urged the city to agree to reimburse the state for grading and filling East Court avenue. The grading will cost about \$9,000.  
Councilman Myerly informed the council that to pay for improving a street to which the city had no deed would make the members of the council liable to criminal prosecution.  
Mr. Jester was informed and agreed to draw up a new contract for the grading to which the city could legally agree.

(Special to The Capital.)  
SIOUX CITY, Ia., Aug. 18.—Mrs. Kate P. Wright, widow, is named as sole heir and executrix in the will of the late Craig L. Wright, pioneer Sioux City attorney, which was filed for probate Monday. The estate amounts to about \$20,000.

substitute draft for the charter presented by the company. He explained it had just been received from the Chamber of Commerce. The substitute provides:  
That the city shall purchase the plant by paying a dollar down and fifty cents per week.  
"My grandfather used to talk about such a plan," said Councilman Y. Hurrie. "They had to think well of it, it seems."  
Further consideration of the franchise was postponed until next spring.  
**Declare War on Jits.**  
The council also adopted an ordinance by which it is hoped to regulate jitneys in Des Moines. The last jitney bus ordinance was knocked out by the courts because it prohibited jitneys from running along sidewalks. The new ordinance does not contain this provision. Here it is:  
"No motor bus should carry more than seventy-three passengers."  
By using the word "should" the council hopes to prevent a writ of *pluribus unum* being issued and by which the ordinance will be held up. The ordinance provides no penalty for violation.  
Jitneys threaten to carry the case to a justice court.  
The legal department believes the ordinance will stand attack.

### What Is the Truth About Mexico?

Raymond G. Carroll has spent several weeks on the ground investigating conditions. He has written a series of articles dealing with the situation and its leaders for the Des Moines Public Ledger. He has secured exclusive rights to them for this territory. They brand the "watchdog" policy as a failure. Why? They expose a govt. for loot and not for freedom. Mr. Carroll is a thorough writer. If what he says is true the American people should know it. Don't fail to read even on the Mexican situation your duty as an American to know the truth.

CHICAGO, Aug. 19.—Regardless of the light receipts Wednesday, lower prices were in vogue again for packing grades and the hog market was a very dull affair even at another big decline.

Lightweights were wanted and the small supply caused them to sell fairly active at about a steady range as compared with Tuesday. This was the only grade to show any action, but of late the light grades have been selling in a class by themselves and have no bearing on the packing grades.

Big packers were bearish bidders from the start. It seemed with the light receipts that the market should have some action, but this was not the case. When the market did get under way for the packing grades—which was late in the session—prices were 10@15c off from Tuesday. This decline put many of the heavy packers right at \$2.00 under the best lightweights. Present range of prices stands about the lowest of the season.

### In the Cattle Market.

Midweek run of 18,000 proved enough to give killers the advantage and they took it to the extent of forcing general declines again outside of the really prime handy and light steers. These sold steady, but their scarcity was logical reason therefor.

Bulk of other grades, even including som eprime 1,500-lb. and heavier beeves, went 10c down, and many were called 10 @15c lower, after a long session, in which bids were not forthcoming on a big share of the run. The decline measured from early Monday was 15@20c as effecting larger portion of the supply, and there were frequent instances of flat 25c break on medium to pretty good short-feds and the grassers.

This break was not considered illogical in view of the generous receipts this week both here and in the west. Even the beef trade is not acting adversely, supply statistics around the market circle are large enough to weaken the market tone to buyers' advantage. The situation has not shown any bullish tenor for some time past and it is obviously a case of mid-August supplies considerably above expectancy, proving all the demand requires and more, too.

### Horse Market.

The horse market today had a steady tone, but the outlet was somewhat clogged and receipts were slow moving. Eastern buyers are still buying heavy drafters and good to choice of this kind brought \$240@280, while best farm chunks sold at \$160@200 and feeders at \$200@240.

## GALVESTON IN PITIFUL PLIGHT FOLLOWING BIG GALE; MANY HOMELESS

(Continued from Page One.)

can be resumed. Gangs of men are busily engaged in clearing the railroad tracks of the debris which is piled on them between Texas City Junction and Texas City. The warehouse and dock people of Texas City have placed these facilities at the disposal of a committee of Galveston people and as soon as rail communication can be made ample supplies can be sent across the bay in barges and United States transports.

The storm broke over the city at 5 o'clock Monday afternoon. The wind blew water in from the bay flooding the streets and cellars. Business men continued to work until nearly 9 o'clock removing goods to places of safety. At that hour, however, the water was from four to six feet deep in Market street and all who could sought refuge in the higher floors.

The wind, blowing from the north, continued to increase its velocity until about 2 o'clock. At that hour, it is estimated, it had reached a velocity of from 90 to 124 miles an hour. Meanwhile, it had veered from the north around to the east and then came directly out of the south. It was this south wind, sending in the waves from the gulf to break against the sea wall which did the damage to the western part of the city and to the boulevard. At no time, however, say those who spent the night in the Hotel Galveston did the sea run clear across the wall.

The breakers thundered against it, sending the spray high in the air and splashing against the wall with terrific force. So great was this force that the two

acted only a comparatively small loss of life and that the loss of property in the city of Galveston, at least, was small as compared to the storm of 1900.

While a large section of the storm district is yet to be heard from the number of deaths, based on the best obtainable information, follows:

Texas City, 32; Galveston, 14; Virginia Point, 50; Patton, 10; Morgan Point, 7; Hitchcock, 7; Laporte, 7; Port Arthur, 5; Sylvan Beach, 3; Lynchburg, 3; Seabrook, 3; Houston, 5, and Dickinson, 1.

Reports from Beaumont say fifty-six were lost when the dredge San Houston went down in Galveston bay.

### REFUGEES IN TREES.

BEAUMONT, TEX., Aug. 19.—New from the storm stricken district adjacent to Beaumont early today was meager, but no more fatalities were reported. So far as known here nearly a score of persons are dead, with number reported as missing.

Reports from Sabine and Sabine Pass, Tex., and Johnson's Bayou at Leesburg, where heavy loss of life was feared, declared that all persons at those places were safe.

Many narrow escapes from death have been reported. The 400 residents of Johnson's Bayou saved their lives by taking refuge in treetops, leaving their homes to be washed away.
