Comment: I support this bill. I would like to suggest an amendment to the wording of this bill that would not just allow but require schools to allow students access to co & extracurricular programs from other schools. With the implementation of ESA's public schools have started to deny private schools access to those programs where they used to allow participation. This hurts the children and education is supposed to be about the children & doing what is best for them. We need this to be a requirement not just an option as it has been in the past.Thank you.
