NIGHT ON CAPITOL HILL—This view of Iowa's capitol grounds from near the Grimes State Office Building, looking west, features the splendor of the fountain, rising and falling in sprays of silver and gold. On the left is the shadowy hulk of the Lucas State Office Building, and, in the distance, right, looms the faint silhouette of that grand, old giant of Iowa architecture, the Iowa State Capitol.

Old Friend in a Red Jacket

By L. Dale Ahern, Editor

If you need information for a club talk on the Iowa Capitol, for a paper on the state flower and other state symbols, on the government of Iowa, or on our state's history; if you can't remember the name of a state official or wish to prove a point by quoting some election statistics; or, if you know it's some facet of Iowana but don't know where to find it, the source to turn to first is your old friend in the red jacket, the *Iowa Official Register*.

Often referred to as *The Red Book* because of the long-familiar red cover in which many copies are bound, the *Iowa Official Register* is, as the name implies, an official publication of the state of Iowa. The book was first authorized by law as an act of the Twenty-fourth General Assembly in 1892. Earlier versions of the *Register* were published by certain secretaries of state and others, but it was not until 1892 that it was sanctioned as an expense of state by the legislature.

Today authority for publication of *The Red Book* is vested in the secretary of state, but the superintendent of printing is responsible for getting it written, edited, printed, and distributed. The superintendent's authorization for this is set out in Chapter 16, Volume I, *1966 Code of Iowa*, as follows: "The superintendent of printing shall . . . in odd-numbered years, compile for publication the *Iowa Official Register* which shall contain certain historical, political, and other statistics of general value, but nothing of a partisan character."

Although it is not known how many copies of the earliest volumes were distributed, copies of the 1886 book totaled 7,000. The 1892 law authorized 10,000 copies annually. The *Code of Iowa, 1897*, directed publication of 15,000 copies annually, and in recent years around 15,000 complete, cloth-bound copies and about 12,000 abridged, paper-bound copies have been published. The abridged copies contain all information in the cloth-bound copies except election tables.

Like Iowa's state rock, the geode—with its plain exterior covering myriads of sparkling mineral crystals—Iowa's *Official Register*, in simple red jacket, contains a many-faceted documentation of facts about our state. To keep its pages accurate and current, many articles must be revised or updated and other material freshly written for each new edition. While authority for this is vested in the secretary of state and the duty for carrying out the provisions of the law in the superintendent of printing, in recent years the actual work of editing *The Red Book* has been delegated to an editor engaged by the Iowa State Printing Board.

The *Official Register's* inception can be traced back to some little publications which were forerunners of the book as it has been known by many generations of Iowans. Several of these earlier efforts in government documentation are preserved in the State Department of History and Archives. One, entitled *Eighth General Assembly*, was published in 1860 and is merely a directory of the Iowa Legislature, is 8½ by 5½ inches in size and contains 7 pages. Another, entitled *Our State and Its Government*, was published in 1862 and, besides a legislative directory, contains statistics relative to the *Ninth General Assembly*. This little ancestor of the *Iowa Red Book* has the same dimensions as its predecessor of 1860 but contains twice as many pages.

In 1864 Secretary of State James Wright circulated a card on which he had printed a list of county and state officers, the vote on the head of the ticket by counties, and the population of the counties. In general this plan was followed by successive secretaries until 1886.

The little 1873 booklet of 19 pages, listing executive and judicial officers and trustees of state institutions, is entitled *Iowa Official Register*, so today's *Red Book* can trace its official title back to that

little volume. In 1879 a book almost identical in format and table of contents appeared. In six years the publication had grown 2 pages to a total of 21.

By the high proportion of space devoted to them, Iowa in the seventies showed much concern over crime and insanity, more than a third of the subjects treated relating to these problems: *Iowa Hospital for the Insane at Mount Pleasant, Iowa Hospital for the Insane at Independence, Building Commissioners for the Asylum at Independence, Committee To Visit Hospitals for the Insane, Asylum for Feeble-minded Children, Iowa Reform School, Iowa State Penitentiary, and Additional Penitentiary at Anamosa.*

In 1881 a volume similar to those of 1873 and 1879 appeared, bearing the unwieldy subtitle, *Executive and Judicial Officers of the State of Iowa—Also Trustees of State Institutions*. For several years between 1873 and 1886, *The Red Book* was known as the *Iowa Official and Statistical Table*, but, starting with the volume of 1886, the name *Iowa Official Register* has stuck.

In the *Iowa Official Register* of 1892, Secretary of State W. M. McFarland wrote a brief introduction in which he said, "The *Iowa Official Register*, as it is known today, was first published by Hon. Frank D. Jackson, secretary of state, in 1886. The material was compiled by C. S. Byrkit, then as now, deputy secretary of state. From that time Mr. Byrkit has had special charge of the work, and each year important improvements have been made, and new features added, till the *Official Register* of 1892 is confidently presented to the state as a public document of almost inestimable value to all classes of our citizens who are at all interested in public matters."

Mr. McFarland promised that, after 1892, state institutions would receive more attention, photo engravings of the main buildings of various institutions would be used, and, "in fact, it is proposed," he said, "to make the *Official Register* a perfect storehouse of information. As a non-partisan, political handbook, it is to be improved, as opportunity permits, putting in condensed form just such political facts as will be wanted by all parties." By and large this has been the objective of persons in charge of *The Red Book* down through the years.

An interesting sidelight of *The Red Book's* career is the fact that at least two private individuals attempted to launch such a publication in the early 1880's. In 1881 Herbert S. Fairall, of the *Iowa City Republican*, started an annual publication called *The Manual of Iowa Politics* with the objective of making it what the *Official Register* has since become. Although he discontinued it after a few years, his annual was well received, and within a few years copies were in demand and difficult to find. In 1882 F. D. Reed, of Oskaloosa, turned out a *Legislative Manual* of 194 pages, containing lists of public officers, rules of the Iowa House and Senate, and other information, but records indicate he had difficulty getting paid for his work, so this venture also had a short life.

Since 1892, however, *The Red Book* has been an official publication of the state of Iowa. Consolidating a wide range of information on Iowa's history, traditions, and government, *The Red Book* also presents minute mirrorings of the institutions and people whose combined functions keep the machinery of our state government running.

A new feature of the current volume is a table of contents which summarizes subjects by chapters. An effort has been made to make the book a more convenient reference by grouping related materials together. We hope you like this and invite you to turn to the new table of contents to familiarize yourself with the latest appearance of your old friend in the red jacket.

The supreme executive power of the state is vested in the Governor, whose term of office is two years.

No person is eligible for the governorship who has not been a citizen of the United States and resident of this state two years next preceding the election, and attained the age of 30 years at the time of said election.

The governor appoints all principal officers of the state not elected by the people, and certain officers connected with the state government, by and with the consent of the senate. When any office, from any cause, becomes vacant, and no mode is provided by the constitution and laws for filling such vacancy, he has power to fill such vacancy.

The chief executive also is responsible for taking final action on all laws enacted by the general assembly. He may approve, by signing, a bill passed by both houses or disapprove, by veto, or he may allow a bill to become law without his signature.

Also, the governor may call an extra session of the assembly when he feels the necessity of such action; may order adjournment of the legislature if the members cannot reach agreement when to adjourn; and must report to the legislature the financial condition of the state and his recommendation for any appropriate action concerning the financial status.

The governor has the task of granting or denying executive clemency in the form of restoration of voting rights, commutation of sentences, pardons, and remission of fines and forfeitures.

The specific duties also include being commander-in-chief of the military forces of state, chairman of the executive council, issuing notary public commissions, issuing land patents, and granting or denying extradition whenever there is a request for a fugitive from justice.

The governor has many obligations as the chief executive to the people of Iowa in addition to the specific statutory duties. These include meeting different groups or individuals, to discuss their problems which in some way have effect upon the government; conferring with Iowa's national delegation to coordinate national situations which might affect Iowa; answering voluminous correspondence from the electorate; and endeavoring to meet visitors who wish to come and visit the state capitol and the governor's office. In summary, the governor is the chief administrator of the state government and despite limited constitutional and statutory powers in many areas, is held responsible by the citizenry for the effective and efficient administration of the various departments and agencies.

The Iowa Department of Agriculture was established by the Fortieth General Assembly in 1923, consolidating several state divisions into one department. The object of the department is to encourage, promote and advance the interests of agriculture, including horticulture, livestock industry, dairying, cheese making, poultry raising, beekeeping, production of wool, production of domesticated fur-bearing animals, and other kindred and allied industries; to promote and devise methods of conducting said industries with a view to increasing production and facilitating an adequate distribution of the same at the least cost to the producer; to administer efficiently and impartially the inspection service of the state as to now or may be hereafter placed under its supervision.

Through its division of consumer protection, including supervisors and inspectors, the department enforces laws governing hatcheries, agricultural seeds, commercial feeds, dairy plants, fertilizers, agricultural

limestone, food products, hotels and restaurants, pesticides, paints and oils, gasoline and kerosene, weights, measures and scales, and the quality control of dairy products. The law relating to commercial fertilizers was rewritten by the Sixty-first General Assembly, including standards for the transportation and handling of anhydrous ammonia. The last legislature also empowered the department to inspect meat and poultry slaughtered for sale within the state, beginning July 1, 1966.

A new dairy practices division has been organized under authority of an act of the Sixty-first General Assembly which forbids discriminatory price policies in the sale of dairy products.

The department has a marketing board, whose function is to promote the sale of Iowa agricultural products. The budget for this purpose was increased by the 1965 legislature.

A market news division, in cooperation with the United States Department of Agriculture, reports daily prices, volume receipts, movement of livestock, poultry and agricultural products.

Also in cooperation with the federal department is a statistical service including the annual state farm census, the price, production and utilization of stocks, inventory and marketing data on crops and livestock.

The state entomologist and staff devote particular attention to barberry pest control and to nurseries. The state botanist gives technical advice on weeds and seeds.

The weather division, in cooperation with the federal department, forecasts frost, gives flood and storm warnings, weather and crop summaries and the progress of the corn crop.

The department was authorized by the last legislature to take part in a federal-state effort to eradicate hog cholera. Other animal husbandry and veterinarian activities deal with avian tuberculosis, Bang's disease testing, contagious disease, hog cholera serum and virus, livestock imports and exports, livestock auction markets, pollorum testing, rendering plants, sheep and cattle scab eradication, stallion registration, swine erysipelas vaccine, tuberculin testing of cattle, veterinarian licensing. A state system of registration of cattle brands was authorized by the 1965 legislature.

The production, care and marketing of bees and honey are promoted by the state apiarist through lectures, demonstrations and inspection.

The department promotes farmers' institutes, short courses and poultry shows and administers the weed law.

The secretary of agriculture is a member of the state executive council, the state soil conservation commission, the agricultural marketing board, the Iowa state fair board and the Iowa dairy industry commission and the agricultural marketing board, and is a director of the marketing division.

Societies affiliated with the department are the Beef Producers Association, Iowa Crop Improvement Association, State Dairy Association, State Horticultural Society, Iowa State Sheep Association and Iowa Swine Producers Association. The last legislature gave the Iowa Soybean Association a seat on the department's marketing board.

Every Iowa citizen is in frequent contact with the services performed by the Iowa Department of Agriculture, which affects his life in many ways. It is a regulatory and service agency charged with executing laws designed to provide protection and service to producers, processors, distributors and consumers of agricultural products. Wholesomeness of food and drink, health of animals, the purity and germination of seed, the proper labeling of feed and fertilizer, the accuracy of the devices which measure anything purchased or sold by weight, volume or numerical count and innumerable other phases of daily life are part of the responsibilities of the Iowa Department of Agriculture.

Iowa's seven congressional districts were established by the Fifty-ninth General Assembly on the basis of the 1960 census. The seven districts were shown by that census to have populations as follows: first, 403,408; second, 442,406; third, 403,442; fourth, 366,119; fifth, 391,489; sixth, 397,877; seventh, 353,156. The districts are as shown below:

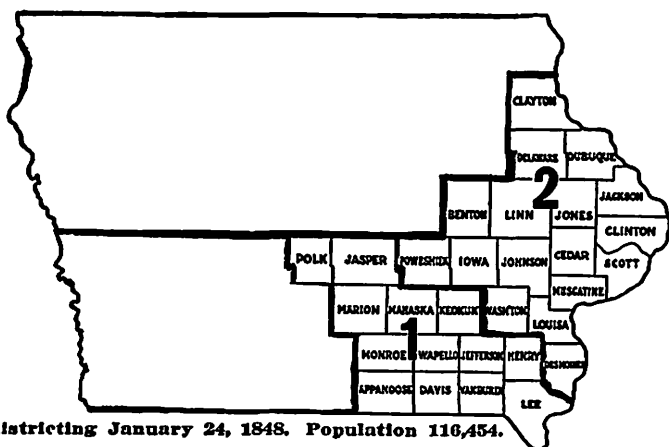

Congressional Districts Since 1847

Iowa's first two congressmen, who took their seats Dec. 29, 1846, were elected from the state at large. Two congressional districts were created Feb. 22, 1847, and the state continued with two districts through eight sessions, a period of 16 years. There was a redistricting in 1848.

Redistricting of 1862, taking effect in 1863, gave Iowa six congressmen for 10 years. Then redistricting of 1872 provided for nine congressmen for 10 years.

Iowa had 11 congressmen for 50 years, through the 48th to the 72nd congresses, 1883 to 1933, under redistrictings of 1882 and 1886. The number then dropped to nine for 10 years, 1933 to 1943, and to eight for 20 years, 1943 to 1963.

CONGRESSIONAL DISTRICTS

89

Redistricting January 28, 1857. Population 517,875.

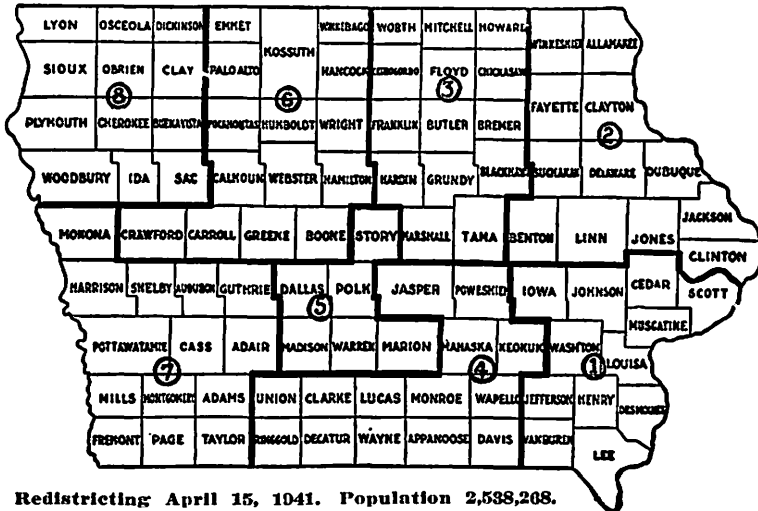

Redistricting April 8, 1862. Population 674,013.

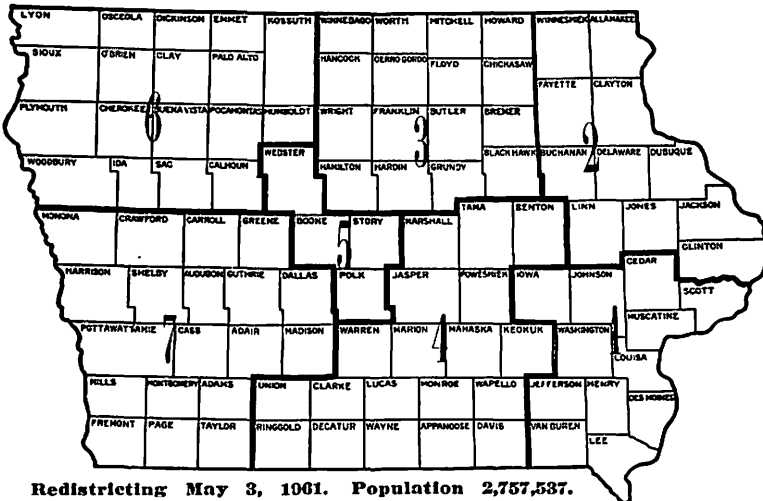

Redistricting April 17, 1872. Population 1,194,020.

Redistricting April 15, 1941. Population 2,538,268.

Redistricting May 3, 1901. Population 2,757,537.

Populations given under the first three maps are state census figures of 1846, 1847 and 1856. The acts of 1848 and 1857 were not based on census requirements, since Iowa had two congressmen until 1862. The districting of 1847 was based on the August vote on adoption of the constitution. The 1848 act merely shifted Poweshiek County and had little apparent significance. The 1857 act, transferring three counties, equalized population and had Republican political advantages. All other redistrictings, except in 1886, were necessitated by federal census returns. The 1886 redistricting was based on the 1880 federal census, but state maps displayed the 1885 state census figures. Purposes of the 1886 act were avowedly political.

Iowa Legislative Service Bureau

The Legislative Service Bureau's purpose is to provide research, bill drafting, and other staff services to committees and individual members of the Iowa General Assembly. These services are provided on an objective, nonpartisan basis by a professionally trained staff. Bureau policies are established by the seventeen-member Legislative Council, to whom the Bureau Director is responsible.

Major studies requested by the General Assembly, either house of the General Assembly, a legislative committee, or twenty or more members of the General Assembly are undertaken by the Bureau staff upon approval by, and in accordance with priorities established by the Council. Final reports of the studies conducted during a legislative interim are distributed to all members of the General Assembly. Service Bureau staff personnel do not make recommendations to legislators, but the Council or a legislative committee delegated by the Council to partici-

pate in a study may make recommendations to the General Assembly on the basis of facts gathered by the Service Bureau.

Minor research and reference projects, which can be completed by a Service Bureau staff member with a limited amount of work, are performed at any time upon the request of any legislator without the necessity of specific approval of the Council.

Bills are prepared by the Service Bureau for introduction in the General Assembly, at the request of any committee or individual member. The services performed range from review and possible revision of legislative proposals developed elsewhere to complete drafting of bills on the basis of objectives stated by the requestors. Nearly 2,000 requests for preparation of bills and amendments to bills were handled by the Bureau during each of the past two legislative sessions.

The Bureau was first established in 1955 as the Legislative Research Bureau. The agency's title was changed to Legislative Service Bureau, and the former Legislative Research Committee was redesignated the Legislative Council and given added responsibilities, by the 1969 regular session of the Sixty-third General Assembly.

Judges formerly were elected by popular vote for terms of six years. But by amendment of the constitution in 1962, effective in 1963, judge-ships became appointive by the governor from lists of nominees supplied by a judicial nominating commission. A judge is subject to a confirming popular vote one year after appointment. After a term of eight years he may declare his candidacy for another term.

Judges elect one of their number as chief justice and he holds this office until expiration of his term.

The supreme court has general appellate jurisdiction in both civil and criminal cases. There is no intermediate appellate court. The supreme court has authority to supervise the inferior courts, to prescribe the procedure in matters brought before it and the rules for admission of attorneys to the practice. It also has the power to prescribe rules of civil procedure, and any rules prescribed by the supreme court and reported to the legislature become effective unless vetoed by the legislature.

The District Court of Iowa

The district court is the trial court of general jurisdiction in Iowa in civil, criminal, juvenile, and probate matters. The state is divided into 18 judicial districts, each composed of from one to nine counties. The number of judges in each district is determined by a formula based on combined civil and criminal filings and population. At the present time there are 75 judges divided among the districts as shown by the list below. Under rules adopted by the Supreme Court of Iowa, effective Jan. 1, 1968, the Chief Justice—with the approval of the Supreme Court—appoints one judge for each district to serve as Chief Judge. The Chief Judge of each judicial district fixes the dates of the regular sessions of the district court. Date for trial of each specific case is fixed by the district judge who hears the case.

SUPERIOR COURT

The Iowa statutes provide that any city of 4,000 population, or over, may establish a superior court. It replaces the police court or mayor's court. The judges are elected for terms of four years and receive an annual salary, which is paid quarterly, the first two quarters being paid from the city treasury and the last two quarters from the county treasury in the county in which court is located.

The judges appoint shorthand reporters, whose compensation is fixed by order of the court for the time actually employed.

(At present there is no such court)

MUNICIPAL COURT

Any city, having a population of 5,000 or more, as shown by the last preceding United States census, may establish a municipal court. All civil townships in which said city or any part thereof is located shall constitute the municipal court district and its jurisdiction is co-extensive with the territorial limits of the county in which the court is located.

When a municipal court is established, all police courts, mayors' courts, justice of the peace courts and superior courts within the municipal court district are automatically abolished.

The judges of the municipal courts in the 13 Iowa cities which have these jurisdictions are as follows:

JUDGES OF THE MUNICIPAL COURT

Burlington	Gary J. Snyder		Luther T. Glanton, Jr.

POLICE, MAYORS' AND JUSTICE COURTS

Police courts are required in all cities of 15,000 or more population, wherein there is no municipal or superior court. These are courts of record and are supposed to be always open for business. Police courts may be established in cities smaller than 15,000 if so provided by municipal ordinance. Police judges are appointed by the city council unless municipal ordinance provides that they shall be elected.

Mayors' courts are found in all cities and towns under 15,000 in population which do not have a municipal, superior or police court. The only qualification for the office is being elected to serve as mayor.

The Iowa Code provides for the election of two justices of the peace for each township except in townships where there is a municipal court. But of some 3,000 possible justices in the state, actually there are approximately 500, because there have been no candidates for the vacancies. The jurisdiction of a justice of the peace is county-wide. A justice can act in place of a mayor, police judge or judge of a municipal or superior court if such judge is absent or unable to act. Justices of the peace are elected for two years. The only qualifications for the office are that the justice be a resident of the township and that he post bond.

Judicial Nominating Commissions

Commissions to make nominations to fill vacancies in judgeships were established in the spring and summer of 1963 under terms of the constitutional amendment adopted in 1962, as implemented by Ch. 80 of the Acts of the Sixtieth General Assembly. Half the commissioners are elected by members of the bar, half are appointed by the Governor, and the chairman is the senior judge in the jurisdiction concerned. Vacancies in judgeships are filed by appointment by the Governor, who selects from among nominees designated by the nominating commission.

Bureau of Labor

(Office located on Fourth Floor Office and Laboratory Building)

Commissioner appointed by the Governor.

Term two years. Expires June 30, 1971.

ADDY, Jerry Lee, Des Moines
Democrat

Commissioner of Labor

Jerry L. Addy of Des Moines, Iowa, was appointed by Governor Robert D. Ray for the unexpired term ending June 30, 1969. At the time of Mr. Addy's appointment he was Executive Secretary for Industries Council of Des Moines, a labor relations firm. Mr. Addy has 2½ years experience, from 1966 to 1968, as a safety engineer for two insurance companies. He served as Vice President of Teamsters Local 394 from 1964 to 1966. Mr. Addy was born in Des Moines, Iowa, June 5, 1941. He graduated from East High, Des Moines, in 1959 and attended Grand View Jr. College and Drake University. He married Sue Johnson of Des Moines. They have one son, James. Mr. Addy is a member of Bethany Lutheran Church and is a past Board Member and Youth Counselor.

The office of labor commissioner was created by the Twentieth General Assembly in 1884.

Under the provisions of law, the commissioner is a member of the private employment agency commission. The commissioner is executive

secretary of the employment agency commission. He also acts as secretary of the Iowa Employment Safety Commission which was created by the Sixty-first General Assembly.

The bureau is responsible for the enforcement of laws relating to health and safety, child labor, passenger and freight elevators, installation and inspection of steam boilers, generators and superheaters, private employment agencies, arbitration and conciliation, and industrial accidents for reinspection and statistical purposes.

Eight factory inspectors devote full time to inspection of factories, mills, work shops, theatres, buildings, public buildings, passenger and freight elevators, private employment agencies and general employment conditions. The law requires that one of the inspectors shall be a woman who shall give special attention to places employing women and children. The boiler inspectors for the state are responsible for the inspection of all boilers over 15 pounds pressure. The Sixty-first General Assembly also brought certain low pressure boilers under the inspection law. All low pressure boilers located in places of public assembly after July 1, 1965, must be inspected by the state.

Since July of 1949 the bureau has dropped its publication "Iowa Employment Survey" because of the duplication with the report of the Iowa Employment Security Commission. However, the bureau undertook to publish reports on child labor, apprenticeship registration, construction activity, and Iowa work injuries. At this time quarterly statistical reports are being published and distributed throughout the state to aid both labor and management.

The bureau recognizes the need for a broader survey and hopes that in the near future it will be able to furnish more extensive and pertinent information.

While ranking 25th in population nationally, Iowa ranks 17th in the number of civil owned aircraft.

The commission provides the following services to Iowa aviation: airport consultation, contractual agreements with cities and towns for the construction and development of airports, engineering services to cities and towns, air age education, liaison with all flying groups and organizations, accident investigation, information service for all airmen and the enforcement of all Iowa aviation laws.

As a result of the airport development program of the Aeronautics Commission there has been an increase in the number of municipally owned airports from 46 in 1948 to 120 in 1969. This represents a 160 percent increase in 21 years. Of the total airports in Iowa there are 115 which are lighted all night; in this category Iowa ranks 4th nationally. Commission For The Blind

Main Office, Rehabilitation Center and Library located at
Fourth and Keosauqua, Des Moines
730 Higley Building, Cedar Rapids
603 Black's Building, Waterloo

Commission members are appointed by the Governor for three year terms and confirmed by the Iowa senate.

Director, KENNETH JERNIGAN, Des Moines.

MRS. WAYNE BONNELL, Fort Dodge; term expires June 30, 1970.

WILLIAM WIMER, Des Moines; term expires June 30, 1971.

ELWYN HEMKEN, Blairsburg; term expires June 30, 1970.

The Commission for the Blind, created in 1926, offers services to the blind in Iowa in order that they may receive the necessary training and opportunity to become independent, competitive citizens. There are several departments of the commission through which such help is given.

At the rehabilitation center in Des Moines blind adults are given instruction in the skills of blindness. Courses for students include Braille, travel, home management (cooking, cleaning, shopping and sewing), shop work with regular industrial machinery, typing and personal grooming. There are also other courses in attitudes and techniques that bring to the student a true understanding of blindness—that it need not mean helplessness and is, in fact, no more than a physical nuisance if training and opportunity are available. It is important to the blind person (especially the newly blind) to learn that blind persons are actually working as full time, regular electricians, machinists, farmers, lawyers, scientists, teachers, salesmen, etc. For those who are unable to attend the center, the home teaching department gives such instruction.

When a blind person has acquired proficiency in the skills of blindness, the vocational rehabilitation department offers him specific training in a vocational skill. The blind person is then helped in finding and obtaining employment.

The library for the blind distributes, as does a public library, reading material to the blind of the state. This material is in the form of Braille books and magazines, recorded books and magazines on talking book records, and taped material. It also distributes talking book machines on which the records may be played. Library service is available to any blind person over five. Homework units are established in the homes of some blind persons, and products produced are marketed throughout the state.

The commission serves as a center source of supply for a great variety of specialized products, tools and aids useful to the blind, children as well as adults. Braille watches and clocks; Braille writing devices; Braille paper; specialized rulers and other measuring devices which can be read by touch; canes of all types; cooking utensils with specially marked dials; standard playing cards with Braille markings added; other games such as chess, checkers, bingo, and scrabble (with special markings as needed); Braille thermometers and barometers; specially marked volt meters and similar electrical measuring devices; specially marked insulin syringes for blind diabetics; and Braille cook-books are samples of the items stocked. These items are made available to the blind of the state at the commission's cost, or they are provided without cost when the blind person is unable to pay, when there is a clearly demonstrated need for the product, and when the resources of the commission will permit. The commission also assists blind persons to procure at cost certain needed nonspecialized items such as tape recorders, tape, and headphones for talking book machines. Again, there are instances in which these items are provided without charge when there is need and when resources will permit.

A number of blind children do not attend the Iowa Braille and Sight Saving School at Vinton but are enrolled in regular public schools throughout the state. Upon request the commission works with the division of special education of the Department of Public Instruction to procure books and specialized material for those children and to provide counseling and guidance.

A register of the blind in Iowa showing cause of blindness, age, and other statistical information valuable in program evaluation and planning, is maintained by the commission. There are an estimated 5,500 blind people in Iowa. About 4,000 use the library services; about 430 to 525 each year use the vocational rehabilitation program; about 200 people receive instruction through the home teachers; and about 150 are involved at homework production.

Attended State University of Iowa and graduated from Graceland College in Lamoni, Iowa, receiving a B.A. degree, cum laude, in Business Administration. Appointed Iowa's Commissioner of Insurance on January 3, 1967.

He is the statutory receiver in the event of liquidation of any Iowa insurance company.

All foreign companies, as well as all local companies, must, before engaging in the insurance business in this state, obtain a certificate of authority from the commissioner of insurance. These certificates expire annually on April 1, and action is taken on their renewals after analysis of complete financial statements filed covering the condition of the company as of the previous year end. All insurance agents must likewise obtain individual licenses to solicit business. In 1964 there were 1,002 insurance companies authorized to do business in the state, and approximately 100,000 individual licenses were issued.

A state statute requires insurance companies to file rates with the insurance commissioner for approval, and a rating division has been set up with the insurance department to handle rate filings together with supporting statistical information. There are approximately 1,200 filings per month.

The commissioner conducts examinations of all domestic insurance organizations every three weeks. He may also make an examination of any foreign insurance company authorized or seeking to be authorized to do business within the state. All policy forms used by any company within the state are required to be approved by the department.

Securities Department

The Iowa securities law is administered by the commissioner of insurance. Chapter 502 of the Code of Iowa empowers the commissioner to regulate the sale of securities within the state of Iowa and provides for the licensing of securities salesmen and dealers.

The commissioner also has jurisdiction over the sale of stock on the installment plan and sale of memberships or certificates of membership entitling the holder thereof to purchase merchandise, materials or services on a discount or cost-plus basis.

It is the responsibility of this division to prevent fraud in the sale of motor vehicles at retail in Iowa, and to prevent irresponsible persons from engaging in the retail sale of motor vehicles. The Bureau of Adult Corrections Services supervises the following institutions and facilities:

The Women's Reformatory, Rockwell City, Miss Laurel Rans, superintendent, houses all women convicted of felonies within the State, as well as many who have been convicted of misdemeanors and received jail sentences.

The Iowa State Reformatory, Anamosa, Charles Haugh, warden, houses all adult males convicted of felonies for the first time up to the age of 30.

The Iowa State Penitentiary, Fort Madison, Lou V. Brewer, warden, houses all felons convicted for the second time or more, or who are above the age of 30.

The Riverview Release Center, Newton, Herbert C. Callison, superintendent, is an adult pre-release center to which all parolees from the Men's Reformatory and the Iowa State Penitentiary are sent to spend four to six weeks prior to release. This indoctrination period is offered to ease the transition to a free society.

The Luster Heights Camp, Harpers Ferry, Donald R. Light, superintendent, administered through the Riverview Release Center, is a Conservation Commission camp where inmates of Fort Madison and Anamosa are placed in a testing situation.

Eagle Ridge Center, Anamosa, (authorized by the 1969 General Assembly) will provide intensive, short-term treatment for young first-offenders.

Work Release Centers, Des Moines, are sometimes referred to as "half-way houses." These centers serve inmates in the process of leaving a correctional institution to parole or discharge. Residents work in the community, pay their own room and board, and participate in approved community activities. Rufus Jones House for men is administered through the Riverview Release Center. The J. Thompson Apartments for women is administered through the Women's Reformatory.

Jail Inspection, to see that city and county jails meet minimum standards, is a function of this bureau. Failure to meet standards set by the department has resulted in the closing of several county jails, and others are likely to be closed if standards are not met.

The staff of **Parole and Probation Services** has been assigned to the Bureau of Adult Corrections. Serving the district court judges as well as the correctional institutions, is a staff of field agents. Upon the request of the judge, they make presentence investigations. The convicted person may be placed on probation, under the supervision of the State Department of Social Services, or may be sent to one of the correctional institutions. Whether on probation, or release from an institution, the field agents provide counseling and support in job-finding, living arrangements, and adjustments to free society.

Kevin J. Burns, Director

The Bureau of Family and Children's Services plans community based programs of social services for children and youth and their families, and for adults. The work of the bureau is distributed among the following five divisions:

The Division of Income Maintenance and Adult Services, which develops procedures necessary to implement state and federal laws with respect to the payment of Old Age Assistance, Aid to Blind, Aid to Dependent Children, and Aid to Disabled.

The Division of Community Services, which issues licenses for private child caring agencies and foster care facilities, provides for the development of state-wide services for the protection and care of children, provides services covered by the Interstate Compacts on Children and Juveniles, develops homemaker services, and works with adult clients in training for employment. Other services include family life and planning, day care, placement of children, and work with the juvenile courts.

The Division of Institutional Services administers and supervises five institutions for children and youth. These are:

The Iowa Annie Wittenmyer Home, Davenport, James P. Holmes, superintendent, and **The State Juvenile Home**, Toledo, Philip J. Juhl, superintendent, are for the care of children who have been removed from their own homes by the Court. These are dependent and neglected children.

The Training School for Boys, Eldora, Carle F. O'Neil, superintendent, and The Training School for Girls, Mitchellville, Mrs. Marie L. Carter, superintendent, provide care for legally designated "juvenile delinquents."

The Columbia Youth Forest Camp, RFD Chariton, was authorized by the 1969 Iowa General Assembly. It will be an "open" facility for boys with special problems, located on land owned by the Iowa Conservation Commission.

The Division of Veterans' Services operates the Iowa Soldiers' Home, Marshalltown, Jack Dack, commandant. This home receives discharged United States veterans who served in any of the country's wars, and whose income falls below a specified level.

Bureau of Medical Services

Elmer M. Smith, Director

This bureau administers the medical service programs, including Title XIX (Medicaid), of the department. The purpose of the bureau is to provide quality medical services to all people who come within the jurisdiction of the various programs of the department. All persons receiving financial assistance through the public assistance programs are eligible for a wide range of health services, with bills incurred on their behalf paid directly to vendors. In addition to this Medicaid program, the bureau administers the Remedial Eye Care program, a state program designed to prevent blindness or to restore vision.

The Division of Institutional Medical Services is responsible for general medical care, nutritional and dietary services, general health and sanitation, preventive medicine, and accident prevention in the institutions under the supervision of the department.

The Division of Program Standards develops procedures to be followed by county and state staffs in processing applications for Medicaid and Remedial Eye Care.

The Division of Program Operation reviews and analyzes medical program costs, reviews application for Aid to Blind and Aid to Disabled, maintains general supervision of the Family Planning Program of the department, and maintains liaison with the State Medical Advisory Council and the various professional groups with whom it deals.

Bureau of Mental Health Services

James O. Cromwell, M.D., Director, deceased Aug. 16, 1969

The Bureau of Mental Health Services supervises the State Mental Health Institutes at Cherokee, J. T. May, M.D., superintendent; Clarinda, John R. Gambill, M.D., superintendent; Independence, Selig M. Korson, M.D., superintendent and Mount Pleasant, Walter W. Fox, M.D., superintendent. These modern, psychiatric hospitals are equipped and staffed for the treatment of a variety of emotional problems. Most hospitals have special units for children, the treatment of the alcoholic, the geriatric patient, and in one hospital, the mentally retarded. An attempt is made to provide a broad spectrum of services including in-patient and out-patient services, consultative and educational services, emergency services, and even occasional day hospital services for patients living close enough. The hospitals provide a wide range of teaching programs. By law, the department is authorized to supervise the care of the mentally ill wherever they are cared for in institutions. The bureau is delegated this responsibility, and county homes are visited regularly by

community consultants from the institutions; they also visit some licensed nursing homes. The chief of the Bureau of Mental Health Services is the administrator of the Interstate Compact on Mental Health.

Bureau of Mental Retardation Services

Conrad R. Wurtz, Ph. D., Director

The Bureau of Mental Retardation Services has broad responsibility for the mental retardation program development over the entire state. Major emphasis is on the development of local community programs and facilities for the care and training of the retarded.

The bureau supervises the two state hospital-schools at Glenwood and Woodward. These institutions are operated for the care, treatment, training, and habilitation of the mentally retarded. Emphasis is placed on an environment conducive to the improvement of patients, physically, mentally, emotionally, and educationally. Programs designed to meet individual capabilities and potentialities are developed, geared to the pace at which each patient can function.

The Interagency Case Information Service (ICIS) is also administered by the bureau. This is a case record exchange which serves the state's mentally handicapped. Some 270 local offices of various public agencies submit records of those clients diagnosed as mentally handicapped or retarded.

State Offices and Officers

In addition to the five bureaus, there are other individuals and units directly responsible to the commissioner. Included are: Special Projects Director, Offices of Administrative Services, Research and Planning, Personnel, Public Information, and Architecture and Engineering. Directly responsible to the deputy commissioner are the units of Staff Development, Quality Control, Client Hearings and Appeals, Program and Activities Therapy, and Management Analysis. There is also a chief administrator of field operations, who supervises and coordinates the field workers headquartered in the area social service centers.

In all, the Department of Social Services employs about 432 men and women in the central and 10 area offices; 1,232 in the 99 county departments of social welfare, and 4,941 in the institutions.

HOWARD R. BOWEN, President, State University of Iowa.

W. ROBERT PARKS, President, Iowa State University.

THOMAS E. ROGERS, President, Iowa Academy of Science.

H. GARLAND HERSHEY, Director and State Geologist, Iowa City, appointed by the Geological Board.

HERSHEY, H. Garland, Johnson County

Born in Quarryville, Penn., Oct. 1, 1905. Attended The Johns Hopkins University, receiving A.B. and Ph.D. in Geology. Since 1936 has been a member of the staff of the Iowa Geological Survey and in 1947 was appointed director and state geologist. Married Edna M. Eybs in 1931. Two children, H. Garland, Jr., and Timothy Joseph. Fellow of the Geological Society of America, fellow of Iowa Academy of Science, member of Society of Economic Geologists, American Geophysical Union, Iowa Engineering Society, American Association of State Geologists, Society of Sigma Xi, vice president of National Water Conference, consultant to Presidential Advisory Committee on Water Resources Policy (1945-56), chairman, Interstate Conference on Water Problems (1963), vice president National Rivers and Harbors Congress, member, U. S. National Committee for the International Hydrological Decade (1965), member, Board of Consultants, Iowa Institute of Hydraulic Research (1966-67), chairman, Iowa National Resources Council (1949).

It is the duty of the Geological Survey to collect, interpret, and report information on basic geological features of the state. This includes infor-

mation concerning the quality and quantity of surface and underground water supplies, coal, gypsum, sand and gravel, ceramic clay and shale, limestone and dolomite, raw materials for the manufacture of cement, ore deposits, and other mineral resources. Continuing studies are being carried on to determine the possibilities of oil, gas and metallic ores in Iowa. The normal geological studies have been augmented by extensive geophysical studies. Geological studies of dam sites are made on some of the flood control and recreational projects of federal, state and county agencies, and reports on the mineral resources of the proposed reservoir areas are commonly prepared.

The survey is the repository for all basic geologic and geophysical data obtained in the state. The state geologist acts as the oil and gas administrator with duties and responsibilities contained in Chapter 84, Code of Iowa 1962.

Collection and dissemination of data on water wells, water levels, stream flow and sediment loads, lake levels, and other hydraulic data are accomplished in cooperation with the water resources division of the U. S. Geological survey. This program forms part of the nationwide network of data collection. Topographic mapping of the state, by 7½ minute quadrangles (approximately 55 square miles) and 15 minute quadrangles (approximately 220 square miles), is being conducted in cooperation with the topographic division of the U. S. Geological Survey.

As a part of the results of its work the survey has published 38 volumes of annual reports and accompanying scientific papers. These publications include special reports and maps covering the geology and mineral production of all but six of the 99 counties, as well as special reports on mineral production of all sorts. There are also three technical papers on Iowa coal and eight water-supply bulletins. A new series of publications entitled "Report of Investigations" has been initiated. Geological and mineral resources maps of the state have been prepared. Other summaries of specialized geological studies have been published in geological periodicals. These published reports, together with the large file of unpublished data obtained during almost three-quarters of a century of continuous study, serve as reliable basis for up-to-the-minute reports to federal, state and municipal agencies and to private concerns and individuals who request and meet the available information on water supply and other mineral resources of Iowa.

DR. W. L. ROY WELLBORNE, Ph.D., L.H.D., Executive Director, Des Moines.

The Higher Education Facilities Commission is the only state agency responsible for planning and administering programs of assistance to

both public and private colleges and universities throughout Iowa. Represented on the nine-member Commission are the Board of Regents, the Department of Public Instruction, the Association of Private Colleges and Universities, the Advisory Committee on Vocational Education, each house of the Legislature and the general public.

Established in April 1964 to implement the federal assistance for academic construction provided by the Higher Education Facilities Act of 1963, the Commission now administers the eight programs described below:

Construction grants for academic facilities—The Commission receives college applications for federal funds under the Higher Education Facilities Act of 1963, verifies their eligibility and assigns relative priorities for grants. On the basis of these priority ratings, the Commission then recommends to the U. S. Office of Education the distribution of Iowa's allotted funds. These funds are used in the construction or expansion of classroom, laboratory and library facilities. Through the fiscal year ended June 30, 1969, the Iowa allotments totaled \$28,271,245 and assisted with construction of 17 projects at the public community colleges and technical institutes, 21 projects at the Regents institutions and 43 projects at the private colleges.

State of Iowa scholarships—In May 1965, the Legislature authorized establishment of a state-supported scholarship fund with an appropriation of \$500,000 for awards during the first biennium. Selected on the basis of ability and financial need, 829 Iowa college students benefited from the program during the first two years. The 62nd General Assembly appropriated \$325,000 to continue the state scholarship program through the biennium of 1967-69.

Equipment grants—Title VI, Part A, of the Higher Education Act of 1965 provides financial assistance for the improvement of undergraduate classroom instruction in colleges and universities. Since April, 1966, Iowa's allotments for equipment grants totaled \$1,018,418. Thirty-eight Iowa colleges and universities have benefited from these grants, which are reviewed and recommended by the Commission.

Guaranteed loans for college students—The Higher Education Act of 1965 also provided for a Guaranteed Student Loan Program under Title IV, Part B. This plan permits students to borrow from commercial lending institutions at a low rate of interest, partially subsidized by the federal government, on easy repayment terms. Started with a federal reserve fund of \$247,000 in August 1966, the guaranteed loan program received state funding in June 1967 with an appropriation of \$1,600,000 to be used as reserve money to guarantee loans totaling \$16,000,000. These loans remain on the books, but new loans are now handled under the Federally Insured Student Loan Program.

Guaranteed loans for vocational students—A similar loan program for vocational students was established by the National Vocational Student Loan Insurance Act of 1965 and was funded by the 62nd General Assembly with an appropriation of \$400,000 to be used as reserve moneys to guarantee loans totaling \$4,000,000. New loans here now are handled under the Federally Insured Student Loan Program.

Loans for medical students—As a potential remedy for the shortage of doctors in rural communities, the 62nd General Assembly appropriated \$200,000 for loans to medical students who agree to practice general medicine in Iowa. A portion of the loan is forgiven for each five-year period of service within the state. The 63rd General Assembly appropriated \$300,000.

Comprehensive planning—Federal funds totaling \$194,294 were allotted during fiscal year 1966, 1967, and 1969 for the purpose of comprehensive planning in higher education. The Commission will use these funds to determine facilities requirements on Iowa campuses and to encourage the wise use of the federal assistance provided.

Iowa tuition grant program for private college students—The last session of the State Legislature established the Iowa Tuition Grant Pro-

gram in order that more lower and middle income students might be able to attend the Iowa private colleges of their own choice. The Legislature appropriated \$1,500,000 for grants in the academic year 1969-70 and \$3,000,000 for grants in 1970-71. Qualified students enrolled as undergraduates at the participating colleges may receive assistance of from \$40 to \$1,000 each year. The amount of the grant is based on the family's estimated financial need but cannot exceed tuition and fees minus the average amount that the student would pay at a state university.

Application forms and instructions may be obtained from the financial aids director at your college, or from the Higher Education Facilities Commission, 1300 Des Moines Building, Des Moines, Iowa 50309, or from High School Guidance Counselors.

**Purpose of the Iowa Development Commission**

The activities of the Iowa Development Commission are focused on the economic growth of the state, achieved in an orderly fashion. It is the function of the commission to maintain continued recognition of Iowa's greatness in agriculture, to aid in the development of its rapidly growing industrial economy, and to promote its assets in the field of recreation and travel.

Iowa's position as a leader in agriculture is widely acknowledged; the products of its fertile soil will remain one of the mainstays of the state's economy. Meanwhile, its industrial assets—productive labor force, governmental climate, natural resources, central location, utilities and transportation facilities—have become widely recognized throughout the nation as being conducive to the profitable operation of manufacturing facilities. Recent legislation, such as municipal revenue bond and statewide development authority financing, uniform commercial code, voca-

tional education, open port warehousing and comprehensive regional planning, has been designed to assist Iowa's industrial development.

Operation of the commission is divided into five areas—research, development, planning, public relations and tourism and travel.

Records of Iowa's accomplishments in agriculture and assessments of its assets in industrial development, together with evaluation of changing conditions which affect Iowa's economic future, are maintained by the commission through its research division.

The development division devotes itself to assisting manufacturing firms already located in Iowa, attracting new industries to the state, and to aiding and representing Iowa communities which seek to diversify their economy through the addition of manufacturing operations. The division works closely with chambers of commerce and local development groups to create a favorable industrial climate. Close liaison is maintained at the executive level with manufacturing firms throughout the nation, with management consulting firms and with all organizations interested in industrial development.

The responsibility for creating favorable public opinion for Iowa, recognition of its accomplishments in agriculture and industry, and for developing an awareness in the nation of Iowa's cultural, social and economic advantages lies with the public relations division. The commission uses all available media to tell the story of Iowa to the public. A national advertising program designed to relate the advantages of an Iowa location to industry is also the responsibility of the division. It also lends its cooperation to other state agencies in preparing publications for distribution to the general public. Requests for information about Iowa number approximately 100,000 annually.

Through its division of planning, the Development Commission administers the federal planning assistance program, assists communities and counties in setting out comprehensive programs for their future growth, and aids industrial firms or communities in developing specific plant sites. The planning program covers land use, road use, community facilities, public improvements, zoning and subdivision regulation, among other items. The planning division cooperates with other state agencies involved in planning for Iowa's future.

The tourism and travel division provides information about Iowa's outstanding vacation and recreation facilities to the growing number of travelers. It also assists communities in promoting their events and accommodations for visitors. The division carries out its promotional efforts through participation in recreation and travel expositions, through publications, special projects and other methods.

In all of its endeavors, the commission seeks closer liaison between industry and agriculture, greater promotion of industrial use of agricultural products and greater knowledge of developments in all fields which could favorably affect the economic welfare of the state.

Iowa Employment Security Commission

(Administrative Office at 1000 East Grand Avenue, Des Moines)

J. WAYNE JANSSEN, Hardin County Democrat, Employer Representative, Chairman; term expires June 30, 1971.

GEORGE A. LUNDBERG, Polk County Republican, Labor Representative, term expires June 30, 1975.

KEITH V. SCHROEDER, Executive Secretary.

JEROME W. CORBETT, Director, Iowa State Employment Service.

JOHN A. PETERS, Director, Unemployment Insurance Service.

EDMUND R. LONGNECKER, Chief, Iowa Public Employees Retirement System.

Under Chapter 96, Code of Iowa, the Iowa Employment Security Commission administers a program designed to promote security against unemployment. This program includes both an unemployment insurance service and employment service to Iowans.

Unemployment insurance is a form of insurance paid for wholly by Iowa employers to protect their employees against the hardships of unemployment. The employment security law levies a tax upon employers of four or more workers in commercial and industrial employment areas. This tax accumulates in a trust fund and is paid to eligible unemployed workers for a maximum of 26 weeks in a 12-month period. When a worker meets all the eligibility requirements and no suitable work is available, he is paid weekly benefits based upon his earnings. During 1969 fiscal year, Iowa unemployment insurance benefit payments totaled \$15,291,729. The trust fund balance at the close of the 1969 fiscal year was \$129,171,000.

In Iowa each employer is rated on his actual experience and if his employment record is stable, his contribution rate may be lower than the standard rate. This "experience or merit rating" provides another strong incentive to provide steady work and avoid layoffs. Almost one-half of all covered employers in the last several years have not been required to pay any state contribution tax because they have stabilized their employment.

The Iowa State Employment Service, established by legislative action in 1915, was put under the administrative control of the Iowa Employment Security Commission in 1936. The 34 offices, located in key Iowa cities, provide a complete manpower service to Iowa residents. Staffed by career professionals, these offices are part of a federal-state system of 2,000 public employment service offices.

Placement service, job counseling, and aptitude and proficiency testing are available to all workers. Labor market information is gathered, analyzed and disseminated. Special service is offered to veterans, older workers, minority group members, youth and the handicapped. The Iowa State Employment Service works with other agencies and organizations in solving the employment problems of workers, employers and the community. During the 1969 fiscal year, 90,665 job placements were made.

Under terms of an agreement with the U. S. Department of Labor, the commission administers the unemployment insurance program for ex-servicemen and for federal civilian employees.

The Iowa Employment Security Commission is responsible for the administration of the Iowa Public Employees Retirement System, Chapter 97B, Code of Iowa. Employees and employers, each contribute 3½ percent of the employee's salary up to \$7,000 for the program. Some 105,000 persons employed by the state, cities, counties and school districts take part in the program.

Chapter 97C, Code of Iowa and Title II of the federal social security act extend the protections and benefits of the federal social security act to employees of the state and its political subdivisions. In administering this program, the Iowa Employment Security Commission is responsible for requiring the filing of social security wage reports and for collecting social security taxes from the state of Iowa and its political subdivisions.

The commission has added responsibilities under federal legislation including the area redevelopment act, the manpower development and training act, the trade expansion act, the public works acceleration act, the economic opportunity act, and the work incentive program.

E. J. GIOVANNETTI, Deputy Commissioner.

The Workmen's Compensation Law was enacted by the Thirty-fifth General Assembly in 1913. The industrial commissioner administers this law. Iowa was one of the first states to provide benefits for injuries and occupational diseases sustained by industrial workers. Injuries resulting in death, permanent disability or temporary disability must be reported to the commissioner. If the injured worker and employer agree on compensation a memorandum thereof is approved by the commissioner. If an agreement cannot be reached, either the employee or employer may request an arbitration hearing before a deputy commissioner

in the county where the injury occurred. Arbitration decisions are reviewed by the commissioner and may be appealed to a district court or the supreme court. Settlement agreements or awards may be reopened for three years after the last payment if the injured employee has a change of condition.

The industrial commissioner also investigates and settles workmen's compensation claims by all state employees and peace officers, and pursues subrogation recovery from persons who negligently injure them.

The industrial commissioner is a member of the Employment Agency License Commission and the State Board of Vocational Rehabilitation.

Organization

The Sixty-second General Assembly passed a bipartisan Act establishing in the State of Iowa a system of personnel administration based on merit principles and scientific methods for governing the appointment, promotion, welfare, transfer, layoff, removal and discipline of its civil employees, and other incidents of state employment. It provides that all appointments to positions in the classified service shall be made solely on the basis of merit and fitness. The Act established a Department of Merit Employment and a Merit Employment Commission which originally consisted of three members. Membership was expanded to five members by the Sixty-third General Assembly. The members are appointed by the Governor, subject to approval of two-thirds of the membership of the Senate.

It is the duty of the Merit Employment Commission to appoint a Director of Merit Employment, to adopt rules for administration of the merit system, to approve the classification plan, to submit the pay plan to the Executive Council for approval, and to hear appeals of disciplinary actions.

It is also the duty of the Commission to represent the public interest in the improvement of personnel administration in the state merit system; to advise the governor and the director on problems concerning personnel administration; to foster the interest of institutions of learning and of industrial, civic, professional, and employee organizations in the improvement of personnel standards in the state merit system; to make any investigation which it may consider desirable concerning the administration of personnel in the state merit system and make recommendations to the director with respect thereto; and to make an annual report and special reports and recommendations to the Governor.

The Director of Merit Employment, as executive head of the department, directs and supervises all administrative and technical activities of the department. He is charged with the responsibility of developing

and putting into continuous effect policies and procedures which are based on the principles requisite to merit system administration. These involve the classifying of positions; the maintenance of the pay plan; the recruitment of qualified candidates for possible public employment; the preparation, administration, and scoring of examinations; the preparation, custody, and maintenance of lists of eligibles; certification of the eligible list to the agencies as vacancies occur; maintenance of complete personnel records including appointments, salary advancements, promotions, and terminations; and auditing the payrolls to insure compliance with the regulations in all personnel actions.

The merit system covers approximately 17,000 employees. After implementation of the classification plan, each original appointee must meet the minimum requirements as defined in the class specifications, pass a practical examination, be selected from among the top three eligibles available on the eligible list, and serve a one-year probationary (working test) period before being awarded a permanent merit system appointment. Permanent employees may be discharged only for cause, and have the right to appeal to the Commission in case they are of the opinion that any action has been unfair or discriminatory.

Member of Methodist Church, Kiwanis, American Legion, Sportsmen's Club, Reserve Officers Association, Chamber of Commerce, Soil Conservation Society, Masonic Orders, including Shrine. Member of American Society of Agricultural Engineers; Iowa Engineering Society; Iowa Academy of Science, and Ankeny Planning and Zoning Commission. Honorary Future Farmer.

The Iowa Natural Resources Council was created in 1949 by the Fifty-third General Assembly, which assigned the council the duty and authority to establish and enforce an appropriate comprehensive state-wide

program for the control of water and the protection of the surface and underground water resources of the state (Chapter 455A, Iowa Code 1962.) The duties and responsibilities of the council were enlarged in 1957 by the Fifty-seventh General Assembly, which established a permit system for the regulation of water use and assigned administration of the permit system to the council. These duties were further enlarged in 1963 through enactment of an oil and gas conservation law to be administered by the council through the office of the state geologist (Chapter 84, Acts of the 60th General Assembly).

The Resources Council is composed of nine members appointed to overlapping six-year terms by the governor with the advice and consent of the senate. The members, who serve on a per diem basis, must be electors of the state and are selected from the state at large solely with regard to their qualifications and fitness to discharge the duties of office without regard to their political affiliation. The director of the council, qualified by training and experience, serves as its executive officer having charge of the work of the council under its direction and orders.

The functions and duties of the Resources Council include the establishment and administration of comprehensive state-wide programs for flood control and for the conservation, development and use of the waters of the state. The council has been designated as the agency to maintain liaison with federal agencies conducting investigations and studies of projects for navigation and flood control affecting the state and to make official comments on project reports. The council also acts as the coordinating agency for flood control and water resources projects on the local and state level. The council approves or disapproves plans for any structure, dam, obstruction, deposit or excavation in or on any floodway and may abate as a public nuisance any of the foregoing which adversely affects flood control.

The permit system for regulated uses of water is administered by a water commissioner and deputies chosen by the council. The water rights law declares that all waters within the state, both surface and underground, belong to the people of the state and are subject to regulated use for beneficial purposes. Except for a few uses defined in the law as non-regulated, any use of 5,000 gallons or more per day is subject to regulation. Permits may be granted for any period of time not to exceed ten years and are reviewed prior to renewal or extension. Priority is given only to the use of water for ordinary household purposes, for poultry, livestock, and domestic animals. The council establishes the average minimum flow for a given point on a watercourse and may issue permits for beneficial use of water therefrom if the average minimum flow is preserved.

The oil and gas conservation law (Chapter 84, Acts of the 60th General Assembly) was enacted to conserve and protect the oil, gas and water resources of the state. Impetus for passage of the law was provided by the discovery of a deposit of commercially acceptable crude oil in Washington County in 1963 and the resultant increased drilling activity. Administration of the law was assigned to the Iowa Natural Resources Council through the office of the state geologist. The council has adopted administrative rules defining in detail its requirements under the law.

During the past 21 years it has been the administrative policy of the real estate department to correct most of the evils in the real estate brokerage business which had developed over many years of uncontrolled practice. This has resulted in elevating the real estate business to a professional status and has tended to encourage men and women in all walks of life to enter this business where income is based on intelligence, initiative and hard work.

While the present law requires a rather complete and comprehensive written examination for all applicants it has not tended to deter or discourage the many people who are endeavoring to get into this business. The examinations are held six times a year at a specific time and place set by the commission.

The fees for a broker's and salesman's examination are \$20.00 and \$10.00 respectively. The same amount is charged each year for renewal of the license which expires on Dec. 31 of the year of issuance.

The department prepares and distributes free to the citizens of Iowa a Real Estate Primer which is a basis for the qualifying examination and which has been accepted and used as a textbook by many high schools, colleges and universities in Iowa and many other states. This primer and the educational institutes held over the state each year have contributed materially in reducing law violations to a minimum and have facilitated the economical and efficient operation of the department.

The department is also charged with the responsibility of regulating and investigating the business conduct of all real estate licensees in their relationship with the public, and holds hearings on formal complaints which contain evidence which would indicate a violation of the law.

A law enacted by the 1966 state legislature provides that each broker must maintain a trust account in which he cannot commingle personal

funds in excess of \$100. This account is subject to audit at any time by the Iowa Real Estate Commission, and each broker must sign forms provided by the commission authorizing such an audit before a broker's license can be issued—either new or renewal.

In 1878, the Seventeenth General Assembly created a board of railroad commissioners consisting of three members to be appointed by the governor and confirmed by the executive council. In 1888, the Twenty-second General Assembly passed a law making the commissioners elective. In 1937, the Forty-seventh General Assembly, by House File 133, changed the name from "board of railroad commissioners" to "Iowa State Commerce Commission."

The powers and duties of the Iowa State Commerce Commission, in addition to the regulation of public utilities, are: to generally supervise all railroads in the state, both steam and electric, except street railroads; to inquire into any neglect or violation of the laws of the state by any railroad corporation doing business therein; to make examinations and inspections of the physical condition, conduct and management of such railroads and report their conditions to said companies; to stop and prevent railroad companies, under certain circumstances, from running or passing their trains over unsafe bridges; to adjudge changes in station houses, rolling stock and rates of fare; to pass on necessity for spur tracks to be constructed and maintained not exceeding three miles in length to an existing industry under terms and conditions approved by the commission as set out by law; to make reasonable rules for the crossing of steam and interurban railways and to require, when necessary, interlocking switches at railroad crossings; to make report on the first Monday in December in each year to the governor of its doings for the preceding year, accompanied by appropriate suggestions and recommendations; to receive, tabulate and report upon the annual reports filed with it by railroad companies; to examine any of the books, papers or documents of any such corporation; to examine under oath employees of such corporation; to issue subpoenas, administer oaths and compel the attendance of witnesses; to make and fix maximum schedules of freight rates for such corporations, such schedules to be deemed reasonable until disapproved; to examine into rates in force, upon complaint that the rate charged by a railroad company, or that the maximum rates fixed by the commission are unreasonably

high or discriminating, and to fix the rate again, which must not be higher than any rate established by law, such decision of the commission being prima facie evidence that the rate so made is a reasonable maximum rate; to bring suits to enforce its orders; to inquire into the management of the business of such carriers and to obtain from them full and complete information necessary to enable the commissioners to carry out the objects of the law; to hear, investigate and determine all complaints alleging unreasonable rates, unjust discrimination, undue preference, violation of the long and short haul clause, or other infractions of the commission law, and make proper orders thereupon; to establish joint through rates, upon application, over two or more connecting lines; and to have the same authority over express companies as the act confers concerning railroads.

Before any railroad company may condemn lands for additional depot grounds, or for straightening or relocating track, the permission of the commission must be obtained. Interlocking switches may be placed at grade railroad crossing or draw bridges, thus obviating the necessity of stopping trains before passing over such grade crossing or draw bridges, but before the interlocking switch may be used consent of the commission must be obtained.

The Thirty-fifth General Assembly, 1913, gave to the commission the power to grant to individuals or corporations "engaged in the manufacture, sale or distribution for sale of electric current for light, power or heating purposes, the right within the state, except in cities and towns, to erect and maintain poles, wires, towers, fixtures and other necessary construction for the purpose of conducting electricity for lighting, power and heating purposes, over, along and across any public lands, highways or streams or the land of any person or persons, and to acquire the necessary interests in real estate therefor." It also provided that transmission lines proceeding under the provisions of the law should be subject to "such reasonable regulations as the commission may from time to time prescribe."

The Fortieth General Assembly, 1923, conferred on the commission the power to issue certificates authorizing motor carriers to operate over the public highways of the state, upon a showing that the proposed service would promote "the public convenience" and authorized the board to prescribe rules and regulations for the operation of motor vehicles used by such carriers "for the protection and safety of the public." The Forty-first General Assembly, 1925, revised the laws on the subject, but left their administration with the railroad commission.

The Forty-third General Assembly, 1929, provided for the supervision or regulation by the commission of persons operating motor trucks principally used for public transportation of freight for compensation, not operating over regular routes nor between fixed termini.

The Forty-fourth General Assembly, 1931, provided that pipe lines shall be subject to regulation by the board under a permit issued by the board.

The Fifty-third General Assembly, 1949, provided for the supervision or regulation by the commission of persons operating motor trucks used for transportation of freight for compensation under contract.

The Fifty-seventh General Assembly, 1957, provided that persons engaged in transportation for compensation of liquid products in bulk upon any highway in this state should be required to obtain from the commission a certificate declaring that public convenience and necessity require such operation.

The Fifty-eighth General Assembly, 1959, created a highway grade crossing safety fund, which the commission was empowered to administer. On application, the commission will consider the need and benefits accruing to the railroad and governmental unit, as to public use, and

after a hearing is held the commission will determine the allocation of costs between interested parties, the balance to be paid from the highway grade crossing fund. Provided, however, no part of the fund may be used in connection with the improvement or construction of a federal aid highway.

The Sixtieth General Assembly, 1963, provided for regulation by the commerce commission of rates and services of public utilities to the extent and manner provided in chapter 490A. The Commission was authorized and empowered to intervene in any proceedings before the federal power commission or any other federal or state regulatory body when such decisions would adversely effect the cost of any public utility service within the state of Iowa. Public Utilities as covered by this Commission include those furnishing gas by piped distribution system or electricity to the public for compensation; furnishing communications services to the public for compensation; and furnishing water by piped distribution systems to the public for compensation. The rate regulation of mutual telephone companies, in which at least fifty percent of the users are owners, telephone companies having less than 2,000 stations, municipally-owned utilities, unincorporated villages which own their own distribution system and cooperative corporations or associations are not subject to regulation by the commission.

The Commission has authority to inquire into the management of business of all public utilities and may obtain from them all information necessary to enable the commission to perform its duties. The Commission shall require rates and charges in accordance with tariffs filed as prescribed by the rules.

No public utility subject to rate regulation may make effective any new changes in rate charges without filing with the Commission the same, and the Commission may upon investigation of such charges, set down for hearing such application. If after a hearing and decisions in all issues presented for determination in such rate hearings, the Commission may uphold or set aside the rates filed, in which case they may require the public utility to file rate charge schedules which will satisfy requirements of the regulation and the Commission.

Commerce Counsel

The Thirty-fourth General Assembly, 1911, created the office of commerce counsel, to be appointed by the Iowa State Commerce Commission for a term of four years, subject to confirmation by the senate. The law provides that the counsel may appoint assistants, subject to the approval of the commissioners.

The duties of the office briefly are as follows: to be legal advisor of the Iowa State Commerce Commission; to investigate and present matters with reference to intrastate rates, and prosecute same before the Iowa State Commerce Commission or before any court to which same may be taken; to investigate on his own motion, or at request of the State Commerce Commission, all matters involving interstate rates in which the people of Iowa are interested or affected, and present same to the Interstate Commerce Commission and prosecute to final determination; to act as attorney and counsel for and represent the Iowa State Commerce Commission in all courts of this state or the United States, in which the validity of any order of the state commerce commission is in issue; to institute and prosecute in any of the courts any and all suits necessary for proper enforcement of any rule or order of the said Iowa State Commerce Commission or make defense therein wherever said rule or order may be questioned or involved.

Served as personal aide to Gov. Robert D. Ray and was appointed executive director of the Iowa Crime Commission in June, 1969.

Duties of the Iowa Crime Commission

The purpose of Iowa's Crime Commission is to administer the Omnibus Crime Control and Safe Streets Act of 1968 and the Department of Health Education and Welfare's Juvenile Delinquency Program as they pertain to the state of Iowa by making a careful examination of our system of justice in Iowa today.

The basic responsibility for dealing with state and local crime and criminals is, must be, and remains a state and local problem. Iowa has attacked many items involving law enforcement and criminal administration on an isolated basis, but this new program will allow us to establish a comprehensive, coordinated plan of evaluation, recommendations and action in our war on crime.

Organizational Structure

The director, appointed by the Governor and serving from his office, will assist in and coordinate Iowa's planning of law enforcement and criminal administration. He will be aided by a committee with membership appointed by the Governor from fields of law enforcement, the courts, corrections, and the citizenry.

Duties of the Office

1. To inquire into the causes of crime and the adequacy of the existing system of law enforcement, criminal justice and corrections in Iowa.
2. To plan a strategy against crime. We must have a system of criminal justice, a set of short-range and long-range goals to guide us.

3. To work closely with state and local officials and organizations and make recommendations and conclusions as to how state and local government can ACT to make law enforcement and the administration of justice more effective and fair.

Method of Operation

1. Evaluate the impact of crime, determining such things as causes and motivations.

2. Seek methods to improve police standards, in areas such as recruitment, salaries, organization and management, field procedures, equipment and communications.

3. Seek to raise the quality of the courts, including prosecutors, judges and defense attorneys.

4. Recommend how corrections institutions and probation and parole officers can do a better job.

Responsibilities of the State Department of Health

Under the direction of the Commissioner of Public Health, the State Department of Health exercises general supervision of the state's public health, promotes public hygiene and sanitation, and, unless otherwise

provided, enforces laws relating to public health. The Department's programs are conducted through seven broad service areas composed of appropriate divisions. They are:

Environmental Engineering Service

The programs of this Service are designed to assure, as far as possible, that Iowans enjoy a clean, safe and healthy environment. This requires the administration of a broad program in environmental sanitation. It includes the sanitary control of water supplies, swimming pools, waste disposal, housing, milk supplies, industrial operations, air contamination, and radioactive energy.

Divisions of this Service include Water Supply; General Sanitation; Air Pollution; and Water Pollution.

Community Health Service

The Community Health Service assists communities to develop local health services by providing technical advice and consultation and financial assistance or direct services through regional offices. It also administers the home health service aspect of the Federal Health Insurance Benefits Program.

Iowa State Department of History and Archives

State Historical Building

(East 12th and Grand Avenue, Des Moines)

Curator is selected by the Board of Trustees—the Governor, a member of the Supreme Court and the Superintendent of Public Instruction.

The State Historical, Memorial and Art Department was organized in 1892 by Charles Aldrich. The State Historical Building was erected in 1898, with an addition to present size in 1908.

The Department was reorganized in 1939 as the Iowa State Department of History and Archives. Under this reorganization plan the department encompasses six divisions, each functioning to preserve the history of Iowa.

The Archives Division has under its jurisdiction all records of state transactions, legal, legislative and administrative papers. These now total over 50 million places of information and are constantly on the increase. However, every item is catalogued and is readily retrieved if the occasion arises. The State Archives Division was moved into larger quarters in the Harvester Building, Seventh and Court Avenue, and already storage space is at a premium.

MUSGROVE, Jack W., Curator

Born Oct. 20, 1914, at Iowa City, son of Leo and Mary Musgrove. Educated in the public schools of Iowa City and the University of Iowa, specializing in natural science, history and museum methods. Married Mary E. Roberts, 1940; one daughter, Jean. Joined the staff of the department in 1938 as museum assistant, later museum director. Served as staff ornithologist, National School of Wildlife Protection, McGregor, Iowa, 1939, and 1940. Author of "Waterfowl in Iowa," contributor to several books and author of many articles in the fields of history, natural history, and outdoor sports. Lecturer and wildlife photographer; recognized authority on many phases of Iowa history and natural history. Active as Boy Scout counselor, member of American Ornithologists' Union, Outdoor Writers' Association of America, and many other organizations in fields allied to science, wildlife, conservation and natural history; Episcopal Church; Masonic orders.

ANNALS OF IOWA is concerned with the quarterly publication of factual written matter pertinent to Iowa History. This division was founded over 100 years ago and has served well to preserve and publish items of historical value.

The Census Division is used to establish records of birth and genealogy and in many cases can provide the only records of birth and residence available to some citizens. The census records date back more than 100 years and are a very valuable source of historical information to genealogists and researchers.

The Historical Library contains a wealth of historical material in the form of grave records, county histories, genealogical reference books and history books pertaining to Iowa and its growth. This library collection consists of over 50,000 volumes and is considered to be the best source of historical and genealogical information in the Midwest. In addition, the manuscripts and papers of famous Iowans are catalogued and housed in the Historical Library.

The Newspaper Division also plays an important part in preserving history as it is written day by day. Daily and weekly papers from each of the 99 counties in Iowa are received, catalogued, and microfilmed. They then become part of the most complete newspaper collection in the Midwest. These publications provide an invaluable source of on-the-spot history to researchers and cover the development of Iowa from the earliest times.

The Museum Division provides the people of Iowa and visitors from other places a comprehensive look at the history of our state. Museum exhibits cover fully the story of Iowa told by rocks and fossils up to and including the Atomic Age. Here the people of Iowa can see how our state has developed from the primitive prairie state of yesterday into the progressive Iowa of today. The Iowa State Museum is an unrivaled and unique institution in which all Iowans can take pride; its doors are open every day of the year to welcome individuals or groups. School groups of all ages make use of the guide services, and lectures are provided to emphasize any phase of history or pre-history.

Museum displays encompass all facets of the history of our state. Displayed are tools, utensils, and implements used by Iowa pioneers to conquer the wilderness and make it productive. Pioneer transportation items range from ox wagons, stage coaches, and early automobiles to those of the airplane age. There is a fine collection of Kentucky rifles, both flintlock and percussion, as well as many other early firearms.

Progress in telephone communication is exemplified by a collection of telephone instruments that present the history of telephones in Iowa from first to latest.

The Indian history of Iowa is traced from the earliest cultures to modern times. Many ancient artifacts are on display along with an unexcelled collection of more recent Indian materials including beadwork, canoe and wickiup. The civil history displays include antique glassware, tools, household items, and artifacts used by pioneer Iowans in their pursuit of everyday living. These things help us to get a glimpse of life as it was in the past. War relics and souvenirs on display also help to depict the part that Iowa and Iowans have played in the military activities of past years.

The geology of Iowa is represented by rock samples, mineral specimens and fossils from every formation in the state, covering over a half billion years of geologic time. On display is an unrivaled exhibit of fossil starfish and crinoids from LeGrand, an area famous throughout the world for the fine specimens which have been obtained there.

The wildlife exhibits portray the bird and animal life of Iowa both past and present. As man encroaches further on the habitat of these animals and they come closer to extinction, displays such as these afford the only opportunity for the average person to view them. A set of bird study skins are also maintained for use by study groups and conservation organizations.

The use of the department's facilities by individuals, school and college groups is on the increase and the staff of the Department of History and Archives is always ready and able to aid the public in its quest for historical facts.

Iowa State Department of Public Instruction

(Mailing address, Grimes State Office Building)

Iowa State Board of Public Instruction

The Fifty-fifth General Assembly established the State Board of Public Instruction consisting of nine members—one member selected from each of eight congressional districts as they existed on Jan. 1, 1953; and one member appointed by the governor and confirmed by the senate—each serving a term of six years. The Sixty-first General Assembly made the following change in the selection of the eight members to the state board: each congressional district shall nominate two persons to fill vacancies as they occur on the state board; the governor shall then appoint one of the two nominated to serve on the state board.

The Sixty-second General Assembly amended the law again. It now reads as follows: The State Board of Public Instruction, hereinafter called the state board, shall consist of nine members who shall be appointed by the governor with the approval of two-thirds ($\frac{2}{3}$) of the members of the senate. Not more than five members shall be of the same political party.

MRS. VIRGIL E. SHEPARD, Allison	1970
MRS. EARL G. SIEVERS, Avoca	1972
DR. J. M. WALTER, Ames	1972

(Thomas Roe, Waukon, served from Jan. 2, 1968, to May 6, 1969.)

The state board is a policy-making body of lay people, with the same relationship to all the public schools in Iowa as that existing between the county board of education and the county school system, or the local board of education and the local district.

PAUL F. JOHNSTON, Des Moines, State Superintendent.

The state board is directed by statute to appoint the state superintendent every four years after Jan. 1, 1955, with the approval of two-thirds of the senate. The law provides for the appointment of not more than three assistant superintendents and employment of the professional staff and clerical personnel deemed necessary by the board to carry out its obligations.

The functions of the Iowa State Department of Public Instruction are classified into three categories: leadership, regulatory, and operational.

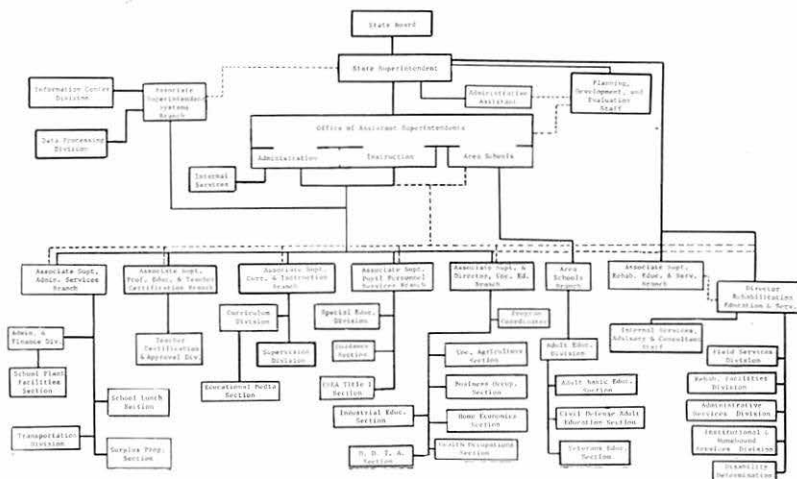

Educational leadership is the major purpose served by the State Department of Public Instruction. Although the department provides other services, they are all subservient to and intermeshed with the guidance of educational endeavors in the state of Iowa. Through its leadership, the state department helps to mobilize, unify, and coordinate all the positive forces concerned with education for the dedicated purpose of its improvement—and to give common direction to the efforts of all. Educational leadership strives to analyze the nature and future direction of education and to communicate with the public in this regard. This leadership may be exercised in (1) planning for each major area of service and in the overall comprehensive plan for the total state program for education; (2) research to assist in formulation of policy and evaluation of programs; (3) advisory services by persons specialized in certain phases of school operations; (4) coordination to promote unity and to encourage proper balance; (5) public relations to keep the public informed on educational needs and progress; and (6) in-service education to foster the continuing growth of all persons engaged in education in the state.

The regulatory function of the State Department of Public Instruction is aimed primarily at assuring that the basic provisions for education in the constitution are available to all children in the state and that state laws enacted to supplement and enrich those basic provisions are enforced. The state delegates broad authority to local school districts for the management and operation of educational programs; but, at the same time, the department has been charged with guaranteeing at least minimum performance, through regulations known as "standards," for Iowa schools. These standards are established by statute or by the department through the authority granted it by the statutes.

The operational function is carried out through (1) the services offered to local school districts because their scope, expense, or technical nature make them more easily offered on a broad base, and (2) centralized services to individuals, such as vocational rehabilitation.

The state superintendent is given the responsibility for coordinating the work in the department. In meeting this obligation, the department has been organized under three assistant superintendents—one for administration, one for instruction, and one for area schools. These assistant superintendents are directly responsible for the branches or divisions under their jurisdiction.

The accompanying chart shows the organizational structure of the department.

Information on State Fair

For over 100 years, the Iowa State Fair has been gaining steadily in size, prestige and public service. Today, it is nationally recognized as America's greatest agricultural and livestock fair. Situated in the heart of the world's wealthiest agricultural empire, it is the focal point each year for exhibitors of the finest livestock and farm products. In attendance, too, it stands in the front rank of the great educational and entertainment expositions on the North American continent.

The Iowa State Fair, the original "State Fair" of a best-selling novel and of two hit motion pictures, is held in Des Moines each year. It runs for 10 days in late August.

The livestock show, largest of its kind in America, attracts over 11,000 of the finest farm animals from 20 leading agricultural states. The 4-H and F.F.A. shows, state-wide congress of farm young people's organizations and their livestock and projects, add to the fame of the fair.

**FULK, Kenneth R., Secretary
Iowa State Fair Board**

Born April 29, 1916, on a farm south of Clarinda, Page County, Iowa. Son of Ed W. and Jennie Fulk. Graduated from Clarinda High School and Iowa State University with a B.S. degree in agriculture. Active in 4-H and Future Farmers of America. From 1939-1941 managed farms for Metropolitan Life Insurance Company. Sept. 29, 1941, enlisted in the U. S. marines, served on commanding general marine forces Solomons staff, was instructor marine corps officers school, Quantico, Va., now a major in the retired reserve. Following 1945, was Page County extension director, farmed in partnership with father and brothers, five years field representative, Iowa Beef Producers' Association, three years secretary of the American Shorthorn Association, two years livestock specialist for the marketing division, Iowa Department of Agriculture. Married Helen Shaffer of Clarinda in 1946; has five daughters: Sandra, Jennifer, Connie Sue, Bobbie Lou and Patricia. Member of the Presbyterian Church. Appointed Jan. 1, 1963.

Emphasis on the meatier strains of livestock, more suitable for consumer wants and needs is being increased at the Iowa State Fair. The fair continues to pioneer in the most advanced pork, lamb and beef carcass shows in the nation.

Over 250 companies and industries of Iowa display in the giant machinery and farm implement show. More specialized space is being added each year, such as travel village, Teen Town, Heritage Village, etc.

People are not forgotten at the Iowa State Fair—in fact, people make the fair. The fair is planned so everyone can become involved in an educational or worth-while activity. Individuals may express themselves by exhibiting photographs, works of art, culinary, gardening, needlework, flowers, pigeons, rabbits, poultry, participating in school science show, church exhibits, outdoor cookout contests and in many other ways.

From the huge State Fair grandstand, one of the finest amphitheaters in the nation, fairgoers witness a varied series of spectacles and events, including national championship auto races, midwest circuit horse races, thrill day, musical extravaganzas, fireworks and circus acts.

The first and second Iowa State Fairs were held in Fairfield, Iowa, in 1854 and 1855. From 1856 to 1879, the State Fair moved from city to city. It was held in Muscatine in 1856 and 1857; Oskaloosa, 1858 and 1859; Iowa City, 1860 and 1861; Dubuque, 1862 and 1863; Burlington, 1864-1866; Clinton, 1867 and 1868; Keokuk, 1869, 1870, 1874 and 1875; and Cedar Rapids, 1871, 1873 and 1876-1878.

In 1879 the State Fair moved to Des Moines to stay. In 1884 the legislature appropriated \$50,000 to purchase a state fairgrounds on condition that the City of Des Moines raise an equal amount for buildings and facilities. The city concurred, and Iowa thus became the second state in the northwest to acquire a permanent site for its fair.

In 1923 the general assembly changed the former method of fair administration by providing for an Iowa department of agriculture and a state fair board, and giving this board the duty of managing the fair and the custody of the fairgrounds. Now the fair board comprises one director from each congressional district, and three directors at large elected at the annual meeting in December of the state agricultural convention. Official delegates to the convention represent each of the 103

fairs in Iowa. There are three ex officio directors on the fair board and these include the governor, secretary of agriculture and president of Iowa State University. The president and vice president of the fair are elected by the board from the elected directors. The state fair board selects the secretary and the treasurer of the fair.

All operating expense, maintenance and other costs of the fair are paid out of fair receipts, except where the legislature may deem it advisable to make a special appropriation for such purposes.

Since 1902 the legislature has appropriated \$1,420,188 for the construction of permanent buildings on the fairgrounds, purchase of additional land and for necessary improvements. In recent years, however, the State Fair has used only its own revenues for these purposes. Altogether, since 1902, the fair itself has expended \$4,763,830 for maintenance and improvements from actual profits of the fair. One major building project financed by fair funds is the fireproof 4-H Girls' dormitory, which was formally opened and presented to the Girls' 4-H Club for their use at the 1950 Iowa State Fair. Another is the Radio and Television Center providing studios for programs originating on the grounds as well as established programs featuring well known announcers and entertainers. This building was built and in use in 1956. Premiums, amounting to over \$220,000 a year, are also provided by the fair for winners in exhibits and contests.

How the State Fair has grown during over 100 years of progress can best be shown by comparing statistics on the first fair of 1854 with the average figures for the 1968 fair:

	1854 Total	1968 Total
Acres of land	6 acres	378 acres

History and Development of the State Highway Commission

The Iowa State Highway Commission was created by the general assembly in 1904. The law empowered Iowa State College to act as the State Highway Commission. The state board of education appointed Dean Anson Marston of the engineering division and Dean Charles F. Curtiss of the agricultural department of Iowa State College to serve as directors of the commission.

The directors selected Thomas H. MacDonald to serve as secretary and engineer for the commission. The duties of the commission from 1904 to 1913 were to make investigations and studies of highway conditions, to provide information and advice to local road authorities, and to conduct annual road schools for county and township road officials.

In 1913, the Thirty-fifth General Assembly created a State Highway Commission separate from Iowa State College. It was composed of three members, the dean of engineering from the state college and one member from each major political party appointed by the Governor. T. H. MacDonald was named chief engineer of the commission, a post he held until he resigned in 1927 to become the nation's first chief of the U. S. Bureau of Public Roads.

Today, the highway commission operates under Chapter 307 of the 1962 Code of Iowa. Chapter 307 was adopted by the general assembly in 1927 and created a five-member highway commission all appointed by the Governor, with no more than three of whom could be from the same political party.

The 1927 reorganization of the highway commission also placed the primary road system under the direct control and supervision of the Iowa State Highway Commission. Throughout the succeeding years, the state has placed many more responsibilities with the commission. In 1956, the growing network of interstate and defense highways was begun in Iowa. The commission is also responsible for state park and institutional roads and for general supervision of the secondary and farm-to-market road systems.

Today, the more than 112,000 miles of public roads and streets are the lifelines of the state's economy and its society. The planning, engineering, and maintenance of these important arteries is the responsibility of the Iowa State Highway Commission, county boards of supervisors, and city councils.

Organization of the State Highway Commission

On December 1, 1966, a director of highways was named to the chief administrative position of the highway commission. To the director was delegated the responsibility for the administration of all policy determined by the commission.

A realignment of the commission's organization structure in 1967 and 1969 coordinated all administrative functions under six divisions,

namely Administrative, Finance, Planning, Support Services, Development and Operations.

An outline of the organization of the highway commission follows:

Outline of State Highway Commission Work

The State Highway Commission is responsible for the construction and maintenance of the primary highway system including institutional roads. Five highway commissioners, appointed by the Governor with the approval of the Senate, are responsible for all policy determination, allocation of resources, and approval of all programs and budgets.

The chief administrative officer, who is appointed by and responsible to the commission, is the director of highways. The director, through the divisions and departments of the organization, implements the policies and directives of the Commission.

Commission meetings, open to the public, are held every other Wednesday at the central offices in Ames. Commission members determine policy matters, confer with local and regional delegations or individuals, and award contracts for highway construction, purchase of materials and equipment used in highway work.

Major functions of the organization are to (1) maintain a current inventory of existing highway facilities, (2) project future highway needs and resources, (3) plan and design the necessary additional facilities, (4) construct new facilities as resources become available, (5) maintain highway facilities in a safe and well-kept condition for the traveling public, and (6) to construct and maintain toll bridges.

In addition to the commission's responsibility for the construction and maintenance of all primary roads, the statutes impose joint control with the 99 county boards of supervisors over construction on the farm-to-market system. The highway commission has no authority to originate projects on the farm-to-market system, but action by the counties is subject to commission approval. Iowa law also requires the commission to approve secondary road budgets, construction programs, and contracts for construction of roads and bridges, and advise secondary road officials on special road problems. The commission also provides engineering assistance to other state departments.

The highway commission's 65-year history is a continuing story of progress in providing better and safer roads to serve the state's urban and rural needs. Iowa's highways, roads and streets continue to be a vital factor in the healthy growth of its agricultural, industrial and commercial economy.

The Iowa State Highway Commission's constant goal is to build and maintain as fine a system of roads as is economically possible.

State Car Dispatcher

Frank E. Johnson, Des Moines, State Car Dispatcher.
 (East Seventh and Court Avenue, Des Moines)

Authority to assign all state-owned motor vehicles to state officers and employees, and state offices, departments, bureaus and commissions was vested in the governor by the Forty-eighth General Assembly, effective July 1, 1939. A state car dispatcher was appointed, and all cars were placed under control of this department. In 1941 the Forty-ninth General Assembly provided also for maintenance of all cars and trucks by the state car dispatcher. The costs of maintenance, plus administrative costs and depreciation, for each motor vehicle, are charged back to each department. Rules and regulations for this procedure were approved by the executive council. The car dispatcher department maintains a record of miles driven, cost per mile of each unit, and the overall operation cost.

In 1967 this department had 1,134 cars and 364 trucks, a total of 1,498 units.

The car dispatcher's office receives requests from the various departments desiring new units and with the approval of the executive council holds lettings, and purchases the new vehicles and sells the old vehicles by sealed bids. This office also approves and supervises all repairs to state vehicles and assists in settling insurance claims.

A complete stock of tires, batteries, anti-freeze, spark plugs and points for state vehicles is maintained at the state garage.

The car dispatcher's office operates under the jurisdiction of the governor's office. The state car dispatcher was appointed by the governor for an indefinite term and has a staff of 9, including office and garage personnel.

No member of the board shall be a practicing librarian; three members may be chosen from a list submitted by the Iowa Library Association; and one member may be from a list submitted by the superintendent of public instruction. Members are appointed for terms of five years.

The functions and duties of the Iowa State Traveling Library are those spelled out in the Iowa Code 303.16-303.23 for the *General State Library*. The role of the library is research, bibliographic service, the supplying of books and audio-visual materials—including maintenance of a country-wide inter-library loan service—as well as consultant service to all state officials, state departments and state employees, to state-wide organizations, state mental, correctional and welfare institutions, to individuals without public library service, to college and university libraries and the 450 public libraries in Iowa.

The Iowa State Traveling Library also has developed a broad and expanding specialized collection of books on Iowa and by Iowa authors, including manuscript, pamphlet and newspaper materials, and periodicals published in Iowa.

Serving as the official state library agency, the Iowa State Traveling Library administers the funds made available under the Federal Library Services and Construction Act. The funds are distributed to public libraries across the state through a system of cooperative areas.

Ten of these cooperatives are in full operation. Each has a central office located within its boundaries, staffed with professional librarians who give services of central ordering, processing, cataloging and consultation to member libraries in the area. These centers also act as clearing-houses for reference requests and inter-library loan requests.

In addition, in conjunction with the Board of Control, the Iowa State Traveling Library is accelerating its program of providing materials and better service to the libraries within all the state institutions.

Established by Governor Robert Lucas in 1839, the library has grown from 1600 volumes to over 300,000 volumes, phonodiscs and films. The Iowa State Traveling Library has seen tremendous growth during the last biennium and continues to seek out new ways to improve the program of state-wide extension and betterment of local libraries with the aid of the federal funds made available on a matching basis.

LEGISLATIVE OFFICERS FOR THE TERRITORY OF IOWA

Before Iowa was admitted as a state in 1846, the Senate of the territory was called the Legislative Council. The presiding officer was known as the President of the Council. Iowa's constitution, approved by a vote of the people in 1857, created the office of Lieutenant Governor and named him as the ex officio President of the Senate.

The 1838, 1839 and 1840 sessions were held at the territorial capital at Burlington. The 1841 through 1845 sessions were held at Iowa City. In 1855 the 5th General Assembly voted to change the location of the capital to Des Moines.

UNIVERSITY OF IOWA FOUNDATION

Director, Darrell D. Wyrick, B.S.Ch.E., M.S.

The University of Iowa was the first public institution of higher education founded by the state of Iowa. The date was Feb. 25, 1847, just fifty-nine days after Iowa had entered the federal union. The act which created the university was passed in the legislative chambers of Old Capitol, the first capitol building of the state and now the central administrative headquarters for the university.

In the early days, the university was devoted primarily to the education of teachers for the secondary schools of Iowa. Classes began in 1855 with a student body of nineteen and a faculty of three. From this small beginning, the university has developed into a complex liberal arts, graduate, and professional institution offering programs of teaching, research, and educational public service in almost every phase of human knowledge.

Throughout its history, the university has sought to reflect in its educational programs the same pioneering spirit which carried the early settlers westward. For example, it was the first state university to admit women students on an equal basis with men. It was an early leader in the general education movement, with its broad emphasis on the liberal arts. It pioneered in the idea that a novel, poem, or a painting could be as worthy of credit toward an advanced degree as the most scholarly piece of research. The University of Iowa School of Religion, a unique experiment in interfaith cooperation, was one of the first such departments founded at a tax-supported institution, and even today is the only such school to grant the Ph.D. in religion.

President Willard L. Boyd

Perhaps most significant of all, the university has shown a willingness to experiment in the "tailor-making" of curricula which cut across departmental barriers—traditionally low at Iowa. One result is the modern science of speech pathology and audiology, which originated at the university through just such cross-fertilization among several academic disciplines. Other examples include the significant and continuing contributions by university faculty to the study of child development in virtually all its aspects. The university's Institute of Child Behavior and Development, originally known as the Iowa Child Welfare Research Station, was the first organization of its kind to apply scientific principles on a comprehensive scale to the study of the normal child.

In all its programs, the university seeks to serve the people of Iowa, and hence, the nation. Graduates of the university—more than 100,000 since the opening of the first classes—have gone out to assume useful places in society, as educated and productive citizens. Currently more than 3,600 degrees are awarded each year, ranging from the baccalaureate to the most advanced degrees in many specialized areas of knowledge. University research in medicine, physics, psychology, zoology, and numerous other fields has advanced man's knowledge of himself and the world around him and has contributed, both directly and indirectly, to a better life for all of Iowa's citizens. The university's programs in art, music, drama, and creative writing, have done much to enrich the cultural life of Iowa and the Midwest.

Public Service

In addition, the university provides many direct services to the state. Through its Division of Extension and University Services, thousands of Iowans are reached each year by programs in adult education, correspondence study, the distribution of films and other educational materials, and the sponsorship of on-campus short courses, conferences, and institutes. University service agencies such as the Bureau of Business and Economic Research, the Center for Labor and Management, the Institute of Public Affairs, the Agricultural Law Center, the Institute of Agricultural Medicine, the Institute of Gerontology, and others are strongly oriented to Iowa's needs.

Annually, additional thousands of Iowans, regardless of means, receive the finest in medical treatment and care at the university's health center, operated as a service to the state and as a teaching and research arm of the university's Colleges of Medicine, Nursing, Pharmacy, and Dentistry as well as other health-related professions.

Although the university is large by most standards, it is of moderate size compared to many universities of its class, including most of its sister institutions in the Western or "Big Ten" Conference. And although growth has posed many problems, the university continues to preserve something of the atmosphere of a smaller college, while retaining the advantages of a large university. This is in keeping with the university's traditional concern for the individual human being and with its desire that education, far from being a form of mass communication, should remain an individual experience, fitted to the needs and aspirations of each student.

The University Today

Willard L. Boyd, Jr., who joined the university faculty in 1954, became the fifteenth president on September 1, 1969. A native of St. Paul, Minn., whose father was born and reared in Iowa, President Boyd earned two degrees in law at the University of Minnesota and two at the University of Michigan, including the Doctor of Juridical Science degree. For two years prior to joining The University of Iowa law faculty, President Boyd was associated with a Minneapolis law firm. In 1964 he was named associate dean of the College of Law and later that year became university Vice President for Academic Affairs and Dean of the Faculties. The member of several working committees of the American Bar Association and the Iowa Bar Association, he has been particularly active in matters of social, labor, and industrial legislation. President Boyd was the first chairman of the university's Committee on Human Rights.

The university is organized in ten colleges—Business Administration, Dentistry, Education, Engineering, Graduate, Law, Liberal Arts, Medicine, Nursing, and Pharmacy—which together comprise more than eighty departments and seven schools. The schools, all within the College of Liberal Arts, are Art, Journalism, Letters, Library Science, Music, Social Work, and Religion.

The University today continues to face the challenges of rapidly increasing enrollments, expanding knowledge in almost every field, and the ever-growing need of society for a great variety of complex services. The university's effort to meet these challenges is reflected in its total annual operating budget, including self-supporting activities such as dormitories, athletics and union facilities, which is now some \$145 million, as compared to about \$8 million less than thirty years ago. Receipts from federal government grants totaled \$18,141,000 during the fiscal period 1968-69. Non-federal gift and grants receipts for this period were \$2,086,000.

Enrollment

For more than a decade, the university's enrollment has been rising steadily, from a post-war low of 7,213 in 1952-53 to 19,506 in the fall of 1968-69. Even greater gains are expected in the next ten years, as a result of high birth rates following World War II. If present admissions policies are continued, an enrollment of 25,000 or more is forecast for the university by the mid-1970's.

Following is the annual record of enrollment at the university since 1952:

Year	Enrollment November 1	June to June on Campus of College Grade	All Types, Including Correspondence and Exclud- ing Conferences and Short Courses

Courses of Study

Normally, a minimum of four academic years of study is required for a baccalaureate degree from the Colleges of Business Administration, Engineering, Liberal Arts and Nursing. Five academic years are usually required in the College of Pharmacy. Programs can be somewhat lightened by attendance in summer sessions.

Seven years of study at the minimum, three in pre-professional and four in professional study, are required for a degree from the College of Dentistry. Law requires the baccalaureate degree, while at least seven years are necessary—three in pre-medical and four in medical study—for the degree of Doctor of Medicine. Graduate work in nursing is available through the Graduate College and the College of Nursing.

Advanced degrees from the Graduate College are earned under approved programs of study and research, with a minimum of one year required for a master's degree and three years at the graduate level for the doctorate.

The various courses of study, the fields of specializations and the degrees conferred at graduation are as follows:

BUSINESS ADMINISTRATION — Accounting, economics, financial management, financial economics, insurance, industrial relations, marketing, office management and business education, and general business majors lead to the degree of Bachelor of Business Administration. Graduate work through the Ph.D. is offered.

DENTISTRY—Four-year course, in addition to three years of pre-dental study in the College of Liberal Arts, leading to the degree Doctor of Dental Surgery. Graduate work leading to the degree of Master of Science from the Graduate College is available in many specialties. A course for the training of women in dental hygiene is offered.

EDUCATION—Courses for the professional preparation of undergraduate level teachers are integrated with the curricula of the College of Liberal Arts and Business Administration and lead to degrees in those colleges. Graduate programs for teachers, principals, supervisors, superintendents, directors of student teaching, and research and teaching positions in higher education lead to the M.A., M.A.T., Ed.S., and Ph.D. degrees in the Graduate College.

ENGINEERING—Chemical, civil, electrical, industrial and management, mechanics and hydraulics, and mechanical engineering leading to the degree of Bachelor of Science in the designated curriculum. The bachelor's degree can be attained in four years. In each curriculum certain specialized options may be elected: for example, hydraulic, environmental, or structural. Considerable emphasis is placed on graduate work leading to the Master of Science and Ph.D. degrees in environmental engineering and mechanics and hydraulics, as well as in the primary branches: chemical, civil, electrical, industrial and management, and mechanical.

LIBERAL ARTS—American civilization, anthropology, art, astronomy, biochemistry, botany, chemistry, child behavior and development, Chinese, classics, comparative literature, computer science, dental hygiene, economics, education, English, European literature and thought, French, general science, genetics, geography, geology, German, Greek, history, home economics, Italian, Japanese, journalism, Latin, linguistics, mathematics, medical technology, microbiology, museum training, music, nuclear medical technology, oriental studies, philosophy, physical education, physical therapy, physics, political science, Portuguese, psychology, recreation leadership, religion, Russian, social studies, social work, sociology, Spanish, speech and dramatic art, speech pathology and audiology, statistics, and zoology leading to the degrees bachelor of arts, Bachelor of Science, Bachelor of Music, Bachelor of Fine Arts and to advanced degrees through the doctorates.

Specialized courses in departments of botany, chemistry, general science, geography, earth science, home economics, physical education for men, physical education for women, recreation leadership, psychology, sociology, speech and hearing science, and zoology lead to the degree Bachelor of Science.

Students who select courses to prepare for dentistry and medicine may study pre-professional subjects in the College of Liberal Arts and then enter the professional college. If all specific requirements for the bachelor's degree are included in the pre-professional program and the first year of professional study is completed successfully, the student may receive a bachelor's degree from the College of Liberal Arts, since the college will give credit for one year of professional work in lieu of the fourth year necessary for a bachelor's degree.

The Campus

The University of Iowa campus is divided by the Iowa River, which cuts through limestone bluffs on either side. The east campus is dominated by Old Capitol, the west by the University Hospital tower. The campus contains nearly 1,350 acres and more than 60 major buildings.

The university's total investment in land, buildings, and equipment, as of June 30, 1968, was \$160,814,085. Over the years, state appropriations have accounted for approximately 49 percent of the total building funds. Earnings from self-financing facilities such as dormitories, union, and athletics have accounted for about 37 percent, and about 14 percent has come from gifts and grants.

Some of the major buildings completed or in progress during the 1967-69 biennium include: Art Building additions; Museum of Art; Hawkeye Court Apartments; Hospital Parking Ramp; Spence Psychology Laboratories; Music Building-Auditorium, Recreation Building; Physics Research Center II; Rienow Hall for Men II.

Buildings on which construction is imminent include the Basic Science Building; Dental Science Building; Library Addition III; Plant Physiology Building; Zoology Addition II; College of Nursing Building; Health Sciences Library.

A Center for the Arts

The region in which The University of Iowa is located produces half of all the earned doctoral degrees in the fine arts, with the U of I alone accounting for 11 percent of the national total. Since 1927, when the U of I School of Fine Arts was founded, the arts at Iowa increased steadily until, for example, a popular national magazine could write as early as the 1930's: "If you seek the foremost center of the artistic groundswell in the Mississippi Valley, you will find it at The University of Iowa." Today the university is generally considered to be unexcelled in its national influence on the fine arts, and its faculty is among the foremost in the world.

The first tangible signs of the latest giant stride by the university in the field of fine art came into full view and use in May, 1969, with the opening of a Museum of Art and two large additions to the Art Building. These new features of the scenic west bank of the Iowa River are the first in a long-range plan to bring together the teaching, performance, and exhibition facilities of the university in art, music, and drama.

The Museum of Art has an interesting albeit short history. The impetus for this structure came in 1962 with the gift to the university by a Cedar Rapids couple, Mr. and Mrs. Owen Elliott, of their million-dollar art collection, one of the finest privately owned collections of art works in the Midwest. In response to this gift, Iowans and others from across the nation gave more than \$1 million to build the museum.

In addition to providing a permanent home for the Elliott collection, the museum permits more frequent showing of the U of I's permanent collection, and makes possible more extensive exhibits from other parts

of the world. The building contains 39,000 square feet of floor space on four different levels, with a 100-seat auditorium below ground level. The major art work in the indoor sculpture court is a ten-foot-high sculpture by Pol Bury, noted Belgian sculptor. Architects were Harrison and Abramovitz, designers of the United Nations Headquarters building in New York City and other well-known buildings.

Under construction and scheduled for completion in 1971 is a single structure to house the School of Music and an all-university auditorium, the latter which has been named for the late Virgil M. Hancher, in whose long tenure as U of I president the impetus for the auditorium began. This building will present a gleaming white stone silhouette for more than a block along the placid river. With seating capacity of up to 2,500, Hancher Auditorium will give the university its first true auditorium—designed for acoustical perfection—for the many resident and visiting artists who perform each year on the campus.

The most extensive center of musical performance and teaching ever built in Iowa, the Music Building-Auditorium, is being financed from a combination of state appropriated funds, federal grants, and a student building fee. Total cost of the combined structure is some \$12,000,000. Max Abramovitz also designed this building as part of a unified plan of developing over a half-mile of Iowa River Bank into a center of art of national importance. To come later as financing is secured is an addition to the University Theatre into which all aspects of the university's program in speech and dramatic art can be concentrated.

The University as a Health Center

The University Health Center comprises the General Hospital; Children's Hospital, used primarily for orthopedic, dermatology, and rehabilitation; the State Psychopathic Hospital, the University Hospital School; and the State Tuberculosis Sanatorium at Oakdale, six miles from the main Health Center campus. Total capacity of the units is about 1,600 beds. Also located at the Health Center are the Iowa State Services for Crippled Children and the State Bacteriological (Hygienic) Laboratory, which provides services to agencies of state and local government, physicians, and others.

The University Health Center provides direct health services to the people of Iowa and opportunities for Iowa's young men and women to receive education in the health sciences. Operating within the framework of the general University organization, the Health Center is directed by the vice-president for medical affairs, the administrators of the hospitals, and the heads of clinical and basic science departments, who are professors in the College of Medicine. The health service units are supported by a combination of appropriated funds and fee earnings.

GENERAL AND CHILDREN'S HOSPITALS—Administered as a single unit, these two hospitals admit more than 30,000 patients annually. More than a quarter of a million outpatient visits are recorded each year and 15,000 operations are performed. Plans are proceeding for construction of a new eight-story structure near General Hospital to house an operating room suite, a diagnostic radiology section, outpatient clinics, and inpatient facilities with 480 beds.

STATE PSYCHOPATHIC HOSPITAL—About 500 patients are admitted annually to this hospital and the outpatient clinic registers more than 9,000 patient visits. Diagnostic services, treatment, and an educational program are also offered in a 25-bed Child Psychiatry Unit housed in a separate building.

UNIVERSITY HOSPITAL SCHOOL—This facility consists of a Rehabilitation Unit for Severely Handicapped Children, the Child Develop-

University of Iowa Campus at Iowa City

ment Clinic, a diagnostic unit for mentally retarded children; the Children's Research Unit; and the Pine School, an educational unit for mentally retarded children.

STATE SERVICES FOR CRIPPLED CHILDREN—The Hospital School also is headquarters for the Iowa State Services for Crippled Children, which annually conducts statewide field clinics providing diagnostic and evaluation services for some 6,000 children with chronic or crippling conditions.

STATE TUBERCULOSIS SANATORIUM—The University Health Center administers Oakdale Sanatorium, the state's treatment center for tuberculosis. Broadened service and research programs are being established on the Oakdale campus. Now functioning at Oakdale are a Biochemical Pharmacology and Toxicology Unit, an Accident Prevention Laboratory of the Institute of Agricultural Medicine, and an Alcoholism Treatment Unit. Also being established is a Comprehensive Evaluation and Rehabilitation Center.

STATE BACTERIOLOGICAL (HYGIENIC) LABORATORY—The laboratory provides field and diagnostic services and does research in the areas of communicable disease control; food, water, and milk sanitation; radiation and health physics; stream and air pollution; industrial hygiene; and pesticide analysis. The facility also provides consultation and improvement assistance to clinical laboratories in the state by providing training programs.

In its response to the changing needs and interest of the people of Iowa, Iowa State has developed into a distinguished broad-based university with special responsibilities in science and technology.

It had its origins in the "people's college" movement which came to Iowa with the first settlers.

That movement found expression March 22, 1858, when final approval was given the Seventh Iowa General Assembly's legislation chartering an "Iowa Agricultural College."

President W. Robert Parks

The college was to offer the kind of education provided for in the Morrill Land Grant Act signed by President Abraham Lincoln July 2, 1862.

The Morrill Act authorized the use of federal lands to endow in each state at least one college whose curriculum would include the traditional classical studies, but would emphasize subjects related to the nation's agricultural and industrial development.

Iowa, the first state to accept the terms of the Morrill Act, awarded its land grant to its new college at Ames.

Although hard times and the Civil War delayed the opening of the college until March 17, 1869, Iowa State was the first Land Grant college to open on a coeducational basis, and initially it offered two degrees, in agriculture and "mechanics."

From the mechanics course it began almost immediately to develop programs in the various branches of engineering. From the first home eco-

nomics course offered by a Land Grant institution, it developed one of the nation's first four state schools of home economics. From its early work in agriculture, it developed the nation's first state school of veterinary medicine.

The foundation for studies in those four areas—agriculture, engineering, home economics, and veterinary medicine—was a program of basic sciences whose strength was largely responsible for Iowa State's early national recognition.

Iowa State enrolled its first graduate student in 1872, awarded its first master's degree in 1877, and conferred the nation's first master's degree in engineering in 1879.

Experimental work was already underway at Iowa State when it opened.

In developing research in all its academic areas, Iowa State led the creation of a state-federal research program in agriculture, and established the nation's first college-based research programs in engineering and home economics.

Iowa State also pioneered the third facet of the Land Grant idea, public service. It was the first Land Grant school to conduct off-campus institutes, and in 1906 it organized the first of the nation's county cooperative extension systems.

Continuing to grow in scope and excellence as the times demanded, Iowa State in 1959 was designated by the Iowa General Assembly as Iowa State University of Science and Technology.

In defining the role of Iowa State in 1966, the State Board of Regents directed that the University would continue to maintain its distinguished programs in the physical, biological and social sciences and would also "maintain strong undergraduate programs in the liberal arts, and will offer such Master's and Ph.D. programs in this area as are justified to meet the needs of the state and to maintain the overall strength and desirable balance of the University. . . ."

Dr. William Robert Parks became the eleventh president of Iowa State in 1965. He holds the B.A. degree (1937) in political science from Berea College, the M.A. (1938) from the University of Kentucky, and the Ph.D. (1948) from the University of Wisconsin. He was a research director in the United States Bureau of Economics 1940-48 except for Navy duty of 30 months in World War II. He taught at Iowa State and at the University of Wisconsin before becoming dean of instruction at Iowa State in 1958 and vice president for academic affairs in 1961.

Academic Standards

In general, requirements for freshman unconditional admission to Iowa State are that the student be in the upper half of his high school graduating class, take the American College Training Program (ACT) tests, or the College Entrance Examination Board tests and present the credits necessary to meet requirements for the curriculum he has selected.

Students residing outside Iowa may be asked to meet higher standards.

Detailed regulations have been set forth by the Iowa Board of Regents.

The records of entering freshmen, including test results, show that Iowa State attracts students of unusually high caliber.

The Campus

Iowa State is noted for the beauty of its open, tree-shaded campus, a 1,000-acre area in which a "great central lawn" provides a park-like setting for the limestone buildings which face it. There are additional areas for research nearby, and others located throughout the state.

Iowa State University of Science and Technology at Ames

Enrollment

The University's enrollment is expected to continue to increase significantly because of the increasing percentage of high school graduates entering college.

Iowa State now enrolls nearly 20 percent of the students attending the 53 universities, colleges and junior colleges in Iowa.

The table below shows the total number of individuals enrolled in the various teaching programs of the University during a 12-months period in 1959 as compared with 1968:

For the fiscal year ended June 30	1959	1968
Agriculture	2,251	3,501
Engineering	3,042	3,364
Home Economics	1,647	3,079
Sciences and Humanities.....	2,358	5,582
Veterinary Medicine	261	284
Graduate College	1,904	4,241
Non-Collegiate Students	278	329
Extension Courses (off-campus)	4,931	13,107
Extension Conferences and Courses.....	19,252	26,118
Total.....	35,924	59,605

For the fall quarter, 1968 the number of students regularly enrolled in the University was:

College of Sciences and Humanities.....	5,226
College of Engineering.....	3,538
Graduate College	3,040
College of Agriculture.....	2,677
College of Home Economics.....	2,350
College of Education	820
College of Veterinary Medicine.....	285
Agricultural Engineering	147
Total.....	18,083

Iowa State opened a College of Education for the first time in the fall of 1968, although training of teachers was an important part of the mission of Iowa State from the very beginning. In the early part of the present century most such teacher education was in the vocational areas of agriculture, home economics and industrial education, but in more recent years Iowa State students have been teachers in the elementary grades and also have filled numerous positions at the secondary level in the basic sciences and in the humanities. The College of Education enables the University to continue this work in the most efficient manner.

Operating Budget

In the first year ending June 30, 1968, the Iowa State University expenditures for operation was approximately \$90 million. Of this total about 24 percent was for instruction, about 30 percent for research, about 6 percent for Extension services and a little more than 27 percent for self-supporting enterprises such as the operation of the residence hall system and stores. The remainder was for the physical plant, administration, library, equipment, general expenses, scholarships and fellowships.

State appropriations accounted for about 33 percent of the income for the year, gifts, grants and contracts for about 27 percent, and self-supporting enterprises 22 percent. Federal appropriations contributed a little more than 4 percent and student fees about 8.5 percent. The remainder came from sales and endowment income, organized activities and miscellaneous other income.

Physical Plant

As of June 30, 1968 a substantial number of building projects were either in the final planning stage, in progress or were recently completed. Less than one-third of the dollar total represented appropriations from the Iowa General Assembly. Student fees and charges were to finance a dozen projects involving new residence halls for men students, women students and married students and for the renovation of residence halls. Student fees also were scheduled to pay for a \$7.8 million coliseum now under construction. Other self-liquidating projects involved parking lots and services buildings. Private gifts financed a \$4.9 million auditorium which was scheduled to open in September, 1969. Federal funds substantially augmented state funds in the construction of a Library addition, a classroom and office building, an addition to the building housing the departments of economics and sociology, a computer laboratory and additional greenhouses. Federal funds were also assisting in planned construction of a science building addition, a new engineering building, and new facilities for veterinary medicine. Much of the remainder of the program involved equipment for new buildings, renovation of older buildings, additional steam generating capacity, utilities and utilities extensions, streets and street lighting, and planning funds, as well as the re-location of certain facilities which had to be moved in an expanding campus.

As of June 30, 1968 the value of the land, buildings and equipment of the University, based on acquisition cost was \$114,005,995. Affiliated organizations—Memorial Union, Alumni Association, Iowa State University Press and the United States Atomic Energy Commission—had a physical plant on campus totaling \$27,255,535. Thus, the value of facilities available for use by the University and affiliated organizations was \$141,261,520.

The Curricula

Iowa State now offers the following curricula, leading to the degree Bachelor of Science.

The Technical Institutes operate as an integral part of the University and include the Technical Agriculture Program, the Chemical Industries Technology Program, the Construction Technology Program, the Electronics Technology Program, the Mechanical Technology Program, and the Food Service Management Program. Each of these programs covers a period of two years of academic study and leads to the Associate diploma.

Cooperative programs by which a student alternates a period of academic study with a period of practical work in industry are available in some engineering curricula.

Inter-institutional programs are offered through the College of Home Economics where a student may complete two years of study in another institution and complete the final two years of study for the B.S. degree at Iowa State without the formality of transferring.

Dual degree programs allow students who complete their first three years at Iowa State in certain curricula and who satisfactorily complete the first year in a recognized medical, dental, veterinary medicine or law curriculum at another institution to be awarded the degree of Bachelor of Science from Iowa State.

Research and Service Agencies

THE IOWA AGRICULTURE AND HOME ECONOMICS EXPERIMENT STATION conducts research relating to agriculture at Ames, on a number of outlying farms, and in the fields of farmer-cooperators throughout the state.

THE IOWA ENGINEERING RESEARCH INSTITUTE conducts investigations aimed at the solution of engineering problems many of which relate directly to Iowa's industrial development.

THE SCIENCES AND HUMANITIES RESEARCH INSTITUTE has as its primary objective the encouragement of basic research in the sciences and humanities, the results of which can provide knowledge to aid in the solution of industrial, social and agricultural problems in Iowa.

THE HOME ECONOMICS RESEARCH INSTITUTE receives and administers gifts and grants for the support of research in home economics.

THE INDUSTRIAL RELATIONS INSTITUTE is coordinated with the Sciences and Humanities Research Institute to conduct research in industrial relations.

THE COMPUTATION CENTER provides an all-university computing service and a centralized facility for research and education in the computer sciences.

THE STATISTICAL LABORATORY is a research and service agency which conducts research in statistical theory and methodology, and promotes the use of sound statistical methods in University research.

THE INSTITUTE FOR ATOMIC RESEARCH administers the Ames Laboratory, a major research installation of the United States Atomic Energy Commission.

THE AMES LABORATORY OF THE ATOMIC ENERGY COMMISSION is a world center of rare-earths research. Most of its research staff members are also members of the University faculty.

THE VETERINARY MEDICAL RESEARCH COMMITTEE carries on cooperative research with other departments of the University, with emphasis on the diseases of greatest consequence to the livestock industry of Iowa.

THE WATER RESOURCES RESEARCH INSTITUTE encourages and supports research in all aspects of water resources.

THE CENTER FOR AGRICULTURAL AND ECONOMIC DEVELOPMENT is a world center for focusing research and education on correcting the inequities in human welfare arising from the technological revolution in agriculture and national economic growth.

UNIVERSITY EXTENSION was organized in 1966 as the central administrative office for the Cooperative Extension Service in Agriculture and Home Economics, Engineering Extension, the Center for Industrial Research and Service (CIRAS), and the office of Extension courses and conferences.

THE COOPERATIVE EXTENSION SERVICE IN AGRICULTURE AND HOME ECONOMICS has a field staff in every county in Iowa, and works with nearly 50,000 local volunteers in programs concerned with agricultural production, the conservation of natural resources, efficient marketing and distribution of farm-raised products, family living, 4-H Club work, youth development, community improvement, and resource development.

ENGINEERING EXTENSION conducts "refresher" or service courses in such areas as engineering management, firemanship, industrial electronics, custodial education, civil defense education, and engineering, and also administers the Iowa phase of the national Junior Engineering Technical Societies (JETS) program.

THE CENTER FOR INDUSTRIAL RESEARCH AND SERVICE (CIRAS) was established to coordinate Iowa's industrial needs with its resources, to assist with special problems confronting Iowa industry, and to publish information relating to Iowa's industrial climate and growth.

THE OFFICE OF EXTENSION COURSES AND CONFERENCES provides assistance in the initiation, planning, operation, and administration of continuing education programs and services offered by Iowa State University.

THE IOWA VETERINARY MEDICAL DIAGNOSTIC LABORATORY provides technical service to veterinarians and others within the state in the diagnosis of animal diseases.

THE VETERINARY MEDICAL CLINICS include medical, surgical, obstetrical and radiological clinics for large and small animals.

University of Northern Iowa (Formerly State College of Iowa)

Cedar Falls

The University of Northern Iowa was accorded status as one of Iowa's three state universities on July 1, 1967. The change in name from the State College of Iowa to the University of Northern Iowa was approved by the Sixty-second General Assembly on the recommendation of the State Board of Regents. The function of the university is described as follows:

"The University shall offer undergraduate and graduate courses of instruction, conduct research and provide extension and other public services in the areas of its competence to facilitate the social, cultural and economic development of Iowa. Its primary responsibility shall be to prepare teachers and other educational personnel for schools, colleges and universities and to carry out research and provide consultative and other services for the improvement of education throughout the state. In addition, it shall conduct programs of instruction, research and service in the liberal and vocational arts and sciences and offer such other educational programs as the State Board of Regents may from time to time approve."

The change to university status has resulted in (1) increasing attention to research and services and (2) major changes in the administrative organization of the institution. Ultimately, it will probably result in the offering of a broader curriculum and greater emphasis on graduate work.

Organization

Beginning July 1, 1968, the instructional departments were grouped into five colleges: Humanities and Fine Arts, Business and Behavioral Sciences, Natural Science, Education, and a Graduate College. Each of these is administered by a dean. Several instructional departments, such as science, which had become so large that they were difficult for one person to administer, are now split into separate disciplines, such as physics and earth science, chemistry, and biological science.

Enrollment and Staff

The University of Northern Iowa has grown in enrollment from 3,600 in the fall of 1960 to 9,076 in the fall of 1968. An enrollment of approximately 9,800 is projected for the fall of 1970, and a continued rise, at a somewhat slower rate, is anticipated during the next decade. The students are mostly residents of Iowa—less than 3 percent from other states or countries. About half of the full-time students live on campus in University-owned residence halls. About 54 percent of the students are women and some 13 percent of the students are

married. About one-third of the students are from farms and small towns, another third from towns of 2,000-8,000, and the remainder from larger cities. Over 80 percent plan careers in education and four out of five of these begin their teaching careers in the schools of Iowa. Approximately 60 percent of the graduates continue their education in graduate schools and many ultimately earn a doctor's degree.

The instructional and administrative staff numbers over 600 and the nonacademic staff about 600. The teaching faculty is composed of 29 percent instructors, 37 percent assistant professors, 16 percent associate professors, and 18 percent professors. About 34 percent of those who teach college-level classes have the doctor's degree.

The university campus school, the Malcolm Price Laboratory School, offers work from pre-school through the twelfth grade, and provides an excellent facility where the students in the teacher education program may observe and participate in classroom activities. The school is also a laboratory for research and experimentation in teaching techniques and materials.

History and Development

The institution had its origin in an act of the Sixteenth General Assembly creating the Iowa State Normal School, and instruction began on September 6, 1876, in the building formerly used as a state-supported orphanage for children of veterans of the Civil War. In 1904, the institution was authorized to grant the bachelor's degree and in 1909 the name of the institution was changed to the Iowa State Teachers College.

In the early years of the institution many of the students were not high school graduates nor did they plan to attend college four years. Many were on campus to prepare for the county examinations, successful completion of which led to a certificate to teach in the one-room rural schools. Others were enrolled in a one-year rural or a two-year curriculum. In the 1920's and 1930's women students made up 75 percent of the student body and nearly half of the students were on the two-year elementary curriculum. By 1960 the minimum requirement in Iowa for a certificate to begin to teach was completion of a four-year curriculum. And, by that date, the increasing salaries paid to public school teachers were attracting many more men into the profession. The enrollment of men students increased much more rapidly than women, resulting in an even division of men and women in the student body.

In 1952, graduate work leading to a master's degree was begun and in 1960 the institution was authorized to offer the second year of graduate work and the Specialist in Education degree. In 1961, the State Legislature broadened the function of the institution by permitting it to offer programs of instruction in the liberal and vocational arts and changed the name to State College of Iowa. In 1967 the name was changed to the University of Northern Iowa. Two degree programs were added in 1968—the Bachelor of Technology and the Specialist in Business Education.

(1) Undergraduate Education

Teacher education remains the primary function of the university and almost every course offered is one that is needed by teachers or school service personnel. The very nature of a good program for the preparation of teachers requires both breadth and depth in the instructional program and makes it feasible to offer a strong program in the liberal arts and sciences and certain curriculum in the vocational-technical areas. There are two basic differences between curricula in

teacher education and those in liberal arts and the vocational-technical areas, namely, the fact that the latter curricula: (1) do not require the work in professional education courses and student teaching needed for teacher certification, and (2) require only 124 semester hours for graduation instead of the 130 required on teacher education programs.

The university seeks to guarantee a reasonable breadth in each of its graduates by a common general education requirement. This amounts to approximately 42 percent of each four-week curriculum and consists of work in the humanities, social sciences, mathematics and science, psychology, physical education and communication skills. Most of the courses in this program are required of each student unless he can demonstrate adequate competency in the area.

Each student is required to develop an area of specialization, such as mathematics, business, music, physical education, etc., and this constitutes from one-fourth to nearly one-half of the four-year program.

For those in teacher education, a sequence of courses in professional education and a half-semester of full-time student teaching are required. This amounts to about 18 percent of the four-year program for those students who plan to teach in secondary schools, and 34 percent of the four-year program for those planning careers as elementary teachers.

In the fiscal year 1967-68, a total of 1,182 were awarded the bachelor's degree and approximately 80 percent of these were for students completing teacher education curricula.

The new Bachelor of Technology degree allows the student a choice of majoring in one of three areas: technical institute, trade and industrial education, or industrial technology. Each program requires at least one year of recent and significant technical or trade experience in industry in addition to the course work.

(2) Graduate Education

The university offers four graduate degrees: the Master of Arts, the Master of Arts in Education, the Specialist in Education, and the Specialist in Business Education. A cooperative doctoral program in educational administration is also available which may be started at the University of Northern Iowa and completed at the University of Iowa.

A number of curricula leading to the Master of Arts degree are available to provide graduate training for classroom teachers in the elementary and secondary schools and the junior colleges, or for those interested in additional education who do not plan to teach. The following curricula are available: art, biology, business, business education, chemistry, counseling, English, geography, history, industrial arts, mathematics, mathematics for elementary schools, music, physical education, physics, political science, school business management, science, social science, Spanish, speech, speech pathology, and teaching English as a foreign language. The program is highly flexible, the specific curriculum for each student being prescribed by the student's under-graduate background, his experience, and his future plans. There were 129 Master of Arts degrees awarded in the fiscal year 1967-68.

The Master of Arts in Education degree is awarded for the satisfactory completion of the graduate curricula in elementary education, school administration and supervision, student personnel services, special education, school business management, psychometry, educational psychology, educational media, and developmental and remedial reading. There were 63 Master of Arts in Education degrees awarded in fiscal year 1967-68.

The Specialist in Education degree requires a minimum of two years of graduate study and is designed for such specialists in the fields of education as school principals and superintendents, curriculum coordinators and consultants, educational and school psychologists, reading clinicians, school business managers, guidance counselors, supervisors of industrial arts, and professionals in the field of college student personnel services. The program is open to students who have the master's degree and at least one year of teaching experience.

The Specialist in Business Education degree program is designed to provide an advanced level of preparation for teachers, administrators, and supervisors of business education and for school business managers.

(3) Service Responsibilities

The university feels that it has a definite responsibility to assist school administrators and teachers throughout the state with instructional and administrative problems. To do this, many conferences are held on the campus each year; pamphlets, monographs, and books are published and distributed at cost; staff members serve as consultants at workshops and conferences; radio and television programs are broadcast each week; and extension classes and correspondence study are made available to teachers in service. The university owns and operates an FM-radio station, the equipment for which was purchased from funds donated by alumni and friends of UNI. The FM station is on the air four hours each of five days a week.

Most significant is the program of consultant services to the schools of the state. Under this program, staff members are relieved of their regular departmental duties for a semester and are scheduled to visit schools which have asked for assistance. In addition to the aid given to the school system, this program provides an excellent opportunity for members of the university staff to keep in touch with the public schools.

Increasingly, the institution has widened the area of the services to include business and industry. Several staff members in the field of distributive education devote their full time to consultant work and in-service education work with business people throughout the state. Workshops and conferences are organized for special business and industrial groups and special non-credit courses are offered for such people.

University of Northern Iowa Campus at Cedar Falls

Iowa Braille and Sight Saving School Vinton

Robert A. Hansen, Superintendent

The Iowa Braille and Sight Saving School was opened at Iowa City on April 5, 1853. Nine years later (August, 1862), the school was moved to its present location at Vinton.

The Iowa Braille and Sight Saving School is an educational institution which offers complete educational opportunity to visually handicapped boys and girls from kindergarten through high school.

The curriculum parallels that found in the best public schools for the fully sighted.

In addition to academic subjects, special emphasis is placed on music, industrial arts, physical education and instruction in orientation and mobility, including the use of the long cane for travel. After satisfactorily completing the four-year high school course, graduates may attend colleges or vocational schools or enter some field of employment. The records of those who have done so have been excellent.

Supported by appropriations made by the state legislature, the school is governed by the State Board of Regents. No charges are made for room, board, laundry, tuition and educational supplies. School is in session for a nine-month period, from late in August until late in May. All students go home for the three-month summer vacation as well as for the Thanksgiving, Christmas and Easter holidays. About fifty percent of the students go home each weekend throughout the school year. Parents are encouraged to visit the school as often as possible.

In September, 1943, a special instructional program was developed to meet the needs of pupils with partial vision, in addition to the already established program for blind children. Students in this program study large-type print instead of Braille and do their school work in classrooms especially equipped with excellent lighting, magnifiers, green chalk boards and other materials designed for the use of children with partial vision.

The purpose of the Iowa Braille and Sight Saving School is to prepare its boys and girls to take a contributory place in life. Parties, dances, bowling, swimming, wrestling, band, chorus, track, Scouting and skating are a few of the activities which add enrichment to the program.

The annual enrollment is about 160 students.

It is governed by the State Board of Regents. The school's educational program is designed to develop the whole child with a well-balanced program in academic, vocational, physical, and social education.

No charge is made to residents of Iowa for room, board, laundry, tuition, school supplies, and limited medical and dental care.

The Iowa School for the Deaf works closely with the state vocational rehabilitation division to help place students in industry, in college, and in advanced trade schools upon completion of the school's curriculum. In short, the Iowa School for the Deaf aims to prepare to the best of its ability, all the children entrusted to its care to live successfully, happily, and effectively in today's world.

BALEY, Dr. William M., Des Moines

Born St. Cloud, Minnesota, on June 27, 1923. Son of Corbett W. and Julia Baley. Attended Omaha Public Schools. Served in the U. S. Marine Corps 1942-1945. B.A., M.A., and Ph.D. Married Elaine Hainlin. Father of three children; Dixie, William D. and Barbara. Served as teacher and school administrator in the state before joining the staff of the State Department of Public Instruction in 1965. Member of various professional and fraternal organizations. Member of Presbyterian Church.

The first public community or junior college in Iowa was organized as a department of the public schools of Mason City, and began operations in September, 1918. It was established without legal sanction, as there was no law on the statute books at the time authorizing the organization of junior colleges as a part of the public school system.

Burlington Junior College was organized in 1920. From then on, the movement spread rapidly, until by 1930, 30 towns in Iowa had organized junior colleges as parts of their public school systems. The junior college movement in Iowa reached its crest in 1927, during which year nine were added to the list. After 1930, no more junior colleges were added until 1946, when Clinton Junior College was organized.

The first law authorizing the establishment of public junior colleges was enacted in 1927 by the Forty-second General Assembly. In recent years, as these colleges have extended their services more and more into the areas of terminal, technical and adult education, they have come to be looked upon as community institutions. Hence, in 1959 the Fifty-

eighth General Assembly amended the law to provide that these institutions could be designated as community colleges.

In 1949 the Fifty-third General Assembly first established a system of state aid of 25 cents per day of attendance for each junior college student carrying 12 or more semester hours of college work. In 1957 the Fifty-seventh General Assembly increased this amount to one dollar per day. State aid was increased by the Fifty-ninth General Assembly to \$1.50 per day for non-resident students.

The Iowa Sixty-first General Assembly in 1965 approved legislation permitting the development of a state-wide system of post-secondary educational institutions operated under the direction of the State Board of Public Instruction. These institutions were officially designated as area schools and were to be organized by merged areas which included two or more counties. The boards of education of county school systems were authorized to plan for the merger of county school systems, or parts thereof, to develop a merged area.

The merged areas were authorized to develop area schools as either area community colleges or area vocational schools. The statement of policy contained in the original enabling legislation and amended in 1967 by the Sixty-second General Assembly identified the following categories as appropriate educational opportunities and services to be provided by the area schools:

1. The first two years of college work including preprofessional education. (This does not apply to those merged areas that organized as area vocational schools.)
2. Vocational and technical training.
3. Programs for in-service training and retraining of workers.
4. Programs for high school completion for students of post-high school age.
5. Programs for all students of high school age who may best serve themselves by enrolling for vocational and technical training while also enrolled in a local high school, public or private.
6. Student personnel services.
7. Community services.
8. Vocational education for persons who have academic, socio-economic, or other handicaps which prevent succeeding in regular vocational education programs.
9. Training, retraining, and all necessary preparation for productive employment of all citizens.
10. Vocational and technical training for persons who are not enrolled in a high school and who have not completed high school.

The funding of the area schools was provided for through a combination of federal, state, and local funds and student tuitions. These funds include a local three-quarter mill levy on property within the merged area for operational funds and an additional three-quarter mill levy for the purchase of sites and construction of buildings. The levy for sites and construction must be approved by the voters in the merged area for a period not to exceed five years. General state aid is distributed to area schools on the basis of \$2.25 per day for the average daily enrollment of full-time students and the full-time equivalent of part-time students. The individual area school has the authority to establish tuition. Tuition for residents of Iowa, however, is not to exceed the lowest tuition rate per semester, or the equivalent, charged by one of the three state universities.

There are currently 15 area schools in operation. The merged areas of these 15 area schools include major portions of 92 of the 99 coun-

ties in Iowa. Eleven of the area schools have been organized as area community colleges and four have been organized as area vocational schools. All 15 area schools are approved by the State Board of Public Instruction and by the State Board of Regents.

As the area schools were organized, 15 of the 16 public junior and community colleges merged with the area schools. The one public college remaining outside the system of area schools is the Emmetsburg Community College in Emmetsburg.

Presidential Electors—1968

Iowa's Presidential electors met in the office of the Governor Dec. 16, 1968, and cast the nine votes of Iowa for Richard M. Nixon as President and Spiro T. Agnew as Vice President of the United States.

Iowa's nine electors were: Gilbert Ted Carson, Winthrop; Nelson Cornwall, Spencer; Verne A. Martin, Newton; Ben F. Jensen, Exira; John B. Walters, Cedar Rapids; George R. Stauffacher, Eldora; Paul R. Hade, Harcourt; Clarence F. Schmarje, Muscatine and James Klein, Lake Mills.

This vote was transmitted to the president of the United States Senate as required by the Constitution of the United States (see Amendment 12), and was counted, with the votes of the other states, at a joint session of the two houses of Congress.

The electors in the several states are chosen in such manner as the respective legislatures may direct. In Iowa they are nominated by the state conventions of the political parties. Their names do not, however, go on the ballot. The names on the ballot are those of the Presidential and Vice Presidential candidates.

History of Iowa

By William J. Petersen

Superintendent, the State Historical Society of Iowa and
Professor of Iowa History at the State University of Iowa

Long before the coming of the white man the ancestors of the Indian roamed the land that is now Iowa. Frequently referred to as Mound Builders, these shadowy inhabitants are best commemorated in the Effigy Mound National Park above McGregor. Dr. Charles K. Keyes, who served for 30 years as state archeologist, identified at least six different prehistoric cultures—the Algonkian, Hopewell, Oneota, Mill Creek, Effigy Mound, and Glenwood. The Algonkian culture was found over nine-tenths of Iowa, while the other five were more localized—the Hopewell, Oneota, and Mound Builders being largely in eastern Iowa, the Glenwood in southwest Iowa and the Mill Creek in northwest Iowa. Evidence of their presence in Iowa is recorded in village sites, cave and rock shelters, shell heaps, mounds, cemeteries, trails, spirit places, rock carvings and paintings, stone dams or fish traps, flint and hematite quarries, boulder effigies, caches, workshops, and enclosures.

The Indian who roamed Iowa in historic times knew little or nothing about these ancient people. Almost a score of tribes belonging to three different linguistic stocks have been associated with the Iowa country since the advent of the white man. The Ioway, Winnebago, Osage, Oto, Missouri, Omaha, Ponca, Sisseton, and Wahpeton were tribes belonging to the Dakota or Siouan Linguistic Stock or Family. They are commonly referred to as Plains Indians. Their bitter enemies were the Woodland or canoe people—members of the Sauk, Fox, Mascoutin, Illinois, Chippewa (Ojibway), Miami, Ottawa, and Potawatomi tribes. These were members of the Algonquian Linguistic Stock or Family. The Iroquoian stock is only remotely associated with Iowa, being mainly responsible for driving other tribes from the Michigan, Ohio, and Indiana area west of the Mississippi into Iowa.

The French in Iowa

The written history of Iowa began on June 17, 1673, when Joliet and Marquette and their five rugged voyageurs paddled out of the Wisconsin River and into the Mississippi opposite present-day McGregor. Eight days later, on June 25, Joliet and Marquette met the Illinois Indians near the mouth of the Iowa River. It was the first meeting between the white man and the Indians on Iowa soil.

The French lost no time in exploring the vast wilderness drained by the Mississippi and its tributaries. In 1680 LaSalle sent an expedition under Michel Aco to discover the headwaters of the Mississippi. Aco and his two companions, Father Hennepin and Antoine Auguel, were captured by the Sioux Indians above the mouth of the Wisconsin River but were later released and fled down the Mississippi. Another Frenchman, Nicholas Perrot, taught the Miami Indians how to mine lead in the Galena-Dubuque area and hunted buffalo with them in Iowa. Perrot was the first white man to meet and describe the Ioway Indians. Lahontan and LeSueur left records of their exploits, and William DesLisle drew an amazingly accurate map of Louisiana in 1718 showing the first river-to-river road across Iowa from the mouth of the Wisconsin to the Big Sioux River. DesLisle located Ioway Indian villages on Lake Okoboji and the Big Sioux. The expedition of Joseph Des Noyelles with 80 French soldiers and their Indian allies against the Sauk and Fox Indians ended in a pitched battle at the Raccoon Fork of the Des Moines on April 19, 1735.

Spain in Iowa . . .

The Spanish Period covers a scant four decades from 1762 to 1800. Jonathan Carver and Peter Pond, two Connecticut Yankees who visited northeast Iowa in 1766 and 1773 respectively, were the first to appear during the Spanish regime. Jean Marie Cardinal mined lead in the Dubuque area during the Revolutionary War and actually lost his life in the defense of St. Louis. Thereafter, Spain assumed control and made three land grants in Iowa—to Julien Dubuque in 1796, to Louis Honore Tesson in 1799, and to Basil Giard in 1800. Dubuque was the only permanent settler in the Spanish Period, living at the mouth of Catfish Creek from 1788 until his death in 1810.

Louisiana Purchase

In 1800 Spain retroceded the land west of the Mississippi to France. Napoleon in turn sold it to Jefferson in 1803. One hundred and thirty years had passed under French and Spanish rule since the discovery of Iowa by Joliet and Marquette, but a scant score of names are remembered in history. On March 26, 1804, Congress provided for the government of the newly acquired territory by dividing it into two separate jurisdictions—the Territory of Orleans and the District of Louisiana. The Iowa country formed a part of the District of Louisiana, which was placed under the jurisdiction of the Governor and Judges of the Territory of Indiana. In 1805 Iowa became a part of the Territory of Louisiana, in 1812 it was a part of Missouri Territory, and in 1821, when Missouri was admitted into the Union, Iowa was left unorganized territory without government of any kind.

Exploration of the Iowa country promptly followed the Louisiana Purchase. Lewis and Clark ascended the Missouri in 1804, requiring 33 days to pass along the western border of Iowa. Sergeant Charles Floyd, the only man to die on this expedition, was buried on the present site of Sioux City. In 1805 Pike ascended the Upper Mississippi, recommending the present site of Burlington and the bluff below McGregor as suitable locations for military posts. Other notable Americans explored Iowaland: Stephen H. Long, Henry R. Schoolcraft, and Stephen Watts Kearny were outstanding military men. Manuel Lisa was a Missouri River fur trader, while George Catlin spent eight years painting pictures of Indians on the Upper Mississippi and Missouri frontier. Caleb Atwater, G. C. Beltrami, Nicollet, Father DeSmet, Marryat, Murray, and Fredrika Bremer left eye-witness accounts of Iowaland more than a century ago. As a result of Kearny's Dragoon expedition of 1835, Lieutenant Albert Miller Lea wrote his *Notes on the Wisconsin Territory: Particularly with Reference to the Iowa District or Black Hawk Purchase*. Published in Philadelphia in 1836, this was the first book dealing specifically with Iowa. In the years that followed, John Plumbé, Jr., Isaac Galland, John B. Newhall and a dozen others published books that focused the attention of millions on Iowa.

Forts in Iowa . . .

The presence of the Indian and the fur trader led to the establishment of forts in the Iowa country. Fort Madison, the first American fort in Iowa, was erected in 1808 and evacuated and burned in 1813. Fort Edwards, located opposite the mouth of the Des Moines River, was erected in 1815. Fort Armstrong was erected on Rock Island in 1816, and Fort Crawford at Prairie du Chien the same year. Fort Des Moines No. 1 was built on the present site of Montrose by Colonel Kearny in 1834. Fort Atkinson, Fort Dodge, Fort Des Moines No. 2, Fort Sanford, and Fort Crogan are other military establishments associated with early Iowa history.

The *Western Engineer* made the first steamboat voyage up the Missouri as far as present-day Council Bluffs in 1819, while the *Virginia*

ascended the Mississippi to Fort Snelling in 1823. Ten years later, on June 1, 1833, permanent settlement began in Iowa. Iowa was attached to Michigan Territory for purposes of government in 1834, and formed a part of the newly-created Wisconsin Territory in 1836. The first federal census showed 10,531 inhabitants in the Black Hawk Purchase that year.

Iowa As a Territory

On July 4, 1838, the Territory of Iowa was born, with Robert Lucas serving as first governor. The territory was named by Albert M. Lea in 1836 from the Iowa River, which derived its title from the Ioway Indians. Twenty-two counties containing 23,242 inhabitants had been established west of the Mississippi in the Black Hawk Purchase and other Indian cessions in 1838. Between 1833 and 1838, churches were founded, schools, academies, and seminaries established, newspapers published, and a bank opened. The first public surveys were begun in 1837, and two land offices established the following year at Burlington and Dubuque.

Statehood!

Scarcely had the Territory of Iowa been established when a clamor arose for statehood. In 1844 a constitution was adopted featuring low salaries, limited indebtedness and restrictions on banks and corporations. Congress refused to accept the boundaries requested by the people in 1844, and they in turn rejected those proposed by Congress. A new constitution with the present-day boundaries (embracing 56,147 square miles) was adopted in 1846. Iowa was admitted into the Union as the first free state in the Louisiana Purchase on Dec. 28, 1846.

Politics . . .

Democrats dominated state politics between 1846 and 1854. Ansel Briggs was elected first governor, and A. C. Dodge and George W. Jones were named United States senators. A steady flow of northern immigrants during the 1850's, coupled with the successful campaign of dynamic James W. Grimes in 1854, swept the Whigs into office. Two years later Grimes founded the Republican Party in Iowa. Subsequently Dodge and Jones were defeated, the Constitution of 1857 was adopted, and the capital moved from Iowa City to Des Moines. Ralph P. Lowe became the first Republican governor in 1858. Only five Democrats—Horace Boies (1890-94), Clyde Herring (1933-37), Nelson Kraschel (1937-1939), Herschel Loveless (1957-1961), and Harold E. Hughes (1963-1969)—have served as governors in the intervening one hundred years that were marked largely by Republican chief executives.

The names of many Iowans are written boldly in the annals of the Republican party. James W. Grimes, James Harlan, Samuel J. Kirkwood, William Boyd Allison, Jonathan P. Dolliver, and Albert B. Cummins achieved high distinction in their day. Allison served 36 years in the United States Senate. Among the Representatives the names of C. C. Dowell, Gilbert N. Haugen, J. A. T. Hull, William P. Hepburn, and David B. Henderson loom large. In addition to these legislators, Iowans have achieved high rank in the councils of the nation: 15 have served in presidents' cabinets, Henry A. Wallace was elected vice president, and Herbert Hoover gained the presidency.

Although Republicans dominated state politics, there have been occasional revolts. These revolts have come mainly from the tillers of the soil. Iowa is an agricultural state. Farmers drew up the constitution of 1846, formed the first agricultural societies in 1852, held the first state fair in 1854, formed an agricultural college in 1858, and established in 1877 a society that grew into the Iowa state dairy association. When hard times came, however, thousands of Iowa farmers deserted the

Republican party to support third-party movements. James B. Weaver was twice nominated for the presidency and the Granger and Populist movements won strong support.

Iowa and War

The settlement of Iowa grew out of the Black Hawk War. Iowa men fought gallantly in the Mexican War. Such names as Buena Vista, Butler, Cerro Gordo, Guthrie, Hardin, Mills, Palo Alto, Ringgold, and Taylor commemorate famous men and battles.

Iowa furnished almost 80,000 men in the Civil War. Her troops were especially prominent in such battles as Wilson's Creek, Pea Ridge, Shiloh, Iuka, Corinth, the siege of Vicksburg, the capture of Fort Donelson, and Sherman's march to the sea. Over 12,000 Iowa men were killed, 9,000 wounded, and another 10,000 discharged because of ill-health.

Iowa men served with equal distinction in the Spanish-American War, World War I, World War II, and the Korean conflict. Veterans from these wars have played an important role in state and local politics. At its peak, the G.A.R. counted 20,324 members, whereas the American Legion numbered over 44,000 members before World War II.

Transportation—Communication

Steamboats plied the Upper Mississippi and the Missouri before the opening of white settlement in 1833. In 1848 the telegraph reached Iowa; in 1854 the first railroad reached the Mississippi opposite Davenport; in 1856 the first bridge spanned the Father of Waters between Rock Island and Davenport. The North Western was the first railroad to reach Council Bluffs, the first bridge to span the Missouri was built at that point. Railroad mileage reached its peak in 1914 with over 10,000 miles of track in Iowa.

Telephone construction in Iowa began about 1878. Today almost every farm in Iowa can boast a telephone. The introduction of the automobile around the opening of the 20th century was followed by actual horseless carriage manufacture in Iowa.

Religion and Education

The first church in Iowa was erected by the Methodists at Dubuque in 1834. By 1838 the Baptists, Congregationalists, Quakers, Presbyterians, and Roman Catholics had established churches. Inspired Christian leaders are associated with the Iowa story, many notable names being associated with the numerous academies, seminaries, and colleges that dotted the state during the 19th century. Iowa Wesleyan College, established in 1842, is the oldest collegiate institution in Iowa, and Grinnell College is the second oldest college. A score of other denominational schools supported by church-going citizens who have often expressed their faith in the temperance movement and moral crusades, attest Iowa's claim to the title of "Corn and Bible Commonwealth." In addition to denominational colleges, the State University of Iowa at Iowa City, Iowa State University at Ames, the University of Northern Iowa at Cedar Falls, and 16 public junior colleges afford Iowa children an opportunity to receive collegiate training.

Iowa's richest asset over the years has been its crop of fine children. These have grown and achieved fame as artists and actors, baseball players and billiard players, musicians and novelists, architects and industrialists, preachers and poets, statemen, scientists and scholars. Whether serving in their home town, their state, in the nation, or in some far-flung corner of the world, these sons and daughters of Iowa demonstrate by their actions and accomplishments the truth of Sidney Foster's toast to his native state in 1886: "In all that is good, Iowa affords the best."

The Indians in Iowa

The Mesquakie Indians who are residents and voters in Iowa number around 500. Iowa was for many years the cherished home of their ancestors and friends.

They own, as a tribe or family, 3,600 acres of land in the Iowa River valley in Tama County. This is their collective farm, bought by them with their own money, managed and cultivated by them, on which they live, where they study and have their religious services. The State of Iowa many years ago by law gave them authority to own tribal land and property and the title is held in trust for them. They pay taxes and those qualified are voters.

They have a genuine democratic government for themselves, elect a council of managers, and the council has a chief or president. They have a school and all of the younger people can write the English language. Some of the older ones have never learned other than their own language, which is used by all of them.

The Mesquakie tribe is of the Algonquin family. They formerly lived on the Atlantic coast, then moved westward through New York and Canada and in Wisconsin in the early fur trading days, they formed a federation with their kinsmen, the Sacs, or Saukies. The Mesquakies were called by the traders Reynards or Foxes and their name means the "people of the red earth." A century ago they lived in several camps along the Mississippi River, then moved into the Des Moines valley, followed the agency and army to Raccoon forks, and departed from Des Moines when Iowa was admitted as a state.

Some of the Mesquakies so loved their homes in Iowa that they gave up their government payments and returned from their southwestern reservations. The state gave them permission to live in Iowa as a tribe, and with money received in settlement with the government they bought their present lands.

On their Tama County farm they live in comfortable houses and dress, in the main, as their white neighbors. Formerly the head men resisted efforts at educating the young, but now they go to school and are apt scholars. They keep their wickiups, not to live in, but for their visits and ceremonies. They also have one large tribal hall in which they hold their religious ceremonies regularly, several services each week conducted in their own language by their own leaders and preserving their own forms of worship.

They are quite skillful in various industries—weaving, basket making, bead work and in leather. One-third of the land is cultivated but the remainder is largely rough pasture land. The tribe has a tractor, but uses horses for farm work. They raise cattle, hogs and chickens.

Iowa in the Civil War

By Edith Wasson McElroy, Executive Secretary
Iowa Civil War Centennial Commission

Introduction

To serve in defense of one's country is the ultimate affirmation of citizenship. In all of our national wars, Iowans have served with valor, accepting without question the hardships of battle and the dangers, but never have Iowans served with greater dedication to our national principles than in the war between the north and the south which was fought to maintain the fundamental precepts of our country's founding.

It is therefore appropriate that during the centennial commemoration of the Civil War, Iowans should give mature thought to that war's significance in the shaping of our lives and ponder the contribution of those men and women who "gave the last full measure of devotion" that our form of government might survive.

One hundred years ago more than seventy-five thousand Iowans died that our democratic institutions might endure. The most profound recognition of that sacrifice that we can accord this centennial commemoration is to solemnly dedicate our lives to a continuing protection of the institutions for which these men died, and to bring to our problems today, the same loyal dedication which they brought to the overwhelming task which confronted them.

To further this objective, the Sixtieth General Assembly directed that a digest of Iowa during the years of 1861 to 1865 be prepared by the Iowa Civil War Centennial Commission and included in the *Iowa Official Register*.

Senator JOSEPH B. FLATT,
Chairman

Iowa had not yet celebrated its fifteenth year of statehood when the Civil War began. The state's population centered along the Mississippi River and across the southern and central areas of the state.

Maj. Gen.
Samuel B. Curtis

In the census of 1860, one county (Osceola) did not report a single inhabitant. O'Brien listed eight. Of a total population of 675,000, 116,000 men were subject to military duty. Percentagewise, Iowa contributed more men to the Civil War military services than did any other state, north or south. More than 75,000 volunteers were sent to the armed forces, over one-sixth of whom were in their graves before Appomattox.

Forty-eight infantry regiments, nine cavalry regiments, and four batteries of artillery were organized during the four years of fighting. Almost one-half of the eligible male population in Iowa bore arms, a record that has never been exceeded in any war since.

Iowa had four major generals—Dodge, Curtis, Steele, Herron, and a long list of brigadier generals. Many Iowa generals went on to state and national prominence following the war.

Our troops at Wilson's Creek in Missouri, Pea Ridge in Arkansas, Forts Henry and Donelson, Shiloh, Chattanooga, Chickamauga,

Missionary Ridge and Rossville Gap. They were at Vicksburg, Iuka and Corinth. They were with the Army of the Potomac in Virginia and fought under Sheridan in the Shenandoah Valley. They were buried at Andersonville. They marched on General Banks' ill-starred expedition to the Red River. They marched and countermarched, skirmished and fought across every southern state.

Twenty-seven Iowans won the Congressional Medal of Honor first awarded in the Civil War.

Few Iowa soldiers were native born. They came from Pennsylvania and New England, New York, Ohio and Indiana. Small southern farmers unable to compete with the great slaveholders followed the Mississippi River to Iowa and their sons wore the Union blue. Many soldiers were immigrants from foreign lands. Scarcely a state or a nation but was represented on Iowa's Civil War roster.

Iowa's First War Governor

Samuel Kirkwood came to Iowa in 1854. The son of a Maryland farmer, he lived in a log cabin pre-dating the Revolution until he was ten years old. He was then sent to Washington to school. When he was twenty years old, the family moved west, traveling by covered wagon to Ohio. In 1956 Kirkwood was a delegate to the convention which organized the new Republican party in Iowa and from that time on his name was prominent in party circles.

Gov. Samuel J. Kirkwood

Difficulties beyond those confronting any other Iowa governor awaited Kirkwood when he journeyed in an old Concord stage, wallowing through snowdrifts to Iowa's new capitol. Des Moines in 1860 was a shabby frontier town of less than 3,000 inhabitants. The new statehouse was more than a mile from hotels, with streets little more than wagon tracks through the swampy river bottom leading up to it. The new governor had no aides, no staff, not even a private secretary. Typewriters were unknown. With the help of friends who volunteered their services, Kirkwood answered by hand the voluminous correspondence that came to his desk.

When the tidal wave of war rolled over the state, Kirkwood was faced with providing equipment and supplies for the thousands of volunteers who poured into the crude camps. In May, 1861, the general assembly voted \$800,000 worth of bonds, a tremendous sum for those days. Selling the bonds was not so easy. The state was in debt. Taxes were delinquent. The people were impoverished by the debacle of the late fifties. To buy guns, the governor pledged his personal resources. With no guarantee of repayment, the state's banks came to his aid. Private citizens loaned thousands of dollars. Railroads carried soldiers without cost. Farmers gave food. The communities uniformed their companies. Democrats forgetting party animosities joined with Republicans in advancing the Union cause. Southern sympathizers were silent. Newspapers wrote of little else than the war. Ministers preached that to serve the state was to serve the Lord. And by the thousands Iowa's young men volunteered.

When Governor Kirkwood visited President-elect Lincoln in Springfield and told him, "Iowa will not be frightened into abandoning its principles," he spoke truly. Iowa was excited by the unhappy state of the Union, but would never consent to its dissolution. Dissenters existed but they were an impotent minority.

On President Lincoln's first call for volunteers, the state's quota of ten companies was mustered six days before the official date. The second call was filled so promptly that the Second Regiment preceded the First into the field by a day.

The Mississippi River was the great thoroughway to the south down which Iowa's troops moved by river packet. Naturally the first camps sprang up along its banks. Communications throughout the state were slow and centralization of training centers was imperative. From three to five days were required for a letter to reach Des Moines from Keokuk. Papers of the Burlington *Hawk-Eye* were carried from Eddyville to Des Moines, a distance of 75 miles, by "pony express."

Volunteers were abundant, but not guns. April 29, 1861, Kirkwood wrote to the secretary of war in Washington: "For God's sake send us arms. I ask for nothing but arms and ammunition—we have the men to use them. Three regiments are waiting and five thousand guns are required at once." Meanwhile the men drilled with brooms. At Shiloh

Iowa regiments marched from river boat to battlefield to load their guns for the first time under enemy fire.

The first camps were bleak and crude, with little thought of sanitation or physical comfort. As the war dragged on some camps took on permanence with rude buildings of rough boards. Other camps were rows of tents, which vanished when the troops marched out, to bloom again when a new contingent arrived.

Old Spring house at Camp Harlan. Soldiers' initials whittled in its stone walls are plainly visible.

Military Organization

The regiment was the unit of command, its colonel named by the governor. Despite the political overtone, the average ability of officers was high. Mistakes in their selection were made, but in the field the unit officer soon disappeared. A certificate of sobriety was required by the governor from all elected officers; even so, drunkenness as well as incompetency occurred. Permitting the men to elect their officers was not always successful from a military viewpoint. It did have one noteworthy advantage; the elected officer had the respect and liking of his men, important in the civilian army. Few field or staff officers had previous military experience. The Civil War officer learned his trade on the march and on the battlefield. The majority of the officers, high and low, were community and state leaders before the war. They were sincere and honest men fighting for a cause in which they believed.

As was that of the governor, the adjutant general's office was overwhelmed. Soon after Bull Run, Kirkwood appointed Nathan B. Baker to the post. Baker was no tyro in executive matters. A graduate of Harvard, he studied law in the office of Franklin Pierce. In New Hampshire, his native state, he served as a journalist, clerk of the court,

member of the legislature, twice speaker of the house, and finally governor.

Kirkwood and Baker were a strong team. Both men were high level executives with deep concern for Iowa's troops. Arbitrary rules, mistreatment, arrogance, brought quick and vigorous attention from the governor and adjutant general. So efficient was Baker's conduct of his office, that it was cited by the War Department as the ideal for that of adjutant general.

Internal Dissension

While as a state Iowa stood staunchly by the Union, it has its internal dissension. Many Iowans had a southern background and accepted slavery and a state's right to secede. The *Peace* (Copperheads as they were often called) Democrats as differentiated from the *War* Democrats who supported the war effort, and the Knights of the Golden Circle worked against the state and national administration's program. The Knight opposed the draft, encouraged desertion, discouraged volunteering. Organized in many sections of the state, they were said to number 42,000 in all. Refugee Confederate soldiers and paid agents fomented the disaffection. The so-called Mahony wing of the Democratic Party was in outspoken opposition. With so many Union supporters at the front, this boring from within became an increasing danger.

In South English, Peace Democrats paraded through the town challenging townspeople gathered in a Republican convention. A shot was fired which led to others. Tally, their leader, was killed. Rumors flashed that several thousand armed men were readying an attack on the town.

Governor Kirkwood ordered eleven companies of Home Guard to the scene and hurried there himself. Faced with armed resistance, the Tally enthusiasts lost their thirst for revenge and disbanded.

While history records no Civil War battle on Iowa soil, invasion from slave-owning Missouri was a constant threat, as were the warlike Sioux to the northwest. Log stockades to protect the women and children were built from Chain of Lakes in Emmet County to Sioux City. The legislature authorized the formation of the Border Brigade which brought further security to the scattered settlers.

News of the Union defeat at Bull Run brought rejoicing to Missouri secessionists, and new fear of an invasion to Iowa's southern border counties. Citizens slept with guns at hand and Governor Kirkwood authorized the organizing of militia in southeastern Iowa.

When word came on Sunday, Aug. 4, 1861, that a Confederate band, the number varying from 500 to 1,500, was approaching Athens, Missouri, across the Des Moines River from Croton, Capt. David Moore with Belknap's Rifles and Capt. Sample's cavalry (on foot) set out from Keokuk to meet the enemy. Detachments from the Fifth and Sixth Infantry in camp at Burlington, as many as could be armed, arrived too late. The battle was over and the enemy in retreat. As the rebels were mounted, a forced march into Missouri was unable to overtake them. Two landmarks of that day still stand—the Benning House on the Missouri side of the river, its wall punctured by a cannon ball, and the Sprouse House on the Iowa side where the wounded were cared for.

In southwestern Iowa, the first companies

Col. James B. Weaver

to reach the rendezvous of the Fourth Iowa Regiment were hurried from Council Bluffs under Colonel Dodge to repel a threatened Confederate invasion in that area.

The final raid into Iowa was by Missouri guerillas in 1864. A dozen young men rode boldly into Davis County, robbing, murdering and looting. Bloomfield's county fair was in progress and a posse quickly formed. Under Col. James Weaver they rode out only to find the raiders had fled across the border.

The Underground Railroad

Iowa had many stations on the underground railroad, an organization of men and women, many of them Quakers, who actively assisted runaway slaves to reach Canada and freedom.

Many of these stations still stand. In barns, houses, cellars, devoted men and women found a few hours of security and rest for the fleeing Negroes. One of the best known is Salem in Henry County. Its settlers were predominantly Quakers who at risk of life and property befriended the black men. Armed Missourians with baying bloodhounds often rode

close on the escaping slaves.irate slave owners threatened to shoot or hang those helping the Negroes, and to burn their buildings.

Ruel Daggs, a fire-eating Missouri planter, lost many slaves by the Salem route and was particularly violent in his threats. Once he had a cannon planted in front of the Lewelling

Map showing the routes traveled from the South by escaped slaves to Salem, Iowa, and the routes on the "Underground Railroad" traveled North and East to freedom. Salem, Iowa, was the main "Office" on this carefully organized escape route set up by Quakers.

Stone House where he claimed his slaves were hidden. Another time he roared into town with a small army proposing to destroy the village. The unperturbed Quakers refused to be scared. Later Daggs brought suit against Elihu Frazer and eighteen others for \$10,000 for the part they played in the loss of his "chattels." He valued his men slaves at \$2,000 each; women at \$1,000 each and children at \$500 each. The number lost totaled \$9,000, so he added \$1,000 to pay for help hired to replace the missing slaves. He had, he set forth, "casually lost possession" of his slaves and traced them to Salem where the defendants helped them to escape. He won a jury verdict on Sept. 19, 1850, but the records do not show its nature.

John Brown, the noted abolitionist, had many friends in the underground and was often in Iowa. After his Kansas battles, he fled to the Quakers in this state. While these men of peace did not condone Brown's shedding of blood, they agreed with his anti-slavery stand.

In Tabor, West Liberty and Springdale, the old warrior was a frequent visitor. To Grinnell, Des Moines and other towns he came less frequently. Tabor, nearest underground station to the south, was settled by Ohio abolitionists, and in the late fifties its square was often crowded with covered wagons loaded with immigrants bound for Kansas. Many of these men and women were abolitionists, and around the campfires discussions of slavery raged far into the night.

In Tabor, John Brown drilled his followers for the fighting ahead and stored arms and ammunition. To Tabor came the sick and wounded from his Kansas battles. The dauntless old man himself sought the peace and quiet of Iowa firesides to rest and brood and talk with his friends.

The stately old stone Lewelling House still stands in Salem and is open to the public. In its kitchen, furnished as in Civil War days, the stone steps into the cellar which slaves followed to their hiding place, may be seen.

Iowa's Second War Governor

Gov. William M. Stone

William Milo Stone was born in New York state and moved to Ohio at the age of six. His formal education consisted of two winters in a country school. He read law in James Matthews' law office in Coshocton, Ohio, with whom he practiced until he moved to Iowa and established himself at Knoxville. There he purchased the *Knoxville Journal*.

When Fort Sumter was fired on, Stone held the office of district judge. When word of the attack came, he raised a company in Knoxville of which he was elected captain. A few weeks later he received his majority. At Blue Mills he was wounded and at Shiloh taken prisoner.

After three months' captivity he was chosen one of three Federal officers paroled by the Confederates to arrange an exchange of prisons. The mission was unsuccessful and Stone returned to Richmond and surrendered to the Confederate authorities. So pleased was Jefferson Davis with his conduct that he sent him back to make another try. This time the mission was accomplished, at least a general exchange followed.

His experiences gave Stone much publicity and on his return to Knoxville after his liberation, he was made colonel of the Twenty-second Iowa infantry. During this service he was wounded at Vicksburg and again returned home. While recuperating he was nominated as governor on the Republican ticket to succeed Kirkwood, who declined to run for a third term, and resigning his commission, Stone made the campaign which elected him.

A slender, erect, handsome man, he possessed unlimited self-confidence and tremendous industry. His military service popularized him with the soldiers.

Iowa's Graybeards

By special authority of the War Department, the 37th Iowa Volunteer Infantry was made up of men beyond military age. Their average age was 57; more than one hundred were in their 60s; a number were 70; at least one man was past 80.

The Graybeards served as prison and provost guards, relieving younger men for active duty. For a time they guarded supply trains. Passing through guerilla territory, one train was attacked. Four men were wounded, of whom two died. When riding atop swaying trains proved too strenuous for their aging bodies, the men were returned to prison guard duty.

After Lee's surrender, the weary Graybeards asked to go home. In recommending their discharge General Willich pointed out they had given some 1,300 sons and grandsons to the Union Blues.

On May 24, 1865, the regiment was mustered out at Davenport. It was the only regiment of men beyond the army's age limit to serve in the Civil War. The regiment had a high reputation as prison guards, being more humane than was common in that day.

Iowa in the Spanish-American War

In this nation's conflict with Spain over Cuba's independence between April and August, 1898, Iowa lost many times as many men from disease as from active engagement. The men who served in Iowa's four regiments of infantry and the two batteries of light artillery numbered 5,696. Two were killed in action, 38 were wounded, and 163 died from disease.

Out of the war came men who later served their state and national governments in high positions—Dan Turner, Corning, governor, 1931-1933; Joe Hanley, Muscatine, later lieutenant governor of New York state; Lloyd Thurston, Osceola, member of the state legislature, and the U. S. Congress, national commander-in-chief, 1954-1955, United Spanish War Veterans; Horace M. Havner, national commander-in-chief of the United Spanish War Veterans 1947-1948; and Guy Gillette, Cherokee, U. S. Senator, 1936-45 and 1949-55.

The leaders of the American Army in World War I were all veterans of this war. Among them were such men as Matthew A. Tinley, Council Bluffs, colonel of the famous Iowa Regiment, the 168th Infantry, and all of the field officers of that regiment.

Iowa in World War I

(April 6, 1917, to Nov. 11, 1918)

The total number of men registered in Iowa for service, and possible service, during World War I, was 523,478. This grand total was divided as follows:

Class of June 5, 1917, aged 21 to 31, both inclusive	217,914
Class of June-August, 1918, age 21	21,671
Class of Sept. 12, 1918, ages 18 to 45, not previously registered	283,893
Total	523,478

The total number of officers (men and women) from Iowa in World War I service is placed at 114,214, divided as follows:

In the army, 96,726 enlisted men, 4,975 officers, 611 nurses.

In the marines, 1,044 enlisted men, 30 officers.

In the navy, 10,211 enlisted men, 525 officers, 40 nurses, 42 yeomen.

Cadets at West Point, 20.

These Iowa soldiers came from every walk of life. The adjutant general reported to the government that, of the men drafted in Iowa, 51.7 per cent were farmers and farm laborers.

Iowa in World War II

(Dec. 7, 1941, to Sept. 2, 1945)

The total number of men in Iowa registered under the selective training and service act of 1940, as amended, was 882,542, divided as follows:

	Date of Registration	Age Group Liable for Military Service	Number Registered
Oct. 16, 1940	21-35		292,388
July 1, 1941	21 (since Oct. 16, 1940)		14,974
Feb. 16, 1942	21 (since July 1, 1941) and 36-45		156,758
June 30, 1942	18-20		53,228
Dec. 11, 1942	18 (since June 30, 1942)		*89,479

Thereafter persons were required to register within 5 days after reaching the 18th anniversary of the date of their birth.

		606,827
April 27, 1942	45-64	275,715

This registration was for the purpose of uncovering persons, 45 through 64 years of age, who possessed critical skills required in war production or civilian activities vital to the successful prosecution of the war effort. This age group was not subject to military service.

The number of officers and enlisted men and women from Iowa in World War II is placed at 262,638. No distinction is made between persons who entered service through induction or enlistment. Although no specific figures are available, it is estimated that persons served in the various components as follows:

Marine Corps	3.5%	Army	73%
Coast Guard	1.5%	Navy	22%

*Total persons registered upon attaining the age of 18 years on and after Dec. 11, 1942, up to and including March 31, 1947

Iowa in Korean War

(Iowa dates, June 27, 1950, to July 27, 1953)

Registered under Universal Military Training and Service Act
(formerly the Selective Service Act) 236,272

The Post World War II Act was initially effective June 24, 1948, and was amended June 19, 1951. The act requires registration of all male persons born on or after Aug. 31, 1922, upon attaining their eighteenth anniversary of the dates of their birth.

Total in service since invasion of South Korea, June 25, 1950,
enlisted and inducted, through considered emergency period .. 70,500

Iowa in the Vietnam War

As the *Iowa Official Register* goes to press, more than 50,000 Iowa men are engaged in the Vietnam War, which began Aug. 5, 1964. Official records show that on July 1, 1969, a total of 50,119 Iowa men were engaged as compared with 38,385 one year before.

All persons serving in this war are doing so under the Universal Military Training and Service Act as amended, requiring registration of all male individuals born on or after Aug. 22, 1922. Registration of such persons is required when they reach the age of 18.

To Aug. 19, 1969, Iowa had suffered 475 casualties resulting from hostile action and 42 resulting from other causes. These figures include 15 casualties suffered by members of the Iowa Army and Air National Guard units mobilized during 1968. About 1800 Iowa Army and Air National Guardsmen have been mobilized.

The above figures are from statistics released by the Public Affairs Department of the Department of the Army, Washington, D.C., and compiled in Iowa by the Adjutant General's Office at Camp Dodge.

Center of State Government

The government of Iowa centers in the venerable golden-domed capitol, which presides over a constellation of twelve other buildings on its park-like ninety-three acres, and ten buildings or quarters which the state owns or leases in downtown Des Moines. Planned in 1870, the capitol was designed to house all the state's activities, but they have overflowed into one building after another as the state has grown and its functions have multiplied. Although the capitol no longer houses all the government, it still is the center of administration, of legislation and of judicial interpretation.

Here come the committees from communities, the lobbyists to see the legislators, the litigants and lawyers to contest appealed cases. Here also come the sight-seeing delegations, men and women, and throngs of school children. Especially during legislative sessions the children come, marshaled by their teachers, to parade up the grand staircase, look at the murals, gaze into the dome, sit in the legislative galleries, maybe even to be introduced to the legislature or to meet the governor.

There were 418 persons employed in the capitol when the Iowa State Capitol Planning Commission made a survey. But when the legislature is in session there are also 185 legislators and their 185 secretaries and a staff of some sixty legislative clerks and assistants. And visitors throng the corridors at a rate of 600 to 700 a day during legislative sessions. Capitol visitors in guided groups in the first half of 1967 numbered between 75,000 and 100,000. Focal point of activity, aside from the legislative halls, is the cafeteria in the ground floor corridor, where hundreds have a meal or a lunch or at least a cold drink in the course of the day.

Rivaling the capitol for historic interest is the State Historical Building, where library resources and museum exhibits abound and guided tours are conducted. First in volume of employment is the state office building, with some 1,347 persons employed. State employees in other buildings in Des Moines aside from the capitol numbered 820 when the planning commission survey was made.

How Site Was Selected

Location of the capitol on its commanding site resulted from a series of decisions that began almost with statehood. The new state quickly recognized that the capitol should be farther west than Iowa City, and the First General Assembly in 1846 authorized a commission to select a location. Amidst rivalries a Jasper County selection was made, and then rejected. In 1854, the Fifth General Assembly decreed a location "within two miles of the Racoon forks of the Des Moines River." The exact spot was chosen when Willson Alexander Scott gave the state 9½ acres where the capitol now stands.

A group of Des Moines citizens built a temporary capitol (which was later bought by the state), near where the soldiers' and sailors' monument now stands. In 1857 Governor Grimes proclaimed Des Moines to be the capital city, and state papers and functions were transported thither. The temporary capitol was in use for thirty years, until destroyed by fire, but in the meantime the permanent capitol was being planned and built.

The General Assembly in 1870 established a capitol commission to employ an architect, choose a plan for a building, not to cost more than \$1,500,000, and to proceed with the work, but only by using funds available without increasing the tax rate.

The board employed Edward Clark, architect of the capitol extension at Washington, to aid in selecting plans and modifying them to keep the cost within the limits of appropriations. The board also instituted tests

to ascertain whether Iowa stone could be found suitable for building. John C. Cochrane and A. H. Piquenard were designated as architects, and a cornerstone was laid Nov. 23, 1871. A smaller, fulltime commission was appointed in 1872. Much of the original stone had deteriorated through waterlogging and severe weather, and had to be replaced, and the cornerstone was relaid Sept. 29, 1873.

Although the building, as planned, could not be constructed for \$1,500,000, the Cochrane & Piquenard design was retained and modifications were undertaken. Mr. Cochrane resigned in 1872, but Mr. Piquenard continued until his death in 1876. He was succeeded by two of his assistants, M. E. Bell and W. F. Hackney. Mr. Bell resigned in 1883 to become supervising architect for the treasury department in Washington, and Mr. Hackney continued until completion of the building.

Successive legislators made appropriations, and the commission built within the limits of the funds appropriated. The building was dedicated in January, 1884, when the general assembly was in session. The governor's and other offices were occupied in 1885. The supreme court room was dedicated in 1886.

The building commission made its final report June 29, 1886. The cost had totaled \$2,873,294.59. The audit showed only \$3.77 unaccounted for in the fifteen years. The commission bemoaned that it could not have had another \$30,000 to finish the frescoes and build the south and west steps.

In 1902, in order to modernize and repair the building, a third capitol commission was created. While work proceeded, a disastrous fire in the north wing Jan. 4, 1904, ruined the house chamber and damaged other offices. The commission restored the building, purchased paintings and mosaics, and redecorated almost all the interior. The original decorations are still in the senate. These expenditures raised the total cost of the capitol to \$3,296,256.

Design of Capitol

The architectural design of the capitol, rectangular in form, with great windows and high ceilings, follows the traditional pattern of the nineteenth century planning for public buildings, a modified and refined Renaissance style which gives the impression of strength and dignity combined with utility.

The commanding feature is the central towering dome. This is constructed of steel and stone and covered with 23 carat gold. The gold leafing was replaced in 1964-1965 at a cost of \$79,938. The dome is surmounted by a lookout lantern that may be reached by long and winding stairs, and it terminates in a finial that is 275 feet above the ground floor. The rotunda beneath the dome is 67 feet in diameter. Four smaller domes of simple design rise from the four corners of the capitol. The pediment over the front entrance discloses a fine piece of allegorical sculpture.

Stone for the basement was quarried in Johnson County, Iowa; granite came from Iowa boulders; stone of the main structure from St. Genevieve and Carroll counties, Missouri; steps, columns and other parts from Anamosa, Iowa; Cleveland, Ohio; Sauk Rapids, Minn.; Lamont and Joliet, Ill. Imported and domestic marble of twenty-nine kinds was used in the interior; and the wood used was nearly all from Iowa forests of walnut, cherry, catalpa, butternut and oak.

As is so often the case with public buildings, visitors are likely to enter on the ground floor. Although the majestic approach is up the long hill and stone steps from the west, the convenient entrance is from the parking lots on the east. The ground floor corridors are busy with cafeteria service, and in the busy season this area is thronged. Here visiting groups may stop at the custodian's office to obtain information

and to inquire about guide service. There are information desks also on the upper floors.

The beauty, dignity and arrangement of the interior become apparent as the visitor stands under the dome on the first floor. Broad, lofty corridors extend west, north and south. Walls are highly decorated. The grand staircase is to the east. Suites opening from the south corridor are those of the governor, auditor of state and treasurer of state. The supreme court and secretary of agriculture are to the north, and the secretary of state to the west and the attorney general to the east.

The grand staircase ascends to a landing and divides north and south to bring visitors to the floor above, where the house of representatives is on the north, the senate on the south and the law library on the west.

The senate hall is 58 feet long, 91 feet wide and 41.9 feet in height. It is finished in marble, white oak and scagliola, and is furnished in mahogany. The figures in the ceiling represent Industry, Law, Agriculture, Peace, History and Commerce.

The hall of the house of representatives is 74 by 91.4 feet, and 47.9 feet in height. It is finished in marble, scagliola and black walnut.

The law library is 108.4 feet long, 52.6 feet wide and 44.9 feet high. It is furnished in ash and chestnut and beautifully wainscoted in marble.

The Mural "Westward"

Extending full width of the east wall over the staircase is the great mural painting, "Westward," an idealized representation of the coming of the people who made Iowa. This was completed as part of the 1904 decoration. Edwin H. Blashfield, the artist wrote of it:

"The main idea of the picture is a symbolical presentation of the Pioneers led by the spirits of Civilization and Enlightenment to the conquest by cultivation of the Great West. Considered pictorially the canvas shows a prairie schooner drawn by oxen across the prairie. The family ride upon the wagon or walk at its side. Behind them and seen through the growth of stalks at the right, come crowding the other pioneers and later men. In the air and before the wagon are floating four female figures; one holds the shield with the arms of the State of Iowa upon it; one holds a book symbolizing enlightenment; two others carry a basket and scatter the seeds which are symbolical of the change from wilderness to plowed fields and gardens that shall come over the prairie. Behind the wagon and also floating in the air, two female figures hold respectively a model of a stationary steam engine and of an electric dynamo to suggest the forces which come with the later men. In the right hand corner of the picture, melons, pumpkins, etc., among which stand a farmer and a girl, suggest that here is the fringe of cultivation and the beginning of the prairie. At the left a buffalo skull rather emphasizes this suggestion."

On the upper floor level above the "Westward" painting are six mosaics in six arched panels depicting Defense, Charities, the Executive, the Legislative, the Judiciary, and Education. These were made in Venice from small pieces of colored stone, according to designs by Frederick Dielman of New York, who also designed the mosaic panels Law and History in the Congressional Library.

Twelve statues, high within the rotunda, beginning north of the library door, represent History, Science, Law, Fame, Art, Industry, Peace, Commerce, Agriculture, Victory, Truth and Justice.

Eight lunettes, or half-moon-shaped paintings, surrounding the rotunda are the work of Kenyon Cox, famous American artist. They are entitled: Hunting, Herding, Agriculture, the Forge, Commerce, Education, Science, Art. They are allegorical and indicate the progress of civilization.

At the top of the staircase on the south wall is a painting of a basket of corn by Floyd V. Brackney, a native of Marshall County. This picture was the center of the Iowa exhibit at the Panama-Pacific Exposition in San Francisco.

The battle flags carried by the Iowa regiments in various wars are preserved in niches on the main floor—Civil War thirty-six; Spanish-American War thirteen; First World War twenty-six. In the west hall is a plaque done by Nellie V. Walker in commemoration of the work of Iowa women in the fight for civic and political equality. In the south hall is a 26-foot photographic enlargement, showing the grand review of the 168th Infantry on the capitol grounds following its return from France in 1919.

A lofty banner, stretched high under the vault of the dome, is a G. A. R. emblem, painted by Joseph Czizek on the occasion of a Des Moines convention of the Grand Army of the Republic, and retained as a permanent decoration by order of Governor Kendall in 1922.

Above the grand stairway, facing the large "Westward," are quotations. On the south side is one by Patrick Henry: "No free government or the blessings of Liberty can be preserved to any people but by a firm adherence to Justice, Moderation, Temperance, Frugality and Virtue and by a frequent recurrence to fundamental principles."

On the north side is one by G. W. Curtis: "Courageous confidence in the intelligence of the community is the sure sign of leadership and success."

Underneath it is one by Solon: "The ideal state—that in which an injury done to the least of its citizens is an injury done to all."

To the west is a quotation from William Pitt: "Where law ends tyranny begins."

Around the rotunda on the frieze above the columns is the famous Abraham Lincoln quotation: "That government of the people, by the people, for the people, shall not perish from the earth."

The Governor's Office

On Jan. 1, 1885, Governor Buren R. Sherman became the first occupant of the present offices of the governor of Iowa, following dedication of the state capitol building the year before. Much of the decoration and original furnishings of that day are still preserved in the four-room suite. The large, ornate mahogany table in the center of the reception room is an example. The frescoed ceilings were painted in watercolors on the wet plaster more than 80 years ago.

The governor's private office was moved from the center room to the west office by Governor Albert B. Cummins in 1902. The governor's desk also was installed at that time and has been used by all subsequent chief executives of Iowa. Governor Nathan Kendall (1921-1925) provided the solid, straight-back chairs for visitors. Frescoes of the Great Seal of the State of Iowa and of the Iowa Territorial Seal adorn the ceiling of the governor's private office.

The grandfather clock in the governor's private office dates from about 1750 and once was owned by the prominent Iowa author Emerson Hough of Newton (1857-1923). The tall clock in the office of the executive assistant is the original master clock controlling other clocks in the law library, supreme court, and legislative chambers. Operated by air, the clock must be wound once a week.

The offices are 23 feet 9 inches from floor to ceiling. The draperies are velvet and lined with satin with an underdrape of semi-sheer fabrics. Lamps in the inner office are of pewter. Prisms of cut Czechoslovakian crystal decorate the chandelier in the reception room. The

woodwork was carved in cherry and mahogany by skilled German craftsmen. The hearths and wainscoting are of fine domestic and imported marble. Paintings in the offices are the works of Iowa artists.

Home of Iowa's Governors

Nearly two miles west of Iowa's gold-domed capitol, shaded in the summer and protected in the winter by luxuriant trees and shrubs, stands the imposing brick house that the governor of Iowa calls home.

The Governor's Mansion

Located at 2900 Grand Avenue in Des Moines, the Philadelphia Colonial house only in recent times became the home of Iowa's first family. The three-story brick building was constructed in 1903. It was not until 1947, however, that it was purchased by the state.

The house was built by W. W. Witmer. The state bought it from Gerold S. Nollen, then chairman of the board of Bankers Life Company. Mrs. Nollen was the daughter of the builder. Iowa paid \$27,200 for the house and its 240 by 200-foot lot. Remodeling cost another \$22,800, and \$22,421 was spent on furnishing and redecorating the mansion. In January, 1949, Governor William S. Beardsley became the first chief executive of the state to live in the freshly refurnished home. Subsequent governors who have lived at the mansion were Leo A. Hoegh, Herschel C. Loveless, Norman A. Erbe, Harold E. Hughes, and the present governor, Robert D. Ray.

On the first floor are a spacious drawing room, dining room, library, kitchen and private dining room. There is also a screened porch. Five bedrooms and a sitting room are located on the second floor. Two rooms which are used as servants' quarters are on the top floor. The house has four baths. As one enters the first floor hall, he is greeted by a wide colonial staircase with a shining mahogany handrail and white balustrade. The woodwork in the drawing room and library is oak. The mansion's furnishings are a blend of the modern and the traditional. The dining room table is mahogany, three-pedestal, in the Duncan Phyfe style.

Many of the furnishings are gifts. There is a big samovar which was used by Edwin T. Meredith, Sr., when he was secretary of agriculture in the Wilson administration. One hundred volumes were donated in 1949 to the mansion's library by the State Historical Society of Iowa. Other items of interest include a century-old mahogany card table, an antique French oil lamp, four-postered canopied bed, two antique walnut chests, two Lowestoft vases, a Sheffield silver tray, two antique Sèvres porcelain vases, a pair of mahogany Chippendale twin beds and an antique walnut serving chest.

Striking Monuments

The most striking monument on the capitol grounds is the granite shaft rising 145 feet, erected to the memory of the soldiers and sailors of the Civil War. The heroic bronze figure "Victory" is predominant, while at the base there are four groups representing different branches of the military or naval service, and numerous historical plaques and medallion portraits of typical soldiers. The original design was by Harriet A. Ketcham, and work was commenced in 1894. A small and

appropriate memorial to Christopher Columbus, erected by Iowa citizens of Italian ancestry, stands nearby.

General Grenville Dodge erected a monument honoring Iowa's long-time Senator William B. Allison. This is an allegorical design of heroic dimensions, depicting civic duties in the public service, and it is encompassed by a flower bed.

West of the capitol is an impressive bronze statuary group depicting the Pioneer. The cannon and mortar on the grounds are of Civil War days. The grave of Willson A. Scott, one of those who gave the state the capitol grounds, is near where he lived and is appropriately marked.

A bronze cannon taken in the Spanish-American War and the head-piece of the Battleship Iowa are near the historical building. A granite block dedicated to the soldiers of the Spanish-American War also stands on the plaza east of the capitol.

In 1950, the fine record of Iowa citizens in war bond drives was rewarded with the presentation of a replica of the Liberty Bell, and it is stationed just across the street west of the State office building. Boy Scouts presented a replica in miniature of the Statue of Liberty, and it is erected between Grand Avenue and the parking area east of the capitol. A stone erected by the W. R. C. in honor of Crocker Post No. 12, Department of Iowa, was set in 1944.

Iowa's memorial to Abraham Lincoln, a statue of Fred M. and Mabel L. Torrey, depicting the Civil War president and his son Tad, was dedicated in 1961. This was commissioned by Friends of Lincoln, Inc. It is on the west approach to the capitol.

A Japanese temple bell and bell house, presented to the state of Iowa by the prefecture of Yamanashi in Japan, stand on an eminence on the south edge of the capitol grounds. They express appreciation for a gift of purebred breeding hogs and corn sent to Yamanashi after the typhoon of 1959. Dedication was in 1962.

State Activities Overflow

Originally the whole state government was housed in the capitol, but departments through the years have outgrown it, one by one or in groups, until now there are thirteen state-owned buildings on or adjacent to the capitol grounds, one state-owned building in downtown Des Moines, and four downtown buildings in which space is leased.

First major building to be added to the capitol group was the state historical building, planned originally in 1896 to house the Aldrich historical collection, but now the home of the state historical department and of a variety of library and museum functions. Known as the Historical Memorial and Art Building, it is 260 by 110 feet in size, built at the turn of the century and enlarged by an addition in 1908.

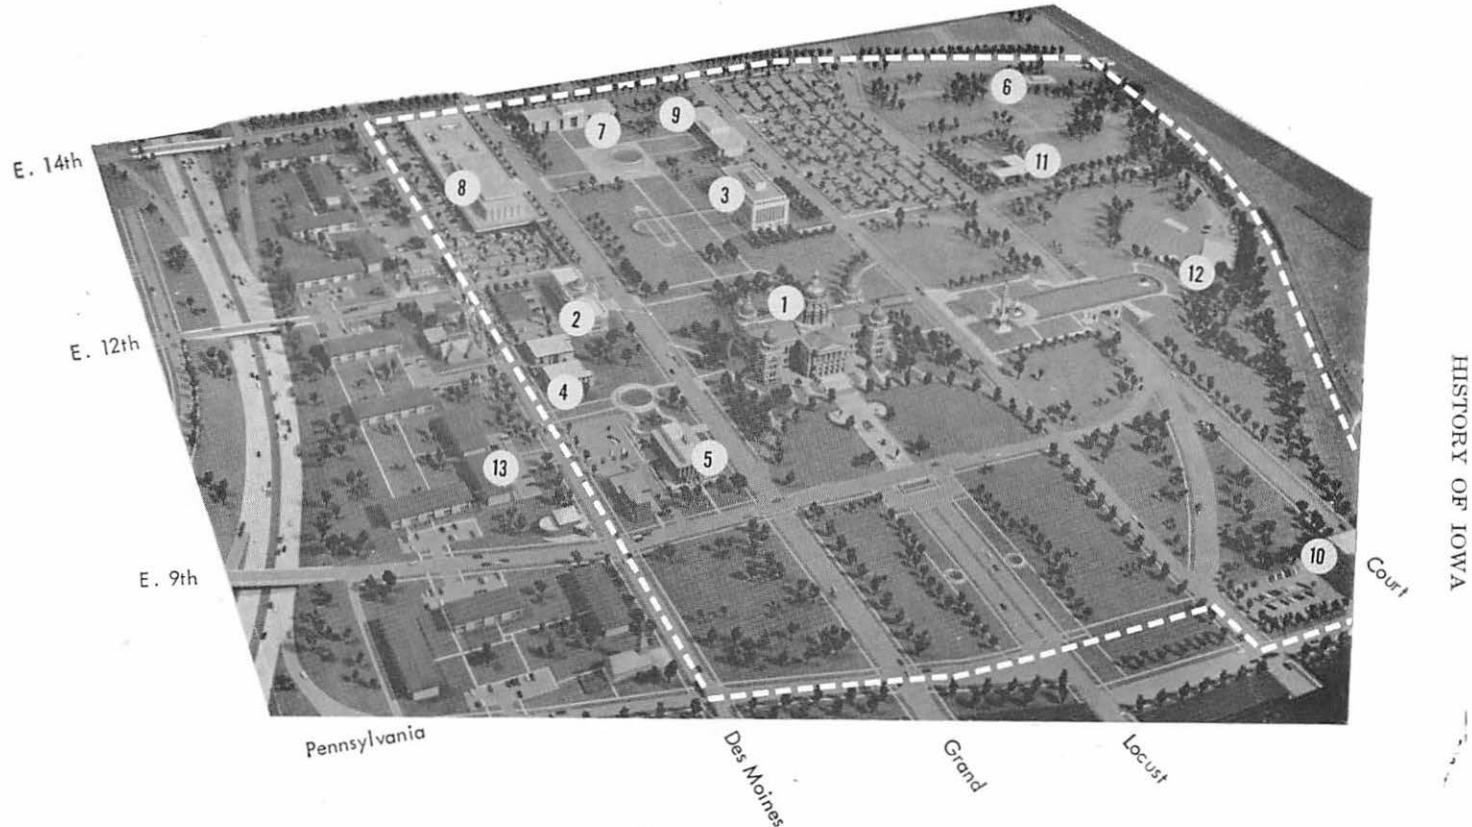

The limited area of the capitol grounds became a major political issue, and the Thirty-fifth General Assembly in 1913 set up a tax to raise \$3,000,000 to purchase lots, buildings and residences to clear the way for expansion to 93¼ acres. The land was landscaped, drives were put in, and a system of lighting was installed to enhance the beauty of the capitol.

The six-story-and-basement office building, 120 by 246 feet in size, was started with an appropriation by the Forty-ninth General Assembly of \$1,650,000, available July 1, 1941. First department to move in was social welfare, Sept. 1, 1951, and occupancy was completed when the department of public instruction moved April 24, 1952. Total cost of the building was \$4,935,892.45. A tunnel from the new office building to the statehouse was completed early in 1953 at a cost of \$92,841.71.

The International Harvester Building, on the southwest corner of the statehouse grounds, was bought in 1945. Total cost including remodeling of its five floors was \$541,972.

The Amos Hiatt school building, southeast on the grounds, was remodeled for use of the commerce commission. An old school building on the northwest corner of the grounds was razed. The former home for governors north of the capitol was fitted for training of disabled persons.

Purchase of the old Y.M.C.A. building at Fourth Street and Keosauqua Way for \$300,000 was authorized by the Fifty-eighth General Assembly in 1959.

The Iowa Employment Security Commission moved into a new office building in October, 1963. The Fifty-ninth General Assembly in 1961 financed construction in part by the use of non-refundable reserve funds accumulated from taxes paid by Iowa employers to the federal government for administration of the unemployment insurance program. This money, representing 85 per cent of the \$1.7 million construction cost, will be returned to the Iowa Unemployment Trust Fund over a period of years by amortization grants by the federal government. The remainder of the building cost came from a \$75,000 appropriation from the state general funds and from an authorization allowing the use of \$225,000 from the Iowa Public Employees' Retirement System for its offices. The new building is at 1000 East Grand Avenue across from the statehouse. Its light gray exterior brick closely resembles the color of the stone walls of the capitol, and emphasis on the vertical dimension keeps the three-story new building in harmony with the much taller statehouse.

20-Year Building Plan

The Sixty-first General Assembly in 1965 adopted a master plan and guide for the future expansion and development of the state capitol grounds. This was the plan presented by the Capitol Planning Commission, as directed by the Sixtieth General Assembly. It was entitled "Planning for Twenty Years."

Three steps toward carrying out the plan were taken by the Sixty-first General Assembly, as follows:

1. Adoption of the plan.
2. Authorization for purchase of land by the state executive council. The proposed addition will extend east to East Fourteenth Street, north to Des Moines Street and south to the railroad track.
3. Appropriation of \$3,000,000 for a new state office building. A legislative advisory committee was named to act with the executive council to employ architects, approve plans and let contracts.

The program follows the lines of a plan presented to the Sixtieth General Assembly, which included construction of the Employment Security Building, now accomplished.

Additional steps proposed by the twenty-year plan are:

Transfer to the new office building of the department of agriculture and associated departments, the health department laboratory, the commerce commission, the conservation commission and the department of buildings and grounds.

Transfer to the International Harvester Building of the paper warehouse, state archives, state records center and related divisions. Enactment of a records management and preservation act was urged by the building commission report.

Provision of committee and conference rooms in the capitol and relocation of the capitol cafeteria.

Consolidation of the vocational rehabilitation division, with new construction.

Razing of the Amos Hiatt Building, Kasson Building, frame residences of the rehabilitation center and the paper warehouse.

Landscaping of the entire grounds and both sides of bordering streets.

An underground parking garage to accommodate 250 automobiles for use of legislators and state officials. Relocation of parking lots now east of the capitol.

Provision of humidity controlled space for the traveling library, medical library and law library.

New and adequate space for the state courts.

Erection within the twenty years of a third office building.

Relocation of the heating plant when present boilers need to be replaced.

The Government of Iowa

The government of the State of Iowa is based upon a constitution adopted by the people and upon statute laws enacted from time to time by the general assembly.

Iowa has always used the separation of powers doctrine, dividing the governmental authority into its legislative, executive and judicial components. Iowa has had two state constitutions, the first approved in 1846, the second in 1857. Only eight states are now using constitutions adopted prior to the Iowa constitution of 1857.

The Iowa constitution's "Bill of Rights," Article I, is one of the best sections of the state constitution. It has been used as a reference guide for the model state constitution written by the National Municipal League and by the framers of the 1948 New Jersey constitution.

The Electorate—All men and women who have lived in Iowa for six months, in the county in which they claim residence for 60 days, and in the precinct 10 days, are entitled to vote if they are citizens of the United States 21 years of age or over. Persons convicted of infamous crimes and those declared idiotic or insane are, however, disfranchised. The right of women to vote in Iowa is based upon the nineteenth amendment to the United States constitution.

Election Days—The regular elections for national, state, district and county officers are held on the Tuesday following the first Monday of November of the even-numbered years. Candidates, with a few exceptions, are nominated at the primary election held on the first Tuesday after the first Monday in September preceding the general election. Provision is also made for nominations by petition or convention. Political parties must use the primary for nominating candidates, but in case no candidate receives the necessary 25 per cent of the primary, a convention may nominate.

The regular election date for municipal officers is the first Tuesday following the first Monday of November of the odd-numbered years. If a municipal primary election is necessary it is held on the second Tuesday prior to the regular municipal election.

Legislative Department

General Assembly—The legislative authority of the State of Iowa is vested by the constitution in a general assembly which consists of a senate and a house of representatives. The terms of both senators and representatives begin on the first day of January following their election. Regular sessions are held biennially, commencing on the second Monday of January of the odd-numbered years. Special sessions of the general assembly may be called by the proclamation of the governor. Refer to S.J.R. 4.

House of Representatives—The house of representatives of the 1967 legislature (the Sixty-second General Assembly) consisted of 124 members, elected for two years from the districts shown by the map. This arrangement, however, is temporary and is subject to change by amendment of the state constitution. Any person who has resided in the state for one year and has the qualifications of a voter is eligible for election as a representative. Women were admitted to the general assembly by an amendment of the state constitution adopted in 1926.

The house of representatives elects a speaker and other officers. Each house makes its own rules of procedure.

Senate—In the Sixty-second General Assembly there were 61 senators. Senators are elected for four-year terms so arranged that approximately half the terms expire at the end of each biennium. Senators must be 25 years of age and have the other qualifications required of representatives.

Members of both houses of the general assembly have been paid \$40 a day through the length of the session. The speaker and lieutenant governor received \$80 a day.

Executive Department

Elective Officers—The constitution of Iowa makes provisions for a governor, lieutenant governor, secretary of state, auditor of state, treasurer of state and attorney general, who are elected for terms of two years at the regular biennial elections in the even-numbered years. In addition, the general assembly has made provision for a secretary of agriculture, elected for two years. A board of commerce commissioners of three members, formerly elective, became appointive by the governor in 1963. A superintendent of public instruction is chosen by a state board of public instruction. Members of this board are appointed by the governor, largely from nominations made by county boards of education.

Governor—The supreme executive power of the state is vested in the governor. It is his duty to see that the laws are enforced, to supervise the official business of the state, to make recommendations to the general assembly, and to appoint various officers and boards. Most major appointments are subject to confirmation by the senate. He has the power to call special sessions of the legislature and veto acts passed by the general assembly, but a majority of two-thirds of each house may pass a bill over his veto. To qualify as governor, a person must have been a citizen of the United States and a resident of the state for at least two years and must be 30 years of age or over at the date of election.

Lieutenant Governor—The lieutenant governor, who must possess the same qualifications as the governor, succeeds the governor in case of the death, resignation or disability. His chief function is to act as president of the senate.

Appointive Officers—In addition to the elected executive officers mentioned, there are a number of appointive officers, including the comptroller, the superintendent of banking, the insurance commissioner, the labor commissioner, the adjutant general, the commissioner of public health, the industrial commissioner and commissioner of public safety, all appointed by the governor, usually with the approval of the senate. The governor also appoints the members of a number of administrative boards, including the commerce commission, the state board of regents, the board of control of state institutions, the state tax commission, the board of parole, the state conservation commission, the liquor control commission, the state highway commission, the unemployment compensation commission, the state board of health and board of social services.

Executive Council—The executive council is an ex officio board made up of the governor, secretary of state, auditor, treasurer and secretary of agriculture.

State Printing Board—The state printing board has three ex officio members—the secretary of state, auditor and attorney general—and two members appointed by the governor. The board appoints the superintendent of printing.

Judicial Department

The judicial department of the State of Iowa is vested by the constitution in a supreme court, district court and inferior courts as the general assembly shall provide.

Supreme Court—The supreme court consists of nine justices, who, until amendments of the constitution in 1962, were elected officers, with terms of six years. Vacancies now occurring are filed by appointment by the governor, from lists of nominees provided by the state judicial nominating commission. The term is at least eight years, on approval by referendum of the voters at a judicial election. The justices name

one of their number as chief justice, and he serves in that capacity until the expiration of his term. The supreme court appoints a reporter of the supreme court who is also the code editor, a supreme court statistician, and a clerk.

Attorney General—The constitution also provides for an attorney general who is elected at the regular biennial election for a term of two years. He represents the state in legal matters, gives advice to state officers, and has, in addition, certain administrative functions.

Judicial Districts—The State of Iowa is divided by law into eighteen judicial districts composed of from four to nine counties. Each district has from two to eight judges. Judges were elective officers until amendment of the constitution in 1962 made them appointive by the governor from lists of nominees provided by district judicial nominating commissions. Retention in office is subject to subsequent approval at a judicial election.

There are now seventy-five district judges in the state. One of the district judges presides over the district court sessions in each county. A county attorney and a clerk of the court are elected by the voters in each county.

Inferior Courts—The general assembly has provided also for inferior courts. Each township is authorized to elect two justices of the peace who hear cases involving minor offenses and hold preliminary hearings of more serious charges. Municipal courts, superior courts, police courts and mayors' courts are authorized in cities and towns under various restrictions. Municipal courts are optional in cities having a population of 5,000 or more and superior courts in cities with 4,000 or over. Both municipal and superior court judges are elected for four-year terms.

Municipal Courts—If a city has neither a municipal nor a superior court, the council shall appoint a police judge in commission governed and city manager cities and may provide for the election or appointment of a police judge in such cities under the general law. In all municipalities having none of these special courts, the mayor acts as the police judge.

Jury trials—Jury trials are the rule for serious cases, but under certain conditions may be waived or denied. Petit jurors consist of twelve persons who must be "electors," except in some courts of restricted jurisdiction where the number of jurors may be six persons.

Local Government

County Officials—The State of Iowa is divided into ninety-nine counties, the boundaries of which may not be changed unless the change is approved by the voters of each county concerned. A board of supervisors consisting of three, five or seven members is the chief administrative agency in the county. They appoint a county engineer, county home steward, medical examiner, county welfare director and other administrative officials. In addition, an auditor, who is the clerk of the board of supervisors, a sheriff, county attorney, recorder, treasurer, and clerk of the district court are elected by the voters, the terms being four years except for the county attorney, who is elected for two years. The supervisors are also authorized to create the office of public defender to represent accused persons unable to pay for their own attorneys.

A county superintendent of schools is chosen every three years by a county board of education. The county assessor is chosen by the board of supervisors, county board of education and the mayors of the various towns in the county, for a term of six years. They likewise fix his salary.

Local Functions—The Iowa county is a quasi-political corporation which collects municipal, school, county and state taxes, enforces state laws, has charge of poor relief and certain other welfare activities, and shares with the state highway commission the management of the roads and bridges in the county.

Townships which in earlier days were effective units of local government within the counties, have lost almost all of their functions, except for the election of justices of the peace, in which many townships default.

City Government—The laws of Iowa also authorize the incorporation of cities and towns. These municipalities derive their authority from the general assembly and have only the powers specifically granted to them. Four cities and towns are governed by special charters¹ granted before the adoption of the present constitution which forbids such acts of incorporation. Four cities have the commission form of government²; six have adopted the city manager plan by popular election³; and thirteen others have a city manager by ordinance⁴. Members of the commission are elected by the voters. The city manager in cities adopting that plan by a popular vote is appointed by the council.

Municipal Classes—All other municipalities are under the general law. Municipalities are classified according to population into cities having 2,000 or more population and towns having less than 2,000 population. In approximately 920 municipalities, the government is by the mayor-council system, in which the mayor and members of the council are elected by the voters for two-year or four-year terms.

City Councils—The council is the policy-making body in municipal government and it is also the chief administrative agency in the mayor-council cities. The mayor presides over the council, although he is not a member, and has the power to veto acts of the council subject to a two-thirds majority vote over his veto. He supervises municipal activities and in cities and towns which do not have a municipal, superior or police court, he serves as police judge. He also appoints certain officers, including the marshal or chief of police, the city health officer, and members of the police and fire board, and other officials that the council may direct him to appoint. The city solicitor and clerk, and in some cases the engineer and members of the zoning board of adjustment are chosen by the council.

The property tax is assessed by county and city assessors with the exception of public utilities which are assessed by the State Tax Commission, such as railroads, gas lines, telephone and telegraph lines. The tax commission assists county and city assessors in the administration and the equalization of personal and real property. Also, the commission assists the assessors in recommendations of values on personal property. Numerous other duties are performed by the tax commission, such as those defined under Chapter 421, Code of Iowa. Under Section 441.46 the State Tax Commission sits as the state board of review to adjust the valuation of each kind or class of property in or between the several counties of the state. (See §441.7) The Homestead tax credit is defined in Chapter 425, Code of Iowa. Military service tax exemption can be found in Chapter 426-A, and §§427.3 to 427.7 inclusive, Code of Iowa. The monies and credits tax was revised by the Acts of the Sixty-first General Assembly, Senate File No. 583 and Senate File No. budgets in a newspaper.

Budgets Prepared and Submitted

Preparation—All taxing districts except townships must at least twenty days prior to Aug. 15 of each year prepare a budget of anticipated expenditures and estimated amount to be raised by taxation by funds. Rural schools post budget estimates ten days before dates of hearing. Other taxing districts subject to the budget law publish their 642.

Certification—After hearing and decision of local board, budgets are certified to the county auditor not later than Aug. 15. (§24.17)

Submitted to State Comptroller—As soon as taxes are certified by each local board and have been computed by the county auditor, he shall forward a copy of each budget, together with a summary of all budgets to the state comptroller.

County Budget—On or before Jan. 31 of each year, each county is required to appropriate in detail anticipated expenditures for every office or department for each and every purpose for which expenditures are authorized or demanded. The budget in detail must be completed and adopted by Dec. 31 of the preceding year. This procedure is appropriating in detail the budget certified in August by funds.

State—On or before Sept. 3, next prior to each biennial legislative session, all departments and establishments of the government shall transmit to the state comptroller estimates of their expenditure requirements for each fiscal year of the ensuing biennium.

The comptroller shall prepare and file in his office, on or before the first day of December of each even-numbered year, a state budget report.

Not later than Feb. 1 of the year of each biennial legislative session, the governor shall transmit to the legislature a document to be known as a budget, setting forth his financial program for each of the fiscal years of the ensuing biennium.

Levies

The boards of supervisors fix the county levies. Cities and towns certify their tax levies. The State Tax Commission fixes the rates necessary for a state levy on property, if any. There is no state tax levy affixed on property except for a one mill levy on monies and credits which was voted by the people to pay the Korean War bonus. In addition there is a .340 levy made to pay interest and principal on World War II Service Compensation Bonds.

Election of State Officials

Each two years in Iowa, the people elect their governor, lieutenant governor, secretary of state, auditor of state, treasurer of state, secretary of agriculture and attorney general.

State commerce commissioners were elective officials until 1959 when the Fifty-eighth General Assembly enacted legislation providing for their appointment by the governor, beginning in 1963. The superintendent of public instruction is named by the State Board of Public Instruction.

Justices of the supreme court and judges of the district court are appointed by the governor from lists of nominees presented by judicial nominating commissions. This system of appointing judges was provided by an amendment to the state constitution approved by the people at an election in 1962.

Members of the senate are elected for four years; house members for two years.

Terms of County Officers

Elected county officers are the clerk of court, auditor and sheriff, elected in 1968 for four-year terms; the treasurer and recorder, elected in 1966 for four-year terms; the county attorney, elected in 1968 for a two-year term; and the county supervisors, elected for four-year terms which overlap. Elections are held in even-numbered years.

Election of Federal Officials

Federal elections occur each four years, on the first Tuesday after the first Monday in November in 1968, 1972, and so on. The constitution provides that the only elected federal officials are the President, vice-president, U. S. senators and U. S. representatives. All other officers are appointive—practically all by the President. U. S. senators serve a term of six years; house members serve terms of two years, being elected in even-numbered years.

Origin and Naming of Iowa Counties

(Of the two dates given for each county, the first is the date of establishment, when the county was put on the map; the second is when county government was organized. While population was sparse, an unorganized county might be attached to a neighboring organized county for purposes of administration. As settlement moved west, the legislature established 50 so-called "paper counties" in 1851, completing the theoretical roster of 99 counties, but in many of them it was a matter of years before county governments were organized. In some instances, the dates are significant of changes in county names or boundaries.)

Iowa Veterans' Organizations

Grand Army of the Republic

The Grand Army of the Republic was a patriotic and fraternal organization of the Union survivors of the military and naval forces of the Civil War who served between April 12, 1861, and April 9, 1865.

Iowa was one of the first states of the Union to attempt organization of the Grand Army of the Republic, receiving as a department its first charter on July 12, 1866. Its permanent organization dates from Jan. 23, 1879.

There were over 519 posts chartered in Iowa. Membership stood at its peak in 1890 when 52,013 veterans held membership.

Six veterans of the Civil War served as governors of Iowa. Colonel William M. Stone of Knoxville, 1864-1868; Colonel Samuel Merrill of McGregor, 1868-1872; Colonel Cyrus C. Carpenter of Fort Dodge, 1872-1876; Captain Joshua G. Newbold of Mount Pleasant, 1877-1878; Captain Buren R. Sherman of Vinton, 1882-1886; Lieutenant Colonel Francis M. Drake of Centerville, 1896-1898.

To the Grand Army of the Republic goes the credit for having instituted Memorial Day, with all the tender and reverent patriotism which that occasion always reveals, and for having kept alive, in history and story, the brave deeds performed upon the battlefields by many a gallant soldier. To them goes the credit of having preserved the Union at a critical period in its history. Their average age when they fought the war was nineteen.

Nate E. Kendall, former governor of Iowa, was principal speaker at the dedication of the Iowa monument on the battlefield of Shiloh. He eulogized the veterans of that sanguine conflict, when he said: "No soldiery ever entered a field with such noble purpose, and none ever merged with a record of such glorious accomplishment. When our beloved flag was insulted, when our territorial integrity was threatened, when our national life was imperiled, they promptly responded to the appeal of President Lincoln, and cheerfully embraced self-immolation to secure the perpetuity of the government of the people, by the people and for the people, and to render positive the certainty that the government, after being baptized in the sacred blood of the Revolutionary fathers, should not disappear from the earth, but that it, under God, should have everlasting life.

"And over the graves of the fallen dead the spring has cast its tender violets, the summer its gorgeous field of flowers, the autumn its golden withered leaves, the winter its blanket of snow. All is forgiven, all is forgotten except the glorious results of the combat in which our soldiers were engaged.

"The United States of America! The immortal principles of justice and equity which underlie it! The incomparable benefits which it secures to its citizenship. The inestimable sacrifices which have been suffered to maintain it! It is our home, our country, our beloved government, bequeathed to us forever by the venerated fathers, the most invaluable inheritance ever bestowed upon the sons of men."

The Iowa Department lost its last member in death on Sept. 20, 1949, of James P. Martin of Sutherland. Thus the last Iowa member of that long line of the Grand Army of the Republic answered "taps" and bivouacked on the eternal camping grounds.

The 55th General Assembly dismantled the G.A.R. room in the capitol and stored the records with the History and Archives department.

Spanish-American War Veterans

The United Spanish War Veterans came into existence because of the desire to carry on the comradeship that came from their associations in the service with the only 100 per cent volunteer army the world has ever known.

In this organization, the Iowa Department is one of 52 departments. At the headquarters office are kept the records of the organization and personnel. Plans are made for the annual encampment, and service is given in claims for pensions for widows plus assistance with the aid and attendant allowance under Public Law 90-77.

Evelyn M. Fischer, 856 First Street, Webster City 50595, is in the office in the Capitol Building one day a week, usually on Tuesday or Wednesday, or by appointment. Mail may be sent to her either at her home address or the Capitol Building.

The American Legion in Iowa

The American Legion was born in Paris, March 15, 1919. The Legion was launched formally at St. Louis, May 8, 1919, by World War veterans from nearly every state in the Union, who had been selected by temporary secretaries named at the request of Theodore Roosevelt, Jr., who acted under instructions from the Paris caucus.

The first Iowa state convention was held in Des Moines, Sept. 4, 1919. The First national convention of delegates from the newly organized state departments was held in Minneapolis on Armistice Day, 1919.

The American Legion Auxiliary of mothers, wives, sisters and daughters of Legionnaires was organized in 1921.

Hanford MacNider established the Iowa Legionnaire with Frank Miles as editor on March 4, 1921. He was succeeded as editor on April 1, 1946, by A. F. Faber who served until Jan. 3, 1965. The present editor is Glenn M. Dugger.

The Department of Iowa headquarters is located at Argonne Armory, East First and Des Moines Streets, Des Moines. There are nine districts in Iowa with 653 local posts and an approximate annual membership of 100,000.

The Iowa Department has been the winner of the James A. Drain national community service trophy for the past 29 consecutive years.

Iowa has been in the national American Legion's Big Ten Department since 1934.

The Iowa Department stresses the national program of Americanism, national security, child welfare and rehabilitation, in addition to many youth programs to develop good citizenship.

Iowa has contributed leadership to the national organization through three national commanders, General Hanford MacNider of Mason City, J. Ray Murphy, formerly of Ida Grove, and Donald E. Johnson of West Branch.

The Iowa Department has provided three national chaplains for the American Legion: Msgr. Edward Smith, Sioux City; Msgr. Pat N. McDermott, Atlantic; and Father Albert J. Hoffmann, Dubuque.

Two Iowans have served as national vice-commanders: G. M. Brown, Whiting, and V. J. Maxheim, Clinton.

The Disabled American Veterans in Iowa

The Disabled American Veterans, commonly known as the D. A. V., was organized nationally in 1920 by groups of disabled veterans then undergoing vocational training courses and chartered by Congress in

1932, to render service to, for and by disabled veterans. The D. A. V. has, ever since its inception, been the spokesman for the disabled war veterans of America, in Congress and before its various committees as well as before the Veterans Administration and its local regional offices and facilities.

During 1920 and 1921 the first three chapters of the Iowa department were organized in the vocational training centers at Des Moines, Iowa City and Ames. The department of Iowa D. A. V. held its first state convention in 1922 at Iowa City.

The Disabled American Veterans in Iowa have grown to 32 chapters and over 3,000 members. The national service officer in Iowa is Buford L. Phillips, located at 921B Federal Building, 210 Walnut, Des Moines. The state headquarters are in Des Moines. The address is P.O. Box 793 and the adjutant and business manager is Buford L. Phillips.

American Veterans of World War II

The American Veterans of World War II, commonly known as the AMVETS, were organized nationally in September, 1944, at Kansas City, Mo. The AMVETS were granted a national charter by an act of Congress and President Truman signed the measure on July 23, 1947. AMVETS is the only nationally chartered World War II veterans' organization.

AMVETS got their start in Iowa at Atlantic in 1944, and were incorporated as the Iowa Department of AMVETS on May 2, 1945. The first state convention was held in Des Moines in 1947. AMVETS were recognized as a nationally chartered World War II veterans' organization by the Iowa legislature in March, 1949, and entered as such in the Iowa Code.

The AMVETS principles are (1) to promote world peace, (2) to perpetuate the American way of life, (3) to help the veteran help himself.

The AMVETS have a national and state auxiliary comprised of the wives, mothers and sisters of World War II veterans.

The Iowa Department headquarters are located at 406 East Fourth Street, Ankeny, Iowa, with Ben C. Kroma as executive director. Currently the Iowa Department has 70 AMVET posts covering all parts of Iowa, and is the third largest AMVET department in the nation.

Ed Corry, formerly of Des Moines, now of Chicago, a past state commander, was national commander. Ed Gallagher of Waterloo, past state commander, was president of the AMVETS national service foundation for several years. Herbert Bennett of Fort Dodge, also a past state commander, served as president of the AMVETS national convention corporation for several terms. Charles Scherrer of Dubuque, also a former state commander, is a member of the AMVETS national personnel committee. Lee Larson of Havelock, also a past state commander, is the national executive committeeman from Iowa. Leo White, a Des Moines accountant, was the 1964-1965 state commander.

Iowa AMVETS assemble in convention each year to elect new officers. The fiscal year begins in September and ends in August. Any person who served actively in the armed forces any length of time between Sept. 16, 1940, and Jan. 31, 1955, when cessation of hostilities was formally proclaimed, is eligible to become a member.

Iowa Veterans of Foreign Wars

The Veterans of Foreign Wars, Department of Iowa, was granted its charter by the national organization on May 28, 1921. Its objects are fraternal, patriotic, historical and educational; to preserve and strength-

en comradeship among its members and to assist worthy comrades; to perpetuate the memory and history of its dead, and to assist their widows and orphans; to maintain true allegiance to the government of the United States and fidelity to its constitution and laws. V. F. W. is composed only of American men who have served honorably in the army, navy, marine corps or coast guard of the United States, in hostile waters or on foreign soil during any foreign war, insurrection, or expedition.

Veterans of Foreign Wars has a Ladies Auxiliary of mothers, wives, sisters and daughters, and a fraternal order consisting of the Military Order of Cooties of V. F. W. members.

The Department of Iowa, consisting of 196 posts, has its headquarters at 3601 Beaver Avenue, Des Moines 50310.

Iowa State Association Rainbow Division Veterans

While the 42nd Division was serving as a part of the Army of Occupation along the Rhine River, in Germany, a universal desire arose to perpetuate in civil life the bond of wartime comradeship by forming an organization of all Rainbow veterans. During March 1919, the call for a convention went out to all units of the Rainbow Division and as a result, representatives from each of the divisional units met in the city of Bad Neuenahr, Germany. There was formed the "Rainbow Division Veterans."

The 168th Iowa Infantry commanded by Colonel Mathew A. Tinley was a unit in the Rainbow Division and upon return of the regiment to its home state of Iowa, immediate plans were formulated to establish Rainbow Veterans chapters. The first chapter was formed in Des Moines, followed by Sioux City, Council Bluffs, Creston and Waterloo. The Des Moines chapter was the principal chapter, the others carried on as sub-chapters. As the years passed by and a greater interest developed among veterans of the Rainbow Division, the Iowa State Association Rainbow Division Veterans was formed in Des Moines, in March 1936. The Des Moines chapter became the Col. E. R. Bennett Chapter, Council Bluffs the Mathew A. Tinley Chapter, Sioux City the Northwest Iowa Chapter, Waterloo the Cedar Valley Chapter, while the Creston Chapter continued under that name. Other chapters were formed in Ottumwa; Cedar Rapids; in Mason City the North Iowa Chapter; Oskaloosa; and the Douglas MacArthur Chapter in Red Oak. The Iowa association is a member of the National Association Rainbow Division, which has its national headquarters in Roanoke, Virginia. Col. Mathew A. Tinley of Council Bluffs, Homer W. Gardner of Des Moines, Theodore Johnson and Ralph Heasty, Cedar Rapids, have served as president of the national association.

The national association holds its annual reunion July 12, 13, 14 of each year. The reason for the National Reunion being held annually on July 12, 13, and 14 is to commemorate the Battle of Champagne which occurred July 14, 1918. The Iowa state association meets annually in April. The Iowa State Reunion was originally held March 5 and 6 to commemorate the first engagement of the regiment with the enemy in the trenches in Lorraine. This date was later changed to April because of adverse weather conditions occurring in March. The Rainbow Division was re-activated at Camp Gruber, Oklahoma, in July of 1943 and those who served with the division in World War II are also eligible for membership. Iowa contributed 3,800 National Guardsmen to the division in World War I and 750 in World War II. The organization is the most closely knit of any American division that served in both World War I and World War II. It has chapters in 36 states with a total paid membership of 7,000 and a full time national secretary. It permits Rainbow

comradeship in civil life, a most fitting memorial to the Rainbow dead, and a rich heritage to its descendants. The Iowa Rainbow Auxiliary is active in community services, visitation to Veterans' administration hospitals and has the largest membership in the national association. Mrs. Ethel Gardner and Mrs. Helen Davidson have served as National Auxiliary Presidents.

The State Secretary of the Iowa Association is Mr. Don Parr, Oska-loosa.

China-Burma-India Veterans Association

The Carl F. Moershel Basha of Iowa was organized in Des Moines in November, 1952, and is for China-Burma-India veterans of World War II. The late Mr. Moershel, of Homestead, was one of the fourteen Iowans who started the Iowa Basha. (Basha is an Indian word for house or hut.) Mr. Moershel had served in India as a lieutenant colonel with the Tenth Air Force.

There are 500 former China-Burma-India veterans on the Iowa mailing list. National headquarters for this organization are in Milwaukee, Wis. National reunions are held each year, and Iowa was host to the 1960 reunion in Cedar Rapids.

Iowa meetings are held twice a year in different cities. The national charter for the Iowa Basha is on display at the Ox Yoke Inn at Amana, as the owner of this restaurant is a CBI veteran and most state spring meetings have been held there.

Darwin Carlile of Perry was the first state commander. Neil Maurer of Laurens edits the national paper, *ex-CBI Roundup*, which goes to CBI veterans in all states. Iowans who have served as national CBIVA officers are Donald Doyle of Sioux City, judge advocate, and Ray Alderson of Dubuque and William Liechsenring of Amana, junior vice commanders.

Iowa Centennial Memorial Foundation

Iowa Statehood Centennial Commemorative Half Dollar

The sale of memorial half dollars in Iowa's Centennial Year, 1947, brought the state \$188,000. This fund is administered by the Iowa Centennial Memorial Commission, and has grown to more than \$240,000. The commission is authorized to spend the income from the fund for awards and scholarships, amounting to approximately \$6,225 yearly. This amount provides for 25 to 30 scholarships each year.

In 1951 the Iowa Award was created and presented to ex-President Herbert Hoover, and in 1956 to Jay N. Darling. More than 175 scholarships to Iowa colleges and universities have been granted.

Membership of the commission includes all former governors, four citizen members, and several state officials who serve ex officio. The commission was set up in 1949 by Governor Robert D. Blue. Members include the governor, who is chairman; president of the state board of regents, secretary; state treasurer, treasurer; and attorney general, attorney.

Citizen members are Mrs. Mary Humeston, Albia; Mrs. Helen Mitchell, Mason City; Ralph Evans, Davenport; and John M. Henry, Des Moines.

Use of State Banner by Legislature

The Sixty-first General Assembly, by Senate Concurrent Resolution No. 1, resolved: "That on each day when either the house or senate convenes that the state banner shall be raised on the flag poles directly over the chambers of either and that the state banner shall be lowered at each time the house or the senate adjourns for the day."

This usage replaces the prior employment of the United States flag for this purpose, which the legislative resolution declared to be improper.

The Capitol Building

The capitol building stands as a symbol of the state, and the center of its government, on an eminence east of the Des Moines River. Its golden dome, visible from the far reaches of the valley, surmounts a dignified structure of modified Renaissance architecture, typical for the style of the 1870's and 1880's, when it was built.

Broad lawns and great stone steps sweep down westward from the capitol toward the river and the Des Moines business district. Lawns, with flower beds, trees, shrubs and monuments, extend to the south, and parking lots and auxiliary buildings to the east and north. The entire area of capitol grounds includes ninety-three acres.

The capitol houses the offices of the governor, secretary of state, auditor, treasurer, attorney general and secretary of agriculture, the chambers of the supreme court, the state senate and house of representatives, and the law library. Other offices of state government are found also in the capitol, and in the state office building, the state historical building and other buildings on and adjacent to the capitol grounds and in downtown Des Moines.

The cornerstone of the capitol was laid Sept. 29, 1873, and the building was dedicated in 1884. Construction was brought to a close in 1886. The cost was \$2,873,294.50. Expenditures were increased to a total of \$3,296,256 by repairs, restoration and redecorating following a fire in the north wing Jan. 4, 1904.

The exterior of the building is entirely of stone, with elaborate columns and handsomely designed cornices and capitals. The substructure is of dark Iowa stone topped by a heavy course of vari-colored granite cut from glacial boulders gathered from the Iowa prairies. The superstructure, or main part of the building, is of buff colored sandstone from quarries along the Mississippi River in Missouri.

The capitol is 364 feet long, north and south, by 247 feet wide. The dome, rising 275 feet above the ground floor, is overlaid with 23 carat gold.

One of the most impressive government buildings in the world—with its majestic gold domes rising above stately pillars of granite—Iowa's capitol is a fitting bulwark to stand against evils in our land and to hold high those principles inherent in the Iowa motto:

"Our liberties we prize, and our rights we will maintain."

Symbols, Traditions, and Song

GREAT SEAL OF IOWA . . . was adopted in 1847 by act of the First General Assembly. It is retained in the custody of and under the control of the governor.

IOWA STATE BANNER

On March 29, 1921, the Thirty-ninth General Assembly adopted a resolution designating a design for a flag to be known as the "State Banner."

The banner was designed by the Iowa Society of the Daughters of the American Revolution and consists of three vertical stripes of blue, white and red, with the blue stripe nearest the staff and the white stripe in the center depicting a spreading eagle bearing in its beak blue streamers on which is inscribed in white letters the state motto, "Our liberties we prize, and our rights we will maintain." The word "Iowa" in red letters is just below the streamers.

WILD ROSE, STATE FLOWER OF IOWA . . . was officially designated as the flower of the state by the Twenty-sixth General Assembly in extraordinary session. The resolution was adopted May 7, 1897.

**EASTERN GOLDFINCH, STATE
BIRD OF IOWA . . .** adopted by the
Forty-fifth General Assembly, by a
concurrent resolution March 22, 1933.
It is often called a wild canary.

"THE OAK," OFFICIAL STATE TREE for the State of Iowa, was so designated by a resolution of March 13, 1961, adopted by the Fifty-ninth General Assembly.

This specimen selected by the State Forester.

**GEODE, STATE ROCK OF IOWA**

. . . adopted by the Sixty-second General Assembly by a house joint resolution. The resolution was signed by the Secretary of State March 13, 1967.

The Flag of the United States

On June 14, 1777, the Second Continental Congress adopted a resolution that brought into being the U. S. Flag: "Resolved, That the Flag of the thirteen United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation."

The action of the Continental Congress came almost a year after the Declaration of Independence. The Flag with thirteen stripes and thirteen stars continued to be used as the national emblem until Congress passed the following act, which President Washington signed:

"That from and after the first of May, 1795, the flag of the United States be fifteen stripes, alternate red and white; that the union be fifteen stars, white in a blue field."

This action was necessitated by the admission of the States of Vermont and Kentucky to the Union. The flag of 1795 had the stars arranged in three rows of five each instead of in a circle, and served for 23 years.

With the admission of more new states, however, it became apparent that the 1795 flag would have to be further modified; hence in 1818 a law was passed by Congress providing:

"That from and after the fourth day of July next, the flag of the United States be thirteen horizontal stripes, alternate red and white; that the union have twenty stars, white in a blue field.

"That on the admission of every new state into the Union, one star be added to the union of the flag; and that each such addition shall take effect on the Fourth of July next succeeding such admission."

Iowa was admitted to the union as the 29th state.

Alaska made the 49th star, and Hawaii, admitted in 1959, added the 50th, July 4, 1960.

The Stars and the States

The stars in the flag represent the states in order of their admissions.

*"Der Tannenbaum" the old air to which this song is sung, was a popular German Students' song as early as 1819. It had been a Volks song long before that. During our Civil War, the Southerners adapted it to the song "My Maryland."

Major S.H.M. Byers, in his day the "poet laureate" of Iowa, wrote the words set to music for this official song for the Hawkeye State.

IOWA'S FLAG SONG

By act of the joint session of the General Assembly of Iowa on March 24, 1949, the Iowa Flag poem, written by E. O. Osborn of Knoxville, and the music written by Esther May Clark of Oskaloosa, were officially adopted as the Iowa Flag Song, in honor of the Iowa flag, designed by Mrs. Dixie Cornell Gebhart of Knoxville.

Iowa Population Figures

These are U. S. census figures for all incorporated places. Populations of townships, together with analyses of urban-rural ratios, are presented in a pamphlet, *Census of Iowa for the Year 1960*, obtainable from the Iowa secretary of state.

Some Iowa cities and towns have had a special census since 1960. Their population figures are available in the office of the secretary of state.

Official populations of Iowa towns incorporated since the 1960 census will be reported for the first time in the 1970 census. These towns, their counties, and dates of incorporation are: Ventura, Cerro Gordo, May 28, 1960; Houghton, Lee, Feb. 19, 1962; St. Donatus, Jackson, June 8, 1964; Rickardsville, Dubuque, Nov. 17, 1964; Millville, Clayton, Apr. 27, 1967; Bronson, Woodbury, June 8, 1967; Shueyville, Johnson, March 8, 1968; and Haverhill, Marshall, July 12, 1968.

Trend Toward Urbanization of Iowa's Population*

Iowa's population is now 53 percent urban, as is shown in the first line of the table below. The change from 1950 to 1960 is also shown. To carry the comparison back to 1940, it is necessary to note that the census bureau made a change to classify people living in certain densely populated urban-fringe areas as urban, even though they were not within incorporated limits. This change, in 1950, transferred 21,505 Iowa persons from rural to urban classification. The effect of percentages is small but makes necessary two sets of figures. The minus (—) indicates a decrease.

Civilian Population Estimates as of July 1, 1968, for Counties and Cities of 10,000 or More Inhabitants

The Division of Vital Statistics of the State Department of Health published these figures as an estimate of population as of July 1, 1968. The technique employed in developing the 1968 estimates was a cooperative effort with the U. S. Bureau of the Census for testing several methods of estimation. This year estimates differ from any other published for the decade in the manner of obtaining the final figures for each county. Where in previous years the general outline of Component Method II was followed, the estimates for 1968 were obtained by averaging the estimates of two methods; namely, the Bureau of the Census Method II and the Composite Method.

Method II utilizes as components: population counts of a prior census, cumulative counts of births and deaths, estimates of net civilian migration developed from relative indices of school enrollment, and estimates of net loss to the armed forces. The Composite Method employs age-specific death rates for ages over 45, fertility ratio and sex ratio for ages 18 to 44, and migration rate factors from method II for ages under 18.

City estimates were obtained by applying the city-to-county ratio of the 1960 census count to the current county estimates. These estimates are related primarily to the period from censal date to estimate date, and an estimate for any particular date should be considered as independent as those developed for other dates. However, local estimates for any one year can be expected to have some common relationship to the level observed for the state.

Mileages from Des Moines to County Seats with County Serial Numbers

These mileages have been compiled by the Iowa State Highway Commission with routings over the Interstate System where applicable. Mileage is based on the most direct primary route. The starting point in the City of Des Moines is at East Fourteenth Street and Grand Avenue. Termini in the county seats are the major intersections of the primary roads or the centers of towns where there are no primary road intersections.

The Birth of Americanism

In 1620 the Pilgrims, persecuted for conscience's sake, "braved the tempests of the vast and furious ocean and the terrors lurking in the American wilderness" to plant their State of Freedom. Even before landing they set up their government by a written Compact; the first charter of a government of the people, by the people and for the people known to history. In the cabin of the Mayflower humanity recovered its rights.

The Compact

Signed in the Cabin of the "Mayflower," Nov. 11th, Old Style, Nov. 21st, New Style, 1620

"In the name of God, amen. This venerable document, the first American state paper.

Thus these men became the First Americans. They believed that God created all men equal; therefore, *without other precedent*; they made all men equal before the Law. Here was the birth of popular constitutional liberty, foreshadowing our Declaration of Independence and our American Constitution, which guarantees Freedom to all of us today. Tremendous suffering was endured as they grappled with the great unknown. Half their number perished in the struggle of that first terrible Winter. Under cover of darkness, the fast dwindling Company laid their dead; levelling the earth above them lest the Indians should learn how many were the graves.

"History records no nobler venture for Faith and Freedom than that of this Pilgrim band. In weariness and painfulness, in watchings often, in hunger and cold, they laid the foundation of a State wherein every man, through countless ages, should have liberty to worship God in his own way, in perpetuating and spreading, throughout the World, the lofty ideals of our Republic."

The "Mayflower" started with ninety-eight passengers; one was born on the voyage, and four joined them from the ship. Forty-one men signed the "Compact." There were twelve other men, twenty-two women, twenty boys, and eight girls in the company. In December, six died; in January, eight; in February, seventeen; in March, thirteen; making forty-four. Forty-eight are believed to have left descendants.

The Declaration of Independence

In Congress, July 4, 1776

The unanimous Declaration of the Thirteen United States of America

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.—We hold these truths to be self-evident, that all men are created equal, that they are endowed by the Creator with certain inalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed.—That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.—He has refused his Assent to Laws, the most wholesome and necessary for the public good.—He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operations till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.—He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.—He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.—He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.—He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.—He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new Appropriations of Lands.—He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.—He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.—He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.—He has kept among us, in times of peace, Standing Armies, without the Consent of our legislatures.—He has

affected to render the Military independent of and superior to the Civil power.—He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws, giving his Assent to their Acts of pretended Legislation:—For quartering large bodies of armed troops among us.—For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:—For cutting off our Trade with all parts of the world:—For imposing taxes on us without our Consent:—For depriving us in many cases, of the benefits of Trial by Jury.—For transporting us beyond Seas to be tried for pretended offences:—For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:—For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:—For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.—He has abdicated Government here, by declaring us out of his Protection and waging War against us.—He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.—He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.—He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.—He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions. In every stage of these Oppressions We have Petitioned for Redress in the most humble terms; Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people. Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.—

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be FREE AND INDEPENDENT STATES; that they are absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do.—And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

JOHN HANCOCK.

Article II.

Section 1. The executive Power shall be vested in a President of the United States of America. He shall hold his Office during the Term of four Years, and together with the Vice President, chosen for the same Term, be elected as follows: Each State shall appoint, in such manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an office of Trust or Profit under the United States, shall be appointed an Elector.

⁸This section was added by Amendment XVI.

⁹This paragraph in brackets was added as Section 1 of Amendment XIV.

The Electors shall meet in their respective States, and vote by Ballot for two Persons, of whom one at least shall not be an Inhabitant of the same State with themselves. And they shall make a List of all the Persons voted for, and of the Numbers of Votes for each; which List they shall sign and certify, and transmit sealed to the Seat of Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the Presence of the Senate and House of Representatives, open all the Certificates, and the Votes shall then be counted. The Person having the greatest Number of Votes shall be the President, if such Number be a Majority of the whole Number of Electors appointed; and if there be more than one who have such Majority, and have an equal Number of Votes, then the House of Representatives shall immediately chuse by Ballot one of them for President; and if no Person have a Majority, then from the five highest on the List the said House shall in like Manner chuse the President. But in chusing the President, the Votes shall be taken by States, the Representation from each State having one Vote; A quorum for this Purpose shall consist of a Member or Members from two thirds of the States, and a Majority of all the States shall be necessary to a Choice. In every Case, after the Choice of the President, the Person having the greatest Number of Votes of the Electors shall be the Vice President. But if there should remain two or more who have equal votes, the Senate shall chuse from them by Ballot the Vice President.

[The Electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President, and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice President, and of the number of votes for each, which lists they shall sign and certify, and transmit sealed to the seat of the government of the United States, directed to the President of the Senate; The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates and the votes shall then be counted;— The person having the greatest number of votes for President, shall be the President, if such number be a majority of the whole number of Electors appointed; and if no person have such majority, then from the persons having the highest number not exceeding three on the list of those voted for as President, the House of Representatives shall choose, immediately, by ballot, the President. But in choosing the President, the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. *And if the House of Representatives shall not choose a President whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President.*¹¹ The person having the greatest number of votes as Vice-president, shall be the Vice-President, if such number be a majority of the whole number of Electors appointed, and if no person have a majority, then from the two highest numbers on the list, the Senate shall choose the Vice President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice President of the United States.]¹²

The Congress may determine the Time of chusing the Electors, and the Day on which they shall give their Votes; which Day shall be the same throughout the United States.

[The terms of the President and Vice President shall end at noon on the 20th day of January, and terms of Senators and Representatives at noon on the 3rd day of January, of the years in which such terms would have ended if this article had not been ratified; and the terms of their successors shall then begin.

[If, at the time fixed for the beginning of the term of the President, the President elect shall have died, the Vice President elect shall become President. If a President shall not have been chosen before the time fixed for the beginning of his term, or if the President elect shall have failed to qualify, the Vice President elect shall act as President until a President shall have qualified:

¹⁰This provision for the election of President and Vice President was replaced by Amendment XII.

and the Congress may by law provide for the case wherein neither a President elect nor a Vice President elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or Vice President shall have qualified.

[The Congress may by law provide for the case of the death of any of the persons from whom the House of Representatives may choose a President whenever the right of choice shall have devolved upon them, and for the case of the death of any of the persons from whom the Senate may choose a Vice President whenever the right of choice shall have devolved upon them.]¹³

No Person except a natural born Citizen, or a Citizen of the United States, at the time of the Adoption of this Constitution, shall be eligible to the Office of President; neither shall any Person be eligible to that Office who shall not have attained the Age of thirty five Years, and been fourteen Years a Resident within the United States.¹⁴

Constitution of the State of Iowa

Introduction

Iowa was organized as a separate Territory by an act of Congress approved on June 12, 1838, but it was not until 1844 that steps were taken to secure admission into the Union. A constitutional convention met at Iowa City in October, 1844. The Constitution drafted by this convention was twice submitted to the voters of the Territory of Iowa and twice rejected by them, largely because of dissatisfaction with the boundaries of the proposed State.

A second constitutional convention met at Iowa City in May, 1846. The Constitution drafted by this convention was ratified by a majority of 456 votes at an election held on August 3, 1846, and Iowa was admitted as a State on December 28, 1846.

The Constitution of 1846, however, contained a number of provisions which were found to be unsatisfactory in practice. One of these was the prohibition of banking institutions. As a result of this dissatisfaction the legislature in 1855 provided for an election on the question of calling a convention to revise or amend the Constitution of 1846. The vote was 32,390 for a convention and 14,162 against a convention. Delegates were elected on November 4, 1856, and the convention met at Iowa City on January 19, 1857.

The delegates drafted a new Constitution which was submitted to the people at an election held on August 3, 1857, and ratified by a vote of 40,311 to 38,681. This Constitution went into effect by proclamation of the governor on September 3, 1857.

The Constitution of 1857 has, since that time, remained the fundamental law of the State of Iowa; but it has been amended a number of times.

The Constitution¹

WE, THE PEOPLE OF THE STATE OF IOWA, grateful to the Supreme Being for the blessings hitherto enjoyed, and feeling our dependence on Him for a continuation of those blessings, do ordain and establish a free and independent government, by the name of the STATE OF IOWA, the boundaries whereof shall be as follows:

Beginning in the middle of the main channel of the Mississippi River, at a point due East of the middle of the mouth of the main channel of the Des Moines River, thence up the middle of the main channel of the said Des Moines River, to a point on said river where the Northern boundary line of the State of Missouri—as established by the constitution of that State—adopted June 12th, 1820—crosses the said middle of the main channel of the said Des Moines River; thence Westwardly along the said Northern boundary line of the State of Missouri, as established at the time aforesaid, until an extension of said line intersects the middle of main channel of the Missouri River; thence up the middle of the main channel of the said Missouri River to a point opposite the middle of the main channel of the Big Sioux River, according to Nicollett's Map; thence up the main channel of the said Big Sioux River, according to the said map, until it is intersected by the parallel of forty three degrees and thirty minutes North latitude; thence East along said parallel of forty three degrees and thirty minutes until said parallel intersects the middle of the main channel of the Mississippi River; thence down the middle of the main channel of said Mississippi River to the place of beginning.

⁴This amendment was proposed by the General Assembly in 1880; readopted in 1882; ratified at a special election held on June 27, 1882; and certified adopted on June 28, 1882. On April 21, 1883, the Supreme Court of Iowa, in deciding *Koehler and Lange v. ¹⁸The three sections in brackets (34, 35, and 36), with the exception of the part in parentheses in Section 34, were added by an amendment adopted in 1904. But the three sections, as amended, were nullified by a United States District Court decision, *Davis v. Synhorst*, 217 F. Supp. 492 (1963), which held that the 1904 and 1928 amendments, in combination, prevented proportionate representation in both houses of the General Assembly, and were indvidiously discriminatory and in violation of the equal protection clause of the fourteenth amendment to the Constitution of the United States. In a further decree, *Davis v. Synhorst*, 225 F. Supp. 689 (1964), the court authorized the General Assembly to adopt an apportionment plan to serve until new constitutional provisions dealing with apportionment should be adopted. [If, upon the completion of the canvass of votes for Governor and Lieutenant Governor by the General Assembly, it shall appear that the person who received the highest number of votes for Governor has since died, resigned, is unable to qualify, fails to qualify, or for any other reason is unable to assume the duties of the office of Governor for the ensuing term, the powers and duties of the office shall devolve upon the person who received the highest number of votes for Lieutenant Governor until the disability is removed and, upon inauguration, he shall assume the powers and duties of governor.]¹⁹

. . . The Gettysburg Address

The text on the next page was copied from the bronze plaque in the rotunda of the Iowa State Capitol. The address was delivered by President Abraham Lincoln at the Gettysburg Cemetery grounds on November 19, 1863. After the President had delivered his short address, he turned to Marshal Lamon, who had presented him less than five minutes before, and said, "Lamon, that speech won't scour. It is a flat failure."

There are five known copies in President Lincoln's handwriting of the Gettysburg address. The original and second drafts were given by the President to his secretary, John Hay. On April 11, 1916, they were presented to the Government by Colonel Hay's three children.

That Lincoln wrote the address on a rough bit of paper on the way to Gettysburg is an exploded but persistent legend. Actually, the first sheet of the first draft was written in Washington, on Executive Mansion stationery. The corrections and the second page were written in lead pencil, probably at Judge Wills' house in Gettysburg, the night of the 18th.

The second draft, believed to be the reading copy at the dedication ceremony, is assumed to have been written on the 19th, between breakfast and the start to the cemetery. There are changes from the first version, slight matters of punctuation, or a single word—a "that nation" and a "this nation" for "the nation", "consecrated" for "hallowed," "but" for "while," and the like. Lincoln's eye evidently strayed in copying, for "We have come" of the first version was changed to "We are met," then crossed out and the original form restored above it. The first important change is "those who here gave their lives" instead of "those who died here." The sentence, "This we may, in all propriety do," became "It is altogether fitting and proper that we should do this." The entire beginning of the first draft's third paragraph is rephrased. Instead of "It is rather for us, the living, we here be dedicated to the great task remaining before us" ["we here be dedicated" had been corrected in pencil above the scratched-out "to stand here"] Lincoln added a parallel sentence: "It is for us, the living, rather to be dedicated here to the unfinished work which they have, thus far, so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us——".—Data from Library of Congress.

A final addition in the fourth line from the last of the address was made after the word "nation". The two words are "under God." This final form was placed in the rotunda of the State House by the Department of Iowa, Women's Relief Corps, Auxiliary to the Grand Army of the Republic, February 12, 1927.

. . . The Lincoln Plaque

A plaque hangs in the rotunda of the capital which includes the complete Gettysburg address. Below is pictured a portion of the plaque, together with the text of the historical address as it appears on the plaque. Further details on preceding page.

Four score and seven years ago, our fathers brought forth on this continent a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war, we have come to dedicate a portion of that field as a final resting place for those who here gave their lives that the nation might live. It is altogether fitting and proper that we should do this,

But in a larger sense we can not dedicate—we can not consecrate—we can not hallow—this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom; and that government of the people, by the people, for the people, shall not perish from the earth.

Hawkeye Boys State and Girls State

The Iowa Department of The American Legion annual Hawkeye Boys State is held in June at Camp Dodge, Iowa. Based on limitation as to housing facilities 768 high school juniors are chosen by the local American Legion posts to attend this one week schooling in the duties, privileges, rights and responsibilities of American citizenship.

Likewise, each year 304 girls completing their junior or third year of senior high school attend Hawkeye Girls State held on the campus of State College of Iowa, Cedar Falls, in June. This activity is sponsored by the American Legion Auxiliary, Department of Iowa.

The entire program is nonpartisan and nonmilitary. It is a school in statesmanship, an operating, mythical 51st state where the boys and girls elect city, county and state officials and carry out all of the functions of government.

Upon registration the boys are assigned to mythical cities in mythical counties, they become members of either the Federalist or Nationalist party. Political caucuses are held, party platforms adopted, and, in a manner as approximate to Iowa law as possible under the circumstances, candidates for all offices are nominated and elected. The legislature passes laws, the courts try cases, bureaus function, city councils pass ordinances, all under the guidance of experienced counsellors. Hawkeye Boys State was originated in 1938.

The girls also are taught by actual participation the fundamental principles of Iowa government. They follow the process from the establishment of city government, through the filing of nomination papers and campaigning for office to the election and installation of the governor and other state officials. During this week, the auxiliary requests city, county and state officials to talk on their particular duties and responsibilities.

Two girls are selected to attend Girls Nation in Washington, D. C., where they are taught the functions of the federal government.

Two Boys Staters are selected each year to attend Boys Nation, which is held at The University of Maryland. This session is to expose these young men to the functions of federal government.

For The Patriot

United States Flag Etiquette

When the flag is draped down, the blue field always must be at the left. * * * The flag must never be used as a drape, nor as a background for some ornament. * * * The correct shield does not have any stars—just a plain blue field at the top, and seven white and six red stripes.

* * *

The Pledge of Allegiance

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation, under God, indivisible, with liberty and justice for all.

The American's Creed

I believe in the United States of America as a government of the people, by the people, for the people, whose just powers are derived from the consent of the governed; a democracy in a Republic; a sovereign Nation of many sovereign States; a perfect Union, one and inseparable, established upon those principles of freedom, equality, justice, and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it, to support its Constitution, to obey its laws, to respect its Flag, and to defend it against all enemies.

(The creed was written by William Tyler Page, Clerk of the U. S. House of Representatives in 1917. It was accepted by the House of Representatives April 3, 1918.)
