Mr. Johnson commented that Waste Management has submitted an alternative design model and is awaiting a response from the department. Rep. Wise distributed copies of a response from the EPA to his letter sent August 20, 2007. Mr. Larew directed questions to Mr. Leopold to establish that Iowa's current standards are not as

stringent as those in contiguous states, that out-of-state waste is being brought into Iowa landfills, that the groundwater in Iowa is threatened, and that the new rules align with standards imposed in contiguous states. Rep. Heaton wondered if a soil expert from Iowa State could provide useful information to the committee in regard to permeability of compacted clay. Mr. Tack stated that the department has prepared drawings for this ARRC meeting to illustrate the issues that are under discussion.

Motion to delay

The motion to refer carried.

EDUCATION DEPARTMENT Carol Greta and Jan Friedel represented the department.

ARC 6161B No action on proposed amendments to ch 12 concerning prohibition of discrimination based on sexual orientation and gender identity, the definition of "prekindergarten program," and requirements for antibullying and antiharassment policy. Rep. Wise commended the work of the department. Rep. Upmeyer suggested that the statutory language "including but not limited to" be added to the rules.

ARC 6156B Ms. Greta reported that these proposed amendments to ch 12 regarding core content areas will be terminated and another rule making will be forthcoming. There were no questions.

ARC 6163B No questions on a corrective amendment to ch 17, open enrollment.

ARC 6162B No questions on amendments to ch 56 concerning vocational rehabilitation services.
Special review A review of application procedures for statewide voluntary preschool program grants was requested by Rep. Wise. Ms. Greta explained that instructions for competitive grants are very specific; if an applicant does not adhere to the instructions, the application is not read. Ms. Greta agreed to provide Rep. Upmeyer information about how many students are being served by the program. Rep. Frevert expressed concern about the legislation, which gives preference to areas that have high poverty and no existing program.

INSURANCE DIVISION Susan Voss and Rosanne Mead represented the department. Bob Skow represented the Independent Insurance Agents of Iowa.

ARC 6205B Subrule 39.15(4) establishes producer training requirements for long-term care insurance. Ms. Mead reported that, as a result of public comments received, some technical changes have been made. This subrule, based on an NAIC model, requires an initial eight hours of training and six continuing education hours for all insurance producers licensed to sell long-term care products. Rep. Frevert expressed a concern that if the training requirements are viewed as too burdensome or too costly, community insurance agents may decide not to sell long-term care products. Sen. Connolly suggested that the division serve as a "gatekeeper" and limit the products that are sold in Iowa; Rep. Heaton concurred. Mr. Skow expressed concerns on behalf of the Independent Insurance Agents of Iowa, who are already required to pass an examination and take 36 hours of continuing education every three years. Mr. Skow speculated that these requirements may be counter-productive and may result in fewer agents being willing to sell long-term care products. Mr. Skow agreed that standardization of products would benefit consumers and also asserted that most of the complaints regarding long-term care insurance can be attributed to two insurers who use telemarketers.

Motion to delay
Motion carried Rep. Wise moved a 70-day delay on 39.15(4).
The motion carried; Ms. Voss agreed to meet with Mr. Skow and work toward resolution of concerns.

- ARC 6208B Proposed amendments to ch 76 provide for data-sharing agreements so the department can identify third-party insurers and ensure that Medicaid is the payor of last resort. Mr. Ryan noted that the ACLU will submit comments regarding privacy and due process concerns.
- ARC 6191B No questions on amendments to chs 77 to 79 and 81 concerning durable medical equipment, prosthetic devices and medical supplies.

- ARC 6212B No questions on termination of notice regarding county of residence for the state payment program.
- ARC 5813B Ms. Freudenberg provided an update on HCBS habilitation services and indicated that the department realizes that rates will need to be addressed after data is collected for a year and that uniform cost reporting is a priority for providers. Mr. Aberg expressed appreciation to Mr. Gessow, Ms. Vermeer and the DHS staff for working with the association and noted that there is a need to continue work on rates. Mr. Aberg requested a return to the cost reporting process that was used under ARO or, if that is not possible, an increase in the upper limits.
