Mr. J. McGuire of Watkins is here to see his mother who is quite sick.

Mr. and Mrs. Howard Forney of Brooklyn were called here Saturday on account of the serious illness of Mrs. Forney's sister.

On March 30 Mr. W. A. Patrick was taken suddenly ill at his office from an affection of the stomach, but after a few day's treatment was thought to be so improved that he would be able to resume business soon. Later, however, he had a fainting spell, followed by internal hemorrhage which left him very weak. He rallied, however, and again hopes were entertained of a speedy recovery, but the fainting spells returned, he lost his strength and gradually sank until on Monday, April 6, he breathed his last. Mr. Patrick has been a citizen and business man of Victor for 36 years, and during that time has had the full confidence and respect of the community. He was a man of force, with decided opinions, but always courteous and thoughtful for others. His home life was of an ideal sort. He lived to see the trees which he planted about his home grow to be three feet in diameter, and the town and surrounding country develop from almost a wilderness to a populous and wealthy country. It is much to have lived through such a period, but it is vastly more so to have lived as to die with the love and respect of all.

land, it is reported, found the weights at Victor had been tampered with. That they had been drilled out, making a sort of "sinker," meaning a half hundred or more to a draft. It will be well for the farmers who are to weigh on any public scale to call for a test occasionally. —Marengo Democrat.

From reading the above item one would suppose that the Victor scales were a "false balance," and that the farmers have been getting the worst of it. The scale inspector, it is true, found the weights light, but if the writer of the above had thought twice he would have known that a light weight overweighs. The fact about the Victor scale is that it overweighs fifteen and one half pounds to every thousand, and the seller gets the benefit. The item in the Democrat is likely to do harm to the Victor buyers who are jealous of their reputation for fair dealing, and it is believed the Democrat will hasten to correct an unintentional wrong.

Miss Doretta Smith is lending her sister, Mrs. John Mohr, a helping hand.

Mrs. J. F. Schwiebert and Cena Intermar called on the inhabitants of the parsonage recently.

Last Saturday and Sunday Mrs. D. Brandt had a severe sick spell with her old complaint. We are glad to note, however, that she is somewhat improved.

Miss Kate Helmer has returned from Clanpinville, Ill., where she visited home folks several weeks. She is now clerking at Mr. Dougherty's store in Gurensey.

The young people of the German Baptist congregation recently had an interesting debate at one of their meetings. The subject for discussion was: "Shall our society build a church edifice?" Both sides were ably presented and a new church may be the result. We understand a subscription list has been started.

Schroeder and Cook claim to keep everything in the hardware line. Cook thought he had struck an exception the other day when a boy called for a left handed monkey wrench, but found that Schroeder had laid in a stock without consulting him. The boy was supplied and the reputation of the store saved, but it was a close shave.

NEIGHBOR WOODMEN:—I understand there are men in our community who are telling some of our neighbors that our insurance is worthless. This statement is not only untrue it is malicious. Your insurance is worth one hundred cents on the dollar. The sooner our order can free itself from traitors and old line insurance men, and elect more men to office whom the old line companies can neither buy nor jar the fraternalism in their hearts, the better it will be for the Modern Woodmen. Neighbors, the difference between old line insurance and fraternal insurance is just this: in the fraternal company the members reap the benefits while in the old line

The funeral services for Mr. W. A. Patrick were held at the family home at ten o'clock a. m. on Saturday, Rev. R. D. Douglass preaching the sermon, a beautiful tribute to the hoary head which is a crown of glory after a life of righteousness. A large number of people were in attendance, among whom gray heads predominated, testifying to the life long respect entertained for Mr. Patrick. The remark of one was, "Those who knew him best and longest loved him most."

The cornerstone of the new building for the department of Anatomy was placed in position March 3. The interesting ceremonies connected with this event were witnessed by a large number of students, members of the faculties of the University, and other citizens. The anatomy building is 55 feet by 55 feet in its dimensions, 3 stories high, and will be built of Bedford stone. It will consist of lecture rooms, dissecting rooms with splendid equipments, office, and other rooms. It cost when complete, \$55,000 and the furnishings will cost about one-fourth of that amount. The building is modern in every respect, and will be as fine as is possessed in any medical school in the west.—Iowa City Republican.
