(3) Familiarize the intern in the areas specified by the preceptor training outline;

(4) Read, add appropriate comments to, and sign each of the 25 embalming reports and the 25 funeral directing reports completed by the intern;

(5) Complete a written six-month report of the intern on a form provided by the board. This report is to be reviewed with and signed by the intern and submitted to the board before the end of the seventh month; and

(6) At the end of the internship, complete a confidential evaluation of the intern on a form provided by the board. This evaluation will be submitted within two weeks of the end of the internship. The 12-month report will be submitted to the board for review and approval prior to the board's approval of the intern for licensure.

f. Failure of a preceptor to fulfill the requirements set forth by the board, including failure to remit the required six-month progress report, as well as the final evaluation, will result in an investigation of the preceptor by the board and may result in actions which may include, but not be limited to, the loss of preceptor status for current and future interns or discipline or both.

g. If a preceptor does not serve the entire year, the board will evaluate the situation; and if a certified preceptor is not available, a licensed funeral director may serve with the approval of the board.

h. No licensed funeral director or licensed funeral establishment will have more than one intern funeral director for the first 100 human remains embalmed or funerals conducted per year, and with a maximum of two interns per funeral establishment.

i. With prior board approval, an intern may serve under the supervision of more than one preceptor under the following terms and conditions:

(1) A single preceptor must act in the role of the primary preceptor.

(2) The primary preceptor is responsible for coordinating all intern training and activities.

(3) The intern will be a full-time employee of the funeral establishment of the primary preceptor; however, compensation may be shared between preceptors.

(4) The primary preceptor may make arrangements with a maximum of two additional preceptors to share preceptor responsibilities for such purposes as providing an intern with a higher-volume practice or a broader range of intern experiences.

(5) Each preceptor will be individually responsible for directly supervising the intern's activities performed under the preceptor's guidance, but the primary preceptor remains responsible for coordinating the intern's activities and submitting all forms to the board.

101.3(3) Intern training requirements.

a. The board-approved preceptor will ensure that the intern is knowledgeable of each of the following items during the internship:

(1) The requirements of the Federal Trade Commission Funeral Rule.

(2) The requirements of the Occupational Safety and Health Act.

(3) The requirements of the Americans with Disabilities Act.

(4) The benefits of the Social Security and Veterans Health Administrations.

(5) The requirements of Iowa funeral law and forms (for example, preneed in Iowa Code chapter 523A, death certificates and Iowa burial transit permits in Iowa Code chapter 144, authorized person in Iowa Code chapter 144C, Iowa department of public health's law and rules governing funeral practice, and the board's laws and rules).

b. The board-approved preceptor will ensure that the intern performs each of the following under the preceptor's direct supervision:

(1) Assists with or performs a minimum of 10 transfers of human remains.

(2) Performs 25 embalming of human remains to include:

1. Obtaining permission to embalm.

2. Placement of human remains on preparation table.

3. Pre-embalming analysis.

4. Primary disinfection.

5. Setting features.
6. Selection of injection/drainage sites and raising those vessels.
7. Selection and mixing of embalming chemicals and operation of the embalming machine.
8. Injection and drainage methods.
9. Cavity treatment.
10. Suturing techniques.
- (3) Prepares a minimum of 10 human remains for viewing to include:
 1. Dressing.
 2. Cosmetizing.
 3. Casketing.
- (4) Assists with cremation procedures to include:
 1. Contacting the medical examiner.
 2. Completing required cremation forms.
 3. Preparing human remains for cremation.
- (5) Makes complete funeral arrangements with a minimum of 10 families to include each of the following, as applicable:
 1. Presentation of funeral goods, products and services.
 2. Presentation of payment options for families.
 3. Contacting third-party suppliers of goods and services, such as clergy, cemetery personnel, outer burial container provider, cremation establishment, florist, and musicians.
 4. Completing the obituary.
 5. Presentation of general price list and associated price lists.
 6. Preparation and presentation of statement of funeral goods and services.
- (6) Coordinates, at a minimum, 10 visitations to include:
 1. Preparing the chapel, visitation room or other facility.
 2. Setting up floral arrangements.
 3. Setting up register book and memorial folders or prayer cards.
- (7) Directs a minimum of 25 funerals or memorial services to include, as applicable:
 1. Greeting funeral attendees.
 2. Assisting casket bearers.
 3. Preparing for funeral procession.
 4. Driving a vehicle in procession.
 5. Assisting at graveside committal.
 6. Transporting flowers.
 7. Coordinating with officiant and family.

645—101.4(156) Student practicum.

101.4(1) A student may participate in a student practicum in a licensed funeral establishment in Iowa if the student's school is accredited by and in good standing with the American Board of Funeral Service Education (ABFSE). The student practicum must meet the requirements of the ABFSE.

101.4(2) Students serving a practicum in Iowa will be under the direct physical supervision of a funeral director who meets the following requirements:

- a. Has completed the Iowa preceptor training course within the immediately preceding five years.
- b. Has not had any formal disciplinary action within the past five years.
- c. Is affiliated with a funeral establishment that has not had formal disciplinary action within the past five years.

645—101.5(156) Funeral establishment license or cremation establishment license.

101.5(1) A place of business devoted to providing any aspect of mortuary science or cremation services will hold an establishment license issued by the board. An establishment license will not be issued more than 30 days prior to the opening of a new establishment.

- a.* A funeral establishment or a cremation establishment will not be operated until it has obtained a license from the board. Each establishment will timely renew the license in order to continue operations.
- b.* A funeral or cremation establishment will surrender its license to the board if the establishment fails to engage in or ceases to engage in the business for which the license was issued, pursuant to Iowa Code section 156.15(2)“*d.*”
- c.* A funeral or cremation establishment license is not transferable or assignable.
- d.* A change in ownership will require the issuance of a new license. A change in ownership will be reported to the board prior to the date ownership will change or, in the case of change of ownership by death or other unexpected event, within 30 days following change of ownership. The board may request legal proof of the ownership transfer.
- e.* An establishment license will be issued for a specific physical location. A change in location or site of an establishment will require the submission of an application for a new license and payment of the fee required by 645—subrule 5.9(9). A new establishment license must be issued prior to the commencement of business in a new location.
- f.* A change in the name of an establishment will be reported to the board within 30 days. The establishment owner will pay the fee for reissuing the license.
- g.* A change in address or of the funeral director in responsible charge will be reported to the board within 30 days.
- h.* An establishment will have an employment or other relationship with one or more licensed funeral directors who will perform all mortuary science services for which licensure as a funeral director is required by Iowa Code chapter 156. A cremation establishment is not, however, required to employ or contract with a funeral director on an ongoing basis because a cremation establishment will not offer services directly to the general public. When a funeral establishment has an employment or other relationship with multiple funeral directors, the funeral establishment will designate the funeral director who will be in responsible charge of all mortuary science services performed at the funeral establishment. The funeral establishment will report to the board any change of the funeral director in responsible charge within 30 days of the change.
- i.* The board will not routinely issue more than one establishment license for a single location, but the board may do so if the multiple applicants provide proof, satisfactory to the board, that the establishments are wholly separate except for the sharing of facilities. If the board issues more than one establishment license for a single location, the licensees will ensure that the public will not be confused or deceived as to the establishment with which the public is interacting. A facility may have a funeral establishment license and a separate cremation establishment license at a single location.
- j.* The establishment license will be displayed in a conspicuous place at the location of the establishment.
- k.* Failure to comply with any of these rules will constitute grounds for discipline pursuant to 645—Chapter 104 or civil penalties for unlicensed practice pursuant to 645—Chapter 105.

101.5(2) A funeral establishment or cremation establishment will be subject to applicable local, state and federal health and environmental requirements and will obtain all necessary licenses and permits from the agencies with jurisdiction.

101.5(3) License application. Complete an online application on the Iowa board of mortuary science website and pay the nonrefundable funeral or cremation application fee. If there is both a funeral establishment and a cremation establishment at the same location, two establishment license applications will be required, along with the payment of two establishment application fees. The application will contain all of the following:

- a.* The name, mailing address and telephone number of the applicant.
- b.* The physical location of the establishment.
- c.* The mailing address, telephone number, fax number and email address of the establishment.
- d.* The name, home address and telephone number of the individual in charge who has the authority and responsibility for the establishment’s compliance with laws and rules pertaining to the operation of the establishment.

- e.* The name and address of all owners and managers of the establishment (e.g., sole proprietor, partner, director, officer, managing partner, member, or shareholder with 10 percent or more of the stock).
- f.* The legal name of the establishment and all trade names, assumed names, or other names used by the establishment.
- g.* The signature of the responsible authority at the site of the establishment and an acknowledgment of the funeral director in responsible charge of mortuary science services at the funeral establishment that the funeral director is aware of and consents to the designation.
- h.* The names and license numbers of all funeral directors employed by or associated with the establishment through contract or otherwise who provide mortuary science services at or for the establishment. When a funeral establishment has an employment or other relationship with multiple funeral directors, the funeral establishment will designate the funeral director who will have responsible charge of all mortuary science services performed at the funeral establishment. No funeral establishment will be issued a license if it fails to designate the funeral director in responsible charge of the mortuary science services to be performed at the establishment.
- i.* All felony or misdemeanor convictions of the applicant and all owners and managing officers of the applicant (except minor traffic offenses with fines of less than \$500).
- j.* All disciplinary actions against any professional or occupational license of the applicant by any jurisdiction including, but not limited to, disciplinary action by the Iowa insurance division under Iowa Code chapter 523A or 523I, or action by the Federal Trade Commission.
- k.* Further information that the board may reasonably require, such as whether the establishment includes a preparation room.

645—101.6(156) Renewal of funeral director license.

101.6(1) The biennial license renewal period for a license to practice as a funeral director will begin on the sixteenth day of the licensee's birth month and end on the fifteenth day of the licensee's birth month two years later. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

101.6(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The licensee will be required to complete a minimum of 24 hours of continuing education per biennium for each subsequent license renewal, with 2 of the 24 hours covering current Iowa law and rules as identified in 645—paragraph 102.3(2)“f.”

101.6(3) A licensee seeking renewal will:

- a.* Meet the continuing education requirements of rule 645—102.2(272C). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and
- b.* Complete an online renewal application on the board of mortuary science website and pay the renewal fee before the license expiration date.
- c.* Persons licensed to practice funeral directing will keep their renewal licenses displayed in a conspicuous public place at the primary site of practice.

101.6(4) Upon receiving the information required by this rule and the required fee, board staff will administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

101.6(5) A person licensed to practice as a funeral director will keep the license certificate displayed in a conspicuous public place at the primary site of practice.

101.6(6) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 645—subrule 5.14(4). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

101.6(7) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a funeral director in Iowa until the license is reactivated. A licensee who practices as a funeral director in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—101.7(272C) Renewal of a funeral establishment license or a cremation establishment license.

101.7(1) Renewal.

- a. The renewal cycle will be triennial beginning July 1 and ending on June 30 of the third year.
- b. The renewal will be to complete an online renewal application on the Iowa board of mortuary science website and pay the renewal fee.

101.7(2) Failure to receive notice from the board will not relieve the license holder of the obligation to pay triennial renewal fees on or before the renewal date.

101.7(3) Funeral and cremation establishments will keep their renewal licenses displayed in a conspicuous public place at the primary site of practice.

101.7(4) Late renewal. If the renewal fee and renewal application are received within 30 days after the license renewal expiration date, the late fee for failure to renew before expiration will be charged.

101.7(5) When all requirements for license renewal are met, the licensee will be sent a license renewal card by email.

645—101.8(272C) Inactive funeral establishment license or cremation establishment license.

101.8(1) If the renewal application and fee are not postmarked within 30 days after the license expiration date, the funeral establishment license or cremation establishment license is inactive. To reactivate a funeral establishment license or cremation establishment license, complete an online reactivation application on the Iowa board of mortuary science website and pay the reactivation fee.

101.8(2) A funeral establishment or a cremation establishment that has not renewed the funeral establishment license or cremation establishment license within the required time frame will have an inactive license and will not provide mortuary science services until the license is reactivated.

645—101.9(17A,147,272C) Reinstatement of a funeral establishment license or a cremation establishment license. For a funeral or cremation establishment license that has been revoked, suspended, or voluntarily surrendered, the owner must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—101.9(272C) prior to offering mortuary science services from that establishment in this state.

645—101.10(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee will:

101.10(1) Complete an online reactivation application on the Iowa board of mortuary science website and pay the reactivation fee.

101.10(2) Provide verification of current competence to practice as a funeral director by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) If licensed in another jurisdiction, the applicant will submit a licensure verification document from every jurisdiction the applicant is or has been licensed that discloses if disciplinary action was taken.

(2) Verification of completion of 24 hours of continuing education that meet continuing education standards defined in rule 645—102.3(156,272C) within two years prior to filing the application for reactivation; and

(3) Verification of completion of 2 hours of continuing education in current Iowa law and rules covering mortuary science content areas including, but not limited to, Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed. These 2 hours will be included as a part of the 24 hours required in subparagraph 101.11(3)“a”(2).

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) If licensed in another jurisdiction, the applicant will submit a licensure verification document from every jurisdiction the applicant is or has been licensed that discloses if disciplinary action was taken.

(2) Verification of completion of 48 hours of continuing education that meet continuing education standards defined in 645—subrule 102.3(1) and 645—paragraphs 102.3(2)“a,” “b,” “c,” and “e,” within two years prior to filing the application for reactivation. Independent study identified in 645—paragraph 102.3(2)“f” will not exceed 24 hours of the 48 hours; and

(3) Verification of completion of a college course of at least one semester hour or equivalent in current Iowa law and rules covering mortuary science content areas including but not limited to Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed.

645—101.11(17A,147,272C) Reinstatement of a funeral director license. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—101.11(17A,147,272C) prior to practicing as a funeral director in this state. The owner of a funeral home establishment whose establishment license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the establishment license and must apply for and be granted reactivation of the establishment license prior to reopening the funeral home establishment.

These rules are intended to implement Iowa Code chapters 17A, 147, 156 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 102
“Continuing Education for Funeral Directors”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 156, 147.36, and 147.76
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 156, 17A, 147, and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:30 p.m.

6200 Park Avenue
Des Moines, Iowa
meet.google.com/bfq-qaeb-nwu
Or dial: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

Proposed Chapter 102 sets forth continuing education requirements for funeral directors. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to maintain and improve a licensee’s knowledge and skills to improve the safety and welfare delivered to the public.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses, so the Board of Mortuary Science is not privy to exact costs. Based on research, the Board estimates a bundle online course would cost approximately \$50 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that funeral directors are obtaining and maintaining a sufficient level of ongoing education in the profession to provide high-quality services to Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offers continuing education courses. The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires funeral directors to obtain 24 hours of continuing education every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.29 full-time equivalent (FTE) position, which includes questions from the public and licensees such as practice standards, continuing education, board meeting administration, etc.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board discussed reducing the number of continuing education hours at its September board meeting. It was the Board's conclusion to maintain the current 24 hours of continuing education because it was not considered burdensome since the rules allow completion of those hours online. The Board also opined that the number of continuing education hours is relevant to maintain its professional development on topics such as traumatic situations, mental health and social issues that may be confronted on regular basis.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. The Board was not in consensus to reduce the number of continuing education hours but to maintain its current standards. The following are the continuing education unit (CEU) requirements from surrounding states:

South Dakota: no CEU requirements.

Kansas: 12 CEUs every two years.

Nebraska: 12 CEUs every two years.

Minnesota: 15 CEUs every two years.

Wisconsin: 15 CEUs every two years.

Illinois: 24 CEUs every two years.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board discussed reducing continuing education hours but was in consensus to maintain the current number of continuing education hours.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board discussed reducing continuing education hours but was in consensus to maintain the current number of continuing education hours.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The Board discussed reducing continuing education hours but was in consensus to maintain the current number of continuing education hours.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 102 and adopt the following new chapter in lieu thereof:

CHAPTER 102 CONTINUING EDUCATION FOR FUNERAL DIRECTORS

645—102.1(272C) Definitions. For the purpose of these rules, the following definitions will apply:

“Active license” means a license that is current and has not expired.

“Audit” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“Board” means the board of mortuary science.

“Continuing education” means planned, organized learning acts that are designed to maintain, improve, or expand a licensee's knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public and that meet the standards set forth in these rules.

“Hour of continuing education” means at least 50 minutes spent by a licensee in actual attendance at and completion of continuing education.

“Inactive license” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“Independent study” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in these rules and includes a posttest.

“License” means license to practice.

“Licensee” means any person licensed to practice as a funeral director in the state of Iowa.

645—102.2(272C) Continuing education requirements.

102.2(1) The biennial continuing education compliance period will extend for a two-year period beginning on the fifteenth day of the licensee's birth month and ending on the fifteenth day of the licensee's birth month. Each biennium, a person who holds an active license will be required to

complete a minimum of 24 hours of continuing education activity. Two of the 24 hours of continuing education will be in current Iowa law and rules covering mortuary science content areas including, but not limited to, Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed. A minimum of 12 hours of the 24 hours of continuing education required for renewal will be earned by completing a program in which an instructor conducts the class employing either in-person or live, real-time interactive media.

102.2(2) Requirements of new licensees. Continuing education is not required in the first renewal period. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The new licensee will be required to complete a minimum of 24 hours of continuing education per biennium for each subsequent license renewal.

102.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity as stipulated in rule.

102.2(4) No hours of continuing education will be carried over into the next biennium except as stated in subrule 102.2(2). A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

102.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

645—102.3(156,272C) Standards.

102.3(1) *General criteria.* A continuing education activity must meet the following criteria:

- a. Constitute an organized program of learning which contributes directly to the professional competency of the licensee;
- b. Pertain to subject matters which integrally relate to the practice of the profession;
- c. Be conducted by individuals who have specialized education, training and experience concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters.
- d. Fulfill stated program goals, objectives, or both; and
- e. Provide proof of attendance to licensees in attendance including:
 - (1) Date(s), location, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

All licensees must retain the information identified in paragraph 102.3(1) “e” for two years after the biennium has ended.

102.3(2) *Specific criteria.*

- a. The following categories of continuing education are accepted:
 - (1) Public health and technical: chemistry, microbiology and public health, anatomy, pathology, restorative art, arterial and cavity embalming.
 - (2) Business management: accounting, funeral home and crematory management and merchandising, computer application, funeral directing, and small business management.
 - (3) Social sciences/humanities: psychology of grief, counseling, sociology of funeral service, history of funeral service, communication skills, and philosophy.
 - (4) Legal, ethical, regulatory: mortuary law; business law; ethics; Federal Trade Commission, OSHA, ADA, and EPA regulations; preneed regulation; social services; veterans affairs benefits; insurance; state and county benefits; legislative concerns. Insurance will be related to life insurance and will not exceed 8 hours each biennium.

b. Academic coursework that meets the criteria set forth in the rule is accepted. Continuing education credit equivalents are as follows:

- 1 academic semester hour = 10 continuing education hours
- 1 academic trimester hour = 8 continuing education hours
- 1 academic quarter hour = 7 continuing education hours

A course description and an official school transcript indicating successful completion of the course must be provided by the licensee to receive credit for an academic course if continuing education is audited.

c. Attendance at or participation in a program or course which is offered or sponsored by a state or national funeral association that meets the criteria in subrule 102.3(1) and paragraph 102.3(2)“*a*” is accepted.

d. Independent study credits, including those obtained by television viewing, Internet, video- or sound-recorded programs, or correspondence work or by other similar means that meet the criteria in paragraph 102.3(2)“*a*,” must be accompanied by a certificate from the sponsoring organization that indicates successful completion of the test. Continuing education credit obtained by independent study will not exceed 12 hours of the 24 hours required during the compliance period.

e. Presentations of a structured continuing education program or a college course that meets the criteria established in standards for approval may receive 1.5 times the number of hours granted the attendees. These hours will be granted only once per biennium for identical presentations.

f. Two of the 24 hours of continuing education will be in current Iowa law and rules covering mortuary science content areas including but not limited to Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed.

645—102.4(83GA,SF2325) Automatic exemption. A licensee will be exempt from the continuing education requirement during the license biennium when that person:

1. Served honorably on active duty in the military service; or
2. Was a government employee working in the licensee’s specialty and assigned to duty outside the United States; or
3. Was absent from the state but engaged in active practice under circumstances which are approved by the board.

These rules are intended to implement Iowa Code section 272C.2 and chapter 156.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapters 103 and 104
“Disciplinary Proceedings”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 156, 147.36, and 147.76
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 156, 17A, 147, and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:30 p.m.

Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

Proposed Chapter 104 provides protection to Iowans because it publicly defines required professional standards for the practice of mortuary science. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in Iowa. When professional standards are not met, it can subject a licensee to discipline against a license. Iowans have the ability to submit a complaint to the Board of Mortuary Science, which can then investigate the allegation. The Board has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected. This can include restrictions, suspension, or revocation of a license to practice. The chapter also creates a process to place a licensee on probation for the purpose of protecting the public who rely upon these licensed individuals and establishments for the performance of mortuary science services.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. Chapter 104 contains only those disciplinary grounds that are unique to the mortuary sciences profession and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. This chapter is related to standard of practice, so there would be a cost to the practitioner to meet the standard of prevailing practices. The Board is unable to assess a cost related to this specific requirement. Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.29 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc. The Board has opened and investigated just 35 complaints since 2021. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this chapter is to ensure public health and maintain the dignity of the deceased. In total, the Board licenses 876 funeral directors, 510 funeral establishments, and 73 crematories. Since 2021, the Board has opened and investigated just 35 complaints. While a low number of complaints can call into question the extent to which a profession needs to be regulated, the Board believes regulation is necessary to provide consumer protection during all aspects of the funeral process.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of funeral directing and owning a funeral establishment requires licensees to understand their professional obligations. There is a potential cost to licensees where disciplinary action is taken against them, with disciplinary fines being capped at \$1,000 per public order.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer protection. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this board at approximately 0.29 FTE position. Due to the low number of complaints associated with this board, costs specific to managing complaints and investigations are minimal.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$0 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs of this rule are extremely low. The Board believes that the benefits achieved justify the low cost because funeral directors and establishments are providing services to consumers. The Board receives a low number of complaints and issues a small number of disciplinary actions. From 2021, the Board opened and investigated 35 complaints involving the standard of care. This profession requires a high level of competency and practice standards. This chapter creates a process for holding accountable those licensees who fail to meet the minimum standards articulated in rule and statute. While a low number of complaints can call into question the extent to which a profession needs to be regulated, funeral directors and establishments are providing services to the public that requires safety and consumer protection, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent and safe practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. This chapter was retained in its entirety because it contains disciplinary grounds that are unique to funeral directors and establishments and are excluded from the general disciplinary chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. This chapter was retained in its entirety because it contains only those disciplinary grounds that are unique to funeral directors and establishments and are excluded from the general disciplinary chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

No answer provided.

Text of Proposed Rulemaking

ITEM 1. Rescind and reserve **645—Chapter 103**.

ITEM 2. Rescind 645—Chapter 104 and adopt the following **new** chapter in lieu thereof:

CHAPTER 104
DISCIPLINARY PROCEEDINGS

645—104.1(156) Definitions.

“*Board*” means the board of mortuary science.

“*Discipline*” means any sanction the board may impose upon licensees.

“*Licensee*” means an individual licensed pursuant to Iowa Code section 156.4 to practice as a funeral director in Iowa and a person issued an establishment license pursuant to Iowa Code section 156.14 to establish, conduct, or maintain a funeral establishment or cremation establishment in Iowa.

645—104.2(17A,147,156,272C) Disciplinary authority. The board is empowered to administer Iowa Code chapters 17A, 147, 156, and 272C and related administrative rules for the protection and well-being of those persons who may rely upon licensed individuals and establishments for the performance of mortuary science services within this state or for clients in this state. To perform these functions, the board is broadly vested with authority to review and investigate alleged acts or omissions of licensees, to determine whether disciplinary proceedings are warranted, to initiate and prosecute disciplinary proceedings, to establish standards of professional conduct, and to impose discipline pursuant to Iowa Code sections 17A.13, 147.55, 272C.3 to 272C.6 and 272C.10 and chapter 156.

645—104.3(17A,147,156,272C) Grounds for discipline against funeral directors. The board may initiate disciplinary action against a licensed funeral director based on Iowa Code section 156.9 and any of the following grounds:

104.3(1) Fraud in procuring a license. Fraud in procuring a license includes, but is not limited to, an intentional perversion of the truth in making application for a license to practice in this state, which includes the following:

a. False representation of a material fact, whether by word or by conduct, by false or misleading allegation, or by concealment of that which should have been disclosed when making application for a license in this state, or

b. Attempting to file or filing with the board or the department of inspections, appeals, and licensing any false or forged diploma or certificate or affidavit or identification or qualification in making an application for a license in this state.

104.3(2) Professional incompetency. Professional incompetency includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other practitioners in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care which is ordinarily exercised by the average practitioner acting in the same or similar circumstances.

d. Failure to conform to the minimal standards of acceptable and prevailing practice of a funeral director in this state.

104.3(3) Deceptive practices. Deceptive practices are grounds for discipline, whether or not actual injury is established, and include:

a. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of mortuary science.

b. Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a licensee in making information

or intention known to the public which is false, deceptive, misleading or promoted through fraud or misrepresentation.

- c.* Acceptance of any fee by fraud or misrepresentation.
- d.* Falsification of business records through false or deceptive representations or omissions.
- e.* Submission of false or misleading reports or information to the board including information supplied in an audit of continuing education, reports submitted as a condition of probation, or any reports identified in this rule.
- f.* Knowingly misrepresenting any material matter to a prospective purchaser of funeral merchandise, furnishings, or services.
- g.* Representing oneself as a funeral director when one's license has been suspended, revoked, or surrendered, or when one's license is on inactive status.
- h.* Permitting another person to use the licensee's license for any purposes.
- i.* Misrepresenting the legal need or other requirement for embalming.
- j.* Fraud in representations as to skill or ability.

104.3(4) Unethical, harmful or detrimental conduct. Licensees engaging in unethical conduct or practices harmful or detrimental to the public may be disciplined whether or not injury is established. Behaviors and conduct which are unethical, harmful or detrimental to the public may include, but are not limited to, the following actions:

- a.* Practice outside the scope of the profession which requires licensure by a different professional licensing board.
- b.* Any violation of Iowa Code chapter 144.
- c.* Verbal or physical abuse, improper sexual contact, or making suggestive, lewd, lascivious, offensive or improper remarks or advances, if such behavior occurs within the practice of mortuary science or such behavior otherwise provides a reasonable basis for the board to conclude that such behavior would place the public at risk within the practice of mortuary science.
- d.* Betrayal of a professional confidence.
- e.* Engaging in a professional conflict of interest.
- f.* Failure to comply with universal precautions for preventing transmission of infectious diseases as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.
- g.* Embalming or attempting to embalm a deceased human body without first having obtained authorization from a family member or representative of the deceased, except where embalming is done to meet the requirements of applicable state or local law. However, a funeral director may embalm without authority when, after due diligence, no authorized person can be contacted and embalming is in accordance with legal or accepted standards in the community, or the licensee has good reason to believe that the family wishes embalming. The order of priority for those persons authorized to permit embalming is found in Iowa Code section 144C.5. If embalming is performed under these circumstances, the licensee shall not be deemed to be in violation of the prohibition in this paragraph.
- h.* Failure to keep and maintain records as required by Iowa Code chapter 156 and associated rules.

104.3(5) Unlicensed practice.

- a.* Practicing mortuary science when one's license has been suspended, revoked, or surrendered, or when one's license is on inactive status.
- b.* Practicing mortuary science within an unlicensed funeral or cremation establishment.
- c.* Permitting an unlicensed employee or other person under the licensee's control or supervision to perform activities requiring a license.
- d.* Knowingly aiding, assisting, procuring, advising, or allowing a person to unlawfully practice mortuary science, or aiding or abetting a licensee, license applicant or unlicensed person in committing any act or omission which is grounds for discipline under this rule or is an unlawful act by a nonlicensee under Iowa Code section 156.16.

104.3(6) Lack of proper qualifications.

- a.* Continuing to practice as a funeral director without satisfying the continuing education mandated by 645—Chapter 102.

b. Acting as a preceptor or continuing education provider without proper board approval or qualification.

c. Habitual intoxication or addiction to the use of drugs, or impairment which adversely affects the licensee's ability to practice in a safe and competent manner.

d. Any act, conduct, or condition, including lack of education or experience and careless or intentional acts or omissions, that demonstrates a lack of qualifications which are necessary to ensure a high standard of professional care as provided in Iowa Code section 272C.3(2) "b."

104.3(7) Negligence by the licensee in the practice of the profession. Negligence by the licensee in the practice of the profession includes:

a. A failure to exercise due care including negligent delegation of duties or supervision of employees or other individuals, whether or not injury results.

b. Any conduct, practice or condition which impairs a licensee's ability to safely and skillfully practice the profession.

104.3(8) Professional misconduct.

a. Obtaining, possessing, attempting to obtain or possess, or administering controlled substances without lawful authority.

b. Violation of a regulation or law of this state, another state, or the United States, which relates to the practice of mortuary science, including, but not limited to, Iowa Code chapters 272C, 144, 147, 156, 523A, 523I, 566, and 566A; board rules, including rules of professional conduct set forth in 645—Chapter 100; and regulations promulgated by the Federal Trade Commission relating to funeral services or merchandise, or funeral or cremation establishments, as applicable to the profession. Any violation involving deception, dishonesty or moral turpitude shall be deemed related to the practice of mortuary science.

c. Engaging in any conduct that subverts or attempts to subvert a board investigation, or failure to fully cooperate with a licensee disciplinary investigation or investigation against a nonlicensee, including failure to comply with a subpoena issued by the board or to respond to a board inquiry within 30 calendar days of the date of mailing by certified mail of a written communication directed to the licensee's last address on file at the board office.

d. Revocation, suspension, or other disciplinary action taken by a licensing authority of this state, another state, territory, or country. A stay by an appellate court shall not negate this requirement; however, if such disciplinary action is overturned or reversed by a court of last resort, discipline by the board based solely on such action shall be vacated.

104.3(9) Willful or repeated violations. The willful or repeated violation of any provision of Iowa Code chapter 147, 156, or 272C.

104.3(10) Failure to report.

a. Failure by a licensee or an applicant for licensure to report in writing to the board any revocation, suspension, or other disciplinary action taken by a licensing authority within 30 days of the final action.

b. Failure of a licensee or an applicant for licensure to report, within 30 days of the action, any voluntary surrender of a professional license to resolve a pending disciplinary investigation or action.

c. Failure to notify the board of a criminal conviction within 30 days of the action, regardless of the jurisdiction where it occurred.

d. Failure to notify the board within 30 days after occurrence of any judgment or settlement of malpractice claim or action.

e. Failure to report another licensee to the board for any violations listed in these rules, pursuant to Iowa Code section 272C.9.

f. Failure to report a change of name or address within 30 days after it occurs.

104.3(11) Failure to comply with board order.

a. Failure to comply with the terms of a board order or the terms of a settlement agreement or consent order, or other decision of the board imposing discipline.

b. Failure to pay costs assessed in any disciplinary action.

104.3(12) Being convicted of an offense that directly relates to the duties and responsibilities of the profession. A conviction includes a guilty plea, including Alford and nolo contendere pleas, or a finding

or verdict of guilt, even if the adjudication of guilt is deferred, withheld, or not entered. A copy of the guilty plea or order of conviction constitutes conclusive evidence of conviction. An offense directly relates to the duties and responsibilities of the profession if the actions taken in furtherance of the offense are actions customarily performed within the scope of practice of the profession or the circumstances under which the offense was committed are circumstances customary to the profession.

104.3(13) Violation of the terms of an initial agreement with the impaired practitioner review committee or violation of the terms of an impaired practitioner recovery contract with the impaired practitioner review committee.

104.3(14) Failure to comply with conditions of Iowa Code sections 142C.10 and 142C.10A.

645—104.4(17A,147,156,272C) Grounds for discipline against funeral establishments and cremation establishments. The board may initiate disciplinary action against a funeral establishment or cremation establishment, at time of license application or thereafter, based on all grounds set forth in Iowa Code section 156.15, summarized as follows:

104.4(1) The licensee or applicant has been convicted of a felony or any crime related to the practice of mortuary science or implicating the establishment's ability to safely perform mortuary science services, or if the applicant is an association, joint stock company, partnership, or corporation, the managing officer or owner has been convicted of such a crime under the laws of this state, another state, or the United States.

104.4(2) The licensee or applicant, or any owner or employee of the establishment has violated Iowa Code chapter 156, rule 645—104.3(17A,147,156,272C), or any other rule promulgated by the board.

104.4(3) The licensee or applicant knowingly aided, assisted, procured, or allowed a person to unlawfully practice mortuary science.

104.4(4) The licensee or applicant failed to engage in or ceased to engage in the business described in the application for licensure.

104.4(5) The licensee or applicant failed to keep and maintain records as required by Iowa Code chapter 156 or rules promulgated by the board.

104.4(6) The licensee or owner of the establishment has violated the smokefree air Act, Iowa Code chapter 142D.

645—104.5(17A,147,156,272C) Method of discipline. The board has the authority to impose the following disciplinary sanctions:

1. Revoke a license.
2. Suspend a license until further order of the board or for a specific period.
3. Prohibit permanently, until further order of the board, or for a specific period, the licensee's engaging in specified procedures, methods, or acts.
4. Place a licensee on probation and impose such conditions as the board may reasonably impose including, but not limited to, requiring periodic reporting to the board designated features of the licensee's practice of mortuary science.
5. Require additional education or training. The board may specify that a designated amount of continuing education be taken in specific subjects and may specify the time period for completing these courses. The board may also specify whether that continuing education be in addition to the continuing education routinely required for license renewal. The board may also specify that additional continuing education be a condition for the termination of any suspension or reinstatement of a license.
6. Require a reexamination.
7. Order a physical or mental evaluation, or order alcohol and drug screening within a time specified by the board.
8. Impose civil penalties not to exceed \$1,000 against an individual licensed as a funeral director, or not to exceed \$10,000 against a licensed funeral establishment or cremation establishment. Civil penalties may be imposed for any of the disciplinary violations specified in rules 645—104.3(17A,147,156,272C) and 645—104.4(17A,147,156,272C), as applicable.
9. Issue a citation and warning, or reprimand.

10. Refuse to issue or renew a license.
11. Such other sanctions allowed by law as may be appropriate.

645—104.6(17A,147,156,272C) Board discretion in imposing disciplinary sanctions. Factors the board will consider when determining the nature and severity of the disciplinary sanction to be imposed, including whether to assess and the amount of civil penalties, include:

1. The relative serious nature of the violation as it relates to ensuring a high standard of professional care to the citizens of this state.
2. Whether the amount of a civil penalty will be a substantial deterrent to the violation.
3. The circumstances leading to the violation.
4. The risk of harm to the public.
5. The economic benefits gained by the licensee as a result of the violation.
6. The interest of the public.
7. Evidence of reform or remedial action.
8. Time lapsed since the violation occurred.
9. Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.
10. The clarity of the issues involved.
11. Whether the violation was willful and intentional.
12. Whether the nonlicensee acted in bad faith.
13. The extent to which the licensee cooperated with the board.
14. Whether a licensee holding an inactive, suspended, restricted or revoked license engaged in practices which require licensure.
15. Any extenuating factors or other countervailing considerations.
16. Number and seriousness of prior violations or complaints.
17. Such other factors as may reflect upon the competency, ethical standards, and professional conduct of the licensee.

645—104.7 Reserved.

645—104.8(17A,147,156,272C) Informal discussion. If the board considers it advisable, or if requested by the affected licensee, the board may grant the licensee an opportunity to appear before the board or a committee of the board for a voluntary informal discussion of the facts and circumstances of an alleged violation. The licensee may be represented by legal counsel at the informal discussion. The licensee is not required to attend the informal discussion. By electing to attend, the licensee waives the right to seek disqualification, based upon personal investigation of a board or staff member, from participating in making a contested case decision or acting as a presiding officer in a later contested case proceeding. Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence. The board may seek a consent order at the time of the informal discussion. If the parties agree to a consent order, a statement of charges shall be filed simultaneously with the consent order.

These rules are intended to implement Iowa Code chapters 17A, 147, 156, and 272C.

Purpose and Summary

The intent of proposed Chapter 105 is to impose civil penalties against persons who are not licensed by the Board of Mortuary Science and practicing mortuary science for the purpose of protecting the public who rely upon licensed individuals and establishments for the performance of mortuary science services.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. Chapter 105 contains only those disciplinary grounds that are unique to the mortuary sciences profession and are therefore excluded from the general disciplinary chapter.

- Classes of persons that will benefit from the proposed rulemaking:

The Board believes the benefit of this chapter is being achieved. In the last five years, there has been only one complaint opened against an establishment providing unlicensed mortuary science services. By having clearly articulated minimum standards for an establishment and a means by which to hold establishments accountable, the Board is helping to ensure public protection.

Unlicensed individuals providing mortuary science services may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.29 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

The intended benefit of this chapter is to ensure public safety and maintain a high level of consumer protection for Iowans. In the last five years, there has been only one complaint opened against an establishment providing unlicensed mortuary science services. By having clearly articulated minimum standards for an establishment and a means by which to hold establishments accountable, the Board is helping to ensure public protection.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board believes that the benefits achieved justify the low cost because the practice of mortuary science requires skill and precision.

There is a potential cost to licensees where disciplinary action is taken against them, with disciplinary fines being capped at \$1,000 per public order.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline against unlicensed individuals for violating a provision of this chapter ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this board at approximately 0.29 FTE position. Due to the low number of complaints associated with this board, costs specific to managing complaints and investigations are minimal.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$0 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes benefits achieved justify the costs. The cost of inaction would increase the potential for injury to the public by allowing licensed providers to continue providing services without corrective measures, education, or any form of discipline. Because there are only a small number of complaints submitted, costs are extremely low.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent and safe practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the mortuary science profession and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to protect the public from unscrupulous or potentially dangerous establishments. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize Board processes across all professional licensing boards. The proposed revisions support this effort.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure consumer protection and public safety against individuals that violate the provision of this chapter. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Adopt the following new 645—Chapter 105:

CHAPTER 105 ENFORCEMENT PROCEEDINGS AGAINST NONLICENSEES

645—105.1(156) Civil penalties against nonlicensees. The board may impose civil penalties by order against a person who is not licensed by the board based on the unlawful practices specified in Iowa Code section 156.16. In addition to the procedures set forth in Iowa Code section 156.16, this chapter will apply.

645—105.2(156) Unlawful practices. Practices by unlicensed persons or establishments which are subject to civil penalties include, but are not limited to:

1. Acts or practices by unlicensed persons which require licensure as a funeral director under Iowa Code chapter 156.
2. Acts or practices by unlicensed establishments which require licensure as a funeral establishment or cremation establishment under Iowa Code chapter 156.
3. Use of the words “funeral director,” “mortician,” or other title in a manner which states or implies that the person is engaged in the practice of mortuary science as defined in Iowa Code chapter 156.
4. Use or attempted use of a licensee’s certificate or an expired, suspended, revoked, or nonexistent certificate.
5. Falsely impersonating a licensed funeral director.
6. Providing false or forged evidence of any kind to the board in obtaining or attempting to obtain a license.
7. Other violations of Iowa Code chapter 156.
8. Knowingly aiding or abetting an unlicensed person or establishment in any activity identified in this rule.

645—105.3(156) Investigations. The board is authorized by Iowa Code sections 17A.13(1) and 156.16 to conduct such investigations as are needed to determine whether grounds exist to impose civil penalties against a nonlicensee. Such investigations will conform to the procedures outlined in this chapter. Complaint and investigatory files concerning nonlicensees are not confidential except as may be provided in Iowa Code chapter 22.

645—105.4(156) Subpoenas. Pursuant to Iowa Code sections 17A.13(1) and 156.16, the board is authorized in connection with an investigation of an unlicensed person or establishment to issue subpoenas to compel persons to testify and to compel persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, which the board deems necessary as evidence in connection with the civil penalty proceeding or relevant to the decision of whether to initiate a civil penalty proceeding. Board procedures concerning investigative subpoenas are set forth in rule 645—9.5(17A,272C).

645—105.5(156) Notice of intent to impose civil penalties. The notice of the board’s intent to issue an order to require compliance with Iowa Code chapter 156 and to impose a civil penalty will be served upon the nonlicensee by restricted certified mail, return receipt requested, or personal service in accordance with Iowa R. Civ. P. 1.305. Alternatively, the nonlicensee may accept service personally or through authorized counsel. The notice will include the following:

1. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.
2. Reference to the particular sections of the statutes and rules involved.
3. A short, plain statement of the alleged unlawful practices.
4. The dollar amount of the proposed civil penalty and the nature of the intended order to require compliance with Iowa Code chapter 156.
5. Notice of the nonlicensee’s right to a hearing and the time frame in which hearing must be requested.
6. The address to which written request for hearing must be made.

645—105.6(156) Requests for hearings.

105.6(1) Nonlicensees must request a hearing within 30 days of the date the notice is received if served through restricted certified mail, or within 30 days of the date of service if service is accepted or made in accordance with Iowa R. Civ. P. 1.305. A request for hearing must be in writing and is deemed made on the date of the nonmetered United States Postal Service postmark or the date of personal service.

105.6(2) If a request for hearing is not timely made, the board chairperson or the chairperson's designee may issue an order imposing the civil penalty and requiring compliance with Iowa Code chapter 156, as described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

105.6(3) If a request for hearing is timely made, the board will issue a notice of hearing and conduct a contested case hearing in the same manner as applicable to disciplinary cases against licensees.

105.6(4) A nonlicensed person who fails to timely request a contested case hearing will have failed to exhaust "adequate administrative remedies" as that term is used in Iowa Code section 17A.19(1).

105.6(5) A nonlicensed person who is aggrieved or adversely affected by the board's final decision following a contested case hearing may seek judicial review as provided in Iowa Code section 17A.19.

105.6(6) A nonlicensee may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty and requiring compliance with Iowa Code chapter 156 at any stage of the proceeding upon mutual consent of the board.

105.6(7) The notice of intent to issue an order and the order are public records available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be published as provided in rule 645—11.30(272C). Hearings will be open to the public.

645—105.7(156) Factors to consider. The board may consider the following when determining the amount of civil penalty to impose, if any:

1. Whether the amount imposed will be a substantial economic deterrent to the violation.
2. The circumstances leading to the violation.
3. The severity of the violation and the risk of harm to the public.
4. The economic benefits gained by the violator as a result of noncompliance.
5. The interest of the public.
6. The time lapsed since the unlawful practice occurred.
7. Evidence of reform or remedial actions.
8. Whether the violation is a repeat offense following a prior warning letter or other notice of the nature of the infraction.
9. Whether the violation involved an element of deception.
10. Whether the unlawful practice violated a prior order of the board, court order, cease and desist agreement, consent order, or similar document.
11. The clarity of the issue involved.
12. Whether the violation was willful and intentional.
13. Whether the nonlicensee acted in bad faith.
14. Whether the nonlicensee cooperated with the board.

645—105.8(156) Enforcement options. In addition, or as an alternative, to the administrative process described in these rules, the board may seek an injunction in district court, refer the matter for criminal prosecution, or enter into a consent agreement as provided in Iowa Code section 156.16.

These rules are intended to implement Iowa Code chapters 17A, 147, and 156.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 121
“Licensure of Hearing Aid Specialists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 272C.3, 272C.4 and 272C.10
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 154A and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:50 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Phone: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

These proposed rules set minimum standards for entry into the hearing aid dispenser profession. Iowa residents, licensees and employers benefit from the rules as they articulate the processes by which individuals apply for licensure as a hearing aid dispenser in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee.

There are no educational requirements to become an Iowa licensed hearing aid specialist, but applicants must pay applicable fees and pass an examination in order to obtain a license. The examination fees are (1) \$225 for the national examination through the International Hearing Society (IHS); or (2) \$146 for the Praxis examination in Audiology through the Educational Testing Service.

The application fee is \$156, and the renewal fee is \$60.

These costs are comparable to, or less than, surrounding states. In Nebraska, applicants must pay the \$225 fee for the national examination through IHS and an application fee of \$165. In Minnesota, applicants must complete a Hearing Instrument Dispenser examination at a cost of \$1,200 and pay an application fee of \$772.50.

Board of Hearing Aid Specialists staff review applications for initial and renewal licenses and for licensure reinstatement. Board staff also answer inquiries on licensing and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.33 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified hearing aid specialists.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The costs for examination required are \$225 or \$146, depending on which examination the applicant takes. Licensing fees are \$156 for an initial license and \$60 for each renewal period.

- Qualitative description of impact:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified hearing aid specialists. Licensing requirements in Iowa are very similar to those in surrounding states.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals, reactivations and reinstatements. Staff salaries to support the work of the Board are covered by the Fund. It takes roughly 0.33 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees, not the State. There is no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Licensing is the highest form of regulation. Lower forms of regulation could be viable, such as registration. That said, hearing aid dispensing is regulated in all 50 states. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans.

Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of hearing aid dispensers in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the state of Iowa are similar to those of surrounding states. The surrounding states all require similar licensing procedures for hearing aid specialists.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of hearing aid specialists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of hearing aid specialists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment this Board is now part of DIAL. DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize Board processes across all professional licensing boards. The revisions of these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of hearing aid specialists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of hearing aid specialists in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of hearing aid specialists.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for hearing aid specialists. While some hearing aid specialists are running a small business of their own, others work for large corporations, medical facilities or hospitals. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 121 and adopt the following **new** chapter in lieu thereof:

HEARING AID SPECIALISTS

| | |
|-------------|--|
| CHAPTER 121 | LICENSURE OF HEARING AID SPECIALISTS |
| CHAPTER 122 | CONTINUING EDUCATION FOR HEARING AID SPECIALISTS |
| CHAPTER 123 | PRACTICE OF HEARING AID DISPENSING |
| CHAPTER 124 | DISCIPLINE FOR HEARING AID SPECIALISTS |

CHAPTER 121
LICENSURE OF HEARING AID SPECIALISTS

645—121.1(154A) Definitions. For purposes of these rules, the following definitions apply:

“*Active license*” means a license that is current and has not expired.

“*Board*” means the board of hearing aid specialists.

“*Dispense*” or “*sell*” means a transfer of title or of the right to use by lease, bailment, or any other means, but excludes a wholesale transaction with a distributor or hearing aid specialist, and excludes the temporary, charitable loan or educational loan of a hearing aid without remuneration.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Hearing aid specialist*” means any person engaged in the fitting, dispensing and sale of hearing aids and providing hearing aid services or maintenance by means of procedures stipulated by Iowa Code chapter 154A or the board. These rules are not intended to regulate unlicensed people who sell, dispense, market, use, distribute, or provide customer support to over-the-counter hearing aids, as regulated by the U.S. food and drug administration.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*License*” means a license issued by the state to a hearing aid specialist.

“*Licensee*” means any person licensed to practice as a hearing aid specialist in the state of Iowa.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice as a hearing aid specialist to an applicant who is or has been licensed in another state.

“*National examination*” means the standardized licensing examination of the International Hearing Society (IHS) or its successor organization.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—121.14(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C). Once the license is reinstated, the licensee may apply for active status.

“*Temporary permit*” means a permit issued while the applicant is in training to become a licensed hearing aid specialist.

“*Trainee*” means the holder of a temporary permit.

645—121.2(154A) Temporary permits.

121.2(1) The applicant will submit a completed online application and pay the nonrefundable licensure fee specified in rule 645—5.7(147,154A). The application will be accompanied by a statement from the employer, which includes the following information:

- a. The type of supervision to be provided to the trainee;
- b. A list of the subjects to be covered;
- c. The books and other training materials to be used for training; and
- d. An outline of the training program to prepare the trainee for examination.

121.2(2) A temporary permit is valid for one year and shall not be renewable.

121.2(3) The board reserves the right to deny an application for a temporary permit or rescind a temporary permit once issued.

645—121.3(154A) Supervision requirements.

121.3(1) The supervisor(s) of temporary permit holders will:

- a. Have a current hearing aid specialist license valid for the preceding 24 months;
- b. Have two years of actual experience in testing, fitting, and dispensing of hearing aids;
- c. Supervise no more than three trainees at the same time;
- d. Be responsible for training the temporary permit holder;
- e. For the first 90 days, provide a minimum of 20 hours of direct supervision;
- f. Provide direct supervision for any client activity that would require dispensing of hearing aids, including evaluation, selection, fitting or selling of hearing aids in the first 90 days;
- g. Evaluate the audiograms and determine which hearing aid and ear mold will best compensate for hearing loss;
- h. Cosign all audiometric evaluations and contracts processed by the trainee for the duration of the temporary permit;
- i. Submit, on a board-approved form, a supervision report for trainees prior to taking the board-approved examination. A supervision report is required each time the temporary permit holder submits a request to take the examination; and
- j. Notify the board within 15 days of the termination of the holder of a temporary permit.

121.3(2) A trainee with a temporary permit will notify the board in writing within ten days of an interruption of training due to loss of supervision and within 30 days, obtain a replacement supervisor for continuance of the training period. A statement will be signed by each supervisor.

121.3(3) If a statement by the replacement supervisor is not submitted, the trainee will revert to new trainee status.

645—121.4(154A) Requirements for initial licensure. The following criteria applies to licensure:

121.4(1) The applicant will submit a completed online application and pay the nonrefundable licensure fee specified in rule 645—5.7(147,154A).

121.4(2) The applicant will provide verification of passing one of the following examinations:

- a. The national examination through the International Hearing Society. The applicant may not take the national test through IHS more than six times without board approval.
- b. The Praxis exam in Audiology through the Educational Testing Service.

121.4(3) Applicants who hold a temporary permit are required to submit a supervisory report in accordance with paragraph 121.3(1) “i.”

121.4(4) An applicant who has been licensed in another state will provide verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction’s board office if the verification provides:

- a. Licensee’s name;
- b. Date of initial licensure;
- c. Current licensure status; and
- d. Any disciplinary action taken against the license.

121.4(5) An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 645—19.2(272C).

121.4(6) Incomplete applications that have been on file in the board office for more than two years will be considered invalid and destroyed unless requested in writing by the candidate.

645—121.5(154A) Licensure by endorsement.

121.5(1) Applicants who have been a licensed hearing aid specialist under the laws of another jurisdiction may apply for licensure by endorsement by submitting the following:

- a.* Verification the applicant meets the requirements of rule 645—121.4(154A);
 - b.* Evidence of licensure requirements that are similar to those required in Iowa;
 - c.* Official verification of one of the following:
 - (1) A passing score on the national examination determined by the International Hearing Society;
 - (2) A passing score on an examination that the board determines is equivalent to the national examination; or
 - (3) Current certification from the National Board for Certification in Hearing Instrument Sciences;
- and
- d.* Evidence of:
 - (1) Completing a minimum of 32 continuing education hours within the 24 months prior to application; or
 - (2) Continuing education certificates that verify that the minimum hours of continuing education required by a state(s) in which the licensee is currently licensed have been met.

121.5(2) A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—121.6(154A) Display of license. Hearing aid specialists will display their original licenses in a conspicuous public place at the primary site of practice.

645—121.7(154A) License renewal.

121.7(1) The biennial license renewal period for a hearing aid specialist license will begin on January 1 of each odd-numbered year and end on December 31 of the next even-numbered year. The licensee is responsible for renewing the license prior to its expiration.

121.7(2) A licensee applying for renewal will:

- a.* Meet the continuing education requirements of rule 645—122.2(154A) and the mandatory reporting requirements of subrule 121.9(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and
- b.* Submit the completed renewal application and renewal fee before the license expiration date.

An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the next renewal two years later.

121.7(3) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 645—subrule 5.7(5). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

121.7(4) Mandatory reporter training requirements.

- a.* A licensee who examines, attends, counsels, or treats children, dependent adults or both in the scope of the licensee's professional practice will complete the applicable department of health and human services training relating to the identification reporting of child abuse, dependent adult abuse, or both. Written documentation of training completion should be maintained for three years. The training is not required if the licensee is engaged in active duty military service or holds a waiver demonstrating a hardship in complying with these training requirements.

b. The board may select licensees for audit of compliance with the requirements in rule 645—122.2(154A).

121.7(5) A two-year license will be issued after the requirements of the rule are met. If the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

121.7(6) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice until the license is reactivated.

645—121.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee will:

121.8(1) Submit a completed online reactivation application and payment of the nonrefundable application fee.

121.8(2) Provide verification of current competence to practice as a hearing aid specialist by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant will provide the following:

(1) Verification of the license(s) from the jurisdiction in which the applicant has most recently been licensed showing the licensee's name, date of initial licensure, current licensure status and any disciplinary action taken against the license; and

(2) Verification of completion of 32 hours of continuing education within two years of application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license(s) from the jurisdiction in which the applicant has most recently been licensed showing the licensee's name, date of initial licensure, current licensure status and any disciplinary action taken against the license; and

(2) Verification of completion of 64 hours of continuing education within two years of application for reactivation.

645—121.9(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to practicing as a hearing aid specialist in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 154A and 272C.

Regulatory Analysis

Purpose and Summary

This proposed rulemaking sets forth continuing education requirements for hearing aid specialists. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rules, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that hearing aid specialists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the public. There is a direct cost to the licensee who must pay for the continuing education required. Private industries offer these courses; therefore, the Board of Hearing

Aid Specialists is not privy to exact costs. By way of example, Hearing Healthcare Instructional Institute offers continuing education credits for \$25 per credit. Currently, Iowa requires 32 continuing education units (CEUs) per biennium, so licensees may pay approximately \$800 per biennium. AudiologyOnline membership is \$99 per year and provides access to more than 1,500 audiology CEU courses. The Board has agreed to reduce continuing education hours to 24 for this profession, which is reflected in the proposed repromulgated rules. This reduction in hours takes the cost of continuing education down to \$600.

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.33 full-time equivalent (FTE) position, which includes questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that hearing aid specialists understand best practices in an evolving field, which allows them to provide the best care to Iowans and potentially reduces the number of complaints.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industries offer these courses, so the Board is not privy to exact costs. By way of example, Hearing Healthcare Instructional Institute offers continuing education credits for \$25 per credit. Currently, 32 CEUs are required per biennium, so licensees may pay approximately \$800 per biennium. AudiologyOnline membership is \$99 per year and provides access to more than 1,500 audiology CEU courses. The Board has agreed to reduce hours to 24 for this profession, which is reflected in the proposed repromulgated rules. This reduction in hours takes the cost of continuing education down to \$600.

Costs to the agency are the staff time needed to manage board activities, which includes continuing education. An executive officer supports the full scope of work of this Board at approximately 0.33 FTE position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.33 FTE position, which includes questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities which provide continuing education opportunities, not the State. There is not an anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board has recommended a reduction in hours from 32 to 24, which is reflected in the proposed rules for repromulgation. The proposed reduced hours would result in a cost savings to individual licensees for an estimated total savings of \$200.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. A review of surrounding states has shown that other states do successfully manage continuing education programs with fewer hours required per renewal cycle. Currently, Iowa requires 32 hours of continuing education every two years. A review of surrounding states indicates that Illinois and Kansas require 20 hours, Nebraska, Missouri and South Dakota require 24 and Minnesota requires 30. After discussions with the Board regarding this topic, representatives of the Board were in agreement to reduce the total number of hours every two years from 32 to 24.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board considered reducing the number of continuing education hours and ultimately went forward with recommending reduced hours.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did propose a less restrictive alternative to the current chapter, recommending a reduced number of continuing education hours.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules reduce the number of continuing education hours to be more consistent with neighboring states. The cost of continuing education is estimated at \$25 per hour. The proposed reduced hours would result in a cost savings to individual licensees for an estimated total savings of \$200.

Hearing aid specialists practice in a number of settings including private practice clinics, major hospital systems, residential health care facilities, and educational institutions. The cost of continuing education could be greater for small business owners since they would be responsible for the entire cost, but the proposed reduction in continuing education hours ultimately reduces burden to the licensee.

Conversely, the entities that provide continuing education may face a negative impact on their revenue due to less demand for entities' continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 122 and adopt the following **new** chapter in lieu thereof:

CHAPTER 122
CONTINUING EDUCATION FOR HEARING AID SPECIALISTS

645—122.1(154A) Definitions. For the purpose of these rules, the following definitions will apply:

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Continuing education*” means planned, organized learning acts designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules.

“*License*” means a license issued by the state to a hearing aid specialist.

“*Licensee*” means any person licensed to practice as a hearing aid specialist in the state of Iowa.

645—122.2(154A) Continuing education requirements.

122.2(1) The biennial continuing education compliance period extends for a two-year period beginning on January 1 of each odd-numbered year and ending on December 31 of the next even-numbered year. Each biennium, each person who is licensed to practice as a hearing aid specialist in this state is required to complete a minimum of 24 hours of continuing education. A minimum of two hours will be in the content areas of Iowa hearing aid specialist law and rules, or ethics. Continuing education hours cannot be carried over to the next biennium.

122.2(2) Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

122.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity.

122.2(4) The licensee is responsible for the cost of continuing education.

645—122.3(154A,272C) Standards.

122.3(1) General criteria. A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a.* Is an organized program of learning fundamental to the practice of the profession that contributes directly to the professional competency of the licensee;
- b.* Is conducted by individuals who have specialized education, training and experience in the subject matter of the program.
- c.* Fulfills stated program goals, objectives, or both; and
- d.* Provides proof of attendance including:
 - (1) Date, place, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

122.3(2) *Specific criteria.* Continuing education hours of credit may be obtained by completing the following in person or virtually:

- a.* Academic coursework if the coursework is offered by an accredited postsecondary educational institution. The maximum number of continuing education hours of credit for academic coursework per biennium is 15 hours with:
- b.* 1 academic semester hour = 15 continuing education hours; and 1 academic quarter hour = 10 continuing education hours.
- c.* A maximum of four hours of credit may be obtained by independent study. Independent study hours are subject to the requirements stated in the rules in this chapter and in 645—Chapter 4.
- d.* Attending programs, conferences, or business, technical, or professional seminars that enhance a licensee's ability to provide quality hearing health care services.
- e.* Mandatory reporter training, as specified in 645—subrule 121.9(4). Hours reported for credit shall not exceed the hours required for compliance.

These rules are intended to implement Iowa Code section 272C.2 and chapter 154A.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 123
“Practice of Hearing Aid Dispensing”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147, 154A, 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 154A and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:50 a.m.

6200 Park Avenue
Des Moines, Iowa 50321
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

The proposed rulemaking provides Iowans, licensees, and their employers with definitions relevant to the practice of hearing aid dispensing, requirements prior to the sale of a hearing aid, requirements for sales receipts for hearing aids, and requirements for recordkeeping and telehealth appointments. This rulemaking articulates practice standards and provides a scope of practice for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are costs associated with practice standards since there is often time, effort and money associated with compliance. Requirements prior to the sale of a hearing aid include that an individual over the age of 18 obtain a medical evaluation by a physician in order to determine whether the individual is a fit for a hearing aid or waives that requirement and submits to a hearing examination.

There are costs associated with this requirement to the public in the form of an office visit payment or co-payment. The Board of Hearing Aid Specialists believes an assessment is important because a hearing aid is a medical device and problems can occur if appropriate assessments are not conducted. Requirements for sales receipt of a hearing aid and recordkeeping require staff time and recordkeeping systems. This is an expense that the licensee assumes. Conversely, telehealth provides Iowans the ability to access care virtually, which has the potential to save individuals time and money. The Board does not have a mechanism for estimating what these total costs might be to the public and to the licensee.

Costs to the agency are the staff time needed to manage the full scope of Board activities, which include oversight of practice standards, questions from licensees and the public, administration of Board meetings, etc. An executive officer supports the work of this Board at approximately 0.33 of a full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this rulemaking. The rulemaking provides standards of practice for the licensee to ensure the licensee is following standards of care and providing adequate services to the consumer. The public is benefited by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

This is a small profession. There are approximately 435 licensed individuals who provide these services to Iowans. There are very few complaints submitted to this Board. In 2022, there were a total of five complaints submitted. Discipline is pending for three of those, one is awaiting resolution of criminal charges and another is closed with no probable cause. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important service to Iowans. If this profession were not regulated, it could mean that less-skilled individuals would provide this service to Iowans, which would be of concern to the Board. Hearing aid dispensing is regulated in all 50 states.

Consumers bear costs in the form of medical examinations required prior to placement of hearing aid devices. Telehealth appointments can minimize the cost of these appointments and lessen the burden on the consumer.

Licensees bear costs in the form of licensing fees and fees for recordkeeping and staff to ensure they are meeting the requirements for sales receipts of hearing aid devices.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean less-skilled individuals providing services and installing medical devices for consumers. An error in installation of a medical device could lead to significant injury to a consumer.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, questions from licensees and the public, administration of Board meetings, etc. An executive officer supports the work of this Board at approximately 0.33 of an FTE position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation

Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This is a small profession. There are approximately 435 licensed individuals who provide these services to Iowans. There are very few complaints submitted to this Board. In 2022, there were a total of five complaints submitted. Discipline is pending for three of those, one is awaiting resolution of criminal charges and another is closed with no probable cause. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important service to Iowans. If this profession were not regulated, it could mean that less-skilled individuals would provide this service to Iowans, which would be of concern to the Board. Hearing aid dispensing is regulated in all 50 states.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Licensing is the highest form of regulation. Lower forms of regulation could be viable, such as a registration. That said, hearing aid dispensing is regulated in all 50 states. There is a new federal law that allows hearing aids to be sold directly to consumers in stores or online without a medical examination or a fitting for individuals over the age of 18.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board could consider less restrictive alternatives, such as registration as opposed to licensure. Currently, hearing aid dispensing is regulated in all 50 states. There is a new federal law that allows hearing aids to be sold directly to consumers in stores or online without a medical examination or a fitting for individuals over the age of 18.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board could consider less restrictive alternatives, such as registration as opposed to licensure. The Board believes that to ensure public safety and the integrity of the profession, licensure requirements should stay in effect. Currently, all 50 states regulate hearing aid dispensing. Not regulating this profession could jeopardize public safety and lead to serious injury for consumers. The Board believes regulations are necessary and critical to ensuring public safety, which is the paramount concern.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rule relates to high-stakes public safety concerns which are present whether the business is a small business or a large corporation. The rule is meant to ensure public safety in terms of practice standards for hearing aid dispensing. While some licensees could be running a small business, some also work for large hospitals, clinics and retailers. To exempt small businesses from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 123 and adopt the following **new** chapter in lieu thereof:

CHAPTER 123
PRACTICE OF HEARING AID DISPENSING

645—123.1(154A) Definitions. For the purposes of these rules, the following definitions apply:

“*Health history*” means a series of questions pertaining to all of the following: client hearing needs and expectations; communication issues; otological conditions; medications; and previous amplification.

“*Hearing aid fitting*” means any of the following: the measurement of human hearing by any means for the purpose of selections, adaptations, and sales of hearing aids, and the instruction and counseling pertaining thereto, and demonstration of techniques in the use of hearing aids, and the making of earmold impressions as part of the fitting of hearing aids.

“*Sales receipt*” means a written record that is provided to a person who purchases a hearing aid. The sales receipt must be in compliance with these rules and be signed by the purchaser and the licensed hearing aid specialist. The requirements for the sales receipt may be found in rule 645—123.3(154A).

645—123.2(154A) Requirements prior to sale of a hearing aid.

123.2(1) Except as otherwise stated in these rules, no hearing aid shall be sold to an individual 18 years of age or older unless the individual:

- a. Provides a health history to a licensed hearing aid specialist;
- b. Presents a physician statement verifying that a medical evaluation, preferably by a physician specializing in diseases of the ear, has been done within the previous six months and stating the individual’s hearing loss, and that the individual may benefit from a hearing aid. In lieu of this requirement, the individual may verify in writing that the individual has been advised to obtain a medical evaluation by a licensed physician specializing in diseases of the ear, or if no such licensed physician is available in the community, then a duly licensed physician, and that the individual chooses to waive said evaluation; and
- c. Is given a hearing examination that utilizes appropriate established procedures and instrumentation for the measurement of hearing and the fitting of hearing aids and that includes, but is not limited to, an assessment of the following: air conduction; bone conduction; masking capability; speech reception thresholds; speech discrimination; uncomfortable loudness levels (UCL) and most comfortable levels (MCL).

123.2(2) Any medical evaluation completed by a licensed physician requires all of the following prior to the sale of a hearing aid to an individual: receipt of the physician statement and clearance for amplification; and completion by the licensed hearing aid specialist of a current written health history and hearing examination that includes all of the procedures required in these rules, unless the physician order specifies otherwise. In the event an audiogram is provided by the physician, this testing requirement is waived. All records provided to the licensed hearing aid specialist will be maintained in the individual’s records in accordance with the record-keeping requirements in these rules.

123.2(3) Whenever any of the following conditions are found to exist either from observations by the licensed hearing aid specialist or person holding a temporary permit or on the basis of information furnished by a prospective hearing aid user, the hearing aid specialist or person holding a temporary permit will, prior to fitting and selling a hearing aid to any individual, suggest to that individual in writing that the individual should consult a licensed physician specializing in diseases of the ear, or if no such licensed physician is available in the community, then a duly licensed physician:

- a. Visible congenital or traumatic deformity of the ear.
- b. History of, or active drainage from the ear within the previous 90 days.
- c. History of sudden or rapidly progressive hearing loss within the previous 90 days.
- d. Acute or chronic dizziness.
- e. Unilateral hearing loss of sudden or recent onset within the previous 90 days. Significant air-bone gap (greater than or equal to 15dB ANSI 500, 1000 and 2000 Hz. average).
- f. Obstruction of the ear canal by structures of undetermined origin, such as foreign bodies, impacted cerumen, redness, swelling, or tenderness from localized infections of the otherwise normal ear canal.

123.2(4) Testing is not required in cases in which replacement hearing aids of the same make or model are sold within one year of the original sale, unless a medical evaluation occurs during this period, which requires compliance with the requirements stated in 123.2(2).

123.2(5) Except as otherwise provided in these rules, for individuals younger than 18 years of age, all of the requirements stated in these rules are applicable. In addition, the following are required:

- a. Written authorization of a parent or legal guardian consenting to the services covered in these rules, and
- b. An original signature on all documents required by law or these rules to be signed, including all sales transactions and receipts, required notifications, and warranty agreements.

123.2(6) For individuals 12 years of age or younger, all of the requirements stated in these rules are applicable. In addition, the parent or legal guardian must first present a written, signed recommendation for a hearing aid from a licensed physician specializing in otolaryngology. The recommendation must have been made within the preceding six months. In the event of a lost or damaged hearing aid, a replacement of an identical hearing aid may be provided within one year, unless a medical evaluation occurs during this period, which requires compliance with the requirements stated in 123.2(2).

645—123.3(154A) Requirements for sales receipt. Upon sale of a hearing aid device, the licensee shall provide to the person a sales receipt, which will include the following:

1. Licensee's signature.
2. Licensee's business address.
3. Licensee's license number.
4. Client signature and address.
5. Make, model, and serial number of the hearing aid furnished.
6. Statement to the effect that the aid or aids delivered to the purchaser are used or reconditioned, if that is the fact.
7. Full terms of sale, including:
 - The date of sale;
 - Specific warranty terms, including whether any extended warranty is available through the manufacturer;
 - Specific return policy; and
 - Whether any trial period is available.
8. The following statement in type no smaller than the largest used in the body copy portion of the receipt: "The purchaser has been advised that any examination or representation made by a licensed hearing aid specialist in connection with the fitting or selection and selling of this hearing aid is not an examination, diagnosis, or prescription by a person licensed to practice medicine in this state and therefore, must not be regarded as medical opinion or advice."

645—123.4(154A) Requirements for record keeping. A licensee shall keep and maintain records in the licensee's office or place of business at all times, and each such record shall be kept and maintained for a seven-year period.

123.4(1) The records for each person will include:

- a.* A complete record of each test performed and the results of the test.
- b.* A copy of any written recommendations.
- c.* A copy of medical clearances or waivers.
- d.* A copy of the written sales receipt.
- e.* A copy of terms of sale, including any warranty. A record of any adjustments or services provided on the hearing aid device, including whether such services were provided under warranty or other agreement.
- f.* A notation that the client consented, either verbally or in writing, to a service or services provided through a telehealth appointment, if applicable.

123.4(2) No less than 30 days prior to closure of a licensee's business, the licensee will provide written notification to clients of the location at which records will be maintained for a period of no less than 30 days following closure and the procedure to obtain those records. The licensee may arrange the transfer of records to another licensee for the purpose of maintenance of the records, provided that all contractual agreements have been satisfied.

645—123.5(154A) Telehealth appointments. A licensee may conduct a telehealth appointment so long as the services are provided in accordance with this rule.

123.5(1) A "telehealth appointment" is one wherein the licensee provides testing or adjustment services to a client using technology where the hearing aid specialist and the client are not at the same physical location during the appointment.

123.5(2) Conducting a telehealth appointment with a client who is physically located in Iowa during the appointment, regardless of the location of the hearing aid specialist, requires Iowa licensure.

123.5(3) When conducting a telehealth appointment, a licensee will utilize technology that is secure, HIPAA-compliant, and that includes, at a minimum, audio and video equipment that allows for two-way, real-time interactive communication between the licensee and the client. The licensee may use non-real-time technologies to prepare for an appointment or to communicate with clients between appointments.

123.5(4) A licensee who conducts a telehealth appointment will be held to the same standard of care as a licensee who provides in-person services. A licensee will not utilize a telehealth appointment if the standard of care for the particular service cannot be met using telehealth technology.

123.5(5) Prior to the first telehealth appointment with a client, the licensee will obtain informed consent from the client that is specific to the service or services that will be provided in the telehealth appointment. The informed consent will specifically inform the client of, at a minimum, the following:

- a.* The risks and limitations of the use of technology to the specific service;
- b.* The potential for unauthorized access to protected health information; and
- c.* The potential for disruption of technology during a telehealth appointment.

123.5(6) A licensee will only conduct a telehealth appointment if the licensee is competent to provide the particular service using telehealth technology. A licensee's competence to provide a particular service using telehealth technology will be established by the licensee's education, training, and experience.

123.5(7) A licensee who conducts a telehealth appointment will note in the client's record that the service or services were provided through a telehealth appointment.

These rules are intended to implement Iowa Code chapter 154A.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 124
“Discipline for Hearing Aid Specialists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.76, 272C.2 and 272C.3
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 154A and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:50 a.m.

6200 Park Avenue
Des Moines, Iowa
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Purpose and Summary

The proposed rulemaking provides protection to Iowans because it publicly defines required professional standards for hearing aid specialists. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, licensees can be subject to discipline against their license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board of Hearing Aid Specialists has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the hearing aid specialist profession and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. The rule in this chapter is related to standard of care, so there would be a cost to the practitioner in taking the needed time to review prevailing standards of care. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.33 full-time equivalent (FTE) position. This additionally includes responding to questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operation of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rule is to ensure public safety and maintain a high level of care for Iowans. The Board receives a low number of complaints. In 2022, there were a total of five complaints submitted. Discipline is pending for three of those, one is awaiting resolution of criminal charges and another is closed with no probable cause. Hearing aid dispensing is a very small profession at approximately 435 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, dispensing hearing aids is a form of health care that requires a level of skill, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes the benefits achieved justify the low cost because dispensing hearing aids is a form of health care that requires a level of skill.

The Board has not identified a less restrictive alternative for public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.33 FTE position. This includes responding to questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Due to

the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal.

Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operation of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. No disciplinary fees have been paid into the General Fund yet for 2022 because discipline is pending.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of hearing aid dispensing requires skill and knowledge. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received five complaints and issued three public disciplinary actions. Hearing aid dispensing is a very small profession at approximately 435 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, dispensing hearing aids is a form of health care that requires a level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative for public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the hearing aid dispenser profession and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the hearing aid dispenser profession and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rule relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rule is meant to ensure public safety in terms of practice standards for hearing aid specialists. While some hearing aid specialists may be running a small business of their own, some also work for large hospitals, clinics and retailers. To exempt small businesses from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 124 and adopt the following new chapter in lieu thereof:

CHAPTER 124
DISCIPLINE FOR HEARING AID SPECIALISTS

645—124.1(154A,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 645—124.3(154A,272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 645—Chapter 13:

124.1(1) Failure to comply with the current Code of Ethics of the International Hearing Society. The board hereby adopts by reference the current Code of Ethics of the International Hearing Society, available at www.ihsinfo.org.

124.1(2) Advertising that hearing testing or hearing screening is a medical examination used to diagnose or refer.

124.1(3) Except in cases of selling replacement hearing aids of the same make or model within one year of the original sale, a hearing aid will not be sold without adequate diagnostic testing and evaluation using established procedures to assess hearing needs as defined in 645—Chapter 123. Testing equipment will be calibrated to current standards at least annually or more often if necessary. The distributor will keep with the testing equipment a certificate indicating the date of calibration.

This rule is intended to implement Iowa Code chapters 147, 154A and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 131
“Licensure of Massage Therapists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 152C.3, 272C.3, 272C.4, 147.36, and 272C.10

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 152C, 272C, 147, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 a.m.

6200 Park Avenue
Des Moines, Iowa
meet.google.com/vic-ewjz-qdz
Phone: 1.336.515.0134
PIN: 836 758 241#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

Proposed Chapter 131 sets minimum standards for entry into the massage therapy profession. Iowa residents, licensees and employers benefit from the rules because they articulate the processes by which individuals apply for licensure as a massage therapist in Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the public has minimum competency. Requirements include the application process, minimum educational qualifications and exam requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee. The application fee is \$120, and the renewal fee is \$60. These costs are comparable to surrounding states. The Nebraska application fee is \$110, Illinois is \$175, Missouri is \$125, South Dakota is \$165 and Wisconsin is \$150. Illinois applicants also incur a fingerprinting fee of approximately \$60.

The licensee would also have costs related to educational requirements and examination requirements. The average cost for education (Iowa requires a minimum of 600 hours of education) is \$12,608. The examination fee is \$265. These costs are comparable to surrounding states. The average cost for education in Nebraska is \$15,000 (Nebraska requires a minimum of 1,000 hours of education),

and the examination fee is \$265. In Illinois, the average cost for education is \$14,150 (Illinois requires a minimum of 600 hours of education), and the examination fee is \$265. In Missouri, the average cost for education is \$14,433 (Missouri requires a minimum of 500 hours of education), and the examination fee is \$265. In South Dakota, the average cost for education is \$8,200 (South Dakota requires a minimum of 500 hours of education), and the examination fee is \$265. In Wisconsin, the average cost for education is \$11,825 (Wisconsin requires a minimum of 500 hours of education), and the examination fee is \$265.

Iowa's initial licensure application process is similar to those implemented by other state boards of massage therapy. Some states, such as Nebraska, require applicants to also pass a state jurisprudence examination.

Board staff review applications for initial and renewal licenses, answer inquiries on licensing and field phone calls. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.25 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed chapter. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners. According to the Federation for State Massage Therapy Boards (FSMTB), Iowa is one of 47 states in the U.S. that regulates massage therapy.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The average cost for education (Iowa requires a minimum of 600 hours of education) is \$12,608. The examination fee is \$265.

Licensing fees include a \$120 application fee and a \$60 renewal fee.

- Qualitative description of impact:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals and reinstatements. Staff salaries to support the work of the Board are covered by the Fund. It takes roughly 0.25 FTE to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. It takes roughly 0.25 of an FTE position review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rule provides consistency related to the licensure of massage therapists in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of massage therapists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario, including the possibility of an increase in human trafficking and illicit massage establishments in Iowa.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of massage therapists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario, including the possibility of an increase in human trafficking and illicit massage establishments in Iowa.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of massage therapists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario, including the possibility of an increase in human trafficking and illicit massage establishments in Iowa.

Due to state government alignment this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for massage therapists. Many massage therapists run a small business of their own. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 131 and adopt the following **new** chapter in lieu thereof:

MASSAGE THERAPISTS

| | |
|-------------|---|
| CHAPTER 131 | LICENSURE OF MASSAGE THERAPISTS |
| CHAPTER 132 | MASSAGE THERAPY EDUCATION CURRICULUM |
| CHAPTER 133 | CONTINUING EDUCATION FOR MASSAGE THERAPISTS |
| CHAPTER 134 | DISCIPLINE FOR MASSAGE THERAPISTS |

CHAPTER 131
LICENSURE OF MASSAGE THERAPISTS

645—131.1(152C) Definitions.

“*Anniversary month*” means the month the license was issued by the board.

“*Board*” means the Iowa board of massage therapy.

“*Board-approved school*” means a school for massage therapy education that provides at least 600 hours of supervised academic instruction; has been recognized as legitimate by the board in the state where the school is located or in the state where the school was located if the school has since closed; has been recognized by a similar board in another jurisdiction that licenses massage therapists if massage therapy is not a licensed profession in the state where the school is located; and has not been denied, suspended, or revoked by the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB).

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Issuing jurisdiction*” means the duly constituted authority in another state that has issued a massage therapy license to a person.

“*Licensee*” means any person licensed to practice as a massage therapist in the state of Iowa.

“*License expiration date*” means the fifteenth day of the anniversary month every two years.

“*Massage therapy*” means performance for compensation of massage, myotherapy, massotherapy, bodywork, bodywork therapy, or therapeutic massage including hydrotherapy, superficial hot and cold applications, vibration and topical applications, or other therapy which involves manipulation of the muscle and connective tissue of the body, excluding osseous tissue, to treat the muscle tonus system for the purpose of enhancing health, providing muscle relaxation, increasing range of motion, reducing stress, relieving pain, or improving circulation.

645—131.2(272C) Licensure by examination. A person who has completed the curriculum at a board-approved school may seek licensure in accordance with this rule.

131.2(1) Submit the following:

a. A completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.8(147). Official copies of academic transcripts sent directly to the board by the

board-approved school. If a school has closed and is no longer operational, the board will accept an official transcript provided by the applicant.

b. Proof of passing any National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) examination or the Massage and Bodywork Licensing Examination (MBLE_x) sent directly from the testing authority to the board. The passing score on the written examination is the passing point criterion established by the testing authority at the time the test was administered.

c. If the applicant has been issued one or more licenses to practice massage therapy by other issuing jurisdictions, verification of licenses from every jurisdiction in which the applicant has been licensed, sent directly from the issuing jurisdiction(s) to the board. Web-based verification may be substituted for verification from the jurisdiction's board office if the verification provides:

- (1) The licensee's name;
- (2) The date of initial licensure;
- (3) The applicant's current licensure status; and
- (4) Any disciplinary action taken against the license.

131.2(2) An applicant who has relocated to Iowa from a state that did not require licensure to practice massage therapy may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 645—19.2(272C).

645—131.3(152C) Educational qualifications for foreign-trained massage therapists. Prospective applicants who completed their education outside of the United States may receive credit for their education, provided they comply with the following:

131.3(1) Provide an equivalency evaluation of their educational credentials by one of the following entities demonstrating the curriculum is equivalent to that stated in these rules. The applicant bears the expense of the curriculum evaluation.

a. International Education Research Foundation, Inc., Credentials Evaluation Service, P.O. Box 3665, Culver City, CA 90231-3665; telephone (310)258-9451; website www.ierf.org.

b. International Credentialing Associates, Inc., 7245 Bryan Dairy Road, Bryan Dairy Business Park II, Largo, FL 33777; telephone (727)549-8555.

c. Josef Silny & Associates, Inc., 7101 SW 102nd Avenue, Miami, FL 33173; telephone (305)273-1616; website jsilny.org.

131.3(2) Provide a notarized copy of the certificate or diploma awarded to the applicant from a massage therapy program in the country in which the applicant was educated.

131.3(3) Receive a final determination from the board that the applicant's education is acceptable.

645—131.4(152C) Licensure by endorsement.

131.4(1) A person who has been issued a license to practice massage therapy by another issuing jurisdiction may seek licensure in accordance with this rule.

131.4(2) Submit the following:

a. A completed online application for licensure and pay nonrefundable licensure fee specified in rule 645—5.8(147).

b. Official copies of academic transcripts sent directly to the board by the board-approved school. If a school has closed and is no longer operational, the board will accept an official transcript provided by the applicant.

c. Proof of passing any National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) examination or the Massage and Bodywork Licensing Examination (MBLE_x) sent directly from the testing authority to the board. The passing score on the written examination is the passing point criterion established by the testing authority at the time the test was administered.

d. Proof that the licensure requirements in the issuing jurisdiction are equal to or exceed the requirements provided in rule 645—131.2(152C).

e. Verification of license(s) from every jurisdiction in which the applicant has been licensed, sent directly from the issuing jurisdiction(s) to the board. Web-based verification may be substituted for verification from the issuing jurisdiction's board office if the verification provides:

- (1) The licensee's name;
- (2) The date of initial licensure;
- (3) The applicant's current licensure status; and
- (4) Any disciplinary action taken against the license.

645—131.5(152C) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—131.6(152C) Temporary license. A person who is licensed to practice massage therapy in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement, and who does not seek licensure by verification, may be issued a temporary license in accordance with this rule.

131.6(1) An applicant for temporary license shall submit the following:

a. A completed online application for licensure and pay nonrefundable licensure fee specified in rule 645—5.8(147).

b. Verification of license(s) from every jurisdiction in which the applicant has been licensed, sent directly from the issuing jurisdiction(s) to the board. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification provides:

- (1) Licensee's name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license.

c. A plan for meeting all remaining requirements for licensure within one year of issuance of the temporary permit. Such a plan will include proof of enrollment in a school of massage therapy whose curriculum has been approved by the board, the date of enrollment, and the expected date of graduation.

131.6(2) A temporary license is valid for a period of up to one year and will not be renewed.

131.6(3) A temporary license holder shall be issued a permanent license upon the board's receipt of the following:

a. Official copies of academic transcripts sent directly to the board by the board-approved school demonstrating completion of all remaining hours of education for licensure.

b. Proof of passing any National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) examination or the Massage and Bodywork Licensing Examination (MBLEx) sent directly from the testing authority to the board. The passing score on the written examination is the passing point criterion established by the testing authority at the time the test was administered.

645—131.7(152C) License display. The license certificate and proof of active licensure will be displayed in a conspicuous public place at their primary site of practice.

645—131.8(152C) License renewal.

131.8(1) The biennial license renewal period begins on the sixteenth day of the anniversary month and ends on the fifteenth day of the anniversary month two years later. The licensee is responsible for renewing the license prior to its expiration.

131.8(2) Continuing education does not need to be completed during the first biennial license renewal period and is not a prerequisite for the first renewal of a license.

131.8(3) A licensee seeking renewal shall comply with the following before the license expiration date:

a. Submit a completed renewal application and renewal fee specified in rule 645—5.8(147), before the license expiration date; and

b. Meet the continuing education requirements of rule 645—133.2(152C) and the mandatory reporting requirements of subrule 131.8(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation.

131.8(4) Mandatory reporter training.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities examines, attends, counsels, or treats children and dependent adults in Iowa shall complete the applicable department of health and human services' training related to the identification and reporting of child and dependent adult abuse as required by Iowa Code section 232.69(3) "b." The licensee will indicate on the renewal application completion of such training.

b. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

- (1) Is engaged in active duty in the military service of this state or the United States; or
- (2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill the requirements due to a physical or mental disability or illness as provided in rule 645—4.14(272C).

c. The board may select licensees for audit of compliance with the requirements of this subrule.

131.8(5) Issuing renewals. Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license renewal. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

131.8(6) Late renewal. A license not renewed by the expiration date will be assessed a late fee as specified in 645—subrule 5.8(4). Completion of renewal requirements and submission of the late fee within the grace period are needed to renew the license.

131.8(7) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a massage therapist in Iowa until the license is reactivated. A licensee who practices as a massage therapist in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—131.9(17A,147,272C) License reactivation.

131.9(1) A person whose license is inactive may apply to reactivate the license in accordance with this rule.

131.9(2) The licensee shall submit all of the following:

a. A completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.8(147). If the license has been inactive for five years or less, submission of:

- (1) Proof of completion of 16 hours of continuing education within two years of application; and
- (2) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license.

b. If the license has been on inactive status for more than five years, submission of:

- (1) Proof of completion of 16 hours of continuing education within two years of application;
- (2) Proof of two years of active, licensed practice in another issuing jurisdiction immediately prior to submitting the application, or proof of passing one of the following examinations within two years of submitting the application:

1. The National Certification Examination for Therapeutic Massage (NCETM);
2. The National Certification Examination for Therapeutic Massage and Bodywork (NCETMB);
3. The National Examination for States Licensing (NESL) option; or

4. The Massage and Bodywork Licensing Examination (MBLEx); and
- (3) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:
 1. Licensee's name;
 2. Date of initial licensure;
 3. Current licensure status; and
 4. Any disciplinary action taken against the license.

645—131.10(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and, if applicable, must apply for and be granted reactivation of the license in accordance with rule 645—131.9(17A,147,272C) prior to practicing as a massage therapist in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 152C, and 272C.

Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

Proposed Chapter 132 sets minimum standards for the education provided to massage therapists. Iowa residents, licensees and employers benefit from the chapter since it articulates the processes by which schools can be recognized as an approved massage therapy school with an approved massage therapy curriculum. This includes ensuring the school meets curriculum requirements and student clinical practicum standards, as well as appropriate retention of school records. These requirements ensure public safety by setting standards that will allow schools to graduate students into the profession with the minimum competency needed to safely serve the public.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant because compliance with the minimum requirements for curriculum approval is at the expense of the school/owner.

Iowa currently has 21 massage therapy schools with approved curricula. The curriculum approval application fee is \$120, and approval is valid for up to two years. Documents required for approval include the school catalog, a description of the curriculum delivery system, course descriptions, and program accreditation or approval by other professional entities, as well as a sample diploma and a sample transcript.

Costs to the agency are staff salaries to support the work of the Board of Massage Therapy, which are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes less than 0.05 full-time equivalent (FTE) position to review curriculum approval materials. Curriculum approval fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of the chapter is to set minimum standards for the education provided to massage therapists. Iowa residents, licensees and employers benefit from the chapter because it articulates the processes by which schools can be recognized as having an approved massage therapy curriculum, and as an approved massage therapy school. This includes ensuring the school meets curriculum requirements and student clinical practicum standards, as well as appropriate retention of school records. These requirements ensure public safety by setting standards that will allow schools to graduate students into the profession with the minimum competency needed to safely serve the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is no direct cost to the general public, but there is a cost to the applicant because compliance with the minimum requirements for curriculum approval is at the expense of the school/owner.

Iowa currently has 21 massage therapy schools with approved curricula. The curriculum approval application fee is \$120, and approval is valid for up to two years. Documents required for approval include the school catalog, a description of the curriculum delivery system, course descriptions, and program accreditation or approval by other professional entities, as well as a sample diploma and a sample transcript.

Costs to the agency are staff salaries to support the work of the Board of Massage Therapy, which are covered by the Fund. It takes less than 0.05 full-time equivalent (FTE) position to review curriculum approval materials. Curriculum approval fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing minimum education requirements ensures that practitioners are competent to practice. Without having an established threshold for education of the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to approve education curricula because approval ensures that Iowans are treated by competent and qualified practitioners.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Staff salaries to support the work of the Board are covered by the Fund. It takes less than 0.05 full-time equivalent (FTE) position to review curriculum approval materials. Curriculum approval fees go to the Fund to cover the operations of the regulated professional licensing boards.

Reviews are completed at the time of initial application and renewal. If a concern were to arise regarding the quality or legitimacy of an application, the application may be forwarded to the full Board for additional review prior to approval.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual massage therapy schools seeking curriculum approval, not the State. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Establishing minimum education requirements ensures that practitioners are competent to practice. Without having an established threshold for education of the profession, individuals who are not

appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to approve education curricula because approval ensures that Iowans are treated by competent and qualified practitioners.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to ensuring competency and protecting the public. Establishing minimum education requirements ensures that practitioners are competent to practice. Without having an established threshold for education of the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to approve education curricula because approval ensures that Iowans are treated by competent and qualified practitioners.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current internal process utilized for curriculum approval. Existing staff within the agency perform the curriculum review, and the internal time commitment is not such that outsourcing either task would result in the elimination of agency staff; outsourcing would only lead to additional costs borne by an external service provider. In addition, the chapter outlines standards related to the education and licensure of massage therapists, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for curriculum approval. Existing staff within the agency perform the curriculum review, and the internal time commitment is not such that outsourcing either task would result in the elimination of agency staff; outsourcing would only lead to additional costs borne by an external service provider. In addition, the chapter outlines standards related to the education and licensure of massage therapists, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for massage therapists, many of whom are running a small business of their own. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 132 and adopt the following **new** chapter in lieu thereof:

CHAPTER 132
MESSAGE THERAPY EDUCATION CURRICULUM

645—132.1(152C) Definitions.

“Approved curriculum” means that the massage therapy education course of study meets the criteria specified in this chapter and has been approved by the board of massage therapy.

“Board” means the board of massage therapy.

“Clinical practicum” means hands-on massage therapy provided to members of the public by a student who is enrolled at a massage therapy school and is under the supervision of an instructor who is an Iowa-licensed massage therapist, is physically present on the premises and is available for advice and assistance. “Clinical practicum” does not include classroom practice.

“Course of study” means a series of classroom courses, not including continuing education, which is approved by the board as having a unified purpose in training individuals toward a certificate, degree or diploma in the practice of massage therapy.

645—132.2(152C) Application for approval of massage therapy education curriculum.

132.2(1) Applications for curriculum approval of in-state massage therapy schools will be submitted online with the accompanying fee. Curriculum approval is valid for up to two years with reapplication for approval due June 30 of each even-numbered year. The biennial renewal cycle begins July 1 of an even-numbered year and ends June 30 two years later. Schools that receive curriculum approval within six months prior to the start of the next biennial renewal cycle do not need to reapply for curriculum approval until the following even-numbered year.

132.2(2) The application for curriculum approval includes the following:

- a. A completed board-approved application form;
- b. The curriculum approval application fee as specified in 645—Chapter 4;
- c. A completed Curriculum Criteria and Documentation form;
- d. The current school catalog, including name of the program(s), a description of the curriculum delivery system, course descriptions, and program accreditation or approval by other professional entities; and
- e. A sample diploma and a sample transcript that identify the name of the graduate, name of the program, graduation date, and the degree, diploma or certificate awarded.

132.2(3) Out-of-state school curriculum will be reviewed on a case-by-case basis upon receipt of the curriculum as a part of an individual’s application for licensure to practice massage therapy in the state of Iowa.

132.2(4) Massage therapy schools that do not renew curriculum approval by the expiration date shall be removed from the board’s list of approved curriculum providers until such time that they comply with curriculum approval requirements.

132.2(5) Schools that apply for curriculum approval shall, at a minimum, provide a curriculum that meets the requirements of this chapter, offer a course of study of at least 600 clock hours or the equivalent in academic credit hours, and require for entrance into the massage therapy school graduation from high school or its equivalent.

645—132.3(152C) Curriculum requirements. An approved curriculum will include but not be limited to the following content areas:

1. Massage Theory and Principles.
2. Massage Professional Practices.
3. The Therapeutic Relationship.
4. Anatomy, Physiology, and Pathology.
5. Assessment and Documentation.
6. Massage and Bodywork Application.
7. Palpation and Movement.
8. Adapting Sessions for Clients.
9. Career Development.
10. Iowa Law and Professional Ethics.

645—132.4(152C) Student clinical practicum standards.

132.4(1) The school must provide clinical practicum hours at the school's primary location or an event sponsored by the school.

132.4(2) At all times when the student delivers physical contact with the public or other students, a clinical instructor/supervisor who is an Iowa-licensed massage therapist shall be personally in attendance to supervise and evaluate.

132.4(3) Students shall complete at least 200 hours of coursework in the content areas of fundamentals of massage therapy and assessment that includes indications and contraindications for treatment prior to providing services to the public and beginning the clinical practicum. Included in this 200 hours will be a minimum of 100 hours in anatomy and physiology, which includes the structure and function of the human body and common pathologies.

132.4(4) The clinical practicum shall not exceed 25 percent of a program's total required hours.

645—132.5(152C) School records retention. Records documenting the student's completion of the curriculum will be maintained for two years following the student's graduation date. In the event of school closure, the board will be notified of the location of the records.

645—132.6(152C) Massage school curriculum compliance.

132.6(1) A school will maintain curriculum records and make the records available to the board upon request.

132.6(2) A school whose curriculum is approved shall notify the board in writing within 30 days if there is a change of address, a school closing, or a curriculum revision that does not meet the requirements of this chapter.

132.6(3) Each student who successfully completes curriculum requirements will be awarded a certificate or diploma that includes the student's legal name, date of graduation, the name of the program, and the degree or certificate awarded. The school will also provide them with an official transcript that includes the student's legal name and date of graduation.

645—132.7(152C) Denial or withdrawal of approval.

132.7(1) The board will deny or withdraw approval of a school curriculum if the board determines the curriculum does not meet the requirements of this chapter.

132.7(2) The board will notify the school in writing if the board denies or withdraws curriculum approval. Following denial or withdrawal of approval by the board, the school may request that the board reconsider its decision. The board in its sole discretion shall determine whether to grant such a request.

These rules are intended to implement Iowa Code chapter 152C.

Purpose and Summary

Proposed Chapter 133 sets forth continuing education requirements for massage therapists. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet to comply with the chapter, and the types of continuing education courses and activities that are permissible. The intended benefit of continuing education is to ensure massage therapists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the public. There is a direct cost to the licensee who must pay for the continuing education required. Private industry offers these courses, so the Board of Massage Therapy is not privy to exact costs. Based on research, the Board estimates the cost to be between \$240 and \$640, every two years, for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. An executive officer supports the full scope of work of this Board at approximately 0.39 full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that massage therapists understand best practices in an evolving field, which allows them to provide the best care to Iowans and potentially reduces the number of complaints.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry offers these courses, so the Board of Massage Therapy is not privy to exact costs. Based on research estimates, the cost is between \$240 and \$640, every two years, for a licensee to meet these requirements. Currently, Iowa requires 16 hours of continuing education every two years for these license types.

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. An executive officer supports the full scope of work of this board at approximately 0.39 FTE position. Staff salaries to support the work of the Board are covered by the Fund.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.39 FTE position, which includes questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. Iowa requires 16 hours of continuing education every two years for this license type. Representatives of the Board reviewed the required hours and did not support reducing them.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

A reduction in continuing education hours would result in a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required for massage therapists. Iowa requires 16 hours of continuing education for this license type every two years, as does Nebraska. Illinois requires 24 hours every two years, and Missouri requires 12 hours yearly. Representatives of the Board reviewed the required hours and did not support reducing them.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring if the Board would recommend lowering the continuing education requirements. The Board has considered a change of the total continuing education hours, the frequency and the safety of the public. While the Board is not inclined at this time to make changes, it will consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter maintains the number of continuing education hours. The cost of continuing education is estimated at \$15 to \$40 per hour. Massage therapists practice in a number of settings, but many own their own small businesses. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

A reduction in continuing education hours would result in a loss of revenue for the private industry organizations that offer these continuing education programs. These may also be offered by small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 133 and adopt the following **new** chapter in lieu thereof:

CHAPTER 133 CONTINUING EDUCATION FOR MASSAGE THERAPISTS

645—133.1(152C) Definitions.

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period or the selection of providers for verification of adherence to continuing education provider requirements during a specified time period.

“*Board*” means the board of massage therapy.

“*Continuing education*” means planned, organized learning acts acquired during initial licensure designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hands-on training*” means learning techniques that manipulate the soft tissue of the body.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as a massage therapist in the state of Iowa.

“*Presenter*” means person(s)/instructor(s) providing continuing education training.

645—133.2(152C) Continuing education requirements. Each biennium, each person who is licensed to practice as a massage therapist in this state shall be required to complete a minimum of 16 hours of continuing education. A biennium is a two-year period beginning with the date the license was granted.

133.2(1) The biennial continuing education compliance period runs concurrently with each two-year renewal period. The renewal period begins on the date the initial license is granted and ends two years later on the day before the anniversary date of that initial license.

133.2(2) Requirements for new licensees. Those persons licensed for the first time are not required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal period may be used.

133.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity meeting the requirements of this chapter. These hours must be in accordance with these rules.

133.2(4) No hours of continuing education will be carried over into the next renewal period. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

133.2(5) The cost of continuing education is the responsibility of each licensee.

645—133.3(152C,272C) Continuing education criteria.

133.3(1) General criteria. A continuing education activity which meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters which integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides proof of attendance to licensees in attendance, including:
 - (1) Date, location, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course from the course sponsor.

133.3(2) Specific criteria. A licensee shall obtain a minimum of 16 hours of continuing education credit every two years. A minimum of 8 hours of the 16 hours must be hands-on training. A maximum of 8 hours of the 16 hours may be independent study. Licensees may obtain continuing education hours of credit by:

- a.* Attending workshops, conferences, or symposiums.
- b.* Accessing online training, such as viewing interactive conferences, attending webinars, or completing online training courses.
- c.* Teaching curriculum at a school of massage therapy or presenting professional continuing education programs that meet the criteria listed in this subrule. One hour of credit will be awarded for each hour of presentation. A course schedule or brochure must be maintained for audit. A maximum of 4 hours may be awarded under this paragraph per biennium.
- d.* Completing academic courses that directly relate to the professional competency of the licensee. Official transcripts indicating successful completion of academic courses that apply to the field of massage therapy will be necessary in order for the licensee to receive the following continuing education credits:
 - 1 academic semester hour = 15 continuing education hours of credit
 - 1 academic trimester hour = 12 continuing education hours of credit
 - 1 academic quarter hour = 10 continuing education hours of credit
 - 1 academic clock hour = 1 continuing education hour of credit
- e.* Teaching in an approved college, university, or graduate school. The licensee may receive the following continuing education credits:
 - 1 academic semester hour = 15 continuing education hours of credit
 - 1 academic trimester hour = 12 continuing education hours of credit
 - 1 academic quarter hour = 10 continuing education hours of credit
- f.* Authoring research the results of which are published in a recognized professional publication. The licensee will receive 5 hours of credit per page.
- g.* Taking courses directly beneficial to business practices necessary for operating a massage practice. Content areas include, but are not limited to, business management, financial management, accounting, tax preparation, marketing, human relations, communication skills, business ethics, and massage ethics.
- h.* Taking courses related to personal skills topics, such as career burnout, communication skills, human relations, and other like topics.
- i.* Completing programs which enhance a supplemental or complementary skill set directly related to promoting the public health while providing massage therapy. Content areas include, but are not limited to, CPR, first aid, contraindication training, sanitation, and geriatric care.
- j.* Completing mandatory reporter training pursuant to Iowa Code sections 232.69 and 235B.16. One hour of credit will be awarded for each hour of completed mandatory reporter training.
- k.* Passing a board-approved national examination administered by the Federation of State Massage Therapy Boards or the National Certification Board for Therapeutic Massage and Bodywork within the biennial continuing education compliance period. A copy of the applicant's official notification may be used by the board as verification.

These rules are intended to implement Iowa Code chapters 21, 147, 152C and 272C.

Regulatory Analysis

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this regulatory analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

Proposed Chapter 134 provides protection to both the public and licensees because it publicly defines the need to obtain a massage therapy license in order to practice massage therapy, hold oneself out to the public as a massage therapist, or employ someone to provide these services, as directed in Iowa Code section 152C.4. Iowans have the ability to submit a complaint of unlicensed practice to the Board of Massage Therapy, who can then investigate the allegation and impose civil penalties, ensuring that the public is protected and licensed massage therapists are not competing against unlicensed individuals.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only the civil penalties that may be imposed when persons imply or represent themselves, or an individual they employ, to be massage therapists when they are not licensed. This is unique to the massage therapy profession and excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, there is a potential cost to those holding themselves or their employees out to be massage therapists if they are not licensed. Those practicing without a license

may be required to pay a civil penalty, up to \$10,000. The Board has statutory authority to impose a civil penalty on individuals practicing without a license.

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when someone practices massage therapy without a license. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.39 full-time equivalent (FTE) position. This additionally includes responding to questions from the public and licensees on items such as licensure requirements, practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this chapter is to ensure public safety and maintain a high level of care for Iowans. In the first eight months of 2023, the Board received 22 complaints and took one public action for advertising and practicing without a license. While the number of complaints, when compared to the 3,200 massage therapy licensees, could call into question the extent to which a profession needs to be regulated, massage therapy is technical in nature, practitioners are serving clients who are vulnerable (often alone, partially or fully disrobed, and lying down), and the majority of the complaints received are related to sexual boundary violations or unlicensed practice. To protect the public and licensees, the Board believes that regulation is necessary. Additionally, the chapter satisfies the statutory requirement.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Costs associated with the number of complaints submitted are relatively low. The Board believes that the benefits achieved justify the low cost because ensuring that massage therapists are adequately educated and trained protects the public from harm.

The Board has not identified a less restrictive alternative to public protection. Exemptions already exist in statute that allow those providing services like reflexology and energy work to do so without a massage therapy license. There could be a consideration for allowing complaints about unlicensed practice or those falsely representing themselves or others to be massage therapists to be investigated by law enforcement, but the Board believes that the ability to impose civil penalties is important in order to reduce the risk of Iowans receiving massage therapy services from those who may be incompetent or even predatory.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when someone practices massage therapy without a license. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.39 FTE position. This additionally includes responding to questions from the public and licensees on items such as licensure requirements, practice standards, continuing education, Board meeting administration, etc. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are minimal.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$500 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs are extremely low. In the first eight months of 2023, the Board received 22 complaints and took one public action for advertising and practicing without a license. While the number of complaints, when compared to the 3,200 massage therapy licensees, could call into question the extent to which a profession needs to be regulated, massage therapy is technical in nature, practitioners are serving clients who are vulnerable (often alone, partially or fully disrobed, and lying down), and the majority of the complaints received are related to sexual boundary violations or unlicensed practice. To protect the public and licensees, the Board believes that regulation is necessary. Additionally, the chapter satisfies the statutory requirement.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. Exemptions already exist in statute that allow those providing services like reflexology and energy work to do so without a massage therapy license. There could be a consideration for allowing complaints about unlicensed practice or those falsely representing themselves or others to be massage therapists to be investigated by law enforcement, but the Board believes that the ability to impose civil penalties is important in order to reduce the risk of Iowans receiving massage therapy services from those who may be incompetent or even predatory.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only the civil penalties that may be imposed when persons imply or represent themselves, or an individual they employ, to be massage therapists when they are not licensed. This is unique to the massage therapy profession and excluded from the general disciplinary chapter.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only the civil penalties that may be imposed when persons imply or represent themselves, or an individual they employ, to be massage therapists when they are not licensed. This is unique to the massage therapy profession and excluded from the general disciplinary chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for massage therapists, many of whom are running a small business of their own. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 134 and adopt the following **new** chapter in lieu thereof:

CHAPTER 134
DISCIPLINE FOR MASSAGE THERAPISTS

645—134.1(152C) Civil penalties.

134.1(1) Civil penalties may be imposed upon a person or business that employs an individual who is not licensed as a massage therapist. Civil penalties may be imposed upon a person or business that employs an individual who uses the initials “L.M.T.” or the words “licensed massage therapist,” “massage therapist,” “masseur,” or “masseuse,” or any other words or titles which imply or represent that the employed person practices massage therapy but who is not licensed as a massage therapist. Failure to follow the above may result in:

- a. A civil penalty not to exceed \$1,000 on a person or business that violates this rule:
 - (1) Each violation is a separate offense.
 - (2) Each day a continued violation occurs after citation by the board is a separate offense with the maximum penalty not to exceed \$10,000;
- b. The board’s inspection of any facility which advertises or offers services purporting to be delivered by massage therapists;
- c. A citation being sent to the alleged violator by certified mail, return receipt requested; and
- d. The board’s consideration of the following in determining civil penalties:
 - (1) Whether the amount imposed will be a substantial economic deterrent to the violation.
 - (2) The circumstances leading to or resulting in the violation.
 - (3) The severity of the violation and the risk of harm to the public.
 - (4) The economic benefits gained by the violator as a result of noncompliance.
 - (5) The welfare or best interest of the public.

134.1(2) Civil penalties may be imposed upon a person who is practicing as a massage therapist without a license. Civil penalties may be imposed upon a person who practices as an individual and uses the initials “L.M.T.” or the words “licensed massage therapist,” “massage therapist,” “masseur,” or “masseuse,” or any other words or titles which imply or represent that the person practices massage therapy but who is not licensed as a massage therapist. A person must be licensed as a massage therapist to practice in this state as a massage therapist. Failure to follow the above may result in:

- a. A civil penalty not to exceed \$1,000 on a person who violates this rule:
 - (1) Each violation is a separate offense.
 - (2) Each day a continued violation occurs after citation by the board is a separate offense with the maximum penalty not to exceed \$10,000;

b. The board's inspection of any facility which advertises or offers services purporting to be delivered by massage therapists;

c. A citation being sent to the alleged violator by certified mail, return receipt requested;

d. The board's consideration of the following in determining civil penalties:

(1) Whether the amount imposed will be a substantial economic deterrent to the violation.

(2) The circumstances leading to or resulting in the violation.

(3) The severity of the violation and the risk of harm to the public.

(4) The economic benefits gained by the violator as a result of noncompliance.

(5) The welfare or best interest of the public.

134.1(3) Issuing an order or citation.

a. The board shall provide a written notice and the opportunity to request a hearing on the record.

b. The hearing must be requested within 30 days of the issuance of the notice and shall be conducted according to Iowa Code chapter 17A.

c. The board may, in connection with a proceeding under this subrule, issue subpoenas to require the attendance and testimony of witnesses and the disclosure of evidence and may request the attorney general to bring an action to enforce the subpoena.

134.1(4) Judicial review.

a. A person aggrieved by the imposition of a civil penalty under this rule may seek a judicial review in accordance with Iowa Code section 17A.19.

b. The board shall notify the attorney general of the failure to pay a civil penalty within 30 days after entry of an order or within 10 days following final judgment in favor of the board if an order has been stayed pending appeal.

c. The attorney general may commence an action to recover the amount of the penalty, including reasonable attorney fees and costs.

d. An action to enforce an order under this rule may be joined with an action for an injunction.

134.1(5) A person is not in violation of the statute or rules if that person practices massage therapy for compensation while in attendance at a school offering a curriculum meeting the requirements of 645—Chapter 132 and is under the supervision of a member of the school's faculty.

These rules are intended to implement Iowa Code chapters 147, 152C, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 141
“Licensure of Nursing Home Administrators”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 155 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 155 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
11:30 a.m.

6200 Park Avenue
Des Moines, Iowa 50321
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

These proposed rules set minimum standards for entry into the nursing home administrator profession. Iowa residents, licensees and employers benefit from the rules because they articulate the processes by which individuals apply for licensure as a nursing home administrator in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualification and exam requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee.

Educational requirements to become an Iowa licensed nursing home administrator are a bachelor's degree as well as a practicum or an administrator-in-training program. Applicants must also pay applicable fees and pass an examination in order to obtain a license. The examination fees are \$440 for the CORE and NHA examinations through the National Association of Long Term Care Administrator Boards (NAB).

The application fee is \$120, and the renewal fee is \$60.

These costs are comparable to, or less than, those of surrounding states. The examination fee is the same for all states since it is a national exam. In Nebraska, applicants must pay the application fee of \$166. In Minnesota, applicants must pay an application fee of \$150.

Board of Nursing Home Administrators staff review applications for initial and renewal licenses, and for licensure reinstatement. Board staff also answer inquiries on licensing and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.45 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The cost for examinations required is \$440, depending on which examination the applicant takes. Licensing fees are \$156 for an initial license and \$60 for each renewal period.

- Qualitative description of impact:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. Licensing requirements in Iowa are very similar to those in surrounding states.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals, reactivations and reinstatements. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. It takes approximately 0.45 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees, not the State. There is no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Licensing is the highest form of regulation. Lower forms of regulation could be viable, such as registration. That said, nursing home administrators are licensed in all 50 states. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar

of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of nursing home administrators in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the State of Iowa are similar to those of surrounding states. The surrounding states all require similar licensing procedures for nursing home administrators.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to the licensure of nursing home administrators. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of nursing home administrators in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize Board processes across all professional licensing boards. These rule edits support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a less restrictive alternative to the licensure of nursing home administrators. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. In addition, the rulemaking provides consistency related to the licensure of nursing home administrators in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a less restrictive alternative to the licensure of nursing home administrators. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of nursing home administrators in other states, which makes obtaining licensure in multiple states simpler for applicants.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for nursing home administrators. Many nursing homes are owned by larger corporations, but there are a few smaller nursing homes where administrators are employed. Smaller nursing homes, especially in rural areas, are struggling to maintain licensed administrators. The Board was in agreement to extend the provisional license from 12 to 24 months. This does require a statute change as well as Iowa Code section 155.9, which only allows for 12 months. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 141 and adopt the following **new** chapter in lieu thereof:

NURSING HOME ADMINISTRATORS

CHAPTER 141 LICENSURE OF NURSING HOME ADMINISTRATORS
 CHAPTER 142 RESERVED
 CHAPTER 143 CONTINUING EDUCATION FOR NURSING HOME ADMINISTRATION
 CHAPTER 144 DISCIPLINE FOR NURSING HOME ADMINISTRATORS

CHAPTER 141
 LICENSURE OF NURSING HOME ADMINISTRATORS

645—141.1(155) Definitions. For purposes of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Administrator*” means a licensed nursing home administrator.

“*Board*” means the board of nursing home administrators.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*HSE*” means a Health Services Executive as designated by the National Association of Long Term Care Administrator Boards.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Licensee*” means any person licensed to practice as a nursing home administrator in the state of Iowa.

“*License expiration date*” means December 31 of odd-numbered years.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice nursing home administration to an applicant who is or has been licensed in another state.

“*NAB*” means National Association of Long Term Care Administrator Boards.

“*Preceptor*” means a person who is currently licensed as a nursing home administrator and is approved by the department to supervise a person in a mentoring or administrator training program.

“*Provisional license*” means a license issued to an administrator appointed on a temporary basis to perform the duties of a nursing home administrator.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—141.15(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions.

645—141.2(155) Requirements for licensure. The following criteria shall apply to licensure:

141.2(1) Submit a completed online application and pay the nonrefundable licensure fee specified in rule 645—5.10(147,155);

141.2(2) Provide verification of certification as an HSE through NAB;

141.2(3) Provide verification of the following:

a. Transcripts verifying a baccalaureate or post baccalaureate degree sent directly from an accredited college or university;

b. Passing score on all required national NAB exams must meet all other licensure requirements to be approved to take the exam;

c. Completion of one of the following:

(1) Administrator training program;

(2) Practicum in long-term health care completed through an accredited college or university; or

(3) 2,080 hours of long-term health care administration may be approved by the board.

141.2(4) An applicant who has been licensed in another state will provide verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction's board office if it provides:

a. Licensee's name;

b. Date of initial licensure;

c. Current licensure status; and

d. Any disciplinary action taken against the licensee.

645—141.3(147,155) Foreign-trained applicants. Foreign-trained nursing home administrators will:

141.3(1) Provide an equivalency evaluation of their educational credentials by International Educational Research Foundation, Inc., Credentials Evaluation Service. A candidate will be responsible for the expense of the curriculum evaluation.

141.3(2) Provide a copy of the certificate or diploma awarded to the applicant from a nursing home administration program in the country in which the applicant was educated.

141.3(3) Provide satisfactory evidence of completion of administrator training program, practicum or 2,080 hours of work experience in long-term health care administration.

645—141.4(155) Preceptor qualifications.

141.4(1) Current licensure and at least two years of experience as a nursing home administrator.

141.4(2) Completion of a preceptor training course in the 12 months immediately prior to the preceptorship.

141.4(3) Preceptor has not had his or her nursing home administrator license disciplined, limited, suspended, or placed on probation during the one year immediately prior to the application to act as a preceptor.

141.4(4) Is not related to the training administrator.

645—141.5(155) Provisional license. A provisional license may be issued to an administrator appointed on a temporary basis to perform the duties of a nursing home administrator. A provisional license is considered a temporary appointment, and the person appointed may serve as an administrator for a period of time not to exceed 12 months in an entire career. The 12 months in service are not required to be consecutive; however, a new application is required for each appointment period. It is the responsibility of the approved provisional administrator to maintain documentation of the actual dates the administrator serves in that capacity.

141.5(1) The limited circumstances under which the request for a provisional appointment will be granted include the inability of the licensed administrator to perform the administrator's duties, the death of the licensed administrator, or circumstances which prevent the immediate transfer of the licensed

administrator's duties to another licensed administrator. A provisional license will not be issued to a licensed nursing home administrator.

141.5(2) Application for a provisional license shall be in writing on forms prescribed by the board. Applicants will meet the following minimum qualifications:

- a.* Be at least 18 years of age.
- b.* Be employed on a full-time basis of no less than 40 hours per week to perform the duties of the nursing home administrator.
- c.* Be knowledgeable about the nursing home administrator's domains of practice including resident care; human resources; finance; physical environment; and leadership and management.
- d.* Be without a history of unprofessional conduct or denial of or disciplinary action against a license to practice nursing home administration or any other profession by any lawful licensing authority for reasons outlined in 645—Chapter 144.
- e.* Provide evidence to establish that the provisional appointment will not exceed the lifetime maximum period of 12 calendar months in duration. For any period in which the applicant previously served as a provisional administrator, written employment verification or a written attestation of the facility owner, chief operating officer, or board officer will satisfy this requirement.
- f.* Provide evidence that the provisional appointment complies with the requirements in 481—subrule 58.8(4). A written attestation of the facility owner, chief operating officer, or board officer will satisfy this requirement.

141.5(3) Applications for an extension of the time period for the provisional appointment within the same facility do not require the payment of an additional fee, as long as all other requirements stated in this rule are met.

141.5(4) The board expressly reserves the right to withdraw approval of a provisional appointment. Withdrawal of approval will be based on information or circumstances warranting such action. The provisional administrator will be notified of the withdrawal of approval in writing by certified mail.

645—141.6(155) Licensure by endorsement.

141.6(1) An applicant who has been a licensed nursing home administrator under the laws of another jurisdiction will file an application for licensure by endorsement with the board office. The board may receive by endorsement any applicant from the District of Columbia or another state, territory, province or foreign country who:

- a.* Meets the requirements of rule 645—141.2(155).
- b.* Provides evidence of an active license as a nursing home administrator for at least two years just prior to application, or meets the qualifications outlined in rule 645—141.4(155).

141.6(2) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—141.7(147,155) License renewal.

141.7(1) The biennial license renewal period for a license to practice nursing home administration will begin on January 1 of each even-numbered year and end on December 31 of the next odd-numbered year. All licensees will renew on a biennial basis. The licensee is responsible for renewing the license prior to its expiration.

141.7(2) An individual who was issued a license within six months of the license renewal date does not need to renew the license until the subsequent renewal two years later.

141.7(3) A licensee applying for renewal shall:

- a.* Meet the continuing education requirements of rule 645—143.2(272C) and the mandatory reporting requirements of subrule 141.9(8). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and
- b.* Submit the completed renewal application and renewal fee before the license expiration date.

141.7(4) A two-year license will be issued after the requirements of the rule are met. If the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

141.7(5) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 645—subrule 5.10(3). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

141.7(6) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a nursing home administrator in Iowa until the license is reactivated.

141.7(7) Licensees will display their license certificate and proof of active licensure will be in a conspicuous public place at the primary site of practice.

141.7(8) Mandatory reporter training requirements.

a. A licensee who examines, attends, counsels, or treats children, dependent adults, or both in the scope of the licensee's professional practice will complete the applicable department of health and human services training relating to the identification reporting of child abuse, dependent adult abuse, or both. Written documentation of training completion should be maintained for three years. The training is not required if the licensee is engaged in active duty military service or holds a waiver demonstrating a hardship in complying with these training requirements.

b. The board may select licensees for audit of compliance with the requirements in subrule 141.7(8).

645—141.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

141.8(1) Submit a completed online reactivation application and pay the nonrefundable application fee.

141.8(2) Provide verification of current competence to practice as a nursing home administrator by satisfying the following criteria:

a. Verification of the license from the jurisdiction in which the applicant has most recently been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

- (1) Licensee's name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license; and

b. Verification of completion of 40 hours of continuing education within two years of the application for reactivation or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

645—141.9(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to practicing as a nursing home administrator in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 155, and 272C.

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
11:30 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321

Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

This proposed rulemaking sets forth continuing education requirements for nursing home administrators. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rules, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that nursing home administrators maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses, so the Board of Nursing Home Administrators is not privy to exact costs, but based on research, the Board estimates the cost to be around \$462 to \$640 every two years for a licensee to meet these requirements

through the National Association of Long Term Care Administrator Boards (NAB). The cost is \$13 to \$16 per 1.25 continuing education units (CEUs), or a bundle of 12 CEUs could be completed for \$109. There are multiple other entities which also provide continuing education.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that nursing home administrators maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry including educational institutions, professional associations, and businesses offer these courses, so the Board is not privy to exact costs, but based on research, the Board estimates the cost to be around \$462 to \$640 every two years for a licensee to meet these requirements. There are multiple entities which provide continuing education courses to licensees.

The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 40 hours of continuing education for these license types every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit, because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.45 full-time equivalent (FTE) position, which includes questions from the public and licensees on matters such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is not an anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board did not recommend a reduction in hours as Iowa's requirements are comparable to those of the surrounding states.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. A review of surrounding states has shown that other states have similar requirements per renewal cycle. Currently, Iowa requires 40 hours of continuing education for these license types every two years. Illinois requires 36 hours. Nebraska, Minnesota, Missouri and South Dakota all require 40 hours. Kansas requires 50 hours of continuing education.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board did not recommend a reduction in the number of continuing education hours. Iowa's continuing education hours are in line with those of other states in this region. While the Board is not inclined at this time to make changes, it will consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did not recommend a reduction in the number of continuing education hours. Iowa's continuing education hours are in line with those of other states in this region. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The cost of continuing education is estimated at \$13 to \$16 per 1.25 CEUs. Nursing home administrators practice in nursing homes only. While there are a few smaller nursing homes where administrators are employed, many are owned by larger corporations.

Conversely, the entities that provide continuing education may face a negative impact on their revenue due to less demand for entities' continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 143 and adopt the following **new** chapter in lieu thereof:

CHAPTER 143 CONTINUING EDUCATION FOR NURSING HOME ADMINISTRATION

645—143.1(272C) Definitions. For the purpose of these rules, the following definitions will apply:

“Active license” means the license is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Continuing education*” means planned, organized learning acts designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as a nursing home administrator in the state of Iowa.

“*National Continuing Education Review Service (NCERS)*” means the continuing education review service operated by the National Association of Long Term Care Administrator Boards.

645—143.2(272C) Continuing education requirements.

143.2(1) The biennial continuing education compliance period will extend for a two-year period beginning on January 1 of each even-numbered year and ending on December 31 of the next odd-numbered year. Each biennium, each person who is licensed to practice as a licensee in this state will be required to complete a minimum of 40 hours of continuing education. Continuing education hours do not carry over.

143.2(2) Requirements of new licensees. Those persons licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

143.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity.

143.2(4) The licensee is responsible for the cost of continuing education.

645—143.3(155,272C) Standards.

143.3(1) General criteria. A continuing education activity which meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Is an organized program of learning fundamental to the practice of the profession which contributes directly to the professional competency of the licensee;
- b. Is conducted by individuals who have specialized education, training and experience in the subject matter of the program;
- c. Fulfills stated program goals, objectives, or both; and
- d. Provides proof of attendance including:
 - (1) Date(s), location, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

143.3(2) Specific criteria. Licensees may obtain continuing education hours of credit by:

a. Participating in the continuing education programs approved by the National Continuing Education Review Service (NCERS).

b. Academic coursework that meets the criteria set forth in these rules. Continuing education credit equivalents are as follows:

1 academic semester hour = 15 continuing education hours

1 academic quarter hour = 10 continuing education hours

c. Attendance at or participation in a program or course which meets the requirements in 143.3(1).

d. Making presentations; conducting research; producing publications; preparing new courses; participating in home study courses; attending electronically transmitted courses; and attending workshops, conferences, or symposiums.

e. Self-study coursework that meets the criteria set forth in these rules. Continuing education credit equivalent for self-study is as follows:

180 minutes of self-study work = 1 continuing education hour

The maximum number of hours for self-study, including television viewing, video or sound-recorded programs, correspondence work, or research, or by other similar means which is not directly sponsored by and supervised by an accredited postsecondary college or university or NCERS, is eight hours.

645—143.4(155,272C) Exemptions. A licensee is exempt from the continuing education requirement when that person:

1. Served honorably on active duty in the military service;
2. Resided in another state with continuing education requirements that the applicant met;
3. Was a government employee working in the licensee's specialty and assigned to duty outside the United States; or
4. Has a disability, illness, or primary caregiver status requiring an extension of time or exemption upon approval by the board office.

These rules are intended to implement Iowa Code section 272C.2 and chapter 155.

6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

The proposed rulemaking provides protection to Iowans as it publicly defines disciplinary options when a nursing home administrator fails to provide the standard of care. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, licensees can be subject to discipline against their license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board of Nursing Home Administrators has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the nursing home administrator profession and are therefore excluded from the general disciplinary chapter. The grounds for discipline required in this rulemaking are related to falsification of

facts contained in application documents or misappropriation of resident funds and are required by Iowa Code chapter 155.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. The rule in this chapter is related to standard of care, so there would be a cost to the practitioner in taking the needed time to review prevailing standards of care for nursing home administrators. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.45 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees on matters such as practice standards, continuing education, Board meeting administration, etc. Due to the high number of complaints associated with this Board, costs specific to managing complaints and investigations are higher than those of other boards. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rule is to ensure public safety and maintain a high level of care for Iowans. The Board receives a high number of complaints. In 2022, there were a total of 51 complaints submitted. Two of those have had disciplinary action while others have had letters of warning, letters of education, remedial letters or been closed with no probable cause. There are approximately 912 licensed nursing home administrators or provisional administrators. The Board believes that the high number of complaints and the vulnerable nature of the population served demonstrates that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Costs specific to managing complaints and investigations are higher for this Board due to the number of complaints, but the Board believes that the benefits achieved justify the costs due to the population served and nature of the complaints. Nursing home administrators serve one of the most vulnerable populations and the severity of complaints is often higher.

There is a potential cost to licensees where disciplinary action is taken against them, with disciplinary fines being capped at \$1,000 per public order.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and

the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.45 FTE position. Due to the high number of complaints associated with this Board, costs specific to managing complaints and investigations are higher than those of some other boards.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$0 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are a high number of complaints associated with this Board, costs are higher than those of some other boards. The Board believes the benefits achieved justify the costs due to the population served and nature of the complaints. Nursing home administrators serve one of the most vulnerable populations and the severity of complaints is often higher.

The Board receives a high number of complaints. In 2022, there were a total of 51 complaints submitted. Two of those have had disciplinary action while others have had letters of warning, letters of education, remedial letters or been closed with no probable cause. There are approximately 912 licensed nursing home administrators or provisional administrators. The Board believes that the high number of complaints and the vulnerable nature of the population served demonstrates that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the nursing home administrator profession and are therefore excluded from the general disciplinary chapter. The grounds for discipline required in this rule are related to falsification of facts contained in application documents or misappropriation of resident funds and are required by Iowa Code chapter 155.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The specific ground for discipline required in this rule is related to falsification of facts contained in application documents or misappropriation of resident funds and are required by Iowa Code chapter 155.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rule relates to high-stakes public safety concerns which are present whether the business is a small business or a large organization. The rule is meant to ensure public safety in terms of practice standards for nursing home administrators. While there are a few smaller nursing homes where administrators are employed, many are owned by large corporations. To exempt small businesses from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 144 and adopt the following new chapter in lieu thereof:

CHAPTER 144
DISCIPLINE FOR NURSING HOME ADMINISTRATORS

645—144.1(155,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 645—13.3(155,272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 645—Chapter 13.

144.1(1) Any falsification or misrepresentation contained in any report or document attesting to the facts, conditions and activities of the internship or work experience and submitted by the applicant, administrator/preceptor or other participants may be grounds for denial of license or for suspension or revocation of the nursing home administrator license in addition to the imposition of fines and any other penalties provided by law.

144.1(2) Misappropriation of resident funds or facility funds.

This rule is intended to implement Iowa Code chapters 147, 155 and 272C.

Regulatory Analysis

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

These proposed rules set minimum standards for entry into the optometry profession. Iowa residents, licensees and employers benefit from the rules because they articulate the processes by which individuals apply for licensure as an optometrist in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee.

Optometrists are required to confer a doctoral degree from a Board of Optometry-approved school of optometry. The average cost for a licensee to earn a degree is \$42,000 to \$74,800 for residents and \$89,600 to \$173,600 for non-residents. Applicants must also pay applicable fees and pass an examination in order to obtain a license. The examination fees are \$4,725 for the national examination through the National Board of Examiners in Optometry (NBEO).

The application fee is \$300 and the renewal fee is \$144.

These costs are comparable to surrounding states. In Nebraska, applicants must pay \$4,725 for the national examination through the NBEO, and an application fee of \$166 and renewal fee of \$166 as well as \$45.25 for fingerprints. In Minnesota, applicants must pay \$4,725 for the national examination through the NBEO and \$25 for the state exam. The application fee is \$283.25 (including fingerprints) and \$200 for renewal.

Board staff review applications for initial and renewal licenses and for licensure reinstatement. Board staff also answer inquiries on licensing and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.20 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the costs to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The cost for the examination required is \$4,725. Licensing fees are \$300 for an initial license and \$144 for each renewal period.

- Qualitative description of impact:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners. Licensing requirements in Iowa are very similar to those in surrounding states.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals, reactivations and reinstatements. Staff salaries to support the work of the Board are covered by the Fund. It takes roughly 0.20 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board has not identified a less restrictive alternative to the licensure of optometrists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of optometrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the state of Iowa are similar to those in surrounding states. The surrounding states all require similar licensing procedures for optometrists.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to the licensure of optometrists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of optometrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing. DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize Board processes across all professional licensing boards. These rule revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a less restrictive alternative to the licensure of optometrists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of optometrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a less restrictive alternative to the licensure of optometrists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of optometrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for optometrists. While some optometrists likely are running a small business of their own, some also work for large corporations, hospitals and other medical facilities. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 180 and adopt the following **new** chapter in lieu thereof:

OPTOMETRISTS

CHAPTER 180 LICENSURE OF OPTOMETRISTS
 CHAPTER 181 CONTINUING EDUCATION FOR OPTOMETRISTS
 CHAPTER 182 PRACTICE OF OPTOMETRISTS
 CHAPTER 183 DISCIPLINE FOR OPTOMETRISTS

CHAPTER 180
 LICENSURE OF OPTOMETRISTS

645—180.1(154) Definitions. For purposes of these rules, the following definitions will apply:

“*Active license*” means a license that is current and has not expired.

“*Board*” means the board of optometry.

“*CELMO*” means the Council on Endorsed Licensure Mobility for Optometrists.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Licensee*” means any person licensed to practice as an optometrist in the state of Iowa.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice optometry to an applicant who is or has been licensed in another state.

“*Mandatory training*” means training on identifying and reporting child abuse or dependent adult abuse required of optometrists who are mandatory reporters. The full requirements on mandatory reporting of child abuse and the training requirements are found in Iowa Code section 232.69. The full requirements on mandatory reporting of dependent adult abuse and the training requirements are found in Iowa Code section 235B.16.

“*NBEO*” means the National Board of Examiners in Optometry.

“*Optometrist*” means an optometrist who is licensed to practice optometry in Iowa and who is certified by the board of optometry to employ all diagnostic and therapeutic pharmaceutical agents for the purpose of diagnosis and treatment of the conditions of the human eye and adnexa, excluding the use of injections other than to counteract an anaphylactic reaction, and notwithstanding Iowa Code section 147.107, may without charge supply any of the above pharmaceuticals to commence a course of therapy, with the exclusions cited in Iowa Code chapter 154.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—180.5(17A,147,272C) by which an inactive license is restored to active status.

“Reinstatement” means the process as outlined in 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions.

“TPA” means therapeutic pharmaceutical agents.

645—180.2(154) Requirements for licensure.

180.2(1) The following criteria applies to licensure:

a. Submit a completed online application and pay the non-refundable licensure fee specified in rule 645—5.12(147,154).

b. Applicants will submit proof of satisfactory completion of all educational requirements contained in Iowa Code chapter 154 including official copies of academic transcripts sent directly to the board from an accredited school or college of optometry.

c. Applicants will submit proof of passing all current NBEO examinations.

d. An applicant who has been licensed in another state will provide verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction’s board office if the verification provides:

- (1) Licensee’s name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license.

180.2(2) Reserved.

645—180.3(154) Licensure by endorsement.

180.3(1) Applicants who have been licensed as an optometrist in another state may apply for licensure by endorsement by submitting the following:

a. Verification the applicant meets the requirements of rule 645—180.2(154); and

b. Verification of current competence to practice as an optometrist by satisfying one of the following criteria:

- (1) Current CELMO certification;
- (2) Practice as an optometrist for a minimum of 2,080 hours during the preceding two-year period;
- (3) Employment as a faculty member teaching optometry in an accredited school of optometry for at least one academic year during the preceding two-year period;
- (4) Completion of a minimum of 50 hours of continuing education during the preceding two-year period; or
- (5) Passing the NBEO examination during the preceding two-year period.

180.3(2) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—180.4(154) License renewal.

180.4(1) The biennial license renewal period for a license to practice optometry will begin on July 1 of an even-numbered year and end on June 30 two years later. The licensee is responsible for renewing the license prior to its expiration.

180.4(2) An individual who was issued a license within six months of the license renewal date does not need to renew the license until the subsequent renewal two years later.

180.4(3) A licensee applying for renewal will:

a. Meet the continuing education requirements of rule 645—181.2(154) and the mandatory reporting requirements of subrule 180.5(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

180.4(4) Mandatory reporter training requirements.

a. A licensee who examines, attends, counsels, or treats children, dependent adults, or both in the scope of the licensee's professional practice will complete the applicable department of health and human services training relating to the identification reporting of child abuse, dependent adult abuse, or both. Written documentation of training completion should be maintained for three years. The training is not required if the licensee is engaged in active duty military service or holds a waiver demonstrating a hardship in complying with these training requirements.

b. The board may select licensees for audit of compliance with the requirements in 645—Chapter 181.

180.4(5) A two-year license will be issued after the requirements of the rule are met. If the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

180.4(6) The license certificate and proof of active licensure will be displayed in a conspicuous public place at the primary site of practice.

180.4(7) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 645—subrule 5.12(3). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

180.4(8) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice until the license is reactivated.

645—180.5(17A,147,272C) License reactivation. To apply for reactivation of an inactive license:

180.5(1) Submit a completed online reactivation application and payment of the non-refundable application fee.

180.5(2) If licensed in another jurisdiction, provide verification from the jurisdiction in which the licensee has most recently been licensed showing the licensee's name, date of initial licensure, current licensure status, and any disciplinary action taken against the licensee.

180.5(3) Verification of current competence to practice as an optometrist by satisfying one of the following criteria:

- a.* Practice as an optometrist for a minimum of 2,080 hours during the preceding two-year period;
- b.* Employment as a faculty member teaching optometry in an accredited school of optometry for at least one academic year during the preceding two-year period;
- c.* Completion of a minimum of 50 hours of continuing education during the preceding two-year period; or
- d.* Passing the NBEO examination during the preceding two-year period.

645—180.6(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to practicing as an optometrist in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 154 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 181
“Continuing Education for Optometrists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147, 154 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 154 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
11:50 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

This proposed rulemaking sets forth continuing education requirements for optometrists. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rule, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that optometrists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industries offer these courses so the Board of Optometry is not privy to exact costs but, based on research, the Board estimates costs to be around \$30 to \$70 per hour or \$1,500 to \$3,500 every two years for a licensee to meet these

requirements. Conferences are a continuing education option which may cost significantly more when travel expenses are added. Online or distance learning continuing education will be cheaper. There are multiple entities that provide continuing education courses to licensees, and licensees can select which option they prefer based on cost or modality.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that optometrists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industries, including educational institutions, professional associations, and businesses, offer these courses, so the Board is not privy to exact costs but, based on research, the Board estimates costs to be around \$1,500 to \$3,500 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 50 hours of continuing education for these license types every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.20 full-time equivalent (FTE) position, which includes questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is not an anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board did not recommend a reduction in hours because more required hours allows it to uphold a higher standard of care for the public.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. A review of surrounding states has shown that other states do successfully manage continuing education programs with fewer hours required per renewal cycle. Currently, Iowa requires 50 hours of continuing education for these license types every two years. Illinois requires 30 hours, Missouri requires 32, Minnesota requires 40, Nebraska requires 44, South Dakota requires 45 and Kansas requires 48. After discussions with the Board regarding this topic, Board members were not in agreement on reducing the total number of hours.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring if the Board would recommend lowering the continuing education requirements. The Board has considered a change of the total continuing education hours, the frequency and the safety of the public. While the Board is not inclined at this time to make changes, it will consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The cost of continuing education is estimated at \$30 to \$70 per hour. While some optometrists likely are running a small business of their own, some also work for large corporations, hospitals and other medical facilities. The cost of continuing education could be greater for small business owners as they would be responsible for the entire cost.

Conversely, the entities that provide continuing education may face a negative impact on their revenue due to less demand for entities' continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 181 and adopt the following **new** chapter in lieu thereof:

CHAPTER 181 CONTINUING EDUCATION FOR OPTOMETRISTS

645—181.1(154) Definitions. For the purpose of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of optometry.

“*CELMO*” means the Council on Endorsed Licensure Mobility for Optometrists.

“*Continuing education*” means planned, organized learning acts designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Distance learning*” means a format that provides one-way content to the licensee without immediate interaction with the instructor including but not limited to correspondence courses, online courses and local study group programs.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

“*Interactive online CE*” means the format allows for immediate interaction and feedback between the audience and the instructor.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as an optometrist in the state of Iowa.

645—181.2(154) Continuing education requirements.

181.2(1) The biennial continuing education compliance period will extend for a two-year period beginning on July 1 and ending on June 30 of each even-numbered year. Each biennium, each person who is licensed to practice as an optometrist in this state will be required to complete a minimum of 50 hours of continuing education approved by the board. Continuing education hours cannot be carried over to the next biennium.

181.2(2) Requirements of new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

181.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity.

181.2(4) The licensee is responsible for the cost of continuing education.

645—181.3(154,272C) Standards.

181.3(1) General criteria. A continuing education activity which meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Is an organized program of learning fundamental to the practice of the profession which contributes directly to the professional competency of the licensee;
- b. Is conducted by individuals who have specialized education and training in the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- c. Fulfills stated program goals, objectives, or both; and
- d. Provides proof of attendance including:
 - (1) Date, location, course title, presenter(s);
 - (2) Numbers of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

181.3(2) Specific criteria.

a. Continuing education hours of credit may be obtained by attending:

(1) The continuing education programs of the Iowa Optometric Association, the American Optometric Association, the American Academy of Optometry, and national regional optometric congresses, schools of optometry, all state optometric associations, and any accredited department of ophthalmology;

(2) Postgraduate study through an accredited school or college of optometry;

(3) Meetings or seminars that are approved and certified for optometric continuing education by the Association of Regulatory Boards of Optometry's Council on Optometric Practitioner Education (COPE) committee;

b. The maximum number of hours in each category in each biennium is as follows:

(1) Five hours of credit for distance learning.

(2) Fifteen hours of credit for interactive online CE.

(3) Twenty hours of credit for postgraduate study courses as referenced in subparagraph 181.3(2) "a"(2).

c. Required continuing education hours. Licensees shall provide proof of continuing education in all of the following areas:

(1) Current certification in CPR offered in person by the American Heart Association, the American Red Cross or an equivalent organization. At least two hours per biennium is required, but credit will be granted for four hours.

(2) Training on child abuse and dependent adult abuse identification and reporting through the department of health and human services for all licensees who examine, attend, counsel or treat children or dependent adults in the scope of the professional practice. Initial two-hour courses need to be taken with six months of employment. One-hour recertification training needs to be done every three years.

(3) A minimum of one hour of continuing education per renewal period regarding guidelines for prescribing opioids, including recommendations on limitations on dosages and the length of prescriptions, risk factors for abuse, and nonopioid and nonpharmacologic therapy options. Credit will be granted for up to two hours per renewal period. If the continuing education did not cover the United States Centers for Disease Control and Prevention guideline for prescribing opioids for chronic pain, the licensee shall read the guideline prior to license renewal. "Opioid" means any drug that produces an agonist effect on opioid receptors and is indicated or used for the treatment of pain.

d. Current CELMO certification meets the continuing education requirements for licensees.

These rules are intended to implement Iowa Code section 272C.2 and chapter 154.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 182
“Practice of Optometrists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 154 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 154 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
11:50 a.m.

6200 Park Avenue
Des Moines, Iowa
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing (DIAL) and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

The proposed rulemaking provides Iowans, licensees, and their employers with definitions relevant to the practice of optometrists and requirements for record keeping, prescriptions and the use of injectables. This rulemaking articulates practice standards and provides a scope of practice for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are costs associated with practice standards since there is often time, effort and money associated with compliance. Members of the public would have costs associated with the services they are seeking to receive, which may include an office visit payment or copayment. Requirements for record keeping and electronic prescriptions require staff time and record keeping systems. Optometrists’ use of injectables also requires education and training. Each licensee’s practice has different variables, such as number of clients seen, nature of services provided, how services are delivered, (telehealth or

in person, administrative support). The Board of Optometry does not have a mechanism for estimating what these total costs might be to the public and to the licensee.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this rulemaking. The rulemaking provides standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public is benefited by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are approximately 720 licensed individuals who provide these services to Iowans. There are very few complaints submitted to this Board. In 2022, there were a total of five complaints submitted and the Board issued no public discipline. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important service to Iowans. If this profession were not regulated, it could mean that less skilled individuals would provide this service to Iowans, which would be of concern to the Board. Optometry is regulated in all 50 states.

There are costs associated with this requirement to the public in the form of an office visit payment or copayment for the visit.

Licensees bear costs in the form of licensing fees.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean less skilled individuals providing evaluations and medical interventions to consumers. An error in treatment of an eye condition could lead to significant injury to a consumer.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, questions from licensees and the public, administration of Board meetings, etc. An executive officer supports the work of this Board at approximately 0.20 full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are approximately 720 licensed individuals who provide these services to Iowans. There are very few complaints submitted to this Board. In 2022, there were a total of five complaints submitted and the Board issued no public discipline. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important service to Iowans. If this profession were not regulated, it could mean that less skilled individuals would provide this service to Iowans, which would be of concern to the Board. Optometry is regulated in all 50 states.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current process. Optometry is a medical profession that provides health care to Iowans. Optometrists utilize injectables and prescribe opioids, requiring ongoing monitoring for compliance and meeting practice standards. Optometrists require licensure in all states.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current process. Optometry is a medical profession that provides health care to Iowans. Optometrists utilize injectables and prescribe opioids, requiring ongoing monitoring for compliance and meeting practice standards. Optometrists require licensure in all states.

DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize Board processes across all professional licensing boards. These rule revisions support this effort.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current process. Optometry is a medical profession that provides health care to Iowans. Optometrists utilize injectables and prescribe opioids, requiring ongoing monitoring for compliance and meeting practice standards. Optometrists require licensure in all states.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. While some optometrists likely are running a small business of their own, some also work for large corporations, hospitals and other medical facilities. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 182 and adopt the following new chapter in lieu thereof:

CHAPTER 182 PRACTICE OF OPTOMETRISTS

645—182.1(154) Code of ethics. The board hereby adopts by reference the Code of Ethics of the American Optometric Association as published by the American Optometric Association, 243 North Lindbergh Boulevard, St. Louis, Missouri 63141, modified June 2007.

645—182.2(154,272C) Record keeping. Optometrists will maintain patient records in a manner consistent with the protection of the welfare of the patient. Records will be permanent, timely, accurate, legible, and easily understandable.

182.2(1) Optometrists will maintain optometry records for each patient. The records will contain all of the following:

a. Personal data.

- (1) Name, date of birth, address and, if a minor, name of parent or guardian; and
- (2) Name and telephone number of emergency contact.

b. Optometry and medical history. Optometry records will include information from the patient or the patient's parent or guardian regarding the patient's optometric and medical history. The information will include sufficient data to support the recommended treatment plan.

c. Patient's reason for visit. Optometric records will include the patient's stated visual health care reasons for visiting the optometrist.

d. Clinical examination progress notes. Optometric records will include chronological dates and descriptions of the following:

- (1) Clinical examination findings, tests conducted, and a summary of all pertinent diagnoses;
- (2) Plan of intended treatment and treatment sequence;
- (3) Services rendered and any treatment complications;
- (4) All ancillary testing, if applicable;
- (5) Vision tests completed and visual acuity;
- (6) Name, quantity, and strength of all drugs dispensed, administered, or prescribed; and
- (7) Name of optometrist who performs any treatment or service or who may have contact with a patient regarding the patient's optometric health.

e. Informed consent. Optometric records will include documentation of informed consent for procedure(s) and treatment that have potential serious complications and known risks.

182.2(2) Retention of records. An optometrist will maintain a patient's record(s) for a minimum of five years after the date of last examination, prescription, or treatment. Records for minors will be maintained for, at minimum, one year after the patient reaches the age of majority (18) or five years after the date of last examination, prescription, or treatment, whichever is longer.

Proper safeguards will be maintained to ensure the safety of records from destructive elements.

182.2(3) Electronic record keeping. The requirements of this rule apply to electronic records as well as to records kept by any other means. When electronic records are kept, an optometrist will keep either a duplicate hard-copy record or a back-up unalterable electronic record.

182.2(4) Correction of records. Notations will be legible, written in ink, and contain no erasures or white-outs. If incorrect information is placed in the record, it must be crossed out with a single nondeleting line and be initialed by an optometric health care worker.

182.2(5) Confidentiality and transfer of records. Optometrists will preserve the confidentiality of patient records in a manner consistent with the protection of the welfare of the patient. Upon request of the patient or the patient's new optometrist, the optometrist will furnish such optometry records or copies of the records as will be beneficial for the future treatment of that patient. The optometrist may include a summary of the record(s) with the record(s) or copy of the record(s). The optometrist may charge a nominal fee for duplication of records, but may not refuse to transfer records for nonpayment of any fees. The optometrist may ask for a written request for the record(s).

182.2(6) Retirement or discontinuance of practice. A licensee, upon retirement, or upon discontinuation of the practice of optometry, or upon leaving a practice or moving from a community, will notify all active patients in writing, or by publication once a week for three consecutive weeks in a newspaper of general circulation in the community, that the licensee intends to discontinue the practice of optometry in the community, and will encourage patients to seek the services of another

licensee. The licensee will make reasonable arrangements with active patients for the transfer of patient records, or copies of those records, to the succeeding licensee. "Active patient" means a person whom the licensee has examined, treated, cared for, or otherwise consulted with during the two-year period prior to retirement, discontinuation of the practice of optometry, or leaving a practice or moving from a community.

182.2(7) Nothing stated in these rules will prohibit a licensee from conveying or transferring the licensee's patient records to another licensed optometrist who is assuming a practice, provided that written notice is furnished to all patients.

645—182.3(154) Furnishing prescriptions. Before a licensed optometrist provides a spectacle or contact lens prescription to a patient, the eye examination record will include best-corrected visual acuity with ophthalmic lenses or contact lenses in the lens powers determined by refraction. Each contact lens or ophthalmic spectacle lens/eyeglass prescription by a licensed optometrist must meet the requirements as listed below:

182.3(1) A contact lens prescription will contain the following information:

- a. Date of issuance;
- b. Name and date of birth of patient for whom the contact lens or lenses are prescribed;
- c. Name, address, and signature of the practitioner;
- d. All parameters required to duplicate properly the original contact lens;
- e. A specific date of expiration, not to exceed 18 months, the quantity of lenses allowed and the number of refills allowed; and
- f. At the option of the prescribing practitioner, the prescription may contain fitting and material guidelines and specific instructions for use by the patient.

182.3(2) Release of contact lens prescription.

a. After the contact lenses have been adequately adapted and the patient released from initial follow-up care by the prescribing practitioner, the prescribing practitioner will provide a copy of the contact lens prescription, at no cost, for the duplication of the original contact lens. A licensed optometrist may refuse to provide a copy of the contact lens prescription if the patient has not paid the fees associated with the exam from which the prescription was generated including applicable contact lens fitting fees.

b. A practitioner choosing to issue an oral prescription will furnish the same information required for the written prescription except for the written signature and address of the practitioner. An oral prescription may be released by an O.D. to any dispensing person who is a licensed professional with the O.D., M.D., D.O., or R.Ph. degree or a person under direct supervision of those licensed under Iowa Code chapter 148, 154 or 155A.

c. The issuing of an oral prescription will be followed by a written copy to be kept by the dispenser of the contact lenses until the date of expiration.

182.3(3) An ophthalmic spectacle lens prescription will contain the following information:

- a. Date of issuance;
- b. Name and date of birth of the patient for whom the ophthalmic lens or lenses are prescribed;
- c. Name, address, and signature of the practitioner issuing the prescription;
- d. All parameters necessary to duplicate properly the ophthalmic lens prescription;
- e. A specific date of expiration not to exceed two years; and
- f. A dispenser of ophthalmic materials, in spectacle or eyeglass form, must keep a valid copy of the prescription on file for two years.

182.3(4) Release of ophthalmic lens prescription.

a. The ophthalmic lens prescription will be furnished upon request at no additional charge to the patient. A licensed optometrist may refuse to provide a copy of the ophthalmic lens prescription if the patient has not paid the fees associated with the exam from which the prescription was generated.

b. The prescription, at the option of the prescriber, may contain adapting and material guidelines and may also contain specific instructions for use by the patient.

c. Spectacle lens prescriptions will be in written format, according to Iowa Code section 147.109(1).

645—182.4(155A) Prescription drug orders. Each prescription drug order furnished by an optometrist in this state will meet the following requirements:

182.4(1) Written prescription drug orders will contain:

- a. The date of issuance;
- b. The name and date of birth of the patient for whom the drug is dispensed;
- c. The name, strength, and quantity of the drug, medicine, or device prescribed;
- d. The directions for use of the drug, medicine, or device prescribed;
- e. The name, address, and written signature of the practitioner issuing the prescription; and
- f. The federal drug enforcement administration number, if required under Iowa Code chapter 124.

182.4(2) The practitioner issuing oral prescription drug orders will furnish the same information required for a written prescription, except for the written signature and address of the practitioner.

182.4(3) Prior to prescribing any controlled substance, an optometrist will review the patient's information contained in the prescription monitoring program database, unless the patient is receiving inpatient hospice care or long-term residential facility care.

182.4(4) Beginning January 1, 2020, every prescription issued for a prescription drug will be transmitted electronically unless exempted pursuant to Iowa Code section 124.308 or 155A.27. Beginning January 1, 2020, a licensee who fails to comply with the electronic prescription mandate may be subject to a nondisciplinary administrative penalty of \$250 per violation, up to a maximum of \$5,000 per calendar year.

645—182.5(154) Use of injectables. A licensed optometrist shall not administer any injection prior to receiving approval from the board. A licensed optometrist may administer only the following injections:

182.5(1) Subconjunctival injections for the medical treatment of the eye.

182.5(2) Intralesional injections for the treatment of chalazia.

182.5(3) Botulinum toxin to the muscles of facial expression innervated by the facial nerve, including for cosmetic purposes.

182.5(4) Injections to counteract an anaphylactic reaction.

182.5(5) Local anesthetics prior to a minor surgical procedure authorized by this chapter.

645—182.6(154) Education and training approval.

182.6(1) The board will not approve the use of injections other than to counteract an anaphylactic reaction unless the licensed optometrist demonstrates to the board sufficient educational or clinical training from a college or university accredited by a regional or professional accreditation organization which is recognized or approved by the Council for Higher Education Accreditation or by the United States Department of Education, or clinical training equivalent to clinical training offered by such an institution.

182.6(2) A licensed optometrist who completes the requirements of rule 645—182.7(154) is deemed approved by the board for use of injectables as outlined in this chapter.

645—182.7(154) Education and training. In order to use injections, a licensed optometrist will be able to show proof of completion of the following requirements for board approval:

182.7(1) Be fully licensed and in good standing within the state of Iowa as a licensed optometrist.

182.7(2) Have completed a total of 24 hours of approved educational training pertaining to injections.

a. At least 4 hours of the 24 hours must be clinical training.

b. At least 5 hours of the 24 hours must pertain to the administration and side effects of injection treatment for botulinum toxin and chalazia.

These rules are intended to implement Iowa Code chapters 154 and 155A.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 183
“Discipline for Optometrists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 154 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 154 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
11:50 a.m.

6200 Park Avenue
Des Moines, Iowa
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

The proposed rulemaking provides protection to Iowans as it publicly defines disciplinary options when an optometrist fails to provide the standard of care. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in Iowa. When professional standards are not met, it can subject a licensee to discipline against a license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board of Optometry has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the optometry professions and are therefore excluded from the general disciplinary chapter. The grounds for discipline required in this rulemaking related to opioid prescribing are required by Iowa Code section 147.162.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. The rule in this chapter is related to standard of care, so there would be a cost to the practitioner in taking the needed time to review prevailing standards of care in medical journals, etc. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this board at approximately 0.20 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rule is to ensure public safety and maintain a high level of care for Iowans. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received five complaints and issued no public discipline. Optometry is a very small profession at approximately 720 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, optometry is a form of medicine that is technical in nature and requires a high level of skill, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of optometry is a form of medicine that requires skill and precision.

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.20 FTE position. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$0 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of optometry is a form of medicine that requires skill and precision. The Board receives a low number of complaints and issues a small number of discipline. In 2022, the Board received five complaints and issued no public discipline. Optometry is a very small profession at approximately 720 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, optometry is a form of medicine that is technical in nature and requires a high level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the optometry professions and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules. The grounds for discipline required in this rule related to opioid prescribing are required by Iowa Code section 147.162.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The specific ground for discipline required in this rule related to opioid prescribing is required by Iowa Code section 147.162.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rule relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rule is meant to ensure public safety in terms of practice standards for optometrists. While some optometrists likely are running a small business of their own, some also work for large organizations, such as hospital systems. To exempt small businesses from adhering to this rule would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 183 and adopt the following **new** chapter in lieu thereof:

CHAPTER 183
DISCIPLINE FOR OPTOMETRISTS

645—183.1(154,272C) Grounds for discipline.

183.1(1) The board may impose any of the disciplinary sanctions provided in rule 645—13.3(147,272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in rule 645—Chapter 13.

183.1(2) Prescribing any controlled substance in dosage amounts that exceed what would be prescribed by a reasonably prudent licensee.

This rule is intended to implement Iowa Code chapters 147, 154 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 200
“Licensure of Physical Therapists and Physical Therapist Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: sections 147.36, 148A, 272C.3, and 272C.10

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148A and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
2:30 to 2:50 p.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Proposed Chapter 200 sets minimum standards of entry into the professions of physical therapist (PT) and physical therapist assistant (PTA). Iowa residents, licensees and employers benefit from this chapter since it clarifies the processes by which licensees may apply for licensure as physical therapists and physical therapist assistants, as directed in statute. The chapter describes the process that will be used to license physical therapists and physical therapist assistants, including renewal and reinstatement, to ensure public safety through review of the integrity and competence of the practitioner. The chapter describes the application process, educational qualifications, and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to an applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee. Licensees have costs related to educational requirements to graduate from a physical therapy program accredited by a national accreditation agency approved by the Board of Physical and Occupational Therapy. The initial license fee for a two-year license to practice to become an Iowa licensed physical therapist and physical therapist assistant is \$175 (which includes a \$120 application for initial licensure and a one-time fee of \$55 for a Federal Bureau of Investigation (FBI) and state criminal background check). Application fees are addressed in rule 645—5.13(147,148A)). Licensees must also pay an examination fee of \$485 for the

National Physical Therapy Examination (NPTE) to the Federation of State Boards of Physical Therapy (FSBPT).

These costs are comparable to surrounding states' licensing fees. Nebraska's two-year license fee is \$178.25 to become a physical therapist and \$135.25 to become a physical therapist assistant (which includes a \$133 PT application for initial licensure, \$90 PTA application for initial licensure, and \$45.25 PT and PTA FBI criminal background check), and the examination fee is \$485 for the NPTE to the FSBPT. Minnesota has an annual license fee of \$243.25 (which includes a \$100 application fee, \$60 annual license, \$50 examination fee per attempt, and one-time fee of \$33.25 for an FBI criminal background check), and the examination fee is \$485 for the NPTE to the FSBPT.

- Classes of persons that will benefit from the proposed rulemaking:

The benefits achieved justify the costs. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners with knowledge of topics pertinent to the profession to ensure the safety and welfare of the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide training for physical therapists and physical therapist assistants. Additional private industries and educational institutions provide examinations and materials for preparation for the examination. Licensing renewal fees are \$60 every two years.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities. This includes reviews at the time of initial application and during reinstatement. Compliance audits are performed randomly on renewed licenses. If a licensee was disciplined in another state, the application may be forwarded to the full Board for additional review prior to initial licensure or licensure reinstatement. Licensure by consent agreements and discipline imposed by the Board are monitored by office staff. Where appropriate, referrals are made to the impaired practitioner program.

An executive officer supports the full scope of this work at 0.22 full-time equivalent (FTE) position. This includes reviews at the time of initial application and during reinstatement. Compliance audits are performed randomly on renewed licenses. Licensees are selected at random by the licensing software algorithm to complete an annual compliance review per Board, sending out letters/emails and evaluating the documentation provided. If a licensee was disciplined in another state, the application may be forwarded to the full Board for additional review prior to initial licensure or licensure reinstatement. Licensure by consent agreements and discipline imposed by the Board are monitored by office staff.

This additionally includes answering from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure minimum competency. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. The cost of inaction would increase the potential for injury to the public that would remain unchecked without review prior to initial licensure, periodic compliance audits and complaint investigation. In addition, the chapter provides consistency related to the licensure of physical therapists and physical therapist assistants across the United States and membership in the Physical Therapy Compact requires the uniform licensure of these providers.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the chapter provides consistency related to the licensure of physical therapists and physical therapist assistants across the United States and membership in the Physical Therapy Compact requires the uniform licensure of these providers.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review and compliance audits. The Board believes all current requirements assure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the chapter provides consistency related to the licensure of physical therapists and physical therapist assistants across the United States and membership in the Physical Therapy Compact requires the uniform licensure of these providers.

DIAL continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These revisions support this effort.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to public safety concerns which are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for physical therapists and physical therapist assistants. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 200 and adopt the following new chapter in lieu thereof:

PHYSICAL AND OCCUPATIONAL THERAPISTS

| | |
|-------------|--|
| CHAPTER 200 | LICENSURE OF PHYSICAL THERAPISTS AND PHYSICAL THERAPIST ASSISTANTS |
| CHAPTER 201 | PRACTICE OF PHYSICAL THERAPISTS AND PHYSICAL THERAPIST ASSISTANTS |
| CHAPTER 202 | DISCIPLINE FOR PHYSICAL THERAPISTS AND PHYSICAL THERAPIST ASSISTANTS |
| CHAPTER 203 | CONTINUING EDUCATION FOR PHYSICAL THERAPISTS AND PHYSICAL THERAPIST ASSISTANTS |
| CHAPTER 204 | RESERVED |
| CHAPTER 205 | RESERVED |
| CHAPTER 206 | LICENSURE OF OCCUPATIONAL THERAPISTS AND OCCUPATIONAL THERAPY ASSISTANTS |
| CHAPTER 207 | CONTINUING EDUCATION FOR OCCUPATIONAL THERAPISTS AND OCCUPATIONAL THERAPY ASSISTANTS |
| CHAPTER 208 | PRACTICE OF OCCUPATIONAL THERAPISTS AND OCCUPATIONAL THERAPY ASSISTANTS |
| CHAPTER 209 | DISCIPLINE FOR OCCUPATIONAL THERAPISTS AND OCCUPATIONAL THERAPY ASSISTANTS |

CHAPTER 200

LICENSURE OF PHYSICAL THERAPISTS AND PHYSICAL THERAPIST ASSISTANTS

645—200.1(147) Definitions. For purposes of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Assistive personnel*” means any person who carries out physical therapy and is not licensed as a physical therapist or physical therapist assistant. This definition does not include students as defined in Iowa Code section 148A.3(2).

“*Board*” means the board of physical and occupational therapy.

“*Department*” means the department of public health.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active. In order to renew a license during the grace period, a licensee is required to pay a late fee.

“*Impairment*” means a mechanical, physiological or developmental loss or abnormality, a functional limitation, or a disability or other health- or movement-related condition.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Licensee*” means any person licensed to practice as a physical therapist or physical therapist assistant in the state of Iowa.

“*License expiration date*” means the fifteenth day of the birth month every two years after initial licensure.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice physical therapy to an applicant who is or has been licensed in another state.

“*Mandatory reporter training*” means the training on identifying and reporting child abuse or dependent adult abuse as required in Iowa Code sections 232.69 and 235B.16.

“*On site*” means:

1. To be continuously on site and present in the department or facility where assistive personnel are performing services;
2. To be immediately available to assist the person being supervised in the services being performed; and
3. To provide continued direction of appropriate aspects of each treatment session in which a component of treatment is delegated to assistive personnel.

“*Physical therapist*” means a person licensed under this chapter to practice physical therapy.

“*Physical therapist assistant*” means a person licensed under this chapter to assist in the practice of physical therapy.

“*Physical therapy*” means the same as defined within Iowa Code section 148A.1.

“*PT*” means physical therapist.

“*PTA*” means physical therapist assistant.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—200.15(17A,147,272C) by which an inactive license is restored to active status.

“*Reciprocal license*” means the issuance of an Iowa license to practice physical therapy to an applicant who is currently licensed in another state which has a mutual agreement with the Iowa board of physical and occupational therapy to license persons who have the same or similar qualifications to those required in Iowa.

“*Reinstatement*” means the process as outlined in 645—11.31(272C). Once the license is reinstated, the licensee may apply for active status.

645—200.2(147) Initial licensure.

200.2(1) *Requirements for licensure.* The applicant shall submit a complete online application and pay the nonrefundable fee specified in rule 645—5.13(147,148A).

200.2(2) If the application is not completed according to the instructions, the application will not be reviewed by the board.

200.2(3) Submit official copies of academic transcripts directly from the school to the board of physical and occupational therapy. An applicant shall demonstrate successful completion of a physical therapy education program accredited by a national accreditation agency approved by the board. No application will be considered by the board until official copies of academic transcripts have been received.

200.2(4) Submit a completed fingerprint card and a signed waiver form to facilitate a national criminal history background check by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI). The cost of the criminal history background check by the DCI and the FBI shall be assessed to the applicant.

200.2(5) Have the testing service send the examination score directly to the board.

200.2(6) Provide verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose

any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- a. Licensee's name;
- b. Date of initial licensure;
- c. Current licensure status; and
- d. Any disciplinary action taken against the renewal date license.

200.2(7) A physical therapist or physical therapist assistant applicant who holds a license in another state shall have:

- a. Completed board-approved continuing education during the immediately preceding two-year period: 40 hours required for the physical therapist license holder and 20 hours required for a physical therapist assistant license holder; or
- b. Practiced for a minimum of 2,080 hours during the immediately preceding two-year period; or
- c. Served the equivalent of one year as a full-time faculty member teaching in an accredited school of physical therapy for at least one of the immediately preceding two years; or
- d. Successfully passed the examination within a period of two years from the date of examination to the time application is completed for licensure.

200.2(8) Submitting complete application materials. An application for a physical therapist or physical therapist assistant license will be considered active for two years from the date the application is received. If the applicant does not submit all materials within this time period or if the applicant does not meet the requirements for the license, the application shall be considered incomplete. An applicant whose application is filed incomplete must submit a new application, supporting materials, and the application fee. The board shall destroy incomplete applications after two years.

200.2(9) A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—200.3(147) Physical therapy compact. The rules of the physical therapy compact commission are incorporated by reference. A physical therapist or physical therapist assistant may engage in the practice of physical therapy in Iowa without a license issued by the board if the individual has a current compact privilege to practice in Iowa issued by the physical therapy compact commission. The state fee for issuance of a compact privilege to practice in Iowa shall be \$60, which will be collected by the physical therapy compact commission. The state fee for issuance of a compact privilege to practice in Iowa shall be waived for an active duty military member or spouse of an individual who is an active duty military member. A physical therapist or physical therapist assistant who practices physical therapy in Iowa using a compact privilege is subject to the rules governing licensees in rule 645—200.6(147) and in 645—Chapters 201 and 202. Complaints, investigations, and disciplinary proceedings involving a compact privilege shall be handled in accordance with Iowa Code chapters 17A and 272C; 2018 Iowa Acts, House File 2425; and the rules in 645—Chapters 9, 11, 12, and 13.

645—200.4(147) Examination requirements for physical therapists and physical therapist assistants. The following criteria shall apply to the written examination(s):

200.4(1) Evidence of having passed the National Physical Therapy Examination (NPTE) or other nationally recognized equivalent examination as defined by the board.

200.4(2) The applicant shall abide by the following criteria:

- a. For examinations taken prior to July 1, 1994, satisfactory completion shall be defined as receiving an overall examination score exceeding 1.5 standard deviations below the national average.
- b. For examinations completed after July 1, 1994, satisfactory completion shall be defined as receiving an overall examination score equal to or greater than the criterion-referenced passing point recommended by the Federation of State Boards of Physical Therapy.

200.4(3) The Federation of State Boards of Physical Therapy (FSBPT) determines the total number of times an applicant may take the examination in a lifetime. The board will not approve an applicant for

testing when the applicant has exhausted the applicant's lifetime opportunities for taking the examination, as determined by FSBPT.

200.4(4) Special accommodations. To eliminate discrimination and guarantee fairness under Title II of the Americans with Disabilities Act (ADA), an individual who has a qualifying disability may request an examination accommodation. The applicant must submit appropriate documentation to FSBPT.

645—200.5(147) Educational qualifications.

200.5(1) The applicant must present proof of meeting the following requirements for licensure as a physical therapist or physical therapist assistant:

a. Educational requirements—physical therapists. Physical therapists shall graduate from a physical therapy program accredited by a national accreditation agency approved by the board.

b. Educational requirements—physical therapist assistants. Physical therapist assistants shall graduate from a PTA program accredited by a national accreditation agency approved by the board.

200.5(2) Foreign-trained applicants.

a. Foreign-trained applicants who do not hold a license in another state or U.S. territory shall:

(1) Submit an English translation and an equivalency evaluation of their educational credentials through the following organization: Foreign Credentialing Commission on Physical Therapy, Inc., 124 West Street South, Third Floor, Alexandria, VA 22314; telephone 703.684.8406; website www.fccpt.org. The credentials of a foreign-educated physical therapist or foreign-educated physical therapist assistant licensure applicant who does not hold a license in another state or territory of the United States and is applying for licensure by taking the examination should be evaluated using the most current version of the Federation of State Boards of Physical Therapy (FSBPT) Coursework Tool (CWT). The professional curriculum must be equivalent to the Commission on Accreditation in Physical Therapy Education standards. An applicant shall bear the expense of the curriculum evaluation.

(2) Submit certified proof of proficiency in the English language by achieving on the Test of English as a Foreign Language Internet-based test (TOEFL iBT test) a total score of at least 89 on the TOEFL iBT test as well as accompanying minimum scores in the four test components as follows: 24 in writing; 26 in speaking; 21 in reading; and 18 in listening. This test is administered by Educational Testing Services, Inc., P.O. Box 6157, Princeton, NJ 08541-6157. An applicant shall bear the expense of the TOEFL iBT test. Applicants may be exempt from the TOEFL iBT test when physical therapy education was completed in a school where the language of instruction in physical therapy was English, the language of the textbooks was English, and the applicant's transcript was in English.

b. Foreign-trained applicants who hold a license in another state or U.S. territory may apply for licensure by endorsement.

645—200.6 Reserved.

645—200.7(147) License renewal.

200.7(1) The biennial license renewal period for a license to practice as a physical therapist or physical therapist assistant shall begin on the sixteenth day of the birth month and end on the fifteenth day of the birth month two years later. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

200.7(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal two years later.

200.7(3) A licensee seeking renewal shall:

a. Meet the continuing education requirements of rule 645—203.2(148A) and the mandatory reporting requirements of subrule 200.9(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

200.7(4) Mandatory reporter training requirements.

a. A licensee who is required by Iowa Code section 232.69 to report child abuse shall indicate on the renewal application completion of training in child abuse identification and reporting as required by Iowa Code section 232.69(3) “*b*” in the previous three years or condition(s) for waiver of this requirement as identified in paragraph “*e*.”

b. A licensee who is required by Iowa Code section 235B.3 or 235E.2 to report dependent adult abuse shall indicate on the renewal application completion of training in dependent adult abuse identification and reporting as required by Iowa Code section 235B.16(5) “*b*” in the previous three years or condition(s) for waiver of this requirement as identified in paragraph “*e*.”

c. The course(s) shall be the curriculum provided by the Iowa department of health and human services.

d. The licensee shall maintain written documentation for three years after mandatory training as identified in paragraphs “*a*” to “*c*,” including program date(s), content, duration, and proof of participation.

e. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in 645—Chapter 4.

f. The board may select licensees for audit of compliance with the requirements in paragraphs “*a*” to “*e*.”

200.7(5) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

200.7(6) Persons licensed to practice as physical therapists or physical therapist assistants shall keep their renewal licenses displayed in a conspicuous public place at the primary site of practice.

200.7(7) Late renewal. The license shall become a late license when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 645—subrule 5.13(4). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

200.7(8) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a physical therapist or a physical therapist assistant in Iowa until the license is reactivated. A licensee who practices as a physical therapist or a physical therapist assistant in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—200.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

200.8(1) Submit a reactivation application on a form provided by the board.

200.8(2) Pay the reactivation fee that is due as specified in 645—subrule 5.13(5).

200.8(3) Provide verification of current competence to practice physical therapy by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has most recently been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in

any other jurisdiction. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 20 hours of continuing education for a physical therapy assistant and 40 hours of continuing education for a physical therapist within two years of application for reactivation; or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has most recently been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 40 hours of continuing education for a physical therapy assistant and 80 hours of continuing education for a physical therapist within two years of application for reactivation; verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation; or evidence of successful completion of the professional examination required for initial licensure completed within one year prior to the submission of an application for reactivation.

645—200.9(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with 645—200.15(17A,147,272C) prior to practicing physical therapy in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 148A and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 201
“Practice of Physical Therapists and Physical Therapist Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 148A, 272C.3, and 272C.10
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148A and
272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
2:30 to 2:50 p.m.

6200 Park Avenue
Video call link: meet.google.com/bfq-qaeb-nwu
Des Moines, Iowa
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Proposed Chapter 201 provides Iowans, licensees, and their employers with practice guidance and requirements for physical therapists and physical therapist assistants. The chapter provides guidance on what is considered appropriate and what is not appropriate practice. Categories include recordkeeping, ethical practice standards, and telehealth visits. The chapter also describes allowed delegation by a supervising physical therapist.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public; licensees may incur costs related to recordkeeping, ethical practice standards, telehealth visits and supervision requirements. Licensees will be responsible for the costs associated with meeting these practice requirements. The Board of Physical and Occupational Therapy recognizes that there are costs associated but is unable to assess the actual cost.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of the practice standard regulations is to ensure public safety and maintain a high level of care for Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board does not have data on the actual costs of implementing the practice standards. The Board has not identified a more cost-effective alternative to the current complaint investigation process.

Practice standards (recordkeeping, code of ethics, telehealth and delegation of supervision requirements) could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting public health and safety of Iowans.

- Qualitative description of impact:

Establishing minimum practice standard requirements ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public that would remain unchecked without a basic understanding of recordkeeping, code of ethics, telehealth and delegation of supervision requirements as outlined in the chapter, as well as complaint investigation.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes investigation of complaints with letters, phone calls and in-person interviews.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing practice standard regulations are paid to private entities that provide the necessary technology for the licensees to comply with telehealth requirements.

Costs to the agency are the staff time needed to manage Board activities. An executive officer supports the full scope of this work at 0.22 full time-equivalent (FTE) position. This additionally includes answering questions from the public and licensees about items such as practice standards, including the code of ethics, recordkeeping, telehealth and delegation of supervision as well as related education requirements, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There would be a loss of revenue for the private industries that provide the equipment and supplies necessary to implement telehealth practices.

Practice standard requirements could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting public health and safety of Iowans.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current complaint investigation process. Practice standard requirements could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting public health and safety of Iowans.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current practice standard requirements that would ensure the same level of safety of Iowans.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
The Board believes that eliminating the practice standard requirements would increase the number of injuries to the public.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The chapter is meant to ensure public safety in terms of recordkeeping, code of ethics, telehealth and delegation of supervision requirements. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 201 and adopt the following **new** chapter in lieu thereof:

CHAPTER 201
PRACTICE OF PHYSICAL THERAPISTS
AND PHYSICAL THERAPIST ASSISTANTS

645—201.1(148A,272C) Code of ethics for physical therapists and physical therapist assistants.

- 201.1(1)** Physical therapy. The practice of physical therapy shall minimally consist of:
- a. Interpreting all referrals;
 - b. Evaluating each patient;
 - c. Identifying and documenting individual patient's problems and goals;
 - d. Establishing and documenting a plan of care;
 - e. Providing appropriate treatment;
 - f. Determining the appropriate portions of the treatment program to be delegated to assistive personnel;
 - g. Appropriately supervising individuals as described in rule 645—200.6(272C);
 - h. Providing timely patient reevaluation;
 - i. Maintaining timely and adequate patient records of all physical therapy activity and patient responses consistent with the standards found in rule 645—201.2(147).
- 201.1(2)** A physical therapist shall:
- a. Not practice outside the scope of the license;
 - b. Inform a referring practitioner when any requested treatment procedure is inadvisable or contraindicated and shall refuse to carry out such orders;

- c.* Not continue treatment beyond the point of possible benefit to the patient or treat a patient more frequently than necessary to obtain maximum therapeutic effect;
- d.* Not directly or indirectly request, receive, or participate in the dividing, transferring, assigning, rebating, or refunding of an unearned fee;
- e.* Not profit by means of credit or other valuable consideration as an unearned commission, discount, or gratuity in connection with the furnishing of physical therapy services;
- f.* Not obtain third-party payment through fraudulent means. Third-party payers include, but are not limited to, insurance companies and government reimbursement programs. Obtaining payment through fraudulent means includes, but is not limited to:
 - (1) Reporting incorrect treatment dates for the purpose of obtaining payment;
 - (2) Reporting charges for services not rendered;
 - (3) Incorrectly reporting services rendered for the purpose of obtaining payment which is greater than that to which the licensee is entitled; or
 - (4) Aiding a patient in fraudulently obtaining payment from a third-party payer;
- g.* Not exercise undue influence on patients to purchase equipment, products, or supplies from a company in which the physical therapist owns stock or has any other direct or indirect financial interest;
- h.* Not permit another person to use the therapist's license for any purpose;
- i.* Not verbally or physically abuse a patient or client;
- j.* Not engage in sexual misconduct. Sexual misconduct includes the following:
 - (1) Engaging in or soliciting a sexual relationship, whether consensual or nonconsensual, with a patient or client;
 - (2) Making sexual advances, requesting sexual favors, or engaging in other verbal conduct or physical contact of a sexual nature with a patient or client;
- k.* Adequately supervise personnel in accordance with the standards for supervision found in rule 645—200.6(272C);
- l.* Assist in identifying a professionally qualified licensed practitioner to perform the service, in the event that the physical therapist does not possess the skill to evaluate a patient, plan the treatment program, or carry out the treatment.

201.1(3) Physical therapist assistants. A physical therapist assistant shall:

- a.* Not practice outside the scope of the license;
- b.* Not obtain third-party payment through fraudulent means. Third-party payers include, but are not limited to, insurance companies and government reimbursement programs. Obtaining payment through fraudulent means includes, but is not limited to:
 - (1) Reporting incorrect treatment dates for the purpose of obtaining payment;
 - (2) Reporting charges for services not rendered;
 - (3) Incorrectly reporting services rendered for the purpose of obtaining payment which is greater than that to which the licensee is entitled; or
 - (4) Aiding a patient in fraudulently obtaining payment from a third-party payer;
- c.* Not exercise undue influence on patients to purchase equipment, products, or supplies from a company in which the physical therapist assistant owns stock or has any other direct or indirect financial interest;
- d.* Not permit another person to use the physical therapist's or physical therapist assistant's license for any purpose;
- e.* Not verbally or physically abuse a patient or client;
- f.* Not engage in sexual misconduct. Sexual misconduct includes the following:
 - (1) Engaging in or soliciting a sexual relationship, whether consensual or nonconsensual, with a patient or client; and
 - (2) Making sexual advances, requesting sexual favors, or engaging in other verbal conduct or physical contact of a sexual nature with a patient or client;
- g.* Work only when supervised by a physical therapist and in accordance with rule 645—200.6(272C). If the available supervision does not meet the standards in rule 645—200.6(272C), the physical therapist assistant shall refuse to administer treatment;

- h.* Inform the delegating physical therapist when the physical therapist assistant does not possess the skills or knowledge to perform the delegated tasks, and refuse to perform the delegated tasks;
- i.* Sign the physical therapy treatment record to indicate that the physical therapy services were provided in accordance with the rules and regulations for practicing as a physical therapist or physical therapist assistant.

645—201.2(147) Recordkeeping.

201.2(1) A licensee shall maintain sufficient, timely, and accurate documentation in patient records. A licensee's records shall reflect the services provided, facilitate the delivery of services, and ensure continuity of services in the future.

201.2(2) A licensee who provides clinical services shall store records in accordance with state and federal statutes and regulations governing record retention and with the guidelines of the licensee's employer or agency, if applicable. If no other legal provisions govern record retention, a licensee shall store all patient records for a minimum of five years after the date of the patient's discharge, or, in the case of a minor, three years after the patient reaches the age of majority under state law or five years after the date of discharge, whichever is longer.

201.2(3) Electronic recordkeeping. The requirements of this rule apply to electronic records as well as to records kept by any other means. When electronic records are kept, the licensee shall ensure that a duplicate hard-copy record or a backup, unalterable electronic record is maintained.

201.2(4) Correction of records.

a. Hard-copy records. Notations shall be legible, written in ink, and contain no erasures or whiteouts. If incorrect information is placed in the record, it must be crossed out with a single nondeleting line and be initialed by the licensee.

b. Electronic records. If a record is stored in an electronic format, the record may be amended with a signed addendum attached to the record.

201.2(5) Confidentiality and transfer of records. Physical therapists and physical therapist assistants shall preserve the confidentiality of patient records. Upon receipt of a written release or authorization signed by the patient, the licensee shall furnish such physical therapy records, or copies of the records, as will be beneficial for the future treatment of that patient. A fee may be charged for duplication of records, but a licensee may not refuse to transfer records for nonpayment of any fees. A written request may be required before transferring the record(s).

201.2(6) Retirement or discontinuance of practice. If a licensee is the owner of a practice, the licensee shall notify in writing all active patients and shall make reasonable arrangements with those patients to transfer patient records, or copies of those records, to the succeeding licensee upon knowledge and agreement of the patient.

201.2(7) Nothing stated in these rules shall prohibit a licensee from conveying or transferring the licensee's patient records to another licensed individual who is assuming a practice, provided that written notice is furnished to all patients.

645—201.3(147) Telehealth visits. A licensee may provide physical therapy services to a patient utilizing a telehealth visit if the physical therapy services are provided in accordance with all requirements of this chapter.

201.3(1) "Telehealth visit" means the provision of physical therapy services by a licensee to a patient using technology where the licensee and the patient are not at the same physical location for the physical therapy session.

201.3(2) A licensee engaged in a telehealth visit shall utilize technology that is secure and HIPAA-compliant and that includes, at a minimum, audio and video equipment that allows two-way real-time interactive communication between the licensee and the patient. A licensee may use non-real-time technologies to prepare for a physical therapy session or to communicate with a patient between physical therapy sessions.

201.3(3) A licensee engaged in a telehealth visit shall be held to the same standard of care as a licensee who provides in-person physical therapy. A licensee shall not utilize a telehealth visit if the standard of care for the particular physical therapy services cannot be met using technology.

201.3(4) Any physical therapist or physical therapist assistant who provides a physical therapy telehealth visit to a patient located in Iowa shall be licensed in Iowa or have a compact privilege issued by the physical therapy compact commission.

201.3(5) Prior to the first telehealth visit, a licensee shall obtain informed consent from the patient specific to the physical therapy services that will be provided in a telehealth visit. At a minimum, the informed consent shall specifically inform the patient of the following:

- a. The risks and limitations of the use of technology to provide physical therapy services;
- b. The potential for unauthorized access to protected health information; and
- c. The potential for disruption of technology during a telehealth visit.

201.3(6) A licensee shall only provide physical therapy services using a telehealth visit in the areas of competence wherein proficiency in providing the particular service using technology has been gained through education, training, and experience.

201.3(7) A licensee shall identify in the clinical record when physical therapy services are provided utilizing a telehealth visit.

645—201.4(147) Delegation by a supervising physical therapist. A supervising physical therapist may delegate the performance of physical therapy services to a physical therapist assistant only if done in accordance with the statutes and rules governing the practice of physical therapy. A physical therapist assistant may assist in the practice of physical therapy only to the extent allowed by the supervising physical therapist. The supervisory requirements stated in this rule are minimal. It is the professional responsibility and duty of the supervising physical therapist to provide the physical therapist assistant with more supervision if deemed necessary in the supervising physical therapist's professional judgment.

201.4(1) *Supervision requirements.* A supervising physical therapist who delegates the performance of physical therapy services to a physical therapist assistant shall provide supervision to the physical therapist assistant at all times when the physical therapist assistant is providing delegated physical therapy services. Supervision means that the physical therapist shall be readily available on site or telephonically anytime the physical therapist assistant is providing physical therapy services so that the physical therapist assistant may contact the physical therapist for advice, assistance, or instruction.

201.4(2) *Functions that cannot be delegated.* The following are functions that only a physical therapist may provide and that cannot be delegated to a physical therapist assistant:

- a. Interpretation of referrals;
- b. Initial physical therapy evaluation and reevaluations;
- c. Identification, determination, or modification of patient problems, goals, and plans of care;
- d. Final discharge evaluation and establishment of a discharge plan;
- e. Delegation of and instruction in the physical therapy services to be rendered by a physical therapist assistant or unlicensed assistive personnel including, but not limited to, specific tasks or procedures, precautions, special problems, and contraindicated procedures; and
- f. Timely review of documentation, reexamination of the patient, and revision of the plan of care when indicated.

201.4(3) *Physical therapist responsibilities.* At all times, the supervising physical therapist shall be responsible for the physical therapy plan of care and for all physical therapy services provided, including all physical therapy services delegated to a physical therapist assistant. In addition, the supervising physical therapist shall:

- a. Be responsible for the evaluation and development of a plan of care for use by the physical therapist assistant; and
- b. Not delegate a physical therapy service that exceeds the competency or skill set of the physical therapist assistant; and
- c. Ensure that a physical therapist assistant holds an active physical therapist assistant license issued by the board or a compact privilege; and

- d.* Ensure that a physical therapist assistant is aware of how the supervising physical therapist can be contacted telephonically or by virtual means when the physical therapist is not providing on-site supervision; and
- e.* Arrange for an alternate physical therapist to provide supervision when the physical therapist has scheduled or unscheduled absences during time periods in which a physical therapist assistant will be providing delegated physical therapy services; and
- f.* Ensure that a physical therapist assistant is informed when a patient's plan of care is transferred to a different supervising physical therapist; and
- g.* Directly participate in physical therapy services upon the physical therapist assistant's request for a reexamination, when a change in the plan of care is needed, prior to any planned discharge, and in response to a change in the patient's medical status; and
- h.* Hold regularly scheduled meetings with the physical therapist assistant to evaluate the physical therapist assistant's performance, assess the progress of a patient, and make changes to the plan of care as needed. The frequency of meetings should be determined by the supervising physical therapist based on the needs of the patient, the supervisory needs of the physical therapist assistant, and any planned discharge. The supervising physical therapist shall provide direction and instruction to the physical therapist assistant that are adequate to ensure the safety and welfare of the patient.

201.4(4) *Physical therapist assistant responsibilities.* A physical therapist assistant shall only provide physical therapy services under the supervision of a physical therapist. In addition, the physical therapist assistant shall:

- a.* Only provide physical therapy services that have been delegated by the supervising physical therapist; and
- b.* Only provide physical therapy services that are within the competency and skill set of the physical therapist assistant; and
- c.* Consult the supervising physical therapist if the physical therapist assistant believes that any procedure is not in the best interest of the patient; and
- d.* Contact the supervising physical therapist regarding any change or lack of change in a patient's condition that may require assessment by the supervising physical therapist; and
- e.* Refer inquiries that require interpretation to the supervising physical therapist; and
- f.* Ensure that the identification of the supervising physical therapist is included in the documentation for any visit when physical therapy services were provided by the physical therapist assistant; and
- g.* Only sign a treatment record if the provision of physical therapy services was done in accordance with the statutes and rules governing the practice of a physical therapist assistant.

201.4(5) *Ratio.* A physical therapist shall determine the number of physical therapist assistants who can be supervised safely and competently and shall not exceed that number; but in no case shall a physical therapist supervise more than four physical therapist assistants per calendar day. A physical therapist assistant who performs any delegated physical therapy services on behalf of the supervising physical therapist on a particular day shall be counted in determining the maximum ratio, regardless of the location of the physical therapist assistant or the number of patients treated.

201.4(6) *Minimum frequency of direct participation by a supervising physical therapist.* A supervising physical therapist shall use professional judgment to determine how frequently the physical therapist needs to directly participate in physical therapy services when delegating to a physical therapist assistant, the frequency of which shall be based on the needs of the patient. Direct participation can occur through an in-person or telehealth visit. The supervising physical therapist shall ensure that the patient record clearly indicates which visits included direct participation by the supervising physical therapist. The following are the minimum standards, which are expected to be exceeded when dictated by the supervising physical therapist's professional judgment, for the required frequency of direct participation by the supervising physical therapist when physical therapy services involve delegation to a physical therapist assistant:

a. Hospital inpatient and skilled nursing. For hospital inpatients and skilled nursing patients, a supervising physical therapist must directly participate in physical therapy services a minimum of once per calendar week. A calendar week is defined as Sunday through Saturday.

b. All other settings. In all other settings, a supervising physical therapist must directly participate in the provision of physical therapy services at least every eighth visit or every 30 calendar days, whichever comes first.

201.4(7) Unlicensed assistive personnel. A physical therapist is responsible for patient care provided by unlicensed assistive personnel under the physical therapist's supervision. A physical therapist is responsible for ensuring the qualifications of any unlicensed assistive personnel and shall maintain written documentation of their education or training. Unlicensed assistive personnel may assist a physical therapist assistant in the delivery of physical therapy services only if the physical therapist assistant maintains in-sight supervision of the unlicensed assistive personnel and the physical therapist assistant is primarily and significantly involved in the patient's care. Unlicensed assistive personnel shall not provide independent patient care unless each of the following standards is satisfied:

a. The physical therapist has direct participation in the patient's treatment or evaluation, or both, each treatment day;

b. Unlicensed assistive personnel may provide independent patient care only while under the on-site supervision of the physical therapist;

c. Documentation made in a physical therapy record by unlicensed assistive personnel shall be cosigned by the physical therapist; and

d. The physical therapist provides periodic reevaluation of any unlicensed assistive personnel's performance in relation to the patient.

These rules are intended to implement Iowa Code chapters 147, 148A and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 202
“Discipline for Physical Therapists and Physical Therapist Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 148A, 272C.3, and 272C.10

400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Proposed Chapter 202 defines actions that are inconsistent with professional standards for licensees, which are established to protect the consumer and colleagues. Actions inconsistent with professional standards could result in disciplinary actions against a practitioner’s license.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the physical therapist and physical therapist assistant licensees and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are associated with costs to the licensed professional. Licensees may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fine amounts are not established in rule for these licensees and are determined by the Board of Physical and Occupational Therapy. The Board has statutory authority to impose a civil penalty on individuals practicing without a license.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed chapter since there is clarity on compliance and potential consequences for noncompliance. The benefit is being achieved since the Board had 15

founded violations between 2015 and 2023. The low number of public discipline cases demonstrates the effectiveness of the continuing education requirements in ensuring licensees are remaining current in their professional knowledge and providing quality care to Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes the benefits achieved justify the costs because the cost of inaction would increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline. Fees incurred by the professional are up to \$1,000 per violation.

The Board has not identified a more cost-effective alternative to the current discipline process. There could be a consideration of reducing or eliminating grounds for discipline, but the Board believes these requirements are important in order to protect the public from infection risks.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee takes action that is grounds for discipline. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer, licensure specialist and investigator support the full scope of this work at 0.22 full-time equivalent (FTE) position. This additionally includes answering questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The amount of complaints received are relatively low, and costs reflect that. The Board believes the costs are justified because inaction could increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline. The benefit of protecting the public justifies the costs to review and address the standards of professional behavior.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

The Iowa Boards and Commissions Review Committee recommended consolidating the Board of Physical and Occupational Therapy with Athletic Training, Chiropractic and Massage Therapy.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

While there has been some standardization of consideration of criminal convictions, the Board has not recommended a less restrictive alternative to public protection.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the physical therapist and physical therapist assistant licensees and are therefore excluded from the general disciplinary chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 202 and adopt the following **new** chapter in lieu thereof:

CHAPTER 202

DISCIPLINE FOR PHYSICAL THERAPISTS AND PHYSICAL THERAPIST ASSISTANTS

645—202.1(148A) Definitions.

“*Board*” means the board of physical and occupational therapy.

“*Discipline*” means any sanction the board may impose upon licensees.

“*Licensee*” means a person licensed to practice in Iowa pursuant to Iowa Code chapter 148A and 645—Chapters 200 to 203.

645—202.2(272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in 645—Chapter 13 when the board determines that any of the acts or offenses listed in such rule or in Iowa Code section 147.55 have occurred:

202.2(1) Professional incompetency. Professional incompetency includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other physical therapists or physical therapist assistants in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care which is ordinarily exercised by the average physical therapist or physical therapist assistant acting in the same or similar circumstances.

d. Failure to conform to the minimal standard of acceptable and prevailing practice of the licensed physical therapist or licensed physical therapist assistant in this state.

e. Mental or physical inability reasonably related to and adversely affecting the licensee's ability to practice in a safe and competent manner.

f. Being adjudged mentally incompetent by a court of competent jurisdiction.

202.2(2) Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of physical therapy or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

202.2(3) Violation of a regulation, rule or law of this state, another state, or the United States which relates to the practice of physical therapy, including, but not limited to, the code of ethics found in rule 645—201.1(148A,272C).

202.2(4) Failure of a licensee or an applicant for licensure in this state to report any voluntary agreements restricting the individual's practice of physical therapy in another state, district, territory or country.

202.2(5) Knowingly aiding, assisting or advising a person to unlawfully practice physical therapy.

202.2(6) Representing oneself as a licensed physical therapist or physical therapist assistant when one's license has been suspended or revoked, or when the license is on inactive status.

These rules are intended to implement Iowa Code chapters 147, 148A and 272C.

Regulatory Analysis

Purpose and Summary

Proposed Chapter 203 sets forth continuing education requirements for physical therapists (PTs) and physical therapist assistants (PTAs). It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that licensees stay up to date with laws, rules and industry standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Iowa requires physical therapists to complete 40 hours of continuing education every two years and a physical therapist assistant to complete 20 hours of continuing education every two years. The cost to obtain continuing education courses are often priced “per course” versus “per contact hour.” An on-demand one-hour online course covering a general topic that meets these requirements of a licensure board could be free, while in-person multiday courses presented by one or more subject matter experts tend to be more expensive. There are multiple entities that offer continuing education courses to licensees, both online and in person.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that physical therapists and physical therapist assistants maintain up-to-date knowledge on industry-related skills and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry offers these courses, so the Board of Physical and Occupational Therapy is not privy to exact costs. Based on research estimates, the cost to obtain continuing education is quite variable depending on the focus of the practitioner. The cost to obtain continuing education courses are often priced “per course” versus “per contact hour.” An on-demand one-hour online course covering a general topic that meets these requirements of a licensure board could be free, while in-person multiday courses presented by one or more subject matter experts tend to be more expensive. There are multiple entities that offer continuing education courses to licensees, both online and in person.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures that licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities at approximately 0.22 full-time equivalent (FTE) position, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. This includes answering questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board does not recommend a change in continuing education hours at this time. Iowa’s requirements for physical therapists to complete 40 continuing education hours and physical therapist assistants to complete 20 continuing education hours every two years is consistent with neighboring states of Kansas (40 PT/20 PTA) and Illinois (40 PT/20 PTA), while it is slightly higher than Nebraska (30 PT/30 PTA), Missouri (24 PT/24 PTA), Minnesota (20 PT/20 PTA) and South Dakota (15 PT/15 PTA).

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less restrictive alternative would be to reduce the amount of continuing education required. The Board does not recommend a change in continuing education hours at this time. Iowa’s continuing education requirements are in line with neighboring states and the BOC certification. Iowa’s requirements for physical therapists to complete 40 continuing education hours and physical therapist assistants to complete 20 continuing education hours every two years is consistent with neighboring states of Kansas (40 PT/20 PTA) and Illinois (40 PT/20 PTA), while it is slightly higher than Nebraska

(30 PT/30 PTA), Missouri (24 PT/24 PTA), Minnesota (20 PT/20 PTA) and South Dakota (15 PT/15 PTA).

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring if the Board would recommend lowering the continuing education requirements. The Board does not recommend a change in continuing education hours at this time.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 203 and adopt the following **new** chapter in lieu thereof:

CHAPTER 203 CONTINUING EDUCATION FOR PHYSICAL THERAPISTS AND PHYSICAL THERAPIST ASSISTANTS

645—203.1(272C) Definitions. For the purpose of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Audit*” means the selection of licensees for verification of continuing education requirements.

“*Board*” means the board of physical and occupational therapy.

“*Continuing education*” means the same as the definition in Iowa Code section 272C.1.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee completing an approved continuing education activity through live, virtual, online or prerecorded means where the instructor provides proof of completion by the licensee as set forth in these rules.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Independent study*” means a subject/program/activity that a person pursues autonomously and that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as a physical therapist or physical therapist assistant in the state of Iowa.

645—203.2(148A) Continuing education requirements.

203.2(1) The biennial continuing education compliance period shall extend for a two-year period that begins on the sixteenth day of the birth month and ends two years later on the fifteenth day of the birth month.

a. Requirements for physical therapist licensees. Each biennium, each person who is licensed to practice as a physical therapist in this state will be required to complete a minimum of 40 hours of continuing education approved by the board.

b. Requirements for physical therapist assistant licensees. Each biennium, each person who is licensed to practice as a physical therapist assistant in this state will be required to complete a minimum of 20 hours of continuing education approved by the board.

203.2(2) Requirements of new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The new licensee will be required to complete a minimum of 40 hours of continuing education per biennium for physical therapists and a minimum of 20 hours for physical therapist assistants each subsequent license renewal.

203.2(3) No hours of continuing education shall be carried over into the next biennium except for a new licensee. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

645—203.3(148A,272C) Standards.

203.3(1) *General criteria.* Appropriate continuing education activity for purposes of license renewal will support each of the following:

a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;

b. Pertains to subject matters which integrally relate to the practice of the profession;

c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program.

At the time of audit, the board may request the qualifications of presenters;

d. Fulfills stated program goals, objectives, or both; and

e. Provides proof of attendance to licensees including:

(1) Date, location, course title, presenter(s);

(2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

203.3(2) *Specific criteria.*

a. Licensees may obtain continuing education hours of credit by:

(1) Attending workshops, conferences, or symposiums.

(2) Accessing online training, such as viewing interactive conferences, attending webinars, or completing online training courses.

(3) Completing an American Physical Therapy Association-approved postprofessional clinical residency or fellowship. A licensee will receive 1 hour of credit for every 2 hours spent in clinical

residency, up to a maximum of 20 hours. Clinical residency hours may not be used for credit if the licensee is also seeking credit hours earned for postprofessional academic coursework in the same renewal period.

(4) Directly supervising students for clinical education if the students being supervised are from an accredited physical therapist or physical therapist assistant program and are participating in a full-time clinical experience (defined as approximately 40 hours per week, ranging from 1 to 18 weeks). One hour will be awarded for every 160 contact hours of supervision. A maximum of 8 hours for a physical therapist and 4 hours for a physical therapist assistant may be awarded per biennium. The physical therapist or physical therapist assistant must have documentation from the accredited educational program indicating the number of hours spent supervising a student.

(5) Presenting professional programs that meet the criteria listed in this rule. Two hours of credit will be awarded for each hour of presentation for the first offering of the course. A course schedule or brochure must be maintained for audit.

(6) Completing academic courses that directly relate to the professional competency of the licensee. Official transcripts indicating successful completion of academic courses that apply to the field of physical therapy will be necessary in order for the licensee to receive the following continuing education credits:

1 academic semester hour = 15 continuing education hours of credit

1 academic trimester hour = 12 continuing education hours of credit

1 academic quarter hour = 10 continuing education hours of credit

(7) Teaching in an approved college, university, or graduate school. The licensee may receive the following continuing education credits on a one-time basis for the first offering of a course:

1 academic semester hour = 15 continuing education hours of credit

1 academic trimester hour = 12 continuing education hours of credit

1 academic quarter hour = 10 continuing education hours of credit

(8) Authoring research or other activities, the results of which are published in a recognized professional publication. The licensee shall receive 5 hours of credit per page.

(9) Participating in professional organizations related to the practice of physical therapy, with 1 credit hour received for each six months of active service as an officer, delegate, or committee member, for a maximum of 4 hours of credit per biennium. Verification of participation must be provided by the professional organization to document the continuing education credit.

b. Continuing education hours of credit in the following topics are not considered to be directly and primarily related to the clinical application of physical therapy and therefore must not exceed a maximum combined total of 10 hours of credit for a physical therapist licensee and 5 hours of credit for a physical therapist assistant licensee:

(1) Business-related topics, such as marketing, time management, government regulations, and other like topics.

(2) Personal skills topics, such as career burnout, communication skills, human relations, and other like topics.

(3) General health topics, such as clinical research, CPR, mandatory reporter training, and other like topics.

These rules are intended to implement Iowa Code section 272C.2 and chapter 148A.

400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Proposed Chapter 206 sets minimum standards of entry into the professions of occupational therapist and occupational therapy assistant. Iowa residents, licensees and employers benefit from the chapter since it clarifies the processes by which licensees may apply for licensure as occupational therapists and occupational therapy assistants, as directed in statute. The chapter publicly illustrates the process that will be used to license occupational therapists and occupational therapy assistants, including renewal and reinstatement, to ensure public safety through review of the integrity and competence of the practitioner. The chapter describes the application process, educational qualifications, and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant because complying with the minimum requirements to enter into the profession is at the expense of the licensee. Licensees have costs related to educational requirements to graduate from an occupational therapy program approved by the Accreditation Council for Occupational Therapy Education of the American Occupational Therapy Association. The initial license fee for a two-year license to practice to become an Iowa-licensed occupational therapist or occupational therapy assistant is \$120 (application fees are addressed in rule 645—5.11(147,148B)). Licensees must also pay an examination fee of \$515 to the National Board for Certification in Occupational Therapy (NBCOT).

These costs are comparable to surrounding states' licensing fees. Nebraska's two-year license fee is \$135.50 to become an occupational therapist or an occupational therapy assistant (includes \$135.50 application for initial licensure and \$15.50 FBI criminal background check) and an examination fee of \$515 to the National Board for Certification in Occupational Therapy (NBCOT). Minnesota's two-year license fee for is \$218.25 for an occupational therapist (includes \$185 application fee and \$33.25 Federal Bureau of Investigation (FBI) criminal background check) and \$138.25 for an occupational therapy assistant (includes \$105 application fee and \$33.25 FBI criminal background check) and an examination fee of \$515 to the NBCOT.

- Classes of persons that will benefit from the proposed rulemaking:

The benefits achieved justify the costs. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board of Physical and Occupational Therapy believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners with knowledge of topics pertinent to the profession to ensure the safety and welfare of the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide training for occupational therapists and occupational therapist assistants. Additional private industries and educational institutions provide examinations and materials for preparation for the examination. Licensing renewal fees are \$60 every two years.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities. This includes reviews at the time of initial application and during reinstatement. Compliance audits are performed randomly on renewed licenses. If a licensee was disciplined in another state, the application may be forwarded to the full Board for additional review prior to initial licensure or licensure reinstatement. Licensure by consent agreements and discipline imposed by the Board are monitored by office staff.

An executive officer supports the full scope of this work at 0.22 full-time equivalent (FTE) position. This includes reviews at the time of initial application and during reinstatement. Compliance audits are performed randomly on renewed licenses. Licensees are selected at random by the licensing software algorithm to complete an annual compliance review per board, sending out letters/emails and evaluating the documentation provided. If a licensee was disciplined in another state, the application may be forwarded to the full Board for additional review prior to initial licensure or licensure reinstatement. Licensure by consent agreements and discipline imposed by the Board are monitored by office staff.

This additionally includes answering from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure minimum competency. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. The cost of inaction would increase the potential for injury to the public that would remain unchecked without review prior to initial licensure, periodic compliance audits and complaint investigation. In addition, the chapter provides consistency related to the licensure of occupational therapists and occupational therapy assistants across the United States, and membership in the Occupational Therapy Compact requires the uniform licensure of these providers.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the chapter provides consistency related to the licensure of occupational therapists and occupational therapy assistants across the United States, and membership in the Occupational Therapy Compact requires the uniform licensure of these providers.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review and compliance audits. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the chapter provides consistency related to the licensure of occupational therapists and occupational therapy assistants across the United States, and membership in the Occupational Therapy Compact requires the uniform licensure of these providers.

DIAL continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to public safety concerns which are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for occupational therapists and occupational therapy assistants. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 206 and adopt the following new chapter in lieu thereof:

CHAPTER 206
LICENSURE OF OCCUPATIONAL THERAPISTS
AND OCCUPATIONAL THERAPY ASSISTANTS

645—206.1(147) Definitions. For purposes of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Board*” means the board of physical and occupational therapy.

“*Department*” means the department of public health.

“*Endorsement*” means the issuance of an Iowa license to practice occupational therapy to an applicant who is currently licensed in another state who has the same or similar qualifications to those required in Iowa.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active. In order to renew a license during the grace period, a licensee is required to pay a late fee.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Licensee*” means any person licensed to practice as an occupational therapist or occupational therapy assistant in the state of Iowa.

“*License expiration date*” means the fifteenth day of the birth month every two years after initial licensure.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice occupational therapy to an applicant who is or has been licensed in another state.

“*Licensure examination*” means the examination administered by the National Board for Certification in Occupational Therapy.

“*Mandatory training*” means training on identifying and reporting child abuse or dependent adult abuse as required in Iowa Code sections 232.69 and 235B.16.

“*NBCOT*” means the National Board for Certification in Occupational Therapy.

“*Occupational therapist*” means a person licensed under this chapter to practice occupational therapy.

“*Occupational therapy assistant*” means a person licensed under this chapter to assist in the practice of occupational therapy.

“*Occupational therapy practice*” means the same as defined within Iowa Code section 148B.2.

“Occupational therapy screening” means a brief process which is directed by an occupational therapist in order for the occupational therapist to render a decision as to whether the individual warrants further, in-depth evaluation and which includes:

1. Assessment of the medical and social history of an individual;
2. Observations related by that individual’s caregivers; or
3. Observations or nonstandardized tests, or both, administered to an individual by the occupational therapist or an occupational therapy assistant under the direction of the occupational therapist.

Nothing in this definition shall be construed to prohibit licensed occupational therapists and occupational therapy assistants who work in preschools or school settings from providing short-term interventions to children prior to an evaluation, not to exceed 16 sessions per concern per school year, in accordance with state and federal educational policy.

“On site” means:

1. To be continuously on site and present in the department or facility where the assistive personnel are performing services;
2. To be immediately available to assist the person being supervised in the services being performed; and
3. To provide continued direction of appropriate aspects of each treatment session in which a component of treatment is delegated to assistive personnel.

“OT” means occupational therapist.

“OTA” means occupational therapy assistant.

“Reactivate” or *“reactivation”* means the process as outlined in rule 645—206.11(17A,147,272C) by which an inactive license is restored to active status.

“Reciprocal license” means the issuance of an Iowa license to practice occupational therapy to an applicant who is currently licensed in another state which has a mutual agreement with the Iowa board of physical and occupational therapy to license persons who have the same or similar qualifications to those required in Iowa.

“Reinstatement” means the process as outlined in rule 645—11.31(272C). Once the license is reinstated, the licensee may apply for active status.

645—206.2(147) Initial licensure. The following criteria shall apply to licensure:

206.2(1) Requirements for licensure. The applicant shall:

a. Submit a complete online application and pay the nonrefundable fee specified in rule 645—5.11(147,148B).

b. Submit an official copy of academic transcripts directly from the school to the board. No application will be considered by the board until official copies of academic transcripts have been received.

c. Direct the examination service to submit examination scores directly to the board.

d. Provide verification of license(s) from every jurisdiction in which the applicant has been licensed, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification direct from the jurisdiction’s board office if it provides:

- (1) Licensee’s name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license.

206.2(2) Reserved.

645—206.3(147) An occupational therapist or occupational therapy assistant applicant who holds a license in another state shall have:

206.3(1) Completed board-approved continuing education during the immediately preceding two-year period: 30 hours for an occupational therapist and 15 hours for an occupational therapy assistant, or

206.3(2) Practiced for a minimum of 2,080 hours during the immediately preceding two-year period;
or

206.3(3) Served the equivalent of one year as a full-time faculty member teaching in an accredited school of occupational therapy for at least one of the immediately preceding two years; or

206.3(4) Successfully passing the examination within a period of two years from the date of examination to the time application is completed for licensure.

645—206.4(147) Limited permit to practice pending licensure. A limited permit holder who is applying for licensure in Iowa by taking the licensure examination for the first time and has never been licensed as an occupational therapist or occupational therapy assistant in any state, the District of Columbia, or another country must have completed the educational and experience requirements for licensure as an occupational therapist or occupational therapy assistant. The limited permit holder shall:

1. Make arrangements to take the examination and have the official results of the examination sent directly from the examination service to the board;

2. Apply for licensure on forms provided by the board. The applicant must include on the application form the name of the Iowa-licensed occupational therapist(s) who will provide supervision of the limited permit holder until the limited permit holder is licensed;

3. Practice only under the supervision of an Iowa-licensed OT for a period not to exceed six months from the date the application was received in the board office;

4. Submit to the board the name of the OT providing supervision within seven days after a change in supervision occurs; and

5. If the applicant fails the national examination, the limited permit holder must cease practicing immediately.

645—206.5(147) Examination requirements. The following criteria shall apply to the written examination(s):

206.5(1) The applicant for licensure as an occupational therapist shall have received a passing score on the licensure examination for occupational therapists. It is the responsibility of the applicant to make arrangements to take the examination and have the official results submitted directly from the examination service to the board of physical and occupational therapy.

206.5(2) The applicant for licensure as an occupational therapy assistant shall have received a passing score on the licensure examination for occupational therapy assistants. It is the responsibility of the applicant to make arrangements to take the examination and have the official results submitted directly from the examination service to the board of physical and occupational therapy.

645—206.6(147) Educational qualifications.

206.6(1) The applicant must present proof of meeting the following requirements for licensure as an occupational therapist or occupational therapy assistant:

a. Occupational therapist. The applicant for licensure as an occupational therapist shall have completed the requirements for a degree in occupational therapy in an occupational therapy program accredited by the Accreditation Council for Occupational Therapy Education of the American Occupational Therapy Association. The transcript shall show completion of a supervised fieldwork experience.

b. Occupational therapy assistant. The applicant for licensure as an occupational therapy assistant shall be a graduate of an educational program approved by the Accreditation Council for Occupational Therapy Education of the American Occupational Therapy Association. The transcript shall show completion of a supervised fieldwork experience.

206.6(2) Foreign-trained occupational therapists and occupational therapy assistants. To become eligible to take the licensure examination, internationally educated occupational therapists must meet NBCOT eligibility requirements and undergo prescreening based on the status of their occupational therapy educational programs.

645—206.7(147) License renewal.

206.7(1) The biennial license renewal period for a license to practice as an occupational therapist or occupational therapy assistant shall begin on the sixteenth day of the birth month and end on the fifteenth day of the birth month two years later. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

206.7(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal two years later.

206.7(3) A licensee seeking renewal shall:

a. Meet the continuing education requirements of rule 645—207.2(272C) and the mandatory reporting requirements of subrule 206.12(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

206.7(4) Mandatory reporter training requirements.

a. A licensee who is required by Iowa Code section 232.69 to report child abuse shall indicate on the renewal application completion of training in child abuse identification and reporting as required by Iowa Code section 232.69(3) “*b*” in the previous three years or condition(s) for waiver of this requirement as identified in paragraph “*e*.”

b. A licensee who is required by Iowa Code section 235B.3 or 235E.2 to report dependent adult abuse shall indicate on the renewal application completion of training in dependent adult abuse identification and reporting as required by Iowa Code section 235B.16(5) “*b*” in the previous three years or condition(s) for waiver of this requirement as identified in paragraph “*e*.”

c. The course(s) shall be the curriculum provided by the Iowa department of health and human services.

d. The licensee shall maintain written documentation for three years after mandatory training as identified in paragraphs “*a*” to “*c*,” including program date(s), content, duration, and proof of participation.

e. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to an occupational or mental disability or illness as identified in 645—Chapter 4.

f. The board may select licensees for audit of compliance with the requirements in paragraphs “*a*” to “*e*.”

206.7(5) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

206.7(6) Persons licensed to practice as occupational therapists or occupational therapy assistants shall keep their renewal licenses displayed in a conspicuous public place at the primary site of practice.

206.7(7) Late renewal. The license shall become a late license when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 645—subrule 5.11(4). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

206.7(8) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as an occupational therapist or occupational therapy assistant in Iowa until the license is reactivated. A licensee who practices as an occupational therapist or occupational

therapy assistant in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—206.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

206.8(1) Submit a reactivation application on a form provided by the board.

206.8(2) Pay the reactivation fee that is due as specified in 645—subrule 5.11(5).

206.8(3) Provide verification of current competence to practice occupational therapy by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 15 hours of continuing education for an occupational therapy assistant and 30 hours of continuing education for an occupational therapist within two years of application for reactivation; or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 30 hours of continuing education for an occupational therapy assistant and 60 hours of continuing education for an occupational therapist within two years of application for reactivation; verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation; or evidence of successful completion of the professional examination required for initial licensure completed within one year prior to the submission of an application for reactivation.

645—206.9(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—206.8(17A,147,272C) prior to practicing occupational therapy in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 148B and 272C.

Regulatory Analysis

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
2:30 to 2:50 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link: meet.google.com/bfq-qaeb-nwu
Phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Iowa Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Purpose and Summary

Proposed Chapter 207 sets forth continuing education requirements for occupational therapists and occupational therapist assistants. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that licensees stay up to date with laws, rules and industry standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees are responsible for the cost of continuing education.
 - Classes of persons that will benefit from the proposed rulemaking:
The intended benefit of continuing education is to ensure that occupational therapists and occupational therapist assistants maintain up-to-date knowledge on industry-related skills and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:

Iowa requires an occupational therapist to complete 30 hours of continuing education every two years and an occupational therapist assistant to complete 15 hours of continuing education every two years. The cost to obtain continuing education courses are often priced “per course” versus “per contact hour.” An on-demand one-hour online course covering a general topic that meets these requirements of a licensure board could be free, while in-person multiday courses presented by one or more subject matter experts tend to be more expensive. There are multiple entities that offer continuing education courses to licensees, both online and in person.

The National Board for Certification in Occupational Therapy (NBCOT®) Professional Development Provider offers unlimited access to continuing education for an annual fee of \$99. The American Occupational Therapy Association (AOTA) offers a national conference, and members have unlimited access to over 200 CEUs every year for an additional \$70. AOTA has a position statement on the benefits of continuing education. Practitioners who maintain credentialing through NBCOT may use the navigator for up to 36 CEUs with some contingent requirements. NBCOT presented on this service in June 2023. The Iowa Occupational Therapy Association (IOTA) offers a conference each fall.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures that licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board of Physical and Occupational Therapy activities at approximately 0.22 full-time equivalent (FTE) position, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. This includes answering questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board does not recommend a change in continuing education hours at this time. Iowa’s requirements for occupational therapists to complete 30 continuing education hours and occupational therapist assistants to complete 15 continuing education hours every two years is lower than the neighboring state of Kansas (40 OT/A) and slightly higher than Illinois (24 OT/A), Missouri (24 OT/A), Minnesota (24 OT and 18 OTA), Nebraska (20 OT and 15 OTA) and South Dakota (12 OT/A).

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less restrictive alternative would be to reduce the amount of continuing education required. The Board does not recommend a change in continuing education hours at this time. Iowa’s requirements for occupational therapists to complete 30 continuing education hours and occupational therapist assistants

to complete 15 continuing education hours every two years is lower than the neighboring state of Kansas (40 OT/A) and slightly higher than Illinois (24 OT/A), Missouri (24 OT/A), Minnesota (24 OT and 18 OTA), Nebraska (20 OT and 15 OTA) and South Dakota (12 OT/A).

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring if the Board would recommend lowering the continuing education requirements. The Board does not recommend a change in continuing education hours at this time.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 207 and adopt the following **new** chapter in lieu thereof:

CHAPTER 207 CONTINUING EDUCATION FOR OCCUPATIONAL THERAPISTS AND OCCUPATIONAL THERAPY ASSISTANTS

645—207.1(148B) Definitions. For the purpose of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Audit*” means the selection of licensees for verification of compliance with continuing education requirements.

“*Board*” means the board of physical and occupational therapy.

“*Continuing education*” means the same as the definition in Iowa Code section 272C.1.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee completing an approved continuing education activity through live, virtual, online or prerecorded means where the instructor provides proof of completion by the licensee as set forth in these rules.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Independent study*” means a subject/program/activity that a person pursues autonomously and that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as an occupational therapist or occupational therapy assistant in the state of Iowa.

645—207.2(272C) Continuing education requirements.

207.2(1) The biennial continuing education compliance period shall extend for a two-year period that begins on the sixteenth day of the licensee’s birth month and ends two years later on the fifteenth day of the birth month.

a. Requirements for occupational therapist licensees. Each biennium, each person who is licensed to practice as an occupational therapist in this state will have the responsibility to finance the cost and be required to complete a minimum of 30 hours of continuing education approved by the board.

b. Requirements for occupational therapy assistant licensees. Each biennium, each person who is licensed to practice as an occupational therapy assistant in this state will be required to complete a minimum of 15 hours of continuing education approved by the board.

207.2(2) Requirements of new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The new licensee will be required to complete a minimum of 30 hours of continuing education per biennium for occupational therapists and 15 hours for occupational therapy assistants each subsequent license renewal.

207.2(3) With the exception of continuing education hours obtained by new licensees, no hours of continuing education shall be carried over into the next biennium. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

645—207.3(148B,272C) Standards.

207.3(1) *General criteria.* Appropriate continuing education activity for purposes of license renewal will support each of the following:

a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;

b. Pertains to subject matters which integrally relate to the practice of the profession;

c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program.

At the time of audit, the board may request the qualifications of presenters;

d. Fulfills stated program goals, objectives, or both; and

e. Provides proof of attendance to licensees in attendance including:

(1) Date, location, course title, presenter(s);

(2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

207.3(2) *Specific criteria.*

a. Licensees may obtain continuing education hours of credit by:

(1) Attending workshops, conferences, or symposiums.

(2) Accessing online training, such as viewing interactive conferences, attending webinars, or completing online training courses.

(3) Directly supervising students for clinical education if the student being supervised is from an accredited occupational therapy or occupational therapy assistant program and is participating in a full-time clinical experience (defined as approximately 40 hours per week, ranging from 1 to 18 weeks). One hour will be awarded for every 160 contact hours of supervision. A maximum of 8 hours for an occupational therapist and 4 hours for an occupational therapy assistant may be awarded per biennium. The occupational therapist or occupational therapy assistant must have documentation from the accredited educational program indicating the number of hours spent supervising a student.

(4) Presenting professional programs that meet the criteria listed in this rule. Two hours of credit will be awarded for each hour of presentation for the first offering of the course. A course schedule or brochure must be maintained for audit.

(5) Completing academic courses that directly relate to the professional competency of the licensee. Official transcripts indicating successful completion of academic courses that apply to the field of occupational therapy will be necessary in order for the licensee to receive the following continuing education credits:

1 academic semester hour = 15 continuing education hours of credit

1 academic trimester hour = 12 continuing education hours of credit

1 academic quarter hour = 10 continuing education hours of credit

(6) Teaching in an approved college, university, or graduate school. The licensee may receive the following continuing education credits on a one-time basis for the first offering of a course:

1 academic semester hour = 15 continuing education hours of credit

1 academic trimester hour = 12 continuing education hours of credit

1 academic quarter hour = 10 continuing education hours of credit

(7) Authoring research or other activities, the results of which are published in a recognized professional publication. The licensee shall receive 5 hours of credit per page.

(8) Participating in professional organizations related to the practice of occupational therapy, with 1 credit hour received for each six months of active service as an officer, delegate, or committee member, for a maximum of 4 hours of credit per biennium. Verification of participation must be provided by the professional organization to document the continuing education credit.

b. Continuing education hours of credit in the following topics are not considered to be directly and primarily related to the clinical application of occupational therapy and therefore must not exceed a maximum combined total of 8 hours of credit for an occupational therapist licensee and 4 hours of credit for an occupational therapy assistant licensee:

(1) Business-related topics, such as marketing, time management, government regulations, and other like topics.

(2) Personal skills topics, such as career burnout, communication skills, human relations, and other like topics.

(3) General health topics, such as clinical research, CPR, mandatory reporter training, and other like topics.

These rules are intended to implement Iowa Code section 272C.2 and chapter 148B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 208
“Practice of Occupational Therapists and Occupational Therapy Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 148B, 272C.3, and 272C.10
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148B and
272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
2:30 to 2:50 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link: meet.google.com/bfq-qaeb-nwu
Phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Iowa Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Proposed Chapter 208 provides Iowans, licensees, and their employers with practice guidance and requirements for occupational therapists and occupational therapist assistants. The rules provide guidance on what is considered appropriate and what is not appropriate practice. Categories include recordkeeping, ethical practice standards, and telehealth visits. The chapter also describes allowed delegation by a supervising occupational therapist.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public. Licensees may incur costs related to recordkeeping, ethical practice standards, telehealth visits and supervision requirements. Licensees will be responsible for the costs associated with meeting these practice requirements. The Board recognizes that there are costs associated but is unable to assess the actual cost.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of the practice standard regulations is to ensure public safety and maintain a high level of care for Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board does not have data on the actual costs of implementing the practice standards. The Board has not identified a more cost-effective alternative to the current complaint investigation process.

Practice standards (recordkeeping, code of ethics, telehealth and delegation of supervision requirements) could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting public health and safety of Iowans.

- Qualitative description of impact:

Establishing minimum practice standard requirements ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public that would remain unchecked without a basic understanding of recordkeeping, code of ethics, telehealth and delegation of supervision requirements as outlined in the chapter, as well as complaint investigation.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes investigation of complaints with letters, phone calls and in-person interviews.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing practice standard regulations are paid to private entities that provide the necessary technology for the licensees to comply with telehealth requirements.

Costs to the agency are the staff time needed to manage Board activities. An executive officer supports the full scope of this work at 0.22 full-time equivalent (FTE) position. This additionally includes answering questions from the public and licensees about items such as practice standards, including the code of ethics, recordkeeping, telehealth and delegation of supervision as well as related education requirements, Board meeting administration, etc. Staff salaries to support the work of the board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There would be a loss of revenue for the private industries that provide the equipment and supplies necessary to implement telehealth practices.

Practice standard requirements could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting public health and safety of Iowans.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current complaint investigation process. Practice standard requirements could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting the public health and safety of Iowans.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current practice standard requirements that would ensure the same level of safety of Iowans.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board believes that eliminating the practice standard requirements would increase the number of injuries to the public.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 208 and adopt the following new chapter in lieu thereof:

CHAPTER 208

PRACTICE OF OCCUPATIONAL THERAPISTS AND OCCUPATIONAL THERAPY ASSISTANTS

645—208.1(148B,272C) Code of ethics for occupational therapists and occupational therapy assistants.

208.1(1) Occupational therapy. The practice of occupational therapy minimally consist of:

- a. Interpreting referrals;
- b. Evaluating patients;
- c. Identifying and documenting patient problems and goals;
- d. Establishing and documenting a plan of care;
- e. Providing treatment;
- f. Determining the appropriate portions of the treatment program to be delegated to assistive personnel;
- g. Supervising individuals as described in rule 645—208.5(272C);
- h. Providing timely patient reevaluation;
- i. Maintaining timely and adequate patient records consistent with the standards found in rule 645—208.2(147).

208.1(2) An occupational therapist or occupational therapist assistant should:

- a. Not practice outside the scope of the license;
- b. Not perform a treatment procedure that is inadvisable or contraindicated;
- c. Not continue treatment beyond the point of possible benefit to the patient or treat a patient more frequently than necessary to obtain maximum therapeutic effect;

- d.* Not directly or indirectly request, receive, or participate in the dividing, transferring, assigning, rebating, or refunding of an unearned fee;
- e.* Not profit by means of credit or other valuable consideration as an unearned commission, discount, or gratuity in connection with the furnishing of occupational therapy services;
- f.* Not obtain payment through fraudulent means. Obtaining payment through fraudulent means includes, but is not limited to:
 - (1) Reporting incorrect treatment dates for the purpose of obtaining payment;
 - (2) Reporting charges for services not rendered;
 - (3) Incorrectly reporting services rendered for the purpose of obtaining payment which is greater than that to which the licensee is entitled; or
 - (4) Aiding a patient in fraudulently obtaining payment;
- g.* Not exercise undue influence on patients to purchase equipment, products, or supplies from a company in which the occupational therapist owns stock or has any other direct or indirect financial interest;
- h.* Not permit another person to use the therapist's license for any purpose;
- i.* Not verbally or physically abuse a patient or client;
- j.* Not engage in sexual misconduct. Sexual misconduct includes the following:
 - (1) Engaging in or soliciting a sexual relationship, whether consensual or nonconsensual, with a patient or client;
 - (2) Making sexual advances, requesting sexual favors, or engaging in other verbal conduct or physical contact of a sexual nature with a patient or client;
- k.* Follow with the standards for supervision found in rule 645—208.4(272C);
- l.* Not perform a task or service for which the therapist lacks the skill, knowledge or competence. In such a case, the therapist should either refuse to perform the task or service and/or arrange for a professionally qualified licensed practitioner to perform the task or service.
- m.* Sign the occupational therapy treatment record to indicate that the occupational therapy services were provided in accordance with the rules and regulations for practicing as an occupational therapist or occupational therapist assistant.

645—208.2(147) Recordkeeping.

208.2(1) A licensee should maintain sufficient, timely, and accurate documentation in patient records to reflect the services provided, facilitate the delivery of services, and ensure continuity of services in the future.

208.2(2) A licensee should store records in accordance with state and federal statutes and regulations governing record retention and with the guidelines of the licensee's employer or agency, if applicable. If no other legal provisions govern record retention, a licensee should store patient records for a minimum of five years after the date of the patient's discharge, or in the case of a minor, three years after the patient reaches the age of majority under state law or five years after the date of discharge, whichever is longer.

208.2(3) Electronic recordkeeping. The requirements of this rule apply to electronic records as well as to records kept by any other means. When electronic records are kept, the licensee shall ensure that a duplicate hard-copy record or a backup, unalterable electronic record is maintained.

208.2(4) Correction of records.

a. Hard-copy records. Notations should be legible, written in ink, and contain no erasures or whiteouts. If incorrect information is placed in the record, it must be crossed out with a single nondeleting line and be initialed by the licensee.

b. Electronic records. If a record is stored in an electronic format, the record may be amended with a signed addendum attached to the record.

208.2(5) Confidentiality and transfer of records. Occupational therapists and occupational therapy assistants shall preserve the confidentiality of patient records consistent with federal and state law.

208.2(6) Retirement or discontinuance of practice. If a licensee is the owner of a practice, the licensee shall notify in writing all active patients and shall make reasonable arrangements with those

patients to transfer patient records, or copies of those records, to the succeeding licensee upon knowledge and agreement of the patient.

208.2(7) Nothing stated in these rules shall prohibit a licensee from conveying or transferring the licensee's patient records to another licensed individual who is assuming a practice, provided that written notice is furnished to all patients.

645—208.3(147) Telehealth visits. A licensee may provide occupational therapy services to a patient utilizing a telehealth visit if the occupational therapy services are provided in accordance with all requirements of this chapter.

208.3(1) "Telehealth visit" means the provision of occupational therapy services by a licensee to a patient using technology where the licensee and the patient are not at the same physical location for the occupational therapy session.

208.3(2) A licensee engaged in a telehealth visit shall utilize technology that is secure and HIPAA-compliant and that includes, at a minimum, audio and video equipment that allows two-way real-time interactive communication between the licensee and the patient. A licensee may use non-real-time technologies to prepare for an occupational therapy session or to communicate with a patient between occupational therapy sessions.

208.3(3) A licensee engaged in a telehealth visit shall be held to the same standard of care as a licensee who provides in-person occupational therapy. A licensee shall not utilize a telehealth visit if the standard of care for the particular occupational therapy services cannot be met using technology.

208.3(4) Any occupational therapist or occupational therapist assistant who provides an occupational therapy telehealth visit to a patient located in Iowa shall be licensed in Iowa.

208.3(5) Prior to the first telehealth visit, a licensee shall obtain informed consent from the patient specific to the occupational therapy services that will be provided in a telehealth visit. At a minimum, the informed consent shall specifically inform the patient of the following:

- a. The risks and limitations of the use of technology to provide occupational therapy services;
- b. The potential for unauthorized access to protected health information; and
- c. The potential for disruption of technology during a telehealth visit.

208.3(6) A licensee shall only provide occupational therapy services using a telehealth visit in the areas of competence wherein proficiency in providing the particular service using technology has been gained through education, training, and experience.

208.3(7) A licensee shall identify in the clinical record when occupational therapy services are provided utilizing a telehealth visit.

645—208.4(147) Practice of occupational therapy limited permit holders.

208.4(1) Occupational therapist limited permit holders may:

- a. Evaluate clients, plan treatment programs, and provide periodic reevaluations only under supervision of a licensed OT who shall bear full responsibility for care provided under the OT's supervision; and
- b. Perform the duties of the occupational therapist under the supervision of an Iowa-licensed occupational therapist, except for providing supervision to an occupational therapy assistant.

208.4(2) Occupational therapy assistants and limited permit holders shall:

- a. Follow the treatment plan written by the supervising OT outlining the elements that have been delegated; and
- b. Perform occupational therapy procedures delegated by the supervising OT as required in rule 645—208.5(148B).

645—208.5(148B) Supervision requirements.

208.5(1) Care rendered by unlicensed assistive personnel shall not be documented or charged as occupational therapy unless direct on-site supervision is provided by an OT or in-sight supervision is provided by an OTA.

208.5(2) Occupational therapist supervisor responsibilities. The supervisor shall:

- a.* Provide supervision to a licensed OTA, OT limited permit holder and OTA limited permit holder anytime occupational therapy services are rendered. Supervision may be provided on site or through the use of telecommunication or other technology.
- b.* Ensure that every licensed OTA, OT limited permit holder and OTA limited permit holder being supervised is aware of who the supervisor is and how the supervisor can be contacted anytime occupational therapy services are rendered.
- c.* Assume responsibility for all delegated tasks and shall not delegate a service which exceeds the expertise of the OTA or OTA limited permit holder.
- d.* Provide evaluation and development of a treatment plan for use by the OTA.
- e.* Ensure that the OTA, OT limited permit holder and OTA limited permit holder under the OT's supervision have current licenses to practice.
- f.* Ensure that the signature of an OTA on an occupational therapy treatment record indicates that the occupational therapy services were provided in accordance with the rules and regulations for practicing as an OTA.

208.5(3) The following are functions that only an occupational therapist may provide and that shall not be delegated to an OTA:

- a.* Interpretation of referrals;
- b.* Initial occupational therapy evaluation and reevaluations;
- c.* Identification, determination or modification of patient problems, goals, and care plans;
- d.* Final discharge evaluation and establishment of the discharge plan;
- e.* Assurance of the qualifications of all assistive personnel to perform assigned tasks through written documentation of their education or training that is maintained and available at all times;
- f.* Delegation of and instruction in the services to be rendered by the OTA including, but not limited to, specific tasks or procedures, precautions, special problems, and contraindicated procedures; and
- g.* Timely review of documentation, reexamination of the patient and revision of the plan when indicated.

208.5(4) Supervision of unlicensed assistive personnel. OTs are responsible for patient care provided by unlicensed assistive personnel under the OT's supervision. Unlicensed assistive personnel shall not provide independent patient care unless each of the following standards is satisfied:

- a.* The supervising OT shall physically participate in the patient's treatment or evaluation, or both, each treatment day;
- b.* The unlicensed assistive personnel shall provide independent patient care only while under the on-site supervision of the supervising OT;
- c.* Documentation made in occupational therapy records by unlicensed assistive personnel shall be cosigned by the supervising OT; and
- d.* The supervising OT shall provide periodic reevaluation of the performance of unlicensed assistive personnel in relation to the patient.

208.5(5) Minimum frequency of OT interaction. At a minimum, an OT must directly participate in treatment, either in person or through a telehealth visit, every twelfth visit for all patients and must document each visit. The occupational therapist shall participate at a higher frequency when the standard of care dictates.

208.5(6) Occupational therapy assistant responsibilities.

- a.* The occupational therapy assistant shall:
 - (1) Provide only those services for which the OTA has the necessary skills and shall consult the supervising occupational therapist if the procedures are believed not to be in the best interest of the patient;
 - (2) Gather data relating to the patient's disability during screening, but shall not interpret the patient information as it pertains to the plan of care;
 - (3) Communicate any change, or lack of change, which occurs in the patient's condition and which may need the assessment of the OT;
 - (4) Provide occupational therapy services only under the supervision of the occupational therapist;

- (5) Provide treatment only after evaluation and development of a treatment plan by the occupational therapist;
 - (6) Refer inquiries that require interpretation of patient information to the occupational therapist;
 - (7) Be supervised by an occupational therapist, either on site or through the use of telecommunication or other technology, at all times when occupational therapy services are being rendered;
 - (8) Receive supervision from any number of at least one occupational therapist; and
 - (9) Record on every patient chart the name of the OTA's supervisor for each treatment session.
- b.* The signature of an OTA on the occupational therapy treatment record indicates that occupational therapy services were provided in accordance with the rules and regulations for practicing as an OTA.

208.5(7) Unlicensed assistive personnel. Unlicensed assistive personnel may assist an OTA in providing patient care in the absence of an OT only if the OTA maintains in-sight supervision of the unlicensed assistive personnel and the OTA is primarily and significantly involved in that patient's care.

208.5(8) The occupational therapy limited permit holder may evaluate clients, plan treatment programs, and provide periodic reevaluations under supervision of a licensed occupational therapist who shall bear full responsibility for care provided under the occupational therapist's supervision.

These rules are intended to implement Iowa Code chapters 147, 148B and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 209
“Discipline for Occupational Therapists and Occupational Therapy Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 148B, 272C.3, and 272C.10

Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Proposed Chapter 209 defines actions that are inconsistent with professional standards for licensees, which are established to protect the consumer and colleagues. Actions inconsistent with professional standards could result in disciplinary actions against a practitioner’s license.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the occupational therapist and occupational therapist assistant licensees and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are associated with costs to the licensed professional. Licensees may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fine amounts are not established in rule for these licensees and are determined by the Board of Physical and Occupational Therapy. The Board has statutory authority to impose a civil penalty on individuals practicing without a license.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed chapter since there is clarity on compliance and potential consequences for noncompliance. The benefit is being achieved since the Board had 15

founded violations between 2015 and 2023. The low number of public discipline cases demonstrates the effectiveness of the continuing education requirements in ensuring licensees are remaining current in their professional knowledge and providing quality care to Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes the benefits achieved justify the costs because the cost of inaction would increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline. Fees incurred by the professional are up to \$1,000 per violation.

The Board has not identified a more cost-effective alternative to the current discipline process. There could be a consideration of reducing or eliminating grounds for discipline, but the Board believes these requirements are important in order to protect the public from infection risks.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee takes action that is grounds for discipline. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer, licensure specialist and investigator support the full scope of this work at 0.22 full-time equivalent (FTE) position. This additionally includes answering questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The amount of complaints received are relatively low, and costs reflect that. The Board believes the costs are justified because inaction could increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline. The benefit of protecting the public justifies the costs to review and address the standards of professional behavior.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

The Iowa Boards and Commissions Review Committee recommended consolidating the Board of Physical and Occupational Therapy with Athletic Training, Chiropractic and Massage Therapy.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

While there has been some standardization of consideration of criminal convictions, the Board has not identified a less restrictive alternative to public protection.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the occupational therapist and occupational therapist assistant licensees and are therefore excluded from the general disciplinary chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 209 and adopt the following **new** chapter in lieu thereof:

CHAPTER 209 DISCIPLINE FOR OCCUPATIONAL THERAPISTS AND OCCUPATIONAL THERAPY ASSISTANTS

645—209.1(148B) Definitions.

“*Board*” means the board of physical and occupational therapy.

“*Discipline*” means any sanction the board may impose upon licensees.

“*Licensee*” means a person licensed to practice pursuant to Iowa Code chapter 148A and 645—Chapters 206 to 209 in Iowa.

645—209.2(272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in 645—Chapter 13 when the board determines that any of the acts or offenses listed in such rule or in Iowa Code section 147.55 have occurred:

209.2(1) Professional incompetency. Professional incompetency includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other occupational therapists or occupational therapy assistants in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care which is ordinarily exercised by the average occupational therapist or occupational therapy assistant acting in the same or similar circumstances.

d. Failure to conform to the minimal standard of acceptable and prevailing practice of the licensed occupational therapist or licensed occupational therapy assistant in this state.

e. Mental or physical inability reasonably related to and adversely affecting the licensee's ability to practice in a safe and competent manner.

f. Being adjudged mentally incompetent by a court of competent jurisdiction.

209.2(2) Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of occupational therapy or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

209.2(3) Violation of a regulation, rule or law of this state, another state, or the United States which relates to the practice of occupational therapy, including, but not limited to, the code of ethics found in rule 645—208.1(148B,272C).

209.2(4) Failure of a licensee or an applicant for licensure in this state to report any voluntary agreements restricting the individual's practice of occupational therapy in another state, district, territory or country.

209.2(5) Knowingly aiding, assisting or advising a person to unlawfully practice occupational therapy.

209.2(6) Failure to report a change of name or address within 30 days after it occurs.

209.2(7) Representing oneself as a licensed occupational therapist or occupational therapy assistant when one's license has been suspended or revoked, or when the license is on inactive status.

209.2(8) Repeated failure to comply with standard precautions for preventing transmission of infectious diseases as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.

These rules are intended to implement Iowa Code chapters 147, 148B and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 220
“Licensure of Podiatrists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 149 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 149 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:20 to 10:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

This proposed rulemaking sets minimum standards for entry into the podiatry profession. Iowa residents, licensees, and employers benefit from the rulemaking because it articulates the processes by which individuals apply for licensure as a podiatrist in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualifications, and exam requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no known direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee. The fee for initial podiatry licensure is \$400 and the renewal fee is \$400 in the state of Iowa. Iowa’s initial licensure

application process is similar to those implemented by other state boards of podiatry. The application fees vary by state, however, with Kansas at \$750, Minnesota at \$600, and South Dakota at \$500 (all higher); Illinois at the same cost of \$400; and Missouri at \$200 and Nebraska at \$131 (both lower).

The licensee would also have costs related to educational requirements and exam requirements. The Board has not identified an exact cost of education for this field because the cost varies depending on the school the licensee chooses to attend to meet those requirements. Exam costs are consistent across states, with the national standard being the three-part National Board of Podiatric Medical Examiners (NBPME) exam. The total exam cost is \$2,775.

Board staff review applications for initial and renewal licenses, answer inquiries on licensing, and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.15 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide the academic training for podiatrists to obtain their licenses in the state of Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the exams. Because the cost of education is so variable depending on the institution the person attends, the Board is unable to put an exact cost on education or exam preparation.

Licensing fees are \$400 for an initial license and \$400 for each renewal period.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals, and reinstatements. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. It takes roughly 0.15 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements assure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of podiatrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the state of Iowa are similar to those of surrounding states. The surrounding states all require similar licensing procedures for podiatrists.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of podiatrists. The Board believes all current requirements assure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of podiatrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to the state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of podiatrists. The Board believes all current requirements assure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of podiatrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of podiatrists. The Board believes all current requirements assure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of optometrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to the state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for podiatrists. While some podiatrists likely are running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 220 and adopt the following **new** chapter in lieu thereof:

PODIATRISTS

| | |
|-------------|---|
| CHAPTER 220 | LICENSURE OF PODIATRISTS |
| CHAPTER 221 | LICENSURE OF ORTHOTISTS, PROSTHETISTS, AND PEDORTHISTS |
| CHAPTER 222 | CONTINUING EDUCATION FOR PODIATRISTS |
| CHAPTER 223 | PRACTICE OF PODIATRY |
| CHAPTER 224 | DISCIPLINE FOR PODIATRISTS, ORTHOTISTS, PEDORTHISTS, AND PROSTHETISTS |
| CHAPTER 225 | CONTINUING EDUCATION FOR ORTHOTISTS, PROSTHETISTS, AND PEDORTHISTS |

CHAPTER 220
LICENSURE OF PODIATRISTS

645—220.1(149) Definitions.

“Active license” means a license that is current and has not expired.

“Board” means the board of podiatry.

“Grace period” means the 30-day period following expiration of a license when the license is still considered to be active.

“Inactive license” means a license that has expired because it was not renewed by the end of the grace period.

“Licensee” means any person licensed to practice as a podiatrist in the state of Iowa.

“License expiration date” means June 30 of even-numbered years.

“Licensure by endorsement” means the issuance of an Iowa license to practice podiatry to an applicant who is or has been licensed in another state.

“NBPMME” means National Board of Podiatric Medical Examiners.

“Reactivate” or *“reactivation”* means the process as outlined in rule 645—220.15(17A,147,272C) by which an inactive license is restored to active status.

“Reciprocal license” means the issuance of an Iowa license to practice podiatry to an applicant who is currently licensed in another state that has a mutual agreement with the Iowa board of podiatry to license persons who have the same or similar qualifications to those required in Iowa.

“Reinstatement” means the process as outlined in 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

645—220.2(149) Requirements for licensure.

220.2(1) The applicant will submit a completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.15(147,148F,149).

220.2(2) No application will be considered complete until official copies of academic transcripts are received, verifying graduation from a college of podiatric medicine approved by the Council on Podiatric

Medical Education (CPME) of the American Podiatric Medical Association. Transcripts must be sent directly from the school to the board.

220.2(3) Licensees who were issued their licenses within six months prior to the renewal date do not need to renew their licenses until the renewal date two years later.

220.2(4) Incomplete applications that have been on file in the board office for more than two years will be:

- a.* Considered invalid and destroyed; or
- b.* Retained upon written request of the applicant. The applicant is responsible for requesting that the file be retained.

220.2(5) An applicant who graduated from a podiatric college in 1961 or earlier, is currently licensed in another state and has practiced for the 24 months immediately prior to application may be exempted from passing Part I and Part II of the NBPME examination based on the applicant's credentials and the discretion of the board.

220.2(6) An applicant who graduated from a podiatric college on or after January 1, 1995, but before January 1, 2013, shall present documentation of successful completion of a residency approved by the American Podiatric Medical Association's Council on Podiatric Medical Education.

220.2(7) An applicant who graduated from a podiatric college on or after January 1, 2013, shall present documentation of successful completion of two years of a residency approved by the American Podiatric Medical Association's Council on Podiatric Medical Education.

220.2(8) Passing score reports for Part I, Part II, and Part III of the NBPME examination shall be sent directly from the examination service to the board.

645—220.3(149) Written examinations.

220.3(1) The examinations required by the board shall be Part I, Part II, and Part III of the NBPME.

220.3(2) The applicant has responsibility for:

- a.* Making arrangements to take the examinations; and
- b.* Arranging to have the examination score reports sent directly to the board from the NBPME.

220.3(3) A passing score as recommended by the administrators of the NBPME examinations shall be required.

645—220.4(149) Educational qualifications.

220.4(1) A new applicant for permanent or temporary licensure to practice as a podiatrist shall present official copies of academic transcripts, verifying graduation from a college of podiatric medicine approved by the Council on Podiatric Medical Education (CPME) of the American Podiatric Medical Association. Transcripts must be sent directly from the school to the board of podiatry.

220.4(2) Foreign-trained podiatrists shall:

a. Provide an equivalency evaluation of their educational credentials by one of the following: International Educational Research Foundation, Inc., Credentials Evaluation Service, P.O. Box 3665, Culver City, CA 90231-3665, telephone 310.258.9451, website www.ierf.org, or email at info@ierf.org; or International Credentialing Associates, Inc., 7245 Bryan Dairy Road, Bryan Dairy Business Park II, Largo, FL 33777, telephone 727.549.8555. The professional curriculum must be equivalent to that stated in these rules. The candidate shall bear the expense of the curriculum evaluation.

b. Provide a notarized copy of the certificate or diploma awarded to the applicant from a podiatry program in the country in which the applicant was educated.

c. Receive a final determination from the board regarding the application for licensure.

645—220.5(149) Title designations. A podiatrist may use the prefix "Doctor" but shall add after the person's name the word "Podiatrist" or "DPM."

645—220.6(147,149) Temporary license.

220.6(1) A temporary license may be issued for up to one year and may be annually renewed at the discretion of the board. Temporary licenses will expire on June 30.

220.6(2) Each applicant shall:

a. Submit a completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.15(147,148F,149);

b. Have official copies of academic transcripts sent directly to the board of podiatry from a college of podiatric medicine approved by the Council on Podiatric Medical Education (CPME) of the American Podiatric Medical Association;

c. Request that passing score reports of the NBPME examination Part I and Part II be sent directly to the board of podiatry from the National Board of Podiatric Medical Examiners;

d. Furnish an affidavit by the institution director or dean of an approved podiatric college attesting that the applicant has been accepted into a residency program in this state that is approved by the Council on Podiatric Medical Education (CPME) of the American Podiatric Medical Association;

e. Request verification of license(s) from every jurisdiction in which the applicant has been licensed, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- (1) Licensee's name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license.

220.6(3) An applicant who graduated from a podiatric college in 1961 or earlier, is currently licensed in another state, and has practiced for the 24 months immediately prior to application may be exempted from passing Part I and Part II of the NBPME examination based on the applicant's credentials and the discretion of the board.

220.6(4) The ultimate decision to issue a temporary license resides with the board, and a temporary license shall be surrendered if the reason for issuance ceases to exist.

645—220.7(149) Licensure by endorsement. An applicant who has been a licensed podiatrist under the laws of another jurisdiction may file an application for licensure by endorsement with the board office.

220.7(1) The board may receive by endorsement any applicant from the District of Columbia, another state, territory, province or foreign country who:

a. Submits a completed online application for licensure and pays the nonrefundable licensure fee specified in rule 645—5.15(147,148F,149);

b. Shows evidence of licensure requirements that are similar to those required in Iowa;

c. Provides the board with official copies of academic transcripts, verifying graduation from a college of podiatric medicine approved by the Council on Podiatric Medical Education (CPME) of the American Podiatric Medical Association. Transcripts must be sent directly from the school to the board of podiatry; and

d. Provides verification of license(s) from every jurisdiction in which the applicant has been licensed, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- (1) Licensee's name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license.

220.7(2) An applicant shall submit the passing score reports for Part I and Part II of the NBPME examination. An applicant who graduated from a podiatric college in 1961 or earlier, is currently licensed in another state, and has practiced for the 24 months immediately prior to application may be exempted from passing Part I and Part II of the NBPME examination based on the applicant's credentials and the discretion of the board.

220.7(3) An applicant shall submit passing score reports for Part III of the NBPME examination. An applicant who passed the Part III NBPME examination more than three years prior to the date of application in Iowa must submit proof of podiatry practice for one of the last three years.

220.7(4) An applicant who graduated from a podiatric college on or after January 1, 1995, must present documentation of successful completion of a residency approved by the American Podiatric Medical Association's Council on Podiatric Medical Education.

220.7(5) A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—220.8(149) License renewal.

220.8(1) The biennial license renewal period for a license to practice podiatry begins on July 1 of an even-numbered year and ends on June 30 of the next even-numbered year. The licensee is responsible for renewing the license prior to its expiration.

220.8(2) An individual who was issued a license within six months of the license renewal date does not need to renew the individual's license until the subsequent renewal two years later.

220.8(3) An applicant who graduated from a podiatric college on or after January 1, 2013, and who is seeking renewal for the first time shall present documentation of successful completion of a residency program approved by the American Podiatric Medical Association's Council on Podiatric Medical Education.

220.8(4) A licensee seeking renewal shall:

a. Meet the continuing education requirements of rule 645—222.2(149,272C) and the mandatory reporting requirements of subrule 220.9(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

220.8(5) Mandatory reporter training requirements.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities, examines, attends, counsels or treats children and dependent adults in Iowa shall indicate on the renewal application completion of two hours of training in child abuse identification and reporting in the previous five years or condition(s) for waiver of this requirement as identified in paragraph 220.8(5) "e."

b. A licensee who, in the course of employment, examines, attends, counsels or treats adults in Iowa shall complete the applicable department of health and human services training related to the identification and reporting of child and dependent adult abuse as required by Iowa Code section 232.69(3) "b." The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in 645—Chapter 4.

c. The board may select licensees for audit of compliance with the requirements in paragraphs 220.8(5) "a" and "b."

220.8(6) Upon receiving the information required by this rule and the required fee, board staff will administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

220.8(7) The license certificate and proof of active licensure will be displayed in a conspicuous public place at the primary site of practice.

220.8(8) Late renewal. A license not renewed by the expiration date will be assessed a late fee as specified in 645—subrule 5.15(3). Completion of renewal requirements and submission of the late fee within the grace period are needed to renew the license.

220.8(9) Inactive license. A license not renewed by the end of the grace period is inactive. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a podiatrist in Iowa until the license is reactivated. A licensee who practices as a podiatrist in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—220.9(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, an applicant will:

220.9(1) Submit a completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.15(147,148F,149).

220.9(2) Provide verification of current competence to practice as a podiatrist by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 40 hours of continuing education within two years of application for reactivation.

b. If the license has been on inactive status for more than five years, provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 80 hours of continuing education within two years of application for reactivation.

645—220.10(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with 645—220.15(17A,147,272C) prior to practicing as a podiatrist in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 149, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 221
“Licensure of Orthotists, Prosthetists, and Pedorthists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 148F and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148F and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:20 to 10:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing (DIAL) and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

This proposed rulemaking sets minimum standards for entry into the professions of orthotists, prosthetists, and pedorthists. Iowa residents, licensees, and employers benefit from the rulemaking because it articulates the processes by which individuals apply for licensure in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualifications, and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no known direct cost to the general public, but there is a cost to the applicant because complying with the minimum requirements to enter into the profession is at the expense of the licensee. The fee for initial licensure is \$400 and the renewal fee is \$400 in the state of Iowa. Iowa's initial licensure application process is similar to those implemented by other state boards of podiatry. The application fees vary by state, however, with Oklahoma at \$300 for orthotists and prosthetists and \$180 for pedorthists, Minnesota at \$600 for orthotists and prosthetists and \$400 for pedorthists, and Illinois at \$400 for all three professions.

The licensee would also have costs related to educational requirements and examination requirements. The Board of Podiatry has not identified an exact cost of education for this field because the cost varies depending on the school the licensee chooses to attend to meet those requirements. Examination costs are consistent across states, with the national standard being the certification examination offered by American Board of Certification in Orthotics, Prosthetics and Pedorthics or the Board of Certification/Accreditation. The total examination cost is \$400.

Board staff review applications for initial and renewal licenses, answer inquiries on licensing, and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.15 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide the academic training for individuals to obtain their licenses in the state of Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the examinations. Because the cost of education is so variable depending on the institution the person attends, the Board is unable to put an exact cost on the cost of education or examination preparation.

Licensing fees are \$400 for an initial license and \$400 for each renewal period.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals, and reinstatements. Staff salaries to support the work of the Board are covered by the Fund. It takes roughly 0.15 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the state of Iowa are similar to those of surrounding states. The surrounding states all require similar licensing procedures for orthotists, prosthetists, and pedorthists.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of orthotists, pedorthists, and prosthetists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rule provides consistency related to the licensure of podiatrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These rule edits support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of orthotists, pedorthists, and prosthetists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rules provide consistency related to the licensure of orthotists, prosthetists, and pedorthists in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of orthotists, pedorthists, and prosthetists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of orthotists, pedorthists, and prosthetists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to the state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for orthotists, pedorthists, and prosthetists. While some orthotists, pedorthists, and prosthetists likely are running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 221 and adopt the following new chapter in lieu thereof:

CHAPTER 221
LICENSURE OF ORTHOTISTS, PROSTHETISTS, AND PEDORTHISTS

645—221.1(148F) Definitions.

“*Active license*” means a license that is current and has not expired.

“*Board*” means the board of podiatry.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Licensee*” means any person licensed to practice as an orthotist, prosthetist, or pedorthist in the state of Iowa.

“*License expiration date*” means June 30 of even-numbered years.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice orthotics, prosthetics, or pedorthics to an applicant who is or has been licensed in another state.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—221.8(17A,147,272C) by which an inactive license is restored to active status.

“*Reciprocal license*” means the issuance of an Iowa license to practice orthotics, prosthetics, or pedorthics to an applicant who is currently licensed in another state that has a mutual agreement with the Iowa board of podiatry to license persons who have the same or similar qualifications to those required in Iowa.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

645—221.2(148F) Requirements for licensure.

221.2(1) The applicant will submit a completed online application for licensure and pay the non-refundable licensure fee specified in rule 645—5.15(147,148F,149).

221.2(2) No application will be considered complete until official copies of academic transcripts are received.

a. Applicants for licensure in orthotics or prosthetics must submit proof of graduation from an educational program approved by the Commission on Accreditation of Allied Health Education Programs.

b. Applicants for licensure in pedorthics must submit proof of graduation from an educational program approved by the National Commission on Orthotic and Prosthetic Education.

221.2(3) Transcripts must be sent directly from the school to the board.

221.2(4) Licensees who were issued their licenses within six months prior to the renewal date do not need to renew their licenses until the renewal date two years later.

221.2(5) Incomplete applications that have been on file in the board office for more than two years will be:

a. Considered invalid and destroyed; or

b. Retained upon written request of the applicant. The applicant is responsible for requesting that the file be retained.

221.2(6) The applicant shall ensure that the passing score from the appropriate professional examination is sent directly to the board from the examination service.

221.2(7) Applicants for licensure in orthotics or prosthetics must provide documentation of successful completion of a residency program accredited by the National Commission on Orthotic and Prosthetic Education.

221.2(8) Applicants for licensure in pedorthics must provide documentation of successful completion of a qualified clinical experience program.

645—221.3(148F) Written examinations.

221.3(1) Prosthetists must have completed and passed the Board of Certification/Accreditation, International (BOC), or American Board for Certification in Orthotics, Prosthetics and Pedorthics, Incorporated (ABC), examination for prosthetists.

221.3(2) Orthotists must have completed and passed the BOC or ABC examination for orthotists.

221.3(3) Pedorthists must have completed and passed the BOC or ABC examination for pedorthists.

221.3(4) The applicant has responsibility for:

a. Making arrangements to take the examinations; and

b. Arranging to have the examination score reports sent directly to the board from the ABC or BOC.

221.3(5) A passing score as recommended by the administrators of the ABC or BOC examination shall be required.

645—221.4(148F) Educational qualifications.

221.4(1) An applicant for licensure to practice as an orthotist or prosthetist shall present official copies of academic transcripts, verifying completion of the following requirements:

a. A baccalaureate or higher degree from a regionally accredited college or university. Transcripts must be sent directly from the school to the board of podiatry; and

b. Verification of completion of an academic program in orthotics or prosthetics accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). Transcripts must be sent directly from the school to the board of podiatry.

221.4(2) An applicant for licensure to practice as a pedorthist shall present official copies of academic transcripts, verifying completion of the following requirements:

a. A high school diploma or its equivalent; and

b. Verification of completion of an academic program in pedorthics accredited by the National Commission on Orthotic and Prosthetic Education. Verification must be sent directly from the school to the board of podiatry.

221.4(3) An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 645—19.2(272C).

645—221.5(148F) Licensure by endorsement.

221.5(1) An applicant who has been a licensed orthotist, prosthetist, or pedorthist under the laws of another jurisdiction may file an application for licensure by endorsement with the board office. The board may receive by endorsement any applicant from the District of Columbia, another state, territory, province or foreign country who:

- a.* Submits a completed online application for licensure and pays the nonrefundable licensure fee specified in rule 645—5.15(147,148F,149);
- b.* Shows evidence of licensure requirements that are similar to those required in Iowa;
- c.* For prosthetic or orthotic licensure, provides:
 - (1) A baccalaureate or higher degree from a regionally accredited college or university. Transcripts must be sent directly from the school to the board of podiatry; and
 - (2) Verification of completion of an academic program in orthotics or prosthetics accredited by CAAHEP. Transcripts must be sent directly from the school to the board of podiatry;
- d.* For pedorthic licensure, provides:
 - (1) A high school diploma or its equivalent; and
 - (2) Verification of completion of an academic program in pedorthics accredited by the National Commission on Orthotic and Prosthetic Education. Verification must be sent directly from the school to the board of podiatry;
- e.* Provides verification of license(s) from every jurisdiction in which the applicant has been licensed, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:
 - (1) Licensee's name;
 - (2) Date of initial licensure;
 - (3) Current licensure status; and
 - (4) Any disciplinary action taken against the license;
- f.* Submits a copy of the scores from the appropriate professional examination to be sent directly from the examination service to the board.

221.5(2) Individuals who were issued their licenses by endorsement within six months of the license renewal date do not need to renew their licenses until the next renewal date two years later.

221.5(3) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—221.6(148F) License renewal.

221.6(1) The biennial license renewal period for a license to practice orthotics, prosthetics, or pedorthics begins on July 1 of an even-numbered year and ends on June 30 of the next even-numbered year. The licensee is responsible for renewing the license prior to its expiration.

221.6(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later.

221.6(3) A licensee seeking renewal shall:

- a.* Meet the continuing education requirements of rule 645—225.2(148F,272C). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and
- b.* Submit the completed renewal application and renewal fee before the license expiration date.

221.6(4) Upon receipt of the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

221.6(5) The license certificate and proof of active licensure will be displayed in a conspicuous public place at the primary site of practice.

221.6(6) Late renewal. The license shall become late when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 645—subrule

5.15(7). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

221.6(7) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa but may not practice as an orthotist, prosthetist, or pedorthist in Iowa until the license is reactivated. A licensee who practices as an orthotist, prosthetist, or pedorthist in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—221.7(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

221.7(1) Submit a completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.15(147,148F,149).

221.7(2) Provide verification of current competence to practice by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of:

1. For orthotists or prosthetists, 30 hours of continuing education within two years of application for reactivation.

2. For pedorthists, 20 hours of continuing education within two years of application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of:

1. For orthotists or prosthetists, 60 hours of continuing education within two years of application for reactivation.

2. For pedorthists, 40 hours of continuing education within two years of application for reactivation.

645—221.8(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—221.8(17A,147,272C) prior to practicing as an orthotist, a prosthetist, or a pedorthist in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 148F, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 222
“Continuing Education for Podiatrists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 154D and 272C

Purpose and Summary

This proposed rulemaking sets forth continuing education requirements for podiatrists. The rulemaking includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rulemaking, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that podiatrists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses, so the Board of Podiatry is not privy to exact costs, but based on research estimates, the cost is around \$200 every two years for a licensee to meet these requirements.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is ensuring that podiatrists maintain up-to-date practice standards and, as a result, provide high quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offers these courses, so the Board is not privy to exact costs, but based on research estimates, the cost is around \$200 every two years for a licensee to meet these requirements. The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 40 hours of continuing education for this license type every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.20 full-time equivalent (FTE) position, which includes answering questions from the public and licensees regarding practice standards, continuing education, Board meeting administration, and more.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board has not recommended a reduction in hours.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public disciplinary actions.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be reducing the amount of continuing education required. A review of surrounding states has shown that Iowa is in line with neighboring jurisdictions. Iowa requires

40 hours of continuing education every two years. Illinois requires 100 hours every two years, Nebraska requires 48 hours every two years, and Minnesota requires 40 hours every two years. Kansas requires 54 hours every three years, South Dakota requires 30 hours every two years, and Missouri requires 20 hours every two years. Staff held conversations with Board members inquiring whether the Board would recommend lowering the continuing education requirements. The Board did not recommend a change in continuing education hours.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring whether the Board would recommend lowering the continuing education requirements. The Board has considered a change of the total number of and frequency of continuing education hours and the safety of the public. While the Board is not inclined at this time to make changes, it will consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Podiatrists practice in a number of settings including private practice clinics, major hospital systems, residential health care facilities, and educational institutions. While some licensees likely are running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Conversely, the entities that provide continuing education may face a negative impact on their revenue due to less demand for entities' continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 222 and adopt the following **new** chapter in lieu thereof:

CHAPTER 222
CONTINUING EDUCATION FOR PODIATRISTS

645—222.1(149,272C) Definitions.

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of podiatry.

“*Continuing education*” means planned, organized learning acts acquired during licensure designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as a podiatrist in the state of Iowa.

645—222.2(149,272C) Continuing education requirements.

222.2(1) The biennial continuing education compliance period extends for a two-year period beginning on July 1 of each even-numbered year and ending on June 30 of the next even-numbered year. Each biennium, each person who is licensed to practice as a podiatrist in this state shall be required to complete a minimum of 40 hours of continuing education.

222.2(2) Requirements for new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The new licensee will be required to complete a minimum of 40 hours of continuing education per biennium for each subsequent license renewal.

222.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity. These hours must be in accordance with these rules.

222.2(4) No hours of continuing education will be carried over into the next biennium.

222.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

645—222.3(149,272C) Standards.

222.3(1) *General criteria.* A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

a. Constitutes an organized program of learning that contributes directly to the professional competency of the licensee;

b. Pertains to subject matters that integrally relate to the practice of the profession;

c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;

d. Fulfills stated program goals, objectives, or both; and

e. Provides proof of attendance to licensees in attendance including:

(1) Date, location, course title, presenter(s);

(2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

222.3(2) *Specific criteria.*

a. Licensees may obtain continuing education hours of credit by teaching in a college, university, or graduate school that is recognized by the U.S. Department of Education. The licensee may receive credit on a one-time basis for the first offering of a course.

b. Continuing education hours of credit may be obtained by completing the following programs/activities of a podiatric scientific nature and sponsored by an accredited college of podiatric medicine or the American Podiatric Medical Association or a regional or state affiliate or nonprofit hospital that are:

(1) Educational activities in which participants and faculty are present at the same time and attendance can be verified. Such activities include lectures, conferences, focused seminars, clinical and practical workshops, simultaneous live satellite broadcasts and teleconferences; and

(2) Scientifically oriented material or risk management activities.

c. If the podiatrist utilizes conscious sedation, the podiatrist shall obtain a minimum of one hour of continuing education in the area of conscious sedation or other related topics.

d. A licensee who has prescribed opioids to a patient during a renewal cycle shall have obtained a minimum of one hour of continuing education regarding the United States Centers for Disease Control and Prevention guideline for prescribing opioids for chronic pain, including recommendations on limitations on dosages and the length of prescriptions, risk factors for abuse, and nonopioid and nonpharmacologic therapy options.

e. Combined maximum per biennium of 20 hours for the following continuing education source areas will not exceed:

(1) Presenting professional programs that meet the criteria listed in this subrule. Two hours of credit will be awarded for each hour of presentation. A course schedule or brochure must be maintained for audit.

(2) Ten hours of credit for viewing videotaped presentations if the following criteria are met:

1. There is an approved sponsoring group or agency;

2. There is a facilitator or program official present;

3. The program official is not the only attendee; and

4. The program meets all the criteria in 645—222.3(149,272C).

(3) Ten hours of credit for computer-assisted instructional courses or programs pertaining to patient care and the practice of podiatric medicine and surgery. These courses and programs must be approved by the American Podiatric Medical Association or its affiliates and have a certificate of completion that includes the following information:

1. Date course/program was completed;

2. Title of course/program;

3. Number of course/program contact hours; and

4. Official signature or verification of course/program sponsor.

(4) Five hours of credit for reading journal articles pertaining to patient care and the practice of podiatric medicine and surgery. The licensee must pass a required posttest and be provided with a certificate of completion.

f. No office management courses will be accepted by the board.

g. Continuing education hours of credit equivalents for academic coursework per biennium are as follows:

1 academic semester hour = 15 continuing education hours

1 academic quarter hour = 10 continuing education hours

h. Credit is given only for actual hours attended.

These rules are intended to implement Iowa Code section 272C.2 and chapter 149.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 223
“Practice of Podiatry”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 149 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 149 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:20 to 10:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

This proposed rulemaking provides Iowans, licensees, and their employers with definitions relevant to the practice of podiatrists and requirements for administering conscious sedation, for preventing HIV and HBV transmission, for unlicensed graduates of a podiatric college working as assistants, and for prescribing opioids. This rulemaking articulates practice standards and provides a scope of practice for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are costs associated with practice standards because there is often time, effort, and money associated with compliance. There are costs associated with administering and receiving sedation medications, reviewing guidance on transmitting illnesses, attending podiatric college, and prescribing

opioids. The Board of Podiatry does not have a mechanism for estimating what these total costs might be to the licensee.

Costs to the general public are associated with receiving care. The Board does not have a mechanism for estimating what these total costs might be because each patient's level of care is individualized depending on the patient's health care needs.

The cost to the agency is the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, answering questions from licensees and the public, administration of Board meetings, and more. An executive officer supports the work of this Board at approximately 0.20 full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this rulemaking. The rulemaking provides standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing that they are receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

This is a small profession. There are approximately 248 licensed podiatrists who provide these services to Iowans. There are very few complaints submitted to this Board. In 2022, there was a total of 11 complaints submitted and one public disciplinary action issued. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important service to Iowans. If this profession was not regulated, it could mean that lower-skilled individuals would provide this service to Iowans, which would be of concern to the Board. Podiatry is regulated in all 50 states.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean lower-skilled individuals providing services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, answering questions from licensees and the public, administration of Board meetings, and more. An executive officer supports the work of this Board at approximately 0.20 FTE position. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This is a small profession. There are approximately 248 licensed podiatrists who provide these services to Iowans. There are very few complaints submitted to this Board. In 2022, there was a total of 11 complaints submitted and one public disciplinary action issued. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important

service to Iowans. If this profession were not regulated, it could mean that lower-skilled individuals would provide this service to Iowans, which would be of concern to the Board. Podiatry is regulated in all 50 states.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Licensing is the highest form of regulation. Lower forms of regulation could be viable, such as a registration. That said, podiatry is regulated in all 50 states. Podiatrists practice a form of medicine that is technical in nature and requires a high level of skill, so the Board believes that regulation is necessary.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Currently, podiatrists are regulated in all 50 states. Podiatrists practice a form of medicine that is technical in nature and requires a high level of skill, so the Board believes that regulation is necessary.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as registration as opposed to licensure. The Board ultimately decided that to ensure public safety and the integrity of the profession, licensure requirements should stay in effect. Currently, all 50 states regulate podiatrists. Not regulating this profession could jeopardize public safety and lead to serious injury for consumers. The Board believes regulations are necessary and critical to ensuring public safety, which is the paramount concern.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The rulemaking is meant to ensure public safety in terms of practice standards for podiatrists. While some licensees could be running a small business, some also work for large hospitals, clinics and retailers. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 223 and adopt the following **new** chapter in lieu thereof:

CHAPTER 223 PRACTICE OF PODIATRY

645—223.1(149) Definitions.

“*Ambulatory surgical center*” or “*ASC*” means an ambulatory surgical center that has in effect an agreement with the Centers for Medicare and Medicaid Services (CMS) of the U.S. Department of Health and Human Services, in accordance with 42 CFR Part 416.

“*Conscious sedation*” means a depressed level of consciousness produced by the administration of pharmacological substances that retains the patient’s ability to independently and continuously maintain an airway and respond appropriately to physical stimulation or verbal command.

645—223.2(149) Requirements for administering conscious sedation. A licensed podiatrist who holds a permanent license in good standing may use conscious sedation for podiatric patients on an outpatient basis in a hospital or ASC after the podiatrist has submitted to the board office an attestation on a form approved by the board.

223.2(1) The attestation shall include:

a. Evidence of successful completion within the past five years of a formal anesthesiology rotation in a residency program approved by the Council on Podiatric Medical Education (CPME); or

b. For a podiatrist who does not meet the requirements of paragraph 223.2(1) “*a.*,” an attestation with evidence that the podiatrist is authorized by the governing body of a hospital or ASC to use conscious sedation. This attestation must be received by the board prior to January 1, 2005.

223.2(2) The podiatrist will provide verification of current certification in Basic Cardiac Life Support (BCLS) or Advanced Cardiac Life Support (ACLS).

223.2(3) A podiatrist who has an attestation on file and continues to use conscious sedation will meet the requirements of 645—Chapter 222 at the time of license renewal. A minimum of one hour of continuing education in the area of conscious sedation or related topics is required beginning with the renewal cycle of July 1, 2004, to June 30, 2006. Continuing education credit in the area of conscious sedation may be applied toward the 40 hours of continuing education required for renewal of the license. In addition, the podiatrist will maintain current certification in BCLS or ACLS.

223.2(4) A podiatrist will only utilize conscious sedation in a hospital or ASC when the podiatrist has been granted clinical privileges by the governing body of the hospital or ASC in accordance with approved policies and procedures of the hospital or ASC.

223.2(5) It is a violation of the standard of care for a podiatrist to use conscious sedation agents that result in a deep sedation or general anesthetic state.

223.2(6) Reporting of adverse occurrences related to conscious sedation. A licensed podiatrist who has an attestation on file with the board must submit a report to the board within 30 days of any mortality or other incident which results in temporary or permanent physical or mental injury requiring hospitalization of the patient during or as a result of conscious sedation. Included in the report will be the following:

a. Description of podiatric procedures;

b. Description of preoperative physical condition of patient;

c. List of drugs and dosage administered;

d. Description, in detail, of techniques utilized in administering the drugs;

e. Description of adverse occurrence, including:

- (1) Symptoms of any complications including, but not limited to, onset and type of symptoms;
- (2) Treatment instituted;
- (3) Response of the patient to treatment;

f. Description of the patient’s condition on termination of any procedures undertaken;

g. If a patient is transferred, a statement providing where and to whom; and

h. Name of the registered nurse who is trained to administer conscious sedation and who assisted in the procedure.

223.2(7) Failure to report. Failure to comply with subrule 223.2(6) when the adverse occurrence is related to the use of conscious sedation may result in the podiatrist’s loss of authorization to administer conscious sedation or in other sanctions provided by law.

223.2(8) Record keeping. The patient’s chart must include:

a. Preoperative and postoperative vital signs;

- b.* Drugs administered;
- c.* Dosage administered;
- d.* Anesthesia time in minutes;
- e.* Monitors used;
- f.* Intermittent vital signs recorded during procedures and until the patient is fully alert and oriented with stable vital signs;
- g.* Name of the person to whom the patient was discharged; and
- h.* Name of the registered nurse who is trained to administer conscious sedation and who assisted in the procedure.

223.2(9) Failure to comply with these rules is grounds for discipline.

645—223.3(139A) Preventing HIV and HBV transmission. Podiatrists will comply with the recommendations for preventing transmission of human immunodeficiency virus and hepatitis B virus to patients during exposure-prone invasive procedures, issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services, or with the recommendations of the expert review panel established pursuant to Iowa Code section 139A.22(3) and applicable hospital protocols established pursuant to Iowa Code section 139A.22(1). Failure to comply will be grounds for disciplinary action.

645—223.4(149) Unlicensed graduate of a podiatric college. An unlicensed graduate of a podiatric college may function in the licensed podiatrist's office only as a podiatric assistant. The licensed podiatrist has full responsibility and liability for the unlicensed person.

223.4(1) Treatments, charting, and notations completed by the unlicensed graduate must be initialed by that person and countersigned by the licensed podiatrist.

223.4(2) An unlicensed graduate will not:

- a.* Be referred to as "doctor" during professional contact with patients.
- b.* Treat patients in the office without a licensed podiatrist present.
- c.* Perform surgical work without direct supervision of a licensed podiatrist.
- d.* Diagnose or prescribe medicine.
- e.* Take independent actions regarding diagnosis, treatment or prescriptions.
- f.* Visit nursing homes or make house calls without the presence of the licensed podiatrist.
- g.* Bill for any services.

645—223.5(149) Prescribing opioids. Podiatrists will review a patient's information contained in the prescription monitoring program database for each opioid prescription prior to prescribing, unless the patient is receiving inpatient hospice care or long-term residential facility care.

These rules are intended to implement Iowa Code chapters 139A, 149 and 514F.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 224
“Discipline for Podiatrists, Orthotists, Pedorthists, and Prosthetists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 148F, 149 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148F, 149
and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:20 to 10:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

This proposed rulemaking provides protection to Iowans because it publicly defines disciplinary options when a podiatrist, orthotist, pedorthist, or prosthetist fails to provide the standard of care. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, licensees can be subject to discipline against their license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board of Podiatry has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the Board and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. The rules in this chapter are related to standards of care, so there would be a cost to the practitioner in taking the needed time to review prevailing standards of care in medical journals, etc. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per violation up to a maximum of \$10,000 per public order.

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.20 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees regarding practice standards, continuing education, Board meeting administration, and more. The Podiatry Board receives a small number of complaints each year. In 2022, the Board received 11 complaints and issued public disciplinary action to one podiatrist. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rulemaking is ensuring public safety and maintaining a high level of care for Iowans. The Podiatry Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received 11 complaints and issued one public disciplinary action. The Podiatry Board has approximately 400 active licensees.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there is only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of podiatrists, orthotists, pedorthists, and prosthetists is a form of medicine that requires skill and precision.

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public and leaving the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this board at approximately 0.20 FTE position.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, no civil penalties were paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there is only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of podiatrists, orthotists, pedorthists, and prosthetists is a form of medicine that requires skill and precision. The Podiatry Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received 11 complaints and issued one public disciplinary action. The Board licenses a small number of professionals at approximately 400 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, podiatrists, orthotists, pedorthists, and prosthetists practice a form of medicine that is technical in nature and requires a high level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the podiatrist, orthotist, pedorthist, and prosthetist professions and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these disciplinary rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in ensuring that Iowans receive services from competent practitioners.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of practice standards for podiatrists, orthotists, pedorthists, and prosthetists. While some podiatrists, orthotists, pedorthists, or prosthetists likely are running a small business of their own, some also work for large organizations, such as hospital systems. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 224 and adopt the following **new** chapter in lieu thereof:

CHAPTER 224

DISCIPLINE FOR PODIATRISTS, ORTHOTISTS, PEDORTHISTS, AND PROSTHETISTS

645—224.1(148F,149,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in Iowa Code section 272C.3 when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 645—Chapter 13:

224.1(1) Prescribing opioids in dosage amounts exceeding what would be prescribed by a reasonably prudent prescribing practitioner engaged in the same practice.

224.1(2) Reserved.

645—224.2(148F,149,272C) Indiscriminately prescribing, administering or dispensing any drug for other than a lawful purpose. The board may impose any of the disciplinary sanctions provided in 645—Chapter 13 when the board determines that the licensee is guilty of any of the following acts or offenses:

224.2(1) Self-prescribing or self-dispensing controlled substances.

224.2(2) Prescribing or dispensing controlled substances to members of the licensee's immediate family for an extended period of time.

a. Prescribing or dispensing controlled substances to members of the licensee's immediate family is allowable for an acute condition or on an emergency basis when the physician conducts an examination, establishes a medical record, and maintains proper documentation.

b. Immediate family includes spouse or life partner, natural or adopted children, grandparent, parent, sibling, or grandchild of the physician; and natural or adopted children, grandparent, parent, sibling, or grandchild of the physician's spouse or life partner.

224.2(3) Prescribing or dispensing controlled substances outside the scope of the practice of podiatry.

These rules are intended to implement Iowa Code chapters 147, 148F, 149, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 225
“Continuing Education for Orthotists, Prosthetists, and Pedorthists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 148F and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148F and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
10:20 to 10:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

This proposed rulemaking sets forth continuing education requirements for orthotists, prosthetists, and pedorthists. The rulemaking includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rule, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that orthotists, prosthetists, and pedorthists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses, so the Board of Podiatry is not privy to exact costs, but based on research estimates, the cost is around \$200 every two years for a licensee to meet these requirements.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is ensuring that orthotists, prosthetists, and pedorthists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offers these courses, so the Board is not privy to exact costs, but based on research estimates, the cost is around \$200 every two years for a licensee to meet these requirements. The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 30 hours of continuing education for orthotists and prosthetists, and 20 hours for pedorthists, every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.20 full-time equivalent (FTE) position, which includes answering questions from the public and licensees related to practice standards, continuing education, Board meeting administration, and more.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board has not recommended a reduction in hours.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. A review of surrounding states has shown that Iowa is in line with neighboring jurisdictions. Iowa requires 30 hours of continuing education for orthotists and prosthetists every two years, as do Oklahoma, Illinois, Florida, and Arkansas. Minnesota requires 40 hours every two years. Iowa requires 20 hours every two years for pedorthists. Oklahoma requires 11 hours every year, and Minnesota requires 40 hours every two years. Representatives of the Iowa Board reviewed the required hours and did not support reducing them.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring whether the Board would recommend lowering the continuing education requirements. The Board has considered a change of the total number of and frequency of continuing education hours and the safety of the public. While the Board is not inclined at this time to make changes, it will consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Orthotists, prosthetists, and pedorthists practice in a number of settings, including private practice clinics, major hospital systems, residential health care facilities, and educational institutions. While some licensees likely are running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Conversely, the entities that provide continuing education may face a negative impact on their revenue due to less demand for entities' continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 225 and adopt the following **new** chapter in lieu thereof:

CHAPTER 225
CONTINUING EDUCATION FOR ORTHOTISTS, PROSTHETISTS, AND PEDORTHISTS

645—225.1(148F) Definitions.

“*ABC*” means the American Board for Certification in Orthotics, Prosthetics and Pedorthics, Incorporated.

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of podiatry.

“*BOC*” means the Board of Certification/Accreditation, International.

“*Continuing education*” means planned, organized learning acts acquired during licensure designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as an orthotist, prosthetist, or pedorthist in the state of Iowa.

645—225.2(148F,272C) Continuing education requirements.

225.2(1) The biennial continuing education compliance period extends for a two-year period beginning on July 1 of each even-numbered year and ending on June 30 of the next even-numbered year.

a. Each biennium, each person who is licensed to practice as an orthotist in this state shall be required to complete a minimum of 30 hours of continuing education.

b. Each biennium, each person who is licensed to practice as a prosthetist in this state shall be required to complete a minimum of 30 hours of continuing education.

c. Each biennium, each person who is licensed to practice as a pedorthist in this state shall be required to complete a minimum of 20 hours of continuing education.

225.2(2) Requirements for new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

a. The new orthotic licensee will be required to complete a minimum of 30 hours of continuing education per biennium for each subsequent license renewal.

b. The new prosthetic licensee will be required to complete a minimum of 30 hours of continuing education per biennium for each subsequent license renewal.

c. The new pedorthic licensee will be required to complete a minimum of 20 hours of continuing education per biennium for each subsequent license renewal.

225.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity. These hours must be in accordance with these rules.

225.2(4) No hours of continuing education will be carried over into the next biennium.

225.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

645—225.3(148F,272C) Standards.

225.3(1) General criteria. A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning that contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters that integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of that said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides proof of attendance to licensees in attendance including:
 - (1) Date, location, course title, and presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

225.3(2) Specific criteria for licensees.

a. Licensees may obtain continuing education hours of credit by attending workshops, conferences, symposiums, electronically transmitted courses, live interactive conferences, and academic courses that relate directly to the professional competency of the licensee. Official transcripts indicating successful completion of academic courses that apply to the field of orthotics, prosthetics, or pedorthics will be necessary in order to receive the following continuing education credits:

1 academic semester hour = 15 continuing education hours of credit

1 academic trimester hour = 12 continuing education hours of credit

1 academic quarter hour = 10 continuing education hours of credit

b. Licensees may obtain continuing education hours of credit by teaching in an approved college, university, or graduate school. The licensee may receive credit on a one-time basis for the first offering of a course.

c. Continuing education hours of credit may be granted for any of the following activities not to exceed a maximum combined total of 15 hours for orthotists and prosthetists and 10 hours for pedorthists:

(1) Presenting professional programs that meet the criteria listed in this rule. Two hours of credit will be awarded for each hour of presentation. A course schedule or brochure must be maintained for audit.

(2) Authoring research or other activities, the results of which are published in a recognized professional publication. The licensee will receive five hours of credit per page.

(3) Viewing videotaped presentations and electronically transmitted material that have a postcourse test if the following criteria are met:

1. There is a sponsoring group or agency;
2. There is a facilitator or program official present;
3. The program official is not the only attendee; and
4. The program meets all the criteria specified in this rule.

(4) Participating in home study courses that have a certificate of completion and a postcourse test.

(5) Participating in courses that have business-related topics: marketing, time management, government regulations, and other like topics.

(6) Participating in courses that have personal skills topics: career burnout, communication skills, human relations, and other like topics.

(7) Participating in courses that have general health topics: clinical research, CPR, child abuse reporting, and other like topics.

645—225.4(148F,272C) Audit of continuing education report. In addition to the requirements of 645—4.11(272C), proof of current BOC or ABC certification as an orthotist, prosthetist, or pedorthist will be accepted in lieu of individual certificates of completion for an audit.

These rules are intended to implement Iowa Code section 272C.2 and chapter 148F.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 240
“Licensure of Psychologists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 147.76, 154B.13, 154B.14, 272C.3, and 272C.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 147, 272C, 154B, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 to 9:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Video call link: meet.google.com/bfq-qab-nwu
Or dial: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@idph.iowa.gov

Purpose and Summary

Proposed Chapter 240 sets minimum standards for entry into the psychology profession. Iowa residents, licensees, and employers benefit from the chapter since it articulates the processes by which individuals apply for licensure in the state of Iowa, as directed in statute. This includes the process for initial licensure, provisional, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualifications, and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee. The fee for initial licensure is \$120. Licensees must also pay an examination fee of \$687.50. These costs are comparable to surrounding states. The initial licensure fee for Nebraska is \$183, Minnesota is \$500, Illinois is \$50, South Dakota is \$300, Kansas is \$150, and Missouri is \$150.

The licensee would also have costs related to educational requirements. The Board has not identified an exact cost of education for this field since it varies depending on the school the licensee chooses to attend to meet those requirements.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly .20 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed chapter. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide academic training for psychologists to obtain their license in Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the examination. Because the cost of education is so variable depending on the institution the person attends, the Board is unable to put an exact cost on the cost of education or examination preparation.

Licensing fees are \$120 for an initial license and \$170 for each biennial renewal period.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which include managing applications for initial licenses, renewals and reinstatements. Staff salaries to support the work of the board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the chapter provides consistency related to the licensure of psychologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive means of regulating this profession. The professional standards articulated in these rules are consistent with national best practices and recognize the highly sensitive nature of the services provided by psychologists. These standards could be reduced; however, the Board would have concerns that doing so would increase the potential for inappropriate or dangerous practices occurring in Iowa.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a less restrictive means of regulating this profession. The professional standards articulated in these rules are consistent with national best practices and recognize the highly sensitive nature of the services provided by psychologists. These standards could be reduced; however, the Board would have concerns that doing so would increase the potential for inappropriate or dangerous practices occurring in Iowa.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a less restrictive means of regulating this profession. The professional standards articulated in these rules are consistent with national best practices and recognize the highly sensitive nature of the services provided by psychologists. These standards could be reduced; however, the Board would have concerns that doing so would increase the potential for inappropriate or dangerous practices occurring in Iowa.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for psychologists. While some psychologists likely are running a small business of their own, some also work for large corporations and hospitals. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 240 and adopt the following **new** chapter in lieu thereof:

PSYCHOLOGISTS

| | |
|-------------|--|
| CHAPTER 240 | LICENSURE OF PSYCHOLOGISTS |
| CHAPTER 241 | CONTINUING EDUCATION FOR PSYCHOLOGISTS |
| CHAPTER 242 | DISCIPLINE FOR PSYCHOLOGISTS |
| CHAPTER 243 | PRACTICE OF PSYCHOLOGY |
| CHAPTER 244 | PRESCRIBING PSYCHOLOGISTS |

CHAPTER 240
LICENSURE OF PSYCHOLOGISTS

645—240.1(154B) Definitions. For purposes of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*ASPPB*” means the Association of State and Provincial Psychology Boards.

“*Board*” means the board of psychology.

“*Certified health service provider in psychology*” means a person who works in a clinical setting, who is licensed to practice psychology and who has a doctoral degree in psychology. A person certified as a health service provider in psychology shall be deemed qualified to diagnose or evaluate mental illness and nervous disorders.

“*Clinical experience*” means the provision of health services in psychology by the applicant to individuals or groups of clients/patients. Clinical experience does not include teaching or research performed in an academic setting.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Licensee*” means any person licensed to practice as a psychologist or health service provider in psychology in the state of Iowa.

“*License expiration date*” means June 30 of even-numbered years.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice psychology to an applicant who is or has been licensed in another jurisdiction.

“*Mandatory training*” means the requirements found in Iowa Code section 232.69.

“*National examination*” means the Examination for Professional Practice in Psychology (EPPP).

“*Provisional license*” means a license issued to a person who is completing a predoctoral internship or postdoctoral residency under supervision in order to satisfy the requirements for licensure.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—240.11(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

645—240.2(154B) Requirements for initial psychology licensure. The following criteria shall apply to licensure:

240.2(1) Submit a completed application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.16(147,154B).

240.2(2) Except as otherwise stated in these rules, no application will be considered by the board until:

a. Official copies of academic transcripts sent directly from the school to the board of psychology have been received by the board; and

b. Satisfactory evidence of the candidate's qualifications has been supplied in writing on the prescribed forms by the candidate's supervisors.

240.2(3) An applicant shall successfully pass the national examination.

240.2(4) The applicant shall have the national examination score sent directly from the ASPPB to the board.

240.2(5) Incomplete applications that have been on file in the board office for more than two years without additional supporting documentation shall be:

a. Considered invalid and shall be destroyed; or

b. Maintained upon written request of the applicant. The applicant is responsible for requesting that the file be maintained.

645—240.3(154B) Educational qualifications. An applicant for licensure to practice as a psychologist shall possess a doctoral degree in psychology.

240.3(1) At the time of an applicant's graduation:

a. The program from which the doctoral degree in psychology is granted must be:

(1) Accredited by the American Psychological Association; or

(2) Accredited by the Canadian Psychological Association; or

(3) Designated by the ASPPB/National Register; or

b. The applicant holds current board certification from the American Board of Professional Psychology; or

c. The applicant possesses a postdoctoral respecialization certificate from a program accredited by the American Psychological Association.

240.3(2) Foreign-trained psychologists who possess a doctoral degree in psychology and who do not meet the requirements of subrule 240.3(1) will:

a. Provide an equivalency evaluation of their educational credentials by the National Register of Health Service Psychologists, 1200 New York Avenue NW, Suite 800, Washington, D.C. 20005, telephone 202.783.7663, website www.nationalregister.org, or by an evaluation service with membership in the National Association of Credential Evaluation Services at www.naces.org. A certified translation of documents submitted in a language other than English shall be provided. The candidate will bear the expense of the curriculum evaluation and translation of application documents. The educational credentials must be equivalent to programs stated in subrule 240.3(1).

b. Submit evidence of meeting all other requirements for licensure stated in these rules.

645—240.4(154B) Examination requirements. An applicant will pass the national examination to be eligible for licensure in Iowa.

240.4(1) To be eligible to take the national examination, the applicant will:

a. Meet all requirements of subrules 240.2(1) and 240.2(2); and

b. Provide official copies of academic transcripts sent directly from the school to the board of psychology verifying completion of a doctoral degree in psychology in accordance with rule 645—240.3(154B).

240.4(2) The EPPP passing score shall be utilized as the Iowa passing score.

645—240.5(154B) Postdoctoral residency.

240.5(1) The postdoctoral residency may begin after all academic requirements for the doctoral degree, including completion of the predoctoral internship, have been completed. The postdoctoral residency shall consist of a minimum of 1,500 hours that are completed in no less than ten months.

240.5(2) During the postdoctoral residency, the supervisee will competently apply the principles of psychology under the supervision of a licensed psychologist who is actively licensed in the jurisdiction where the supervision occurs in accordance with the following:

a. The supervisee and supervisor will complete a supervision plan using the form provided by the board. The supervision plan must be submitted to the board if the supervisee is applying for or utilizing a provisional license.

b. A supervisor will not have more than three concurrent full-time supervisees or the equivalent in part-time supervisees. Full-time is defined as 40 hours per week.

c. The supervisee and supervisor will meet individually in person or via videoconferencing during each week in which postdoctoral residency hours are accrued, for no less than a total of 45 hours during the postdoctoral residency. Group supervision hours cannot count toward the 45 hours of individual supervision required.

d. The supervisor will provide supervision at all times, which means the supervisor will be readily available on site, or via electronic or telephonic means, at all times when the supervisee is providing services so that the supervisee may contact the supervisor for advice, assistance, or instruction. A supervisor will identify one or more licensed mental health providers who can be contacted for advice, assistance, or instruction during times in which the supervisor will not be readily available.

e. The supervisee and supervisor will have a crisis plan in place any time the supervisee is providing services and the supervisor is not on site in the same physical setting as the supervisee.

f. The supervisor will establish and maintain a level of supervisory contact consistent with established professional standards and be fully accountable in the event that professional, ethical or legal issues are raised.

g. The supervisor will provide training that is appropriate to the functions to be performed. The supervisee shall have the background, training, and experience that is appropriate to the functions performed. The supervisor shall not permit the supervisee to engage in any psychological practice that the supervisor cannot perform competently.

h. The supervisor and supervisee will ensure clients are informed regarding the supervisee's status and the sharing of information between the supervisee and supervisor.

i. The supervisor will have reasonable access to the clinical records corresponding to the work being supervised. The supervisor will countersign all written reports, clinical records and clinical communications as "Reviewed and Approved" by the supervisor.

j. All services will be offered in the name of the supervisor. The supervisee and supervisor will ensure that the supervisee uses a title in accordance with rule 645—240.13(154B,147).

k. The fee schedule and receipt of payment will remain the sole domain of the supervisor or employing agency.

l. The supervisor will maintain an ongoing record of supervision that details the types of activities in which the supervisee is engaged, the level of the supervisee's competence in each, and the type and outcome of all procedures.

m. The supervisor is responsible for determining the competency of the work performed by the supervisee and must honestly and accurately complete the supervision report at the conclusion of providing supervision.

645—240.6(154B) Certified health service provider in psychology.

240.6(1) Requirements for the health service provider in psychology. The applicant shall:

a. Verify at least one year of clinical experience in an organized health service training program that meets the requirements of subrule 240.6(2) and at least one year of clinical experience in a health service setting that meets the requirements for postdoctoral residency stated in rule 645—240.5(154B). Alternatively, an applicant may submit verification of current registration at the doctoral level by the National Register of Health Service Psychologists to verify completion of the required clinical experience.

b. Submit a completed application and nonrefundable application fee along with supporting documentation. Incomplete applications that have been on file in the board office for more than two years without additional supporting documentation shall be:

(1) Considered invalid and shall be destroyed; or
(2) Maintained upon written request of the applicant. The applicant is responsible for requesting that the file be maintained.

c. Renew the certificate biennially at the same time as the psychology license.

240.6(2) *Requirements of the organized health service training program.* Internship programs in professional psychology that are accredited by the American Psychological Association (APA) or the Canadian Psychological Association (CPA) or that hold membership in the Association of Psychology Postdoctoral and Internship Centers (APPIC) are deemed approved. Applicants completing an organized health service training program that is not accredited by the APA or the CPA, or is not APPIC-designated at the time the applicant completes the training shall cause documentation to be sent from the program to establish that the program:

- a. Provides the intern with a planned, programmed sequence of training experiences.
- b. Has a clearly designated doctoral-level staff psychologist who is responsible for the integrity and quality of the training program and is actively licensed by the board of psychology in the jurisdiction in which the program exists.
- c. Has two or more doctoral-level psychologists on the staff who serve as supervisors, at least one of whom is actively licensed by the board of psychology in the jurisdiction in which the program exists.
- d. Has supervision that is provided by staff members of the organized health service training program or by an affiliate of the organized health service training program who carries clinical responsibility for the cases being supervised. At least half of the internship supervision shall be provided by one or more doctoral-level psychologists.
- e. Provides training in a range of psychological assessment and treatment activities conducted directly with recipients of psychological services.
- f. Ensures that trainees have a minimum of 375 hours of direct patient contact.
- g. Includes a minimum of two hours per week (regardless of whether the internship is completed in one year or two years) of regularly scheduled, formal, face-to-face individual supervision with the specific intent of dealing with psychological services rendered directly by the intern. There must also be at least two additional hours per week in learning activities such as case conferences involving a case in which the intern is actively involved, seminars dealing with clinical issues, cotherapy with a staff person including discussion, group supervision, and additional individual supervision.
- h. Has training that is at the postclerkship, postpracticum, and postexternship level.
- i. Has a minimum of two interns at the internship level of training during any period of training.
- j. Designates for internship-level trainees titles such as “intern,” “resident,” “fellow,” or other designation of trainee status.
- k. Has a written statement or brochure which describes the goals and content of the internship, states clear expectations for quantity and quality of trainees’ work and is made available to prospective interns.
- l. Provides a minimum of 1,500 hours of training experience that shall be completed in no less than 12 months within a 24-consecutive-month period.

645—240.7(154B) Requirements for provisional license.

240.7(1) *Predoctoral internship.* An applicant for a provisional license for purposes of completing a predoctoral internship shall provide the following:

- a. Submit a completed provisional application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.16(147,154B).
- b. A copy of the applicant’s acceptance letter for the predoctoral internship.
- c. Identification of the training director and the training director’s contact information.
- d. Evidence that the applicant is enrolled in an educational program that meets the requirements of rule 645—240.3(154B).

240.7(2) *Postdoctoral residency.* An applicant for a provisional license for purposes of completing a postdoctoral residency shall provide the following:

- a. Submit a completed application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.16(147,154B).
- b. Official copies of academic transcripts sent directly from the school establishing that the requirements stated in rule 645—240.3(154B) are met.

c. A completed supervision plan on the prescribed board form, signed by the applicant's supervisors. A change in supervisor or in the supervision plan requires submission of a new supervision plan on the prescribed board form.

240.7(3) Duration. The provisional license is effective for two years from the date of issuance. A provisional license issued for purposes of completing a predoctoral internship can be used for purposes of completing a postdoctoral residency until the provisional license expires. The provisional licensee shall submit a completed supervision plan on the prescribed board form, signed by the licensee's supervisors, prior to beginning the postdoctoral residency. A change in supervisor or in the supervision plan requires submission of a new supervision plan on the prescribed board form. A provisional license may be renewed one time for a period of two years upon submission of the following:

- a.* A provisional license renewal application;
- b.* A provisional license renewal fee; and
- c.* A current supervision plan as required in these rules.

645—240.8(147) Licensure by endorsement. An applicant who possesses a doctoral degree in psychology and has been a licensed psychologist at the doctoral level under the laws of another jurisdiction may file an application for licensure by endorsement with the board office. The board may license by endorsement any applicant from the District of Columbia or another state, territory, province, or foreign country who:

240.8(1) Submit a completed application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.16(147,154B).

240.8(2) Provides verification of license from the jurisdiction in which the applicant has most recently been licensed, and additional verifications if necessary to verify at least three years of an independent license as described in subrule 240.8(4), sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- a.* Licensee's name;
- b.* Date of initial licensure;
- c.* Current licensure status; and
- d.* Any disciplinary action taken against the license.

240.8(3) Provides verification of a current Certificate of Professional Qualification (CPQ) issued by the ASPPB, or verification of a doctoral degree in psychology and an independent license to practice psychology in another jurisdiction for at least three years with no disciplinary history. Except as stated in subrule 240.3(2), applicants providing certification or verification are deemed to have met the requirements stated in paragraphs 240.8(4) "a" and "b." The board may license by endorsement any other applicant who:

a. Provides the official EPPP score sent directly to the board from the ASPPB or verification of the EPPP score sent directly from the state of initial licensure. The recommended passing score established by the ASPPB shall be considered passing.

b. Shows evidence of licensure requirements that are substantially equivalent to those required in Iowa by one of the following means:

(1) Provides:

1. Official copies of academic transcripts that have been sent directly from the school; and
2. Satisfactory evidence of the applicant's qualifications in writing on the prescribed forms by the applicant's supervisors. If verification of professional experience is not available, the board may consider submission of documentation from the jurisdiction in which the applicant is currently licensed or equivalent documentation of supervision; or

(2) Has an official copy of one of the following certifications sent directly to the board from the certifying organization:

1. Current credentialing at the doctoral level as a health service provider in psychology by the National Register of Health Service Providers in Psychology.

2. Board certification by the American Board of Professional Psychology that was originally granted on or after January 1, 1983.

240.8(4) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—240.9(154B) Exemption to licensure. Psychologists residing outside the state of Iowa and intending to practice in Iowa under the provisions of Iowa Code section 154B.3(5) shall complete and submit the application for the exemption to licensure and the nonrefundable licensure fee specified in rule 645—5.16(147,154B).

240.9(1) The applicant shall provide a summary of the intent to practice and a verification of the license in the applicant's jurisdiction of residence, sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- a. Licensee's name;
- b. Date of initial licensure;
- c. Current licensure status; and
- d. Any disciplinary action taken against the license.

240.9(2) The exemption must be issued prior to practice in Iowa. The exemption shall be valid for 10 consecutive business days or not to exceed 15 business days in any 90-day period.

645—240.10(147) License renewal.

240.10(1) The biennial license renewal period for a license to practice psychology shall begin on July 1 of even-numbered years and end on June 30 of the next even-numbered year. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

240.10(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later.

240.10(3) A licensee seeking renewal shall:

a. Meet the continuing education requirements of rule 645—241.2(272C) and the mandatory reporting requirements of subrule 240.10(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

240.10(4) Mandatory reporter training requirements.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities, examines, attends, counsels or treats children in Iowa shall indicate on the renewal application completion of two hours of training in child abuse identification and reporting as required by Iowa Code section 232.69(3) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph 240.10(4) "e."

b. A licensee who, in the course of employment, examines, attends, counsels or treats adults in Iowa shall indicate on the renewal application completion of training in dependent adult abuse identification and reporting as required by Iowa Code section 235B.16(5) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph 240.13(4) "e."

c. The course(s) shall be the curriculum provided by the Iowa department of health and human services.

d. The licensee shall maintain written documentation for three years after mandatory training as identified in paragraphs 240.13(4) "a" to "c," including program date(s), content, duration, and proof of participation.

e. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

- (1) Is engaged in active duty in the military service of this state or the United States.
- (2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in rule 645—4.14(272C).

f. The board may select licensees for audit of compliance with the requirements in paragraphs 240.10(4)“a” to “e.”

240.10(5) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

240.10(6) A person licensed to practice as a psychologist shall keep the person’s license certificate and renewal displayed in a conspicuous public place at the primary site of practice.

240.10(7) Late renewal.

a. The license shall become late when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 645—subrule 5.16(3).

b. To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

240.10(8) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a psychologist or health service provider in psychology in Iowa until the license is reactivated. A licensee who practices as a psychologist or health service provider in psychology in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—240.11(147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

240.11(1) Submit a reactivation application.

240.11(2) Pay the reactivation fee that is due as specified in 645—Chapter 5.

240.11(3) Provide verification of the license from the jurisdiction in which the applicant has most recently been licensed sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction’s board office if the verification provides:

- a.* Licensee’s name;
- b.* Date of initial licensure;
- c.* Current licensure status; and
- d.* Any disciplinary action taken against the license.

240.11(4) Provide verification of a current active license in another jurisdiction at the time of application or verification of completion of continuing education taken within two years of the application. If the license has been inactive for less than five years, the applicant must submit verification of 40 hours of continuing education, and if the license has been inactive for more than five years, the applicant must submit verification of 80 hours of continuing education.

645—240.12(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with 645—240.14(17A,147,272C) prior to practicing as a psychologist or health service provider in psychology in this state.

645—240.13(154B,147) Title designations.

240.13(1) Students who are enrolled in an education program that satisfies the requirements of subrule 240.3(1) and who are completing the predoctoral internship may be designated “psychology intern” or “intern in psychology.”

240.13(2) Applicants for licensure who have met educational requirements and who are completing the postdoctoral residency to be eligible for licensure may be designated “psychology resident,” “resident in psychology,” “psychology postdoctoral fellow,” or “postdoctoral fellow in psychology.” The designation of “resident” shall not be used except during a postdoctoral residency that meets the requirements of rule 645—240.6(154B).

240.13(3) Persons who possess provisional licenses shall add the designation “provisional license in psychology” following the “resident,” “intern,” or “fellow” designation.

645—240.14(154B) Psychologists’ supervision of persons other than postdoctoral residents in a practice setting.

240.14(1) This rule applies when a psychologist is supervising individuals who are not licensed or who are provisionally licensed and completing the predoctoral internship. This rule does not apply to supervision of an individual completing a postdoctoral residency in accordance with rule 645—240.6(154B), regardless of whether the individual is provisionally licensed or not.

240.14(2) The supervising psychologist will:

a. Be vested with administrative control over the functioning of assistants in order to maintain ultimate responsibility for the welfare of every client. When the employer is a person other than the supervising psychologist, the supervising psychologist must have direct input into administrative matters.

b. Have sufficient knowledge of all clients, including face-to-face contact when necessary, in order to plan effective service delivery procedures. The progress of the work will be monitored through such means as will ensure that full legal and professional responsibility can be accepted by the supervisor for all services rendered. Supervisors will also be available for emergency consultation and intervention.

c. Provide work assignments that are commensurate with the skills of the supervisee. All procedures will be planned in consultation with the supervisor.

d. Work in the same physical setting as the supervisee, unless the supervisee is receiving formal training pursuant to the requirements for licensure as a psychologist. For supervisees working off site while receiving formal licensure training, ensure the off-site location has a licensed mental health provider or primary care provider on site whenever the supervisee is working for purposes of providing emergency consultation.

e. Make public announcement of services and fees; contact with laypersons or the professional community will be offered only by or in the name of the supervising psychologist. Titles of unlicensed persons must clearly indicate their supervised status.

f. Provide specific information to clients when an unlicensed person delivers services to those clients, including disclosure of the unlicensed person’s status and information regarding the person’s qualifications and functions.

g. Inform clients of the possibility of periodic meetings with the supervising psychologist at the client’s, the supervisee’s or the supervisor’s request.

h. Provide for setting and receipt of payment that will remain the sole domain of the employing agency or supervising psychologist.

i. Establish and maintain a level of supervisory contact consistent with established professional standards, and be fully accountable in the event that professional, ethical or legal issues are raised.

j. Provide a detailed job description in which functions are designated at varying levels of difficulty, requiring increasing levels of training, skill and experience. This job description will be made available to representatives of the board and service recipients upon request.

k. Be responsible for the planning, course, and outcome of the work. The conduct of supervision shall ensure the professional, ethical, and legal protection of the client and of the unlicensed persons.

l. Countersign all written reports, clinical records and clinical communications as “Reviewed and Approved” by the supervising psychologist.

These rules are intended to implement Iowa Code chapters 17A, 147, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 241
“Continuing Education for Psychologists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 147.76, 154B.13, 154B.14, 272C.3, and 272C.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 147, 272C, 154B, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 to 9:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Video call link: meet.google.com/bfq-qaeb-nwu
Or dial: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

Proposed Chapter 241 sets forth continuing education requirements for psychologists. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that psychologists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no direct costs to the public. There is a direct cost to the licensee, who must pay for the continuing education required. Private industry offers these courses, so the Board is not privy to exact costs. Based on research estimates, courses range from \$0 per hour to \$100 per hour. Licensees have multiple options, and the Board allows for online coursework, which increases the availability of free or low-cost options.

Costs to the agency are the staff time needed to manage Board activities, which include continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.20 full-time equivalent (FTE) position, which includes questions from the

public and licensees such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that psychologists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry offers these courses, so the Board is not privy to exact costs. Based on research estimates, courses range from \$0 per hour to \$100 per hour. Licensees have multiple options, and the Board allows for online coursework, which increases the availability of free or low-cost options.

The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 40 hours of continuing education for these license types every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which include continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.20 FTE position, which includes questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. This would also mean a loss of revenue for the private industry organizations that offer continuing education programs.

Staff held conversations with Board members inquiring if the Board would recommend lowering the continuing education requirements. The Board did not recommend a change in continuing education hours.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less restrictive alternative would be to reduce the amount of continuing education required. Iowa requires 40 hours of continuing education every two years. A review of surrounding states indicates Illinois and Nebraska require 24 hours; Minnesota, Missouri, and South Dakota require 40 hours; and Kansas requires 50 hours.

Staff held conversations with Board members inquiring if the Board would recommend lowering the continuing education requirements. The Board did not recommend a change in continuing education hours.

The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with Board members inquiring if the Board would recommend lowering the continuing education requirements. The Board did not recommend a change in continuing education hours.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for psychologists. While some psychologists likely are running a small business of their own, some also work for large corporations and hospitals. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

The proposed rules maintain the number of continuing education hours. The cost of continuing education is estimated at \$0 to \$100 per hour.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 241 and adopt the following **new** chapter in lieu thereof:

CHAPTER 241
CONTINUING EDUCATION FOR PSYCHOLOGISTS

645—241.1(272C) Definitions. For the purpose of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of psychology.

“*Continuing education*” means planned, organized learning acts designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice independently as a psychologist in the state of Iowa and does not include persons with provisional licenses.

“*Practice of psychology*” means the application of established principles of learning, motivation, perception, thinking, psychophysiology and emotional relations to problems, behavior, group relations, and biobehavior by persons trained in psychology for compensation or other personal gain. The application of principles includes, but is not limited to, counseling and the use of psychological remedial measures with persons, in groups or individually, with adjustment or emotional problems in the areas of work, family, school and personal relationships. The practice of psychology also means measuring and testing personality, mood-motivation, intelligence/aptitudes, attitudes/public opinion, and skills; the teaching of such subject matter; and the conducting of research on the problems relating to human behavior.

645—241.2(272C) Continuing education requirements.

241.2(1) The biennial continuing education compliance period shall extend for a two-year period beginning on July 1 of even-numbered years and ending on June 30 of even-numbered years. Each biennium, each person who is licensed to practice as a licensee in this state shall be required to complete a minimum of 40 hours of continuing education approved by the board.

241.2(2) Requirements of new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The new licensee will need to complete a minimum of 40 hours of continuing education per biennium for each subsequent license renewal.

241.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity. These hours will be in accordance with these rules.

241.2(4) No hours of continuing education shall be carried over into the next biennium except as stated for the second renewal. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

241.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

241.2(6) No hours of continuing education are required to renew a provisional license.

645—241.3(154B,272C) Standards.

241.3(1) General criteria. A continuing education activity which meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters which integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides proof of attendance to licensees in attendance including:
 - (1) Date, location, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

241.3(2) Specific criteria.

a. For the second license renewal, licensees shall obtain six hours of continuing education pertaining to the practice of psychology in either of the following areas: Iowa mental health laws and regulations, or risk management.

b. For all renewal periods following the second license renewal, licensees shall obtain six hours of continuing education pertaining to the practice of psychology in any of the following areas: ethical issues, federal mental health laws and regulations, Iowa mental health laws and regulations, or risk management. For all board members, a maximum of two of these hours may be obtained by providing service as a member of the board as follows:

- (1) One hour of credit for attendance and participation at a minimum of three regular quarterly board meetings during the license biennium, or
- (2) Two hours of credit for attendance and participation at a minimum of six regular quarterly board meetings during the license biennium.

c. A licensee may obtain the remainder of continuing education hours of credit by:

(1) Completing training to comply with mandatory reporter training requirements, as specified in 645—subrule 240.13(4). Hours reported for credit shall not exceed the hours required to maintain compliance with required training.

(2) Attending programs/activities that are sponsored by the American Psychological Association or the Iowa Psychological Association.

(3) Attending workshops, conferences, or symposiums that meet the criteria in subrule 241.3(1).

(4) Completing academic coursework that meets the criteria set forth in these rules. Continuing education credit equivalents are as follows:

1 academic semester hour = 15 continuing education hours

1 academic quarter hour = 10 continuing education hours

(5) Completing home study courses for which a certificate of completion is issued.

(6) Completing electronically transmitted courses for which a certificate of completion is issued.

(7) Conducting scholarly research, the results of which are published in a recognized professional publication. In order to claim such credit, the licensee must attest to the hours actually spent conducting research, demonstrate that the research is integrally related to the practice of psychology, explain how the research advances the licensee's knowledge in the field, and provide the published work.

(8) Preparing new courses on material that is integrally related to the practice of psychology and is beyond entry level. In order to claim such credit, the licensee must: attest that the licensee has not taught the course in the past or that the licensee has not substantially altered the course content; request a specific amount of continuing education credit; describe how the course is integrally related to the practice of the profession and advances the licensee's knowledge in the field; and supply a course syllabus that supports the licensee's request for credit.

(9) Presenting to other professionals. A licensee may receive credit on a one-time basis for presenting continuing education programs that meet the criteria of subrule 241.3(1). Two hours of credit will be awarded for each hour of presentation.

d. A combined maximum of 30 hours of credit per biennium may be used for scholarly research, preparation of new courses, and presentations to other professionals.

These rules are intended to implement Iowa Code section 272C.2 and chapter 154B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 242
“Discipline for Psychologists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 147.76, 154B.13, 154B.14, 272C.3, and 272C.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 147, 272C, 154B, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 to 9:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Video call link: meet.google.com/bfq-qaeb-nwu
Or dial: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

Proposed Chapter 242 provides protection to Iowans because it provides required professional standards for psychologists. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in Iowa. When professional standards are not met, a licensee can be subject to discipline against the license. Iowans have the ability to submit a complaint to the Board of Psychology, which can then investigate the allegation. The Board has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the Board’s professions and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are associated with costs to the licensee. The licensee is responsible for obtaining the necessary prerequisite training and education to meet the standards of the profession and comply with the ethical standards laid out in this

chapter. The licensee is responsible for the costs of obtaining and maintaining this knowledge. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Civil penalties are capped at \$1,000.

Costs to the agency are the staff time needed to manage Board activities, which include managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.20 full-time equivalent (FTE) position. This additionally includes responding to questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this chapter is to ensure public safety and maintain a high level of care for Iowans. The Board received 10 complaints in 2021 and 12 complaints in 2022. The Board initiated one public discipline action during that two-year period. Psychologists routinely provide mental health services to Iowans. Licensees who fail to meet practice standards have the potential to inflict serious harm to vulnerable Iowans who receive their services, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of psychology includes the provision of highly sensitive services to Iowa patients, and the potential for patient harm is high without appropriate safeguards in place to protect against inappropriate practices.

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive care from competent and safe practitioners. There has been some standardization of consideration of criminal convictions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which include managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.20 FTE position. This additionally includes responding to questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees or establishments, not the state. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, there were not any civil penalty funds paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of psychology includes the provision of highly sensitive services to Iowa patients, and the potential for patient harm is high without appropriate safeguards in place to protect against inappropriate practices. The Board received 10 complaints in 2021 and 12 complaints in 2022. The Board initiated one public discipline action during that two-year period. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive care from competent and safe practitioners.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative for public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive care from competent and safe practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only the civil penalties that may be imposed when persons imply or represent themselves, or an individual they employ, to be psychologists when they are not licensed. This is unique to the psychologist profession and excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these disciplinary rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only the civil penalties that may be imposed when persons imply or represent themselves, or an individual they employ, to be psychologists when they are not licensed. This is unique to the psychologist profession and excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these disciplinary rules.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for psychologists, many of whom are running a small business of their own. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 242 and adopt the following **new** chapter in lieu thereof:

CHAPTER 242
DISCIPLINE FOR PSYCHOLOGISTS

645—242.1(147,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in Iowa Code section 272C.3 when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 645—Chapter 13:

Failure to comply with the Ethical Principles of Psychologists and Code of Conduct of the American Psychological Association, as published in the December 2002 edition of American Psychologist and including amendments effective January 1, 2017, hereby adopted by reference. Copies of the Ethical Principles of Psychologists and Code of Conduct may be obtained from the American Psychological Association's website at www.apa.org.

This rule is intended to implement Iowa Code chapters 147, 154B and 272C.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

Proposed Chapter 243 provides Iowans, licensees, and their employers with practice guidance and requirements relevant to the practice of psychologists. The chapter provides guidance on what is considered appropriate and what is not appropriate practice. Categories include access to patient records, psychological testing, judicial proceedings, telepsychology, and recordkeeping.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are often costs associated with licensee compliance with the practice standards outlined in this chapter. Members of the public would have costs associated with the services they are seeking to receive. Each licensee’s practice has different variables, such as number of clients seen, nature of services provided, how services are delivered (i.e., telehealth or in person), administrative support, etc. The Board of Psychology does not have a mechanism for estimating what these total costs might be to the public or to the licensee for compliance with this chapter.

Costs to the agency are the staff time needed to manage the full scope of Board activities, which include oversight of practice standards, questions from licensees and the public, administration of Board meetings, etc. An executive officer supports the work of this Board at approximately 0.20 full-time equivalent (FTE) position. Staff salaries are covered by the Licensing and Regulation Fund established

in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this chapter. The chapter provides standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing they are receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are approximately 976 active licensees who provide mental health services to Iowans. The Board received 10 complaints against licensees in 2021 and 12 complaints in 2022. The Board initiated one public discipline action over this two-year period. The Board believes that the benefits achieved justify the costs because the rules provide clear guardrails for providing these important services to Iowans. If this profession were not regulated, it could mean that Iowans who are receiving mental health services could be placed at risk. Psychology is regulated in all 50 states.

Members of the public would have costs associated with the services they are seeking to receive. Each licensee's practice has different variables, such as number of clients seen, nature of services provided, how services are delivered (i.e., telehealth or in person), administrative support, etc. The Board does not have a mechanism for estimating what these total costs might be to the public or to the licensee for compliance with this chapter.

Staff salaries are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage the full scope of Board activities, which include oversight of practice standards, questions from licensees and the public, administration of Board meetings, etc. An executive officer supports the work of this Board at approximately 0.20 FTE position. Staff salaries are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact to state revenues.

Staff salaries are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are approximately 976 active licensees who provide mental health services to Iowans. The Board received 10 complaints against licensees in 2021 and 12 complaints in 2022. The Board initiated one public discipline action over this two-year period. The Board believes that the benefits achieved justify the costs because the rules provide clear guardrails for providing these important services to Iowans. If this profession were not regulated, it could mean that Iowans who are receiving mental health services could be placed at risk. Psychology is regulated in all 50 states.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Licensing is the highest form of regulation. Lower forms of regulation such as registration or certification could be utilized to regulate the profession; however, the Board would have significant concerns with this approach. The professional standards articulated in these rules are consistent with national best practices and recognize the highly sensitive nature of the services provided by psychologists. Reducing these standards would increase the potential for inappropriate or dangerous practices occurring in Iowa.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Licensing is the highest form of regulation. Lower forms of regulation such as registration or certification could be utilized to regulate the profession; however, the Board would have significant concerns with this approach. The professional standards articulated in these rules are consistent with national best practices and recognize the highly sensitive nature of the services provided by psychologists. Reducing these standards would increase the potential for inappropriate or dangerous practices occurring in Iowa.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board ultimately decided that to ensure public safety and the integrity of the profession, licensure requirements should stay in effect. The professional standards articulated in these rules are consistent with national best practices and recognize the highly sensitive nature of the services provided by psychologists. Reducing these standards would increase the potential for inappropriate or dangerous practices occurring in Iowa. Psychology is regulated in all 50 states.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for psychologists, many of whom are running a small business of their own. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 243 and adopt the following **new** chapter in lieu thereof:

CHAPTER 243 PRACTICE OF PSYCHOLOGY

645—243.1(154B) Definitions.

“*APA*” means the American Psychological Association.

“*Clinical records*” means records created by a licensee regarding the observation and treatment of patients, such as progress notes, but does not include psychotherapy notes.

“*Examinee*” means a person who is the subject of a forensic examination for the purpose of informing a decision maker or attorney about the psychological functioning of that examinee.

“*HIPAA*” means the Health Insurance Portability and Accountability Act of 1996 and related regulations promulgated thereunder.

“*Licensee*” or “*licensed*” means an individual with an active license to practice psychology, including a provisional license, or a certificate of exemption issued by the board.

“*Patient*” means an individual under the care of a licensee in a clinical role and is synonymous with the term client.

“*Personal representative*” means a person authorized to act on behalf of the patient in making health care-related decisions such as a parent or legal guardian, an individual with a health care power of attorney, an individual with a general power of attorney or durable power of attorney that includes the power to make health care decisions, or a court-appointed legal guardian.

“*Psychotherapy notes*” means notes recorded by a licensee documenting or analyzing the contents of a conversation during a private therapy session with a patient, or a group, joint, or family therapy session, that are maintained separately from the patient’s clinical records. Psychotherapy notes excludes medication prescription monitoring, counseling session start and stop times, the modalities and frequencies of treatment furnished, results of any clinical tests, and any summary of the following items: diagnosis, functional status, treatment plan, symptoms, prognosis, and progress to date.

“*Telepsychology*” means the provision of psychological services using telecommunication technologies.

“*Test data*” means raw and scaled scores, patient responses to test questions or stimuli, and notes and recordings concerning patient statements and behavior during an examination.

“*Test materials*” means the test questions, scoring keys, protocols, and manuals that do not include personally identifying information about the subject of the test.

645—243.2(147,154B,272C) Purpose and scope. The purpose of this chapter is to set the minimum standards of practice for licensees practicing in Iowa. The practice of psychology is occurring in Iowa if the patient or examinee is located in Iowa. Licensees will ensure any interns or residents under supervision adhere to the minimum standards of practice and must comply with the requirements set forth in rule 645—240.9(154B). The APA Code of Ethics is applicable and enforceable to the extent it does not conflict with any standards of practice set forth in this chapter. A licensee may be disciplined for any violation of this chapter or the APA Code of Ethics.

645—243.3(154B) Access to records.

243.3(1) *Clinical records generally.* When records are requested along with a signed release from the patient or the patient’s personal representative, a licensee will provide requested clinical records in a timely manner unless there is a ground for denial under HIPAA.

243.3(2) *Psychotherapy notes.* A licensee is not required to release psychotherapy notes in response to a signed release; if a licensee chooses to release psychotherapy notes, a signed release specifically authorizing the release of those notes will be provided.

243.3(3) *Substance use disorder treatment programs.* Licensees who practice in a federally assisted substance use disorder treatment program, also known as a part 2 program, are prohibited from disclosing any information that would identify a patient as having a substance use disorder unless the patient provides written consent in compliance with part 2 requirements.

243.3(4) *Clinical records of minor patients.* A minor patient is a patient who is under the age of 18 and is not emancipated. A licensee is not required to release the clinical records of a minor patient to the minor’s personal representative if releasing such records is not in the minor’s best interest. When a minor patient reaches the age of 18, the clinical records belong to the patient.

243.3(5) *Clinical records of deceased patients.* A licensee will provide the clinical records of a deceased patient to the deceased patient's executor upon a written request accompanied by a copy of the patient's death certificate and a copy of the legal document identifying the requestor as the patient's executor.

243.3(6) *Forensic records.* A licensee will provide forensic records consistent with the APA Specialty Guidelines for Forensic Psychology.

243.3(7) *Board.* A licensee shall provide clinical records, test data, or forensic records to the board as requested during the investigation of a complaint. A licensee is not required to obtain a patient release to send such information to the board because the board is a health oversight agency.

243.3(8) *Exceptions.* These rules do not apply when there is a legal basis for not disclosing requested information.

645—243.4(154B) Psychological testing. A licensee may administer psychological tests and assessments to a patient or examinee if the licensee has appropriate training for any psychological test or assessment utilized and the test or assessment is scientifically founded.

243.4(1) *Use of proctors.* A licensee may delegate the administration of a standardized test, intelligence test, or objective personality assessment to an appropriately trained individual. The licensee is responsible for supervising any proctors.

243.4(2) *Release of test data.* A licensee will not provide test data to any person, with the exception that the test data with proper written release, may be disclosed to a licensed psychologist designated by the patient or examinee. A psychologist who receives test data in this manner may not further disseminate the test data.

243.4(3) *Release of test materials.* A licensee shall not disclose test materials to any person, except for another licensed psychologist who has been designated in writing by the subject of a psychological test to receive the records associated with the psychological testing of the subject. A licensee shall not disclose test materials in any administrative, judicial, or legislative proceeding.

645—243.5(154B) Judicial proceedings. Prior to participating in a judicial proceeding, a licensee will become familiar with the rules governing the proceeding. A licensee will understand and clearly identify the licensee's role in the proceeding.

243.5(1) *Licensure.* A license to practice psychology in Iowa or an exemption from licensure is not required solely to testify as an expert witness in court, if the psychologist did not personally examine the examinee. A psychologist who personally examines an examinee located in Iowa for the purpose of providing an expert opinion is required to be licensed or exempt from licensure at the time of the evaluation.

243.5(2) *Custody evaluations.* A licensee who performs a child custody evaluation will comply with the APA Guidelines for Child Custody Evaluations in Family Law Proceedings.

645—243.6(154B) Telepsychology. A psychologist may practice telepsychology provided the following are met:

243.6(1) The psychologist must be licensed or be exempt from licensure in the jurisdiction where the patient or examinee is located.

243.6(2) Prior to initiating telepsychology with a new patient or examinee, a licensee will take reasonable steps to verify the identity and location of the patient or examinee.

243.6(3) A licensee will ensure informed consent for telepsychology includes a description of any limitations of services as a result of the technology utilized.

243.6(4) A licensee will gain competency in the use of a particular technology prior to utilizing it in practice. A licensee shall only use technologies that are secure and functioning properly.

243.6(5) A licensee will apply the same ethical and professional standards of care and professional practice that are required when providing in-person psychological services. If the same standard of care cannot be met with telepsychology, a licensee will not utilize telepsychology.

645—243.7(154B) Records. A licensee will complete clinical records as soon as practicable to ensure continuity of services. All clinical records shall be completed within 30 days after the service or evaluation is complete unless there are significant extenuating circumstances. Clinical records and psychotherapy notes will be retained for at least seven years after the last date of service, or until at least three years after a minor reaches the age of 18, whichever is later. Forensic records will be completed and retained consistent with the APA Specialty Guidelines for Forensic Psychology.

These rules are intended to implement Iowa Code chapters 147, 154B, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 244
“Prescribing Psychologists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 147.76, 154B.13, 154B.14,
272C.3, and 272C.4

State or federal law(s) implemented by the rulemaking: 147, 272C, 154B, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 to 9:40 a.m.

6200 Park Avenue
Des Moines, Iowa
Video call link: meet.google.com/bfq-qaeb-nwu
Or dial: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

Proposed Chapter 244 lays out the minimum standards for education and practice of psychologists with a conditional prescribing certificate and psychologists with a prescribing certificate. Members of the public, licensees, training programs, and employers benefit from having a clear understanding of the minimum standards for appropriate training and practice in this state. Requirements include the application process, minimum educational qualifications, and supervision requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public; however, there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee. The licensee must complete a postdoctoral clinical psychopharmacology master’s degree. The Board of Psychology has not identified an exact cost of education because it varies depending on the school the licensee chooses to attend to meet the educational requirements.

A licensed psychologist seeking a conditional prescription certificate must pay an application fee of \$270 (application fees are addressed in 645—Chapter 5). The conditional prescription certificate is valid for a period of four years and authorizes a psychologist to prescribe psychotropic medications to patients with mental disorders under supervision in accordance with the requirements of the chapter.

Once the licensee has completed the requirements of supervised practice, the licensee may apply for a prescription certificate and pay an application fee of \$60. The biennial renewal fee is \$60.

Prescribing psychologists are licensed in Guam, New Mexico, Louisiana, Idaho, Illinois, and Colorado. The application fees for a conditional prescription certificate are comparable to Iowa's: Guam (\$125), New Mexico (\$125), Louisiana (\$275), Idaho (\$250), and Illinois (\$150). Colorado recently passed legislation to license prescribing psychologists; therefore, no fee information is available at this time.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.20 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed chapter. The chapter clearly articulates appropriate minimum standards for safe practice as a means of protecting patient safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is no direct cost to the general public; however, there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee.

The licensee must complete a postdoctoral clinical psychopharmacology master's degree. The Board has not identified an exact cost of education since it varies depending on the school the licensee chooses to attend to meet the educational requirements.

Application fees are \$270 for a conditional prescription certificate and \$60 for a prescription certificate. The biennial renewal fee for a prescription certificate is \$60.

Staff salaries to support the work of the Board are covered by the Fund. It takes roughly 0.20 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Staff salaries to support the work of the Board are covered by the Fund. It takes roughly 0.20 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues as a result of this rulemaking. Staff salaries to support the work of the Board are covered by the Fund. It takes roughly 0.20 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated with competent and qualified practitioners. This is especially important given the highly sensitive nature of the psychotropic medications that these licensees are allowed to prescribe once they have complied with these rules and statute.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive means of regulating psychologist prescribing. The professional standards articulated in these rules are consistent with those established by the handful of other states that license this practice and recognize the highly sensitive nature of the services being provided. These standards could be reduced; however, the Board would have concerns that doing so would increase the potential for inappropriate or dangerous practices occurring in Iowa.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a less restrictive means of regulating psychologist prescribing. The professional standards articulated in these rules are consistent with those established by the handful of other states that license this practice and recognize the highly sensitive nature of the services being provided. These standards could be reduced; however, the Board would have concerns that doing so would increase the potential for inappropriate or dangerous practices occurring in Iowa.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a less restrictive means of regulating psychologist prescribing. The professional standards articulated in these rules are consistent with those established by the handful of other states that license this practice and recognize the highly sensitive nature of the services being provided. These standards could be reduced; however, the Board would have concerns that doing so would increase the potential for inappropriate or dangerous practices occurring in Iowa.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for psychologists. While some psychologists likely are running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 244 and adopt the following **new** chapter in lieu thereof:

CHAPTER 244 PRESCRIBING PSYCHOLOGISTS

645—244.1(148,154B) Definitions—joint rule.

“*APA*” means the American Psychological Association.

“Applicant” means a psychologist applying for a conditional prescription certificate.

“Board” means the Iowa board of psychology.

“Board of medicine” means the Iowa board of medicine.

“Collaborating physician” means a person who is licensed to practice medicine and surgery or osteopathic medicine in Iowa, who regularly prescribes psychotropic medications for the treatment of mental disorders as part of the physician’s normal course of practice, and who serves as a resource for a prescribing psychologist pursuant to a collaborative practice agreement. A collaborating physician shall specialize in family medicine, internal medicine, neurology, pediatrics, or psychiatry.

“Conditional prescribing psychologist” means a person licensed to practice psychology in Iowa who holds an active conditional prescription certificate. This term does not include prescribing psychologists.

“Conditional prescription certificate” means a certificate issued by the board to a psychologist that permits the psychologist to prescribe psychotropic medication under the supervision of a supervising physician.

“CSA registration” means a Controlled Substance Act registration issued by the Iowa board of pharmacy authorizing a psychologist to possess and prescribe controlled substances.

“DEA registration” means a mid-level practitioner registration with the Drug Enforcement Administration authorizing a psychologist to possess and prescribe controlled substances.

“Joint rule” means a rule adopted by agreement of the board of psychology and the board of medicine through the joint rule-making process.

“Mental disorder” means a disorder which is defined by the most recent version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association or contained within the mental and behavioral disorders chapter of the most recent version of the International Classification of Diseases.

“Prescribing psychologist” means a person licensed to practice psychology in Iowa who holds an active prescription certificate. This term does not include conditional prescribing psychologists.

“Prescription certificate” means a certificate issued by the board to a psychologist that permits the psychologist to prescribe psychotropic medication.

“Primary care physician” means a person licensed to practice medicine and surgery or osteopathic medicine in Iowa who is responsible for the ongoing medical care of a patient.

“Psychologist” means a person licensed to practice psychology in Iowa.

“Psychotropic medication” means a medication that shall not be dispensed or administered without a prescription and that has been explicitly approved by the federal Food and Drug Administration for the treatment of a mental disorder, as defined by the most recent version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association or the most recent version of the International Classification of Diseases. “Psychotropic medication” does not include narcotics.

“Supervising physician” means a person who is licensed to practice medicine and surgery or osteopathic medicine in Iowa, who regularly prescribes psychotropic medications for the treatment of mental disorders as part of the physician’s normal course of practice, and who supervises a conditional prescribing psychologist. A supervising physician shall specialize in family medicine, internal medicine, neurology, pediatrics, or psychiatry.

“Training director” means an employee of the psychopharmacology training program who is primarily responsible for directing the training program.

“Training physician” means a person who is licensed to practice medicine and surgery or osteopathic medicine in Iowa, who regularly prescribes psychotropic medications for the treatment of mental disorders as part of the physician’s normal course of practice, and who provides training to a psychologist as part of the clinical experience and practicum described in rule 645—244.3(148,154B). A training physician shall be board-certified in family medicine, internal medicine, neurology, pediatrics, or psychiatry. A training physician shall be approved by the psychopharmacology training program.

645—244.2(154B) Conditional prescription certificate. A conditional prescription certificate shall authorize a psychologist to prescribe psychotropic medications to patients with mental disorders under supervision in accordance with the requirements of this chapter.

244.2(1) Application. Unless a basis for denial exists in accordance with rule 645—244.9(154B), the board shall issue a conditional prescription certificate to an applicant who satisfies the following requirements:

a. Holds an active license to practice psychology in Iowa and an active health service provider certification issued by the board. Both the license and the health service provider certification must be in good standing.

b. Meets the educational requirements set forth in rule 645—244.3(148,154B). Official academic transcripts shall be sent directly from the school to the board.

c. Submits a supervision plan in accordance with subrule 244.4(1).

d. Possesses malpractice insurance that covers the prescribing of psychotropic medications.

e. Submits a completed application and a nonrefundable application fee of \$270.

244.2(2) Term. A conditional prescription certificate shall be valid for a period of four years from the date of issuance. The board shall not renew a conditional prescription certificate unless a conditional prescribing psychologist cannot complete the requirements of supervised practice within four years due to extenuating circumstances. A conditional prescribing psychologist may request an extension of a conditional prescription certificate when extenuating circumstances exist to provide additional time for the requirements of supervised practice to be met.

645—244.3(148,154B) Educational requirements for conditional prescription certificate—joint rule. An applicant for a conditional prescription certificate shall have completed a program of study designated by the APA as a program for the psychopharmacology training of postdoctoral psychologists. The program must have included didactic instruction, a clinical experience, and a practicum satisfying the requirements of this rule. A minimum of 40 hours of basic training on clinical assessment skills shall be included as part of the program's didactic instruction.

244.3(1) Degree. An applicant shall possess a postdoctoral master of science degree in clinical psychopharmacology from a program designated by the APA as a program for the psychopharmacology training of postdoctoral psychologists. The degree program must be a minimum of 30 credit hours not including the practicum and shall include coursework in basic science, neuroscience, clinical medicine, pathological basis of disease, clinical pharmacology, psychopharmacology, and professional, ethical and legal issues. A minimum of one-third of the coursework must be completed in a live interactive format. A program must be designated by the APA at the time the degree is conferred.

244.3(2) Clinical experience. An applicant shall have completed a clinical experience in accordance with the requirements of this subrule. During the clinical experience, a psychologist shall learn clinical assessment techniques and pathophysiology through direct observation and hands-on training with a training physician. During the clinical experience, a psychologist shall become competent in health history interviews, physical examinations, and neurological examinations with a medically diverse patient population. The clinical experience must be associated with the psychopharmacology training program from which the psychologist obtained the postdoctoral master of science degree in clinical psychopharmacology.

a. Scope. At the beginning of the clinical experience, the psychologist shall directly observe the training physician performing clinical assessments of patients. After the training physician determines the psychologist has gained sufficient knowledge, the clinical experience shall transition to the psychologist's performance of clinical assessments of patients under the direct observation of the training physician. After the training physician determines the psychologist has gained sufficient knowledge and experience, the psychologist may perform clinical assessments of patients without being directly observed by the training physician, provided that the training physician is on site at all times when the psychologist is with patients and is reviewing all medical records. A psychologist and a training physician shall have ongoing discussions regarding the psychologist's clinical assessment skills and progress in the clinical experience.

b. Minimum experience. The clinical experience shall consist of a minimum of 600 patient encounters that shall be completed by the end of the practicum.

c. Conflict of interest. A training physician shall not be an employee of the psychologist or otherwise have a conflict of interest that could affect the training physician's ability to impartially evaluate the psychologist's performance. A psychologist may utilize more than one training physician.

d. Milestones. To satisfactorily complete the clinical experience, a psychologist shall demonstrate competency in each of the following:

(1) Perform a health history interview to obtain pertinent information regarding a patient's chief complaint, history of the present illness, past medical and surgical history, family history, allergies, medications, and psychosocial history. The psychologist shall perform a review of systems to elicit a health history and shall appropriately document the health history.

(2) Perform a physical examination in a logical sequence, ensuring appropriate positioning of the patient, proper patient draping, and proper application of the principles of asepsis throughout the examination. The psychologist shall verbalize and assess the components of a general survey and be able to accurately assess all of the following: vital signs, including pulse, respiration, and blood pressure; skin, hair and nails; head, face and neck; eyes; ears, nose, mouth and throat; thorax, lungs and axillae; heart; peripheral vascular system; abdomen; and musculoskeletal system. The psychologist shall be proficient in utilizing any equipment needed to conduct a physical examination.

(3) Complete a neurological examination demonstrating knowledge of the history related to the neurological system and the ability to assess the following: mental status, cranial nerves, motor system, sensory system, and reflexes. The psychologist shall differentiate normal laboratory values from abnormal laboratory values and correlate abnormal laboratory values with impaired physiological systems. The psychologist shall identify adverse drug reactions and identify laboratory data and physical signs indicating an adverse drug reaction.

e. Informed consent. At the initial contact, the psychologist shall inform the patient, or the patient's legal guardian when appropriate, of the psychologist's training role in the clinical experience. The psychologist shall provide sufficient information regarding the expectations and requirements of the clinical experience to obtain informed consent and appropriate releases. Upon request, the psychologist shall provide additional information regarding the psychologist's education, training, or experience.

f. Training documentation. The psychologist and the training director shall maintain documentation accounting for all clinical experience patient encounters, including the dates, times, and locations of all clinical experience patient encounters, and documentation of completion of the milestones defined in these rules. The applicant shall provide additional documentation to the board upon request.

g. Certification. The training physician(s) and the training director shall certify on forms provided by the board that the applicant has successfully completed the minimum number of clinical experience patient encounters required and demonstrated competence in clinical assessment techniques and pathophysiology through completion of the milestones defined in these rules.

244.3(3) Practicum. An applicant shall have completed a practicum in accordance with the requirements of this subrule. During the practicum, a psychologist shall develop competencies in evaluating and treating patients with mental disorders through pharmacological intervention via observation and active participation. The practicum must be associated with the psychopharmacology training program from which the applicant obtained the postdoctoral master of science degree in clinical psychopharmacology and must be completed in a period of time not less than six months and not more than three years.

a. Scope. At the beginning of the practicum, the psychologist shall directly observe the training physician evaluating and treating patients with mental disorders. After the training physician determines the psychologist has gained sufficient knowledge, the practicum shall transition to the psychologist's evaluation and treatment of patients under the direct observation of the training physician. After the training physician determines the psychologist has gained sufficient knowledge and experience, the psychologist may evaluate and treat patients without being directly observed by the training physician, provided that the training physician is on site at all times when the psychologist is with patients, has

personal contact with the patient at each visit, and is reviewing all pertinent medical records. During the practicum, the training physician shall make all final treatment decisions, with consultation from the psychologist prior to making a final determination regarding the psychopharmacological treatment of a patient.

b. Minimum number of hours. A practicum shall consist of a minimum of 400 hours. Only hours spent face to face evaluating and treating patients with mental disorders and hours spent discussing treatment plans with a training physician may count as practicum hours. Time spent by the psychologist providing services that are within the scope of practice of a licensed psychologist, such as psychological examinations and psychotherapy, shall not be counted as practicum hours.

c. Minimum number of patients. A psychologist shall see a minimum of 100 individual patients throughout the practicum. A patient can be counted toward this requirement if the patient has a diagnosed mental disorder and pharmacological intervention is considered as a treatment option, even if a decision is made not to prescribe a psychotropic medication to the patient. Over the course of the practicum, the psychologist shall observe, evaluate, and treat patients encompassing a range of ages and a variety of psychiatric diagnoses.

d. Settings. At least 100 hours of the 400 hours must be completed in a psychiatric setting. At least 100 hours of the 400 hours must be completed in a primary care or community mental health setting.

e. Conflict of interest. A training physician shall not be an employee of the psychologist or otherwise have a conflict of interest that could affect the training physician's ability to impartially evaluate the psychologist's performance. A psychologist may utilize more than one training physician.

f. Milestones. To successfully complete the practicum, a psychologist shall demonstrate competency in each of the following:

(1) Physical examination and mental status examination. The psychologist shall perform comprehensive and focused physical examinations and mental status evaluations, demonstrate proper use of instruments, and recognize variation associated with developmental stages and diversity.

(2) Review of systems. The psychologist shall integrate information learned from patient reports, signs, symptoms, and a review of each major body system, recognizing normal developmental variations.

(3) Medical history interview. The psychologist shall systematically conduct a patient clinical interview, producing a patient's medical, surgical, psychiatric, and medication history, as well as a family medical and psychiatric history, and be able to communicate the findings in written and verbal form.

(4) Assessment indications and interpretation. The psychologist shall order and interpret appropriate tests (e.g., psychometric, laboratory, and radiological) for the purpose of making a differential diagnosis and monitoring therapeutic and adverse effects of treatment.

(5) Differential diagnosis. The psychologist shall determine primary and alternate diagnoses using established diagnostic criteria.

(6) Integrated treatment planning. The psychologist shall identify and select, using all available data, the most appropriate treatment alternatives, including medication, psychosocial, and combined treatments, and sequence treatment within the larger biopsychosocial context.

(7) Consultation and collaboration. The psychologist shall understand the parameters of the role of a prescribing psychologist and work with other professionals, including a patient's primary care physician, in an advisory or collaborative manner to effectively treat a patient.

(8) Treatment management. The psychologist shall apply, monitor, and modify as needed the treatment of a patient and learn to write valid and complete prescriptions.

(9) Medical documentation. The psychologist shall demonstrate appropriate medical documentation for the patient-psychologist interaction to include subjective and objective assessment; mental status, physical examination findings, or both; formulation; diagnostic impression; and comprehensive treatment plan.

g. Informed consent. At the initial contact, the psychologist shall inform the patient, or the patient's legal guardian when appropriate, of the psychologist's training role in the practicum. The psychologist shall provide sufficient information regarding the expectations and requirements of the practicum to obtain informed consent and appropriate releases. Upon request, the psychologist shall provide additional information regarding the psychologist's education, training, or experience.

h. Training documentation. The psychologist and the training director shall maintain documentation regarding all patients observed, evaluated, and treated by the psychologist as part of the practicum. The documentation shall clearly identify the training physician for each patient. The psychologist and the training director shall maintain documentation of all practicum hours, including the dates, times, and locations of all practicum hours, and documentation of completion of the milestones defined in these rules. The applicant shall provide additional documentation to the board upon request.

i. Certification. The training physician(s) and the training director shall certify on forms provided by the board that the psychologist has successfully completed the minimum number of practicum hours, treated the minimum number of patients, and demonstrated competence in the evaluation and treatment of patients with mental disorders through pharmacological intervention through completion of the milestones defined in these rules.

244.3(4) Examination. A psychologist shall pass the Psychopharmacology Examination for Psychologists (PEP) administered by the APA Practice Organization's College of Professional Psychology or by the Association of State and Provincial Psychology Boards. The passing score utilized by the board shall be the passing score recommended by the test administrator. The examination score shall be sent directly from the testing service to the board.

645—244.4(148,154B) Supervised practice as a conditional prescribing psychologist—joint rule. A conditional prescribing psychologist shall complete a minimum of two years of supervised practice in prescribing psychotropic medications to patients with mental disorders in accordance with this rule to be eligible to apply for a prescription certificate.

244.4(1) Supervision plan. Prior to issuing a conditional prescription certificate, the board shall review and approve the proposed supervision plan.

a. The proposed supervision plan must include the following:

(1) Conditional prescribing psychologist information. The plan must include the name, license number, address, telephone number, and email address of the supervisee.

(2) Supervising physician information. The plan must include the name, license number, date of licensure, area of specialization, address, telephone number, and email address of each supervising physician.

(3) Primary supervising physician. The plan must include a designation of the primary supervising physician.

(4) Period of supervision. The plan must include the beginning date of the supervision plan and estimated date of completion.

(5) Locations and settings. The plan must include a description of the locations and settings where and with whom supervision will occur.

(6) Scope of practice. The plan must include a description of the scope of practice of the conditional prescribing psychologist, including any limitations on the types of psychotropic medications that may be prescribed and the patient populations to which a prescription may be issued and including the expectations and responsibilities of the supervising physician.

(7) Release of information. The plan must include a provision requiring the conditional prescribing psychologist to obtain a release of information from all patients who are considered for psychopharmacological intervention, authorizing the conditional prescribing psychologist to share the patient's health information with the supervising physician.

(8) Consultation between the conditional prescribing psychologist and the supervising physician. The plan must include a provision requiring that the conditional prescribing psychologist consult with the supervising physician on a regular basis regarding a patient's psychotropic treatment plan and any potential complications. A conditional prescribing psychologist shall not prescribe a new psychotropic medication, discontinue a psychotropic medication, or change the dosage of a psychotropic medication if the supervising physician objects on the basis of a contraindication.

(9) Consultation between the supervising physician and the primary care physician. The plan must include a provision requiring that the supervising physician consult with the patient's primary

care physician on a regular basis regarding the patient's psychotropic treatment plan and any potential complications.

(10) Termination of the supervision plan. The plan must include a description of how the supervision plan may be terminated and the process for notifying affected patients.

(11) Signatures. The plan must include signatures of the psychologist and all supervising physicians.

b. A conditional prescribing psychologist shall inform the board of any amendments to the conditional prescribing psychologist's supervision plan, including the addition of any supervising physicians, within 30 days of the change. Amendments to a supervision plan are subject to board approval.

c. The board shall transmit all approved supervision plans and approved amendments to the board of medicine.

244.4(2) *Responsibilities of a supervising physician.* A supervising physician shall provide supervision in accordance with rules established by the board of medicine.

244.4(3) *Responsibilities of a conditional prescribing psychologist.* At the initial contact, a conditional prescribing psychologist shall inform a patient, or a patient's legal guardian when appropriate, that the conditional prescribing psychologist is practicing under the supervision of a physician for purposes of prescribing psychotropic medication and shall provide the name of the supervising physician. A conditional prescribing psychologist shall provide sufficient information regarding the supervision requirements to obtain informed consent and appropriate releases. Upon request, a conditional prescribing psychologist shall provide additional information regarding the conditional prescribing psychologist's education, training, or experience with respect to prescribing psychotropic medications.

244.4(4) *Specialization.* A conditional prescribing psychologist shall complete the following training during the supervised practice period to be eligible to prescribe psychotropic medications to the respective population as a prescribing psychologist:

a. Children. To prescribe to patients who are less than 17 years of age, a conditional prescribing psychologist shall complete at least one year of the required two years of supervised practice in either:

- (1) A pediatric practice,
- (2) A child and adolescent practice, or
- (3) A general practice provided the conditional prescribing psychologist treats a minimum of 50 patients who are less than 17 years of age.

b. Elderly patients. To prescribe to patients who are over 65 years of age, a conditional prescribing psychologist shall complete at least one year of the required two years of supervised practice in either:

- (1) A geriatric practice, or
- (2) A general practice with patients across the lifespan including patients who are over 65 years of age.

c. Serious medical conditions. To prescribe to patients with serious medical conditions including but not limited to heart disease, cancer, stroke, seizures, or comorbid psychological conditions, or patients with developmental disabilities and intellectual disabilities, a conditional prescribing psychologist shall complete at least one year prescribing psychotropic medications to patients with serious medical conditions.

244.4(5) *Completion of supervised practice.* A conditional prescribing psychologist shall see a minimum of 300 patients over a minimum of two years to complete the supervised practice period, provided each of the 300 patients has a diagnosed mental disorder and pharmacological intervention is considered as a treatment option, even if a decision is made not to prescribe a psychotropic medication to the patient. A conditional prescribing psychologist shall treat a minimum of 100 patients with psychotropic medication throughout the supervised practice period.

a. At the conclusion of the supervised practice period, a primary supervising physician shall certify the following:

- (1) Supervision was provided in accordance with rules established by the board of medicine.

(2) A conditional prescribing psychologist has successfully completed two years of supervised practice, considered at least 300 patients for psychopharmacological intervention, and treated at least 100 patients with psychotropic medications.

(3) A conditional prescribing psychologist intending to specialize in the psychological care of children or elderly persons, or persons with serious medical conditions, has completed the requirements of subrule 244.4(4).

(4) A conditional prescribing psychologist has successfully completed the supervised practice period and demonstrated competence in psychopharmacology by demonstrating competency in the milestones listed in paragraph 244.3(3) “f” sufficient to obtain a prescription certificate.

b. If a conditional prescribing psychologist is unable to successfully complete the supervised practice period prior to the expiration of the conditional prescription certificate, the conditional prescribing psychologist may request an extension of the conditional prescription certificate provided that the conditional prescribing psychologist can demonstrate that the conditional prescribing psychologist is likely to successfully complete the supervised practice within the extended time requested. Any requests for extension must be submitted to and approved by both the board and the board of medicine.

645—244.5(154B) Prescription certificate. A prescription certificate shall authorize a psychologist to prescribe psychotropic medications to patients with mental disorders in accordance with the requirements of this chapter.

244.5(1) Application. Unless a basis for denial exists in accordance with rule 645—244.9(154B), the board shall issue a prescription certificate to a conditional prescribing psychologist who satisfies the following requirements:

a. Holds an active license to practice psychology in Iowa, an active health service provider certification issued by the board, and an active conditional prescription certificate. The license, certification, and certificate must all be in good standing.

b. Submits documentation regarding successful completion of the supervised practice period.

c. Submits a collaborative practice agreement in accordance with rule 645—244.8(148,154B).

d. Possesses malpractice insurance that covers the prescribing of psychotropic medications.

e. Submits a completed application and a nonrefundable application fee of \$60.

244.5(2) Initial term and renewal. An initial prescription certificate shall be valid through the current expiration date of the applicant’s psychologist license. Thereafter, a prescription certificate shall be renewed biennially concurrent with the renewal of the psychologist license. A prescribing psychologist may renew a prescription certificate by submitting a completed renewal application and a nonrefundable application fee of \$60. A prescribing psychologist is responsible for renewing the prescription certificate prior to its expiration.

244.5(3) Continuing education required. A prescribing psychologist shall complete a minimum of 20 hours of continuing education in psychopharmacology each year. A total of 40 hours of continuing education in psychopharmacology is required to renew a prescription certificate. These hours are separate from, and in addition to, the continuing education hours needed to renew a psychologist license pursuant to 645—Chapter 241. If a psychologist specializes in treating children, a minimum of 10 hours of continuing education in psychopharmacology each year, for a total of 20 hours of continuing education per renewal period, must be directly related to prescribing psychotropic medication to children.

244.5(4) Late renewal. A prescription certificate shall become late when it has not been renewed prior to the expiration date. To renew a late prescription certificate, a prescribing psychologist shall complete the renewal requirements and submit a late fee of \$60 within 30 days following the prescription certificate expiration date. A prescribing psychologist who fails to renew a prescription certificate within 30 days following the prescription certificate expiration date shall have an inactive prescription certificate. A psychologist whose prescription certificate is inactive continues to hold the privilege of certification in Iowa but may not prescribe psychotropic medications until the prescription certificate is reactivated.

244.5(5) *Reactivation.* To apply for reactivation of an inactive prescription certificate, a psychologist shall submit a completed reactivation application, a nonrefundable fee of \$60, and documentation of a minimum of 40 hours of continuing education in psychopharmacology taken within the preceding two years. If a prescription certificate has been inactive for more than five years, a psychologist shall demonstrate competence in psychopharmacology through one of the following means:

- a. Practiced as a prescribing psychologist in another jurisdiction in the preceding two years.
- b. Completed a period of supervised practice for a minimum of 12 months. The board may issue a conditional prescription certificate to complete a supervised practice period for purposes of prescription certificate reactivation.

645—244.6(148,154B) Prescribing—joint rule. This rule applies to both conditional prescribing psychologists and prescribing psychologists. A psychologist shall comply with all prescription requirements described in 657—subrule 8.19(1). The following limits apply to a psychologist’s prescriptive authority:

1. A psychologist shall only prescribe psychotropic medications for the treatment of mental disorders.
2. A psychologist shall only prescribe psychotropic medications in situations where the psychologist has adequate education and training to safely prescribe.
3. A prescription shall identify the prescriber as a “psychologist certified to prescribe” and shall include the Iowa license number of the psychologist.
4. A prescription issued by a conditional prescribing psychologist shall contain the name of the supervising physician overseeing the care of the patient.
5. A psychologist shall not delegate prescriptive authority to any other person.
6. A psychologist is prohibited from prescribing narcotics as defined in Iowa Code section 124.101.
7. A psychologist shall maintain an active DEA registration and an active CSA registration in order to dispense, prescribe, or administer controlled substances.
8. A psychologist shall not self-prescribe nor prescribe to any person who is a member of the psychologist’s immediate family or household.
9. Before prescribing a psychotropic medication that is classified as a controlled substance, a psychologist shall check the patient’s prescriptive profile using the Iowa prescription monitoring program.
10. To prescribe to a patient who is pregnant or lactating, a psychologist shall consult with the patient’s obstetrician-gynecologist or the physician managing the patient’s pregnancy or postpartum care regarding all prescribing decisions. A psychologist shall not prescribe a psychotropic medication to a patient if the patient’s obstetrician-gynecologist or the physician managing care objects on the basis of a contraindication.
11. To prescribe to a patient who has a serious medical condition, including but not limited to heart disease, kidney disease, liver disease, cancer, stroke, seizures, or comorbid psychological conditions, or to a patient who has a developmental or intellectual disability, a psychologist shall consult with the physician who is managing the comorbid condition for that patient regarding all prescribing decisions. A psychologist shall not prescribe a psychotropic medication if the patient’s physician objects on the basis of a contraindication.
12. A psychologist shall not prescribe a new psychotropic medication, discontinue a psychotropic medication, or change the dosage of a psychotropic medication if the supervising physician or collaborating primary care provider objects on the basis of a contraindication.

645—244.7(148,154B) Consultation with primary care providers—joint rule. This rule applies to both conditional prescribing psychologists and prescribing psychologists. A psychologist shall maintain a cooperative relationship with the primary care provider who oversees a patient’s general medical care to ensure that necessary medical examinations are conducted, the psychotropic medication is appropriate

for the patient's medical conditions, and significant changes in the patient's medical or psychological condition are discussed.

244.7(1) Requirement for a primary care provider. A patient must have a designated primary care provider in order for a psychologist to have the ability to prescribe psychotropic medications to the patient. If a patient does not have a designated primary care provider, a psychologist shall refer the patient to a primary care provider prior to prescribing psychotropic medications to the patient. A psychologist shall not prescribe psychotropic medications to a patient until the patient has established care with a primary care provider.

244.7(2) Requirement for a release. A psychologist shall obtain a release of information from the patient, or the patient's legal guardian when appropriate, authorizing the sharing of the patient's health information between the psychologist and the patient's primary care provider. A psychologist shall not prescribe psychotropic medications to a patient who refuses to sign a release.

244.7(3) Cooperation and consultation with primary care provider. A psychologist shall contact each patient's primary care provider on at least a quarterly basis and shall contact the primary care provider to relay information regarding the care of a patient whenever the following occur:

- a. A psychologist is considering adding a new psychotropic medication to a patient's medication regimen. A psychologist shall not prescribe a new psychotropic medication if the patient's primary care provider objects on the basis of a contraindication.
- b. A psychologist is discontinuing or changing the dosage of a psychotropic medication.
- c. A patient experiences adverse effects from any medication prescribed by the psychologist that may be related to the patient's medical condition.
- d. A psychologist receives the results of laboratory tests related to the medical care of a patient.
- e. A psychologist notes a change in a patient's mental condition that may affect the patient's medical treatment.

645—244.8(148,154B) Collaborative practice—joint rule.

244.8(1) A prescribing psychologist shall have one or more collaborating physicians at all times, as evidenced by a current collaborative practice agreement. Prior to executing a collaborative practice agreement, a prescribing psychologist and a collaborating physician shall review and discuss each other's relevant education, training, experience, and competencies to determine whether a collaborative practice is appropriate and to facilitate drafting a suitable collaborative practice agreement. A collaborative relationship between a prescribing psychologist and a collaborating physician shall ensure patient safety and optimal clinical outcomes. Collaboration may be done in person or via electronic communication in accordance with these rules. A physician shall not serve as a collaborating physician for more than two prescribing psychologists at one time. A prescribing psychologist shall not prescribe without a current written collaborative practice agreement with a collaborating physician in place. All collaborative relationships shall be reviewed and evaluated on an annual basis to ensure that the prescribing psychologist is competent to safely prescribe psychotropic medications to patients and that the collaborating physician is providing appropriate feedback to the prescribing psychologist. A collaborative practice agreement shall establish the parameters of the collaborative practice that are mutually agreed upon by the prescribing psychologist and the collaborating physician and shall be reviewed on an annual basis.

244.8(2) A collaborative practice agreement shall include the following:

- a. *Prescribing psychologist information.* The name, license number, DEA registration number, CSA registration number, address, telephone number, email address, and practice locations of the prescribing psychologist.
- b. *Collaborating physician information.* The name, license number, DEA registration number, CSA registration number, address, telephone number, email address, and practice locations of the collaborating physician.
- c. *Time period.* The time period covered by the agreement.
- d. *Locations and settings.* The locations and settings where collaborative practice will occur.

e. Collaboration. A provision indicating that the collaborating physician and prescribing psychologist shall ensure that the collaborating physician is available for timely collaboration with a prescribing psychologist, either in person or via electronic communication, in accordance with these rules.

f. Scope of practice. The scope of practice agreed upon by the collaborating physician and the prescribing psychologist, as it relates to the prescribing psychologist's prescribing of psychotropic medications, including provisions to ensure that the prescribing psychologist's practice complies with all provisions of these rules.

g. Clinical protocols, practice guidelines, and care plans. Clinical protocols, practice guidelines, and care plans relevant to the scope of practice authorized.

h. Methods of communication. A description of how a prescribing psychologist and a collaborating physician may contact each other for consultation.

i. Limitations on psychotropic medications. A description of any limitations on the range of psychotropic medications the prescribing psychologist may prescribe. The collaborative practice agreement shall also include a provision indicating that the collaborating physician and prescribing psychologist shall ensure that the prescribing psychologist only prescribes psychotropic medications that are consistent with the prescribing psychologist's education, training, experience, and competence.

j. Limitations on patient populations. A description of any limitations on the types of populations that the prescribing psychologist may treat with psychotropic medications. The collaborative practice agreement shall also include a provision indicating that the collaborating physician and prescribing psychologist shall ensure that the prescribing psychologist only provides psychopharmacology services to patient populations that are within the prescribing psychologist's education, training, experience, and competence.

k. Release of information. A provision requiring the prescribing psychologist to obtain a release of information from all patients who are considered for psychopharmacological intervention, authorizing the prescribing psychologist to share the patient's health information with the collaborating physician.

l. Chart review. A provision indicating that the collaborating physician and prescribing psychologist shall ensure that the collaborative physician personally reviews and documents review of at least 10 percent of the prescribing psychologist's patient charts on a quarterly basis in each of the following categories:

- (1) Juvenile patients,
- (2) Pregnant or lactating patients,
- (3) Elderly patients,
- (4) Patients with serious medical conditions, and
- (5) All other patients.

m. Annual review. A provision requiring an annual review and evaluation of the collaborative relationship and the collaborative practice agreement.

n. Consultation between the prescribing psychologist and the collaborating physician. A provision requiring that the prescribing psychologist consult with the collaborating physician on a regular basis regarding the patient's psychotropic treatment plan and any potential complications. A prescribing psychologist shall not prescribe a new psychotropic medication, discontinue a psychotropic medication, or change the dosage of a psychotropic medication if the collaborating physician objects on the basis of a contraindication.

o. Consultation between the collaborating physician and the primary care provider. A provision requiring that the collaborating physician consult with the patient's primary care provider on a regular basis regarding the patient's psychotropic treatment plan and any potential complications.

p. Termination. A provision describing how the agreement can be terminated and the process for notifying affected patients if there will be an interruption in services.

q. Signatures. Signatures of the prescribing psychologist and all collaborating physicians.

645—244.9(154B) Grounds for discipline. The board may deny, suspend, revoke, or impose other discipline as outlined in 645—Chapter 13 against a psychologist who holds a conditional prescription certificate or prescription certificate for any of the following:

244.9(1) Violating any of the grounds for discipline set forth in rule 645—242.2(147,272C).

244.9(2) The inability to safely prescribe psychotropic medications.

244.9(3) Prescribing medications in violation of rule 645—244.6(148,154B).

244.9(4) Repeatedly failing to cooperate and collaborate with primary care physicians.

244.9(5) Prescribing psychotropic medications without a current written collaborative practice agreement.

244.9(6) Failing to maintain malpractice insurance that covers the prescribing of psychotropic medications.

244.9(7) Practicing outside the scope of a collaborative practice agreement.

244.9(8) Prescribing medications while the conditional prescription certificate or prescription certificate is inactive, or prescribing controlled substances while the DEA registration or CSA registration is not current.

244.9(9) Having a conditional prescription certificate or prescription certificate disciplined by the licensing authority of another state.

244.9(10) Having a license or health service provider certification disciplined by the board or the licensing authority of another state.

645—244.10(154B) List of psychologists. The board shall maintain a list of all current conditional prescribing psychologists and prescribing psychologists. The list shall be transmitted annually to the board of medicine.

244.10(1) Information. The list shall include the name of the psychologist, license number, license expiration date, expiration date of the conditional prescription certificate or prescription certificate, and practice locations.

244.10(2) Additions and deletions. When a psychologist is added or removed from the list, the board shall notify the board of medicine of the addition or deletion.

645—244.11(148,154B) Complaints—joint rule. Any complaint received by the board alleging a violation of this chapter shall be forwarded to the board of medicine. Any complaint received by the board of medicine alleging a violation of this chapter shall be forwarded to the board.

645—244.12(148,154B) Joint waiver—joint rule. Any rule identified as a joint rule may only be waived upon approval by both the board and the board of medicine.

645—244.13(148,154B) Amendment—joint rule. Any rule identified as a joint rule may only be amended by agreement of the board and board of medicine through a joint rule-making process.

These rules are intended to implement Iowa Code chapters 148 and 154B.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 261
“Licensure of Respiratory Care Practitioners, Polysomnographic Technologists, and Respiratory Care
and Polysomnography Practitioners”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 152B.6, 148G.5, 147.36, 147.76,
272C.3, and 272C.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 152B, 148G, 272C,
147, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
12:50 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: (US) + 1 402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

These proposed rules set minimum standards for entry into the respiratory care and polysomnography professions. Iowa residents, licensees and employers benefit from the rules since the rules articulate the processes by which individuals apply for licensure in the state of Iowa, as directed in statute. The rules include the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the respiratory care and polysomnography professions has minimum competency. Requirements include the application process, minimum educational qualifications and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the respiratory care and polysomnography professions are at the expense of the licensee.

To become an Iowa licensed respiratory care practitioner, there is an examination fee of \$190 or \$200 (depending on the examination), an application fee of \$75, and a fingerprinting/background check fee of \$55 (application fees are addressed in 645—Chapter 5). Licenses are valid for a two-year period, and the renewal fee is \$90. These costs are comparable to surrounding states. The examination fee is the same in

Nebraska and Minnesota. Nebraska's application fee is \$118, and the renewal fee is \$118; Minnesota's application fee is \$190, and the renewal fee is \$90. Iowa's initial licensure application process is similar to those implemented by other state boards of respiratory care. Licensure is required for respiratory care therapists in every state except Alaska.

To become an Iowa licensed polysomnography technologist, there is an application fee of \$75, and a fingerprinting/background check fee of \$55 (application fees are addressed in 645—Chapter 5). Licenses are valid for a two-year period, and the renewal fee is \$90. In comparison, North Dakota's application fee is \$80; its fingerprinting/background check fee is \$41.25.

To become dually licensed as a respiratory care therapist and polysomnography technologist, there is an application fee of \$90 and a fingerprinting/background check fee of \$55 (application fees are addressed in 645—Chapter 5). Licenses are valid for a two-year period, and the renewal fee is \$90.

The licensee would also have costs related to educational requirements: a certificate, or associate, undergraduate, or graduate degree. The Board of Respiratory Care and Polysomnography (Board) has not identified an exact cost of education for this field since it varies depending on the school the licensee chooses to attend to meet those requirements.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.20 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and respiratory care and polysomnography professionals benefit from the proposed rules. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide the academic training for these professionals to obtain their license in the State of Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the examination. Because the cost of education is so variable depending on the institution the person attends, the Board is unable to put an exact cost on the cost of education or examination preparation.

Application fees for licensure are \$75 or \$90 for an initial license, plus a \$55 fingerprinting/background check fee. Fees for each two-year renewal period are \$75 for a respiratory care practitioner; \$75 for a polysomnographic technologist; and \$90 for a respiratory care and polysomnography practitioner license.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.20 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals and reinstatements. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate

File 557. It takes roughly 0.20 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact from this rule to state revenues. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes the cost to license these professions is justified by the benefits achieved because licensure ensures that Iowans are treated by competent and qualified practitioners. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of respiratory care practitioners and polysomnographic technologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of respiratory care practitioners and polysomnographic technologists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of respiratory care practitioners and polysomnographic technologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment this Board is now part of DIAL. DIAL—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These proposed rules support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of respiratory care practitioners and polysomnographic technologists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of respiratory care practitioners and polysomnographic technologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of respiratory care practitioners and polysomnographic technologists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of respiratory care practitioners and polysomnographic technologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment this Board is now part of DIAL. DIAL—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These proposed rules support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

These proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rules are meant to ensure public safety in terms of licensing requirements for these professions. These licensees may work for small businesses, as well as large corporations and hospitals. To exempt a small business from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 261 and adopt the following **new** chapter in lieu thereof:

RESPIRATORY CARE PRACTITIONERS

| | |
|-------------|---|
| CHAPTER 261 | LICENSURE OF RESPIRATORY CARE PRACTITIONERS, POLYSOMNOGRAPHIC TECHNOLOGISTS, AND RESPIRATORY CARE AND POLYSOMNOGRAPHY PRACTITIONERS |
| CHAPTER 262 | CONTINUING EDUCATION FOR RESPIRATORY CARE PRACTITIONERS AND POLYSOMNOGRAPHIC TECHNOLOGISTS |
| CHAPTER 263 | DISCIPLINE FOR RESPIRATORY CARE PRACTITIONERS AND POLYSOMNOGRAPHIC TECHNOLOGISTS |
| CHAPTER 264 | RESERVED |
| CHAPTER 265 | PRACTICE OF RESPIRATORY CARE PRACTITIONERS AND POLYSOMNOGRAPHIC TECHNOLOGISTS |

CHAPTER 261

LICENSURE OF RESPIRATORY CARE PRACTITIONERS, POLYSOMNOGRAPHIC TECHNOLOGISTS, AND RESPIRATORY CARE AND POLYSOMNOGRAPHY PRACTITIONERS

645—261.1(148G,152B) Definitions.

“*Active license*” means a license that is current and has not expired.

“*Board*” means the board of respiratory care and polysomnography.

“*BRPT*” means the Board of Registered Polysomnographic Technologists.

“*CAAHEP*” means the Commission on Accreditation of Allied Health Education Programs.

“*CoARC*” means the Commission on Accreditation for Respiratory Care.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Licensee*” means any person licensed to practice as a respiratory care practitioner, polysomnographic technologist, or respiratory care and polysomnography practitioner in the state of Iowa.

“*License expiration date*” means March 31 of even-numbered years.

“*NBRC*” means the National Board for Respiratory Care.

“*Polysomnographic technologist*” means a person licensed by the board to engage in the practice of polysomnography under the general supervision of a physician or a qualified health care professional prescriber.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—261.14(17A,147,272C) by which an inactive license is restored to active status.

“*Reciprocal license*” means the issuance of an Iowa license to practice as a respiratory care practitioner, polysomnographic technologist, or respiratory care and polysomnography practitioner to an applicant who is currently licensed in another state that has a mutual agreement with the Iowa board of respiratory care and polysomnography to license persons who have the same or similar qualifications to those required in Iowa.

“*Reinstatement*” means the process as outlined in 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

645—261.2(148G,152B) General requirements for licensure. The following general criteria apply to licensure:

261.2(1) Submit a completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.17(147,152B). Submit two completed sets of fingerprint cards to facilitate a national criminal history background check. The cost for the evaluation of the fingerprint cards and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI) criminal history background checks is assessed to the applicant. The board may withhold issuing a license pending receipt of a report from the DCI and FBI.

a. Submit a release authorizing the background check.

b. Licensees who were issued their licenses within six months prior to the renewal do not need to renew their licenses until the renewal month two years later.

c. An applicant who has been a licensed respiratory care practitioner, polysomnographic technologist, or respiratory care and polysomnography practitioner under the laws of another jurisdiction shall provide verification of license(s) from every jurisdiction in which the applicant has been licensed. Verification shall be sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification direct from the jurisdiction’s board office if the verification provides:

- (1) Licensee’s name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) All disciplinary action taken against the license.

261.2(2) Incomplete applications that have been on file in the board office for more than two years will be considered invalid and destroyed.

645—261.3(152B) Additional requirements for respiratory care practitioner licensure. The following are additional specific criteria for licensure as a respiratory care practitioner:

261.3(1) Successful completion of a respiratory care education program accredited by, or under a letter of review from, CoARC or CAAHEP.

261.3(2) Foreign-trained respiratory care practitioners shall:

a. Provide an equivalency evaluation of their educational credentials by one of the following: International Educational Research Foundations, Inc.; Credentials Evaluation Service; or International Credentialing Associates, Inc. The professional curriculum must be equivalent to that stated in these rules. The candidate bears the expense of the curriculum evaluation.

b. Provide a copy of the certificate or diploma awarded to the applicant from a respiratory care program in the country in which the applicant was educated.

c. Receive a final determination from the board regarding the application for licensure.

261.3(3) The examination required by the board shall be the Therapist Multiple-Choice Examination or the Certified Respiratory Therapist Examination administered by the NBRC. A score on the examination that meets or exceeds the minimum passing score established by the NBRC is required.

261.3(4) Results of the examination must be received by the board of respiratory care and polysomnography by one of the following methods:

a. Scores are sent directly from the examination service to the board;

b. A copy of a certificate showing proof of the successful achievement of the certified respiratory therapist (CRT) or registered respiratory therapist (RRT) credential awarded by the NBRC is submitted to the board; or

c. A copy of the score report or an electronic web-based confirmation by the NBRC showing proof of successful completion is submitted to the board.

645—261.4(148G,152B) Additional requirements for polysomnographic technologist licensure. The following are additional specific criteria for licensure as a polysomnographic technologist:

261.4(1) Graduation from a polysomnographic educational program accredited by CAAHEP. A transcript shall be submitted to the board office directly from the college or university; or

261.4(2) Graduation from an entry into respiratory care professional practice program accredited by CoARC or CAAHEP for which a transcript will be submitted to the board office directly from the college or university; and direct-source verification of one of the following:

a. Completion of a sleep specialist program option accredited by CoARC or CAAHEP, or

b. Obtaining the sleep disorder specialist credential from the NBRC, or

c. Obtaining the registered polysomnographic technologist credential from the BRPT; or

261.4(3) Graduation from an electroneurodiagnostic technologist program with a polysomnographic technology track that is accredited by CAAHEP with the transcript sent directly to the board from the college or university; or

261.4(4) Requirements for current Iowa licensees holding a license in a profession other than polysomnography. An individual who holds an active license under Iowa Code section 147.2 in a profession other than polysomnography and whose license is in good standing with the board for that profession may receive licensure upon verification from the medical director of the individual's current employer or the medical director's designee that the individual has completed on-the-job training in the field of polysomnography and is competent to perform polysomnography.

261.4(5) Foreign-trained polysomnographic technologists shall:

a. Provide an equivalency evaluation of their educational credentials by either International Educational Research Foundations, Inc., Credentials Evaluation Service, or International Credentialing Associates, Inc. The candidate will bear the expense of the curriculum evaluation.

b. Provide a copy of the certificate or diploma awarded to the applicant from a respiratory care program in the country in which the applicant was educated.

c. Receive a final determination from the board regarding the application for licensure.

261.4(6) Licensure by proof of work experience. An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 645—19.2(272C).

261.4(7) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—261.5(148G,152B) Requirements for dual licensure. The following are additional specific criteria for licensure as a respiratory care and polysomnography practitioner. An applicant for licensure

as a respiratory care and polysomnography practitioner shall meet the requirements of subrules 261.5(1) and 261.5(2).

261.5(1) The applicant shall have successfully completed a respiratory care education program accredited by, or under a letter of review from, CoARC or CAAHEP.

a. Foreign-trained practitioners shall:

(1) Provide an equivalency evaluation of their educational credentials by International Educational Research Foundations, Inc., Credentials Evaluation Service, or International Credentialing Associates, Inc. The professional curriculum must be equivalent to that stated in these rules. The candidate will bear the expense of the curriculum evaluation.

(2) Provide a copy of the certificate or diploma awarded to the applicant from the program in the country in which the applicant was educated.

(3) Receive a final determination from the board regarding the application for licensure.

b. Examination requirements. The examinations required by the board shall be the Therapist Multiple-Choice Examination administered by the NBRC and either the Sleep Disorders Specialist Examination (SDS) administered by the NBRC or the Registered Polysomnographic Technologist Examination administered by the BRPT. The minimum passing score established by the NBRC or BRPT is required.

c. Results of the examination. Results of the examination must be received by the board of respiratory care and polysomnography by one of the following methods:

(1) Scores are sent directly from the examination service to the board;

(2) A copy of a certificate showing proof of the successful achievement of the certified respiratory therapist (CRT) or registered respiratory therapist (RRT) credential awarded by the NBRC submitted to the board; or

(3) A copy of the score report or an electronic web-based confirmation by the NBRC showing proof of successful completion of the Therapist Multiple-Choice Examination, State Clinical Examination, or Certified Respiratory Therapist Examination administered by the NBRC submitted to the board.

261.5(2) The applicant must also meet one of the following requirements:

a. Graduation from a polysomnographic educational program accredited by CAAHEP, with the transcript sent directly from the college or university to the board; or

b. Completion of a sleep specialist program option accredited by CoARC or CAAHEP with the transcript submitted to the board office directly from the college or university; and direct-source verification of one of the following:

(1) Completion of the curriculum for a polysomnographic certificate established and accredited by the CAAHEP as an extension of the respiratory care program, or

(2) Obtaining the sleep disorder specialist credential from the NBRC, or

(3) Obtaining the registered polysomnographic technologist credential from the BRPT; or

c. Graduation from an electroneurodiagnostic technologist program with a polysomnographic technology track that is accredited by CAAHEP, with the transcript submitted to the board office directly from the college or university; or

d. Hold an active license under Iowa Code section 147.2 in a profession other than polysomnography that is in good standing with the board for that profession and provide verification from the medical director of the applicant's current employer or the medical director's designee that the applicant has completed on-the-job training in the field of polysomnography and is competent to perform polysomnography; or

645—261.6(148G,152B) License renewal.

261.6(1) The biennial license renewal period for a license will begin on April 1 of an even-numbered year and end on March 31 of the next even-numbered year. The licensee is responsible for renewing the license prior to its expiration.

261.6(2) An individual who was issued an initial license within six months of the license renewal date does not need to renew the license until the subsequent renewal two years later.

261.6(3) A licensee seeking renewal shall:

a. Meet the continuing education requirements of rule 645—262.2(148G,152B,272C) and the mandatory reporting requirements of subrule 261.8(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

261.6(4) Mandatory reporter training requirements.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities, examines, attends, counsels or treats children and dependent adults in Iowa will complete the applicable department of health and human services' training relating to the identification and reporting of child and dependent adult abuse as required by Iowa Code section 232.69(3) "b."

b. The requirement for mandatory training for identifying and reporting child and dependent adult abuse will be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in 645—Chapter 262.

c. The board may select licensees for audit of compliance with the requirements in paragraphs "a" and "b."

261.6(5) Upon receiving the information and the fee, a two-year license will be administratively issued. In the event the board receives adverse information on the renewal application, the renewal license will be issued but the board may refer the adverse information for further consideration or disciplinary investigation.

261.6(6) The license certificate and proof of active licensure will be displayed in a conspicuous public place at the primary site of practice.

261.6(7) Late renewal. A license not renewed by the expiration date will be assessed a late fee as specified in rule 645—5.17(147,152B). Completion of renewal requirements and submission of the late fee within the grace period are needed to renew the license.

261.6(8) Inactive license. A license not renewed by the end of the grace period is inactive. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice respiratory care in Iowa until the license is reactivated. A licensee who practices respiratory care in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—261.7(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

261.7(1) Submit a reactivation application and pay the reactivation fee specified in rule 645—5.17(147,152B).

261.7(2) If the license has been inactive for two or more years, the licensee shall submit two completed fingerprint cards to facilitate a national criminal history background check. The cost for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks will be assessed to the applicant. The board may withhold issuing a license pending receipt of a report from the DCI and FBI.

261.7(3) Provide verification of current competence to practice by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly

from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of continuing education that conforms to standards defined in rule 645—262.3(148G,152B,272C) within 24 months immediately preceding submission of the application for reactivation.

1. For respiratory care practitioners: 24 hours of continuing education.
2. For polysomnographic technologists: 24 hours of continuing education.
3. For respiratory care and polysomnography practitioners: 24 hours of continuing education of which at least 8 hours but no more than 12 hours shall be on sleep-related topics.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of continuing education that conforms to standards defined in rule 645—262.3(148G,152B,272C) within 24 months immediately preceding submission of the application for reactivation.

1. For respiratory care practitioners: 48 hours of continuing education.
2. For polysomnographic technologists: 48 hours of continuing education.
3. For respiratory care and polysomnography practitioners: 48 hours of continuing education of which at least 16 hours but no more than 24 hours shall be on sleep-related topics.

645—261.8(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—261.14(17A,147,272C) prior to practicing in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 148G, 152B, and 272C.

Regulatory Analysis

Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

This proposed rulemaking sets forth continuing education requirements for respiratory care therapists and polysomnographic technologists. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rules, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that respiratory care therapists and polysomnographic technologists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no direct costs to the public. There is a direct cost to a licensee who must pay for the continuing education required. Private industry offers these courses, so the Board of Respiratory Care and Polysomnography (Board) is not privy to exact costs, but research estimates the costs to be around \$150 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

Costs to the Department include the staff time needed to manage Board activities, which include continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope

of work of this Board at approximately 0.20 full-time equivalent (FTE) position, which includes questions from the public and licensees, such as practice standards, continuing education, and Board meeting administration. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that respiratory care therapists and polysomnographic technologists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offers these courses, so the Board is not privy to exact costs, but research estimates the costs to be around \$150 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

Currently, Iowa requires 24 hours of continuing education for these license types every two years.

Costs to the Department are the staff time needed to manage Board activities, which include continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.20 FTE position, which includes questions from the public and licensees, such as practice standards, continuing education, and Board meeting administration. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standards of care, which potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.20 FTE position, which includes questions from the public and licensees, such as practice standards, continuing education, and Board meeting administration.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact from these proposed rules on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. Representatives of the Board reviewed the required hours and did not support reducing them.

The Board believes that the benefits achieved justify the costs. The purpose of continuing education is to ensure ongoing competency for providers. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so the Board is unable to submit evidence of this belief.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives include reducing or eliminating continuing education requirements for respiratory care therapists and polysomnography technologists. Iowa requires 24 hours of continuing education every two years for respiratory care therapists, which is fairly consistent with a review of surrounding states. Minnesota, Missouri, and Illinois also require 24 hours every two years, and Kansas requires 12 every year. Nebraska and South Dakota each require 20 hours every two years.

Representatives of the Board reviewed the required hours and did not support reducing them.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Less restrictive alternatives include reducing or eliminating continuing education requirements for respiratory care therapists and polysomnography technologists. Representatives of the Board reviewed the required hours and did not support reducing them.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Representatives of the Board reviewed the required hours and did not support reducing them. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so the Board is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

These proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rules are meant to ensure public safety in terms of licensing requirements for these professions. These licensees may work for small businesses, as well as large corporations and hospitals. To exempt a small business from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 262 and adopt the following new chapter in lieu thereof:

CHAPTER 262
CONTINUING EDUCATION FOR RESPIRATORY CARE PRACTITIONERS AND
POLYSOMNOGRAPHIC TECHNOLOGISTS

645—262.1(148G,152B,272C) Definitions.

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of respiratory care and polysomnography.

“*Continuing education*” means planned, organized learning acts designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as a respiratory care practitioner, polysomnographic technologist, or respiratory care and polysomnography practitioner in the state of Iowa.

645—262.2(148G,152B,272C) Continuing education requirements.

262.2(1) The biennial continuing education compliance period will extend for a two-year period beginning on April 1 of each even-numbered year and ending on March 31 of the next even-numbered year. Each biennium, the licensee will be required to complete continuing education that meets the requirements specified in rule 645—262.3(148G,152B,272C).

a. For respiratory care practitioner licensees: complete a minimum of 24 hours of continuing education, with 12 of the 24 hours earned by completing a program in which the instructor conducts the class in person or by employing an electronic technology that allows for real-time communication between the instructor and licensee.

b. For respiratory care and polysomnography practitioner licensees: complete a minimum of 24 hours of continuing education, with 12 of the 24 hours of continuing education earned by completing a program in which the instructor conducts the class in person or by employing an electronic technology that allows for real-time communication between the instructor and licensee. At least 8 hours but not more than 12 hours shall be on sleep-related topics.

c. For polysomnographic technologist licensees: complete a minimum of 24 hours of continuing education, with 12 of the 24 hours of continuing education earned by completing a program in which the instructor conducts the class in person or by employing an electronic technology that allows for real-time communication between the instructor and licensee.

262.2(2) Requirements of new licensees. Those persons licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. For each subsequent license renewal, the new licensee will be required to complete continuing education per biennium.

262.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity. These hours must be in accordance with these rules.

262.2(4) No hours of continuing education shall be carried over into the next biennium except as stated for the second renewal. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

262.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

645—262.3(148G,152B,272C) Standards.

262.3(1) General criteria. A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters which integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides proof of attendance to licensees in attendance including:
 - (1) Date(s), location, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

262.3(2) Specific criteria. Continuing education hours of credit may be obtained by:

- a. Programs/activities of a clinical nature related to the practice of respiratory care or polysomnography.
- b. Program presenters who will receive one hour of credit for each hour of presentation for the first offering of the continuing education program/activity.
- c. Academic coursework that meets the criteria set forth in the rules and is accompanied by an official transcript indicating successful completion of the course. Continuing education credit equivalents are as follows:
 - 1 academic semester hour = 15 continuing education hours
 - 1 academic quarter hour = 10 continuing education hours
- d. The following are approved for continuing education credit on a one-time basis per biennium and require a certificate of attendance or verification:

CERTIFICATIONS :

| | |
|--|----------|
| Advanced Cardiac Life Support | 12 hours |
| Basic Cardiac Life Support—Instructor | 8 hours |
| Basic Cardiac Life Support | 6 hours |
| Neonatal Resuscitation | 9 hours |
| Pediatric Advanced Life Support | 14 hours |
| Mandatory Reporting | 4 hours |
| Certified Pulmonary Function Technologist | 8 hours |
| Registered Pulmonary Function Technologist | 12 hours |

These rules are intended to implement Iowa Code section 272C.2 and chapters 148G and 152B.

Purpose and Summary

These proposed rules provide Iowans, licensees, and their employers with definitions relevant to the practice of respiratory care and polysomnography, including the code of ethics, guidance on intravenous administration and the setup and delivery of respiratory care equipment, the role of students, requirements for the location of the practice of polysomnography, and services provided by each profession. These rules articulate practice standards and provide a scope of practice for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are costs associated with practice standards since there is often time, effort and money associated with compliance. There are costs for the professionals associated with the time required to review the code of ethics and practice standards. There are costs associated with supervising students and securing accredited sleep medicine laboratories or centers for the practice of polysomnography, as well as costs to the public associated with receiving these services, such as copayment. Requirements for the setup and delivery of respiratory care equipment may also include copayment, as well as staff time and record keeping. The Board of Respiratory Care and Polysomnography (Board) does not have a mechanism for estimating what these total costs might be to the public and to the licensee.

Costs to the Department include the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, questions from licensees and the public,

and administration of Board meetings. An executive officer supports the work of this Board at approximately 0.20 full-time equivalent (FTE) position. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from these proposed rules. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are few practitioners in these professions. There are approximately 1,845 respiratory care therapists, 150 polysomnographic technologists, and 86 dual licensed individuals who provide these services to Iowans. In 2022, a total of seven complaints was submitted to the Board, and public discipline was issued for one respiratory care therapist. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing these important services to Iowans. If these professions were not regulated, it could mean that lower-skilled individuals would provide these services to Iowans, which would be of concern to the Board. Respiratory care is regulated in every U.S. state, with the exception of Alaska. Approximately 37 states have regulatory or statutory requirements for polysomnography.

The Board does not have a mechanism for estimating what the total costs might be to the public and to the licensee.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to manage the full scope of board activities, which includes oversight of practice standards, questions from licensees and the public, and administration of Board meetings. An executive officer supports the work of this Board at approximately 0.20 position. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on this rule to state revenues.

Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are few practitioners in these professions. There are approximately 1,845 respiratory care therapists, 150 polysomnographic technologists, and 86 dual licensed individuals who provide these services to Iowans. In 2022, a total of seven complaints were submitted to the Board, and public discipline was issued for one respiratory care therapist. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing these important services

to Iowans. If these professions were not regulated, it could mean that lower-skilled individuals would provide these services to Iowans, which would be of concern to the Board. Respiratory care is regulated in every U.S. state, with the exception of Alaska. Approximately 37 states have regulatory or statutory requirements for polysomnography.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Licensing is the highest form of regulation. Lower forms of regulation could be viable, such as a registration. That said, respiratory care is regulated in every U.S. state except Alaska, and approximately 37 states have regulatory or statutory requirements for polysomnography.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Currently, respiratory care is regulated in every U.S. state except Alaska, and approximately 37 states have regulatory or statutory requirements for polysomnography.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as registration as opposed to licensure. The Board ultimately decided that to ensure public safety and the integrity of the profession, licensure requirements should stay in effect. Currently, respiratory care is regulated in every U.S. state except Alaska, and approximately 37 states have regulatory or statutory requirements for polysomnography. Not regulating this profession could jeopardize public safety and lead to serious injury for consumers. The Board believes regulations are necessary and critical to ensuring public safety, which is the paramount concern.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rules are meant to ensure public safety in terms of licensing requirements for these professions. These licensees may work for small businesses, as well as large corporations and hospitals. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 265 and adopt the following **new** chapter in lieu thereof:

CHAPTER 265
PRACTICE OF RESPIRATORY CARE PRACTITIONERS AND
POLYSOMNOGRAPHIC TECHNOLOGISTS

645—265.1(148G,152B,272C) Definitions.

“*Board*” means the board of respiratory care and polysomnography.

“*Direct supervision*” means that the respiratory care and polysomnography practitioner or the polysomnographic technologist providing supervision must be present where the polysomnographic procedure is being performed and immediately available to furnish assistance and direction throughout the performance of the procedure.

“*General supervision*” means that the polysomnographic procedure is provided under a physician’s or qualified health care professional prescriber’s overall direction and control, but the physician’s or qualified health care professional prescriber’s presence is not required during the performance of the procedure.

“*Physician*” means a person who is currently licensed in Iowa to practice medicine and surgery or osteopathic medicine and surgery and who is board certified and who is actively involved in the sleep medicine center or laboratory.

“*Polysomnographic student*” means a person who is enrolled in a program approved by the board and who may provide sleep-related services under the direct supervision of a respiratory care and polysomnography practitioner or a polysomnographic technologist as part of the person’s education program.

“*Polysomnographic technician*” means a person who has graduated from a program approved by the board, but has not yet received an accepted national credential awarded from an examination program approved by the board and who may provide sleep-related services under the direct supervision of a licensed respiratory care and polysomnography practitioner or a licensed polysomnographic technologist for a period of up to 30 days following graduation while awaiting credentialing examination scheduling and results.

645—265.2(148G,152B,272C) Code of ethics.

265.2(1) The respiratory care practitioner or polysomnographic technologist will practice acceptable methods of treatment and will not practice beyond the competence or exceed the authority vested in the practitioner or technologist by physicians.

265.2(2) The respiratory care practitioner or polysomnographic technologist will continually strive to increase and improve knowledge and skill and will render to each patient the full measure of the practitioner’s or technologist’s ability. All services will be provided with respect for the dignity of the patient, regardless of the patient’s social or economic status or personal attributes or the nature of the patient’s health problems.

265.2(3) The respiratory care practitioner or polysomnographic technologist will be responsible for the competent and efficient performance of assigned duties and will expose incompetent, illegal or unethical conduct of members of the profession.

265.2(4) The respiratory care practitioner or polysomnographic technologist will hold in confidence all privileged information concerning the patient and refer all inquiries regarding the patient to the patient’s physician.

265.2(5) The respiratory care practitioner or polysomnographic technologist will not accept gratuities and shall guard against conflict of interest.

265.2(6) The respiratory care practitioner or polysomnographic technologist will uphold the dignity and honor of the profession and abide by its ethical principles.

265.2(7) The respiratory care practitioner or polysomnographic technologist will have knowledge of existing state and federal laws governing the practice of respiratory therapy or polysomnography and will comply with those laws.

265.2(8) The respiratory care practitioner or polysomnographic technologist will cooperate with other health care professionals and participate in activities to promote community, state, and national efforts to meet the health needs of the public.

645—265.3(152B,272C) Intravenous administration. Starting an intravenous line or administering intravenous medications is outside the scope of practice of a licensed respiratory care practitioner. However, this rule does not preclude a licensed respiratory care practitioner from performing intravenous administration under the auspices of the employing agency if formal training is acquired and documented.

645—265.4(152B,272C) Setup and delivery of respiratory care equipment.

265.4(1) Unlicensed personnel may deliver, set up, and test the operation of respiratory care equipment for a patient but may not perform any type of patient care. Instruction or demonstration of the equipment will be limited to its mechanical operation (on and off switches, emergency button, cleaning, maintenance). Any instruction or demonstration to the patient regarding the clinical use of the equipment, the fitting of any device to the patient or making any adjustment, or any patient monitoring, patient assessment, or other procedures designed to evaluate the effectiveness of the treatment must be performed by a licensed respiratory therapist or other licensed health care provider allowed by Iowa law.

265.4(2) Respiratory care equipment includes but is not limited to:

- a. Positive airway pressure (continuous positive airway pressure and bi-level positive airway pressure) devices and supplies;
- b. Airway clearance devices;
- c. Invasive and noninvasive mechanical ventilation devices and supplies;
- d. Nasotracheal and tracheal suctioning devices and supplies;
- e. Apnea monitors and alarms and supplies;
- f. Tracheostomy care devices and supplies;
- g. Respiratory diagnostic testing devices and supplies, including but not limited to pulse oximetry, CO₂ monitoring, and spirometry devices and supplies; and
- h. Pulse-dose or demand-type oxygen conserving devices or any oxygen delivery systems beyond the capabilities of a simple mask or cannula or requiring particulate or molecular therapy in conjunction with oxygen.

645—265.5(152B,272C) Respiratory care as a practice. “Respiratory care as a practice” means a health care profession, under medical direction, employed in the therapy, management, rehabilitation, diagnostic evaluation, and care of patients with deficiencies and abnormalities that affect the pulmonary system and associated aspects of cardiopulmonary and other systems’ functions, and includes, but is not limited, to the following direct and indirect respiratory care services that are safe, of comfort, aseptic, preventative, and restorative to the patient:

1. Observing and monitoring signs and symptoms, general behavior, reactions, and general physical responses to respiratory care treatment and diagnostic testing.
2. Determining whether the signs, symptoms, behavior, reactions, or general responses exhibit abnormal characteristics.
3. Performing pulmonary diagnostic testing.
4. Analyzing blood gases and respiratory secretions.
5. Measuring and monitoring hemodynamic and physiologic function related to cardiopulmonary pathophysiology.
6. Performing diagnostic and testing techniques in the medical management of patients to assist in diagnosis, monitoring, treatment, and research of pulmonary abnormalities, including measurement of ventilatory volumes, pressures, and flows; and collection of specimens of blood and from the respiratory tract.
7. Administering:
 - Medical gases, aerosols, and humidification, not including general anesthesia.

- Lung expansion therapies.
 - Bronchopulmonary hygiene therapies.
 - Hyperbaric therapy.
 - Pharmacologic and therapeutic agents necessary to implement therapeutic, disease prevention, pulmonary rehabilitative, or diagnostic regimens prescribed by a licensed physician, surgeon, or other qualified health care professional prescriber.
8. Maintaining natural and artificial airways.
 9. Without cutting tissues, inserting and maintaining artificial airways.
 10. Initiating, monitoring, modifying and discontinuing invasive or noninvasive mechanical ventilation.
 11. Performing basic and advanced cardiopulmonary resuscitation.
 12. Performing invasive procedures that relate to respiratory care.
 13. Implementing changes in treatment regimen based on observed abnormalities and respiratory care protocols to include appropriate reporting and referral.
 14. Managing asthma, COPD, and other respiratory diseases.
 15. Performing cardiopulmonary rehabilitation.
 16. Instructing patients in respiratory care, functional training in self-care and home respiratory care management and promoting the maintenance of respiratory care fitness, health, and quality of life.
 17. Performing those advanced practice procedures that are permitted within the policies of the employing institution and for which the respiratory care practitioner has documented training and demonstrated competence.
 18. Managing the clinical delivery of respiratory care services through the ongoing supervision, teaching, and evaluation of respiratory care.
 19. Transcribing and implementing a written, verbal, or telephonic order from a licensed physician, surgeon, or other qualified health care professional prescriber pertaining to the practice of respiratory care.

645—265.6(148G,272C) Practice of polysomnography.

265.6(1) The practice of polysomnography consists of but is not limited to the following tasks as performed for the purpose of polysomnography, under the general supervision of a licensed physician or qualified health care professional prescriber:

- a. Monitoring, recording, and evaluating physiologic data during polysomnographic testing and review during the evaluation of sleep-related disorders, including sleep-related respiratory disturbances, by applying any of the following techniques, equipment, or procedures:
 - (1) Noninvasive continuous, bilevel positive airway pressure, or adaptive servo-ventilation titration on spontaneously breathing patients using a mask or oral appliance; provided, however, that the mask or oral appliance does not extend into the trachea or attach to an artificial airway.
 - (2) Supplemental low-flow oxygen therapy of less than six liters per minute, utilizing a nasal cannula or incorporated into a positive airway pressure device during a polysomnogram.
 - (3) Capnography during a polysomnogram.
 - (4) Cardiopulmonary resuscitation.
 - (5) Pulse oximetry.
 - (6) Gastroesophageal pH monitoring.
 - (7) Esophageal pressure monitoring.
 - (8) Sleep stage recording using surface electroencephalography, surface electrooculography, and surface submental electromyography.
 - (9) Surface electromyography.
 - (10) Electrocardiography.
 - (11) Respiratory effort monitoring, including thoracic and abdominal movement.
 - (12) Plethysmography blood flow monitoring.
 - (13) Snore monitoring.
 - (14) Audio and video monitoring.

- (15) Body movement monitoring.
- (16) Nocturnal penile tumescence monitoring.
- (17) Nasal and oral airflow monitoring.
- (18) Body temperature monitoring.

b. Monitoring the effects that a mask or oral appliance used to treat sleep disorders has on sleep patterns; provided, however, that the mask or oral appliance does not extend into the trachea or attach to an artificial airway.

c. Observing and monitoring physical signs and symptoms, general behavior, and general physical response to polysomnographic evaluation and determining whether initiation, modification, or discontinuation of a treatment regimen is warranted.

d. Analyzing and scoring data collected during the monitoring described in this subrule for the purpose of assisting a physician in the diagnosis and treatment of sleep and wake disorders that result from developmental defects, the aging process, physical injury, disease, or actual or anticipated somatic dysfunction.

e. Implementation of a written or verbal order from a physician or qualified health care professional prescriber to perform polysomnography.

f. Education of a patient regarding the treatment regimen that assists the patient in improving the patient's sleep.

g. Use of any oral appliance used to treat sleep-disordered breathing while under the care of a licensed polysomnographic technologist during the performance of a sleep study, as directed by a licensed dentist.

265.6(2) Before providing any sleep-related services, a polysomnographic technician or polysomnographic student who is obtaining clinical experience will give notice to the board that the person is working under the direct supervision of a respiratory care and polysomnography practitioner or a polysomnographic technologist in order to gain the experience to be eligible to sit for a national certification examination. A badge that appropriately identifies the person is to be worn while providing such services.

645—265.7(148G,152B,272C) Students.

265.7(1) A student who is enrolled in an approved respiratory care, sleep add-on, polysomnography training program, or electroneurodiagnostic program and is employed in an organized health care system may render services defined in Iowa Code sections 152B.2 and 152B.3 and chapter 148G under the direct and immediate supervision of a respiratory care practitioner, polysomnographic technologist, or respiratory care and polysomnography practitioner for the duration of the program, but not to exceed the duration of the program.

265.7(2) Direct and immediate supervision of a respiratory care or polysomnographic student means that the licensed respiratory care practitioner or polysomnographic technologist will:

- a.* Be continuously on site and present in the department or facility where the student is performing care;
- b.* Be immediately available to assist the person being supervised in the care being performed; and
- c.* Be responsible for care provided by students.

645—265.8(148G,272C) Location of polysomnography services. The practice of polysomnography is to take place only in a facility that is accredited by a nationally recognized sleep medicine laboratory or center accrediting agency, in a facility operated by a hospital or a hospital licensed under Iowa Code chapter 135B, or in a patient's home pursuant to rules adopted by the board; provided, however, that the scoring of data and the education of patients may take place in another setting.

These rules are intended to implement Iowa Code chapters 147, 148G, 152B, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 300
“Licensure of Speech Pathologists and Audiologists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 154F, 272C.3, 272C.4, and 272C.10
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 154F, 147, 272C, and
17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
11:10 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Phone: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

These proposed rules set minimum standards for entry into the speech pathology and audiology profession. Iowa residents, licensees and employers benefit from the rules because the rules articulate the processes by which individuals apply for licensure as speech pathologists or audiologists in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant because complying with the minimum requirements to enter into the speech pathologist or audiologist profession is at the expense of the licensee.

Speech pathologists and audiologists are required to earn a masters or doctoral degree in speech pathology or audiology. Applicants must also pay applicable fees and pass an examination in order to obtain a license. The fee for the Praxis Examination is \$146.

The application fee is \$120, and the renewal fee is \$96.

These costs are comparable to or less than surrounding states. In Nebraska, applicants must pay \$146 for the Praxis Examination and an application fee of \$140. In Minnesota, applicants must pay \$600 for

the examination. The application fee is \$160.50 for an 18-month license in speech pathology and \$396 for an 18-month license in audiology.

The Board of Speech Pathology and Audiology (Board) staff review applications for initial and renewal licenses and for licensure reinstatement. Board staff also answer inquiries on licensing and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.31 (full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rules. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the cost to license this profession is justified by the benefits achieved because it ensures that Iowans are treated with competent and qualified practitioners.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The cost for the examination required is \$146. Licensing fees are \$120 for an initial license and \$96 for each renewal period.

- Qualitative description of impact:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the cost to license this profession is justified by the benefits achieved because it ensures that Iowans are treated with competent and qualified practitioners. Licensing requirements in Iowa are very similar to those in surrounding states.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to manage board activities, which includes managing applications for initial licenses, renewals, reactivations, and reinstatements. Staff salaries to support the work of the Board are covered by the licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.31 of an FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact from this rule on state revenues.

Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board has not identified a less restrictive alternative to the licensure of speech pathologists and audiologists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the professions, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of speech pathologists and audiologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the state of Iowa are similar to those of surrounding states. The surrounding states all require similar licensing procedures for speech pathologists and audiologists.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to the licensure of speech pathologists or audiologists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the professions, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of speech pathologists and audiologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). DIAL—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These rule edits support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a less restrictive alternative to the licensure of speech pathologists and audiologists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the professions, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of speech pathologists and audiologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a less restrictive alternative to the licensure of speech pathologists and audiologists. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the professions, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of speech pathologists and audiologists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this Board is now part of DIAL. DIAL—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These rules support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

These proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. These rules are meant to ensure public safety in terms of licensing requirements for speech pathologists and audiologists. While some licensees could be running a small business, some also work for large hospitals, clinics and educational institutions. To exempt a small business from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 300 and adopt the following **new** chapter in lieu thereof:

SPEECH PATHOLOGISTS AND AUDIOLOGISTS

| | |
|-------------|---|
| CHAPTER 300 | LICENSURE OF SPEECH PATHOLOGISTS AND AUDIOLOGISTS |
| CHAPTER 301 | PRACTICE OF SPEECH PATHOLOGISTS AND AUDIOLOGISTS |
| CHAPTER 302 | RESERVED |
| CHAPTER 303 | CONTINUING EDUCATION FOR SPEECH PATHOLOGISTS AND AUDIOLOGISTS |
| CHAPTER 304 | DISCIPLINE FOR SPEECH PATHOLOGISTS AND AUDIOLOGISTS |

CHAPTER 300

LICENSURE OF SPEECH PATHOLOGISTS AND AUDIOLOGISTS

645—300.1(147) Definitions. For purposes of these rules, the following definitions shall apply:

“*ASHA*” means the American Speech-Language Hearing Association.

“*Assistant*” means an unlicensed person who works under the supervision of an Iowa-licensed speech pathologist or audiologist and meets the minimum requirements set forth in these rules.

“*Audiologist*” means a person who engages in the application of principles, methods and procedures for measurement, testing, evaluation, prediction, consultation, counseling, instruction, habilitation, rehabilitation, or remediation related to hearing and disorders of hearing and associated communication disorders for the purpose of nonmedically evaluating, identifying, preventing, ameliorating, modifying, or remediating such disorders and conditions in individuals or groups of individuals, including the determination, selection and use of appropriate hearing devices.

“*Board*” means the board of speech pathology and audiology.

“*Full-time*” means a minimum of 30 hours per week.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Licensee*” means any person licensed to practice as a speech pathologist or audiologist in the state of Iowa.

“*License expiration date*” means December 31 of odd-numbered years.

“*On site*” means:

1. To be continuously on site and present in the department or facility where services are being provided;
2. To be immediately available to assist the person being supervised in the services being performed; and

3. To provide continued direction of appropriate aspects of each treatment session in which a component of treatment is delegated.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—300.11(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions.

“*Speech pathologist*” means a person who engages in the application of principles, methods, and procedures for the measurement, testing, evaluation, prediction, consultation, counseling, instruction, habilitation, rehabilitation, or remediation related to the development and disorders of speech, swallowing, fluency, voice, or language for the purpose of nonmedically evaluating, preventing, ameliorating, modifying, or remediating such disorders and conditions in individuals or groups of individuals.

645—300.2(147) Requirements for licensure. The following criteria will apply to licensure:

300.2(1) Applicants will submit a completed online licensure application and pay the required fee.

300.2(2) The application will include:

a. An official copy of a current ASHA certificate of clinical competence; or

b. Submission of the following:

(1) Official copies of academic transcripts sent directly from the school to the board showing proof of completion of not less than 400 hours of supervised clinical training;

(2) Verification of nine months of full-time clinical experience, or equivalent, completed after the master’s degree, under the supervision of a licensed speech pathologist or audiologist or as a part of the doctoral degree; and

(3) Results of the Praxis Examination.

300.2(3) An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 645—19.2(272C).

300.2(4) An applicant who has been licensed in another state will provide verification of license from the jurisdiction in which the applicant has most recently been licensed, and additional verifications if necessary to verify at least five years of an independent license as described in subrule 240.10(4), sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction’s board office if the verification provides:

a. Licensee’s name;

b. Date of initial licensure;

c. Current licensure status; and

d. Any disciplinary action taken against the license.

645—300.3(147) Educational qualifications.

300.3(1) The applicant shall possess the following:

a. A master’s degree from an accredited school, college or university with a major in speech pathology; or

b. A master’s or doctoral degree from an accredited school, college or university with a major in audiology.

300.3(2) Foreign-trained speech pathologists and audiologists will provide an equivalency evaluation at the licensee’s expense of their educational credentials by one of the following: International Education Research Foundation, Inc., Credentials Evaluation Service. The professional curriculum must be equivalent to that stated in these rules.

645—300.4(147) Examination requirements. The examination required by the board will be the Praxis Examination in speech pathology or audiology. This examination is administered by the

Educational Testing Service. The applicant will make arrangements to take the Praxis Examination in speech pathology or audiology and pay all expenses associated with taking the examination. The applicant will have the examination scores sent directly to the board from the Educational Testing Service.

645—300.5(147) Speech therapy and audiology compact. The rules of the speech therapy and audiology compact commission are incorporated by reference to Iowa Code section 147F.1. A speech therapist or audiologist may practice speech therapy or audiology in Iowa without a license issued by the board if the individual has a current compact privilege to practice in Iowa issued by the speech pathology and audiology compact commission.

645—300.6(147) Temporary clinical license. A temporary clinical license for the purpose of obtaining clinical experience as a prerequisite for licensure is valid for one year and may be renewed at the discretion of the board. The license shall be designated “temporary clinical license in speech pathology” or “temporary clinical license in audiology.”

300.6(1) A speech pathology applicant will submit the following to the board:

- a. Evidence of supervision by a speech pathologist with an active, current Iowa license in good standing;
- b. A completed application form and the temporary clinical license fee;
- c. An official copy of the transcript sent directly from the school to the board;
- d. Official verification of completion of not less than 400 hours of supervised clinical training in an accredited college or university; and
- e. Results of the Praxis Examination.

300.6(2) An audiology applicant or an applicant completing a doctoral externship must submit the following to the board:

- a. Evidence of supervision by an audiologist with an active, current Iowa license in good standing. The applicant completing an audiology doctoral externship must show evidence of on-site supervision;
- b. A completed application form and the temporary clinical license fee;
- c. An official copy of the transcript, sent directly from the school to the board;
- d. Official verification of completion of not less than 400 hours of supervised clinical training in an accredited college or university; and
- e. Results of the Praxis Examination.

300.6(3) The plan for supervised clinical experience must be approved by the board before the applicant starts practice and shall:

- a. Include at least nine months of full-time clinical experience, or equivalent;
- b. Include supervision by an Iowa-licensed speech pathologist or audiologist, as appropriate. If the applicant is being supervised by more than one individual, each supervisor must submit a supervised clinical experience plan for approval. If there is a change in the supervised clinical experience plan at any time during the supervised clinical experience, the licensee must contact the board for approval within 30 days of the change;
- c. Be kept by the supervisor for two years from the last date of the clinical experience; and
- d. Include a completed supervised clinical experience report form that shall be submitted to the board of speech pathology and audiology upon the applicant’s successful completion of the nine months of full-time clinical experience. If the applicant was supervised by more than one individual, each supervisor must submit a supervised clinical experience report.

645—300.7(147) Temporary permit.

300.7(1) A nonresident may apply to the board for a temporary permit to practice speech pathology or audiology:

- a. For a period not to exceed three months;
- b. By submitting a letter to support the need for such a permit;

- c. By submitting documents to show that the applicant has substantially the same qualifications as required for licensure in Iowa;
- d. By submitting the documentation prior to the date the applicant intends to begin practice; and
- e. By submitting the temporary permit fee.

300.7(2) The applicant shall receive a final determination from the board regarding the application for a temporary permit.

645—300.8(147) Use of assistants. A licensee will, in the delivery of professional services, utilize assistants only to the extent provided in these rules. Such assistants will use the title provided by these rules.

300.8(1) Duties.

a. *Speech pathology assistant I.* A speech pathology assistant I works with an individual for whom significant improvement is expected within a reasonable amount of time.

b. *Speech pathology assistant II.* A speech pathology assistant II works with an individual for whom maintenance of present level of communication is the goal; or for whom, based on the history and diagnosis, only slow improvement is expected.

c. *Audiology assistant I.* An audiology assistant I is more broadly trained and may be given a variety of duties depending upon the individual's training.

d. *Audiology assistant II.* An audiology assistant II is trained specifically for a single task for screening.

300.8(2) Minimum requirements.

a. A speech pathology assistant I or II or audiology assistant I will satisfy the following minimum requirements:

- (1) Reach the age of majority;
- (2) Complete a high school education, or its equivalent; and
- (3) Complete one of the following:

1. A three-semester-hour (or four-quarter-hour) course in introductory speech and language pathology for speech pathology assistants or in audiology for audiology assistants from an accredited educational institution and 15 hours of instruction in the specific tasks which the assistant will be performing; or

2. A minimum training period comprised of 75 clock hours on instruction and practicum experience.

b. An audiology assistant II will satisfy the following requirements:

- (1) Reach the age of majority.
- (2) Complete a high school education, or its equivalent.
- (3) Complete a minimum of 15 clock hours of instruction and practicum experience in the specific task which the assistant will be performing.

300.8(3) Utilization. Utilization of a speech pathology or audiology assistant requires that a plan be developed by the licensee desiring to utilize that assistant, consisting of the following information:

a. Documentation that the assistant meets minimum requirements;

b. A written plan of the activities and supervision that will be kept by the licensee supervising the assistant. This supervision will include direct on-site observation for a minimum of 20 percent of the assistant's direct patient care for level I speech pathology and level I audiology assistants and 10 percent for level II speech pathology assistants. Level II audiology assistants will be supervised 10 percent of the time. At least half of that time will be direct on-site observation with the other portion provided as time interpreting results;

c. A listing of the facilities where the assistant will be utilized; and

d. A statement, signed by the licensee and the assistant, acknowledging they have read the rules pertaining to assistants.

300.8(4) Maximum number of assistants. A licensee may not utilize more than three assistants unless a plan of supervision is filed and approved by the board.

300.8(5) Supervisor responsibilities. A licensee who utilizes an assistant will have the following responsibilities:

- a.* To be legally responsible for the actions of the assistant in assigned duties with a client;
- b.* To make all professional decisions relating to the management of a client;
- c.* To ensure that the assistant is assigned only those duties and responsibilities for which the assistant has been specifically trained and is qualified to perform;
- d.* To ensure compliance of the assistant(s) under supervision with the provisions of these rules by providing direct observation and supervision of the activities of the assistant; and
- e.* To submit to the board of speech pathology and audiology upon request a copy of the plan of activities and supervision for each assistant and documentation of the dates each assistant was utilized by the licensee.

645—300.9(147) Licensure by endorsement.

300.9(1) The board may issue a license by endorsement to any applicant from the District of Columbia or another state, territory, province or foreign country who has been a licensed speech pathologist or audiologist under the laws of another jurisdiction.

300.9(2) Verification the applicant meets the requirements of rule 645—300.2(147).

300.9(3) A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—300.10(147) License renewal.

300.10(1) The biennial license renewal period for a license to practice speech pathology or audiology will begin on January 1 of an even-numbered year and end on December 31 of the next odd-numbered year. The licensee is responsible for renewing the license prior to its expiration.

300.10(2) An individual who was issued an initial license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later.

300.10(3) A licensee seeking renewal will:

a. Meet the continuing education requirements of rule 645—303.2(147) and the mandatory reporting requirements of subrule 300.10(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

300.10(4) Mandatory reporter training requirements.

a. A licensee who examines, attends, counsels, or treats children and/or dependent adults in the scope of a licensee's professional practice will complete the applicable department of health and human services' training relating to the identification and reporting of child abuse and/or dependent adult abuse. Written documentation of training completion should be maintained for three years. The training is not required if the licensee is engaged in active duty military service or holds a waiver demonstrating a hardship in complying with these training requirements.

b. The board may select licensees for audit of compliance with the requirements in paragraphs 300.11(4)"a" to "b."

300.10(5) A two-year license will be issued after the requirements of the rule are met. If the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

300.10(6) The license certificate and proof of active licensure will be displayed in a conspicuous public place at the primary site of practice.

300.10(7) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 645—subrule 5.20(3). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

300.10(8) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice until the license is reactivated.

645—300.11(17A,147,272C) License reactivation. To apply for reactivation of an inactive license:

300.11(1) Submit a completed reactivation application and pay the nonrefundable application fee.

300.11(2) Provide verification of current competence to practice speech pathology and audiology by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has been most recently licensed and has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 30 hours of continuing education within two years of application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has been most recently licensed and has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 60 hours of continuing education within two years of application for reactivation; or

(3) Verification of passing the Praxis Examination in speech pathology or audiology within the last two years prior to application for reactivation.

645—300.12(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to practicing speech pathology and audiology in this state.

These rules are intended to implement Iowa Code chapters 17A, 147 and 272C.

Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

This proposed rule provides Iowans, licensees, and the licensee’s employers with definitions relevant to the practice of speech pathologists and audiologists and requirements for telehealth appointments. This rule articulates practice standards and provides a scope of practice for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are costs associated with practice standards because there is often time, effort and money associated with compliance. There are costs to the public associated with this requirement in the form of a payment or co-payment for the telehealth visit. Both the licensee and public assume any costs for technology to complete a telehealth visit. The Board of Speech Pathology and Audiology (Board) believes requirements surrounding telehealth visits are important to ensure that the services provided are of the same quality as those same services would be in person. Conversely, telehealth provides Iowans the ability to access care virtually, which also has the potential to save individuals time and money. The Board does not have a mechanism for estimating what these total costs might be to the public and to the licensee.

Costs to the Department are the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, questions from licensees and the public, and administration of Board meetings. An executive officer supports the work of this Board at approximately 0.31 of a

full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees will benefit from this proposed rule. The rule provides standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are approximately 2,251 people licensed by the Board as audiologists or speech pathologists in Iowa. There are very few complaints submitted to this Board. In 2022, there were a total of two complaints submitted, and the Board issued no public discipline. The Board believes that the benefits achieved justify the costs because the proposed rule provides required guardrails for providing this important service to Iowans. If these professions were not regulated, it could mean that lower-skilled individuals would provide this service to Iowans, which would be of concern to the Board. Speech pathology and audiology are regulated in all 50 states.

There are costs associated with this requirement to the public in the form of a payment or co-payment for the telehealth visit. Both the licensee and public assume any costs for technology to complete a telehealth visit. Telehealth appointments usually cost less and lessen the burden on the consumer.

Licensees bear costs in the form of licensing fees.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean lower-skilled individuals providing assessments and necessary services to consumers. An error in assessment could lead to a lack of services or inadequate services provided to a consumer.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, questions from licensees and the public, and administration of Board meetings. An executive officer supports the work of this Board at approximately 0.31 of an FTE position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact from this proposed rule on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are approximately 2,251 people licensed by the Board as audiologists or speech pathologists in Iowa. There are very few complaints submitted to this Board. In 2022, there were a total of two complaints submitted, and the Board issued no public discipline. The Board believes that the benefits achieved justify the costs because the proposed rule provides required guardrails for providing this important service to Iowans. If these professions were not regulated, it could mean that lower-skilled

individuals would provide this service to Iowans, which would be of concern to the Board. Speech pathology and audiology are regulated in all 50 states.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current process. Speech pathology and audiology are medical professions that provide health care to Iowans. Speech pathologists and audiologists require ongoing monitoring for compliance and meeting practice standards. Speech pathologists and audiologists require licensure in all states.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current process. Speech pathology and audiology are medical professions that provide health care to Iowans. Speech pathologists and audiologists require ongoing monitoring for compliance and meeting practice standards. Speech pathologists and audiologists require licensure in all states.

The Department of Inspections, Appeals, and Licensing—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. This rule supports this effort.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current process. Speech pathology and audiology are medical professions that provide health care to Iowans. Speech pathologists and audiologists require ongoing monitoring for compliance and meeting practice standards. If these professions were not regulated, it could mean that lower-skilled individuals would provide this service to Iowans, which would be of concern to the Board. Speech pathology and audiology are regulated in all 50 states.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This proposed rule relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The rule is meant to ensure public safety in terms of practice standards for speech pathologists and audiologists. While some licensees could be running a small business, some also work for large hospitals, clinics and educational institutions. To exempt small businesses from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 301 and adopt the following new chapter in lieu thereof:

CHAPTER 301
PRACTICE OF SPEECH PATHOLOGISTS AND AUDIOLOGISTS

645—301.1(147) Telehealth visits. A licensee may provide speech pathology or audiology services to a patient utilizing a telehealth visit if the services are provided in accordance with the following:

301.1(1) “Telehealth visit” means the provision of speech pathology or audiology services by a licensee to a patient using technology where the licensee and the patient are not at the same physical location during the appointment.

301.1(2) A licensee engaged in a telehealth visit will utilize technology that is secure and HIPAA-compliant and that includes, at a minimum, audio and video equipment that allows two-way real-time interactive communication between the licensee and the patient. A licensee may use non-real-time technologies to prepare for an appointment or to communicate with a patient between appointments.

301.1(3) A licensee engaged in a telehealth visit shall be held to the same standard of care as a licensee who provides in-person speech pathology or audiology services. A licensee will not utilize a telehealth visit if the standard of care for the particular speech pathology or audiology service cannot be met using technology.

301.1(4) Prior to the first telehealth visit, a licensee will obtain informed consent from the patient specific to the services that will be provided in a telehealth visit. At a minimum, the informed consent will specifically inform the patient of the following:

a. The risks and limitations of the use of technology to provide speech pathology or audiology services;

b. The potential for unauthorized access to protected health information; and

c. The potential for disruption of technology during a telehealth visit.

301.1(5) A licensee will only provide speech pathology or audiology services using a telehealth visit in the areas of competence wherein proficiency in providing the particular service using technology has been gained through education, training, and experience.

301.1(6) A licensee will identify in the clinical record when speech pathology or audiology services are provided utilizing a telehealth visit.

301.1(7) Speech pathology or audiology services in Iowa through telephonic, electronic, or other means constitute the practice of speech pathology or audiology and require Iowa licensure, regardless of the location of the speech/language pathologist or audiologist.

This rule is intended to implement Iowa Code chapters 147 and 154F.

Purpose and Summary

These proposed rules set forth continuing education requirements for speech pathologists and audiologists. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rule, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that speech pathologists and audiologists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses, so the Board of Speech Pathology and Audiology (Board) is not privy to exact costs, but research estimates it to be around \$400 to \$650 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that speech pathologists and audiologists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offer these courses, so the Board is not privy to exact costs, but research estimates it to be around \$400 to \$650 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 30 hours of continuing education for these license types every two years. The Board has agreed to reduce hours to 26 for these professions, which is reflected in the proposed repromulgated rules. The proposed reduced hours would result in a cost savings to individual licensees for an estimated total savings of \$53 to \$87 every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.31 full—time equivalent (FTE) position, which includes questions from the public and licensees, such as practice standards, continuing education, and Board meeting administration.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact from these proposed rules on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet these requirements. The Board has recommended a reduction in hours, reflected in the proposed rules for repromulgation. The proposed reduced hours would result in an estimated cost savings to individual licensees of \$53 to \$87 every two years.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and, ultimately, public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives include reducing the amount of continuing education required. A review of surrounding states has shown that other states do successfully manage continuing education programs with fewer hours required per renewal cycle. Currently, Iowa requires 30 hours of continuing education for these license types every two years. Nebraska, Kansas, Missouri and Illinois require 20 hours. South Dakota requires 20 hours for speech pathologists and 24 hours for audiologists. Minnesota requires 30 hours. After discussions with the Board regarding this topic, board members were in agreement to reduce the total number of hours every two years from 30 to 26.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board considered reducing the number of continuing education hours and ultimately went forward recommending reduced hours.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did propose a less restrictive alternative to the current rules, recommending a reduced number of continuing education hours.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules reduce the number of continuing education hours to be more consistent with neighboring states. The cost of continuing education is estimated at \$13 to \$22 per hour. The proposed reduced hours would result in an estimated cost savings to individual licensees of \$53 to \$87 every two years.

Speech pathologist and audiologist licensees practice in a number of settings, including private practice clinics, major hospital systems, residential health care facilities, and educational institutions. The cost of continuing education could be greater for small business owners as they would be responsible for the entire cost, but the proposed reduction in continuing education hours ultimately reduces the burden on the licensee.

Conversely, the entities that provide continuing education may have a negative impact on their revenue due to less demand for continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 303 and adopt the following new chapter in lieu thereof:

CHAPTER 303
CONTINUING EDUCATION FOR SPEECH PATHOLOGISTS
AND AUDIOLOGISTS

645—303.1(147) Definitions. For the purpose of these rules, the following definitions will apply:

“AAA” means the American Association of Audiology.

“Active license” means a license that is current and has not expired.

“Approved program/activity” means a continuing education program/activity meeting the standards set forth in these rules.

“ASHA” means the American Speech-Language Hearing Association.

“Audit” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“Board” means the board of speech pathology and audiology.

“Continuing education” means an approved program/activity that is directly related to the sciences or contemporary clinical practice of audiology, speech-language pathology and speech-language-hearing science and whose content and focus are beyond the basic preparation required for entry into the professions.

“Hour of continuing education” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“Inactive license” means a license that has expired because it was not renewed by the end of the grace period.

“License” means license to practice.

“Licensee” means any person licensed to practice speech pathology or audiology or both in the state of Iowa.

645—303.2(147) Continuing education requirements.

303.2(1) The biennial continuing education compliance period will run concurrently with each two-year period between January 1 of each even-numbered year and December 31 of each odd-numbered year. Each biennium, a person who is licensed to practice as a speech pathology or audiology licensee in this state will be required to complete a minimum of 30 hours of continuing education approved by the board. A person holding licensure in both speech pathology and audiology must meet the requirements for each profession. Continuing education hours do not carry over.

303.2(2) Requirements of new licensees. Those persons licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

303.2(3) Hours of continuing education credit may be obtained by participation in an approved program or activity. Such programs and activities may take place individually or in group settings including in-person conferences, journal readings, teleconferences, videoconferences and online programs or activities as long as such programs and activities meet the criteria specified in the definition of continuing education in rule 645—303.1(147).

303.2(4) No hours of continuing education will be carried over into the next biennium except as stated for second renewal. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

303.2(5) The licensee is responsible for the cost of continuing education.

645—303.3(147,272C) Standards.

303.3(1) General criteria. A continuing education program or activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education program or activity:

a. Meets the definition of continuing education as defined in rule 645—303.1(147);

b. Is conducted by individuals who have specialized education, training and experience in the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;

c. Fulfills state program goals, objectives, or both; and

d. Provides proof of attendance, including:

(1) Date(s), location, course title, presenter(s);

- (2) Number of program contact hours; and
- (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

303.3(2) Specific criteria.

a. Subject matters that integrally relate to the practice of speech pathology or audiology or both that will be considered for approval are:

(1) Basic communication processes. Information (beyond the basic licensure requirements) applicable to the normal development and use of speech, language, and hearing, i.e., anatomic and physiologic bases for the normal development and use of speech, language, and hearing; physical bases and processes of the production and perception of speech, language, and hearing; linguistic and psycholinguistic variables related to normal development and use of speech, language, and hearing; and technological, biomedical, engineering, and instrumentation information which would enable expansion of knowledge in the basic communication processes.

(2) Professional areas. Information pertaining to disorders of speech, language, and hearing, i.e., various types of disorders of communication, their manifestations, classification and causes; evaluation skills, including procedures, techniques, and instrumentation for assessment; and management procedures and principles in habilitation and rehabilitation of communication disorders. The board will accept dysphagia courses provided by qualified instructors.

(3) Related areas. Study pertaining to the understanding of human behavior, both normal and abnormal, as well as services available from related professions which apply to the contemporary practice of speech-language pathology/audiology, e.g., theories of learning and behavior; services available from related professions that also deal with persons who have disorders of communication; information from these professions about the sensory, physical, emotional, social or intellectual states of child or adult; professional ethics; clinical supervision; counseling; and interviewing.

Unacceptable subject matter includes personal development, human relations, collective bargaining, and tours. A licensee may elect to take the Praxis Examination in speech pathology or audiology in lieu of earning continuing education credits. The licensee will have the results of the examination sent to the board by the agency administering the examination.

b. A licensee may present professional programs which meet the criteria in this rule. Two hours of credit will be allowed for each hour of newly developed presentation material. A maximum of 16 hours may be obtained per biennium. A course schedule or brochure must be maintained for audit.

c. A combined total of six hours per biennium may be used for the following activities:

- (1) Government regulations;
- (2) CPR, child abuse and dependent adult abuse; and
- (3) A maximum of two hours may be used for business-related topics.

d. An applicant will provide official transcripts indicating successful completion of academic courses which apply to the field of speech pathology and audiology in order to receive the following continuing education credits:

1 academic semester hour = 15 continuing education hours of credit

1 academic trimester hour = 12 continuing education hours of credit

1 academic quarter hour = 10 continuing education hours of credit

e. Continuing education credit may be earned by participation in continuing education programs and activities which meet the criteria in this rule and which are completed through journal readings, teleconference or videoconference participation, and online program participation. In addition, such programs and activities must include a posttest that the participant must pass in order to receive continuing education credit.

f. Continuing education will be obtained by attending a program that meets the criteria in subrule 303.3(1) including but not limited to continuing education programs offered by AAA and ASHA. Other individuals or groups may offer continuing education programs that meet the criteria in rule 645—303.3(147,272C) through one of the following organizations:

- (1) National, state or local associations of speech pathology and audiology;
- (2) Schools and institutes of speech pathology and audiology;

(3) Universities, colleges or community colleges.

Continuing education must be offered by or approved in advance of delivery by the organizations stated above.

These rules are intended to implement Iowa Code section 272C.2 and chapter 147.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 304
“Discipline for Speech Pathologists and Audiologists”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 154F, 272C, 147, and 17A
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 154F, 272C, 147, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
11:10 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Phone: +1 402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

This proposed rule provides protection to Iowans because it publicly defines disciplinary options when a speech pathologist or audiologist fails to provide the standard of care. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, it can subject a licensee to discipline against a licensee’s license. Iowans have the ability to submit a complaint to the Board of Speech Pathology and Audiology (Board), which can then investigate the allegation. The Board has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Health and Human Services Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the speech pathologist and audiologist professions and are therefore excluded from the general disciplinary chapter. The grounds for discipline required in this rule are related to unethical conduct and are required by Iowa Code chapter 154F.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. The proposed rule in this chapter is related to standard of care, so there would be a cost to the practitioner in taking the needed time to review prevailing standards of care and medical guides. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

Costs to the Department include the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.31 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees relating to practice standards, continuing education, and Board meeting administration. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this proposed rule is to ensure public safety and maintain a high level of care for Iowans. The Board receives a minimal number of complaints and issues a minimal number of disciplinary actions. In 2022, there were two complaints submitted and the Board issued no public discipline. There is a large number of speech pathologists and audiologists in this state, estimated at approximately 2,251 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, speech pathology and audiology are health care professions that are technical in nature and require a high level of skill, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there is only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of interpreting and transliterating requires skill and precision.

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.31 of an FTE. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this proposed rule are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$0 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of speech pathology and audiology requires skill and precision. The Board receives a minimal number of complaints and issues a minimal number of disciplinary actions. In 2022, the Board received two complaints and issued no public discipline. There is a large number of speech pathologists and audiologists in this state, estimated at approximately 2,251 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, speech pathologists and audiologists are health care professions that are technical in nature and require a high level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy Health and Human Services Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the speech pathology and audiology professions and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules. The grounds for discipline required in this proposed rule are related to unethical conduct and are required by Iowa Code chapter 154F.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The specific ground for discipline required in this rule is related to unethical conduct and is required by Iowa Code chapter 154F.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rule relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rule is meant to ensure public safety in terms of practice standards for speech pathologists and audiologists. While some speech pathologists and audiologists are running a small business of their own, they practice in a number of settings, including private practice clinics, major hospital systems, residential health care facilities, and educational institutions. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 304 and adopt the following new chapter in lieu thereof:

CHAPTER 304
DISCIPLINE FOR SPEECH PATHOLOGISTS AND AUDIOLOGISTS

645—304.1(272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 645—13.3(272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in rule 645—Chapter 13.

304.1(1) Violation of the following code of ethics:

- a. Licensees will provide ethical, professional services, conduct research with honesty and compassion, and respect the dignity, worth and rights of those served.
- b. Claims of expected clinical results will be based upon sound evidence and shall accurately convey the probability and degree of expected improvement.
- c. Records will be adequately maintained for the period of time required by applicable state and federal laws.
- d. Persons served professionally or the files of such persons will be used for teaching or research purposes only after obtaining informed consent from those persons or from the legal guardians of such persons.
- e. Information of a personal or professional nature obtained from persons served professionally will be released only to individuals authorized by the persons receiving professional service or to those individuals to whom release is required by law.
- f. Licensees who engage in research will comply with all institutional, state, and federal regulations that address any aspects of research, including those that involve human participants and animals, such as those promulgated in the current Responsible Conduct of Research by the U.S. Office of Research Integrity.
- g. Individuals in administrative or supervisory roles will not require or permit their professional staff to provide services or conduct clinical activities that compromise the staff members' independent and objective professional judgment.
- h. Relationships between professionals and between a professional and a client shall be based on high personal regard and mutual respect without concern for race, religious preference, sex, age, ethnicity, gender identity/gender expression, sexual orientation, national origin, disability, culture, language or dialect.

i. Referral of clients for additional services or evaluation and recommendation of sources for purchasing appliances will be without any consideration for financial or material gain to the licensee making the referral or recommendation for purchase.

j. Licensees who dispense products to persons served professionally will provide clients with freedom of choice for the source of services and products.

k. Failure to comply with current Food and Drug Administration regulations 21 CFR §801.420, “Hearing aid devices; professional and patient labeling,” and 21 CFR §801.421, “Hearing aid devices; conditions for sale.”

l. Licensees will comply with universal newborn and infant hearing screening requirements within Iowa Code section 135.131 and 641—Chapter 3.

304.1(2) Reserved.

This rule is intended to implement Iowa Code chapters 147 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 326
“Licensure of Physician Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 147.76, 148C.3, 148C.5, 272C.3
and 272C.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148C, 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 8, 2023
1:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing (DIAL) and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

This rule sets minimum standards for licensure as a physician assistant in Iowa. Iowa residents, licensees, and employers benefit from the rule as it articulates the processes by which individuals apply for licensure, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualifications and exam requirements. The rule also incorporates provisions directed by House File 424 to determine the terms of collaboration for a physician assistant who enters into independent practice.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no direct costs imposed on the public to comply with the rulemaking; however, there is a cost to the applicant to meet the requirements of the statute and rulemaking. The application fee for a physician assistant license is \$120 and the biannual renewal fee is \$120. Applicants for licensure must successfully pass the certifying examination conducted by the National Commission on Certification of Physician Assistants (NCCPA); the fee for this exam is \$550. These costs are comparable to surrounding states' licensing fees for physician assistants. Nebraska's application fee is \$150 and the biannual renewal fee is \$110; Minnesota's application fee is \$280.50 and the annual renewal fee is \$115. Nebraska and Minnesota both require NCCPA certification examination with a fee of \$550.

The licensee would also have costs related to educational requirements and exam requirements. The Board of Physician Assistants has not identified an exact cost of education for this field because the cost varies depending on the school the licensee chooses to attend to meet those requirements.

Costs incurred by the agency are for staff time needed to manage the full scope of Board activities, which include oversight of practice standards, triaging questions from licensees and the public, and administering Board meetings. An executive officer supports the work of the Board at approximately 0.34 full-time equivalent (FTE) position. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public during their practice. Physician assistants are medical providers who require certain skills and training to effectively help and treat their patients.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide the academic training for physician assistants to obtain their license in the state of Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the exam. Because the cost of education varies depending on the institution the person attends, the Board is unable to put an exact cost on education or exam preparation.

Licensing fees are \$120 for an initial license and \$120 for each biannual renewal period.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs incurred by the agency are for staff time to manage the full scope of Board activities, which include oversight of practice standards, triaging questions from licensees and the public, and administering Board meetings. An executive officer supports the work of the Board at approximately 0.34 FTE position. Staff salaries are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of physician assistants in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost effective alternative to the licensure of physician assistants. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession; however, the Board would be concerned about the public safety of Iowans in that scenario. Doing so would also place Iowa out of line with the rest of the country. The regulation and licensure of physician assistants is consistent across the country.

Due to state government alignment this board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of physician assistants. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession; however, the Board would be concerned about the public safety of Iowans in that scenario. Doing so would also place Iowa out of line with the rest of the country. The regulation and licensure of physician assistants is consistent across the country.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of physician assistants. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession; however, the Board would be concerned about the public safety of Iowans in that scenario. Doing so would also place Iowa out of line with the rest of the country. The regulation and licensure of physician assistants is consistent across the country.

Due to state government alignment, this Board is now part of the DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for physician assistants. While some physician assistants may be running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 326 and adopt the following new chapter in lieu thereof:

PHYSICIAN ASSISTANTS

| | |
|-------------|---|
| CHAPTER 326 | LICENSURE OF PHYSICIAN ASSISTANTS |
| CHAPTER 327 | PRACTICE OF PHYSICIAN ASSISTANTS |
| CHAPTER 328 | CONTINUING EDUCATION FOR PHYSICIAN ASSISTANTS |
| CHAPTER 329 | DISCIPLINE FOR PHYSICIAN ASSISTANTS |

CHAPTER 326 LICENSURE OF PHYSICIAN ASSISTANTS

645—326.1(148C) Definitions.

“*Active license*” means a license that is current and has not expired.

“*Approved program*” means a program for the education of physician assistants which has been accredited by the Accreditation Review Commission on Education for the Physician Assistant, or its successor, or, if accredited prior to 2001, either by the Committee on Allied Health Education and Accreditation or the Commission on Accreditation of Allied Health Education Programs.

“*Board*” means the board of physician assistants.

“*CME*” means continuing medical education.

“*Collaboration*” means consultation with or referral to the appropriate physician or other health care professional by a physician assistant as indicated by the patient’s condition; the education, competencies, and experience of the physician assistant; and the standard of care.

“*Department*” means the department of inspections, appeals, and licensing.

“*Direction*” means authoritative policy or procedural guidance for the accomplishment of a function or activity.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active. In order to renew a license during the grace period, a licensee is required to pay a late fee.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Independent practice*” means the practice of a physician assistant that is organized as a professional corporation under Iowa Code chapter 496C or a professional limited liability company under Iowa Code chapter 489.

“*Licensee*” means a person licensed by the board as a physician assistant to provide medical services.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice as a physician assistant to an applicant who is or has been licensed in another state.

“*Locum tenens*” means the temporary substitution of one licensed physician assistant for another.

“*Mandatory training*” means training on identifying and reporting child abuse or dependent adult abuse required of physician assistants who are mandatory reporters. The full requirements on mandatory reporting of child abuse and the training requirements are found in Iowa Code section 232.69. The full requirements on mandatory reporting of dependent adult abuse and the training requirements are found in Iowa Code section 235B.16.

“*NCCPA*” means the National Commission on Certification of Physician Assistants.

“*Opioid*” means a drug that produces an agonist effect on opioid receptors and is indicated or used for the treatment of pain or opioid use disorder.

“*Physician*” means a person who is currently licensed in Iowa to practice medicine and surgery, osteopathic medicine and surgery, or osteopathy. A physician supervising a physician assistant practicing in a federal facility or under federal authority will not be required to obtain licensure beyond licensure requirements mandated by the federal government for supervising physicians.

“*Physician assistant*” or “*PA*” means a person licensed as a physician assistant by the board.

“*Prescription monitoring program database*” or “*PMP database*” means the Iowa prescription monitoring program database administered by the Iowa board of pharmacy pursuant to Iowa Code chapter 124, subchapter VI, and 657—Chapter 37.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—326.19(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

“*Supervising physician*” means a physician who supervises the medical services provided by the physician assistant engaged in independent practice consistent with the physician assistant’s education, training, or experience.

“*Supervision*” means the availability of a physician for consultation and collaboration on the activities of a physician assistant who is engaged in independent practice and who has not practiced for at least two years under a supervising physician or in collaboration with an appropriate physician or other health care professional. Supervision will not be construed as requiring the personal presence of a supervising physician at the place where such services are rendered except insofar as the personal presence is expressly required by these rules or by Iowa Code chapter 148C. Supervision shall not be construed to apply to any physician assistant who is not engaging in independent practice or who is engaged in independent practice but has at least two years of practice under a supervising physician or in collaboration with an appropriate physician or other health care professional.

“*Supply prescription drugs*” means to deliver to a patient or the patient’s representative a quantity of prescription drugs or devices that are properly packaged and labeled.

645—326.2(148C) Initial licensure.

326.2(1) To apply for a license, the applicant will complete an online application packet and pay the nonrefundable application fee.

a. If licensed in another jurisdiction, the applicant will complete the licensure by endorsement application and submit a license verification document that discloses if disciplinary action was taken in the jurisdiction where the applicant was most recently licensed. The applicant will submit proof of completing 100 CME hours for each biennium since initial certification.

b. A person who is licensed in another jurisdiction who cannot satisfy the requirements of licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

c. An application not completed according to guidelines will not be reviewed by the board.

d. The applicant will request the approved program for the education of physician assistants to submit official copies of the applicant's transcript to the board office. Exception: An applicant who is not a graduate of an approved program but who passed the NCCPA initial certification examination prior to 1986 is exempt from the graduation requirement.

e. The applicant will request the NCCPA, or its successor agency, to send a copy of the initial certification to the board office.

f. In lieu of paragraphs "*d*" and "*e*," an applicant may provide documentation from the Federation Credentials Verification Service (FCVS) of the Federation of State Medical Boards as primary source verification for identity, education and national certification information.

326.2(2) Licensees who were issued their licenses within six months prior to the renewal date will not be required to renew their licenses until the renewal date two years later.

326.2(3) Incomplete applications that have been on file in the board office for more than two years will be:

- a.* Considered invalid and destroyed; or
- b.* Maintained upon written request from the candidate.

645—326.3(148C) Temporary licensure.

326.3(1) A temporary license may be issued for an applicant who has not taken the NCCPA initial certification examination or successor agency examination or is waiting for the results of the examination.

326.3(2) The applicant must comply with subrule 326.2(1), with the exception of paragraphs "*d*" and "*e*."

326.3(3) A temporary license will be valid for one year from the date of issuance.

326.3(4) The temporary license will be renewed only once upon the applicant's showing proof that, through no fault of the applicant, the applicant was unable to take the certification examination recognized by the board. Proof of inability to take the certification examination will be submitted to the board office with written request for renewal of a temporary license, accompanied by the temporary license renewal fee.

326.3(5) If the temporary licensee fails the certification examination, the temporary licensee must cease practice immediately and surrender the temporary license by the next business day.

326.3(6) There is no additional fee for converting temporary licensure to permanent licensure.

326.3(7) The applicant will ensure that certification of completion is sent to the board directly from an approved program for the education of physician assistants. The certification of completion must be signed by a designee from the approved program.

645—326.4(148C) Examination requirements. The applicant for licensure as a physician assistant will successfully pass the certifying examination conducted by the National Commission on Certification of Physician Assistants or a successor examination approved by the board of physician assistants.

645—326.5(148C) Two-year physician supervision.

326.5(1) Eligibility determinants. A physician with an active permanent, special, or temporary Iowa license who is actively engaged in the practice of medicine in Iowa may supervise a physician assistant. A physician is ineligible to supervise a physician assistant for any of the following reasons:

a. The physician is subject to a disciplinary order of the board that restricts or rescinds the physician's authority to supervise or collaborate with a physician assistant. The physician may supervise or collaborate with a physician assistant to the extent that the order allows.

b. The physician does not have a written supervisory agreement in place with each physician assistant who is practicing in an independent practice arrangement, as defined in Iowa Code section 148C.1(5) and supervised by the physician pursuant to rule 645—326.7(148C).

326.5(2) Reserved.

645—326.6(148C) Exemptions from this chapter This chapter does not apply to the following:

326.6(1) A physician working in a federal facility or under federal authority when the provisions of this chapter conflict with federal regulations.

326.6(2) A physician who supervises a physician assistant providing medical care created by an emergency or a state or local disaster pursuant to Iowa Code section 148C.4(2).

326.6(3) A physician assistant who is not practicing in an independent practice arrangement, as defined in Iowa Code section 148C.1(5).

326.6(4) A physician assistant who is practicing in an independent practice arrangement, as defined in Iowa Code section 148C.1(5), who has met the criteria in rules 645—326.7(148C) and 645—326.8(148C), or who has met the criteria in rule 645—326.11(148C).

645—326.7(148C) Supervisory agreements.

326.7(1) A physician assistant who is practicing in an independent practice arrangement, as defined in Iowa Code section 148C.1(5), and who has not previously practiced under a supervising physician or in collaboration with the appropriate physician or other health care professional for a period of at least two years will establish a written supervisory agreement with a physician for a period of at least two years. A sample supervisory agreement form is available from the board. The purpose of the supervisory agreement is to define the nature and extent of the supervisory relationship and the expectations of each party. The supervisory agreement will take into account the physician assistant's demonstrated skills, training and experience, proximity of the supervising physician to the physician assistant, and the nature and scope of the medical practice. The supervising physician will maintain a copy of the supervisory agreement and provide a copy of the agreement to the board upon request. The supervisory agreement will, at a minimum, address the following provisions:

a. Review of requirements. The supervising physician and the physician assistant will review all of the requirements of physician assistant licensure, practice, supervision, and delegation of medical services as set forth in Iowa Code chapter 148C, these rules, and 645—Chapters 326 to 329.

b. Assessment of education, training, skills, and experience. Each supervising physician will assess the education, training, skills, and relevant experience of the physician assistant prior to providing supervision. Each supervising physician and physician assistant will ensure that the other party has the appropriate education, training, skills, and relevant experience necessary to successfully collaborate on patient care delivered by the team. The method for assessing and providing feedback regarding the physician assistant's education, training, skills, and experience will be reflected in the supervisory agreement.

326.7(2) The supervisory agreement between the physician assistant and the physician will address all of the following:

a. The medical services the supervising physician delegates to the physician assistant. The medical services and medical tasks delegated to and provided by the physician assistant will be in compliance with 645—subrule 327.1(1). All delegated medical services will be within the scope of practice of the supervising physician and the physician assistant.

b. Methods for communication between the physician assistant and the physician. Each supervising physician and physician assistant will conduct ongoing discussions and evaluation of the supervisory agreement, including supervision; expectations for both parties; assessment of education, training, skills, and relevant experience; review of delegated services; review of the medical services provided by the physician assistant; and the types of cases and situations when the supervising physician expects to be consulted.

(1) The plan for completing and documenting chart reviews. A licensed physician within the same facility or health care system as the physician assistant will conduct an ongoing review of a representative sample of the physician assistant's patient charts encompassing the scope of the physician assistant's practice. The finding of the review will be discussed with the physician assistant in a manner determined by the practice in consultation with the physician assistant's primary supervising physician.

(2) The expectations and plan for alternate supervision. The supervising physician will ensure an alternate supervising physician is available for a timely consultation and will ensure that the physician assistant is notified of the means by which to reach the alternate supervising physician.

645—326.8(148C) Two-year collaborative practice agreement. For a period of two years following the completion of a minimum of two years of supervised practice pursuant to rule 645—326.7(148C), a physician assistant in an independent practice arrangement, as defined in Iowa Code section 148C.1(5), will establish and maintain a written collaborative practice agreement with a physician.

645—326.9(148C) Eligibility determinants.

326.9(1) A physician with an active permanent, special, or temporary Iowa license who is actively engaged in the practice of medicine in Iowa may hold a collaborative practice agreement with a physician assistant. A physician is ineligible to serve as a collaborating physician under this chapter for any of the following reasons:

a. The physician is subject to a disciplinary order of the board that restricts or rescinds the physician's authority to supervise or collaborate with a physician assistant. The physician may collaborate with a physician assistant to the extent that the order allows.

b. The physician does not have a written collaborative practice agreement in place with each physician assistant who is practicing in an independent practice arrangement, as defined in Iowa Code section 148C.1(5) and engaged in a collaborative practice arrangement pursuant to this chapter.

326.9(2) Reserved.

645—326.10(148C) Collaborative practice agreements.

326.10(1) The purpose of the collaborative practice agreement is to define the nature and extent of the collaborative practice relationship and the expectations of each party. The collaborative practice agreement will take into account the physician assistant's demonstrated skills, training, and experience, proximity of the collaborating physician to the physician assistant, and the nature and scope of the medical practice. The collaborating physician and the physician assistant will maintain a copy of the collaborative practice agreement and provide a copy of the agreement to the board upon request. The collaborative practice agreement will be signed by both the collaborating physician and the physician assistant, and at a minimum address the following provisions:

a. Methods for communication between the physician assistant and the physician. Each collaborating physician and physician assistant will conduct ongoing discussions and evaluation of the collaborative practice agreement, including expectations for both parties; the types of cases and situations when the collaborating physician can expect to be consulted; and the frequency and means of communication between the two parties. For purposes of this paragraph, communication may consist of, but is not limited to, in-person meetings or two-way, interactive communication directly between the collaborating physician and the physician assistant via telephone, secure messaging, electronic mail, or chart review.

b. Expectations and plan for alternate collaboration. The physician assistant will ensure the primary or an alternate collaborating physician is available for a timely consultation regarding patient care and will ensure both the physician assistant and the primary or alternate collaborating physician are aware of the means by which to reach each other for communication.

c. The medical services provided by the physician assistant. The medical services and medical tasks provided by the physician assistant will comply with 645—subrule 327.1(1). All medical services will be within the scope of practice of the collaborating physician and the physician assistant.

326.10(2) Reserved.

645—326.11(148C) Out-of-state licensees.

326.11(1) A physician assistant who has been previously licensed and practiced in another state and who obtains a license to practice in Iowa will be subject to the following requirements, if the physician assistant enters into an independent practice arrangement, as defined in Iowa Code section 148C.1(5).

a. If the physician assistant has not previously been supervised by a physician for at least two years, the physician assistant will be supervised by a physician for a minimum of two years in compliance with rule 645—326.7(148C) and will then establish a collaborative practice agreement for a minimum of two years in compliance with rule 645—326.8(148C).

b. If the physician assistant has previously been supervised by a physician for at least two years, the physician assistant will establish a collaborative practice agreement for a minimum of two years in compliance with rule 645—326.10(148C).

c. If the physician assistant has previously been supervised by a physician for at least four years, the physician assistant will practice in compliance with Iowa Code chapter 148C.

326.11(2) Reserved.

645—326.12(148C) After two-year collaborative practice agreement. A physician assistant who enters into an independent practice arrangement, as defined in Iowa Code section 148C.1(5), who has met the criteria in rules 645—326.7(148C) and 645—326.8(148C) or who has met the criteria in rule 645—326.11(148C), will practice in compliance with Iowa Code chapter 148C.

645—326.13(148C) Collaboration with all members of the care team. Pursuant to Iowa Code section 148C.4(3), the degree of collaboration between a physician assistant who has met the criteria in subrule 326.5(1) and the appropriate member of a health care team will be determined at the practice level, and may involve decisions made by the medical group, hospital service, supervising physician, or employer of the physician assistant, or the credentialing and privileging system of a licensed health care facility.

645—326.14(148C) License renewal.

326.14(1) The license renewal period for a license to practice will begin on October 1 and end on September 30 two years later. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

326.14(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later.

326.14(3) A licensee applying for renewal will:

a. Meet the continuing education requirements of rule 645—328.2(148C) and the mandatory reporting requirements of subrule 326.9(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Complete the online renewal application, pay the fee, and attach a certificate of completing continuing education hours before the expiration date.

326.14(4) Mandatory reporter training requirements.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities, examines, attends, counsels or treats children in Iowa will indicate on the renewal application completion of training in child abuse identification and reporting as required by Iowa Code section 232.69(3) "b" in the previous three years, or condition(s) for waiver of this requirement as identified in paragraph 326.9(4) "e."

b. A licensee who, in the course of employment responsibilities, examines, attends, counsels or treats adults in Iowa will indicate on the renewal application completion of training in dependent adult abuse identification and reporting as required by Iowa Code section 235B.16(5) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph 326.9(4) "e."

c. The course(s) will be the curriculum provided by the Iowa department of health and human services.

d. The licensee will maintain written documentation for three years after mandatory training as identified in paragraphs 326.9(4) "a" to "c," including program date(s), content, duration, and proof of participation.

e. The requirement for mandatory training for identifying and reporting child and dependent adult abuse will be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements.

f. The board may select licensees for audit of compliance with the requirements in paragraphs 326.9(4) “a” to “e.”

326.14(5) Upon receiving the information required by this rule and the required fee, a two-year license will be issued. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

326.14(6) A person licensed to practice as a physician assistant will keep the license certificate and renewal displayed in a conspicuous public place at the primary site of practice.

326.14(7) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 645—subrule 5.14(4). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

326.14(8) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a physician assistant in Iowa until the license is reactivated. A licensee who practices as a physician assistant in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—326.15(148C,88GA,ch1020) Use of title. A physician assistant licensed under Iowa Code chapter 148C may use the words “physician assistant” after the person’s name or signify the same by the use of the letters “PA.” A person who meets the qualifications for licensure under Iowa Code chapter 148C but does not possess a current license may use the title “PA” or “physician assistant” but may not act or practice as a physician assistant unless licensed under Iowa Code chapter 148C.

645—326.16(148C) Address change. The physician assistant will notify the board of any change in permanent address within 30 days of its occurrence.

645—326.17(148C) Student physician assistant.

326.17(1) Any person who is enrolled as a student in an approved program will comply with the rules set forth in this chapter. A student is exempted from licensure requirements.

326.17(2) Notwithstanding any other provisions of these rules, a student may perform medical services when they are rendered within the scope of an approved program.

645—326.18(148C) Recognition of an approved program. The board shall recognize a program for education and training of physician assistants if it is accredited by the Accreditation Review Commission on Education for the Physician Assistant or its successor, or, if accredited prior to 2001, either by the Committee on Allied Health Education and Accreditation or the Commission on Accreditation of Allied Health Education Programs.

This rule is intended to implement Iowa Code section 148C.2.

645—326.19(17A,147,272C) Requirements for reactivation. To apply for reactivation, a licensee will:

326.19(1) Complete an online reactivation application and pay the nonrefundable reactivation fee.

326.19(2) Provide verification of current competence to practice as a physician assistant by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Send verification. If licensed in another jurisdiction, submit a license verification document that discloses if disciplinary action was taken in the jurisdiction where the applicant was most recently licensed.

(2) Submit proof. Submit proof of completing 100 hours of continuing education within two years of application for reactivation or NCCPA or successor agency certification.

b. If the license has been on inactive status for more than five years, an applicant must:

(1) Send verification. Submit a license verification document that discloses if disciplinary action was taken against applicant from every jurisdiction in which the applicant has been licensed.

(2) Verification of completing 200 hours of continuing education within two years of application for reactivation, of which at least 40 percent of the hours completed will be in Category I, or NCCPA or successor agency certification.

645—326.20(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—326.19(17A,147,272C) prior to practicing as a physician assistant in this state.

645—326.21(148C) Employer criteria. Nothing in these administrative rules shall prevent employers from establishing additional employment criteria for the supervision and collaboration of a physician assistant.

These rules are intended to implement Iowa Code chapters 17A, 147, 148C and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 327
“Practice of Physician Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 147.76, 148C.3, 148C.5, 272C.3 and 272C.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148C and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 8, 2023
1:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

This proposed rulemaking articulates the medical scope of practice that a physician assistant can provide based on the physician assistant’s education, training, and experience. The rulemaking provides Iowans, licensees, and their employers with more information on the accepted minimum standards for the practice of this profession in this state.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are costs to the licensee associated with meeting practice standards. These standards include minimum prerequisite training criteria for the provision of services, minimum practice and prescribing standards that a licensee must meet, and minimum standards for the provision of telemedicine services.

The Board of Physician Assistants does not have a mechanism for estimating what these total costs might be to the public and to the licensee.

Costs to the agency are for the staff time needed to manage the full scope of Board activities, which include oversight of practice standards, questions from licensees and the public, administration of Board meetings, etc. An executive officer supports the work of this Board at approximately 0.34 full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this rulemaking. The rulemaking provides standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public is benefited by knowing that it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important service to Iowans. Since 2021, there have been just 48 complaints filed among the 2,165 licensees in the state. This relatively low level of complaints demonstrates that the rules are clearly articulating minimum acceptable standards for practice and helping licensees to establish practice arrangements that align with Iowa law.

There are costs to the licensee associated in meeting practice standards. These standards include minimum prerequisite training criteria for the provision of services, minimum practice and prescribing standards that a licensee must meet, and minimum standards for the provision of telemedicine services. The Board does not have a mechanism for estimating what these total costs might be to the public and to the licensee.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. The cost of inaction would be increasing the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage the full scope of Board activities, which include oversight of practice standards, questions from licensees and the public, administration of Board meetings, etc. An executive officer supports the work of this Board at approximately 0.34 FTE position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing this important service to Iowans. Since 2021, there have been just 48 complaints

filed among the 2,165 licensees in the state. This relatively low level of complaints demonstrates that the rules are clearly articulating minimum acceptable standards for practice and helping licensees to establish practice arrangements that align with Iowa law. Licensure of physician assistants is the supported model for regulation in all 50 states.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Licensing is the highest form of regulation. Licensure of physician assistants is the supported model for regulation in all 50 states. The standards for practice articulated in these rules could be reduced; however, the Board would have concerns about the potential for harm to Iowa patients. 2023 Iowa Acts, House File 424, makes significant changes to the permissible practice arrangements for physician assistants in Iowa. This rulemaking provides the foundational practice expectations that will help to guide licensees as they move into these new arrangements.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Licensing is the highest form of regulation. Licensure of physician assistants is the supported model for regulation in all 50 states. The standards for practice articulated in these rules could be reduced; however, the Board would have concerns about the potential for harm to Iowa patients. House File 424 makes significant changes to the permissible practice arrangements for physician assistants in Iowa. This rulemaking provides the foundational practice expectations that will help to guide licensees as they move into these new arrangements.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Licensing is the highest form of regulation. Licensure of physician assistants is the supported model for regulation in all 50 states. The standards for practice articulated in these rules could be reduced; however, the Board would have concerns about the potential for harm to Iowa patients. House File 424 makes significant changes to the permissible practice arrangements for physician assistants in Iowa. This rulemaking provides the foundational practice expectations that will help to guide licensees as they move into these new arrangements.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for physician assistants. While some physician assistants may be running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who

sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 327 and adopt the following **new** chapter in lieu thereof:

CHAPTER 327
PRACTICE OF PHYSICIAN ASSISTANTS

645—327.1(148C,88GA,ch1020) Duties. The medical services to be provided by the physician assistant are those for which the physician assistant has been prepared by education, training, or experience and is competent to perform. The ultimate role of the physician assistant cannot be rigidly defined because of the variations in practice requirements due to geographic, economic, and sociologic factors. The high degree of responsibility a physician assistant may assume requires that, at the conclusion of the formal education, the physician assistant possess the knowledge, skills, and abilities necessary to provide those services appropriate to the practice setting. The physician assistant's services may be utilized in any clinical settings including but not limited to the office, the ambulatory clinic, the hospital, the patient's home, extended care facilities, and nursing homes.

327.1(1) A physician assistant's duties relating to prescribing, dispensing, ordering, administering, and procuring drugs and medical devices include all of the following:

a. Administering any drug.

b. Prescribing, dispensing, ordering, administering, and procuring drugs and medical devices. A physician assistant may plan and initiate a therapeutic regimen that includes ordering and prescribing nonpharmacological interventions including but not limited to durable medical equipment, nutrition, blood and blood products; and diagnostic support services including but not limited to home health care, hospice, and physical and occupational therapy. The prescribing and dispensing of drugs may include Schedule II through V substances, as described in Iowa Code chapter 124, and all legend drugs.

c. A physician assistant may prescribe drugs and medical devices subject to all of the following conditions:

(1) The physician assistant will have passed the national certifying examination conducted by the National Commission on the Certification of Physician Assistants or its successor examination approved by the board. Physician assistants with temporary licenses may order drugs and medical devices only with the prior approval and direction of a supervising physician or another collaborating health care professional. Prior approval may include discussion of the specific medical problems with a supervising physician or another collaborating health care professional prior to the patient being seen by the physician assistant.

(2) The physician assistant must comply with appropriate federal and state regulations.

(3) If a physician assistant prescribes or dispenses controlled substances, the physician assistant must register with the federal Drug Enforcement Administration.

(4) The physician assistant may prescribe or order Schedule II controlled substances which are listed as depressants in Iowa Code chapter 124.

(5) A physician assistant who is practicing under a supervising physician pursuant to rule 645—326.7(148C) will not prescribe substances that the physician assistant's supervising physician does not have the authority to prescribe, except as allowed by paragraph 327.1(2) "n."

(6) The physician assistant may prescribe, supply, and administer drugs and medical devices in all settings, including but not limited to hospitals, health care facilities, health care institutions, clinics, offices, health maintenance organizations, and outpatient and emergency care settings.

(7) A physician assistant may request, receive, and supply sample drugs and medical devices.

(8) The board of physician assistants will be the only board to regulate the practice of physician assistants relating to prescribing and supplying prescription drugs, controlled substances, and medical devices.

d. Supplying properly packaged and labeled prescription drugs, controlled substances, or medical devices when pharmacist services are not reasonably available or when it is in the best interest of the patient.

(1) If the physician assistant is the prescriber of the medications supplied pursuant to this paragraph, the medications supplied will be for the purpose of accommodating the patient and will not be sold for more than the cost of the drug and reasonable overhead costs as they relate to supplying prescription drugs to the patient and not at a profit to the physician or physician assistant.

(2) A nurse or staff assistant may assist the physician assistant in supplying medications.

327.1(2) The medical services to be provided by the physician assistant also include, but are not limited to, the following:

a. The initial approach to a patient of any age group in any setting to elicit a medical history and perform a physical examination.

b. Assessment, diagnosis and treatment of medical or surgical problems and recording the findings.

c. Order, interpret, or perform laboratory tests, X-rays or other medical procedures or studies.

d. Performance of therapeutic procedures such as injections, immunizations, suturing and care of wounds, removal of foreign bodies, ear and eye irrigation and other clinical procedures.

e. Performance of office surgical procedures including, but not limited to, skin biopsy, mole or wart removal, toenail removal, removal of a foreign body, arthrocentesis, incision and drainage of abscesses.

f. Assisting in surgery.

g. Prenatal and postnatal care and assisting a physician in obstetrical care.

h. Care of orthopedic problems.

i. Performing and screening the results of special medical examinations including, but not limited to, electrocardiogram or Holter monitoring, radiography, audiometric and vision screening, tonometry, and pulmonary function screening tests.

j. Instruction and counseling of patients regarding physical and mental health on matters such as diets, disease, therapy, and normal growth and development.

k. Function in the hospital setting by performing medical histories and physical examinations, making patient rounds, recording patient progress notes and other appropriate medical records, assisting in surgery, performing or assisting with medical procedures, providing emergency medical services and issuing, transmitting and executing patient care orders as delegated by the supervising physician.

l. Providing services to patients requiring continuing care (i.e., home, nursing home, extended care facilities).

m. Referring patients to specialty or subspecialty physicians, medical facilities or social agencies as indicated by the patients' problems.

n. Immediate evaluation, treatment and institution of procedures essential to providing an appropriate response to emergency medical problems.

o. Order drugs and supplies in the office, and assist in keeping records and in the upkeep of equipment.

p. Admit patients to a hospital or health care facility.

q. Order diets, physical therapy, inhalation therapy, or other rehabilitative services as indicated by the patient's problems.

r. At the request of the peace officer, withdraw a specimen of blood from a patient for the purpose of determining the alcohol concentration or the presence of drugs.

s. Direct medical personnel, health professionals, and others involved in caring for patients and the execution of patient care.

t. Authenticate medical forms by signing the form.

u. Perform other duties appropriate to a physician assistant's practice.

v. Health care providers will consider the instructions of a physician assistant to be authoritative.

327.1(3) Emergency medicine duties.

- a. A physician assistant may be a member of the staff of an ambulance or rescue squad pursuant to Iowa Code chapter 147A.
- b. A physician assistant will document skills, training and education equivalent to that required of a certified advanced emergency medical technician or a paramedic.
- c. A physician assistant must apply for approval of advanced care training equivalency on forms supplied by the board of physician assistants.
- d. Exceptions to this subrule include:
 - (1) A physician assistant who accompanies and is responsible for a transfer patient;
 - (2) A physician assistant who serves on a basic ambulance or rescue squad service; and
 - (3) A physician assistant who renders aid within the physician assistant's skills during an emergency.

645—327.2(148C) Prohibition. No physician assistant engaged in independent practice, as defined in Iowa Code section 148C.1(5), will be permitted to measure the visual power and visual efficiency of the human eye, as distinguished from routine visual screening, except in the personal presence of a supervising physician at the place where these services are rendered.

645—327.3(147,88GA,ch1020) Identification as a physician assistant. The physician assistant will be identified as a physician assistant to patients and to the public, regardless of the physician assistant's educational degree.

645—327.4(147) Prescription requirements.

327.4(1) Each written outpatient prescription drug order issued by a physician assistant will contain the following:

- a. The date of issuance.
- b. The name and address of the patient for whom the drug is prescribed.
- c. The name, strength, and quantity of the drug, medicine, or device prescribed and directions for use.
- d. The physician assistant's name and the practice address.
- e. The signature of the physician assistant followed by the initials "PA."
- f. The Drug Enforcement Administration (DEA) number of the physician assistant if the prescription is for a controlled substance.

327.4(2) Each oral prescription drug order issued by a physician assistant will include the same information required for a written prescription, except for the written signature of the physician assistant and the physician assistant's practice address.

327.4(3) Prior to prescribing an opioid, a physician assistant will review the patient's information contained in the prescription monitoring program database, unless the patient is receiving inpatient hospice care or long-term residential facility patient care.

327.4(4) Beginning January 1, 2020, every prescription issued for a prescription drug will be transmitted electronically unless exempted pursuant to Iowa Code section 124.308 or 155A.27. Beginning January 1, 2020, a licensee who fails to comply with the electronic prescription mandate may be subject to a nondisciplinary administrative penalty of \$250 per violation, up to a maximum of \$5,000 per calendar year.

645—327.5(147) Supplying—requirements for containers, labeling, and records.

327.5(1) Containers. A prescription drug will be supplied in a container which meets the requirements of the Poison Prevention Packaging Act of 1970, 15 U.S.C. §§1471-1476 (1976), which relate to childproof closure, unless otherwise requested by the patient. The containers must also meet the requirements of Section 502G of the Federal Food, Drug and Cosmetic Act, 21 U.S.C. §§301 et seq. (1976), which pertain to light resistance and moisture resistance needs of the drug supplied.

327.5(2) Labeling. A label bearing the following information will be affixed to a container in which a prescription drug is supplied:

- a. The name and practice address of the supervising physician and physician assistant.
- b. The name of the patient.
- c. The date supplied.
- d. The directions for administering the prescription drug and any cautionary statement deemed appropriate by the physician assistant.
- e. The name, strength and quantity of the prescription drug in the container.
- f. When supplying Schedule II, III, or IV controlled substances, the federal transfer warning statement must appear on the label as follows: "Caution: Federal law prohibits the transfer of this drug to any person other than the patient for whom it was prescribed."

327.5(3) Samples. Prescription sample drugs will be provided without additional charge to the patient. Prescription sample drugs supplied in the original container or package will be deemed to conform to labeling and packaging requirements.

327.5(4) Records. A record of prescription drugs supplied by the physician assistant to a patient will be kept which contains the label information required by paragraphs 327.7(2) "b" to "e." Noting such information on the patient's chart or record is sufficient.

645—327.6(147,148C,272C) Standards of practice—telemedicine. This rule establishes standards of practice for the delegated provision of telemedicine services.

327.6(1) Telemedicine, generally.

a. Technological advances have made it possible for licensees in one location to provide medical care to patients in another location with or without an intervening health care provider.

b. Telemedicine is a useful tool that, if applied appropriately, can provide important benefits to patients, including increased access to health care, expanded utilization of specialty expertise, rapid availability of patient records, and potential cost savings.

c. Licensees using telemedicine will be held to the same standards of care and professional ethics as licensees using traditional in-person medical care.

d. Failure to conform to the appropriate standards of care or professional ethics while using telemedicine may subject the licensee to potential discipline by the board.

327.6(2) Definitions. For the purposes of this rule:

"*Asynchronous store-and-forward transmission*" means the collection of a patient's relevant health information and the subsequent transmission of the data from an originating site to a health care provider at a distant site without the presence of the patient.

"*Board*" means the Iowa board of physician assistants.

"*In-person encounter*" means that the physician assistant and the patient are in the physical presence of each other and are in the same physical location during the physician assistant-patient encounter.

"*Licensee*" means a physician assistant licensed by the board.

"*Telemedicine*" means the practice of medicine using electronic audiovisual communications and information technologies or other means, including interactive audio with asynchronous store-and-forward transmission, between a licensee in one location and a patient in another location with or without an intervening health care provider. Telemedicine includes asynchronous store-and-forward technologies, remote monitoring, and real-time interactive services, including teleradiology and telepathology. Telemedicine, for the purposes of this rule establishing standards of practice, does not include the provision of medical services only through an audio-only telephone, email messages, facsimile transmissions, or U.S. mail or other parcel service, or any combination thereof.

"*Telemedicine technologies*" means technologies and devices enabling secure electronic communications and information exchanges between a licensee in one location and a patient in another location with or without an intervening health care provider.

327.6(3) Practice guidelines. A licensee who uses telemedicine will utilize evidence-based telemedicine practice guidelines and standards of practice, to the degree they are available, to ensure patient safety, quality of care, and positive outcomes. The board acknowledges that some nationally recognized medical specialty organizations have established comprehensive telemedicine practice

guidelines that address the clinical and technological aspects of telemedicine for many medical specialties.

327.6(4) *License required.* A physician assistant who uses telemedicine in the diagnosis and treatment of a patient located in Iowa will hold an active Iowa physician assistant license consistent with state and federal laws. Nothing in this rule will be construed to supersede the exceptions to licensure contained in rule 645—326.17(148C).

327.6(5) *Standards of care and professional ethics.* A licensee who uses telemedicine will be held to the same standards of care and professional ethics as a licensee using traditional in-person encounters with patients. Failure to conform to the appropriate standards of care or professional ethics while using telemedicine may be a violation of the laws and rules governing the practice of medicine and may subject the licensee to potential discipline by the board.

327.6(6) *Scope of practice.* A licensee who uses telemedicine will ensure that the services provided are consistent with the licensee's scope of practice, including the licensee's education, training, experience, ability, licensure, and certification.

327.6(7) *Identification of patient and physician assistant.* A licensee who uses telemedicine will verify the identity of the patient and ensure that the patient has the ability to verify the identity, licensure status, certification, and credentials of all health care providers who provide telemedicine services prior to the provision of care.

327.6(8) *Physician assistant-patient relationship.*

a. A licensee who uses telemedicine will establish a valid physician assistant-patient relationship with the person who receives telemedicine services. The physician assistant-patient relationship begins when:

- (1) The person with a health-related matter seeks assistance from a licensee;
- (2) The licensee agrees to undertake diagnosis and treatment of the person; and
- (3) The person agrees to be treated by the licensee whether or not there has been an in-person encounter between the physician assistant and the person.

b. A valid physician assistant-patient relationship may be established by:

- (1) In-person encounter. Through an in-person medical interview and physical examination where the standard of care would require an in-person encounter;
- (2) Consultation with another licensee. Through consultation with another licensee (or other health care provider) who has an established relationship with the patient and who agrees to participate in, or supervise, the patient's care; or
- (3) Telemedicine encounter. Through telemedicine, if the standard of care does not require an in-person encounter, and in accordance with evidence-based standards of practice and telemedicine practice guidelines that address the clinical and technological aspects of telemedicine.

327.6(9) *Medical history and physical examination.* Generally, a licensee will perform an in-person medical interview and physical examination for each patient. However, the medical interview and physical examination may not be in person if the technology utilized in a telemedicine encounter is sufficient to establish an informed diagnosis as though the medical interview and physical examination had been performed in person. Prior to providing treatment, including issuing prescriptions, electronically or otherwise, a licensee who uses telemedicine will interview the patient to collect the relevant medical history and perform a physical examination, when medically necessary, sufficient for the diagnosis and treatment of the patient. An Internet questionnaire that is a static set of questions provided to the patient, to which the patient responds with a static set of answers, in contrast to an adaptive, interactive and responsive online interview, does not constitute an acceptable medical interview and physical examination for the provision of treatment, including issuance of prescriptions, electronically or otherwise, by a licensee.

327.6(10) *Non-physician assistant health care providers.* If a licensee who uses telemedicine relies upon or delegates the provision of telemedicine services to a non-physician assistant health care provider, the licensee will:

a. Ensure that systems are in place to ensure that the non-physician assistant health care provider is qualified and trained to provide that service within the scope of the non-physician assistant health care provider's practice;

b. Ensure that the licensee is available in person or electronically to consult with the non-physician assistant health care provider, particularly in the case of injury or an emergency.

327.6(11) *Informed consent.* A licensee who uses telemedicine will ensure that the patient provides appropriate informed consent for the medical services provided, including consent for the use of telemedicine to diagnose and treat the patient, and that such informed consent is timely documented in the patient's medical record.

327.6(12) *Coordination of care.* A licensee who uses telemedicine will, when medically appropriate, identify the medical home or treating clinician(s) for the patient, when available, where in-person services can be delivered in coordination with the telemedicine services. The licensee will provide a copy of the medical record to the patient's medical home or treating clinician(s).

327.6(13) *Follow-up care.* A licensee who uses telemedicine will have access to, or adequate knowledge of, the nature and availability of local medical resources to provide appropriate follow-up care to the patient following a telemedicine encounter.

327.6(14) *Emergency services.* A licensee who uses telemedicine will refer a patient to an acute care facility or an emergency department when referral is necessary for the safety of the patient or in the case of an emergency.

327.6(15) *Medical records.* A licensee who uses telemedicine will ensure that complete, accurate and timely medical records are maintained for the patient when appropriate, including all patient-related electronic communications, records of past care, physician assistant-patient communications, laboratory and test results, evaluations and consultations, prescriptions, and instructions obtained or produced in connection with the use of telemedicine technologies. The licensee will note in the patient's record when telemedicine is used to provide diagnosis and treatment. The licensee will ensure that the patient or another licensee designated by the patient has timely access to all information obtained during the telemedicine encounter. The licensee will ensure that the patient receives, upon request, a summary of each telemedicine encounter in a timely manner.

327.6(16) *Privacy and security.* A licensee who uses telemedicine will ensure that all telemedicine encounters comply with the privacy and security measures of the Health Insurance Portability and Accountability Act (HIPAA) to ensure that all patient communications and records are secure and remain confidential.

a. Written protocols will be established that address the following:

- (1) Privacy;
- (2) Health care personnel who will process messages;
- (3) Hours of operation;
- (4) Types of transactions that will be permitted electronically;
- (5) Required patient information to be included in the communication, including patient name, identification number and type of transaction;
- (6) Archiving and retrieval; and
- (7) Quality oversight mechanisms.

b. The written protocols should be periodically evaluated for currency and should be maintained in an accessible and readily available manner for review. The written protocols will include sufficient privacy and security measures to ensure the confidentiality and integrity of patient-identifiable information, including password protection, encryption or other reliable authentication techniques.

327.6(17) *Technology and equipment.* Broad categories of telemedicine technologies currently exist, including asynchronous store-and-forward technologies, remote monitoring, and real-time interactive services. While some telemedicine programs are multispecialty in nature, others are tailored to specific diseases and medical specialties. The technology and equipment utilized for telemedicine will comply with the following requirements:

a. The technology and equipment utilized in the provision of telemedicine services must comply with all relevant safety laws, rules, regulations, and codes for technology and technical safety for devices that interact with patients or are integral to diagnostic capabilities;

b. The technology and equipment utilized in the provision of telemedicine services must be of sufficient quality, size, resolution and clarity such that the licensee can safely and effectively provide the telemedicine services; and

c. The technology and equipment utilized in the provision of telemedicine services must be compliant with the HIPAA.

327.6(18) Disclosure and functionality of telemedicine services. A licensee who uses telemedicine will ensure that the following information is clearly disclosed to the patient:

a. Types of services provided;

b. Contact information for the licensee;

c. Identity, licensure, certification, credentials, and qualifications of all health care providers who are providing the telemedicine services;

d. Limitations in the drugs and services that can be provided via telemedicine;

e. Fees for services, cost-sharing responsibilities, and how payment is to be made, if these differ from an in-person encounter;

f. Financial interests, other than fees charged, in any information, products, or services provided by the licensee(s);

g. Appropriate uses and limitations of the technologies, including in emergency situations;

h. Uses of and response times for emails, electronic messages and other communications transmitted via telemedicine technologies;

i. To whom patient health information may be disclosed and for what purpose;

j. Rights of patients with respect to patient health information; and

k. Information collected and passive tracking mechanisms utilized.

327.6(19) Patient access and feedback. A licensee who uses telemedicine will ensure that the patient has easy access to a mechanism for the following purposes:

a. To access, supplement and amend patient-provided personal health information;

b. To provide feedback regarding the quality of the telemedicine services provided; and

c. To register complaints. The mechanism will include information regarding the filing of complaints with the board.

327.6(20) Financial interests. Advertising or promotion of goods or products from which the licensee receives direct remuneration, benefit or incentives (other than the fees for the medical services) is prohibited to the extent that such activities are prohibited by state or federal law. Notwithstanding such prohibition, Internet services may provide links to general health information sites to enhance education; however, the licensee should not benefit financially from providing such links or from the services or products marketed by such links. When providing links to other sites, licensees should be aware of the implied endorsement of the information, services or products offered from such sites. The maintenance of a preferred relationship with any pharmacy is prohibited. Licensees will not transmit prescriptions to a specific pharmacy, or recommend a pharmacy, in exchange for any type of consideration or benefit from the pharmacy.

327.6(21) Circumstances where the standard of care may not require a licensee to personally interview or examine a patient. Under the following circumstances, whether or not such circumstances involve the use of telemedicine, a licensee may treat a patient who has not been personally interviewed, examined and diagnosed by the licensee:

a. Situations in which the licensee prescribes medications on a short-term basis for a new patient and has scheduled or is in the process of scheduling an appointment to personally examine the patient;

b. For institutional settings, including writing initial admission orders for a newly hospitalized patient;

c. Call situations in which a licensee is taking calls for another health care provider who has an established provider-patient relationship with the patient;

- d.* Cross-coverage situations in which a licensee is taking calls for another health care provider who has an established provider-patient relationship with the patient;
- e.* Emergency situations in which the life or health of the patient is in imminent danger;
- f.* Emergency situations that constitute an immediate threat to the public health including, but not limited to, empiric treatment or prophylaxis to prevent or control an infectious disease outbreak;
- g.* Situations in which the licensee has diagnosed a sexually transmitted disease in a patient and the licensee prescribes or dispenses antibiotics to the patient's named sexual partner(s) for the treatment of the sexually transmitted disease as recommended by the U.S. Centers for Disease Control and Prevention; and
- h.* For licensed or certified nursing facilities, residential care facilities, intermediate care facilities, assisted living facilities, hospice settings, and correctional facilities.

327.6(22) *Prescribing based solely on an Internet request, Internet questionnaire or a telephonic evaluation—prohibited.* Prescribing to a patient based solely on an Internet request or Internet questionnaire (i.e., a static questionnaire provided to a patient, to which the patient responds with a static set of answers, in contrast to an adaptive, interactive and responsive online interview) is prohibited. Absent a valid physician assistant-patient relationship, a licensee's prescribing to a patient based solely on a telephonic evaluation is prohibited, with the exception of the circumstances described in subrule 327.9(21).

These rules are intended to implement Iowa Code sections 147.10 and 147.107 and chapters 148C and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 328
“Continuing Education for Physician Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 147.76, 148C.3, 148C.5, 272C.3 and 272C.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148C and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 8, 2023
1:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing (DIAL) and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

This proposed rulemaking sets forth continuing education requirements for physician assistants. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rulemaking, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that physician assistants maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no direct costs to the public. There is a direct cost to the licensee, who must pay for the continuing education required. Through membership, the National Commission on Certification for

Physician Assistants (NCCPA) offers continuing education to licensees for \$180 over every two-year cycle. Licensees can obtain continuing education through other providers. Costs for continuing education can range anywhere from \$180 to \$400 based on the course. Some employers will absorb the cost of licensees' continuing education.

Costs to the agency are for the staff time needed to manage Board activities, which include continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.34 full-time equivalent (FTE) position, which includes answering questions from the public and licensees related to practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that physician assistants maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offers these courses. Through membership, the NCCPA offers continuing medical education (CME) to licensees for \$180 over every two-year cycle. Licensees can obtain CME through other providers. Costs for continuing education can range anywhere from \$180 to \$400 based on the course. Some employers will absorb the cost of licensees' continuing education.

Currently, Iowa requires 100 hours of continuing education for these license types every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage Board activities, which include continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.34 FTE position, which includes answering questions from the public and licensees related to practice standards, continuing education, Board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. This rule has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce or eliminate the cost to the licensee to meet this requirement. This would also mean a loss of revenue for the private industry organizations that offer continuing education programs.

Staff will hold conversations with Board members to inquire if the Board would recommend lowering the continuing education requirements.

The Board historically believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. Iowa requires 100 hours of continuing education every two years, of which 50 are to be designated as Category I by the American Academy of Physician Assistants, the American Medical Association, the American Osteopathic Association Council on Continuing Medical Education, the American Academy of Family Physicians or other organizations accredited by the Accreditation Council on Continuing Medical Education (ACCME). The remaining 50 hours can be designated either Category I or Category II credit as accepted by the NCCPA. Licensees who have prescribed opioids to a patient during the renewal cycle are required to complete a minimum of two hours of CME on guidelines for prescribing opioids.

For physician assistants who want to maintain NCCPA certification, the ten-year certification maintenance process includes five two-year cycles during which all certified physician assistants must log 100 hours of continuing education credit online with the submission of a \$180 certification maintenance fee paid every two years.

A review of surrounding states indicates the following continuing education requirements:

- o Kansas: 50 hours of CME annually; 20 hours must be Category I and 30 hours can be Category II.
- o Nebraska: 50 hours of Category I CME hours every two years, or meet certification standards through the NCCPA.
- o Minnesota: 50 contact hours of Category I CME every two years, or meet certification standards through the NCCPA.
- o South Dakota: 30 hours of CME annually, or meet certification standards through the NCCPA.
- o Wisconsin: 100 hours of CME every two years and pass recertification examinations every ten years to maintain NCCPA certification.
- o Illinois: 100 hours of CME every two years and pass recertification every ten years to maintain NCCPA certification.

Staff will hold a conversation with Board members to inquire if the Board would recommend lowering the continuing education requirements.

The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Less restrictive alternatives would be to reduce the amount of continuing education required. A review of surrounding states has shown that other states do successfully manage continuing education programs with fewer hours required per renewal cycle.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board will discuss less restrictive alternatives at its next board meeting, such as reducing the number of continuing education hours. The Board has historically believed that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for physician assistants. While some physician assistants may practice or partner in a small practice, some also work for large corporations and hospitals. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 328 and adopt the following new chapter in lieu thereof:

CHAPTER 328
CONTINUING EDUCATION FOR PHYSICIAN ASSISTANTS

645—328.1(148C) Definitions. For the purpose of these rules, the following definitions will apply:

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of physician assistants.

“*Continuing education*” means planned, organized learning acts designed to maintain, improve, or expand a licensee's knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as a physician assistant in the state of Iowa.

645—328.2(148C) Continuing education requirements.

328.2(1) The biennial continuing education compliance period will extend for a two-year period beginning on October 1 of each year and ending on September 30 two years later. Each biennium, each licensee will be required to complete a minimum of 100 hours of continuing education approved by the board.

328.2(2) Requirements of new licensees. Those persons licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of their licenses. The new licensee will be required to complete a minimum of 100 hours of continuing education per biennium for each subsequent license renewal.

328.2(3) A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

645—328.3(148C,272C) Standards.

328.3(1) *General criteria.* A continuing education activity is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters which integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program;
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides an individual certificate of completion or evidence of successful completion of the course provided by the course sponsor. This documentation must contain the course title, date(s), contact hours, sponsor and licensee's name.

328.3(2) *Specific criteria.* Continuing education requirements are as follows:

a. The licensee will complete a minimum of 50 hours of credit designated as Category I by the American Academy of Physician Assistants, the American Medical Association, the American Osteopathic Association Council on Continuing Medical Education, the American Academy of Family Physicians or other organizations accredited by the Accreditation Council on Continuing Medical Education (ACCME).

b. For the remaining 50 hours of required continuing medical education (CME), Category I or Category II credit, as accepted by the National Commission on Certification for Physician Assistants (NCCPA), will satisfy the CME requirements. In case of audit, licensees will provide evidence of NCCPA certification during the time period being audited or an activity log for all Category II credits for which a certificate of completion is not available. The activity log will list for each activity the date and type of activity and number of hours claimed per activity.

c. Licensees who maintain certification by the National Commission on Certification for Physician Assistants (NCCPA) may show proof of meeting the board's CME requirements by providing proof of current certification by the NCCPA for the time period being reviewed or audited.

d. A licensee who has prescribed opioids to a patient during the renewal cycle will complete a minimum of two hours of continuing education regarding the guidelines for prescribing opioids for chronic pain, as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services, including recommendations on limitations on dosages and the length of prescriptions, risk factors for abuse, and nonopioid and nonpharmacologic therapy options, as a condition of license renewal. These hours may count toward the 100 hours of continuing education required for license renewal. The licensee will maintain documentation of these hours, which may be subject to audit.

These rules are intended to implement Iowa Code section 272C.2 and chapter 148C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 329
“Discipline for Physician Assistants”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 147.76, 148C.3, 148C.5, 272C.3 and 272C.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 148C and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 8, 2023
1:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

This proposed rulemaking provides protection to Iowans because it publicly defines professional standards for physician assistants. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, licensees can be subject to discipline against their license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board of Physician Assistants has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to physician assistants and are excluded from the general disciplinary chapter. The grounds for discipline related to opioid prescribing are required by Iowa Code section 147.162.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, minimum professional standards of practice are associated with costs to the licensed professional. The licensee is responsible for obtaining the necessary prerequisite training to obtain and maintain these minimum practice standards. The costs of this are the responsibility of the licensee. The Board is unable to assess a specific cost related to these requirements.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$10,000 per public order.

Costs to the agency are for the staff time needed to manage Board activities, which include managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.34 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees related to practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rulemaking is to ensure public safety and maintain a high level of care for Iowans. In 2022, the Board opened 14 complaints involving the standard of care. This profession requires a high-skill level of competency and practice standards. This rulemaking creates a process for holding accountable those licensees who fail to meet the minimum standards articulated in rule and statute. This profession is regulated across all states.

While a low number of complaints can call into question the extent to which a profession needs to be regulated, physician assistants are practicing medicine, which requires skill and precision to protect patient safety, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs of this rulemaking are extremely low. The Board believes that the benefits achieved justify the low cost because the physician assistants are practicing medicine, which requires skill and precision to protect patient safety.

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of criminal convictions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public and leaving the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are for the staff time needed to manage Board activities, which include managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at

approximately 0.34 FTE position. This includes responding to questions from the public and licensees regarding items such as practice standards, continuing education, Board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$0 was paid into the General Fund from disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs of this rulemaking are extremely low. The Board believes that the benefits achieved justify the low cost because the physician assistants are practicing medicine, which requires skill and precision to protect patient safety. The Board receives a low number of complaints and issues a small number of disciplinary orders. In 2022, the Board opened 14 complaints involving the standard of care. This profession requires a high-skill level of competency and practice standards. This rulemaking creates a process for holding accountable those licensees who fail to meet the minimum standards articulated in rule and statute. This profession is regulated across all states. While a low number of complaints can call into question the extent to which a profession needs to be regulated, physician assistants are practicing medicine, which requires skill and precision to protect patient safety, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive care from competent and safe practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to physician assistants and are excluded from the general disciplinary chapter. The grounds for discipline related to opioid prescribing in this rulemaking are required by Iowa Code section 147.162.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to physician assistants and are excluded from the general disciplinary chapter. The grounds for discipline related to opioid prescribing in this rulemaking are required by Iowa Code section 147.162.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of practice standards for physician assistants. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 329 and adopt the following new chapter in lieu thereof:

CHAPTER 329
DISCIPLINE FOR PHYSICIAN ASSISTANTS

645—329.1(148C) Definitions.

“*Board*” means the board of physician assistants.

“*Discipline*” means any sanction the board may impose upon licensees.

“*Licensee*” means a person licensed to practice as a physician assistant in Iowa.

645—329.2(147,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in Iowa Code section 272C.3 when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 645—Chapter 13:

329.2(1) Professional incompetency. Professional incompetency includes, but is not limited to:

- a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.
- b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other physician assistants in the state of Iowa acting in the same or similar circumstances.
- c. A failure to exercise the degree of care which is ordinarily exercised by the average physician assistant acting in the same or similar circumstances.
- d. Failure to conform to the minimal standard of acceptable and prevailing practice of a physician assistant in this state.
- e. Inability to practice with reasonable skill and safety by reason of illness, drunkenness, excessive use of drugs, narcotics, chemicals, or other type of material or as a result of a mental or physical condition.
- f. Being adjudged mentally incompetent by a court of competent jurisdiction.

329.2(2) Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

329.2(3) Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a licensee in making information or intention known to the public which is false, deceptive, misleading or promoted through fraud or misrepresentation.

329.2(4) Representing oneself as a physician assistant when one's license has been suspended or revoked, or when one's license is on inactive status, except as provided by rule 645—326.15(148C,88GA,ch1020).

329.2(5) Failure to comply with universal precautions for preventing transmission of infectious diseases as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.

329.2(6) The performance of a medical function without approved supervision, if supervision is required pursuant to rules 645—326.7(148C) and 645—326.8(148C), except in cases requiring performance of evaluation and treatment procedures essential to providing an appropriate response to an emergency situation.

329.2(7) Prescribing opioids in dosage amounts that exceed what would be prescribed by a reasonably prudent licensee.

These rules are intended to implement Iowa Code chapters 147, 148C and 272C.

400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Proposed Chapter 351 sets the minimum standards of entry into the athletic training profession. Iowa residents, licensees, and employers benefit from the rulemaking because it clarifies the processes by which licensees may apply for licensure as athletic trainers, as directed in statute. The chapter describes the process that will be used to license athletic trainers and athletic trainer assistants, including renewal and reinstatement, to ensure public safety through review of the integrity and competence of the practitioner. The rulemaking describes the application process, educational qualifications, and examination requirements. The rulemaking also provides steps for documentation of physician direction and athletic training plans for direct service.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee. Licensees have costs related to educational requirements to obtain a baccalaureate degree. The license fee for a two-year license to practice to become an Iowa licensed athletic trainer is \$120 (license fees are specifically addressed in rule 645—5.1(147,152D)). Licensees must also pay an examination fee of \$375 to the Board of Certification for the Athletic Trainer (BOC).

These costs are comparable to surrounding states' licensing fees. Nebraska's license fee is \$117; licensees pay the BOC exam fee of \$375. Minnesota has a license fee of \$183.25 (includes a criminal background check fee); licensees pay the BOC exam fee of \$375.

- Classes of persons that will benefit from the proposed rulemaking:

The benefits achieved justify the costs. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board of Athletic Training believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners with knowledge of topics pertinent to the profession to ensure the safety and welfare of the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide training for athletic trainers. Additional private industries and educational institutions provide examinations and materials for preparation for the exam. Licensing renewal fees are \$120 every two years.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities. This includes reviews at the time of initial application and during reinstatement. Compliance audits are performed randomly on renewed licenses. If a licensee was disciplined in another state, the application may be forwarded to the full Board for additional review prior to initial licensure or licensure reinstatement. Licensure by consent agreements and discipline imposed by the Board are monitored by office staff. Where appropriate, referrals are made to the impaired practitioner program. An executive officer, licensure specialist and investigator support the full scope of this work at 0.04 full-time equivalent (FTE) position. This additionally includes answering questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees, not the State. There is no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure minimum competency. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. The

cost of inaction would increase the potential for injury to the public that would remain unchecked without review prior to initial licensure, periodic compliance audits and complaint investigation. In addition, the rulemaking provides consistency related to the licensure of athletic trainers in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the rulemaking attempts to provide consistency related to the licensure of athletic trainers across the United States, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this Board is now part of the DIAL. DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking attempts to provide consistency related to the licensure of athletic trainers across the United States, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the rulemaking attempts to provide consistency related to the licensure of athletic trainers across the United States, which makes obtaining licensure in multiple states simpler for applicants.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for athletic trainers. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 351 and adopt the following **new** chapter in lieu thereof:

ATHLETIC TRAINERS

CHAPTER 351 LICENSURE OF ATHLETIC TRAINERS
CHAPTER 352 CONTINUING EDUCATION FOR ATHLETIC TRAINERS
CHAPTER 353 DISCIPLINE FOR ATHLETIC TRAINERS

CHAPTER 351
LICENSURE OF ATHLETIC TRAINERS

645—351.1(152D) Definitions. In addition to the definitions included in Iowa Code section 152D.1, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Board*” means the board of athletic training created under Iowa Code chapter 147.

“*BOC*” means the Board of Certification or its successor organization.

“*Directing physician*” means a physician who supervises the athletic training services provided by a licensed athletic trainer.

“*Direction*” means that a physician directs the performance of a licensed athletic trainer in the development, implementation, and evaluation of an athletic training service plan as set out in 645—351.6(152D). Direction shall not be construed as requiring the personal presence of that physician at each activity of the licensed athletic trainer. It is the responsibility of the licensed athletic trainer to ensure that the practice of athletic training is carried out only under the direction of a licensed physician.

“*Endorsement*” means the issuance of an Iowa license to practice athletic training to an applicant who is currently licensed in another state who has the same or similar qualifications to those required in Iowa.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active. In order to renew a license during the grace period, a licensee is required to pay a late fee.

“*Licensee*” means any person licensed to practice as an athletic trainer in the state of Iowa.

“*License expiration date*” means February 28 of each odd-numbered year.

“*Mandatory reporter training*” means the training on identifying and reporting child abuse or dependent adult abuse as required in Iowa Code sections 323.69 and 235B.16.

“*Physical reconditioning*” means the part of the practice of athletic training that combines physical treatment, rehabilitation and exercise and is carried out under the orders of a physician or physician assistant. Physical treatment is part of a service plan that includes but is not limited to the continued use of any of the following: cryotherapy, thermotherapy, hydrotherapy, electrotherapy, or the use of mechanical devices.

“*Physician*” means a person licensed to practice medicine and surgery, osteopathic medicine and surgery, osteopathy, chiropractic, or podiatry under the laws of this state.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—351.15(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in 645—11.31(272C). Once the license is reinstated, the licensee may apply for active status.

645—351.2(152D) Initial licensure.

351.2(1) Requirements for licensure. The applicant shall:

a. Submit a complete online application and pay the nonrefundable fee specified in rule 645—5.1(147,152D). If the application is not completed according to the instructions, the application will not be reviewed by the board.

b. Submit official copies of academic transcripts directly from the school to the board of athletic training. No application will be considered by the board until official copies of academic transcripts have been received.

c. Have successfully completed the BOC examination. It is the responsibility of the applicant to make arrangements to take the examination and have the official results submitted to the Iowa board of athletic training.

d. Provide verification of license from the jurisdiction in which the applicant has been most recently licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction.

351.2(2) Web-based verification may be substituted for verification direct from the jurisdiction’s board office if the verification provides:

a. Licensee’s name;

b. Date of initial licensure;

c. Current licensure status; and

d. Any disciplinary actions taken against the license.

351.2(3) Licensure by endorsement. An athletic trainer applicant who holds a license from the District of Columbia or another state, territory, province or foreign country may be eligible for licensure by endorsement and may direct the BOC to submit:

a. A current certification status, or

b. A passing score on the examination of the BOCs.

351.2(4) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

351.2(5) Incomplete applications that have been on file in the board office for more than two years shall be:

a. Considered invalid and shall be destroyed; or

b. Maintained upon written request of the candidate. The candidate is responsible for requesting that the file be maintained.

645—351.3(152D) Educational qualifications.

351.3(1) An applicant for licensure to practice as an athletic trainer shall possess a baccalaureate degree or postbaccalaureate degree from a U.S. regionally accredited college or university.

351.3(2) Foreign-trained athletic trainers shall:

a. Provide an equivalency evaluation of their educational credentials by International Educational Research Foundation, Inc., Credentials Evaluation Service, P.O. Box 3665, Culver City, CA 90231-3665; telephone 310.258.9451; website www.ierf.org or email at info@ierf.org. The professional curriculum must be equivalent to that stated in these rules. A candidate shall bear the expense of the curriculum evaluation. An applicant who has passed the BOC examination is exempt from this requirement.

b. Provide a copy of the certificate or diploma awarded to the applicant from an athletic training program in the country in which the applicant was educated. An applicant who has passed the BOC examination is exempt from this requirement.

c. Receive a final determination from the board regarding the application for licensure.

d. Pass the BOC examination. Official results are to be submitted directly to the board from the BOC.

351.3(3) An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 645—19.2(272C).

645—351.4(152D) Examination requirements.

351.4(1) The examination required by the board shall be the BOC examination. Application and information may be obtained from the BOC Offices, 1415 Harney Street, Suite 200, Omaha, NE 68102; telephone 402.559.0091; website www.bocatc.org or email at BOC@bocatc.org.

351.4(2) The applicant has responsibility for:

- a. Making arrangements to take the national examination; and
- b. Arranging to have the examination scores sent directly to the board from BOC.

645—351.5(152D) Documentation of physician direction. Each licensee must maintain documentation of physician direction. It is the responsibility of the licensee to ensure that documentation of physician direction is obtained and maintained, including the following:

1. Athletic training service plan as set out in 645—351.6(152D);
2. Dates and names of physician and physician assistant orders or referrals;
3. Initial evaluations and assessments;
4. Treatments and services rendered, with dates; and
5. Dates of subsequent follow-up care.

645—351.6(152D) Athletic training standards of professional practice. Athletic training service plans shall be composed of the following components as taken from the Board of Certification Standards of Professional Practice (January 2018):

351.6(1) Practice Standards.

351.6(2) Code of Professional Responsibility.

645—351.7(147) License renewal.

351.7(1) The biennial license renewal period for a license to practice athletic training shall begin on March 1 of each odd-numbered year and end on February 28 of the next odd-numbered year. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

351.7(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal two years later.

351.7(3) A licensee seeking renewal shall:

a. Meet the continuing education requirements of rule 645—352.2(152D) and the mandatory reporting requirements of subrule 351.9(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

351.7(4) Mandatory reporter training requirements.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities, examines, attends, counsels or treats children in Iowa shall indicate on the renewal application completion of training in child abuse identification and reporting as required by Iowa Code section 232.69(3) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph "e."

b. A licensee who, in the course of employment, examines, attends, counsels or treats adults in Iowa shall indicate on the renewal application completion of training in dependent adult abuse identification and reporting as required by Iowa Code section 235B.16(5) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph "e."

c. The course(s) shall be the curriculum provided by the Iowa department of health and human services.

d. The licensee shall maintain written documentation for three years after mandatory training as identified in paragraphs “*a*” to “*c*,” including program date(s), content, duration, and proof of participation.

e. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements.

f. The board may select licensees for audit of compliance with the requirements in paragraphs “*a*” to “*e*.”

351.7(5) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

351.7(6) A person licensed to practice as an athletic trainer shall keep the license certificate and renewal displayed in a conspicuous public place at the primary site of practice.

351.7(7) Late renewal. The license shall become late when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 645—subrule 5.1(4). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

351.7(8) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as an athletic trainer in Iowa until the license is reactivated. A licensee who practices as an athletic trainer in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—351.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

351.8(1) Submit a reactivation application on a form provided by the board.

351.8(2) Pay the reactivation fee that is due as specified in 645—Chapter 5.

351.8(3) Provide verification of current competence to practice as an athletic trainer by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction’s board office if the verification includes:

1. Licensee’s name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 50 hours of continuing education within two years of the application for reactivation or verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly

from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
 2. Date of initial licensure;
 3. Current licensure status; and
 4. Any disciplinary action taken against the license; and
- (2) Verification of completion of 50 hours of continuing education within two years of application for reactivation; and
- (3) Verification of current BOC certification.

351.8(4) Submit a sworn statement of previous practice from an employer or professional associate, detailing places and dates of employment and verifying that the applicant worked as an athletic trainer for at least 2,080 hours or taught as the equivalent of a full-time faculty member for at least one of the immediately preceding years during the last two-year time period.

645—351.9(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with 645—351.15(17A,147,272C) prior to practicing as an athletic trainer in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 152D and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 352
“Continuing Education for Athletic Trainers”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 152D, 272C.3, 272C.10
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 152D, 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
2:50 to 3:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
More phone numbers:
tel.meet/bfq-qaeb-nwu?pin=7324359836726

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Purpose and Summary

Proposed Chapter 352 sets forth continuing education requirements for athletic trainers in Iowa and includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rules, and the types of continuing education courses that are permissible. The intended benefit of this chapter is to provide the licensees, schools, continuing education providers, and employers clarity regarding the processes licensees must complete for renewal or reactivation of licensure. The intended benefit of continuing education is to ensure that athletic trainers maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Iowa requires 50 hours of continuing education every two years. Private industry offers these courses, so the Board of Athletic Training is not privy to exact costs.

The cost to obtain continuing education is quite variable depending on the focus of the practitioner and may range anywhere from free to more than \$50 per hour. Typically, conferences charge approximately \$10 to \$15 per hour per continuing education unit (CEU).

While some state licensing boards require licensees to maintain Board of Certification (BOC) certification as a condition of licensure, Iowa does not require continued membership after initial licensure. This certification requires 50 CEU hours every two years. Recertification is \$39 for National Athletic Trainers' Association (NATA) members and \$55 for non-members.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that athletic trainer licensees meet specific continuing education requirements to ensure up-to-date knowledge on practical service-related skills and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry offers these courses, so the Board is not privy to exact costs but, based on research, estimates the cost to obtain continuing education is quite variable depending on the focus of the practitioner and may range anywhere from free to more than \$50 per hour. Typically, conferences charge approximately \$10 to \$15 per hour per CEU.

While some state licensing boards require licensees to maintain BOC certification as a condition of licensure, Iowa does not require continued membership after initial licensure. This certification requires 50 CEU hours every two years. Recertification is \$39 for NATA members and \$55 for non-members.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities at approximately 0.04 full-time equivalent (FTE) position, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. This includes answering questions from the public and licensees about practice standards, continuing education, Board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is not an anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board does not recommend a change in continuing education hours at this time. Iowa's continuing education requirements are in line with neighboring states and the BOC certification. Iowa's 50-hour continuing education requirement is consistent with or less than a number of neighboring states including Missouri, South Dakota, and Minnesota.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. The Board does not recommend a change in continuing education hours at this time. Iowa's continuing education requirements are in line with neighboring states and the BOC certification. Iowa's 50-hour continuing education requirement is consistent with or less than a number of neighboring states including Missouri, South Dakota, and Minnesota.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring whether the Board would recommend lowering the continuing education requirements. The Board does not recommend a change in continuing education hours at this time.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 352 and adopt the following **new** chapter in lieu thereof:

CHAPTER 352
CONTINUING EDUCATION FOR ATHLETIC TRAINERS

645—352.1(272C) Definitions. For the purpose of these rules, the following definitions shall apply:

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of athletic training created under Iowa Code chapter 147.

“*BOC*” means the Board of Certification or its successor organization.

“*Continuing education*” means the same as defined in Iowa Code section 272C.1.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee completing an approved continuing education activity through live, virtual, online or prerecorded means where the instructor provides proof of completion by the licensee as set forth in these rules.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as an athletic trainer in the state of Iowa.

645—352.2(152D) Continuing education requirements.

352.2(1) The biennial continuing education compliance period shall extend for a two-year period beginning on March 1 of each odd-numbered year and ending on February 28 of the next odd-numbered year. Each biennium, each person who is licensed to practice as an athletic trainer in this state will have the responsibility to finance the cost and be required to complete a minimum of 50 hours of continuing education approved by the board.

352.2(2) Requirements for new licensees. Those persons licensed for the first time or being licensed for the first time after a temporary license shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The new licensee will be required to complete a minimum of 50 hours of continuing education per biennium for each subsequent license renewal.

352.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity. These hours must be in accordance with these rules.

352.2(4) No hours of continuing education shall be carried over into the next biennium except as stated for the second renewal. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

645—352.3(152D,272C) Standards.

352.3(1) General criteria. A continuing education activity which meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;

b. Pertains to subject matters which integrally relate to the practice of the profession;

c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program.

At the time of audit, the board may request the qualifications of presenters;

d. Fulfills stated program goals, objectives, or both; and

e. Provides proof of attendance to licensees in attendance including:

(1) Date(s), location, course title, presenter(s);

(2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

352.3(2) Specific criteria. Continuing education may be obtained through any of the following:

- a. Completing a course provided by a BOC-approved provider of continuing education.
 - b. Attending workshops, conferences, or symposiums.
 - c. Authoring research, the results of which are published in a recognized professional publication.
- A licensee shall receive five hours of credit per page.

d. Presenting professional programs that meet the criteria of this chapter. Two hours of credit will be awarded for each hour of presentation. A course schedule or brochure must be maintained for audit. Presenting at a professional program does not include teaching class at an institution of higher learning at which the applicant is regularly and primarily employed, nor does it include presentations to the lay public. A licensee may be granted no more than ten hours of continuing education credit per biennium for presenting professional programs.

e. Completing academic courses that directly relate to the professional competency of the licensee. Official transcripts indicating successful completion of academic courses that apply to the field of athletic training must be maintained for audit. Continuing education credit equivalents are as follows:

- 1 academic semester hour = 15 continuing education hours
- 1 academic trimester hour = 12 continuing education hours
- 1 academic quarter hour = 10 continuing education hours

645—352.4(152D,272C) Audit of continuing education report. In addition to the requirements of 645—4.11(272C), proof of current BOC certification shall be accepted in lieu of individual certificates of completion for an audit.

These rules are intended to implement Iowa Code section 272C.2 and chapter 152D.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 353
“Discipline for Athletic Trainers”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 152D, 272C.3 and 272C.10

Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Proposed Chapter 353 defines actions that are inconsistent with professional standards for licensees, which are established to protect the consumer and colleagues. Actions inconsistent with professional standards could result in disciplinary actions against a practitioner’s license.

The 19 boards in the legacy Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the athletic training licensees and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are associated with costs to the licensed professional. Licensees may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fine amounts are not established in rule for these licensees and are determined by the Board of Athletic Training. The Board has statutory authority to impose a civil penalty on individuals practicing without a license.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking because there is clarity on compliance and potential consequences for noncompliance. The benefit is being achieved since the Board only had five founded violations between 2010 and 2023. The low number of public discipline cases demonstrates the effectiveness of the continuing education requirements in ensuring licensees are remaining current in their professional knowledge and providing quality care to Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes the benefits achieved justify the costs because the cost of inaction would increase the potential for injury to the public, by allowing licensed providers to continue providing services without correction, education, or any form of discipline. Fees incurred by the professional can be up to \$1,000 per violation.

The Board has not identified a more cost-effective alternative to the current discipline process. There could be a consideration of reducing or eliminating grounds for discipline, but the Board believes these requirements are important in order to protect the public from infection risks.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which include managing complaints and conducting investigations when a licensee takes action that is grounds for discipline. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer, licensure specialist and investigator support the full scope of this work at 0.04 full-time equivalent (FTE) position. This additionally includes answering questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees, not the State. There is no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The amount of complaints received is relatively low, and costs reflect that. The Board believes the costs are justified because inaction could increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline. The costs to review and address the standards of professional behavior are justified by the benefit of protecting the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

The Iowa Boards and Commissions Review Committee recommended consolidating the Board of Athletic Training with Chiropractic, Massage Therapy, and Physical and Occupational Therapy.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

While there has been some standardization of consideration of criminal convictions, the Board has not recommended a less restrictive alternative to public protection.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the athletic training licensees and are therefore excluded from the general disciplinary chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 353 and adopt the following **new** chapter in lieu thereof:

CHAPTER 353 DISCIPLINE FOR ATHLETIC TRAINERS

645—353.1(152D) Definitions.

“Board” means the board of athletic training.

“Discipline” means any sanction the board may impose upon licensees.

“*Licensee*” means a person licensed to practice pursuant to Iowa Code chapter 152D and 645—Chapters 351 to 353 as an athletic trainer in Iowa.

645—353.2(152D,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in 645—Chapter 13 when the board determines that any of the following acts or offenses listed in such chapter or in Iowa Code section 147.55 have occurred:

353.2(1) Professional incompetency. Professional incompetency includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of practice.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other athletic trainers in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care which is ordinarily exercised by the average athletic trainer acting in the same or similar circumstances.

d. Failure to conform to the minimal standard of acceptable and prevailing practice of a licensed athletic trainer in this state.

353.2(2) Violation of a regulation, rule or law of this state, another state, or the United States, which relates to the practice of athletic training.

353.2(3) Failure of a licensee or an applicant for licensure in this state to report any voluntary agreements restricting the individual’s practice of athletic training in another state, district, territory or country.

353.2(4) Knowingly aiding, assisting, or advising a person to unlawfully practice as an athletic trainer.

353.2(5) Representing oneself as a licensed athletic trainer when one’s license has been suspended or revoked, or when one’s license is on inactive status.

These rules are intended to implement Iowa Code chapters 147, 152D and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 361
“Licensure of Sign Language Interpreters and Transliterators”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 154E.3, 147.36, 272C.3, 272C.4, and 272C.10

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 154E, 272C, 147, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
12:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

These proposed rules set minimum standards for entry into the sign language interpreter and transliterator profession. Iowa residents, licensees and employers benefit from the rules as they articulate the processes by which individuals apply for licensure as a sign language interpreter or transliterator in the state of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant because complying with the minimum requirements to enter into the professions are at the expense of the licensee.

There are no educational requirements to become an Iowa sign language interpreter or transliterator, but applicants must pay applicable fees and pass an examination in order to obtain a license. The examination fees are approximately \$250 to \$500, depending on the type of examination.

The application fee is \$120, and the renewal fee is \$120.

These costs are comparable to, or less than, surrounding states. Nebraska requires a high school or college diploma. In Nebraska, applicants must pay \$250 to \$500 for the examination and an application fee of \$150. Minnesota requires an interpreter training program for its educational interpreters. In addition, applicants must complete an examination for \$250 to \$500 and pay an application fee.

Department staff review applications for initial and renewal licenses, and for licensure reinstatement. Department staff also answer inquiries on licensing and field phone calls. Staff salaries to support the work of the Board of Sign Language Interpreters and Transliterators (Board) are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.35 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rules. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the cost to license this profession is justified by the benefits achieved because licensure ensures that Iowans are treated with competent and qualified practitioners.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The costs for examination required are \$250 to \$500, depending on which examination the applicant takes. Licensing fees are \$120 for an initial license and \$120 for each renewal period.

- Qualitative description of impact:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board believes the cost to license this profession is justified by the benefits achieved because licensure ensures that Iowans are treated with competent and qualified practitioners. Licensing requirements in Iowa are very similar to those in surrounding states.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department are the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals, reactivations and reinstatements. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.35 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing these proposed rules are paid by individual licensees, not the State. There is no anticipated impact from these rules on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Licensing is the highest form of regulation. Lower forms of regulation could be viable, such as registration. As of 2022, there are 22 states that do not license sign language interpreters, although some have other regulations. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide

consistency related to the licensure of sign language interpreters and transliterators in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the state of Iowa are similar to those of surrounding states that license interpreters and transliterators.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of sign language interpreters and transliterators. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of sign language interpreters or transliterators in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this board is now part of DIAL. DIAL—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These rules support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of sign language interpreters or transliterators. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, these proposed rules provide consistency related to the licensure of sign language interpreters or transliterators in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of sign language interpreters and transliterators. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of sign language interpreters and transliterators in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this board is now part of DIAL. DIAL—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These rules support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. These rules are meant to ensure public safety in terms of licensing requirements for sign language interpreters and transliterators. While some interpreters are running a small business of their own, some also work for larger businesses or school systems. To exempt a small business from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 361 and adopt the following **new** chapter in lieu thereof:

SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS

| | |
|-------------|---|
| CHAPTER 361 | LICENSURE OF SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS |
| CHAPTER 362 | CONTINUING EDUCATION FOR SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS |
| CHAPTER 363 | DISCIPLINE FOR SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS |

CHAPTER 361

LICENSURE OF SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS

645—361.1(154E) Definitions. For purposes of these rules, the following definitions will apply:

“Active interpreter or transliterator services” means the actual time spent personally providing interpreting or transliterating services or providing interpreting or transliterating services through videoconferencing or remotely. When in a team interpreting situation, the time spent monitoring while the team interpreter is actively interpreting will not be included in the time spent personally providing interpreting or transliterating services.

“Active license” means a license that is current and has not expired.

“Board” means the board of sign language interpreters and transliterators.

“Direct supervision of a temporary license holder” means monitoring of interpreting or transliterating services while personally observing the temporary license holder providing those services, as outlined in paragraphs 361.3(4) “b” and “c.”

“Grace period” means the 30-day period following expiration of a license when the license is still considered to be active.

“Inactive license” means a license that has expired because it was not renewed by the end of the grace period.

“Licensee” means any person licensed to practice as a sign language interpreter or transliterator in the state of Iowa.

“Licensure by endorsement” means the issuance of an Iowa license to practice as a sign language interpreter or transliterator to an applicant who is or has been licensed in another state.

“Reactivate” or *“reactivation”* means the process as outlined in rule 645—361.9(17A,147,272C) by which an inactive license is restored to active status.

“Reinstatement” means the process as outlined in 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions.

“Supervisor” means a sign language interpreter or transliterator licensed pursuant to Iowa Code section 154E.3 and subrule 361.2(1) who provides on-site evaluations and advisory sessions with a

temporary license holder for the purpose of the professional development of that temporary license holder.

645—361.2(154E) Requirements for licensure.

361.2(1) The following criteria will apply to licensure:

a. Applicants will submit a completed online licensure application and pay the nonrefundable fee; and

b. Applicants will provide proof of one of the following:

(1) Passes the National Association of the Deaf/Registry of Interpreters for the Deaf (NAD/RID) National Interpreter Certification (NIC) examination after November 30, 2011; or

(2) Passes one of the following examinations administered by the Registry of Interpreters for the Deaf (RID):

1. Oral Transliteration Certificate (OTC); or

2. Certified Deaf Interpreter (CDI); or

(3) Passes the Educational Interpreter Performance Assessment (EIPA) with a score of 3.5 or above after December 31, 1999; or

(4) Passes the Cued Language Transliterator National Certification Examination (CLTNCE) administered by The National Certifying Body for Cued Language Transl iterators; or

(5) Currently holds one of the following NAD/RID certifications awarded through November 30, 2011, by the National Council on Interpreting (NCI):

1. National Interpreter Certification (NIC); or

2. National Interpreter Certification Advanced (NIC Advanced); or

3. National Interpreter Certification Master (NIC Master); or

(6) Currently holds one of the following certifications previously awarded by the RID:

1. Certificate of Interpretation (CI); or

2. Certificate of Transliteration (CT); or

3. Certificate of Interpretation and Certificate of Transliteration (CI and CT); or

4. Interpretation Certificate/Transliteration Certificate (IC/TC); or

5. Comprehensive Skills Certificate (CSC); or

(7) Currently holds one of the following certifications previously awarded by the National Association of the Deaf (NAD):

1. NAD III (Generalist); or

2. NAD IV (Advanced); or

3. NAD V (Master); or

(8) Currently holds an advanced or master certification awarded by the Board for Evaluation of Interpreters (BEI).

361.2(2) Licensees who were issued their licenses within six months prior to the renewal will not be required to renew their licenses until the renewal cycle two years later.

a. An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 645—19.2(272C).

b. An applicant who has been licensed in another state will provide verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

(1) Licensee's name;

(2) Date of initial licensure;

(3) Current licensure status; and

(4) Any disciplinary action taken against the license.

645—361.3(154E) Requirements for temporary license.

361.3(1) An applicant who has not successfully completed one of the board-approved examinations or does not hold an approved certification set forth in paragraph 361.2(1) “d” will provide verification the applicant has passed one of the following:

- a. The written portion of the Registry of Interpreters for the Deaf (RID) examination;
- b. The written portion of the Board for Evaluation of Interpreters (BEI) examination;
- c. The written portion of the Educational Interpreter Performance Assessment (EIPA) examination;
- d. The EIPA prehire examination at the highest recommended level;
- e. The EIPA performance test;
- f. An associate degree or higher from a formal interpreter training program (ITP) with a regionally accredited college or university;
- g. The American Sign Language Proficiency Interview (ASLPI) at the 2+ level or higher; or
- h. The Sign Language Proficiency Interview (SLPI) at the intermediate level or higher.

361.3(2) Submit a written supervisory agreement that complies with the requirements stated in subrule 361.3(4). The temporary license will be valid for two years from the initial issue date and may be renewed once for the immediately following two-year period.

361.3(3) A temporary license holder is only authorized to practice if the following direct supervision requirements are fulfilled:

a. Enter into a written agreement with a supervisor in which the temporary license holder and the supervisor agree to the minimum requirements provided in paragraphs 361.3(4) “b” and “c.” The supervisor will possess a full, unrestricted sign language interpreter and transliterator license. The agreement will be signed and dated by the temporary license holder and the supervisor; will include the temporary license holder’s and supervisor’s names, addresses and contact information; and will be provided to the board with the application for a temporary license.

b. Have a supervisor observe the temporary license holder in active practice for no fewer than six bimonthly observation sessions per year for at least 30 minutes each, if the temporary license holder is working alone, or at least 60 minutes each, if the temporary license holder is working in a team interpreting situation.

c. Attend at least six bimonthly advisory sessions with the supervisor per year for the purpose of discussing the supervisor’s suggestions for the temporary license holder’s professional skill development based on the observation sessions.

d. Maintain an event log documenting the date, time, length and setting of each observation session and advisory session. This event log will be submitted with the temporary license holder’s renewal application.

e. Ensure that the supervisor attends each of the observation sessions and advisory sessions or reschedules the sessions as necessary to ensure compliance.

f. If the replacement of a supervisor becomes necessary, the temporary license holder will develop a new written agreement with the new supervisor.

g. Obtain permission from clients as necessary to allow the supervisor to be in attendance during the observation sessions.

361.3(4) As an Iowa-licensed practitioner in accordance with this chapter, a supervisor providing direct supervision of a temporary license holder as provided in subrule 361.3(4) is obligated to report to the board an interpreter or transliterator temporary license holder who is not complying with direct supervision requirements or who is not practicing in compliance with Iowa law and rules including, but not limited to, Iowa Code chapter 154E and 645—Chapters 361 through 363.

645—361.4(154E) Licensure by endorsement.

361.4(1) An applicant who has been a licensed sign language interpreter or transliterator under the laws of another jurisdiction will file an application for licensure by endorsement with the board office. The board may receive by endorsement any applicant from the District of Columbia or another state, territory, province or foreign country who:

- a. Meets the requirements of rule 645—361.2(154E);

- b.* Shows evidence of licensure requirements that are similar to those required in Iowa; and
- c.* Provides an equivalency evaluation of foreign educational credentials sent directly from the equivalency service to the board.

361.4(2) Licensure by verification. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—361.5(154E) License renewal.

361.5(1) The biennial license renewal period for a license to practice as a sign language interpreter or transliterator will begin on July 1 of an odd-numbered year and end on June 30 of the next odd-numbered year. The licensee is responsible for renewing the license prior to its expiration.

361.5(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal date two years later.

361.5(3) A licensee applying for renewal will:

a. Meet the continuing education requirements as provided in 645—subrules 362.2(1) and 362.2(2) or, in lieu of meeting such requirements, provide proof of a current national interpreter certification issued by an organization recognized by the board (e.g., Registry of Interpreters for the Deaf (RID); National Association of the Deaf (NAD); NAD-RID National Interpreter Certification (NIC)) as evidence of meeting continuing education requirements. A licensee whose license was reactivated during the current biennial license period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee, and attach verification of completion of continuing education hours on the website before the license expiration date.

361.5(4) A two-year license will be issued after the requirements of the rule are met. In the event the board receives adverse information on the renewal application, the board will issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

361.5(5) The license certificate and proof of active licensure will be displayed in a conspicuous public place at the primary site of practice.

361.5(6) Late renewal. The license will become late when the license has not been renewed by the expiration date on the renewal. The licensee will be assessed a late fee as specified in 645—subrule 5.18(4). To renew a late license, the licensee will complete the renewal requirements and submit the late fee within the grace period.

361.5(7) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice until the license is reactivated.

645—361.6(17A,147,272C) License reactivation.

361.6(1) Submit a completed online reactivation application and pay the nonrefundable fee.

361.6(2) If licensed in another jurisdiction, submit a license verification document that discloses disciplinary action taken against the license in the jurisdiction where the applicant was most recently licensed. The document should come directly from that jurisdiction.

361.6(3) Provide verification of current competence to practice sign language interpreting or transliterating by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has been most recently licensed and has been practicing during the time period in which the Iowa license was inactive sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. The licensee's name;
2. The date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completing 40 hours of continuing education within two years of the application for reactivation; and

(3) Verification of a current certification as identified in subrule 361.2(1), or of passing an examination identified in subrule 361.2(1), which was passed after the license became inactive; or

(4) Verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license from the jurisdiction in which the applicant has been licensed and has been practicing during the time period in which the Iowa license was inactive sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. The licensee's name;
2. The date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; or

(2) Verification of completion of 80 hours of continuing education within two years of application for reactivation; and

(3) Verification of a current certification as identified in subrule 361.2(1), or of passing an examination identified in subrule 361.2(1), which was passed after the license became inactive; and

(4) Verification of active practice, consisting of a minimum of 2,080 hours, in another state or jurisdiction during the two years preceding an application for reactivation.

645—361.7(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation of the license prior to practicing sign language interpreting or transliterating in this state.

These rules are intended to implement Iowa Code chapters 17A, 147, 154E and 272C.

Regulatory Analysis

Purpose and Summary

These proposed rules set forth continuing education requirements for sign language interpreters and transliterators. The rules include definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rule, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that sign language interpreters and transliterators maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses so the Board of Sign Language Interpreters and Transliterators (Board) is not privy to exact costs, but research estimates it to be around \$10 per continuing education unit (CEU) for online courses, all the way up to \$60 per CEU. Quarterly Iowa State Registry of Interpreters for the Deaf workshops are often free, but the yearly conference costs licensees. Conferences tend to cost licensees approximately \$20 to \$30 per CEU. Some employers also provide CEUs for free. There are multiple entities that provide continuing education courses to licensees, and licensees can select which option they prefer based on cost or modality.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that sign language interpreters and transliterators maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offer these courses, so the Board is not privy to exact costs, but research estimates it to be around \$400 on the low end, or \$2,400 on the high end every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 40 hours of continuing education for these license types every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.35 full-time equivalent (FTE) position, which includes questions from the public and licensees, such as practice standards, continuing education, and Board meeting administration.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is not an anticipated impact from the proposed rules on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board did not recommend a reduction in hours.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and, ultimately, public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives include reducing the amount of continuing education required. A review of surrounding states has shown that other states do successfully manage continuing education programs with fewer hours required per renewal cycle. Currently, Iowa requires 40 hours of continuing education for these license types every two years. Missouri requires 20, Nebraska requires 24, Kansas requires 30 and Illinois and South Dakota require 40. After discussions with the Board regarding this topic, Board members were not in agreement to reduce the total number of hours.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring if the Board would recommend lowering the continuing education requirements. The Board has considered a change to the total continuing education hours and the frequency and the relation of such changes to the safety of the public. While the Board is not inclined at this time to make changes, it will consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation, so it is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The cost of continuing education is estimated at \$10 to \$60 per hour. While some sign language interpreters and transliterators are running a small business of their own, some also work for larger businesses or educational institutions. The cost of continuing education could be greater for small business owners since they would be responsible for the entire cost.

Conversely, the entities that provide continuing education may have a negative impact on their revenue due to less demand for entities' continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 362 and adopt the following **new** chapter in lieu thereof:

CHAPTER 362
CONTINUING EDUCATION FOR SIGN LANGUAGE INTERPRETERS AND
TRANSLITERATORS

645—362.1(154E,272C) Definitions. For the purpose of these rules, the following definitions will apply:

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of sign language interpreters and transliterators.

“*Continuing education*” means planned, organized learning acts acquired during licensure designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as a sign language interpreter or transliterator in the state of Iowa.

645—362.2(154E,272C) Continuing education requirements.

362.2(1) Requirements for permanent licensees. The continuing education compliance period runs concurrently with each two-year renewal period beginning on July 1 of each odd-numbered year and ending on June 30 of the next odd-numbered year. Each person who is licensed to practice as a sign language interpreter or transliterator in this state will be required to complete a minimum of 40 hours of continuing education as specified in rule 645—362.3(154E,272C).

362.2(2) Exception for new permanent licensees. A person licensed for the first time will not be required to complete continuing education as a prerequisite for the first renewal of the license. Thereafter, the new licensee will complete the continuing education requirements as set forth in rule 645—362.3(154E,272C). The licensee may use continuing education hours acquired anytime from the initial licensing until the second license renewal to meet the requirements.

362.2(3) NIC or RID Certification. A licensee who provides proof of a current National Interpreter Certification or current Registry of Interpreters for the Deaf Certification meets continuing education requirements for that biennium renewal cycle.

362.2(4) Requirements for temporary license holders. The continuing education compliance period runs concurrently with each two-year renewal period beginning on the date of initial licensure. Temporary license holders will be required to obtain 40 hours of continuing education as set forth in rule 645—362.3(154E,272C). The temporary license holder may use only continuing education hours acquired during the current renewal period. Proof of continuing education hours acquired will be submitted with a temporary license renewal application.

362.2(5) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity.

362.2(6) No hours of continuing education will be carried over into the next renewal period.

362.2(7) The licensee is responsible for the cost of continuing education.

645—362.3(154E,272C) Standards.

362.3(1) *General criteria.* A continuing education activity that meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

a. Is an organized program of learning fundamental to the practice of the profession that contributes directly to the professional competency of the licensee;

- b.* Is conducted by individuals who have specialized education and training in the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- c.* Fulfills stated program goals, objectives, or both; and
- d.* Provides proof of attendance, including:
 - (1) Date, location, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

362.3(2) Specific criteria.

a. Continuing education will be obtained by attending programs relating to the practice of interpreting or transliterating for the deaf or hard of hearing and are:

- (1) Educational activities, including lectures, conferences, focused seminars, clinical and practical workshops, simultaneous live satellite broadcasts and teleconferences;
- (2) Obtained in content areas that conform to the content areas specified in the Registry of Interpreters for the Deaf (RID) Certification Maintenance Program Standards and Criteria for Approved Sponsors, revised edition, June 2004, with the exception of the number of CEUs required, which is defined in paragraph 362.3(2)“*b.*” RID activity categories of independent study or teaching an academic class are not professional study categories that can be claimed for credit by temporary license holders.

b. Each renewal period, licensees will obtain 40 hours (4 CEUs) of continuing education, including no less than 30 hours (3 CEUs) of professional studies. The remaining 10 hours (1 CEU) may be in either professional or general studies. The board will accept proof of a current National Interpreter Certification or current Registry of Interpreters for the Deaf Certification in lieu of proof of the 40 hours of continuing education.

c. Continuing education hours of credit equivalents for academic coursework per biennium are as follows:

- 1 academic semester hour = 15 continuing education hours
- 1 academic quarter hour = 10 continuing education hours
- 1 CEU = 10 continuing education hours

These rules are intended to implement Iowa Code section 272C.2 and chapter 154E.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 363
“Discipline for Sign Language Interpreters and Transliterators”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 154E, 272C, 147, and 17A
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 154E, 272C, 147, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
12:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Phone: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Jessica O’Brien
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.6352
Email: jessica.o'brien@dia.iowa.gov

Purpose and Summary

These proposed rules provide protection to Iowans as the rules publicly define disciplinary options when a sign language interpreter or transliterator fails to provide the standard of care. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, it can subject a licensee to discipline against the licensee’s license. Iowans have the ability to submit a complaint to the licensing board, who can then investigate the allegation. The Board of Sign Language Interpreters and Transliterators (Board) has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Health and Human Services Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the sign language interpreter and transliterator professions and are therefore excluded from the general disciplinary chapter. The grounds for discipline required in this rule are related to unethical conduct and are required by Iowa Code chapter 154E.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. The proposed rules in this chapter are related to standard of care, so there would be a cost to the practitioner in taking the needed time to review prevailing standards of care. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000, per public order.

Costs to the Department include the staff time needed to manage Board activities, which include managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.35 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees in relation to practice standards, continuing education, and Board meeting administration. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations is very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of these proposed rules is to ensure public safety and maintain a high level of care for Iowans. The Board receives a minimal number of complaints and issues a minimal number of disciplinary actions. In 2022, there were two complaints submitted, and the Board issued no public discipline. There are very few sign language interpreters and transliterators, with approximately 504 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, interpreting accurately requires a level of skill, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the practice of interpreting and transliterating requires skill and precision.

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to manage Board activities, which include managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.35 of an FTE. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing these proposed rules are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$0 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify low cost because the practice of interpreting and transliterating requires skill and precision. The Board receives a minimal number of complaints and issues a minimal number of disciplinary actions. In 2022, the Board received two complaints and issued no public discipline. There are very few sign language interpreters and transliterators, with approximately 504 licensed individuals. While a low number of complaints can call into question the extent to which a profession needs to be regulated, interpreting accurately requires a level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy Health and Human Services Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the sign language interpreters and transliterators professions and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules. The ground for discipline required in this rule is related to unethical conduct and is required by Iowa Code section 147.55.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The specific ground for discipline required in this rule related to unethical conduct is required by Iowa Code section 147.55.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

These proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rules are meant to ensure public safety in terms of practice standards for sign language interpreters and transliterators. While some interpreters and transliterators are running a small business of their own, others work for larger businesses or educational systems. To exempt a small business from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 363 and adopt the following **new** chapter in lieu thereof:

CHAPTER 363

DISCIPLINE FOR SIGN LANGUAGE INTERPRETERS AND TRANSLITERATORS

645—363.1(154E) Definitions.

“Consumer” means an individual utilizing interpreting services who uses spoken English, American Sign Language, or a manual form of English, and in an interpreting situation or setting, the term “consumer” includes both the deaf or hard-of-hearing individual or individuals and the hearing individual or individuals present in such situation or setting.

645—363.2(154E,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 645—13.3(147,272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 645—Chapter 13:

363.2(1) Unethical conduct. In accordance with Iowa Code section 147.55(3), behavior (e.g., acts, knowledge, and practices) that constitutes unethical conduct includes but is not limited to the following:

a. Engaging in sexual activities or sexual contact with a consumer when there is a risk of exploitation or potential harm to the consumer or when the relationship could reasonably be expected to interfere with the interpreter’s or transliterator’s objectivity, competence, or effectiveness.

b. Failure to decline or to withdraw from an interpreting or transliterating assignment when the interpreter or transliterator does not possess the professional skills and knowledge required for the specific interpreting or transliterating situation or setting.

c. Failure to refrain from providing advice or personal opinions or aligning with one person over another in the course of one’s professional duties.

d. Discriminating against a consumer on the basis of age, sex, race, creed, illness, marital status, political belief, religion, mental or physical disability or diagnosis, sexual orientation, or economic or social status.

e. Failure to inform a consumer when federal or state laws require disclosure of confidential information.

f. Failure to avoid a conflict of interest when there is a risk of exploitation or potential harm to the consumer or when the relationship could reasonably be expected to interfere with the interpreter’s objectivity, competence, or effectiveness; or failure to disclose to a consumer an actual or perceived conflict of interest.

g. Failure to present a professional appearance that is not visually distracting and is appropriate to the setting.

363.2(2) Failure by a temporary license holder to comply with the requirements of 645—subrule 361.2(6).

These rules are intended to implement Iowa Code chapters 147, 154E and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 1
“Reportable Diseases, Poisonings and Conditions, and Quarantine and Isolation”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 136A, 139A.2, 139A.3, 139A.3A, 139A.4, 139A.21, 139A.31 and 139A.33

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 135, 139A and 137

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

Via video/conference call:
meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

This proposed chapter provides for disease investigation and disease control through preventive measures including but not limited to quarantine and isolation. This chapter captures reportable communicable and noncommunicable diseases, cancers, and farm-related injuries.

The chapter defines procedure for members of the public to comply with the reporting requirements for the categories listed above, including:

- Who is required to report.
- When to report.
- What needs to be reported.
- How to report.

The chapter provides for cancer surveillance, which allows for evaluation of trends over time and evaluation of potential cancer clusters, as well as helping Iowa hospitals to monitor and improve the quality and comprehensiveness of their cancer care. Having administrative rules that allow the Iowa Cancer Registry to maintain their contract with the National Cancer Institute (NCI)-funded Surveillance, Epidemiology and End Results (SEER) Program allows the State of Iowa to maintain a high-quality registry at a very low cost to the State.

It also provides for congenital and inherited disorder surveillance to compile, evaluate, retain, and disseminate information on the occurrence, prevalence, causes, treatment, and prevention of congenital disorders. Congenital disorders shall be considered reportable conditions in accordance with rules adopted by the Department of Public Health (Department) and shall be abstracted and maintained by the registry.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

The public does not incur any cost via implementation of this rulemaking.

- Classes of persons that will benefit from the proposed rulemaking:

Individuals or families near persons with communicable diseases will benefit as well as communities in which persons with reportable communicable diseases reside and individuals with congenital and inherited disorders.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Estimated figures below are projections based on past program performance as included in the Red Tape Rule Report for this chapter.

Identified Impacts*

| | SFY2024 | SFY2025 | SFY2026 | SFY2027 | SFY2028 | 5-Year Total |
|---------------------------------|---------------|---------------|---------------|---------------|---------------|---------------|
| Costs | | | | | | |
| HHS Implementation | \$1,238,000 | \$1,238,000 | \$1,238,000 | \$1,238,000 | \$1,238,000 | \$6,190,000 |
| Benefits | | | | | | |
| Improved Public Health & Safety | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | Indeterminate | Indeterminate | Indeterminate | Indeterminate | Indeterminate | Indeterminate |

*All monetary figures have been rounded to the nearest thousandth.

State general fund allocations support only a portion of the HHS implementation costs for Chapter 1. The state General Fund allocation has remained static. Federal grant funds provide approximately \$6.5 million in annual funding in support of Chapter 1 implementation. Federal government issues supplemental grant awards to support the response to outbreaks that impact the nation (e.g. COVID-19 and Mpox). These supplemental awards are in addition to the annual grant support.

- Qualitative description of impact:

Public health surveillance is foundational to public health practice. It aids in understanding diseases and their spread to determine appropriate actions to control outbreaks. If this chapter did not exist, it would limit the ability of public health officials to monitor, control, and prevent these reportable diseases and conditions. An inability to assess the incidence and impact of reportable conditions on Iowans would prevent the Department from conducting disease investigation, contact tracing, and connecting affected individuals with recommended testing and treatment. Ultimately, disease transmission would increase, as would sequelae of untreated sexually transmitted infections (STIs) (including chronic pelvic pain, pelvic inflammatory disease, vision and hearing problems, and death).

In addition, if this chapter did not exist, there would not be the ability to access the incidence, contributing factors, and impact to families of congenital and inherited disorders. There would not be data to inform prevention or treatment efforts for congenital and inherited disorders.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs to support the procedures described in this chapter. These costs are reflected in the table above as “HHS Implementation.”

- Anticipated effect on state revenues:

No impact on state revenues has been identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The general fund dollars, supplemented largely by federal funding sources, supports a net value in improved public health and safety. If this chapter did not exist, it is very likely that the disease burden would increase, leading to increased absences from school and work, which could have an impact on the economy. If the Department were no longer able to isolate and/or quarantine individuals that either have a communicable disease or are at risk for developing and spreading a communicable disease, it would have a significant impact on morbidity and mortality across the state.

HHS would not be able to implement programs and activities authorized and required by Iowa Code chapter 136A, and would be unable to initiate, conduct and supervise screening and health care activities in order to detect and predict congenital and inherited disorders. HHS would also not be able to ensure the availability of and access to quality genetic and genomic services for Iowans.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

HHS is implementing an isolation and quarantine process and reporting for certain diseases and conditions in accordance with the Iowa Code. A less costly method has not been identified to achieve the purpose of this rulemaking.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS implements isolation and quarantine measures in accordance to requirements of the Iowa Code. The Department does have flexibility in setting parameters for process and investigation cooperation, as well as the reporting structure for communicable and noncommunicable diseases and conditions. The Department also has some flexibility in the communicable and noncommunicable diseases and conditions required to be reported pursuant to authority in Iowa Code. No alternative methods have been seriously considered as HHS believes these are the most effective for both cost and maintenance of public health.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

HHS believes the parameters established in this chapter for education, testing, and vaccination are at a level necessary to protect public health and safety.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 1 and adopt the following new chapter in lieu thereof:

CHAPTER 1 REPORTABLE DISEASES, POISONINGS AND CONDITIONS,

AND QUARANTINE AND ISOLATION

641—1.1(139A) Definitions. For the purpose of these rules, the following definitions will apply:

“*AIDS*” means the same as defined in Iowa Code chapter 141A.

“*Area quarantine*” means the same as defined in Iowa Code chapter 139A.

“*Business*” means the same as defined in Iowa Code chapter 139A.

“*Care provider*” means the same as defined in Iowa Code chapter 139A.

“*Case*” means an individual who has confirmatory evidence of disease.

“*Clinical laboratory*” means any laboratory performing analyses on specimens taken from the body of a person in order to assess that person’s health status.

“*Communicable disease*” means the same as defined in Iowa Code chapter 139A.

“*Congenital or inherited disorder*” means any congenital disorder as defined in Iowa Code chapter 136A or any inherited disorder as defined in Iowa Code chapter 136A.

“*Disease surveillance*” means the ongoing, systematic collection, analysis, and interpretation of health-related data essential for planning, implementation, and evaluation of public health programs and practices.

“*Exposure*” means contact with an agent in a manner that could cause disease or infection.

“*HBV*” means the same as Iowa Code chapter 139A.

“*Health care facility*” means the same as Iowa Code chapter 139A.

“*Health care provider*” means the same as defined in Iowa Code chapter 139A.

“*HIV*” means the same as defined in Iowa Code chapter 141A.

“*Hospital*” means the same as defined in Iowa Code chapter 135B.

“*IDSS*” means the Iowa disease surveillance system, a secure electronic statewide disease reporting and surveillance system.

“*Infectious disease*” means a disease caused by the entrance into the body of organisms, including but not limited to bacteria, protozoans, fungi, prions, or viruses which grow and multiply.

“*Infectious tuberculosis*” means pulmonary or laryngeal tuberculosis as evidenced by:

1. Isolation of *M. tuberculosis* complex (positive culture) from a clinical specimen or positive nucleic acid amplification test, or

2. Both radiographic evidence of tuberculosis, such as an abnormal chest X ray, CT, PET or MRI scan, and clinical evidence, such as a positive skin test or whole blood assay test for tuberculosis infection, coughing, sputum production, fever, or other symptoms compatible with infectious tuberculosis that lead a health care provider to diagnose infectious tuberculosis according to currently acceptable standards of medical practice and to initiate treatment for tuberculosis.

“*Investigation*” means an inquiry conducted to determine the specific source, mode of transmission, and cause of a disease or suspected disease occurrence and to determine the specific incidence, prevalence, and extent of the disease in the affected or general population. “Investigation” may also include the application of scientific methods and analysis to institute appropriate control measures.

“*Isolation*” means the same as defined in Iowa Code chapter 139A.

“*Local board*” means the same as defined in Iowa Code chapter 139A.

“*Local department*” means the same as defined in Iowa Code chapter 139A.

“*Placard*” means the same as Iowa Code chapter 139A.

“*Poison control or poison information center*” means any organization or program which has as one of its primary objectives the provision of toxicologic and pharmacologic information and referral services to the public and to health care providers (other than pharmacists) in response to inquiries about actual or potential poisonings.

“*Public health disaster*” means an incident as defined in Iowa Code section 135.140.

“*Quarantinable disease*” means any communicable disease that presents a risk of serious harm to public health and that may require isolation or quarantine to prevent its spread. “Quarantinable disease” includes but is not limited to cholera, diphtheria, infectious tuberculosis, plague, smallpox, yellow fever, viral hemorrhagic fevers, novel influenza, and severe acute respiratory syndrome (SARS).

“*Quarantine*” means the same as defined in Iowa Code chapter 139A.

“*Reportable cancers*” means those cancers included in the National Cancer Institute’s Surveillance, Epidemiology and End Results (SEER) Program.

“*Reportable disease*” means any disease or condition approved by the state epidemiologist or medical director and designated by this chapter.

“*Sexually transmitted disease or infection*” or “*STI*” means a disease or infection as identified by this chapter that is transmitted through sexual practices. “Sexually transmitted disease or infection” includes, but is not limited to, acquired immunodeficiency syndrome (AIDS), chlamydia, gonorrhea, hepatitis B, hepatitis C, human immunodeficiency virus (HIV), human papillomavirus, and syphilis.

“*Suspected case*” means an individual that presents with clinical signs or symptoms indicative of a reportable or quarantinable disease.

“*Toxic agent*” means any noxious substance in solid, liquid or gaseous form capable of producing illness in humans including, but not limited to, pesticides as defined in Iowa Code chapter 206, heavy metals, organic and inorganic dusts and organic solvents. Airborne toxic agents may be in the form of dusts, fumes, vapors, mists, gases or smoke.

641—1.2(139A) Authority. The director is the principal officer of the state to administer disease, poisoning and condition, and incident reporting and control. The Iowa Cancer Registry, administered by the Department of Epidemiology of the College of Public Health at the University of Iowa, is a public health authority for purposes of collecting cancer data in accordance with this chapter.

641—1.3(139A,141A) Reportable communicable and infectious diseases, poisonings or conditions, and cancers. Reportable communicable and infectious diseases, poisonings and conditions under this chapter are those listed in Appendices A and B. The director may also designate any disease, poisoning or condition or syndrome temporarily reportable for the purpose of a special investigation.

1.3(1) Cancer. Pursuant to Public Law 92-218 and Public Law 102-515, each occurrence of a reportable cancer that is diagnosed or treated in an Iowa resident or occurs in a nonresident who is diagnosed or treated in an Iowa facility shall be reported to the Iowa Cancer Registry.

1.3(2) Congenital and inherited disorders. Each occurrence of a congenital and inherited disorder that is diagnosed or treated in an Iowa resident or occurs in a nonresident who is diagnosed or treated in an Iowa facility is a reportable condition pursuant to Iowa Code chapter 136A, and records of these congenital and inherited disorders shall be abstracted and maintained in a central registry. Congenital and inherited disorder surveillance shall be performed to determine the occurrence and trends of congenital and inherited disorders, to conduct thorough and complete epidemiological surveys, to assist in the planning for and provision of services to children with congenital and inherited disorders and their families, and to identify environmental and genetic risk factors for congenital and inherited disorders.

641—1.4(135,139A) Reporting requirements.

1.4(1) Who is required to report.

a. Communicable and infectious diseases, and poisonings.

(1) Health care providers, hospitals, and clinical laboratories and other health care facilities are required to report cases of reportable diseases, poisonings and conditions. Health care providers and hospitals are exempted from reporting communicable and infectious disease laboratory results and blood lead testing if the healthcare provider or hospital ensures that the laboratory performing the analysis provides a report containing the required information to the department.

(2) School nurses are required to report suspected cases of a reportable disease, poisoning or condition occurring among the children supervised.

(3) Poison control and poison information centers are required to report inquiries about cases of a reportable disease, poisoning or condition received by them.

(4) Medical examiners are required to report their investigatory findings of any death which was caused by or otherwise involved a reportable disease, poisoning or condition.

(5) Occupational nurses are required to report cases of reportable diseases, poisonings and conditions.

(6) Hospitals, health care providers and clinical laboratories outside the state of Iowa shall immediately report any confirmed or suspected case of a reportable disease, poisoning or condition in an Iowa resident.

b. Reportable cancers. Health care providers, hospitals, clinical laboratories and health care facilities involved in the diagnosis, care or treatment of individuals with a reportable cancer.

c. Congenital and inherited disorders. Health care providers, clinics, clinical laboratories and other health care facilities are required to report cases of a congenital or inherited disorder.

1.4(2) *What to report.* Each report will contain all information as listed in Iowa Code chapter 139A, in addition to:

a. For communicable and infectious diseases:

- (1) The name of the reportable disease.
- (2) The treatment provided for the reportable disease.

b. For poisonings:

- (1) The analytical result.
- (2) In the case of blood lead testing, whether the sample is a capillary or venous blood sample.
- (3) For conditions not identified by a laboratory analysis, the date that the condition was diagnosed.
- (4) In the case of occupational conditions, the name of the patient's employer.

c. For reportable cancers:

- (1) Follow-up data.
- (2) Demographic, diagnostic, prognostic, treatment, and other medical information.

d. For congenital and inherited conditions:

- (1) Follow-up data.
- (2) Demographic, diagnostic, treatment and other medical information.
- (3) Tissue samples may also be submitted.

1.4(3) *How to report.* Information on when and how to report any of the diseases, conditions, or injuries included in this chapter can be found in Appendices A and B.

a. Immediate reporting by telephone of diseases identified as immediately reportable. A health care provider and a public, private, or hospital clinical laboratory will immediately report any confirmed or suspect case of a disease identified in Appendix A as immediately reportable to the department.

b. Other diseases that carry serious consequences or spread rapidly. A health care facility, health care provider and a public, private, or hospital clinical laboratory will immediately report any confirmed or suspected case of a common source epidemic or disease outbreak of unusual numbers.

c. Reporting to other public health authorities. The department may authorize hospitals, health care providers or clinical laboratories outside the state of Iowa to report any confirmed or suspect case of a reportable disease, poisoning, or condition to another public health authority for the purpose of facilitating a report to the department.

d. Cancers. The department has delegated to the Iowa Cancer Registry the responsibility for collecting cancer data.

(1) Those required to report shall submit required data to the Iowa Cancer Registry monthly, in an electronic format specified by the Iowa Cancer Registry. Those required to report may employ registrars with Iowa Cancer Registry-approved training, or contract with the Iowa Cancer Registry or an outside vendor to submit reportable cancer cases and required data elements to the Iowa Cancer Registry.

(2) As needed for SEER surveillance activities, the Iowa Cancer Registry shall have remote electronic access, where available, or physical access to all cancer-relevant medical records.

e. Congenital and inherited disorders. The department has delegated to the Iowa Registry for Congenital and Inherited Disorders the responsibility to maintain a central registry for congenital and inherited disorders. The Iowa Registry for Congenital and Inherited Disorders shall:

(1) Prior to collecting the data from health care providers, hospitals, clinics, clinical laboratories and other health care facilities, work with the reporting facility to develop a process for abstracting records which is agreeable to the reporting facility.

(2) Develop and distribute reporting forms where applicable.

(3) Develop an abstracting process for data to be supplemented with information obtained from records from hospitals, treatment centers, outpatient centers, clinics, pathology laboratories and physician offices.

INVESTIGATION

641—1.5(135,139A) Investigation of reportable diseases.

1.5(1) A health care provider and a public, private, or hospital clinical laboratory will provide the department, local board, or local department with all information necessary to conduct the investigation, including but not limited to medical records; exposure histories; medical histories; contact information; and test results necessary to the investigation, including positive, pending, and negative test results.

1.5(2) *Issuance of investigatory subpoenas.*

a. The department may upon the written request of a local board of health, the state public health medical director or the state public health epidemiologist or designee, subpoena records, reports, or any other evidence necessary to conduct a disease investigation. The subpoena will be signed by the department following review and approval of the written request for subpoena.

b. Process to challenge a subpoena. Any person who is aggrieved or adversely affected by compliance with the subpoena and who desires to challenge the subpoena shall follow 441—Chapter 7.

ISOLATION AND QUARANTINE

641—1.6(135,193A) Isolation and quarantine. Isolation and quarantine should be consistent with guidelines provided by the Centers for Disease Control and Prevention.

1.6(1) *General provisions.*

a. Voluntary confinement. Prior to instituting mandatory isolation or quarantine pursuant to this rule, the department or a local board of health may request that an individual or group of individuals voluntarily confine themselves to a private home or other facility.

b. Isolation and quarantine. The department and local boards of health are authorized to impose and enforce isolation and quarantine restrictions. Isolation and quarantine will rarely be imposed by the department or by local boards of health. If a quarantinable disease occurs in Iowa, individuals with a suspected or active quarantinable disease and contacts to the case may be isolated or quarantined as the particular situation requires. Any isolation or quarantine imposed by the department or a local board of health will be established and enforced in accordance with this rule.

1.6(2) *Conditions and principles.* The department and local boards of health will adhere to all of the following conditions and principles when isolating or quarantining individuals or a group of individuals:

a. The isolation or quarantine will be by the least restrictive means necessary to prevent the spread of a communicable or possibly communicable disease to others and may include, but not be limited to, confinement to private homes, other private premises, or public premises.

b. Isolated individuals will be confined separately from quarantined individuals.

c. The health status of isolated or quarantined individuals will be monitored regularly to determine if the individuals require further or continued isolation or quarantine.

d. If a quarantined individual subsequently becomes infected or is reasonably believed to have become infected with a communicable or possibly communicable disease, the individual will be promptly removed to isolation.

e. Isolated or quarantined individuals will be immediately released when the department or local board of health determines that the individuals pose no substantial risk of transmitting a communicable or possibly communicable disease.

f. The needs of isolated or quarantined individuals will be addressed in a systematic and competent fashion including, but not limited to, providing adequate food, clothing, shelter, means of communicating with those in and outside of isolation or quarantine, medication, and competent medical care.

g. The premises used for isolation or quarantine will be maintained in a safe and hygienic manner and will be designed to minimize the likelihood of further transmission of infection or other harm to isolated or quarantined individuals.

h. To the extent possible, cultural and religious beliefs will be considered in addressing the needs of individuals in isolation or quarantine premises and in establishing and maintaining the premises.

1.6(3) Examination, testing, and treatment of quarantinable diseases.

a. A health care provider who attends an individual with a suspected or active quarantinable disease will make all reasonable efforts in accordance with guidance from a local health department or the department to examine or cause all household and other known contacts of the individual to be examined by a health care provider. The health care provider will promptly report to the department the results of such examination. If the individual refuses or is unable to undergo examination, the health care provider will all promptly report such information to the department.

b. When required by the department, all contacts of an individual who has a suspected or active quarantinable disease, including all adult and minor contacts, will submit to a diagnostic test or tests or other monitoring. If any suspicious abnormality is found, steps satisfactory to the department will be taken to refer the individual promptly to a health care provider or appropriate medical facility for further evaluation and, if necessary, treatment. The department or the referring health care provider or facility will notify the receiving health care provider or facility of the suspicious abnormality. When requested by the department, a health care provider will report the results of the examination of a contact to the case or suspected case or incident. If an individual with a suspected or active quarantinable disease fails to comply with a department order to submit to diagnostic testing or monitoring, such individual may be ordered to be isolated or quarantined as determined by the department.

c. Upon order of the department or local board of health, an individual with a suspected or active quarantinable disease will not attend the workplace or school and will not be present at other public places until the individual receives the approval of the department or a local board of health to engage in such activity. Upon order of the department or local board of health, employers, schools and other public places will exclude an individual with a suspected or active quarantinable disease. An individual may also be excluded from other premises or facilities if the department or a local board of health determines the premises or facilities cannot be maintained in a manner adequate to protect others against the spread of the disease.

d. A person diagnosed with or clinically suspected of having infectious tuberculosis shall complete voluntary treatment until, in the opinion of the health care provider or the state public health medical director, the person's tuberculosis is cured or such person is no longer a threat to public health. If such person refuses to complete the course of voluntary treatment, the department or local board of health may issue an order compelling mandatory treatment. Such order shall include the identity of the person subject to the mandatory treatment order, a description of the treatment ordered, the medical basis upon which the treatment is ordered, and a description of the potential medical and legal consequences of violating such order. A person who violates a mandatory treatment order may be subject to the penalties provided in Iowa Code section 135.38 or 137.117 and may be placed under mandatory quarantine or isolation in accordance with the provisions of this chapter.

e. A person diagnosed with extrapulmonary tuberculosis or clinically suspected of having infectious tuberculosis who fails to comply with a health care provider's recommendation for diagnostic testing may be ordered to undergo diagnostic testing by the department or local board of health. Such order shall include the identity of the person subject to mandatory diagnostic testing, a description of the diagnostic testing ordered, the medical basis upon which the diagnostic testing is ordered, and a description of the potential medical and legal consequences of violating such order. A person who violates a mandatory diagnostic testing order may be subject to the penalties provided in Iowa Code section 135.38 or 137.117 and may be placed under mandatory quarantine or isolation in accordance with the provisions of this chapter.

1.6(4) Premises standards.

a. If deemed appropriate by the department, isolation or quarantine placards will be posted in accordance with Iowa Code chapter 139A.

b. An individual subject to isolation or quarantine shall obey the rules and orders of the department or the local board of health and shall not go beyond the isolation or quarantine premises unless expressly authorized to do so by the order.

c. The department or a local board of health may authorize physicians, health care workers, or others access to individuals in isolation or quarantine as necessary to meet the needs of isolated or quarantined individuals.

d. No individual, other than an individual authorized by the department or a local board of health, will enter isolation or quarantine premises. If the department has requested the assistance of law enforcement in enforcing the isolation or quarantine, the department will provide law enforcement personnel with a list of individuals authorized to enter the isolation or quarantine premises.

e. Any individual entering an isolation or quarantine premises with or without authorization of the department or a local board of health may be isolated or quarantined pursuant to this rule.

1.6(5) Isolation and quarantine by local boards of health.

a. A local board of health may:

- (1) Isolate individuals who are presumably or actually infected with a quarantinable disease;
- (2) Quarantine individuals who have been exposed to a quarantinable disease;
- (3) Establish and maintain places of isolation and quarantine; and
- (4) Adopt emergency rules and issue orders as necessary to establish, maintain, and enforce isolation or quarantine.

b. Isolation and quarantine undertaken by a local board of health will be accomplished according to the rules and regulations of the local board of health so long as such rules are not inconsistent with this chapter.

1.6(6) Isolation and quarantine by the department.

a. Authority.

(1) The department may:

1. Isolate individuals or groups of individuals who are presumably or actually infected with a quarantinable disease; and
2. Quarantine individuals or groups of individuals who have been exposed to a quarantinable disease, including individuals who are unable or unwilling to undergo examination, testing, vaccination, or treatment, pursuant to Iowa Code section 135.144.

(2) The department may:

1. Establish and maintain places of isolation and quarantine; and
2. Adopt emergency rules and issue orders as necessary to establish, maintain, and enforce isolation or quarantine.

(3) Isolation and quarantine undertaken by the department, including isolation and quarantine undertaken by the department in the event of a public health disaster, will be established pursuant to paragraph 1.6(6)“b” or “c.”

b. *Temporary isolation and quarantine without notice.* The department may temporarily isolate or quarantine an individual or groups of individuals through an oral order, without notice, only if delay in imposing the isolation or quarantine would significantly jeopardize the department’s ability to prevent or limit the transmission of a communicable or possibly communicable disease to others. If the department imposes temporary isolation or quarantine of an individual or groups of individuals through an oral order, the department will issue a written order as soon as is reasonably possible and in all cases within 24 hours of issuance of the oral order if continued isolation or quarantine is necessary to prevent or limit the transmission of a communicable or possibly communicable disease.

c. *Written order.* The department may isolate or quarantine an individual or groups of individuals through a written order issued pursuant to this rule.

(1) The written order will include all of the following:

1. The identity of the individual, individuals, or groups of individuals subject to isolation or quarantine.
2. The premises subject to isolation or quarantine.
3. The date at which isolation or quarantine commences.

4. The date at which isolation or quarantine commences.
5. A description of the less restrictive alternatives that were attempted and were unsuccessful, or the less restrictive alternatives that were considered and rejected, and the reasons such alternatives were rejected.
6. A statement of compliance with the conditions and principles for isolation and quarantine specified in subrule 1.9(3).
7. The legal authority under which the order is requested.
8. The medical basis upon which isolation or quarantine is justified.
9. A statement advising the individual, individuals, or groups of individuals of the right to appeal the written order and the rights of individuals and groups of individuals subject to quarantine and isolation.

(2) A copy of the written order will be provided to the individual to be isolated or quarantined within 24 hours of issuance of the order in accordance with any applicable process authorized by the Iowa Rules of Civil Procedure. If the order applies to a group or groups of individuals and it is impractical to provide individual copies, the order may be posted in a conspicuous place in the isolation or quarantine premises.

1.6(7) *Appeal from order imposing isolation or quarantine.* Individuals have the right to appeal an order imposing isolation or quarantine. Appeal procedures are as laid forth in 441—Chapter 7.

1.6(8) *Implementation and enforcement of isolation and quarantine.*

a. Jurisdictional issues. The department has primary jurisdiction to isolate or quarantine individuals or groups of individuals if the communicable disease outbreak has affected more than one county or has multicounty, statewide, or interstate public health implications. When imposing isolation or quarantine, the department will coordinate with the local health department as appropriate. If isolation or quarantine is imposed by the department, a local board of health or local health department may not alter, amend, modify, or rescind the isolation or quarantine order.

b. Assistance of local boards of health and local health departments. If isolation or quarantine is imposed by the department, the local boards of health and the local health departments in the affected areas will assist in the implementation of the isolation or quarantine order.

c. Assistance of law enforcement. Pursuant to Iowa Code chapter 135, all peace officers of the state will enforce and execute a lawful department order for isolation or quarantine within their respective jurisdictions. The department will take all reasonable measures to minimize the risk of exposure to peace officers and others assisting with enforcement of an isolation or quarantine order.

d. Penalty. Violation of a lawful isolation or quarantine order will be subject to penalties pursuant to Iowa Code chapter 135.

e. Enforcement action. The department may file a civil action in Polk County district court or in the district court for the county in which the individual resides or is located to enforce a department order for isolation or quarantine. Such action will be filed in accordance with the Iowa Rules of Civil Procedure.

641—1.7(135,139A) Area quarantine.

1.7(1) *General provisions.* The department and local boards of health are authorized to impose and enforce area quarantine in accordance with this rule. Area quarantine will rarely be imposed by the department or by local boards of health.

1.7(2) *Conditions and principles.* The department and local boards of health will adhere to all of the following conditions and principles when imposing and enforcing area quarantine:

a. Area quarantine will be imposed by the least restrictive means necessary to prevent or contain the spread of a suspected or confirmed quarantinable disease or suspected or known hazardous or toxic agent.

b. Area quarantine will be immediately terminated when the department or a local board of health determines that no substantial risk of exposure to a quarantinable disease or hazardous or toxic agent continues to exist.

c. The geographic boundaries of an area quarantine will be established by risk assessment procedures including medical and scientific analysis of the quarantinable disease or hazardous or toxic agent, the location of the affected area, the risk of spread or contamination, and other relevant information.

1.7(3) Area quarantine sites.

a. Sites of area quarantine will be prominently identified to restrict ingress to and egress from, to the extent practicable. The department or a local board of health may placard or otherwise identify the site, or may request the assistance of law enforcement in identifying the site.

b. No individual, other than an individual authorized by the department or a local board of health, will enter a building, structure, or other physical location subject to area quarantine. The department or a local board of health may authorize public health officials, environmental specialists, health care providers, or others access to an area quarantine site as necessary to conduct public health investigations, to decontaminate the site, or for other public health purposes. Notwithstanding any provision in this chapter to the contrary, law enforcement, fire service, and emergency medical service providers may enter an area quarantine site to provide emergency response services or to conduct emergency law enforcement investigations or other emergency activities without authorization by the department or a local board of health. If the department has requested the assistance of law enforcement in enforcing the area quarantine, the department will provide law enforcement personnel with a list of individuals authorized to enter the area quarantine site.

c. An individual authorized to enter an area quarantine site may be required to wear personal protective equipment as appropriate.

d. No individual, other than an individual authorized by the department or a local board of health, will remove any item or object from a building, structure, or other physical location subject to area quarantine.

e. An individual entering an area quarantine site without the department's or local board of public health's authorization may be isolated or quarantined and may be found guilty of a simple misdemeanor.

1.7(4) Area quarantine by local boards of health or the department.

a. Authority.

(1) The department, through the director, the department's medical director, or the director or medical director's designee, may impose area quarantine through oral or written order. Prior to imposing area quarantine, the department will attempt to notify the local board or boards of health in the affected geographic area. If attempts to notify the local boards of health are initially unsuccessful, the department will continue to make regular notification attempts until successful.

(2) A local board of health may impose area quarantine through oral or written order. Prior to imposing area quarantine, a local board of health will attempt to notify the department by contacting the director, medical director, or department duty officer by telephone. If attempts to notify the department are initially unsuccessful, the local board of health will continue to make regular notification attempts until successful.

b. *Temporary area quarantine without notice.* The department or a local board of health may temporarily impose area quarantine through an oral order, without notice, only if delay in imposing area quarantine would significantly jeopardize the department's or local board's ability to prevent or contain the spread of a suspected or confirmed quarantinable disease or to prevent or contain exposure to a suspected or known hazardous or toxic agent. If the department or local board imposes temporary area quarantine through an oral order, a written order will be issued as soon as is reasonably possible and in all cases within 24 hours of issuance of the oral order if continued area quarantine is necessary.

c. *Written order.* The department or local board may impose area quarantine through a written order issued pursuant to this rule.

(1) The written order will include all of the following:

1. The building or buildings, structure or structures, or other definable physical location, or portion thereof, subject to area quarantine.

2. The date the area quarantine commences and the date the area quarantine will be terminated, if known.

3. The suspected or confirmed quarantinable disease or the chemical, biological, radioactive, or other hazardous or toxic agent.
4. A statement of compliance with the conditions and principles for area quarantine specified in subrule 1.13(2).
5. The legal authority under which the order is imposed.
6. The medical or scientific basis upon which area quarantine is justified.
7. A statement advising the owner or owners of the building or buildings, structure or structures, or other definable physical location subject to area quarantine of the right to appeal the written order and the rights of owners of sites subject to area quarantine.

(2) A copy of the written order will be provided to the owner or owners of the building or buildings, structure or structures, or other definable physical location subject to area quarantine within 24 hours of issuance of the order in accordance with any applicable process authorized by the Iowa Rules of Civil Procedure; or, if the order applies to a group of owners and it is impractical to provide individual notice to each owner, the written order will be posted in a conspicuous place at the site of area quarantine.

1.7(5) Implementation and enforcement of area quarantine.

a. Jurisdictional issues. The department has primary jurisdiction to impose area quarantine if the quarantinable disease or hazardous or toxic agent has affected more than one county and implicates multicounty or statewide public health concerns. If area quarantine is imposed by the department, a local board of health or local health department may not alter, amend, modify, or rescind the area quarantine order.

b. Assistance of local boards of health and local health departments. If area quarantine is imposed by the department, the local boards of health and the local health departments in the affected areas will assist in the implementation of the area quarantine.

c. Assistance of law enforcement. Pursuant to Iowa Code chapter 135, all peace officers of the state will enforce and execute a lawful department order for area quarantine within their respective jurisdictions. The department will take all reasonable measures to minimize the risk of individual exposure of peace officers and others assisting with enforcement of an area quarantine order.

d. Emergency response, investigation, and decontamination—authority of other agencies. Emergency response, investigation, and decontamination activities in and around an area quarantine site will be conducted by law enforcement, fire service, emergency medical service providers, or other appropriate federal, state, or local officials in accordance with federal and state law and accepted procedures and protocols for emergency response, investigation, and decontamination. This rule is not to be construed to limit the authority of law enforcement, fire service, emergency medical service providers, or other federal, state, or local officials to conduct emergency response, investigation, or decontamination activities to the extent authorized by federal and state law and accepted procedures and protocols.

e. Penalty. Violation of this section will result in penalty pursuant to Iowa Code chapter 135.

f. Enforcement action. To enforce a department order for quarantine, the department may file a civil action in Polk County District Court or in the district court for the county in which the area quarantine will be enforced. Such action will be filed in accordance with the Iowa Rules of Civil Procedure.

641—1.8(139A,22) Confidentiality. Reportable disease records and information, with the exception of AIDS and HIV records, which identify a person or a business named in a report, may be disclosed under the following limited circumstances:

1.8(1) By and between department employees and agents who have a need for the record in the performance of their duties.

1.8(2) By and between department employees and agents and local boards of health and local health departments as necessary to conduct disease surveillance and investigation, to the extent necessary to protect the health or life of the named party, or to enforce a department order or an order of a local board of health.

1.8(3) By and between department employees and agents and health care providers, laboratories, and hospitals as necessary to conduct disease surveillance or an investigation, to the extent necessary to protect the health or life of the named party, or to enforce a department order or an order of a local board of health.

1.8(4) By and between department employees and agents and employees and agents of federal, state, and local agencies as necessary to conduct disease surveillance or an investigation or to enforce a department order or an order of a local board of health.

1.8(5) By and between department employees and agents and employees and agents of tribes and tribal public health authorities as necessary to conduct disease surveillance or an investigation or to enforce a department order or an order of a local board of health.

1.8(6) Reportable disease information may be included in an isolation or quarantine order or placard as necessary to prevent the spread of a quarantinable disease.

1.8(7) Pursuant to rule 641—175.9(17A,22) or 641—175.10(17A,22).

STATE HYGIENIC LABORATORY

641—1.9(135,139A) Specimens for which the fee charged by the state hygienic laboratory will be waived. Pursuant to Iowa Code section 263.8, the state hygienic laboratory will waive testing fees for conditions deemed to be of public health significance by the department with approval from the state medical director or the state epidemiologist. A list of conditions and the criteria for which the fee is waived can be found on the HHS website.

APPENDIX A

Iowa Department of Health and Human Services Table of Reportable Communicable and Infectious Diseases

Report cases of the diseases listed in the following table to the department within the time frame specified in the When to Report column and by the reporting method in the How to Report column.

To report diseases immediately, use the 24/7 disease reporting telephone hotline: 1-800-362-2736.

IMMEDIATELY report diseases, syndromes, poisonings and conditions of any kind suspected or caused by a biological, chemical, or radiological agent or toxin when there is reasonable suspicion that the disease, syndrome, poisoning or condition may be the result of a deliberate act such as terrorism.

IMMEDIATELY report to the department outbreaks of any kind, diseases that occur in unusual numbers or circumstances, unusual syndromes, or uncommon diseases. Outbreaks may be infectious, environmental or occupational in origin and include food-borne outbreaks or illness secondary to chemical exposure (e.g., pesticides, anhydrous ammonia).

Report diseases by:

Entering into the Iowa Disease Surveillance System (IDSS): For IDSS-related questions, call the Center for Acute Disease Epidemiology (CADE) at 1-800-362-2736.

Fax: (515)281-5698

Mail:

Iowa Department of Health and Human Services
Center for Acute Disease Epidemiology
Lucas State Office Building
321 E. 12th Street

Des Moines, Iowa 50319

Isolates or specimens shall be sent to:
 State Hygienic Laboratory at the University of Iowa (SHL)
 U of I Research Park
 2490 Crosspark Road
 Coralville, Iowa 52241-4721

For specimen submission questions, call (319)335-4500 or go to www.shl.uiowa.edu.

| Diseases | When to Report | How to Report |
|---|-----------------------|---|
| Acquired immune deficiency syndrome (AIDS) and AIDS-defining conditions | 7 days | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. Report by one of the following methods: Phone (515)242-5141 or (515)281-6918 Mail <ul style="list-style-type: none"> • Health care providers: use the Pediatric or Adult Confidential Case Report Form • Laboratories: send copy of lab report or the Iowa Confidential Report of Sexually Transmitted Disease & HIV Infection. Mark envelope "Attention 03" For HIV/AIDS-related questions, call (515)242-5141 |
| Anthrax | Immediately | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. 24/7 disease reporting telephone hotline: 1-800-362-2736 |
| Botulism (including infant botulism) | Immediately | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. 24/7 disease reporting telephone hotline: 1-800-362-2736 |
| Brucellosis (Brucella) | 3 days | Report for Iowa residents. Phone, IDSS, fax or mail |
| Campylobacteriosis (Campylobacter) | 3 days | Report for Iowa residents. Phone, IDSS, fax or mail |
| Chlamydia | 3 days | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. Report by one of the following methods: Secure electronic data system (as determined by the Department) Fax (515)725-1278 Phone (515)281-3031 Mail <ul style="list-style-type: none"> • Use the Iowa Confidential Report of Sexually Transmitted Disease • Mark envelope "Attention 00" |
| Cholera | Immediately | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. 24/7 disease reporting telephone hotline: 1-800-362-2736 |
| Cryptosporidiosis | 3 days | Report for Iowa residents. Phone, IDSS, fax or mail |
| Cyclospora | 3 days | Report for Iowa residents. Phone, IDSS, fax or mail |

| Diseases | When to Report | How to Report |

| Syphilis | 3 days | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. Report by one of the following methods: Secure electronic data system (as determined by the Department) Fax (515)725-1278 Phone (515)281-3031 Mail <ul style="list-style-type: none"> • Use the Iowa Confidential Report of Sexually Transmitted Disease • Mark envelope "Attention 00" |
| Tetanus | 3 days | Report for Iowa residents. Phone, IDSS, fax or mail |
| Tickborne diseases (includes anaplasmosis, babesiosis, ehrlichiosis, Lyme disease, and Rocky Mountain spotted fever) | 3 days | Report for Iowa residents. Phone, IDSS, fax or mail |
| Tuberculosis, pulmonary and laryngeal (infectious) | 1 day | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. Phone (515)281-7504 or fax to (515)281-4570 |
| Tuberculosis, extrapulmonary | 3 days | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. Phone (515)281-7504 or fax to (515)281-4570 |
| Tularemia | 3 days | Report for Iowa residents. Phone, IDSS or fax |
| Typhoid fever | 1 day | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. Phone, IDSS or fax |
| Vancomycin intermediate Staphylococcus aureus (VISA) and vancomycin-resistant Staphylococcus aureus (VRSA) | 1 day | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. Phone, IDSS or fax Laboratories send isolate or specimen to the SHL |
| Viral hemorrhagic fever (VHF) (e.g., Lassa, Marburg, Ebola, and Crimean-Congo) | Immediately | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. 24/7 disease reporting telephone hotline: 1-800-362-2736 |
| Yellow fever | Immediately | Report for Iowa residents and for residents of other states diagnosed or treated in Iowa. 24/7 disease reporting telephone hotline: 1-800-362-2736 |

APPENDIX B**Iowa Department of Health and Human Services
Table of Reportable Poisonings and Conditions**

Report cases of the poisonings and conditions listed in the following table to the department within the time frame specified in the When to Report column and by the reporting method in the How to Report column.

To report diseases immediately, use the 24/7 disease reporting telephone hotline: 1-800-362-2736.

IMMEDIATELY report diseases, syndromes, poisonings and conditions of any kind suspected or caused by a biological, chemical, or radiological agent or toxin when there is reasonable suspicion that the disease, syndrome, poisoning or condition may be the result of a deliberate act such as terrorism.

IMMEDIATELY report to the department outbreaks of any kind, diseases that occur in unusual numbers or circumstances, unusual syndromes, or uncommon diseases. Outbreaks may be infectious, environmental or occupational in origin and include food-borne outbreaks or illness secondary to chemical exposure (e.g., pesticides, anhydrous ammonia).

Mailing address:

Bureau of Environmental Health Services
Iowa Department of Health and Human Services
321 East 12th Street
Des Moines, Iowa 50319-0075

Telephone: 1-800-972-2026

Fax: (515)281-4529

| Poisoning or Condition | Cases to Report | When to Report | How to Report |
|-------------------------------|---|-----------------------|--|
| Arsenic poisoning | Blood arsenic values equal to or greater than 70 µg/L Urine arsenic values equal to or greater than 100 µg/g of creatinine | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Blood lead testing | All analytical results greater than or equal to 20 micrograms per deciliter (µg/dL) in a child under the age of 6 years or a pregnant woman | Daily | By telephone: 1-800-972-2026 |
| | All other analytical values for all blood lead analyses | Weekly | Electronic format specified by the department |
| Cadmium poisoning | Blood cadmium values equal to or greater than 5 µg/L Urine cadmium values equal to or greater than 3 µg/g of creatinine | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |

| Poisoning or Condition | Cases to Report | When to Report | How to Report |
|--|--|----------------|--|
| Carbon monoxide (CO) poisoning | Blood carbon monoxide level equal to or greater than 10% carboxyhemoglobin or its equivalent with a breath analyzer test, or a clinical diagnosis of CO poisoning regardless of any test results | Daily | By telephone: 1-800-972-2026 |
| Hypersensitivity pneumonitis | All cases | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Mercury poisoning | Blood mercury values equal to or greater than 2.8 µg/dL Urine mercury values equal to or greater than 20 µg/L | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Methemoglobinemia | Blood analyses showing greater than 5% of total hemoglobin present as methemoglobin | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Microcystin toxin poisoning | All cases | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Noncommunicable respiratory illness | All cases | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Occupationally related asthma, bronchitis or respiratory hypersensitivity reaction | All cases | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Pesticide poisoning (including pesticide-related contact dermatitis) | All cases | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Severe skin disorder | All cases | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |
| Toxic hepatitis | All cases | Weekly | Format specified by department. Electronic reporting if available. Alternatives include by mail, telephone, and facsimile. |

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 2
“Hepatitis Programs”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 135.19
State or federal law(s) implemented by the rulemaking: No answer provided

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

Via video/conference call:
meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

This chapter defines parameters of a viral hepatitis program. This program is designed to identify people most at risk of exposure to viral hepatitis and to distribute information regarding dangers presented by the disease and to make available hepatitis A and hepatitis B vaccinations and hepatitis C testing.

Rule language defines a list of individuals by category who are at an increased risk for viral hepatitis exposure and details the nature of educational information to be provided to such individuals, as well as the form and manner of information distribution. A vaccination and testing program is established offering testing through local health departments, clinics, and community-based organizations to individuals most impacted by the viruses. Agencies offering testing and vaccination services are also to provide education materials, pretest and posttest counseling, and referral services.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Not applicable.
 - Classes of persons that will benefit from the proposed rulemaking:
Individuals at increased risk for exposure to viral hepatitis will benefit. Communities in which individuals at increased risk of exposure to viral hepatitis live will also benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Estimated figures below are projections based on past program performance as included in the Red Tape Rule Report for this chapter.

Identified Impacts*

| | SFY2024 | SFY2025 | SFY2026 | SFY2027 | SFY2028 | 5-Year Total |
|---------------------------------|---------------|---------------|---------------|---------------|---------------|---------------|
| Costs | | | | | | |
| HHS Implementation | (\$129,000) | (\$130,000) | (\$128,000) | (\$128,000) | (\$127,000) | (\$642,000) |
| Benefits | | | | | | |
| Improved Public Health & Safety | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | Indeterminate | Indeterminate | Indeterminate | Indeterminate | Indeterminate | Indeterminate |

*All monetary figures have been rounded to the nearest thousandth.

- Qualitative description of impact:

Providing access to vaccination and testing for individuals most at risk of exposure to viral hepatitis prevents further spreading of the virus, thus protecting public health and safety. Testing individuals increases the number of people at increased risk of exposure who are aware of their hepatitis C virus (HCV) status. This allows for individuals living with HCV to be linked to treatment earlier preventing costly medical conditions including cirrhosis and hepatocellular carcinoma. In 2022, contracted agencies conducted 1,026 HCV tests and identified 47 people living with HCV. This represented 6.9 percent of all new diagnoses in Iowa in 2022 (compared to 4.3 percent in 2021 and 4.1 percent over the five-year period).

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs costs for personnel, test kits, vaccines, and processing of laboratory tests at the State Hygienic Laboratory. Testing and vaccination is provided through contracted services. These costs are reflected in the table above as “HHS Implementation.”

- Anticipated effect on state revenues:

No impact on state revenues has been identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost benefit analysis above shows a net value of improved public health and safety. Eliminating the viral hepatitis program, or components thereof, would result in a decrease in available education, testing, vaccination, and treatment of the virus. This may result in increased community spread and a negative impact on public health and safety.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Tests and vaccines are offered to Iowans at no cost on a voluntary basis. Local public health and community-based organizations are reimbursed for their time and effort. This chapter defines those at increased risk of exposure to viral hepatitis as outlined by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services. HHS has established parameters for education, testing, and vaccination at the level the Department of Public Health feels necessary to protect public health and safety. A less costly method has not been identified to achieve the purpose of this rulemaking.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS implements the viral hepatitis program in accordance with requirements of the Iowa Code. The Department has flexibility in setting parameters for educational information to be provided to individuals

at risk of exposure, as well as the form and manner of information distribution. The Department also has some flexibility in establishing testing and vaccination parameters for local health departments, clinics, and community-based organizations conducting testing under the program.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

HHS believes the parameters established in this chapter for education, testing, and vaccination are at a level necessary to protect public health and safety.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 2 and adopt the following **new** chapter in lieu thereof:

CHAPTER 2 HEPATITIS PROGRAMS

VIRAL HEPATITIS PROGRAM—VACCINATIONS AND TESTING

641—2.1(135) Definitions. For the purpose of these rules, the following definitions shall apply:

“*Contracted agencies*” means local health departments, clinics, and community-based organizations that are funded by the department to provide HCV testing and vaccination services.

“*HCV*” means the hepatitis C virus as defined by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.

“*HIV*” means the same as defined in Iowa Code section 141A.1.

“*Viral hepatitis*” means inflammation of the liver caused by one of several viruses: hepatitis A, B, C, D, and E.

641—2.2(135) Exposure risks for hepatitis C virus. The following individuals are at increased risk of exposure to HCV as described by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services:

- People living with HIV;
- People who have ever injected drugs;
- People with selected medical conditions, including those who ever received maintenance hemodialysis;
- Recipients of clotting factors made before 1987;

- e.* Recipients of blood transfusions, blood products, and organ transplants that occurred before 1992;
- f.* Health care, emergency medical, and public safety personnel after needle sticks, sharps, or mucosal exposures to HCV-positive blood; and
- g.* Infants born to mothers living with HCV.

641—2.3(135) Information for public distribution. The department will make available educational materials to the public on hepatitis C infection, transmission, and where to seek testing services as defined on the department's website.

641—2.4(135) Hepatitis vaccination and testing program.

2.4(1) When sufficient state and federal funds are available, the department will maintain a vaccination and testing program. The program shall offer HCV testing and hepatitis A and B vaccinations through local health departments, clinics, and community-based organizations to individuals at an increased risk of exposure to viral hepatitis as described in the Viral Hepatitis Prevention and Testing Services Manual dated December 2023 and available on the department's website. Contracted agencies offering testing and vaccination services shall be required to provide integrated HIV, viral hepatitis, and sexually transmitted infection education; pretest and posttest counseling; and referral services.

2.4(2) Contracted agencies shall provide individuals presenting for testing and/or vaccination services with education explaining viral hepatitis and how to reduce the risk of acquiring it.

2.4(3) Contracted agencies shall provide individuals testing positive for viral hepatitis with information about the diagnosis and treatment options and with a referral list of health care providers to aid in seeking treatment, additional follow-up testing, and other hepatitis-related services.

These rules are intended to implement Iowa Code section 135.19.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 7
“Immunization and Immunization Education: Persons Attending Elementary or Secondary Schools,
Licensed Child Care Centers or Institutions of Higher Education”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 139A.8, 139A.26, and 22.7
State or federal law(s) implemented by the rulemaking: Not applicable

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 7 describes immunization requirements for all persons enrolled or attempting to enroll in a licensed child care center or a public or nonpublic elementary or secondary school in Iowa, including those who are provided private instruction. Required immunizations listed in the chapter are those defined by the Iowa Code or approved by the Council on Health and Human Services.

The chapter defines procedure for members of the public to comply with immunization requirements, including how to:

- Request an individual exclusion for medical or religious reasons.
- Provide required education on meningococcal disease to students of institutions of higher education with an on-campus residence hall or dormitory.
- Provide proof of immunization to the school or licensed child care center in which the applicant wishes to enroll.
- Maintain records and complete reporting duties as an admitting official of a licensed child care center or elementary or secondary school.

HHS maintains a statewide immunization and health screening registry to allow enrolled users to maintain and access immunization and health screening histories for purposes of ensuring that patients are fully immunized and screened.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Parents with children receiving required immunizations, or their health insurance provider, and adults receiving required immunizations, or their health insurance provider, will bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:

Licensed child care centers, public or nonpublic elementary or secondary schools, and private education providers serving immunized students will benefit.

Communities in which immunized persons reside will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Estimated figures below are projections based on past program performance as included in the Red Tape Rule Report for this chapter.

Identified Impacts*

| | SFY 2024 | SFY 2025 | SFY 2026 | SFY 2027 | SFY 2028 | Five-Year Total |
|---|-------------|-------------|-------------|-------------|-------------|-----------------|
| Costs | | | | | | |
| HHS Implementation Required Immunizations | \$5,146,000 | \$5,246,000 | \$5,346,000 | \$5,446,000 | \$5,546,000 | \$26,130,000 |
| Benefits | | | | | | |
| Improved Public Health and Safety | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | \$5,146,000 | \$5,246,000 | \$5,346,000 | \$5,446,000 | \$5,546,000 | \$26,130,000 |

*All monetary figures have been rounded to the nearest thousandth.

- Qualitative description of impact:

Child care and school immunization requirements play an important role in increasing immunization rates and ensuring that environments where children congregate are safe. Vaccines are the best defense against infectious diseases, which may have serious complications such as pneumonia, meningitis and even death. Achieving and maintaining high immunization rates is the best way to protect all children from vaccine-preventable diseases while at a child care and school setting. The CDC estimates that vaccination of children born between 1994 and 2021 will prevent 472 million illnesses, 1,052,000 deaths, and save nearly \$2.2 trillion in societal costs. For every \$1 spent on each of the 11 vaccines given routinely to children, there is a savings of \$10.10 in medical costs by averting costs to treat diseases.

This chapter also allows for the creation of an Immunization Registry. Immunization Information Systems (IIS) benefit health care providers and the public by storing patient records from all ages and by keeping patients on schedule for recommended immunizations, documenting vaccine contraindications and reactions, validating immunization history, providing vaccine recommendations, producing patient reminder and recall notices, and managing health care provider vaccine inventory.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs to support the procedures described in this chapter. These costs are reflected in the figure above, labeled as “HHS Implementation.”

- Anticipated effect on state revenues:

No impact identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows a net value of \$26,130,000 and improved public health and safety. Eliminating the immunization tracking and reporting mechanisms required by this chapter, or significantly decreasing the number and/or types of immunizations required, may significantly lower immunization rates. Lowered immunization rates may lead to increased incidence

of vaccine-preventable disease resulting in hospitalizations and deaths. This would also impact the ability of public health agencies and health care providers to serve Iowans with or exposed to vaccine-preventable diseases.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Required immunizations listed in the chapter are those defined by the Iowa Code or approved by the Council on Health and Human Services. HHS has established parameters for immunization tracking and reporting at a level the Department feels is necessary to protect public health and safety. A less costly method has not been identified to achieve the purpose of this chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS supports those immunizations required in accordance with the Iowa Code or as approved by the Council on Health and Human Services. This chapter clarifies procedure but does not ascribe HHS duties or implementation elements in addition to those directly defined in the Iowa Code.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 7 and adopt the following **new** chapter in lieu thereof:

CHAPTER 7

IMMUNIZATION AND IMMUNIZATION EDUCATION: PERSONS ATTENDING ELEMENTARY OR SECONDARY SCHOOLS, LICENSED CHILD CARE CENTERS OR INSTITUTIONS OF HIGHER EDUCATION

641—7.1(139A) Definitions.

“*Admitting official*” means the superintendent of schools or the superintendent’s designated representative if a public school; if a nonpublic school or licensed child care center, the governing official of the school or child care center.

“*Advanced registered nurse practitioner*” or “*ARNP*” means an advanced registered nurse practitioner as defined in 655—Chapter 7.

“*Applicant*” means any person seeking enrollment in a licensed child care center or elementary or secondary school.

“*Certified medical assistant*” means a person who is certified to practice as a certified medical assistant following completion of a postsecondary medical assistant program accredited by the Commission on Accreditation of Allied Health Education Programs or the Accrediting Bureau of Health Education Schools and successful completion of the certification examination and who is directed by a supervising physician, physician assistant, or nurse practitioner.

“*Competent private instruction*” is as defined in Iowa Code section 299A.1.

“*Elementary school*” means kindergarten if provided, and grades one through eight or grades one through six when grades seven and eight are included in a secondary school.

“*Enrolled user*” means a user of the registry who has completed an enrollment form that specifies the conditions under which the registry can be accessed and who has been issued an identification code and password by the department.

“*Health screening*” means a vision screen, dental screen, or refugee health screen.

“*Immunization registry*” or “*registry*” means the department of health and human services’ database of confidential, population-based, immunization and health screening records.

“*Institution of higher education*” means a postsecondary school.

“*Nurse*” means a person licensed to practice as a nurse pursuant to Iowa Code chapter 152.

“*On-campus residence hall or dormitory*” means campus housing for students that is owned or leased by the institution of higher education and located on a recognized campus site.

“*Pharmacist*” means a person licensed to practice pharmacy pursuant to Iowa Code chapter 155A.

“*Physician*” means a person licensed to practice medicine and surgery or osteopathic medicine and surgery pursuant to Iowa Code chapter 148.

“*Physician assistant*” means a person licensed to practice as a physician assistant pursuant to Iowa Code chapter 148C.

“*Postsecondary school*” means a postsecondary institution under the control of the state board of regents, a community college established under Iowa Code chapter 260C, or an accredited private institution as defined in Iowa Code section 261.9.

“*Postsecondary student*” means a person who has officially registered with a postsecondary school, as determined by the school, and who physically attends class on the school’s campus. For purposes of these rules, “postsecondary student” does not include a person who is exclusively registered in a correspondence course or continuing education class or who attends class exclusively by means of distance learning or through other means which do not require the person’s physical presence on the school’s campus.

“*Screening provider*” means an ophthalmologist, optometrist, physician, free clinic, child care center, local public health department, public or accredited nonpublic school, community-based organization, advanced registered nurse practitioner (ARNP), physician assistant, dentist or dental hygienist.

“*Secondary school*” means:

1. A junior high school comprising grades 7, 8 and 9, and a senior high school;
2. A combined junior-senior high school comprising grades 7 through 12;
3. A junior high school comprising grades 7 and 8 and a high school comprising grades 9 through 12;
4. A high school comprising grades 9 through 12.

“*Signature*” means an original signature or the authorized use of a stamped signature or electronic signature.

“*Student*” means an individual who is enrolled in a licensed child care center, elementary school or secondary school.

641—7.2(139A) Persons included. The immunization requirements specified elsewhere in these rules apply to all persons enrolled or attempting to enroll in a licensed child care center or a public or nonpublic elementary or secondary school in Iowa including those who are provided competent private instruction.

641—7.3(139A) Persons excluded. Exclusions to these rules are permitted on an individual basis for medical and religious reasons pursuant to Iowa Code section 139A.8. Applicants approved for medical or religious exemptions shall submit to the admitting official a valid department certificate of immunization exemption.

7.3(1) To be valid, a medical certificate of immunization exemption shall contain, at a minimum, the applicant's last name, first name, and date of birth, the vaccine(s) exempted, and an expiration date (if applicable) and shall bear the signature of a physician, nurse practitioner, or physician assistant. Language included on the medical certificate of immunization exemption referencing rule 641—7.3(139A) cannot be altered. Any edits or alterations to the medical certificate of immunization exemption referencing rule 641—7.3(139A) will invalidate the certificate.

a. A medical exemption may apply to a specific vaccine(s) or all required vaccines. If, in the opinion of the physician, nurse practitioner, or physician assistant issuing the medical exemption, the exemption should be terminated or reviewed at a future date, an expiration date shall be recorded on the certificate of immunization exemption; or

b. A medical exemption may apply when the administration of the required vaccine would violate minimum interval spacing and the exemption shall apply only to an applicant who has not received prior doses of the exempted vaccine. An expiration date, not to exceed 60 calendar days, and the name of the vaccine exempted shall be recorded on the medical certificate of exemption.

7.3(2) A religious exemption may be granted to an applicant if immunization conflicts with a genuine and sincere religious belief. To be valid, a religious certificate of immunization exemption for religious reasons shall contain, at a minimum, the applicant's last name, first name, and date of birth and shall bear the signature of the applicant or, if the applicant is a minor, of the applicant's parent or guardian and shall attest that immunization conflicts with a genuine and sincere religious belief and that the belief is in fact religious and not based merely on philosophical, scientific, moral, personal, or medical opposition to immunizations. Language included on the religious certificate of immunization exemption referencing rule 641—7.3(139A) cannot be altered. Any edits or alterations to the religious certificate of immunization exemption referencing rule 641—7.3(139A) will invalidate the certificate.

7.3(3) Medical and religious exemptions do not apply in times of emergency or epidemic pursuant to Iowa Code section 139A.8.

641—7.4(139A) Required immunizations.

7.4(1) Applicants enrolled or attempting to enroll shall have received the following vaccines in accordance with the doses and age requirements below:

IMMUNIZATION REQUIREMENTS

Applicants enrolled or attempting to enroll shall have received the following vaccines in accordance with the doses and age requirements listed below. If, at any time, the age of the child is between the listed ages, the child must have received the number of doses in the "Total Doses Required" column.

| Institution | Age | Vaccine | Total Doses Required |
|--|--------------------------------------|--|---|
| Licensed Child Care Center | Less than 4 months of age | This is not a recommended administration schedule, but contains the minimum requirements for participation in licensed child care. Routine vaccination begins at 2 months of age. | |
| | 4 months through 5 months of age | Diphtheria/Tetanus/Pertussis | 1 dose |
| | | Polio ¹ | 1 dose |
| | | <i>haemophilus influenzae</i> type B | 1 dose |
| | | Pneumococcal | 1 dose |
| | 6 months through 11 months of age | Diphtheria/Tetanus/Pertussis | 2 doses |
| | | Polio ¹ | 2 doses |
| | | <i>haemophilus influenzae</i> type B | 2 doses |
| | | Pneumococcal | 2 doses |
| | 12 months through 18 months of age | Diphtheria/Tetanus/Pertussis | 3 doses |
| | | Polio ¹ | 2 doses |
| | | <i>haemophilus influenzae</i> type B | 2 doses; or 1 dose received at 15 months of age or older. |
| | | Pneumococcal | 3 doses; or 2 doses if both doses were received at 12 months of age or older. |
| | 19 months through 23 months of age | Diphtheria/Tetanus/Pertussis | 4 doses |
| | | Polio ¹ | 3 doses |
| | | <i>haemophilus influenzae</i> type B | 3 doses if a dose was received on or after 12 months of age; or 2 doses if the first dose was received on or after 12 months of age; or 1 dose if the dose was received at 15 months of age or older. |
| | | Pneumococcal | 4 doses if a dose was received on or after 12 months of age; or 3 doses if 1 or more doses were received on or after 12 months of age; or 2 doses if both doses were received at 12 months of age or older. |
| | | Measles/Rubella | 1 dose; or the applicant demonstrates a positive antibody test for measles and rubella from a U.S. laboratory. |
| Varicella | | 1 dose; or the applicant has a reliable history of natural disease. | |
| 24 months of age and older | Diphtheria/Tetanus/Pertussis | 4 doses | |
| | Polio ¹ | 3 doses | |
| | <i>haemophilus influenzae</i> type B | 3 doses if a dose was received on or after 12 months of age; or 2 doses if the first dose was received on or after 12 months of age; or 1 dose if the dose was received at 15 months of age or older. Hib vaccine is not required for persons 60 months of age or older. | |
| | Pneumococcal | 4 doses if a dose was received on or after 12 months of age; or 3 doses if 1 or more doses were received on or after 12 months of age; or 2 doses if the first dose was received on or after 12 months of age; or 1 dose if the dose was received on or after 24 months of age. Pneumococcal vaccine is not required for persons 60 months of age or older. | |
| | Measles/Rubella | 1 dose; or the applicant demonstrates a positive antibody test for measles and rubella from a U.S. laboratory. | |
| | Varicella | 1 dose; or the applicant has a reliable history of natural disease. | |
| Elementary or Secondary School (K-12) | 4 years of age and older | Diphtheria/Tetanus/Pertussis ² | 5 doses with at least 1 dose received on or after 4 years of age; or 4 doses if the fourth dose was received on or after 4 years of age; and 1 dose of tetanus/diphtheria/acellular pertussis-containing vaccine (Tdap) received on or after 10 years of age for applicants in grades 7 and above, regardless of the interval since the last tetanus/diphtheria-containing vaccine. |
| | | Polio ¹ | 4 doses, with at least 1 dose received on or after 4 years of age; or 3 doses if the third dose was received on or after 4 years of age. |
| | | Measles/Rubella | 2 doses; or the applicant demonstrates a positive antibody test for measles and rubella from a U.S. laboratory. |
| | | Hepatitis B | 3 doses |
| | | Varicella | 2 doses; or the applicant has a reliable history of natural disease. |
| | | Meningococcal (A, C, W, Y) | 1 dose received on or after 10 years of age for applicants in grades 7 through 11; and 2 doses with 1 dose received on or after 16 years of age for applicants in grade 12; or 1 dose for applicants in grade 12 if the dose was received on or after 16 years of age. |

¹ Doses of oral polio vaccine (OPV) administered on or after April 1, 2016, are not valid doses and do not count toward the polio vaccine requirement.

² Applicants 7 through 18 years of age who received the first dose of diphtheria/tetanus/pertussis-containing vaccine at 12 months of age or older should receive a total of 3 doses, with one dose received on or after 4 years of age.

7.4(2) Vaccine doses administered less than or equal to 4 days before the minimum interval or age shall be counted as valid. Doses administered greater than or equal to 5 days earlier than the minimum interval or age shall not be counted as valid doses and shall be repeated as appropriate.

7.4(3) For vaccine administration, the minimum age and intervals recommended by the advisory committee on immunization practices shall be followed.

641—7.5(139A) Required education. An institution of higher education with an on-campus residence hall or dormitory shall provide vaccination information on meningococcal disease to enrolled students on a student health form pursuant to Iowa Code section 139A.26. For purposes of this rule, student health form(s) means a document(s) prepared by an institution of higher education that contains, at a minimum, information on meningococcal disease, vaccination information and any recommendations

issued by the national Centers for Disease Control and Prevention regarding meningococcal disease. The student health form(s) shall also include space for the postsecondary student to indicate whether or not the postsecondary student has received vaccination against meningococcal disease, including, at a minimum, the date of vaccination. The student health form(s) shall also include space for the postsecondary student to indicate whether or not the postsecondary student has received information on meningococcal disease and benefits of vaccine. If a traditional student health form is not utilized by the institution of higher education, any document(s) containing the above information is acceptable.

641—7.6(139A) Proof of immunization.

7.6(1) A valid department certificate of immunization shall be submitted by the applicant or, if the applicant is a minor, by the applicant's parent or guardian to the admitting official of the school or licensed child care center in which the applicant wishes to enroll. To be valid, the certificate shall be the certificate of immunization issued by the department, a computer-generated copy from the immunization registry, or a certificate of immunization which has been approved in writing by the department. The certificate shall contain, at a minimum, the applicant's last name, first name, and date of birth, the vaccine(s) administered, the date(s) given, and the signature of a physician, a physician assistant, a nurse, or a certified medical assistant. A faxed copy, photocopy, or electronic copy of the valid certificate is acceptable. The judgment of the adequacy of the applicant's immunization history should be based on records kept by the person signing the certificate of immunization or on that person's personal knowledge of the applicant's immunization history, or comparable immunization records from another person or agency, or an international certificate of vaccination, or the applicant's personal health records. If personal health records are used to make the judgment, the records shall include the vaccine(s) administered and the date given. Persons validating the certificate of immunization are not held responsible for the accuracy of the information used to validate the certificate of immunization if the information is from sources other than their own records or personal knowledge.

7.6(2) Persons wishing to enroll who do not have a valid department certificate of immunization available to submit to the admitting official shall be referred to a physician, a physician assistant, a nurse, or a certified medical assistant to obtain a valid certificate.

641—7.7(139A) Provisional enrollment.

7.7(1) Applicants may be granted provisional enrollment pursuant to Iowa Code section 139A.8. A valid department provisional certificate of immunization shall be submitted by the applicant or, if the applicant is a minor, by the applicant's parent or guardian to the admitting official of the school or licensed child care center in which the applicant wishes to enroll. To qualify for provisional enrollment, applicants shall have received at least one dose of each of the required vaccines or be a transfer student from another school system. A transfer student is an applicant seeking enrollment from one United States elementary or secondary school into another. To be valid, the certificate shall be the certificate of immunization issued by the department, a computer-generated copy from the immunization registry, or a certificate of immunization which has been approved in writing by the department. The certificate shall contain, at a minimum, the applicant's last name, first name, and date of birth, the vaccine(s) administered, the date(s) given, the remaining vaccine(s) required, the reason that the applicant qualifies for provisional enrollment, and the signature of a physician, a physician assistant, a nurse, or a certified medical assistant. Persons validating the provisional certificate of immunization are not held responsible for the accuracy of the information used to validate the provisional certificate of immunization if the information is from sources other than their own records or personal knowledge. Persons signing the provisional certificate of immunization shall certify that they have informed the applicant or, if the applicant is a minor, the applicant's parent or guardian of the provisional enrollment requirements.

a. Any applicant seeking provisional enrollment who does not have a valid department provisional certificate of immunization to submit to the admitting official shall be referred to a physician, a physician assistant, a nurse, or a certified medical assistant to obtain a valid certificate.

b. Reserved.

7.7(2) The amount of time allowed for provisional enrollment shall be as soon as medically feasible but shall not exceed 60 calendar days. The period of provisional enrollment shall begin on the date the provisional certificate is signed. The person signing the provisional certificate shall assign an expiration date to the certificate and shall indicate the remaining immunizations required to qualify for a certificate of immunization.

7.7(3) The applicant or parent or guardian shall ensure that the applicant receive the necessary immunizations during the provisional enrollment period and shall submit a certificate of immunization to the admitting official by the end of the provisional enrollment period.

7.7(4) If at the end of the provisional enrollment period the applicant or parent or guardian has not submitted a certificate of immunization, the admitting official shall immediately exclude the applicant from the benefits, activities, and opportunities of the school or licensed child care center until the applicant or parent or guardian submits a valid certificate of immunization.

7.7(5) If at the end of the provisional enrollment period the applicant has not completed the required immunizations due to minimum interval requirements, a new department provisional certificate of immunization shall be submitted to the admitting official. The admitting official must maintain all issued certificates of provisional immunization with the original provisional certificate until the applicant submits a certificate of immunization.

641—7.8(139A) Records and reporting.

7.8(1) It shall be the duty of the admitting official of a licensed child care center or elementary or secondary school to ensure that the admitting official has a valid department certificate of immunization, certificate of immunization exemption, or provisional certificate of immunization on file for each student by the first day of attendance.

a. The admitting official shall keep the certificates on file in the school or licensed child care center in which the student is enrolled and assist the student or parent or guardian in the transfer of the certificate to another school or licensed child care center upon the transfer of the student to another school or licensed child care center.

b. Unless otherwise requested by the applicant, or parent or guardian, the admitting official shall retain the department certificate of immunization, or certificate of immunization exemption, or provisional certificate of immunization for three years commencing upon the transfer or graduation of the applicant or the school may choose to provide the permanent immunization record to the student at time of graduation. Included with the immunization record a letter should state that this is an important document that will be needed by the student for college or employment and should be permanently retained.

7.8(2) It shall be the duty of the local boards of health to audit the department certificates of immunization, certificates of immunization exemption, and provisional certificates of immunization in the schools within their jurisdiction to determine compliance with Iowa Code section 139A.8. The local boards of health shall furnish the department within 60 days of the first official day of school a report of the audit. The report shall be submitted for each school within the local board of health's jurisdiction and shall include the enrollment by grade, and the number of department certificates of immunization, certificates of immunization exemption, and provisional certificates of immunization by grade.

7.8(3) The local board of health and the department shall have the right to have access to the department certificates of immunization, certificates of immunization exemption, and the provisional certificates of immunization of children enrolled in elementary and secondary schools and licensed child care centers within the constraints of the privacy rights of parents and students.

7.8(4) The admitting official of an institution of higher education shall provide to the department by December 1 each year aggregate data regarding compliance with Iowa Code section 139A.26. The data shall be forwarded to the department within 30 days. The data shall include, but not be limited to, the total number of incoming postsecondary freshmen students living in a residence hall or dormitory who have:

- a.* Enrolled in the institution of higher education; and
- b.* Been provided information on meningococcal disease; and

- c. Been immunized with meningococcal vaccine.

641—7.9(139A) Compliance. Applicants not presenting proper evidence of immunization, or exemption, are not entitled to enrollment in a licensed child care center or elementary or secondary school under the provisions of Iowa Code section 139A.8. It shall be the duty of the admitting official to deny enrollment to any applicant who does not submit proper evidence of immunization and to exclude a provisionally enrolled applicant in accordance with this chapter.

641—7.10(22) Statewide registry.

7.10(1) Statewide registry. The department shall maintain a statewide immunization and health screening registry.

7.10(2) Purpose and permitted uses of registry.

a. The registry shall contain immunization and health screening information, including identifying and demographic data, to allow enrolled users to maintain and access a database of immunization and health screening histories for purposes of ensuring patients are fully immunized and screened.

b. The registry may be used to track inventory or utilization of pharmaceutical agents identified by the department to prepare for or respond to an emergency event.

c. Enrolled users shall not use information obtained from the registry to market services to patients or nonpatients, to assist in bill collection services, or to locate or identify patients or nonpatients for any purpose other than those expressly provided in this rule.

d. The registry shall contain health screening data, including screening results and follow-up information.

7.10(3) Release of information to the registry. Enrolled users shall provide immunization and health screening information, including identifying and demographic data, to the registry. Information provided may include, but is not limited to, the following:

- a. Name of patient;
- b. Gender of patient;
- c. Date of birth;
- d. Race;
- e. Ethnicity;
- f. Birth state and birth country;
- g. Address;
- h. Parents' names;
- i. Mother's maiden name;
- j. Type of vaccination administered;
- k. Dose or series number of vaccine;
- l. Date vaccination was administered;
- m. Lot number;
- n. Date of health screening;
- o. Health screening results;
- p. Source of health screening;
- q. Health screening follow-up information;
- r. Patient comments;
- s. Provider name, license, and business address; and
- t. Patient history, including previously unreported doses.

7.10(4) Confidentiality of registry information. Immunization and health screening information, including identifying and demographic data maintained in the registry, is confidential and may not be disclosed except under the following limited circumstances:

- a. The department may release information from the registry to the following:
 - (1) The person or the parent or legal guardian of the person immunized or screened.
 - (2) Enrolled users of the registry who have completed a department enrollment form that specifies the conditions under which the registry can be accessed;

(3) Persons or entities requesting immunization or health screening data in an aggregate form that does not identify an individual either directly or indirectly.

(4) Agencies that complete an agreement with the department which specifies conditions for access to registry data and how that data will be used. Agencies shall not use information obtained from the registry to market services to patients or nonpatients, to assist in bill collection services, or to locate or identify patients or nonpatients for any purposes other than those expressly provided in this rule.

(5) A representative of a state or federal agency, or entity bound by that state or federal agency, to the extent that the information is necessary to perform a legally authorized function of that agency or the department. The state or federal agency is subject to confidentiality regulations that are the same as or more stringent than those in the state of Iowa. State or federal agencies shall not use information obtained from the registry to market services to patients or nonpatients, to assist in bill collection services, or to locate or identify patients or nonpatients for any purposes other than those expressly provided in this rule.

(6) The admitting official of a licensed child care center, elementary school, secondary school, or postsecondary school; or medical or health care providers providing continuity of care.

(7) Users from other states or jurisdictions who have signed and completed enrollment in the state's or jurisdiction's immunization registry.

b. Users shall not release data obtained from the registry except to the person or the parent or legal guardian of the person immunized or screened, admitting officials of licensed child care centers and schools, medical or health care providers providing continuity of care, and other enrolled users of the registry.

7.10(5) *Suspend or terminate access.* The department may suspend or terminate an enrolled user's access consistent with department policy if the user violates this chapter, department enrollment forms, or the IRIS Security and Confidentiality Policy (2021). The department will approve, suspend, terminate, and reinstate user access in accordance with this chapter and department policy.

641—7.11(22) Release of immunization and health screening information.

7.11(1) *Between a physician, physician assistant, nurse, certified medical assistant, pharmacist, or screening provider and the elementary, secondary, or postsecondary school or licensed child care center that the student attends.* A physician, a physician assistant, a nurse, a certified medical assistant, a pharmacist, or a screening provider shall disclose a student's or patient's immunization or health screening information, including the name, date of birth, and demographic information; vaccine(s) administered and the month, day and year of administration; health screening results; and clinic source and location, to an elementary, secondary, or postsecondary school or a licensed child care center upon written or verbal request from the elementary, secondary, or postsecondary school or licensed child care center. Written or verbal permission from a student or parent is not required to release this information to an elementary, secondary, or postsecondary school or licensed child care center that the student attends.

7.11(2) *Among physicians, physician assistants, nurses, certified medical assistants, pharmacists or screening providers.* Immunization or health screening information, including the student's or patient's name, date of birth, and demographic information; vaccine(s) administered and the month, day and year of administration; health screening results; and clinic source and location, shall be provided by a physician, physician assistant, nurse, certified medical assistant, pharmacist, or screening provider to another health care provider without written or verbal permission from the student, parent, guardian or patient.

7.11(3) *Among an elementary school, secondary school, postsecondary school, and licensed child care center that the student attends.* An elementary school, secondary school, postsecondary school, and licensed child care center shall disclose a student's immunization or health screening information, including the student's name, date of birth, and demographic information; vaccine(s) administered and the month, day and year of administration; health screening results; and clinic source and location, to another elementary school, secondary school, postsecondary school, and licensed child care center that the student attends. Written or verbal permission from a student, or if the student is a minor, the student's

parent or guardian, is not required to release this information to an elementary school, secondary school, postsecondary school, and licensed child care center that the student attends.

7.11(4) *Among the department and a physician, physician assistant, nurse, certified medical assistant, pharmacist, screening provider, elementary school, secondary school, postsecondary school, and licensed child care center.* A student's or patient's immunization or health screening information, including name, date of birth, grade, and demographic information; vaccine(s) administered and the month, day and year of administration; and health screening results, clinic source, and location, all in a format specified by the department, shall be disclosed upon written or verbal request among the department, physicians, physician assistants, nurses, certified medical assistants, pharmacists, screening providers, elementary schools, secondary schools, postsecondary schools, and licensed child care centers. Written or verbal permission from a student, patient, parent, or guardian is not required to release this information.

7.11(5) *Among the department and physicians, physician assistants, nurses, resettlement agencies, federal, state, and local government agencies, and certified medical assistants conducting refugee health screenings.* Refugee health screenings shall be disclosed only as indicated in this rule. Immunization or health screening information, including the patient's name, date of birth, and demographic information; the vaccine(s) administered and the month, day, and year of administration; health screening results; and clinic source and location, shall be disclosed upon written or verbal request among the department, physicians, physician assistants, nurses, certified medical assistants, resettlement agencies, federal, state, and local government agencies, or screening providers to another health care provider or the department. Written or verbal permission from the parent, guardian or patient is not required to release this information.

These rules are intended to implement Iowa Code sections 139A.8, 139A.26 and 22.7(2).

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 11
“Human Immunodeficiency Virus (HIV) Infection and Acquired Immune Deficiency Syndrome
(AIDS)”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 135, 139A, 141A, and 915
State or federal law(s) implemented by the rulemaking: Iowa Code sections 141A.5(2)“c,”
135.11(20), 135.11(22), 139A.33, and 139A.19 and the Public Health Service (PHS) Act as amended
by the Ryan White HIV/AIDS Treatment Extension Act of 2009

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 11 describes HHS procedures and programs related to the Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS). This includes reporting of new diagnoses, protocols concerning individuals voluntarily seeking testing, procedures when a health care worker has an occupational exposure, reporting requirements should a positive test be confirmed, and notification and testing requirements when a third party is found to have been exposed.

These rules additionally implement HIV-related training programs and set procedures for eligibility and enrollment in the Ryan White Program. The Ryan White Program is a federally designated program that supports eligible low-income Iowans living with HIV/AIDS with medical and support services and assistance with the cost of medication and health insurance. Under federal legislation, it is the payer of last resort for HIV-related services. The Ryan White Program is not an entitlement program and does not create a right to assistance.

The procedures and programs described in this chapter are designed to provide appropriate individual and community-level protections related to an HIV/AIDS diagnosis. They also provide for access to health care services for people diagnosed and living with HIV/AIDS in Iowa.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
 - o Individuals or private insurance companies paying for HIV/AIDS testing.
 - o Employers paying for HIV/AIDS testing for an exposed employee.
 - o The court when ordering testing of a sexual assault victim or convicted or alleged offender.

o Employers providing training to employees concerning occupational exposure to blood or other potentially infectious materials.

- Classes of persons that will benefit from the proposed rulemaking:
 - o Individuals who believe they have been exposed to HIV/AIDS.
 - o Individuals found to have been exposed to HIV/AIDS through a positive confirmed test of a partner.
 - o Pregnant women screened for HIV/AIDS through prenatal care.
 - o Sexual assault victims who may have been exposed to HIV/AIDS.
 - o Individuals diagnosed and living with HIV/AIDS.
 - o Communities in which individuals with HIV/AIDS or those at high risk of exposure live.
 - o Employees who experience occupational exposure to blood or other potentially infectious materials.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Estimated figures below are projections based on past program performance as included in the Red Tape Rule Report for this chapter.

Identified Impacts*

| | SFY 2024 | SFY 2025 | SFY 2026 | SFY 2027 | SFY 2028 | Five-Year Total |
|-----------------------------------|---------------|---------------|---------------|---------------|---------------|-----------------|
| Costs | | | | | | |
| HHS Prev. and Surveillance | \$1,826,753 | \$1,826,753 | \$1,826,753 | \$1,826,753 | \$1,826,753 | \$9,133,765 |
| HIV/AIDS Testing | Unknown | Unknown | Unknown | Unknown | Unknown | Unknown |
| HIV/AIDS Related Training | Unknown | Unknown | Unknown | Unknown | Unknown | Unknown |
| HHS—Ryan White Program | \$22,814,089 | \$22,814,089 | \$22,814,089 | \$22,814,089 | \$22,814,089 | \$114,070,445 |
| Benefits | | | | | | |
| Improved Public Health and Safety | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | Indeterminate | Indeterminate | Indeterminate | Indeterminate | Indeterminate | Indeterminate |

*All monetary figures have been rounded to the nearest thousandth.

- Qualitative description of impact:

Providing access to education, testing, and health care services for individuals believed to have been exposed to HIV/AIDS prevents further spread of the virus, thus protecting public health and safety. Training programs where occupational exposure to blood or other potentially infectious materials may occur further reduce transmission.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs costs for personnel, test kits, prevention supplies, data systems, and contracting with local public health. These costs are reflected in the figure above, labeled as “HHS Prev. and Surveillance.”

The Ryan White Program provides eligible low-income Iowans living with HIV/AIDS with medical and support services and assistance with the cost of medication and health insurance. These costs are

reflected in the figure above as “HHS—Ryan White Program.” Federal funds and 340B Drug Pricing Program rebates support the majority of these assistance dollars.

Additional state agencies are impacted by HIV/AIDS training and testing requirements. Since these obligations are defined in the Iowa Code, and not created in this chapter, any associated costs are not included in this analysis.

- Anticipated effect on state revenues:

No impact identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows a net value of improved public health and safety. HIV-related treatment and support is estimated at \$20,000 to \$50,000 annually for people with HIV. Eliminating the HHS HIV/AIDS programs, or components thereof, would result in a decrease in available education, testing, and treatment around the virus. This may result in increased community spread and a negative impact on public health and safety.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Early intervention for HIV (diagnosis, treatment, social support) is a cost-effective public health intervention. HHS has established parameters for education, testing, and treatment at the level HHS believes necessary to protect public health and safety. A less costly method has not been identified to achieve the purpose of this chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS implements HIV/AIDS programs in accordance with requirements of the Iowa Code and federal regulations. Early intervention for HIV has been found to be cost-effective and reduces costs of more expensive inpatient costs for people with untreated HIV. The Ryan White Program saves the Iowa Medicaid enterprise from costly medical costs for participants with HIV.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 11 and adopt the following new chapter in lieu thereof:

CHAPTER 11
HUMAN IMMUNODEFICIENCY VIRUS (HIV) INFECTION AND ACQUIRED IMMUNE
DEFICIENCY SYNDROME (AIDS)

641—11.1(139A,141A) Definitions.

“*AIDS*” means the same as defined in Iowa Code section 141A.1.

“*AIDS-related condition*” means the same as defined in Iowa Code section 141A.1.

“*Alleged offender*” means the same as defined in Iowa Code section 915.40.

“*Benefits and drug assistance program*” or “*BDAP*” means the Iowa benefits and drug assistance program, a component of the Ryan White program administered by the bureau of HIV, STI, and hepatitis within the department.

“*Blood bank*” means a facility for the collection, processing, or storage of human blood or blood derivatives, or from which or by means of which human blood or blood derivatives are distributed or otherwise made available.

“*Blood-borne viral hepatitis*” means hepatitis B or hepatitis C.

“*Care provider*” means the same as defined in Iowa Code section 139A.2.

“*CDC*” means the Centers for Disease Control and Prevention of the U.S. Department of Health and Human Services.

“*Certification of a significant exposure report*” means the determination by an authorized infection preventionist, occupational health professional, or other personnel trained in infection control or infectious disease medicine and designated by a facility to review significant exposure reports that the incident described by the exposed care provider meets the definition of a significant exposure as defined in this rule.

“*Confirmed positive test*” means a reactive result or detectable quantity on any HIV-related test, including an antibody test, an antigen test, a culture, a nucleic acid amplification test, or other test or combination of tests, that is considered to be confirmatory according to prevailing medical technology and algorithms or guidance from CDC. When the confirmed positive test involves more than one test, all test results should be included in any reports to the department.

“*Contagious or infectious disease*” means hepatitis in any form, meningococcal disease as defined in these rules, AIDS or HIV as defined in Iowa Code section 141A.1, tuberculosis as defined in these rules, and any other disease determined to be life-threatening to a person exposed to the disease based upon a determination by the state epidemiologist or medical director and in accordance with guidelines of the centers for disease control and prevention of the U.S. Department of Health and Human Services.

“*Department of corrections*” means the Iowa department of corrections.

“*Designated representative*” means a person who is designated by a department, agency, division, or service organization to act on behalf of the exposed care provider as a liaison with the facility that received the source patient when the exposure occurred in the field or during patient transport.

“*Director of a plasma center, blood bank, clinical laboratory, organ procurement organization, or public health laboratory*” means the person responsible for direction and operation of the facility, the medical director, or the person designated by the director or medical director to ensure compliance with applicable regulations and requirements.

“*Emergency medical services personnel*” means “emergency medical care provider” as defined in rule 641—131.1(147A).

“*Exposure*” means the same as defined in Iowa Code section 139A.2.

“*HBV*” means hepatitis B virus.

“*Health care facility*” means the same as defined in Iowa Code section 139A.2.

“*Health care provider*” means the same as defined in Iowa Code section 141A.1.

“*Health facility*” means the same as defined in Iowa Code section 141A.1.

“*HIV*” means the same as defined in Iowa Code section 141A.1.

“*HIV infection*” means having acquired the human immunodeficiency virus.

“*HIV-related test*” means the same as defined in Iowa Code section 141A.1.

“*Home health services*” means health care services provided by a care provider in a patient’s home or other residence.

“*Identifiable third party*” means a sexual partner of or a person who shares drug injecting equipment with a person who has been diagnosed with HIV infection.

“*Infectious bodily fluids*” means bodily fluids capable of transmitting HIV as listed in “Updated U.S. Public Health Service guidelines for the management of occupational exposures to HIV and recommendations for postexposure prophylaxis,” dated September 25, 2013, and updated May 23, 2018, published by the U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control, Atlanta, Georgia 30333, on their website. To prevent HIV and blood-borne viral hepatitis disease transmission, this reference indicates that standard precautions should be followed for exposure to the following infectious bodily fluids: blood, amniotic fluid, pericardial fluid, peritoneal fluid, pleural fluid, synovial fluid, cerebrospinal fluid, semen, vaginal secretions, and saliva contaminated with blood. HIV and blood-borne viral hepatitis disease transmission has not occurred from feces, nasal secretions, sputum, sweat, tears, urine, vomitus, and saliva when it is not contaminated with blood.

“*Laboratory*” means a clinical or public health laboratory, a plasma center, or a blood bank inside or outside the boundaries of Iowa.

“*Meningococcal disease*” means acute infectious bacterial meningococcal infection presenting as invasive disease characterized by one or more clinical syndromes including bacteremia, sepsis, or meningitis. “Meningococcal disease” does not include nasopharyngeal colonization by *Neisseria meningitidis*.

“*Payer of last resort*” means a requirement to coordinate services and seek payment from all other sources before Ryan White program funds are used.

“*Physician*” means a person currently licensed pursuant to Iowa Code chapter 148.

“*Physician assistant*” means a person currently licensed under Iowa Code chapter 148C.

“*Plasma center*” means a facility that conducts plasmapheresis.

“*Plasmapheresis*” means the removal of blood from a human being to obtain plasma with the subsequent reinfusion of the remaining formed elements into the donor, but excludes such a procedure performed for the purpose of improving the health of the donor.

“*Public health laboratory*” means a laboratory operated by an agency of city, county or state government for the purpose of supporting disease control activities.

“*Respite care services*” means health care services provided by a care provider in a patient’s home or other residence on a short-term, temporary basis as relief to those who are caring for family members.

“*Ryan White program*” means the Ryan White part B program administered by the bureau of HIV, STI, and hepatitis within the department that provides case management, behavioral health, other supportive services, and assistance with the costs of housing, health insurance, and treatment medications for eligible low-income individuals diagnosed with HIV.

“*Sexually transmitted disease or infection*” means “sexually transmitted disease or infection” as defined in rule 641—1.1(139A).

“*Significant exposure*” means a situation in which there is a risk of contracting disease through exposure to a patient’s infectious bodily fluids in a manner capable of transmitting an infectious agent as determined by CDC. Exposure includes contact with blood or other infectious bodily fluids to which standard precautions apply through percutaneous inoculation or contact with an open wound, nonintact skin, or mucous membranes during the performance of normal job duties. Significant exposures include:

1. Transmission of blood, bloody fluids, or other infectious bodily fluids of the source patient onto a mucous membrane (mouth, nose, or eyes) of the care provider.
2. Transmission of blood, bloody fluids, or other infectious bodily fluids of the source patient onto an open wound or lesion with significant breakdown in the skin barrier, including a needle puncture with a needle contaminated with blood, bloody fluids, or other infectious bodily fluids.

“*Significant exposure report*” means the Report of Exposure to HIV or Other Infectious Disease form provided by the department. This is the only form authorized to be used to document a significant

exposure to infectious bodily fluids such that the source patient is deemed to consent to a test to determine if the patient has a contagious or infectious disease, and is deemed to consent to notification of the care provider of the results of the test, pursuant to Iowa Code section 139A.19.

“Tuberculosis” means infectious tuberculosis as defined in rule 641—1.1(139A).

641—11.2(141A) HIV testing—obtaining consent—voluntary HIV-related tests for adults who are not pregnant.

11.2(1) Prior to conducting a voluntary HIV-related test on an adult, the health care provider requesting the test shall provide information to the subject of the test concerning HIV testing and where to obtain additional information regarding HIV infection and risk reduction.

11.2(2) Patient consent for testing must be obtained as detailed in Iowa Code section 141A.6.

11.2(3) Once an adult has been informed of a confirmed positive HIV-related test, no HIV-specific consent for medical procedures and tests shall be required for subsequent medical procedures and tests involved in the care or treatment of the adult with HIV infection.

641—11.3(139A,141A) HIV testing—obtaining consent—voluntary HIV-related tests for minors who are not pregnant.

11.3(1) Patient consent for testing must be obtained as detailed in Iowa Code section 141A.6. A minor shall have the legal capacity to act and give consent pursuant to Iowa Code section 139A.35.

11.3(2) Prior to conducting a voluntary HIV-related test on a minor, the health care provider requesting the test shall provide information to the subject of the test concerning HIV testing and where to obtain additional information regarding HIV infection and risk reduction.

11.3(3) A minor shall be informed prior to testing of requirements for health facilities to inform the minor’s legal guardian of a positive test result pursuant to Iowa Code section 141A.7.

11.3(4) Prior to the test, a minor shall give written consent for performance of the HIV-related test and to the notification of the legal guardian should the test be confirmed as positive.

11.3(5) Once a minor has been informed of a confirmed positive HIV-related test and the legal guardian has been notified, no HIV-specific consent for medical procedures and tests shall be required for subsequent medical procedures and tests involved in the care or treatment of a minor with HIV infection.

641—11.4(141A) HIV testing—obtaining consent—voluntary HIV-related tests for pregnant women.

11.4(1) Health care providers that offer prenatal care to women shall provide HIV testing to all pregnant women as described in Iowa Code section 141A.4. No written or oral consent shall be required.

11.4(2) The testing shall occur as early as possible during each pregnancy.

11.4(3) The health care provider requesting the test shall make information available about HIV prevention, risk reduction, and treatment to all pregnant women pursuant to Iowa Code section 141A.4.

11.4(4) A pregnant woman who is a minor shall be informed prior to testing of requirements for health facilities to inform the minor’s legal guardian of a positive test result as described in Iowa Code section 141A.7.

11.4(5) If a pregnant woman declines the test, the decision shall be documented as described in Iowa Code section 141A.4. A health care provider shall encourage women who decline the test early in prenatal care to be tested at a subsequent visit.

11.4(6) Once a pregnant woman has been informed of a confirmed positive HIV-related test and, if the pregnant woman is a minor, the legal guardian has been notified, no HIV-specific consent for medical procedures and tests shall be required for subsequent medical procedures and tests involved in the care or treatment of a pregnant woman with HIV infection.

641—11.5(141A) HIV test results—posttest counseling.

11.5(1) Upon informing the subject of an HIV-related test of a confirmed positive test result, the health care provider who requested the test or other designated personnel shall initiate counseling

concerning the emotional and physical health effects of HIV infection as described in Iowa Code section 141A.7.

641—11.6(141A) Reporting of diagnoses and HIV-related tests, events, and conditions to the department.

11.6(1) The following constitute reportable events related to HIV infection:

- a.* A test result indicating HIV infection, including:
 - (1) Confirmed positive results on any HIV-related test or combination of tests, including antibody tests, antigen tests, cultures, and nucleic acid amplification tests.
 - (2) A positive result or report of a detectable quantity on any other HIV detection (non-antibody) tests, and results of all viral loads, including nondetectable levels.
 - (3) Results of genotypic resistance assays.
- b.* AIDS and AIDS-related conditions, including all levels of CD4+ T-lymphocyte counts.
- c.* Birth of an infant to an HIV-infected mother (perinatal exposure) or any (positive, negative, or undetectable) non-antibody detection test (antigen test, viral culture, viral load, or qualitative nucleic acid amplification test) on an infant 18 months of age or younger.
- d.* Death resulting from an AIDS-related condition, or death of a person with HIV infection.

11.6(2) Reportable events as described in this rule shall be reported to the department pursuant to Iowa Code section 141A.6. The following reporting requirements are in addition to those described in Iowa Code section 141A.6.

- a.* Within seven days of the receipt of a person's confirmed positive test result indicating HIV infection, the director of a plasma center, organ procurement organization, or public health laboratory that performed the test or that requested the confirmatory test shall make a report to the department.

- b.* Within seven days of the birth of an infant to a mother diagnosed with HIV or a receipt of a laboratory result (positive, negative, or undetectable) of a non-antibody detection test (antigen test, viral culture, viral load, or qualitative nucleic acid amplification test) on an infant 18 months of age or younger, the attending physician shall make a report to the department.

11.6(3) The report shall be made on a form provided by the department that includes those form fields described in Iowa Code section 141A.6 unless approval from the department has been obtained for use of other reporting formats.

11.6(4) All persons who experience a reportable event while receiving services in the state, regardless of state of residence, shall be reported.

Rules 641—11.1(139A,141A) to 641—11.6(141A) are intended to implement Iowa Code sections 139A.35, 141A.4, 141A.6, and 141A.7.

641—11.7(141A) Confidentiality of information. In addition to the entities described in Iowa Code section 141A.9, medical information secured pursuant to Iowa Code section 141A.9(1) may be shared between employees and agents of the department and employees and agents of tribes and tribal public health authorities that have a need for the information in the duties related to HIV prevention, disease surveillance, or care of persons with HIV, only as necessary to administer the program for which the information is collected or to administer a program in the tribe or tribal public health authority. Confidential information transferred to other persons or entities under this rule shall continue to maintain its confidential status as described in Iowa Code section 141A.9.

This rule is intended to implement Iowa Code section 141A.9.

641—11.8(135) HIV and AIDS training programs where occupational exposure to blood or other potentially infectious materials may occur.

11.8(1) *Personnel covered by the rule.*

- a.* Nonemergency personnel. All supervisory and patient care personnel of any agency listed below:

- (1) A licensed hospice,

(2) A homemaker-home health aide provider agency which receives state homemaker-home health aide funds, or

(3) An agency which provides respite care services.

b. Emergency and law enforcement personnel. All personnel from the following agencies:

(1) Emergency medical services.

(2) Fire services.

(3) Law enforcement.

11.8(2) *Topics covered.* Training programs must address the following topics, consistent with standards from the Occupational Safety and Health Administration of the U.S. Department of Labor:

a. Symptoms and modes of transmission of blood-borne diseases, including human immunodeficiency virus and viral hepatitis,

b. Location and handling of personal protective equipment,

c. Information on the hepatitis B vaccine, and

d. Follow-up procedures in the event of an exposure.

11.8(3) *Timing of training.* Training must occur before an initial assignment of tasks where occupational exposure to blood or other potentially infectious materials may take place and at least annually thereafter.

This rule is intended to implement Iowa Code section 135.11.

641—11.9(139A,141A) Partner notification program.

11.9(1) The department will maintain a partner notification program for persons known to have tested positive for sexually transmitted diseases or infections pursuant to the procedures described in Iowa Code sections 141A.5 and 139A.33.

11.9(2) Services provided include, but are not limited to, counseling about the disease or infection, risk reduction techniques, linkage to medical care and treatment, assessment and referral to social and prevention services, and elicitation of exposed partners' names and contact information for referral to testing, as described in the Partner Services Program Manual dated December 2023, adopted and incorporated by this reference. The manual contains the policies and procedures utilized in the implementation of the program. The manual is updated annually. A copy of the manual is available on the department website.

11.9(3) The department may delegate its partner notification duties under this rule for persons who have tested positive for HIV or other sexually transmitted diseases to a local health authority or a physician or other health care provider unless the authority or physician or other health care provider refuses or neglects to conduct the partner notification program in a manner deemed to be effective by the department.

641—11.10(141A) Direct notification of an identifiable third party by a physician, physician assistant or the department.

11.10(1) Direct notification shall be used when a person diagnosed with HIV is having continuing contact with a sexual or needle-sharing partner who is unaware of the person's infection and when both of the following situations exist:

a. A physician or physician assistant for the person diagnosed with HIV is of the good-faith opinion that the nature of the continuing contact through sexual intercourse or the sharing of drug injecting equipment poses an imminent danger of HIV transmission to the third party.

b. When the physician or physician assistant believes in good faith that the person diagnosed with HIV, despite strong encouragement, has not and will not warn the third party and will not participate in the voluntary partner notification program.

11.10(2) The department or a physician or a physician assistant may reveal the identity of a person diagnosed with HIV pursuant to this rule only to the extent necessary to protect a third party from the direct threat of transmission. Notification of a person pursuant to this rule shall be made confidentially. Nothing in this rule shall be interpreted to create a duty to warn third parties of the danger of exposure to HIV through contact with a person diagnosed with HIV.

11.10(3) When the physician or physician assistant is of the good-faith opinion and belief that third-party notification should be performed, notification of a person pursuant to this rule shall be made:

- a. Directly by the physician or physician assistant, or
- b. By the department at the request of the physician or physician assistant.

11.10(4) Notification by the physician or physician assistant. Prior to notification of a third party by the physician or physician assistant of a person diagnosed with HIV, the physician or physician assistant shall make reasonable efforts to inform, in writing, the person diagnosed with HIV. The written information shall state that, due to the nature of the person's continuing contact through sexual intercourse or the sharing of drug injecting equipment with the third party and the physician's or physician assistant's belief that the person diagnosed with HIV, despite strong encouragement, has not and will not warn the third party and will not participate in the voluntary partner notification program, the physician or physician assistant is forced to take action to provide notification to the third party. The physician or physician assistant, when reasonably possible, shall provide the following information to the person diagnosed with HIV:

- a. The nature of the disclosure and the reason for the disclosure.
- b. The anticipated date of disclosure.
- c. The name of the party or parties to whom disclosure is to be made.

NOTE: Reasonable efforts to inform, in writing, the person diagnosed with HIV shall be deemed satisfied when the physician or physician assistant delivers the written notice in person or directs a written notice to the diagnosed person's last-known address by restricted certified mail, return receipt requested, at least five days prior to the anticipated date of disclosure to the third party.

11.10(5) When performed by the diagnosed person's physician or physician assistant, notification of the third party and any disclosure concerning the purpose of that notification shall be made in person. However, initial contact with the third party may be made by telephone, mail, or other electronic means to arrange the meeting with the physician or physician assistant at the earliest opportunity to discuss an important health matter. The nature of the health matter to be discussed shall not be revealed in the telephone call, letter, or other electronic message.

11.10(6) Notification by the department.

a. The physician or physician assistant attending the person diagnosed with HIV shall provide by telephone to the department any relevant information provided by the person diagnosed with HIV regarding any party with whom the person diagnosed with HIV has had sexual relations or has shared drug injecting equipment. The information may include the third party's name, address, telephone number, and any other locating information known to the physician or physician assistant. The department shall use the information in accordance with procedures established for the voluntary partner notification program.

b. Notification of the third party and any disclosure concerning the purpose of that notification shall be made in person. However, initial contact with the third party may be made by telephone, mail, or other electronic means to arrange the meeting with the department representative. The nature of the matter to be discussed shall not be revealed in the telephone call, letter, or other electronic message.

11.10(7) Confidentiality. The physician or physician assistant of the person diagnosed with HIV and the department shall protect the confidentiality of the third party and the person diagnosed with HIV. The identity of the person diagnosed with HIV shall remain confidential unless it is necessary to reveal it to the third party so that the third party may avoid exposure to HIV. If the identity of the person diagnosed with HIV is revealed, the third party shall be presented with a statement in writing at the time of disclosure which includes the following or substantially similar language: "Confidential information revealing the identity of a person diagnosed with HIV has been disclosed to you. The confidentiality of this information is protected by state law. State law prohibits you from making any further disclosure of the information without the specific written consent of the person to whom it pertains. Any breach of the required confidential treatment of this information subjects you to legal action and civil liability for monetary damages. A general authorization for the release of medical or other information is not sufficient for this purpose."

11.10(8) Immunity. A health care provider attending a person diagnosed with HIV has no duty to disclose to or to warn third parties of the dangers of exposure to HIV through contact with the person diagnosed with HIV and is immune from any liability, civil or criminal, for failure to disclose to or warn third parties of the condition of the person diagnosed with HIV.

Rules 641—11.9(139A,141A) to 641—11.10(141A) are intended to implement Iowa Code sections 139A.33 and 141A.5.

641—11.11(139A,141A) Care provider notification upon exposure to contagious or infectious diseases—exposures in nonclinical settings.

11.11(1) If a care provider sustains a significant exposure from a patient while rendering health care or other services, other than home-health or respite care services, outside of a health care facility or hospital, the care provider shall file a significant exposure report as soon as reasonably possible following the exposure. When the exposure occurred outside a clinical setting, a care provider who has sustained a significant exposure should file this report with the infection control, occupational health, or other designated office of the facility to which the patient was transported.

11.11(2) The source patient to whom the care provider was exposed is deemed to consent to a test to determine if the patient has a contagious or infectious disease and is deemed to consent to notification of the care provider or the designated representative of the results of the test, upon submission of a significant exposure report and certification of the significant exposure by an authorized infection preventionist, occupational health professional, or other professional trained in infectious disease control. No further consent from the source patient is required. However, the source patient shall be notified that an exposure has occurred and shall be told which specific tests are being performed to determine the presence of contagious or infectious diseases. If the source patient is a minor, the minor shall be informed prior to an HIV-related test that, upon positive confirmation of an HIV-related test result, the minor's legal guardian shall be informed of the positive result, pursuant to Iowa Code section 141A.7(3).

11.11(3) Hospitals, clinics, or other health care facilities, institutions administered by the department of corrections, and jails shall have written policies and procedures pursuant to Iowa Code section 139A.19. In addition to those policies and procedures required by Iowa Code section 139A.19, hospitals, clinics, or other health care facilities, institutions administered by the department of corrections, and jails shall have written policies and procedures for reviewing and certifying significant exposure report forms, testing a source patient, and notifying a care provider who sustained a significant exposure while rendering health care services or other services to the source patient when the source patient is delivered to the facility and the exposure occurred prior to the delivery.

11.11(4) The hospital, clinic, or other health care facility to whom the source patient is delivered shall conduct the test. If the source patient is delivered to an institution administered by the department of corrections, the test shall be conducted by the staff physician of the institution. If the source patient is delivered to a jail, the test shall be conducted by the attending physician of the jail or the county medical examiner. If the source patient was deemed to consent upon certification of a significant exposure report, the sample and test results shall only be identified by a number.

11.11(5) If a test result is positive, the hospital, clinic, or other health care facility, or other person performing the test shall notify the source patient and make any required reports to the department pursuant to Iowa Code sections 139A.3 and 141A.6. The report to the department shall include the name of the source patient.

11.11(6) If a source patient is diagnosed or confirmed as having a contagious or infectious disease, the hospital, clinic, or other health care facility, or other person performing the test shall notify the care provider or the designated representative of the care provider who shall then notify the care provider. If the source patient is a minor and is diagnosed with HIV infection, the hospital, clinic, or other health facility, or other person performing the test shall notify the legal guardian of the minor.

11.11(7) The notification shall advise the care provider of possible exposure to a particular contagious or infectious disease and recommend that the provider seek medical attention. The notification shall be provided as soon as reasonably possible following determination that the source

patient has a contagious or infectious disease. The notification shall not include the name of the source patient unless the patient consents. If the care provider who sustained a significant exposure determines the identity of a source patient who has been diagnosed or confirmed as having a contagious or infectious disease, the identity of the source patient shall be confidential information and shall not be disclosed by the care provider to any other person unless a specific written release is obtained from the source patient.

11.11(8) This rule does not preclude a hospital, clinic, other health care facility, or a health care provider from providing notification to a care provider under circumstances in which the hospital's, clinic's, other health care facility's, or health care provider's policy provides for notification of the hospital's, clinic's, other health care facility's, or health care provider's own employees of exposure to a contagious or infectious disease that is not life-threatening if the notice does not reveal a source patient's name, unless the patient consents.

11.11(9) The infection control, occupational health, or other designated office of the facility shall maintain a record of all significant exposure reports it receives and shall retain each report for a period of five years.

11.11(10) The significant exposure report form is a confidential record pursuant to Iowa Code section 141A.9.

641—11.12(139A,141A) Care provider notification upon exposure to contagious or infectious diseases—exposures in clinical settings.

11.12(1) If a care provider sustains a significant exposure from a patient while rendering health care services or other services within a hospital, clinic, or other health care facility, or while delivering home-health or respite care services, the care provider shall file a report as soon as reasonably possible following the exposure. A care provider who has sustained a significant exposure should file the report with the infection control, occupational health, or other office designated by the facility in which the exposure occurred, or by the facility which has oversight for the delivery of home-health or respite care services.

a. If a general consent form was signed and in effect at the time of the significant exposure and the source patient is an adult, a significant exposure report form shall not be required to document the significant exposure. The health care facility or hospital may use an employee incident report or other similar form for this purpose. The source patient to whom the care provider was exposed is deemed to consent to a test to determine if the patient has a contagious or infectious disease and is deemed to consent to notification of the care provider or the designated representative of the results of the test, upon submission and review of an employee incident report and certification of the significant exposure by an authorized infection preventionist, occupational health professional, or other professional trained in infectious disease control. No further consent from the source patient is required. However, a source patient shall be notified that an exposure has occurred and shall be told which specific tests are being performed. Prior to conducting an HIV-related test, the health care facility or hospital shall provide information to the source patient concerning testing and a means of obtaining additional information regarding HIV infection and risk reduction pursuant to Iowa Code section 141A.6.

b. If no consent form was signed or in effect at the time of the exposure, or if the source patient is a minor, the source patient is deemed to consent to a test to determine if the patient has a contagious or infectious disease and is deemed to consent to notification of the care provider or the designated representative of the results of the test upon submission of a significant exposure report form and certification of the significant exposure by an authorized infection preventionist, occupational health professional, or other professional trained in infectious disease control. Source patients shall be notified that an exposure has occurred and shall be told which specific tests are being performed to determine the presence of contagious or infectious diseases. If the source patient is a minor, the minor shall be informed prior to an HIV-related test that, upon positive confirmation of an HIV-related test result, the minor's legal guardian shall be informed of the positive result, pursuant to Iowa Code section 141A.7(3).

11.12(2) Hospitals, clinics, or other health care facilities, institutions administered by the department of corrections, and jails shall have written policies and procedures for reviewing and certifying significant exposure report forms or other employee incident report forms, testing a source patient, and notifying a care provider who sustained a significant exposure while rendering health care services or other services to a patient during the admission, care, or treatment of the patient at the facility, or while delivering home-health or respite care services.

11.12(3) The hospital, clinic, or other health care facility where exposure occurred or which has oversight for the delivery of home-health or respite care services shall conduct the test. If a general consent form was signed and in effect and the source patient is an adult, the sample and test results shall be identified by name. If the source patient was deemed to consent to a test and to notification of the care provider upon certification of a significant exposure report pursuant to these rules because no general consent was signed and in effect at the time of the exposure or because the source patient is a minor, the sample and test results shall be identified only by a number.

11.12(4) If a test result is positive, the hospital, clinic, or other health care facility or other person performing the test shall notify the source patient and make any required reports to the department pursuant to Iowa Code sections 139A.3 and 141A.6. The reports to the department shall include the name of the source patient.

11.12(5) If a source patient is diagnosed or confirmed as having a contagious or infectious disease, the hospital, clinic, or other health care facility or other person performing the test shall notify the care provider or the designated representative of the care provider who shall then notify the care provider. If the source patient is a minor and is diagnosed with HIV infection, the hospital, clinic, or other health care facility or other person performing the test shall notify the legal guardian of the minor.

11.12(6) The notification shall advise the care provider of possible exposure to a particular contagious or infectious disease and recommend that the provider seek medical attention. The notification shall be provided as soon as reasonably possible following determination that the source patient has a contagious or infectious disease.

11.12(7) The infection control, occupational health, or other designated office of the facility shall maintain a record of all significant exposure reports it receives and shall retain each report for a period of five years.

11.12(8) The significant exposure report form is a confidential record pursuant to Iowa Code section 141A.9.

Rules 641—11.11(139A,141A) to 641—11.12(139A,141A) are intended to implement Iowa Code section 139A.19.

641—11.13(915) Testing, reporting, and counseling of convicted of alleged sexual assault assailants.

11.13(1) Prior to ordering an HIV-related test on a convicted or alleged offender pursuant to Iowa Code sections 915.40 through 915.43, the physician or practitioner shall provide information to the subject of the test concerning testing and where to obtain additional information on HIV transmission and risk reduction, pursuant to Iowa Code section 141A.6. The department may be contacted for brochures that may assist in meeting the requirements of Iowa Code section 141A.6.

11.13(2) At any time that the subject of an HIV-related test is informed of confirmed positive test results, the physician or other practitioner who ordered the test shall initiate counseling concerning the emotional and physical health effects of HIV infection, as required under Iowa Code section 141A.7, and shall make any required reports to the department pursuant to Iowa Code section 141A.6.

a. The physician or other practitioner shall encourage a person diagnosed with HIV to participate in the voluntary partner notification program pursuant to rule 641—11.9(139A,141A).

b. The physician or other practitioner may provide to the department any relevant information provided by the person diagnosed with HIV regarding any party with whom the person has had sexual relations or has shared drug injecting equipment.

This rule is intended to implement Iowa Code section 135.11(22).

641—11.14(141A) Ryan White program.

11.14(1) *General purpose and incorporation.* The Ryan White program is a state-administered program that provides support services and assistance with the costs of health insurance and treatment medications for eligible low-income individuals diagnosed with HIV when adequate state and federal funding is available for administration of the program.

a. The program is authorized under Part B of Title XXVI of the Public Health Service Act, as amended by the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87). This legislation requires that the Ryan White program, including the benefits and drug assistance program, be the payer of last resort for HIV-related services. The Ryan White program is not an entitlement program and does not create a right to assistance. In the event that funding is exhausted or terminated or there are changes in state or federal guidelines, programs, or regulations that impact funding available to the program, the department reserves the right to close enrollment, cease to provide specific services, or alter eligibility criteria until such time that funding is again sufficient.

b. The Ryan White program will be administered in accordance with the Ryan White Program Manual dated December 2023, adopted and incorporated by this reference. The manual contains the policies and procedures utilized in the implementation of the program. The manual is updated annually. A copy of the manual is available at the department website.

c. The benefits and drug assistance program will be administered in accordance with the Benefits and Drug Assistance Program Manual dated December 2023, adopted and incorporated by this reference. The manual contains the policies and procedures utilized in the implementation of the program. The manual is updated annually. A copy of the manual is available at the department website.

11.14(2) *Collaboration with Iowa Medicaid.* To ensure that the Ryan White program is the payer of last resort and to maximize the efficiency and effectiveness of HIV-related prevention and care services, Iowa Medicaid shall grant the department access to client information for persons enrolled in Medicaid.

11.14(3) *Confidentiality.* Applications, assessments, and all other client-level information received or maintained by the department in connection with the Ryan White program shall be considered confidential information in accordance with Iowa Code section 141A.9.

This rule is intended to implement Iowa Code section 141A.3.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 22
“Practice of Tattooing”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 10A.531 as enacted by 2023 Iowa Acts, Senate File 514 (formerly Iowa Code section 135.37)

State or federal law(s) implemented by the rulemaking: Iowa Code section 10A.531 as transferred by 2023 Iowa Acts, Senate File 514 (formerly Iowa Code section 135.37); Iowa Code chapter 17A; and Executive Order 10 (January 10, 2023)

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of 641—Chapter 22, “Practice of Tattooing.” This rulemaking implements Iowa Code section 10A.531 as transferred by 2023 Iowa Acts, Senate File 514 (formerly Iowa Code section 135.37), “Tattooing—Permit Requirement—Penalty,” and Iowa Code chapter 17A in accordance with the goals and directives of Executive Order 10 (January 10, 2023).

Iowa Code section 10A.531 provides that a “person shall not own, control and lease, act as an agent for, conduct, manage, or operate an establishment to practice the art of tattooing or engage in the practice of tattooing without first applying for and receiving a permit from the department [of inspections, appeals, and licensing].” The Department is required to adopt rules “pursuant to chapter 17A and establish and collect all fees necessary to administer [Iowa Code section 10A.531],” and “[e]stablish minimum safety and sanitation criteria for the operation of tattooing establishments.”

The proposed rules establish definitions; general provisions related to licensing, including permissible zoning and annual inspections; sanitation and infection control standards; equipment use and sanitation requirements; and proper tattooing procedures in order to prevent the spread of infection and disease. The proposed rules also provide various types of permits, including tattoo establishment permits, tattoo artist permits, temporary establishment permits, and mobile tattoo unit permits, and fees associated therewith. The goal of the multiple types of permits is to ensure the operators identify and control for public health hazards while accommodating variations in specific physical facilities depending on the scope or type of each operation. Finally, the proposed rules provide for tattoo inspector qualifications, enforcement procedures, and procedures for contesting adverse action.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Costs associated with this proposed chapter are incurred by the tattoo establishments and tattoo artists in the course of obtaining and maintaining their permits. Costs are also incurred by the agency in administering the chapter.

- Classes of persons that will benefit from the proposed rulemaking:

Consumers who utilize tattoo services benefit from these rules. These rules also benefit home food processing establishment license holders in that they provide clear, simple, and effective food safety guidelines. Tattoo artists and establishments benefit from clear and consistent requirements and qualifications for establishments and artists.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Costs associated with this proposed chapter are incurred by the tattoo establishments and tattoo artists in the course of obtaining and maintaining their permits. Permit and inspection fees are incurred to defray the costs of the program in accordance with Iowa Code section 10A.531. These fees range from \$75 for a tattoo artist to \$100 for a tattoo establishment, and a temporary tattoo establishment fee based on the number of participating artists ranges from \$100 for 10 artists to \$300 for more than 100 artists.

The education requirements ensure that the individuals are trained and refreshed on blood-borne pathogens and first aid. These costs are relatively minor when compared to the need to protect the artist, the artist's patrons and the public. Both courses are available online through the Red Cross for \$35 and \$37, respectively. Notably, other jurisdictions require much more intensive education courses or training requirements, including 1,200 training hours (Kansas) and 200 required practice hours under a licensed supervisor (Minnesota).

- Qualitative description of impact:

The Legislature directed the Department to establish and collect all fees necessary to administer Iowa Code section 10A.531 and establish minimum safety and sanitation criteria for the operation of tattooing establishments. The safety and sanitation standards proposed herein ensure safety for both the licensee and the consumer, including the particular mitigation of risks from blood-borne pathogens. The proposed rules have a solid foundation in health and safety and provide for operational flexibility, depending on the particular type of business and its needs.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the costs of personnel utilized to process permits or conduct inspections, or to contract for any such work. There is one contract employee and one vacant FTE position to process the permits, coordinate with the local inspectors, and administer the program. There is 1.0 full-time equivalent (FTE) position that includes tattoo inspection duties in Polk County. There is also a cost for the database that houses all of the information needed for permitting tattoo artists and establishments.

- Anticipated effect on state revenues:

The Department licenses approximately 1,800 individuals and businesses under current chapter 641—Chapter 22. In FY 2022, the Department collected \$170,300 in permit and inspection fees. Expenditures specific to this program in FY 2022 were \$117,399.

Notably, permit and inspection fees are incurred to defray the costs of the program in accordance with Iowa Code section 10A.531.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa Code section 10A.531 prohibits any person from owning, controlling, leasing, acting as an agent for, conducting, managing, or operating an establishment to practice the art of tattooing or engaging in the practice of tattooing without first applying for and receiving a permit from the Department. It also requires the Department to establish minimum safety and sanitation criteria for the operation of tattooing establishments. Inaction by the Department is not permitted since establishing rules setting fees and establishing minimum safety and sanitation criteria is mandated by Iowa Code section 10A.531.

Establishing minimum qualifications for tattoo artists and establishments and the mitigation of blood-borne pathogen contamination during tattooing is an important benefit for the consumers who utilize tattoo services and the public health in general. These proposed rules also benefit tattoo license holders in that the rules provide clear, simple, and effective safety guidelines. The safety and sanitation criteria that the Department has promulgated are reasonable and appropriate for the protection of the public health and safety, while being reasonable and affordable for individuals engaging in the practice of tattooing.

With respect to fees, specifically, neighboring states have similar or increased fee requirements as set forth above. The fees established by the proposed rules, which are identical to current fees, range from \$75 for a tattoo artist to \$100 for a tattoo establishment, and a temporary tattoo establishment fee based on the number of participating artists ranges from \$100 for 10 artists to \$300 for more than 100 artists. In Nebraska, the initial and renewal fees for tattoo artists are \$95 and \$118, respectively, and are \$150 for body art facilities, with a \$50 reinspection fee. In Minnesota, the body art establishment license fee is \$1,500, and the body art technician license is \$420. Iowa's fees established are appropriate in light of program needs and in comparison to surrounding jurisdictions.

Neighboring states also have similar or increased training and education requirements. Furthermore, in the development of the rules the Department was cognizant of accommodating variations in specific physical facilities depending on the scope or type of each operation while maintaining necessary standards to ensure the operators identify and control for public health hazards and the health and safety of patrons. In addition to protecting public health, the rules have been edited and written in a simple manner that is easy for the public to understand. The benefits that would be achieved justify the costs, and the approach used was the least restrictive approach identified to accomplish the benefit.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Department has not identified any less costly or less intrusive methods to achieve the purpose of this proposed rulemaking. The Department has simplified the proposed rules from those in current existence and thoroughly reviewed each of the substantive requirements affecting sanitation, contamination, and the like to ensure that all standards repromulgated are effective in the most economically efficient manner for the licensee.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

See answer to Question 5. No alternative methods were considered beyond ensuring only appropriate requirements were repromulgated.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

As set forth above, the rules proposed are believed to be the least costly or least intrusive methods to achieve the purpose of this rulemaking and implement the Department’s statutory duties. If a licensee subject to this chapter is a small business and has identified a rule that is overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department’s established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 22 and adopt the following **new** chapter in lieu thereof:

CHAPTER 22
PRACTICE OF TATTOOING

641—22.1 Reserved.

641—22.2(10A) Definitions. For the purpose of these rules, the following definitions apply:

“*Aftercare*” means written instructions given to a client, specific to the procedures rendered, on care for the tattoo and surrounding area and guidance on when to seek medical treatment.

“*Department*” means the same as Iowa Code section 135.61(5).

“*Director*” means the same as Iowa Code section 135.1(1).

“*Disinfectant*” means a U.S. Environmental Protection Agency (EPA)-registered antimicrobial product that is applied to surfaces to destroy microorganisms that are living on the surface but not necessarily bacterial spores.

“*Imminent health threat*” means a condition or conditions that exist in a tattoo establishment and needs immediate action to prevent endangering the health of people.

“*Impervious*” means nonporous, impenetrable, smooth, and washable.

“*Inspection agency*” means the department or a city, county or district board of health that has executed an agreement with the department to inspect tattoo establishments and enforce these rules. The authority of a city, county or district board of health is limited to the geographic area defined in the agreement executed with the department. Within the defined geographic area, the city, county or district board of health is the “local inspection agency.”

“*Mobile tattoo unit*” means a mobile establishment or unit that is self-propelled or otherwise movable from place to place; is self-sufficient for utilities such as gas, water, electricity and liquid waste disposal; and operates at a fixed location where a permitted artist performs tattooing procedures for no more than 14 days in conjunction with a single event.

“*Residential dwelling*” is a place or structure intended to be occupied as a residence.

“*Single use*” means intended for one-time use and disposed of after use on a client. Single-use products or items include cotton swabs or balls, tissues or paper products, paper or plastic cups, gauze and sanitary coverings, disposable razors, tattoo needles, scalpel blades, stencils, ink cups, and protective gloves. Cloth towels and linens are not “single use” and are barred.

“*Sterilization*” means a process resulting in the destruction of all forms of microbial life, including highly resistant bacterial spores that demonstrate tuberculocidal activity.

“*Tattoo artist*” means any person, including a permanent color technologist, engaged in the practice of tattooing.

“*Tattoo establishment*” means the building or portion of the building designated by the owner where tattooing is practiced.

“*Tattooing*” means to puncture the skin of a person with a needle and insert indelible permanent colors through the puncture to leave permanent marks or designs. “Tattooing” includes permanent color technology that is the process by which the skin is marked or colored by insertion of nontoxic dyes or pigments into the dermis portion of the skin so as to form indelible marks for cosmetic purposes. “Tattooing” does not include applying a tattoo for radiological purposes.

“*Temporary establishment permit*” means a permit issued by the department to perform tattoo procedures at a temporary event.

“*Temporary event*” means any place or premises operating at a fixed location where a tattoo artist performs tattooing procedures for no more than 14 days consecutively in conjunction with a single event or celebration to which the general public is invited.

641—22.3(10A) General provisions.

22.3(1) Tattoo artists and tattoo establishments that fail to meet the criteria of Iowa Code section 135.37 or these rules are guilty of a serious misdemeanor.

22.3(2) Compliance with Iowa Code section 135.37 and these rules does not exempt tattoo artists and tattoo establishments from other applicable state or local laws.

22.3(3) Tattooing may only be practiced in facilities that have applied for and received a tattoo establishment permit pursuant to Iowa Code section 135.37.

22.3(4) Notwithstanding local zoning codes, where zoning codes exist, tattooing shall not be practiced in a residential dwelling, inclusive of an attached garage. New tattoo establishments must be in commercial buildings where zoning ordinances exist. A waiver will be granted to any tattoo establishment in a residential dwelling if it has been operating continuously since being granted a permit prior to January 1, 2010.

22.3(5) Tattoo establishments are inspected annually.

641—22.4(10A) Sanitation and infection control. Tattoo establishments shall comply with the following:

22.4(1) Tables, chairs, and other general-use equipment in the tattoo area is constructed of impervious and easily cleanable material.

22.4(2) A sink for hand washing supplied with potable hot and cold running water under pressure to a mixing-type faucet is easily accessible in the tattooing area. Hand-washing facilities are supplied with liquid soap and single-use towels or hand dryer.

22.4(3) Easily accessible toilet facilities with a sink for hand washing are available for employee use and patron use.

22.4(4) The tattoo establishment has an area of at least 300 square feet and is adequately lighted and ventilated.

22.4(5) Floors in the tattoo area are finished with an impervious, washable surface.

22.4(6) The entire premises and all facilities used in connection therewith are maintained in a clean, sanitary, vermin-free condition and in good repair.

22.4(7) All refuse is stored in rigid containers with plastic liners that are emptied at least once each business day.

22.4(8) Closed cabinets or containers are exclusively used for the storage of instruments, dyes, pigments, stencils, tattoo machines, and other equipment.

22.4(9) Smoking is not allowed pursuant to Iowa Code chapter 142D.

22.4(10) Consumption of food or drink is not allowed in the tattoo area.

22.4(11) Intoxicating beverages or controlled substances will not be used, consumed, served, possessed, or distributed on the establishment’s premises.

22.4(12) Tattoo artists not currently permitted in the state of Iowa will not tattoo in the establishment.

22.4(13) No animals, except service animals, are permitted in a tattoo establishment. Aquariums containing fish are allowed in waiting rooms and non-tattoo areas.

641—22.5(10A) Equipment. Tattoo establishments shall maintain equipment in a clean and sanitary condition and comply with the following:

22.5(1) Cups to hold ink or dye are for single-patron use. Any ink or dye, once dispensed into an ink cup, is disposed of immediately following use.

22.5(2) Any dye or ink in which needles were dipped is not used on another person.

22.5(3) All tubes, tips and grips used for the tattoo procedure that are not sterile, not for single-patron use, and not disposable are physically cleaned with a detergent according to manufacturers' recommendations and then steam-sterilized or dry-heat sterilized before use on another person. Steam sterilization is at 250 degrees Fahrenheit (121 degrees Celsius) for 15 minutes at a minimum pressure of 15 pounds per square inch. Dry-heat sterilization is at 350 degrees Fahrenheit (170 degrees Celsius) for one hour. Steam sterilization is preferred.

22.5(4) All instruments needing sterilization are sterilized on site. All instruments to be sterilized are placed in closed pouches after sterilization is complete. The pouches are dated effective for 30 days, after which the instruments are resterilized and the pouches redated.

22.5(5) Sterilizers are monitored monthly for spores of *Bacillus subtilis*, and records of results are maintained for three years. Written procedures to follow in the event of positive spore tests are maintained and implemented, including:

a. In the event of a positive spore test, materials processed in that sterilizer, dating from the sterilization cycle having the positive biological indicator to the next cycle showing satisfactory biologic indicator challenge results, are considered nonsterile and are reprocessed before being used.

b. A sterilizer that has received a positive spore test is immediately removed from service.

c. Prior to putting a sterilizer that has received a positive spore test back into service, the owner ensures that there is evidence of one negative spore test.

d. The owner notifies the inspection agency of a positive spore test within 24 hours of receiving the test result.

22.5(6) Establishments are equipped with a puncture-resistant, leakproof container designated for disposal of used needles and other sharps. The container is red and labeled with the "biohazard" symbol and is closeable for handling, storage, transportation, and disposal. A written plan for disposal is maintained in the establishment.

22.5(7) Any bottles of solution are labeled as to contents and used according to manufacturers' directions.

22.5(8) Single-use razors for removal of unwanted hair are disposed of after use on one patron. Electric razors used to remove unwanted hair of a patron are cleaned with a brush and fungicidal/tuberculocidal disinfectant spray.

22.5(9) Topical ointments are prepared for single-patron use.

641—22.6(10A) Procedures. Tattoo establishments shall comply with the following:

22.6(1) Tattoo establishments will establish a written standard operating procedure (SOP) that includes the process for setup and tear down of tattoo procedures. The SOP focuses on procedures of hygiene and cross-contamination control.

22.6(2) For privacy purposes and at the patron's request, establishments have in place or readily available a nontransparent panel or other barrier of sufficient height and width to effectively separate the patron from any unwanted observers or waiting patrons.

22.6(3) Tattoo artists scrub their hands thoroughly before beginning the tattoo procedure. Tattoo artists dry their hands with individual single-use towels or hand dryer.

22.6(4) Tattoo artists wear clean garments and disposable latex, nitrile, chloroprene, or vinyl gloves during the tattoo procedure. Gloves are changed after each tattoo. Tattoo artists wash their hands before and after each tattoo procedure.

22.6(5) All items with which the gloved hands of the tattoo artist would normally come into contact during the tattooing procedure have appropriate barrier films covering them, including clip cords, squeeze bottles, seat adjustment controls, power control dials or buttons, and work lamps.

22.6(6) The skin area to be tattooed is first cleansed with soap and water. Single-use towels or sponges (gauze) are used during the cleansing procedure.

22.6(7) Before placing the tattoo design on the patron's skin, the tattoo artist prepares the skin with 70 percent ethyl or isopropyl alcohol solution or an equally effective antiseptic or antimicrobial.

22.6(8) Tattooing is not performed on any area where there is evidence of skin infection, irritation, or abnormalities.

22.6(9) After the tattooing is completed, the tattoo artist:

a. Applies an adequate dressing or bandage to the tattoo area.
b. Provides to the persons tattooed printed aftercare instructions regarding tattoo care during the healing process.

c. Thoroughly cleans the machine head with an acceptable disinfectant and sprays an acceptable surface disinfectant over the work area during the clean-up procedures before the area is set up for the next tattoo procedure.

641—22.7(10A) Permit issuance and renewal. The following apply to applications for a permit to practice as a tattoo artist or as a tattoo establishment.

22.7(1) An applicant will complete either an online application or a paper application according to the instructions contained in the application. Paper applications are available to download at the department's website. Each application must be accompanied by the appropriate fee as set forth in subrule 22.8(2) to be processed. A paper application is accompanied by the appropriate fee payable by check or money order to the department. Online application fees are paid by credit card only. An application that includes insufficient or incorrect fees is considered incomplete. If the applicant is notified that the application is incomplete, the applicant should contact the department within 90 days. Incomplete applications are considered invalid and destroyed after 90 days.

22.7(2) Documentation of medical conditions and criminal convictions related to the practice of the profession shall include a full explanation from the applicant. No application is considered complete until the applicant responds to any program requests for additional information regarding the applicant's medical condition or criminal conviction.

22.7(3) All permits expire on December 31 for the year issued. An applicant will submit a completed application, supporting documentation, and renewal fee annually by December 1 for renewal. The permit holder has a current permit in possession before performing tattooing. An applicant who submits a renewal application after December 1 will be obligated to pay an additional \$25 for each month delinquent.

22.7(4) The permit holder is responsible for renewing the permit prior to its expiration.

22.7(5) A permit that has not been renewed within 90 days of the permit expiration date will automatically be deactivated. There will be a \$25 reinstatement fee charged for reactivating a permit in addition to the renewal fee.

641—22.8(10A) Fees.

22.8(1) All fees are nonrefundable.

22.8(2) Fees for all initial and renewal applications are as follows:

- a.* Tattoo artist: \$75.
- b.* Tattoo establishment: \$100.
- c.* Temporary tattoo establishment:
 - (1) Zero to ten participating artists: \$100.
 - (2) Eleven to 100 participating artists: \$200.
 - (3) One hundred one or more participating artists: \$300.
- d.* Mobile tattoo unit: \$100.
- e.* Mobile tattoo event: \$25 per event.

- f.* Tattoo establishment change of ownership: \$25.
- g.* Tattoo establishment change of location: \$25.
- h.* Mobile tattoo unit change of location: \$25.

641—22.9(10A) Tattoo establishment permit criteria.

22.9(1) No tattoo establishment may operate in the state without having a permit to operate issued by the department. Permits shall be posted in a conspicuous location in the tattoo establishment.

22.9(2) A person applying for a tattoo establishment permit will submit a floor plan of the establishment with the application.

22.9(3) A permit to operate is issued to a new establishment when the department or its representative has successfully completed an on-site inspection.

22.9(4) Tattoo establishment permits are nontransferable.

22.9(5) A tattoo establishment shall retain a record of all persons who have had tattoo procedures performed at the establishment. Records include the client's name and date of birth, copy of client's identification, date of the procedure, name of the tattoo artist who performed the procedure(s), and signature of client. Records shall be retained in a confidential manner for a minimum of three years and made available to the department or inspection agency upon request.

22.9(6) Change in ownership. Within 30 days of a change in ownership of a tattoo establishment, the new owner shall submit a change in ownership application and fee for a new permit. An on-site inspection will be completed before a permit to operate will be issued.

22.9(7) Within 30 days of a change of location of a tattoo establishment, the owner shall submit a change of location application and a fee for a new permit. An on-site inspection will be completed by the inspection agency before a permit to operate will be issued.

641—22.10(10A) Tattoo artist permit criteria.

22.10(1) No person may perform tattooing without a current permit to operate issued by the department.

22.10(2) Each permit issued is in effect solely for the tattoo artist named thereon and remains with the tattoo artist upon any change of employment. Tattoo artist permits are nontransferable.

22.10(3) An applicant for a tattoo artist permit must be at least 18 years of age and submit government-issued documentation to show proof of attaining the age of 18 years.

22.10(4) A tattoo artist must provide proof of current certification by the American Red Cross for blood-borne pathogens and standard first aid or other equivalent, nationally recognized certification.

22.10(5) Permits shall be posted in a conspicuous place in the tattoo establishment.

641—22.11(10A) Temporary establishment permit criteria.

22.11(1) A person must submit a temporary tattoo establishment application form, a floor plan of the facility, promotional documentation for the event, and the appropriate fee at least 30 days prior to the event to obtain a temporary establishment permit. Fees are based on the number of participating tattoo artists. The application specifies the following:

- a.* The purpose for which the permit is requested.
- b.* The period of time during which the permit is needed (not to exceed 14 calendar days per event).
- c.* The fulfillment of tattoo artist criteria as specified in rule 641—22.10(135). A list of participating tattoo artists shall be sent to the tattoo program no later than one week prior to the event.
- d.* The location at which the temporary event will be held.

22.11(2) The temporary event must be inside a permanent building and comply with the following:

- a.* Conveniently located hand-washing facilities with liquid soap, single-use towels or hand dryers and potable hot and cold water under pressure to a mixing-type faucet are provided. Drainage in accordance with local plumbing codes are provided.
- b.* A minimum of 80 square feet of floor space is provided for each booth.
- c.* There is sufficient lighting where the tattoo procedure is being performed.

d. All tubes, tips and grips used for the tattoo procedure that are not single use are properly sterilized and dated 30 days or less prior to the date of the event. Evidence of a spore test performed on the sterilization equipment is dated 30 days or less prior to the date of the event. Single-use, prepackaged, sterilized equipment obtained from reputable suppliers or manufacturers is allowed.

e. Tattoo artists properly clean and sanitize the area used for tattoo procedures.

f. Floors of the tattooing area(s) are smooth and impervious or covered with an impermeable barrier.

22.11(3) The facility where the temporary event will be held must be inspected by the designated inspection agency and issued a permit prior to the performance of any tattoo procedures. A \$50 inspection fee for each booth shall be made payable to the inspection agency.

22.11(4) No animals, except service animals, are allowed in the temporary establishment at any time.

22.11(5) Temporary establishment permits issued under the provisions of these rules may be suspended by the department for failure of the holder to comply with these rules.

22.11(6) Temporary establishment permits and tattoo artist permits shall be posted in a conspicuous place in the temporary establishment.

641—22.12(10A) Mobile tattoo unit permit criteria. No new mobile tattoo units will be permitted. Mobile tattoo units granted a permit prior to September 7, 2016, may continue to operate with a current permit provided they remain compliant with the rules of this chapter. Mobile tattoo units and tattoo artists working from mobile tattoo units shall comply with the following:

22.12(1) No mobile tattoo unit is operated in the state without having a permit to operate issued by the department.

22.12(2) All tattoo artists working in a mobile tattoo unit have a permit and comply with these rules. Artist permits are posted in a conspicuous location in the mobile tattoo unit.

22.12(3) Mobile tattoo unit permits are posted in a conspicuous place in the mobile tattoo unit.

22.12(4) Mobile tattoo unit permits are nontransferable.

22.12(5) Within 30 days of a change of address of where the mobile tattoo unit is housed, the owner submits a new application and a fee for a new permit.

22.12(6) Inspections will be conducted by the local jurisdiction in which the mobile tattoo unit is housed. Any out-of-state mobile tattoo units maintaining an Iowa mobile tattoo unit permit must be inspected annually.

22.12(7) Mobile tattoo units are permitted for use only at temporary events lasting 14 calendar days or less. Permits are obtained at least 14 days prior to the event, and no tattoo procedures are performed before a permit is issued. Promotional documentation of the event is included with the application. Permit holders are responsible for compliance with all other local regulations including but not limited to zoning and business license criteria.

22.12(8) The mobile tattoo unit is maintained in a clean and sanitary condition at all times. Doors are tight-fitting. Openable windows have tight-fitting screens.

22.12(9) Mobile tattoo units meet the sterilization criteria in accordance with rule 641—22.5(135).

22.12(10) Mobile tattoo units are used only for the purpose of performing tattoo procedures. No habitation or food preparation is permitted inside the vehicle unless the tattoo work station is separated from such areas by an impervious floor-to-ceiling barrier.

22.12(11) Mobile tattoo units are equipped with a hand sink for use of the tattoo artist for hand washing and preparing the client for the tattoo procedures. The hand sink is supplied with hot and cold running water under pressure to a mixing-type faucet, as well as liquid soap and single-use towels in dispensers or hand dryer. An adequate supply of potable water is maintained for the mobile tattoo unit at all times during operation. The source of the water and storage of the tank(s) is also identified.

22.12(12) All liquid wastes are stored in an adequate storage tank with a capacity at least 15 percent greater than the capacity of the on-board potable water supply. Liquid wastes are disposed of at a publicly owned treatment works site approved by the department of natural resources (DNR).

22.12(13) Restroom facilities are available at the temporary event or within the mobile tattoo unit. A hand sink is available within a reasonably acceptable distance from the restroom. The hand sink is

supplied with hot and cold running water under pressure to a mixing-type faucet, as well as liquid soap and single-use towels or hand dryer.

22.12(14) All tattoo artists working in a mobile tattoo unit have a permit and comply with these rules. Permits are posted in a conspicuous location in the mobile tattoo unit.

22.12(15) No animals, except service animals, are allowed in the mobile tattoo unit at any time.

641—22.13(10A) Inspections.

22.13(1) An inspection fee of \$250 is due upon receipt of a notice of payment due, which will be billed by the inspection agency upon completion of an inspection.

22.13(2) Tattoo establishments are inspected annually and the reports of inspections maintained by the inspection agency for three years.

22.13(3) When the tattoo establishment is located within the jurisdiction of a local inspection agency, the local inspection agency may establish fees needed to defray the costs of inspection and enforcement under this chapter. Inspection fees billed by a local inspection agency are paid to the local inspection agency or its designee.

22.13(4) When an inspection agency determines that a special inspection is necessary, such as a follow-up inspection or an inspection generated by complaints, the inspection agency may charge a special inspection fee based on the actual cost of providing the inspection.

22.13(5) Unpaid inspection fees are delinquent 30 days after the date of the bill. A late fee of \$30 per month will be assessed to the establishment owner after a 30-day notice. If inspection fees remain unpaid after 60 days, an order to cease and desist operations will be issued by the department.

22.13(6) Failure to allow an inspection is grounds for denial or suspension of a tattoo establishment's permit.

22.13(7) If an imminent health threat exists, the inspection agency or the department may order the establishment to cease operation immediately pursuant to Iowa Code section 17A.18A. Operation shall not be resumed until authorized by the inspection agency or the department.

22.13(8) Safety data sheets (SDS) for the chemicals used at the tattoo establishment shall be maintained at the establishment and made available upon request.

22.13(9) The most recent routine inspection report, along with any reinspection reports, shall be posted in a location at the establishment that is readily visible to the public.

641—22.14(10A) Tattoo inspector qualifications. Tattoo inspectors shall have successfully completed a blood-borne pathogen certification course from the American Red Cross or an equivalent nationally recognized organization, documentation of which is maintained by the local inspection agency.

641—22.15(10A) Enforcement. The inspection agency may take the following steps when enforcement of these rules is necessary.

22.15(1) Owner notification. The inspection agency will provide written notification to the owner of the establishment that:

- a. Cites each section of the Iowa Code or rule of the Iowa Administrative Code violated.
- b. Specifies the manner in which the owner or operator failed to comply.
- c. Specifies the steps needed for correcting the violation.
- d. Requests a corrective action plan, including a time schedule for completion of the plan.
- e. Sets a reasonable time limit, not to exceed 30 days from the receipt of the notice, within which the owner of the establishment must respond.

22.15(2) Corrective action plan review. The inspection agency will review the corrective action plan and approve it or direct modifications.

22.15(3) Failure to comply. If the owner of a tattoo establishment, mobile tattoo unit, or temporary establishment fails to comply with conditions of the written notice, the inspection agency may take enforcement action in accordance with Iowa Code chapter 135 or local ordinances.

641—22.16(10A) Adverse actions and appeals.

22.16(1) Failure to abide by Iowa Code section 135.37 or this chapter may result in adverse action, including the denial or revocation of a permit, or an order to cease operations until necessary corrective action has been taken. If the establishment continues to be operated in violation of the order of the department, the department may refer the matter to the county attorney or attorney general for injunction, criminal penalties, or other appropriate action.

22.16(2) The following are particular instances that may result in adverse action as set forth in subrule 22.16(1):

- a.* Any material misstatement in the application, renewal, or any supplementary statement.
- b.* Failure to pay fees in accordance with this chapter.
- c.* Operation without a current permit.
- d.* Falsification of records, qualifications, or other information related to permitting approval.
- e.* Failure to correct any violation identified during an inspection that jeopardizes public safety.
- f.* Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established. Acts that may constitute unethical conduct include:
 - (1) Verbally or physically abusing a patron.
 - (2) Improper sexual contact with, sexual harassment of, or improper sexual advances upon a patron. Sexual harassment includes sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
 - (3) Betrayal of a professional confidence.
 - (4) Engaging in a professional conflict of interest.
- g.* Failing to cooperate with an investigation or engaging in conduct attempting to subvert an investigation.
- h.* Failure to comply with the terms of a department order or the terms of a settlement agreement or consent order.
- i.* Knowingly aiding, assisting or advising a person to unlawfully practice tattooing.
- j.* Representing oneself as a tattoo artist when one's permit has been denied, suspended, revoked, lapsed, or placed on inactive status.
- k.* Mental or physical inability reasonably related to and adversely affecting the tattoo artist's ability to practice in a safe and competent manner.
- l.* Habitual intoxication or addiction to drugs, including habitual or excessive use of drugs or alcohol that impair a tattoo artist's ability to practice with reasonable skill or safety.
- m.* Obtaining, possessing, attempting to obtain or possess, or administering controlled substances without lawful authority.
- n.* Violating a statute of this state or another jurisdiction relating to the provision of tattooing, including but not limited to crimes involving dishonesty, fraud, theft, embezzlement, controlled substances, substance abuse, assault, sexual abuse, sexual misconduct, or homicide. A copy of the record of conviction or plea of guilty is conclusive evidence of the violation.
- o.* Having a certification or permit to practice tattooing suspended or revoked, or other disciplinary action taken by a licensing, certifying, or permitting authority in any jurisdiction. A copy of the record or order of suspension, revocation or disciplinary action is conclusive or prima facie evidence.
- p.* Failure to comply with standard precautions for preventing transmission of infectious diseases as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.
- q.* Failure to appropriately respond to written communication from the department sent by registered or certified mail.

22.16(3) Notice of issuance of a denial, revocation, or order to cease operations will be served by certified mail, return receipt requested, or by personal service.

22.16(4) An aggrieved party may request a contested case appeal in writing to the department within 20 days from the date of the aggrieved party's receipt of the department's order. 481—Chapters 9 and 10 are applicable to contested case appeals.

These rules are intended to implement Iowa Code section 10A.531 as transferred by 2023 Iowa Acts, Senate File 514, section 1711.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 23
“Plumbing and Mechanical Systems Board—Licensee Practice”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 105.4(2), 105.5, 105.10, and 105.21
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 105

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kane Young
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.724.3216
Email: kane.young@dia.iowa.gov

Purpose and Summary

This rulemaking proposing promulgation of new 641—Chapter 23, “Plumbing and Mechanical Systems Board—Licensee Practice,” implements Iowa Code chapter 105 in accordance with the goals of Executive Order 10 (January 10, 2023). The rulemaking defines the various license types and establishes expectations and duties for licensure and supervision. It also establishes that inactive licenses and lapsed licenses are not valid for practice. This is important to the industry and the public because it creates an understanding of what is expected of licensed individuals and businesses. The public can be assured that licensed businesses have the appropriate bonding and insurance and that their employees are appropriately supervised. The industry can be assured that all licensed individuals and businesses are following the same standards throughout Iowa.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no known costs to the general public. There are costs to the industry related to licensees obtaining and maintaining their licenses. There are costs to the agency for staff to administer the program. This includes processing staff, an investigator, and a supervisor/board executive. There are also costs associated with the database that houses all of the data related to licensure.

- Classes of persons that will benefit from the proposed rulemaking:

The general public will benefit from this proposed rulemaking because it ensures businesses in the industry are appropriately bonded, insured, and supervised. The industry will benefit from this rulemaking because all licensed individuals and businesses are following the same standards throughout Iowa.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The costs for the individual licensees are those incurred in the course of obtaining and maintaining their licenses. The costs for contractor licensees are those incurred in the course of obtaining and maintaining proper bonding and insurance. The costs to licensees include the license fees, which are described in 641—Chapter 28. There are also costs associated with continuing education courses or apprenticeship programs. Those costs vary depending on the type and number of licenses an individual must maintain. Estimated continuing education units (CEU) costs are described in the Regulatory Analysis for 641—Chapter 30 (IAB 11/1/23).

- Qualitative description of impact:

These rules are necessary to implement the overall program goals identified in Iowa Code chapter 105. The public is protected by having an appropriately qualified and trained workforce in the industry. There are multiple examples of unqualified and unlicensed individuals who have created hazardous situations due to improper installation or repair of plumbing and mechanical systems. If licensed companies have issues, there are licensing and bond requirements that are also intended to protect the public.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The fees collected are retained and go to the agency in order to implement the program.

Costs to the agency for implementing Iowa Code chapter 105 include the support staff for processing licenses and CEUs, an investigator, and supervisor. It also includes IT/AMANDA support staff and other office costs, the database used to store licensee information and issue licenses, and indirect costs. This specifically includes 3.6 full-time equivalent (FTE) positions at a cost of approximately \$322,254 in FY 2023. It includes a Computer Aid, Inc., vendor at \$50,000 in FY 2023. It includes expenses associated with licensing software and technology at a cost of approximately \$625,000 in FY 2023. Indirect costs in FY 2023 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as a division administrator, legal support, and fiscal support.

- Anticipated effect on state revenues:

The fees collected are retained and go to the agency in order to implement the program. Iowa Code section 105.9(5)“a” requires the Plumbing and Mechanical Systems Board (Board) to submit a report to the General Assembly within 60 days following the end of each fiscal year that includes a balance sheet projection extending no less than three years. If the revenue projection exceeds expense projections by more than 10 percent, the Board is required to adjust its fee schedules accordingly so that projected revenues are no more than 10 percent higher than projected expenses. Accordingly, the Board does not anticipate any effect on state revenues in excess of 10 percent. The estimated new revenue for FY 2023 was \$2,000,000. Any civil penalties that are collected due to noncompliance are directed to the General Fund, thereby increasing state revenues. In FY 2022, there was \$8,300 in civil penalty fines collected. In FY 2023, there was \$2,750 in civil penalty fines collected.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The proposed rules add very little cost beyond any costs incurred due to the substantive requirements of Iowa Code chapter 105. Furthermore, the cost of licensing is relatively minimal when compared to the benefit of having a properly trained and supervised workforce in this industry. When using properly licensed businesses and individuals, the public can have confidence that this important work is done safely and correctly. There are bonding and insurance requirements in cases where work is not done properly, the costs of which are statutorily required to be borne by the licensees. The bonding and insurance requirements protect the public from economic harm resulting from incomplete work and incentivizes licensees to complete work using ethical business practices.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

No known alternative exists.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Prior to statewide licensing in 2010, local jurisdictions had their own licensing requirements or none at all. There was no uniformity, and businesses and individuals often had to have multiple licenses for multiple jurisdictions. There is now uniformity for licensing, and the entire industry is following the same rules due to the requirements of Iowa Code chapter 105 and rules discussed herein that clarify and implement Iowa Code chapter 105. The rules discussed herein are already believed to be the least restrictive implementation of Iowa Code chapter 105.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Statewide licensing is required by Iowa Code chapter 105 and broadly protects all of the citizens of Iowa and treats the entire industry with uniformity. The Board is statutorily required to adopt rules to implement Iowa Code chapter 105, and the rules proposed herein are believed to be the least restrictive implementation of Iowa Code chapter 105.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The impact on small business is already believed to be at the lowest level available in order to implement and carry out the duties of the agency in Iowa Code chapter 105. One of the positions on the Board is specific to a contractor primarily working in rural Iowa, which is likely to be a small business. If a small business subject to this proposed chapter identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 23 and adopt the following **new** chapter in lieu thereof:

CHAPTER 23 PLUMBING AND MECHANICAL SYSTEMS BOARD—LICENSEE PRACTICE

641—23.1(105) Definitions. The definitions set forth in Iowa Code section 105.1 are incorporated herein by reference. For purposes of these rules, the following additional definitions apply:

“*Inactive license*” means a license that is available for a plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic professional who is not actively engaged in running a business or working in

the business in the corresponding discipline at that license level. An inactive license must be renewed prior to its expiration date. An inactive license is not valid for practice until the license is reactivated by the board.

“Lapsed license” means a license that has expired. A lapsed license is no longer valid for practice.

“Licensee” means a person holding a license issued by the board, including an apprentice, journey person, or master license in the plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronics trades; a combined license; a special, restricted sublicense; or a medical gas certificate.

“Master of record” means an individual possessing an active master license under Iowa Code chapter 105 who shall be responsible for the proper designing, installing, and repairing of plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic systems and who is actively in charge of the plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic work of a contractor.

641—23.2(105) Duties of all licensees, specialty licensees, and certificate holders.

23.2(1) While conducting business or performing work covered under Iowa Code chapter 105, each licensee will keep a copy of the licensee’s board-issued license on the licensee’s person or in an easily retrievable area at the work site.

23.2(2) Each licensee will maintain a residential or business address on record with the board. In the event the licensee’s residential or business address changes, the licensee will so notify the board.

23.2(3) Each licensee will apply for and obtain all applicable permits prior to performing any work covered under Iowa Code chapter 105 as may be mandated by any law, ordinance, or regulation of this state, or a political subdivision therein.

23.2(4) A licensee will present upon request a copy of the licensee’s board-issued license issued under Iowa Code section 105.12(2).

23.2(5) A licensee possessing a lapsed license cannot operate as a contractor or work in the plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic disciplines or work as a medical gas system installer or work in a specialty license discipline until the license is reinstated and renewed.

23.2(6) Each licensee will perform all Iowa Code chapter 105-covered work in conformity with the applicable professional code.

23.2(7) A licensee will not perform any Iowa Code chapter 105-covered work for which the licensee does not possess the requisite license.

23.2(8) A licensee will conform to the minimum standard of acceptable and prevailing practice and will exercise the degree of workmanlike care which is ordinarily exercised by the average licensee in the applicable trade acting in the same or similar circumstances.

23.2(9) A licensee who utilizes the services of an unlicensed person as a helper will be responsible for the work performed by the helper and shall ensure that such work conforms to the minimum standard of acceptable and prevailing practice.

641—23.3(105) Contractor license. A contractor licensed under Iowa Code chapter 105 will adhere to the following, the violation of which may give rise to disciplinary action:

23.3(1) Master license. A contractor will not engage in the business of designing, installing, or repairing plumbing, mechanical, HVAC-refrigeration, or hydronic systems unless at all times the contractor holds or employs at least one person holding an active master license issued by the board for each discipline in which the contractor conducts business. Without prior board approval, a contractor will not knowingly utilize a master licensee to meet this requirement if the master licensee is simultaneously associated with another contractor in that discipline.

a. Notwithstanding subrule 23.3(1), in the event a licensed master of record’s employment with the contractor is terminated, or the master of record otherwise discontinues the master of record’s relationship with the contractor, or the master of record’s master license is lapsed, suspended, revoked, expired, or otherwise invalidated, the contractor may continue to provide plumbing, mechanical, HVAC-refrigeration, or hydronic systems services for a period of up to six months without identifying a new master of record.

b. To utilize the six-month grace period set forth in paragraph 23.3(1) “a,” a contractor will notify the board of the contractor’s loss of the master of record within 30 days from the date the master of record is no longer associated with the contractor, absent exigent circumstances.

23.3(2) *Display of license.* A person holding a contractor license will keep the current license certificate publicly displayed in the primary place in which the person practices.

23.3(3) *Surety bond.* A person or entity holding a contractor license must maintain during the licensing period a surety bond issued by an entity licensed to do business in Iowa in a minimum amount of \$5,000. If a person operates the contractor business as a sole proprietorship, the person must personally obtain and maintain the surety bond. If a person operates the contractor business as an employee or owner of a legal entity, the legal entity must obtain and maintain the surety bond, and the surety bond must cover all plumbing or mechanical work performed by the legal entity. The surety bond mandated under this subrule must contain a provision that requires the issuing entity to provide the board ten days’ written notice before the surety bond can be canceled.

23.3(4) *Public liability insurance.* A person or entity holding a contractor license must maintain during the licensing period public liability insurance issued by an entity licensed to do business in Iowa in a minimum amount of \$500,000. If a person operates the contractor business as a sole proprietorship, the person must personally obtain and maintain the public liability insurance. If a person operates the contractor business as an employee or owner of a legal entity, the legal entity must obtain and maintain the public liability insurance, and the public liability insurance must cover all plumbing and mechanical work performed by the legal entity. The public liability insurance mandated under this subrule must contain a provision that requires the issuing entity to provide the board ten days’ written notice before the public liability insurance can be canceled.

23.3(5) *Contractor registration with the department.* A contractor will maintain registration as a contractor with the director pursuant to Iowa Code chapter 91C by providing the board with the necessary information.

23.3(6) *Permanent place of business.* A contractor will maintain a permanent place of business, the address of which will be provided to the board. If a contractor changes the permanent place of business, the contractor will provide the board the new address within 30 days of the change.

23.3(7) *Licensure.* A contractor will not knowingly allow an employee to perform work covered under Iowa Code chapter 105 without the applicable license.

23.3(8) *Supervision.* A contractor will not knowingly allow an apprentice employed by the contractor to perform work covered under Iowa Code chapter 105 without supervision of the apprentice by a master or journeyman who is also employed by the contractor and who is licensed in the discipline in which the apprentice is performing such work.

641—23.4(105) Master license. A master licensed under Iowa Code chapter 105 will adhere to the following, the violation of which may give rise to disciplinary action:

23.4(1) *Contractor relationship.* A master may only be a master of record for one contractor in any particular discipline at any one time, except that a contractor or a master may seek prior board approval to serve as the master of record for more than one contractor in a particular discipline. An individual who possesses master licenses in multiple disciplines may be a master of record for multiple contractors so long as the individual is only a master of record for one contractor in any particular discipline at one time.

23.4(2) *Contractor.* A master will not knowingly perform work covered under Iowa Code chapter 105 for an unlicensed contractor.

23.4(3) *Supervision.* A master who superintends the design, installation, or repair of plumbing, mechanical, HVAC-refrigeration, or hydronic systems will be available to supervise journeymen or apprentices as needed and may only provide such supervision in the discipline or disciplines in which the master is licensed. A master will not knowingly supervise unlicensed persons who perform work covered under Iowa Code chapter 105 for which a board-issued license is required.

23.4(4) *Master of record.* A master who serves as a master of record for a contractor and who disassociates from the contractor will notify the board and the contractor of the disassociation, if

notice was not previously provided, within 30 days from the date of disassociation, absent exigent circumstances.

641—23.5(105) Journeyperson license. A journeyperson licensed under Iowa Code chapter 105 will adhere to the following, the violation of which may give rise to disciplinary action:

23.5(1) Working under supervision. A journeyperson will work under the supervision of a master licensed in the discipline of the work being performed in the design, installation, and repair of plumbing, mechanical, HVAC-refrigeration, or hydronic systems.

23.5(2) Contractor. A journeyperson will not knowingly perform work covered under Iowa Code chapter 105 for an unlicensed contractor.

23.5(3) Supervision. A journeyperson who superintends one or more apprentices may only provide such supervision in the discipline(s) in which the journeyperson is licensed and only while performing work for the same contractor licensed under Iowa Code chapter 105. A journeyperson shall not knowingly supervise unlicensed persons who perform work covered under Iowa Code chapter 105 for which a board-issued license is required.

641—23.6(105) Apprentice license. An apprentice licensed under Iowa Code chapter 105 will adhere to the following mandates, the violation of which may give rise to disciplinary action:

23.6(1) Working under supervision. An apprentice may only perform work covered under Iowa Code chapter 105 under the supervision of a master or journeyperson.

23.6(2) Contractor. An apprentice will not knowingly perform work covered under Iowa Code chapter 105 for an unlicensed contractor.

23.6(3) Dual licensure as an apprentice barred. A licensee cannot simultaneously possess both an active apprentice license and an active specialty license.

641—23.7(105) Specialty licenses and certifications.

23.7(1) Medical gas certification.

a. A person who possesses a medical gas certification and who performs medical gas brazing will maintain the person's brazing continuity.

b. A person who possesses a medical gas certification will maintain the person's valid certification issued from the National Inspection Testing Certification (NITC) Corporation or an equivalent authority approved by the board.

23.7(2) Hearth systems specialty license.

a. A person who possesses a hearth systems specialty license will maintain the person's valid certification issued from the National Fireplace Institute or equivalent authority approved by the board.

b. A hearth systems specialty license allows a licensee to perform work in the installation of gas burning and solid fuel appliances that offer a decorative view of the flames, from the connector pipe to the shutoff valve located within three feet of the appliance. A hearth systems specialty license further allows for work in the venting systems associated with a hearth appliance, log lighters, gas log sets, fireplace inserts, and freestanding stoves. A hearth systems specialty license does not allow a licensee to install a shutoff valve or perform any other mechanical or HVAC-refrigeration work.

c. A person possessing a hearth systems specialty license will not perform Iowa Code chapter 105-covered work beyond the limited scope of the person's specialty license, and will not perform work within the limited scope of the person's specialty license unless the person can conform to the minimum standard of acceptable and prevailing practice of a licensee performing such work.

23.7(3) Service technician HVAC specialty license.

a. A licensee who holds a service technician HVAC specialty license by demonstrating the licensee possesses a valid certification from North American Technical Excellence, Inc. or an equivalent authority approved by the board will maintain valid certification from North American Technical Excellence, Inc. or an equivalent authority approved by the board.

b. A service technician HVAC specialty license allows a licensee to perform work from the appliance shutoff valve to the appliance and any part and component of the appliance, including the

disconnection and reconnection of the existing appliance to the gas piping and the installation of a shutoff valve no more than three feet from the appliance. A service technician HVAC specialty license does not allow a licensee to perform any other mechanical or HVAC-refrigeration work.

c. A person possessing a service technician HVAC specialty license will not perform Iowa Code chapter 105-covered work beyond the limited scope of the person's specialty license, and will not perform work within the limited scope of the person's specialty license unless the person can conform to the minimum standard of acceptable and prevailing practice of a licensee performing such work.

23.7(4) *Disconnect/reconnect plumbing technician specialty license.*

a. A disconnect/reconnect plumbing technician specialty license allows a licensee to perform work from the appliance shutoff valve or the fixture shutoff valve to the appliance or fixture and any part or component of the appliance or fixture, including the disconnection and reconnection of the existing appliance or fixture to the water or sewer piping and the installation of a shutoff valve no more than three feet from the appliance or fixture. A disconnect/reconnect plumbing technician specialty license does not allow a licensee to perform any other plumbing work.

b. A person possessing a disconnect/reconnect plumbing technician specialty license will not perform Iowa Code chapter 105-covered work beyond the limited scope of the person's specialty license, and will not perform work within the limited scope of the person's specialty license unless the person can conform to the minimum standard of acceptable and prevailing practice of a licensee performing such work.

23.7(5) *Private school or college routine maintenance specialty license.*

a. A private school or college routine maintenance specialty license allows a licensee to perform routine maintenance within the scope of the licensee's employment with a private school or college. For purposes of this subrule, "routine maintenance" means the maintenance, repair, or replacement of existing fixtures or parts of plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic systems in which no changes in original design are made. Fixtures or parts do not include smoke and fire dampers or water, gas, or steam piping permanent repairs except for traps and strainers. Routine maintenance includes emergency repairs. Routine maintenance does not include the replacement of furnaces, boilers, cooling appliances, or water heaters more than 100 gallons in size.

b. A person possessing a private school or college routine maintenance specialty license will not perform Iowa Code chapter 105-covered work beyond the limited scope of the person's specialty license, and will not perform work within the limited scope of the person's specialty license unless the person can conform to the minimum standard of acceptable and prevailing practice of a licensee performing such work.

23.7(6) *Dual licensure as an apprentice prohibited.* A licensee cannot simultaneously possess both an active apprentice license and an active specialty license.

641—23.8(105) Inactive license.

23.8(1) A person possessing an inactive license under 641—subrule 29.2(6) will not perform any plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic work for which licensure is mandated so long as the person's license is held in inactive status.

23.8(2) A person possessing an active journeyperson/inactive master license under 641—subrule 29.2(5) will not perform any plumbing, mechanical, HVAC-refrigeration, or hydronic work for which a master license is mandated so long as the person's master license is held in inactive status.

23.8(3) *Inactive specialty license.*

a. A person possessing an active specialty license under rule 641—23.7(105) will submit a written request to place the specialty license on inactive status in order to obtain an active apprentice license. The licensee will acknowledge that the licensee is unable to perform any work covered under Iowa Code chapter 105 outside of the apprenticeship program.

b. Notwithstanding 641—subrule 28.1(3), a person possessing both an inactive specialty license and an active apprentice license need not pay a renewal fee for the inactive specialty license so long as the person remains actively licensed as an apprentice.

c. Notwithstanding 641—subrule 30.2(2), a person possessing an inactive specialty license and an active apprentice license need not obtain any continuing education hours for renewal so long as the person remains actively licensed as an apprentice.

d. A person possessing both an inactive specialty license and an active apprentice license may surrender the apprentice license and reactivate the specialty license upon written request and payment of the fee for an active specialty license in the amount specified in 641—Chapter 28.

These rules are intended to implement Iowa Code sections 105.10, 105.14, 105.16, 105.18, 105.19, 105.20, and 105.22.

Regulatory Analysis

Email: joe.campos@idph.iowa.gov

Purpose and Summary

This chapter sets forth HHS procedure in administering the Grants to Counties program for the purpose of testing private water wells, reconstructing private water wells, and the proper plugging of abandoned private water wells within the jurisdiction of each county board of health.

Grant program parameters are defined in Iowa Code section 455E.11. HHS administers these grants in coordination with the Iowa Department of Natural Resources.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
No direct costs to the public have been identified.
 - Classes of persons that will benefit from the proposed rulemaking:
County boards of health receiving grant funds will benefit.
Communities and individuals that live in a county that receives grant funds will also benefit. HHS incurs personnel costs for team members to administer the Grants to Counties program. These costs are reflected in the table below as “HHS Implementation.”
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Figures below are actuals incurred in the fiscal years shown.

Identified Impacts*

| | SFY2018 | SFY2019 | SFY2020 | SFY2021 | SFY2022 | 5-Year Total |
|-----------------------------------|-------------|-------------|-------------|-------------|-------------|--------------|
| Costs | | | | | | |
| HHS Implementation | (\$81,000) | (\$84,000) | (\$87,000) | (\$90,000) | (\$93,000) | (\$435,000) |
| Grants to Counties | (\$2.6M) | (\$3M) | (\$3M) | (\$4M) | (\$4M) | (\$16.6M) |
| Benefits | | | | | | |
| Increased Public Trust | Intangible | Intangible | Intangible | Intangible | Intangible | Intangible |
| Improved Public Health and Safety | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | \$2,681,000 | \$3,084,000 | \$3,087,000 | \$4,090,000 | \$4,093,000 | \$17,035,000 |

*All monetary figures have been rounded to the nearest thousandth.

Sound grant administration ensures that grantees are using grant funds efficiently and appropriately, leading to public trust in government programming and improved public health and safety driven by the goals of the Grants to Counties program.

- Qualitative description of impact:

Sound grant administration ensures that grantees are using grant funds efficiently and appropriately, leading to public trust in government programming and improved public health and safety driven by the goals of the Grants to Counties program.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for team members to administer the Grants to Counties program. These costs are reflected in the table above as “HHS Implementation.”

- Anticipated effect on state revenues:

No impact on state revenues has been identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows increased public trust and improved public health and safety. Eliminating grant administration measures as defined in this chapter would weaken oversight of grant dollars, which could result in a diminished quality of work completed by grantees under the Grants to Counties program. A grantee using funds fraudulently or in contradiction to the requirements of the Iowa Code may diminish public trust in the Grants to Counties program and the Department, and eliminate gains to public health and safety that might have been realized under the program.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less costly method has not been identified to achieve the purpose of this rulemaking.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS administers the Grants to Counties program in accordance to requirements of the Iowa Code. This chapter does not ascribe Department duties or implementation elements in addition to those directly defined in the Iowa Code.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 24 and adopt the following new chapter in lieu thereof:

CHAPTER 24

PRIVATE WELL TESTING, RECONSTRUCTION, AND PLUGGING—GRANTS TO COUNTIES

641—24.1(455E,135) Grant procedures.

24.1(1) The department has adopted policies to administer the awarding of grants for the grants to counties program. Grants will be awarded pursuant to Iowa Code section 455E.11.

24.1(2) The department will:

- a. Determine program objectives;
- b. Set eligible and ineligible grant costs for which the department will reimburse county programs;
- c. Define performance requirements for grant recipients that set minimum standards to be met by all county programs;
- d. Develop a grant application and a grant application submission procedure;
- e. Terminate a grant found to be obtained by fraud or misrepresentation regardless of whether grant moneys have already been given to the grantee;
- f. Allow for an applicant to appeal the denial of a properly submitted grant application. Appeals shall be governed by 441—Chapter 7.

This rule is intended to implement Iowa Code sections 455E.11 and 135.11(26).

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 26
“Backflow Prevention Assembly Testers”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 135K.4.

State or federal law(s) implemented by the rulemaking: Iowa Code chapter 135K, 2023 Iowa Acts, Senate File 514, and Executive Order 10 (January 10, 2023)

Public Hearing

Ashleigh Hackel
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of 641—Chapter 26, “Backflow Prevention Assembly Testers.” This rulemaking implements Iowa Code chapter 135K and 2023 Iowa Acts, Senate File 514, in accordance with the goals and directives of Executive Order 10 (January 10, 2023).

Iowa Code section 135K.3 provides that a “person shall not test or repair backflow prevention assemblies without first having registered with an having been approved by the department.” The Department is required to adopt rules providing for the establishment of minimum qualifications for registered backflow prevention assembly testers; minimum standards for approved courses; establishment and collection of fees to defray the cost of administering Iowa Code chapter 135K; provision of a listing of registered backflow prevention assembly testers to local health officials; and the administration and enforcement of Iowa Code chapter 135k.

The proposed rules establish pertinent definitions related to backflow prevention assembly testing; standards related to training, including procedures and for the approval of tester training courses, continuing education requirements, and approval of third party certification agencies; general provisions related to initial and renewal registrations, including setting fees; standards of conduct for registered testers, including record retention and the verification of equipment accuracy; and penalties and standards for denial, probation, suspension, or revocation of registration, training course approval, or third-party certification approval.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Costs associated with this proposed chapter are generally incurred by those seeking approval of their training courses, registration as a backflow prevention assembly tester, or approval as a third-party certification agency. There are also costs to the agency for staff to administer the program.

- Classes of persons that will benefit from the proposed rulemaking:

The general public utilizing services of a backflow prevention assembly tester benefit from this proposed rulemaking since it ensures minimum qualifications for the industry through appropriate training, equipment, and continuing education. The industry benefits from this rulemaking because it provides clear and consistent standards throughout Iowa.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The costs for the registered testers are those incurred in the course of obtaining and maintaining their licenses, including a \$72 fee for a two-year registration. There are also costs associated with completing an approved training program and completing continuing education courses. Those costs vary depending on the training provider. The provider that is most commonly used in Iowa charges \$975 for the initial 32-hour course and \$150 for the 5-hour course.

- Qualitative description of impact:

The Legislature directed the Department to establish and collect all fees necessary to administer Iowa Code chapter 135K and establish minimum qualifications for backflow prevention assembly testers and courses. The standards proposed herein protect the public by ensuring uniform standards for an appropriately qualified and trained industry, utilization of properly calibrated equipment, and maintenance of pertinent records and professional standards of conduct. Proper backflow prevention devices are an important tool in protecting the health of the general public. There are many examples of improper or failing devices causing widespread illness and even death.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to implement or enforce the proposed chapter include the costs of personnel utilized to process applications and investigate complaints, or to contract for any such work. There is one contract employee and 1.0 vacant full-time equivalent (FTE) position to process the registrations and administer the program. There is also a cost for the database that houses all of the information needed for backflow registrations. Specifically, in FY 2023, there were \$30,000 in database costs and \$30,000 in contract employee costs.

Fees collected by the Department defray the costs of administering the program, in accordance with Iowa Code section 135K.4. Fees do not exceed the costs of administering the program.

- Anticipated effect on state revenues:

The Department registers approximately 1,500 backflow prevention assembly testers under current 641—Chapter 26, and has approved eight training courses and two third-party certification agencies. In FY 2023, the Department collected approximately \$60,000 in registration fees, renewal fees, and training fees.

Notably, the fees are not anticipated to exceed the costs of administering the program and are in line with neighboring states when adjusted for term. For example, Minnesota charges a backflow prevention tester fee of \$28 annually (new and renewal) or \$38 (late), with a \$30 returned check fee. Iowa's fee of \$72 for a two-year registration term amounts to \$36 annually, with a \$15 returned check fee.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa Code section 135K.3 prohibits a person from testing or repairing backflow prevention assemblies without first having registered with having been approved by the Department. Iowa Code section 135K.4 requires the Department to establish minimum qualifications for registered backflow

prevention assembly testers and minimum standards for approved courses. The Legislature has determined that inaction is not an option.

The qualifications and criteria that the Department has promulgated are reasonable and appropriate for the protection of public safety while being reasonable and affordable for those offering courses and those seeking registration. As set forth in detail above, the fees historically charged have not exceeded the costs of administering the program and are not anticipated to going forward. Furthermore, they are in line with neighboring states when adjusted for term. The benefits achieved from this proposed rulemaking appear to justify the costs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Department has not identified any less costly or less intrusive methods to achieve the purpose of this proposed rulemaking, beyond simplification contained within the proposed rules. Pertinent areas of simplification include tester training submissions and registration renewal. The fee table currently utilized in 641—Chapter 26 for registration is overly complicated due to a set renewal time period and proration associated therewith. Fee submissions and dates of registration expiration have been simplified without being substantively changed as far as the fee incurred or length of registration term.

With respect to background prevention assembly tester training, rather than requiring a person or organization offering tester training to submit new application materials every five years, which required significant re-review of materials by the Department and compilation by the person or organization, the Department proposes requiring submission of only those changes made to the tester training program. This streamlines the compilation and review of such materials, without sacrificing the Department's review and consideration of quality in the program.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
See answer to Question 5. No alternative methods were considered beyond ensuring only appropriate requirements were repromulgated.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

As set forth above, the rules proposed are believed to be the least costly or least intrusive method to achieve the purpose of this proposed rulemaking and implement the Department's statutory duties. If a backflow prevention assembly tester, trainer, or third-party certification agency subject to this chapter is a small business and has identified a rule that is overly burdensome and the goals of which could be

achieved in a manner that would reduce the impact on the small business, it could utilize the Department’s established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 26 and adopt the following **new** chapter in lieu thereof:

CHAPTER 26
BACKFLOW PREVENTION ASSEMBLY TESTER REGISTRATION

641—26.1(135K) Definitions.

“*ABPA*” means the American Backflow Prevention Association.

“*Administrative authority*” means an individual, board, department, or agency employed by a city, county or other political subdivision of the state and authorized by local ordinance to administer and enforce the provisions of the plumbing code.

“*Approved continuing education course*” means a department-approved course designed to supplement or refresh the knowledge of a registered tester and to meet the requirements of subparagraph 26.5(2) “a”(2).

“*Approved training course*” means a department-approved course designed to train individuals to test and repair backflow prevention assemblies.

“*ASSE*” means the American Society of Sanitary Engineering.

“*AWWA*” means the American Water Works Association.

“*Backflow prevention assembly*,” for the purposes of this chapter, means a device or means to prevent backflow into a potable water system for which a method of testing the device in-line has been published by the Foundation of Cross-Connection Control and Hydraulic Research at the University of Southern California.

NOTE: The following assemblies are included under this definition. This is not intended to be an exclusive list. If new devices and test methods are introduced that meet the definition, they are included under the rules.

| Backflow Prevention Assembly | Product Standards |
|---|------------------------------|
| Double Check Valve Assembly | ASSE 1015-2011, AWWA C510-07 |
| Double Check Detector Assembly | ASSE 1048-2011 |
| Pressure Vacuum Breaker | ASSE 1020-2011 |
| Reduced Pressure Principle Backflow Preventer | ASSE 1013-2011, AWWA 511-07 |
| Reduced Pressure Detector Assembly | ASSE 1047-2011 |
| Spill Resistant Pressure Vacuum Breaker | ASSE 1056-2013 |

“*Certified*” means certified as a backflow prevention assembly tester under the requirements of ABPA or another third-party certification agency.

“*Department*” means the same as defined in Iowa Code section 135K.1(3).

“*Proctor*” means an individual designated by a third-party certification agency to conduct certification examinations of backflow prevention assembly testers.

“*Registered backflow prevention assembly tester*” or “*registered tester*” means the same as defined in Iowa Code section 135K.1(4).

“*Third-party certification agency*” means the ABPA, ASSE or another agency approved by the department to certify the knowledge and skills of backflow prevention assembly testers.

641—26.2(135K) Registration. No person shall test or repair a backflow prevention assembly unless the person is a registered backflow prevention assembly tester.

641—26.3(135K) Returned checks. Any person who submits a check to the department that is returned for insufficient funds will incur a \$15 fee.

641—26.4(135K) Backflow prevention assembly tester training.**26.4(1) Tester training.**

a. A person or organization that plans to conduct or sponsor a backflow prevention assembly tester training course in Iowa shall apply to the department for approval of the course at least 15 days before the first time the course is held, using an application form provided by the department and submitting a \$200 nonrefundable fee.

b. The department will review the application and respond to the applicant within ten business days after receipt.

c. The person or organization responsible for the course content shall submit to the department any changes in the information set forth in paragraph 26.4(1) “*a*” every five years, no later than 30 calendar days before the end of the fifth year.

d. The course sponsor shall notify the department at least 15 days before an approved training course begins. The notification will include:

(1) Sponsoring organization name and website, contact person, mailing address, email address, and telephone number.

(2) Course dates and times.

(3) Course location, including street address.

(4) A \$50 nonrefundable fee.

e. A training course shall:

(1) Be at least 32 instructional hours and cover the following minimum subjects:

1. Backflow definitions, causes and examples.

2. Description of backflow prevention assemblies, their proper application and installation, and their operational characteristics.

3. Description and operational characteristics of test equipment.

4. Techniques for testing backflow prevention assemblies.

5. Troubleshooting of backflow prevention assemblies.

6. Record keeping and the responsibilities of regulatory agencies and the registered tester.

(2) Conclude with a written examination of at least 100 questions and a practical examination of testing techniques on all types of testable backflow prevention assemblies. The time for testing is in addition to the instructional hours. A score of at least 70 percent on the written examination and demonstration of proficiency in testing and troubleshooting procedures constitutes successful completion of the course. Approved third-party certification agency testing may be substituted for the course test.

f. The lead course instructor shall have documentation of successfully completing an approved training course or be certified, and have at least three years of experience in cross connection control.

g. The testing laboratory for a training course shall be equipped with the following:

(1) Examples of each of the backflow prevention assemblies from at least three different manufacturers. If fewer than three manufacturers make a type of backflow prevention assembly, at least one example of that type of backflow prevention assembly.

(2) At least one double check valve assembly and one reduced pressure principle assembly larger than two inches.

(3) At least one test station per three students.

26.4(2) Continuing education training.

a. A person or organization that plans to conduct or sponsor a continuing education course for registered testers in Iowa shall apply to the department for approval of the course at least 15 days before the course is scheduled to begin, using an application form provided by the department and submitted with a \$50 nonrefundable fee.

b. The department will review the application and respond to the applicant within ten business days after receipt.

c. A continuing education course will address cross connection control theory and practice; backflow prevention devices and methods; backflow prevention assembly installation, testing, troubleshooting and repair; codes and rules affecting cross connection control; safety issues related

to installation and testing of backflow prevention assemblies; or related subjects approved by the department.

26.4(3) *Third-party certification agencies.*

a. Third-party certification agencies seeking approval in Iowa shall submit a written request to the department, on agency letterhead and signed by an authorized representative of the agency, that includes at least the following:

- (1) Agency name and website, contact person, mailing address, email address, and telephone number.
- (2) A description of the written examination, whether it is open- or closed-book, and information about the arrangements for administration of the examination.
- (3) A copy of the testing procedures that are the basis for the practical examination.
- (4) A description of the procedures for the practical examination and the criteria for evaluating performance.
- (5) Proctor qualifications and training.
- (6) Procedures and criteria for renewing the certification. The renewal of certification will be completed at least every five years and include knowledge and skills testing.
- (7) A history of the development and implementation of the program, as applicable.
- (8) A list of other jurisdictions where the certification is allowed and regulatory contacts in those jurisdictions.
- (9) A nonrefundable fee of \$200.

b. A third-party certification agency will not certify an individual who was trained by the agency. An individual proctor will not certify individuals who have taken a course at which the proctor was an instructor.

c. A third-party certification agency shall submit to the department any changes to the information set forth in paragraph 26.4(3) “*a*” every five years, no later than 30 days before the end of the fifth year.

641—26.5(135K) Registration.

26.5(1) *Initial registration.*

a. A person who has successfully completed an approved training course may register with the department within one year of course completion. A person who is certified may register with the department. The applicant must submit:

- (1) A completed application form provided by the department.
- (2) Documentation of successful completion of an approved training course or certification.
- (3) A nonrefundable fee of \$72.

b. A person who has completed a course of training in another state may be registered in Iowa. The person will submit:

- (1) A completed Iowa application form provided by the department.
- (2) Documentation that:
 1. The person has successfully completed a training course meeting the hour and subject requirements for an approved training course (if the person completed the training course more than 12 months before the date of the application, provide documentation that the person has attended an average of at least 2.5 hours of continuing education training per year since completing the course), or
 2. The person is certified, or
 3. The person is registered as a backflow prevention assembly tester in a jurisdiction that has similar or greater requirements for training and continuing education than Iowa.
- (3) A nonrefundable fee of \$72.

c. Registration expires two years after it is issued.

26.5(2) *Renewal registration.*

a. Registered testers may renew 60 days prior to registration expiration and include:

- (1) A completed registration renewal application form provided by the department.

(2) Documentation that the registered tester has completed at least five hours of approved continuing education courses during the registration period or documentation that the registered tester is certified.

(3) A nonrefundable fee of \$72.

(4) Registration renewal applications received after expiration will incur a \$10 penalty per month, to a maximum \$50 penalty.

b. If a registration has lapsed greater than 24 months, the person applying for renewal shall demonstrate that one of the following is true:

(1) The person has successfully completed an approved training course within the 12 months before applying for registration renewal, or

(2) The person is certified, or

(3) The person is registered as a backflow prevention assembly tester in a jurisdiction that has similar or greater requirements for training and continuing education than does the state of Iowa.

641—26.6(135K) Standards of conduct.

26.6(1) A registered tester shall comply with these rules and any ordinances, rules and policies of the administrative authority in jurisdictions where the registered tester tests or repairs a backflow prevention assembly.

26.6(2) A registered tester shall maintain a record for each backflow prevention assembly tested for at least five years after the date on which the assembly was tested. Registered testers will complete an administrative authority's test report form if required by ordinance. Records may be reviewed during normal business hours by an authorized representative of the department or administrative authority of the jurisdiction in which the assembly is located. The assembly record will include at least:

a. The name, address and telephone number of the assembly owner.

b. The location of the facility in which the assembly is located.

c. The location of the assembly within the facility.

d. The type, brand, model, size, and serial number of the assembly.

e. The date and time of the test.

f. Results of the test.

g. Any assembly repairs or maintenance.

26.6(3) To field test a backflow prevention assembly, a registered tester shall use a differential pressure gauge, the accuracy of which is verified no less than every 13 months with results traceable to the National Institute of Standards and Technology (NIST). Any differential pressure gauge with an error of more than plus or minus 0.2 psi cannot be used to test a backflow prevention assembly. Methods of testing that use other types of equipment, including dual pressure gauges, water columns, or single pressure gauges, are not acceptable. For every test report record retained in accordance with subrule 26.6(2), the prior most recent accuracy verification for the differential pressure gauge shall be retained and made available to an authorized representative of the department or administrative authority of the jurisdiction in which the assembly is located.

641—26.7(135K) Penalty. In addition to other sanctions provided herein, a person who violates a provision of this chapter is guilty of a simple misdemeanor pursuant to Iowa Code section 135K.5.

641—26.8(135K) Denial, probation, suspension or revocation.

26.8(1) *Denial, probation, suspension or revocation of registration.* The department may deny an application for registration or renewal, place a registration on probation, suspend or revoke a registration, or order a registered tester not to test or repair backflow prevention assemblies when the department finds that the applicant or registered tester has committed any of the following acts:

a. Negligence or incompetence in the testing of a backflow prevention assembly, including failure to report improper application or installation of a backflow prevention assembly to the facility owner and the administrative authority.

- b.* Knowingly submitting a false report of a test of a backflow prevention assembly to the owner of the facility, the local administrative authority, or the department.
- c.* Fraud in obtaining registration or renewal including, but not limited to:
 - (1) Intentionally submitting false information on an application for registration or renewal;
 - (2) Submitting a false or forged certificate or other record of training or certification.
- d.* Falsification of the assembly records set forth in subrule 26.6(2).
- e.* Failure to comply with these rules or the ordinances of an administrative authority in whose jurisdiction the registered tester tests a backflow prevention assembly.
- f.* Failure to pay registration, renewal or late fees.
- g.* Habitual intoxication or addiction to drugs.
- h.* Violating a statute of this state or another jurisdiction relating to backflow prevention assembly testing, including but not limited to crimes involving dishonesty, fraud, theft, controlled substances, substance abuse, assault, sexual abuse, sexual misconduct, or homicide. A copy of the record of conviction or plea of guilty is conclusive evidence of the violation.
- i.* Suspension, revocation, or other disciplinary action pertaining to backflow prevention assembly testing in another jurisdiction. A copy of the record or order of suspension, revocation or disciplinary action is conclusive evidence.
- j.* Knowingly making misleading, deceptive, untrue, or fraudulent representations regarding the testing of backflow prevention assemblies, or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established. Acts that may constitute unethical conduct include:
 - (1) Verbally or physically abusing a client or coworker.
 - (2) Improper sexual contact with, sexual harassment of, or improper sexual advances upon a client or coworker. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- k.* Failing to cooperate with an investigation or engaging in conduct attempting to subvert an investigation.
- l.* Failure to comply with the terms of a department order or the terms of a settlement agreement or consent order.
- m.* Knowingly aiding, assisting or advising a person to unlawfully practice as a backflow prevention assembly tester.
- n.* Representing oneself as a registered backflow prevention assembly tester when one's registration has been suspended, revoked, lapsed, or placed on inactive status.
- o.* Acceptance of any fee by fraud or misrepresentation.
- p.* Failure to appropriately respond to written communication from the department sent by registered or certified mail.

26.8(2) Denial or revocation of training course approval. The department may deny or revoke the approval for a training course or a continuing education course when it finds:

- a.* The lead instructor for a training course is not qualified in accordance with paragraph 26.4(1) "f."
- b.* The training course did not comply with paragraph 26.4(1) "e."
- c.* That the training course testing laboratory did not comply with paragraph 26.4(1) "g."
- d.* The organization or person applying for approval of a training or continuing education course intentionally submitted false information to the department in support of such approval.
- e.* The organization or person conducting or sponsoring training has falsified training or continuing education records, including issuance of a certificate or other record of training to a person who did not successfully complete a training course or who did not attend continuing education training.
- f.* The organization or person responsible for a training or continuing education course has permitted physical or verbal abuse or sexual harassment of a student or instructor. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.

g. The organization or person responsible for training courses and continuing education courses consistently fails to notify the department of such courses in a timely fashion as set forth in paragraphs 26.4(1) “d” and 26.4(2) “a,” or fails to pay its fees.

h. Failure to comply with these rules.

26.8(3) Denial or revocation of approval as a third-party certification agency. The department may deny or revoke the approval for a third-party certification agency when it finds:

a. The application for approval contains material misinformation regarding the conduct and standards of the certification program or its acceptance in other jurisdictions.

b. Failure to adhere to the standards and procedures stated in the application for approval in the process of certifying or renewing the certification of testers.

c. Violations of paragraph 26.4(3) “b” or other failure to comply with these rules.

26.8(4) Complaints. Complaints regarding a registered tester, an approved training course, or a third-party certification agency may be sent to the department. The complainant should provide as much pertinent and specific information as to a potential violation as they are able to.

26.8(5) Appeals. Notice of denial, probation, suspension or revocation of registration; denial, probation or revocation of course approval; or denial, probation or revocation of third-party certification agency approval will be sent to the affected individual or organization by certified mail, return receipt requested, or by personal service. The affected individual or organization may appeal the denial, probation, suspension or revocation by requesting a contested case hearing within 20 days of receipt of the department’s order. The notice of denial, probation, suspension or revocation is deemed to be suspended during the appeal. Prior to or at the contested case hearing, the department may rescind the notice upon satisfaction that the reason for the denial, probation, suspension or revocation has been or will be removed. 481—Chapters 9 and 10 are applicable to contested case appeals.

These rules are intended to implement Iowa Code chapter 135K.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 27
“Plumbing and Mechanical Systems Board—Administrative and Regulatory Authority”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 105.4

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 105, 17A, and 21

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kane Young
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.724.3216
Email: kane.young@dia.iowa.gov

Purpose and Summary

This rulemaking proposing promulgation of new 641—Chapter 27, “Plumbing and Mechanical Systems Board—Administrative and Regulatory Authority,” implements Iowa Code chapter 105 in accordance with the goals of Executive Order 10 (January 10, 2023). The rulemaking sets forth the purpose of the Plumbing and Mechanical Systems Board (Board), which is to administer and enforce Iowa Code chapters 105 and 17A. The rulemaking outlines the organizational structure of the Board, when the Board meets, and how it conducts its business. The rulemaking outlines how to communicate with the Board and when licensees must notify the Board of address changes. This is important to the industry and the public because it provides transparency as to who is on the Board and how and when the Board conducts business.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are costs to the industry related to licensees obtaining and maintaining their licenses. With respect to this proposed chapter in particular, any costs to licensees would be de minimis administrative costs associated with providing the Board notifications of changes of information. There are costs to the agency for staff to administer the program.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and the industry will benefit from this proposed rulemaking because it describes how the Board is organized, how and when the Board conducts business, and how to contact the Board.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

With respect to this proposed chapter in particular, any costs to licensees would be de minimis administrative costs associated with providing the Board notifications of changes of information and are not specifically quantifiable. The costs for the individual licensees related to the overall program goals identified in Iowa Code chapter 105 include those incurred in the course of obtaining and maintaining their licenses. The costs for contractor licensees are those incurred in the course of obtaining and maintaining proper bonding and insurance. The costs to licensees include the license fees, which are described in 641—Chapter 28. There are also costs associated with continuing education courses or apprenticeship programs. Those costs vary depending on the type and number of licenses an individual must maintain. Estimated continuing education unit (CEU) costs are described in the Regulatory Analysis for 641—Chapter 30 (IAB 11/1/23).

- Qualitative description of impact:

These rules are necessary to implement the overall program goals identified in Iowa Code chapter 105, including that the Board is apprised of current contact information for licensees and that licensees understand the operations of the Board such that licensees are able to appreciably participate in Board proceedings.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

This proposed chapter merely sets forth pertinent definitions and describes Board operations in implementing the licensing program mandated by Iowa Code chapter 105 and Iowa's open meetings law, Iowa Code chapter 21, and the Iowa Administrative Procedures Act, Iowa Code chapter 17A, generally. There are no costs associated with this particular chapter. Costs to the agency in implementing Iowa Code chapter 105, overall, include the support staff for processing licenses and CEUs, an investigator, and supervisor. The costs also include IT/AMANDA support staff and other office costs, the database used to store licensee information and issue licenses, and indirect costs. This specifically includes 3.6 full-time equivalent (FTE) positions at a cost of approximately \$322,254 in FY 2023. It includes a Computer Aid, Inc., vendor at \$50,000 in FY 2023. It includes expenses associated with licensing software and technology at a cost of approximately \$625,000 in FY 2023. Indirect costs in FY 2023 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as a division administrator, legal support, and fiscal support.

- Anticipated effect on state revenues:

This proposed chapter, in particular, is not anticipated to have an effect on state revenues. With respect to implementation of Iowa Code chapter 105, overall, fees collected are retained and go to the agency in order to implement the program. Iowa Code section 105.9(5)“a” requires the Board to submit a report to the General Assembly within 60 days following the end of each fiscal year that includes a balance sheet projection extending no less than three years. If the revenue projection exceeds expense projections by more than 10 percent, the Board is required to adjust its fee schedules accordingly so that projected revenues are no more than 10 percent higher than projected expenses. Accordingly, the Board does not anticipate any effect on state revenues in excess of 10 percent. The estimated new revenue for FY 2023 was \$2,000,000. Any civil penalties that are collected due to noncompliance are directed to the General Fund, thereby increasing state revenues. In FY 2022, there was \$8,300 in civil penalty fines collected. In FY 2023, there was \$2,750 in civil penalty fines collected.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The proposed rules add very little cost beyond any costs incurred due to the substantive requirements of Iowa Code chapter 105. Furthermore, the cost of licensing is relatively small when compared to the benefit of having a properly trained and supervised workforce in this industry. When using properly licensed businesses and individuals, the public can have confidence that this important work is done safely and correctly. There are bonding and insurance requirements in cases where work is not done properly, the costs of which are statutorily required to be borne by the licensees. The bonding and

insurance requirements protect the public from economic harm resulting from incomplete work and incentivizes licensees to complete work using ethical business practices.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

No known alternative exists.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Prior to statewide licensing in 2010, local jurisdictions had their own licensing requirements or none at all. There was no uniformity, and businesses and individuals often had to have multiple licenses for multiple jurisdictions. There is now uniformity for licensing, and the entire industry is following the same rules due to the requirements of Iowa Code chapter 105 and the proposed rules discussed herein that clarify and implement Iowa Code chapter 105. The rules discussed herein are already believed to be the least restrictive implementation of Iowa Code chapter 105.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Statewide licensing is required by Iowa Code chapter 105 and broadly protects all of the citizens of Iowa and treats the entire industry with uniformity. The Board is statutorily required to adopt rules to implement Iowa Code chapter 105, and the rules proposed herein are believed to be the least restrictive implementation of Iowa Code chapter 105.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The impact on small business is already believed to be at the lowest level available in order to implement and carry out the duties of the agency in Iowa Code chapter 105. One of the positions on the Board is specific to a contractor primarily working in rural Iowa, which is likely to be a small business. If a small business subject to this proposed chapter identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 27 and adopt the following **new** chapter in lieu thereof:

CHAPTER 27
PLUMBING AND MECHANICAL SYSTEMS BOARD—ADMINISTRATIVE AND
REGULATORY AUTHORITY

641—27.1(17A,105) Definitions. The definitions set forth in Iowa Code section 105.2 are incorporated herein by reference. For purposes of this chapter, the following definitions also apply:

“*Board office*” means the office of the administrative staff.

“*Disciplinary proceeding*” means any proceeding under the authority of the board pursuant to which licensee discipline may be imposed.

“*License*” means a license to operate as a contractor or work in the plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic disciplines or work as a certified medical gas system installer or work in the specialty license disciplines developed by the board.

“*Licensee*” means a person or entity licensed to operate as a contractor or work in the plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic disciplines or work as a certified medical gas system installer or work in the specialty license disciplines developed by the board.

641—27.2(17A,105) Purpose of board. The purpose of the board is to administer and enforce the provisions of Iowa Code chapters 17A and 105 with regard to the licensing and regulation of plumbers, mechanical professionals, and contractors. The mission of the board is to protect the public health, safety and welfare by licensing qualified individuals who provide services to consumers and by fair and consistent enforcement of the statutes and regulations of the licensure board. Responsibilities include, but are not limited to:

27.2(1) Licensing of qualified applicants to operate as a contractor or work in the plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic disciplines or work as a certified medical gas system installer or work in the specialty license disciplines developed by the board by examination, renewal, endorsement, and reciprocity.

27.2(2) Developing and administering a program of continuing education to ensure the continued competency of individuals licensed by the board.

27.2(3) Imposing discipline on licensees as provided by statute or rule.

641—27.3(17A,105) Organization of board and proceedings.

27.3(1) Membership of the board is as provided in Iowa Code section 105.3.

27.3(2) The board will elect a chairperson, vice chairperson, and secretary from its membership at the first meeting after April 30 of each year.

27.3(3) The board will hold at least four meetings annually.

27.3(4) A majority of the members of the board shall constitute a quorum.

27.3(5) Board meetings shall be governed in accordance with Iowa Code chapter 21, and the board’s proceedings will be conducted in accordance with Robert’s Rules of Order, Revised.

27.3(6) The department will furnish the board with the necessary facilities and employees to perform the duties mandated by this chapter but shall be reimbursed for all costs incurred from funds appropriated to the board and subsequent fees from licensing activities.

27.3(7) The board has the authority to:

a. Develop and implement a program of continuing education to ensure the continued competency of individuals licensed by the board.

b. Establish fees.

c. Establish committees of the board, the members of which are appointed by the board chairperson and do not constitute a quorum of the board. The board chairperson appoints committee chairpersons.

d. Hold a closed session pursuant to Iowa Code section 21.5.

e. Investigate alleged violations of statutes or rules that relate to operation as a contractor; work in the plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic disciplines; work as a certified medical gas system installer; or work in the specialty license disciplines developed by the board upon receipt of a complaint or upon the board’s own initiation. The investigation will be based on information or evidence received by the board.

f. Initiate and impose licensee discipline.

g. Monitor licensees that are limited by a board order.

h. Perform any other functions authorized by a provision of law.

641—27.4(17A,105) Official communications.

27.4(1) All official communications, including submissions and requests, should be addressed to the Plumbing and Mechanical Systems Board at its current address.

27.4(2) Notice of change of name or address. Each licensee and licensed entity shall notify the board in writing of a change of name or change of current mailing address within 30 days after the occurrence.

641—27.5(21) Public meetings. Members of the public may be present during board meetings unless the board votes to hold a closed session. Dates and location of board meetings may be obtained through the board's website or directly from the board office.

27.5(1) At every regularly scheduled board meeting, time will be designated for public comment. During the public comment period, any person may speak for up to two minutes. Any additional time allowances will be at the discretion of the chairperson or acting chairperson.

27.5(2) Persons who have not asked to address the board during the public comment period may raise their hands to be recognized by the chairperson. Acknowledgment and an opportunity to speak will be at the discretion of the chairperson.

27.5(3) The person presiding at a meeting of the board may exclude a person from an open meeting for behavior that obstructs the meeting.

27.5(4) Cameras and recording devices may be used at open meetings, provided the cameras or recording devices do not obstruct the meeting. If the user of a camera or recording device obstructs the meeting by the use of such device, the person presiding at the meeting may request the user to discontinue use of the camera or device.

These rules are intended to implement Iowa Code chapters 17A, 21, and 105.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 28
“Plumbing and Mechanical Systems Board—Licensure Fees”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 105.4(2) and 105.9
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 105

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kane Young
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.724.3216
Email: kane.young@dia.iowa.gov

Purpose and Summary

This rulemaking proposing repromulgation of 641—Chapter 28, “Plumbing and Mechanical Systems Board—Licensure Fees,” implements Iowa Code chapter 105 in accordance with the goals of Executive Order 10 (January 10, 2023). The rulemaking establishes the fee schedule for all of the various licenses and examinations and other miscellaneous fees related to licensing. The rulemaking outlines when the licensing fees are prorated and establishes when the fees can be waived. This rulemaking is required by Iowa Code section 105.9 and is important to the industry because it ensures that the costs of obtaining and maintaining licensure are transparent.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no known costs to the general public. There are costs to the industry related to licensees obtaining and maintaining their licenses. Costs to licensees include initial and renewal license fees, examination application fees, license verification fee, returned check fee, paper application fee, and disciplinary hearing fee.

There are costs to the agency for staff to administer the program. This includes processing staff, an investigator, and a supervisor/Plumbing and Mechanical Systems Board—Licensure Fees (Board) executive. There are also costs associated with the database that houses all of the data related to licensure.

- Classes of persons that will benefit from the proposed rulemaking:

The industry will benefit from this proposed rulemaking because it clearly describes the fee structure. The industry can plan and budget for these fees. These rules are necessary to implement the overall program goals identified in Iowa Code chapter 105. The public is protected by having an appropriately qualified and trained workforce in the industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Costs to licensees include initial and renewal license fees, examination application fees, license verification fee, returned check fee, paper application fee, and disciplinary hearing fee. These fees in Iowa are similar to other surrounding states and correlate to the costs of administering the program. As set forth in proposed rule 641—28.1(105), Iowa’s three-year initial license fee (prorated using a one-sixth deduction for each six-month period) ranges from \$50 to \$250, depending on the type of license. The following are examples of fees for licenses from neighboring states similar to those in Iowa:

| | |
|---------------|---|
| South Dakota: | Plumbing contractor license, \$275 per year Journey plumbing license, \$105 per year |
| Minnesota: | Plumbing contractor license, \$128 per 2 years Master plumbing license, \$73 per 2 years Journey plumbing license, \$43 per 2 years |
| Wisconsin: | Journey plumbing license, \$190 per 4 years Master plumbing license, \$520 per 4 years Apprentice license, \$30 per year |
| Illinois: | Plumbing contractor license, \$150 per year Individual plumbing license, \$100 per year Apprentice \$100 per year |

Notably, Nebraska and Missouri do not have statewide licenses for plumbing and mechanical professionals.

- Qualitative description of impact:

These proposed rules are necessary to implement the overall program goals identified in Iowa Code chapter 105, and specifically required by Iowa Code section 105.9. As set forth in detail below, the licensee fees correlate to costs of administering Iowa Code chapter 105.

The public is protected by having an appropriately qualified and trained workforce in the industry. There are multiple examples of unqualified and unlicensed individuals who have created hazardous situations due to improper installation or repair of plumbing and mechanical systems. If licensed companies have issues, there are licensing and bond requirements that are also intended to protect the public.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The fees collected are retained and go to the agency in order to implement the program. Costs to the agency in implementing Iowa Code chapter 105 include the support staff for processing licenses and continuing education units (CEUs), an investigator, and supervisor. The costs also include IT/AMANDA support staff and other office costs, the database used to store licensee information and issue licenses, and indirect costs. This specifically includes 3.6 full-time equivalent (FTE) positions at a cost of approximately \$322,254 in FY 2023. It includes a Computer Aid, Inc., vendor at a cost of \$50,000 in FY 2023. It includes expenses associated with licensing software and technology at a cost of approximately \$625,000 in FY 2023. Indirect costs in FY 2023 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as a division administrator, legal support, and fiscal support.

As described in proposed rule 641—28.2(105) and required by Iowa Code section 105.9(5)“a,” the Board submits a report to the General Assembly within 60 days following the end of each fiscal year that includes a balance sheet projection extending no less than three years. If the revenue projection exceeds expense projections by more than 10 percent, the Board is required to adjust its fee schedules accordingly, so that projected revenues are no more than 10 percent higher than projected expenses. Accordingly, program costs and fees are closely correlated.

- Anticipated effect on state revenues:

The fees collected are retained and go to the agency in order to implement the program. Iowa Code section 105.9(5)“a” requires the Board submit a report to the General Assembly within 60 days following the end of each fiscal year that includes a balance sheet projection extending no less than three years. If the revenue projection exceeds expense projections by more than 10 percent, the Board is required to adjust its fee schedules accordingly, so that projected revenues are no more than 10 percent higher than projected expenses. Accordingly, the Board does not anticipate any effect on state revenues in excess of 10 percent. The estimated new revenue for FY 2023 was \$2,000,000. Any civil penalties that are collected due to noncompliance are directed to the General Fund, thereby increasing state revenues. In FY 2022, there were \$8,300 in civil penalty fines collected. In FY 2023, there were \$2,750 in civil penalty fines collected.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board is required by Iowa Code section 105.9 to set fees for the implementation of Iowa Code chapter 105, and the propriety of those fees is analyzed on an annual basis in accordance with Iowa Code section 105.9(5)“a.” Inaction is not statutorily permitted and, as described elsewhere herein, the benefits of ensuring a qualified and properly bonded industry are supported by the fees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

No known alternative exists.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Licensing fees are analyzed on an annual basis in accordance with Iowa Code section 105.9(5)“a.” The rules proposed herewith are already believed to be the least restrictive implementation of Iowa Code chapter 105.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The impact on small business is already believed to be at the lowest level available in order to implement and carry out the duties of the agency in Iowa Code chapter 105. One of the positions on the Board is specific to a contractor primarily working in rural Iowa, which is likely to impact a small

business. Notably, the proposed rules expressly address situations in which fees may be waived, which may be particularly useful for small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 28 and adopt the following **new** chapter in lieu thereof:

CHAPTER 28
PLUMBING AND MECHANICAL SYSTEMS BOARD—LICENSURE FEES

641—28.1(105) Fees. All fees are nonrefundable.

28.1(1) Fees for three-year initial licenses are as follows:

- a. An apprentice license as defined in 641—subrule 29.2(1) is \$50.
- b. A journey license as defined in 641—subrule 29.2(2) is \$180.
- c. A master license as defined in 641—subrule 29.2(3) is \$240.
- d. A medical gas pipe certificate as defined in rule 641—29.3(105) is \$75.
- e. An inactive license as defined in 641—subrules 29.2(5) and 29.2(6) is \$50.
- f. A contractor license as defined in 641—subrule 29.2(4) is \$250.
- g. A special restricted license as defined in 641—subrules 29.2(8), 29.2(9), and 29.2(10) is \$50.
- h. Fees for all initial licenses issued for a period of less than three years will be prorated using a one-sixth deduction for each six-month period.

28.1(2) Fees for three-year reciprocal licenses or three-year licenses obtained by verification in accordance with 641—Chapter 35 are as follows:

- a. An apprentice license as defined in 641—subrule 29.2(1) is \$50.
- b. A journey license as defined in 641—subrule 29.2(2) is \$180.
- c. A master license as defined in 641—subrule 29.2(3) is \$240.
- d. Fees for all reciprocal licenses or three-year licenses obtained by verification in accordance with 641—Chapter 35 issued for a period of less than three years will be prorated using a one-sixth deduction for each six-month period.

28.1(3) Fees for renewal of licenses are as follows:

- a. An apprentice license as defined in 641—subrule 29.2(1) is \$50.
- b. A journey license as defined in 641—subrule 29.2(2) is \$180.
- c. A master license as defined in 641—subrule 29.2(3) is \$240.
- d. A medical gas pipe certificate as defined in rule 641—29.3(105) is \$75.
- e. An inactive license as defined in 641—subrules 29.2(5) and 29.2(6) is \$50. However, no fee is necessary for an inactive specialty license as defined in 641—subrule 23.8(3) so long as the person possessing the inactive specialty license remains actively licensed as an apprentice.
- f. A contractor license as defined in 641—subrule 29.2(4) is \$250.
- g. A special restricted license as defined in 641—subrules 29.2(8), 29.2(9), and 29.2(10) is \$50. However, no fee is necessary for an inactive specialty license as defined in 641—subrule 23.8(3) so long as the person possessing the inactive specialty license remains actively licensed as an apprentice.

28.1(4) The examination application fee is \$35.

28.1(5) A late fee for failure to renew before expiration is determined as follows:

- a. A licensee who does not timely renew but renews a license on or before the following July 31 may reinstate and renew the license upon payment of the appropriate renewal fee and without payment of a late fee.
- b. A licensee who does not timely renew but renews a license between the following August 1 and August 31 may reinstate and renew the license without examination upon payment of a \$60 late fee and the appropriate renewal of license fee.
- c. A licensee who does not timely renew but renews a license after the following August 31 and on or before the following June 30 may reinstate and renew the license without examination upon payment of a \$100 late fee and the appropriate renewal of license fee.

28.1(6) Reserved.

28.1(7) The fee for written verification of licensee status is \$20.

28.1(8) The returned check fee is \$25.

28.1(9) The disciplinary hearing fee is a maximum of \$75.

28.1(10) The paper application fee is \$25 plus the appropriate license fee.

28.1(11) Combined license.

a. For purposes of this subrule, “combined license” means more than one active master, contractor, or journey person license in one or multiple disciplines held by the same individual.

b. A license fee for a combined license is the sum total of each of the separate license fees as set forth in subrules 28.1(1) through 28.1(3) reduced by 30 percent.

c. Only individual licenses purchased in a single transaction are eligible for the combined licensee fee reduction.

28.1(12) The fee for combining an HVAC-refrigeration or hydronics license to a mechanical license is \$50. This fee does not apply at the time of reissue.

28.1(13) The fee for submitting a petition for eligibility determination as defined in 641—subrule 29.13(2) is \$25.

641—28.2(105) Annual review of fee schedule. Within 60 days following the end of each fiscal year, the board will submit a report to the general assembly in accordance with Iowa Code section 105.9(5) “*a.*”

641—28.3(105) Waiver of fees. Fee waivers are available under the following circumstances:

a. The board will waive any fee charged to an applicant for a license if the applicant’s household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

b. For an applicant who has been honorably or generally discharged from federal active duty or national guard duty, the board will waive an initial application fee and one renewal fee if those fees would otherwise be charged within five years of the discharge.

These rules are intended to implement Iowa Code sections 105.9 and 272C.15.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 29
“Plumbing and Mechanical Systems Board—Application, Licensure, and Examination”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 105.4 and 272C.3
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 105 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kane Young
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.724.3216
Email: kane.young@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 29 and implements Iowa Code chapters 105 and 272C in accordance with the goals of Executive Order 10 (Jan. 10, 2023). This rulemaking implements the requirements set forth in Iowa Code chapter 105 related to application for license, licensure, and examination requirements. The intended benefit of this chapter is to establish license types that are available, the general requirements and minimum qualifications for the licenses, and establish a procedure to obtain a license. The rules set forth the minimum qualifications needed to pass examination prior to licensing. The rules create steps on when and how to renew, reinstate or reactivate a license, detail when a license may be denied, and set forth the process for determining eligibility prior to the license application.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees and the agency have costs associated with this rulemaking. Licensees incur fees for licensure and examination. The licensing fees are addressed in detail in 641—Chapter 28.
There are costs to the agency for staff to administer the program. This includes processing staff, an investigator, and a supervisor/board executive. There are also costs associated with the database that houses all of the data related to licensure. All of these are included in the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.
 - Classes of persons that will benefit from the proposed rulemaking:

Licensees benefit from this rulemaking because it provides uniformity to the licensing process. Prior to statewide licensing in 2010, local jurisdictions had their own licensing requirements or none at all. There was no uniformity, and businesses and individuals often had to have multiple licenses for multiple jurisdictions.

The general public benefits from the assurance that professionals regulated by this chapter meet minimum qualification standards and maintain up-to-date practice standards, and are therefore able to provide high-quality services to Iowans. Local educational institutions providing the examination to plumbing and mechanical systems professionals also benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Licensees incur fees for licensure and examination. The licensing fees are addressed in detail in 641—Chapter 28. With respect to examination fees, the Plumbing and Mechanical Systems Board has a memorandum of understanding with Kirkwood Community College to administer the examinations required to obtain a license. The cost for an examination is \$119 per examination. The cost to maintain the credentials through the National Inspections Testing Certification (NITC) for the medical gas piping is \$150 every 3 years. The number of licensees in the various licensing categories is set forth below:

Contractor: 1,890

Master (5,819 total)

- Plumbing: 2,939
- Hydronic: 310
- Mechanical: 1,364
- HVAC/R: 1,206

Journey (6,517 total)

- Plumbing: 2,700
- Hydronic: 672
- Mechanical: 1,486
- HVAC/R: 1,463
- Sheet Metal: 196

Apprentice: 1,921

Specialty (289 total)

- Hearth Systems: 8
- Private College: 6
- Disconnect/Reconnect Plumbing: 6
- Service Technician HVAC: 202
- Medical Gas: 67

- Qualitative description of impact:

This rulemaking provides uniform guidelines for licensing requirements for plumbing and mechanical systems professionals statewide. Prior to statewide licensing in 2010, local jurisdictions had their own licensing requirements. There was no uniformity, and businesses and individuals often had to have multiple licenses to practice in more than part of the state. These rules benefit the licensed professionals as well as the general public utilizing the services of said licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

These rules are necessary to implement the overall program goals identified in Iowa Code chapter 105. Costs to the agency to implement Iowa Code chapter 105 include the support staff for processing licenses and continuing education units (CEUs), an investigator, and supervisor. It also includes IT/AMANDA support staff and other office costs, the database used to store licensee information and issue licenses, and indirect costs. This specifically includes 3.6 full-time equivalent (FTE) positions

at a cost of approximately \$322,254 in FY 23. It includes a Computer Aid, Inc. (CAI), vendor at \$50,000 in FY 23. It includes expenses associated with licensing software and technology at a cost of approximately \$625,000 in FY 23. Indirect costs in FY 23 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as division administrator, legal, and fiscal support.

- Anticipated effect on state revenues:

This chapter, in particular, is not anticipated to have a significant effect on state revenues as the Board does not collect any fees in association with this particular chapter. Notably, the Board's implementation of Iowa Code chapter 105, overall, is not anticipated to have more than a 10 percent net effect on state revenue in light of Iowa Code section 105.9(5)"a." Finally, there may be some effect on state revenue due to public educational institutions providing education required by this chapter.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The costs of implementing this rulemaking are justified by the benefit of having uniform rules for the types of licenses available and the requirements to obtain the license. The rules themselves add very little cost beyond the costs substantively incurred due to the requirements of Iowa Code chapter 105. Furthermore, the cost of training, examinations, and licensing are relatively small when compared to the benefit of having properly trained workforce in this industry. When using properly licensed businesses and individuals, the public can have confidence that this important work is done safely and correctly. There are bonding and insurance requirements in cases where work is not done properly, the costs of which are statutorily required to be borne by the licensees. In the rare cases when a license is denied, the Board is complying with its duty to protect the public. The circumstances of denial decisions issued in recent years exemplify the Board's fulfillment of that duty.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has determined that the rules proposed represent the less costly or less intrusive method for licensing and exams. Notably, the Board previously provided examinations directly to licensees, but as previously discussed, the Board presently contracts with local community colleges to administer the examination. The Board believes that this is the most efficient and least costly method for all parties.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a less restrictive alternative to the requirements for licensing or examination.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This rulemaking benefits licensees and small businesses because it sets forth uniform, statewide licensing requirements. Prior to statewide licensing, businesses and individuals had to carry multiple licenses for different jurisdictions across the state. This was inefficient and expensive. The current rules provide for one license to be valid across the state. If a licensee or business identifies a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 29 and adopt the following **new** chapter in lieu thereof:

CHAPTER 29
PLUMBING AND MECHANICAL SYSTEMS BOARD—APPLICATION,
LICENSURE, AND EXAMINATION

641—29.1(105) Definitions. The definitions set forth in Iowa Code section 105.1 are incorporated herein by reference. For purposes of these rules, the following definitions also apply:

“Complete criminal record” means the complaint and judgment of conviction for each offense of which the applicant has been convicted, regardless of whether the offense is classified as a felony or a misdemeanor, and regardless of the jurisdiction in which the offense occurred.

“Conviction” means a finding, plea, or verdict of guilt made or returned in a criminal proceeding, even if the adjudication of guilt is deferred, withheld, or not entered. “Conviction” includes Alford pleas and pleas of nolo contendere.

“Corresponding” means the same discipline.

“Directly relates” or *“directly related”* means the same as Iowa Code section 272C.1(8) “a” and “b.”

“Disconnect/reconnect plumbing technician specialty license” means a sublicense under a plumbing license to perform work from the appliance shutoff valve or fixture shutoff valve to the appliance or fixture and any part or component of the appliance or fixture, including the disconnection and reconnection of the existing appliance or fixture to the water or sewer piping and the installation of a shutoff valve no more than 3 feet from the appliance or fixture.

“Disqualifying conviction” or *“disqualifying offense”* means a conviction directly related to the practice of the profession.

“Eligibility determination” means the process by which a person who has not yet submitted a completed license application may request that the board determine whether one or more of the person's convictions are disqualifying offenses that would prevent the individual from receiving a license or certification.

“Emergency repairs” means the repair of water pipes to prevent imminent damage to property.

“Hearth systems specialty license” means a sublicense under an HVAC-refrigeration or mechanical license to perform work in the installation of gas burning and solid fuel appliances that offer a decorative view of the flames, from the connector pipe to the shutoff valve located within three feet of the appliance. This sublicense is further allowed to perform work in the venting systems, log lighters, gas log sets, fireplace inserts, and freestanding stoves.

“Inactive license” means a license that is available for a plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic professional who is not actively engaged in running a business or working in the business in the corresponding discipline at that license level. An inactive license must be renewed prior to its expiration date. An inactive license is not valid for practice until the license is reactivated by the board.

“*Lapsed license*” means a license that expired prior to June 30, 2017, and was not renewed within 60 days following its expiration date or a license that expired on or after June 30, 2017, and was not renewed by the following August 31. A lapsed license is no longer valid for practice.

“*Licensee*” means any person licensed to practice pursuant to Iowa Code chapter 105.

“*Reactivated license*” means a license that is changed from inactive status to active status pursuant to rule 641—29.8(105).

“*Reissued license*” means a refrigeration or HVAC license that was changed to an HVAC-refrigeration license pursuant to rule 641—29.8(105). “Reissued license” also means an HVAC or refrigeration license and a hydronic license that was changed to a mechanical license pursuant to rule 641—29.8(105).

“*Service technician HVAC specialty license*” means a sublicense under an HVAC-refrigeration or mechanical license to perform work from the appliance shutoff valve to the appliance and any part and component of the appliance, including the disconnection and reconnection of the existing appliance to the gas piping and the installation of a shutoff valve no more than three feet away from the appliance.

“*Surety bond*” means a performance bond written by an entity licensed to do business in this state which guarantees that a contractor will fully perform the contract and which guarantees against breach of that contract.

641—29.2(105) Available licenses and general requirements. All licenses issued by the board will be for a three-year period, except where a shorter or longer period is required or allowed by statute. Subject to the general requirements set forth herein and the minimum qualifications for licensure set forth in rule 641—29.4(105), the following licenses are available:

29.2(1) *Apprentice license.* An applicant for an apprentice license will submit an application that provides evidence of meeting the qualifications specified in Iowa Code section 105.18. If the applicant currently holds an active specialty license, place the specialty license on inactive status as specified in 641—subrule 23.8(3).

29.2(2) *Journeyman license.* An applicant for a journeyman license will submit an application that provides evidence of meeting the qualifications specified in Iowa Code section 105.18, including an applicant who possesses a master-level license and who seeks a journeyman license in the same discipline.

29.2(3) *Master license.* An applicant for a master license will submit an application that provides evidence of meeting the qualifications specified in Iowa Code section 105.18. Applicants previously licensed as a journeyman will provide evidence of at least two years of journeyman experience in the applicable discipline.

29.2(4) *Contractor license.* An applicant for a contractor license will submit an application that provides evidence of meeting the qualifications specified in Iowa Code section 105.18, and the insurance and surety bond requirements specified in Iowa Code section 105.19.

29.2(5) *Active journeyman license/inactive master license combination.* An applicant for an active journeyman license and an inactive master license in the same discipline will submit an application approved by the department, and pay the fees for both an active journeyman license and an inactive master license in accordance with subrule 29.2(3) and rule 641—29.5(105).

29.2(6) *Inactive license.* An applicant for an inactive license that does not fall within subrule 29.2(5) will submit an application approved by the Department and pay the fee for an inactive license in accordance with rule 641—29.5(105).

29.2(7) *Service technician HVAC specialty license.* An applicant for a service technician HVAC specialty license will submit an application approved by the Department and pay the fee for a specialty license in accordance with rule 641—29.5(105). It will also provide the board with evidence that:

a. The applicant possesses a valid certification from North American Technician Excellence, Inc., or an equivalent authority approved by the board, or

b. The applicant completed a Service Technician Associate degree or equivalent educational or similar training approved by the board.

29.2(8) Disconnect/reconnect plumbing technician specialty license. An applicant for a disconnect/reconnect plumbing technician specialty license will submit an application approved by the department and pay the fee for a specialty license in accordance with rule 641—29.5(105). It will also provide the board with evidence that:

a. The applicant is receiving or has previously received industry training to perform work covered under this specialty license, or

b. The applicant completed a Service Technician Associate degree or equivalent educational or similar training approved by the board.

29.2(9) Private school or college routine maintenance specialty license. An applicant for a private school or college routine maintenance specialty license will submit an application approved by the department and pay the fee for a specialty license in accordance with rule 641—29.5(105) and:

a. Provide the board with evidence that the applicant is currently employed by a private school or college.

b. Provide the board with evidence that the applicant is performing routine maintenance within the scope of employment with the private school or college.

29.2(10) Hearth systems specialty license. An applicant for a hearth systems specialty license will submit an application approved by the department and pay the fee for a specialty license in accordance with rule 641—29.5(105) and provide the board with evidence that the applicant possesses a valid certification issued by the National Fireplace Institute or equivalent authority approved by the board.

641—29.3(105) Medical gas piping certification. The following certification is required for a person who performs work as a medical gas system installer. An applicant for a medical gas certificate will submit an application approved by the department and pay the fee for a medical gas piping certification in accordance with rule 641—29.5(105) and possess valid certification from the National Inspection Testing Certification (NITC) Corporation, or an equivalent authority approved by the board. Documentation must be submitted on a form provided by the board.

641—29.4(105) Minimum qualifications for licensure. An applicant for any type of license must be at least 18 years old. All apprentice applicants must have completed a high school education or attained GED equivalent.

641—29.5(105) General requirements for application for licensure. The following criteria apply to application for licensure.

29.5(1) Application. An applicant will complete an application online or on a paper application approved by the board.

29.5(2) Fees. An application must be accompanied by the appropriate fees. All fees are nonrefundable. Fees for online applications are by credit card only. A check or money order may accompany a paper application.

29.5(3) Applicant responsibilities. An applicant for an initial license or license renewal bears full responsibility for each of the following:

a. Paying all fees charged by regulatory authorities, state or national testing or credentialing organizations, and educational institutions providing the information necessary to complete a license, certification, or renewal application;

b. Providing accurate, up-to-date, and truthful information on the application including, but not limited to, prior professional experience, education, training, criminal history, and disciplinary history; and

c. Submitting complete application materials. An application for a license or certification or renewal of a license or certification will be considered active for 90 days from the date the application is received. For purposes of establishing timely filing, the postmark on a paper submittal or the date of the electronic time stamp for online renewals will be used. If the applicant does not submit all materials within this time period or if the applicant does not meet the requirements for the license or certification, the application will be considered incomplete and will be destroyed.

29.5(4) Verifiable documentation. No application will be considered by the board without the appropriate verifiable documentation, including:

- a. A passing score for a discipline-appropriate examination provided by the testing vendor under contract with the board, when testing is required for a license.
- b. Verification that the applicant has met the minimum requirements as defined in 641—29.4(105) and the established employment experience criteria for each type of license.
- c. Documentation of the applicant's complete criminal record, including the applicant's personal statement regarding whether each offense directly relates to the practice of the profession. No application will be considered complete unless and until the applicant responds to board requests for additional information regarding the applicant's complete criminal record.

641—29.6(105) Examination.

29.6(1) General. An applicant for licensure as a plumbing or mechanical system professional must successfully pass the licensing examination for the discipline. The examination will be specific to each license type, approved by the board, and administered by the board-approved vendor.

29.6(2) Examination.

- a. The examination will be written and proctored by a testing agency selected by the board.
- b. The examination will be offered periodically during the year. The time and location will rotate between multiple sites in the state of Iowa, as determined by the department, with approval of the board.
- c. The examination will not be subject to review by applicants. Upon request from an application, the testing vendor will provide information about the sections that the applicant failed, but shall not provide an applicant access to actual examination questions or answers. Any fees associated with the review process will be assessed by and payable to the testing vendor. The applicant is responsible for paying all associated examination fees.
- d. A score of 75 percent or better is considered passing.

29.6(3) Examination application.

- a. An applicant will complete and submit a board-approved examination application either on-line or on a paper application a minimum of 15 business days prior to taking an examination.
- b. An application must be accompanied by the appropriate fees. All fees are nonrefundable. Fees for online applications are by credit card only. A check or money order may accompany a paper application.
- c. No application will be considered by the board without the appropriate verifiable documentation.
- d. The applicant will be notified and issued an examination entrance letter upon approval of the examination application.
- e. If the applicant is notified that the application is incomplete, the applicant must contact the board office within 90 days. Incomplete applications will be considered invalid and after 90 days will be destroyed.
- f. Examination fees are payable directly to the board-approved testing vendor. All transactions are the responsibility of the applicant and testing vendor. The board is not responsible for refunds from the testing vendor.
- g. An applicant shall present current photo identification in order to sit for the examination.
- h. An applicant for licensure by examination who does not pass the examination within one year from the original application date has to submit a new application.
- i. A master examination applicant will not receive permission to sit for a master examination unless the applicant establishes that the applicant:
 - (1) Has previously been licensed as a master in the applicable discipline; or
 - (2) Has previously been licensed as a journeyman in the applicable discipline and has at least two years of journeyman experience in the applicable discipline.

j. A journeyperson examination applicant may apply to sit for the examination up to 12 months prior to completion of the 48 months of required apprentice credit, which include the granting of advanced standing or credit for previously acquired experience, training, or skills.

29.6(4) Expiration of passing examination score. An applicant who successfully passes an examination must apply for licensure in the applicable discipline at the applicable discipline level within two years of notification that the applicant successfully passed the examination. A passing examination score will expire if the applicant fails to apply for licensure within the two-year period as set forth herein, and the applicant will be required to successfully retake said examination to become licensed.

641—29.7(105) License renewal.

29.7(1) *Renewal period.* The period of licensure to operate as a contractor or work as a master, journeyperson or apprentice in the plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic disciplines or work as a certified medical gas system installer or work in the specialty license disciplines developed by the board is a period of three years. All licenses issued will expire on June 30 every three years, beginning with June 30, 2026. Fees for new licenses issued after the July 1 beginning of each three-year renewal cycle will be prorated using a one-sixth deduction for each six-month period of the renewal cycle.

29.7(2) *Renewal notification.* The licensee is responsible for renewing the license prior to its expiration.

29.7(3) *Specific renewal requirements.*

a. Active and inactive apprentice, specialty, journeyperson, and master licenses. An apprentice, specialty, journeyperson, or master licensee seeking renewal shall:

- (1) Submit an application for renewal online or on the forms provided by the board office.
- (2) Meet the continuing education requirements as set forth in rule 641—30.2(105), unless no continuing education is necessary as specified in 641—subrule 23.8(3), 30.2(2), or 30.6(1).
- (3) Include the appropriate fee as specified in 641—Chapter 28. A penalty will be assessed by the board for late renewal, as specified in 641—Chapter 28.

b. Medical gas piping certification holders. A medical gas piping certification holder seeking renewal shall:

- (1) Submit an application for renewal either electronically or on the forms provided by the board office.
- (2) Provide evidence that the person has maintained valid certification issued from the National Inspection Testing Certification (NITC) Corporation or an equivalent authority approved by the board.
- (3) Include the appropriate fee as specified in 641—Chapter 28.

c. Contractor licenses. Renewal of the contractor license constitutes registration as a contractor under Iowa Code chapter 91C. A contractor licensee seeking renewal shall:

- (1) Submit an application for renewal on the forms provided by the board office. Licensees may renew their licenses online or via paper application.
- (2) Include evidence of professional liability insurance and a surety bond mandated by subrule 29.2(4).
- (3) As specified in 875—Chapter 150, include proof of workers' compensation insurance coverage, proof of unemployment insurance compliance and, for out-of-state contractors, a bond as described in Iowa Code chapter 91C.
- (4) Include the appropriate license fee as specified in 641—Chapter 28. A penalty will be assessed by the board for late renewal, as specified in 641—Chapter 28.
- (5) Include the fee for a three-year contractor registration as specified in 875—Chapter 150.

29.7(4) *Complete and timely filed application.* Renewal applications are due 30 days prior to expiration per Iowa Code section 105.20(2). No renewal application is considered timely and sufficient until received by the board office and accompanied by all material necessary for renewal, including applicable renewal and late fees. Incomplete applications will not be accepted. For purposes of establishing timely filing, the postmark on a paper submittal or the date of the electronic time stamp for online renewals will be used.

29.7(5) *Late renewal.* A licensee has a one-month grace period after the expiration date of the license to renew without payment of a late fee.

a. A licensee who seeks to renew more than one month but less than two months after the license expiration date may renew upon payment of the late fee in the amount specified in 641—Chapter 28 in addition to the renewal fee.

b. A license remains valid for practice for up to two months past the expiration date of the license. After two months, the license lapses and becomes invalid for practice until the license is reinstated.

29.7(6) *Reinstatement.* A person seeking reinstatement of a lapsed license must submit an application for reinstatement electronically or on the forms provided by the board office and include all mandated documentation and fees.

a. A licensee who allows a license to lapse for more than two months but not more than 365 days may reinstate and renew the license upon payment of the late penalty fee in the amount specified in 641—Chapter 28 in addition to the renewal fee. A specialty, journey person or master licensee must also meet the continuing education requirements as set forth in rule 641—30.2(105), unless no continuing education is mandated as specified in 641—subrule 23.8(3), 30.2(2), or 30.6(1).

b. A person holding a specialty, journey person or master license who allows the license to lapse for more than one year may reinstate and renew the license by providing evidence of one of the following:

(1) For a journey person or master licensee, retaking and successfully passing the applicable licensing examination; or

(2) Retaking and successfully completing all continuing education requirements as set forth in rule 641—30.2(105) for each renewal period in which the license was not timely renewed.

c. A contractor licensee seeking reinstatement of a license that has been lapsed for more than one year may reinstate and renew the license by submitting evidence of meeting the requirements specified in subrule 29.7(3) and payment of any mandated fees.

d. A licensee who reinstates and renews a lapsed license is not entitled to a prorated renewal fee.

641—29.8(105) *Waiver from examination for military service.* The written examination requirements and prior experience requirements set forth in Iowa Code sections 105.18(2) “*b*”(1) and 105.18(2) “*c*” are waived for a journey person license or master license if the applicant meets the requirements set forth in Iowa Code section 105.18(4).

641—29.9(105) *Reactivation of an inactive license.*

29.9(1) An inactive license is not valid for practice but must be renewed in accordance with rule 641—29.7(105). If an inactive license has not been timely renewed and becomes lapsed, the requirements for reinstatement of the license will have to be met. A person with an inactive license that is not lapsed who is seeking to reactivate the license shall:

a. Submit a written request to the board office for active license status; and

b. Pay the fee for an active license in the amount specified in 641—Chapter 28.

29.9(2) A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal period following reactivation.

641—29.10(105) *Review of applications.*

29.10(1) Upon receipt of a completed application, the board executive officer or designee has discretion to:

a. Authorize the issuance of the license, certification, or examination application.

b. Refer the application to a committee of the board for review and consideration when the board executive officer determines that matters raised in or revealed by the application are relevant in determining the applicant’s qualifications for a license, certification, or examination. Matters that may justify referral to a committee of the board include, but are not limited to:

(1) Prior criminal history, which is reviewed and considered in accordance with Iowa Code chapter 272C and rule 641—29.13(105).

- (2) Chemical dependence.
- (3) Competency.
- (4) Physical or psychological illness or disability.
- (5) Judgments entered on, or settlements of, claims, lawsuits, or other legal actions related to the profession.
- (6) Professional disciplinary history.
- (7) Education or experience.

29.10(2) Following review and consideration of an application referred by the board executive officer, the committee may at its discretion:

- a. Authorize the issuance of the license, certification, or examination application.
- b. Recommend to the board denial of the license, certification, or examination application.
- c. Recommend to the board issuance of the license or certification under certain terms and conditions or with certain limitations.
- d. Refer the license, certification, or examination application to the board for review and consideration without recommendation.

29.10(3) Following review and consideration of a license, certification, or examination application referred by the committee, the board will:

- a. Authorize the issuance of the license, certification, or examination application;
- b. Deny the issuance of the license, certification, or examination application; or
- c. Authorize the issuance of the license or certification under certain terms and conditions or with certain limitations.

29.10(4) The committee or board may require an applicant to appear for an interview before the committee or the full board as part of the application process.

641—29.11(105) Grounds for denial of an application. The board may deny an application for license, certification, or examination for any of the following reasons:

1. Failure to meet the requirements for license, certification, or examination as specified in these rules.
2. Failure to provide accurate and truthful information, or the omission of material information.
3. Pursuant to Iowa Code section 105.22, upon any of the grounds for which licensure may be revoked or suspended.

641—29.12(105) Use of criminal convictions in eligibility determinations and initial licensing decisions.

29.12(1) License application. Unless an applicant for licensure petitions the board for an eligibility determination, the applicant's convictions will be reviewed when the board receives a completed license application.

a. *Full disclosure.* An applicant must disclose all convictions on a license application. Failure to disclose all convictions is grounds for license denial or disciplinary action following license issuance.

b. *Documentation and personal statement.* An applicant with one or more convictions must submit the complete criminal record for each conviction and a personal statement regarding whether each conviction directly relates to the practice of the profession in order for the license application to be considered complete.

c. *Rehabilitation.* As part of the license application an applicant will submit all evidence of rehabilitation that the applicant wishes to be considered by the board. The board may deny a license if the applicant has a disqualifying offense, unless the applicant demonstrates by clear and convincing evidence that the applicant is rehabilitated pursuant to Iowa Code section 272C.15. An applicant with one or more disqualifying offenses who has been found rehabilitated must still satisfy all other requirements for licensure.

d. *Nonrefundable fees.* Any application fees will not be refunded if the license is denied.

29.12(2) Eligibility determination. An individual who has not yet submitted a completed license application may petition the board for an eligibility determination. An individual with a conviction does

not have to petition the board for an eligibility determination before applying for a license. To petition the board for an eligibility determination, a petitioner must submit all of the following:

- a. A completed eligibility determination form, which is available on the board's website;
- b. The complete criminal record for each of the petitioner's convictions;
- c. A personal statement regarding whether each conviction directly relates to the practice of the profession and why the board should find the petitioner is rehabilitated;
- d. All evidence of rehabilitation that the petitioner wants the board to consider; and
- e. Payment of a nonrefundable fee in the amount of \$25.

29.12(3) Appeal. A petitioner found ineligible or an applicant denied a license because of a disqualifying offense may appeal the decision in the manner and time frame set forth in the board's written decision. A timely appeal will initiate a nondisciplinary contested case proceeding. The board's rules governing nondisciplinary contested case proceedings apply unless otherwise specified in this rule. If the petitioner fails to timely appeal, the board's written decision will become a final order.

a. *Presiding officer.* The presiding officer will be the board. However, any party to an appeal of a license denial or ineligibility determination may file a written request, in accordance with rule 641—33.10(17A), that the presiding officer be an administrative law judge. Additionally, the board may, on its own motion, request that an administrative law judge be assigned to act as presiding officer. When an administrative law judge serves as the presiding officer, the decision rendered will be a proposed decision.

b. *Burden.* The office of the attorney general will represent the board's initial ineligibility determination or license denial and has the burden of proof to establish that the petitioner's or applicant's convictions include at least one disqualifying offense. Upon satisfaction of this burden by a preponderance of the evidence by the office of the attorney general, the burden of proof shifts to the petitioner or applicant to establish rehabilitation by clear and convincing evidence.

c. *Judicial review.* A petitioner or applicant must appeal an ineligibility determination or a license denial in order to exhaust administrative remedies. A petitioner or applicant may only seek judicial review of an ineligibility determination or license denial after the issuance of a final order following a contested case proceeding. Judicial review of the final order following a contested case proceeding is in accordance with Iowa Code chapter 17A.

29.12(4) Future petitions or applications. If a final order determines a petitioner is ineligible, the petitioner cannot submit a subsequent petition for eligibility determination or a license application prior to the date specified in the final order. If a final order denies a license application, the applicant cannot submit a subsequent license application or a petition for eligibility determination prior to the date specified in the final order.

These rules are intended to implement Iowa Code sections 105.2, 105.5, 105.9, 105.18, 105.19, 105.20, 105.22, 272C.3, and 272C.15.

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 30. It implements Iowa Code chapters 105 and 272C in accordance with the goals of Executive Order 10 (Jan. 10, 2023). This rulemaking sets forth continuing education requirements for plumbing and mechanical systems professionals. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards licensees need to meet to comply with the rule, the types of courses that are permissible, and procedures for applying for an exemption or extension to complete the requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are costs to the industry related to licensees obtaining and maintaining their licenses. Licensees are responsible for the cost of continuing education. Private industries offer these courses, so the Board of Plumbing and Mechanical Systems is not privy to the exact costs, but based on research, the Board estimates the costs range from \$18 (online) to \$320 (in-person) per course. The number of hours of credit from each course varies as well. There are multiple entities that provide continuing education courses to licensees.

There are costs to the agency for staff to administer the program. This includes processing staff, an investigator, and a supervisor/board executive. There are also costs associated with the database that houses all of the data related to licensure.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that plumbing and mechanical systems professionals maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety. This benefits the professionals as well as the general public utilizing the services offered by these professionals.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industries, including professional associations and businesses, offer these courses. The Board does not set these costs nor does it track these costs. The Board researched online and in-person course options and expenses.

The Board looked at seven different providers and 12 different courses to compare costs and options of online courses. The number of hours earned varied, but the average course costs \$78 with a range of \$18 to \$160.

The Board looked at seven different providers and 27 different courses to compare costs and options of in-person courses. The number of hours earned varied, but the average course costs \$241 with a range of \$85 to \$320. Several providers offer a full-day in-person course that meets all the requirements for one license. Those courses range from \$165 to \$320, depending on an organizational membership.

- Qualitative description of impact:

These rules are necessary to implement the overall program goals identified in Iowa Code chapter 105. The public is protected by having an appropriately qualified and trained workforce in the industry. There are multiple examples of unqualified and unlicensed individuals who have created hazardous situations due to improper installation or repair of plumbing and mechanical systems.

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standards and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

These rules are necessary to implement the overall program goals identified in Iowa Code chapter 105. Costs identified are not specific to this chapter, but to implement Iowa Code chapter 105 and include the support staff for processing licenses and continuing education units (CEUs), an investigator, and supervisor. It also includes IT/AMANDA support staff and other office costs, the database used to store licensee information and issue licenses, and indirect costs. This specifically includes 3.6 full-time equivalent (FTE) positions at a cost of approximately \$322,254 in FY 2023. It includes a Computer Aid, Inc., vendor at \$50,000 in FY 2023. It includes expenses associated with licensing software and technology at a cost of approximately \$625,000 in FY 2023. Indirect costs in FY 2023 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as division administrator, legal, and fiscal support.

- Anticipated effect on state revenues:

Costs incurred by the licensee in compliance with this chapter are paid directly to the educational institutions and do not affect state revenues. Furthermore, there are no specific costs to the Board in administering this chapter; all administration expenses are attributable to general implementation of Iowa Code chapter 105 and defrayed by license fees.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours may reduce/eliminate the cost to the licensee to meet these requirements. However, the Board believes there could be an impact to public safety if continuing education requirements were reduced or eliminated. This could lead to more complaints,

investigations and ultimately public discipline. The rules themselves add relatively little cost beyond any costs substantively incurred. The cost of continuing education is relatively small when compared to the benefit of having a properly trained workforce in this industry. When using properly trained individuals, the public can have confidence that this important work is done safely and correctly.

Reducing or eliminating continuing education would also create a loss of revenue for the private industries that offer these courses.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce or eliminate the continuing education requirements. The Board believes the current requirement adequately provides the intended benefit of the rulemaking. The cost of continuing education is relatively small when compared to the benefit of having a properly trained workforce in this industry.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board is required to establish continuing education requirements pursuant to Iowa Code sections 105.20 and 272C.2. Accordingly, no alternative methods have been identified for consideration.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Plumbing and mechanical systems professionals practice in a number of settings including small businesses and large corporations. The cost of continuing education could be greater for small business owners because they would be responsible for the entire cost. However, the need for up-to-date practice standards exists whether the corporation is small or large. Notably, however, the proposed rules specifically provide for automatic exceptions to the continuing education requirements, permissive exceptions, and provide for extensions of continuing education deadlines. Furthermore, if a licensee identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, the licensee could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 30 and adopt the following new chapter in lieu thereof:

CHAPTER 30
CONTINUING EDUCATION FOR PLUMBING AND
MECHANICAL SYSTEMS PROFESSIONALS

641—30.1(105) Definitions. The definitions set forth in Iowa Code section 105.1 are incorporated herein by reference. For the purpose of these rules, the following definitions apply:

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Compliance review*” means the selection by the board of licensees for verification of satisfactory completion of continuing education requirements during a specified continuing education compliance period.

“*Continuing education*” means planned, organized learning acts acquired during licensure designed to maintain, improve, or expand a licensee’s knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Continuing education compliance period*” means the period between renewals during which a licensee must obtain the requisite amount of continuing education in order to renew the licensee’s license.

“*Hour of continuing education*” means at least 50 minutes spent in one sitting by a licensee in actual attendance at and in completion of an approved continuing education activity.

“*Iowa mechanical code*” means the most current version of the International Mechanical Code, as adopted and amended by the board.

“*Iowa plumbing code*” means the most current version of the Uniform Plumbing Code, as adopted and amended by the board.

“*License*” means a license to practice pursuant to Iowa Code chapter 105.

“*Licensee*” means any person licensed to work in a specific discipline covered under Iowa Code chapter 105.

641—30.2(105) Continuing education requirements.

30.2(1) The continuing education compliance period begins on the license issue date and ends on the license expiration date.

30.2(2) During each continuing education compliance period, each active or inactive master and journeyman licensee shall obtain the following continuing education:

a. Safety education. Two hours of continuing education in the content area of the Iowa Occupational Safety and Health Act if holding a single license and four hours if holding multiple licenses.

b. Code education.

(1) Two hours of continuing education in the content area of the Iowa mechanical code if holding one or more licenses or sublicenses in a mechanical discipline.

(2) Two hours of continuing education in the content area of the Iowa plumbing code if holding a plumbing license or sublicense.

c. Discipline education.

(1) Four hours of continuing education in the discipline in which the licensee holds a license if the licensee holds a single plumbing license or sublicense, or a single license or sublicense in a mechanical discipline.

(2) Eight hours of continuing education in the relevant disciplines if holding multiple licenses or sublicenses.

d. Private school or college maintenance specialty license. For the purposes of this subrule, a private school or college routine maintenance specialty license is considered to be a sublicense of whatever discipline(s) in which the licensee actually practices.

e. An individual possessing one or more inactive special restricted licenses under 641—subrule 23.8(3) does not have to complete any continuing education hours for the special restricted license so long as the person remains actively licensed as an apprentice.

30.2(3) Up to one-half of board-approved continuing education mandated by subrule 30.2(2), each continuing education compliance period may be obtained through completion of computer-based, including online, continuing education programs/activities approved by the board.

30.2(4) It is each licensee's responsibility to maintain a record of all continuing education courses attended and retain proof of compliance with the continuing education requirements. Licensees may attend a continuing education course more than once during a continuing education compliance period. However, licensees who attend a course more than once cannot count the approved hours for that course toward the applicable continuing education requirement more than once during the continuing education compliance period.

30.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

30.2(6) A licensee who is a presenter of a board-approved continuing education program may receive credit once per continuing education compliance period for the presentation of the program. The licensee may receive the same number of hours granted the attendees.

641—30.3(105) Continuing education programs/activities.

30.3(1) *Standards for continuing education programs/activities.* A program/activity is appropriate for continuing education credit if the program/activity meets all of the following criteria:

- a.* Is board-approved;
- b.* Constitutes an organized program of learning that contributes directly to the professional competency of the licensee;
- c.* Pertains to subject matters that integrally relate to the practice of the discipline;
- d.* Is conducted by individuals who have obtained board approval as set forth in subrule 30.4(1). This criterion is not computer-based continuing education programs/activities conducted pursuant to subrule 30.2(3);

- e.* Fulfills stated program goals, objectives, or both; and

- f.* Covers product knowledge, methods, and systems of one or more of the following:

- (1) The theory and technique for a specific discipline;
- (2) The current Iowa plumbing code, Iowa mechanical code, or both;
- (3) The standards comprising the current Iowa Occupational Safety and Health Act.

30.3(2) *Board approval.* Board approval for specific programs/activities under paragraph 30.3(1) "a" will be valid for three years.

30.3(3) *Procedure and standards for board approval of continuing education programs/activities.*

a. For non-computer-based continuing education programs/activities, an individual or entity seeking board approval shall:

- (1) File an application in the form prescribed by the board without alteration at least 60 days prior to the first scheduled course date;
- (2) Attach a copy of the course or activity outline or syllabus which, at a minimum, specifically identifies the course content and a breakdown of the student contact hours; and
- (3) Attach a schedule of courses, if known, indicating the course's or activity's proposed scheduled locations, dates, and times.

b. For computer-based continuing education programs/activities, an individual or entity seeking board approval shall:

- (1) File an application in the form prescribed by the board without alteration;
- (2) Attach a copy of the course or activity outline or syllabus which, at a minimum, specifically identifies the course content and a breakdown of the student contact hours;
- (3) Attach a schedule of courses, if known, indicating the course's or activity's proposed scheduled locations, dates, and times;
- (4) Provide a brief summary of the training product;
- (5) Provide a copy of the visual aids, or other materials included with the course or activity; and

(6) Provide the names, contact information, and qualifications or résumés of the training designers.

30.3(4) Board member attendance. With board approval, board members may attend any board-approved continuing education program/activity for purposes of determining whether the continuing education program/activity complies with these rules. In the event a board member attends a board-approved continuing education program/activity with the purpose of determining whether the continuing education program/activity complies with these rules, the board member cannot receive any continuing education credit for those hours in attendance.

641—30.4(105) Course instructor(s).

30.4(1) Procedure and standards for board approval of instructors. An individual seeking board approval to instruct continuing education programs/activities will:

- a. File an application in the form prescribed by the board without alteration;
- b. Attach copies of documents, licensures, degrees, and other materials demonstrating compliance with the requirements for the type of continuing education program/activity as set forth below.

(1) If seeking approval to instruct in the content area of the Iowa Occupational Safety and Health Act, an individual must either possess and maintain a current Occupational Safety and Health Act 500, 501, 502, or 503 card or completion certificate, or both, or possess a current train-the-trainer or instructor card or other certification or safety-related degree or diploma issued by the American Heart Association, American Red Cross, National Safety Council, Board of Certified Safety Professionals, or board-approved equivalent.

(2) If seeking approval to instruct in the content area of the Iowa plumbing code or Iowa mechanical code, or both, an individual must:

1. Possess a current license issued by the board at the journey or master level in the applicable discipline under that code,
 2. Possess a current license as a professional engineer under Iowa Code chapter 542B,
 3. Present evidence of having taught at least eight contact hours in the applicable code within the last three years,
 4. Possess a current inspector or plans examiner certificate issued by a code body in the discipline,
- or
5. Demonstrate equivalent specialized education or training.

(3) If seeking approval to instruct in the content area of a practice discipline, an individual must:

1. Possess a current license issued by the board at the journey or master level in the applicable discipline,
2. Possess a current license as a professional engineer under Iowa Code chapter 542B,
3. Provide evidence of employment as a product representative with manufacturer training,
4. Present evidence of having taught at least eight contact hours in the applicable discipline within the last year, or
5. Demonstrate equivalent specialized education or training.

30.4(2) Board approval. Board approval for an instructor under subrule 30.4(1) will be valid for three years.

641—30.5(105) Compliance review of continuing education requirements. The board may conduct a review of a licensee's license renewal application to determine compliance with continuing education requirements.

30.5(1) Upon board request, the licensee must submit to the board an individual certificate of completion issued to the licensee or evidence of successful completion of the course from the course sponsor or course instructor containing the course title, date(s), contact hours, sponsor's name, and licensee's name. In some instances, licensees will be requested to provide to the board additional information including, but not limited to, program content, objectives, presenters, location, and schedule. An inclusive brochure may be acceptable.

30.5(2) A licensee must submit all information set forth in subrule 30.5(1) within 30 calendar days following the board's request. The board may grant extensions on an individual basis.

30.5(3) If the submitted materials are incomplete or unsatisfactory and the board determines that the deficiency was the result of good faith conduct on the part of the licensee, the licensee may be given the opportunity to submit make-up credit to cover the deficit found through the audit. A licensee must complete the continuing education hours and submit documentation establishing completion of the required make-up continuing education hours to the board within 120 calendar days from the date of the board's finding of good-faith conduct.

30.5(4) A licensee's failure to provide the board with an accurate mailing address is not an excuse for noncompliance with this rule.

641—30.6(105) Continuing education exemptions.

30.6(1) Automatic exemptions. A licensee will be exempt from the continuing education requirement during the continuing education compliance period when that person:

- a. Served honorably on active duty in the military service;
- b. Resided in another state or district having continuing education requirements for the discipline and met all mandates of that state or district for practice therein;
- c. Was a government employee working in the licensee's specialty and assigned to duty outside the United States;
- d. Was absent from the state but engaged in active practice under circumstances which are approved by the board;
- e. Obtained a journeyperson license by examination provided that the licensee maintains the same renewal date as the licensee's apprentice license. This automatic exemption only applies to the licensee's first renewal of the journeyperson license;
- f. Obtained a specialty, journeyperson, or master license with less than one year remaining in the continuing education compliance period. This exemption applies only to the licensee's first renewal of that license and only to each license that was issued with less than one year remaining in the continuing education compliance period; or
- g. Possesses an inactive specialty license under 641—subrule 23.8(3) and is also actively licensed as an apprentice.

30.6(2) Permissive exemptions. The board may, in cases involving exceptional hardship or extenuating circumstances, grant an exemption from some or all of the continuing education requirements.

- a. A licensee seeking a permissive exemption will apply to the board, in such form as the board may prescribe.
- b. A licensee seeking a permissive exemption will provide all such documentary evidence as the board may request to establish the exceptional hardship or extenuating circumstances.
- c. In the event of a claimed physical or mental disability or illness, the board may request information from a licensed health care professional who can attest to the existence of any such disability or illness.
- d. A licensee who applies for a permissive exemption will be notified in writing of the board's decision.
- e. In granting an exemption, the board may impose any such additional conditions on the exemption including, but not limited to, the requirement that the licensee make up a portion of the continuing education requirements.
- f. In lieu of granting a full or partial exemption, the board may grant the licensee an extension of time in which to complete the continuing education requirements.
- g. The granting of an exemption will not keep a licensee from seeking, or the board from granting, an exemption in a subsequent biennial continuing education compliance period(s).
- h. Permissive exemptions will only be granted in the most exceptional and extraordinary of circumstances.

641—30.7(105) Continuing education extensions. The board may, in individual cases involving hardship or extenuating circumstances, grant an extension of time within which to fulfill the minimum

continuing education requirements if the request for extension is made prior to the license expiration date. Hardship or extenuating circumstances include documented circumstances beyond the control of the licensee which prevent attendance at necessary activities.

641—30.8(105) Continuing education reporting requirements.

30.8(1) *Non-computer-based continuing education programs/activities.* For non-computer-based continuing education programs/activities, at the conclusion of each continuing education course, the course instructor will:

a. Inform each attending licensee that a survey of the course and instructor may be completed and submitted by the licensee to the board through either a board-approved written or online evaluation form.

b. Provide a certificate of completion to each licensee who attends the course. The certificate of completion will include the following information:

- (1) The licensee's full name and board-issued license number;
- (2) The course name or title;
- (3) The board-approved course identification number;
- (4) The date of the course;
- (5) The number of program contact hours;
- (6) The instructor's full name and board-approved identification number; and
- (7) The instructor's signature.

c. Submit to the board a typed or electronic course completion roster within 30 days following the completion of the course. The course completion roster will contain the following information:

- (1) The full name and board-issued license number of each attending licensee;
- (2) The course name or title;
- (3) The board-approved course identification number;
- (4) The date of the course;
- (5) The location of the course;
- (6) The number of program contact hours;
- (7) The instructor's full name and board-approved identification number; and
- (8) The instructor's signature.

30.8(2) *Computer-based continuing education programs/activities.* For computer-based continuing education programs/activities under subrule 30.2(3), at the conclusion of each computer-based continuing education course, the person authorized to monitor and verify attendance/course completion will:

a. Provide a certificate of completion to each licensee who completes the course. The certificate of completion will include the following information:

- (1) The licensee's full name and board-issued license number;
- (2) The course name or title;
- (3) The board-approved course identification number;
- (4) The date the course was completed; and
- (5) The number of program contact hours.

b. Submit to the board a typed or electronic course completion roster within 30 days following a licensee's completion of a computer-based continuing education course. The course completion roster will contain the following information:

- (1) The full name and board-issued license number of each attending licensee;
- (2) The course name or title;
- (3) The board-approved course identification number;
- (4) The date of the course;
- (5) The location of the course; and
- (6) The number of program contact hours.

These rules are intended to implement Iowa Code chapters 105 and 272C.

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 32 and implements Iowa Code chapters 105 and 272C in accordance with the goals of Executive Order 10 (Jan. 10, 2023). This rulemaking sets forth the grounds for discipline, methods of discipline and factors the Board of Plumbing and Mechanical Systems may consider in determining the nature and severity of the disciplinary sanction to be imposed, provides for the imposition of civil penalties, and sets forth procedures for the appeal of disciplinary action and collection of civil penalties. This is important to both the public and the licensee because it creates a shared understanding of what is and is not appropriate for these licensed individuals and procedures upon the identification of noncompliance.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees and the agency bear the costs associated with these proposed rules. The licensee may be ordered to pay civil penalties as a result of a disciplinary action. Staff salaries to support the work of the Board are necessary to implement licensee discipline.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefits of the proposed rules are to ensure public safety and maintain a high standard of practice for Iowans. The public is undoubtedly the class most benefited by disciplinary regulation. In order to regulate the profession as directed in statute, the Board needs discipline authority to ensure protection of the public when a standard of care is violated. Discipline ensures corrective action of licensees not abiding by requirements established to reduce harm to the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are 11,629 licensed individuals and 2,035 licensed businesses. In 2022, the Board received 68 complaints which resulted in 97 investigations. The Board issued 66 disciplinary actions, including 59 for unlicensed work. Many of the complaints for nonlicensed individuals come from properly licensed individuals and businesses. Generally, first offense actions for nonlicensed work are relatively small (\$500 per violation) and get settled for even less (\$250 per violation), provided that the individual and/or business get properly licensed. The Board has consistently taken the approach that getting nonlicensed individuals and/or businesses properly trained and licensed is the priority and the best way to protect the public. The rules provide consistent guidance to and appropriate regulation of the industry to meet the public safety goals espoused by Iowa Code chapter 105 and these implementing rules.

- Qualitative description of impact:

The cost of ensuring proper licensure is relatively small when compared to the benefit of having a properly trained and supervised workforce in this industry. When using properly licensed businesses and individuals, the public can have confidence that this important work is done safely and correctly.

The costs for the individual licensees are those incurred in the course of obtaining and maintaining their licenses. The costs for contractor licensees are those incurred in the course of obtaining and maintaining proper bonding and insurance. The costs to licensees include the license fees, which are described in 641—Chapter 28. There are also costs associated with continuing education courses or apprenticeship programs. Those costs vary depending on the type and number of licenses an individual has to maintain. Estimated continuing education unit (CEU) costs are described in the analysis for 641—Chapter 30.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The agency incurs costs in the form of staff needed to manage Board activities, including reviewing complaints, conducting investigations, and enforcing licensee discipline. The Board has one investigator that follows up on any alleged violations of rules of this chapter as required by Iowa Code section 105.28. There are also costs for the database that houses all of the information needed for licensure.

Notably, costs to the agency in implementing Iowa Code chapter 105, overall, include the support staff for processing licenses and CEUs, an investigator, and supervisor. It also includes IT/AMANDA support staff and other office costs, the database used to store licensee information and issue licenses, and indirect costs. This specifically includes 3.6 full-time equivalent (FTE) positions at a cost of approximately \$322,254 in FY 2023. It includes a Computer Aid, Inc., vendor at \$50,000 in FY 2023. It includes expenses associated with licensing software and technology at a cost of approximately \$625,000 in FY 2023. Indirect costs in FY 2023 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as division administrator, legal, and fiscal support.

- Anticipated effect on state revenues:

Any civil penalties that are collected due to noncompliance increase state revenues. In FY 2022, there were \$8,300 in civil penalty fines collected. In FY 2023, there were \$2,750 in civil penalty fines collected.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The rules themselves add very little cost beyond any costs substantively incurred due to the requirements of Iowa Code chapter 105. Furthermore, the cost of ensuring proper licensure is relatively small when compared to the benefit of having properly trained and supervised workforce in this industry. When using properly licensed businesses and individuals, the public can have confidence that this important work is done safely and correctly.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Prior to statewide licensing in 2010, local jurisdictions had their own licensing requirements or none at all. There was no uniformity in the way discipline was handled and no way for the public to easily know what individuals and business had disciplinary issues. There is now uniformity for licensing and discipline and the entire industry is following the same rules due to the requirements of Iowa Code chapter 105 and rules discussed herein that clarify and implement it. Disciplinary actions are publicly available in one location.

The Board could consider reducing or eliminating grounds for discipline as a potentially “less intrusive” method of implementing Iowa Code chapter 105, but the Board believes the grounds for discipline set forth in the proposed rules are reasonable and important in order to ensure high-quality services for all Iowans.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Alternative methods could include reducing or eliminating grounds for discipline, but the Board believes the requirements, as set out in this rulemaking, are important in order to ensure high-quality services for all Iowans.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for the licensed professional. While some licensees may be running or working for a small business, others work for large corporations. To exempt small businesses from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

The impact on small business is already believed to be at the lowest level available in order to reasonably implement and carry out the duties of the agency in 641—Chapter 105. One of the positions on the Board is specific to a contractor primarily working in rural Iowa, which is likely a small business. If a small business subject to this chapter identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department’s established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 32 and adopt the following new chapter in lieu thereof:

CHAPTER 32
PLUMBING AND MECHANICAL SYSTEMS BOARD—LICENSEE DISCIPLINE

641—32.1(105,272C) Definitions. The definitions set forth in Iowa Code section 105.1 are incorporated herein by reference. For purposes of this chapter, the following definitions also apply:

“*Conviction*” means the same as defined in 641—Chapter 29.

“*Directly relates*” or “*directly related*” means the same as Iowa Code section 272C.1(8) “a” and “b.”

“*Discipline*” means any sanction the board may impose upon licensees.

“*Disqualifying conviction*” or “*disqualifying offense*” means the same as in 641—Chapter 29.

“*Lapsed license*” means a license that has expired. A lapsed license is no longer valid for practice.

“*Licensee*” means any person licensed to practice pursuant to Iowa Code chapter 105.

641—32.2(105,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 641—32.3(105,272C) when the board determines that the licensee is guilty of any of the following acts or offenses:

32.2(1) Fraud in procuring a license. Fraud in procuring a license includes, but is not limited to, an intentional perversion of the truth in making application for a license to practice in this state, which includes the following:

a. False representations of a material fact, whether by word or by conduct, by false or misleading allegations, or by concealment of that which should have been disclosed when making application for a license in this state, or

b. Attempting to file or filing with the board or the department of inspections, appeals, and licensing any false or forged diploma, certificate, affidavit, identification or qualification in making an application for a license in this state.

32.2(2) Professional incompetence. Professional incompetence includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the scope of the applicable licensed trade.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by others licensed in the applicable trade in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care which is ordinarily exercised by the average licensee in the applicable trade acting in the same or similar circumstances.

d. Failure to conform to the minimal standard of acceptable and prevailing practice of a licensee in the applicable trade in this state.

e. Inability to practice in the trade with reasonable skill and safety by reason of illness, drunkenness, excessive use of drugs, narcotics, chemicals, or other type of material or as a result of a mental or physical condition.

f. Being adjudged mentally incompetent by a court of competent jurisdiction.

32.2(3) Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

32.2(4) Habitual intoxication or addiction to the use of drugs.

32.2(5) Conviction of a disqualifying offense in the courts of this state or another state, territory, or country. A file-stamped copy of the final order or judgment or conviction or plea of guilty in this state or another state, territory, or country constitutes conclusive evidence of the conviction.

32.2(6) Fraud in representations as to skill or ability.

32.2(7) Use of untruthful or improbable statements in advertisements.

32.2(8) Willful or repeated violations of Iowa Code chapter 105 or 272C.

32.2(9) Violation of a board rule.

32.2(10) Nonpayment of a state debt as evidenced by a certificate of noncompliance issued pursuant to Iowa Code chapter 272D and 641—Chapter 194.

32.2(11) Permitting another person to use the licensee's wall certificate, wallet card, or license number for any purpose.

32.2(12) Failure to timely submit the requested materials in response to a compliance review conducted pursuant to 641—30.5(105).

32.2(13) Failure to meet the continuing education requirements for licensure.

32.2(14) Submission of a false report of continuing education.

32.2(15) Failure to pay any outstanding fees or costs owed to the board.

32.2(16) Acceptance of any fee by fraud or misrepresentation.

32.2(17) Negligence by the licensee in the practice of the trade. Negligence by the licensee in the practice of the trade includes a failure to exercise due care, including negligent delegation of duties or supervision of employees or other individuals, whether or not injury results; or any conduct, practice, or conditions which impair the ability to safely and skillfully practice the trade.

32.2(18) Violation of a law, ordinance, or regulation of this state, or a political subdivision therein, another state, or the United States, which relates to the practice of the profession.

32.2(19) Revocation, suspension, or other disciplinary action taken by a licensing authority of this state, another state, territory, or country; or failure by the licensee to report in writing to the board revocation, suspension, or other disciplinary action taken by a licensing authority within 30 days of the final action. A stay by an appellate court does not negate this requirement; however, if such disciplinary action is overturned or reversed by a court of last resort, the report will be expunged from the records of the board.

32.2(20) Failure of a licensee or an applicant for licensure in this state to report any voluntary agreements restricting the practice in the trade in another state, district, territory, or country.

32.2(21) Failure to notify the board of a criminal conviction within 30 days of the action, regardless of the jurisdiction where it occurred.

32.2(22) Failure to notify the board within 30 days after the occurrence of any judgment entered on or settlement of a claim or action related to the profession.

32.2(23) Engaging in any conduct that subverts or attempts to subvert a board investigation.

32.2(24) Failure to comply with a subpoena issued by the board or otherwise fail to cooperate with an investigation of the board.

32.2(25) Failure to comply with the terms of a board order or the terms of a settlement agreement or consent order.

32.2(26) Failure to report another licensee to the board for any violations listed in these rules, pursuant to Iowa Code section 272C.9.

32.2(27) Knowingly aiding, assisting, procuring, or advising a person to unlawfully practice a trade included in Iowa Code chapter 105.

32.2(28) Failure to report a change in name or address within 30 days after it occurs.

32.2(29) Representing oneself as a licensed tradesperson when one's license has been suspended or revoked or when the license is on inactive status.

32.2(30) Permitting another person to use the licensee's license for any purpose.

32.2(31) Permitting an unlicensed employee or person under the licensee's control to perform activities necessitating a license.

32.2(32) Failure to apply and obtain a permit prior to performing work, if mandated by the state or a political subdivision therein.

32.2(33) Failure to pay all inspection fees, if required by the state or a political subdivision therein.

32.2(34) Failure to pay a permit fee, if required by the state or a political subdivision therein.

32.2(35) Practice outside the scope of the license, which includes, but is not limited to:

a. Practicing as a journeyman without the supervision of a master.

b. Practicing in a trade for which the licensee does not hold a board-issued license.

c. Contracting for plumbing or mechanical work in the state of Iowa without a board-issued contractor license.

32.2(36) Practicing on a lapsed license.

32.2(37) Practicing as a contractor without valid bonding or insurance, as mandated by Iowa Code section 105.19.

641—32.3(105,272C) Method of discipline. The board has the authority to impose the following disciplinary sanctions:

1. Revocation of license.
2. Suspension of license until further order of the board or for a specific period.
3. Prohibit permanently, until further order of the board or for a specific period, the licensee's engaging in specified procedures, methods, or acts.
4. Probation.
5. Mandate additional education or training.
6. Mandate a reexamination.
7. Order a physical or mental evaluation, or order alcohol and drug screening within a time specified by the board.
8. Impose civil penalties not to exceed \$5,000.
9. Issue a citation and warning.
10. Such other sanctions allowed by law as may be appropriate.

641—32.4(272C) Discretion of board. The following factors may be considered by the board in determining the nature and severity of the disciplinary sanction to be imposed:

1. The relative serious nature of the violation as it relates to ensuring a high standard of professional care to the citizens of this state;
2. The facts of the particular violation;
3. Any extenuating facts or other countervailing considerations;
4. The number of prior violations or complaints;
5. The seriousness of prior violations or complaints;
6. Whether remedial action has been taken; and
7. Such other factors as may reflect upon the competency, ethical standards, and professional conduct of the licensee.

641—32.5(105) Civil penalties—unlicensed penalties. The board may impose civil penalties by order against a person who is not licensed by the board based on the unlawful practices specified in Iowa Code section 105.27(1). In addition to the procedures set forth in Iowa Code chapters 105 and 272C, this chapter applies.

32.5(1) Unlawful practices. Practices by an unlicensed person which are subject to civil penalties include, but are not limited to:

- a.* Acts or practices by unlicensed persons which necessitate licensure to install or repair plumbing, mechanical, HVAC, refrigeration, sheet metal, or hydronic systems under Iowa Code chapter 105.
- b.* Acts or practices by unlicensed persons which necessitate certification to install or repair medical gas piping systems under Iowa Code chapter 105.
- c.* Engaging in the business of designing, installing, or repairing plumbing, mechanical, HVAC, refrigeration, sheet metal, or hydronic systems without employing a licensed master.
- d.* Providing plumbing, mechanical, HVAC, refrigeration, sheet metal, or hydronic systems services on a contractual basis.
- e.* Use or attempted use of a licensee's certificate or wallet card or use or attempted use of an expired, suspended, revoked, or nonexistent certificate.
- f.* Falsely impersonating a person licensed under Iowa Code chapter 105.
- g.* Providing false or forged evidence of any kind to the board in obtaining or attempting to obtain a license.
- h.* Other violations of Iowa Code chapter 105.

i. Knowingly aiding or abetting an unlicensed person or establishment in any activity identified in this rule.

32.5(2) Investigations. The board is authorized by Iowa Code section 17A.13(1) and Iowa Code chapters 105 and 272C to conduct such investigations as are needed to determine whether grounds exist to impose civil penalties against a nonlicensee. Complaint and investigatory files concerning nonlicensees are not confidential except as may be provided in Iowa Code chapter 22.

32.5(3) Subpoenas. Pursuant to Iowa Code section 17A.13(1) and Iowa Code chapter 105, the board is authorized in connection with an investigation of an unlicensed person to issue subpoenas to compel persons to testify and to compel persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, which the board deems necessary as evidence in connection with the civil penalty proceeding or relevant to the decision of whether to initiate a civil penalty proceeding. Board procedures concerning investigative subpoenas are set forth in rule 641—34.5(105).

32.5(4) Notice of intent to impose civil penalties. Notice of the board's intent to order compliance with Iowa Code chapter 105 and impose a civil penalty will be served upon the nonlicensee by restricted certified mail, return receipt requested, or by personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the nonlicensee may accept service personally or through authorized counsel. The notice will include the following:

a. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.

b. Reference to the particular sections of the statutes and rules involved.

c. A short, plain statement of the alleged unlawful practices.

d. The dollar amount of the proposed civil penalty and the nature of the intended order.

e. Notice of the nonlicensee's right to a hearing and the time frame in which the hearing must be requested.

f. The address to which written request for hearing must be made.

32.5(5) Requests for hearings.

a. Nonlicensees must request a hearing within 30 days of the date the notice is received if served through restricted certified mail, or within 30 days of the date of service if service is accepted or made in accordance with Iowa Rule of Civil Procedure 1.305. A request for hearing must be in writing and is deemed made on the date of the nonmetered United States Postal Service postmark or the date of personal service.

b. If a request for hearing is not timely made, or if the nonlicensee waives in writing the right to hearing and agrees to pay the penalty, the board chairperson, the chairperson's designee, or the board executive may issue an order imposing the civil penalty and requiring compliance with Iowa Code chapter 105, as described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose a civil penalty.

c. If a request for hearing is timely made, the board will issue a notice of hearing and conduct a hearing in the same manner as applicable to disciplinary cases against licensees.

d. Subsequent to the issuance of a notice of hearing under this subrule, the settlement agreement provisions of 641—33.23(272C) apply.

e. The notice of intent to issue an order and the order are public records pursuant to Iowa Code chapter 22. Copies may be published. Hearings are open to the public.

32.5(6) Factors for board consideration. The board may consider the following when determining the amount of civil penalty to impose, if any:

a. Whether the amount imposed will be a substantial economic deterrent to the violation.

b. The circumstances leading to or resulting in the violation.

c. The severity of the violation and the risk of harm to the public.

d. The economic benefits gained by the violator as a result of noncompliance.

e. The welfare or best interest of the public.

32.5(7) Enforcement options. In addition, or as an alternative, to the administrative process described in these rules, the board may seek an injunction in district court, refer the matter for criminal prosecution, or enter into a consent agreement.

32.5(8) Judicial review.

a. A person aggrieved by the imposition of a civil penalty under this rule may seek a judicial review in accordance with Iowa Code section 17A.19.

b. The board will notify the attorney general of the failure to pay a civil penalty within 30 days after entry of an order or within 10 days following final judgment in favor of the board if an order has been stayed pending appeal.

c. The attorney general may commence an action to recover the amount of the penalty, including reasonable attorney fees and costs.

d. An action to enforce an order under this rule may be joined with an action for an injunction pursuant to Iowa Code section 105.27(4).

641—32.6(105,272C) Collection of delinquent civil penalties and discipline-related debts.

32.6(1) The board may participate in an income setoff program administered by the department of revenue in accordance with Iowa Code section 421.65 and rules promulgated thereunder.

32.6(2) Definitions. For purposes of this rule, the following definitions apply:

“Debtor” means any person who owes a debt to the board as a result of a proceeding in which notice and opportunity to be heard was afforded.

“Income offset program” means the program established in Iowa Code section 421.65 and any rules promulgated thereunder through which the department of revenue coordinates with state agencies to satisfy liabilities owed to those state agencies.

32.6(3) The board office may provide the department of administrative services a liability file containing pertinent information for the identification of the debtor and liability, including if the status of a debt changes due to payment of the debt, invalidation of the liability, alternate payment arrangements with the debtor, bankruptcy, or other factors.

32.6(4) Due diligence.

a. Before submitting debtor information to the outstanding liability file, the board office will make a good faith attempt to collect from the debtor. Such attempt will include at least all of the following:

- (1) A telephone call requesting payment.
- (2) An initial letter to the debtor’s last discernible address requesting payment within 15 days.
- (3) A second letter to the debtor’s last discernible address requesting payment within 10 days.

b. The board office will document due diligence and retain such documentation.

32.6(5) Notification of offset. Within 10 calendar days of receiving notification from the department of revenue that the debtor is entitled to a payment subject to the setoff program, the board office will:

a. Send a preoffset notice to the debtor. The preoffset notice will inform the debtor of the amount the department intends to claim, including all of the following information:

- (1) The board’s right to the payment in question.
- (2) The board’s right to recover the payment through the setoff procedure.
- (3) The basis of the board’s case in regard to the debt.
- (4) The right of the debtor to request, in accordance with subrule 32.6(6) and within 15 days of the mailing of the preoffset notice, a split of the payment between parties when the payment in question is jointly owned or otherwise owned by two or more persons.
- (5) The debtor’s right to appeal the offset, in accordance with subrule 32.6(7) and within 15 days of the mailing of the preoffset notice, and the procedure to follow in that appeal.
- (6) The board office’s contact information in case of questions.

b. Notify the department of revenue that the preoffset notice has been sent to the debtor, and supply a copy of the preoffset notice to the department of revenue.

32.6(6) Request to divide a jointly or commonly owned right to payment.

a. A debtor who receives a preoffset notice may request release of a joint or common owner’s share, if the request is received by the board within 15 days of the date the preoffset notice is mailed.

b. In conjunction with such a request, the debtor shall provide to the board the full name and social security number of any joint or common owner.

c. Upon receipt of such a request, the board office will notify the department of revenue of the request.

32.6(7) Appeal process. A debtor who receives a preoffset notice may request an appeal of the underlying debt within 15 days of the date the preoffset notice is mailed. A contested case appeal will be conducted pursuant to 641—Chapter 33. The board will notify the department of revenue within 45 days of the notification of setoff. The board will hold a payment in abeyance until the final disposition of the contested liability or setoff.

32.6(8) Once any setoff has been completed, the board office will notify the debtor of the action taken, and what balance, if any, remains owing to the board.

These rules are intended to implement Iowa Code chapters 105 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 33
“Plumbing and Mechanical Systems Board—Contested Cases”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 105.4
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 105, and 272C;
2023 Iowa Acts, Senate File 514; and Executive Order 10 (Jan. 10, 2023)

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kane Young
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.724.3216
Email: kane.young@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 33 and implements Iowa Code chapters 17A, 105, and 272C; and 2023 Iowa Acts, Senate File 514, in accordance with the goals of Executive Order 10 (Jan. 10, 2023). This proposed rulemaking addresses contested case hearings, including time requirements for taking action on a contested case; direction on the service of the statement of charges and notice of hearing, as well as the required contents of the statement of charges and notice of hearing; the discovery process, including issuance of subpoenas; the handling of pretrial motions and conferences; and procedures for the hearings and post-hearing motions and appeals. The purpose of the proposed rulemaking is to provide the licensee an outline of how a contested case proceeding is initiated and the rights and responsibilities of the licensee during that process. The proposed rules ensure the licensee is aware of how a contested case begins, how the licensee can gather information to prepare for the hearing, and the potential result of the hearing.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

The licensee may incur costs during the investigation and contested case hearing process, including potential costs related to legal representation. The Department incurs costs including Plumbing and Mechanical Systems Board staff to investigate the complaints, prepare the investigative files for Board review, and hold the contested case hearings.

- Classes of persons that will benefit from the proposed rulemaking:

The public and licensees benefit from the proposed rules. The rules set forth procedures that ensure due process for licensees. The public benefits from the assurance that allegations of noncompliance are taken seriously and procedures exist to investigate and hold contested case proceedings when disciplinary action is required.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The licensee may incur costs for legal representation during a contested case hearing. Additional costs may include examination and responding to discovery requests and service of subpoenas, or the recording and transcribing of records should the case proceed to judicial review.

The Board incurs costs for service by mail, publication or personal service at the initiation of a contested case hearing, as well as the staff necessary to conduct the contested case hearing. The Board does have the option to consolidate cases if the licensee has more than one complaint filed against the licensee at the same time. This allows for more efficient use of time and resources for both the Board and the licensee. The Board members also incur costs associated with their time and travel since the Board is not compensated in any form.

In 2022, the Board received 68 complaints that resulted in 97 investigations. The Board issued 66 disciplinary actions, including 59 for unlicensed work. Two of the disciplinary actions proceeded through to a contested case hearing.

- Qualitative description of impact:

The process for contested cases is largely dictated by Iowa Code section 17A.12. The Board believes the proposed rules provide a balanced regulatory process for initiating and holding contested case hearings. The rules ensure licensees are aware of their rights and responsibilities when a contested case is set and also provide licensees with guidance on what the licensee can do in terms of legal representation, discovery requests, and options after the Board issues a final order. Without these rules, Boards would have large discretion on how to conduct contested hearings and implement discipline against licensees and the licensees would not have appropriate procedures in place to contest allegations in an adversarial fashion. The rules ensure due process is afforded to licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The Department incurs costs in the form of Board staff, and procedural costs to carry out these rules. The Board staff assist with preparing the notices for hearing and correspondence with the licensee to set hearings. The Board is responsible for ensuring process of service on the licensee to initiate the contested case that includes costs to serve the licensee by mail, publication or personal service. The Board does attempt to utilize the least expensive option (service by mail) before opting for an alternative service option.

Costs to the agency in implementing Iowa Code chapter 105 overall include the support staff for processing licenses and continuing education units (CEUs), an investigator, and supervisor. This specifically includes 3.6 full-time equivalent (FTE) positions at a cost of approximately \$322,254 in FY 2023. Indirect costs in FY 2023 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as division administrator, legal, and fiscal support.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues. Staffing costs noted above are attributable to the totality of implementing Iowa Code chapter 105 and are defrayed by licensee fees (see 641—Chapter 28).

During contested case hearings, the boards utilize an administrative law judge to preside over the hearing and provide rulings on pre-hearing motions. The administrative law judge is paid through state funds. The Board does not have data on the administrative law judge salaries or the percentage of work completed by the administrative law judge on behalf of the boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Without these proposed rules, the Board would have significant discretion as to the conduct of contested hearings and licensees would not have procedures in place to contest allegations in an adversarial fashion. The rules ensure due process is afforded to licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The process for contested case hearings is largely dictated by Iowa Code chapter 17A. The Board does have the option to consolidate cases if the licensee has more than one complaint filed against the licensee at the same time. The Board also has procedures in place for contested case hearings where there is no factual dispute. This allows for more efficient use of time and resources for both the Board and the licensee.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The process for contested cases is largely dictated by Iowa Code chapter 17A. Alternative methods were not identified.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
See above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

While some licensees could be running a small business, some also work for large businesses. The Board does recognize that the impact of a contested case could certainly be greater to a small business than it would to a large company, for instance, to carve time out of the schedule for a small business owner to be present for hearing. However, the proposed rules ensure due process for all licensees including small business licensees.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 33 and adopt the following **new** chapter in lieu thereof:

CHAPTER 33 PLUMBING AND MECHANICAL SYSTEMS BOARD—CONTESTED CASES

641—33.1(17A,105,272C) Scope and applicability. This chapter applies to contested case proceedings conducted by the plumbing and mechanical systems board.

641—33.2(17A,105,272C) Definitions. Except where otherwise specifically defined by law:

“*Board*” means the plumbing and mechanical systems board as established pursuant to Iowa Code section 105.3.

“*Contested case*” means a proceeding defined by Iowa Code section 17A.2(5) and includes any matter defined as a no factual dispute contested case under Iowa Code section 17A.10A.

“*Executive officer*” means the executive officer for the plumbing and mechanical systems board.

“*Issuance*” means the date of mailing of a decision or order, or date of delivery if service is by other means, unless another date is specified by rule or in the order.

“*License*” means a license, registration, certificate, permit or other form of practice permission required by Iowa Code chapter 105.

“*Party*” means the state of Iowa, as represented by the assistant attorney general assigned to prosecute the case on behalf of the public interest, the respondent, or an intervenor.

“*Presiding officer*” means the board, a panel of board members, or a panel of nonboard member specialists as provided in Iowa Code sections 272C.6(1) and (2) in a disciplinary contested case.

641—33.3(17A) Time requirements.

33.3(1) Time will be computed as provided in Iowa Code section 4.1(34).

33.3(2) For good cause, the presiding officer may extend or shorten the time to take any action, except as precluded by statute. Except for good cause stated in the record, before extending or shortening the time to take any action, the presiding officer will afford all parties an opportunity to be heard or to file written arguments.

641—33.4(17A,272C) Probable cause. If the board finds there is probable cause for taking disciplinary action against a licensee, the board will order a contested case hearing commenced by the filing and service of a statement of charges and notice of hearing.

641—33.5(17A,272C) Informal settlement. The board, its staff or agent, or a board committee may attempt to informally settle a disciplinary case before filing a statement of charges and notice of hearing. If the board and the licensee agree to a settlement of the case, a statement of charges will be filed simultaneously with a consent order, whether as separate or combined documents. By electing to sign a consent order, the licensee waives all rights to a hearing and all attendant rights. The consent order has the force and effect of a final disciplinary order entered in a contested case and is an open record. Matters not involving licensee discipline that culminate in a contested case may also be settled through consent order. Procedures governing settlement after notice of hearing is served are described in rule 641—33.23(272C).

641—33.6(17A) Statement of charges.

33.6(1) *Legal review.* Every statement of charges and notice of hearing prepared by the board will be reviewed by the office of the attorney general before it is filed.

33.6(2) *Delivery.* Delivery of the statement of charges and notice of hearing constitutes the commencement of the contested case proceeding. Delivery may be executed by personal service or publication as provided in the Iowa Rules of Civil Procedure or certified mail, return receipt requested.

33.6(3) *Contents.* The statement of charges and notice of hearing will contain the following information:

- a. A statement by the board showing that there is probable cause to file the statement of charges;
- b. A statement of the time, place, and nature of the hearing;
- c. A statement of the legal authority and jurisdiction under which the hearing is to be held;
- d. A reference to the particular sections of the statutes and rules involved;
- e. A short and plain statement of the matters asserted containing sufficient detail to give the respondent fair notice of the allegations so the respondent may adequately respond to the charges, and to give the public notice of the matters at issue;

- f.* Identification of all parties including the name, address and telephone number of the person who will act as advocate for the board or the state and of parties' counsel where known;
- g.* Reference to the procedural rules governing conduct of the contested case proceeding;
- h.* Reference to the procedural rules governing informal settlement;
- i.* Identification of the presiding officer as the board, a panel of board members, or a panel of nonboard member specialists as provided in Iowa Code sections 272C.6(1) and (2); and
- j.* A statement requiring the respondent to submit an answer pursuant to subrule 33.13(2) within 20 days after service of the statement of charges.

641—33.7(17A) Requests for contested case proceeding. Any person seeking or claiming entitlement to a contested case hearing shall file a written request for such a proceeding within the time specified by the particular rules or statutes governing the subject matter or, in the absence of such law, the time specified in the board action in question.

33.7(1) Contents of request. The request for a contested case proceeding should:

- a.* State the name and address of the requester;
- b.* Identify the specific board action that is disputed;
- c.* Describe issues of material fact in dispute; and
- d.* Where the requester is represented by a lawyer, identify the provisions of law or precedent requiring or authorizing the holding of a contested case proceeding in the particular circumstances involved.

33.7(2) Board action on request. If the board grants the request, the board will issue a notice of hearing. If the board denies the request, the board will issue a written order specifying the basis for the denial.

641—33.8(105) Legal representation. Following the filing of a statement of charges and notice of hearing, the office of the attorney general is responsible for the legal representation of the public interest in all proceedings before the board. The assistant attorney general assigned to prosecute a contested case before the board will not represent the board in that case but will represent the public interest. Other parties to a proceeding before the board may have counsel at their own expense.

641—33.9(17A,105,272C) Presiding officer in a disciplinary contested case. The presiding officer in a disciplinary contested case will be the board, a panel of not less than three board members who are licensed under Iowa Code chapter 105, or a panel of nonboard member specialists as provided in Iowa Code sections 272C.6(1) and (2). The board or a panel of board members when acting as presiding officer may request that an administrative law judge perform certain functions as an aid to the board or board panel, including ruling on prehearing motions, conducting the prehearing conference, ruling on evidentiary objections at hearing, assisting in deliberation, or drafting the written decision for review by the board or board panel. Decisions of the administrative law judge serving in this capacity are subject to the interlocutory appeal provisions of rule 641—33.29(17A).

641—33.10(17A) Presiding officer in a nondisciplinary contested case.

33.10(1) A nondisciplinary contested case includes license denial proceedings. Any party in a nondisciplinary contested case may request that the presiding officer assigned to render a proposed decision be an administrative law judge employed by the department of inspections, appeals, and licensing by filing a written request within 20 days after service of a notice of hearing identifying or describing the presiding officer as the board.

33.10(2) The board may only deny the request if:

- a.* There is a compelling need to expedite issuance of a final decision in order to protect the public health, safety, or welfare.
- b.* An administrative law judge with the qualifications identified in subrule 33.10(4) is unavailable to hear the case within a reasonable time.

c. The case involves significant policy issues of first impression that are inextricably intertwined with the factual issues presented.

d. The demeanor of the witnesses is not likely to be dispositive in resolving the disputed factual issues.

e. The request was not timely filed.

f. The request is not consistent with a specified statute.

33.10(3) The board will issue a written ruling specifying the grounds for its decision within 20 days after a request for an administrative law judge is filed. If the ruling is contingent upon the availability of an administrative law judge with the qualifications identified in subrule 33.10(4), the parties will be notified at least 10 days prior to hearing if a qualified administrative law judge will not be available.

33.10(4) Except as otherwise provided by a provision or law, all rulings by an administrative law judge acting as presiding officer in a nondisciplinary contested case are subject to appeal to the board. Such appeals must be filed within 10 days of the date of the issuance of the challenged ruling but no later than the time for compliance with the order or the date of the hearing, whichever occurs first.

33.10(5) Unless otherwise provided by law, when reviewing a proposed decision of an administrative law judge in a nondisciplinary contested case upon appeal, the board possesses the powers and complies with the provisions of this chapter applicable to presiding officers.

641—33.11(17A) Disqualification.

33.11(1) A presiding officer or other person will withdraw from participation in the making of any proposed or final decision in a contested case if that person:

a. Has a personal bias or prejudice concerning a party or a representative of a party;

b. Has personally investigated, prosecuted, or advocated, in connection with that case, the specific controversy underlying that case, another pending factually related contested case, or a pending factually related controversy that may culminate in a contested case involving the same parties;

c. Is subject to the authority, direction or discretion of any person who has personally investigated, prosecuted or advocated, in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy involving the same parties;

d. Has acted as counsel to any person who is a private party to that proceeding within the past two years;

e. Has a personal financial interest in the outcome of the case or any other significant personal interest that could be substantially affected by the outcome of the case;

f. Has a spouse or relative within the third degree of relationship who:

(1) Is a party to the case, or an officer, director or trustee of a party;

(2) Is a lawyer in the case;

(3) Is known to have an interest that could be substantially affected by the outcome of the case; or

(4) Is likely to be a material witness in the case; or

g. Has any other legally sufficient cause to withdraw from participation.

33.11(2) The term “personally investigated” means taking affirmative steps to interview witnesses directly or to obtain documents or other information directly. The term “personally investigated” does not include:

a. General direction and supervision of assigned investigators;

b. Unsolicited receipt of information that is relayed to assigned investigators;

c. Review of another person’s investigative work product in the course of determining whether there is probable cause to initiate a proceeding; or

d. Exposure to factual information while performing other board functions, including fact gathering for purposes other than investigation of the matter that culminates in a contested case.

33.11(3) Factual information relevant to the merits of a contested case received by a person who later serves as presiding officer in that case will be disclosed if required by Iowa Code section 17A.17(3) and subrule 33.27(9).

33.11(4) By electing to participate in an appearance before the board pursuant to rule 641—34.7(17A), the licensee waives any objection to a board member’s participating as a decision

maker in a contested case proceeding on the grounds that the board member “personally investigated” the matter under this provision.

33.11(5) If a presiding officer or other person knows of information that might reasonably be deemed to be a basis for disqualification and decides voluntary withdrawal is unnecessary, that person will submit the relevant information from the records by affidavit including a statement of the reasons for the determination that withdrawal is unnecessary.

641—33.12(17A) Consolidation—severance.

33.12(1) Consolidation. The presiding officer may consolidate any or all matters at issue in two or more contested cases where:

- a. The matters involve common parties or common questions of fact or law;
- b. Consolidation would expedite and simplify consideration of the issues involved; and
- c. Consolidation would not adversely affect the rights of any of the parties to those proceedings.

33.12(2) Severance. The presiding officer may, for good cause shown, order any contested case proceeding or portions thereof severed.

641—33.13(17A) Pleadings.

33.13(1) Pleadings. Pleadings may be required by rule, by the statement of charges, or by order of the presiding officer.

33.13(2) Answer.

a. An answer shall be filed within 20 days of service of the statement of charges and notice of hearing that:

- (1) Identifies on whose behalf it is filed;
- (2) Sets forth the name, address and telephone number of the person filing the answer, the person on whose behalf it is filed, and the attorney, if any, representing that person;
- (3) Specifically admits, denies or otherwise answers all material allegations of the statement of charges; and
- (4) Sets forth any facts deemed necessary to show an affirmative defense and contain as many additional defenses as the respondent may claim.

b. The presiding officer may refuse to consider any defense not raised in the answer that could have been raised on the basis of facts known when the answer was filed if any party would be prejudiced.

33.13(3) Amendments. Any notice of hearing or statement of charges may be amended before a responsive pleading has been filed. Otherwise, a party may amend a pleading only with the consent of the other parties or at the discretion of the presiding officer who may impose terms or grant a continuance.

641—33.14(17A) Service and filing.

33.14(1) Service—when required. Except where otherwise provided by law, every document filed in a contested case proceeding shall be served upon each of the parties of record to the proceeding, including the person designated as prosecutor for the state, simultaneously with its filing. Except for the original statement of charges and notice of hearing and an application for rehearing as provided in Iowa Code section 17A.16(2), the party filing a document is responsible for service on all parties.

33.14(2) Service—how made. Service upon a party represented by an attorney will be made upon the attorney unless otherwise ordered. Service is made by delivery or by mailing a copy to the person’s last-known address. Service by mail is completed upon mailing, except where otherwise specifically provided by statute, rule, or order.

33.14(3) Filing—when required. After the statement of charges and notice of hearing, all documents in a contested case proceeding will be filed with the board. All documents that are required to be served upon a party will be filed simultaneously with the board.

33.14(4) Filing—when made. Except where otherwise provided by law, a document is deemed filed at the time it is delivered to the board; delivered to an established courier service for immediate delivery to the board; or mailed by first-class or state interoffice mail to the board, so long as there is proof of mailing.

33.14(5) Proof of mailing. Proof of mailing includes:

- a. A legible United States Postal Service postmark on the envelope, or
- b. A certificate of service, or
- c. A notarized affidavit, or
- d. A certification in substantially the following form:

I certify under penalty of perjury and pursuant to the laws of Iowa that, on (date of mailing), I mailed copies of (describe document) addressed to the board and to the names and addresses of the parties listed below by depositing the same in (a United States Post Office mailbox with correct postage properly affixed or state interoffice mail).

(Date)

(Signature)

641—33.15(17A) Discovery.

33.15(1) Discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by these rules, by order of the presiding officer, or by agreement of the parties, time periods for compliance with discovery will be as provided in the Iowa Rules of Civil Procedure.

33.15(2) Any motion relating to discovery shall allege that the moving party has previously made a good faith attempt to resolve the discovery issues involved with the opposing party. Motions in regard to discovery will be ruled upon by the presiding officer. Opposing parties will be afforded the opportunity to respond within 10 days of the filing of the motion unless the time is shortened as provided in subrule 33.15(1). The presiding officer may rule on the basis of the written motion and any response, or may order oral argument.

33.15(3) Evidence obtained in discovery may be used in the contested case proceeding if that evidence would otherwise be admissible in that proceeding.

641—33.16(17A,272C) Subpoenas in a contested case.

33.16(1) Subpoenas issued in a contested case may compel the attendance of witnesses at deposition or hearing and may compel the production of books, papers, records, or other real evidence. A command to produce evidence or to permit inspection may be joined with a command to appear at deposition or hearing or may be issued separately. Subpoenas will be issued by the executive officer or designee upon written request. In the case of a request for a subpoena of mental health records, the request must confirm the conditions described in 641—subrule 34.5(1) prior to the issuance of the subpoena.

33.16(2) A request for a subpoena should include the following information, as applicable, unless the subpoena is requested in order to compel testimony or documents for rebuttal or impeachment purposes:

- a. The name, address, and telephone number of the person requesting the subpoena;
- b. The name and address of the person to whom the subpoena shall be directed;
- c. The date, time, and location at which the person shall be commanded to attend and give testimony;
- d. Whether the testimony is requested in connection with a deposition or hearing;
- e. A description of the books, papers, records, or other real evidence requested;
- f. The date, time, and location for production, or inspection and copying; and
- g. In the case of a subpoena request for mental health records, confirmation that the conditions described in 641—subrule 34.5(1) have been satisfied.

33.16(3) Each subpoena shall contain, as applicable:

- a. The caption of the case;
- b. The name, address, and telephone number of the person who requested the subpoena;
- c. The name and address of the person to whom the subpoena is directed;
- d. The date, time, and location at which the person is commanded to appear;
- e. Whether testimony is commanded in connection with a deposition or hearing;
- f. A description of the books, papers, records, or other real evidence the person is commanded to produce;

- g.* The date, time, and location for production, or inspection and copying;
- h.* The time within which a motion to quash or modify the subpoena must be filed;
- i.* The signature, address, and telephone number of the board executive officer or designee;
- j.* The date of issuance; and
- k.* A return of service.

33.16(4) Unless a subpoena is requested in order to compel testimony or documents for rebuttal or impeachment purposes, the executive officer or designee will mail the subpoena to the requesting party, with a copy to the opposing party. The person who requested the subpoena is responsible for serving the subpoena upon the subject of the subpoena.

33.16(5) Any person who is aggrieved or adversely affected by compliance with the subpoena, or any party to the contested case, who desires to challenge the subpoena must, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days, file with the board a motion to quash or modify the subpoena describing the legal reasons why the subpoena should be quashed or modified. It may be accompanied by legal briefs or factual affidavits.

33.16(6) Upon receipt of a timely motion to quash or modify a subpoena, the presiding officer hold a hearing and issue a decision. Oral argument may be scheduled at the discretion of the presiding officer. The presiding officer may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.

33.16(7) A person who is aggrieved by a ruling of an administrative law judge and who desires to challenge that ruling must appeal the ruling to the board by serving on the board's executive director, either in person or by certified mail, a notice of appeal within ten days after service of the decision.

33.16(8) If the person contesting the subpoena is not a party to the contested case, the board's decision is final for purposes of judicial review. If the person contesting the subpoena is a party to the contested case, the board's decision is not final for purposes of judicial review until there is a final decision in the contested case.

641—33.17(17A) Motions.

33.17(1) Prehearing motions must be in writing, state the grounds for relief, and state the relief sought.

33.17(2) Any party may file a written response to a motion within ten days after the motion is served, unless the time period is extended or shortened by the presiding officer. The presiding officer may consider a failure to respond within the required time period in ruling on the motion.

33.17(3) The presiding officer may schedule oral argument on any motion. If the board requests that an administrative law judge issue a ruling on a prehearing motion, the ruling is subject to interlocutory appeal pursuant to rule 641—33.29(17A).

33.17(4) Motions pertaining to the hearing, except motions for summary judgment, must be filed and served at least five days prior to the date of the hearing unless there is good cause for permitting later action or the time for such action is lengthened or shortened by rule of the board or an order of the presiding officer.

33.17(5) Motions for summary judgment shall comply with Iowa Rule of Civil Procedure 1.981 and will be subject to disposition according to the requirements of that rule to the extent such requirements are not inconsistent with the provisions of this rule or any other provision of law governing the procedure in contested cases.

a. Motions for summary judgment must be filed and served at least 20 days prior to the scheduled hearing date, or other time period determined by the presiding officer. Any party resisting the motion shall file and serve a resistance within 10 days, unless otherwise ordered by the presiding officer, from the date a copy of the motion was served.

b. The time fixed for hearing or nonoral submission will be not less than 15 days after the filing of the motion, unless a shorter time is ordered by the presiding officer.

c. A summary judgment order rendered on all issues in a contested case is subject to rehearing pursuant to rule 641—33.32(17A,272C) and appeal pursuant to rule 641—33.30(17A,272C).

641—33.18(17A) Withdrawals. A party requesting a contested case proceeding may withdraw that request prior to the hearing upon written notice filed with the board and served on all parties. Unless otherwise ordered by the board, a withdrawal is with prejudice.

641—33.19(17A) Intervention.

33.19(1) Motion. A motion for leave to intervene in a contested case proceeding shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding. A proposed answer or petition in intervention shall be attached to the motion. Any party may file a response within 14 days of service of the motion to intervene unless the time period is extended or shortened by the presiding officer.

33.19(2) When filed. Unless otherwise ordered, a motion for leave to intervene shall be filed before the prehearing conference, if any, or at least 20 days before the date scheduled for hearing. Any later motion must contain a statement of good cause for the failure to file in a timely manner. Unless inequitable or unjust, an intervenor will be bound by any agreement, arrangement, or other matter previously raised in the case. Requests by untimely intervenors for continuances that would delay the proceeding will ordinarily be denied.

33.19(3) Grounds for intervention. The movant shall demonstrate that:

- a. Intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties;
- b. The movant is likely to be aggrieved or adversely affected by a final order in the proceeding; and
- c. The interests of the movant are not adequately represented by existing parties.

33.19(4) Effect of intervention. If appropriate, the presiding officer may order consolidation of the petitions and briefs of different parties whose interests are aligned with each other and limit the number of representatives allowed to participate actively in the proceedings. A person granted leave to intervene is a party to the proceeding. The order granting intervention may limit the issues raised by the intervenor or otherwise condition the intervenor's participation.

641—33.20(17A) Telephone proceedings. The presiding officer may, on the officer's own motion or as requested by a party, order hearings or argument to be held by telephone conference or other electronic means in which all parties have an opportunity to participate. The presiding officer will determine the location of the parties and witnesses for telephone or other electronic hearings. The convenience of the witnesses or parties, as well as the nature of the case, will be considered when location is chosen. Disciplinary hearings will generally not be held by telephone or electronic means in the absence of consent by all parties, but the presiding officer may permit any witness to testify by telephone. Parties shall disclose at or before the prehearing conference if any witness will be testifying by telephone. Objections, if any, shall be filed with the board and served on all parties at least three business days in advance of hearing.

641—33.21(17A) Prehearing conferences.

33.21(1) Any party may request a prehearing conference. Prehearing conferences will be conducted by the executive officer or designee, who may request the assistance of an administrative law judge. A written request for prehearing conference or an order for prehearing conference on the executive officer's own motion shall be filed not less than ten days prior to the hearing date. A prehearing conference will be scheduled not less than five business days prior to the hearing date. The executive officer shall set a prehearing conference in all licensee disciplinary cases and provide notice of the date and time in the notice of hearing. Written notice of the prehearing conference will be given by the executive officer to all parties. For good cause the executive officer may permit variances from this rule.

33.21(2) The parties at a prehearing conference will be prepared to discuss the following subjects, and the executive officer or administrative law judge may issue appropriate orders concerning:

- a. The possibility of settlement.
- b. The entry of a scheduling order to include deadlines for completion of discovery.

- c.* Stipulations of law or fact.
 - d.* Stipulations on the admissibility of evidence.
 - e.* Submission of expert or other witness lists. Witness lists may be amended subsequent to the prehearing conference within the time limits established by the executive officer or administrative law judge at the prehearing conference. Witnesses not listed on the final witness list may be excluded from testifying unless there was good cause for the failure to include their names.
 - f.* Submission of exhibit lists. Exhibit lists may be amended subsequent to the prehearing conference within the time limits established by the executive director or administrative law judge at the prehearing conference. Other than rebuttal exhibits, exhibits that are not listed on the final exhibit list may be excluded from admission into evidence unless there was good cause for the failure to include them.
 - g.* Stipulations for waiver of any provision of law.
 - h.* Identification of matters that the parties intend to request to be officially noticed.
 - i.* Consideration of any additional matters that will expedite the hearing.
- 33.21(3)** Prehearing conferences may be conducted by telephone unless otherwise ordered.

641—33.22(17A) Continuances.

33.22(1) Unless otherwise provided, applications for continuance shall be filed with the board at least seven days before the date scheduled for hearing. If the application for continuance is not contested, the executive officer or designee will issue the appropriate order. If the application for continuance is contested, the matter will be heard by the board or delegated to an administrative law judge.

33.22(2) A written application for continuance will:

- a.* Be made at the earliest possible time and no less than seven days before the hearing except in case of unanticipated emergencies;
- b.* State the specific reasons for the request for continuance; and
- c.* Be signed by the requesting party or the party's representative.

33.22(3) An oral application for continuance may be made if the presiding officer waives the requirement for a written motion. However, a party making such an oral application for a continuance must confirm that request by written application within five days after the oral request unless that requirement is waived by the presiding officer.

33.22(4) No application for continuance will be made or granted without notice to all parties except in an emergency where notice is not feasible. The board may waive notice of such requests for a particular case or an entire class of cases.

33.22(5) The presiding officer may require documentation of any grounds for continuance. In determining whether to grant a continuance, the presiding officer may consider any relevant factors, including prior continuances; the interests of all parties; the public interest; the likelihood of informal settlement; the existence of an emergency; any objection; any applicable time requirements; the existence of a conflict in the schedules of counsel, parties, or witnesses; and the timeliness of the request.

641—33.23(272C) Settlement agreements.

33.23(1) Settlement negotiations after the notice of hearing may be initiated by the licensee or other respondent, the prosecuting attorney, the board's executive officer, or the board chair or chair's designee.

33.23(2) The board chair or chair's designee may negotiate on behalf of the board but does not have the authority to bind the board to a particular term of settlement.

33.23(3) The respondent is not obligated to participate in settlement negotiations. The respondent's initiation or consent to settlement negotiations constitutes a waiver of notice and opportunity to be heard during the settlement negotiation pursuant to Iowa Code section 17A.17 and rule 641—33.27(17A). Thereafter, the prosecuting attorney is authorized to discuss informal settlement with the board chair or chair's designee, and the designated board member is not disqualified from participating in the adjudication of the contested case.

33.23(4) Unless designated to negotiate, no member of the board shall be involved in settlement negotiation until a written consent order is submitted to the full board for approval. No informal

settlement will be submitted to the full board unless it is in final written form executed by the respondent. By signing the proposed consent order, the respondent authorizes the prosecuting attorney or executive officer to have ex parte communications with the board related to the terms of the settlement. If the board fails to approve the consent order, it shall be of no force and effect to either party and shall not be admissible at hearing. Upon rejecting a proposed consent order, the board may suggest alternative terms of settlement, which the respondent is free to accept or reject.

33.23(5) If the board and respondent agree to a consent order, the consent order constitutes the final decision of the board. By electing to resolve a contested case through consent order, the respondent waives all rights to a hearing and attendant rights. A consent order in a licensee disciplinary case has the force and effect of a final disciplinary order entered in a contested case and may be published as provided in subrule 33.30(1).

641—33.24(17A) Hearing procedures. The presiding officer will be in control of the proceedings and will have the authority to administer oaths, admit or exclude testimony or other evidence, and rule on all motions and objections.

33.24(1) Examination of witnesses. All witnesses shall be sworn or affirmed by the presiding officer or the court reporter and be subject to cross-examination. Board members and the administrative law judge have the right to examine witnesses at any stage of a witness's testimony. The presiding officer may limit questioning in a manner consistent with law.

33.24(2) Public hearing. The hearing will be open to the public unless a licensee or licensee's attorney requests in writing that a licensee disciplinary hearing be closed to the public.

33.24(3) Record of proceedings. Oral proceedings will be recorded either by mechanical or electronic means or by certified shorthand reporters. Oral proceedings or any part thereof will be transcribed at the request of any party with the expense of the transcription charged to the requesting party. The recording or stenographic notes of oral proceedings or the transcription will be filed with and maintained by the board for at least five years from the date of decision.

33.24(4) Order of proceedings. Before testimony is presented, the record will show the identities of any board members present, the identity of the administrative law judge, the identities of the primary parties and their representatives, and the fact that all testimony is being recorded. In contested cases initiated by the board, such as licensee discipline, hearings will generally be conducted in the following order, subject to modification at the discretion of the board:

a. The presiding officer or designee may read a summary of the charges and answers thereto and other responsive pleadings filed by the respondent prior to the hearing.

b. The assistant attorney general representing the state's interest before the board may make a brief opening statement, which may include a summary of charges and the names of any witnesses and documents to support such charges.

c. Each respondent shall be offered the opportunity to make an opening statement, including the names of any witnesses the respondent(s) desires to call in defense. A respondent may elect to make the opening statement just prior to the presentation of evidence by the respondent(s).

d. The presentation of evidence on behalf of the state.

e. The presentation of evidence on behalf of the respondent(s).

f. Rebuttal evidence on behalf of the state, if any.

g. Rebuttal evidence on behalf of the respondent(s), if any.

h. Closing arguments first on behalf of the state, then on behalf of the respondent(s), and then on behalf of the state, if any. The order of proceedings will be tailored to the nature of the contested case. In license reinstatement hearings, for example, the respondent will generally present evidence first because the respondent is obligated to present evidence in support of the respondent's application for reinstatement pursuant to rule 641—33.40(17A,272C). In license denial hearings, the state will generally first establish the basis for the board's denial of licensure, but thereafter the applicant has the burden of establishing the conditions for licensure pursuant to rule 641—33.36(17A,105,272C).

33.24(5) Decorum. The presiding officer will maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly.

33.24(6) Immunity. The presiding officer has authority to grant immunity from disciplinary action to a witness, as provided by Iowa Code section 272C.6(3), but only upon the unanimous vote of all members of the board hearing the case. The official record of the hearing shall include the reasons for granting the immunity.

33.24(7) Sequestering witnesses. The presiding officer, on the officer's own motion or upon the request of a party, may sequester witnesses.

641—33.25(17A) Evidence.

33.25(1) The presiding officer will rule on the admissibility of evidence and may, where appropriate, take official notice of facts in accordance with all applicable requirements of law.

33.25(2) Stipulation of facts is encouraged.

33.25(3) Evidence in the proceeding will be confined to the issues as to which the parties received notice prior to the hearing unless a party waives the party's right to such notice or the presiding officer determines that good cause justifies expansion of the issues. If the presiding officer admits evidence on issues outside the scope of the notice over the objection of a party who did not have actual notice of those issues, that party, upon timely request, will receive a continuance sufficient to amend pleadings and to prepare on the additional issue.

33.25(4) The party seeking admission of an exhibit must provide the opposing party with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents shall be provided to opposing parties. All exhibits admitted into evidence will be appropriately marked and be made part of the record.

33.25(5) Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. Such an objection must be timely and will be accompanied by a brief statement of the grounds upon which it is based. The objection, the ruling on the objection, and the reasons for the ruling will be noted in the record. The presiding officer may rule on the objection at the time it is made or may reserve a ruling until the written decision.

33.25(6) Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record by briefly summarizing the testimony or, with permission of the presiding officer, presenting the testimony. If the excluded evidence consists of a document or exhibit, it will be marked as part of an offer of proof and inserted in the record.

33.25(7) Irrelevant, immaterial and unduly repetitious evidence should be excluded. A finding will be based upon the kind of evidence upon which reasonably prudent persons are accustomed to relying for the conduct of their serious affairs, and may be based on hearsay or other types of evidence that may or would be inadmissible in a jury trial.

641—33.26(17A) Default.

33.26(1) If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no adjournment is granted, enter a default decision or proceed with the hearing and render a decision in the absence of the party.

33.26(2) Where appropriate and not contrary to law, any party may move for default against a party who has failed to appear after proper service.

33.26(3) Default decisions or decisions rendered on the merits after a party has failed to appear or participate in a contested case proceeding become final board action unless, within 15 days after the date of notification or mailing of the decision, a motion to vacate is filed and served on all parties or an appeal of a decision on the merits is timely initiated within the time provided by subrule 33.30(2). A motion to vacate must state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate at the contested case proceeding. Each fact so stated must be substantiated by at least one sworn affidavit of a person with personal knowledge of each such fact, which affidavit(s) must be attached to the motion.

33.26(4) The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

33.26(5) Properly substantiated and timely filed motions to vacate will be granted only for good cause shown, with burden of proof as to good cause on the moving party. Adverse parties will have ten days to respond to a motion to vacate. Adverse parties will be allowed to conduct discovery as to the issue of good cause and to present evidence on the issue prior to a decision on the motion, if a request to do so is included in that party's response.

33.26(6) "Good cause" for purposes of this rule has the same meaning as "good cause" for setting aside a default judgment under the Iowa Rules of Civil Procedure.

33.26(7) A decision denying a motion to vacate is subject to further appeal within the time limit allowed for further appeal of a decision on the merits in the contested case proceeding. A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party pursuant to rule 641—33.29(17A).

33.26(8) If a motion to vacate is granted and no interlocutory appeal has been taken, the presiding officer will issue another statement of charges and notice of hearing and the contested case will proceed accordingly.

33.26(9) A default decision may provide either that the default is to be stayed pending a timely motion to vacate or that the default decision is to take effect immediately, subject to a request for stay under rule 641—33.33(17A).

641—33.27(17A) Ex parte communication.

33.27(1) Unless requested for the disposition of ex parte matters specifically authorized by statute, following issuance of the statement of charges and notice of hearing there shall be no communication, directly or indirectly, between the presiding officer and any party or representative of any party or any other person with a direct or indirect interest in such case in connection with any issue of fact or law in the case except upon notice and opportunity for all parties to participate. Nothing in this provision is intended to preclude board members from communicating with other board members or members of the board staff, other than those with a personal interest in, or those engaged in personally investigating as defined in subrule 33.11(2), prosecuting, or advocating in, either the case under consideration or a pending factually related case involving the same parties, as long as those persons do not directly or indirectly communicate to the presiding officer any ex parte communications they have received of a type that the presiding officer would be prohibited from receiving or that furnish, augment, diminish, or modify the evidence in the record.

33.27(2) Prohibitions on ex parte communications commence with the issuance of the statement of charges and notice of hearing in a contested case and continue for as long as the case is pending before the board.

33.27(3) Written, oral, or other forms of communication are "ex parte" if made without notice and opportunity for all parties to participate.

33.27(4) To avoid prohibited ex parte communications, notice must be given in a manner reasonably calculated to give all parties a fair opportunity to participate. Notice of written communications will be provided in compliance with rule 641—33.14(17A) and may be supplemented by telephone, facsimile, electronic mail, or other means of notification. When permitted, oral communications may be initiated through conference telephone call including all parties or their representatives.

33.27(5) Persons who jointly act as a presiding officer in a pending contested case may communicate with each other without notice or opportunity for parties to participate.

33.27(6) The executive officer or other persons may be present during deliberations as long as the executive officer or other person is not disqualified from participating pursuant to rule 641—33.11(17A).

33.27(7) Communications with the presiding officer involving uncontested scheduling or procedural matters do not require notice or opportunity for parties to participate. Parties should notify other parties prior to initiating such contact with the presiding officer when feasible, and shall notify other parties when seeking to continue hearings or other deadlines pursuant to rule 641—33.22(17A).

33.27(8) A presiding officer who receives a prohibited ex parte communication during the contested case process must initially determine if the effect of the communication is so prejudicial that the presiding officer should be disqualified.

a. If the presiding officer determines that disqualification is warranted, a copy of any prohibited written communication, all written responses to the communication, a written summary stating the substance of any prohibited oral or other communication not available in written form for disclosure, all responses made, and the identity of each person from whom the presiding officer received a prohibited ex parte communication shall be submitted for inclusion in the record under seal by protective order.

b. If the presiding officer determines that disqualification is not warranted, such documents will be submitted for inclusion in the record and served on all parties. Any party desiring to rebut the prohibited communication must be allowed the opportunity to do so upon written request filed within ten days after notice of the communication.

33.27(9) Promptly after being assigned to serve as presiding officer at any stage in a contested case proceeding, a presiding officer shall disclose to all parties material factual information received through ex parte communication prior to such assignment, unless the factual information has already been or shortly will be disclosed pursuant to Iowa Code section 17A.13(2) or through discovery. Factual information contained in an investigative report or similar document need not be separately disclosed by the presiding officer as long as such documents have been or will shortly be provided to the parties.

33.27(10) The presiding officer may render a proposed or final decision imposing appropriate sanctions for violations of this rule including default, a decision against the offending party, censure, or suspension or revocation of the privilege to practice before the board. Violation of ex parte communications prohibitions by board personnel will be reported to the board and the board's executive officer for possible sanctions, including censure, suspension, dismissal, or other disciplinary action.

641—33.28(17A) Recording costs. Upon request, the board will provide a copy of the whole or any portion of the record at cost. The cost of preparing a copy of the record or of transcribing the hearing record will be paid by the requesting party.

641—33.29(17A) Interlocutory appeals. Upon written request of a party or on its own motion, the board may review an interlocutory order of the executive officer, administrative law judge, or hearing panel. Any request for interlocutory review must be filed within 14 days of issuance of the challenged order, but no later than the time for compliance with the order or the date of the hearing, whichever is first. In determining whether to do so, the board will consider:

1. The extent to which granting the interlocutory appeal would expedite final resolution of the case; and
2. The extent to which review of that interlocutory order by the board at the time it reviews the proposed decision of the presiding officer would provide an adequate remedy.

641—33.30(17A,272C) Decisions.

33.30(1) Final decisions. When a quorum of the board presides over the reception of the evidence at the hearing, its decision is a final decision. A majority of the members constitutes a quorum. Final decisions will be served on the parties in accordance with subrule 33.14(2). Final decisions of the board, including consent agreements and consent orders, are public documents pursuant to Iowa Code chapter 22.

33.30(2) Proposed panel decisions.

a. Panel of specialists. When a panel of three specialists presides over the hearing, the panel will issue a proposed decision that will include findings of fact but will not include conclusions of law or any recommendation for or against the licensee discipline. A proposed decision of a panel of specialists, together with a transcript of the proceedings and the exhibits presented, will be reviewed by the board within 30 days of the date the proposed decision was issued.

b. Panel of board members. When a panel of three or more board members presides over the hearing, the panel will issue a proposed decision that will include proposed findings of fact, conclusions of law, and the order. A proposed panel decision will be reviewed by the board within 30 days of the date the proposed panel decision was issued. A proposed panel decision becomes a final decision without further proceedings unless appealed in accordance with paragraph 33.30(2) "c."

c. Appeal of proposed panel decisions. A proposed panel decision pursuant to paragraph 33.30(2)“a” or paragraph 33.30(2)“b” may be appealed to the full board by either party by serving on the executive officer, either in person or by certified mail, a notice of appeal within 30 days after service of the proposed decision on the appealing party. The notice of appeal shall specify the party initiating the appeal, the proposed decision or order appealed from, the specific findings or conclusions to which exception is taken and any other exceptions to the decision or order, the relief sought, and the grounds for relief.

(1) Following receipt of a notice of appeal, the board will enter an order establishing a schedule for submission of briefs and oral argument. The parties shall serve their briefs on the board and shall furnish an additional copy to each party by first-class mail. Briefs will cite any applicable legal authority and specify relevant portions of the record in that proceeding.

(2) Oral argument will be heard by the board unless waived by both parties. The time granted each party for oral argument will be established by the board.

(3) The record on appeal will be the entire record made before the hearing panel or administrative law judge.

d. Confidentiality. At no time prior to the release of the final decision by the board shall a proposed decision be made public or distributed to any person other than the parties.

e. Requests to present additional evidence. A party may request the taking of additional evidence after the issuance of a proposed decision only by establishing that:

- (1) The evidence is material; and
- (2) The evidence arose after the completion of the original hearing; or
- (3) Good cause exists for failure to present the evidence at the original hearing; and
- (4) The party has not waived the right to present additional evidence.

A written request to present additional evidence must be filed with the notice of appeal or by a nonappealing party within 14 days of service of the notice of appeal. The board may remand a case to the hearing panel for further hearing or may itself preside at the taking of additional evidence.

641—33.31(17A,272C) Client notification. Within 15 days (or such other time period specifically ordered by the board) of the licensee’s receipt of the board’s final decision, whether entered by consent or following hearing, which suspends or revokes a license or accepts a voluntary surrender of a license to resolve a disciplinary case, the licensee shall notify in writing all current clients of the fact that the license has been suspended, revoked or voluntarily surrendered. Such notice shall advise clients to obtain alternative professional services. Within 30 days of receipt of the board’s final order, the licensee shall file with the board copies of the notices sent. Compliance with this requirement is a condition for an application for reinstatement.

641—33.32(17A,272C) Application for rehearing.

33.32(1) Any party to a contested case proceeding may file an application for rehearing from a final order. The filing of an application for rehearing is not necessary to exhaust administrative remedies for purposes of judicial review.

33.32(2) The application for rehearing will state on whose behalf it is filed, the specific grounds for rehearing, the relief sought, whether the applicant desires reconsideration of all or part of the board decision on the existing record, and whether, on the basis of grounds enumerated in paragraph 33.30(2)“e” and rule 641—33.31(17A,272C), the applicant requests an opportunity to submit additional evidence.

33.32(3) The application shall be filed with the board within 20 days after issuance of the final decision.

33.32(4) A copy of the application shall be timely mailed by the applicant to all parties of record.

33.32(5) A request that additional evidence be considered on rehearing is governed by paragraph 33.30(2)“e.”

33.32(6) Any application for rehearing is deemed denied unless the board grants the application within 20 days after its filing.

33.32(7) Application for rehearing is the only procedure by which a party may request that the board reconsider a final board decision.

33.32(8) If the board grants an application for rehearing, the board may set the application for oral argument or for hearing if additional evidence will be received. If additional evidence will not be received, the board may issue a ruling without oral argument or hearing. The board may, on the request of a party or on its own motion, order or permit the parties to provide written argument on one or more designated issues. The board may be assisted by an administrative law judge in all proceedings related to an application for rehearing.

641—33.33(17A) Stays of board actions.

33.33(1) Any party to a contested case proceeding may petition the board for a stay of an order issued in that proceeding or for other temporary remedies, pending review by the board. The petition shall be filed with the notice of appeal and shall state the reasons justifying a stay or other temporary remedy. The board may rule on the stay or authorize the administrative law judge to do so. Any party to a contested case proceeding may petition the board for a stay or other temporary remedies, pending judicial review of all or part of that proceeding. The petition shall state the reasons justifying a stay or other temporary remedy.

33.33(2) In determining whether to grant a stay, the presiding officer or board will consider the factors listed in Iowa Code section 17A.19(5) “c.”

33.33(3) A stay may be vacated by the issuing authority upon application of the board or any other party.

641—33.34(17A) No factual dispute contested cases. If the parties agree that no dispute of material fact exists as to a matter that would be a contested case if such a dispute of fact existed, the parties may present all relevant admissible evidence either by stipulation or otherwise as agreed by the parties, without necessity for the production of evidence at an evidentiary hearing. If such agreement is reached, a jointly submitted schedule detailing the method and timetable for submission of the record, briefs and oral argument should be submitted to the presiding officer for approval as soon as practicable.

641—33.35(17A) Emergency adjudicative proceedings.

33.35(1) *Emergency action.* To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the board may issue a written order in compliance with Iowa Code section 17A.18A to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the board by emergency adjudicative order. Before issuing an emergency adjudicative order, the board will consider factors including, but not limited to, the following:

- a.* Whether there has been a sufficient factual investigation to ensure that the board is proceeding on the basis of reliable information;
- b.* Whether the specific circumstances which pose immediate danger to the public health, safety, or welfare have been identified and determined to be continuing;
- c.* Whether the person required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety, or welfare;
- d.* Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety, or welfare; and
- e.* Whether the specific action contemplated by the board is necessary to avoid the immediate danger.

33.35(2) *Issuance of order.*

a. An emergency adjudicative order shall contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger and the board’s decision to take immediate action. The order is an open record.

b. The written emergency adjudicative order will be immediately delivered to the person who is required to comply with the order, by utilizing one or more of the following procedures:

- (1) Personal delivery;
- (2) Certified mail, return receipt requested, to the last address on file with the board;
- (3) Certified mail to the last address on file with the board;
- (4) Facsimile, which may be used as the sole method of delivery if the person required to comply with the order has filed a written request that board orders be sent by facsimile and has provided a facsimile number for that purpose.

c. To the degree practicable, the board will select the procedure for providing written notice that best ensures prompt, reliable delivery.

33.35(3) Oral notice. Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order is issued, the board will make reasonable immediate efforts to contact by telephone the person who is required to comply with the order.

33.35(4) Completion of proceedings. After the issuance of an emergency adjudicative order, the board will proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

a. Issuance of a written emergency adjudicative order shall include notification of the date on which board proceedings are scheduled for hearing.

b. After issuance of an emergency adjudicative order, continuance of further board proceedings to a later date will be granted only in compelling circumstances upon written application unless the person required to comply with the order is the party requesting the continuance.

641—33.36(17A,105,272C) License denial. If the board denies an application for a license, the board or its staff shall send written notice to the applicant by regular first-class mail identifying the factual and legal basis for denying the application. If the board denies an application to renew an existing license, the provisions of rule 641—33.37(17A,105,272C) shall apply.

33.36(1) An applicant who is aggrieved by the denial of an application for licensure and who desires to contest the denial must request a hearing before the board within 30 calendar days of the date the notice of denial is mailed. A request for hearing must be in writing and is deemed made on the date of the United States Postal Service nonmetered postmark or the date of personal service to the board office. The request for hearing shall specify the factual or legal errors that the applicant contends were made by the board, must identify any factual disputes upon which the applicant desires an evidentiary hearing, and may provide additional written information or documents in support of licensure. If a request for hearing is timely made, the board shall promptly issue a notice of hearing on the grounds asserted by the applicant.

33.36(2) Subject to subrule 33.10(1), the board may act as presiding officer at the contested case hearing, may hold the hearing before a panel of three board members, or may request that an administrative law judge act as the presiding officer and render a proposed decision. A proposed decision by a panel of board members or an administrative law judge is subject to appeal or review by the board pursuant to subrule 33.30(2).

33.36(3) License denial hearings are contested cases open to the public. Evidence supporting the denial of the license may be presented by an assistant attorney general. While each party shall have the burden of establishing the affirmative of matters asserted, the applicant shall have the ultimate burden of persuasion as to the applicant's qualification for licensure.

33.36(4) The presiding officer, after a hearing on the license denial, may grant or deny the application for licensure. If denied, the presiding officer shall state the reasons for denial of the license and may state conditions under which the application for licensure might be granted, if applicable.

33.36(5) The notice of license denial, request for hearing, notice of hearing, record at hearing, and order are open records and available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be provided to the media, collateral organizations, and other persons or entities.

33.36(6) Judicial review of a final order of the board denying licensure may be sought in accordance with the provisions of Iowa Code section 17A.19 that are applicable to judicial review of any agency's final decision in a contested case.

641—33.37(17A,105,272C) Denial of application to renew license. If the board denies a timely and sufficient application to renew a license, a notice of hearing will be issued to commence a contested case proceeding.

33.37(1) Hearings on denial of an application to renew a license will be conducted according to the procedural rules applicable to contested cases. Evidence supporting the denial of the license may be presented by an assistant attorney general. The provisions of subrules 33.36(2) and 33.36(4) to 33.36(6) will generally apply, although license denial hearings that are in the nature of disciplinary actions will be subject to all laws and rules applicable to such hearings.

33.37(2) Pursuant to Iowa Code section 17A.18(2), an existing license does not terminate or expire if the licensee has made timely and sufficient application for renewal until the last day for seeking judicial review of the board's final order denying the application, or a later date fixed by order of the board or the reviewing court.

33.37(3) Within the meaning of Iowa Code section 17A.18(2), a timely and sufficient renewal application is:

- a.* Received by the board in paper or electronic form, or postmarked with a nonmetered United States Postal Service postmark on or before the date the license is set to expire or lapse;
- b.* Signed by the licensee if the application is submitted in paper form or certified as accurate if submitted electronically;
- c.* Fully completed; and
- d.* Accompanied with the required fee. The fee will be deemed unacceptable if the amount is incorrect, the fee was not included with the application, the credit card number provided by the applicant is incorrect, the date of expiration of a credit card is omitted or incorrect, the attempted credit card transaction is rejected, or the applicant's check is returned for insufficient funds.

33.37(4) The administrative processing of an application to renew an existing license will not prevent the board from subsequently commencing a contested case to challenge the licensee's qualifications for continued licensure if grounds exist to do so.

641—33.38(105,272C) Recovery of hearing fees and expenses. The board may assess the licensee certain fees and expenses relating to a disciplinary hearing only if the board finds that the licensee has violated a statute or rule enforced by the board. Payment shall be made directly to the board.

33.38(1) The board may assess the following costs under this rule:

- a.* For conducting a disciplinary hearing, an amount not to exceed \$75.
- b.* All applicable costs involved in the transcript of the hearing or other proceedings in the contested case including, but not limited to, the services of the court reporter at the hearing, transcription, duplication, and postage or delivery costs. In the event of an appeal to the full board from a proposed decision, the appealing party shall timely request and pay for the transcript necessary for use in the board appeal process. The board may assess the transcript cost against the licensee pursuant to Iowa Code section 272C.6(6) or against the requesting party pursuant to Iowa Code section 17A.12(7), as the board deems equitable under the circumstances.
- c.* All normally accepted witness expenses and fees for a hearing or the taking of depositions, as incurred by the state of Iowa. These costs include, but are not limited to, the cost of an expert witness and the cost involved in telephone testimony. The costs for lay witnesses are guided by Iowa Code section 622.69. The cost for expert witnesses is guided by Iowa Code section 622.72. Mileage costs are not guided by Iowa Code section 625.2. The provisions of Iowa Code section 622.74 regarding advance payment of witness fees and the consequences of failure to make such payment are applicable with regard to any witness who is subpoenaed by either party to testify at hearing. Additionally, the board may assess travel and lodging expenses for witnesses at a rate not to exceed the rate applicable to state employees on the date the expense is incurred.
- d.* All normally applicable costs incurred by the state of Iowa involved in depositions including, but not limited to, the service of the court reporter who records the deposition, transcription, duplication, and postage or delivery costs. When a deposition of an expert witness is taken, the deposition cost shall include a reasonable expert witness fee. The expert witness fee shall not exceed the expert's customary

hourly or daily rate, and shall include the time spent in travel to and from the deposition but exclude time spent in preparation for the deposition.

33.38(2) When imposed at the board's discretion, hearing fees (not exceeding \$75) will be assessed in the final disciplinary order. Costs and expenses assessed pursuant to this rule will be calculated and, when possible, entered into the final disciplinary order specifying the amount to be reimbursed and the time period in which the amount assessed must be paid by the licensee.

a. When it is impractical or not possible to include in the disciplinary order the exact amount of the assessment and time period in which to pay in a timely manner, or if the expenditures occur after the disciplinary order is issued, the board, by majority vote of the members present, may assess through separate order the amount to be reimbursed and the time period in which payment is to be made by the licensee.

b. If the assessment and the time period are not included in the disciplinary order, the board will have until the end of the sixth month after the date the state of Iowa paid the expenditures to assess the licensee for such expenditures. In order for the board to rely on this provision, however, the final disciplinary order must notify the licensee that fees and expenses will be assessed once known.

33.38(3) Any party may object to the fees, costs, or expenses assessed by the board by filing a written objection within 20 days of the issuance of the final disciplinary decision, or within 10 days of any subsequent order establishing the amount of the assessment. A party's failure to timely object is deemed a failure to exhaust administrative remedies. Orders imposing fees, costs, or expenses will notify the licensee of the time frame in which objections must be filed in order to exhaust administrative remedies.

33.38(4) Fees, costs, and expenses assessed by the board pursuant to this rule are allocated to the expenditure category in which the disciplinary procedure or hearing was incurred. The fees, costs, and expenses are considered repayment of receipts as defined in Iowa Code section 8.2.

33.38(5) The failure to comply with payment of the assessed costs, fees, and expenses within the time specified by the board constitutes a violation of an order of the board, is grounds for discipline, and is considered prima facie evidence of a violation of Iowa Code section 272C.3(2) "a." However, no action may be taken against the licensee without the opportunity for hearing as provided in this chapter.

641—33.39(17A) Judicial review. Judicial review of the board's decision may be sought in accordance with the terms of Iowa Code chapter 17A.

641—33.40(17A,272C) Reinstatement.

33.40(1) The term "reinstatement," as used in this rule, includes both the reinstatement of a suspended license and the issuance of a new license following the revocation or voluntary surrender of a license.

33.40(2) Any person whose license has been revoked or suspended by the board, or who voluntarily surrendered a license in a disciplinary proceeding, may apply to the board for reinstatement in accordance with the terms of the order of revocation or suspension, or order accepting the voluntary surrender, unless the order of revocation provides that the license is permanently revoked.

33.40(3) Unless otherwise provided by law, if the order of revocation or suspension did not establish terms and conditions upon which reinstatement might occur, or if the license was voluntarily surrendered, an initial application for reinstatement cannot be made until at least one year has elapsed from the date of the order or the date the board accepted the voluntary surrender of a license.

33.40(4) All proceedings for reinstatement will be initiated by the respondent, who will file with the board an application for reinstatement of the respondent's license. Such application will be docketed in the original case in which the license was revoked, suspended, or relinquished. All proceedings upon the application for reinstatement will be subject to the same rules of procedure as other cases before the board.

33.40(5) An application for reinstatement will allege facts which, if established, are sufficient to enable the board to determine that the basis of revocation, suspension or voluntary surrender of the respondent's license no longer exists and that it will be in the public interest for the license to be

reinstated. Compliance with rule 641—33.31(17A,272C) must also be established. The burden of proof to establish such facts is on the respondent.

33.40(6) An order of reinstatement will incorporate findings of fact and conclusions of law and be based upon the affirmative vote of no fewer than a majority of the board. This order will be published as provided for in subrule 33.30(1).

These rules are intended to implement Iowa Code chapters 17A, 105 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 34
“Plumbing and Mechanical Systems Board—Complaints and Investigations”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 105.4 and 272C.3

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kane Young
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.724.3216
Email: kane.young@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 34 and implements Iowa Code chapters 105 and 272C in accordance with the goals of Executive Order 10 (Jan. 10, 2023). The intended benefit of this chapter is to ensure that the public and licensees are aware of the complaint and investigation process and understand their rights and responsibilities during this process. It provides information regarding the processes for submitting a complaint; requires licensees to report malpractice, disciplinary actions, or regulatory infractions of other licensees; and describes the investigative process, including the issuance of investigatory subpoenas, peer review committees, and Plumbing and Mechanical Systems Board appearances.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the public. There is a cost to licensees in the form of licensing application and renewal fees (as described in other chapters), which in turn gives the Board the ability to hire staff that investigate cases. The licensee could also have costs related to responding to an investigatory subpoena or if the licensee retains counsel to represent the licensee during the investigative process.

Costs to the Department are the staff time needed to manage Board activities, including complaints and investigations. The time needed to manage this provision is generally in the form of written and verbal correspondence with licensees, complainants and other pertinent parties, issuing subpoenas, gathering records, conducting interviews as needed, and authoring investigative reports. There is 1 full-time equivalent (FTE) position assigned to investigate complaints, with support from executive

officers. Staff salaries to support the work of the Board are covered by the fees authorized by Iowa Code section 105.9.

- Classes of persons that will benefit from the proposed rulemaking:

The public and licensees benefit from the proposed rulemaking. The proposed rules ensure licensees have knowledge of the complaint and investigative process. This ensures licensees understand their responsibilities and rights surrounding complaints and investigations. The investigative process also benefits the Board because it permits the Board to gather needed information to determine if a violation of a Board rule did occur. In turn, the public is benefited as the investigatory process is the primary mechanism the boards have to ensure public safety and welfare.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Complaints are processed and investigated by Board staff. The boards ultimately determine whether a Board rule has been violated and whether discipline should be initiated against the licensee. While the licensee does not have a direct cost associated with complaints/investigations, the licensee may incur costs in responding to the investigative process. There are 11,629 licensed individuals and 2,035 licensed businesses. In 2022, the Board received 68 complaints that resulted in 97 investigations. The Board issued 66 disciplinary actions, including 59 for unlicensed work.

- Qualitative description of impact:

These rules are necessary to implement the overall program goals identified in Iowa Code chapter 105. The purpose of complaints and investigations is to address allegations against licensees, enable the Board to make informed decisions, and protect the public from unscrupulous practice. Eliminating complaints and investigations would allow acts detrimental to the public to go unchecked and would ultimately be harmful to the public. The process proposed by this rulemaking works to allow staff to obtain necessary information and for the Board to evaluate the extent to which a complaint does or does not violate Board rules. This process is fairly similar across the country for regulated professions.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency specific to this chapter are the staff time needed to manage Board activities, including complaints and investigations. The time needed to manage this provision is generally in the form of written and verbal correspondence with licensees, complainants and other pertinent parties, issuing subpoenas, gathering records, conducting interviews as needed, and authoring investigative reports. There is 1.0 FTE position assigned to investigate complaints, with support from executive officers. Staff salaries to support the work of the Board are covered by the fees authorized by Iowa Code section 105.9.

Costs to the agency in implementing Iowa Code chapter 105 as a whole include the support staff for processing licenses and continuing education units (CEUs), an investigator, and supervisor. It also includes IT/AMANDA support staff and other office costs, the database used to store licensee information and issue licenses, and indirect costs. This specifically includes 3.6 FTE positions at a cost of approximately \$322,254 in FY 2023. It includes a Computer Aid, Inc., vendor at \$50,000 in FY 2023. It includes expenses associated with licensing software and technology at a cost of approximately \$625,000 in FY 2023. Indirect costs in FY 2023 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as division administrator, legal, and fiscal support.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues. Notably, complaints and investigations could result in disciplinary action that may have an effect on state revenues (see 641—Chapter 32).

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the costs. The purpose of investigations and complaints are to address allegations against licensees, enabling the Board to make informed decisions regarding that licensee. Eliminating complaints and investigations would cause harm to the public allowing licensees' negative actions to go unchecked.

Furthermore, the proposed rules add very little cost beyond any costs incurred due to the substantive requirements of Iowa Code chapter 105. The cost of licensing is relatively small when compared to the benefit of having a properly trained and supervised workforce in this industry. When using properly licensed businesses and individuals, the public can have confidence that this important work is done safely and correctly. There are bonding and insurance requirements in cases where work is not done properly, the costs of which are statutorily required to be borne by the licensees. The bonding and insurance requirements protect the public from economic harm resulting from incomplete work and incentivizes licensees to complete work using ethical business practices.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board's investigative process is largely dictated by statute in Iowa Code chapter 272C. This rulemaking sets forth the mechanisms to implement Iowa Code chapter 272C as required. The majority of the time and costs to implement this rulemaking come from the resources to investigate and the Board's time to review and deliberate on the investigative findings. The Board does utilize cost-effective measures to reduce costs such as letter correspondence when available instead of conducting in-person interviews.

The realignment created by 2023 Iowa Acts, Senate File 514, brought over 20 boards together within DIAL, and DIAL is continuing to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards.

The Board's ultimate goal is ensuring public safety and welfare. The purpose of this rulemaking is to allow a method for the public to bring complaints against licensed professionals and allow the boards to investigate complaints. The Board needs the ability to investigate complaints, gather information and make informed decisions on whether a rule has been violated. Without this process, acts detrimental to the public will go unchecked and ultimately harm the public.

Statewide licensing is required by Iowa Code chapter 105 and broadly protects all of the citizens of Iowa and treats the entire industry with uniformity. The Board is statutorily required to adopt rules to implement Iowa Code chapter 105, and the rules proposed herein are believed to be the least restrictive implementation of Iowa Code chapter 105.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

See response to section 5.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

See response to section 5.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. While some licensees could be running a small business, some also work for large businesses. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business to comply with this rule.

The impact on small business is already believed to be at the lowest level available in order to implement and carry out the duties of the agency in Iowa Code chapter 105. One of the positions on the Board is specific to a contractor primarily working in rural Iowa, which is likely to be a small business. If a small business subject to this chapter identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 34 and adopt the following new chapter in lieu thereof:

CHAPTER 34

PLUMBING AND MECHANICAL SYSTEMS BOARD—COMPLAINTS AND INVESTIGATIONS

641—34.1(272C) Complaints.

34.1(1) Complaints can be submitted online, in writing, or verbally and should include the name and contact information of the complainant, the name of the licensee, and a concise statement of the allegations against the licensee. A complaint may also be initiated by the board.

34.1(2) A person is not civilly liable for filing a complaint in good faith with the board, or for cooperating with a board investigation per Iowa Code section 272C.8.

641—34.2(272C) Report of malpractice claims or actions or disciplinary actions. The licensee will submit any judgment or settlement in a malpractice claim or any disciplinary action taken by another licensing authority in another state or jurisdiction to the board within 30 days of the date of occurrence.

641—34.3(272C) Report of acts or omissions. A licensee having knowledge of rules violations committed by another licensee will file a report to the board. The report will include the name and contact information of the licensee and the date, time, and place of the incident.

641—34.4(272C) Investigation of complaints or reports. Board staff may request additional information, solicit a response from the licensee, subpoena records, conduct interviews, gather evidence, and perform other investigatory duties as necessary to inform the board.

641—34.5(17A,272C) Issuance of investigatory subpoenas.

34.5(1) The board executive officer or designee may, upon the written request of a board investigator or on the executive officer's own initiative, subpoena books, papers, records, and other real evidence which are necessary for the board to decide whether to initiate a contested case proceeding. In the case of a subpoena for mental health records, each of the following conditions shall be satisfied prior to the issuance of the subpoena:

- a. The nature of the complaint reasonably justifies the issuance of a subpoena;
- b. Adequate safeguards have been established to prevent unauthorized disclosure;

c. An express statutory mandate, articulated public policy, or other recognizable public interest favors access; and

d. An attempt was made to notify the patient and to secure an authorization from the patient for release of the records at issue.

34.5(2) Each subpoena will contain:

a. The name and address of the person to whom the subpoena is directed;

b. A description of the books, papers, records or other real evidence requested;

c. The date, time and location for production or inspection and copying;

d. The deadline for filing a motion to quash or modify the subpoena;

e. The signature, address and telephone number of the board executive officer or designee;

f. The date of issuance;

g. A return of service.

34.5(3) A person can challenge the subpoena by filing a motion to quash describing the legal justification for the motion within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days.

34.5(4) Upon receipt of a timely motion to quash or modify a subpoena, an administrative law judge will issue a decision. The administrative law judge may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.

34.5(5) A person who is aggrieved by a ruling of an administrative law judge and who desires to challenge that ruling must appeal the ruling to the board by serving the board executive officer, either in person, by email, or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

34.5(6) If the person contesting the subpoena is not the person under investigation, the board's decision is final for purposes of judicial review. If the person contesting the subpoena is the person under investigation, the board's decision is not final for purposes of judicial review until either (1) the person is notified the investigation has been concluded with no formal action, or (2) there is a final decision in the contested case.

641—34.6(272C) Peer review.

34.6(1) A complaint may be assigned to a peer reviewer for review and report to the board.

34.6(2) The board determines what complaints or other matters are referred to a peer reviewer.

34.6(3) Peer reviewers are not liable for acts, omissions, or decisions made in connection with service made in good faith.

34.6(4) The peer reviewer shall maintain confidentiality pursuant to Iowa Code section 272C.6.

641—34.7(17A) Appearance. The board may request that a licensee appear before a committee of the board to discuss a pending investigation. By electing to participate in the committee appearance, the licensee waives any objection to a board member both participating in the appearance and later participating as a decision maker in a contested case proceeding. By electing to participate in the committee appearance, the licensee further waives any objection to the board executive officer assisting the board in the contested case proceeding.

These rules are intended to implement Iowa Code chapters 17A, 105, and 272C.

Email: kane.young@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 35 and implements Iowa Code chapters 105 and 272C in accordance with the goals of Executive Order 10 (Jan. 10, 2023). This rulemaking establishes procedures for the Board to issue licenses by alternative methods. The rulemaking sets forth a checklist for applicants to follow when seeking a reciprocal license and the circumstances under which the Board may deny a reciprocal license. The rulemaking also sets forth a checklist for applicants to follow when seeking license by verification and explains how the Board will approach applications for applicants with prior discipline. The rulemaking sets forth a checklist for applicants to follow when seeking licensure via work experience upon an applicant’s relocation from another jurisdiction that did not require a license.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no known costs to the general public. There are costs to the industry related to licensees obtaining and maintaining their licenses. There are costs to the agency for staff to administer the program. This includes processing staff, an investigator, and a supervisor/board executive. There are also costs associated with the database that houses all of data related to licensure.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees benefit from this rulemaking because it provides an alternative path for those licensees that already have a license in another state. The licensees that qualify for license by verification, reciprocity or work experience are able to apply for an Iowa license without going through all of the steps of the

initial licensing process. This saves the licensee time and expense. The public benefits by having more licensed individuals and businesses in the workforce.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Department does not have an exact number of licensees that have been licensed by alternative methods versus the standard application process as the database does not differentiate between traditional licensing and alternative pathways. Licensees from other states do utilize this rule to apply for licensing when relocating to Iowa.

The costs for the individual licensees are those incurred in the course of obtaining and maintaining their licenses. The costs for contractor licensees are those incurred in the course of obtaining and maintaining proper bonding and insurance. The costs to licensees include the license fees, which are described in 641—Chapter 28. There are also costs associated with continuing education courses or apprenticeship programs. Those costs vary depending on the type and number of licenses an individual has to maintain. Estimated continuing education unit (CEU) costs are described in the analysis for 641—Chapter 30.

- Qualitative description of impact:

In order to regulate and license the professions as directed in statute, base standards for licensure are critical to protect public safety. This rulemaking allows for individuals with licenses in other states to apply for licensure in Iowa through a streamlined verification process, reciprocity or work experience. This process allows for quicker licensing and also allows more professionals available to the public to meet critical needs.

These rules are necessary to implement the overall program goals identified in Iowa Code chapter 105. The public is protected by having an appropriately qualified and trained workforce in the industry. There are multiple examples of unqualified and unlicensed individuals that have created hazardous situations due to improper installation or repair of plumbing and mechanical systems. If licensed companies have issues, there are licensing and bond requirements intended to also protect the public.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to process license applications. Costs to the agency in implementing Iowa Code chapter 105 overall include the support staff for processing licenses and CEUs, an investigator, and supervisor. It also includes IT/AMANDA support staff and other office costs, the database used to store licensee information and issue licenses, and indirect costs. This specifically includes 3.6 full-time equivalent (FTE) positions at a cost of approximately \$322,254 in FY 2023. It includes a Computer Aid, Inc., vendor at \$50,000 in FY 2023. It includes expenses associated with licensing software and technology at a cost of approximately \$625,000 in FY 2023. Indirect costs in FY 2023 were \$112,789. These indirect costs include overall agency expenses not specific to this program, such as division administrator, legal, and fiscal support.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues from this particular chapter.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because the costs are minimal, they are justified by the benefit of clarity to applicants looking to relocate to Iowa. This chapter does not impose any significant regulatory burdens. It merely clarifies the path applicants follow to obtain an Iowa license in the applicable trades under Iowa Code chapter 105. The Plumbing and Mechanical Systems Board does not incur many additional costs outside of the Department's general administrative cost to operate and applicants pay a fee to offset this.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to the requirements for licensure by verification as these rules already reflect a less restrictive method for applicants to complete the licensing process.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a less restrictive alternative to this rulemaking because these rules already reflect a less restrictive method for licensing. Iowa Code section 105.21 requires the Board to adopt the rules necessary to permit nonresident applicants to become licensed in Iowa where their home state has similar licensing requirements and the home state grants reciprocal rights to Iowans.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Iowa Code section 105.21 requires the Board to adopt the rules necessary to permit nonresident applicants to become licensed in Iowa where their home state has similar licensing requirements, and the home state grants the same reciprocal rights to Iowans. This rulemaking defines necessary terms and provides checklists for applicants to follow in line with the directive from the legislature. As the legislature has required that rules be written to implement this policy directive, there is no less restrictive alternative to accomplish the benefit.

Statewide licensing is required by Iowa Code chapter 105 and broadly protects all of the citizens of Iowa and treats the entire industry with uniformity. The Board is statutorily required to adopt rules to implement Iowa Code chapter 105, and the rules proposed herein are believed to be the least restrictive implementation of Iowa Code chapter 105.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The impact on small business is already believed to be at the lowest level available in order to implement and carry out the duties of the agency in Iowa Code chapter 105. One of the positions on the Board is specific to a contractor primarily working in rural Iowa, which is likely to be a small business. If a small business subject to this chapter identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 35 and adopt the following **new** chapter in lieu thereof:

CHAPTER 35
PLUMBING AND MECHANICAL SYSTEMS BOARD—ALTERNATIVE
LICENSURE PATHWAYS

641—35.1(105) Definitions. For purposes of this chapter, the following definitions apply:

“*Board*” means the same as defined in Iowa Code section 105.2(2).

“*Full time*” means a minimum of 1,700 hours of work in a one-year period.

“*Issuing jurisdiction*” means the same as defined in Iowa Code section 272C.12(5).

“*Transferring jurisdiction*” means the specific issuing jurisdiction on which an applicant relies to seek licensure in Iowa by verification under this chapter.

641—35.2(105) Reciprocity agreements. The board may enter into licensing reciprocity agreements with other states in accordance with Iowa Code section 105.21.

641—35.3(105) Licensure by reciprocity. A nonresident of Iowa seeking a reciprocal license under Iowa Code chapter 105 applies on forms provided by the board.

35.3(1) Reciprocity criteria. The board may issue a reciprocal license if the following criteria are met:

- a. The applicant is a nonresident of Iowa;
- b. The applicant possesses a valid plumbing, mechanical, HVAC-refrigeration, sheet metal, or hydronic license from an issuing jurisdiction with which the board has entered into a reciprocity agreement;
- c. The applicant has paid the appropriate fee or fees set forth in 641—Chapter 28;
- d. The applicant meets the minimum qualifications for licensure set forth in rule 641—29.4(105); and
- e. The applicant agrees to comply with all provisions of Iowa law and applicable administrative rules.

35.3(2) Denial of reciprocal license. The board may refuse to issue a reciprocal license to an applicant otherwise qualified based upon a suspension, revocation, or other disciplinary action taken against the applicant by a licensing authority in this or another jurisdiction. For purposes of this subrule, a “disciplinary action” includes the voluntary surrender of a license to resolve a pending disciplinary investigation or proceeding.

641—35.4(105) Licensure by verification. Licensure by verification is available under the following circumstances.

35.4(1) Eligibility. A person may seek licensure by verification if the criteria in Iowa Code section 272C.12(1) are satisfied.

35.4(2) Board application. The applicant submits all of the following:

- a. A completed application for licensure by verification.
- b. Payment of the appropriate fee or fees set forth in 641—Chapter 28.
- c. A verification form completed by the transferring jurisdiction and sent directly from the transferring jurisdiction to the board, verifying that the applicant’s license, certificate, or registration in that jurisdiction complies with the conditions set forth in Iowa Code section 272C.12.
- d. Proof of residency in the state of Iowa or proof of military member’s official permanent change of station. Proof of residency may include:
 - (1) A residential mortgage, lease, or rental agreement;
 - (2) A utility bill;
 - (3) A bank statement;
 - (4) A paycheck or pay stub;
 - (5) A property tax statement;

- (6) A document issued by the federal or state government; or
- (7) Any other board-approved document that reliably confirms Iowa residency.
 - e. Proof of passing the applicable Iowa licensing examination.
 - f. Documentation of the applicant's complete criminal record in accordance with 641—paragraph 29.5(4) "c," including the applicant's personal statement regarding whether each offense directly relates to the practice of the profession.
 - g. Copies of any relevant disciplinary documents, if another issuing jurisdiction has taken disciplinary action against the applicant.

35.4(3) *Applicants with prior discipline.* If another issuing jurisdiction has taken disciplinary action against an applicant or if the applicant has a complaint, allegation, or investigation relating to unprofessional conduct pending before any regulating entity in another jurisdiction, the board will proceed according to Iowa Code section 272C.12(1) "f" and "g." A person whose license was revoked, or a person who voluntarily surrendered a license, in another issuing jurisdiction is ineligible for licensure by verification.

35.4(4) *Temporary licenses.* Applicants who satisfy all conditions for a license by verification under this rule, except for passing the applicable Iowa licensing examination, may be issued a temporary license in accordance with Iowa Code section 272C.12(3) "c." If the temporary license expires, the applicant may not practice until he or she submits proof of passing the applicable Iowa licensing examination.

641—35.5(105) Licensure by work experience in jurisdictions without licensure requirements.

35.5(1) *Work experience.*

a. An applicant for initial licensure who has relocated to Iowa from another jurisdiction that did not require a license to practice the profession may be eligible for an Iowa license if the person meets the conditions set forth in Iowa Code section 272C.13 and all other licensing criteria, including passing any necessary examinations. For each application submitted under this rule, the board will determine whether the applicant's prior work experience was substantially similar to the applicable apprenticeship training that is required for individuals licensed under 641—Chapter 29.

b. If the board determines an applicant's prior work experience was not substantially similar to the scope of practice in Iowa, the applicant may submit a subsequent application for licensure by work experience if all of the following criteria are satisfied:

- (1) The applicant enrolls in an apprenticeship program approved by the United States Department of Labor;
- (2) The applicant obtains a board-issued apprentice license; and
- (3) The applicant successfully completes one year in the apprenticeship program.

35.5(2) *Necessary documentation.* An applicant seeking to substitute work experience in lieu of satisfying applicable education or training criteria bears the burden of providing all of the following by submitting relevant documents as part of a completed license application:

- a. Proof of Iowa residency, which may include:
 - (1) A residential mortgage, lease, or rental agreement;
 - (2) A utility bill;
 - (3) A bank statement;
 - (4) A paycheck or pay stub;
 - (5) A property tax statement;
 - (6) A document issued by the federal or state government; or
 - (7) Any other board-approved document that reliably confirms Iowa residency.
- b. Proof of three or more years of full-time work experience within the four years preceding the application for Iowa licensure, which demonstrates that the work experience was substantially similar to an applicable apprenticeship program approved by the United States Department of Labor. Proof of work experience may include, but is not limited to:
 - (1) A letter from the applicant's prior employer or employers documenting the applicant's dates of employment and scope of practice;
 - (2) A paycheck or pay stub; or

(3) If the applicant was self-employed, business documents filed with the secretary of state or other applicable business registry or regulatory agency in the other jurisdiction.

c. Proof that the applicant's work experience involved a substantially similar scope of practice to the practice in Iowa, which includes:

(1) A written statement by the applicant detailing the scope of practice and stating how the work experience correlates to an applicable apprenticeship program approved by the United States Department of Labor; and

(2) Business or marketing materials detailing the services provided.

d. Proof that the other jurisdiction did not require a license to practice the profession, which may include:

(1) Copies of applicable laws;

(2) Materials from a website operated by a governmental entity in that jurisdiction; or

(3) Materials from a nationally recognized professional association applicable to the profession.

These rules are intended to implement Iowa Code sections 105.21 and 272C.12.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 46
“Minimum Requirements for Tanning Facilities”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 136D.7
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 136D; 2023 Iowa Acts,
Senate File 514; and Executive Order 10 (Jan. 10, 2023)

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:40 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Ashleigh Hackel
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.250.3746
Email: ashleigh.hackel@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of Chapter 46. This rulemaking implements Iowa Code section 136D.7 in accordance with the goals and directives of Executive Order 10 (Jan. 10, 2023). Iowa Code section 136D.7 requires the Department to adopt rules for the implementation and enforcement of Iowa Code chapter 136D, “including but not limited to rules relating to the operation and use of tanning devices, rules regarding the warning signs required to be posted by a tanning facility, and rules prescribing the criteria for revocation, cancellation, or suspension of a tanning facility permit.” It also requires the Department to establish and collect fees to defray the costs of administering the program established in Iowa Code chapter 136D.

The proposed rules set forth the purpose and scope of 641—Chapter 46, including the types of businesses that constitute tanning facilities, establish definitions, clarify the types of devices that are exempt from regulation as tanning devices, establish permits and fees, establish minimum requirements for the construction and operation of tanning facilities, and provide the Department’s authority to conduct inspection and set forth procedures when noncompliance is identified.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Costs associated with this chapter are incurred by tanning facilities in the course of obtaining a license and operating in compliance with 641—Chapter 46, and the Department in administering the chapter.
 - Classes of persons that will benefit from the proposed rulemaking:

Consumers who utilize tanning facilities benefit from these rules. These rules also benefit the tanning facility license holders in that they provide clear, simple, and effective health and safety guidelines for operations.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Beyond any required maintenance of the equipment, the costs to licensees of tanning facilities appear to be minimal and include providing education to operators and consumers, printing appropriate signage for the facility, and fees to support operation of the program.

The fees for those who acquire or establish a tanning facility include an application fee (\$5) and a renewal fee (\$5). Costs may be incurred for failure to pay annual permit fees (\$25/month) and for checks returned for insufficient funds (\$15). Costs are incurred for inspections (\$33 per tanning device, up to a maximum of \$330 per facility). Costs may also be incurred for failure to pay inspection costs or failure to respond to or correct violations (\$25).

Neighboring states that appear to have similar regulatory structures have similar or increased fee requirements. Wisconsin, for example, charges a \$10 annual and renewal fee and a late fee of \$35 per month. Illinois charges a \$250 initial fee and a \$250 renewal fee. Minnesota charges an annual fee of \$98 for a license, \$178 for a plan review, and \$41 for a change of ownership.

- Qualitative description of impact:

The Legislature directed the Department to establish and collect all fees necessary to administer Iowa Code chapter 136D and to promulgate rules relating to the operation and use of tanning devices and warning signs required to be posted by a tanning facility. The proposed rules establish minimum safety, sanitation, and warning criteria for the operation of tanning establishments to provide for the health and safety of the consumer. The signage requirements are clear and concise for consumers, easily implemented by the operators, and appear to be in line with national standards. Training required of operators will be able to be performed by an owner/manager of a tanning facility, and only the owner/manager is required to complete a certification.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency for implementation of the proposed rules include the costs of personnel utilized to process permits or conduct inspections, or to contract for any such work. A small portion of a currently vacant full-time equivalent (FTE) position will provide administrative support for this program. There is also a cost for the database that houses all of the information needed for tanning facility information.

- Anticipated effect on state revenues:

There are 348 active tanning facility permits. In FY 2022, tanning facility permits generated \$10,055 in revenue.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

As the Department is required by Iowa Code section 136D.7 to promulgate rules for tanning facility regulation, inaction is not possible. However, as set forth more fully in response to section 5 below, the Department believes the proposed rules are the most effective and economically efficient implementation of Iowa Code chapter 136D.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

In analyzing other states' regulatory schemes related to tanning, the Department identified that there appears to be significant variation among regulatory structures related to tanning in surrounding states. The state of Nebraska, for example, has no program to license tanning facilities, although it has several substantive requirements related to tanning facilities. Although such a regulatory structure would be

a less costly or intrusive option, Iowa Code chapter 136D precludes this type of structure in Iowa. Accordingly, the Department has maintained its current regulatory structure, but has thoroughly reviewed the substantive requirements so as to promulgate standards in what the Department believes is the most effective and economically efficient manner for the licensee. The signage requirements are clear and concise for consumers, easily implemented by the operators, and appear to be in line with national standards. Training required of operators is able to be performed by an owner/manager of a tanning facility such that only the owner/manager is required to complete a certification.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
See response to section 5 above.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
See response to section 5 above.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

As set forth above, the proposed rules are believed to be the less costly or less intrusive methods to achieve the purpose of this rulemaking and implement the Department's statutory duties. If a licensee subject to this chapter is a small business and has identified a rule that is overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 46 and adopt the following **new** chapter in lieu thereof:

CHAPTER 46
MINIMUM REQUIREMENTS FOR TANNING FACILITIES

641—46.1(136D) Purpose and scope. This chapter provides for the permitting and regulation of tanning facilities and devices used for the purpose of tanning human skin through the application of ultraviolet radiation. This includes, but is not limited to, public and private businesses, hotels, motels, apartments, condominiums, and health and country clubs. Tanning facilities that follow these rules are not relieved from the requirements of any other federal and state regulations or local ordinances.

641—46.2(136D) Definitions. The definitions set forth in Iowa Code section 136D.2 are incorporated herein by reference.

“*Board of health*” means a county, city, or district board of health that has a 28E agreement with the department to perform inspections under this chapter.

“*Cleansing*” means to remove soil, dirt, oils or other residues from the surface of the tanning unit which may come into contact with the skin.

“*Cleansing agent*” means a substance capable of producing the effect of “cleansing.” These agents shall not adversely affect the equipment or the health of the consumer and be acceptable to the department or board of health.

“*Consumer*” means any member of the public who is provided access to a tanning facility in exchange for a fee or other compensation, or any individual who, in exchange for a fee or other compensation, is afforded use of a tanning facility as a condition or benefit of membership or access.

“*Exposure position*” means any position, distance, orientation, or location relative to the radiation surfaces of a tanning device at which the user is intended to be exposed to ultraviolet radiation from the product, as recommended by the manufacturer.

“*Formal training*” means a course of instruction approved by the department for operators of tanning facilities.

“*Health care professional*” means an individual, licensed by the state of Iowa, who has received formal medical training in the use of phototherapy.

“*Inspection*” means an official examination or observation to determine compliance with statutes, rules, orders, or other applicable conditions.

“*Manufacturer’s recommendations*” means written guidelines established by a manufacturer and approved by the U.S. Food and Drug Administration for the installation and operation of the manufacturer’s equipment.

“*Operator*” means an individual designated to control operation of the tanning facility and to instruct and assist the consumer in the proper operation of the tanning devices.

“*Permit*” or “*permit to operate*” means a document issued by the department which authorizes a person to operate a tanning facility in Iowa.

“*Person*” means any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, agency, political subdivision of this state, any other state, or political subdivision or agency thereof, and any legal successor, representative, agent, or agency of the foregoing, but does not include federal government agencies.

“*Ultraviolet radiation*” means electromagnetic radiation with wavelengths in air between 200 and 400 nanometers.

641—46.3(136D) Exemptions. The department may, upon application or its own initiative, grant exemptions from these rules as long as it will not result in undue hazard to public health and safety. The following categories of devices are exempt from the provisions of this chapter:

46.3(1) Devices intended for purposes other than the deliberate exposure of human skin to ultraviolet radiation which produce or emit ultraviolet radiation incidental to their proper operation.

46.3(2) Tanning devices which are limited exclusively to personal use by an individual and the individual’s immediate family. Multiple ownership of the device by persons for personal use only does not qualify it for the “personal use only” exemption.

46.3(3) Phototherapy devices used by a properly trained health care professional in the treatment of disease.

641—46.4(136D) Permits and fees.

46.4(1) *Permit to operate.* No tanning facility may operate without a permit issued by the department.

46.4(2) *Application requirements for permit.* Prior to operating a tanning facility, an individual shall:
a. Apply for a permit on forms provided by the department or board of health, along with a nonrefundable application fee of \$5. A \$15 returned check fee will be charged for each check returned for insufficient funds.

b. Notify the department in writing within 30 days of any changes, additions, or deletions to the initial or renewal application as appropriate. This does not include changes involving replacement of components in tanning equipment.

46.4(3) Expiration of permit. Except as provided in 46.4(4) “*b*,” each permit expires at the end of the specified day stated therein.

46.4(4) Renewal of permit.

a. Permits will be renewed annually upon the department’s receipt of a completed renewal application and the \$5 fee.

b. If the completed renewal is submitted prior to expiration of the existing permit, the existing permit does not expire until the application has been finally determined by the department.

c. In addition to any annual fee not paid, tanning facilities incur a \$25 per month fee for failure to pay annual permit fees starting the month of expiration of the facility’s permit.

46.4(5) Transfer or termination of permit. Permits are nontransferable and must be returned to the department or board of health upon cessation of operation or change of ownership.

46.4(6) Denial, revocation, or termination of permit.

a. The department may deny, suspend, or revoke a permit for any of the following reasons:

(1) Submission of false information to the department, including in a permit application;

(2) Operation of the tanning facility in a manner that causes or threatens hazard to the public health or safety;

(3) Failure to allow authorized representatives of the department or board of health to enter the tanning facility at reasonable times for the purpose of determining compliance with the provisions of this chapter, conditions of the permit, or an order of the department or board of health;

(4) Failure to pay fees in accordance with rule 641—46.4(136D); and

(5) Violation of any of the provisions of this chapter or Iowa Code chapter 136D.

b. Except in cases where public health and safety require otherwise, prior to the institution of proceedings for suspension or revocation of a permit, the department or board of health will notify the permit holder, in writing, of the facts or conduct warranting such action and provide an opportunity for the permit holder to demonstrate or achieve compliance.

c. Any person aggrieved by a decision by the department to deny, suspend, or revoke a permit may request a contested case hearing pursuant to 481—Chapter 9.

d. After suspension or revocation, a permit may be reinstated upon payment of a \$50 fee and completion of all other requirements. This fee is in addition to any other applicable fee.

46.4(7) Inspections.

a. Inspections will be conducted annually at the cost of the permit holder. The cost of an inspection is \$33 per tanning device, up to \$330 per facility maximum. Inspection costs are due upon receipt of notice by the facility. Facilities located within a contracted area of a board of health will be paid to the contracted board of health or its designee. Inspection costs not received within 45 days of the date of billing will be assessed a \$25 per month penalty for each month or fraction thereof that payment is delinquent.

b. A penalty fee of \$25 per facility may be assessed for:

(1) Failure to respond to a notice of violation within 30 days of the date of the inspection.

(2) Failure to correct violations cited during the inspection.

c. Inspections include, but are not limited to, reviewing proper operation and maintenance of devices, necessary records and training documentation, and operator understanding and competency.

641—46.5(136D) Construction and operation of tanning facilities. The following are minimum standards for the construction, operation, and maintenance of tanning facilities:

46.5(1) Warning signs. A tanning facility shall provide and post warning signs and statements as follows:

a. The warning sign must use minimum 0.5-inch (12.7-millimeter) letters for the statement “DANGER, ULTRAVIOLET RADIATION” and 0.25-inch (6.4-millimeter) letters for other lettering;

use red lettering against a white background; be at least 9.0 inches by 12.0 inches (22.9 centimeters × 30.5 centimeters); and have the following wording:

DANGER

ULTRAVIOLET RADIATION

— Overexposure can cause

- Eye and skin injury
- Allergic reaction

— Repeated exposure may cause

- Premature aging of the skin
- Skin cancer

— Failure to wear protective eyewear may result in

- Severe burns to eyes
- Long-term injury to eyes

— Medication or cosmetics may increase your sensitivity

b. A warning sign as set forth in 46.5(1) “a” will be posted in a conspicuous location readily visible to consumers entering the facility and in a conspicuous location within one meter of the tanning device readily visible to a person preparing to use the device.

c. A tanning facility shall require each consumer to read the information in Appendices 1, 2, and 3 prior to the consumer’s initial exposure and annually thereafter. The consumer must sign a statement that the information has been read and understood. The information in Appendices 1, 2, and 3 must also be posted in each tanning room.

46.5(2) Federal certification. Only tanning devices manufactured and certified under the provisions of 21 CFR section 1040.20 may be used in tanning facilities. Compliance is based on the standard in effect at the time of manufacture as shown on the device identification label required by 21 CFR sections 1010.2 and 1010.3. Labeling shall be in accordance with 21 CFR section 1040.20(d).

46.5(3) Tanning device timers. Each tanning device shall have a timer that complies with 21 CFR section 1040.20(c). Each tanning device must have a method of remote timing so consumers cannot control their own exposure time. Tokens for token timers shall not be issued to any consumer in quantities greater than the device manufacturer’s maximum recommended exposure time for the consumer.

46.5(4) Temperature limits. The operator shall ensure that the facility’s interior temperature does not exceed 100 degrees F or 38 degrees C.

46.5(5) Condition of tanning devices. The tanning devices shall be maintained in good repair and comply with all state and local electrical code requirements, and include physical barriers to protect consumers from injury induced by falling against or breaking the lamps.

46.5(6) Stand-up booths. Additionally, stand-up booths shall be constructed:

a. Utilizing physical barriers (e.g., handrails) or other means (floor markings) to indicate the proper exposure distance between ultraviolet lamps and the consumer’s skin.

b. To withstand the stress of use and the impact of a falling person.

c. Utilizing rigid construction, with doors that open outwardly, and with handrails and nonslip floors.

46.5(7) Protective eyewear.

a. Eyewear shall not be reused by another consumer.

b. Protective eyewear shall meet the criteria of 21 CFR section 1040.20(c)(4).

c. Protective eyewear shall not be altered in any manner that would change its use as intended by the manufacturer (e.g., removal of straps).

d. A tanning facility operator shall verify that a consumer has protective eyewear in accordance with this subrule and not allow a consumer to use a tanning device if that consumer does not use the protective eyewear. The operator should:

(1) Ask to see the eyewear before the consumer enters the tanning room; or

(2) Provide disposable eyewear in the tanning room at all times and post a sign stating that the disposable eyewear is available and has to be worn.

e. A tanning facility operator shall instruct the consumer in the proper utilization of the protective eyewear.

46.5(8) Operation.

a. A trained operator must be present when a tanning device is operated and within hearing distance to allow the consumer to easily summon help if necessary. If the operator is not in the immediate vicinity during use, the consumer must be able to summon help through use of an audible device such as an intercom or buzzer and the operator or emergency personnel must be able to reach the consumer within a reasonable amount of time after being summoned.

b. The facility's permit will be displayed pursuant to Iowa Code section 136D.6.

c. A record of each consumer's total number of tanning visits and tanning times, exposure lengths in minutes, times and dates of the exposure, and any injuries or illness resulting from the use of a tanning device must be maintained.

d. Any tanning injury not requiring a physician's care and any resulting changes in tanning sessions shall be noted in the consumer's file. A written report of any tanning injury requiring a physician's care shall be provided to the department within five working days of its occurrence or operator's notice thereof. The report will include:

- (1) The name of the affected individual;
- (2) The name and location of the tanning facility involved;
- (3) The nature of the injury;
- (4) The name and address of the health care provider treating the affected individual, if any; and
- (5) Any other information considered relevant to the situation.

e. Defective or burned-out lamps or filters shall be replaced with a type intended for use in that device as specified on the product label on the tanning device or with lamps or filters that are "equivalent" under 21 CFR section 1040.20, and policies applicable at the time of lamp manufacture.

f. Ultraviolet lamps and bulbs that are not otherwise defective or damaged will be replaced at such frequency or after such duration of use as is recommended by the manufacturer.

g. Contact surfaces of tanning devices shall be:

- (1) Cleansed by the operator with a cleansing agent between each use;
- (2) Covered by a nonreusable protective material during each use; or
- (3) Cleansed by the consumer after use, provided the following conditions are met:
 1. The operator instructs the consumer annually on how to properly cleanse the unit;
 2. The consumer annually signs a statement that the consumer agrees to cleanse the unit after each use;
 3. Signs are posted in each tanning room reminding the consumer to cleanse the tanning unit after each use and instructing the proper way to cleanse the unit; and
 4. The operator cleanses the tanning unit at least once a day.

h. Records or documentation required by this chapter must be maintained in the tanning facility for a minimum of two years.. If maintained electronically, such records must be retrievable as a printed copy.

i. The operator shall limit a consumer's exposure to the maximum exposure frequency and session duration recommended by the manufacturer.

j. When a tanning device is being used, no other person can be allowed in the tanning device area.

k. "Unlimited" tanning packages cannot be advertised or promoted unless tanning frequency limits set by the manufacturer are included therein.

46.5(9) Training of operators.

a. All operators must satisfactorily complete a training program approved by the department prior to operating a tanning device that includes:

- (1) Education on this chapter;
- (2) Procedures for correct operation of the tanning facility and tanning devices;
- (3) The determination of skin type of consumers and appropriate duration of exposure to tanning devices;
- (4) Recognition of reaction or overexposure;

- (5) Manufacturer's procedures for operation and maintenance of tanning devices; and
- (6) Competency testing.

b. Owners and managers must complete formal training approved by the department. All owners and managers must satisfactorily pass a certification examination approved by the department before operating a tanning facility or training employees.

c. Owners and managers are responsible to train operators in the above topics and to provide review as necessary. Operators will be questioned during inspections as to the level of their understanding and competency in operating the tanning device.

d. Proof of training for owner/managers and employees must be maintained in the tanning facility and available for inspection. The employee record should be the original test signed by the employee, the date, and a statement signifying that all answers have been completed by the employee and without prior knowledge of the scoring key.

e. Operators shall be at least 16 years of age.

f. Training and testing will be completed every five years.

46.5(10) *Promotional materials.* A tanning facility shall not claim, or distribute materials claiming, that tanning devices are safe, free from risk, or that use of the device will result in medical or health benefits. The only claim that may be made is that the device is for cosmetic use only.

46.5(11) *Electronically controlled facilities.* Electronically controlled facilities are facilities that rely on electronic means to monitor consumers.

a. Entry into the facility is allowed by card only. Only one individual may enter under each card. The card is specifically activated for tanning use if the facility offers other activities and tanning will not activate if the card is not programmed for tanning. The card will not activate if two individuals are in the tanning room.

b. Police and all emergency services will have access to the facility through a key box located outside the entrance of the facility.

c. The consumer must sign a tanning agreement stating the number of minutes per session, that the consumer agrees to wear protective eyewear, that the consumer will cleanse the unit after tanning, and that the consumer is aware of the emergency access in each room.

d. The card will be programmed for the number of minutes the consumer is allowed to tan and may be reprogrammed for an increase in minutes per session only after the consumer has reviewed and re-signed the tanning agreement. The card will be deactivated after 30 consecutive days without consumer access such that the consumer will then reapply to access the tanning unit.

e. The operator will demonstrate to each consumer how to properly cleanse the unit after tanning, including the top, bottom, and handles. A sign will be placed in each room explaining the cleansing process. The operator will cleanse the units at least once per day when they are in use.

f. Free disposable eyewear will be placed in each room along with a sign stating that the disposable eyewear is available and must be worn.

g. An emergency call button or device that calls the operator or emergency personnel will be placed in each tanning room conveniently located within reach of the tanning bed.

h. During annual inspections, the inspector may ask any consumer about any of the above processes.

641—46.6(136D) Inspections, violations and injunctions.

46.6(1) *Access.* The director or an authorized agent has access to any tanning facility as authorized by Iowa Code section 136D.8.

46.6(2) *Civil penalty and enforcement.* The department may take legal action as provided in Iowa Code sections 136D.8(3) and 136D.9.

a. The department will take the following steps or use county ordinances or any other applicable ordinances, resolutions, rules or regulations when enforcement of these rules is necessary.

- (1) Cite each section of the Iowa Code or rules violated and any civil penalty imposed.
- (2) Specify the manner in which the owner or operator failed to comply.
- (3) Specify the steps required for correcting the violation.

- (4) Request a corrective action plan, including a time schedule for completion of the plan.
- (5) Set a reasonable time limit, not to exceed 30 days from the receipt of the notice, within which the permit holder must respond with the corrective action plan and, if applicable, any reasons why the civil penalty should not be imposed or to request a contested case hearing pursuant to 481—Chapter 9.
 - b.* The department will review the corrective action plan and approve it or require that it be modified.

These rules are intended to implement Iowa Code chapter 136D.

Appendix 1 POTENTIAL PHOTSENSITIZING AGENTS

1. Not all individuals who use or take these agents will experience a photosensitive reaction or the same degree of photosensitive reaction. An individual who experiences a reaction on one occasion will not necessarily experience it again or every time.
2. Names of agents should be considered only as examples. They do not represent all the names under which a product may be sold. A more complete list is available from the facility operator.
3. If you are using an agent in any of these classes, you should reduce UV exposure even if your particular medication is not listed.

Acne treatment (Retinoic acid, Retin-A) Psoralens (5-Methoxypsoralen, 8-Methoxypsoralen, 4,5,8-trimethyl-psoralen)

Antibacterials (deodorant bar soaps, antiseptics, cosmetics, halogenated carbanilides, halogenated phenols, halogenated salicylanilides, bithionol, chlorhexidine, hexachlorophene)

Antibiotics, anti-infectives (Tetracyclines)

Anticonvulsants (carbamazepine, trimethadione, promethazine)

Antidepressants (amitriptyline, Desipramine, Imipramine, Nortriptyline, Protriptyline), Tranquilizers, anti-emetics (Phenothiazines)

Antidiabetics (glucose-lowering agents) (sulfonyleureas, oral antidiabetics, hypoglycemics)

Antihistamines (diphenhydramine, promethazine, triprolidine, chlorpheniramine)

Anti-inflammatory (Piroxicam), Non-steroidal anti-inflammatory drugs (Ibuprofen, Naproxen, Piroxicam)

Antimicrobials (griseofulvin), Sulfonamides (“Sulfa drugs,” antimicrobials, anti-infectives)

Atropine-like drugs (anticholinergics, antiparkinsonism drugs, antispasmodics, synthetic muscle relaxants)

Coal tar and derivatives (Denorex, Tegrin, petroleum products used for psoriasis and chronic eczema and in shampoos)

Contraceptives, oral and estrogens (birth control pills, estrogens, progesterones)

Dyes (used in cosmetic ingredients, acridine, anthracene, eosin (lipstick), erythrosine, fluorescein, methyl violet, methylene blue, rose bengal)

Perfumes and toilet articles (musk ambrette, oil of bergamot, oil of cedar, oil of citron, oil of lavender, oil of lemon, oil of lime, oil of rosemary, oil of sandalwood)

Thiazide diuretics (“water pills”)

Appendix 2 SUN-REACTIVE SKIN TYPES USED IN CLINICAL PRACTICE

| SKIN TYPE | SKIN REACTIONS TO SOLAR RADIATION ^(a) EXAMPLES | EXAMPLES |
|-----------|--|--|
| I | Always burns easily and severely (painful burn). Tans little or none and peels. | People most often with fair skin, blue eyes, freckles. Unexposed skin is white. |
| II | Usually burns easily and severely (painful burn). Tans minimally or lightly, also peels. | People most often with fair skin; red or blonde hair; blue, hazel or even brown eyes. Unexposed skin is white. |
| III | Burns moderately and tans about average. | Normal average Caucasoid. Unexposed skin is white. |
| IV | Burns minimally, tans easily, and above average with each exposure. Exhibits IPD (immediate pigment darkening) reaction. | People with white or light brown skin, dark skin, dark brown hair, dark eyes. Unexposed skin is brown. |
| V | Rarely burns, tans easily and substantially. Always exhibits IPD reaction. | Unexposed skin is brown. |
| VI | Never burns and tans profusely; exhibits IPD reaction. | Unexposed skin is black. |

(a) Based in the first 45-60 minutes (= 2-3 minimum erythema dose) exposure of the summer sun (early June) at sea level

Appendix 3 POTENTIAL NEGATIVE HEALTH EFFECTS RELATED TO ULTRAVIOLET EXPOSURE

1. Increased risk of skin cancer later in life.
2. Increased risk of skin thickening, age spots, irregular pigmentation, and premature aging.
3. Possibility of burning or rash, especially if using any of the potential photosensitizing drugs and agents. The consumer should consult a physician before using a tanning device if using medications, if there is a history of skin problems or if the consumer is especially sensitive to sunlight.
4. Increased risk of eye damage unless proper eyewear is worn. Iowa law requires the use of proper eyewear during tanning sessions.

TANNING SYSTEMS

1. Low-pressure tanning systems use a higher percentage of UVB rays which penetrate only the upper layer of skin and can cause burning more easily than high-pressure tanning systems. Low-pressure systems require more frequent sessions to maintain a tan.

High-intensity tanning systems use more lamps and shorter tanning sessions than low-intensity tanning systems. These are still classified as low-pressure systems.

2. High-pressure tanning systems use a higher percentage of UVA rays which penetrate more deeply and can permanently damage the lower layers of skin and increase the incidences of skin cancers. High-pressure systems require fewer and less frequent sessions to maintain a tan.

3. The exposure schedule for each specific unit is shown on the labeling on the tanning unit. Iowa law requires the operator to limit the exposure of each consumer to the exposure schedule shown on the unit in which the consumer is tanning.

These rules are intended to implement Iowa Code chapter 136D.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 153
“Smokefree Air”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 142D
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 142D (Smokefree Air Act)

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 153 defines the procedure for implementing Iowa’s Smokefree Air Act. This includes the duty of employers, owners, or other persons having control of an area where smoking is prohibited to inform employees and persons accessing the site of that prohibition through proper signage. The rules also describe the procedure for receiving complaints and implementing enforcement actions against persons who fail to comply with provisions of the Act. Enforcement action may be taken against a person who smokes in an area where smoking is prohibited or a person who owns, operates, manages or otherwise has custody or control of a place where smoking is prohibited and fails to properly prohibit smoking.

This chapter describes the procedure to support the requirements for signage, complaints, and enforcement detailed in the Iowa Code. This chapter does not create additional, substantive requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Employers, owners, operators, managers, and persons having custody or control of an area declared nonsmoking.
Persons who smoke in an area where smoking is prohibited.
 - Classes of persons that will benefit from the proposed rulemaking:
Persons who inhabit or otherwise use an area declared nonsmoking.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:

Estimated figures below are projections based on past program performance as included in the Red Tape Rule Report for this chapter.

Identified Impacts*

| | SFY 2024 | SFY 2025 | SFY 2026 | SFY 2027 | SFY 2028 | Five-Year Total |
|-----------------------------------|-------------|-------------|-------------|-------------|-------------|-----------------|
| Costs | | | | | | |
| HHS Implementation | \$10,800 | \$10,800 | \$10,800 | \$10,800 | \$10,800 | \$54,000 |
| Signage in Nonsmoking Areas | \$6,200 | \$6,200 | \$6,200 | \$6,200 | \$6,200 | \$31,000 |
| Benefits | | | | | | |
| Citations and Civil Penalties | Unknown | Unknown | Unknown | Unknown | Unknown | Unknown |
| Improved Public Health and Safety | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |

*All monetary figures have been rounded to the nearest thousandth.

- Qualitative description of impact:

Enforcing the Smokefree Air Act through proper signage in designated nonsmoking areas and enforcement actions against those in noncompliance ensures the law is being implemented as intended to prevent secondhand smoke exposure, thus protecting public health and safety.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for team members to oversee the procedures described in this chapter. These costs are reflected in the figure above, labeled as “HHS Implementation.”

- Anticipated effect on state revenues:

No impact identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above indicates improved public health and safety. Enforcement costs are also defrayed through citations and civil penalties pursuant to the Iowa Code. Eliminating the signage and complaint/enforcement procedures detailed in this chapter could result in confusion among property owners and the public in how to comply with the law. This may lead to increased noncompliance that could drive an increase in citations and civil penalties and a negative impact on public health and safety.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

HHS has established signage requirements and complaint procedures at the level it believes is necessary to protect public health and safety. Citation and civil penalty enforcement is implemented as defined in the Iowa Code. A less costly method has not been identified to achieve the purpose of this chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
HHS implements the Smokefree Air Act in accordance with requirements of the Iowa Code.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 153 and adopt the following new chapter in lieu thereof:

CHAPTER 153
SMOKEFREE AIR

641—153.1(142D) Definitions. For the purposes of this chapter, definitions found in Iowa Code section 142D.2 and the following definitions apply:

“*Ashtray*” means any receptacle, including a can, bottle, bowl, tray, or other vessel that is used for extinguishing or disposing of any lighted cigar, cigarette, pipe, or other tobacco product in any manner or form including ash, cigarette butts or filters, or cigar stubs. However, “ashtray” shall not include any receptacle located outdoors and on the perimeter of any public place, the perimeter of the grounds of any public building, the perimeter of school grounds, or the perimeter of any other outdoor space subject to the prohibition in Iowa Code chapter 142D.

“*Entrance*” means any doorway to an enclosed area used by the public or employees for ingress to any public place or place of employment, but does not include any doorway designated for use as an exit in an emergency only. “Entrance” also includes the commonly understood points of entry to an outdoor area, subject to the prohibitions of this chapter, such as a driveway, sidewalk, pathway, access road, gate, or dedicated point of entry, but not including a street, road, highway, or sidewalk in the public right-of-way.

“*Grounds of any public building*” means an outdoor area of a public building that is used in connection with the building, including but not limited to a sidewalk or driveway immediately adjacent to the building, but not including a sidewalk in the public right-of-way; a sitting or standing area immediately adjacent to the building; a patio; a deck; a curtilage or courtyard; a swimming or wading pool; a beach; or any other outdoor area as designated by the person having custody or control of the public building. A person having custody or control of a public building may exclude from the designated grounds of any public building the following: a parking lot, the course of play at a golf course, a hiking trail, locations of an individual campsite or campfire, or a lake, river, or other body of water. Nothing in this definition prohibits any owner, operator, manager, or other person having custody or control of an area that is exempt from the prohibitions of Iowa Code chapter 142D from declaring the entire area or property a nonsmoking place.

“*Public building*” means an enclosed area owned, leased, or operated by or under the control of the state government or its political subdivisions.

641—153.2(142D) Duties of employers, owners, operators, managers, and persons having custody or control of a public place, place of employment, area declared nonsmoking pursuant to Iowa Code chapter 142D or outdoor areas where smoking is prohibited.

153.2(1) The employer, owner, operator, manager, or person having custody or control of a place where smoking is prohibited under Iowa Code chapter 142D shall:

a. Not permit smoking in a public place, place of employment, outdoor area where smoking is prohibited, or area declared nonsmoking pursuant to Iowa Code chapter 142D.

b. Inform all current employees and all prospective employees upon application for employment of the prohibitions of Iowa Code chapter 142D.

c. Not retaliate against any employee, applicant for employment, or customer who exercises any rights, registers a complaint, or attempts to prosecute a violation pursuant to Iowa Code chapter 142D.

d. Post signs in and at every entrance to the public place, place of employment, area declared nonsmoking, and outdoor area where smoking is prohibited that inform persons that they are entering a no smoking facility or area.

(1) The signs shall be clear and conspicuous in or at the entrance where posted.

(2) The signs shall be at least 24 square inches in size (for example, 4 inches by 6 inches) and shall be in legible font type.

(3) The signs shall contain the words “No Smoking” or the international “no smoking” symbol; the telephone number for reporting complaints, 1.888.944.2247; and the department website, hhs.iowa.gov/smokefreeair.

e. Place no smoking signs in every vehicle that constitutes a public place, place of employment, or area declared nonsmoking pursuant to Iowa Code section 142D.5.

(1) Such signs shall be clear and conspicuous from the exterior of the vehicle.

(2) The signs shall be at least 9 square inches (for example, 3 inches by 3 inches) and shall be in legible font type.

(3) The signs shall contain the words “No Smoking” or the international “no smoking” symbol; the telephone number for reporting complaints, 1.888.944.2247; and the department’s website, hhs.iowa.gov/smokefreeair.

(4) Nothing in this rule requires the placement of a sign in any vehicle that the director of the department of administrative services or the director of transportation orders to receive a regular registration plate pursuant to Iowa Code section 321.19.

f. Remove all ashtrays from areas where smoking is prohibited.

153.2(2) The owner or operator of a building or facility that contains more than one public place, place of employment, or area declared nonsmoking pursuant to Iowa Code chapter 142D which is controlled by other employers, owners, or operators shall comply with the provisions of these rules for the area of the building or facility under the owner’s or operator’s control.

153.2(3) An employer, owner, or operator of a public place, place of employment or area declared nonsmoking pursuant to Iowa Code chapter 142D that is within a public place that is owned or operated by another person shall comply with the provisions of these rules for the area under the control of the employer, owner, or operator within that public place.

153.2(4) An employer, owner, operator, manager, or person having custody or control of a place where smoking is prohibited under Iowa Code chapter 142D shall inform any individual smoking in a place where smoking is prohibited that the individual is violating the smokefree air Act and shall request that the individual stop smoking immediately.

a. If the individual refuses to stop smoking, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may discontinue service to that individual.

b. If the individual refuses to stop smoking, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may request that the individual leave the area where smoking is prohibited.

c. If the individual refuses to leave the area where smoking is prohibited, the employer, owner, operator, manager, or person having custody or control of the place where smoking is prohibited may notify the state or local law enforcement agency with jurisdiction over the area where smoking is prohibited.

641—153.3(142D) Leases. Any lease entered into by the state or its political subdivisions shall require that all areas where smoking is prohibited pursuant to Iowa Code chapter 142D comply with the provisions of these rules and Iowa Code chapter 142D.

641—153.4(142D) Complaints and enforcement.

153.4(1) Duties of department. The department will maintain a system for receiving and investigating complaints against persons who own, operate, manage, or otherwise have custody or control of a place where smoking is prohibited and who fail to comply with the provisions of Iowa Code chapter 142D.

a. The department may designate one or more public agencies through a 28E agreement or other written contract to assist with enforcement.

b. The department may refer complaints regarding a violation to the law enforcement authorities of the state or of the political subdivision of the state in which the alleged violation occurred.

153.4(2) Enforcement against a person who smokes in an area where smoking is prohibited. Pursuant to Iowa Code chapter 142D, the department designates the law enforcement authorities of the state and of each political subdivision of the state to assist with enforcement. A peace officer may issue a citation in lieu of arrest pursuant to Iowa Code chapter 805 against a person who smokes in an area where smoking is prohibited pursuant to Iowa Code chapter 142D, and such person shall pay a civil penalty pursuant to Iowa Code section 805.8C(3) for each violation.

153.4(3) Enforcement against a person who owns, operates, manages, or otherwise has control of a place where smoking is prohibited. Pursuant to Iowa Code chapter 142D, the department designates the law enforcement authorities of the state and of each political subdivision of the state to assist with enforcement. The department or its designee may initiate a civil action against an owner, operator, manager, or person who otherwise has custody or control of a place where smoking is prohibited pursuant to Iowa Code chapter 142D, and such person shall pay the applicable civil penalty pursuant to Iowa Code chapter 142D.

153.4(4) Manner of filing a complaint. Any person may register a complaint with the department by calling the toll-free number, 1.888.944.2247, or registering a complaint on the department's website, hhs.iowa.gov/smokefreeair.

153.4(5) Contents of the complaint. A complaint filed with the department shall include:

a. The name or location of the public place, place of employment, area declared a nonsmoking place pursuant to Iowa Code chapter 142D, or outdoor area where smoking is prohibited which is the subject of the complaint;

b. A description of the occurrence that prompted the complaint; and

c. Any other information relevant to the occurrence.

153.4(6) Review of complaint by department. Upon receipt of a complaint, the department or its designee may contact the individual making the complaint to confirm the details of the complaint and obtain any additional information.

153.4(7) Information from inspections. Information received by the department of one or more violations of Iowa Code chapter 142D as a result of an inspection of a public place by the state or political subdivision of the state shall be considered a credible complaint under this rule.

153.4(8) Notice of potential violation. If the department determines that a complaint against a public place, place of employment, area declared nonsmoking pursuant to Iowa Code chapter 142D, or outdoor areas where smoking is prohibited is credible:

- a.* For the first complaint, the department shall:
- (1) Issue a written notice of potential violation to the owner, operator or person having custody or control including the details of the complaint.
 - (2) Include in the notice educational materials about how to comply with Iowa Code chapter 142D, and information on whom to contact for further information and assistance for compliance.
- b.* For the second and subsequent complaints within one year, the department:
- (1) Shall issue a subsequent notice of potential violation to the owner, operator, or person having custody or control.
 - (2) May authorize one or more public agencies to conduct a compliance check of the location.
 - (3) May pursue any remedy authorized by Iowa Code chapter 142D, including the enforcement of civil penalties.

641—153.5(142D) Limitation of rules. Nothing in these rules is intended to limit any other state administrative rule or federal regulation that prohibits smoking.

These rules are intended to implement Iowa Code chapter 142D.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 154
“Medical Cannabidiol Program”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 124E
State or federal law(s) implemented by the rulemaking: Not applicable

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yyp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 154 implements a medical cannabidiol program for the in-state manufacture and dispensing of medical cannabis products for patients with qualifying debilitating medical conditions. Registration cards to purchase at a dispensary in Iowa are issued to patients who are at least 18 years of age, who are permanent residents of Iowa, and who are determined by a health care practitioner to suffer from a medical condition that qualifies for use of medical cannabidiol. Registration cards may also be issued to the primary caregivers of such patients.

The chapter defines licensing requirements for medical cannabidiol manufacturers and dispensaries, fees for application and licensure, safety protocols, marketing and advertising restrictions, and limits on manufacturing and dispensing. Manufacturers may only manufacture products in the forms recommended by the Medical Cannabidiol Board and approved by the Board of Medicine. The General Assembly maintains sole authority to revise the definition of medical cannabidiol.

HHS maintains a secure sales and inventory tracking system available to dispensaries 24 hours a day, seven days a week for the purpose of verifying that a person is lawfully in possession of a registration card and for tracking the date of the sale and quantity purchased. This system tracks products and inventory from creation by a manufacturer to transfers for testing and delivery, dispensing at a dispensary, and chain of custody; or “seed-to-sale.”

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost for these updates is included within application fees for medical cannabis patients and caregivers and license fees for licensees. Fees will not go up due to these changes.
 - Classes of persons that will benefit from the proposed rulemaking:
Medical cannabis patients and caregivers will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Figures below are actuals incurred in the fiscal years shown.

Identified Impacts*

| | SFY 2019 | SFY 2020 | SFY 2021 | SFY 2022 | SFY 2023 | Five-Year Total |
|-----------------------------------|-------------|-------------|-------------|-------------|-------------|-----------------|
| Costs | | | | | | |
| HHS Implementation | \$627,000 | \$898,000 | \$813,000 | \$809,000 | \$909,000 | \$4,056,000 |
| Benefits | | | | | | |
| Registration Card Fees | \$157,000 | \$305,000 | \$446,000 | \$827,000 | \$1,330,000 | \$3,065,000 |
| License and Application Fees | \$675,000 | \$400,000 | \$333,000 | \$220,000 | \$125,000 | \$1,753,000 |
| Improved Outcomes for Patients | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Improved Public Health and Safety | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | \$205,000 | -\$193,000 | -\$34,000 | \$238,000 | \$546,000 | \$762,000 |

*All monetary figures have been rounded to the nearest thousand.

The physical security requirements, manufacturer and dispensary data requirements, testing protocols, and other safeguards defined in this chapter ensure medical cannabidiol facilities operate in a manner protective of public health and safety.

- Qualitative description of impact:

HHS has not conducted an observational study on patient outcomes. HHS focuses on customer service metrics and strategies for improving the registration experience and processing time, which averages less than one day from submission to approval. Patient outcomes can also improve through reduction of the cost of participation, reduction of compliance and regulatory costs, and annual license fees to the industry.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for team members to support the regulation of the medical cannabidiol program. Additional expenses are incurred, mainly IT and software, to also support the regulation of the program and registration of patients and caregivers. These costs are reflected in the figure above, labeled as “HHS Implementation.”

The Department of Public Safety (DPS) incurs costs to conduct background investigations to support licensure of manufacturers and dispensaries and are paid by the industry to conduct necessary background checks. There are unknown costs to law enforcement for education and training on medical cannabis. These costs are unknown and not reflected in the figure above.

- Anticipated effect on state revenues:

The Medical Cannabidiol Act is a fee-based program, receives no appropriation, and does not impose a specific cost on the public. The program is funded by license application and annual fees from manufacturers and dispensaries and patient and caregiver application fees.

Licensed facilities pay an annual fee to HHS to cover costs associated with regulation, inspection, and other expenses necessary for the administration of the program, which have been reduced each

year. License application and annual fee revenues are reflected in the figure above. Patients issued registration cards are charged a fee of \$100 or \$25 per patient card, and primary caregivers are charged \$25. Registration cards expire one year from the date of issuance. This revenue is reflected in the figure above, labeled as “Registration Card Fees.”

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above reflects a net value of \$762,000 for FY 2019 through FY 2023 and indicates improved outcomes for patients with qualifying medical conditions and the industry that serves them. By investing in scalable IT solutions early on, the program has been able to limit traditional expenses as volume and revenue have increased.

Eliminating this chapter would remove HHS’s regulatory structure for the medical cannabidiol manufacturing and dispensing program, remove the procedural clarification of administrative rule to support the program, and introduce general and widespread regulatory uncertainty. This would create confusion among licensed entities, and possibly the misapplication of state law. This could result in adverse health impacts for patients by eliminating their safe and legal access to products for the treatment of their qualifying condition.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

No less costly methods were identified.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
HHS believes the regulatory approach defined in this chapter is at the level necessary to ensure public health and safety. Should adjustments be made, less restrictive alternatives might include the following:
 - Adjust sampling protocols to sample less frequently and/or sample for fewer contaminants;
 - Inspect facilities less often than annually or on an ad hoc basis;
 - Reduce the number or type of required safety elements such as physical property security systems and chain of custody;
 - Reduce the manufacturing and dispensary data required to be transmitted to HHS; or
 - Reduce restrictions related to marketing and other advertising of medical cannabidiol.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
HHS implements the medical cannabidiol program in accordance with requirements of the Iowa Code; overall, HHS implements the program as prescribed and has limited latitude in determining regulatory requirements. HHS maintains flexibility and authority for:
 - Setting sampling protocols and testing procedures for the testing of medical cannabidiol produced;
 - Determining the frequency of inspection of licensed facilities;
 - Determining the method, type, and frequency of certain operational data;
 - Setting specific criteria for the implementation of safety requirements; and
 - Setting reasonable restrictions related to marketing, signage, display, packaging, and advertising of medical cannabidiol.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 154 and adopt the following **new** chapter in lieu thereof:

CHAPTER 154
MEDICAL CANNABIDIOL PROGRAM

641—154.1(124E) Definitions. For the purposes of these rules, the following definitions shall apply:

“*Acceptance criteria*” means the specified limits placed on characteristics of an item or method that are used to determine data quality.

“*Action level*” means the threshold value that provides the criterion for determining whether a sample passes or fails a test performed pursuant to these rules.

“*Advertisement*” means all representations disseminated in any manner or by any means, other than by labeling, for the purpose of inducing, or which are likely to induce, directly or indirectly, the purchase of medical cannabidiol.

“*Analyte*” means a chemical, compound, element, bacteria, yeast, fungus, or toxin to be identified or measured.

“*Analytical batch*” means a group of samples that are prepared together for the same analysis and analyzed sequentially using the same instrument calibration curve and common analytical quality control checks.

“*Analytical method*” means a technique used qualitatively or quantitatively to determine the composition of a sample or a microbial contamination of a sample.

“*Audit*” means a review by authorized personnel that includes select scope engagement or other methods of review that analyze operational or compliance issues.

“*Background investigation*” means a thorough review of an entity, an owner, investors, and employees conducted by the department of public safety, including but not limited to state and national criminal history records, credit records, and internal revenue service records.

“*Batch*” means a specifically identified quantity of dried flower and other cannabis plant matter that is uniform in strain or cultivar, harvested at the same time, and cultivated using the same pesticides and other crop inputs.

“*Biosecurity*” means a set of preventative measures designed to reduce the risk of transmission of:

1. Infectious diseases in crops;
2. Quarantined pests;
3. Invasive alien species;
4. Living modified organisms.

“*Cannabinoid*” means a chemical compound that is unique to and derived from cannabis.

“*Cannabis*” means seeds, plants, cuttings, or plant waste material from *Cannabis sativa* L. or *Cannabis indica* used in the manufacture of medical cannabidiol.

“*CBD*” means cannabidiol, Chemical Abstracts Service number 13956-29-1.

“*CBD A*” means cannabidiolic acid, Chemical Abstracts Service number 1244-58-2.

“*Certificate of analysis*” means the report prepared for the requester about the analytical testing performed and the results obtained by a laboratory.

“*Certified*” means that a laboratory demonstrates to the satisfaction of the department its ability to consistently produce valid data within the acceptance limits as specified in the department’s requirements for certification and meets the minimum requirements of this chapter and all applicable regulatory requirements.

“*Certified reference material*” means a reference material prepared by a certifying body.

“*Combusted*” means the addition of a flame to medical cannabidiol or raw flower cannabis for the purposes of burning for inhalation, or smoking cannabis.

“*Consumable hemp product*” means a hemp product that includes a substance that is metabolized or is otherwise subject to a biotransformative process when introduced into the human body.

1. A consumable hemp product may be introduced into the human body by ingestion or absorption by any device including but not limited to an electronic device.

2. A consumable hemp product may exist in a solid or liquid state.

3. A hemp product is deemed to be a consumable hemp product if it is any of the following:

- Designed by the processor, including the manufacturer, to be introduced into the human body.
- Advertised as an item to be introduced into the human body.
- Distributed, exported, or imported for sale or distribution to be introduced into the human body.

“Consumable hemp product” includes but is not limited to any of the following:

1. A noncombustible form of hemp that may be digested, such as food; internally absorbed, such as chew or snuff; or absorbed through the skin, such as a topical application.

2. Hemp processed or otherwise manufactured, marketed, sold, or distributed as food, a food additive, a dietary supplement, or a drug.

“Consumable hemp product” does not include a hemp product if the intended use of the hemp product is introduced into the human body by any method of inhalation, as prohibited under Iowa Code section 204.14A.

“*Crop input*” means any substance applied to or used in the cultivation and growth of a cannabis plant. “Crop input” includes, but is not limited to, pesticides, fungicides, fertilizers, and other soil or medium amendments.

“*Date of expiration*” means one year from the date of issuance of the medical cannabidiol registration card by the department of transportation.

“*Date of issuance*” means the date of issuance of the medical cannabidiol registration card by the department.

“*Debilitating medical condition*” means the same as defined in Iowa Code section 124E.2.

“*Dispensary*” means an individual or entity licensed by the department to dispense medical cannabidiol to patients and primary caregivers pursuant to Iowa Code chapter 124E and these rules. “Dispensary” includes the employees and agents of the dispensary.

“*Dispensary facility*” means any secured building, space, grounds, and physical structure of a dispensary licensed by the department to dispense medical cannabidiol and where the dispensing of medical cannabidiol is authorized.

“*Dispense*” or “*dispensing*” means to supply medical cannabidiol to patients pursuant to Iowa Code chapter 124E and these rules.

“*Disqualifying felony offense*” means the same as defined in Iowa Code section 124E.2.

“*Edible medical cannabidiol products*” means food items containing medical cannabidiol. “Edible medical cannabidiol products” does not include pills, tinctures, oils, or other forms of medical cannabidiol that may be consumed orally or through the nasal cavity that do not contain food or food additives; provided that food or food additives used as carriers, excipients, or processing aids shall not be considered food or food additives.

“*Field duplicate sample*” means a sample that is taken in the identical manner and from the same batch, process lot, or lot being sampled as the primary sample. A field duplicate sample is analyzed separately from the primary sample and is used for quality control only.

“*Health care practitioner*” means the same as defined in Iowa Code section 124E.2.

“Inspection” means an on-site evaluation by the department, the department of public safety, or a department-approved independent consultant of facilities, records, personnel, equipment, methodology, and quality assurance practices for compliance with these rules.

“Investor” means a person making a cash investment of at least 5 percent interest in an applicant or licensed manufacturer or dispensary with the expectation of receiving financial returns.

“Laboratory” means the same as defined in Iowa Code section 124E.2.

“Limit of detection” or *“LOD”* means the lowest quantity of a substance or analyte that can be distinguished from the absence of that substance within a stated confidence limit.

“Limit of quantitation” or *“LOQ”* means the minimum concentration of an analyte in a specific matrix that can be reliably quantified while also meeting predefined goals for bias and imprecision.

“Lot” means a specific quantity of medical cannabidiol that is uniform and intended to meet specifications for identity, strength, purity, and composition, and that is manufactured, packaged, and labeled during a specified time period according to a single manufacturing, packaging, and labeling record.

“Lot number” means a unique numeric or alphanumeric identifier assigned to a lot by a manufacturer when medical cannabidiol is produced. The lot number shall contain the manufacturer’s number and a sequence to allow for inventory, traceability, and identification of the plant batches used in the production of a lot of medical cannabidiol.

“Manufacture” or *“manufacturing”* means the process of converting harvested cannabis plant material into medical cannabidiol.

“Manufacturer” means an individual or entity licensed by the department to produce medical cannabidiol and distribute it to dispensaries pursuant to Iowa Code chapter 124E and these rules. “Manufacturer” includes the employees and agents of the manufacturer.

“Manufacturing facility” means any secured building, space, grounds, and physical structure of a manufacturer for the cultivation, harvesting, packaging, processing, storage, and distribution of cannabis or medical cannabidiol and where access is restricted to designated employees of a manufacturer and escorted visitors.

“Matrix” means the component or substrate that contains the analyte of interest.

“Matrix spike duplicate” means a duplicate sample prepared by adding a known quantity of a target analyte to a field sample matrix or other matrix that is as closely representative of the matrix under analysis as possible.

“Matrix spike sample” means a sample prepared by adding a known quantity of the target analyte to a field sample matrix or to a matrix that is as closely representative of the matrix under analysis as possible.

“Medical assistance program” means IA Health Link, Medicaid Fee-for-Service, or hawki, as administered by the Iowa Medicaid enterprise of the department.

“Medical cannabidiol” means the same as defined in Iowa Code section 124E.2.

“Medical cannabidiol waste” means medical cannabidiol that is unused, unwanted, damaged, defective, expired, or contaminated and that is returned to a dispensary or manufacturer for disposal.

“Medical cannabis goods” means medical cannabidiol process lots, medical cannabidiol products, and cannabis plant material, including dried tissue.

“Method blank” means an analyte-free matrix to which all reagents are added in the same volumes or proportions as are used in sample preparation.

“National criminal history background check” means fingerprint processing through the department of public safety and the Federal Bureau of Investigation (FBI) and review of records on file with national organizations, courts, and law enforcement agencies to the extent allowed by law.

“Owner” means a person with a 5 percent or greater ownership interest in an applicant or licensed manufacturer or dispensary.

“Patient” means a person who is a permanent resident of the state of Iowa who suffers from a debilitating medical condition that qualifies for the use of medical cannabidiol pursuant to Iowa Code chapter 124E and these rules.

“*Patient registration number*” means the unique identification number issued to a patient by the department upon approval of a patient’s application by the department as described in these rules.

“*Percent recovery*” means the percentage of a measured concentration relative to the added (spiked) concentration in a reference material, matrix spike sample, or matrix spike duplicate.

“*Plant material*” means any plant of *Cannabis sativa* L. or *Cannabis indica*, or any part thereof, including flowers, leaves, trichomes, and tissue.

“*Plant material waste*” means plant material that is not used in the production of medical cannabidiol in a form allowable under these rules.

“*Primary caregiver*” means the same as defined in Iowa Code section 124E.2.

“*Primary care provider*” means any health care practitioner involved in the diagnosis and treatment of a patient’s debilitating medical condition.

“*Primary sample*” means a portion of a batch, process lot, or lot that is used for testing for identity, strength, purity, and composition.

“*Process lot*” means any amount of cannabinoid concentrate or extract that is uniform, produced from one or more batches, and used for testing for identity, strength, purity, and composition prior to being packaged.

“*Product expiration date*” means the date after which a medical cannabidiol product is sold by a manufacturer or a dispensary.

“*Production*” or “*produce*” means:

1. Cultivating or harvesting plant material;
2. Processing or manufacturing; or
3. Packaging of medical cannabidiol.

“*Proficiency test*” means an evaluation of a laboratory’s performance against preestablished criteria by means of interlaboratory comparisons of test measurements.

“*Qualitative analysis*” means identification of an analyte in a substance or mixture.

“*Quality assurance*” means a set of operating principles to produce data of known accuracy and precision. “Quality assurance” encompasses employee training, equipment preventative maintenance procedures, calibration procedures, and quality control testing, among other things.

“*Quality control*” means a set of measures implemented within an analytical procedure to ensure that the measurement system is operating in a state of statistical control in which errors have been reduced to acceptable levels.

“*Quality control samples*” means samples produced and used for the purpose of ensuring quality control. Quality control samples include but are not limited to blank samples, spike samples, duplicate samples, and reference material samples.

“*Reagent*” means a compound or mixture added to a system to cause a chemical reaction or to test if a reaction occurs. A reagent may be used to tell whether or not a specific chemical substance is present by causing a reaction to occur with the chemical substance.

“*Recall*” means the return of medical cannabidiol from patients and dispensaries to a manufacturer because of the potential for serious health consequences from the use of the medical cannabidiol.

“*Reference material*” means a material containing a known concentration of an analyte of interest that is in solution or in a homogeneous matrix. Reference material is used to document the bias of the analytical process.

“*Relative percent difference*” or “*RPD*” means a comparative statistic used to calculate precision or random error. RPD is calculated using the following equation: $RPD = \frac{\text{absolute value (primary sample measurement - duplicate sample measurement)}}{([\text{primary sample measurement} + \text{duplicate sample measurement}] / 2)} \times 100$.

“*Requester*” means a person who submits a request to a licensed testing laboratory for state-mandated testing of medical cannabis goods. The requester may be a licensed manufacturer or the department.

“*Residual solvents and processing chemicals*” means volatile organic chemicals that are used or produced in the manufacture or production of medical cannabidiol.

“*Restricted access area*” means a building, room, or other contiguous area on the premises where plant material is grown, cultivated, harvested, stored, packaged, or processed for sale under control of the manufacturer, and where no person under the age of 18 is permitted.

“*Sample*” means a representative part of or a single item from a larger whole or group.

“*Sanitize*” means to sterilize, disinfect, or make hygienic.

“*Security alarm system*” means the same as defined in rule 661—277.2(100C).

“*Semiquantitative analysis*” means less than quantitative precision and does not involve a full calibration. Analyte identification is based on a single-point reference or high-probability library match. The determination of amount uses the ratio of the unknown chemical analyte to that of a known analyte added to the sample before analysis. Uncertainty for semiquantitative results is higher than for quantitative results.

“*Significant figures*” means the number of digits used to express a measurement.

“*Stability study*” or “*studies*” means the process of determining the shelf-life or expiration date of a medical cannabidiol product. After storage of an unopened package of medical cannabidiol at a licensed manufacturing facility or dispensary facility, the contents shall not vary in concentrations of THC and CBD by more than an amount determined by the department and listed in the laboratory testing requirements and acceptance criteria document described in 641—Chapter 154.

“*Standard operating procedure*” means a written document that provides detailed instructions for the performance of all aspects of an analysis, operation, or action.

“*Synthetic or semisynthetic cannabinoid*” means a cannabinoid extracted from a cannabis plant, a cannabis flower, a hemp plant, or hemp plant parts with a chemical makeup that is changed after extraction to create a different cannabinoid or other chemical compound by applying a catalyst other than heat or light. “Synthetic or semisynthetic derived cannabinoid” includes but is not limited to any tetrahydrocannabinol created from cannabidiol.

“*Tamper-evident*” means that one or more one-time-use seals are affixed to the opening of a package, allowing a person to recognize whether or not the package has been opened.

“*Testing laboratory record*” means information relating to the testing laboratory and the analyses it performs that is prepared, owned, used, or retained by the laboratory and includes electronic files and video footage.

“*THC*” or “*delta-9 THC*” means tetrahydrocannabinol, Chemical Abstracts Service number 1972-08-3.

“*THCA*” means tetrahydrocannabinolic acid, Chemical Abstracts Service number 23978-85-0.

“*Total tetrahydrocannabinol*” means 87.7 percent of the amount of tetrahydrocannabinolic acid plus the amount of tetrahydrocannabinol.

“*Tracking number*” means the sales identification number assigned by a dispensary to a transaction at the time of the sale of a medical cannabidiol product.

“*Trade name*” means the name which manufacturers give to a product or range of products.

“*Validation*” means the confirmation by examination and objective evidence that the particular requirements for a specific intended use are fulfilled.

“*Vaporization*” means the heating of a medical cannabidiol concentrate or extract to a specific temperature using a device. For the purposes of these rules, vaporization does not include raw or dried cannabis flower.

“*Valid photo identification*” means any of the following for a patient or primary caregiver: (1) valid Iowa driver’s license, (2) valid Iowa nonoperator’s identification card, (3) an alternative form of valid photo identification. An individual who possesses or is eligible for a driver’s license or a nonoperator’s identification card shall present such document as valid photo identification. An individual who is ineligible to obtain a driver’s license or a nonoperator’s identification card may apply for an exemption and request submission of an alternative form of valid photo identification. An individual who applies for an exemption is subject to verification of the primary caregiver’s identity through a process established by the department to ensure the genuineness, regularity, and legality of the alternative form of valid photo identification.

“*Written certification*” means a document signed by a health care practitioner, with whom the patient has established a patient-provider relationship, which states that the patient has a debilitating medical condition and identifies that condition and provides any other relevant information.

REGISTRATION CARDS

641—154.2(124E) Health care practitioner certification—duties and prohibitions.

154.2(1) Prior to a patient’s submission of an application for a medical cannabidiol registration card pursuant to this rule, a health care practitioner shall follow all provisions of Iowa Code section 124E.3, this chapter and requests from the department for more information.

a. The written documentation required by Iowa Code section 124E.3(1) “*a*” shall be submitted on the application form at the department’s website.

b. Explanatory information pursuant to Iowa Code section 124E.3(1) “*b*” is located at the department’s website.

154.2(2) A health care practitioner may make a written request to the department to rescind a written certification the practitioner previously provided, based on reasons deemed appropriate by the health care practitioner.

154.2(3) Health care practitioner prohibitions. A health care practitioner shall not:

a. Accept, solicit, or offer any form of remuneration from or to any individual, including but not limited to a patient, a primary caregiver, or an employee, investor, or owner of a manufacturer or dispensary for the purposes of:

(1) Certifying a patient’s condition, other than accepting a fee for a patient consultation to determine if the patient should be issued a certification under Iowa Code chapter 124E.

(2) Certifying an individual as a primary caregiver, other than accepting a fee for a consultation to determine if the individual is a necessary caretaker taking responsibility for managing the well-being of the patient with respect to the use of medical cannabidiol.

b. Advertise the certification of patients as one of the health care practitioner’s services.

c. Certify a qualifying debilitating medical condition for a patient who is the health care practitioner or a family or household member of the health care practitioner.

d. Be designated to act as a primary caregiver for a patient for whom the health care practitioner has certified a qualifying debilitating medical condition.

e. Receive or provide medical cannabidiol product samples.

641—154.3(124E) Medical cannabidiol registration card—application and issuance to patient.

154.3(1) The department may issue a registration card to a patient who meets the criteria listed at Iowa Code section 124E.4(1). The application form is available on the department’s website. The department shall not approve an application that does not include the information requested on the application form.

154.3(2) Upon the completion, verification, and approval of the patient’s application and the receipt of the required fee, the department shall issue a registration card to the patient.

154.3(3) A registration card issued to a patient shall contain all of the following:

a. The patient’s full legal name, Iowa residence address, date of birth, and sex designation, as shown on the patient’s valid photo identification. If the patient’s information has changed since the issuance of the patient’s valid photo identification, the patient shall first update the patient’s valid identification to reflect the patient’s current information.

b. The date of issuance and the date of expiration, which shall be one year from the date of issuance.

c. A distinguishing registration number that is not the patient’s social security number.

d. A statement that the registration card is not valid for identification purposes.

154.3(4) Every patient 18 years of age or older must obtain a valid registration card to use medical cannabidiol in Iowa.

154.3(5) An authorization to use medical cannabidiol or cannabis for medicinal purposes issued by another state, territory, or jurisdiction does not satisfy the requirements of Iowa Code chapter 124E and is not a valid registration card for purposes of purchasing medical cannabidiol at dispensaries in Iowa.

641—154.4(124E) Medical cannabidiol registration card—reciprocity. A registration card's reciprocity with other states is established in Iowa Code section 124E.18.

154.4(1) A patient with a valid registration card from another state or jurisdiction maintains the affirmative defense for possession of medical cannabidiol provided the cannabis product in their possession may be manufactured and sold at a licensed dispensary in Iowa.

154.4(2) A patient with a valid registration card under the laws of another state or jurisdiction has no affirmative defense for possession of medical cannabidiol if the cannabis product in their possession may not be manufactured and sold at a licensed dispensary in Iowa. Prohibited forms of medical cannabidiol include:

- a. Raw cannabis flower that may be combusted or smoked;
- b. Edible products with a "total THC" concentration greater than 0.3 percent that is not a consumable hemp product.

641—154.5(124E) Medical cannabidiol registration card—application and issuance to primary caregiver.

154.5(1) For a patient in a primary caregiver's care, the department may issue a registration card to a primary caregiver who meets the criteria listed at Iowa Code section 124E.4(3). The application form is available on the department's website. The department shall not approve an application that does not include the information requested on the application form.

154.5(2) Upon the completion, verification, and approval of the primary caregiver's application, the department shall issue a registration card to the primary caregiver.

154.5(3) A registration card issued to a primary caregiver shall contain all of the following:

a. The primary caregiver's full legal name, current residence address, date of birth, and sex designation, as shown on the primary caregiver's valid photo identification. If the primary caregiver's information has changed since issuance of the primary caregiver's valid photo identification, the primary caregiver shall first update the primary caregiver's valid photo identification to reflect the primary caregiver's current information.

b. The date of issuance and the date of expiration, which shall be one year from the date of issuance.

c. A distinguishing registration number that is not the primary caregiver's social security number.

d. The registration number for each patient in the primary caregiver's care. This number shall not be the primary caregiver's or patient's social security number. If the patient in the primary caregiver's care is under the age of 18, the full name of the patient's parent or legal guardian shall be printed on the primary caregiver's registration card in lieu of the patient's registration number.

e. A statement that the registration card is not valid for identification purposes.

f. A statement distinguishing the registration cardholder as a primary caregiver.

154.5(4) An authorization to use, or to act as a primary caregiver for a patient authorized to use medical cannabidiol or cannabis for medicinal purposes issued by another state, territory, or jurisdiction does not satisfy the requirements of Iowa Code chapter 124E and is not a valid registration card for purposes of purchasing medical cannabidiol at dispensaries in Iowa.

641—154.6(124E) Denial and cancellation. The department may deny an application for a registration card, or may cancel a registration card, for any of the following reasons:

1. Information contained in the application is illegible, incomplete, falsified, misleading, deceptive, or untrue.

2. The department is unable to verify the identity of the applicant from the photo identification or other documentation presented during application.

3. The department has reasonable belief, or proof, that the patient is engaged in diversion of medical cannabidiol.
4. The applicant violates or fails to satisfy any of the provisions of Iowa Code chapter 124E or these rules.
5. A patient, the patient's legal guardian, or other person with durable power of attorney requests in writing that the department cancel the patient's registration card. The department shall notify a primary caregiver in writing when the registration card of the primary caregiver's patient has been canceled.
6. A primary caregiver requests in writing that the department cancel the primary caregiver's registration card. The department shall notify a patient in writing when the registration card of the patient's primary caregiver has been canceled.
7. The department becomes aware of the death of a patient or primary caregiver.
8. A health care practitioner requests in writing that the department rescind the written certification the practitioner provided to a patient or caregiver.
9. A patient requests in writing that the department cancel the patient's primary caregiver's registration card.

641—154.7(124E) Appeal.

154.7(1) *Written notice of denial or cancellation.* If the department denies an application for or cancels a registration card, the department shall inform the applicant or cardholder of the denial or cancellation, state the reasons for the denial or cancellation in writing, and state the effective date of the denial or cancellation. If the department cancels a card upon request from a patient or primary caregiver, or the department becomes aware of the death of a patient or primary caregiver, the cancellation is effective immediately upon issuance of the written notice of cancellation. If the department cancels a card upon any other ground listed, the cancellation shall become effective 30 days following issuance of the written notice of cancellation.

154.7(2) *Effect of written notice of cancellation on use and possession of medical cannabidiol.* A cardholder is authorized to purchase, possess, and use medical cannabidiol up to and including the effective date of the cancellation. For purposes of the affirmative defenses in Iowa Code section 124E.12, a patient or primary caregiver shall be deemed to be in possession of a valid registration card up to and including the effective date of the cancellation.

154.7(3) *Request for appeal.* A request for appeal concerning the denial or cancellation of a registration card shall be submitted pursuant to the provisions of 441—Chapter 7. In the event of a timely appeal, cancellation of the card shall be deemed to be suspended pending the outcome of the contested case proceeding. If the cancellation is affirmed following the contested case proceeding, the card cancellation shall become effective 30 days following issuance of the department's final agency action.

641—154.8(124E) Duplicate card.

154.8(1) *Lost, stolen, or destroyed card.* To replace a registration card that is lost, stolen, or destroyed, a cardholder shall present to the department the cardholder's valid photo identification that was provided at the time of application.

154.8(2) *Change in card information and voluntary replacement.*

a. To replace a registration card that is damaged, the cardholder shall surrender the card to be replaced to the department and present the cardholder's valid photo identification that was provided at the time of application.

b. A patient or primary caregiver to whom a registration card is issued shall notify the department of a change in information listed on the card, within ten calendar days of the change. To replace a registration card to change the patient or primary caregiver's information, the cardholder shall surrender the card to be replaced to the department and present the patient or primary caregiver's updated valid photo identification.

c. To replace a registration card held by a primary caregiver to change, add, or remove a patient's registration number or the name of a patient's parent or legal guardian listed on the primary

caregiver's card, the primary caregiver shall submit a new application to the department pursuant to rule 641—154.5(124E). A registration card issued pursuant to this paragraph shall not be considered a duplicate card.

154.8(3) Expiration date. A duplicate registration card shall have the same expiration date as the registration card being replaced, changed, or amended.

641—154.9(124E) Renewal. A registration card shall be valid for one year from the date of issuance, unless canceled. Renewal of a registration card will follow the application and issuance rules of this chapter.

641—154.10(124E) Confidentiality. The department will follow the confidentiality provisions in Iowa Code section 124E.11(1).

154.10(1) Personally identifiable information of patients and primary caregivers will be maintained as confidential and is not accessible to the public. The department will release aggregate and statistical information regarding the registration card program in a manner which prevents the identification of any patient or primary caregiver.

154.10(2) Personally identifiable information of patients and primary caregivers may be disclosed only pursuant to Iowa Code section 124E.11(1)“b” and to a patient, primary caregiver, or health care practitioner, upon written authorization of the patient or primary caregiver.

641—154.11(124E) Fees. All fees are nonrefundable. Application fees are established in Iowa Code section 124E.4.

641—154.12(124E) Consumption of medical cannabidiol. Medical cannabidiol should be consumed privately, and patients are subject to all applicable laws regarding public impairment and operating a vehicle, including but not limited to Iowa Code section 123.46 and chapter 321J. Medical cannabidiol products shall not be consumed on the property of a medical cannabidiol dispensary or manufacturer.

641—154.13(124E) Allowable forms of medical cannabidiol.

154.13(1) Modification of allowable forms. Allowable forms of medical cannabidiol may be modified by approval of a recommendation by the medical cannabidiol board, subsequent approval of the board of medicine, and adoption of the recommendations by the department.

154.13(2) Allowable forms.

a. A manufacturer may only manufacture medical cannabidiol in the following forms:

(1) Oral forms, including but not limited to:

1. Tablet.
2. Capsule.
3. Liquid.
4. Tincture.
5. Sublingual.

(2) Topical forms, including but not limited to:

1. Gel.
2. Ointment, cream or lotion.
3. Transdermal patch.

(3) Inhaled forms, limited to:

1. Nebulizable.
2. Vaporizable.

(4) Rectal/vaginal forms, including but not limited to suppository.

b. A manufacturer shall not produce medical cannabidiol in any form that may be smoked.

- c. A manufacturer shall not produce edible medical cannabidiol products.

MANUFACTURER AND DISPENSARY LICENSING

641—154.14(124E) Notice to law enforcement. The department shall notify local law enforcement agencies and the department of public safety of the locations of manufactures and dispensaries. If the department has sufficient cause to believe that there is a threat to public safety, the department shall notify local law enforcement agencies and the department of public safety.

641—154.15(124E) Manufacturer and dispensary licensure.

154.15(1) To be eligible for licensure, an applicant manufacturer or dispensary shall complete a background investigation pursuant to Iowa Code section 124E.19. Applicants must provide information on forms and in a manner required by the department of public safety.

154.15(2) The license shall be renewed annually unless a manufacturer or dispensary relinquishes the license, there is a change in state law prohibiting the department from renewing the license, or the license is revoked pursuant to Iowa Code chapter 124E or these rules.

154.15(3) A license to manufacture or dispense medical cannabidiol issued by the department is not assignable or transferable.

641—154.16(124E) Collection of fees in competitive licensing. Except as provided in this rule, all fees are nonrefundable, shall be retained by the department, and shall be considered repayment receipts as defined in Iowa Code section 8.2.

154.16(1) Fees to the department for manufacturers and dispensaries.

a. Fees for manufacturing applicants are established by Iowa Code section 124E.6(4). Fees for dispensary applicants are established by Iowa Code section 124E.8(4).

b. Licensed manufacturers and dispensaries shall pay an annual fee to the department to cover costs associated with regulating and inspecting, and for other expenses necessary for the administration of the medical cannabidiol program. The department shall assess the fee with the notice of approval of license, payable to the department no later than December 1. Annual fees assessed by the department shall not exceed \$100,000 for a manufacturing license and shall not exceed \$50,000 for a dispensary license.

154.16(2) Fees to the department of public safety.

a. An applicant manufacturer or dispensary shall reimburse the department of public safety the full cost of conducting background investigations related to an application for licensure. The department of public safety retains the right to bill a licensee for additional background investigations, as needed.

b. Each manufacturer or dispensary awarded a license shall, at the time of notice of award to license, submit to the department of public safety a deposit of \$10,000 for each business owner subject to a background investigation and a national criminal history background check. Background investigation costs shall be deducted from the funds deposited. If the background investigation fees exceed the funds deposited, the applicant shall submit additional funds as required by the department of public safety. If the background investigation fees are less than the funds deposited, the department of public safety may refund or retain the fees as mutually agreed with the manufacturer or dispensary.

c. A licensed manufacturer or dispensary shall pay a deposit of \$200 per employee to the department of public safety for a background investigation and a national criminal history background check on any person being considered for hire as an employee of the manufacturer or dispensary. Background investigation costs shall be deducted from the funds deposited. If the background investigation fees exceed the funds deposited, the manufacturer or dispensary shall submit additional funds as required by the department of public safety. If the background investigation fees are less than the funds deposited, the department of public safety may refund or retain the fees as mutually agreed with the manufacturer or dispensary. The department shall retain the right to preclude a potential

employee from hire based upon the results of the background investigation and national criminal history background check.

154.16(3) Criminal background checks.

a. A manufacturer or the owner of a dispensary shall not have been convicted of a disqualifying felony offense and shall be subject to a background investigation conducted by the department of public safety, including but not limited to a national criminal history record check.

b. An employee of a manufacture or a dispensary shall not have been convicted of a disqualifying felony offense and shall be subject to a background investigation conducted by the department of public safety, including but not limited to a national criminal history background check.

c. An applicant or licensed manufacture or dispensary shall respond within 30 days to a request from the department or the department of public safety for more information to complete a background investigation and national criminal history background check on an owner, investor, or employee.

641—154.17(124E) Licensure renewal.

154.17(1) A licensed manufacturer or dispensary shall apply to renew its license with the department at least six months before the license expires. The application shall be submitted on a form on the department's website.

154.17(2) The department shall notify a manufacturer or dispensary of the decision to approve or deny the manufacturer or dispensary's license by August 1 of the year in which the renewal application is submitted.

641—154.18(124E) Suspension or revocation of a manufacturing or dispensary license.

154.18(1) The department may suspend or revoke a manufacturer or dispensary license upon any of the following grounds:

a. Submission of false, inaccurate, misleading, or fraudulent information to the department in the application or inspection processes.

b. Failure to submit required reports and documents.

c. Violation of Iowa Code chapter 124E or these rules, or violation of state or local law related to operation of the licensee.

d. Conduct or practices detrimental to the safety, health, or welfare of a patient, primary caregiver, or the public.

e. Criminal, civil, or administration action taken against a license or registration in this or another state or country related to manufacturing or dispensing medical cannabidiol.

f. False, misleading, or deceptive representations to the department, another state or federal agency, or a law enforcement agency.

g. Discontinuance of operation for more than 30 days, unless the department approves an extension of such period for good cause shown.

h. Failure to maintain effective controls against diversion, theft, or loss of medical cannabidiol.

i. Failure to correct a deficiency within the time frame required by the department.

j. Failure of a manufacturer or dispensary's business owner or investors to have a satisfactory result in a background investigation or national criminal history background check as determined by the department.

154.18(2) The department shall notify the manufacturer or dispensary of the proposed action pursuant to Iowa Code sections 17A.12 and 17A.18. Notice of issuance of a suspension or revocation shall be served by restricted certified mail, return receipt requested, or by personal service.

154.18(3) A request for appeal concerning the suspension or revocation of a license shall be submitted pursuant to the provisions of 441—Chapter 7.

641—154.19(124E) Assessment of penalties. The department shall assess to a manufacturer a civil penalty of up to \$1,000 per violation of Iowa Code chapter 124E or these rules in addition to other applicable penalties.

641—154.20(124E) Closure of operations.

154.20(1) A manufacturer or dispensary shall notify the department at least six months before the closure of the manufacturing facility.

154.20(2) If a manufacturer or dispensary ceases operation, the manufacturer or dispensary shall work with the department to verify the remaining inventory of the manufacturer or dispensary and ensure that any plant material, plant material waste, and/or medical cannabidiol products are destroyed at a waste facility or returned to a manufacturer.

641—154.21(124E) Manufacturer and dispensary security requirements.

154.21(1) *Restricted access.* A manufacturer or dispensary shall limit entrance to all restricted areas by completing all of the following:

a. Mark restricted access areas with signs that state: “Do Not Enter – Restricted Access Areas Access Limited to Authorized Personnel Only”.

b. Use a controlled access system that:

(1) Limits access to authorized individuals;

(2) Maintains a log of individuals with approved access, including dates of approvals and revocations;

(3) Tracks times of personnel entry to and exit from the facility;

(4) Stores data for retrieval for a minimum of one year; and

(5) Limits access to authorized individuals in the event of a power failure.

c. If the controlled access system cannot electronically record visitors, visitors to restricted access areas sign manifests with name, date, and times of entry and exit. These manifests shall be kept and stored for a minimum of one year.

d. Visitors wear badges that are visible at all times and identify them as visitors.

e. If requested by the department, submit stored controlled access system data to the department within five business days.

154.21(2) *Perimeter intrusion detection system.*

a. Computer-controlled video surveillance system. A manufacturer or dispensary shall operate and maintain a computer-controlled, closed-circuit television surveillance system on its premises that operates 24 hours per day, seven days a week, and visually records:

(1) All phases of medical cannabidiol production, if applicable;

(2) All areas that might contain plant material and/or medical cannabidiol;

(3) All points of entry and exit;

(4) The entrance to the video surveillance control room; and

(5) Parking areas, which shall have appropriate lighting for the normal conditions of the area under surveillance.

b. Camera specifications. Cameras shall:

(1) Capture clear and certain identification of any person entering or exiting a manufacturer or dispensary or its parking areas;

(2) Produce a clear, color still photograph live or from a recording;

(3) Have an embedded date-and-time stamp that is synchronized to the recording and does not obscure the picture; and

(4) Continue to operate during a power outage.

c. Video recording specifications. Video recording equipment shall:

(1) Export still images in an industry standard image format, such as .jpg, .bmp, or .gif;

(2) Archive exported video in a format that ensures authentication and guarantees that the recorded image has not been altered; and

(3) Save exported video shall be saved in an industry standard file format that can be played on a standard computer operating system.

d. Location. A dispensary shall maintain all security system equipment and recordings in a secure location to prevent theft, loss, destruction, corruption, and alterations.

e. Retention. A manufacturer or dispensary shall ensure that recordings from all video cameras are:

- (1) Available for viewing by the department upon request;
- (2) Retained for at least 60 days; and
- (3) Maintained free of alteration or corruption.

f. Required signage. A manufacturer or dispensary shall post a sign in capital letters in a conspicuous location at every entrance to the manufacturing facility or dispensary that reads, "THESE PREMISES ARE UNDER CONSTANT VIDEO SURVEILLANCE."

154.21(3) Security alarm system requirements.

a. A manufacturer or dispensary shall use a professionally monitored security alarm system that provides intrusion and fire detection of all the following:

- (1) Dispensary entrances and exits;
- (2) Facility entrances and exits;
- (3) Rooms with exterior windows;
- (4) Rooms with exterior walls;
- (5) Roof hatches;
- (6) Skylights; and
- (7) Storage rooms.

b. A manufacturer or dispensary's security alarm system and all devices shall continue to operate during a power outage.

c. A manufacturer or dispensary shall provide documentation of the annual inspection and device testing, by a qualified alarm vendor, to the department upon request.

154.21(4) Personnel identification system. A manufacturer or dispensary shall use a personnel identification system that controls and monitors individual employee access to restricted access areas.

a. An employee identification card shall contain:

- (1) The name of the employee;
- (2) The date of issuance and expiration;
- (3) An alphanumeric identification number that is unique to the employee; and
- (4) A photographic image of the employee.

b. A manufacturer or dispensary's employee shall keep the identification card visible at all times when the employee is in a manufacturing facility, a dispensary, or a vehicle transporting medical cannabidiol.

c. Upon termination or resignation of an employee, a manufacturer or dispensary shall immediately:

- (1) Revoke the employee's access to the manufacturing facility or dispensary; and
- (2) Destroy the employee's identification card, if possible.

641—154.22(124E) Advertising and marketing.

154.22(1) Permitted marketing and advertising activities. A manufacturer or dispensary must include medical cannabidiol pricing and hours of operation on its website and may do the following:

a. Display the manufacturer or dispensary's business name and logo on medical cannabidiol labels, signs, website, and informational material provided to patients. The name or logo shall not include:

- (1) Images of cannabis or cannabis-use paraphernalia;
- (2) Colloquial references to cannabis;
- (3) Names of cannabis plant strains or varieties;
- (4) Unsubstantiated medical claims; or
- (5) Medical symbols that bear a reasonable resemblance to established medical associations.

b. Display signs on the manufacturing facility or dispensary; and

c. Maintain a business website that contains the following information:

- (1) The manufacturer or dispensary's name and contact information;
- (2) The medical cannabidiol forms and quantities manufactured or available in Iowa; and
- (3) Other information as approved by the department.

154.22(2) Prohibited conduct, statements and illustration.

a. An advertisement for medical cannabidiol shall not contain:

- (1) Colloquial references to cannabis;
 - (2) Names of cannabis plant strains or varieties;
 - (3) Any statement that is false or misleading;
 - (4) Any statement that disparages a competitor's products;
 - (5) Any statement, design, or representation, picture or illustration that is obscene or indecent;
 - (6) Any statement, design, representation, picture or illustration that reasonably appeals to or targets children. Appealing to children means:
 1. When taken literally or as a plain language reading, there is a resemblance to food or product used by children;
 2. Contains child-appealing visuals/graphics, such as intense colors, bubble letters, or other interesting fonts or lettering;
 3. Unconventional or interesting product names;
 4. Unconventional or unexpected flavor, color, or shape of the product;
 5. Games or activities present on the package; or
 6. Presence of branded characters, spokespersons, licensed characters, cartoons, or celebrities;
 - (7) Any statement, design, representation, picture or illustration that encourages or represents the use of medical cannabidiol for a condition other than a qualifying debilitating medical condition;
 - (8) Any statement, design, representation, picture or illustration that encourages or represents the recreational use of medical cannabidiol or marijuana, tobacco or nicotine products, or alcohol;
 - (9) Any statement, design, representation, picture or illustration related to the safety or efficacy of medical cannabidiol, unless supported by substantial evidence, substantial clinical data, and/or direct patient testimonials;
 - (10) Any statement, design, representation, picture or illustration portraying anyone reasonably appearing to be under the age of 18, objects suggestive of the presence of anyone under the age of eighteen, or containing the use of a figure, symbol or language that is customarily associated with anyone under the age of eighteen, except that an advertisement may address medical cannabidiol products as they relate to minor patients;
 - (11) Any offer of a prize, award or inducement to a qualifying patient, primary caregiver, or health care practitioner related to the purchase of medical cannabidiol or a certification for the use of medical cannabidiol, except that non-product specific price discounts are allowed;
 - (12) Any statement or assertion that medical cannabidiol products are safe because they are regulated under this chapter or have been tested by an approved laboratory;
 - (13) Any reference to a prohibited form of medical cannabidiol;
 - (14) Any statement which claims that medical cannabidiol products are endorsed or supported by any government agency; or
 - (15) Any statement that indicates or implies that the product or entity in the advertisement has been approved or endorsed by the department, the state of Iowa or any person or entity associated with the state of Iowa.
- b. A manufacturer or dispensary shall not engage in any of the following activities:
- (1) Host, promote, refer, or otherwise advertise a third-party patient certification service;
 - (2) Engage in any advertising, marketing, or branded educational activities within 1,000 feet of a school;
 - (3) Host, promote, sponsor, or otherwise participate in a cannabis consumption lounge or other such encouragement of public consumption of cannabis or medical cannabidiol; or
 - (4) Advertise, or make reference to, non-approved forms of medical cannabidiol in any of its advertisements, including, but not limited to:
 1. Referring to an approved form of medical cannabidiol as a prohibited form of medical cannabidiol.

2. Advertising non-approved forms of medical cannabidiol. Consumable hemp products regulated under Iowa Code chapter 204 and 641—Chapter 156 are exempt from this provision.

154.22(3) Review of advertisements by the department. Any advertisement for medical cannabidiol shall be submitted to the department, on a form or in a format prescribed by the department, at the same time as, or prior to, the dissemination of the advertisement.

a. The department may:

(1) Require a specific disclosure be made in the advertisement in a clear and conspicuous manner if the department determines that the advertisement would be false or misleading without such a disclosure; or

(2) Require changes that are necessary to protect the public health, safety and welfare; or

(3) Require statements for inclusion in the advertisement to address the specific efficacy of medical cannabidiol as it relates to specific disease states or approved debilitating medical conditions, disease symptoms, and population groups.

b. The department reserves the right to require that a licensee amend or remove a public advertisement.

641—154.23(124E) Sales and inventory tracking system. The department shall establish and maintain a secure, electronic system that is available 24 hours a day, seven days a week to track:

1. Inventory of plant material and medical cannabidiol;

2. Transport of plant material, and laboratory samples;

3. Application and use of crop inputs and other solvents and chemicals;

4. Sales of medical cannabidiol to dispensaries;

5. Sales of medical cannabidiol from dispensaries to patients and primary caregivers.

641—154.24(124E) Financial transactions.

154.24(1) A manufacturer or dispensary shall maintain records that reflect all financial transactions and the financial condition of the business.

154.24(2) The following records shall be maintained for at least five years and made available for review, upon request of the department:

a. Purchase invoices, bills of lading, sales records, copies of bills of sale, and any supporting documents, to include the items or services purchased, from whom the items were purchased, and the date of purchase;

b. Bank statements and canceled checks for all business accounts;

c. Accounting and tax records; and

d. Records of all financial transactions, including contracts and agreements for services performed or services received.

641—154.25(124E) Inspection by department or independent consultant. A manufacturer or dispensary is subject to reasonable inspection by the department, a department-approved consultant, or other agency pursuant to Iowa Code chapter 124E and these rules and as authorized by laws and regulations.

154.25(1) Types of inspections. Inspections may include:

a. Aspects of the business operations;

b. The manufacturing facility or the physical location of a dispensary, including any storage facility;

c. Vehicles used for transport or delivery of medical cannabidiol or plant material;

d. Financial information and inventory documentation;

e. Physical and electronic security alarm systems;

f. Health and sanitary inspection; and

g. Other inspections as determined by the department.

154.25(2) Compliance required. A manufacturer or dispensary shall respond to deficiencies found during inspections or inventory reconciliation as follows:

- a. Deficiencies not related to inventory reconciliation.
 - (1) Upon written notification by the department of deficiencies that do not involve reconciliation of inventory, a manufacturer or dispensary shall have up to 30 days to submit an action plan to the department with proposed remedies and timelines for completion of the remedies.
 - (2) The department shall have up to two weeks to accept or require revision of the action plan.
- b. Deficiencies related to inventory reconciliation.
 - (1) Upon notifying the department that the manufacturer or dispensary cannot reconcile the physical inventory with the inventory recorded in the secure sales and inventory tracking system, the manufacturer or dispensary shall have up to two business days to submit an action plan to the department with proposed remedies and timelines for completion of the remedies.
 - (2) The department shall have up to two business days to accept or require revision of the action plan.
 - (3) Failure to complete actions in the action plan within the timelines mutually agreed upon by the manufacturer and the department shall result in assessment of penalties or in suspension or revocation of a manufacturer or dispensary license.
 - (4) At the department's request and in a timely manner, a manufacturer or dispensary shall pay for and undergo an independent health and sanitary inspection in accordance with this rule.

MANUFACTURING

641—154.26(124E) Manufacturer operations.

154.26(1) Operating documents.

- a. A manufacturer shall maintain operating documents that accurately reflect the manufacturer's standard operating procedures. Unless otherwise noted, a manufacturer shall make the operating documents available to the department upon request, through secure means.
- b. The operating documents of a manufacturer shall include all of the following:
 - (1) Procedures for the oversight of the manufacturer, including descriptions of operational and management practices regarding:
 - 1. The forms and quantities of medical cannabidiol products that are produced at the manufacturing facility;
 - 2. The methods of planting, harvesting, drying, and storing cannabis. A manufacturer may make operating documents for these procedures available on site only;
 - 3. The estimated types and amounts of all crop inputs used in the production of medical cannabidiol;
 - 4. The disposal methods for all waste materials;
 - 5. Employee training methods for the specific phases of production. A manufacturer may make operating documents for these procedures available on site only;
 - 6. Biosecurity measures and standard operating procedures used in the production and manufacturing of medical cannabidiol. A manufacturer may make operating documents for these procedures available on site only;
 - 7. Strategies for identifying and reconciling discrepancies in inventory of plant material or medical cannabidiol;
 - 8. Sampling strategy and quality testing for labeling purposes. A manufacturer may make operating documents for these procedures available on site only;
 - 9. Medical cannabidiol packaging and labeling procedures;
 - 10. Procedures for recall of medical cannabidiol;
 - 11. Plans for responding to a security breach at a manufacturing facility or while medical cannabidiol is in transit to a dispensary. A manufacturer may make operating documents for these procedures available on site only;
 - 12. A business continuity plan. A manufacturer may make this operating document available on site only;
 - 13. Records relating to all transport activities; and

14. Other information requested by the department.
- (2) Procedures to ensure accurate recordkeeping.
- (3) Procedures for the implementation of appropriate security measures to deter and prevent the theft of medical cannabidiol and unauthorized entrance into areas containing medical cannabidiol. A manufacturer may make operating documents for these procedures available on site only.

154.26(2) Prohibited activities. In addition to following all provisions of Iowa Code section 124E.7, a manufacturer shall not:

- a. Produce or manufacture medical cannabidiol in any location except in those areas approved by the department;
- b. Sell, deliver, transport, or distribute medical cannabidiol from any location except its manufacturing facility or a dispensary facility;
- c. Produce or manufacture medical cannabidiol in Iowa for sales or distribution outside of Iowa;
- d. Sell or distribute medical cannabidiol to any person or business other than a dispensary or manufacturer licensed by the department under Iowa Code chapter 124E;
- e. Refuse to sell, deliver, transport, or distribute medical cannabidiol in any form or quantity produced by the manufacturer to a dispensary, unless deemed appropriate in the manufacturer's reasonable business judgment and approved by the department in writing;
- f. Transport or deliver medical cannabidiol to any location except as allowed in subrule 154.22(1);
- g. Introduce synthetic or semisynthetic cannabinoids derived from hemp into medical cannabidiol products;
- h. Produce synthetic or semisynthetic cannabinoids within the licensed manufacturing facility.

641—154.27(124E) Recordkeeping requirements.

154.27(1) Manufacturer sales and distribution. A manufacturer shall maintain complete and accurate electronic sales transaction records in the department's secure sales and inventory tracking system, including:

- a. The date of each sale or distribution;
- b. The item number, product name and description, and quantity of medical cannabidiol sold or otherwise distributed; and
- c. The sale price.

154.27(2) Manufacturer operations and inventory reporting other records.

a. A manufacturer or dispensary shall maintain the following for at least five years, unless otherwise noted, and provide to the department upon request:

- (1) All personnel records;
- (2) Records of any theft, loss, or other unaccountability of any medical cannabidiol or plant material;
- (3) Transportation manifests and incident reports; and
- (4) Records of all samples sent to a testing laboratory and the quality assurance test results.

b. A manufacturer or dispensary shall maintain for at least one year and provide to the department upon request its controlled access system data and visitor manifests.

154.27(3) Manufacturer entry into the secure sales and tracking system.

a. A manufacturer or dispensary shall use the secure sales and inventory tracking system to maintain the following:

- (1) Batch and harvest records;
- (2) Crop input and additive records;
- (3) Extraction and production records;
- (4) Transportation records;
- (5) Inventory records;
- (6) Solvent and processing chemical records; and
- (7) Other records as determined by the department.

b. Unless otherwise provided in these rules, a manufacturer shall adhere to the following schedule for entering data into the secure sales and inventory tracking system. A manufacturer shall enter data in real time for data related to:

- (1) Transport of medical cannabidiol, plant material, and laboratory samples;
- (2) Sales of medical cannabidiol to dispensaries;
- (3) The creation of process lots containing a unique identifier; and
- (4) The creation of package lots containing a unique identifier.

c. A manufacturer shall enter inventory reports on key inventory events into the secure sales and inventory tracking system within five business days in which the event occurred. These inventory reports include, but are not limited to:

- (1) Batch reports;
- (2) Crop input and additive reports;
- (3) Harvest reports;
- (4) Extraction reports;
- (5) Solvent and processing chemical reports;
- (6) Package lot reports;
- (7) Certificates of Analysis from a laboratory;
- (8) Other records as determined by the department.

d. State of Iowa Manufacturer API guide. The department shall maintain a document describing the IT requirements and acceptance criteria for reporting information to the secure sales and inventory tracking system. The department shall provide manufacturers no less than 14 days in which to comment on proposed revisions to the document, and the department shall provide no less than 30 days' notice before a revision takes effect. The document shall include:

- (1) The schedule and means of data reporting;
- (2) Integration requirements for third party vendors; and
- (3) Be available on the department's website (hhs.iowa.gov).

641—154.28(124E) Recall of medical cannabidiol products. Medical cannabidiol products may be recalled in the following ways:

154.28(1) Voluntarily by a licensed manufacturer.

154.28(2) By the department. If the department determines, based on an evaluation, that there is a reasonable probability that use of, or exposure to, a violative medical cannabidiol product will cause a serious adverse health consequence or death, the department may require a manufacturer to recall such violative medical cannabidiol products from dispensaries. An evaluation of the health hazard presented by medical cannabidiol being considered for recall shall be conducted by an ad hoc committee of scientists appointed by the department and shall consider, but need not be limited to, each of the following factors:

- a. Whether any disease or injuries have already occurred from the product.
- b. Whether any existing conditions could contribute to a clinical situation that could expose humans to a health hazard. Any conclusion shall be supported as completely as possible by scientific documentation and/or statements that the conclusion is the opinion of the individual(s) making the health hazard determination.
- c. A holistic assessment of the hazard and its present and future potential consequences.

641—154.29(124E) Quality assurance and control.

154.29(1) *Quality control program.* A manufacturer shall develop and implement a written quality assurance program that assesses the chemical and microbiological composition of medical cannabidiol. Assessment includes a profile of the active ingredients, including stability studies, and the presence of inactive ingredients and contaminants. A manufacturer shall use these testing results to determine appropriate storage conditions and product expiration dates.

154.29(2) *Sampling protocols.* A manufacturer shall develop and follow written procedures for sampling medical cannabidiol that require the manufacturer to:

- a. Conduct sample collection in a manner that provides analytically sound and representative samples;
- b. Document every sampling event and provide this documentation to the department upon request;
- c. Describe all sampling and testing plans in written procedures that include the sampling method and the number of units per lot to be tested;
- d. Ensure that random samples from each lot are:
 - (1) Taken in an amount necessary to conduct the applicable test;
 - (2) Labeled with the lot number; and
 - (3) Submitted for testing;
- e. Retain the results from the random samples for at least five years; and
- f. Notify the department at least two business days prior to sample collection and allow the department or its designees to be present to observe the sampling procedures when the samples are to be sent to a laboratory for testing.

154.29(3) *Sampling and testing.* A manufacturer shall:

- a. Work with the department and laboratory personnel to develop acceptance criteria for contaminants, including, but not limited to, cannabinoid content, metals, microbiological impurities, solvents, or other contaminants that the manufacturer uses in cultivating and producing medical cannabidiol;
- b. Conduct sampling and testing of plant material and medical cannabidiol lots using acceptance criteria that are protective of patient health. sampling methods results shall be approved by the department and laboratory personnel and shall ensure that lots of medical cannabidiol are homogenous and representative of the process or package lot.
- c. Reject and destroy medical cannabidiol from a lot that fails to meet established standards, and any other relevant quality control criteria when remixing and retesting are not warranted;
- d. Develop and follow a written procedure for responding to results failing to meet established standards, and any other relevant quality control criteria, including:
 - (1) Criteria for when remixing and retesting are warranted;
 - (2) Instructions for destroying contaminated or substandard medical cannabidiol when remixing and retesting are not warranted; and
 - (3) Instructions for determining the source of contamination;
- e. Retain documentation of test results, assessment, and destruction of medical cannabidiol for at least five years.

154.29(4) *Stability testing.*

- a. The quality assurance program shall include procedures for performing stability testing of each product type produced to determine product expiration dates. The procedures shall describe:
 - (1) Sample size and test intervals based on departmental guidance pursuant to subrule 154.47(1);
 - (2) Storage conditions for samples retained for testing; and
 - (3) Reliable and specific test methods.
- b. Stability studies shall include:
 - (1) Medical cannabidiol testing at appropriate intervals; and
 - (2) Medical cannabidiol testing in the same container-closure system in which the medical cannabidiol is marketed and dispensed.
- c. If product-expiration-date studies have not been completed a manufacturer shall assign a tentative product expiration date, not to exceed one year, based on any available stability information.
- d. If a manufacturer determines a product expiration date beyond one year, a manufacturer shall submit justification to the department, and receive approval, prior to labeling a product with an expiration date beyond one year.

154.29(5) *Reserve samples.*

- a. A manufacturer shall retain a uniquely labeled reserve sample that represents each lot of medical cannabidiol and store the reserve sample under conditions consistent with product labeling. The reserve sample shall be stored in the same immediate container-closure system in which the medical cannabidiol

is marketed or in one that has similar characteristics. The reserve sample shall consist of at least twice the quantity necessary to perform all the required tests.

b. A manufacturer shall retain the reserve for at least one year from the date of manufacture.

c. After one year from the date of manufacture, reserve samples shall be destroyed.

154.29(6) Retesting. If the department deems that public health may be at risk, the department may require the manufacturer to retest any sample of medical cannabidiol.

154.29(7) Disposal of substandard product. A manufacturer shall dispose of all medical cannabidiol when samples fail to meet established standards, and other relevant quality control criteria.

154.29(8) Recall procedures. Each manufacturer shall establish a procedure for recalling product from the market that has a reasonable probability of causing an unexpected or harmful response in a patient population, despite appropriate use, that outweighs the potential benefit of the medical cannabidiol. This procedure shall include:

a. Factors that make a recall necessary;

b. Manufacturer's personnel who are responsible for overseeing the recall; and

c. How to notify affected parties of a recall.

641—154.30(124E) Packaging and labeling.

154.30(1) Trade names. A manufacturer's medical cannabidiol trade names shall comply with the following:

a. Names shall be limited to those that clearly reflect the form's medical cannabidiol nature;

b. Any name that is identical to, or similar to, the name of an existing nonmedical cannabidiol product is prohibited;

c. Any name that is identical to, or similar to, the name of an unlawful product or substance is prohibited; and

d. Any name that contains language that suggests using medical cannabidiol for recreational purposes or for a condition other than a qualifying debilitating medical condition is prohibited.

154.30(2) Medical cannabidiol packaging.

a. Requirements of medical cannabidiol package containers. The manufacturer shall use medical containers that are:

(1) Of sufficient size to accommodate a separate dispensary label containing the information described in paragraph 154.30(2) "c";

(2) Designed to maximize the shelf life of the contained medical cannabidiol;

(3) Tamper-evident; and

(4) Child-resistant.

b. Medical cannabidiol package prohibitions. The packaging for medical cannabidiol shall not:

(1) Bear a reasonable resemblance to commonly available nonmedical commercial products;

(2) Depict images other than the manufacturer's business name or logo on the packaging;

(3) Reasonably appeal to children. More information is provided in rule 641—154.22(2);

(4) Reasonably appeal to recreational or adult use; or

(5) Depict images other than the manufacturer's business name or logo on the packaging.

c. Requirements of medical cannabidiol packaging. A manufacturer shall ensure that all medical cannabidiol packaging includes the following information:

(1) The name of the manufacturer, and trade name if applicable;

(2) A label claim concentration for cannabinoid content including:

1. Tetrahydrocannabinol,

2. Tetrahydrocannabinolic acid; concentrations of tetrahydrocannabinolic acid may be omitted if the manufacturer uses decarboxylation or other means to substantially remove the acids from the product prior to testing;

3. Cannabidiol; and

4. Cannabidiolic acid; concentrations of cannabidiolic acid may be omitted if the manufacturer uses decarboxylation or other means to substantially remove the acids from the product prior to testing;

(3) The number of servings per package;

(4) The directions for use of the product, including recommended and maximum amount by age and weight, if applicable;

(5) All ingredients of the product shown with common or usual names, including but not limited to, any additives, terpenes or artificial flavors, diluents and carriers, and preservatives, listed in descending order by predominance of weight. Any third-party hemp-derived cannabinoids into medical cannabidiol products shall be specifically indicated on the ingredients list, separately from medical cannabidiol produced within the manufacturer's facility;

(6) Instructions for storage, including light and temperature requirements, if any; and

(7) The universal warning symbol provided by the department.

d. The following information shall be included with medical cannabidiol packaging, or contained within a package insert:

(1) A notice with the statement, including capitalization: "This product has not been analyzed or approved by the United States Food and Drug Administration. There is limited information on the side effects of using this product, and there may be associated health risks and medication interactions. This product is not recommended for use by pregnant or breastfeeding women. KEEP THIS PRODUCT OUT OF REACH OF CHILDREN.";

(2) A notice with the statement: "This medical cannabidiol is for therapeutic use only. Use of this product by a person other than the patient listed on the label is unlawful and may result in the cancellation of the patient's medical cannabidiol registration card. Return unused medical cannabidiol to a dispensary for disposal.";

(3) A package may contain multiple labels if the information required by this rule is not obstructed.

154.30(3) Medical cannabidiol labeling.

a. After receiving a passing certification of analysis for a package lot from a laboratory, and prior to distribution to dispensaries, a manufacturer shall affix a label to each individual package of medical cannabidiol containing that contains following information:

(1) A unique lot number;

(2) The date of manufacture;

(3) Product expiration date. This date shall be one year from the date of manufacture unless a manufacturer has conducted stability studies, and received approval from the department for an extended expiration date.

b. Cannabinoid content for:

(1) Tetrahydrocannabinol;

(2) Tetrahydrocannabinolic acid, concentrations of tetrahydrocannabinolic acid may be omitted if the manufacturer uses chemical decarboxylation or other means to substantially remove the acids from the product prior to testing;

(3) Cannabidiol; and

(4) Cannabidiolic acid.

641—154.31(124E) Transportation of medical cannabidiol and plant material.

154.31(1) Transport of medical cannabidiol or plant material. A manufacturer is authorized to transport medical cannabidiol or plant material to and from:

a. Dispensaries;

b. A laboratory for testing;

c. A waste facility for disposal;

d. A manufacturer licensed by the department under Iowa Code chapter 124E;

e. Other sites only with departmental approval.

154.31(2) Chain-of-custody tracking system.

a. A manufacturer shall use the secure sales and inventory tracking system, if available, or a department-approved manifest system to track shipping of medical cannabidiol. The system shall include a chain of custody that records:

(1) The name and address of the destination;

- (2) The unique ID of each individual process lot or package lot that is part of the shipment, and the total number of individual packages;
 - (3) The date and time the medical cannabidiol shipment is placed into the transport vehicle;
 - (4) The date and time the shipment is accepted at the delivery destination;
 - (5) The person's identity; and
 - (6) Any handling or storage instructions.
- b.* Before transporting medical cannabidiol, a manufacturer shall:
- (1) Record in the secure sales and inventory tracking system or on the manifest information about the material to be transported; and
 - (2) Notify the dispensary, laboratory, manufacturer, or waste facility, as applicable, of the expected arrival time and transmit a copy of the manifest to the dispensary, laboratory, manufacturer, or waste facility, if applicable.
- c.* Each transport shall be approved electronically or in writing by:
- (1) An authorized manufacturer employee when the transport vehicle is departing the manufacturing facility; and
 - (2) An authorized employee of the receiving dispensary, laboratory, manufacturer, or waste facility.
- d.* An authorized employee at the dispensary, laboratory, manufacturer, or waste facility receiving medical cannabidiol shall:
- (1) Verify and document the type and quantity of the transported medical cannabidiol against the information in the secure sales and inventory tracking system or written manifest;
 - (2) Approve the transport electronically or return a signed copy of the manifest to the manufacturing facility; and
 - (3) Record the medical cannabidiol that is received as inventory in the secure sales and inventory tracking system, if available. If a manifest system is being used, the dispensary, laboratory, manufacturer, or waste facility shall also maintain a signed copy of manifest, and shall maintain records of the inventory received consistent with these rules.
- e.* A manufacturer shall maintain all manifests for at least five years and make them available upon request of the department.

154.31(3) *Vehicle requirements for transport.*

- a.* A manufacturer shall ensure that all medical cannabidiol transported on public roadways is:
- (1) Packaged in tamper-evident, bulk containers;
 - (2) Transported so it is not visible or recognizable from outside the vehicle; and
 - (3) Transported in a vehicle that does not bear any markings to indicate that the vehicle contains medical cannabidiol or bears the name or logo of the manufacturer.
- b.* When the motor vehicle contains medical cannabidiol, manufacturer employees who are transporting the medical cannabidiol on public roadways shall:
- (1) Travel directly to a dispensary or other department-approved locations; and
 - (2) Document refueling and all other stops in transit, including:
 1. The reason for the stop;
 2. The duration of the stop; and
 3. The location of the stop.
- c.* If the vehicle must be stopped due to an emergency situation, the employee shall notify 911 and complete an incident report on a form approved by the department.
- d.* Under no nonemergency circumstance shall any person other than a designated manufacturer employee have actual physical control of the motor vehicle that is transporting the medical cannabidiol.
- e.* An employee in a transport motor vehicle shall have telephone access with the manufacturer's personnel.

641—154.32(124E) Disposal of medical cannabidiol and plant material.

154.32(1) *Return of medical cannabidiol from dispensaries and laboratory.* A manufacturer may collect at no charge medical cannabidiol waste from dispensaries. A manufacturer who chooses to collect medical cannabidiol waste may use it for research and development or retained samples, but

the manufacturer shall not introduce medical cannabidiol returned from laboratory into lots of products intended for sale. Notwithstanding this provision, a manufacturer shall:

- a. Dispose of medical cannabidiol waste; and
- b. Maintain a written record of disposal.

154.32(2) *Medical cannabidiol and plant material waste.* A manufacturer shall store, secure, manage, and record medical cannabidiol waste and plant material waste in accordance with all applicable federal, state, and local regulations.

- a. The manufacturer shall dispose of medical cannabidiol waste and plant material waste at an approved facility.
- b. Before transport of plant material waste, the manufacturer shall render the plant material waste unusable and unrecognizable.
- c. A manufacturer shall dispose of all liquid and chemical product waste generated in the process of cultivating, manufacturing, and distributing medical cannabidiol in accordance with applicable regulations.

641—154.33(124E) Production requirements.

154.33(1) *Cultivation and processing.*

- a. All phases of production shall take place in designated, restricted access areas in accordance with rule 641—154.21(124E).
- b. The production process shall be designed to limit contamination.
- c. Each production area shall allow for access, observation, and inventory of each plant group.

154.33(2) *Crop inputs and plant batches.*

- a. The manufacturer shall use the secure sales and inventory tracking system to maintain an electronic record of all crop inputs. The record shall include the following:
 - (1) The date of input application;
 - (2) The name of the employee applying the crop input;
 - (3) The crop input that was applied;
 - (4) The plants that received the application; and
 - (5) A copy of or electronic link to the safety data sheet for the crop input applied.
- b. At the time of harvesting, all plants shall be tracked in a batch process with a unique batch number that shall remain with the batch through final processing into medical cannabidiol.
- c. Each batch or part of a batch of cannabis plants that contributes to a lot of medical cannabidiol shall be recorded in the secure sales and inventory tracking system or other manifest system.

154.33(3) *Production of medical cannabidiol.*

- a. A manufacturer shall obtain approval from the department for use of any hydrocarbon-based extraction process.
- b. Medical cannabidiol shall be prepared, handled, and stored in compliance with the sanitation requirements in this rule.
- c. A manufacturer shall produce shelf-stable, nonperishable forms of medical cannabidiol.
- d. A manufacturer shall ensure that the cannabinoid content of the medical cannabidiol it produces is homogenous.
- e. Each lot of medical cannabidiol shall be assigned a unique lot number and recorded in the secure sales and inventory tracking system or other manifest system.

154.33(4) *General sanitation requirements.* A manufacturer shall take all reasonable measures and precautions to ensure that:

- a. Any employee who has a communicable disease does not perform any tasks that might contaminate plant material or medical cannabidiol;
- b. Hand-washing facilities are:
 - (1) Convenient and furnished with running water at a suitable temperature;
 - (2) Located in all production areas; and
 - (3) Equipped with effective hand-cleaning and -sanitizing preparations and sanitary towel service or electronic drying devices;

c. All employees working in direct contact with plant material and medical cannabidiol use hygienic practices while on duty, including:

(1) Maintaining personal cleanliness; and

(2) Washing hands thoroughly in a hand-washing area before starting work and at any other time when the hands may have become soiled or contaminated;

d. Litter and waste are routinely removed and the operating systems for waste disposal are routinely inspected;

e. Floors, walls, and ceilings are constructed with a surface that can be easily cleaned and maintained in good repair to inhibit microbial growth;

f. Lighting is adequate in all areas where plant material and medical cannabidiol are processed, stored, or sold;

g. Screening or other protection against the entry of pests is provided, including that rubbish is disposed of to minimize the development of odor and the potential for the waste becoming an attractant, harborage, or breeding place for pests;

h. Any buildings, fixtures, and other facilities are maintained in a sanitary condition;

i. Toxic cleaning compounds, sanitizing agents, and other potentially harmful chemicals are identified and stored in a separate location away from plant material and medical cannabidiol and in accordance with applicable local, state, or federal law;

j. All contact surfaces, utensils, and equipment used in the production of plant material and medical cannabidiol are maintained in a clean and sanitary condition;

k. The manufacturing facility water supply is sufficient for necessary operations;

l. Employees have accessible toilet facilities that are sanitary and in good repair; and

m. Plant material and medical cannabidiol that could support the rapid growth of undesirable microorganisms are isolated to prevent the growth of those microorganisms.

154.33(5) Storage.

a. A manufacturer shall store plant material and medical cannabidiol during production, transport, and testing, ensuring that:

(1) Plant material and medical cannabidiol are returned to a secure location immediately after completion; and

(2) The tanks, vessels, bins, or bulk containers containing plant material or medical cannabidiol are locked inside a secure area.

b. A manufacturer shall store all plant material and medical cannabidiol during production, transport, and testing, and all saleable medical cannabidiol:

(1) In areas that are maintained in a clean, orderly, and well-ventilated condition; and

(2) In storage areas that are free from infestation by insects, rodents, birds, and other pests of any kind.

c. To prevent degradation, at all times, a manufacturer shall store all plant material and medical cannabidiol under conditions that will protect the product and its container against physical, chemical, and microbial contamination and deterioration.

d. A manufacturer shall maintain a separate secure storage area for medical cannabidiol that is returned from a dispensary.

154.33(6) Scales. All scales used to weigh usable plant material for purposes of these rules shall be certified in accordance with ISO/IEC 17025 dated 2017, which is incorporated herein by reference.

641—154.34(124E) Supply and inventory.

154.34(1) Reliable and ongoing supply. A manufacturer shall provide a reliable and ongoing supply of medical cannabidiol to medical cannabidiol dispensaries.

154.34(2) Inventory controls and procedures. A manufacturer shall establish inventory controls and procedures for conducting inventory reviews to prevent and detect any diversion, theft, or loss in a timely manner.

154.34(3) *Inventory tracking required.* A manufacturer shall use the secure sales and inventory tracking system to track medical cannabidiol production from seed or plant cutting through distribution of medical cannabidiol to a dispensary.

154.34(4) *Reconciliation.* No less often than every two calendar weeks, a manufacturer shall reconcile its physical inventory with the inventory recorded in the secure sales and inventory tracking system.

a. Reconciliation shall include:

- (1) Plant material at the manufacturing facility and in transit; and
- (2) Medical cannabidiol at the manufacturing facility.

b. Discrepancies between the physical inventory of the manufacturer and the inventory recorded in the secure sales and inventory system shall be handled as follows:

(1) A manufacturer shall report suspected diversion of medical cannabidiol to the department within 72 hours of discovery.

(2) A manufacturer shall have up to 72 hours to reconcile discrepancies in the manufacturer's physical inventory with the inventory recorded in the secure sales and inventory tracking.

DISPENSING

641—154.35(124E) Duties of the department.

154.35(1) *Inspection of dispensaries.* The department or its agents shall conduct regular inspections of dispensaries and their facilities.

154.35(2) *Establishment and maintenance of a secure sales and inventory tracking system.* The department shall establish and maintain a secure, electronic system that is available 24 hours a day, seven days a week to track:

a. Inventory of medical cannabidiol and waste material;

b. Sales of medical cannabidiol from dispensaries to patients and primary caregivers;

c. Total tetrahydrocannabinol purchased in the last 90 days by a patient and the patient's primary caregiver.

154.35(3) *Recall of medical cannabidiol products.* If the department determines, based on an evaluation of the health hazard presented, that there is a reasonable probability that use of, or exposure to, a violative medical cannabidiol product will cause a serious adverse health consequence or death, the department may require a dispensary to recall such violative medical cannabidiol products from the dispensary facility and from patients. An evaluation of the health hazard presented by medical cannabidiol being considered for recall shall be conducted by an ad hoc committee of scientists appointed by the director of the department and shall consider, but need not be limited to, each of the following factors:

a. Whether any disease or injuries have already occurred from the product.

b. Whether any existing conditions could contribute to a clinical situation that could expose humans to a health hazard. Any conclusion shall be supported as completely as possible by scientific documentation and/or statements that the conclusion is the opinion of the individual(s) making the health hazard determination.

c. A holistic assessment of the hazard and its present and future potential consequences.

154.35(4) *Permissible disclosure.* The department may disclose patient-specific dispensing data to the certifying provider upon written request by the patient, caregiver, or certifying provider.

641—154.36(124E) Dispensary operations.

154.36(1) *Operating documents.*

a. A dispensary shall maintain operating documents that accurately reflect the dispensary's standard operating procedures. Unless otherwise noted, a dispensary shall make the operating documents available to the department upon request, through secure means.

b. The operating documents of a dispensary shall include all of the following:

(1) Procedures for the oversight of the dispensary, including descriptions of operational and management practices regarding:

1. The forms and quantities of medical cannabidiol products that will be stored and dispensed at the dispensary;
2. The estimated forms and quantities of medical cannabidiol waste to be generated or collected;
3. The disposal methods for all waste materials;
4. Employee training methods for the dispensary employees;
5. Strategies for identifying and reconciling discrepancies in inventory of medical cannabidiol;
6. Procedures to ensure the dispensary does not dispense more than a patient's certified limit of total tetrahydrocannabinol to a patient and the patient's primary caregiver(s) in a 90-day period;
7. Medical cannabidiol labeling procedures;
8. Procedures for recall of medical cannabidiol;
9. Plans for responding to a security breach at the dispensary facility;
10. A business continuity plan; and
11. Other information requested by the department.

(2) Procedures to ensure accurate recordkeeping.

(3) Procedures for the implementation of appropriate security measures to deter and prevent the theft of medical cannabidiol and unauthorized entrance into areas of the dispensary facility containing medical cannabidiol.

154.36(2) Prohibited activities. In addition to following all provisions of Iowa Code section 124E.7, a dispensary shall not:

- a. Dispense medical cannabidiol in any location except in those areas approved by the department;
- b. Sell, receive, transport, or distribute medical cannabidiol from any location except its dispensary;
- c. Sell, receive, or distribute medical cannabidiol from any entity other than a manufacturer licensed by the department;
- d. Sell or distribute medical cannabidiol to any person other than an approved patient or primary caregiver;
 - (1) Transport or deliver medical cannabidiol to any location, unless approved by the department;
 - (2) Sell medical cannabidiol that is not packaged and labeled in accordance with rules;
 - (3) Repackage medical cannabidiol or remove the manufacturer's label.

641—154.37(124E) Recordkeeping requirements.

154.37(1) Dispensary sales. Within one business day of sale, a dispensary shall record complete and accurate electronic sales transaction records in the secure sales and inventory tracking system, including:

- a. The name of the patient and, if purchase is made by the primary caregiver, the name of the primary caregiver;
- b. The date and time of each sale;
- c. The item number, product name and description, and quantity of medical cannabidiol sold;
- d. The sale price;
- e. Other information required by the department.

154.37(2) Reserved.

641—154.38(124E) Storage.

154.38(1) Storage of saleable medical cannabidiol.

a. A dispensary shall store medical cannabidiol to prevent diversion, theft, or loss, including ensuring that:

- (1) Medical cannabidiol is kept in a secure and monitored location within the dispensary; and
- (2) Cabinets or storage containers inside the secure and monitored area are locked at the end of a business day.

b. A dispensary shall store all medical cannabidiol:

- (1) In areas that are maintained in a clean, orderly, and well-ventilated condition;

- (2) In areas that are free from infestation by insects, rodents, birds, and other pests of any kind;
- (3) According to the manufacturer's requirements regarding temperature, light exposure, or other environmental conditions;
- (4) Under conditions that will protect the product and its container against physical, chemical, and microbial contamination and deterioration.

154.38(2) *Storage of returned medical cannabidiol.* A dispensary shall maintain a separate secure storage area for medical cannabidiol that is to be returned to a manufacturer for disposal, including medical cannabidiol that is outdated, damaged, deteriorated, mislabeled, or contaminated, or whose containers or packaging has been opened or breached, until the medical cannabidiol is collected by a manufacturer.

641—154.39(124E) Dispensing.

154.39(1) *Access to all forms of product.* A dispensary shall provide access to all medical cannabidiol forms produced by each licensed manufacturer.

154.39(2) *Dispensing to a patient or primary caregiver.* Prior to dispensing any medical cannabidiol to a patient, a dispensary shall do all of the following:

a. Verify the patient or primary caregiver's identity using acceptable photo identification and is over 18 years of age. Acceptable photo identification includes:

- (1) A valid Iowa driver's license;
- (2) A valid Iowa nonoperator's identification card;
- (3) A U.S. passport;
- (4) A U.S. military ID or veteran ID;
- (5) A tribal ID card/document;

b. Verify that the patient and primary caregiver, if applicable, is registered and listed in the secure sales and inventory tracking system and has a valid medical registration card;

c. Check the secure sales and inventory tracking system for the patient's total tetrahydrocannabinol 90-day purchase limit and the amount of total tetrahydrocannabinol that the patient and the patient's primary caregiver(s) have purchased on behalf of the patient in the past 90 days to ensure that the amount of total tetrahydrocannabinol sold by the dispensary to the patient does not exceed the patient's purchase limit;

d. Assign a tracking number to any medical cannabidiol that is to be dispensed to the patient or primary caregiver;

e. Issue a label that contains the following information, which may be printed on a secondary label or package insert:

- (1) The medical cannabidiol tracking number;
- (2) The patient registration number;
- (3) The date and time the medical cannabidiol is dispensed;
- (4) The name and address of the dispensary; and
- (5) Any specific instructions for use based upon manufacturer guidelines or department rules.

Text shall not include any false, misleading, or unsubstantiated statements regarding health or physical benefits to the patient.

641—154.40(124E) Transportation of medical cannabidiol. A dispensary is not authorized to transport medical cannabidiol, unless approved by the department. Any approved transport shall be logged in the secure sales and inventory tracking system.

641—154.41(124E) Disposal of medical cannabidiol.

154.41(1) *Identification of excess, expired, or damaged medical cannabidiol.* Dispensaries shall identify unused, excess, expired, or damaged medical cannabidiol.

154.41(2) *Return of medical cannabidiol from a patient or primary caregiver to a dispensary.*

a. A dispensary shall accept at no charge medical cannabidiol waste from any patient or primary caregiver. A dispensary may provide all medical cannabidiol waste to the manufacturer for disposal.

b. The dispensary shall enter the following information into the secure sales and inventory tracking system for medical cannabidiol returned from a patient or primary caregiver being returned to the manufacturer:

- (1) The tracking number assigned at the time of the dispensing, if available, or the name of the patient, if the tracking number is unavailable;
- (2) The date the medical cannabidiol was returned;
- (3) The quantity of medical cannabidiol returned; and
- (4) The type and lot number of medical cannabidiol returned.

c. A dispensary shall store medical cannabidiol returned from patients and primary caregivers.

154.41(3) *Unused, excess, expired, damaged, or returned medical cannabidiol.* Unused, excess, expired, damaged, or returned medical cannabidiol shall be stored as described in subrule 154.38(2).

154.41(4) *Return of medical cannabidiol to a manufacturer.* A dispensary shall record information on all medical cannabidiol collected by the manufacturer in the secure sales and inventory tracking system. Information shall include:

- a. The date the medical cannabidiol was collected by the manufacturer;
- b. The quantity of medical cannabidiol collected; and
- c. The type and lot number of medical cannabidiol collected.

641—154.42(124E) Inventory.

154.42(1) *Inventory controls and procedures.* A dispensary shall establish inventory controls and procedures for conducting inventory reviews to prevent and detect any diversion, theft, or loss in a timely manner.

154.42(2) *Real-time inventory required.* A dispensary shall use the secure sales and inventory tracking system to maintain a real-time record of the dispensary's inventory of medical cannabidiol to include:

- a. The quantity and form of saleable medical cannabidiol maintained at the dispensary on a daily basis;
- b. The amount of damaged, expired, or returned medical cannabidiol being held at the dispensary for return to a manufacturer; and
- c. Other information deemed necessary and requested by the department.

154.42(3) *Reconciliation.* At least once a calendar week, a dispensary shall reconcile all medical cannabidiol with the inventory recorded in the secure sales and inventory tracking system. Discrepancies shall be handled as follows:

- a. A dispensary shall report suspected diversion of medical cannabidiol to the department and law enforcement within 24 hours of discovery.
- b. A dispensary shall have up to 24 hours to reconcile the dispensary's physical inventory with the inventory recorded in the secure sales and inventory tracking system. If the dispensary cannot reconcile the dispensary's physical inventory with the secure sales and inventory tracking system's inventory within 24 hours but diversion of product is not suspected, the dispensary shall immediately contact the department to report the discrepancy and to initiate a compliance action.

641—154.43(124E) Quality assurance and control. A dispensary shall cooperate with manufacturers and the department on quality assurance and control procedures, including participating in stability-testing studies, developing sampling strategies, and returning medical cannabidiol that has been recalled.

MEDICAL CANNABIDIOL BOARD

641—154.44(124E) Purpose and duties of board. The purpose of the board is to administer the provisions of Iowa Code section 124E.5.

641—154.45(124E) Organization of board and proceedings.

154.45(1) *Membership.* The board shall be composed of members as set forth in Iowa Code section 124E.5. The appointments, unless provided otherwise by law, shall be for three-year staggered terms which shall expire on June 30. Board members shall be knowledgeable about the use of medical cannabidiol. The medical practitioners appointed to the board shall be licensed in Iowa and be nationally board-certified in their area of specialty.

154.45(2) *Vacancies.* Vacancies shall be filled in the same manner in which the original appointments were made for the balance of the unexpired term.

154.45(3) *Absences.* Three consecutive unexcused absences shall be grounds for the governor to consider dismissal of a board member and to appoint another. Department staff is charged with providing notification of absences to the governor's office.

154.45(4) *Board meetings.*

a. Board meetings shall be conducted in accordance with the open meetings requirements of Iowa Code chapter 21.

b. The department's Bureau of Cannabis Regulation shall schedule the time, date and location of meetings.

c. A majority of the members shall constitute a quorum for conducting business of the board.

d. An affirmative vote of a majority of the board members present at a meeting is required for a motion to pass.

154.45(5) *Facilities and staffing.* The department shall furnish the board with the necessary facilities and employees to perform the duties required by this chapter but shall be reimbursed for all costs incurred by fee revenue generated from licensing activities and registration card applications.

154.45(6) *Subcommittees.* The board may designate one or more subcommittees to perform such duties as may be deemed necessary.

641—154.46(124E) *Petitions for the addition or removal of medical conditions, medical treatments or debilitating diseases.* Pursuant to Iowa Code section 124E.5(3) "a," the board shall accept and review petitions to modify the list of debilitating medical conditions for the medical use of cannabidiol. The petition shall be in accordance with 441—Chapter 4, except that the caption should read "Petition for Addition or Removal."

154.46(1) *Inquiries.* Inquiries concerning the status of a petition may be made to the bureau of cannabis regulation at the department's address.

154.46(2) *Additional information.* The board may request the petitioner to submit additional information concerning the petition. The board may also solicit comments from any person on the substance of the petition. Comments on the substance of the petition may be submitted to the board by any person.

154.46(3) *Presentation to the board.* The board may request or allow the petitioner to make an oral presentation of the contents of a petition at a board meeting following submission of the petition.

154.46(4) *Board response.* The board shall notify the petitioner in writing of the decision within six months after the filing, unless the petitioner agrees to a time extension. If the petition is granted, the board will recommend addition or removal of the medical condition, medical treatment or debilitating disease to the board of medicine. If the petition is denied the board will provide the rationale for the denial. Notification occurs when the board mails the writing to the petitioner.

154.46(5) *Denials.* Denial of a petition because it does not substantially conform to the required form does not preclude the filing of a new petition on the same subject that seeks to eliminate the grounds for the agency's rejection of the petition.

LABORATORY TESTING

641—154.47(124E) *Requirements of the department.*

154.47(1) *Laboratory testing requirements and acceptance criteria.* The department shall work with manufacturers and laboratories to create and maintain a document describing required sampling methodology, acceptance criteria, stability-testing procedures, and other guidance for manufacturers

and laboratories on testing procedures. The department shall provide manufacturers and laboratories no less than 14 days in which to comment on proposed revisions to the document, and the department shall provide no less than 30 days' notice before a revision takes effect. The document shall:

- a. Describe the minimum number of sample units and reserve samples required for testing by the laboratory;
- b. Describe an option for manufacturers to reduce the amount of testing conducted by allowing compositing of sample units or other techniques that reduce the number of tests required without compromising the safety of the products once a manufacturer has satisfactorily completed a control study for a specific extraction or production process;
- c. Describe the minimum requirements for sample size and testing intervals for stability testing;
- d. Be available on the department's website (hhs.iowa.gov).

154.47(2) *Review and approval of manufacturer sampling protocols.* The department shall have two weeks to review and approve or request revisions to a manufacturer's sampling protocols.

154.47(3) *Review and approval of manufacturer stability-testing procedures.* The department shall have two weeks to review and approve or request revisions to a manufacturer's stability-testing procedures.

154.47(4) *Establish a laboratory review committee.* The department shall establish a laboratory review committee to assist with the review of applications by laboratories and the establishment of accepted laboratory testing standards and practices.

154.47(5) *Review of laboratory applications.* The department shall establish a process to review applications from prospective medical cannabidiol testing laboratories. Prospective laboratories shall apply on a form created by the department. The department will determine whether the laboratory meets the criteria for an independent medical cannabidiol testing facility as set forth in the definition of "laboratory" in Iowa Code section 124E.2 in addition to determining whether the laboratory meets laboratory requirements pursuant to these rules.

154.47(6) *Regulation of independent laboratories.* The department shall determine on an annual basis whether any approved independent laboratory continues to meet the application criteria of this rule. The department shall establish a process for the annual review of approved independent laboratories. An independent laboratory is subject to reasonable inspection by the department, a department-approved consultant, or other agency pursuant to Iowa Code chapter 124E and these rules and as authorized by laws and regulations.

641—154.48(124E) Requirements of a laboratory.

154.48(1) *Minimum testing requirements.* A laboratory shall establish and implement test methods, corresponding standard operating procedures for the analyses of cannabinoids, residual solvents and processing chemicals, pesticides, microbiological impurities, and metals and other analyses as requested by the department.

154.48(2) *Level of quantitation.* A laboratory shall be able to demonstrate that its level of quantitation (LOQ) is below any action level established by the department.

154.48(3) *Inventory tracking.* A laboratory shall record the following:

- a. The receipt of medical cannabidiol from a manufacturer for testing.
- b. The return of medical cannabidiol or waste to a manufacturer.

154.48(4) *Hazardous waste disposal.* A laboratory shall do the following when dealing with hazardous waste:

- a. Discard hazardous waste, including hazardous waste containing medical cannabis goods, in accordance with federal and state hazardous waste laws.
- b. Document the waste disposal procedures followed for each sample.

641—154.49(124E) Requirements of a manufacturer.

154.49(1) *Assuming costs.* A manufacturer shall assume the costs for all laboratory testing pertaining to verification studies on new products, the cost of standard testing protocols as outlined in a Laboratory

Acceptance and Criteria Document and other tests as requested by the department. A manufacturer shall provide any necessary reference materials to the laboratory at no cost.

154.49(2) *Obtaining approval for sampling protocols.* A manufacturer shall obtain approval from the department for the manufacturer's sampling protocols prior to submitting samples for laboratory testing related to content and contamination.

154.49(3) *Obtaining approval for stability-testing procedures.* A manufacturer shall obtain approval from the department for the manufacturer's stability-testing procedures prior to submitting samples for laboratory testing related to stability testing and product-expiration-date studies.

641—154.50(124E) Content testing.

154.50(1) *Cannabinoids.*

a. For each unique lot of medical cannabidiol, and if asked to do so by a requester for other medical cannabis goods, a laboratory shall, at minimum, test for and report measurements for the following cannabinoid analytes:

- (1) THC;
- (2) THCA;
- (3) CBD; and
- (4) CBDA.

b. A laboratory shall report that the primary sample passed or failed THC and CBD potency testing according to guidance in the laboratory testing requirements and acceptance criteria document described in subrule 154.47(1).

c. For each cannabinoid analyte test, a laboratory shall issue a certificate of analysis that contains the following:

(1) Concentrations of cannabinoid analytes in mg/ml for liquids and mg/g for solids, or other measures approved by the department.

(2) Whether the primary sample passed or failed the test in accordance with paragraph 154.50(1)“*b.*”

d. The laboratory may test for and provide test results for additional cannabinoid analytes if asked to do so by a requester.

154.50(2) *Contaminants testing.*

a. For each unique lot of medical cannabidiol, unless otherwise referenced in the laboratory testing requirements and acceptance criteria document described in subrule 154.47(1), a laboratory shall conduct contaminants testing, for the following analytes:

- (1) Residual solvents and processing chemicals.
- (2) Pesticides.
- (3) Microbiological impurities.
- (4) Heavy metals.

b. The laboratory may test and provide test results for additional contaminants if asked to do so by a requestor.

c. The department shall provide a list of contaminants for which primary samples are to be tested with corresponding action levels on the department's website (hhs.iowa.gov).

d. For each contaminant for which a laboratory tests, the laboratory shall report that the primary sample passed the testing if the concentration of contaminant is at or below the action level approved by the department.

e. For each contaminant for which a laboratory tests, the laboratory shall report that the primary sample failed the testing if the concentration of contaminants is above the action level approved by the department.

f. If a laboratory is using GC-mass spectrometry instrumentation to analyze primary samples for contaminants and the laboratory determines that a primary sample contains contaminants or chemical analytes that are not included in the department-approved list of required tests, the laboratory shall attempt to achieve tentative identification and semiquantitative results of the contaminants analytes.

g. The laboratory may test for and provide test results for additional contaminants or processing chemicals if asked to do so by a requester.

h. For each primary sample tested, a laboratory shall issue a certificate of analysis that contains the following:

(1) The name and concentration of each contaminant for which the primary sample was tested.

1. The concentrations shall be listed in parts per million (ppm) or other units as determined by the department.

2. The laboratory shall report a result of “detected but not quantified” for any contaminant that falls below the LOQ, has a signal-to-noise ratio of greater than 3:1, and meets identification criteria.

(2) Whether the primary sample passed or failed the test in accordance with paragraphs 154.50(2) “c” and “d.”

(3) The names and amounts of any additional contaminants identified by the laboratory.

i. If the primary sample fails testing for residual solvents and processing chemicals, the lot fails laboratory testing.

j. When a laboratory identifies additional contaminants in a primary sample, the laboratory shall:

(1) Notify the department of the additional contaminants and the amounts detected, if applicable.

(2) Refrain from issuing a final certificate of analysis until given approval to do so by the department.

641—154.51(124E) Reporting requirements.

154.51(1) Reporting test results. The laboratory shall generate a certificate of analysis for each primary sample that it tests and make the certificate of analysis available to the manufacturer and the department.

154.51(2) Tentatively identified analytes. A laboratory shall report on the certificate of analysis any tentatively identified analytes detected during the analysis of the primary sample. When a laboratory identifies additional analytes in a primary sample, the laboratory shall:

a. Notify the department of the additional analytes detected.

b. Refrain from issuing a final certificate of analysis until given approval to do so by the department.

154.51(3) Additional reporting requirements. In addition to the requirements described in rule 641—154.50(124E), the certificate of analysis shall contain, at a minimum, the following information:

a. All requirements of ISO/IEC 17025 dated 2017;

b. Date of primary sample collection;

c. Date the primary sample was received by the laboratory;

d. Date of each analysis;

e. The LOQ and action level for each analyte, as applicable;

f. Whether the primary sample and lot passed or failed laboratory testing; and

g. A signature by the laboratory quality officer or delegate and the date the certificate of analysis was validated as being accurate by the laboratory quality officer or delegate.

154.51(4) Measurements.

a. Any test result that is not covered under the laboratory’s ISO/IEC 17025 scope of accreditation shall be clearly identified on the certificate of analysis.

b. Measurements below a method’s limit of detection shall be reported as “<” (less than) or “not detected” and reference the reportable limit. The reporting of zero concentration is not permitted.

c. Measurements greater than or equal to LOD but less than LOQ shall be reported as “detected but not quantified.”

d. The number of significant figures reported shall reflect the precision of the analysis.

641—154.52(124E) Recordkeeping requirements.

154.52(1) Data package. A laboratory shall create a data package for each analytical batch of primary samples that the laboratory analyzes. The data package shall contain at minimum the following information:

- a. The name and address of the laboratory that performed the analytical procedures;
- b. The names, functions, and signatures (electronic or handwritten) of the laboratory personnel that performed the primary sample preparation, analyzed the primary samples, and reviewed and approved the data;
- c. All primary sample and analytical batch quality control sample results;
- d. Raw data for each primary sample analyzed;
- e. Instrument raw data, if any was produced;
- f. Instrument test method with parameters;
- g. Instrument tune report, if one was created;
- h. All instrument standard calibration data;
- i. Test-method worksheets or forms used for primary sample identification, characterization, and calculations, including chromatograms, sample-preparation worksheets, and final datasheets;
- j. The quality control report with worksheets, forms, or copies of laboratory notebook pages containing pertinent information related to the identification and traceability of all reagents, reference materials, and standards used for analysis;
- k. The analytical batch sample sequence;
- l. The field sample log; and
- m. The chain-of-custody form.

154.52(2) Review of data package. After the laboratory has compiled a data package, an individual at the laboratory who was not previously involved in the creation of the data package shall:

- a. Assess the analytical results for technical correctness and completeness;
- b. Verify that the results of each analysis carried out by the laboratory are reported accurately, clearly, unambiguously, and objectively;
- c. Verify that the measurements can be traced back; and
- d. Approve the measurement results by signing and dating the data package prior to release of the certificate of analysis by the laboratory.

154.52(3) Data package record retention. The entire data package shall be stored by a laboratory for a minimum of five years and shall be made available upon request by the department or the requester of the laboratory testing.

154.52(4) Other records. A laboratory shall maintain all documents, forms, records, and standard operating procedures associated with the testing of medical cannabidiol.

a. A laboratory shall maintain analytical testing laboratory records in such a manner that the analyst, the date the analysis was performed, the approver of the certificate of analysis, the reviewer and approver of the data package, the test method, and the materials that were used can be determined by the department.

b. Records shall be stored in such a way that the data may be readily retrieved when requested by the department.

c. All testing laboratory records shall be kept for a minimum of five years, unless otherwise noted in these rules.

d. The department shall be allowed access to all electronic data, including standards records, calibration records, extraction logs, and laboratory notebooks.

e. A laboratory shall keep and make available to the department the following records related to the testing of medical cannabidiol:

(1) Personnel qualification, training, and competency documentation, including but not limited to résumés, training records, continuing education records, analytical proficiency testing records, and demonstration of competency records for laboratory work. These records shall be kept current.

(2) Method verification and validation records, including method modification records, method detection limit and quantitation limit determination records, ongoing verification records such as proficiency test records and reference material analysis records.

(3) Quality control and quality assurance records, including the laboratory's quality assurance manual and control charts with control limits.

(4) Chain-of-custody records, including chain-of-custody forms, field sample logs, sample-receipt records, sample-description records, sample-rejection records, laboratory information management system records, sample-storage records, sample-retention records, and disposal records.

(5) Purchasing and supply records, equipment-services records, and other equipment records, including purchase requisition records, packing slips, supplier records, and certificates of analysis.

(6) Laboratory equipment installation records, maintenance records, and calibration records. These records shall include the date and name of the person performing the installation of, calibration of, or maintenance on the equipment, with a description of the work performed, maintenance logs, pipette calibration records, balance calibration records, working and reference mass calibration records, and daily verification-of-calibration records.

(7) Customer service records, including customer contracts, customer requests, certificates of analysis, customer transactions, customer feedback, records related to the handling of complaints and nonconformities, and corrective action pertaining to complaints.

(8) Nonconforming work and corrective action records, including corrective action, nonconformance, nonconformities resolved by correction, customer notification of nonconformities, internal investigations, implementation of corrective action, and resumption-of-work records.

(9) Internal-audit and external-audit records, including audit checklists, standard operating procedures, and audit observation and findings reports. These records shall include the date and name of the person performing the audit.

(10) Management review records, including technical data review reports and final management-review reports. These records shall include the review date and the name of the reviewer.

(11) Laboratory data reports, data review, and data approval records, including instrument and equipment identification records, records with unique sample identifiers, analysts' laboratory notebooks and logbooks, traceability records, test-method worksheets and forms, instrumentation-calibration data, and test-method raw data. These records shall include the analysis date and the name of the analyst.

(12) Proficiency testing records, including the proficiency test schedule, proficiency tests, data-review records, data-reporting records, nonconforming work and corrective actions, and quality control and quality assurance records related to proficiency testing.

(13) Electronic data, backed-up data, records regarding the protection of data, including unprocessed instrument output data files and processed quantitation output files, electronic data protocols and records, and authorized personnel records.

(14) Security data, including laboratory-security records and laboratory-access records, surveillance-equipment records, and security-equipment records. These records shall be stored for at least one year.

(15) Traceability, raw data, standards records, calibration records, extraction logs, reference materials records, analysts' laboratory notebooks and logbooks, supplier records, and certificates of analysis, and all other data-related records.

(16) Laboratory contamination and cleaning records, including autoclave records, acid-wash logs and records, and general laboratory-safety and chemical-hygiene protocols.

641—154.53(124E) Quality control. The laboratory shall have quality control protocols that include the following elements:

154.53(1) *Quality control samples required.*

a. The laboratory shall run quality control samples with every analytical batch of samples for chemical and microbiological analysis.

b. For microbiological analysis, the laboratory shall develop procedures for quality control requirements for each analytical batch of samples.

c. The laboratory shall analyze the quality control samples in exactly the same manner as the test samples to validate the laboratory testing results.

154.53(2) *Types of quality control samples.* At a minimum, a laboratory shall have the following quality control samples as part of every analytical batch tested for chemical analytes:

a. Negative control (method blank). A laboratory shall prepare and run at least one method blank sample with an analytical batch of samples along with and under the same conditions, including all sample preparation steps, as the other samples in the analytical batch, to demonstrate that the analytical process did not introduce contamination.

b. Positive control (laboratory control sample). A laboratory shall prepare and run at least one laboratory control sample with an analytical batch of samples along with and under the same conditions, including all sample preparation steps, as the other samples in the analytical batch.

c. Matrix spike sample. A laboratory shall prepare and run one or more matrix spike samples for each analytical batch.

(1) A laboratory shall calculate the percent recovery for quantitative chemical analysis by dividing the sample result by the expected result and multiplying that by 100. All quality control measures shall be assessed and evaluated on an ongoing basis, and quality control acceptance criteria shall be used. When necessary, the department may establish acceptance criteria on the department's website (hhs.iowa.gov).

(2) If quality control acceptance criteria are not acceptable, a laboratory shall investigate the cause, correct the problem, and rerun the analytical batch of samples. If the problem persists, the laboratory shall reprepare the samples and run the analysis again, if possible.

d. Field duplicate sample. A laboratory shall prepare and run a duplicate sample as described in the laboratory testing requirements and acceptance criteria document in subrule 154.47(1). The acceptance criterion between the primary sample and the duplicate sample is less than or equal to 20 percent relative percent difference.

154.53(3) *Certified reference material for chemical analysis.* The laboratory shall use a reference material for each analytical batch in accordance with the following standards:

a. The reference material should be certified and obtained from an outside source, if possible. If a reference material is not available from an outside source, the laboratory shall make its own in-house reference material.

b. Reference material made in-house should be made from a different source of standards than the source from which the calibration standards are made.

c. The test result for the reference material shall fall within the quality control acceptance criteria. If it does not, the laboratory shall document and correct the problem and run the analytical batch again.

154.53(4) *Calibration standards.* The laboratory shall prepare calibration standards by serially diluting a standard solution to produce working standards used for calibration of an instrument and quantitation of analyses in samples.

154.53(5) *Quality control-sample report.* A laboratory shall generate a quality control-sample report that includes quality control parameters and measurements, analysis date, and type of matrix.

154.53(6) *Limit-of-detection and limit-of-quantitation calculations.* For chemical method analysis, a laboratory shall calculate the limit of detection and limit of quantitation using generally accepted methodology.

641—154.54(124E) Security requirements.

154.54(1) *Security policy requirement.* A laboratory shall maintain a security policy to prevent the loss, theft, or diversion of medical cannabidiol samples. The security policy shall apply to all staff and visitors at a laboratory facility.

154.54(2) *Restricted access.* A laboratory shall limit entrance to all restricted areas by completing all of the following:

a. The controlled access system shall do all of the following:

(1) Limit access to authorized individuals;

(2) Maintain a log of individuals with approved access, including dates of approvals and revocations;

(3) Track times of personnel to and exit from the laboratory;

(4) Track times of personnel movement between restricted access areas;

(5) Store data for retrieval for a minimum of one year; and

(6) Remain operable in the event of a power failure.

b. A laboratory shall promptly, but no later than five business days after receipt of request, submit stored controlled access system data to the department.

154.54(3) Personnel identification system. A laboratory shall use a personnel identification system that controls and monitors individual employee access to restricted access areas within the laboratory facility.

a. An employee identification card shall contain:

- (1) The name of the employee;
- (2) The date of issuance and expiration;
- (3) An alphanumeric identification number that is unique to the employee; and
- (4) A photographic image of the employee.

b. A laboratory employee shall keep the identification card visible at all times when the employee is in the laboratory.

c. Upon termination or resignation of an employee, a laboratory shall immediately:

- (1) Revoke the employee's access to the laboratory; and
- (2) Obtain and destroy the employee's identification card, if possible.

154.54(4) Video monitoring and surveillance. A laboratory shall operate and maintain in good working order a video surveillance system for its premises that operates 24 hours per day, seven days a week, and visually records all areas where medical cannabis goods are stored or tested.

a. *Camera specifications.* Cameras shall:

- (1) Capture clear and certain identification of any person entering or exiting a restricted access area containing medical cannabis goods;
- (2) Produce a clear, color still photograph live or from a recording;
- (3) Have an embedded date-and-time stamp that is synchronized to the recording and does not obscure the picture; and
- (4) Continue to operate during a power outage.

b. *Video recording specifications.* Video recording equipment shall:

- (1) Export still images in an industry standard image format, such as .jpg, .bmp, or .gif.
- (2) Archive in a format that ensures authentication and guarantees that the recorded image has not been altered.
- (3) Save exported video shall also be saved in an industry standard file format that can be played on a standard computer operating system.
- (4) All recordings shall be erased or destroyed at the end of the retention period and prior to disposal of any storage medium.

c. *Additional requirements.* A laboratory shall maintain all security system equipment and recordings in a secure location to prevent theft, loss, destruction, corruption, and alterations.

d. *Retention.* A laboratory shall ensure that 24-hour recordings from all video cameras are:

- (1) Available for viewing by the department upon request;
- (2) Retained for a minimum of 60 days;
- (3) Maintained free of alteration or corruption; and
- (4) Retained longer, as needed, if a laboratory is given actual notice of a pending criminal, civil, or administrative investigation, or other legal proceeding for which the recording may contain relevant information.

154.54(5) Chain-of-custody policy and procedures. A laboratory shall maintain a current chain-of-custody policy and procedures. The policy should ensure that:

a. Chain of custody is maintained for samples which may have probable forensic evidentiary value; and

b. Annual training is available for individuals who will be involved with testing medical cannabis goods.

154.54(6) Information technology systems security. A laboratory shall maintain information technology systems protection by employing comprehensive security controls that include security

firewall protection, antivirus protection, network and desktop password protection, and security patch management procedures.

These rules are intended to implement Iowa Code chapter 124E.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 177
“Health Data”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 1996 Iowa Acts, chapter 1212, and Iowa Code section 135.166

State or federal law(s) implemented by the rulemaking: Iowa Code chapter 135

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

Via video/conference call:
meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

This proposed rulemaking provides that hospitals must submit data to a selected contractor of HHS. The contractor serves as an intermediary of HHS and completes data collection, maintenance, and dissemination to HHS and on HHS’ behalf. It also allows HHS to charge fees for administrative costs related to providing data and requires data be kept confidential in compliance with state and federal law.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Individuals do not bear any cost of this rulemaking.
 - Classes of persons that will benefit from the proposed rulemaking:
All Iowans will benefit since this is a complete dataset representative of all incidents requiring inpatient or outpatient care.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There is no quantitative impact associated with this chapter.
 - Qualitative description of impact:
Availability of data allows for evaluations and analyses of acute and chronic conditions to improve public health, improve the quality of health services in Iowa, and design public health programs and interventions. It also allows for data availability to provide aggregate and statistical data to partners and the public.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:
No costs to the State are identified. Minimal personnel time is allocated to maintaining this dataset and all work fits into other duties as assigned.
 - Anticipated effect on state revenues:
No impact has been identified.
4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:
Nominal costs are absorbed into other duties as assigned, and less information would be available to quantify health-related needs of Iowans if this rulemaking did not exist.
5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:
HHS is collecting health data in accordance with the requirements of the Iowa Code. A less costly method has not been identified to achieve the purpose of this rulemaking.
6. Alternative methods considered by the agency:
- Description of any alternative methods that were seriously considered by the agency:
HHS implements health data collection in accordance with the requirements of the Iowa Code and Iowa Acts.
 - Reasons why alternative methods were rejected in favor of the proposed rulemaking:
Identified alternatives have not been seriously considered because any alternatives are anticipated to require additional HHS resources for implementation.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 177 and adopt the following **new** chapter in lieu thereof:

CHAPTER 177 HEALTH DATA

641—177.1(76GA,ch1212) Definitions. For purposes of this chapter, the following definitions shall apply:

“Confidential record” means a record which is not available as a matter of right for examination and copying by members of the public under applicable provisions of law. Confidential records include records or information contained in records that the agency is prohibited by law from making available for examination by members of the public, and records or information contained in records that are specified as confidential by Iowa Code section 22.7, or other provision of law, but that may be disclosed upon order of a court, the lawful custodian of the record, or by another person duly authorized to release the record. Mere inclusion in a record of information declared confidential by an applicable provision of law does not necessarily make that entire record a confidential record. Included in the definition are those data collected by the department, pursuant to 1996 Iowa Acts, chapter 1212, for preparation and dissemination as compilations.

“Record” means the whole or a part of a “public record” as defined in Iowa Code section 22.1, that is owned by or in the physical possession of this agency.

641—177.2(76GA,ch1212) Description of data to be submitted.

177.2(1) The department shall collect information from other state agencies for the purpose of public dissemination of health data.

177.2(2) Hospitals shall submit data to the contractor selected through the request for proposal process, which shall serve as an intermediary for the department. The information shall include inpatient, outpatient and ambulatory information.

177.2(3) The contractor selected through the request for proposal process shall collect, maintain, and disseminate hospital inpatient, outpatient, and ambulatory information pursuant to a memorandum of understanding with the department. The contractor selected through the request for proposal process shall submit data to the department pursuant to the memorandum of understanding.

641—177.3(76GA,ch1212) Fees. An hourly fee may be charged for fulfilling a data request. The hourly fee shall not exceed the estimated hourly wage of the department employee fulfilling the data request.

641—177.4(76GA,ch1212) Patient confidentiality. The department shall protect patient confidentiality. Confidential records or parts of such records collected as a part of this process shall be kept confidential. All health data shall be collected, maintained, and disseminated only in accordance with Iowa and federal law.

These rules are intended to implement 1996 Iowa Acts, chapter 1212, section 5, and Iowa Code section 135.166.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 193
“Impaired Practitioner Review Committee”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 272C.3(1)“k”
State or federal law(s) implemented by the rulemaking: Iowa Code section 272C.3(1)“k”

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:20 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Kane Young
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.724.3216
Email: kane.young@dia.iowa.gov

Purpose and Summary

This rulemaking proposes repromulgation of 641—Chapter 193, “Impaired Practitioner Review Committee,” and implements Iowa Code section 272C.3(1)“k” in accordance with the goals of Executive Order 10 (January 10, 2023). This proposed rulemaking explains the processes of the impaired practitioner review committee and how the committee supports the recovery or rehabilitation of licensees. The committee is composed of at least one practitioner licensed under the same or similar professional licensing board who has successfully completed a board-approved recovery program and board-ordered probation and remained free of addiction for at least two years; one practitioner with expertise in substance abuse disorder, dependency, or addiction treatment programs; and one member of the public. The goal of this composition is to ensure the committee is well-rounded and has expertise in addiction and recovery, in addition to having members with pertinent perspectives to balance the needs of the licensee with protection of the public. Because this program is confidential, and participation is not a matter of public record, specific eligibility criteria must be met to ensure that matters that may need to be addressed by a professional licensing board are routed appropriately. Substantively, the goal of the terms of participation is to ensure that a licensee is safe to practice their profession through ongoing committee monitoring. Participants enter into a contract with the committee and agree to adhere to all terms and agreements set forth in the contract. If a contract provision is breached that poses an immediate risk to the public, the committee will immediately refer the matter to a professional licensing board for appropriate action to protect the public. Participation does not relieve a professional licensing board or licensee of any duties or consequences related to violations of the standards of practice, nor does it divest a professional licensing board of its authority. The committee also will refer any violations of the laws or rules governing the licensee’s practice to a professional licensing board

for appropriate action. All information related to participation in this program is confidential, including names of participants.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no specific financial costs for implementation or enforcement of these proposed rules outside of the Public Health Department's general administrative oversight of ensuring eligibility requirements are met. Costs associated with committee membership are incurred in accordance with Iowa Code section 272C.3(1)"k," as members of the committee receive actual expenses for the performance of their duties and are eligible to receive per diem compensation pursuant to Iowa Code section 7E.6.

There are costs to the licensee. To be eligible for the program, a licensee must have a diagnosed impairment. This is often determined through a substance abuse or other type of evaluation to assess the potential impairment. Evaluations are conducted at the expense of the licensee. The terms of the contract set forth requirements the licensee must meet in order to participate in the program. This could include requirements to see a therapist, random drug screens, Alcoholics Anonymous meetings, etc. Requirements are based on the eligibility evaluation, as well as the unique needs of each licensee. Any contract requirements are conducted at the expense of the licensee.

- Classes of persons that will benefit from the proposed rulemaking:

The impaired practitioner program gives licensees an opportunity to receive the treatment they need and be rehabilitated. This sets up the licensees who complete the program to safely and successfully continue their practice, benefiting the public and licensees alike.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

If a licensee participates in the impaired licensee program, the licensee will have associated costs, such as evaluations, therapy and/or treatment and potential loss of income. Depending on the licensee's impairment, a professional licensing board may find that practice restrictions are necessary until the licensee is rehabilitated. This could limit the licensee's ability to work in the profession for a period of time. However, the purpose of the program is to limit the disruption in the licensee's profession while ensuring the public is receiving safe services. The program is confidential, which allows the licensee to seek rehabilitation without the licensee's business being affected by public knowledge of the impairment.

- Qualitative description of impact:

The availability of an impaired practitioner committee, generally, helps ensure important services remain available to Iowans by enabling licensees to practice the professions they have invested time and money into learning while protecting the public from licensees whose struggles with substance abuse or another mental or physical disorder or disability may otherwise impair their ability to practice with reasonable skill and safety. Any costs of this program associated with the Department's general administrative oversight of it are justified by the increased availability of needed services to Iowans and the contributions of the licensee's work and tax contributions to the overall economy.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to review applications and monitor participants of the program.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The availability of this program helps ensure important services remain available to Iowans by ensuring that licensees can practice the professions they have invested time and money into learning while protecting the public from licensees whose struggles with substance abuse or another mental or physical disorder or disability may otherwise impair their ability to practice with reasonable skill or safety. Any costs of this program associated with the Department's general administrative oversight of it are justified through the availability of needed services to Iowans and the contributions of the licensee's work and tax contributions to the overall economy. The program offers an alternative to a discipline program, which is highly preferred to public discipline for licensees who struggle with a substance abuse disorder or mental or physical disorder or disability. To ensure that this program meets the intended need of supporting licensees with impairments without endangering the public, eligibility criteria are essential to ensure the program is serving its intended population.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

This program is less restrictive than discipline. The program is not punitive, and it is confidential. The program provides the ability for individuals dealing with impairment to heal privately while simultaneously being monitored by a qualified group of professionals to ensure the public is protected. The costs of the program are individually based and determined by the evaluations and needs of the licensee. At this time, the Department has not identified a less restrictive alternative for the impaired practitioner review committee.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

At this time, the Department has not identified any alternative methods for the impaired practitioner review committee.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Iowa Code section 272C.3(1)“k” requires that the Department establish a licensee review committee for the purpose of evaluating and monitoring licensees who are impaired as a result of alcohol or drug abuse, dependency, or addiction, or by any mental or physical disorder or disability. This program is an alternative to a discipline program that is highly preferred to public discipline. In order to ensure that this program is meeting the intended need of supporting licensees with impairments, eligibility criteria and terms of participation in the program are essential to ensure the program is serving its intended purpose and population. This program is the least restrictive alternative to accomplish the intended benefit of Iowa Code section 272C.3(1)“k.”

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking provides an alternative for small business licensees who may be encountering impairment. Instead of being subject to discipline procedures, the licensee may enter the confidential program to seek assistance. When the licensee graduates from the program, the licensee will gain full privilege of licensure. Disciplinary proceedings are often costly for the licensee to hire legal counsel and can result in suspension or revocation of the license. This program allows the licensee to maintain the license and be monitored to ensure safe practice for all Iowans.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 193 and adopt the following **new** chapter in lieu thereof:

CHAPTER 193
IMPAIRED PRACTITIONER REVIEW COMMITTEE

641—193.1(272C) Definitions. For the purpose of these rules, the following definitions apply:

“*Committee*” means the impaired practitioner review committee as established by a licensing board pursuant to the authority of Iowa Code section 272C.3(1) “k.”

“*Contract*” means the written document establishing the terms for participation in the impaired practitioner program prepared by the committee.

“*Impairment*” means an inability to practice with reasonable safety and skill as a result of substance abuse disorder, dependency, or addiction or any mental or physical disorder or disability.

“*Licensing board*” or “*board*” means “licensing board” or “board” as defined in Iowa Code section 272C.1.

“*Practitioner*” means a person licensed under Iowa Code chapter 105, 147, 148C, 149, 152B, 152C, 152D, 154A, 154E, or 155.

“*Self-report*” means the licensee’s providing written or oral notification to the board that the licensee has been or may be diagnosed as having an impairment prior to the board’s receiving a complaint or report alleging the same from a second party.

641—193.2(272C) Purpose. The impaired practitioner review committee evaluates, assists, monitors and, as necessary, makes reports to the licensing board on the recovery or rehabilitation of practitioners who self-report impairments. These rules do not apply to an impaired practitioner review committee governed by other administrative rule or statute.

641—193.3(272C) Composition of the committee. The chairperson of the board shall appoint the members of the committee. The committee will meet as necessary in order to review licensee compliance, develop consent agreements for new referrals, and determine eligibility for continued monitoring. The membership of the committee includes, but is not limited to:

193.3(1) One practitioner, licensed under the same board or similar professional licensing board who has successfully completed a board-approved recovery program and board-ordered probation for substance abuse disorder, dependency, or addiction and who has remained free of addiction for a period of no less than two years.

193.3(2) One practitioner with expertise in substance abuse disorder, dependency, or addiction treatment programs.

193.3(3) One public member of the board.

641—193.4(272C) Eligibility. To be eligible for participation in the impaired practitioner recovery program, a licensee must meet all of the following criteria:

193.4(1) The licensee self-reports an impairment or suspected impairment directly to the office of the board.

193.4(2) The licensee has not engaged in the unlawful diversion or distribution of controlled substances or illegal substances.

193.4(3) At the time of the self-report, the licensee is not already under board order for an impairment or any other violation of the laws and rules governing the practice of the profession.

193.4(4) The licensee has not caused harm or injury to a client.

193.4(5) There is currently no board investigation of the licensee that, as determined by the committee, concerns serious matters related to the ability to practice with reasonable safety and skill or in accordance with the accepted standards of care.

193.4(6) The licensee has not been subject to a civil or criminal sanction or ordered to make reparations or remuneration by a government or regulatory authority for actions that the committee determines to be serious infractions of the laws, administrative rules, or professional ethics related to the practice of the licensee's profession.

193.4(7) The licensee has provided truthful information and fully cooperated with the board or committee.

641—193.5(272C) Terms of participation in the impaired practitioner recovery program. A licensee shall agree to comply with the terms for participation in the impaired practitioner recovery program established in a contract. Conditions placed upon the licensee and the duration of the monitoring period will be established by the committee and communicated to the licensee in writing.

193.5(1) *Noncompliance.* Failure to comply with the provisions of the contract will result in the committee immediately referring the matter to the board for possible disciplinary action.

193.5(2) *Practice limitations.* The committee may impose limitations on the licensee's practice as a term of the contract until such time as the committee receives a report from an approved evaluator that the licensee is capable of practicing with reasonable safety and skill.

a. As a condition of participating in the program, a licensee must agree to limited practice in accordance with the terms specified in the contract.

b. In the event that the licensee refuses to agree to or comply with the limitations established in the contract, the committee will refer the licensee to the board for appropriate action.

641—193.6(272C) Limitations. The committee establishes the terms and monitors a participant's compliance with the program specified in the contract. The committee is not responsible for participants who fail to comply with the terms of or successfully complete the impaired practitioner program. As set forth in Iowa Code section 272C.3(1) "k," participation in the program does not relieve the board of any duties or divest the board of any authority or jurisdiction otherwise provided. Any violation of the statutes or rules governing the practice of the licensee's profession by a participant will be referred to the board for appropriate action.

641—193.7(272C) Confidentiality. The committee is subject to the provisions governing confidentiality established in Iowa Code section 272C.6. Participation in the impaired practitioner program and information in the possession of the board or the committee about licensees in the program will not be disclosed to the public.

These rules are intended to implement Iowa Code chapter 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 194
“Nonpayment of State Debt”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 272D
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 272D

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

Via video/conference call:
meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

This proposed rulemaking sets forth HHS procedure in denying the issuance, renewal, suspension or revocation of a professional license for nonpayment of state debt. This process commences upon receipt of a certificate of noncompliance from the centralized collection unit of the Department of Revenue.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Applicants or licensees found to be noncompliant by the Department will bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:
Members of the public served by professionals licensed by HHS will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Estimated figures below are projections based on past program performance as included in the Red Tape Rule Report for this chapter.

Identified Impacts*

| | SFY 2024 | SFY 2025 | SFY 2026 | SFY 2027 | SFY 2028 | Five-Year Total |
|-----------------------------------|------------|------------|------------|------------|------------|-----------------|
| Costs | | | | | | |
| HHS Implementation | -\$350 | -\$350 | -\$350 | -\$350 | -\$350 | -\$1,750 |
| Benefits | | | | | | |
| Increased Public Safety and Trust | Intangible | Intangible | Intangible | Intangible | Intangible | Intangible |
| Net Value | -\$350 | -\$350 | -\$350 | -\$350 | -\$350 | -\$1,750 |

*All monetary figures have been rounded to the nearest thousandth.

- Qualitative description of impact:

Denying professional licensure for nonpayment of state debt ensures licensees of the Department engage in professional conduct at a level suitable to their profession, leading to increased public safety and trust in HHS licensure programs.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for team members to manage this process. These costs are reflected in the table above as “HHS Implementation.”

- Anticipated effect on state revenues:

No impact has been identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows a net value of \$1,750 and an increase in public safety and trust. Eliminating the denial of licensure for nonpayment of state debt may result in the licensure of some individuals that do not engage in professional conduct of the level to which the State desires. Diminished professional conduct of licensees may lead to a decrease in public safety and a lack of trust in licensees regulated by the Department.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less costly method has not been identified to achieve the purpose of this rulemaking.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS implements this process in accordance with the procedure set forth in the Iowa Code. This chapter describes HHS timelines and communication methods for completing the procedure but does not ascribe additional department duties or implementation elements in addition to those directly defined in the Iowa Code.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 194 and adopt the following **new** chapter in lieu thereof:

CHAPTER 194
NONPAYMENT OF STATE DEBT

641—194.1(272D) Definitions. For the purpose of this chapter, the following definitions shall apply.

“*Applicant*” means an individual who is seeking the issuance of a license.

“*Centralized collection unit*” means the centralized collection unit of the Iowa department of revenue.

“*Certificate of noncompliance*” means the same as defined in Iowa Code section 272D.1.

“*Denial notice*” means a licensing authority notification denying an application for the issuance or renewal of a license as required by Iowa Code chapter 272D.

“*License*” means the same as defined in Iowa Code section 272D.1.

“*Licensing authority*” means a board, commission, or any other entity of the department which has authority within this state to suspend or revoke a license or deny the renewal or issuance of a license authorizing a person to engage in a business, occupation, or profession.

“*Revocation or suspension notice*” means a licensing authority notification suspending a license for an indefinite or specified period of time or a notification revoking a license as required by Iowa Code chapter 272D.

“*Withdrawal certificate*” means the same as defined in Iowa Code section 272D.1.

641—194.2(272D) Denial of issuance or renewal of a license or suspension or revocation of a license. The licensing authority shall deny the issuance or renewal of a license or suspend or revoke a license upon the receipt of a certificate of noncompliance from the centralized collection unit per the procedure set forth in Iowa Code chapter 272D. This rule shall apply in addition to the procedures set forth in Iowa Code chapter 272D.

194.2(1) Service of denial, suspension or revocation notice. Notice will be served upon the applicant or licensee by certified mail, return receipt requested; by personal service; or through authorized counsel.

194.2(2) Licensees and applicants responsible to inform licensing authority. Licensees and applicants shall keep the licensing authority informed of all court actions and all centralized collection unit actions taken under or in connection with Iowa Code chapter 272D. Licensees and applicants shall also provide the licensing authority copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code chapter 272D, all court orders entered in such actions, and any withdrawals of certificates issued by the centralized collection unit.

194.2(3) Reinstatement following license denial, suspension or revocation. All licensing authority fees required for application, license renewal, or license reinstatement must be paid by applicants or licensees before a license will be issued, renewed, or reinstated after the licensing authority has denied the issuance or renewal of a license or suspended or revoked a license pursuant to Iowa Code chapter 272D.

194.2(4) *Effect of filing in district court.* In the event an applicant or a licensee files a timely district court action following service of a denial notice by a licensing authority or service of a revocation or suspension notice, the licensing authority will continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the licensing authority to proceed. For purposes of determining the effective date of the denial of the issuance or renewal of a license or of the suspension or revocation of a license, the licensing authority will count the number of days before the action was filed and the number of days after the action was disposed of by the court.

194.2(5) *Final notification.* The licensing authority will notify the applicant or licensee in writing through regular first-class mail, or by such other means as the licensing authority determines appropriate in the circumstances and will similarly notify the applicant or licensee if the license is issued or renewed following the licensing authority's receipt of a withdrawal certificate.

641—194.3(272D) *Sharing of information.* The department may share applicant or licensee information with the centralized collection unit pursuant to Iowa Code chapter 272D.

These rules are intended to implement Iowa Code chapter 272D.

Licensure Interstate Compact

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

Via video/conference call:
meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

This proposed rulemaking sets forth HHS procedure to expedite the application for a professional license for those persons married to an active-duty member of the military forces of the United States or for those persons who are a veteran, and to provide reciprocity in licensure for such persons who are currently licensed in another state. The chapter also provides for the application of military education, training, and service as credit toward any experience or educational requirement of licensure.

This chapter applies only to the Department’s emergency medical services licensure program; this is the only licensing program covered by the requirements of Iowa Code chapter 272C to remain under the auspices of HHS upon implementation of the government reorganization. Procedures detailed additionally support the EMS Personnel Licensure Interstate Compact described in Iowa Code chapter 147D.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
None have been identified.
 - Classes of persons that will benefit from the proposed rulemaking:
Veterans applying for licensure, military service applicants and spouses of active-duty members of the military applying for licensure, and members of the public served by professionals licensed by HHS will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:

Estimated figures below are projections based on past program performance as included in the Red Tape Rule Report for this chapter.

Identified Impacts*

| | SFY 2024 | SFY 2025 | SFY 2026 | SFY 2027 | SFY 2028 | Five-Year Total |
|---|------------|------------|------------|------------|------------|-----------------|
| Costs | | | | | | |
| HHS Implementation | -\$166 | -\$166 | -\$166 | -\$166 | -\$166 | -\$830 |
| Benefits | | | | | | |
| Increased Veteran and Public Safety Support | Intangible | Intangible | Intangible | Intangible | Intangible | Intangible |
| Net Value | | | | | | |

*All monetary figures have been rounded to the nearest thousandth.

- Qualitative description of impact:

Expedited licensure of qualified current and former military members and their spouses increases public access to emergency medical services personnel, thus enhancing the State’s ability to protect public health and safety.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for team members to manage this process. These costs are reflected in the table above as “HHS Implementation.” The costs to staff time will be less than typical for a non-veteran/active-duty spouse due to the expedited nature of the licensure. The calculation is one hour of staff time saved multiplied by a predicted five veteran or active-duty spouses or veteran applicants each year. The EMS training programs will justify the military credit received by military service applicants, therefore no cost to the Department will be incurred.

- Anticipated effect on state revenues:

No impact has been identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows a net value of approximately \$166 in savings per year and an increase in public health and safety. Eliminating expedited licensure for current and former members of the military and their spouses or eliminating privilege to practice in licensure across states for such individuals may result in fewer persons applying for licensure. This could result in a decrease in emergency medical services personnel available to protect public health and safety.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less costly method has not been identified to achieve the purpose of this rulemaking.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS implements this process in accordance with the procedure set forth in the Iowa Code. This chapter describes HHS timelines and communication methods for completing the procedure, but does not ascribe additional Department duties or implementation elements in addition to those directly defined in the Iowa Code.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 196 and adopt the following new chapter in lieu thereof:

CHAPTER 196

EMERGENCY MEDICAL SERVICES—MILITARY SERVICE, VETERAN RECIPROCITY,
AND SPOUSES OF ACTIVE DUTY SERVICE MEMBERS

641—196.1(272C) Definitions.

“*License*” means the same as defined in Iowa Code section 272D.1.

“*Licensing authority*” means the same as defined in Iowa Code section 272D.1.

“*Military service*” means honorably serving on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1; in the military services of other states, as provided in 10 U.S.C. Section 101(c)(2021); or in the organized reserves of the United States, as provided in 10 U.S.C. Section 10101(2006).

“*Military service applicant*” means an individual requesting credit toward licensure for military education, training, or service obtained or completed in military service.

“*Spouse*” means a spouse of an active duty member of the military forces of the United States.

“*Veteran*” means the same as defined in Iowa Code section 35.1.

641—196.2(272C,147D) Military education, training, and service credit. A military service applicant may apply for credit for verified military education, training, or service toward any experience or educational requirement for licensure by submitting a military service application form to the licensing authority. No fee is required with submission of an application for military service credit.

196.2(1) The licensing authority shall grant credit requested in the application pursuant to the EMS Personnel Licensure Interstate Compact described in Iowa Code section 147D.1.

196.2(2) The licensing authority shall inform the military service applicant in writing of the credit, if any, given toward an experience or educational qualification for licensure or explain why no credit was granted. The applicant may request reconsideration upon submission of additional documentation or information.

196.2(3) A military service applicant who is aggrieved by the licensing authority’s decision may appeal pursuant to the provisions of 441—Chapter 7, except that no fees or costs shall be assessed against the military service applicant in connection with a contested case conducted pursuant to this subrule.

196.2(4) The licensing authority shall grant or deny the credit requested in the military service application prior to ruling on the application for licensure. The applicant shall not be required to submit any fees in connection with the licensure application unless the licensing authority grants the credit requested in the military service application. If the licensing authority does not grant the credit requested in the military service application, the applicant may withdraw the licensure application or request that the licensure application be placed in pending status for up to one year or as mutually agreed. The withdrawal of a licensure application shall not preclude subsequent applications supported by additional documentation or information.

641—196.3(272C,147D) Veteran and active duty military spouse privilege to practice. A veteran or spouse with an unrestricted license in another EMS Personnel Licensure jurisdiction may practice in Iowa pursuant to the EMS Personnel Licensure Interstate Compact described in Iowa Code section 147D.1.

These rules are intended to implement Iowa Code sections 272C.4 and 147D.1.

Regulatory Analysis

8 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Rebecca Swift
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.218.4969
Email: rebecca.swift@dia.iowa.gov

Purpose and Summary

The Iowa Code currently mandates the existence of the State Health Facilities Council (Council) and the Certificate of Need (CON) process and these administrative rules. The statutory goal is to protect access to affordable healthcare options, especially in rural areas and for medically underserved populations. Institutional health facilities, including, but not limited to, hospitals, health care facilities, birthing centers, and ambulatory surgery centers, must acquire a CON prior to offering services.

This chapter establishes the CON process when adding beds, building a new facility or purchasing certain medical equipment. It provides an overview of each step in the process and information about the role of the State Health Facilities Council and its duties. This chapter also publicly illustrates the process and criteria that will be used by the Council in determining whether or not to grant a CON to an applicant.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Applicants for a CON are responsible for the fees associated with the application. Fees are three-tenths of one percent of the estimated cost of the project, with a minimum fee of \$600 and a maximum fee of \$21,000. Intermediate Care Facilities for the Intellectually Disabled and Mentally Ill are exempt from the fee. Fees are deposited into the General Fund.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rulemaking and the statutory goal is to protect access to affordable healthcare options, especially in rural areas and for medically underserved populations. There are no direct costs to the general public to comply with any of the rules in this chapter. Note that there may be indirect costs to patients of these health facilities.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

As noted above, applicants for a CON pay a fee of three-tenths of one percent of their estimated total project costs with a minimum fee of \$600 and a maximum fee of \$21,000. Applications for Intermediate Care Facilities for the Intellectually Disabled or Persons with Mental Illness are exempt from paying the application fee. Fees collected are deposited into the General Fund.

In comparing Iowa to nearby states, Nebraska has a \$1,000 fee; Illinois has a \$2,500 filing fee; Missouri's fee is a minimum of \$1,000 or one-tenth of one percent of the total project cost, whichever is greater; and Wisconsin, while having a variation of the certificate of need program, has an application fee equal to 0.37 percent of the estimated project cost, but not less than \$1,850 and not more than \$37,000. Minnesota has a variation of the CON program and no information on fees was found.

- Qualitative description of impact:

Based on the current statute, the rules, in order to operationalize the CON program as directed in statute, the application fees support the staffing needs. Thirty-five states and Washington, D.C., maintain CON programs. In addition, there are several U.S. territories that have CON programs, as well as three states — Minnesota, Wisconsin, and Arizona — that have variations of the CON program. Neighboring states Kansas and South Dakota, along with 10 other states across the country, offer less restrictive statutory means by not requiring a CON.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There is 1.0 full-time equivalent (FTE) position associated with the CON program in addition to administrative support and the Office of the Attorney General. The program manager implements all aspects of the program and provides support to the State Health Facilities Council which includes correspondence with applicants, stakeholders, and the public.

- Anticipated effect on state revenues:

Fees paid by applicants to apply for a CON are deposited into the General Fund. The staff salary to support the work of the program and program operations come from the General Fund.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating the fees paid by CON applicants would have a detrimental impact on dollars deposited into the General Fund. This would have a negative impact on the ability of the agency to effectively administer the CON program as required by statute. Eliminating CON could result in an excess of health facilities, causing redundancies in health care and does not guarantee rural access.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

One less restrictive alternative would be to reduce the amount of the fees collected from eligible CON applicants.

The Boards and Commissions Review Committee recommended the Council be eliminated and transfer the duties of the program to DIAL.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

As mentioned above, neighboring states Kansas and South Dakota, along with 10 other states across the country, offer less restrictive statutory means by not requiring CON. One alternative method that could be considered would be to eliminate or restructure the CON program in Iowa.

The Iowa Code currently mandates the existence of the Council and the CON process and these administrative rules. The rules provide consistency related to the submission of an application for a CON.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

This is a legislative issue as the statute clearly mandates this chapter — the current rules accurately enforce the current statute.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Institutional Health Facilities include hospitals, health care facilities (e.g., a nursing facility), organized outpatient health facilities, ambulatory surgery centers, community mental health facilities and birthing centers; some of these may be considered small businesses. Typically, the smaller businesses, such as some ambulatory surgery centers or birthing centers, have less expensive projects that incur less cost and pay smaller fees than larger businesses, such as hospitals.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 202 and adopt the following **new** chapter in lieu thereof:

CHAPTER 202 CERTIFICATE OF NEED PROGRAM

641—202.1(135) Definitions. For purposes of this chapter, the following definitions apply:

“*Acute care category of bed usage,*” as the term applies in Iowa Code section 135.63(2)“*k,*” is the same as the acute care categories listed in the state survey section of the American Hospital Association Annual Survey of Hospitals.

“*Any expenditure in excess of five hundred thousand dollars,*” as defined in Iowa Code section 135.61(18)“*e,*” means new capital expenditures necessary to operate the service for a year.

“*Any mobile health service with a value in excess of one million five hundred thousand dollars,*” as defined in Iowa Code section 135.61(18)“*l,*” means the value of all equipment used to provide the service, including the trailer. The party providing the equipment is the applicant regardless of the location of that party.

“*Appropriate geographic service area,*” as the term applies to defining affected persons in Iowa Code section 135.61(1)“*c,*” is defined as follows:

1. For applications regarding hospitals, hospitals located in the same county and in Iowa counties contiguous to the county wherein the applicant hospital's proposed project will be located.

2. For applications regarding health care facilities, other health care facilities located in the same county and in Iowa counties contiguous to the county wherein the applicant's proposed health care facility will be located.

3. For applications sponsored by other than the hospitals or health care facilities specified in paragraphs "1" and "2," those providers within the same county who offer similar service or might logically be viewed as potential providers of such service.

"Bed capacity" is defined as follows:

1. For hospitals, bed capacity is defined as the total facility licensed beds as reported on the state survey section of the American Hospital Association Annual Survey of Hospitals.

2. For health care facilities, bed capacity is defined as a facility's licensed bed capacity according to the department of inspections, appeals, and licensing.

"Cardiac catheterization service," as the term applies to a new or changed institutional health service in Iowa Code section 135.61(18) "m"(1), means the initiation or expansion of this service.

"Consumers served by a new institutional health service" means those consumers residing in the service area as determined by the department.

"Long-term (acute) care hospital," for purposes of these rules, means a hospital that has been approved to participate in the Title XVIII (Medicare) program as a long-term care hospital-prospective payment system hospital (LTCH-PPS) in accordance with 42 CFR Part 412, as amended to October 11, 2023.

"Open heart surgical service," as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) "m"(2), means the initiation or expansion of this service.

"Organ transplantation service," as the term applies to a new or changed institutional health service in Iowa Code section 135.61(18) "m"(3), means the initiation or expansion of this service. Each type of organ transplant shall be considered separately.

"Permanent change in bed capacity of an institutional health facility," includes, but is not limited to, the following:

1. A conversion of a long-term acute care hospital, a rehabilitation hospital or a psychiatric hospital as defined by federal regulations to a general acute care hospital or to a different type of specialty hospital.

2. A hospital that has deleted beds pursuant to Iowa Code section 135.63(2) "g" for the purpose of receiving designation as a critical access hospital reestablishes the deleted beds at a later time, provided that the number of beds reestablished does not exceed the number of beds maintained prior to the deletion as reported on the bed reduction form.

"Physical facility," as the term applies in Iowa Code section 135.61(18) "f," means a separately licensed facility.

"Private offices and private clinics of an individual physician, dentist, or other practitioner or group of health care providers." The meaning of this term as used in Iowa Code section 135.63(2) "a" is determined by looking at factors that include, but are not limited to:

1. The type of health care service delivered;

2. The control and supervision of medical judgment in the care of and treatment of patients;

3. The control and supervision of professional assistants, including nurses, physician assistants, and technicians;

4. The ownership and maintenance of medical records of patients.

The term excludes an ambulatory surgical center as defined in Iowa Code section 135R.1.

"Radiation therapy service applying ionizing radiation for the treatment of malignant disease using megavoltage external beam equipment," as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) "m"(4), means the initiation or expansion of this service.

"Rehabilitation hospital," for the purposes of these rules, means a hospital that has been approved to participate in the Title XVIII (Medicare) program as an inpatient rehabilitation facility-prospective payment system hospital (IRF-PPS) in accordance with 42 CFR Part 412.23(b), 412.25 or 412.29, as amended to October 11, 2023.

“Relocation of an institutional health facility,” as the term applies to new or changed institutional health service in Iowa Code section 135.61(18) “b,” means the replacement of a facility located in one county with a facility located in another county.

“Value in excess of one million five hundred thousand dollars,” as used in Iowa Code section 135.61(18) “g,” “h,” “i” and “j,” means the value of the equipment including any applicable sales tax, delivery charge and installation charge. With respect to the initiation of radiation therapy services applying ionizing radiation for the treatment of malignant disease using the megavoltage external beam equipment, the term includes the cost of constructing a vault.

641—202.2(135) Letter of intent.

202.2(1) Before applying for a certificate of need, the sponsor of a proposed new institutional health service or changed institutional health service will electronically submit a letter of intent meeting the criteria noted in Iowa Code section 135.65(1) and the project’s estimated cost (site costs, land improvements, facility costs, movable equipment and financing costs, and any applicable sales tax for movable equipment, any applicable delivery charge for movable equipment, and any applicable installation charge for movable equipment).

202.2(2) The department will make available on the certificate of need web page all criteria and standards that are pertinent to an application.

202.2(3) A letter of intent received by the department is valid for a period of one year from the date of receipt by the department. The sponsor may renew the validity of a letter of intent by providing written notification to the department prior to the one-year expiration date.

641—202.3(135) Determination of reviewability. A sponsor of a proposed project may submit a written request for a determination of reviewability as to whether the project requires a certificate of need.

202.3(1) The request should include sufficient details of the proposed project and cite the sections of the Iowa Code that the sponsor relies upon to assert the project is not reviewable.

202.3(2) Upon receipt of a written request from the sponsor of a project, the department will determine if a proposed project requires a certificate of need under Iowa Code sections 135.61 to 135.83. The department may request additional information about the project to make the determination.

a. If it is determined that a certificate of need is required, the sponsor will be notified by the department and the request for nonreviewability will be considered the letter of intent for purposes of subrule 202.2(2).

b. If it is determined that a certificate of need is not required, the sponsor will be notified by the department and the determination of nonreviewability will be placed on the next agenda of the state health facilities council for consideration.

c. The notification to the sponsor of the results of the department’s review of the request will include specific Iowa Code citations relied upon to support the determination.

641—202.4(135) Submission of application.

202.4(1) Application form.

a. A sponsor of a proposed project for a new or changed institutional health service will submit to the department an application for certificate of need by using the appropriate application form found on the certificate of need web page. All information requested in the application form will be required in the absence of a waiver by the department.

b. An original application and all attachments shall be submitted via electronic mail.

c. The department will establish and maintain electronic files on each application.

202.4(2) Application fee. The application fee specified in Iowa Code section 135.63(1) is based on the total cost of the project, including site costs, land improvements, facility costs, and movable equipment.

a. The fee for leased or donated new institutional health services is calculated in the same manner as if the new institutional health services were purchased.

- b.* The leased equipment fee is based on total value of the lease, plus sales tax, delivery and installation.
- c.* The lease of space includes the cost of a one-year-lease payment for the space.
- d.* Financing costs are not applicable on leases or cash purchases.
- e.* The application fee will be refunded by the department for any application that is voluntarily withdrawn from the review process in the amounts specified in Iowa Code section 135.63(1).
- f.* For purposes of this subrule and Iowa Code section 135.63(1), the term “submission” means the day the application is received by the department.

641—202.5(135) Organizational procedures.

202.5(1) The presence of three members of the council shall constitute a quorum.

202.5(2) The chair and all other council members present will cast votes or abstain, as the case may be, on all council action. No proxy votes shall be allowed.

202.5(3) A vote of a majority of those present will be necessary to take action on any motion before the council. A tie vote means no action on the motion.

202.5(4) The council will, at the first meeting after July 1 of each odd-numbered year, elect a vice-chair to perform the duties of the chair in their absence, when the chair has a conflict of interest or when the chair so directs.

202.5(5) A council member will refrain from participating in an application review process if the member:

- a.* Has a personal bias or prejudice concerning the applicant;
- b.* Has acted as counsel to the applicant or a competitor of the applicant in the same or adjoining county within the past two years;
- c.* Has a financial interest in the outcome of the application process or any other significant personal interest that could be substantially affected by the outcome of the case;
- d.* Has a spouse or relative within the third degree of relationship that (1) is affiliated with or represents the applicant or a competitor of the applicant in the same or adjoining county; (2) has a known financial or significant personal interest that could be substantially affected by the outcome of the application process; or (3) is likely to testify on behalf of the applicant or an affected person at public hearing; or
- e.* Has any other legally sufficient cause to refrain from participating in the application review process.

641—202.6(135) Public hearing on application. Public hearings conducted pursuant to Iowa Code section 135.66(3) “*b*” are not contested cases.

Judicial review pursuant to Iowa Code section 17A.19 of final agency decisions under Iowa Code section 135.69 will be treated as other agency action.

202.6(1) The council will use the following meeting format:

- a.* Announcement of application under review.
- b.* Presentation of department report.
- c.* Applicant presentation.
- d.* Affected persons’ presentation.
- e.* Applicant’s rebuttal.
- f.* Council discussion, motion and final decision.

202.6(2) The notice of an accepted application issued pursuant to Iowa Code section 135.66(2) will inform the applicant and affected persons of the deadlines for the electronic submission to the department of written statements or other materials. These deadlines will also be posted on the certificate of need web page. Written submissions received by the department after the deadlines established in this notice will not be considered by the department or the council unless submitted at the public hearing solely to support oral testimony or upon a showing of good cause.

202.6(3) The applicant, affected persons, or their designated representatives will be given the opportunity to make oral presentations to the council. Other interested persons may be given the opportunity to make oral presentations to the council.

202.6(4) Oral testimony that simply duplicates material received in writing will not be heard. The applicant and affected persons will present only one witness for each issue raised unless permission is requested and granted by the chair.

202.6(5) All questions to an applicant or affected person presenting oral testimony will be directed from the council or council staff unless permission is requested and granted by the chair. Persons making oral presentations to the council are not expected to be placed under oath.

202.6(6) The council may designate technical consultants or experts to assist in its activities as defined by the council.

641—202.7(135) Summary review. Pursuant to Iowa Code section 135.67, an applicant requesting a summary review will abide by the following procedures:

202.7(1) Electronically submit a written request for summary review, and a copy of the application and all attachments. The applicant is not required to submit a letter of intent pursuant to Iowa Code section 135.65 prior to submitting a written request for a summary review.

202.7(2) The eligibility of an application for summary review pursuant to Iowa Code section 135.67 does not mandate or require such review. The department will make the decision as to whether an application will be reviewed in the summary review process.

202.7(3) Upon receipt of a written request for summary review, an application, and the fee required by Iowa Code section 135.63(1), the department will notify the applicant in writing within 15 calendar days if the application is complete and if a summary review will be granted.

202.7(4) If an application is deemed incomplete, the department will state specifically in writing what information is needed to make the application complete.

202.7(5) If the department notifies the applicant that a summary review will not be performed, this decision is binding on the applicant and the application will be entered into the formal review process on the date of written notice that such application will not be reviewed summarily.

202.7(6) A summary review of an application for a certificate of need will be completed within 60 calendar days of the acceptance of an application by the department.

202.7(7) At any time during the summary review process, an application may be withdrawn without prejudice from the process. The applicant may then submit the application for a formal 90-day review.

641—202.8(135) Extension of review time.

202.8(1) A formal review of an application for a certificate of need pursuant to Iowa Code section 135.66 may be extended by the department on the basis of any of the following criteria:

- a. In order to review competing applications simultaneously;
- b. In the case of technologically innovative equipment, to obtain additional information necessary to evaluate the proposal. The department will specify in writing such additional information as necessary;
- c. At the request of the applicant;
- d. At the request of at least two members of the state health facilities council in order to allow additional time for deliberation on all evidence present. The council will specify the time of the delay and the date on which the final decision will be rendered.

202.8(2) An extension by the department made pursuant to subrule 202.8(1) will in no case be more than 60 calendar days beyond the time a decision is required under Iowa Code section 135.69 unless the applicant and department agree.

202.8(3) Where none of the provisions of 202.8(1) are applicable and where an application will be automatically denied because of the expiration of time required by Iowa Code section 135.69 for the issuance of a written decision by the council, the department will notify the applicant of the likelihood of an automatic denial and will ask the applicant to request in writing an extension of the review time.

Where an extension is so requested, the application will be heard at the next regularly scheduled meeting of the council or at any time agreeable to the applicant and the department.

641—202.9(135) Rehearing of certificate of need decision.

202.9(1) The applicant or any affected person who has participated or sought unsuccessfully to participate in the formal review procedure prescribed in Iowa Code section 135.66 may, for good cause shown, file an application for rehearing in writing with the department stating the specific grounds therefor and the relief sought, within 20 calendar days after the date of the issuance of the final decision on an application for certificate of need.

202.9(2) Grounds for rehearing include, but are not limited to:

- a.* New significant, relevant information that was unavailable at the date of the hearing;
- b.* Significant changes in factors or circumstances relied upon by the council in reaching its decision;
- c.* Demonstration that the council has materially failed to follow its adopted procedures in reaching its decision; or
- d.* Such other bases as the council determines constitute good cause.

202.9(3) An application for rehearing is deemed to have been denied unless the council grants the application in writing within 20 calendar days after its filing.

202.9(4) If the application for rehearing is granted, the council may issue an order modifying the initial final order, or may set the matter for consideration at a subsequent meeting date. If public hearing is granted on the application for rehearing, notice will be provided ten calendar days prior to hearing to the person applying for rehearing, the applicant and other affected persons upon request pursuant to 202.10(135).

202.9(5) The council will issue the final decision on rehearing, stating the basis for its decision, within 30 calendar days after the application for rehearing was granted or 30 calendar days after public hearing on rehearing, whichever is later.

202.9(6) If a rehearing is not requested or an affected party remains dissatisfied after the request for rehearing, an appeal may be taken in the manner provided by Iowa Code chapter 17A. A request for rehearing is not required prior to appeal under Iowa Code section 17A.19.

641—202.10(135) Status reports to affected persons. Affected persons are entitled to status reports from the department while a formal application review is in progress pursuant to Iowa Code section 135.68. The department will maintain a log of all requests for written status reports by affected persons. Affected persons who request written status reports will submit an electronic request, identifying the specific information requested, which may include notification of the council's final decision, any application for rehearing, or the filing of a petition for judicial review. The formal process does not preclude informal contacts with department staff for verbal status reports. Printed copies of the council's final decision, an application for rehearing, a petition for judicial review, or any other public record will be provided upon request.

641—202.11(135) Finality. The certificate of need application process is continuous beginning with submission of a letter of intent or request for waiver of a letter of intent through issuance of a final decision by the council subject to judicial review under Iowa Code chapter 17A.

202.11(1) The following stages of the process are intermediate and subject to judicial review only to the extent they meet criteria for intermediate review under Iowa Code section 17A.19.

- a.* A decision by the department pursuant to 641—202.3(135) that a proposed project does not require a certificate of need;
- b.* A decision by the department to waive submission of the letter of intent and substitute summary review; and
- c.* The rejection of an application by the department that fails to provide all information required under Iowa Code section 135.63(1).

202.11(2) The following stages of the process are final decisions subject to judicial review as final agency action under Iowa Code section 17A.19:

- a.* A decision by the department to disallow summary review;
- b.* A decision by the council that a proposed project does not require a certificate of need;

- c. A decision by the council to approve or deny an application;
- d. The council's final ruling on an application for rehearing; and
- e. A decision by the council to revoke a certificate of need pursuant to 641—202.13(135).

641—202.12(135) Project progress reports. The sponsor of an approved application will submit a progress report using the form available on the certificate of need web page six months after approval at hearing. Progress reports shall fully identify the project and indicate the current status of the project in descriptive terms. The reports should also reflect an amended project schedule if necessary.

641—202.13(135) Request for extension of certificate.

202.13(1) A request by the applicant for an extension of a certificate of need should be filed with the department using the form available on the certificate of need web page no later than 30 days prior to the expiration of the certificate of need.

202.13(2) A request for extension should fully identify the project and indicate the current status of the project in descriptive terms.

202.13(3) Any affected person has the right to submit to the department in writing, or orally at the council meeting at which the extension request is considered, information that may be relevant to the question of granting an extension.

202.13(4) When an extension has been requested, the council will approve or deny the request at a meeting of the council preceding the expiration of the certification. The certificate of need may be revoked by the council at the end of the certification period for insufficient progress in developing the project.

202.13(5) If the extension is denied, the applicant has the right to appeal under the provisions of Iowa Code section 135.70.

641—202.14(135) Application changes after approval.

202.14(1) Once a project has been approved by the council, no changes that vary from or alter the number of approved beds, the approved services or the approved cost by an amount indicated in 202.14(2) may be made unless requested by the applicant and approved by the council. Requests should be made in writing and filed with the department electronically.

202.14(2) An increase in the actual cost of the project over and above that originally approved will automatically generate review by the council if the increase exceeds the originally approved amount by:

- a. Fifteen percent for projects up to \$999,999.99;
- b. Twelve percent for projects from \$1,000,000.00 to \$4,999,999.99;
- c. Eight percent for projects \$5,000,000.00 and over.

An increase in the approved cost that falls below the above percentages will be reported to the department.

202.14(3) Failure to notify and receive permission of the council to change the project as originally approved may result in the imposition of sanctions provided in Iowa Code section 135.73. The council may make a recommendation to the department regarding the imposition of a sanction and the amount of the fine to be imposed.

641—202.15(135) Sanctions. Hearings to determine class I or class II violations pursuant to Iowa Code section 135.73 will be conducted in accordance with the department's procedural rules for contested cases found at 641—Chapter 173.

641—202.16(135) Reporting requirements. For the purposes of the annual reports and data compilation required in Iowa Code sections 135.75 and 135.78, the department will utilize the AHA Annual Survey of Hospitals with the state survey addendum for hospitals and the cost reports for health care facilities submitted to the Medicaid enterprise of the department of health and human services.

These rules are intended to implement Iowa Code sections 135.61 to 135.79 and 135.83.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 641—Chapter 203
“Standards for Certificate of Need Review”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 135.62(2)“e”(5)
State or federal law(s) implemented by the rulemaking: Iowa Code sections 135.61 through 135.83

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
8 a.m.

6200 Park Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Rebecca Swift
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.218.4969
Email: rebecca.swift@dia.iowa.gov

Purpose and Summary

The Iowa Code currently mandates the existence of the State Health Facilities Council (Council) and the Certificate of Need (CON) process and these administrative rules. Applicants for a CON and affected parties benefit from this chapter as it provides guidance on adding services such as cardiac catheterization and cardiovascular surgery, and radiation therapy; and on the purchase of specific pieces of medical equipment, including MRI, PET and CT. The additional benefit is to those applicants who wish to add beds to a health care facility, such as a nursing home. The chapter outlines a bed need formula and additional factors that are used by applicants to determine whether there is a need for more beds in their area. The chapter benefits the Council when it reviews applications as it provides standards for the addition of certain services, for certain medical equipment purchases and the addition of health care facility beds. This chapter also benefits those who might consider themselves an affected party to a specific application by keeping them informed of the standards for CON review.

This chapter also publicly illustrates some of the criteria that will be used by the Council in determining whether or not to grant a CON to an applicant.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

When applicable, applicants for a CON use the factors that are outlined in Chapter 203 to justify the need for their medical equipment purchase, addition of services or addition of beds. The Council uses the information in an application and voiced at the hearing in making its decision about whether or not to award a CON.

Applicants for a CON are responsible for the fees associated with the application. Costs are three-tenths of 1 percent of the estimated costs of the project, with a minimum fee of \$600 and a

maximum fee of \$21,000. Intermediate Care Facilities for the Intellectually Disabled and Mentally Ill are exempt from the fee. Fees are deposited into the General Fund.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rulemaking and the statutory goal is to protect access to affordable health care options, especially in rural areas and for medically underserved populations. There are no direct costs to the general public to comply with any of the rules in this chapter.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Applicants for a CON pay a fee of three-tenths of 1 percent of their estimated total project costs, with a minimum fee of \$600 and a maximum fee of \$21,000. All fees go to the General Fund. In 2022, \$69,174.72 from CON was collected and deposited in the General Fund.

In comparing Iowa to nearby states, Nebraska has a \$1,000 fee; Illinois has a \$2,500 filing fee; Missouri's fee is a minimum of \$1,000 or one-tenth of 1 percent of the total project cost, whichever is greater; and Wisconsin, while having a variation of the CON program, has an application fee equal to 0.37 percent of the estimated project cost, but not less than \$1,850 and not more than \$37,000. Minnesota has a variation of the CON program and no information on fees was found.

- Qualitative description of impact:

Based on the current statute, the rules, in order to operationalize the CON program as directed in statute, the application fees support the staffing needs. Thirty-five states and Washington, D.C., maintain CON programs. In addition, there are several U.S. territories that have CON programs, as well as three states – Minnesota, Wisconsin, and Arizona – that have variations of the CON program. Neighboring states Kansas and South Dakota, along with ten other states across the country, offer less restrictive statutory means by not requiring CON. One alternative method that could be considered would be to eliminate or restructure the CON program in Iowa.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There is 1.0 full-time equivalent (FTE) position associated with the CON program in addition to administrative support and the Office of the Attorney General. The program manager implements all aspects of the program and provides support to the State Health Facilities Council, which includes correspondence with applicants, stakeholders, and the public.

- Anticipated effect on state revenues:

Fees paid by applicants to apply for a CON are deposited into the General Fund. The staff salary to support the work of the program and program operations comes from the General Fund.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating the fees paid by CON applicants would have a detrimental impact on dollars deposited into the General Fund. This would have a negative impact on the ability of the agency to effectively administer the CON program as required by statute. Eliminating CON could result in an excess of health facilities, causing redundancies in health care, and does not guarantee rural access.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

One less restrictive alternative would be to reduce the amount of the fees collected from eligible CON applicants.

The Boards and Commissions Review Committee recommended the Council be eliminated and transfer the duties of the program to DIAL.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
Neighboring states Kansas and South Dakota, along with 10 other states across the country, offer less restrictive statutory means by not requiring CON. One alternative method that could be considered would be to eliminate or restructure the CON program in Iowa.

The Iowa Code currently mandates the existence of the Council and the CON process and these administrative rules. The rules provide consistency related to the submission of an application for a CON.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
The statute clearly mandates this chapter, and the current rules accurately enforce the current statute.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Institutional health facilities include hospitals, health care facilities (e.g., a nursing facility), organized outpatient health facilities, ambulatory surgery centers, community mental health facilities and birthing centers. Some of these may be considered small businesses. Typically, the smaller businesses, such as some ambulatory surgery centers or birthing centers, have less expensive projects that incur less cost and pay smaller fees than larger businesses, such as hospitals.

Text of Proposed Rulemaking

ITEM 1. Rescind 641—Chapter 203 and adopt the following **new** chapter in lieu thereof:

CHAPTER 203 STANDARDS FOR CERTIFICATE OF NEED REVIEW

641—203.1(135) Cardiac catheterization and cardiovascular surgery standards.

203.1(1) Purpose and scope.

a. These standards are measures of some of those criteria found in Iowa Code sections 135.64(1)“a” to “q” and 135.64(3). Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these cardiac catheterization and cardiovascular surgery standards include:

- (1) Proposals to commence or expand capacity to perform cardiac catheterization.
- (2) Proposals to add new or replace cardiovascular surgery services.
- (3) Any other applications that relate to cardiac catheterization or cardiovascular surgery.

203.1(2) Definitions.

a. Adult cardiac catheterization laboratory—a diagnostic facility exclusively for intracardiac or coronary artery catheterization on adults.

b. Pediatric cardiac catheterization laboratory—the same as adult cardiac catheterization laboratory, except exclusively for children and infants.

c. Cardiac catheterization.

(1) Intracardiac—a diagnostic study of the heart, and pulmonary arteries, or both, in which a small catheter passes through a vein or artery in the neck, leg or arm and advances into the great vessels, the heart or the pulmonary arteries. Through this procedure one can measure pressure within the heart and in adjacent veins and arteries, collect blood samples for blood gas analysis and inject radiopaque material, visualize cardiac and vessel anatomy. The procedure permits detection of congenital and acquired heart abnormalities, the study of ventricular function, the estimation of the orifice size, the placement of pacemakers, etc. Cardiac catheterization is incomplete without cineangiography, intracardiac pressure measurements, blood gas analysis and the ability to diagnose intracardiac shunts.

(2) Coronary artery catheterization—a diagnostic study of the coronary arteries, in which a small catheter passes through an artery in the leg, neck or arm into a coronary artery orifice. Intravascular pressure measurements are taken, and angiography of the coronary arteries is performed. Catheterization and cineangiocardiology of the left ventricle are an integral part of this procedure.

d. Angiography. The photographic recording of X-ray or radiologic images of blood vessels, in any part of the body—the heart, the head, the great vessels, the kidney, etc. In the procedure blood vessels are injected with a radiopaque chemical. Immediately following injection, X-rays are employed to image the path of the injected chemical. These X-ray images are then photographically recorded.

e. Angiocardiography. The recording of moving X-ray images (fluoroscopic images) of the heart and great vessels. After injection of radiopaque chemicals, moving X-rays of the chemical's flow are projected on a screen called a fluoroscope. Moving pictures (cineangiocardiology) or still pictures in sequence (serialography) may be recorded of the X-ray image.

f. Adult cardiovascular surgery—cardiovascular surgery exclusively for adults.

g. Pediatric cardiovascular surgery—cardiovascular surgery exclusively for infants and children.

h. Cardiovascular surgery—the services associated with and surgery performed for congenital or acquired diseases of the heart, great vessels, or pericardium, including the placement of travenous and epicardial pacemakers.

(1) Open heart surgery—cardiovascular surgery in which an incision of sufficient size is made to allow direct vision of the area. Open heart surgery requires temporary use of a heart-lung (cardiopulmonary bypass) machine, as blood flow through the heart is greatly reduced or stopped altogether.

(2) Coronary artery surgery—surgery to correct inadequate blood flow to the heart through using revascularization techniques to bypass significantly obstructed coronary artery lesions.

i. Closed heart surgery—cardiovascular surgery in which a small incision and repairs are made without direct vision of the area.

203.1(3) *Availability of services.*

a. Minimum utilization—cardiovascular surgery (Iowa Code section 135.64(1) “c,” “g,” “h”).

(1) Adult cardiovascular surgical programs should project an annual minimum rate of over 200. Higher caseloads over 200 per annum, are encouraged.

(2) Pediatric cardiovascular surgical units should project a minimum of 100 pediatric heart operations after the first year, at least 75 of which must be open heart procedures.

(3) Combined adult/pediatric cardiovascular surgery units should project the minimum projected annual rates for both adult and pediatric surgery.

(4) Applicants should project utilization of cardiovascular surgery, catheterization and cardiac care units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa and bordering states within the project's service area.

b. Expansions—cardiovascular surgery (Iowa Code section 135.64(1) “c,” “d,” “e,” “g,” “h”).

(1) There should be no additional adult cardiovascular surgery units initiated unless each existing unit within the project's service area is operating at a minimum of 200 open heart surgery cases per year.

(2) There should be no additional pediatric cardiovascular surgery units initiated, unless each existing unit within the project's service area is operating at 100 surgeries per year. (If one team serves more than one institution, the numbers for those institutions should be combined.)

(3) If the annual utilization of the other cardiovascular surgery units within the area is below the above-noted levels, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the level must be demonstrated.

(4) The applicant will demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are generally within two hours surface travel time for adult services and within three for pediatric services.

c. Minimum utilization—cardiac catheterization (Iowa Code section 135.64(1) “c,” “d,” “g,” “h”).

(1) Adult cardiac catheterization laboratories should be projected to operate at a minimum of 300 catheterizations per annum.

(2) Pediatric catheterization laboratory units should project a minimum of 150 catheterizations annually.

(3) Combined units should meet each of the adult and pediatric standards.

(4) Applicant should project utilization of cardiac catheterization units based upon service area population demographics, current regional or national utilization rates of the service, disease incidence and prevalence rates, current cardiac care treatment modes, and in consideration those adult cardiovascular surgery units currently operating in Iowa and bordering states within the project's service area.

d. Expansions—cardiac catheterizations (Iowa Code section 135.64(1) “c,” “d,” “e,” “g,” “h”).

(1) There should be no additional adult cardiac catheterization unit opened unless the number of studies per year in each existing unit within the project's service area is greater than 300. No additional pediatric unit should be opened unless the number of studies per year in each existing unit within the project's service area is greater than 150.

(2) If the annual utilization of the other cardiovascular surgery units within the area is below the above-noted levels, future utilization above that current level must be reasonably projected or reasons for permanently utilizing the equipment below the level must be demonstrated.

(3) The applicant must attempt and demonstrate that an attempt was made to determine with the cooperation of existing providers whether such a reduction would occur. Existing providers of consequence are those generally within two hours surface travel time for adults or three hours for pediatrics.

203.1(4) Costs.

a. Financial feasibility. (Iowa Code section 135.64(1) “f,” “i,” “p”) Cardiovascular surgery and catheterization equipment, and associated remodeling or construction should be depreciated over a period consistent with generally accepted accounting standards.

b. Cost-effectiveness. Proposed new or replacement cardiac catheterization laboratories cost per catheterization and cardiovascular surgery services estimated costs per surgery should, when compared to their peers, demonstrate cost-effectiveness.

203.1(5) Accessibility. (Iowa Code section 135.64(1) “c,” “d”)

a. Cardiovascular surgery units and cardiac catheterization labs should be available to meet the needs of the communities that the units and labs are meant to serve.

b. Cardiac catheterization and cardiovascular surgery service should be provided regardless of ability to pay, in consideration of those programs available in the state that serve the medically indigent.

203.1(6) Quality. (Iowa Code section 135.64(1) “i,” “k”)

a. Each surgery unit and cardiac catheterization lab shall demonstrate a reasonable set of criteria that are used in selecting appropriate candidates for surgery and catheterization.

b. Staffing minimums.

(1) The open heart surgery team should minimally consist of:

1. At least two certified or board eligible cardiovascular surgeons for the first 75 to 130 pediatric open heart surgeries. If pediatric surgery is performed, one surgeon must have special training and experience in surgery for congenital cardiac defects.

2. A board certified or board eligible adult or pediatric cardiologist(s). The latter only if pediatric surgery is performed, the former only if adult surgery is performed.

3. Board certified or board eligible anesthesiologist with special training in the management of cardiovascular cases' respiratory care.

4. Radiologist trained in the cardiovascular field.

5. Pathologist familiar with cardiac problems.

6. Specially trained in heart disease surgical nursing staff.

7. Cardiopulmonary bypass pump technicians.

8. Other ancillary staff as needed.

(2) Each applicant will document that the proposed surgery unit can be so staffed when completed and operational.

c. Equipment and facilities. The applicant seeking to provide cardiovascular surgery should demonstrate that the following support services will be available:

(1) General X-ray diagnostic facilities and facilities for emergency X-rays on a 24-hour basis.

(2) A cardiac catheterization laboratory or angiography lab available on a 24-hour basis.

(3) A cardiographics laboratory, with facilities for recording the following tests: EKG, vector cardiogram, phonocardiogram, echocardiogram, and exercise stress testing.

(4) A supporting blood bank and hematology laboratory.

(5) A microbiology laboratory.

d. Cardiac catheterization labs serving infants and children should have biplane angiographic equipment, either cineangiographic or cut film. Pediatric cardiac catheterization labs should be supervised by board certified or board eligible pediatric cardiologists; adult cardiac catheterization labs should be supervised by a board certified or board eligible adult cardiologist.

203.1(7) Continuity. (Iowa Code section 135.64(1) "g," "h," "i," "k")

a. The applicant should demonstrate that an attempt was made to solicit letters of support from area hospitals and physicians to indicate a community need.

b. The applicant should provide documentation that emergency medical transport services will be available.

c. Institutions providing cardiovascular surgery services should include mechanisms for comprehensive medical follow up including adequate medical records exchange.

203.1(8) Acceptability. (Iowa Code section 135.64(1) "c") Facilities with cardiovascular surgery and cardiac catheterization indicate a willingness to observe and respect the rights of patients.

641—203.2(135) Radiation therapy standards.

203.2(1) Purpose and scope.

a. These standards provide guidelines to assist the council in applying those criteria in Iowa Code sections 135.64(1) "a" to "r" and 135.64(3). Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these radiation therapy standards include:

(1) Proposals to commence or expand the kind or capacity of megavoltage radiation therapy services.

(2) Proposals to replace a megavoltage radiation therapy unit.

(3) Any other applications that relate to megavoltage radiation therapy.

203.2(2) Definitions.

"Conjoint radiation oncology center" or "cancer center" means a multi-institution, multidisciplinary network to provide radiation therapy for cancer patients. Integration of patient care management, common utilization of personnel and equipment, and a single system of records between center institutions ensures optimal care regardless of entry portal.

“*Dosimetrist*” means a staff member who calculates, verifies, and develops treatment plans for the radiation dose distributions that will be delivered to patients. The dosimetrist is an essential member of the treatment planning team and works closely with radiation oncologists and radiation physicists.

“*Megavoltage therapy*” means the use of ionizing radiation in excess of one million electron volts. Energies above one million electron volts cause considerably less skin damage, increase depth dose markedly, and result in much less scatter from the therapeutic beam. Megavoltage machines are classified as follows:

1. **Electron accelerator.** A machine such as a linear accelerator that uses a supply of electrons, which are accelerated into high energy beams. These electron beams are either caused to strike a target resulting in high energy X-ray production or are used themselves as the treatment beam. Electron accelerators generate over one million electron volts.

2. **Heavy Particle Accelerator.** A machine such as a cyclotron that produces beams of high energy particles such as protons, neutrons, pions, carbon ions, or other heavy ions with masses greater than that of an electron.

3. **Isotope sources (gamma ray teletherapy units).**

Cobalt 60 units—emit gamma rays of approximately 1.2 million electron volts.

“*Megavoltage therapy unit*” means a piece of megavoltage therapeutic radiologic equipment that provides megavoltage therapy.

“*New occurrence*” means a course of treatment for a new occurrence on a given patient at a given radiation therapy facility. First-time radiation therapy at a new facility is based on each round of treatment.

“*Radiation modality*” means the method of applying ionizing radiation in the treatment of patients with malignant disease using megavoltage external beam equipment.

“*Radiation oncologist*” means a physician authorized user trained in accordance with 641—subrule 41.3(5).

“*Radiation therapy facility*” or “*facility*” means the physical space that houses a megavoltage therapy unit and accompanying support equipment.

“*Radiation therapy physicist*” means an individual who works closely with radiation oncologists and is responsible for the safe and accurate delivery of radiation to patients. A radiation therapy physicist conducts quality control programs for the equipment and procedures, as well as calibrating the equipment. A radiation therapy physicist shall practice in accordance with 641—subrule 41.3(6).

“*Radiation therapy technologist*” means an individual who possesses an Iowa permit to practice as a radiation therapist in accordance with rule 641—42.7(136C).

“*Service area*” means the county in which the facility is located and any other counties from which the applicant expects to draw patients with a cancer diagnosis who are in need of radiation therapy treatment.

“*Simulation*” means the precise mock-up of a patient treatment with an apparatus that uses planar X-rays, magnetic resonance imaging device, or computed tomography scanner, which is used in reproducing the two-dimensional or three-dimensional internal or external geometry to the patient, for use in treatment planning and delivery.

“*Superficial X-ray therapy*” means the use of a conventional X-ray machine, which generates X-rays of up to 150 kilovolts (150 kv), to treat superficial lesions, such as skin cancer.

“*Treatment*” means radiation fields applied in a single patient visit fraction or delivery session.

203.2(3) Availability.

a. Minimum utilization. (Iowa Code section 135.64(1) “c,” “g,” “h”)

- (1) A megavoltage radiation therapy unit and cobalt units should treat at least 250 new occurrences annually within three years after initiation of the service.

- (2) The expected number of new occurrences needing megavoltage radiation therapy annually in a service area should be calculated as follows:

1. Multiply the service area population times 0.00582 (5.82/1,000 population was the mean cancer incidence rate in 2017 in Iowa as filed by the Surveillance, Epidemiology, and End Results (SEER) Program).

2. Multiply this product times .5 (50 percent of all new occurrences receive radiation therapy).
- (3) The expected volume of utilization sufficient to support the need for a new megavoltage therapy unit should be calculated as follows: each unit shall provide a minimum of 5,000 treatments per annum. Megavoltage treatments should be projected by multiplying the number of projected new occurrences needing megavoltage therapy times 20, which will result in no fewer than 5,000 treatments per annum.
- (4) Applicants shall account for other providers of radiation therapy in the service area including, but not limited to, factors such as technological capability and quality. Applicants shall address in their application other providers and the impact on those providers in the service area and compare technological capability and quality.
- (5) Applicants should provide a map of the expected service area.
- (6) Institutions that form a conjoint oncology center should have at least 500 new occurrences annually.

b. Simulator availability. A simulator should be available within a radiation oncology department.

203.2(4) Accessibility. (Iowa Code section 135.64(1) “c,” “d”) Radiation therapy services should be provided regardless of ability to pay, in consideration of those programs available in the state that serve the medically indigent.

203.2(5) Quality. (Iowa Code section 135.64(1) “i,” “k”)

a. Minimum staffing requirements for radiation therapy facilities:

- (1) Each facility will have the services of at least one radiation oncologist.
 - (2) Each facility will have the services of at least one radiation therapy physicist.
 - (3) Each facility will have the services of radiation therapy technologists that should be staffed at a level of two technologists per megavoltage unit.
 - (4) Each facility should have the services of nurses.
 - (5) Each facility should have the services of at least one dosimetrist.
 - (6) Each facility should have the services of one radiation therapist or radiation technologist competent to operate a CT simulator.
- b.* Each conjoint center will have at least two cancer biologists available.
- c.* Each conjoint center will have one radiation technologist available for each simulator.
- d.* The long-range plans for radiation therapy services shall be submitted to the Iowa department of public health.
- e.* Multidisciplinary tumor boards should be established in all institutions housing megavoltage machines.
- f.* A source of continuing education should exist within each conjoint center to reach participating community referral hospitals and physicians.
- g.* Each conjoint center should have a unified training program in radiation therapy for radiation oncologists.
- h.* Each radiation therapy facility should offer psychosocial counseling services and nutritional counseling.

203.2(6) Continuity. (Iowa Code section 135.64(1) “g,” “h,” “i,” “k”) The applicant should demonstrate that an attempt was made to solicit letters of support from area hospitals and physicians to indicate community need.

641—203.3(135) Computerized tomography standards.

203.3(1) Purpose and scope.

a. These standards are measures of some of those criteria in Iowa Code section 135.64(1) “a” to “l.” Criteria that are measured by a standard are cited in parentheses following each standard.

b. Certificate of need applications that are to be evaluated against these computerized tomography standards include:

- (1) Proposals to commence or expand the capacity of computerized tomography services.
- (2) Any other applications that relate to computerized tomography services.

203.3(2) Definitions.

a. Computerized tomographic (CT) scanner—a diagnostic tool that rotates about and that sends X-ray beams through the body or brain. The X-ray beams that emerge from the body or brain are absorbed by a detector. Differences in the amount of X-rays absorbed by the detector indicate differences in tissue density. As the scanner rotates it takes many images of volume or a cross-section. The images on the detector are transmitted to a computer that displays on a monitor a reconstructed cross-sectional slice or volume. Contrast media is often injected to alter absorption of the detector. If the scan is repeated it is called enhancement. Studies of the heart, arteries and veins may be done with contrast only.

(1) Whole body scanner—one capable of imaging the entire body.

(2) Head scanner—one capable of imaging only the brain and structures adjacent to the head.

b. Enhanced scan—a scan performed on a patient who has been administered a contrast medium so that specific organs or areas of the body will be displayed more distinctly on the scan image.

c. Minimum shared-market area for a scanner (hereafter referred to as “area”)—the smallest geographic area within which any scanner installation is judged to affect the utilization rate of any other scanner is the community (as defined by the U.S. Bureau of the Census) or a Standard Metropolitan Statistical Area (where an area is so designated).

d. Emergency medical service (EMS) level II trauma service—the level of various services and staffing that qualify a facility to be designated by the emergency medical service division of the Iowa department of public health, using the facilities categorization criteria of such services that is in effect on the date of the enactment of this standard.

e. Shared service agreements—a multi-institutional arrangement for coordination or consolidation of services or sharing of support services. Among the various types of arrangements are referred services, purchased or joint contract services, multisponsored services and regional services.

f. CT consortia—a cooperative venture in which two or more institutions form a separate entity that is created for the purpose of owning, leasing, planning for, and maintaining the use of the scanner. Each facility in the consortium maintains its autonomy for all other services.

g. Applicant—an applicant may be a facility or a consortium of facilities within an area, or a physician or group of physicians.

h. General imaging procedures—a radiological diagnostic procedure performed on an X-ray machine or similar radiological diagnostic instrument.

i. Active oncology service—full, multidisciplinary cancer care, provided by a medical team that would include: surgery, gynecology, medical oncology, radiation oncology, pathology, diagnostic radiology and nuclear medicine. The surgery specialties that might be available would include: thoracic, abdominal, genitourinary and gynecological. The active oncology staff would include those specialists with training in oncology, hematology, and pathology and who spend at least half of their time at the institution.

j. Radiotherapy service—the therapeutic application of megavoltage radiation, using a linear accelerator or cobalt unit. The availability of such service at a hospital would necessitate personnel trained in the therapeutic application of radiology.

k. Chemotherapy service—the treatment of cancer by chemical agents.

203.3(3) Determination of need.

a. Applicants who do not now have a scanner, or who have a scanner and seek a certificate for one or more additional scanners.

(1) Applicants in areas with no other scanners.

1. Applicants must have performed at least 30,000 general imaging procedures during the past calendar year or 12 months, or

2. Demonstrate that during the past calendar year or 12 months, the applicant performed diagnostic procedures equivalent to 1,500 HECTs, using the following: 100% of the number of patients referred to other facilities for CT diagnosis \times 1.75 (in the case of head scans) and 2.75 (in the case of body scans).

(2) Applicants in areas with one or more scanners.

1. An applicant must meet the requirement of need, described in Iowa Code section 203.4(3) “a”(1).

2. The average level of utilization for scanners within the area was at least 3,000 HECTs (plus or minus 10 percent) for the past calendar year or 12 months. The average level of utilization will be determined by adding the number of HECTs performed during the period at all area facilities divided by the number of facilities.

3. The University of Iowa Hospitals and Clinics is specifically exempted from consideration under paragraph “2” directly above, because it has a service area that encompasses the entire state and adjoining states. The utilization statistics for the University Hospital will therefore neither affect nor be affected by Mercy Hospital, Iowa City. Additionally, the utilization statistics for scanners at the University of Nebraska Hospitals and Clinics and St. Joseph’s Hospital (both in Omaha) will not affect the need for scanners at hospitals in Council Bluffs.

b. Replacement scanners—applicants who currently have a scanner.

(1) All applicants seeking to replace a scanner with another scanner, head or body.

1. The applicant must demonstrate that the applicant’s use of the applicant’s current scanner was at least at the operating capacity level during the last calendar year or 12 months, or

2. Below the operating capacity level, but above 1,500 CT scan level, and the applicant must demonstrate reasons for permanently utilizing their scanner below operating capacity level and demonstrate that discontinuation of their scanner service would impair the applicant’s ability to respond to the emergency needs of the area. Reasons for utilizing the scanner below the capacity should include a unique patient or procedure mix that would define the capacity level differently for this applicant.

(2) Reserved.

203.3(4) Costs—whole body and head scanners.

a. *Financial feasibility.* (Iowa Code section 135.64(1) “f,” “i,” “p”) CT scanners should be depreciated over a period of not less than seven years. Remodeling shall be depreciated as appropriate by generally accepted accounting principles.

b. Cost-effectiveness.

(1) Applicants should demonstrate for themselves and the health care system that the most cost-effective method of providing CT services has been chosen.

(2) Proposed new and replacement CT scanner’s cost per CT scan should, when compared to their peers, demonstrate cost-effectiveness.

203.3(5) Accessibility. (Iowa Code section 135.64(1) “c,” “d”)

a. All scanners must be available to meet the needs of the communities the scanners are meant to serve.
