Death of Dr. Samuel Fullenwider.

Creston, Ia., Nov. 20.—(Special.)—Dr. Samuel Fullenwider, aged ninety-three years, died last evening at 5:30 at the home of his daughter, Mrs. James W. McDill. He will be buried at Mediapolis next Sunday. Deceased was a pioneer resident of Iowa, and extensively known all over the state. He came to Iowa in 1837, settling in Des Moines county. Until ten years ago Burlington was his home, when he left to come to Creston to take up his residence with his daughter, widow of the late Judge J. W. McDill. Mr. Fullenwider was a member of the first state senate, and a prominent physician and politician in the early history of Iowa. During the recent semi-centennial a biographical sketch of his life appeared in The Burlington Hawk-Eye. Deceased was a grand good man, and his demise removes a prominent character from state history.

Burnell Was Indiscreet.

Des Moines, Ia., Nov. 20.—It is asserted that A. S. Burnell, who was convicted at the last term of the federal court for sending illegal matter through the United States mails, that objectionable matter being the Interstate Tracer, which advertised the financial standing of men on the outside cover of the publication, has been indiscreet enough to criticize the federal judge since the verdict of guilty was returned. He is said to have circulated circulars condemning the action of the court. If there is truth in the allegation it may revert to Burnell like a boomerang from the hand of a savage of South Africa.

Editor Brewster's Good Will.

Creston, Ia., Nov. 20.—(Special.)—The statement that Editor Brewster, of the Advertiser, has been offered the managing editorship of the proposed free silver daily at Des Moines, which is going the rounds of the press, is a little premature. Mr. Brewster's connection with the proposed newspaper venture is only in the nature of good will. He believes there is a splendid field in Des Moines for such a paper, and his energetic fight for the white metal during the last campaign has probably been the cause for associating his name with the editorship.

State Dairy Association Adjourns.

Marshalltown, Ia., Nov. 20.—The State Dairy Association, which has been holding its twentieth annual con-

MT. PLEASANT.

Mt. Pleasant, Ia., Nov. 20.—(Correspondence.)—The next term of the district court will convene in this city on the 30th of November. Yesterday was the last day for filing new cases, and the docket is in the hands of the printers. It shows two hundred and two cases on its pages, sixty-five of which are new ones, since the August term, finished up in October. The law docket has seventy-seven, of which fourteen are new ones; the equity docket has sixty, of which fifteen are new ones; the probate docket has fifty-two, of which twenty-five are new ones, and the criminal docket has thirteen, of which eleven are new ones. Judge W. S. Withrow will preside during the term. It will probably last about three weeks.

Miss Emily Jane Elliott, of Rome, was before the commissioners of insanity this afternoon, consisting of Dr. A. W. McClure, Attorney A. W. Kinkead and County Clerk C. H. Tribby. She was adjudged to be of unsound mind and was sent to the insane hospital for treatment.

The funeral of Charles O'Connor, who died last Tuesday night after an illness of about two years of a complication of diseases, was held this forenoon from the Alphonsus Catholic church, Rev. J. J. Basler conducting the services. The remains were interred in the Forest Home cemetery. He was a man about thirty-five years of age, and had many friends, who will sadly miss him.

Little Nellie Jones, the seven-year-old daughter of Mr. and Mrs. W. A. Jones, on East Washington street, died about 5 o'clock this morning from an attack of diphtheria. She had been very sick for several days. The funeral was strictly private and the remains were interred in the Forest Home cemetery this afternoon. No new cases have made their appearance here for several days, and only one case is at present under the care of a physician, that of the Saunders boy, the others being nearly well. This makes the fourth death from the disease. The reports in some of the Iowa papers indicating a large number of cases are without foundation. Dr. Day, the health officer, is doing his work faithfully, and should receive the hearty support of all citizens to enforce the health laws.

Yesterday afternoon injunction proceedings were begun to prevent the Mt. Pleasant Gas and Electric Light Co. from lightning the city under a five-year contract given it at a recent meeting of the city council. The petitioners are John Elliott, Thomas Jones, H. L.

of the latter's serious illness. There the congressman will go to Mich., to visit a daughter, Mrs. Thummel, and will go hence to Washington D. C., where he expects to be the last of next week for the next session of congress. He has been visited at his home in this city by many candidates and numerous delegations in the interest of candidates for postoffices in the congressional district, listening to them attentively and courteously declining to settle contests ahead of elections to occur. He said yesterday, he had 3,000 letters to answer, most of which were yet to be opened. On reaching Washington he will employ two or four stenographers and reply to his correspondents.—Clarinda

ELECTRICITY KILLED HIM.

Edward W. Curry's Death The Result of a Secret Order Initiation
 A Capital: Edward W. Curry, a member of the democratic state central committee, died at the Savery house yesterday morning from blood poisoning the result of wounds received while initiated into the Elks lodge in this city. The injury was accidental. There was no intention to do anything more than to frighten Mr. Curry, as is customary in initiations into secret societies, but the means taken to do this was rather severe and as it turned out, was exceedingly dangerous. Mr. Curry was placed in some sort of an electric chair, it is reported, and a mild current was turned on, the intention being to terrify him and make him jump, and to sport for those who had gone through with it before. But he didn't jump, so the current was slightly increased. Still he was not made to jump, so the current was made still stronger and that repeated and he was left sitting there apparently not affected. Very soon it was noticed that smoke was emerging from the chair, and the victim was dragged from it in a few moments. It was then discovered that he had been severely burned. His trousers were cut off and he was fairly cooked in the torture chair. The sufferer was taken to the Savery house, where the medical aid was summoned and it

used as a postoffice and the warrant charges him with breaking and entering one of the United States postal rooms. The warrant was sworn out in the federal court and sent to Sheriff Davenport who had Clem arrested by Constable Simpson, of Shannon. Simpson brought Clem to Creston today and the young man was placed in jail. He was taken to Des Moines Saturday by Sheriff Davenport for trial.

IOWA PIONEER DEAD.

Dr. Samuel Fullenwider Passed Away Last Evening Aged Ninety-three.

Died, at 5:30 last evening, at the home of his daughter, Mrs. J. W. McDill, on West Montgomery street, Dr. Samuel Fullenwider, aged ninety-three years, two months and twelve days. The remains will be taken to Mediapolis, Iowa, tonight, where funeral services will be held Sunday afternoon at 2 o'clock. Interment will take place at the Mediapolis cemetery.

Dr. Fullenwider was one of the pioneers of Iowa, having settled in the eastern part of the state in 1837. He was born in Shelby county, Kentucky, in 1803, where he resided until he removed to Iowa. He practiced medicine over sixty years, the greater portion of the time in Des Moines, this state. Dr. Fullenwider was a prominent figure in the early history of Iowa. He was a member of the first Iowa senate and helped frame many of our first state laws. He was for many years prominent in political and financial circles and had a state wide reputation as a physician. Dr. Fullenwider lived in Des Moines county

ous and every way ample and party did it ample justice. After thanking the donors for their generous gifts by Mrs. Harkness all separated for their respective homes.

MATRIMONIAL ENTANGLEMENT

Alice Knopp Indicted by a Grand Jury Polk County.

Alice Pressley Knopp, the young man who journeyed from Des Moines to Creston last summer for the purpose of marrying George Knopp, is in trouble. Her matrimonial venture proven quite troublesome and she has a couple of indictments hanging over her. Alice, it will be remembered, was married to Knopp in this city by a Creston minister. She left George Des Moines taking quite a roll of money. She used the United States mails to entangle Knopp in the matrimonial net and now Uncle Sam is after her. The Des Moines Leader tells Alice's latest troubles as follows:

Alice Whissend Knopp, the woman who under the name of Pressley duped George Knopp into a matrimonial alliance and succeeded in confiding out of \$3,500, was indicted on two counts. The first count accuses her of using the mails with intent to defraud in that she wrote to Knopp and induced him to enter into the agreement thus secured the money from him. The second count accuses her of tempting to defraud Oscar Hoffman, Sioux City, by the same means. Hoffman is editor of the Volksfreund, a German paper published at Sioux City and it is understood the testimony will show that he answered the advertisements of Alice, corresponded with her relative to a marriage and that he was practically engaged to her at one time but backed out when she made proposals that he lend her money.

The alleged crime on which the indictment is based was one that at the time excited the greatest interest and evidence of cunning and nerve on the part of the defendant. Alice Whissend Knopp is the daughter of John Whissend, of this city. Last spring she advertised that she wanted a husband, and in April opened correspondence with George Knopp, who was a Muscatine man

Consumption

AND ITS CURE

TO THE EDITOR:—I have an absolute remedy for Consumption. By its timely use thousands of hopeless cases have been already permanently cured. So proof-positive am I of its power that I consider it my duty to send two bottles free to those of your readers who have Consumption, Throat, Bronchial or Lung Trouble, if they will write me their express and postoffice address. Sincerely,
J. A. SLOCUM, M. C., 183 Pearl St., New York.

ry was born in Indiana, July
 He came to Iowa with his
 1856 and they settled on a
 ecatur county. In 1863, at
 15, young Curry enlisted in
 Iowa cavalry and served to
 t the war. He had an honor-
 record, but he was always
 est about it and never told
 his deeds during the great con-
 ter the war he attended the
 academy, at Garden Grove,
 ears, and in 1869 graduated
 law department of the State
 y, at Iowa City, the course
 g one year. He returned to
 entered the practice of law,
 has remained since. He has
 ry successful lawyer, having
 a large trial practice, especially
 m. line. The business of
 was almost wholly trial busi-
 e had one of the largest law
 ral libraries in this part of the
 l one of the best in Iowa. The
 just last year completed the
 rent of a large suite of offices

until about ten years ago, when he came
 to Creston to make his home with his
 daughter, Mrs. J. W. McDill, and he
 has since resided in this city.

The deceased was a remarkable man
 in many ways. He was one of those
 sturdy pioneers who laid the founda-
 tion of the great commonwealth of
 Iowa and his name will be closely asso-
 ciated with that of the state. Enter-
 prising and public spirited he was at
 all times considered one of the state's
 best citizens and he ever had the confi-
 dence and respect of his fellowmen.
 Dr. Fullenwider lived to a ripe old age.
 He lived to see the young state of his
 adoption grow into one of the most
 powerful and influential of the union,
 and it was certainly a comforting
 thought to him to know that he had a
 hand in shaping the destinies of his be-
 loved Iowa. Dr. Fullenwider had
 passed the ninety-third mile stone be-
 fore death came, but he lived the nine-
 ty-three years well and the world is bet-
 ter for the influence of his life. For
 some years he has been feeble at times,
 and his eyesight has been poor but his
 mental faculties remained bright and
 clear almost to the last.

His life was a grand noble one; an in-
 spiration to those who knew him and
 had been associated with him. He fully
 demonstrated man's power and ability
 to surmount difficulties and great ob-
 stacles, and he also showed to the world
 that life is not in vain. The good old
 pioneer doctor and legislator has gone
 home to an eternal rest; to reap a re-
 ward well earned by good deeds and
 noble actions. His life work is finished
 but the years he spent on earth were
 faithful ones, and the influence of his
 beautiful life will live on and on, bene-
 fitting family, state and nation.
