b. Services should be provided to all patients regardless of the patient’s ability to pay, taking into consideration the availability of those programs available in the state that serve the medically indigent.

c. Applicants will demonstrate a willingness to accept referrals for CT services from all area physicians.

203.3(6) Quality. (Iowa Code section 135.64(1) “i,” “k”)

a. Data on use and costs of the CT scanners should be submitted to the Iowa department of public health as a condition of approval. (Iowa Code section 135.64(1) “a,” “h”)

b. All scanners.

(1) All applicants must demonstrate that they have on their staff or will acquire on their staff a full-time diagnostic radiologist, trained in the use of the CT scanner, or other physicians with comparable training and expertise.

(2) All applicants must document that they have on their medical staff individuals who are qualified to operate a scanner and interpret and act upon the diagnostic results. Such documentation may include reference to board certification, apprenticeship, academic credentials or such other qualifications that would prompt a medical staff to accept the responsibility for offering this new service. Applicants who intend to acquire staff with the desired expertise should provide signed letters of intent from the incoming medical personnel. Applicants who intend to upgrade the specialty skills of their staff should document a plan for training their current staff in the use of CT scanners.

(3) All applicants should have a complement of other diagnostic modalities available. Applicants seeking body scanners should also have available ultrasound and conventional X-ray services.

(4) All applicants should have the facilities for treating the conditions diagnosed by imaging with the scanner or should demonstrate referral agreements with treatment facilities, in the event that the scanner will be used as a screening device.

(5) All applicants should have on their staff or available on a consultative basis the services of a biomedical engineer or medical physicist, with special training in CT applications. These functions may also be provided by contract with the scanner manufacturer.

203.3(7) Continuity. (Iowa Code section 135.64(1) “g,” “h,” “i,” “k”)

a. The applicant should demonstrate that an attempt was made to solicit letters of support from area hospitals and physicians to indicate a community need for the proposed service.

b. The applicant should provide documentation that emergency medical transport services will be available.

c. The applicant should demonstrate an emphasis on the availability of outpatient CT procedures, and that an appropriate percentage of all CT procedures on head and whole body units will be done on an outpatient basis.

203.3(8) Acceptability. (Iowa Code section 135.64(1) “k”) Providers of CT services should indicate a willingness to observe the rights of patients.

641—203.4(135) Long-term care.

203.4(1) Purpose and scope.

a. These standards are measures of criteria found in Iowa Code section 135.64(1) “a” to “g.” Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these standards include applications to:

(1) Construct, develop, offer new, modernize, replace, renovate, or relocate intermediate care or skilled nursing care beds in nursing homes or hospitals.

(2) Expand bed capacity in intermediate care or skilled nursing care facilities or designated units in hospitals.

203.4(2) Definitions.

“Intermediate care facility” or “ICF” means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which is certified by a physician, to three or more individuals, not related to the administrator or owner thereof within the third degree of consanguinity, who by reason of illness, disease, or physical or mental infirmity require nursing services that can be provided only under the direction of a registered nurse or a licensed practical nurse.

“Rural counties” means all counties not designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

“Skilled nursing facility” or “SNF” means any institution, place, building, or agency providing for a period exceeding 24 consecutive hours accommodation, board, and nursing services, the need for which is certified by a physician, to three or more individuals not related to the administrator or owner thereof within the third degree of consanguinity who by reason of illness, disease, or physical or mental infirmity require continuous nursing care services and related medical services, but do not require hospital care. The nursing care services provided must be under the direction of a registered nurse on a 24-hour-per-day basis.

“Urban counties” means those counties designated by the U.S. Census as SMA (Standard Metropolitan Area) counties.

203.4(3) Availability and need. (Iowa Code section 135.64(1) “c,” “d,” “e,” “g,” “h”)

a. The following formula shall be used as a means of projecting the approximate number of intermediate and skilled nursing care beds needed to serve the projected population five years into the future:

(1) Rural counties:

$[\text{.09}(65 + \text{population}) + \text{.0015}(64 - \text{population})] \times 110\%$ equals total long-term care bed need

Combined SNF and ICF bed need equals $\frac{2}{3}$ (total long-term care bed need)

Assumed RCF bed need equals 1/3 (total long-term care bed need).

(2) Urban counties:

$[.07(65 + \text{population}) + .0015(64 - \text{population})] \times 110\%$ equals total long-term care bed need

Combined SNF and ICF bed need equals 2/3 (total long-term care bed need)

Assumed RCF bed need equals 1/3 (total long-term care bed need).

(3) Department of economic development population projections are adopted for use in the determination of long-term care bed need.

(4) The department of public health will calculate long-term care bed need figures annually, using population projections five years into the future.

b. For purposes of comparing “need” to “existing” beds in a given county, the following shall be considered in the calculation of “existing” beds:

(1) ICF and SNF beds licensed at freestanding facilities in the county.

(2) Additional ICF and SNF beds previously approved through certificate of need but not yet licensed.

(3) ICF and SNF beds in designated units in hospitals in the county.

c. The statistical calculation of bed need shall serve as a guideline for the health facilities council in reviewing need for the proposed long-term care beds. Other factors that may be considered by the council include, but are not limited to:

(1) The availability and utilization of other ICF and SNF services in the county, or within the applicant’s service area.

(2) The availability and utilization of other long-term care services in nearby hospitals, such as skilled care available through the swing bed program.

(3) The availability of supportive living arrangements that may or may not be licensed as residential care facilities (RCF).

(4) The availability of home health and other in-home services.

(5) The availability of other services to the elderly.

(6) The availability of ICF and SNF services in neighboring counties.

(7) Utilization by out-of-state residents of facilities in counties bordering other states, where the applicant provides evidence that in-migration of long-term care patients exceeds out-migration to the bordering state.

(8) Programs and services directed at special populations whose needs cannot otherwise be met, or whose needs cannot be met cost-effectively at other facilities.

d. In documenting need for a project, the applicant shall identify the service area and target population, including a description of the methodology used by the applicant in determining need for the requested beds and the expected sources of referrals. The applicant shall document that the number of beds requested is appropriate to address the identified need. The applicant shall also identify how the target population is currently being cared for, and what hardship is being experienced by the absence of the proposed beds.

203.4(4) Quality. (Iowa Code section 135.64(1) “i,” “k”) The applicant shall document that the applicant has contacted the health facilities division of the department of inspections, appeals, and licensing to conform with physical standards, staffing requirements, and other licensing requirements to assess the potential for provision of quality care at the facility. When necessary, the applicant shall attempt to arrange an on-site visit to the facility to determine compliance with physical requirements, and shall provide documentation of this site visit or attempts to arrange such a site visit.

203.4(5) Continuity. (Iowa Code section 135.64(1) “g,” “h,” “k”)

a. The applicant shall document the relationship of the facility’s proposed services to other health and long-term care services in the community such as physician and hospital services, habilitation, rehabilitation, transportation or other services. The facility should be capable of providing or arranging for the provision of a continuum of long-term care services.

b. The facility should be capable of providing or arranging for the provision of a comprehensive program of coordinated patient services. The applicant shall provide evidence of contracts for services, appropriate staffing patterns and ratios, and licensure of personnel as necessary.

203.4(6) Accessibility and acceptability. (Iowa Code section 135.64(1) “c,” “d”)

a. Population subgroups that have traditionally been underserved, such as adolescents, the elderly, women, racial minorities, mentally ill, intellectually disabled, and developmentally disabled should be considered when planning for or reviewing long-term care facilities.

b. The applicant shall document to what extent Medicaid patients will be served by the proposed beds, using past Medicaid utilization as an indicator or, in the case of a new facility, projecting anticipated Medicaid utilization.

203.4(7) Costs and financial feasibility. (Iowa Code section 135.64(1) “e,” “f,” “i,” “p”)

a. The applicant shall identify capital and operating costs associated with the project, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. Construction costs shall be in line with construction costs of other similar projects.

c. The applicant shall provide budgets for the first three years of operation, including documentation of all assumptions used. The budget shall include anticipated sources of revenue, including the percentage of revenue from private pay, Medicaid, Medicare and other patient revenues.

d. Proposed charges per patient day should be justifiable when compared to current charges of other similarly licensed facilities in the applicant’s service area, or other similar facilities elsewhere in the state. If charges are significantly higher or lower, the applicant shall provide a description of proposed programs or services that explain the difference in charges.

These rules are intended to implement Iowa Code section 135.72.

641—203.5(135) Magnetic resonance imaging services standards.**203.5(1) Purpose and scope.**

a. These standards are measures of some of those criteria in Iowa Code section 135.64(1) “a” to “q.” Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these standards include:

- (1) Proposals to commence or expand the capacity of magnetic resonance imaging services.
- (2) Proposals to replace a magnetic resonance imaging unit.
- (3) Any other applications that relate to magnetic resonance imaging.

203.5(2) Definitions.

“Area” means the community or a metropolitan statistical area (as defined by the U.S. Office of Management and Budget and used by the U.S. Census Bureau).

“CT (computed tomography) procedure” means a CT study of a single site of anatomic interest during an individual patient visit.

“Magnetic resonance imaging (MRI)” means a diagnostic modality that employs a combination of magnetic and radio frequency fields and computers to produce images of body organs and tissues.

“MRI procedure” means each discrete MRI study of one patient.

“MRI unit” means the essential equipment and facility necessary to operate one MRI system.

203.5(3) Availability and need. (Iowa Code section 135.64(1) “c,” “d,” “e,” “g,” “h”)

a. Applicants in areas with no other MRI units. Applicants must document a future utilization of reasonably projected MRI procedure volume of at least 2,000 MRI procedures for the fiscal year period after projected installation.

b. Applicants in areas with one or more MRI units currently in operation or approved by certificate of need for operation.

(1) Applicant must meet the requirement of need described in Iowa Code section 203.12(3) “a.”

(2) The other MRI unit(s) within the area must have been operating at a minimum of 2,000 MRI procedures annually (or 500 in three months), or proportionately more if the MRI unit runs more than one ten-hour shift.

(3) If the annual utilization of the other MRI unit(s) within the area has been below 2,000 procedures, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the 2,000 procedure level must be demonstrated.

c. Applicants seeking to replace an MRI unit.

(1) The applicant must demonstrate that the existing MRI unit has been operating at the level of at least 2,000 procedures during the most recent annual period.

(2) If the applicant's annual utilization has been below 2,000 procedures, the applicant must reasonably project future utilization above that level or demonstrate reasons for permanently utilizing the equipment below that level.

d. Applicants seeking to add an additional MRI unit.

(1) The applicant must demonstrate that the existing MRI unit(s) has been operating at the level of at least 3,500 procedures during the most recent annual period.

(2) The applicant must demonstrate that the demand for an additional MRI unit significantly exceeds the 2,000 procedures annually.

(3) If the applicant's annual utilization of the existing MRI unit(s) has been below 3,500 procedures, the applicant must reasonably project future utilization above that level or demonstrate reasons for permanently utilizing the equipment below that level.

203.5(4) *Quality and continuity.* (Iowa Code section 135.64(1) "g," "h," "i," "k")

a. The proposed MRI unit should function as a component of a comprehensive inpatient or outpatient diagnostic service. The proposed MRI unit must have the following modalities on-site or through referral arrangements:

- (1) Ultrasound.
- (2) Computed tomography.
- (3) Angiography.
- (4) Nuclear medicine.
- (5) Conventional radiography.

b. The proposed MRI unit must be located in a facility that has, either in-house or through referral arrangement, the resources necessary to treat most of the conditions diagnosed or confirmed by MRI. The following medical specialties must be available during MRI service hours on-site or by referral arrangements: neurology or neurosurgery, oncology and cardiology.

c. A proposal to provide new or expanded MRI must include satisfactory assurances that the services will be offered in a physical environment that conforms to federal standards, manufacturer's specifications, and licensing agencies' requirements.

d. The applicant must provide evidence that the proposed MRI equipment has been certified for clinical use by the U.S. Food and Drug Administration or will be operated under an institutional review board whose membership is consistent with U.S. Department of Health and Human Services regulations.

e. Applicants for MRI should document that the necessary qualified staff are available to operate the proposed unit. The following minimum staff shall be available to the MRI unit:

(1) A board eligible or board certified radiologist or any other board eligible or board certified licensed physician whose exclusive responsibility for at least a two-year period prior to submission of a certificate of need request has been in the acquisition and interpretation of clinical images. This individual shall have a knowledge of MRI through training, experience, or documented postgraduate education. The individual shall also have training with a functional MRI facility.

(2) Qualified engineering personnel, available to the institution during MRI service hours, with training and experience in the operation and maintenance of the MRI equipment.

(3) Diagnostic radiologic technologists or other certified technologists with expertise in computed tomography or other cross-sectional imaging methods, at a staffing level consistent with the hospital's expected MRI service volume.

(4) Other appropriate physicians shall be available during MRI service hours in clinical specialties such as neurology or neurosurgery, oncology and cardiology.

f. The applicant shall demonstrate how emergencies within the MRI unit will be managed in conformity with accepted medical practice.

203.5(5) *Accessibility and acceptability.* (Iowa Code section 135.64(1) "c," "d")

a. MRI facilities should have adequate scheduled hours to avoid an excessive backlog of cases and to meet the needs of the communities the scanners are meant to serve.

b. Selection of patients for clinical MRI studies must guarantee equal access to all persons regardless of insurance coverage or ability to pay.

203.5(6) Costs and financial feasibility. (Iowa Code section 135.64(1) “e,” “f,” “i,” “p”)

a. The applicant shall identify capital and operating costs associated with the proposed MRI unit, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. The applicant shall provide budgets for the first three years of operation, including documentation and justification of all assumptions used.

c. The applicant must document its projected average cost per procedure and charge per procedure for the first three years. Charges for MRI should be reasonably related to service cost, and comparable to MRI charges at other facilities in the state.

d. The applicant shall demonstrate that alternatives were considered and the proposed application is the most cost-effective and will accomplish the goals of the project.

641—203.6(135) Positron emission tomography services standards.

203.6(1) Purpose and scope.

a. These standards are measures of some of those criteria in Iowa Code section 135.64(1) “a” to “q.” Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these standards include:

- (1) Proposals to commence or expand the capacity of positron emission tomography services.
- (2) Proposals to replace a positron emission tomography unit.
- (3) Any other applications that relate to positron emission tomography.

203.6(2) Definitions.

“Area” means the community or a metropolitan statistical area (as defined by the U.S. Office of Management and Budget and used by the U.S. Census Bureau).

“CT (computed tomography)” means an imaging method in which a cross-sectional image of the structures in a body plane is reconstructed by a computer program from the X-ray absorption of beams projected through the body in the image plane.

“Cyclotron” means an apparatus for accelerating protons or neutrons to high energies by means of a constant magnet and an oscillating electric field.

“MRI (magnetic resonance imaging)” means a diagnostic modality that employs a combination of magnetic and radio frequency fields and computers to produce images of body organs and tissues.

“Radiopharmaceutical” means a radioactive pharmaceutical used for diagnostic or therapeutic purposes.

“PET procedure” means an image-scanning sequence derived from a single administration of PET, equated with a single injection of the tracer.

“Positron emission tomography (PET)” means an imaging method in which positron-emitting radionuclides, which are produced either by a cyclotron or generator, and a nuclear camera are used to create pictures of organ function rather than structure.

“SPECT (single photon emission computed tomography)” means a camera-based imaging system using the radionuclides in the routine practice of nuclear medicine.

203.6(3) Availability and need. (Iowa Code section 135.64(1) “c,” “d,” “e,” “g,” “h”)

a. Applicants in areas with no other PET units.

(1) Applicants should demonstrate a reasonable potential utilization of a PET unit based on diversified inpatient and outpatient case mix thresholds including:

1. Intracranial cases
 - Primary brain tumors 50/year
 - Metastasis 100/year
 - Cerebral vascular disease 200/year
 - Organic brain disease and dementia/psychiatric diagnoses (including epilepsy-seizure disorders) 500/year
 - Spinal 100/year
2. Cardiovascular cases

- Ischemic heart disease (including acute and chronic infarction) 1,200/year
 - 3. Neoplasms (head, neck, thorax (excluding heart), abdomen, pelvic, prostate, and musculoskeletal 1,300/year
 - 4. If the application is for a basic unit, the above case mix and numbers should be adjusted according to the proposed use of the unit.
- (2) Applicants should have other diagnostic capabilities, on-site or through referral arrangements, with appropriate volumes including:

| | <u>Proposed Threshold</u> |
|--|---------------------------|
| Nuclear medicine imaging services | 5,600 |
| Single photon emission computed tomography (including brain, bone, liver, Gallium and Thallium stress) | 1,600 |
| CT | 8,000 |
| MRI | 2,400 |

(3) Applicants should demonstrate secondary and tertiary service capability, on-site or through referral arrangements, including cardiac surgery, cardiology, internal medicine, general surgery, hematology/oncology, neurology, pathology, thoracic surgery and psychiatry.

b. Applicants in areas with one or more PET units currently in operation or approved by the certificate of need program for operation.

(1) Existing PET units within the area (whether basic or enhanced) should have been operating at a minimum of 1,000 PET procedures during the most recent annual period as reported to the certificate of need program according to Iowa Code section 203.13(6)“*e.*”

(2) Reserved.

203.6(4) *Quality and continuity.* (Iowa Code section 135.64(1)“*g,*” “*h,*” “*i,*” “*k*”)

a. The proposed PET unit should function as a component of a comprehensive inpatient or outpatient diagnostic service. The proposed PET unit should have the following modalities (and capabilities) on-site or through referral arrangements:

- (1) Computed tomography.
- (2) Magnetic resonance imaging.
- (3) Nuclear medicine — (cardiac, SPECT).
- (4) Conventional radiography.

b. The proposed PET unit should be located in a facility that has, either in-house or through referral arrangement, the resources necessary to treat most of the conditions diagnosed or confirmed by PET. The following medical specialties should be available during PET service hours on-site or by referral arrangements: cardiology, neurology, neurosurgery, oncology, and psychiatry.

c. A proposal to provide new or expanded PET must include satisfactory assurances that services will be offered in a physical environment that conforms to federal standards, manufacturer’s specifications, and licensing agencies’ requirements. The following areas are to be addressed:

- (1) Quality control and assurance of radiopharmaceutical production of generator or cyclotron-produced agents;
- (2) Quality control and assurance of PET tomograph and associated instrumentation;
- (3) Radiation protection and shielding; and
- (4) Radioactive emissions to the environment.

d. The applicant will provide evidence that the proposed PET equipment has been certified for clinical use by the U.S. Food and Drug Administration or will be operated under the approval and authority of an institutional review board whose membership is consistent with U.S. Department of Health and Human Services regulations.

e. Applicants for PET will document that the necessary qualified staff are available to operate the proposed unit. The applicants will document the PET training and experience of the staff. The following minimum staff will be available to the PET unit:

(1) One or more nuclear medicine imaging physician(s) available to the PET unit who have been licensed by the state for the handling of medical radionuclides and whose primary responsibility for at least a one-year period prior to submission of the certificate of need application has been in acquisition and interpretation of tomographic images. This individual shall have knowledge of PET through training, experience, or documented postgraduate education. The individual shall also have training with a functional PET facility.

(2) Qualified PET radiochemist or radiopharmacist personnel, available to the facility during PET service hours, with at least one year of training. The individual(s) will demonstrate experience in the testing of chemical, radiochemical, and radionuclidic purity of PET radiopharmaceutical syntheses.

(3) Qualified engineering and physics personnel, available to the facility during PET service hours, with training and experience in the operation and maintenance of the PET equipment.

(4) Qualified radiation safety personnel, available to the facility at all times, with training and experience in the handling of short-lived positron-emitting nuclides.

(5) Certified nuclear medicine technologists with expertise in computed tomographic nuclear medicine imaging procedures, at a staffing level consistent with the proposed center's expected PET service volume.

(6) Other appropriate personnel will be available during PET service hours that may include certified nuclear medicine technologists, computer programmers, nurses, and radiochemistry technicians.

f. The applicant will demonstrate how emergencies within the PET unit will be managed in conformity with accepted medical practice.

203.6(5) Accessibility and acceptability. (Iowa Code section 135.64(1) "c," "d")

a. PET facilities should have adequate scheduled hours to avoid an excessive backlog of cases.

b. Selection of patients for clinical PET studies will guarantee equal access to all persons regardless of insurance coverage or ability to pay.

c. In addition to accepting patients from participating institutions, facilities performing clinical PET procedures should accept appropriate referrals from other local providers. These patients will be accommodated to the extent possible by extending the hours of service and by prioritizing patients according to standards of need and appropriateness rather than source of referral.

203.6(6) Costs and financial feasibility. (Iowa Code section 135.64(1) "e," "f," "i," "p")

a. The applicant will identify capital and operating costs associated with the proposed PET unit, identify sources of funding to cover those costs, and demonstrate that the project is financially feasible.

b. The applicant will provide budgets for the first three years of operation, including documentation and justification of all assumptions used.

c. The applicant will document its projected average cost per procedure and charge per procedure for the first three years. Charges for PET should be reasonably related to service cost and comparable to PET charges at other facilities in the state.

d. The applicant should verify whether the service is eligible for reimbursement by public and private third-party payers.

e. The applicant will demonstrate that alternatives were considered and the proposed application is the most cost-effective and will accomplish the goals of the project.

This rule is intended to implement Iowa Code section 135.64.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 661—Chapter 61
“Fire Safe Cigarette Certification Program”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 101B.3(4)
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 101B and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 61, “Fire Safe Cigarette Certification Program,” and implements Iowa Code chapter 101B.3(4) in accordance with the goals and directives of Executive Order 10 (Jan. 10, 2023). The rulemaking establishes an application process and standards for payments, certification, test methods, and package marking for fire safe cigarettes. The rulemaking provides cigarette manufacturers with standards applicable to the certification of fire safe cigarettes. Consumers who purchase cigarettes are ensured that cigarettes certified as fire safe have gone through the testing and certification process outlined in these rules.

The rules also set forth the administrative process for enforcing Iowa Code chapter 101B and 661—Chapter 61, including the process for violations and penalties.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Cigarette manufacturers intending to sell their products in Iowa incur costs related to testing their products, retaining reports of testing, certification fees, and packaging.
 - Classes of persons that will benefit from the proposed rulemaking:
Consumers who purchase cigarettes in Iowa and cigarette manufacturers benefit from this rulemaking. The rulemaking provides cigarette manufacturers with standards applicable to certification of fire safe cigarettes. Consumers who purchase cigarettes are assured that cigarettes certified as fire safe have gone through the testing and certification process outlined in these rules.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Cigarette manufacturers intending to sell their products in Iowa incur costs related to testing their products, retaining reports of testing, certification fees, and packaging.

- Qualitative description of impact:

Implementing the requirements of Iowa Code chapter 101B ensures safety for the manufacturer and the consumer. The rulemaking provides cigarette manufacturers with standards applicable to certification of fire safe cigarettes. Consumers who purchase cigarettes are ensured that cigarettes certified as fire safe have gone through the testing and certification process outlined in these rules.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are staff time needed to ensure compliance with the requirements of Iowa Code chapter 101B and these rules. The Department has one staff member at 1.0 full-time equivalent (FTE) position who, among other duties, is responsible for the review of applications for certification. The staff member verifies that applications are complete and that the products meet statutory requirements. The staff member also processes payments of fees required for certification. An average of ten applications for certification are received each year; therefore, costs to the agency are minimal.

- Anticipated effect on state revenues:

Certification fees generated for cigarettes regulated under this chapter vary from year to year, depending on the product to be certified. On average, the Department collects \$33,000 in fees annually. Certification fees are established in Iowa Code section 101B.5(5). These fees go to the General Fund of the State.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This rulemaking implements statutory requirements set forth in Iowa Code chapter 101B. The rulemaking does not add costs to the Department or public in excess of what is required by Iowa Code chapter 101B.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no less restrictive alternatives or less costly methods for the rules in Chapter 61 because the chapter implements requirements found in Iowa Code chapter 101B.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods were considered by the agency because this rulemaking implements statutory requirements.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no alternative methods identified for this chapter because this rulemaking implements statutory requirements.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Exempting small businesses from adhering to the rules would jeopardize public safety. The risk to the public would be greater than potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 61 and adopt the following **new** chapter in lieu thereof:

CHAPTER 61
FIRE SAFE CIGARETTE CERTIFICATION PROGRAM

661—61.1(101B) Definitions. For purposes of these rules, the following definitions apply:

“*Certified fire safe cigarette*” means a unique cigarette brand style that meets the following criteria:

1. The unique cigarette brand style has been tested in accordance with the test method prescribed in Iowa Code section 101B.4 or has been approved pursuant to Iowa Code section 101B.4.
2. The unique cigarette brand style meets the performance standard specified in Iowa Code section 101B.4 or has been approved pursuant to Iowa Code section 101B.4.
3. A written certification for the unique cigarette brand style has been filed by the manufacturer with the department and in accordance with rule 661—61.4(101B).
4. Packaging for the unique cigarette brand style has been marked in accordance with rule 661—61.5(101B).

“*Cigarette*” means a cigarette as defined in Iowa Code section 453A.1, but does not mean a tobacco product as defined in Iowa Code section 453A.1.

“*Department*” means the same as defined in Iowa Code section 101B.2(3).

“*Fire safe cigarette*” means a cigarette certified pursuant to this chapter.

“*Manufacturer*” means the same as defined in Iowa Code section 101B.2(4).

“*Sale*” means the same as defined in Iowa Code section 101B.2(8).

“*Unique cigarette brand style*” means a cigarette with a unique combination of the following:

1. Brand or trade name.
2. Style, such as light or ultra light.
3. Length.
4. Circumference.
5. Flavor, such as menthol or chocolate, if applicable.
6. Presence or absence of a filter.
7. Type of package, such as soft pack or box.

“*Wholesaler*” means the same as defined in Iowa Code section 101B.2(10).

661—61.2(101B) Certification and fee. A certification application and fee shall be submitted to the department online pursuant to Iowa Code section 101B.5. An application is incomplete unless all required information is submitted, including required attachments and fees. Applications will not be processed until complete.

661—61.3(101B) Test method, performance standard, test report. Unless otherwise excepted therein, each unique cigarette brand style submitted for certification under this chapter shall meet all of the criteria in Iowa Code section 101B.4.

61.3(1) Alternate test method. A manufacturer proposing an alternate test method and performance standard pursuant to this rule will submit such proposal to the department on a form provided by the department.

a. The department will approve or deny the proposed alternate test method and performance standard within 60 days of receipt of such proposal and will send notification of such approval or denial by certified mail, return receipt requested, to the address provided by the manufacturer.

b. The department may approve an alternate test method and performance standard if it is determined to be equivalent to the test method and performance standard prescribed in Iowa Code section 101B.4. If an alternate test method and performance standard is approved pursuant to this rule, the manufacturer may employ the alternate test method and performance standard to certify the cigarette in accordance with Iowa Code section 101B.4.

61.3(2) Acceptance of alternate test method approved by another state. A manufacturer proposing an alternate test method and performance standard approved by another state will use the procedure specified in subrule 61.3(1) and provide documentation verifying that the alternate test method and performance standard have been approved by another state as provided in Iowa Code section 101B.4(9).

61.3(3) Retention of reports of testing. A manufacturer shall maintain copies of all test reports pursuant to Iowa Code section 101B.4(10).

61.3(4) Testing performed or sponsored by the department. Testing performed or sponsored by the department will be conducted in accordance with Iowa Code section 101B.4.

61.3(5) Changes to the manufacture of a certified fire safe cigarette. If a manufacturer with any cigarette certified under this chapter makes any changes to the cigarette thereafter, retesting of the cigarette may be required in accordance with Iowa Code section 101B.5(6).

661—61.4(101B) Notification of certification. A manufacturer or wholesaler shall provide copies of certifications pursuant to Iowa Code section 101B.6.

661—61.5(101B) Marking fire safe cigarette packaging. Cigarettes that have been certified in accordance with Iowa Code section 101B.5 shall be marked as provided in Iowa Code section 101B.7. The recommended marking is the letters “FSC” displayed in accordance with any of the methods described in Iowa Code section 101B.7.

661—61.6(17A) Violations and penalties. A person who violates any provision of Iowa Code chapter 101B or of this chapter is subject to a civil penalty of an amount no greater than specified by Iowa Code section 101B.8. Notice of a civil penalty will be provided by mail or by personal service. A person subject to a civil penalty may appeal the imposition of the penalty by requesting a contested case hearing, in writing, within 20 days. An appeal of a civil penalty is subject to the provisions of 481—Chapters 9 and 10 governing contested cases.

These rules are intended to implement Iowa Code chapter 101B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 661—Chapter 235
“Licensing for Commercial Explosive Contractors and Blasters”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 101A.5 and 272C.12
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 101A and 17A and section 272C.12

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:00 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 235, “Licensing for Commercial Explosive Contractors and Blasters,” and establishes a commercial explosive licensing program pursuant to Iowa Code chapter 101A. The proposed rules outline the entities and individuals who are required to obtain a license and explain the application process and conditions that must be satisfied to obtain a commercial explosive contractor license or a commercial explosive blaster license. The proposed rules inform licensees and the public of the procedure for submitting complaints and the reasons for which a license may be denied, suspended or revoked and the process by which the decision may be appealed. Pursuant to Iowa Code section 272C.12, the proposed rules also explain the process and requirements for licensure of persons licensed in other jurisdictions.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the public. Applicants and licensees bear the cost of fees for initial licensure and renewals. Applicants or licensees whose licenses are denied, suspended or revoked may incur costs related to civil penalties or court costs to appeals. Licensees may incur costs for the retention of records as required by the rules.

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 101A, including licensure criteria, the investigation of complaints, and processing violations.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this rulemaking. The rulemaking ensures the safety of the public by licensing commercial explosive contractors and blasters. Licensees benefit from clear and consistent application of standards applicable to the industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Applicants and licensees bear the cost of fees for initial licensure and renewals, which are established in Iowa Code section 101A.2(2). Applicants or licensees whose licenses are denied, suspended or revoked may incur costs related to such proceedings or the costs of an appeal. Licensees may incur costs for the retention of records as required by the rules.

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 101A, including licensure criteria, the investigation of complaints, and processing violations.

The Department has one staff member at 1.0 full-time equivalent (FTE) position who, among other duties, is responsible for the review of each license application. The staff person verifies that applications are complete and that applicants meet statutory requirements for education and experience. The staff person also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies since the license term is January 1 of the year of issue through December 30, three years from issue, and the license fees are prorated by the month. The average number of license applications processed per year is 130 and the average fees collected per year total \$55,000. Most complaints relate to unlicensed contractors or blasters. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Qualitative description of impact:

Implementing the requirements of Iowa Code chapter 101A ensures safety for licensees and the general public. The proposed rules primarily provide procedural guidelines implementing Iowa Code chapter 101A and do not significantly impact licensees beyond ensuring that the safety goals and substantive requirements of Iowa Code chapter 101A are enforced.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 101A, including licensure criteria, the investigation of complaints, and processing violations, and are fully set forth above in the quantitative description of the impact.

- Anticipated effect on state revenues:

Pursuant to Iowa Code section 101A.12, fees collected in issuing licenses are deposited in the state General Fund. Notably, all fees are set forth in Iowa Code chapter 101A and are not prescribed in rule. In 2022, \$147,254.46 in fees was collected and deposited to the state General Fund.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This rulemaking implements statutory requirements set forth in Iowa Code chapter 101A. The rulemaking does not add costs to the Department or public in excess of what is required by Iowa Code chapter 101A.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no less restrictive alternatives or less costly methods because the rules implement requirements found in Iowa Code chapter 101A.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

There are no alternative methods that were considered by the agency because this rule implements statutory requirements.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There are no alternative methods that were considered by the agency because this rule implements statutory requirements.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety and the appropriate qualifications for licensees, many of whom may be operating small businesses. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from a small business. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 235 and adopt the following **new** chapter in lieu thereof:

CHAPTER 235

LICENSING FOR COMMERCIAL EXPLOSIVE CONTRACTORS AND BLASTERS

661—235.1(101A) Definitions. Definitions set forth in Iowa Code section 101A.1 are incorporated herein by reference. For purposes of these rules, the following definitions also apply:

“Actual possession” means when a person is in immediate possession or control of explosive materials (e.g., an employee who physically handles explosive materials as part of the production process; or an employee, such as a blaster, who actually uses explosive materials).

“Applicant” means an individual employed by a commercial explosive contractor or person associated with a commercial explosive contractor who meets the definition of “employee possessor” or “responsible person” as defined in this chapter.

“Commercial explosive blaster” or *“blaster”* means any individual who conducts blasting or is in charge of or responsible for loading or detonation of any explosive material.

“Commercial explosive contractor” or *“contractor”* means any business whose employees are engaged in the manufacture, importation, distribution, sale, or commercial use of explosives in the course of their employment.

“Constructive possession” means when an employee lacks direct physical control over explosive materials but exercises dominion and control over the explosive materials, either directly or indirectly through others (e.g., an employee at a construction site who keeps keys for magazines in which explosive materials are stored, or who directs the use of explosive materials by other employees; or an employee transporting explosive materials from a licensee to a purchaser).

“Employee possessor” means an individual who has actual or constructive possession of explosive materials during the course of the individual’s employment.

“Offense directly relates” refers to either of the following:

1. The actions taken in furtherance of an offense are actions customarily performed within the scope of practice of a licensed profession.
2. The circumstances under which an offense was committed are circumstances customary to a licensed profession.

“Responsible person” means an individual who has the power to direct the management and policies of the commercial explosive contractor pertaining to explosive materials. For example, responsible persons generally include sole proprietors and explosives facility site managers. In the case of a corporation, association, or similar organization, responsible persons generally include corporate directors and officers, as well as stockholders who have the power to direct management and policies.

661—235.2(101A) Licenses required. Except as specifically exempted by another provision of state or federal law, any business whose employees are engaged in the manufacture, importation, distribution, sale, or commercial use of explosives in the course of their employment shall be required to hold a current commercial explosive contractor license issued pursuant to this chapter. Any individual, except as specifically exempted by another provision of law, who conducts blasting or is in charge of or responsible for loading or detonation of any explosive material shall be required to hold a current commercial explosive blaster license issued pursuant to this chapter. A commercial explosive blaster license is not required to authorize a person solely to transport explosives from one location to another, to assist a licensed blaster, to train under a licensed blaster, or to engage in the manufacture of explosives.

NOTE: Iowa Code section 101A.1 excludes “fireworks” from the definition of “explosive.” Consequently, working with fireworks does not necessitate a blaster license, nor does the manufacture, importation, distribution, sale, or commercial use of fireworks necessitate a commercial explosive license.

661—235.3(101A,272C) License application process.

235.3(1) Application for commercial explosive contractor or commercial explosive blaster license. Applications for a commercial explosive contractor license or a commercial explosive blaster license are available on the department’s website. The application shall be filed no later than 30 days prior to the date of beginning work in this state or on which an existing license expires.

235.3(2) Submission of application and required information. A completed application for a license shall be submitted to the department at the address specified on the department’s website. An application will not be considered complete unless all required information is submitted, including required attachments and fees, and will not be processed until it is complete.

235.3(3) License fee. Each license application shall be accompanied by a license fee as set forth in Iowa Code section 101A.2(2). The department will waive any fee charged to an applicant for a license if the applicant’s household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

235.3(4) License duration. Licensure will normally be for three years and expire on December 31 of the third year after it is issued, except that a license issued in December of any year expires on December 31 after two years have passed from the date on which the license was issued.

235.3(5) Criminal history. An applicant is subject to a national criminal history check pursuant to Iowa Code section 101A.2(3).

235.3(6) Veterans and military service members. Any individual while serving honorably on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1, applying for licensure as a commercial explosive contractor or blaster should apply for licensure in accordance with 481—Chapter 7.

661—235.4(101A) Issuance of commercial explosive contractor license. A commercial explosive contractor license will be issued if all of the following conditions have been satisfied:

235.4(1) All items required on the application have been completed, and any items the department deems necessary to verify have been appropriately verified.

235.4(2) No applicant for whom commercial explosive licensure is sought nor any person who will have, at any time, possession of explosives in the course of employment with the prospective contractor licensee may:

- a.* Have been convicted of any offense involving explosives or firearms;
- b.* Have been previously disqualified from being licensed to handle explosives in this or any other state. The department may grant a license to a person previously disqualified if the department is satisfied that the condition or conditions that led to the disqualification have been corrected;
- c.* Be an unlawful user of or be addicted to controlled substances;
- d.* Have been adjudged mentally incompetent at any time by any court, been committed by any court to any mental institution, received inpatient treatment for any mental illness in the past three years, or received treatment by a health care professional for a serious mental illness or disorder which impairs a person's capacity to function normally and safely, both toward themselves and others.

235.4(3) The applicant has at least one responsible person or employee licensed as a commercial explosive blaster.

661—235.5(101A) Issuance of a commercial explosive blaster license. A commercial explosive blaster license will be issued if all of the following conditions have been satisfied:

235.5(1) The applicant is an employee of a licensed commercial explosive contractor.

a. If, after a commercial explosive blaster license is issued, such employment ceases, the employing contractor and the commercial explosive blaster shall each notify the department within three business days of the final day of employment that the employment has ceased, and the commercial explosive blaster license shall be suspended until the commercial explosive blaster is again employed with a licensed commercial explosive contractor.

b. Upon reemployment, the employer shall notify the department that the commercial explosive blaster is again employed with a licensed commercial explosive contractor, and the department will reinstate the commercial explosive blaster license as soon as practical, provided that the commercial explosive blaster is not disqualified from holding a license pursuant to any provision of this chapter.

c. If the department finds that a commercial explosive blaster is disqualified from holding a license, the department shall revoke the license.

235.5(2) All items required on the application have been completed and any items the department deems necessary to verify have been verified and found to be true.

235.5(3) The applicant is not or has not been:

- a.* Convicted of any offense involving explosives or firearms;
- b.* Previously disqualified from being licensed to handle explosives in this or any other state. The department may grant a license to a person previously disqualified if the department is satisfied that the condition or conditions that led to the disqualification have been corrected;
- c.* An unlawful user of or addicted to controlled substances;
- d.* Adjudged mentally incompetent at any time by any court or committed by any court to any mental institution; or
- e.* A recipient of inpatient treatment for any mental illness in the past three years or a recipient of treatment by a health care professional for a serious mental illness or disorder which impairs a person's capacity to function normally and safely toward themselves or others.

235.5(4) The applicant has satisfactorily completed training approved by the department for the handling and use of explosives as described on the department's website. The training may be provided by the employer or by a reputable third party knowledgeable about the storage, handling, and use of explosives. The department may accept related job experience of 640 hours or more in lieu of training if the experience is documented by a sworn affidavit provided by the employing commercial explosive contractor licensee.

EXCEPTION: The department may issue a commercial explosive blaster license to a person licensed or certified as a blaster in another state, provided that the department finds that the requirements for licensing or certification in the other state are comparable to those provided for in this rule.

235.5(5) An applicant for a renewal license has completed continuing education from a nationally recognized institution in professional explosives storage, handling, and use.

235.5(6) The applicant is 21 years of age or older.

661—235.6(272C) Licensure of persons licensed in other jurisdictions.

235.6(1) For the purposes of this rule, “issuing jurisdiction” means the duly constituted authority in another state that has issued a professional license, certificate, or registration to a person.

235.6(2) Notwithstanding any other provision of law, a commercial explosive contractor license or commercial blaster license will be issued without an examination to a person who establishes residency in this state or to a person who is married to an active duty member of the military forces of the United States and who is accompanying the member on an official permanent change of station to a military installation located in this state if all of the following conditions are met:

a. The person is currently licensed by at least one other issuing jurisdiction as a commercial explosive contractor or commercial blaster with a substantially similar scope of practice and the license is in good standing in all issuing jurisdictions in which the person holds a license.

b. The person has been licensed by another issuing jurisdiction for at least one year.

c. When the person was licensed by the issuing jurisdiction, the issuing jurisdiction imposed minimum educational requirements and, if applicable, work experience, and the issuing jurisdiction verifies that the person met those requirements in order to be licensed in that issuing jurisdiction.

d. The person previously passed an examination required by the other issuing jurisdiction for licensure, if applicable.

e. The person has not had a license revoked and has not voluntarily surrendered a license in any other issuing jurisdiction or country while under investigation for unprofessional conduct.

f. The person has not had discipline imposed by any other regulating entity in this state or another issuing jurisdiction or country. If another jurisdiction has taken disciplinary action against the person, the department shall determine if the cause for the action was corrected and the matter resolved. If the department determines that the matter has not been resolved by the jurisdiction imposing discipline, the department shall not issue or deny a license to the person until the matter is resolved.

g. The person does not have a complaint, allegation, or investigation pending before any regulating entity in another issuing jurisdiction or country that relates to unprofessional conduct. If the person has any complaints, allegations, or investigations pending, the department shall not issue or deny a license to the person until the complaint, allegation, or investigation is resolved.

h. The person pays all applicable fees.

i. The person does not have a criminal history that would prevent the person from holding the commercial explosive contractor license or commercial blaster license applied for in this state.

235.6(3) A person licensed pursuant to this rule is subject to the laws regulating the person’s practice in this state and is subject to the jurisdiction of the department marshal.

235.6(4) This rule does not apply to any of the following:

a. The ability of the department to require the submission of fingerprints or completion of a criminal history check.

b. The ability of the department to require a person to take and pass an examination specific to the laws of this state prior to issuing a license. If the department requires an applicant to take and pass an examination specific to the laws of this state, the department will issue an applicant a temporary license that is valid for a period of three months and may be renewed once for an additional period of three months.

235.6(5) Except as provided in subrule 235.7(2), a person applying for a license in this state who relocates to this state from another state that did not require a license to practice as a commercial explosive contractor or commercial blaster may be considered to have met any education, training, or work experience requirements imposed by the department in this state if the person has three or more

years of related work experience with a substantially similar scope of practice within the four years preceding the date of application as determined by the department.

235.6(6) A person applying for a license in this state under the requirements of this subrule shall submit the request in writing to the department providing proof of residency in this state and documentation to verify all conditions are met under this subrule.

661—235.7(101A) Inventory and records. Each licensed commercial explosive business shall maintain records as referenced in the National Fire Protection Association (NFA) chapter 495, “Explosive Materials Code,” as adopted by reference in rule 661—231.1(101A).

661—235.8(101A) Complaints. Complaints regarding the performance of any licensed contractor or blaster, failure of a licensed contractor or blaster to meet any of the requirements established in Iowa Code chapter 101A or this chapter or any other provision of law, or operation as a commercial explosive contractor or commercial blaster without licensure may be filed with the department. Complaints should be as specific as possible and clearly identify the contractor or blaster against whom the complaint is filed. Complaints should be submitted in writing to the department as indicated on the department’s website. A complaint may be submitted anonymously, but if the name and contact information of the complainant are provided, the complainant may be notified of the disposition of the complaint.

661—235.9(101A,252J) Grounds for suspension, revocation, or denial of commercial explosive licenses; appeals.

235.9(1) The department may refuse to issue a contractor or blaster license sought pursuant to Iowa Code section 101A.2 or may suspend or revoke such a license for any of the following reasons:

a. Finding that the applicant or licensee is disqualified by any provision of federal or Iowa law from possessing explosives, firearms, or offensive weapons.

b. Finding that the applicant or licensee lacks sufficient knowledge of the use, handling, and storage of explosive materials to protect the public safety.

c. Finding that the applicant or licensee falsified information in the current or any previous license application.

d. Finding that the applicant or licensee has been adjudged mentally incompetent at any time by any court, been committed by any court to any mental institution, received inpatient treatment for any mental illness in the past three years, or received treatment by a health care professional for a serious mental illness or disorder which impairs a person’s capacity to function normally and safely, both toward themselves and others.

e. Proof that the licensee or applicant has violated any provision of Iowa Code chapter 101A, this chapter, or 661—Chapter 231.

f. Receipt of a certificate of noncompliance from the child support recovery unit of the Iowa department of health and human services, pursuant to the procedures set forth in Iowa Code chapter 252J.

g. Receipt of a certificate of noncompliance from the centralized collection unit of the department of revenue, pursuant to Iowa Code chapter 272D.

h. Conviction of a felony offense, if the offense directly relates to the profession or occupation of the applicant, in the courts of this state or another state, territory or country. Conviction as used in this subrule includes a conviction of an offense which if committed in this state would be a felony without regard to its designation elsewhere and includes a finding or verdict of guilt made or returned in a criminal proceeding even if the adjudication of guilt is withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state constitutes conclusive evidence of the conviction. If an applicant is denied under this provision, the applicant shall be notified of the specific reasons for the denial.

i. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the applicant’s profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

- j.* Willful or repeated violations of the provisions of this chapter.
- k.* Disqualifications pursuant to Iowa Code section 272C.15.

235.9(2) An applicant or licensee whose application is denied or a licensee whose license is suspended or revoked for a reason other than receipt of a certificate of noncompliance from the child support recovery unit or a certificate of noncompliance from the department of revenue may appeal that action by requesting a contested case hearing, in writing, within 20 days of the department's determination. An appeal is subject to the provisions of 481—Chapters 9 and 10 governing contested cases. Applicants or licensees whose licenses are denied, suspended, or revoked because of receipt by the department of a certificate of noncompliance issued by the child support recovery unit or the department of revenue are subject to the procedures set forth in 481—Chapter 8.

235.9(3) The department will notify the employing commercial explosive contractor licensee of the denial, suspension, or revocation of a commercial explosive blaster license.

These rules are intended to implement Iowa Code chapters 101A and 272C.

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 265, “Consumer Fireworks Retail Seller Licensing and Wholesaler Registration.” The proposed rules implement Iowa Code sections 10A.519 and 10A.520 as transferred by 2023 Iowa Acts, Senate File 514 (formerly Iowa Code sections 100.19 and 100.19A). The rules explain the safety standards that govern the sale of consumer fireworks, the circumstances under which consumer fireworks may be sold in the state, the application process and associated fees for a consumer fireworks retail sales license, and the requirements for wholesaler registration. The rules explain the Consumer Fireworks Fee Fund and the uses of the funds collected. The rules establish and explain the Local Fire Protection and Emergency Medical Service Providers Grant Program.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the public. Applicants and licensees bear the cost of fees for licensure or registration. Applicants bear the costs associated with submission of an application and the required accompanying documentation; such costs include site plans and liability insurance. Licensees whose licenses are revoked may incur costs related to appeals of the Department’s decision.

Costs to the Department include staff time spent ensuring compliance with the requirements of Iowa Code sections 10A.519 and 10A.520, which are incorporated into this rulemaking. The costs to the

Department from this rulemaking do not exceed any costs incurred due to Iowa Code sections 10A.519 and 10A.520. Costs to the Department are covered by the Consumer Fireworks Fee Fund established in Iowa Code section 10A.519(7). Licensing and registration fees go to the Fund and are appropriated to the Department to be used to fulfill the responsibilities of the Department for administration and enforcement of Iowa Code sections 10A.519 and 10A.520.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and consumer fireworks retail sales licensees and wholesaler registrants benefit from these rules. The rulemaking ensures licensees and registrants are meeting required safety standards. The rulemaking ensures the safety of the public by providing standards that must be met for licensure or registration.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Applicants and licensees bear the cost of fees for licensure or registration, which are statutorily prescribed. Applicants bear the costs associated with submission of an application and the required accompanying documentation; such costs include site plans and liability insurance. Licensees whose licenses are revoked may incur costs related to appeals of the Department's decision.

Costs to the Department include staff time spent ensuring compliance with the requirements of Iowa Code sections 10A.519 and 10A.520, which are currently incorporated into this rulemaking. The costs to the Department from this rulemaking do not exceed any costs incurred due to statutory requirements. Costs to the Department are covered by the Consumer Fireworks Fee Fund established in Iowa Code section 10A.519(7). Licensing and registration fees go to the Fund and are appropriated to the Department to be used to fulfill the responsibilities of the Department for the administration and enforcement of Iowa Code sections 10A.519 and 10A.520.

The Department has one staff member at 1.0 full-time equivalent (FTE) position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for the site. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because some sites are not renewed and new sites are added. The license term is annual, April 1 through March 31. The average number of retail seller license applications processed per year is approximately 600 and the average fees collected per year total \$270,000. The number of wholesaler registration applications processed per year is 13 and the fees collected per year total \$13,000. Most complaints relate to alleged sales of non-consumer-grade fireworks or unlicensed sites. These complaints are typically resolved through investigation or the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Qualitative description of impact:

Implementing the requirements of Iowa Code sections 10A.519 and 10A.520 ensures safety for licensees and the general public, particularly through review of site plans and inspection of sites open to sell consumer fireworks.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include staff time spent ensuring compliance with the requirements of Iowa Code sections 10A.519 and 10A.520, which are currently incorporated into this rulemaking. The costs to the Department from this rulemaking do not exceed any costs incurred due to statutory requirements. Costs to the Department are covered by the Consumer Fireworks Fee Fund established in Iowa Code section 10A.519(7). Licensing and registration fees go to the Fund and are appropriated to the Department to be used to fulfill the responsibilities of the Department for the administration and enforcement of Iowa Code sections 10A.519 and 10A.520.

The Department has one staff member at 1.0 FTE position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for the site. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because some sites are not renewed and new sites are added. The license term is annual, April 1 through March 31. The average number of retail seller license applications processed per year is approximately 600 and the average fees collected per year are \$270,000. The number of wholesaler registration applications processed per year is 13 and the fees collected per year are \$13,000. Most complaints relate to alleged sales of non-consumer-grade fireworks or unlicensed sites. These complaints are typically resolved through investigation or the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

The Department utilizes three paid contract staff for site plan reviews and partners with local authorities having jurisdiction to complete site inspections. Local authorities having jurisdiction are compensated for each site inspection completed.

- Anticipated effect on state revenues:

This rulemaking has no anticipated impact on state revenues. Fees collected are deposited in the Consumer Fireworks Fee Fund pursuant to Iowa Code section 10A.519(7). Moneys in the Fund are appropriated to the Department to be used to fulfill the responsibilities of the Department for the administration and enforcement of Iowa Code sections 10A.519 and 10A.520.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This rulemaking implements statutory requirements set forth in Iowa Code sections 10A.519 and 10A.520. The rulemaking does not add costs to the Department or public in excess of what is required by Iowa Code sections 10A.519 and 10A.520.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no less restrictive alternatives or less costly methods because the rules implement requirements found in Iowa Code sections 10A.519 and 10A.520.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

There are no alternative methods that were considered by the agency because this rulemaking implements statutory requirements.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There are no alternative methods that were considered by the agency because this rulemaking implements statutory requirements.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety and the appropriate qualifications for licensees and registrants, many of whom are operating small businesses. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from a small business. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 265 and adopt the following **new** chapter in lieu thereof:

CHAPTER 265

CONSUMER FIREWORKS RETAIL SELLER LICENSING AND WHOLESALER REGISTRATION

661—265.1(100) Definitions. The following definitions apply:

“*APA 87-1*” means the same as defined in Iowa Code section 10A.519(1)“*a.*”

“*Commercial fireworks*” means large firework devices that are explosive materials intended for use in firework displays and designed to produce visible or audible effects by combustion, deflagration, or detonation, as set forth in 27 CFR 555 and 49 CFR 172 in effect on January 1, 2001, and APA Standard 87-1, Standard for the Construction and Approval for Transportation of Fireworks, Novelties, and Theatrical Pyrotechnics.

“*Community group*” means the same as defined in Iowa Code section 10A.519(1)“*b.*”

“*Consumer fireworks*” means the same as defined in Iowa Code section 10A.520(1)“*a.*”

“*Display fireworks*” means the same as defined in Iowa Code section 727.2(1)“*b.*”

“*First-class consumer fireworks*” means the same as defined in Iowa Code section 10A.519(1)“*c.*”

“*NFPA 1124*” means the National Fire Protection Association (NFPA) Standard 1124, published in the Code for the Manufacture, Transportation, Storage, and Retail Sales of Fireworks and Pyrotechnic Articles, 2006 edition.

“*Retailer*” means the same as defined in Iowa Code section 10A.519(1)“*d.*”

“*Second-class consumer fireworks*” means the same as defined in Iowa Code section 10A.519(1)“*e.*”

“*Serious violation*” means any of the following activities occurring at a licensed retail location selling consumer fireworks:

1. Commission of a criminal offense, punishable by one year or more incarceration.
2. Selling consumer fireworks to a minor.
3. Selling commercial fireworks.

“*Wholesaler*” means the same as defined in Iowa Code section 10A.520(1)“*b.*”

661—265.2(100) Sale of consumer fireworks—safety standards. Any retailer or community group offering for sale at retail any first-class or second-class consumer fireworks, as described in American Pyrotechnics Association (APA) Standard 87-1, as published in December 2001, shall do so in accordance with the National Fire Protection Association (NFPA) Standard 1124, published in the Code for the Manufacture, Transportation, Storage, and Retail Sales of Fireworks and Pyrotechnic Articles, 2006 edition (hereinafter referred to as “APA 87-1” and “NFPA 1124,” respectively).

661—265.3(100) Sales allowed. A retailer or community group that is issued a license pursuant to this chapter is authorized to sell consumer fireworks as defined in this chapter. However, sales are permitted only as follows.

265.3(1) Prohibited sale or transfer to persons under 18 years of age.

a. A retailer or community group shall not transfer consumer fireworks, as described in APA 87-1, chapter 3, to a person who is under 18 years of age.

b. A person, firm, partnership or corporation shall not sell consumer fireworks to a person who is less than 18 years of age.

265.3(2) Exceptions for persons under 18 years of age.

a. A retailer selling or offering for sale consumer fireworks as described in APA 87-1, chapter 3, shall supervise any employees who are less than 18 years of age who are involved in the sale, handling, or transport of consumer fireworks in the course of their employment for the retailer.

b. A community group selling or offering for sale consumer fireworks as described in APA 87-1, chapter 3, shall ensure that any persons who are less than 18 years of age who are involved in the sale, handling, or transport of consumer fireworks by the community group, whether the persons less than 18 years of age are paid or unpaid, shall do so under the direct supervision of an adult member of the community group.

265.3(3) Dates of sale. A retailer or community group may sell consumer fireworks in accordance with Iowa Code section 10A.519(4) “c.”

661—265.4(100) License fees—consumer fireworks seller licenses.

265.4(1) Fee schedule. The fee schedule for consumer fireworks seller licenses is as provided in Iowa Code section 10A.519(3). License fees shall be paid before issuance of a license.

265.4(2) Administrative license fee. A nonrefundable administrative fee of \$100 is required with every application for a consumer fireworks retail sales license. The \$100 fee will be applied to the license fee if the license is issued.

265.4(3) Changing license class or amount. If a retailer or consumer group is issued a license for the retail sale of one class or amount of consumer fireworks, and changes to a class or amount that requires a higher license fee, the retailer or consumer group shall pay only the difference in the two fees. The license for the lower class will be invalid after the issuance of the new license.

265.4(4) No refund after issuance. Payment is final when the license is issued, and the fee will not be refunded.

661—265.5(100) Application and issuance of license.

265.5(1) Application form and instructions. The application for a license for retail sales of consumer fireworks shall be made to the department as described on the department’s website. A license is required for each location where the retail sales of consumer fireworks are conducted.

265.5(2) Application requirements. Applications and the accompanying plans must include all required information and must be prepared in accordance with the application instructions. An application will not be processed until all required information is received in the form required by the instructions.

265.5(3) Proof of insurance. Applicants must provide proof of and maintain commercial general liability insurance with minimum per occurrence coverage of at least one million dollars and aggregate coverage of at least two million dollars.

265.5(4) Issuance and display of license. If all of the requirements are met and the correct license fee is paid, the department will issue the license. The license must be clearly displayed at the location where the retail sales of consumer fireworks for which the license was issued are conducted.

661—265.6(100) Fireworks site plan review, approval, and inspection.

265.6(1) Plan approval. The retailer or community group shall submit to the department the proposed plan(s), including any required site plan(s) for the location(s) and for any building(s) or structure(s), whether permanent or temporary, that will be used for the sale and storage of fireworks. Requirements and exceptions for site plan submittal and approval are outlined on the department’s website.

NOTE: Regarding the incorporation of the reference to NFPA 102, 1995 edition, Standard for Grandstands, Folding and Telescopic Seating, Tents, and Membrane Structures into NFPA 1124 concerning tents and membrane structures, Sections 7.3.5 and 7.4.8.1.2 of NFPA 1124 should be read together with Section A.7.4.8.1.2 in the Explanatory Material in Annex A to NFPA 1124 and used

for the purposes of (1) determining the requirements for the means of egress in tents and membrane structures except as modified by Section 7.3.14 of NFPA 1124 for special requirements for the retail sales of consumer fireworks, and (2) to prohibit the use, discharge, or ignition of fireworks within the tent or membrane structure. The other provisions of NFPA 1124, including the sections relating to the retail sales of consumer fireworks in tents or membrane structures, remain applicable.

265.6(2) Inspections.

a. Every location and any building or structure where the retail sales of consumer fireworks are conducted or where consumer fireworks are stored is subject to an inspection at any time while engaged in the retail sale of consumer fireworks.

b. Prior to the sale of consumer fireworks, each retail location shall satisfy one of the following requirements:

- (1) A site inspection of the retail location by the department or the department's designee.
- (2) Attestation at the time of the application by the person submitting the application that the retail location will comply with NFPA 1124 and these rules.

c. If a retail location license is revoked, the location shall be inspected in accordance with subparagraph 265.6(2) "b"(1) prior to engaging in the sale of consumer fireworks the following year.

661—265.7(100) Unauthorized use of license. Only the retailer or the community group which is issued the license may use that license for the retail sales of consumer fireworks. Each license will be issued for a specific location. The license may not be transferred to or used at any other location.

265.7(1) If the retailer or community group to which the license is issued changes the location where the retail sale of consumer fireworks will be sold, the retailer or community group shall submit a new application and all required information for the new site and pay the applicable license fee. The application must be reviewed and approved in order for a new license to be issued.

265.7(2) The licensed retailer or community group or the authorized representative of the licensed retailer or community group must be personally present at all times when consumer fireworks are being sold.

265.7(3) No unlicensed retailer, community group, person, group of people, business, or other for-profit or nonprofit entity may use the license issued to another retailer or community group for the retail sales of consumer fireworks, unless the licensed retailer or community group or the authorized representative of the licensed retailer or community group is personally present at all times when consumer fireworks are being sold.

661—265.8(100) Revocation of license. If the department or department's designee determines during a physical site inspection that a serious violation has occurred, the license for that retail location may be immediately revoked. Vendors will be given the opportunity to remedy violations that are not deemed serious violations.

661—265.9(100) Consumer fireworks wholesalers—registration—safety—insurance.

265.9(1) Annual registration. Each wholesaler shall register with the department annually by completing and submitting the annual registration form and paying the fee as required by Iowa Code section 10A.520(3).

265.9(2) Safety regulations—storage and transfer. Each wholesaler shall comply with all of the requirements of NFPA 1124 for the storage and transfer of consumer fireworks.

265.9(3) Insurance required. While operating as a wholesaler, each wholesaler shall maintain commercial general liability insurance with minimum per-occurrence coverage of at least \$1 million and aggregate coverage of at least \$2 million.

661—265.10(100) Consumer fireworks fee fund. All fees received from the licenses issued for the retail sale of consumer fireworks and the annual registration fees received from wholesalers of consumer fireworks will be deposited into the consumer fireworks fee fund pursuant to Iowa Code section 10A.519.

The department will use the fees deposited into this fund to fulfill the responsibilities of the department for the administration and enforcement of Iowa Code sections 10A.519 and 10A.520.

661—265.11(100) Local fire protection and emergency medical service providers grant program. The local fire protection and emergency medical service providers grant program is established by Iowa Code section 10A.519(7). The grant program is funded with only those moneys from the consumer fireworks fee fund which are not needed by the department to fulfill the responsibilities of the department for the administration and enforcement of Iowa Code sections 10A.519 and 10A.520.

265.11(1) Definitions. The following definitions apply.

“*Emergency medical services*” means the same as defined in Iowa Code section 147A.1(5).

“*Fire protection service*” means volunteer or paid fire departments.

265.11(2) Authorized applicants. Any local fire protection service provider or local emergency medical service provider in the state of Iowa may apply for grant funds from the local fire protection and emergency medical service providers grant program.

265.11(3) Authorized purposes of grant funds. The grant funds in the local fire protection and emergency medical service providers grant program may be used for the following in order of priority:

- a. To establish or provide fireworks safety education programming to members of the public.
- b. To purchase necessary enforcement, protection, or emergency response equipment related to the sale and use of consumer fireworks in this state.
- c. To purchase necessary enforcement, protection, or emergency response equipment.

265.11(4) Application. An application for grant funds should be made to the department. The application form may be found on the department’s website. Applications must be received on or before June 30 of each year. The application will include all of the following:

- a. The application shall be signed by a person who is an official, owner, or another person who has authorization to sign on behalf of the fire protection service or the emergency medical service provider entity.
- b. The specifics of the proposed use of the grant funds.
 - (1) If the application is for equipment, the applicant should include a detailed description of the equipment, the company or entity from which the purchase will be made, the cost, and a justification as to how this equipment purchase fits the purposes of the grant program.
 - (2) If the application is for safety education programming, the application should include a detailed description of the programming, the specific people who will be providing the programming, and a description of the materials to be purchased and used.
- c. The amount of grant funds requested.

265.11(5) Approval of application. The director of the department will review the application and determine whether to make the award of grant funds. The director of the department has the sole discretion in determining whether or not to award funds from the grant program to the applicant and the amount of funds awarded to each applicant. Factors to be considered in making an award of grant funds include, but are not limited to:

- a. The amount of grant funds available.
- b. The number of applicants for grant funds.
- c. The proposed use of the grant funds and whether the use is consistent with the approved program purposes.
- d. Whether the applicant has previously been approved for grant funds from this program.
- e. The applicant’s use of any previous grant funds received from the program.

265.11(6) Award of tangible property. Should the department determine that the purpose of the grant program is better served by awarding tangible property, such as equipment, rather than funds, the department has the authority to award tangible property purchased with grant funds rather than disperse grant funds to the applicants.

265.11(7) Report required. All grant recipients shall file a report with the department that lists the amount of grant funds received and the purpose(s) for which the grant funds were spent. The department

may conduct an inspection or audit to determine compliance with the rules and purposes of the grant program, in addition to any other authorized audits.

These rules are intended to implement Iowa Code sections 10A.519 and 10A.520.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 661—Chapter 275
“Licensing of Fire Protection System Contractors”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 100C.7
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 100C and 17A and section 272C.12

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 275, “Licensing of Fire Protection System Contractors.” These proposed rules establish a fire protection system contractor license program pursuant to Iowa Code chapter 100C. The rules explain the requirements for an individual to qualify and be designated as a responsible managing employee by a contractor seeking to obtain a license. The rules explain the requirements and process for licensure as a fire protection system contractor. The rules inform licensees and the public of the procedure for submitting complaints, the reasons for which a license may be denied, suspended or revoked, and the process by which the decision may be appealed. Pursuant to Iowa Code section 272C.12, the rules explain the process and requirements for licensure of persons licensed in other jurisdictions.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the public. Applicants and licensees bear the cost of fees for initial licensure and renewals. Contractors bear the cost of ensuring a responsible managing employee has the required training. Applicants or licensees whose licenses are denied, suspended or revoked may incur costs related to civil penalties or court costs to appeals.

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100C, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100C.9, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The Department has a staff member at 1.0

full-time equivalent (FTE) position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is April 1 of the year of issue through March 31, every year from issue. The average number of license applications processed per year is 150 and the average fees collected per year are \$80,000. Most complaints relate to unlicensed contractors. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this rulemaking. The rulemaking ensures the safety of the public by licensing fire protection system contractors through verification of statutory requirements for education and experience in the alarm system field for license applicants.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Applicants and licensees bear the cost of fees for initial licensure and renewals. Contractors bear the cost of ensuring a responsible managing employee has the required training. Applicants or licensees whose licenses are denied, suspended or revoked may incur costs related to statutorily prescribed civil penalties or costs related to appeals.

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100C, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100C.9, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The Department has a staff member at 1.0 FTE position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is April 1 of the year of issue through March 31, every year from issue. The average number of license applications processed per year is 150 and the average fees collected per year are \$80,000. Most complaints relate to unlicensed contractors. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Qualitative description of impact:

Implementing the requirements of Iowa Code chapter 100C ensures safety for licensees and the general public through verification of statutory requirements for education and experience in the alarm system field for license applicants.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100C, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100C.9, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The Department has a staff member at 1.0 FTE position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is April 1 of the year of issue through March 31, every year from issue. The average number of license applications processed per year is 150 and the average fees collected per year are \$80,000. Most complaints relate to unlicensed contractors. These are typically resolved through the

submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues. Pursuant to Iowa Code section 100C.9, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. In 2022, approximately \$90,000 in fees was collected.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This rulemaking implements statutory requirements set forth in Iowa Code chapter 100C. The rulemaking does not add costs to the Department or public in excess of what is required by Iowa Code chapter 100C.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no less restrictive alternatives or less costly methods because the rules implement requirements found in Iowa Code chapter 100C.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

There are no alternative methods that were considered by the agency because this rulemaking implements statutory requirements.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There are no alternative methods that were considered by the agency because this rulemaking implements statutory requirements.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety and the appropriate qualifications for licensees, many of whom are operating small businesses. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from a small business. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 275 and adopt the following new chapter in lieu thereof:

CHAPTER 275
LICENSING OF FIRE PROTECTION SYSTEM CONTRACTORS

661—275.1(100C) Establishment of program. The fire protection system contractor license is established pursuant to Iowa Code chapter 100C.

275.1(1) Licensure required. No person shall act as a fire extinguishing system contractor without being currently licensed as a fire protection system contractor by the department.

275.1(2) Endorsement. The licensure of each contractor will carry an endorsement for one or more of the following:

- a. Automatic sprinkler system installation.
- b. Special hazards systems installation.
- c. Preengineered dry chemical or wet agent fire suppression systems installation.
- d. Preengineered water-based fire suppression systems in one- and two-family dwellings installation.
- e. Automatic sprinkler system maintenance inspection.
- f. Special hazards system maintenance inspection.
- g. Preengineered dry chemical or wet agent fire suppression systems maintenance inspection.
- h. Preengineered water-based fire suppression systems in one- and two-family dwellings maintenance inspection.

Any person acting as a fire extinguishing system contractor shall do so only in relation to systems covered by the endorsements on the contractor's license.

275.1(3) Length of licensure. A license is normally for one year and expires on March 31 each year. A license which is effective on a date other than April 1 is effective on the date on which the license is issued and expires on March 31 of the following year.

661—275.2(100C) Definitions. The following definitions apply:

"Aerosol fire extinguishing system" means a system that uses a combination of microparticles and gaseous matter to flood the protected area. The particles are in a vapor state until discharged from the device. On release, a chain reaction produces solid particles and gaseous matter to suppress the fire.

"Automatic dry-chemical extinguishing system" means the same as defined in Iowa Code section 100C.1(4).

"Automatic fire extinguishing system" means the same as defined in Iowa Code section 100C.1(5).

"Automatic sprinkler system" means the same as defined in Iowa Code section 100C.1(6).

"Carbon dioxide extinguishing system" means the same as defined in Iowa Code section 100C.1(7).

"Clean agent" means an electrically nonconducting, volatile, or gaseous fire extinguishant that does not leave a residue upon evaporation.

"Deluge system" means the same as defined in Iowa Code section 100C.1(8).

"Dry chemical" means a powder composed of very small particles, usually sodium bicarbonate-, potassium bicarbonate-, or ammonium phosphate-based, with added particulate material supplemented by special treatment to provide resistance to packing, resistance to moisture absorption (caking), and the proper flow capabilities.

"Dry pipe sprinkler system" means an extinguishing system employing automatic sprinklers that are attached to a piping system containing air or nitrogen under pressure, the release of which (as from the opening of a sprinkler) permits the water pressure to open a valve known as a dry pipe valve, which allows the water to flow into the piping system and out the opened sprinklers.

"Fire extinguishing system contractor," "fire protection system contractor," or *"contractor"* means the same as defined in Iowa Code section 100C.1(10).

"Foam extinguishing system" means the same as defined in Iowa Code section 100C.1(11).

"Halogenated extinguishing system" means the same as defined in Iowa Code section 100C.1(12).

“Hybrid-inert water mist system” means a system that combines the benefits of inert gas systems and water mist systems to extinguish fires. These systems provide both extinguishment and cooling to prevent reignition utilizing nontoxic, non-ozone-depleting hybrid media.

“Layout” means drawings, calculations and component specifications to achieve the specified system design installation. “Layout” does not include design.

“Listed” means equipment, materials, or services included in a list published by a nationally recognized independent testing organization concerned with evaluation of products or services that maintains periodic inspection of production of listed equipment or materials or periodic evaluation of services and whose listing states that either the equipment, material, or service meets appropriate designated standards or has been tested and found suitable for a specified purpose.

“Maintenance inspection” means the same as defined in Iowa Code section 100C.1(13).

“Preengineered dry chemical or wet agent fire suppression system” means any system having predetermined flow rates, nozzle pressures and limited quantities of either agent. These systems have specific pipe sizes, maximum and minimum pipe lengths, flexible hose specifications, number of fittings and number and types of nozzles prescribed by a nationally recognized testing laboratory. The hazards against which these systems protect are specifically limited by the testing laboratory as to the type and size based upon actual fire tests. Limitations on hazards that can be protected against by these systems are contained in the manufacturer’s installation manual, which is referenced as part of the listing.

“Preengineered water-based system” means a packaged, water-based sprinkler system including all components connected to a water supply and designed to be installed according to pretested limitations.

“Responsible managing employee” means the same as defined in Iowa Code section 100C.1(14).

“Special hazards system” means a fire extinguishing system utilizing fire detection and control methods to release an extinguishing agent, other than water connected to a dedicated fire protection water supply.

“Wet agent” or *“wet chemical”* means an aqueous solution of organic or inorganic salts or a combination thereof that forms an extinguishing agent.

661—275.3(100C) Responsible managing employee. Each fire extinguishing system contractor shall designate a responsible managing employee and may designate one or more alternate responsible managing employees. A contractor may designate more than one responsible managing employee in order to satisfy the requirements for more than one endorsement as provided in subrule 275.1(2). If more than one responsible managing employee is designated, the contractor will indicate for which responsible managing employee each designated alternate managing employee serves as an alternate.

275.3(1) The responsible managing employee or employees shall be designated in the application for licensure, and, if a responsible managing employee is no longer acting in that role, the contractor shall so notify the department, in writing, within 30 calendar days.

275.3(2) If a responsible managing employee is no longer acting in that role and the contractor has designated an alternate responsible managing employee, the alternate responsible managing employee will become the responsible managing employee and the contractor shall so notify the department, in writing, within 30 calendar days of the date on which the preceding responsible managing employee ceased to act in that role. If the contractor has designated more than one alternate responsible managing employee, the notice to the department will indicate which alternate responsible managing employee has assumed the position of responsible managing employee.

275.3(3) If a responsible managing employee designated by a fire extinguishing system contractor is no longer acting in the role of responsible managing employee and the contractor has not designated an alternate responsible managing employee, the contractor shall designate a new responsible managing employee and shall notify the department, in writing, of the designation within six months of the date on which the former responsible managing employee ceased to act in that capacity. If the department has not been notified of the appointment of a new responsible managing employee within six months of the date on which a responsible managing employee ceased serving in that capacity, the department shall suspend the license of the fire protection system contractor.

275.3(4) Training requirements. A responsible managing employee or an alternate responsible managing employee shall meet one of the requirements for the following endorsements:

a. Automatic sprinkler system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in fire extinguishing system design, or

(2) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level III or above in water-based systems layout.

b. Special hazards system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in fire extinguishing system design, or

(2) Current certification by the NICET at level III or above in special hazard systems.

c. Preengineered dry chemical or wet agent fire suppression system installation:

(1) Current certification by the NICET at level II or above in special hazard systems, or

(2) Current certification by the National Association of Fire Equipment Distributors (NAFED) in preengineered kitchen fire suppression systems, preengineered industrial fire suppression systems, or both, or

(3) Satisfactory completion of any training required by the manufacturer for the installation of any system the contractor installs.

d. Preengineered water-based fire suppression system in one- and two-family dwellings installation:

(1) Current certification by the NICET at level II or above in special hazard systems, or

(2) Satisfactory completion of any training required by the manufacturer for the installation of any system the contractor installs.

e. Automatic sprinkler system maintenance inspection:

(1) Current certification from the NICET at level II in water-based system layout, or

(2) Current certification by the NICET at level II or above in inspection and testing of water-based systems.

f. Special hazards system maintenance inspection:

(1) Current certification by the NICET at level II or above in special hazard systems.

(2) Reserved.

g. Preengineered dry chemical or wet agent fire suppression system maintenance inspection:

(1) Current certification by the NICET at level I or above in special hazard systems, or

(2) Current certification by the NAFED in preengineered kitchen fire suppression systems, preengineered industrial fire suppression systems, or both, or

(3) Satisfactory completion of any training required by the manufacturer for the maintenance and inspection of any system the contractor inspects.

h. Preengineered water-based fire suppression system maintenance inspection:

(1) Current certification by the NICET at level I or above in special hazard systems, or

(2) Satisfactory completion of any training required by the manufacturer for the maintenance and inspection of any system the contractor inspects.

275.3(5) *Training or testing approval.* Satisfactory completion of an applicable training or testing program that has been approved by the department may replace any of the endorsement requirements of subrule 275.3(4). In any case in which training or testing that is offered to satisfy the requirements of this rule is required to be approved by the department, such approval is required prior to acceptance of the training or testing to meet licensure requirements. Approval by the department of any training or testing to meet these requirements may be sought by the individual, firm, or organization providing the testing or training or initiated by the department. Any individual, firm or organization seeking to obtain such approval will apply to the department no later than July 1 every odd-numbered year. Program information and any other documentation requested by the department for consideration shall be submitted to the department. Training and testing approved by the department is listed on the department's licensing website.

275.3(6) License applicability. Work performed by a contractor subject to these rules shall be limited to areas of competence indicated by the specific certification or other training requirements met by the responsible managing employee. Work performed in the state shall not begin prior to:

- a. Receipt of new or renewed license issued by the department to the applicant, or
- b. Receipt of written approval to perform work prior to issuance of a new or renewed license from the department to the applicant.

275.3(7) Portable fire extinguisher requirements. Nothing in this rule shall be interpreted to conflict with or diminish any requirement for training or certification for anyone installing or servicing a fire extinguishing system or portable fire extinguisher set forth in any rule of the department or local fire ordinance or standard adopted by reference therein.

275.3(8) Licensure of persons licensed in other jurisdictions. A fire protection system contractor license may be issued without examination to a person licensed in other jurisdictions if the conditions of Iowa Code section 272C.12 are met.

661—275.4(100C) License requirements. A fire extinguishing system contractor shall meet all of the following requirements in order to receive licensure from the department and continue to meet all requirements throughout the period of licensure. The contractor shall notify the department, in writing, within 30 calendar days if the contractor fails to meet any requirement for licensure.

275.4(1) The contractor shall designate one or more responsible managing employees as provided in rule 661—275.3(100C).

275.4(2) The contractor shall maintain general and complete operations liability insurance for the layout, installation, repair, alteration, addition, maintenance, and inspection of automatic fire extinguishing systems in the following amounts: \$500,000 per person, \$1,000,000 per occurrence, and \$1,000,000 property damage.

a. The carrier of any insurance coverage maintained to meet this requirement shall notify the department 30 days prior to the effective date of cancellation or reduction of the coverage.

b. The contractor shall cease operation immediately if the insurance coverage required by this subrule is no longer in force and other insurance coverage meeting the requirements of this subrule is not in force. A contractor shall not initiate any installation of a fire extinguishing system which cannot reasonably be expected to be completed prior to the effective date of the cancellation of the insurance coverage required by this subrule and of which the contractor has received notice, unless new insurance coverage meeting the requirements of this subrule has been obtained and will be in force upon cancellation of the prior coverage.

275.4(3) The contractor shall maintain current registration as a contractor with the labor services division of the Iowa workforce development department in compliance with Iowa Code chapter 91C and 875—Chapter 150. The contractor shall provide a copy of the contractor's current registration from the Iowa workforce development department with the contractor's application for licensure.

EXCEPTION: A contractor will not be required to maintain registration with the labor services division of the Iowa workforce development department if the contractor does not meet the definition of "contractor" for purposes of Iowa Code chapter 91C and 875—Chapter 150. Written documentation of such exemption must be provided to the department at the time of application for licensure as a fire protection system contractor.

275.4(4) The contractor shall maintain compliance with all other applicable provisions of law related to operation in the state of Iowa and of any political subdivision in which the contractor is performing work.

275.4(5) A license may be renewed only if the licensee has completed recertification of the applicable requirements relative to the endorsements for which the licensee is renewing.

275.4(6) Any individual while serving honorably on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1, applying for licensure as a fire protection system contractor shall apply for licensure following 481—Chapter 7.

661—275.5(100C) Application and fees.

275.5(1) Application. Any contractor seeking licensure as a fire protection system contractor shall submit a completed application form to the department. The application shall be filed no later than 30 days prior to the date of beginning work in this state or the date on which an existing license expires. An application form may be obtained from the department or the department's website. The application form shall be submitted with all required attachments and the required application fee. An application will not be considered complete unless all required information is submitted, including required attachments and fees, and will not be processed until it is complete.

275.5(2) License fee.

- a. The license fee is \$500 for one year.
- b. If an application for licensure provides for more than one responsible managing employee pursuant to rule 661—275.3(100C), there will be an additional fee of \$50 for each responsible managing employee beyond the first. If an application for licensure provides for more than one endorsement as provided in subrule 275.1(2), there will be an additional fee of \$50 for each endorsement beyond the first.
- c. The department will waive any fee charged to an applicant for a license if the applicant's household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

275.5(3) Payment. The license fee may be submitted electronically or delivered by draft, check, or money order in the applicable amount payable to the department. Cash payments are not accepted.

275.5(4) Amended license.

- a. The fee for issuance of an amended license is the difference between the original license fee paid and changes in endorsement(s) or responsible managing employee(s), if applicable. The fee shall be submitted with the request for an amended license.
- b. A contractor will request and the department will issue an amended license for any of the following reasons, and a fee does not apply:
 - (1) A change in the designation of a responsible managing employee;
 - (2) A change in insurance coverage; or
 - (3) A change in any other material information included in or with the initial or renewal application.A change in the address of the business is a material change.
- c. Other changes in the information required in the application form, including renewal of insurance coverage with a new expiration date, shall be reported to the department but will not require issuance of an amended license or payment of the amended license fee.

275.5(5) Attachments. Required attachments to the application for licensure are outlined on the department's website.

661—275.6(100C) Complaints. Complaints regarding the performance of any licensed contractor, failure of a licensed contractor to meet any of the requirements established in Iowa Code chapter 100C or this chapter or any other provision of law, or operation as a fire extinguishing system contractor without licensure may be filed with the department. Complaints should be as specific as possible and clearly identify the contractor against whom the complaint is filed. Complaints should be submitted in writing to the department as indicated on the department's website. A complaint may be submitted anonymously, but if the name and contact information of the complainant are provided, the complainant will be notified of the disposition of the complaint.

661—275.7(100C) Denial, suspension, or revocation of licensure; civil penalties; and appeals. The department may deny, suspend or revoke the license of a contractor, or assess a civil penalty to the contractor, if any provision of these rules or any other provision of law related to operation as a fire extinguishing system contractor is violated.

275.7(1) Denial. The department may deny an application for licensure for reasons including, but not limited to:

- a. If the applicant makes a false statement on the application form or in any other submission of information required for license. "False statement" means providing false information or failing

to include material information, such as a previous criminal conviction or action taken by another jurisdiction, when requested on the application form or otherwise in the application process.

b. If the applicant fails to meet all of the requirements for licensure established in this chapter.

c. If the applicant is currently barred for cause from acting as a fire extinguishing system contractor in another jurisdiction.

d. If an applicant has previously been barred for cause from operating in another jurisdiction as a fire extinguishing system contractor and if the basis of that action reflects upon the integrity of the applicant in operating as a fire extinguishing system contractor. If an applicant is found to have been previously barred for cause from operating as a fire extinguishing system contractor in another jurisdiction and is no longer barred from doing so, the department will evaluate the record of that action with regard to the likelihood that the applicant would operate with integrity as a licensed contractor. If an applicant is denied under this provision, the applicant will be notified of the specific reasons for the denial.

e. Conviction of a felony offense, if the offense directly relates to the profession or occupation of the licensee, in the courts of this state or another state, territory or country. "Conviction" as used in this subrule includes a conviction of an offense which if committed in this state would be a felony without regard to its designation elsewhere, and includes a finding or verdict of guilt made or returned in a criminal proceeding even if the adjudication of guilt is withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state constitutes conclusive evidence of the conviction. If an applicant is denied under this provision, the applicant will be notified of the specific reasons for the denial.

f. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the licensee's profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

g. Willful or repeated violations of the provisions of this chapter.

275.7(2) Suspension. A suspension of a license may be imposed by the department for any violation of these rules or Iowa Code chapter 100C or for a failure to meet any legal requirement to operate as a fire extinguishing system contractor in this state. Failure to provide any notice to the department as provided in these rules will be grounds for suspension. An order of suspension will specify the length of the suspension and will specify that correction of all conditions which were a basis for the suspension is a condition of reinstatement of the license even after the period of the suspension.

275.7(3) Revocation.

a. A revocation is a termination of a license. A license may be revoked by the department for repeated violations or for a violation which creates an imminent danger to the safety or health of individuals protected by a fire extinguishing system incorrectly installed by a licensed contractor or when information comes to the attention of the department which, if known to the department when the application was being considered, would have resulted in denial of the license.

b. A new application for licensure from a contractor whose license had previously been revoked will not be considered for a period of one year after the effective date of the revocation and, in any event, until every condition which was a basis for the revocation has been corrected. The department may specify in the revocation order a longer period than one year before a new application for licensure may be considered. When a new application for licensure from a contractor whose license was previously revoked is being considered, the applicant may be denied licensure based upon the same information which was the basis for revocation even after any such period established by the department has expired.

275.7(4) Disqualifications for criminal convictions limited. A person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license in circumstances authorized by Iowa Code section 272C.15.

275.7(5) Civil penalties. The department may impose a civil penalty of up to \$500 per day during which a violation has occurred and for every day until the violation is corrected. A civil penalty may be imposed in lieu of or in addition to a suspension or may be imposed in addition to a revocation. A civil penalty will not be imposed in lieu of a revocation.

275.7(6) Appeals. Any denial, suspension, or revocation of a license, or any civil penalty imposed upon a licensed contractor under this rule may be appealed by the contractor within 14 days of receipt of the notice by submitting a written request for a contested case appeal to the department. An appeal is subject to the provisions of 481—Chapters 9 and 10 governing contested cases.

These rules are intended to implement Iowa Code chapter 100C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 661—Chapter 276
“Licensing of Fire Protection System Technicians”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 100D.5
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 100D and 17A and section 272C.12

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 276, “Licensing of Fire Protection System Technicians.” These proposed rules establish a fire protection system installer and maintenance worker licensing program pursuant to Iowa Code chapter 100D. The rules explain the requirements and process for obtaining a license from the Department. The rules inform licensees and the public of the procedure for submitting complaints, the reasons for which a license may be denied, suspended or revoked, and the process by which the decision may be appealed. The rules explain the process and requirements for licensure of persons licensed in other jurisdictions, pursuant to Iowa Code section 272C.12.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the public. Applicants bear the cost to meet training requirements necessary for licensure. Applicants and licensees bear the cost of fees for initial licensure and renewals. Applicants or licensees whose licenses are denied, suspended or revoked may incur costs related to civil penalties or court costs to appeal.

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100D, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100D.7, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The Department has a staff member at 1.0 full-time equivalent (FTE) position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory

requirements for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is April 1 of the year of issue through March 31, two years from issue. The average number of license applications processed per year is 500 and the average fees collected per year are \$90,000. Most complaints relate to unlicensed technicians. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this rulemaking. The rulemaking ensures the safety of the public through verification of statutory requirements for education and experience in the alarm system field for license applicants.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Applicants bear the cost to meet training requirements necessary for licensure. Applicants and licensees bear the cost of fees for initial licensure and renewals. Applicants or licensees whose licenses are denied, suspended or revoked may incur costs related to civil penalties or court costs to appeals.

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100D, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100D.7, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The department has a staff member at 1.0 FTE position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is April 1 of the year of issue through March 31, two years from issue. The average number of license applications processed per year is 500 and the average fees collected per year are \$90,000. Most complaints relate to unlicensed technicians. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Qualitative description of impact:

Implementing the requirements of Iowa Code chapter 100D ensures safety for licensees and the general public through verification of statutory requirements for education and experience in the alarm system field for license applicants.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100D, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100D.7, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The Department has a staff member at 1.0 FTE position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is April 1 of the year of issue through March 31, two years from issue. The average number of license applications processed per year is 500 and the average fees collected per year are \$90,000. Most complaints relate to unlicensed technicians. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

Pursuant to Iowa Code section 100D.7, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. In 2022, approximately \$112,000 in fees was collected.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This rulemaking implements statutory requirements set forth in Iowa Code chapter 100D. The rulemaking does not add costs to the Department or public in excess of what is required by Iowa Code chapter 100D.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no less restrictive alternatives or less costly methods because the rules implement requirements found in Iowa Code chapter 100D.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

There are no alternative methods that were considered by the agency because this rulemaking implements statutory requirements.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There are no alternative methods that were considered by the agency because this rulemaking implements statutory requirements.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety and the appropriate qualifications for licensees, many of whom are operating small businesses. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from a small business. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 276 and adopt the following new chapter in lieu thereof:

CHAPTER 276 LICENSING OF FIRE PROTECTION SYSTEM TECHNICIANS

661—276.1(100D) Establishment of program. The fire protection system technician license is established pursuant to Iowa Code chapter 100D.

276.1(1) Licensing required. A person shall not act as a fire protection system installer and maintenance worker without being currently licensed as a fire protection system technician by the department, except as provided in Iowa Code sections 100D.2(1) and 100D.11.

a. For purposes of Iowa Code section 100D.2(1) “*a*,” “direct supervision” means that the person supervising the person performing the work shall be on the job site while the work being supervised is performed.

b. For purposes of Iowa Code section 100D.2(1) “*d*,” the work performed which is subject to the provisions of this chapter must be within the scope of the endorsement(s) of the licensed contractor employing the responsible managing employee.

276.1(2) Endorsement. Any person acting as a fire protection system installer and maintenance worker shall do so only in relation to systems and work covered by the endorsements on the person’s license. The license of each technician shall carry an endorsement for one or more of the following:

- a.* Automatic sprinkler system installation.
- b.* Special hazards system installation.
- c.* Preengineered dry chemical or wet agent fire protection systems installation.
- d.* Preengineered water-based fire protection systems in one- and two-family dwellings installation.
- e.* Automatic sprinkler system maintenance inspection.
- f.* Special hazards system maintenance inspection.
- g.* Preengineered dry chemical or wet agent fire protection systems maintenance inspection.
- h.* Preengineered water-based fire protection systems in one- and two-family dwellings maintenance inspection, or
- i.* Fire protection technician trainee.

276.1(3) Length of licensure. Licensure shall normally be for two years and will expire on March 31 of the second year after the license has been issued. A license which is effective on a date other than April 1 will be effective on the date on which the license is issued and will expire the next March, after one year has passed from the date on which the license was issued. A technician trainee license may be renewed once and a person may work as a technician trainee for a maximum of four years.

661—276.2(100D) Definitions. The following definitions apply:

“*Aerosol fire extinguishing system*” means a system that uses a combination of microparticles and gaseous matter to flood the protected area. The particles are in a vapor state until discharged from the device. On release, a chain reaction produces solid particles and gaseous matter to suppress the fire.

“*Apprentice fire protection system installer and maintenance worker*” means the same as defined in Iowa Code section 100D.1(1).

“*Automatic fire extinguishing system*” means the same as defined in Iowa Code section 100C.1(5).

“*Automatic sprinkler system*” means the same as defined in Iowa Code section 100C.1(6).

“*Carbon dioxide extinguishing system*” means the same as defined in Iowa Code section 100C.1(7).

“*Clean agent*” means an electrically nonconducting, volatile, or gaseous fire extinguishant that does not leave a residue upon evaporation.

“*Deluge system*” means the same as defined in Iowa Code section 100C.1(8).

“*Department*” means the same as defined in Iowa Code section 100D.1(2).

“*Dry chemical*” means a powder composed of very small particles, usually sodium bicarbonate-, potassium bicarbonate-, or ammonium phosphate-based, with added particulate material supplemented by special treatment to provide resistance to packing, resistance to moisture absorption (caking), and the proper flow capabilities.

“*Dry pipe sprinkler system*” means an extinguishing system employing automatic sprinklers that are attached to a piping system containing air or nitrogen under pressure, the release of which (as from the opening of a sprinkler) permits the water pressure to open a valve known as a dry pipe valve, which allows the water to flow into the piping system and out the opened sprinklers.

“*Fire extinguishing system contractor*,” “*fire protection system contractor*,” or “*contractor*” means the same as defined in Iowa Code section 100D.1(4).

“*Fire protection system*” means the same as defined in Iowa Code section 100D.1(5).

“*Fire protection system installation*” means the same as defined in Iowa Code section 100D.1(6).

“*Fire protection system installer and maintenance worker*” or “*fire protection system technician*” means the same as defined in Iowa Code section 100D.1(8). A fire protection system technician shall be an employee of a fire protection system contractor or, if employed by anyone other than a fire protection system contractor, shall perform work requiring licensing as a fire protection system technician only on property owned or occupied by such employer and may obtain a license if the employer is not a licensed contractor.

“*Fire protection system maintenance*” means the same as defined in Iowa Code section 100D.1(7).

“*Foam extinguishing system*” means the same as defined in Iowa Code section 100C.1(11).

“*Halogenated extinguishing system*” means the same as defined in Iowa Code section 100C.1(12).

“*Hybrid-inert water mist system*” means a system that combines the benefits of inert gas systems and water mist systems to extinguish fires. These systems provide both extinguishment and cooling to prevent reignition utilizing nontoxic, non-ozone-depleting hybrid media.

“*Layout*” means drawings, calculations and component specifications to achieve the specified system design installation. “*Layout*” does not include design.

“*Listed*” means equipment, materials, or services included in a list published by a nationally recognized independent testing organization concerned with evaluation of products or services that maintains periodic inspection of the production of listed equipment or materials or periodic evaluation of services and whose listing states that either the equipment, material, or service meets appropriate designated standards or has been tested and found suitable for a specified purpose.

“*Preengineered dry chemical or wet agent fire suppression system*” means any system having predetermined flow rates, nozzle pressures and limited quantities of either agent. These systems have specific pipe sizes, maximum and minimum pipe lengths, flexible hose specifications, number of fittings and number and types of nozzles prescribed by a nationally recognized testing laboratory. The hazards against which these systems protect are specifically limited by the testing laboratory as to the type and size based upon actual fire tests. Limitations on hazards that can be protected against by these systems are contained in the manufacturer’s installation manual, which is referenced as part of the listing.

“*Preengineered fire protection system*” means the same as defined in Iowa Code section 100D.1(9).

“*Preengineered water-based fire protection system*” means a packaged, water-based sprinkler system including all components connected to a water supply and designed to be installed according to pretested limitations.

“*Responsible managing employee*” means the same as defined in Iowa Code section 100D.1(10).

“*Routine maintenance*” means the same as defined in Iowa Code section 100D.1(11).

“*Special hazards system*” means a fire extinguishing system utilizing fire detection and control methods to release an extinguishing agent, other than water connected to a dedicated fire protection water supply.

“*Wet agent*” or “*wet chemical*” means an aqueous solution of organic or inorganic salts or a combination thereof that forms an extinguishing agent.

661—276.3(100D) Licensing requirements. A fire protection system installer and maintenance worker shall meet all of the following requirements in order to receive a license from the department and shall continue to meet all requirements throughout the period of licensure. A licensee shall notify the department, in writing, within 30 calendar days if the licensee fails to meet any requirement for licensure.

276.3(1) Compliance. Each licensee shall maintain compliance with all other applicable provisions of law related to operation in the state of Iowa and in any political subdivision in which the licensee is performing work.

276.3(2) Training requirements. An applicant for a license shall meet one of the requirements for the following endorsements:

- a.* Automatic sprinkler system installation:
 - (1) Current certification by the National Inspection Testing and Certification Corporation (NITC) in the STAR Fire Sprinkler Fitting Mastery Examination, or
 - (2) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level I or above in water-based system layout, or
 - (3) Current certification by the NICET at level I or above in inspection and testing of water-based systems.
- b.* Special hazards system installation:
 - (1) Current certification by the NICET at level I or above in special hazards systems.
 - (2) Reserved.
- c.* Preengineered dry chemical or wet agent fire protection system installation:
 - (1) Current certification by the NICET at level I or above in special hazard systems, or
 - (2) Current certification by the National Association of Fire Equipment Distributors (NAFED) in preengineered kitchen fire extinguishing systems, preengineered industrial fire extinguishing systems, or both, or
 - (3) Satisfactory completion of any training required by the manufacturer for the installation of any system the technician installs, or
 - (4) Current certification by the Fire Protection Certification LTD (FPC) in commercial kitchen fire suppression system service, preengineered fire suppression maintenance, or both.
- d.* Preengineered water-based fire protection systems in one- and two-family dwellings installation:
 - (1) Current certification by the NICET at level I or above in special hazard systems, or
 - (2) Satisfactory completion of any training required by the manufacturer for the installation of any system the technician installs.
- e.* Automatic sprinkler system maintenance inspection:
 - (1) Current certification by the NITC in the STAR Fire Sprinkler Fitting Mastery Examination, or
 - (2) Current certification by the NICET at level I or above in water-based systems layout, or
 - (3) Current certification by the NICET at level I or above in inspection and testing of water-based systems.
- f.* Special hazards system maintenance inspection:
 - (1) Current certification by the NICET at level I or above in special hazard systems.
 - (2) Reserved.
- g.* Preengineered dry chemical or wet agent fire protection system maintenance inspection:
 - (1) Current certification by the NICET at level I or above in special hazard systems, or
 - (2) Current certification by the NAFED in preengineered kitchen fire extinguishing systems, preengineered industrial fire extinguishing systems, or both, or
 - (3) Satisfactory completion of any training required by the manufacturer for maintenance and inspection of any system the technician inspects, or
 - (4) Current certification by the FPC in commercial kitchen fire suppression system service, preengineered fire suppression maintenance, or both.
- h.* Preengineered water-based fire protection systems in one- and two-family dwellings installation:
 - (1) Current certification by the NICET at level I or above in special hazard systems, or
 - (2) Satisfactory completion of any training required by the manufacturer for maintenance and inspection of any system the technician inspects.
- i.* Fire protection system technician trainee: Submission of a completed application no later than the first day of employment. A fire protection system technician trainee may perform work which requires licensure under this chapter only under the direct supervision of a licensed fire protection system technician or responsible managing employee whose license contains one or more endorsements as provided in subrule 275.1(2) or 276.1(2), and that work must be within the scope of work authorized by the endorsements held by the supervising fire protection system technician or responsible managing employee. At least one licensed fire protection system technician or responsible managing employee

must be present for every three apprentice fire protection system installers and maintenance workers or fire protection system technician trainees performing work related to fire protection systems.

276.3(3) Continuing education. A license may be renewed only if the licensee has completed recertification of the applicable certification requirements relative to the endorsement(s) for which the license is being renewed.

276.3(4) Training or testing approval. Satisfactory completion of an applicable training or testing program approved by the department may replace any of the endorsement requirements of subrule 276.3(2). In any case in which training or testing that is offered to satisfy the requirements of this rule is required to be approved by the department, such approval is required prior to acceptance of the training or testing to meet licensure requirements. Approval by the department of any training or testing to meet these requirements may be sought by the individual, firm, or organization providing the testing or training or initiated by the department. Any individual, firm, or organization seeking to obtain such approval may apply to the department no later than July 1 every odd-numbered year. Program information and any other documentation requested by the department for consideration shall be submitted to the department. Training and testing approved by the department will be listed on the department's licensing website.

276.3(5) License applicability. Work performed by a technician or trainee subject to these rules shall be limited to areas of competence indicated by the specific endorsement(s) identified on the license. Work performed in the state shall not begin prior to:

- a. Receipt of a new or renewed license issued by the department to the applicant, or
- b. Receipt of written approval to perform work prior to issuance of a new or renewed license from the department to the applicant.

276.3(6) Portable fire extinguisher requirements. Nothing in this rule shall be interpreted to conflict with or diminish any requirement for training or certification for anyone installing or servicing a fire extinguishing system or portable fire extinguisher set forth in any rule of the department or local fire ordinance or standard adopted by reference therein.

276.3(7) Licensure of persons licensed in other jurisdictions. A fire protection system technician license may be issued without examination to a person licensed in other jurisdictions if the conditions of Iowa Code section 272C.12 are met.

276.3(8) Veterans and active duty military. Any individual serving honorably on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1, should apply for licensure following 481—Chapter 7.

661—276.4(100D) Application and fees.

276.4(1) Application. Any person seeking licensure as a fire protection system technician shall submit a completed application form to the department. The application shall be filed no later than 30 days prior to the date of beginning work in this state or the date on which an existing license expires. An application form may be obtained from the department or from the department's website. The application form shall be submitted with all required attachments and license fee. An application is not complete unless all required information is submitted, including required attachments and fees, and will not be processed until it is complete.

276.4(2) License fee.

a. The fee for a permanent or provisional license, except for a trainee license, is \$200. If an application for a license provides for more than one endorsement as provided in subrule 276.1(2), there will be an additional fee of \$25 for each endorsement beyond the first.

b. The fee for a fire protection system technician trainee license is \$100.

c. The department will waive any fee charged to an applicant for a license if the applicant's household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

276.4(3) Payment. The license fee shall be submitted electronically, or mailed or hand-delivered by draft, check, or money order in the applicable amount payable to the Iowa Department of Inspections, Appeals, and Licensing. Cash payments are not accepted.

276.4(4) Amended license.

a. The fee for issuance of an amended license is the difference between the original license fee paid and changes in endorsement(s), if applicable. The fee shall be submitted with a request for an amended license.

b. A licensee will request and the department will issue an amended license for any of the following reasons, and a fee does not apply:

(1) A change in employer. A licensee may only transfer the licensee's technician license to another employer if the licensee paid the license fee at the time of original application. If the licensee's previous employer paid the license fee, the licensee must reapply for a new license under the licensee's new employer and pay the license fee.

(2) A change in any other material information included in or with the initial or renewal application. A change of address is a material change.

c. Other changes in the information required in the application form, including renewal of insurance coverage with a new expiration date, shall be reported to the department but will not require issuance of an amended license or payment of the amended license fee.

276.4(5) Attachments. Required attachments to the application for a license are outlined on the department's website.

661—276.5(100D) Complaints. Complaints regarding the performance of any licensed fire protection system technician, failure of a licensee to meet any of the requirements established in Iowa Code chapter 100D or this chapter or any other provision of law, or persons operating as fire protection system installers and maintenance workers without licensure may be submitted to the departments. Complaints should be as specific as possible and clearly identify the licensee or other person against whom the complaint is filed. A complaint may be submitted anonymously, but if the name and contact information of the complainant are provided, the complainant will be notified of the disposition of the complaint.

661—276.6(100D) Denial, suspension, or revocation of licensure; civil penalties; appeals. If a licensee or person who performs work requiring a license violates any provision of these rules or any other provision of law related to work requiring licensure pursuant to this chapter, the department may deny, suspend or revoke a license or assess a civil penalty to a licensee or to a person who performs work requiring licensure pursuant to this chapter and who is not licensed.

276.6(1) Denial. The department may deny an application for licensure:

a. If the applicant makes a false statement on the application form or in any other submission of information required for licensure. "False statement" means providing false information or failing to include material information, such as a previous criminal conviction or action taken by another jurisdiction, when requested on the application form or otherwise in the application process.

b. If the applicant fails to meet all of the requirements for licensure established in this chapter.

c. If the applicant is currently barred for cause from licensure equivalent to that provided for in this chapter in another jurisdiction.

d. If an applicant has previously been barred for cause from operating in another jurisdiction as a fire protection system installer and maintenance worker and if the basis of that action reflects upon the integrity of the applicant in operating as a fire protection system installer and maintenance worker. If an applicant is found to have been previously barred for cause from operating as a fire protection system installer and maintenance worker in another jurisdiction and is no longer barred from doing so, the department will evaluate the record of that action with regard to the likelihood that the applicant would operate with integrity as a licensee. If an applicant is denied licensure under this paragraph, the applicant will be notified of the specific reasons for the denial.

e. Conviction of a felony offense, if the offense directly relates to the profession or occupation of the licensee, in the courts of this state or another state, territory or country. "Conviction" as used in this subrule includes a conviction of an offense which if committed in this state would be a felony without regard to its designation elsewhere, and includes a finding or verdict of guilt made or returned in a criminal proceeding even if the adjudication of guilt is withheld or not entered. A certified copy

of the final order or judgment of conviction or plea of guilty in this state or in another state constitutes conclusive evidence of the conviction. If an applicant is denied licensure under this paragraph, the applicant will be notified of the specific reasons for the denial.

f. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the licensee's profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

g. Willful or repeated violations of the provisions of this chapter.

276.6(2) Suspension. A suspension of a license may be imposed by the department for any violation of these rules or Iowa Code chapter 100D or for a failure to meet any legal requirement to operate as a fire protection system installer and maintenance worker in this state. Failure to provide any notice to the department as required by these rules may be grounds for suspension. An order of suspension will specify the length of the suspension and will specify that correction of all conditions which were a basis for the suspension is a condition of reinstatement of the license even after the period of the suspension.

276.6(3) Revocation.

a. A revocation is a termination of a license. A license may be revoked by the department for repeated violations or for a violation which creates an imminent danger to the safety or health of individuals protected by a fire protection system incorrectly installed by a licensee or when information comes to the attention of the department which, if known to the department when the application was being considered, would have resulted in denial of the license.

b. A new application for a license from an applicant whose license has previously been revoked will not be considered for a period of one year after the effective date of the revocation and, in any event, until every condition which was a basis for the revocation has been corrected. The department may specify in the revocation order a period longer than one year before a new application for a license may be considered. When a new application for a license from a person whose license was previously revoked is being considered, the applicant may be denied a license based upon the same information which was the basis for revocation even after any such period established by the department has expired.

276.6(4) Disqualifications for criminal convictions limited. A person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license in circumstances authorized by Iowa Code section 272C.15.

276.6(5) Civil penalties. The department may impose a civil penalty of up to \$500 per day during which a violation has occurred and for every day until the violation is corrected. A civil penalty may be imposed in lieu of or in addition to a suspension or may be imposed in addition to a revocation. A civil penalty will not be imposed in lieu of a revocation.

276.6(6) Appeals. Any denial, suspension, or revocation of a license, or any civil penalty imposed upon a licensee or other person under this rule may be appealed within 14 days of receipt of the notice by submitting a written request for a contested case appeal to the department. An appeal is subject to the provisions of 481—Chapters 9 and 10 governing contested cases.

These rules are intended to implement Iowa Code chapter 100D.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 661—Chapter 277
“Licensing of Alarm System Contractors and Technicians”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 100C.7
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 100C and 17A and section 272C.12

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

These proposed rules establish alarm system contractor and alarm system installer licenses pursuant to Iowa Code chapter 100C. The rules explain the requirements for an individual to qualify and be designated as a responsible managing employee by a contractor seeking to obtain a license. The rules explain the requirements and process for licensure as an alarm system contractor or an alarm system technician. The rules inform licensees and the public of the procedure for submitting complaints; the reasons for which a license may be denied, suspended or revoked and the process by which the decision may be appealed.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the public. Companies and installers working in the state of Iowa for installation, maintenance, inspection, and/or testing of fire, nurse call, and/or security alarm systems bear the costs of the proposed rulemaking. Applicants and licensees bear the cost of fees for initial licensure and renewals. Contractors bear the cost of ensuring a responsible managing employee has the required training. Applicants or licensees whose licenses are denied, suspended or revoked may incur costs related to civil penalties or court costs to appeals.

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100C, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100C.9, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The Department has a staff member at 1.0

full-time equivalent (FTE) position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is October 1 of the year of issue through September 30, three years from issue. The average number of license applications processed per year is 300 and the average fees collected per year total \$60,000. Most complaints relate to unlicensed contractors or technicians. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Classes of persons that will benefit from the proposed rulemaking:

The general public, including businesses and individuals operating and residing in the state of Iowa who need installation, maintenance, inspection, and/or testing of fire, nurse call, and/or security alarm systems benefit from this rulemaking. The rulemaking ensures the safety of the public by licensing alarm system contractors and technicians through verification of statutory requirements for education and experience in the alarm system field.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Applicants and licensees bear the cost of fees for initial licensure and renewals. Contractors bear the cost of ensuring a responsible managing employee has the required training. Applicants or licensees whose licenses are denied, suspended or revoked may incur costs related to civil penalties or court costs to appeals.

Costs to the agency include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100C, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100C.9, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The Department has a staff member at 1.0 FTE position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is October 1 of the year of issue through September 30, three years from issue. The average number of license applications processed per year is 300 and the average fees collected per year are \$60,000. Most complaints relate to unlicensed contractors or technicians. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Qualitative description of impact:

Implementing the requirements of Iowa Code chapter 100C ensures safety for licensees and the general public through verification of statutory requirements for education and experience in the alarm system field for license applicants.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The Department is responsible for the majority of the costs to implement and enforce the licensing rules. Local Authorities Having Jurisdiction (AHJ) assist in some jurisdictions with enforcement of licensing by verifying appropriate licensing for contractors and installers working in the state of Iowa.

Costs to the Department include staff time spent ensuring compliance with the requirements of Iowa Code chapter 100C, including licensure criteria, the investigation of complaints, and processing violations. Pursuant to Iowa Code section 100C.9, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. The Department has a staff member at 1.0 FTE position who, among other duties, is responsible for the review of each license application. The staff member verifies that applications are complete and that applicants meet statutory requirements

for education and experience. The staff member also processes payments of fees required for licensure, issues licenses, and researches any complaints. The number of licenses issued each cycle varies because the license term is October 1 of the year of issue through September 30, three years from issue. The average number of license applications processed per year is 300 and the average fees collected per year total \$60,000. Most complaints relate to unlicensed contractors or technicians. These are typically resolved through the submission of an application for licensure. Less than 1 percent of applications per year end in denial, revocation, or suspension.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues.

Pursuant to Iowa Code section 100C.9, fees collected in issuing licenses are retained by the Department and used to offset the costs of administering the chapter. In 2022, approximately \$61,000 in fees was collected.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This rulemaking implements statutory requirements set forth in Iowa Code chapter 100C. The rulemaking does not add costs to the Department or public in excess of what is required by Iowa Code chapter 100C.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no less restrictive alternatives or less costly methods because the rules implement requirements found in Iowa Code chapter 100C.

Iowa Code section 272C.12, incorporated by reference in the rules, permits persons licensed in other jurisdictions to obtain licensure in Iowa without examination if the conditions of Iowa Code section 272C.12 are met.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

There are no alternative methods that were considered by the agency because this rulemaking implements statutory requirements.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There are no alternative methods that were considered by the agency because this rulemaking implements statutory requirements.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety and the appropriate qualifications for licensees, many of whom are operating small businesses. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 277 and adopt the following **new** chapter in lieu thereof:

CHAPTER 277

LICENSING OF ALARM SYSTEM CONTRACTORS AND TECHNICIANS

661—277.1(100C) Establishment of program. The alarm system contractor and alarm system technician license are established pursuant to Iowa Code chapter 100C.

277.1(1) Licensure required. No person shall act as an alarm system contractor without being currently licensed as an alarm system contractor by the department. No person shall act as an alarm system technician without being currently licensed by the department as an alarm system contractor or alarm system technician unless the person is engaged in the installation of alarm system components, is currently licensed pursuant to Iowa Code chapter 103, and is exempt from requirements for licensure by the department as an alarm system technician pursuant to Iowa Code chapter 103.

Exception: A person may pull cable for an alarm system under the direct supervision of a licensed contractor, licensed technician, or person licensed pursuant to Iowa Code chapter 103 who is working as a technician without licensing pursuant to Iowa Code chapter 103.

277.1(2) Endorsement.

a. The licensure of each contractor, technician, or technician trainee shall carry an endorsement for one or more of the following:

- (1) Alarm system contractor.
 1. Fire alarm system installation.
 2. Nurse call system installation.
 3. Security alarm system installation.
 4. Alarm system maintenance inspection.
 5. Dwelling unit alarm system installation.
- (2) Alarm system technician.
 1. Fire alarm system installation.
 2. Nurse call system installation.
 3. Security alarm system installation.
 4. Alarm system component installation.
 5. Alarm system maintenance inspection.
 6. Dwelling unit alarm system installation.
- (3) Alarm system technician trainee.

b. Any person acting as an alarm system contractor or technician, other than a person who is not required to be licensed for such work by the department, shall do so only in relation to systems covered by the endorsements on the contractor's or technician's license.

277.1(3) Length of licensure. Licensure is normally for three years and will expire on September 30 of the third year after the license has been issued. A license which is effective on a date other than October 1 will be effective on the date on which the license is issued and will expire on the next September 30, after two years have passed from the date on which the license was issued.

661—277.2(100C) Definitions. The following definitions apply:

“*Alarm system*” means the same as defined in Iowa Code section 100C.1(1).

“*Alarm system components*” means the portion of an alarm system installation limited to mounting alarm system raceways, boxes or system devices, and pulling of system cable, not including final termination at an alarm panel or final connection of the alarm system or alarm system testing.

“Alarm system contractor” or *“contractor”* means the same as defined in Iowa Code section 100C.1(2).

“Alarm system technician” or *“technician”* means a person who is engaged in the layout, installation, repair, alteration, addition, testing, or maintenance of alarm systems and who is licensed under the provisions of this chapter to perform work authorized by that license and any endorsement pertaining thereto. An alarm system technician shall be an employee of an alarm system contractor or, if employed by anyone other than an alarm system contractor, shall perform work requiring licensing as an alarm system technician only on property owned or occupied by such employer and may obtain a license if the employer is not a licensed contractor.

“Alarm system technician trainee” means a person who is engaged in the layout, installation, repair, alteration, addition, or maintenance of alarm systems under the direct supervision of a responsible managing employee or licensed alarm system technician.

“Alarm system maintenance inspection technician” means an employee of an alarm system contractor who is engaged in maintenance inspection of fire alarm, nurse call, or security alarm systems.

“Dwelling alarm system” means a system or portion of a combination system that consists of components and circuits hardwired or wireless arranged to monitor and annunciate the status of a fire alarm, nurse call or security alarm or supervisory signal-initiating devices and to initiate the appropriate response to those signals, installed in a single-family dwelling or a single dwelling unit of a multifamily residential building and not interconnected with another dwelling alarm system. A dwelling alarm system does not mean single-station or multiple-station alarms installed in dwelling units.

“Fire alarm system” means a system or portion of a combination system that consists of components and circuits hardwired or wireless arranged to monitor and annunciate the status of a fire alarm or supervisory signal-initiating devices and to initiate the appropriate response to those signals that serves the general fire alarm needs of a building or buildings and that provides fire department or occupant notification or both. A fire alarm system does not mean single-station or multiple-station alarms installed in dwelling units.

“Installation” means hanging electrical conduits, raceways or boxes; mounting system devices; pulling system cable; activating system-initiating devices and system control units or verifying system operations to meet specifications; and performing system acceptance testing.

“Layout” means drawings, calculations and component specifications to achieve the specified system design installation. “Layout” does not include design.

“Maintenance inspection” means the same as defined in Iowa Code section 100C.1(13).

“Nurse call system” means a nurse call system or portion of a combination system that consists of components and circuits hardwired or wireless arranged to monitor and annunciate the status of a nurse call system or supervisory signal-initiating devices and to initiate the appropriate response to those signals, installed in a facility required to be licensed or certified by the state pursuant to Iowa Code chapter 125, 135B, 135C, 135G, 135H, 135J, 231C, or 231D, or installed in a facility operating pursuant to Iowa Code chapter 218, 219, 223, 225, 233A, or 233B, to initiate response of on-site medical care providers.

“Responsible managing employee” means the same as defined in Iowa Code section 100C.1(14).

“Security alarm system” means a system or portion of a combination system that consists of components and circuits hardwired or wireless arranged to monitor and annunciate the status of a security alarm or supervisory signal-initiating devices and to initiate the appropriate response to those signals, installed in a building or facility to detect unauthorized entry into a building or portion of a building and to notify security personnel or building occupants or both.

661—277.3(100C) Responsible managing employee. Each alarm system contractor shall designate a responsible managing employee and may designate one or more alternate responsible managing employees. A contractor may designate more than one responsible managing employee in order to satisfy the requirements for more than one endorsement as provided in subrule 277.1(2). If more than one responsible managing employee is designated, the contractor will indicate for which responsible managing employee each designated alternate managing employee serves as an alternate.

277.3(1) The responsible managing employee or employees shall be designated in the application for licensure; and, if a responsible managing employee is no longer acting in that role, the contractor shall so notify the department, in writing, within 30 calendar days.

277.3(2) If a responsible managing employee is no longer acting in the role of responsible managing employee and the contractor has designated an alternate responsible managing employee, the alternate responsible managing employee will become the responsible managing employee and the contractor shall so notify the department, in writing, within 30 calendar days of the date on which the preceding responsible managing employee ceased to act in that role. If the contractor has designated more than one alternate responsible managing employee, the notice to the department will indicate which alternate responsible managing employee has assumed the position of responsible managing employee.

277.3(3) If a responsible managing employee designated by an alarm system contractor is no longer acting in the role of responsible managing employee and the contractor has not designated an alternate responsible managing employee, the contractor will designate a new responsible managing employee and shall notify the department, in writing, of the designation within six months of the date on which the former responsible managing employee ceased to act in that capacity. If the department has not been notified of the appointment of a new responsible managing employee within six months of the date on which a responsible managing employee ceased serving in that capacity, the department shall suspend the license of the alarm system contractor.

277.3(4) A responsible managing employee or an alternate responsible managing employee shall meet one of the requirements for the following endorsements:

a. Fire alarm system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level III or above in fire alarm systems, or

(3) Current certification by the Electronic Security Association (ESA) at level III in certified fire alarm designer (CFAD).

b. Nurse call system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by a nurse call system manufacturer, or

(3) Current certification by the NICET at level II or above in fire alarm systems, or

(4) Current certification by the ESA at level II in certified alarm technician (CAT).

c. Security alarm system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the NICET at level II or above in fire alarm systems, or

(3) Current certification by the ESA at level II in CAT.

d. Alarm system maintenance inspection:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the NICET at level II or above in fire alarm systems, or

(3) Current certification by the ESA at level II in CAT, or

(4) Current certification by the NICET level II or above in inspection and testing of fire alarm systems.

e. Dwelling unit alarm system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the NICET at level I or above in fire alarm systems, or

(3) Current certification by the ESA at level I in CAT.

277.3(5) *Training or testing approval.* Satisfactory completion of an applicable training or testing program that has been approved by the department may replace any of the endorsement requirements

of subrule 277.3(4). In any case in which training or testing that is offered to satisfy the requirements of this rule is required to be approved by the department, such approval is required prior to acceptance of the training or testing to meet licensing requirements. Approval by the department of any training or testing to meet these requirements may be sought by the individual, firm, or organization providing the testing or training or initiated by the department. Any individual, firm, or organization seeking to obtain such approval may apply to the department no later than July 1 every odd-numbered year. Program information and any other documentation requested by the department for consideration shall be submitted to the department. Training and testing approved by the department will be listed on the department's licensing website.

277.3(6) License applicability. Work performed by a contractor subject to these rules shall be limited to areas of competence indicated by the specific certification or certifications or other training requirements met by the responsible managing employee. Work performed in the state shall not begin prior to:

- a. Receipt of a new or renewed license issued by the department to the applicant, or
- b. Receipt of written approval to perform work prior to issuance of a new or renewed license from the department to the applicant.

277.3(7) Nothing in this rule shall be interpreted to conflict with or diminish any requirement for training or certification for anyone installing or servicing an alarm system set forth in any rule of the department or local fire ordinance or standard adopted by reference therein.

661—277.4(100C) Contractor licensing.

277.4(1) An alarm system contractor shall meet all of the following requirements in order to receive licensure from the department and will continue to meet all requirements throughout the period of licensure. The contractor shall notify the department, in writing, within 30 calendar days if the contractor fails to meet any requirement for licensure.

a. The contractor designates one or more responsible managing employees as provided in rule 661—277.3(100C).

b. The contractor maintains general and complete operations liability insurance for the layout, installation, repair, alteration, addition, maintenance, and inspection of automatic alarm systems in the following amounts: \$500,000 per person, \$1,000,000 per occurrence, and \$1,000,000 property damage.

(1) The carrier of any insurance coverage maintained to meet this requirement shall notify the department 30 days prior to the effective date of cancellation or reduction of the coverage.

(2) The contractor shall cease operation immediately if the insurance coverage required by this subrule is no longer in force and other insurance coverage meeting the requirements of this subrule is not in force. A contractor shall not initiate any installation of an alarm system which cannot reasonably be expected to be completed prior to the effective date of the cancellation of the insurance coverage required by this subrule and of which the contractor has received notice, unless new insurance coverage meeting the requirements of this subrule has been obtained and will be in force upon cancellation of the prior coverage.

c. The contractor maintains its current registration as a contractor in accordance with Iowa Code chapter 91C and any rules promulgated thereunder, and provides a copy of the current registration certificate issued pursuant to Iowa Code chapter 91C to the department with the application.

Exception: If the contractor does not meet the definition of “contractor” for purposes of Iowa Code chapter 91C, such registration is not required. Written documentation of such exemption must be provided to the department upon application for licensure as an alarm system contractor.

d. The contractor maintains compliance with all other applicable provisions of law related to operation in the state of Iowa and of any political subdivision in which the contractor is performing work.

277.4(2) A license may be renewed only if the licensee has completed recertification of the applicable requirements relative to the endorsement for which the licensee is renewing.

277.4(3) An alarm system contractor license may be issued without examination to a person licensed in other jurisdictions if the conditions of Iowa Code section 272C.12 are met.

661—277.5(100C) Contractor application and fees.

277.5(1) Application. Any contractor seeking licensure as an alarm system contractor shall submit a completed application form to the department. The application shall be filed no later than 30 days prior to the date of beginning work in this state or the date on which an existing license expires. An application form may be obtained from the department or the department's website. The application form shall be submitted with all required attachments and the required application fee. An application will not be considered complete unless all required information is submitted, including required attachments and fees, and will not be processed until it is complete.

277.5(2) Licensure fee. The license fee for alarm system contractors will be \$300 for two years. If an application for licensure provides for more than one responsible managing employee pursuant to rule 661—277.3(100C), there will be an additional fee of \$50 for each responsible managing employee beyond the first. If an application for licensure provides for more than one endorsement as provided in subrule 277.1(2), there will be an additional fee of \$50 for each endorsement beyond the first. The department will waive any fee charged to an applicant for a license if the applicant's household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

277.5(3) Payment. The license fee may be submitted electronically or delivered by draft, check, or money order in the applicable amount payable to the department. Cash payments are not accepted.

277.5(4) Amended license.

a. The fee for issuance of an amended license is the difference between the original license fee paid and changes in endorsement(s) or responsible managing employee(s), if applicable. The fee shall be submitted with the request for an amended licensure.

b. A contractor will request and the department will issue an amended license for any of the following reasons, and a fee does not apply:

- (1) A change in the designation of a responsible managing employee;
- (2) A change in insurance coverage; or
- (3) A change in any other material information included in or with the initial or renewal application.

A change in the location of a business is a material change; however, no fee will be charged for the issuance of an amended license if the sole reason for amending the license is to reflect a change in location which was necessitated by disaster emergency conditions and the business was located in an area subject to a disaster emergency proclamation issued by the governor pursuant to Iowa Code section 29C.6.

c. Other changes in the information required in the application form, including renewal of insurance coverage with a new expiration date, shall be reported to the department but will not require issuance of an amended license or payment of the amended license fee.

277.5(5) Attachments. Required attachments to the application for licensure are outlined on the department's website.

277.5(6) National criminal history check. Each applicant for licensure as a contractor shall submit fingerprints and the applicable fee for a national criminal history check conducted by the Federal Bureau of Investigation at the time of application for a new or renewal license.

661—277.6(100C) Technician licensure requirements. An applicant for alarm system technician licensure shall meet all of the following requirements which are applicable to the endorsements for which the applicant is applying in order to receive licensure from the department, and continue to meet all such requirements throughout the period of licensure. The technician will notify the department, in writing, within 30 calendar days if the technician fails to meet any applicable requirement for licensure.

277.6(1) The alarm system technician shall meet one of the following criteria for the following endorsements:

a. Fire alarm system installation:

- (1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or
- (2) Current certification by the National Institute for Certification in Engineering Technologies (NICET) at level II or above in fire alarm systems, or

(3) Current certification by the Electronic Security Association (ESA) at level II in certified alarm technician (CAT), or

(4) Current certification by the Elite Continuing Education University (CEU) in fire alarm installation techniques (FAIT).

b. Nurse call system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by a nurse call system manufacturer, or

(3) Current certification by the NICET at level I or above in fire alarm systems, or

(4) Current certification by the ESA at level I in CAT, or

(5) Current licensure as a master electrician or journeyman electrician by the electrical examining board pursuant to Iowa Code chapter 103.

c. Security alarm system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the NICET at level I or above in fire alarm systems, or

(3) Current certification by the ESA at level I in CAT, or

(4) Current certification by the CEU in advanced electronic intrusion technician (AEIT), or

(5) Current certification by the Complete Electrical Academy at level I in Electronic Security Technician.

d. Alarm system component installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the NICET at level I or above in fire alarm systems, or

(3) Current certification by the ESA at level I in CAT, or

(4) Current licensure as a master electrician or journeyman electrician by the electrical examining board pursuant to Iowa Code chapter 103.

e. Alarm system maintenance inspection:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the NICET at level I or above in fire alarm systems, or

(3) Current certification by the ESA at level I in CAT, or

(4) Current certification by the NICET at level I or above in inspection and testing of fire alarm systems, or

(5) Current certification by the Complete Electrical Academy at level I in electronic security technician.

f. Dwelling unit alarm system installation:

(1) Current licensure as a professional engineer by the Iowa engineering and land surveying examining board, with competence in alarm system design, or

(2) Current certification by the NICET at level I or above in fire alarm systems, or

(3) Current certification by the ESA at level I in CAT, or

(4) Current certification by the CEU in alarm level I, or

(5) Current certification by the Complete Electrical Academy at level I in electronic security technician.

g. Alarm system technician trainee: Submission of a completed application no later than the first day of employment. An alarm system technician trainee may perform work which requires licensure under this chapter only under the direct supervision of a licensed alarm system technician or responsible managing employee whose license contains one or more endorsements as provided in rules 661—277.3(100C) and 661—277.6(100C), respectively, and that work must be within the scope of work authorized by the endorsements held by the supervising alarm system technician or responsible managing employee.

277.6(2) The technician shall maintain compliance with all other applicable provisions of law related to operation in the state of Iowa and of any political subdivision in which the technician is performing work.

277.6(3) Satisfactory completion of an applicable training or testing program that has been approved by the department may replace any of the endorsement requirements of subrule 277.6(1). In any case in which training or testing that is offered to satisfy the requirements of this rule is required to be approved by the department, such approval is required prior to acceptance of the training or testing to meet licensure requirements. Approval by the department of any training or testing to meet these requirements may be sought by the individual, firm, or organization providing the testing or training or initiated by the department. Any individual, firm, or organization seeking to obtain such approval may apply to the department no later than July 1 every odd-numbered year. Program information and any other documentation requested by the department for consideration shall be submitted to the department. Training and testing approved by the department will be listed on the department's licensing website.

277.6(4) Work performed by a technician or trainee subject to these rules shall be limited to areas of competence indicated by the specific certification or certifications or other training requirements met by the technician and will be limited to areas of competence indicated by the specific certification or certifications or other training requirements met by the responsible managing employee of the technician's employer, unless the employer is not a licensed contractor as allowed by Iowa Code chapter 100C. Work performed in the state shall not begin prior to one of the following:

- a. Receipt of a new or renewed license issued by the department to the applicant, or
- b. Receipt of written approval to perform work prior to issuance of a new or renewed license from the department to the applicant.

277.6(5) Nothing in this rule shall be interpreted to conflict with or diminish any requirement for training or certification for anyone installing or servicing an alarm system set forth in any rule of the department or local fire ordinance or standard adopted by reference therein.

277.6(6) A license may be renewed only if the licensee has completed recertification of the applicable requirements relative to the endorsements for which the licensee is renewing.

277.6(7) An alarm system technician license may be issued without examination to a person licensed in other jurisdictions if the conditions of Iowa Code section 272C.12 are met.

661—277.7(100C) Technician application and fees.

277.7(1) Application. Any technician seeking licensure as an alarm system technician shall submit a completed application form to the department. The application shall be filed no later than 30 days prior to the date on which work begins in the state or on which an existing license expires, except that an application for endorsement as an alarm system technician trainee may be submitted no later than the first day of employment as an alarm system technician trainee. An application form may be obtained from the department or from the department's website. The application form shall be submitted with all required attachments and the application fee established in this rule. An application will not be considered complete unless all necessary information is submitted, including attachments and fees, and will not be processed until it is complete.

277.7(2) Licensure fee.

a. The license fee for an alarm system technician will be \$150 for two years, except that the license fee for endorsement as an alarm system technician trainee will be \$50 for one year. There will be an additional fee of \$25 for each endorsement beyond the first.

b. The department will waive any fee charged to an applicant for a license if the applicant's household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

277.7(3) Payment. The certification fee may be submitted electronically or delivered by draft, check, or money order in the applicable amount payable to the department. Cash payments are not accepted.

277.7(4) Amended license.

a. The fee for issuance of an amended license is the difference between the original license fee paid and changes in endorsement(s), if applicable. The fee shall be submitted with the request for an amended license.

b. A technician will request and the department will issue an amended license for a change in any material information included in or with the initial or renewal application. A licensee will request and the department will issue an amended license for any of the following reasons and a fee does not apply:

(1) A change in employer. A licensee may only transfer the licensee's technician license to another employer if the licensee paid the license fee at the time of original application. If the licensee's previous employer paid the license fee, the licensee must reapply for a new license under the new employer and pay the license fee.

(2) A change in any other material information included in or with the initial or renewal application. A change of address is a material change.

c. Other changes in the information required in the application form shall be reported to the department but will not require issuance of an amended license or payment of the amended license fee.

277.7(5) Attachments. Required attachments to the application for license are outlined on the department's website.

277.7(6) National criminal history check. Each applicant for licensure as a technician shall submit fingerprints and the applicable fee for a national criminal history check conducted by the Federal Bureau of Investigation at the time of application for a new or renewal license.

661—277.8(100C) Complaints. Complaints regarding the performance of any licensed contractor or technician, failure of a licensed contractor or technician to meet any of the requirements established in Iowa Code chapter 100C or this chapter or any other provision of law, or operation as an alarm system contractor or technician without licensure may be filed with the department. Complaints should be as specific as possible and clearly identify the contractor or technician against whom the complaint is filed. Complaints should be submitted in writing to the department. A complaint may be submitted anonymously, but if the name and contact information of the complainant are provided, the complainant may be notified of the disposition of the complaint.

661—277.9(100C) Denial, suspension, or revocation of licensure; civil penalties; and appeals. The department may deny, suspend or revoke the license of a contractor or technician or may assess a civil penalty to the contractor, if any provision of these rules or any other provision of law related to operation as an alarm system contractor or technician is violated.

277.9(1) Denial. The department may deny an application for licensure:

a. If the applicant makes a false statement on the application form or in any other submission of information required for licensure. "False statement" means providing false information or failing to include material information, such as a previous criminal conviction or action taken by another jurisdiction, when requested on the application form or otherwise in the application process.

b. If the applicant fails to meet all of the requirements for licensure established in this chapter.

c. If the applicant is currently barred for cause from acting as an alarm system contractor or technician in another jurisdiction.

d. If an applicant has previously been barred for cause from operating in another jurisdiction as an alarm system contractor or technician and if the basis of that action reflects upon the integrity of the applicant in operating as an alarm system contractor or technician. If an applicant is found to have been previously barred for cause from operating as an alarm system contractor or technician in another jurisdiction and is no longer barred from doing so, the department will evaluate the record of that action with regard to the likelihood that the applicant would operate with integrity as a licensed contractor or technician. If an applicant is denied under this provision, the applicant will be notified of the specific reasons for the denial.

e. Conviction of a felony offense, if the offense directly relates to the profession or occupation of the licensee, in the courts of this state or another state, territory or country. "Conviction" as used in this subrule includes a conviction of an offense which if committed in this state would be a felony

without regard to its designation elsewhere, and includes a finding or verdict of guilt made or returned in a criminal proceeding even if the adjudication of guilt is withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state constitutes conclusive evidence of the conviction. If an applicant is denied under this provision, the applicant will be notified of the specific reasons for the denial.

f. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the licensee's profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

g. Willful or repeated violations of the provisions of this chapter.

277.9(2) Suspension. A suspension of a license may be imposed by the department for any violation of these rules or Iowa Code chapter 100C or for a failure to meet any legal requirement to operate as an alarm system contractor or technician in this state. Failure to provide any notice to the department as provided in these rules will be grounds for suspension. An order of suspension will specify the length of the suspension and will specify that correction of all conditions which were a basis for the suspension is a condition of reinstatement of the license even after the period of the suspension.

277.9(3) Revocation. A revocation is a termination of a license. A license may be revoked by the department for repeated violations or for a violation which creates an imminent danger to the safety or health of individuals protected by an alarm system incorrectly installed by a certified contractor or technician or when information comes to the attention of the department which, if known to the department when the application was being considered, would have resulted in denial of the license. A new application for licensure from a contractor or technician whose license had previously been revoked will not be considered for a period of one year after the effective date of the revocation and, in any event, until every condition which was a basis for the revocation has been corrected. The department may specify in the revocation order a longer period than one year before a new application for licensure may be considered. When a new application for licensure from a contractor or technician whose license was previously revoked is being considered, the applicant may be denied licensure based upon the same information which was the basis for revocation even after any such period established by the department has expired.

277.9(4) Disqualifications for criminal convictions limited. A person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license in circumstances authorized by Iowa Code section 272C.15.

277.9(5) Civil penalties. The department may impose a civil penalty of up to \$500 per day during which a violation has occurred and for every day until the violation is corrected. A civil penalty may be imposed in lieu of or in addition to a suspension or may be imposed in addition to a revocation. A civil penalty will not be imposed in lieu of a revocation.

277.9(6) Appeals. Any person subject to denial, suspension, or revocation of a license, or any civil penalty imposed upon a licensed contractor or technician under this rule may appeal by requesting a contested case hearing, in writing, within 14 days. An appeal of a civil penalty is subject to the provisions of 481—Chapters 9 and 10 governing contested cases.

These rules are intended to implement Iowa Code chapter 100C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 661—Chapter 500
“Electrician and Electrical Contractor Licensing Program—Organization and Administration”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 103.6, 103.10 and 103.12
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 103; 2023 Iowa Acts,
Senate File 514; and Executive Order 10 (Jan. 10, 2023)

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes promulgation of new Chapter 500, “Electrician and Electrical Contractor Licensing Program—Organization and Administration.” This rulemaking implements Iowa Code chapter 103 and 2023 Iowa Acts, Senate File 514, in accordance with the goals and directives of Executive Order 10 (Jan. 10, 2023). This rulemaking proposes a succinct description of the program and Electrical Examining Board and sets forth definitions pertinent to the administration of the program.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Since this chapter sets forth only the description of and pertinent definitions used in implementing the Electrician and Electrical Contractor Licensing Program mandated by Iowa Code chapter 103, there are no costs associated with this particular chapter.
 - Classes of persons that will benefit from the proposed rulemaking:
The general public utilizing electricians and electrical contractors, as well as the professionals themselves, benefit from the proposed rulemaking. Establishing clear and consistent minimum licensing requirements, including consistent definitions throughout the program, ensures that electricians are competent to conduct safe electrical installations and the rules are easily utilized by licensees. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public and property during their practice. Electricians are professionals who require certain skills and training to protect the public and property from hazards arising from the use of electricity.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

As stated above, this chapter merely sets forth the description of and pertinent definitions used in implementing the Electrician and Electrical Contractor Licensing Program mandated by Iowa Code chapter 103. There are no costs associated with this particular chapter.

- Qualitative description of impact:

Rules that maintain clear and consistent definitions have a positive impact on administration of the program because they are easily utilized by the agency, public, and regulated professionals.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Since this chapter merely sets forth the description of and pertinent definitions used in implementing the Electrician and Electrical Contractor Licensing Program mandated by Iowa Code chapter 103, there are no costs associated with this particular chapter.

- Anticipated effect on state revenues:

As this chapter merely sets forth the description of and pertinent definitions used in implementing the Electrician and Electrical Contractor Licensing Program mandated by Iowa Code chapter 103, there is no anticipated effect on state revenues from this particular chapter.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

As set forth above, this particular chapter does not have costs associated with it, and thus the identified benefits clearly outweigh the costs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has included only pertinent and useful definitions within this chapter, and thus is believed to be achieving the goals of this proposed rulemaking in the least intrusive or costly manner.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

As related to implementation of Iowa Code chapter 103 as a whole, the Board has not identified a more cost-effective alternative to the licensure of electricians. The Board believes all current requirements ensure public safety, help protect property from hazards arising from the use of electricity, and ensure a minimum competency of service is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rules provide consistency related to licensure. Particular to this chapter, providing definitions is the only method reasonably available to ensure consistency of interpretation of pertinent rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This proposed chapter does not present any substantial impact on small business because it merely provides definitions.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 500 and adopt the following **new** chapter in lieu thereof:

CHAPTER 500
ELECTRICIAN AND ELECTRICAL CONTRACTOR LICENSING PROGRAM—
ORGANIZATION AND ADMINISTRATION

661—500.1(103) Establishment of program. The electrician and electrical contractor licensing program is established in the department of inspections, appeals, and licensing. The program is under the direction of the electrical examining board. Contact information of the board office can be found on the department's website.

661—500.2(103) Definitions. The following definitions apply to all rules adopted by the electrical examining board.

"Approved by the board" means the approval of any item, test or procedure by the electrical examining board by adoption of a resolution at a meeting of the board, provided that the approval has not been withdrawn by a later resolution of the board. A list of any such items, tests, or procedures that have been approved by the board is available from the board office or from the board website.

"Complete criminal record" means the complaint and judgment of conviction for each offense of which the applicant has been convicted, regardless of whether the offense is classified as a felony or a misdemeanor, and regardless of the jurisdiction in which the offense occurred.

"Conviction" means a finding, plea, or verdict of guilt made or returned in a criminal proceeding, even if the adjudication of guilt is deferred, withheld, or not entered. "Conviction" includes Alford pleas and pleas of nolo contendere.

"Department" means the department of inspections, appeals, and licensing.

"Directly relates" or "directly related" means either that the actions taken in furtherance of an offense are actions customarily performed within the scope of practice of the profession; or that the circumstances under which an offense was committed are customary to the profession.

"Disqualifying conviction" or "disqualifying offense" means a conviction directly related to the practice of the profession.

"Division" means the building and construction bureau of the department of inspections, appeals, and licensing.

"Documented experience" means experience which an applicant for licensing has completed and which has been documented by the applicant's completion and submission of a sworn affidavit or other evidence requested by the board.

"Eligibility determination" means the process by which a person who has not yet submitted a completed license application may request that the board determine whether one or more of the person's convictions are disqualifying offenses that would prevent the individual from receiving a license or certification.

“Emergency installation” means an electrical installation necessary to restore power to a building or facility when existing equipment has been damaged due to a natural or man-made disaster or other weather-related cause. Emergency installations may be performed by persons properly licensed to perform the work, and may be performed prior to submission of a request for permit or request for inspection. A request for permit and request for inspection, if required by rule 661—552.1(103), should be made as soon as practicable and, in any event, no more than 72 hours after the installation is completed.

“Final agency action” means the issuance, denial, suspension, or revocation of a license. If an action is subject to appeal, “final agency action” has occurred when the administrative appeal process provided for in 661—Chapter 503 has been exhausted or when the deadline for filing an appeal has expired.

“Full-time” means a minimum of 1,700 hours of work in a one-year period.

“Issuing jurisdiction” means the duly constituted authority in another state that has issued a professional license, certificate, or registration to a person.

“Registered apprenticeship program” means an electrical apprenticeship program registered with the Bureau of Apprenticeship and Training of the United States Department of Labor or an electrical apprenticeship program registered with a state agency whose registration program is accepted by the Bureau of Apprenticeship and Training in lieu of direct registration with the Bureau of Apprenticeship and Training.

“Residential electrical work” means electrical work in a residence in which there are no more than four living units within the same building and includes work to connect and work within accessory structures, which are structures no greater than 3,000 square feet in floor area, not more than two stories in height, the use of which is incidental to the use of the dwelling unit or units, and located on the same lot as the dwelling unit or units.

“Transferring jurisdiction” means the specific issuing jurisdiction on which an applicant relies to seek licensure in Iowa by verification under this chapter.

These rules are intended to implement Iowa Code chapters 17A, 103 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 661—Chapter 502
“Electrician and Electrical Contractor Licensing Program—Licensing Requirements, Procedures,
and Fees”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 103.6, 103.10 and 103.12
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 103 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes promulgation of Chapter 502, “Electrician and Electrical Contractor Licensing Program—Licensing Requirements, Procedures, and Fees.” It implements Iowa Code chapters 103 and 272C and 2023 Iowa Acts, House File 514, in accordance with the goals and directives of Executive Order 10 (Jan. 10, 2023). This rulemaking sets minimum standards for entry into the electrical profession and articulates the processes by which individuals apply for licensure as an electrician in the state of Iowa, as directed in Iowa Code chapter 103. In particular, the proposed rules provide for the categories of licenses and requirements for each license type; set forth the terms and fees for the license types; and set forth procedures for applying for a license, standards for obtaining a license, and potential bases for the denial of a license. These requirements ensure public safety by ensuring that any individual or business entering the profession has minimum competency.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there are costs to the applicant/licensee. Costs associated with complying with the minimum requirements to enter into the profession are at the expense of the licensee and include initial and renewal license fees, as required by Iowa Code section 103.19. A list of all applicable initial and renewal licensee fees are set forth in proposed rule 661—502.3(103).

The Electrical Examining Board believes all such fees are appropriate for sustaining the program and in line with fee requirements of similar jurisdictions. For example, the fee for an initial journeyman electrician license in the state of Iowa is \$75 for a three-year term (\$25 per year) and the renewal fee is

\$75 for a three-year term (\$25 per year). These costs are comparable to 17 other states' initial and renewal licensing fees for electricians. The 17 states' average initial and renewal licensing fee for electricians is \$43 per year.

The licensee would also have costs related to educational requirements and exam requirements. The Board has not identified an exact cost of education for this field because the cost varies depending on the school the licensee chooses to attend to meet those requirements.

Costs to the agency include administrative costs to administer the program. Such costs include staff salaries to support the work of the Board, including staff review of applications for initial and renewal licenses and fielding administrative inquiries on licensing. As discussed in detail below, costs to the agency in administering the program are covered by the licensing and inspection fees required by Iowa Code sections 103.19, 103.25, and 103.32.

- Classes of persons that will benefit from the proposed rulemaking:

The general public utilizing electricians and electrical contractors, as well as the professionals themselves, benefit from the proposed rules. Establishing clear and consistent minimum licensing requirements ensures that electricians are competent to perform safe electrical installations. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public and property. Electricians are professionals who require certain skills and training to protect the public and property from hazards arising from the use of electricity.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide the academic training for electricians to obtain their license in the state of Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the exam. Because the cost of education varies depending on the institution the person attends, the Board is unable to put an exact cost on education or exam preparation.

Licensee fees are set forth in proposed rule 661—502.3(103) and are identical to the current fees. Presently, there are 18,670 licensed professionals. The Board collected \$3.4 million in fees over a three-year period. These fees support the totality of the program implementing Iowa Code chapter 103.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee, property, and consumer. The cost of inaction would be increasing the potential for injury to the public and potential damage to property by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency associated with implementation and enforcement of the administrative chapters implementing Iowa Code chapter 103 under current review pursuant to Executive Order 10 (661—Chapters 500, 501, 502, 503, and 505) include the staff time needed to manage applications, submissions, and inquiries related to initial licenses, renewals, reinstatements, complaints/discipline, and continuing education. This specifically includes approximately 4.0 full-time equivalent (FTE) positions at an annual cost of approximately \$388,300. The costs also include expenses associated with licensing software and technology at an annual cost of approximately \$60,000. Notably, costs related to the entire program for implementing Iowa Code chapter 103 also include costs associated with approximately 19 FTE positions for electrical inspectors (administrative chapters specific to this component of the program are scheduled for review pursuant to Executive Order 10 in 2024).

- Anticipated effect on state revenues:

In accordance with Iowa Code section 103.19, license fees are utilized to support administration of the entire electrician and electrical contractor program implementing Iowa Code chapter 103. License fees generated are approximately \$3.4 million over a three-year period. Notably, license fees offset the costs of the entire program implementing Iowa Code chapter 103, which includes 19 FTE positions for

electrical inspectors in addition to the 4.0 FTE positions for licensing discussed above. License fees correlate with expenses of administering the program pursuant to Iowa Code chapter 103.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

All current requirements are believed to be necessary to ensure public safety and ensure a minimum competency of service is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rules provide for consistency related to the licensure of electricians in other states, which makes obtaining licensure in multiple states less burdensome for the regulated professionals.

As set forth above, the costs to licensees in the state of Iowa are similar to those of surrounding states, and licensing fees are appropriate to support administration of the program implementing Iowa Code chapter 103. The surrounding states all require similar licensing procedures for electricians.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of electricians. The Board believes all current requirements ensure public safety and ensure a minimum competency of service is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rules provide consistency related to the licensure of electricians in other states, which makes obtaining licensure in multiple states less burdensome for applicants.

Notably, due to the realignment implemented pursuant to 2023 Iowa Acts, Senate File 514, this Board is now part of the Department of Inspections, Appeals, and Licensing. The Department and Board continue to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. The revisions to these rules support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified alternative methods for the licensure of electricians. The Board believes all current requirements ensure public safety, help protect property from hazards arising from the use of electricity, and ensure that a minimum competency of service is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of electricians in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rules are meant to ensure public safety in terms of licensing requirements for electricians. While some electricians likely are running a small business of their own, some also work for large corporations. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business. If a small business licensee identified a rule that is overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 502 and adopt the following new chapter in lieu thereof:

CHAPTER 502
ELECTRICIAN AND ELECTRICAL CONTRACTOR LICENSING PROGRAM—LICENSING
REQUIREMENTS, PROCEDURES, AND FEES

661—502.1(103) License categories and authority.

502.1(1) The following license categories are established:

- a. Electrical contractor.
- b. Residential electrical contractor.
- c. Master electrician, class A.
- d. Master electrician, class B.
- e. Residential master electrician.
- f. Journeyman electrician, class A.
- g. Journeyman electrician, class B.
- h. Residential electrician.
- i. Apprentice electrician.
- j. Special electrician.
- k. Unclassified person.
- l. Inactive master electrician.

502.1(2) A person who holds any class of license issued by the board, other than a class B license, a residential electrical contractor license, a residential master electrician license, or a residential electrician license, may perform the work authorized by that license anywhere within the state of Iowa. A class B license can be subject to limitations imposed by a political subdivision through a local ordinance pursuant to Iowa Code section 103.29(4). A person who holds a residential electrical contractor license, a residential master electrician license, or a residential electrician license may perform the work authorized by that license anywhere within the state of Iowa except within a political subdivision which has, by local ordinance, limited the use of such a license.

502.1(3) Except as otherwise provided by Iowa Code chapter 103, a person who does not have a current valid license cannot perform work as an electrician or as an unclassified person. A person cannot perform work which requires licensing and which is not specifically authorized under the license issued.

502.1(4) An apprentice electrician or an unclassified person, while performing electrical work, shall be directly supervised at all times by a master electrician or a journeyman electrician or, while performing residential electrical work only, by a residential master electrician, a residential electrician, or a special residential electrician. A master electrician, a journeyman electrician, a residential master electrician, or

a residential electrician is not permitted to directly supervise more than three apprentice electricians or unclassified persons, or both, at once.

502.1(5) A journeyman electrician or a residential electrician may only work under the general direction of a master electrician or, while performing residential electrical work only, under the general direction of a residential master electrician.

661—502.2(103) License requirements.

502.2(1) An electrical contractor license may be issued to a person who submits an application with the applicable fee, who holds or employs a person who holds an active master electrician license, who is registered as a contractor with the labor services division of Iowa workforce development. An electrical contractor license issued to a person who holds a class B master electrician license is subject to the same restriction of use as is the class B master electrician license.

502.2(2) A residential electrical contractor license may be issued to a person who is licensed as a class A master electrician, a class B master electrician, or a residential master electrician and who is registered with the state of Iowa as a contractor pursuant to Iowa Code chapter 91C.

502.2(3) A class A master electrician license may be issued to a person who submits to the board a completed application with the applicable fee and who meets one of the following:

a. Has completed one year of experience as a licensed journeyman electrician, and has passed a supervised written examination for master electrician approved by the board with a score of 70 or higher within 24 months of submission of a new application; or

b. As of December 31, 2007, held a current valid license as a master electrician issued by a political subdivision in Iowa, the issuance of which required passing a supervised written examination approved by the board, and one year of experience as a journeyman electrician; or

c. Holds a current class B master electrician license and has passed a supervised written examination for master electrician approved by the board with a score of 70 or higher within 24 months of submission of a new application.

502.2(4) A class B master electrician license may be issued to a person who submits to the board a completed application with the applicable fee; who presents credible evidence of having worked for a total of 16,000 hours of cumulative experience as a master electrician, of which at least 8,000 hours were worked since January 1, 1998; and whose experience as a master electrician began on or before January 1, 1998.

502.2(5) A residential master electrician license may be issued to a person who submits to the board a completed application with the applicable fee, holds a current residential electrician or journeyman electrician license, has 2,000 hours of verified experience as a residential electrician or a journeyman electrician, and has passed a residential master electrician examination approved by the board with a score of 70 or higher within 24 months of submission of a new application.

502.2(6) A class A journeyman electrician license may be issued to a person who submits to the board a completed application with the applicable fee and who meets one of the following:

a. Has successfully completed a registered apprenticeship program, has passed a supervised written examination for journeyman electrician approved by the board with a score of 70 or higher within 24 months of submission of a new application, and has completed four years of experience as an apprentice electrician.

b. Holds a current class B journeyman electrician license and has passed a supervised written examination for journeyman electrician approved by the board with a score of 70 or higher within 24 months of submission of a new application.

c. Holds a current electrician license in another state, has passed a supervised written examination for journeyman electrician approved by the board with a score of 70 or higher within 24 months of submission of a new application, and has satisfied the sponsorship requirements for testing for a journeyman class A license by providing evidence of all of the following:

(1) Current licensure as a journeyman or master electrician from another state which required passing a test sponsored by that state.

(2) Completion of 18 hours of continuing education units approved by the board.

(3) Completion of 1,000 hours of work in Iowa as an unclassified person.

d. Holds a current license issued by the board; has passed a supervised written examination for journeyman electrician approved by the board with a score of 70 or higher within 24 months of submission of a new application; has completed 54 hours of continuing education approved by the board; and has completed 16,000 hours of electrical work while licensed by the board, except as a special electrician, as verified by a master electrician licensed by the board. The 16,000 hours is to include at least the following minimum number of hours of work on commercial or industrial installations in the categories indicated: 500 hours of preliminary work, 2,000 hours of rough-in work, 2,000 hours of finish work, 2,000 hours of lighting and service work, 500 hours of troubleshooting, and 500 hours of motor control work. At least 4,000 hours of the 16,000 hours is to be completed by the applicant within the five years immediately preceding the submission date of the application.

e. Holds a current license issued by the board as a residential electrician or residential master electrician, has passed a supervised written examination for journeyman electrician approved by the board with a score of 70 or higher within 24 months of submission of a new application, and has completed 4,000 hours of work on commercial or industrial electrical installations while licensed by the board, as verified by a master electrician licensed by the board. The 4,000 hours is to include at least the following minimum numbers of hours in the categories indicated: 100 hours of preliminary work, 500 hours of rough-in work, 500 hours of finish work, 500 hours of lighting and service work, 100 hours of troubleshooting, and 100 hours of motor control work.

f. Holds a current license issued by the board, has satisfactorily completed an approved postsecondary electrical education program, has passed a supervised written examination for journeyman electrician approved by the board with a score of 70 or higher within 24 months of submission of a new application, and, subsequent to beginning the postsecondary electrical education program, has completed at least 6,000 hours of electrical work while licensed by the board, as verified by a master electrician licensed by the board.

502.2(7) A class B journeyman electrician license may be issued to a person who submits to the board a completed application with the applicable fee; who presents credible evidence of having worked for a total of 16,000 hours of cumulative experience as a journeyman electrician or master electrician, of which at least 8,000 hours were worked since January 1, 1998; and whose experience as a journeyman electrician or master electrician began on or before January 1, 1998.

502.2(8) A residential electrician license may be issued to a person who submits to the board a completed application with the applicable fee and who meets one of the following:

a. Has completed 6,000 hours of experience as an apprentice electrician and has passed a residential electrician examination approved by the board. An applicant may take the examination after completing 5,000 hours of experience as an apprentice electrician, although the license will not be issued until the applicant has completed 6,000 hours of such experience; or

b. Has completed 4,000 hours of experience working under the direct supervision of a residential master electrician, a residential electrician, a master electrician, or a journeyman electrician; has successfully completed a minimum of one academic year of an electrical trade school approved by the board; and has passed a residential electrician examination approved by the board; or

c. Has completed 8,000 hours of verified experience as a licensed unclassified person including at least 2,000 hours of verified work experience in residential wiring and has passed a residential electrician examination approved by the board; or

d. Has successfully completed a registered residential electrician apprenticeship program and passed a supervised written residential electrician examination approved by the board with a score of 70 or higher within 24 months of submission of a new application.

502.2(9) A special electrician license may be issued to a person who submits to the board a completed application with the applicable fee and who meets the qualifications for any endorsement entered on the license. Each special electrician license is eligible to carry one or more of the following endorsements:

a. Endorsement 1, "Irrigation System Wiring," may be included if requested and the applicant has passed a supervised examination approved by the board or has completed two years, or 4,000 hours, of documented experience in the wiring of irrigation systems.

b. Endorsement 2, “Disconnecting and Reconnecting Existing Air Conditioning and Refrigeration Systems,” may be included if requested and the applicant has passed a supervised examination approved by the board or has completed two years of documented experience in the disconnecting and reconnecting of existing air conditioning and refrigeration systems.

c. Endorsement 3, “Sign Installation,” may be included if requested. This endorsement does not authorize the holder to connect power to a sign that has a voltage greater than 220V and an ampere rating greater than 20 amps. Initial installation or upgrading of the branch circuits supplying power to the sign may only be completed by a licensed master electrician or by a licensed journeyman electrician under the supervision of a master electrician.

502.2(10) An apprentice electrician license may be issued to a person who submits a completed application to the board with the applicable fee and who is participating in a registered apprenticeship program. A person may hold an apprentice electrician license for no more than six years from the original date of licensing unless an extension is granted by the board based upon a documented hardship.

502.2(11) A license as an unclassified person may be issued to a person who submits a completed application to the board with the applicable fee and who is employed by a licensed electrical contractor. Any person who holds a current license issued by the board, excluding special electrician licenses, may work as an unclassified person without holding an unclassified person license.

502.2(12) In lieu of renewal of the active master electrician license, an inactive master electrician license may be issued to a holder of a master electrician license whose license is due for renewal and who requests placement in inactive status. It is the responsibility of the holder of an inactive license to maintain all requirements which would apply for an active master electrician license, except for payment of the fee for an active license, during the term of the inactive license. If the license holder fails to meet any such requirement during the term of the inactive license, the license holder will not be entitled to reinstatement of an active license. If the license holder continues to meet all such requirements while holding an inactive license, the license holder may obtain an active master electrician license by surrendering the inactive master electrician license, filing an application for reinstatement, and paying the applicable license fee. The holder of an inactive license who seeks reinstatement of an active license will not receive any refund of the fee paid for the inactive license. A person who holds an inactive license cannot perform work which requires the person to be a holder of that license but may perform work authorized by any active license issued by the board which the person holds.

502.2(13) Retaking an examination. If passage of an examination is a requirement for issuance of a license:

a. An applicant who has taken the examination for a license twice and has failed the examination twice cannot retake the examination until after waiting six months and completing 12 hours of continuing education approved by the board on subjects related to the standards specified in 661—Chapter 504. After satisfying the requirements of this paragraph, the applicant may take the examination two additional times, or a maximum of four times.

b. An applicant who has satisfied the conditions of paragraph “*a*” and who has taken the examination two additional times, or a total of four times, and has failed the examination four times cannot retake the examination until after waiting an additional six months and completing an additional 12 hours of continuing education approved by the board on subjects related to the standards specified in 661—Chapter 504 before taking the examination again. After satisfying the requirements of this paragraph, the applicant may take the examination two additional times, or a maximum of six times.

c. An applicant who has satisfied the conditions of paragraph “*b*” and who has taken the examination two additional times, or a total of six times, and has failed the examination six times cannot retake the examination any additional times unless approved to do so by the board. An applicant who wishes to take an examination after failing it six times may petition the board to allow the applicant to take the examination again after waiting an additional six months. The board may request that an applicant appear personally before the board when considering the petition.

502.2(14) Reciprocal journeyman licensing. A journeyman class A license may be issued, without examination, to a person who holds a license from another state provided that:

a. The board has entered into an agreement with the other state providing for reciprocal issuance of licenses and that the agreement recognizes the equivalency of the examination required for the license issued by the other state and the examination required for the Iowa license to be issued; and

b. The applicant has successfully completed a supervised written examination approved by the other state with a score of 70 or higher in order to obtain the license from the other state; and

c. The applicant holds an applicable license from the other state at the time the application for an Iowa license is filed and has held the applicable license from the other state continuously for one year at the time the application for an Iowa license is filed; and

d. The applicant has submitted:

(1) A completed application for the Iowa license;

(2) A copy of the applicable license from the other state, clearly showing the license number and any other identifying information;

(3) The applicable fee;

(4) The sworn affidavit required under subparagraph 502.2(14)“e”(2), if applicable; and

(5) Any other information requested by the board; and

e. The applicant has either:

(1) Completed an approved apprenticeship program; or

(2) Completed 16,000 hours of electrical work as an electrician licensed by the other state, as documented by submission of a sworn affidavit signed by the applicant.

502.2(15) Reciprocal master licensing. A master class A license may be issued, without examination, to a person who holds an equivalent license from another state provided that:

a. The board has entered into an agreement with the other state providing for reciprocal issuance of licenses and that the agreement recognizes the equivalency of the examination required for the license issued by the other state and the examination required for the Iowa license to be issued; and

b. The applicant has successfully completed a supervised written examination approved by the other state, with a score of 70 or higher, in order to obtain the license from the other state; and

c. The applicant holds an applicable license from the other state at the time the application for an Iowa license is filed and has held the applicable license from the other state continuously for one year at the time the application for an Iowa license is filed; and

d. The applicant has submitted:

(1) A completed application for the Iowa license;

(2) A copy of the applicable license from the other state, clearly showing the license number and any other identifying information;

(3) The applicable fee;

(4) Any other information requested by the board, which may include, but is not limited to, additional evidence that the person’s license from the other state is currently valid; and

e. The applicant has either:

(1) Completed an approved apprenticeship program; or

(2) Completed 16,000 hours of electrical work as an electrician licensed by the other state, documented by a sworn affidavit signed by the applicant.

661—502.3(103) License terms and fees. The following table sets out the length of term of each license and the fee for the license.

| License Type | Term | Fee |
|-----------------------------------|---------|-------|
| Electrical Contractor | 3 years | \$375 |
| Residential Electrical Contractor | 3 years | \$375 |
| Master Electrician, Class A | 3 years | \$375 |
| Master Electrician, Class B | 3 years | \$375 |
| Residential Master Electrician | 3 years | \$375 |
| Journeyman Electrician, Class A | 3 years | \$75 |

| License Type | Term | Fee |
|---------------------------------|---------|------|
| Journeyman Electrician, Class B | 3 years | \$75 |
| Residential Electrician | 3 years | \$75 |
| Special Electrician | 3 years | \$75 |
| Apprentice Electrician | 1 year | \$20 |
| Unclassified Person | 1 year | \$20 |
| Inactive Master Electrician | 3 years | \$75 |

502.3(1) If a license is issued for less than the period of time specified in the table above, the fee will be prorated according to the number of months for which the license is issued.

502.3(2) A licensee who is on active military deployment for 91 or more consecutive calendar days during the term of a license may have the license period tolled as follows. “Tolled” means that the expiration date of the license will be delayed for the period of time during which the license term is tolled.

a. A licensee who is on active military deployment for 91 or more consecutive calendar days during a licensing period may have the license terms tolled for one year.

b. A licensee who is on active military deployment for 366 or more consecutive calendar days during a licensing period may have the license terms tolled for two years.

c. A licensee who is on active military deployment for 91 or more consecutive calendar days but fewer than 366 consecutive calendar days may petition the board to have the license tolled for two years upon a showing of a special hardship which would not be alleviated by tolling the license term for only one year.

d. A licensee who requests that the term of a license be tolled pursuant to this subrule will provide a copy of military orders showing the beginning and ending dates of the deployment or deployments which are the basis for the request.

502.3(3) A licensee may obtain a replacement license for a license that has been lost. To order a replacement license, the licensee will notify the board office in writing that the license has been lost and will provide any information needed by the board office, which may include, but is not limited to, the license number, the name of the licensee, and a description of the circumstances of the loss, if known. The fee for issuance of a replacement license is \$15.

EXCEPTION: If a licensee who is located in an area covered by a disaster emergency proclamation issued by the governor pursuant to Iowa Code section 29C.6 which is currently in force or has been in force within the previous 90 days certifies to the board that the license was lost as a direct result of conditions which relate to the issuance of the disaster emergency proclamation, the fee for replacement of the license can be waived.

502.3(4) Refunds of license fees can be made under the following circumstances:

a. If an error on the part of the staff or the applicant or licensee has resulted in an overpayment of fees, the refund can be in the amount of overpayment and can be made if the overpayment is discovered by staff of the board or if the overpayment is discovered by the applicant or licensee and the applicant or licensee requests a refund.

b. If an applicant for an initial license or a renewal license dies prior to the effective date of a license for which the applicant has applied and paid the applicable fee, the license fee can be refunded to the estate of the applicant upon receipt of a request from the estate of the applicant, accompanied by a certified copy of the death certificate.

502.3(5) The fee for submitting a petition for eligibility determination as defined in subrule 502.8(2) is \$25.

502.3(6) The board will waive any fee charged to an applicant for a license if the applicant’s household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

661—502.4(103) Disqualifications for licensure. An application for a license can be denied if any of the following apply:

502.4(1) The applicant fails to meet the requirements for the license for which the applicant has applied or the applicant fails to provide adequate documentation of any requirement.

502.4(2) The applicant has previously had a license revoked or suspended by the board, and the circumstances which formed the basis of the revocation or suspension have not been corrected. If a license was revoked or suspended and conditions were imposed for the restoration of the license, licensure will be denied unless those conditions have been met.

502.4(3) The applicant has been denied, for cause, a license to work, or a license as an electrician has been revoked, for cause, in any other state or political subdivision and the applicant has not subsequently received a license from the state or political subdivision which denied or revoked the license. An applicant who has been denied a license pursuant to this provision may apply to the board for a license and, upon a showing of evidence satisfactory to the board that the condition or conditions which led to the denial or revocation no longer apply, the board may grant the license to the applicant.

502.4(4) The applicant falsifies or fails to provide any information requested in connection with the application or falsifies any other information provided to the board in support of the application.

502.4(5) The applicant has been convicted of a disqualifying offense in the courts of this state or another state, territory, or country. A file-stamped copy of the final order or judgment of conviction or plea of guilty in this state or another state constitutes conclusive evidence of the conviction.

502.4(6) The applicant has unpaid fees due to the board which are 120 days or more past due. The license for which the applicant applied may be issued after the fees are paid if the applicant is not otherwise disqualified from obtaining the license.

661—502.5(103) License application.

502.5(1) Any person seeking a license from the board is to submit a completed application to the board accompanied by the applicable fee payable by check, money order, or warrant to the Iowa department of inspections, appeals, and licensing. The memo area of the check should read “Electrician Licensing Fees.” The application is to be submitted on the form prescribed by the board, which may be obtained from the board office.

502.5(2) Upon receipt of a completed application, the board executive secretary or designee has discretion to:

a. Authorize the issuance of a license, certification, or examination application.

b. Refer the application to a committee of the board for review and consideration when the board executive secretary determines that matters raised in or revealed by the application, including but not limited to prior criminal history, chemical dependence, competency, physical or psychological illness, professional liability claims or settlements, professional disciplinary history, education or experience, are relevant in determining the applicant’s qualifications for a license, certification, or examination. Matters that may justify referral to a committee of the board include, but are not limited to:

(1) Prior criminal history, which is reviewed and considered in accordance with Iowa Code chapter 272C and rule 661—502.8(272C).

(2) Chemical dependence.

(3) Competency.

(4) Physical or psychological illness or disability.

(5) Judgments entered on, or settlements of, claims, lawsuits, or other legal actions related to the profession.

(6) Professional disciplinary history.

(7) Education or experience.

502.5(3) Following review and consideration of an application referred by the board executive secretary, the committee may at its discretion:

a. Authorize the issuance of the license, certification, or examination application.

b. Recommend to the board denial of the license, certification, or examination application.

c. Recommend to the board issuance of the license or certification under certain terms and conditions or with certain limitations.

d. Refer the license, certification, or examination application to the board for review and consideration without recommendation.

502.5(4) Following review and consideration of a license, certification, or examination application referred by the committee, the board can:

a. Authorize the issuance of the license, certification, or examination application;

b. Deny the issuance of the license, certification, or examination application; or

c. Authorize the issuance of the license or certification under certain terms and conditions or with certain limitations.

502.5(5) The committee or board can request an applicant to appear for an interview before the committee or the full board as part of the application process.

661—502.6(103) Restriction of use of class B licenses by political subdivisions. A political subdivision may disallow or limit the use of a class B license to perform electrical work within the geographic limits of that subdivision through adoption of a local ordinance. A copy of any such ordinance is to be filed with the board office prior to the effective date of the ordinance. If a class B license holder held a license issued or recognized by a political subdivision on December 31, 2007, that political subdivision cannot restrict the license holder from performing work which would have been permitted under the terms of the license issued or recognized by the political subdivision.

EXCEPTION: An ordinance restricting or disallowing electrical work by holders of class B licenses will not apply to work which is not subject to the issuance of permits by the political subdivision.

661—502.7(103) Financial responsibility. Any holder of an electrical contractor license or any holder of an electrician license who is not employed by a licensed electrical contractor and who contracts to provide electrical work which requires a license issued pursuant to 661—Chapters 500 through 503 is to, at all times, maintain insurance coverage as provided in this rule.

502.7(1) The licensee is to maintain general and complete operations liability insurance in the amount of at least \$1 million for all work performed which requires licensing pursuant to 661—Chapters 500 through 503.

a. The carrier of any insurance coverage maintained by the licensee to meet this requirement will notify the board 30 days prior to the effective date of cancellation or reduction of the coverage.

b. The licensee will cease operation immediately if the insurance coverage required by this rule is no longer in force and other insurance coverage meeting the requirements of this rule is not in force. A licensee will not initiate any electrical work which cannot reasonably be expected to be completed prior to the effective date of the cancellation of the insurance coverage required by this rule and of which the licensee has received notice, unless new insurance coverage meeting the requirements of this rule has been obtained and will be in force upon cancellation of the prior coverage.

502.7(2) Reserved.

661—502.8(272C) Use of criminal convictions in eligibility determinations and initial licensing decisions.

502.8(1) License application. Unless an applicant for licensure petitions the board for an eligibility determination, the applicant's convictions will be reviewed when the board receives a completed license application.

a. *Full disclosure.* An applicant is to disclose all convictions on a license application. Failure to disclose all convictions is grounds for license denial or disciplinary action following license issuance.

b. *Documentation and personal statement.* An applicant with one or more convictions is to submit the complete criminal record for each conviction and a personal statement regarding whether each conviction directly relates to the practice of the profession in order for the license application to be considered complete.

c. Rehabilitation. An applicant will, as part of the license application, submit all evidence of rehabilitation that the applicant wishes to be considered by the board. The board may deny a license if the applicant has a disqualifying offense, unless the applicant demonstrates by clear and convincing evidence that the applicant is rehabilitated pursuant to Iowa Code section 272C.15. An applicant with one or more disqualifying offenses who has been found rehabilitated still needs to satisfy all other requirements for licensure.

d. Nonrefundable fees. Any application fees will not be refunded if the license is denied.

502.8(2) Eligibility determination. An individual who has not yet submitted a completed license application may petition the board for an eligibility determination. An individual with criminal convictions is not required to petition the board for an eligibility determination before applying for a license. To petition the board for an eligibility determination, a petitioner is to submit all of the following:

- a.* A completed eligibility determination form, which is available on the board's website;
- b.* The complete criminal record for each of the petitioner's convictions;
- c.* A personal statement regarding whether each conviction directly relates to the practice of the profession and why the board should find the petitioner rehabilitated;
- d.* All evidence of rehabilitation that the petitioner wants the board to consider; and
- e.* Payment of a nonrefundable fee in the amount of \$25.

502.8(3) Appeal. A petitioner found ineligible or an applicant denied a license because of a disqualifying offense may appeal the decision in the manner and time frame set forth in the board's written decision. A timely appeal will initiate a nondisciplinary contested case proceeding. The department's rules governing contested case proceedings apply unless otherwise specified in this rule. If the petitioner or applicant fails to file a timely appeal, the board's written decision will become a final order.

a. Presiding officer. The presiding officer will be the board. However, any party to an appeal of a license denial or ineligibility determination may file a written request, in accordance with rule 661—10.306(17A), requesting that the presiding officer be an administrative law judge. Additionally, the board may, on its own motion, request that an administrative law judge be assigned to act as presiding officer. When an administrative law judge serves as the presiding officer, the decision rendered will be a proposed decision.

b. Burden. The office of the attorney general represents the board's initial ineligibility determination or license denial and has the burden of proof to establish that the petitioner's or applicant's convictions include at least one disqualifying offense. If the office of the attorney general satisfies this burden by a preponderance of the evidence, the burden of proof shifts to the petitioner or applicant to establish rehabilitation by clear and convincing evidence.

c. Judicial review. A petitioner or applicant must appeal an ineligibility determination or a license denial in order to exhaust administrative remedies. A petitioner or applicant may only seek judicial review of an ineligibility determination or license denial after the issuance of a final order following a contested case proceeding. Judicial review of the final order following a contested case proceeding is to be made in accordance with Iowa Code chapter 17A.

502.8(4) Future petitions or applications. If a final order determines a petitioner is ineligible, the petitioner cannot submit a subsequent petition for eligibility determination or a license application prior to the date specified in the final order. If a final order denies a license application, the applicant cannot submit a subsequent license application or a petition for eligibility determination prior to the date specified in the final order.

661—502.9(272C) Licensure by verification. Licensure by verification is available under the following circumstances.

502.9(1) Eligibility. A person may seek licensure by verification if all of the following criteria are satisfied:

- a.* The person is licensed, certified, or registered in at least one other issuing jurisdiction;

b. The person has been licensed, certified, or registered by another issuing jurisdiction for at least one year;

c. The scope of practice in the transferring jurisdiction is substantially similar to the scope of practice in Iowa;

d. The person's license, certification, or registration is in good standing in all issuing jurisdictions in which the person holds a license, certificate, or registration; and

e. The person either:

(1) Establishes residency in the state of Iowa pursuant to rule 701—38.17(422); or

(2) Is married to an active duty member of the military forces of the United States and is accompanying the member on an official permanent change of station.

502.9(2) Board application. The applicant is to submit all of the following:

a. A completed application for licensure by verification.

b. Payment of the appropriate fee or fees.

c. A verification form completed by the transferring jurisdiction, verifying that the applicant's license, certificate, or registration in that jurisdiction complies with the requirements of Iowa Code section 272C.12. The completed verification form will be sent directly from the transferring jurisdiction to the board.

d. Proof of current Iowa residency, or proof of the military member's official permanent change of station. To demonstrate Iowa residency, the applicant will submit proof that:

(1) The applicant currently maintains a residence or place of abode in Iowa, whether owned, rented, or occupied, even if the individual is in Iowa less than 183 days of the calendar year; and

(2) One or more of the following:

1. The applicant claims a homestead credit or military tax exemption on a home in Iowa, or

2. The applicant is registered to vote in Iowa, or

3. The applicant maintains an Iowa driver's license, or

4. The applicant does not reside in an abode in any other state for more days of the calendar year than the individual resides in Iowa.

e. Documentation of the applicant's complete criminal record, including the applicant's personal statement regarding whether each offense directly relates to the practice of the profession.

f. A copy of any relevant disciplinary documents, if another issuing jurisdiction has taken disciplinary action against the applicant.

502.9(3) Applicants with prior discipline. If another issuing jurisdiction has taken disciplinary action against an applicant, the board will determine whether the cause for the disciplinary action has been corrected and the matter has been resolved. If the board determines the disciplinary matter has not been resolved, the board will neither issue a license nor deny the application for licensure until the matter is resolved. A person whose license was revoked, or a person who voluntarily surrendered a license, in another issuing jurisdiction is ineligible for licensure by verification.

502.9(4) Applicants with pending licensing complaints or investigations. If an Iowa applicant is concurrently subject to a complaint, allegation, or investigation relating to unprofessional conduct pending before any regulating entity in another issuing jurisdiction, the board will neither issue a license nor deny the application for licensure until the complaint, allegation, or investigation is resolved.

661—502.10(272C) Licensure by work experience in jurisdictions without licensure requirements.

502.10(1) Work experience.

a. An applicant for initial licensure who has relocated to Iowa from another jurisdiction that did not require a license to practice the profession may be considered to have met the applicable educational and training requirements if the person has at least three years of full-time work experience within the four years preceding the date of application for initial licensure. For each application submitted under this rule, the board will determine whether the applicant's prior work experience was substantially similar in nature and scope to a training or education program typically applicable for the license sought.

b. The applicant will need to satisfy all other license requirements, including passing any required examinations, to receive a license.

502.10(2) Documentation. An applicant seeking to substitute work experience in lieu of satisfying applicable education or training requirements bears the burden of providing all of the following by submitting relevant documents as part of a completed license application:

a. Proof of current residency in the state of Iowa pursuant to rule 701—38.17(17A), or proof of the military member's official permanent change of station. To demonstrate Iowa residency, the applicant is to submit proof that:

(1) The applicant currently maintains a residence or place of abode in Iowa, whether owned, rented, or occupied, even if the individual is in Iowa less than 183 days of the calendar year; and

(2) One or more of the following:

1. The applicant claims a homestead credit or military tax exemption on a home in Iowa, or

2. The applicant is registered to vote in Iowa, or

3. The applicant maintains an Iowa driver's license, or

4. The applicant does not reside in an abode in any other state for more days of the calendar year than the individual resides in Iowa.

b. Proof of three or more years of full-time work experience within the four years preceding the application for Iowa licensure, which demonstrates that the work experience was substantially similar in nature and scope to a training or education program typically applicable for the license sought. Proof of work experience may include, but is not limited to:

(1) A letter from the applicant's prior employer or employers documenting the applicant's dates of employment and scope of practice;

(2) Paychecks or pay stubs; or

(3) If the applicant was self-employed, business documents filed with the secretary of state or other applicable business registry or regulatory agency in the other jurisdiction.

c. Proof that the applicant's work experience involved a substantially similar scope of practice to the practice in Iowa, which is to include:

(1) A written statement by the applicant detailing the scope of practice and stating how the work experience correlates to an applicable apprenticeship program approved by the United States Department of Labor; and

(2) Business or marketing materials detailing the services provided.

d. Proof that the other jurisdiction did not require a license to practice the profession, which may include:

(1) Copies of applicable laws;

(2) Materials from a website operated by a governmental entity in that jurisdiction; or

(3) Materials from a nationally recognized professional association applicable to the profession.

These rules are intended to implement Iowa Code chapters 103 and 272C.

Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes promulgation of Chapter 503, “Electrician and Electrical Contractor Licensing Program—Complaints and Discipline.” The rulemaking implements Iowa Code sections 103.33 through 103.39 and 2023 Iowa Acts, Senate File 514, in accordance with the goals and directives of Executive Order 10 (Jan. 10, 2023). The rulemaking provides protection to Iowans because it defines disciplinary procedures when unlicensed individuals, electricians, and electrical contracting firms fail to comply with state law. The rulemaking provides information for the submission of complaints to the Electrical Examining Board, which is then able to investigate the allegation. The rulemaking also sets forth the licensing procedures upon a finding of noncompliance with professional standards set forth in applicable law, including describing the right to appeal. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

As this rulemaking relates to the receipt of complaints by the Board, disciplinary procedures, and appeal rights, licensees or unlicensed individuals who are the subject of discipline and the Board are the classes of persons that will bear the costs of the proposed rulemaking.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rulemaking is to properly set forth any procedures of the Board in accepting complaints and engaging in disciplinary proceedings against licensees and unlicensed individuals, including description procedures related to appeals of disciplinary action. The general

public and regulated industry benefit from clear descriptions of procedures related to these issues. There are approximately 18,670 individuals and businesses licensed pursuant to Iowa Code chapter 103 and the Board's rules. In 2022, the Board received 80 complaints and issued public discipline against two licensees.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Costs to the agency are primarily composed of the staff time needed to manage Board activities, which include managing complaints, conducting investigations when a licensee violates a practice standard, and enforcing discipline. An executive officer supports the full scope of work of this Board at approximately 0.08 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees relating to practice standards, continuing education, Board meeting administration, and more. The Board received approximately 80 complaints and issued discipline against two licensees in 2022. In light of the low number of complaints associated with this Board, costs specific to managing complaints and investigations are minimal. Notably, licensing fees cover the Board's administrative work related to complaints and discipline.

- Qualitative description of impact:

The proposed rules herein merely provide procedural clarity in light of Iowa Code sections 103.33 through 103.39. The potential cost of inaction would be decreasing the receipt of complaints or increasing confusion as to the discipline and appeal process.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency due to the administrative chapters implementing Iowa Code chapter 103 under current review (661—Chapters 500, 501, 502, 503, and 505) include the staff time needed to manage applications, submissions, and inquiries related to initial licenses, renewals, reinstatements, complaints/discipline, and continuing education. This includes approximately 4.0 FTE positions total at an annual cost of approximately \$388,300. The cost also includes expenses associated with licensing software and technology at an annual cost of approximately \$60,000.

Costs specific to this chapter include time needed to manage complaints received and to attend to discipline after an investigation has been conducted. An executive officer supports the full scope of work of this Board at approximately 0.08 FTE position. Notably, these costs are substantively attributable to Iowa Code sections 103.33 through 103.39 and are not specifically related to the procedures set forth in rule.

- Anticipated effect on state revenues:

None. Any revenues from disciplinary fees collected pursuant to the processes outlined in this proposed chapter are set forth in Iowa Code chapter 103 and are substantively attributable to Iowa Code sections 103.33 through 103.39, as opposed to these rules.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The rules proposed herein merely implement the disciplinary duties prescribed by Iowa Code chapter 103, providing clarification of complaint, disciplinary, and appeal processes and notice. Costs associated with implementing this chapter are minimal and are primarily incurred due to the Board's statutory duties, not the implementing rules. The benefits to the public and licensees as to the procedural clarity these rules provide appear to outweigh inaction.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less costly or less intrusive alternative. The rules proposed herewith implement the disciplinary and appeal procedures set forth in Iowa Code sections 103.33 through 103.39,

primarily providing the public and licensees with additional information regarding notice that will be afforded in the event the Board intends to discipline the licensee or unlicensed individual.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified alternative methods. The rules proposed herein implement the disciplinary and appeal procedures set forth in Iowa Code sections 103.33 through 103.39, primarily providing the public and licensees with additional information regarding notice that will be afforded in the event the Board intends to discipline the licensee or unlicensed individual.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The specific grounds for discipline required in this rulemaking related to electrical installations and licensing are required by Iowa Code sections 103.33 through 103.39.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

These rules do not appear to present any impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 503 and adopt the following **new** chapter in lieu thereof:

CHAPTER 503 ELECTRICIAN AND ELECTRICAL CONTRACTOR LICENSING PROGRAM— COMPLAINTS AND DISCIPLINE

661—503.1(103) Complaints. Any person may file a complaint regarding work performed by any licensee or licensee applicant, or by an unlicensed person who should possess a license issued by the board. Complaints can be filed either in writing or electronically.

661—503.2(103) Discipline. If a complaint alleging an act or acts in violation of Iowa Code chapter 103, rules adopted by the board, or any other provision of law deemed relevant by the board to the use of a license issued by the board is substantiated, the board may suspend the license for a specific period of time, or indefinitely, may revoke the license, or may reprimand the licensee. The holder of a license which is suspended or revoked will be notified of the suspension or revocation in writing by registered mail, return receipt requested, or by personal service. The notice will include a statement that the licensee has the right to appeal the reprimand, suspension or revocation to the board within 30 days of receiving the notice, and that the reprimand, revocation or suspension will not take effect until the time to file an appeal has expired. If an appeal is filed, the reprimand, suspension or revocation is stayed until the

appeal has been acted upon. The suspension of revocation becomes final 30 days after delivery of the notice if a timely request for an appeal is not received by the board.

EXCEPTION: If the board finds that a violation which is the basis of the suspension or revocation is such that allowing the licensee to continue to engage in work covered by the license would present an imminent threat to the safety of the public, the board may provide that the suspension or revocation take effect immediately upon notice being delivered to the licensee.

661—503.3(103) Action against an unlicensed person. If a person who is not licensed by the board has engaged in or is engaging in work requiring licensure by the board, the board may assess a civil penalty against the person, may seek an injunction to prevent the person from continuing to engage in such work, or both. A person who is accused of engaging in work where licensure is needed by law without having such a license will be notified of the specific allegations and intended remedial action by registered mail, return receipt requested, or by personal service. A person who is notified by the board of an intended remedial action under this rule may appeal the action as provided in rule 661—503.4(103). The intended remedial action becomes final 30 days after delivery of the notice if a timely request for an appeal is not received by the board.

661—503.4(103) Appeals. A licensee whose license is disciplined, an applicant whose application for a license is denied, or a person who is not licensed by the board and who is assessed a civil penalty for engaging in an activity requiring a license may appeal the suspension, revocation, denial, or civil penalty to the board by notifying the board office of the appeal in writing within 30 calendar days after receiving notice of the suspension, revocation, denial, or civil penalty. Upon receipt of a timely appeal, the board will conduct a contested case hearing under 481—Chapter 10.

These rules are intended to implement Iowa Code chapters 103, 252J, and 272D.

Purpose and Summary

This rulemaking proposes promulgation of new Chapter 505, “Electrician and Electrical Contractor Licensing Program—Education.” It implements Iowa Code chapter 103 in accordance with the goals and directives of Executive Order 10 (Jan. 10, 2023). This rulemaking sets forth continuing education and program approval requirements for electricians and educational institutions. It includes an approval process for postsecondary electrical education programs; minimum requirements for contact hours, including lecture and laboratory hours; and minimum qualifications for instructors. It also includes the required number of hours of continuing education that licensees are required to obtain, a process for continuing education course approval, and requirements for continuing education course approvals. The intended benefit of continuing education is to ensure that electricians and educational institutions maintain up-to-date practice standards and, as a result, provide high-quality services to Iowa licensees.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses, so the Electrical Examining Board is not privy to exact costs, but based on research estimates, the cost is around \$450 every three years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is ensuring that electricians and educational institutions maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting the public and property from hazards arising from the use of electricity.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry including educational institutions, professional associations, and businesses offers these courses, so the Board is not privy to exact costs, but based on research estimates, the cost is around \$450 every three years for a licensee to meet these requirements. There are multiple educational institutions that provide continuing education courses to licensees for free.

The Board does not have data to correlate increased public safety to continuing education hour requirements. Currently, Iowa requires 18 hours of continuing education for these licenses every three years (6 hours per year of licensure).

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date national electrical safety standards and potentially reduces the number of hazards arising from the use of electricity. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education. Notably, the Board does have a relatively low volume of complaints and disciplinary actions against licensees, which may beget the conclusion that current educational requirements are appropriate to achieve the intended goals.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency due to the administrative chapters implementing Iowa Code chapter 103 under current review (661—Chapters 500, 501, 502, 503, and 505) include the staff time needed to manage applications, submissions, and inquiries related to initial licenses, renewals, reinstatements, complaints/discipline, and continuing education. This specifically includes approximately 4.0 full-time equivalent (FTE) positions at an annual cost of approximately \$388,300. It also includes expenses associated with licensing software and technology at an annual cost of approximately \$60,000.

Costs specific to this chapter include time needed to manage and respond to inquiries regarding continuing education requirements and approvals. An executive officer supports the full scope of work of this Board at approximately 0.25 FTE position.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. This rulemaking has no anticipated impact on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours may reduce/eliminate the cost to the licensee to meet these requirements. However, the Board believes there could be an impact to public safety if continuing education requirements were reduced or eliminated. This could lead to more complaints, investigations, and discipline. Additionally, there could be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less restrictive alternative would be to reduce the amount of continuing education required. A review of 17 states has shown that their continuing education programs' average requirement was 6.54

hours of continuing education per issued year. Currently, Iowa requires 18 hours of continuing education for these license types every three years (6 hours per year).

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring whether the Board would recommend lowering the continuing education requirements. The Board has considered a change of the total number of and frequency of continuing education hours and the safety of the public. While the Board is not inclined at this time to make changes, it will continue to consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. However, the Board believes that eliminating continuing education requirements would increase the number of complaints, safety violations, and investigations that the Board would need to conduct. The Board has not been able to analyze this correlation, so it is unable to submit data in support of this belief. Notably, however, these continuing education requirements are slightly below 17 other states' averages and appear to be appropriate for this industry.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking attends to public safety concerns through educational requirements, and such continuing education is necessary whether the business is a small business or a large organization. While some electricians likely are running a small business of their own, some also work for large corporations. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business. If a small business licensee identified a rule that is overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 661—Chapter 505 and adopt the following **new** chapter in lieu thereof:

CHAPTER 505
ELECTRICIAN AND ELECTRICAL CONTRACTOR
LICENSING PROGRAM—EDUCATION

DIVISION I
POSTSECONDARY ELECTRICAL EDUCATION PROGRAMS

661—505.1 to 505.100 Reserved.

661—505.101(103) Program approval.

505.101(1) Pursuant to Iowa Code sections 103.12 and 103.12A, an educational institution that plans to offer a postsecondary electrical education program to prepare students to be licensed by the board needs to first obtain approval from the board for the program before students participate in the program. Separate approval is needed for a journeyman electrician program and for a residential electrician program.

505.101(2) The educational institution seeking approval is to apply to the board office on a form specified by the board. The application is to include a certification that the educational institution is currently accredited by a recognized regional or national educational accrediting organization.

505.101(3) Applications seeking initial approval of a journeyman electrician program or a residential electrician program are to be submitted to the board at least 60 days prior to student participation in the program.

505.101(4) The board may set times for periodic review of approved programs and can develop policies that address the following:

- a.* Requirements for the submission of applications.
- b.* Standards required for program approval.
- c.* Standards for withdrawal of approval or discontinuation of an approved program.
- d.* Standards for educational content and class attendance, qualifications for instructors, documentation and reporting needed to establish compliance with program requirements, and specification of degrees or diplomas awarded.

505.101(5) Information regarding approved postsecondary electrical education programs may be obtained by contacting the board office. A list of approved postsecondary electrical education programs and other information about postsecondary electrical education programs will be posted on the board's website.

661—505.102(103) Standards for postsecondary electrical education programs. The board will develop policies establishing the following minimum standards for an approved postsecondary electrical education program:

505.102(1) All necessary subject matter areas as published by the board and available on request from the board office and from the board website. Instruction is to include at least four hours of instruction on the Iowa electrical statute, Iowa Code chapter 103, with a minimum of one hour on Iowa electrical licensing requirements.

505.102(2) Minimum number of contact hours and necessary program attendance policies. Each approved program is to include 30 to 40 percent of contact hours that involve lecture, with all remaining hours consisting of laboratory or shop hours. A student cannot take the licensing examination until all contact hours and the specified number of hours of on-the-job training are completed.

a. A postsecondary electrical education program for a journeyman electrician license is to include at least 2,000 hours of instruction, with the student completing at least 6,000 hours of on-the-job training before the student will be eligible to take the journeyman electrician examination.

b. A postsecondary electrical education program for a residential electrician license is to include at least 1,000 hours of instruction, with the student completing at least 4,000 hours of on-the-job training before the student will be eligible to take the residential electrician examination.

505.102(3) Minimum qualifications for instructors which include:

- a.* Current licensing as an electrician, as set out in the board's policy; and
- b.* Compliance with standards set by the Iowa department of education for an instructor at a community college.

DIVISION II
CONTINUING EDUCATION

661—505.103 to 505.200 Reserved.

661—505.201(103) Continuing education requirements. Each holder of a three-year license is to complete 18 hours of continuing education approved by the board between the time of issuance of the license and prior to issuance of a renewal license.

EXCEPTION: A holder of a license in a category which may be issued for a three-year period whose license is issued for less than a three-year period only needs to complete 6 hours of continuing education prior to renewal of the license for each year or portion of a year for which the license has been issued.

661—505.202(103) Course approval.

505.202(1) Any person or institution that plans to offer continuing education courses to meet the requirements of rule 661—505.201(103) is to apply for approval to the board office on a form specified by the board.

505.202(2) Approval by the board should be obtained prior to a course's being offered to a licensee in order to meet the requirements of rule 661—505.201(103).

505.202(3) Applications for initial approval of a continuing education course are to be submitted to the board not less than 45 days prior to student participation in the course.

505.202(4) Approval of a continuing education course is normally for the duration of the three-year licensing period during which approval is received, although approval may be withdrawn for cause prior to the expiration of the licensing period.

505.202(5) Applications for renewal of approval of continuing education courses are to be submitted to the board at least 45 days prior to the expiration of the three-year licensing period. For purposes of this subrule, "renewal" may include the updating of course material in a course previously approved for delivery by the same instructor.

505.202(6) Information regarding approved continuing education courses may be obtained by contacting the board office. A list of approved continuing education courses will be posted on the board website.

661—505.203(103) Requirements for continuing education programs. A continuing education program can be approved by the board only if the following requirements are met:

505.203(1) The instructor or institution applying for approval of a continuing education course provides at least three letters from educational institutions or government agencies attesting to the instructor's knowledge of and qualifications to teach the subject matter of the course for which approval is sought.

505.203(2) Each instructor is responsible for:

- a. Obtaining and verifying course approval prior to delivery of the course.
- b. Facilitating auditing of the course by any board member or member of the staff of the board.

No board or staff member may receive continuing education credit for an audited course.

- c. Issuing a certificate of completion to each student who completes the course.
- d. Submitting a class roster, indicating which students completed the course, to the board office within 30 days of completion of the course.

These rules are intended to implement Iowa Code chapter 103.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193F—Chapter 1
“Organization and Administration”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543D.5
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 1 provides clarity to the organization and administration of the Real Estate Appraiser Examining Board. The chapter also establishes Iowa’s compliance with Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA), the requirements of the Appraisal Qualification Board (AQB), and the Appraisal Foundation’s (TAF) Criteria. This chapter also includes pertinent information related to the types of appraiser licenses issued in the state of Iowa and the process to obtain licensure.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Chapter 1 provides organizational and administrative background for the Real Estate Appraiser Examining Board. No costs are imposed by this chapter.
 - Classes of persons that will benefit from the proposed rulemaking:
The classes of persons that will benefit from the proposed rulemaking are licensees and the general public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
No economic impact is imposed by Chapter 1.
 - Qualitative description of impact:

Iowans are protected by the laws of professional licensing through responsible regulations. The Board ensures minimum standards for licensing and resolves complaints against licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency includes the staff time needed to manage Board activities, which include managing all chapters of the Board's rules. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

The revisions to Chapter 1 have no anticipated effect on state revenues. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed in Chapter 1. The benefit of less restrictive language and consolidation of chapters is to simplify rules and provide better understanding to the public, licensees, and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Due to state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative method was considered by the Board because the regulations are set by TAF in accordance with federal law.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Licensing and regulation of this profession is required by Iowa Code. The Real Estate Appraiser Examining Board is established in statute.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa licenses real estate appraisers, some of whom may own small businesses. There is no compliance requirement in Chapter 1. The function is solely to inform.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 1 and adopt the following **new** chapter in lieu thereof:

CHAPTER 1
ORGANIZATION AND ADMINISTRATION

193F—1.1(543D) Description.

1.1(1) The purpose of the real estate appraiser examining board is to administer and enforce the provisions of Iowa Code chapter 543D with regard to the appraisal of real property in the state of Iowa, examination of candidates, issuance of licenses, investigation of alleged violations by licensees, and discipline of those regulated by the board. Through its actions, the board seeks to promote and maintain a high level of public trust in professional appraisal practice.

1.1(2) The board maintains an office at 200 E. Grand Avenue, Suite 350, Des Moines, Iowa 50309.

1.1(3) All board action under Iowa Code chapter 543D and 193F—Chapter 17 will be taken under the supervision of the director, as provided in Iowa Code section 543D.23 and these implementing rules.

193F—1.2(543D) Administrative authority.

1.2(1) The director is vested with authority to review, approve, modify, or reject all board action pursuant to Iowa Code chapter 543D and 193F—Chapter 17. The director may exercise all authority conferred upon the board and has to have access to all records and information to which the board has access. In supervising the board, the director will independently evaluate the substantive merits of recommended or proposed board actions which may be anticompetitive.

1.2(2) In performing its duties and in exercising its authority under Iowa Code chapter 543D and 193F—Chapter 17, the board may take action without preclearance by the director if the action is ministerial or nondiscretionary. As used in this chapter, the words “ministerial or nondiscretionary” include any action expressly mandated by state or federal law, rule, or regulation; by the AQB; or by the appraisal subcommittee. The board may, for example, grant or deny an application for initial or reciprocal certification as a real estate appraiser, an application for registration as an associate real estate appraiser, or an application for a temporary practice permit by an out-of-state appraiser, on any ground expressly mandated by state or federal law, rule, or regulation; by the AQB; or by the appraisal subcommittee.

1.2(3) Prior to taking discretionary action under Iowa Code chapter 543D and 193F—Chapter 17, the board will secure approval of the director if the proposed action is or may be anticompetitive, as provided in 193F—Chapter 17. As used in this chapter, the word “discretionary” includes any action that is authorized but not expressly imposed by state or federal law, rule, or regulation; by the AQB; or by the appraisal subcommittee. Examples of discretionary action include orders in response to petitions for rulemaking, declaratory orders, or waivers from rules, rulemaking, disciplinary proceedings against licensees, administrative proceedings against unlicensed persons, or any action commenced in the district court.

1.2(4) Determining whether any particular action is or may be anticompetitive is necessarily a fact-based inquiry dependent on a number of factors, including potential impact on the market or restraint of trade. With respect to disciplinary actions, for instance, a proceeding against a single licensee for violating appraisal standards would not have an impact on the broader market and would accordingly not be an anticompetitive action. Commencement of disciplinary proceedings which affect all or a substantial subset of appraisers may have a significant market impact. When in doubt as to whether a proposed discretionary action is or may be anticompetitive, the board may submit the proposed action through the preclearance procedures outlined in 193F—Chapter 17.

1.2(5) A person aggrieved by any final action of the board taken under Iowa Code chapter 543D or 193F—Chapter 17 may appeal that action to the director within 20 days of the date the board issues the action.

a. The appeal process applies whether the board action at issue was ministerial or nondiscretionary, or discretionary, and whether the proposed action was or was not submitted through a preclearance process before the director.

b. No person aggrieved by a final action of the board may seek judicial review of that action without first appealing the action to the director, as more fully described in 193F—Chapter 17.

c. Records, filings, and requests for public information. Final board action, regardless of whether such board action is ministerial, nondiscretionary, or discretionary, will be immediately effective when issued by the board but is subject to review or appeal to the director as permitted by and in accordance with 193F—Chapter 17. If a timely review is initiated or a timely appeal is taken, the effectiveness of such final board action will be delayed during the pendency of such review or appeal.

193F—1.3(543D) Annual meeting. The annual meeting of the board will be the first meeting scheduled after April 30. At this time, the chairperson and vice chairperson are elected to serve until their successors are elected.

193F—1.4(543D) Other meetings. In addition to the annual meeting, and in addition to other meetings, the time and place of which may be fixed by resolution of the board, any meeting may be called by the chairperson of the board or by joint call of a majority of its members.

193F—1.5(543D) Executive officer’s duties.

1.5(1) The executive officer is to cause complete records to be kept of applications for examination and registration, certificates and permits granted, and all necessary information in regard thereto.

1.5(2) The executive officer is to determine when the legal obligations for certification and registration have been satisfied with regard to issuance of certificates or registrations, and the executive officer will submit to the board any questionable application.

1.5(3) The executive officer will keep accurate minutes of the meetings of the board. The executive officer will keep a list of the names of persons issued certificates as certified general real property appraisers, certified residential real property appraisers and associate real property appraisers.

193F—1.6(543D) Records, filings, and requests for public information. Unless otherwise specified by the rules of the department of inspections, appeals, and licensing, the board is the principal custodian of its own agency orders, statements of law or policy issued by the board, legal documents, and other public documents on file with the board.

1.6(1) Any person may examine public records promulgated or maintained by the board at its office during regular business hours.

1.6(2) Deadlines. Unless the context dictates otherwise, such as is the case for timely renewal of a registration or certificate, any deadline for filing a document will be extended to the next working day when the deadline falls on a Saturday, Sunday, or official state holiday.

193F—1.7(543D) Adoption, amendment or repeal of administrative rules.

1.7(1) The board is authorized to adopt, amend or repeal its administrative rules in accordance with the provisions of Iowa Code section 17A.4. Prior to the adoption, amendment or repeal of any rule of the board, any interested person, as described in Iowa Code section 17A.4(1) “*b*,” may submit any data, views, or arguments in writing concerning such rule or may request to make an oral presentation concerning such rule. Such written comments or requests to make oral presentations are to be filed with the board at its official address and should clearly state:

a. The name, address, and telephone number of the person or agency authoring the comment or request;

b. The number and title of the proposed rule, which is the subject of the comment or request as given in the Notice of Intended Action;

c. The general content of the oral presentation. A separate comment or request to make an oral presentation will be made for each proposed rule to which remarks are to be asserted.

1.7(2) The board will acknowledge receipt and acceptance for consideration of written comments and requests to make oral presentations.

1.7(3) Written comments received after the deadline set forth in the Notice of Intended Action may be accepted by the board although their consideration is not assured. Requests to make an oral presentation received after the deadline will not be accepted and will be returned to the requester.

193F—1.8(543D) Types of appraiser classifications. There are four types of appraiser classifications:

1. Associate residential real property appraiser. This classification consists of those persons who meet the obligations of 193F—Chapter 4.

2. Associate general property appraiser. This classification consists of those persons who meet the obligations of 193F—Chapter 4.

3. Certified residential real property appraiser. This classification consists of those persons who meet the obligations of 193F—Chapter 6.

4. Certified general real property appraiser. This classification consists of those persons who meet the obligations of 193F—Chapter 6.

193F—1.9(543D) Qualified state appraiser certifying agency.

1.9(1) The real estate appraiser examining board is a state appraiser certifying agency in compliance with Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). As a result, persons who are issued certificates by the board to practice as certified real estate appraisers are authorized under federal law to perform appraisal services for federally related transactions and are identified as such in the National Registry maintained by the Appraisal Subcommittee (ASC).

1.9(2) The board will adhere to the criteria established by the Appraiser Qualifications Board (AQB) of the Appraisal Foundation when registering associate appraisers or certifying certified appraisers under Iowa Code chapter 543D. To the extent that the rules conflict with the minimum obligations outlined in the current version of the AQB criteria, the minimum standards established in the criteria will apply and these rules will give way to the minimum obligations to comply with federal rule, law, or policy.

193F—1.10(543D) AQB criteria.

1.10(1) No person may be certified as a certified appraiser unless the person is eligible under the January 1, 2022, AQB criteria.

1.10(2) The January 1, 2022, AQB criteria outline the conditions under which applicants for certification are eligible to take the mandated examinations.

These rules are intended to implement Iowa Code sections 543D.4, 543D.5, 543D.7, 543D.17, 543D.20 and 543D.22 and chapter 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193F—Chapter 2
“Definitions”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543D.5
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 2 establishes the definitions of acronyms and terms used in the licensing and regulation of the Real Estate Appraiser Examining Board. This aids licensees and the general public in understanding terms used throughout the Board’s rules.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Chapter 2 provides definitions used for the Real Estate Appraiser Examining Board and regulating the profession. No costs are imposed by this chapter.
 - Classes of persons that will benefit from the proposed rulemaking:
The classes of persons that will benefit from the proposed rulemaking are licensees and the general public. The chapter creates a shared understanding of terminology regulating the profession.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no known or anticipated economic impact from Chapter 2.
 - Qualitative description of impact:
This chapter makes professional licensing easier to understand and navigate. Revisions to the repromulgated rules support the effort to streamline the chapter and make things easier to understand.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency includes the staff time needed to manage Board activities, which includes managing all chapters of the Board's rules. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

This chapter has no anticipated impact on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed in Chapter 2. The benefit of less restrictive language and consolidation of chapters proposed in the repromulgated rules is that the chapter is simplified for better understanding for the public and licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board is taking the less intrusive route by removing the duplicative language in Chapter 2.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

As mentioned above, there is little or no cost implication. The Board is taking the less intrusive route by removing the duplicative language in Chapter 2.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The recommended repromulgated rules are reflective of revisions consistent with the intent to ease burden and make it easier for licensees to understand the chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The revisions to Chapter 2 have little to no impact on small business because Chapter 2 contains only definitions and no penalties or fees.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 2 and adopt the following **new** chapter in lieu thereof:

CHAPTER 2 DEFINITIONS

193F—2.1(543D) Applicability. The following definitions apply to the rules of the real estate appraiser examining board.

“*Appraisal Foundation*” means the same as defined in Iowa Code section 543D.2(3).

“*Appraisal subcommittee*” means the appraisal subcommittee of the Federal Financial Institutions Examination Council.

“*AQB*” means the Appraiser Qualifications Board of the Appraisal Foundation.

“*AQB Criteria*” or “*the Criteria*” means the Real Property Appraiser Qualification Criteria and Interpretations of the Criteria, effective as of January 1, 2022.

“*ASB*” means the Appraisal Standards Board of the Appraisal Foundation.

“*Associate real property appraiser*” means the same as defined in Iowa Code section 543D.2(6).

“*Certified appraiser*” means an individual who has been certified in one of the following two classifications:

1. The certified residential real property appraiser classification is qualified to appraise one to four residential units without regard to value or complexity.

2. The certified general real property appraiser classification is qualified to appraise all types of real property.

“*Director*” means the same as defined in Iowa Code section 543D.2(9)“*a.*”

“*FFIEC*” means the Federal Financial Institutions Examination Council.

“*FIRREA*” means the Financial Institutions Reform Recovery and Enforcement Act of 1989.

“*USPAP*” means the Uniform Standards of Professional Appraisal Practice published by the Appraisal Foundation, effective as of January 1, 2024.

This rule is intended to implement Iowa Code section 543D.2.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193F—Chapter 3
“General Provisions for Examinations”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543D.5
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 3 establishes the provisions for those seeking to sit for the Real Estate Appraiser Examination in Iowa. The chapter guides individuals sitting for the certified exam in the state of Iowa as required by the Appraisal Qualifications Board (AQB) of the Appraisal Foundation (TAF).

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant to comply with the requirements set by the AQB. The application fees for the exam and experience application are \$150 and \$145, respectively, to be paid to the state-approved examination testing center.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rules. Establishing minimum examination requirements ensures that licensees are competent to practice. Individuals that wish to engage in federally regulated transaction appraisals must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA).

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Approved examination applicants are required to comply with the AQB. Those approved to sit for the required examination need to have completed the work product review (WPR) process. Those requirements are located in 193F—Chapter 6.

The fees associated with being able to sit for the examination consist of the completion of qualifying education prior to licensure in the state of Iowa. Those applying for licensure will complete the qualifying education (QE) requirement set by the AQB. The estimated average costs of the QE requirement are \$3,835 (general) to \$5,360 (residential). The WPR fee is set at \$300 for residential and \$650 for general. The State does incur a cost that is noted in Section 3 of this analysis. Due to the variation of education requirements, the Board is unable to supply an estimation of the education.

- Qualitative description of impact:

Establishing minimum requirements for examination and licensure aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing applications for examination. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards. In addition, residential applicants pay \$300 of the \$1,275 peer review fee and general applicants pay \$650 of the \$2,225 peer review fee.

- Anticipated effect on state revenues:

The effect will stay the same, and no changes are foreseen.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa currently follows the minimum standards for examination set by FIRREA.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa currently follows the minimum standards for examination set by TAF in accordance with federal law. TAF sets the congressionally authorized standards and qualifications for this profession.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No other alternate method was considered by the Board because the regulations are set by TAF in accordance with federal law. The Board considered merging this chapter into the certified real estate appraiser licensing chapter, but felt this could cause confusion.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost effective alternative to the examination that still complies with federal law. The Board believes all current requirements assure public safety and ensure minimum competency of care is provided to Iowans. In addition, the Board follows the minimum standards set by the AQB criteria in accordance with federal law.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This rulemaking is meant to ensure public safety in terms of examinations for appraisers. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses and would not be in compliance with federal law. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 3 and adopt the following new chapter in lieu thereof:

CHAPTER 3
GENERAL PROVISIONS FOR EXAMINATIONS

193F—3.1(543D) Examinations. Applicants for a license from the board need to take the examination from the board-approved testing service.

193F—3.2(543D) Conduct of applicant.

3.2(1) Any individual who subverts or attempts to subvert the examination process may, at the discretion of the board, have the individual's examination scores declared invalid for the purpose of certification in Iowa, be barred from the appraisal certification examinations in Iowa, or be subject to the imposition of other sanctions that the board deems appropriate.

3.2(2) Conduct that subverts or attempts to subvert the examination process includes, but is not limited to:

a. Conduct that violates the security of the examination materials, such as removing from the examination room any of the examination materials; reproducing or reconstructing any portion of the examination; aiding by any means in the reproduction or reconstruction of any portion of the examination; selling, distributing, buying, receiving, or having unauthorized possession of any portion of a future, current, or previously administered examination.

b. Conduct that violates the standard of test administration, such as communicating with any other examination candidate during the administration of the examination; copying answers from another candidate or permitting one's answers to be copied by another candidate during the examination; referencing any books, notes, written or printed materials or data of any kind, other than the examination materials distributed.

c. Conduct that violates the examination process, such as falsifying or misrepresenting educational credentials or other information needed for admission to the examination; impersonating an examination candidate or having an impersonator take the examination on one's behalf.

3.2(3) Any examination candidate who challenges a decision of the board under this rule may request a contested case hearing. The request for hearing will be in writing, will briefly describe the basis for the challenge, and will be filed in the board's office within 30 days of the date of the board decision that is being challenged.

193F—3.3(543D) Application for certification or registration. Applicants for certification or registration have to successfully complete the appropriate examination.

3.3(1) All initial applications for certification or associate registration will be made through the board's online system. The board may deny an application as described in Iowa Code sections 543D.12

and 543D.17. The board may also deny an application based on disciplinary action pending or taken against an applicant consistent with Iowa Code section 272C.12.

3.3(2) Reserved.

These rules are intended to implement Iowa Code section 543D.8.

Regulatory Analysis

Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 4 establishes the pathway for those seeking an associate real estate appraiser license in Iowa. This gives individuals an avenue to provide services to Iowans if the individuals either convert to a certified real estate appraiser or provide services with the assistance of a supervisor. The chapter guides individuals as required by the Appraisal Qualifications Board (AQB) of the Appraisal Foundation (TAF).

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant to comply with the requirement set by the AQB in accordance with federal law. The fee for an initial associate real estate appraiser is \$200. Educational costs vary depending on the provider or institution used. The required qualifying education for an associate has an estimated cost of \$1,210 for those using the supervisory pathway. This does not include the education requirements. Fees for initial licensure vary greatly in surrounding states.

| | Iowa | South Dakota | Minnesota | Illinois | Missouri | Nebraska | Kansas |
|-------------------------------------|-------|-----------------|-----------|----------|----------|----------|--------|
| Associate Appraiser — Initial | \$200 | \$420 | \$180 | \$225 | \$300 | \$600 | \$450 |
| Associate Appraiser — Renewal | \$200 | \$350 | \$130 | \$300 | \$300 | \$550 | \$400 |

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum requirements ensures that licensees are competent to practice. Individuals who wish to engage in federally regulated transactions appraisals must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA).

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Establishing minimum requirements for licensure aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

- Qualitative description of impact:

Establishing minimum requirements for licensure and permits aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing applications for initial licenses, temporary practice permits, renewals, and reinstatements. Federal requirements that require temporary practice permits to be completed within five days of receipt, and verifications of licensure that holds the same federal requirement for completion, are demanding on resources. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

The effect will stay the same, and no changes are foreseen. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa currently follows a majority of the minimum standards for associate licensure set by FIRREA.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa currently follows a majority of the minimum standards for associate licensure set by TAF. TAF sets the congressionally authorized standards and qualifications for this profession. The Board's goal is to follow the minimum standards to allow for easier licensure in the state of Iowa, with the exception of the licensed residential appraiser status that Iowa does not offer, which would require a statute change.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Alternate methods were considered by the agency. The Board received a report from TAF's Appraisal Subcommittee (ASC) regarding decreasing barriers to entry into the appraisal profession and has made changes to comply with the minimum standards for those licensure types for the state licenses. This change will require a change to Iowa Code chapter 543D. Additionally, the Board considered merging this chapter into the certified appraiser licensing chapter but felt this could cause confusion.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost effective alternative to the associate real estate appraiser licensing. The Board believes all current requirements assure public safety and ensure minimum competency of care is provided to Iowans. In addition, the Board is seeking to follow the minimum standards set by the AQB criteria after a slight change to Iowa Code chapter 543D.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing requirements for appraisers. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Additionally, federal law governing the regulation of this profession does not make exemptions for licensees in this profession working in small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4 ASSOCIATE REAL ESTATE APPRAISER

193F—4.1(543D) Qualifications to register as an associate appraiser.

4.1(1) Education. A person applying for registration as an associate appraiser will, at a minimum, satisfactorily complete all AQB-approved, qualifying education courses needed under the AQB criteria specifying educational standards applicable for registration as an associate appraiser.

4.1(2) Background check. A state and national criminal history check will be performed on any new associate appraiser applicant. The applicant will authorize release of the results of the criminal history check to the board. If the criminal history check was not completed within 180 calendar days prior to the date the license application is received by the board, the board may perform a new state and national criminal history check or may reject and return the application to the applicant.

4.1(3) Application process. After completing the AQB associate appraiser obligations, a person applying as an associate appraiser can then access the application through the board's online system. A sufficient application within the meaning of Iowa Code section 17A.18(2) will include all information as outlined in the board's online system and be accompanied by the applicable fee.

4.1(4) Registration denial. The board may deny an application for registration as an associate appraiser on any ground identified in 193F—subrule 3.4(1) or on any ground upon which the board may impose discipline against an associate appraiser, as provided in 193F—Chapter 7.

193F—4.2(543D) Supervision of associate appraisers.

4.2(1) Direct supervision. An associate appraiser is subject to the direct supervision obligations set by the AQB criteria.

4.2(2) Supervisor registration. An associate appraiser, other than a PAREA associate, will identify all supervisors by whom the associate will be supervised through the board's online system and will promptly notify the board in the event of any change in supervisors. An associate appraiser, other than a PAREA associate, who does not have at least one approved active supervisor meeting the supervision obligations will be placed in inactive status until such time as the associate finds a supervisor. Associate appraisers wishing to maintain an inactive license have to continue to renew on a biennial basis in accordance with rule 193F—4.3(543D).

4.2(3) Scope of practice. The scope of practice for an associate appraiser is set by the AQB criteria.

4.2(4) Logs. An associate appraiser will maintain an appraisal experience log consistent with the AQB criteria.

193F—4.3(543D) Renewal of associate appraiser registration. An associate appraiser registration has to be renewed on a biennial basis as more fully described in 193F—Chapter 9. An associate appraiser is subject to the same continuing education obligations applicable to a certified appraiser as a precondition for renewal. Continuing education obligations are outlined in 193F—Chapter 11.

193F—4.4(543D) Progress toward certification as a certified residential appraiser or certified general appraiser.

4.4(1) Associate classification. The associate appraiser classification is intended for those persons training to become certified appraisers and is not intended as a long-term method of performing appraisal services under the supervision of a certified appraiser in the absence of progress toward certification. As a result, the board may impose deadlines for achieving certification, or for satisfying certain prerequisites toward certification.

4.4(2) Progress reports. In order to assess an associate appraiser's progress toward certification, the board may request periodic progress reports from the associate appraiser and from the associate appraiser's supervisory appraiser or appraisers.

193F—4.5(543D) Applying for certification as a certified residential appraiser or certified general appraiser. An associate appraiser may apply for certification as a certified residential real estate appraiser or as a certified general real estate appraiser as set by the AQB criteria and consistent with Iowa Code chapter 543D and the rules of the board.

193F—4.6(272C,543D) Reinstating or reactivating an associate registration.

4.6(1) In order to reinstate or reactivate an associate registration that has lapsed or been placed in inactive or retired status, the applicant has to complete all continuing education obligations for reinstatement as required by board rule and the AQB criteria. Any qualifying education course taken under this rule as continuing education will also apply as qualifying education toward certification. If the applicant has completed all qualifying education prior to applying to reinstate a lapsed, retired, or inactive associate registration, the applicant may use any approved continuing education course as required by board rule and the AQB criteria.

4.6(2) If an appraiser's registration is placed in inactive status as a result of the appraiser's failure to maintain at least one approved active supervisor meeting the obligations of 193F—Chapter 15 pursuant

to subrule 4.2(2), the applicant will complete the continuing education in accordance with subrule 4.6(1) in order to reinstate the associate registration but is not obligated to pay any reinstatement fee otherwise due so long as the associate has not renewed the registration to inactive status or allowed the registration to lapse prior to reinstating or reactivating the registration.

193F—4.7(543D) Supervisory appraiser requirements. Iowa follows the AQB criteria and USPAP concerning supervisory appraiser requirements.

These rules are intended to implement Iowa Code chapters 543D and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193F—Chapter 6
“Certified Real Estate Appraiser”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543D.5
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 6 establishes the pathway for those seeking a certified real estate appraiser license in Iowa. This allows individuals an avenue to provide services to Iowans. The chapter guides individuals as required by the Appraisal Qualifications Board (AQB) of the Appraisal Foundation (TAF).

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant to comply with the minimum requirements to enter into the profession. The fee for initial certified real estate license is \$280 and the renewal fee is \$280, with \$80 of the license fee forwarded to TAF’s Appraisal Subcommittee (ASC) National Registry. Work Product Review (WPR) costs depend on the licensure type at \$300 for a residential appraiser applicant and \$650 for a general appraiser applicant. The residential pathway Qualifying Education (QE) has an estimated cost of \$3,920, of which \$1,125 was previously paid for the associate license. General appraisers’ QE has an approximate cost of \$5,445, of which \$1,125 was paid for the associate license. Depending on the time between licensure as an associate and the conversion to a certified appraiser, the applicant may incur a background check fee of \$51. Regardless of the type of certification, an applicant will incur an examination application fee of \$150 and a \$145 fee that is payable to certified testing center. Due to the various education options available to licensees, the Board is unable to provide a cost estimate for the education. Licensure and renewal costs vary greatly for surrounding states’ initial and renewal licensing fees for certified real estate appraisers. Iowa’s licensing fees are cheaper than most neighboring states, making it more affordable to be a real estate appraiser in Iowa.

| | Iowa | South Dakota | Minnesota | Illinois | Missouri | Nebraska | Kansas |
|--|-------|-----------------|-----------|----------|----------|----------|--------|
| Certified General License — Initial | \$280 | \$880 | \$260 | \$315 | \$300 | \$680 | \$530 |
| Certified Residential — Initial | \$280 | \$830 | \$260 | \$315 | \$300 | \$680 | \$530 |
| Certified General — Renewal | \$280 | \$780 | \$210 | \$530 | \$300 | \$630 | \$480 |
| Certified Residential — Renewal | \$280 | \$750 | \$210 | \$530 | \$300 | \$630 | \$480 |

Chart reflects a two-year renewal cycle fee for each state.

Some states did not indicate the National Registry fee of \$40 per year.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that licensees are competent to practice. Individuals that wish to engage in federally regulated transactions must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA).

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Establishing minimum requirements for licensure aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

- Qualitative description of impact:

Establishing minimum requirements for licensure aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which include managing applications for initial licenses, temporary practice permits, renewals and reinstatements. WPR fees paid to peer reviewers exceed the amount collected by the applicant; a certified residential appraiser applicant pays \$300 of the \$1,275 fee, and a certified general appraiser applicant pays \$650 of the \$2,225 fee. Federal requirements mandate verification of licensees are completed within five days of receipt.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

The effect will stay the same, no changes foreseen. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa currently follows a majority of the minimum standards for associate licensure set by FIRREA.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa currently follows a majority of the minimum standards for associate licensure set by TAF. TAF sets the congressionally authorized standards and qualifications for this profession. The Board's goal is to follow the minimum standards to allow for easier licensure in the state of Iowa, with the exception of the licensed residential appraiser status that Iowa does not offer, which would require a statutory change.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Alternate methods were not considered by the agency since the regulations are set by TAF in accordance with federal law. The Board received a report from the ASC regarding decreasing barriers to entry into the appraisal profession and has made changes to comply with the minimum standards for those licensure types for the state licenses. This change would require a change to Iowa Code chapter 543D. The Board merged Chapters 5 and 6, resulting in less confusion for licensees and the general public.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost effective alternative to the certified real estate appraiser licensing. The Board believes all current requirements assure public safety and ensure minimum competency of care is provided to Iowans. In addition, the Board is seeking to follow the minimum standards set by the AQB criteria after a slight change to Iowa Code chapter 543D.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing requirements for appraisers. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 6 and adopt the following new chapter in lieu thereof:

CHAPTER 6 CERTIFIED REAL ESTATE APPRAISER

193F—6.1(543D) General.

6.1(1) Iowa Code chapter 543D regulates appraisal services performed in this state when appraiser certification is needed under federal law. Iowa recognizes two types of certification: certified residential real estate appraiser and certified general real estate appraiser. Iowa does not provide licenses for the “licensed real estate appraiser” category recognized under federal law. More information can be found in 12 CFR section 34.43. Therefore, appraisal services involving federally related transactions in the state have to be performed by an Iowa certified real estate appraiser with the appropriate certification for the property at issue, or by a person holding an appropriate license or certification from a foreign jurisdiction who also has been issued a temporary practice permit under Iowa Code section 543D.11(2).

6.1(2) The chart below outlines the differences between two certifications issued by the board.

| | Certified Residential Real Estate Appraiser | Certified General Real Estate Appraiser |
|--------------------------------------|--|---|
| Property type that can be appraised | Residential units ranging from one to four tenants | All real estate, including commercial and agricultural |
| Qualifying education core curriculum | 200 hours | 300 hours |
| Qualifying education | Bachelor's degree or higher from an accredited college, junior college, community college, or university; or, an associates degree in specific fields, 30 semester hours of college-level course working in specific areas, 30 semester hours of CLEP examinations, or any combination CLEP/college-level covering appropriate hours and topics. | Bachelor's degree or higher from an accredited college, junior college, community college, or university. |
| Experience | 1,500 hours accumulated in no less than 12 months. | 3,000 hours with a minimum of 1,500 hours general accumulated in no less than 18 months. |
| Examination | Certified residential real property appraiser examination or the certified general real property appraiser examination | Certified general real property appraiser examination. |

6.1(3) All appraisers performing services regulated by the board are obligated to comply with USPAP.

193F—6.2(543D) Education. Applicants for certification by the board have to meet the educational obligations of the AQB criteria.

193F—6.3(543D) Examination. The prerequisites for taking the AQB-approved examination are collegiate education, experience, work product review, and completion of all creditable course hours as specified in this chapter. The core criteria hours, collegiate education, and all experience have to be completed as specified in this chapter. Equivalency will be determined in accordance with the AQB. USPAP qualifying education will be awarded only when the class is instructed by at least one AQB-certified USPAP instructor who holds a state-issued certified appraiser credential in active status and good standing.

6.3(1) In order to qualify to sit for the appropriate certified real estate appraiser examination, the applicant has to complete the board’s application form and provide copies of documentation of completion of all courses claimed that qualify the applicant to sit for the examination.

a. A sufficient application within the meaning of Iowa Code section 17A.18(2) has to:

- (1) Be through the board’s online system;
- (2) Be signed by the applicant, be certified as accurate, or display an electronic signature by the applicant if submitted electronically;
- (3) Be fully completed;

- (4) Reflect, on its face, full compliance with all applicable continuing education obligations; and
- (5) Be accompanied by the fee specified in 193F—Chapter 12.

b. The core criteria, collegiate education, experience, and work product review have to be completed and documentation submitted to the board at the time of application to sit for the examination.

6.3(2) The board may verify educational credits claimed. Undocumented credits will be sufficient cause to invalidate the examination results.

6.3(3) Responsibility for documenting the educational credits claimed rests with the applicant.

6.3(4) An applicant has to supply a true and accurate copy of the original examination scores when applying for certification.

6.3(5) If an applicant who has passed an examination does not obtain the related appraiser credential within 24 months after passing the examination, that examination result loses its validity to support issuance of an appraiser credential. To regain eligibility for the credential, the applicant has to retake and pass the examination. This obligation applies to individuals obtaining an initial certified credential or upgrading from an associate credential.

193F—6.4(543D) Supervised experience needed for initial certification. Except as otherwise permitted herein, all experience needed to obtain certification has to be obtained consistent with Iowa Code section 543D.9.

6.4(1) *Acceptable experience.* The board will accept as qualifying experience the documented experience attained while the applicant for initial certification was in an educational program recognized by the Appraiser Qualifications Board and Appraisal Subcommittee as providing qualifying experience for certification, whether or not the applicant was registered as an associate real estate appraiser at the time the educational program was completed. Such programs approved by federal authorities (e.g., PAREA) will incorporate direct supervision by a certified real estate appraiser and such additional program features as to satisfy the purpose of requiring that qualifying experience be attained by the applicant as a real estate appraiser.

6.4(2) *Exceptions.* Applicants for certified real estate appraiser certification in Iowa may utilize experience obtained in the absence of registration as an associate real estate appraiser under the following circumstances.

a. Subject to any obligations or limitations established by applicable federal authorities, including the AQB and ASC, or applicable federal law, rule, or policy, hours qualifying for experience in any jurisdiction will be considered qualifying hours for experience in Iowa without board approval or authorization, as long as the applicant is able to establish by clear and convincing evidence all of the following:

(1) The qualifying hours obtained were completed in another jurisdiction under the direct supervision of an appropriate active certified real estate appraiser in that jurisdiction in accordance with the AQB and the jurisdiction's laws, rules, or policies.

(2) The nature of the experience attained in another jurisdiction is qualitatively and substantially equivalent to the experience an associate real estate appraiser would receive under the direct supervision of a certified real estate appraiser in this state.

b. Reserved.

193F—6.5(543D) Demonstration of experience. The board applies the dictates of Iowa Code section 543D.9 and the AQB criteria in determining whether the experience necessary for certification has been met.

6.5(1) An applicant is obligated to appear before the board to supplement or verify evidence of experience.

6.5(2) The board may inspect documentation relating to an applicant's claimed experience.

193F—6.6(543D) Work product review.

6.6(1) An applicant will submit a complete appraisal log at the time of application for examination and experience consistent with the AQB criteria. Three appraisal reports will be selected by the board

from the log. The applicant will submit electronically one copy of each report and work file for each of the selected appraisals along with the appropriate fee. The work product submission will not be redacted by the applicant. The board reserves the right to request additional appraisals if those submitted by the applicant raise issues concerning the applicant's competency or compliance with applicable appraisal standards or the degree to which the submitted appraisals are representative of the applicant's work product.

6.6(2) The board will treat all appraisals received as confidential pursuant to USPAP. While applicants are encouraged to submit appraisals actually performed for clients, applicants may submit demonstration appraisals if based on factual information and clearly marked as demonstration appraisals.

6.6(3) An applicant seeking original certification as a certified general real estate appraiser will submit one residential appraisal and two nonresidential appraisals for review. An applicant seeking an upgrade certification to a certified general real estate appraiser will submit two nonresidential appraisals for review.

6.6(4) The board will submit the appraisals to a peer review consultant for an opinion on the appraiser's compliance with applicable appraisal standards.

6.6(5) The work product review process is not intended as an endorsement of an applicant's work product. No applicant or appraiser will represent the results of work product review in communications with a client or in marketing to potential clients in a manner that falsely portrays the board's work product review as an endorsement of the appraiser or the appraiser's work product. Failure to comply may be grounds for discipline.

6.6(6) The board views work product review, in part, as an educational process. While the board may deny an application based on an applicant's failure to adhere to appraisal standards or otherwise demonstrate a level of competency upon which the public interest can be protected, the board will attempt to work with applicants deemed in need of assistance to arrive at a mutually agreeable remedial plan. A remedial plan may include additional education, desk review, a mentoring program, or additional precertification experience.

6.6(7) An applicant who is denied certification based on the work product review described in this rule, or on any other ground, will be entitled to a contested case hearing. Notice of denial will specify the grounds for denial, which may include any of the work performance-related grounds for discipline against a certified appraiser.

6.6(8) If probable cause exists, the board may open a disciplinary investigation based on the work product review of an applicant. A potential disciplinary action could arise, for example, if the applicant is a certified residential real estate appraiser seeking an upgrade to a certified general real estate appraiser, or where the applicant is uncertified and is working under the supervision of a certified real estate appraiser who cosigned the appraisal report.

6.6(9) After accumulating a minimum of 500 hours of appraisal experience, an applicant may voluntarily submit work product to the board to be reviewed by a peer reviewer for educational purposes only. A maximum of three reports may be submitted for review during the experience portion of the certification process. Work product submitted for educational purposes only will not result in disciplinary action on either the associate appraiser or the associate appraiser's supervisor so long as the appraisal review did not reveal negligent or egregious errors or omissions. The fee for voluntary submissions of work product for review is provided in 193F—Chapter 12.

6.6(10) The board will retain the appraisals for as long as needed as documentation of the board's actions for the Appraisal Subcommittee or as needed in a pending proceeding involving the work product of the applicant or the applicant's supervisor. When no longer needed for such purposes, the work product may be retained or destroyed at the board's discretion.

193F—6.7(543D) Practical Applications of Real Estate Appraisal (PAREA). PAREA utilizes simulated experience training and serves as an alternative to the traditional supervisor/trainee experience model. PAREA programs have to be AQB-approved and meet all the applicable AQB criteria. An applicant who meets the prerequisites of a PAREA program prior to commencement of training and who receives a valid certificate of completion from an AQB-approved PAREA program, has met the allotted

experience obligations as outlined in the AQB criteria for that specific PAREA program. PAREA program experience allotment will be awarded per the AQB criteria at the time of program completion.

Applicants claiming PAREA experience credit are not allowed partial credit for PAREA training (rules 193F—6.1(543D) through 193F—6.7(543D)).

193F—6.8(543D) Upgrade from a certified residential real estate appraiser to a certified general real estate appraiser. To upgrade from a certified residential real estate appraiser to a certified general real estate appraiser, an applicant has to satisfy all obligations of this rule, which include work product review and a state and national criminal history check as provided in Iowa Code section 543D.22.

6.8(1) Education.

a. Collegiate education. Certified residential real estate appraisers have to satisfy the college-level education obligations of the AQB.

b. Core criteria. In addition to the formal education and core criteria educational obligations originally needed to obtain a certified residential credential, an applicant has to meet the current AQB obligations before taking the AQB-approved examination.

6.8(2) Examination. An applicant has to satisfy the examination obligations.

6.8(3) Supervision and experience.

a. Experience. An applicant has to satisfy all of the experience obligations while in active status and in accordance with AQB criteria.

b. Supervision. Subject to applicable exceptions, all nonresidential experience obtained and applied toward obtaining a certified general credential as part of the upgrade process will be performed under the tutelage of a certified general real property appraiser, subject to AQB-required coursework.

These rules are intended to implement Iowa Code sections 543D.5, 543D.8, 543D.9, and 543D.22.

“Disciplinary Actions Against Certified and Associate Appraisers”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543D.5
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 7 establishes the disciplinary actions for the protection and well-being of those persons who may rely upon registered associate appraisers or certified appraisers for the performance of real property appraisals within the state and for clients in the state. The chapter also establishes the standards of practice that govern all real property appraisal activities required by Uniform Standards of Professional Appraisal Practice (USPAP). The intended benefit of this rulemaking is to ensure the public and licensees are aware of the disciplinary grounds against licensees.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Professional standards of practice are undoubtedly associated with costs to the licensed appraiser. Appraisers must adhere to USPAP, which is a manual that comes at a cost to the appraiser or the appraisers' firm/employer. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per offense. The Board frequently issues education in lieu of fines, which have varying costs.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rulemaking is to ensure public safety and that licensees are aware of standard of practice and potential disciplinary grounds.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Real estate appraisers are licensed service providers regulated in accordance with federal and state law. Disciplinary action is a potential pathway to hold licensees accountable and ensure compliance with federal law.

- Qualitative description of impact:

Establishing disciplinary actions aims to ensure safety for the consumer and knowledge for the licensee. In addition, these rules are required by Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA).

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates USPAP or regulations. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.75 full-time equivalent (FTE) position. The cost of performing required Standard 3/4 reviews on appraisal reports is \$425 per residential report and \$900 minimum per general report. The average number of reviews performed per complaint is two.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa follows the standards set by FIRREA. Inaction and noncompliance with federal law would prohibit real estate appraisers from practicing this profession in Iowa. Currently practicing Iowa licensees may move out of state to practice in a state that does license their profession in accordance with federal law.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa follows the standards set by FIRREA. The Appraisal Foundation (TAF) sets the congressionally authorized standards and qualifications for this profession. Since these requirements are set federally, the state has minimal options to change discipline methodology in accordance with federal law.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Iowa currently follows the standards set by TAF. TAF sets the congressionally authorized standards and qualifications for this profession. The Board has not identified any other alternatives to these disciplinary rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board follows the standards set by TAF in accordance with federal law. To ensure compliance, changes were not made to federal requirements through Administrative Code. Revisions to this chapter are in line with streamlining and simplifying the chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing disciplinary actions against appraisers. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 7 and adopt the following **new** chapter in lieu thereof:

CHAPTER 7
DISCIPLINARY ACTIONS AGAINST CERTIFIED AND
ASSOCIATE APPRAISERS

193F—7.1(17A,272C,543D) Disciplinary authority. The board is empowered to regulate the real estate appraiser profession for the protection and well-being of the public trust. To perform these functions, the board is broadly vested with authority to review and investigate alleged acts or omissions of applicants and licensees and to address disciplinary concerns under Iowa law.

193F—7.2(543D) Standards of practice. All registered associate appraisers and certified real estate appraisers will comply with the USPAP edition applicable to each appraisal assignment.

193F—7.3(17A,272C,543D) Grounds for discipline. The board may initiate disciplinary action against a registered associate appraiser or a certified real estate appraiser based on any one or more of the following grounds:

7.3(1) Code violations. Any violation of Iowa Code provision that authorizes imposition of licensee sanctions:

- a. False representation of a material fact, whether by word or by conduct, by false or misleading allegation, or by concealment of that which should have been disclosed;
- b. Attempting to file or filing with the board any false or forged diploma, course certificate, identification, credential, license, registration, certification, examination report, affidavit, or other record;
- c. Failing or refusing to provide complete information in response to a question on an application for initial or renewal registration or certification; or
- d. Otherwise participating in any form of fraud or misrepresentation by act or omission.

7.3(2) Professional incompetence. Professional incompetence includes, but is not limited to:

- a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.
- b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other practitioners in the state of Iowa acting in the same or similar circumstances.
- c. A failure to exercise the degree of care which is ordinarily exercised by the average practitioner acting in the same or similar circumstances.
- d. Failure to conform to the minimal standards of acceptable and prevailing practice of registered associate appraisers or certified real property appraisers in this state.
- e. A willful, repeated, or material deviation from USPAP standards, or other act or omission that demonstrates an inability to safely practice in a manner protective of the public's interest, including any violation of USPAP's competency rule.

7.3(3) Deceptive practices. Deceptive practices are grounds for discipline, whether or not actual injury is established, and include but are not limited to:

- a. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of real property appraising.
- b. Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a registrant or certificate holder in making information or intention known to the public which is false, deceptive, misleading or promoted through fraud or misrepresentation.
- c. Falsification of business records or appraisal logs through false or deceptive representations or omissions.
- d. Submission of false or misleading reports or information to the board including information supplied in an audit of continuing education, reports submitted as a condition of probation, or any reports identified in this rule.
- e. Making any false or misleading statement in support of an application for registration or certification submitted by another.
- f. Knowingly presenting as one's own a certificate or registration, certificate or registration number, or signature of another or of a fictitious registrant or certificate holder, or otherwise falsely impersonating a certified appraiser or registered associate appraiser.
- g. Representing oneself as a registered associate appraiser or certified appraiser when one's registration or certificate has been suspended, revoked, surrendered, or placed on inactive or retired status, or has lapsed.
- h. Permitting another person to use the registrant's or certificate holder's registration or certificate for any purposes.
- i. Fraud in representations as to skill or ability.
- j. Misrepresenting a specialized service as an appraisal assignment in violation of Iowa Code section 543D.18(3) or (5).

7.3(4) Unethical, harmful or detrimental conduct. Registrants and certificate holders engaging in unethical conduct or practices harmful or detrimental to the public may be disciplined whether or not injury is established. Behaviors and conduct which are unethical, harmful or detrimental to the public may include, but are not limited to, the following actions:

- a. Verbal or physical abuse, improper sexual contact, or making suggestive, lewd, lascivious, offensive or improper remarks or advances, if such behavior occurs within the practice of real property appraising or if such behavior otherwise provides a reasonable basis for the board to conclude that such behavior within the practice of real estate appraising would place the public at risk.
- b. Engaging in a professional conflict of interest, or otherwise violating the public trust, as provided in USPAP's ethics rule.
- c. Aiding or abetting any unlawful activity for which a civil penalty can be imposed under rule 193F—16.2(543D).

7.3(5) Lack of proper qualifications.

- a. Continuing to practice as a registered associate appraiser or certified real property appraiser without satisfying the continuing education for registration or certificate renewal.
- b. Acting as a supervisor without proper qualification, as provided in rule 193F—15.3(543D).
- c. Habitual intoxication or addiction to the use of drugs, or impairment which adversely affects the registrant's or certificate holder's ability to practice in a safe and competent manner.
- d. Any act, conduct, or condition, including lack of education or experience and careless or intentional acts or omissions, that demonstrates a lack of qualifications which are necessary to ensure a high standard of professional care as provided in Iowa Code section 272C.3(2) "b," or that impairs a practitioner's ability to safely and skillfully practice the profession.
- e. Failure to meet the minimum qualifications for registration as an associate appraiser or certification as a certified real property appraiser.

f. Practicing outside the scope of a certification, or outside the scope of a supervisor's certification.

7.3(6) Negligence by the registrant or certificate holder in the practice of the profession. Negligence by the registrant or certificate holder in the practice of the profession includes but is not limited to:

a. A failure to exercise due care including negligent delegation of duties to or supervision of associate appraisers, or other employees, agents, or persons, in developing an appraisal, preparing an appraisal report, or communicating an appraisal, whether or not injury results.

b. Neglect of contractual or other duties to a client.

7.3(7) Professional misconduct.

a. Violation of a regulation or law of this state, another state, or the United States, which relates to the practice of real estate appraising.

b. Engaging in any conduct that subverts or attempts to subvert a board investigation.

c. Revocation, suspension, or other disciplinary action taken by a licensing authority of this state or another state, territory, or country. A stay by an appellate court will not negate this obligation; however, if such disciplinary action is overturned or reversed by a court of last resort, discipline by the board based solely on such action will be vacated.

d. A violation of Iowa Code section 543D.18.

e. A violation of Iowa Code section 543D.20 (limitations on persons assisting in the development or reporting of a certified appraisal).

f. Failure to retain records as provided in Iowa Code section 543D.19.

g. Violation of the terms of an initial agreement with the impaired practitioner review committee or violation of the terms of an impaired practitioner recovery contract with the impaired practitioner review committee.

7.3(8) Willful or repeated violations. The willful or repeated violation or disregard of any provision of Iowa Code chapter 272C or 543D, or any administrative rule adopted by the board in the administration or enforcement of such chapters.

7.3(9) Failure to report.

a. Failure by a registrant or certificate holder or an applicant for a registration or certificate to report in writing to the board any revocation, suspension, or other disciplinary action taken by a licensing authority, in Iowa or any other jurisdiction, within 30 calendar days of the final action.

b. Failure of a registrant or certificate holder or an applicant for a registration or certificate to report, within 30 calendar days of the action, any voluntary surrender of a professional license to resolve a pending disciplinary investigation or action, in Iowa or any other jurisdiction.

c. Failure to notify the board of a criminal conviction within 30 calendar days of the action, regardless of the jurisdiction where it occurred.

d. Failure to notify the board within 30 calendar days after occurrence of any adverse judgment in a professional or occupational malpractice action, or settlement of any claim involving malpractice, regardless of the jurisdiction where it occurred.

e. Failure to report another registrant or certificate holder to the board for any violation listed in these rules, pursuant to Iowa Code section 272C.9(2), promptly after the registrant or certificate holder becomes aware that a reportable violation has occurred.

f. Failure to report to the board the appraiser's principal place of business and any change in the appraiser's principal place of business within 30 calendar days of such change.

g. Failure of an associate appraiser or supervisor to timely respond to board requests for information, as provided in 193F—Chapter 4.

7.3(10) *Failure to comply with board order.* Failure to comply with the terms of a board order or the terms of a settlement agreement or consent order, or other decision of the board imposing discipline.

7.3(11) *Conviction of a crime.*

a. Conviction, in this state or any other jurisdiction, of any felony offense that directly relates to the profession, or of any crime which is substantially related to the qualifications, functions, duties or practice of a person developing or communicating real estate appraisals to others. Any crime involving deception, dishonesty or disregard for the safety of others will be deemed directly related to the practice of real property appraising. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another jurisdiction will be conclusive evidence of the conviction. "Conviction" includes any plea of guilty or nolo contendere, including Alford pleas, or finding of guilt whether or not judgment or sentence is deferred, withheld, or not entered, and whether or not the conviction is on appeal. If such conviction is overturned or reversed by a court of last resort, discipline by the board based solely on the conviction will be vacated. A conviction qualifies as a felony offense if the offense is designated as a felony in the jurisdiction in which the conviction occurred, or if the offense is committed in this state, the offense would be a felony, without regard to its designation elsewhere. An offense directly relates to the profession if either:

(1) The actions taken in furtherance of an offense are actions customarily performed within the scope of practice of the profession, or

(2) The circumstances under which an offense was committed are circumstances customary to the profession.

b. Notwithstanding the foregoing, a conviction may be grounds for revocation or suspension only if an unreasonable risk to public safety exists because the offense directly relates to the duties and responsibilities of the profession.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543D and 2007 Iowa Acts, Senate File 137.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193F—Chapter 8
“Investigations and Disciplinary Procedures”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543D.5
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 8 establishes the provisions for investigatory and disciplinary procedures that the Real Estate Appraiser Examining Board has authority over. The benefit is to clearly specify to all parties their rights and responsibilities during the investigation and discipline process.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
There could be additional costs to a licensee if the licensee retains counsel to represent the licensee during the course of the investigation. Additionally, if disciplinary action is taken against a licensee, a fine could be issued.
 - Classes of persons that will benefit from the proposed rulemaking:
The public and professionals benefit from the proposed rules by clearly establishing responsibilities and rights regarding complaints and investigations. In 2022, the Board reviewed more than 50 cases, which resulted in 38 formal complaints and 11 consent orders for 13 of those cases.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
The Board believes that the benefits achieved justify the cost because appraisers are subject to Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA).
 - Qualitative description of impact:

Establishing responsibilities and rights for licensees ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The Board and Board staff review complaints. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.75 full-time equivalent (FTE) position.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Inaction would result in noncompliance with federal law. Currently practicing Iowa licensees may move out of state to practice in a state that does license their profession in accordance with federal law.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa follows federal regulations set by the Appraisal Foundation (TAF). TAF sets the congressionally authorized standards and qualifications for this profession.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board considered accepting a voluntary surrender of a license to resolve disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. The Board felt that this would not protect the public as this would not be required to be reported to the Appraisal Subcommittee National Registry. The Registry is used to send daily reports to every jurisdiction and is also used when licensing by reciprocity in most states.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

As stated above, the alternate method was rejected due to the lack of requirement to report to the Registry.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing requirements for appraisers. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 8 and adopt the following new chapter in lieu thereof:

CHAPTER 8 INVESTIGATIONS AND DISCIPLINARY PROCEDURES

193F—8.1(272C,543D) Disciplinary action. The real estate appraiser examining board has authority under applicable law to impose discipline for violations of law.

193F—8.2(17A,272C,543D) Initiation of disciplinary investigations. The board may initiate a licensee disciplinary investigation upon the board's receipt of information suggesting that a licensee may have violated the licensee's legal obligations under the Iowa Code or board rule.

193F—8.3(17A,272C,543D) Conflict of interest. If the subject of a complaint is a member of the board, or if a member of the board has a conflict of interest in any disciplinary matter before the board, that member will abstain from participation in any consideration of the complaint and from participation in any disciplinary hearing that may result from the complaint.

193F—8.4(272C,543D) Complaints. Written complaints need to be submitted to the board through the board's online system. The board may also initiate its own complaints.

8.4(1) Role of complainant. The role of the complainant in the disciplinary process is limited to providing the board with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding which may be initiated by the board based in whole or in part on information provided by the complainant.

8.4(2) Role of the board. The board does not act as an arbiter of disputes between private parties, nor does the board initiate disciplinary proceedings to advance the private interest of any person or party. The role of the board in the disciplinary process is to protect the public by investigating complaints and initiating disciplinary proceedings in appropriate cases. The board possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate licensee discipline to be imposed, if any.

8.4(3) Initial complaint screening. Tips that are not complaints will be evaluated by the disciplinary committee but may not be assigned a case number or further investigated. Complaints that have been submitted and assigned a case number will be referred to the discipline committee. Final decisions on complaints will be made by the board.

193F—8.5(272C,543D) Case numbers. Whether based on written complaint received by the board or complaint initiated by the board, all complaint files will be tracked by a case numbering system. Once a case file number is assigned to a complaint, all persons communicating with the board regarding that complaint are encouraged to include the case file number to facilitate accurate records and prompt response.

193F—8.6(17A,272C,543D) Investigation procedures.

8.6(1) *Disciplinary committee.* The board chairperson will annually appoint two to three members of the board to serve on the board's disciplinary committee. The disciplinary committee is a purely advisory body that reviews complaint files referred by the board's executive officer, generally supervises the investigation of complaints, and makes recommendations to the full board on the disposition of complaints. Members of the committee will not personally investigate complaints, but they may review the investigative work product of others in formulating recommendations to the board.

8.6(2) *Screening of complaints.* All complaints presented to the board will be screened, evaluated and, where appropriate, investigated.

193F—8.7(17A,272C,543D) Informal discussion. If the disciplinary committee considers it advisable, or if requested by the affected licensee, the committee may grant the licensee any opportunity to appear before the committee for a voluntary informal discussion of the facts and circumstances of an alleged violation, subject to the provisions of this rule.

8.7(1) Because disciplinary investigations are confidential, only the licensee's legal representative may attend the information discussion with the board.

8.7(2) Unless disqualification is waived by the licensee, board members or staff who personally investigate a disciplinary complaint are disqualified from making decisions or assisting the decision makers at a later formal hearing. Because board members generally rely upon investigators, peer review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question and answer format. In order to preserve the ability of all board members to participate in board decision making and to receive the advice of staff, licensees who desire to attend an informal discussion waive their right to seek disqualification of a board member or staff based solely on the board member's or staff's participation in an informal discussion. Licensees would not be waiving their right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that participating board members or staff are not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

8.7(3) Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence.

8.7(4) The disciplinary committee, subject to board approval, may propose a consent order at the time of the informal discussion.

193F—8.8(272C,543D) Peer review committee (PRC). A peer review committee may be appointed by the board to investigate a complaint.

193F—8.9(17A,272C,543D) Closing complaint files.

8.9(1) *Grounds for closing.* The board may close a complaint file, with or without prior investigation.

8.9(2) *Cautionary letters.* The board may issue a confidential letter of caution to a licensee when a complaint file is closed which informally cautions or educates the licensee about matters which could form the basis for disciplinary action in the future if corrective action is not taken by the licensee. Informal cautionary letters do not constitute disciplinary action, but the board may take such letters into consideration in the future if a licensee continues a practice about which the licensee has been cautioned.

8.9(3) *Reopening closed complaint files.* The board may reopen a closed complaint file if additional information arises after closure that provides a basis to reassess the merits of the initial complaint. Complaint files may also be reopened when a complaint has been previously closed due to the lapse of the licensee's license.

193F—8.10(17A,272C,543D) Initiation of disciplinary proceedings. Disciplinary proceedings may only be initiated by the affirmative vote of a majority of a quorum of the board at a public meeting. Board members who are disqualified will not be included in determining whether a quorum exists. If, for example, two members of the board are disqualified, three members of the board constitute a quorum of the remaining five board members for purposes of voting on the case in which the two members are disqualified. When three or more members of the board are disqualified or otherwise unavailable for any reason, the executive officer may request the special appointment of one or more substitute board members pursuant to Iowa Code section 17A.11(5).

193F—8.11(543D) Decisions. The board will make findings of fact and conclusions of law, and set forth the board's decision, order, or both in the case. The board's decision may include, without limitation, any of the following outcomes, either individually or in combination:

1. Dismissing the charges;
2. Suspending or revoking the appraiser's certification or associate's registration as authorized by law;
3. Imposing civil penalties, the amount to be set at the discretion of the board but not exceeding \$1,000 per violation. Civil penalties may be imposed for any of the disciplinary violations specified in Iowa Code section 543D.17 and chapter 272C or for any repeat offenses;
4. Imposing a period of probation, either with or without conditions;
5. Obligating the licensee to undergo reexamination;
6. Obligating the licensee to take additional professional education, reeducation, or continuing education;
7. Issuing a citation and a warning;
8. Imposing desk review of the appraiser's work product;
9. Issuing a consent order either with or without conditions;
10. Imposing consultation with one or more peer reviewers;
11. Revoking an appraiser's eligibility to supervise;
12. Compelling submission of monthly logs;
13. Placing limitations on a licensee's practice, such as removing a licensee's authority to act as an instructor; and
14. Imposing any other form of discipline authorized by a provision of law that the board, in its discretion, believes is warranted under the circumstances of the case.

193F—8.12(272C,543D) Mitigating and aggravating factors. Factors the board may consider when determining whether to impose discipline and what type of discipline to impose include but are not limited to:

- 8.12(1) History and background of respondent.**
- a. Whether the respondent was a registered associate appraiser or a certified appraiser at the time of the violation.
 - b. Prior disciplinary history or cautionary letters.
 - c. Length of certification or registration at the time of the violation.
 - d. Disciplinary history of current or prior supervisor.
 - e. Degree of cooperation with investigation.
 - f. Extent of self-initiated reform or remedial action after the date of the violation.
 - g. Whether the volume or geographic range of the respondent's practice is, or was at the time of the violation, reasonable under the circumstances.

h. Whether the respondent practiced with a lapsed, inactive, retired, suspended, revoked, or surrendered certificate or registration.

8.12(2) Nature of violations, not limited to:

- a.* Length of time since the date of the violation.
- b.* Whether the violation is isolated or recurring.
- c.* Whether there are multiple violations or appraisals involved.
- d.* Whether the violation is in the nature of an error or situational carelessness or neglect, or reflects a more fundamental lack of familiarity with applicable appraisal methodology or standards.
- e.* Indicia of bad faith, false statements, deceptive practices, or willful and intentional acts, whether within the circumstances of the violation or in the course of the board's investigation or disciplinary proceeding.
- f.* Evidence of improper advocacy or other violation of the USPAP ethics rule or of Iowa Code section 543D.18 or 543D.18A(1).
- g.* The clarity of the issue or standard involved.
- h.* Whether the respondent practiced outside the scope of practice authorized by respondent's certification or registration.
- i.* Whether the violation relates to the respondent's supervisory role, the respondent's individual appraisal practice, or both.

8.12(3) Interest of the public, not limited to:

- a.* Degree of financial or other harm to a client, consumer, lending institution, or others.
- b.* Risk of harm, whether or not the violation caused actual harm.
- c.* Economic or other benefit gained by respondent or by others as a result of the violation.
- d.* Deterrent impact of discipline.
- e.* Whether the respondent issued a corrected appraisal report when warranted.

193F—8.13(272C,543D) Voluntary surrender. The board may accept the voluntary surrender of a license to resolve a pending disciplinary contested case or pending disciplinary investigation. The board will not accept a voluntary surrender of a license to resolve a pending disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. Such voluntary surrender is considered disciplinary action and will be published in the same manner as is applicable to any other form of disciplinary order.

193F—8.14(272C,543D) Reinstatement. The following provisions apply to license reinstatement proceedings:

8.14(1) The board may grant an applicant's request to appear informally before the board prior to the issuance of a notice of hearing on an application to reinstate if the applicant requests an informal appearance in the application and agrees not to seek to disqualify, on the ground of personal investigation, board members or staff before whom the applicant appears.

8.14(2) An order granting an application for reinstatement may impose such terms and conditions as the board deems desirable, which may include one or more of the types of disciplinary sanctions described in rule 193F—8.14(543D).

8.14(3) The board will not grant an application for reinstatement when the initial order that revoked, suspended or placed limitations on the license, denied license renewal, or accepted a voluntary surrender was based on a criminal conviction and the applicant cannot demonstrate to the board's satisfaction that:

- a.* All terms of the sentencing or other criminal order have been fully satisfied;
- b.* The applicant has been released from confinement and any applicable probation or parole; and
- c.* Restitution has been made or is reasonably in the process of being made to any victims of the crime.

8.14(4) A state and national criminal history check may be performed on any applicant applying to reinstate registration or credential consistent with Iowa Code section 543D.22.

These rules are intended to implement Iowa Code sections 543D.5, 543D.17, and 543D.18 and chapters 17A and 272C.

Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 9 establishes the provisions for those seeking to renew, reinstate and/or change status of their appraiser license in Iowa. The benefit is to allow individuals to renew or reinstate licensure in the state of Iowa as required by the Appraisal Qualifications Board (AQB) of the Appraisal Foundation (TAF).

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for costs associated with renewals and reinstatements. The chart below indicates the State’s renewal fees and the number of continuing education hours required. The chart also indicates the cost for other states as well as their continuing education requirements. Continuing education is required for those who are seeking active status since the Board has the option for inactive status as well as a retired status in this chapter.

Estimation of the cost for continuing education is \$535.

| | Iowa | South Dakota | Minnesota | Illinois | Missouri | Nebraska | Kansas |
|--|-------|-----------------|-----------|----------|----------|----------|--------|
| Certified General — Renewal | \$280 | \$780 | \$210 | \$530 | \$300 | \$630 | \$480 |
| Certified Residential — Renewal | \$280 | \$750 | \$210 | \$530 | \$300 | \$630 | \$480 |
| Associate Appraiser — Renewal | \$200 | \$350 | \$130 | \$300 | \$300 | \$550 | \$400 |
| Continuing Education Requirements (hrs) | 28 | 28 | 28 | 29 | 30 | 28 | 28 |

Some states did not indicate the National Registry fee of \$40 per year.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum requirements ensures that licensees are competent to practice. Individuals who wish to engage in federally regulated transaction appraisals must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA).

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

For renewals, reinstatement, and status changes the applicant is required to be licensed and in good standing. The continuing education requirements set by the AQB would have been completed prior to renewal and reinstatement in the state of Iowa. Those licensed in active status will be required to complete the continuing education requirement set by the AQB; the average cost of the 28 hours of continuing education was found to be approximately \$535 per renewal. These hour requirements are consistent with those of surrounding states on the lower end of the spectrum, matching South Dakota, Minnesota, Nebraska, and Kansas. Iowa's fee for the certified residential appraiser renewal and associate appraiser renewal are lower than those of surrounding states. The certified general appraiser renewal is significantly lower than all but one surrounding state.

The cost for a reinstatement varies greatly since licensees are required to show proof of the education requirements from the date in which they last reported. If an applicant for reinstatement resides in another state and holds an active license in good standing, the Board recommends a new reciprocity license application due to this process and burden on the applicant.

- Qualitative description of impact:

Establishing minimum requirements for reinstatement and renewal aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage Board activities, which includes managing applications for initial licenses, temporary practice permits, renewals and reinstatements. Board staff review applications for reinstatement and renewal licenses, answer inquiries on licensing, and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Federal law requires some applications be completed within five days of receipt for completion, which is demanding on resources. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There are no anticipated changes to state revenue due to the proposed repromulgated rules. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa currently follows the minimum standards for reinstatement and renewals set by FIRREA. If Iowa was not to follow the minimum standards, the state would not be compliant with federal law.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa currently follows the minimum standards for reinstatement and renewals set by TAF. TAF sets the congressionally authorized standards and qualifications for this profession.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No other alternate method was considered by the agency because the regulations are set by TAF in accordance with federal law. The Board considered merging this chapter into the certified appraiser licensing chapter but felt this could cause confusion.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost effective alternative to the renewal and reinstatement of a licensee. The Board believes all current requirements assure public safety and ensure minimum competency of care is provided to Iowans. In addition, the Board follows the minimum standards set by the AQB criteria for continuing education.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing requirements for appraisers. The cost renewal fees are consistent with or less than surrounding states.

While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of

the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 9 and adopt the following **new** chapter in lieu thereof:

CHAPTER 9
RENEWAL, EXPIRATION AND REINSTATEMENT OF
CERTIFICATES AND REGISTRATIONS, RETIRED STATUS, AND INACTIVE STATUS

193F—9.1(272C,543D) Biennial renewal.

9.1(1) Licenses have to be renewed on a biennial basis or they lapse.

9.1(2) Persons licensed before June 30, 2024, will maintain their biennial renewal timelines. For licensees initially licensed after June 30, 2024, all licenses will expire biennially on June 30.

Example: Certified general licensee obtains licensure on May 25, 2025. License will expire on June 30, 2026, with the first year being a partial year.

9.1(3) An application to renew a certificate or registration has to be submitted through the board's online system.

9.1(4) All continuing education claimed on a biennial renewal needs to have been acquired during the renewal period. In addition, all continuing education claimed on a biennial renewal has to have been taken and completed prior to submission of the renewal application.

193F—9.2(272C,543D) Notices.

9.2(1) The board may send renewal notices to licensed appraisers. However, it is the licensee's responsibility to renew timely.

9.2(2) Certified and associate appraisers have to ensure that their contact information on file with the board office is current and that the board is notified within 30 days of any changes.

193F—9.3(272C,543D) Renewal procedures.

9.3(1) *Date of filing.* Certified and associate appraisers have to file a complete renewal application with the board by the June 30 deadline in the biennial renewal year. An application will be deemed filed on the date of board receipt, the date of electronic submission or, if payment is mailed, the date postmarked but not the date metered.

9.3(2) *Continuing education.* An applicant for renewal has to report the applicant's compliance with the continuing education obligations provided in 193F—Chapter 11.

9.3(3) *Background disclosures.* An applicant for renewal has to disclose such background and character information as the board requests, which may include disciplinary action taken by any jurisdiction regarding a professional license of any type, the denial of an application for a professional license of any type by any jurisdiction, and the conviction of any crime.

9.3(4) *Insufficient applications.* The board will reject applications that are insufficient.

9.3(5) *Resubmission of rejected applications.* The board will promptly notify an applicant of the basis for rejecting an insufficient renewal application. Applicants may correct deficiencies and resubmit an application. Resubmitted applications are deemed received on the date of electronic submission.

9.3(6) *Administrative processing not determinative.* The administrative processing of an application to renew a certificate or registration will not prevent the board from subsequently challenging the application based on new information, such as after-acquired information of continuing education violations.

9.3(7) *Denial of timely and sufficient application to renew.* If grounds exist to deny an application to renew, the board will send notification to the applicant stating the grounds for denial.

193F—9.4(272C,543D) Failure to renew.

9.4(1) The certificate or registration of a certified or associate appraiser lapses unless the appraiser submitted a timely and sufficient renewal application by the expiration date.

9.4(2) Certified and associate appraisers are not authorized to practice or to hold themselves out to the public as certified or registered appraisers during the period of time that the certificate or registration is lapsed. Any violation of this subrule will be grounds for discipline.

9.4(3) *Reinstatement.* The board may reinstate a lapsed certificate or registration upon the applicant's submission of an application to reinstate and completion of all of the following:

- a. Paying a penalty as provided by board rule; and
- b. Paying the current renewal fee as provided by board rule; and
- c. Paying the ASC National Registry fee as provided by board rule; and
- d. Completing a state and national criminal history check as required by law; and
- e. Providing evidence of completed continuing education outlined in rule 193F—11.2(272C,543D), as modified for associate appraisers in subrule 9.4(6), if the licensee wishes to reinstate to active status; and

- f. Providing a written statement outlining the professional activities of the applicant in the state of Iowa during the period in which the applicant's license had lapsed. The statement will describe all appraisal services performed, with or without the use of the titles described in Iowa Code section 543D.15, for all appraisal assignments that federal or state law, rule, or policy mandate to be performed by a certified real estate appraiser.

9.4(4) Reinstating associate appraisers are to follow special continuing education obligations. The board seeks to ensure that associate appraisers make progress toward full completion of all qualifying education needed for eventual certification, as provided in the rules. As a result, an associate appraiser applying to reinstate a registration that has been lapsed for 12 months or longer will complete the most recent seven-hour USPAP course, and only qualifying education toward the continuing education needed for reinstatement, until all qualifying education has been completed. If the applicant has already completed all qualifying education or has to have continuing education hours beyond those needed to fully complete all qualifying education, the applicant may use any approved continuing education course in addition to the mandatory seven-hour USPAP course.

193F—9.5(272C,543D) Inactive status.

9.5(1) *General purpose.* A licensee who is not engaged in Iowa in any practice licensed by the board may allow a license to lapse or register as inactive. The board will continue to maintain a database of persons registered as inactive as well as those whose license has lapsed. A person registered in inactive status is not allowed to perform services in this state regulated by the board. Continuing education is not required for licensees in inactive status.

9.5(2) *Eligibility.* A person holding an active license may apply on forms through the board's online system to register as inactive if the person is not engaged in appraisal practice in the state of Iowa for which a certificate or associate registration is needed. Inactive status is not available to an individual who has had a board-issued license revoked or suspended. A person seeking inactive status may be actively engaged in the practice of real estate appraising in another jurisdiction.

9.5(3) *Affirmation.* The application form will contain a statement in which the applicant affirms that the applicant will not engage in any conduct that would require an Iowa license without first complying with all rules governing reactivation to active status. A person in inactive status may reactivate to active status at any time pursuant to subrule 9.5(6).

9.5(4) *Renewal.* A person registered as inactive will need to renew biennially. Licensees in inactive status may continue to renew in inactive status. Active licensees may register in inactive status if, for instance, they have not completed all continuing education obligations needed for active status renewal. Any licensee in inactive status must satisfy all outstanding continuing education obligations before reinstating to active status. Continuing education obligations do not accrue during the period of inactive registration.

9.5(5) *Grounds for discipline.* Licensees are not authorized to practice or to hold themselves out to the public as board-licensed appraisers during the period of time that the licensee is in retired or inactive status. Any violation of this subrule will be grounds for discipline.

9.5(6) *Reactivation.* A person registered as inactive will apply to reactivate to active status prior to engaging in any practice in Iowa that necessitates active licensure by the board. An application to reactivate to active status will be through the board's online system. Prior to reactivation to active status, the applicant has to complete all education that would have been needed had the applicant been on active status, including the required courses set by the AQB criteria. All such continuing education has to be verified whether or not the applicant has been in active practice in another jurisdiction. Such an applicant will be given credit for the most recent renewal fees previously paid if the applicant applies to reactivate in the same biennium at other than the applicant's regular renewal date. An associate licensee changing from active to inactive status during a biennial renewal period will not, however, be entitled to a refund of any of the fees previously paid to attain active status.

193F—9.6(272C,543D) Retired status. A certified licensee may place the licensee's license in retired status. For purposes of this rule, the term "retired" means the person has retired from working as a certified appraiser and has requested to be placed in retired status through the board's online system. A licensee in retired status may request that the license be placed back into active status so long as the licensee is still within the biennial period of the last active status. The board will not provide a refund of biennial registration and certification fees when an application for retired status is granted in a biennium in which the applicant has previously paid the biennial fees for either active or inactive status. Licensees in retired status are exempt from the renewal obligation. While in retired status, appraisers cannot hold themselves out to the public as being certified appraisers during the period of time that the license is in retired status.

193F—9.7(272C,543D) Property of the board. Every license issued by the board will, while it remains in the possession of the holder, be preserved by the holder but will, nevertheless, always remain the property of the board.

These rules are intended to implement Iowa Code section 543D.5.

Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 10 establishes the pathway for those seeking real estate appraiser certification/permits in Iowa. This gives individuals an avenue to provide services to Iowans either on an ongoing or a temporary basis. It also allows for a certified appraiser moving to the state of Iowa to be licensed prior to arriving, thus attracting people to the state.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee. The fee for initial certified real estate license is \$280 and the renewal fee is \$280, with \$80 of the license fee forwarded to the Appraisal Foundation (TAF) Appraisal Subcommittee (ASC) National Registry. The fee for a temporary practice permit is \$100 per engagement letter. These costs vary greatly in surrounding states for initial and renewal licensing fees for certified real estate appraisers.

| | Iowa | South Dakota | Minnesota | Illinois | Missouri | Nebraska | Kansas |
|--|-------|-----------------|-----------|----------|----------|----------|--------|
| Certified General License — Initial | \$280 | \$880 | \$260 | \$315 | \$300 | \$680 | \$530 |
| Certified Residential — Initial | \$280 | \$830 | \$260 | \$315 | \$300 | \$680 | \$530 |
| Certified General — Renewal | \$280 | \$780 | \$210 | \$530 | \$300 | \$630 | \$480 |
| Certified Residential — Renewal | \$280 | \$750 | \$210 | \$530 | \$300 | \$630 | \$480 |
| Temporary Practice Permit | \$100 | \$200 | \$150 | \$100 | \$150 | \$150 | \$50 |

Chart reflects a two-year renewal cycle fee for each state.

Some states did not indicate the National Registry fee of \$40 per year.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing and permit requirements ensures that licensees are competent to practice. Individuals who wish to engage in federally regulated transaction appraisals on an ongoing basis or in a temporary basis (based on an engagement letter) must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA).

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

For reciprocity and temporary practice permits, the applicant is required to be licensed and in good standing in another jurisdiction. The educational and qualifying education requirements set by the Appraisal Qualification Board (AQB) would have been completed prior to licensure in the state of Iowa. Those licensed by reciprocity will be required to complete the continuing education requirement set by the AQB; the average cost of the 28 hours of continuing education was found to be around \$535 per renewal.

Licensing fees are \$280 for an initial and renewal license. Temporary practice permits are \$150 per engagement letter. In 2021, the certified real estate appraiser fee was lowered from \$390 to \$280 and the temporary practice permit fee was lowered from \$150 to \$100; in addition, a change was made that allowed unlimited temporary practice permits (previously a maximum of two permits per calendar year).

- Qualitative description of impact:

Establishing minimum requirements for licensure and permits aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage Board activities, which includes managing applications for initial licenses, temporary practice permits, renewals, and reinstatements. Board staff review applications for initial and renewal licenses, answer inquiries on licensing, and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Federal requirements that require temporary practice permits to be completed within five days of receipt, and verifications of licensure that hold the same federal requirement for completion, are demanding on resources. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

The effect will stay the same; no changes are foreseen. In 2022, the maximum number of temporary practice permits the state was allowed to issue per licensee was two, and now it is unlimited, thus increasing revenue for the State of Iowa.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa currently follows the minimum standards for reciprocity licensure and temporary practice permits set by FIRREA.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa currently follows the minimum standards for reciprocity and temporary practice permits set by TAF. TAF sets the congressionally authorized standards and qualifications for this profession.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative method was considered by the agency because the regulations are set by TAF in accordance with federal law. The Board considered merging this chapter into the certified appraiser licensing chapter but felt this could cause confusion.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost effective alternative to the licensure by reciprocity or temporary practice permits. The Board believes all current requirements assure public safety and ensure minimum competency of care is provided to Iowans. In addition, the board follows the minimum standards set by the AQB criteria.

Federal requirements that require temporary practice permits to be completed within five days of receipt, and verifications of licensure that hold the same federal requirement for completion, are demanding on resources.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing requirements for appraisers. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 10 and adopt the following **new** chapter in lieu thereof:

CHAPTER 10
RECIPROCITY

193F—10.1(543D) Nonresident certification by reciprocity.

10.1(1) A nonresident of Iowa seeking certification in this state can apply for reciprocity through the board's online system and pay the board-established fee.

10.1(2) The board may issue a reciprocal certificate to a nonresident individual who is certified and demonstrates good standing in another state. An appraiser who is listed in good standing on the National Registry of the Appraisal Subcommittee satisfies the good standing obligation without additional documentation. An appraiser who is not listed in good standing on the National Registry of the Appraisal Subcommittee will need to supply an official letter of good standing issued by the licensing board of the appraiser's resident state and bearing its seal.

10.1(3) A reciprocal certified appraiser will comply with all provisions of Iowa law and rules.

10.1(4) Reciprocal certified appraisers are obligated to pay the federal registry fee as set forth in board rule.

193F—10.2(543D) Temporary practice permit.

10.2(1) The board will recognize, on a temporary basis, the license of a certified appraiser issued by another state for a period of six months, unless the applicant requests, and is approved for, a one-time extension. An extension request has to be received prior to the expiration date of the issuance of the temporary practice permit. An extension may be granted for up to six months past the original expiration date so long as the applicant is still eligible for a temporary practice permit.

10.2(2) The appraiser has to apply through the board's online system. The appraiser seeking a temporary practice permit must meet the other qualifying factors associated with reciprocity, including good standing and payment of the appropriate fee. The temporary practice permit will authorize the licensee to perform appraisal on the properties listed on the permit.

10.2(3) An appraiser holding an inactive, retired, or lapsed certificate as a real estate appraiser in Iowa may apply for a temporary practice permit if the appraiser holds an active, unexpired certificate as a real estate appraiser in good standing in another jurisdiction and is otherwise eligible for a temporary practice permit.

10.2(4) An appraiser who was previously a registered associate or certified appraiser in Iowa whose Iowa license has been revoked or surrendered in connection with a disciplinary investigation or proceeding is ineligible to apply for a temporary practice permit in Iowa.

10.2(5) The board may deny an application for a temporary practice permit based on prior discipline in this jurisdiction or other jurisdictions.

10.2(6) An appraiser holding an inactive, retired, or lapsed Iowa certificate who applies to reinstate to active status in Iowa will not be given credit for any fees paid during the biennial period for one or more temporary practice permits.

10.2(7) An appraiser holding a license to practice as a real estate appraiser in another jurisdiction may practice in Iowa without applying for a temporary practice permit or paying any fees as long as the appraiser does not perform appraisal services in Iowa that require licensure in this state.

10.2(8) The board will receive and approve an application for a temporary practice permit before the applicant is eligible to practice in Iowa under a temporary practice permit. Applicants will apply using the board's online system. The board will grant or deny all applications for temporary practice permits within the requirements set by the ASC. Applicants disclosing discipline or criminal convictions will need to attach supporting documentation so that the board can assess whether grounds exist to deny the application. Falsification of information or failure to disclose material information will be grounds to deny the application, deny subsequent applications, or to reinstate a lapsed or inactive Iowa license.

These rules are intended to implement Iowa Code sections 543D.10 and 543D.11.

Regulatory Analysis

State or federal law(s) implemented by the rulemaking: Iowa Code section 543D.16

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 11 established the continuing education requirements for initial and renewal licensees, while also clarifying the requirements/processes for course providers that wish to provide education services to Iowa licensees.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for costs associated with continuing education, and course providers are responsible for costs associated with course approvals.

The 28-hour continuing education requirement is set by the Appraisal Foundation (TAF) in the Appraisal Qualification Board (AQB) criteria. Iowa complies with the minimum set requirements. Out of the neighboring states (Illinois, Kansas, Minnesota, Missouri, Nebraska, and South Dakota), only Illinois and Missouri require more hours of continuing education at 29 hours and 30 hours, respectively.

The estimated cost for continuing education is \$535.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rule. Establishing minimum continuing education requirements ensures that licensees are competent to practice. Individuals who wish to engage in federally regulated transaction appraisals must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA).

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The continuing education requirements set by the AQB would have been completed prior to renewal in the state of Iowa. The average cost of the 28 hours of continuing education was found to be approximately \$535 per renewal.

- Qualitative description of impact:

Establishing minimum requirements for licensure and permits aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage Board activities, which includes managing applications for initial licenses, temporary practice permits, renewals, and reinstatements. Federal requirements mandate the state audit of a section of the licensing pool following renewals. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Based on the proposed repromulgated rules, there is no anticipated impact on state revenues. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa currently follows the minimum standards for continuing education set by FIRREA.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa currently follows the minimum standards for continuing education set by TAF. TAF sets the congressionally authorized standards and qualifications for this profession.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No other alternate method was considered by the agency because the regulations are set by TAF in accordance with federal law.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost effective alternative to the continuing education requirements. The Board believes all current requirements assure public safety and ensure minimum competency of care is provided to Iowans. In addition, the Board follows the minimum standards set by the AQB criteria.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing requirements for appraisers and upholds minimum standards set through federal law. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 11 and adopt the following **new** chapter in lieu thereof:

CHAPTER 11
CONTINUING EDUCATION

193F—11.1(272C,543D) Definitions. For the purpose of these rules, the following definitions shall apply:

“Approved program” means a continuing education program, course, or activity that satisfies the standards set forth in these rules and has received advance board approval pursuant to these rules.

“Approved provider” means a person or an organization that has been approved by the board to conduct continuing education programs pursuant to these rules.

“Asynchronous” means that the instructor and student interact in an educational offering in which the student progresses at their own pace through structured course content and scheduled quizzes and examinations.

“Board” means the same as defined in Iowa Code section 543D.2(7).

“Continuing education” means education that is obtained by a person certified to practice real estate appraising in order to maintain, improve, or expand skills and knowledge obtained prior to initial certification or registration, or to develop new and relevant skills and knowledge, all as a condition of renewal.

“Credit hour” means the value assigned by the board, or the AQB, to a continuing or qualifying education program.

“Distance education” means any education process based on the geographical separation of student and instructor. “Distance education” includes asynchronous, synchronous, and hybrid educational offerings.

“Guest speaker” means an individual who teaches an appraisal education program on a one-time-only or very limited basis and who possesses a unique depth of knowledge and experience in the subject matter.

“Hybrid,” also known as a blended course, means a learning environment that allows for both in-person and online (synchronous or asynchronous) interaction.

“Live instruction” means an educational program delivered in a classroom setting where both the student and the instructor are present in the same room.

“Qualifying education” means education that is obtained by a person seeking certification as a real property appraiser prior to initial certification or registration.

“Synchronous” means that in an educational offering the instructor and student interact online simultaneously, as in a phone call, video chat or live webinar, or web-based meeting.

193F—11.2(272C,543D) Continuing education obligations.

11.2(1) Board-licensed appraisers have to demonstrate compliance with the continuing education set by the AQB criteria.

11.2(2) All continuing education credit hours may be acquired in approved education programs.

11.2(3) Instructors claiming continuing education credit may be requested to provide supporting documentation to ascertain course content and related details.

11.2(4) An applicant seeking to renew an initial license issued less than 185 days prior to renewal is not obligated to report any continuing education. An applicant seeking to renew an initial certificate or registration issued for 185 days to 365 days prior to renewal has to demonstrate completion of at least 14 credit hours, including the National USPAP continuing education course or its AQB equivalent. An applicant seeking to renew an initial certificate or registration issued 365 days prior to renewal or more has to demonstrate completion of at least 28 credit hours, including seven credit hours of the most recent National USPAP continuing education.

11.2(5) Prior to reinstatement or reactivation of a certified general or residential registration, a licensee in inactive, retired, or lapsed status has to complete all continuing education hours that would have been needed if the licensee was in active status. The hours will also include the most recent edition of a National USPAP Update course.

11.2(6) During each two-year renewal period, a continuing education program may be taken for credit only once.

11.2(7) At least 50 minutes of every class hour have to be attended by the student to count as an hour of continuing education.

11.2(8) An applicant may claim continuing education credits that have been approved by another jurisdiction that has a continuing education obligation for license renewal in that jurisdiction if the applicable program was approved by the other jurisdiction's appraisal regulatory body or the AQB for continuing education purposes at the time the applicant completed the course. The burden of proof in this regard is on the applicant. All other programs have to be approved upon application to the board pursuant to this chapter.

11.2(9) A person certified or registered to practice real estate appraising in Iowa will be deemed to have complied with Iowa's continuing education obligation for periods in which the person is a resident of another state or district having continuing education obligations for real estate appraising and meets all obligations of that state or district.

11.2(10) A person certified or registered to practice real estate appraising in Iowa who completes an education course approved by both the board and another appraiser regulatory body, for which the approved hours vary, will only be allowed to claim the hours approved by the board to meet the obligations of renewal of the person's associate registration or certified credential in Iowa. A person certified or registered to practice real estate appraising in Iowa who completes an educational course not approved in Iowa, but approved by either the AQB or by another appraiser regulatory body, may claim the hours awarded by either the AQB or the appraiser regulatory body of the other jurisdiction.

193F—11.3(272C,543D) Minimum program qualifications.

11.3(1) The board will only approve continuing education programs that provide a formal program of learning that contributes to the growth in the professional knowledge and professional competence of real estate appraisers.

11.3(2) Continuing education programs as listed in the AQB criteria are accepted by the board, as well as the following appraisal topics, which the board has determined are integrally related to appraisal topics in the state:

- a. Agriculture production and economics;
- b. Agronomy/soil; and
- c. Real estate appraisal technology (e.g., drones).

11.3(3) The following programs will not be acceptable:

- a. Sales promotion meetings held in conjunction with the appraiser's general business;
- b. Time devoted to breakfast, lunch, or dinner;

c. A program certified by the use of a challenge examination. The number of hours will be completed to receive credit hours; and

d. Programs that do not provide at least two credit hours.

11.3(4) Continuing education credit will be granted only for whole hours, with a minimum of 50 minutes constituting one hour.

11.3(5) Continuing education credit may be approved for university or college courses, when an official transcript is provided, in qualifying topics according to the following formula: Each semester hour of credit will equal 15 credit hours and each quarter hour of credit will equal 10 credit hours.

193F—11.4(272C,543D) Standards for provider and program approval. Providers and programs will satisfy the following minimum standards in order to be preapproved in accordance with the procedures established in this chapter and in order to maintain approved status.

11.4(1) The program will be taught or developed by individuals who have the education, training and experience to be considered experts in the subject matter of the program and competent in the use of teaching methods appropriate to the program.

11.4(2) Programs will be taught by instructors who have successfully completed an instructor development workshop within 24 months preceding board approval of the program. Certified USPAP instructors and instructors approved via a course delivery mechanism approval per the AQB criteria will be considered to have met this obligation.

11.4(3) In determining whether an instructor is qualified to teach a particular program, the board will consider whether the instructor has an ability to teach and an in-depth knowledge of the subject matter.

11.4(4) An instructor may demonstrate the ability to teach by meeting one or more of the following criteria:

- a. Hold a bachelor's degree or higher in education from an accredited college;
- b. Hold a current teaching credential or certificate in any real estate or real estate-related fields;
- c. Hold a certificate of completion in the area of instruction from an instructor institute, workshop or school that is sponsored by a member of the Appraisal Foundation;
- d. Hold a full-time current appointment to the faculty of an accredited college; and
- e. Other, as the board may determine.

11.4(5) An instructor may demonstrate in-depth knowledge of the program's subject matter by meeting one or more of the following criteria:

- a. Hold a bachelor's degree or higher from an accredited college with a major in a field of study directly related to the subject matter of the course the instructor proposes to teach, such as business, economics, accounting, real estate or finance;
- b. Hold a bachelor's degree or higher from an accredited college and have five years of appraisal experience related to the subject matter of the course the instructor proposes to teach;
- c. Hold a generally recognized professional real property appraisal designation or be a sponsor member of the Appraisal Foundation; and
- d. Other, as the board may determine.

11.4(6) Only AQB-certified USPAP instructors, listed on the website of the Appraisal Foundation may teach the National USPAP courses, or the AQB-approved equivalent.

11.4(7) Course content and materials will be accurate, consistent with currently accepted standards relating to the program's subject matter and updated no later than 30 days after the effective date of a change in standards, laws, or rules.

11.4(8) Programs will have an appropriate means of written evaluation by participants. Evaluations will include the relevance of the materials, effectiveness of presentation, content, facilities, and such additional features as are appropriate to the nature of the program.

11.4(9) No part of any course will be used to solicit memberships in organizations, recruit appraisers for affiliation with any organization or advertise the merits of any organization or sell any product, or service.

11.4(10) Providers will clearly inform prospective participants of the number of credit hours preapproved by the board for each program and all applicable policies concerning registration, payment, refunds, attendance obligations, and examination grading.

11.4(11) Procedures will be in place to monitor whether the person receiving credit hours is the person who attended or completed the program.

11.4(12) Providers will be accessible to students during normal business hours to answer questions and provide assistance as necessary.

11.4(13) Providers will comply with or demonstrate exemption from the provisions of Iowa Code sections 714.14 to 714.25.

11.4(14) Providers will designate a coordinator in charge of each program who will act as the board's contact on all compliance issues.

11.4(15) Programs will not offer more than eight credit hours in a single day.

11.4(16) Providers will not provide any information to the board, the public, or prospective students that is misleading in nature. For example, providers will not refer to themselves as a "college" or "university" unless qualified as such under Iowa law.

11.4(17) Providers will establish and maintain for a period of five years complete and detailed records on the programs successfully attended by each Iowa participant.

11.4(18) Providers will issue an individual certificate of attendance to each participant upon successful completion of the program.

11.4(19) Program providers and instructors are solely responsible for the accuracy of all program materials, instruction, and examinations. Board approval of a provider or program is not an assurance or warranty of accuracy and will not be explicitly or implicitly marketed or advertised as such.

11.4(20) Providers will apply for approval using the board's online system.

11.4(21) Providers will notify the board within 30 days of a change in the provider's primary contact, name, business address, or any other change that may affect the provider's tax identification number or bond obligations with the Iowa college aid commission.

193F—11.5(272C,543D) Acceptable distance education courses. Distance education involves geographical separation of student and instructor. A distance education course is acceptable to meet class hour obligations if it complies with the generic education criteria in the current AQB criteria.

193F—11.6(272C,543D) Applications for approval of programs. Applications for approval of programs will be submitted through the board's online system. All non-AQB courses are approved for 24 months, including the month of approval. Programs approved for distance education or by the AQB may be approved by the board. Board approval of a program will only be valid for the shortest period of time such a program is approved by either organization.

11.6(1) Approval will be obtained for each program separately. With the exception of hybrid courses, courses that are offered via more than one delivery method will require separate program approvals.

11.6(2) A nonrefundable fee of \$50 will be submitted for each program except for programs that are submitted for approval by the primary provider and that have been approved by the AQB through the AQB Course Approval Program (CAP).

11.6(3) All online applications and attachments will be submitted for approval at least 30 days prior to the first offering of each program or, if renewing, within 30 days of the course expiration date. The board will approve or deny each program, in whole or part, within 15 days of the date the board receives a fully completed application. Upon approval of an application for course offering, the board will specify the number of credit hours allowed. Payments for course program applications will be made within 30 calendar days of board approval or the application approval may be reversed.

11.6(4) Applications for non-AQB CAP courses will request information including, but not limited to, the following:

- a. Program description;
- b. Program purpose;

- c. Learning objectives that specify the level of knowledge or competency the student should demonstrate upon completing the program;
- d. Description of the instructional methods utilized to accomplish the learning objective;
- e. Identifying information for all guest speakers or instructors and such documentation as is necessary to verify compliance with the instructor qualifications described in this chapter;
- f. Copies of all instructor and student program materials or, in the case of a one-time course offering, a statement that attests all instructor and student materials will be submitted to the board within ten calendar days of the course offering;
- g. Copies of all examinations and a description of all grading procedures;
- h. A description of the diagnostic assessment method(s) used when examinations are not given;
- i. Such information as needed to verify compliance with board rules;
- j. The name, address, telephone number, and email address for the program's coordinator; and
- k. Such other information as the board deems reasonably needed for informed decision making.

11.6(5) Application forms for courses that are AQB CAP-approved will include information as deemed necessary for accurate documentation but may be more limited than information set forth in this chapter.

11.6(6) The board will assign each provider and program a number. This number will be placed on all correspondence with the board, all subsequent applications by the same provider, and all certificates of attendance issued to participants.

193F—11.7(272C,543D) Waiver of application fees. Application fees may be waived for approved programs sponsored by a governmental entity when the program is offered at no cost or at a nominal cost to participants. A request for waiver of application fees should be made by the provider or certificate holder at the time the application is filed with the board.

193F—11.8(272C,543D) Authority to approve education. The executive officer has the authority to approve or deny education applications subject to the applicant's right to a hearing as provided for in this chapter.

193F—11.9(272C,543D) Appraiser request for preapproval of continuing education programs. An appraiser seeking credit for attendance and participation in a program that is to be conducted by a provider not accredited or otherwise approved by the board will apply for approval to the board at least 15 days in advance of the commencement of the activity. The board will approve or deny the application in writing. The online application for prior approval of a continuing education activity will include the following fee and information:

1. Application fee of \$25;
2. School, firm, organization or person conducting the program;
3. Location of the program;
4. Title and hour-by-hour outline of the program, course or activity;
5. Credit hours requested for approval;
6. Date of program; and
7. Principal instructor(s).

193F—11.10(272C,543D) Appraiser request for postapproval of continuing education program. An appraiser seeking credit for attendance and participation in a program that was not conducted by an approved provider or approved by the licensing authority in another state or otherwise approved by the board may submit a request for credit for the program. Within 15 days after receipt of the request, the board will advise the requester in writing whether the program is approved and the number of hours allowed. Appraisers not complying with the obligation of this rule may be denied credit for the program. Application for postapproval of a continuing education program will include the following fee and information:

1. Application fee of \$25;

2. School, firm, organization or person conducting the program;
3. Location of the program;
4. Title of program and description of program;
5. Credit hours requested for approval;
6. Date(s) of program;
7. Student and instructor materials;
8. Principal instructor(s); and
9. Verification of attendance.

193F—11.11(272C,543D) Review of provider or program. The board on its own motion or upon receipt of a complaint or negative evaluation may monitor or review any approved program or provider and may withdraw approval of the provider or program and disallow all or any part of the approved hours granted to the provider based on evidence that the obligations of this chapter have not been met. The provider, as a condition of approval, agrees to allow the board or its authorized representatives to monitor ongoing compliance with board rules through means including, but not limited to, unannounced attendance at programs.

193F—11.12(272C,543D) Hearings. Any person aggrieved by board action related to this chapter may request a contested case hearing before the board.

These rules are intended to implement Iowa Code sections 543D.5, 543D.9 and 543D.16 and chapter 272C.

Purpose and Summary

Proposed Chapter 12 establishes the fees assessed for the licensing of real estate appraisers in the state of Iowa. It also includes a provision for the Appraisal Subcommittee Federal Financial Institutions Examination Council fees that are collected by the State of Iowa on licensees’ behalf. The benefit of the rulemaking is being upfront with prospective appraisers and the general public about the fees associated with each application type.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees are responsible for costs associated with application and national registry fees. Costs are not generally incurred by the public.
 - Classes of persons that will benefit from the proposed rulemaking:
The public and professionals benefit from the proposed rulemaking. Individuals who wish to engage in federally regulated transaction appraisals must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA).
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:

Due to the nature of this chapter, there is no impact to the State. The Real Estate Appraiser Examining Board serves as a pass-through for the federally defined fees.

- Qualitative description of impact:

By establishing minimum requirements, the Real Estate Appraiser Examining Board aims to ensure safety for the licensee and consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage Board activities, which includes managing applications for initial licenses, temporary practice permits, renewals, and reinstatement. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

The effect will stay the same; no changes are foreseen. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The proposed repromulgated rules do not make changes to the fees. The proposed revisions are meant to simplify and organize the chapter on fees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little to no cost implication.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative method was considered by the agency as the regulations are set by the Appraisal Foundation (TAF) in accordance with federal law. Iowa did reduce fees in 2021 for licensure, renewal, and temporary practice permits, thus making Iowa one of the least costly states for licensure.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Due to the recent reduction of fees, the Board felt no alternative method was warranted.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing requirements for appraisers. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 12 and adopt the following **new** chapter in lieu thereof:

CHAPTER 12
FEES

193F—12.1(543D) Fees.

| | |
|---|-----------------------------------|
| Initial examination application fee | \$150 |
| Biennial registration fee for active status (initial, reciprocal, renewal): | |
| Associate/Certified real property appraiser > one year | \$200 |
| Associate/Certified real property appraiser < one year | \$100 |
| Biennial registration fee for inactive status (initial, reciprocal, renewal): | |
| Certified real property appraiser | \$100 |
| Associate real property appraiser | \$50 |
| Temporary practice permit fee (each request) | \$100 |
| Reinstatement of a lapsed or retired license (lapsed or retired to active status) | \$150 (plus the registration fee) |
| Reactivation of an inactive or retired license (inactive or retired to active status) | \$50 (plus the registration fee) |
| Formal wall certificate | \$25 |
| Work product review fees: | |
| Original submission, certified residential | \$300 |
| Original submission, certified general | \$650 |
| Additional residential reports as requested by the board | \$150 per report |
| Additional nonresidential reports as requested by the board | \$250 per report |
| Voluntary submission of residential reports for review | \$150 per report |
| Voluntary submission of nonresidential reports for review | \$250 per report |
| Course application fee (non-AQB-approved courses and secondary providers) | \$50 |
| Pre-/post-course application fee | \$25 |
| Background check | \$51 |
| Add supervisory appraiser | \$25 |

| | |
|---|-----------------------|
| Add course instructor | \$10 |
| Waiver to administrative rules | \$25 |
| Late renewal of associate or certified | \$50 |
| ASC National Registry fee > one year, separate from registration fee (collected by the board for FFIEC) | \$80 |
| ASC National Registry fee < one year, separate from registration fee (collected by the board for FFIEC) | \$40 |
| Examination fee (and reexamination fee) (to be paid to the examination provider) | Current provider rate |

193F—12.2(543D) Prorating of registration fees. An applicant applying for initial or reciprocal registration or certification within 12 months from the applicant's renewal date, pursuant to rule 193F—9.1(543D), will pay half the fee. An applicant applying for initial or reciprocal registration or certification more than 12 months from the applicant's renewal date will pay the full registration fee. An applicant applying to reinstate or reactivate a lapsed registration or certification within 12 months from the applicant's renewal date, pursuant to rule 193F—9.1(543D), will pay half the renewal fee plus the applicable reactivation or reinstatement fee. An applicant applying to reinstate or reactivate a lapsed registration or certification more than 12 months from the applicant's renewal date will pay the full renewal fee plus the applicable reactivation or reinstatement fee.

These rules are intended to implement Iowa Code section 543D.6.

State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 16 establishes the enforcement proceedings against nonlicensees. The benefit of this rulemaking is protecting clients and residents in Iowa that require a certified appraiser for federally regulated transactions as required by federal statute.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Persons practicing real estate appraisal without a license will bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:

Establishing minimum licensing and permit requirements ensures that licensees are competent to practice. Individuals who wish to engage in federally regulated transaction appraisals must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA). Thus, having the enforcement proceedings against a nonlicensee is essential.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are no costs to the public. The expenses of the Board, per diems, and travel reimbursement are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. In the past year, the Board has issued a fine to one individual practicing without a license. This fine is set at

\$1,000 per incident. Due to the fact that only federally regulated transactions are required to be licensed with the state, a number of complaints are not within the Board's jurisdiction since they are not required to be licensed.

- Qualitative description of impact:

Establishing enforcement proceedings against nonlicensees aims to ensure safety for those who hold a professional license and the consumer. In addition, these rules are required by FIRREA.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a nonlicensee violates Uniform Standards of Professional Appraisal Practice (USPAP) or regulations. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this board at approximately 0.75 full-time equivalent (FTE) position. The cost of performing required Standard 3/4 reviews on appraisal reports are \$425 per residential report and \$900 minimum per general report. The average number of reviews performed per complaint is two.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by offenders or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa follows the standards set by FIRREA. Inaction would mean noncompliance with federal law. Ultimately, licensees may leave the state to provide their services in a state in compliance with federal law.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa follows the standards set by FIRREA. The Appraisal Foundation (TAF) sets the congressionally authorized standards and qualifications for this profession.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Iowa currently follows the standards set by TAF. TAF sets the congressionally authorized standards and qualifications for this profession. The Board has not identified any other alternatives to these disciplinary rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board follows the standards set by TAF to ensure compliance with federal law. The Board did not make any recommendations that would lead to noncompliance with federal law.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing disciplinary actions against appraisers. Additionally, these proposed repromulgated rules uphold federal requirements. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 16 and adopt the following new chapter in lieu thereof:

CHAPTER 16
ENFORCEMENT PROCEEDINGS AGAINST NONLICENSEES

193F—16.1(543D) Civil penalties against nonlicensees. The board may impose civil penalties by order against a person who is not licensed by the board based on the unlawful practices specified in Iowa Code section 543D.21.

193F—16.2(543D) Grounds for imposing civil penalties. Grounds for issuing an order requiring compliance with Iowa Code chapter 543D or imposing civil penalties up to \$1,000 for each violation include:

16.2(1) Violating Iowa Code section 543D.15(1) “a.”

16.2(2) Failing to obtain a temporary practice permit under Iowa Code section 543D.11(2);

16.2(3) Falsely impersonating a licensee by using the certification or registration title, number or signature of a licensee, or by using the nonexistent certification or registration title, number or signature of a fictitious holder of a board-issued license.

16.2(4) Violating Iowa Code section 543D.21(4) “e.”

16.2(5) Violating Iowa Code section 543D.20(1) “a,” “b,” “c,” or “d.”

16.2(6) Violating Iowa Code section 543D.18A.

193F—16.3(543D) Notice of intent to impose civil penalties.

16.3(1) The notice of the board's intent to issue an order to compel compliance with Iowa Code section 543D.21 and to impose a civil penalty will be served upon the nonlicensee by certified mail, return receipt requested, or by personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the nonlicensee may accept service personally or through authorized counsel.

16.3(2) The notice will include the following:

- a. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.
- b. Reference to the particular sections of the statutes and rules involved.
- c. A short, plain statement of the alleged unlawful practices.

- d.* The dollar amount of the proposed civil penalty and the nature of the intended order to compel compliance with Iowa Code section 543D.21.
- e.* Notice of the nonlicensee's right to a hearing and the time frame in which hearing has to be requested.
- f.* The address to which a written request for hearing has to be made.

193F—16.4(543D) Request for hearing.

16.4(1) Nonlicensees have to request a hearing within 30 days of the date the notice is received or service is accepted. A request for hearing has to be in writing and is deemed made on the date of the non-metered United States Postal Service postmark or the date of personal delivery to the board office.

16.4(2) If a request for hearing is not timely made, as described in the notice, the board chairperson or the chairperson's designee may issue an order imposing a civil penalty and requiring compliance with Iowa Code chapter 543D. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose a civil penalty.

16.4(3) If a request for hearing is timely made, the board will issue a notice of hearing and conduct a hearing in the same manner as applicable to disciplinary cases against licensees. Hearings involving nonlicensees are open to the public.

16.4(4) A nonlicensee may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty and requiring compliance with Iowa Code chapter 543D at any stage of the proceeding upon mutual consent of the board.

16.4(5) The notice of intent to issue an order and the order are public records available for inspection and copying in accordance with Iowa Code chapter 22.

These rules are intended to implement Iowa Code chapters 17A and 543D.

Notice of Intended Action to be published: Iowa Administrative Code 193F—Chapter 26
“Licensure of Persons Licensed in Other Jurisdictions”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543D.5
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:20 to 8:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Real Estate Appraiser Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kimberly Gleason, Board Administrator
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.8145
Email: kimberly.gleason@dia.iowa.gov

Purpose and Summary

Proposed Chapter 26 establishes the pathway for those seeking real estate appraiser certification/permits in Iowa with veteran reciprocity, military service, and verification of licensure in another jurisdiction. The benefit of the rulemaking is giving individuals an avenue to provide services to Iowans. The provisions of this chapter related to military service and veteran reciprocity are proposed to be removed because they are now in the general chapters of the Board’s rules.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for costs associated with obtaining licensure. An applicant may incur costs to obtain verification from all states in which the applicant is licensed; this cost should be minimal since states utilize a national registry. The fee for licensure of a certified appraiser is \$280 biennially and may require a background check, which costs \$51.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that licensees are competent to practice. In addition, this licensure method is not likely to be used by prospective licensees because the standards are nearly equivalent in all jurisdictions. Individuals who wish to engage in federally regulated transaction appraisals must hold an active license in the state in which they are performing work as required by Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA).

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

For licensure the applicant is required to be licensed and in good standing in another jurisdiction. The educational and qualifying education requirements set by the Appraisal Qualification Board (AQB) would have been completed prior to licensure in the state of Iowa. Those licensed by verification will be required to complete the continuing education requirement set by the AQB; the average cost of the 28 hours of continuing education was found to be around \$535 per renewal. Licensing and renewal fees are \$280.

- Qualitative description of impact:

Establishing minimum requirements for licensure by verification aims to ensure safety for the licensee and consumer. The requirements set by FIRREA make this licensure option nearly equal to license by reciprocity.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage Board activities, which includes managing applications for initial licenses, temporary practice permits, renewals, and reinstatements. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues. This Board has not had a licensure by verification to date but is prepared to issue within federal and state guidelines should an applicant utilize this pathway.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa currently follows the minimum standards for licensure and temporary practice permits set by FIRREA.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa currently follows the minimum standards for licensure set by the Appraisal Foundation (TAF). TAF sets the congressionally authorized standards and qualifications for this profession.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No other alternate method was considered by the agency because the regulations are set by TAF in accordance with federal law. The Board considered merging this chapter into the reciprocity chapter but felt this could cause confusion.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board believes all current requirements assure public safety and ensure minimum competency of care is provided to Iowans. In addition, the Board follows the minimum standards set by the AQB criteria.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is meant to ensure public safety in terms of licensing requirements for appraisers. The rulemaking allows for an alternative pathway to licensure, making it easier for individuals who already are licensed in other states to practice in Iowa. While some appraisers likely are running a small business of their own, some also work for large firms. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193F—Chapter 26 and adopt the following **new** chapter in lieu thereof:

CHAPTER 26

LICENSURE OF PERSONS LICENSED IN OTHER JURISDICTIONS

193F—26.1(272C) Definitions.

“*Issuing jurisdiction*” means the duly constituted authority in another state that has issued a professional license, certificate, or registration to a person.

“*License*” or “*licensure*” means any license that may be granted by the board.

193F—26.2(272C) Licensure of persons licensed in other jurisdictions.

26.2(1) An individual who establishes residency in this state or who is married to an active duty member of the military forces of the United States and who is accompanying the member on an official permanent change of station to a military installation located in this state may apply for licensure under this rule on forms provided by the board. A certification or registration will be issued if all of the following conditions are met:

a. The person is currently licensed, certified, or registered by at least one other issuing jurisdiction in the profession or occupation applied for with a substantially similar scope of practice and is in good standing in all issuing jurisdictions in which the person holds a license, certificate, or registration. A license, certificate, or registration issued by another jurisdiction that is classified as a licensed residential real property credential or with a scope of practice of a licensed residential real property appraiser, as defined by the AQB criteria, other applicable federal law, rule, or policy, will not be considered a profession or occupation with a substantially similar scope of practice as it relates to a certification or registration as an associate real property appraiser, certified residential real property appraiser, or a certified general real property appraiser.

b. The person has been licensed, certified, or registered by the other issuing jurisdiction forming the basis of the application.

c. When the person was licensed by the other issuing jurisdiction forming the basis of the application, the issuing jurisdiction imposed minimum educational and experience obligations, and the

issuing jurisdiction verifies that the person met those obligations in order to be licensed in that issuing jurisdiction. Generally, given federal mandates, the minimum educational and experience obligations to become certified as a real estate appraiser are substantially the same nationwide within the applicable classification and scope of practice.

d. The person previously passed an AQB-approved examination by the other issuing jurisdiction for licensure, certification, or registration.

e. The person has not had a license, certificate, or registration revoked and has not voluntarily surrendered a license, certificate, or registration in any other issuing jurisdiction or country while under investigation for unprofessional conduct.

f. The person has not had discipline imposed by any other regulating entity in this state or another issuing jurisdiction or country. If another jurisdiction has taken disciplinary action against the person, the appropriate licensing board shall determine if the cause for the action was corrected and the matter resolved. If the licensing board determines that the matter has not been resolved by the jurisdiction imposing discipline, the licensing board will not issue or deny a license, certificate, or registration to the person until the matter is resolved.

g. The person does not have a complaint, allegation, or investigation pending before any regulating entity in another issuing jurisdiction or country that relates to unprofessional conduct. If the person has any complaints, allegations, or investigations pending, the appropriate licensing board shall not issue or deny a license, certificate, or registration to the person until the complaint, allegation, or investigation is resolved.

h. The person pays all applicable fees. The fees for applying for licensure under this rule will be the same as the fees for reciprocal licensure.

i. The person does not have a criminal history that would prevent the person from holding the license applied for in this state.

26.2(2) An individual applying for licensure under this rule will provide, as applicable, proof of current residency in the state of Iowa or proof of the military member's official permanent change of station to the state of Iowa.

a. Proof of residency may include, by way of example:

- (1) Residential mortgage, lease, or rental agreement;
- (2) Utility bill;
- (3) Bank statement;
- (4) Paycheck or pay stub;
- (5) Property tax statement;
- (6) A federal or state government document; or
- (7) Any other document that reliably confirms Iowa residency.

b. Proof of permanent change of station to the state of Iowa includes documentation issued by the appropriate branch of the military requiring a permanent change of station or otherwise indicating or demonstrating a permanent change of station has occurred.

26.2(3) In order to be considered a sufficient application, an application for licensure under this rule must include all appropriate information as required by this rule and, if applicable, the submission of fingerprints and an appropriate authorization of release as may be necessary to facilitate the board's completion of a criminal history check and any corresponding fee.

26.2(4) A person issued a license under this rule is subject to the jurisdiction of the board.

26.2(5) An applicant who is aggrieved by the board's decision to deny an application for a license under this rule may request a contested case hearing. A request for such a contested case hearing will be granted only if the board receives the request within 30 days of issuance of the board's decision.

These rules are intended to implement Iowa Code chapters 543D and 272C and 2019 Iowa Acts, House File 288.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 1
“Administration”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

These proposed rules provide Iowans and licensees and their employers with relevant information on the practice of real estate, requirements prior to licensure, requirements after licensure and making sure licensees are held to a higher standard to protect the public from harm. This proposed chapter articulates practice standards and provides a scope of practice for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
This proposed chapter provides administrative background for the Real Estate Commission. No costs are imposed by this chapter.
 - Classes of persons that will benefit from the proposed rulemaking:
Licensees, future licensees, and the general public will benefit.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
No economic impact is imposed by this rulemaking.
 - Qualitative description of impact:
The proposed chapter makes professional licensing more accessible and provides a larger pool of licensees for Iowans to choose from when seeking services.
3. Costs to the State:
 - Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which includes managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits include less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost from this proposed rulemaking. The Commission is taking the less intrusive route by removing the restrictive language from the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

None in this proposed chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no alternative methods that were rejected by the Commission for this proposed chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated from this proposed chapter.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 1 and adopt the following **new** chapter in lieu thereof:

CHAPTER 1 ADMINISTRATION

193E—1.1(543B) Mission of the commission. The mission of the Iowa real estate commission is to protect the public through the examination, licensing, and regulation of real estate brokers, salespersons, and firms pursuant to Iowa Code chapter 543B, Real Estate Brokers and Salespersons; to administer Iowa

Code chapter 543C, Sales of Subdivided Land Outside of Iowa; and to administer Iowa Code chapter 557A, Time-Shares.

The commission is a policy-making body with authority to promulgate rules for the regulation of the real estate industry consistent with all applicable statutes. Administrative support services are furnished by the professional licensing and regulation division of the department of inspections, appeals, and licensing. The commission or duly authorized representative may inspect subdivided land outside of Iowa pursuant to Iowa Code section 543C.4.

193E—1.2(543B) Correspondence and communications. Correspondence and communications with the commission should be addressed or directed to the commission office.

193E—1.3(543B) Meetings of the commission. Meetings of the commission are held at times scheduled by the commission in the offices of the commission or at a place designated by the commission. Special meetings may be called by the chairperson or executive officer of the commission, who sets the time and place of the meeting.

193E—1.4(543B) Custodian of records, filings, and requests for public information. Unless otherwise specified by the rules of the department of inspections, appeals, and licensing or the professional licensing and regulation division, the commission is the principal custodian of its own agency orders, statements of law or policy issued by the commission, legal documents, and other public documents on file with the commission.

1.4(1) Any person may examine public records promulgated or maintained by the commission at its office during regular business hours.

1.4(2) Records, documents and other information may be gathered, stored, and available in electronic format. Information, various forms, documents, and the license law and rules may be reviewed or obtained at any time by the public from the commission's website.

1.4(3) Deadlines. Unless the context dictates otherwise, any deadline for filing a document that falls on a Saturday, Sunday, or official state holiday will be extended to the next working day.

193E—1.5(543B) Investigation and subpoena. Commission rules regarding investigations and investigatory subpoenas may be found in 193E—Chapter 18 and in the uniform rules for the professional licensing and regulation division at 193—Chapter 6.

193E—1.6(543B) Impaired licensee review committees. Commission rules governing impaired licensee review committees may be found in the uniform rules for the professional licensing and regulation division at 193—Chapter 12.

These rules are intended to implement Iowa Code chapters 17A, 252J, 261, 272C and 543B.

Regulatory Analysis

Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter provides Iowans and licensees and their employers with definitions relevant to the practice of real estate. These proposed rules articulate practice standards and provide a scope of practice for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

The proposed chapter provides administrative background for the Real Estate Commission (Commission). No costs are imposed by this chapter. There are costs associated with standards of practice since there is often time, effort and money associated with compliance.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees, future licensees, and the general public. The general public and licensees benefit from this proposed rulemaking. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

No economic impact is imposed by this proposed rule. The Commission believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important service to Iowans. If this profession were not regulated, it could mean that lower-skilled individuals would provide this service to Iowans, which would be of concern to the Commission.

- Qualitative description of impact:

Establishing practice standards, including definitions, ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean lower-skilled individuals providing services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which includes managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

There is no anticipated impact on changes from this proposed chapter on state revenues.

Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefit is less restrictive language and consolidation of chapters, which simplifies rules and provides better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

None in this proposed chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no alternative methods that were rejected by the Commission for this proposed chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rule relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The rule is meant to ensure public safety in terms of practice standards.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 2 and adopt the following **new** chapter in lieu thereof:

CHAPTER 2
DEFINITIONS

193E—2.1(543B) Definitions.

“*Additional license*” means any officer or partner license(s) issued based upon and dependent or contingent upon the primary or main officer or partner license, but assigned to a different corporation or partnership.

“*Advance fees*” means any fees charged for services to be paid in advance of the rendering of such services including, without limitation, any fees charged for listing, advertising, or offering for sale or lease any real property, but excluding any fees paid solely for advertisement in a newspaper of general circulation.

“*Affiliated licensee*” means a broker associate or salesperson, as defined in Iowa Code sections 543B.5(5) and 543B.5(19), who is under the supervision of a broker.

“*Applicant*” means a person who has applied for or intends to apply for a real estate salesperson or real estate broker license.

“*Application form*” means the form furnished by the commission to be completed and submitted to apply for an original license as a real estate salesperson, real estate broker, real estate firm or trade name.

“*Branch office license*” means the same as “duplicate license” as used in Iowa Code section 543B.31.

“*Broker*” means any person holding an Iowa real estate broker license as defined in Iowa Code section 543B.3.

“*Brokerage agreement*” means the same as defined in Iowa Code section 543B.5(7).

“*Broker associate*” means the same as defined in Iowa Code section 543B.5(5).

“*Buyer*” includes a purchaser, tenant, vendee, lessee, party to an exchange, or grantee of an option. Selected rules in these chapters will at times refer separately to “buyers” and “tenants” to clarify licensees’ duties and obligations.

“*Client*” means the same as defined in Iowa Code section 543B.5(9).

“*Commission*” means the real estate commission.

“*Common source information companies*” means any individual, corporation, limited liability company, business trust, estate, trust, partnership, association, or any other legal entity (except any government or governmental subdivision or agency, or any officer or employee thereof acting in such individual’s official capacity) that is a source, compiler, or supplier of information regarding real estate for sale or lease and other data and includes, but is not limited to, multiple listing services.

“*Completed application*” means an original or renewal application timely received with all necessary information, documents, signatures, fees or penalties.

“*Confidential information*” means information made confidential by statute, regulation, or express instructions from the client. Confidential information does not include “material adverse facts” as defined in Iowa Code section 543B.5(14). Confidential information includes, but is not limited to, the following:

1. Information concerning the client that, if disclosed to the other party, could place the client at a disadvantage when bargaining;
2. That the seller or landlord is willing to accept less than the asking price or lease price for the property;
3. That the buyer or tenant is willing to pay more than the asking price or lease price for the property;
4. The motivating factors for the party selling or leasing the property;
5. The motivating factors for the party buying or leasing the property;

6. That the seller or landlord will agree to sale, lease, or financing terms other than those offered;
7. That the buyer or tenant will agree to sale, lease, or financing terms other than those offered;
8. The seller's or landlord's real estate needs;
9. The buyer's or tenant's real estate needs;
10. The seller's or landlord's financial information, except that the seller's ability to sell and the landlord's ability to lease are considered a material fact;
11. The buyer's or tenant's financial qualifications, except that the buyer's ability to buy and the tenant's ability to lease are considered a material fact.

Confidential information is not disclosable unless one of the following applies:

1. The client to whom the information pertains provides informed written consent to disclose the information;
2. The disclosure is mandated by statute or regulation, or failure to disclose the information would constitute fraudulent representation;
3. The information is made public or becomes public by the words or conduct of the client to whom the information pertains or from a source other than the licensee; or
4. The disclosure is necessary to defend the licensee against an accusation of wrongful conduct in an actual or threatened judicial proceeding, an administrative proceeding before the commission, or in a proceeding before a professional committee.

"Consumer" means a person seeking or receiving real estate brokerage services.

"Contract between the buyer and seller" means an offer to purchase, a sales contract, an option, a lease-purchase option, an offer to lease, or a lease.

"Conviction" means the same as defined in Iowa Code section 543B.15(3).

"Customer" means a consumer of real estate services in connection with a real estate transaction who is not being represented by the licensee, but for whom the licensee may perform ministerial acts. A customer may be a client of another broker, may have yet to decide whether or not to be represented by any broker, or may have chosen not to be represented by any broker.

"Designated broker" means the broker or broker associate designated as the person in charge of and responsible for supervision of a main office or branch office as defined in Iowa Code section 543B.5(11).

"Dual agent" means a licensee who, with the written informed consent of all the parties to a contemplated real estate transaction, has entered into a brokerage agreement with and therefore represents the seller and buyer or both the landlord and tenant in the same in-house transaction.

"Duplicate license" or *"replacement license"* means a license reissued for the remainder of a license term, at the written request of the broker, to replace a lost or destroyed license.

"Electronic format" means a record generated, communicated, received, or stored by electronic means, and is in a format that has the continued capability to be retrieved and legibly printed upon request.

"Examination" means a licensure examination necessary before issuance of a license.

"Examinee" means a person who has registered or intends to register to take a licensure examination.

"Filed" means that documents or application and fees are considered filed with the commission on the date postmarked, not the date metered, or on the date personally delivered to the commission office.

"Firm" means a licensed partnership, association, limited liability company, or corporation.

"Licensee" means the same as defined in Iowa Code section 543B.5(13).

"Listing broker" means the real estate broker who obtains a listing of real estate or of an interest in a residential cooperative housing corporation.

"Ministerial acts" means those acts that a licensee may perform for a consumer that are informative in nature and do not rise to the level of specific assistance on behalf of a consumer. For purposes of these rules, ministerial acts include, but are not limited to, the following:

1. Responding to general telephone inquiries by consumers as to the availability and pricing of brokerage services;
2. Responding to general telephone inquiries from a consumer concerning the price, facts and features, or location of property;

3. Attending an open house and responding to general questions from a consumer about the facts and features of the property;
4. Setting an appointment to view property;
5. Responding to general questions of consumers walking into a licensee's office concerning brokerage services offered or the facts and features of particular properties;
6. Accompanying an appraiser, inspector, contractor, or similar third party on a visit to a property;
7. Describing the facts and features of a property or the property's condition in response to a consumer's inquiry;
8. Completing business or factual information for a consumer on an offer or contract to purchase on behalf of a client;
9. Showing a client through a property being sold by an owner; or
10. Referring a person to another broker or service provider.

"Moral turpitude" means an act of baseness, vileness, or depravity, in the private and social duties which a person owes to another person or to society in general, contrary to the accepted and customary rule of right and duty between person and person. It is conduct that is contrary to justice, honesty and good morals. Various factors may cause an offense which is generally not regarded as constituting moral turpitude to be regarded as such. A crime of moral turpitude as specified in Iowa Code section 543B.15(3) shall include without limitation forcible felonies as delineated in Iowa Code section 702.11.

"Original license" means the license of a salesperson, broker, or firm that covers the first term of licensure in Iowa. A license applied for and reissued after the final deadline for renewal of a license is also an original license.

"Primary license" or *"main license"* means the original license issued based upon examination, including any subsequent renewals or reinstatements of the license. Continuing education is necessary to renew to active status.

"Principal broker" means a broker who is either a real estate proprietor, a partner in a real estate partnership, or an officer in a real estate corporation.

"Renewal application form" means the form furnished by the commission to be completed and submitted to apply for renewal of a license as a real estate salesperson, real estate broker, real estate firm, branch office or trade name.

"Salesperson" means any person holding an Iowa real estate salesperson license as defined in Iowa Code section 543B.5(19).

"Seller" includes an owner, landlord, vendor, lessor, party to an exchange, or grantor of an option. Selected rules in these chapters will at times refer separately to "sellers" and "landlords" to clarify licensees' duties and obligations.

"Selling broker" means a real estate broker who finds and obtains a buyer in a transaction.

"Single agent" means a licensee who represents only one party in a real estate transaction. A single agent includes a broker and any affiliated broker associates or salespersons representing a party exclusively or nonexclusively, regardless of whether the single agent be all affiliated broker associates or salespersons, or only the identified broker associates or salespersons, or a group of identified broker associates or salespersons. A single agent may be one of the following:

1. "Seller's agent" which means a licensee who represents the seller in a real estate transaction;
 2. "Landlord's agent" which means a licensee who represents the landlord in a leasing transaction;
 3. "Buyer's agent" which means a licensee who represents the buyer in a real estate transaction;
- and
4. "Tenant's agent" which means a licensee who represents the tenant in a leasing transaction.

"Sole-proprietor broker" means an individual or single license broker who privately owns and manages a real estate company.

"Specific assistance" means any communication beyond casual conversation concerning the facts and features of a property which occurs prior to the point of discussing price range or any specific, financial qualifications of the buyer or tenant, or selling or buying motives or objectives of the seller or buyer, or tenant or landlord, or eliciting or accepting information involving a proposed or preliminary offer associated with a specific property, in which the person may unknowingly divulge any confidential

personal or financial information, which, if disclosed to the other party, could harm the party's bargaining position. For the purposes of these rules, "specific assistance" does not include preliminary conversations or "small talk" concerning location and property styles, or responses to general factual questions from a potential buyer or tenant concerning facts and features of properties which have been advertised for sale or lease.

"Status" means the condition of a real estate license. A license may be active, inactive, expired, suspended, revoked or canceled. "Inactive license" is defined in Iowa Code section 543B.5(12).

"Subagent" means a broker and a broker's affiliated licensees, engaged by another broker to act as an agent for a client. The subagent has the same obligations and responsibilities to the client as the primary broker representing the client.

"Third party" means a person or entity that is not a client, is not a party to the transaction, and has no agency relationship to a real estate brokerage.

"Timely" means done or occurring at a reasonable time under the circumstances.

"Timely received" means postmarked, not metered, not later than midnight on the last date of the deadline specified by the Iowa Code or commission rules.

"Transaction" means the sale, exchange, purchase, or rental of, or the granting or acceptance of, an option to sell, exchange, purchase, or rent an interest in real estate, but excluding the subleasing of an interest in a residential cooperative housing corporation, when the leases are for one year or less.

"Type" means the category to which a broker license or firm license is issued. A broker license may be issued as a sole-proprietor broker, broker officer, broker partner, or broker associate. A firm license may be issued as a corporation, partnership or association.

"Undisclosed dual agent" means a licensee representing two or more clients in the same transaction whose interests are adverse without the knowledge and informed consent of the clients.

This rule is intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 3
“Broker License”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter sets minimum standards for entry into the real estate profession. Iowa residents and licensees and employers will benefit from these rules since the rules articulate the processes by which individuals apply for licensure as a real estate licensee in the state of Iowa, as directed in statute, which includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualifications, and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

The cost of licensure is paid by applicants and licensees. Future and current licensees are responsible for the cost of their education, examinations, and background checks. Private industry offers educational courses, so the Real Estate Commission (Commission) is not privy to the exact costs, but research estimates the costs to be around \$500 to \$700 for initial licensure and \$500 for the cost of continuing education every three years to meet requirements. There are multiple entities that provide education. Examinations and background checks are a set price.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees, future licensees, and the general public. Establishing minimum licensing requirements ensures that licensees are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public during their practice.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

No new fees are being imposed, and no economic impact is imposed by the proposed revisions. The education for licensees is provided by private industries, including educational institutions, professional associations, and businesses. The Commission is not able to give exact costs.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time needed to manage Commission activities, which includes managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board or commission.

- Anticipated effect on state revenues:

Costs associated with implementing these proposed rules are paid by individual licensees or establishments, not the State. There is no anticipated impact from this rulemaking on state revenues.

Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards and commissions.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Commission believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Commission would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of real estate licensees in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking a less intrusive route by removing the restrictive language in the proposed chapter. The Commission could reduce the number of hours of required education to reduce the cost to licensees. This was considered, but it is not something the Commission wishes to do at this time.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with the Commission regarding the reduction of education to include continuing education hours; however, the Commission considered the amount of complaints, and the protection of the public outweighs reducing education hours.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Commission did propose less restrictive alternatives, such as reducing the number of continuing education hours. The Commission believes that eliminating education hours would increase the number of complaints and investigations the Commission would need to conduct. The Commission has not been able to analyze this correlation, so it is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Real estate licensees practice in a number of settings, including small businesses, self-employment, corporations and large agencies. The cost of prelicensing and continuing education could be greater for small business owners since they would be responsible for the entire cost. If individual licensees found a requirement to be overly burdensome, the licensee could utilize the established waiver process to request a waiver from the requirement.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 3 and adopt the following **new** chapter in lieu thereof:

CHAPTER 3
BROKER LICENSE

193E—3.1(543B) Broker licensure. An applicant is only eligible for a broker license by satisfying Iowa Code section 543B.15.

3.1(1) An applicant for a real estate broker's license who has been convicted of a disqualifying criminal offense in a court of competent jurisdiction in this state or in any other state, territory, or district of the United States, or in any foreign jurisdiction, may be denied a license by the commission on the grounds of the conviction as provided by Iowa Code section 272C.15 and rule 193—15.2(272C).

3.1(2) An applicant for a broker license may use active experience as a former Iowa salesperson or active salesperson experience in another state or jurisdiction, or a combination of both, to satisfy the experience requirement for a broker license under Iowa Code section 543B.15(7) only if the former Iowa salesperson or applicant from another state or jurisdiction was actively licensed for not less than 24 months and if the license on which the experience is based has not been expired for more than three years prior to the date the completed broker application with fee is filed with the commission.

193E—3.2(543B) License examination. Examinations for licensure as a real estate broker are conducted by the commission's authorized representative.

3.2(1) Testing service. The commission will negotiate an agreement with a testing service relating to examination development, test scheduling, examination sites, grade reporting and analysis. The commission approves the form, contract, and method of administration. The examination is conducted in accordance with approved procedures formulated by the testing agency. Applicants register and pay examination fees directly to the testing service.

3.2(2) Requests for waiver. The commission will consider each request for a waiver of commission rules or of the qualifications for licensure on an individual basis. The commission may require additional supporting information. If the applicant's experience or prelicense education is found to be less than equivalent to the statutory requirement, the commission may suggest methods of satisfying the

deficiency. If a waiver is granted, the applicable examination must be passed before the end of the sixth month following the date of the waiver.

3.2(3) Eligibility to sit for examination. An individual may only sit for the examination after meeting the qualifications set out in Iowa Code section 543B.15. An examinee is obligated to show one of the following at the examination site:

- a. Evidence that prelicense education has been completed within the last two years.
- b. The letter from the commission granting a waiver of prelicense education.
- c. A written authorization from the commission for individuals planning to qualify under rule 193E—5.3(543B) or 193E—5.12(543B).
- d. A written authorization from the commission for individuals planning to seek reinstatement of an expired license.

3.2(4) Failure to pass examination. An examinee who takes an examination and fails is eligible to apply to retake the examination at any time the examination is offered by filing a new registration form and paying the examination fee, unless the qualifying time period for the prelicense education or granted waiver has expired.

193E—3.3(543B) Application for broker license. An applicant who applies for a broker's license will submit to the commission a completed application, license fee, proof of required education, and test score reports not later than the last working day of the sixth calendar month following the qualifying real estate examination. As required by Iowa Code section 543B.15(9), the completed application must be received within 210 calendar days of the completion of the criminal history check.

3.3(1) Application contents. The applicant for licensure attests to the accuracy of the detailed personal, financial, and business information concerning the applicant included on the application.

3.3(2) License terms. Real estate broker, salesperson, trade name, branch office, and firm licenses are issued for a three-year term, counting the remaining portion of the year issued as a full year. Licenses expire on December 31 of the third year of the license term. Branch office licenses and trade name licenses are issued for the remaining portion of the license term of the license to which each is assigned.

3.3(3) Denial of application. An application may be denied on the grounds provided in Iowa Code chapter 543B and in rule 193—7.39(546,272C). The administrative processing of an application does not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

193E—3.4(543B) Broker continuing education.

3.4(1) To renew a license in active status, each broker or broker associate completes a minimum of 36 hours of approved programs, courses or activities. The continuing education is completed during the three calendar years of the license term and cannot be carried over to another license term.

3.4(2) Brokers and broker associates complete approved courses in the following subjects to renew to active status, except in accordance with 193E—Chapter 16.

| | |
|------------|----------|
| Law Update | 8 hours |
| Ethics | 4 hours |
| Electives | 24 hours |

3.4(3) A license may be renewed in inactive status without the completion of continuing education. Prior to reactivating a license which has been issued inactive due to the licensee's failure to submit evidence of continuing education, the licensee submits an application to reactivate to active status with evidence that all deficient continuing education hours have been completed. The maximum continuing education hours will not exceed the prescribed number of hours of one license renewal period and are completed during the three calendar years preceding activation of the license.

193E—3.5(17A,272C,543B) Renewing a broker license. To remain authorized to act as a real estate broker, a broker renews a real estate license before the expiration date of the license. Brokers who fail to renew a real estate license before expiration are not authorized to practice as real estate brokers in Iowa.

Termination of a broker's authority to practice real estate in Iowa automatically terminates the authority of all salespersons employed by or assigned to the broker.

3.5(1) *Application forms.* Applications for renewal of a broker's license may be found on the commission's website. Brokers renew electronically. While the commission generally mails reminders to brokers in the November preceding license expiration, the failure of the commission to mail a reminder does not excuse the broker from the requirement to renew prior to the expiration of the license.

3.5(2) *Qualifications for renewal.* The commission grants an application to renew a broker's license if:

a. The application is timely received by the commission by December 31, or within the 30-day grace period after expiration as provided by Iowa Code section 543B.28.

b. The application is accompanied by the regular renewal fee and, if received by the commission after midnight December 31 but prior to midnight January 30, is accompanied by a penalty of \$25.

c. The application is fully completed with all necessary information, including proper disclosure of completed continuing education and errors and omissions insurance.

d. The application does not include grounds to deny a license, such as the revocation of a license in another jurisdiction or a criminal conviction.

3.5(3) *Incomplete or untimely applications to renew.* Renewal applications received by the commission after midnight January 30 will be treated as applications to reinstate an expired license under rule 193E—3.6(272C,543B).

a. Applications to renew or reinstate a broker's license which are incomplete or which are not accompanied by the proper fee may be returned to the broker for additional information or fee.

b. Alternatively, the commission may retain the application, and notify the applicant that the application cannot be granted without further information or fee.

3.5(4) *Insufficient continuing education.* Renewal applications which do not report completion of required continuing education, but which are otherwise timely and sufficient and accompanied with the proper fee, are renewed in inactive status. In the event of a factual dispute regarding the broker's intent to renew in inactive status or a broker's completion of continuing education, the commission may deny the application and provide the applicant with an opportunity for hearing according to the procedures set forth in rule 193—7.39(546,272C).

3.5(5) *Denial of application to renew.* An application to renew may be denied on the grounds provided in Iowa Code chapter 543B and in rule 193—7.39(546,272C). The administrative processing of an application to renew does not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

3.5(6) *Renewal of inactive or suspended license.* An inactive or suspended license expires if not timely renewed. The status of a license does not affect the requirement to renew.

193E—3.6(272C,543B) Reinstatement of an expired broker license. A real estate broker who fails to renew or file a completed renewal application by midnight January 30 of the first year following expiration may reinstate the license within three years of expiration by submitting a complete and sufficient application accompanied by the regular renewal fee and an additional reinstatement fee of \$25 for each partial or full month following expiration. From the date of expiration to the date of reinstatement, the broker is not authorized to practice as a real estate broker in Iowa.

3.6(1) *Continuing education.* A broker either fully satisfied all continuing education or has retaken and passed the broker examination to reinstate an expired broker license.

3.6(2) *Starting over.* A broker who fails to reinstate an expired license by December 31 of the third year following expiration is treated as if the former broker had never been licensed in Iowa. Such a former broker starts over in the licensing process and must first qualify and apply for a salesperson license.

3.6(3) *Denial of application.* An application may be denied on the grounds provided in Iowa Code chapter 543B and in rule 193—7.39(546,272C). The administrative processing of an application does not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter sets minimum standards for entry into the real estate profession as a salesperson. Iowa residents and licensees and employers benefit from the rules since the rules articulate the processes by which individuals apply for licensure as a real estate licensee in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualifications, and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

The cost of licensure will impact the applicants and licensees. Future and current licensees are responsible for the cost of their education, exams, and background checks. Private industry offers these courses, so the Real Estate Commission is not privy to the exact costs, but research estimates the costs to be around \$500 to \$700 for initial licensure and \$500 for the cost of continuing education every three years to meet requirements. There are multiple entities that provide education. Costs of examinations and background checks are a set price.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees, future licensees, and the general public will benefit. Establishing minimum licensing requirements ensures that licensees are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public during their practice.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

No new fees are being imposed, and no economic impact is imposed by the rule changes. The education for licensees is provided by private industries, including educational institutions, professional associations, and businesses. The Commission is not able to give exact costs.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board or commission.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees or establishments, not the State. There is no anticipated impact from this proposed rulemaking on state revenues.

Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards and commissions.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Commission believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Commission would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of real estate licensees in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking a less intrusive route by removing the restrictive language in the chapter. The Commission could reduce the number of hours of required education to reduce the cost to licensees. Some surrounding states, such as Nebraska, require real estate licensees to renew their licenses every two years with 18 hours of continuing education units (CEUs). The Commission did not want to lower its CEU requirements because the Commission receives 300 to 400 complaints per year. The Commission believes that the education requirements are already low enough, and the Commission is not willing to reduce the number of hours at this time. If the Commission were to start seeing fewer complaints, it might be something the Commission would reconsider in the future. As for right now, the Commission believes the education requirements are an important factor in protecting the public.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with the Commission regarding the reduction of education requirements to include continuing education hours; however, the Commission considered the amount of complaints and determined that the protection of the public outweighs reducing education hours.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Commission did propose less restrictive alternatives, such as reducing the number of continuing education hours. The Commission believes that eliminating education hours would increase the number of complaints and investigations the Commission would need to conduct. The Commission has not been able to analyze this correlation, so it is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Real estate licensees practice in a number of settings, including small businesses, self-employment, corporations and large agencies. The cost of pre-licensing and continuing education could be greater for small business owners since they would be responsible for the entire cost. If an individual licensee found a requirement to be overly burdensome, the licensee could utilize the established waiver process to request a waiver from the requirement.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4 SALESPERSON LICENSE

193E—4.1(543B) General criteria for salesperson license. A person who is licensed under and employed by or otherwise associated with a real estate broker or firm is a “salesperson” as defined in Iowa Code section 543B.5(20) and rule 193E—2.1(543B).

4.1(1) An original application for a salesperson license cannot be issued to inactive status.

4.1(2) If the license is transferred, as provided in rule 193E—6.2(543B), the salesperson may work immediately for the new broker.

4.1(3) A salesperson is assigned to a licensed broker or firm and cannot conduct business independently.

4.1(4) Except as provided in Iowa Code section 543B.21, an applicant for a salesperson license must meet all qualifications under Iowa Code section 543B.15.

4.1(5) An applicant for a real estate salesperson license who has been convicted of a disqualifying criminal offense in a court of competent jurisdiction in this state or in any other state, jurisdiction, territory, or district of the United States, or in any foreign jurisdiction, may be denied a license by the commission on the grounds of the conviction as provided by Iowa Code section 272C.15 and rule 193—15.2(272C).

4.1(6) An applicant for a real estate salesperson license who has had a professional license of any kind revoked in this or any other jurisdiction may be denied a license by the commission on the grounds of the revocation.

4.1(7) Salesperson prelicense education requirements. As required by Iowa Code section 543B.15(8) and 193E—Chapter 16, the required course of study for the salesperson licensing examination consists of 60 live instruction or online learning hours of real estate principles and practices. To be eligible to take the examination, the 60 live education or online learning hours of real estate principles and practices are completed during the 12 months prior to taking the examination. The applicant will also provide evidence of successful completion of the following courses: 12 hours of Developing Professionalism and Ethical Practices, 12 hours of Buying Practices and 12 hours of Listing Practices. The prelicense education will expire after 12 months.

193E—4.2(543B) License examination. Examinations for licensure as a real estate salesperson are conducted by the commission or its authorized representative.

4.2(1) Testing service. The commission will negotiate an agreement with a testing service relating to examination development, test scheduling, examination sites, grade reporting and analysis. The commission will approve the form, contract, and method of administration. The examination is conducted in accordance with approved procedures formulated by the testing service. Applicants register and pay examination fees directly to the testing service.

4.2(2) Requests for waiver. The commission will consider each request for a waiver of commission rules or of the qualifications for licensure on an individual basis. The commission may require additional supporting information. If the applicant's prelicense education is found to be less than equivalent to the statutory requirement, the commission may suggest methods of satisfying the deficiency. If a waiver is granted, the applicable examination must be passed before the end of the sixth month following the date of the waiver.

4.2(3) Eligibility to sit for examination. An individual may only sit for the exam after meeting the qualifications set out in Iowa Code section 543B.15. An examinee is obligated to show one of the following at the examination site:

- a. Evidence that 60 live education or online learning hours of real estate principles and practices have been completed.
- b. A letter from the commission granting a waiver of prelicense education.
- c. A written authorization from the commission for individuals planning to qualify under rule 193E—5.3(543B) or 193E—5.12(543B).

4.2(4) Failure to pass examination. An examinee who takes an examination and fails is eligible to apply to retake the examination at any time the examination is offered by filing a new registration form and paying the examination fee, unless the qualifying time period for the prelicense education or waiver granted has expired.

193E—4.3(543B) Application for salesperson license. An applicant who passes a qualifying examination and applies for a license must file with the commission a completed application with license fee, proof of required education, and test score report not later than the last working day of the sixth calendar month following the qualifying real estate examination. As required by Iowa Code section 543B.15(9), the completed application must be received within 210 calendar days of the completion of the criminal history check.

4.3(1) Application contents. The application includes detailed personal, financial, and business information concerning the applicant, and the applicant for licensure attests to its accuracy.

4.3(2) License terms. A salesperson license is issued for a three-year term, counting the remaining portion of the year issued as a full year. Licenses expire on December 31 of the third year of the license term.

4.3(3) Denial of application. An application may be denied on the grounds provided in Iowa Code chapter 543B and in rule 193—7.39(546,272C). The administrative processing of an application does not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

193E—4.4(543B) Salesperson continuing education requirements.

4.4(1) As a requirement of license renewal in active status, each salesperson completes a minimum of 36 hours of approved programs, courses or activities during the three calendar years of the license term, and continuing education hours cannot be carried over to another license term.

4.4(2) Salespersons renewing licenses shall complete approved courses in the following subjects to renew to active status, except in accordance with 193E—Chapter 16.

| | |
|------------------|----------|
| Law Update | 8 hours |
| Ethics | 4 hours |
| Electives | 24 hours |

4.4(3) A salesperson license may be renewed to inactive status without completion of continuing education. Prior to reactivating a license which has been issued inactive due to failure to submit evidence of continuing education, the licensee must submit evidence that all deficient continuing education hours have been completed. The maximum continuing education hours shall not exceed the prescribed number of hours of one license renewal period and must be completed during the three calendar years preceding activation of the license.

193E—4.5(543B) Renewing a license. To remain authorized to act as a real estate salesperson, a salesperson must renew a real estate license before the expiration date of the license. Salespersons who fail to renew a real estate license before expiration are not authorized to practice as real estate salespersons in Iowa.

4.5(1) Application forms. Applications for renewal of a salesperson license may be found on the commission’s website. Salespersons will renew electronically. While the commission generally mails reminders to salespersons in the November preceding license expiration, the failure of the commission to mail a reminder does not excuse the salesperson from the requirement to timely renew.

4.5(2) Qualifications for renewal. The commission shall grant an application to renew a salesperson license if:

- a. The application is timely received by the commission by December 31, or within the 30-day grace period after expiration as provided by Iowa Code section 543B.28.
- b. The application is accompanied by the regular renewal fee and, if received by the commission after midnight December 31, but prior to midnight January 30, is accompanied by a penalty of \$25.
- c. The application is fully completed with all necessary information, including proper disclosure of required continuing education and errors and omissions insurance.
- d. The application fails to reveal grounds to deny a license, such as a criminal conviction or the revocation of a license in another jurisdiction.

4.5(3) Incomplete or untimely applications to renew. Renewal applications received by the commission, or postmarked, after midnight January 30 shall be treated as applications to reinstate an expired license under rule 193E—4.6(272C,543B).

- a. Applications to renew or reinstate a salesperson license which are incomplete or which are not accompanied by the proper fee may be returned to the salesperson for additional information or fee.
- b. Alternatively, the commission may retain the application and notify the applicant that the application cannot be granted without further information or fee.

4.5(4) Insufficient continuing education. Renewal applications which do not report completion of required continuing education, but which are otherwise timely and sufficient and accompanied with proper fee, shall be renewed in inactive status. In the event of a factual dispute regarding the salesperson’s intent to renew in inactive status or a salesperson’s compliance with continuing education requirements, the commission may deny the application and provide the applicant with an opportunity for hearing according to the procedures set forth in rules 193—7.39(546,272C) and 193E—18.13(543B).

4.5(5) Denial of application to renew. An application to renew may be denied on the grounds provided in Iowa Code chapter 543B and in rule 193—7.39(546,272C). The administrative processing of an application to renew shall not prevent the later initiation of a contested case to challenge a licensee’s qualifications for licensure.

4.5(6) *Renewal of inactive or suspended license.* An inactive or suspended license must be timely renewed or it shall expire. The status of a license does not affect the requirement to renew.

193E—4.6(272C,543B) Reinstatement of an expired salesperson license. A real estate salesperson who fails to renew or fails to file a complete renewal application form by midnight January 30 of the first year following expiration may reinstate the license within three years of expiration by submitting a complete and sufficient application accompanied by the regular renewal fee and an additional reinstatement fee of \$25 for each partial or full month following expiration. From the date of expiration to the date of reinstatement, the salesperson is not authorized to practice as a real estate salesperson in Iowa.

4.6(1) *Continuing education.* An application to reinstate an expired salesperson license must report that the salesperson either fully satisfied all required continuing education or has retaken and passed the salesperson examination. A salesperson holding an expired license who wishes to retake the salesperson examination must obtain written authorization from the commission to show at the examination site.

4.6(2) *Deposit of reinstatement fees.* Reinstatement fees collected under this rule shall be transmitted to the treasurer's office and credited to the education fund established in Iowa Code section 543B.54.

4.6(3) *Starting over.* A salesperson who fails to reinstate an expired license by December 31 of the third year following expiration shall be treated as if the former salesperson had never been licensed in Iowa. Such a former salesperson must start over in the licensing process and qualify and apply for a salesperson license.

4.6(4) *Denial of application.* An application may be denied on the grounds provided in Iowa Code chapter 543B and in rule 193—7.39(546,272C). The administrative processing of an application shall not prevent the later initiation of a contested case to challenge a licensee's qualifications for licensure.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter sets minimum standards for entry into the real estate profession from another jurisdiction. Iowa residents and licensees and employers benefit from the rules since the rules articulate the processes by which individuals apply for licensure as a real estate licensee in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualifications, and exam requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

The cost of licensure will impact the applicants and licensees. This type of licensure does not require initial education since a licensee is using the licensee’s license status in another state. The cost for this type of licensing includes set amounts for examinations and background checks, the costs over which the Real Estate Commission (Commission) has no control. Continuing education is required for certain states but not for full reciprocity states. The continuing education portion is a cost that is offered by private industry, so the Commission is not privy to the cost nor does it have a say in what a private industry can charge. However, multiple entities offer courses that are approved by the Commission, allowing for licensees to make their own choices.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees, future licensees, and the general public. The public and professionals will benefit from the proposed rulemaking. Establishing minimum licensing requirements for other jurisdictions to enter into the state of Iowa ensures that licensees are competent to practice in Iowa. Without having an established

threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

No new fees are being imposed, and no economic impact is imposed by the rule changes. However, private industries, including educational institutions, professional associations, and businesses, offer these courses and/or examinations, so the Commission is not privy to exact costs or changing costs at all times.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time needed to manage Commission activities, which includes managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing these proposed rules are paid by individual licensees or establishments, not the State. There is no anticipated impact from these rules on state revenues.

Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits include less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees. The Commission believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Commission would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking a less intrusive route by removing the restrictive language in the chapter. A review of surrounding states has shown that the Commission's licensing fees are comparable. The Commission did not consider reducing or raising the price of the actual license fee. The cost of the background check and examinations are set amounts set by other entities and not the Commission.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Commission has not identified a more cost-effective alternative to the licensure of real estate licensing. The Commission believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Commission would be concerned about

the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to licensure of real estate agents in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Commission believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Commission would be concerned about the public safety of Iowans in that scenario. In addition, the proposed chapter provides consistency related to the licensure of real estate agents in other states, which makes obtaining licensure in multiple states simpler for applicants.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rules are meant to ensure public safety in terms of licensing requirements.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 5 and adopt the following **new** chapter in lieu thereof:

CHAPTER 5 LICENSEES OF OTHER JURISDICTIONS AND RECIPROCITY

193E—5.1(543B) Licensees of other jurisdictions. As provided in Iowa Code section 543B.21, a nonresident of this state may be licensed as a real estate broker or a real estate salesperson upon complying with all the provisions and conditions of Iowa Code chapter 543B and commission rules relative to resident brokers or salespersons.

5.1(1) A person licensed in another state or jurisdiction making application in Iowa by reciprocity or as provided in rule 193E—5.3(543B) or 193E—5.12(543B) may qualify for a salesperson license in Iowa.

5.1(2) A person licensed as a broker or broker associate in another state or jurisdiction making application in Iowa by reciprocity or as provided in rule 193E—5.3(543B) or 193E—5.12(543B) may qualify for the same type of broker or broker associate license in Iowa. The person meets all criteria for an Iowa broker license as provided in rule 193E—3.1(543B). If the person does not meet the criteria, the person may qualify for a salesperson license if the person meets, at a minimum, the criteria for an Iowa salesperson license as provided in 193E—Chapter 4.

5.1(3) A person may only perform activities in Iowa as provided by Iowa Code chapter 543B after qualifying for and being issued a real estate license.

193E—5.2(543B) Nonresident application. Each applicant under rule 193E—5.3(543B) or under a reciprocal licensing agreement or memorandum applies on forms provided by the commission under Iowa Code section 543B.16. The application includes but is not limited to a certification of license from the state of original licensure containing all information required by Iowa Code section 543B.21 and an affidavit certifying that the applicant has reviewed and is familiar with and will be bound by the Iowa real estate license law and the rules of the commission.

193E—5.3(543B) License by examination. A nonresident applicant licensed as a real estate salesperson or broker in a state or jurisdiction which does not have a reciprocal licensing agreement or memorandum with Iowa, or an applicant who does not qualify for reciprocal licensing, may be issued a comparable Iowa license by passing the real estate examination under the following circumstances:

5.3(1) Broker. The person has been actively licensed as a broker or broker associate, the person meets all criteria for an Iowa broker's license as provided in rule 193E—3.1(543B), and the license has not been inactive or expired for more than six months immediately preceding the date of passage of the national portion and Iowa portion of the broker real estate examination.

5.3(2) Salesperson. The person has been actively licensed as a salesperson and the license has not been inactive or expired for more than six months immediately preceding the date of passage of the Iowa portion of the salesperson real estate examination.

5.3(3) The applicant submits a written request for authorization to sit for the appropriate examination.

5.3(4) The applicant submits certification of the applicant's current qualifying license from the licensing authority that issued the license.

193E—5.4(543B) Licensure by reciprocity. The commission may, as provided in Iowa Code section 543B.21, enter into specific written reciprocal licensing agreements or memorandums with other individual states or jurisdictions having similar licensing criteria and grant an Iowa license to licensees from those states or jurisdictions on the same basis as Iowa licensees are granted licenses by those states or jurisdictions.

5.4(1) The applicant is not a resident of Iowa.

5.4(2) A license issued pursuant to this rule is based upon a nonresident salesperson or broker license issued by examination.

5.4(3) A license issued pursuant to this rule is assigned to the same broker or firm as the nonresident license upon which it is based.

5.4(4) If an applicant establishes residency in Iowa, that person does not qualify for licensure by reciprocal licensing agreement or memorandum.

5.4(5) An Iowa license issued by reciprocity is based upon the nonresident license issued by examination in that other state or jurisdiction and is issued to the same broker and location as the nonresident license. The nonresident broker and firm, if applicable, must also be licensed in Iowa.

5.4(6) A reciprocity agreement or memorandum of understanding is only a method to apply for licensure and does not grant any exception to mandatory license laws of Iowa or the other state or jurisdiction.

5.4(7) An Iowa licensee wishing to obtain a license in any other state or jurisdiction should contact that state's or jurisdiction's licensing board for information and applications.

193E—5.5(543B) Renewal of a license issued by reciprocity. All renewal criteria for a real estate broker or salesperson license issued by examination apply to a license issued by reciprocity.

Continuing education reciprocity is specifically provided for in the reciprocal license agreement or memorandum, or in a separate reciprocal continuing education agreement or memorandum.

193E—5.6(543B) Reinstatement of a license issued by reciprocity. All reinstatement criteria for a real estate broker license or salesperson license issued by examination apply to a license issued by reciprocity.

5.6(1) Starting over. A broker or salesperson who fails to file a complete application to reinstate an expired license by midnight December 31 of the third year following expiration is treated as if the former broker or salesperson had never been licensed in Iowa.

5.6(2) A broker or salesperson must qualify for reciprocity in order to reinstate an expired reciprocal broker or salesperson license.

5.6(3) If the broker or salesperson has moved into Iowa and no longer qualifies for reciprocity, the expired license is reinstated in the same manner as a license issued by examination as provided in rule 193E—3.6(272C,543B) for brokers and rule 193E—4.6(272C,543B) for salespersons.

193E—5.7(543B) Nonresident real estate offices and licenses required. All nonresident applicants for licensure in Iowa shall qualify for and obtain a license pursuant to Iowa Code section 543B.2(2) and rule 193E—7.1(543B).

5.7(1) If the applicant is a broker associate or salesperson of a nonresident broker, the nonresident employing broker must have an Iowa broker license.

5.7(2) If the applicant is employed by or otherwise associated with a nonresident real estate firm as defined in rule 193E—2.1(543B), that firm must apply and qualify for an Iowa license.

a. No firm as defined in rule 193E—2.1(543B) may be granted an Iowa license unless at least one member or officer of the firm applies for and is granted an Iowa broker license.

b. Every member or officer of the firm and every employee or associated real estate licensee who acts as a real estate broker, broker associate, or salesperson in Iowa must apply for and be granted an Iowa license.

5.7(3) As provided by Iowa Code section 543B.22, a nonresident broker or firm is not obligated to maintain a definite place of business in Iowa if that broker or firm maintains an active place of business within the resident state or jurisdiction.

193E—5.8(543B) Actions against nonresidents. The application for a nonresident license is accompanied by an executed irrevocable written consent to suits and actions at law or in equity as provided in Iowa Code section 543B.23.

193E—5.9(543B) Nonresident continuing education. Nonresident licensees shall fully comply with all continuing education unless a separate education agreement is in place between Iowa and the nonresident state or jurisdiction.

193E—5.10(543B) License discipline reporting. If an Iowa licensee has a real estate license disciplined, suspended or revoked by any other state or jurisdiction, that disciplinary action will be considered prima facie evidence of violation of Iowa Code section 543B.29 or 543B.34 or both, and a hearing may be held to determine whether similar disciplinary action should be taken against the Iowa licensee. Failure to notify the commission within 15 days of an adverse action taken by another state or jurisdiction is cause for disciplinary action.

193E—5.11(543B) Licensure by verification. A person licensed in another state or jurisdiction may qualify for an Iowa salesperson or broker license through verification by making application as provided in rule 193—14.4(272C). In addition to all requirements provided by rule 193—14.4(272C), an applicant for a license through verification shall also submit to the commission proof of passing the Iowa portion of the salesperson or broker real estate examination.

5.11(1) *License terms.* Once the applicant submits an approved application and appropriate licensing fees, a license will be issued for a three-year term, counting the remaining portion of the year issued as a full year. Licenses expire on December 31 of the third year of the license term.

5.11(2) Reserved.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 6
“Termination and Transfer”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen

Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter provides basic information on the structure and function of the Real Estate Commission when it comes to a licensee terminating employment or transferring to another licensed firm. These rules benefit the public and licensees in knowing about the organization and administration of the Commission.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

This proposed chapter provides administrative background for licensees to terminate or transfer the licensee’s license. No costs are imposed by this chapter. The agency bears the cost of staff salaries to process the appropriate applications.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees, future licensees, and the general public will benefit. The chapter establishes the structure and operations of the Commission, making it easier for licensees and the general public to understand the processes.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

No economic impact is imposed by this chapter. Commission staff bears the expense of processing proper applications.

- Qualitative description of impact:

The Commission ensures minimum standards for licensing.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules.

Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

There is not a significant impact to state revenues by this proposed chapter. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The Commission does not charge a licensee to transfer or terminate the licensee's license. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods were discussed. This is a procedural chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no alternative methods mentioned since this is a procedural chapter on how to terminate or transfer a license.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of the changes included in this proposed chapter. Regardless of the size of the business, the rules in this chapter are followed the same way.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 6 and adopt the following new chapter in lieu thereof:

CHAPTER 6
TERMINATION AND TRANSFER

193E—6.1(543B) Terminating employment or association. When a licensee is discharged by the affiliated broker or the licensee terminates the employment or association with the affiliated broker, the licensee immediately ceases all activities that need an active real estate license until such time as a new affiliated broker makes written request for the license and the license is reassigned to the new affiliated broker.

6.1(1) When a broker discharges a salesperson or broker associate, the broker complies with all criteria of Iowa Code section 543B.33. The releasing broker makes a reasonable effort to ensure that an application to inactivate the licensee is submitted electronically to the commission within 72 hours of the discharge date.

6.1(2) The licensee may terminate the employment or association by providing written notice to the affiliated broker advising the effective date of the termination and requesting that the license be immediately returned to the commission. The affiliated broker cannot refuse to comply with the request. The releasing broker makes every reasonable effort to ensure that the commission receives the electronic application within 72 hours of the termination date.

193E—6.2(543B) Transfer of license and necessary transfer application. All requests for transfer of license are made on the necessary electronic application for license transfer available from the commission. The license transfer application is only used for transferring the license from the affiliated broker to a new affiliated broker. This transfer application is only to be used if the transferring licensee has obtained the necessary information from the new affiliating broker. The license transfer application cannot be used for licensees who are terminated or who quit prior to obtaining a new affiliating broker. The transfer application cannot be backdated to a new affiliated broker.

6.2(1) The license transfer process involves three steps, and each step needs to be correctly completed to qualify as a valid transfer. The steps are as follows:

a. The transferring licensee submits the electronic transfer application available from the commission.

b. Both the new affiliating broker and releasing broker electronically approve the transfer request within 48 hours of receiving notification from the commission of the transfer request.

c. The electronic transfer application is approved and issued by the commission.

6.2(2) Transfer effective date. The effective date of the transfer is the date of approval and issuance from the commission.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Purpose and Summary

This proposed chapter provides Iowans and licensees with information relevant to running the office and practice of a real estate firm. This chapter articulates practice standards and provides a scope of practice for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

This proposed chapter provides administrative background for rule guidelines for offices and management, along with licenses that are needed. This chapter also covers prohibited activities by nonlicensees. Many real estate brokers and firms employ nonlicensees for administrative work. This chapter is a guideline for nonlicensees. No costs are imposed by this chapter. There are costs associated with practice standards, since there is often time, effort and money associated with compliance.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees, future licensees, and the general public. The general public and licensees will benefit from this proposed rulemaking. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public is benefited by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Real Estate Commission (Commission) believes that the benefits achieved justify the costs because the proposed rules provide required guardrails for providing this important service to Iowans.

If this profession were not regulated, it could mean that lower-skilled individuals would provide this service to Iowans, which would be of concern to the Commission.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean lower-skilled individuals providing services. An error in a real estate transaction could lead to significant injury to a consumer.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage the full scope of Commission activities, which include oversight of practice standards, questions from licensees and the public, and administration of Commission meetings. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees. This chapter covers quite a bit of information; however, no fees are mentioned in this chapter.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
None as a result of this proposed chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no rejections of alternative methods by the Commission for this proposed chapter. There were no areas in this chapter the Commission felt would benefit from any other changes.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The rules are meant to ensure public safety in terms of practice standards.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 7 and adopt the following **new** chapter in lieu thereof:

CHAPTER 7
OFFICES AND MANAGEMENT

193E—7.1(543B) Real estate offices and licenses needed.

7.1(1) Every Iowa resident real estate firm or self-employed broker maintains an office as provided in Iowa Code section 543B.31.

A nonresident Iowa real estate broker or firm is not obligated to maintain a definite place of business within Iowa as provided in Iowa Code section 543B.22.

7.1(2) Sharing office space. It is acceptable for more than one broker to operate in an office at the same address if each broker maintains all records and trust accounts separate from all the others. Each broker operates under a business name, which clearly identifies the broker as an individual within the group of brokers.

7.1(3) Branch office. A licensed Iowa real estate firm or sole-proprietor broker maintaining a branch office displays a commission-issued branch office license in that location. The branch office license is issued in the name of the firm or sole-proprietor broker and includes the license number and the physical address of the branch office. The branch office license is issued at a reduced fee and has the same expiration date of the primary license.

7.1(4) When a real estate brokerage firm closes, the principal broker or a designated representative follows procedures as provided in 193E—Chapter 8.

7.1(5) A licensed officer of a corporation or partnership may be licensed as an officer or partner of more than one corporation or partnership. The main or primary license for which the full license fee was paid is maintained in active status to keep any additional licenses that were issued at a reduced fee active and in effect. A broker officer licensed to more than one corporation or partnership may be the designated broker of more than one corporation or partnership.

Continuing education is needed only for renewal of the main or primary license.

7.1(6) When a branch office closes, notice in writing, electronically or otherwise, shall be given to the commission.

7.1(7) Each actively licensed broker associate and salesperson is licensed under a broker.

7.1(8) A broker associate or salesperson may not be licensed under more than one broker during the same period of time.

193E—7.2(543B) Notification needed.

7.2(1) Partnerships, associations, and corporations are obligated to obtain a license before acting as a real estate broker. Failure of a broker to inform the commission in writing, electronic or otherwise, within five working days that the broker has formed a new partnership, association or corporation, or has changed the type of the business, is prima facie evidence of a violation of Iowa Code section 543B.1.

7.2(2) Failure of a broker to inform the commission in writing, electronic or otherwise, within five working days of a change in type of license as sole-proprietor broker, partner, officer or broker associate is prima facie evidence of a violation of Iowa Code sections 543B.1 and 543B.29(1).

7.2(3) Failure of a broker to inform the commission in writing, electronic or otherwise, within five working days of a change of address of a proprietorship, partnership, or corporation is prima facie evidence of a violation of Iowa Code section 543B.32.

7.2(4) Failure of a broker to return a license electronically to the commission office to ensure that it is received within 72 hours after a salesperson or broker associate is discharged or terminates employment is prima facie evidence of a violation of Iowa Code section 543B.33.

7.2(5) Failure of a licensee to inform the commission in writing, electronic or otherwise, within five working days of a change of residence address or mailing address is prima facie evidence of a violation of Iowa Code sections 543B.16 and 543B.18.

193E—7.3(543B) Suspended and revoked licenses.

7.3(1) As of the effective date of a suspended or revoked license, the licensee cannot engage in any activity that needs a real estate license as defined in Iowa Code chapter 543B.

7.3(2) When a sole-proprietor broker, corporation or partnership license is suspended or revoked, all licensees associated with or assigned to that sole-proprietor broker, corporation or partnership are automatically placed on inactive status for the duration of the suspension or revocation, unless transferred to another sole-proprietor broker, corporation or partnership.

a. When a suspension or revocation is determined, the commission also determines if the corporation or partnership license is automatically canceled.

b. If the broker whose license is suspended or revoked is the only licensed broker officer of a corporation, the corporation license will automatically be canceled.

7.3(3) A licensee whose license is suspended or revoked may receive compensation during the period of suspension or revocation only for those acts performed and for which compensation was earned when the person was actively licensed prior to the effective date of the suspension or revocation.

This rule does not determine if a licensee is entitled to compensation; such entitlement would depend upon the licensee's written employment or association agreement with the former affiliated broker and a matter of contract law.

7.3(4) All listings and property management agreements are canceled by the broker whose license is suspended or revoked upon receipt of the order of revocation or suspension and prior to the effective date of the order.

a. The seller or landlord, or buyer or tenant, are advised that the seller or landlord, or buyer or tenant, may enter into a listing or brokerage agreement with another broker of choice.

b. A broker whose license is suspended or revoked cannot sell or assign listings or management agreements to another broker without the written consent of the owner of the property, and any sale or assignment of listings or management agreements are completed prior to the effective date of the order.

7.3(5) A broker whose license is suspended or revoked cannot finalize any pending closings. This responsibility is given to another broker, an attorney, a financial institution, or an escrow company.

a. Transfer of this responsibility is done with the written approval of all parties to the transaction.

b. All parties to the transaction are advised of the facts concerning the situation and are provided the name, address, and telephone number of the responsible entity where all trust and escrow moneys will be held, with the written approval of all parties.

7.3(6) A broker whose license is suspended or revoked is barred from advertising real estate in any manner as a broker. All advertising, including but not limited to signs, is removed or covered within ten calendar days after the effective date of the suspension or revocation.

The real estate brokerage telephone is not answered in any manner to indicate the broker is active in the real estate business.

193E—7.4(543B) Barred practices. For purposes of this rule only the term “real estate licensee” means “real estate broker or real estate salesperson” as defined in Iowa Code chapter 543B. A licensee participating in any of the practices described in this rule is deemed to be engaging in unethical conduct and a practice harmful or detrimental to the public within the meaning of Iowa Code section 543B.29(1).

7.4(1) An arrangement in which a real estate licensee needs or conditions, in connection with the sale of a lot, that the real estate licensee receive from the homebuilder an exclusive right to sell or list the house to be constructed on the lot.

7.4(2) An arrangement in which a real estate licensee agrees to sell lots on behalf of a developer on the condition that the developer obligates each homebuilder purchasing such a lot to list the house to be constructed with the real estate licensee.

7.4(3) An arrangement in which a real estate licensee, in connection with the sale of a lot to a consumer or homebuilder, obligates the consumer or homebuilder to pay a commission on the value of the house to be constructed on the lot.

7.4(4) Any arrangement pursuant to which the sale of real estate to a prospective purchaser is conditioned upon the listing of real estate owned by the prospective purchaser with the real estate licensee.

7.4(5) An arrangement in which a real estate licensee, in connection with the sale of a lot to a consumer, obligates the consumer to use a specified homebuilder to build the house to be constructed on the lot.

7.4(6) Any arrangement in which a real estate licensee enters into an agreement with a mortgage broker, bank, savings and loan, or other financial institution pursuant to which the making of a loan is directly or indirectly conditioned upon payment of a real estate commission to the real estate licensee.

7.4(7) Any arrangement pursuant to which a real estate licensee who is affiliated with a mortgage broker, bank, savings and loan association or other financial institution benefits from the practice by the affiliated financial institution of granting mortgage loans or any other loan or financial services or the availability of other benefits directly or indirectly conditioned upon the use of the real estate services of the affiliated licensee.

7.4(8) Any arrangement barred by Iowa Code section 543B.60A.

This rule is intended only to regulate the licensing of real estate licensees in the state of Iowa. This rule is not intended nor should it be interpreted to supplant Iowa Code chapter 553 (The Iowa Competition Law) or as authorizing or approving business practices which are not specifically barred in this rule. The commission, upon receipt of any formal written complaint filed against a licensee alleging a violation of this rule, in addition to evaluating such complaint for license revocation or suspension under Iowa Code chapter 543B, forwards a copy of such complaint to the attorney general of the state of Iowa and to the United States Attorney for investigation and appropriate action.

193E—7.5(543B) Loan finder fees. The acceptance of a fee or anything of value by a real estate licensee from a lender or financing company for the referral or steering of a client to the lender for a loan is considered not in the best interest of the public and constitutes a violation of Iowa Code sections 543B.29(3) and 543B.34(8).

193E—7.6(543B) Lotteries barred. Licensees cannot engage in lotteries and schemes of sales involving selling of certificates, chances or other devices, whereby the purchaser is to receive property to be selected in an order to be determined by chance or by some means other than the order of prior sale, or whereby property more or less valuable will be secured according to chance or the amount of sales made, or whereby the price will depend upon chance or the amount of sales made, or whereby the buyer or tenant will not receive, rent, or lease any property. Such activities are declared to be methods by reason of which the public interests are endangered.

193E—7.7(543B) Broker needed to furnish progress report. After an offer to buy has been made by a buyer and accepted by a seller, either party may demand at reasonable intervals and the broker furnishes a detailed statement showing the current status of the transaction.

193E—7.8(543B) Disclosure of licensee interest, acting as a principal, and status as a licensee. A licensee cannot act in a transaction on the licensee's own behalf, on behalf of the licensee's immediate family, or on behalf of the brokerage, or on behalf of an organization or business entity in which the licensee has an interest, unless the licensee provides written disclosure of that interest to all parties to the transaction in accordance with Iowa Code section 543B.56(3) "b." Disclosure obligated under this rule is made at the time of or prior to the licensee's providing specific assistance to the party or parties to

the transaction. Copies of the disclosure may be provided in person, electronically or by mail, as soon as reasonably practical. If no specific assistance is provided, disclosure is provided prior to the parties' forming a legally binding contract, either prior to an offer made by the buyer or tenant or prior to an acceptance by the seller or landlord, whichever comes first.

7.8(1) *Licensee acting as a principal.* A licensee cannot acquire any interest in any property, directly or indirectly, nor can the licensee sell any interest in which the licensee, directly or indirectly, has an interest without first making written disclosure of the licensee's true position clear to the other party. Satisfactory proof of this disclosure is produced by the licensee upon request of the commission. Whenever a licensee is in doubt as to whether an interest, relationship, association, or affiliation obligates disclosure under this rule, the safest course of action is to make the written disclosure.

7.8(2) *Status as a licensee.* Before buying, selling, or leasing real estate as described above, the licensee discloses in writing any ownership, or other interest, which the licensee has or will have and the licensee's status to all parties to the transaction. An inactive status license does not exempt a licensee from providing the obligated disclosure.

7.8(3) *Dual capacity.* The licensee does not act in a dual capacity of agent and undisclosed principal in any transaction.

193E—7.9(543B) Financial interest disclosure needed. A licensee who has any affiliated business arrangement or relationship with any provider of settlement services, as defined below, and directly or indirectly refers business to that provider or affirmatively influences the selection of that provider discloses the arrangement and any financial interest to the person whose business is being referred or influenced. The obligated disclosure is acknowledged by the separate signatures of the person or persons whose business is being referred or influenced. The disclosure is given and signed before or at substantially the same time that the business is referred or the provider is selected. If the disclosure is made on a separate form, the licensee retains a copy of the signed disclosure in the transaction file for a period of five years after the execution.

7.9(1) An affiliated business arrangement means an arrangement in which a real estate licensee, or an associate of a real estate licensee, has either an affiliate relationship with or a direct or beneficial ownership interest of more than 1 percent in the business entity providing the service or product.

a. An associate means one who has one or more of the following relationships with a real estate licensee:

- (1) A spouse, parent, or child of a real estate licensee;
- (2) A corporation or business entity that controls, is controlled by, or is under common control with a real estate licensee;
- (3) An employee, officer, director, partner, franchiser or franchisee of a real estate licensee; or
- (4) Anyone who has an agreement, arrangement or understanding with a real estate licensee or brokerage, the purpose or substantial effect of which is to enable the real estate licensee to refer for any service, settlement service, or business or product related to the transaction and to benefit financially from the referral of that business.

b. Settlement services include services in connection with a real estate transaction including, but not limited to, the following: mortgage or other financing; title searches; title examinations; the provisions of title certificates, title insurance, hazard insurance; services rendered by an attorney; the preparation of documents; property surveys; the rendering of credit reports or appraisals; pest, fungus, mechanical or other inspections; services rendered by a real estate agent or broker; and the handling of the processing and closing of settlement.

c. An affiliated business arrangement does not include an arrangement in which a real estate licensee, or an associate of a real estate licensee, gives or pays an undisclosed commission in a transaction to any other licensee for a referral to provide real estate brokerage services, including franchise affiliates, if there is no direct or beneficial ownership interest of more than 1 percent in the business entity providing the service. Referral fees or commissions paid by a licensee to another licensee under these conditions are exempted from the disclosure criteria.

7.9(2) No particular language is needed for the disclosure. To assist real estate licensees and the public, the commission recommends the following sample language:

| DISCLOSURE OF REFERRAL OF BUSINESS | |
|--|---|
| <p>I understand that _____ (name of real estate licensee) has an affiliate relationship with or owns an interest in _____ (name of company to which business is being referred) and is also recommending that I employ this company for _____ (type of service) _____.</p> | |
| <p>I understand that _____ (name of real estate licensee) may earn financial benefits from my use of this company. I understand that I am not obligated to use this company, and may select a different company if I wish to do so. This form has been fully explained to me and I have received a copy.</p> | |
| <p>_____ (Date)</p> | <p>_____ (Signature of person whose business is being referred)</p> |

7.9(3) The term “franchise” has the same meaning as set forth in 24 CFR Chapter XX, Section 3500.15(c) as of April 1995.

7.9(4) The term “affiliate relationship” means the relationship among business entities where one entity has effective control over the other by virtue of a partnership or other agreement or is under common control with the other by a third entity or where an entity is a corporation related to another corporation as parent to subsidiary by an identity of stock ownership.

7.9(5) The term “beneficial ownership” means the effective ownership of an interest in a provider of settlement services or the right to use and control the ownership interest involved even though legal ownership or title may be held in another person’s name.

7.9(6) The term “direct ownership” means the holding of legal title to an interest in a provider of settlement services except where title is being held for the beneficial owner.

7.9(7) The term “control” as used in the definition of “affiliate relationship” means that a person:

- a. Is a general partner, officer, director, or employer of another person;
- b. Directly or indirectly or acting in concert with others, or through one or more subsidiaries, owns, holds with power to vote, or holds proxies representing more than 20 percent of the voting interests of another person;
- c. Affirmatively influences in any manner the election of a majority of the directors of another person; or
- d. Has contributed more than 20 percent of the capital of the other person.

193E—7.10(543B) Agency-designated broker responsibilities. The following conditions and circumstances, together with the education and experience of licensed and unlicensed employees and independent contractors, is considered when determining whether or not the designated broker has met the supervisory responsibilities as set forth by Iowa Code section 543B.62(3) “b.”

7.10(1) When making a determination, the commission may consider, but is not limited to consideration of, the following:

- a. Availability of the designated broker/designee to assist and advise regarding brokerage-related activities;
- b. General knowledge of brokerage-related staff activities;
- c. Availability of quality training programs and materials to licensed and unlicensed employees and independent contractors;
- d. Supervisory policies and practices in the review of competitive market analysis, listing contracts, sales contracts and other contracts or information prepared for clients and customers;
- e. Frequency and content of staff meetings;

f. Written company policy manuals for licensed and unlicensed employees and independent contractors;

g. Ratio of supervisors to licensed employees and independent contractors; and

h. Assignment of an experienced licensee to work with new licensees.

7.10(2) The designated broker disseminates, in a timely manner, to licensed employees and independent contractors all regulatory information received by the brokerage pertaining to the practice of real estate brokerage.

193E—7.11(543B) Supervision needed. An employing or affiliated broker is responsible for providing supervision of any salesperson or broker associate employed by or otherwise associated with the broker as a representative of the broker. The existence of an independent contractor relationship or any other special compensation arrangement between the broker and the salesperson or broker associate does not relieve either the broker or the salesperson or broker associate of duties, obligations or responsibilities obligated by law.

7.11(1) Each salesperson and broker associate keeps the broker fully informed of all activities being conducted on behalf of the broker in accordance with Iowa Code section 543B.62(3) “*b.*”

7.11(2) The activities of a salesperson or broker associate acting as a principal in the sale, lease, rental, or exchange of property owned by the licensee could impact the salesperson’s or broker associate’s license and the license of the employing or affiliated broker.

a. When a licensee is acting as a principal, the licensee keeps the employing or affiliated broker fully informed of all activities.

b. While this rule does not obligate that a licensee list property owned by the licensee with the employing or affiliated broker, the broker may obligate as a condition of employment or affiliation that the licensee list the property with the employing or affiliated broker or pay a commission.

7.11(3) A broker associate means the same as Iowa Code section 543B.5(5) and rule 193E—2.1(543B). A broker associate is subject to the provisions of Iowa Code sections 543B.24 and 543B.33 and commission rules pertaining to salespersons during the time the broker remains a broker associate.

7.11(4) A broker who sponsors a salesperson during the salesperson’s first year of licensure must be able to demonstrate that the broker has the time available and experience necessary to adequately supervise an inexperienced salesperson.

193E—7.12(543B) Commission controversies. The commission will not and is not authorized by law to consider or conduct hearings involving disputes over fees or commissions between cooperating brokers, salespersons, and other brokers.

7.12(1) A former employing or affiliated broker may pay a commission directly to a broker associate or salesperson who is presently assigned to another broker or firm, or whose license is inactive, expired, suspended or revoked, only if the commission was earned while the broker associate or salesperson was actively licensed and assigned to the former broker. Whether or not a commission was earned while the broker associate or salesperson was licensed with the former broker depends upon the licensee’s written agreement with the former broker. The commission will not determine if a commission is earned or if a commission is to be paid.

7.12(2) If the licensee is presently assigned to another broker or firm, the former broker does not pay the commission to the new employing or affiliated broker or firm.

7.12(3) An Iowa real estate broker may pay a commission or fee to or receive a commission or fee from a nonresident broker who is actively licensed in the broker’s resident state but not licensed in Iowa. The nonresident broker takes no part in the listing, showing, negotiating offers or any other functions of a broker in Iowa unless actively licensed in Iowa.

7.12(4) Upon the termination of association or employment with the affiliated broker or firm, the broker associate or salesperson cannot take or use any written listing or brokerage agreements secured during the association or employment. Said listings and brokerage agreements remain the property of

the broker or firm and may be canceled only by the broker and the seller, unless the terms of the listing or brokerage agreement state otherwise.

193E—7.13(543B) Support personnel for licensees; permitted and barred activities. Whenever a licensee affiliated with a broker engages support personnel to assist the affiliated licensee in the activities of the real estate brokerage business, both the firm or sponsoring broker and the affiliated licensee are responsible for supervising the acts or activities of the personal assistant; however, the affiliated licensee has the primary responsibility for supervision. Unless the support person holds a real estate license, the support person cannot perform any activities, duties, or tasks of a real estate licensee as identified in Iowa Code sections 543B.3 and 543B.6 and may perform only ministerial duties that do not need discretion or the exercise of the licensee’s own judgment. Personal assistants are considered support personnel.

7.13(1) Individuals actively licensed with one firm or broker cannot work as support personnel for a licensee affiliated with another firm or broker. Individuals with an inactive status license may work as support personnel for a licensee, but cannot participate in any activity that needs a real estate license.

7.13(2) Any real estate brokerage firm or broker that allows an affiliated licensee to employ, or engage under an independent contractor agreement, support personnel to assist the affiliated licensee in carrying out brokerage activities comply with the following:

- a. Implement a written company policy authorizing the use of support personnel by licensees;
- b. Specify in the written company policy, which may incorporate the duties listed in subrule 7.13(4), any duties that the support personnel may perform on behalf of the affiliated licensee;
- c. Ensure that the affiliated licensee and the support personnel receive copies of the duties that support personnel may perform.

7.13(3) Broker supervision and improper use of license and office. While individual and designated brokers are responsible for supervising the real estate-related activities of all support personnel, an affiliated licensee employing a personal assistant has the primary responsibility for supervision of that personal assistant. A broker is not held responsible for inadequate supervision if:

- a. The unlicensed person violated a provision of Iowa Code chapter 543B or of commission rules that is in conflict with the supervising broker’s specific written policies or instructions;
- b. Reasonable procedures have been established to verify that adequate supervision was being provided;
- c. The broker, upon hearing of the violation, attempted to prevent or mitigate the damage;
- d. The broker did not participate in the violation; and
- e. The broker did not attempt to avoid learning of the violation.

7.13(4) In order to provide reasonable assistance to licensees and their support personnel, but without defining every permitted activity, the commission has identified certain tasks that unlicensed support personnel under the direct supervision of a licensee affiliated with a firm or broker may not perform.

- a. Permitted activities include, but are not limited to, the following:

| | |
|-----|---|
| (1) | Answer the telephone, provide information about a listing to licensees, and forward calls from the public to a licensee; |
| (2) | Submit data on listings to a multiple listing service; |
| (3) | Check on the status of loan commitments after a contract has been negotiated; |
| (4) | Assemble documents for closings; |
| (5) | Secure documents that are public information from the courthouse and other sources available to the public; |
| (6) | Have keys made for company listings; |
| (7) | Write advertisements and promotional materials for the approval of the licensee and supervising broker; |
| (8) | Place advertisements in magazines, newspapers, websites, social media, and other media as directed by the supervising broker; |
| (9) | Record and deposit earnest money, security deposits, and advance rents, and perform other bookkeeping duties; |

| | |
|------|--|
| (10) | Type contract forms as directed by the licensee or the supervising broker; |
| (11) | Monitor personnel files; |
| (12) | Compute commission checks; |
| (13) | Place signs on property; |
| (14) | Order items of routine repair as directed by a licensee; |
| (15) | Act as courier for such purposes as delivering documents or picking up keys. The licensee remains responsible for ensuring delivery of all executed documents obligated by Iowa law and commission rules; |
| (16) | Schedule appointments with the seller or the seller's agent in order for a licensee to show a listed property; |
| (17) | Arrange dates and times for inspections; |
| (18) | Arrange dates and times for the mortgage application, the preclosing walk-through, and the closing; |
| (19) | Schedule an open house; |
| (20) | Perform physical maintenance on a property; or |
| (21) | Accompany a licensee to an open house or a showing and perform the following functions as a host or hostess: <ol style="list-style-type: none"> 1. Open the door and greet prospects as they arrive; 2. Hand out or distribute prepared printed material; 3. Have prospects sign a register or guest book to record names, addresses and telephone numbers; 4. Accompany prospects through the home for security purposes and not answer any questions pertaining to the material aspects of the house or its price and terms. |
| (22) | Independently host open houses for tours attended by licensed brokers and salespersons only. |

b. Barred activities include, but are not limited to, the following:

| | |
|------|---|
| (1) | Making cold calls by telephone or in person or otherwise contacting the public for the purpose of securing prospects for listings, leasing, sale, exchanges, or property management; |
| (2) | Independently hosting open houses, kiosks, home show booths, or fairs attended by the public; |
| (3) | Preparing promotion materials or advertisements without the review and approval of licensee and supervising broker; |
| (4) | Showing property independently; |
| (5) | Answering any questions on title, financing, or closings (other than time and place); |
| (6) | Answering any questions regarding a listing except for information on price and amenities expressly provided in writing by the licensee; |
| (7) | Discussing or explaining a contract, listing, lease, agreement, or other real estate document with anyone outside the firm; |
| (8) | Negotiating or agreeing to any commission, commission split, management fee, or referral fee on behalf of a licensee; |
| (9) | Discussing with the owner of real property the terms and conditions of the real property offered for sale or lease; |
| (10) | Collecting or holding deposit moneys, rent, other moneys or anything of value received from the owner of real property or from a prospective buyer or tenant; |
| (11) | Providing owners of real property or prospective buyers or tenants with any advice, recommendations or suggestions as to the sale, purchase, exchange, rental, or leasing of real property that is listed, to be listed, or currently available for sale or lease; or |
| (12) | Holding one's self out in any manner, orally or in writing, as being licensed or affiliated with a particular firm or real estate broker as a licensee. |

193E—7.14(543B) Information provided by nonlicensed support personnel limited. Nonlicensed support personnel may, on behalf of the employer licensee, provide information concerning the sale, exchange, purchase, rental, lease, or advertising of real estate only to another licensee. Support personnel provides information only to another licensee that has been provided to the personnel by the employer licensee either verbally or in writing.

193E—7.15(543B) Presenting purchase agreements. All written offers to purchase received by a listing broker or listing agent are promptly presented to the seller for formal acceptance or rejection. The formal acceptance or rejection of the offer is promptly communicated to the prospective buyers. Unless there is written agreement between the seller and the listing broker directing otherwise, the listing broker is obligated to present back-up offers until the transaction has closed.

7.15(1) A customer's agent seeking compensation from the listing broker cannot prepare an offer to purchase on the property without first obtaining authorization and agreement from the listing broker.

7.15(2) A real estate licensee cannot induce another to seek to alter, modify, or change another licensee's fee or commission for real estate brokerage services without that licensee's prior written consent.

7.15(3) Immediately upon receiving an offer to purchase signed and dated by the buyer with consideration, if any, the listing agent provides a copy of the offer to purchase to the buyer as a receipt.

7.15(4) A customer's agent or representative cannot negotiate directly or indirectly with a seller or buyer, or landlord or tenant, if the agent knows, or acting in a reasonable manner should have known, that the seller or buyer, or landlord or tenant, has a written unexpired listing or brokerage agreement for services on an exclusive basis.

7.15(5) A listing agent cannot refuse to permit a customer's agent or representative to be present at any step in a real estate transaction including, but not limited to, viewing a property, seeking information about a property, or negotiating directly or indirectly with an agent about a property listed by such agent; and no agent refuses to show a property listed by that agent or otherwise deal with a represented customer who requests that the customer's agent or representative be present at any step in the real estate transaction, except as provided in this subrule.

a. The customer's agent or representative does not have the right to be present at any discussion of confidential matters or evaluation of the offer by the seller and the listing agent.

b. Unless the seller provides written instructions to the listing agent to exclude a customer's agent or representative from being present when the offer is presented, it is not unlawful for the customer's agent or representative to be present.

c. Compliance with this rule does not need or obligate a listing broker to share any commission or to otherwise compensate a customer's agent.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 8
“Closing a Real Estate Business”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 E Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter articulates practice standards for closing a real estate business. The chapter provides the public and licensees with guidelines relevant to the provisions when a licensee wishes to close the licensee’s practice. The Real Estate Commission has quite a few people who retire or want to transfer to another company and no longer have their business open. This is a good source of information to follow.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Individuals closing a real estate brokerage firm bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from these proposed rules. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

No economic impact is imposed by these proposed rules. There are no fees associated with closing a real estate business. Licensees may bear the cost for recordkeeping and staff to ensure the licensees are meeting the requirements of this chapter.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean lower-skilled individuals providing services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees. The Commission does not charge to close an office.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

As stated above, no alternative methods are available for the Commission to consider in this proposed chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no rejections of alternative methods by the Commission for this proposed chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of this proposed chapter. No matter the size of the company, this process is necessary, and the same procedures apply.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 8 and adopt the following **new** chapter in lieu thereof:

CHAPTER 8
CLOSING A REAL ESTATE BUSINESS

193E—8.1(543B) Closing a real estate firm. The following steps are necessary for the voluntary closing of a real estate brokerage firm. The individual broker or the designated broker:

8.1(1) Notifies the commission via electronic application upon closing the firm. The following information may be included:

- a.* The date the firm closed or will close;
- b.* The location where records and files will be stored for a minimum of five years; and
- c.* The name, address, and telephone number of the custodian who will be storing the records and files;

8.1(2) Notifies all licensees associated with the firm in writing of the effective date of the closing. The former affiliated broker makes every reasonable effort to return the licenses of any licensees associated with the firm at the time of closing to the commission within 72 hours, with written notice that the firm is closed;

8.1(3) Notifies all listing and management clients as well as parties and co-brokers to existing contracts, in writing, advising of the date the firm will close. All listing and management clients are advised in writing that they may enter into a new listing or management agreement with the broker of their choice;

8.1(4) Removes advertising signs from all properties that were listed with or managed by the firm. Arrange to cancel advertising in the name of the firm, including office signs, Internet to include websites and social media and telephone listing advertisements;

8.1(5) Maintains all escrow or trust accounts until all moneys are transferred to the lending institution, an escrow company or an attorney for closing of the transaction, or are otherwise properly disbursed as agreed to in writing by the parties having an interest in the funds; and

8.1(6) Arranges for pending contracts to be closed by a lending institution, an escrow company or an attorney. In the case of a sale, transfer or merger of an existing brokerage, the acquiring broker may close the pending transactions acquired from the selling broker after having first obtained the express written consent of all parties to the transactions. The broker notifies all parties involved in pending transactions as to the name, address, and telephone number of the closing agent.

193E—8.2(543B) Involuntary closing of a sole-proprietor brokerage. Upon the death or disability of a sole-proprietor broker in which the affairs of the broker cannot be carried on, the following steps are necessary for closing the real estate brokerage business:

8.2(1) All licensees associated with the broker cease all brokerage activity until their licenses have been transferred to another broker;

8.2(2) The executor or legal representative of the broker's estate, if an attorney or a broker, may conclude pending business; and

8.2(3) The administrator or executor of the broker's estate or the legal representative of the broker may follow the procedures established in rule 193E—8.1(543B) for voluntary closing.

193E—8.3(543B) Involuntary closing of a corporation, partnership, or association brokerage firm.

8.3(1) In the event of an involuntary closing of a brokerage firm as a result of the death or incapacity of one or more of the licensed broker officers, broker partners or broker associates of a real estate corporation, partnership or association in which the affairs of the broker, partnership, corporation or association cannot be carried on, the following steps are necessary for closing the real estate brokerage business:

- a.* All licensees associated with the firm cease all brokerage activity until their licenses have been transferred to another broker;

b. The executor of the broker's estate, if an attorney, or the legal representative of the firm may conclude pending business; and

c. The administrator or executor of the broker's estate or the legal representative of the broker may follow the procedures established in rule 193E—8.1(543B) for voluntary closing.

8.3(2) In the event of the death or incapacity of a designated broker for a firm, the affairs of the firm may be carried on by naming a new designated broker. The commission is notified of the change within 72 hours.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 9
“Fees”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter sets standards for fees for the Real Estate Commission (Commission). Iowa licensees, future licensees and employers will benefit from the rules since the rules articulate the process that individuals will need to follow to pay for initial licensure, renewal, and reinstatement.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees are responsible for the cost of their initial license and renewal fees. The costs are comparable to surrounding states’ initial and renewal licensing fees.
 - Classes of persons that will benefit from the proposed rulemaking:
Licensees, future licensees, and the general public will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
The fees imposed by this proposed chapter are as follows:

| | |
|---------------------------------------|-------|
| Broker license | \$170 |
| Additional officer or partner license | \$50 |
| Firm license | \$170 |
| Branch office license | \$50 |
| Trade name license | \$50 |
| Salesperson license | \$125 |

A \$25 reinstatement fee is added for late broker and salesperson renewals. The Commission is not implementing any changes to fees. The Commission is keeping the fees the same.

- Qualitative description of impact:

This proposed chapter provides the funding for the Commission and staff who maintain licensee quality through review of licensure standards and discipline.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Commission staff review applications for initial and renewal licenses, answer inquiries on licensing and field phone calls. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking a less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff did bring up fee changes to the Commission. Staff presented information regarding surrounding states. The Commission was confident in keeping fees as they are.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Commission feels as though the Commission's licensing fees are fair and comparable to surrounding states.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The fees remain the same.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 9 and adopt the following **new** chapter in lieu thereof:

CHAPTER 9
FEES

193E—9.1(543B) Fees.

9.1(1) Original license or renewal.

| | |
|---------------------------------------|-------|
| Broker license | \$170 |
| Additional officer or partner license | \$ 50 |
| Firm license | \$170 |
| Branch office license | \$ 50 |
| Trade name license | \$ 50 |
| Salesperson license | \$125 |

9.1(2) Fee for renewal of broker and salesperson license between January 1 and January 30 following expiration of license is the regular renewal fee plus \$25 reinstatement fee.

| | |
|---------------------|-------|
| Broker license | \$195 |
| Salesperson license | \$150 |

Reinstatement fee is not applicable to a firm license, additional officer license, additional partner license, trade name license, or branch office license.

9.1(3) Fee for certification of license is \$25.

193E—9.2(543B) Refunds and bad payments.

9.2(1) Fees remitted with an application for license will be refunded if the commission finds the applicant is not qualified for a license.

9.2(2) Fees will not be refunded for the unexpired term of a license that has been issued and is in effect.

9.2(3) A fee remitted in error will be refunded if it is received as a separate check. If not received as a separate check, a fee remitted in error will be refunded if a written request is received within 30 days of receipt of the fee.

9.2(4) Payment of a fee with a bad payment is prima facie evidence of a violation of Iowa Code section 543B.29(1) or 543B.34(8) or both.

9.2(5) If a bad payment is received for an original license, the application for license is deemed incomplete and the license null and void.

9.2(6) If a bad payment is received for renewal of a license, the application is deemed incomplete and the license issued for the new term is deemed null and void. If a replacement payment is not received by the commission by the date of expiration of the license (December 31), the appropriate reinstatement fee is added to the unpaid renewal fee.

193E—9.3(543B) Examination fee. The examination fee is paid directly to the testing service at the prevailing rate established by contract between the commission and the testing service.

These rules are intended to implement Iowa Code section 543B.27.

Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter articulates practice standards for advertising real estate services. The chapter provides the public and licensees with guidelines relevant to the provisions when a licensee is advertising. The Real Estate Commission receives quite a few complaints for unlicensed advertising, such as a tradename that could be a team name or another aspect of advertising other than the firm and licensee names. Advertising is a main source for licensees seeking new clients or listings. This is a good source of information to follow.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

This proposed chapter provides administrative background in order for the Commission to regulate advertising. No costs are imposed by this chapter on the public. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards. Licensees would bear the cost of licensing a tradename, which is \$50 for three years.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from these proposed rules. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The licensee may bear the cost of a \$50 tradename license. However, this is a choice for the licensee if the licensee chooses to advertise something other than the licensee's firm name and/or license name.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession was not regulated, it could mean lower-skilled individuals providing services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage board activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues. It could have a positive effect to state revenues if advertising tradenames were to dramatically rise. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

As stated above, no alternative methods are available for the Commission to consider in this proposed chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no rejections of alternative methods by the Commission for this proposed chapter. Since most advertising is now via social media and websites, some updates from the original chapter were made.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of this proposed chapter. No matter the size of the company, this process is necessary, and the same procedures apply.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 10 and adopt the following **new** chapter in lieu thereof:

CHAPTER 10
ADVERTISING

193E—10.1(543B) Advertising. A broker cannot advertise to sell, buy, exchange, rent, or lease property in a manner indicating that the offer is being made by a private party not engaged in the real estate business, and no real estate advertisement can show only a post office box number, telephone number or street address. Every licensee, when advertising real estate, will use the licensed business name or the name under which the broker is licensed, and affirmatively and unmistakably indicate that the party is a real estate licensee and not a private party. Each broker when operating under a franchise or trade name other than the broker's own name may license the franchise or trade name with the commission, or clearly reveal in all advertising that the broker is the licensed individual who owns the entity using the franchise or trade name.

10.1(1) Advertising includes all forms of identification, representation, promotion and solicitation disseminated in any manner and by any means of communication to the public for any purpose related to licensed real estate activity. Forms of advertising include, but are not limited to, real estate brokerage checks, letterhead, email, signs, websites, social media and business cards.

10.1(2) Real estate advertising cannot be misleading or deceptive or intentionally misrepresent any property, terms, values, or policies and services of the brokerage.

10.1(3) All advertising is conducted under the supervision of the broker. The broker ensures the accuracy of the information and, upon becoming aware of a material error or an advertisement that is in violation of this chapter or Iowa Code chapter 543B, the broker promptly corrects the error or problem within ten calendar days.

10.1(4) A licensed firm advertising or marketing on a website or social media account that is either owned by or controlled by the licensed firm includes the following data on each page of the site on which the firm's advertisement or information appears:

- a. The firm or tradename as registered with the commission (abbreviations are not permitted);
- b. The city and state in which the firm's main office is located; and
- c. The states in which the firm holds a real estate brokerage license.

10.1(5) A licensee advertising or marketing on a website or social media account that is either owned by or controlled by the licensee includes the following data on each page of the site on which the licensee's advertisement or information appears:

- a. The licensee's legal name;
- b. The name of the firm or trade name with which the licensee is affiliated as that firm name is registered with the commission (abbreviations are not permitted);
- c. The city and state in which the licensee's office is located; and
- d. The states in which the licensee holds a real estate broker or salesperson license.

10.1(6) A firm using any Internet electronic communication for advertising or marketing, including but not limited to email, websites, and social media accounts, includes the information in rule 193E—10.1(4).

10.1(7) A licensee using any Internet electronic communication for advertising or marketing, including but not limited to email, websites, and social media accounts, includes on the first or last page of all communications the information in rule 193E—10.1(5).

193E—10.2(543B) Advertising under own name. Salespersons and broker associates are barred from advertising under their own names unless they are the owners of the property they are advertising for sale, rent, lease or exchange, and on which no brokerage fees are to be paid. The sale is completely a “for sale by owner” transaction. The property cannot be listed or advertised in any way that would make it appear to be listed with a brokerage. The affiliated licensee cannot function in any capacity that needs a real estate license, and the licensee is responsible for all advertising conducted on the licensee’s own behalf.

193E—10.3(543B) Signs on property. Placing a sign on any property offering it for sale, rent, lease, or exchange without the written consent of the owner is not considered in the best interest of the general public.

10.3(1) When a listing expires, unless a new written listing or extension is obtained, the licensee immediately ceases advertising and active marketing of the property. The licensee makes every reasonable effort to remove signs as quickly as possible.

10.3(2) The licensee makes every reasonable effort to remove signs from the property after the transaction is closed. Sold signs and other signs are not left on properties without the written consent of the new owner of record.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Purpose and Summary

This proposed chapter articulates practice standards for brokerage agreements and listings. The chapter provides the public and licensees with guidelines relevant to the provisions when a consumer decides to enter into an agreement with a licensee. The Real Estate Commission (Commission) believes this chapter to be one that should be held to a high standard of practice. This chapter is important in protecting the public from substantial harm.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

This proposed chapter provides information regarding brokerage agreements and listings. No costs are imposed by this chapter. However, a high cost to the public could occur without the rules of this chapter. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees will benefit from these proposed rules. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:

No economic impact is imposed by this rulemaking. There are no fees with the Commission regarding listings and brokerage agreements. The public could bear a high cost without the rules of this chapter.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean lower-skilled individuals providing services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Board activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

As stated above, no alternative methods are available for the Commission to consider in this proposed chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no rejections of alternative methods by the Commission for this proposed chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small businesses from this proposed chapter. No matter the size of the company, this process is necessary, and the same procedures apply.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 11 and adopt the following **new** chapter in lieu thereof:

CHAPTER 11
BROKERAGE AGREEMENTS AND LISTINGS

193E—11.1(543B) Listing brokerage agreements. All listing agreements are in writing, properly identifying the property and containing all of the terms and conditions under which the property is to be sold, including the price, the commission to be paid, the signatures of all parties concerned and a definite expiration date. The agreement contains no provision requiring a party signing the listing to notify the broker of the listing party's intention to cancel the listing after such definite expiration date. An exclusive agency or exclusive right to sell listing clearly indicates that it is such an agreement. A legible copy of every written listing agreement or other written authorization is given to the owner of the property by a licensee as soon as the signature of the owner is obtained.

11.1(1) A licensee cannot solicit or enter into a listing or brokerage agreement with an owner if the licensee knows or has reason to know that the owner has a written unexpired exclusive agency or exclusive right to sell listing agreement to the property with another broker, unless the owner initiates the discussion and the licensee has not directly or indirectly solicited the listing or brokerage agreement.

a. However, if the owner initiates the discussion, the licensee may negotiate and enter into a listing or brokerage agreement that will take effect after the expiration of the current listing.

b. If the owner initiates the discussion, the licensee may inform the owner that the owner needs to allow the current listing to expire or obtain a mutually acceptable cancellation from the listing broker before any further discussion can take place.

11.1(2) A real estate licensee cannot negotiate a sale, exchange, or lease of real property directly with an owner if it is known that the owner has a written unexpired contract in connection with the property which grants an exclusive right to sell to another broker, or which grants an exclusive agency to another broker.

11.1(3) A listing agreement cannot be assigned, sold, or otherwise transferred to another broker without the express written consent of all parties to the original agreement.

11.1(4) Net listing barred. No licensee makes or enters into a net listing agreement for the sale of real property or any interest in real property. A net listing agreement is an agreement that specifies a net sale price to be received by the owner with the excess over that price to be received by the broker as commission. The taking of a net listing is unprofessional conduct and constitutes a violation of Iowa Code sections 543B.29(3) and 543B.34(8).

11.1(5) A real estate licensee cannot induce another to seek to alter, modify, or change another licensee's fee or commission for real estate brokerage services without that licensee's prior written consent.

11.1(6) Any commission or fee in any listing agreement is fully negotiable among the parties to that listing agreement. Once the parties to a listing agreement have agreed to a commission or fee, no licensee other than a party to the listing agreement attempts to alter, modify, or change or induce another person to alter, modify or change a commission or fee that has previously been agreed upon without the prior written consent of the parties to that listing agreement.

193E—11.2(543B) Enforcing a protective clause. To enforce a protective clause beyond the expiration of an exclusive listing contract, there is a provision for the protective clause in the listing contract which establishes a definite protection period. In writing and prior to the expiration of the listing, the broker furnishes to the listing party the names and available contact information of persons to whom the property

was presented during the active term of the listing and for whom protection is sought. Delivery is by personal service with written acknowledgment of receipt, or by both regular mail and certified mail, return receipt requested.

193E—11.3(543B) Brokerage agreements. All brokerage agreements are written and cannot be assigned, sold, or otherwise transferred to another broker without the express written consent of all parties to the original agreement, unless the terms of the agreement state otherwise. Upon termination of association or employment with the principal broker, the affiliated broker associate or salesperson cannot take or use any written brokerage agreements secured during the association or employment. Said brokerage agreements remain the property of the principal broker and may be canceled only by the broker and the client.

11.3(1) Every written brokerage agreement includes, at a minimum, the criteria set forth in Iowa Code section 543B.57 and the following provisions:

a. All listing contracts and all brokerage agency contracts contain a statement disclosing the brokerage policy on cooperating with and compensating other brokerages whether the brokerage is acting as subagent or the other parties' agent in the sale, lease, rental, or purchase of real estate, including whether the brokerage intends to share the compensation with other brokerages. Such disclosure serves to inform the client of any policy that would limit the participation of any other brokerage; and

b. All listing contracts and all brokerage agency contracts comply with Iowa real estate law and commission rules including, but not limited to, rules 193E—11.1(543B) and 11.4(543B) and 193E—Chapter 15.

11.3(2) No licensee makes or enters into a brokerage agreement that specifies a net sale, lease, rental, or exchange price to be received by an owner and the excess to be received by the licensee as a commission.

11.3(3) The taking of a net brokerage agreement is unprofessional conduct and a practice that is harmful or detrimental to the public and constitutes a violation of Iowa Code sections 543B.29(3) and 543B.34(8).

11.3(4) Duration of relationship. The relationships commence at the time of the brokerage agreement and continue until closing of the transaction or performance or completion of the agreement by which the broker was engaged within the term of the agreement. If the transaction does not close, or the agreement for which the broker was engaged is not performed or completed for any reason, the relationship ends at the earlier of the following:

a. Any date of expiration agreed upon by the parties; or

b. Any termination by written agreement of the parties.

11.3(5) Obligation terminated. In addition to any continuing duty or obligation provided in the written agreement or pursuant to Iowa law and commission rules, a broker or brokerage engaged as a seller's or landlord's agent, buyer's or tenant's agent, subagent, or dual agent and affiliated licensees have the duty after termination, expiration, completion, or performance of the brokerage agreement to:

a. Account for all moneys and property related to and received during the engagement; and

b. Keep confidential all information received during the course of the engagement which was made confidential by request or instructions from the engaging party or is otherwise confidential by statute or rule.

11.3(6) Compensation. In any real estate transaction, the broker's compensation may be paid by the seller, the buyer, the landlord, the tenant, a third party, or by the sharing or splitting of a commission or compensation between brokers.

a. Payment of compensation is not to be construed to determine or establish an agency relationship. The payment of compensation to a broker does not determine whether a brokerage relationship has been created between any broker and a seller, landlord, buyer, or tenant paying such compensation.

b. Written permission of the client is needed as follows:

(1) A seller's or landlord's agent may share the commission or other compensation paid by such seller or landlord with another broker, with the written consent of the seller or landlord.

(2) A buyer's or tenant's agent may share the commission or other compensation paid by such buyer or tenant with another broker, with the written consent of the buyer or tenant.

(3) Without the written approval of the client, a seller's or landlord's agent cannot propose to the buyer's or tenant's agent that such seller's or landlord's agent may be compensated by sharing compensation paid by such buyer or tenant.

(4) Without the written approval of the client, a buyer's or tenant's agent cannot propose to the seller's or landlord's agent that such buyer's or tenant's agent may be compensated by sharing compensation paid by such seller or landlord.

c. A broker may be compensated by more than one party for services in a transaction if the parties have consented in writing to such multiple payments prior to entering into a contract to buy, sell, lease, or exchange.

d. A licensee cannot accept, receive or charge an undisclosed commission for a transaction.

e. A licensee cannot give or pay an undisclosed commission to any other licensee for a transaction, except payment for referrals to other licensees, including franchise affiliates, to provide real estate brokerage services, if there is no direct or beneficial ownership interest of more than 1 percent in the business entity providing the service.

f. A licensee cannot pay any undisclosed rebate to any party to a transaction.

g. A licensee cannot give any undisclosed credit against commission due from a client or licensee to any party to a transaction.

h. A licensee cannot accept, receive or charge any undisclosed payments for any services provided by any third party to any party to a transaction including, but not limited to, payments for procuring insurance or for conducting a property inspection related to the transaction.

i. The provisions of these rules do not apply to a gratuitous gift, such as flowers or a door knocker, to a buyer or tenant subsequent to closing and not promised or offered as an inducement to buy or lease, as long as any client relationship has terminated.

j. The provisions of these rules do not apply to a free gift, such as prizes, money, or other valuable consideration, to a potential party to a transaction or lease prior to the parties' signing a contract to purchase or lease and not promised or offered as an inducement to sell, buy, or lease, as long as no client relationship has been established with the buyer or lessee.

11.3(7) Solicitation of brokerage agreements. A licensee cannot advise, counsel, or solicit a brokerage agreement from a seller or buyer, or landlord or tenant, if the licensee knows, or acting in a reasonable manner should have known, that the seller or buyer, or landlord or tenant, has contracted with another broker for the same brokerage services on an exclusive basis.

a. This rule does not preclude a broker from entering into a brokerage agreement with a seller or buyer, or landlord or tenant, when the initial contact is initiated by the seller or buyer, or landlord or tenant, and the licensee has not directly or indirectly solicited the discussion, provided the brokerage agreement does not become effective until the expiration or release of the current brokerage agreement.

b. A brokerage agreement cannot be assigned, sold, or otherwise transferred to another broker without the express written consent of all parties to the original agreement.

11.3(8) Any commission or fee in any brokerage agreement is fully negotiable among the parties to that brokerage agreement. Once the parties to a brokerage agreement have agreed to a commission or fee, no licensee other than a party to that brokerage agreement attempts to alter, modify, or change or induce another person to alter, modify, or change a commission or fee that has previously been agreed upon without the prior written consent of the parties to that brokerage agreement.

11.3(9) A commission split agreement between brokers needs to be a separate document and not included in the purchase agreement. A purchase agreement should not be made contingent upon the selling broker's receiving a certain percentage of the listing broker's commission.

193E—11.4(543B) Terms or conditions. A licensee cannot write, prepare or otherwise use a contract containing terms or conditions that would violate real estate laws in Iowa Code chapter 543B or commission rules.

The broker is responsible to ensure that all preprinted documents and forms used are in compliance with these rules.

193E—11.5(543B) Distribution of executed instruments. Upon execution of any instrument in connection with a real estate transaction, a licensee, as soon as practicable, delivers a legible copy of the original instrument to each of the parties thereto. It is the responsibility of the licensee to prepare sufficient copies of such instruments to satisfy this criteria. The broker retains copies for five years.

193E—11.6(543B) Rebates and inducements.

11.6(1) A licensee cannot pay a commission, any part of a commission, or valuable consideration to an unlicensed third party for performing brokerage functions or engaging in any activity that needs a real estate license. Referral fees or finder's fees paid to unlicensed third parties for performing brokerage activities, or engaging in any activity that needs a real estate license, are barred.

11.6(2) In a listing contract, the broker is principal party to the contract. The broker may, with proper disclosure, pay a portion of the commission earned to an unlicensed seller or landlord that is a principal party to the listing contract. This will be deemed a reduction in the amount of the earned commission.

11.6(3) A licensee may present a gratuitous gift, such as flowers or a door knocker, to the buyer or tenant subsequent to closing and not promised or offered as an inducement to buy or lease. The permission and disclosure criteria of rule 193E—11.3(543B) do not apply as long as any client relationship has terminated.

11.6(4) A licensee may present free gifts, such as prizes, money, or other valuable consideration, to a potential party to a transaction or lease, prior to that party's signing a contract to purchase or lease and not promised or offered as an inducement to buy or lease. It is the licensee's responsibility to ensure that the promotion is in compliance with other Iowa laws, such as gaming regulations. The permission and disclosure criteria of rule 193E—11.3(543B) do not apply as long as no client relationship has been established with the buyer or lessee.

11.6(5) The offering by a licensee of a free gift, prize, money, or other valuable consideration as an inducement is free from deception and does not serve to distort the true value of the real estate service being promoted.

11.6(6) A licensee may make donations to a charity, or other not-for-profit organization, for each listing or closing, or both, that the licensee has during a specific time period. The receiving entity may be selected by the licensee or by a party to the transaction. The contribution may be in the name of the licensee or in the name of a party to the transaction. Contributions are permissible only if the following conditions are met:

- a.* There are no limitations placed on the payment;
- b.* The donation is for a specific amount;
- c.* The receiving entity does not act or participate in any manner that would need a license;
- d.* The licensee exercises reasonable care to ensure that the organization or fund is a bona fide nonprofit;
- e.* The licensee exercises reasonable care to ensure that the promotional materials clearly explain the terms under which the donation will be made; and
- f.* All necessary disclosures are made.

193E—11.7(543B) New construction. A contract with a builder to construct or attach personal property or other type of structure to land and thereby produce an improvement to real estate is a real estate transaction. A licensee makes written disclosure revealing that the licensee and the licensee's broker or brokerage firm will receive a commission, compensation, or valuable consideration for its efforts in the transaction, as obligated by paragraph 11.3(6) "d." Written disclosure is necessary regardless of the type of representation provided by the licensee or if the licensee provides no representation.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 12
“Disclosure of Relationships”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter articulates practice standards for licensees to disclose any and all relationships associated in a given transaction. The chapter provides the public and licensees with guidelines relevant to the provisions when a consumer decides to enter into an agreement with a licensee but has other relationship types within a transaction. The Real Estate Commission (Commission) believes this chapter to be one that should be held to a high standard of practice. This chapter is important in protecting the public from substantial harm.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Professional standards of practice are undoubtedly associated with costs to the licensed professional. The Commission is unable to assess a cost related to the specific requirements. This proposed chapter requires written procedures to disclose certain relationships involved in a given transaction. Establishing minimum requirements ensures safety for the licensee and consumer. Disciplinary fines could be imposed on a licensee for not following the rules in this chapter. The fines are capped at \$2,500 per public order.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefits of this proposed chapter are to ensure public safety and welfare. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Professional standards of practice are undoubtedly associated with costs to the licensed professional. The Commission is unable to assess a cost related to the specific requirements. This proposed chapter requires written procedures to disclose certain relationships involved in a given transaction. Establishing minimum requirements ensures safety for the licensee and consumer. Disciplinary fines could be imposed on a licensee for not following the rules in this chapter. The fines are capped at \$2,500 per public order.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the public and protection for the consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field. If this profession was not regulated, it could mean lower-skilled individuals providing services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

As stated above, no alternative methods are available for the Commission to consider in this proposed chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no rejections of alternative methods by the Commission for this proposed chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of this proposed chapter. No matter the size of the company, this process is necessary, and the same procedures apply.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 12 and adopt the following **new** chapter in lieu thereof:

CHAPTER 12
DISCLOSURE OF RELATIONSHIPS

193E—12.1(543B) Written company policy needed. Every licensed sole-proprietor single broker, firm, partnership, limited liability company, association, or corporation has a written company policy. Regardless of the type or types of agency relationships offered, a written company policy is needed.

12.1(1) The written company policy identifies and describes the types of real estate brokerage relationships in which the broker and affiliated licensees may engage with seller, landlord, buyer, or tenant as a part of any real estate brokerage business activities.

12.1(2) In addition, every real estate brokerage that offers representation to both buyers and sellers, and tenants and landlords, also specifically addresses the following:

- a. The appointed agent's policy and brokerage procedures intended to prevent any mishandling of information through both formal and informal sharing of information within the brokerage; and
- b. The arrangement of brokerage office space and the personal relationships of affiliated licensees who are representing clients with adverse interests.

12.1(3) A broker is not obligated to offer or engage in more than one type of brokerage relationship as enumerated in rules 193E—12.3(543B) to 193E—12.5(543B).

193E—12.2(543B) Disclosure of agency.

12.2(1) A licensee cannot represent any party or parties to a real estate transaction or otherwise act as a real estate broker or salesperson unless that licensee makes disclosure to all obligated parties to the transaction identifying which party or parties, if any, that licensee represents in the transaction. Disclosure pursuant to this rule is made by the licensee at the time the licensee provides specific assistance to the client or nonrepresented customer.

12.2(2) Verbal disclosure needed. The disclosure obligated by subrule 12.2(1) is made verbally by the licensee prior to the licensee's providing specific assistance to the client or nonrepresented customer. A change in the licensee's representation that makes the initial verbal disclosure incomplete, misleading, or inaccurate obligates that a new verbal disclosure be made immediately.

12.2(3) Written disclosure needed. The written disclosure obligated by subrule 12.2(1) is made by the licensee to all parties to a real estate transaction identifying which party the licensee represents in the transaction.

a. The written disclosure is needed to be made to the buyer or tenant prior to any offer, lease, or rental agreement being made or signed by the buyer or tenant, and prior to any offer, lease, or rental agreement being signed or accepted by the seller or landlord.

b. The written disclosure is acknowledged by separate signatures of all parties to the transaction. A change in the licensee's representation that makes the initial written disclosure incomplete, misleading, or

inaccurate obligates that a new verbal disclosure be made which is followed by a new written disclosure signed by all parties to the transaction as soon as practical.

12.2(4) A licensee representing a buyer or tenant informs the listing broker, the listing agent, or the seller or landlord of the agency relationship in accordance with Iowa Code section 543B.57(5). If the property is not listed, the obligated disclosure is made to the unrepresented seller or landlord.

12.2(5) The seller or landlord may, in the listing or brokerage agreement, authorize the seller's or landlord's broker to disburse part of the broker's compensation to other brokers, including a buyer's or tenant's broker solely representing the buyer or tenant.

12.2(6) Nothing contained in this rule obligates any buyer or tenant or seller or landlord to pay compensation to a licensee unless the buyer or tenant or seller or landlord has entered into a written listing or brokerage agreement with the broker specifying the compensation terms and conditions, in accordance with Iowa real estate license law and commission rules.

12.2(7) The obligation of either the seller or landlord or buyer or tenant to pay compensation to a broker does not establish an agency relationship or affect any agency relationship.

12.2(8) Nothing contained in this rule bars a party from entering into a written listing or brokerage agreement with a broker which contains duties, obligations, and responsibilities that are in addition to those specified in Iowa real estate license law and commission rules.

12.2(9) A licensee cannot be the agent for both the buyer or tenant without following Iowa Code section 543B.58(1).

12.2(10) A licensee may work with and establish different types of agency relationships with the same client, in separate transactions. Examples of different agency relationships with the same client in separate transactions include, but are not limited to, the following:

a. A common example includes a licensee acting as a listing or seller's agent selling a property in one transaction and also working with and representing this same person in another transaction as a buyer's agent in the purchase of a different property.

b. A licensee may act as a dual agent in either of the separate transactions, or both, with the written permission of the parties to the specific transaction and if the broker or brokerage has a written company policy that includes disclosed dual agency for in-house transactions or same agent transactions.

c. Regardless of the type of agency relationship provided in each transaction, the licensee complies with the criteria of Iowa Code chapter 543B and this rule in establishing the relationships for each separate transaction.

12.2(11) An agency relationship disclosure is not needed when the licensee is acting solely as a principal and not as an agent for another or when a written communication from the licensee is a solicitation of business.

12.2(12) If the seller, landlord, buyer, or tenant rejects representation, or refuses to sign the agency disclosure document, or refuses to sign acknowledging receipt of the disclosure, the licensee notes that fact and includes the date, place, time, and the names of others in attendance on a copy of the agency disclosure document and obtains other documentation establishing delivery of the disclosure and maintains the written documentation, including but not limited to copies of facsimile, restricted delivery certified mail, and other communications, in the transaction file.

12.2(13) A licensee who is offering real estate brokerage services as an auctioneer makes the written disclosure to the buyer and obtains the acknowledgment of receipt obligated by law and rules, prior to the buyer's entering into a written purchase agreement for the property. For the purposes of this rule, the identification of the successful bidder constitutes the first meaningful contact with a buyer when specific assistance is provided. After the first meaningful contact, the first practical opportunity to make the necessary disclosures to the buyer depends upon the circumstances. While it is not necessary, it is recommended that licensees disclose in all advertisements and flyers that they are licensed agents representing the seller and, prior to crying the auction, announce that they are licensed real estate agents representing the seller.

a. Disclosure under this rule applies only to the day of the auction.

b. If the licensee provides brokerage services prior to the auction, the disclosure is made either orally or in writing prior to or at the time of specific assistance being provided.

12.2(14) The licensee retains a copy of the disclosure form signed by the prospective buyer, seller, landlord or tenant, or the documentation and copies as obligated in subrule 12.2(12) as follows:

- a. If an offer is accepted, the signed or noted copy is retained by the broker in the closed transaction file for a period of five years from the date of the signature or note.
- b. If the offer is not accepted, a signed and noted copy is retained with the rejected offer for a period of five years.

12.2(15) Failure of a licensee to comply with this rule is prima facie evidence of a violation of Iowa Code section 543B.34(4).

12.2(16) Failure of a licensee to act consistent with disclosure representations made pursuant to this rule is prima facie evidence of a violation of Iowa Code section 543B.34(4).

12.2(17) Nothing in this rule affects the validity of title to real property transferred based solely on the reason that any licensee failed to conform to the provisions of this rule.

12.2(18) A sole-proprietor single broker or firm is not obligated to offer or engage in more than one type of brokerage relationship as enumerated in rules 193E—12.3(543B) to 193E—12.5(543B).

12.2(19) The licensee offering brokerage services to a person as a buyer's or tenant's agent, or who is providing brokerage services to a person as a seller's or landlord's agent, discloses in writing to that person the type or types of brokerage relationships the broker and affiliated licensees are offering to that person before entering into a listing or brokerage agreement with that person.

193E—12.3(543B) Single agent representing a seller or landlord.

12.3(1) *Duty to seller or landlord.* A licensee representing a seller or landlord as an exclusive seller's agent or an exclusive landlord's agent have the following duties and obligations:

- a. Perform the terms of the written agreement made with the seller or landlord;
- b. Exercise reasonable skill and care for the seller or landlord;
- c. Promote the interests of the seller or landlord with the utmost care, integrity, honesty, and loyalty, including but not limited to the following:
 - (1) Seeking a price and terms which are acceptable to the seller or landlord, except that the licensee is not obligated to seek additional offers to purchase the property while the property is subject to a contract for sale or to seek additional offers to lease the property while the property is subject to a lease or letter of intent to lease;
 - (2) Presenting all written offers to and from the seller or landlord in a timely manner regardless of whether the property is subject to a contract for sale or lease or a letter of intent to lease, unless it is provided for by the brokerage agreement;
 - (3) Disclosing to the seller or landlord all material adverse facts pursuant to Iowa Code section 543B.56(1);
 - (4) Advising the client to obtain expert advice as to material matters about which the licensee knows but the specifics of which are beyond the expertise of the licensee;
 - (5) Preserving the seller's or landlord's confidential information as defined in rule 193E—2.1(543B), unless disclosure is mandated by law or unless failure to disclose such information would constitute fraud or dishonest dealing, including but not limited to the following:
 1. Information concerning the seller or the landlord that, if disclosed to the other party, could place the seller or landlord at a disadvantage when bargaining;
 2. That the seller or landlord is willing to accept less than the asking price or lease price for the property;
 3. What the motivating factors are for the client's selling or leasing the property;
 4. That the seller or landlord will agree to sale, lease, or financing terms other than those offered;
 5. The seller's or landlord's real estate needs;
 6. The seller's or landlord's financial information;
 - (6) Accounting in a timely manner for all money and property received;
 - (7) Providing brokerage services to all parties to the transaction honestly and in good faith;
 - (8) Complying with all criteria of Iowa Code chapter 543B and all commission rules and regulations;

(9) Complying with any applicable federal, state, or local laws, rules, or ordinances, including fair housing and civil rights statutes and regulations.

12.3(2) *Duty to a buyer or tenant.* A licensee acting as an exclusive seller's or exclusive landlord's agent discloses to any customer all material adverse facts actually known by the licensee pursuant to Iowa Code section 543B.56.

a. The licensee owes no duty to conduct an independent inspection of the property for the benefit of the buyer or tenant and owes no duty to independently verify the accuracy or completeness of any statement made by the seller or landlord or any independent inspector, unless the licensee knows or has reason to believe the information is not accurate.

b. Nothing in this rule precludes the obligation of a buyer or tenant from the responsibility of protecting the buyer's or the tenant's own interest by means of, but not limited to, inspecting the physical condition of the property and verifying important information.

c. A seller or landlord may agree in writing with an exclusive seller's or exclusive landlord's agent that other designated brokers may be retained or compensated as subagents, and any broker acting as a subagent on the seller's or landlord's behalf is an agent with the same obligations and responsibilities to the seller or landlord as the primary broker of the seller or landlord.

d. A real estate brokerage engaged by a seller or landlord in a real estate transaction may provide assistance to an unrepresented buyer or tenant by performing such acts as preparing offers and conveying those offers to the seller or landlord and providing information and assistance concerning professional services not related to real estate brokerage services.

12.3(3) *Alternative properties.* The licensee may show alternative properties not owned by the seller or landlord to prospective buyers or tenants and may list competing properties for sale or lease without breaching any duty or obligation to the seller or landlord.

193E—12.4(543B) Single agent representing a buyer or tenant.

12.4(1) *Duty to buyer or tenant.* A licensee representing a buyer or tenant as an exclusive buyer's or an exclusive tenant's agent have the same duties and obligations as mentioned in subrule 12.3(1).

a. Perform the terms of any written agreement made with the client;
b. Exercise reasonable skill and care for the client;
c. Promote the interests of the client with the utmost good faith, loyalty, and fidelity, including but not limited to the following:

(1) Seeking a property at a price and terms which are acceptable to the buyer or tenant, except that the licensee is not obligated to seek other properties while the client is a party to a contract to purchase property, or to a lease or letter of intent to lease, unless it is provided for by the brokerage agreement;

(2) Presenting all written offers to and from the client in a timely manner regardless of whether the client is already a party to a contract to purchase property or is already a party to a contract or letter of intent to lease;

(3) Disclosing to the buyer or tenant material adverse facts concerning the property and the transaction that are actually known by the licensee, pursuant to Iowa Code section 543B.56;

(4) Advising the buyer or tenant to obtain expert advice on material matters about which the licensee knows but the specifics of which are beyond the expertise of the licensee;

(5) Preserving the buyer's or tenant's confidential information as defined in rule 193E—2.1(543B), unless disclosure is mandated by law or unless failure to disclose such information would constitute fraud or dishonest dealing, including but not limited to the following:

1. Information concerning the buyer or the tenant that, if disclosed to the other party, could place the client at a disadvantage when bargaining;

2. That the buyer or tenant is willing to pay more than the asking price or lease price for the property;

3. What the motivating factors are for the party's buying or leasing the property;

4. That the buyer or tenant will agree to sale, lease, or financing terms other than those offered;

5. The buyer's or tenant's real estate needs;

6. The buyer's or tenant's financial qualifications;

- (6) Accounting in a timely manner for all money and property received;
- (7) Providing brokerage services to all parties to the transaction honestly and in good faith;
- (8) Complying with all criteria of Iowa Code chapter 543B and all commission rules;
- (9) Complying with any applicable federal, state, or local laws, rules, and ordinances, including fair housing and civil rights statutes and regulations.

12.4(2) *Duty to a seller or landlord.* A licensee acting as an exclusive buyer's or an exclusive tenant's agent discloses to any customer all material adverse facts actually known by the licensee, pursuant to Iowa Code section 543B.56.

a. The licensee owes no duty to conduct an independent investigation of the buyer's or tenant's financial condition for the benefit of the seller or landlord and owes no duty to verify the accuracy or completeness of any statement made by the buyer or tenant or any independent source, unless the licensee knows or has reason to believe the information is not accurate.

b. Nothing in this rule limits the obligation of a seller or landlord from the responsibility of protecting the seller's or landlord's own interest by means of, but not limited to, verifying information concerning or provided by the buyer or tenant.

c. A buyer or tenant may agree in writing with a buyer's or tenant's agent that other designated brokers may be retained or compensated as subagents, and any broker acting as a subagent on the buyer's or tenant's behalf is a single agent with the same obligations and responsibilities to the buyer or tenant as the primary broker of the buyer or tenant.

d. A real estate brokerage engaged by a buyer or tenant in a real estate transaction may provide assistance to an unrepresented seller or landlord by performing such acts as preparing offers and conveying those offers to the buyer or tenant and providing information and assistance concerning professional services not related to real estate brokerage services.

12.4(3) *Competing buyers or tenants.* The licensee may show properties in which the buyer or tenant is interested to other prospective buyers or tenants, may assist other competing buyers or tenants, and may enter into brokerage service agreements with other competing buyers or tenants without breaching any duty or obligation to the buyer or tenant.

193E—12.5(543B) Disclosed dual agent.

12.5(1) A brokerage which has a company policy that permits disclosed dual agency for in-house transactions provides a disclosed dual agency consent agreement to the client or prospective client prior to engaging in any activities of a dual agent. If any seller, landlord, buyer, or tenant rejects dual agency, or refuses to sign consent to dual agency, the licensee cannot act as a dual agent. The dual agency consent agreement complies with Iowa law and commission rules including, but not limited to, the criteria to inform the prospective clients that they are not obligated to consent to dual agency representation as provided by subrule 12.5(2).

a. A licensee may act as a dual agent only with the informed consent of all parties to the transaction. The informed consent is evidenced by a written agreement pursuant to Iowa law and commission rules.

b. A dual agent is an agent for both the seller and buyer or the landlord and tenant and has the duties and obligations needed for a single agent representing a seller or landlord and for a single agent representing a buyer or tenant, unless otherwise provided for in this rule.

c. A dual agent discloses to the client all material adverse facts concerning the property that are actually known by the licensee, pursuant to Iowa Code section 543B.56.

d. A dual agent cannot disclose to one client confidential information about the other client and preserves a seller's or a landlord's, or a buyer's or a tenant's, confidential information as defined in rule 193E—2.1(543B), unless disclosure is mandated by law, or failure to disclose such information would constitute fraud or dishonest dealing, or disclosure is authorized by express instruction. A dual agent does not terminate the dual agency relationship by making the disclosures mandatory or permitted by the dual agency consent agreement. Confidential information includes the same information as rule 193E—12.3(1) or 193E—12.4(1).

e. In any transaction, a licensee may withdraw from representing a client who has not consented to a disclosed dual agency at any time prior to the existence of the dual agency, which is prior to discussing

any seller's or landlord's property with a potential buyer or tenant and prior to discussing any potential buyer or tenant with a seller or landlord, when both the seller or landlord and the buyer or tenant are represented by and are clients of the licensee.

(1) All withdrawals are made in writing and acknowledged by the separate signatures of the clients.

(2) Such withdrawal does not prejudice the ability of the licensee to continue to represent the other client in the transaction or limit the licensee from representing the client in other transactions not involving a dual agency.

12.5(2) A dual agency consent agreement:

- a.* Fairly and accurately describes the type of representation the licensee will provide each client;
- b.* Contains a statement of the licensee's duties under Iowa Code section 543B.56(1);
- c.* Contains a statement of the licensee's duties under Iowa Code section 543B.56(2);
- d.* Informs the clients that representing more than one party to a transaction may present a conflict of interest;
- e.* Informs the clients that they are not obligated to consent to dual agency;
- f.* Provides additional information that the licensee determines is necessary to clarify the licensee's relationship with each client, including any changes from prior types of representation;
- g.* Describes the confidential information a dual agent will not disclose to one client about the other client; and
- h.* Includes a statement that the clients understand the licensee's duties and consent to the licensee's providing brokerage services to more than one client.

12.5(3) No particular disclosure language is needed. The commission recommends use of the following sample language to satisfy the mandatory disclosure regarding conflict of interest:

Representing more than one party to a transaction can create a conflict of interest since both clients may rely upon the broker's advice and the clients' respective interests may be adverse to each other. Broker will endeavor to be impartial between seller and buyer and will not represent the interest of either the seller or buyer to the exclusion or detriment of the other.

12.5(4) Potential dual agency agreement. A brokerage which has a company policy that permits disclosed dual agency for in-house transactions and that elects to use a potential dual agency agreement provides the agreement to the client or prospective client prior to engaging in any activities of a dual agent. Such consent agreement complies with Iowa law and commission rules.

- a.* The potential dual agency agreement should be provided to the seller or landlord prior to entering into a listing agreement or a contract for seller or landlord brokerage services.
- b.* The potential dual agency agreement should be provided to the buyer or tenant prior to entering into a buyer or tenant agency agreement or a contract for buyer or tenant brokerage services.
- c.* If the parties to a proposed transaction or contract have agreed in writing to potential dual agency, a dual agency consent disclosure is presented to the buyer or tenant prior to the buyer's or tenant's signing an offer to purchase or a rental or lease agreement. The buyer or tenant may accept or reject dual agency at this point in the transaction.
- d.* If the parties to a proposed transaction or contract have agreed in writing to potential dual agency, a dual agency consent disclosure is presented to the seller or landlord prior to the seller's or landlord's signing or accepting an offer to purchase or a rental or lease agreement. The seller or landlord may accept or reject dual agency at this point in the transaction.
- e.* If the parties to a proposed transaction or contract have agreed in writing to potential dual agency, the obligated subsequent dual agency consent disclosure is property-specific and complies with Iowa law and commission rules.

193E—12.6(543B) Appointed agents within a brokerage. Iowa Code section 543B.59 authorizes a designated broker to elect to appoint in writing one or more different licensees affiliated with the broker to act as agent to represent exclusively different clients in the same transaction, to the exclusion of all other affiliated licensees within the real estate brokerage. A licensee cannot disclose, except to the licensee's designated broker, information made confidential by request or instructions of the client the licensee is

representing or otherwise confidential by statute or rule, except information allowed by this chapter or mandated to be disclosed by law.

12.6(1) The designated broker may want to include in the written company policy some or all of the appointed agents within the brokerage and may want to include the procedure by which the appointment of the agent or agents is made.

12.6(2) The designated broker may decide that since both seller and buyer, or landlord and tenant, brokerage relationships are being offered to consumers by the broker's company, only the affiliated licensee who, on behalf of the designated broker, entered into the listing agreement with the seller or leasing agreement with the landlord will represent the seller or landlord as that client's agent. In that scenario, all other licensees affiliated with the designated broker will represent buyers or tenants as their agents in any transactions dealing with the subject property.

12.6(3) If any seller, landlord, buyer, or tenant who is a client of the broker refuses to sign and consent to the appointed agent within the brokerage appointed by that same broker for the other party to the transaction, then the broker and licensees affiliated with the broker cannot act as an appointed agent for that other party.

193E—12.7(543B) Appointed agent procedures and disclosure.

12.7(1) Prior to entering into a listing or brokerage agreement, a real estate brokerage notifies a client in writing of the real estate brokerage's appointed agent policy and those affiliated licensees in accordance with Iowa Code section 543B.59(1). The appointed agent disclosure includes, at a minimum, the following provisions:

- a.* The name of the appointed agent(s);
- b.* A statement that the appointed agent will be representing the client as the client's agent and will owe the client duties as set forth in Iowa Code sections 543B.56(1) and 543B.56(2);
- c.* A statement that the brokerage may be representing both the seller and the buyer in connection with the sale or purchase of real estate;
- d.* A statement that other affiliated licensees may be appointed during the term of the brokerage agreement should the appointed agent not be able to fulfill the terms of the brokerage agreement or as by agreement between the designated broker and the client. An appointment of another affiliated licensee or an additional affiliated licensee does not relieve the first appointed agent of any of the duties owed to the client. At any time of the appointment of the new or additional agents, the designated broker complies with the provisions of this rule; and
- e.* A provision for the client to consent or not consent in writing to the appointment.

12.7(2) Implementation of the appointed agent within a brokerage relationship. Any broker may elect to offer the appointed agent relationship. The broker cannot implement the use of the relationship until such time as the broker has fully complied with all Iowa laws and commission rules.

a. The broker cannot, without the written consent of the clients, appoint an affiliated licensee to act as an appointed agent in any transaction involving a written exclusive single agent or dual agent brokerage agreement that was in effect prior to the broker's implementing the appointed agent relationship.

b. If the client of an appointed agent wants to consider a property on which the broker has a prior existing exclusive single agent or dual agent brokerage agreement, the broker cannot allow the use of the appointed agent without first obtaining the written consent of that particular seller or landlord to the appointed agent relationship.

c. If the written consent of the client to allow the appointed agency relationship is not given or cannot be obtained, the broker refers the client of the appointed agent to another broker for representation at least for the purpose of considering such property.

12.7(3) A designated broker cannot be considered to be a dual agent solely because the designated broker makes an appointment under this rule, except that any licensee who, with prior written consent of all parties, personally represents both the seller and buyer or both the landlord and tenant in a transaction is a dual agent and needs to comply with the rules governing dual agents.

12.7(4) Appointed agent and designated broker responsibilities.

a. A designated broker appointing an affiliated licensee(s) to act as an agent of a client takes ordinary and necessary care to protect confidential information disclosed by the client to the appointed agent.

b. An appointed agent may disclose to the brokerage's designated broker, or a designee specified by the designated broker, confidential information of a client for the purpose of seeking advice or assistance for the benefit of the client in regard to a possible transaction, or to comply with the broker's supervisory duties. Confidential information is treated as such by the designated broker or other specified representative of the broker and is not disclosed unless otherwise obligated by Iowa law and related commission rules or requested or permitted in writing by the client who originally disclosed the confidential information.

c. If a designated broker elects to use the appointed agent within a firm authority set forth in Iowa Code section 543B.59, and when the affiliated licensee appointed also acts in a supervisory capacity under the designated broker, such as branch managers, sales managers and the like, these appointed licensees may be treated in the same manner as the designated broker for purposes of determining dual agency under Iowa Code section 543B.59(2), only if the designated broker authorizes and provides for such supervisory positions in the written company policy.

(1) A designated broker may elect to authorize and appoint an affiliated licensee in a supervisory capacity to supervise and assist licensees appointed to exclusively represent a seller or landlord in a transaction.

(2) A designated broker may elect to authorize and appoint an affiliated licensee in a supervisory capacity to supervise and assist licensees appointed to exclusively represent a buyer or tenant in a transaction.

(3) A licensee in a supervisory capacity that is authorized and appointed to supervise and assist licensees appointed to represent a seller or landlord, or buyer or tenant, exclusively, have the same duties, obligations, and responsibilities as the designated broker.

(4) The use of an authorized appointed agent does not relieve the designated broker of duties, obligations, and responsibilities mandated by law or rules.

12.7(5) Licensee's duty to designated broker or designee. A licensee keeps the brokerage's designated broker or that broker's designee fully informed of all activities conducted on behalf of the brokerage and notifies the designated broker or that broker's designee of any other activities that might impact on the responsibility of the designated broker or that broker's designee.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 13

Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter articulates practice standards for brokers to maintain a trust account. The chapter provides the public and licensees with guidelines relevant to the provisions of a trust account. The consumer and public should be aware of where their money is at all times in a transaction. The Real Estate Commission (Commission) believes this chapter to be one that should be held to a high standard of practice. This chapter is important in protecting the public from substantial harm.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

This proposed chapter provides administrative background for real estate trust accounts and costs. Licensees bear the costs to comply with the rules. A high cost to the public could occur without the rules of this chapter.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees will benefit from these proposed rules. These rules provide standards of practice for a licensee to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

It is difficult to quantify the costs imposed on licensees through the time and effort necessary to comply with these proposed rules. Without this chapter, costs could be high to the public.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean lower-skilled individuals providing services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The trust account auditor for the Commission thoroughly went through this chapter and made all the revisions the trust account auditor thought were necessary, and the Commission agrees with the recommendations.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no rejections of alternative methods by the Commission for this proposed chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of the proposed chapter. No matter the size of the company, this process is necessary and the same procedures apply.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 13 and adopt the following **new** chapter in lieu thereof:

CHAPTER 13
TRUST ACCOUNTS AND CLOSINGS

193E—13.1(543B) Trust account. All earnest payments, all rents collected, property management funds, and other trust funds received by the broker in such capacity or broker associate or salesperson on behalf of the broker’s client are deposited in a trust account maintained by the broker in an identified trust account, with the word “trust” in the name of the account, in a federally insured depository institution and, for the purposes of this rule, may be referred to as the “depository.”

13.1(1) All money belonging to others received by the broker, broker associate or salesperson on the sale, rental, purchase, or exchange of real property located in Iowa are trust funds and are deposited in a trust account as directed by the principals to a transaction constituting dealing in real estate. This includes, but is not limited to, receipts from property management contracts; rental or lease contracts; advance fee contracts; escrow contracts; collection contracts; earnest money contracts; or money received by a broker for future investment or other purpose, except a nonrefundable retainer need not be placed in an escrow account if specifically provided for in the written agreement between the broker and the broker’s principal.

a. All trust funds are deposited into the trust account no later than five banking days after the date indicated on the document that the last signature of acceptance of the offer to purchase, rent, lease, exchange, or option is obtained unless otherwise specified in the contract.

b. Money belonging to others cannot be invested in any type of fixed-term maturity account, security or certificate without the written consent of the party or parties to whom the money belongs.

c. A broker cannot commingle personal funds in a trust account unless authorized by Iowa Code section 543B.46(4).

The broker ensures that personal funds are deposited to cover bank service charges as specified in Iowa Code section 543B.46 and that at no time are trust moneys used to cover any charges. Upon notification that the broker’s personal funds are not sufficient to cover service charges initiated by the bank that are above the normal maintenance charges, the broker deposits personal funds to correct the deficiency within 15 calendar days of the closing date of that bank statement.

d. Money held in the trust account, which becomes due and payable to the broker, is promptly withdrawn by the broker.

e. The broker cannot use the trust account as a business operating account or for personal use. Commissions, salaries, related items and normal business expenses are not disbursed directly from the trust account.

13.1(2) As authorized by Iowa Code section 543B.46(1), all interest earned on the trust account is transferred on a calendar quarter basis to the state. The amount to be remitted to the state will be the amount of interest earned less any service charges directly attributable to the criteria of maintaining an interest-bearing account and of remitting the interest to the state. The broker may have the depository remit the interest directly or the broker may remit the interest but, in either case, it is the responsibility of the broker to see that the interest is remitted.

a. If the interest is remitted by the broker, the broker should use the commission-approved Real Estate Interest Remittance Form and include a copy of the applicable bank statement(s) showing the interest paid and the service charges attributable to maintaining the account.

b. If the interest is remitted by the broker, the broker mails the interest remittance check and mandatory documentation to:

The State of Iowa
c/o Bankers Trust Company

P.O. Box 4686
Des Moines, Iowa 50306

c. The depository should use the name “Iowa Finance Authority” and the federal tax identification number (TIN) 52-1699886 on the 1099 reporting form when reporting interest to the IRS.

d. The depository should send the 1099 reporting form to:

Iowa Finance Authority
2015 Grand Avenue
Des Moines, Iowa 50312

e. If the property management or rental account is interest-bearing, the interest is transferred on a calendar quarter basis to the state unless there is a written agreement paying the interest to the property owner.

f. A broker enters into a written agreement to pay interest to a buyer or seller in a transaction, or to a third party if requested by the parties to the contract and agreed to by the broker, if the client’s trust funds can earn net interest. In determining whether a client can earn net interest on funds placed in trust, the broker takes into consideration all relevant factors including the following:

(1) The amount of interest that the funds would earn during the period in which they are reasonably expected to be deposited;

(2) The cost of establishing and administering an individual interest-bearing trust account in which the interest would be transmitted to the client, including any needed tax forms; and

(3) The capability of the financial institution to calculate and pay interest to individual clients through subaccounting or otherwise.

13.1(3) With disclosure to and the written agreement of all parties, a trust account may bear interest to be disbursed to (1) the buyer or seller involved in a real estate purchase, sale or exchange transaction, or (2) the property owner, if the property management or rental contract contains this specific provision, or (3) as otherwise specifically allowed or provided in Iowa Code sections 562A.12(2) and 562B.13(2), or (4) a third party if requested by the parties to the contract and agreed to by the broker. Disbursements of interest on trust funds are subject to all provisions of law that obligate a broker to safeguard and account for the handling of funds of others.

13.1(4) Receipts from property management and rental account transactions may be deposited in a trust account separate from real estate transaction funds. If separately maintained, this account does not need to be an interest-bearing account.

a. The broker provides to the broker’s client a complete accounting of all moneys received and disbursed from the trust account(s) not less often than annually.

b. A broker may only utilize a separate property management or rents trust account for those moneys received by a broker pursuant to a written property management or rental agreement.

13.1(5) A broker is needed to open and maintain one or more trust accounts if the broker is in the practice of depositing funds in a trust account. For each separate trust account opened, the broker files with the commission a written Consent to Examine and Audit Trust Account form, which irrevocably authorizes the commission to examine and audit the trust account. The form of consent is prescribed by and available from the commission and includes the account names and number and the name and address of the depository.

a. If the broker is not in the practice of depositing trust funds in a trust account, the broker files an affidavit with the commission on a form prescribed by and available from the commission.

b. If trust funds are received by the broker after filing an affidavit, the broker immediately opens a trust account and files the appropriate Consent to Examine and Audit Trust Account form with the commission.

c. As provided by Iowa Code section 543B.46(3), a consent to examine is not necessary for a separate farm business operating account or a separate property management account.

13.1(6) Each broker obligated to maintain a trust account maintains at all times a record of each account, as mandated by these rules, in the place of business, consisting of at least the following:

a. A record called a journal which records in chronological order all receipts and disbursements of moneys in the trust account.

(1) For receipts, the journal for each trust account includes the date, name of depositor, the check number and the amount deposited, and the name of principal or identify the property.

(2) For disbursements, the journal for each trust account includes the date, name of payee, name of principal or identify the property, the check number and the amount disbursed.

(3) The journal provides a means for monthly reconciliation on a written worksheet of the general ledger balance with the bank balance and with the individual ledger accounts to ensure agreement.

b. Real estate sales transactions additionally need an individual ledger account identified by the property or the principal, which records all receipts and disbursements of the transaction and clearly separates the transaction from all others. The individual ledger account includes the date, check number, amount, name of payee or depositor or explanation of activity with a running balance.

c. Property management trust account records additionally include an individual ledger account for each tenant, identifying the tenant's rental unit and security deposit and including all receipts and disbursements together with check number and date. The journal for each account is maintained as an owner's ledger account for all properties owned by each owner showing receipts and disbursements applicable to each property managed.

(1) All disbursements are documented by bids, contracts, invoices or other appropriate written documentation.

(2) The running balance may be determined at the time of monthly reconciliation.

d. Trust account supporting documents include, but are not limited to, the following:

(1) Bank statements;

(2) Canceled checks;

(3) Copies of contracts, listing, sales, rental and leasing;

(4) Closing statements;

(5) Pertinent correspondence; and

(6) Any additional items necessary to verify or explain an entry.

13.1(7) Funds, including interest on trust funds, are only disbursed from the trust account as provided in Iowa Code section 543B.46(1) and by the terms and conditions of the contract or escrow agreement. No funds are disbursed from the trust account prior to the closing, or other than as provided by the terms of the escrow agreement, without the informed written consent of all the parties. In the event of a dispute over the return or forfeiture of an earnest money deposit or the disbursement of an escrow deposit held by a broker, the broker continues to hold the deposit in the trust account until one of the following conditions is met:

a. The broker is in receipt of a written release from all parties to the transaction consenting to the disposition of the deposit or escrow funds; or

b. The broker is in receipt of a final judgment of the court directing the disposition of the deposit or escrow funds; or

c. There is a final decision of a binding alternative dispute resolution process, or mediation directing the disposition of the deposit or escrow funds; or

d. A civil court action is filed by one or more of the parties to determine the disposition of the deposit or escrow funds, at which time the broker may seek court authorization to pay the deposit or escrow funds into court.

13.1(8) No funds are disbursed from the trust account prior to the closing without the informed written consent of all the parties to the transaction as provided in subrule 13.1(7), except in accordance with this rule. Nothing in this rule obligates a broker to remove money from the broker's trust account when the disposition of such money is disputed by the parties to the transaction. The commission will not take disciplinary action against a broker who in good faith disburses trust account moneys pursuant to this rule.

a. In the absence of a pending civil court action or written agreement, it is not grounds for disciplinary action when, upon passage of 30 days from the date of the dispute, a broker disburses the earnest money deposit to a buyer, renter, or lessee in a transaction based upon a good faith decision that a contingency has not been met, but disbursement is made only after the broker has given 30 days'

written notice by certified mail to all parties concerned at their last-known addresses, setting forth the broker's proposed action and the grounds for the decision.

b. In the absence of a pending civil action or written agreement, it is not grounds for disciplinary action when, upon passage of six months from the date of the dispute, a broker disburses the earnest money deposit to a seller or landlord in a transaction based upon a good faith decision that the buyer, renter, or lessee has failed to perform as agreed, but disbursement is made only after the broker has given 30 days' written notice by certified mail to all parties concerned at their last-known addresses, setting forth the broker's proposed action and grounds for the decision.

c. If a buyer or seller, or a landlord or lessee, or a renter demands the return of the earnest money deposit, the broker consults with the other party who may agree or disagree with the return.

13.1(9) Under no circumstances is the broker entitled to withhold any portion of the earnest money when a transaction fails to consummate even if a commission is earned. The earnest money is disposed of as provided in subrule 13.1(7), 13.1(8), or 13.1(10), and the broker pursues any claim for commission or compensation against the broker's client.

13.1(10) Interpleader. Anytime the broker in good faith believes that the parties disputing the return of the deposit will not agree on the disposition of the deposit or file a civil court action to determine the disposition of the deposit, then the broker may elect to file an interpleader action with the appropriate court pursuant to Iowa Rules of Civil Procedure and pay the deposit into court. The broker may, in filing such an interpleader court action:

a. Attempt to claim a part of the deposit pursuant to the listing contract with the seller, if the seller is successful in the suit.

b. Disclaim any part of the deposit and request the court to restrain the buyer and the seller from naming the broker in the civil suit and order them to litigate their claims to the deposit.

13.1(11) A trust account may bear interest to be disbursed to the buyers or sellers or to a third party if requested by the parties to the contract and agreed to by the broker with the written approval of all parties to the contract or to the owner if the trust account is for a property management account and the management contract so specifies, or as otherwise specifically allowed or provided in Iowa Code sections 562A.12(2) and 562B.13(2). The account is a separate account from the account(s) which is to accrue interest to the state. Interest is disbursed to the owner or owners of the funds at the time of settlement of the transaction or as agreed to in the management contract and is properly accounted for on closing statements. A broker does not disburse interest on trust funds except as provided in subrules 13.1(3) and 13.1(7). Service charges for the account are a business expense of the broker and are not deducted from the proceeds.

13.1(12) Property management account funds may be withdrawn at any time for the purpose of returning the funds to the payee in accordance with the terms of the contract or receipt.

13.1(13) Property management funds may be withdrawn when and if the broker reasonably believes, from evidence available, that the tenant has obtained a rental or lease through information supplied by or on behalf of the broker.

13.1(14) Trust funds that are not traceable to any individual for disbursement from the trust account are unclaimed property. In accordance with Iowa Code chapter 556, after three years, unclaimed trust funds are reported and remitted to the Treasurer, State of Iowa, Unclaimed Property Division.

193E—13.2(543B) Closing transactions. It is mandatory for every broker to deliver to the seller in every real estate transaction, at the time the transaction is consummated, a complete detailed statement, showing all of the receipts and disbursements handled by the broker. Also, the broker at the same time delivers to the buyer a complete statement showing all moneys received in the transaction from the buyer and how and for what the same were disbursed.

13.2(1) In the event all funds being held by the broker for a transaction cannot be disbursed at the time of closing, the broker obtains an escrow agreement signed by both parties to the transaction which directs the broker regarding the future disbursement of the funds.

13.2(2) The broker retains all trust account records and a complete file, which includes but is not limited to the records mandated by rule 193E—13.5(543B), on each transaction for a period of at least

five years after the date of the closing. Records mandated by this rule may be retained as an electronic record as provided by rule 193E—13.5(543B).

13.2(3) The listing broker is responsible for the closing even though the closing may be completed by another licensee.

13.2(4) If the closing transaction is handled through an unlicensed escrow agent and the escrow agent renders a closing statement, the listing broker ensures that funds which the broker has received or paid as part of the transaction are accounted for properly.

13.2(5) In the case of a cooperative sale between brokers, the listing broker may elect to close the transaction or, by prior agreement, authorize the selling broker to close.

a. If the listing broker so elects, the selling broker has the buyer make the earnest money check or money order payable to the listing broker and immediately delivers the earnest money check or money order along with the offer to purchase to the listing broker or listing agent.

b. Unless by prior agreement the listing broker has authorized the selling broker to close, the offer to purchase designates that the earnest money is held in trust by the listing broker.

c. Unless by prior agreement the listing broker has authorized the selling broker to close, when cash is accepted as earnest money by the selling agent, the selling agent deposits the money in the selling broker's trust account in accordance with commission rules, and then immediately transfers the earnest money deposit to the listing broker by issuing a check drawn on the selling broker's trust account.

13.2(6) Any means other than cash or an immediately cashable check are not accepted as earnest money unless that fact is communicated to the seller prior to the acceptance of the offer to purchase, and is stated in the offer to purchase.

13.2(7) Brokers acting as agents for the buyer in a specific real estate transaction have the same criteria for retention of copies as stated in this rule, except that a buyer's agent who is not a party to the listing contract is not obligated to retain a copy of the listing contract or the seller's settlement statement.

13.2(8) Iowa Court Rule 37.5, limited real estate practice. All Iowa real estate licensees should be aware that Iowa Court Rule 37.5 authorizes nonlawyers to select, prepare, and complete certain legal documents incident to residential real estate transactions of four units or less. The preparation of documents beyond that authorized by this court rule may constitute the unauthorized practice of law.

193E—13.3(543B) Salesperson cannot handle closing. A salesperson cannot handle the closing of any real estate transaction except under the direct supervision or with the consent of the employing broker.

193E—13.4(543B) Consent to return earnest money not necessary. When an offer to purchase is withdrawn or the acceptance is revoked without liability pursuant to Iowa Code chapter 558A, any earnest money deposit is promptly returned to the buyer without delay. The seller's consent and agreement to release the funds is not necessary. A copy of the written revocation or withdrawal is retained with the trust account supporting documents.

193E—13.5(543B) File record keeping. Every broker retains for a period of at least five years true copies of all business books; accounts, including voided checks; records; contracts; closing statements; disclosures; signed documents; the listing; any offers to purchase; and all correspondence relating to each real estate transaction that the broker has handled and each property managed. The records are made available for reproduction and inspection by the commission, staff, and commission-authorized representatives at all times during usual business hours at the broker's regular place of business. If the brokerage closes, the records are made available for reproduction and inspection by the commission, staff, and commission-authorized representatives upon request.

13.5(1) Contracts and other documents that have been changed or altered to the point where the language is unreadable and faxed contracts and documents in which the language is unreadable are not acceptable records and are redrafted and signed by the parties.

13.5(2) Copies of unreadable documents are not acceptable as true copies of the originals regardless of the medium.

13.5(3) Electronic records. The files, records, and other documents mandated by this chapter may be stored in electronic format for convenience and efficiency in a system for electronic record storage, analysis, and retrieval.

a. A record obligated by this chapter may be retained as an electronic record only if the record storage medium can be easily accessed and the records can be readily retrieved and transferred to a legible printed form upon request.

b. The scanning or electronic generation of a record is monitored to ensure that the copy is clear, legible and true before the original is shredded.

c. Once the original record is transferred to the appropriate electronic storage medium consistent with this rule, the commission will no longer need the retention of the record in its original medium. For the purposes of this chapter, electronic records are considered the same as originals.

193E—13.6(543B) Licensee acting as a principal. When a licensee is acting in the capacity of a real estate broker, broker associate or salesperson and is also a principal in the sale, lease, rental or exchange of property owned by the licensee, all payments, rent, or security deposits received from the lessee, renter or buyer are deposited into the broker's trust account. The use of the broker's trust account is not needed if all of the following exist:

1. The sale, rental, or exchange is strictly, clearly and completely a "by owner" transaction and there is not a listing or brokerage agreement;
2. No commission or other compensation is paid to or received by the licensee; and
3. The licensee does not function throughout the transaction in any capacity requiring a real estate license.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 14
“Seller Property Condition Disclosure”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543B

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

The purpose of this proposed rulemaking is to provide criteria for the seller’s property condition disclosure. The disclosure is required to be provided by the seller to the purchaser on each transaction pursuant to Iowa Code chapter 558A. This rule provides guidelines for when the disclosure must be provided, the licensee’s duties in representing the seller or buyer in a transaction and the required information that must be stated on the disclosure.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs imposed by this proposed rule. Licensees must comply with this rule. However, a high cost to the public could occur without the regulation of this chapter. Staff salaries to support the work of the Real Estate Commission (Commission) are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees benefit from this proposed rulemaking by having a uniform disclosure statement and requirements for all transactions. The public benefits from this rulemaking by ensuring sellers are disclosing the accurate condition of their property to potential buyers. The rule provides standards of practice for a licensee to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

It is difficult to quantify the costs imposed on licensees through the time and effort necessary to comply with this proposed rule. The public could bear a high cost without this chapter.

- Qualitative description of impact:

This proposed rule provides protection for the general public. By requiring licensees to ensure the sellers are providing accurate disclosures on the condition of the property, buyers are able to make a knowledgeable decision in buying property.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The benefits are less restrictive language and consolidation of chapters, which simplify rules to provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

This proposed rule has little to no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in this rule and consolidating chapters where applicable.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods are available for the Commission to consider in this chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no rejections of alternative methods by the Commission for this proposed chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of the proposed chapter. This proposed rule applies to the sale and purchase of property and applies uniformly to all persons and businesses. The risk to the public to not require small businesses to comply with this rule is greater than the potential risk or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 14 and adopt the following **new** chapter in lieu thereof:

CHAPTER 14
SELLER PROPERTY CONDITION DISCLOSURE

193E—14.1(543B) Property condition disclosure. The criteria of this chapter applies to transfers of real estate subject to Iowa Code chapter 558A. For purposes of this chapter, “transfer” means the same as Iowa Code section 558A.1(5), and “agent” means the same as Iowa Code section 558A.1(1).

14.1(1) Additional disclosure. Nothing in this rule is intended to prevent any additional disclosure or to relieve the parties or agents in the transaction from making any disclosure otherwise mandated by law or contract.

14.1(2) Licensee responsibilities to seller. At the time a licensee obtains a listing, the listing licensee obtains a completed disclosure signed and dated by each seller represented by the licensee.

a. A licensee representing a seller delivers the executed statement to a potential buyer, a potential buyer’s agent, or any other third party who may be representing a potential buyer, prior to the seller’s making a written offer to sell or the seller’s accepting a written offer to buy.

b. The licensee representing a seller attempts to obtain the buyer’s signature and date of signature on the statement and provides the seller and the buyer with fully executed copies of the disclosure and maintains a copy of the written acknowledgment in the transaction file. If the licensee is unable to obtain the buyer’s signature, the licensee obtains other documentation establishing delivery of the disclosure and maintains the written documentation in the transaction file.

c. If the transaction closes, the listing broker maintains the completed disclosure statement for a minimum of five years.

d. The executed disclosure statement is delivered to the buyer(s) or the buyer’s agent in accordance with Iowa Code section 558A.2(2). If there is more than one buyer, any one buyer or buyer’s agent may accept delivery of the executed statement.

14.1(3) Licensee responsibilities to buyer. A licensee representing a buyer in a transfer notifies the buyer of the seller’s obligation to deliver the property disclosure statement.

a. If the disclosure statement is not delivered when mandated, the licensee notifies the buyer that the buyer may revoke or withdraw the offer and follows Iowa Code section 558A.2(2).

b. Reserved.

14.1(4) Inclusion of written reports. A written report or opinion prepared by a person qualified to render the report or opinion may be included in a disclosure statement. A report may be prepared by those authorized by Iowa Code section 228A.4(1) “b.”

a. The seller identifies the necessary disclosure items which are to be satisfied by the report.

b. If the report is prepared for the specific purpose of satisfying the disclosure criteria, the preparer of the report follows Iowa Code section 558A.4(1) “b.”

c. A licensee representing a seller provides the seller with information on the proper use of reports if reports are used as part of the disclosure statement.

14.1(5) Amended disclosure statement. A licensee’s obligations with respect to any amended disclosure statement are the same as the licensee’s obligations with respect to the original disclosure statement. A disclosure statement is amended if authorized by Iowa Code section 558A.3(2).

14.1(6) Acknowledgment of receipt of disclosure statement by electronic means. Whether or not a licensee assists in a real estate transaction, electronic delivery of any property disclosure statement mandated by Iowa Code chapter 558A is not deemed completed until written acknowledgment of receipt is provided to the transferor by the transferee or the transferee’s agent. Acceptable acknowledgment of

receipt includes return of a fully executed copy of the property disclosure statement to the transferor by the transferee or the transferee's agent; or a letter, electronic mail, text message, or other written correspondence to the transferor from the transferee or the transferee's agent acknowledging receipt. A computer-generated read receipt, facsimile delivery confirmation, or other automated return message is not deemed acknowledgment of receipt for purposes of this rule.

14.1(7) Minimum disclosure statement contents for all transfers. All property disclosure statements, whether or not a licensee assists in the transaction, contain at a minimum the information mandated by the following sample statement. No particular language is necessary in the disclosure statement provided that the necessary disclosure items are included and the disclosure complies with Iowa Code chapter 558A. To assist real estate licensees and the public, the commission recommends use of the following sample language:

RESIDENTIAL PROPERTY SELLER DISCLOSURE STATEMENT

Property address: _____

PURPOSE:

Use this statement to disclose information as mandated by Iowa Code chapter 558A. This law obligates certain sellers of residential property that includes at least one and no more than four dwelling units to disclose information about the property to be sold. The following disclosures are made by the seller(s) and not by any agent acting on behalf of the seller(s).

INSTRUCTIONS TO SELLER(S):

1. Seller(s) completes this statement. Respond to all questions, or attach reports allowed by Iowa Code section 558A.4(2);
 2. Disclose all known conditions materially affecting this property;
 3. If an item does not apply to this property, indicate that it is not applicable (N/A);
 4. Please provide information in good faith and make a reasonable effort to ascertain the necessary information. If the necessary information is **unknown** or is **unavailable** following a reasonable effort, use an **approximation** of the information, or indicate that the information is **unknown (UNK)**. All **approximations** are identified as **approximations (AP)**;
 5. Additional pages may be attached as needed;
 6. Keep a copy of this statement with your other important papers.
1. Basement/Foundation: Any known water or other problems? Yes [] No []
2. Roof: Any known problems? Yes [] No []
- Any known repairs? Yes [] No []
- If yes, date of repairs/replacement: ____/____/____
3. Well and Pump: Any known problems? Yes [] No []
- If N/A check here []
- Any known repairs? Yes [] No []
- If yes, date of repairs/replacement: ____/____/____
- Any known water tests? Yes [] No []
- If yes, date of last report: ____/____/____
- and results: _____
4. Septic Tanks/Drain Fields: Any known problems? Yes [] No []
- If N/A check here []
- Location of tank: _____
- Date tank last cleaned: ____/____/____
5. Sewer System: Any known problems? Yes [] No []
- Any known repairs? Yes [] No []

- If yes, date of repairs/replacement: ___/___/___
6. Heating System(s): Any known problems? Yes [] No []
 Any known repairs? Yes [] No []
 If yes, date of repairs/replacement: ___/___/___
7. Central Cooling System(s): Any known problems? Yes [] No []
 Any known repairs? Yes [] No []
 If yes, date of repairs/replacement: ___/___/___
8. Plumbing System(s): Any known problems? Yes [] No []
 Any known repairs? Yes [] No []
 If yes, date of repairs/replacement: ___/___/___
9. Electrical System(s): Any known problems? Yes [] No []
 Any known repairs? Yes [] No []
 If yes, date of repairs/replacement: ___/___/___
10. Pest Infestation (e.g., termites, carpenter ants): Any known problems? Yes [] No []
 If yes, date(s) of treatment: ___/___/___
 Any known structural damage? Yes [] No []
 If yes, date(s) of repairs/replacement: ___/___/___
11. Asbestos: Any known to be present in the structure? Yes [] No []
 If yes, explain: _____
12. Radon: Any known tests for the presence of radon gas? Yes [] No []
 If yes, date of last report: ___/___/___
 and results: _____
13. Lead-Based Paint: Any known to be present in the structure? Yes [] No []
14. Flood Plain: Do you know if the property is located in a flood plain? Yes [] No []
 If yes, what is the flood plain designation? _____
15. Zoning: Do you know the zoning classification of the property? Yes [] No []
 If yes, what is the zoning classification? _____
16. Covenants: Is the property subject to restrictive covenants? Yes [] No []
 If yes, attach a copy or state where a true, current copy of the covenants can be obtained:

17. Shared or Co-Owned Features: Any features of the property known to be shared in common with adjoining landowners, such as walls, fences, roads, and driveways whose use or maintenance responsibility may have an effect on the property? Yes [] No []
 Any known "common areas" such as pools, tennis courts, walkways, or other areas co-owned with others, or a Homeowner's Association which has any authority over the property? Yes [] No []
18. Physical Problems: Any known settling, flooding, drainage or grading problems? Yes [] No []
19. Structural Damage: Any known structural damage? Yes [] No []

You need to explain any "YES" response(s) above. Use the back of this statement or additional sheets as necessary: _____

SELLER(S) DISCLOSURE:

Seller(s) discloses the information regarding this property based on information known or reasonably available to the Seller(s).

The Seller(s) has owned the property since ____/____/____. The Seller(s) certifies that as of the date signed this information is true and accurate to the best of my/our knowledge.

Seller(s) acknowledges that Buyer(s) be provided with the "Iowa Radon Home-Buyers and Sellers Fact Sheet" prepared by the Iowa Department of Public Health.

Seller_____ Seller_____

Date ____/____/____ Date ____/____/____

BUYER(S) ACKNOWLEDGMENT:

Buyer(s) acknowledges receipt of a copy of this Real Estate Disclosure Statement. This statement is not intended to be a warranty or to substitute for any inspection Buyer(s) may wish to obtain.

Buyer(s) acknowledges receipt of the "Iowa Radon Home-Buyers and Sellers Fact Sheet" prepared by the Iowa Department of Public Health.

Buyer_____ Buyer_____

Date ____/____/____ Date ____/____/____

This rule is intended to implement Iowa Code chapters 17A, 272C, 543B, and 558A.

Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

The purpose of this proposed rule is to provide property management guidelines for individuals who are renting property. This rule provides education on the property management laws and policies to enforce the management laws. This rule only applies to the owner of the property. Tenants are covered under a separate chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:
Property managers and licensees may incur costs to implement and comply with this rule.
- Classes of persons that will benefit from the proposed rulemaking:

This proposed rule benefits the general public by providing a rule and enforcement over property managers to ensure the public receives reputable services when renting property. This rule also benefits property managers by ensuring that property managers have a standard guideline to follow to ensure public safety and welfare.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:
Property managers will likely incur costs to comply with this proposed rule and ensure their property meets the standards required.
- Qualitative description of impact:

There is a high cost to the public when property management is not regulated. This proposed chapter ensures public protection by allowing the Real Estate Commission (Commission) to implement and enforce rules applicable to property management.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues. The costs of this proposed chapter are borne primarily by the property managers. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The proposed chapter costs the public little to nothing. Property managers may incur some additional costs to comply with the chapter. However, the negative impact on the public would be much greater than any cost to the property managers if the Commission did not implement this rule. The rule merely sets out requirements that likely are already in place by most property managers.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

This rule has little to no cost implication. The Commission has not identified a less intrusive method for regulating property managers.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

None in this chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Commission has not identified a less restrictive alternative.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of the proposed chapter. This proposed rule provides guidelines for property managers to follow when renting or leasing property. This rule has a great impact on the general public. Without this rule, the public could be harmed. It does not matter if the property manager is a large corporation or a small business; the public needs to be protected. If the small business had difficulty following these provisions, the small business could apply for a waiver from the rule.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 15 and adopt the following **new** chapter in lieu thereof:

CHAPTER 15
PROPERTY MANAGEMENT

193E—15.1(543B) Property management. A licensee cannot rent or lease real estate, offer to rent or lease real estate, negotiate or offer or agree to negotiate the rental or leasing of real estate, list or offer to list real estate for the leasing or rental of real estate, assist or direct in the negotiation of any transaction calculated or intended to result in the leasing or rental of real estate or show property to prospective renters or lessees of real estate unless the licensee's broker holds a current written property management agreement or other written authorization signed by the owner of the real estate or the owner's authorized agent.

15.1(1) Every property management agreement or other written authorization between a broker and an owner of real estate includes, but is not limited to, the following:

- a. Proper identification of the property to be managed.
- b. All terms and conditions under which the property is to be managed and the powers and authority given to the broker by the owner.
- c. Terms and conditions under which the broker will remit property income to the owner and when the broker will provide periodic written statements of property income and expenses to the owner, which is done no less than annually.
- d. Which payments of property-related expenses are to be made by the broker to third parties.
- e. Amount of fee or commission to be paid to the broker and when it will be paid.
- f. Amount of security deposits and prepaid rents to be held by the broker or the owner.
- g. Effective date of the agreement.
- h. Terms and conditions for termination of the property management agreement by the broker or the owner of the property.
- i. Signatures of the broker and owner or the owner's authorized agent.

15.1(2) The licensee gives the owner or the owner's authorized agent a legible copy of every written property management agreement or written authorization at the time the signature of the owner is obtained, and the licensee's broker retains a copy.

15.1(3) A licensee who is managing the leasing or rental of real estate may act as an agent in the sale or exchange of that real estate only if the property management agreement clearly grants the specific authorization and contains all of the necessary elements for a listing as set forth in rule 193E—11.1(543B) or if a separate listing agreement is secured.

15.1(4) The broker deposits all funds received on behalf of the owner, by no later than five banking days after receipt of the funds, into a trust account maintained by the broker, under the broker's control and in compliance with Iowa Code section 543B.46 and rule 193E—13.1(543B).

15.1(5) If the property management agreement is terminated or transferred for any reason, the property manager:

- a. Terminates the management activities of the property as provided in the agreement and except as otherwise provided by the agreement;
- b. Notifies the owner and any tenants of the property of the termination;
- c. Provides the owner, not later than 30 days after the effective date of the termination, with any unobligated funds due the owner under the agreement and not later than 60 days after the effective date of

the termination, provides the owner with a final accounting of the owner's ledger account, the amount of any obligated funds held in the property manager's client trust account under the agreement, a statement that explains why obligated funds are being held by the property manager and a statement of when and to whom the obligated funds will be disbursed by the property manager;

d. May disburse any unobligated funds only to the owner or, with the proper written authorization of the owner, to another property manager designated in writing by the owner;

e. Immediately notifies each tenant that the conditionally refundable deposit will be transferred to the owner or to a new property manager and, at the same time, provides the name and address of the owner or the new property manager to whom these deposits will be transferred.

15.1(6) If any of the unobligated funds held by the property manager under the terminated agreement represent tenants' conditionally refundable deposits received from current tenants, the property manager:

a. Cannot expend any tenant's conditionally refundable deposits for payment of any expenses or fees not otherwise allowed by the tenant's rental or lease agreements, and

b. If any tenant terminates tenancy at the same time as or prior to the termination of the management of the rented or leased property, the licensee completes any final accounting, inspection or other procedure obligated by the tenant's rental or lease agreement, by the Uniform Residential Landlord and Tenant Law, Mobile Home Parks Residential Landlord and Tenant Law, or by the property management agreement, unless the owner directs otherwise in writing.

15.1(7) Financial dealings under a property management agreement are conducted subject to the following:

a. A check is not issued or presented for payment prior to sufficient funds being in the owner's account to cover the check.

b. Transfers of funds between two or more accounts maintained for the same owner may be made if proper entries are made on the ledgers of the accounts affected and the broker maintains the specific written authorization of the owner.

Transfers of funds between an individual owner's accounts are done by writing billings and receipts debiting and crediting the appropriate accounts. Transfers are not done by ledger entries alone.

c. The broker cannot withdraw, pay or transfer money from the owner's account in excess of the remaining credit balance at the time of withdrawal, payment or transfer.

d. Management fees are withdrawn from the owner's account at least once a month unless the agreement provides otherwise. The fees are identified by property name or account number for which the fees were earned and withdrawn by the broker and deposited into the broker's business operating account. Fees are not paid directly from the owner's trust account to the broker.

e. Conditionally refundable deposits are placed in a trust account until refund is made or until all or a portion of the deposit accrues to the owner under the tenant's agreement.

If refundable deposits are not maintained in a separate trust account, the running balance of the account does not, at any time, go below the total of the refundable deposits being held in the account.

f. The total of balances of the individual property management accounts of the broker equals the balance shown on the journal, the account ledgers, and the reconciled bank balance of the broker.

All accounts and records are in compliance with Iowa Code section 543B.46 and rule 193E—13.1(543B).

g. Except as otherwise specifically allowed or provided in Iowa Code sections 562A.12(2) and 562B.13(2), if refundable deposits and funds are received from others pursuant to a property management agreement, deposited in an interest-bearing trust account, and there is not a separate written agreement to pay the interest earned to the owner or tenant, the interest is paid to the state pursuant to Iowa Code section 543B.46. The property manager does not receive or benefit from the interest.

The written approval agreement is signed by each party having an interest in the funds, fully disclosing how the funds are to be handled by the property manager, who will benefit from the interest earnings, how and when interest earnings will be paid and any limitations that may be provided for on the withdrawal of the funds deposited in the interest-bearing trust account.

This rule is intended to implement Iowa Code chapters 17A, 272C, and 543B.

Purpose and Summary

These proposed rules set education and continuing education requirements for real estate licensees. The rules include definitions related to prelicensing, continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rules, and the types of education that are permissible. The intended benefit of the prelicensing and continuing education is to ensure that real estate licensees maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of prelicensing, continuing education, examinations and background checks. Private industry offers these courses, so the Real Estate Commission (Commission) is not privy to the exact costs, but research estimates it to be around \$500 to \$700 for initial licensure and \$500 for the cost of continuing education every three years.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that real estate licensees maintain initial and up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including but not limited to educational institutions, professional associations and businesses, offer these courses, so the Commission is not privy to exact costs of education or continuing education. Based on research, it is estimated to be around \$500 to \$700 for initial licensing and \$500 every three years for renewal/continuing education. There are multiple entities that provide these education requirements to licensees.

The Commission does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires real estate salespersons to complete 60 hours of prelicensing courses and three 12-hour courses and 36 hours of continuing education every three years. Iowa requires real estate brokers to complete the same requirements as the salesperson, plus 60 hours of broker courses and 36 hours of continuing education every three years. Research shows that Iowa's requirements on education are comparable to surrounding states. South Dakota and Illinois have more types of licenses and require more continuing education than Iowa. Nebraska requires slightly less education than Iowa but requires that the licensee renew the licensee's license more frequently than Iowa requires.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standards and practices and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held as is evidenced by the fact that most other boards around the country require some form of education and continuing education. The Commission believes the current prelicense and continuing education requirements are justified and ensure that the real estate licensee who is dealing with the public on a large investment is educated and up-to-date on the real estate laws, ethics and business practices.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing initial licensing education and continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact from these proposed rules on state revenues.

Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to a licensee to meet this requirement. The Commission believes there could be a negative impact to the public if continuing education requirements were eliminated. This could lead to more complaints, investigations, and, ultimately, public discipline.

There would be a loss of revenue for the private industry organizations that offer these education courses if these requirements were reduced or eliminated.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce or eliminate the amount of prelicense education and continuing education requirements. A review of the surrounding states shows that Iowa's current requirements are in line with other states' requirements for similar licensees.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Commission considered the alternatives of eliminating or lowering the number of prelicense and continuing education hours.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Commission believes there could be a negative impact to the public if continuing education requirements were eliminated. This could lead to more complaints, investigations, and, ultimately, public discipline.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of this rulemaking. Real estate licensees practice in a number of settings, including small businesses, self-employment, corporations, and large agencies. The cost of prelicensing and continuing education could be greater for small business owners since they would be responsible for the entire cost. If individual licensees found a requirement to be overly burdensome, the licensee could utilize the established waiver process to request a waiver from the requirement.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 16 and adopt the following **new** chapter in lieu thereof:

CHAPTER 16 PRELICENSE EDUCATION AND CONTINUING EDUCATION

193E—16.1(543B) Definitions. For the purpose of these rules, the following definitions apply:

“*Affirmative marketing*” means the entire scope of social laws and ethics that are concerned with civil rights as they apply especially to housing and to the activities of real estate licensees.

“*Approved program, course, or activity*” means a continuing education program, course, or activity meeting the standards set forth in these rules which has received advance approval by the commission pursuant to these rules.

“*Approved provider*” means a person or an organization that has been approved by the commission to conduct continuing education activities pursuant to these rules.

“*Broker*” means any person holding an Iowa real estate broker license as defined in Iowa Code section 543B.3.

“*Commission*” means the real estate commission.

“*Continuing education*” means education needed as a condition to license renewal.

“*Credit hour*” means the value assigned by the commission to a prelicense or continuing education program, course, or activity.

“*Distance learning*” or “*online learning*” means a planned teaching/learning experience with a geographic separation of student and instructor that utilizes a wide spectrum of technology-based systems, including computer-based instruction, to reach learners at a distance. Home-study courses that include written materials, exercises and tests mailed to the provider for review are included in this definition.

“*Guest speaker*” means an individual who teaches a real estate education course on a one-time-only or very limited basis and who possesses a unique depth of knowledge and experience in the subject matter the individual proposes to teach.

“*Hour*” means 50 minutes of instruction.

“*Inactive license*” means the same as Iowa Code section 543B.5(12).

“*Licensee*” means the same as Iowa Code section 543B.5(13).

“*Live instruction*” means an educational program delivered in a traditional classroom setting or by electronic means whereby the instructor and student have real-time visual and audio contact to carry out their essential tasks.

“*Prelicense course*” means instruction consisting of one or more courses meeting the criteria of Iowa Code section 543B.15.

“*Salesperson*” means any person holding an Iowa real estate salesperson license as defined in Iowa Code section 543B.5(3).

193E—16.2(543B) Salesperson prelicense criteria.

16.2(1) *Mandatory course of study.*

a. The mandatory course of study for the salesperson licensing examination consists of 60 live instruction or distance/online learning hours of real estate principles and practices to comply with the criteria of Iowa Code section 543B.15. The curriculum includes, but is not limited to, the following subjects:

| | |
|---|----------|
| Introduction to Real Estate and Iowa License Law | 12 hours |
| Ownership, Encumbrances, Legal Descriptions, Transfer of Title and Closing | 12 hours |
| Contracts, Agency and Antitrust | 12 hours |
| Valuation, Finance and Real Estate Math | 12 hours |
| Property Management/Leasing, Fair Housing, Environmental Risks and Health Issues | 12 hours |

b. At the time of submission of an application, an applicant applying for an original salesperson license also provides evidence of the following live instruction courses: 12 hours of Developing Professionalism and Ethical Practices, 12 hours of Buying Practices and 12 hours of Listing Practices. All the necessary education is completed during the 12 months prior to the date the application is postmarked or received.

16.2(2) *Completion of prelicense education.* Successful completion of the salesperson prelicense education includes passage of an examination(s) designed by the approved provider that is sufficiently comprehensive to measure the student’s knowledge of all aspects of the course(s). Times allotted for examinations may be regarded as hours of instruction.

16.2(3) *Substitution of courses.* Written requests for substitution of the salesperson prelicense education courses specified in subrule 16.2(1) may be granted if the applicant submits evidence of successful completion of a course or courses which are substantially similar to the courses specified in subrule 16.2(1). Courses completed more than 12 months prior to commission consideration for approval do not qualify for substitution.

193E—16.3(543B) Broker prelicense education criteria.

16.3(1) *Mandatory course of study.* The mandatory course of study to take the broker examination consists of Iowa Code section 543B.15(7). Approved courses include the following subjects:

| | |
|---|---------|
| Contract Law and Contract Writing | 6 hours |
|---|---------|

| | |
|---|----------|
| Iowa Real Estate Trust Accounts. | 6 hours |
| Principles of Appraising and Market Analysis. | 6 hours |
| Real Estate Law and Agency Law | 6 hours |
| Real Estate Finance | 6 hours |
| Federal and State Laws Affecting Iowa Practice | 6 hours |
| Real Estate Office Organization, Administration and Human Resources | 12 hours |
| Real Estate Technology and Data Security. | 6 hours |
| Ethics and Safety Issues for Brokers. | 6 hours |

16.3(2) Completion of prelicense education. Successful completion of the broker prelicense education includes passage of an examination(s) designed by the approved provider that is sufficiently comprehensive to measure the student’s knowledge of all aspects of the course(s). Times allotted for examinations may be regarded as hours of instruction.

16.3(3) Substitution of courses. Written requests for substitution of the broker prelicense education courses specified in subrule 16.3(1) may be granted if the applicant submits evidence of successful completion of a course or courses which are substantially similar to the courses specified in subrule 16.3(1). Any course completed more than 24 months prior to commission consideration for approval does not qualify for substitution.

193E—16.4(543B) Continuing education criteria.

16.4(1) All individual real estate licenses are issued for three-year terms, counting the remaining portion of the year of issue as a full year. All individual licenses expire on December 31 of the third year of the license term.

16.4(2) As a criteria of license renewal in an active status, each real estate licensee completes a minimum of 36 hours of approved programs, courses or activities. The continuing education is completed during the three calendar years of the license term and cannot be carried over to another license renewal term. Approved courses in the following subjects are completed to renew a license to active status:

| | |
|---------------------|----------|
| Law Update. | 8 hours |
| Ethics | 4 hours |
| Electives | 24 hours |

16.4(3) During each three-year renewal period a course may be taken for credit only once. A course may be repeated for credit only if the course numbers and instructors are different.

16.4(4) A maximum of 24 hours of continuing education may be taken by distance/online learning each three-year renewal period.

16.4(5) A licensee unable to attend educational offerings because of a disability may make a written request to the commission setting forth an explanation and verification of the disability. Licensees making requests need to meet the definition of a person with a disability found in the Americans with Disabilities Act as amended by the ADA Amendments Act of 2008 (ADAAA).

16.4(6) In addition to courses approved directly by the commission, the following will be deemed acceptable as continuing education:

- a. Credits earned in a state which has a continuing education criteria for renewal of a license if the course is approved by the real estate licensing board of that state for credit for renewal. However, state-specific courses are not acceptable.
- b. Courses sponsored by the National Association of Realtors (NAR) or its affiliates.

193E—16.5(543B) Continuing education records. Applicants for license renewal pursuant to Iowa Code section 543B.15 certify that the number of hours of continuing education needed to renew a license was completed as described in rule 193E—16.4(543B).

16.5(1) The commission will verify by random audit or on a test basis the education claimed by the licensee. It is the responsibility of the licensee to maintain records that support the continuing education claimed and the validity of the credits. Documentation is retained by the licensee for a period of three years after the effective date of the license renewal.

16.5(2) It will not be acceptable for a licensee to include on a renewal application continuing education which has not yet been completed, is outside the renewal period, or for which prior approval or postapproval has not been previously granted.

16.5(3) Failure to provide necessary evidence of completion of claimed education within 30 days of the written notice from the commission results in the licensee's being placed on inactive status. Prior to activating a license that has been placed on inactive status pursuant to this provision, the licensee submits to the commission satisfactory evidence that all necessary continuing education has been completed.

16.5(4) Filing a false affirmation is prima facie evidence of a violation of Iowa Code section 543B.29(1).

193E—16.6(543B) Reactivating an inactive license. A license may be renewed without the necessary continuing education, but it is only renewed to an inactive status. Prior to reactivating a license that has been issued inactive due to failure to submit evidence of continuing education, the licensee submits evidence that all deficient continuing education hours have been completed. The maximum continuing education hours cannot exceed the prescribed number of hours of one license renewal period and are completed during the three calendar years preceding activation of the license.

193E—16.7(543B) Full-time attendance. Successful completion of continuing education needs full-time attendance throughout the program, course or activity. A student who arrives late, leaves during class or leaves early does not receive a certificate.

193E—16.8(543B) Education criteria for out-of-state licensees. Subrule 16.4(2) applies to every Iowa real estate licensee unless exempted by Iowa Code section 272C.2(5).

193E—16.9(543B) Examination as a substitute for continuing education.

16.9(1) A salesperson may satisfy all continuing education deficiencies by taking and passing the real estate salesperson examination. An authorization letter is obtained from the commission prior to scheduling the examination with the examination administrator.

a. If the salesperson takes and passes the salesperson examination within the six months immediately preceding the expiration of the license, the salesperson examination score report may be substituted for the necessary hours of continuing education credit for the current license term and will satisfy all previous deficiencies.

b. A salesperson who is otherwise qualified to be a broker and who passes the broker licensing examination is not needed to furnish evidence of credit for continuing education earned as a salesperson.

16.9(2) A broker may satisfy all continuing education deficiencies by taking and passing the real estate broker examination. An authorization letter is obtained from the commission prior to scheduling the examination with the examination administrator. If the broker takes and passes the broker examination within the six months immediately preceding the expiration of the license, the broker examination score report may be substituted for the necessary hours of continuing education credits for the current license term and will satisfy all previous deficiencies.

193E—16.10(543B) Use of prelicense courses as continuing education.

16.10(1) Salespersons and brokers may take up to 24 hours of the salesperson prelicense courses specified in subrule 16.2(1) as continuing education. However, a newly licensed salesperson cannot use credits from the salesperson prelicense course(s) to meet the continuing education criteria of the first renewal term.

16.10(2) Broker prelicense courses taken by a salesperson may be applied as continuing education for renewal of the salesperson license and also may be used as prelicense credit to qualify for a broker license.

16.10(3) A broker may take broker prelicense courses as continuing education, but a newly licensed broker cannot use as continuing education credits from the prelicense courses taken to qualify for the broker license.

193E—16.11(543B) Requests for prior approval or postapproval of a course(s). A licensee seeking credit for attendance and participation in a course, program, or other continuing education activity that is to be conducted by a school not otherwise approved by the commission may apply for approval to the commission at least 21 days in advance of the beginning of the activity. The commission approves or denies the application in writing within 14 days of receipt of the application.

16.11(1) The application for prior approval of a course or an activity includes the following information:

- a.* School or organization or person conducting the activity.
- b.* Location of the activity.
- c.* Title and brief description of the activity or title and course outline.
- d.* Credit hours requested.
- e.* Date of the activity.
- f.* Principal instructor(s).

16.11(2) The application for postapproval of a course or an activity includes the following information:

- a.* School, firm, organization or person conducting the activity.
- b.* Location of the activity.
- c.* Title, description of activity, and course outline.
- d.* Credit hours requested for approval.
- e.* Date of the activity.
- f.* Principal instructor(s).
- g.* Verification of attendance.

These rules are intended to implement Iowa Code chapters 17A, 272C, and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 17

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter sets forth requirements for instructors, schools, and courses. The rules include information for schools to get approval from the Real Estate Commission (Commission) in order to teach prelicensing classes, continuing education and instructor workshop development courses. The intended benefit of this chapter is to ensure proper education is being made available to licensees and future licensees.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of their continuing education. This proposed chapter would have costs that the schools and instructors will have to bear. However, they are also the ones who will charge for their courses. The Commission does not charge for schools, instructors or course applications. The Commission has researched other jurisdictions, and some commissions do charge for this type of application. The rules for the schools and instructors to follow are important so that people are not taking advantage of the students. Also, having course requirements ensures the students/licensees are learning proper course materials.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees, future licensees, instructors, schools, and the general public. The intended benefit is to ensure real estate licensees maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

No new fees are being imposed, and no economic impact is imposed by the proposed rulemaking. However, private industries, including educational institutions, professional associations, and businesses, offer these courses, so the Commission is not privy to exact costs or changing costs at all times. There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

- Qualitative description of impact:

This proposed chapter makes professional licensing education more accessible and provides a larger pool of schools for Iowans to choose from when seeking educational services. This chapter provides a benefit because it ensures the licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact from these proposed rules on state revenues.

Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees. Reducing or eliminating education would reduce or eliminate the cost to the licensee. However, the Commission is not willing to reduce or eliminate education at this time. The Commission's complaints are too numerous to consider any changes.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking a less intrusive route by removing the restrictive language in the chapter. After comparing education requirements with surrounding states, the Commission feels as though the Commission is in alignment with where the Commission needs to be regarding prelicensure and continuing education.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Commission did discuss a less restrictive alternative; however, the Commission is not willing to sacrifice the safety and well-being of the public to reduce required education.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

No Commission member felt as though an alternative method should be applied to this proposed chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Real estate licensees practice in a number of settings, including small businesses, self-employment, corporations and large agencies. The cost of prelicensing and continuing education could be greater for small business owners since they would be responsible for the entire cost.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 17 and adopt the following **new** chapter in lieu thereof:

CHAPTER 17
APPROVAL OF SCHOOLS, COURSES AND INSTRUCTORS

193E—17.1(543B) Administrative criteria for schools, courses and instructors. All schools, courses and instructors of prelicense and continuing education receive advance approval of the commission.

17.1(1) Schools, courses and instructors are approved on forms prescribed by the commission for 24-month periods, including the month of approval. Approval is obtained for each course that an instructor proposes to teach.

17.1(2) A course outline and all necessary forms are submitted for approval at least 30 days prior to the first offering of the program, course or activity.

17.1(3) Evidence of compliance with or exemption from Iowa Code sections 714.18 through 714.25 is furnished to the commission.

17.1(4) Potential participants of all approved courses are clearly informed of the hours to be credited, policies concerning registration, payment of fees, refunds and attendance criteria.

17.1(5) School staff and instructors allow access to any classes conducted to any member of the commission or its duly appointed representatives.

17.1(6) No part of any approved course is used to advertise or solicit orally or in writing any product or service.

17.1(7) The school shows that procedures are in place to ensure that the student who completes an approved course is the student who enrolled in the course.

17.1(8) School staff and instructors are available during normal business hours to answer student questions and provide assistance as necessary.

17.1(9) The commission may at any time evaluate an approved school or instructor. If the commission finds there is a basis for consideration of revocation of the approval of the school or the instructor, the commission gives notice by ordinary mail or email to the coordinator of that school or to the instructor of a hearing on the possible revocation at least 20 days prior to the hearing.

17.1(10) The commission may deny or withdraw approval of a program, course, or activity, but the decision to deny or withdraw approval may be appealed within 20 days of the date of mailing the notice of denial or withdrawal.

17.1(11) Each application for approval designates an individual as coordinator for the school in responsible charge of its operation who is also the contact for the commission. The coordinator is responsible for complying with the commission's rules relating to schools and for submitting reports and information if needed by the commission.

17.1(12) An approved school cannot apply to itself either as part of its name or in any other manner the designation of "college" or "university" in such a way as to give the impression that it is an educational institution conforming to the standards and qualifications prescribed for colleges and universities unless the school, in fact, meets those standards and qualifications.

17.1(13) Advertising and prospectus information. No approved school provides any information to the public or to prospective students that is misleading.

17.1(14) Maximum hours of instruction. There is no more than eight classroom hours in any single day of instruction.

17.1(15) Each approved school establishes and maintains for each student a complete, accurate and detailed record of instruction undertaken and satisfactorily completed in the areas of study prescribed by these rules. The records are maintained for a period of not less than five years. The commission assigns a number to each approved school and assigns a number to each approved program, course or activity. The approved school includes these reference numbers in correspondence with the commission and includes these numbers on certificates of attendance issued by the approved school.

193E—17.2(543B) Certificates of attendance.

17.2(1) Each approved school under rule 193E—17.1(543B) provides an individual certificate of attendance to each licensee upon completion of the program, course, or activity. The certificate contains the following information:

- a.* School name and number;
- b.* Program, course or activity name and number;
- c.* Name and address of licensee;
- d.* Date on which the program, course or activity was completed;
- e.* Number of approved credit hours;
- f.* Instructor's name;
- g.* Signature of coordinator or other person authorized by the commission; and
- h.* A notation as to whether credit hours are to be used as distance learning or as live instruction.

17.2(2) An attendance certificate is not issued to a licensee who is absent from a continuing education program, course, or activity. The program, course, or activity is completed in its entirety. A student who arrives late, leaves during class or leaves early does not receive an attendance certificate.

193E—17.3(543B) Instructors taking license examinations for auditing purposes.

17.3(1) Instructors who take the salesperson or broker examination for auditing purposes first obtain written consent from the commission.

17.3(2) Any instructor who wishes to retake an examination for auditing purposes may be granted permission after 12 months have passed.

193E—17.4(543B) Continuing education credit for instructors.

17.4(1) Commission-approved instructors may receive up to six hours of continuing education credit toward renewal of a real estate license for verified attendance at an instructor development workshop approved by the commission. The instructor may use continuing education credit only once in each three-year renewal period.

17.4(2) An instructor may receive continuing education credit for approved education courses that the instructor teaches, but not more than six hours of credit in any three-year license renewal period.

193E—17.5(543B) Acceptable course topics.

17.5(1) The commission will consider courses in the following areas to be acceptable for approval:

- a.* Real estate ethics;
- b.* Legislative issues that influence real estate practice, including both pending and recent legislation;
- c.* The administration of licensing provisions of real estate law and rules, including compliance and regulatory practices;
- d.* Real estate financing, including mortgages and other financing techniques;
- e.* Real estate market analysis and evaluation, including site evaluations, market data, and feasibility studies;
- f.* Real estate brokerage administration, including office management, trust accounts, and employee contracts;
- g.* Real estate mathematics;
- h.* Real property management, including leasing agreements, accounting procedures, and management contracts;
- i.* Real property exchange;
- j.* Land use planning and zoning;
- k.* Real estate securities and syndications;
- l.* Estate building and portfolio management;
- m.* Accounting and taxation as applied to real property;
- n.* Land development;
- o.* Market analysis;
- p.* Real estate market procedures;
- q.* Technology and the practice of real estate;
- r.* Safety;
- s.* Fair housing; and
- t.* Diversity, equity and inclusion.

17.5(2) Other course topics. A course topic may be approved if it is determined that it includes such facts, concepts and current information about which licensees are knowledgeable to conduct real estate negotiations and transactions and better protect client, customer and public interest. The same criteria will be used to evaluate courses that do not otherwise qualify under rule 193E—17.5(543B).

193E—17.6(543B) Nonqualifying courses. The following course offerings do not qualify as continuing education:

17.6(1) Courses of instruction designed to prepare a student for passing the real estate salesperson examination;

17.6(2) Sales promotion or other meetings held in conjunction with a licensee's general business;

17.6(3) A course certified by the use of a challenge examination. All students complete the necessary number of classroom hours to receive certification;

17.6(4) Meetings which are a normal part of in-house staff or employee training;

17.6(5) Orientation courses for licensees, such as those offered through local real estate boards.

193E—17.7(543B) Standards for approval of courses of instruction. The commission may approve live classroom instruction, distance education programs and paper and pencil home-study courses, subject to the following conditions:

17.7(1) The course pertains to real estate topics that are integrally related to the real estate industry; and

17.7(2) The course allows the participants to achieve a high level of competence in serving the objectives of consumers who engage the services of licensees; and

17.7(3) The course qualifies for at least one credit hour.

193E—17.8(543B) Responsibilities of instructors and course developers.

17.8(1) Instructors are competent in the subject matter and skilled in the use of appropriate teaching methods that have been proven effective through educational research and development.

17.8(2) Course content and materials are accurate and consistent with currently accepted standards relating to the program's subject matter.

17.8(3) Instructor and student materials are updated no later than 30 days after the effective date of a change in standards, laws or rules. Course content will not be considered current and up-to-date unless the new standards have been incorporated into the course or the instructor informs the participants of the new standards.

17.8(4) Instructors attend workshops or instructional programs, as reasonably requested by the commission, to ensure that effective teaching techniques are used and current, relevant and accurate information is taught.

17.8(5) All courses have an appropriate means of written evaluation by the participants. Evaluations include but are not limited to relevance of material, effectiveness of presentation and course content.

193E—17.9(543B) Standards for approval of classroom courses.

17.9(1) The commission may approve live classroom courses, subject to the following criteria.

17.9(2) The course application is accompanied by a comprehensive course outline that includes:

- a.* Description of course.
- b.* Purpose of course.
- c.* Level of difficulty.
- d.* Detailed learning objectives for each major topic that specify the level of knowledge or competency the student should demonstrate upon completing the course.
- e.* Description of the instructional methods utilized to accomplish the learning objectives.
- f.* Copies of all instructor and student course materials.
- g.* Course examination(s) or the diagnostic assessment method(s) utilized to achieve the course learning objectives, when applicable.
- h.* A description of the plan in place to periodically review course material with regard to changing federal and state statutes.
- i.* A statement of any attendance make-up policy that the school has in place.

193E—17.10(543B) Standards for approval of distance learning courses. The commission may approve distance learning courses, subject to the following criteria:

17.10(1) The provider's purpose or mission statement is available to the public.

17.10(2) The course outline includes clearly stated learning objectives and desired student competencies for each module of instruction and a description of how the program promotes interaction between the learner and the program.

17.10(3) The course content is accurate and up-to-date. The provider describes the plan in place to periodically review course material with regard to changing federal and state statutes.

17.10(4) The course is designed to ensure that student progress is evaluated at appropriate intervals and mastery of the material is achieved before a student can progress through the course material.

a. Students completing distance learning continuing education complete a final examination containing 10 questions for a one-hour course, 20 questions for a two-hour course, 30 questions for a three-hour course, 40 questions for a four-hour course, and 60 questions for a six- or eight-hour course.

b. A passing score of 80 percent is needed for course credit to be granted. There is no limit to the number of times a final examination may be taken to achieve a passing score.

17.10(5) The provider shows that qualified individuals are involved in the design of the course.

17.10(6) The provider lists individuals who provide technical support to students and state the specific times when support is available.

17.10(7) A manual is provided to each registered student. It includes, but is not limited to, faculty contact information, student assignments and course criteria, broadcast schedules, testing information, passing scores, resource information, fee schedule and refund policy.

17.10(8) The provider retains a statement signed by the student that affirms that the student completed the necessary work and examinations.

17.10(9) The provider states in the course materials that the information presented in the course should not be used as a substitute for competent legal advice.

17.10(10) Courses submitted for approval are sufficient in scope and content to justify the hours requested by the provider.

17.10(11) Courses that have obtained approval from the Association of Real Estate License Law Officials (ARELLO) are automatically approved in Iowa.

17.10(12) All computer-based continuing education and prelicense courses are completed within six months of the date of purchase.

193E—17.11(543B) Standards for approval of paper and pencil home-study courses. The commission may approve paper and pencil home-study courses, subject to the following criteria:

17.11(1) Courses are arranged in chapter format and include a table of contents.

17.11(2) Overview statements that preview the content of the chapter are included for each chapter.

17.11(3) Courses are designed to ensure that student progress is evaluated at appropriate intervals. The assessment process measures what each student has learned and not learned at regular intervals throughout each module of the course. The student completes and returns quizzes to the provider to receive credit for the course.

17.11(4) Students completing paper and pencil home-study continuing education complete a final examination containing 10 questions for a one-hour course, 20 questions for a two-hour course, 30 questions for a three-hour course, 40 questions for a four-hour course, and 60 questions for a six- or eight-hour course.

17.11(5) A passing score of 80 percent is needed for course credit to be granted. There is no limit to the number of times a final examination may be taken to achieve a passing score.

17.11(6) A licensee has six months from the date of purchase to complete all quizzes and assignments and to pass the final examination.

17.11(7) The provider includes information that clearly informs the licensee of the course completion deadline, passing score needed, chapter quiz completion criteria and any other relevant information regarding the course.

17.11(8) The provider states in the course materials that the information presented in the course should not be used as a substitute for competent legal advice.

17.11(9) The provider retains a statement signed by the student that affirms that the student completed the necessary work and examinations.

17.11(10) The provider is available to answer student questions or provide assistance as necessary during normal business hours.

17.11(11) Courses submitted for approval are sufficient in scope and content to justify the hours requested by the provider.

193E—17.12(543B) Qualifying as an instructor.

17.12(1) Individuals may be approved to teach prelicense and continuing education when they have shown proof of attendance of six hours at an instructor development workshop approved by the commission within 12 months preceding approval and have met the instructor qualification criteria.

17.12(2) Guest speakers and individuals currently certified by a nationally recognized organization, such as a DREI, that has similar instructor standards are exempt, with prior approval of the commission, from the instructor qualification criteria and the instructor development workshop criteria.

17.12(3) An applicant may be approved as an instructor when it is determined that the applicant evidences the ability to teach and communicate and possesses in-depth knowledge of the subject matter to be taught.

a. The applicant demonstrates the ability to teach by meeting at least one of the following criteria:

(1) Holds a bachelor's degree or higher in education from an accredited college (copy(ies) of transcript(s) to be attached); or

- (2) Holds a current teaching credential or certificate in any field (copy to be attached); or
- (3) Holds a certificate of completion from a real estate instructor institute, workshop or school approved by the real estate commission and has experience in the area of instruction (specific teaching experiences to be detailed); or
- (4) Holds a full-time current appointment to the faculty of an accredited college; or
- (5) Holds a current teaching designation from an organization approved by the real estate commission (evidence to be attached).

b. The applicant demonstrates in-depth knowledge of the subject matter by meeting at least one of the following criteria:

- (1) Holds a bachelor's degree or higher from an accredited college with a major in a field of study directly related to the subject matter of the course the applicant proposes to teach, such as business, economics, accounting, real estate or finance (copy of transcript to be attached); or
- (2) Holds a bachelor's degree or higher from an accredited college and five years of real estate experience directly related to the subject matter of the course the applicant proposes to teach (copy of transcript to be attached and documentation to explain how applicant's experience is directly related to the subject matter the applicant proposes to teach); or
- (3) Be a licensed attorney in practice for at least three years in an area directly related to the subject matter of the course the applicant proposes to teach; or
- (4) Be a highly qualified professional with a generally recognized professional designation such as, but not limited to, FLI, MAI, SIOR, SREA, CRB, CRS, CPM, but not including GRI, and two years of education from a postsecondary institution (evidence of both to be attached); or
- (5) Have extensive instructional background in real estate education and experience in real estate as evidenced by a valid broker's license or five years of active real estate experience as a salesperson (evidence to be provided). In addition, three recently written letters of recommendation that attest to the applicant's in-depth knowledge combined with the ability to teach and communicate the subject the applicant proposes to teach; or
- (6) Other, as the commission may determine.

These rules are intended to implement Iowa Code chapters 17A, 272C, and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 18
“Investigations and Disciplinary Procedures”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B

Purpose and Summary

This proposed chapter provides guidelines for investigations and complaints. The rules also provide guidelines for discipline that the Real Estate Commission (Commission) may impose following a complaint and investigation. The Commission receives 300 to 400 complaints per year. This is a necessary chapter to protect the public.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. The licensees may incur costs in the form of legal representation or time away from work to comply with investigations. Licensees may also be assessed civil penalties in the event the Commission determines discipline is necessary.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefits of these proposed rules are to ensure public well-being and maintain high standards when providing services for Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Commission receives 300 to 400 complaints per year, with approximately half of those complaints receiving discipline per year.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for harm to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of practice.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The agency incurs costs for the staff time needed to manage Commission activities, which include managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage these rules is generally in the form of responding to questions related to complaints and the act of investigating the case. An executive officer supports the full scope of work of this Commission. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing these proposed rules are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for harm to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of practice.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Commission has not identified a less restrictive alternative to provide public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Commission believes that these requirements are important in order to ensure Iowans receive assistance from competent real estate agents.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Commission has not identified any less restrictive or alternative methods to implement this rule.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Commission believes the current requirements are important to ensure Iowans receive adequate and competent assistance with their real estate needs.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of the changes to this chapter. The proposed rules relate to high-stakes public safety concerns and ensure Iowans receive competent real estate services, especially when making a large investment, such as purchasing or selling property. While some real estate licensees may work for themselves or a small business, others work for large corporations and agencies. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 18 and adopt the following **new** chapter in lieu thereof:

CHAPTER 18
INVESTIGATIONS AND DISCIPLINARY PROCEDURES

193E—18.1(17A,272C,543B) Disciplinary and investigative authority. The commission is empowered to administer Iowa Code chapters 17A, 272C, and 543B and related administrative rules for the protection and well-being of those persons who may rely upon licensed individuals for the performance of real estate services within this state or for clients in this state. To perform these functions, the commission is broadly vested with authority, pursuant to Iowa Code sections 17A.13, 272C.3 to 272C.6, 272C.10, 543B.9, 543B.29, 543B.34 to 543B.41, and 543B.61, to review and investigate alleged acts or omissions of licensees, determine whether disciplinary proceedings are warranted, initiate and prosecute disciplinary proceedings, establish standards of professional conduct, and impose discipline.

193E—18.2(17A,272C,543B) Grounds for discipline. The commission may initiate disciplinary action against a licensee on any of the following grounds:

1. All grounds set forth in Iowa Code sections 543B.29, 543B.34 and 543B.61.
2. A violation of the rules of professional and business conduct described in 193E—Chapters 6 to 8, 10 to 15, and 19.
3. Failure to comply with an order of the commission imposing discipline.
4. Violation of Iowa Code sections 272C.3(2) and 272C.10.
5. Continuing to practice real estate with an expired or inactive license, or without satisfying the continuing education mandated by 193E—Chapter 16 or the errors and omissions insurance mandated by 193E—Chapter 19.
6. Knowingly aiding or abetting a licensee, license applicant or unlicensed person in committing any act or omission which is a ground for discipline under this rule or otherwise knowingly aiding or abetting the unlicensed practice of real estate in Iowa.
7. Failure to fully cooperate with a licensee disciplinary investigation, including failure to respond to a commission inquiry within 14 calendar days of the date of mailing by certified mail of a written communication directed to the licensee's last address on file at the commission office.
8. A violation of one or more of the acts or omissions upon which civil penalties may be imposed, as described in subrule 18.14(5).

193E—18.3(17A,272C,543B) Initiation of disciplinary investigations. The commission may initiate a licensee disciplinary investigation upon the commission's receipt of information suggesting that a licensee may have violated a law or rule enforced by the commission which, if true, would constitute a ground for licensee discipline.

193E—18.4(272C,543B) Sources of information. Without limitation, the following nonexclusive list of information sources may form the basis for the initiation of a disciplinary investigation or proceeding:

1. News articles or other media sources.
2. Reports filed with the commission by the commissioner of insurance pursuant to Iowa Code section 272C.4(9).
3. Complaints filed with the commission by any member of the public.
4. License applications or other documents submitted to the commission.
5. Reports to the commission from any regulatory or law enforcement agency from any jurisdiction.
6. Commission audits of licensee compliance, such as those involving continuing education, trust accounts, or errors and omissions insurance.

193E—18.5(17A,272C,543B) Conflict of interest. If the subject of a complaint is a member of the commission, or if a member of the commission has a conflict of interest in any disciplinary matter before the commission, that member abstains from participation in any consideration of the complaint and from participation in any disciplinary hearing that may result from the complaint.

193E—18.6(272C,543B) Complaints. Written complaints may be submitted to the commission office by mail, email, online via the commission's website, or personal delivery by any member of the public with knowledge of possible law or rule violations by licensees. Timely filing is encouraged to ensure the availability of witnesses and to avoid initiation of an investigation under conditions which may become substantially altered during a period of delay.

18.6(1) Contents of a written complaint. Written complaints may be submitted on forms provided by the commission which are available from the commission office and on the commission's Website. Written complaints, whether submitted on a commission complaint form or in other written medium, contains the following information:

- a. The full name, address, and telephone number of the complainant (person complaining).
- b. The full name, address, and telephone number of the respondent (licensee against whom the complaint is filed).
- c. A statement of the facts and circumstances giving rise to the complaint, including a description of the alleged acts or omissions which the complainant believes demonstrates that the respondent has violated or is violating laws or rules enforced by the commission.
- d. If known, citations to the laws or rules allegedly violated by the respondent.
- e. Evidentiary supporting documentation.
- f. Steps, if any, taken by the complainant to resolve the dispute with the respondent prior to filing a complaint.
- g. The address of the property involved.

18.6(2) Immunity. A person is not civilly liable for filing a complaint unless such act is done with malice as provided by Iowa Code section 272C.8(1) "a." Employees cannot be discriminated against as a result for filing a complaint as provided by Iowa Code section 272C.8(1) "c."

18.6(3) Role of complainant. The role of the complainant in the disciplinary process is limited to providing the commission with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding which may be initiated by the commission based in whole or in part on information provided by the complainant.

18.6(4) Role of the commission. The commission does not act as an arbiter of disputes between private parties, nor does the commission initiate disciplinary proceedings to advance the private interests of any person or party. The role of the commission in the disciplinary process is to protect the public by

investigating complaints and initiating disciplinary proceedings in appropriate cases. The commission possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate licensee discipline to be imposed, if any.

18.6(5) *Initial complaint screening.* All written complaints received by the commission are initially screened by the commission's administrator or designated staff to determine whether the allegations of the complaint fall within the commission's investigatory jurisdiction and whether the facts presented, if true, would constitute a basis for disciplinary action against a licensee. Complaints which are clearly outside the commission's jurisdiction, which clearly do not allege facts upon which disciplinary action would be based, or which are frivolous may be closed by the commission administrator or may be referred by the commission administrator to the commission for closure at the next scheduled commission meeting. All other complaints are referred by the commission administrator to the commission's disciplinary committee for committee review as described in rule 193E—18.9(17A,272C,543B). If a complainant objects in writing to the closure of the complaint by the commission administrator, the administrator will refer the objection to the disciplinary committee or commission for reconsideration.

18.6(6) *Withdrawal or amendment.* A complaint may be amended or withdrawn at any time prior to official notification of the respondent and thereafter at the sole discretion of the commission. The commission may choose to pursue a matter even after a complaint has been withdrawn.

193E—18.7(272C,543B) Case numbers. Whether based on a written complaint received by the commission or a complaint initiated by the commission, all complaint files are tracked by a case numbering system. Complaints are assigned case numbers in chronological order with the first two digits representing the year in which the complaint was received or initiated, and the second three digits representing the order in which the case file was opened (e.g., 01-001, 01-002, 01-003). The commission's administrator maintains a case file log noting the date each case file was opened, whether disciplinary proceedings were initiated in the case, and the final disposition of the case. Once a case file number is assigned to a complaint, all persons communicating with the commission regarding that complaint are encouraged to include the case file number to facilitate accurate records and prompt response.

193E—18.8(272C,543B) Confidentiality of complaint and investigative information. All complaint and investigative information received or created by the commission is privileged and confidential pursuant to Iowa Code section 272C.6(4) and as such is not subject to discovery, subpoena, or other means of legal compulsion for release to any person except as provided in Iowa Code section 272C.6.

193E—18.9(17A,272C,543B) Investigation procedures.

18.9(1) *Disciplinary committee.* The commission chair may appoint two members of the commission to serve on a commission disciplinary committee. The chair may appoint a standing committee or may appoint different members to serve on the committee on an as-needed basis. The disciplinary committee is a purely advisory body which reviews complaint files referred by the commission's administrator, generally supervises the investigation of complaints, and makes recommendations to the full commission on the disposition of complaints. Except as provided by rule 193E—18.10(17A,272C,543B), members of the committee do not personally investigate complaints, but they may review the investigative work product of others in formulating recommendations to the commission.

18.9(2) *Committee screening of complaints.* Upon the referral of a complaint from the commission's administrator or from the full commission, the committee determines whether the complaint presents facts which, if true, suggest that a licensee may have violated a law or rule enforced by the commission. If the committee concludes that the complaint does not present facts which suggest such a violation or that the complaint does not otherwise constitute an appropriate basis for disciplinary action, the committee refers the complaint to the full commission with the recommendation that it be closed with no further

action. If the committee determines that the complaint does present a credible basis for disciplinary action, the committee may either immediately refer the complaint to the full commission recommending that a disciplinary proceeding be commenced or initiate a disciplinary investigation.

18.9(3) Committee procedures. If the committee determines that additional information is necessary or desirable to evaluate the merits of a complaint, the committee may assign an investigator or expert consultant, appoint a peer review committee, provide the licensee an opportunity to appear before the disciplinary committee for an informal discussion as described in rule 193E—18.10(17A,272C,543B) or request commission staff to conduct further investigation. Upon completion of an investigation, the investigator, expert consultant, peer review committee or commission staff presents a report to the committee. The committee reviews the report and determines what further action is necessary. The committee may:

- a. Request further investigation.
- b. Determine there is not probable cause to believe a disciplinary violation has occurred and refer the case to the full commission with the recommendation of closure.
- c. Determine there is probable cause to believe that a law or rule enforced by the commission has been violated, but that disciplinary action is unwarranted on other grounds, and refer the case to the full commission with the recommendation of closure. The committee may also recommend that the licensee be informally cautioned or educated about matters which could form the basis for disciplinary action in the future.
- d. Determine there is probable cause to believe a disciplinary violation has occurred and either attempt informal settlement, subject to approval by the full commission, or refer the case to the full commission with the recommendation that the commission initiate a disciplinary proceeding (contested case).
- e. Stay further action on the complaint if, for instance, there is a pending criminal case or civil litigation and the committee feels it would be in the best interest of the public and respondent to await the final outcome of the litigation. Additionally, the committee may stay further action on a complaint when the respondent's license is expired or revoked.

18.9(4) Subpoena authority. The commission is authorized in connection with a disciplinary investigation to issue subpoenas to compel witnesses to testify or persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, which the commission deems necessary as evidence in connection with a disciplinary proceeding or relevant to the decision of whether to initiate a disciplinary proceeding, pursuant to Iowa Code sections 17A.13(1), 272C.6(3) and 543B.36. Commission procedures concerning investigative subpoenas are set forth in 193—Chapter 6.

193E—18.10(17A,272C,543B) Informal discussion. If the disciplinary committee considers it advisable, or if requested by the affected licensee, the committee may grant the licensee an opportunity to appear before the committee for a voluntary informal discussion of the facts and circumstances of an alleged violation, subject to the provisions of this rule.

18.10(1) An informal discussion is intended to provide a licensee an opportunity to share the licensee's side of a complaint in an informal setting before the commission determines whether probable cause exists to initiate a disciplinary proceeding. Licensees are not obligated to attend an informal discussion. Because disciplinary investigations are confidential, the licensee cannot bring other persons to an informal discussion, but licensees may be represented by legal counsel. When an allegation is made against a firm, the firm may be represented by the designated broker, a managing partner, member or other firm representative.

18.10(2) Unless disqualification is waived by the licensee, commission members or staff who personally investigate a disciplinary complaint are disqualified from making decisions or assisting the decision makers at a later formal hearing. Because commission members generally rely upon investigators, peer review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question and answer format. In order to preserve the ability of all commission members to participate

in commission decision making and to receive the advice of staff, licensees who desire to attend an informal discussion therefore waive their right to seek disqualification of a commission member or staff based solely on the commission member's or staff's participation in an informal discussion. Licensees would not be waiving their right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that a participating commission member or staff person is not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

18.10(3) Because an informal discussion constitutes a part of the commission's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the commission in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence.

18.10(4) The disciplinary committee, subject to commission approval, may propose a consent order at the time of the informal discussion. If the licensee agrees to a consent order, a statement of charges is filed simultaneously with the consent order, as provided in rule 193—7.4(17A,272C).

193E—18.11(17A,272C,543B) Closing complaint files.

18.11(1) *Grounds for closing.* Upon the recommendation of the administrator pursuant to subrule 18.6(5), the recommendation of the disciplinary committee pursuant to rule 193E—18.9(17A,272C,543B), or on its own motion, the commission may close a complaint file, with or without prior investigation. Given the broad scope of matters about which members of the public may complain, it is not possible to catalog all possible reasons why the commission may close a complaint file. The commission will take into consideration the severity of the alleged violation, the sufficiency of the evidence, the possibility that the problem can be better resolved by other means available to the parties, whether the matter has been the subject of a local board proceeding, the clarity of the laws and rules which support the alleged violation, whether the alleged violation is likely to recur, the past record of the licensee, whether the licensee has previously received a cautionary letter concerning the act or omission at issue, and other factors relevant to the specific facts of the complaint. The following nonexclusive list illustrates the grounds upon which the commission may close a complaint file:

- a. The complaint alleges matters outside the commission's jurisdiction.
- b. The complaint does not allege a reasonable or credible basis to believe that the subject of the complaint violated a law or rule enforced by the commission.
- c. The complaint is frivolous or trivial.
- d. The complaint alleges matters more appropriately resolved in a different forum, such as civil litigation to resolve a contract dispute, or more appropriately addressed by alternative procedures, such as outreach education or rulemaking.
- e. The matters raised in the complaint are situational, isolated, or unrepresentative of a licensee's typical practice, and the licensee has taken appropriate steps to ensure future compliance and prevent public injury.
- f. Resources are unavailable or better directed to other complaints or commission initiatives in light of the commission's overall budget and mission.
- g. Extenuating factors exist which weigh against the imposition of public discipline.

18.11(2) *Closing orders.* The commission's administrator may enter an order stating the basis for the commission's decision to close a complaint file. If entered, the order cannot contain the identity of the complainant or the respondent, and cannot disclose confidential complaint or investigative information. If entered, closing orders will be indexed by case number and are a public record pursuant to Iowa Code section 17A.3(1) "d." A copy of the order may be mailed to the complainant, if any, and to the respondent. The commission's decision whether or not to pursue an investigation, to institute disciplinary proceedings, or to close a file is not subject to judicial review.

18.11(3) *Cautionary letters.* When a complaint file is closed, the commission may issue a confidential letter of caution to a licensee which informally cautions or educates the licensee about matters which could form the basis for disciplinary action in the future if corrective action is not taken by the licensee. Informal cautionary letters do not constitute disciplinary action, but the commission

may take such letters into consideration in the future if a licensee continues a practice about which the licensee has been cautioned.

18.11(4) *Reopening closed complaint files.* The commission may reopen a closed complaint file if, after closure, additional information arises which provides a basis to reassess the merits of the initial complaint.

193E—18.12(17A,272C,543B) Initiation of disciplinary proceedings. Disciplinary proceedings may only be initiated by the affirmative vote of a majority of a quorum of the commission at a public meeting. Commission members who are disqualified are not included in determining whether a quorum exists. When two or more members of the commission are disqualified or otherwise unavailable for any reason, the administrator may request the special appointment of one or more substitute commission members pursuant to Iowa Code section 17A.11(5).

193E—18.13(17A,272C,543B) Disciplinary contested case procedures. Unless in conflict with a provision of Iowa Code chapter 543B or commission rules in this chapter, all of the procedures set forth in 193—Chapter 7 applies to disciplinary contested cases initiated by the commission.

193E—18.14(272C,543B) Disciplinary sanctions.

18.14(1) *Type of sanctions.* The commission has authority to impose, alone or in combination, the following disciplinary sanctions:

- a.* Revocation of a license.
- b.* Suspension of a license for a period of time or indefinitely.
- c.* Nonrenewal of a license.
- d.* Ban permanently, until further order of the commission, or for a specified period of time, the engagement in specified procedures, methods or acts.
- e.* Probation. As a condition to a period of probation, the commission may impose terms and conditions deemed appropriate by the commission including, but not limited to, substance abuse evaluation and such care and treatment as recommended in the evaluation or otherwise appropriate under the circumstances.
- f.* Mandate additional continuing education. The commission may specify that a designated amount of continuing education be taken in specific subjects and may specify the time period for completing these courses. The commission may also specify whether this continuing education be in addition to the continuing education routinely needed for license renewal. The commission may also specify that additional continuing education be a condition for the termination of any suspension or reinstatement of a license.
- g.* Require reexamination.
- h.* Impose a monitoring or supervision arrangement.
- i.* Downgrade a license from a broker license to a salesperson license.
- j.* Issue a reprimand.
- k.* Order a physical or mental examination with periodic reports to the commission, if deemed necessary.
- l.* Impose civil penalties, the amount of which is at the discretion of the commission, but does not exceed \$2,500 per violation as authorized by Iowa Code section 543B.48. Civil penalties may be imposed for any of the disciplinary violations specified in rule 193E—18.2(17A,272C,543B) and as listed in subrule 18.14(5).

18.14(2) *Imposing discipline.* Discipline may only be imposed against a licensee by the authorization of Iowa Code section 272C.6(5). When determining the nature and severity of the sanction to be imposed against a particular licensee or groups of licensees, the commission may consider the following factors:

- a.* The relative seriousness of the violation as it relates to assuring the citizens of this state professional competency.
- b.* The facts of the particular violation.

- c. Number of prior violations.
- d. Seriousness of prior violations.
- e. Whether remedial action has been taken.
- f. The impact of the particular activity upon the public.
- g. Such other factors as may reflect upon the competency, ethical standards and professional conduct of the licensee, including those listed in subrule 18.14(6).

18.14(3) *Voluntary surrender.* The commission may accept the voluntary surrender of a license to resolve a pending disciplinary contested case or pending disciplinary investigation. The commission cannot accept a voluntary surrender of a license to resolve a pending disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. Such a voluntary surrender is considered disciplinary action and is published in the same manner as is applicable to any other form of disciplinary order.

18.14(4) *Notification criteria.* Whenever a broker's license is revoked, suspended, limited, or voluntarily surrendered under this chapter, the licensee follows the procedures set forth in rule 193E—7.3(543B). Strict compliance with these procedures is a condition for an application for reinstatement. Whenever a salesperson's or broker associate's license is revoked, suspended, limited, or voluntarily surrendered under this chapter, the licensee immediately notifies the licensee's broker, and:

a. Within seven days of receipt of the commission's final order, notifies in writing all clients of the fact that the license has been revoked, suspended, limited, or voluntarily surrendered. Such notice advises the client to immediately contact the broker, unless the limitation at issue would not impact the real estate services provided for that client.

b. Within 30 days of receipt of the commission's final order, the licensee files with the commission copies of the notices sent pursuant to paragraph 18.14(4) "a." Compliance with this criteria is a condition for an application for reinstatement.

18.14(5) *Violations for which civil penalties may be imposed.* The following is a nonexclusive list of violations upon which civil penalties may be imposed:

- a. Engaging in activities requiring a license when license is inactive.
- b. Failing to maintain a place of business.
- c. Improper care and custody of license:
 - (1) Failing to properly display license(s).
 - (2) Failing to return license in a timely manner (received within 72 hours as provided by 193E—subrules 6.1(1) and 6.1(2)).
 - (3) Failing to notify associate when license is returned.
 - (4) Failing to provide mailing address of associate when license is returned.
- d. Failing to inform commission and remit necessary fees if appropriate:
 - (1) When changing business address (five working days).
 - (2) When changing status (five working days).
 - (3) When changing form of firm (five working days).
 - (4) When opening a trust account by not filing a consent to examine for the account.
 - (5) When changing residence address or mailing address (five working days).
 - (6) When independently obtained errors and omissions insurance status, coverage or provider changes (five working days).
- e. Maintaining inadequate transaction records such as:
 - (1) Failing to maintain a general ledger.
 - (2) Failing to maintain individual account ledgers.
 - (3) Failing to retain records on file.
- f. Improper trust account and closing procedures:
 - (1) Failing to deposit funds as necessary.
 - (2) Disbursing trust funds prior to closing without written authorization.
 - (3) Withholding earnest money unlawfully when the transaction fails to consummate.
 - (4) Failing to obtain escrow agreement for undisbursed funds.
 - (5) Failing to remit and account for interest on closing statements.

- (6) Computing closing statements improperly.
- (7) Failing to provide closing statements.
- (8) Retaining excess personal funds in the trust account.
- (9) Failing as a salesperson or broker associate to immediately turn funds over to the broker.
- (10) Failing to deposit trust funds in interest-bearing account in accordance with Iowa Code section 543B.46.
- (11) Failing to account for and remit to the state accrued interest due in accordance with Iowa Code section 543B.46.
 - g.* Failing to immediately present offer.
 - h.* Advertising without identifying broker or clearly indicating advertisement is by a licensee.
 - i.* Failing to provide information to the commission when requested relative to a complaint (14 calendar days).
 - j.* Failing to obtain all signatures needed on contracts or to obtain signatures or initials of all parties to changes in a contract.
 - k.* Placing a sign on property without consent, or failure to remove a sign when requested.
 - l.* Failing to furnish a progress report when requested.
 - m.* Failing by a broker to supervise salespersons or broker associates.
 - n.* Failing by a broker associate or salesperson to keep the employing broker informed.
 - o.* Issuing an insufficient funds check to the commission for any reason or to anyone else in the individual's capacity as a real estate licensee.
 - p.* Issuing an insufficient funds check on the broker's trust account.
 - q.* Engaging in conduct which constitutes a barred practice or tying arrangement as banned by these rules.
 - r.* Failing to inform clients of real estate brokerage firm of the date the firm will cease to be in business and the effect upon sellers' listing agreements.
 - s.* Violating any of the remaining provisions in 193E—Chapters 1 to 20 inclusive, which have not heretofore been specified in this rule.

18.14(6) Amount of civil penalties. Factors the commission may consider when determining whether to assess and the amount of civil penalties include:

- a.* Whether other forms of discipline are being imposed for the same violation.
- b.* Whether the amount imposed will be a substantial deterrent to the violation.
- c.* The circumstances leading to the violation.
- d.* The severity of the violation and the risk of harm to the public.
- e.* The economic benefits gained by the licensee as a result of the violation.
- f.* The interest of the public.
- g.* Evidence of reform or remedial action.
- h.* Time elapsed since the violation occurred.
- i.* Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.
- j.* The clarity of the issues involved.
- k.* Whether the violation was willful and intentional.
- l.* Whether the licensee acted in bad faith.
- m.* The extent to which the licensee cooperated with the commission.
- n.* Whether the licensee with a lapsed, inactive, suspended, limited or revoked license improperly engaged in practices which need licensure.

193E—18.15(17A,272C,543B) Reinstatement. The term “reinstatement” as used in this rule includes both the reinstatement of a suspended license and the issuance of a new license following the revocation, voluntary revocation, or voluntary surrender of a license.

18.15(1) Any person whose license has been revoked or suspended by the commission, or who has voluntarily surrendered a license to the commission or has agreed to a voluntary revocation of a license,

may apply to the commission for reinstatement in accordance with the terms of the order of revocation, voluntary surrender, voluntary revocation, or suspension.

18.15(2) Unless otherwise provided by law, if the order of revocation, voluntary revocation, voluntary surrender, or suspension did not establish terms upon which reinstatement might occur, initial application for reinstatement cannot be made until at least two years have elapsed from the date of the order or the date the commission accepted the order.

18.15(3) Following the revocation or surrender of a broker or salesperson license, an applicant for reinstatement, as a condition of reinstatement, start over as an original applicant for a salesperson license, regardless of the type of license the applicant previously held. The applicant is obligated to satisfy all preconditions for licensure as a salesperson.

18.15(4) In addition to the provisions of rule 193—7.38(17A,272C), the following provisions apply to license reinstatement proceedings:

a. The commission may grant an applicant's request to appear informally before the commission prior to the issuance of a notice of hearing on an application to reinstate if the applicant requests an informal appearance in the application and agrees not to seek to disqualify, on the ground of personal investigation, commission members or staff before whom the applicant appears.

b. An order granting an application for reinstatement may impose such terms and conditions as the commission deems desirable, which may include one or more of the types of disciplinary sanctions described in rule 193E—18.14(543B).

c. The commission cannot grant an application for reinstatement when the initial order which revoked, suspended or limited the license; denied license renewal; or accepted a voluntary surrender was based on a criminal conviction and the applicant cannot demonstrate to the commission's satisfaction that:

- (1) All terms of the sentencing or other criminal order have been fully satisfied;
- (2) The applicant has been released from confinement and any applicable probation or parole; and
- (3) Restitution has been made or is reasonably in the process of being made to any victims of the crime.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 19
“Requirements for Mandatory Errors and Omissions Insurance”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 543B

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

These proposed rules provide definitions and requirements for licensees to carry errors and omissions (E&O) insurance. The rules specify the minimum amount of insurance that is required and the minimum deductible required for each policy. The rules also set the guidelines for compliance with E&O insurance requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for covering the cost of the premium for their E&O insurance policy.

- Classes of persons that will benefit from the proposed rulemaking:

The public benefits from these proposed rules because the rules ensure the public has a method of recourse should a real estate agent make a mistake that causes damages to an individual.

The licensee also benefits from these rules by having an insurance policy to back up the licensee should a claim be filed against the licensee for an act committed or omitted during a real estate transaction.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

While there is no direct cost to the public for these proposed rules, licensees do bear the costs of carrying the E&O insurance policy. Insurance policies are provided by private insurance companies, and costs vary depending on the licensee’s history, experience and claims history. The Real Estate Commission (Commission) is not privy to the exact cost of E&O coverage.

- Qualitative description of impact:

The exact cost of E&O coverage is unknown by the Commission. The Commission does recognize that this is a significant cost to the licensee. However, the cost to the public could be significantly higher if insurance rules were not in place for real estate licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with carrying E&O insurance are paid to insurance companies that provide the coverage, not the State. There is no anticipated impact from these proposed rules on state revenues.

Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating the need for E&O coverage would lower the cost to the licensee to meet this requirement. The Commission believes with rising property costs and inflation, the current guidelines for minimum coverage on an E&O insurance policy are effective to protect the public.

The Commission believes there could be a negative impact to the public if the E&O requirement was reduced or eliminated. This could lead to more complaints, investigations, and, ultimately, public discipline.

There would be a loss of revenue for the private insurance industry that offers these insurance policies.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be reducing or eliminating the requirement for E&O insurance coverage. The Commission believes there could be a negative impact on the public if the E&O requirement was reduced or eliminated. With rising property costs and inflation, the Commission believes the minimum requirements set in these proposed rules adequately protect the public.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Commission has not identified a more cost-effective or less restrictive alternative to the E&O requirement, other than reducing coverage. E&O insurance minimum coverages could be reduced or eliminated for the purpose of lowering the cost of the insurance premium for licensees, but the Commission would be concerned that the insurance coverage would not adequately protect the public should a claim arise.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Commission has not identified a more cost-effective alternative to the proposed E&O coverage requirement. The Commission believes the minimum requirements set out in these proposed rules ensure Iowans receive high-quality services and are protected in the case of an error or omission on the part of the real estate licensee during the transaction.

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of the changes to this chapter. The proposed rules relate to high-stakes public safety concerns and ensure that Iowans receive competent real estate services and that, if services are not competent, the public is protected from financial loss. While some real estate licensees may work for themselves or a small business, others work for large corporations and agencies. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business. Additionally, the proposed insurance requirements are in place to protect the small business should a claim arise against the small business or one of its agents. Should an individual licensee find a requirement to be overly burdensome, the licensee could utilize the established waiver process to request a waiver from the requirement.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 19 and adopt the following **new** chapter in lieu thereof:

CHAPTER 19
REQUIREMENTS FOR MANDATORY ERRORS AND OMISSIONS INSURANCE

193E—19.1(543B) Insurance definitions.

“*Aggregate limit*” is a provision in an insurance contract limiting the maximum liability of an insurer for a series of losses in a given time period such as the policy term.

“*Claims-made*” means policies written under a claims-made basis will cover claims made (reported or filed) during the year the policy is in force for incidents which occur that year or during any previous period the policyholder was insured under the claims-made contract. This form of coverage is in contrast to the occurrence policy which covers today’s incident regardless of when a claim is filed even if it is one or more years later.

“*Extended reporting period*” is a designated period of time after a claims-made policy has expired during which a claim may be made and coverage triggered as if the claim had been made during the policy period.

“*Licensee*” is any active individual broker, broker associate, or salesperson; any partnership; or any corporation.

“*Per claim limit*” means the maximum limit payable, per licensee, for damages arising out of the same error, omission, or wrongful act.

“*Prior acts coverage*” applies to policies on a claims-made versus occurrence basis. Prior acts coverage responds to claims which are made during a current policy period, but the act or acts causing the claim or injuries for which the claim is made occurred prior to the inception of the current policy period.

“*Proof of coverage*” means a copy of the actual policy of insurance, a certificate of insurance or a binder of insurance.

“*Retroactive date*” is a provision found in many claims-made policies. The policy will not cover claims for injuries or damages that occurred prior to the retroactive date even if the claim is first made during the policy period.

“*Umbrella type coverage*” means a policy that provides insurance coverage for the broker or firm and all licensees assigned.

193E—19.2(543B) Insurance criteria—general. The group coverage insurance policy selected by the commission is approved by the Iowa insurance division. As a condition of licensure, all active real estate licensees follow Iowa Code section 543B.47(1) regarding mandatory errors and omissions insurance.

19.2(1) Who submits plan of coverage. The following persons submit proof of insurance when needed or when requested:

- a. Any active individual broker, broker associate, broker sole proprietor or salesperson.
- b. Any active firm.

19.2(2) Inactive status. Individuals whose licenses are on inactive status as defined in Iowa Code section 543B.5(12) do not need to carry errors and omissions insurance as authorized by Iowa Code section 543B.47(1).

19.2(3) Territory. All resident Iowa licensees are covered for activities contemplated under Iowa Code chapter 543B both in and out of the state of Iowa. Nonresident licensees participating under the state plan are not covered both in and out of the state of Iowa unless the state plan selected by the commission will cover participating nonresidents when involved in real estate activities in the nonresident state.

19.2(4) Insurance form. Licensees may obtain errors and omissions coverage through the insurance carrier selected by the commission to provide the group policy coverage. The following are minimum criteria of the group policy to be issued to the Iowa real estate commission including, as named insureds, all licensees who have paid the necessary premium:

- a. All activities contemplated under Iowa Code chapter 543B are included as covered activities;
- b. A per claim limit is not less than \$100,000;
- c. An annual aggregate limit is not less than \$100,000;
- d. Limits are to apply per licensee, per claim;
- e. Defense costs are to be payable in addition to damages;
- f. The contract of insurance pays, on behalf of the insured person(s), liabilities owed.

19.2(5) Contract period. The contract between the insurance carrier or program manager and the commission may be written for a one- to three-year period with the option to renew or renegotiate each year thereafter. The commission reserves the right to terminate the contract after written notice to the carrier at least 120 days prior to the end of any policy term and place the contract out for bid.

- a. Policy periods are not less than 12-month policy terms.
- b. The policy provides full and complete prior acts coverage.

(1) If the licensee purchased full prior acts coverage on or after July 1, 1991, that licensee continues to be guaranteed full prior acts coverage if insurance carriers are changed in the future.

(2) The retroactive date of the master policy is never later than July 1, 1991, for those that can provide proof of continuous coverage to that date.

(3) The retroactive date for each licensee is individually determined by the inception date of coverage and proof of continuous coverage to that date.

(4) The retroactive date for any new licensee who first obtains a license after July 1, 1991, is individually determined by the effective date of the license, the inception date of coverage, and proof of continuous coverage to that date.

19.2(6) Any licensee insured in the state selected program whose license becomes inactive will not be charged an additional premium if the license is reinstated during the policy period.

19.2(7) Any licenses issued at other than renewal and insured by the state selected program are subject to a pro-rata premium.

193E—19.3(543B) Other coverage. Licensees are not mandated to purchase insurance coverage through the group policy selected by the commission and may obtain errors and omissions coverage independently if the coverage contained in the policy complies with the following:

19.3(1) For active individual licensees, all provisions of Iowa Code section 543B.47 apply.

If the other coverage is an individual policy, it is each licensee's responsibility to provide proof of independently carried insurance coverage to the Iowa real estate commission when needed.

19.3(2) For all active partnerships and corporations, otherwise known as firms, all provisions of Iowa Code section 543B.47 apply.

a. If the other coverage is an individual policy covering the firm, it is the designated broker's responsibility to provide proof of the firm's independently carried insurance coverage to the Iowa real estate commission when needed.

b. If the other coverage is an umbrella type policy covering the firm and all licensees assigned that perform real estate activities, it is the responsibility of the designated broker of the firm to provide a list of licensees assigned to the firm that are covered under the firm's insurance policy to the Iowa real estate commission when needed.

19.3(3) For sole-proprietor single license brokers, all provisions of Iowa Code section 543B.47 apply.

a. If the broker's other coverage is an individual policy, it is each licensee's responsibility to provide proof of the independently carried insurance coverage to the Iowa real estate commission when needed, as provided in subrule 19.3(1).

b. If the other coverage is an umbrella type policy covering the broker and all licensees assigned that perform real estate activities, it is the responsibility of the broker to provide a list of licensees assigned to the broker that are covered under the broker's insurance policy to the Iowa real estate commission when needed.

19.3(4) For independently carried individual type coverage, the following apply:

a. All activities contemplated under Iowa Code chapter 543B are included as covered activities.

b. A per claim limit is not less than \$100,000.

c. The maximum deductible for an individual policy for damages and defense, each licensee, and each claim is not more than the deductible of the commission group policy for the current policy term.

19.3(5) For firms and sole-proprietor brokerages with independently carried firm umbrella type coverage, the following apply:

a. All activities contemplated under Iowa Code chapter 543B are included as covered activities.

b. A per claim limit is not less than \$100,000.

c. An aggregate limit is:

(1) Not less than \$250,000 for a broker or firm with two through ten licensees;

(2) Not less than \$500,000 for a broker or firm with 11 through 40 licensees;

(3) Not less than \$1,000,000 for a broker or firm with 41 or more licensees.

d. There is no maximum deductible limit for firm umbrella type coverage policy.

e. If a firm size change or a sole-proprietor brokerage size change results in a higher aggregate minimum criteria, that firm or broker corrects the deficiency within one year, or the next renewal term of the insurance policy, whichever comes first.

19.3(6) To comply with the provisions of the Iowa errors and omissions law, if other independently carried insurance is provided, as proof of errors and omissions coverage for individual or firm umbrella type coverage, the other insurance carrier agrees to either a noncancelable policy, or provides a letter of commitment to notify the Iowa real estate commission 30 days prior to the intention to cancel the policy.

19.3(7) Whenever commission criteria, coverage, or limits change, the commission provides a reasonable transition period to allow the licensee or firm with other coverage the opportunity to change carriers or coverage to comply with all criteria and limits, providing the present policy was in effect and in compliance with all prior criteria. The licensee or firm corrects the deficiency within one year, or not later than the next renewal term of the insurance policy, whichever comes first.

19.3(8) It is the responsibility of each individual licensee to notify the commission when changing insurance status, coverage, or provider when necessary or when requested.

19.3(9) It is the responsibility of the designated broker of the firm to notify the commission when changing insurance status, coverage, or provider when necessary or when requested.

19.3(10) Self-insurance does not comply with the provisions of the Iowa errors and omissions insurance law.

193E—19.4(543B) Administrative criteria—general.

19.4(1) It is the responsibility of the insurance carrier or program manager to obtain approval from the Iowa division of insurance for the group policy before inception of the program or policy period.

19.4(2) It is the responsibility of the insurance carrier or program manager to handle administrative duties relative to operation of the program selected by the commission, including billing and premium collection, toll-free access for questions, and claim processing and general informational mailings.

19.4(3) It is the responsibility of the insurance carrier or program manager to send a billing notice to each licensee.

19.4(4) It is the responsibility of the insurance carrier or program manager to collect all premiums due and verify proper payment.

A schedule of licensees who have paid the proper premium and who have coverage in force is provided electronically to the commission at agreed time intervals.

19.4(5) It is the responsibility of the insurance carrier or program manager to issue individual certificates to each licensee and a master policy to the commission.

19.4(6) It is the responsibility of the insurance carrier or program manager to market its program and to develop and distribute informational brochures about the coverages provided, services available and criteria of Iowa Code section 543B.47.

a. The content of any brochures or other literature provided is the responsibility of the insurance carrier or program manager.

b. Advertising materials may be reviewed by the executive officer for the commission or appropriate staff person for content only and not for a legal determination of compliance with Iowa law or division of insurance criteria.

19.4(7) It is the responsibility of the insurance carrier or program manager to provide educational seminars in the state of Iowa at the request of the commission and subject to terms and conditions agreeable to each party involved.

193E—19.5(543B) Commission responsibilities. The commission provides the insurance carrier or program manager an electronic schedule of all active licensees approximately three months in advance of inception (or renewal), or as otherwise agreed upon, which the insurance carrier or program manager may use to issue billing notices.

19.5(1) The insurance carrier or program manager provides the commission with a schedule of insured licensees. The commission will be responsible for comparing this schedule against its own records to determine which licensees elected not to participate in the state program and those that have failed to furnish the commission with acceptable proof of insurance necessary for continued licensure.

19.5(2) It is the responsibility of the commission to review proof of other insurance received from licensees not participating in the state program and to confirm that the other insurance meets the minimum criteria of these rules.

19.5(3) The commission may mandate that an approved standard form be used to submit proof of other insurance coverage for review.

193E—19.6(543B) Compliance.

19.6(1) The commission needs receipt of proof of errors and omissions insurance from new licensees before the license is issued.

19.6(2) The commission needs receipt of proof of errors and omissions insurance from the applicant before reinstating an expired license.

19.6(3) The commission needs receipt of proof of errors and omissions insurance before reactivating an inactive status license to active status.

19.6(4) Applicants for license renewal attest and certify that they have current errors and omissions insurance in effect that meets Iowa insurance criteria.

a. The commission will verify by random audit or on a test basis the insurance compliance attested to by the licensee.

b. Licensees participating in the state group program cannot be audited if commission records indicate the insurance carrier or program manager has submitted current proof of coverage.

c. Licensees with other insurance coverage cannot be audited if commission records indicate the current proof of coverage has been submitted.

d. The commission may random audit by any factor as will provide a reasonable sampling given the volume, purpose and scope of audit.

e. The commission may random audit as the result of any complaint filed with the commission whether or not adequate insurance coverage was questioned in the complaint.

f. The commission may audit compliance with insurance coverage at any time the commission has reasonable cause to question a licensee's compliance.

19.6(5) A licensee is needed to carry insurance on an uninterrupted basis and cannot avoid discipline simply by acquiring insurance after receipt of an audit notice.

19.6(6) Failure to comply with Iowa Code section 543B.47(6) within 20 calendar days of the commission's request is prima facie evidence of a violation of Iowa Code sections 543B.15(5) and 543B.47(1) and is grounds for the denial of an application for licensure, the denial of an application to renew a license, or the suspension or revocation of a license.

19.6(7) Submitting false documentation of insurance coverage, or falsely claiming to have or attesting to having insurance coverage, is prima facie evidence of violation of Iowa Code sections 543B.29(1) and 543B.34(1).

19.6(8) Failure to provide required proof of insurability within 30 days of written notice by the commission results in the placement of the license on inactive status. A license that has been placed on inactive status pursuant to this provision is not reactivated until satisfactory evidence has been provided verifying that coverage is current and in full force and effect.

193E—19.7(543B) Records and retention. It is the responsibility of the licensee to maintain records which support the validity of the insurance. Documentation is retained by the licensee for a period of three years after the license renewal date or the anniversary of the license renewal date.

These rules are intended to implement Iowa Code chapters 17A, 272C and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 20
“Time-Share Filing”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter sets forth time-share filing requirements to time-share companies. This is strictly a marketing chapter for time-share companies to follow. Iowa Code chapter 557A covers laws that the companies will have to abide by. The intended benefit of this chapter is meant to be informational to the public regarding marketing in Iowa.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

This proposed chapter provides administrative background on time-share filing requirements. The Real Estate Commission (Commission) only has jurisdiction over the filing of time shares. The Commission does not have jurisdiction over the time-share companies. This proposed chapter is simply a requirement for companies to advertise their available time share in Iowa.

Only time-share companies bear the costs of this chapter.

- Classes of persons that will benefit from the proposed rulemaking:

The general public benefits from the knowledge of this proposed chapter. However, all time-share laws are covered under Iowa Code chapter 557A.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The cost of the time-share filing is not changing. The proposed rule imposes a basic filing fee of \$100, plus an additional fee of \$25 for every 100 time-share intervals or fraction thereof included in the offering. Registration fees are not changing, either. Those fees remain \$50 for a registration fee with

a prior registration, plus an additional fee of \$25 for every 100 time-share intervals or fraction thereof included in the offering. If there happens to be more time share filings, the state would incur a higher fiscal impact.

- Qualitative description of impact:

The proposed chapter makes time shares more accessible and provides a larger pool for Iowans to choose from when seeking services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed chapter on state revenues, unless more filings happen to take place.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

None in this chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no rejections of alternative methods by the Commission for this proposed chapter. There is little information in this chapter. There were no alternative methods suggested.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Little to no impact on small business is anticipated as a result of the proposed chapter.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 20 and adopt the following **new** chapter in lieu thereof:

CHAPTER 20
TIME-SHARE FILING

193E—20.1(557A) Time-share interval filing fees. Each initial filing made pursuant to Iowa Code sections 557A.11 and 557A.12 are accompanied by a basic filing fee of \$100 plus \$25 for every 100 time-share intervals or fraction thereof included in the offering.

20.1(1) A registration fee is paid with the filing of an application for registration consolidating additional time-share intervals with a prior registration and a fee of \$50 plus an additional fee of \$25 for every 100 time-share intervals or fraction thereof included in the offering.

20.1(2) A fee is not charged for amendments to the property report as a result of amendments to the initial filing, unless the commission determines the amendments are made for the purpose of avoiding the payment of a fee, in which event the amendment may be treated as an application for registration consolidating additional time-share intervals with a prior registration.

This rule is intended to implement Iowa Code chapter 557A.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193E—Chapter 21
“Enforcement Proceedings Against Unlicensed Persons”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 543B
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Renee Paulsen
200 East Grand Avenue, Suite 350
Des Moines, Iowa 50309
Phone: 515.725.9028
Email: renee.paulsen@dia.iowa.gov

Purpose and Summary

This proposed chapter provides Iowans protection from unlicensed real estate practice. The chapter allows the Real Estate Commission (Commission) enforcement against unlicensed practice. The Commission sees a number of complaints against unlicensed individuals and companies every year. The rules provide guidelines for discipline the Commission may impose following a complaint and investigation.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to implement this proposed chapter. This chapter is related to unlicensed practices, and individuals who are found practicing without a license who could bear the cost of licensure and civil penalties imposed.

- Classes of persons that will benefit from the proposed rulemaking:

Licenseses, future licenseses, and the general public. The intended benefit of these proposed rules is to ensure public safety and maintain a high level of care for Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is a potential cost to unlicensed individuals where a cease and desist is issued with a disciplinary action of a civil penalty.

- Qualitative description of impact:

This proposed chapter provides an understanding of what actions the Commission may take against someone practicing real estate licensee duties without proper licensure. Establishing minimum requirements and imposing discipline on unlicensed practice when requirements are not met ensures safety for the public. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against an unlicensed person who violates any rules of the Commission.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to manage Commission activities, which include managing all chapters of the Commission's rules. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

Costs associated with implementing these proposed rules are paid by individuals or establishments, not the State. Staff salaries to support the work of the Commission are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefits are less restrictive language and consolidation of chapters, which simplify rules and provide better understanding to the public, licensees and future licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

As mentioned above, there is little or no cost implication. The Commission is taking the less intrusive route by removing the restrictive language in the proposed chapter. The Commission has not identified a less restrictive alternative to protect the public against unlicensed practice.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

None in this chapter. The Commission was not interested in making changes to this proposed chapter. The Commission has strong feelings against unlicensed practice.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There were no alternative methods proposed in this proposed chapter by the Commission. This chapter is strictly for the protection of the public.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rules are meant to ensure public safety in terms of practice standards for real estate. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193E—Chapter 21 and adopt the following **new** chapter in lieu thereof:

CHAPTER 21
ENFORCEMENT PROCEEDINGS AGAINST UNLICENSED PERSONS

193E—21.1(17A,543B) Civil penalties against unlicensed persons.

21.1(1) Commission authority. The commission is authorized to issue a cease and desist order and to impose a civil penalty as authorized by Iowa Code section 543B.34(3) against any person who is not licensed by the commission but who acts in the capacity of a real estate broker or salesperson.

21.1(2) Unlicensed person. An “unlicensed person” includes any individual or business entity that has never been licensed by the commission, has voluntarily surrendered a license issued by the commission, or has allowed a license issued by the commission to lapse and the time in which the license could have been reinstated pursuant to rule 193E—3.6(272C,543B) or 193E—4.6(272C,543B) has passed.

193E—21.2(17A,543B) Unlawful practices. Practices by unlicensed persons which are subject to civil penalties include, but are not limited to:

1. Acts or practices by unlicensed persons which need licensure pursuant to Iowa Code sections 543B.1, 543B.3, and 543B.6, which do not fall into the exceptions listed in Iowa Code section 543B.7.
2. Violating Iowa Code section 543B.1.
3. Violating one or more of the provisions of Iowa Code section 543B.34 as they relate to acts or practices by unlicensed persons.
4. Use or attempted use of a licensee’s license or an expired, suspended, revoked, or nonexistent license.
5. Falsely impersonating a licensed real estate professional.
6. Providing false or forged evidence of any kind to the commission in obtaining or attempting to obtain a license.
7. Knowingly aiding or abetting an unlicensed person in any activity identified in this rule.

193E—21.3(17A,543B) Investigations. The commission is authorized by Iowa Code sections 17A.13(1) and 543B.34(3) to conduct such investigations as are needed to determine whether grounds exist to issue a cease and desist order and to impose civil penalties against an unlicensed person. Such investigations conform to the procedures outlined in 193—Chapter 6 and 193E—Chapter 18. Complaint and investigatory files concerning unlicensed persons are not confidential except as may be provided in Iowa Code chapter 22.

193E—21.4(17A,543B) Subpoenas. Pursuant to Iowa Code sections 17A.13(1) and 543B.34, the commission is authorized in connection with an investigation of an unlicensed person to issue subpoenas to compel persons to produce books, papers, records and any other real evidence, whether or not

privileged or confidential under law, which the commission deems necessary as evidence in connection with the civil penalty proceeding or relevant to the decision of whether to initiate a civil penalty proceeding. Commission procedures concerning investigatory subpoenas are set forth in 193—Chapter 6.

193E—21.5(17A,543B) Notice of intent to impose civil penalty. Prior to issuing a cease and desist order and imposing a civil penalty against an unlicensed person, the commission provides the unlicensed person written notice and the opportunity to request a contested case hearing. Notice of the commission’s intent to issue a cease and desist order and to impose a civil penalty are served by certified mail, return receipt requested, or personal service in accordance with Iowa R. Civ.P. 1.305. Alternatively, the unlicensed person may accept service personally or through authorized counsel. The notice includes the following:

1. A statement of the legal authority and jurisdiction under which the proposed cease and desist order would be issued and the civil penalty would be imposed.
2. Reference to the particular sections of the statutes and rules involved.
3. A short, plain statement of the alleged unlawful practices.
4. The dollar amount of the proposed civil penalty and the nature of the intended order to obligate compliance with Iowa Code chapter 543B.
5. Notice of the unlicensed person’s right to a hearing and the time frame in which hearing is requested.
6. The address to which written request for hearing is made.

193E—21.6(17A,543B) Requests for hearings.

21.6(1) Unlicensed persons request a hearing within 30 days of the date the notice is received if served through certified mail, or within 30 days of the date of service if service is accepted or made in accordance with Iowa R. Civ.P. 1.305. A request for hearing is in writing and is deemed made on the date of the nonmetered United States Postal Service postmark or the date of personal service.

21.6(2) If a request for hearing is not timely made, the commission chair or the chair’s designee may issue an order imposing a civil penalty and compliance with Iowa Code chapter 543B, as described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

21.6(3) If a request for hearing is timely made, the commission issues a notice of hearing and conducts a contested case hearing in the same manner as applicable to disciplinary cases against licensees. Rules governing such hearings may be found in 193—Chapter 7 and 193E—Chapter 18.

21.6(4) An unlicensed person who fails to timely request a contested case hearing has failed to exhaust “adequate administrative remedies” as that term is used in Iowa Code section 17A.19(1).

21.6(5) An unlicensed person who is aggrieved or adversely affected by the commission’s final decision following a contested case hearing may seek judicial review as provided in Iowa Code section 17A.19.

21.6(6) An unlicensed person may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty and compliance with Iowa Code chapter 543B at any stage of the proceeding upon mutual consent of the commission.

21.6(7) The notice of intent to issue an order and the order are public records available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be published as provided in 193—subrule 7.30(2). Hearings are open to the public.

193E—21.7(17A,543B) Alternative procedure. The commission may, as an alternative to the notice and request for hearing procedures described in rules 193E—21.5(17A,543B) and 193E—21.6(17A,543B), issue a statement of charges and notice of hearing in a format similar to that used for licensee discipline.

193E—21.8(17A,543B) Factors to consider. The commission may consider the following when determining the amount of civil penalty to impose, if any:

1. Whether the amount imposed will be a substantial economic deterrent to the violation.
2. The circumstances leading to the violation.
3. The severity of the violation and the risk of harm to the public.
4. The economic benefits gained by the violator as a result of noncompliance.
5. The interest of the public.
6. The time lapsed since the unlawful practice occurred.
7. Evidence of reform or remedial actions.
8. Whether the violation is a repeat offense following a prior warning letter or other notice of the nature of the infraction.
9. Whether the violation involved an element of deception.
10. Whether the unlawful practice violated a prior order of the commission, court order, cease and desist agreement, consent order, or similar document.
11. The clarity of the issue involved.
12. Whether the violation was willful and intentional.
13. Whether the unlicensed person acted in bad faith.
14. The extent to which the unlicensed person cooperated with the commission.

193E—21.9(17A,543B) Enforcement options. In addition, or as an alternative, to the administrative process described in these rules, the commission may seek an injunction in district court, enter into a consent agreement with the unlicensed person, or issue an informal cautionary letter.

These rules are intended to implement Iowa Code chapters 17A and 543B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 701—Chapters 202, 204, 209, and 288
“Exemption Certificates”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 421.14, 422.68, and 423.42
State or federal law(s) implemented by the rulemaking: Iowa Code sections 423.2, 423.3, 423.31, 423.45, and 423.51

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 to 11 a.m.

Via video/conference call:
meet.google.com/pmv-smfj-zwf
Or dial: 1.413.369.1186
PIN: 243 048 107#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Revenue no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nick Behlke
Department of Revenue
Hoover State Office Building
P.O. Box 10457
Des Moines, Iowa 50306-3457
Phone: 515.336.9025
Email: nick.behlke@iowa.gov

Purpose and Summary

The purpose of this proposed rulemaking is to adopt new rules 701—202.17(423) and 701—204.8(423), adopt new 701—Chapter 209, and rescind and reserve 701—Chapter 288. 701—Chapter 288 contained a number of rules that the Department has determined are either unnecessary, obsolete, or duplicative of statutory language and that should be rescinded. Further, the Department determined that rules on returned merchandise, freight and other transportation charges, and premiums and gifts were better suited to be included in 701—Chapters 202, 204, and 213, which align more with those rules’ subject matters. Regulatory analyses for 701—Chapters 202 (IAB 10/18/23) and 204 (IAB 10/4/23) have already been published, so the rules that will be adopted and added to those chapters are included in this proposed rulemaking. The Regulatory Analysis for 701—Chapter 213 is published herein (IAB 11/1/23), so the rule that is being moved there is provided for in that Regulatory Analysis.

Additionally, the Department determined that the rule that described the Department’s interpretation of the underlying statutes relating to the use of exemption certificates would be better suited in a chapter solely on that topic, so the Department proposes readopting and moving it into 701—Chapter 209, which was previously reserved, in order to provide easier accessibility to the public. The Department proposes revisions to that rule in order to provide for better organization and clarification and to remove unnecessary, obsolete, and duplicative statutory language.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs of the proposed rulemaking beyond those that are imposed by the underlying statutes.

- Classes of persons that will benefit from the proposed rulemaking:

The public will benefit from the proposed rulemaking since revising and reorganizing rules on the topic of exemption certificates into a separate chapter will provide easier accessibility to those rules and reduce confusion about the applicability and use of exemption certificates on purchases. Further, the public will benefit from the placement of rules on returned merchandise, freight and other transportation charges, and premiums and gifts into chapters that better align with those subject matters.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is no economic impact associated with the proposed rulemaking beyond what is contained in the underlying statutes. There may be some quantitative impact on purchasers and sellers in using and accepting exemption certificates; however, there are multiple methods of exemption certification, including not using a specific form but just collecting the needed information, which is provided for in the rules on exemption certificates. The forms, in addition to the other methods, used in conjunction with the proposed rulemaking may have a positive quantitative impact for purchasers and sellers by clearly explaining the applicability, information required, and use of exemption certificates, reducing the likelihood of confusion and overcollection of tax on what is an exempt purchase.

- Qualitative description of impact:

The proposed rulemaking will reduce uncertainty about the use of exemption certificates since the rules on that topic will be in a chapter with that singular topic and other rules will be moved into chapters that better align with the subject matter of those rules, enabling the public to find guidance on those subjects in a more efficient manner. Further, the proposed revisions to the rules will add clarity, and obsolete and unnecessary language and rules will be eliminated, reducing confusion.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the Department to implement the proposed rulemaking beyond what would otherwise be required to administer the underlying statutes.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues, although the revision of repromulgated rules and the elimination of rules that are no longer necessary or are obsolete will provide clarity to the public, making it less likely that tax will be collected on what is an exempt sale or overcollected on what is a taxable sale.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There is no benefit to retaining 701—Chapter 288 since the rules that it contained were better suited to other chapters with more aligned subject matters or were no longer needed since they were obsolete or duplicated statutory language. The cost of inaction of updating the rules in the proposed rulemaking and placing them in better-suited chapters would lead to confusion and frustration. The benefits to the proposed rulemaking are to eliminate unnecessary and obsolete language and rules and to make it easier for the public to find guidance on topics by placing rules in chapters with similar topics.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The purpose is to provide guidance about the use and applicability of exemption certificates along with the taxability of certain purchases. The Department

considered what information to provide in the rules and what information is provided on forms used for exemption certificates and concluded that this proposed rulemaking in conjunction with the available forms will help guide purchasers and sellers to provide and obtain the needed information when utilizing and accepting exemption certificates on purchases.

The Department considered the option of not implementing rules and determined the amendment and retention of some rules while eliminating others in addition to placing the retained rules in chapters more aligned to their subject matters would provide useful assistance to the public and reduce confusion.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department considered the option of not implementing rules; however, it determined that the proposed rulemaking, in conjunction with the use of the applicable forms, was necessary to provide guidance and clarification to the public beyond what is provided in the underlying statutes.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Department determined that retention of rules in the proposed rulemaking with the proposed revisions will reduce confusion about the subjects of those rules. Proceeding without rules could negatively impact the public by limiting their knowledge about the applicability and procedures related to the use of exemption certificates.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking does not have a substantial impact on small business since it does not make any distinctions based on the size of a business and does not impose any requirements on businesses, other than what is imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Adopt the following **new** rule 701—202.17(423):

701—202.17(423) Returned merchandise. When merchandise is sold and returned by a customer who secures an allowance or a return of the full purchase price, the seller may deduct the amount allowed as full credit or refund, provided the merchandise is taxable merchandise and tax has been previously paid on the sales price. No allowance is to be made for the return of any merchandise which (1) is exempt from either sales or use tax; or (2) has not been reported in the taxpayer's tax previously paid.

This rule is intended to implement Iowa Code section 423.31.

ITEM 2. Adopt the following new rule 701—204.8(423):

701—204.8(423) Freight, other transportation charges, and exclusions from the exemption applicable to these services. The determination of whether freight and other transportation charges is subject to sales or use tax is dependent upon the terms of the sale agreement.

204.8(1) Charges separately stated. When tangible personal property or a taxable service is sold at retail in Iowa or purchased for use in Iowa and under the terms of the sale agreement the seller is to deliver the property to the buyer or the purchaser is responsible for delivery and such delivery charges are stated and agreed to in the sale agreement or the charges are separate from the sale agreement, the sales price of the freight or transportation charges is not subject to tax. This exemption does not apply to the service of transporting electrical energy or the service of transporting natural gas.

204.8(2) Charges not separately stated. When freight and other transportation charges are not separately stated in the sale agreement or are not separately sold, the sales price of the freight or transportation charges become a part of the sales price of the sale of tangible personal property or a taxable service and are subject to tax. Where a sales agreement exists, the freight and other transportation charges are subject to tax unless the freight and other transportation charges are separately contracted. If the written contract contains no provisions separately itemizing such a charge, tax is due on the full contract price with no deduction for transportation charge, regardless of whether or not such transportation charges are itemized separately on the invoice.

204.8(3) Exemption. The sales price from charges for delivery of electricity or natural gas are exempt from tax to the extent that the sales price from the sale, furnishing, or service of electricity or natural gas or its use are exempt from sales or use tax under Iowa Code chapter 423. The exclusions from this exemption relating to the transportation of natural gas and electricity are applicable to all contracts for the performance of these transportation services. Below are examples which explain some of the principal circumstances in which the transport of natural gas or electricity is a service subject to tax.

204.8(4) Applicable charges. Freight and transportation charges include, but are not limited to, the following charges or fees: freight, transportation, shipping, delivery, or trip charges.

204.8(5) Examples.

EXAMPLE 1: Consumer ABC, located in Des Moines, contracts with supplier DEF, located in Waterloo, for DEF to sell gas and electricity to ABC. ABC then contracts with utility GHI to transport the energy over GHI's network (of pipes or wires) from Waterloo to ABC's facility in Des Moines. GHI's transport of ABC's energy is a taxable service. The transportation of natural gas and electricity by a utility is a taxable service of furnishing natural gas or electricity whether or not that utility or some other utility produces the natural gas or generates the electricity furnished. A utility's transportation of gas or electricity is a "transportation service" specifically excluded from the exemption in Iowa Code section 423.3(70).

EXAMPLE 2: Consumer ABC contracts with utility DEF for DEF to provide electricity from DEF's generating plant in Mason City to ABC's location in Cedar Rapids. Transport of the electricity is by way of DEF's network of long-distance transmission lines. The contract between ABC and DEF states the prices to be paid for the purchase of various amounts of electricity and also sets out the amounts to be paid for transport of electricity and constitutes separate sales of electricity and transportation services. In these circumstances, amounts which ABC pays DEF for transport of the electricity are taxable.

EXAMPLE 3: As in Example 2, consumer ABC contracts with utility DEF for the delivery of electricity from DEF's generating plant in Mason City to ABC's location in Cedar Rapids, ownership of the electricity to pass to ABC in Cedar Rapids. Also, as in Example 2, the contract between ABC and DEF states varying prices to be paid for the purchase and transportation of varying amounts of electricity and constitutes separate sales of electricity and transportation services. Transport of the electricity will be by way of GHI's transmission lines. DEF contracts with GHI for the transport of the electricity to ABC's plant in Cedar Rapids. At the time the contract is signed, GHI asks DEF for an exemption certificate stating that DEF will resell GHI's transportation service to ABC. GHI must either secure the certificate or collect Iowa sales tax from DEF. GHI is furnishing a taxable electricity transportation service to DEF, which DEF will in turn furnish to ABC. DEF must collect tax from ABC.

EXAMPLE 4: In this example, the same contract exists between ABC and DEF as exists in Example 3. However, in this example, a breakdown at DEF's plant in Mason City prevents DEF from generating the electricity which it is contractually obligated to provide to ABC. DEF is forced to purchase both electricity and its transport from JKL. The contract between DEF and JKL states the prices to be paid for the purchase of various amounts of electricity and also sets out the amounts to be paid for the transport of this electricity and constitutes separate sales of electricity and transportation services. JKL asks DEF for an exemption certificate stating that DEF has purchased the electricity and its transport for resale to ABC. In this case, JKL must secure an exemption certificate from DEF to avoid collecting tax on its sale and transport of the electricity for DEF.

EXAMPLE 5: Again, ABC and DEF have contracted, as they did in Example 2, for DEF to sell and transport electricity from Mason City to Cedar Rapids. However, their agreement mentions only one combined price for sale and delivery of the electricity. There is no separately contracted price for transport of the electricity, in contrast to the situation in Example 2. In this case, the entire amount which ABC pays to DEF is taxable as the entire amount paid is for the sale of tangible personal property.

EXAMPLE 6: Manufacturer EFG contracts with utility DEF for the purchase of natural gas with a separate contract for its delivery. The gas is to be transported from DEF's storage facility near Osceola to EFG's manufacturing plant in Fort Dodge by way of DEF's pipeline. Ownership of the gas passes from DEF to EFG in Fort Dodge. EFG uses 92 percent of the gas which is transported to its plant in processing the tangible personal property manufactured there. The receipts which EFG pays DEF for the transport of the gas are excluded from the transportation exemption, but they are not excluded from the processing exemption. Ninety-two percent of those receipts are exempt from tax because that is the percentage of gas used by EFG in processing. In addition, utility DEF charges manufacturer EFG \$9.95 as a delivery fee for the gas. Since the purchase of the gas has a 92 percent exemption from Iowa sales tax because of a 92 percent usage in processing, 92 percent of the delivery charge of \$9.95 is also exempt from tax.

This rule is intended to implement Iowa Code sections 423.2 and 423.3.

ITEM 3. Adopt the following **new** 701—Chapter 209:

CHAPTER 209 EXEMPTION CERTIFICATES

701—209.1(423) Exemption certificates.

209.1(1) General provisions. A valid exemption certificate, whether furnished by the department or a seller must be fully completed, dated, and signed if a paper certificate is used.

a. A fully complete exemption certificate must include the following information:

- (1) Name of both the purchaser and seller.
- (2) The purchaser's address and type of business (e.g., retailer, manufacturer).
- (3) Reason for tax-exempt purchase (e.g., resale, processing).
- (4) When required, purchaser's identification number, (examples include Iowa-issued sales and use tax permit, another state's issued sales tax identification number, and Federal Employer Identification Number).

b. Either a fully completed exemption certificate or capture of the data elements listed in paragraph 209.1(1) "a" must be obtained at the time of sale or within 90 days subsequent to the date of sale.

c. Department-furnished exemption certificates are valid for up to three years.

209.1(2) Liability: The sales tax liability is on both the seller and purchaser; however, a seller is relieved of the liability if they obtain a fully completed exemption certificate or capture all the data elements listed in paragraph 209.1(1) "a."

a. If no exemption certificate or the data elements are obtained within 90 days of the sale, a seller obligated to collect tax from a purchaser is relieved of liability if they obtain a fully completed exemption certificate taken in good faith or provide proof the transaction was not subject to tax within 120 days of the department's request for substantiation.

b. No liability relief is available for sellers who do any of the listed activities in Iowa Code section 423.51(2).

c. The purchase of tangible personal property, specified digital products, or services which are specifically exempt from tax under the Iowa Code need not be evidenced by an exemption certificate. However, if certificates are given to support these transactions, they do not relieve the purchaser of the responsibility for tax if at some later time the transaction is determined to be taxable.

d. A person who is selling tangible personal property, specified digital products, or services, but who does not make any taxable sales at retail, is not required to hold a permit. When this person purchases tangible personal property, specified digital products, or services for resale, the person shall furnish a certificate in accordance with these rules to the supplier stating that the property or services was purchased for the purpose of resale.

209.1(3) Other acceptable forms: Purchasers may also use a Multistate Tax Commission's Uniform Sales & Use Tax Resale Certificate, available at mtc.gov, or a Streamlined Sales Tax Agreement Certificate of Exemption, available on the department's website or at streamlinedsalestax.org, as an alternative to a department-issued certificate.

209.1(4) Blanket certificates. Sellers and purchasers with a recurring business relationship, as described in Iowa Code section 423.51(3)“d,” may use blanket exemption certificates covering more than one transaction.

This rule is intended to implement Iowa Code sections 423.45 and 423.51.

701—209.2(423) Fuel exemption certificates.

209.2(1) Use of fuel exemption certificates. The use and acceptance of fuel exemption certificates must comply with Iowa Code section 423.45(5). For purposes of this subrule, terms mean the same as defined in Iowa Code section 423.45(5).

209.2(2) Necessary information. A fuel exemption certificate, as defined in Iowa Code section 423.45(5), must be dated and contain the following information, including, but not limited to:

- a. The seller's name and address;
- b. The purchaser's name and address;
- c. The type of fuel purchased, such as electricity or propane;
- d. Description of the purchaser's business, such as farmer or manufacturer;
- e. A general description of the type of processing in which the fuel is consumer, such as grain drying, raising livestock, generating electricity, or the manufacture of tangible personal property;
- f. Claimed exemption percentage.

209.2(3) Additional documentation. The seller may demand from the purchaser additional documentation attached to the fuel exemption certificate which is reasonably necessary to support the claim of exemption for fuel consumed in processing; however, additional documentation is not required under the circumstances listed in Iowa Code section 423.45(5)“f.” In the absence of separate metering, documentation reasonably necessary to support a claim for exemption must consist of either an electrical consultant's survey or of a document prepared by the purchaser in accordance with the requirements of subrule 209.2(5).

209.2(4) Exemption determination. When the amount of the exemption is modified pursuant to Iowa Code section 423.45(5)“d,” a purchaser must notify the seller of any change in percentage.

209.2(5) Determining percentage of electricity used in processing. When electricity is purchased for consumption both for processing and for taxable uses, and the use of the electricity is recorded on a single meter, the purchaser must allocate the use of the electricity according to taxable and nontaxable consumption if an exemption for nontaxable use is to be claimed. The calculations which support the allocation, if properly performed, can serve as the documentation reasonably necessary to support a claim of exemption for fuel used in processing. The following method with its alternative table may be used to determine the percentage of electricity used on the farm or in a factory which is exempt by virtue of its being used in processing. Paragraph 209.2(5)“e” provides information on alternative methods of computing exempt use, including exempt use by a new business. First, the base period for the calculations must be selected.

a. Ordinarily, the 12 months previous to the date upon which the exemption is calculated are used as the base period for determining the percentage of electricity exempt as used in processing. This immediately previous 12-month period is used because it is a span of time which is (1) recent enough to accurately reflect future electric usage; (2) extended enough to take into account variations in electrical usage resulting from changes in temperature occurring with the seasons; and (3) is not so long as to require unduly burdensome calculations. However, individual circumstances can dictate that a shorter or longer period than 12 months will be used or that some 12-month period other than that immediately previous to the date upon which the exemption certificate is filed, will be used.

EXAMPLE 1: Farmer A files a fuel exemption certificate for the period beginning January 1, 2022. The year 2021 had a very mild winter, a relatively cool summer, and a very dry autumn. Farmer A uses no electricity for grain drying and substantially less electricity than usual for heating and cooling his livestock buildings. Farmer A must use a 12-month period which is more representative of his usual exempt electrical consumption than that of January through December 2021.

EXAMPLE 2: Company A manufactures its product in a factory which has no windows and is heavily insulated. The factory always runs 40 hours per week, 52 weeks per year. Because of these and other circumstances, Company A's electrical usage does not vary significantly from month to month, and it is easy enough to document this. Company A can calculate its percentage of exempt use of electricity based on a one-month, rather than a 12-month, period.

EXAMPLE 3: Company B manufactures widgets. The "economic cycle" for widget production is, on average, 36 months long. During this economic cycle, there are times when, for months at a time, the factory will operate three shifts. At other times, for weeks at a time, the entire factory will be shut down and its personnel laid off. The only accurate way to determine the exempt percentage of electricity used is to calculate electrical use over the entire economic cycle. Therefore, 36 months, rather than 12 months, would be the base period.

b. Calculating kilowatts used per hour by various electrical devices. The first step in computing the percentage of exemption is to determine the number of kilowatts used per hour for each device in the farm or factory. If kilowatts consumed per hour of a device's use is not listed on the device or otherwise readily obtainable, formulas can be used to determine this information.

(1) Lights. For incandescent bulbs, add rated wattages and divide by 1,000. For fluorescent lights, add rated wattages plus an additional 20 percent of rated wattages, then divide by 1,000.

Incandescent Lights:

$$\frac{\text{Watts}}{1,000} = \text{Kilowatts Per Hour}$$

Fluorescent and Other High Intensity Lights:

$$\frac{\text{Watts} + .20 (\text{Watts})}{1,000} = \text{Kilowatts Per Hour}$$

(2) Devices other than lights. For these devices, use the wattage rating given by the manufacturer and divide by 1,000 to obtain approximate kilowatts used per hour of operation.

$$\frac{\text{Watts}}{1,000} = \text{Kilowatts Per Hour}$$

If an appliance does not list a watt rating, tables provided by Iowa State University Cooperative Extension Service can be used especially by farmers who are attempting to compute their exempt percentage of electricity used. Persons using a table are reminded to convert watts to kilowatts before proceeding to further calculations.

c. The average number of kilowatts consumed per hour of operation for any one device must next be multiplied by the total number of hours which the device is operated during the base period. A person may use intermediate calculations.

(1) EXAMPLE 1: Assume that a machine used in processing consumes 20 kilowatts per hour of operation. The machine is operated, during a 12-month base period, 40 hours per week during 50 weeks. The machine is not placed in operation when the factory is closed for two weeks' vacation. Exempt use is calculated as follows:

$$\begin{matrix} \text{Kilowatts} & & \times & & \text{Hours operated} & & \times & & \text{Weeks operated in 12-month} \\ \text{per hour} & & & & \text{per week} & & & & \text{period equals number of} \\ & & & & & & & & \text{exempt kilowatt hours} \end{matrix}$$

In this example, $20 \times 40 \times 50 = 40,000$ exempt kilowatt hours.

(2) EXAMPLE 2: Assume that a grain dryer uses 30 kilowatts per hour of operation. During a 12-month base period, the grain dryer is used in processing 200 hours per month, for 3 months. The calculation for total number of kilowatt hours of exempt use for the 12-month period is as follows:

$$\begin{matrix} \text{Kilowatts} & & \times & & \text{Hours operated} & & \times & & \text{Number of months of exempt} \\ \text{per hour} & & & & \text{per month} & & & & \text{use equals total number of} \\ & & & & & & & & \text{exempt kilowatt hours} \end{matrix}$$

In this example, $30 \times 200 \times 3 = 18,000$ exempt kilowatt hours.

(3) EXAMPLE: The following is a very simplified example of a worksheet for determining the percentage of electricity qualifying for exemption when a single meter records both exempt and taxable use.

d. *Example worksheet.* The following is a simplified example of a worksheet for determining the percentage of electricity qualifying for exemption when a single meter records both exempt and taxable use.

| | Kilowatts Per Hour of Operation | Average Hours of Operation Per 12-Month Base Period | Average Kilowatt Hours Per 12-Month Base Period | Total |
|--------------------------|---------------------------------------|--|--|-----------|
| All Exempt Usage | | | | |
| Production Machine #1 | 10 | 1000 | 10000 | |
| Production Machine #2 | 10 | 1000 | 10000 | |
| Other | 10 | 1000 | 10000 | |
| Total Exempt Usage | | | | 30000(A) |
| All Taxable Usage | | | | |
| Air Conditioners | 10 | 3000 | 30000 | |
| General Lighting | 10 | 3000 | 30000 | |
| Office Equipment | 10 | 3000 | 30000 | |
| Space Heaters | 10 | 3000 | 30000 | |
| Other | 10 | 3000 | 30000 | |
| Total Taxable Usage | | | | 150000(B) |
| Total—All Usages | | | | 180000(C) |

$$\frac{30000}{180000} \text{ or } \frac{A}{C} = \text{Percentage of Electricity Purchase Qualifying for Exemption} = 16.60\%$$

The number actually used in the base period can be determined by reference to billings for the base period. If the number of kilowatt hours calculated to have been used does not approximate the number actually used in the base period, the calculations are deficient and should be performed again. Once the precise percentage of exemption has been calculated, that percentage must be applied during any period for which a purchaser is requesting exemption. Any substantial and permanent change in the amount of

electricity consumed or in the proportion of exempt and nonexempt use of electricity is an occasion for recomputing the exempt percentage and for filing a new exemption certificate.

e. Alternative methods. The following are nonexclusive alternatives to the above method of determining the percentage of electricity which is exempt because it is used in processing.

(1) If currently only one meter exists to measure both exempt and nonexempt use of electricity, the most accurate method of determining exempt and nonexempt use may be separate metering of these two uses. This possibility is especially practical if all exempt use results from the activities of one machine, however large.

(2) If separate metering is impossible or impractical, it may be useful to employ the services of an energy consultant. If using an energy consultant's service is impractical, it may be possible to secure, from the manufacturer of a machine used in processing, the number of kilowatts which a machine uses per hour of operation. Often, these manufacturer's studies give a more accurate measure of a machine's use of electricity than the formulas set out in paragraph 209.2(5) "b" above. This circumstance is especially true with regard to large electric motors.

(3) If a business is new, and no historical data exists for use in calculating exempt and nonexempt percentages of electricity or other fuel consumed, any person calculating future exempt use must make the best projections possible. If calculating future exempt use with no past historical data to serve as a basis for the calculations, it is suggested that conservative estimates of exempt use be made. Using these conservative estimates can avoid future liability for sales tax on the part of the purchaser of the electricity. Possibly, in calculating exempt use of fuel for a new business, historical data from existing similar businesses can be used if available from persons not in direct competition to the person claiming the exemption. The calculation and the exemption certificate must be updated once data from an accurate 12-month cycle, or other appropriate cycle, is available.

209.2(6) Applicability. The provisions of subrule 209.2(5) explaining the determination of the percentage exemption for electricity also apply to other types of fuel such as natural gas, LP, etc., when used for exempt purposes.

This rule is intended to implement Iowa Code sections 423.45.

701—209.3(423) Special certificates of beer and wine wholesalers. Beer or wine purchased from a wholesaler holding a Class A or F permit has been purchased for resale if the purchaser provides the wholesaler with a retail beer or wine permit or liquor license number. A wholesaler's record of account with an individual retailer is a complete and correct exemption certificate for the purposes of beer or wine sales and provides all the protection which the usual exemption certificate, as described in rule 701—209.1(423) provides if the record of account contains the retailer's beer or wine permit or liquor license number and all other information concerning the account is taken in good faith by the wholesaler. The words "beer," "permit," "retailer," "wholesaler," and "wine" have the same definitions for the purposes of this rule as the definitions given them in Iowa Code section 123.3.

This rule is intended to implement Iowa Code section 423.45.

ITEM 4. Rescind and reserve **701—Chapter 288.**

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 701—Chapter 210
“Purchases by Businesses”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 99F.10(6) and 423B.5
State or federal law(s) implemented by the rulemaking: Iowa Code section 423.2 and 423.3

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 to 11 a.m.

Via video/conference call:
meet.google.com/pmv-smfj-zwf
Or dial: 1.413.369.1186
PIN: 243 048 107#
tel.meet/pmv-smfj-zwf?pin=4428711103686

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Revenue no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nick Behlke
Department of Revenue
Hoover State Office Building
P.O. Box 10457
Des Moines, Iowa 50306-3457
Phone: 515.336.9025
Email: nick.behlke@iowa.gov

Purpose and Summary

The purpose of the proposed rulemaking is to repromulgate Chapter 210.

The Department proposes revisions to the chapter to remove portions of the rules that the Department determined are obsolete or unnecessary or that duplicate statutory language. This chapter also includes rules that were previously in other chapters that the Department has determined are more closely related to the subject matter of this chapter. This chapter describes the Department’s interpretation of the underlying statute to help the public understand the taxability of purchases by businesses.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The proposed rules do not create costs for any classes of persons.
 - Classes of persons that will benefit from the proposed rulemaking:
The public, particularly businesses, will benefit from clarification about the taxability of purchases by businesses.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no economic impact of the proposed rules.

- Qualitative description of impact:

These rules reduce uncertainty about the taxability of purchases by businesses. Failing to adopt them would lead to confusion, questions to the Department, and potential errors.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the agency of implementing the rules beyond those that would otherwise be required to administer the statute.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. However, the rules clarify the taxability of purchases by businesses, making it more likely that the correct amount of tax will be collected.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost of inaction would be failing to update the chapter to remove obsolete language and language that is duplicative of the statute. The benefit of the rules is reducing confusion about the taxability of purchases by businesses.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The purpose of the rules is to provide guidance on taxing purchases by businesses and when exemptions apply.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department did not seriously consider any alternatives.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Proceeding without these rules would lead to confusion about the taxability of purchases by businesses.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking does not have a substantial impact on small business. The rules do not make any special distinctions for small businesses. The rules do not impose any requirements on businesses, other than taxation requirements imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 210 and adopt the following new chapter in lieu thereof:

CHAPTER 210
PURCHASES BY BUSINESSES

701—210.1(423) Wholesalers and jobbers selling at retail. Sales made by a wholesaler or jobber to a purchaser for use or consumption by the purchaser or in the purchaser's business and not for resale are considered retail sales and subject to tax, even if sales are made at wholesale prices or in wholesale quantities.

This rule is intended to implement Iowa Code section 423.2(1).

701—210.2(423) Materials and supplies sold to retail stores. The sales price of materials and supplies sold to retail stores for their use and not for resale shall be subject to tax. The retail store is the final buyer and ultimate consumer of such items as fuel, cash registers, adding machines, typewriters, stationery, display fixtures and numerous other commodities that are not sold by the store to its customers.

This rule is intended to implement Iowa Code section 423.2.

701—210.3(423) Tangible personal property and specified digital products purchased for resale but incidentally consumed by the purchaser. A retailer engaged in the business of selling tangible personal property or specified digital products who takes merchandise from stock for personal use, consumption, or gifts shall report these items as "goods consumed" on the sales and use tax return and remit sales tax and any applicable local option sales tax on the purchase cost of the items. This rule does not authorize purchase for resale of items intended to be used by the retailer.

This rule is intended to implement Iowa Code section 423.2.

701—210.4(423) Property furnished without charge by employers to employees. When an employer furnishes tangible personal property, including meals, or specified digital products to employees without charge or uses merchandise for gifts or consumption, the cost to the employer of the tangible personal property or specified digital products shall be subject to sales tax and any applicable local option sales tax and reported on the employer's return as "goods consumed" if the employer has not previously paid tax to a retailer. However, the food purchased by the employer for meals prepared for employees is not subject to tax.

This rule is intended to implement Iowa Code section 423.2.

701—210.5(423) Owners or operators of buildings. Owners or operators of buildings who purchase items to be used by them in maintaining the building are the users or consumers and shall pay sales tax to their suppliers.

210.5(1) When owners or operators of buildings remeter and bill their tenants for electric current, gas, or any other taxable service consumed by the tenants, such owners or operators shall be considered to be purchasing the electric current, gas, or other taxable service for resale. These owners or operators shall hold permits and shall be liable for the tax upon the sales price of the sale of such service. When the building owners or operators purchase all of the electric current, gas, or other services for resale and consume a portion in the operation of the building, they shall be liable for sales tax on that portion consumed, based upon the cost of the electric current or gas purchased for resale.

210.5(2) When the management of a building sells heat to other buildings or other persons and charges for such service as a sale of heat, such transactions are considered sales at retail and shall be subject to tax.

210.5(3) When heat is furnished to tenants as a service to them, incidental to the renting of the space, there shall be no tax. When heat is sold separately and billed to the tenants separately, such service shall be taxable.

210.5(4) When a building manager makes sales of tangible personal property, specified digital products, or taxable services at retail, the manager shall be required to procure a permit and collect and remit tax.

This rule is intended to implement Iowa Code section 423.2.

701—210.6(423) Blacksmith and machine shops. When a blacksmith or machine shop operator fabricates finished tangible personal property from raw materials and sells such property at retail, tax shall apply on the total charge which includes the fabrication labor. Rule 701—211.28(423) contains information on the taxable service of machine operation.

This rule is intended to implement Iowa Code section 423.2.

701—210.7(423) Truckers engaged in retail business. Truckers or haulers engaged in the sale of tangible personal property to ultimate users or consumers shall be deemed as making taxable sales.

This rule is intended to implement Iowa Code section 423.2.

701—210.8(423) Out-of-state truckers selling at retail in Iowa. Truckers or persons engaged in the sale of tangible personal property at retail in Iowa based outside of Iowa by means of hauling the tangible personal property into the state shall collect and remit Iowa sales tax. To ensure the remission of tax on Iowa sales, the department has the statutory authority to require a bond deposit from sellers classified in this rule. This right shall be exercised when necessary.

This rule is intended to implement Iowa Code section 423.2.

701—210.9(423) Iowa dental laboratories.

210.9(1) Sales by dental laboratories. Iowa dental laboratories are engaged in selling tangible personal property to Iowa dentists. Such laboratories shall hold a retail sales tax permit and collect and report all tax due from dentists in all transactions involving taxable retail sales.

210.9(2) Purchases not subject to tax. Iowa dental laboratories shall not be subject to tax on those purchases of tangible personal property that form a component or integral part of new work or repair work being furnished to Iowa dentists or other dentists or would be exempt if purchased directly by the dentist's patient.

210.9(3) Purchases subject to tax. Iowa dental laboratories are the final user or consumer of all tangible personal property, including tools, office supplies, equipment, and any other tangible personal property not otherwise exempt. Sales tax shall be remitted to its Iowa supplier when purchasing in this state, and use tax shall be remitted directly to the department when such items are purchased from out-of-state suppliers, unless the out-of-state supplier is registered with the department and collects sales or use tax for the state.

This rule is intended to implement Iowa Code sections 423.2 and 423.33.

701—210.10(423) Dental supply houses. Dental supply houses are engaged in selling tangible personal property to dentists and dental laboratories. Such dental supply houses shall collect and report all tax due from purchasers in all transactions involving taxable retail sales. This shall not include sales of tangible personal property that will form a component or integral part of new work or repair work being furnished to Iowa dentists or other dentists or would be exempt if sold directly to an individual.

This rule is intended to implement Iowa Code section 423.2.

701—210.11(423) News distributors and magazine distributors. News distributors and magazine distributors engaged in intrastate sales of magazines and periodicals in Iowa to vendors that are engaged in part-time distribution of such magazines are deemed to be making sales at retail. The sales price of such sales shall be subject to sales tax.

This rule is intended to implement Iowa Code section 423.2.

701—210.12(423) Magazine subscriptions by independent dealers. The sales price of the sale of subscription magazines or periodicals derived by independent distributors or dealers in the state of Iowa that secure such subscriptions as independent dealers or distributors shall be subject to tax.

This rule is intended to implement Iowa Code section 423.2.

701—210.13(423) Sales by finance companies. A finance company that repossesses or acquires tangible personal property or specified digital products in connection with its finance business and sells tangible personal property or specified digital products at retail in Iowa shall be required to hold a permit and remit the current rate of tax on the sales price of such sales at retail in Iowa.

This rule is intended to implement Iowa Code section 423.2.

701—210.14(423) Bowling.

210.14(1) Pinsetters. The rental of automatic pinsetters by bowling alley operators is subject to the imposition of sales tax since the pinsetters are not resold to patrons. Therefore, the operator of the alley is considered the consumer of the pinsetter rental.

210.14(2) Shoes. The rental of bowling shoes is subject to the imposition of sales tax as equipment rental.

210.14(3) Score sheets. The sales of bowling score sheets to operators of bowling establishments are subject to the imposition of sales tax since the operators are the consumers of such score sheets.

This rule is intended to implement Iowa Code section 423.2.

701—210.15(423) Various special problems relating to public utilities.

210.15(1) Late payment charges. The amount of any charge, commonly called a “late payment charge,” imposed by a public utility on its customers shall not be subject to tax if the charge is in addition to any charge for the utility’s sale of its commodity or service and is imposed solely for the privilege of deferring payment of the purchase price of the commodity or service and furthermore is separately stated and reasonable in amount.

210.15(2) Due dates. The date of the billing of charges for a public utility’s sales shall be used to determine the period in which the utility shall remit tax upon the amount charged. The utility shall remit tax upon the sales price of any bill during the period that includes the billing date. Thus, if the date of a billing is March 31 and the due date for payment of the bill without penalty is April 20, tax upon the sales price contained in the bill shall be included in the return for the first quarter of the year. The same principle shall be used to determine when tax will be included in payment of a deposit.

210.15(3) Franchise fees. In general, the amount of any franchise fee that a public utility pays to a city for the privilege of operating and that is directly or indirectly passed on to the utility’s customers shall be included in sales price subject to tax. This will be true even if the amount of the franchise fee is computed as a percentage of other sales price subject to tax and is separately stated and separately charged to the immediate consumer of the commodity or service. However, if, in the future, it becomes lawful for a city to impose a sales or use tax and such tax is imposed upon the customers of public utilities in the guise of a franchise fee, the amount of this city excise tax shall not be subject to Iowa tax if the tax imposed by the city is separately stated and separately billed.

This rule is intended to implement Iowa Code section 423.2(2).

701—210.16 Reserved.

701—210.17(423) Communication services furnished by hotel to its guests. When a hotel purchases telephone communication services from telephone companies and furnishes those services to guests, tax shall apply to the entire charge which the hotel makes to its guests for such communication service, regardless of whether a guest’s calls are local or long-distance within the state. However, the hotel would purchase any communication service which it furnishes for a charge to a guest exempt from tax as a service purchased for subsequent resale.

This rule is intended to implement Iowa Code section 423.2(2).

701—210.18(423) Explosives used in mines, quarries and elsewhere. A person engaged in the business of selling explosives to miners, quarries or others shall be subject to sales tax on the sales price from the sale of such property at retail in Iowa. The purchaser shall be liable for use tax upon all purchases for use in Iowa not subject to sales tax.

This rule is intended to implement Iowa Code sections 423.2(1) and 423.5(1).

701—210.19(423) Sales of signs at retail. A person engaged in selling illuminated signs, bulletins, or other stationary signs (whether manufactured by that person or by others) to users or consumers is selling tangible personal property at retail. The sales price shall be taxable, even when the sales price of the sign includes a charge for maintenance or repair service in addition to the charge for the sign.

This rule is intended to implement Iowa Code sections 423.2(1) and 423.5(1).

701—210.20(423) Sale, transfer or exchange of tangible personal property or taxable enumerated services between affiliated corporations. The sales price of the sale, transfer or exchange of tangible personal property or taxable services among affiliated corporations, including but not limited to a parent corporation to a subsidiary corporation, for a consideration is subject to tax. A bookkeeping entry for an “account payable” qualifies as consideration as well as the actual exchange of money or its equivalent.

This rule is intended to implement Iowa Code section 423.1(50).

701—210.21(423) Mergers which do not involve taxable sales of tangible personal property or services. If title to or possession of tangible personal property or ownership of services is transferred from one business to another pursuant to a statutory merger, the transfer is not a “sale” in which the sales price is subject to tax if all of the following circumstances exist: (1) the merger is pursuant to statute; (2) by the terms of that statute, the title or possession of property or services transferred passes from a merging business to a surviving business and not for any consideration; and (3) the merging business is extinguished and dissolved the moment the merger occurs and, as a result of this dissolution, cannot receive any benefit from the merger.

EXAMPLE A: Nonaffiliated Corporations A and C enter into a voluntary merger agreement governed by Iowa Code section 490.1106. A and C are separate and independent, one from the other, and neither is a subsidiary of another corporation. No officer of the one is an officer of the other. A and C voluntarily negotiate an arms-length merger agreement which results in the transfer of A’s assets to C and the dissolution of A. In return, A’s stockholders receive stock in C. The sales price of A’s transfer of tangible personal property to merged company C is not subject to sales or use tax.

EXAMPLE B: Corporation H buys all the assets of Corporation I, which include machinery, equipment, finished goods, and raw materials. Corporation H pays cash for these assets. This transaction does involve the sale of tangible personal property, and the sales price of the sale may be subject to Iowa sales tax. However, 701—subrule 18.28(2) contains more information concerning a casual sale exemption applicable to the liquidation of a business.

701—210.22(422,423) Railroad rolling stock. Railroad rolling stock is that portion of railroad property which is incapable of being affixed or annexed on any one place but is wholly intended for movement on rails to transport persons or property whether for hire or not for hire and includes materials and parts used therefor. Locomotives, railroad cars, and materials and parts used therefore shall be exempt from tax. This exemption includes maintenance-of-way equipment which is used to transport persons or property. Also, fuel and lubricants used in railroad rolling stock are materials used in railroad rolling stock and their sales are exempt from tax. Enumerated services are not railroad rolling stock and are not exempt from tax.

This rule is intended to implement Iowa Code section 423.3(71).

Regulatory Analysis

Email: nick.behlke@iowa.gov

Purpose and Summary

The purpose of this proposed rulemaking is to rescind Chapter 211 and adopt new Chapter 211. The Department proposes amendments to the chapter to remove portions of the rules that the Department determined are obsolete, unnecessary, or duplicative of statutory language. The chapter describes the Department’s interpretation of the underlying statute to help the public understand the taxability of services.

Analysis of Impact

- Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The proposed rules do not create costs for any class of persons.
 - Classes of persons that will benefit from the proposed rulemaking:
The public will benefit from clarification about the taxability of services.
- Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no economic impact from the proposed rules.
 - Qualitative description of impact:
The proposed rules reduce uncertainty about the taxability of services. Failing to adopt them would lead to confusion, questions to the Department, and potential errors in collection.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the Department related to implementing the proposed rules beyond those that would otherwise be required to administer the statute.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are no costs relating to the proposed rules. The cost of inaction would be failing to update the chapter to remove obsolete language and language that is duplicative of the statute. The benefit of the rules is reducing confusion about the taxability of services.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The purpose of the rules is to provide guidance on the taxability of services.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department did not seriously consider any alternative methods.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Proceeding without the proposed rules would lead to confusion about the taxability of services.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking does not have a substantial impact on small businesses. The rules do not make any special distinctions for small businesses. The rules do not impose any requirements on businesses, other than taxation requirements imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 211 and adopt the following **new** chapter in lieu thereof:

CHAPTER 211
TAXABLE SERVICES

701—211.1(423) Definitions and scope.

211.1(1) Definitions. For purposes of this chapter:

“Persons engaged in the business of” means persons who offer the named service or services to the public or others in exchange for consideration, regardless of whether such person offers the service or services continuously, part-time, seasonally, or for short periods.

“Repair” includes the mending or renovation of existing parts and the replacement of defective parts or subassemblies. Repair does not include the installation of new parts or accessories that are not replacements.

“Specified digital products” means the same as defined in Iowa Code section 423.1.

211.1(2) Scope. Iowa imposes tax upon the sales price of rendering, furnishing, or performing at retail services listed in Iowa Code section 423.2(6). Some of these services are described in more detail in this chapter.

This rule is intended to implement Iowa Code section 423.2.

701—211.2(423) Services purchased for resale. Services purchased for resale are not subject to sales tax. A service is purchased for resale when it is subcontracted by the person contracted to perform the service. Tax imposed on services is collectible at the time the service is complete even if the services are not purchased by the ultimate beneficiary.

EXAMPLE 1: D owns an auto repair shop, and F brings an automobile in to have the air conditioner fixed. D is unable to fix the unit, so the car is sent to G who is an air conditioning specialist. The sale of G’s service to D is a sale for resale by D to F, so there is no tax imposed. The sale from D to F is subject to sales tax.

EXAMPLE 2: R operates a retail farm implement dealership. R accepts a motorboat as part consideration for a piece of farm equipment. R then contracts with D to repair the motor on the boat. R does not normally sell motorboats in the regular course of R’s business. Therefore, the repair service performed by D for R is subject to sales tax.

This rule is intended to implement Iowa Code section 423.3(2).

701—211.3(423) Fur storage and repair.

211.3(1) In general. Persons engaged in the business of storing fur for preservation and future use and refurbishing, repairing, and renovating fur, including the addition of new skins and furs, are selling a service subject to sales tax.

211.3(2) Definition. For purposes of this rule:

“Fur” includes both natural fur and synthetic products resembling fur.

This rule is intended to implement Iowa Code section 423.2(6)“u.”

701—211.4(423) Investment counseling. Persons engaged in the business of counseling others relative to investment in or on the disposition of property or rights, whether real, personal, tangible, or intangible, and who charge for that counseling, are selling a service subject to sales tax. This includes investment counseling rendered, furnished, or performed by a trust department.

This rule is intended to implement Iowa Code section 423.2(6)“e.”

701—211.5(423) Bank and financial institution service charges.

211.5(1) In general. The service charges imposed by financial institutions relating to a depositor’s checking account are subject to sales tax. If the same service is performed by a financial institution relating to an account that does not qualify as a checking account, the service charge imposed by the financial institution is not subject to sales tax.

211.5(2) Definitions. For purposes of this rule:

“Bank” means an institution empowered to do all banking business, including issue negotiable notes, discount notes, receive deposits payable on demand, and buy and sell bills of exchange. Savings and loan associations and other financial institutions not commonly considered to be banks do not fall within the meaning of a bank.

“*Checking account*” means an account on which withdrawals may be made from the account via a written instrument, including but not limited to a check, draft, or negotiable order of withdrawal (NOW). Whether or not an account pays interest does not determine whether an account qualifies as a checking account. The term “checking account” is characterized by its general meaning rather than a technical definition, and other types of accounts, not described in this rule, may qualify as checking accounts. Certificates of deposits do not qualify as checking accounts.

“*Financial institutions*” means the same as defined in Iowa Code section 423.2(6) “*f.*”

211.5(3) *Checking account charges.* All charges relating to a checking account are subject to sales tax, including but not limited to charges for the following:

- a. Withdrawals made by check or bank card.
- b. Nonproprietary automatic teller machine (ATM) transactions.
- c. Transferring funds from one account to another (if billed to a checking account).
- d. Stop payment.
- e. Debit card replacement.
- f. Copy and research.
- g. Bill payment.
- h. Returned deposit items.
- i. Issuance of a certified check, drawn from a particular account.

211.5(4) *Other service charges.* Service charges not usually subject to sales tax by virtue of having no relationship to checking accounts include but are not limited to:

- a. Safety deposit box rentals.
- b. Mortgage and loans.
- c. Trust department fees for probating estates, administering trusts, administering agency accounts, administering pension and profit-sharing plans, serving as stock transfer agents or registrars, serving as farm managers, and fees or commissions charged to customers for handling security transactions. Some of these services may qualify as investment counseling and may be subject to sales tax.
- d. Real estate appraisals.
- e. Servicing real estate loans.
- f. Contract collection and collection not related to the maintenance of a checking account.
- g. Special lockbox handling.
- h. Finance charges, including those for credit cards.
- i. Escrow agent.
- j. Safekeeping, handling and cashing coupons or certificates kept in a bank’s possession.
- k. Penalties on early withdrawal for saving certificates.
- l. Purchasing or selling securities for customers, unless used as a disguise for investment counseling fees.
- m. Real estate collection exchange, including collecting and transferring mortgage payments.
- n. Traveler’s or a similar type of check, bank cashier’s checks, bank drafts, or money orders with no relation to a customer’s checking account.
- o. Check exchanges.
- p. Noncustomer point of sale or ATM access fees or service charges.

211.5(5) *Exceptions.* Fees charged to a checking account depositor for a depositor’s failure to adhere to contractual obligations with a bank or financial institution are not subject to sales tax. These charges, such as fees for overdrafts or returned checks, are penalties rather than service charges. Bank service charges that are never assessed against the expense of maintaining a checking account are not subject to sales tax.

This rule is intended to implement Iowa Code section 423.2(6) “*f.*”

701—211.6(423) Barber and beauty.

211.6(1) *In general.* Persons engaged in the business of barbering and beauty are selling a service subject to sales tax.

211.6(2) Definitions. For purposes of this rule:

“*Barbering*” means the same as defined in Iowa Code section 158.1.

“*Barbershop*” means the same as defined in Iowa Code section 158.1.

“*Beauty*” means the same as “cosmetology” and “esthetics” as those terms are defined in Iowa Code section 157.1.

211.6(3) Sales tax permits.

a. Each barber, beauty or other beautification shop or establishment shall receive only one permit and remit tax as one enterprise when operated under a common management.

b. When an operator leases space and is an independent operator, the lessee shall notify the department and secure a sales tax permit whereby the lessee will be responsible directly for the sales tax due. In order to be considered independent, the lessee must also be independent from the lessor for the purposes of withholding income tax, unemployment compensation, and social security taxes.

211.6(4) Leasing. The lessor who has leased a part of the premises shall report to the department the names and addresses of all lessees. If the lessor is accounting for the lessee’s sales, the lessor shall, after the name of each lessee, show the amount of net taxable sales made by the lessee on each report to the department and which net taxable sales are included in the lessor’s return. Rule 701—288.11(423) contains more information.

This rule is intended to implement Iowa Code sections 423.2(6)“g” and 423.36.

701—211.7(423) Photography and retouching.

211.7(1) Definitions. For purposes of this rule:

“*Photography*” means the art or process of capturing or producing still or moving images, films, or videos using any device designed to record or capture images, film, or video. Taxable sales associated with photography services include but are not limited to sitting or photoshoot fees and fees relating to taking or producing photographs or videos, including editing.

“*Retouching*” means the alteration, restoration, or renovation of a picture, film, video, image, artwork, likeness, or design.

211.7(2) In general. The sales price of photography services and retouching services are taxable regardless of whether the service results in the production of tangible personal property or specified digital products. A deduction shall not be allowed for the expenses incurred by the photographer, such as rental of equipment or salaries or wages paid to assistants or models, whether or not the expenses are itemized in billings to customers.

EXAMPLE 1: Standalone photography service. X operates a photography business where customers can purchase a half-hour photoshoot session for \$50 and may purchase physical or electronic copies of any photographs taken during the photoshoot for \$10 each. Y purchases a half-hour photoshoot from X for \$50; however, after viewing the images, Y decides not to purchase any copies of any of the photographs. X must collect and remit sales tax and any applicable local option tax on \$50, the cost of the photography service, even though Y decided not to purchase any of the resulting photographs.

EXAMPLE 2: Photography service and sale of photographs. Same facts as Example 1, except that Y decides to purchase ten photographs for \$10 each. X must collect and remit sales tax and any applicable local option tax on \$150, the total cost of the \$50 photography service and the \$100 cost of the ten photographs. Here, the photography service is taxable and the photographs are taxable as the sale of tangible personal property if they are delivered in hard copy or as the sale of specified digital products if they are delivered electronically.

211.7(3) Tax shall not apply to the sales price of tangible personal property to photographers and photostat producers which becomes an ingredient or component part of photographs or photostat copies sold, such as mounts, frames and sensitized paper; but tax shall apply to the sales price of materials to photographers or producers which is used in the processing of photographs or photostat copies.

211.7(4) Sourcing. More information about how various aspects of photography services may be sourced is available in 701—subrule 205.2(1).

This rule is intended to implement Iowa Code section 423.2(6)“bo” and “bp.”

701—211.8(423) Household appliance, television, and radio repair.

211.8(1) *In general.* Persons engaged in the business of repairing household appliances, television sets, or radio sets are selling a service subject to sales tax.

211.8(2) *Definition.* For purposes of this rule:

“*Household appliances*” includes all mechanical devices normally used in the home, whether or not the appliances are actually used in the home.

This rule is intended to implement Iowa Code section 423.2(6) “y.”

701—211.9(423) Machine operators.

211.9(1) *In general.* Persons engaged in the business of operating machines of all kinds that belong to other persons and charge a fee for operating are selling a service subject to sales tax. Operation of the machine must be the central function of the service being performed and not incidental to the performance of the service the operator was hired to perform.

211.9(2) *Definitions.* For purposes of this rule:

“*Machine*” includes but is not limited to typewriters, computers, calculators, cash registers, and manufacturing machinery and equipment. “*Machine*” does not include telephones, automobiles, or airplanes.

“*Machine operator*” is a person who manages, controls, and conducts a mechanical device or a combination of mechanical powers and devices used to perform a function and produce a certain result or effect.

211.9(3) *Machine operators as employees.* The services of a machine operator are not subject to sales tax if the operation of machinery is by an employee directly for an employer. Rule 701—211.3(423) contains information about services performed by an employee for an employer.

EXAMPLE 1: Employee A is hired to perform data entry on a computer for A’s employer. While Employee A is performing the service of a machine operator, because Employee A is performing the service directly for A’s employer, A’s service is not subject to sales tax.

EXAMPLE 2: Through a temporary employment agency, Worker B performs data entry on a computer for Company Z. Company Z pays a set per-hour fee for data entry services. Worker B is performing the service of a machine operator, not directly for Company Z but for the temporary employment agency. Company Z must pay sales or use tax on the fee imposed by the temporary employment agency. Rule 701—211.23(423) contains information about the service of private employment agencies.

EXAMPLE 3: Through a temporary employment agency, Worker C performs telemarketing services for Company X. Because Worker C is operating a telephone, which is not considered a machine for purposes of this rule, Company X would not pay sales or use tax on the fee imposed by the temporary employment agency.

EXAMPLE 4: Company Y hires Lawyer D through a temporary employment agency. Lawyer D spends most of the work time performing legal research and writing memoranda, both of which are done at a computer. Lawyer D is not a machine operator just because Lawyer D uses a computer. Lawyer D was hired by Company Y to perform legal services. Lawyer D’s use of the computer is incidental to the legal services Lawyer D was hired to perform.

EXAMPLE 5: Company X hires Employee A as a purchaser. In this role, Employee A procures materials for Company X, negotiates and manages purchasing agreements, and communicates with vendors. To perform these job duties, Employee A spends the majority of working hours on a computer. Employee A is not a machine operator, because the central function of the job is as a purchaser and the computer use is incidental to the performance of job duties.

This rule is intended to implement Iowa Code section 423.2(6) “ad.”

701—211.10(423) Machine repair of all kinds.

211.10(1) *In general.* Persons engaged in the business of repairing machines of all kinds are selling a service subject to sales tax.

211.10(2) *Definition.* For purposes of this rule:

“*Machine*” means a mechanical device or combination of mechanical powers and devices used to perform some function and produce a certain result or effect. Machines include devices that have moving parts, are operated by hand, and are powered by a motor, engine, or other form of energy.

211.10(3) Musical instruments. For purposes of this rule, a musical instrument does not constitute a machine.

EXAMPLE: Person A owns an electric piano and an acoustic upright piano. Both pianos require repairs; the electric piano needs a new power cord, and the acoustic piano needs keys replaced. The electric piano repair would be taxable under 701—subrule 219.13(6). The repair to the acoustic piano is not taxable.

This rule is intended to implement Iowa Code section 423.2(6) “*ae.*”

701—211.11(423) Oilers and lubricators.

211.11(1) In general. Persons engaged in the business of oiling, changing oil in, lubricating, or greasing vehicles and machines of all types are selling a service subject to sales tax.

211.11(2) Definition. For purposes of this rule:

“*Machine*” includes those items with moving parts or powered by a motor or engine or other form of energy. “*Machine*” also includes heavy equipment vehicles or implements, whether such equipment functions in a state of rest or a state of motion.

This rule is intended to implement Iowa Code section 423.2(6) “*ah.*”

701—211.12(423) Parking facilities.

211.12(1) In general. Persons engaged in the business of operating a parking facility for a fee are selling a service subject to sales tax.

211.12(2) Definition. For purposes of this rule:

“*Parking facility*” means any place that is used for parking a vehicle for consideration. It is irrelevant whether the charge is by the hour, day, month, or any other period of time.

This rule is intended to implement Iowa Code section 423.2(6) “*ak.*”

701—211.13(423) Private employment agency, executive search agency.

211.13(1) In general. Private employment agencies engaged in the business of providing listings of available employment, counseling others with respect to future employment, or aiding another in any way to procure employment are selling a service subject to sales tax, regardless of whether the service is rendered for a prospective employer or prospective employee.

211.13(2) Principal place of employment outside of Iowa. Services rendered by private employment agencies which place a person and where the person’s principal place of employment is outside of Iowa are not subject to Iowa sales tax. For purposes of this rule, “principal place of employment” means the primary work location of the employee.

EXAMPLE: Company B, a sales company, contracts with Agency C, an employment agency, to secure a salesperson to travel throughout Iowa, Missouri, and Nebraska. Both Company B and Agency C are located in Iowa. Agency C is successful in finding a salesperson for Company B. Though the salesperson will be traveling throughout the three states, because Company B, the principal place of the salesperson’s employment, is located within Iowa, Agency C’s service is subject to Iowa sales tax.

211.13(3) Executive search agencies. Executive search agencies that are engaged in the business of securing employment for top-level management positions are selling a service subject to sales tax, regardless of whether the executive search agency is licensed under Iowa Code chapter 94A or not. Executive search agencies’ services performed in Iowa are subject to Iowa sales tax regardless of whether the principal place of employment for the person the agency placed into employment is located within Iowa.

211.13(4) Private employment versus executive search agencies. To determine if an agency is an executive search agency or a private employment agency, the following nonexhaustive lists of elements may be used to distinguish the two.

a. Private employment agency:

- (1) All levels of jobs in an organization. All salary levels.
- (2) Large number of clients at all times. Both possible employers and employees.
- (3) Individual's résumé circulated to many possible employers.
- (4) No extensive analysis of the position or the individual.
- (5) Normally does not make travel arrangements for interviews, does not conduct salary negotiations, does not perform detailed follow-up studies.
- (6) Paid by either the company or the job seeker.
- (7) Paid on a contingent-fee basis. Paid only if a referred person is hired.
- (8) Does engage in general advertising of available positions.
- (9) Overall placement of an individual is not as extensive or sophisticated.
- b. Executive search agency:
 - (1) Top-level management positions.
 - (2) Serve only a few clients at one time. Employers only.
 - (3) Send information regarding one individual to one possible employer only. Résumés never circulated to other possible employers.
 - (4) Extensive analysis of the position to be filled. Extensive analysis of the individuals who are candidates. Preparation of detailed professional assessment of strengths and weaknesses of individuals.
 - (5) Make travel arrangements for interviews, conduct salary negotiations, perform follow-up studies.
 - (6) Only paid by the company seeking the employee.
 - (7) Paid on retainer or by an hourly charge or by contract. Paid whether or not an individual is hired.
 - (8) Does not advertise available positions.
 - (9) Overall placement of an individual requires extensive and sophisticated analysis of position and individual.

This rule is intended to implement Iowa Code section 423.2(6) "ap" and "aq."

701—211.14(423) Storage of household goods and mini-storage.

211.14(1) *In general.* The sales price from the sale of the storage of household goods and mini-storage are subject to sales and use tax.

211.14(2) *Definitions.* For purposes of this rule:

"Household goods" means tangible personal property ordinarily located in a person's residence that is not inventory.

"Mini-storage" means a commercial operation that provides individual storage units of various sizes to persons for the purpose of storing tangible personal property. "Mini-storage" includes a secured area in which vehicles, boats, recreational vehicles, camping trailers and other types of tangible personal property can be stored. "Mini-storage" is taxable, regardless of whether the buyer or the seller provides particular security measures including but not limited to locks, fences, gates, security cameras, or password-protected entrances. "Mini-storage" is taxable regardless of whether the buyer has sole access to the unit. "Mini-storage" does not include storage lockers, storage units, or garages at apartment complexes for the primary convenience of the tenant if such lockers, units, or garages are part of the nonitemized price of an apartment rental. Mini-storage space is not a warehouse. Rule 701—214.21(423) contains provisions on warehousing of raw agricultural products.

This rule is intended to implement Iowa Code section 423.2(6) "ax."

701—211.15(423) Test laboratories.

211.15(1) *In general.* Persons engaged in the business of providing laboratory testing of any substance for any experimental, scientific, or commercial purpose are selling a service subject to sales tax. "Test laboratories" includes but is not limited to mobile testing laboratories and field testing by test laboratories.

211.15(2) *Exempt testing services.* Test laboratory services performed on humans and animals and environmental testing services are not taxable. "Environmental testing services" includes but is not

limited to the physical and chemical analysis of soil, water, wastewater, air, or solid waste performed in order to ascertain the presence of environmental contamination or degradation.

211.15(3) Nonprofit blood centers. Test laboratory services rendered, furnished, or performed for a nonprofit blood center registered by the federal Food and Drug Administration are exempt when the services are directly and primarily used in the processing of human blood.

This rule is intended to implement Iowa Code sections 423.2(6) “bc,” 423.3(102), and 423.3(26A).

701—211.16(423) Termite, bug, roach, and pest eradicators.

211.16(1) In general. Persons engaged in the business of eradicating, controlling, or preventing the infestation by termites, insects, roaches, and all other living pests, by spraying or other means, are selling a service subject to sales tax. This includes persons who eradicate, prevent, or control pest infestations in farmhouses, outbuildings, and other structures, such as grain bins, used in agricultural production.

211.16(2) Spraying of cropland exempt. This rule does not include those persons who are engaged in the business of spraying cropland used in agricultural production to eradicate or prevent the infestation by pests of the cropland. The service of spraying cropland is exempt.

This rule is intended to implement Iowa Code sections 423.2(6) “bd” and 423.3(5).

701—211.17(423) Turkish baths, massage, and reducing salons.

211.17(1) In general. Persons engaged in the business of operating Turkish baths, massage, and reducing salons are selling a service subject to sales tax. This includes persons engaged in the business of operating a health studio which, as a part of its operation, offers any services of Turkish baths, massage, or reducing facilities or programs. The sales price of those services is subject to sales tax.

211.17(2) Definitions. For purposes of this rule:

“*Massage*” means the kneading, rubbing, or manipulation of the body to condition the body. “*Massage*” does not include any body manipulation undertaken and incidental to the practice of one or more of the healing arts or those provided by massage therapists licensed under Iowa Code chapter 152C.

“*Reducing salons*” means any type of establishment that offers facilities or a program of activities for the purpose of weight reduction.

“*Turkish baths*” means any type of facility where an individual is warmed by steam or dry heat.

This rule is intended to implement Iowa Code section 423.2(6) “bg.”

701—211.18(423) Wrapping, packing, and packaging of merchandise other than processed meat, fish, fowl, and vegetables. Persons engaged in the business of wrapping, packing, and packaging of merchandise other than processed meat, fish, fowl, and vegetables are selling a service subject to sales tax. A person who provides a service described in this rule incidental to the sale of such items without charging separately for the service does not need to collect or remit tax. 701—Chapter 206 contains additional information on bundled transactions.

This rule is intended to implement Iowa Code section 423.2(6) “bl.”

701—211.19(423) Wrecking service.

211.19(1) In general. Persons engaged in the business of wrecking are selling a service subject to sales tax.

211.19(2) Definition. For purposes of this rule:

“*Wrecking*” includes defacing or demolishing tangible personal or real property or any part thereof.

This rule is intended to implement Iowa Code section 423.2(6) “bm.”

701—211.20(423) Cable and pay television.

211.20(1) In general. Persons engaged in the business of distributing the signals of one or more television broadcasting stations or other television programming to subscribers and using any transmission path, including but not limited to cable, satellite, streaming video, video on-demand, or pay-per-view, for those signals are selling a service subject to sales tax. The sales price for the rental of

any device used to decode or receive television broadcasting signals from a communications satellite is also subject to sales tax.

211.20(2) Signals to exhibitors. Any person distributing or providing signals to exhibitors on screens in auditoriums or other buildings that show sporting or other events are selling a service subject to sales tax.

211.20(3) Applicability. This rule applies to the transmissions of single events and subscriptions and to television services that serve fewer than 50 subscribers or are serving only customers located in one or more multiple unit dwellings that are under common ownership, control, or management.

This rule is intended to implement Iowa Code section 423.2(6) “al.”

701—211.21(423) Camera repair.

211.21(1) In general. Persons engaged in the business of camera repair are selling a service subject to sales tax.

211.21(2) Definition. For purposes of this rule:

“Camera repair” includes the repair of any still photograph, motion picture, video, digital, or television camera. “Camera repair” includes the repair of any part of a camera considered to be a part of a camera that may be detached from the camera body but can only be used with a camera. Examples of such accessories include but are not limited to detachable lenses, flash units, and motor drives. “Camera repair” does not include the repair of cameras that are built into a cell phone or computer.

This rule is intended to implement Iowa Code section 423.2(6) “w.”

701—211.22(423) Gun repair.

211.22(1) In general. Persons engaged in the business of repairing guns are selling a service subject to sales tax.

211.22(2) Definition. For purposes of this rule:

“Gun repair” means the repair of any pistol, revolver or other hand gun, as well as the repair of any shoulder or hip-fired gun such as a rifle or shotgun.

This rule is intended to implement Iowa Code section 423.2(6) “w.”

701—211.23(423) Janitorial and building maintenance or cleaning.

211.23(1) In general. Persons engaged in the business of performing one or a number of janitorial services and building maintenance or cleaning are selling a service subject to sales tax.

211.23(2) Definitions. For purposes of this rule:

“Building maintenance or cleaning” includes but is not limited to the cleaning of exterior walls or windows of any building and any other act performed upon the exterior of a building with the intent to keep it in good condition or upkeep.

“Janitorial services” means the type of cleaning services performed by a janitor in the regular course of duty. These services may be performed individually under a separate contract or included within a general contract to perform a combination of such services. These services may include but are not limited to interior window washing, floor cleaning, vacuuming, waxing, cleaning of interior walls and woodwork, cleaning of restrooms and furnaces, and the movement of furniture or other personal property within a building.

211.23(3) Exempt services.

a. Janitorial services performed in a private residence, including apartment or multiple housing units, and paid for by the occupant of the residence are exempt from sales tax.

b. Repairs and any service performed upon the exterior of a building that is a private residence and paid for by an occupant of the building are excluded from the meaning of “building maintenance or cleaning.” However, these services may be taxable under a construction-related enumerated service, described in rule 701—219.13(423).

c. Janitorial services and building maintenance or cleaning performed on or in connection with new construction, reconstruction, alteration, expansion or remodeling of a structure are exempt from tax.

This rule is intended to implement Iowa Code section 423.2(6) “z.”

701—211.24(423) Lawn care, landscaping, and tree trimming and removal.**211.24(1) Lawn care.**

a. In general. Persons engaged in the business of lawn care are selling a service subject to sales tax. Lawn care is a taxable service regardless of the age of the person performing the service. Lawn care services performed on properties including but not limited to cemetery grounds, golf courses, parks, and residential or commercial properties containing one or more buildings or structures are subject to sales tax.

b. Definitions. For purposes of this rule:

“*Landscaping*” includes services related to the arrangement and modification of a given parcel or tract of land so as to render the land suitable for public or private use or enjoyment.

“*Lawn*” means an open space between woods or ground that is covered with grass and is generally kept mowed or required to be kept mowed.

“*Lawn care*” includes but is not limited to services related to mowing, trimming, watering, fertilizing, reseeding, resodding, and the killing of weeds, fungi, vermin, and insects that may threaten a lawn.

c. Not taxable. The mowing of grass within a ditch is not a taxable service.

211.24(2) Landscaping.

a. In general. Persons engaged in the business of landscaping are selling a service subject to sales tax.

b. Landscape architects. Services that require licensure as a “landscape architect” pursuant to Iowa Code section 544B.2 are not subject to sales tax under this rule if those services are performed by a licensed landscape architect, are separately stated, and are separately billed as a charge for landscape architecture.

c. Exempt. Landscaping services performed on or in connection to new construction, reconstruction, alteration, expansion, or the remodeling of real property are not subject to sales tax. 701—Chapter 219 contains additional information on new construction, reconstruction, alteration, expansion, and the remodeling of real property.

d. Landscaping materials. The gross receipts from the sale of sod, dirt, trees, shrubbery, bulbs, sand, rock, woodchips and other similar landscaping materials, when used for landscaping and sold to final consumers, shall be subject to sales tax. For the purpose of this rule, “final consumer” ordinarily means the owner of the land to which the landscaping materials are applied, or a general building contractor when the landscaping contractor contracts with the general building contractor. When a landscaping contractor uses materials to fulfill a contract, the landscape contractor is considered the retailer of the landscaping materials and shall be obligated to collect sales tax on the selling price from the final consumer.

When the retailer of sod, dirt, trees, shrubbery, bulbs, sand, rock, woodchips and other similar landscaping materials installs these items as a part of a contract for landscaping or improving land for a lump sum, the entire gross receipts shall be subject to tax. Any retailer’s charges for “landscaping” shall be taxable. However, a retailer’s charges for nontaxable services are not taxable if contracted for separately, or, if no written contract exists, the charges are itemized separately on the invoice.

EXAMPLE: A sodding contractor agrees to furnish and install 20 yards of sod for the lump sum of \$20 per yard. The sodding contractor must charge the customer \$20 sales tax (5 percent x \$400).

EXAMPLE: XYZ Company enters into a contract for the landscaping of an existing office building. XYZ Company agrees to furnish shrubs at \$25 each, white rock for \$5 per bag and woodchips for \$4 per bag. XYZ Company also contracts to install all of the landscaping materials for a fee of \$25 per hour. XYZ Company’s hourly fee is taxable if paid for the service of “landscaping” or for some other taxable service, e.g., excavation. If the service is not taxable, the charge is excluded from tax because it was separately contracted for.

The gross receipts from the sale of uncut sod and unexcavated trees, shrubs, and rock shall not be subject to sales or use tax. This is considered a sale of intangible property and not the sale of tangible personal property.

This rule does not apply to the gross receipts from the sale of plants and trees which are eligible for purchase with food coupons under rule 701—220.2(422,423).

211.24(3) Tree trimming and removal.

a. In general. Persons engaged in the business of tree trimming, tree removal, and stump removal are selling a service subject to sales tax. This includes but is not limited to removal of any portion of a tree, including branches or a trunk.

b. Shrubs with woody stems or trunks. For purposes of this rule, tree trimming and tree removal include the trimming or removal of any shrub that has a woody main stem or trunk with branches.

c. Sale of cut wood. Persons engaged in the business of tree trimming and tree removal who cut wood from the trees that they trim or remove into sizes suitable for sale as firewood and sell the wood as firewood are engaged in the sale of tangible personal property. The tree trimming or removal is not a sale for resale. The sales price from the sale of this wood is subject to sales tax.

This rule is intended to implement Iowa Code sections 422.42, 422.45(12), 423.1, and 423.2(6) “*ab.*”

701—211.25(423) Pet grooming.

211.25(1) In general. Persons engaged in the business of pet grooming are selling a service subject to sales tax. This includes persons who are not veterinarians and groom dogs.

211.25(2) Definitions. For purposes of this rule:

“*Pet*” means any animal that has been tamed or gentled and is kept by its owner for pleasure or affection, rather than for utility or profit. Service animals or assistance animals as defined in Iowa Code section 216.8B and livestock are not considered pets.

“*Pet grooming*” includes any act performed to maintain or improve the appearance of a pet. This includes but is not limited to washing, combing, currying, hair cutting, and nail clipping, regardless of whether the person performing the act is a veterinarian.

211.25(3) Veterinary pet grooming. 701—Chapter 206 contains more information on bundled transactions to aid in determining the taxability of pet grooming when it is completed for both veterinary and cosmetic reasons.

211.25(4) Livestock showing. Services related to the pet grooming of livestock, including but not limited to the preparation of livestock for exhibition at fairs or shows, are exempt from tax.

This rule is intended to implement Iowa Code section 423.2(6) “*am.*”

701—211.26(423) Reflexology.

211.26(1) In general. Persons engaged in the business of reflexology are selling a service subject to sales tax.

211.26(2) Definition. For purposes of this rule:

“*Reflexology*” means the same as defined in Iowa Code section 152C.1.

This rule is intended to implement Iowa Code section 423.2(6) “*ar.*”

701—211.27(423) Water conditioning and softening.

211.27(1) In general. Persons engaged in the business of water conditioning and softening are selling a service subject to sales tax.

211.27(2) Definitions. For purposes of this rule:

“*Water conditioning*” means any action other than water softening taken with respect to water that renders the water fit for its intended use, more healthful, or enjoyable for human consumption. “*Water conditioning*” includes but is not limited to water filtration, purification, deionization, and reverse osmosis.

“*Water softening*” means the removal of minerals from water to render it more suitable for drinking and washing.

211.27(3) Water purification. When performed for residential, commercial, industrial, or agricultural users, the service of water purification is subject to sales tax.

This rule is intended to implement Iowa Code section 423.2(6) “*bh.*”

701—211.28(423) Security and detective services.

211.28(1) *In general.* Persons engaged in the business of providing security or detective services are selling a service subject to sales tax.

211.28(2) *Definitions.* For purposes of this rule:

“Detective service” means a service of investigation with the purpose to obtain information regarding any of the following subjects: crimes or wrongs done or threatened; the habits, conduct, movements, location, associations, transactions, reputation, or character of a person; credibility of witnesses or other persons; inquiry or recovery of lost or stolen property; cause, origin, or responsibility of a fire, accident, or damage to property; or veracity or falsity of any statement or representation, or means a service of investigation with the purpose to detect deception or to secure evidence to be used before an authorized investigation committee, before boards of award or arbitration, or in a civil or criminal trial.

“Security service” means a service with the purpose to protect property from theft, vandalism, or destruction or individuals from physical attack or harassment. “Security service” includes but is not limited to the rental of guard dogs; burglar or fire alarms; providing security guards, bodyguards or mobile patrols; or the protection of computer systems against unauthorized access.

211.28(3) *Exempt.* The sales price of the following services or activities are not subject to sales tax under this rule:

a. Peace officer engaged privately in security or detective work with the knowledge and consent of the chief executive officer of the peace officer’s law enforcement agency.

b. Person employed full- or part-time by an employer in connection with the affairs of the employer.

c. Attorney licensed to practice law in Iowa while performing duties as an attorney.

d. Person engaged exclusively, either as an employee or independent contractor, in conducting investigations and adjustments for insurance companies.

e. Person serving notice or any other document to a party, witness, or any other individual in connection with any criminal, civil, or administrative litigation.

f. Solicitation of a debtor to pay or collect payment for a debt.

g. Consulting, rendering advice, or providing training with regard to security or detection matters.

h. Charges for mileage, travel expenses, lodging, meal expenses, fees paid for records, and amounts paid for information if those charges are separately identified, separately billed, and reasonable in amount.

This rule is intended to implement Iowa Code section 423.2(6) “*as.*”

701—211.29(423) Solid waste collection and disposal services.

211.29(1) *In general.* Persons engaged in the business of solid waste collection and disposal are selling a service subject to sales tax.

211.29(2) *Definitions.* For purposes of this rule:

“Nonresidential commercial operation” means any operation that is an industrial, commercial, agricultural, or mining operation, whether for profit or not. “Commercial” refers to those involved in the buying and selling of goods and services, rather than just meaning a for-profit operation.

1. “Nonresidential commercial operation” includes but is not limited to hotels, motels, restaurants, realtors, professional firms (doctors, lawyers, accountants, or dentists), repair persons, persons selling and renting all sorts of tangible personal property, persons selling insurance of any kind, appraisers, skilled trades (e.g., plumbers, carpenters, and electricians), construction contractors, banks, savings and loans, barbers and beauticians, day care centers, counseling services, employment agencies, janitorial services, landscapers, painters, pest control, photography, printing, and storage services. Also included within the meaning of nonresidential commercial operation are the United Way, the American Cancer Society, the Elks, Masons, houses of worship (e.g., churches, synagogues, and mosques), and not-for-profit hospitals that are not licensed under Iowa Code chapter 135B.

2. “Nonresidential commercial operation” does not include apartment complexes, mobile home parks, manufactured home communities, and single-family or multifamily dwellings. Also excluded from the meaning are nonprofit hospitals licensed pursuant to Iowa Code chapter 135B.

“*Recyclable material*” includes but is not limited to used motor oil, paper, glass, metals (e.g., copper, aluminum, and iron), and batteries, as long as the recycled materials are separated from the solid waste for the purpose of recycling the materials.

“*Recycling facilities*” means facilities where recyclable materials are separated or processed for the purpose of reusing a material in its original form or using it in a manufacturing process that will not cause the destruction of the recyclable material to preclude its further use. A facility that produces insulation from used glass would qualify as a recycling facility under this rule, while a facility that separates or processes recyclable materials for use as fuel would not qualify as a recycling facility under this rule.

“*Solid waste*” means the same as defined in Iowa Code section 423.2(7).

211.29(3) *Nonresidential commercial operations.* Counties, municipalities, and cities that provide the service of solid waste collection and disposal to nonresidential commercial operations are obligated to collect and remit the tax from these services. Additionally, any person who has contracted to provide solid waste collection and disposal service to a city or municipality is obligated to collect and remit the tax from those services provided to nonresidential commercial operations located within that city or municipality. If the solid waste collection and disposal service is rendered to multiple businesses or organizations, tax must be collected and remitted only on those portions that meet the definition of nonresidential commercial operations.

211.29(4) *Bundled transaction of solid waste collections and disposal services.* 701—Chapter 206 contains more information on bundled transactions regarding when both taxable and nontaxable solid waste collection and services are provided to a customer.

211.29(5) *Disposal or tipping charges.*

a. Taxable. Charges for disposal or tipping of solid waste are also subject to sales tax. Persons or businesses who transport their own solid waste and persons who transport, without compensation, solid waste generated by another must pay the required tax upon the disposal or tipping charge or fee imposed by the collection or disposal facility.

b. Exempt. Charges or fees imposed for the service of collecting and managing recyclable material separated by solid waste by a waste generator are not subject to sales tax.

211.29(6) *Recycling facilities.* The sales price of the service of solid waste collection and disposal provided to recycling facilities that separate or process recyclable materials is not subject to sales tax if, as a result of the separation or processing, the volume of the waste collected is reduced by 85 percent and the waste is collected and disposed of separately from other solid waste.

This rule is intended to implement Iowa Code section 423.2(7).

701—211.30(423) Sewage services.

211.30(1) *In general.* Persons engaged in providing sewage service to nonresidential commercial operations are selling a service subject to sales tax.

211.30(2) *Definitions.* For purposes of this rule:

“*Agricultural operation*” means any enterprise engaged in the raising of crops or livestock for market on an acreage.

“*Industrial operation*” means a business that purchases or rents machinery or equipment eligible for the Iowa sales and use tax exemption for industrial machinery and equipment.

“*Mining operation*” means a business engaged in underground mining, strip mining, or quarrying.

“*Nonresidential commercial operation*” means the same as defined in rule 701—211.44(423).

“*Sewage services*” means the services of collecting rainwater, liquid and solid refuse, or excreta for drainage or purification by means of pipes, channels, or conduits usually placed underground.

211.30(3) *Nonresidential commercial operations.* Counties, municipalities, sanitary districts, or any other person providing sewage service to nonresidential commercial operations are obligated to collect and remit the applicable Iowa sales tax. Any person or entity that has contracted to provide sewage services to a county or municipality is obligated to collect and remit the applicable Iowa sales

tax performed for the county or city on behalf of the nonresident commercial operations located within that county or city.

This rule is intended to implement Iowa Code section 423.2(6) “*at.*”

701—211.31(423) Sign construction and installation.

211.31(1) *In general.* Persons engaged in the business of constructing and installing signs are selling a service subject to sales tax.

211.31(2) *Definition.* For purposes of this rule:

“*Sign*” means notices erected and maintained for the purpose of providing information, notices, markers, and the advertising of products or services. Signs include but are not limited to billboards, indoor or outdoor sign devices, and any structure erected and maintained for the purpose of conveying information.

This rule is intended to implement Iowa Code section 423.2(6) “*aw.*”

701—211.32(423) Dating services.

211.32(1) *In general.* Persons engaged in providing dating services are selling a service subject to sales tax.

211.32(2) *Definition.* For purposes of this rule:

“*Dating service*” means the service of providing an opportunity for individuals to meet and interact socially with the possibility of forming a relationship. Dating services include but are not limited to the services of those who provide an opportunity for individuals to describe themselves to and meet potential partners through escort services, smartphone applications, online websites and applications, and videotapes. Excluded from the definition are marriage matchmakers, telephone numbers that only provide opportunities for conversation rather than in-person interaction, and advertisements in newspapers or magazines soliciting companionship.

This rule is intended to implement Iowa Code section 423.2(6) “*n.*”

701—211.33(423) Personal transportation service.

211.33(1) *Personal transportation service defined.* “Personal transportation service” means the arrangement or provision of transportation of a person or persons for consideration, regardless of whether the person or entity providing such service supplies or uses a vehicle in conjunction with the service. “Personal transportation service” includes but is not limited to the following:

a. Transportation services provided by a human driver, including but not limited to drivers with a Class C, Class D endorsement 3, or Class M license, or by a chauffeur as defined in Iowa Code section 321.1(8). Examples of such services include but are not limited to taxi services, driver services, limousine services, bus services, shuttle services, and rides for hire;

b. Transportation services provided by a nonhuman driver, autonomous vehicle, or driverless vehicle; and

c. Ride sharing services, including but not limited to use of a network to connect transportation network company riders to transportation network company drivers who provide prearranged rides as defined in Iowa Code section 321N.1(4).

EXAMPLE 1: Marketplace X is a transportation network company that operates a network to connect drivers to riders. Driver D provides rides in Iowa exclusively through X’s network. A person in Iowa requests a ride through X’s network, and D provides the ride in D’s car. X is a marketplace facilitator. X must collect Iowa sales tax and applicable local option sales tax on the sales price of the ride. Because D makes all of D’s Iowa sales through X, which collects all applicable taxes on all of D’s rides, D does not need to register for an Iowa sales tax permit or file an Iowa sales tax return. X will report the sales tax on X’s Iowa sales tax return.

EXAMPLE 2: D provides rides for X and Y, two different transportation network companies. X is a marketplace facilitator responsible for collecting and remitting Iowa sales tax and applicable local option sales tax on the sales price of the rides D provides through X’s network. Y is also a marketplace

facilitator responsible for collecting all applicable taxes on the rides D provides through Y's network. D does not need to register for an Iowa sales tax permit or file an Iowa sales tax return.

EXAMPLE 3: D independently provides rides in addition to providing rides through X's network. X must collect all applicable taxes on the rides D provides through its network. X is not responsible for collecting tax on any of the rides D provides independent from X's network. D, a seller of personal transportation service with physical presence in Iowa, must collect and remit Iowa sales tax and applicable local option sales tax on the sales price of the rides D sells independent of X's network.

211.33(2) *Tax imposed; sourcing.* The sales price from the sale of personal transportation service in Iowa is subject to Iowa sales tax. The tax is imposed if the personal transportation service is first used in Iowa and is sourced to the location at which the service is first received.

EXAMPLE: R schedules a personal transportation service while at R's residence in Des Moines. R schedules the transportation service to transport R from Grinnell to Iowa City. R independently travels to Grinnell, where R enters a vehicle owned by the transportation service. The transportation service takes R from Grinnell to Iowa City, where the service ends and R pays for the service. The sale is sourced to Grinnell, the location at which R first received the transportation service. The transportation service must charge sales tax and the applicable local option tax in Grinnell, even though R scheduled the service while in Des Moines and the service concluded and payment was made in Iowa City.

211.33(3) *No tax imposed on interstate motor carrier transportation service.* Where a personal transportation service involves interstate travel by a motor carrier as defined in 49 U.S.C. Section 13102(14), no tax shall be imposed on the transaction to the extent prohibited by 49 U.S.C. Section 14505.

211.33(4) *Exemption for transportation services furnished by a qualified public transit system, medical transportation service, or paratransit service.* The sales price from sales of transportation services by public transit systems, medical transportation services, or paratransit services is exempt from tax. For purposes of the exemption under Iowa Code section 423.3(106), the following definitions shall apply:

"Medical transportation" means a personal transportation service for an individual to travel to a health care provider for the individual's medical care. Medical transportation is not limited to transportation services for immediate life-threatening or serious injuries.

"Paratransit service" means a personal transportation service provided to individuals with disabilities.

"Public transit system" means a public transit system as defined in Iowa Code section 324A.1(4).

This rule is intended to implement Iowa Code sections 423.2(6) "*ac*" and 423.3(106).

701—211.34(423) Information services.

211.34(1) *In general.* Persons engaged in the business of providing access to information services provided through any tangible or electronic medium are selling a service subject to sales tax.

211.34(2) *Definition.* For purposes of this rule:

"Information services" means the same as defined in Iowa Code section 423.1(22A).

211.34(3) *Taxable examples.* Examples of information services include but are not limited to database files, research databases, genealogical information, mailing lists, subscription files, credit reports, surveys, real estate listings, bond rating reports, abstracts of title, bad check lists, broadcasting rating services, wire services, price lists or guides, scouting reports, and other similar items of compiled information prepared for a particular customer.

211.34(4) *Nontaxable examples.* "Information services" does not include the furnishing of artwork (including musical compositions and films), drawings, illustrations, or other graphic material or information prepared for general dissemination to the public in the form of books, magazines, newsletters, videotapes or audiotapes, compact discs, or any other medium commonly used to communicate with large numbers of customers. The sale of a book, magazine, or similar item is not the sale of an information service, even if the item contains material of practical use (e.g., in conducting

a private, for-profit business) to its purchaser. These items sold in digital formats may be taxable as a specified digital product.

This rule is intended to implement Iowa Code section 423.2(6) “*br.*”

701—211.35(423) Software as a service.

211.35(1) *In general.* Persons engaged in the business of providing software as a service are selling a service subject to sales tax. The content or material accessed by way of software as a service does not impact the taxability of the software itself.

211.35(2) *Definitions.* For purposes of this rule:

“*Software as a service*” means the sale, storage, use, or other consumption of vendor-hosted computer software, such as but not limited to software accessible on the cloud. “Software as a service” does not include services commonly understood to constitute “infrastructure as a service” but may include what is described as “platform as a service” based on the facts and circumstances relating to that particular service. A relevant declaratory order, *In the Matter of study.com, LLC*, Iowa Dep’t of Revenue Declaratory Order No. 2020-310-2-0649 (Apr. 20, 2021), provides further discussion of software as a service.

“*Vendor-hosted computer software*” means computer software that is accessed through the Internet or a vendor-hosted server whether the access is permanent or temporary, whether any downloading occurs, or whether the software is hosted by the retailer of the software or by a third party.

211.35(3) *Exemptions.* Software as a service may be exempt from sales tax in accordance with Iowa Code section 423.3(104) and rule 701—225.8(423).

This rule is intended to implement Iowa Code section 423.2(6) “*bu.*”

701—211.36(423) Video game services and tournaments.

211.36(1) *In general.* Persons engaged in the business of providing video game services and tournaments are selling a service subject to sales tax. Taxable services relating to video game tournaments include fees paid for participating in such tournaments and related services as well as observing a video game tournament. Participation in or observation of such tournaments is taxable regardless of whether or not a prize is provided to any participants.

211.36(2) *Definitions.* For purposes of this rule:

“*Video games*” means any virtual, digital, or electronic game in which a user interacts with a user interface to generate visual feedback on a video device such as a computer monitor, television screen, or mobile device. Video games may be transferred through any physical or electronic medium, including by cartridge, disc, or electronic file, or through access to any server or network of servers.

“*Video game services*” means providing access to video games, support and account services, in-game currency exchanges, payment processing services, and any other service related to the hosting or provision of video games.

“*Video game tournament*” means an event where participants compete in the playing of video games. Participants may be playing video games by being physically present in the same location or playing remotely.

This rule is intended to implement Iowa Code section 423.2(6) “*bt.*”

701—211.37(423) Services related to specified digital products or software sold as tangible personal property.

211.37(1) *In general.* Persons engaged in the business of providing services arising from or related to installing, maintaining, servicing, repairing, operating, upgrading, or enhancing specified digital products or software sold as tangible personal property are selling a service subject to sales tax.

211.37(2) *Definition.*

“*Specified digital products*” means the same as defined in Iowa Code section 423.1.

211.37(3) *Exemption.* Services arising from or related to installing, maintaining, servicing, repairing, operating, upgrading, or enhancing specified digital products or software sold as tangible

personal property may be exempt from sales tax in accordance with Iowa Code section 423.3(104) and rule 701—225.8(423).

This rule is intended to implement Iowa Code section 423.2(6) “*bs.*”

701—211.38(423) Storage of tangible or electronic files, documents, or other records.

211.38(1) *In general.* Persons engaged in the business of providing storage of tangible or electronic files, documents, or other records are selling a service subject to sales tax.

211.38(2) *Exemption.* Storage of tangible or electronic files, documents, or other records may be exempt from sales tax in accordance with Iowa Code section 423.3(104) and rule 701—225.8(423).

This rule is intended to implement Iowa Code section 423.2(6) “*bq.*”

Or dial: 1.413.369.1186
PIN: 243 048 107#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Revenue no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nick Behlke
Department of Revenue
Hoover State Office Building
P.O. Box 10457
Des Moines, Iowa 50306-3457
Phone: 515.336.9025
Email: nick.behlke@iowa.gov

Purpose and Summary

The purpose of the proposed rulemaking is to readopt Chapters 212 and 285 and rescind Chapter 284. Revenue proposes revisions to Chapters 212 and 285 to remove portions of the rules that the Department determined are obsolete, unnecessary, or duplicative of statutory language. These chapters describe the Department’s interpretation of Iowa Code chapter 423 as it applies to certain types of exempt and taxable sales. Chapter 212 provides guidance on sales involving government entities and nonprofits. Chapter 285 provides guidance on certain types of sales based on the type and method of transaction. Some rules from rescinded Chapter 284 have been moved to Chapters 210, 212, and 219. Chapters 210 and 219 are not included in this Regulatory Analysis but are covered in separate analyses published herein (11/1/23 IAB).

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The proposed rulemaking does not create costs for any classes of persons. Any cost is associated with the underlying statute imposing the tax.
 - Classes of persons that will benefit from the proposed rulemaking:
The public, including retailers and purchasers, will benefit from guidance on taxable and exempt sales.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is no economic impact associated with the rules beyond what is contained in statute.

- Qualitative description of impact:

These rules reduce uncertainty about what sales are taxable and exempt. Failing to have these rules would lead to confusion, additional questions to the Department, and potential errors in calculating sales tax.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the agency of implementing the rules beyond those that would otherwise be required to administer the statutes.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. However, these chapters provide guidance on sales that are considered taxable and exempt, making it more likely that the correct amount of tax will be remitted.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost of inaction would be failing to update the chapters to remove obsolete language and language that is duplicative of the statute. The benefit of the rules is reducing confusion about when a taxable sale occurs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The Department considered the option of not having rules explaining how the method of transaction affects taxation or rules related to government entities and nonprofits but determined that the rules provide useful guidance to the public and to government entities and nonprofits.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department considered the possibility of not providing the rules in these chapters but determined that it provides useful guidance to the public beyond what is provided by the statutes.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The absence of these rules would lead to confusion about whether certain sales are taxable or exempt.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

These chapters do not have a substantial impact on small business. They do not make any special distinctions for small businesses. These rules do not impose any requirements on businesses other than the taxes imposed by the underlying statute.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 212 and adopt the following **new** chapter in lieu thereof:

CHAPTER 212
GOVERNMENTS AND NONPROFITS

701—212.1(423) Taxability of profits used by or donated to an educational, charitable, or religious entity. For purposes of the exemption provided in Iowa Code section 423.3(78), the following definitions apply:

212.1(1) Educational. An activity has an “educational purpose” if the activity has as its primary objective to give instruction. The term “educational purpose” includes recreational or cultural activities. Activities which are directly related to the educational process such as intramural sports and tests given to students or prospective students to measure intelligence, ability, or aptitude are considered educational for purposes of this exemption. Municipal or public or nonprofit science centers and libraries are also considered educational for purposes of the exemption.

EXAMPLE 1: A local nonprofit preschool that is exempt from federal tax under Internal Revenue Code (IRC) Section 501(c)(3) has a chili supper to raise money for playground equipment, educational materials, and classroom furniture. The sales transactions from the supper are exempt from sales tax because the total amount of the profits from the chili supper will be used for educational purposes. In addition, purchases made by the preschool may be exempt from tax if the preschool can meet the qualifications to be classified as a private nonprofit educational institution. Rule 701—212.5(423) contains additional information regarding the sale of tangible personal property and performance of services to certain nonprofit corporations.

EXAMPLE 2: A local nonprofit ballet company, which is exempt from federal income tax under IRC Section 501(c)(3), promotes the arts, provides classes and instruction on various types of dance, and sponsors and performs at numerous recitals that are free to the public. At its location, the ballet company has a gift shop in which patrons can purchase T-shirts, dance wear, and costumes. All profits are utilized by the ballet company to pay for its operational expenses and to perform the activities previously mentioned. The sales from this gift shop are exempt from Iowa sales tax to the extent that the profits therefrom are utilized to pay for the stated educational activities.

212.1(2) Religious. “Religious purpose” includes all forms of belief in the existence of superior beings or things capable of exercising power over the human race. It also includes the use of property by a religious society or by a body of persons as a place for public worship.

EXAMPLE 1: A local church, which is exempt from federal income tax under IRC Section 501(c)(3), has a bake sale. All of the bake sale profits are returned to the church for religious purposes. Bake sales are generally exempt from sales tax unless the product is sold for “on-premises consumption” (rule 701—220.5(423) contains more information on the sale of prepared food), but the bake sale profits are exempt from tax in any event because they are to be used for religious purposes. However, generally, any purchases made by the church that are not for resale are subject to sales tax. Iowa Code section 423.3(2) contains the exemption for the sales price of sales for resale.

EXAMPLE 2: Another local church, exempt from federal income tax under IRC Section 501(c)(3), conducts bingo games every Thursday. The profits from the bingo activities will be used for religious purposes. However, bingo and other gambling activities are subject to sales tax regardless of the manner in which the profits are going to be used.

212.1(3) Charitable. A charitable act is an act done out of goodwill, benevolence, and a desire to add or improve the good of humankind in general or any class or portion of humankind, with no pecuniary profit inuring to the person performing the service or giving the gift.

EXAMPLE 1: A local, nonprofit animal shelter that is exempt from federal income tax under IRC Section 501(c)(3) provides shelter, medical care, socialization, and adoption services for homeless animals and, as a fundraiser, sells T-shirts and sweatshirts depicting rescued animals. All of the profits from the sales will go to and be used by the animal shelter to defray the costs it incurs. Sales of the T-shirts and sweatshirts would be exempt from sales tax since the profits from the sales would be expended on a charitable purpose. Items purchased by the shelter for resale would also be exempt from sales tax. Items purchased by the shelter that are not for resale, such as dog or cat food that will be used by the shelter, would be subject to sales tax.

EXAMPLE 2: A nonprofit hospital, which has received exemption from federal income tax under IRC Section 501(c)(3), operates a gift shop. All of the profits are used to defray costs of hospital care for indigent patients who are unable to pay for such care. Due to the fact that all of the profits from the gift shop are used for a charitable purpose, the sales price would be exempt from sales tax.

a. Profits. The sales price from sales at issue in this exemption is exempt from sales tax to the extent that the profits are used by or donated to a qualifying organization and used for a qualifying activity. For purposes of this rule, “profits” means proceeds remaining after direct expenses have been deducted from the sales price derived from the activity or event. The expenses should be necessary and have an immediate bearing or relationship to the fulfillment of the activity.

Even though an activity or an organization has been recognized as one which could avail itself to the exemption provided by Iowa Code section 423.3(78), it can still be held responsible for sales tax on gross receipts sales price if the department finds, upon additional investigation, that the proceeds expended by the organization were not for educational, religious, or charitable purposes.

At the time of the selling event, a presumption is made that sales tax will not be charged to and collected from the consumer on the property or service sold. This particular exemption is dependent upon how the profits from the sale are expended, which follows the selling event. If after the event a portion of the profits is expended for a noneducational, nonreligious, or noncharitable purpose, tax is due on that portion of the sales price in the tax period in which that portion was expended.

EXAMPLE 1: The cost of food for a fundraising meal would be a direct expense. However, the cost of a victory celebration because the fundraising dinner was a success would not be a direct expense.

EXAMPLE 2: An educational institution hosts an art show. It invests profits from the art show into income-producing property and uses the remainder of the profits to purchase books for the library.

EXAMPLE 3: A nonprofit organization hosts a concert to raise money for neighborhood improvements. The cost of entertainment, if the entertainment is the principal source of proceeds for the activity or event, is a direct expense of the concert.

Unless a specific exemption applies to the entity, purchases by qualifying organizations which are not for resale cannot be purchased free of sales tax.

b. General information. The following is general information that is important to organizations involved in educational, religious, or charitable activities:

(1) There is no authority in the Iowa Code to grant a nonprofit corporation any type of blanket sales or use tax exemption on its purchases because the organization is exempted from federal or state income taxes.

(2) Nonprofit corporations and educational, religious, or charitable organizations are subject to audit and should keep for three years financial records which meet acceptable accounting procedures.

(3) Nonprofit corporations and educational, religious, or charitable organizations can be held responsible for the payment of sales and use taxes as would any other individual, retailer, or corporation.

(4) Nonprofit corporations and educational, religious, or charitable organizations are not required to obtain a sales tax permit or any type of registration number if they are not making taxable sales. There is no provision in the Iowa Code which requires that such organizations have a special sales tax number or registration number and none are issued by the department of revenue. However, if such organizations are making sales that are subject to tax, then a sales tax permit must be obtained.

(5) The mere renting of facilities to be used by another person or organization for educational, religious, or charitable purposes is not an educational, religious, or charitable activity.

(6) When profits from an activity are used to reimburse individuals for the cost of transporting their automobiles to an antique car show, the profits are not considered to be expended for educational purposes, and the gross receipts sales price from the car show are subject to tax.

(7) Activities to raise funds to send members of qualifying educational, religious, or charitable organizations to conventions and other similar events which are directly related to the purposes of the qualifying educational, religious, or charitable organization are within the exemption requirements provided in Iowa Code section 423.3.

(8) An organization whose function is to promote by advertising the use of a particular product which can be purchased at retail does not qualify for the exemption provided by Iowa Code section 423.3(78), even though promotion by advertising may educate the public.

(9) Sales of tangible personal property or specified digital products by civic and municipal art and science centers are of an educational value and the gross receipts therefrom are exempt to the extent the profits are expended for educational, religious, or charitable purposes.

(10) All proceeds from games of skill, games of chance, raffles, and bingo games as defined in Iowa Code chapter 99B are subject to sales tax regardless of who is operating the game and regardless of how the proceeds therefrom are expended, except that those games operated by a county or a city are exempt from collecting the sales tax. When organizations operate such games, they are required to have a sales tax permit and a gambling license.

This rule is intended to implement Iowa Code section 423.3(78).

701—212.2(423) Sales to the American Red Cross, the Coast Guard Auxiliary, Navy-Marine Corps Relief Society, and U.S.O. Receipts from the sale of tangible personal property or specified digital products or from rendering, furnishing, or providing taxable services to the American Red Cross, Coast Guard Auxiliary, Navy-Marine Corps Relief Society, and U.S.O. shall be exempt from sales tax.

Purchases made by the American Red Cross, Coast Guard Auxiliary, Navy-Marine Corps Relief Society, or U.S.O. outside of Iowa for use in Iowa shall be exempt from use tax.

This rule is intended to implement Iowa Code section 423.3(107).

701—212.3(423) Sales in interstate commerce—goods transported or shipped from this state. When tangible personal property or services are exempt as described in Iowa Code section 423.3(43), sales tax does not apply.

EXAMPLE: Company A sells point-of-sale computer equipment. The company is located in Des Moines, Iowa. Company A enters into a contract with company B to sell the latter company a large number of point-of-sale computers. Company B is located in Little Rock, Arkansas. Company A transfers possession of the computers to a common carrier in Des Moines, Iowa, for shipment to Company B in Little Rock. Sale of the computers is exempt from Iowa sales tax.

212.3(1) Proof of transportation. The most acceptable proof of transportation outside the state is:

- a. A waybill or bill of lading made out to the retailer's order calling for transport; or
- b. An insurance or registry receipt issued by the United States postal department, or a post office department's receipts; or
- c. A trip sheet signed by the retailer's transport agency which shows the signature and address of the person outside the state who received the transported goods.

212.3(2) Certificate of out-of-state delivery. Iowa retailers making delivery and therefore sales out of state shall use a certificate in lieu of trip sheets. The certificate shall be completed at the time of sale, identifying the merchandise delivered and signed by the purchaser upon delivery.

212.3(3) Exemption not applicable. Sales tax shall apply when tangible personal property is delivered in the state to the buyer or the buyer's agent, even though the buyer may subsequently transport that property out of the state and, also, when tangible personal property is sold in Iowa to a carrier and then delivered by the purchasing carrier to a point outside of Iowa for the carrier's use.

This rule is intended to implement Iowa Code section 423.3(43).

701—212.4(423) Educational institution. Tangible personal property, specified digital products, or enumerated services purchased by any private nonprofit educational institution, as defined in Iowa Code section 423.3(17), in the state and used for educational purposes is exempt from sales tax. When purchases are made by any private nonprofit educational institution and the institution is acting as an agent for the sale to any student or other person, the sales are taxable if the proceeds from the sale are not used for educational purposes.

212.4(1) Taxable sales. Examples of taxable sales include:

- a. Sales of prepared food or other taxable food (rules 701—220.3(423) to 701—220.6(423) contain more information), whether sold at snack bars, grills, cafeterias, restaurants, or cafes and whether or not sold to students.
- b. Sales from vending machines.
- c. Special event billings to colleges for meals for guests not connected with the college or at events not connected with the college.
- d. Sales to fraternities or sororities for events not billed to the college.
- e. Special event meals by commercial or social clubs, such as chambers of commerce, Rotarians, Kiwanis, alumni, advertising clubs, or political groups, whether or not billed through the college.

212.4(2) Exempt sales. Examples of exempt sales include:

- a. The sales of yearbooks to schools which have executed contracts with yearbook companies to purchase yearbooks. These are considered sales for resale and are exempt from tax.
- b. The sales of yearbooks from the school to the students and others. These are considered an educational activity and are exempt to the extent the profits therefrom are expended for educational purposes.
- c. Student board billing to include freshman days and student orientation when billed to the college and included in tuition.
- d. Students and faculty casual board when billed to the college.
- e. Events, when given by faculty for students and billed to the college.
- f. Events sponsored by colleges for visiting dignitaries, or functions related to education and billed to the college.
- g. Meals for students on education field trips and billed to the college.

EXAMPLE 1: A child care center (ABC) is a private nonprofit organization that provides the service of caring for children newborn to six years of age. In addition, ABC teaches children basic learning skills such as shapes, numbers, colors, and the alphabet. ABC's primary purpose is to provide child care. The education of the children is a secondary activity. Consequently, ABC is not a private educational institution and would not qualify for exemption from sales tax under Iowa Code section 423.3(17).

EXAMPLE 2: A Preschool (XYZ) is a nonprofit private organization that teaches children from the ages of three to six years old. XYZ Preschool teaches the children basic learning skills such as shapes, numbers, colors and the alphabet by using certified faculty and accredited curriculum. XYZ Preschool is a private nonprofit educational institution and is eligible to claim the exemption to the extent purchases otherwise meet the requirements of Iowa Code section 423.3(17).

This rule is intended to implement Iowa Code section 423.3(17).

701—212.5(423) Gross receipts from the sale or rental of tangible personal property or from services performed, rendered, or furnished to certain nonprofit corporations exempt from tax.

212.5(1) Unless a specific exemption applies, the sales price of tangible personal property, taxable services, and specified digital products sold to nonprofit corporations is subject to tax. Sales price from the sale or rental of tangible personal property, specified digital products, or from services performed, rendered or furnished to certain nonprofit corporations are exempt from tax. Such organizations can be found in Iowa Code section 423.3(18).

212.5(2) The exemption does not apply to tax paid on the purchase of building materials by a contractor which are used in the construction, remodeling or reconditioning of a facility used or to be used for one or more of the uses set forth in this rule.

This rule is intended to implement Iowa Code section 423.3(18).

701—212.6(423) Nonprofit private museums. Iowa Code section 423.3(21) provides a sales tax exemption for certain purchases by nonprofit private museums.

212.6(1) Definitions and examples. A “museum” is all of the following:

- a. An institution organized for educational, scientific, historical preservation, or aesthetic purposes.
- b. Predominantly devoted to the care and exhibition of a collection of objects in a room, building, or locale.
- c. The collection must be open to the public periodically or at fixed intervals.
- d. Have staff available to answer questions regarding the collection.

212.6(2) Exclusions from definition of “museum.”

- a. An institution is not a “museum” unless it can be included in the ordinary and usual public concept of a museum.
- b. Examples of institutions that are not designated as “museums” include aquariums, arboretums, botanical gardens, nature centers, planetariums, and zoos.

701—212.7(423) State fair and fair societies. The sales price from sales or services rendered, furnished, or performed by the state fair organized under Iowa Code chapter 173 or a county, district or fair society organized under Iowa Code chapter 174 are exempt from sales tax. This exemption does not apply to individuals, entities, or others that sell or provide services at the state, county, district fair, or fair societies organized under Iowa Code chapters 173 and 174.

This rule is intended to implement Iowa Code sections 423.3(23) and 423.3(35).

701—212.8(423) Sales to hospices. Iowa Code section 423.3(28) provides an exemption for freestanding nonprofit hospice facilities. “Hospice” and “hospice care” are defined in 42 CFR 418.3. A “freestanding hospice facility” is any hospice program housed in a building which is dedicated only to the hospice program and which is not attached to any other building or complex of buildings. An individual is “terminally ill” if that individual has a medical prognosis that the individual’s life expectancy is six months or less if the illness runs its normal course.

This rule is intended to implement Iowa Code section 423.3(28).

701—212.9(423) Art centers.

212.9(1) Iowa Code section 423.3(22) provides an exemption from tax for certain purchases made by private nonprofit art centers.

212.9(2) To qualify for the exemption, the organization will be all of the following:

- a. An art center, which is defined as a structure that displays aesthetic objects which are the product of the conscious use of skill and creative imagination.
- b. Housed in a structure open to the public periodically or at fixed intervals with regular hours and with staff available to answer visitors’ questions.
- c. Located in Iowa.

This rule is intended to implement Iowa Code section 423.3(22).

701—212.10(423) Tangible personal property purchased from the United States government. Tangible personal property purchased from the United States government or any of the federal governmental agencies shall be exempt from sales tax, but such purchases shall be taxable to the purchaser under the provisions of the use tax law. Persons making purchases from the United States government, unless exempt from the provisions of Iowa Code section 423.5(1) “c” shall report and pay use tax at the current rate on the purchase price of such purchases.

This rule is intended to implement Iowa Code section 423.3.

701—212.11(423) Sales by the state of Iowa, its agencies and instrumentalities. The state of Iowa, its agencies and instrumentalities, are required to collect and remit tax on the sales price from taxable retail sales of tangible personal property, specified digital products, and taxable services.

This rule does not apply to sales made by cities and counties in the state of Iowa which are specifically exempted from collecting tax by Iowa Code section 423.3(32).

This rule is intended to implement Iowa Code chapter 423.

701—212.12(423) Sales to federal, state, municipal, and tribal governments and instrumentalities.

212.12(1) Exempt sales. Sales are exempt from tax under Iowa Code section 423.3(31) if the tangible personal property, taxable services, and specified digital products are:

- a. Sold directly to an exempt government entity described in Iowa Code section 423.3(31);
- b. Used for a public purpose; and
- c. Not one of the types of the products listed in Iowa Code section 423.3(31) “a”(1) through 423.3(31) “a”(3) that remain taxable even when sold to certain government entities.

212.12(2) Direct, legal incidence of the tax.

a. *Sale to exempt government entities.* A sale to an exempt government entity occurs only if the government entity, pursuant to a contract for sale, takes title or ownership to tangible personal property as a buyer from a seller. Rule 701—219.23(423) contains additional information on construction contracts with designated exempt entities.

b. *Government contractors.* Iowa Code section 423.3(31) does not apply to independent contractors who contract with agencies, instrumentalities, or other entities of government. These contractors do not, by virtue of their contracting with governmental entities, acquire any immunity or exemption from taxation for themselves. Sales to these contractors remain subject to tax, even if those sales are of goods or services which a contractor will use in the performance of a contract with a governmental entity. This principle is applicable to construction contractors who create or improve real property for federal, state, county, and municipal instrumentalities or agencies thereof. The contractors shall be subject to sales and use tax on all tangible personal property they purchase regardless of the identity of their construction contract sponsor.

c. *Examples.*

EXAMPLE 1: Patient A purchases a hospital bed. A percentage of patient A’s bill is paid by federal funds from Medicaid. Patient A has purchased a hospital bed, not the federal government, and Iowa tax is due as a result of this sale. Patient A is the direct purchaser of the bed. The exemption in Iowa Code section 423.3(31) does not apply.

EXAMPLE 2: A is a federal government employee. A travels in Iowa while on government business and purchases prepared meals from restaurants in Iowa. A pays for the meals. The federal government later reimburses A the entire cost of the meals, including the sales tax A paid on the prepared meals. A has purchased meals, and Iowa sales tax should be charged accordingly. The federal government is not the direct purchaser of the prepared meals so the exemption under Iowa Code section 423.3(31) does not apply and neither A nor the federal government qualify for a tax refund.

212.12(3) Government instrumentalities.

a. *Express statute.* An entity can be an instrumentality of government under Iowa Code section 423.3(31) if a state or federal statute expressly designates the entity as a government instrumentality that is exempt from paying sales tax on its direct purchases.

EXAMPLE 1: Iowa Code section 231.32(5) provides that after the commission on aging designates an area agency on aging, the area agency “shall be considered an instrumentality of the state and shall adhere to all state and federal mandates applicable to an instrumentality of the state.” Thus, a designated area agency on aging is a government instrumentality exempt from tax under Iowa Code section 423.3(31).

EXAMPLE 2: Iowa Code section 12E.3(1) provides the tobacco settlement authority is “a public instrumentality and agency of the state, separate and distinct from the state, exercising public and essential government functions.” Thus, the tobacco settlement authority is a government instrumentality exempt from tax under Iowa Code section 423.3(31).

b. *Lack of express statute defining an entity as a government instrumentality.* If there is no statute that expressly defines an entity as a government instrumentality exempt from tax, the entity may qualify as a government instrumentality if it satisfies all of the following requirements:

- (1) Government controls the detailed physical performance of the entity;

- (2) The entity's day-to-day operations are supervised by government; and
- (3) The entity is created for the purpose of, and is primarily engaged in, the performance of essential government functions.

212.12(4) *Certain corporations organized under federal statutes.* The sale of tangible personal property, specified digital products, or taxable services at retail to the following corporations are sales for final use or consumption to which tax shall apply:

- a. Federal savings and loan associations.
- b. Federal savings and trust companies.
- c. National banks.
- d. Other organizations of like character.

701—212.13(423) Fees paid to cities and counties for the privilege of participating in any athletic sport. A “sport” is any activity or experience which involves some movement of the human body and gives enjoyment or recreation. An “athletic” sport is any sport which requires physical strength, skill, speed, or training in its performance. The following activities are nonexclusive examples of athletic sports: baseball, football, basketball, softball, volleyball, golf, tennis, racquetball, swimming, wrestling, and foot racing.

212.13(1) The following is a list of various fees which would be considered fees paid to a city or county for the privilege of participating in any athletic sport, and thus subject to tax under this rule. The list is not exhaustive.

a. Fees paid for the privilege of using any facility specifically designed for use by those playing an athletic sport: fees for use of a golf course, ball diamond, tennis court, swimming pool, or ice skating rink are subject to tax. These fees are subject to tax whether they allow use of the facility for a brief or extended period of time, e.g., a daily fee or season ticket for use of a swimming pool or golf course would be subject to tax. Group rental of facilities designed for playing an athletic sport would also be subject to tax.

b. Fees paid to enter any tournament or league which involves playing an athletic sport would be subject to tax. Both team and individual entry fees are taxable. Fees paid to enter any marathon or foot race of shorter duration would be subject to tax under this rule.

212.13(2) Not subject to tax as fees paid to a city or county for the privilege of participating in any athletic sport under this rule are the following charges. The list is not intended to be exhaustive.

a. Fees paid for lesson or instruction in how to play or to improve one's ability to play an athletic sport are not subject to tax. Golf and swimming lesson fees are specific examples of such nontaxable charges. The fees are excluded from tax regardless of whether the person receiving the instruction is a child or an adult. Fees charged for equipment rental, regardless of whether this equipment is helpful or necessary to participation in an athletic sport, are not subject to tax. The rental of a golf cart or moveable duck blind would not be subject to tax. The rental of a recreational boat is a transportation service, the gross receipts of which are not subject to tax if provided by a city or county.

b. Sales of merchandise, e.g., food or drink, to persons watching or participating in any athletic sport are not subject to tax.

c. Fees charged to improve any facility where any athletic sport is played are not subject to tax, unless such a fee must be paid to participate in an athletic sport which can be played within the facility.

d. Fees paid by any person or organization to rent any county or city facility or any portion of any county or city park shall not be subject to tax unless the portion of the park or facility is specifically designed for the playing of an athletic sport.

EXAMPLE: A local bridge club pays a fee to use a shelter house and the surrounding grounds at a county park for a picnic. During the course of the picnic, the club members set up a net and use the surrounding grounds to play volleyball. They also improvise a softball field and play a softball game there. The fee which the bridge club has paid to rent the shelter house and surrounding grounds would not be subject to tax.

e. Fees paid for the use of a campground or hiking trail are not subject to tax.

This rule is intended to implement Iowa Code section 423.3(32).

701—212.14(423) Property used by a lending organization. The sales price from the sale of tangible personal property or specified digital products to a nonprofit organization organized for the purpose of lending the tangible personal property to the general public for use by the public for nonprofit purposes are exempt from tax. The exemption contained in this rule is applicable to tangible personal property only, and not to taxable services or specified digital products. It is applicable to the sale of that property and not to its rental to a nonprofit organization. Finally, the exemption is applicable only to property purchased by a nonprofit organization for subsequent rental to the general public. The exemption is not applicable to other property (e.g., office equipment) which the nonprofit organization might need for its ongoing existence.

This rule is intended to implement Iowa Code section 423.3(19).

701—212.15(423) Urban transit systems. A privately owned urban transit system which is not an instrumentality of federal, state or county government is subject to sales tax on fuel purchases which are within the urban transit system's charter.

Tax shall not apply to the sales price of fuel purchases made by a privately owned urban transit company for use outside the urban transit system charter in which a fuel tax has been imposed and paid and no refund has been or will be allowed.

This rule is intended to implement Iowa Code sections 423.3(1) and 423.3(31).

ITEM 2. Rescind and reserve **701—Chapter 284.**

ITEM 3. Rescind 701—Chapter 285 and adopt the following new chapter in lieu thereof:

CHAPTER 285
TAXABLE AND EXEMPT SALES DETERMINED BY METHOD
OF TRANSACTION OR USAGE

701—285.1(423) Auctioneers as agents.

285.1(1) An auctioneer in making a sale, whether of tangible personal property, specified digital products, or realty, is by virtue of this employment making the sale as the agent of the principal.

285.1(2) Where an auctioneer is conducting a sale and the principal meets the requirement of the casual sale exemption found in Iowa Code section 423.3(39), the sales price from the sale is exempt from sales tax.

This rule is intended to implement Iowa Code sections 423.2 and 423.3(39).

701—285.2(423) Florists.

285.2(1) Florists are engaged in the business of selling tangible personal property and specified digital products at retail. The sales price from the sale of flowers, wreaths, bouquets, potted plants and other items of tangible personal property and specified digital products are subject to sales tax.

285.2(2) When florists conduct transactions through a florists' telephonic delivery association, the following rules shall apply when computing tax liability:

a. On all orders taken by an Iowa florist and telephoned to a second florist in Iowa for delivery in the state, the sending florist shall be liable for tax, based on sales price from the total amount collected from the customer, except the cost of a telegram if separately stated on a bill or invoice.

b. In cases where an Iowa florist receives an order pursuant to which the Iowa florist gives telephonic instructions to a second florist located outside Iowa for delivery to a point outside Iowa, Iowa sales tax is not due.

c. In cases where Iowa florists receive telephonic instructions from other florists located either within or outside of Iowa for the delivery of flowers, the receiving florist will not be held liable for Iowa sales tax with respect to the transaction.

This rule is intended to implement Iowa Code section 423.2.

701—285.3(422,423) Student fraternities and sororities.

285.3(1) Student fraternities and sororities are not considered to be engaged in the business of selling tangible personal property at retail when they provide their members with meals and lodging for which a flat rate or lump sum is charged. A person engaged in the selling of foods and beverages to such organizations for use in the preparation of meals is making exempt sales at retail and shall not be liable for tax if the food purchases would be exempt under rule 701—220.5(423).

285.3(2) Student fraternities or sororities engaged in the business of selling meals or other tangible personal property to persons other than members for which separate charges are made are making taxable sales.

285.3(3) Sales by other food preparers. When student fraternities or sororities do not provide their own meals but meals instead are provided to members by caterers, concessionaires or other persons, such caterers, concessionaires or other persons shall be liable for the collection and remittance of sales tax on the sales price from meals furnished.

This rule is intended to implement Iowa Code sections 423.1 and 423.2.

701—285.4(423) Morticians or funeral directors. A mortician or funeral director is engaged in the business of selling tangible personal property, specified digital products, and funeral services. Examples of the tangible personal property sold by a funeral director include but are not limited to caskets, other burial containers, flowers, and burial clothing. “Funeral services” includes but is not limited to cremation, transportation by hearse and embalming. Tax is due only on the sales price from the sale of tangible personal property, specified digital products, and taxable services, and not on the sales price from the sale of nontaxable services.

If a mortician or funeral director separately itemizes charges for tangible personal property, specified digital products, taxable services and nontaxable services, tax is due only upon the sales price from the sales of tangible personal property and taxable services.

The mortician or funeral director is considered to be purchasing caskets, outer burial containers, burial clothing, and other items sold to customers for resale, and may purchase these items from suppliers without payment of sales tax.

For purposes of this rule, the terms of morticians or funeral directors shall also include cemeteries, cemetery associations and anyone engaged in activities similar to those discussed in the rule.

This rule is intended to implement Iowa Code section 423.2.

701—285.5(423) Physicians, dentists, surgeons, ophthalmologists, optometrists, and opticians. Physicians, dentists, surgeons, ophthalmologists, optometrists, and opticians are not liable for sales tax on services rendered, including but not limited to examinations, consultations, diagnosis, and surgery.

The purchase of materials, supplies, and equipment by these persons is subject to tax unless the particular item is exempt from tax when purchased by an individual for the individual’s own use. For example, the purchase of prescription drugs would not be subject to sales tax if purchased for use in the practice of the physician, dentist, surgeon, ophthalmologist, optometrist, or optician. Sales of tangible personal property and specified digital products to dentists, which are to be affixed to the person of a patient as an ingredient or component part of a dental prosthetic device, are exempt from sales tax. These include artificial teeth, and facings, dental crowns, dental mercury and acrylic, porcelain, gold, silver, alloy, and synthetic filling materials.

Sales of tangible personal property and specified digital products to physicians or surgeons, which are prescription drugs to be used or consumed by a patient, are exempt from tax.

Sales of tangible personal property and specified digital products to ophthalmologists, optometrists, and opticians, which are prosthetic devices designed, manufactured, or adjusted to fit a patient, are exempt from tax. These include prescription eyeglasses, contact lenses, frames, and lenses.

The purchase by such persons of materials such as pumice, tongue depressors, stethoscopes, which are not in themselves exempt from tax, would be subject to tax when purchased by such professions.

The purchase of equipment, such as an X-ray machine, X-ray photograph or frames for use by such persons is subject to tax. On the other hand, the purchase of equipment that is utilized directly in the

care of an illness, injury or disease, which would be exempt if purchased directly by the patient, is not subject to tax.

This rule is intended to implement Iowa Code section 423.2.

701—285.6(423) Warranties and maintenance contracts.

285.6(1) Mandatory warranties. A warranty is a mandatory warranty when the buyer, as a condition of the sale, is required to purchase the warranty from the seller. When the sale of tangible personal property, specified digital products, or services includes the furnishing or replacement of parts or materials which are pursuant to the guaranty provisions of the sales contract, a mandatory warranty exists. If the property subject to the warranty is sold at retail, and the measure of the tax includes any amount charged for the guaranty or warranty, whether or not such amount is purported to be separately stated from the purchase price, the sale of replacement parts and materials to the seller furnishing them thereunder is a sale for resale and not taxable. Labor performed under a mandatory warranty which is in connection with an enumerated taxable service is also exempt from tax.

285.6(2) Optional warranties. A warranty is an optional warranty when the buyer is not required to purchase the warranty from the seller.

a. The sale of optional service or warranty contracts which provide for the furnishing of labor and materials and require the furnishing of any taxable service enumerated under Iowa Code section 423.2 is considered a sale of tangible personal property the sales price of which is subject to tax at the time of sale except as described below.

b. The sale of a residential service contract regulated under Iowa Code chapter 523C is not the sale of tangible personal property, and the sales price from the sales of these service contracts is not subject to tax, and the sales price from taxable services performed for the providers of residential service contracts are now subject to tax. “Residential service contract” is defined in Iowa Code section 523C.1(8).

c. If an optional service or warranty contract is a computer software maintenance or support service contract and the contract provides for the furnishing of technical support services only, then no tax is imposed on the furnishing of those services. If a computer software maintenance or support service contract provides for the performance of nontaxable services and the taxable transfer of tangible personal property, and no separate fee is stated for either the performance of the service or the transfer of the property, then sales tax shall be imposed on the sales price from the sale of the contract.

285.6(3) Additional charges for parts and labor furnished in addition to that covered by a warranty or maintenance contract which are for enumerated taxable services shall be subject to tax. Only parts and not labor will be subject to tax where a nontaxable service is performed if the labor charge is separately stated.

This rule is intended to implement Iowa Code section 423.2.

701—285.7(423) Casual sales.

285.7(1) *Casual sales by persons not retailers or by retailers outside the regular course of business.*

a. Exemptions. Casual sales are exempt from Iowa sales and use taxes except for the casual sale of vehicles subject to registration, aircraft, and other vehicles listed in Iowa Code section 423.3(39) “*b.*” In order for a casual sale to qualify for exemption under this subrule, two conditions must be present:

(1) The sale of tangible personal property, specified digital products, or taxable services must be of a nonrecurring nature, and

(2) The seller, at the time of the sale, must not be engaged for profit in the business of selling tangible goods or services taxed under Iowa Code section 423.2 or, if so engaged, the sale must be outside the regular course of the seller’s business.

b. Nonrecurring events. Two separate selling events outside the regular course of business within a 12-month period shall be considered nonrecurring. Three such separate selling events within a 12-month period shall be considered as recurring. Tax shall only apply commencing with the third separate selling event. However, in the event that a sale event occurs consistently over a span of years, such sale is recurring and not casual, even though only one sales event occurs each year.

c. Sales of capital assets. Sales of capital assets such as equipment, machinery, and furnishings which are not sold as inventory shall be deemed outside the regular course of business (including sales of capital assets during a retailer's liquidation) and the casual sales exemption shall apply as long as such sales are nonrecurring. This will include transactions exempted from state and federal income tax under Section 351 of the Internal Revenue Code.

EXAMPLE: Corporation A sells the company copy machine at retail to B. At the time of this sale, Corporation A is engaged in the business for profit of selling clothes at retail. Assuming that the sale of the copy machine constitutes a sale of a nonrecurring nature, there is a casual sale because the sale is outside the regular course of Corporation A's business.

EXAMPLE: Corporation C is engaged in the business of lending money secured by collateral. In the course of such business, Corporation C must repossess some collateral and sell it at retail for purposes of payment of loans. Such sales recur from time to time. Notwithstanding that Corporation C is presumably not engaged in the business of selling tangible personal property, specified digital products, or services for a profit, since the sales are recurring, there is no casual sale.

EXAMPLE: F, a farmer, does not sell tangible personal property at retail or engage in the performance of any taxable services. F liquidates the farming business and hires a professional auctioneer to auction off many items of tangible personal property. Assuming this liquidation event is casual, all items sold by the auctioneer at retail are casual sales notwithstanding that many different sales to numerous different buyers may occur. See rule 701—285.1(423).

EXAMPLE: H, an insurance agency, holds a semiannual event to sell its used office furniture. Even though H does not regularly sell tangible personal property at retail, the casual sale exemption does not apply because the selling events are recurring.

EXAMPLE: I, a corporation, has one sales event every year whereby it auctions off capital assets which it has no use for or desires to replace. This event has been a planned function of I and is conducted regularly and consistently over a span of years. Even though this sale event occurs only once a year, it is of a recurring nature because of the pattern of repetitiveness present and, therefore, the casual sale exemption would not apply, regardless of the number of items sold at the sale event each year.

EXAMPLE: J, a corporation engaged in the sale for resale of tangible personal property, sells three capital assets used in J's trade or business consisting of a copy machine, a desk, and a computer. Each sale is made to different buyers and is unrelated to the other sales. The three sales occur in January, June, and October of the same year. The sale made in October consists of a desk. J has not established a pattern of recurring sales of capital assets prior to aforementioned sales of capital assets. Under these circumstances, the sale of the desk is not a casual sale, but the sales of the copy machine and the computer are casual and exempt.

EXAMPLE: K, a corporation, is primarily engaged in the business of road construction. From time to time, it sells used capital assets and scrap materials reclaimed from its road construction work to individuals and businesses. It does not advertise itself as a retailer of these assets and materials but sells them as a matter of courtesy to persons who cannot purchase them elsewhere. After 42 years of operation, it decides to liquidate. Pursuant to that decision, K employs two auctioneers to sell its capital assets and ceases operation after its assets are sold. K had only one capital asset sale during the 12 months immediately preceding each liquidation auction sale. The auction sales are exempt casual sales under this subrule (1) because they are nonrecurring, and (2) because K is not a retailer of the capital assets sold during its liquidation.

EXAMPLE: L, a sole proprietorship, engaged in selling automobile parts at retail, incorporated. The assets of L are sold to the new corporation in exchange for stock and the new corporation now engages in selling automobile parts at retail. The casual sale exemption would apply, but only because of the exemption set out in subrule 285.7(2) *infra*, since the transfer involves a liquidation of L's business and the sale of L's inventory to another person (the corporation) which will continue to engage in a similar trade or business.

The above examples are not the only ones pertaining to the questions of whether a casual sale did or did not occur. However, because of the myriad of factual situations which can and do exist, it is not possible to formulate more detailed rules on this subject matter.

285.7(2) *Special rules for casual sales involving the liquidation of a trade or business.* When retailers sell all or substantially all of the tangible personal property held or used in the course of the trade or business for which retailers are required to hold a sales tax permit, the casual sale exemption will apply to exempt those sales only when the following circumstances exist: (1) the trade or business must be transferred to another person, and (2) the transferee must engage in a similar trade or business. The trade or business transferred refers to the place where the business is located since each taxable retail business must have a sales tax permit at each location. For purposes of this casual sale circumstance, it is irrelevant whether the retailer actually has a sales tax permit or not; rather, the relevant circumstance is that the retailer was required to have a sales tax permit. One effect of this is that a retailer who is closing as opposed to transferring a business and is selling inventory in the process of this closing is not entitled to claim the casual sale exemption under this subrule, but see subrule 285.7(1), and the resale exemption is always potentially applicable to sales of inventory. The examples below contain further explanation.

EXAMPLE: L, a hardware store, desires to liquidate the business. L had been selling tangible personal property at retail and was required to have an Iowa retail sales tax permit. L hires a professional auctioneer and all items of inventory, equipment, and fixtures are sold to various purchasers. These items consist of all or substantially all of the tangible personal property held or used by L in the course of the business for which a sales tax permit was required to be held. L, however, does not transfer the trade or business to anyone else. Under these circumstances, the casual sales exemption does not apply to the sale of the inventory, but see subrule 285.7(1) for criteria which determine whether the casual sales exemption applies to the equipment and fixtures.

EXAMPLE: The facts are the same as those in the previous example, except that L is liquidating its business because it attempted to build a new store and its entire inventory was destroyed by fire while in storage. An auctioneer sells L's equipment and trade fixtures to various purchasers. The auctioneer's sale of the equipment and trade fixtures is an exempt casual sale of the type described in subrule 285.7(2) because (1) it is nonrecurring, and (2) it is outside the usual course of L's business.

EXAMPLE: M, a sole proprietorship, incorporated. The assets of M are sold to the new corporation for stock. The new corporation engaged in a similar business. The casual sale exemption would apply.

EXAMPLE: N, an oil company, sells all or substantially all of the tangible personal property of ten company-owned service stations which were held or used in the course of its business, for which N was required to hold a sales tax permit, by bulk sales or otherwise. The sales were made to O, P, and Q and occurred at different times during the same year, each sale being unrelated. N was required to have a sales tax permit for each service station. N transferred its trade or business (each service station) to O, P, and Q, each of whom will engage in the same business N did, i.e., operation of service stations. Even though under these circumstances, the sales by N are recurring, the casual sales exemption would apply since each trade or business was transferred to another person who did engage in a similar trade or business.

EXAMPLE: R, an operator of a restaurant, auctions off to various purchasers who are not engaged in the restaurant business all or substantially all of the tangible personal property held or used in the business for which R was required to hold a retail sales tax permit. R transfers the trade or business to S who then operates a restaurant at the same location R did. Even if S did not purchase any of the tangible personal property, under these circumstances, the casual sales exemption applies. The tangible personal property held or used in the trade or business need not be sold to the same person to whom the trade or business is sold for the exemption to apply.

EXAMPLE: T, a restaurant, sells all of its tangible personal property held or used in the course of its business for which it was required to hold a sales tax permit to U. T also sells its trade or business to U. U engages in the business of operation of a dance hall and does not continue to operate the restaurant. This subrule's casual sales exemption will not apply, but see subrule 285.7(1) for the criteria of a casual sale exemption which could apply.

The above examples are not the only ones pertaining to the question of whether a casual sale did or did not occur. However, because of the myriad of factual situations which can and do exist, it is not possible to formulate more detailed rules on this subject matter.

285.7(3) *Casual sales of services.* The “casual sale” of an enumerated service has occurred if the following circumstances exist:

a. The service was rendered, furnished, or performed on a nonrecurring basis by a seller who, at the time of the sale of the service, is not engaged for profit in the business of selling tangible goods or services taxed under Iowa Code section 423.2 or, if so engaged, the sale was outside the regular course of the seller’s business; or

b. The sales of all, or substantially all of the services held or used by a retailer in the course of the retailer’s trade or business for which the retailer is required to hold a sales tax permit, if the retailer sells or otherwise transfers the trade or business to another person who engages in a similar trade or business.

EXAMPLE: V ordinarily engages in janitorial and building maintenance or cleaning which are taxable services. Once, as a favor to customer W, V cut customer W’s lawn and otherwise performed the taxable service of “lawn care” for customer W. Since this performance of lawn care was not “within V’s regular course of business” and was not “recurring,” the sales price from the lawn care is not subject to tax.

EXAMPLE: Corporation X rents a piece of equipment from Y. Y does not otherwise rent equipment and does not engage in the business for profit of selling tangible personal property, specified digital products, or taxable enumerated services. A casual sale qualifying for the exemption exists.

This rule is intended to implement Iowa Code section 423.3(39).

701—285.8(423) Taxation of Native Americans.

285.8(1) *Definitions.*

“*Native Americans*” means all persons who are descendants of and who are members of any recognized tribe.

“*Settlement*” means all lands recognized as a tribal government settlement or reservation within the boundaries of the state of Iowa.

285.8(2) *Retail sales tax—tangible personal property.* Retail sales of tangible personal property made on a recognized settlement to Native Americans who are members of the tribe located on that settlement, where delivery occurs on the settlement, are exempt from tax. Retail sales of tangible personal property made on a recognized settlement to Native Americans where delivery occurs off the settlement are subject to tax. Retail sales of tangible personal property made to non-Native Americans on a recognized settlement are subject to tax regardless of where the delivery occurs. Sales made to non-Native Americans are taxable even though the seller may be a member of a recognized settlement.

285.8(3) *Retail sales tax—services.* Sales of enumerated taxable services and sales made by municipal corporations furnishing gas, electricity, water, heat, or communication services to Native Americans who are members of the tribe located on the recognized settlement where delivery of the service occurs are exempt from tax. Sales of enumerated taxable services or sales made by municipal corporations furnishing gas, electricity, water, heat, or communication services to Native Americans where delivery of the services occurs off a recognized settlement are subject to tax.

285.8(4) *Off-settlement purchases.* Purchases made by Native Americans off a recognized settlement are subject to tax if delivery occurs off the settlement. Purchases made by Native Americans off a recognized settlement are not subject to tax if delivery is made on the settlement to Native Americans who are members of the tribe located on that settlement.

This rule is intended to implement Iowa Code section 423.3.

701—285.9(423) Computer software.

285.9(1) *In general.*

a. Applicability of tax. For the purposes of this rule, the sales price of the tangible personal property, specified digital products, and services found within Iowa Code section 423.2 is subject to tax.

b. Definitions.

“*Program*” is interchangeable with the term “software” for purposes of this rule.

“*Rental or lease*” means the same as defined in Iowa Code section 423.1(24).

285.9(2) Taxable sales, rentals or leases, and services.

a. Sales of equipment. Tax applies to sales of automatic data processing equipment and related equipment.

b. Rental or leasing of equipment. Where a lease includes a contract for the use of equipment, the rental or lease payments are subject to tax.

c. Training materials. Persons who sell or lease data processing equipment may provide a number of training services with the sale or rental of their equipment. Training services, per se, are not subject to tax. Training materials, such as books, furnished to the trainees for a specific charge are taxable.

d. Services a part of the sale or lease of equipment. Where services, such as programming, or training are provided to those who purchase or lease software on a mandatory basis as an inseparable part of the sale or taxable lease of the equipment, charges for the furnishing of the services are includable in the measure of tax from the sale or lease of the equipment whether or not the charges are separately stated. (Where the purchaser or lessee has the option to acquire the equipment either with the services or without the services, charges for the services may not be excluded from the measure of tax if they are taxable enumerated services.)

e. Mailing services. Addressing (including labels) for mailing. Where a service provider addresses, through the use of its software or otherwise, material to be mailed, with names and addresses furnished by the customer or maintained by the service provider for the customer, tax does not apply to the charge for addressing. Similarly, where the service provider prepares, through the use of its software or otherwise, labels to be affixed to material to be mailed, with names and addresses furnished by the customer or maintained by the service provider for the customer, tax does not apply to the charge for producing the labels, regardless of whether the service provider itself affixes the labels to the material to be mailed. However, tax would be due on any tangible personal property, such as labels, consumed by the service provider. Mailing lists which are attached to envelopes and placed in the mail by a service bureau constitute tangible personal property and are subject to tax.

This rule is intended to implement Iowa Code section 423.3.

701—285.10(423) Envelopes for advertising. Some envelopes which contain advertising are exempt from tax. Envelopes which are not primarily used for advertising are taxable. The primary use of the envelopes should control whether they will be taxable or exempt.

EXAMPLE 1: XYZ mails coupons and advertisements to persons giving discounts on a certain item which is sold at retail. The envelope used to package these materials is exempt from tax since it is primarily used to contain advertising materials.

EXAMPLE 2: XYZ mails a monthly billing statement to its charge account customers. In addition to the billing statement, XYZ encloses an advertisement in the envelope. The envelope has a dual purpose: (1) the collection of accounts receivable and (2) the distribution of advertising. However, the envelope is not primarily used for advertising but for billing the customer, therefore, the exemption does not apply.

This rule is intended to implement Iowa Code section 423.3(42).

701—285.11(423) Newspapers, free newspapers and shoppers’ guides.

285.11(1) Sales price of newspapers. The sales price from the sales of newspapers, free newspapers, and shoppers’ guides are exempt from tax. The sales price from the sales of magazines, newsletters, and other periodicals which are not newspapers are taxable.

285.11(2) General characteristics of a newspaper. “Newspaper” is a term with a common definition. A “newspaper” is a periodical, published at short, stated, and regular intervals, usually daily or weekly. It is printed on newsprint with news ink. The format of a newspaper is that of sheets folded loosely together without stapling. A newspaper is admitted to the U.S. mails as second-class material.

285.11(3) Characteristics of newspaper publishing companies. Companies in the business of publishing newspapers are differently structured from other companies. Often, companies publishing larger newspapers will subscribe to various syndicates or “wire services.” A larger newspaper will employ a general editor and a number of subordinate editors as well, for example, sports and lifestyle

editors; business, local, agricultural, national, and world news editors; and editorial page editors. A larger newspaper will also employ a variety of reporters and staff writers. Smaller newspapers may or may not have these characteristics or may consolidate these functions.

285.11(4) *Characteristics which distinguish a newsletter from a newspaper.* A “newsletter” is generally distributed to members or employees of a single organization and not usually to a large cross section of the general public. It is often published at irregular intervals by a volunteer, rather than the paid individual who usually publishes a newspaper. A newsletter is often printed on sheets which are held together at one point only by a staple, rather than folded together.

This rule is intended to implement Iowa Code section 423.3(55).

701—285.12(423) Maintenance or repair of fabric or clothing.

285.12(1) Sales of chemicals, solvents, sorbents, or reagents consumed in the maintenance or repair of fabric or clothing are exempt from tax. See rule 701—200.1(423) for definitions of the terms “chemical,” “solvent,” “sorbent” or “reagent.” This subrule’s exemption is mainly applicable to dry-cleaning and laundry establishments; however, it is also applicable to soap or any chemical or solvent used to clean carpeting. The department presumes that a substance is “directly used” in the maintenance or repair of fabric or clothing if the substance comes in contact with the fabric or clothing during the maintenance or repair process. Substances which do not come into direct contact with fabric or clothing may, under appropriate circumstances, be directly used in the maintenance or repair of the fabric or clothing but direct use will not be presumed.

The following are examples of substances directly used and consumed in the maintenance or repair of fabric or clothing: perchloroethylene “perch” or petroleum solvents used in dry-cleaning machines and coming in direct contact with the clothing being dry-cleaned. Substances used to clean or filter the “perch” or petroleum solvents would also be exempt from tax, even though these substances do not come in direct contact with the clothing being cleaned. The sale of soap or detergents especially made for mixing with “perch” or petroleum solvents is exempt. The sale of stain removers to dry cleaners is exempt from tax.

A commercial laundry’s purchase of detergents, bleaches, and fabric softeners is exempt from tax. A commercial laundry’s purchase of water, which is a solvent, is also exempt from tax if purchased for use in the cleaning of clothing.

The purchase of starch by laundries and “sizing” by dry cleaners is not exempt from tax.

285.12(2) The sale of property which is a container, label, or similar article or receptacle for transfer in association with the maintenance or repair of fabric or clothing is exempt from tax. In general, the sale of any article which protects dry-cleaned or laundered clothing from dirt or helps the dry-cleaned or laundered clothing to maintain its proper shape or form in the same fashion as a container does would be exempt from tax under this subrule. By way of nonexclusive example, the sale of plastic garment bags, which protect clothing from dirt, is exempt from tax. The sale of “shirt boards” and garment hangers, both of which help clothing to maintain its proper shape, would also be exempt.

A container, label, or similar article’s sale is exempt from tax only if the item is transferred to the customer of a commercial laundry, dry cleaner, or other retailer. Thus, “bundle bags” and “Meese carts,” used to transfer or transport clothing within a dry-cleaning establishment, are not subject to the exemption because these bags and carts remain with the dry cleaner and are not transferred to a customer.

Concerning labels, the sale of which would be exempt from tax, these labels must be affixed to the dry-cleaned or laundered clothing and transferred to the customer of the dry-cleaning or laundering establishment. By way of nonexclusive example, the sale to dry cleaners, of “special attention,” “invoice” and “sorry” tags would be exempt from tax.

The sale of safety pins and other types of clips used to hang skirts and other garments from hangers would not be exempt from tax. These items do not sufficiently resemble containers or labels to the extent that their sale is exempt from tax.

This rule is intended to implement Iowa Code sections 423.3(45) and 423.3(51).

701—285.13(423) Drop shipment sales. A “drop shipment” generally involves two transactions and three parties. The first party is a consumer located inside Iowa. The second party is a retailer located outside the state. The third party is a supplier who may be located inside or outside of Iowa. A drop shipment sale occurs when the consumer places an order for the purchase of tangible personal property with the out-of-state retailer. The retailer does not own the property ordered at the same time the consumer’s order is placed. The retailer then purchases the property from the supplier. The supplier ships the property directly to the consumer in Iowa. The supplier in a drop shipment sale is not required to collect sales or use tax from the consumer, even if the requisite nexus to require collection exists.

If delivery of goods under a contract for sale occurs outside of Iowa, sale of the goods occurs outside of Iowa. If delivery of the goods under the contract for sale occurs within Iowa, the sale occurs in Iowa. If the sale occurs in Iowa and the retailer possesses the requisite nexus to require it to collect Iowa sales tax, the retailer is obligated to collect Iowa sales tax upon the sales price from its sale of the goods to the consumer. If the sale occurs in Iowa but the retailer does not have nexus sufficient to require it to collect Iowa sales or use tax, or if the retailer fails to collect sales tax, the consumer is obligated to pay use tax directly to the department.

EXAMPLE A: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The Minneapolis retailer contracts with a supplier in Iowa to manufacture and ship the goods to the consumer. The retailer has nexus with Iowa, and delivery under the contract for sale has occurred in this state. In this case, the consumer is obligated to pay and the retailer is obligated to collect Iowa sales tax. The supplier is not obligated to collect any Iowa tax.

EXAMPLE B: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The Minnesota retailer contracts with a supplier in Iowa to manufacture and ship the goods to the consumer. The retailer has no nexus with Iowa. Delivery under the contract of sale is in Iowa. Under these circumstances, the consumer is obligated to pay use tax directly to the department. Neither the retailer nor the supplier is obligated to collect any Iowa tax.

EXAMPLE C: A consumer in Des Moines, Iowa, purchases goods from a retailer in Minneapolis, Minnesota. The retailer contracts with a supplier in Minneapolis to manufacture and ship the goods to the consumer in Des Moines. The retailer has nexus with this state; delivery under the contract for sale is in Minnesota. Under the circumstances, the consumer is obligated to pay and the retailer is obligated to collect Iowa use tax. The supplier is not obligated to collect or pay any Iowa tax.

This rule is intended to implement Iowa Code sections 423.1, 423.14, and 413.14A.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 701—Chapter 213
“Miscellaneous Taxable Sales”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 421.14, 422.68, and 423.42
State or federal law(s) implemented by the rulemaking: Iowa Code sections 423.1, 423.2, 423.3, and 423.5

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 to 11 a.m.

Via video/conference call:
meet.google.com/pmv-smfj-zwf
Or dial: 413.369.1186
PIN: 243 048 107#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Revenue no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nick Behlke
Department of Revenue
Hoover State Office Building
P.O. Box 10457
Des Moines, Iowa 50306-3457
Phone: 515.336.9025
Email: nick.behlke@iowa.gov

Purpose and Summary

The purpose of this proposed rulemaking is to rescind Chapter 213 and adopt new Chapter 213. The Department proposes amendments to the chapter to remove portions of the rules that the Department determined are obsolete, unnecessary, or duplicative of statutory language. The chapter describes the Department’s interpretation of the underlying statute to help the public understand the taxability of miscellaneous types of sales. These proposed rules reduce uncertainty about what is subject to tax and what is exempt.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The proposed rules do not create costs for any class of persons.
 - Classes of persons that will benefit from the proposed rulemaking:
The public will benefit from clarification about what is subject to tax and what is exempt.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no economic impact from the proposed rules.
 - Qualitative description of impact:

These proposed rules reduce uncertainty about what is taxable and what is exempt. Failing to adopt them would lead to confusion, questions to the Department, and potential errors in calculation.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the agency of implementing the proposed rules beyond those that would otherwise be required to administer the statute.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are no costs relating to the proposed rules. The cost of inaction would be failing to update the chapter to remove obsolete language and language that is duplicative of the statute. The benefit of the rules is reducing confusion about what is taxable and what is exempt.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The purpose of the rules is to provide guidance on what is taxable and what is exempt.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department did not seriously consider any alternative methods.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Proceeding without the proposed rules would lead to confusion about what is taxable and what is exempt.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking does not have a substantial impact on small business. The rules do not make any special distinctions for small businesses. The rules do not impose any requirements on businesses, other than taxation requirements imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 213 and adopt the following **new** chapter in lieu thereof:

CHAPTER 213
MISCELLANEOUS TAXABLE SALES

701—213.1(423) Conditional sales contracts.

213.1(1) Definition. A “conditional sale” is a sale in which the vendee receives the right to the use of the goods that are the subject matter of the sale, but the transfer of title to the vendee is dependent on the performance of some condition by the vendee, usually the full payment of the purchase price.

213.1(2) Factors used to determine a conditional sale. Conditional sales are evidenced by the facts supporting the nature of the vendor’s business, the intent of the parties, and the facts supporting the control over the tangible personal property by the vendee.

A conditional sales contract would exist where:

a. The vendee/lessee has total control over the property and is responsible for all losses or damages;

b. The transfer of the property is complete except for title, which passes upon the condition of full payment; and where such full payment is performed under nearly all the vendor’s “lease” agreements, except in cases of default; and

c. The vendor has no intent of retaining control over the property except for purposes of selling it or financing it for sale.

In determining whether an agreement constitutes a conditional sale or a true lease, substance shall prevail over form, and the terminology of the written agreement will be considered only to the extent that it accurately represents the true relationship of the parties.

213.1(3) Taxability of conditional sales. When a conditional sale exists, the seller bills the purchaser for the full amount of tax due, and sales tax is due on the full contract price upon delivery of the property that is the subject of the contract. No further tax is due on the periodic payments. Interest and finance charges are not considered part of the sales price if they are separately stated and reasonable in amount and are, therefore, not subject to tax.

This rule is intended to implement Iowa Code sections 423.1(50) and 423.2(1).

701—213.2(423) The sales price of sales of butane, propane and other like gases in cylinder drums, etc. Sales of butane, propane and other like gases in cylinder drums and other similar containers purchased for cooking, heating and other purposes are taxable.

When gas of this type is sold and motor vehicle fuel tax is collected by the seller, sales or use tax shall not be due. If Iowa motor vehicle fuel tax is not collected by the seller at the time of the sale, sales or use tax shall be collected and remitted to the department, unless the sale is specifically exempt.

If tax is not collected by the seller at the time of sale, any tax due shall be collected by the department at the time the user of the product makes an application for a refund of the motor vehicle fuel tax.

The sales price from the rental of cylinders, drums and other similar containers by the distributor or dealer of the gas shall be subject to tax when the title remains with the dealer. The sales price of gas converter equipment that might be sold to an ultimate consumer shall be subject to tax.

This rule is intended to implement Iowa Code sections 423.1(46) and 423.2(1).

701—213.3(423) Antiques, curios, old coins, collector’s postage stamps, and currency exchanged for greater than face value. Curios, antiques, art work, coins, collector’s postage stamps and such articles sold to or by art collectors, philatelists, numismatists and other persons who purchase or sell such items of tangible personal property for use and not primarily for resale are sales at retail, and their sales price are subject to tax.

213.3(1) The sales price of stamps, whether canceled or uncanceled, which are sold by a collector or person engaged in retailing stamps to collectors is subject to tax.

213.3(2) Stamps that are purchased for their value as evidence of the privilege of the owner to have certain mail carried by the United States government are not taxable. A stamp becomes an article of

tangible personal property having market value when, because of the demand, it can be sold for a price greater than its face value. On the other hand, when a stamp has only face value, as evidence of the right to certain services or an indication that certain revenue has been paid, its sales price is not subject to either sales or use tax.

213.3(3) The sales price from any exchange, transfer, or barter of merchandise for a consideration paid in gold, silver, or other coins or currency is subject to tax to the extent of the agreed-upon value of the coins or currency so exchanged. This agreed-upon value constitutes the sales price or purchase price subject to tax. Currency or coins become articles of tangible personal property having a value greater than face value when the currency or coins are exchanged for a price greater than face value. However, when a coin or other currency, in the course of circulation, is exchanged at its face value, the sales price of the sale is subject to tax for the face value alone.

EXAMPLE 1: Taxpayer operates a furniture store. The taxpayer offers to exchange furniture for silver coins at ten times the face value of any coins dated prior to January 1, 1965. Upon any exchange pursuant to the offer, the value of the coins for purposes of determining the tax on the exchange will be equivalent to the value as agreed upon by the parties, without regard to the face value of the coins.

EXAMPLE 2: Taxpayer operates a hardware store. In the regular course of business, the taxpayer receives silver coins dated prior to January 1, 1965. Taxpayer has received the coins at face value for the sales price and only that value is subject to tax.

This rule is intended to implement Iowa Code sections 423.1(47), 423.2(1) and 423.5.

701—213.4(423) Consignment sales. When a retailer receives tangible personal property on consignment from others and the consigned merchandise is sold in the ordinary course of business with other merchandise owned or services performed by the retailer, the retailer or consignee shall be making sales at retail. In these cases, the consignee shall file a return and remit tax to the department along with the returns and remittances of tax on the sales price from the sale of other merchandise.

The sales price of sales of tangible personal property by an agent or consignee for another person is exempt if the sales meet the requirements of a casual sale or any other exemptions.

This rule is intended to implement Iowa Code section 423.2(1).

701—213.5(423) Electrotypes, types, zinc etchings, halftones, stereotypes, color process plates, wood mounts and art productions. The sales price of electrotypes, types, zinc etchings, halftones, stereotypes, color process plates, wood mounts and art productions is subject to tax when sold to users or consumers. The listed articles do not become an integral or component part of merchandise intended to be sold ultimately at retail.

This rule is intended to implement Iowa Code sections 423.2(1) and 423.3(51).

701—213.6(423) Sales on layaway. The sales price from a layaway sale is subject to tax. A layaway sale involves two separate and distinct contracts. Under the first contract, the customer and the retailer enter into an agreement to give the customer an option to purchase a certain item of tangible personal property. Under the second contract, the sale of property takes place. During the period of the option to purchase, the item is placed aside “on layaway” and is not available for sale to the general public. This option to purchase is exercised by the customer’s making one or more “layaway payments.” The customer exercises the option to buy by completing the layaway payments. The last layaway payment is also the tendered payment under the separate contract for sale of the property. The contract for sale is complete when the seller delivers the property to the buyer. Tax must be reported during the period (e.g., the quarter or month) in which delivery under the contract for sale portion of the layaway occurs. This will nearly always be the reporting period in which physical transfer of possession passes from the retailer to the buyer.

A sale on layaway should not be confused with a “conditional sale.” The differences are these: (1) In a conditional sale, physical transfer of property occurs before, rather than after, the buyer makes all periodic payments necessary to purchase the property; and (2) in a conditional sale, physical possession of and title to the property pass to the buyer at different times. In a conditional sale situation, physical

possession passes first; then after all periodic payments are made, title (ownership) passes to the buyer. In a layaway sale, both possession and title pass at the same time after all payments are made.

This rule is intended to implement Iowa Code sections 423.1(46) and 423.2(1).

701—213.7(423) Memorial stones. The sales price of memorial stones is subject to tax. When the seller of a memorial stone agrees to erect a stone upon a foundation, the total sales price from the sale is taxable. Any separately itemized charge for engraving is part of the taxable sales price of a memorial stone.

The sales price of any designs, lettering or engraving performed on a memorial stone or monument is also subject to tax.

This rule is intended to implement Iowa Code section 423.2(1).

701—213.8(423) Creditors and trustees. Pursuant to the provisions of any piece of chattel paper or any other document evidencing a creditor's interest in tangible personal property, the sales price from the sale of tangible personal property at a public auction shall be taxable even if the sale is made by virtue of a court decree of foreclosure by an officer appointed by the court for that purpose.

The tax applies to the sales price of inventory and noninventory goods, provided the owner is in the business of making retail sales of tangible personal property or taxable services.

This rule is intended to implement Iowa Code sections 423.2(1) and 423.5(1).

701—213.9(423) Sale of pets. Sales of pets are tangible personal property subject to tax. A retailer selling pets shall procure a permit and report tax on the sales price from the sale of such pets.

This rule is intended to implement Iowa Code sections 423.1(54) and 423.2(1).

701—213.10(423) Redemption of meal tickets, coupon books and merchandise cards as a taxable sale. When meal tickets, coupon books, or merchandise cards are sold by persons engaged exclusively in selling taxable commodities or services, tax shall be levied at the time such items are redeemed by the customer. Tax shall not be added at the time of actual purchase of the meal ticket, coupon book, or merchandise card. When a retailer sells gift certificates, tax shall be added at the time the gift certificate is redeemed.

This rule is intended to implement Iowa Code sections 423.1 and 423.2.

701—213.11(423) Repossessed goods.

213.11(1) Sale subject to tax. When tangible personal property that has been repossessed either by the original seller or by a finance company is resold to final users or consumers, the sales price from those sales is subject to tax.

213.11(2) Bad debts. A retailer repossessing previously sold merchandise shall be entitled to claim a credit on tax paid for bad debts in the same fashion as any other retailer that has paid tax to the department upon a sales price that ultimately constitutes a bad debt.

This rule is intended to implement Iowa Code sections 423.2(1) and 423.5(1).

701—213.12(423) Tangible personal property made to order. When a retailer contracts to fabricate items of tangible personal property from materials available in stock or through placing orders for materials that have been selected by customers, all expenses and profits from the sale of such fabricated articles shall be included in the sales price. The retailer shall not deduct fabrication or production charges, even though such charges are separately billed.

This rule is intended to implement Iowa Code sections 423.2(1) and 423.5(1).

701—213.13(423) Used or secondhand tangible personal property. The sales price on the sale of used or secondhand tangible personal property is subject to tax in the same manner as new property. This condition eliminates any consideration for secondhand merchandise to be treated differently than new merchandise when sold at retail for sales tax purposes.

This rule is intended to implement Iowa Code sections 423.2(1) and 423.5(1).

701—213.14(423) Carpeting and other floor coverings. The sale of carpeting and other floor coverings to any person constitutes a sale at retail of tangible personal property, and the sales price of these sales is subject to sales or use tax unless the carpeting and other floor coverings are purchased for resale or are otherwise exempt from tax.

The sales price of floor coverings other than carpeting that are shaped to fit a particular room or area and that are attached to the supporting floor with cement, tacks, or by some other method making a permanent attachment with the building or structure are considered to be building materials and shall be taxable in the same manner as building materials that are used or consumed in the performance of a construction contract. See rule 701—219.2(423) and 701—subrule 219.3(3) for tax treatment.

The sale of carpeting is not to be treated as the sale of a “building material.” The sales price of rugs, mats, linoleum, and other types of floor coverings that are not attached but that are simply laid on finished floors and are not considered building materials is subject to tax unless the floor coverings are purchased for resale or are otherwise exempt from tax.

The sale of “carpeting” to owners, contractors, subcontractors or builders is not the sale of a building material, but the sale of ordinary tangible personal property, which can be purchased for resale by owners, contractors, subcontractors or builders. “Carpeting” is any floor covering made of fabric, usually of wool or synthetic fibers. For purposes of this rule, “carpeting” also includes any pads, tack strips, adhesive, and other materials other than subflooring necessary for installation of the carpeting. Sellers of carpeting should charge purchasers sales tax unless the carpeting is purchased for resale or some other exempt purpose, in which case the purchaser must provide the seller with an exemption certificate upon demand.

The sales price of carpeting, with installation, is taxable in the following manner:

1. If separate contracts exist for the sale of the carpeting and for the installation, only the sales price of the carpeting is subject to tax.
2. If the selling price of the carpeting and the installation charge are stated as one charge or lump sum, the entire charge is subject to sales tax.
3. If the invoice itemizes the installation charge separately from the selling price of the carpet, only the selling price of the carpet is subject to sales tax if the installer and the purchaser of the carpet intend that a sale of the carpet shall occur. See 701—subrule 225.4(1) for more information.

In the following examples, assume that contractor A purchases carpeting from supplier B for installation in customer C’s home. Whether or not A will purchase the carpeting from B for A’s own consumption (and thus, A will pay the tax to B) or A will purchase the property from B for resale to C (and thus, C will pay the tax to A) depends upon any contracts existing between A (the contractor) and C (the customer).

EXAMPLE A: A contracts with C to install carpeting in C’s home. Separate contracts exist between A and C for the sale of the carpeting and for its installation. Under these circumstances, A purchases the carpeting from B for resale to C. No tax is due upon the sales price of the transaction between A and B; tax is due upon A’s resale of the carpet to C, but not upon A’s charges for carpet installation, a nontaxable service.

EXAMPLE B: A charges C one lump sum for the carpeting and installation. In this case, A collects sales tax from C on the entire lump sum. The lump sum is treated, for sales tax purposes, as the sales price from the sale of tangible personal property; so A purchases the carpet from B for resale and without tax.

EXAMPLE C: A and C contract for the sale of the carpet separate from its installation. A sends C one invoice for the installation and sale of the carpet with the installation charge listed on the invoice separately from the selling price of the carpet. Under these circumstances, only the selling price of the carpet listed on the invoice is subject to sales tax and A purchases the carpet from B for resale and thus, without obligation to pay sales tax to B.

This rule is intended to implement Iowa Code section 423.2(1) “b.”

701—213.15(423) Goods damaged in transit. If goods shipped by a retailer have been delivered under a contract for sale to a consumer, and thereafter the goods are damaged in the course of transit to the

consumer, the retailer and purchaser shall be liable for tax upon the full sale price of the goods, as the sale to the consumer has been completed.

If the goods have not been delivered to the consumer, the sale to the consumer has not been completed, and the retailer shall not be taxed for the amount agreed to be paid by the consumer.

This rule is intended to implement Iowa Code section 423.2.

701—213.16(423) Sales of engraved, bound, printed, and vulcanized materials.

213.16(1) Engraving. Engraving includes the business of engraving on wood, metal, stone, or any other material. The engraved material is tangible personal property, the sales price of which is subject to tax.

213.16(2) Binding. Persons engaged in the business of binding any printed matter, other than for the purpose of ultimate sale at retail, are engaged in the sale of tangible personal property, the sales price of which is subject to tax.

213.16(3) Printing. Printing includes, but is not limited to, any type of printing, lithographing, mimeographing, photocopying and similar reproduction. The following activities are nonexclusive examples of printed tangible personal property that are subject to tax: printing of pamphlets, leaflets, stationery, envelopes, folders, bond and stock certificates, abstracts, law briefs, business cards, matchbook covers, campaign posters and banners for the users thereof.

213.16(4) Vulcanizing. “Vulcanizing” means the act or process of treating crude rubber, synthetic rubber, or other rubberlike material with a chemical and subjecting it to heat in order to increase its strength and elasticity. The item produced after vulcanizing is tangible personal property, the sales price of which is subject to sales tax.

This rule is intended to implement Iowa Code section 423.2(1)“a.”

701—213.17(423) Premiums and gifts. A person who gives away or donates tangible personal property, specified digital products, or taxable services is deemed to be a consumer of such property, products, or services for tax purposes. The sales price from the sale of tangible personal property, specified digital products, or taxable services to such persons for such purposes is subject to tax.

When a retailer purchases tangible personal property, a specified digital product, or a taxable service, exclusive of tax, for the purpose of resale in the regular course of business and later gives it away or donates it, the retailer shall include in the return the value of the property, product, or service at the retailer’s cost price.

When a retailer sells tangible personal property, specified digital products, or taxable services and furnishes a premium with the property, product, or service sold, the retailer is considered to be the ultimate consumer or user of the premium furnished.

This rule is intended to implement Iowa Code sections 423.1 and 423.2.

701—213.18(423) Webinars.

213.18(1) In general. Webinars are generally taxable as specified digital products. Specifically, webinars fall into the “other digital products” category as a news or information product. Purchasing access to a live or pre-recorded webinar, even if the webinar’s purpose is educational or otherwise, is not treated as purchase of a service.

213.18(2) Nontaxable live webinars with virtual participation. Purchases of access to a live webinar, meaning access to viewing a presentation occurring in real time, are not always subject to sales tax. Attending a presentation in person, if it is not an admission to an amusement, is generally not taxable under Iowa law. Similarly, purchasing access to a live webinar is not taxable if the live webinar allows for a level of participation that is substantially similar to an in-person presentation.

213.18(3) Exemptions. Since purchases of webinars are taxable as specified digital products, any sales tax exemptions that apply to specified digital products may also apply to webinars.

EXAMPLE 1: A person purchases access to a live webinar to view on the person’s computer or mobile device. The in-person presentation, which can be viewed by people with access to the live webinar, allows for in-person attendees to ask questions throughout the presentation. Persons viewing

the presentation through the live webinar on their computer or mobile device cannot submit questions to the presenter throughout the duration of the webinar. The level of participation between the in-person presentation and the live webinar are not substantially similar. The purchase of access to view this live webinar is subject to sales tax.

EXAMPLE 2: A person purchases access to a live webinar to view on the person's computer or mobile device. The in-person presentation, which is viewable by people with access to the live webinar, does not allow in-person attendees to ask questions throughout the presentation. The person viewing the presentation through the live webinar on the person's computer or mobile device cannot submit questions to the presenter throughout the duration of the webinar. The level of participation between the in-person presentation and the live webinar is substantially similar. The purchase of access to view this live webinar is not subject to sales tax.

This rule is intended to implement Iowa Code section 423.1(55B).

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 701—Chapter 216
“Events, Amusements, and Other Related Activities”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 421.14, 422.68 and 423.42
State or federal law(s) implemented by the rulemaking: Iowa Code sections 99F.10, 423.2(1),
423.2(3)“m,” “v,” and “j,” and 423.3(63)

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 to 11 a.m.

Via video/conference call:
meet.google.com/pmv-smfj-zwf
Or dial: 413.369.1186
PIN: 243 048 107#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Revenue no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nick Behlke
Department of Revenue
Hoover State Office Building
P.O. Box 10457
Des Moines, Iowa 50306-3457
Phone: 515.336.9025
Email: nick.behlke@iowa.gov

Purpose and Summary

The purpose of the proposed rulemaking is to rescind Chapter 216 and adopt new Chapter 216. The Department proposes amendments to the chapter to remove portions of the rules that the Department determined are obsolete, unnecessary, or duplicative of statutory language. The Department also proposes additional rules to be included in this chapter that were previously found in other chapters because the Department has determined that the subject matter of those rules more closely aligns with the subject matter of this chapter. The purpose of the chapter is to provide guidance on the Department’s interpretation of the underlying statute to help the public understand exemptions relating to events and amusements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The proposed rules do not create costs for any class of persons.
 - Classes of persons that will benefit from the proposed rulemaking:
The public will benefit from clarification about exemptions relating to events and amusements.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no economic impact of the proposed rules.

- Qualitative description of impact:

The rules reduce uncertainty about exemptions relating to events and amusements. Failing to adopt them would lead to confusion, questions to the Department, and potential errors.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the agency of implementing the rules beyond those that would otherwise be required to administer the statute.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are no costs associated with the proposed rules. The benefit of the rules is reducing confusion about exemptions relating to events and amusements.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The purpose of the rules is to provide guidance on exemptions relating to events and amusements.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department considered the option of not implementing the rules, but determined that the rules provide helpful guidance and useful clarification to the public on exemptions relating to events and amusements.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Department determined that proceeding without these rules would lead to confusion about exemptions relating to events and amusements.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking does not have a substantial impact on small business. The rules do not make any special distinctions for small businesses. The rules do not impose any requirements on businesses, other than taxation requirements imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 216 and adopt the following **new** chapter in lieu thereof:

CHAPTER 216
EVENTS, AMUSEMENTS, AND OTHER RELATED ACTIVITIES

701—216.1(423) Athletic events. The sales price from the sale of tickets or admissions to athletic events occurring in the state of Iowa and sponsored by educational institutions, without regard to the use of the proceeds from such sales, is subject to tax, except when the events are sponsored by elementary and secondary educational institutions.

This rule is intended to implement Iowa Code section 423.2(3).

701—216.2(423) Dance schools and dance studios.

216.2(1) *In general.* The sales price from the services sold by dance schools or dance studios are subject to sales tax. This includes all activities, such as acrobatics, exercise, baton-twirling, tumbling, or modeling taught in dance schools or dance studios.

216.2(2) *Definitions.* For purposes of this rule:

“*Dance school*” means any institution established primarily for the purpose of teaching one or more types of dancing.

“*Dance studio*” means any room or groups of rooms in which any one or more types of dancing are taught.

This rule is intended to implement Iowa Code section 423.2(6) “*m.*”

701—216.3(423) Golf and country clubs and all commercial recreation. All fees, dues or charges paid to golf and country clubs are subject to tax. “Country clubs” include all clubs or clubhouses providing golf and other athletic sports for members. Persons providing facilities for recreation for a charge are rendering, furnishing or performing a service, the sales price of which are subject to tax. “Recreation” includes all activities pursued for pleasure, including sports, games and activities that promote physical fitness, but does not include admissions otherwise taxed under Iowa Code section 423.2.

216.3(1) Dance schools are the only schools the services of which are taxable under Iowa Code section 423.2(6). Rule 701—216.2(423) contains information on dance schools and dance studios. The sales price from any school providing training services in any activity pursued for pleasure or recreation shall not be subject to tax, unless the school is a dance school.

216.3(2) If a person provides both facilities for recreation and instruction in recreational activities, charges for instruction in the recreational activities shall not be subject to tax if all of the following circumstances exist:

a. The instruction charges are contracted for separately, separately billed, and reasonable in amount when compared to the taxable charges of providing facilities for recreation.

EXAMPLE: An ice skating rink offers three membership plans. The first membership plan provides only instruction in the activity of ice skating. The second plan allows for the use of the rink’s facilities, but provides for no instruction in ice skating. The third plan allows the customer to participate in a certain number of ice skating classes and also allows use of the rink’s facilities without instruction. Customer charges for the first plan would not be subject to tax. Customer charges for the second plan would be subject to tax. Charges for the third plan would be subject to tax if billed in one lump sum. If, under the third plan, charges to the customer for instruction and use are separately stated, and the charges for instruction are not unreasonable, the charges for instruction shall be exempt from tax. If it is necessary to pay for instruction to secure use of the facilities for recreation, charges for the instruction are a part of the gross receipts from commercial recreation and shall be subject to tax.

b. The persons receiving the instruction must be under the guidance and direction of a person training them in how to perform the recreational activity. If the persons receiving what purports to be “instruction” are allowed any substantial amount of time to pursue recreational activities, no instruction is taking place. The instruction should be received in what would ordinarily be thought of as a “class”

with a fixed time and place for meeting. The instruction need not be received in what would ordinarily be thought of as a “classroom,” but the instructor and the persons receiving instruction should be segregated from persons engaging in recreational activity insofar as this is possible. Instruction may still occur if complete or partial segregation is impossible.

EXAMPLE 1: A golf pro offers instruction to students on a golf course. The students cannot circulate around the golf course in a group with the golf pro because this would slow the play of golfers following such a group and lead to complaints. The students circulate on the course individually, and the golf pro observes the play of each student and comments upon it. Even though no segregation of the individual students into any sort of a class is possible, the students are receiving instruction from the golf pro and, therefore, no taxable event occurs.

EXAMPLE 2: A retailer maintains a golf driving range. There are separate tee-off positions for each customer to practice driving golf balls. There is also an instructor in driving present. The instructor cannot reserve individual tee-off positions for instruction of students because the positions are filled on a first-come, first-served basis. When students come for instruction, the instructor must make use of whatever tee-off positions are available. Even though segregation of students from other customers is impossible, instruction exists and, therefore, no taxable event occurs.

c. The “instruction” must impart to the learner a level of knowledge or skill in the recreational activity that would not be known to the ordinary person engaging in the recreational activity without instruction. Also, the person providing the instruction must have received some special training in the recreational activity taught if charges for that person’s instruction are to be exempt from tax.

This rule is intended to implement Iowa Code section 423.2(6) “v.”

701—216.4(423) Campgrounds.

216.4(1) *In general.* Persons engaged in the business of renting campground sites are selling a service subject to sales tax, regardless of the duration of the rental. This includes the sales price for the operation of a campground and the use of a campground site.

216.4(2) *Definition.* For purposes of this rule:

“*Campground*” is any location at which sites are provided for persons to place their own temporary shelter, such as a tent, travel trailer, or motorhome. “*Campground*” does not include any hunting, fishing, or other type of camp where accommodations are provided, though such camps are likely subject to sales tax as commercial recreation under rule 701—216.3(423).

216.4(3) *Related charges.* The sale price of charges, whether mandatory or optional, imposed on persons using a campground site that are subject to sales tax include but are not limited to entry fees, utility (electric, water, sewer) fees, fees for the use of swimming pools or showers, and fees for extra persons or vehicles.

216.4(4) *Public parks.*

a. The sales price for the use of a state park as a campground is subject to sales tax; however, the sales price for the use of a county or municipal park as a campground is not subject to sales tax.

b. The sales price of vehicle entry fees into any state, county, or municipal park, commonly called “park user fees,” is not subject to sales tax.

This rule is intended to implement Iowa Code section 423.2(6) “j.”

701—216.5(423) Rental of personal property in connection with the operation of amusements. The sales price from rental of tangible personal property in connection with the operation of amusements is taxable. Such rentals include all tangible personal property or equipment used by patrons in connection with the operation of commercial amusements, notwithstanding the fact that the rental of such personal property may be billed separately.

This rule is intended to implement Iowa Code section 423.2(1).

701—216.6(423) Exempt sales by excursion boat licensees.

216.6(1) The sales price of the following sales by licensees authorized to operate excursion gambling boats is exempt from Iowa sales and use tax:

- a. Charges for admission to excursion gambling boats, and
- b. The sales price from gambling games authorized by the state racing and gaming commission and conducted on excursion gambling boats.

216.6(2) The sales price from charges other than those for admissions or authorized gambling games would ordinarily be taxable. The following is a nonexclusive list of taxable licensee sales: parking fees, sales of souvenirs, vending machine sales, prepared meals, liquor and other beverage sales, and the sales price from nongambling video games and other types of games that do not involve gambling.

This rule is intended to implement Iowa Code section 99F.10.

701—216.7(423) Tangible personal property, specified digital products, or services given away as prizes.

216.7(1) *In general.* The sales price from the sale of tangible personal property, specified digital products, or services that will be given as prizes to players in games of skill, games of chance, raffles, and bingo games as defined in and lawful under Iowa Code chapter 99B is exempt from tax. The rules issued by the Department of Inspections, Appeals, and Licensing in 481—Chapters 100 through 106 further describe the games of skill, games of chance, raffles, and bingo games that are lawful and may be lawfully awarded.

216.7(2) *Gift certificates.* A gift certificate is not tangible personal property. If a person wins a gift certificate as a prize and then redeems the gift certificate for merchandise, tax is payable at the time the gift certificate is redeemed.

This rule is intended to implement Iowa Code section 423.3(63).

Purpose and Summary

The purpose of this proposed rulemaking is to rescind and adopt a new Chapter 218. The Department proposes revisions to the chapter to remove portions of the rules that the Department determined are obsolete, unnecessary, or duplicative of statutory language. This chapter also contains rules that previously existed in other chapters that the Department determined fit better with the subject matter contained in this chapter. This chapter describes the Department’s interpretation of the underlying statutes to help the public understand the taxability of sales and services relating to vehicles.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The proposed rules do not create costs for any classes of persons.
 - Classes of persons that will benefit from the proposed rulemaking:
The public will benefit from clarification about the taxability of sales and services relating to vehicles.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no economic impact as a result of the proposed rules.
 - Qualitative description of impact:

These rules reduce uncertainty about the taxability of sales and services relating to vehicles. Failing to adopt them would lead to confusion, questions to the Department, and potential errors.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the agency of implementing the rules beyond those that would otherwise be required to administer the statute.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost of inaction would be failing to update the chapter to remove obsolete language and language that is duplicative of the statute. The benefit of the rules is reducing confusion about the taxation of sales and services relating to vehicles.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The cost of inaction would be failing to update the chapter to remove obsolete language and language that is duplicative of the statute. The benefit of the rules is reducing confusion about the taxation of sales and services relating to vehicles.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department did not seriously consider any alternative methods.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Proceeding without these rules would lead to confusion about the taxability of sales and services relating to vehicles.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking does not have a substantial impact on small business. The rules do not make any special distinctions for small businesses. The rules do not impose any requirements on businesses, other than taxation requirements imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 218 and adopt the following **new** chapter in lieu thereof:

CHAPTER 218
SALES AND SERVICES RELATED TO VEHICLES

701—218.1(423) Armored car. Persons engaged in the business of either providing armored car service to others or converting a vehicle into an armored car are selling a service subject to sales tax. For purposes of this rule, “armored car” means a wheeled vehicle affording defensive protection by use of a metal covering or other elements of ordinance.

This rule is intended to implement Iowa Code section 423.2(6) “b.”

701—218.2(423) Vehicle repair.

218.2(1) *In general.* Persons engaged in the business of repairing vehicles are selling a service subject to sales tax. Rule 701—225.4(423) contains more information on purchases made by auto body shops.

218.2(2) *Definitions.* For purposes of this rule:

“*Repair*” includes any type of restoration, renovation or replacement of any motor, engine, working parts, accessories, body, or interior of a vehicle. “*Repair*” does not include the installation of new parts or accessories, which are not replacements, added to a vehicle.

“*Vehicle*” means the same as defined in Iowa Code section 321.1(90).

218.2(3) *Disposal fees.* Fees charged with the disposal of any item in connection with the performance of this service are subject to sales tax if the disposal fee of the item is not separately contracted for or itemized in the billing of the repair service. If the disposal fee is itemized or separately contracted for, the disposal fee is not subject to sales tax. Items that may be subject to disposal fee include but are not limited to air filters, batteries, oil, or tires.

This rule is intended to implement Iowa Code section 423.2(6) “c.”

701—218.3(423) Motorcycle, scooter, and bicycle repair.

218.3(1) *In general.* Persons engaged in the business of repairing motorcycles, scooters, and bicycles are selling a service subject to sales tax.

218.3(2) *Definitions.* For purposes of this rule:

“*Bicycle*” includes human-powered bicycles and electric bicycles.

“*Motorcycle*” includes autocycles.

“*Repair*” means the same as defined in rule 701—211.1(423).

This rule is intended to implement Iowa Code section 423.2(6) “ag.”

701—218.4(423) Battery, tire, and allied.

218.4(1) *Batteries in general.* Persons engaged in the business of installing, repairing, maintaining, restoring, or recharging batteries and any services related to or connected therewith are selling a service subject to sales tax.

218.4(2) *Tires in general.* Persons engaged in the business of installing, repairing, or maintaining tires and any services related to or connected therewith are selling a service subject to sales tax.

218.4(3) *Disposal fees.* Disposal fees charged in connection with the performance of the services identified in this rule are subject to sales tax if the disposal fee is not itemized or separately contracted for in the billing for the charge of the service. If the disposal fee charged in connection with the performance of the services identified in this rule are itemized or separately contracted for, then the disposal fee is not subject to sales tax. Items that may be subject to disposal fee include but are not limited to air filters, oil, tires, and batteries.

This rule is intended to implement Iowa Code sections 423.2(6) “d” and 423.2(7) “a”(1).

701—218.5(423) Boat repair.

218.5(1) *In general.* Persons engaged in the business of repairing watercraft are selling a service subject to sales tax.

218.5(2) *Definitions.* For purposes of this rule:

“*Repair*” means the same as defined in rule 701—211.1(423).

“*Watercraft*” means the same as defined in Iowa Code section 462A.2.

This rule is intended to implement Iowa Code section 423.2(6) “*h.*”

701—218.6(423) Vehicle wash and wax.

218.6(1) *In general.* Persons engaged in the business of vehicle washing and waxing are selling a service subject to sales tax, whether performed by hand, machine, or coin-operated device. Rule 701—225.7(423) contains more information on purchases of inputs in vehicle wash and wax services.

218.6(2) *Definition.* For purposes of this rule:

“*Vehicle*” means the same as defined in Iowa Code section 321.1(90).

This rule is intended to implement Iowa Code section 423.2(6) “*i.*”

701—218.7(423) Wrecker and towing.

218.7(1) *In general.* Persons engaged in the business of towing any vehicle are selling a service subject to sales tax. Included in this are services charges for a person to travel to any place to lift, extricate, tow, or salvage a vehicle.

218.7(2) *Definitions.* For purposes of this rule:

“*Towing*” includes any means of pushing, pulling, carrying, or freeing any vehicle from mud, snow, or any other impediment, including any incidental hoisting. “*Towing*” does not include transporting operable vehicles from one location to another when no operative aspect of the vehicle is integral to the transporting.

“*Vehicle*” means the same as defined in Iowa Code section 321.1(90).

This rule is intended to implement Iowa Code sections 423.1(7) and 423.2(6) “*bn.*”

701—218.8(423) Flying service.

218.8(1) *In general.* Persons engaged in the business of teaching a course of instruction in the art of operation and flying of an airplane, and instructions in repairing, renovating, reconditioning an airplane, or any other related service are selling a service subject to sales tax.

218.8(2) *Not included.* Flying services do not include those relating to agricultural aerial application, those relating to aerial commercial and chartered transportation services, and those services exempted by rule 701—211.2(423).

218.8(3) *Flight instruction charges.* Charges relating to flight instruction can be taxable or nontaxable. Taxable charges include but are not limited to the sales price for the following:

- a. Instructors’ services, ground instruction, and ground school.
- b. Students learning to fly with an instructor and dual flying.
- c. Rental of a plane. Rule 701—218.9(423) contains more information.

This rule is intended to implement Iowa Code section 423.2(6) “*s.*”

701—218.9(423) Aircraft rental.

218.9(1) *In general.* Persons engaged in the business of renting aircraft for 60 days or less are selling a service subject to sales tax.

218.9(2) *Definition.* For purposes of this rule:

“*Aircraft*” means the same as defined in Iowa Code section 328.1. “*Aircraft*” also includes any drone aircraft or any aircraft transporting only the pilot.

This rule is intended to implement Iowa Code section 423.2(6) “*bf.*”

701—218.10(423) Snowmobiles, motorboats, and certain other vehicles. The sales price of snowmobiles, all-terrain vehicles, dirt bikes, race karts or go-carts, and motorboats is taxable when purchased and not classified as vehicles subject to registration.

This rule is intended to implement Iowa Code chapter 423.

701—218.11(423) Motor fuel, special fuel, electric fuel, aviation fuels and gasoline.

218.11(1) *In general.* The sales price from the sale of motor fuel, including ethanol, special fuel, and electric fuel is exempt from sales tax if (1) the fuel is consumed for highway use, in watercraft, or in aircraft, (2) the Iowa fuel tax has been imposed and paid, and (3) no refund or credit of fuel tax has been made or will be allowed. The sales price from the sale of special fuel for diesel engines used in commercial watercraft on rivers bordering Iowa is exempt from sales tax, even though no fuel tax has been imposed and paid, providing the seller delivers the fuel to the owner's watercraft while it is afloat.

218.11(2) *Refunds or credits of motor fuel and special fuel.* Claims for refund or credit of fuel taxes under the provisions of Iowa Code chapter 452A must be reduced by any sales or use tax owing the state unless a sales tax exemption is applicable. Generally, refund claims or credits are allowed where fuel is purchased tax-paid and used for purposes other than to propel a motor vehicle or used in watercraft.

218.11(3) *Refunds of tax on fuel purchased in Iowa and consumed outside of Iowa.* Even though fuel is purchased in Iowa, fuel tax is paid in Iowa, and the fuel tax is subject to refund under the provisions of division III of Iowa Code chapter 452A relating to interstate motor vehicle operations, the refund of the fuel tax does not subject the purchase of the fuel to sales tax.

218.11(4) *Tax base.* The basis for computing the Iowa sales tax will be the retail sales price of the fuel less any Iowa fuel tax included in such price. Federal excise tax should not be removed from the sales price in determining the proper sales tax due. Rule 701—288.12(423) contains more information.

This rule is intended to implement Iowa Code section 423.3(56).

701—218.12(423) Ships, barges, and other waterborne vessels. Tax will not be imposed upon the use, within Iowa, of any ship, barge, or other waterborne vessel if that use is primarily for the transportation of property or cargo for hire on the rivers bordering this state. This exemption is also applicable to tangible personal property used as material in the construction of or as a part for the repair of any such ship, barge, or waterborne vessel. The use must be on a river or rivers bordering Iowa, not on any river or rivers bounded on both banks by Iowa territory.

This rule is intended to implement Iowa Code section 423.4(10).

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 701—Chapter 219
“Sales and Use Tax on Construction Activities”

Purpose and Summary

The purpose of this proposed rulemaking is to rescind and readopt Chapter 219, which describes the Department’s interpretation of the underlying statutes to aid the public in understanding the application of sales and use tax statutes that are primarily applicable to taxpayers engaged in construction activity. The Department proposes revisions to the rules to provide clarification and to remove language that is obsolete, unnecessary, and duplicative of statute. Included within the revisions is an addition to rule 701—219.7(423) from rule 701—281.3(423). The Department determined that Chapter 281 was no longer necessary and should be rescinded since many of the rules in that chapter were unnecessary, obsolete, or duplicative of statutory language. The Department determined that it would retain and repromulgate rule 701—281.3(423) on mobile homes and manufactured housing and add that to rule 701—219.7(423) with revisions since the subject matters of these rules are similar and would allow the public an easier means to find the information. The Regulatory Analysis on Chapter 281 is also published herein (IAB 11/1/23). The Department also renumbered some rules due to other edits and for organizational reasons.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

The proposed rulemaking does not impose costs beyond what is imposed by the underlying statutes.

- Classes of persons that will benefit from the proposed rulemaking:

The public, especially those engaged or associated with construction activities, will benefit from the proposed rulemaking since it provides guidance about the applicability of the imposition of sales or use tax or the exemption from tax on various construction-related purchases.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The proposed rulemaking does not create costs for any class of persons beyond what is imposed by the underlying statutes.

- Qualitative description of impact:

The proposed rulemaking reduces uncertainty about the applicability and scope of exemptions related to construction purchases. Failure to adopt the proposed rulemaking would lead to confusion and the potential collection of tax on what is an exempt purchase.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the Department to implement the proposed rulemaking beyond what is otherwise required to administer the underlying statutes.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues, although the proposed rulemaking provides clarification about the taxability and exemption from tax of various construction-related sales, making it less likely tax will be collected on what is an exempt purchase.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost of inaction would be failing to update the chapter to remove unnecessary or obsolete language or language that duplicates statute and failing to provide clarification to the public about these types of purchases. The benefits of the proposed rulemaking are to provide additional certainty and to reduce confusion about the taxability of construction-related purchases and when those purchases may be exempt from tax.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive, and its purpose is to aid and provide guidance to the public about the taxability of construction-related purchases. The Department considered the option of not implementing the proposed rulemaking; however, it determined the rules provide helpful assistance and useful guidance to the public on these types of purchases.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department considered the option of not implementing rules on this topic; however, it determined that the proposed rulemaking provides guidance and clarification to the public about construction-related purchases beyond what is provided for in the underlying statutes.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Department determined that proceeding without the proposed rulemaking would lead to confusion about the taxability of construction-related purchases, leading to the possibility of the overcollection of tax.

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking does not have a substantial impact on small business since it does not make any distinction based on the size of a business and does not impose any requirements on business beyond what is imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 219 and adopt the following new chapter in lieu thereof:

CHAPTER 219
SALES AND USE TAX ON CONSTRUCTION ACTIVITIES

701—219.1(423) General information and definitions.

219.1(1) Definitions. For purposes of this chapter, terms mean the same as defined in Iowa Code section 423.1 and as defined here.

“Building equipment” means any vehicle, machine, tool, implement, or other device used by a contractor in erecting structures for others, or reconstructing, altering, expanding, or remodeling property of others which does not become a physical component part of the property upon which work is performed, and which is not necessarily consumed in the performance of such work.

“Building materials” means materials used in construction work, and is not limited to materials used in a construction contract. The term may also include any type of materials used for reconstruction, alteration, expansion, or remodeling of the premises or anything essential to the completion of a building or other structure for the use intended. Building materials generally consist of items which are incorporated into real property, lose their identity as tangible personal property, and cannot be removed without altering the realty, or which are consumed by the contractor during the performance of the construction contract.

“Building supplies” means anything that is furnished for and used directly in the carrying on of the work of an owner, contractor, subcontractor, or builder and which is used or consumed in the course of completing the project. Such items do not have to enter into and become a physical part of the structure like building materials, but they do become as much a part of the structure as the labor which is performed on it.

“Construction contract” means an agreement between a contractor and a sponsor under the terms of which the contractor agrees to provide labor, materials, supplies, and equipment to build a structure for the sponsor.

“Fabricated cost” means and includes the cost of all materials as well as the cost of labor, power, transportation to the plant, and other plant expenses but not installation on the job site.

“Prefabricated structure” means any structure assembled in a factory and capable of transport to the location where it will be used in the performance of a construction contract by placement on a foundation either by the buyer or a designated contractor.

“*Repair*” means the same as mend, restore, maintain, replace and service. A repair contemplates an existing structure or tangible personal property which has become imperfect and constitutes the restoration to a good and sound condition.

“*Structure*” means that which is artificially built up or composed of parts joined together in some definite manner and which also has some obvious or apparent functional use or purpose. Nonexclusive examples of structures include buildings; roads, whether paved or otherwise; dikes; drainage ditches; and ponds.

219.1(2) Classification and obligations. The classification of people and business determines their obligations to pay or collect sales or use tax or claim an exemption on the sales price from sales of building materials, supplies, equipment, other tangible personal property, and labor.

a. Classification types. People and businesses can be classified as an owner, contractor, contractor-retailer, retailer, or repairperson.

b. Classification. A specific classification must be chosen and once chosen should not be changed unless it has become clear from an extended course of dealing that the business has become something other than what it was established to be.

c. Assessment for new businesses. It can be difficult for a person starting a business to determine if that business will be engaged in contracting, retailing, a combination of the two, or providing repair; however, any reasonable assessment of a new business’s status will be honored by the department.

d. Prohibited. Changing the status of a business from job to job to avoid the obligation to pay or collect tax is not a lawful activity.

e. Example. A business is founded to engage in contracting and purchases construction materials based on the fact that it is a contractor, but the founder must sell construction materials at retail if the business is to survive. If, after two years’ operation, half the revenue is from construction contracts and half from retail sales, then the business has become a contractor-retailer and henceforth should purchase construction materials based on that status.

This rule is intended to implement Iowa Code chapter 423.

701—219.2(423) Contractors—consumers of building materials, supplies, and equipment by statute.

219.2(1) Inapplicability of resale exemption. A contractor, subcontractor, or builder cannot claim an exemption for resale when purchasing building materials or supplies even if the contractor, subcontractor, or builder later separately itemizes material and labor charges for construction contracts or contracts for reconstruction, alteration, expansion, or remodeling.

219.2(2) Bidding considerations. When bidding on a contract, a contractor (general, special or subcontractor) should anticipate that sales or use taxes will increase the cost of materials by the tax unless the sponsor is a designated exempt entity. The necessary allowance should be made in figuring the bid inasmuch as the contractor will be held responsible for paying the tax on building supplies, materials and equipment. The tax should not be identified as a separate item in the formal bid since the contractor cannot charge sales tax.

This rule is intended to implement Iowa Code section 423.2(1) “b.”

701—219.3(423) Sales of building materials, supplies, and equipment to contractors, subcontractors, builders, or owners. Suppliers or dealers that sell materials, and supplies, and equipment to contractors, subcontractors, builders, or owners are required to collect Iowa sales tax from those persons based upon the sales price from such sales. Reference 701—subrule 219.23(4), which deals with construction contracts with designated exempt entities, for an explanation of one of the few exceptions to this requirement. The fact that a contractor, subcontractor, or builder holds an Iowa retail sales tax permit and has a tax number does not entitle that person to purchase building materials, supplies, and equipment without paying sales tax to the vendor, unless the building materials, supplies, or equipment are purchased for resale. Materials purchased out of state for use in Iowa are subject to the Iowa use tax which is payable in the quarter that the materials are delivered into the state.

219.3(1) *Examples of building materials and supplies.* The following is a nonexhaustive list of typical items that are building materials and supplies:

- Asphalt
- Bricks
- Builders' hardware
- Caulking material
- Cement
- Central air conditioning
- Cleaning compounds
- Conduit
- Doors
- Ducts
- Electric wiring, connections, and switching devices
- Fencing materials
- Flooring¹
- Glass
- Gravel
- Insulation
- Lath
- Lead
- Lighting fixtures
- Lime
- Linoleum¹
- Lubricants
- Lumber
- Macadam
- Millwork
- Modular and mobile homes
- Mortar
- Oil
- Paint
- Paper
- Piping, valves, and pipe fittings
- Plaster
- Plates and rods used to anchor masonry foundations
- Plumbing supplies
- Polyethylene covers
- Power poles, towers, and lines
- Putty
- Reinforcing mesh
- Rock salt
- Roofing
- Rope
- Sand
- Sheet metal
- Steel
- Stone
- Stucco
- Tile
- Wallboard
- Wall coping
- Water conditioners

Weather stripping
 Windows
 Window screens
 Wire netting and screen
 Wood preserver

219.3(2) *Examples of building equipment.* Building equipment includes, but is not limited to, such items as:

Compressors
 Drill presses
 Electric generators
 Forms
 Hand tools
 Lathes
 Replacement parts for equipment
 Scaffolds
 Tools
 Vehicles including grading, lifting and excavating vehicles

219.3(3) *Taxability of equipment.* Construction equipment purchased by a contractor which is intended for use in the performance of an Iowa construction contract is subject to the Iowa sales or use tax. Equipment which is rented for use on or in connection with an Iowa construction contract would normally be rented subject to tax. Rule 701—219.21(423) provides an explanation of the existing exemption in favor of rented machinery used by a contractor on a job site.

This rule is intended to implement Iowa Code sections 423.2(1)“b” and 423.5.

701—219.4(423) Contractors, subcontractors, or builders who are retailers. In some instances, contractors, subcontractors, and builders are in a dual business which includes reselling to the general public on a recurring over-the-counter basis the same type of building materials and supplies which are used by the contractors, subcontractors, and builders in their own construction work. A person operating in such a manner is referred to in this chapter as a contractor-retailer.

219.4(1) *Determination of contractor-retailer or contractor.* Any person who is engaged in the performance of construction contracts or contracts for reconstruction, alteration, expansion, or remodeling and who also sells building materials or other items at retail is obligated to examine the person’s business and determine if it is that of a contractor or a contractor-retailer.

219.4(2) *Taxability of sales by contractor-retailers.* A sale by a contractor-retailer of building materials, supplies, or equipment to owners is a retail sale and subject to sales tax. Contractors, subcontractors, or builders that purchase building materials, supplies, or equipment to be used in the performance of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling are also retail sales and subject to sales tax. Contractors, subcontractors, or builders who purchase building materials, supplies, or equipment to be used in the performance of a job, which does not rise to the level of a new construction, reconstruction, alteration, expansion, or remodeling, are acting as retailers and not as contractors and must charge and collect from their customers sales tax on the sales price charged for materials, supplies, or equipment used in completing the job and on the sales price charged for any taxable service labor used in completing the job or on the entire charge, if materials and labor are not separately invoiced.

219.4(3) *Withdrawals from inventory.* When a contractor-retailer withdraws from inventory building materials, supplies, or equipment to be used in a construction contract performed by the contractor-retailer or in a contract for reconstruction, alteration, expansion, or remodeling performed by the contractor-retailer, the contractor-retailer must pay use tax on the cost of the materials, supplies, or equipment withdrawn from inventory. When a contractor-retailer does repair work, the contractor-retailer is acting as a retailer and not a contractor and must collect tax on the sales price charged for materials used in the repair and on the sales price charged for any labor used in the repair which is a taxable service or on the entire charge if materials and labor are not separately invoiced.

219.4(4) Characteristics of contractor-retailer. The following is a list of the characteristics of the usual contractor-retailer:

a. A contractor-retailer is a business which makes frequent retail sales to the public or to other contractors and also engages in the performance of construction contracts or contracts for reconstruction, alteration, expansion, or remodeling of structures. In determining whether a business is a contractor-retailer or a retailer only, the department looks to the totality of business activity and not only to one portion of the business's activity. Thus, the maintenance of a small retail outlet does not automatically transform a contractor-retailer into a retailer, and a large number of retail sales without a retail outlet can qualify a business as a contractor-retailer.

b. A business cannot claim the status of a contractor-retailer unless the business is in possession of a valid sales tax permit to report tax due from retail sales and from withdrawals of materials or supplies from inventory for use in construction contracts.

c. A contractor-retailer must purchase building materials, supplies, and equipment placed in its inventory for resale; the contractor-retailer should not pay sales or use tax to its suppliers for these items. Instead, the contractor-retailer should provide suppliers with valid resale exemption certificates. When a valid certificate is furnished, the vendor is relieved from the responsibility of collecting the tax if the purchaser has demonstrated that the purchaser is a contractor-retailer under the provisions of this rule.

d. A contractor-retailer purchasing construction material which will not be placed in its inventory must purchase that material subject to Iowa sales or use tax. For example, if a contractor-retailer purchases wet concrete for use in a construction project, that purchase is taxable.

e. A contractor-retailer usually has a retail outlet, but if not, frequent sales to individuals or other contractors qualify a business as a contractor-retailer.

f. Contractor-retailers do not pay tax on materials withdrawn from inventory for use in construction projects performed outside Iowa.

g. The business records of a contractor-retailer must clearly reflect the use made of items purchased, and the records must be in such form that the director can readily determine that the proper sales and use tax liability is being reported and paid.

219.4(5) Examples. The following examples are offered to illustrate the responsibility for paying and remitting sales tax under this rule:

EXAMPLE 1: Company A operates a retail outlet that sells lumber and other building materials and supplies. Company A is also a contractor which builds residential and commercial structures. Company A would be considered a contractor-retailer and would, therefore, purchase all inventory items for resale. Those items which are used in the performance of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling would be subject to tax in the period that they are withdrawn from inventory. The tax would be computed on the cost of the items withdrawn from inventory. Those items which are sold over the counter in the retail outlets would be subject to tax at the time of sale. The tax would be computed on the over-the-counter sales price.

EXAMPLE 2: Company B is a mechanical contractor and has no retail outlets. Company B rarely sells any of its inventory to other persons or to other contractors. Company B would not be considered a contractor-retailer under this rule. However, Company B would be considered a contractor and must pay tax to its vendor at the time it purchases any building materials, supplies, and equipment. However, on those rare occasions when an inventory item is sold to another person or to another contractor, tax must be collected at the time of sale; therefore, Company B should have a sales tax permit. An adjustment can be made to the sales tax report by taking a credit for tax previously paid on the item sold.

EXAMPLE 3: Company C is owned and operated by two individuals in a rural Iowa farming community. They do not have a retail outlet, but they frequently make sales of building materials which are in their inventory to local residents. Company C would be a contractor-retailer and could purchase all inventory items for resale. Those items which are used in the performance of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling would be subject to tax in the period they are withdrawn from inventory. The tax would be computed on the cost of the items withdrawn from inventory. Those items which are sold to residents would be subject to the tax at the time of sale. The tax would be computed on the sales price of the items.

EXAMPLE 4: Company D is operated by two individuals in a rural Iowa farming community. They do not have a retail outlet and rarely make sales of building materials from their inventory to local residents. Company D would not be considered a contractor-retailer under this rule. Rather, Company D would be considered a contractor and must pay tax to its vendor at the time it purchases any building materials, supplies, and equipment. When sales are made to local residents, tax must be collected at the time of sale; therefore, Company D should have a sales tax permit. However, Company D can adjust its sales tax report by taking a credit for tax paid to its vendor on an item sold to a local resident.

EXAMPLE 5: Company E places modular homes on slabs or basement foundations; makes electrical, plumbing and other connections; and otherwise prepares the modular homes for sale as real estate. Company E also has a sales tax permit, maintains an inventory of modular homes for sale, and sells homes from the inventory as tangible personal property to owners who later convert the property to real estate. Company E is a contractor-retailer and is obligated to pay or collect sales tax, respectively, at the time a modular home is withdrawn from inventory for use as material in a construction contract or at the time a modular home is withdrawn from inventory for sale to an owner.

EXAMPLE 6: Company F has a retail store in Davenport, but it also installs plumbing fixtures and lines in new construction and remodeling projects. Plumbing supplies that are taken from an inventory in Davenport for a new home being built in Rock Island, Illinois, are withdrawn exempt from Iowa sales tax because the construction contract is performed outside Iowa. However, those supplies may be subject to Illinois sales or use tax.

This rule is intended to implement Iowa Code section 423.2(1)“b.”

701—219.5(423) Building materials, supplies, and equipment used in the performance of construction contracts within and outside Iowa.

219.5(1) Use by manufacturer.

a. Outside of Iowa. The use of building materials, supplies, or equipment in the performance of construction contracts or contracts for reconstruction, alteration, expansion, or remodeling by the manufacturer outside Iowa is not a sale of tangible personal property and, therefore, is not a taxable event.

b. Within Iowa. The use of tangible personal property as building materials, supplies, or equipment by the manufacturer in the performance of construction contracts or contracts for reconstruction, alteration, expansion, or remodeling in Iowa is a sale at retail and a taxable event. The tax is computed on the manufacturer’s fabricated cost or cost of production.

219.5(2) Use by contractor-retailer outside of Iowa. A contractor-retailer’s withdrawal of materials from inventory for use in construction contracts or contracts for reconstruction, alteration, expansion, or remodeling outside this state is not a taxable event.

219.5(3) Use by contractor in and outside of Iowa. A contractor is a consumer by statute. A contractor’s purchase of materials for use in a construction contract or a contract for reconstruction, alteration, expansion, or remodeling is subject to tax whether the materials are purchased for use in construction contracts performed in Iowa or outside this state.

219.5(4) Purchase by manufacturer. A manufacturer’s purchase of tangible personal property consumed as building materials in the manufacturer’s or the manufacturer’s subcontractor’s performance of construction contracts or contracts for reconstruction, alteration, expansion, or remodeling within Iowa is taxable. The tax is computed on the fabricated cost or cost of production of the materials. The purchase of tangible personal property consumed by a manufacturer as building materials in the manufacturer’s or the manufacturer’s subcontractor’s performance of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling outside Iowa is not subject to tax.

219.5(5) Purchases from and used outside of Iowa. Building materials, supplies, or equipment purchased outside Iowa, brought into this state, and subsequently used in the performance of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling outside this state is exempt from use tax.

This rule is intended to implement Iowa Code section 423.2(1)“c.”

701—219.6(423) Tangible personal property used or consumed by the manufacturer thereof. When a person who is primarily engaged in the manufacture of building materials, supplies, or equipment for sale and not for the person's own use or consumption, considering the totality of the business, from time to time uses or consumes the building materials, supplies, or equipment for construction purposes, the person is deemed to be making retail sales to one's self and subject to tax on the basis of the fabricated cost of the items so used or consumed for construction purposes. If equipment, building materials, or supplies are used by a manufacturer in the performance of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling, a "sale" occurs only if the equipment, materials, or supplies are used in the performance of such contract in Iowa.

This rule is intended to implement Iowa Code section 423.2(1) "c."

701—219.7(423) Prefabricated structures.

219.7(1) Basic concepts. Prefabricated structures include modular homes, mobile homes, manufactured housing, sectionalized housing, precut housing packages, and panelized construction.

219.7(2) Taxability.

a. Sales or use tax on the full purchase price is due when prefabricated structures are sold to or used by owners, contractors, subcontractors, or builders, or delivered under a contract for sale or sold for use in Iowa.

b. Sales of prefabricated structures which have not been erected on a foundation are considered sales of tangible personal property and thus are taxable on the purchase price charged to a consumer or user by the seller at the time of retail sale.

219.7(3) Exceptions. The following are exceptions to the general taxability rule described above, applicable to modular and mobile homes and manufactured housing.

a. Modular homes. Modular homes, as defined in Iowa Code section 435.1, cannot be attached or towed behind a motor vehicle, and which does not have permanently attached to its body or frame any wheels or axles. Only 60 percent of the sales price from the sale of a modular home is subject to Iowa tax. This 60 percent rule is applicable only to structures that meet the definition of "modular home" and not to other types of prefabricated structures which do not meet the definition of the term "modular home" such as sectionalized housing or panelized construction. Also, the 60 percent rule is not applicable to the sale of materials used in the assembly of a modular home, only to the sale of the finished product.

b. Mobile homes and manufactured housing.

(1) Use tax. Mobile homes and manufactured housing, as defined in Iowa Code section 321.1, are subject to use tax at the rate of 20 percent of the purchase price. All mobile homes sold in Iowa or sold outside Iowa for use in this state are sold subject to Iowa use tax, whether sold for placement within or outside a mobile home park. See Iowa Code section 423.26A on the collection of use tax and certificates of title for manufactured housing.

(2) Exemption. To be eligible for the use tax exemption provided in Iowa Code section 423.6(9), the purchaser of a mobile home or manufactured housing must provide sufficient documentation to the county treasurer which verifies the Iowa use tax under Iowa Code section 423.5 has been previously imposed and paid.

(3) Trade-in allowance. A trade-in allowance will result in a reduction in the price of mobile homes and manufactured housing subject to tax if all the conditions found in Iowa Code section 423.3(59) are met.

1. The property traded for the mobile home or manufactured housing is a type of property normally sold in the regular course of business of the retailer selling the home or housing, and

2. The retailer intends ultimately to sell the traded property at retail or to use the traded property in the manufacture of a like item.

EXAMPLE 1: A manufactured housing dealer receives from the factory a new manufactured home that has a sales price of \$20,000. The dealer sells it and takes the purchaser's old manufactured home worth \$5,000 in trade. The dealer keeps the traded-in manufactured home as an office. The Iowa use tax is computed as follows:

| | |
|--|----------|
| Sales price | \$20,000 |
| Trade-in value | \$5,000 |
| Buyer's price (Sales price minus trade-in) | \$15,000 |
| Amount subject to tax (Full sales price multiplied by 20%) | \$4,000 |
| Use tax due (5%) | \$200 |

Because the manufactured home will not be ultimately sold at retail or used to manufacture a like item, the trade-in value does not result in a reduction of the price subject to tax.

EXAMPLE 2: Same facts as Example 1; however, instead of keeping the traded-in manufactured housing, the dealer intends to and lists the trade-in for sale.

| | |
|--|----------|
| Sales price | \$20,000 |
| Trade-in value | \$5,000 |
| Buyer's price (Sales price minus trade-in) | \$15,000 |
| Amount subject to tax (Full sales price multiplied by 20%) | \$3,000 |
| Use tax due (5%) | \$150 |

In this example, the trade-in value does result in a reduction of the price subject to tax because the dealer intends to sell the traded-in manufactured housing at retail.

219.7(4) *Tax consequences of sales of modular homes by various parties, some operating in a dual capacity.*

a. A retailer (dealer) that is not additionally a contractor or manufacturer of modular homes purchases those homes tax-free from a wholesaler or manufacturer for subsequent resale to contractors or owners. Tax must be collected when the dealer sells the modular home to an owner or contractor.

b. A contractor that is not a dealer must pay tax when purchasing a modular home for use in a construction contract or for some other purpose. A contractor's sale of a modular home to an owner or another contractor is treated as explained in Examples 2 and 4 of subrule 219.4(5).

c. A dealer that is also a contractor will purchase homes tax-free for inclusion in its inventory. Tax is imposed when the dealer withdraws a home from inventory for sale or use in the performance of a construction contract as explained in rule 701—219.4(423).

d. A manufacturer that acts as its own dealer and sells its own modular homes at retail to contractors or owners will collect tax on the sales price from its sales of those modular homes to its customers. This situation is in contrast to that described in subrule 219.7(5) in which a manufacturer uses its own modular homes in the performance of construction contracts and the tax due is computed on a sum other than the sales price from the sale of a home.

What is stated in this subrule concerning sales of modular homes is generally applicable to the use tax on mobile homes and manufactured housing. However, one distinct difference is that mobile homes and manufactured housing are seldom, if ever, purchased by a dealer for any subsequent use in the performance of construction contracts. A dealer will often purchase a mobile home or manufactured housing for subsequent resale to a customer as tangible personal property and then will place or install the mobile home or manufactured housing on a site prepared by the customer. This is not the performance of a construction contract, and the dealer is a retailer who installs tangible personal property and is not a construction contractor.

219.7(5) *Manufacturers who perform construction contracts.* When companies whose principal business is the manufacture of prefabricated structures use those structures in the performance of construction contracts, this use is treated as a retail sale of the structures on the manufacturer's part. Rule 701—219.6(423) provides a description of the sales tax treatment of this sort of transaction. The 60 percent rule, as described in subrule 219.7(3) above, is not applicable when calculating the amount of tax owed by a manufacturer.

219.7(6) *Examples.* The following examples are intended to illustrate who must collect or remit sales or use tax when a manufacturer sells a modular home to a contractor or owner or acts as a

contractor in erecting the home. The incidence of tax depends on several factors, such as the nature of the manufacturer's business, the point of delivery, the contractual agreement, and whether or not a sale for resale has occurred.

EXAMPLE 1: The manufacturer is located outside Iowa. The manufacturer contracts with an Iowa customer to build a home in the manufacturer's factory. The manufacturer also contracts to completely erect the home, install the furnace, and do electrical and other necessary work to make the home ready for occupancy. The main source of the manufacturer's income relates to on-site construction. The manufacturer has paid a sales tax equal to Iowa tax in its state of residency. The manufacturer would be considered to be performing a construction contract in Iowa and would owe use tax in Iowa; however, a sales tax credit would be allowed for tax paid to the other state.

EXAMPLE 2: The manufacturer is located outside Iowa. An Iowa unrelated builder/dealer contracts with the customer for the home and then contracts with the manufacturer for construction, delivery, and installation on the customer's foundation. The manufacturer delivers the home into Iowa on the manufacturer's own truck. The customer, by contractual agreement, is obligated to pay for the home on delivery of the property, so the sale takes place in Iowa. In this situation, the manufacturer is involved in the sale of tangible personal property rather than the sale of real estate and must collect Iowa sales tax on 60 percent of the sales price to the Iowa builder/dealer.

EXAMPLE 3: The manufacturer is located outside Iowa. The manufacturer contracts to sell a home to a customer (owner) in Iowa. The manufacturer hires a common carrier to deliver the home to the Iowa customer. The manufacturer has no activity in Iowa that would create a "nexus" requiring the manufacturer to collect Iowa tax. In this situation, the Iowa customer is required to remit use tax on 60 percent of the purchase price of the home.

EXAMPLE 4: The manufacturer may be located in Iowa or outside Iowa. The manufacturer sells a home to a dealer in Iowa that will resell the home to the final customer. The manufacturer may deliver the home, or delivery may be made by a common carrier. The manufacturer has no contractual obligation for erection. In this situation, the manufacturer is making a sale for resale and is not required to collect tax. The manufacturer must have a valid resale certificate on file from the dealer. The dealer, if in Iowa, would be required to collect tax when the home is sold.

EXAMPLE 5: The manufacturer is located in Iowa. The manufacturer contracts to furnish, deliver, and perform the setup on a home in a state other than Iowa. The manufacturer withdraws the home from inventory and transports the home to the other state for setup. In this situation, the Iowa manufacturer does not owe any Iowa tax because Iowa Code section 423.2(1)"b" exempts building materials and supplies that manufacturers withdraw from inventory for construction outside Iowa.

EXAMPLE 6: The manufacturer is located in Iowa. The manufacturer sells a home to an Iowa customer and agrees, under separate contract, to transport the home to the job site and perform the setup. The manufacturer should collect tax on 60 percent of the sales price of the home. The customer also wants a garage. The manufacturer agrees to sell the lumber, nails, and shingles to the customer who would build the garage. This sale would be considered a sale at retail, and the manufacturer should collect tax on the entire sales price of these materials. The same would be true if the manufacturer sold appliances separate from the sale of the home; sales tax would be due on the entire sales price of the appliances.

EXAMPLE 7: The manufacturer may be located inside or outside Iowa. The manufacturer sells a modular home to a dealer that is a general contractor. The dealer subcontracts the work of placing the home on a foundation to various third parties, which transport the home to its site, excavate for and pour the concrete slab, and perform plumbing, electrical hookup, and all other services which are part of the construction contract for placing the modular home at its location. Since the sale of the modular home is to a dealer that is a contractor, the manufacturer will collect and the dealer will pay tax on 60 percent of the modular home's invoice price.

This rule is intended to implement Iowa Code sections 423.2(1)"b," 423.3(64), 423.5(1)"b," 423.6(9), and 423.6(10).

701—219.8(423) Types of construction contracts.

219.8(1) *Types of construction contracts.* Construction contracts include lump-sum contracts; cost plus contracts; time and material contracts; unit price contracts; guaranteed maximum or upset price contracts; construction management contracts; design-built contracts; and turnkey contracts.

219.8(2) *Scope.* A contract for the installation of one or more of the items listed below does not necessarily transform that contract into a construction contract or a contract for reconstruction, alteration, expansion, or remodeling. Thus, for example, hiring a contractor to install a light fixture in an existing building is not, without more, a construction contract or a contract for reconstruction, alteration, expansion, or remodeling.

219.8(3) *Examples.* The following is a nonexhaustive list of activities and items which could fall within the scope of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling of a structure. This list should not be used to distinguish machinery and equipment from real property or structures since such a determination is factual.

- Ash removal equipment (installed as distinguished from portable units)
- Automatic sprinkler systems (fire protection)
- Awnings and venetian blinds which become attached to real property
- Boilers (installed as distinguished from portable units)
- Brick work
- Builder's hardware
- Burglar alarm and fire alarm fixtures
- Caulking materials work
- Cement work
- Central air conditioner installation
- Coal handling equipment (installed as distinguished from portable units)
- Concrete work
- Counters, lockers (installed as distinguished from portable units), and prefabricated cabinets
- Drapery installation
- Electric conduit work and items relating thereto
- Electric distribution lines
- Electric transmission lines
- Floor covering which is permanently installed. Subrule 219.3(3) provides information on an exception to this regarding carpeting
- Flooring work
- Furnaces, heating boilers and heating units
- Glass and glazing work
- Gravel work (excluding landscaping)
- Installation of modular homes on foundations
- Lathing work
- Lead work
- Lighting fixtures
- Lime work
- Lumber and carpenter works
- Macadam work
- Millwork installation
- Mortar work
- Oil work
- Paint booths and spray booths (installed as distinguished from portable units)
- Painting work
- Paneling work
- Papering work
- Passenger and freight elevators
- Piping valves and pipe fitting work
- Plastering work

Plumbing work
 Prefabricated cabinets, counters, and lockers (installed as opposed to portable units)
 Putty work
 Refrigeration units (central plants installation as distinguished from portable units)
 Reinforcing mesh work
 Road construction (concrete, bituminous, gravel, etc.)
 Roofing work
 Sheet metal work
 Sign installation (other than portable sign installation)
 Steel work
 Stone work
 Stucco work
 Tile work—ceiling, floor and walls
 Underground gas mains
 Underground sewage disposal
 Underground water mains
 Vault doors and equipment
 Wallboard work
 Wall coping work
 Wallpaper work
 Water heater and softener installation
 Weather stripping work
 Wire net screen work
 Wood preserving work
 This rule is intended to implement Iowa Code sections 423.2(1)“c” and 423.3(37).

701—219.9(423) Machinery and equipment sales contracts with installation.

219.9(1) *Machinery and equipment sales with installation.* Machinery and equipment sales contracts with installation are transactions which are considered a sale of tangible personal property to a final consumer. Therefore, the individual who sells the equipment with installation must purchase the machinery and equipment tax-free as a purchase for resale. This rule should not be confused with subrule 219.3(3) regarding equipment. The contract should itemize the sales tax separately. If a contractor wishes to avoid an itemization of sales and use tax on machinery and equipment which remains tangible personal property, the contractor can do so by figuring the tax as a general overhead expense and including a statement in the contract and related invoices that “sales tax is included in the contract price.”

If the sales transaction is one completed out of state and shipped in interstate commerce to a consumer or a user in Iowa, and not otherwise exempt from tax, the final purchaser is required to pay Iowa use tax on the purchase price of the machinery and equipment.

219.9(2) *Taxable services sales with installation.* Certain services which are enumerated in Iowa Code section 423.2 are subject to tax when performed under a contract for the installation of machinery and equipment which is not done in connection with new construction, reconstruction, alteration, expansion, or remodeling of a building or structure. Examples of enumerated services include electrical installation; plumbing; welding; and pipe fitting. Other labor charges for job site installation which do not involve a taxable enumerated service are not subject to tax if the charges are separately contracted or, if no written contract exists, are separately itemized on the billing from the seller to the purchaser.

EXAMPLE: Company B contracts with Company A to furnish and install a portable conveyor unit in Company A’s new building. Company B can purchase the portable conveyor unit tax-free because the portable conveyor unit maintains its identity as tangible personal property after installation and does not become a component part of the real property. Company B would then charge tax to Company A on the sale of the portable conveyor unit. Installation charges would be part of the total sales price subject to tax unless they are separately contracted or, if no written contract exists, separately itemized on the

billing from Company B to Company A. If the installation charges involve the performance of one or more enumerated services, they would be subject to sales tax even when separately contracted for or separately itemized on the billing from Company B to Company A.

This rule is intended to implement Iowa Code sections 423.2(6), 423.3, and 423.5.

701—219.10(423) Contracts with equipment sales (mixed contracts). Construction contracts or contracts for reconstruction, alteration, expansion, or remodeling with equipment sales, commonly known as mixed contracts, place a dual burden on the contractor, as a contractor is a consumer of construction materials and also a retailer of the machinery and equipment.

219.10(1) Out-of-state supplier. As a consumer by statute of construction building materials, supplies, and building equipment, a contractor is required to pay sales tax to the supplier at the time of purchase or remit use tax to the department if purchasing building materials, supplies, and building equipment from an out-of-state supplier.

219.10(2) When machinery and equipment do not become real property. Machinery and equipment must be purchased for resale by the contractor if the machinery and equipment does not become real property. This means that the contractor does not pay tax to a supplier at the time of purchase of machinery and equipment, but instead, the contractor is responsible for collecting sales tax on the sales price from a sponsor and remitting it to the department.

EXAMPLE: Company A contracts with Company B to have Company B build a new building and install all of the production machinery and equipment for the new building. Company B must pay tax on its purchases of building materials and supplies which lose their identity as tangible personal property and become a component part of the real property. Company B also purchases some refrigeration units for the new building which maintain their identity as tangible personal property. These units must be purchased tax-free by Company B because they will be resold. Company B would then charge Company A the tax on the units which retain their identity as tangible personal property. The installation charges for the units which remain as tangible personal property would be part of the total sales price subject to tax unless they are separately contracted or, if no written contract exists, are separately itemized on the billing from Company B to Company A. If the installation charges involve the performance of one or more enumerated services, they would be subject to sales tax even when separately contracted for or separately itemized on the billing from Company B to Company A.

219.10(3) Lump-sum amount. In a mixed contract, the elements of the contract should be separated for sales tax purposes. When a mixed construction contract is let for a lump-sum amount, the machinery and equipment furnished and installed shall be considered, for the purposes of this rule only, as being sold by the contractor for an amount equal to the cost of the machinery and equipment.

219.10(4) Permits. Persons required to collect sales tax in Iowa under machinery and equipment contracts or a mixed contract are required to have a sales and use tax permit.

This rule is intended to implement Iowa Code section 423.2(1) “b.”

701—219.11(423) Distinguishing machinery and equipment from real property. A construction contract or a contract for reconstruction, alteration, expansion, or remodeling does not include a contract for the sale and installation of machinery or equipment. Machinery and equipment are tangible personal property when it is purchased and remains tangible personal property after installation. Generally, tangible personal property can be moved without causing damage or injury to itself or to the structure, does not bear the weight of the structure, and does not in any other manner constitute an integral part of a structure. Manufactured machinery and equipment which does not become permanently annexed to the realty remains tangible personal property after installation.

219.11(1) Examples of tangible personal property that remains tangible personal property after installation. Under normal conditions, the following nonexclusive list remains tangible personal property after installation.

a. Furniture, including office furniture and equipment, washers and dryers, portable lamps, home freezers, portable appliances, and window air-conditioning units.

b. Portable items such as casework, tables, counters, cabinets, lockers, athletic and gymnasium equipment, and other related easily movable property attached to the structure.

c. Machinery, equipment, tools, appliances, and materials used exclusively as such by manufacturers, industrial processors, and others performing a processing function with the items.

d. Radio and television sets and antennas, including radio, television, and cable television station equipment, but not broadcasting or telecommunications towers.

e. Certain equipment used by restaurants and in institutional kitchens; for instance, dishwashers, stainless steel wall cabinets, stainless steel natural gas stoves, stainless steel natural gas convection ovens, and combination ovens and steamers with stands. This paragraph is not applicable to similar items used in residential kitchens.

Therefore, sales of items that remain tangible personal property after installation are subject to sales tax. If the installation of such items involves the performance of one or more enumerated services, the labor charges are also subject to sales tax, unless an exemption applies.

219.11(2) *Examples of tangible personal property that becomes realty after installation.*

a. Under normal conditions, the following nonexhaustive list becomes a part of realty.

(1) Boilers and furnaces.

(2) Built-in household items such as kitchen cabinets, dishwashers, sinks (including faucets), fans, garbage disposals and incinerators.

(3) Buildings, and structural and other improvements to buildings, including awnings, canopies, foundations for machinery, floors (including computer room floors), walls, general wiring and lighting facilities, roofs, stairways, stair lifts, sprinkler systems, storm doors and windows, door controls, air curtains, loading platforms, central air-conditioning units, building elevators, sanitation and plumbing systems, decks, and heating, cooling and ventilation systems.

(4) Fixed (year-round) wharves and docks.

(5) Improvements to land including patios, retaining walls, roads, walks, bridges, fencing, railway switch tracks, ponds, dams, ditches, wells, underground irrigation systems, drainage, storm and sanitary sewers, and water supply lines for drinking water, sanitary purposes and fire protection. Rule 701—214.10(423) provides more information on drainage tile.

(6) Mobile and modular homes installed on foundations.

(7) Planted nursery stock.

(8) Residential water heaters, water softeners, intercoms, garage door opening equipment, pneumatic tube systems and music and sound equipment (except portable equipment).

(9) Safe deposit boxes, drive-up and walk-up windows, night depository equipment, remote TV auto teller systems, vault doors, and camera security equipment (except portable equipment).

(10) Seating in auditoriums and theaters and theater stage lights (except portable seating and lighting).

(11) Silos and grain storage bins.

(12) Storage tanks constructed on the site.

(13) Swimming pools (wholly or partially underground (except portable pools)).

(14) Truck platform scale foundations.

(15) Walk-in cold storage units that become a component part of a building.

b. *Exception for installation of new or replacement items.* Sales of items that become a part of a structure to contractors, subcontractors, or builders for use in the performance of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling of a structure are retail sales subject to sales tax to be paid by the contractor, subcontractor, or builder. However, a contract for installation of new or replacement items in an existing structure is not necessarily a construction contract or a contract for reconstruction, alteration, expansion, or remodeling of that structure.

EXAMPLE: A homeowner hires a contractor to replace the existing garbage disposal in the homeowner's house. This is not a construction contract or a contract for reconstruction, alteration, expansion, or remodeling of the house. Therefore, the contractor must charge the homeowner sales tax on the full sales price of the garbage disposal. Additionally, because the installation of the garbage

disposal involves the performance of enumerated services, the installation labor charges are also subject to sales tax.

This rule is intended to implement Iowa Code sections 423.2(6) and 423.3(37).

701—219.12(423) Tangible personal property which becomes structures. Items which are manufactured as tangible personal property can, by their nature, become structures. However, the determination is factual and must be made on an item-by-item basis.

219.12(1) Criteria to determine if tangible personal property has become a structure. The following are intended only to be a summation of factors which the department will consider in determining whether or not a project involves construction:

- a. The degree of architectural and engineering skills necessary to design and construct the structure.
- b. The overall scope of the business and the contractual obligations of the person designing and building the structure.
- c. The amount and variety of materials needed to complete the structure, including the identity of materials prior to assembly and the complexity of assembly.
- d. The size and weight of the structure.
- e. The permanency or degree of annexation of the structure to other real property which would affect its mobility.
- f. The cost of building, moving or dismantling the structure.

219.12(2) Example. A farm silo, which is a prefabricated glass-lined structure, is intended to be permanently installed. The prefabricated glass-lined structure is 70 feet high and 20 feet around, weighs 30 tons, and is affixed to a concrete foundation weighing 60 tons which is set in the ground specifically for the purpose of supporting the silo. The assembly kit includes 105 steel sheets and 7,000 bolts. The silo can be removed without material injury to the realty or to the unit itself at a cost of \$7,000. In view of its massive size, the firm and permanent manner in which it is erected on a most substantial foundation, its purpose and function, the expense and size of the task and the difficulty of removing it, the silo is considered a structure and not machinery or equipment.

This rule is intended to implement Iowa Code section 423.3(37).

701—219.13(423) Tax on enumerated services. The tax on the services enumerated in Iowa Code section 423.2 is a tax on labor. When such services are performed on or connected with new construction, reconstruction, alteration, expansion or remodeling of structures, the services are exempt from tax. Neither the repair nor the rental of machinery on the job site is exempt from tax under this rule. Rule 701—219.21(423) provides an explanation of the exemption in favor of rented machinery used by a contractor on a job site.

The distinction between a repair and new construction, reconstruction, alteration, expansion, and remodeling activities can, oftentimes, be difficult to grasp. Therefore, the intent of the parties and the scope of the project are factors which determine whether certain enumerated services are exempt. An area of particular difficulty is the distinction between repair and remodeling. Remodeling a building or other structure means much more than making repairs or minor changes to it. Remodeling is a reforming or reshaping of a structure or some substantial portion of it to the extent that the remodeled structure or portion of the structure is in large part the equivalent of a new structure or part thereof.

219.13(1) Repair. Since retailers, as defined in Iowa Code section 423.1(47), may purchase building materials, supplies, and equipment for resale, persons making taxable repairs are not considered to be owners, contractors, subcontractors, or builders and are not subject to the provisions of Iowa Code section 423.2(1)“b.” Repairpersons and servicepersons will normally purchase building materials and supplies free of tax for subsequent resale to their customers; contractor-retailers will also do this. However, contractors, subcontractors, or builders who may make repairs are subject to Iowa Code section 423.2(1)“b” and must pay tax at the time building materials, supplies, and equipment are purchased from vendors even though the contractors, subcontractors, or builders hold a valid sales tax permit. In determining who is a contractor and who is a retailer of repair services, the department

looks to the total business of the entity in question and not to any one portion of it. Thus, the fact that a business whose overall activity is contracting has a division engaged in taxable repair services does not transform that business into a retailer providing services rather than a contractor. When contractors do repair work, they may separately itemize labor and materials charges and collect sales tax on all charges; if the labor and materials charges are billed as one lump sum, the entire amount is subject to sales tax. A contractor's markup on a materials charge is part of any taxable sale. A contractor can take a credit for any tax paid on the purchase of materials that are sold as part of a service transaction.

When other persons making repairs sell tangible personal property at retail in connection with any taxable service enumerated in Iowa Code section 423.2, those persons shall collect and remit tax on the sales price. The person making repairs shall purchase tangible personal property for resale when the property is used in the repair job and is resold to a customer. Rule 701—225.3(423) provides an explanation of when persons performing services sell the property that the persons use in performing those services to their customers. Nonexclusive examples of repair situations are as follows:

- a. Repair of broken or defective glass.
- b. Replacement of broken, defective, or rotten windows.
- c. Replacing individual or damaged roof shingles.
- d. Replacing or repairing a segment of worn-out or broken kitchen cabinets.
- e. Repair or replacement of broken or damaged garage doors or garage door openers.
- f. Replacing or repairing a part of a broken or worn tub, shower, or faucets.
- g. Replacing or repairing a broken water heater, furnace, or central air conditioning compressor.
- h. Restoration of original wiring in a house or building.

219.13(2) *New construction, reconstruction, alteration, expansion, and remodeling.* The following are examples of new construction, reconstruction, alteration, expansion, and remodeling activities:

- a. The building of a garage or adding a garage to an existing building is considered new construction.
- b. Adding a wooden redwood deck to an existing structure is considered new construction.
- c. Replacing the entire roof on an existing structure is considered reconstruction.
- d. Adding a new room to an existing building is considered new construction.
- e. Adding a new room by building interior walls is considered alteration.
- f. Replacing kitchen cabinets with some structural modification to the kitchen layout is considered remodeling.
- g. Laying a new floor over an existing floor is considered remodeling.
- h. Building a new wing to an existing building is considered an expansion.
- i. Rearranging the interior physical structure of a building is considered remodeling or alteration.
- j. Installing manufactured housing or a modular or mobile home on a foundation is considered new construction. However, rule 701—282.8(423) provides a description of the special treatment of taxable installation charges when the taxable sale of manufactured housing as real estate occurs.
- k. Replacing an entire water heater, water softener, furnace, or central air conditioning unit.

In all instances of new construction, reconstruction, alteration, expansion, or remodeling, the contractor is the final consumer of the materials, supplies, or equipment used in completing the job and is therefore responsible for paying sales tax to its supplier on the full sales price of the materials, supplies, or equipment used in the project. However, the contractor is not to charge the owner sales tax on any labor charges associated with completing the job.

219.13(3) *“On or connected with.”* The term “on or connected with” is broad and should be used to convey generally accepted meaning. Therefore, in a specific situation, the facts relating thereto are controlling in determining whether the exemption is applicable. “On or connected with” does not connote that those things connected have to be primary or subsidiary to the construction, reconstruction, alteration, expansion or remodeling of the real property. An incidental relationship can qualify the activity for exemption if the relationship forms an intimate connection with the construction activity. For example, the service of excavating and grading relating to the clearing of land to begin construction of a building would qualify for the exemption; however, excavating and grading land without motive

toward construction would not qualify for exemption even though at some later date plans to construct a building were created and a structure was actually erected.

219.13(4) Time and physical relationship.

a. Time. The presence of a time relationship can also be a factor in determining the applicability of exemption. For example, tax would not apply to separate labor charges relating to the installation of production machinery and equipment in a building while remodeling of the real property was in progress. However, if a year after all construction activity has ended, the owner decides to install a piece of production machinery in the building, any taxable enumerated services relating thereto would be subject to tax. Further, if, following construction, the land is graded for the purpose of seeding a new lawn, the exemption would be applicable. However, if the lawn does not grow and the land is regraded the following year, the exemption would not be applicable. Therefore, the motive behind the activity and the course of events that could reasonably be expected to occur would be a further consideration in determining if the exemption is applicable.

b. Physical. A physical relationship is also a factor that should be evaluated. If a building is constructed to house machinery, any enumerated services relating to the installation of that machinery would be exempt from tax. For example, piping joining two pieces of equipment housed in separate buildings would qualify for exemption if the equipment in either building was installed while such new construction, reconstruction, alteration, expansion or remodeling to the structure was also taking place to house the equipment.

c. Incidental relationship. On the other hand, an incidental relationship, a time relationship and close physical proximity may not be enough to support the conclusion that a taxable service is performed in connection with new construction or reconstruction. For example, a homeowner hires a contractor to add a new room to an existing home. The existing home is in need of a number of the repairs described in subrule 219.13(1); for example, it is in need of rewiring and replacement of a broken window. The contractor rewires the home and repairs the window in addition to building the new room. The taxable services which the general contractor performs while rewiring the home and repairing the window are not performed in connection with the construction of the new room simply because those services happen to be performed at the same time and on the same home as the new construction. If the addition of the new room were the cause of the need for the taxable service (e.g., the window was broken during construction of the new room) and not just a convenient occasion for performance of the service, that performance would be exempt from tax.

d. Determination of taxability. Facts and motives are important in the determination of the taxability of services relating to construction activities. It should also be noted that taxes on enumerated services are applicable to repair or installation work that is not on or connected with new construction, reconstruction, alteration, expansion, or remodeling.

219.13(5) Various nontaxable services. Services associated with new construction or reconstruction, for example, which are not taxable include, but are not limited to, brick laying, concrete finishing, tiling, siding installation, laying of linoleum and other flooring and carpet installation. No tax can be collected on the performance of these services even when they are furnished in connection with the performance of repairs.

219.13(6) Taxable construction-related services.

a. Carpentry repair or installation. Persons engaged in the business of carpentry, as the trade is known in the usual course of business, are selling a service subject to sales tax, regardless of whether they perform repair or installation. The carpentry services can be conducted on or within real or personal property.

b. Roof, shingle, and glass repair. Persons engaged in the business of repairing, restoring, or renovating roofs or shingles or restoring or replacing glass, whether the glass is personal property or affixed to real property, are selling a service subject to sales tax.

c. Electrical and electronic repair and installation.

(1) In general. Persons engaged in the business of repairing or installing electrical wiring, fixtures, or switches in or on real property, or repairing or installing any article of tangible personal property powered by electric current, are selling a service subject to sales tax. This includes installation of

semiconductors, such as vacuum tubes, transistors, or integrated circuits, or installation or repair of machinery or equipment that functions mainly through the use of semiconductors.

(2) New machinery or equipment. The sales price of the electrical or electronic installation is exempt from tax if the sales price is charged for the installation of new machinery or equipment.

(3) Definition. For purposes of this subrule:

“Installation” includes affixing electrical wiring, fixtures or switches to real property; affixing any article of personal property powered by electric current to any other article of personal property; or making any article of personal property powered by electric current operative with respect to its intended function or purpose.

d. Excavating and grading.

(1) In general. Persons engaged in the business of excavating and grading are selling services subject to sales tax.

(2) Definitions. For purposes of this subrule:

“Excavation” means the digging, hauling, hollowing out, scooping out or making of a cut or hole in the earth. *“Excavation”* ordinarily includes not only the digging down into the earth but also the removal of whatever material or substance is found beneath the surface.

“Grading” means a physical change of the earth’s structure by scraping and filling in the surface to reduce it to a common level. *“Grading”* includes the reducing of the surface of the earth to a given line fixed as the grade, involving excavating, filling, or both.

e. Painting, papering and interior decorating.

(1) In general. Persons engaged in the business of painting, papering, and interior decorating are selling a service subject to sales tax.

(2) Definitions. For purposes of this subrule:

“Interior decoration” means the designing or decoration of the interior of houses or buildings, counseling with respect to such design or decoration, or the procurement of furniture fixtures or home or building decorations.

“Painting” means the covering of both interior and exterior surfaces of tangible personal or real property with a coloring matter and mixture of a pigment or sealant, with some suitable liquid to form a solid adherent when spread on the surface in thin coats for decoration, protection, or preservation purposes. This includes all necessary preparations, including surface preparation. *“Painting”* does not include automobile undercoating, the coating of railroad cars, storage tanks, or the plating of tangible personal property with metal such as but not limited to chromium, bronze, tin, galvanized metal, or platinum.

“Papering” means the application of wallpaper or wall fabric to the interior of a house or building and any necessary preparations, including surface preparation.

(3) Incidental service. When a person provides interior decorating services without charge, incidental to the sale of real or tangible personal property, no sales tax shall be charged in addition to the tax paid on the sales price or any part thereof of the real or tangible personal property.

f. Pipe fitting and plumbing.

(1) In general. Persons engaged in the business of pipe fitting and plumbing are selling a service subject to sales tax.

(2) Definition. For purposes of this rule:

“Pipe fitting and plumbing” means the trade of fitting, threading, installing, and repairing pipes, fixtures, or apparatus used for heating, refrigeration, or air conditioning, or concerned with the introduction, distribution, and disposal of a natural or artificial substance.

g. Wood preparation.

(1) In general. Persons engaged in the business of wood preparation or treatment for others are selling a service subject to sales tax.

(2) Definition. For purposes of this rule:

“Wood preparation” includes all processes whereby wood is sawed from logs in measured dimensions, planed, sanded, oiled, or treated in any manner before being used to repair an existing structure or create or become a part of a new structure. If such preparation is engaged solely for the

purpose of processing lumber or wood products for ultimate sale at retail, such preparation may not be deemed as selling a service subject to sales tax.

h. Well drilling. Persons engaged in the business of well drilling are selling a service subject to sales tax.

i. Landscaping. Landscaping services performed on or in connection to new construction, reconstruction, alteration, expansion, or the remodeling of a building or structure are not subject to sales tax. Rule 701—211.24(423) provides more information about landscaping services.

j. House and building moving. Persons engaged in the business of moving houses or buildings from one location to another, for any reason, are selling a service subject to sales tax. The sales price from this service is not considered a transportation charge.

This rule is intended to implement Iowa Code section 423.2(6).

701—219.14(423) Transportation cost. Transportation charges and delivery charges are not subject to the Iowa sales and use tax when they are separately contracted or, if no written contract exists, are separately itemized on the billing from the seller to the purchaser. More information can be found in rule 701—204.8(423).

This rule is intended to implement Iowa Code sections 423.2 and 423.3.

701—219.15(423) Liability of subcontractors. A subcontractor providing materials and labor on the actual construction of a structure has the same status and tax responsibilities as a contractor under Iowa statutes. However, where an individual or firm is hired to provide machinery and equipment to a contractor or a subcontractor, the individual or firm is considered a materials supplier rather than a subcontractor. This is true even though the machinery and equipment are supplied with installation. Items of machinery and equipment sold by materials suppliers to contractors shall be sold for resale, and the contractor must provide the materials supplier with a valid resale certificate.

This rule is intended to implement Iowa Code sections 423.2 and 423.3.

701—219.16(423) Liability of sponsors. The sponsor cannot be held responsible for a tax liability incurred on building materials, supplies, and equipment by a contractor or subcontractor in the completion of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling. Likewise, a contractor cannot be held responsible for the tax liability incurred on building materials, supplies, and equipment by a subcontractor in the completion of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling. The tax responsibility regarding machinery and equipment contracts depends on where the sale was consummated. If the sale was consummated in Iowa, the seller is responsible for the collection and remittance of tax unless a valid exemption certificate is given by the purchaser. If the sale was consummated outside Iowa and the seller does not remit use tax to the department, then a use tax would be due from the Iowa user.

This rule is intended to implement Iowa Code sections 423.2 and 423.5.

701—219.17(423) Withholding. A sponsor of a contract with a nonregistered out-of-state (nonresident) contractor may be asked to withhold the final payment of the contract as a guarantee that sales and use taxes will be paid. The withholding requirement may also apply to registered out-of-state contractors at the discretion of the department. The department will issue a notice to the sponsor to support the withholding of funds. In order to seek a release of the notice, the out-of-state contractor is required to file a report with the department consisting of the following departmental forms:

1. Form 35-012, which is a listing of subcontractors to whom the out-of-state contractor has awarded a construction contract. This statement should be submitted on each project as it becomes available.

2. Form 35-013, which is a list of material suppliers both in state and out of state from whom tangible personal property has been purchased for use in completing each project or contract.

3. Form 35-001, which is a summary of the provisions of the actual contract.

All letters of release furnished by the department are subject to audit and, therefore, are not unconditional release from any Iowa sales or use tax liability. All letters of release will be issued within 60 days upon receipt of the proper information unless an error or discrepancy is noted.

This rule is intended to implement Iowa Code sections 423.2 and 423.5.

701—219.18(423) Resale certificates. Whenever machinery and equipment which will remain tangible personal property after installation is purchased for a machinery and equipment contract by a contractor from a supplier, it should be purchased for resale. Rule 701—219.9(423) provides more information on this topic. Resale purchases are most commonly related to machinery and equipment sales contracts with installation and mixed construction contracts. Contractor-retailers and persons making repairs may also purchase materials for resale as long as they collect tax on their retail sales and pay the tax themselves on items withdrawn from inventory for use in the performance of a construction contract or a contract for reconstruction, alteration, expansion, or remodeling. Rule 701—219.4(423) and subrule 219.13(1) provide more information.

This rule is intended to implement Iowa Code section 423.45.

701—219.19(423) Reporting for use tax. An Iowa contractor can report use tax as consumed goods on a sales and use tax return. Tax is due in the quarter the materials are delivered into Iowa. Nonresident contractors should report use tax on a sales and use tax return, which is available directly from the department of revenue, unless the contractor is registered with the department.

This rule is intended to implement Iowa Code section 423.31.

701—219.20(423) Exempt sale, lease, or rental of equipment used by contractors, subcontractors, or builders.

219.20(1) Exempt lease or rental of machinery and equipment. The sales price on the lease or rental only of the following types of machinery and equipment is exempt from tax: all machinery, equipment, and replacement parts directly and primarily used by contractors, subcontractors, and builders for new construction, reconstruction, alterations, expansion, or remodeling of structures and all machinery, equipment, and replacement parts which improve the performance, safety, operation, or efficiency of the equipment and replacement parts so used. A contractor's, subcontractor's, or builder's purchases of this equipment would continue to be taxable, as would a lessor's purchases of machinery, equipment, or replacement parts for subsequent exempt rental to a contractor, subcontractor, or builder.

219.20(2) Exempt sales, including lease or rental of equipment. The sales price on the sale in any form, including lease or rental, of the following types of equipment is exempt from the tax imposed by Iowa Code chapter 423: self-propelled building equipment, self-constructed cranes, pile drivers, structural concrete forms, regular and motorized scaffolding, generators, or attachments customarily drawn or attached to those items of equipment, including auxiliary attachments which improve the performance, safety, operation, or efficiency of the equipment and replacement parts and are directly and primarily used by contractors, subcontractors, and builders for new construction, reconstruction, alterations, expansion, or remodeling of real property or structures. The sales price from a sale in a form other than that of a lease or rental is not exempt from all excise tax.

This rule is intended to implement Iowa Code sections 423.3(37) and 423.3(85).

701—219.21(423) Gravel and stone. When a contract is entered between a contractor and a governmental body and the contract calls for a stockpile delivery along a road to be improved, it is a sale of tangible personal property to the governmental body. Transactions of this type are exempt from tax. When a contract provides for the sale and delivery of materials and also the conversion of the materials into realty improvements, the contractor is the ultimate consumer of the material used and is liable for sales tax. Tax applies on the sales price of the material.

This rule is intended to implement Iowa Code section 423.3(31).

701—219.22(423) Construction contracts with designated exempt entities. This rule applies to exempt sales of building materials, supplies, equipment, or services to certain persons performing

construction contracts for sponsors that are designated exempt entities and the continuing right of designated exempt entities and other persons to seek refund of taxes paid by persons performing construction contracts.

219.22(1) Definitions.

“*Construction contract*” means the same as defined in rule 701—219.8(423).

“*Designated exempt entity*” means the same as defined in Iowa Code section 423.3(80).

“*GovConnectIowa*” means the e-services portal of the department.

219.22(2) Registration with the department. A designated exempt entity seeking to issue exemption certificates to contractors, subcontractors, builders, or manufacturers performing construction contracts shall register with the department through GovConnectIowa. The designated exempt entity shall provide the following information:

- a. The name and address of the designated exempt entity.
- b. The federal identification number of the designated exempt entity.
- c. The name of the construction project or the project number for which exemption is requested.
- d. A general description of the construction project.
- e. The name and address of all contractors, subcontractors, builders, or manufacturers to which the designated exempt entity shall provide exemption certificates.
- f. Additional information as requested by the department if the status of the entity seeking registration as a designated exempt entity is unclear.

219.22(3) Exemption certificates. Once a designated exempt entity’s registration is completed and approved, the designated exempt entity can obtain exemption certificates to provide to its contractors, subcontractors, builders, or manufacturers. The contractors, subcontractors, builders, or manufacturers may then provide these exemption certificates to retailers when purchasing building materials, supplies, equipment, or services to be used in completion of the construction contract with the designated exempt entity in order to make those purchases exempt from sales tax.

219.22(4) Exempt purchases, withdrawals from inventory, and manufacturers’ fabrication costs.

a. A contractor, subcontractor, or builder who purchases building materials, supplies, equipment, or services intending to use such property or services in the performance of a construction contract with a designated exempt entity shall purchase the property or services from a retailer exempt from tax if the property or services are subsequently used in the performance of that contract and the contractor, subcontractor, or builder presents an exemption certificate issued by the designated exempt entity to the retailer.

b. The withdrawal of building materials, supplies, or equipment from inventory by a contractor, subcontractor, or builder who is also a retailer is exempt from tax if the materials are withdrawn for use in construction performed for a designated exempt entity and an exemption certificate is received from the designated exempt entity.

c. The fabricated cost, as defined in rule 701—219.6(423), of building materials, supplies, or equipment purchased and consumed by the manufacturer of such property in the performance of a construction contract for a designated exempt entity is exempt from tax if an exemption certificate is received from the exempt entity and presented to a retailer.

d. Sales, withdrawals, or a manufacturer’s consumption of building materials, supplies, equipment, or services used in the performance of a construction contract for purposes other than incorporation into real property with subsequent loss of identity as tangible personal property are not eligible for the exemption described by this rule.

219.22(5) Refunds. A designated exempt entity that does not complete the registration process in order to provide exemption certificates to contractors, subcontractors, builders, or manufacturers in advance of its construction project may request a refund of sales tax the designated exempt entity paid to its contractors, subcontractors, builders, or manufacturers. The contractors, subcontractors, builders, or manufacturers should provide the designated exempt entity with completed Iowa Contractor’s Statement forms. The designated exempt entity shall then submit a Construction Contract Claim for Refund form and all accompanying Iowa Contractor’s Statement forms to the department.

219.22(6) *Other sales.* 701—Chapter 212 provides more information regarding the taxability of other types of sales to entities that qualify as designated exempt entities.

This rule is intended to implement Iowa Code sections 423.3(80) and 423.4(1).

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 701—Chapter 220
“Exemptions Primarily of Benefit to Consumers”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 421.14, 422.68, and 423.42
State or federal law(s) implemented by the rulemaking: Iowa Code sections 423.2 and 423.3

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 to 11 a.m.

Via video/conference call:
meet.google.com/pmv-smfj-zwf
Or dial: 1.413.369.1186
PIN: 243 048 107#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Revenue no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nick Behlke
Department of Revenue
Hoover State Office Building
P.O. Box 10457
Des Moines, Iowa 50306-3457
Phone: 515.336.9025
Email: nick.behlke@iowa.gov

Purpose and Summary

The purpose of this proposed rulemaking is to rescind and adopt a new Chapter 220. The Department proposes revisions to the chapter to remove portions of the rules that the Department determined are obsolete, unnecessary, or duplicative of statutory language. The chapter describes the Department’s interpretation of the underlying statutes to help the public understand exemptions that primarily benefit consumers.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The proposed rules do not create costs for any classes of persons.
 - Classes of persons that will benefit from the proposed rulemaking:
The public will benefit from clarification about exemptions that primarily benefit consumers.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no economic impact of the proposed rules.
 - Qualitative description of impact:
The rules reduce uncertainty about a variety of exemptions that primarily benefit consumers. Failing to adopt them would lead to confusion, questions to the Department, and potential errors.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the Department of implementing the rules beyond those that would otherwise be required to administer the statute.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost of inaction would be failing to update the chapter to remove obsolete language and language that is duplicative of the statute. The benefit of the rules is reducing confusion about the applicability of exemptions that primarily benefit consumers.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The purpose of the rules is to provide guidance on exemptions that primarily benefit consumers.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative was seriously considered by the Department.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Proceeding without these rules would lead to confusion, questions to the Department, and potential errors.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking does not have a substantial impact on small business. The rules do not make any special distinctions for small businesses. The rules do not impose any requirements on businesses, other than taxation requirements imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 220 and adopt the following new chapter in lieu thereof:

CHAPTER 220 EXEMPTIONS PRIMARILY OF BENEFIT TO CONSUMERS

701—220.1(423) Newspapers, free newspapers and shoppers' guides.

220.1(1) *In general.* The sales price from the sale of newspapers, free newspapers, and shoppers' guides is exempt from tax. The sales price from the sale of magazines, newsletters, and other periodicals that are not newspapers is taxable.

220.1(2) *General characteristics of a newspaper.* A "newspaper" is a periodical, published at short, stated, and regular intervals, usually daily or weekly. It is printed on newsprint with news ink, and usually contains photographs. The format of a newspaper is that of sheets folded loosely together without stapling. The larger the cross section of the population which reads a periodical in the area where the periodical circulates, the more likely it is that the department will consider that periodical to be a "newspaper."

This rule is intended to implement Iowa Code section 423.3(55).

701—220.2(423) Food and food ingredients.

220.2(1) Most substances can easily be classified either as food, food ingredients, or nonfood items in accordance with Iowa Code section 423.3(57). There are, however, certain substances that are not readily distinguishable as food or nonfood and may present problems in judgment. The following guidelines apply to some of the more unique categories of eligible foods and food ingredients and ineligible nonfood items about which questions may arise. The guidelines and their lists are not to be considered all-inclusive:

a. Foods eligible for purchase with food coupons. Sales of almost all substances which may be purchased with food coupons issued by the United States Department of Agriculture are exempt from Tax. Sales of certain substances which can be purchased with food stamps but are neither food nor food ingredients are taxable.

These taxable sales include garden seeds and plants sold for use in gardens to produce food for human consumption. Seeds and plants eligible for purchase with food coupons include vegetable seeds and food-producing plants such as tomato and green pepper plants and fruit trees, food-producing roots, bushes, and bulbs (e.g., asparagus roots and onion sets) and seeds and plants used to produce spices for use in cooking foods. Sales of all these substances are taxable. Sales of chewing gum are taxable as sales of "candy."

b. Distilled water and ice. These substances, although having some nonfood uses, are largely used as food or as ingredients in food for human consumption. Unless these substances are specifically labeled for nonfood use or the recipient indicates that they will be used for some purpose other than as food for human consumption or as ingredients in food for human consumption, their sales are exempt from tax.

c. Specialty foods. This category of exempt foods includes special dietary foods (e.g., diabetic and dietetic), enriched or fortified foods, infant formulas, and certain foods commonly referred to as health food items. These substances are food products which are substituted for more commonly used food items in the diet, and thus they are purchased for ingestion by humans and are consumed for their taste or nutritional value. Examples of items in this category of eligible foods are Metrecal, Enfamil, Sustegen, wheat germ, brewer's yeast, sunflower seeds which are packaged for human consumption, and rose hips powder which is used for preparing tea. It is not possible to formulate a comprehensive list of exempt specialty foods. The guideline to be used to determine the eligibility of a specific product is the ordinary use of the product.

NOTE: If the product is primarily used as a food or as an ingredient in food, then it is an exempt item; if it is primarily used for medicinal purposes as either a therapeutic agent or a deficiency corrector and only occasionally used as a food, the product is not exempt under this provision.

d. Snack foods. These substances are food items and, therefore, are usually eligible for the exemption. Typical examples of snack foods are cheese puffs; corn chips; popcorn; peanuts; potato chips and sticks; packaged cookies, cupcakes, and donuts; and pretzels. Alcoholic beverages, candy, and soft drinks are examples of snack foods the sales of which are not exempt from tax; see subrule 220.3(2).

e. Others. There are certain eligible food substances which are normally consumed only after being incorporated into foods sold for ingestion or chewing by humans. Sales of substances which are

ingredients of items identical to those which are eligible for exemption when sold as finished products are sales eligible for exemption. Since these substances are food ingredients, their sales are exempt. An example is pectin. Pectin is the generic term for products marketed under various brand names and commonly used as a base in making jams and jellies. When pectin is incorporated into jams or jellies, it becomes part of a food for human consumption and, therefore, is an eligible food item. Other examples are lard and vegetable oils.

f. The following general classifications of food products are also exempt from tax unless taxable as prepared food; see rule 701—220.5(423):

- Bread and flour products
- Bottled water, unless it is a sweetened bottled water and thus taxable as a soft drink
- Cereal and cereal products
- Cocoa and cocoa products, unless taxable in the form of candy as in rule 701—220.4(423)
- Coffee and coffee substitutes, unless taxable as soft drinks; see paragraph 220.3(2) “*f*”
- Dietary substitutes, other than dietary supplements; see paragraphs 220.3(1) “*c*” and 220.3(2) “*a*”
- Eggs and egg products
- Fish and fish products
- Frozen foods
- Fruits and fruit products including fruit juices, unless taxable as soft drinks; see paragraph 220.3(2) “*f*”
- Margarine, butter, and shortening
- Meat and meat products
- Milk and milk products, including packaged ice cream products
- Milk substitutes, such as soy and rice milk substitutes
- Spices, condiments, extracts, and artificial food coloring
- Sugar and sugar products and substitutes, unless taxable in the form of candy as in rule 701—220.4(423)
- Tea, unless taxable as a soft drink; see paragraph 220.3(2) “*f*”
- Vegetables and vegetable products

220.2(2) Substances excluded from the term “food and food ingredients.” Sales of alcoholic beverages, candy, dietary supplements, food sold through vending machines, prepared food, soft drinks, and tobacco are not sales of “food” and are not exempt from tax by this rule.

a. “Alcoholic beverages” means beverages that are suitable for human consumption and contain one-half of 1 percent or more of alcohol by volume.

b. “Candy.” See rule 701—220.4(423).

c. “Dietary supplement” means any product, other than tobacco, intended to supplement the diet that contains one or more of the following dietary ingredients:

- (1) A vitamin.
- (2) A mineral.
- (3) An herb or other botanical.
- (4) An amino acid.
- (5) A dietary substance for use by humans to supplement the diet by increasing the total dietary intake.

(6) A concentrate, metabolite, constituent, extract, or combination of any of the ingredients in subparagraphs (1) through (5) that is intended for ingestion in tablet, capsule, powder, softgel, gelcap, or liquid form, or if not intended for ingestion in such a form, is not represented as conventional food and is not represented for use as a sole item of a meal or of the diet; and is required to be labeled as a dietary supplement, identifiable by the “supplement facts” box found on the label and as required pursuant to 21 Code of Federal Regulations 101.36.

Dietary supplements, as their name indicates, serve as supplements to food or food products rather than as “food,” and, therefore, are not included within the definition of that word. Since these substances serve as deficiency correctors or therapeutic agents to supplement diets deficient in essential nutrition rather than as foods, they are not eligible for the food and food ingredients exemption. In addition to

vitamin and mineral tablets or capsules, this category includes substances such as cod liver oil, which is used primarily as a source of vitamins A and D. It is not possible to provide a comprehensive list of other such items which are primarily used for medicinal purposes or as health aids and which may be stocked by authorized firms.

d. “Food sold through vending machines” means food dispensed from a machine or other mechanical device that accepts payment, other than food which would be qualified for exemption if purchased with coupons (commonly known as “food stamps”) issued under the federal Food Stamp Act of 1977, 7 United States Code 2011 et seq. Alcoholic beverages, candy, dietary supplements, prepared food, soft drinks, and tobacco sold through vending machines are sold subject to tax in all instances because they are specifically excluded from this rule’s definition of “foods”; see subrule 220.3(2) generally. This paragraph “*d*” should be interpreted in such a fashion that if the sale of a substance is exempt from tax because it is a sale of “food” when the substance is sold by means other than a vending machine, then the sale of that same substance through a vending machine will also be exempt from tax. Conversely, if the sale of a substance by any means other than through a vending machine is taxable, then the sale of that same substance through a vending machine will also be taxable.

e. “Prepared food.” See rule 701—220.5(423).

f. “Soft drinks” means nonalcoholic beverages that contain natural or artificial sweeteners. Soft drinks may be noncarbonated. “Soft drinks” does not include beverages that contain milk or milk products; soy, rice, or similar milk substitutes; coffee and tea which are not sweetened; effervescent, noneffervescent, and mineral water sold in containers; beverages that contain greater than 50 percent of vegetable or fruit juice by volume.

Taxable soft drinks are noncarbonated water and soda water if naturally or artificially sweetened; soft drinks carbonated and noncarbonated including but not limited to colas, ginger ale, near beer, and root beer; bottled and sweetened tea and coffee; lemonade, orangeade, and all other drinks or punches with natural fruit or vegetable juice less than 50 percent by volume.

Beverage mixes and ingredients intended to be made into soft drinks are taxable. Beverage mixes or ingredients may be liquid or frozen, concentrated or nonconcentrated, dehydrated, powdered, granulated, sweetened or unsweetened, seasoned or unseasoned. Sales of beverage mixes to which a sweetener is to be added before drinking are taxable. Concentrates intended to be made into beverages which contain natural fruit or vegetable juice of less than 50 percent by volume are taxable.

Beverages, the sales of which are otherwise exempt, are taxable if sold as prepared food under rule 701—220.5(423).

Nondairy coffee “creamers” in liquid, frozen or powdered form are not beverages. Sugar or other artificial or natural sweeteners sold separately are not taxable as beverage ingredients. Specialty foods that are liquids or that are to be added to a liquid and that are intended to be a substitute in the diet for more commonly used food items are not beverages and are not taxable as beverages. These foods include infant formula.

g. “Tobacco” means cigarettes, cigars, chewing or pipe tobacco, or any other item that contains tobacco.

220.2(3) Other substances which are not food or food ingredients. Various products are not purchased for ingestion or chewing by humans or, if they are, are not consumed for their taste or nutritional value. Therefore, they are not purchased exempt from tax under this rule. They include, but are not limited to, the following:

a. Health aids. Over-the-counter medicines and other products used primarily as health aids or therapeutic agents are not foods since they are consumed for their medicinal value as opposed to their nutritional value or taste. Such products include aspirin, cough drops or syrups and other cold remedies, antacids, and all over-the-counter medicines or other products used as health aids. In addition to these commonly used health aids, any product used primarily for medicinal purposes is ineligible. An example of such products is slippery elm powder, a demulcent which is used to soothe sore throats.

b. Items not exempt. The following general classifications of products are subject to tax:

Cosmetics

Household supplies

Paper products
 Pet foods and supplies
 Soaps and detergents
 Tobacco products
 Toiletry articles
 Tonics
 Lunch counter foods or foods prepared for consumption on the premises of the retailer
 This rule is intended to implement Iowa Code section 423.3(57).

701—220.3(423) Candy.

220.3(1) Definitions.

a. Candy. For the purposes of this rule, “candy” is a preparation of sugar, honey, or other natural or artificial sweeteners in combination with chocolate, fruits, nuts or other ingredients or flavorings in the form of bars, drops, or pieces. “Candy” shall not include any preparation containing flour and shall require no refrigeration. Any preparation to which flour has been added only for the purpose of excluding the candy’s sales from tax and not for any legitimate purpose, culinary or otherwise, shall not be sold exempt from tax under this rule. This definition is intended to be used when a person is trying to determine if a product that is commonly thought of as “candy” is in fact “candy.” For example, the definition would be applied in a situation where a person is trying to determine if a product is “candy” as opposed to a cookie. The definition is not intended to be applied to every type of food product sold. Many products, such as meat products, breakfast cereals, potato chips, and canned fruits and vegetables are not commonly thought of as “candy.” The definition of “candy” is not applicable to products such as these since they are not commonly thought of as candy.

b. Preparation. Candy must be a “preparation” that contains certain ingredients, other than flour. A “preparation” is a product that is made by means of heating, coloring, molding, or otherwise processing any of the ingredients listed in the definition of “candy.” For example, reducing maple syrup into pieces and adding coloring to make maple candy is a form of preparation.

c. Bars, drops or pieces. Candy must be sold in the form of bars, drops, or pieces.

(1) A “bar” is a product that is sold in the form of a square, oblong, or similar form. For example, if Company A sells one-pound square blocks of chocolate, the blocks of chocolate are “bars.”

(2) A “drop” is a product that is sold in a round, oval, pear-shaped, or similar form. For example, if Company B sells chocolate chips in a bag, each individual chocolate chip contains all of the ingredients indicated on the label and the chocolate chips are “drops.”

(3) A “piece” is a portion that has the same makeup as the product as a whole. Individual ingredients and loose mixtures of items that make up the product as a whole are not pieces. EXCEPTION: If a loose mixture of different items that make up the product as a whole are all individually considered candy and are sold as one product, that product is also candy.

EXAMPLE 1: Company C sells jellybeans in a bag. Each jellybean is made up of the ingredients indicated on the label. Each jellybean is a “piece” or “drop.”

EXAMPLE 2: Company D sells trail mix in a bag. The product being sold (trail mix) is made up of a mixture of carob chips, peanuts, raisins, and sunflower seeds. The individual items that make up the trail mix are not “pieces,” but instead are the ingredients, which, when combined, make up the trail mix. Therefore, the trail mix is not sold in the form of bars, drops, or pieces.

EXAMPLE 3: Company E sells a product called “candy lovers mix.” Candy lovers mix is a product that is made up of a loose mixture of jellybeans, toffee, and caramels. Individually, the jellybeans, toffee, and caramels are all candy. The sale of the mixture is the sale of candy since all of the individual items that make up the product are individually considered to be candy.

EXAMPLE 4: Company F sells cotton candy which is packaged and sold in grocery stores. Cotton candy contains sugar, corn syrup, water, coloring, and flavoring; it does not contain flour. Cotton candy is not “candy” because it is not sold in the form of a bar, drop, or piece. Cotton candy is, however, “prepared food” under Iowa Code section 423.3(57) “f.”

d. Flour. In order for a product to be treated as containing “flour,” the product label must specifically list the word “flour” as one of the ingredients. There is no requirement that the “flour” be grain-based, and it does not matter what the flour is made from. Many products that are commonly thought of as “candy” contain flour, as indicated on the ingredient label and therefore are specifically excluded from the definition of “candy.” Ingredient labels must be examined to determine which products contain flour and which products do not contain flour. Any preparation to which flour has been added only for the purpose of excluding its sales from tax and not for any legitimate purpose, culinary or otherwise, shall not be sold exempt from tax under this rule. For example, a candy bar that contains flour, for a legitimate purpose, is excluded from the definition of “candy.”

EXAMPLE 1: The ingredient list for a breakfast bar lists “flour” as one of the ingredients. This breakfast bar is not “candy” since it contains flour.

EXAMPLE 2: The ingredient list for a breakfast bar lists “peanut flour” as one of the ingredients. This breakfast bar is not “candy” because it contains flour.

EXAMPLE 3: The ingredient list for a breakfast bar that otherwise meets the definition of “candy” lists “whole grain” as one of the ingredients, but does not specifically list “flour” as one of the ingredients. This breakfast bar is “candy” because the word “flour” is not included in the ingredient list.

EXAMPLE 4: Company E sells a box of chocolates that are not individually wrapped. The ingredient list on the label for the box of chocolates identifies flour as one of the ingredients. The box of chocolates is not “candy” since flour is identified as one of the ingredients on the label.

EXAMPLE 5: Company F sells a box of chocolates that are not individually wrapped. The ingredient list on the label for the box of chocolates, which otherwise meets the definition of “candy,” does not identify flour as one of the ingredients. The box of chocolates is “candy.”

EXAMPLE 6: Company G sells high-end licorice—licorice A and licorice B. Licorice A would otherwise be “candy,” but its wrapper lists “flour” as an ingredient. Licorice A is not “candy.” Licorice B is the same as licorice A, except it does not contain “flour.” Licorice B is “candy.”

e. Other ingredients or flavorings. “Other ingredients or flavorings” as used in this rule means other ingredients or flavorings that are similar to chocolate, fruits or nuts. This phrase includes candy coatings such as carob, vanilla and yogurt; flavorings or extracts such as vanilla, maple, mint, and almond; and seeds and other items similar to the classes of ingredients or flavorings. This phrase does not include meats, spices, seasonings such as barbeque or cheddar flavor, or herbs which are not similar to the classes of ingredients or flavorings associated with chocolate, fruits, or nuts, unless the product otherwise meets the definition of “candy.”

EXAMPLE 1: Retailer A sells barbeque-flavored peanuts. The ingredient label for the barbeque-flavored peanuts indicates that the product contains peanuts, sugar and various other ingredients, including barbeque flavoring. Since the barbeque-flavored peanuts contain a combination of sweeteners and nuts, and flour is not listed on the label and the nuts do not require refrigeration, barbeque-flavored peanuts are “candy.”

EXAMPLE 2: Retailer B sells barbeque potato chips. Potato chips are potatoes, a vegetable, and are not commonly thought of as candy. The barbeque potato chips are “food and food ingredients” and not “candy.” The fact that the ingredient label for the barbeque potato chips indicates that the product contains barbeque seasoning which contains a sweetener does not change the fact that the barbeque potato chips are not commonly thought of as candy.

f. Sweeteners. The term “natural or artificial sweeteners” as used in this rule means an ingredient of a food product that adds a sugary sweetness to the taste of the food product and includes, but is not limited to, corn syrup, dextrose, invert sugar, sucrose, fructose, sucralose, saccharin, aspartame, stevia, fruit juice concentrates, molasses, evaporated cane juice, rice syrup, barley malt, honey, maltitol, agave, and artificial sweeteners.

g. Refrigeration. A product that otherwise meets the definition of “candy” is not “candy” if it requires refrigeration. A product “requires refrigeration” if it must be refrigerated at the time of sale or after being opened. In order for a product to be treated as requiring refrigeration, the product label must indicate that refrigeration is required. If the label on a product that contains multiple servings indicates that it “requires refrigeration,” smaller size packages of the same product are also considered to “require

refrigeration.” A product that otherwise meets the definition of “candy” is “candy” if the product is not required to be refrigerated, but is sold refrigerated for the convenience or preference of the customer, retailer, or manufacturer.

EXAMPLE 1: Company A sells sweetened fruit snacks in a bag that contains multiple servings. The label on the bag indicates that after opening, the sweetened fruit snacks must be refrigerated. The sweetened fruit snacks “require refrigeration.”

EXAMPLE 2: Company A sells sweetened fruit snacks in single-serving containers. Other than for packaging, the sweetened fruit snacks are identical to the sweetened fruit snacks in Example 1 above. However, since this container of sweetened fruit snacks only contains one serving, it is presumed that it will be used immediately, and the label does not indicate that after opening, the product must be refrigerated. Even though the label does not contain the statement that after opening the sweetened fruit snacks must be refrigerated, these sweetened fruit snacks are considered to “require refrigeration.”

EXAMPLE 3: Company A sells chocolate truffles. The label on the truffles indicates to keep the product cool and dry, but does not indicate that the product must be refrigerated. Since the chocolate truffles are not required to be refrigerated, even though the label indicates to keep them cool, the chocolate truffles do not “require refrigeration.”

220.3(2) Nonexclusive examples.

a. Taxable candy. Examples of items taxable as candy include, but are not limited to: preparations of fruits, nuts, or other ingredients in combination with sugar, honey, or other natural or artificial sweeteners in the form of bars, drops, or pieces; caramel-coated or other candy-coated apples or other fruit; candy-coated popcorn; hard or soft candies including jellybeans, taffy, licorice not containing flour, marshmallows, and mints; dried fruit leathers or other similar products prepared with natural or artificial sweeteners; candy breath mints; chewing gum; and mixes of candy pieces.

Sales of items which are normally sold for use as ingredients in recipes but which can be eaten as candy are taxable. Examples of these items include, but are not limited to, sweetened baking chocolate in bars or pieces; white and dark chocolate almond bark; toffee bits; M&M’s, including those sold for baking; candy primarily intended for decorating baked goods; and sweetened baking chips, including mint chips, peanut butter chips, butterscotch chips, and chocolate chips.

b. Nontaxable items. Sales of the following are generally not taxable as candy: jams, jellies, preserves, or syrups; frostings; dried fruits without added sweetener; breakfast cereals; prepared fruit in a sugar or similar base; ice cream or other frozen desserts covered with chocolate or similar coverings; cotton candy; cakes, cookies, and similar products covered with chocolate or other similar coating; and granola bars. However, these and similar items are taxable if sold as prepared food under rule 701—220.5(423).

220.3(3) Bundled transaction including candy.

a. Candy and food. Products that are a combination of items that are defined as “candy” under this rule and items that are defined as “food and food ingredients” under rule 701—231.3(423) are “bundled transactions” when the items are distinct and identifiable and are sold for one nonitemized price, unless the seller’s sales price or purchase price of the candy accounts for 50 percent or less of the seller’s sales price or purchase price of the bundled transaction as provided under Iowa Code section 423.2(8) “d”(4). For example, a bag of multiple types of individually wrapped bars that is sold for one price is two or more distinct and identifiable products sold for one nonitemized price. For purposes of determining whether such a bag of individually wrapped bars is a “bundled transaction,” the following criteria apply:

(1) Ingredients listed separately.

1. If a package contains individually wrapped bars, drops, or pieces and the product label on the package separately lists the ingredients for each type of bar, drop, or piece included in the package, those bars, drops, or pieces that have “flour” listed as an ingredient are “food and food ingredients” and those bars, drops, or pieces which do not have “flour” listed as an ingredient are “candy.” The determination of whether the package as a whole meets the definition of “bundled transaction” is based on the percentage of bars, drops, or pieces that meet the definition of “food and food ingredient” as compared to the percentage of bars, drops, or pieces that meet the definition of “candy.”

2. Determining the percentage. For purposes of determining the percentage of the sales price or purchase price of the bars, drops, or pieces that meet the definition of “candy” as compared to all of the bars, drops, or pieces contained in the package, the retailer may presume that each bar, drop, or piece contained in the package has the same value.

3. Presumption of product amount. A retailer may presume that there is an equal number of each type of product contained in the package, unless the package clearly indicates otherwise.

EXAMPLE: Retailer B sells bulk food and food ingredients by the pound. Each food and food ingredient is in a separate bin or container. Some of the food and food ingredients are “candy” and some of them are not because they contain flour. However, regardless of the items chosen, the retailer charges the customer \$3.49/lb. Customer C selects some items that are “candy” and some that are not and puts them in a bag. Since some of the items in the bag are “candy,” the retailer shall treat the entire package as a bundled transaction containing primarily “candy,” unless the retailer ascertains that the sales price or purchase price of the candy in the bag is less than 50 percent of the sales price or purchase price of the entire bag. See Iowa Code section 423.2(8).

(2) Ingredients listed together. If a package contains individually wrapped bars, drops, or pieces and all of the ingredients for each of the products included in the package are listed together, as opposed to being listed separately by each product included as explained in subparagraph (1) above, and even if the ingredient lists “flour” as an ingredient, the product will be treated as “candy,” unless the retailer is able to ascertain that the sales price or purchase price of the candy in the package is less than 50 percent of the sales price or purchase price of the entire bag. See Iowa Code section 423.2(8).

The retailer may presume that each bar, drop, or piece contained in the package has the same value. The retailer may presume that there is an equal number of each type of product contained in the package, unless the package clearly indicates otherwise.

b. Combination of ingredients. Products whose ingredients are a combination of various unwrapped food ingredients that alone are not “candy,” along with unwrapped food ingredients that alone are “candy,” such as breakfast cereal and trail mix with candy pieces, are considered “food and food ingredients” and are not “candy.” Sales of these products are not “bundled transactions” because there are not two or more distinct and identifiable products being sold. The combination of the ingredients results in a single product.

This rule is intended to implement Iowa Code sections 423.2(8) and 423.3(57).

701—220.4(423) Prepared food. Sales of “prepared food” are subject to tax.

220.4(1) Prepared food. “Prepared food” means any of the following:

- a.* Food sold in a heated state or heated by the seller, including food sold by a caterer.
- b.* Two or more food ingredients mixed or combined by the seller for sale as a single item.
- c.* Food sold with eating utensils provided by the seller, including plates, knives, forks, spoons, glasses, cups, napkins, or straws. A plate does not include a container or packaging used to transport food.

The types of retailers who are generally considered to be offering prepared food for sale include restaurants, coffee shops, cafeterias, convenience stores, snack shops, and concession stands including those at recreation and entertainment facilities. Other retailers that often offer prepared food include vending machine retailers, mobile vendors, and concessionaires operating facilities for such activities as education, office work, or manufacturing.

If food is sold for consumption on the premises of a retailer, the food is rebuttably presumed to be prepared food. “Premises of a retailer” means the total space and facilities under control of the retailer or available to the retailer, including buildings, grounds, and parking lots that are made available or that are available for use by the retailer, for the purpose of sale of prepared food and drink or for the purpose of consumption of prepared food and drink sold by the retailer. Availability of self-service heating or other preparation facilities or eating facilities such as tables and chairs and knives, forks, and spoons, indicates that food, food products, and drinks are sold for consumption on the premises of the retailer and are subject to tax as sales of prepared food.

The following examples are intended to show some of the situations in which sales are taxable as sales of prepared food and drink.

EXAMPLE A: A movie theater owner operates a movie theater and a concession stand in the lobby of the theater. There is not a separate area set aside for eating facilities. Sales of prepared food and drink through the concession stand are taxable.

EXAMPLE B: As a convenience to employees, a manufacturer owns and operates several food and drink vending machines located on the premises of the plant. No separate seating or other facilities for eating are provided. Sales of prepared food and drink through the vending machines are taxable.

EXAMPLE C: Mobile vendor units located throughout an office are operated by the owner of the business and are stocked with snack food priced to cover the cost of the items to the employer. No separate eating facilities are provided. Sales of prepared food through the mobile vendors are taxable.

EXAMPLE D: An insurance company hires a caterer to run a cafeteria which provides food, at a low cost, to its employees. The insurance company also pays the caterer an amount, per month, which varies with the number of meals the caterer serves to provide this food service. The caterer does not lease the cafeteria premises; thus the premises remains under the control of the insurance company. In this case, the caterer sells the food in a space made “available to the retailer [caterer],” and the amount which the insurance company pays, on a monthly basis, to the caterer is presumed to be the taxable sales price from the sale of prepared food, as well as the amount paid by the employees to the caterer.

220.4(2) Examples. The following are additional examples of foods that either are or are not “prepared foods,” the sales price of which is taxable.

EXAMPLE A: A supermarket retailer cuts Bibb and romaine lettuce, mixes them together, and places them in a bag for sale. This is food which is only cut and repackaged. Its sale is not the sale of prepared food; thus its sale is exempt from tax.

EXAMPLE B: The same factual situation as Example A above applies, except that the lettuce is mixed with a salad dressing, placed in a container, and sold as a salad which is ready to eat. Sale of the salad is a taxable sale of “prepared food.”

EXAMPLE C: A supermarket retailer slices a roll of cotto salami and a roll of regular salami. The retailer places ten slices of each in the same container and sells the combination as an Italian luncheon meat variety pack. This is, again, the sale of food which is only cut and repackaged. The sale of the salami is exempt from tax.

EXAMPLE D: The same factual circumstances as in Example C apply, except that the retailer takes the sliced salami, places it between two slices of bread, adds some condiments, surrounds the meat, bread, and condiments with plastic, and sells the result as a ready-to-eat sandwich. This is prepared food, “two or more food ingredients . . . combined by the seller for sale as a single item,” and more is done to the ingredients than cutting and repackaging. Sales of the sandwiches are taxable.

This rule is intended to implement Iowa Code section 423.3(57).

701—220.5(423) Prescription drugs. The sales price from the sale of prescription drugs dispensed for human use or consumption in accordance with subrules 220.6(3) and 220.6(4) shall be exempt from tax. The sales price from the sale of oxygen or insulin purchased for human use or consumption (whether or not the oxygen or insulin is prescribed) is exempt from tax as a prescription drug.

220.5(1) Ultimate user. The term “ultimate user” means an individual who has lawfully obtained and possesses a prescription drug or medical device for the individual’s own use or for the use of a member of the individual’s household, or an individual to whom a prescription drug or medical device has been lawfully supplied, administered, dispensed or prescribed. The term is limited to natural persons, and does not include any legal persons such as corporations.

220.5(2) Tax exemption. The sale of a prescription drug is exempt from tax only if the drug is intended to be prescribed or dispensed to an ultimate user. A drug is intended to be prescribed or dispensed to an ultimate user only if the drug is obtained by or supplied or administered to an ultimate user for placement on or in the ultimate user’s body.

EXAMPLE A: A physician prescribes a tranquilizer for a patient who is chronically nervous. The patient uses the prescription to purchase the tranquilizer at a pharmacy. The purchase is exempt from tax.

For purposes of this subrule, any drug prescribed in writing by a licensed physician, surgeon, osteopath, osteopathic physician or surgeon, or other person authorized by law to an ultimate user for human use or consumption shall be deemed a drug exempt from tax if a prescription is required or permitted under Iowa state or federal law.

EXAMPLE B: A common painkiller is sold over the counter in doses of 200 milligrams per tablet. In doses of 600 milligrams per tablet, federal law requires a prescription before the drug can be dispensed. Sales of 600 milligram tablets by prescription are exempt from tax.

EXAMPLE C: A federal law permits but does not require the painkiller mentioned in Example B to be prescribed by a practitioner in dosages of 200 milligrams per tablet. A practitioner might prescribe the painkiller in the over-the-counter dosage, for example, to impress upon a patient the importance of taking the drug. Sales of 200 milligram tablets by prescription are exempt from tax.

220.5(3) *Persons authorized to dispense prescription drugs.* In order for a prescription drug or device to qualify for an exemption, it must be dispensed by anyone authorized under Iowa law to dispense prescription drugs or devices in this state or by anyone licensed in another state in a health field in which, under Iowa law, licensees in this state may legally prescribe drugs or devices.

220.5(4) *Disposition of prescription drugs.* Prescription drugs may be dispensed either directly from one of the persons licensed in subrule 220.6(3) who may also prescribe drugs or by a pharmacist upon receipt of a prescription from one of the persons licensed to prescribe. A prescription received by a licensed pharmacist from one of the persons licensed in subrule 220.6(3) who may also prescribe drugs shall be sufficient evidence that a drug is exempt from tax. When a person who prescribes a drug is also the dispenser, the drug will not require a prescription by such person, but the drug must be recorded as if a prescription would have been issued or required. If this condition is met, the sales price from the sale of the drug is exempt from tax.

220.5(5) *Others required to collect sales tax.* Any person other than those who are allowed to dispense drugs or devices under subrule 220.6(3) is required to collect sales tax on any prescription drugs.

220.5(6) *Prescription drugs purchased by hospitals for resale.* This subrule applies to for-profit hospitals only. Hospitals have purchased prescription drugs for resale to patients and not for use or consumption in providing hospital services only if the following circumstances exist: (1) the drug is actually transferred to the patient; (2) the drug is transferred in a form or quantity capable of a fixed or definite price value; (3) the hospital and the patient intend the transfer to be a sale; and (4) the sale is evidenced in the patient's bill by a separate charge for the identifiable drug.

A hospital's purchase of a prescription drug for purposes other than resale will still be exempt from tax if a drug is intended to be prescribed to an ultimate user and the hospital's use of the drug is otherwise exempt under subrule 220.6(1).

This rule is intended to implement Iowa Code section 423.3(60).

701—220.6(423) Other medical devices. The sales price from the sale of other medical devices is exempt from tax. The term "other medical devices" means medical equipment or supplies intended to be dispensed for human use with or without a prescription to an ultimate user. The term "other medical devices" does not include prosthetic devices, durable medical equipment, or mobility enhancing equipment. For purposes of this rule, the term "ultimate user" has the same meaning as in subrule 220.6(1).

220.6(1) Definitions.

"*Anesthesia trays*" includes, without limit, paracervical anesthesia trays, saddle block anesthesia trays, spinal anesthesia trays, and continuous epidural anesthesia trays.

"*Biopsy*" means the removal and examination of tissue from a living body, performed to establish a precise diagnosis.

“*Biopsy needles*” includes, without limit, needles used to perform liver, kidney, other soft tissue, bone, and bone marrow biopsies. Menghini technique aspirating needles, Rosenthal-type needles, and “J” Jamshidi needles are all examples of biopsy needles.

“*Cannula*” means a tube inserted into a body duct or cavity to drain fluid, insert medication including oxygen, or to open an air passage. Examples are lariat nasal cannulas and abelson cricothyrotomy cannulas.

“*Catheter*” means a tubular, flexible, surgical instrument used to withdraw fluids from or introduce fluids into a body cavity, or for making examinations. Examples are: Robinson/nelaton catheters, all types of Foley catheters (e.g., pediatric and irrigating), three-way catheters, suction catheters, IV catheters, angiocath catheters and male and female catheters.

“*Catheter trays.*” Universal Foley catheter trays, economy Foley trays, urethral catheterization trays and catheter trays with domed covers are nonexclusive examples of these trays.

“*Diabetic testing materials*” means all materials used in testing for sugar or acetone in the urine, including, but not limited to, Clinitest, Tes-tape, and Clinistix; also, all materials used in monitoring the glucose level in the blood, including, but not limited to, bloodletting supplies and test strips.

“*Drug infusion device*” means a device designed for the slow introduction of a drug solution into the human body. The term includes devices which infuse by means of pumps or gravity flow (drip infusion).

“*Fistula*” means an abnormal passage usually between the internal organs or between an internal organ and the surface of the body.

“*Hypodermic syringe*” means an instrument for applying or administering liquid into any vessel or cavity beneath the skin. This includes the needle portion of the syringe if it accompanies the syringe at the time of purchase, and it also includes replacement needles.

“*Insulin*” means a preparation of the active principle of the pancreas, used therapeutically in diabetes and sometimes in other conditions.

“*Kit*” means a combination of medical equipment and supplies used to perform one particular medical procedure which is packaged and sold as a single item.

“*Myelogram*” means a radiographic picture of the spinal cord. A “radiographic picture” is one taken using radiation other than visible light.

“*Nebulizer*” means a mechanical device which converts a liquid to a spray or fog.

“*Oxygen equipment*” means all equipment used to deliver medicinal oxygen including, but not limited to, face masks, humidifiers, cannulas, tubing, mouthpieces, tracheotomy masks or collars, regulators, oxygen concentrators and oxygen accessory racks or stands.

“*Set.*” See “kit” above.

“*Tray.*” See “kit” above.

220.6(2) The sales price from the sale of the following other medical devices is exempt from tax:

- a. Sales of insulin, hypodermic syringes, and diabetic testing materials.
- b. Sales and rentals of oxygen equipment.
- c. Sales of hypodermic needles, anesthesia trays, biopsy trays and needles, cannula systems, catheter trays, invasive catheters, dialyzers, drug infusion devices, fistula sets, hemodialysis devices, insulin infusion devices, irrigation solutions, intravenous administering sets, solutions and stopcocks, myelogram trays, nebulizers, small vein infusion kits, spinal puncture trays, transfusion sets and venous blood sets, all of which are not taxable.

220.6(3) Component parts. The sales price from the sale of any component parts of the trays, systems, devices, sets, or kits listed above are taxable unless the sales price from the sale of the component part, standing alone, is otherwise exempt. For instance, the sales price from the sale of a biopsy needle or an invasive catheter will be exempt from tax whether or not it was purchased for use as a component part in a biopsy tray or catheter tray, so long as the needle or catheter will be dispensed for human use to an ultimate user. Conversely, the sales price from the sale of catheter introducers, disposable latex gloves, rayon balls, forceps, and specimen bottles is exempt from tax when those items are sold as part of a catheter tray, but are not exempt when those items are sold individually.

This rule is intended to implement Iowa Code section 423.3(60).

701—220.7(423) Prosthetic devices, durable medical equipment, and mobility enhancing equipment.

220.7(1) Prosthetic devices. The sales price from the sale of prosthetic devices is exempt from tax.

220.7(2) Durable medical equipment and mobility enhancing equipment. The sales price from the sale of durable medical equipment and mobility enhancing equipment prescribed for human use which meet the provisions of subrules 220.8(3) and 220.8(4) is exempt from tax. “Prescribed” refers to a prescription issued in any form of oral, written, electronic, or other means of transmission by any of the persons described in paragraphs 220.6(3) “a” through “j.”

220.7(3) Definitions.

a. “Durable medical equipment” means equipment, including repair and replacement parts, but does not include mobility enhancing equipment, to which all of the following apply:

- (1) Can withstand repeated use.
- (2) Is primarily and customarily used to serve a medical purpose.
- (3) Generally is not useful to a person in the absence of illness or injury.
- (4) Is not worn in or on the body.
- (5) Is for home use only.
- (6) Is prescribed by a practitioner.

b. “Mobility enhancing equipment” means equipment, including repair and replacement parts, but does not include durable medical equipment, to which all of the following apply:

- (1) Is primarily and customarily used to provide or increase the ability to move from one place to another and which is appropriate for use either in a home or a motor vehicle.
- (2) Is not generally used by persons with normal mobility.
- (3) Does not include any motor vehicle or equipment on a motor vehicle normally provided by a motor vehicle manufacturer.
- (4) Is prescribed by a practitioner.

c. “Prosthetic device” means a replacement, corrective, or supportive device including repair and replacement parts for the same worn on or in the body to do any of the following:

- (1) Artificially replace a missing portion of the body.
- (2) Prevent or correct physical deformity or malfunction.
- (3) Support a weak or deformed portion of the body.

The term “prosthetic device” includes, but is not limited to, orthopedic or orthotic devices, ostomy equipment, urological equipment, tracheostomy equipment, and intraocular lenses.

The following is a nonexclusive list of prosthetic devices:

| | | |
|-----------------------------|-----------------------------|----------------------------|
| Artificial arteries | Drainage bags | Prescription eyeglasses |
| Artificial breasts | Hearing aids | Stoma bags |
| Artificial ears | Ileostomy devices | Tracheal suction catheters |
| Artificial eyes | Intraocular lenses | Tracheostomy care and |
| Artificial heart valves | Karaya paste | cleaning starter kits |
| Artificial implants | Karaya seals | Tracheostomy cleaning |
| Artificial larynx | Organ implants | brushes |
| Artificial limbs | Ostomy belts | Tracheostomy tubes |
| Artificial noses | Ostomy clamps | Urinary catheters |
| Artificial teeth | Ostomy cleaners | Urinary drainage bags |
| Cardiac pacemakers | and deodorizers | Urinary irrigation tubing |
| Contact lenses | Ostomy pouches | Urinary pouches |
| Cosmetic gloves | Ostomy stoma caps and paste | |
| Dental bridges and implants | Penile implants | |

d. “*Orthotic device*” means a piece of special equipment designed to straighten a deformed or distorted part of the human body, such as corrective shoes or braces. An orthotic device is an orthopedic device.

e. “*Orthopedic device*” means a piece of special equipment designed to correct deformities or to preserve and restore the function of the human skeletal system, its articulations and associated structures. A hot tub or spa is not an orthopedic device.

The following is a nonexclusive list of orthopedic devices:

| | | |
|---------------------------------|------------------------------|--|
| Abdominal belts | Clavicle splints | Nerve stimulators |
| Alternating pressure mattresses | Corrective braces | Orthopedic implants |
| Alternating pressure pads | Corrective shoes | Orthopedic shoes |
| Anti-embolism stockings | Crutch cushions | Patient lifts |
| Arch supports | Crutch handgrips | Plaster (surgical) |
| Arm slings | Crutch tips | Rib belts |
| Artificial sheepskin | Crutches | Rupture belts |
| Bone cement | Decubitus prevention devices | Sacroiliac supports |
| Bone nails | Dorsolumbar belts | Sacrolumbar belts |
| Bone pins | Dorsolumbar supports | Sacrolumbar supports |
| Bone plates | Elastic bandages | Shoulder immobilizers |
| Bone screws | Elastic supports | Space shoes |
| Bone wax | Exercise devices | Splints |
| Braces | Head halters | Traction equipment |
| Canes | Hernia belts | Transcutaneous electrical nerve stimulators (tens units) |
| Casts | Iliac belts | Trapezes |
| Cast heels | Invalid rings | Trusses |
| Cervical braces | Knee immobilizers | Walkers |
| Cervical collars | Lumbosacral supports | Wheelchairs |
| Cervical pillows | Muscle stimulators | |

f. “*Related devices.*” The sales price from the sale of devices that are used exclusively in conjunction with prosthetic, orthotic, or orthopedic devices is exempt from tax.

g. “*Medical equipment and supplies.*” The scope of the term “medical equipment and supplies” is broader than the terms “prescription drugs,” “prosthetic devices,” “durable medical equipment,” “mobility enhancing equipment,” and “other medical devices.” While all exempt prescription drugs are medical supplies and all exempt medical devices are medical equipment, not all medical equipment and supplies are exempt medical devices or prescription drugs. The following is a nonexclusive list of items which are medical equipment or supplies, but are not prescription drugs or medical devices exempt from tax under subrules 220.6(1), 220.8(1), and 220.8(2) and rule 701—220.7(423). The sales price from the sale of the following items is generally taxable.

| | | |
|---------------------|-----------------------|----------------------|
| Adhesive bandages | Contact lens solution | Hot water bottles |
| Aneurysm clips | Convuluted pads | Ice bags |
| Arterial bloodsets | Corrective pessaries | Ident-a-bands |
| Aspirators | Cotton balls | Incontinent garments |
| Athletic supporters | Diagnostic kits | Incubators |
| Atomizers | Dialysis chairs | Infrared lamps |
| Autolit | Dialysis supplies | Inhalators |
| Back cushions | Dietetic scales | Iron lungs |

| | | |
|-------------------------------|------------------------------------|--|
| Bathing aids | Disposable diapers | Irrigation apparatus |
| Bathing caps | Disposable gloves | IV connectors |
| Bedpans | Disposable underpads | Laminar flow equipment |
| Bedside rails | Donor chairs | Latex gloves |
| Bedside tables | Dressings | Leukopheresis pumps |
| Bedside trays | Dry aid kits for ears | Lymphedema pumps |
| Bedwetting prevention devices | EKG paper | Manometer trays |
| Belt vibrators | Ear molds | Massagers |
| Blood cell washing equipment | Electrodes (other than tens units) | Maternity belts |
| Blood pack holders | Emesis basins | Medigrade tubing |
| Blood pack trays | Enema units | Modulung oxygenators |
| Blood pack units | First-aid kits | Moist heat pads |
| Blood pressure meters | Foam slant pillows | Myringotomy tubes |
| Blood processing supplies | Gauze bandages | Nebulizers (hypodermic) |
| Blood tubing | Gauze packings | Overbed tables |
| Blood warmers | Gavage containers | Page turning devices |
| Breast pumps | Geriatric chairs | Pap smear kits |
| Breathing machines | Grooming aids | Paraffin baths |
| Cardiac electrodes | Hand sealers | Physicians' instruments |
| Cardiopulmonary equipment | Hearing aid carriers | Pigskin |
| Chair lifts | Hearing aid repair kits | Plasma extractors |
| Clamps | Heart stimulators | Plasma pheresis units |
| Clip-on ashtrays | Heat lamps | Plastic heat sealers |
| Commode chairs | Heat pads | Prescribed device repair kits and batteries |
| Connectors | Hemolators | Respirators |
| Contact lens cases | Hospital beds | Resuscitators |
| Sauna baths | Steri-peel | Transfer boards |
| Security pouches | Stools | Tube sealers |
| Servipak dialysis supplies | Suction equipment | Underpads |
| Shelf trays | Sunlamps | Urinals |
| Shower chairs | Surgical bandages | Vacutainers |
| Side rails | Surgical equipment | Vacuum units |
| Sitz bath kit | Suspensories | Vaporizers |
| Specimen containers | Sutures | Vibrators |
| Sponges (surgical) | Thermometers | Whirlpools |
| Stairway elevators | Toilet aids | X-ray film |
| Staples | Tourniquets | |

220.7(4) Power devices. The sales price from the sale of power devices especially designed to operate prosthetic, orthotic or orthopedic devices shall be exempt from tax. This exemption does not include batteries which can be used to operate a number of devices, but batteries designed solely for use in hearing aids are exempt.

This rule is intended to implement Iowa Code section 423.3(60).

701—220.8(423) Exempt sales of clothing and footwear during two-day period in August. Tax is not due on the sale or use of a qualifying article of clothing or footwear if the sales price of the article

is less than \$100 and the sale takes place during a period beginning at 12:01 a.m. on the first Friday in August and ending at 12 midnight of the following Saturday. For example, in the year 2004, this period began at 12:01 a.m. on Friday, August 6, and ended at 12 midnight on Saturday, August 7. Eligible purchases of clothing and footwear are exempt from local option sales taxes as well as Iowa state sales tax.

220.8(1) Definitions. The following words and terms, when used in this rule, shall have the following meanings, unless the context clearly indicates otherwise.

“Accessories” includes, but is not limited to, jewelry, handbags, purses, briefcases, luggage, wallets, watches, cufflinks, tie tacks and similar items carried on or about the human body, without regard to whether worn on the body in a manner characteristic of clothing.

“Clothing or footwear” means an article of wearing apparel designed to be worn on or about the human body. For the purposes of this rule, the term does not include accessories or special clothing or footwear or articles of wearing apparel designed to be worn by animals.

“Eligible property” means an item of a type, such as clothing, that qualifies for Iowa’s sales tax holiday.

“Special clothing or footwear” is clothing or footwear primarily designed for athletic activity or protective use and which is not normally worn except when used for the athletic activity or protective use for which it is designed.

220.8(2) Exempt sales.

a. Required price. The exemption applies to each article of clothing or footwear selling for less than \$100, regardless of how many items are sold on the same invoice to a customer. For example, if a customer purchases two shirts for \$80 each, both items qualify for the exemption even though the customer’s total purchase price (\$160) exceeds \$99.99. The exemption does not apply to the first \$99.99 of an article of clothing or footwear selling for more than \$99.99. For example, if a customer purchases a pair of pants costing \$110, sales tax is due on the entire \$110.

b. Order date and back orders. For the purpose of the sales tax holiday, eligible property qualifies for exemption if: the item is both delivered to and paid for by the customer during the exemption period; or the customer orders and pays for the item and the seller accepts the order during the exemption period for immediate shipment, even if delivery is made after the exemption period. The seller accepts an order when the seller has taken action to fill the order for immediate shipment. Actions to fill an order include placement of an “in date” stamp on a mail order or assignment of an “order number” to a telephone order. An order is for immediate shipment when the customer does not request delayed shipment. An order is for immediate shipment notwithstanding that the shipment may be delayed because of a backlog of orders or because stock is currently unavailable to, or on back order by, the seller.

220.8(3) Taxable sales. This exemption does not apply to sales of the following goods or services:

a. Any special clothing or footwear that is primarily designed for athletic activity or protective use and that is not normally worn except when used for the athletic activity or protective use for which it is designed. For example, golf cleats and football pads are primarily designed for athletic activity or protective use and are not normally worn except when used for those purposes; therefore, they do not qualify for the exemption. However, tennis shoes, jogging suits, and swimsuits are commonly worn for purposes other than athletic activity and qualify for the exemption.

b. Accessories, including jewelry, handbags, purses, briefcases, luggage, umbrellas, wallets, watches, and similar items carried on or about the human body, without regard to whether they are worn on the body in a manner characteristic of clothing.

c. The rental of any clothing or footwear. For example, this exemption does not apply to rentals of formal wear, costumes, diapers, and bridal gowns, but would apply to sales of the above items.

d. Taxable services performed on clothing or footwear, such as garment and shoe repair, dry cleaning or laundering, and alteration services. Sales tax is due on alterations to clothing, even though the alteration service may be performed, invoiced and paid for at the same time as the clothing is being purchased. If a customer purchases a pair of pants for \$90 and pays \$15 to have the pants cuffed, the \$90 charge for the pants is exempt, but tax is due on the \$15 alteration charge.

e. Purchases of items used to make, alter, or repair clothing or footwear, including fabric, thread, yarn, buttons, snaps, hooks, belt buckles, and zippers.

220.8(4) Special situations.

a. *Articles normally sold as a unit.* Articles that are normally sold as a unit must continue to be sold in that manner if the exemption is to apply; they cannot be priced separately and sold as individual items in order to obtain the exemption. For example, if a pair of shoes sells for \$150, the pair cannot be split in order to sell each shoe for \$75 to qualify for the exemption. If a suit is normally priced at \$225 and sold as a unit on a single price tag, the suit cannot be split into separate articles so that any of the components may be sold for less than \$100 in order to qualify for the exemption. However, components that are normally priced as separate articles (e.g., slacks and sport coats, and suit coats and suit pants sold separately prior to the two-day period) may continue to be sold as separate articles and qualify for the exemption if the price of an article is less than \$100.

b. *Sales of exempt clothing combined with gifts of taxable merchandise.* When exempt clothing is sold in a set that also contains taxable merchandise as a free gift and no additional charge is made for the gift, the exempt clothing may qualify for this exemption. For example, a boxed set may contain a tie and a free tie tack. If the price of the set is the same as the price of the tie sold separately, the item being sold is the tie, which is exempt from tax if sold for less than \$100 during the exemption period.

c. *Layaway sales.* A layaway sale is a transaction in which merchandise is set aside for future delivery to a customer who makes a deposit, agrees to pay the balance of the purchase price over a period of time and, at the end of the payment period, receives the merchandise. A sale of eligible property under a layaway sale qualifies for exemption if: final payment on a layaway order is made by, and the property is given to, the purchaser during the exemption period; or the purchaser selects the property and the retailer accepts the order for the item during the exemption period, for immediate delivery upon full payment, even if delivery is made after the exemption period.

d. *Returns.* For a 60-day period immediately after the sales tax holiday exemption period, when a customer returns an item that would qualify for the exemption, no credit for or refund of sales tax shall be given unless the customer provides a receipt or invoice that shows tax was paid, or the seller has sufficient documentation to show that tax was paid on the specific item. This 60-day period is set solely for the purpose of designating a time period during which the customer must provide documentation that shows that sales tax was paid on returned merchandise. The 60-day period is not intended to change a seller's policy on the time period during which the seller will accept returns.

e. *Different time zones.* The time zone of the seller's location determines the authorized time period for a sales tax holiday when the purchaser is located in one time zone and the seller is located in another.

220.8(5) Calculating taxable and exempt sales price—discounts, coupons, buying at a reduced price, and rebates.

a. *Discounts.* A discount allowed by a retailer and taken on a taxable sale can be used to reduce the sales price of an item. If the discount reduces the sales price of an item to \$99.99 or less, the item may qualify for the exemption. For example, a customer buys a \$150 dress and a \$100 blouse from a retailer offering a 10 percent discount. After applying the 10 percent discount, the final sales price of the dress is \$135, and the blouse is \$90. The dress is taxable (it is over \$99.99), and the blouse is exempt (it is less than \$99.99).

b. *Coupons.* When a coupon is issued by a retailer and is actually used to reduce the sales price of any taxable item, the value of the coupon is excludable from the tax as a discount if the retailer is not reimbursed for the coupon amount by a third party. Therefore, a retailer's coupon can be used to reduce the sales price of an item to \$99.99 or less in order to qualify for the exemption. For example, if a customer purchases a pair of shoes priced at \$110 with a coupon worth \$20 off, the final sales price of the shoes is \$90, and the shoes qualify for the exemption. A manufacturer's coupon cannot be used to reduce the sales price of an item.

c. *Buy one, get one free or for a reduced price or "two for the price of one" sales.* The total price of items advertised as "buy one, get one free," or "buy one, get one for a reduced price," or "two for the

price of one” cannot be averaged in order for both items to qualify for the exemption. The following examples illustrate how such sales should be handled.

EXAMPLE 1: A retailer advertises pants as “buy one, get one free.” The first pair of pants is priced at \$120; the second pair of pants is free. Tax is due on \$120. Having advertised that the second pair is free, the store cannot ring up each pair of pants for \$60 in order for the items to qualify for the exemption. However, if the retailer advertises and sells the pants for 50 percent off, selling each pair of \$120 pants for \$60, each pair of pants qualifies for the exemption.

EXAMPLE 2: A retailer advertises shoes as “buy one pair at the regular price, get a second pair for half price.” The first pair of shoes is sold for \$100; the second pair is sold for \$50 (half price). Tax is due on the \$100 shoes, but not on the \$50 shoes. Having advertised that the second pair is half price, the store cannot ring up each pair of shoes for \$75 in order for the items to qualify for the exemption. However, if the retailer advertises the shoes for 25 percent off, thereby selling each pair of \$100 shoes for \$75, each pair of shoes qualifies for the exemption.

EXAMPLE 3: A retailer advertises shirts as “buy two for the price of one” for \$140. Tax is due on \$140. Each shirt cannot be rung up as costing \$70. However, as described in Examples 1 and 2 above, the \$140 cost of each shirt can be discounted to bring the price of each shirt within the exemption’s limitation.

d. Rebates. Rebates occur after the sale and do not affect the sales price of an item purchased. For example, a customer purchases a sweater for \$110 and receives a \$12 rebate from the manufacturer. The retailer must collect tax on the \$110 sales price of the sweater. Reference 701—subrule 212.3(2) for additional information regarding rebates.

e. Shipping and handling charges. Shipping charges separately stated and separately contracted for (reference rule 701—288.13(423) for explanation) are not part of the amount used to determine whether the sales price of an item qualifies it for exemption. Handling charges, however, are part of the amount used to make this determination if it is necessary to pay those charges in order to purchase an item.

220.8(6) Treatment of various transactions associated with sales.

a. Rain checks. A rain check allows a customer to purchase an item at a certain price at a later time because the particular item was out of stock. Eligible items purchased during the exemption period using a rain check will qualify for the exemption regardless of when the rain check was issued. However, issuance of a rain check during the exemption period will not qualify an eligible item for the exemption if the item is actually purchased after the exemption period.

b. Exchanges.

(1) If a customer purchases an item of eligible clothing or footwear during the exemption period and later exchanges the item for a similar eligible item (different size, different color, etc.), no additional tax will be due even if the exchange is made after the exemption period.

EXAMPLE: A customer purchases a \$35 shirt during the exemption period. After the exemption period ends, the customer exchanges the shirt for the same shirt in a different size. Tax is not due on the \$35 price of the shirt.

(2) If a customer purchases an item of eligible clothing or footwear during the exemption period and after the exemption period has ended returns the item and receives credit on the purchase of a different item, the appropriate sales tax will apply to the sale of the newly purchased item.

EXAMPLE: A customer purchases a \$35 shirt during the exemption period. After the exemption period ends, the customer exchanges the shirt for a \$35 jacket. Because the jacket was not purchased during the exemption period, tax is due on the \$35 price of the jacket.

(3) If a customer purchases an item of eligible clothing or footwear during the exemption period and later during the exemption period returns the item and purchases a similar but nonexempt item, the purchase of the second item is not exempt from tax.

EXAMPLE: During the exemption period, a customer purchases a \$90 dress that qualifies for the exemption. Later, during the exemption period, the customer exchanges the \$90 dress for a \$150 dress. Tax is due on the \$150 dress. The \$90 credit from the returned item cannot be used to reduce the sales price of the \$150 item to \$60 for exemption purposes.

(4) If a customer purchases an item of eligible clothing or footwear before the exemption period and during the exemption period returns the item and receives credit on the purchase of a different item of eligible clothing or footwear, no sales tax is due on the sale of the new item if it is purchased during the exemption period and otherwise meets the qualifications for exemption.

EXAMPLE: Before the exemption period, a customer purchases a \$60 dress. Later, during the exemption period, the customer exchanges the \$60 dress for a \$95 dress. Tax is not due on the \$95 dress because it was purchased during the exemption period and otherwise meets the qualifications for the exemption.

220.8(7) *Nonexclusive list of exempt items.* The following is a nonexclusive list of clothing or footwear, sales of which are exempt from tax during the two-day period in August:

| | | |
|---|--|--|
| Adult diapers | Formal clothing—sold not rented | Raincoats and hats |
| Aerobic clothing | Fur coats and stoles | Religious clothing |
| Antique clothing | Galoshes | Riding pants |
| Aprons—household | Garters and garter belts | Robes |
| Athletic socks | Girdles | Rubber thongs—“flip-flops” |
| Baby bibs | Gloves—cloth, dress and leather | Running shoes without cleats |
| Baby clothes—generally | Golf clothing—caps, dresses, shirts and skirts | Safety shoes (adaptable for street wear) |
| Baby diapers | Graduation caps and gowns—sold not rented | Sandals |
| Baseball caps | Gym suits and uniforms | Shawls |
| Bathing suits | Hats | Shirts |
| Belts with buckles attached | Hiking boots | Shoe inserts and laces |
| Blouses | Hooded (sweat) shirts | Stockings |
| Boots—general purpose | Hosiery, including support hosiery | Suits |
| Bow ties | Jackets | Support hose |
| Bowling shirts | Jeans | Suspenders |
| Bras | Jerseys for other than athletic wear | Sweatshirts |
| Bridal apparel—sold not rented | Jogging apparel | Sweatsuits |
| Camp clothing | Knitted caps or hats | Swim trunks |
| Caps—sports and others | Lab coats | Tennis dresses |
| Chefs’ uniforms | Leather clothing | Tennis skirts |
| Children’s novelty costumes | Leg warmers | Ties |
| Choir robes | Leotards and tights | Tights |
| Clerical garments | Lingerie | Trousers |
| Coats | Men’s formal wear—sold not rented | Tuxedos (except cufflinks)—sold not rented |
| Corsets | Neckwear, e.g., scarves | Underclothes |
| Costumes—Halloween, Santa Claus, etc., sold not rented | Nightgowns and nightshirts | Underpants |
| Coveralls | Overshoes | Undershirts |
| Cowboy boots | Pajamas | Uniforms—generally |
| Diapers—cloth and disposable | Pants | Veils |
| Dresses | Pantyhose | Vests—general, for wear with suits |
| Dress gloves | Prom dresses | Walking shoes |
| Dress shoes | Ponchos | Windbreakers |
| Ear muffs | | Work clothes |
| Employee uniforms other than those primarily designed for athletic activity or protective use | | |

220.8(8) *Nonexclusive list of taxable items.* The following is a nonexclusive list of items, sales of which are taxable during the two-day period in August:

| | | |
|--|--|--|
| Accessories—generally | Fabric sales | Safety clothing |
| Alterations of clothing | Fishing boots (waders) | Safety glasses |
| Athletic supporters | Football pads | Safety shoes—not adaptable for street wear |
| Backpacks | Football pants | Shoes with cleats or spikes |
| Ballet shoes | Football shoes | Shoulder pads for dresses and jackets |
| Barrettes | Goggles | Shower caps |
| Baseball cleats | Golf gloves | Skates—ice and roller |
| Baseball gloves | Ice skates | Ski boots, masks, suits and vests |
| Belt buckles sold without belts | In-line skates | Special protective clothing or footwear not adaptable for streetwear |
| Belts for weight lifting | Insoles | Sports helmets |
| Belts needing buckles but sold without them | Jewelry | Sunglasses—except prescription |
| Bicycle shoes with cleats | Key cases and chains | Sweatbands—arm, wrist and head |
| Billfolds | Knee pads | Swim fins, masks and goggles |
| Blankets | Laundry services | Tap dance shoes |
| Boutonnieres | Life jackets and vests | Thread |
| Bowling shoes—rented and sold | Luggage | Vests—bulletproof |
| Bracelets | Monogramming services | Weight lifting belts |
| Buttons | Pads—elbow, knee and shoulder, football and hockey | Wrist bands |
| Chest protectors | Patterns | Yard goods |
| Clothing repair | Protective gloves and masks | Yarn |
| Coin purses | Purses | Zippers |
| Corsages | Rental of clothing | |
| Dry cleaning services | Rental of shoes or skates | |
| Elbow pads | Repair of clothing | |
| Employee uniforms primarily designed for athletic activities or protective use | Roller blades | |

This rule is intended to implement Iowa Code section 423.3(68).

701—220.9(423) Sales of diapers.

220.9(1) *In general.* The sales price of diapers, whether cloth or disposable, is exempt from sales tax. This includes children’s diapers and adult diapers.

220.9(2) *Definitions.*

“*Adult diapers*” means diapers other than children’s diapers.

“*Children’s diapers*” means diapers marketed to be worn by children.

“*Diaper*” means an absorbent garment worn by humans who are incapable of, or have difficulty, controlling their bladder or bowel movements.

This rule is intended to implement Iowa Code section 423.3(109).

Purpose and Summary

The purpose of this proposed rulemaking is to rescind and adopt a new Chapter 221. The Department proposes revisions to the chapter to remove portions of the rules that the Department determined are obsolete, unnecessary, or duplicative of statutory language. The Department also moved rules from other chapters that fit with the topic of this chapter. The chapter describes the Department’s interpretation of the underlying statute to help the public understand the exemption of miscellaneous nontaxable transactions that do not fit under any other chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The proposed rules do not create costs for any classes of persons.
 - Classes of persons that will benefit from the proposed rulemaking:
The public will benefit from clarification on what is taxable and what is exempt.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no economic impact of the proposed rules.
 - Qualitative description of impact:

The rules reduce uncertainty about what is taxable and what is exempt. Failing to adopt them would lead to confusion, questions to the Department, and potential errors.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the Department of implementing the rules beyond those that would otherwise be required to administer the statute.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost of inaction would be failing to update the chapter to remove obsolete language and language that is duplicative of the statute. The benefit of the rules is reducing confusion about when exemptions apply.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The purpose of the rules is to provide guidance on exemptions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department did not seriously consider any alternative methods.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Proceeding without these rules would lead to confusion about when exemptions apply.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking does not have a substantial impact on small business. The rules do not make any special distinctions for small businesses. The rules do not impose any requirements on businesses, other than taxation requirements imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind 701—Chapter 221 and adopt the following **new** chapter in lieu thereof:

CHAPTER 221
MISCELLANEOUS NONTAXABLE TRANSACTIONS

701—221.1(423) Sales of prepaid merchandise cards. Sales of prepaid merchandise cards (other than prepaid telephone calling cards) are not sales of tangible personal property and are not sales the sales price of which is subject to Iowa tax. If a purchaser uses a prepaid merchandise card to purchase taxable tangible personal property or taxable services, sales tax is computed on the sales price at the time of the sale and deducted from the prepaid amount remaining on the merchandise card.

EXAMPLE: Customer A purchases a prepaid merchandise card from ABC Clothing Company in the amount of \$200. Customer A purchases a sweater for \$50 from ABC Clothing Company. ABC Clothing Company will debit A's card \$52.50 ($\50×1.05) for the state tax rate of 5 percent or \$53 ($\50×1.06) if one local option tax rate of 1 percent is applicable.

Charges for returning tangible personal property after the agreed-upon date which are true demurrage charges supported by a written agreement do not constitute taxable sales and the charges are exempt from tax.

This rule is intended to implement Iowa Code section 423.1(47).

701—221.2(423) Demurrage charges. Charges for returning tangible personal property after the agreed-upon date which are true demurrage charges supported by a written agreement do not constitute taxable sales and the charges are exempt from tax.

701—221.3(423) Beverage container deposits. Tax does not apply to beverage container deposits. This rule is also applicable to all mandatory beverage container deposits required under the provisions of Iowa Code chapter 455C, including deposits on items sold through vending machines.

This rule is intended to implement Iowa Code chapter 455C.

701—221.4(423) Advertising agencies, commercial artists and designers as an agent or as a nonagent of a client.

221.4(1) In general. A true agency relationship depends upon the facts with respect to each transaction. An agent is one who represents another, called the principal, in dealings with third persons. Advertising agencies, commercial artists, and designers may act as agents on behalf of their clients in dealing with third persons, or they may act on their own behalf. To the extent advertising agencies, artists and designers act as agents of their clients in acquiring tangible personal property, they are neither purchasers of the property with respect to the supplier nor sellers of the property with respect to their principals.

When advertising agencies, commercial artists, and designers act as agents of their clients in purchasing property for their clients, the tax applies to the sales price from the sale of such property to the advertising agencies, commercial artists, and designers. Unless such advertising agencies, commercial artists and designers act as true agents, they will be regarded as the retailers of tangible personal property furnished to their clients and the tax will apply to the total sales price received for such property.

To establish that a particular acquisition is made in the capacity of an agent for a client, advertising agencies, commercial artists, and designers (collectively referred to herein as "agency") shall act as follows:

- a. The agency must clearly disclose to the supplier the name of the client for whom the agency is acting as an agent.
- b. The agency must obtain, prior to the acquisition, and retain written evidence of agent status with the client.
- c. The price billed to the client, exclusive of any agency fee, must be the same as the amount paid to the supplier. The agency may make no use of the property for its own account, such as commingling the

property of a client with another, and the reimbursement for the property should be separately invoiced or shown separately on the invoice to the client.

Some charges may represent reimbursement for tangible personal property acquired by the agency as agents for its clients and compensation for performing of agency services related thereto. When an advertising agency, commercial artist, or designer establishes that it has acquired tangible personal property as agents for its clients, tax does not apply to the charge made by the agency to its client for reimbursement charges by a supplier or to the charges made for the performance of the agency's services directly related to the acquisition of personal property.

Advertising agencies, commercial artists, and designers acting as agents shall not issue resale certificates to suppliers.

Advertising agencies, commercial artists, and designers act as retailers of all items of tangible personal property produced or fabricated by their own employees when they sell to their clients. Advertising agencies, commercial artists, and designers are not agents of their clients with respect to the acquisition of materials incorporated into items of tangible personal property prepared by their employees and sold at retail to their clients.

221.4(2) Scope. The scope of this rule is not confined simply to advertising agencies, commercial artists and designers, but also applies to all other businesses whose activities would bring them within the scope of this rule (e.g., printers).

This rule is intended to implement Iowa Code sections 423.2 and 423.5.

701—221.5(422,423) Films and other media, exempt rental and sale.

221.5(1) Exempt rental. The sales price from the rental of films, video and audio tapes or discs, records, photos, copy, scripts, or other media used for the purpose of transmitting that which can be seen, heard or read shall not be taxable if the lessee either:

- a. Imposes a charge for the viewing or rental of the media and that charge will be subject to Iowa sales or use tax, or
- b. Broadcasts the contents of the media for public viewing or listening.

The sales price from lessees who are film exhibitors or who rent video tapes and discs would ordinarily be exempt from tax under this rule. The rental of media for reproduction of images into newspapers or periodicals will not be exempt from tax under this rule since neither of criteria "a" or "b" above will occur. The rental of films, video tapes and video discs for home viewing is not exempt from tax.

221.5(2) Exempt sale. Sales price from the sale to persons regularly engaged in the business of leasing or renting media of motion picture films, video and audio tapes or discs, and records, or any other media which can be seen, heard, or read are exempt from tax if the ultimate leasing or renting of the media is subject to Iowa sales or use tax.

This rule is intended to implement Iowa Code section 423.3(41).

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Revenue no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nick Behlke
Department of Revenue
Hoover State Office Building
P.O. Box 10457
Des Moines, Iowa 50306-3457
Phone: 515.336.9025
Email: nick.behlke@iowa.gov

Purpose and Summary

The purpose of this proposed rulemaking is to rescind and reserve Chapters 280 and 281 and to rescind and readopt Chapter 282. Chapters 280 and 281 describe the Department’s interpretation of the underlying statutes in order to assist and aid the public’s understanding of what is subject to use tax and what is exempt. Chapter 282 describes the Department’s interpretation of the underlying statutes and provides clarity on how use tax may be imposed depending on the transaction.

After review, the Department has determined that there is no benefit to retaining Chapters 280 and 281 and proposes to rescind and reserve those chapters, but it determined that two rules from Chapter 280 will be repromulgated as rules 701—282.1(423) and 701—282.2(423). Additionally, two rules from Chapter 281 will be repromulgated as rule 701—218.12(423) and new content in rule 701—219.7(423). These two rules are contained within the regulatory analyses for Chapters 218 and 219 and are published herein (11/1/23 IAB). The Department proposes further revisions to Chapter 282 to provide clarification and to remove obsolete, unnecessary, and duplication of statutory language. The Department also renumbered some rules in Chapter 282 due to other edits and for other organizational reasons.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the proposed rulemaking beyond those that are imposed by the underlying statutes.

- Classes of persons that will benefit from the proposed rulemaking:

The public will benefit from the proposed rulemaking and the elimination of Chapters 280 and 281. Because those chapters are no longer necessary, their elimination will reduce confusion about the relevance of those rules, and the proposed Chapter 282 provides guidance on the imposition of use tax.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is no economic impact associated with the proposed rulemaking beyond what is contained in statute.

- Qualitative description of impact:

The proposed rulemaking will reduce uncertainty about the application of use tax because the proposed revisions will add clarity and obsolete and unnecessary language and rules will be eliminated.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no costs to the Department to implement the proposed rulemaking beyond what would otherwise be required to administer the underlying statutes.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues, although the revision of rules and elimination of rules that are no longer necessary or are obsolete will provide clarification to the public, making it less likely that tax will be collected on what is an exempt sale or overcollected on what is a taxable sale.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are no benefits to retaining Chapters 280 and 281. The Department determined that some rules in those chapters would be better suited and more aligned by being placed into other chapters and that the remaining rules in those chapters are no longer necessary or are obsolete. Further, the cost of inaction would be failing to update Chapter 282 to remove unnecessary and obsolete language and language that duplicates statutory language. The benefits of the proposed rulemaking are to eliminate language and rules that could cause confusion about the imposition of use tax on transactions and to amend the remaining rules to provide clarity to the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The proposed rulemaking is not costly or intrusive. The purpose is to provide guidance about the imposition of use tax. The Department considered the option of not implementing rules and determined that revising and retaining some rules while eliminating others will provide helpful guidance and useful clarification to the public and reduce confusion.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department considered the option of not implementing rules; however, it determined that retaining and revising some rules while eliminating others will provide guidance and clarification to the public beyond what is provided in the underlying statutes.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Department determined that retention of revised rules while eliminating other rules will reduce confusion about the imposition of use tax on transactions.

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking does not have substantial impact on small businesses since it does not make any distinctions based on the size of a business and does not impose any requirements on businesses, other than what is imposed by the underlying statutes.

Text of Proposed Rulemaking

ITEM 1. Rescind and reserve **701—Chapter 280**.

ITEM 2. Rescind and reserve **701—Chapter 281**.

ITEM 3. Rescind 701—Chapter 282 and adopt the following **new** chapter in lieu thereof:

CHAPTER 282

RECEIPTS SUBJECT TO USE TAX DEPENDING ON METHOD OF TRANSACTION

701—282.1(423) Transaction consummated outside this state. Iowa use tax applies to purchases of tangible personal property, specified digital products, and services as described in Iowa Code section 423.5 on which sales tax was not collected. This would most commonly occur if the good or service was purchased from a retailer that does not have nexus with Iowa.

This rule is intended to implement Iowa Code section 423.5(1).

701—282.2(423) Sales by federal government or agencies to consumers. A consumer purchasing tangible personal property, specified digital products, or a taxable enumerated service for use in Iowa from the federal government or any of its agencies is liable for the payment of Iowa use tax and shall report and remit the tax due on a sales and use tax return furnished by the department.

This rule is intended to implement Iowa Code section 423.5(1)“c.”

701—282.3(423) Fuel consumed in creating power, heat or steam for processing or generating electric current. Tangible personal property purchased outside the state and consumed in creating power, heat or steam for processing tangible personal property or for generating electric current intended to be sold ultimately at retail is exempt from sales and use tax. If the property purchased to be consumed as fuel in creating power, heat or steam for processing is also used in the heating of the factory or office, ventilation of the building, lighting of the premises or for any use other than that of direct processing, that portion of the property so used is subject to use tax.

When buying tangible personal property, part of which is exempt as fuel under the provisions of the law, from an out-of-state seller registered to collect tax for the state, the purchaser shall furnish to such registered seller a written certificate certifying the cost of the property which is to be used for processing and is, therefore, exempt. The certificate shall also show the cost of the property which is not to be used

in processing and, therefore, taxable in order that the registered seller may properly bill the amount of use tax due.

This rule is intended to implement Iowa Code section 423.6(3)“b.”

701—282.4(423) Taxation of Native Americans.

282.4(1) Definitions.

“*Native Americans*” means all persons who are descendants of and who are members of any recognized tribe.

“*Settlement*” means all lands recognized as a tribal government settlement or reservation within the boundaries of the state of Iowa.

282.4(2) Use tax. Out-of-state purchases made by Native Americans which are purchased for use on a recognized settlement where delivery occurs on a settlement to Native Americans who are members of the tribe located on that settlement are exempt from tax. Out-of-state purchases made by Native Americans where delivery occurs off a recognized settlement are subject to tax even though purchased for use on a recognized settlement.

More information on purchases that may be subject to sales tax is found in rule 701—285.8(423).

This rule is intended to implement Iowa Code section 423.6(6).

701—282.5(423) Property used to manufacture certain vehicles to be leased. Tangible personal property which becomes an integral part of a vehicle as described in Iowa Code section 423.6(8) is exempt from use tax, subject to the limitations provided in Iowa Code section 423.6(8). However, this rule does not exempt the sale of the tangible personal property used from the imposition of sales tax under Iowa Code section 423.2 if that property is otherwise subject to sales tax.

This rule is intended to implement Iowa Code section 423.6(8).

701—282.6(423) Out-of-state rental of vehicles subject to registration subsequently used in Iowa. The rental of vehicles, which do not meet the definition of transportation equipment as defined in Iowa Code section 423.15(5), will be sourced for tax purposes as described in Iowa Code section 423.17.

This rule is intended to implement Iowa Code sections 423.15(5) and 423.17.

701—282.7(423) Sales of mobile homes, manufactured housing, and related property and services.

282.7(1) Sales of mobile homes, manufactured housing, and related property and services for one package price. This rule is applicable only to mobile homes and manufactured housing sold as tangible personal property rather than in the form of real property. If, at the time of the sale, a mobile home or manufactured housing is real property, this rule is not applicable to it. If a mobile home dealer buys a mobile home, incorporates that mobile home into real estate in the manner required by and described in Iowa Code section 435.26, and then sells the mobile home to a consumer, the sale of that mobile home, the sale of any services used to transform the mobile home from tangible personal property to real property, and the sale of any tangible personal property with the mobile home (such as furniture) are governed by rule 701—Chapter 219 which deals with building contracts and building contractors. Sales of manufactured housing in the form of real estate are governed by rule 701—282.8(423).

When a customer purchases a mobile home or manufactured housing from a dealer, the customer often wants the dealer to prepare the mobile home or manufactured housing so that it is ready for the customer to move into it. To render a mobile home or manufactured housing “ready to move into” a dealer may sell, with the home or housing, certain tangible personal property and will also perform or arrange for other parties to perform various services.

With respect to any one particular mobile home or manufactured house which a dealer may sell, a dealer may provide any combination of the following services or provide the following services and sell the below-listed property to any person purchasing the home or house:

- a. Connect the electricity.
- b. Connect the water.

- c. Connect sewer system lines.
- d. Sell and install skirting. Skirting is used to fill the space between the bottom of the mobile home or manufactured house and the ground. It gives the home or house an appearance more like a conventional home because it covers up this space.
- e. Build and install steps for a door.
- f. Build a deck.
- g. Do minor repairs.
- h. Install and sell a foundation upon which to place the mobile home or manufactured housing.
- i. Sell furniture or appliances (e.g., air conditioners, refrigerators, and stoves) for use in the mobile home or manufactured housing. Install the appliance (e.g., an air conditioner) if necessary.

A dealer selling a mobile home or manufactured housing on a “ready-to-move-into” basis usually sells that home or housing and the services and additional property necessary to render them livable for one “package price.” The dealer and customer do not bargain separately for the sale of the various articles of tangible personal property (e.g., the mobile home or manufactured house and appliances) or the services (e.g., electrical installation) which are part of this package price; nor is the dealer’s package price broken down to indicate any of the expenses which are components of the package price either in the dealer’s sales contract or on any sales invoice.

The package price of any one particular mobile home or manufactured house will vary depending upon how many services the dealer will provide, or how much tangible personal property the dealer will sell in addition to the home or house. In many cases, a dealer will contract with a third party to perform the services promised in the dealer’s contract to a customer. For example, the dealer will contract with a third party to hook up the home or house purchaser’s electricity, install window air conditioning or will contract with a third party to build a deck or perform minor repairs on the mobile home or manufactured house.

In the situation described above, the “purchase price” of a mobile home or manufactured house is the entire package price charged for the home or house, additional personal property for use in and around the home or house, and services performed to render the home or house livable. The entire amount of the package price, reduced by 80 percent, as explained in rule 701—219.7 (423), is used to calculate the amount of use tax due resulting from the sale of the mobile home or manufactured house. No part of the package price is subject to Iowa sales tax; rather it is subject to Iowa use tax.

282.7(2) Sales of property and rendition of service under separate contract. If the personal property and services listed in subrule 282.7(1) are purchased under separate contract and not as part of one package price with a mobile home or manufactured house, either from a mobile home dealer or from another party, the price paid for those items of property or services will not be a part of the purchase price of the home or house. Because the price of the property or services is not part of the “purchase price” of a home or house, that price will not be reduced by 80 percent as required under rule 701—219.7(423), in computing the use tax due upon the sale of a mobile home. Also, if sold in Iowa, the property would be subject to Iowa sales tax. The same is true of services rendered in Iowa.

If separately contracted for, the sales price of the following services sold are subject to Iowa sales tax under Iowa Code section 423.2(6):

- a. Electrical hookup and air conditioning installation (electrical installation).
- b. Water and sewer system hookup (plumbing).
- c. Skirting installation and building and installation of steps and decks (carpentry).
- d. Nearly all “minor repairs” would be taxable.

The sale, under separate contract, of skirting, steps, decks, furniture, appliances, and other tangible personal property to customers purchasing mobile homes or manufactured housing would be sales of tangible personal property, the sales price is subject to Iowa sales rather than use tax.

The installation of a concrete slab on which to place the mobile home or manufactured housing would not be a service taxable to the home or housing owner since this installation involves “new construction” and the service performed upon this new construction is thus exempt from tax. The person installing the concrete slab would be treated as a construction contractor and would pay sales tax upon any tangible

personal property purchased and used in the construction of the slab. More information is contained in rule 701—Chapter 219.

282.7(3) Dealer purchases of tangible personal property and services for resale. Regardless of whether the tangible personal property and services connected with the purchase of a mobile home or manufactured housing have been purchased as part of a package price or whether their purchase has been separately contracted for, a dealer's or other retailer's purchase of the tangible personal property or service for subsequent resale to a mobile home or manufactured housing purchaser is a purchase "for resale" and thus exempt from Iowa sales or use tax.

This rule is intended to implement Iowa Code section 423.6(10).

701—282.8(423) Tax imposed on the use of manufactured housing as tangible personal property and as real estate. Tax is imposed on the use of "manufactured housing" in Iowa.

282.8(1) Definition.

"Manufactured housing" means the same as defined in Iowa Code section 321.1.

282.8(2) Tax treatment of manufactured housing which is similar to the tax treatment of mobile homes:

a. Manufactured housing is subject to Iowa use tax to the extent provided in Iowa Code section 423.6(10) and shall be paid as provided in Iowa Code section 423.26A.

b. The use of manufactured housing previously subject to tax and upon which the tax has been paid is exempt from further tax.

c. The taxation of manufactured housing which is sold in the form of tangible personal property is similar to the taxation of mobile homes which are sold in the form of tangible personal property. More information is contained in rule 701—282.7(423).

282.8(3) Taxable use of manufactured housing in the form of real estate. Unlike mobile homes, the use of which can be taxed only when the homes are in the form of tangible personal property, under certain conditions, the use of manufactured housing in the form of real estate can be subject to tax. If a developer has placed a manufactured home on a foundation in a lot in Iowa and hooked up the necessary utilities and completed the necessary landscaping to convert the home from tangible personal property to realty, the sale of the manufactured home to a user is a taxable use of the home on the user's part.

EXAMPLE: Company A buys land with enough space for 100 lots for manufactured housing and for the streets necessary to provide access to the lots. Company A then buys 100 manufactured houses. It lawfully buys these houses exempt from use tax based on the assertion that they have been purchased for subsequent resale. Company A then develops the land, installing water, sewer and electric lines, placing the manufactured homes on foundations, and otherwise taking steps to convert the homes from tangible personal property to real estate.

Company A then sells the homes on the lots to various customers. Each purchase of a home by a customer is a taxable use of the home on that customer's part, and the customer is obligated to pay the appropriate county treasurer the amount of Iowa use tax due.

a. *Installed purchase price.* When tax is due on the use of manufactured housing in the form of real estate, the basis for computing the tax is the "installed purchase price" of the manufactured housing. Installed purchase price means the same as defined in Iowa Code section 423.1(23). Use tax is due on 20 percent of the amount of the installed purchase price.

(1) Included in the installed purchase price. Included within the meaning of "installed purchase price" are amounts charged to a buyer of a manufactured home to build and install a foundation on which to place a home; amounts charged to hook up electric, water, gas, sewer system, and other lines for necessary utilities; amounts charged to sell and install "skirting" as described in subrule 282.7(1); amounts charged to build and install any steps for a door; and amounts separately charged for any appliances or other items which become a part of the housing after installation, e.g., dishwashers and whirlpool tubs.

(2) Exclusions from installed purchase price. Excluded from the meaning of "installed purchase price" is any amount charged for the purchase of land on which to place a manufactured house; any amount charged for landscaping in connection with the installation of a manufactured house; any amount

charged to build and install any deck or similar appurtenance to a manufactured home; and any amounts charged for the sale of furniture or appliances which remain tangible personal property after installation, e.g., furniture, room air conditioners, and refrigerators. This list of inclusions and exclusions is not exclusive. Furthermore, the purchase of furniture or appliances which remain tangible personal property is subject to Iowa sales or use tax.

b. The exemption in favor of taxable services performed on or in connection with new construction as described in Iowa Code section 423.3(37) is not applicable when calculating the amount of any installed purchase price.

This rule is intended to implement Iowa Code section 423.6(10).

Email: brooke.axiotis@iwd.iowa.gov

Purpose and Summary

Pursuant to Executive Order 10, this rulemaking reduces restrictive terms and language and duplicative references to the Iowa Code that restate the federal law.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

The costs of the proposed rulemaking are administrative costs that would be borne by state and local program administrators.

- Classes of persons that will benefit from the proposed rulemaking:

State and local program administrators will benefit because the rulemaking reduces duplication and administrative burdens.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

This rulemaking would result in a state programmatic cost reduction of approximately \$2,400 per year and a local programmatic cost reduction of approximately \$21,000 per year.

- Qualitative description of impact:

Eliminating an unnecessary, burdensome application process for English as a second language program funds from state sources would reduce local program staff time in compiling data and applications and would reduce state program staff time in evaluating applications.

3. Costs to the State:
 - Implementation and enforcement costs borne by the agency or any other agency:
There are no anticipated additional enforcement costs that would be borne by IWD or any other agency.
 - Anticipated effect on state revenues:
There is no anticipated impact on state revenues besides a reduction in costs.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Taking action would reduce costs by approximately \$23,400. If no action is taken, then there would be no reduction in costs and efficiencies for state and local staff.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no less costly or intrusive methods. This change is more cost-effective than the current rule.

6. Alternative methods considered by the agency:
 - Description of any alternative methods that were seriously considered by the agency:
There were no alternatives seriously considered by IWD since this is the most effective manner to reduce costs and administrative burden for state and local staff.
 - Reasons why alternative methods were rejected in favor of the proposed rulemaking:
This rulemaking is the most cost-effective and efficient way to administer this program.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

There is no impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 877—Chapter 32 and adopt the following **new** chapter in lieu thereof:

CHAPTER 32
ADULT EDUCATION AND LITERACY PROGRAMS

877—32.1(260C) Definitions.

“Act” is the Adult Education and Family Literacy Act, 29 U.S.C. Sections 3101 et seq.

“*Adult education and literacy program*” means the same as defined in Iowa Code section 84A.19 as enacted by 2023 Iowa Acts, Senate File 514, as well as other activities specified in the Act.

“*Career pathways*” means the same as defined in 29 U.S.C. Section 3102, subsection 7, with the exception of item (F).

“*Coordinator*” means the person(s) responsible for making decisions for the adult education and literacy program at the local level.

“*Department*” means the Iowa department of workforce development.

“*English as a second language*” means a structured language acquisition program designed to teach English to students whose native language is other than English.

“*Intake*” means admittance and enrollment in an adult education and literacy program operated by an eligible provider.

“*Professional staff*” means all staff that are engaged in providing services, including instruction and data entry, for individuals who are eligible for adult education and literacy programs.

“*State assessment policy*” means a federally approved policy which stipulates the use of a standardized assessment, scoring and reporting protocols, certification requirements for test administrators, and the protocol for tracking test and attendance data.

“*State plan*” means the compliance document that outlines Iowa’s workforce development system four-year strategy for providing workforce services, including adult education and literacy, to Iowans and employers. State planning shall be developed in accordance with applicable federal legislation.

“*Volunteer staff*” means all non-paid persons who perform services, including individualized instruction and data entry, for individuals who are eligible for adult education and literacy programs.

877—32.2(260C) Program administration. The department is designated as the agency for administration of state and federally funded adult basic education programs and for supervision of the administration of adult basic education programs. The department is responsible for the allocation and distribution of state and federal funds awarded to eligible providers for adult basic education programs through a grant application in accordance with this chapter and with the state plan.

32.2(1) Eligible providers. Eligible providers are eligible entities as defined by the Adult Education and Family Literacy Act, 20 U.S.C. Ch. 73, and subsequent federal workforce training and adult education legislation, and approved by the department.

32.2(2) Program components.

a. The eligible provider will maintain the ability to provide the following adult education and literacy services as deemed appropriate by the community or needs of the students:

- (1) Adult basic education;
- (2) Programs for adults who are English learners;
- (3) Adult secondary education, including programs leading to the achievement of a high school equivalency certificate or high school diploma;
- (4) Instructional services provided by qualified instructors as defined in subrule 32.5(1) to improve student proficiencies necessary to function effectively in adult life, including accessing further education, employment-related training, or employment;
- (5) Assessment and guidance services adhering to the state’s assessment policy; and
- (6) Programs and services stipulated by current and subsequent federal and state adult education legislation.

b. Providers effectively use technology, services, and delivery systems, including distance education, in a manner sufficient to increase the amount and quality of student learning and performance.

c. Providers ensure a student acquires the skills needed to transition to and complete postsecondary education and training programs and obtain and advance in employment leading to economic self-sufficiency.

32.2(3) Local planning.

a. Adult education and literacy programs are to collaborate and enter into agreements with multiple partners in the community for the purpose of establishing a local plan. Such plans are to

expand the services available to adult learners, align with the strategies and goals established by the state plan, and prevent duplication of services.

b. An adult education and literacy program's agreement will not be formalized until the local plan is approved by the department. A plan will be approved if the plan complies with the standards and criteria outlined in this chapter, federal adult education and family literacy legislation, and the strategies and goals of the state plan as defined in the local plan application.

c. Local plans may be approved by the state for single or multiple years.

32.2(4) Federal funding. Federal funds received by an adult education and literacy program are not to be expended for any purpose other than authorized activities pursuant to the Act.

32.2(5) State funding. Moneys received from state funding sources for adult education and literacy programs are to be used in the manner described in this subrule. All funds are to be used to expand services and improve the quality of adult education and literacy programs.

a. Use of funds. State funding may only be expended on:

- (1) Allowable uses pursuant to the Act.
- (2) High school equivalency testing and associated costs.

b. Restrictions. In expending state funding, adult education and literacy programs shall adhere to the allowable use provisions of the Act, except for administrative cost provisions.

c. Reporting. All reporting for state funding will adhere to a summary of financial transactions related to the adult education and literacy program's resources and expenses in a format prescribed by the department. Adult education and literacy programs will submit quarterly reports to the department on dates to be set by the department. A year-end report will be submitted to the department no later than October 1.

32.2(6) English as a second language. In addition to meeting subrules 32.2(1) through 32.2(5), English as a second language programs are to adhere to the following provisions.

a. Distribution and allocation. The department will prescribe the distribution and allocation of funding, based on need for instruction in English as a second language in the region served by each community college, as measured by census data, survey data, and local outreach efforts and results.

b. Midyear reporting. English as a second language programs will include a narrative describing the progress and attainment of benchmarks established by the department. The report is to be provided to the department midway through the academic year.

32.2(7) Funding allocation. The department will be responsible for the allocation and distribution of state and federal funds for adult basic education programs in accordance with these rules and with the state plan. The state has the right under federal legislation to establish the funding formula and to issue a competitive bidding process.

877—32.3(260C) Career pathways. Adult education and literacy programs may use state adult education and literacy education funding for activities related to the development and implementation of the basic skills component of a career pathways system.

32.3(1) Collaboration. Adult education and literacy programs are to coordinate with other available education, training, and social service resources in the community for the development of career pathways, such as by establishing strong links with elementary schools and secondary schools, postsecondary educational institutions, institutions of higher education, local workforce boards, one-stop centers, job training programs, social service agencies, business and industry, labor organizations, community-based organizations, nonprofit organizations, and intermediaries.

32.3(2) Use of state funds. Only activities directly linked to adult education and literacy programs and instruction shall be funded with moneys received from state adult education and literacy funds. Consideration will be given to providing adult education and literacy activities concurrently with workforce preparation activities and workforce training for the purpose of educational and career advancement.

877—32.4(260C) Student eligibility. A person seeking to enroll in an adult education and literacy program is eligible if the person meets the criteria in 29 U.S.C. section 3272(4).

877—32.5(260C) Qualification of staff. This rule applies to all staff hired after July 1, 2015. All staff hired prior to July 1, 2015, are exempt from this rule.

32.5(1) Professional staff. Professional staff providing instruction in an adult education and literacy program to students possess at minimum a bachelor's degree.

32.5(2) Volunteer staff. Volunteer staff possess at minimum a high school diploma or high school equivalency diploma.

877—32.6(260C) High-quality professional development.

32.6(1) Responsibility of program. Adult education and literacy programs are responsible for providing professional development opportunities for professional and volunteer staff pursuant to this rule, including:

a. Proper procedures for the administration and reporting of data pursuant to rule 877—32.7(260C);

b. The development and dissemination of instructional and programmatic practices based on the most rigorous and scientifically valid research available; and

c. Appropriate reading, writing, speaking, mathematics, English language acquisition, distance education, and staff training practices aligned with content standards for adult education.

32.6(2) Professional development. Professional development is to include formal and informal means of assisting professional and volunteer staff to:

a. Acquire knowledge, skills, approaches, and dispositions;

b. Explore new or advanced understandings of content, theory, and resources; and

c. Develop new insights into theory and its application to improve the effectiveness of current practice and lead to professional growth.

32.6(3) Professional development standards. The department and entities providing adult education and literacy programs are to promote effective professional development and foster continuous instructional improvement. Professional development is to incorporate the following standards:

a. Strengthens professional and volunteer staff knowledge and application of content areas, instructional strategies, and assessment strategies based on research;

b. Prepares and supports professional and volunteer staff in creating supportive environments that help adult learners reach realistic goals;

c. Uses data to drive professional development priorities, analyze effectiveness, and help sustain continuous improvement for adult education and literacy programs and learners;

d. Uses a variety of strategies to guide adult education and literacy program improvement and initiatives;

e. Enhances abilities of professional and volunteer staff to evaluate and apply current research, theory, evidence-based practices, and professional wisdom;

f. Models or incorporates theories of adult learning and development; and

g. Fosters adult education and literacy program, community, and state level collaboration.

32.6(4) Provision of professional development. Adult education and literacy program staff are to participate in professional development activities that are related to their job duties and improve the quality of the adult education and literacy program with which the staff is associated. All professional development activities will be in accordance with the published Iowa Adult Education Professional Development Standards.

a. All professional staff are to receive at least 12 clock hours of professional development annually. Professional staff who possess a valid Iowa teacher certificate are exempt from this paragraph.

b. All professional staff new to adult education are to receive six clock hours of preservice professional development prior to, but no later than, one month after starting employment with an adult education program. Preservice professional development may apply toward the professional development described in paragraph 32.6(4)“a.”

c. Volunteer staff are to receive 50 percent of the professional development described in paragraphs 32.6(4)“a” and 32.6(4)“b.”

32.6(5) Individual professional development plan. Adult education and literacy programs are to develop and maintain a plan for hiring and developing quality professional staff that includes all of the following:

- a. An implementation schedule for the plan.
- b. Orientation for new professional staff.
- c. Continuing professional development for professional staff.
- d. Procedures for accurate record keeping and documentation for plan monitoring.
- e. Specific activities to ensure that professional staff attain and demonstrate instructional competencies and knowledge in related adult education and literacy fields.
- f. Procedures for collection and maintenance of records demonstrating that each staff member has attained or documented progress toward attaining minimal competencies.
- g. Provision that all professional staff will be included in the plan. The plan may be differentiated for each type of employee.

32.6(6) Waiver. The time for professional development may be reduced by local adult education and literacy programs in individual cases where exceptional circumstances prevent staff from completing the specified hours of professional development. Documentation is to be kept which justifies the granting of a waiver. Requests for exemption from staff qualification requirements in individual cases will be kept on record and available to the department for review upon request.

32.6(7) Monitoring. Each program will maintain records of staff qualifications and professional development for five years, which will be available to department staff for monitoring upon request.

877—32.7(260C) Performance and accountability.

32.7(1) Accountability system. Adult education and literacy programs shall adhere to the standards established by the Act in the use and administration of the accountability system, as well as this rule. The accountability system will be a statewide system to include enrollment reports, progress indicators and core measures.

32.7(2) Performance indicators.

a. *Compliance.* Adult education and literacy programs will adhere to the policies and procedures outlined in the state assessment policy. Data will be submitted by the tenth day of each month or, should that day fall outside of standard business hours, the first Monday following the tenth day of the month. All adult education and literacy programs will comply with data quality reviews and complete quality data checks to ensure federal compliance with reporting.

b. *Determination of progress.* Upon administration of a standardized assessment, within the first 12 hours of attendance, adult education and literacy programs will place eligible students at an appropriate level of instruction. Progress assessments will be administered after the recommended hours of instruction as published in the state assessment policy.

c. *Core measures.* Federal and state adult education and literacy legislation has established data for reporting core measures, including percentage of participants in unsubsidized employment during the second and fourth quarter after exit from the program; median earnings; percentage of participants who obtain a postsecondary credential or diploma during participation or within one year after exit from the program; participants achieving measurable skill gains; and effectiveness in serving employers.

877—32.8(260C) References. All references to the United States Code (U.S.C.) and Iowa Adult Education Professional Development Standards in this chapter are as amended to November 1, 2023.

These rules are intended to implement Iowa Code chapter 260C.

Des Moines, Iowa 50319-0209
Email: brooke.axiotis@iwd.iowa.gov

Purpose and Summary

The purpose of the proposed changes is to remove references to the Department of Education and replace them with references to the Iowa Department of Workforce Development. In addition, where possible, definitions are proposed to be replaced with the definitions in, or references to, 34 CFR Part 361.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
These changes will not affect any class from a cost standpoint.
 - Classes of persons that will benefit from the proposed rulemaking:
This is a basic cleanup of rules that will clarify who owns the rules and what defined terms mean.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
This is a basic cleanup of rules with no quantitative impact.
 - Qualitative description of impact:
This is a basic cleanup of rules with no qualitative impact.

3. Costs to the State:
 - Implementation and enforcement costs borne by the agency or any other agency:
This is a basic cleanup of rules, and there is no cost to the State.

- Anticipated effect on state revenues:

This is a basic cleanup, and there is no effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This is a basic cleanup of rules.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

This is a basic cleanup of rules.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative method was considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rules do not have an impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 877—Chapter 33 and adopt the following **new** chapter in lieu thereof:

CHAPTER 33 IOWA VOCATIONAL REHABILITATION SERVICES

877—33.1(84G,90GA,SF514) Nature and responsibility of division. The division of vocational rehabilitation services is established in the department of workforce development and is responsible for providing services to potentially eligible and eligible individuals with disabilities leading to competitive integrated employment in accordance with Iowa Code chapter 259, the federal Rehabilitation Act of 1973, the federal Social Security Act (42 U.S.C. Section 301, et seq.), and the corresponding federal regulations.

877—33.2(84G,90GA,SF514) Nondiscrimination. The division shall not discriminate on the basis of age, race, creed, color, gender, sexual orientation, gender identity, national origin, religion, duration of

residency, or disability in the determination of a person's eligibility for rehabilitation services and in the provision of necessary rehabilitation services.

877—33.3(84G,90GA,SF514) Definitions. For the purpose of this chapter, the indicated terms are defined as follows:

“Act” means the federal Rehabilitation Act of 1973 as codified at 29 U.S.C. Section 701, et seq.

“Aggregate data” means information about one or more aspects of division job candidates, or from some specific subgroup of division job candidates, but from which personally identifiable information on any individual cannot be discerned.

“Applicant” means an individual or the individual's representative, as appropriate, who has completed the IVRS Application for Services (R-412), a common intake application form through a one-stop center requesting IVRS services, or has otherwise requested services from IVRS; has provided to IVRS information necessary to initiate an assessment to determine eligibility and priority for services; is available to complete the assessment process; and has reviewed and signed the Rights and Responsibilities (IPE-1).

“Appropriate modes of communication” has the meaning given in 34 CFR Section 361.5(4).

“Assessment for determining eligibility or in the development of an IPE” means a review of existing data and, to the extent necessary, the provision of appropriate assessment activities to obtain additional information to make a determination and to assign the priority for services or development of an IPE.

“Assistive technology device” means the same as defined in Section 3 of the Assistive Technology Act of 1998.

“Assistive technology service” means the same as defined in Section 3 of the Assistive Technology Act of 1998.

“Benefits planning” means assistance provided to an individual who is interested in becoming employed, but is uncertain of the impact work income may have on any disability benefits and entitlements being received, and is or is not aware of benefits, such as access to health care, that might be available to support employment efforts.

“Case record” means the file of personally identifiable information, whether written or electronic in form, on an individual that is collected to carry out the purposes of the division as defined in the Act. This information remains a part of the case record and is subject to these rules even when temporarily physically removed, either in whole or in part, from the file folder in which it is normally kept.

“Community rehabilitation program” or *“CRP”* has the meaning given in 34 CFR Section 361.5(7).

“Comparable services and benefits” has the meaning given in 34 CFR Section 361.5(8).

“Competitive integrated employment” has the meaning given in 34 CFR Section 361.5(9).

“Competitive integrated work setting,” with respect to the provision of services, means a setting, typically found in the community, in which applicants or eligible individuals interact with nondisabled individuals, other than nondisabled individuals who are providing services to those applicants or eligible individuals, and said interaction is consistent with the quality of interaction that would normally occur in the performance of work by the nondisabled coworkers.

“Customized employment” has the meaning given in 34 CFR Section 361.5(11).

“Department” means the department of workforce development.

“Designated representative” means any representative chosen by an applicant or eligible individual, as appropriate, including a parent, guardian, other family member, or advocate, unless a representative has been appointed by a court to represent the individual, in which case the court-appointed representative is the designated representative.

“Designated state unit” or *“DSU”* means Iowa vocational rehabilitation services.

“Division” or *“IVRS”* means Iowa vocational rehabilitation services.

“Eligible individual” means an applicant for services from the division who meets the eligibility requirements.

“Employment outcome” has the meaning given in 34 CFR Section 361.5(15).

“Extended employment” has the meaning given in 34 CFR Section 361.5(18).

“Extended services” has the meaning given in 34 CFR Section 361.5(19).

“Family income,” for purposes of calculating the financial participation rate for services, means those who are financially responsible for the support of the job candidate and may involve individuals who live in the same or separate households including partners and spouses.

“Family member,” for purposes of vocational rehabilitation services, means any individual who lives with the individual with a disability and has a vested interest in the welfare of that individual whether by marriage, birth, or choice. A family member is an individual who either (1) is a relative or guardian of an applicant or job candidate, or (2) lives in the same household as an applicant or job candidate, who has a substantial interest in the well-being of the applicant or job candidate, and whose receipt of vocational rehabilitation services is necessary to enable the applicant or job candidate to achieve an employment outcome.

“IDEA” means the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.).

“Impartial hearing officer” or *“IHO”* has the meaning given in 34 CFR Section 361.5(24).

“Independent living services” or *“IL services”* means services authorized under Title VII, Chapter 1, Part B of the Rehabilitation Act of 1973.

“Individualized plan for employment” or *“IPE”* means a plan that specifies the services needed by an eligible individual and the responsibilities of the individual with a disability and other payers. An IPE contains the matter set forth in or permitted by 34 CFR Section 361.46.

“Individual with a disability” has the meaning given in 34 CFR Section 361.5(28).

“Individual with a most significant disability” has the meaning given in 34 CFR Section 361.5(29).

“Individual with a significant disability” has the meaning given in 34 CFR Section 361.5(30).

“Institution of higher education” or *“IHE”* means the same as defined in Section 102(a) of the Higher Education Act of 1965.

“Job candidate” means an applicant or eligible individual applying for or receiving benefits or services from any part of the division and includes former job candidates of the division whose files or records are retained by the division.

“Job retention waiting list release” means the mechanism used to remove a job candidate from the division waiting list when the individual is at immediate risk of losing the job and requires vocational rehabilitation service(s) or good(s) in order to maintain employment. This applies only for those service(s) or good(s) that will allow the individual to maintain employment. After the individual receives said service(s) or good(s), the individual’s file will be closed if the individual is satisfied with the services provided and requires no further services. If there are additional services needed, the individual will return to the waiting list, if necessary, until that point where the individual’s priority of service is being served.

“Maintenance” has the meaning given in 34 CFR Section 361.5(34).

“Mediation” has the meaning given in 34 CFR Section 361.5(35).

“Menu of services” means the services provided by community partners to assist an individual with a disability in achieving an employment outcome. Menu of services refers to various services that the division is able to purchase from an approved CRP or other approved provider on behalf of a job candidate. The services are selected and jointly agreed upon by the counselor and job candidate of the division. Payments for services are made based on a fee structure that is published and updated annually, and there is no financial needs assessment applied toward the costs of these purchased services from the community partner.

“Ongoing support services” has the meaning given in 34 CFR Section 361.5(37).

“Personal assistance services” has the meaning given in 34 CFR Section 361.5(38).

“Physical or mental impairment” has the meaning given in 34 CFR Section 361.5(40).

“Physical or mental restoration services” has the meaning given in 34 CFR Section 361.5(39).

“Plan for natural supports” means a plan initiated prior to the implementation of the supported employment program that describes the natural supports to be used on the job; the training provided to the supervisor and mentor on the job site; the technology used in the performance of the work; the rehabilitation strategies and trainings that will be taught to the mentor in order to support and direct the job candidate on the job; the supports needed outside of work for the job candidate to be successful; and

the methods by which the employer can connect with the job candidate's job coach/IVRS staff member, or the training program when the need arises.

"Postemployment services" has the meaning given in 34 CFR Section 361.5(41).

"Potentially eligible" for the purposes of preemployment transition services means all students with disabilities. A student is considered potentially eligible until the student has applied for services and an eligibility decision has been determined.

"Preemployment transition services" or *"pre-ETS"* means those services specified in 34 CFR Section 361.48(a).

"Recognized educational program" includes secondary education programs, nontraditional or alternative secondary education programs (including homeschooling), postsecondary education programs, and other recognized educational programs such as those offered through the juvenile justice system.

"Rehabilitation technology" has the meaning given in 34 CFR Section 361.5(45).

"Satisfactory employment" means stable employment in a competitive integrated employment setting that is consistent with the individual's IPE and acceptable to both the individual and the employer.

"Self-employment services" means services to assist individuals with disabilities to achieve a self-employment outcome consistent with the individual's abilities, preferences and needs. Self-employment is a vocational option through the division that is available only to for-profit businesses intended for operation within the state of Iowa. The division provides two options within the program, which include the full self-employment program and micro-enterprise development. These services provide information, strategies and resources to help the business become self-sustaining while assisting the individual in assuring all necessary supports are in place for long-term success.

"Status" means the existing condition or position of a case. The specific case statuses are as follows:

1. 00-0 Referral for services.
2. 01-0 Potentially eligible student.
3. 01-1 Closed from potentially eligible.
4. 02-0 Applicant.
5. 04-0 Waiting list.
6. 08-0 Closed before acceptance (from Status 02-0).
7. 10-0 Accepted for services (plan development) adults.
8. 10-1 Accepted for services (plan development) high school students.
9. 14-0 Counseling and guidance.
10. 16-0 Physical and mental restoration.
11. 18-__ Training.
 - 18-1 Work adjustment training/assessment.
 - 18-2 On-the-job training.
 - 18-3 Vocational-technical training.
 - 18-4 Academic training.
 - 18-5 Secondary education.
 - 18-6 Supported employment.
 - 18-7 Other types of training (including nonsupported employment job coaching, job development, ISE).
12. 20-0 Ready for employment.
13. 22-0 Employed.
14. 24-0 Services interrupted.
15. 26-0 Closed rehabilitated.
16. 28-0 Closed after IPE initiated (from Status 14-0 through 24-0).
17. 30-0 Closed before IPE initiated (from Status 10-__).
18. 32-0 Postemployment services (from Status 26-0).
19. 33-__ Closed after postemployment services (from Status 32-0).
 - 33-1 Individual is returned to suitable employment or the employment situation is stabilized.

- 33-2 The case has been reopened for comprehensive vocational rehabilitation services.
- 33-3 The postemployment services are no longer assisting the individual and further services would be of no assistance.

20. 38-0 Closed from Status 04-0 (individual does not meet one of the waiting list categories, and the individual no longer wants to remain on the waiting list or fails to respond when contacted because individual's name is at the top of the waiting list).

"Student with a disability" means an individual with a disability in a secondary, postsecondary, or other recognized education program who is not younger than 14 years of age and not older than 21 years of age; and is eligible for, and receiving, special education or related services under Part B of the Individuals with Disabilities Education Act or is a student who is an individual with a disability, for purposes of Section 504.

"Substantial impediment to employment" has the meaning given in 34 CFR Section 361.5(52).

"Supported employment" has the meaning given in 34 CFR Section 361.5(53).

"Supported employment services" has the meaning given in 34 CFR Section 361.5(54).

"Transition services" has the meaning given in 34 CFR Section 361.5(55).

"Transportation" has the meaning given in 34 CFR Section 361.5(56).

"Vocational rehabilitation services" has the meaning given in 34 CFR Section 361.5(57).

"Waiting list" means the listings of eligible individuals for vocational rehabilitation services who are not in a category being served, otherwise known as "order of selection" under the Workforce Innovation and Opportunity Act of 2014.

"Youth with a disability" has the meaning given in 34 CFR Section 361.5(58).

877—33.4(84G,90GA,SF514) Referral and application for services.

33.4(1) General.

a. The division has established and implemented standards for the prompt and equitable handling of referrals of individuals for vocational rehabilitation services, including referrals of individuals made through the one-stop service delivery systems under Section 121 of the Workforce Innovation and Opportunity Act. The standards include timelines for making good faith efforts to inform these individuals of application requirements and to gather information necessary to initiate an assessment for determining eligibility and priority for services.

b. A referral for a student with a disability requesting preemployment transition services (pre-ETS) includes completion of the pre-ETS agreement.

c. Once an individual has submitted an application for vocational rehabilitation services, including applications made through common intake procedures in one-stop centers under Section 121 of the Workforce Innovation and Opportunity Act, an eligibility determination is to be made within 60 days, unless exceptional and unforeseen circumstances beyond the control of the division preclude making an eligibility determination within 60 days and the division and the individual agree to a specific extension of time.

d. An individual is considered to have submitted an application when the individual or the individual's representative, as appropriate, has completed an agency application form including written consent; has completed a common intake application form in a one-stop center requesting vocational rehabilitation services or has otherwise requested services from the division; has provided to the division information necessary to initiate an assessment to determine eligibility and priority for services; and is available to complete the assessment process. The division ensures that its application forms are widely available throughout the state, particularly in the one-stop centers under Section 121 of the Workforce Innovation and Opportunity Act.

e. The division will refer applicants or eligible individuals to appropriate programs and service providers best suited to address the specific rehabilitation, independent living and employment needs of the individual with a disability. Individuals with the most significant disabilities who are working at subminimum wage in a nonintegrated setting are provided information about competitive integrated employment and support from the division, once known to the division, by qualified personnel and partners with the goal of assisting said individuals to pursue competitive integrated employment.

f. The division will inform those who decide against pursuit of employment that services may be requested at a later date if, at that time, they choose to pursue an employment outcome.

33.4(2) *Individuals who are blind.* Pursuant to rule 111—10.4(216B), individuals who meet the department for the blind (IDB) definition of “blind” are to be served primarily by IDB. Joint cases are served pursuant to any applicable memorandum of agreement executed between the division and IDB.

877—33.5(84G,90GA,SF514) Eligibility for vocational rehabilitation services.

33.5(1) *General.*

a. Eligibility for vocational rehabilitation services will be determined upon the basis of the following:

(1) A determination by a qualified rehabilitation counselor that the applicant has a physical or mental impairment documented by a qualified provider;

(2) A determination by a qualified rehabilitation counselor that the applicant’s physical or mental impairment constitutes or results in a substantial impediment to employment for the applicant; and

(3) A determination by a qualified vocational rehabilitation counselor that the applicant requires vocational rehabilitation services to prepare for, secure, retain, advance in, or regain employment that is consistent with the applicant’s unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

b. For purposes of an assessment for determining eligibility and vocational rehabilitation needs, an individual is presumed to have a goal of an employment outcome. The applicant’s completion of the application process for vocational rehabilitation services is sufficient evidence of the individual’s intent to achieve an employment outcome. If at any time the individual decides to no longer pursue competitive integrated employment, the individual is no longer eligible for division services.

33.5(2) *Presumptions.* A presumption exists that the applicant who meets the eligibility provisions in subparagraphs 56.5(1) “a”(1) and 56.5(1) “a”(2) can benefit in terms of an employment outcome from the provision of vocational rehabilitation services. Any applicant who has been determined eligible for social security benefits under Title II or Title XVI of the Social Security Act based on the applicant’s own disability is presumed eligible for vocational rehabilitation services and is considered an individual with a significant disability. IVRS staff are to verify the applicant’s eligibility. Recipients who demonstrate eligibility under subrule 56.6(1) are to also demonstrate need in the individualized plan for employment (IPE) under subrule 56.6(3). Nothing in this rule automatically entitles a recipient of social security disability insurance or supplemental security income payments to any good or service provided by the division. Qualified IVRS personnel will identify and document the individual as a recipient of social security benefits based on disability, and the determination of impediments to employment and need for services will be documented by the qualified rehabilitation counselor.

33.5(3) *Standards for ineligibility.* If the division determines that an applicant is ineligible for vocational rehabilitation services or determines that an individual receiving services under an IPE is no longer eligible for services, including preemployment transition services (pre-ETS), the division will comply with 34 CFR Section 361.43.

33.5(4) *Residency.* There is no duration of residency requirement; however, an individual seeking services from the agency must be present and available for participation in services.

877—33.6(84G,90GA,SF514) Other eligibility and service determinations.

33.6(1) *Waiting list.*

a. As set forth in the Act and 34 CFR Section 361.36, if the division cannot serve all eligible individuals who apply, the division shall develop and maintain a waiting list for services based on significance of disability. The three categories of waiting lists are as follows, listed in order of priority to be served:

(1) Most significantly disabled;

(2) Significantly disabled; and

(3) Others eligible.

b. An individual's order of selection is determined by the waiting list and the date on which the individual applied for services from IVRS. All waiting lists are statewide in scope; no regional lists are to be maintained. Assessment of the significance of an applicant's disability is done during the process of determining eligibility but may continue after the individual has been placed on a waiting list. Individuals who do not meet the order of selection criteria will have access to services provided through information and referral. The division will provide the individual:

- (1) A notice of the referral;
- (2) Information identifying a specific point of contact at the agency to which the individual is referred; and
- (3) Information and advice on the referral regarding the most suitable services to assist the individual.

c. Job retention services are available for those individuals who meet the requirements for those services.

33.6(2) Options for individualized plan for employment (IPE) development.

a. The division provides information on the available options for developing the IPE, including the option that an eligible individual, or as appropriate, the individual's representative, may develop all or part of the IPE without assistance from the division or other entity; or with assistance from:

- (1) A qualified vocational rehabilitation counselor employed by IVRS;
- (2) A qualified vocational rehabilitation counselor not employed by IVRS;
- (3) A disability advocacy organization, such as the CAP or Disability Rights Iowa (DRI), or any other advocacy organization of the individual's choosing; or
- (4) Resources other than those mentioned above, such as the individual's case manager or a representative of the division under the guidance of a division vocational rehabilitation counselor.

b. The IPE is not approved or put into practice until it is discussed and reviewed; amended, if applicable; and approved by the job candidate and the vocational rehabilitation counselor employed by the division.

c. There is no compensation for any expenses incurred while the IPE is developed with any entity not employed by the division.

d. If the job candidate is not on the division waiting list and needs some assessment services to develop the IPE, the job candidate is to discuss the needs in advance with the division counselor and obtain prior approval if financial assistance is needed from the division to pay for the assessment service.

e. For individuals entitled to benefits under Title II or XVI of the Social Security Act on the basis of a disability or blindness, the division must provide to the individual general information on additional supports and assistance for individuals with disabilities desiring to enter the workforce, including assistance with benefits planning.

f. The job candidate's signature on the IPE verifies the ticket assignment to the division unless otherwise directed by the job candidate.

g. The IPE implementation date begins on the date of the division counselor's signature.

33.6(3) Content of the individualized plan for employment (IPE). Each IPE will contain the content specified in 34 CFR Section 361.46.

No expenditures associated with the job candidate-developed plan are the responsibility of IVRS, unless agreed to and approved by the IVRS counselor. Written approval for services must be obtained prior to any IVRS financial obligation.

All IPE services are provided, unless amended and determined unnecessary. The division exercises its discretion in relation to the termination or amendment of the individual's IPE when, for any reason, it becomes evident that the IPE cannot be completed.

33.6(4) Scope of services.

a. Preemployment transition services (pre-ETS). In collaboration with the local educational agencies involved, the division ensures that pre-ETS are arranged and available to all students with disabilities, regardless of whether the student has applied or been determined eligible for vocational rehabilitation services, as defined in 34 CFR Section 361.5(c)(51). Pre-ETS include:

- (1) Required activities. The division is to provide the following activities:

1. Job exploration counseling;
2. Work-based learning experiences, which may include in-school or after school opportunities, or experience outside the traditional school setting (including internships), that is provided in an integrated environment in the community to the maximum extent possible;
3. Counseling on opportunities for enrollment in comprehensive transition or postsecondary educational programs at institutions of higher education;
4. Workplace readiness training to develop social skills and independent living; and
5. Instruction in self-advocacy (including instruction in person-centered planning), which may include peer mentoring (including peer mentoring from individuals with disabilities working in competitive integrated employment).

(2) Authorized activities. Funds available and remaining after the provision of the required activities may be used to improve the transition of students with disabilities from school to postsecondary education or an employment outcome by:

1. Implementing effective strategies to increase the likelihood of independent living and inclusion in communities and competitive integrated workplaces;
2. Developing and improving strategies for individuals with intellectual disabilities and individuals with significant disabilities to live independently; participate in postsecondary education experiences; and obtain, advance in and retain competitive integrated employment;
3. Providing instruction to vocational rehabilitation counselors, school transition personnel, and other persons supporting students with disabilities;
4. Disseminating information about innovative, effective, and efficient approaches to achieve the goals of this rule;
5. Coordinating activities with transition services provided by local educational agencies under the IDEA;
6. Applying evidence-based findings to improve policy, procedure, practice, and the preparation of personnel in order to better achieve the goals of this rule;
7. Developing model transition demonstration projects;
8. Establishing or supporting multistate or regional partnerships involving states, local educational agencies, designated state units, developmental disability agencies, private businesses, or other participants to achieve the goals of this rule; and
9. Disseminating information and strategies to improve the transition to postsecondary activities of individuals who are members of traditionally unserved and underserved populations.

(3) Preemployment transition coordination. Each local office of a designated state unit must carry out responsibilities consisting of:

1. Attending individualized education program meetings for students with disabilities, when invited;
2. Working with the local workforce development boards, one-stop centers, and employers to develop work opportunities for students with disabilities, including internships, summer employment and other employment opportunities available throughout the school year, and apprenticeships;
3. Working with schools, including those carrying out activities under Section 614(d) of the IDEA, to coordinate and ensure the provision of preemployment transition services under this rule;
4. When invited, attending person-centered planning meetings for individuals receiving services under Title XIX of the Social Security Act (42 U.S.C. Section 1396 et seq.).

(4) Completion of the pre-ETS agreement outlines the agreed-upon preemployment transition services needed by the student with a disability. When it is necessary to purchase these services, written prior approval must be obtained from the division.

Once an individual applies for services, the division may provide certain services (e.g., assessments for the determination of eligibility and plan development). The preemployment transition services listed above may continue for students with disabilities (as applicable).

b. Vocational services for eligible individuals not on a waiting list are services described in an IPE and are necessary to assist the eligible individual in preparing for, obtaining, retaining, regaining, or advancing in employment if the failure to advance is due to the disability, consistent with informed

choice. Funding for such services is provided in accordance with the division policies. The services include:

- (1) Assessment for determining services needed to achieve competitive integrated employment;
- (2) Counseling and guidance, which means career counseling to provide information and support services to assist the eligible individual in making informed choices;
- (3) Referral and other services necessary to assist applicants and eligible individuals to secure needed services from other agencies, including other components of the statewide workforce development system, and through agreements with other organizations and agencies as well as advising individuals about the client assistance program;
- (4) Job-related services to facilitate the preparation for, obtaining of, and retaining of employment to include job search, job development, job placement assistance, job retention services, follow-up services and follow-along if necessary and required under the IPE;
- (5) Vocational and other training services, including personal and vocational adjustment training; advanced training in, but not limited to, a field of science, technology, engineering, mathematics (including computer science), medicine, law, or business; books, tools, and other training materials, except that no training or training services in an institution of higher education (universities, colleges, community or junior colleges, vocational schools, technical institutes, or hospital schools of nursing or any other postsecondary education institution) may be paid for with IVRS funds unless maximum efforts have been made by the designated state unit and the individual to secure grant assistance in whole or in part from other sources to pay for that training, in accordance with the definition of that term in 34 CFR Section 361.48(b)(6);
- (6) Physical and mental treatment may be provided to the extent that financial support is not readily available from another source other than IVRS, such as health insurance of the individual or a comparable service or benefit, as defined in 34 CFR Section 361.5(c)(39), and said treatment is essential to the progression of the individual to achieve the competitive integrated employment outcome according to the following provisions:
 1. The service is necessary for the job candidate's satisfactory occupational adjustment;
 2. The condition causing the disability is relatively stable or slowly progressive;
 3. The condition is of a nature that treatment may be expected to remove, arrest, or substantially reduce the disability within a reasonable length of time;
 4. The prognosis for life and employability is favorable.
- (7) Maintenance services as defined in 34 CFR Section 361.5(c)(34), to the extent that the costs of maintenance shall not exceed the amount of increased expenses that the rehabilitation causes for the job candidate or the job candidate's family. Maintenance is not intended to provide relief from poverty or abject living conditions. Guidance regarding the financial support of maintenance is available from the division's policy manual;
- (8) Transportation in connection with the provision of any vocational rehabilitation service and as defined in 34 CFR Section 361.5(c)(57), to the extent that when necessary to enable an applicant or a job candidate to participate in or receive the benefits of other vocational rehabilitation services, travel and related expenses, including expenses for training in the use of public transportation vehicles and systems, may be provided by the division. Transportation services may include the use of private or commercial conveyances (such as private automobile or van, public taxi, bus, ambulance, train, or plane) or the use of public transportation and coordination with a regional transit agency;
- (9) Vocational rehabilitation services to family members, as defined in 34 CFR Section 361.5(c)(23), of an applicant or eligible individual if necessary to enable the applicant or eligible individual to achieve an employment outcome;
- (10) Interpreter services, including sign language and oral interpreter services, for individuals who are deaf or hard of hearing and tactile interpreting services;
- (11) Supported employment services as defined in 34 CFR Section 361.5(c)(42);
- (12) Occupational licenses, tools, equipment, initial stocks and supplies;
- (13) Rehabilitation technology as defined in 34 CFR Section 361.5(c)(45), including vehicular modification, telecommunications, sensory, and other technological aids and devices;

(14) Transition services for a student or youth with a disability that facilitate the transition from school to postsecondary life, such as achievement of an employment outcome in competitive integrated employment, or preemployment transition services for students;

(15) Technical assistance and other consultation services to conduct market analyses, develop business plans, and otherwise provide resources, to the extent those resources are authorized to be provided through the statewide workforce development system, to eligible individuals who are pursuing self-employment or telecommuting or establishing a small business operation as an employment outcome;

(16) Customized employment as defined in 34 CFR Section 361.5(c)(11); and

(17) Other goods and services determined necessary for the individual with a disability to achieve an employment outcome.

33.6(5) *Specific services requiring financial assessment.*

a. Financial need must be established prior to the provision of certain services at the division's expense and is evidenced by use of the financial inventory needs tool utilized by the division. No financial needs test will occur for the following services:

(1) Assessment for eligibility and priority of services and determining vocational rehabilitation needs under 34 CFR Section 361.48(b)(2);

(2) Vocational rehabilitation counseling and guidance under 34 CFR Section 361.48(b)(3);

(3) Referral and other services under 34 CFR Section 361.48(b)(4);

(4) Job-related services under 34 CFR Section 361.48(b)(12);

(5) Personal assistance services under 34 CFR Section 361.48(b)(14); and

(6) Any auxiliary aid or service (e.g., interpreter services under 34 CFR Section 361.48(b)(10) or reader services under 34 CFR Section 361.48(b)(11)) that an individual with a disability requires.

b. Recipients of SSDI/SSI and foster care youth are not subject to a financial needs test but must demonstrate eligibility under subrule 56.6(1) and rule 281—56.5(259), as well as demonstrate need in the IPE.

(1) For the determination of financial need, the individual and the individual's family (when applicable) are required to provide information regarding all family income from any source that may be applied toward the cost of rehabilitation services, other than those services mentioned above, where the financial needs test does not apply. Family is considered to be any individuals who are financially responsible for the support of the job candidate, regardless of whether they reside in the same or separate households. A comparable services and benefits search is required for some services. The division shall not pay for more than the balance of the cost of services minus comparable services and benefits for the individual's documented contribution. When an individual refuses to supply information for the financial needs test, the individual assumes 100 percent responsibility for the costs of the rehabilitation.

(2) The division shall observe the following policies in deciding financial need based upon the findings:

1. All services requiring the determination of financial need are provided on the basis of supplementing the resources of the individual or of those responsible for the individual.

2. A division supervisor may grant an exception in cases where the individual's disability caused, or is directly related to, financial need and where all other sources of money have been exhausted by the individual and the guardian of the individual (when applicable).

3. Consideration will be given to the individual's responsibility for the immediate needs and maintenance of the individual's dependents, and the individual is expected to reserve sufficient funds to meet the individual's family obligations and to provide for the family's future care, education and medical expenses.

4. Income up to a reasonable amount should be considered and determined based on the federal poverty guidelines associated with family size, income, and exclusions.

5. General assistance from state or federal sources is disregarded as a resource unless the assistance is a grant award for postsecondary training.

6. Grants and scholarships based on merit, while not required to be searched for as a comparable benefit, may be considered as part of the determination of financial support of a plan when a request is

beyond the basic support for college. Public grants and institutional grants or scholarships not based on merit are considered a considerable benefit.

7. The division does not fund services for which another entity is responsible.

8. The division seeks and purchases the most economical goods (items/models) or services that meet the individual's vocational needs.

9. Goods and services are only authorized to those facilities and entities qualified and equipped to provide such goods and services.

33.6(6) *Maximum rates of payment to training facilities.* In no case shall the amount paid to a training facility exceed the rate published, and in the case of facilities not having published rates, the amount paid to the facility is not to exceed the amount paid to the facility by other public agencies for similar services. The division will maintain information necessary to justify the rates of payment made to training facilities.

33.6(7) *Areas in which exceptions are unavailable.* Pursuant to federal law, an exception will not be granted for any requirements that do not allow for such an exception (e.g., eligibility, mandatory contents of the individualized plan for employment).

33.6(8) *Exceptions to duration of services.* As required by the Act and 34 CFR Section 361.50(d), the division will have a method of allowing for exceptions to its rules regarding the duration of services. In order to exceed the duration of service as defined in the IPE, a job candidate must follow through on the agreed-upon IPE and related activities and keep the division informed of the job candidate's progress.

877—33.7(84G,90GA,SF514) Purchasing principles for individual-specific purposes.

33.7(1) The division will follow the administrative rules for purchasing goods and services promulgated by the department of administrative services.

33.7(2) The division shall purchase only those items or models that allow for a job candidate to meet the job candidate's vocational objective. The division shall not pay for additional features that exceed the requirements to meet a job candidate's vocational objective or that serve primarily to enhance the job candidate's personal life.

33.7(3) The division shall seek out and purchase the most economical item or model that meets the job candidate's vocational needs.

33.7(4) The division shall encourage all job candidates to develop strategies and savings programs to pay for replacement items/models or upgrades.

33.7(5) Items purchased for a job candidate become the property of the job candidate but may be repossessed by the division, subject to reimbursement to the job candidate for the job candidate's share of the purchase price, if the job candidate does not attain employment prior to case closure.

33.7(6) The division shall inform the job candidate that any change to planned purchases must be discussed and approved jointly before a purchase is made.

33.7(7) The division will not participate in the modification to property not owned by the job candidate or the job candidate's family without a division-approved exception to policy.

33.7(8) When considering what item or model to purchase for a specific job candidate, the division shall in all cases consider the following factors:

a. Whether the item or model is required for the job candidate to be able to perform the essential functions of the job candidate's job.

b. Whether other parties or entities may be responsible for providing or contributing to the costs of an item.

877—33.8(84G,90GA,SF514) Review, mediation and appeal processes. At all times throughout the rehabilitation process, individuals accessing any IVRS services shall be informed of the right to appeal or mediation and the procedures by which to file. If an individual is dissatisfied with any agency decision that directly affects the individual, the individual or designated representative may appeal that decision or request mediation. The term "appellant" shall be used to indicate the individual or designated representative who initiates an appeal. The appellant may initiate the appeal process either by calling a counselor or supervisor or by filing the appropriate division appeal form, available from

any counselor or supervisor of the division. If the appeal process or mediation is initiated by telephone, the counselor or supervisor who received the call is to complete the appeal form to the best of that person's ability with information from the appellant. The division shall accept as an appeal or request for mediation a written letter, facsimile, or electronic mail that indicates that the applicant or job candidate desires to appeal or seek mediation. An appeal or mediation request must be filed within 90 days of notification of the disputed decision. Once the appeal form or request for mediation has been filed with the division administrator, a hearing is to be held before an impartial hearing officer (IHO) or mediator within the next 60 days unless an extension of time is mutually agreed upon or one of the parties shows good cause for an extension or one of the parties declines mediation. The appellant may request that the appeal go directly to impartial hearing, but the appellant shall be offered the opportunity for a supervisor review or mediation. The appellant may request assistance with an appeal or mediation from the Iowa client assistance program (ICAP) at any time in the appeal process.

33.8(1) Supervisor review. As a first step, the appellant shall be advised that a supervisor review of the counselor's decision may be requested by notifying the counselor or supervisor in person, by telephone or by letter of the decision to appeal. If the supervisor has been involved in decisions in the case to the extent that the supervisor cannot render a fair and impartial decision or if the supervisor is not available to complete the review in a timely manner, the appeal and case file shall be forwarded to the bureau chief for review. The appellant is not required to request supervisor review as a prerequisite for appeal before an IHO; however, if a supervisor review is requested, the following steps shall be observed:

a. Upon receipt of a request for supervisor review, the supervisor shall notify all appropriate parties of the date and nature of the appeal; examine case file documentation; discuss the issues and reasons for the decision with the immediate counselor and other counselors who may have been previously involved with the case or issue; and, if necessary, meet with any or all parties to discuss the dispute.

b. The supervisor shall have ten working days from receipt of the request for supervisor review to decide the issue and notify the appellant in writing. A copy of the supervisor's decision shall be sent to all appropriate parties.

c. If the supervisor's decision is adverse to the appellant, the copy of the written decision given to the appellant shall include further appeal procedures, including notification that the appellant has ten days from the date of the letter to file further appeal.

d. As an alternative to, but not to the exclusion of, filing for further appeal, the appellant may request mediation of the supervisor's decision or review by the chief of the rehabilitation services bureau.

33.8(2) Mediation. Regardless of whether a supervisor review is requested, an appellant may use the mediation procedures set forth in 34 CFR Section 361.57(d).

33.8(3) Hearing before an impartial hearing officer. Regardless of whether the appellant has used supervisor review or mediation or both, if the appellant requests a hearing before an IHO, the following provisions apply:

a. The division shall appoint the IHO from the pool of impartial hearing officers with whom the division has contracts. The IHO shall be assigned on a random basis or by agreement between the administrator of the division and the appellant.

b. The hearing shall be held within 20 days of the receipt of the appointment of the IHO. A written decision shall be rendered and given to the parties by the IHO within 30 days after completion of the hearing. Either or both of these time frames may be extended by mutual agreement of the parties or by a showing of good cause by one party.

c. The appellant shall be informed that the filing of an appeal confers consent for the release of the case file information to the IHO. The IHO shall have access to the case file or a copy thereof at any time following acceptance of the appointment to hear the case.

d. Within five working days after appointment, the IHO shall notify both parties in writing of the following:

- (1) The role of the IHO;
- (2) The IHO's understanding of the reasons for the appeal and the requested resolution;
- (3) The date, time, and place for the hearing, which shall be accessible and located as advantageously as possible for both parties but more so for the appellant;

- (4) The availability of the case file for review and copying in a vocational rehabilitation office prior to the hearing and how to arrange for the same;
- (5) That the hearing shall be closed to the public unless the appellant specifically requests an open hearing;
- (6) That the appellant may present evidence and information personally, may call witnesses, may be represented by counsel or other appropriate advocate at the appellant's expense, and may examine all witnesses and other relevant sources of information and evidence;
- (7) The availability to the appellant of the Iowa client assistance program (ICAP) for possible assistance;
- (8) Information about the amount of time it will take to complete the hearing process;
- (9) The possibility of reimbursement of necessary travel and related expenses; and
- (10) The availability of interpreter and reader services for appellants not proficient in the English language and those who are deaf or hard of hearing and the availability of transportation or attendant services for those appellants requiring such assistance.

e. Existing division services provided to an appellant shall not be suspended, reduced, or terminated pending the decision of the IHO, unless so requested by the appellant.

f. The IHO shall provide a full written decision, including the findings of fact and grounds for the decision. The appellant or the division may request administrative review, and the IHO decision is submitted to the administrator of the division. Both parties may provide additional evidence not heard at the hearing for consideration for the administrative review. If no additional evidence is presented, the IHO decision stands. Unless either party chooses to seek judicial review pursuant to Iowa Code chapter 17A, the decision of the IHO is final. If judicial review is sought after administrative review, the IHO's decision shall be implemented pending the outcome of the judicial review.

877—33.9(84G,90GA,SF514) Case record. The division has the authority to collect and maintain records on individuals under the Act, the state plan for vocational rehabilitation services, and the Social Security Act. Under this authority, the division maintains a record for each case. The case record contains pertinent case information as defined in division policy including, as a minimum, the basis for determination of eligibility, the basis justifying the plan of services and the reason for closing the case, together with a justification of the closure and supporting documents. Case information is contained in the agency's case management system and a hard copy file. A combination of these data collections instruments constitutes the official case record. The hard copy files are retained for a minimum of four years, but there are instances when a case may be stored longer based on the services received.

877—33.10(84G,90GA,SF514) Personally identifiable information. This rule describes the nature and extent of the personally identifiable information collected, maintained, and retrieved by the division by personal identifier in record systems as defined herein. The record systems maintained by the division include the following:

33.10(1) Personnel records. Personnel records contain information relating to initial application, job performance and evaluation, reprimands, grievances, notes from and reports of investigations of allegations related to improper employee behavior, and reports of hearings and outcomes of reprimands and grievances.

33.10(2) Job candidate case records. An individual file is maintained for each person who has been referred to or has applied for the services of the division, as described in rule 877—33.9(84G,90GA,SF514). The file contains a variety of personal information about the job candidate, which is used in the establishment of eligibility and the provision of agency services. All information is personally identifiable and is confidential.

33.10(3) Job candidate service record computer database. The job candidate service record computer database contains personal data items about individual job candidates. Data identifying a job candidate is confidential. Data in the aggregate is not personally identifiable and thus is not confidential.

33.10(4) Vendor purchase records. Vendor purchase records are records of purchases of goods or services made for the benefit of job candidates. If a record contains the job candidate's name or other

personal identifiers, the record is confidential. Lists of non-job candidate vendors, services purchased, and the costs of those services are not confidential when retrieved from a data processing system without personally identifiable information.

33.10(5) *Records and transcripts of hearings or client appeals.* Records and transcripts of hearings or client appeals contain personally identifiable information about a client's case, appeal from or for some action, and the decision that has been rendered. The personally identifiable information is confidential. Some of the information is maintained in an index provided for in Iowa Code section 17A.3(1) "d." Information is available after confidential personally identifiable information is deleted.

33.10(6) *All computer databases of client and applicant names and other identifiers.* The data processing system contains client status records organized by a variety of personal identifiers. These records are confidential as long as any personally identifiable information is present.

33.10(7) *All computer-generated reports that contain personally identifiable information.* The division may choose to draw or generate from a data processing system reports that contain information or an identifier which would allow the identification of an individual client or clients. This material is for internal division use only and is confidential.

33.10(8) *Personally identifiable information and acceptance of federal requirements.* Pursuant to Iowa Code section 259.9, the state of Iowa accepts the social security system rules for the disability determination program of the division. Failure to follow the provisions of the Act can result in the loss of federal funds. All personally identifiable information is confidential and may be released only with informed written consent, except as permitted by federal law. Any contrary provision in Iowa Code chapter 22 must be waived in order for the state to receive federal funds, services, and essential information for the administration of vocational rehabilitation services.

877—33.11(84G,90GA,SF514) Other groups of records routinely available for public inspection. This rule describes groups of records maintained by the division other than record systems. These records are routinely available to the public, with the exception of parts of the records that contain confidential information. This rule generally describes the nature of the records, the type of information contained therein, and whether the records are confidential in whole or in part.

33.11(1) *Rulemaking.* Rulemaking records, including public comments on proposed rules, are not confidential.

33.11(2) *Council and commission records.* Agendas, minutes, and materials presented to any council or commission required under the Act are available to the public with the exception of those records that are exempt from disclosure under Iowa Code section 21.5. Council and commission records are available from the main office of the division at 510 E. 12th Street, Des Moines, Iowa 50319.

33.11(3) *Publications.* News releases, annual reports, project reports, agency newsletters, and other publications are available from the main office of the division at 510 E. 12th Street, Des Moines, Iowa 50319. Brochures describing various division programs are also available at local offices of the division.

33.11(4) *Statistical reports.* Periodic reports of statistical information on expenditures, numbers and types of case closures, and aggregate data on various client characteristics are compiled as needed for agency administration or as required by the federal funding source and are available to the public.

33.11(5) *Grants.* Records of persons receiving grants from division services are available through the main office of the division. Grant records contain information about grantees and may contain information about employees of a grantee that has been collected pursuant to federal requirements.

33.11(6) *Published materials.* The division uses many legal and technical publications, which may be inspected by the public upon request. Some of these materials may be protected by copyright law.

33.11(7) *Policy manuals.* Manuals containing the policies and procedures for programs administered by the division are available on the division website. Printed copies of all or some of the documents are available at the cost of production and handling. Requests should be addressed to Vocational Rehabilitation Services Division, 510 E. 12th Street, Des Moines, Iowa 50319.

33.11(8) *Operating expense records.* The division maintains records of the expense of operation of the division, including records related to office rent, employee travel expenses, and costs of supplies and postage, all of which are available to the public.

33.11(9) *Training records.* Lists of training programs, the persons approved to attend, and associated costs are maintained in these records, which are available to the public.

33.11(10) *Other records.* The division maintains records of various sources not previously mentioned in this rule that are exempted from disclosure by law.

877—33.12(84G,90GA,SF514) State rehabilitation council.

33.12(1) *Composition.* The state rehabilitation council's composition is set forth in 34 CFR Section 361.17(b). The appointing authority is to select members of the council after soliciting recommendations from representatives of organizations representing a broad range of individuals with disabilities and organizations interested in individuals with disabilities. In selecting members, the appointing authority must consider, to the greatest extent practicable, the extent to which minority populations are represented on the council. A majority of members must be individuals with disabilities who meet the requirements of 34 CFR Section 361.5(c)(28) and are not employed by the designated state unit.

33.12(2) *Chairperson.* The chairperson must be selected by the members of the council from among the voting members of the council.

33.12(3) *Terms.* Each member of the council shall be appointed for a term of no more than three years. Each member of the council, other than the representative of the client assistance program, shall serve for no more than two consecutive full terms. A member appointed to fill a vacancy occurring prior to the end of the term for which the predecessor was appointed must be appointed for the remainder of the predecessor's term and may serve one additional three-year term. The terms of service of the members initially appointed is to be for a varied number of years to ensure that terms expire on a staggered basis.

33.12(4) *Vacancies.* The governor will fill a vacancy in council membership.

33.12(5) *Functions.* The council, after consulting with the state workforce development board, performs the functions set forth in 34 CFR Section 361.17(h).

33.12(6) *Meetings.* The council must convene at least four meetings a year. The meetings must be publicly announced, open, and accessible to the general public, including individuals with disabilities, unless there is a valid reason for an executive session. The council's meetings are subject to Iowa Code chapter 21, the open meetings law.

33.12(7) *Forums or hearings.* The council shall conduct forums or hearings, as appropriate, that are publicly announced, open, and accessible to the public, including individuals with disabilities.

33.12(8) *Conflict of interest.* No member of the council may cast a vote on any matter that would provide direct financial benefit to the member or the member's organization or otherwise give the appearance of a conflict of interest under state law.

33.12(9) *Specific implementation clause.* This rule is intended to implement 34 CFR Sections 361.16 and 361.17.

877—33.13(84G,90GA,SF514) Iowa self-employment program: purpose. The division of vocational rehabilitation services works in collaboration with the department for the blind to administer the Iowa self-employment (ISE) program. The purpose of the program is to provide business development funds in the form of technical assistance (up to \$10,000) and financial assistance (up to \$10,000) to qualified Iowans with disabilities who start, expand, or acquire a business within the state of Iowa. Actual assistance is based on the requirements of the business, not to exceed the technical assistance and financial assistance limits.

877—33.14(84G,90GA,SF514) Program requirements.

33.14(1) Clients of the division or the department for the blind may apply for the program.

33.14(2) All of the following conditions are also applicable:

a. The division may limit or deny ISE assistance to an applicant who has previously received educational or training equipment from the division through another rehabilitation program when such equipment could be used in the applicant's proposed business.

b. Any equipment purchased for the applicant under this program that is no longer used by the applicant may be returned to the division, at the discretion of the division.

c. An applicant must demonstrate that the applicant has at least 51 percent ownership in a for-profit business that is actively owned, operated, and managed in Iowa.

d. Recommendation for and approval of financial assistance are based upon acceptance of a business plan feasibility study and documentation of the applicant's ability to match dollar-for-dollar the amount of funds requested.

e. To receive financial support from the ISE program, the applicant's business plan feasibility study is to result in self-sufficiency for the applicant as measured by earnings that equal or exceed 80 percent of substantial gainful activity.

f. The division cannot support the purchase of real estate or improvements to real estate.

g. The division cannot provide funding to be used as a cash infusion, for personal or business loan repayments, or for personal or business credit card debt.

h. The division may deny ISE assistance to an applicant who desires to start, expand, or acquire any of the following types of businesses:

(1) A hobby or similar activity that does not produce income at the level required for self-sufficiency;

(2) A business venture that is speculative in nature or considered high risk by the Better Business Bureau or similar organization;

(3) A business registered with the federal Internal Revenue Service as a Section 501(c)(3) entity or other entity set up deliberately to be not for profit;

(4) A business that is not fully compliant with all local, state, and federal zoning requirements and all other applicable local, state, and federal requirements;

(5) A multitiered marketing business.

877—33.15(84G,90GA,SF514) Application procedure.

33.15(1) Application. Application materials for the program are available from the division and the department for the blind.

33.15(2) Submittal. Completed applications will be submitted to a counselor employed by the division or the department for the blind.

33.15(3) Review. Applications will be forwarded to a business development specialist employed by the division for review. Approval of technical assistance funding is based upon the results of a business plan feasibility study. If the application is for financial assistance only, a business plan feasibility study will be required at the time of submission of the application. Approval of financial assistance funding is based upon acceptance of a business plan feasibility study and documentation of the applicant's ability to match dollar-for-dollar the amount of funds requested.

33.15(4) Funding. Before the division will provide funding for a small business, the job candidate must complete an in-depth study about the business the job candidate intends to start and demonstrate that the business is feasible.

33.15(5) Appeal. If an application is denied, an applicant may appeal the decision to the division or the department for the blind. An appeal is governed by the appeal processes of the division or the department for the blind.

877—33.16(84G,90GA,SF514) Award of technical assistance funds.

33.16(1) Awards. Technical assistance funds may be used for specialized consulting services as determined necessary by the counselor, the business development specialist, and the job candidate. Technical assistance funds may be awarded, based on need, up to a maximum of \$10,000 per applicant. Specialized technical assistance may include, but is not limited to, engineering, legal, accounting, and computer services and other consulting services that require specialized education and training.

33.16(2) Technical assistance. When technical assistance is needed for specialized services beyond the expertise of the business development specialist, technical assistance will be provided to assist the job candidate.

33.16(3) Technical assistance contracts. The division shall negotiate contracts with qualified consultants for delivery of services to an applicant if specialized services are deemed necessary. The

contracts are to state hourly fees for services, the type of service to be provided, and a timeline for delivery of services. Authorization of payment will be made by a counselor employed by the division or the department for the blind based upon the negotiated rate as noted in the contract. A copy of each contract will be filed with the division.

33.16(4) Consultants. Applicants will be provided a list of qualified business consultants by the business development specialist if specialized consultation services are necessary. The selection of the consultant(s) is the responsibility of the applicant.

33.16(5) Case management. The business development specialist or counselor will be available as needed for direct consultation to each applicant to ensure that quality services for business planning are provided in a timely manner.

877—33.17(84G,90GA,SF514) Business plan feasibility study procedure. Information and materials are available from the division and the department for the blind. The job candidate is to submit the job candidate's business plan feasibility study to the job candidate's counselor if the study is completed at the time application is made or to the business development specialist if the business plan feasibility study is completed after application approval. The business development specialist is available to guide and assist in the analysis of the feasibility study.

877—33.18(84G,90GA,SF514) Award of financial assistance funds.

33.18(1) Awards. Following the business development specialist's review of the business plan feasibility study, the business development specialist will issue a recommendation to support or not to support the proposed business venture. The counselor is to make a decision regarding approval or denial of the recommendation. If the plan is approved, the job candidate and counselor will review conditions of the financial assistance award and sign the appropriate forms of acknowledgment.

a. Financial assistance funds may be awarded, based on need, up to \$10,000 after approval of a business plan feasibility study and evidence of business need or evidence of business progression. Before receiving financial assistance, the job candidate must demonstrate a dollar-for-dollar match based on the amount of funding needed. The match may be provided through approved existing business assets, cash, conventional financing or other approved sources.

b. Financial assistance funds may be approved for, but are not limited to, equipment, tools, printing of marketing materials, advertising, rent (up to six months), direct-mail postage, raw materials, inventory, insurance (up to six months), and other approved start-up, expansion, or acquisition costs.

33.18(2) Award process. The amount that may be recommended by the business development specialist and approved by the counselor will be provided when there is a need. Recipients of financial assistance must demonstrate ongoing cooperation by providing the business development specialist with financial information needed to assess business progress before additional funds are expended.

33.18(3) Financial assistance contracts. Contracts for financial assistance funds are the responsibility of the division and will be consistent with the authorized use of Title I vocational rehabilitation funds and policy.

33.18(4) Vendors. Procurement of goods or services will follow procedures established by the department of administrative services. The type of goods or services to be obtained, as well as a timeline for delivery of such, are to be stated by the vendor and agreed upon by the division. Authorization for goods or services shall be made by a counselor employed by the division or the department for the blind based upon the negotiated rate and terms as noted in the contract. A copy of each contract is to be filed with the division. Approval for payment of authorized goods or services is to be made by authorized division personnel.

877—33.19(84G,90GA,SF514) References. All references to the Code of Federal Regulations (CFR) and United States Code (U.S.C.) in this chapter are as amended to November 1, 2023.

These rules are intended to implement Iowa Code chapter 84G as enacted by 2023 Iowa Acts, Senate File 514; the federal Rehabilitation Act of 1973; and the federal Social Security Act (42 U.S.C. Section 301 et seq.).

ARC 7106C

ECONOMIC DEVELOPMENT AUTHORITY[261]

Notice of Intended Action

**Proposing rulemaking related to tax credit programs
and providing an opportunity for public comment**

The Economic Development Authority (IEDA) hereby proposes to amend Chapter 43, “Hoover Presidential Library Tax Credit,” Chapter 47, “Endow Iowa Tax Credits,” Chapter 48, “Workforce Housing Tax Incentives Program,” and Chapter 116, “Tax Credits for Investments in Certified Innovation Funds,” Iowa Administrative Code.

Legal Authority for Rulemaking

This rulemaking is proposed under the authority provided in Iowa Code sections 15.106A, 15.356, 15E.305 and 15E.364.

State or Federal Law Implemented

This rulemaking implements, in whole or in part, Iowa Code section 15E.364 as amended by 2023 Iowa Acts, House File 703; section 15E.305 as amended by 2023 Iowa Acts, House File 710; and sections 15.353 and 15E.52 as amended by 2023 Iowa Acts, Senate File 575.

Purpose and Summary

The proposed rulemaking implements changes to multiple tax credit programs administered by IEDA to conform to 2023 Iowa Acts, House Files 703 and 710 and Senate File 575. The changes in the legislation include:

- House File 703 extends the availability of the Hoover presidential library tax credit until the end of calendar year 2024.
- House File 710 increases the allocation of available endow Iowa tax credits from \$6 million to \$13 million for tax year 2023. House File 710 also changes the applicability of 2022 Iowa Acts, chapter 1002, division VIII, to specify that the change to the maximum amount of tax credits granted to a taxpayer applied to endowment gifts made to an endow Iowa-qualified community foundation on or after January 1, 2023.
- Senate File 575 changes the workforce housing tax incentives program by adding construction of new dwelling units in urban areas as an eligible project type. Previously, greenfield development was an eligible project type in only small cities.
- Senate File 575 also changes the innovation investment tax credit by removing the requirement for IEDA to establish a wait list for fiscal years in which the amount of tax credit certificates applied for exceeds the amount allocated. Senate File 575 also extends the authority of IEDA to continue certifying new funds for the innovation fund tax credit until June 30, 2028. Previously, new certifications would have ceased as of June 30, 2023.

The proposed rulemaking would update the rules for each affected program to be consistent with the Iowa Code and, pursuant to Executive Order 10, remove statutory language.

Fiscal Impact

This rulemaking has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rulemaking, no impact on jobs has been found.

Waivers

ECONOMIC DEVELOPMENT AUTHORITY[261](cont'd)

Any person who believes that the application of the discretionary provisions of this rulemaking would result in hardship or injustice to that person may petition the IEDA for a waiver of the discretionary provisions, if any, pursuant to 261—Chapter 199.

Public Comment

Any interested person may submit written or oral comments concerning this proposed rulemaking. Written or oral comments in response to this rulemaking must be received by the IEDA no later than 4:30 p.m. on November 21, 2023. Comments should be directed to:

Lisa Connell
Iowa Economic Development Authority
1963 Bell Avenue, Suite 200
Des Moines, Iowa 50315
Phone: 515.348.6163
Email: lisa.connell@iowaeda.com

Public Hearing

No public hearing is scheduled at this time. As provided in Iowa Code section 17A.4(1)“b,” an oral presentation regarding this rulemaking may be demanded by 25 interested persons, a governmental subdivision, the Administrative Rules Review Committee, an agency, or an association having 25 or more members.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rulemaking by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rulemaking at its [regular monthly meeting](#) or at a special meeting. The Committee’s meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

The following rulemaking action is proposed:

ITEM 1. Amend rule 261—43.3(15E) as follows:

261—43.3(15E) Authorization of tax credits.

43.3(1) For tax years beginning on or after January 1, 2021, but before January 1, ~~2024~~ 2025, a tax credit shall be allowed against the taxes imposed in Iowa Code chapter 422, subchapters II, III, and V, and in Iowa Code chapter 432, and against the moneys and credits tax imposed in Iowa Code section 533.329, equal to 25 percent of a donor’s charitable donation made on or after July 1, 2021, to the Hoover presidential foundation for the Hoover presidential library and museum renovation project fund.

43.3(2) A donor shall not claim a tax credit for a donation made during a tax year beginning before January 1, 2021, or after December 31, ~~2023~~ 2024.

43.3(3) No change.

ITEM 2. Amend subrule 47.3(3) as follows:

47.3(3) ~~The aggregate amount of tax credits available under this rule annually is \$6 million. For tax credits issued on or before December 31, 2022, the maximum amount of tax credit that may be granted to an individual taxpayer is limited to 5 percent of the aggregate amount available each year. For tax credits issued on or after January 1, 2023, the maximum amount of tax credit that may be granted to an individual taxpayer is limited to \$100,000. If the authority receives applications for tax credits in excess of the amount available, the applications shall be prioritized by the date the authority received the applications. Applications received on or before June 30, 2023, will be placed on a waitlist for a subsequent year’s allocation of tax credits if the number of applications exceeds the amount of annual tax credits available. Applications placed on the waitlist shall first be funded in the order listed on the~~

ECONOMIC DEVELOPMENT AUTHORITY[261](cont'd)

waitlist. Applications received on or after July 1, 2023, in excess of the amount of tax credits available will not be placed on the waitlist and will be denied by the authority. For endowment gifts made on or after June 30, 2023, a taxpayer shall submit an application to the authority for the tax credit no later than 12 months from the date of the donation which qualifies the taxpayer for the tax credit.

ITEM 3. Rescind subrule 48.4(1) and adopt the following **new** subrule in lieu thereof:

48.4(1) Eligible project types.

a. To receive workforce housing tax incentives pursuant to the program, a proposed housing project shall meet all of the requirements of Iowa Code section 15.353. Projects located in a 100-year floodplain are not eligible.

b. The authority will determine whether a dwelling unit should be classified as a single-family dwelling unit for the purposes of this subrule. The authority may consider factors such as:

- (1) Whether a unit is separated from other units by a ground-to-roof wall;
- (2) Whether the unit has a separate heating system;
- (3) Whether the unit has an individual meter for public utilities; and
- (4) Whether the unit has other units above or below.

ITEM 4. Rescind subrule **116.3(6)**.

ITEM 5. Rescind rule 261—116.6(15E) and adopt the following **new** rule in lieu thereof:

261—116.6(15E) Approval, issuance and distribution of investment tax credits.

116.6(1) Approval. Upon certification and registration by the authority of an innovation fund and approval of the taxpayer's application, the board will approve the issuance of a tax credit certificate to the applicant.

116.6(2) Preparation of the certificate. The tax credit certificate shall be in a form approved by the authority and shall contain the taxpayer's name, address, and tax identification number; the amount of credit; the name of the innovation fund; the year in which the investment was made and any other information that may be required by the department of revenue. In addition, the tax credit certificate shall contain the following statement:

Neither the authority nor the board has recommended or approved this investment or passed on the merits or risks of such investment. Investors should rely solely on their own investigation and analysis and seek investment, financial, legal and tax advice before making their own decision regarding investment in this fund.

ARC 7105C

ECONOMIC DEVELOPMENT AUTHORITY[261]

Notice of Intended Action

Proposing rulemaking related to renewable chemical production tax credit program and providing an opportunity for public comment

The Economic Development Authority (IEDA) hereby proposes to rescind Chapter 81, "Renewable Chemical Production Tax Credit Program," Iowa Administrative Code, and to adopt a new chapter with the same title.

Legal Authority for Rulemaking

This rulemaking is proposed under the authority provided in Iowa Code sections 15.106A and 15.321.

State or Federal Law Implemented

This rulemaking implements, in whole or in part, Iowa Code sections 15.316 to 15.320 as amended by 2023 Iowa Acts, Senate File 575.

Purpose and Summary

ECONOMIC DEVELOPMENT AUTHORITY[261](cont'd)

Pursuant to Executive Order 10, the IEDA proposes to rescind Chapter 81 relating to the Renewable Chemical Production Tax Credit Program and adopt a new chapter in lieu thereof.

The proposed new chapter incorporates changes to the program in 2023 Iowa Acts, Senate File 575. Changes in the legislation include:

- The maximum tax credit amount is now \$1 million for all businesses. Previously, businesses that have been in operation for more than five years were eligible for a maximum tax credit of \$500,000 and businesses in operation for five years or less were eligible for a maximum tax credit of \$1 million.

- The requirement that the IEDA maintains a wait list if demand for credits exceeds the annual allocation is eliminated.

- A requirement that the IEDA award credits via a competitive process is created.

- The definition of “building block chemical” is amended to exclude serine, threonine, and lysine. Production of those chemicals will no longer be eligible for a tax credit.

- The credit will be allowed for renewable chemical production until 2035. Previously, the credit was allowed only for production until 2026.

The proposed new chapter also omits rule language that is duplicative of statutory language and Iowa Department of Revenue (IDR) rules. Other nonsubstantive clarifying updates from the existing chapter are also proposed.

Fiscal Impact

This rulemaking has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rulemaking, no impact on jobs has been found.

Waivers

Any person who believes that the application of the discretionary provisions of this rulemaking would result in hardship or injustice to that person may petition the IEDA for a waiver of the discretionary provisions, if any, pursuant to 261—Chapter 199.

Public Comment

Any interested person may submit written or oral comments concerning this proposed rulemaking. Written or oral comments in response to this rulemaking must be received by the IEDA no later than 4:30 p.m. on November 21, 2023. Comments should be directed to:

Lisa Connell
Iowa Economic Development Authority
1963 Bell Avenue, Suite 200
Des Moines, Iowa 50315
Phone: 515.348.6163
Email: lisa.connell@iowaeda.com

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

ECONOMIC DEVELOPMENT AUTHORITY[261](cont'd)

November 28, 2023
9 to 9:30 a.m.

1963 Bell Avenue
Des Moines, Iowa
Registration information for online
participation may be found at
www.iowaeda.com/red-tape-review/

December 4, 2023
1:30 to 2 p.m.

1963 Bell Avenue
Des Moines, Iowa
Registration information for online
participation may be found at
www.iowaeda.com/red-tape-review/

Persons who wish to make oral comments at a public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the IEDA and advise of specific needs.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rulemaking by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rulemaking at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

The following rulemaking action is proposed:

ITEM 1. Rescind 261—Chapter 81 and adopt the following **new** chapter in lieu thereof:

CHAPTER 81
RENEWABLE CHEMICAL PRODUCTION TAX CREDIT PROGRAM

261—81.1(15) Purpose. The purpose of this chapter is to encourage development of the renewable chemicals industry and stimulate job growth using the renewable chemical production tax credit program to incentivize new and existing businesses to produce high-value renewable chemicals in Iowa from biomass feedstock.

261—81.2(15) Definitions. As used in this chapter, unless the context otherwise requires:

“*Authority*” means the economic development authority created in Iowa Code section 15.105.

“*Authority’s website*” means the information and related content found at www.iowaeda.com and may include integrated content at affiliate sites.

“*Biomass feedstock*” means the same as defined in Iowa Code section 15.316(2).

“*Board*” means the members of the economic development authority board appointed by the governor and in whom the powers of the authority are vested pursuant to Iowa Code section 15.105.

“*Building block chemical*” means the same as defined in Iowa Code section 15.316(3) as amended by 2023 Iowa Acts, Senate File 575, and also includes benzene, toluene, xylene, ethylbenzene, butanoic acid, hexanoic acid, octanoic acid, pentanoic acid, heptanoic acid, ethylene glycol, and 1,4 butanediol, or such additional molecules as may be included by the authority following the procedure in rule 261—81.8(15).

“*Director*” means the director of the authority.

“*Eligible business*” means the same as defined in Iowa Code section 15.316(5).

“*Pre-eligibility production threshold*” means the same as defined in Iowa Code section 15.316(8).

“*Production year*” means any calendar year after the year in which the eligible business’s pre-eligibility production threshold was established and in which the eligible business produces renewable chemicals.

ECONOMIC DEVELOPMENT AUTHORITY[261](cont'd)

“*Program*” means the renewable chemical production tax credit program administered pursuant to Iowa Code sections 15.315 through 15.322 and this chapter.

“*Renewable chemical*” means the same as defined in Iowa Code section 15.316(10).

261—81.3(15) Eligibility requirements. To be eligible to receive the renewable chemical production tax credit pursuant to the program, a business shall meet all of the eligibility requirements in Iowa Code section 15.317.

261—81.4(15) Application process and review.

81.4(1) Applications for tax credits may be submitted to the authority electronically by eligible businesses from February 15 to March 15 of each calendar year. The authority may adjust the annual filing window dates under extenuating circumstances and will provide notice of adjustments on the authority’s website.

81.4(2) The application shall include all information required by Iowa Code section 15.318(1) “e” and all of the following information:

a. The name of the qualifying building block chemical produced by the eligible business for which the business is claiming a tax credit.

b. The amount of renewable chemicals produced in the state from biomass feedstock by the eligible business during the calendar year prior to the year in which the business first qualified as an eligible business under the program.

c. The city or county where the plant producing renewable chemicals is located.

d. The type of feedstock used to produce the renewable chemicals.

e. The date on which the eligible business organized, expanded or located in the state.

f. Any other information reasonably required by the authority in order to establish and verify the amount of the tax credit under the program.

81.4(3) Applications will be reviewed and scored on a competitive basis by a review committee established by the authority with relevant expertise and experience. If the authority deems that additional information is needed before reviewing and scoring can be completed, and the authority makes a written request for additional information from the applicant, the applicant must provide the requested information within 30 days of the date that the written request from the authority was made. If an applicant does not provide the requested information within 30 days, the application may be rejected by the authority.

81.4(4) Applications determined by the authority to be complete and eligible will be reviewed and scored using criteria established by the authority to evaluate the economic impact of an eligible business’s production of renewable chemicals.

81.4(5) The authority will notify an applicant when the applicant has been approved by the director to receive a tax credit.

261—81.5(15) Agreement and fees. An eligible business approved to receive a tax credit shall enter into an agreement and pay applicable fees pursuant to Iowa Code section 15.318(2) as amended by 2023 Iowa Acts, Senate File 575. Eligible businesses must sign the agreement within 60 days of being notified of approval for the tax credit. Upon request by an eligible business, the authority may extend the time period for signing the agreement by an additional 30 days.

261—81.6(15) Renewable chemical production tax credit.

81.6(1) *Calculation of tax credit amount.*

a. An eligible business that has entered into an agreement pursuant to rule 261—81.5(15) may be issued a tax credit certificate in an amount calculated as described in Iowa Code section 15.319(1). For example, if an eligible business produced three million pounds of renewable chemicals during calendar year 2016 and first became an eligible business under this chapter in calendar year 2017, the pre-eligibility production threshold for the business is three million pounds. If the same eligible business produced ten million pounds of renewable chemicals during calendar year 2017, the eligible

ECONOMIC DEVELOPMENT AUTHORITY[261](cont'd)

business could receive a tax credit for the amount produced over the pre-eligibility production threshold, which in this example equals seven million pounds.

b. If a business has facilities located in more than one state, only those renewable chemicals produced at facilities physically located in the state of Iowa may be counted for the purpose of calculating the tax credit.

c. If the same eligible business has an ownership or equity interest in multiple facilities at which renewable chemicals are produced, the facilities under common ownership will be considered a single eligible business for purposes of calculating the maximum tax credit amount. In calculating the maximum tax credit amount, only the pro rata share of each eligible business's ownership in a facility will be attributed to that eligible business.

d. The maximum amount of tax credit that may be issued under the program to an eligible business for the production of renewable chemicals in a calendar year shall not exceed the amount authorized by Iowa Code section 15.318(3) "a" as amended by 2023 Iowa Acts, Senate File 575.

81.6(2) *Eligible business only.* An eligible business shall not receive a tax credit for renewable chemicals produced before the date the business first qualified as an eligible business pursuant to rule 261—81.3(15).

81.6(3) *Maximum number of credits.* An eligible business shall not receive more tax credit certificates under the program than specified in Iowa Code section 15.318(3) "d" as amended by 2023 Iowa Acts, Senate File 575. Each tax credit must be applied for separately, and each application will be reviewed independently of past tax credits. Receipt of a tax credit in one year does not guarantee receipt of a tax credit in a subsequent year.

81.6(4) *Termination and repayment.* Tax credits may be reduced, terminated, or rescinded pursuant to Iowa Code section 15.318(4).

261—81.7(15) Claiming the tax credit.

81.7(1) *Maximum tax credit claimed.* An eligible business that has entered into an agreement pursuant to rule 261—81.5(15) and been issued a tax credit certificate pursuant to subrule 81.6(1) may claim a tax credit as described in Iowa Code section 15.319(1) as amended by 2023 Iowa Acts, Senate File 575.

81.7(2) *Claiming the credit.* To receive the tax credit, an eligible business shall file a claim in accordance with any applicable administrative rules adopted by the department of revenue.

261—81.8(15) Process to add building block chemicals.

81.8(1) *General process.* The authority may add additional molecules to the definition of "building block chemical" in rule 261—81.2(15) pursuant to Iowa Code section 15.316(3) as amended by 2023 Iowa Acts, Senate File 575. The authority may initiate the administrative rulemaking process for the addition of such molecules to this chapter.

81.8(2) *Request to include additional molecules.* Any individual or business may request that an additional molecule be added to the definition of "building block chemical" by submitting a written request to the authority. Such requests shall be made in the form prescribed by the authority and may be submitted to the authority between April 1 and May 1 of each calendar year and October 1 and November 1 of each calendar year. The authority may adjust these dates under extenuating circumstances and will provide notice of adjustments on the authority's website.

81.8(3) *Consultation with experts.* Prior to initiating a rulemaking to add molecules to the definition of "building block chemical" in rule 261—81.2(15), the authority shall consult with appropriate experts from Iowa state university, including but not limited to the Iowa state university center for biorenewable chemicals. The authority shall conduct an initial staff review of any requests received by the authority pursuant to subrule 81.8(2). Following the initial staff review, the authority shall consult with the experts at Iowa state university regarding the molecules that the authority believes are consistent with the definitions under this chapter. The experts at Iowa state university shall provide a written recommendation to the authority indicating which chemicals, in the experts' opinion, meet the definition of "building block chemical" consistent with this chapter.

ECONOMIC DEVELOPMENT AUTHORITY[261](cont'd)

81.8(4) *Initiation of rulemaking proceedings.* Following the consultation and review process set forth in subrule 81.8(3), the authority may initiate the administrative rulemaking process to amend the definition of “building block chemical” to add molecules that the authority, in the authority’s sole discretion, finds to be consistent with the definitions in this chapter.

261—81.9(15) Additional information. The authority may at any time request additional information and documentation from an eligible business regarding the operations, job creation, and economic impact of the eligible business, and the authority may use the information in preparing and publishing any reports to be provided to the governor and the general assembly to the extent consistent with Iowa Code section 15.318(5).

These rules are intended to implement Iowa Code sections 15.315 through 15.322 as amended by 2023 Iowa Acts, Senate File 575.

ARC 7104C**PHARMACY BOARD[657]****Notice of Intended Action****Proposing rulemaking related to controlled substances and providing an opportunity for public comment**

The Board of Pharmacy hereby proposes to amend Chapter 10, “Controlled Substances,” Iowa Administrative Code.

Legal Authority for Rulemaking

This rulemaking is proposed under the authority provided in Iowa Code section 124.201.

State or Federal Law Implemented

This rulemaking implements, in whole or in part, Iowa Code section 124.201.

Purpose and Summary

This proposed rulemaking temporarily adds five substances (novel psychoactive substances (NPS) of the benzodiazepine class, also known as “designer benzodiazepines”) to Schedule I of the Controlled Substances Act in response to similar action taken by the federal Drug Enforcement Administration.

Fiscal Impact

This rulemaking has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rulemaking, no impact on jobs has been found.

Waivers

Any person who believes that the application of the discretionary provisions of this rulemaking would result in hardship or injustice to that person may petition the Board for a waiver of the discretionary provisions, if any, pursuant to 657—Chapter 34.

Public Comment

Any interested person may submit written comments concerning this proposed rulemaking. Written comments in response to this rulemaking must be received by the Board no later than 4:30 p.m. on November 21, 2023. Comments should be directed to:

PHARMACY BOARD[657](cont'd)

Sue Mears
Board of Pharmacy
400 S.W. 8th Street, Suite E
Des Moines, Iowa 50309
Email: sue.mears@iowa.gov

Public Hearing

No public hearing is scheduled at this time. As provided in Iowa Code section 17A.4(1)“b,” an oral presentation regarding this rulemaking may be demanded by 25 interested persons, a governmental subdivision, the Administrative Rules Review Committee, an agency, or an association having 25 or more members.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rulemaking by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rulemaking at its [regular monthly meeting](#) or at a special meeting. The Committee’s meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

The following rulemaking action is proposed:

ITEM 1. Rescind subrule 10.39(2) and adopt the following **new** subrule in lieu thereof:

10.39(2) Amend Iowa Code section 124.204(9) by adding the following new paragraphs:

j. 4-(2-chlorophenyl)-2-ethyl-9-methyl-6H-thienol[3,2-f][1,2,4]triazolo[4,3-alpha][1,4]diazepine, its salts, isomers, and salts of isomers. Other name: etizolam.

k. 8-chloro-6-(2-fluorophenyl)-1-methyl-4H-benzo[f][1,2,4]triazolo[4,3-alpha][1,4]diazepine, its salts, isomers, and salts of isomers. Other name: flualprazolam.

l. 6-(2-chlorophenyl)-1-methyl-8-nitro-4H-benzo[f][1,2,4]triazolo[4,3-alpha][1,4]diazepine, its salts, isomers, and salts of isomers. Other name: clonazolam.

m. 8-bromo-6-(2-fluorophenyl)-1-methyl-4H-benzo[f][1,2,4]triazolo[4,3-alpha][1,4]diazepine, its salts, isomers, and salts of isomers. Other name: flubromazolam.

n. 7-chloro-5-(2-chlorophenyl)-1-methyl-1,3-dihydro-2H-benzo[e][1,4]diazepin-2-one, its salts, isomers, and salts of isomers. Other name: diclazepam.

REVENUE DEPARTMENT

Interest rates

Starting January 1, 2024, the interest rate for taxpayers with overdue payments will be:

- 1.0% annually
- 0.8% monthly
- 0.027322% daily

Iowa Code section 421.7 specifies the procedures for calculating the Department’s annual and monthly interest rates. The annual rate is based on the average monthly prime rate during the preceding 12-month period (October through September). Iowa law requires that this average be rounded to the nearest whole percent and two percentage points be added to it. The prime rate averaged 7.78 percent over the past 12 months. Rounded to the nearest whole percent, this average is 8.0 percent. Adding two percentage points results in the annual Department rate of 10.0 percent. The monthly rate is the annual rate divided by 12, rounded to the nearest one-tenth of a percentage point. The daily rate for 2024, which is a leap year, is the annual rate divided by 366. (The average monthly bank prime rate is published by the United States Federal Reserve at www.federalreserve.gov/datadownload/Choose.aspx?rel=H15.)

ARC 7109C**REVENUE DEPARTMENT[701]****Notice of Intended Action****Proposing rulemaking related to retirement income exclusion
and providing an opportunity for public comment**

The Revenue Department hereby proposes to amend Chapter 301, “Filing Return and Payment of Tax,” Chapter 302, “Determination of Net Income,” and Chapter 307, “Withholding,” Iowa Administrative Code.

Legal Authority for Rulemaking

This rulemaking is proposed under the authority provided in Iowa Code sections 421.14 and 422.68.

State or Federal Law Implemented

This rulemaking implements, in whole or in part, Iowa Code sections 422.5, 422.7, 422.13 and 422.16.

Purpose and Summary

This proposed rulemaking is intended to implement the statutory change to the retirement income exclusion from a partial to a full exclusion for qualifying taxpayers receiving distributions from qualifying plans. This proposed rulemaking identifies certain plans that do and do not qualify for the exclusion as well as defining how survivors with an insurable interest may qualify for the exclusion. This proposed rulemaking also updates what items of income are and are not required to be added back to Iowa taxable income to determine whether a taxpayer has a filing requirement, including eliminating excluded retirement income from the required add backs. Finally, this proposed rulemaking updates rules related to withholding to implement the full exclusion for retirement income described above.

Fiscal Impact

This rulemaking has no fiscal impact to the State of Iowa beyond that of the legislation it implements.

Jobs Impact

After analysis and review of this rulemaking, no impact on jobs has been found.

Waivers

Any person who believes that the application of the discretionary provisions of this rulemaking would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to rule 701—7.28(17A).

Public Comment

Any interested person may submit written or oral comments concerning this proposed rulemaking. Written or oral comments in response to this rulemaking must be received by the Department no later than 4:30 p.m. on November 21, 2023. Comments should be directed to:

Kurt Konek
Department of Revenue
Hoover State Office Building
P.O. Box 10457
Des Moines, Iowa 50306-3457
Phone: 515.587.0440
Email: kurt.konek@iowa.gov

Public Hearing

REVENUE DEPARTMENT[701](cont'd)

If requested, a public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
11 a.m. to 12 noon

Via video/conference call

Persons who wish to participate in the video/conference call should contact Kurt Konek before 4:30 p.m. on November 21, 2023, to facilitate an orderly hearing. A video link and conference call number will be provided to participants prior to the hearing.

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department and advise of specific needs.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rulemaking by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rulemaking at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

The following rulemaking action is proposed:

ITEM 1. Amend rule 701—301.1(422) as follows:

701—301.1(422) Who must file.

301.1(1) Residents of Iowa.

a. Tax years beginning on or after January 1, 1993 Residents under 65 years of age. For each taxable year, every resident of Iowa, except any resident claimed as a dependent on another person's return, whose net income is greater than \$13,500 in the case of married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ heads of household, and surviving spouses or greater than \$9,000 in the case of single persons must make, sign, and file a return. Each resident who is claimed as a dependent on another person's return and whose net income is \$4,000 or more, or whose net income is \$5,000 or more for tax years beginning on or after January 1, 2001, must make, sign, and file a return. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax, ~~along with the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422),~~ is federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover are included in net income to determine if a person must file a return. ~~In addition, for tax years beginning on or after January 1, 2007, the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) for residents who are younger than 65 years of age on December 31 of the tax year is included in net income to determine if a person must file a return.~~

b. Tax years beginning on or after January 1, 2007, but before January 1, 2009, for residents 65 years of age or older. For these taxable years, every resident of Iowa, except any resident claimed as a dependent on another person's return, who is at least 65 years of age or older on December 31 of the tax year, whose net income is greater than \$24,000 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses or greater than \$18,000 in the case of single persons must make, sign, and file a return. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. Each resident who is claimed as a dependent on another person's return and whose net income is \$5,000 or more must make, sign, and file a return.

REVENUE DEPARTMENT[701](cont'd)

~~For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) are included in net income to determine if a person must file a return.~~

~~*e. b. Tax years beginning on or after January 1, 2009, for residents Residents 65 years of age or older.* For each taxable year, every resident of Iowa, except any resident claimed as a dependent on another person's return, who is at least 65 years of age or older on December 31 of the tax year, whose net income is greater than \$32,000 in the case of married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ heads of household, and surviving spouses or greater than \$24,000 in the case of single persons must make, sign, and file a return. For married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ only one spouse is required to be at least 65 years of age or older on December 31 of the tax year. Each resident who is claimed as a dependent on another person's return and whose net income is \$5,000 or more must make, sign, and file a return.~~

~~For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover taken for federal purposes are included in net income to determine if a person must file a return.~~

301.1(2) Nonresidents of Iowa.

~~*a. Tax years beginning on or after January 1, 1993 Nonresidents under 65 years of age.* For each taxable year, every nonresident of Iowa must make, sign, and file an Iowa return if the nonresident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$13,500 in the case of married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ heads of household, and surviving spouses, (2) has a net income from all sources greater than \$9,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of \$4,000 or more ~~or has a net income from all sources of \$5,000 or more if the tax year begins on or after January 1, 2001.~~ For purposes of this paragraph, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the nonresident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, ~~along with the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422),~~ is federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover are included in net income to determine if a person must file a return. ~~In addition, for tax years beginning on or after January 1, 2007, the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) for nonresidents who are under 65 years of age on December 31 of the tax year is included in determining net income from all sources to determine if a person must file a return.~~~~

~~*b. Tax years beginning on or after January 1, 2007, but before January 1, 2009, for nonresidents 65 years of age or older.* For these taxable years, every nonresident of Iowa must make, sign, and file an Iowa return if the nonresident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$24,000 in the case of married persons filing jointly, filing separately on a combined return or filing separate returns, heads of household and surviving spouses, (2) has a net income from all sources greater than \$18,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of at least \$5,000. For married persons filing jointly, filing separately on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the nonresident has sufficient net income from Iowa sources to make and file a return. In determining net income from~~

REVENUE DEPARTMENT[701](cont'd)

all sources, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) are included in net income to determine if a person must file a return.

e. b. Tax years beginning on or after January 1, 2009, for nonresidents Nonresidents 65 years of age or older. For these taxable years, every nonresident of Iowa must make, sign, and file an Iowa return if the nonresident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$32,000 in the case of married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ heads of household, and surviving spouses, (2) has a net income from all sources greater than \$24,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of at least \$5,000. For married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ only one spouse is required to be 65 years of age or older on December 31 of the tax year. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the nonresident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, ~~the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) are~~ is included in net income to determine if a person must file a return.

d.—Nonresidents with net incomes of less than \$1,000 that are subject to Iowa alternative minimum tax. For tax years beginning on or after January 1, 2000, every nonresident of Iowa who has a net income from Iowa sources of less than \$1,000 must make, sign, and file a return if the nonresident is subject to Iowa alternative minimum tax.

301.1(3) Part-year residents of Iowa.

a. Tax years beginning on or after January 1, 1993 Part-year residents under 65 years of age. For each taxable year, every part-year resident of Iowa must make, sign, and file a return if the individual has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$13,500 in the case of married persons ~~filing jointly, filing separately on a combined return form or filing separate returns,~~ heads of household, and surviving spouses, (2) has a net income from all sources that is greater than \$9,000 in the case of a single person, or (3) is claimed as a dependent on another person's return and had a net income from all sources of \$4,000 or more ~~or has a net income from all sources of \$5,000 or more if the tax year begins on or after January 1, 2001.~~ For purposes of this paragraph, the portion of a lump-sum distribution that is allocable to Iowa is included in net income to determine if the person has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, ~~along with the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), is~~ federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover are included in net income to determine if a person must file a return. ~~In addition, for tax years beginning on or after January 1, 2007, the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) for part-year residents who are younger than 65 years of age on December 31 of the tax year is included in determining net income from all sources to determine if a person must file a return.~~

b.—Tax years beginning on or after January 1, 2007, but before January 1, 2009, for nonresidents 65 years of age or older. For these taxable years, every part-year resident of Iowa must make, sign, and file an Iowa return if the part-year resident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$24,000 in the case of married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ heads of household and surviving spouses, (2) has a net income from all sources greater than \$18,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of at least \$5,000. For married persons ~~filing jointly, filing separately~~

REVENUE DEPARTMENT[701](cont'd)

on a combined return or filing separate returns, only one spouse is required to be 65 years of age or older on December 31 of the tax year. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the part-year resident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) are included in net income to determine if a person must file a return.

e. b. Tax years beginning on or after January 1, 2009, for part-year Part-year residents 65 years of age or older. For these taxable years, every part-year resident of Iowa must make, sign, and file an Iowa return if the part-year resident has a net income of \$1,000 or more from Iowa sources and meets one or more of the following conditions: (1) has a net income from all sources that is greater than \$32,000 in the case of married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ heads of household, and surviving spouses, (2) has a net income from all sources greater than \$24,000 in the case of single persons, or (3) is claimed as a dependent on another person's return and has a net income from all sources of at least \$5,000. For married persons ~~filing jointly, filing separately on a combined return or filing separate returns,~~ only one spouse is required to be 65 years of age or older on December 31 of the tax year. For purposes of this subrule, the portion of a lump-sum distribution subject to separate federal tax that is allocable to Iowa is included in net income to determine if the part-year resident has sufficient net income from Iowa sources to make and file a return. In determining net income from all sources, the portion of a lump-sum distribution subject to separate federal tax, ~~the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3)~~ federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover are included in net income to determine if a person must file a return.

d.—Part-year residents with net incomes of less than \$1,000 that are subject to Iowa alternative minimum tax. For tax years beginning on or after January 1, 2000, every part-year resident of Iowa who has a net income from Iowa sources of less than \$1,000 must make, sign, and file a return if the part-year resident is subject to Iowa alternative minimum tax.

301.1(4) Returns of the handicapped Incapacity to file a return. If a taxpayer is physically or mentally unable to make a return, the return shall be made by a duly authorized agent, guardian or other person charged with the care of the person or property of such taxpayer. A power of attorney must accompany a return made by an agent or guardian.

301.1(5) and 301.1(6) No change.

301.1(7) Returns filed for refund. A taxpayer whose Iowa source net income or all source net income is less than the amount for which the filing of an Iowa individual income tax return is required must file a return to receive a refund of Iowa income tax withheld or Iowa estimated tax paid in the tax year or to receive a refund from an Iowa refundable tax credit. ~~Refundable tax credits include the child and dependent care credit, the early childhood development tax credit, the research activities credit, the motor vehicle fuel tax credit, the claim of right credit (if elected in accordance with rule 701—300.18(422)), the assistive device credit, the historic preservation and cultural and entertainment district tax credit, the ethanol blended gasoline tax credit, the investment tax credit for value-added agricultural products or biotechnology-related processes, the soy-based cutting tool oil tax credit, the wage benefit tax credit, the soy-based transformer fluid tax credit, the E-85 gasoline promotion tax credit, the biodiesel blended fuel tax credit, the ethanol promotion tax credit, and the E-15 plus gasoline promotion tax credit.~~

301.1(8) Returns filed by out-of-state business or out-of-state employee performing disaster and emergency-related work during a disaster response period. On or after January 1, 2016, see 701—Chapter 276 for filing requirements of an out-of-state business or out-of-state employee as defined in Iowa Code section 29C.24 who enters Iowa to perform disaster and emergency-related work during a disaster response period as those terms are defined in Iowa Code section 29C.24.

This rule is intended to implement Iowa Code sections 422.5 and 422.13.

REVENUE DEPARTMENT[701](cont'd)

ITEM 2. Amend rule 701—301.5(422) as follows:

701—301.5(422) Payment of tax.

301.5(1) to 301.5(7) No change.

301.5(8) and 301.5(9) Reserved.

301.5(10) *Thirteen thousand five hundred dollar exemption.* ~~For tax years beginning on or after January 1, 1993, all~~ All taxpayers, except single taxpayers described in subrule 301.4(1), whose net income as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, ~~the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3),~~ federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover is \$13,500 or less are exempt from paying Iowa individual income tax subject to the following conditions:

a. In the case of married taxpayers, the incomes of both spouses are considered in order to determine if the taxpayers qualify for exemption from tax. However, in the case of married taxpayers where one spouse has a net operating loss and the taxpayers file separate Iowa returns ~~or separately on the combined return form,~~ the taxpayers cannot receive the benefit of the exemption from tax if the spouse with the loss elects to carry back or carry forward that loss.

b. An individual claimed as a dependent on another person's return with an income of at least \$5,000 ~~(\$4,000 for tax years beginning in 1993 but before 2001)~~ but not more than \$13,500 will be exempt from Iowa tax if:

(1) The person on whose return the dependent is claimed is filing as a single individual and has a net income of \$9,000 or less, or

(2) The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less.

(3) The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less.

c. If the payment of tax would reduce the net income to less than \$13,500, the tax shall be reduced to an amount which would allow the taxpayer to retain a net income of \$13,500. Example: If a taxpayer's net income was \$13,600 and the computed tax after personal exemptions and other credits was \$300, the payment of \$300 would reduce the income below \$13,500; therefore, the amount of tax is reduced to \$100 so the taxpayer can retain a net income of \$13,500.

301.5(11) *Nine thousand dollar exemption.* ~~For tax years beginning on or after January 1, 1993, single~~ Single taxpayers described in subrule 301.4(1) whose net income as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, ~~the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3),~~ federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover is \$9,000 or less are exempt from paying Iowa individual income tax subject to the following conditions:

a. An individual claimed as a dependent on another person's return with an income of at least \$5,000 ~~(\$4,000 for tax years beginning in 1993 but before 2001)~~ but not more than \$9,000 will be exempt from tax if:

(1) The person on whose return the dependent is claimed has a net income of \$9,000 or less, or

(2) The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less.

(3) The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less.

REVENUE DEPARTMENT[701](cont'd)

b. If the payment of tax would reduce the net income to less than \$9,000, the tax is reduced to an amount which will allow the taxpayer to retain a net income of \$9,000.

301.5(12) *Exemptions for taxpayers 65 years of age or older for tax years beginning on or after January 1, 2007, but before January 1, 2009.*

a. All taxpayers except single taxpayers described in subrule 301.4(1) who are 65 years of age or older on December 31 of the tax year and whose net income as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) is \$24,000 or less are exempt from paying Iowa individual income tax subject to the conditions set forth below:

(1) In the case of married taxpayers, the incomes of both spouses are considered in order to determine if the taxpayers qualify for exemption from tax. For purposes of this subrule, only one spouse is required to be 65 years of age or older by December 31 of the tax year. However, in the case of married taxpayers when one spouse has a net operating loss and the taxpayers file separate Iowa returns or separately on the combined return, the taxpayers cannot receive the benefit of the exemption from tax if the spouse with the loss elects to carry back or carry forward that loss.

(2) An individual claimed as a dependent on another person's return with an income of at least \$5,000, but not more than \$24,000, will be exempt from Iowa tax if:

1. The person on whose return the dependent is claimed is filing as a single individual and has a net income of \$9,000 or less (\$18,000 or less if the person is 65 years of age or older); or

2. The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less (\$24,000 or less of the combined income of the person and the person's spouse if at least one spouse is 65 years of age or older); or

3. The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less (\$24,000 or less if the person is 65 years of age or older).

(3) If the payment of tax would reduce the net income to less than \$24,000, the tax shall be reduced to an amount which would allow the taxpayer to retain a net income of \$24,000.

EXAMPLE: If a taxpayer's net income was \$24,100 and the computed tax after personal exemptions and other credits was \$300, the payment of \$300 would reduce the income below \$24,000; therefore, the amount of tax is reduced to \$100 in order for the taxpayer to retain a net income of \$24,000.

b. Single taxpayers described in subrule 301.4(1) whose net income, as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3) is \$18,000 or less are exempt from paying Iowa individual income tax subject to the conditions set forth in paragraphs "c" and "d" below:

c. An individual claimed as a dependent on another person's return with an income of at least \$5,000, but not more than \$18,000, will be exempt from tax if:

(1) The person on whose return the dependent is claimed has a net income of \$9,000 or less (\$18,000 or less if the person is 65 years of age or older); or

(2) The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less (\$24,000 or less of the combined income of the person and the person's spouse if at least one spouse is 65 years of age or older); or

(3) The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less (\$24,000 or less if the person is 65 years of age or older).

d. If the payment of tax would reduce the net income to less than \$18,000, the tax is reduced to an amount which will allow the taxpayer to retain a net income of \$18,000.

301.5(13) *Exemptions for taxpayers 65 years of age or older for tax years beginning on or after January 1, 2009.*

REVENUE DEPARTMENT[701](cont'd)

a. All taxpayers except single taxpayers described in subrule 301.4(1) who are at least 65 years of age or older on December 31 of the tax year and whose net income as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, ~~the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3)~~ federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover is \$32,000 or less are exempt from paying Iowa individual income tax subject to the conditions set forth below:

(1) In the case of married taxpayers, the incomes of both spouses are considered in order to determine if the taxpayers qualify for exemption from tax. For purposes of this subrule, only one spouse is required to be 65 years of age or older by December 31 of the tax year. However, in the case of married taxpayers when one spouse has a net operating loss and the taxpayers file separate Iowa returns ~~or separately on the combined return form~~, the taxpayers cannot receive the benefit of the exemption from tax if the spouse with the loss elects to carry back or carry forward that loss.

(2) An individual claimed as a dependent on another person's return with an income of at least \$5,000, but not more than \$32,000, will be exempt from Iowa tax if:

1. The person on whose return the dependent is claimed is filing as a single individual and has a net income of \$9,000 or less (\$24,000 or less if the person is 65 years of age or older); or
2. The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less (\$32,000 or less of the combined income of the person and the person's spouse if at least one spouse is 65 years of age or older); or
3. The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less (\$32,000 or less if the person is 65 years of age or older).

(3) If the payment of tax would reduce the net income to less than \$32,000, the tax shall be reduced to an amount which would allow the taxpayer to retain a net income of \$32,000.

EXAMPLE: If a taxpayer's net income was \$32,100 and the computed tax after personal exemptions and other credits was \$300, the payment of \$300 would reduce the income below \$32,000; therefore, the amount of tax is reduced to \$100 in order for the taxpayer to retain a net income of \$32,000.

b. Single taxpayers described in subrule 301.4(1) whose net income, as computed under Iowa Code section 422.7, plus the amount of a lump-sum distribution for which the taxpayer has elected to be separately taxed for federal income tax purposes, ~~the partial exclusion of pension and other retirement benefits described in rule 701—302.47(422), and the phase-out exclusion for social security benefits described in 701—subrule 302.23(3)~~ federal standard or itemized deduction taken on the federal return, the personal exemption allowed for federal purposes, the qualified business income deduction allowed for federal purposes, and any net operating loss carryover is \$24,000 or less are exempt from paying Iowa individual income tax subject to the conditions set forth in paragraphs "*c*" and "*d*" below:

c. An individual claimed as a dependent on another person's return with an income of at least \$5,000, but not more than \$24,000, will be exempt from tax if:

- (1) The person on whose return the dependent is claimed has a net income of \$9,000 or less (\$24,000 or less if the person is 65 years of age or older); or
- (2) The person on whose return the dependent is claimed and the person's spouse have a combined net income of \$13,500 or less (\$32,000 or less of the combined income of the person and the person's spouse if at least one spouse is 65 years of age or older); or
- (3) The person on whose return the dependent is claimed is filing as a head of household or as a surviving spouse and has a net income of \$13,500 or less (\$32,000 or less if the person is 65 years of age or older).

d. If the payment of tax would reduce the net income to less than \$24,000, the tax is reduced to an amount which will allow the taxpayer to retain a net income of \$24,000.

This rule is intended to implement Iowa Code section 422.5 as amended by 2006 Iowa Acts, Senate File 2408, and sections 422.16, 422.17, 422.21, 422.24, and 422.25.

REVENUE DEPARTMENT[701](cont'd)

ITEM 3. Amend rule 701—302.47(422) as follows:

701—302.47(422) Partial exclusion Exclusion of pensions and other retirement benefits for disabled individuals, individuals who are 55 years of age or older, surviving spouses, and survivors. For tax years beginning on or after January 1, 1995 2023, an individual who is disabled, is 55 years of age or older, is a surviving spouse, or is a survivor with an insurable interest in an individual who would have qualified for the exclusion is eligible for a ~~partial~~ an exclusion of retirement benefits received in the tax year. For tax years ~~beginning on or after January 1, 2001~~, the ~~partial exclusion~~ of retirement benefits received in the tax year is increased up to a maximum of \$6,000 for a person other than a husband or wife who files a separate state return and up to a maximum of \$12,000 for a husband and wife who file a joint Iowa return. For tax years ~~beginning on or after January 1, 1998~~, the ~~partial exclusion~~ of retirement benefits received in the tax year was increased up to a maximum of \$5,000 for a person, other than a husband or wife who files a separate state income tax return, and up to a maximum of \$10,000 for a husband and wife who file a joint state income tax return. A husband and wife filing separate state income tax returns or separately on a combined state return are allowed a combined exclusion of retirement benefits of up to a maximum of \$10,000 for tax years beginning in 1998, 1999 and 2000 and a combined exclusion of up to a maximum of \$12,000 for tax years beginning on or after January 1, 2001. The \$10,000 or \$12,000 exclusion shall be allocated to the husband and wife in the proportion that each spouse's respective pension and retirement benefits received bear to the total combined pension and retirement benefits received by both spouses. See rule 701—302.80(422) for the exclusion of military retirement pay for tax years beginning on or after January 1, 2014 and rule 701—302.23(422) for the exclusion of Social Security benefits.

EXAMPLE 1. A married couple elected to file separately on the combined return form. Both spouses were 55 years of age or older. The wife received \$95,000 in retirement benefits and the husband received \$5,000 in retirement benefits. Since the wife received 95 percent of the retirement benefits, she would be entitled to 95 percent of the \$10,000 retirement income exclusion or a retirement income exclusion of \$9,500. The husband would be entitled to 5 percent of the \$10,000 retirement income exclusion or an exclusion of \$500.

EXAMPLE 2. A married couple elected to file separately on the combined return form. Both spouses were 55 years of age or older. The husband had \$15,000 in retirement benefits from a pension. The wife received no retirement benefits. In this situation, the husband can use the entire \$10,000 retirement income exclusion to exclude \$10,000 of his pension benefits since the spouse did not use any of the \$10,000 retirement income exclusion for the tax year.

EXAMPLE 3. A married couple elected to file separately on the combined return form. One spouse was 52 years of age and received a pension income of \$20,000. The other spouse was 55 years of age and received no pension income. Since the spouse receiving the pension income was not 55 years of age, no exclusion is allowed on the Iowa return.

EXAMPLE 4. A married couple elected to file separately on the combined return form. One spouse was 52 years of age and received a pension income of \$10,000. The other spouse was 55 years of age and received a pension income of \$8,000. Since only one spouse receiving the pension income was 55 years of age, an exclusion of \$8,000 is allowed on the Iowa return. The exclusion of \$8,000 is allowed since a married couple is allowed a combined exclusion of up to \$12,000.

For tax years beginning on or after January 1, 1995, but prior to January 1, 1998, the retirement income exclusion was up to \$3,000 for single individuals, up to \$3,000 for each married person filing a separate Iowa return, up to \$3,000 for each married person filing separately on the combined return form, and up to \$6,000 for married taxpayers filing joint Iowa returns. For example, a married couple elected to file separately on the combined return form and both spouses were 55 years of age or older. One spouse had \$2,000 in pension income that could be excluded, since the pension income was \$3,000 or less. The other spouse had \$6,000 in pension income and could exclude \$3,000 of that income due to the retirement income exclusion. This second spouse could not exclude an additional \$1,000 of the up to \$3,000 retirement income exclusion that was not used by the other spouse.

302.47(1) Retirement income.

REVENUE DEPARTMENT[701](cont'd)

a. Qualifying retirement income. Generally, distributions from documented retirement plans meeting the qualification requirements in the Internal Revenue Code qualify for the retirement income exclusion. The following is a nonexclusive list of plans that qualify for the retirement income exclusion:

(1) Traditional individual retirement account (IRA) authorized under Internal Revenue Code Section 408(a).

(2) Roth individual retirement account (Roth IRA) authorized under Internal Revenue Code Section 408A.

(3) Roth conversion income.

(4) Simplified employee pension individual retirement arrangement (SEP-IRA) defined in Internal Revenue Code Section 408(k).

(5) Savings incentive match plan for employees (SIMPLE IRA) defined under Internal Revenue Code Section 408(p).

(6) Qualified deferred compensation plans including those authorized under Internal Revenue Code Sections 401(k) and 457(b).

(7) A defined benefit plan, pension plan, profit-sharing plan, or stock bonus plan qualified under Internal Revenue Code Section 401 including IPERS and employee stock ownership plans (ESOPs).

(8) Keogh plans or HR 10 plans.

(9) Eligible combined plans described in Internal Revenue Code Section 414(x).

b. Retirement income that does not qualify. Generally, distributions from retirement plans that do not meet the qualification requirements in the Internal Revenue Code do not qualify for the retirement income exclusion. The following nonexclusive list of plans do not qualify for the retirement income exclusion:

(1) Nonqualified deferred compensation plans described in Internal Revenue Code Section 409A.

(2) Nonqualified annuities.

302.47(2) Survivors having an insurable interest.

a. Insurable interest. “*Insurable interest*” is a term used in life insurance which also applies to this rule and is defined to be “such means an interest in the life of the person insured, arising from the relations of the party obtaining the insurance, either as credit of or surety for the assured insured, or from the ties of blood or marriage to him the insured, as would justify a reasonable expectation of advantage or benefit from the continuance of his the life of the insured.” *Warnock v. Davis*, 104 U.S. 775, 779, 26 L.Ed. 924; *Connecticut Mut. Life Ins. Co. v. Luchs*, 2 S.Ct. 949, 952, 108 U.S. 498, 27 L.Ed. 800; Appeal of Corson, 6 A. 213, 215, 113 Pa. 438, 57 Am. Rep. 479; *Adams’ Adm’r v. Reed*, Ky., 36 S.W. 568, 570; *Trinity College v. Travelers’ Co.*, 18 S.E. 175, 176, 113 N.C. 244, 22 L.R.A. 291; *Opitz v. Karel*, 95 N.W. 948, 951, 118 Wis. 527, 62 L.R.A. 982. It is not necessary that the expectation of advantage or profit should always be capable of pecuniary estimation, for a parent has an insurable interest in the life of his child, and a child in the life of his parent, a husband in the life of his wife, and a wife in the life of her husband. The natural affection in cases of this kind is considered as more powerful, as operating the more efficaciously, to protect the life of the insured than any other consideration, but in all cases there must be a reasonable ground, founded on relations to each other, either pecuniary or of blood or affinity, to expect some benefit or advantage from the continuance of the life of the assured. *Warnock v. Davis*, 104 U.S. 775, 26 L.Ed. 924; Appeal of Corson, 6 A. 213, 215, 113 Pa. 438, 57 Am. Rep. 479; *Connecticut Mut. Life Ins. Co. v. Luchs*, 2 S.Ct. 949, 952, 108 U.S. 498, 27 L.Ed. 800. For purposes of this rule, the term “insurable interest” applies to a beneficiary receiving retirement benefits due to the death of a decedent under the same circumstances as if the beneficiary were receiving life insurance benefits as a result of the death of the decedent. Case law related to an insurable interest in the life insurance context is relevant in determining whether a beneficiary is a survivor with an insurable interest.

b. Survivors with an insurable interest must be natural persons. Only natural persons may be a survivor with an insurable interest for purposes of this exclusion.

c. Parties deemed to have an insurable interest by relationship. Some relationships are deemed so close that the individual will have an insurable interest in the decedent. These are spouses in each others’ lives, parents in the lives of their children, and children in the lives of their parents.

REVENUE DEPARTMENT[701](cont'd)

d. Individuals other than close relations may be a survivor with an insurable interest. Individuals other than those with a relationship with the decedent described in paragraph 302.47(2)“b” must establish that they had a pecuniary interest in the continuation of the life of the decedent at the time of death to be considered a survivor with an insurable interest. The beneficiary has the burden of proof to show that the beneficiary had a reasonable expectation of an advantage or benefit that the beneficiary would have received with the continuance of the life of the decedent. Being named a beneficiary of the retirement plan alone does not establish that an individual is a survivor with an insurable interest.

EXAMPLE: A grandson was receiving college tuition regularly from his grandfather and received the grandfather’s pension as a beneficiary of the grandfather after the grandfather’s death. The grandson would be deemed to have an insurable interest in the benefits and would be eligible for the retirement income exclusion.

~~For purposes of this rule, the term “insurable interest” will be considered to apply to a beneficiary receiving retirement benefits due to the death of a pensioner or annuitant under the same circumstances as if the beneficiary were receiving life insurance benefits as a result of the death of the pensioner or annuitant.~~

~~For purposes of this rule, the term “survivor” is a person other than the surviving spouse of an annuitant or pensioner who is receiving the annuity or pension benefits because the person was a beneficiary of the pensioner or annuitant at the time of death of the pensioner or annuitant. In addition, in order for this person to qualify for the partial exclusion of pensions or retirement benefits, this survivor must have had an insurable interest in the pensioner or annuitant at the time of death of the annuitant or pensioner.~~

~~A survivor other than the surviving spouse will be considered to have an insurable interest in the pensioner or annuitant if the survivor is a son, daughter, mother, or father of the annuitant or pensioner. The relationship of these individuals to the pensioner or annuitant is considered to be so close that no separate pecuniary or monetary interest between the pensioner or annuitant and any of these relatives must be established.~~

~~A survivor may include relatives of the pensioner or annuitant other than those relatives that were mentioned above. However, before any of these relatives can be considered to be a survivor for purposes of this rule, the relative must have had some pecuniary interest in the continuation of the life of the pensioner or annuitant. That is, the relative must establish a relationship with the pensioner or annuitant that shows there was a reasonable expectation of an advantage or benefit which the person would have received with the continuance of the life of the pensioner or annuitant.~~

~~The fact that a niece of the pensioner or annuitant was named beneficiary of an uncle’s pension where the uncle had no closer relatives does not in itself establish that the niece had an insurable interest in the pension benefits, if the niece was not receiving monetary benefits or the niece did not have some special relationship to the uncle at the time of the uncle’s death.~~

~~If a grandson was receiving college tuition regularly from his grandfather and received the grandfather’s pension as a beneficiary of the grandfather after the grandfather’s death, the grandson would be deemed to have an insurable interest in the benefits and would be eligible for the partial retirement benefit exclusion.~~

~~A person who is not related to the pensioner or annuitant, such as a partner in a business or a creditor, may have an insurable interest in the pensioner or annuitant. However, the burden of proof is on a nonrelated person to show that the person had an insurable interest in the pensioner or the annuitant at the time of death of the pensioner or annuitant.~~

~~There are numerous court cases which deal with whether a person had established an insurable interest in the life of an individual that was insured. These cases may be used as a guideline to determine whether or not a person receiving a pension or annuity due to the death of an annuitant or pensioner had an insurable interest in the annuitant or pensioner at the time of death of the pensioner or annuitant. Thus, if a person would have met criteria for an insurable interest for purposes of an interest in a person’s life insurance policy, the person would also be considered to be qualified for an insurable interest in a pensioner or annuitant.~~

REVENUE DEPARTMENT[701](cont'd)

~~Retirement benefits subject to the retirement income exclusion include, but are not limited to: benefits from defined benefit or defined contribution pension and annuity plans, benefits from annuities, incomes from individual retirement accounts, benefits from pension or annuity plans contributed by an employer or maintained or contributed by a self-employed person and benefits and earnings from deferred compensation plans. However, the exclusion does not apply to social security benefits. A surviving spouse who is not disabled or is not 55 years of age or older can only exclude retirement benefits received as a result of the death of the other spouse and on the basis that the deceased spouse would have been eligible for the exclusion in the tax year. In order for a survivor other than the surviving spouse to qualify for the partial exclusion of retirement benefits, the survivor must have received the retirement benefits as a result of the death of a pensioner or annuitant who would have qualified for the exclusion in the tax year on the basis of age or disability. In addition, the survivor other than the surviving spouse would have had to have an insurable interest in the pensioner or annuitant at the time of the death of the pensioner or annuitant.~~

302.47(3) Disabled individuals. For purposes of this rule, a disabled individual is a person who is receiving benefits as a result of retirement from employment or self-employment due to disability. In addition, a person is considered to be a disabled individual if the individual is determined to be disabled in accordance with criteria established by the Social Security Administration or other federal or state governmental agency.

~~Note that the pension or other retirement benefits that are excluded from taxation for certain individuals are to be considered as a part of net income for purposes of determining whether or not a particular individual's income is low enough to exempt that taxpayer from tax. In addition, the pension or other retirement benefits that are excluded from taxation for certain individuals are to be considered as a part of net income for the alternative tax computation, which is available to all taxpayers except those taxpayers filing as single individuals.~~

~~Finally, the pension or other retirement benefits are to be considered as a part of net income for individuals using the single filing status whose tax liabilities are limited so the liabilities cannot reduce the person's net income plus exempt benefits below \$9,000, or below \$18,000 for taxpayers 65 years of age or older for the 2007 and 2008 tax years, or below \$24,000 for taxpayers 65 years of age or older for the 2009 and subsequent tax years.~~

~~This rule is intended to implement Iowa Code sections 422.5 and 422.7.~~

ITEM 4. Amend rule 701—302.80(422) as follows:

701—302.80(422) Exemption for military retirement pay. ~~For tax years beginning on or after January 1, 2014, retirement~~ Retirement pay received by taxpayers from the federal government for military service performed in the armed forces, armed forces reserves, or national guard is exempt from state income tax. In addition, amounts received by a surviving spouse, former spouse, or other beneficiary of a taxpayer who served in the armed forces, armed forces reserves, or national guard under the Survivor Benefit Plan are also exempt from state income tax ~~for tax years beginning on or after January 1, 2014.~~ The retirement pay is only deductible to the extent it is included in the taxpayer's federal adjusted gross taxable income.

302.80(1) Coordination with pension exclusion. The exclusion of retirement pay is in addition to the ~~partial~~ exclusion, provided in rule 701—302.47(422), of pensions and other retirement benefits for disabled individuals, individuals who are 55 years of age or older, surviving spouses and survivors. In addition, taxpayers who do not qualify for the exclusion in rule 701—302.47(422) and who receive retirement pay under federal law that combines retirement pay for both uniformed service and the federal civil service retirement system or federal employees' retirement system must prorate the retirement pay based on years of service.

EXAMPLE 1: A married individual who is 60 years of age receives \$20,000 of federal retirement pay from military service and \$30,000 in retirement pay from the Iowa public employees' retirement system during the 2014 tax year. The taxpayer can exclude \$20,000 of military retirement pay and \$12,000 as a pension exclusion under rule 701—302.47(422), for a total exclusion of \$32,000 on the taxpayer's Iowa individual income tax return for the 2014 tax year.

REVENUE DEPARTMENT[701](cont'd)

EXAMPLE 2: A single taxpayer who is 65 years of age receives \$60,000 as a federal pension during the 2014 tax year. The taxpayer has 20 years of military service and 27 years of civilian employment with the federal government. The military retirement pay portion is \$25,532 (20 years divided by 47 years multiplied by \$60,000). The taxpayer can exclude \$25,532 of military retirement pay and \$6,000 as a pension exclusion under rule 701—302.47(422), for a total exclusion of \$31,532 on the taxpayer's Iowa individual income tax return for the 2014 tax year.

EXAMPLE: A single taxpayer who is not disabled and is 50 years of age receives \$60,000 as a federal pension during the tax year. The taxpayer has 20 years of military service and 10 years of civilian employment with the federal government. The military retirement pay portion is \$40,000 (20 years, divided by 30 years, multiplied by \$60,000). The taxpayer can exclude \$40,000 of military retirement pay. The taxpayer may not exclude the \$20,000 of civilian retirement pay since it does not qualify for the exclusion in rule 701—302.47(422) because the taxpayer is under 55 years of age and is not disabled.

302.80(2) *Coordination with filing threshold and alternate tax.* The military retirement pay is excluded from the calculation of income used to determine whether an Iowa income tax return is required to be filed pursuant to 701—subrules 301.1(1) and 301.5(10) through 301.5(13). In addition, the military retirement pay is excluded from the calculation of the special tax computation for all low-income taxpayers except single taxpayers pursuant to rule 701—301.9(422) and is excluded from the calculation of the special tax computation for taxpayers who are 65 years of age or older under rule 701—301.15(422).

302.80(3) *Iowa withholding.* The amount of military retirement pay is excluded from the calculation of payments used to determine whether Iowa tax should be withheld from pension and annuity payments as determined pursuant to 701—subrule 307.3(4).

This rule is intended to implement Iowa Code sections 422.5 and 422.7 as amended by 2014 Iowa Acts, Senate File 303.

ITEM 5. Amend subrule 307.1(2) as follows:

307.1(2) *Withholding on pensions, annuities and other nonwage payments to Iowa residents.* State income tax is required to be withheld from payments of pensions, annuities, supplemental unemployment benefits and sick pay benefits and other nonwage income payments made to Iowa residents in those circumstances mentioned in the following paragraphs. This subrule covers those nonwage payments described in Sections 3402(o), 3402(p), 3402(s), 3405(a), 3405(b), and 3405(c) of the Internal Revenue Code. This includes, but is not limited to, payments from profit-sharing plans, stock bonus plans, deferred compensation plans, individual retirement accounts, lump-sum distributions from qualified retirement plans, other retirement plans, and annuities, endowments and life insurance contracts issued by life insurance companies. These payments are subject to Iowa withholding tax if they are also subject to federal withholding tax. However, no state income tax withholding is required from nonwage payments to residents to the extent those payments are not subject to state income tax. ~~See paragraph 307.1(2)“h” for threshold amounts for withholding from payments of pensions, annuities, individual retirement accounts, deferred compensation plans, and other retirement incomes which are made on or after January 1, 2001.~~ In the case of some nonwage payments to residents, such as payments of pensions and annuities, no state income tax is required to be withheld if no federal income tax is being withheld from the payments of the pensions and annuities. ~~The rate of withholding on the nonwage payments described in this subrule is 5 percent of the payment amounts or 5 percent of the taxable amounts unless specified otherwise.~~

For purposes of this subrule, an individual receiving nonwage payments will be considered to be an Iowa resident and subject to this subrule if the individual's permanent residence is in Iowa. The fact that a nonwage payment is deposited in a recipient's account in a financial institution located outside Iowa does not mean that the recipient's permanent residence is established in the place where the financial institution is situated.

Payers of pension and annuity benefits and other nonwage payments have the option of either withholding Iowa income tax from these payments on the basis of tables and formulas included in the Iowa withholding tax guide of the department of revenue or withholding Iowa income tax from these

REVENUE DEPARTMENT[701](cont'd)

payments at the rate of 5 percent. ~~State income tax is required to be withheld by payers in situations when federal income tax is being withheld from the nonwage payments.~~

a. Withholding from pension and annuity payments to residents. Withholding of state income tax is required from payments of pensions and annuities to Iowa residents to the extent that the recipients of the payments have not filed with the payers of the benefits election forms which specify that no federal income tax is to be withheld. Therefore, state income tax is to be withheld when federal income tax is being withheld from the pensions or annuities. ~~See paragraph 307.1(2)“h” for threshold amounts for withholding from payments of pensions, annuities, and other retirement incomes which are made on or after January 1, 2001.~~

However, although Iowa income tax is ordinarily required to be withheld from pension and annuity payments made to Iowa residents if federal income tax is being withheld from the payments, no state income tax is required to be withheld if pension and annuity payments are not subject to Iowa income tax, as in the case of railroad retirement benefits which are exempt from Iowa income tax by a provision of federal law or retirement distributions subject to the retirement income exclusion described in rule 701—302.47(422).

b. Withholding from payments to residents from profit-sharing plans, stock bonus plans, deferred compensation plans, individual retirement accounts and from annuities, endowments and life insurance contracts issued by life insurance companies. Payments to Iowa residents from profit-sharing plans, stock bonus plans, deferred compensation plans, individual retirement accounts and payments from life insurance companies for contracts for annuities, endowments or life insurance benefits are subject to withholding of state income tax if federal income tax is withheld from the benefits. However, no state income tax is to be withheld from the income tax payments described above to the extent those income tax payments are exempt from Iowa income tax. ~~See paragraph 307.1(2)“h” for thresholds for withholding from payments of pensions, annuities, individual retirement accounts, deferred compensation plans, and other retirement incomes which are made on or after January 1, 2001.~~ Rule 701—302.47(422) provides more information about the retirement income exclusion.

In cases where the recipients elect withholding of state income tax from the income payments, the payers are to withhold from the payments at a rate of 5 percent on the taxable portion of the payment, if that can be determined by the payer or on the entire income payment if the payer does not know how much of the payment is taxable. Once a recipient makes an election for state income tax withholding, that election will remain in effect until a later election is made.

c. Withholding from payments to residents for supplemental unemployment compensation benefits and sick pay benefits. Income payments made for supplemental unemployment compensation benefits described in Section 3402(o)(2)(a) of the Internal Revenue Code and for sick pay benefits are subject to withholding of state income tax. In the case of supplemental unemployment compensation benefits, those benefits are treated as wages for purposes of state income tax withholding. Therefore, state income tax should be withheld from these payments when federal income tax is withheld. The amount of state income tax withholding should be determined by the withholding tables provided in the Iowa employers’ “Withholding Tax Guide.”

In the case of state income tax withholding for sick pay benefits paid by third-party payers in accordance with Section 3402(o)(1) of the Internal Revenue Code, state income tax is to be withheld from the benefits by the payer only if state income tax withholding is requested by the payee of the benefits. ~~However, payees of sick pay benefits should probably not request withholding from the benefits if the payees are eligible for the disability income exclusion authorized in Iowa Code section 422.7 and described in rule 701—302.22(422).~~ If withholding is requested by the payee, the withholding should be done at a 5 percent rate on the sick pay benefits. Once withholding is started, it should continue until such time as the payee requests that no state income tax be withheld. For sick pay benefits not paid by third-party payers, state income tax is required to be withheld since federal income tax is required to be withheld.

d. Voluntary state income tax withholding from unemployment benefit payments. Recipients of unemployment benefit payments described in Section 3402(p)(2) of the Internal Revenue Code may elect to have state income tax withheld from the benefit payments at a rate of 5 percent. An individual’s

REVENUE DEPARTMENT[701](cont'd)

election to have state income tax withheld from unemployment benefits is separate from any election to have federal income tax withheld from the benefits.

e. Withholding on lump-sum distributions from qualified retirement plans. For lump-sum distribution payments from qualified retirement plans made to Iowa residents, state income tax is required to be withheld under the conditions described in this paragraph. No state income tax is required to be withheld from a lump-sum distribution payment to an Iowa resident in a situation where the payment is not subject to Iowa income tax. ~~See paragraph 307.1(2)“h” for thresholds for withholding on lump-sum distributions issued on or after January 1, 2001.~~ Rule 701—302.47(422) provides more information about the retirement income exclusion. Iowa income tax is to be withheld from a lump-sum distribution made to an Iowa resident to the extent that federal income tax is being withheld from the distribution. The rate of withholding of state income tax from the lump-sum distribution is 5 percent from the total distribution or 5 percent from the taxable amount if that amount is known by the payer. Note that in the case of a lump-sum distribution, the Iowa income tax imposed on the taxable amount of the distribution is 25 percent of the federal income tax on the distribution.

f. Withholding of state income tax from nonwage payments to residents on the basis of tax tables and tax formulas. State income tax from the nonwage payments made to Iowa residents may be withheld on the basis of formulas and tables included in the Iowa withholding tax guide of the department of revenue. ~~See paragraph 307.1(2)“h” for threshold amounts for withholding from payments of pensions, annuities, individual retirement accounts, deferred compensation plans, and other retirement incomes which are made on or after January 1, 2001.~~ When state income tax is being withheld based upon the formulas or tables in the withholding guide, the amounts of the nonwage payments are treated as wage payments for purposes of the tables or the formulas.

The frequency of the nonwage payments determines which of the withholding tables to use or the number of pay periods in the calendar year to use in the formula. For example, if the nonwage payment is made on a monthly basis, the monthly wage bracket withholding table should be utilized for withholding or 12 should be utilized in the formula to indicate that there will be 12 nonwage payments in the year.

The payers of nonwage payments should withhold state income tax from the nonwage payments to Iowa residents when federal income tax is being withheld from the nonwage payments. The payers should withhold from the nonwage payments to Iowa residents from tables or the formulas in the Iowa withholding guide on the basis of the number of withholding exemptions claimed on Form IA W-4 which has been completed by the payees of the payments. However, if a payee of a nonwage payment has not completed an IA W-4 form (Iowa employee's withholding allowance certificate) by the time a nonwage payment is to be made by the payer of the nonwage payment, the payer is to withhold state income tax on the basis that the payee has claimed one withholding allowance or exemption.

In a situation when a payee of a nonwage payment completes Form IA W-4 and claims exemption from state income tax withholding when federal income tax is being withheld from the nonwage payment, the payer of the nonwage payment should withhold state income tax using one withholding allowance or exemption unless the payee has verified exemption from state income tax.

g. Withholding on distributions from qualified retirement plans that are not directly rolled over. ~~State~~ Other than distributions to payees who qualify for the retirement income exclusion, state income tax is to be withheld at a rate of 5 percent from the gross amount or taxable amount if known by the payer of the distribution made to Iowa residents if the distributions are not transferred directly to an IRA, Section 403(a) annuity or another qualified retirement plan. The distributions that are subject to state income tax withholding are those distributions that are subject to 20 percent withholding for federal income tax purposes. ~~See paragraph 307.1(2)“h” for thresholds for withholding from payments of pensions, annuities, individual retirement accounts, deferred compensation plans, and other retirement plans which are made on or after January 1, 2001.~~ Rule 701—302.47(422) provides more information about the retirement income exclusion.

h. ~~Withholding from distributions made on or after January 1, 2001, from pensions, annuities, individual retirement accounts, deferred compensation plans, and other retirement plans.~~ Effective for distributions made on or after January 1, 2001, from pension plans, annuities, individual retirement accounts, deferred compensation plans, and other retirement plans, state income tax is generally required

REVENUE DEPARTMENT[701](cont'd)

to be withheld from the distributions when federal income tax is being withheld from the distributions, unless one of the exceptions for withholding in this paragraph applies. For purposes of this paragraph, the term “pensions and other retirement plans” includes all distributions of retirement benefits covered by the partial exemption described in rule 701—302.47(422).

State income tax is not required to be withheld from a distribution from a pension or other retirement plan if the distribution is an income which is not subject to Iowa income tax, such as a distribution of railroad retirement benefits. State income tax is also not required to be withheld from a pension plan or other retirement plan if the amount of the distribution is \$500 per month or less or if the taxable amount is \$500 or less and the person receiving the distribution is eligible for the partial exemption of retirement benefits described in rule 701—302.47(422), if the state taxable amount can be determined by the payee of the distribution. There is also no requirement for withholding state income tax from a pension or other retirement plan if the distribution is \$1,000 per month or less or if the taxable amount is \$1,000 or less and the person receiving the distribution is eligible for the partial exemption of retirement benefits described in rule 701—302.47(422) and that person has indicated an intention to file a joint state income tax return for the year in which the distribution is made. In instances where the distribution amount or the taxable amount is more than \$500 per month but less than \$6,000 for the year, no state income tax will be required to be withheld, if the person receiving the distribution is eligible for the partial exemption of retirement benefits.

Finally, there is no requirement for withholding from a lump sum payment from a qualified retirement plan if the lump sum payment is \$6,000 or less, the recipient is eligible for the partial exemption of distributions from pensions and other retirement plans, and the lump sum payment is the only distribution from the retirement plan in the year.

ITEM 6. Amend rule **701—307.1(422)**, implementation sentence, as follows:

This rule is intended to implement Iowa Code sections 96.3, ~~99B.24~~ 99B.8, 99D.16, 99E.19, 99F.18, 99G.31, 422.5, 422.7, and 422.16.

ITEM 7. Amend subrule 307.3(5) as follows:

307.3(5) *Iowa W-4P—withholding certificate for pension or annuity payments.*

a. For payments made from pension plans, annuity plans, individual retirement accounts, or deferred compensation plans to residents of Iowa, payers of these retirement benefits are to use Form IA W-4P for withholding of state income tax from the benefits. Generally, state income tax is required to be withheld from payments of distributions from the retirement incomes described above when federal income tax is being withheld from the payments. However, no state income tax is required to be withheld to the extent the monthly payment amount is \$500 or less or the taxable amount per month is \$500 or less if the payee is eligible for the retirement benefits exclusion described in rule 701—302.47(422). In addition, no state income tax is required to be withheld to the extent the monthly payment amount is \$1,000 or less or the taxable amount per month is \$1,000 or less if the payee is married and eligible for the retirement benefits exclusion described in rule 701—302.47(422). Iowa income tax withholding is not required on payments of distributions from qualifying retirement plans if the payee is eligible for the retirement income exclusion described in rule 701—302.47(422). However, withholding at a rate of 5 percent is required if the payee is not eligible for the retirement income exclusion or if the distribution is from a plan that does not qualify for the retirement income exclusion.

b. Form IA W-4P is available from the department for payers of retirement benefits that intend to withhold at a rate of 5 percent from the payment amount or taxable payment amount after the \$6,000 to \$12,000 exclusion is considered. Note that the \$6,000 to \$12,000 exclusion is to be allocated to all retirement benefit payments made in the year and not just the first \$6,000 to \$12,000 in payments made in the year to an individual. If an individual receives retirement benefits and has not completed Form IA W-4P, the payer is directed to withhold Iowa income tax from the retirement benefit payment after a \$6,000 exclusion is allowed on an annual basis.

c. b. Payers of retirement benefits taxable in Iowa that want to use withholding formulas or tables to withhold state income tax instead of at the 5 percent rate may design their own IA W-4P withholding certificate form without approval of the department.

REVENUE DEPARTMENT[701](cont'd)

~~d.—The payers are not responsible for improper choices made by a payee in completion of the IA W-4P. However, payers cannot accept a request for exemption from the withholding of state income tax made by a payee if federal income tax is being withheld unless the payee is eligible for exemption from withholding.~~

ARC 7107C

WORKFORCE DEVELOPMENT BOARD AND WORKFORCE DEVELOPMENT CENTER ADMINISTRATION DIVISION[877]

Notice of Intended Action

Proposing rulemaking related to regional industry sector partnerships and providing an opportunity for public comment

The Workforce Development Board and Workforce Development Center Administration Division hereby proposes to amend Chapter 7, “Iowa Workforce Investment Act Program,” Iowa Administrative Code.

Legal Authority for Rulemaking

This rulemaking is proposed under the authority provided in Iowa Code chapter 17A and Iowa Code section 84A.15 as transferred by 2023 Iowa Acts, Senate File 514.

State or Federal Law Implemented

This rulemaking implements, in whole or in part, Iowa Code chapter 17A and Iowa Code section 84A.15 as transferred by 2023 Iowa Acts, Senate File 514.

Purpose and Summary

As part of the Workforce Development Department’s review of rules under Executive Order 10, the Department identified several instances where current rule 877—7.25(260H) duplicates statutory language and uses restrictive terms. Therefore, this rule is proposed to be rescinded.

Fiscal Impact

This rulemaking has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rulemaking, no impact on jobs has been found.

Waivers

Any person who believes that the application of the discretionary provisions of this rulemaking would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any.

Public Comment

Any interested person may submit written or oral comments concerning this proposed rulemaking. Written or oral comments in response to this rulemaking must be received by the Department no later than 4:30 p.m. on November 21, 2023. Comments should be directed to:

WORKFORCE DEVELOPMENT BOARD AND WORKFORCE DEVELOPMENT CENTER
ADMINISTRATION DIVISION[877](cont'd)

Brooke Axiotis
Iowa Workforce Development
1000 East Grand Avenue
Des Moines, Iowa 50319
Phone: 515.802.9425
Email: brooke.axiotis@iwd.iowa.gov

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10 to 11 a.m.

Capitol View Room
1000 East Grand Avenue
Des Moines, Iowa

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department and advise of specific needs by calling 515.414.6800 or via email at april.stotz@iowa.gov at least 48 hours prior to the hearing date.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rulemaking by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rulemaking at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

The following rulemaking action is proposed:

ITEM 1. Rescind and reserve rule **877—7.25(260H)**.

ARC 7108C

**WORKFORCE DEVELOPMENT BOARD AND WORKFORCE
DEVELOPMENT CENTER ADMINISTRATION DIVISION[877]**

Notice of Intended Action

**Proposing rulemaking related to work-based learning
and providing an opportunity for public comment**

The Workforce Development Board and Workforce Development Center Administration Division hereby proposes to rescind Chapter 31, "Statewide Work-Based Learning Intermediary Network," Iowa Administrative Code.

Legal Authority for Rulemaking

This rulemaking is proposed under the authority provided in Iowa Code chapter 17A and Iowa Code section 84A.16 as transferred by 2023 Iowa Acts, Senate File 514.

State or Federal Law Implemented

This rulemaking implements, in whole or in part, Iowa Code chapter 17A and Iowa Code section 84A.16 as transferred by 2023 Iowa Acts, Senate File 514.

Purpose and Summary

WORKFORCE DEVELOPMENT BOARD AND WORKFORCE DEVELOPMENT CENTER
ADMINISTRATION DIVISION[877](cont'd)

As part of the Workforce Development Department's review of rules under Executive Order 10, the Department identified several instances where the current chapter duplicates statutory language and uses restrictive terms. Therefore, Chapter 31 is proposed to be rescinded.

Fiscal Impact

This rulemaking has no fiscal impact to the State of Iowa.

Jobs Impact

After analysis and review of this rulemaking, no impact on jobs has been found.

Waivers

Any person who believes that the application of the discretionary provisions of this rulemaking would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any.

Public Comment

Any interested person may submit written or oral comments concerning this proposed rulemaking. Written or oral comments in response to this rulemaking must be received by the Department no later than 4:30 p.m. on November 21, 2023. Comments should be directed to:

Brooke Axiotis
Iowa Workforce Development
1000 East Grand Avenue
Des Moines, Iowa 50319
Phone: 515.802.9425
Email: brooke.axiotis@iwd.iowa.gov

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 to 10 a.m.

Capitol View Room
1000 East Grand Avenue
Des Moines, IA

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department and advise of specific needs by calling 515.414.6800 or via email at april.stotz@iowa.gov at least 48 hours prior to the hearing date.

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rulemaking by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rulemaking at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

The following rulemaking action is proposed:

ITEM 1. Rescind and reserve **877—Chapter 31**.

ARC 7103C

REVENUE DEPARTMENT[701]

Adopted and Filed

Rulemaking related to capital gain exclusion

The Revenue Department hereby amends Chapter 302, “Determination of Net Income,” Iowa Administrative Code.

Legal Authority for Rulemaking

This rulemaking is adopted under the authority provided in Iowa Code sections 421.14 and 422.68.

State or Federal Law Implemented

This rulemaking implements, in whole or in part, Iowa Code section 422.7.

Purpose and Summary

Pursuant to Part IV of Executive Order 10, the Department was directed to propose Notice of Intended Action **ARC 7051C** to implement, in part, 2022 Iowa Acts, House File 2317. The Department now adopts this rulemaking to provide guidance as to how and when an employee-owner may make an election to exclude capital gain from the sale of qualifying capital stock in a qualifying corporation. The legislation allowed employee-owners of a qualified corporation to exclude the capital gain from the sale of qualifying capital stock.

Public Comment and Changes to Rulemaking

Notice of Intended Action for this rulemaking was published in the Iowa Administrative Bulletin on July 26, 2023, as **ARC 7051C**.

A comment was received asking questions about how the deduction worked. These questions were already covered by the statute or rule and were answered directly.

No changes from the Notice have been made.

Adoption of Rulemaking

This rulemaking was adopted by the Department on October 4, 2023.

Fiscal Impact

This rulemaking has no known fiscal impact to the State of Iowa beyond that of the legislation it is intended to implement. The Department projects that the stock capital gain income tax exclusion will reduce tax liability and General Fund revenue by the following amounts: FY 2024 = \$4.0 million; FY 2025 = \$7.6 million; FY 2026 = \$10.3 million; FY 2027 = \$9.0 million; FY 2028 = \$9.5 million. Fiscal impacts beyond FY 2028 are projected to continue, increasing each year at the rate of inflation.

Jobs Impact

After analysis and review of this rulemaking, no impact on jobs has been found.

Waivers

Any person who believes that the application of the discretionary provisions of this rulemaking would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to rule 701—7.28(17A).

Review by Administrative Rules Review Committee

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rulemaking by executive branch agencies, may, on its own motion or on written request by any individual

REVENUE DEPARTMENT[701](cont'd)

or group, review this rulemaking at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

Effective Date

This rulemaking will become effective on December 6, 2023.

The following rulemaking action is adopted:

ITEM 1. Adopt the following **new** rule 701—302.41(422):

701—302.41(422) Capital gain exclusion for elected employee-owned stock in a qualified corporation.

302.41(1) *In general.* Employee-owners may make a single, irrevocable lifetime election to exclude from net income the net capital gain from the sale or exchange of capital stock from a qualified corporation at the following rates:

- a. For tax years beginning in the 2023 calendar year, 33 percent.
- b. For tax years beginning in the 2024 calendar year, 66 percent.
- c. For tax years beginning on or after January 1, 2025, 100 percent.

302.41(2) *Definitions.* Unless otherwise indicated in this rule or required by the context, all words and phrases used in this rule that are defined under Iowa Code section 422.7(43) shall have the same meaning as provided to them under that Iowa Code section.

302.41(3) *Qualifying for the exclusion.* For the employee-owner's sale or exchange to qualify for the exclusion in this rule, the capital stock must be acquired by the employee-owner while employed and on account of employment with a qualified corporation.

a. *While employed.* The capital stock must have been acquired while the employee-owner was employed by the qualifying corporation. Capital stock received as compensation is acquired by the employee-owner while employed. Capital stock acquired from a stock right, stock warrant, or stock option is only acquired by the employee-owner while employed if such right, warrant, or option is exercised while the employee-owner is employed by the qualifying corporation.

b. *On account of employment.* For capital stock to have been acquired on account of employment, the employee-owner must have acquired the capital stock in a manner only available to employees of the qualified corporation. Capital stock acquired at formation in exchange for capital contribution is not acquired on account of employment.

c. *Holding period.* To qualify for the exclusion, the employee-owner must own the capital stock for at least ten cumulative years. If the employee-owner owns any capital stock in the qualified corporation for at least ten cumulative years, then every share of the employee-owner's capital stock in that qualified corporation is considered to meet the holding period requirement. For stock rights, stock warrants, or stock options, the holding period does not begin until the right, warrant, or option is exercised.

302.41(4) *Electing capital stock for exclusion.*

a. *General rule.* The employee-owner shall make the election to exclude capital gain from the sale of capital stock of a qualified corporation on a form prescribed by the department with the employee-owner's original Iowa income tax return for the tax year in which the election is made. The form shall be available on the department's website. To qualify for the exclusion, the employee-owner must include all information required by the form.

b. *Election when sale or exchange takes place over multiple transactions.* The election applies to all subsequent sales or exchanges of capital stock of the same qualified corporation of which the initial election was made, within 15 years of the date the election was made. The employee-owner shall include the form prescribed by the department with the employee-owner's Iowa income tax return when claiming the exclusion for a subsequent sale or exchange.

REVENUE DEPARTMENT[701](cont'd)

c. The election can only be made once. An employee-owner may only make one lifetime election to exclude the qualifying capital stock of a single qualifying corporation under this rule. The election is irrevocable once made.

302.41(5) Election by a party other than the employee-owner.

a. Election upon death of the employee-owner. If the employee-owner dies after having sold or exchanged qualifying capital stock without having made an election, the surviving spouse or, if there is no surviving spouse, the personal representative of the employee-owner's estate may make a qualifying election in the manner described in subrule 302.41(4) for the tax year in which the employee-owner died.

b. Inter vivos transfer of qualifying capital stock. After the election described in this rule has been made, the election applies to capital stock transferred from the employee-owner to the employee-owner's spouse as an inter vivos gift or to an inter vivos trust primarily for the benefit of the employee-owner's spouse. Capital stock transferred through a will or testamentary trust does not qualify for this exclusion. The election only applies if the spouse was married to the employee-owner on the date of the sale or exchange or the date of death of the employee-owner.

This rule is intended to implement Iowa Code section 422.7.
