Comment: I have been looking at this bill and wonder why it was even written. It is as if our legislators asked "how can we make it harder on working families in Iowa?" Well it seems that the answer is to attack individuals who have recently lost their job. I can only assume that is the answer, because why would you take away your first week of unemployment? Why would you give people with more dependents less money? Why would you reduce the amount of time you can find a new career when your facility closes? I will save you lots of work. Kill this bill and move on to something that actually helps Iowans.

Comment: Please dont make things harder on working families I believe this is an absolutely terrible idea at a time when people need it the most

Comment: The fact that this is even being considered during the time of a Pandemic will speak volumes to the people you serve.
