Comment: We support this legislation. Our children have been confused enough about gender by social media, the entertainment industry and organizations like the ALA. Providing young Iowans a space in our public education system where they can learn without being further confused by the idea that gender is somehow a fluid concept is important for their mental health. These socially contagious concepts shouldn't be a part of world language instruction or any public education instruction. We need to get completely back to the basics in our education system.

Comment: This may sound simplistic, but Im for this bill only if it would leave the children alone. There are only 2 genders! Male and female!!
