

PUBLIC HEALTH DEPARTMENT[641]

Adopted and Filed

Pursuant to the authority of 2014 Iowa Acts, Senate File 2360, section 6, the Department of Public Health hereby adopts new Chapter 154, “Medical Cannabidiol Act Registration Card Program,” Iowa Administrative Code.

These rules implement the Medical Cannabidiol Act, 2014 Iowa Acts, Senate File 2360, which permits the possession and use of cannabidiol as defined in the legislation. The rules add the definitions of “cannabidiol,” “department,” “intractable epilepsy,” “neurologist,” and “primary caregiver” as provided for in Senate File 2360, as well as definitions for “date of expiration,” “date of issuance,” “department of transportation,” “patient,” “permanent resident,” and “state.” The rules provide for the receipt by the Department of a written recommendation from a neurologist and the process for the issuance of a cannabidiol registration card to a patient or primary caregiver. The rules further provide for the protection of confidential patient and primary caregiver information.

Notice of Intended Action was published in the August 6, 2014, Iowa Administrative Bulletin as **ARC 1571C**. A total of 41 written and oral comments were received from 31 individuals. The majority of comments recommended changes to the legislation and therefore fell outside the scope of the administrative rules. Examples include, but are not limited to, expression of support for implementation of medical marijuana laws that cover additional medical conditions, concerns over the ease with which cannabidiol oil can be accessed, and encouragement for the development of an electronic application system.

Several comments did pertain to the rules published under Notice. The comments:

- Recommended changes to the definition of “permanent resident,”
- Requested inclusion of additional options for acceptable forms of valid photo identification in the application process,
 - Requested an expedited renewal process,
 - Suggested inclusion of the recommending neurologist’s contact information on the Medical Cannabidiol Act Registration Card,
 - Expressed concerns about having to go to a physical location (e.g., a local Department of Transportation driver’s license issuance site),
 - Recommended removal of the requirement that a patient must be physically examined by the recommending neurologist before a written recommendation is issued,
 - Suggested language to ensure that access to public information about the program is appropriate to provide upon request.

Changes to the rules published under Notice include a revised definition of “permanent resident” and inclusion of an additional option for valid photo identification in the application process. These revisions were based on review of similar requirements by the Department of Transportation as well as examples from other states. Language relating to the renewal process was revised to allow for increased flexibility. To better align the rules with 2014 Iowa Acts, Senate File 2360, the Department removed the requirement that the recommending neurologist physically examine a patient before issuing a written recommendation. Language was added to clarify that aggregate and statistical information that does not provide any patient identifiers can be made available to the public upon request.

The State Board of Health adopted these amendments on September 10, 2014.

After analysis and review of this rule making, no impact on jobs in Iowa has been found.

These rules are intended to implement 2014 Iowa Acts, Senate File 2360.

These rules will become effective on January 30, 2015.

The following amendment is adopted.

Adopt the following new 641—Chapter 154:
