SUBCHAPTER I

GENERAL PROVISIONS

469.1 Definitions.

For the purposes of this chapter:

1. “Board” means the Iowa power fund board created in section 469.6.
2. “Committee” means the due diligence committee created in section 469.7.
3. “Director” means the director of the office of energy independence.
4. “Foreign” means a locality outside of or nation other than the United States, Canada, or Mexico.
5. “Fund” means the Iowa power fund created in section 469.9.
6. “Office” means the office of energy independence.

2007 Acts, ch 168, §1, 18

469.2 Office of energy independence.

The office of energy independence is established to coordinate state activities concerning energy independence.

2007 Acts, ch 168, §2, 18

469.3 Director of office of energy independence.

1. A director of the office of energy independence shall be appointed by the governor, subject to confirmation by the senate, and shall serve at the pleasure of the governor. The governor shall fill a vacancy in the office in the same manner as the original appointment was made. The director shall be selected primarily for administrative ability and knowledge concerning renewable energy, renewable fuels, and energy efficiency. The salary of the director shall be fixed by the governor.

2. The director shall do all of the following:

- a. Direct the office of energy independence.
- b. Coordinate the administration of the Iowa power fund.
- c. Lead outreach and public education efforts concerning renewable energy, renewable fuels, and energy efficiency.
- d. Pursue new research and investment funds from federal and private sources.
- e. Coordinate and monitor all existing state and federal renewable energy, renewable fuels, and energy efficiency grants, programs, and policy.

f. Advise the governor and general assembly concerning renewable energy, renewable fuels, and energy efficiency policy and legislation.

g. Establish performance measures for determining effectiveness of renewable energy, renewable fuels, and energy efficiency efforts.

h. Contract for and utilize assistance from the department of economic development regarding administration of grants, loans, and other financial incentives related to section 469.9, subsection 4, paragraph "a", subparagraph (1), the department of natural resources and the utilities board regarding assistance in the administration of grants, loans, and other financial incentives related to section 469.9, subsection 4, paragraph "a", subparagraph (2), and other state agencies as appropriate.

i. Develop an Iowa energy independence plan pursuant to section 469.4.

j. Assist Iowa businesses in creating jobs involving energy efficiency and renewable energy, especially through the use of funds from the American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5, and other state and federal funds available to the office and the board.

k. Approve engineering firms for performance of comprehensive engineering analyses done on buildings in which a state agency seeks to improve energy efficiency pursuant to section 7D.34.

l. Develop standards and methods to evaluate design development and construction documents based on life cycle cost factors in relation to design proposals submitted pursuant to section 72.5.

m. Coordinate with other state agencies regarding implementation of the office of renewable fuels and coproducts pursuant to section 159A.3 and assist in providing technical assistance to new or existing renewable fuel production facilities.

n. Appoint a representative to serve on the Iowa energy center advisory council established in section 266.39C.

o. Make available energy efficiency related continuing education courses pursuant to section 272C.2.

p. Receive results relating to energy audits from school districts and perform related functions pursuant to section 279.44.

q. Determine whether special hardship criteria has been demonstrated regarding franchise alternative fuel purchases pursuant to section 323A.2.

r. Consult with the state building code commissioner regarding submissions of life cycle cost analyses pursuant to section 470.7.

s. Compile energy-related information, administer and coordinate the state building energy management program, and perform additional responsibilities specified in section 473.7.

t. Transmit by resolution to the governor a determination of actual or impending acute usable energy shortage pursuant to section 473.8.

u. Operate a liquid fossil fuel set-aside program as required in section 473.10.

v. Administer the building energy management program, the building energy management fund, and the energy loan program established in sections 473.19, 473.19A, and 473.20, respectively, and ensure compliance with energy audit and engineering analysis requirements specified in section 473.13A.

w. Coordinate the energy city designation program created in section 473.41.

x. Submit an annual report to the governor and general assembly by November 1 of each year concerning the activities and programs of the office, Iowa power fund, and other departments related to renewable energy, renewable fuels, and energy efficiency. The report shall include an assessment of needs with respect to renewable energy, renewable fuels, and energy efficiency efforts and policy and fiscal recommendations for renewable energy, renewable fuels, and energy efficiency. In addition, the director shall review issues relating to the transportation of biofuels and explore leading and participating in multistate efforts relating to renewable energy and energy efficiency.

y. Adopt rules pursuant to chapter 17A concerning the office, the Iowa power fund, and the programs and functions of the office and the fund.

2007 Acts, ch 168, §3, 18; 2009 Acts, ch 108, §18, 41; 2010 Acts, ch 1031, §249

[P] Confirmation, see §2.32

[T] Subsection 2, paragraph m amended

469.4 Iowa energy independence plan.

1. The director shall develop an Iowa energy independence plan in association with public and private partners selected by the director including representatives of the energy industry, environmental interests, agricultural interests, business interests, other interested parties, and members of the general public. The plan shall be subject to approval by the board.

2. The plan shall provide cost-effective options and strategies for reducing the state's consumption of energy, dependence on foreign sources of energy, use of fossil fuels, and greenhouse gas emissions. The options and strategies developed in the plan shall provide for achieving energy independence from foreign sources of energy by the year 2025. The plan shall include a review of a range of energy sources including nuclear power.

3. The plan shall be initially submitted to the governor and members of the general assembly by December 14, 2007, and by December 14 annually thereafter. The plan shall be made electronically available to the public. The director shall conduct public meetings around the state to gather input to be used in developing the plan.

4. The plan shall identify cost-effective options and strategies that will allow the state to accomplish the following:

a. Maximize use of emerging technologies and practices to enhance energy efficiency and conservation and develop alternative and renewable energy sources.

b. Retain and create high-quality jobs that provide good wages and benefits.

c. Enhance the development of the state's bioeconomy including but not limited to the design, construction, operation, and maintenance of bioengineering, biorefining, and other bioproduct manufacturing facilities in this state.

d. Encourage federal, local, and private industry investment in the state's bioeconomy.

e. Promote sustainable land use, soil conservation, clean air, sustainable water supply, and clean water practices.

f. Reduce greenhouse gas emissions, both on an aggregate and per capita basis.

g. Advance the interests of crop, biomass, and livestock producers and biofuel and other bioproduct manufacturers.

h. Identify the road, transit, trail, rail, pipeline, transmission, distributed generation, and other infrastructure investments needed to enhance the state's energy independence efforts.

i. Identify strategies to increase affordability of energy for individuals, families, organizations, and businesses, including low-income persons.

j. Review and assess the effectiveness of existing state programs, including but not limited to financial assistance programs and tax policies, in enhancing the state's energy independence efforts.

k. Develop short-term and long-term recommendations for the role of individuals, families, community organizations, cities, counties, public and private education institutions, and state agencies in enhancing the state's energy independence efforts.

l. Develop short-term and long-term recommendations regarding state energy regulatory policy.

2007 Acts, ch 168, §4, 18; 2008 Acts, ch 1144, §4, 13; 2009 Acts, ch 108, §19, 41

469.5 Intellectual property.

The director shall promote utilization across the state of the results of research, development, and commercialization activities funded in whole or in part by the Iowa power fund. The director is authorized to negotiate provisions with applicants that address issues relating to income generated from patents, trademarks, licenses, or royalties expected to be produced as a result of moneys proposed to be expended from the fund. The director may

seek assistance from appropriate state agencies or outside expertise. An applicant shall not be prevented from protecting any previously developed intellectual property.

2007 Acts, ch 168, §5, 18

469.6 Iowa power fund board.

1. An eighteen-member Iowa power fund board is created with the following membership:
 - a. The chairperson of the utilities board or the chairperson's designee.
 - b. The director of the department of economic development or the director's designee.
 - c. The director of the department of natural resources or the director's designee.
 - d. The secretary of agriculture or the secretary's designee.
 - e. Seven members appointed by the governor subject to confirmation by the senate. All appointees shall represent nonpublic organizations or businesses, or research institutions, and must demonstrate experience or expertise in one or more of the fields of renewable energy, renewable fuels, agribusiness, energy efficiency, greenhouse gas reductions, utility operations, research and development of new technologies, commercialization of new technologies, economic development, and finance.
 - f. Seven members serving in an ex officio, nonvoting capacity, appointed as follows:
 - (1) One member of the senate appointed by the majority leader of the senate.
 - (2) One member of the senate appointed by the minority leader of the senate.
 - (3) One member of the house of representatives appointed by the speaker of the house of representatives.
 - (4) One member of the house of representatives appointed by the minority leader of the house of representatives.
 - (5) One member representing the state board of regents appointed by the president of the state board of regents.
 - (6) One member representing the community colleges appointed by the executive director of the Iowa association of community college presidents.
 - (7) One member representing independent colleges and universities appointed by the president of the Iowa association of independent colleges and universities.
 2. The members appointed by the governor shall be appointed for three-year staggered terms beginning and ending as provided in section 69.19. A vacancy on the board shall be filled for the unexpired term in the same manner as the original appointment was made.
 3. The members of the board shall be reimbursed for actual and necessary travel and related expenses incurred in the discharge of official duties. Each member of the board may also be eligible to receive compensation as provided in section 7E.6. A legislative member is eligible for per diem and expenses as provided in section 2.10.
 4. A majority of the voting members of the board constitutes a quorum, and a majority of the total voting membership of the board is necessary to act in any matter within the jurisdiction of the board.
 5. The duties of the board include all of the following:
 - a. Consider and approve grants, loans, or investments and other financial incentives made from the fund.
 - b. Advise the director concerning strategic direction for the fund.
 - c. Provide the governor with advice concerning economic development, policy, technical issues, and strategic direction concerning renewable energy, renewable fuels, and energy efficiency.
 - d. Direct moneys from the fund to be used to purchase private or public technical assistance needed to conduct due diligence activities and to address all technical, financial, and management processes associated with applications to the extent not financed by the applicant. Such moneys shall also be used to research, develop, produce, and initiate implementation of the energy independence plan. Other than applicant financing, if agreed to by an applicant and the due diligence committee, an application fee shall not be imposed. Payments received in the form of applicant financing pursuant to this paragraph shall be deposited in the fund and utilized exclusively for the purposes for which the payments were received.
 6. a. In establishing guidelines, procedures, and policies for the awarding of financial

assistance, the board shall give due regard to the confidentiality of certain information disclosed during the financial assistance application process and the contract administration process.

b. All information contained in an application for financial assistance submitted to the board shall remain confidential while the board is reviewing the application, processing requests for confidentiality, negotiating with the applicant, and preparing the application for consideration by the board. The board may release certain information in an application for financial assistance to a third party for technical review. If the board releases such information to a third party, the board shall ensure that the third party protects such information from public disclosure. After the board has considered a request for confidentiality, any information not deemed confidential by the board shall be made publicly available. Any information deemed confidential by the board shall also be kept confidential by the office and board during and following administration of a contract executed pursuant to a successful application.

c. The board shall consider the written request of an applicant or award recipient to keep confidential certain details of an application, a contract, or the materials submitted in support of an application or a contract. If the request includes a sufficient explanation as to why the public disclosure of such details would give an unfair advantage to competitors, the board shall keep such details confidential. If the board elects to keep certain details confidential, the board shall release only the nonconfidential details in response to a request for records pursuant to chapter 22. If confidential details are withheld from a request for records pursuant to chapter 22, the board shall release an explanation of why the information was deemed confidential and a summary of the nature of the information withheld and the reasons for withholding it. In considering requests for confidential treatment, the board shall narrowly construe the provisions of this subsection in order to appropriately balance an applicant's need for confidentiality against the public's right to information about the board's activities.

d. If a request for confidentiality is denied by the board, an applicant may withdraw an application and any supporting materials, and the board shall not retain any copies of the application or supporting materials. Upon notice that an application has been withdrawn, the board shall not release a copy in response to a request for records pursuant to chapter 22.

e. The board shall adopt by rule a process for considering requests to keep information confidential pursuant to this subsection. The board may adopt emergency rules pursuant to chapter 17A to implement this subsection. The rules shall include criteria for guiding the board's decisions about the confidential treatment of applicant information. The criteria may include, but are not limited to the following:

- (1) The nature and extent of competition in the applicant's industry sector.
- (2) The likelihood of adverse financial impact to the applicant if the information were to be released.
- (3) The risk that the applicant would locate in another state if the request is denied.
- (4) Any other factor the board reasonably considers relevant.

2007 Acts, ch 168, §6, 18; 2008 Acts, ch 1144, §5, 6, 12, 13; 2009 Acts, ch 41, §141, 142

[P] Confirmation, see §2.32

469.7 Due diligence committee.

1. A seven-member due diligence committee is created to review applications that will come before the board for financial assistance from moneys in the fund. The committee, after a thorough review, shall determine whether a proposed project using moneys from the fund is practical, economically feasible, and furthers the goals of the fund, and shall provide recommendations to the board regarding any moneys proposed to be expended from the fund. The recommendations may be conditional or recommend that a proposal be rejected. Membership of the committee shall consist of the following:

a. One member designated by the director of the office of energy independence with expertise in the financing of new businesses and leveraging federal and private sources of funding.

b. One member designated by the president of the state board of regents.

- c. One member designated by the director of the department of economic development.
 - d. One member designated by the director of the Iowa energy center.
 - e. One member from a single bioscience development organization determined by the director of the department of economic development to possess expertise in the promotion and commercialization of biotechnology.
 - f. Two members of the Iowa power fund board designated by the chairperson of the board.
2. A majority of the members of the committee shall constitute a quorum, and a quorum shall be necessary to act on any matter within the jurisdiction of the committee.
 3. The director of the office of energy independence shall provide office space, staff assistance, and necessary supplies and equipment to the committee. The director shall budget moneys to pay the compensation expenses of the committee. In performing its functions, the committee is performing a public function on behalf of the state and is a public instrumentality of the state.
- 2007 Acts, ch 168, §7, 18

469.8 Conflicts of interest.

If a member of the board or due diligence committee has an interest, either direct or indirect, in a project for which financial assistance may be provided by the board, the interest shall be fully disclosed to the board in writing. The member having the interest shall not participate in the decision-making process with regard to the provision of such financial assistance to the project.

2007 Acts, ch 168, §8, 18

469.9 Iowa power fund.

1. An Iowa power fund is created in the state treasury under the control of the office. The fund shall be separate from the general fund of the state and the balance in the fund shall not be considered part of the balance of the general fund of the state. However, the fund shall be considered a special account for the purposes of section 8.53, relating to generally accepted accounting principles.

2. The fund shall be used to further the goals of increasing the research, development, production, and use of biofuels and other sources of renewable energy, improving energy efficiency, and reducing greenhouse gas emissions, and shall encourage, support, and provide for research, development, commercialization, and the implementation of energy technologies and practices. The technologies and practices should reduce this state's dependence on foreign sources of energy and fossil fuels. The research, development, commercialization, implementation, and distribution of such technologies and practices are intended to sustain the environment and develop business in this state as Iowans market these technologies and practices to the world.

3. The fund shall consist of appropriations made to the fund and other moneys available to and obtained or accepted by the office from federal or private sources to the credit of the fund. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys in the fund shall be credited to the fund.

4. a. Moneys available in the fund for a fiscal year are appropriated to the office to be used in providing financial assistance to entities conducting business, research, or programs in Iowa:

(1) To accelerate research and development, knowledge transfer, technology innovation, and improve the economic competitiveness of efforts furthering the goals stated in subsection 2.

(2) To increase the demand for and educate the public about technologies and approaches furthering the goals stated in subsection 2.

b. Eligibility criteria for grants awarded or loans made pursuant to paragraph "a" after due diligence activities shall be established by the director by rule, and shall include documentation relating to the actual or potential development of the following:

(1) Commercialization of technology and product development for sale in the national and international market.

(2) Utilization of crops and products grown or produced in this state that maximizes the value of crops used as feedstock in biomanufacturing products and as coproducts.

(3) Reduction of greenhouse gas emissions and carbon sequestration.

(4) Private or federal matching funds.

(5) The number and quality of jobs likely to be created.

c. The board may reclaim any moneys granted or loaned if the commitments set forth in the documentation required pursuant to paragraph “b” are not met.

d. All grant and loan recipients must provide to the board a report on the use and effectiveness of the moneys granted or loaned on a periodic basis as determined by the board.

e. Payments of interest, repayments of moneys loaned, payments of royalties, recaptures of grants or loans, and any other payments made pursuant to an agreement approved by the board pursuant to this chapter shall be deposited in the fund.

5. Notwithstanding section 8.33, moneys credited to the Iowa power fund shall not revert to the fund from which appropriated.

2007 Acts, ch 168, §9, 18; 2008 Acts, ch 1032, §60, 61; 2008 Acts, ch 1144, §7, 13; 2009 Acts, ch 108, §20, 41

469.10 Iowa power fund — appropriation.

1. There is appropriated from the general fund of the state to the office of energy independence for each fiscal year of the fiscal period beginning July 1, 2008, and ending June 30, 2011, the sum of twenty-five million dollars to be used for awarding grants and making loans from the Iowa power fund, and for all other purposes specified in and consistent with this subchapter.

2. a. Of the moneys appropriated to the office and deposited in the fund, the office shall utilize up to three and five-tenths percent of the amount appropriated from the fund for a fiscal year for administrative costs.

b. From the funds available for administrative costs, the office shall not employ more than four full-time equivalent positions. The director may use federal funds received by the office pursuant to the federal American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5, to employ the number of full-time employees necessary to administer the funds received pursuant to the federal Act. The director shall minimize the costs of administering the funds received pursuant to the federal Act, and shall not expend annually more than five percent of the federal funds received for purposes of administering the federal funds, or the permissible limit for administrative cost expenditures specified in the federal Act if such limit is less than five percent. If federal funding pursuant to the Act is eliminated, the federally funded positions shall be eliminated according to the provisions of section 8A.413, unless another source of federal funding is available. The director may use federal funds received other than pursuant to the federal Act to employ personnel necessary to administer any other program or funds assigned to the office.

3. Of the moneys appropriated to the office and deposited in the fund, there shall be allocated on an annual basis two million five hundred thousand dollars to the department of economic development for deposit into the workforce training and economic development funds of the community colleges created pursuant to section 260C.18A. Of the funds so deposited into the workforce training and economic development funds of the community colleges, two million five hundred thousand dollars shall be used each year in the development and expansion of energy industry areas and for the department’s North American industry classification system for targeted industry areas established pursuant to section 260C.18A.

4. Of the moneys appropriated to the office and deposited in the fund, the board may make allocations for the purchase of private or public technical assistance needed to conduct due diligence activities and to address all technical, financial, and management processes associated with applications to the extent not financed by the applicant. Such moneys shall also be used to research, develop, produce, and initiate implementation of the energy independence plan.

5. Of the moneys appropriated to the office and deposited in the fund, notwithstanding

section 469.9, subsection 4, and notwithstanding the limitation on the amount of tax credits under section 15.335, the board may allocate up to one million dollars annually to the department of economic development for the purpose of funding the research activities credit relating to innovative renewable energy generation components pursuant to section 15.335.

6. Of the moneys appropriated to the office and deposited in the fund, notwithstanding section 469.9, subsection 4, the board shall utilize four percent of the amount appropriated for each fiscal year for purposes of awarding grants for energy efficiency projects pursuant to the community grant program established in section 469.11. Of the moneys allocated pursuant to this section for each fiscal year, the office may utilize up to fifty thousand dollars for administrative costs. Moneys allocated to the program which remain unawarded or unencumbered at the close of the fiscal year shall revert to the fund.

7. Notwithstanding section 8.33, amounts appropriated pursuant to this section shall not revert but shall remain available for the purposes designated for the following fiscal year. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys in the Iowa power fund shall be credited to the fund.

2007 Acts, ch 209, §1, 4; 2007 Acts, ch 215, §63; 2008 Acts, ch 1032, §62; 2008 Acts, ch 1144, §8 – 10, 13; 2009 Acts, ch 108, §21, 22, 40, 41; 2009 Acts, ch 134, §1

[SP] 2009 amendment to subsection 2 takes effect May 18, 2009, and is applicable to the transfer from the department of natural resources to the office of energy independence if individuals currently employed by the department in capacities relating to the programs or provisions transferred from the department to the office pursuant to 2009 Iowa Acts, ch 108; 2009 Acts, ch 108, §40

469.11 Energy efficiency projects — community grant program.

1. The office shall establish a community grant program with the objective of assisting communities and organizations to implement projects intended to reduce energy consumption and make communities in this state more sustainable and energy efficient.

2. a. Eligible applicants for the program shall include cities, counties, nonprofit organizations, organizations involved with energy efficiency or conservation efforts, and environmental organizations or groups.

b. Eligibility and approval criteria shall be established by the office by rule, and shall incorporate the criteria established in section 473.41, subsection 1, paragraphs “a” through “d”, with regard to the energy city designation program.

c. Projects shall encourage partnerships between public and private sector groups, and develop collaboration and community involvement in energy efficiency efforts. Eligible projects may include but are not limited to the following:

- (1) Projects promoting the installation of renewable energy systems by homeowners or small businesses.
- (2) Projects for the development of community energy saving plans.
- (3) Programs that publicize energy savings opportunities in the community.
- (4) Kindergarten through grade twelve education programs that focus on increasing community energy efficiency efforts.
- (5) Projects for the creation of community or regional energy efficiency alliances.
- (6) Projects for the development of a low-cost energy efficiency public awareness campaign, highlighting strategies and success stories.

d. To qualify for a grant pursuant to the program, an applicant must document the ability to provide matching funds of at least fifty percent of the total cost of the project, either in cash or in kind.

3. The office shall establish an application and approval process that shall result in the awarding of an approved grant within a three-month period following receipt by the office of an application. Grants awarded pursuant to the program shall range from between one thousand dollars and fifty thousand dollars each.

4. The office shall prepare an annual report summarizing the operation of the program, and shall submit the report by January 1 each year to the Iowa power fund board.

2009 Acts, ch 134, §2

469.12 through 469.30 Reserved.

SUBCHAPTER II
FINANCIAL INCENTIVES FOR
BIOMASS, BIOREFINERY, RENEWABLE
ENERGY, AND ENERGY
EFFICIENCY PROJECTS

469.31 Definitions.

As used in this chapter, unless the context otherwise requires:

1. “*Agricultural animal*” means the same as defined in section 717A.1.
2. “*Alternative and renewable energy*” means energy sources including but not limited to solar, wind turbine, waste management, resource recovery, recovered energy generation, refuse-derived fuel, hydroelectric, agricultural crops or residues, hydrogen produced using renewable fuel sources, and woodburning, or relating to renewable fuel development and distribution.
3. “*Biobased material*” means a material in which carbon is derived in whole or in part from a renewable resource.
4. “*Biobased product*” means a product generated by blending or assembling of one or more biobased materials, either exclusively or in combination with nonbiobased materials, in which the biobased material is present as a quantifiable portion of the total mass of the product.
5. “*Biomass*” means organic material that is available on a renewable or recurring basis, including but not limited to crops; plants, including aquatic plants and grasses; residues; trees grown for energy production; wood waste and wood residues; fibers; animal wastes and other waste materials; animal fats; and other fats, oils, and greases including recycled fats, oils, and greases.
6. “*Biorefinery*” means a cluster of biobased industries producing power, fuel, materials, chemicals, and products.
7. “*Cellulosic biomass renewable fuel*” means renewable fuel derived from a lignocellulosic or hemicellulosic matter that is available on a renewable or recurring basis, including dedicated energy crops and trees, wood and wood residues, plants, grasses, agricultural residues, fiber, animal wastes and other waste materials, refuse-derived fuel, and municipal solid waste.
8. “*Crop*” means the same as defined in section 717A.1.
9. “*Recovered energy generation*” means a recycled energy system, other than a system whose primary purpose is the generation of electricity, which produces electricity from currently unused waste heat resulting from combustion or other processes and which does not use an additional combustion process.
10. “*Renewable fuel*” means a fuel that is all of the following:
 - a. A motor vehicle fuel that is any of the following:
 - (1) Produced from grain; starch; oilseed; vegetable, animal, or fish materials, including but not limited to fats, greases, and oil; sugar components, grasses, or potatoes; or other biomass.
 - (2) Natural gas produced from a biogas source including but not limited to a landfill, sewage waste treatment plant, animal feeding operation, or other place where decaying organic material is found.
 - b. Used to replace or reduce the quantity of fossil fuel present in a motor fuel mixture used to operate a motor vehicle.

2007 Acts, ch 168, §10, 18

469.32 Financial incentives relating to products for biorefineries — authorization.

The Iowa power fund board, with the assistance of the office of energy independence and other appropriate state agencies, may provide financial incentives and adopt necessary rules pursuant to chapter 17A in relation to the following:

1. Research, development, and commercialization of products derived from or developed for biorefineries, including but not limited to:

a. Renewable fuel such as cellulosic biomass renewable fuel, and associated agricultural or industrial coproducts which promise to provide environmentally benign product life cycles, promote rural economic development, and diversify energy resources.

b. Products to be used as feedstuffs for agricultural animals.

c. Other products to add value to the biorefinery supply chain.

2. Research, development, and commercialization of specialized crop varieties for use in biorefineries, equipment in production and harvesting, soil conservation, and crop management practices designed for sustainability.

3. Research, development, and commercialization of advanced manufacturing and information technology required for supporting biorefineries.

4. Market development of biorefinery products, including but not limited to public education, quality testing, transportation, and infrastructure financial support.

2007 Acts, ch 168, §11, 18

469.33 Federal biomass research and development programs — authorization.

The Iowa power fund board, the office of energy independence, and other appropriate state agencies, shall cooperate with federal agencies and participate in federal programs including but not limited to programs under the federal Biomass Research and Development Act of 2000, 7 U.S.C. § 7624 et seq., in order to provide for the production of cost-competitive industrial products derived from biomass, including but not limited to renewable fuels, such as cellulosic biomass renewable fuels or biobased materials and biobased products, and associated agricultural or industrial coproducts which promise to provide environmentally benign product life cycles, promote rural economic development, and diversify energy resources.

2007 Acts, ch 168, §12, 18

469.34 Financial incentives for renewable energy products — authorization.

The Iowa power fund board, with the assistance of the office of energy independence and other appropriate state agencies, may provide financial incentives and adopt necessary rules pursuant to chapter 17A in relation to the following:

1. Research, development, and commercialization of renewable energy.

2. Market development of renewable energy, including but not limited to public education, quality testing, transportation, transmission, and infrastructure.

2007 Acts, ch 168, §13, 18

469.35 Financial incentives for energy efficiency projects — authorization.

The Iowa power fund board, with the assistance of the office of energy independence and other appropriate state agencies, may provide financial incentives to individuals or communities and adopt necessary rules pursuant to chapter 17A in relation to the following:

1. Research, development, and commercialization of technologies and practices that improve energy efficiency.

2. Implementation of technologies and practices that improve energy efficiency.

3. Public education efforts encouraging improved energy efficiency.

2007 Acts, ch 168, §14, 18
