THE FUTURE OF FREEDOM

Advancing American Freedom worked with 50 allies across the conservative movement to launch its Freedom Agenda in March 2022, providing a compelling framework for candidates across the country to run on at every level of government. As we look toward a new Congress, Advancing American Freedom is rolling out a new series of legislative recommendations to inscribe the vision and values of the Freedom Agenda into law. We are calling on the 118th Congress to reintroduce these important measures and send them to the President's desk to be enacted.

“Americans are proud of our culture and believe that it is worth protecting for future generations. As Americans, we believe that every human being is created in the image of God, and we are endowed by our Creator with the unalienable rights to life, liberty, and the pursuit of happiness. To secure life, the sanctity of human life must be restored to the center of American law.”
