Rialto Theatre Installs Two New Projection Lamps

O. V. Goodman, proprietor of the Rialto theatre, Monday announced the installation of two new Simplex high intensity projection lamps at the Rialto as another step in his constant endeavor to provide the patrons of his theatre with the best in entertainment.

The old lamps which the new have replaced produced a dim yellow light, while the new lamps give a snow white light so necessary to the projection of color pictures.

The new lamps relieve much of the eye strain and enhance the beauty and appreciation of the moving pictures shown, and patrons of the theatre will notice there is more depth to the pictures.

The picture was taken on a foggy morning last week and shows the top of Jack Frost's aristocracy on a spruce pine tree in the Charles Meyer yard on Fifth avenue.
