

I am strongly against this bill. If there is fraud, show us the evidence. Since trump carried Iowa does that mean that Republicans participated in extensive voter fraud? What other logical conclusion can be made? "Believing" in something, like "voter fraud" does not make it true. Your actions do not support your oath to uphold the US constitution. The bill contains mostly voter suppression. It will be challenged. You want to help Iowans? Focus on getting Iowans vaccinated and reduce the infections in the state. The economy will follow. Inept leadership has affected Iowans negatively for the past 4 years. This is another example. This bill mocks the intelligence of Iowans.
