87511

1 Section 1. Section 455B.262, subsection 1, Code 1985, is
2 amended to read as follows:

3 1. It is recognized that the protection of life and
4 property from floods, the prevention of damage to lands from
5 floods, and the orderly development, wise use, protection, and
6 conservation of the water resources of the state by their
7 considered and proper use is of paramount importance to the
8 welfare and prosperity of the people of the state, and to
9 realize these objectives, it is the policy of the state to
10 correlate and vest the powers of the state in a single agency,
11 the department, with the duty and authority to assess the
12 water needs of all water users at five-year intervals for the
13 twenty years beginning January 1, 1985, and ending December
14 31, 2004, utilizing a data base developed and managed by the
15 Iowa geological survey, and to prepare a general plan of water
16 allocation in this state considering the quantity and quality
17 of water resources available in this state designed to meet
18 the specific needs of the water users. The department shall
19 also develop and the commission shall adopt no later than
20 ~~January 17, 1985~~ June 30, 1986, a plan for delineation of flood
21 plain and floodway boundaries for selected stream reaches in
22 the various river basins of the state. Selection of the
23 stream reaches and assignment of priorities for mapping of the
24 selected reaches shall be based on consideration of flooding
25 characteristics, the type and extent of existing and
26 anticipated flood plain development in particular stream
27 reaches, and the needs of local governmental bodies for
28 assistance in delineating flood plain and floodway boundaries.
29 The plan of flood plain mapping shall be for the period from
30 ~~January 17, 1985~~ June 30, 1986, to December 31, 2004. After
31 the commission adopts a plan of flood plain mapping, the
32 department shall submit a progress report and proposed
33 implementation schedule to the general assembly biennially.
34 The commission may modify the flood plain mapping plan as
35 needed in response to changing circumstances.
