allocated to school districts shall be in the proportion that the basic enrollment of a district bears to the sum of the basic enrollments of all school districts in the state for the budget year. However, except as provided in subsection 8, a district shall not receive less than fifteen thousand dollars in a fiscal year. The Iowa braille and sight saving school, the state school for the deaf, and the Price laboratory school at the university of northern Iowa shall annually certify their basic enrollments to the department of education by October 1. An area education agency may contract with an appropriate accredited institution of higher education in Iowa to provide staff development and training in accordance with section 295.3.

4. For each year in which an appropriation is made to the school improvement technology program, the department of education shall notify the department of revenue and finance of the amount to be paid to each school district and area education agency based upon the distribution plan set forth for the appropriation made pursuant to this section. The allocation to each school district and area education agency under this section shall be made in one payment on or about October 15 of the

fiscal year in which the appropriation is made, taking into consideration the relative budget and cash position of the state resources. Prior to the receipt of funds, school districts shall provide to the department of education adequate assurance that they have developed or are developing a technology plan as required by section 295.3 and that funds received under this section will be used in accordance with the required technology plan.

5. Moneys received under this section shall not be commingled with state aid payments made under sections 257.16 and 257.35 to a school district or area education agency and shall be accounted for by the local school district or area education agency separately from state aid payments.

6. Payments made to school districts and area education agencies under this section are miscellaneous income for purposes of chapter 257 or are considered encumbered. Each local school district and area education agency shall maintain a separate listing within their budgets for payments received and expenditures made pursuant to this section.

7. Moneys received under this section shall not be used for payment of any collective bargaining agreement or arbitrator's decision negotiated or awarded under chapter 20.

The plan shall be developed by licensed professional staff of the district, including both teachers and administrators. The plan shall, at a minimum, focus on the attainment of student achievement goals under sections 280.12 and 280.18, shall consider the district's interconnectivity with the Iowa communications network, and shall demonstrate how, over a four-year period, the board will utilize technology to improve student achievement. A district needs to de-

velop only one plan while this chapter is effective. The technology plan shall be kept on file in the district and a copy of the plan, and any subsequent amendments to the plan, shall be sent to the appropriate area education agency. Progress made under the plan shall be included as part of the annual report submitted to the department of education in compliance with sections 280.12 and 280.18.

2. Prior to receiving funds under this chapter, each area education agency shall develop a plan to assist school districts in the development of a technology planning process to meet the purposes of this chapter. The plan shall describe how the area education agency intends to support school districts with instructional technology staff development and training. The department shall approve each plan prior to the disbursement of funds. An area education agency needs to develop only one plan and send it to the department of education while this chapter is effective. An annual progress report shall be submitted to the department of education.

3. Prior to receiving funds under this chapter, the Iowa braille and sight saving school, the state school for the deaf, and the Price laboratory school at the university of northern Iowa shall each develop a technology plan that supports and improves student achievement, demonstrates how technology will be utilized to improve student achievement, and includes an evaluation component. The schools listed in this subsection need to develop only one plan each to send to the state board of regents and the department of education while this chapter is effective. An annual progress report shall be submitted to the state board of regents and the department of education.

4. The institutions under the control of the department of human services as provided in section 218.1, subsections 1 through 3, 5, 7, and 8, shall each develop a technology plan that supports and improves student achievement, demonstrates the manner in which technology will be utilized to improve student achievement, and includes an evaluation component. Each institution developing a plan under this subsection needs to develop only

one plan to send to the departments of human services and education while this chapter is effective. Each institution shall submit an annual progress report to the departments of human services and education.

However, funds received by a school district pursuant to section 295.2 shall not be expended to add a full-time equivalent position or otherwise increase staffing, unless the school district expends not more than ten percent of the funds received to employ or enter into a contract with information technology specialists to provide technical consulting and integration of technology in curriculum and instruction to advance student achievement.

2. Funds received by an area education agency pursuant to section 295.2 shall be expended for the costs related to supporting school districts within the area served with technology planning and equipment, including hardware and software, materials and supplies related to instructional technology, employment of or contracting with information technology specialists to provide technical consulting and integration of technology in curriculum and instruction, and staff development and training related to instructional technology.

296.7 Indebtedness for insurance authorized — tax levy.

1. A school district or community college corporation may contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district or corporation to make payments beyond its current budget year for one or more of the following mechanisms to protect the school district or corporation from tort liability, loss of property, environmental hazards, or any other risk associated with the operation of the school district or corporation:

- a. To procure or provide for a policy of insurance.
- b. To provide a self-insurance program.
- c. To establish and maintain a local government risk pool.

However, this subsection does not apply to an insurance program described in subsection 3.

2. For purposes of subsection 1, an employee benefit plan which includes a specific or aggregate excess loss coverage or a program that self-insures only a per-employee or per-family deductible for each year and which transfers the risk remaining beyond this deductible is not a self-insurance program, but is instead an insurance program. As used in this section, an "employee benefit plan" includes, but is not limited to benefits for hospital and surgical, medical expense, major medical,

dental, prescription drug, disability, or life insurance costs or benefits.

3. A school district, providing an insurance program as described in subsection 2, shall not contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district to make payments beyond its current budget year for that employee benefit plan. A school district may, however, apply to the school budget review committee for relief if necessitated by the expenses in the school district's insurance program as described in subsection 2.

4. Taxes may be levied in excess of any limitation imposed by statute for payment of one or more of the following authorized by subsection 1:

- a. Principal, premium, or interest on bonds.
- b. Premium on an insurance policy, including a stop loss or reinsurance policy, except as limited by subsection 3.
- c. Costs of a self-insurance program.
- d. Costs of a local government risk pool.
- e. Amounts payable under an insurance agreement.

However, for a school district, a tax levied under this section shall be included in the district man-

agement levy under section 298.4.

5. A self-insurance program or local government risk pool authorized by subsection 1 is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

6. Notwithstanding the other provisions of this section or any other statute, the tax levy authorized by this section shall not be used to pay the costs of employee benefits, including, but not limited to costs for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance benefits.

7. If the board by resolution restricts the use of money in a fund as a reserve for uninsured liability or a self-insurance program, the use shall be restricted and unavailable for any other purpose until the board removes the restriction. The removal is not effective until all obligations of the restricted fund have been satisfied, or the next fiscal year, whichever occurs later.

SALE OR LEASE OF PROPERTY

297.22 Power to sell, lease, or dispose of property — tax.

1. The board of directors of a school district may sell, lease, or dispose of, in whole or in part, a schoolhouse, site, or other property belonging to the district. If the real property contains less than two acres, is located outside of a city, is not adjacent to a city, and was previously used as a schoolhouse site, the procedure contained in sections 297.15 through 297.20 shall be followed in lieu of this section.

Proceeds from the sale or disposition of real property shall be placed in the physical plant and equipment levy fund. Proceeds from the sale or disposition of property other than real property shall be placed in the general fund. Proceeds from the lease of real or other property shall be placed in the general fund.

Before the board of directors may sell, lease for a period in excess of one year, or dispose of any

property belonging to the school, the board shall hold a public hearing on the proposal. The board shall set forth its proposal in a resolution and shall publish notice of the time and the place of the public hearing on the resolution. The notice shall also describe the property. A locally known address for real property may be substituted for a legal description of real property contained in the resolution. Notice of the time and place of the public hearing shall be published at least once not less than ten days but not more than twenty days prior to the date of the hearing in a newspaper of general circulation in the district. After the public hearing, the board may make a final determination on the proposal contained in the resolution.

However, property having a value of not more than five thousand dollars, other than real property, may be disposed of by any procedure which is adopted by the board and each sale shall be published by at least one insertion each week for two consecutive weeks in a newspaper having general circulation in the district.

2. The board of directors of a school district may sell, lease, exchange, give, or grant, and accept any interest in real property to, with, or from a county, municipal corporation, school district, township, or area education agency if the real property is within the jurisdiction of both the grantor and grantee.

The board of directors of a school district may lease a portion of an existing school building in which the remaining portion of the building will be used for school purposes for a period of not to exceed five years. The lease may be renewed at the option of the board. The notice and public hearing requirements of subsection 1 of this section do not apply to the lease of a portion of an existing school building. A school district shall pay out of the revenue from a lease to the state of Iowa, and to the city, school district and any other political subdivision authorized to levy taxes, an amount as determined by this section. The amount shall be determined by applying the annual tax rate of the taxing district to the assessed value of the portion of the building leased, prorated for the term of the lease during the appropriate taxing period. The provisions of this section relating to the payment of property tax because of leases shall only apply to leases to private, for-profit entities which lease a portion of a school building for a period of thirty or more consecutive days.

3. The provisions in subsections 1 and 2 relating to the sale, lease, or disposition of school district property do not apply to student-constructed buildings and the property on which student-constructed buildings are located. The board of directors of a school district may sell, lease, or dispose of a student-constructed building and the property on which the student-constructed building is located, and may purchase sites for the erec-

tion of additional structures, by any procedure which is adopted by the board.

LOAN AGREEMENTS

297.35 Continuation of loan agreement.

A loan agreement between a school district and a bank, investment banker, trust company, insurance company, or insurance group that was made under section 297.36, Code 1989, prior to July 1, 1991, in order to make immediately available proceeds of the schoolhouse tax approved by the voters prior to July 1, 1991, and the levy of taxes to

pay principal and interest thereafter, shall continue in effect for the duration of the loan agreement. 89 Acts, ch 135, §104

297.36 Loan agreements.

In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.

By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.

The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.

The proceeds of a loan must be deposited in the physical plant and equipment levy fund. Warrants

paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the debt service fund for the loan before the taxes are otherwise made available to the school corporation for other school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements if the aggregate of the amount payable under all of the loan agreements does not exceed the proceeds of the voter-approved physical plant and equipment levy.

89 Acts, ch 135, §106

298.2 Imposition of physical plant and equipment levy.

1. A physical plant and equipment levy of not exceeding one dollar and sixty-seven cents per thousand dollars of assessed valuation in the district is established except as otherwise provided in this subsection. The physical plant and equipment levy consists of the regular physical plant and equipment levy of not exceeding thirty-three cents per thousand dollars of assessed valuation in the district and a voter-approved physical plant and equipment levy of not exceeding one dollar and thirty-four cents per thousand dollars of assessed valuation in the district. However, the voter-approved physical plant and equipment levy may consist of a combination of a physical plant and equipment property tax levy and a physical plant and equipment income surtax as provided in subsection 4 with the maximum amount levied and imposed limited to an amount that could be raised by a one dollar and thirty-four cent property tax levy. The levy limitations of this subsection are subject to subsection 6.

2. If the electors of a school district have authorized a voter-approved physical plant and equipment levy not exceeding sixty-seven cents per thousand dollars of assessed valuation in the district prior to July 1, 1997, the levy shall continue for the period authorized under the voter-approved levy, and the maximum levy that can be authorized by the electors under the voter-approved levy on or after July 1, 1997, under this section, is an additional sixty-seven cents for a period to coincide with the period for which the initial physical plant and equipment levy in the district was approved.

3. The board of directors of a school district may certify for levy by April 15 of a school year a tax on all taxable property in the school district for the regular physical plant and equipment levy.

4. The board may, and upon the written request of not less than one hundred eligible electors or thirty percent of the number of eligible electors voting at the last regular school election, whichever is greater, shall, direct the county commissioner of elections to provide for submitting the proposition of levying the voter-approved physical plant and equipment levy for a period of time authorized

by the voters in the notice of election, not to exceed ten years, in the notice of the regular school election. The proposition is adopted if a majority of those voting on the proposition at the election approves it. The voter-approved physical plant and equipment levy shall be funded either by a physical plant and equipment property tax or by a combination of a physical plant and equipment property tax and a physical plant and equipment income surtax, as determined by the board. However, if the board intends to enter into a rental or lease arrangement under section 279.26, or intends to enter into a loan agreement under section 297.36, only a property tax shall be levied for those purposes. Subject to the limitations of section 298.14, if the board uses a combination of a physical plant and equipment property tax and a physical plant and equipment surtax, for each fiscal year the board shall determine the percent of income surtax to be imposed expressed as full percentage points, not to exceed twenty percent.

If a combination of a property tax and income surtax is used, by April 15 of the previous school year, the board shall certify the percent of the income surtax to be imposed and the amount to be raised to the department of management and the department of management shall establish the rate of the property tax and income surtax for the school year. The physical plant and equipment property tax and income surtax shall be levied or imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26.

5. The proposition to levy the voter-approved physical plant and equipment levy is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has adopted the voter-approved physical plant and equipment levy or the sixty-seven and one-half cents per thousand dollars of assessed value schoolhouse levy under section 278.1, subsection 7, Code 1989, prior to July 1, 1991, and if the voters have not voted upon the proposition to levy the voter-approved physical plant and equipment levy in the reorganized district, the existing voter-approved physical plant and equipment levy or the existing schoolhouse levy, as applicable, is in effect for the reorganized district for the least amount and the shortest time for which it is in effect in any of the districts.

Authorized levies for the period of time approved are not affected as a result of a failure of a proposition proposed to expand the purposes for which the funds may be expended.

6. If the board of directors of a school district in which the voters have authorized the schoolhouse tax prior to July 1, 1991, has entered into a rental or lease arrangement under section 279.26, Code 1989, or has entered into a loan agreement under section 297.36, Code 1989, the levy shall

continue for the period authorized and the maximum levy that can be authorized under the voter-approved physical plant and equipment levy is reduced by the rate of the schoolhouse tax.

The revenue from the tax levied in this section shall be placed in the district management levy fund of the school district. The district management levy shall be expended only for the following purposes:

1. To pay the cost of unemployment benefits as provided in section 96.31.

298.7 Contract for use of library — tax levy.

1. The board of directors of a school corporation in which there is no free public library may contract with a free public library for the free use of the library by the residents of the school district, and pay the library the amount agreed upon for the use of the library as provided by law. During the existence of the contract, the board shall certify annually a tax sufficient to pay the library the consideration agreed upon, not exceeding twenty cents per thousand dollars of assessed value of the taxable property of the district. During the existence of the contract, the school corporation is relieved from the requirement that the school treasurer withhold funds for library purposes. This section does not apply in townships where a contract for other library facilities is in existence.

2. However, if a school district which is qualified to contract for library services under subsection 1 levies a tax not to exceed twenty cents per thousand dollars of assessed valuation of the taxable property for school library purposes in the fiscal year before a reorganization involving the district, the tax levy shall remain valid for succeeding fiscal years, and shall be levied and collected against the taxable property of the former district which is part of the reorganized district for school library purposes. The contract and the tax levy may be discontinued by a petition signed by eligible electors residing in the former district. The petition requesting the discontinuance must be signed by no fewer than one hundred eligible electors or thirty percent of the number voting at the last preceding school election in the former district, whichever is greater. The petition must be filed with the secretary of the board of directors of the school district at least seventy-five days before the next regular school election. The proposal to discontinue the levy shall be deemed adopted if the vote in favor of the discontinuance is equal to at least a majority of the total vote cast on the proposal by the electors of the former school district.

298.18 Bond tax — election — leasing buildings.

The board of each school corporation shall, when estimating and certifying the amount of money required for general purposes, estimate and certify to the board of supervisors of the proper county for the debt service fund the amount required to pay interest due or that may become due for the fiscal year beginning July 1, thereafter upon lawful bonded indebtedness, and in addition thereto such amount as the board may deem necessary to apply on the principal.

The amount estimated and certified to apply on principal and interest for any one year shall not exceed two dollars and seventy cents per thousand dollars of the assessed valuation of the taxable property of the school corporation except as hereinafter provided.

For the sole purpose of computing the amount of bonds which may be issued as a result of the application of any limitation referred to in this section, all interest on the bonds in excess of that accruing in the first twelve months may be excluded from the first annual levy of taxes, so that the need for including more than one year's interest in the first annual levy of taxes to pay the bonds and interest shall not operate to further restrict the amount of bonds which may be issued, and in certifying the annual levies to the county auditor or auditors such first annual levy of taxes shall be sufficient to pay all principal of and interest on said bonds becoming due prior to the next succeeding annual levy and the full amount of such first annual levy shall be entered for collection by said auditor or auditors, as provided in chapter 76.

The amount estimated and certified to apply on principal and interest for any one year may exceed two dollars and seventy cents per thousand dollars of assessed value by the amount approved by the voters of the school corporation, but not exceeding four dollars and five cents per thousand of the assessed value of the taxable property within any school corporation, provided that the qualified voters of such school corporation have first approved such increased amount at a special election, which may be held at the same time as the regular school election. The proposition sub-

mitted to the voters at such special election shall be in substantially the following form:

Shall the board of directors of the
 (insert name of school corporation)
 in the County of, State of Iowa, be
 authorized to levy annually a tax exceeding two
 dollars and seventy cents per thousand dollars,
 but not exceeding dollars and cents
 per thousand dollars of the assessed value of the
 taxable property within said school corporation to
 pay the principal of and interest on bonded in-
 debtedness of said school corporation, it being un-
 derstood that the approval of this proposition shall
 not limit the source of payment of the bonds and
 interest but shall only operate to restrict the
 amount of bonds which may be issued?

Notice of the election shall be given by the county commissioner of elections according to section 49.53. The election shall be held on a date not less than four nor more than twenty days after the last publication of the notice. At such election the ballot used for the submission of said proposition shall be in substantially the form for submitting special questions at general elections. The county commissioner of elections shall conduct the election pursuant to the provisions of chapters 39 to 53 and certify the results to the board of directors. Such proposition shall not be deemed carried or adopted unless the vote in favor of such proposition is equal to at least sixty percent of the total vote cast for and against said proposition at said election. Whenever such a proposition has been approved by the voters of a school corporation as hereinbefore provided, no further approval of the voters of such school corporation shall be required as a result of any subsequent change in the boundaries of such school corporation.

The voted tax levy referred to herein shall not limit the source of payment of bonds and interest but shall only restrict the amount of bonds which may be issued.

The ability of a school corporation to exceed two dollars and seventy cents per thousand dollars of assessed value to service principal and interest payments on bonded indebtedness is limited and conferred only to those school corporations engaged in the administration of elementary and secondary education.

Provided further that if a school corporation leases a building or property, which has been used as a junior college by such corporation, to a community college, the annual amounts certified as herein provided by such leasing school corporation for payment of interest and principal due on lawful bonded indebtedness incurred by such leasing school corporation for purchasing, building, furnishing, reconstructing, repairing, improving or remodeling the building leased or acquiring or adding to the site of such property leased, to the extent of the respective annual rent the school cor-

poration will receive under such lease, shall not be considered as a part of the total amount estimated and certified for the purposes of determining if such amount exceeds any limitation contained in this section.

298.18A Levy adjustment.

If, in the opinion of the board of a school corporation, after having originally estimated and certified the amount required to pay interest and principal due upon bonded indebtedness incurred before July 1, 1995, an adjustment in the amount certified in excess of that previously levied by the resolution authorizing issuance of the bonds becomes necessary in anticipation of future projected revenue shortfalls resulting from a machinery and equipment-related taxable valuation decrease from the valuation as of January 1, 1994, an adjustment shall be permitted subject to the following limitations:

1. An adjustment shall be permitted only in a district in which machinery and equipment valuation exceeds twenty percent of total taxable valuation as of January 1, 1994.

2. The adjustment shall not result in a total amount levied in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit provided in section 298.18. An adjustment in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit shall be subject to the special election provisions for increases of up to four dollars and five cents per thousand dollars of assessed valuation provisions of section 298.18.

3. The amount of the adjustment, when added to the amount originally estimated and certified, for any one year, shall not exceed the least of:

a. The amount required to pay interest and principal due upon bonded indebtedness for the three-year period beginning on the date of the adjustment.

b. One hundred twenty-five percent of the amount originally estimated and certified.

c. One hundred ten percent of the total district levies for the fiscal year preceding the fiscal year in which the adjustment is to be added.

4. The amount of the adjustment plus the amount of state replacement moneys received under section 427B.19A which is attributable to the amount of the adjustment, when added to the amount originally estimated and certified, shall not result in the levying of an amount over the life of the issue in excess of the amount necessary for principal and interest repayment.

5. Amounts collected pursuant to this section shall be deposited in a separate debt service account distinct from the account established to hold

principal and interest revenues resulting from the original levy.

6. An adjustment shall not be permitted which results in extending a levy beyond the earlier of the following:

a. Ten years from the original date of certification of the amount required to pay interest and principal.

b. June 30, 2007.

299.5 Proof of mental or physical condition.

The parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age, who is physically or mentally unable to attend school, or whose presence in school would be injurious to the health of other pupils, shall furnish proofs by certificate under sections 256B.6 and 256B.7 as to the physical or mental condition of the child.

299.5A Mediation.

If a child is truant as defined in section 299.8, school officers shall attempt to find the cause for the child’s absence and use every means available to the school to assure that the child does attend. For a child who has completed educational requirements through the sixth grade, the means may include but are not limited to the use of an attendance cooperation process which substantially conforms with the provisions of section 299.12. If the parent, guardian, or legal or actual custodian, or child refuses to accept the school’s attempt to assure the child’s attendance or the school’s attempt to assure the child’s attendance is otherwise unsuccessful, the truancy officer shall refer the matter to the county attorney for mediation or prosecution.

If the matter is referred for mediation, the county attorney shall cause a notice of the referral to be sent to the parent, guardian, or legal or actual custodian and designate a person to serve as mediator in the matter. If mediation services are available in the community, those services may be used as the designated mediation service. If mediation services are not available in the community, mediation shall be provided by the county attorney or the county attorney’s designee. The mediator shall contact the school, the parent, guardian, or legal or actual custodian, and any other person the mediator deems appropriate in the matter and arrange meeting dates and times for discussion of the child’s nonattendance. The mediator shall attempt to ascertain the cause of the child’s nonattendance, attempt to cause the parties to arrive at an agreement relative to the child’s attendance,

and initiate referrals to any agencies or counseling that the mediator believes to be appropriate under the circumstances.

If the parties reach an agreement, the agreement shall be reduced to writing and signed by a school officer, parent, guardian, or legal or actual custodian, and the child. The mediator, the school, and the parent, guardian, or legal or actual custodian shall each receive a copy of the agreement, which shall set forth the settlement of the issues and future responsibilities of each party.

The school district shall be responsible for monitoring any agreements arrived at through mediation. If a parent, guardian, or legal or actual custodian refuses to engage in mediation or violates a term of the agreement, the matter shall be rereferred to the county attorney for prosecution under section 299.6. The county attorney’s office or the mediation service shall require the parent, guardian, or legal or actual custodian and the school to pay a fee to help defray the administrative cost of mediation services. The county attorney’s office or the mediation service shall establish a sliding scale of fees to be charged parents, guardians, and legal or actual custodians based upon ability to pay. A parent, guardian, or legal or actual custodian shall not be denied the services of a mediator solely because of inability to pay the fee.

The mediator may refer a truant to the juvenile court if mediation breaks down without an agreement being reached.

299.6 Violations — community service or fine or imprisonment — waiver.

Any person who violates a mediation agreement under section 299.5A, who is referred for prosecution under section 299.5A and is convicted of a violation of any of the provisions of sections 299.1 through 299.5, who violates any of the provisions of sections 299.1 through 299.5, or who refuses to participate in mediation under section 299.5A, for a first offense, is guilty of a simple misdemeanor.

A first offense conviction is punishable by imprisonment not exceeding ten days or a fine not exceeding one hundred dollars. The court may order the person to perform not more than forty hours of unpaid community service instead of any fine or imprisonment. A person convicted of a second violation is guilty of a serious misdemeanor.

A second offense conviction is punishable by imprisonment not exceeding twenty days or a fine not exceeding five hundred dollars, or both a fine and imprisonment. The court may order the person to perform unpaid community service instead of any fine or imprisonment.

A third or subsequent offense is a serious misdemeanor and a conviction is punishable by imprisonment not exceeding thirty days or a fine not exceeding one thousand dollars, or both a fine and imprisonment. The court may order the person to

perform unpaid community service instead of any fine or imprisonment.

If community service is imposed as part of a sentencing order, the court may require that part or all of the service be performed for a public school district or nonpublic school if the court finds that service in the school is appropriate under the circumstances.

If a parent, guardian, or legal or actual custodian of a child who is truant, has made reasonable efforts to comply with the provisions of sections 299.1 through 299.5, but is unable to cause the child to attend school, the parent, guardian, or legal or actual custodian may file an affidavit listing the reasonable efforts made by the parent, guardian, or legal or actual custodian to cause the child's attendance and the parent, guardian, or legal or actual custodian shall not be criminally liable for the child's nonattendance.

If a child's parent, guardian, or legal or actual custodian who is found guilty and is subject to a penalty as provided in this section has been subject to a sanction under section 239B.2A as a result of the child's truancy, the court may waive the penalty under this section.

299.6A Civil penalty — distribution of funds.

1. In lieu of a criminal proceeding under section 299.6, a county attorney may bring a civil action against a parent, guardian, or legal or actual custodian of a child who is of compulsory attendance age, has not completed educational requirements, and is truant, if the parent, guardian, or legal or actual custodian has failed to cause the child to attend a public school, an accredited nonpublic school, or competent private instruction in the manner provided in this chapter. If the court finds that the parent, guardian, or legal or actual custodian has failed to cause the child to attend as required in this section, the court shall assess a civil penalty of not less than one hundred but not more than one thousand dollars, for each violation established. However, if the court finds that the parent, guardian, or legal or actual custodian of the child has been subject to sanction under section 239B.2A as a result of the child's truancy, the court may waive the civil penalty under this section.

2. Funds received from civil penalties assessed pursuant to this section shall be paid to the school district of residence or school district of enrollment, if open enrolled, of the person against whom the court assessed the penalty. The school district shall use moneys received under this subsection to support programs for students who

meet the definition of at-risk children adopted by the department of education.

the parent, guardian, or legal or actual custodian; but if it is other than a public school, the instruction and maintenance of the child shall be without expense to the school district. If a child is taken into custody under this section, the truancy officer shall make every reasonable attempt to immediately notify the parent, guardian, or legal or actual custodian of the child's location.

The truancy officer shall promptly institute proceedings against any person violating any of the provisions of sections 299.1 through 299.5A.

299.12 Violation of attendance policy — attendance cooperation meeting — agreement — family investment program.

1. For the purposes of this section, “*school truancy officer*” means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.

2. This section is not applicable to a child who is receiving competent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child's parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child's parent, guardian, or legal or actual custodian and the school truancy officer. If the child is a member of a family receiving assistance under the family investment program, the department of human services shall be notified and shall make the contacts for participation in the attendance cooperation meeting in lieu of the school truancy officer. For a child who is a member of a family receiving assistance under the family investment program, the attendance cooperation meeting shall include the child's parent or specified relative whose needs are included in the child's assistance grant and a representative of the department of human services. The school truancy officer or the representative of the department of human services contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney's designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child's nonattendance, to cause the parties to arrive at an agreement relative to addressing the child's attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child's nonattendance and future responsibilities of each party.

4. If the parties to an attendance cooperation meeting determine that a monitor would improve compliance with the attendance cooperation agreement, the parties may designate a person to monitor the agreement. The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school, or a designee of the department of human services, if the department made the contacts for the attendance cooperation meeting. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child's parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.

5. If the parties fail to enter into an attendance cooperation agreement, or the child's parent, guardian, or custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate in an attendance cooperation meeting, the child shall be deemed to be truant.

6. *a.* If a child deemed to be truant under this section is a member of a family receiving family investment program assistance under chapter 239B and has not completed the sixth grade, the school truancy officer shall provide notification to the department of human services. An initial and any subsequent notification shall be made in writing. The form of the notification shall be mutually determined by the departments of human services and education.

b. Notwithstanding any other provision of this chapter to the contrary, unless prohibited by federal law, a school truancy officer may release information to the department of human services and may receive information from the department of human services regarding a child described in paragraph “*a*”. In addition, the school truancy officer may utilize other sources available to the officer as necessary to verify whether a child is a member of a family receiving family investment program assistance. Release of information under this section shall be limited to the minimum ac-

cess to information necessary to achieve the purposes of this section.

7. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance habits should be developed and reinforced at an early age.

Unless a prohibited dissemination or redissemination of information is subject to injunction or sanction under other state or federal law, an action for judicial enforcement may be brought in accordance with this section. An aggrieved person, the attorney general, or a county attorney may seek judicial enforcement of the requirements of this section in an action brought against the public school or accredited nonpublic school or any other person who has been granted access to information pursuant to section 239B.2A, 299.5A, or 299.12. Suits to enforce this section shall be brought in the district court for the county in which the information was disseminated or redisseminated. Upon a finding by a preponderance of the evidence that a person has violated this section, the court shall issue an injunction punishable by civil contempt ordering the person in violation of this section to comply with the requirements of, and to refrain from any violations of section 239B.2A, 299.5A, or 299.12 with respect to the dissemination or redissemination of information shared with the person pursuant to section 239B.2A, 299.5A, or 299.12.

School officers shall, until July 1, 1999, biennially report this information to the department of education on forms provided by the department. 299A.1 Private instruction.

The parent, guardian, or legal custodian of a child of compulsory attendance age who places the child under private instruction shall provide, unless otherwise exempted, competent private instruction in accordance with this chapter. A parent, guardian, or legal custodian of a child of compulsory attendance age who places the child under private instruction which is not competent private instruction, or otherwise fails to comply with the requirements of this chapter, is subject to the provisions of sections 299.1 through 299.4 and the penalties provided in section 299.6.

For purposes of this chapter, “*competent private instruction*” means private instruction provided on a daily basis for at least one hundred forty-eight days during a school year, to be met by attendance for at least thirty-seven days each school quarter, by or under the supervision of a licensed practitioner in the manner provided under section 299A.2, or other person under section 299A.3, which results in the student making adequate progress.

For purposes of this chapter and chapter 299, “*private instruction*” means instruction using a plan and a course of study in a setting other than a public or organized accredited nonpublic school.

91 Acts, ch 200, §20

299A.2 Competent private instruction by licensed practitioner.

If a licensed practitioner provides competent instruction to a child of compulsory attendance age, the practitioner shall possess a valid license or certificate which has been issued by the state board of educational examiners under chapter 272 and which is appropriate to the ages and grade levels of the children to be taught. Competent private instruction may include, but is not limited to, a home school assistance program which provides instruction or instructional supervision offered through an accredited nonpublic school or public school district by a teacher, who is employed by the accredited nonpublic school or public school district, who assists and supervises a parent, guardian, or legal custodian in providing instruction to a child. If competent private instruction is provided through a public school district, the child shall be enrolled and included in the basic enrollment of the school district as provided in section 257.6. Sections 299A.3 through 299A.7 do not apply to competent private instruction provided by a licensed practitioner under this section. However, the reporting requirement contained in section 299A.3, subsection 1, shall apply to competent private instruction provided by licensed practitioners that is not part of a home school assistance program offered through an accredited nonpublic school or public school district.

A parent, guardian, or legal custodian of a child of compulsory attendance age providing competent private instruction to the child shall meet all of the following requirements:

1. Complete and send, in a timely manner, the report required under section 299.4 to the school district of residence of the child.

2. Ensure that the child under the parent’s, guardian’s, or legal custodian’s instruction is evaluated annually to determine whether the child is making adequate progress, as defined in section 299A.6.

3. Ensure that the results of the child’s annual evaluation are reported to the school district of residence of the child and to the department of education by a date not later than June 30 of each year in which the child is under private instruction.

91 Acts, ch 200, §22

299A.4 Annual achievement evaluations — requirements and procedure.

1. Each child of compulsory attendance age who is receiving competent private instruction shall either be evaluated annually by May 1, using a nationally recognized standardized achievement evaluation or other assessment tool developed or recognized by the department of education and chosen by the child’s parent, guardian, or legal custodian from a list of approved evaluations or assessment tools provided by the department of education or be evaluated annually in the manner provided in subsection 7. The department shall provide information on the cost of and the administration time required for each of the approved evaluations. The department shall provide, as part of approval procedures for evaluations to be used under this section, a mechanism which permits the introduction and approval of new or alternate methods of educational assessment which meet the requirements of this chapter.

2. A child, who is seven years of age and is receiving competent private instruction or who is placed under competent private instruction for the first time, shall be administered an evaluation for purposes of obtaining educational baseline data.

3. The director of the department of education, or the director’s designee, which may include a school district or an area education agency, shall conduct the evaluations required under subsections 1 and 2 for children under competent private instruction. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian.

4. The parent, guardian, or legal custodian of a child receiving competent private instruction may be present when the child is evaluated, but only if both the parent, guardian, or legal custodian and the child are under the supervision of the evaluation administrator.

5. The conducting of evaluations shall include, but is not limited to, purchasing of evaluation materials, giving the evaluations, scoring and interpreting the evaluations, and reporting the evaluation results.

6. Except when a child has been enrolled in a public school district under section 299A.8, the parent, guardian, or legal custodian of the child being evaluated shall reimburse the entity conducting the evaluation for no more than the actual cost of evaluation required by this chapter. However, the parent, guardian, or legal custodian is not required to reimburse the evaluating entity for costs incurred as a result of evaluation under section 299A.9.

7. In lieu of annual achievement evaluations, a parent, guardian, or legal custodian of a child may submit, as evidence of adequate academic progress, all of the following:

a. A book of lesson plans, a diary, or other written record indicating the subjects taught and activities in which the child has been engaged.

b. A portfolio of the child's work, including but not limited to, an outline of the curriculum used by the child, copies of homework completed in conjunction with the curriculum and instruction, and copies of evaluations completed by the child which have been produced by the parent, guardian, or legal custodian.

c. Completed assessment evaluations, other than the annual achievement evaluation, if assessment evaluations are administered to a pupil as part of the competent private instruction by the parent, guardian, or legal custodian.

If a parent, guardian, or legal custodian submits evidence under this section, the information shall be reviewed by a qualified, licensed, Iowa practitioner selected as the evaluator by the parent, guardian, or legal custodian and approved by the superintendent of the local school district or the superintendent's designee. The evaluator shall prepare a report based on a review of the child's work submitted, which shall include an assessment of the child's achievement or academic progress levels, and submit a copy of the report to the child's parent, guardian, or legal custodian, the school district of residence of the child, and the department of education. If the evidence demonstrates, in the evaluator's opinion, that the child is achieving adequate progress, the report shall create a presumption that the child is making adequate progress.

91 Acts, ch 200, §23; 92 Acts, ch 1163, §68

299A.5 Reporting of evaluation results.

The results of evaluations administered to children of compulsory attendance age who are under competent private instruction shall be reported by the evaluation administrator to the child's parent, guardian, or legal custodian, the school district of residence of the child, and the department of education. Personally identifiable information relating to or contained in the evaluation scores is confidential and shall not be released without the prior consent of the child's parent, guardian, or custodian except as otherwise permitted by law.

91 Acts, ch 200, §24; 92 Acts, ch 1163, §69

299A.6 Failure to make adequate progress.

If the results of evaluations, administered to a child of compulsory attendance age who is under competent private instruction, indicate that the student has failed to make adequate progress, the parent, guardian, or legal custodian shall cause the child to attend an accredited public or nonpublic school at the beginning of the next school year unless, before the beginning of the next school year, the child retakes a different form of the same evaluation, or another evaluation from the approved list of tests or assessment tools recognized by the department of education, and the results indicate that adequate progress has been made, the child has demonstrated adequate performance in the opinion of an evaluator and documented in a report under section 299A.4, subsection 7, or the director of the department of education, or the director's designee, grants approval for competent private instruction to continue under a plan for remediation.

A child who is required to attend an accredited public or nonpublic school under this section shall continue attendance at an accredited public or nonpublic school until the child achieves adequate progress.

For purposes of this chapter, "adequate progress" means, for children in all grade levels of competent private instruction, evaluation scores which are above the thirtieth percentile, nationally normed, in each of the areas of reading, mathematics, and language arts, and which indicate either that the child has made six months' progress from the previous evaluation results or that the child is at or above grade level for the child's age. For children in grade levels six and above, "adequate progress" also means that the child has achieved evaluation scores in both science and social studies which are above the thirtieth percentile, nationally normed, and which either indicate that the child has made six months' progress from the previous evaluation results or that the child is at or above grade level for the child's age.

91 Acts, ch 200, §25; 91 Acts, ch 258, §41; 92 Acts, ch 1135, §11

299A.7 Notice to parents — remediation.

If a child is placed under competent private instruction and the child fails to make adequate progress under competent private instruction, the director of the department of education, or the director's designee, shall notify the parent, guardian, or custodian of the child that the child is required to attend an accredited public or nonpublic school, unless approval for competent private instruction under a remediation plan is granted. The director, or the director's designee, may provisionally approve continued competent private instruction under an approved remediation plan designed to improve instruction for up to one year.

91 Acts, ch 200, §26

299A.8 Dual enrollment.

If a parent, guardian, or legal custodian of a child who is receiving competent private instruction under this chapter submits a request, the child shall also be registered in a public school for dual enrollment purposes. If the child is enrolled in a public school district for dual enrollment purposes, the child shall be permitted to participate in any academic activities in the district and shall also be permitted to participate on the same basis as public school children in any extracurricular activities available to children in the child's grade or group, and the parent, guardian, or legal custodian shall not be required to pay the costs of any annual evaluation under this chapter. If the child is enrolled for dual enrollment purposes, the child

shall be included in the public school's basic enrollment under section 257.6.

91 Acts, ch 200, §27; 92 Acts, ch 1163, §70; 92 Acts, ch 1247, §49

299A.9 Children requiring special education.

A child of compulsory attendance age who is identified as requiring special education under chapter 256B is eligible for placement under competent private instruction with prior approval of the placement by the director of special education of the area education agency of the child's district of residence.

A child who has been placed under competent private instruction, whose performance indicates that the child may require special education, shall be referred for evaluation under chapter 256B and the rules of the state board of education. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian.

91 Acts, ch 200, §28

299A.10 Rulemaking.

The department of education shall develop and recommend and the state board shall adopt rules to implement this chapter.

300.3 Discontinuance of levy.
300.4 Community education.

300.1 Public recreation.

Boards of directors of school districts may establish and maintain for children and adults public recreation places and playgrounds, and necessary accommodations for the recreation places and playgrounds, in the public school buildings and grounds of the district. The board may co-operate under chapter 28E with a public agency having the custody and management of public parks or public buildings and grounds, and with a private agency having custody and management of buildings or grounds open to the public, located within the school district, and may provide for the supervision and instruction necessary to carry on public

educational and recreational activities in the parks, buildings, and grounds located within the district.

300.2 Tax levy.

The board of directors of a school district may, and upon receipt of a petition signed by eligible electors equal in number to at least twenty-five percent of the number of voters at the last preceding school election, shall, direct the county commissioner of elections to submit to the registered

voters of the school district the question of whether to levy a tax of not to exceed thirteen and one-half cents per thousand dollars of assessed valuation for public educational and recreational activities authorized under this chapter. If at the time of filing the petition, it is more than three months until the next regular school election, the board of directors shall submit the question at a special election within sixty days. Otherwise, the question shall be submitted at the next regular school election.

If a majority of the votes cast upon the proposition is in favor of the proposition, the board shall certify the amount required for a fiscal year to the county board of supervisors by April 15 of the preceding fiscal year. The board of supervisors shall levy the amount certified. The amount shall be placed in the public education and recreation levy fund of the district and shall be used only for the purposes specified in this chapter.

The proposition to levy the public recreation and playground tax is not affected by a change in the boundaries of a school district, except as otherwise provided in this section. If each district involved in school reorganization under chapter 275 has adopted the public recreation and playground tax, and if the voters have not voted upon the proposition to levy the public recreation and playground tax in the reorganized district, the existing public

recreation and playground tax shall be in effect for the reorganized district for the least amount that has been approved in any of the districts and until discontinued pursuant to section 300.3.

necessary school supplies at said contract prices, and to sell the same to the pupils of their respective districts at cost, loan such textbooks to such pupils free, or rent them to such pupils at such reasonable fee as the board shall fix, and said money so received shall be returned to the general fund.

301.30 Payment of claims for nonpublic school pupil textbook services.

Boards of directors of school districts shall be required to provide textbook services to nonpublic school pupils as provided in section 301.1 only during school years when the general assembly has appropriated funds to the department of education for the payment of claims for textbook costs submitted by the school district.

If the funds appropriated by the general assembly are not sufficient to pay claims submitted by the school districts, the amount paid to each school district by the department shall be prorated on the basis of funds so appropriated. The difference between the amount of the claim of a school district and the amount of payment received from the department of education shall be paid by the parent or guardian of the nonpublic school pupil served.

The costs of providing textbook services to nonpublic school pupils as provided in section 301.1

shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Any textbook reimbursements received by a local school district for serving nonpublic school pupils shall not affect district cost limitations of chapter 257. The reimbursements provided in this section are miscellaneous income as defined in section 257.2.

Claims for reimbursement shall be made to the department of education by July 15 by the public school district providing textbook services during a school year on a form prescribed by the department, and the claim shall state the actual costs incurred in, and the actual number of nonpublic students requesting, the provision of textbook ser-

vices. Claims shall be accompanied by an affidavit of an officer of the public school district affirming the accuracy of the claim. The department shall certify to the director of revenue and finance the amounts of approved claims to be paid, and the director of revenue and finance shall draw warrants payable to school districts which have established claims. The public school district of attendance shall furnish the services and shall receive reimbursement from the state. However, the services must be comparable to the services of the district of attendance and cannot exceed the per pupil cost of the program of the district of attendance.

b. A portion of the applicant's operating expenses may be used as a cash match or in-kind match as specified by the division's rules.

c. Grant or loan funds shall not be used to support public relations or marketing expenses.

d. Not more than one hundred thousand dollars or twenty percent of the annual appropriation, whichever is more, shall be granted and loaned to recipients within a single county in any given grant cycle.

e. Not more than one hundred thousand dollars or ten percent of the annual appropriation, whichever is more, shall be granted and loaned to any single recipient or its agent within a single fiscal year.

f. Grants under this program may be given only after review and recommendation by the state historical society board of trustees. The division may contract with lending institutions chartered in this state to act as agents for the administration of loans under the program, in which case, the lending institution may have the right of final approval of loans, subject to the division's administrative rules. If the division does not contract with a lending institution, loans may be made only after review and recommendation by the state historical society board of trustees.

g. The division shall not award grants or loans to be used for goods or services obtained outside the state, unless the proposed recipient demonstrates that it is neither feasible nor prudent to obtain the goods or services within the state.

h. Grant or loan funds shall not be awarded to a city or county government for a project in the historic preservation category unless the city or county government has been approved as a certified local government by the state historic preservation officer.

7. For each dollar of grant funds the following recipients must provide the following matching cash and in-kind resources:

a. All units of government and nonprofit corporations, fifty cents, of which at least twenty-five cents must be in cash.

b. For other private corporations and businesses, one dollar of which at least seventy-five cents must be in cash.

8. The division may use ten percent of the annual appropriation to the division, but in no event more than seventy-five thousand dollars for administration of the grant and loan program.

in that fund. Each loan made under this section shall be for a period not to exceed ten years, shall bear interest at a rate determined by the state historical board, and shall be repayable to the revolving loan fund in equal yearly installments due March 1 of each year the loan is in effect. The interest rate upon loans for which payment is delinquent shall accelerate immediately to the current legal usury limit. Applicants are eligible for not more than one hundred thousand dollars in loans outstanding at any time under this program. A single lending institution contracting with the division pursuant to this section shall not hold more than five hundred thousand dollars worth of outstanding loans under the program.

Any applicant, who is otherwise eligible, who receives a direct or indirect appropriation from the general assembly for a project or portion of a project is ineligible for a historical resources development grant for that same project during the fiscal year for which the appropriation is made. For purposes of this paragraph, "project" includes any related activities, including, but not limited to, construction, restoration, supplies, equipment, consulting, or other services.

b. The division may:

(1) Contract and adopt administrative rules necessary to carry out the provisions of this section, but the division shall not in any manner directly or indirectly pledge the credit of the state of Iowa.

(2) Authorize payment from the historical resource grant and loan fund, from fees and from any income received by investments of money in the fund for costs, commissions, attorney fees and other reasonable expenses related to and necessary for making and protecting direct loans under this section, and for the recovery of moneys loaned or the management of property acquired in connection with such loans.

10. *a.* The general assembly finds that the country school that served Iowa's educational needs for much of its history offered a unique opportunity to students and communities, providing for multigenerational attendance, high educational performance, a safe environment, a focus for community support, and a caring, attentive environment.

b. A country schools historical resource preservation grant program is therefore established to be administered by the historical division for the preservation of one-room and two-room buildings once used as country schools. In developing grant approval criteria, the division shall place a priority on the educational uses planned for the country school building, which may include, but are not limited to, historical interpretation and use as a teaching museum or as an operational classroom accessible to a school district or accredited non-public school for provisional instructional purposes.

c. Notwithstanding any other provision of this section, the amount of a grant shall not exceed twenty-five thousand dollars and applicants shall match grant funding on a dollar-for-dollar basis, of which at least one-half of the local match must be in cash.

The five persons receiving the highest number of votes shall constitute the commission. In the event one of the five receiving the highest number of votes elects not to serve on the commission, the person receiving the next highest number of votes shall serve.

Of the initial commission the person receiving the highest number of votes shall receive a five-year term of office, the next highest a four-year term, the next highest a three-year term, the next highest a two-year term, and the fifth highest a one-year term. Thereafter, an election shall be held annually in the district to elect a member to a five-year term as each term expires.

[C77, 79, 81, §303.26]

303.27 Controls.

After the establishment of a district, an exterior portion of any building, exterior fixture, or other exterior structure, or any above-ground utility structure or any type of outdoor advertising sign shall not be erected, altered, restored, moved or demolished within such district until after an application for a certificate of appropriateness as to exterior features has been submitted to and approved by the commission.

[C77, 79, 81, §303.29]

303.30 Procedures.

Prior to issuance or denial of a certificate of appropriateness the commission shall take such action as may reasonably be required to inform persons likely to be materially affected by the application, and shall give the applicant and such persons an opportunity to be heard. In cases where the commission deems it necessary, it may hold a public hearing concerning the application. The commission shall vote upon any application for a certificate of appropriateness within sixty days after its submission to the commission.

If the commission determines that the proposed construction, reconstruction, alteration, restoration, moving, demolition, or the change in use is appropriate, it shall forthwith approve such application and shall issue to the applicant a certificate of appropriateness.

If the commission determines that the proposed construction, reconstruction, alteration, restoration, moving or demolition of buildings, structures, appurtenant fixtures, outdoor advertising signs or natural features, or the proposed change in use would be incongruous with the historical, architectural, archaeological or cultural aspects of the district, a certificate of appropriateness shall not be issued, and the commission shall place upon its records the reasons for such determination and shall notify the applicant of such determination, furnishing the applicant an attested copy of its reasons and its recommendations, if any, as appearing in the records of the commission.

The commission may approve the application in any case where a person would suffer extreme hardship, not including loss of profit, unless the certificate of appropriateness was issued. Nothing in this subchapter of this chapter shall be construed to prevent the ordinary maintenance or repair of any exterior feature in a district which does not involve a change in design, material or outer appearance, nor to prevent the construction, reconstruction, alteration, restoration or demolition of any such feature which is required by public safety because of an unsafe or dangerous condition.

[C77, 79, 81, §303.32]

303.33 Termination of district.

Two years after the establishment of a district, a referendum for the termination of the district shall be held if ten percent of the eligible voters in the district so request. If the registered voters, by a majority of those voting, favor termination, sections 303.20 through 303.32 will no longer have any effect on the property formerly included in the district.

If an election is held to terminate a district under this section and such attempt fails, another referendum for termination of the district in question shall not take place for a period of two years.

303.34 Areas of historical significance.

The provisions of sections 303.20 to 303.33 do not apply within the limits of a city. However, in order for a city to designate an area which is deemed to merit preservation as an area of historical significance, the following shall apply:

1. An area of historical significance shall be proposed by the governing body of the city on its own motion or upon the receipt by the governing body of a petition signed by residents of the city. The city shall submit a description of the proposed area of historical significance or the petition describing the proposed area, if the proposed area is a result of the receipt of a petition, to the historical

division which shall determine if the proposed area meets the criteria in subsection 2 and may make recommendations concerning the proposed area. Any recommendations made by the division shall be made available by the city to the public for viewing during normal working hours at a city government place of public access.

2. A city shall not designate an area as an area of historical significance unless it contains contiguous pieces of property under diverse ownership which meets the criteria specified in section 303.20, subsection 1, paragraphs "a" to "f".

3. A city may provide by ordinance for the establishment of a commission to deal with matters involving areas of historical significance but shall provide by ordinance for such commission upon the enactment of the ordinance designating an area as an area of historical significance as required in subsection 4. Upon the establishment of the commission the city shall provide by ordinance for the method of appointment, the number, and terms, of members of the commission and for the duties and powers of the commission. The commission shall contain not less than three members. The members of the commission shall be appointed with due regard to proper representation of residents and property owners of the city and their relevant fields of knowledge including but not limited to history, urban planning, architecture, archaeology, law, and sociology. At least one resident of each designated area of historical significance shall be appointed to the commission. Cities with a population of more than fifty thousand shall not appoint more than one-third of the members to the commission of an area of historical significance that are members of a city zoning commission appointed pursuant to chapter 414. The commission shall have the power to approve or deny applications for proposed alterations to exterior features within an area designated as an area of historical significance. An aggrieved party may appeal the commission's action to the governing body of the city. If not satisfied by the decision of the governing body, the party may appeal within sixty days of the governing body's decision to the district court for the county in which the designated area is located. On appeal the governing body or the district court as the case may be shall consider whether the commission has exercised its powers and followed the guidelines established by the law and ordinance, and whether the commission's action was patently arbitrary or capricious.

4. An area shall be designated an area of historical significance upon enactment of an ordinance of the city. Before the ordinance or an amendment to it is enacted, the governing body of the city shall submit the ordinance or amendment to the historical division for its review and recommendations.

Ten percent or more of the qualified voters residing within the limits of a proposed land use district may file a petition in the office of the county auditor of the county in which the proposed land use district, or its major portion, is located, requesting that there be submitted to the qualified voters of the proposed district the question of whether the territory within the boundaries of the proposed district shall be organized as a land use district under this subchapter. The petition shall be addressed to the board of supervisors of the county where it is filed and shall set forth the following:

1. An intelligible description of the boundaries of the territory to be embraced in the district.
 2. The name of the proposed district.
 3. That the territory to be embraced in the district has a distinctive historical and cultural character which might be preserved by the establishment of the district.

- 83 Acts, ch 108, §2

303.43 Jurisdiction — decisions — records.

The board of supervisors of the county in which the proposed land use district, or its major portion, is located has jurisdiction of the proceedings on the petition as provided in this subchapter and the decision of a majority of the members of that board is necessary for adoption. All orders of the board made under this subchapter shall be spread at

length upon the records of the proceedings of the board of supervisors, but need not be published.

83 Acts, ch 108, §3

303.44 Date and notice of hearing.

The board of supervisors to whom the petition is addressed, at its next regular, special, or adjourned meeting, shall set the time and place when it will meet for a hearing upon the petition, and direct the county auditor in whose office the petition is filed to cause notice to be given to all persons whom it may concern, without naming them, of the pendency and prayer of the petition, by publication of a notice once each week for two consecutive weeks in some newspaper of general circulation published in the proposed district. The last publication shall not be less than twenty days prior to the date set for the hearing of the petition. The board shall consider the boundaries of the proposed land use district, whether they shall be as described in the petition or otherwise, and for that purpose may alter and amend the petition and limit or change the boundaries of the proposed district as stated in the petition. The boundaries of a pro-

The board of supervisors shall cause a statement of the result of the election to be spread upon the records of the county auditor. The election shall be held for the purpose of electing the initial seven members of the board of trustees of the land use district. The county auditor shall cause notice of the election to be posted and published, and shall perform all other acts with reference to the election, and conduct it in like manner, as nearly as may be, as provided in this subchapter for the election on the question of establishing the district. Expenses incurred in carrying out the annual elections of trustees shall be paid for by the land use district.

4. When the initial board of trustees is elected under this section the trustees shall be ranked in the order of votes received from highest to lowest. Any ties shall be resolved by a random method. The last ranked trustee shall receive an initial term expiring at the next annual election for trustees, the sixth and fifth ranked trustees receive an initial term expiring one year later, the fourth ranked trustee receives an initial term expiring two years after that election, the third and second ranked trustees receive initial terms expiring three years after that election, and the first ranked trustee shall receive an initial term expiring four years after that election.

The compensation of members of the board of trustees is fixed not to exceed ten dollars per day, or any part of a day, for each day the board is actually in session and ten dollars per day when not in session but employed on board service, and twenty cents for every mile traveled in going to and from sessions of the board and in going to and from the place of performing board service. Members of the board shall not receive compensation for more than sixty days of session and board service each year.

2. The board of trustees shall formulate and administer a land use plan which includes all ordinances, resolutions, rules, and regulations necessary for the proper administration of the land use district. 3. The board of trustees shall provide for the manner in which the land use plan shall be established and enforced and amended, supplemented, or changed. However, a plan shall not become effective until after a public hearing on it, at which parties in interest and citizens of the district shall have an opportunity to be heard. At least fifteen days notice of the time and place of the hearing shall be published in a newspaper of general circulation within the district giving the time, date, and location of the public hearing.

In exercising its powers the board may, in conformity with this subchapter, reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from and may make the order, requirement, decision, or determination as should be made, and to that end have all the powers of the administrative officer of the board.

The allowance of the writ does not stay proceedings upon the decision appealed from, but the court may, on application, on notice to the board and on due cause shown, grant a restraining order.

83 Acts, ch 108, §22

303.63 Trial to court.

If upon the hearing, which shall be tried de novo, it appears to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a referee to take evidence as it directs and report the evidence to the court with findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

Costs shall not be allowed against the board unless it appears to the court that it acted with gross negligence or in bad faith or with malice in making the decision appealed from.

The notice shall be mailed to the lender's or claimant's last known address in event of injury or loss of property on loan to the museum. Published notice of injury or loss of undocumented property shall not be required.

88 Acts, ch 1117, §5

305B.6 Notice of intent to terminate loan — acquiring title to loaned property.

1. A museum may acquire title to loaned property pursuant to this section. A museum may give notice of termination of a loan of property at any time if either of the following apply:

a. The property was loaned to the museum for an indefinite term.

b. The property was loaned to the museum for a specified term, and that term has expired.

2. If the lender or claimant does not respond to the notice of termination provided under subsection 1 within one year by filing a notice of intent to preserve an interest in property on loan, the museum acquires title to the property.

3. A notice of intent to terminate a loan must include a statement containing substantially the following information:

"The records of (name of museum) indicate that you have property on loan to it. The institution wishes to terminate the loan. You must contact the institution, establish your ownership of the property pursuant to section 305B.8, and make arrangements to collect the property. If you fail to do so promptly, you will be considered to have donated the property to the institution."

88 Acts, ch 1117, §6

305B.7 Acquiring title to undocumented property.

1. A museum may acquire title to undocumented property held by a museum for seven years or longer with no valid claim or written contact by any person, all verifiable through the museum's written records, by giving notice of acquisition of title to undocumented property.

2. If a lender or claimant does not respond to the notice provided in subsection 1 within three years by filing a notice of intent to retain an inter-

est in property on loan, the museum's title to the property becomes uncontestable under section 305B.9.

3. A notice of acquisition of title must include a statement containing substantially the following information:

"The records of (name of museum) fail to indicate the owner of record of certain property in its possession. The museum intends to acquire title to the below described property: (general description of the property). If you claim ownership or other legal interest in this property you must contact the institution, establish your ownership of the property pursuant to section 305B.8, and make arrangements to collect the property. If you fail to do so promptly, you will be considered to have waived any claim you may have had to the property."

88 Acts, ch 1117, §7

305B.8 Notice of intent to preserve an interest in property — requirements — form — disclosure.

1. A notice of intent to preserve an interest in property on loan to a museum filed pursuant to this chapter shall be in writing and contain all of the following information:

d. The signature, under penalty of perjury, of the claimant or a person authorized to act on behalf of the claimant.

2. The museum need not retain a notice which does not meet the requirements set forth in subsection 1. If, however, the museum does not intend to retain a notice for this reason, the museum shall promptly notify the claimant at the address given on the notice that the museum believes the notice is ineffective to preserve an interest, and the reasons for the insufficiency. The fact that a museum retains a notice under section 305B.12 does not mean that the museum accepts the sufficiency or accuracy of the notice or that the notice is effective to preserve an interest in property on loan to the museum.

3. The department of cultural affairs shall adopt by rule a form for notice of intent to preserve an interest in property on loan to a museum. The form shall satisfy the requirements of subsection 1 and shall notify the claimant of the rights and procedures to preserve an interest in museum property. The form shall also facilitate record-keeping and record retrieval by a museum. At a minimum the form shall provide a place for recording evidence of receipt of a notice by a museum, including the date of receipt, signature of the person

receiving the notice, and the date on which a copy of the receipt is returned to the claimant.

88 Acts, ch 1117, §8

305B.9 Limitations on actions against museums.

1. An action shall not be brought against a museum for damages because of injury to or loss of property loaned to the museum more than three years from the date the museum gives the lender or claimant notice of the injury or loss or ten years from the date of the injury or loss, whichever occurs earlier.

2. An action shall not be brought against a museum to recover property on loan more than one year from the date the museum gives the lender or claimant notice of its intent to terminate the loan or notice of acquisition of title to undocumented property.

3. An action shall not be brought against a museum to recover property on loan more than seven years from the date of the last written contact between the lender or claimant and the museum as evidenced by the museum's records.

4. A lender or claimant is considered to have donated loaned property to the museum if the lender fails to file an action to recover the property on loan to the museum within the periods specified in subsections 1 through 3.

5. A person who purchases property from a museum acquires good title to the property if the museum represents that it has acquired title to the property pursuant to subsection 4.

6. Notwithstanding subsections 3 and 4, a lender or claimant who was not given notice as provided in this chapter that the museum intended to terminate a loan, as provided in section 305B.6, and who proves that the museum received an adequate notice of intent to preserve an interest in loaned property, which satisfies all of the requirements of section 305B.8, within the seven years immediately preceding the filing of an action to recover the property, may recover the property or, if the property has been disposed of, the reasonable value of the property at the time it was disposed of plus interest at the legal rate.

7. A museum is not liable at any time, in the absence of a court order, for returning property to the original lender, even if a claimant other than the lender has filed a notice of intent to preserve an interest in property. If persons claim competing interests in property in the possession of a museum, the burden is upon the claimants to prove their interest in an action in equity initiated by a claimant. A museum is not liable at any time for returning property to an uncontested claimant who produced reasonable proof of ownership pursuant to section 305B.8.

88 Acts, ch 1117, §9

305B.10 Museum obligations.

In order to take title pursuant to this chapter a museum has the following obligations to a lender or claimant:

1. The museum shall retain all written records regarding the property for at least three years from the date of taking title pursuant to this chapter.

2. The museum shall keep written records on all loaned property acquired pursuant to section 305B.6. Records shall contain the following information:

- a. Lender's name, address, and phone number.
- b. Claimant's name, address, and phone number.
- c. The nature and terms of the loan.
- d. The beginning date of the loan period, if known.

3. A museum accepting a loan of property on or after January 1, 1989, shall inform the lender in writing at the time of the loan of the provisions of this chapter. A copy of the form notice prescribed in section 305B.8, or a citation to this chapter, is adequate for this purpose.

4. The museum is responsible for notifying a lender or claimant of the museum's change of address or dissolution.

88 Acts, ch 1117, §10

305B.11 Required museum recordkeeping.

On or after January 1, 1989, a museum shall at minimum maintain and retain the following records, either originals or accurate copies, for a period of not less than twenty-five years:

1. A notice of intent to preserve an interest in property.

2. The loan agreement, if any, and a receipt or ledger for property on loan.

- b. Claimant's name, address, and phone number.
- c. Donor's name, address, and phone number.
- d. Seller's name, address, and phone number.

- f. The beginning date of the loan period or transaction date.

The department of cultural affairs may by rule determine the minimum form and substance of re-

cordkeeping by museums with regard to museum property to implement this chapter.

88 Acts, ch 1117, §11

305B.12 Lender obligations to museum.

1. The lender or claimant of property on loan to a museum shall notify the museum of a change of address or change in ownership of the property. Failure to notify the museum of these changes may result in the lender's or claimant's loss of rights in the property.

2. The lender or claimant of property on loan to a museum may file with the museum a notice of intent to preserve an interest in the property as provided for in section 305B.8. The filing of a notice of intent to preserve an interest in property on loan to a museum does not validate or make enforceable any claim which would be extinguished

under the terms of a written agreement, or which would otherwise be invalid or unenforceable.

88 Acts, ch 1117, §12

305B.13 Retroactive applicability.

1. Sections 305B.1 through 305B.8 are retroactively applicable to all property in the possession of a museum within the state on or after January 1, 1988.

2. Section 305B.9 is effective July 1, 1989, and when effective is retroactively applicable to all property in the possession of the museum before July 1, 1989, and is prospectively applicable to all property in the possession of the museum on or after July 1, 1989, for which a claim is filed on or after July 1, 1989.

306.4 Jurisdiction of systems.

The jurisdiction and control over the roads and streets of the state are vested as follows:

1. Jurisdiction and control over the primary roads shall be vested in the department.

2. Jurisdiction and control over the secondary roads shall be vested in the county board of supervisors of the respective counties.

3. Jurisdiction and control over the municipal street system shall be vested in the governing bodies of each municipality; except that the department and the municipal governing body shall exercise concurrent jurisdiction over the municipal extensions of primary roads in all municipalities. When concurrent jurisdiction is exercised, the department shall consult with the municipal governing body as to the kind and type of construction, reconstruction, repair, and maintenance and the two parties shall enter into agreements with each other as to the division of costs thereof.

When the two parties cannot initially come to agreement as to the division of costs under this subsection, they shall contract with an organization in this state to provide mediation services. The costs of the mediation services shall be equally allocated between the two parties. If after submitting to mediation the parties still cannot come to agreement as to the division of costs, the mediator shall sign a statement that the parties did not reach an agreement, and the parties shall then submit the matter for binding arbitration to a mutually agreed-upon third party. If the parties cannot agree upon a third-party arbitrator, they shall submit the matter to an arbitrator selected under the rules of the American arbitration association.

4. Jurisdiction and control over the roads and streets in any state park, state institution or other state land shall be vested in the board, commission, or agency in control of such park, institution, or other state land; except that:

a. The department and the controlling agency shall have concurrent jurisdiction over any road which is an extension of a primary road and which both enters and exits from the state land at separate points. The department may expend the moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such

agreement the jurisdiction and control of such road shall remain in the department.

b. The board of supervisors of any county and the controlling state agency shall have concurrent jurisdiction over any road which is an extension of a secondary road and which both enters and exits from the state land at separate points. The board of supervisors of any county may expend the moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such road shall remain in the board of supervisors of the county.

5. Jurisdiction and control over parkways within county parks and conservation areas shall be vested in the county conservation boards within their respective counties; except that:

a. The department and the county conservation board shall have concurrent jurisdiction over an extension of a primary road which both enters and exits from a county park or other county conservation area at separate points. The department may expend moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such roads shall remain in the department.

b. The board of supervisors of any county and the county conservation board shall have concurrent jurisdiction over an extension of a secondary road which both enters and exits from a county park or other county conservation area at separate points. The board of supervisors of any county may expend moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such roads shall remain in the board of supervisors of the county.

The farm-to-market road system shall be a continuous interconnected system and provision shall be made for continuity by the designation of extensions within municipalities, state parks, state institutions, other state lands, and county parks and conservation areas. The mileage of such extensions of the system shall be included in the total mileage of the farm-to-market road system.

The farm-to-market review board shall review any and all farm-to-market system modification proposals. The farm-to-market review board shall make final administrative determinations based on sound farm-to-market road system designation principles for all modifications relative to the farm-to-market road system.

1. Modifications to the existing farm-to-market road system and designation of farm-to-market routes on new alignment shall be accomplished in accordance with procedural rules adopted by the farm-to-market review board, subject to the following procedures:

a. Counties shall initiate system modifications by submitting a resolution from the board of supervisors to the department.

b. The department shall submit the resolution to the farm-to-market review board and provide additional material as requested by the board.

c. Upon receipt of a county's resolution requesting a farm-to-market system modification, the farm-to-market review board shall review the proposed system modification and shall consider, but not be limited to consideration of, the following factors:

(1) Intracounty and intercounty continuity of systems.

(2) Properly integrated systems.

(3) Existing and potential traffic.

(5) Location.

(6) Equitable distribution of farm-to-market mileage among the counties.

2. Upon completion of the review process, the farm-to-market review board may do any of the following:

- b. Deny the requested modifications.
- c. Request additional information for further review.

306.8 Transfer of jurisdiction.

Prior to a change in jurisdiction of a road or street, the unit of government having jurisdiction shall either place the road or street and any structures on the road or street in good repair or provide for the transfer of money to the appropriate jurisdiction in an amount sufficient for the repairs to the road or street and any structures on the road or street.

Transfers of the jurisdiction and control of roads and streets may take place if agreements are entered into between the jurisdictions of government involved in the transfer of such roads and streets.

306.9 Diagonal roads — restoring and improving existing roads.

It is the policy of the state of Iowa that relocation of primary highways through cultivated land shall be avoided to the maximum extent possible. When the volume of traffic for which the road is designed or other conditions, including designation as part of the network of commercial and industrial highways, require relocation, diagonal routes shall be avoided if feasible and prudent alternatives consistent with efficient movement of traffic exist.

The improvement of two-lane roads shall utilize the existing right-of-way unless alignment or other conditions, including designation as part of the network of commercial and industrial highways, make changes imperative, and when a two-lane road is expanded to a four-lane road, the normal procedure shall be that the additional right-of-way be contiguous to the existing right-of-way unless relocated for compelling reasons, including the need to provide efficient movement of traffic on the network of commercial and industrial highways. This policy does not apply to a highway project for which the corridor has been approved by the state department of transportation and the corridor has been finalized by September 1, 1977.

It is the policy of the state of Iowa that in constructing primary highways designed with

four-lane divided roadways, access controls shall be limited to the minimum level necessary, as determined by the department, to ensure the safe and efficient movement of traffic or to comply with federal aid requirements.

Unless otherwise required by the federal law or regulation, it is also the policy of this state that road use tax fund moneys shall be used to rehabilitate or reconstruct existing roads, streets, and bridges using substantially existing right-of-way. This paragraph does not apply where additional right-of-way is needed for the construction or completion of designated interstate or city routes and highway bypasses or highways designated as part of the network of commercial and industrial highways.

306.10 Power to establish, alter or vacate.

In the construction, improvement, operation or maintenance of any highway, or highway system, the agency which has control and jurisdiction over such highway or highway system, shall have power, on its own motion, to alter or vacate and close any such highway or railroad crossing thereon, and to establish new highways or railroad crossing thereon which are or are intended to become a part of the highway system over which said agency has jurisdiction and control.

306.11 Hearing — place — date.

In proceeding to the vacation and closing of a road, part thereof, or railroad crossing, the agency in control of the road, or road system, shall fix a date for a hearing on the vacation and closing in the county where the road, or part thereof, or crossing, is located, and if located in more than one county, then in a county in which any part of the road or crossing is located. If the road to be vacated or changed is a secondary road located in more than one county, the boards of supervisors of the counties, acting jointly, shall fix a date for a hearing on the vacation or change in either or any of the counties where the road, or part thereof, is located. If the proposed vacation is of part of a road right-of-way held by easement and will not change the existing traveled portion of the road or deny access to the road by adjoining landowners, a hearing is not required.

make payment for them. After the road has been vacated and closed the board shall sell the properties at the best attainable price.

After the hearing, the agency which instituted the proceedings and conducted the hearing shall enter an order either dismissing the proceedings, or vacating and closing the road, part thereof, or crossing, in which event it shall determine and state in the order the amount of the damages allowed to each claimant. The order thus entered shall be final except as to the amount of the damages unless the order is rescinded as provided in section 306.17. A copy of the order shall be filed with the county auditor of the county or counties in which the road, part thereof, or crossing, is located and with the department and the agency in control of any affected state land.

306.17 Appeal.

Notwithstanding the terms of the Iowa administrative procedure Act, any claimant for damages may, by serving, within twenty days after the order has been issued, a written notice upon the agency which instituted and conducted the proceedings, appeal as to the amount of damages, to the district court of the county in which the land is located, in the manner and form prescribed in chapter 6B with reference to appeals from condemnation, and the proceedings shall thereafter conform to the applicable provisions of that chapter. If, in the opinion of the agency, the damages as finally determined on appeal are excessive, the agency may rescind its order vacating and closing the road, part thereof, or crossing, and the right-of-way shall remain under the jurisdiction of the agency. If the order is rescinded at any time after an appeal is taken, the agency shall pay reasonable attorney fees incurred by the claimant as taxed by the court.

306.19 Right-of-way — access — notice.

1. In the maintenance, relocation, establishment, or improvement of any road, including the extension of such road within cities, the agency having jurisdiction and control of such road shall have authority to purchase or to institute and maintain proceedings for the condemnation of the necessary right-of-way therefor. Such agency shall likewise have power to purchase or institute and maintain proceedings for the condemnation of land necessary for highway drainage, or land containing gravel or other suitable material for the improvement or maintenance of highways, together with the necessary road access or right of access thereto.

2. Whenever the agency condemns or purchases property access rights or alters by lengthening any existing driveway to a road from abutting property, except during the time required for construction and maintenance of the road or highway, the agency shall:

a. Compensate the owner for any diminution in the market value of the property by the denial or alteration by lengthening the driveway; however, in computing such diminution in value no consideration shall be given to the additional maintenance expense for maintaining the additional length of driveway, but in lieu thereof, both in condemnation proceedings or negotiated purchases, the agency shall pay to the owner the sum of five dollars for every lineal foot of additional length of driveway located on said owner's property. This payment shall represent just compensation to said property owner for the additional driveway maintenance caused by reason of the highway or road project.

b. If in the opinion of the agency it would be more economical to purchase the entire tract of the property owner than to provide and pay the maintenance expense required under the provisions of this section, proceed with the acquisition of the entire tract of land; or

c. If mutually agreeable, move buildings from an existing location to a location requiring an equal or lesser length of driveway and provide an adequate driveway to a public road.

3. None of the foregoing requirements shall prohibit the property owner and the agency from entering into a mutually acceptable agreement for the replacement, relocation, construction, or maintenance of any alternate driveway on the owner's property. Compensation for any property rights taken in the establishment of any alternative temporary or permanent access shall be paid as in any other purchase or condemnation of property.

4. Proceedings for the condemnation of land for any highway shall be under the provisions of chapter 6A and chapter 6B. Provided that, in the condemnation of right-of-way for secondary roads that is contiguous to existing road right-of-way for the maintenance, safety improvement, or upgrade

of the existing secondary road, the board of supervisors may proceed as provided in sections 306.28 to 306.37.

5. *a.* The department may notify a city or county that a road under the jurisdiction or control of the department will be established, improved, relocated, or maintained and that the department may need to acquire additional right-of-way or property rights within an area described by the department. The notice shall include a depiction of the area on a map provided by the city, county, or the department. This notice shall be valid for a period of three years from the date of notification to the city or county and may be refiled by the department every three years. Within seven days of filing the notice, the department shall publish in a newspaper of public record a description and map of the area and a description of the potential restrictions applied to the city or county with respect to the granting of building permits, approving of subdivision plats, or zoning changes within the area.

b. The city or county shall notify the department of an application for a building permit for construction valued at twenty-five thousand dollars or more, of the submission of a subdivision plat, or of a proposed zoning change within the area at least thirty days prior to granting the proposed building permit, approving the subdivision plat, or changing the zoning.

c. If the department, within the thirty-day period, notifies the city or county that the department is proceeding to acquire all or part of the property or property rights affecting the area, the city or county shall not issue the building permit, approve the subdivision plat, or change the zoning. The department may apply to the city or county for an extension of the thirty-day period. After a public hearing on the matter, the city or county may grant an additional sixty-day extension of the period.

d. The department shall begin the process of acquiring property or property rights from affected persons within ten days of the department's written notification of intent to the city or county.

6. If the agency determines that it is necessary to relocate a utility facility, the agency shall have the authority to institute and maintain proceedings on behalf of the owner of the utility facility for the condemnation of replacement property rights. The replacement property rights shall be equal in substance to the existing rights of the owner of the utility facility, except that the replacement property rights shall be for a width and location deemed appropriate and necessary for the needs of the owner of the utility facility, as determined by the agency and the owner of the facility. The replacement property rights of the owner of the utility facility shall be subordinate to the rights of the agency only to the extent necessary for the construction and maintenance of the designated

road. Within a reasonable time after completion of the relocation, all previously owned property rights of the owner of the utility facility no longer required for operation and maintenance of the utility facility shall be released or conveyed to the appropriate parties. The authority of the agency under this subsection may only be exercised upon execution of a relocation agreement between the agency and the owner of the utility facility. For purposes of this subsection, “*utility facility*” means an electric, gas, water, steam power, or materials transmission or distribution system; a transportation system; a communications system, including cable television; and fixtures, equipment, or other property associated with the operation, maintenance, or repair of the system. A utility facility may be publicly, privately, or cooperatively owned.

7. For the purposes of this section, the term “*driveway*” shall mean a way of ingress and egress located entirely on private property, consisting of a lane or passageway leading from a residence to a public roadway or highway.

306.42 Transfer of rights-of-way.

1. This section is intended to vest all documents of title in road right-of-way in the jurisdiction responsible for the road. This section establishes a simple method to transfer road rights-of-way by quitclaim deed and to authorize the use of available descriptions, plats, maps or engineering drawings to effect such transfers and to provide an orderly method by which such transfers may be filed, indexed and recorded.

2. The department shall transfer by quitclaim deed to the county or to the city having jurisdiction over a road, all of the state's legal or equitable title and interest in right-of-way for the road or street and may transfer any adjacent unused right-of-way or land in excess of that needed as right-of-way. The deed shall be executed by the director of the department. However, if the department owns any adjacent unused right-of-way in excess of that needed as right-of-way which is located outside the incorporated limits of a city and is suitable for purposes specified in section 350.4, subsection 2, the department may, at the request of the county and the county conservation board, transfer the property by quitclaim deed to the county for the use and benefit of the county conservation board.

3. The county or the city shall transfer by quitclaim deed to the state department of transportation when having jurisdiction over a road, all of the county's or the city's legal or equitable title and interest in rights-of-way for the road and may transfer any adjacent unused right-of-way or land in excess of that needed as right-of-way. The deed shall be executed by the chairperson of the board of supervisors by order of the board for county roads and by the mayor or city manager by order of the city council for city streets.

4. Transfers under this section shall be subject to the right of a utility, association, company or corporation to continue in possession of a right-of-way in use at the time of the transfer. Transfers shall be subject to rights of ingress and egress whether excepted, reserved or granted by the transferring authority to land or to owners of land adjacent to the right-of-way. Transfers shall include an index of parcels transferred by the character of the instrument or proceeding, the grantor and grantee, and date of the last instrument or proceeding acquiring rights to each parcel. Transfers shall locate the right-of-way by quarter-quarter section, township and range or if so acquired, by lot, block and subdivision. The transferring jurisdiction shall transmit to the receiving jurisdiction

all available original documents of title or a certified true copy if the right-of-way was acquired by condemnation or the original deed is lost. Transfers shall be recorded and indexed in the county in which the land is located.

5. Notwithstanding chapter 542B and sections 6A.20, 306.22, 354.13, 354.15, and 364.7, legal descriptions, plats, maps, or engineering drawings used to describe transfers of right-of-way shall, where available, be descriptions, plats, maps, or engineering drawings of record and shall be incorporated by reference to the title instrument or proceedings. If a part but not all of the land acquired by a single conveyance or condemnation is being transferred, the description of that part to be transferred shall be abstracted from the present legal description, plat, map, or engineering drawing of record.

6. Notwithstanding any other provision of the Code, for transfers of roads and streets made after May 1, 1987, neither the transferring jurisdiction or the receiving jurisdiction shall be held liable for any claim or damage for any act or omission relating to the design, construction, or maintenance of the road or street that occurred prior to the effective date of the transfer. This paragraph shall apply to all transfers pursuant to this chapter or section 313.2.

306A.1 Declaration of policy.

The legislature hereby finds, determines, and declares that this chapter is necessary for the immediate preservation of the public peace, health, and safety, and for the promotion of the general welfare.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.1]

306A.2 Definition of a controlled-access facility.

For the purposes of this chapter, a controlled-access facility is defined as a highway or street especially designed for through traffic, and over, from or to which owners or occupants of abutting land or other persons have no right or easement or only a controlled right or easement of access, light, air, or view by reason of the fact that their property abuts upon such controlled-access facility or for any other reason. Such highways or streets may be freeways open to use by all customary forms of street and highway traffic or they may be parkways from which trucks, buses, and other commercial vehicles shall be excluded.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.2]

306A.3 Authority to establish controlled-access facilities — utility accommodation policy.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, acting alone or in cooperation with each other or with any federal, state, or local agency or any other state having authority to participate in the construction and maintenance of highways, are authorized to plan, designate, establish, regulate, vacate, alter, improve, maintain, and provide controlled-access facilities for public use if traffic conditions, present or future, will justify special facilities; provided, that within a city such authority shall be subject to municipal consent as may be provided by law. In addition to the specific powers granted in this chapter, cities and highway authorities shall have any additional authority vested in them relative to highways or streets within their respective jurisdictions. Cities and highway authorities may regulate, restrict, or prohibit the use of controlled-access facilities by various classes of vehicles or traffic in a manner consistent with section 306A.2.

The department shall adopt rules, pursuant to chapter 17A, embodying a utility accommodation policy which imposes reasonable restrictions on placements occurring on or after the effective date of the rules, on primary road rights-of-way. The rules may require utilities to give notice to the department prior to installation of a utility system on a primary road right-of-way and obtain prior permission from the department for the proposed installation. The rules shall recognize emergency situations and the need for immediate installation of service extensions subject to the standards

adopted by the department and the utilities board. The rules shall be no less stringent than the standards adopted by the utilities board pursuant to chapters 478, 479, 479A, and 479B. This paragraph shall not be construed as granting the department authority which has been expressly granted to the utilities board to determine the route of utility installations. If the department requires a utility company permit, the department shall be required to act upon the permit application within thirty days of its filing. In cases of federal-aid highway projects on nonprimary highways, the local authority with jurisdiction over the highway and the department shall comply with all federal regulations and statutes regarding utility accommodation.

306A.4 Design of controlled-access facility.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, are authorized to so design any controlled-access facility and to so regulate, restrict, or prohibit access as to best serve the traffic for which such facility is intended. In this connection such cities and highway authorities are authorized to divide and separate any controlled-access facility into separate roadways by the construction of raised curbs, central dividing sections, or other physical separations, or by designating such separate roadways by signs, markers, stripes, and other devices. No person shall have any right of ingress or egress to, from, or across controlled-access facilities to or from abutting lands, except at such designated points at which access may be permitted, upon such terms and conditions as may be specified from time to time.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.4]

306A.5 Acquisition of property and property rights.

For the purposes of this chapter, cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, may acquire private or public property rights for controlled-access facilities and service roads, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation in the same manner as such units are authorized by law to acquire such property or property rights in connection with highways and streets within their respective jurisdictions. All property rights acquired under this chapter shall be in fee simple. In connection with the acquisition of property or property rights for a controlled-access facility or portion of, or service road in connection with a controlled-access facility, the cities and highway authorities, in their discretion, may acquire an entire lot, block, or tract of land, if by so doing the in-

terests of the public will be best served, even though the entire lot, block, or tract is not immediately needed for the right of way proper.

No access rights to any highway shall be acquired by any authority having jurisdiction and control over the highways of this state by adverse possession or prescriptive right. No action heretofore or hereafter taken by any such authority shall form the basis for any claim of adverse possession of, or prescriptive right to any access rights by any such authority.

306A.6 New and existing facilities — grade-crossing eliminations.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306 may designate and establish an existing street or highway as included within a controlled-access facility. The state or any of its subdivisions shall have authority to provide for the elimination of intersections at grade of controlled-access facilities with existing state and county roads, and city or village streets, by grade separation or service road, or by closing off such roads and streets at the right of way boundary line of such controlled-access facility, the provisions of sections 306.11 to 306.17 shall apply and govern the procedure for the closing of such road or street and the method of ascertaining damages sustained by any person as a consequence of such closing, provided, however, that the highway authority desiring the closing of such road or street shall conduct the hearing and carry out the procedure therefor and pay any damages, including any allowed on appeal, as a consequence thereof, any law to the contrary notwithstanding, and after the establishment of any controlled-access facility, no highway or street which is not part of said facility shall intersect the same at grade. No city or village street, county or state highway, or other public way shall be opened into or connected with any such controlled-access facility without the consent and previous approval of the highway authority in the state, county, city or village having jurisdiction over such controlled-access facility. Such consent and approval shall be given only if the public interest shall be served thereby.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.6]

306A.7 Authority of local units to consent.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306 are authorized to enter into agreements with each other, or with the federal government, respecting the financing, planning, establishment, improvement, maintenance, use, regulation, or vacation of controlled-access facilities or other public ways in their respective ju-

risdictions, to facilitate the purposes of this chapter.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.7]

306A.8 Local service roads.

In connection with the development of any controlled-access facility cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, are authorized to plan, designate, establish, use, regulate, alter, improve, maintain, and vacate local service roads and streets or to designate as local service roads and streets any existing road or street, and to exercise jurisdiction over service roads in the same manner as is authorized over controlled-access facilities under the terms of this chapter, if, in their opinion, such local service roads and streets are necessary or desirable. Such local service roads or streets shall be of appropriate design, and shall be separated from the controlled-access facility proper by means of all devices designated as necessary or desirable by the proper authority.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.8]

306A.9 Repealed by 65 Acts, ch 259, § 1. See § 321.366.

RELOCATION OF UTILITY FACILITIES

306A.10 Notice to relocate — costs paid.

Whenever the state department of transportation, city or county determines that relocation or removal of any utility facility now located in, over, along, or under any highway or street, is necessitated by the construction of a project on routes of the national system of interstate and defense highways including extensions within cities or on streets or highways resulting from interstate substitutions in a qualified metropolitan area under title 23, U.S.C., the utility owning or operating the facility shall relocate or remove the same in accordance with statutory notice. The costs of relocation or removal, including the costs of installation in a new location, shall be ascertained by the authority having jurisdiction over the project or as determined in condemnation proceedings for such purposes and may be paid from participating federal aid or other funds.

A person shall not establish, operate, or maintain a junkyard, any portion of which is within one thousand feet of the nearest edge of the right of way of any interstate or primary highway, except:

1. Those which are screened by natural objects, plantings, fences, or other appropriate means obscuring them from view from the main-traveled portion of the highway.

2. Those located within areas which are zoned for industrial use under authority of law.

3. Those located within unzoned industrial areas which areas shall be determined from actual land uses and defined by regulations to be promulgated by the department under the provisions of chapter 17A in accordance with the standards, criteria, and rules and regulations promulgated under authority of Title 23, United States Code.

When the department determines that the topography of the land adjoining the highway will not permit adequate screening, or screening would not be economically feasible, the department may acquire such property or rights or interests in property as may be necessary to secure the relocation, removal, or disposal of the junkyard, and shall pay the cost of such relocation, removal, or disposal, with federal participation. However, no plan for relocation, removal, or disposal which qualifies for federal participation shall be undertaken unless the department has received notification from the federal government that the federal share to be paid is immediately available for that purpose.

[C73, 75, 77, 79, 81, §306C.12]

306C.13 Control by department of transportation.

The department shall control the erection and maintenance of advertising devices authorized by section 306C.11, subsection 3, in accord with the following criteria, except that in the case of bonus interstate highways the department shall maintain the controls required under chapter 306B or the controls required by this division, whichever controls are stricter:

1. Advertising devices located within the adjacent area of interstate highways and freeway primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than five hundred feet outside of cities, and within two hundred fifty feet if inside of cities. An advertising device may not be located within two hundred fifty feet of an interchange, or rest area. The measurement shall be from the nearest widening constructed for the purpose of acceleration or deceleration of traffic movement to or from the main-traveled way to the advertising device.

2. Advertising devices located within the adjacent area of primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than one hundred feet if inside the corporate limits of a municipality. No advertising device, other than as excepted or permitted by subsections 4, 5, or 6 of this section, shall be located within the triangular area formed by the line connecting two points each fifty feet back from the point where the street right of way lines of the main-traveled way and the intersecting street meet, or would meet, if extended.

3. Advertising devices located within the adjacent area of primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than three hundred feet if outside the corporate limits of a municipality. No advertising device, other than those excepted or permitted by subsections 4, 5, or 6 of this section, shall be located within the triangular area formed by a line connecting two points each one hundred feet back from the point where the street right-of-way lines of the main-traveled way and the intersecting street meet, or would meet, if extended.

4. The distance spacing measurements fixed by subsections 2 and 3 of this section shall not apply to advertising devices which are separated by a building in such a manner that only one advertis-

ing device located within the minimum spacing distance is visible from a highway at any one time.

5. Within a triangular area, as defined by subsections 2 and 3 of this section, occupied by a building or structure, no advertising device shall be erected or maintained closer to the intersection than the building or structure itself, except that a wall advertising device may be attached to said building or structure not to protrude more than twelve inches.

6. Official and directional signs and notices and advertising devices concerning the sale or lease of the property or activities conducted upon the property as specified in 23 U.S.C. § 131(c) shall not be taken into consideration in determining compliance with spacing requirements.

7. The minimum distance between two advertising devices facing the same direction shall apply without regard to the side of the highway on which the advertising devices may be located and shall be measured along the center line of the highway between points directly opposite the advertising devices.

8. Advertising devices shall not be erected, maintained, or illuminated:

a. In a manner to obscure or otherwise physically interfere with an official traffic sign, signal, or device, or to obstruct or physically interfere with any driver's view of approaching, merging, or intersecting traffic.

b. Unless effectively shielded to prevent light from being directed at any portion of the traveled highway with such intensity or brilliance as to cause glare or to impair the vision of the driver of any motor vehicle.

c. Which contain, include, or are illuminated by any flashing, intermittent, or moving light or lights, except those giving public service information such as, but not limited to time, date, temperature, weather, news and similar information.

d. Which imitate or resemble an official sign or signal or device or which are erected or maintained within or closer than three hundred feet from scenic areas, as defined and determined by the department, or which are located or maintained upon trees, or painted or drawn upon rocks or natural features, or which are structurally unsafe or in substantial disrepair.

e. Which exceed one thousand two hundred square feet in area or in the case of a back-to-back or V-type advertising device, with a maximum of two facings per advertising device, seven hundred fifty square feet in area, including border and trim but excluding base or apron, support, and other structural members.

f. Which do not comply with all applicable state or local laws, regulations and ordinances, including but not limited to zoning, building, and sign codes as locally interpreted and applied and enforced, or which violate chapter 319; however, nothing in this division shall prevent or restrict county or local zoning authorities from making a

determination of customary use concerning size, lighting, and spacing of advertising devices in zoned commercial or industrial adjacent areas, and such determinations will be accepted in lieu of the standards of this division. The provisions of this division shall not prevent or restrict county or local zoning authorities within their respective jurisdictions from establishing standards imposing controls stricter than those required by this division.

g. The standards contained in this section pertaining to size, lighting, and spacing shall not apply to advertising devices erected or maintained within six hundred sixty feet of the right of way of those portions of the interstate highway system exempted from control under chapter 306B by authority of section 306B.2, subsection 4, nor to advertising devices erected and maintained within adjacent areas along primary highways within zoned and unzoned commercial and industrial areas, unless said advertising devices were erected subsequent to July 1, 1972.

[C73, 75, 77, 79, 81, §306C.13]

306C.14 Existing signs — six-year limit.

Any advertising device lawfully in existence in an adjacent area on July 1, 1972, which does not conform with the provisions of this division, shall be required to be brought into conformity or removed within six years after July 1, 1972. Any advertising device lawfully erected after said date which subsequently becomes nonconforming, shall be required to be brought into conformity or removed within five years after the date the nonconformity occurs. However, no advertising device shall be acquired or be required to be removed pursuant to this division unless the department has received notification from the federal government that the federal share of "just compensation" to be paid is immediately available to contribute to the cost of acquisition or removal; this requirement shall not apply to the acquisition or removal of advertising devices for which no federal share is payable.

[C73, 75, 77, 79, 81, §306C.14]

306C.15 Acquisition of signs.

The department shall acquire by purchase, gift, or condemnation, and shall pay "just compensation" upon the removal of any of the following advertising devices which are not in conformity with the provisions of this division:

1. Advertising devices lawfully in existence on July 1, 1972.

2. Advertising devices lawfully in existence on land adjoining any highway made an interstate, freeway primary, or primary highway after July 1, 1972.

3. Advertising devices lawfully erected on or after July 1, 1972, but which subsequently become nonconforming.

4. Any advertising device erected on the mistaken or negligent advice of any official or employee of the state of Iowa as to the interpretation, effect, or operation of this division, chapter 306B, or rules promulgated by the department.

[C73, 75, 77, 79, 81, §306C.15]

306C.16 Compensation.

Compensation required by section 306C.15 or 306C.24 shall be paid for the following:

1. The taking from the owner of such advertising device of all right, title, leasehold, and interest in such advertising device.

2. The taking from the owner of real property on which an advertising device is located, of the right to erect and maintain such advertising devices upon that real property.

[C73, 75, 77, 79, 81, §306C.17]

306C.18 Permit required.

The owner of every advertising device regulated by this chapter, except signs and advertising devices excepted by section 306C.11, subsections 1, 2 and 5, shall be required to make application to the department for a permit.

1. The application for a permit shall be on a form provided by the department and shall contain the name and address of the owner of the advertising device and the name and address of the owner of the real property on which it is located; the date of its erection; a description of its location; its dimensions; and such other information required by the department, together with a permit fee as provided in this section or rule adopted by the department.

2. After July 1, 1972, no new advertising device for which an application for a permit is required may be erected without first obtaining a permit from the department, except in the case of advertising devices lawfully in existence in areas adjacent to any highway made an interstate, freeway primary, or primary highway after July 1, 1972. The owner shall be required to make application for a permit as provided for in this section within thirty days after the date the said highway acquired said designation.

3. Upon receipt of an application containing all the required information in due form and properly executed together with the fee required, the department shall issue a permit to be affixed to the advertising device if the advertising device will

not violate any provision of this division or chapter 306B, or any rule promulgated by the department, provided that in the case of advertising devices to be acquired pursuant to section 306C.15, a provisional permit shall be issued.

4. The fee for both types of permits for calendar years 1997 and 1998 shall be one hundred dollars for the initial fee and fifteen dollars for each annual renewal for signs up to three hundred seventy-five square feet in area, twenty-five dollars for each annual renewal for signs at least three hundred seventy-six, but not more than nine hundred ninety-nine, square feet in area, and fifty dollars for each annual renewal for signs one thousand square feet or more in area. Beginning January 1, 1999, fees shall be as determined by rule by the department. The fees collected for the above permits shall be credited to a special account entitled the "highway beautification fund" and all salaries and expenses incurred in administering this chapter shall be paid from this fund or from specific appropriations for this purpose, except that surveillance of, and removal of, advertising devices performed by regular maintenance personnel are not to be charged against the account.

306C.19 Removal after notice.

Any advertising device erected or maintained after July 1, 1972, in violation of this division or the rules promulgated by the department, is a public nuisance and may be removed by the department upon thirty days' notice, by certified mail, to the owner of the advertising device and to the owner of the land on which the advertising device is located. The notice shall require such owners to remove the advertising device if it is prohibited, or to cause it to conform to this division or rules promulgated by the department if it is not prohibited.

1. If the owner of the advertising device or the landowner fails to act within thirty days as required in the notice, the advertising device shall be deemed to be forfeited and the department may enter upon the land and remove the advertising device. Such entry after notice, shall not be deemed a trespass and the department may be aided by injunction to abate the nuisance and to insure peaceful entry.

2. The cost of removal, including fees, costs and expenses which arise out of an action brought by the department to insure peaceful entry and removal, may be assessed against the owner of the advertising device. If the owner of the advertising device fails to pay the fees, costs, or expenses within thirty days after assessment, the department may commence an action to collect the fees, costs, or expenses, which when collected shall be paid into the "highway beautification fund".

306C.20 Bonus funds agreements.

The department shall enter into agreements with the duly constituted federal authorities in order to secure for the state all bonus federal funds allotted and appropriations to the state and to avoid loss or reduction, under Title 23, section 131, of the United States Code, of federal aid funds apportioned or to be apportioned to the state under Title 23, section 104 of the United States Code. The department may accept funds from whatever source, including any allotment of funds by the United States, or any of its departments or agencies, appropriated to carry out the purposes of Title 23, section 131 of the United States Code. The department shall take such steps as may be necessary to obtain from the United States or any of its departments or agencies, funds allotted and appropriated for the purpose of paying the federal share of just compensation to be paid to advertising device owners and owners of the real property under the terms of this chapter and Title 23, section 131, paragraph "g" of the United States Code. After January 1, 1997, private persons, firms, or corporations entering into an agreement with the department under this section shall not develop, establish, or own any commercial business located on land adjacent to the rest area which is subject to the agreement.

An interstate rest area shall be located entirely on the interstate right-of-way, including, but not limited to, all entrance and exit ramps, all rest area buildings including information centers, and all parking facilities. Department money and resources shall not be used for any other type of interstate rest area. 306C.22 Political signs.

It shall be lawful to place political signs on private property with permission of the owner or person in charge of the property at any time during the period beginning forty-five days before the date of the election to which the signs pertain and ending on the day of the election, even if such

placement would otherwise be a violation of this chapter. This section shall not be construed to authorize placement of any political sign at any location where it may, because of its size, location, content or coloring constitute a traffic hazard or a detriment to traffic safety by obstructing the vision of drivers, by detracting from the visibility of any traffic-control device or by being confused with an authorized traffic-control device. The exemption from provisions of this chapter granted by this section for political signs shall expire on the seventh day following the date of the election to which the signs pertain. A municipal corporation shall adopt no ordinance which prohibits the placement of political signs on private property as permitted by this section during the period beginning twenty-one days before the date of the election to which the signs pertain, nor requires removal of the political signs so placed less than seven days after the date of that election.

[C77, 79, 81, §306C.22]

306C.23 Special event signs.

It is lawful to place a special event sign on private property with permission of the owner or person in charge of the property at any time during the period beginning sixty days prior to the date of the special event to which the sign pertains and ending on the day of the special event. Special event signs shall be removed not later than twenty-four hours following the end of the special event. This section does not authorize placement of a special event sign at a location where it may, because of its size, location, content, coloring, or lighting, constitute a traffic hazard or a detriment to traffic safety by obstructing the vision of drivers, by detracting from the visibility of a traffic-control device or by being confused with an authorized traffic-control device.

92 Acts, ch 1100, §1

306C.24 Compensation for sign removal.

1. *Definition.* As used in this section, "off-premises advertising device" means an advertising device which does not qualify as an "on-premises sign" under rules adopted by the department pursuant to chapter 17A.

2. *Just compensation required.* Political subdivisions of this state shall not remove, take, alter, or cause to be removed, taken, or altered a lawfully erected off-premises advertising device without paying just compensation in cash to the owner of the advertising device and to the owner of the real property on which the advertising device is located, as provided in section 306C.16. The department shall not remove, take, alter or cause to be removed, taken, or altered a lawfully erected off-premises advertising device subject to control under chapter 306B or 306C without paying just compensation when required under 23 U.S.C. § 131(g) to the owner of the advertising device and

to the owner of the real property on which the advertising device is located, as provided in section 306C.16. For the department, the sole intent of this section is to comply with 23 U.S.C. § 131(g) and it is not the intent of this section to, in any manner, relinquish any powers of the department relating to the control and removal of advertising devices under police power.

3. *Exceptions.* This section does not apply to the removal, taking, or altering of an off-premises advertising device under any of the following conditions:

a. The device is unlawfully erected or is being maintained in violation of the provisions of section 306C.13, subsection 8, or section 306C.18.

b. The device has been abandoned or not used for a period of at least six months.

4. *Department authorization.* If required by 23 U.S.C. § 131(g), the department may acquire through purchase or condemnation and shall pay just compensation as provided in section 306C.16

for off-premises advertising devices removed after July 1, 1989, through amortization by an ordinance of a political subdivision enacted prior to July 1, 1989. Notwithstanding the requirements of section 306C.14, the department may first pay just compensation from the highway beautification fund and then claim reimbursement for the federal share of the payment from the federal government.

5. *Savings clause.* If any provision of this section which relates to the department is inconsistent or conflicts with, or is not required by, 23 U.S.C. § 131 to avoid the loss of federal funds, the provision shall be suspended but only to the extent necessary to eliminate the inconsistency, conflict, or requirement. If any part of this section is found to be invalid or unconstitutional, such judgment shall not affect the validity of the section as a whole or any provision or part of the section not found to be invalid or unconstitutional.

SCENIC ROUTES

306D.1 Statement of purpose — intent.
306D.2 Statewide scenic highways program — objectives and agency duties.

306D.3 Plan recommendations and pilot projects.
306D.4 Scenic highway advertising.

306D.1 Statement of purpose — intent.

1. The general assembly finds that:

a. The state offers numerous regions through which people can drive for the pleasure of viewing unusually scenic and interesting landscapes; however, routes to and through these areas have not been adequately identified for Iowans and state visitors.

b. Among those things that attract motorists to the state's landscape are agricultural lands, forests, river basins, distinctive landforms, interesting architecture, metropolitan areas, small rural towns, and historic sites.

c. The landscape qualities of unusually scenic routes throughout the state have not been protected from visual and resource deterioration particularly along routes which pass near the state's nationally significant areas such as the bluffs of the Mississippi and Missouri rivers, the Amana colonies, the Herbert Hoover national historic site, federal reservoirs, communities surrounding the state's natural lakes, the Des Moines river greenbelt, the great river road, and many others.

d. A principal goal of economic development in this state is to increase the influence which travel

and tourism have on the state's economic expansion.

e. Iowans and visitors should be encouraged to travel to and through unusually scenic areas of the state.

f. A program should be established, following a statewide plan, to identify and promote highways and secondary routes which pass through unusually scenic landscapes and to protect and enhance the scenic qualities of the landscape through which these routes pass.

2. In addition to other goals for the program, it is the intention of the general assembly that the scenic highways program be coordinated with the state's open space program.*

87 Acts, ch 175, §1

*Open space program, chapter 465A

306D.2 Statewide scenic highways program — objectives and agency duties.

1. The department of transportation shall prepare a statewide, long-range plan for the protection, enhancement, and identification of highways and secondary roads which pass through unusually scenic areas of the state as identified in section

306D.1. The department of natural resources, department of economic development, and department of cultural affairs, private organizations, county conservation boards, city park and recreation departments, and the federal agencies having jurisdiction over land in the state shall be encouraged to assist in preparing the plan. The plan shall be coordinated with the state's open space plan if a state open space plan has been approved by the general assembly. The plan shall include, but is not limited to, the following elements:

a. Preparation of a statewide inventory of scenic routes and ranking of relative uniqueness for each route. The degree to which these routes suffer from negative visual intrusions shall be documented.

b. Recommended techniques for preserving and enhancing the scenic qualities associated with each route.

c. Forecasts of significant changes in traffic volumes and environmental, social, and economic impacts if scenic routes are publicly identified and promoted as tourism attractions.

d. Recommended techniques for incorporating scenic highway routes in state and local tourism development and marketing programs.

e. Landscape management needs including maintenance, rehabilitation, and improvements to scenic areas.

f. Funding levels needed to accomplish the statewide scenic highway program.

g. Recommendations of how federal and state transportation programs can be modified or developed to assist the state's scenic highway program.

2. The preparation of the plan is subject to an appropriation by the general assembly for that purpose. The plan shall be submitted to the general assembly by January 15, 1988. Prior to submission of the plan to the general assembly, the department shall request comments on the proposed plan from state agencies, federal agencies, and private organizations with interests in scenic highways. The comments shall be submitted to the general assembly.

87 Acts, ch 175, §2

306D.3 Plan recommendations and pilot projects.

1. The department's recommendations to the general assembly shall include proposed legislation for the state to acquire and protect scenic landscapes along public roads and highways.

2. Before January 1, 1989, the department shall identify four pilot scenic highway routes across two or more counties each for trial promotion in the state's tourism marketing program.

87 Acts, ch 175, §3

306D.4 Scenic highway advertising.

The state department of transportation shall have the authority to adopt rules to control the erection of new advertising devices on a highway designated as a scenic highway or scenic byway in order to comply with federal requirements concerning the implementation of a scenic byways program.

307.36 Project needs — retention of property.

It is the intent of the general assembly that not later than July 1, 1992, the state department of transportation shall dispose of all right-of-way owned by the department and not needed for projects. In determining need, the department shall consider both its five-year program requirements and its long-range, statewide corridor development needs, including the development of the network of commercial and industrial highways. The department may also act to preserve right-of-way for improvements to the network of commercial and industrial highways by acquiring options, easements, rights of first refusal, or other property interests less than fee title. In determining need based upon long-range, statewide corridor development, the department shall give careful consideration to economically depressed urban areas not served directly by the national system of interstate and defense highways.

odometer law or a rule or order issued under section 321.71 or the federal odometer law, to the attorney general. The attorney general, with or without the referral, may institute appropriate criminal proceedings or may direct the case to the appropriate county attorney to institute appropriate criminal proceedings. The attorney general may use those funds available to the department of justice for this purpose and law enforcement agencies may be reimbursed for expenses incurred in the enforcement of those laws, rules, or orders with the approval of the attorney general.

88 Acts, ch 1278, §26

307.41 and 307.42 Reserved.

307.43 Federal donations.

If the government of the United States provides for free distribution among the states of machinery or other equipment suitable for use in road improvement, the director may receive and receipt for the machinery and equipment, and take action to secure to the state the benefit of any such tenders by the federal authorities. The director may make an apportionment of the machinery or other equipment among the counties of the state which in the director's judgment will best facilitate work in progress or contemplated by the counties, but the title and right of possession of the property received from the federal government is at all times in the director for the use and benefit of the state.

86 Acts, ch 1245, §1924

307.44 Use of federal moneys — cooperation.

If funds are allotted or appropriated by the government of the United States for the improvement of transportation facilities and services in this state, the department may cooperate with the government of the United States, and any agency or department thereof, in the planning, acquisition, contract letting, construction, improvement, maintenance, and operation of transportation facilities and services in this state; may comply with the federal statutes and rules; and may cooperate

with the federal government in the expenditure of the federal funds.

86 Acts, ch 1244, §39; 93 Acts, ch 87, §2

307.45 State-owned lands — assessment.

Cities and counties may assess the cost of a public improvement against the state when the improvement benefits property owned by the state and under the jurisdiction and control of the department's administrator of highways. The director shall pay from the primary road fund the portion of the cost of the improvement which would be legally assessable against the land if privately owned.

Assessments against property under the jurisdiction of the department's administrator of highways shall be made in the same manner as those made against private property, except that the city or county making the assessment shall cause a copy of the public notice of hearing to be mailed to the director by certified mail.

Assessments against property owned by the state and not under the jurisdiction and control of the department's administrator of highways shall be made in the same manner as those made against private property and payment shall be made by the executive council from any funds of the state not otherwise appropriated.

However, an assessment in excess of sixty thousand dollars in effect on or after December 1, 1990, is not valid unless it is provided for or contained within a capital appropriation by the general assembly.

86 Acts, ch 1244, §40; 91 Acts, ch 268, §511

307.46 Use of reversions.

1. Notwithstanding the provisions of section 8.33 or any other provision of law to the contrary, if on June 30 of a fiscal year a balance of an operational appropriation remains unexpended or unencumbered, not more than fifty percent of the balance may be encumbered by the department and used as provided in this section and the remaining balance shall be deposited in the fund from which the money was appropriated. The department shall not encumber an amount in excess of five hundred thousand dollars under this section in any fiscal year. Moneys encumbered under this section shall be used by the department during the succeeding fiscal year for employee training and for technology enhancement. Moneys which are encumbered under this section but not used shall revert to the fund from which the money was appropriated on June 30 of the succeeding fiscal year.

2. On or before June 30 of the fiscal year following the fiscal year in which funds were encumbered under this section, the department shall re-

port to the joint transportation, infrastructure, and capitals appropriations subcommittee, the legislative fiscal bureau, the department of management, and the legislative fiscal and oversight committees of the legislative council detailing how the moneys were expended. Moneys shall not be encumbered under this section from an appropriation which received a transfer from another appropriation pursuant to section 8.39.

3. For purposes of this section, “operational appropriation” means an appropriation from the road use tax fund or primary road fund providing for salaries, support, maintenance, and miscellaneous purposes.

99 Acts, ch 120, §1, 5

307.47 Materials and equipment revolving fund — annual purchase report.

1. The highway materials and equipment revolving fund is created from moneys appropriated out of the primary road fund. From this fund shall be paid all costs for materials and supplies, inventoried stock supplies, maintenance and operational costs of equipment, and equipment replacements incurred in the operation of centralized purchasing under the supervision of the department’s administrator of highways. Direct salaries and expenses properly chargeable to direct salaries shall be paid from the fund. For each month the director shall render a statement to each unit under the supervision of the administrator of highways for the actual cost of materials and supplies, operational and maintenance costs of equipment, and equipment depreciation used. The expense shall be paid by the administrator of highways in the same manner as other interdepartmental billings are paid and when the expense is paid by the administrator of highways, the sum paid shall be credited to the highway materials and equipment revolving fund.

2. If surplus accrues to the revolving fund in excess of one hundred thousand dollars for which there is no anticipated need or use, the governor shall order that surplus reverted to the primary road fund.

3. When the units under the supervision of the administrator of highways share equipment with other administrative units of the department, the director shall prorate the costs of the equipment among the administrative units using the equipment.

4. The department shall present a purchase report to the legislative fiscal bureau prior to the beginning of each regular annual session of the general assembly. The report shall cover all equipment and vehicle purchases through the highway materials and equipment revolving fund during the preceding fiscal year.

An employee eligible for longevity pay under this section whose employment is terminated on or after July 1, 1971, if reemployed by the department, forfeits any right the employee may have had to longevity pay.

An employee under the supervision of the department’s administrator of highways who became an employee of the state department of transportation on July 1, 1974, retains all rights to longevity pay so long as the employee continues employment with the department.

If a subcontractor named by a bidder awarded a contract is replaced, or if the cost of work to be done by a subcontractor is reduced, the bidder shall disclose the name of the new subcontractor or the amount of the reduced cost. If a subcontractor is added by a bidder awarded a contract, the bidder shall disclose the name of the new subcontractor.

The department shall issue electronic project bid notices for distribution to the targeted small business web page located at the department of economic development. The notices shall be provided to the targeted small business marketing manager forty-eight hours prior to the issuance of all project bid notices. The notices shall contain a description of the project, a point of contact for each project, and any subcontract goals included in the bid.

307A.1 Definitions.

As used in this chapter, unless the context otherwise requires:

1. “*Commission*” means the state transportation commission of the state department of transportation.

2. “*Department*” means the state department of transportation.

[C75, 77, 79, 81, §307A.1]

307A.2 Duties.

Said commission shall:

1. Devise and adopt standard plans of highway construction and furnish the same to the counties and provide information to the counties on the maintenance practices and policies of the department.

2. Furnish information and instruction to, answer inquiries of, and advise with, highway officers on matters of highway construction and maintenance and the reasonable cost thereof.

3. Reserved.

4. Make surveys, plans, and estimates of cost, for the elimination of danger at railroad crossings on highways, and confer with local and railroad officials with reference to elimination of the danger.

5. Assist the board of supervisors and the department general counsel in the defense of suits wherein infringement of patents, relative to highway construction, is alleged.

6. Make surveys for the improvement of highways upon or adjacent to state property when requested by the board or department in control of said lands.

7. Record all important operations of said commission and, at the time provided by law, report the same to the governor.

8. Incur no expense to the state by sending out road lecturers.

9. Order the removal or alteration of any lights or light-reflecting devices, whether on public or private property, other than railroad signals or crossing lights, located adjacent to a primary road

and within three hundred feet of a railroad crossing at grade, which in any way interfere with the vision of or may be confusing to a person operating a motor vehicle on such highway in observing the approach of trains or in observing signs erected for the purpose of giving warning of such railroad crossing.

10. Order the removal or alteration of any lights or light-reflecting devices, whether on public or private property, located adjacent to a primary road and within three hundred feet of an intersection with another primary road, which in any way interfere with the vision of or may be confusing to a person operating a motor vehicle on such highway in observing the approach of other vehicles or signs erected for the purpose of giving warning of such intersection.

11. Construct, reconstruct, improve, and maintain state institutional roads and state park roads, which are part of the state park, state institution, and other state land road system as defined in section 306.3, and bridges on such roads, roads located on state fairgrounds as defined in chapter 173, and the roads and bridges located on community college property as defined in chapter 260C, upon the request of the state board, department, or commission which has jurisdiction over such roads. This shall be done in such manner as may be agreed upon by the state transportation commission and the state board, department, or commission which has jurisdiction. The commission may contract with any county or municipality for the construction, reconstruction, improvement, or maintenance of such roads and bridges. Any state park road which is an extension of either a primary or secondary highway which both enters and exits from a state park at separate points shall be constructed, reconstructed, improved, and maintained as provided in section 306.4. Funds allocated from the road use tax fund for the purposes of this subsection shall be apportioned in the ratio that the needs of the state institutional roads and bridges, park roads and bridges, or community college roads and bridges bear to the total needs of these facilities based upon the most recent qua-

drennial park and institution need study. The commission shall conduct a study of the road and bridge facilities in state parks, state institutions, state fairgrounds, and on community college property. The study shall evaluate the construction and maintenance needs and projected needs based upon estimated growth for each type of facility to provide a quadrennially updated standard upon which to allocate funds appropriated for the purposes of this subsection.

12. Prepare, adopt, and cause to be published a long-range program for the primary road system, in conjunction with the state transportation plan adopted by the commission. Such program shall be prepared for a period of at least five years and shall be revised, brought up to date, and republished at least once every year in order to have a continuing five-year program. The program shall include, insofar as such estimates can be made, an estimate of the money expected to become available during the period covered by the program and a statement of the construction, maintenance, and other work planned to be performed during such period. The commission shall conduct periodic reinspections of the primary roads in order to revise, from time to time, its estimates of future needs to conform to the physical and service conditions of the primary roads. The commission shall annually cause to be published a sufficiency rating report showing the relative conditions of the primary roads. Before the last day of December of each year, the commission shall adopt and cause to be published from its long-range program, a plan of improvements to be accomplished during the next calendar year. However, in years when the federal government is reauthorizing federal highway funding, the commission shall not be required to adopt and publish the annual plan of improvements to be accomplished until at least ninety days from the enactment of the new federal funding formula. This annual program shall list definite projects in order of urgency and shall include a reasonable year's work with the funds estimated to be available. The annual program shall be final and followed by the commission in the next year except that deviations may be made in case of disaster or other unforeseen emergencies or difficulties. The relative urgency of the proposed improvements shall be determined by a consideration of the physical condition, safety, and service characteristics of the various primary roads.

13. The criteria used by the commission for allocating funds as a result of any long-range planning process shall be adopted in accordance with the provisions of chapter 17A. The commission shall adopt such rules and regulations in accordance with the provisions of chapter 17A as it may deem necessary to transact its business and for

the administration and exercise of its powers and duties.

14. For the four-year period beginning July 1, 1979, and for each subsequent four-year period, prepare, adopt and cause to be published the results of a study of all roads and streets in the state. The study shall be so designed to investigate present deficiencies and future twenty-year maintenance and construction needs of the roads and the ability of each applicable authority to meet the needs for the planning, construction, repair and maintenance of roads within their jurisdiction. The commission may gather information necessary to complete this study and shall be furnished assistance from any state agency as necessary to prepare, update and publish a report to be referred to as the "quadrennial need study" for the purposes of this chapter and chapter 312. The commission shall report the results of the study to the general assembly by January 1 of the last year in each four-year period and the study shall take effect the following July 1. This subsection does not preclude the commission from updating the quadrennial need study when necessary to reflect changes in road and street needs in the state.

14A. Annually recalculate the construction and maintenance needs of roads under the jurisdiction of each county to take into account the needs of a road whose jurisdiction has been transferred from the department to a county or from a county to the department during the previous year. The recalculation shall be reported by January 1 of the year following the transfer and shall take effect the following July 1 for the purposes of allocating moneys under sections 312.3 and 312.5.

15. Identify, within the primary road system, a network of commercial and industrial highways in accordance with section 313.2A. The improvement of this network shall be considered in the development of the long-range program and plan of improvements under this section.

MISSOURI RIVER BARGE COMPACT

307C.1 Missouri river barge compact.

307C.2 Jurisdiction and control.

307C.3 Duties of the state department of transportation.

307C.4 Liberal interpretation.

307C.5 No conflict of local functions.

307C.1 Missouri river barge compact.

The Missouri river interstate barge compact is enacted into law and entered into with all other states which legally join in the compact in substantially the following form:

COMPACT BETWEEN IOWA, KANSAS,
MISSOURI AND NEBRASKA FOR
THE DEVELOPMENT OF THE MISSOURI
RIVER FOR BARGE TRAFFIC

ARTICLE I

The purposes of this compact are to provide for planning for the most efficient use of the waters of the Missouri river, to increase the amount of barge traffic on that segment of the Missouri river below Sioux City, Iowa, to take necessary steps to develop the Missouri river and its banks to handle more barge traffic than is presently handled, to encourage barge use on that segment of the Missouri river for transporting bulk goods, especially farm commodities, to insure that the intended increase in barge traffic does not impose unacceptable damage on the Missouri river in all its various uses, including agriculture, wildlife management, and recreational opportunities, to consider the effects of diversion of the waters of the Missouri river on navigation, and to promote joint action between the compact parties to accomplish these purposes. The purposes of the compact do not include lobbying activities against user fees for barge traffic and such activities under this compact are prohibited.

ARTICLE II

It is the responsibility of the four states to accomplish the purposes in Article I through the official in each state charged with the duty of administering the public waters and to collect and correlate through those officials the data necessary for the proper administration of the compact. Those officials may, by unanimous action, adopt rules and regulations to accomplish the purposes of this compact.

ARTICLE III

The states of Iowa, Missouri, Kansas, and Nebraska agree that within a reasonable time they shall fulfill the obligations of this compact and that each shall authorize the proper official or agency in its state to take the necessary steps to promote barge use and develop the Missouri river as it flows between and within the compact states for additional barge traffic.

ARTICLE IV

This compact does not limit the powers granted in any other act to enter into interstate or other agreements relating to the Missouri river flowing between and within the compact states, alter the relations between the respective internal responsibilities of the government of a party state and its subdivisions, or impair or affect any rights, powers, or jurisdiction of the United States, or those acting by or under its authority, in, over, and to

those waters of the Missouri river. Adoption of this compact by the general assembly shall not require the signatory states to adopt any legislation or to appropriate funds for its implementation.

ARTICLE V

Other states having an interest in the promotion of barge traffic on the Missouri river can join in this compact by unanimous consent of the member states.

Any member state can withdraw at any time by appropriate action of its legislature.

307C.2 Jurisdiction and control.

The state department of transportation has jurisdiction and authority to implement the Missouri river barge compact.

84 Acts, ch 1257, §2

307C.3 Duties of the state department of transportation.

The state department of transportation shall, with the cooperation of the Iowa department of economic development, the department of natural resources, and the member states' officials or

agencies, take the necessary steps to achieve the purposes set forth in this chapter.

84 Acts, ch 1257, §3

307C.4 Liberal interpretation.

This compact shall be liberally construed so as to effectuate its purposes. The compact is severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability of the compact to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability of it to any government, agency, person or circumstance shall not be affected. If this compact is held to be contrary to the constitution of any state participating in the compact, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

84 Acts, ch 1257, §4

307C.5 No conflict of local functions.

The Missouri river barge compact does not supersede or limit the functions, powers, duties and discretions of counties, townships, school districts, cities, levee districts, drainage districts, levee and drainage districts, or any other governmental subdivisions or of their governing officials.

Gift, purchase, exchange, and condemnation include acquisition of a scenic easement. A scenic easement acquired under this chapter constitutes an easement both at law and in equity, and all legal and equitable remedies, including prohibitory and mandatory injunctions, are available to protect and enforce the state's interest in such scenic easements. A scenic easement acquired under this chapter is deemed to be appurtenant to the roadway to which it is adjacent or from which it is visible. The duties created by a scenic easement acquired under this chapter are binding upon and enforceable against the original owner of the land subject to the scenic easement and the original owner's heirs, successors, and assigns in perpetuity, unless the instrument creating the scenic easement expressly provides for a lesser duration. A court shall not declare a scenic easement acquired under this chapter to have been extinguished or to have become unenforceable by virtue of changed conditions or frustration of purpose.

b. Accept and administer state, federal, and any other public or private funds made available for the acquisition of rights in land and for the planning and construction or reconstruction of any segment of the great river road, and state and federal funds for the maintenance of that part of the great river road constituting the right of way.

308.9 Establishing locations for the highway.

1. When, as a result of its investigations and studies, the state transportation commission, in cooperation with the department of natural resources, finds that there may be a need in the future for the development and construction or reconstruction of segments of the great river road, and when the state transportation commission determines that in order to prevent conflicting costly economic development on areas of lands to be available for the great river road when needed for future development, there is need to establish and to inform the public of the approximate location and widths of new or improved segments of the great river road to be needed, the state transportation commission may proceed to establish the location and the approximate widths in the manner provided in this section.

The state transportation commission shall give notice and hold a public hearing on the matter in a convenient place in the area to be affected by the proposed improvement of the great river road. The state transportation commission shall consider and evaluate the testimony presented at the public hearing and shall make a study and prepare a map showing the location of the proposed new or reconstructed segment of the great river road and the approximate widths of right of way needed. The map shall show the existing roadway and the property lines and record owners of lands to be needed. The approval of the map shall be recorded by reference in the state transportation commission's minutes, and a notice of the action and a

copy of the map showing the lands or interest in the lands needed in any county shall be filed in the office of the county recorder of that county. Notice of the action and of the filing shall be published once in a newspaper of general circulation in the county, and within sixty days following the filing, notice of the filing shall be served by registered mail on the owners of record on the date of filing. Using the same procedures for approval, notice and publications, and notice to the affected record owners, the state transportation commission may amend the map.

2. After such location is established, within the area of the great river road as shown on the map or in such proximity to it as to result in consequential damages when the rights in land for the great river road are acquired, a person shall not erect or move in any additional structure or rebuild, alter or add to any existing structure, without giving to the state transportation commission by registered mail sixty days' notice of such contemplated construction, alteration, or addition de-

scribing the same. However, this prohibition and requirement shall not apply to any normal or emergency repairs or replacements which are necessary to maintain an existing structure of a facility in approximately its previously existing functioning condition. When the rights in land for a segment of the great river road are acquired, damages shall not be allowed for any construction, alterations, or additions in violation of this subsection.

3. Without limiting any authority otherwise existing, rights in land needed for the great river road may be acquired at any time by the state, the county, or the municipality in which such segment of the great river road is located. If an owner's contiguous land is acquired to an extent which is less than the total amount shown on the map as needed, consequential damages to the land not acquired shall be allowed as found to exist.

308A.1 Department of natural resources and transportation commissions to co-operate.

The department of natural resources, in consultation with the state transportation commission, is hereby authorized to establish recreational bikeways within this state for the use, enjoyment, and participation of the public in nonmotorized bicycling. The routes established for such bikeways shall be designed to maximize the safety of cyclists and motorists and may utilize secondary roads when the normal flow of motor vehicle traffic will not be hindered, as well as other infrequently traveled roads, streets, parkways, and appropriate thoroughfares. Such bikeways shall be routed, wherever possible, to allow the enjoyment of scenic views and points of historical interest, and may connect state parks and other recreational areas throughout the state.

Bikeway routes shall be clearly marked with appropriate signs to guide cyclists and to alert motorists. Such signs shall be placed at intervals and designed in such form as prescribed by the department of natural resources in consultation with the state transportation commission.

The department of natural resources is hereby authorized to co-operate with county conservation boards, boards of supervisors, city councils, or any private organizations interested in the establishment of bikeways, and may consult with such groups in the planning of appropriate bikeway routes and related activities.

structures joining private buildings or so constructed to provide elevated access or egress facilities to private buildings unless the following condition is met:

That portion of project funds necessary to obtain federal funds is provided by private parties benefited by the facilities.

MISCELLANEOUS PROVISIONS

309.56 Project plans. Repealed by 99 Acts, ch 13, § 28, 29.

309.57 Area service classification.

The county board of supervisors, after consultation with the county engineer, and for purposes of specifying levels of maintenance effort and access, may classify the area service system into three classifications termed area service "A", area service "B", and area service "C". The area service "A" classification shall be maintained in conformance with applicable statutes. Area service "B" classification roads may have a lesser level of maintenance as specified by the county board of supervisors, after consultation with the county engineer. Area service "C" classification roads may have restricted access and a minimal level of maintenance as specified by the county board of supervisors after consultation with the county engineer.

Roads within area service "B" and "C" classifications shall have appropriate signs, conforming to the Iowa state sign manual, installed and maintained by the county at all access points to roads on this system from other public roads, to adequately warn the public they are entering a section of road which has a lesser level of maintenance effort than other public roads. In addition, area service "C" classification roads shall adequately warn the public that access is limited.

Roads may only be classified as area service "C" by ordinance or resolution upon petition signed by all landowners adjoining the road. The ordinance or resolution shall specify the level of maintenance effort and the persons who will have access rights

to the road. The county shall only allow access to the road to the owner, lessee, or person in lawful possession of any adjoining land, or the agent or employee of the owner, lessee, or person in lawful possession, or to any peace officer, magistrate, or public employee whose duty it is to supervise the use or perform maintenance of the road. Access to the road shall be restricted by means of a gate or other barrier.

Notwithstanding section 716.7, subsection 4, entering or remaining upon an area service "C" classification road without justification after being notified or requested to abstain from entering or to remove or vacate the road by any person lawfully allowed access shall be a trespass as defined in section 716.7.
