Comment: I support this bill.I was homeschooled starting in 1992 and I plan to homeschool my children, as well. One of the main reasons we chose to homeschool in 1992 was my vaccine injury. We have evaluated individual vaccines for my children for genetic medical reasons, and that decision belongs between parents and doctors, not the education system. Our decision to vaccinate or not is not dependent on the education system nor does the information belong in their system. The Department of education can better use their resources on the public school students.

Comment: I'm in favor of this bill, please support this bill.

Name: Kevin Hendress

Comment: Fully support making these adjustments.

Name: Courtney Collier

Comment: I am in support of this bill HF283.

Name: Miranda B

Comment: As a homeschooling family, I urge you to support this bill. If people want them, they are readily available.

Name: Jessica Swartzendruber

Comment: IN FAVOR of this bill. Its OUR decision to make, not anyone elses.

Name: Anna Wolvers

Comment: I support this bill as a vaccine injured person and as a CPI private instructor for homeschool children. Medical decisions should be left between families and medical providers. Their vax status doesn't impact me as an instructor. And if it's being done in a small,private setting, what does it matter?? Mandates don't work as we've clearly seen the last 3 years. Please vote yes in favor of this. Thank you.

Comment: I support HF 283. Furthermore I believe we have to get back to Gods law/Common Law as a society. This bill should include ALL schools, not just private homeschooling. Vaccines are a private, body autonomy decision, part of our unalienable rights.
